

## SELF-INSTRUCTIONAL LANGUAGES (Div I)

### KOREAN

Administrative Director: Shaina Adams-El Guabli

The Self-Instructional Languages Program (SILP) enables students to study important foreign languages relevant to their academic interests but not taught in regular courses at Williams. The program can field a limited number of courses per year; a Self-Instructional Languages course will be scheduled only if and when at least two students are accepted for study and a tutor/examiner have been contracted. In the past, we have offered one-year long Elementary Hebrew, Hindi, Korean, Persian, Portuguese, and Swahili courses. In 2022-23, American Sign Language has been added to the offerings. Students work independently with standard language textbooks and audio materials for roughly ten hours per week and attend twice-weekly group review sessions with tutors who are native speakers. Language faculty from other institutions provide the course syllabus, conduct the exams, and determine the final grades. An organizational meeting for enrolled students is held the first week of each semester.

**Interested students must complete an [application](#) and have it approved before registering for a course.** More information can be found on the [Self-Instructional Languages site](#).

Note that like other elementary language courses, the Self-Instructional Languages courses are hyphenated, meaning no credit is given for the first semester if the second semester is not completed. Students must normally begin a course in the fall semester. It cannot be taken Pass/Fail.

A consecutive year of intermediate language study will be considered only upon petition of those students completing a full year of elementary study with the Self-Instructional Languages Program and as long as a minimum of two students are enrolled to continue their language study.

All courses adhere to the guidelines of the National Association of Self-Instructional Language Programs (NASILP).
