The goal of the class is to help students learn to ask the right questions, and to gather and analyze the data needed to answer them, to understand the covid pandemic and the worldwide responses. Through local experts and numerous guest speakers playing key roles in these problems, we will discuss numerous aspects, from mathematical models for virus propagation to analyzing the economic, educational, social and emotional consequences of lockdowns and social distancing; from moral and legal dilemmas created by the pandemic and responses to the international political scene and relations between countries. Offered as Math 119 or Math 312 (those taking as Math 312 will have some of the readings replaced with more technical modeling papers and subsequent homework). Pre-requisites: None for Math 119; for Math 312 linear algebra is recommended.

**Requirements/Evaluation**: Homework, writing, class participation.

**Prerequisites**: none

**Enrollment Limit**: 30

**Enrollment Preferences**: all students will have an equal chance; if possible none will be turned away.

**Expected Class Size**: 30

**Grading**: yes pass/fail option, yes fifth course option

**Distributions**: (D3)  (QFR)

**Quantitative/Formal Reasoning Notes**: We will discuss mathematical models and use statistics to analyze data.

**Fall 2020**
LEC Section: H1    MWF 10:40 am - 11:30 am    Steven J. Miller

**MATH 130 (F)(S) Calculus I**  (QFR)
Calculus permits the computation of velocities and other instantaneous rates of change by a limiting process called differentiation. The same process also solves "max-min" problems: how to maximize profit or minimize pollution. A second limiting process, called integration, permits the computation of areas and accumulations of income or medicines. The Fundamental Theorem of Calculus provides a useful and surprising link between the two processes. Subtopics include trigonometry, exponential growth, and logarithms.

**Requirements/Evaluation**: Weekly homework and quizzes, 2 exams during the semester, and one final

**Prerequisites**: MATH 102 (or demonstrated proficiency on a diagnostic test); this is an introductory course for students who have not seen calculus before

**Enrollment Limit**: 30

**Enrollment Preferences**: first-year students

**Expected Class Size**: 20

**Grading**: yes pass/fail option, yes fifth course option

**Unit Notes**: students who have previously taken a calculus course may not enroll in MATH 130 without the permission of instructor

**Distributions**: (D3)  (QFR)

**Quantitative/Formal Reasoning Notes**: This a calculus course.

**Fall 2020**
LEC Section: H1    TF 1:30 pm - 2:45 pm    Lori A. Pedersen
LEC Section: H2    TF 3:15 pm - 4:30 pm    Lori A. Pedersen

**Spring 2021**
LEC Section: H1    MWF 9:20 am - 10:10 am    Lori A. Pedersen
MATH 140  (F)(S)  Calculus II  (QFR)

Mastery of calculus requires understanding how integration computes areas and business profit and acquiring a stock of techniques. Further methods solve equations involving derivatives ("differential equations") for population growth or pollution levels. Exponential and logarithmic functions and trigonometric and inverse functions play an important role. This course is the right starting point for students who have seen derivatives, but not necessarily integrals.

Requirements/Evaluation: homework, quizzes, and/or exams

Prerequisites: MATH 130 or equivalent; students who have received the equivalent of advanced placement of AB 4, BC 3 or higher may not enroll in MATH 140 without the permission of instructor

Enrollment Limit: 30

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students who have higher advanced placement must enroll in MATH 150 or above

Distributions: (D3) (QFR)

Fall 2020

LEC Section: R2    TF 3:15 pm - 4:30 pm     Josh Carlson

Spring 2021

LEC Section: R1    TR 9:45 am - 11:00 am     Josh Carlson

MATH 150  (F)(S)  Multivariable Calculus  (QFR)

Applications of calculus in mathematics, science, economics, psychology, the social sciences, involve several variables. This course extends calculus to several variables: vectors, partial derivatives, multiple integrals. There is also a unit on infinite series, sometimes with applications to differential equations. Note: This course will be taught via flipped-course method, an instructional strategy reversing the traditional learning environment by delivering instructional content outside of the classroom. This includes prerecorded lectures along with questions that students must watch and answer prior to attending class. Class time include synchronous meetings clarifying concepts and working in small groups through challenging problems with the support of the professor and peers. Building positive collaborative working relationships and public speaking skills will be added benefits of this course.

Requirements/Evaluation: Video readiness assessments, problem sets, exams, and participation.

Prerequisites: MATH 140 or equivalent, such as satisfactory performance on an Advanced Placement Examination

Enrollment Limit: 30

Enrollment Preferences: Professor's discretion

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with the equivalent of advanced placement of AB 4 or above should enroll in MATH 150, students with a BC 3 or higher should enroll in Math 151 when it is being offered, and Math 150 otherwise.

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: mathematics

Fall 2020

SEM Section: R1    TR 8:00 am - 9:15 am     Pamela E. Harris
SEM Section: R2    TR 9:45 am - 11:00 am     Pamela E. Harris
SEM Section: R3    TR 11:30 am - 12:45 pm     Pamela E. Harris

Spring 2021
MATH 151  (F)  Multivariable Calculus  (QFR)
Applications of calculus in mathematics, science, economics, psychology, the social sciences, involve several variables. This course extends calculus to several variables: vectors, partial derivatives and multiple integrals. The goal of the course is Stokes Theorem, a deep and profound generalization of the Fundamental Theorem of Calculus. The difference between this course and MATH 150 is that MATH 150 covers infinite series instead of Stokes Theorem. Students with the equivalent of BC 3 or higher should enroll in MATH 151, as well as students who have taken the equivalent of an integral calculus and who have already been exposed to infinite series. For further clarification as to whether MATH 150 or MATH 151 is appropriate, please consult a member of the math/stat department.

Class Format: Hybrid; short lectures will be asynchronous, with longer synchronous in-person problem sessions (these will be available remotely, and uploaded later for asynchronous viewing)

Requirements/Evaluation:  homework, quizzes, and exams
Prerequisites:  AP BC 3 or higher or integral calculus with infinite series
Enrollment Limit:  30
Enrollment Preferences:  First-years, sophomores, and juniors
Expected Class Size:  30
Grading:  yes pass/fail option,  yes fifth course option
Unit Notes:  MATH 151 satisfies any MATH 150 prerequisite; credit will not be given for both MATH 150 and MATH 151
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  This course builds quantitative skills

Fall 2020
LEC Section: H1  MWF 9:20 am - 10:10 am  Ralph E. Morrison
LEC Section: H2  MWF 10:40 am - 11:30 am  Ralph E. Morrison
LEC Section: H3  MWF 12:00 pm - 12:50 pm  Ralph E. Morrison

MATH 200  (F)(S)  Discrete Mathematics  (QFR)
The fundamental goal of this course is for students to acquire the ability to create and clearly express mathematical arguments through an exploration of topics from discrete mathematics. Students will learn various mathematical proof techniques while discovering such areas as logic, number theory, infinity, graph theory, and probability. A large component of the class is focused on problem solving and proof writing skills. The format of the course during the Spring 2021 semester will be a combination of lecture and discovery based learning. Students will attend remote synchronous lectures once a week. They will also have weekly small group meetings (30 minutes) with a TA and other classmates, and work through some course material independently.

Class Format: The format of the course during the Spring 2021 semester will be a combination of lecture and discovery based learning with weekly small group meetings.

Requirements/Evaluation:  Evaluation will be based primarily on homework, exams, and group meeting assignments.
Prerequisites:  Calculus at the level of an AP course or Williams College Math 130 or 140. Students who have taken a 300-level or 400-level math course should obtain permission of the instructor before enrolling.
Enrollment Limit:  30
Enrollment Preferences:  As determined by instructor.
Expected Class Size:  30
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  This course involves developing the formal mathematical language of logic and set theory. It also involves using quantitative tools to solve problems relating to combinatorics, probability, and other fields of discrete mathematics.

LEC Section: R2 MW 11:45 am - 1:00 pm Allison Pacelli

**MATH 210 (S) Mathematical Methods for Scientists (QFR)**

**Cross-listings:** PHYS 210 MATH 210

**Secondary Cross-listing**

This course covers a variety of mathematical methods used in the sciences, focusing particularly on the solution of ordinary and partial differential equations. In addition to calling attention to certain special equations that arise frequently in the study of waves and diffusion, we develop general techniques such as looking for series solutions and, in the case of nonlinear equations, using phase portraits and linearizing around fixed points. We study some simple numerical techniques for solving differential equations. A series of optional sessions in Mathematica will be offered for students who are not already familiar with this computational tool.

**Class Format:** three hours per week; hybrid course format

**Requirements/Evaluation:** several exams and on weekly problem sets, all of which have a substantial quantitative component

**Prerequisites:** MATH 150 or 151 and familiarity with Newtonian mechanics at the level of PHYS 131

**Enrollment Limit:** 50

**Enrollment Preferences:** sophomores and juniors

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**

PHYS 210 (D3) MATH 210 (D3)

**Quantative/Formal Reasoning Notes:** This course will have weekly problem sets using advanced calculus methods and some computer programming at the end of the course.

---

Spring 2021
LEC Section: H1 TR 11:30 am - 12:45 pm Frederick W. Strauch

**MATH 250 (F)(S) Linear Algebra (QFR)**

Many social, political, economic, biological, and physical phenomena can be described, at least approximately, by linear relations. In the study of systems of linear equations one may ask: When does a solution exist? When is it unique? How does one find it? How can one interpret it geometrically? This course develops the theoretical structure underlying answers to these and other questions and includes the study of matrices, vector spaces, linear independence and bases, linear transformations, determinants and inner products. Course work is balanced between theoretical and computational, with attention to improving mathematical style and sophistication.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely.

**Requirements/Evaluation:** homework, exams, and possibly short remote meetings outside of class.

**Prerequisites:** MATH 150/151 or MATH 200

**Enrollment Limit:** 30

**Enrollment Preferences:** Students who have officially declared a major that requires Math 250.

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** In this course, students will engage in both quantitative and formal reasoning.
MATH 307  (S) Computational Linear Algebra  (QFR)
Linear algebra is of central importance in the quantitative sciences, including application areas such as image and signal processing, data mining, computational finance, structural biology, and much more. When the problems must be solved computationally, approximation, round-off errors, convergence, and efficiency matter, and traditional linear algebra techniques may fail to succeed. We will adopt linear algebra techniques on a large scale, implement them computationally, and apply them to core problems in scientific computing. Topics may include: systems of linear and nonlinear equations; approximation and statistical function estimation; optimization; interpolation; data scraping; singular value decomposition; and more. This course could also be considered a course in numerical analysis or computational science.

Class Format: To afford students flexibility during the COVID pandemic, this course is taught online. Students will read and/or watch lecture material asynchronously and will participate in a once-per-week synchronous small-group tutorial meeting with the instructor via video chat. This course will be a good fit for students with a strong interest in applied mathematics and a willingness to devote significant effort to learning/doing computer programming.

Requirements/Evaluation: Students will complete checkpoint quizzes, regularly assigned homework problems and projects, and reflective writing assignments. To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor follows the policy of "ungrading." Over the course of the semester, students will develop a rubric to assess their own learning and will evaluate themselves according to this rubric.

Prerequisites: MATH 250; some prior exposure to computer programming experience is strongly recommended but not required.

Enrollment Limit: 20
Enrollment Preferences: Professor's discretion
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3)  (QFR)
Quantative/Formal Reasoning Notes: This course involves developing the formal mathematical language of linear algebra. It also involves using quantitative tools to solve problems relating to a wide range of applications in the physical and social sciences.

Spring 2021
LEC Section: R1   TR 9:45 am - 11:00 am   Chad M. Topaz

MATH 309  (F) Differential Equations  (QFR)
Ordinary differential equations (ODE) frequently arise as models of phenomena in the natural and social sciences. This course presents core ideas of ODE from an applied standpoint. Topics covered early in the course may include numerical solutions, separation of variables, integrating factors, constant coefficient linear equations, and power series solutions. Later, we will focus on nonlinear ODEs, for which it is usually impossible to find analytical solutions. Tools from dynamical systems will be introduced to allow us to obtain some information about the behavior of the ODE without explicitly knowing the solution.

Class Format: Unless circumstances change, students will have the option of taking the course in person or remotely
Requirements/Evaluation: quizzes/exams, problem sets, participation, and possible activities
Prerequisites: MATH 150/151 and MATH 250
Enrollment Limit: 20
Enrollment Preferences: discretion of the instructor
Expected Class Size: 20
This course will provide an introduction to the many ways in which mathematics can be used to understand, analyze, and predict biological dynamics. We will learn how to construct mathematical models that capture essential properties of biological processes while maintaining analytic tractability. Analytic techniques, such as stability and bifurcation analysis, will be introduced in the context of both continuous and discrete time models. Additionally, students will couple these analytic tools with numerical simulation to gain a more global picture of the biological dynamics. Possible biological applications include, but are not limited to, single and multi-species population dynamics, neural and biological oscillators, tumor cell growth, and infectious disease dynamics.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely

**Requirements/Evaluation:** problem sets, quizzes/exams, participation, final project and paper

**Prerequisites:** MATH 250 and MATH 309, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** if over-enrolled, will have students submit reasons for taking class; preference to those with interest in both subjects

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**
BIOL 210 (D3) MATH 310 (D3)

**Quantative/Formal Reasoning Notes:** The course will introduce methods for developing and analyzing mathematical models.
MATH 313 (S) Introduction to Number Theory (QFR)
The study of numbers dates back thousands of years, and is fundamental in mathematics. In this course, we will investigate both classical and modern questions about numbers. In particular, we will explore the integers, and examine issues involving primes, divisibility, and congruences. We will also look at the ideas of numbers and primes in more general settings, and consider fascinating questions that are simple to understand, but can be quite difficult to answer. This course will be held virtually using an active learning method, an instructional strategy reversing the traditional learning environment by supplying instructional content outside of class time. This will include reading the textbook and completing problem sets prior to attending class. Class time will be spent clarifying concepts and working in small groups through challenging problems with the support of the professor, teaching assistants, and your peers. Building positive collaborative working relationships and public speaking skills will be added benefits of this class.

Class Format: This course will employ an active learning method rather than the traditional lecture. Please see the course description for details.

Requirements/Evaluation: The course will be graded on a mastery-based system. The final course grade will be a combination of quarterly participation in self-reflections, daily reading assignments, and weekly problem sets.

Prerequisites: MATH 250 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: All are welcome regardless of major or year. In case of over-enrollment, preference will be given to those needing the course for graduation.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.

Spring 2021
LEC Section: R1 TF 1:30 pm - 2:45 pm Eva Goedhart

MATH 315 (S) Methods for Solving Diophantine Equations (QFR)
A Diophantine equation is an equation with integer (or rational) coefficients that is to be solved in integers (or rational numbers). A focus of study for hundreds of years, Diophantine analysis remains a vibrant area of research. It has yielded a multitude of beautiful results and has wide ranging applications in other areas of mathematics, in cryptography, and in the natural sciences. In this project-based tutorial, we will focus on studying and implementing various methods for solving previously unsolved infinite families of Diophantine equations. Depending on their interests, students may choose one or several methods to apply to open problems in the field. Please note that this tutorial will be held virtually.

Requirements/Evaluation: The grade for this course will be a combination of weekly problem sets, weekly oral presentations (approx. 15 min. each), quarterly self-reflections, and a final written project manuscript that will be continually edited throughout the semester (minimum of 5 pages).

Prerequisites: MATH 250 or permission of the instructor

Enrollment Limit: 10

Enrollment Preferences: Sophomores, Juniors, and Seniors based on a short questionnaire of interests. In the event of over-enrollment, preference will be given to those that need the course to graduate.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.
**MATH 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab** (QFR)

**Cross-listings:** MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

**Secondary Cross-listing**

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high-throughput approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

**Class Format:** two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

**Requirements/Evaluation:** lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

**Prerequisites:** BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

**Enrollment Limit:** 12

**Enrollment Preferences:** seniors, then juniors, then sophomores

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

**Quantitative/Formal Reasoning Notes:** Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

**MATH 334 (S) Graph Theory** (QFR)

A graph is a collection of vertices, joined together by edges. In this course, we will study the sorts of structures that can be encoded in graphs, along with the properties of those graphs. We'll learn about such classes of graphs as multi-partite, planar, and perfect graphs, and will see applications to such optimization problems as minimum colorings of graphs, maximum matchings in graphs, and network flows.

**Requirements/Evaluation:** problem sets and exams

**Prerequisites:** MATH 200 or MATH 250

**Enrollment Limit:** 20

**Enrollment Preferences:** Math majors
**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course involves the writing of mathematical proofs.

Spring 2021

LEC Section: R1  TR 11:30 am - 12:45 pm  Josh Carlson

**MATH 341 (F)(S) Probability** (QFR)

**Cross-listings:** STAT 341  MATH 341

**Primary Cross-listing**

The historical roots of probability lie in the study of games of chance. Modern probability, however, is a mathematical discipline that has wide applications in a myriad of other mathematical and physical sciences. Drawing on classical gaming examples for motivation, this course will present axiomatic and mathematical aspects of probability. Included will be discussions of random variables (both discrete and continuous), distribution and expectation, independence, laws of large numbers, and the well-known Central Limit Theorem. Many interesting and important applications will also be presented, including some from classical Poisson processes, random walks and Markov Chains.

**Requirements/Evaluation:** homework, classwork, and exams

**Prerequisites:** MATH 250 or permission of the instructor

**Enrollment Limit:** 30

**Enrollment Preferences:** Priority will be given to Mathematics majors and to Statistics Majors.

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

STAT 341 (D3) MATH 341 (D3)

Spring 2021

LEC Section: H1  TF 3:15 pm - 4:30 pm  Mihai Stoiciu

**MATH 350 (F)(S) Real Analysis** (QFR)

Why is the product of two negative numbers positive? Why do we depict the real numbers as a line? Why is this line continuous, and what does that actually mean? More fundamentally, what is the definition of a real number? Real analysis addresses such questions, delving into the structure of real numbers and functions on them. Along the way we'll discuss sequences and limits, series, completeness, compactness, derivatives and integrals, and metric spaces. This course is excellent preparation for graduate studies in mathematics, statistics, and economics. Math 350 and Math 351 will cover the same material for the first part of the course. Math 350 will then delve deeper into the abstract structures of topological and metric spaces, while Math 351 will closely examine some foundational constructs from differential equations, probability, and optimization.

**Class Format:** Hybrid format. There may be class meetings; remote students will be fully accommodated.

**Requirements/Evaluation:** homework, classwork, and exams

**Prerequisites:** MATH 250 or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** Seniors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option
MATH 351 (S) Applied Real Analysis (QFR)

Why is the product of two negative numbers positive? Why do we depict the real numbers as a line? Why is this line continuous, and what does that actually mean? More fundamentally, what is the definition of a real number? Real analysis addresses such questions, delving into the structure of real numbers and functions on them. Along the way we'll discuss sequences and limits, series, completeness, compactness, derivatives and integrals, and metric spaces. This course is excellent preparation for graduate studies in mathematics, statistics, and economics. Math 350 and Math 351 will cover the same material for the first part of the course. MATH 355 (F)(S) Abstract Algebra (QFR)

Algebra gives us tools to solve equations. The integers, the rationals, and the real numbers have special properties which make algebra work according to the circumstances. In this course, we generalize algebraic processes and the sets upon which they operate in order to better understand, theoretically, when equations can and cannot be solved. We define and study abstract algebraic structures such as groups, rings, and fields, as well as the concepts of factor group, quotient ring, homomorphism, isomorphism, and various types of field extensions. This course introduces students to abstract rigorous mathematics.

Class Format: Format: lecture; Unless circumstances change, students will have the option of taking the course in person or remotely. It is possible that there will be several weeks that are only offered remotely. If taken pass/fail, this course does not count towards the Mathematics major.

Requirements/Evaluation: Problem sets and exams

Prerequisites: MATH 250 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: Students who have officially declared a major that requires Math 355.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: If taken pass/fail, this course does not count towards the Mathematics major.

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: 300-level math course
MATH 361  (F)(S)  Theory of Computation  (QFR)

Cross-listings:  MATH 361  CSCI 361

Secondary Cross-listing

This course introduces a formal framework for investigating both the computability and complexity of problems. We study several models of computation including finite automata, regular languages, context-free grammars, and Turing machines. These models provide a mathematical basis for the study of computability theory--the examination of what problems can be solved and what problems cannot be solved--and the study of complexity theory--the examination of how efficiently problems can be solved. Topics include the halting problem and the P versus NP problem.

Class Format: Lecture content will be delivered through asynchronously viewed video modules. Conference sections meeting twice per week will be used for synchronous discussions. Students should sign up for lecture and one conference section.

Requirements/Evaluation: online multiple choice and short answer questions, weekly problem sets in groups, a research project, and a final examination

Prerequisites:  CSCI 256 or both a 300-level MATH course and permission of instructor

Enrollment Limit:  40(10/con)

Enrollment Preferences:  current or expected Computer Science majors

Expected Class Size:  40

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 361 (D3)  CSCI 361 (D3)

Quantative/Formal Reasoning Notes:  This course include regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

MATH 374  (S)  Topology  (QFR)

In Real Analysis you learned about metric spaces -- any set of objects endowed with a way of measuring distance -- and the topology of sets in such spaces (open, closed, bounded, etc). In this course we flip this on its head: we explore how to develop analysis (limits, continuity, etc) in spaces where the topology is known but the metric is not. This will lead us to a bizarre and fascinating version of geometry in which we cannot distinguish between shapes that can be continuously deformed into one another. Not only does this theory turn out to be beautiful in the abstract, it has become a vital part of data analysis and is also connected to many areas of math and physics. This course is excellent preparation for graduate programs in mathematics.
Class Format: Taught remotely, but synchronously. While recordings of lectures will be made available, all participants are expected to make their best effort to attend the class over Zoom. In addition to class meetings, there will be tutorial sessions with a TA once per week.

Requirements/Evaluation: homework, tutorials, and exams

Prerequisites: MATH 350 or 351; not open to students who have taken MATH 323. Familiarity with basic group theory recommended, but not required.

Enrollment Limit: 20

Enrollment Preferences: Juniors and seniors

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: It’s math.

Spring 2021

LEC Section: R1    MR 3:15 pm - 4:30 pm     Leo Goldmakher

MATH 391  (F)  Introduction to computer algebra   (QFR)

Students will learn new mathematics in the context of computer-based exposition, experimentation, and interaction. They will gain proficiency with Sage, GAP, Macaulay2, or Mathematica, and possibly one of the more-specialized systems SnapPea, kenzo, magma, MATLAB, Perseus, coq, etc. Individuals and teams will build interactive demonstrations of mathematical theorems, which will then be appreciated by the instructor and the rest of the class. No prior programming experience is expected.

Class Format: Class will be held online, but there will be recorded components, asynchronous interactive components, and outside-of-class small-group online meetings.

Requirements/Evaluation: exams, homework, projects

Prerequisites: Math 355 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: math majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Mathematical programming requires complete synthesis of abstract concepts to produce computer code, which is necessarily formal.

Fall 2020

LEC Section: R1    TR 6:45 pm - 8:00 pm     John D. Wiltshire-Gordon

MATH 392  (S) Undergraduate Research Topics in Graph Theory  (WS) (QFR)

Graph theory is a vibrant area of research with many applications to the social sciences, psychology, and economics. In this project-based tutorial, students will select among the presented topics and will develop research questions and undertake original research in the field. Student assessment is based on drafts of research project manuscript and presentations.

Requirements/Evaluation: presentations and written project manuscript

Prerequisites: MATH 355 or permission of the instructor

Enrollment Limit: 10

Enrollment Preferences: programming experience, students with interests in the intersection of combinatorics and graph theory

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS) (QFR)
**Writing Skills Notes:** This course will require multiple revisions of a manuscript related to the research project at hand. The final result will be a 10-20 page research article and the course will be designed as a writing intensive course.

**Quantitative/Formal Reasoning Notes:** The course deals with mathematical research in graph theory and is a quantitative and formal reasoning course.

Spring 2021

TUT Section: RT1   TBA   Pamela E. Harris

**MATH 402 (F) Measure Theory and Hilbert Spaces (QFR)**

How large is the unit square? One might measure the number of individual points in the square (uncountably infinite), the area of the square (1), or the dimension of the square (2). But what about for more complicated sets, e.g., the set of all rational points in the unit square? What's the area of this set? What's the dimension? In this course we'll come up with precise ways to measure size -- length, area, volume, dimension -- that apply to a broad array of sets. Along the way we'll encounter Lebesgue measure and Lebesgue integration, Hausdorff measure and fractals, space-filling curves and the Banach-Tarski paradox. We will also investigate Hilbert spaces, mathematical objects that combine the tidiness of linear algebra with the power of analysis and are fundamental to the study of differential equations, functional analysis, harmonic analysis, and ergodic theory, and also apply to fields like quantum mechanics and machine learning. This material provides good preparation for graduate studies in mathematics, statistics and economics.

**Class Format:** Discussion-based course held remotely.

**Requirements/Evaluation:** performance on homework assignments and exams

**Prerequisites:** MATH 350 or MATH 351 or permission of instructor

**Enrollment Limit:** 30

**Enrollment Preferences:** Seniors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Math

Fall 2020

LEC Section: R1   TF 3:15 pm - 4:30 pm   Leo Goldmakher

**MATH 408 (F) L-Functions and Sphere Packing (QFR)**

Optimal packing problems arise in many important problems, and have been a source of excellent mathematics for centuries. The Kepler Problem (what is the most efficient way to pack balls in three-space) is a good example. The original formulation has been used in such diverse areas as stacking cannonballs on battleships to grocers preparing fruit displays, and its generalizations allow the creation of powerful error detection and correction codes. While the solution of the Kepler Problem is now known, the higher dimensional version is very much open. There has been remarkable progress in the last few years, with number theory playing a key role in these results. We will develop sufficient background material to understand many of these problems and the current state of the field. Pre-requisites are real analysis.

**Requirements/Evaluation:** Class participation, homework, exams and participation in writing a textbook on the material. Each student will be responsible for working on a chapter of a book based on this material. In addition to obtaining critical writing feedback from myself and my co-author (who is a world expert in the subject), depending on timing we will also be able to share comments from an editor of a major publishing house or a referee. Chapters can range from short snapshots of a subject, on the order of 5 pages, to longer technical derivations of perhaps 10-30 pages.

**Prerequisites:** Math 350 or 351

**Enrollment Limit:** 40

**Enrollment Preferences:** Senior math majors, students planning on graduate study in a STEM field

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: This is a 400 level math class

Fall 2020
LEC Section: H1  MWF 12:00 pm - 12:50 pm  Steven J. Miller

MATH 420  (S)  Analytic Number Theory  (QFR)
How many primes are smaller than x? How many divisors does an integer n have? How many different numbers appear in the N x N multiplication table? Precise formulas for these quantities probably don't exist, but over the past 150 years tremendous progress has been made towards understanding these and similar questions using tools and methods from analysis. The goal of this tutorial is to explain and motivate the ubiquitous appearance of analysis in modern number theory—a surprising fact, given that analysis is concerned with continuous functions, while number theory is concerned with discrete objects (integers, primes, divisors, etc). Topics to be covered will include some subset of the following: asymptotic analysis, partial and Euler-Maclaurin summation, counting divisors and Dirichlet's hyperbola method, the randomness of prime factorization and the Erdos-Kac theorem, the partition function and the saddle point method, the prime number theorem and the Riemann zeta function, primes in arithmetic progressions and Dirichlet L-functions, the Goldbach conjecture and the circle method, and sieve methods and gaps between primes.

Requirements/Evaluation:  Regularly preparing lectures and writing expository essays in LaTeX. No exams.
Prerequisites:  MATH 350 or MATH 351 and familiarity with basic modular arithmetic are hard prerequisites. Familiarity with complex analysis and abstract algebra recommended, but not required.
Enrollment Limit:  10
Enrollment Preferences:  Students with complex analysis background will be given priority.
Expected Class Size:  10
Grading:  no pass/fail option,  no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: It's math.

Spring 2021
TUT Section: RT1  TBA  Leo Goldmakher

MATH 433  (S)  Mathematical Modeling  (QFR)
Mathematical modeling means (1) translating a real-life problem into a mathematical object, (2) studying that object using mathematical techniques, and (3) interpreting the results in order to learn something about the real-life problem. Mathematical modeling is used in biology, economics, chemistry, geology, sociology, political science, art, and countless other fields. This is an advanced, seminar-style, course appropriate for students who have strong enthusiasm for applied mathematics, data science, and collaborative teamwork.

Class Format:  To afford students flexibility during the COVID pandemic, this course is taught online, largely asynchronously. There is no lecture component. Students will read research literature, work on structured and open-ended projects, and participate in synchronous small-group meetings with the instructor via videoconference. The vast majority of work in this course requires students to collaborate with each other.

Requirements/Evaluation:  Students will complete reading assignments, writing assignments, modeling activities, research projects, and will record several presentations to be shared with the rest of the class. To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor follows the policy of "ungrading." Over the course of the semester, students will develop a rubric to assess their own learning and will evaluate themselves according to this rubric.
Prerequisites:  MATH 250; MATH 309 or similar; and some experience with computer programming (equivalent to CSCI 134 or MATH 307).
Enrollment Limit:  20
Enrollment Preferences:  Professor's discretion
Expected Class Size:  20
Grading:  yes pass/fail option,  yes fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: This course focuses substantially on using mathematical and statistical tools and frameworks to describe,
predict, and understand real-world systems.

Spring 2021
SEM Section: R1    TR 11:30 am - 12:45 pm     Chad M. Topaz

**MATH 434 (F) Applied Dynamics and Optimal Control** (QFR)

We seek to understand how dynamical systems evolve, how that evolution depends on the various parameters of the system, and how we might manipulate those parameters to optimize an outcome. We will explore the language of dynamics by deepening our understanding of differential and difference equations, study parameter dependence and bifurcations, and explore optimal control through Pontryagin's maximum principle and Hamilton-Jacobi-Bellman equations. These tools have broad application in ecology, economics, finance, and engineering, and we will draw on basic models from these fields to motivate our study.

**Requirements/Evaluation:** exams and homework assignments

**Prerequisites:** MATH 209 or PHYS 210, and MATH 350 or 351, or permission of the instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference will be given to senior math majors.

**Expected Class Size:** 20

**Grading:** yes pass/fail option,     yes fifth course option

**Distributions:** (D3)  (QFR)

**Quantative/Formal Reasoning Notes:** This is a 400 level math course.

Fall 2020
LEC Section: H1    MWF 10:40 am - 11:30 am     Stewart D. Johnson

**MATH 456 (F) Representation Theory** (QFR)

Representation theory has applications in fields such as physics (via models for elementary particles), engineering (considering symmetries of structures), and even in voting theory (voting for committees in agreeable societies). This course will introduce the concepts and techniques of the representation theory of finite groups, and will focus on the representation theory of the symmetric group. We will undertake this study through a variety of perspectives, including general representation theory, combinatorial algorithms, and symmetric functions.

**Requirements/Evaluation:** evaluation will be based primarily on homework, in class presentations, and exams

**Prerequisites:** MATH 355

**Enrollment Limit:** 40

**Enrollment Preferences:** junior and senior Math majors

**Expected Class Size:** 15

**Grading:** no pass/fail option,     yes fifth course option

**Distributions:** (D3)  (QFR)

**Quantative/Formal Reasoning Notes:** This is a 400-level Math course.

---

Fall 2020
LEC Section: R1    TF 1:30 pm - 2:45 pm     John D. Wiltshire-Gordon

**MATH 474 (S) Tropical Geometry** (QFR)

This course offers an introduction to tropical geometry, a young subject that has already established deep connections between itself and pure and applied mathematics. We will study a rich variety of objects arising from polynomials over the min-plus semiring, where addition is defined as taking a minimum, and multiplication is defined as usual addition. We will learn how these polyhedral objects connect to other areas of mathematics like algebraic geometry, and how they can be applied to solve problems in scheduling theory, phylogenetics, and other diverse fields.

**Class Format:** Hybrid; if possible we will have classes in person, with remote students attending via Zoom.
Requirements/Evaluation: participation, problem sets, quizzes, exams, and a final project
Prerequisites: MATH 355 or permission of instructor
Enrollment Limit: 25
Enrollment Preferences: Senior math majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course builds quantitative skills

Spring 2021
LEC Section: H1    TR 9:45 am - 11:00 am    Ralph E. Morrison

PHYS 131  (F) Introduction to Mechanics  (QFR)
We focus first on the Newtonian mechanics of point particles: the relationship between velocity, acceleration, and position; the puzzle of circular motion; forces, Newton's laws, and gravitation; energy and momentum; and the physics of vibrations. Then we turn to the basic properties of waves, such as interference and refraction, as exemplified by sound and light waves. We also study the optics of lenses, mirrors and the human eye. This course is not intended for students who have successfully completed an AP physics course in high school.

Class Format: hybrid
Requirements/Evaluation: exams, labs, and weekly problem sets, all of which have a substantial quantitative component
Prerequisites: MATH 130; students who scored 4 or 5 on an AP physics exam, or 6 or 7 on the IB Physics HL exam may not take this course and are encouraged to take PHYS 141 instead
Enrollment Limit: 30
Enrollment Preferences: seniority
Expected Class Size: 60
Grading: yes pass/fail option, yes fifth course option
Unit Notes: PHYS 131 can lead to either PHYS 132 (for students wanting a one-year survey of physics) or PHYS 142 (for students considering a Physics or Astrophysics major)
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This class will have weekly problem sets requiring substantial quantitative reasoning

Fall 2020
LEC Section: H1    MWF 8:00 am - 8:50 am    Graham K. Giovanetti
LAB Section: H2    M 1:00 pm - 3:00 pm    Graham K. Giovanetti
LAB Section: H3    W 1:00 pm - 3:00 pm    Graham K. Giovanetti

PHYS 132  (S) Electromagnetism and the Physics of Matter  (QFR)
This course is intended as the second half of a one-year survey of physics with some emphasis on applications to medicine. In the first part of the semester we will focus on electromagnetic phenomena. We will introduce the concept of electric and magnetic fields and study in detail the way in which electrical circuits and circuit elements work. The deep connection between electric and magnetic phenomena is highlighted with a discussion of Faraday's Law of Induction. Following our introduction to electromagnetism we will discuss some of the most central topics in twentieth-century physics, including Einstein's theory of special relativity and some aspects of quantum theory. We will end with a treatment of nuclear physics, radioactivity, and uses of radiation.

Class Format: lecture three hours per week, laboratory three hours approximately every other week, and conference section 1 hour approximately every other week
Requirements/Evaluation: weekly problem sets, labs, quizzes and exams
Prerequisites: PHYS 131 or 141 or permission of instructor, and MATH 130 (formerly 103)
Enrollment Limit: 22 per lab
Enrollment Preferences: sophomores
Expected Class Size: 60
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: Significant homework, exams, quizzes requiring mathematical and physical reasoning.

Spring 2021

LAB Section: H2 T 1:00 pm - 3:00 pm Henrik Ronellenfitsch
LAB Section: H3 W 1:00 pm - 3:00 pm Henrik Ronellenfitsch

PHYS 141 (F) Mechanics and Waves (QFR)
This is the typical first course for a prospective physics major. It covers most of the same topics as PHYS 131, but with a higher level of mathematical sophistication. It is intended for students with solid backgrounds in the sciences, either from high school or college, who are comfortable with basic calculus.

Class Format: This will be a hybrid course with both recorded and in-person lecture/demonstration material, both "at home" and in-person hands-on/laboratory exercises, problem-solving group sessions and office hours (available both in person and remote), as well as several short tests/quizzes and a final exam.

Requirements/Evaluation: weekly problem sets, labs, three or more short quizzes/tests, and a final exam, all of which have a substantial quantitative component
Prerequisites: high school physics and MATH 130 or equivalent placement, or permission of the instructor
Enrollment Limit: 30
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Unit Notes: PHYS 141 can lead to either PHYS 132 (for students wanting a one-year survey of physics) or PHYS 142 (for students considering a Physics or Astrophysics major)
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course consists of lectures, problem-solving conferences, lab exercises, problem sets and exams, all of which have a substantial quantitative component.

Fall 2020
LEC Section: H1 TR 9:45 am - 11:00 am Protik K. Majumder
LAB Section: H2 M 1:00 pm - 3:00 pm Kevin M. Jones
LAB Section: H3 T 1:00 pm - 3:00 pm Kevin M. Jones
LAB Section: H4 W 1:00 pm - 3:00 pm Kevin M. Jones
LAB Section: H5 M 3:30 pm - 5:30 pm Kevin M. Jones

PHYS 142 (S) Foundations of Modern Physics (QFR)
Newtonian Mechanics, spectacular as it is in describing planetary motion and a wide range of other phenomena, only hints at the richness of behaviors seen in the universe. Special relativity, which extends physics into the realm of high speeds and high energies, requires we rethink our basic notions of space and time. Quantum mechanics successfully describes atoms, molecules, and solids while at the same time calling into question our expectation of what can be predicted by a physical theory. Statistical physics reveals new behaviors that emerge when many particles are present in a system. This course will survey ideas from each of these three arenas, and can serve either as a terminal course for those seeking to complete a year of physics or as the basis for future advanced study of these topics.

Class Format: lecture, two hours weekly; problem-solving conference session, one hour weekly; laboratory, 2-3 hours most weeks, alternating
between 'hands-on' and computational sessions (limit 10 per lab, 14 per conference section)

Requirements/Evaluation:  weekly homework, labs, two hour tests, and a final exam, all of which have a substantial quantitative component

Prerequisites:  PHYS 141 and MATH 130, or equivalent; PHYS 131 may substitute for PHYS 141 with the permission of instructor; students may not take both PHYS 142 and PHYS 151

Enrollment Limit:  14/C, 10/L

Enrollment Preferences:  first-year students

Expected Class Size:  30

Grading:  yes pass/fail option, yes fifth course option

Distributions:  (D3)  (QFR)

Quantative/Formal Reasoning Notes:  Heavily problem-solving focused, involving algebraic manipulations, single-variable calculus, generating and reading graphs, etc.

Spring 2021

LAB Section: H5    T 3:30 pm - 5:30 pm     Charlie  Doret

PHYS 151  (F)  Seminar in Modern Physics  (QFR)
Newtonian Mechanics, spectacular as it is in describing planetary motion and a wide range of other phenomena, only hints at the richness of behaviors seen in the universe. Special relativity has extended physics into the realm of high speeds and high energies and requires us to rethink our basic notions of space and time. Quantum mechanics successfully describes atoms, molecules, and solids while at the same time calling into question our notions of what can be predicted by a physical theory. Statistical physics reveals new behaviors that emerge when many particles are present in a system. This course covers the same basic material as PHYS 142 but in a small seminar format for students with strong prior preparation in physics.

Class Format:  This will be a hybrid course format, with some online and some in-person components. All in-person components will have a remote option. Lecture 3 hours per week (synchronous interactive video or in-person), Laboratory/Conference section 2.5 hours per week (synchronous interactive video or in-person). Compared to previous years, some of the laboratory activities in the course will be replaced by assignments that can be completed remotely.

Requirements/Evaluation:  class participation, weekly lab/conference assignments, weekly problem sets, final paper, two hour-exams and a final exam;

Prerequisites:  placement by the department (see "advanced placement" section in the description about the department). Students may take either PHYS 142 or PHYS 151 but not both

Enrollment Limit:  18

Enrollment Preferences:  first-years

Expected Class Size:  18

Grading:  yes pass/fail option, yes fifth course option

Unit Notes:  this is a small seminar designed for first-year students who have placed out of PHYS 141

Distributions:  (D3)  (QFR)

Quantative/Formal Reasoning Notes:  besides the final paper, all assignments in the course have a substantial quantitative component

LAB Section: H3    MR 3:15 pm - 4:30 pm     Catherine  Kealhofer
PHYS 201 (F) Electricity and Magnetism (QFR)
The classical theory of electricity and magnetism is very rich yet it can be written in a remarkably succinct form using Maxwell's equations. This course is an introduction to electricity and magnetism and their mathematical description, connecting electric and magnetic phenomena via the special theory of relativity. Topics include electrostatics, magnetic fields, electromagnetic induction, DC and AC circuits, and the electromagnetic properties of matter. The laboratory component of the course is an introduction to electronics where students will develop skills in building and debugging electrical circuits.

Class Format: Hybrid: online with some in-person components. All in-person components will have a remote option. Lecture: three hours per week. Laboratory/conference section: two hours per week.

Requirements/Evaluation: problem sets, labs/conference section assignments, two take-home midterms, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 142 OR 151; MATH 150 or 151; with a preference for MATH 151

Enrollment Limit: 10 per lab

Enrollment Preferences: prospective physics majors, then by seniority

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

LAB Section: H4 T 3:30 pm - 5:30 pm David R. Tucker-Smith

PHYS 202 (S) Vibrations, Waves and Optics (QFR)
Waves and oscillations characterize many different physical systems, including vibrating strings, springs, water waves, sound waves, electromagnetic waves, and gravitational waves. Quantum mechanics even describes particles with wave functions. Despite these diverse settings waves exhibit several common characteristics, so that the understanding of a few simple systems can provide insight into a wide array of phenomena. In this course we begin with the study of oscillations of simple systems with only a few degrees of freedom. We then move on to study transverse and longitudinal waves in continuous media in order to gain a general description of wave behavior. The rest of the course focuses on electromagnetic waves and in particular on optical examples of wave phenomena. In addition to well known optical effects such as interference and diffraction, we will study a number of modern applications of optics such as short pulse lasers and optical communications. Throughout the course mathematical methods useful for higher-level physics will be introduced.

Class Format: hybrid. Lectures will be offered synchronously for in-person and remote students and recordings of lectures will be made available for those unable to attend synchronously. Labs will be in-person but with accommodations made for remote students.

Requirements/Evaluation: problem sets, labs, in-class tests, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 201; co-requisite: PHYS/MATH 210 or MATH 209 or permission of instructor

Enrollment Limit: 30

Enrollment Preferences: sophomores

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course has substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Spring 2021
LEC Section: H1 MWF 10:40 am - 11:30 am Graham K. Giovanetti
LAB Section: H2 T 1:00 pm - 3:00 pm Graham K. Giovanetti
PHYS 210 (S) Mathematical Methods for Scientists (QFR)

Cross-listings: PHYS 210 MATH 210

Primary Cross-listing

This course covers a variety of mathematical methods used in the sciences, focusing particularly on the solution of ordinary and partial differential equations. In addition to calling attention to certain special equations that arise frequently in the study of waves and diffusion, we develop general techniques such as looking for series solutions and, in the case of nonlinear equations, using phase portraits and linearizing around fixed points. We study some simple numerical techniques for solving differential equations. A series of optional sessions in Mathematica will be offered for students who are not already familiar with this computational tool.

Class Format: three hours per week; hybrid course format

Requirements/Evaluation: several exams and on weekly problem sets, all of which have a substantial quantitative component

Prerequisites: MATH 150 or 151 and familiarity with Newtonian mechanics at the level of PHYS 131

Enrollment Limit: 50

Enrollment Preferences: sophomores and juniors

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

PHYS 210 (D3) MATH 210 (D3)

Quantative/Formal Reasoning Notes: This course will have weekly problem sets using advanced calculus methods and some computer programming at the end of the course.

Spring 2021

LEC Section: H1   TR 11:30 am - 12:45 pm   Frederick W. Strauch

PHYS 301 (F) Quantum Physics (QFR)

This course serves as a one-semester introduction to the formalism, and phenomenology of quantum mechanics. After a brief discussion of historical origins of the quantum theory, we introduce the Schrodinger wave equation, the concept of matter waves, and wave-packets. With this introduction as background, we will continue our discussion with a variety of one-dimensional problems such as the particle-in-a-box and the harmonic oscillator. We then extend this work to systems in two and three dimensions, including a detailed discussion of the structure of the hydrogen atom. Along the way we will develop connections between mathematical formalism and physical predictions of the theory. Finally, we conclude the course with a discussion of angular momentum and spins, with applications to atomic physics, entanglement, and quantum information.

Class Format: Phys 301 will be taught in a hybrid format, with in-person and remote elements. Remote options will be available for in-person components. Lecture will meet for 3 hours weekly, with synchronous elements wherever feasible (either in-person or via videoconference). Laboratories will meet for 2 hours weekly, with some additional individual preparation required, with laboratory groups being mixed between in-person and remote students.

Requirements/Evaluation: weekly problem sets, laboratory reports / write-ups, a midterm exam, and final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 202 and PHYS/MATH 210 or MATH 309

Enrollment Limit: 20

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: Phys 301 relies heavily upon mathematics and quantitative reasoning in all elements, including problem sets, examinations, and laboratories.
PHYS 302  (S) Statistical Mechanics & Thermodynamics  (QFR)
Macroscopic objects are made up of huge numbers of fundamental particles interacting in simple ways—obeying the Schrödinger equation, Newton’s and Coulomb’s Laws—and these objects can be described by macroscopic properties like temperature, pressure, magnetization, heat capacity, conductivity, etc. In this course we will develop the tools of statistical physics, which will allow us to predict the cooperative phenomena that emerge in large ensembles of interacting particles. We will apply those tools to a wide variety of physical questions, including the behavior of gases, polymers, heat engines, biological and astrophysical systems, magnets, and electrons in solids.

Class Format: lecture/discussion three hours per week and weekly laboratory work

Requirements/Evaluation:  weekly problem sets, exams, and labs, all of which have a substantial quantitative component

Prerequisites:  required: PHYS 201, PHYS/MATH 210 or MATH 309; recommended: PHYS 202, PHYS 301

Enrollment Limit:  10 per lab

Enrollment Preferences:  the in crowd

Expected Class Size:  10 per lab

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D3)  (QFR)

Quantitative/Formal Reasoning Notes: weekly problem sets, exams, and labs, all of which have a substantial quantitative component

Spring 2021

PHYS 319  (S) Integrative Bioinformatics, Genomics, and Proteomics Lab  (QFR)
Cross-listings:  MATH 319  CHEM 319  BIOL 319  PHYS 319  CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format:  two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation:  lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites:  BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit:  12

Enrollment Preferences:  seniors, then juniors, then sophomores
Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

SEM Section: 01 TR 9:45 am - 11:00 am Lois M. Banta
LAB Section: H3 MW 1:00 pm - 3:00 pm Lois M. Banta
LAB Section: H4 TR 1:00 pm - 3:00 pm Lois M. Banta
SEM Section: R2 MW 6:45 pm - 8:00 pm Lois M. Banta

PHYS 321 (S) Introduction to Particle Physics (QFR)
The Standard Model of particle physics incorporates special relativity, quantum mechanics, and almost all that we know about elementary particles and their interactions. This course introduces some of the main ideas and phenomena associated with the Standard Model. After a review of relativistic kinematics, we will learn about symmetries in particle physics, relativistic wave equations, Feynman diagrams, and selected applications of quantum electrodynamics, the weak interactions, and quantum chromodynamics. We will conclude with a discussion of spontaneous symmetry breaking and the Higgs mechanism.

Class Format: Hybrid
Requirements/Evaluation: weekly problem sets, a midterm exam, and a final exam
Prerequisites: PHYS 301
Enrollment Limit: 15
Enrollment Preferences: By seniority
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: Exams and problem sets all have a significant quantitative component.

Spring 2021
LEC Section: H1 TR 9:45 am - 11:00 am David R. Tucker-Smith

PHYS 402 (S) Applications of Quantum Mechanics (QFR)
This course will explore a number of important topics in the application of quantum mechanics to physical systems, including perturbation theory, the variational principle and the semiclassical interaction of atoms and radiation. The course will finish up with three weeks on quantum optics including an experimental project on non-classical interference phenomena. Applications and examples will be taken mostly from atomic physics with some discussion of solid state systems.

Class Format: hybrid
Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, and a final exam, all of which have a substantial quantitative component
Prerequisites: PHYS 301
Enrollment Limit: 10 per sec
Enrollment Preferences: Physics and Astrophysics Majors
Expected Class Size: 16
Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course has weekly problem sets, all of which have a substantial quantitative component.

Spring 2021
TUT Section: HT1  F 1:30 pm - 2:45 pm    Catherine Kealhofer
TUT Section: HT2  TBA    Catherine Kealhofer

PHYS 411 (F) Classical Mechanics (QFR)
This course will explore advanced topics in classical mechanics including the calculus of variations, the Lagrangian and Hamiltonian formulations of mechanics, phase space, non-linear dynamics and chaos, central-force motion, non-inertial reference frames (including implications for physics on a rotating Earth), and rigid-body rotations. Numerical and perturbative techniques will be developed and used extensively. We will also examine the ways in which classical mechanics informs other fields of physics. In addition to weekly tutorial meetings the class with meet once a week as a whole to discuss new material.

Class Format: hybrid
Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, a final project, and a final exam, all of which have a substantial quantitative component
Prerequisites: PHYS 202 and PHYS/MATH 210 or MATH 209
Enrollment Limit: 10/section
Enrollment Preferences: majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: weekly problem sets requiring substantial quantitative reasoning using analytical and numerical methods.

Fall 2020
TUT Section: HT1  F 1:30 pm - 2:45 pm    Henrik Ronellenfitsch, Kevin M. Jones
TUT Section: HT2  F 1:30 pm - 2:45 pm    Henrik Ronellenfitsch, Kevin M. Jones
TUT Section: HT3  F 1:30 pm - 2:45 pm    Henrik Ronellenfitsch, Kevin M. Jones

POEC 253 (F) Empirical Methods in Political Economy (QFR)
This course introduces students to common empirical tools used in policy analysis and implementation. The broad aim is to train students to be discriminating consumers of public policy-relevant research. The emphasis in the course is on intuitive understanding of the central concepts. Through hands-on work with data and critical assessment of existing empirical social scientific research, students will develop the ability to choose and employ the appropriate tool for a particular research problem, and to understand the limitations of the techniques. Topics to be covered include basic principles of probability; random variables and distributions; statistical estimation, inference and hypothesis testing; and modeling using multiple regression, with a particular focus on understanding whether and how relationships between variables can be determined to be causal—an essential requirement for effective policy formation. Throughout the course, the focus will be on public policy applications relevant to the fields of political science, sociology, and public health, as well as to economics.

Class Format: The class will be remote. I will present the material using a mix of synchronous and asynchronous methods. We will use the synchronous time for discussion and Q and A as well.
Requirements/Evaluation: Problem sets, group project, midterm exam, final exam
Prerequisites: MATH 130 or its equivalent; one course in ECON; not open to students who have taken ECON 255
Enrollment Limit: 20
Enrollment Preferences: Political Economy majors, Environmental Policy majors and sophomores
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the econometrics requirement for the Economics major; POEC 253 cannot be substituted for ECON 255, or count as an elective towards the Economics major

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: The course teaches econometrics, i.e. statistics as economists use it, with applications in economics and political science.

Fall 2020
LEC Section: R1 TR 11:30 am - 12:45 pm Anand V. Swamy

PSYC 201 (F)(S) Experimentation and Statistics (QFR)
An introduction to the basic principles of research in psychology. We focus on how to design and execute experiments, analyze and interpret results, and write research reports. Students conduct a series of research studies in different areas of psychology that illustrate basic designs and methods of analysis. You must register for lab and lecture with the same instructor.

Class Format: Prof. Stroud's course meetings will be remote and meet synchronously; attendance in lectures and labs is required and participation will be evaluated. Prof. Sandstrom will teach his section in synchronous hybrid format; however, some discussions will be held remotely and synchronously. Prof. Simon's section will be held in hybrid format with some meetings held remotely; most class meetings will be synchronous, though there will be some asynchronous content replacing class time.

Requirements/Evaluation: research reports, exams, and weekly problem sets
Prerequisites: PSYC 101; not open to first-year students except with permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Psychology majors
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: This course has weekly problem sets focused on experimental design and quantitative data analysis. Students will design and conduct several experiments, analyze the data, and report their findings.

Fall 2020
LEC Section: H1 MW 10:00 am - 11:15 am Jeremy D. Cone
LAB Section: H2 T 1:00 pm - 3:00 pm Jeremy D. Cone
LEC Section: R3 MW 10:00 am - 11:15 am Kenneth K. Savitsky
LAB Section: R4 W 1:00 pm - 3:00 pm Kenneth K. Savitsky

Spring 2021
LEC Section: H3 MW 10:00 am - 11:15 am Noah J. Sandstrom
LAB Section: H4 R 1:00 pm - 3:00 pm Noah J. Sandstrom
LEC Section: H5 MW 11:45 am - 1:00 pm Jeremy C Simon
LAB Section: H6 T 1:00 pm - 3:00 pm Jeremy C Simon
LEC Section: R1 TR 9:45 am - 11:00 am Catherine B. Stroud
LAB Section: R2 W 1:00 pm - 3:00 pm Catherine B. Stroud

STAT 101 (F)(S) Elementary Statistics and Data Analysis (QFR)
It is impossible to be an informed citizen in the world today without an understanding of data and information. Whether opinion polls, unemployment rates, salary differences between men and women, the efficacy of vaccines or consumer webdata, we need to be able to separate the signal from the noise. We will learn the statistical methods used to analyze and interpret data from a wide variety of sources. The goal of the course is to help reach conclusions and make informed decisions based on data.
Class Format: Hybrid format with both synchronous and asynchronous elements.

Requirements/Evaluation: quizzes and exams and course project

Prerequisites: MATH 102 (or demonstrated proficiency on a diagnostic test)

Enrollment Limit: 25

Enrollment Preferences: sophomores, juniors, and seniors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with MATH130 but no statistics should enroll in STAT161; students with MATH150 but no statistics should enroll in STAT201. Students with AP Stat 4/5 or STAT 101/161/201 should enroll in STAT 202 (if no calc background) or 302 (MATH140 prereq).

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: It is a quantitative course.

Fall 2020
LEC Section: H1 MWF 8:00 am - 8:50 am Shaoyang Ning
LEC Section: H2 MWF 9:20 am - 10:10 am Shaoyang Ning

Spring 2021
LEC Section: H1 MWF 12:00 pm - 12:50 pm Shaoyang Ning
LEC Section: R2 TR 9:45 am - 11:00 am Daniel B. Turek

STAT 161 (F)(S) Introductory Statistics for Social Science (QFR)
This course will cover the basics of modern statistical analysis with a view toward applications in the social sciences and sciences. Topics include exploratory data analysis, elements of probability theory, basic statistical inference, and introduction to statistical modeling. The course focuses on the application of statistics tools to solve problems, to make decisions, and the use of statistical thinking to understand the world.

Class Format: For the Spring 2021 semester, synchronous zoom lectures are planned

Requirements/Evaluation: students complete homework, online multiple choice quizzes and exams (including remote oral exams). Students can expect to spend time getting familiar with the statistical software STATA.

Prerequisites: MATH 130 (or equivalent); not open to students who have completed STAT 101 or equivalent

Enrollment Limit: 25

Enrollment Preferences: Economics majors, sophomores

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Unit Notes: Students with calculus background should consider STAT 201, 202 or 302 instead. Students without any calculus background should consider STAT 101. Please refer to the placement chart on the Math&Stat department website for more information.

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: Course analyzes data

Fall 2020
LEC Section: R1 MWF 8:15 am - 9:30 am Bernhard Klingenberg
LEC Section: R2 TR 9:45 am - 11:00 am Daniel B. Turek

Spring 2021
LEC Section: R1 TR 8:00 am - 9:15 am Bernhard Klingenberg
LEC Section: R2 TR 11:30 am - 12:45 pm Daniel B. Turek

STAT 201 (F)(S) Statistics and Data Analysis (QFR)
Statistics can be viewed as the art and science of turning data into information. Real world decision-making, whether in business or science is often
based on data and the perceived information it contains. Sherlock Holmes, when prematurely asked the merits of a case by Dr. Watson, snapped back, "Data, data, data! I can't make bricks without clay." In this course, we will study the basic methods by which statisticians attempt to extract information from data. These will include many of the standard tools of statistical inference such as hypothesis testing, confidence intervals, and linear regression as well as exploratory and graphical data analysis techniques. This is an accelerated introductory statistics course that involves computational programming and incorporates modern statistical techniques.

Class Format: Hybrid format

Requirements/Evaluation:  
weekly homework; quizzes and exams

Prerequisites:  
MATH 150 or equivalent; not open to students who have completed STAT 101 or STAT 161 or equivalent

Enrollment Limit:  
25

Enrollment Preferences:  
Prospective Statistics majors, students for whom the course is a major prerequisite, and seniors

Expected Class Size:  
25

Grading:  
yes pass/fail option,  yes fifth course option

Unit Notes:  
Students with AP Stat 4/5 or STAT 101/161 should enroll in STAT 202 (if no calc background) or 302 (MATH 140 prereq). Students with no calc or stats background should enroll in STAT 101. Students with MATH 140 but no statistics should enroll in STAT 161.

Distributions:  
(D3)  (QFR)

Quantitative/Formal Reasoning Notes:  
Students will learn to interpret, choose, carry out, and communicate analyses of data.

Fall 2020

LEC Section: R1  MR 3:15 pm - 4:30 pm  Anna M. Plantinga
LEC Section: R2  WF 1:30 pm - 2:45 pm  Elizabeth M. Upton

Spring 2021

LEC Section: H2  MWF 8:00 am - 8:50 am  Anna M. Plantinga
LEC Section: R1  MWF 11:45 am - 1:00 pm  Richard D. De Veaux

STAT 202  (F)(S)  Introduction to Statistical Modeling  (QFR)

Data come from a variety of sources: sometimes from planned experiments or designed surveys, sometimes by less organized means. In this course we'll explore the kinds of models and predictions that we can make from both kinds of data, as well as design aspects of collecting data. We'll focus on model building, especially multiple regression, and talk about its potential to answer questions about the world -- and about its limitations. We'll emphasize applications over theory and analyze real data sets throughout the course.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. The professor and TAs will also offer optional synchronous office hours(review sessions).

Requirements/Evaluation:  
Homework problems; quizzes; a final project (on a topic that interests you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While your assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

Prerequisites:  
AP Statistics 4 or 5, or STAT 101, or STAT 161, or STAT 201, or permission of instructor

Enrollment Limit:  
25

Enrollment Preferences:  
Prospective Statistics majors and more senior students

Expected Class Size:  
25

Grading:  
yes pass/fail option,  yes fifth course option

Unit Notes:  
students with a 4 on the AP Stats exam should contact the department for proper placement

Distributions:  
(D3)  (QFR)

Quantitative/Formal Reasoning Notes:  
This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.
STAT 302  (F)(S)  Applied Statistical Modeling  (QFR)

Data may come from various sources and studies with different purpose of analysis. Statistical modeling provides a unified framework to embrace different data types, and focuses on the goals of understanding relationships, assessing differences and making predictions. We will explore different types of statistical models (linear regression, ANOVA, logistic regression etc), and focus on their conditions, the interactive modeling process, as well as the statistical inference tools for drawing conclusions from them. Throughout the course, real datasets will be modeled for interesting questions about the world, and the limitations will be addressed as well.

Class Format: Hybrid format

Requirements/Evaluation: weekly homework assignments, quizzes, exams and a course project.

Prerequisites: One of the following: i) STAT 201; ii) MATH 140 and STAT 101/161/AP Statistics 4/5; iii) Permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Students interested in statistics who have background in calculus and intro stat. Students cannot take STAT 302 either simultaneously or after STAT 346.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: It is an intermediate statistics class with prerequisites that are QFR courses

---

STAT 310 (F) Data Visualization (QFR)

This course is about preparing, visualizing, reporting and presenting different types of data. We will start with creating common plots (e.g., barcharts, histograms, density plots, boxplots, time series and lattice plots), but also discuss visualizing results of statistical models, such as linear or logistic regression models. We will use the ggplot library in R but then switch to the plotly library for interactive graphs with mouse-over and click events. Using R’s shiny and DT libraries, we will learn how to create and publish web-apps and dashboards that explore datasets and support online filtering. We will end the class with creating web apps that contain multiple graphs or maps which react to user inputs (such as selecting which variables to plot) or provide real time monitoring of streaming data. Throughout, we will use version control software (Github) to organize and keep track of our code. This course will be taught in a semi-flipped style. While the instructor will introduce certain topics, students will often be responsible for reading material ahead of time and then work individually or in pairs to reproduce material or implement it on their own data.

Requirements/Evaluation: Grading will almost entirely be based on class participation, individual and team-work, project presentations and the student's portfolio.

Prerequisites: Stat 201/202/302; Good knowledge of R

Enrollment Limit: 15

Enrollment Preferences: Preference may be given to stats majors who need the course in order to graduate, but then random selection.

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course teaches how to organize and present data graphically, but also how to critique existing data visualizations.
STAT 315  (S)  Applied Machine Learning  (QFR)

How does Netflix recommend films based on your viewing history? How does Facebook group its users and send out targeted ads? How did Google select from thousands of search terms to predict flu? Machine learning (ML) is a rapidly growing field that is concerned with algorithms and models to find patterns in data and solve these practical problems at the intersection between statistics, data science and computer science. This course provides a broad introduction to ideas and methods in machine learning, with emphasis on statistical intuitions and practical data analysis. Topics including regularized regression, SVM, supervised/unsupervised learning, text analysis, neural networks will be covered. Students will use R extensively throughout the course while getting introduced to some ML tools in Python.

Class Format: Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Requirements/Evaluation: weekly homework, one class project, and two or three exams

Prerequisites: MATH 140, and STAT 201/202, or equivalent; or permission of instructor. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Enrollment Limit: 15

Enrollment Preferences: Seniors.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods.

Spring 2021

LEC Section: H1  MWF 9:20 am - 10:10 am  Shaoyang  Ning

STAT 335  (S)  Biostatistics and Epidemiology  (QFR)

Epidemiology is the study of disease and disability in human populations, while biostatistics focuses on the development and application of statistical methods to address questions that arise in medicine, public health, or biology. This course will begin with epidemiological study designs and core concepts in epidemiology, followed by key statistical methods in public health research. Topics will include multiple regression, analysis of categorical data (two sample methods, sets of 2x2 tables, RxC tables, and logistic regression), survival analysis (Cox proportional hazards model), and a brief introduction to regression with correlated data.

Class Format: Hybrid format

Requirements/Evaluation: evaluation will be primarily based on weekly homework, two midterm exams, a final exam, and a data analysis project

Prerequisites: STAT 201, STAT 202 and MATH 140, or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Junior and senior statistics majors; public health concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is a statistics course with a focus on quantitative methods relevant to public health studies.

Spring 2021

LEC Section: H1  MWF 9:20 am - 10:10 am  Anna M. Plantinga

STAT 341  (F)(S)  Probability  (QFR)

Cross-listings: STAT 341  MATH 341
The historical roots of probability lie in the study of games of chance. Modern probability, however, is a mathematical discipline that has wide applications in a myriad of other mathematical and physical sciences. Drawing on classical gaming examples for motivation, this course will present axiomatic and mathematical aspects of probability. Included will be discussions of random variables (both discrete and continuous), distribution and expectation, independence, laws of large numbers, and the well-known Central Limit Theorem. Many interesting and important applications will also be presented, including some from classical Poisson processes, random walks and Markov Chains.

Requirements/Evaluation: homework, classwork, and exams

Prerequisites: MATH 250 or permission of the instructor

Enrollment Limit: 30

Enrollment Preferences: Priority will be given to Mathematics majors and to Statistics Majors.

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

STAT 341 (D3) MATH 341 (D3)

Quantitative/Formal Reasoning Notes: This is a 300-level Math/Stat course.

Fall 2020

LEC Section: H1 MWF 9:20 am - 10:10 am Stewart D. Johnson

Spring 2021

LEC Section: H1 TF 3:15 pm - 4:30 pm Mihai Stoiciu

STAT 344 (F) Statistical Design of Experiments (QFR)

How do you get informative research results? By doing the right experiment in the first place. We'll explore the techniques used to plan experiments that are both efficient and statistically sound, the analysis of the resulting data, and the conclusions we can draw from that analysis. We'll look at classical tools like one- and two-way ANOVA and fractional factorial designs, but we'll also look at optimal design, and see how these two frameworks differ in their philosophy and in what they can do. Throughout the course, we'll make extensive use of R to work with real-world data.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

Requirements/Evaluation: Homework problems; quizzes; a final project (on a topic that interests you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

Prerequisites: STAT 201, 202, or equivalent, or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Statistics majors, seniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course uses mathematical tools and computing programs to design experiments, analyze their results, and assess their effectiveness. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

Fall 2020

LEC Section: R1 MR 3:15 pm - 4:30 pm Laurie L. Tupper
STAT 346  (F)(S)  Regression Theory and Applications  (QFR)
This course focuses on the building of empirical models through data in order to predict, explain, and interpret scientific phenomena. Regression modeling is the most widely used method for analyzing and predicting a response data and for understand the relationship with explanatory variables. This course provides both theoretical and practical training in statistical modeling with particular emphasis on simple linear, logistic and multiple regression, using R to develop and diagnose models. The course covers the theory of multiple regression and diagnostics from a linear algebra perspective with emphasis on the practical application of the methods to real data sets. The data sets will be taken from a wide variety of disciplines.

Requirements/Evaluation:  exams, homework, and a project
Prerequisites:  MATH 250 and at least one of STAT 201, 202 or 302. Or permission of instructor
Enrollment Limit:  15
Enrollment Preferences:  Statistics Majors
Expected Class Size:  15
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  This course prepares students in the use of quantitative methods for the modeling, prediction and understanding of scientific phenomena.

Fall 2020
LEC Section: H1    MWF 11:45 am - 1:00 pm     Richard D. De Veaux

Spring 2021
LEC Section: R1    MWF 8:15 am - 9:30 am     Richard D. De Veaux

STAT 355  (F)  Multivariate Statistical Analysis  (QFR)
To better understand complex processes, we study how variables are related to one another, and how they work in combination. Therefore, we want to make inferences about more than one variable at time? Elementary statistical methods might not apply. In this course, we study the tools and the intuition that are necessary to analyze and describe such data sets. Topics covered will include data visualization techniques for high dimensional data sets, parametric and non-parametric techniques to estimate joint distributions, techniques for combining variables, as well as classification and clustering algorithms.

Class Format:  This will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements
Requirements/Evaluation:  homework, project/presentations, possibly one or two exams.
Prerequisites:  MATH 250, and STAT 346 or permission of instructor
Enrollment Limit:  15
Enrollment Preferences:  students interested in statistics which have solid background in math and stat
Expected Class Size:  10
Grading:  yes pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  It is an advanced statistics class with prerequisites that are QFR courses

Fall 2020
LEC Section: H1    WF 1:30 pm - 2:45 pm     Xizhen Cai

STAT 356  (S)  Time Series Analysis  (QFR)
Time series -- data collected over time -- crop up in applications from economics to engineering to transit. But because the observations are generally not independent, we need special methods to investigate them. This course will include exploratory methods and modeling for time series, including descriptive methods and checking for significance, and a foray into the frequency domain. We will emphasize applications to a variety of real data, explored using R.

Class Format:  Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive
further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

**Requirements/Evaluation:** Evaluation is primarily based on quizzes and projects (on topics that interest you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

**Prerequisites:** STAT 346 (may be taken concurrently) or permission of instructor

**Enrollment Limit:** 15

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

---

**STAT 360 (S) Statistical Inference (QFR)**

How do we estimate unknown parameters and express the uncertainty we have in our estimate? Is there an estimator that works best? Many topics from introductory statistics such as random variables, the central limit theorem, point and interval estimation and hypotheses testing will be revisited and put on a more rigorous mathematical footing. The focus is on maximum likelihood estimators and their properties. Bayesian and computer intensive resampling techniques (e.g., the bootstrap) will also be considered.

**Class Format:** For the Spring 2021 semester, synchronous zoom lectures are planned, where the instructor uses Google's jamboard to interact with students.

**Requirements/Evaluation:** Homework, Quizzes, Exams

**Prerequisites:** MATH 250, STAT 201 or 202, STAT 341

**Enrollment Limit:** 15

**Enrollment Preferences:** Statistics majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** A rigorous mathematical course laying the foundation for reasoning with data

---

**STAT 372 (F) Longitudinal Data Analysis: Modeling Change over Time (QFR)**

This course explores modern statistical methods for drawing scientific inferences from longitudinal data, i.e., data collected repeatedly on experimental units over time. The independence assumption made for most classical statistical methods does not hold with this data structure because we have multiple measurements on each individual. Topics will include linear and generalized linear models for correlated data, including marginal and random effect models, as well as computational issues and methods for fitting these models. We will consider many applications in the social and biological sciences.

**Class Format:** Hybrid format. Approximately 2/3 of class time will be lecture (in person for students who are on campus, recorded for remote students). All synchronous students (whether in person or online) will attend a remote lab/discussion section each week. Asynchronous options will be provided for students unable to participate synchronously.
Requirements/Evaluation: performance on exams, homework, and a project
Prerequisites: STAT 201 and STAT 346
Enrollment Limit: 15
Enrollment Preferences: junior and senior Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: The course will cover a variety of statistical analysis methods for longitudinal data.

Fall 2020
LEC Section: H1    MWF 10:40 am - 11:30 am    Anna M. Plantinga

STAT 442  (S)  Statistical Learning and Data Mining  (QFR)
In both science and industry today, the ability to collect and store data can outpace our ability to analyze it. Traditional techniques in statistics are often unable to cope with the size and complexity of today's data bases and data warehouses. New methodologies in Statistics have recently been developed, designed to address these inadequacies, emphasizing visualization, exploration and empirical model building at the expense of traditional hypothesis testing. In this course we will examine these new techniques and apply them to a variety of real data sets.
Class Format: Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.
Requirements/Evaluation: homework, exams and projects
Prerequisites: STAT 346 or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Statistics majors, juniors and seniors. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This is an advanced statistics class involving theory and application of statistical methods to data.

Spring 2021
LEC Section: H1    MWF 10:40 am - 11:30 am    Xizhen  Cai

STAT 465  (F)  Bayesian Statistics  (QFR)
Interest and application of Bayesian methods have exploded in recent decades, being facilitated by recent advances in computational power. Indeed, the Bayesian approach is now recognized across scientific disciples as a modern and powerful tool. We begin with an introduction to Bayes' Theorem, the theoretical underpinning of Bayesian statistics which dates back to the 1700's, and the concepts of prior and posterior distributions, conjugacy, and closed-form Bayesian inference. Building on this, we introduce modern computational approaches to performing Bayesian inference, including Markov chain Monte Carlo (MCMC), Metropolis-Hastings sampling, and the theory underlying these simple and powerful methods, before moving on to multivariate sampling methods and methodology. Students will become comfortable with modern software tools for MCMC using a variety of applied hierarchical modeling examples, and will use R for all statistical computing. The course will culminate in an independent Bayesian research project.
Requirements/Evaluation: Homework, exams, and project
Prerequisites: STAT 346, or permission of instructor
Enrollment Limit: 30
Enrollment Preferences: Juniors and Seniors, and Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course mandates significant mathematical and statistical prowess.

Fall 2020
LEC Section: R1    TR 8:00 am - 9:15 am    Daniel B. Turek

STS 375  (F)(S) Human Work in Computational Systems  (QFR)

Cross-listings: CSCI 377  STS 375

Secondary Cross-listing
As far as we know, the technological singularity has not yet arrived. Therefore, humans remain a part of our current computation pipeline. However, the role humans play varies greatly: self-driving cars aim to have human involvement only in development and emergencies, whereas educational tools are built for constant human involvement. In this course, we broadly explore human work within computational systems through topics such as crowdsourcing, educational technology, citizen science, human computation, open-source software, micro-labor markets, and online gaming. Students should expect broad exposure to a wide variety of human computing topics and group projects on building and evaluating computational systems that use human work.

Class Format: Lectures will be held on Wednesday and Friday each week. Conference sections will each meet once per week. Students should sign up for the lecture section and one conference.

Requirements/Evaluation: Course projects, in-class group work/participation, weekly written homework assignments/readings.

Prerequisites: CSCI 136

Enrollment Limit: 20

Enrollment Preferences: Preference for current CS majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Materials/Lab Fee: $75 for purchase of software and work on crowdsourcing platforms.

Distributions: (D2)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
CSCI 377 (D3)  STS 375 (D2)

Quantative/Formal Reasoning Notes: This course includes regular homework and projects in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2020

CON Section: R5    R 3:15 pm - 4:30 pm    Molly Q Feldman

THEA 310  (F) Playwriting: Facing the Blank Page  (WS)  (QFR)
I believe that after food and shelter, humans need stories to survive. This class will focus on each writer's dreams, fears, and desires and how to turn them into plays. Students will explore the fundamentals of playwriting. This will include writing exercises, weekly pages, hearing your scenes out loud
and at the end of the semester the first draft of a new play.

Class Format: Hybrid

Requirements/Evaluation: Upon completion of the semester, you will be able to demonstrate and ability to: draft, rewrite, discuss and continue to rewrite; engage verbal discussion of your work and your colleagues work; place the work in context of other artists and artistic pursuits; place work in context of culture and society; complete a full draft of your play.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Theater majors first, then Concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS) (QFR)

Writing Skills Notes: You are expected to attend class, to keep up with required writing, readings drafts pages to class and participate in all discussions.

Quantitative/Formal Reasoning Notes: You are also expected to think critically and articulate your thoughts.

Fall 2020

SEM Section: H1  RF 3:15 pm - 4:30 pm  Lucy Thurber,  Ren Dara Santiago

Quantitative and Formal Reasoning

ASTR 111 (F) Introduction to Astrophysics  (QFR)

The science of astronomy spans vast scales of space and time, from individual atoms to entire galaxies and from the universe's beginning to the future fate of our Sun. In this course, we will survey some of the main ideas in modern astrophysics, with an emphasis on the physics of stars and galaxies. ASTR 111 is the first course in the Astrophysics and Astronomy major sequences. It is also appropriate for students planning to major in one of the other sciences or mathematics and for others who would like a quantitative introduction that emphasizes the relationship of contemporary physics to astronomy. Topics include gravity and orbits, radiation laws and stellar spectra, physical characteristics of the Sun and other stars, star formation and evolution, black holes, galaxies, the expanding universe, and the Big Bang. Students will also use telescopes remotely to observe stars, nebulae, planets, and galaxies and to make daytime observations of the Sun.

Class Format: This is a hybrid course. Lectures will be provided both in-person and for remote viewing. Students will work in small groups on discussions and calculations. Each group can choose to meet remotely or in class. Students can switch groups, and groups can switch format, as needed. Prof. Jaskot will meet with remote groups during their discussion to answer questions. The class has 6 afternoon labs, with both in-person and remote options. Remote observing sessions will occur throughout the semester.

Requirements/Evaluation: weekly problem sets, one hour-long test, a final project, lab reports, and an observing portfolio

Prerequisites: a year of high school Physics, concurrent college Physics, or permission of instructor, and MATH 140 or equivalent

Enrollment Limit: 28

Enrollment Preferences: potential Astronomy majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course requires regular problem sets and quantitative assignments. The course will emphasize how physical equations explain the observed properties of the universe.

Fall 2020

LAB Section: H3  W 1:00 pm - 3:00 pm  Kevin Flaherty

LEC Section: H1  TR 11:30 am - 12:45 pm  Anne Jaskot

LAB Section: H2  T 1:00 pm - 3:00 pm  Kevin Flaherty
The matter between the stars—the interstellar medium—tells the story of the past and future evolution of galaxies and the stars within them. Stars are accompanied by diffuse matter all through their lifetimes, from their birthplaces in dense molecular clouds, to the stellar winds they eject as they evolve, to their final fates as they shed their outer layers, whether as planetary nebulae or dazzling supernovae. As these processes go on, they enrich the interstellar medium with the products of the stars' nuclear fusion. Interpreting the emission from this interstellar gas is one of astronomers' most powerful tools to measure the physical conditions, motions, and composition of our own galaxy and others. In this course we will study the interstellar medium in its various forms, from cold, dense, star-forming molecular clouds to X-ray-emitting bubbles formed by supernovae. We will learn about the physical mechanisms that produce the radiation we observe, including radiative ionization and recombination, collisional excitation of "forbidden" lines, collisional ionization, and synchrotron radiation. Applying our understanding of these processes, we will analyze the physical conditions and chemical compositions of a variety of nebulae. Finally, we will discuss the evolution of interstellar material in galaxies across cosmic time. This course is observing-intensive. Throughout the semester students will work in small groups to design, carry out, analyze, and critique their own observations of the interstellar medium using remote observations and archival data.

Class Format: Tutorial meetings will be scheduled with the professor. Meetings may be held in-person, subject to classroom availability, or remotely. Students will also complete observing projects by controlling telescopes remotely and analyzing observations in astronomical databases.

Requirements/Evaluation: weekly problem sets, 10-page final paper, and observing projects

Prerequisites: ASTR 111 and PHYS 201 or permission of instructor

Enrollment Limit: 10

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: In this course, students will derive quantitative physical formulas, use these equations to calculate and compare physical properties, and generate and analyze graphical representations of data. They will also make and analyze measurements of astronomical data through observing projects.

Spring 2021

TUT Section: HT1 TBA Anne Jaskot

ASTR 498 (S) Independent Study: Astronomy or Astrophysics (QFR)

Astronomy/Astrophysics independent study, directed by one of the Astronomy faculty: Pasachoff/Jaskot/Flaherty

Requirements/Evaluation: Regular work with the instructor; submitted presentations and papers as agreed upon

Prerequisites: suitable Astronomy/Astrophysics/Physics/Math-Stats-Geosciences/Chemistry courses

Enrollment Limit: 10

Enrollment Preferences: research topic

Expected Class Size: 5

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Substantial quantitative and formal reasoning are involved

Spring 2021

IND Section: H1 TBA Jay M. Pasachoff

BIMO 321 (F)(S) Biochemistry I: Structure and Function of Biological Molecules (QFR)

Cross-listings: BIMO 321 BIOL 321 CHEM 321

Primary Cross-listing

This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules.
Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

Class Format: Synchronous lectures (2x 75-minute meetings per week) and labs, two hours per week. Enrollment in the appropriate laboratory section is required for both in-person and remote students.

Requirements/Evaluation: Quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports

Prerequisites: BIOL 101 and CHEM 251/255 and CHEM 155/256

Enrollment Limit: 7/lab

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

Quantitative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

Fall 2020

LAB Section: 02  T 1:00 pm - 3:00 pm  Amy Gehring
LAB Section: 06  R 3:30 pm - 5:30 pm  Jenna L. MacIntire
LAB Section: 04  R 1:00 pm - 3:00 pm  Jenna L. MacIntire

BIMO 322 (S) Biochemistry II: Metabolism (QFR)

Cross-listings: BIOL 322 CHEM 322 BIMO 322

Primary Cross-listing

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: Lecture three hours per week and laboratory two hours per week. There will be one entirely in-person section of 24 students and one remote section. The in-person lab sections can accommodate 40 in-person students (8 per section), and there will be a remote lab section.

Requirements/Evaluation: several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data
Prerequisites:  BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit:  24/Lecture

Enrollment Preferences:  junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size:  48

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 322 (D3) CHEM 322 (D3) BIMO 322 (D3)

Quantitative/Formal Reasoning Notes:  The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

BIOL 202  (F) Genetics  (QFR)

Genetics, classically defined as the study of heredity, has evolved into a discipline whose limits are continually expanded by innovative molecular technologies. This course covers the experimental basis for our current understanding of the inheritance, structures, and functions of genes. It introduces approaches used by contemporary geneticists and molecular biologists to explore questions in areas of biology ranging from evolution to medicine. The laboratory part of the course provides an experimental introduction to modern genetic analysis. Laboratory experiments include linkage analysis, bacterial transformation with plasmids and DNA restriction mapping. This COVID year we will have in-person lectures and labs. Furthermore all students will have access to recorded lectures, notes, slides and handouts. For remote students, lab reports will also be required (writing and data analysis). Remote students will be able to collect data for some of the labs or otherwise will have access to class data for analyses.

Class Format:  six hours per week

Requirements/Evaluation:  bi-weekly problem sets, weekly laboratory exercises and laboratory reports, and examinations

Prerequisites:  BIOL 101 and 102

Enrollment Limit:  60

Enrollment Preferences:  Students planning on Biology major

Expected Class Size:  60

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major

Distributions:  (D3)  (QFR)

Quantitative/Formal Reasoning Notes:  This course has a large quantitative component, mainly probabilities and basic statistics. Lab reports and data analyses are a large component of the grade.

Fall 2020
LEC Section: H2  MWF 12:00 pm - 12:50 pm  Luana S. Maroja
LAB Section: 05  T 1:00 pm - 3:00 pm  Derek Dean
LAB Section: 11  R 3:30 pm - 5:30 pm  Derek Dean
BIOL 203 (F) Ecology (QFR)

Cross-listings: ENVI 203 BIOL 203

Primary Cross-listing

This course combines lectures with field and indoor laboratory exercises to explore factors that determine the distribution and abundance of plants and animals in natural systems. The course begins with an overall view of global patterns and then builds from the population to the ecosystem level. An emphasis is given to basic ecological principles and relates them to current environmental issues. Selected topics include population dynamics (competition, predation, mutualism); community interactions (succession, food chains and diversity) and ecosystem function (biogeochemical cycles, energy flow). In Fall 2020, the course will use a hybrid model, with recorded lecture material available to all students. In person and remote class meetings will focus on problem sets and interactive case studies. Labs will be available in either in person or remote modalities. Remote participants will have the opportunity to collect their own data for some lab exercises, while in other cases will receive background information and media describing the data collection process. All students will be required to complete all data analyses and written lab reports.

Class Format: Six hours per week. All labs will be available in both remote and in-person modalities. All students (whether in person or remote) may choose their preferred modality for each lab module. Due to COVID-19 distancing requirements, some labs will require walking to field sites. The instructor will work with individual students to identify accommodations that support in person lab participation as needed.

Requirements/Evaluation: problem sets, lab reports, hour exams, and a final exam

Prerequisites: BIOL 101 and 102, or ENVI 101 or 102, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: students planning to pursue Biology and/or ENVI

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 203 (D3) BIOL 203 (D3)

Quantitative/Formal Reasoning Notes: Much of the material in this course centers on the interpretation and application of mathematical models used to describe ecological systems. The laboratory section of this course also contains a large data analysis component. Students are introduced to t-tests, Mann-Whitney U tests, chi-square analysis, and regression.

Fall 2020

LAB Section: H2 T 1:00 pm - 3:00 pm Allison L. Gill
LEC Section: H1 MWF 9:20 am - 10:10 am Allison L. Gill
LAB Section: H3 T 3:30 pm - 5:30 pm Allison L. Gill

BIOL 210 (F) Mathematical Biology (QFR)

Cross-listings: BIOL 210 MATH 310

Secondary Cross-listing

This course will provide an introduction to the many ways in which mathematics can be used to understand, analyze, and predict biological dynamics.
We will learn how to construct mathematical models that capture essential properties of biological processes while maintaining analytic tractability. Analytic techniques, such as stability and bifurcation analysis, will be introduced in the context of both continuous and discrete time models. Additionally, students will couple these analytic tools with numerical simulation to gain a more global picture of the biological dynamics. Possible biological applications include, but are not limited to, single and multi-species population dynamics, neural and biological oscillators, tumor cell growth, and infectious disease dynamics.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely

**Requirements/Evaluation:** problem sets, quizzes/exams, participation, final project and paper

**Prerequisites:** MATH 250 and MATH 309, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** if over-enrolled, will have students submit reasons for taking class; preference to those with interest in both subjects

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**

BIOL 210 (D3) MATH 310 (D3)

**Quantative/Formal Reasoning Notes:** The course will introduce methods for developing and analyzing mathematical models.

---

Fall 2020

LEC Section: H1  TR 11:30 am - 12:45 pm  Julie C. Blackwood

**BIOL 222 (S) Essentials of Biochemistry** (QFR)

This course will explore the biochemistry of cellular processes and contextualize these processes in healthy and diseased states. Lecture topics in this one semester course will include the structure and function of proteins (enzymes and non-enzymatic proteins), lipids, and carbohydrates. Lectures will also survey the major metabolic pathways (carbohydrates, lipids, and amino acids) with particular attention to enzyme regulation and the integration of metabolism in different tissues and under different metabolic conditions. In the discussion/laboratory component of the course a combination of primary literature, hypothesis-driven exercises, problem solving, and bench work will be used to illustrate how particular techniques and experimental approaches are used in biochemical fields.

**Class Format:** in-person lecture and lab, synchronous lecture and asynchronous lab

**Requirements/Evaluation:** regular quizzes, final exam, writing assignments (including problem sets), and lab assignments

**Prerequisites:** BIOL 101 and CHEM 156; not open to students who have taken BIOL 321 or BIOL 322

**Enrollment Limit:** 18

**Enrollment Preferences:** seniors who need to fulfill the biochemistry requirement for premedical school

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major; cannot be counted towards the biology major in addition to either BIOL 321 or BIOL 322; cannot be counted towards the BIMO concentration

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

LAB Section: H2  W 1:00 pm - 3:00 pm  Daniel V. Lynch

**BIOL 305 (S) Evolution** (QFR)
This course offers a critical analysis of contemporary concepts in biological evolution. We focus on the relation of evolutionary mechanisms (e.g., selection, drift, and migration) to long-term evolutionary patterns (e.g., evolutionary innovations, origin of major groups, and adaptation). Topics include micro-evolutionary models, natural and sexual selection, speciation, the inference of evolutionary history, evolutionary medicine among others.

Requirements/Evaluation: independent research project, problem sets, participation in discussions and exams

Prerequisites: BIOL 202

Enrollment Limit: 22

Enrollment Preferences: Seniors and biology majors

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: We will use mathematical models to study population genetics.

LAB Section: H3 R 1:00 pm - 3:00 pm Luana S. Maroja

BIOL 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Primary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high-throughput approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in
programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

**Quantitative/Formal Reasoning Notes:** This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

Fall 2020

LAB Section: 02    T 1:00 pm - 3:00 pm    Amy Gehring
LEC Section: H1    MWF 11:45 am - 1:00 pm    Amy Gehring
LAB Section: 03    W 3:30 pm - 5:30 pm    Jenna L. MacIntire
LAB Section: 06    R 3:30 pm - 5:30 pm    Jenna L. MacIntire
LAB Section: 04    R 1:00 pm - 3:00 pm    Jenna L. MacIntire
LAB Section: R5    R 1:00 pm - 3:00 pm    Amy Gehring

Spring 2021

LAB Section: 02    M 1:00 pm - 3:00 pm    Katie M. Hart
LEC Section: H1    TR 9:45 am - 11:00 am    Katie M. Hart
LAB Section: R3    M 3:30 pm - 5:30 pm    Katie M. Hart
BIOL 322 (S) Biochemistry II: Metabolism (QFR)

Cross-listings: BIOL 322 CHEM 322 BIMO 322

Secondary Cross-listing

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: Lecture three hours per week and laboratory two hours per week. There will be one entirely in-person section of 24 students and one remote section. The in-person lab sections can accommodate 40 in-person students (8 per section), and there will be a remote lab section.

Requirements/Evaluation: several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data

Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit: 24/Lecture

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 48

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 322 (D3) CHEM 322 (D3) BIMO 322 (D3)

Quantitative/Formal Reasoning Notes: The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

Spring 2021

LAB Section: 08  R 3:30 pm - 5:30 pm     Janis E. Bravo
LEC Section: 01  TR 9:45 am - 11:00 am     Cynthia K. Holland
LEC Section: R2  TR 11:30 am - 12:45 pm     Cynthia K. Holland
LAB Section: R7  R 1:00 pm - 3:00 pm     Janis E. Bravo, Cynthia K. Holland
LAB Section: 04  T 3:30 pm - 5:30 pm     Janis E. Bravo
LAB Section: 05  W 1:00 pm - 3:00 pm     Janis E. Bravo
LAB Section: 03  T 1:00 pm - 3:00 pm     Janis E. Bravo
LAB Section: 06  W 3:30 pm - 5:30 pm     Janis E. Bravo

BIOL 329 (F) Conservation Biology (QFR)

Cross-listings: ENVI 339 BIOL 329

Primary Cross-listing

This course examines the application of population genetics, population ecology, community ecology, and systematics to the conservation of biological diversity. The overarching theme of the course is on the role of stochastic processes for small populations. Lecture/discussion topics will include extinction, the genetics of small populations, metapopulations, and importantly, conservation strategies. Labs will include a mixture of computer and lab projects.

Class Format: lecture and discussion, 3 hours per week; lab, 1.25 hours per week. Students will be assigned to a lab section (block AA - either W or F from 1:30-2:45) during the first week of class.

Requirements/Evaluation: Evaluation will be based on lab assignments, two exams, discussion participation, and an independent project

Prerequisites: BIOL 203/ENVI 203, or BIOL 305, or permission of instructor

Enrollment Limit: 12
**Enrollment Preferences:** Biology majors, seniors, and juniors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** Satisfies the distribution requirement for the Biology major

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 339 (D3) B IOL 329 (D3)

**Quantitative/Formal Reasoning Notes:** This course uses quantitative and statistical analyses in both the laboratory and lecture portion of the course. In lectures mathematical models will be covered to understand conservation dynamics. In lab, students will collect and analyze data and present results in graphical and statistical forms.

**Fall 2020**

LAB Section: H2    WF 1:30 pm - 2:45 pm     Manuel A. Morales

LEC Section: H1    TR 8:00 am - 9:15 am     Manuel A. Morales

CHEM 114  (S)  The Science Behind Materials: Shaping the Past and Future of Society   (QFR)

We are surrounded by materials. They have fulfilled human needs since ancient times. From Phoenician glass to flexible OLED displays, materials have impacted society and changed the way humans lead their lives. What makes materials the way they are? Why are some brittle while others are ductile? How can we design materials with specific properties that will solve tomorrow's problems? To answer these questions, we have to think about materials at the atomic scale, looking at how their smallest building blocks organize into specific structures. In this course, we will discuss how a material's structure relates to its properties. Then, we will dive into how different types of materials have been used in the past, how they were produced, the needs they satisfied, and how they shaped human civilization. This course will also cover both traditional and novel methods used to fabricate and analyze materials. We will talk about some of the cutting-edge research that materials scientists are working on today, concluding with an outlook to potential applications of emerging technologies.

**Requirements/Evaluation:** Weekly quizzes and problem sets, two exams, and a presentation

**Prerequisites:** none; designed for the non-science major who does not intend to pursue a career in the natural sciences.

**Enrollment Limit:** 20

**Enrollment Preferences:** juniors and seniors; not appropriate for CHEM, BIOL, PHYS majors, or for those who have taken CHEM 151, 153, or 155

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

**Spring 2021**

LEC Section: H1    MR 3:15 pm - 4:30 pm     Amnon G Ortoll-Bloch

CHEM 117  (S)  Roses are Red, Violets are Blue: The Origins, Perception, and Impact of Color   (QFR)

Have you ever been tickled pink? Felt blue? Seen red?, Been green with envy? The course will consider color, starting with the physical and chemical origins of color (the electromagnetic spectrum, the absorption and emission of electromagnetic radiation, refraction, diffraction, incandescence, fluorescence, phosphorescence, iridescence). We will develop an understanding of chemical bonding and how that influences color. We will cover how we measure and describe color from a scientific perspective as well as how we can generate materials and devices with different color properties (liquid crystal displays, light emitting diodes for instance). From there we will discuss pigments used in works of art and textiles over time, the characteristics that make certain pigments suitable for particular applications. If we have time, we will touch on the historical and cultural impacts and meanings of different pigments and hues, the biological perception of color, and some color theory.

**Class Format:** There may be some brief laboratory exercises, we won't use the scheduled lab blocks every week, but we will use some.

**Requirements/Evaluation:** exams, problem sets, quizzes, a paper, brief laboratory exercises, and a final exam
**Prerequisites:** non-science students; students who have taken any introductory chemistry or physics courses are ineligible

**Enrollment Limit:** 12

**Enrollment Preferences:** first-years and sophomores

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course will require students to become comfortable with some quantitative descriptions of light and its interaction with matter.

---

### Spring 2021

**LEC Section:** H1  TF 1:30 pm - 2:45 pm     Lee Y. Park

**LAB Section:** H2  T 3:30 pm - 5:30 pm     Lee Y. Park

---

**CHEM 151 (F) Introductory Chemistry** (QFR)

This course provides an introduction to chemistry for those students with little or no high school chemistry. Students will be introduced to concepts fundamental to studying matter at the molecular level. Principal topics include introductions to the nature of atoms and molecules, stoichiometry, solubility rules and equilibria, gas laws, chemical equilibrium, acid-base reactions, periodic relationships, chemical bonding, molecular structure, intermolecular forces, oxidation-reduction reactions, and related applications. Laboratory work comprises a system of qualitative analysis and quantitative techniques. The course provides preparation for further study of organic chemistry, biochemistry, physical and inorganic chemistry and is intended for students who are anticipating professional study in chemistry, in related sciences, or in one of the health professions, as well as for those students who are interested in exploring the fundamental ideas of chemistry as part of their general education.

**Class Format:** pre-recorded lectures, two hours per week; recitations, two 75-minute meetings per week (in-person or remote); laboratory, one 2-hour lab per week (in-person or remote)

**Requirements/Evaluation:** frequent electronic and written weekly problem set assignments, laboratory work and analysis, quizzes, two tests, and a final exam

**Prerequisites:** Students are required to take the online Chemistry Placement Survey prior to registering for the course (chemistry.williams.edu/placement); incoming first-year students are required to meet with a faculty member during First Days.

**Enrollment Limit:** 8/lab

**Enrollment Preferences:** first-year students; students who have studied chemistry for one or more years are directed to CHEM 153 or 155

**Expected Class Size:** 32

**Grading:** yes pass/fail option, no fifth course option

**Unit Notes:** CHEM 151 may be taken concurrently with MATH 102--see under Mathematics; CHEM 151 or its equivalent is a prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

---

### Fall 2020

**LAB Section:** H5  M 3:30 pm - 5:30 pm     Laura R. Strauch

**LAB Section:** H4  M 1:00 pm - 3:00 pm     Laura R. Strauch

**LEC Section:** 01  MW 10:00 am - 11:15 am     Katie M. Hart

**LAB Section:** H6  T 1:00 pm - 3:00 pm     Laura R. Strauch

**LEC Section:** 02  MW 11:45 am - 1:00 pm     Katie M. Hart

**LEC Section:** R3  MW 11:45 am - 1:00 pm     Sarah L. Goh

**LAB Section:** H7  T 3:30 pm - 5:30 pm     Laura R. Strauch
CHEM 153 (F) Concepts of Chemistry (QFR)

This course broadens and deepens the foundation in chemistry of students who have had typically one year of chemistry at the high school level. Most students begin study of chemistry at Williams with this course. Familiarity with stoichiometry, basic concepts of equilibria, and the model of an atom is expected. Principal topics for this course include kinetic theory of gases, modern atomic theory, molecular structure and bonding, states of matter, chemical equilibrium (acid-base and solubility), and an introduction to atomic and molecular spectroscopies. Laboratory periods will largely focus on data analysis, literature, scientific writing, ethics, and other skills critical to students' development as scientists. There may also be the opportunity for some hands-on laboratory experience for students who are on-campus. The course is of interest to students who anticipate professional study in chemistry, related sciences, or one of the health professions, as well as to those who want to explore the fundamental ideas of chemistry as part of their general education.

Class Format: Lecture/discussion, three hours per week and laboratory, two hours per week

Requirements/Evaluation: quantitative weekly problem set assignments, laboratory work and reports, hour tests, and a final exam

Prerequisites: Students are required to take the online Chemistry Placement Survey prior to registering for the course (chemistry.williams.edu/placement); incoming first-year students are required to meet with a faculty member during First Days.

Enrollment Limit: 8/lab

Enrollment Preferences: incoming first year students also must meet with a faculty member during First Days

Expected Class Size: 60

Grading: yes pass/fail option, no fifth course option

Unit Notes: CHEM 153 or its equivalent is a prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2020

LAB Section: H5 M 1:00 pm - 3:00 pm Jennifer K. Rosenthal
LAB Section: H6 M 3:30 pm - 5:30 pm Jennifer K. Rosenthal
LEC Section: H4 TR 8:30 pm - 9:45 pm Lee Y. Park
LAB Section: H12 R 3:30 pm - 5:30 pm Jennifer K. Rosenthal
LAB Section: H11 R 1:00 pm - 3:00 pm Jennifer K. Rosenthal
LEC Section: R2 MW 11:45 am - 1:00 pm Bob Rawle
LAB Section: H10 W 3:30 pm - 5:30 pm Jennifer K. Rosenthal
LEC Section: 01 MW 10:00 am - 11:15 am Bob Rawle
LAB Section: H9 W 1:00 pm - 3:00 pm Jennifer K. Rosenthal
LAB Section: H8 T 3:30 pm - 5:30 pm Jennifer K. Rosenthal
LEC Section: H3 TR 6:45 pm - 8:00 pm Lee Y. Park
LAB Section: H13
LAB Section: H7 T 1:00 pm - 3:00 pm Jennifer K. Rosenthal

CHEM 155 (F) Principles of Modern Chemistry (QFR)

This course is designed for students with strong preparation in secondary school chemistry, including a laboratory experience, such as provided by an Advanced Placement chemistry course (or equivalent) with a corresponding score of 5 of the AP Chemistry Exam (or a 7 on the IB Exam, or equivalent). Topics include chemical thermodynamics, kinetics, structure and bonding, coordination chemistry, electrochemistry and spectroscopy and their application to fields such as materials science, industrial, environmental, biological, and medicinal chemistry. Laboratory/discussion periods will focus on data analysis, literature, scientific writing, ethics, and other skills critical to students' development as scientists. This course is of interest for students who are anticipating professional study in chemistry, related sciences, or one of the health professions, as well as for students who want to explore the fundamental ideas of chemistry as part of their general education.

Class Format: lecture, three hours per week and laboratory, two hours per week

Requirements/Evaluation: weekly problem sets, laboratory work and reports, an hour test, and a final exam
Prerequisites: Students are required to take the online Chemistry Placement Survey prior to registering for the course (chemistry.williams.edu/placement); incoming first-year students are required to meet with a faculty member during First Days.

Enrollment Limit: 8/lab

Enrollment Preferences: incoming first year students also must meet with a faculty member during First Days

Expected Class Size: 30

Grading: yes pass/fail option, no fifth course option

Unit Notes: CHEM 155 or its equivalent is a prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration

Distributions: (D3) (QFR)

Quantitative/ Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

CHEM 156 (S) Organic Chemistry: Introductory Level (QFR)

This course provides the necessary background in organic chemistry for students who are planning advanced study or a career in chemistry, the biological sciences, or the health professions. It initiates the systematic study of the common classes of organic compounds with emphasis on theories of structure and reactivity. The fundamentals of molecular modeling as applied to organic molecules are presented. Specific topics include basic organic structure and bonding, isomerism, stereochemistry, molecular energetics, the theory and interpretation of infrared and nuclear magnetic spectroscopy, substitution and elimination reactions, and the addition reactions of alkenes and alkynes. The coordinated laboratory work includes purification and separation techniques, structure-reactivity studies, organic synthesis, IR and NMR spectroscopy, and the identification of unknown compounds.

Class Format: lecture three hours per week and laboratory two hours per week

Requirements/Evaluation: quantitative problem sets, laboratory performance, three midterm exams, and a final exam

Prerequisites: CHEM 151 or 153 or 155 or placement exam or permission of instructor

Enrollment Limit: 21/lecture

Enrollment Preferences: Seniors, juniors, sophomores, first-year students. Preference will be given to remote students for remote sections (R13 lecture and R12 lab).

Expected Class Size: 100

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/ Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Spring 2021
LEC Section: R13 MWF 9:20 am - 10:10 am
LAB Section: R12 M 3:30 pm - 5:30 pm
LAB Section: 11 R 3:30 pm - 5:30 pm
LAB Section: 10 W 3:30 pm - 5:30 pm
LAB Section: 09 T 3:30 pm - 5:30 pm
CHEM 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

SEM Section: 01 TR 9:45 am - 11:00 am Lois M. Banta
LAB Section: H3 MW 1:00 pm - 3:00 pm Lois M. Banta
SEM Section: R2 MW 6:45 pm - 8:00 pm Lois M. Banta
LAB Section: H4 TR 1:00 pm - 3:00 pm Lois M. Banta

CHEM 321 (F)(S) Biochemistry I: Structure and Function of Biological Molecules (QFR)
Cross-listings:  BIMO 321  BIOL 321  CHEM 321

Secondary Cross-listing

This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

Class Format: Synchronous lectures (2x 75-minute meetings per week) and labs, two hours per week. Enrollment in the appropriate laboratory section is required for both in-person and remote students.

Requirements/Evaluation:  Quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports

Prerequisites:  BIOL 101 and CHEM 251/255 and CHEM 155/256

Enrollment Limit:  7/lab

Enrollment Preferences:  junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size:  14

Grading:  no pass/fail option, no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

Quantitative/Formal Reasoning Notes:  This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

CSCI 134 (F)(S) Introduction to Computer Science (QFR)

This course introduces students to the science of computation by exploring the representation and manipulation of data and algorithms. We organize and transform information in order to solve problems using algorithms written in a modern object-oriented language. Topics include organization of data using objects and classes, and the description of processes using conditional control, iteration, methods and classes. We also begin the study of abstraction, self-reference, reuse, and performance analysis. While the choice of programming language and application area will vary in different offerings, the skills students develop will transfer equally well to more advanced study in many areas. In particular, this course is designed to provide the programming skills needed for further study in computer science and is expected to satisfy introductory programming requirements in other departments.

Requirements/Evaluation: weekly programming projects, weekly written homeworks, and two examinations.

Prerequisites: none, except for the standard prerequisites for a (QFR) course; previous programming experience is not required

Enrollment Limit: 30(10/lab)

Enrollment Preferences: if the course is over-enrolled, enrollment will be determined by lottery

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with prior experience with object-oriented programming should discuss appropriate course placement with members of the department

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course include regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.
CSCI 136 (F)(S) Data Structures and Advanced Programming (QFR)

This course builds on the programming skills acquired in Computer Science 134. It couples work on program design, analysis, and verification with an introduction to the study of data structures. Data structures capture common ways in which to store and manipulate data, and they are important in the construction of sophisticated computer programs. Students are introduced to some of the most important and frequently used data structures: lists, stacks, queues, trees, hash tables, graphs, and files. Students will be expected to write several programs, ranging from very short programs to more elaborate systems. Emphasis will be placed on the development of clear, modular programs that are easy to read, debug, verify, analyze, and modify.

Class Format: Lecture content will be through asynchronously viewed video modules. Three scheduled (MWF) course sections will be used for synchronous conference meetings. Two sections will be in-person and one will be remote. There will be 5 scheduled weekly lab sections that will be remote. Students should sign up for the lecture section, one conference, and one lab.

Requirements/Evaluation: programming and written assignments, quizzes, examinations

Prerequisites: CSCI 134 or equivalent; fulfilling the Discrete Mathematics Proficiency requirement is recommended, but not required

Enrollment Limit: 60/12/lab

Enrollment Preferences: if the course is over-enrolled, enrollment will be determined by lottery

Expected Class Size: 60

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course include regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.
CSCI 237 (F)(S) Computer Organization (QFR)

This course studies the basic instruction set architecture and organization of a modern computer. It provides a programmer's view of how computer systems execute programs, store information, and communicate. Over the semester the student learns the fundamentals of translating higher level languages into assembly language, and the interpretation of machine languages by hardware. At the same time, a model of computer hardware organization is developed from the gate level upward.

Class Format: There is no scheduled time for lectures. They will be available for asynchronous viewing. Each lab section will meet once per week. Students should sign up for lecture and one lab.

Requirements/Evaluation: weekly programming assignments and/or problem sets, midterm and final exams

Prerequisites: CSCI 136

Enrollment Limit: 20 (7/lab)

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course will consist of programming assignments and problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2020

LAB Section: 05 MW 10:00 am - 11:15 am Kelly A. Shaw
LAB Section: 03 TF 3:15 pm - 4:30 pm Kelly A. Shaw
LAB Section: 04 WF 1:30 pm - 2:45 pm Kelly A. Shaw
LAB Section: 06 MW 11:45 am - 1:00 pm Kelly A. Shaw
LEC Section: R1 TBA Kelly A. Shaw
LAB Section: 02 TF 1:30 pm - 2:45 pm Kelly A. Shaw

Spring 2021

LAB Section: R2 W 8:15 am - 9:30 am Kelly A. Shaw
LEC Section: R1 TBA Kelly A. Shaw
LAB Section: 03 W 11:45 am - 1:00 pm Kelly A. Shaw
LAB Section: 04 W 1:30 pm - 2:45 pm Kelly A. Shaw
CSCI 256 (F)(S) Algorithm Design and Analysis (QFR)
This course investigates methods for designing efficient and reliable algorithms. By carefully analyzing the structure of a problem within a mathematical framework, it is often possible to dramatically decrease the computational resources needed to find a solution. In addition, analysis provides a method for verifying the correctness of an algorithm and accurately estimating its running time and space requirements. We will study several algorithm design strategies that build on data structures and programming techniques introduced in Computer Science 136. These include induction, divide-and-conquer, dynamic programming, and greedy algorithms. Additional topics of study include algorithms on graphs and strategies for handling potentially intractable problems.

Class Format: Lectures will be simultaneously recorded in classroom and broadcast over Zoom. Office hours will be done over Zoom. Some additional course materials (examples, solutions, definitions and core concepts, etc.) may be provided as prerecorded videos.

Requirements/Evaluation: Problem sets, midterm and final examinations
Prerequisites: CSCI 136 and fulfillment of the Discrete Mathematics Proficiency requirement
Enrollment Limit: 20
Enrollment Preferences: Preference will be given to students who need the class in order to complete the major. Ties will be broken by seniority (seniors first, then juniors, etc.).
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course will have weekly problem sets in which students will formally prove statements about the behavior and performance of algorithms. In short, the entirety of the course is about applying abstract and mathematical reasoning to the way computers work.

Fall 2020
LEC Section: H1 MWF 10:40 am - 11:30 am Samuel McCauley
Spring 2021
LEC Section: H1 MWF 10:40 am - 11:30 am Shikha Singh
LEC Section: H2 MWF 12:00 pm - 12:50 pm Shikha Singh

CSCI 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)
Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319
Secondary Cross-listing
What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal
Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.
Enrollment Limit: 12
Enrollment Preferences:  seniors, then juniors, then sophomores

Expected Class Size:  12

Grading:  yes pass/fail option,  yes fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3)  CHEM 319 (D3)  BIOL 319 (D3)  PHYS 319 (D3)  CSCI 319 (D3)

Quantative/Formal Reasoning Notes:  Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

SEM Section: 01  TR 9:45 am - 11:00 am  Lois M. Banta
SEM Section: R2  MW 6:45 pm - 8:00 pm  Lois M. Banta
LAB Section: H3  MW 1:00 pm - 3:00 pm  Lois M. Banta
LAB Section: H4  TR 1:00 pm - 3:00 pm  Lois M. Banta

CSCI 333  (S)  Storage Systems  (QFR)

This course will examine topics in the design, implementation, and evaluation of storage systems. Topics include the memory hierarchy; ways that data is organized (both logically and physically); storage hardware and its influence on storage software designs; data structures; performance models; and system measurement/evaluation. Readings will be taken from recent technical literature, and an emphasis will be placed on identifying and evaluating design trade-offs.

Class Format:  Lecture content will be through asynchronously viewed video modules. Two scheduled conference sections will each meet twice per week. They will be used for synchronous conference meetings that include discussions, activities, and programming tasks. One conference section will be in-person and one will be remote. Students should sign up for the lecture section and one conference section.

Requirements/Evaluation:  programming assignments, quizzes, midterm examination, and a final project

Prerequisites:  CSCI 136; CSCI 237 or permission of instructor

Enrollment Limit:  40

Enrollment Preferences:  current Computer Science majors, students with research experience or interest

Expected Class Size:  40

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D3)  (QFR)

Quantative/Formal Reasoning Notes:  This course will have students develop quantitative/formal reasoning skills through problem sets and programming assignments.

Spring 2021

LEC Section: R1  ASYN  Bill K. Jannen
CON Section: 03  TR 11:30 am - 12:45 pm  Bill K. Jannen
CON Section: R2  TR 9:45 am - 11:00 am  Bill K. Jannen

CSCI 334  (F)(S)  Principles of Programming Languages  (QFR)

This course examines the concepts and structures governing the design and implementation of programming languages. It presents an introduction to the concepts behind compilers and run-time representations of programming languages; features of programming languages supporting abstraction and polymorphism; and the procedural, functional, object-oriented, and concurrent programming paradigms. Programs will be required in languages illustrating each of these paradigms.

Class Format:  There is no scheduled time for lectures. They will be available online for asynchronous viewing. Each conference section will meet once per week. Students should sign up for lecture and one conference.
**Requirements/Evaluation:** weekly problem sets and programming assignments, a midterm examination, and a final examination

**Enrollment Limit:** 20

**Prerequisites:** CSCI 136

**Enrollment Preferences:** current or expected Computer Science majors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This course include regular and substantial problem sets and labs in which quantitative/formal reasoning skills are practiced and evaluated.

**CSCI 357 (F) Algorithmic Game Theory** (QFR)

This course focuses on topics in game theory and mechanism design from a computational perspective. We will explore questions such as: how to design algorithms that incentivize truthful behavior, that is, where the participants have no incentive to cheat? Should we let drivers selfishly minimize their commute time or let a central algorithm direct traffic? Does Arrow's impossibility result mean that all voting protocols are doomed? The overarching goal of these questions is to understand and analyze selfish behavior and whether it can or should influence system design. Students will learn how to model and reason about incentives in computational systems both theoretically and empirically. Topics include types of equilibria, efficiency of equilibria, auction design, network games, two-sided markets, incentives in computational applications such as file sharing and cryptocurrencies, and computational social choice.

**Class Format:** Synchronous in-class lectures will be broadcast live to remote students via zoom and recorded for asynchronous viewing. Lecture content may additionally be supplemented with prerecorded videos, and scheduled class time used as exercise or review sessions.

**Requirements/Evaluation:** weekly problem sets and/or programming assignments, two midterm exams, and a final project.

**Prerequisites:** CSCI 256 or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** current or expected Computer Science majors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** The course will consist problem sets and programming assignments in which quantitative/formal reasoning skills are practiced and evaluated.

**CSCI 361 (F)(S) Theory of Computation** (QFR)
Cross-listings: MATH 361  CSCI 361

Primary Cross-listing

This course introduces a formal framework for investigating both the computability and complexity of problems. We study several models of computation including finite automata, regular languages, context-free grammars, and Turing machines. These models provide a mathematical basis for the study of computability theory--the examination of what problems can be solved and what problems cannot be solved--and the study of complexity theory--the examination of how efficiently problems can be solved. Topics include the halting problem and the P versus NP problem.

Class Format: Lecture content will be delivered through asynchronously viewed video modules. Conference sections meeting twice per week will be used for synchronous discussions. Students should sign up for lecture and one conference section.

Requirements/Evaluation: online multiple choice and short answer questions, weekly problem sets in groups, a research project, and a final examination

Prerequisites: CSCI 256 or both a 300-level MATH course and permission of instructor

Enrollment Limit: 40(10/con)

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 40

Grading: yes pass/fail option, no fifth course option

Distributions: (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 361 (D3) CSCI 361 (D3)

Quantitative/Formal Reasoning Notes: This course include regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

CSCI 374  (F)(S)  Machine Learning  (QFR)

This tutorial examines the design, implementation, and analysis of machine learning algorithms. Machine Learning is a field that derives from Artificial Intelligence, Statistics, and others, and aims to develop algorithms that will improve a system's performance. Improvement might involve acquiring new factual knowledge from data, learning to perform a new task, or learning to perform an old task more efficiently or effectively. This tutorial will cover examples of supervised learning algorithms (including Bayesian approaches, support vector machines, and neural networks -- both deep and traditional), unsupervised learning algorithms (including k-means and expectation maximization), and possibly reinforcement learning algorithms (such as Q learning and temporal difference learning). It will also introduce methods for the evaluation of learning algorithms, as well as topics in computational learning theory and ethics.

Class Format: Though this course will be offered remotely by the instructor, pairs of students on campus may choose to meet in person for their tutorial sessions. If so, a classroom will be scheduled for them by the instructor.

Requirements/Evaluation: presentations, problem sets, programming exercises, empirical analyses of algorithms, critical analysis of current literature; the final two weeks are focused on a project of the student's design.

Prerequisites: CSCI 136 and CSCI 256 or permission of instructor

Enrollment Limit: 10
**Enrollment Preferences:** Computer Science majors  
**Expected Class Size:** 10  
**Grading:** no pass/fail option, no fifth course option  
**Distributions:** (D3) (QFR)  

**Quantitative/Formal Reasoning Notes:** This course heavily relies on discrete mathematics, calculus, and elementary statistics. Students will be proving theorems, among many other mathematically oriented assignments. Additionally, they will be programming, which involves analytical and logical thinking.

**CSCI 377  (F)(S) Human Work in Computational Systems  (QFR)**  
**Cross-listings:** CSCI 377  STS 375  

**Primary Cross-listing**  
As far as we know, the technological singularity has not yet arrived. Therefore, humans remain a part of our current computation pipeline. However, the role humans play varies greatly: self-driving cars aim to have human involvement only in development and emergencies, whereas educational tools are built for constant human involvement. In this course, we broadly explore human work within computational systems through topics such as crowdsourcing, educational technology, citizen science, human computation, open-source software, micro-labor markets, and online gaming. Students should expect broad exposure to a wide variety of human computing topics and group projects on building and evaluating computational systems that use human work.

**Class Format:** Lectures will be held on Wednesday and Friday each week. Conference sections will each meet once per week. Students should sign up for the lecture section and one conference.

**Requirements/Evaluation:** Course projects, in-class group work/participation, weekly written homework assignments/readings.  
**Prerequisites:** CSCI 136  
**Enrollment Limit:** 20  
**Enrollment Preferences:** Preference for current CS majors  
**Expected Class Size:** 20  
**Grading:** yes pass/fail option, no fifth course option  
**Materials/Lab Fee:** $75 for purchase of software and work on crowdsourcing platforms.  
**Distributions:** (D3) (QFR)  

**This course is cross-listed and the prefixes carry the following divisional credit:**  
CSCI 377 (D3) STS 375 (D2)  

**Quantitative/Formal Reasoning Notes:** This course includes regular homework and projects in which quantitative/formal reasoning skills are practiced and evaluated.

ECON 110  (F)(S)  Principles of Microeconomics  (QFR)
This course is an introduction to the study of the forces of supply and demand that determine prices and the allocation of resources in markets for goods and services, markets for labor, and markets for natural resources. The focus is on how and why markets work, why they may fail to work, and the policy implications of both their successes and failures. The course focuses on developing the basic tools of microeconomic analysis and then applying those tools to topics of popular or policy interest such as minimum wage legislation, pollution control, competition policy, international trade policy, discrimination, tax policy, and the role of government in a market economy.

Class Format: Sections taught by Professors Bradburd and Chao will be strictly remote, with both asynchronous and synchronous components. All other sections will be taught in a hybrid format and will include in-person elements.

Requirements/Evaluation: problem sets, quizzes, short essays, two midterms, final exam

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: This course is required of Economics and Political Economy majors and highly recommended for those non-majors interested in Environmental Studies and Women's, Gender and Sexuality Studies.

Expected Class Size: 30

Grading: yes pass/fail option,  no fifth course option

Unit Notes: The department recommends students follow this course with ECON 120 or with a lower-level elective that has ECON 110 as its prerequisite; students may alternatively proceed directly to ECON 251 after taking this introductory course.

Distributions:  (D2)  (QFR)

Quantative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.

Fall 2020
LEC Section: R7   MR 1:30 pm - 2:45 pm   Lucie Schmidt
LEC Section: R2   TF 3:15 pm - 4:30 pm   Ralph M. Bradburd

LEC Section: 03   TF 3:15 pm - 4:30 pm   Owen Thompson

ECON 120  (F)(S)  Principles of Macroeconomics  (QFR)
This course provides an introduction to the study of the aggregate national economy. It develops the basic theories of macroeconomics and applies them to topics of current interest. Issues to be explored include: the causes of inflation, unemployment, recessions, and depressions; the role of government fiscal and monetary policy in stabilizing the economy; the determinants of long-run economic growth; the long- and short-run effects of taxes, budget deficits, and other government policies on the national economy; the role of financial frictions in amplifying recessions; and the workings of exchange rates and international finance.
Class Format: Prof. Bakija and Prof. LaLumia intend to teach their synchronous class meetings primarily in an in-person, and not hybrid, format. Students who need to participate remotely must enroll in Prof. Casey’s sections instead. Prof. Bakija intends to implement some mix of in-person lecture and discussion (maybe outside when the weather permits), pre-recorded video lectures to watch before class, and possibly occasional Zoom-based discussion, depending on public health conditions at the time.

Requirements/Evaluation: Depending on instructor, may include: problem sets, short essays, quizzes, reading assignments, either one or two midterms, and a final exam.

Prerequisites: ECON 110

Enrollment Limit: 30

Enrollment Preferences: First-year students and sophomores.

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.

Fall 2020

LEC Section: 05 MW 10:00 am - 11:15 am Sara LaLumia

ECON 213 (F) Introduction to Environmental and Natural Resource Economics (QFR)

Cross-listings: ECON 213 ENVI 213

Primary Cross-listing

We’ll use economics to learn why we harm the environment and overuse natural resources, and what we can do about it. We’ll talk about whether and how we can put a dollar value on nature and ecosystem services. We’ll study cost benefit analysis, pollution in general, climate change, environmental justice, natural resources (like fisheries, forests, and fossil fuels), and energy. We will take an economic approach to global sustainability, and study the relationship between the environment and economic growth and trade. Consideration of justice and equity will be woven through the whole semester.

Class Format: We will likely use small, focused discussion groups in combination with lectures

Requirements/Evaluation: problem sets, short essays, final paper; intermediate assignments may include poster, presentation, brief writing assignment

Prerequisites: ECON 110 or equivalent

Enrollment Limit: 25

Enrollment Preferences: first-year and sophomore students

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Unit Notes: this course will count toward both the Environmental Studies major and concentration

Distributions: (D2) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 213 (D2) ENVI 213 (D2)
Quantitative/Formal Reasoning Notes: We will use formal theory expressed in math and graphs, perform calculations, and consume statistical data.

Fall 2020
LEC Section: H1  MW 6:45 pm - 8:00 pm  Sarah A. Jacobson

ECON 251  (F)(S)  Price and Allocation Theory  (QFR)
A study of the determination of relative prices and their importance in shaping the allocation of resources and the distribution of income. Subjects include: behavior of households in a variety of settings, such as buying goods and services, saving, and labor supply; behavior of firms in various kinds of markets; results of competitive and noncompetitive markets in goods, labor, land, and capital; market failure; government policies as sources of and responses to market failure; welfare criteria; limitations of mainstream analysis.

Class Format: Sections taught by Professors Jakiela and Sheppard in the fall will be strictly remote, with both asynchronous and synchronous components. Sections taught by Professor Rai in the spring will be fully remote; students are expected to participate in both synchronous and asynchronous components. The spring section taught by Jacobson will be in person.

Requirements/Evaluation: Requirements vary by professor, but typically include frequent problem sets and multiple exams, including a final exam. They may also include one or more quizzes or short essays.

Prerequisites: ECON 110 and MATH 130 or its equivalent

Enrollment Limit: 20

Enrollment Preferences: Current or prospective Economics majors.

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D2)  (QFR)

Quantitative/Formal Reasoning Notes: Course involves developing and analyzing mathematical models of real-world phenomena, grounded in tools like calculus and game theory. Students are assumed to be comfortable with topics from introductory calculus, including differentiation and integration.

Fall 2020
LEC Section: R1  TF 1:30 pm - 2:45 pm  Pamela Jakiela
LEC Section: R4  MR 3:15 pm - 4:30 pm  Stephen C. Sheppard
LEC Section: R3  MR 1:30 pm - 2:45 pm  Stephen C. Sheppard
LEC Section: R2  TF 3:15 pm - 4:30 pm  Pamela Jakiela

Spring 2021
LEC Section: R2  MR 1:30 pm - 2:45 pm  Ashok S. Rai
LEC Section: R3  MR 3:15 pm - 4:30 pm  Ashok S. Rai
LEC Section: 01  TR 11:30 am - 12:45 pm  Sarah A. Jacobson

ECON 252  (F)(S)  Macroeconomics  (QFR)
A study of aggregate economic activity: output, employment, inflation, and interest rates. The class will develop a theoretical framework for analyzing economic growth and business cycles. The theory will be used to evaluate policies designed to promote growth and stability, and to understand economic developments in the U.S. and abroad. Instructors may use elementary calculus in assigned readings, exams and lectures.

Class Format: Sections taught by Professor Pedroni in the fall will be strictly remote, with both asynchronous and synchronous components. Professor Montiel's fall section will be taught in person. Spring section formats are TBD.

Requirements/Evaluation: problem sets and/or written assignments, midterm(s), and a final exam

Prerequisites: ECON 110 and 120 and MATH 130 or its equivalent

Enrollment Limit: 20

Enrollment Preferences: Current or prospective Economics majors.

Expected Class Size: 20
Grading: no pass/fail option, no fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.

Fall 2020
LEC Section: R2 TF 1:30 pm - 2:45 pm Peter L. Pedroni
LEC Section: 01 MWF 8:15 am - 9:30 am Peter J. Montiel
LEC Section: R3 TF 3:15 pm - 4:30 pm Peter L. Pedroni

LEC Section: 04 MW 10:00 am - 11:15 am Greg Phelan
LEC Section: 03 MWF 8:15 am - 9:30 am Greg Phelan
LEC Section: R2 TF 3:15 pm - 4:30 pm Peter L. Pedroni
LEC Section: R1 TF 1:30 pm - 2:45 pm Kenneth N. Kuttner

ECON 255 (F)(S) Econometrics (QFR)
An introduction to the theory and practice of applied quantitative economic analysis. This course familiarizes students with the strengths and weaknesses of the basic empirical methods used by economists to evaluate economic theory against economic data. Emphasizes both the statistical foundations of regression techniques and the practical application of those techniques in empirical research, with a focus on understanding when a causal interpretation is warranted. Computer exercises will provide experience in using the empirical methods, but no previous computer experience is expected. Highly recommended for students considering graduate training in economics or public policy.

Class Format: Professor Ozier's fall section will be strictly remote, with both asynchronous and synchronous components. Professor Zimmerman's fall section will be taught in a hybrid format and will include in-person elements. Spring section formats are TBD.

Requirements/Evaluation: problem sets, two exams, group project, and possible additional assignments

Prerequisites: MATH 130, plus STAT 161, 201 or 202 (or equivalent), plus one course in ECON; STAT 101 will also serve as a prerequisite, but only if taken prior to the fall of 2018

Enrollment Limit: 20

Enrollment Preferences: Current or prospective Economics and Political Economy majors.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: Students may substitute the combination of STAT 201 and 346 for ECON 255

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: Course teaches research tools necessary to analyze data.

Fall 2020
LEC Section: R1 TR 11:30 am - 12:45 pm Owen Ozier

LEC Section: R2 MR 3:15 pm - 4:30 pm Matthew Gibson
LEC Section: R3 MW 10:00 am - 11:15 am Owen Ozier

ECON 360 (S) Monetary Economics (QFR)
This course covers a range of theoretical and applied issues bearing on monetary policy as conducted in the U.S. and abroad. Topics to be discussed
What causes inflation? What are the channels through which monetary policy affects the economy? Why should central banks commit to policy rules? How do exchange rates respond to monetary policy? How did the gold standard work? And will cryptocurrencies replace the dollar? In addition, we will develop and learn how to simulate the "New Keynesian" macroeconomic model, which has become the standard framework for monetary policy analysis for central banks around the world.

Requirements/Evaluation: at least one exam, a research paper and a class presentation

Prerequisites: ECON 252 and 255. Multivariate calculus (MATH 150 or 151) is recommended but not required

Enrollment Limit: 20

Enrollment Preferences: junior and senior Economics majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: The course entails the use of mathematical economic models, the presentation of quantitative information, and the interpretation of statistical analysis.

Spring 2021

LEC Section: H1    TR 9:45 am - 11:00 am     Kenneth N. Kuttner

ECON 376  (F)  The Economics of Global Inequality  (QFR)

This course focuses on the proximate and ultimate causes of global economic inequality across nations. Motivated by several stylized facts from cross-country data, we will pose a series of questions: Why are some countries so rich while others remain so poor? What explains heterogeneity in the experience of economic growth across nations, with some growing at a moderate pace over long periods of time, others experiencing rapid growth over shorter intervals, and yet others stagnating persistently? Do all economies face comparable challenges to achieving sustained economic growth? Will poorer countries ever catch up to richer ones? To answer these and other related questions, we will explore the underlying mechanisms of economic growth. What role is played by savings and investment (i.e., the accumulation of physical capital)? What is the influence of population growth? How important are investments in human capital (i.e., education and population health)? What about technological differences across nations? How much significance should we ascribe to cross-country differences in geographical characteristics? How much should we ascribe to differences in the quality of institutions? For each question, we will explore both theoretical and empirical approaches, ranging from formal models to qualitative historical evidence to cross-country growth regressions. We will debate the usefulness of these different approaches for development policy and will discuss the reasons why so many questions about global economic inequality remain difficult to answer.

Class Format: This course will be taught in hybrid format in Fall 2020. All classroom lectures will be recorded and made available for remote learners unable to attend lectures virtually. Problem set assignments and exams may be submitted electronically as needed, and all exams will be "take home." Additional office hours will be offered to accommodate the needs of remote learners.

Requirements/Evaluation: Problem sets, one midterm exam, final exam.

Prerequisites: ECON 252 and either ECON 255 or STAT 346. ECON 251 recommended but not required.

Enrollment Limit: 20

Enrollment Preferences: Junior and senior economics majors.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: The course material will draw heavily on mathematical and statistical models of economic growth and cross-country comparative development. Students will routinely work on sophisticated mathematical models of economic growth, involving the application of solution concepts from dynamic optimization and differential equations. Students will also be required to perform some econometric analyses in their assignments.

Fall 2020

LEC Section: H1    TF 1:30 pm - 2:45 pm     Quamrul H. Ashraf
ECON 384  (F)  Corporate Finance  
This course analyzes the major financial decisions facing firms. While the course takes the perspective of a manager making decisions about both what investments to undertake and how to finance these projects, it will emphasize the underlying economic models that are relevant for these decisions. Topics include capital budgeting, links between real and financial investments, capital structure choices, dividend policy, and firm valuation. Additional topics may include issues in corporate risk management, corporate governance and corporate restructuring, such as mergers and acquisitions. In the fall of 2020, special consideration will be given to how both financial and real economic shocks interact with firms' financial decisions.

Class Format: Lecture / discussion; in the fall of 2020, some weeks we will meet for one 75-minute section (in person when possible) and break into smaller groups for one hour section groups (most likely remote). The timing of the sections will be arranged at the beginning of the semester.

Requirements/Evaluation: class participation, problem sets, short quizzes, short projects such as case write ups, a midterm exam, a final exercise and a research paper (possibly written with a partner)

Prerequisites: ECON 251, 252, and some familiarity with statistics (e.g., ECON 255)

Enrollment Limit: 20

Enrollment Preferences: Senior Economics majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (QFR)

Quantative/Formal Reasoning Notes: The course uses quantitative models to evaluate decisions.

Fall 2020
LEC Section: R2  MWF 11:45 am - 1:00 pm  William M. Gentry
LEC Section: 01  MW 6:45 pm - 8:00 pm  William M. Gentry

ECON 387  (F)  Economics of Climate Change  

Cross-listings: ECON 522  ENVI 387  ECON 387

Primary Cross-listing

This course introduces the economic view of climate change, including both theory and empirical evidence. Given the substantial changes implied by the current stock of greenhouse gases (GHGs) in the atmosphere, we will begin by looking at impacts on agriculture, health, income, and migration. We will consider the distribution of climate damages across poor and wealthy people, both within and across countries. Next we will study adaptation, including capital investments and behavioral changes. We will examine the sources of climate change, especially electricity generation and transportation, and think about optimal policies. What is the socially optimal amount of climate change? Why have countries had such a hard time agreeing on GHG emissions reductions, and how might we overcome such difficulties? We will consider the growing body of evidence from attempts to regulate GHGs, including China's cap-and-trade programs, the EU ETS, and US state policies. Throughout the course we will discuss the limits of the economic approach, pointing out normative questions on which economic theory provides little guidance.

Class Format: Lectures, office hours and TA sessions will take place on Zoom.

Requirements/Evaluation: problem sets, midterm, group presentation, final exam

Prerequisites: ECON 251, familiarity with statistics

Enrollment Limit: 20

Enrollment Preferences: Junior/Senior Economics majors and CDE fellows

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 522 (D2) ENVI 387 (D2) ECON 387 (D2)

Quantative/Formal Reasoning Notes: The course involves simple calculus-based theory and applied statistics.
ECON 477 (F) Economics of Environmental Behavior  (QFR)

Cross-listings: ECON 477 ENVI 376

Primary Cross-listing

A community maintains a fishery; a firm decides whether to get a green certification; you choose to fly home or stay here for spring break: behaviors of people and firms determine our impact on the environment. We’ll use economics to model environmental behavior and to consider how policies can help or hurt the environment. Topics we’ll study include: voluntary conservation, social norms and nudges, firm responses to mandatory and voluntary rules, and boycotts and divestment.

Class Format: Class sessions will largely consist of presentations and discussions of academic research papers, as well as lab sessions to work on empirical exercises; we may break the class into groups for some discussions

Requirements/Evaluation: regular reading responses, empirical exercises, class participation, 2 oral presentations, and a final original research paper using an experiment, existing data, or theory

Prerequisites: ECON 251 and (ECON 255 or STAT 346)

Enrollment Limit: 15

Enrollment Preferences: senior Economics majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit: ECON 477 (D2) ENVI 376 (D2)

Quantitative/Formal Reasoning Notes: The research students will consume and produce in the class will be based on math-based theory and/or econometric-based empirical analysis.

ECON 522 (F) Economics of Climate Change  (QFR)

Cross-listings: ECON 522 ENVI 387 ECON 387

Secondary Cross-listing

This course introduces the economic view of climate change, including both theory and empirical evidence. Given the substantial changes implied by the current stock of greenhouse gases (GHGs) in the atmosphere, we will begin by looking at impacts on agriculture, health, income, and migration.

We will consider the distribution of climate damages across poor and wealthy people, both within and across countries. Next we will study adaptation, including capital investments and behavioral changes. We will examine the sources of climate change, especially electricity generation and transportation, and think about optimal policies. What is the socially optimal amount of climate change? Why have countries had such a hard time agreeing on GHG emissions reductions, and how might we overcome such difficulties? We will consider the growing body of evidence from attempts to regulate GHGs, including China's cap-and-trade programs, the EU ETS, and US state policies. Throughout the course we will discuss the limits of the economic approach, pointing out normative questions on which economic theory provides little guidance.

Class Format: Lectures, office hours and TA sessions will take place on Zoom.

Requirements/Evaluation: problem sets, midterm, group presentation, final exam

Prerequisites: ECON 251, familiarity with statistics

Enrollment Limit: 20

Enrollment Preferences: Junior/Senior Economics majors and CDE fellows

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option
ENVI 203 (F) Ecology (QFR)

**Cross-listings:** ENVI 203 BIOL 203

**Secondary Cross-listing**

This course combines lectures with field and indoor laboratory exercises to explore factors that determine the distribution and abundance of plants and animals in natural systems. The course begins with an overall view of global patterns and then builds from the population to the ecosystem level. An emphasis is given to basic ecological principles and relates them to current environmental issues. Selected topics include population dynamics (competition, predation, mutualism); community interactions (succession, food chains and diversity) and ecosystem function (biogeochemical cycles, energy flow). In Fall 2020, the course will use a hybrid model, with recorded lecture material available to all students. In person and remote class meetings will focus on problem sets and interactive case studies. Labs will be available in either in person or remote modalities. Remote participants will have the opportunity to collect their own data for some lab exercises, while in other cases will receive background information and media describing the data collection process. All students will be required to complete all data analyses and written lab reports.

**Class Format:** Six hours per week. All labs will be available in both remote and in-person modalities. All students (whether in person or remote) may choose their preferred modality for each lab module. Due to COVID-19 distancing requirements, some labs will require walking to field sites. The instructor will work with individual students to identify accommodations that support in person lab participation as needed.

**Requirements/Evaluation:** problem sets, lab reports, hour exams, and a final exam

**Prerequisites:** BIOL 101 and 102, or ENVI 101 or 102, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** students planning to pursue Biology and/or ENVI

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** satisfies the distribution requirement for the Biology major

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 203 (D3) BIOL 203 (D3)

**Quantitative/Formal Reasoning Notes:** Much of the material in this course centers on the interpretation and application of mathematical models used to describe ecological systems. The laboratory section of this course also contains a large data analysis component. Students are introduced to t-tests, Mann-Whitney U tests, chi-square analysis, and regression.
interact. Greenhouse gas emission scenarios will form the basis for investigating how these systems might respond to human activity. This course will explore how heat and mass are moved around the atmosphere and ocean to demonstrate how the geographic patterns of climate change arise. We will also focus on climate feedback effects—like the albedo feedback associated with sea ice and glacier loss—and how these processes can accelerate climate change. In labs we will learn MATLAB to use process and full-scale climate models to investigate the behavior of these systems in response to increasing greenhouse gasses in the atmosphere. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: Lectures will be held synchronously online. Labs will be remote and in small groups. Lab groups will each meet online for two 1-hour sessions each week, scheduled according to the needs of the class. In-person office hours available.

Requirements/Evaluation: 4 multi-week lab projects and several short quizzes

Prerequisites: Any of GEOS 100, GEOS 103, ENVI 102, GEOS 215, or permission of instructor

Enrollment Limit: 30

Enrollment Preferences: GEOS and ENVI majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 309 (D3) ENVI 209 (D3)

Quantitative/Formal Reasoning Notes: Labs consist of a series of numerical climate modeling projects, which require significant quantitative and logical reasoning.

Fall 2020

LEC Section: R1  TR 9:45 am - 11:00 am  Alice C. Bradley

ENVI 213  (F)  Introduction to Environmental and Natural Resource Economics  (QFR)

Cross-listings: ECON 213  ENVI 213

Secondary Cross-listing

We'll use economics to learn why we harm the environment and overuse natural resources, and what we can do about it. We'll talk about whether and how we can put a dollar value on nature and ecosystem services. We'll study cost benefit analysis, pollution in general, climate change, environmental justice, natural resources (like fisheries, forests, and fossil fuels), and energy. We will take an economic approach to global sustainability, and study the relationship between the environment and economic growth and trade. Consideration of justice and equity will be woven through the whole semester.

Class Format: We will likely use small, focused discussion groups in combination with lectures

Requirements/Evaluation: problem sets, short essays, final paper; intermediate assignments may include poster, presentation, brief writing assignment

Prerequisites: ECON 110 or equivalent

Enrollment Limit: 25

Enrollment Preferences: first-year and sophomore students

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Unit Notes: this course will count toward both the Environmental Studies major and concentration

Distributions: (D2) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
ECON 213 (D2) ENVI 213 (D2)

Quantitative/Formal Reasoning Notes: We will use formal theory expressed in math and graphs, perform calculations, and consume statistical data.

Fall 2020

LEC Section: H1  MW 6:45 pm - 8:00 pm  Sarah A. Jacobson
ENVI 339 (F) Conservation Biology (QFR)

Cross-listings: ENVI 339 BIOL 329

Secondary Cross-listing

This course examines the application of population genetics, population ecology, community ecology, and systematics to the conservation of biological diversity. The overarching theme of the course is on the role of stochastic processes for small populations. Lecture/discussion topics will include extinction, the genetics of small populations, metapopulations, and importantly, conservation strategies. Labs will include a mixture of computer and lab projects.

Class Format: lecture and discussion, 3 hours per week; lab, 1.25 hours per week. Students will be assigned to a lab section (block AA - either W or F from 1:30-2:45) during the first week of class.

Requirements/Evaluation: Evaluation will be based on lab assignments, two exams, discussion participation, and an independent project.

Prerequisites: BIOL 203/ENVI 203, or BIOL 305, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Biology majors, seniors, and juniors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: Satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 339 (D3) BIOL 329 (D3)

Quantitative/Formal Reasoning Notes: This course uses quantitative and statistical analyses in both the laboratory and lecture portion of the course. In lectures, mathematical models will be covered to understand conservation dynamics. In lab, students will collect and analyze data and present results in graphical and statistical forms.

Fall 2020

**Fall 2020**

**LEC Section:** R1   TR 9:45 am - 11:00 am   Alice C. Bradley

**MATH 119 (F) The Mathematics of Pandemics: From the Spread of Infections to Cost-Benefit Analyses of Responses** (QFR)

The goal of the class is to help students learn to ask the right questions, and to gather and analyze the data needed to answer them, to understand the covid pandemic and the worldwide responses. Through local experts and numerous guest speakers playing key roles in these problems, we will discuss numerous aspects, from mathematical models for virus propagation to analyzing the economic, educational, social and emotional consequences of lockdowns and social distancing; from moral and legal dilemmas created by the pandemic and responses to the international political scene and relations between countries. Offered as Math 119 or Math 312 (those taking as Math 312 will have some of the readings replaced with more technical modeling papers and subsequent homework). Pre-requisites: None for Math 119; for Math 312 linear algebra is recommended.

**Requirements/Evaluation:** Homework, writing, class participation.

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** all students will have an equal chance; if possible none will be turned away.

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** We will discuss mathematical models and use statistics to analyze data.

---

**Fall 2020**

**LEC Section:** H1   MWF 10:40 am - 11:30 am   Steven J. Miller

**MATH 130 (F)(S) Calculus I** (QFR)

Calculus permits the computation of velocities and other instantaneous rates of change by a limiting process called differentiation. The same process also solves "max-min" problems: how to maximize profit or minimize pollution. A second limiting process, called integration, permits the computation of areas and accumulations of income or medicines. The Fundamental Theorem of Calculus provides a useful and surprising link between the two processes. Subtopics include trigonometry, exponential growth, and logarithms.

**Requirements/Evaluation:** Weekly homework and quizzes, 2 exams during the semester, and one final

**Prerequisites:** MATH 102 (or demonstrated proficiency on a diagnostic test); this is an introductory course for students who have not seen calculus before

**Enrollment Limit:** 30

**Enrollment Preferences:** first-year students

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** students who have previously taken a calculus course may not enroll in MATH 130 without the permission of instructor
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is a calculus course.

Fall 2020
LEC Section: H1  TF 1:30 pm - 2:45 pm  Lori A. Pedersen
LEC Section: H2  TF 3:15 pm - 4:30 pm  Lori A. Pedersen

Spring 2021
LEC Section: H1  MWF 9:20 am - 10:10 am  Lori A. Pedersen

MATH 140 (F)(S) Calculus II (QFR)
Mastery of calculus requires understanding how integration computes areas and business profit and acquiring a stock of techniques. Further methods solve equations involving derivatives ("differential equations") for population growth or pollution levels. Exponential and logarithmic functions and trigonometric and inverse functions play an important role. This course is the right starting point for students who have seen derivatives, but not necessarily integrals, before.

Requirements/Evaluation: homework, quizzes, and/or exams
Prerequisites: MATH 130 or equivalent; students who have received the equivalent of advanced placement of AB 4, BC 3 or higher may not enroll in MATH 140 without the permission of instructor
Enrollment Limit: 30
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Unit Notes: students who have higher advanced placement must enroll in MATH 150 or above
Distributions: (D3) (QFR)

Fall 2020
LEC Section: R2  TF 3:15 pm - 4:30 pm  Josh Carlson
LEC Section: R1  TF 1:30 pm - 2:45 pm  Josh Carlson

Spring 2021
LEC Section: R1  TR 9:45 am - 11:00 am  Josh Carlson

MATH 150 (F)(S) Multivariable Calculus (QFR)
Applications of calculus in mathematics, science, economics, psychology, the social sciences, involve several variables. This course extends calculus to several variables: vectors, partial derivatives, multiple integrals. There is also a unit on infinite series, sometimes with applications to differential equations. Note: This course will be taught via flipped-course method, an instructional strategy reversing the traditional learning environment by delivering instructional content outside of the classroom. This includes prerecorded lectures along with questions that students must watch and answer prior to attending class. Class time include synchronous meetings clarifying concepts and working in small groups through challenging problems with the support of the professor and peers. Building positive collaborative working relationships and public speaking skills will be added benefits of this course.

Requirements/Evaluation: Video readiness assessments, problem sets, exams, and participation.
Prerequisites: MATH 140 or equivalent, such as satisfactory performance on an Advanced Placement Examination
Enrollment Limit: 30
Enrollment Preferences: Professor's discretion
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Unit Notes: students with the equivalent of advanced placement of AB 4 or above should enroll in MATH 150, students with a BC 3 or higher should enroll in Math 151 when it is being offered, and Math 150 otherwise.
Distributions: (D3) (QFR)
MATH 151  (F)  Multivariable Calculus  (QFR)
Applications of calculus in mathematics, science, economics, psychology, the social sciences, involve several variables. This course extends calculus to several variables: vectors, partial derivatives and multiple integrals. The goal of the course is Stokes Theorem, a deep and profound generalization of the Fundamental Theorem of Calculus. The difference between this course and MATH 150 is that MATH 150 covers infinite series instead of Stokes Theorem. Students with the equivalent of BC 3 or higher should enroll in MATH 151, as well as students who have taken the equivalent of an integral calculus and who have already been exposed to infinite series. For further clarification as to whether MATH 150 or MATH 151 is appropriate, please consult a member of the math/stat department.

Class Format: Hybrid; short lectures will be asynchronous, with longer synchronous in-person problem sessions (these will be available remotely, and uploaded later for asynchronous viewing)

Requirements/Evaluation: homework, quizzes, and exams

Prerequisites: AP BC 3 or higher or integral calculus with infinite series

Enrollment Limit: 30

Enrollment Preferences: First-years, sophomores, and juniors

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Unit Notes: MATH 151 satisfies any MATH 150 prerequisite; credit will not be given for both MATH 150 and MATH 151

Distributions: (D3)  (QFR)

Quantative/Formal Reasoning Notes: This course builds quantitative skills

MATH 200  (F)(S)  Discrete Mathematics  (QFR)
The fundamental goal of this course is for students to acquire the ability to create and clearly express mathematical arguments through an exploration of topics from discrete mathematics. Students will learn various mathematical proof techniques while discovering such areas as logic, number theory, infinity, graph theory, and probability. A large component of the class is focused on problem solving and proof writing skills. The format of the course during the Spring 2021 semester will be a combination of lecture and discovery based learning. Students will attend remote synchronous lectures once a week. They will also have weekly small group meetings (30 minutes) with a TA and other classmates, and work through some course material independently.

Class Format: The format of the course during the Spring 2021 semester will be a combination of lecture and discovery based learning with weekly small group meetings.

Requirements/Evaluation: Evaluation will be based primarily on homework, exams, and group meeting assignments.

Prerequisites: Calculus at the level of an AP course or Williams College Math 130 or 140. Students who have taken a 300-level or 400-level math course should obtain permission of the instructor before enrolling.
Enrollment Limit: 30
Enrollment Preferences: As determined by instructor.
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course involves developing the formal mathematical language of logic and set theory. It also involves using quantitative tools to solve problems relating to combinatorics, probability, and other fields of discrete mathematics.

LEC Section: R2 MW 11:45 am - 1:00 pm Allison Pacelli

MATH 210 (S) Mathematical Methods for Scientists (QFR)
Cross-listings: PHYS 210 MATH 210
Secondary Cross-listing
This course covers a variety of mathematical methods used in the sciences, focusing particularly on the solution of ordinary and partial differential equations. In addition to calling attention to certain special equations that arise frequently in the study of waves and diffusion, we develop general techniques such as looking for series solutions and, in the case of nonlinear equations, using phase portraits and linearizing around fixed points. We study some simple numerical techniques for solving differential equations. A series of optional sessions in Mathematica will be offered for students who are not already familiar with this computational tool.

Class Format: three hours per week; hybrid course format
Requirements/Evaluation: several exams and on weekly problem sets, all of which have a substantial quantitative component
Prerequisites: MATH 150 or 151 and familiarity with Newtonian mechanics at the level of PHYS 131
Enrollment Limit: 50
Enrollment Preferences: sophomores and juniors
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
This course is cross-listed and the prefixes carry the following divisional credit:
PHYS 210 (D3) MATH 210 (D3)
Quantitative/Formal Reasoning Notes: This course will have weekly problem sets using advanced calculus methods and some computer programming at the end of the course.

Spring 2021
LEC Section: H1 TR 11:30 am - 12:45 pm Frederick W. Strauch

MATH 250 (F)(S) Linear Algebra (QFR)
Many social, political, economic, biological, and physical phenomena can be described, at least approximately, by linear relations. In the study of systems of linear equations one may ask: When does a solution exist? When is it unique? How does one find it? How can one interpret it geometrically? This course develops the theoretical structure underlying answers to these and other questions and includes the study of matrices, vector spaces, linear independence and bases, linear transformations, determinants and inner products. Course work is balanced between theoretical and computational, with attention to improving mathematical style and sophistication.

Class Format: Unless circumstances change, students will have the option of taking the course in person or remotely.
**Requirements/Evaluation:** homework, exams, and possibly short remote meetings outside of class.

**Prerequisites:** MATH 150/151 or MATH 200

**Enrollment Limit:** 30

**Enrollment Preferences:** Students who have officially declared a major that requires Math 250.

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** In this course, students will engage in both quantitative and formal reasoning.

**MATH 307 (S) Computational Linear Algebra (QFR)**

Linear algebra is of central importance in the quantitative sciences, including application areas such as image and signal processing, data mining, computational finance, structural biology, and much more. When the problems must be solved computationally, approximation, round-off errors, convergence, and efficiency matter, and traditional linear algebra techniques may fail to succeed. We will adopt linear algebra techniques on a large scale, implement them computationally, and apply them to core problems in scientific computing. Topics may include: systems of linear and nonlinear equations; approximation and statistical function estimation; optimization; interpolation; data scraping; singular value decomposition; and more. This course could also be considered a course in numerical analysis or computational science.

**Class Format:** To afford students flexibility during the COVID pandemic, this course is taught online. Students will read and/or watch lecture material asynchronously and will participate in a once-per-week synchronous small-group tutorial meeting with the instructor via video chat. This course will be a good fit for students with a strong interest in applied mathematics and a willingness to devote significant effort to learning/doing computer programming.

**Requirements/Evaluation:** Students will complete checkpoint quizzes, regularly assigned homework problems and projects, and reflective writing assignments. To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor follows the policy of "ungrading." Over the course of the semester, students will develop a rubric to assess their own learning and will evaluate themselves according to this rubric.

**Prerequisites:** MATH 250; some prior exposure to computer programming experience is strongly recommended but not required.

**Enrollment Limit:** 20

**Enrollment Preferences:** Professor's discretion

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course involves developing the formal mathematical language of linear algebra. It also involves using quantitative tools to solve problems relating to a wide range of applications in the physical and social sciences.

**Spring 2021**

| LEC Section: R1 | TR 9:45 am - 11:00 am | Chad M. Topaz |

**MATH 309 (F) Differential Equations (QFR)**

Ordinary differential equations (ODE) frequently arise as models of phenomena in the natural and social sciences. This course presents core ideas of ODE from an applied standpoint. Topics covered early in the course may include numerical solutions, separation of variables, integrating factors, constant coefficient linear equations, and power series solutions. Later, we will focus on nonlinear ODEs, for which it is usually impossible to find
analytical solutions. Tools from dynamical systems will be introduced to allow us to obtain some information about the behavior of the ODE without explicitly knowing the solution.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely

**Requirements/Evaluation:** quizzes/exams, problem sets, participation, and possible activities

**Prerequisites:** MATH 150/151 and MATH 250

**Enrollment Limit:** 20

**Enrollment Preferences:** discretion of the instructor

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** 300-level mathematics course

---

**MATH 310 (F) Mathematical Biology (QFR)**

**Cross-listings:** BIOL 210 MATH 310

**Primary Cross-listing**

This course will provide an introduction to the many ways in which mathematics can be used to understand, analyze, and predict biological dynamics. We will learn how to construct mathematical models that capture essential properties of biological processes while maintaining analytic tractability. Analytic techniques, such as stability and bifurcation analysis, will be introduced in the context of both continuous and discrete time models. Additionally, students will couple these analytic tools with numerical simulation to gain a more global picture of the biological dynamics. Possible biological applications include, but are not limited to, single and multi-species population dynamics, neural and biological oscillators, tumor cell growth, and infectious disease dynamics.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely

**Requirements/Evaluation:** problem sets, quizzes/exams, participation, final project and paper

**Prerequisites:** MATH 250 and MATH 309, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** if over-enrolled, will have students submit reasons for taking class; preference to those with interest in both subjects

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**

BIOL 210 (D3) MATH 310 (D3)

**Quantitative/Formal Reasoning Notes:** The course will introduce methods for developing and analyzing mathematical models.

---

**MATH 312 (F) The Mathematics of Pandemics: From the Spread of Infections to Cost-Benefit Analyses of Responses (QFR)**

The goal of the class is to help students learn to ask the right questions, and to gather and analyze the data needed to answer them, to understand the covid pandemic and the worldwide responses. Through local experts and numerous guest speakers playing key roles in these problems, we will discuss numerous aspects, from mathematical models for virus propagation to analyzing the economic, educational, social and emotional consequences of lockdowns and social distancing; from moral and legal dilemmas created by the pandemic and responses to the international political scene and relations between countries. Offered as Math 119 or Math 312 (those taking as Math 312 will have some of the readings replaced with more technical modeling papers and subsequent homework). Pre-requisites: None for Math 119; for Math 312 linear algebra is recommended.
Requirements/Evaluation: Class participation, writing, homework problems.
Prerequisites: Linear algebra recommended.

Enrollment Limit: none
Enrollment Preferences: all students will have an equal chance; if possible none will be turned away.
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: We will discuss mathematical models and use statistics to analyze data.

Fall 2020
LEC Section: H1  MWF 10:40 am - 11:30 am  Steven J. Miller

MATH 313  (S) Introduction to Number Theory  (QFR)
The study of numbers dates back thousands of years, and is fundamental in mathematics. In this course, we will investigate both classical and modern questions about numbers. In particular, we will explore the integers, and examine issues involving primes, divisibility, and congruences. We will also look at the ideas of numbers and primes in more general settings, and consider fascinating questions that are simple to understand, but can be quite difficult to answer. This course will be held virtually using an active learning method, an instructional strategy reversing the traditional learning environment by supplying instructional content outside of class time. This will include reading the textbook and completing problem sets prior to attending class. Class time will be spent clarifying concepts and working in small groups through challenging problems with the support of the professor, teaching assistants, and your peers. Building positive collaborative working relationships and public speaking skills will be added benefits of this class.

Class Format: This course will employ an active learning method rather than the traditional lecture. Please see the course description for details.

Requirements/Evaluation: The course will be graded on a mastery-based system. The final course grade will be a combination of quarterly participation in self-reflections, daily reading assignments, and weekly problem sets.
Prerequisites: MATH 250 or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: All are welcome regardless of major or year. In case of over-enrollment, preference will be given to those needing the course for graduation.
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.

Spring 2021
LEC Section: R1  TF 1:30 pm - 2:45 pm  Eva Goedhart

MATH 315  (S) Methods for Solving Diophantine Equations  (QFR)
A Diophantine equation is an equation with integer (or rational) coefficients that is to be solved in integers (or rational numbers). A focus of study for hundreds of years, Diophantine analysis remains a vibrant area of research. It has yielded a multitude of beautiful results and has wide ranging applications in other areas of mathematics, in cryptography, and in the natural sciences. In this project-based tutorial, we will focus on studying and implementing various methods for solving previously unsolved infinite families of Diophantine equations. Depending on their interests, students may choose one or several methods to apply to open problems in the field. Please note that this tutorial will be held virtually.

Requirements/Evaluation: The grade for this course will be a combination of weekly problem sets, weekly oral presentations (approx. 15 min. each), quarterly self-reflections, and a final written project manuscript that will be continually edited throughout the semester (minimum of 5 pages).
Prerequisites: MATH 250 or permission of the instructor
Enrollment Limit: 10
Enrollment Preferences: Sophomores, Juniors, and Seniors based on a short questionnaire of interests. In the event of over-enrollment, preference will be given to those that need the course to graduate.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.

Spring 2021
TUT Section: RT1    TBA    Eva Goedhart

MATH 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

MATH 334  (S)  Graph Theory  (QFR)
A graph is a collection of vertices, joined together by edges. In this course, we will study the sorts of structures that can be encoded in graphs, along with the properties of those graphs. We'll learn about such classes of graphs as multi-partite, planar, and perfect graphs, and will see applications to such optimization problems as minimum colorings of graphs, maximum matchings in graphs, and network flows.

Requirements/Evaluation: problem sets and exams
Prerequisites: MATH 200 or MATH 250
Enrollment Limit: 20
Enrollment Preferences: Math majors
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3)  (QFR)
Quantitative/Formal Reasoning Notes: This course involves the writing of mathematical proofs.

Spring 2021
LEC Section: R1   TR 11:30 am - 12:45 pm   Josh Carlson

MATH 341  (F)(S)  Probability  (QFR)
Cross-listings: STAT 341  MATH 341
Primary Cross-listing
The historical roots of probability lie in the study of games of chance. Modern probability, however, is a mathematical discipline that has wide applications in a myriad of other mathematical and physical sciences. Drawing on classical gaming examples for motivation, this course will present axiomatic and mathematical aspects of probability. Included will be discussions of random variables (both discrete and continuous), distribution and expectation, independence, laws of large numbers, and the well-known Central Limit Theorem. Many interesting and important applications will also be presented, including some from classical Poisson processes, random walks and Markov Chains.

Requirements/Evaluation: homework, classwork, and exams
Prerequisites: MATH 250 or permission of the instructor
Enrollment Limit: 30
Enrollment Preferences: Priority will be given to Mathematics majors and to Statistics Majors.
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3)  (QFR)
This course is cross-listed and the prefixes carry the following divisional credit:
STAT 341 (D3) MATH 341 (D3)
Quantitative/Formal Reasoning Notes: This is a 300-level Math/Stat course.

Fall 2020
LEC Section: H1   MWF 9:20 am - 10:10 am   Stewart D. Johnson
Spring 2021
LEC Section: H1   TF 3:15 pm - 4:30 pm   Mihai Stoiciu

MATH 350  (F)(S)  Real Analysis  (QFR)
Why is the product of two negative numbers positive? Why do we depict the real numbers as a line? Why is this line continuous, and what does that actually mean? More fundamentally, what is the definition of a real number? Real analysis addresses such questions, delving into the structure of real numbers and functions on them. Along the way we'll discuss sequences and limits, series, completeness, compactness, derivatives and integrals, and metric spaces. This course is excellent preparation for graduate studies in mathematics, statistics, and economics. Math 350 and Math 351 will cover the same material for the first part of the course. Math 350 will then delve deeper into the abstract structures of topological and metric spaces, while
Math 351 will closely examine some foundational constructs from differential equations, probability, and optimization.

Class Format: Hybrid format. There may be class meetings; remote students will be fully accommodated.

Requirements/Evaluation: homework, classwork, and exams

Prerequisites: MATH 250 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: Seniors

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Math

---

MATH 355 (F)(S) Abstract Algebra (QFR)

Algebra gives us tools to solve equations. The integers, the rationals, and the real numbers have special properties which make algebra work according to the circumstances. In this course, we generalize algebraic processes and the sets upon which they operate in order to better understand, theoretically, when equations can and cannot be solved. We define and study abstract algebraic structures such as groups, rings, and fields, as well as the concepts of factor group, quotient ring, homomorphism, isomorphism, and various types of field extensions. This course introduces students to abstract rigorous mathematics.

Class Format: Format: lecture; Unless circumstances change, students will have the option of taking the course in person or remotely. It is possible that there will be several weeks that are only offered remotely. If taken pass/fail, this course does not count towards the Mathematics major.

Requirements/Evaluation: Problem sets and exams

Prerequisites: MATH 250 or permission of instructor
Enrollment Limit: 20

Enrollment Preferences: Students who have officially declared a major that requires Math 355.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: If taken pass/fail, this course does not count towards the Mathematics major.

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: 300-level math course

LEC Section: H2  MWF 12:00 pm - 12:50 pm  Susan R. Loepp

MATH 361  (F)(S)  Theory of Computation  (QFR)
Cross-listings: MATH 361  CSCI 361

Secondary Cross-listing
This course introduces a formal framework for investigating both the computability and complexity of problems. We study several models of computation including finite automata, regular languages, context-free grammars, and Turing machines. These models provide a mathematical basis for the study of computability theory—the examination of what problems can be solved and what problems cannot be solved—and the study of complexity theory—the examination of how efficiently problems can be solved. Topics include the halting problem and the P versus NP problem.

Class Format: Lecture content will be delivered through asynchronously viewed video modules. Conference sections meeting twice per week will be used for synchronous discussions. Students should sign up for lecture and one conference section.

Requirements/Evaluation: online multiple choice and short answer questions, weekly problem sets in groups, a research project, and a final examination

Prerequisites: CSCI 256 or both a 300-level MATH course and permission of instructor

Enrollment Limit: 40(10/con)

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 40

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 361 (D3)  CSCI 361 (D3)

Quantitative/Formal Reasoning Notes: This course include regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

MATH 374  (S) Topology  (QFR)

In Real Analysis you learned about metric spaces -- any set of objects endowed with a way of measuring distance -- and the topology of sets in such spaces (open, closed, bounded, etc). In this course we flip this on its head: we explore how to develop analysis (limits, continuity, etc) in spaces where the topology is known but the metric is not. This will lead us to a bizarre and fascinating version of geometry in which we cannot distinguish between shapes that can be continuously deformed into one another. Not only does this theory turn out to be beautiful in the abstract, it has become a vital part of data analysis and is also connected to many areas of math and physics. This course is excellent preparation for graduate programs in mathematics.

Class Format: Taught remotely, but synchronously. While recordings of lectures will be made available, all participants are expected to make their best effort to attend the class over Zoom. In addition to class meetings, there will be tutorial sessions with a TA once per week.

Requirements/Evaluation: homework, tutorials, and exams

Prerequisites: MATH 350 or 351; not open to students who have taken MATH 323. Familiarity with basic group theory recommended, but not required.

Enrollment Limit: 20

Enrollment Preferences: Juniors and seniors

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: It's math.

Spring 2021

LEC Section: R1  MR 3:15 pm - 4:30 pm   Leo Goldmakher

MATH 391  (F) Introduction to computer algebra  (QFR)

Students will learn new mathematics in the context of computer-based exposition, experimentation, and interaction. They will gain proficiency with Sage, GAP, Macaulay2, or Mathematica, and possibly one of the more-specialized systems SnapPea, kenzo, magma, MATLAB, Perseus, coq, etc. Individuals and teams will build interactive demonstrations of mathematical theorems, which will then be appreciated by the instructor and the rest of the class. No prior programming experience is expected.

Class Format: Class will be held online, but there will be recorded components, asynchronous interactive components, and outside-of-class small-group online meetings.

Requirements/Evaluation: exams, homework, projects

Prerequisites: Math 355 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: math majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Mathematical programming requires complete synthesis of abstract concepts to produce computer code, which is necessarily formal.

Fall 2020

LEC Section: R1  TR 6:45 pm - 8:00 pm   John D. Wiltshire-Gordon

MATH 392  (S) Undergraduate Research Topics in Graph Theory  (WS) (QFR)

Graph theory is a vibrant area of research with many applications to the social sciences, psychology, and economics. In this project-based tutorial,
students will select among the presented topics and will develop research questions and undertake original research in the field. Student assessment is based on drafts of research project manuscript and presentations.

**Requirements/Evaluation:** presentations and written project manuscript

**Prerequisites:** MATH 355 or permission of the instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** programming experience, students with interests in the intersection of combinatorics and graph theory

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS) (QFR)

**Writing Skills Notes:** This course will require multiple revisions of a manuscript related to the research project at hand. The final result will be a 10-20 page research article and the course will be designed as a writing intensive course.

**Quantitative/Formal Reasoning Notes:** The course deals with mathematical research in graph theory and is a quantitative and formal reasoning course.

Spring 2021

TUT Section: RT1 TBA Pamela E. Harris

**MATH 402 (F) Measure Theory and Hilbert Spaces (QFR)**

How large is the unit square? One might measure the number of individual points in the square (uncountably infinite), the area of the square (1), or the dimension of the square (2). But what about for more complicated sets, e.g., the set of all rational points in the unit square? What’s the area of this set? What’s the dimension? In this course we’ll come up with precise ways to measure size -- length, area, volume, dimension -- that apply to a broad array of sets. Along the way we’ll encounter Lebesgue measure and Lebesgue integration, Hausdorff measure and fractals, space-filling curves and the Banach-Tarski paradox. We will also investigate Hilbert spaces, mathematical objects that combine the tidiness of linear algebra with the power of analysis and are fundamental to the study of differential equations, functional analysis, harmonic analysis, and ergodic theory, and also apply to fields like quantum mechanics and machine learning. This material provides good preparation for graduate studies in mathematics, statistics and economics.

**Class Format:** Discussion-based course held remotely.

**Requirements/Evaluation:** performance on homework assignments and exams

**Prerequisites:** MATH 350 or MATH 351 or permission of instructor

**Enrollment Limit:** 30

**Enrollment Preferences:** Seniors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Math

Fall 2020

LEC Section: R1 TF 3:15 pm - 4:30 pm Leo Goldmakher

**MATH 408 (F) L-Functions and Sphere Packing (QFR)**

Optimal packing problems arise in many important problems, and have been a source of excellent mathematics for centuries. The Kepler Problem (what is the most efficient way to pack balls in three-space) is a good example. The original formulation has been used in such diverse areas as stacking cannonballs on battleships to grocers preparing fruit displays, and its generalizations allow the creation of powerful error detection and correction codes. While the solution of the Kepler Problem is now known, the higher dimensional version is very much open. There has been remarkable progress in the last few years, with number theory playing a key role in these results. We will develop sufficient background material to understand many of these problems and the current state of the field. Pre-requisites are real analysis.

**Requirements/Evaluation:** Class participation, homework, exams and participation in writing a textbook on the material. Each student will be
responsible for working on a chapter of a book based on this material. In addition to obtaining critical writing feedback from myself and my co-author
(who is a world expert in the subject), depending on timing we will also be able to share comments from an editor of a major publishing house or a
referee. Chapters can range from short snapshots of a subject, on the order of 5 pages, to longer technical derivations of perhaps 10-30 pages.

**Prerequisites:** Math 350 or 351

**Enrollment Limit:** 40

**Enrollment Preferences:** Senior math majors, students planning on graduate study in a STEM field

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This is a 400 level math class

---

**Fall 2020**

**LEC Section:** H1  MWF 12:00 pm - 12:50 pm  Steven J. Miller

---

**MATH 420 (S) Analytic Number Theory (QFR)**

How many primes are smaller than x? How many divisors does an integer n have? How many different numbers appear in the N x N multiplication
table? Precise formulas for these quantities probably don't exist, but over the past 150 years tremendous progress has been made towards
understanding these and similar questions using tools and methods from analysis. The goal of this tutorial is to explain and motivate the ubiquitous
appearance of analysis in modern number theory—a surprising fact, given that analysis is concerned with continuous functions, while number theory is
concerned with discrete objects (integers, primes, divisors, etc). Topics to be covered will include some subset of the following: asymptotic analysis,
partial and Euler-Maclaurin summation, counting divisors and Dirichlet's hyperbola method, the randomness of prime factorization and the Erdos-Kac
theorem, the partition function and the saddle point method, the prime number theorem and the Riemann zeta function, primes in arithmetic
progressions and Dirichlet L-functions, the Goldbach conjecture and the circle method, and sieve methods and gaps between primes.

**Requirements/Evaluation:** Regularly preparing lectures and writing expository essays in LaTeX. No exams.

**Prerequisites:** MATH 350 or MATH 351 and familiarity with basic modular arithmetic are hard prerequisites. Familiarity with complex analysis and
abstract algebra recommended, but not required.

**Enrollment Limit:** 10

**Enrollment Preferences:** Students with complex analysis background will be given priority.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** It's math.

---

**Spring 2021**

**TUT Section:** RT1  TBA  Leo Goldmakher

---

**MATH 433 (S) Mathematical Modeling (QFR)**

Mathematical modeling means (1) translating a real-life problem into a mathematical object, (2) studying that object using mathematical techniques,
and (3) interpreting the results in order to learn something about the real-life problem. Mathematical modeling is used in biology, economics,
chemistry, geology, sociology, political science, art, and countless other fields. This is an advanced, seminar-style, course appropriate for students
who have strong enthusiasm for applied mathematics, data science, and collaborative teamwork.

**Class Format:** To afford students flexibility during the COVID pandemic, this course is taught online, largely asynchronously. There is no lecture
component. Students will read research literature, work on structured and open-ended projects, and participate in synchronous small-group meetings
with the instructor via videoconference. The vast majority of work in this course requires students to collaborate with each other.

**Requirements/Evaluation:** Students will complete reading assignments, writing assignments, modeling activities, research projects, and will record
several presentations to be shared with the rest of the class. To move towards a non-hierarchical, transparent, and egalitarian grading system, the
instructor follows the policy of “ungrading.” Over the course of the semester, students will develop a rubric to assess their own learning and will
evaluate themselves according to this rubric.

**Prerequisites:** MATH 250; MATH 309 or similar; and some experience with computer programming (equivalent to CSCI 134 or MATH 307).

**Enrollment Limit:** 20

**Enrollment Preferences:** Professor's discretion

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This course focuses substantially on using mathematical and statistical tools and frameworks to describe, predict, and understand real-world systems.

Spring 2021

SEM Section: R1 TR 11:30 am - 12:45 pm Chad M. Topaz

**MATH 434 (F) Applied Dynamics and Optimal Control (QFR)**

We seek to understand how dynamical systems evolve, how that evolution depends on the various parameters of the system, and how we might manipulate those parameters to optimize an outcome. We will explore the language of dynamics by deepening our understanding of differential and difference equations, study parameter dependence and bifurcations, and explore optimal control through Pontryagin's maximum principle and Hamilton-Jacobi-Bellman equations. These tools have broad application in ecology, economics, finance, and engineering, and we will draw on basic models from these fields to motivate our study.

**Requirements/Evaluation:** exams and homework assignments

**Prerequisites:** MATH 209 or PHYS 210, and MATH 350 or 351, or permission of the instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference will be given to senior math majors.

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This is a 400 level math course.

Fall 2020

LEC Section: H1 MWF 10:40 am - 11:30 am Stewart D. Johnson

**MATH 456 (F) Representation Theory (QFR)**

Representation theory has applications in fields such as physics (via models for elementary particles), engineering (considering symmetries of structures), and even in voting theory (voting for committees in agreeable societies). This course will introduce the concepts and techniques of the representation theory of finite groups, and will focus on the representation theory of the symmetric group. We will undertake this study through a variety of perspectives, including general representation theory, combinatorial algorithms, and symmetric functions.

**Requirements/Evaluation:** evaluation will be based primarily on homework, in class presentations, and exams

**Prerequisites:** MATH 355

**Enrollment Limit:** 40

**Enrollment Preferences:** junior and senior Math majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This is a 400-level Math course.
MATH 474 (S) Tropical Geometry (QFR)
This course offers an introduction to tropical geometry, a young subject that has already established deep connections between itself and pure and applied mathematics. We will study a rich variety of objects arising from polynomials over the min-plus semiring, where addition is defined as taking a minimum, and multiplication is defined as usual addition. We will learn how these polyhedral objects connect to other areas of mathematics like algebraic geometry, and how they can be applied to solve problems in scheduling theory, phylogenetics, and other diverse fields.

Class Format: Hybrid; if possible we will have classes in person, with remote students attending via Zoom.

Requirements/Evaluation: participation, problem sets, quizzes, exams, and a final project

Prerequisites: MATH 355 or permission of instructor

Enrollment Limit: 25

Enrollment Preferences: Senior math majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course builds quantitative skills

Spring 2021

LEC Section: H1 TR 9:45 am - 11:00 am Ralph E. Morrison

PHYS 131 (F) Introduction to Mechanics (QFR)
We focus first on the Newtonian mechanics of point particles: the relationship between velocity, acceleration, and position; the puzzle of circular motion; forces, Newton's laws, and gravitation; energy and momentum; and the physics of vibrations. Then we turn to the basic properties of waves, such as interference and refraction, as exemplified by sound and light waves. We also study the optics of lenses, mirrors and the human eye. This course is not intended for students who have successfully completed an AP physics course in high school.

Class Format: hybrid

Requirements/Evaluation: exams, labs, and weekly problem sets, all of which have a substantial quantitative component

Prerequisites: MATH 130; students who scored 4 or 5 on an AP physics exam, or 6 or 7 on the IB Physics HL exam may not take this course and are encouraged to take PHYS 141 instead

Enrollment Limit: 30

Enrollment Preferences: seniority

Expected Class Size: 60

Grading: yes pass/fail option, yes fifth course option

Unit Notes: PHYS 131 can lead to either PHYS 132 (for students wanting a one-year survey of physics) or PHYS 142 (for students considering a Physics or Astrophysics major)

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This class will have weekly problem sets requiring substantial quantitative reasoning

Fall 2020

LEC Section: H1 MWF 8:00 am - 8:50 am Graham K. Giovanetti

LAB Section: H2 M 1:00 pm - 3:00 pm Graham K. Giovanetti

LAB Section: H3 W 1:00 pm - 3:00 pm Graham K. Giovanetti

PHYS 132 (S) Electromagnetism and the Physics of Matter (QFR)
This course is intended as the second half of a one-year survey of physics with some emphasis on applications to medicine. In the first part of the semester we will focus on electromagnetic phenomena. We will introduce the concept of electric and magnetic fields and study in detail the way in which electrical circuits and circuit elements work. The deep connection between electric and magnetic phenomena is highlighted with a discussion of Faraday's Law of Induction. Following our introduction to electromagnetism we will discuss some of the most central topics in twentieth-century physics, including Einstein's theory of special relativity and some aspects of quantum theory. We will end with a treatment of nuclear physics, radioactivity, and uses of radiation.

Class Format: lecture three hours per week, laboratory three hours approximately every other week, and conference section 1 hour approximately every other week

Requirements/Evaluation: weekly problem sets, labs, quizzes and exams

Prerequisites: PHYS 131 or 141 or permission of instructor, and MATH 130 (formerly 103)

Enrollment Limit: 22 per lab

Enrollment Preferences: sophomores

Expected Class Size: 60

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Significant homework, exams, quizzes requiring mathematical and physical reasoning.

Spring 2021

LAB Section: H3  W 1:00 pm - 3:00 pm Henrik Ronellenfitsch
LAB Section: H2  T 1:00 pm - 3:00 pm Henrik Ronellenfitsch
LEC Section: H1  MWF 9:20 am - 10:10 am Henrik Ronellenfitsch

PHYS 141  (F) Mechanics and Waves  (QFR)

This is the typical first course for a prospective physics major. It covers most of the same topics as PHYS 131, but with a higher level of mathematical sophistication. It is intended for students with solid backgrounds in the sciences, either from high school or college, who are comfortable with basic calculus.

Class Format: This will be a hybrid course with both recorded and in-person lecture/demonstration material, both "at home" and in-person hands-on/laboratory exercises, problem-solving group sessions and office hours (available both in person and remote), as well as several short tests/quizzes and a final exam.

Requirements/Evaluation: weekly problem sets, labs, three or more short quizzes/tests, and a final exam, all of which have a substantial quantitative component

Prerequisites: high school physics and MATH 130 or equivalent placement, or permission of the instructor

Enrollment Limit: 30

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Unit Notes: PHYS 141 can lead to either PHYS 132 (for students wanting a one-year survey of physics) or PHYS 142 (for students considering a Physics or Astrophysics major)

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course consists of lectures, problem-solving conferences, lab exercises, problem sets and exams, all of which have a substantial quantitative component.

Fall 2020

LAB Section: H3  T 1:00 pm - 3:00 pm  Kevin M. Jones
LAB Section: H4  W 1:00 pm - 3:00 pm  Kevin M. Jones
LAB Section: H5  M 3:30 pm - 5:30 pm  Kevin M. Jones
LEC Section: H1  TR 9:45 am - 11:00 am  Protik K. Majumder
Newtonian Mechanics, spectacular as it is in describing planetary motion and a wide range of other phenomena, only hints at the richness of behaviors seen in the universe. Special relativity, which extends physics into the realm of high speeds and high energies, requires us to rethink our basic notions of space and time. Quantum mechanics successfully describes atoms, molecules, and solids while at the same time calling into question our expectation of what can be predicted by a physical theory. Statistical physics reveals new behaviors that emerge when many particles are present in a system. This course will survey ideas from each of these three arenas, and can serve either as a terminal course for those seeking to complete a year of physics or as the basis for future advanced study of these topics.

**Class Format:** lecture, two hours weekly; problem-solving conference session, one hour weekly; laboratory, 2-3 hours most weeks, alternating between 'hands-on' and computational sessions (limit 10 per lab, 14 per conference section)

**Requirements/Evaluation:** weekly homework, labs, two hour tests, and a final exam, all of which have a substantial quantitative component

**Prerequisites:** PHYS 141 and MATH 130, or equivalent; PHYS 131 may substitute for PHYS 141 with the permission of instructor; students may not take both PHYS 142 and PHYS 151

**Enrollment Limit:** 14/C, 10/L

**Enrollment Preferences:** first-year students

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Heavily problem-solving focused, involving algebraic manipulations, single-variable calculus, generating and reading graphs, etc.

---

Newtonian Mechanics, spectacular as it is in describing planetary motion and a wide range of other phenomena, only hints at the richness of behaviors seen in the universe. Special relativity has extended physics into the realm of high speeds and high energies and requires us to rethink our basic notions of space and time. Quantum mechanics successfully describes atoms, molecules, and solids while at the same time calling into question our notions of what can be predicted by a physical theory. Statistical physics reveals new behaviors that emerge when many particles are present in a system. This course covers the same basic material as PHYS 142 but in a small seminar format for students with strong prior preparation in physics.

**Class Format:** This will be a hybrid course format, with some online and some in-person components. All in-person components will have a remote option. Lecture 3 hours per week (synchronous interactive video or in-person), Laboratory/Conference section 2.5 hours per week (synchronous interactive video or in-person). Compared to previous years, some of the laboratory activities in the course will be replaced by assignments that can be completed remotely.

**Requirements/Evaluation:** class participation, weekly lab/conference assignments, weekly problem sets, final paper, two hour-exams and a final exam;

**Prerequisites:** placement by the department (see "advanced placement" section in the description about the department). Students may take either PHYS 142 or PHYS 151 but not both

**Enrollment Limit:** 18

**Enrollment Preferences:** first-years

**Expected Class Size:** 18

**Grading:** yes pass/fail option, yes fifth course option

**Prerequisites:** placement by the department (see "advanced placement" section in the description about the department). Students may take either PHYS 142 or PHYS 151 but not both

**Enrollment Limit:** 18

**Enrollment Preferences:** first-years

**Expected Class Size:** 18

**Grading:** yes pass/fail option, yes fifth course option
Unit Notes: this is a small seminar designed for first-year students who have placed out of PHYS 141

Distributions:  (D3)  (QFR)

Quantitative/Formal Reasoning Notes: besides the final paper, all assignments in the course have a substantial quantitative component

Fall 2020

LEC Section: H1  MWF 12:00 pm - 12:50 pm  Catherine Kealhofer
LAB Section: H2  MR 1:30 pm - 2:45 pm  Catherine Kealhofer
LAB Section: H3  MR 3:15 pm - 4:30 pm  Catherine Kealhofer

PHYS 201  (F)  Electricity and Magnetism  (QFR)
The classical theory of electricity and magnetism is very rich yet it can be written in a remarkably succinct form using Maxwell's equations. This course is an introduction to electricity and magnetism and their mathematical description, connecting electric and magnetic phenomena via the special theory of relativity. Topics include electrostatics, magnetic fields, electromagnetic induction, DC and AC circuits, and the electromagnetic properties of matter. The laboratory component of the course is an introduction to electronics where students will develop skills in building and debugging electrical circuits.

Class Format: Hybrid: online with some in-person components. All in-person components will have a remote option. Lecture: three hours per week. Laboratory/conference section: two hours per week.

Requirements/Evaluation: problem sets, labs/conference section assignments, two take-home midterms, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 142 OR 151; MATH 150 or 151; with a preference for MATH 151

Enrollment Limit: 10 per lab

Enrollment Preferences: prospective physics majors, then by seniority

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D3)  (QFR)

LAB Section: H4  T 3:30 pm - 5:30 pm  David R. Tucker-Smith

PHYS 202  (S)  Vibrations, Waves and Optics  (QFR)
Waves and oscillations characterize many different physical systems, including vibrating strings, springs, water waves, sound waves, electromagnetic waves, and gravitational waves. Quantum mechanics even describes particles with wave functions. Despite these diverse settings waves exhibit several common characteristics, so that the understanding of a few simple systems can provide insight into a wide array of phenomena. In this course we begin with the study of oscillations of simple systems with only a few degrees of freedom. We then move on to study transverse and longitudinal waves in continuous media in order to gain a general description of wave behavior. The rest of the course focuses on electromagnetic waves and in particular on optical examples of wave phenomena. In addition to well known optical effects such as interference and diffraction, we will study a number of modern applications of optics such as short pulse lasers and optical communications. Throughout the course mathematical methods useful for higher-level physics will be introduced.

Class Format: hybrid. Lectures will be offered synchronously for in-person and remote students and recordings of lectures will be made available for those unable to attend synchronously. Labs will be in-person but with accommodations made for remote students.

Requirements/Evaluation: problem sets, labs, in-class tests, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 201; co-requisite: PHYS/MATH 210 or MATH 209 or permission of instructor

Enrollment Limit: 30
Enrollment Preferences:  sophomores
Expected Class Size:  20
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  This course has substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

PHYS 210  (S) Mathematical Methods for Scientists  (QFR)
Cross-listings:  PHYS 210  MATH 210
Primary Cross-listing
This course covers a variety of mathematical methods used in the sciences, focusing particularly on the solution of ordinary and partial differential equations. In addition to calling attention to certain special equations that arise frequently in the study of waves and diffusion, we develop general techniques such as looking for series solutions and, in the case of nonlinear equations, using phase portraits and linearizing around fixed points. We study some simple numerical techniques for solving differential equations. A series of optional sessions in Mathematica will be offered for students who are not already familiar with this computational tool.

Class Format:  three hours per week; hybrid course format
Requirements/Evaluation:  several exams and on weekly problem sets, all of which have a substantial quantitative component
Prerequisites:  MATH 150 or 151 and familiarity with Newtonian mechanics at the level of PHYS 131
Enrollment Limit:  50
Enrollment Preferences:  sophomores and juniors
Expected Class Size:  30
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D3)  (QFR)
This course is cross-listed and the prefixes carry the following divisional credit:
PHYS 210  (D3) MATH 210  (D3)
Quantative/Formal Reasoning Notes:  This course will have weekly problem sets using advanced calculus methods and some computer programming at the end of the course.

Spring 2021
LEC Section: H1  TR 11:30 am - 12:45 pm  Frederick W. Strauch

PHYS 301  (F) Quantum Physics  (QFR)
This course serves as a one-semester introduction to the formalism, and phenomenology of quantum mechanics. After a brief discussion of historical origins of the quantum theory, we introduce the Schrodinger wave equation, the concept of matter waves, and wave-packets. With this introduction as background, we will continue our discussion with a variety of one-dimensional problems such as the particle-in-a-box and the harmonic oscillator. We then extend this work to systems in two and three dimensions, including a detailed discussion of the structure of the hydrogen atom. Along the way we will develop connections between mathematical formalism and physical predictions of the theory. Finally, we conclude the course with a discussion of angular momentum and spins, with applications to atomic physics, entanglement, and quantum information.

Class Format:  Phys 301 will be taught in a hybrid format, with in-person and remote elements. Remote options will be available for in-person components. Lecture will meet for 3 hours weekly, with synchronous elements wherever feasible (either in-person or via videoconference). Laboratories will meet for 2 hours weekly, with some additional individual preparation required, with laboratory groups being mixed between in-person
and remote students.

**Requirements/Evaluation:** weekly problem sets, laboratory reports / write-ups, a midterm exam, and final exam, all of which have a substantial quantitative component

**Prerequisites:** PHYS 202 and PHYS/MATH 210 or MATH 309

**Enrollment Limit:** 20

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Phys 301 relies heavily upon mathematics and quantitative reasoning in all elements, including problem sets, examinations, and laboratories.

LAB Section: H2  T 1:00 pm - 3:00 pm  Charlie  Doret

**PHYS 302  (S) Statistical Mechanics & Thermodynamics  (QFR)**

Macroscopic objects are made up of huge numbers of fundamental particles interacting in simple ways--obeying the Schrödinger equation, Newton’s and Coulomb’s Laws--and these objects can be described by macroscopic properties like temperature, pressure, magnetization, heat capacity, conductivity, etc. In this course we will develop the tools of statistical physics, which will allow us to predict the cooperative phenomena that emerge in large ensembles of interacting particles. We will apply those tools to a wide variety of physical questions, including the behavior of gases, polymers, heat engines, biological and astrophysical systems, magnets, and electrons in solids.

**Class Format:** lecture/discussion three hours per week and weekly laboratory work

**Requirements/Evaluation:** weekly problem sets, exams, and labs, all of which have a substantial quantitative component

**Prerequisites:** required: PHYS 201, PHYS/MATH 210 or MATH 309; recommended: PHYS 202, PHYS 301

**Enrollment Limit:** 10 per lab

**Enrollment Preferences:** the in crowd

**Expected Class Size:** 10 per lab

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**PHYS 319  (S) Integrative Bioinformatics, Genomics, and Proteomics Lab  (QFR)**

**Cross-listings:** MATH 319  CHEM 319  BIOL 319  PHYS 319  CSCI 319

**Secondary Cross-listing**

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication
events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

**Class Format:** two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

**Requirements/Evaluation:** lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

**Prerequisites:** BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

**Enrollment Limit:** 12

**Enrollment Preferences:** seniors, then juniors, then sophomores

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major

**Distributions:** (D3) (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

**Quantitative/Formal Reasoning Notes:** Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

**PHYS 321 (S) Introduction to Particle Physics** (QFR)

The Standard Model of particle physics incorporates special relativity, quantum mechanics, and almost all that we know about elementary particles and their interactions. This course introduces some of the main ideas and phenomena associated with the Standard Model. After a review of relativistic kinematics, we will learn about symmetries in particle physics, relativistic wave equations, Feynman diagrams, and selected applications of quantum electrodynamics, the weak interactions, and quantum chromodynamics. We will conclude with a discussion of spontaneous symmetry breaking and the Higgs mechanism.

**Class Format:** Hybrid

**Requirements/Evaluation:** weekly problem sets, a midterm exam, and a final exam

**Prerequisites:** PHYS 301

**Enrollment Limit:** 15

**Enrollment Preferences:** By seniority

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Exams and problem sets all have a significant quantitative component.

---

**Spring 2021**

**LEC Section: H1** TR 9:45 am - 11:00 am David R. Tucker-Smith
PHYS 402  (S)  Applications of Quantum Mechanics  (QFR)
This course will explore a number of important topics in the application of quantum mechanics to physical systems, including perturbation theory, the variational principle and the semiclassical interaction of atoms and radiation. The course will finish up with three weeks on quantum optics including an experimental project on non-classical interference phenomena. Applications and examples will be taken mostly from atomic physics with some discussion of solid state systems.
Class Format: hybrid
Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, and a final exam, all of which have a substantial quantitative component
Prerequisites: PHYS 301
Enrollment Limit: 10 per sec
Enrollment Preferences: Physics and Astrophysics Majors
Expected Class Size: 16
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: This course has weekly problem sets, all of which have a substantial quantitative component.

Spring 2021
TUT Section: HT1  F 1:30 pm - 2:45 pm     Catherine Kealhofer
TUT Section: HT2  TBA     Catherine Kealhofer

PHYS 411  (F)  Classical Mechanics  (QFR)
This course will explore advanced topics in classical mechanics including the calculus of variations, the Lagrangian and Hamiltonian formulations of mechanics, phase space, non-linear dynamics and chaos, central-force motion, non-inertial reference frames (including implications for physics on a rotating Earth), and rigid-body rotations. Numerical and perturbative techniques will be developed and used extensively. We will also examine the ways in which classical mechanics informs other fields of physics. In addition to weekly tutorial meetings the class with meet once a week as a whole to discuss new material.
Class Format: hybrid
Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, a final project, and a final exam, all of which have a substantial quantitative component
Prerequisites: PHYS 202 and PHYS/MATH 210 or MATH 209
Enrollment Limit: 10/section
Enrollment Preferences: majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: weekly problem sets requiring substantial quantitative reasoning using analytical and numerical methods.

Fall 2020
TUT Section: HT3  F 1:30 pm - 2:45 pm     Henrik Ronellenfitsch, Kevin M. Jones
TUT Section: HT1  F 1:30 pm - 2:45 pm     Henrik Ronellenfitsch, Kevin M. Jones
TUT Section: HT2  F 1:30 pm - 2:45 pm     Henrik Ronellenfitsch, Kevin M. Jones

POEC 253  (F)  Empirical Methods in Political Economy  (QFR)
This course introduces students to common empirical tools used in policy analysis and implementation. The broad aim is to train students to be discriminating consumers of public policy-relevant research. The emphasis in the course is on intuitive understanding of the central concepts. Through hands-on work with data and critical assessment of existing empirical social scientific research, students will develop the ability to choose and employ
the appropriate tool for a particular research problem, and to understand the limitations of the techniques. Topics to be covered include basic principles of probability; random variables and distributions; statistical estimation, inference and hypothesis testing; and modeling using multiple regression, with a particular focus on understanding whether and how relationships between variables can be determined to be causal—an essential requirement for effective policy formation. Throughout the course, the focus will be on public policy applications relevant to the fields of political science, sociology, and public health, as well as to economics.

**Class Format:** The class will be remote. I will present the material using a mix of synchronous and asynchronous methods. We will use the synchronous time for discussion and Q and A as well.

**Requirements/Evaluation:** Problem sets, group project, midterm exam, final exam

**Prerequisites:** MATH 130 or its equivalent; one course in ECON; not open to students who have taken ECON 255

**Enrollment Limit:** 20

**Enrollment Preferences:** Political Economy majors, Environmental Policy majors and sophomores

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** does not satisfy the econometrics requirement for the Economics major; POEC 253 cannot be substituted for ECON 255, or count as an elective towards the Economics major

**Distributions:** (D2) (QFR)

**Quantitative/Formal Reasoning Notes:** The course teaches econometrics, i.e. statistics as economists use it, with applications in economics and political science.

Fall 2020

**LEC Section: R1** TR 11:30 am - 12:45 pm Anand V. Swamy

**PSYC 201 (F)(S) Experimentation and Statistics** (QFR)

An introduction to the basic principles of research in psychology. We focus on how to design and execute experiments, analyze and interpret results, and write research reports. Students conduct a series of research studies in different areas of psychology that illustrate basic designs and methods of analysis. You must register for lab and lecture with the same instructor.

**Class Format:** Prof. Stroud's course meetings will be remote and meet synchronously; attendance in lectures and labs is required and participation will be evaluated. Prof. Sandstrom will teach his section in synchronous hybrid format; however, some discussions will be held remotely and synchronously. Prof. Simon's section will be held in hybrid format with some meetings held remotely; most class meetings will be synchronous, though there will be some asynchronous content replacing class time.

**Requirements/Evaluation:** research reports, exams, and weekly problem sets

**Prerequisites:** PSYC 101; not open to first-year students except with permission of instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** Psychology majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (QFR)

**Quantitative/Formal Reasoning Notes:** This course has weekly problem sets focused on experimental design and quantitative data analysis. Students will design and conduct several experiments, analyze the data, and report their findings.

Fall 2020

**LAB Section: H2** T 1:00 pm - 3:00 pm Jeremy D. Cone

**LAB Section: R4** W 1:00 pm - 3:00 pm Kenneth K. Savitsky

**LEC Section: H1** MW 10:00 am - 11:15 am Jeremy D. Cone

**LEC Section: R3** MW 10:00 am - 11:15 am Kenneth K. Savitsky

Spring 2021
STAT 101 (F)(S) Elementary Statistics and Data Analysis (QFR)

It is impossible to be an informed citizen in the world today without an understanding of data and information. Whether opinion polls, unemployment rates, salary differences between men and women, the efficacy of vaccines or consumer webdata, we need to be able to separate the signal from the noise. We will learn the statistical methods used to analyze and interpret data from a wide variety of sources. The goal of the course is to help reach conclusions and make informed decisions based on data.

Class Format: Hybrid format with both synchronous and asynchronous elements.

Requirements/Evaluation: quizzes and exams and course project

Prerequisites: MATH 102 (or demonstrated proficiency on a diagnostic test)

Enrollment Limit: 25

Enrollment Preferences: sophomores, juniors, and seniors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with MATH130 but no statistics should enroll in STAT161; students with MATH150 but no statistics should enroll in STAT201. Students with AP Stat 4/5 or STAT 101/161/201 should enroll in STAT 202 (if no calc background) or 302 (MATH140 prereq).

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: It is a quantitative course.

Fall 2020

LEC Section: H2  MWF 9:20 am - 10:10 am  Shaoyang Ning

LEC Section: H1  MWF 7:00 am - 7:50 am  Shaoyang Ning

Spring 2021

LEC Section: R2  TR 9:45 am - 11:00 am  Daniel B. Turek

LEC Section: H1  MWF 12:00 pm - 12:50 pm  Shaoyang Ning

STAT 161 (F)(S) Introductory Statistics for Social Science (QFR)

This course will cover the basics of modern statistical analysis with a view toward applications in the social sciences and sciences. Topics include exploratory data analysis, elements of probability theory, basic statistical inference, and introduction to statistical modeling. The course focuses on the application of statistics tools to solve problems, to make decisions, and the use of statistical thinking to understand the world.

Class Format: For the Spring 2021 semester, synchronous zoom lectures are planned

Requirements/Evaluation: students complete homework, online multiple choice quizzes and exams (including remote oral exams). Students can expect to spend time getting familiar with the statistical software STATA.

Prerequisites: MATH 130 (or equivalent); not open to students who have completed STAT 101 or equivalent

Enrollment Limit: 25

Enrollment Preferences: Economics majors, sophomores

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Unit Notes: Students with calculus background should consider STAT 201, 202 or 302 instead. Students without any calculus background should consider STAT 101. Please refer to the placement chart on the Math&Stat department website for more information.
Distributions:  (D3)  (QFR)

Quantative/Formal Reasoning Notes: Course analyzes data

Fall 2020
LEC Section: R2  TR 9:45 am - 11:00 am  Daniel B. Turek
LEC Section: R1  MWF 8:15 am - 9:30 am  Bernhard Klingenberg

Spring 2021
LEC Section: R1  TR 8:00 am - 9:15 am  Bernhard Klingenberg
LEC Section: R2  TR 11:30 am - 12:45 pm  Daniel B. Turek

STAT 201  (F)(S)  Statistics and Data Analysis  (QFR)
Statistics can be viewed as the art and science of turning data into information. Real world decision-making, whether in business or science is often based on data and the perceived information it contains. Sherlock Holmes, when prematurely asked the merits of a case by Dr. Watson, snapped back, “Data, data, data! I can't make bricks without clay.” In this course, we will study the basic methods by which statisticians attempt to extract information from data. These will include many of the standard tools of statistical inference such as hypothesis testing, confidence intervals, and linear regression as well as exploratory and graphical data analysis techniques. This is an accelerated introductory statistics course that involves computational programming and incorporates modern statistical techniques.

Class Format: Hybrid format
Requirements/Evaluation: weekly homework; quizzes and exams
Prerequisites: MATH 150 or equivalent; not open to students who have completed STAT 101 or STAT 161 or equivalent
Enrollment Limit: 25
Enrollment Preferences: Prospective Statistics majors, students for whom the course is a major prerequisite, and seniors
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Unit Notes: Students with AP Stat 4/5 or STAT 101/161 should enroll in STAT 202 (if no calc background) or 302 (MATH 140 prereq). Students with no calc or stats background should enroll in STAT 101. Students with MATH 140 but no statistics should enroll in STAT 161.
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes: Students will learn to interpret, choose, carry out, and communicate analyses of data.

Fall 2020
LEC Section: R2  WF 1:30 pm - 2:45 pm  Elizabeth M. Upton
LEC Section: R1  MR 3:15 pm - 4:30 pm  Anna M. Plantinga

Spring 2021
LEC Section: R1  MWF 11:45 am - 1:00 pm  Richard D. De Veaux
LEC Section: H2  MWF 8:00 am - 8:50 am  Anna M. Plantinga

STAT 202  (F)(S)  Introduction to Statistical Modeling  (QFR)
Data come from a variety of sources: sometimes from planned experiments or designed surveys, sometimes by less organized means. In this course we’ll explore the kinds of models and predictions that we can make from both kinds of data, as well as design aspects of collecting data. We’ll focus on model building, especially multiple regression, and talk about its potential to answer questions about the world -- and about its limitations. We’ll emphasize applications over theory and analyze real data sets throughout the course.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You’ll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. The professor and TAs will also offer optional synchronous office hours/review sessions.
Requirements/Evaluation: Homework problems; quizzes; a final project (on a topic that interests you!). You’ll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part
of learning, of being a statistician in the Real World...and of your evaluation in this course. While your assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

**Prerequisites:** AP Statistics 4 or 5, or STAT 101, or STAT 161, or STAT 201, or permission of instructor

**Enrollment Limit:** 25

**Enrollment Preferences:** Prospective Statistics majors and more senior students

**Expected Class Size:** 25

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** students with a 4 on the AP Stats exam should contact the department for proper placement

**Distributions:** (D3)  (QFR)

**Quantitative/Formal Reasoning Notes:** This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

---

**Fall 2020**

LEC Section: R1  MWF 12:00 pm - 12:50 pm  Laurie L. Tupper

**Spring 2021**

LEC Section: R1  MWF 12:00 pm - 12:50 pm  Laurie L. Tupper

---

**STAT 302  (F)(S)  Applied Statistical Modeling  (QFR)**

Data may come from various sources and studies with different purpose of analysis. Statistical modeling provides a unified framework to embrace different data types, and focuses on the goals of understanding relationships, assessing differences and making predictions. We will explore different types of statistical models (linear regression, ANOVA, logistic regression etc), and focus on their conditions, the interactive modeling process, as well as the statistical inference tools for drawing conclusions from them. Throughout the course, real datasets will be modeled for interesting questions about the world, and the limitations will be addressed as well.

**Class Format:** Hybrid format

**Requirements/Evaluation:** weekly homework assignments, quizzes, exams and a course project.

**Prerequisites:** One of the following: i) STAT 201; ii) MATH 140 and STAT 101/161/AP Statistics 4/5; iii) Permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** Students interested in statistics who have background in calculus and intro stat. Students cannot take STAT 302 either simultaneously or after STAT 346.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3)  (QFR)

**Quantitative/Formal Reasoning Notes:** It is an intermediate statistics class with prerequisites that are QFR courses

---

**Fall 2020**

LEC Section: H1  MWF 11:45 am - 1:00 pm  Xizhen Cai

**Spring 2021**

LEC Section: H1  MWF 12:00 pm - 12:50 pm  Xizhen Cai

---

**STAT 310  (F) Data Visualization  (QFR)**

This course is about preparing, visualizing, reporting and presenting different types of data. We will start with creating common plots (e.g., barcharts, histograms, density plots, boxplots, time series and lattice plots), but also discuss visualizing results of statistical models, such as linear or logistic regression models. We will use the ggplot library in R but then switch to the plotly library for interactive graphs with mouse-over and click events. Using R's shiny and DT libraries, we will learn how to create and publish web-apps and dashboards that explore datasets and support online filtering. We will end the class with creating web apps that contain multiple graphs or maps which react to user inputs (such as selecting which variables to plot) or
provide real time monitoring of streaming data. Throughout, we will use version control software (Github) to organize and keep track of our code. This course will be taught in a semi-flipped style. While the instructor will introduce certain topics, students will often be responsible for reading material ahead of time and then work individually or in pairs to reproduce material or implement it on their own data.

**Requirements/Evaluation:** Grading will almost entirely be based on class participation, individual and team-work, project presentations and the student's portfolio.

**Prerequisites:** Stat 201/202/302; Good knowledge of R

**Enrollment Limit:** 15

**Enrollment Preferences:** Preference may be given to stats majors who need the course in order to graduate, but then random selection.

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course teaches how to organize and present data graphically, but also how to critique existing data visualizations.

---

**STAT 315 (S) Applied Machine Learning** (QFR)

How does Netflix recommend films based on your viewing history? How does Facebook group its users and send out targeted ads? How did Google select from thousands of search terms to predict flu? Machine learning (ML) is a rapidly growing field that is concerned with algorithms and models to find patterns in data and solve these practical problems at the intersection between statistics, data science and computer science. This course provides a broad introduction to ideas and methods in machine learning, with emphasis on statistical intuitions and practical data analysis. Topics including regularized regression, SVM, supervised/unsupervised learning, text analysis, neural networks will be covered. Students will use R extensively throughout the course while getting introduced to some ML tools in Python.

**Class Format:** Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

**Requirements/Evaluation:** weekly homework, one class project, and two or three exams

**Prerequisites:** MATH 140, and STAT 201/202, or equivalent; or permission of instructor. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

**Enrollment Limit:** 15

**Enrollment Preferences:** Seniors.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods

---

**STAT 335 (S) Biostatistics and Epidemiology** (QFR)

Epidemiology is the study of disease and disability in human populations, while biostatistics focuses on the development and application of statistical methods to address questions that arise in medicine, public health, or biology. This course will begin with epidemiological study designs and core concepts in epidemiology, followed by key statistical methods in public health research. Topics will include multiple regression, analysis of categorical data (two sample methods, sets of 2x2 tables, RxC tables, and logistic regression), survival analysis (Cox proportional hazards model), and a brief introduction to regression with correlated data.

**Class Format:** Hybrid format

**Requirements/Evaluation:** evaluation will be primarily based on weekly homework, two midterm exams, a final exam, and a data analysis project
Prerequisites: STAT 201, STAT 202 and MATH 140, or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Junior and senior statistics majors; public health concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is a statistics course with a focus on quantitative methods relevant to public health studies.

Spring 2021
LEC Section: H1   MWF 9:20 am - 10:10 am   Anna M. Plantinga

STAT 341  (F)(S)  Probability  (QFR)

Cross-listings: STAT 341 MATH 341

Secondary Cross-listing

The historical roots of probability lie in the study of games of chance. Modern probability, however, is a mathematical discipline that has wide applications in a myriad of other mathematical and physical sciences. Drawing on classical gaming examples for motivation, this course will present axiomatic and mathematical aspects of probability. Included will be discussions of random variables (both discrete and continuous), distribution and expectation, independence, laws of large numbers, and the well-known Central Limit Theorem. Many interesting and important applications will also be presented, including some from classical Poisson processes, random walks and Markov Chains.

Requirements/Evaluation: homework, classwork, and exams

Prerequisites: MATH 250 or permission of the instructor

Enrollment Limit: 30

Enrollment Preferences: Priority will be given to Mathematics majors and to Statistics Majors.

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
STAT 341 (D3) MATH 341 (D3)

Quantitative/Formal Reasoning Notes: This is a 300-level Math/Stat course.

Fall 2020
LEC Section: H1   MWF 9:20 am - 10:10 am   Stewart D. Johnson

Spring 2021
LEC Section: H1   TF 3:15 pm - 4:30 pm   Mihai Stoiciu

STAT 344  (F)  Statistical Design of Experiments  (QFR)

How do you get informative research results? By doing the right experiment in the first place. We'll explore the techniques used to plan experiments that are both efficient and statistically sound, the analysis of the resulting data, and the conclusions we can draw from that analysis. We'll look at classical tools like one- and two-way ANOVA and fractional factorial designs, but we'll also look at optimal design, and see how these two frameworks differ in their philosophy and in what they can do. Throughout the course, we'll make extensive use of R to work with real-world data.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

Requirements/Evaluation: Homework problems; quizzes; a final project (on a topic that interests you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded)
individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

**Prerequisites:** STAT 201, 202, or equivalent, or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Statistics majors, seniors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course uses mathematical tools and computing programs to design experiments, analyze their results, and assess their effectiveness. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

Fall 2020

LEC Section: R1  MR 3:15 pm - 4:30 pm  Laurie L. Tupper

**STAT 346  (F)(S)  Regression Theory and Applications  (QFR)**

This course focuses on the building of empirical models through data in order to predict, explain, and interpret scientific phenomena. Regression modeling is the most widely used method for analyzing and predicting a response data and for understand the relationship with explanatory variables. This course provides both theoretical and practical training in statistical modeling with particular emphasis on simple linear, logistic and multiple regression, using R to develop and diagnose models. The course covers the theory of multiple regression and diagnostics from a linear algebra perspective with emphasis on the practical application of the methods to real data sets. The data sets will be taken from a wide variety of disciplines.

**Requirements/Evaluation:** exams, homework, and a project

**Prerequisites:** MATH 250 and at least one of STAT 201, 202 or 302. Or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Statistics Majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course prepares students in the use of quantitative methods for the modeling, prediction and understanding of scientific phenomena.

Fall 2020

LEC Section: H1  MWF 11:45 am - 1:00 pm  Richard D. De Veaux

Spring 2021

LEC Section: R1  MWF 8:15 am - 9:30 am  Richard D. De Veaux

**STAT 355  (F)  Multivariate Statistical Analysis  (QFR)**

To better understand complex processes, we study how variables are related to one another, and how they work in combination. Therefore, we want to make inferences about more than one variable at time? Elementary statistical methods might not apply. In this course, we study the tools and the intuition that are necessary to analyze and describe such data sets. Topics covered will include data visualization techniques for high dimensional data sets, parametric and non-parametric techniques to estimate joint distributions, techniques for combining variables, as well as classification and clustering algorithms.

**Class Format:** This will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements

**Requirements/Evaluation:** homework, project/presentations, possibly one or two exams.

**Prerequisites:** MATH 250, and STAT 346 or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** students interested in statistics which have solid background in math and stat
Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: It is an advanced statistics class with prerequisites that are QFR courses

Fall 2020

LEC Section: H1  WF 1:30 pm - 2:45 pm  Xizhen Cai

STAT 356 (S) Time Series Analysis (QFR)

Time series -- data collected over time -- crop up in applications from economics to engineering to transit. But because the observations are generally not independent, we need special methods to investigate them. This course will include exploratory methods and modeling for time series, including descriptive methods and checking for significance, and a foray into the frequency domain. We will emphasize applications to a variety of real data, explored using R.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

Requirements/Evaluation: Evaluation is primarily based on quizzes and projects (on topics that interest you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

Prerequisites: STAT 346 (may be taken concurrently) or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Statistics majors, seniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

Spring 2021

LEC Section: R1  WF 1:30 pm - 2:45 pm  Laurie L. Tupper

STAT 360 (S) Statistical Inference (QFR)

How do we estimate unknown parameters and express the uncertainty we have in our estimate? Is there an estimator that works best? Many topics from introductory statistics such as random variables, the central limit theorem, point and interval estimation and hypotheses testing will be revisited and put on a more rigorous mathematical footing. The focus is on maximum likelihood estimators and their properties. Bayesian and computer intensive resampling techniques (e.g., the bootstrap) will also be considered.

Class Format: For the Spring 2021 semester, synchronous zoom lectures are planned, where the instructor uses Google's jamboard to interact with students

Requirements/Evaluation: Homework, Quizzes, Exams

Prerequisites: MATH 250, STAT 201 or 202, STAT 341

Enrollment Limit: 15

Enrollment Preferences: Statistics majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: A rigourous mathematical course laying the foundation for reasoning with data

Spring 2021
LEC Section: R1  TR 11:30 am - 12:45 pm  Bernhard Klingenberg

STAT 372  (F)  Longitudinal Data Analysis: Modeling Change over Time  (QFR)
This course explores modern statistical methods for drawing scientific inferences from longitudinal data, i.e., data collected repeatedly on experimental units over time. The independence assumption made for most classical statistical methods does not hold with this data structure because we have multiple measurements on each individual. Topics will include linear and generalized linear models for correlated data, including marginal and random effect models, as well as computational issues and methods for fitting these models. We will consider many applications in the social and biological sciences.

Class Format: Hybrid format. Approximately 2/3 of class time will be lecture (in person for students who are on campus, recorded for remote students). All synchronous students (whether in person or online) will attend a remote lab/discussion section each week. Asynchronous options will be provided for students unable to participate synchronously.

Requirements/Evaluation: performance on exams, homework, and a project
Prerequisites: STAT 201 and STAT 346
Enrollment Limit: 15
Enrollment Preferences: junior and senior Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: The course will cover a variety of statistical analysis methods for longitudinal data.

Fall 2020
LEC Section: H1  MWF 10:40 am - 11:30 am  Anna M. Plantinga

STAT 442  (S)  Statistical Learning and Data Mining  (QFR)
In both science and industry today, the ability to collect and store data can outpace our ability to analyze it. Traditional techniques in statistics are often unable to cope with the size and complexity of today's data bases and data warehouses. New methodologies in Statistics have recently been developed, designed to address these inadequacies, emphasizing visualization, exploration and empirical model building at the expense of traditional hypothesis testing. In this course we will examine these new techniques and apply them to a variety of real data sets.

Class Format: Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Requirements/Evaluation: homework, exams and projects
Prerequisites: STAT 346 or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Statistics majors, juniors and seniors. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: This is an advanced statistics class involving theory and application of statistical methods to data.

Spring 2021
LEC Section: H1  MWF 10:40 am - 11:30 am  Xizhen Cai
Interest and application of Bayesian methods have exploded in recent decades, being facilitated by recent advances in computational power. Indeed, the Bayesian approach is now recognized across scientific disciplines as a modern and powerful tool. We begin with an introduction to Bayes’ Theorem, the theoretical underpinning of Bayesian statistics which dates back to the 1700’s, and the concepts of prior and posterior distributions, conjugacy, and closed-form Bayesian inference. Building on this, we introduce modern computational approaches to performing Bayesian inference, including Markov chain Monte Carlo (MCMC), Metropolis-Hastings sampling, and the theory underlying these simple and powerful methods, before moving on to multivariate sampling methods and methodology. Students will become comfortable with modern software tools for MCMC using a variety of applied hierarchical modeling examples, and will use R for all statistical computing. The course will culminate in an independent Bayesian research project.

Requirements/Evaluation: Homework, exams, and project

Prerequisites: STAT 346, or permission of instructor

Enrollment Limit: 30

Enrollment Preferences: Juniors and Seniors, and Statistics majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course mandates significant mathematical and statistical prowess.

Fall 2020

LEC Section: R1  TR 8:00 am - 9:15 am  Daniel B. Turek

STS 375 (F)(S) Human Work in Computational Systems (QFR)

Cross-listings: CSCI 377  STS 375

Secondary Cross-listing

As far as we know, the technological singularity has not yet arrived. Therefore, humans remain a part of our current computation pipeline. However, the role humans play varies greatly: self-driving cars aim to have human involvement only in development and emergencies, whereas educational tools are built for constant human involvement. In this course, we broadly explore human work within computational systems through topics such as crowdsourcing, educational technology, citizen science, human computation, open-source software, micro-labor markets, and online gaming. Students should expect broad exposure to a wide variety of human computing topics and group projects on building and evaluating computational systems that use human work.

Class Format: Lectures will be held on Wednesday and Friday each week. Conference sections will each meet once per week. Students should sign up for the lecture section and one conference.

Requirements/Evaluation: Course projects, in-class group work/participation, weekly written homework assignments/readings.

Prerequisites: CSCI 136

Enrollment Limit: 20

Enrollment Preferences: Preference for current CS majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Materials/Lab Fee: $75 for purchase of software and work on crowdsourcing platforms.

Distributions: (D2) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

CSCI 377 (D3) STS 375 (D2)

Quantitative/Formal Reasoning Notes: This course includes regular homework and projects in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2020

CON Section: R2  W 1:30 pm - 2:20 pm  Molly Q Feldman
THEA 310  (F) Playwriting: Facing the Blank Page  (WS) (QFR)

I believe that after food and shelter, humans need stories to survive. This class will focus on each writer’s dreams, fears and desires and how to turn them into plays. Students will explore the fundamentals of playwriting. This will include writing exercises, weekly pages, hearing your scenes out loud and at the end of the semester the first draft of a new play.

Class Format: Hybrid

Requirements/Evaluation: Upon completion of the semester, you will be able to demonstrate and ability to: draft, rewrite, discuss and continue to rewrite; engage verbal discussion of your work and your colleagues work; place the work in context of other artists and artistic pursuits; place work in context of culture and society; complete a full draft of your play.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Theater majors first, then Concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS) (QFR)

Writing Skills Notes: You are expected to attend class, to keep up with required writing, readings drafts pages to class and participate in all discussions.

Quantitative/Formal Reasoning Notes: You are also expected to think critically and articulate your thoughts.
The major in Religion is designed to perform two related functions: to expose the student to the methods and issues involved in the study of religion as a phenomenon of psychological, sociological, and cultural/historical dimensions; and to confront students with the beliefs, practices, and values of specific religions through a study of particular religious traditions. It is a program that affords each student an opportunity to fashion their own sequence of study within a prescribed basic pattern constructed to ensure both coherence and variety. Beginning with the class of 2016, the major in Religion will consist of at least nine semester courses as follows:

**Required Sequence Courses**

REL 200 Theories and Methods in the Study of Religion

One 300-level seminar or tutorial

REL 401 Senior seminar

**Elective Courses**

Six electives at the 100-, 200-, or 300-level (with a maximum of one 100-level class to count towards major).

In addition, each major will select a specialization route in the major in conversation with and with the approval of the department. The specialization will consist of at least four courses. There are two ways to meet this requirement. A major could fulfill the requirement by concentration in one of the College’s coordinate programs or by designating four specialization courses that can be supported by the resources of the Religion department faculty and the College. In other words, these four courses might be from among the six electives and one 300-level seminar or tutorial or
might include additional coursework from other programs and departments (whether cross-listed or not).

The major will culminate in a year-long senior project. The first semester will remain a seminar (REL 401) on a topic in the study of religion set by the faculty member in consultation with incoming seniors. The spring semester will consist of participation in a research colloquium (not a course taken for credit). In this colloquium, each senior major will present their individual research projects, begun in the senior seminar, drawing on their specializations and advised by members of the faculty.

For those who wish to go beyond the formally-listed courses into a more intensive study of a particular religious tradition, methodological trend, or religious phenomenon (e.g., ritual, symbol-formation, mysticism, theology, etc.), there is the opportunity to undertake independent study or, with the approval of the department, to pursue a thesis project.

The value of the major in Religion derives from its fostering of a critical appreciation of the complex role religion plays in every society, even those that consider themselves non-religious. The major makes one sensitive to the role religion plays in shaping the terms of cultural discourse, of social attitudes and behavior, and of moral reflection. But it also discloses the ways in which religion and its social effects represent the experience of individual persons and communities. In doing these things, the major further provides one with interdisciplinary analytical tools and cross-cultural experience and opens up new avenues for dealing with both the history of a society and culture and the relationships between different societies and cultures. What one learns as a Religion major is therefore remarkably applicable to a wide range of other fields of study or professions.

Students declaring Religion as a major will identify an area of specialization and link it to their senior seminar final paper and be expected to present it in a spring colloquium during their senior year.

THE DEGREE WITH HONORS IN RELIGION

The degree with honors in Religion requires the above-mentioned nine courses and the preparation of a thesis of 75+ pages with a grade of B+ or better. A thesis may combine revised work done in other courses with new material prepared while enrolled either in Religion 493-W31 or Religion W31-494. Up to two-thirds of the work in the thesis may be such revised work, but at least one-third must represent new work. The thesis must constitute a coherent whole either by its organizing theme or by a focus on a particular religious tradition. Candidates will also be expected to present the results of their thesis orally in a public presentation. Students who wish to be candidates for honors in Religion will submit proposals and at least one paper that may be included in the thesis to the department in the spring of their junior year. Students must normally have at least a 3.5 GPA in Religion to be considered for the honors program.

The chair will serve as advisor to non-majors.

STUDY ABROAD

The Williams College Religion Department encourages potential majors to study abroad in order to enhance their education and gain international perspectives on religious studies. There are many excellent study abroad opportunities offering students a variety of possible experiences: among them cultural immersion, field work, intensive language learning, independent study, participation in another educational system. Many of our majors study in the Williams College Oxford Program, but our majors also regularly pursue a semester or year-long study in other programs.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

**Can your department or program typically pre-approve courses for major/concentration credit?**

Yes, in many cases, though students should be sure to contact the department.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**

Course title and description. Sometimes a course title is sufficient, but for many courses we also need to see a description of some sort because the title is unclear.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**

No.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**

No.

**Are there specific major requirements that cannot be fulfilled while on study away?**

Yes. 3 courses: Religion 200, one 300-level Religion seminar or tutorial, and Religion 401 Senior Seminar.

**Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)**

Yes. Make sure that they have or will be able to take REL 200, because it is offered only once a year.
Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

**REL 104 (S) Religious Conflict and Cooperation**

Violent conflicts throughout the world are animated by religious rhetoric, driven by religious actors, and sanctioned by religious authorities. At the same time, religious and “interfaith” organizations are often prominent participants in peace advocacy and conflict resolution. What are the varieties of religious involvement in war and peace? What can we learn about “religion” from the conflicts and cooperative initiatives that are labeled “religious”? Does the modern nation-state increase the likelihood of religious conflict? Will 21st century globalization support more or less conflict and/or cooperation? We will investigate these and other questions through contemporary case studies. In some cases we will focus on conflicts over territory: the Temple Mount/Noble Sanctuary in Jerusalem, the Babri Mosque/Birthplace of Rama in Ayodhya, India, the Black Hills in South Dakota. But we will also study the rhetoric of Usama Bin Laden and the role of spirit possession in the formation of the Lord’s Resistance Army in Uganda. Finally, we will consider efforts to end such conflicts peacefully and delegitimize militant groups. In each case, we will see how competition for control over what counts as “Judaism,” “Hinduism,” “religion,” “religious,” and so forth is central to these conflicts and to the goals of those who seek to resolve them.

Along with primary and secondary sources related to each case study, we will also read theoretical works by authors that may include Mark Juergensmeyer, Samuel Huntington, Scott Appleby, Bruce Lincoln, Saba Mahmood, Olivier Roy, Ananda Abeysekara, Talal Asad, Tomoko Masuzawa, Elizabeth Shakman Hurd, and others.

**Requirements/Evaluation:** two short papers, an in-class mid-term exam, and a final paper or project

**Prerequisites:** none

**Enrollment Limit:** none

**Enrollment Preferences:** first-year students and potential Religion majors

**Expected Class Size:** 30

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

Not offered current academic year

**REL 105 (F) Introduction to European Art Before 1700**

**Cross-listings:** ARTH 101 REL 105

**Secondary Cross-listing**

A team-taught introduction to the art and architecture of Europe from the ancient Mediterranean to Baroque Italy. This course celebrates the glory of works of art as physical objects, to be viewed and contemplated, to be sure, but also often to be worshiped, worn, touched (even licked), held, exhibited, bought and sold, passed through or around, and lived in. To help students begin to appreciate how these works of art might have been understood by those who originally made and used them, the course sets its objects of study within a number of revealing historical contexts, from the social and the political to the philosophical and the art historical. To give students time with works of art, our discussion-centered conferences use the wealth of art resources in Williamstown: the Clark Art Institute, the buildings and sculpture of the Williams College Campus, and the Williams College Museum of Art.

**Class Format:** This course has 2 components: lectures and conferences. The lectures will be twice weekly, asynchronous, and recorded. Conferences are once per week and synchronous (these small discussions of 5 students each will be taught in person for students in residence, and via Zoom for students enrolled remotely).

**Requirements/Evaluation:** Three shorter essays, quizzes, engaged participation in conference sections

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** none

**Expected Class Size:** 30

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)
REL 108 (F) Technologies of Religious Experience

In 1962, ten Harvard Divinity School students received a capsule of white powder before Good Friday services. The powder was psilocybin, a psychedelic. One of them soon ran out of chapel to announce that the Messiah had arrived. Seven others reported profound mystical experiences, which they reported even years later as exerting continued influence on their life and work. Is psilocybin a technology for producing religious experience? Should religions find and employ technologies that engender religious feeling? Are such experiences any less true or authentic than ones that aren’t technologically mediated? More humbly, how is a religious service experienced differently when it’s viewed online or through a TV? How can an amulet, icon, or statue be used as a technology of religion? Drawing from a broad range of sources, this course will introduce students to the critical study of religion through its consideration of religious experience as both central to religious life and as (almost always) technologically mediated. The course thus aims to expose students to a wide variety of religions and technologies of religion, while simultaneously offering a them a chance to explore Technology Studies as one critical lens for studying religion and religious experience.

Requirements/Evaluation: short response papers, one longer non-research paper
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: Religion majors
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

REL 109 Apocalypse (WS)

An end of days. A utopia to come. A great cosmic reversal of fortune. A revelation of truth that leads to radical transformation. Each of these themes and many more fall under the genre of imagination that we associate with the apocalypse. In order to understand the persistence and prevalence of apocalyptic imaginations, we will move back and forth through time. On the one hand, we will read the Book of Revelation in relationship to a selection of ancient Zoroastrian, Jewish, Greek, Christian, and Muslim texts identified with apocalyptic traditions. On the other hand, we will read these texts in relationship to and alongside select literature and movements of apocalypse in the U.S.A. We will pay particular attention to how apocalyptic imaginations reflect upon and interact with social structures of class, colonization, ethnicity, gender, race, and sexuality.

Requirements/Evaluation: grading will be based on participation, short P/F papers, a graded 3-page essay that will be revised, a 5-page second essay, and a final 7- to 10-page paper
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: first-years and sophomores preferred or Religion majors
Expected Class Size: 15
Grading:
Distributions: (D2) (WS)
Writing Skills Notes: As a WS course, grading will be based on short, weekly P/F papers, a graded 3-page essay that will be revised for credit, a 5-page second essay, and a final 7- to 10-page paper for which a draft will be peer reviewed. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

REL 110  (F)  Living Religion: The Study of Religion in Everyday Life

When studying religions, people generally turn to studying scriptures, the life and teachings of the religion’s founder, and the fundamental doctrines of the religion. This approach does not allow us to understand, however, is the way that such religious traditions actually manifest themselves in the world. This course introduces students to an alternative approach to studying religion, by exploring the way these religions are lived and experienced by individuals and communities in a variety of contexts. We will see how religion intersects with people’s lived experiences of gender, race, class, sexuality, and broader socio-cultural and political contexts. We will explore this approach to religion through an engagement with ethnography (the qualitative research method in the social-sciences generally described as “participant-observation”). Students will not only learn about the theory and practice of this methodology, but will also conduct their own ethnographic research project over the course of the semester. This will involve: designing a feasible project and research question, selecting local research sites and subjects, taking field-notes and conducting interviews, and finally analyzing data and writing an ethnographic essay.

Requirements/Evaluation: regular reading responses, semester-long research project with frequent small assignments building up to the final product (class presentation and approximately 10-page paper)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 12-12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

REL 126  Religion, Politics, and Society: A Global Perspective  (DPE)

In spite of predictions that religion would wither away with in the face of modernization, even casual observation indicates that it remains a powerful force in contemporary political life. Our goal is to obtain an enhanced understanding and appreciation of the salience of religion in public life. The course will be divided into three parts. The first part focuses on different theoretical approaches to make sense of the relation between religion, politics, and society, discussing especially the concept of the “secular.” The second part discusses religion in the US society. Here, we will discuss if the American society can be called secular, the role of religion in American political culture, the relation of religion to the state, the relevance of religious interests and their mobilization, religious minorities in the United States and many other aspects of religion in the US society. The third part will take a global perspective on the relation between religion and politics. We will discuss cases of Buddhism, Christianity (Catholicism and Protestantism), Confucianism, Hinduism, Islam (Sunni and Shi’a) and Judaism. Although the study of religion and politics raises a host of deep philosophical questions, the principal aim of the course is to understand how religion affects politics (and vice versa), rather than to explore the moral questions raised by the interaction of these two forces.

Requirements/Evaluation: Class participation and three papers, in these proportions: 20% participation; 25% first paper (7 pages); 30% second paper (8-10 pages); and 25% third paper (7 pages). No final exam.

Prerequisites: none

Enrollment Limit: 35

Enrollment Preferences: Global Studies concentrators and intended concentrators; Religion majors and intended majors

Expected Class Size: 25

Grading:

Unit Notes: Core course for GBST

Distributions: (D2)  (DPE)

Difference, Power, and Equity Notes: An engagement with religious difference in the world, with a spotlight on how religion and politics—that is, power—interact globally and in the USA.

REL 133 (S) Buddhist Literature

Cross-listings: REL 133 ASST 133 ENGL 147

Primary Cross-listing

This course introduces students to the diverse literary culture of Buddhist Asia. Through close readings of particular influential Buddhist texts, we will analyze not only what the texts say and mean, but also learn about the "social life" of these texts--i.e., what is the socio-historical context of these texts, who are the intended audience, what is the relationship of these texts with their particular communities, how do these communities engage with their texts, including how texts have been translated, taught, worshipped and ritualized. We will also explore the materiality of these texts, which is as diverse as the languages in which these texts are written. Alongside an exploration of materiality requires that we reflect on what counts as "text". Moreover, by sampling different genres of Buddhist texts (e.g., philosophical, historical, narrative, grammatical, cosmological, astrological, magical), we will discuss what makes them Buddhist and what makes them literary. The Lotus Sutra, the Heart Sutra, the Dhammapada, and Vessantara Jataka are just some of the texts we will study in this course. No prior knowledge about Buddhism is required.

Requirements/Evaluation: Attendance and active participation 20%; Short writing assignments 25% (i.e., a one-page, single-space, critical response based on the class reading x 5 total); Mid-term exam (in-class: identification terms and short essay) 25%; Final project and presentation 30% (the final grade includes initial consultation with the instructor regarding topic selection, annotated bibliography, project outline, final presentation, and final written report).

Prerequisites: none

REL 134 (S) Leaving the World Behind: The Literature of Reclusion (DPE) (WS)

Cross-listings: ANTH 134 CHIN 134 COMP 134 REL 134

Secondary Cross-listing

Living in a time of political and social turmoil, Confucius told his followers: “When the realm has the Way, show yourself; when it lacks the way, hide.” Reclusion here is a moral choice, justified by the ethical decline of the state. But it could also be a mortal necessity in a period in which government service was a distinctly hazardous pursuit. In other contexts becoming a hermit could instead be figured as aesthetic stance meant to preserve one’s artistic integrity against the dominant claims of society. This course looks at the literature of reclusion-living a life of seclusion from society-in a range of different cultures and periods, from ancient China to contemporary America. With sources that include poems, essays, novels, and films, we will investigate a set of issues surrounding radical seclusion. What different forms does reclusion take? Can one be a hermit without being completely separated from society? What is the relationship between hermits and the state-to what extent does one depend on the other? What are the philosophical and moral implications of eremitism? Is separating oneself from human society an inherently immoral act? What is the relationship between reclusion and technology in the contemporary world? What is the nature of solitude and can it be experienced in a group (for example, in contemporary "intentional communities")? While most of our work will focus on textual analysis, there will be an experiential component to the course as well. Each student will design and implement their own experiment in (short-term) eremitism.

Class Format: experiential component

Requirements/Evaluation: tutorial papers, responses, and an individual project

Prerequisites: none

Enrollment Limit: 10
Enrollment Preferences: first-year students, Chinese majors, Religion majors, Anthropology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 134 (D1) CHIN 134 (D1) COMP 134 (D1) REL 134 (D2)

Writing Skills Notes: Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner's paper. Papers will receive substantial writing-based feedback from both the instructor and partner.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social differences and dynamics of unequal power. Acts of reclusion are often ways that individuals can challenge the dominance of the state and other structures of authority indirectly. Modes of reclusion can differ substantially depending on the social standing of the recluse. These are issues that we will examine in the course.

REL 149 (S) The Sacred in South Asia

Cross-listings: ANTH 249 ASST 242 REL 149

Secondary Cross-listing

Is religious identity necessarily singular and unambiguous? The jinn - Islamic spirits born of fire - are sought out for their healing and other powers not only by Muslims in India, but by Hindus, Christians and Sikhs, as well. In parts of Bengal statues of the Hindu goddess Durga are traditionally sculpted by Muslim artisans. Buddhist pilgrimage sites in Sri Lanka contain tombs of Muslim Sufi saints and shrines of Hindu deities. South Asia - where a fifth of humanity lives - provides some of the most striking examples of pluralism and religiously composite culture in our contemporary world. Yet at the same time, strident religious majoritarianism has been a defining feature of the politics of India, Pakistan and Sri Lanka for decades, and haunts Nepal and Bangladesh as well. Are these two modes of religious being - pluralistic and composite on the one hand, singular and majoritarian on the other - reflective of two different conceptions of selfhood? What if we turn from questions of community and identity to questions of unseen power and the sacred? This course is an exploration of lived religion in South Asia. It is simultaneously a study of popular Hinduism, Buddhism and Islam and an introduction to the anthropology of religion. Centered on in-depth studies of popular sites of 'syncretic' ritual practice (shared across religious difference) as well as studies of mass mobilizations that seek to align the religious community with the nation, we approach from multiple angles what the sacred might mean in modernity.

Requirements/Evaluation: weekly (1 page) posts on readings, two short (5 page) papers, and one (12-14 page) final research paper.

Prerequisites: Interest in the topic!

Enrollment Limit: 13

Enrollment Preferences: Students in all fields of study are most welcome; if overenrolled, priority will be given to majors in Anthropology, Sociology, Religion and Asian Studies.

REL 168 (F) Making God Real

Is God real? Are Spirits? Divine messengers? What would it mean to say "yes" to any of these questions if we don't "believe" in supernatural beings at all? This course will explore how God(s), spirits, ancestors, and other super-human beings have been seen, heard, and felt by humans. Instead of rehearsing now tired debates between believers and skeptics, this class will combine cognitive sciences approaches to the study of religion with new perspectives on the nature of ontology--the nature of being--to examine how God and other super-human beings exist in and through their effects
upon humans. From this perspective, we’ll see how, even if God(s) and other supernatural beings don’t exist in the heavens, they nevertheless act in this world through the ways that humans experience them. The puzzle for us will be, how do God(s), spirits, and/or divine messengers act? How do we feel, see, or hear beings that might not be there? What kind of reality do God(s) and spirits have in such scenarios? What is the nature of their being?

Class Format: Remote; synchronous learning

Requirements/Evaluation: Students will be required to take notes on course readings, write weekly or biweekly response papers, and submit a final essay at the end of the course.

Prerequisites: No prerequisites

Enrollment Limit: 15

Enrollment Preferences: Religion Majors, Seniors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

REL 171 (S) Music and Spirituality: Cross-Cultural Perspectives

Cross-listings: REL 171 MUS 171

Secondary Cross-listing

How does the sacred sound? Across cultures and across millennia, music has served to enable, inspire, and express the spiritual life experiences of communities and individuals. Why is this so? In what contexts and through what means can making and hearing music reflect and produce spiritual experience? This team-taught course will take a comparative approach to exploring music’s spiritual power, considering such areas as the function of music in ritual practices from various cultures and times, the use of music to tell sacred stories, music and dance in spiritual practice, and the role of music created in the face of death and its aftermath. Working from both musicological and ethnomusicological perspectives, we will explore the possibilities of sensory ethnography for better understanding the role of perception and the body in spiritual experiences with music. Our comparisons will draw from Western and world Christian traditions from medieval to modern times, and on conversations with musicians immersed in the music of other faith traditions (including Jewish, Hindu, and Muslim). We will explore connections between music and spirituality through a wide variety of repertoires, including plainchant and Renaissance sacred choral music; the music and dance of traditional West African religions like vodun and orisa; music from the Western classical tradition by such composers as Bach, Beethoven, and Messiaen; American hymnody and spirituals; gospel music in the U.S. and Africa; and selected artists from the world of jazz and popular music, such as John Coltrane and Leonard Cohen.

Requirements/Evaluation: class participation; class journal; presentation with annotated bibliography; ethnographic field study; final project with presentation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students with a demonstrated interest in music, religion, and/or anthropology/sociology

Expected Class Size: 15

REL 200 (S) What is Religion? Theories and Methods in the Study of Religion

As recently as the 1960s, the most influential theorists of modernity were predicting that religion would eventually vanish, while theologians lamented what they called the "Death of God." But one has only to glance at today’s headlines to see that accounts of religion's demise were premature. Indeed a basic knowledge of religion is indispensable to understanding the current global moment as well as a range of fields from political science to English
literature and history. To explore the meaning of religion, this course will introduce the debates around which the discipline of religious studies has been constituted. It will familiarize students with the discipline's most significant theorists (both foundational and contemporary) and trace their multidisciplinary—philosophical, sociological, anthropological, and psychological—modes of inquiry. At stake are questions such as: How does one go about studying religion? Is "religion" a cultural universal? What is religion's relationship to the "European Enlightenment"? to God? to science? to society? to secularism? to colonialism? to ethics? to politics? to violence? to sex? to freedom? Has religion changed fundamentally in modernity? And if so, what is its future?

Requirements/Evaluation: class participation, weekly short (max 2 page) writing assignments, a 5-page midterm paper, and a 10-page final paper
Prerequisites: none, although a previous course on religion is recommended
Enrollment Limit: 15
Enrollment Preferences: Religion majors

REL 201  (F)  The Hebrew Bible

Cross-listings: JWST 201  COMP 201  REL 201
Primary Cross-listing

The Hebrew Bible is perhaps the single most influential work in the history of Western philosophy, literature, and art. But the overwhelming presence of the text in nearly every aspect of modern culture often obscures the sheer brilliance of its narrative technique as well as the complex interplay between law, history, prophecy, and poetry. This course offers a comprehensive introduction to the literary, historical, and theological aspects of the Hebrew Bible with an eye towards developing a sophisticated understanding of the text in its ancient context. Through the close reading of substantial portions of the Hebrew Scripture in translation and the application of various modern critical approaches to culture and literature, students will explore fundamental questions about the social, ritual, and philosophical history of ancient Israel, as well as the fundamental power of storytelling that has resonated across two millennia.

Class Format: discussion
Requirements/Evaluation: class participation, short written assignments, and two to three longer papers
Prerequisites: none
Enrollment Limit: 40
Enrollment Preferences: Jewish Studies concentrators, Religion and Comparative Literature majors
Expected Class Size: 40

REL 202  (S)  Moses: Stranger in a Strange Land

Cross-listings: COMP 214  REL 202  JWST 202
Primary Cross-listing

As chieftain, priest, prophet, and lawgiver all in one, Moses occupies the central place in the history of Israelite and Jewish leaders. However, he is a somewhat unlikely candidate for such an important role. He is God's chosen leader among the enslaved Israelites, but he is raised as an Egyptian prince. He is a spokesman for his people, but he is slow of speech. He is the lawgiver and first judge of his nation, yet he is quick-tempered and impatient. The story of the most revered figure in the Jewish tradition, who nevertheless remains an outsider to the very end, has fascinated commentators and inspired countless artistic and literary interpretations. This course will engage in a close study of the figure of Moses by examining
the biblical narrative of his life and career from Exodus through Deuteronomy with an eye towards understanding the complex and often contradictory portrait of this self-described "stranger in a strange land." We will also examine some of the ancient legendary and folkloric accounts about Moses, as well as philosophical and allegorical treatments in Hellenistic Jewish, early Christian, and Muslim biographies. We will then proceed to investigate key modern reconfigurations and critiques of Moses in several genres, which may include renaissance visual depictions, literary works by Sigmund Freud, George Eliot, Thomas Mann, and Zora Neale Hurston, and even musical and cinematic renditions. All readings are in translation.

Requirements/Evaluation: class participation, short written assignments, and two or three longer papers

REL 203 (F) Judaism: Before The Law

Cross-listings: REL 203 JWST 101

Primary Cross-listing

This course introduces the academic study of Judaism through a humanistic exploration of "the Law" as a concept in Jewish thought and practice. Coverage will include the Law of Moses in the Hebrew Bible, the rabbinic distinction between "Oral Law" and "Written Law," medieval philosophical justifications for the Law, modern interpretations of the Law as Moral Law, Hasidic challenges to the centrality of the Law, and twentieth-century Jewish fiction that is haunted by a felt absence of the Law. Topics may also include the nature of rabbinic authority, methods of Jewish legal interpretation and innovation, and Jewish law as it pertains specifically to women, gentiles, idolaters, food consumption, and the Land of Israel. Course materials will include classical sources such as the Talmud and Midrash, modern philosophical texts by Franz Rosenzweig, Leo Strauss and Joseph Soloveitchik, Kafka's The Trial with his parable "Before The Law," Woody Allen's film Crimes and Misdemeanors, and ethnographic accounts of contemporary Jewish observance. All readings will be in translation.

Requirements/Evaluation: class participation, three short papers, and a final longer paper

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Jewish Studies concentrators, Religion majors and students who are considering these options

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

REL 204 (F) Jesus and Judaism

Cross-listings: JWST 204 REL 204

Primary Cross-listing

Was Jesus a Christian? Was he Jewish? And if Christianity's ostensible founder was Jewish, what does that mean for his Christianess? This course will explore Christian, Jewish, and secular depictions of Jesus' Jewishness to see what they reveal about the nature and history of the relationship between Christianity and Judaism. Broad in its historical scope, the course will include examinations of ancient Jewish messianic expectations, New Testament depictions of Jesus' Jewishness, covert references to Jesus in the Talmud, medieval debates between Jews and Christians, and modern scholarly "quests" for the historical Jesus. Was Jesus Jewish? How so and for whom?

Requirements/Evaluation: active preparation and participation, papers

**Cross-listings:** JWST 205 CLAS 205 COMP 217 REL 205

**Primary Cross-listing**

The Biblical books of Proverbs, Ecclesiastes, and Job are often grouped together under the Hebrew category of *hokhmah*, 'wisdom.' Although these books are very different in content, they can all be interpreted as meditations on ethical and practical philosophy. In this way, they represent the Hebrew Bible's canonical embrace of a widespread Near Eastern literary phenomenon. From the instructional literature of Egypt and Mesopotamia to Greek didactic poetry and fables, ancient Mediterranean cultures offer a wide range of texts that engage the issues of personal behavior, leadership, and justice. Starting with the central wisdom books of the Hebrew Bible and moving through relevant material from the Apocrypha, New Testament, and the Egyptian and Babylonian traditions, this course will examine the literature of wisdom throughout the ancient world with an eye toward understanding its various social, political, and philosophical contexts. We will then consider the Greek wisdom tradition in such texts as Hesiod's *Works and Days*, Aesop's fables, and fragments from the pre-Socratic philosophers. Finally, we will explore the influence of these ancient sources on later expressions of wisdom in medieval European literature, as well as more recent examples such as Benjamin Franklin's *Poor Richard's Almanack*.

All readings are in translation.

**Requirements/Evaluation:** class participation, short written assignments, and two longer papers

**REL 206 (S) The Book of Job and Joban Literature**

**Cross-listings:** REL 206 JWST 206 COMP 206

**Primary Cross-listing**

The Book of Job has often been described as the most philosophical book of the Hebrew Bible. The story of one man's struggle to understand the cause of his suffering and his relationship to God represents the finest flowering of the Near Eastern wisdom literature tradition. Through its exploration of fundamental issues concerning human suffering, fate and divinity, and the nature of philosophical self-examination, Job has served as a touchstone for the entire history of existential literature. At the same time, the sheer poetic force of the story has inspired some of the greatest artistic and literary meditations in the Western tradition. This course will engage in a close reading of the Book of Job in its full cultural, religious, and historical context with special attention to its literary, philosophical, and psychological dimensions. We will then proceed to investigate key modern works in several genres that involve Joban motifs, themes, and text both explicitly and implicitly. These texts will include Franz Kafka's *The Trial*, Archibald MacLeish's J.B., Robert Frost's "Masque of Reason," Carl Jung's *Answer to Job*, and William Blake's *Illustrations to the Book of Job*. All readings are in translation.

**Class Format:** For the spring of 2021, this course will be taught online. The seminar will meet at the regularly scheduled time twice a week.

**Requirements/Evaluation:** Evaluation will be based on class participation, weekly short written assignments, and two longer papers.

**From Adam to Noah: Literary Imagination and the Primeval History in Genesis**  
**Cross-listings:** COMP 250  REL 207  JWST 207  CLAS 207  

**Primary Cross-listing**  
How long did Adam and Eve live in the Garden of Eden? What was the mark of Cain? Why did Enoch not die? Who was Noah's wife? How did Giants survive the Flood? These are only a few of the fascinating questions that ancient readers and interpreters of the Book of Genesis asked and attempted to answer. The first ten chapters of Genesis present a tantalizingly brief narrative account of the earliest history of humankind. The text moves swiftly from the Creation to the Flood and its immediate aftermath, but this masterful economy of style leaves many details unexplained. This course will explore the rich and varied literary traditions associated with the primeval history in the Genesis. Through a close reading of ancient noncanonical sources such as the Book of Enoch, Jubilees, and the Life of Adam and Eve, as well as Jewish traditions represented in Josephus, Philo, and Rabbinic literature and other accounts presented in early Christian and Gnostic texts, we will investigate the ways in which the elliptical style of Genesis generated a massive body of ancient folklore, creative exegesis, and explicit literary re-imagining of the early history of humankind. We will then turn to some continuations of these variant traditions in medieval literature, with particular attention to the material on the figures of Cain and Noah. All readings are in translation.

**Class Format:** For the fall of 2020, this course will taught online. The seminar will meet at the regularly scheduled time twice a week.

**Requirements/Evaluation:** Class participation and several writing assignments.

**Genesis: The Family Saga**  
**Cross-listings:** COMP 207  REL 208  JWST 208  

**Primary Cross-listing**  
The Book of Genesis has rightly been described as the masterpiece of Hebrew biblical narrative. In particular, the continuous tale that begins with Abraham and Sarah and extends four generations to the children of Jacob, Leah, and Rachel is one of the most extraordinary examples of literary artistry in any time or tradition. As one family wrestles with the promise of becoming a chosen people, the narrative explores themes of marriage, parenthood, sibling rivalry, land, violence, wandering, and, above all, the complex relationship between humanity and God. This course will examine
those themes through a close reading of Genesis in translation, from Abraham and Sarah's first appearance on the scene to the death of Jacob. We will consider the text from multiple perspectives with an eye toward understanding the literary, philosophical, and psychological dimensions that continue to amaze and perplex readers to this day.

REL 209 (S) Jewish America

Cross-listings: REL 209 JWST 209

Primary Cross-listing

Who and what counts as "Jewish" in America? Does stand-up comedy have a distinctly Jewish pedigree? What about neoconservatism? How is it possible to answer such questions without falling into what David Hollinger has called the "booster-bigot trap"? How is it possible, that is, to avoid answers that uncritically celebrate "Jewish contributions" or perniciously suggest "Jewish influence"? This course will explore the various meanings of Jewishness in American culture as expressed by artists, rabbis, activists, intellectuals, boosters, bigots and others. We will seek to avoid the booster-bigot trap by focusing vigilantly on what is at stake wherever Jewishness is invoked, defined or ascribed. We will draw methodological support from scholars like Hollinger, Jonathan Freedman, Laura Levitt, Yuri Slezkine, Shaul Magid, Andrea Most and others. Particular attention will be given to the appearance of Jewish themes and involvement in popular culture and political action, as well as to Jewish American communal institutions, the everyday lives of Jewish Americans, and Jewish variations on American religion. Coursework will involve some historical, sociological and ethnographic readings, but will focus primarily on close analysis of films, literary fiction, stand-up comedy, political magazines, theological texts, and television shows. We may, for instance, watch films like The Jazz Singer (1927 and 1980), Exodus and Annie Hall; read John Updike's Bech: A Book, Philip Roth's Operation Shylock or Cynthia Ozick's The Puttermesser Papers; listen to the comedy of Mort Sahl, Lenny Bruce and Sarah Silverman; read from Henry Ford's Dearborn Independent, the Menorah Journal or Commentary; study works by Rabbis Stephen Wise, Abraham Joshua Heschel and Meir Kahane; and watch episodes of Bridget Loves Bernie, Northern Exposure and Curb Your Enthusiasm. We will also study arguments about the role and meaning of Jewishness in American secularization, "therapeutic culture," the civil rights movement, the sexual revolution, and feminism.

Requirements/Evaluation: class participation, two short papers, a midterm take-home exam, and a final paper interpreting an example of Jewishness in America chosen by the student

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Religion majors, Jewish Studies concentrators, and students who are interested in either of these options

REL 210 (S) Distant Encounters: East Meets West in the Art of the European Middle Ages (WS)

Cross-listings: ARTH 212 REL 210 ARAB 212
In this tutorial, students will investigate the rich artistic consequences -- in architecture, manuscript illumination, mosaic, sculpture, panel painting, fresco, metalwork, and other minor arts -- of European contact with the Eastern Mediterranean between approximately 300 and 1450 CE. From the beginnings of Christianity, pilgrims from Europe made the long journey to sacred sites in the Holy Land (extending across parts of present-day Egypt, Israel, Syria, and Turkey). When these sites became less accessible with the spread of Islam in the seventh century, Europeans sought to recreate the sites at home. Later, from 1095 onward, Christian Europeans attempted to reclaim and hold the Holy Land from non-Christians by force, through an ill-fated series of five major and several lesser “crusades.” Over the centuries, before, during, and after the Crusades, exposure to the peoples, ideas, and cultures of the Eastern Mediterranean also came through trade and through the travel and settlement of non-Europeans in Europe itself, particularly in Spain, Sicily, and Venice. Together, through open discussion, we will explore artistic production within each of these different cross-cultural contexts of East-West encounter. In the process, we will reflect on how art could function as a conduit for the exchange of ideas in the Middle Ages, and how it could be used both to negotiate and to intensify cultural difference.

Requirements/Evaluation: participation in discussion; five 5-7-page tutorial papers (one of which will be revised as a final writing assignment); five 1-2-page response papers

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: First- and second-year students, but open to all

REL 211 Christians versus Pagans: Ancient Egypt

This course explores the religious terrain of ancient Egypt in the Greek and Roman periods. Focused mostly on the rise of Christianity, this course asks big questions about what changes and what stays the same when major religious movements emerge in a place. What parts of Christianity were new to Egypt and were premised upon a rejection and displacement of Egyptian religious practices and beliefs? What parts of Egyptian religious life, rather than being replaced or transformed by Christianity, were adopted into Christianity? And what parts of Egyptian religious practice resisted Christianity? And how and where did it resist?

REL 213 (S) Patrons, Rituals, and Living Images in Japanese Buddhism

Cross-listings: ASST 205 REL 213 ARTH 205

Secondary Cross-listing

This course introduces students to Buddhist art and architecture in Japan from its introduction in the sixth century through the present. We focus on the ways different communities--the imperial court, immigrant artists, monks, women, and commoners--employed and venerated Buddhist images for
political legitimacy, personal salvation, and worldly benefit. This course also examines how Japanese Buddhist imagery became aestheticized in the early twentieth century and appropriated later in modern and contemporary visual cultures. Some of the topics to be discussed include the reception of continental styles of Buddhist bronze sculpture, the relationship between mandalas and rituals, the role of women in developing Buddhist embroideries, and the Western reappraisal of Zen arts. Students will develop familiarity with the concepts and ideas underlying the production of Buddhist images and will gain foundational skills in analyzing the visual, material, and iconographic qualities of Japanese Buddhist art. For the final project, students will design a digital exhibition focused around one of the topics of the course.

Requirements/Evaluation: Class participation, 4 reading and object response papers (2-3 pages), and digital exhibition project (8-10-page proposal written in stages over the semester including a 10-minute presentation)

Prerequisites: none

REL 214 (F) Religion and the State

Cross listings: REL 214 PSCI 271

Primary Cross-listing

The First Amendment of the U.S. Constitution begins: “Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof.” What does “religion” mean in this formulation? Should “religion” be singled-out for exclusion from government? Are “religious” reasons ever legitimate reasons for laws, policies or popular political action? Should “religious” organizations be exempt from otherwise generally applicable laws? Is “religion” good or necessary for democratic societies? In this course we will respond to these and related questions through an investigation of “religion” as a concept in political theory. Particular attention will be given to the modern liberal tradition and its critics. Coverage will range from modern classics to innovative contemporary arguments. Classics may include John Locke’s A Letter Concerning Toleration, selections from Jean-Jacques Rousseau’s The Social Contract, James Madison’s Memorial and Remonstrance Against Religious Assessments, Immanuel Kant’s Religion Within the Boundaries of Mere Reason, John Stewart Mill’s Three Essays On Religion, and John Dewey’s A Common Faith. More recent arguments may come from John Rawls, Alasdair MacIntyre, Nicholas Wolterstorff, Martha Nussbaum, Jeffrey Stout, Winnifred Sullivan, Brian Leiter and Andrew Koppelman.

Primary Cross-listing
In this course, students will be introduced to the New Testament through an exploration of how the New Testament became--and continues to be--produced as a book. We will start by examining the letters of Paul--its earliest texts--in terms of the habits and traditions of ancient letter-writing. We will similarly place the other texts of the New Testament in the context of Greek, Roman, and Jewish literary traditions and conventions. As the semester moves forward, we will examine how the New Testament itself became a material object--a book--and how its changing material status shaped its meaning and functioning. We will see the New Testament transform from a library of separate scrolls and/or codices (a library which was occasionally bound together into a single codex), to a luxury object in the Middle Ages, to a cheap printed object in the wake of the printing revolution of the 19th century, to its modern life as both a highly marketed object and a searchable digital thing in online spaces and mobile apps.

REL 216 (S) Greek Art and the Gods

Cross-listings: ARTH 238 REL 216 CLAS 248

Secondary Cross-listing

In the Iliad, when the god Apollo is visualized, it is as a man, angry in his heart, coming down from the peaks of Olympos, bow and quiver on his shoulders, the arrows clanging as the god moves, “like the coming of night,” to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into metaphors in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address in detail influential artistic monuments, literary forms, and social phenomena, including the sculptures of Olympia and the Parthenon; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural functions of visual representations of gods, and the continued interest in the gods long after the end of antiquity. Readings assignments will include selections from Homer, Hesiod, Sappho, Aischylos, Euripides, Plato, Walter Burkert, Jean-Pierre Vernant, Nikolaus Himmelmann, Erika Simon, and Friedrich Nietzsche.

Class Format: discussion
Requirements/Evaluation: short writing assignments, midterm exam, final exam, final paper

REL 217 (F) Religion and American Politics

Cross-listings: REL 217 HIST 257
This course examines the intersection of religion and American politics, from the colonial era to the present. It focuses especially on electoral politics and social movements, exploring the role of religion in conflicts over racial equality, capitalism, gender and sexuality, and church-state relations.

Students will tackle questions with both historical and present-day relevance, such as: Was America founded as a Christian nation? Has religion been a source of revolutionary change, or a mere 'opiate of the masses'? How have religious ethics shaped the politics of race, gender, and class? How has growing religious diversity affected civic unity? What role should religion play in American political life? The course will cover such topics as the religious views of the 'Founders;' debates over slavery; spiritualism & women's rights; state treatment of religious minorities; the Scopes Trial and scientific modernity; the Social Gospel and modern capitalism; the New Left and the Moral Majority; and late 20th-century religious battles over war, civil rights, feminism, and democracy itself.

Requirements/Evaluation: class participation; six informal response papers (300-400 words); two unit papers (4-6 pages); final paper (8-10 pages)

Prerequisites: none

REL 218 (F) Foundations of China

Cross-listings: HIST 214 CHIN 214 ANTH 212 GBST 212 REL 218

Secondary Cross-listing

This course examines the foundational period of Chinese civilization, from the earliest evidence of human activity in the geographical region we now call China, through the end of the Han dynasty in the early third-century CE. This is the period that saw the creation and spread of the Chinese script (a writing system that would be the dominant one in East Asia for thousands of years), the teachings of Confucius (whose ideas continue to play a role in the lives of billions of people today), the construction of the Great Wall (which is not, as it turns out, visible from space), and the creation of the imperial bureaucratic system (that was, in essence, the progenitor of the modern bureaucratic state). We will proceed chronologically but focus on a set of thematic topics, including language and writing, religion and philosophy, art and architecture, politics and economics, and science and technology. While this course is entitled "Foundations of China," we will take a critical perspective on narratives, both Chinese and Western, that see Chinese history as an unbroken history of a single "civilization."

Requirements/Evaluation: short writing assignments (approximately 750 words each), quizzes, a mid-term, and a final exam

Prerequisites: none

Enrollment Limit: 40

REL 219 (S) Judaism Under Ancient Greek and Roman Imperialisms

Cross-listings: CLAS 219 REL 219 JWST 219

Primary Cross-listing

How did ancient Greek and Roman empires shape the beginnings of Judaism? In this course, we will examine how Greek and Roman imperial systems of identity, ethnicity, law, religion, and knowledge affected Judaism as a religious and cultural system. We will pay particular attention to the ways that Jews/Judaeans responded to these imperial pressures, especially as those responses articulated "hybrid" versions of Judaism that were
informed both by resistance to imperial centers as well as the sheer hegemony of those cultural systems. The course thus uses (and introduces students to) postcolonial theory to study the history of Judaism under Greek and Roman empires. Readings for this course will include a wide array of ancient Jewish works, such as the books of Maccabees, Flavius Josephus, Philo of Alexandria, the Dead Sea Scrolls, and the Mishnah. The course will also include select readings from early Christian texts and postcolonial theory.

REL 222 (F) The Jewish Art of Interpretation
Cross-listings: JWST 222 REL 222 COMP 211

Primary Cross-listing
"Turn it and turn it, for everything is in it." This famous rabbinic dictum offers an enigmatic yet comprehensive account of the principles that have defined the Jewish practice of interpretation for over two millennia. The imperative to keep a text, word, image, or concept in constant motion, in order to generate as many meanings and cross-meanings as possible, challenges us to transform the act of interpretation itself into a virtuosic craft or art that can engage the human imagination as diversely and powerfully as the creation of the works being interpreted. At the same time, emphasis on the dynamism between text and interpreter should dispel the notion that only expansive works have expansive meanings. If interpretation itself is an art, then even the shortest text can contain "everything" within it when it participates in that art. This course will engage students in a radical experiment in the art of interpretation. Through a deep encounter with a selection of miniature texts, ranging from ancient rabbinic proverbs and medieval fables to the modern parables and fragments of Franz Kafka, as well as folklore and jokelore from every period in Jewish history up to the present, we will develop an interpretive practice that combines analytic, critical, and creative principles in both written and oral contexts. The goal throughout is to
explore interactively how the making of meaning is an integral part of the human experience.

**Requirements/Evaluation:** class participation, regular short written and oral assignments, and a final project

**Cross-listings:** AFR 228 AMST 228 REL 223 LATS 228

**Secondary Cross-listing**

Writing in 1971, Dominican priest and Peruvian theologian Gustavo Gutierrez asked “Is the Church fulfilling a purely religious role when by its silence or friendly relationships it lends legitimacy to dictatorial and oppressive government?” Such a question encapsulates the sometimes agonistic and other times deeply intertwined relationships between religious institutions, religious thought, and movements for political transformation in the 20th century Americas. This course examines those forms of “God-talk” broadly termed “liberation theologies” that responded to and challenged social relationships of class, colonization, race, culture, gender, sexuality, (dis)ability, and ecology. These theologies were borne out of and in turn deeply shaped struggles against oppressive regimes and structures in the Americas, and as such we will focus on some specific theological writings--such as those of Gutierrez--and their relationship to distinct social movements and struggles over land, economy, and political power, especially in Brazil, El Salvador, Perú, and the United States of America between 1960-2000.

**Requirements/Evaluation:** participation, short writing exercises, a 5- to 6-page take-home midterm essay, and an 8- to 12-page final review essay

REL 226 (F) Spiritual But Not Religious

Cross-listings: REL 226 ANTH 226

Primary Cross-listing

Today, more than one in five people in the United States identify as "none" when asked about their religious affiliation. Yet that does not mean that religious sentiment or spirituality is on the decline. On the contrary, talk of "spirituality" is more pervasive than ever in popular discourse. Increasingly Americans claim that they are "spiritual but not religious" or that they prefer "individual religion" over "organized religion." This course seeks to understand and investigate this phenomenon. What is the lived experience of being "spiritual but not religious"? What counts as spirituality? Is there a meaningful distinction between spirituality and religion? What does this distinction assume about the nature of organized religion? What is the history that led us to this ideology of individualized spirituality? And what are the social and political implications of this trend? We will explore these questions and study this phenomenon through an engagement with ethnography (the qualitative research method generally described as "participant-observation"). Over the course of the semester, students will be expected to conduct an ethnographic research project within local communities in Williams College and Williamstown. Alongside our central readings on spirituality, we will also be studying some background in the theory and practice of this methodology. Throughout the semester, students will work together on developing the practical skills necessary to conduct an ethnographic project, and will be gradually executing their own individual projects. This will include: designing a feasible project and research question, selecting research sites and interlocutors, taking field-notes and conducting interviews, and finally analyzing data and writing an ethnographic essay.

Requirements/Evaluation: regular reading responses; semester-long research project with frequent small assignments building up to the final product (15- to 20-page paper)

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 10-15

Grading: no pass/fail option, yes fifth course option

Just one hundred years ago, few Americans knew the first thing about Buddhism. But in 2020, who hasn't heard of (or even tried) mindfulness or meditation? Buddhist ideas and practices now seem ubiquitous, available even in the form of smartphone apps like Headspace and Ten Percent Happier. In this class, we'll explore how Buddhism came to be the profoundly important cultural force in American life that it is today. We'll read a variety of Buddhist-influenced literary texts, from the Beat poetry of the 1950s to contemporary novels like Ruth Ozeki's *A Tale for the Time Being*. And we'll range far beyond the world of literature into other cultural domains in which Buddhism has had a deep impact, like environmentalism, psychotherapy, and Western attitudes towards death and dying. We'll also give special attention to the role that Buddhism is playing in the struggle for racial justice (from bell hooks to Black Lives Matter). And we'll engage in an experiential investigation of the benefits of incorporating contemplative practices like mindfulness into higher education: students will learn a variety of meditation techniques, and we'll spend time each week practicing and reflecting upon those practices. Students will be expected to maintain a daily meditation practice outside of class (10-15 minutes a day), with the help of one of those newfangled meditation apps no less! No prior experience with meditation is necessary. Just an open mind. (For detailed information about the format of this hybrid course, please visit: www.tinyurl.com/Engl239info)
**Class Format:** This is a hybrid course. The class will be divided into small discussion groups of 6-7 students (two of the groups will be in-person; one of them remote). In a typical week, the whole class will meet together once on Zoom for 45-60 minutes and each discussion group will meet once for 60 minutes (either in-person or remote). For more info about the class format, please visit: www.tinyurl.com/Engl239info (students who are interested in this course should visit this URL).

**Requirements/Evaluation:** Regular attendance will be strictly required; weekly Glow posts; and a final critical or creative project (like an 8-10 page essay, podcast episode, or zine).

**Prerequisites:** none

**Enrollment Limit:** 21

**Enrollment Preferences:** preference will go to juniors and seniors; students who pre-register should email brhie@williams.edu an explanation of why they want to take this course, which will be used to decide enrollment. The class For more info: www.tinyurl.com/Engl239info

Or, "From 'Shark Tank' to 'Monk Cave': Business and Socially Engaged Buddhism". Television shows like Shark Tank, featuring a panel of potential investors who consider propositions from aspiring entrepreneurs, evinces that popular culture values only the making of profit. In such a capitalistic world, who are the "winners" and "losers"? What impact does a business/product have beyond its intended consumer benefits? What is the Buddhist response to business and commerce and its overall effects on individuals, society, and ecology? This course will challenge students to research, analyze, and devise resolutions for real world issues, by having students employ Buddhist solutions informed by concepts such as compassion, interconnectedness, and Socially Engaged Buddhism. Students will scrutinize the related concept of "structural violence". We will look at examples from Bhutan's "Gross Domestic Happiness", Thailand's "Sufficiency Economy", China's state-led religious charities under the name of "Humanistic Buddhism", as well as the ordination of trees. This course hopes to prepare students to be critical, rather than merely passive, world citizens, especially in the realm of business, and to be more conscious and aware of their everyday life choices and its impact on every aspect of society.

**Requirements/Evaluation:** attendance and active participation 20%; experiential exercises 25% (i.e., critical reflection that incorporates class readings with personal experience of the various experiential exercises conducted throughout the term: mainly, a 30-day social-media cleanse, and meditation sessions); Mid-term exam (in-class: identification terms and short essay) 25%; Final project and presentation 30% (the final grade includes initial consultation with the instructor regarding topic selection, annotated bibliography, project outline, final presentation, and final written report)

**Prerequisites:** none

**Enrollment Limit:** 8

**Enrollment Preferences:** Religious Studies majors and Asian Studies majors

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

REL 233  (S)  Islam and the West: A Clash of Civilizations?

"This idea that all religions share the same values is bulls**t and we need to call it bulls**t," the popular political commentator and critic Bill Maher has said on multiple occasions. "If you are in this religion [Islam], you probably do have values that are at odds [with American values]. This is what liberals don't want to recognize." Maher has acquired a reputation for making strong statements like this about the need for Americans (and liberals in particular) to stand up for their secular liberal values, which are in conflict with and superior to the values of Islam. Maher's comments are only one recent manifestation of a long line of pundits making such claims. This is best exemplified by Samuel Huntington's "Clash of Civilizations" thesis, which famously predicted that there would inevitably be a violent clash between the Islamic and Western Civilizations. This course investigates such ideas about the inherent conflict between Islam and the West. How should we understand the nature of Islamic and Western civilizations and the relation between them? What is the history of this relationship? What has given rise to these standard representations of Islam and Muslims? What are the political stakes and consequences of these representations? How should we understand the phenomenon of "Islamophobia"? We will explore these questions through an in-depth and critical investigation into the history of Euro-American nationalism and colonialism, the concepts of "civilizations" and "religions", the history of modern Islam, and the nature of Orientalism and secularism.

Requirements/Evaluation:  regular reading responses, 5- to 6-page midterm essay, group social-media project (research-based, creating a video essay), final 7- to 8-page essay

REL 234  (F)  What is Islam?  (DPE)

Cross-listings:  ARAB 234  REL 234  GBST 234  HIST 208

Primary Cross-listing

This course introduces students to Islam as a varied and contested historical tradition. The course will trace the historical development of Islam, focusing on religious and intellectual thought, political developments, and the practices and lived lives of Muslims. We will begin with situating the rise of Islam within the context of late antiquity, followed by an examination of the life of Muhammad, and the rise of Muslim empires. These developments will form the framework through which we investigate the theological, philosophical, legal, mystical, and literary writings of Muslims from the classical to the early modern periods of Islamic history. The main aim of the course is to develop a framework for understanding the historical developments through which Muslims have constructed ideas about normativity, authority, and orthodoxy in debates around Islam. Sources will include pre-modern historical and religious texts (in translation).

Requirements/Evaluation:  reading responses, two essays, final exam

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences:  Religion majors (or those considering Religion as a major), then Arabic Studies and History majors

REL 235  (S)  The Garden in the Ancient World
Cross-listings: COMP 235  REL 235  ENVI 232  CLAS 235

Secondary Cross-listing

Drawing on the literature, art, and archaeology of ancient gardens and on real gardens of the present day, this course examines the very nature and experience of the garden and the act of gardening. Using a multi-disciplinary approach, we will explore the garden as a paradise; as a locus for philosophical discussion and religious encounter; as a site of labor, conquest, and resistance; and as a place for solace, inspiration, and desire. This course will be grounded in crucial readings from antiquity, such as the Hebrew Bible, Homer, Sappho, Cicero, Lucretius, Vergil, Horace, Columella, and Augustine, and in the perspectives of more modern writers, from Jane Austen and Tom Stoppard to contemporary cultural historian George McKay. Ultimately, our goal is to analyze conceptions and expressions of beauty, power, and love—in the garden. All readings are in translation.

REL 236 (S) Reading the Qur'an

Cross-listings: ARAB 236  REL 236  COMP 213  GBST 236

Primary Cross-listing

In the nearly 1500 years of Islamic history, the Qur'an has been a central source of spiritual insight, ethical and legal guidance, sacred stories, and theological principles. Considered the divine word of God, the Qur'an is central to devotional life. This course will explore the Qur'an as a text that is always in a state of production. We will focus significantly on close readings of the text of the Qur'an, in addition to pre-modern and modern Qur'anic exegesis. The course will begin with a historical account of the revelation and collection of the Qur'an, placing the form and content of the text in the context of 7th century Arab society and the life of the Prophet. We will then study Qur'anic commentaries to discuss how Muslims have drawn theological, legal, philosophical, and mystical meaning from the Qur'an. We will pose some of the following questions: What do the different exegetical methods tell us about the intertextual nature of the Qur'an? How have these shifting notions affected the meaning made from Qur'anic verses and passages? What role do interpretive communities play in determining what the Qur'an says? Lastly, through an exploration of the art of Qur'an recitation, calligraphy, and Qur'an manuscripts, we will explore the ways in which the Qur'an is also an object of devotion in Muslim life.

Requirements/Evaluation: class participation, weekly reading responses, 3- to 4-page midterm paper, and a final project with a media component and a 4- to 6-page analytical essay

REL 237 (S) Islam in the United States: From Black Muslims to the War on Terror
Malcolm X is likely the most prominent and influential Muslim figure in the history of the United States. His story represents two fundamental themes in the history of Islam in America: conflict between Muslims over what is "authentic" or "orthodox" Islam; and the ways that American history, politics, and culture determine the contours of "American Islam". This course will explore these two themes through an array of topics in the history of American Islam. In so doing, we will examine the complex relation between religion, politics, and culture in the United States. Beginning with the story of Malcolm X, the Nation of Islam, and other African-American Muslim movements, we will try to understand: What made Islam so appealing to millions of African-Americans throughout the 20th century? And were these genuinely "religious" and "Islamic" movements, or just racial/political "black nationalist" movements in the guise of religion? What counts as legitimately "Islamic", and who gets to decide? We will then move into the latter half of the 20th century and the post-9/11 debates over authentic Islam. What happened to American Muslim communities and organizations after the waves of post-1965 immigration from Muslim countries? How have debates about Muslim identity shifted over time, from being configured in terms of black separatism, to transnational/diasporic identity, to the attempts at articulating an indigenous "American-Muslim" identity? How have national narratives around 9/11 and the "War on Terror" impacted these debates over identity and "true Islam"? And how have these debates intersected with gender, racial, and ethnic politics? Throughout the course, we will be studying historical and anthropological material, autobiographies, novels, documentaries, films, and social media. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to race, ethnicity, nationality, culture, gender, language, and age.

REL 238 (S) Faith and Rationality in Islam: Skepticism and the Quest for Certainty

Religious faith is generally perceived as being diametrically opposed to reason and rationality. Islam in particular is often assumed to be even more dogmatic in its demand for blind unquestioning faith. This course will explore the lively debates among Muslim theologians regarding the complex relationship between faith, rationality, and skepticism. Is faith compatible with reason and rationality? Can the foundations of Islamic belief be proven to be true? Are there limits to what can be known rationally? Are people justified in holding religious beliefs? Does faith require absolute certainty? What room is there for doubt and skepticism in Islam? We will explore these questions through an array of primary and secondary readings in Islamic theology, philosophy, and mysticism from the medieval period.

Difference, Power, and Equity Notes:  This course introduces students to the incredible diversity of the Middle East. It will explore how people of different backgrounds and in different situations have responded in diverse ways to the problems of the day. Students will acquire the critical tools to assess a number of interpretations of the past and how to understand and appreciate the many narratives in the Middle East today that have profound political and cultural implications.

Not offered current academic year

REL 241  (S)  History of Sexuality

Cross-listings:  GBST 241  WGSS 239  REL 241  HIST 292

Primary Cross-listing

Is sexuality an immutable aspect of who we are or is it socially constructed? How have people understood sex and sexuality throughout history? Why does religion have any say in the sexual lives of individuals and society? What are sexual transgressions and why are they punished? Is sex a commodity that can be exchanged for money? Is sex political? This course will explore these questions through a historical approach, focusing in particular on the shifting understanding of sex and sexuality across historical time and different geographical regions. In investigating the category of sexuality, this course will push us to consider three key questions: 1) Is sexuality a useful category for historical analysis, 2) how have our assumptions regarding sexuality and sexual ethics taken shape and changed over time and 3) how do social, cultural, political, and economic conditions affect changing meanings of sexuality. Historical studies will be read in conjunction with different theoretical frameworks about sexuality. Reading historical accounts of sexuality alongside theoretical pieces will allow us to consider how historians construct an argument and the influence of theoretical frameworks in shaping scholarship. Some of the theorists we will read in the course include: Michel Foucault, David Halperin, Afsaneh Najmabadi, Valerie Traub, and Carla Freccero.

Requirements/Evaluation:  reading responses, two essays, and final research paper

REL 242 (S) Women, Gender, and Sexuality in Islam (DPE)

Cross-listings: REL 242 WGSS 242 ARAB 242

Primary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences.

Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

REL 243 (F) Islamic Law: Past and Present

Cross-listings: ARAB 243 WGSS 243 REL 243 HIST 302

Primary Cross-listing

From fear of the Shari'a to its implementation in so called "Islamic countries," Islamic law is perhaps best associated with draconian punishments and the oppression of women. Islamic law is ever present in our public discourse today and yet little is known about it. This course is designed to give students a foundation in the substantive teachings of Islamic law. Islamic law stretches back over 1400 years and is grounded in the Quran, the life example of the Prophet Muhammad, and juridical discourse. Teetering between legal and ethical discourse, the Shari'a moves between what we normally consider law as well as ethics and etiquette. The course will explore four key aspects of the law: its historical development, its ethical and legal content, the law in practice, and the transformation of Islamic law through colonialism and into the contemporary. Specific areas we will cover include: ritual piety, family and personal status law, criminal law, and dietary rules.

Requirements/Evaluation: weekly responses, four 2- to 3-page essays

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: majors

Distributions: (D2)
REL 244  (S)  Mind and Persons in Indian Thought

Cross-listings: REL 244  ASST 244

Primary Cross-listing

In this course, we follow the Indian philosophical conversation concerning the self and the nature of consciousness, particularly as they are found in its various Yogic traditions. We start with some of the Hindu views about the self and the mind and consider their ethical implications. We then consider a range of Buddhist critiques of these views, focusing more particularly on the Madhyamaka, which radicalizes the critique of the self into a global anti-realist and skeptical stance. We also examine the Yogacara school, which offers a process view of reality focusing on the analysis of experience. We conclude by considering some of the later Hindu holistic views of the self as responses to the Buddhist critique. In this way we come to realize that far from being the irrational foil of "the West," Indian tradition is a rich resource for thinking through some of the central questions that have challenged philosophers in both traditions.

Class Format: discussion

Requirements/Evaluation: full attendance and participation, three short essays (6 pages each)

REL 246  (S)  India's Identities: Nation,Community, & Individual  (DPE) (WS)

Cross-listings: ASST 246  REL 246  ANTH 246  WGSS 246

Primary Cross-listing

This tutorial considers India's legacy as a booming Asian democracy that is built upon deep and enduring divisions. Why is India's growing population so often described in terms of multiple identities or fragmenting oppositions—including religion, gender, caste, and class? What are the historic roots and recollections of key moments of structural violence in modern Indian history that produce ongoing social conflict as well as social fluidity? We pay particular attention to key historic moments such as Partition, and key communal riots in Gujarat, Hyderabad, and Delhi as well as regions of India such as Jammu & Kashmir in order to understand the struggle for individual subjectivity and identity within a landscape of stark social hierarchies. We will cover climate emergencies, resource scarcities, and ongoing struggles for power and status across very different parts of India. Our readings include ethnographic, sociological, historical analyses as well as fiction, oral history, and popular media sources that attempt to portray India's diverse and fragmented society.

Class Format: meetings weekly, weekly writing, and discussion

Requirements/Evaluation: weekly writing assignments and tutorial attendance every week

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: majors in Anthropology and Sociology, Religion, Asian Studies, or Women's, Gender & Sexuality Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
**Writing Skills Notes**: Weekly writing, writing chats, intensive feedback on writing grammar, style, argument every week.

**Difference, Power, and Equity Notes**: This course fulfills the Difference, Power, and Equity by theorizing the ways that social power and equity have been and continue to be a source of struggle and division within Indian society. It analyzes the ways that communities have used religion, gender, ethnicity, and caste to struggle for power and status within Indian society.

**Not offered current academic year**

**REL 247  Anti-Muslim Racism: A Global Perspective  (DPE)**

The racialization of Islam and Muslims has been constitutive to how they have been imagined in Europe and elsewhere. This course looks at how difference works and has worked, how identities and power relationships have been grounded in lived experience, and how one might both critically and productively approach questions of difference, power, and equity. It goes back to the founding moments of an imagined white (at the beginning Christian) Europe and how the racialization of Muslim and Jewish bodies was central to this project, and how anti-Muslim racism continues to be relevant in our world today. The course will not only show how Muslims were constructed as subjects in history, politics and society from the very beginning of the making of Europe and the Americas to the end of the Cold War to the post-9/11 era. Rather, it also looks at how Muslims live through Islamophobia. It looks at processes of racialization of Muslims within the Muslim community and between Muslim communities, while also considering which agencies Muslims take to determine their own future. The course draws from anthropology, gender studies, history, political science, religious studies, postcolonial studies, decolonial studies, and sociology.

**Requirements/Evaluation**: Active class participation, two response papers, and a comprehensive, open-book and open-note final exam.

**Prerequisites**: none

**Enrollment Limit**: 25

**Enrollment Preferences**: Global Studies concentrators and Religion majors

**Expected Class Size**: 20

**Grading**:

**Unit Notes**: Also qualifies for the GBST Urbanizing World track

**Distributions**: (D2) (DPE)

**Difference, Power, and Equity Notes**: The course critically examines difference, power, and equity. Thematically, it looks at the racialization of Islam and the intersection of race, religion, class and gender in the construction of the 'Muslim problem' from a historical as well as a global contemporary perspective. It aims to promote a self-conscious and critical engagement with the practice and experience of difference, especially as it relates to the dynamics of power in structuring that experience.

**Not offered current academic year**

**REL 249  (F)  Anti-Semitism  (DPE)**

**Cross-listings**: JWST 249  REL 249

**Primary Cross-listing**

This course will investigate intellectual traditions, political movements, and cultural objects that portray Jews, Jewishness, or Judaism as essentially pernicious. We will analyze materials from a variety of times and places, including the ancient world, the medieval period, and the present day. We will assess the impact of anti-Semitism on the lives of Jews and non-Jews. But we will also read theoretical approaches to the study of anti-Semitism that raise key questions for our investigation. Where does the term "anti-Semitism" come from and how exactly should it be defined? Is anti-Semitism a continuous phenomenon that connects every claim of Jewish perniciousness, wherever it is alleged, for over two thousand years of human history? Or should every context be treated as fundamentally distinct, so that the claim of Jewish perniciousness is presumed to have a distinct meaning, origin, and purpose in each case? What motivates charges of Jewish perniciousness? What are the particular threats typically alleged to be posed by Jews, Jewishness, and Judaism? How do constructions of Jewish perniciousness fit with constructions of race, gender, ethnicity, religion, class, sexuality, and nationality in different times and places?

**Requirements/Evaluation**: three short papers (4-5 pages), one longer final paper (6-8 pages)

**Prerequisites**: none

**Enrollment Limit**: 30

**Enrollment Preferences**: Jewish Studies concentrators, Religion majors, and students who have taken JWST 203

**Expected Class Size**: 18
Difference, Power, and Equity Notes: This course will introduce students to discursive, institutional, and social structures that have organized the stigmatization, domination, and persecution of Jews in various geographic locations for over two thousand years. An understanding of these structures is crucial to understanding contemporary dynamics of difference and power. Students will also learn how anti-Semitism intersects with constructions of race, gender, class, religion, ethnicity, and nation.

REL 250  (F)  Scholars, Saints and Immortals: Virtue Ethics in East Asia

Cross-listings:  REL 250  ASST 250

Primary Cross-listing

In East Asian cultures, as in the United States, popular conceptions of morality typically take their shape, not from explicit rules, but from moral paragons—stylized figures that are said to embody a distinctive cluster of virtues. For example, American Christians invoke not only Jesus, but also a pantheon of "secular saints" as diverse as Martin Luther King Jr. and General Patton, George Washington and Cesar Chavez. This course will explore the cultural functions of moral paragons and philosophies of virtue in East Asia by introducing students to examples from Chinese and Japanese history, ranging from Confucian articulations of the ideal scholar-bureaucrat to Buddhist conceptions of the Bodhisattva to Taoist immortals. It will also address the history of ethical thought in East Asia, focusing particular attention on conceptions of "Virtue Ethics." This approach has come to be seen by some contemporary analytic philosophers as a way out of the impasse produced by ethical relativism and the loss of theological rationales for moral action. Readings will include Euro-American philosophers such as Nietzsche and MacIntyre as well as primary texts in translation by Chuang-tzu, Confucius, Shantideva and others.

Class Format: discussion

Requirements/Evaluation: active participation, short writing assignments, midterm, and a self-scheduled final exam

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Religious Studies and Asian Studies majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

REL 253  (S)  Spiritual Crossroads: Religious Life in Southeast Asia

Cross-listings:  ANTH 233  ASST 233  REL 253

Secondary Cross-listing

No region of the world presents a richer tapestry of religious beliefs, practices, and institutions than Southeast Asia. Buddhism, Hinduism, Christianity and Islam are all to be found and all of them interpenetrate and contend with each other and with a deep undergirding of animism, shamanism, and mystical folk belief systems. This course will survey these religious traditions through time and space, looking in particular at the growing tension between religion and the state as fundamentalism and religious militancy have spread into the region in recent times. All of Southeast Asia will be covered, but particular attention will be devoted to Indonesia, where religious blending and the growth of new fundamentalism are both especially marked.

Requirements/Evaluation: midterm, short essays, term paper

Prerequisites: none; open to non-majors

Enrollment Limit: 19

Expected Class Size: 15
REL 254 (S) The Theory and Practice of Meditation in the Modern World
This course invites students to examine theoretically and experientially meditation. Throughout the course, we examine meditations belonging to various Buddhist traditions through our own practice. We study some of the manuals where these meditations are taught and connect these practices to some of the more important ideas of the tradition. In studying and practicing meditation, we follow a gradual approach, starting from the most basic practices to more advanced ones. We also connect the practices and ideas we consider with modern scientific approaches, examining practices such as mindfulness therapy and the practice of positive emotions from a psychological perspective. In the process, we re-contextualize Buddhist ideas by connecting them with modern approaches, particularly those inspired by biology, psychology and ecology. Throughout the course, students will keep a daily practice of meditation and record their experiences in a journal so as to be able to come to an informed understanding combining a theoretical grasp of the issues raised by meditation and their own personal appreciation.

Class Format: mixture of lecture, discussion, and practice of meditation
Requirements/Evaluation: full attendance and participation, regular practice of meditation, two middle-length essays, and a meditation journal
Prerequisites: none
Enrollment Limit: 25
Enrollment Preferences: Religion majors, students who have taken REL 288
Expected Class Size: 18
Grading: yes pass/fail option, yes fifth course option

REL 255 (S) Buddhism: Ideas and Practices
Cross-listings: ANTH 255 REL 255 ASST 255
Primary Cross-listing
This course introduces students to Buddhism by examining its ideas and practices as they have taken place in actual social contexts rather than as disembodied textual objects. After examining the main ideas and narratives of the tradition, we turn our attention to Thailand where we examine how these ideas and narratives have shaped a whole range of practices, from meditation to shamanistic rituals. We then consider the transformations that Buddhism is undergoing in contemporary society, examining the rise of meditation movement, the changing role of monks and laity, the resurgence of the nun order, the rise of Buddhist social activism and the development of new Buddhist social philosophies. We ask questions such as: How can Buddhism adapt to a modern global consumerist society? What are the transformations involved in this process and the role that Buddhism can play in such a global society? Should Buddhists take advantage of the opportunities of this new global culture or should they adopt a critical stance toward its consumerist values?
Class Format: discussion
Requirements/Evaluation: full attendance and active participation; two essays
Prerequisites: none
Enrollment Limit: 25
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
REL 256  (F)  Buddhism, Sex, & Gender: #MeToo Then and Now  (DPE)

Cross-listings:  ANTH 256  WGSS 256  REL 256  ASST 256

Primary Cross-listing

This course considers the feminist voices that have been part and parcel of Buddhist practices, texts, and institutions for most of its 2500-year history. We will conduct a historical genealogy of Buddhist voices that illustrate the fluid and disruptive role of sex, gender, caste, and class in relation to individual behavior and social relations. How did the Buddha's inner revolution produce a set of practices that both reject and reinforce existing binaries and social hierarchies of sex and gender, and with what effects? We will trace a feminist voice that decries harassment, assault, and systemic sexism within Buddhist communities from the first female disciples (Therī) of the Buddha to the current #MeToo era of embattled toxic masculinity. Along the way, we explore a literary canon that contains misogyny and 'she devils' alongside a rich tapestry of female divinities, transgender fluidity, and female liberation. We pursue and intersectional analysis of Buddhist traditions and texts by considering the multiple forms of social hierarchy--gender, sexuality, race, and class--that Buddhism has attempted to transcend. We begin by considering three women in the Buddha's life—his mother (Māya), his stepmother/aunt (Gotami), and his wife (Yashodhara)—as well as the tales of the first enlightened Buddhist women whose topics include prostitution, patriarchy, sexism, and pathetic husbands, as well as their own decaying bodies and beauty. Our next theme is the myriad ways that gender is both produced and deconstructed in Buddhist discourses on enlightenment and the human body. Our final theme considers a range of monastic memoirs, including a Buddhist black nun who left Harvard to take ordination in Thailand, and a Dutchman who studied Zen Japan. We close by examining the current debates in the U.S. and Asia that seek to combat systemic racism, sexism, and casteism in Buddhist traditions.

Requirements/Evaluation:  class discussion, reading responses (3-4 pages), writing chat, final research paper (12 pages)

Prerequisites:  none

Enrollment Limit:  19

Enrollment Preferences:  Anthropology, Religion, Asian Studies, Women's, Gender and Sexuality majors

Expected Class Size:  15

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 256 (D2) WGSS 256 (D2) REL 256 (D2) ASST 256 (D2)

Difference, Power, and Equity Notes:  The course fulfills DPE because it seeks to theorize the role of difference (gender, sex, class, and race) and intersectionality within Buddhist texts, practices, and institutions. It considers how Buddhist practices and institutions both deconstruct and reproduce social inequality.

Not offered current academic year

REL 257  (S)  Tibetan Buddhism: Embodying Wisdom and Compassion

We begin by considering the basic ideas and practices of Tibetan Buddhist traditions and the ways in which the ideals of wisdom and compassion have shaped Tibetan culture. We then proceed to examine particular aspects of the tradition such as the role of the teacher or lama and their various manifestations, from the exotic figure of the tantric guru to that of the Dalai Lama, a charismatic world teacher engaged in both religious and political affairs. We also examine a wide range of lay and monastic practices, from the life of large monasteries and their unique culture to the practices of nuns and lay people. Throughout this course, we consider not just the variety of exotic practice forms but also the esoteric tantric tradition that pervades Tibetan life. We examine the various meditative practices that revolve around this profound and often misunderstood tradition. In doing so, we do not consider tantra as just a set of strange practices sometimes revolving around sex and violence. Rather we examine how it manifests a philosophy of embodiment that has profound implications for thinking about who we are as human beings.

Class Format:  discussion

Requirements/Evaluation:  full attendance and participation, two essays

Prerequisites:  none

Expected Class Size:  25

Grading:  yes pass/fail option,  yes fifth course option
REL 258 (F) American Conservatism

Cross-listings: HIST 378 REL 258

Secondary Cross-listing

This course traces the history of modern conservatism in the United States, from the early 20th century to the present. Students will examine the key ideas, leaders, and social movements that fueled and defined the rise of the modern right, broadly construed. In the process, they will go beyond electoral politics, exploring the relationship between conservatism and American life more broadly - especially in the realms of race relations, gender and sexuality, religion, and capitalism. Students will be asked to think historically, considering how the right rose from obscurity to political ascendance over the course of the 20th century. And they will be asked to engage theoretically, considering what (if anything) has defined conservatism in principle and in practice. In the process, they will examine such topics as Christian fundamentalism; anti-New Deal organizing; Cold War nationalism; the GOP’s ‘Southern Strategy’; law and order politics; anti-feminism and the culture wars; neoliberal economics; and neoconservative foreign policy.

Class Format: This course will be hybrid -- accessible to both on-campus and fully remote students. It is designed as a seminar, in which course meetings will revolve around synchronous discussion. Remote learners will be expected to digitally attend and participate in those meetings through Zoom (or a similar program).

Requirements/Evaluation: Participation in group discussion; five response papers (300-400 words); two essays (4-6 pp); final research paper (8-10 pp).

Prerequisites: None, open to all students.

Enrollment Limit: 15

Enrollment Preferences: History and Religion majors.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

REL 259 (S) Ethics of Jewish American Fiction

Cross-listings: ENGL 259 JWST 259 REL 259

Primary Cross-listing

After the Second World War, Jewish American writers who wrote about Jewish characters and Jewish themes were increasingly celebrated as central figures in American fiction. Isaac Bashevis Singer, Bernard Malamud, Saul Bellow, Cynthia Ozick and Philip Roth are among those who gained prominence in this period. These writers were literary innovators and often addressed broad humanistic themes. But they also struggled with profound questions that arose in the postwar period about Jewishness, the legacy of the Holocaust, and what it means to be an American. In this course we will read the above authors and others. We will focus, in particular, on the distinctive ethical and political ideas, emotions, and aspirations that animate their work. The course will begin with a study of theoretical approaches that will provide the basis for our ethical criticism: we will read, for instance, Lionel Trilling, Wayne Booth, Martha Nussbaum, and Noël Carroll. Then we will delve into the fiction, following a trail that begins in the postwar period and continues in fictions by Erica Jong, Rebecca Goldstein, Michael Chabon, Gary Shteyngart, and others. Can we find a distinctive Jewish American ethics in Jewish American fiction?

Requirements/Evaluation: class participation, one take-home exam on theoretical approaches to ethical criticism; four short essays

Prerequisites: none

Enrollment Limit: 19
Enrollment Preferences: Religion majors, Jewish Studies concentrators, and English majors

Expected Class Size: 18

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 261 (F) Rastafari: Dread, Politics, Agency

Cross-listings: REL 261 AFR 299 PSCI 233

Secondary Cross-listing

The emergence of Rastafari in the twentieth century marked a distinct phase in the theory and practice of political agency. From its heretical roots in Jamaica, Garveyism, Ethiopianism, and Pan-Africanism, Rastafari has evolved from a Caribbean theological movement to an international political actor. This course investigates the political theory of Rastafari in order to develop intellectual resources for theorizing the concept of agency in contemporary Africana thought and political theory. We will analyze texts and audio-visual works on the political economy of late colonial Jamaica, core Rastafari thinking, political theology, the role of reggae music, the notion of agency, and the influence of Rastafari on global politics.

Requirements/Evaluation: attendance and participation, weekly reading e-response papers, two short essays, and a 12- to 15- page final paper

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: Africana Studies concentrators and majors in Political Science and Religion

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

REL 262 (F) Time and Blackness

Cross-listings: AFR 208 REL 262 AMST 208

Secondary Cross-listing

The concept of time is one of the most examined, yet least theorized, concepts in Africana Studies. While the field is saturated with historical studies and literary analyses that take up issues of cultural memory, both of which involve thinking about time, time itself is rarely the subject of sustained inquiry. This may be due to its abstractness as an idea and the level of analysis its conceptualization demands, or because time in the African American experience cannot be understood outside of the meaning of race, which itself is far from tangible. In this tutorial, "Time and Blackness," we will explore how African American writers across a number of genres understand time. We will read select texts of fiction as well as spiritual autobiographies, historical narratives, and sociological studies to understand how writers draw from—and create—paradigms of time to organize their work. The following questions will structure our investigation: What are the constituent elements of time in African American writing? How does race shape the ways a writer conceives of the experience of time? In examining writings across genres, is there something that we can call an identifiable African-American "timescape"?

Requirements/Evaluation: assignments will include six 2-page response papers; two 5-page writing assignments; and a final, 10-page review essay on how time is understood in a genre of writing

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: concentrators in Africana Studies, majors in Religious Studies, and majors in American Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
REL 264 (F) Bodies, Genders, and Sexualities in the Early Christian World (DPE)

Cross-listings: REL 264 WGSS 264

Primary Cross-listing

What does it mean to be a woman or a man? To have body? A gender? A sexuality? In this course we will explore the ways in which bodies, genders, and sexualities were experienced and described in Mediterranean antiquity. Ancient experiences of and ideas about bodies, genders, and sexualities were often very different than those of the contemporary world. Nevertheless, because Greek and Roman antiquity and Christian beginnings often function as the imagined origins of "Western" (or European and American) "civilization," these ancient ideas about bodies, genders, and sexualities maintain an outsized presence in current debates about the "normal" body, gender practices, and the contour of sexuality. With a focus on early Christianity, the course seeks, on the one hand, to introduce students to the early history of Christianity through an inspection of its pluriform discourses on the meaning and regulation of bodies, genders, and sexuality, even as it keeps an eye toward the modern legacy of these ideas. On the other hand, the course gives students the opportunity to be introduced to key questions and theories in Women's, Gender, and Sexuality Studies through the study of early Christianity and its environs.

Requirements/Evaluation: weekly response papers, 5- to 6-page paper, 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: majors, student seniority by class

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 264 (D2) WGSS 264 (D2)

Difference, Power, and Equity Notes: The course's focus on the production and use of difference in terms of bodies, genders, and sexualities, and how those putative differences were used to authorize the social distribution of power, qualify this course as meeting the DPE distribution requirement.

Not offered current academic year

REL 266 (S) Being American, Being Muslim: American Muslim Literature in the 21st century (DPE)

Cross-listings: COMP 228 AMST 266 ENGL 268 REL 266

Primary Cross-listing

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves. We will address questions such as: How have American Muslims understood their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethic heritage, and immigration definitive of Muslim experiences and self-understandings? What are the competing claims and contestations about authentic expressions of Islam? How are Muslims approaching the tensions between communal belonging and individuality? We will be engaging such questions primarily through an analysis of popular memoirs, autobiographies, novels, and short stories, but will also explore some plays, films, poetry, and comedy.

Requirements/Evaluation: regular reading responses, two short essays (3-4 pages), final presentation, and final paper (7-8 pages)

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:

COMP 228 (D1) AMST 266 (D2) ENGL 268 (D1) REL 266 (D2)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

Not offered current academic year

REL 267 (F) The Art of Friendship

Cross-listings: COMP 267 CLAS 212 REL 267 COMP 288

Secondary Cross-listing

The idea of friendship has captivated poets, philosophers, and their audiences for over three millennia. The subtle dynamics of this fundamental relationship between humans have been a source of inspiration, consolation, and consternation for countless writers and readers. What are the different types of friendship? How does one make a friend, and what makes a good friend? How does a friend differ from an acquaintance, an ally, an accomplice, an enemy? Can the beloved also be a friend? Ancient Greek and Latin writers took up these and other questions about friendship in philosophical dialogues and treatises, epic and lyric poems, tragic and comic plays, oratory, and correspondence. This course will explore ancient theories and representations of friendship through readings from many of the most important texts and authors of antiquity, including Gilgamesh, the Hebrew Bible, Homer, Sappho, Euripides, Plato, Aristotle, Cicero, Virgil, Seneca, and the Epistles of Paul. We will also consider the wide-ranging responses to these meditations and depictions in later traditions from the Middle Ages to modernity, in such writers as Heloise and Abelard, Aelred of Rievaulx, Aquinas, Montaigne, Ralph Waldo Emerson, Emily Dickinson, Elizabeth Bishop, Jack Kerouac, and Susan Sontag. All readings are in translation.

Requirements/Evaluation: class participation, short written assignments, and a final paper/project

REL 268 (F) Where are all the Jews? (DPE) (WS)

Cross-listings: REL 268 ARAB 363 COMP 363 JWST 268

Secondary Cross-listing

Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israélite Universelle's schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews' departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the
in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that led to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

Fall 2020

SEM Section: H1 MW 10:00 am - 11:15 am Brahim El Guabli

REL 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Secondary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)
Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

REL 272  (F)  Art of the Noble Path: Buddhist Material Culture Across Asia
Cross-listings:  REL 272  ARTH 272  ASST 272
Secondary Cross-listing
Buddhism has spread throughout Asia and beyond since its emergence in India in the 5th century BCE, providing a shared philosophical and cosmological framework for diverse cultures. Artistic expression, regional politics and cultural landscapes have been shaped by its remarkable influence. With patrons ranging from powerful monarchs and monks to merchants and tradespeople, Buddhist art has historically reflected the religion's social inclusivity. This course will survey the architecture, painting and material culture of Buddhism in Asia, tracing its influence in diverse media, from rock-cut architecture to Zen painting. A close reading of primary texts, such as architectural inscriptions in India, manuscripts from Tibet, and travelogues of Chinese pilgrims, will provide greater context for the artworks.

Requirements/Evaluation:  3 ten-minute quizzes, weekly Glow responses, a midterm, and a final exam
Prerequisites:  none
Enrollment Limit:  15
Enrollment Preferences:  Art History majors, Asian Studies majors, Religious Studies majors, Art Studio majors
Expected Class Size:  10
Grading:  yes pass/fail option,  yes fifth course option

REL 273  (F)  Heroes, Saints and Celebrity
Cross-listings:  REL 273  ANTH 222
Secondary Cross-listing
This course examines the ways in which cultures select, ritually celebrate, institutionally harness, and ultimately devour people designated as 'extraordinary'. We will begin by considering cultural archetypes and theories of the hero and how heroism has been understood in different eras and cultural contexts. Using Weber's theory of charisma as a foundation, we will look at a number of specific case studies to evaluate the relationship between individual creativity and action and the demands of social conformity and control. Finally, we will examine how charisma is commoditized in the form of the celebrity in contemporary American culture.

Requirements/Evaluation:  class participation, two short response papers, research paper, final exam
Prerequisites:  none
Enrollment Limit:  19
Enrollment Preferences:  Anthropology and Sociology majors
Expected Class Size:  19
Grading:  yes pass/fail option,  yes fifth course option
REL 274 (F) Ritual, Power and Transgression

Cross-listings: REL 274 ANTH 299

Secondary Cross-listing

The focus of this course is on the role of ritual in harnessing political power. In the first part of the semester, we examine some of the ways in which different cultures manufacture social order and political power through categories of inclusion and exclusion, clean and dirty, proper and improper, and licit and illicit. We will be particularly attuned to the ways in which these categories are performed through and maintained by rituals and how bodies are deployed in ritual spaces as instruments of persuasion and control. We will also look in depth at a variety of ritual forms, including scapegoating and sacrifice, and how they serve as engines of political control and protest, and we will examine the uses of dead bodies and memorials as vehicles for gaining and maintaining political power and the destruction and desecration of bodies and memorials as a form of political protest and dissent. Throughout the semester, we will be relating theoretical texts and historical cases to current political struggles in this country and abroad.

Class Format: The class will be taught remotely.

Requirements/Evaluation: class participation, biweekly responses to instructor prompts, three short (500 words) response papers, and one 10- to 12-page (2000-2400 words) research paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: ANSO and REL majors, open to first-years

REL 275 (S) Paul the Apostle: Then and Now

The Apostle Paul is the most important thinker in the history of Christianity. He wrote much of the New Testament and was one of the first to formulate and articulate the basic message of Christianity. In this course, we'll start by exploring Paul's writings in their original context, probing what his message would have meant for the inhabitants of the Roman Empire. Special attention will be paid to Paul's contribution to ancient debates about Judaism, conversion, and ethnic difference. In addition to examining the first contexts and meanings of his writings, we'll be especially interested in the legacy of Paul's writings on modern political thought in Europe and America in the 20th and 21st centuries. In this portion of the course, we'll see how Paul's influence has shaped current theories of citizenship, with or without the knowledge or consent of modern thinkers and societies. The course thus explores the original significance of Paul's thought as well as its hidden influence upon the political structures of secular modernity.

Requirements/Evaluation: four five-page papers, final paper, participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Religion Majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)
The first English translation of a Buddhist text was published in the United States in 1844. At the time, few Americans knew the first thing about what Buddhism was, but now, a little over a century and a half later, Buddhist ideas and practices (meditation, in particular) can be found everywhere. In this class, we'll explore how Buddhism came to be the profoundly important cultural force in American life that it is today, looking particularly at the increasingly mainstream role of meditation in modern American life. We'll study how traditional Buddhist meditation practices were transmitted to the West, and then track the way those practices changed over time, as they were adapted to the radically new context of American culture. And we'll study the way meditation is impacting a wide array of cultural domains, including: literature, psychology, education, environmentalism, Western attitudes towards death and dying, and the fight against racism. A key part of the course will be an introduction to the theory and practice of meditation: we'll learn a variety of meditation techniques, and we'll spend a significant amount of time each class practicing and reflecting upon those practices.

This course is a part of a joint program between Williams' Center for Learning in Action and the Berkshire County Jail, in Pittsfield, MA. The class will be composed equally of nine Williams students and nine inmates. An important goal of the course is to encourage students from different backgrounds to think together about issues of common human concern. Classes will be held at the jail, with transportation provided by the college. *Please note the atypical class hours, Thursdays, 4:45-8:30 pm.*

Requirements/Evaluation: full attendance and participation; meditation 2-3 times a week outside of class; a meditation journal; and a final 10-page essay

Enrollment Limit: 18

Enrollment Preferences: final selection will be made on the basis of (a) statements of interest sent via email to brhie@williams.edu by June 26 and (b) brief interviews with the instructor.

Expected Class Size: 18

Grading: yes pass/fail option, no fifth course option

REL 278 (F) Buddhist Material Culture: Objects of Practice and Merit

Cross-listings: REL 278 ASST 278

Primary Cross-listing

You've heard of the "material girl" (or boy), but what about the material Buddhist? This course encourages students to look beyond modernist ideals of Buddhism as a rational tradition of monks, monasteries and manuscripts, merely advocating mindfulness. In this course, we take Buddhist "stuff" (material culture) seriously. We explore what exactly is material culture, and what makes it Buddhist? If Buddhism is supposed to be a tradition that encourages non-attachment, then what is meant by "Buddhist material culture"? Shouldn't Buddhists be free of material things? Or, rather, who says they have to be? This course offers: (1) an introduction to the core concepts of Buddhism; (2) a brief overview of Material Religion, or the "material turn" in the study of religion; and (3) a preliminary exploration into the vast material- and spiritual worlds of Buddhist Asia, particularly China, Japan, Myanmar, Tibet, and Thailand. We begin by decolonializing Buddhism (think mandala, not only meditation; or ghosts and spirits, not just sutra). Next, we trace religious studies trends that privilege material investigations that acknowledge the agency of not only humans but also the agency of objects/things/stuff, and that emphasizes the dynamics among people, things, and spirits. We learn about these dynamics by looking closely at Buddhist stuff. Things act upon us, and we (re)act upon them. They shape identity, create meaning, and maintain relationships. We will learn that things are never just things. They help us better understand what people do in Buddhism, not just what people believe. This course includes brief experiential components on Buddhist meditation and ritual. No prior experience in meditation or Buddhism is required. This course does not assume any previous background in Buddhism, Religion, Asian Studies, or Art History.

Class Format: This class is remote with a mix of synchronous and asynchronous requirements. Synchronous meetings are limited to once a week for roughly one hour (between 60-75 minutes). Many of our synchronous requirements will feature breakout sessions into small groups for intimate, peer exchanges, followed by discussions with the entire class. A few asynchronous sessions will require community-building with your peers through some
form of work exchange or reflection related to the weekly topic.

**Requirements/Evaluation:** Attendance and active participation 25%; Short writing assignments 25% (one-page, single-space, critical response based on class reading x 4 total); Mid-term exam 25% (identification terms, short essay); Final project and presentation 25% (initial consultation with the instructor regarding topic selection, annotated bibliography and project outline, formal written report (4-5 single-space pages), presentation, and final reflection)

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Religion and Asian Studies majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**REL 279 (S) What is the Shari'a? Law, Power, and Ethics in Islam (DPE)**

Discussions of the Shari'a or Islamic law in American public discourse conjure images of veiled women, girls barred from attending school, and public spectacles of flogging and stoning to death. Such a caricature of Islamic law as a medieval but draconian penal code elicits public fear and state suspicion. In the West, legislative measures are taken to curb the Shari'a's perceived threat to security, democracy, and human rights. On the other hand, Islamists seek to harness the Shari'a as an instrument of political legitimacy and authoritarian rule. Both instances reify the Shari'a in ways that erode its regional diversity, intellectual versatility, and socially embedded practices and modes of interpretation. This course offers an in-depth introduction to the Shari'a through an examination of major themes in its substantive content and historical evolution. While students will gain an integrated view of the Shari'a from its origins in 7th century Arabia to the modern era, our primary emphasis will be on the Shari'a's tumultuous relationship with liberal democracy and the secular nation-state. Students will probe the history of the Shari'a's present by pursuing a genealogical inquiry in two parts: (a) precolonial, and (b) postcolonial. Module (a) comprises Islamic legal theory, its scriptural sources, and the formation of schools of jurisprudence; Shari'a governance in the imperial age; and the institution of slavery. Module (b) covers colonial transformations and reforms; state-sponsored projects of restoration and codification; blasphemy and religious minorities; and gender and sexuality. Apart from learning substantive content through the course of our genealogical inquiry, students will also develop a theoretical foundation in anthropological approaches to the study of Islam as law (discursive tradition, symbolism, custom), power (sovereignty, discipline, biopolitics), and as ethics (subjectivity, self-cultivation, ordinary ethics).

**Class Format:** students will submit weekly responses to the readings; for each session two students will be assigned as leaders of the discussion who will be assisted by the instructor

**Requirements/Evaluation:** weekly reading responses (300 words): 20%; class participation: 15%; leading class discussion: 15%; 2 short essays (750 words each): 20%; research paper (3000 words): 30%

**Prerequisites:** none

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course exposes students to the diversity of Islamic legal interpretations on questions of gender, sexuality, and religious freedom across a variety of regions and cultures. Students gain a critical appreciation of how present-day authoritative readings of Islamic law, its punitive practices and legalized forms of gender discrimination are sanctioned by patriarchal norms, the colonial construction of Islam as a scriptural religion, and regulatory powers of the modern state.

**REL 280 (S) The Seeds of Divinity: Exploring Precolumbian Art & Civilization in a Museum Exhibit**
Cross-listings: ARTH 281 ANTH 281 REL 280

Secondary Cross-listing

For all ancient civilizations, the gods were a powerful force, affecting all aspects of human lives and dominating ancient art. This course will explore concepts of divinity in five civilizations in Precolumbian Central America: Aztec, Maya, Zapotec, Teotihuacan, and Nayarit. The course examines how the broad concept of divinity is materialized in everyday life. We will query how the human body is used as the prism through which concepts about humanity, the human soul and the supernatural are perceived and depicted in the art of these civilizations. This is a project based course, and each student will study one or more art objects from these five civilizations, and consider how these objects could be presented in a museum exhibit.

Requirements/Evaluation: active class participation; three short papers; 15-page research paper and presentation

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: ANTH, SOC and ARTH majors

REL 281 (S) Religion and Science

Cross-listings: REL 281 STS 281

Primary Cross-listing

In the last few years the deniers of religion such as Dennett and Dawkins have forcefully argued that recent scientific developments show the degree to which religion is irrelevant to a modern understanding of what it means to be human. Atran and Boyer have made a similar case, arguing that recent progresses in our understanding of human cognition demonstrate that religion is a purely natural phenomenon that has little if any value for human development. Theologians such as Haught and Polkinghorne have rejected these views, arguing that a proper understanding of scientific developments such as evolution and quantum mechanics suggests religiously relevant views of the universe and our place therein. This course considers these competing perspectives while offering critical reflections on the views and categories involved in these controversies. We also examine the works of reflective naturalists such as Bellah and Herrstein, who argue that far from showing the irrelevance of religious ideas and practices, the new mind and life sciences suggest a much more nuanced view according to which religion is both grounded in the natural world and central to the development of human culture. Hence, it cannot be easily discounted as irrelevant to a scientifically informed understanding of what it means to be human.

REL 283 (F) Religion and American Capitalism

Cross-listings: REL 283 HIST 383
Primary Cross-listing

Was Jesus a revolutionary socialist or a savvy salesman? Does capitalism bring prosperity to the virtuous or breed selfishness and sin? Shall the meek inherit the earth or should the hand of the diligent rule? Is it holier to renounce worldly wealth or crusade against poverty? These questions have long preoccupied religious believers, and their changing answers have transformed the history of American capitalism. This course invites students to study that history, from the early 19th century to the present. It will cover such topics as: utopian communes; the political economy of slavery; working-class religion and labor organizing; Christian and Jewish socialism; big business and the Prosperity Gospel; ‘New Age’ spirituality and the counterculture; and conservative Christianity in the age of Wal-Mart and Chick-Fil-A.

Class Format: This course will be hybrid -- accessible to both on-campus and fully remote students. It is designed as a seminar, in which course meetings will revolve around synchronous discussion. Remote learners will be expected to digitally attend and participate in those meetings through Zoom (or a similar program).

Requirements/Evaluation: Participation in group discussion; five response papers (300-400 words); two essays (4-6 pp); final research paper (8-10 pp).

Prerequisites: None; open to all students.

Enrollment Limit: 15

Enrollment Preferences: Religion and History majors.

REL 284  (S)  From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe  (WS)

Cross-listings: REL 284  WGSS 284  ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans--a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries--each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects--an embroidery, a building, and a book--give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

REL 285  (S)  Haunted: Ghosts in the Study of Religion
Haunting offers a powerful way to speak about forces that affect us profoundly while remaining invisible or elusive. "What is it that holds sway over us like an unconditional prescription? The distance between us and that which commands our moves-or their opposite, our immobility-approaches us: it is a distance that closes in on you at times, it announces a proximity closer than any intimacy or familiarity you have ever known" (Avital Ronell, Dictations: On Haunted Writing [1986] xvi-xvii). The figure of the ghost has been developed by those seeking to grapple with the ongoing effects of modern slavery, colonialism, state-sponsored terrorism, the holocaust, and personal trauma and loss. Building upon the insights about memory, history, and identity that haunting has been used to address, this course will challenge you to explore the study of religion by way of its "seething absences." We shall ask how the study of religion has endeavored to address loss, trauma, and its persistent effects, what "holds sway" over various approaches to the study of religion, as well as how "religion" constitutes its own ghostly presence, haunting other domains.

Class Format: tutorial; meeting in pairs, each student will either write and present a paper or respond to their partner's paper
Requirements/Evaluation: two 1-page papers (written and presented), five 5-page papers, and five oral critiques (based on written notes) of their partner's paper; students will revise two papers
Prerequisites: none

REL 288  (F)  Embodiment and Consciousness: A Cross-Cultural Exploration
Cross-listings: REL 288  PHIL 288

Primary Cross-listing
This course examines some of the central questions raised by the study of the consciousness: the place of intentionality, the role of emotions, the relation with the body, the nature of subjectivity, the scope of reflexivity, the nature of perceptual presence, etc. In confronting these difficult questions, we do not proceed purely theoretically but consider the contributions of various observation-based traditions, from Buddhist psychology and meditative practices to phenomenology to neurosciences. We begin by examining some of the central concepts of Buddhist psychology, its treatment of the mind as a selfless stream of consciousness, its examination of the variety of mental factors and its accounts of the relation between cognition and affects. We also introduce the practice of meditation as a way to observe the mind and raise questions concerning the place of its study in the mind-sciences. We pursue this reflection by examining the views of James, Husserl, Sartre and Merleau-Ponty, particularly as they concern the methods for the study of the mind and the relation between consciousness, reflexivity and the body. In this way, we develop a rich array of analytical tools and observational practices to further our understanding of the mind. But we also question the value of these tools based on first person approaches by relating them to the third person studies of the mind. In this way, we come to appreciate the importance of considering the biology on which mental processes are
based and the light that this approach throws on the nature of consciousness. We conclude by considering the relation between first and third person studies of the mind, focusing on the concept of the embodied mind as a fruitful bridge between these different traditions.

Requirements/Evaluation: regular practice of meditation, a class presentation, a short essay (6-pages); a long final research paper (15 pages)

Prerequisites: any introduction to philosophy and at least two upper level courses in PHIL, at least one of which meets the Contemporary Metaphysics or Epistemology distribution requirement for the major, no exceptions;

REL 289 (S) The Talmud on What it Means to be Human

Cross-listings: REL 289 JWST 289

Primary Cross-listing

The Talmud, a central text in Judaism, is one of the richest and most sophisticated works of literature and thought ever produced. In this course, students will be introduced to the challenges and thrills of reading the Talmud as they consider how the Talmud asks and answers the question of what it means to be human. We will be particularly interested in exploring how the Talmud theorizes and prescribes a certain type of bodily self in its rereading of the Biblical laws of purity and impurity. In addition to learning how to read the Talmud, therefore, students will also be introduced to burgeoning interdisciplinary questions regarding the self and its making.

Requirements/Evaluation: 1-2 page weekly papers, final essay, participation

REL 291 (S) Religion and the American Environmental Imagination

Cross-listings: SOC 291 REL 291 ENVI 291

Secondary Cross-listing

This course examines the relationship between religious and environmental thought in modern America. Exploring a broad range of practices and beliefs, we will examine the religious (and anti-religious) roots of contemporary environmental discourse. Rather than survey the environmental teachings of organized religious groups, our focus throughout will be on ambiguous, eclectic, and fascinating traditions of "eco-spirituality" and popular "nature religion." Where do these traditions come from? What is their relationship to science, to secularism, to politics, and to the search for environmental justice? Starting with the Transcendentalist movement of the 19th century, we will trace a roughly chronological line to the present, taking long detours into several modern religious trends and movements, including the revitalization and contestation of Native American religions, Wicca and neo-pagan ecofeminism, and evangelical Creation Care. Focusing on the writings of activists and radicals from a variety of religious
backgrounds, our overarching question throughout the semester is one of the most critical we face in modern environmental thought: what is the relationship between spirituality and the just, sustainable society?

Requirements/Evaluation: a 15- to 18-page research paper and several shorter writing assignments

Prerequisites: ENVI 101 or permission of instructor

REL 293 (S) Religion, Play, and Fantasy

Religion is sometimes described as separate from everyday life, a source of transcendence, offering practices that allow you to lose yourself and be absorbed into another level of consciousness, or a realm of supernatural forces. These could also be descriptions of "play." In this course we will explore the play element in culture and how it relates to what we usually describe as "religious." We will investigate video games, fantasy novels and films, Live Action Role-Playing, war reenactment, pop culture fandom, BDSM, festivals like Mardi Gras, and places that are "set apart" for play like Las Vegas. How do the ways that we play involve religious ideas like sin, redemption, supernatural forces of good and evil, canonization, countercultural community, tradition, submission, and purgation? Is play at the core of what we usually deem religious? What, for instance, is the play element in ritual, myth, and the devotional interpretation of texts? How important is play? Should we accept the conventional assumption that religion is more important than play? Is playing, perhaps, what we most want to do? Is playing what we would do if all of our practical needs were already met and we didn't have to do anything at all? In addition to exploring particular kinds of play, we will read theorists of play from a variety of disciplines, including: Johan Huizinga, Roger Caillois, Brian Sutton-Smith, Victor Turner, Donald Winnicott, Bernard Suits, Sam Gill, Robert Bellah, and Wendy Doniger. In a final paper, each student will have an opportunity to investigate in depth and interpret a particular form or instance of play that they choose.

Requirements/Evaluation: three short papers (3-5 pages) and one final research paper or project

Prerequisites: none

REL 296 (F) The History of the Holocaust

Cross-listings: JWST 338 HIST 338 REL 296

Secondary Cross-listing

In twenty-first century United States, the murder of approximately six million European Jews by Nazi Germany remains a central event in our political, moral, and cultural universe. Nevertheless, the Holocaust still confounds historians' efforts to understand both the motivations of the perpetrators and the suffering of the victims. In this course, we will study the origins and unfolding of Nazi Germany's genocidal policies, taking into consideration the perspectives of those who carried out mass murder as well as the experiences and responses of Jews and other victim groups to persecution. We will also examine the Holocaust within the larger context of the history of World War II in Europe and historians' debates about Germany's exterminatory war aims. Course materials will include diaries, speeches, bureaucratic documents, memoirs, films, and historical scholarship.

Class Format: mostly discussion

Requirements/Evaluation: class participation, weekly reading responses, a map quiz, two papers (5-7 pages) on class readings, a final research paper (10-12 pages)

Prerequisites: none; open to first-year students with instructors permission
Enrollment Limit: 25
Enrollment Preferences: History majors and Jewish Studies concentrators

REL 297 (F) Theorizing Magic
Cross-listings: REL 297 COMP 289 ANTH 297

Primary Cross-listing
This is a course about magic. It is not about stage magic, sleight of hand, or the art of pulling rabbits out of hats. You will learn no card tricks. But instead we will learn about those people who believed in the reality of certain powers; from the ability to summon good or evil spirits, transform base metals into gold, predict the future, or manipulate matter by thought alone. The problem of how to theorize magic has long been a cause of concern for the natural and social sciences. Many a sociologist and anthropologist has imagined that belief in magic should have vanished with modernity (despite much evidence to the contrary). Meanwhile, philosophers of science have been long fascinated with the demarcation problem-figuring out grounds by which to distinguish legitimate sciences (like astronomy) from their magical or pseudoscientific cousins (like astrology). We will trace these discussions and problematize them by looking at the beliefs of self-defined witches and magicians. This should put us in a position to interrogate the construction of concepts of magic, science, and religion and show how the boundaries between these categories emerged historically. Topics to be discussed will include: the rationality of magic, the fine lines separating magic, science and religion, the persecution of witches, and the role notions of magic and superstition played in European modernization and colonization projects. The tutorial sessions will be customized to student interests, but texts will likely include selections from primary works in translation, such as Cornelius Agrippa's *Occult Philosophy*, Giordano Bruno's *On Magic*, Aleister Crowley's *Magick Liber ABA*, as well as selections from secondary literature, perhaps including Marcel Mauss, *A General Theory of Magic*, Max Weber, "Science as Vocation," Tanya Luhrmann, *Persuasions of the Witches' Craft*, Thomas Kuhn, *The Structure of Scientific Revolutions*, Larry Laudan, "The Demise of the Demarcation Problem," E.E. Evans-Pritchard, *Witchcraft and Oracles, and Magic among the Azande*, and/or Kelly Hayes, *Holy Harlots: Femininity, Sexuality and Black Magic in Brazil*.

REL 301 (F) Social Construction (DPE)
Cross-listings: COMP 315 WGSS 302 REL 301 SOC 301 STS 301 SCST 301

Primary Cross-listing
"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How
does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion majors, then majors from cross-listed departments

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Difference, Power, and Equity Notes: Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

Not offered current academic year

REL 302 (S) Philosophy of Religion (WS)

Cross-listings: PHIL 281 REL 302

Secondary Cross-listing

Our goal will be to determine how far reason can justify belief in God. We will examine well-known philosophical arguments for and against the existence of God (including the ontological argument, the cosmological argument, the teleological argument, the argument from religious experience, and the argument from evil). For each argument, we will first look at historically important formulations and then turn to contemporary reformulations. Our aim will be to identify and evaluate the strongest version of each argument. After working through these arguments, we will reflect more generally on the proper roles of reason and faith in justifying religious belief. Near the end of the semester, we'll also examine some evolutionary explanations of religious belief. Our tools in this course will be logic and reason, even when we are trying to determine what the limits of reason might be. Authors will include Plato, Anselm, Aquinas, Pascal, Paley, Hume, Kant, Kierkegaard, and several contemporary philosophers.

Class Format: students meet with instructor in pairs for an hour each week; emphasis will be placed on developing skills in reading, interpretation and oral argument as well as critical reasoning and writing

Requirements/Evaluation: five 5-page papers and five 2-page papers

Prerequisites: one PHIL course

Enrollment Limit: 10

Enrollment Preferences: existing and prospective Philosophy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 281 (D2) REL 302 (D2)

Writing Skills Notes: Five 5-page papers and five 2-page papers, evenly spaced throughout the semester. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

REL 303 (F) Augustine's Confessions
Secondary Cross-listing

No thinker has done more to shape the Western intellectual tradition than Augustine (354-430 CE), and no book displays Augustine's dynamic vision of reality more compellingly than the *Confessions*. Its probing and intimate reflections on the meaning of human life, the nature of God and mind, time and eternity, will and world, good and evil, love and sexuality have challenged every generation since Augustine's own. The seminar will be structured around a close, critically engaged reading of the *Confessions* (in English translation) and will give attention to its historical context and significance as well as to its philosophical and theological ideas. (There will be optional, supplementary opportunity to engage with the Latin text for interested students with some facility with Latin.)

Class Format: The course will be taught in a hybrid (partly in-person, partly remote) or wholly remote format--a final decision about format will be made in early September, prior to the first class. Class meetings (in whatever format) will consist primarily in student presentations and open, directed discussion of assigned readings.

Requirements/Evaluation: Regular reading assignments from the Confessions and related secondary literature. Weekly participation in online discussion on Glow (15% of final grade); 3 class presentations (of various lengths and kinds) (20%); a short paper (maximum 1500 words) due around the middle of the semester (20%); a term paper in two drafts (maximum 3000 words) due near and the end of the semester (40%); preparation for and participation in class that shows thoughtful engagement with the assigned readings (5%).

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Advanced students in Philosophy, Religion and/or Classics

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

REL 308  (S)  What is Power?

Cross-listings: REL 308 STS 308 SOC 308 PSCI 306

Primary Cross-listing

What is power? Despite the importance of notions of power across the social sciences, there is a broad lack of consensus. Is power essentially domination or resistance? Is it freedom, empowerment, privilege, or oppression? Are there forms of unequal social power which are morally neutral or even good? Is power the kind of thing held by individuals, races, genders, classes, discourses, causal mechanisms, institutions, or social structures? What is the connection between social and physical power? Does power obey laws? How does power relate to technology? Or knowledge? Or agency? Or ideology? This course begins with the observation that power is often described as a causal relation--an individual's power is supposed to equal their capacity to produce a change in someone else's behavior. This suggests that the better we can understand the nature of cause and effect, the better we can understand power. Fortunately, in recent decades philosophers have made significant progress in theorizing causation. Hence, this seminar will put two very different bodies of theory in conversation: critical theory about power and philosophy of science about cause and effect . We will trace classic philosophical accounts of power and causation (in European and Chinese philosophy), as well as more recent developments in philosophy of science, political theory, and other fields. The insights we gain in this course from analyzing the nature of power should empower us to more effectively transform society. It will help students in the social sciences to understand the nature of causation in the social world, and it will help students interested in political action to better understand the nature of power. Thinkers to be considered may include: Aristotle, Amy Allen, Hannah Arendt, Bourdieu, Judith Butler, Nancy Cartwright, Foucault,Gramsci, Byung-Chul Han, Han Feizi, Giddens, Hobbes, Hume, Locke, Steven Lukes, Machiavelli, J.L. Mackie, Marx, Nietzsche, Sunzi, and Max Weber.

Class Format: Remote

Requirements/Evaluation: critical annotations for every class, midterm review essay (4-6 pages), final essay (10-12 pages)

Prerequisites: None.
Enrollment Limit: 10

REL 309 (S) Scriptures and Race
Cross-listings: REL 309 AFR 309 LATS 309
Primary Cross-listing
This course focuses on the relationships between constructions of race in the post-1492 American world and “Christian scriptures.” The big questions of the course examine the ways that contestations of power are intertwined with the making of, interpretation, and transformation of sacred texts. Both scriptures and race are conceptual constellations of human social imagination, and yet their conceptualization has often been embroiled in the hopes and traumas of everyday life in the Americas. How and why did these two terms come to have any relationship to each other? How and why do peoples engage “scriptures”? In what ways have “scriptures” informed how people imagine themselves, their communities, and their relationship to religious and racial “others”? How did “scriptures” and “race” inform each other in modern colonialisms and imperialisms? In this course, we will examine the ways that scriptures have been employed in order to understand and develop notions of race, and we will examine how ideas about and lived experiences of race have informed the concept of scriptures as well as practices of scriptural interpretation.
Requirements/Evaluation: participation, short writing exercises, a 5- to 8-page take-home midterm essay, and a 10- to 15-page final essay
Prerequisites: none
Enrollment Limit: 10
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

REL 310 (F) Womanist/Black Feminist Thought
Cross-listings: WGSS 310 AFR 310 AMST 309 REL 310
Secondary Cross-listing
This course explores the genealogy and development of black feminist and womanist thought. We will investigate the expansion of womanist thought from a theologically dominated discourse to a broader category of critical reflection associated more commonly with black feminism, analyze the relationship between womanism and black feminism, and review the historical interventions of black feminism. As critical reflections upon western norms of patriarchy, heterosexism, and racism, womanism and black feminism begin with the assumption that the experiences of women of color--particularly black women--are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Katie Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies.
Class Format: discussion
Requirements/Evaluation: class participation, three short response papers, and the completion of an original research paper or project
Prerequisites: none
Enrollment Limit: 25
REL 311 (S) Islam and the Critical Study of Secularism (DPE)

Cross-listings: ANTH 311 REL 311

Primary Cross-listing

Since the Iranian Revolution of 1979, successive Islamist movements have sought to transform Muslim states along religious lines. In Euro-American discourses on political Islam, such blatant disregard for the separation of religion and state is often seen as a tragic failure of secularization. Islam, in other words, is understood as a religion out of place in the modern world. While the global resurgence of religion in the face of much scientific and material progress has tempered scholarly enthusiasm for the secularization thesis, contemporary Islamic religiosity is increasingly viewed as an aberration from the regular course of history. Moreover, as scholars rewrite the script of secularization by unearthing modern secularism’s European-Christian heritage, they unwittingly bolster a narrative of civilizational difference between Islam and the secular West. Our understanding of Islam is thus inextricably tied to its oppositional framing as the other of secularism. In this course, we will critically assess Euro-centric representations of Islam created through canonical and critical discourses on secularism. Rather than assuming a natural opposition between Islam and secularism, we will examine the various modalities of power, institutional formations, habits of thinking, normative presuppositions, and cultural and visceral sensibilities that configure their agonistic relationship. This examination amounts to deconstructing the very category of the secular in its cognitive and sensory dimensions. To accomplish this task, we will rely on the work of Talal Asad and his interlocutors in Religious Studies, Anthropology, Continental Philosophy, Postcolonial Studies, and Comparative Literature. The course content is divided into 2 modules. Module A: "Theorizations" will examine Euro-centric theories of secularism and problematize their portrayals of Islam as an intrinsically asecular religion. In Module B: "Secularism Beyond Europe," we will read postcolonial critiques of secularization and examine its alternative trajectories in non-European contexts. Crucially, we will shift from a conventional emphasis on the state by comparing Islamic and secular disciplines of subject formation. By the end of the course, students will be able to appreciate how secular legal, political, and cultural institutions have re-defined religion in the modern world. Further, they will be able to discern the ways in which contemporary Islamic movements are both responses to and manifestations of a global secular condition.

Class Format: This course will be conducted online in its entirety and will rely on a combination of synchronous and asynchronous modes of learning. The synchronous component will consist of weekly class meetings via Zoom. A discussion leader will be assigned once a week to present on the week's readings and lead class discussion. The asynchronous component will consist of weekly reading responses (500 words each), 2 essays (1,000 words each), and a final paper (2,500 words).

Requirements/Evaluation: Weekly Reading Responses (500 words each): 30%; 2 Essays (1,000 words each): 20%; Attendance and Class Participation: 10%; Term Paper (10 double-spaced pages/2,500 words): 40%. Note: Out of the 13 weekly reading responses, you can choose to skip a maximum of 3.

Prerequisites: None.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 311 (D2) REL 311 (D2)

Difference, Power, and Equity Notes: This course will sensitize students to the intractable difficulties of securing religious freedom, diversity, and tolerance under secular law. Students will gain a nuanced historical understanding of the role of Islam as a political force in postcolonial Muslim societies and its implications for religious minorities. Notably, they will understand how religiously motivated forms of violence and oppression are often deeply imbricated with secular power and institutions.
Established in the early 1500s, the Mughal Empire was one of the grandest and the longest to rule the Indian subcontinent for over three hundred years. Commanding unprecedented resources and administering a population of 100 to 150 million at its zenith—much larger than any European empire in the early modern world—the Mughals established a centralized administration, with a vast complex of personnel, money, and information networks. Mughal emperors were also political and cultural innovators of global repute. Moreover, while the Mughal dynasty was brought to an end with British colonial rule over India in 1857, the Mughal administrative structures and cultural influences continued to have a lasting impact on the British and later Indian states that followed. Centered around the intersection of the themes of power, patronage of art and architecture and religion, this course will ask: What factors contributed to the durability of the Mughal Empire for three centuries? How did global trade and innovations in taxation contribute to its wealth and stability? How did this dynasty of Muslim monarchs rule over diverse, and largely non-Muslim populations? How did they combine Persian cultural elements with regional ones to establish an empire that was truly Indian in nature? How were the Mughals viewed in their contemporary world of gunpowder empires like the Safavids of Persia and the Ottomans of Turkey? Readings will include the best of the recent scholarship on this vastly influential empire and a rich collection of primary sources, including emperor's memoirs, accounts of European travelers, and racy biographies, which will allow students make their own analysis. They will also have the opportunity to interpret paintings (some of which are held in the WCMA collections) and architecture. They will also discuss how the Mughals are remembered in South Asian film and music.

Requirements/Evaluation: participation, response papers/short essays, one final paper

REL 313 (F) Humans and Bodies: Theories of Embodiment
Cross-listings: WGSS 303  REL 313
Primary Cross-listing
What is the body? Does the body precede culture, or is the body a product of society? How does the self relate to the body? How are sexual, racial, and gendered identities formed in and through the body? And how does the self sense its "own" body, or how does the body sense and make the self? In this course, we'll query and theorize embodiment through examining classical approaches (e.g., Freud, Lacan, Merleau-Ponty) as well as more recent queer (e.g., Butler), trans (e.g., Salamon), and posthuman (Haraway) theories of embodiment.
Class Format: Remote synchronous learning
Requirements/Evaluation: Students will be required to take notes on course readings, write 1-2 page weekly response papers, and submit a final paper at the end of the course.
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Religion Majors, WGSS Majors

This course is cross-listed and the prefixes carry the following divisional credit:
REL 314 (S) Racial and Religious Mixture (DPE)

Cross-listings: REL 314 AFR 357 LATS 327 AMST 327

Secondary Cross-listing

The very term "mixture" implies that two or more distinct substances have been brought together. Distinctions of race and religion are social fictions; yet, the lived ramifications of these social fictions involve tense struggles over the boundaries of racial and religious communities. These boundaries are not just ideas but also practices. In the history of the Americas, mixed racial and religious identities and experiences have more often been the result of violent clashes than romantic encounters. Still, the romanticization of the New World as a geography that makes such mixtures possible reaches back to the earliest days of Spanish conquest in the Americas. This course critically reconsiders varying ways that racial and religious mixtures have been imagined, defined, challenged, negotiated, and survived under imaginative and legal rubrics of mestizaje, creolization, transculturation, passing, syncretism, religious hybridity, and mixed race studies.

Class Format: mostly discussion

Requirements/Evaluation: participation, short writing exercises, a 3-page first essay, a 5- to 8-page second essay, and a 10- to 14-page final paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: seniors, concentrators, majors, those with prior relevant coursework

This course is cross-listed and the prefixes carry the following divisional credit:
REL 314 (D2) AFR 357 (D2) LATS 327 (D2) AMST 327 (D2)

Difference, Power, and Equity Notes: Focusing on how different peoples have critically theorized and made meaning about and out of racial and religious differences and interconnections, this Difference, Power, and Equity course investigates the ways that knowledge about mixture and difference--and their roles in hierarchical distributions of social and political power--have been critically constructed and transformed.

Not offered current academic year

REL 315 (F) Gender and Sexuality in Buddhism

This course introduces students to the core concepts of Buddhism, as well as historical Buddhist perspectives on gender equality, homosexuality and queerness, the body (masculine, feminine, androgynous), birth (literally and figuratively), sex, contraception, abortion, and clerical marriages throughout Buddhist Asia. We will investigate these issues through close readings of specific sections of the Buddhist canon, alongside secondary sources. Is Buddhism equitable regarding these issues? Does it depend on how one interprets texts? In addition to scriptural interpretations of these issues, we will explore socio-cultural developments beyond the text, including recent challenges to traditional interpretations. In this course, students will sample case studies that include an exploration of: pre-modern South Asian ideals of masculinity; the gender transformation of the bodhisattva Avalokitesvaraoor Guanyin in China; love and grief; birth and fertility; abortion and ritual aftermath in contemporary Japan; the struggle for official recognition of Buddhist nuns in contemporary Thailand; as well as mindfulness practices for racial equality. Finally, this course includes brief experiential components on Buddhist meditation and ritual. No prior knowledge about Buddhism is required.

Class Format: This class is remote with a mix of synchronous and asynchronous requirements. Synchronous meetings are limited to once a week for roughly one hour (between 60-75 minutes). Many of our synchronous requirements will feature breakout sessions into small groups for intimate, peer exchanges, followed by discussions with the entire class. A few asynchronous sessions will require community-building with your peers through some form of work exchange or reflection related to the weekly topic.

Requirements/Evaluation: Attendance and active participation 25%; Short writing assignments 25% (one-page, single-space, critical response based on class reading x 4 total); Mid-term exam 25% (identification terms, short essay); Final project and presentation 25% (initial consultation with the instructor regarding topic selection, annotated bibliography and project outline, formal written report (4-5 single-space pages) , presentation, and
REL 319 (F) Milton’s Paradise Lost

Cross-listings: REL 319 ENGL 315

Secondary Cross-listing

The course will consist primarily of a close reading of Milton’s Paradise Lost, generally considered the greatest non-dramatic poem in English. Written by a blind regicide in hiding shortly after the English Revolution, the epic presents the first and greatest of all failed rebellions: Satan’s rebellion against God and its tragic consequence, the fall of Adam and Eve in Eden. We will give attention to the poem’s densely organized language and structure, but our primary concern will be the ethical and philosophical dilemmas that confront Satan and all of the fallen.

Class Format: The course will be taught remotely

Requirements/Evaluation: one 6- to 8-page paper, one 10- to 12-page paper, weekly writing assignments, and active seminar participation

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam.

Enrollment Limit: 15

Enrollment Preferences: juniors, seniors, English majors

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 321 (F) Happy Holidays! A Comparative History of Commemorations and Festivals

Cross-listings: REL 321 HIST 411 ARAB 411

Secondary Cross-listing

What do our holidays tell us about ourselves and our societies? This seminar in religious, political and cultural history is in two parts. In the first half, we will explore the major holidays and festivals that emerged in the Middle East among the three monotheistic religions (Judaism, Christianity, and Islam). It will examine how certain events became ritualized and then spread to different parts of the globe and were adapted to specific cultural situations. We will consider the role of myth and commemoration and how various religious holidays are celebrated in different ways around the world. The second part of the seminar focuses on secular holidays with particular attention to the Modern Middle East. Which events are commemorated and how and what are the political implications of these celebrations?

Requirements/Evaluation: several short response papers and a 20- to 25-page final paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: seniors, especially History and Arabic Studies majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

REL 330 (S) Modern Jewish Political Theory
Cross-listings: JWST 492 PSCI 375 REL 330

Primary Cross-listing
By the late 19th century, Jews across Europe were faced with an urgent political problem. Amidst burgeoning national self-consciousness throughout the continent, despite the liberatory promises of the Enlightenment, Jews remained a vulnerable, segregated, and stigmatized minority population. Jews had to decide where to pin their hopes. Should they ally themselves with the liberals or the communists? Should they embrace nationalism or cosmopolitanism? Should they, perhaps, abandon Europe altogether and re-constitute themselves elsewhere? If so, should they focus their efforts on relocation to the historical land of Israel? Or could they go anywhere? Wherever they might go, should they aspire to build a modern Jewish nation-state, a semi-autonomous Jewish community, or some other arrangement? Should this coincide with the cultivation of a distinctively Jewish modern language? If so, should it be Hebrew or Yiddish? In this course we will assess various answers to these questions proffered by Jewish political thinkers in the modern period. We will pay particular attention to the construction of "Jews" and "Judaism" in these arguments. And we will ask persistently: what constitutes a "Jewish justification" for a political claim in modern Jewish political theory? Coverage will include: Jewish liberalism, political Zionism, Yiddishist autonomism, messianic quietism, and other views. We will read mostly primary sources, including texts by: Hermann Cohen, Theodore Herzl, Chaim Zhitlowsky, Franz Rosenzweig, Leo Strauss, Hannah Arendt, and many others.

Requirements/Evaluation: six short (1-2 pages) response papers; two 6- to 8-page papers, each analyzing a different view in depth; a final 18- to 20-page paper that incorporates the two previously submitted 6-8 page papers, but also compares the two views and adjudicates between them
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Religion majors, Jewish Studies concentrators, and Political Science students on the "Theory" track

REL 332 (F) Islam and Feminism
Cross-listings: WGSS 334 REL 332 ARAB 332

Primary Cross-listing
This course examines the relationship between feminism and Islam, focusing particularly on Islamic feminist scholarship. We will take a genealogical approach to our study of Islamic feminism tracing the different discourses that have informed and shaped the field. The first part of the course will begin with a critical examination of orientalist and colonial representations of Muslim women as oppressed and in need of liberation. We will then explore Muslim responses so such critiques that were entwined with nationalist and independence movements. This historical backdrop is critical to understanding why the question of women and their rights and roles become crucial to Muslim self-understanding and Islamic reform. The second part of the course will focus on major intellectuals and thinkers who have influenced Islamic feminism. Finally, the last part of our course will explore the breadth of Islamic feminist literature, covering the following themes: 1) feminist readings of scripture; 2) feminist critiques of Islamic law; and 3) feminist theology.

Requirements/Evaluation: weekly responses, four 2- to 3-page essays
Prerequisites: none
Enrollment Limit: 15
**Enrollment Preferences:** Religion, Arabic Studies, Women's, Gender and Sexuality Studies, History majors

**REL 333** (S) The Politics of Myth

Myths animate ethical and political life. Shared stories that function as sources of justification and motivation are reflected in our anxieties and aspirations, in how we talk, and in how we perform our identities. These are stories about the origins of our world, the founding of the political order, the forging of groups, the menace of enemies, the triumph of heroes, the ultimate destiny of humankind. In this course, we will explore the meaning of "myth" in our ethical and political lives. We will read and discuss a wide range of approaches to myth. For instance, readings may include works by Plato, medieval Jewish and Islamic philosophers, Friedrich Nietzsche, Georges Sorel, Ernst Cassirer, and Walter Benjamin. Particular attention will be given to a set of mid-twentieth century theorists of myth who have had an especially strong impact on the meaning of myth in American popular culture: Carl Jung, Mircea Eliade, and Joseph Campbell. We will assess the enduring resonance of their ideas and explore new opportunities to think critically and imaginatively about myth in this tradition, reading works by Wendy Doniger, Jeffrey Kripal, and other contemporary scholars in religious studies. These theoretical explorations will serve to enrich our efforts, throughout the course, to uncover the myths that animate our own lives. We will explore our myths through sustained introspection, interpretations of popular culture, and opportunities for myth-criticism and myth-making. Thus, in addition to the critical analysis of myths and myth theories, students will have the opportunity to play creatively with the possibilities of myth. The course will culminate in a final creative project engaging with the idea of myth.

**Requirements/Evaluation:** Two 5-7 page papers and either a final annotated creative project or a final 7-10 page paper.

**Prerequisites:** None

**Enrollment Limit:** 18

**Enrollment Preferences:** Religion majors and students who have taken a course in the Religion department.

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**REL 334** (S) Imagining Joseph

**Cross-listings:** REL 334  JWST 334  COMP 334  ANTH 334

**Secondary Cross-listing**

Beloved son, rival brother, faithful servant, dreamer, seer, object of desire, lover, husband, bureaucrat, Joseph is one of the most fully-limned and compelling figures in the Jewish, Christian, and Muslim scriptural traditions. The story of Joseph unfolds over fourteen chapters in the Hebrew Bible, and is the subject of the fourth longest sura in the Qur'an. Through millennia, the story of Joseph has inspired a wealth of interpretations, commentary, apocrypha, re-tellings, and back-story, including an apocryphal book of scripture about Joseph and his wife, Asenath, Sufi poetry about Joseph and Zuleikha (Potiphar's wife), a trilogy by the 20th century German novelist Thomas Mann, a musical by Andrew Lloyd Weber, and many expressions in Western visual art. The course will explore these various expressions, looking to them for the ways in which Joseph has captured the imaginations of peoples and cultures across time and space. The course will be organized as a collaborative seminar in which the class will read the foundational scriptures together, followed by thematic discussions to which students will contribute insights from their own readings of particular peripheral texts. Students will learn the pleasures of close and intense exegetical reading in approaching the Hebrew Bible and Qur'an, as well as the more expansive pleasures of linking post-scriptural expressions together.

**Requirements/Evaluation:** 3- to 5-page weekly response papers; 15-page final paper; class participation

REL 335 (S) The Meaning of Diaspora and the Jews of Europe (WS)

Cross-listings: REL 335 HIST 434 JWST 434

Secondary Cross-listing

Dispersion, exile, migration, statelessness are all aspects of diaspora. In the study of diasporic peoples and cultures, the Jews have long figured as the archetype. As a result, Jewish political figures, intellectuals, social activists and scholars have played a central role in discussions of the meaning of diaspora, including debates about its political and social implications, economic value, and cultural significance. In the first half of the semester, in discussions of common readings, we will examine various historical interpretations of Jews' diasporic existence from the nineteenth century to the present and its implications for humanitarianism. Beginning in the first half of the semester and with greater intensity in the second half of the semester, you will conduct independent archival research on some aspect of the history of the Jewish diaspora using the digitized archives of the American Jewish Joint Distribution Committee that will culminate in a twenty-plus-page paper. In the second half, the seminar will continue to meet weekly as a research colloquium, to provide a forum for you to present your research and drafts in progress and to give feedback on fellow students' work. In this seminar, we are not merely studying history; you are actually doing history. That is to say, you will be more than students of history in this course: you will become historians in your own right. Over the semester, you will learn how to pose historical questions; to engage critically with readings beyond summarizing them; to synthesize an enormous amount of source material; and to learn how to write more clearly. By the end of the semester, the goal is for each student to produce a polished research paper based on substantial engagement with archival sources and relevant secondary literature that will serve as a capstone to your coursework at Williams or as a potential jumping-off point for future research projects, including a senior thesis in History or Jewish Studies.

Requirements/Evaluation: class participation, several short papers, oral presentations, and a 20-page research paper

REL 338 (F) Transhumanism: Religion, Technoscience, Obsolescence

Cross-listings: HSCI 338 SOC 338 STS 338 REL 338

Secondary Cross-listing

This interdisciplinary seminar invites students to pursue sociohistorical analysis and sustained critical discussion of the transhumanist movement and its overriding aims: the augmentation, transformation, and eventual transcendence of human biological constitution; the realization, through speculative technoscientific means, of an enhanced or even "postbiological existence"--a "posthuman condition." "Humanity 2.0." Through close readings of primary historical documents, transhumanist texts, scholarship on transhumanism, works of science-fiction film, literature, and popular culture, we will position the movement as an empirical conduit through which to explore the sociohistorical conditions under which transhumanist ideas
and practices have emerged, circulated, and taken up residence. To that end, we will consider the ties of transhumanism to eugenics and massive investments in pharmaceuticals, anti-aging medicine, and so-called "GNR" technologies (i.e. genetics, nanotechnology, and artificial intelligence and robotics); the movement’s affinities with neoliberalism and what some have pointed to as transhumanism’s racialized subtext of whiteness. We will furthermore devote considerable attention to the technological singularity, the figure of the cyborg, mind-uploading, space colonization, and cryonic suspension, all of which, like transhumanism broadly, suggest that science and technology have in some sense come to operate as powerful channeling agents for the very sorts of beliefs, practices, and forms of association that theorists of secularization expected modernity to displace. Lastly, throughout the course of the seminar we will take transhumanism as a provocation to think broadly and seriously about religion, technology, embodiment, and ways of being human.

Class Format: Remote
Requirements/Evaluation: informal weekly writing, two short review essays, and one 15-page seminar paper
Prerequisites: Prior coursework in sociology-anthropology, history, religion, or science and technology studies.
Enrollment Limit: 14
Enrollment Preferences: Anthropology and Sociology majors and Science and Technology Studies concentrators
Expected Class Size: 14
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
HSCI 338 (D2) SOC 338 (D2) STS 338 (D2) REL 338 (D2)

Fall 2020
SEM Section: R1 TR 9:45 am - 11:00 am Grant Shoffstall

REL 340 Science, Religion, and the (post)colony: Critical approaches to the global history of knowledge (DPE)
Histories of science and religion have been deeply intertwined with colonial and postcolonial history. Colonial claims to legitimacy were often rooted in perceptions of scientific and technological superiority, and colonial expansion often marched in lockstep with missionary activity and forced conversions. In the process, race and human difference emerged as concepts at the intersection of scientific and religious discourses and was forged within the colonial framework. This colonial history of science and religion impacted how scientific and religious thought, practices and institutions developed through the period of decolonization and into today. Similarly, the attendant history of race and human difference continues to influence postcolonial and contemporary discourses around race, ethnicity, identity and migration. In this course, we will trace key moments in the history of science and religion and their relation to coloniality. We will start in the sixteenth century with the rise of modern European empires, move into the height of modern colonialism, indigenous genocides and chattel slavery, and trace decolonization from the middle of the nineteenth into today. Throughout, we will investigate how science and religion emerged as concepts, practices and institutions, and how these narratives impacted, and were impacted by colonial expansion and history. We will pay particular attention to questions of race, gender, sexuality and human difference as key concepts and practices that emerged at the intersections of science, religion and (post)colonialism
Requirements/Evaluation: 2 response papers (3-5 pages each) + final project (could be a 10-15p paper or creative project of any kind)
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Concentrators, followed by seniors and juniors
Expected Class Size: 15
Grading:
Distributions: (D2) (DPE)
Difference, Power, and Equity Notes: The course addresses questions of race, gender, sexuality and human difference as seen through the history of science, technology and medicine. Students will creatively engage with critical race theory, postcolonial theory and queer theory. They will also investigate human suffering as a category that provides a deeper understanding of difference, diversity and equality.
Not offered current academic year

REL 348 (S) Religion and Reason
In his most famous and provocative book, *The End of Faith*, the "New Atheist" author Sam Harris very forcefully brings our attention to the dangerous clash between faith and reason, lamenting humanity's willingness to suspend reason in favor of religious beliefs. This represents a pervasive trend of thought in the modern world that sees religion as being diametrically opposed to reason and rationality. This course is an in-depth investigation of this notion through the lenses of philosophy, theology, anthropology, and history, asking questions such as: What is reason, and what counts as a rational belief? Are there other grounds that might make one justified in holding a belief? What is the nature of religious belief or faith? Is religious belief uniquely irrational? What gave rise to this discourse on religion? We will be reading primary and secondary materials representing a variety academic disciplines, intellectual traditions, and geographic contexts.

**Requirements/Evaluation:** regular reading responses, 6- to 8-page midterm essay, final 10- to 12-page essay

**Prerequisites:** none

**Enrollment Limit:** 15

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**REL 352 (S) Mystic Spirituality in Black Women's Social Justice Activism: Brazil-USA**

**Cross-listings:** REL 352 AFR 352 WGSS 352

**Secondary Cross-listing**

This course examines the meanings and manifestations of mystic spirituality in the lives and work of selected Black women artists/activists in the USA and Brazil. The writings of Lucille Clifton (poet), Rosemarie Freeney Harding (activist and counselor) and Makota Valdina Pinto (activist and Candomblé ritual elder) are key texts for our exploration of the uses of mystic sensibilities and Afro-Atlantic ritual traditions—such as dreams and visions, prayer, divination, sacred dance, healing rites and other forms of unmediated intimate encounter with the sacred—as resources for creativity, community organizing, self-care and as aspects of political and social critique in African American and Afro-Brazilian contexts. The methodology of the course blends historical, literary and womanist approaches in an investigation of the conjunctions of spiritual practice and activism in the experience of women in the Afro-Atlantic diaspora.

**Requirements/Evaluation:** class participation, 2-3 short papers (5-7 pages) and a final project

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** AFR, REL, and WGSS concentrators

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**REL 354 (S) Friedrich Nietzsche: Philosophizing with a Hammer**

**Cross-listings:** REL 354 COMP 351

**Primary Cross-listing**

In one of his last major writings, *Twilight of the Idols* (*Götzen-Dämmerung*, 1889), Friedrich Nietzsche described his project as an attempt to sound out various established philosophical truths or intellectual "idols," saying, "they will be touched here with a hammer as with a tuning fork, these are the oldest, most convinced, puffed-up, and fat-headed idols you will ever find...And also the most hollow." To be sure, Nietzsche directed his often combative prose against everything from traditional religion to philosophy itself. Nietzsche is one of the most frequently cited and most frequently misunderstood philosophers of our current era. By reading Nietzsche's writings in context, this course will attempt to liberate Nietzsche from his later reputation. We will think with and sometimes against Nietzsche, focusing on his notions of religion, mythology, power, morality, and enlightenment, and we will pay special attention to his reflections on the limits of reason/knowledge. Along the way, students will get a new sense of Nietzsche's most famous theoretical formulations including "the death of God," the *Übermensch*, and the split between Dionysian/Apollonian modes of thought.

REL 358 (S) Religion and Law (DPE)

Cross-listings: GBST 358 REL 358

Primary Cross-listing

This course explores the concept of "law" through an investigation of the complex relationship between law, ethics, and religion. In doing so, we will look at legal theoretical texts as well as legal anthropological studies to pose critical questions about the nature of law, the functioning logic of law, the relationship between law and lived experience, and the legal construction of categories and facts. In the course, we will consider two intersections of religion and law: the particularities of religious legal traditions and the relationship between religion and secular law. Topics will include the secular legal construction of religion, the relationship between law and ethics, the nature of legal hermeneutics, and the racial, gender, and sexual politics of legal interpretation.

Requirements/Evaluation: reading response, two essays, final research paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion majors

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 358 (D2) REL 358 (D2)

Difference, Power, and Equity Notes: Law is seen as both a repressive and liberatory force. In taking a critical approach to the nature of law and legal interpretation, this course prepares students to think about the language of "rule of law," "order," and "justice" as a complex relationship between law and power.

Not offered current academic year

REL 374 (S) Mysticism: Vision, Writing, History (WS)

Cross-listings: REL 374 COMP 352 ENGL 374

Secondary Cross-listing

The promise of God's real presence in the world lies at the heart of Christianity as a messianic and scriptural faith. But mystics, who seek out and bear witness to their own experiences of the divine, have often been viewed with suspicion by church and state authorities. At stake in these confrontations between orthodoxy and the individual witness are questions of knowledge and power. To whom does God speak, who speaks for God, and how can anyone, whether mystic or priest, be certain? We will learn how these questions have inflected certain passages in the history of Christian belief and practice: the flourishing culture of mystical writing by medieval women, the efforts of some Protestant sects to distribute authority more horizontally, and early modern philosophers' criticisms of prophecy and fanaticism. But our deepest concerns will be literary and aesthetic. What modes of writing did mystics use to express what was, in fact, inexpressible? What role did visual art play in visionary experience? And how has mysticism influenced the work two of the twentieth century's most significant theorists of language, Ludwig Wittgenstein and Jacques Derrida?

Requirements/Evaluation: biweekly 5-page papers, biweekly 2-page response papers, thoughtful participation in class discussions
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 10

Enrollment Preferences: English majors and those intending to major in English

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

REL 376 (F) Islam and Capitalism (DPE)

Islam and Capitalism are two widely debated and yet increasingly elusive phenomena of our contemporary age. This course offers a chronological and thematic study of the conceptual and material entanglements between Islam and Capitalism. The mere juxtaposition of Islam and Capitalism is beset with conceptual difficulty and anachronism: can Islam be conceived as a religion proper given the Shari'a's extensive regulation of commercial life? Is faith in the providence of free markets akin to religious belief? Are Islam and Capitalism universal goods, or are they isomorphic to distinct cultures? Does the simultaneous rise of Islamic banking and "halal" consumerism signal a revolt against capitalist modernity, or does it mark the domestication of religion by forces of the market? How do Islamic conceptions of socioeconomic justice and ecological preservation respond to the environmental crises of Capitalism and the Anthropocene? We will explore these questions and address their underlying assumptions from within the disciplinary frameworks of History, Anthropology, and Religious Studies. In terms of theory, students will comprehend key debates and methodological approaches to the broader study of religion and capitalism, including formal resemblances between theological concepts and theorizations of the market; the analytical purchase of binary oppositions between religion (enchantment) and economics (rationality); the cultural embeddedness of markets versus their formalistic autonomy; postcolonial critiques of corporate sovereignty and neoliberalism; and, finally, economic/ecological assemblages and "religious economies." In addition to harnessing theoretical tools of analysis, students will also acquire substantial knowledge of the Shari'a, its commercial laws, institutions, and contracts by studying the history of commerce in Muslim societies from 7th-century agrarianism to contemporary Islamic finance. The diverse topics, regions, and periods covered in the course are organized into 5 modules: (1) theoretical concepts in religion and economics; (2) the Shari'a and Islamic commercial law; (3) commerce in medieval Islam; (4) modernity, colonialism, and industrial capitalism; and, finally, (5) globalization, modern Islamic finance, and environmentalism.

Class Format: This course will be conducted online in its entirety and will rely on a combination of synchronous and asynchronous modes of learning. The synchronous component will consist of weekly class meetings via Zoom. A discussion leader will be assigned for each session and, depending on enrollment, students will be separated into break-out sessions to facilitate group discussion. The asynchronous component will consist of weekly reading responses, the mid-term, and final paper.

Requirements/Evaluation: Weekly Reading Responses (approx. 300 words): 20%; Class Participation (based on a weekly assignment of in-class discussion leaders): 20%; Take-home Midterm Exam (5 double-spaced pages/1250 words max.): 20%; Term Paper (10 double-spaced pages/2500 words max.): 40%

Prerequisites: There are no prerequisites for enrollment. However, an elementary exposure to the history of economic thought will be useful.

Enrollment Limit: 19

Enrollment Preferences: Seniors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines trajectories of capitalism—beyond its isomorphic relationship with Western culture—in the Muslim world. It offers a critical perspective on economic inequality and underdevelopment in postcolonial Muslim states and their historical linkages with extractive/settler colonialism. Students explore connections between petrodollar capitalism, climate change, exploitation of migrant labor in the Arabian Gulf, and the fight for regional domination through proxy religious wars.

REL 401 (F) Issues in the Study of Religion
To be conducted as a working seminar or colloquium. Major issues in the study of religious thought and behavior will be taken up in a cross-cultural context enabling the student to consolidate and expand perspectives gained in the course of the major sequence. Topics will vary from year to year. In keeping with the seminar framework, opportunity will be afforded the student to pursue independent reading and research.

Class Format: Remote
Requirements/Evaluation: class reports, papers, and substantial research projects
Prerequisites: senior Religion major or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: senior Religion majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

REL 412 (F) Gandhi: History, Ideas and Legacy (WS)
Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496
Secondary Cross-listing
This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism?
Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

**Class Format:** REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

**Requirements/Evaluation:** 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

**Prerequisites:** None, except students who have taken HIST488T will not be permitted to take this class.

**Enrollment Limit:** 10

**Enrollment Preferences:** Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

**Writing Skills Notes:** As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

---

**REL 421 (S) Picturing God in the Middle Ages**

**Cross-listings:** REL 421 ARTH 421

**Secondary Cross-listing**

How did medieval Europeans imagine their God and how did they give what they imagined pictorial form? How were these pictures used, both in public and in private life, and why? Paying particular attention to the function and experience of medieval works of art, this seminar will examine the evolution of images of God, in both the Eastern and Western halves of Europe, and the problems these images often generated. Through readings and class discussion, the course will investigate, among other specific topics: the varied attitudes toward the representability of God in Judaism, Islam, and Christianity; the impact of the Roman cult of the emperor and of images of the dead on the earliest portraits of Christ; the cult of the icon, concerns over idolatry, and the destruction of images; ideas about spiritual versus physical vision and their influence on the making and viewing of pictures; the relationship of sacred images to relics, the Eucharist, and other aspects of Christian ritual; and the pictorial exploration of both the torture and sexuality of Christ. Students will also pursue an individual research project, in which they will examine in greater depth a specific depiction of divinity of their choosing, in light of what we have considered together in the seminar.

**Class Format:** Class will meet online at first but may shift to in-person if circumstances allow

**Requirements/Evaluation:** class participation, oral presentation, one short paper (2-3 pages), final research paper (15-20 pages)

**Prerequisites:** none

**Enrollment Limit:** 10

Spring 2021
REL 422  (S)  Art, Architecture, and Poetry: Islamic Devotional Culture in South Asia

Cross-listings:  COMP 422  ARTH 422  REL 422

Secondary Cross-listing
How have scholars interpreted and classified terms such as "Islamic art" and "Muslim culture," and how have these classifications affected the interpretation of the arts in South Asia? There are different points of view regarding what constitutes as "Islamic" art and culture. Is an imperial wine cup with "God is Great" inscribed on it an "Islamic" object? How is an erotic epic narrating the romance of a Hindu prince understood as embodying the principles of Muslim devotion? This interdisciplinary seminar, focusing on South Asian Muslim devotional culture as articulated through the material culture, the arts of the book, architecture, and poetry, will navigate these questions from two perspectives. The first is to understand how Muslim devotional cultural expression in South Asia circumscribes and interprets itself. The second viewpoint is that of scholarship and the various interpretive voices that have framed the field over the last century.

Requirements/Evaluation:  class participation, 2-page response papers on class readings, leading class discussion, final 15-20-page research paper

Prerequisites:  none

Enrollment Limit:  14

REL 99 (W) Independent Study: Religion
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
ROMANCE LANGUAGES (Div I)
FRENCH
Chair: Professor Brian Martin

On leave fall/spring: K. Pieprzak, S. Saint-Just

MAJOR—French Language and Literature
The French major seeks to provide training in literary and cultural analysis and linguistic expression through the study of selected texts from the French-speaking world. Emphasis is placed on the changes in form and subject matter from the early modern period to the contemporary era.

The major consists of nine courses. One of these courses must be the 400-level senior seminar during the student’s final year at the College.

Students entering the major program at the 200-level may, with the permission of the Department, choose as part of their major program, one course in Art History, History, Philosophy, Comparative Literature or other subjects that relate to and broaden their study of French. Students entering the major program at a very advanced level may, in some cases and with the permission of the Department, include two such courses in their major program.

Working with the major advisor, the student will formulate a curricular plan that will ensure balance and coherence in courses taken. Such balance and coherence will be based on the above areas of literary and cultural investigation. Prospective majors should discuss their program with the major advisor by the end of their sophomore year. This is especially imperative for students who are planning to spend a part or all of their junior year in France.

Inasmuch as all courses in French assume the active participation of each student in discussions conducted in the foreign language, regular attendance at class meetings is expected.

MAJOR—French Studies
The major in French Studies is an interdisciplinary program that provides students with the opportunity to acquire skills and knowledge embracing the cultural, historical, social, and political heritage of France and the Francophone world. The program allows for an individualized course of study involving work in several departments and the opportunity to study abroad.

Students electing the French Studies major should register with the French Studies faculty advisor during their sophomore year. At that time, they should submit a feasibility plan that articulates their projected program.

The French Studies major consists of ten courses satisfying the following requirements:
- at least five RLFR courses in French language, literature, film, or culture;
- the RLFR senior seminar during the student’s final year at the College;
- Electives: The remaining courses needed to complete the major must be drawn from at least three different departments and relate primarily to an aspect of the cultures, histories, societies, and politics of France and the Francophone world. These courses will be selected in consultation with members of the Department of Romance Languages. Appropriate electives might include:
  - AFR 360 Political Thought Frantz Fanon
  - ARTH 254 Manet to Matisse
  - HIST 390 Haitian and French Revolutions
  - RLFR 101-450 All courses in French and Francophone language, literature, film, and culture

THE DEGREE WITH HONORS IN FRENCH
Students majoring in French may apply to be admitted to the Honors Program in French upon demonstrating the following: (1) fluency of spoken and written language; (2) potential for successful independent research, as demonstrated by strong performance in advanced-level coursework; (3) interest and motivation; and (4) overall quality and feasibility of the proposal.

By May 15th of their junior year, candidates will have found a thesis advisor, and given the Department a three- to five-page proposal and a preliminary bibliography. (In some cases, and upon consultation with the Department, candidates will have the option to choose a second reader in addition to their primary advisor; for example, when the thesis is interdisciplinary enough in nature that it requires the expertise of an additional reader). This proposal will be discussed by the Department; by June 1st, the candidate will be informed whether they can proceed with the thesis, and if so, what changes need to be made to the focus and scope of the project. The summer before the senior year will be spent reading, researching (in relevant archives or with field work), and compiling a more detailed bibliography.
Upon their return to Williams, candidates will devote to their theses two semesters of independent study (beyond the nine courses required for the major) and the winter study period of their senior year (493-W31-494). The thesis will be written in French and will usually not be shorter than fifty pages. By the end of the Fall semester, students will normally have a clear outline of the project, have done substantial research, and produced the draft of at least the first half of the project. During January this draft will be suitably rewritten and edited with a view to a final version, while the candidates will also begin work on remaining chapters.

Candidates will submit what they have written to the department on the last day of Winter Study.

On the Tuesday of the first week of the spring semester candidates will make a presentation of the project at a departmental colloquium in French. The thesis will be promptly discussed and evaluated to determine whether or not the student should continue in the honors program. The second semester of independent thesis work will be spent writing more chapters, as well as revising, rewriting, and polishing the project where necessary. The completed thesis in its final form will be due on April 25th. At the end of the Spring term, the student will present and defend the final project before members of the Department and others by invitation. The grade will be awarded once members of the Department have consulted after the defense.

THE CERTIFICATE IN FRENCH

The Certificate in French Language and Cultures consists of a sequence of seven courses for which the student must earn a cumulative grade average of B or higher.

For students with no prior study of French, the course sequence will consist of RLFR 101-102, RLFR 103, RLFR 104, and three additional courses, with at least one of these at the 200-level or higher taken at Williams. For students starting the sequence at RLFR 103 or higher, six additional courses must be taken, including at least three French courses at the 200-level or higher. For these students starting at French 103 or higher, two electives may be taken in other departments: one elective should be in French or Francophone culture (art, literature, theatre, music) and the other in French or Francophone civilization (history, political science, philosophy).

PLACEMENT

A placement test in French is administered at Williams at the opening of the fall semester. Incoming first-year students who register for any French course above the 101 level must take this test, regardless of their previous preparation.

STUDY ABROAD

We encourage all students of French to complement their courses at Williams with the life-changing experience of studying abroad in a Francophone country. In particular, French majors and certificate students are strongly advised to complete part of the requirements for the major or certificate by studying abroad, for either a semester or a year. Most study abroad programs require applicants to have completed a fifth-semester French course in college (French 105) or higher before they go abroad. Credit for up to a total of 4 courses towards the major or certificate can be granted for either a semester or a full year abroad, at the discretion of the Romance Languages Department. Students who are planning to get credit for their study abroad courses should meet with a French faculty member in advance, to review the courses they intend to take abroad. Normally, only courses that focus on French language or Francophone literature, history, politics, art, and culture may be counted towards the major or certificate.

The final assignment of course credit will be authorized in consultation with the student's French advisor, once the student has returned to Williams. Such credits can only be determined by review of course format, course materials, and evidence of satisfactory academic performance; students should thus provide not only their study abroad transcript, but retain course materials (including syllabi, papers, exams, and other projects) for potential review back at Williams. While students can gain credit for 100-, 200-, and 300-level courses during their time abroad, the 400-level senior seminar must be taken during the senior year at Williams. Early planning is essential: Students interested in studying abroad are strongly urged to attend the yearly Francophone Study Away Information Session (held each October) during their first year or sophomore year. Students will receive credit for only those study abroad programs recommended and approved by the Dean of Study Away and the Romance Languages Department. Williams has long-term affiliations with the following programs: Hamilton College (Paris), Sweet Briar College (Paris), CUPA (Paris), Middlebury College (Paris), Wellesley College (Aix-en-Provence), Boston University (Grenoble), and both SIT and CIEE (in Morocco, Senegal, and Madagascar). For more on all approved study-abroad programs, see the webpages for the French program (french.williams.edu) and Study Away (study-away.williams.edu/programs). Finally, the Department does not administer proficiency exams (for study abroad, fellowships, or job applications) to students who have not completed a French course at Williams; and most study abroad programs will not accept students who have not taken any college courses in French (at Williams) prior to their application. Students should thus plan well ahead (as early as their first year and sophomore year) to take appropriate courses at Williams, before applying for and taking part in study abroad programs in the Francophone world.

RLFR 101 (F) Introduction to French Language and Francophone Cultures

This year-long course offers a complete introduction to the French language and is designed to help you become fully conversant in French by focusing on four fundamental language skills: listening, speaking, reading, and writing. Through daily practice, class activities, interactive discussion,
listening exercises, written work, reading assignments, and active engagement with music, video, and film, you will quickly gain confidence and increasing facility with your abilities to speak and understand both spoken and written French. In addition, our study of grammar, vocabulary, and communication skills will be organized around an engaging and dynamic introduction to a variety of French-speaking cultures around the world, from France and Belgium, to Québec and Martinique, to Sénégal and Morocco. Conducted in French.

Class Format: Remote. This will be a remote course for all students, whether they are on campus or not. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on speaking practice in small groups. There will also be opportunities for students to engage with online activities both during and between our synchronous sessions. Remote office hours will provide even more opportunities for follow-up, questions, and practice.

Requirements/Evaluation: active class participation, workbook exercises and compositions, chapter tests, midterms, and final exams

Prerequisites: none; for students who have never formally studied French; students who have previously studied French (in any formal course, at any level) must take the French Placement Test in late August or early September

Enrollment Limit: 12

Enrollment Preferences: all are welcome, but if over-enrolled, preference will be given to first-year and second-year students and those with compelling justification for admission

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Unit Notes: RLFR 101-102 is a year-long course; credit granted only if both semesters (RLFR 101 and 102) are taken. Also: RLFR 101-102 students must normally take the French Winter Study Course, which may have a remote or independent study format in 2021.

Distributions: (D1)

RLFR 102 (S) Introduction to French Language and Francophone Cultures

This year-long course offers a complete introduction to the French language and is designed to help you become fully conversant in French by focusing on four fundamental language skills: listening, speaking, reading, and writing. Through daily practice, class activities, interactive discussion, listening exercises, written work, reading assignments, video-observations, and film-viewing, you will quickly gain confidence and increasing facility with your abilities to speak and understand both spoken and written French. In addition, our study of grammar, vocabulary, and communication skills will be organized around an engaging and dynamic introduction to a variety of French-speaking cultures around the world, from France and Belgium, to Québec and Martinique, to Sénégal and Morocco. Conducted in French.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on speaking practice in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: participation, online homework, mid-semester and final projects, short writing assignments

Prerequisites: RLFR 101, or by Placement Test, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Preference will go to first- and second-year students and those with compelling justification for admission. Statement of interest solicited if overenrolled.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RLFR 103 (F) Intermediate Studies in French Language and Francophone Cultures

As a continuation of French 101-102, this dynamic first-semester intermediate course is designed to help you improve your French, while at the same
time learning more about French and Francophone cultures, politics, literature, and film. Through the active study and daily practice of listening, speaking, reading, and writing in French, you will: continue developing your communication skills and learn to express your opinions and ideas; improve your command of spoken and written French through a revision of important grammatical structures; strengthen your reading and writing skills in order to prepare you for further study of literary texts; and develop an increased vocabulary and cultural appreciation of French-speaking cultures around the world.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on speaking practice in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: participation, online homework, mid-semester and final projects, short writing assignments

Prerequisites: RLFR 101-102, or by Placement Test, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Preference will go to first and second year students. Statement of interest solicited if overenrolled.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Unit Notes: students should seriously consider taking RLFR 103 AND 105 if they intend to enroll in more advanced French literature courses at the 200-level and above, or if they anticipate studying in France or a Francophone country during their junior year

Distributions: (D1)

LEC Section: R2  MWF 8:15 am - 9:30 am  Theresa Brock

RLFR 104  (S)  Intermediate French II: Advanced Intermediate Studies in French

As a continuation of French 103, this course will help students gain greater fluency in French, through an exploration of French and Francophone literature, film, media, politics, and culture. With a focus on listening, speaking, reading, and writing, students will review advanced grammar expand their vocabulary, gain greater confidence, and both discuss and debate central questions in the social, political, and cultural landscape of French-speaking communities in Europe, Africa, and the Caribbean.

Class Format: Remote. Both sections of 104 will convene synchronously via web-conferencing three times per week (two sessions with the instructor, one session with the TA), with an emphasis on speaking practice in small groups, and a series of varied online activities in-between our synchronous sessions. Prof. Tresfel's R1 course's TA meetings will be scheduled at agreed-upon times once enrollment is established. Prof Cornell's R2 course's TA meetings will take place during scheduled class hours.

Requirements/Evaluation: short weekly readings, participation, online homework, three quizzes, three writing assignments and one final project.

Prerequisites: RLFR 103, or by placement test, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Preference will go to students who have taken 103 in Fall 2020. Statement of interest solicited if overenrolled.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Unit Notes: after successfully completing RLFR 104, students may register for RLFR 201

Distributions: (D1)

RLFR 105  (F)  Advanced French: Advanced Studies in French Language and Francophone Culture

In this course, we will concentrate on polishing your oral and written expression and on expanding your vocabulary, while focusing on the analysis and
Discussion of French and Francophone cultures and the concepts that define them. In addition to helping you improve your speaking, listening comprehension, reading, and writing, as well as reviewing advanced grammar, we will explore key myths and practices linked to municipal, regional, and national identities in France and the Francophone world, and seek to understand the history of contemporary debates surrounding these identities. Topics of discussion will include: Which cultural practices represent what it means to be French? How do certain regions and cities derive a sense of identity distinct from that of the nation? How do overseas departments and territories inflect Frenchness by means of their own histories and geographies? Short literary, theoretical, and historical texts, along with films, music, artwork, press articles, and websites, will inform our discussions. Conducted in French.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on discussion in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: participation, grammar exercises, 3 reaction papers, 1 presentation, final project

Prerequisites: RLFR 104, placement exam, or by permission of instructor

Enrollment Limit: 12

Enrollment Preferences: All are welcome, but if overenrolled, preference will be given to first- and second-year students and French major and certificate students. If necessary, a statement of interest will be solicited.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

RLFR 106  (S) Advanced French: Danger and Desire in French Film and Fiction  (DPE)

Cross-listings: RLFR 106  COMP 107

Primary Cross-listing

This is an advanced course in French language designed to help you improve your speaking, comprehension, reading, and writing, through the dynamic study of short literary texts and films focusing on danger and desire in nineteenth-, twentieth-, and twenty-first-century France. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French literature and cinema. As a focus for improving your French, we will examine a broad range of texts and films on danger and desire in France from 1820 to 2020, with an emphasis on passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

Class Format: This will be a remote course for all students, whether they are on campus or not. We will convene synchronously via web-conferencing, with an emphasis on speaking practice in small groups. There will also be opportunities for students to engage with online activities both during and between our synchronous sessions. Remote office hours will provide even more opportunities for follow-up, questions, and practice.

Requirements/Evaluation: active class participation, grammar exercises, two short papers, midterm, and final paper

Prerequisites: Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

Enrollment Limit: 12

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 106 (D1) COMP 107 (D1)

**Difference, Power, and Equity Notes:** This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies, men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

**RLFR 108 (S) Voyages Francophones: Alienation and Self-Discovery in Contemporary Literature and Film**

This is an advanced course in French language designed to help you improve your speaking, listening comprehension, reading, and writing, through the dynamic study of literary texts and films focusing on the themes of alienation and self-discovery in the late twentieth- and early twenty-first-century Francophone world. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French-language fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French language and cinema. As a focus for improving your French, we will examine a broad range of texts and films on the themes of alienation and self-discovery—especially in the context of immigration and coming of age—as they are represented in texts from France, Québec, and the Caribbean.

**Requirements/Evaluation:** class participation, grammar exercises, group discussion leading, two short papers, and final project

**Prerequisites:** exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor

**Enrollment Limit:** 20

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

---

**RLFR 202 (F) War and Resistance: Two Centuries of War Literature in France (1804-2016)**

**Cross-listings:** RLFR 202 WGSS 201

**Primary Cross-listing**

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to the recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

**Requirements/Evaluation:** active class participation, midterm exam, and two to three papers

**Prerequisites:** exceptional performance in RLFR 105; successful performance in RLFR 106 or 107; or by French placement exam; or by permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option
RLFR 205  (S)  On Strike: Workers and Revolutions in the French Republic
The recent "yellow vests" (gilets jaunes) protests in France have attracted international attention to the experiences of French workers. Yet these protests are only the latest example in a series of workers' movements that have shaped French identity. From the revolutions of 1830 and 1848, to the Popular Front of the 1930s, to the general strike that fueled the events of May 1968, workers have played a significant role in determining France's sociocultural values and political orientation. In this course, we will study representations of workers in literary and filmic texts dating from the late nineteenth century to the present. We will consider how depictions of the worker have evolved amid changing sociocultural conditions in France: for instance, the arrival of immigrants from such countries as Spain, Italy, and Portugal, and later from the Maghreb; the entry of women into the workforce; the disappearance of the rural farm worker, or paysan; the creation of a nuclear power grid; and deindustrialization. Finally, we will examine how the memory of workers is preserved in twenty-first-century France.  

Requirements/Evaluation:  class participation, reaction papers, group discussion leading, and a final project

Prerequisites:  strong performance in RLFR 105; RLFR 106; another RLFR 200-level course; placement exam; or permission of instructor

Enrollment Limit:  20

Enrollment Preferences:  French Majors and certificate students

Expected Class Size:  20

Grading:  yes pass/fail option,  yes fifth course option

Distributions: (D1)

Not offered current academic year

RLFR 206  (F)  The Outsider in French & Francophone Film Adaptations of Literary Texts  (DPE)
In this course students will examine the figure of the outsider (queer, black, woman, intruder, loner) in several French and Francophone literary texts and their film adaptations and will explore questions such as: how are such outsiders translated onto the screen? To what extent does outsider status help maintain, challenge, or reveal hegemonic discourse? In what ways do non-Western and Western filmmakers (re)cast power and privilege through the figure of the outsider in their film adaptations (of Western canonical texts)? Students will read original French and Francophone literary texts and apply theories of film adaptation to their analyses.

Requirements/Evaluation:  three response papers, one short essay on film adaptation, one video essay with a student partner

Prerequisites:  students should have taken RLFR 105 or above, or placement test, or by permission of instructor

Enrollment Limit:  16

Enrollment Preferences:  Comparative Literature majors, Africana Studies concentrators, French majors and certificates

Expected Class Size:  12

Grading:  yes pass/fail option,  no fifth course option

Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes:  This course fulfills the DPE requirement because it focuses via the figure of the outsider on power dynamics (based on sexual identity race, class, gender) between cultural producers, in literary texts and their film adaptations.

Not offered current academic year

RLFR 207  (F)  Urban Ecologies of the French-Speaking World: Sustainability and the City in the 21st Century
In the twenty-first century, urban populations around the world have continued to grow, all while the climate crisis has become ever more urgent. The fact that more than 55% of Earth's inhabitants live in urban settings today means that cities will be important actors in the fight against climate change moving forward. In this course, we will examine how cities from the French-speaking world (including in North America, Europe, and Africa, as well as along the Pacific Rim) are enacting solutions for sustainable living in their midst. Taking a cultural studies approach, we will examine a variety of sources--including literature, videos and films, press articles, government documents, academic analyses, websites, and artistic productions, among
others—to understand the challenges each of these cities faces and the solutions each has introduced. In so doing, we will study how site-specific realities, such as (eco)tourism, the legacy of colonialism and imperialism, relations with indigenous populations, and inequalities (such as those of race, sex, gender expression, class, age, and ability), are interwoven with questions of sustainable development and ecological living. Conducted in French.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on discussion in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: participation, 3 reactions papers, 1 group presentation, final project

Prerequisites: successful performance in RLFR 106 or another RLFR 200-level course; or by placement test; or permission of the instructor

Enrollment Limit: 12

Enrollment Preferences: All are welcome, but if overenrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Fall 2020

SEM Section: R1 WF 1:30 pm - 2:45 pm Carl B. Cornell

RLFR 208 (F) Queens, Crusaders and Cannibals: Gender, Race and Religion in Medieval and Renaissance France

The intersection of gender, race, and religion is at the heart of contemporary political and social debates. How to build a nation and how to live together were also key questions for Medieval and Renaissance writers. In this introductory course in Early Modern Literature, we will study how literary works from the 11th to the 16th centuries represented conflicting debates on gender, race, and religion, from the Crusades opposing Christians and Muslims, to the Wars of Religion opposing Catholics and Protestants. We will explore how these concepts were intertwined in courtly love poems and chivalric novels in Europe, and how they were redefined in humanist writings and travel narratives to the Americas. Through an investigation of epic poems, allegories, tales, sonnets, novels, travel narratives, and essays by Marie de France, Christine de Pisan, Pierre de Ronsard, Louise Labé, François Rabelais, Michel de Montaigne and Marguerite de Valois, students will compare cultural, political, and ideological debates in Early Modern France with 21st-century questions on racism, sexism and discrimination.

Requirements/Evaluation: active participation, weekly written responses, midterm exam, and final project

Prerequisites: exceptional performance in RLFR 105, strong performance in RLFR 106, or by Placement Test, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French majors and French certificate students, and those with compelling justification for admission

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

RLFR 210 (F) Scientific Selves: Medicine, Technology, and Identity in Early Modern France

Cross-listings: STS 211 RLFR 210

Primary Cross-listing

The early modern period has long been associated with scientific discovery and shifting ideology in France. From Copernicus on, thinkers such as René Descartes, Blaise Pascal, and Antoine Lavoisier helped advance the Scientific Revolution, which led to medical and technological breakthroughs, as well as important advances in our understanding of the world and our solar system. This course examines the role that France played in pursuing such discoveries, as well as the ways newfound knowledge impacted notions of belonging and alterity. How did the Scientific Revolution and French colonization lead to the creation of social, cultural, and medical "others"? How did scientific discourse permeate verbal and visual expression and depict those who did not fit into normative paradigms of gender, sexuality, ability, ethnicity, belief, and culture? What avenues for self-expression and definition were available to those whom society excluded? What parallels can we see with twenty-first-century questions of
political activism, social justice, sciences, and technology? To explore these questions, we will analyze literary texts, visual representations, and historical documents, such as medical treatises, scientific diagrams, and texts on new technologies. Conducted in French.

Requirements/Evaluation: active class participation, written reflections, quizzes, mid-semester presentation, and final paper

Prerequisites: strong performance in RLFR 105; RLFR 106; another RLFR 200-level course; placement exam; or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French Majors and certificate students

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 211 (D1) RLFR 210 (D1)

Not offered current academic year

RLFR 211 (F) Explorers, Missionaries, Colonizers: French Travel Narratives in the Age of Discovery (DPE)

Often referred to in European history as the "Age of Discovery" or the "Age of Exploration," the 15th and 16th centuries saw the rise of overseas exploration from Europe to the Americas, Asia and Africa. These travels both contributed to the expansion of the known world for Europeans and also laid the foundations for commercial routes and colonisation. French travelers played a key role in this process and documented their journeys in detailed narratives. After reading short excerpts of earlier works that built the travel narrative genre, such as Ibn Battuta’s Travels and Marco Polo’s Book of Marvels, we will read longer excerpts from Jacques Cartier’s Brief narration of the Navigation to the Islands of Canada, Jean de Léry’s History of a Voyage to the Land of Brazil, Pierre Belon’s Voyage to the Levant, and study the maps that were created during this time period. We will analyze the representation of the journey itself, the descriptions of the lands traveled to and their inhabitants, and also the enunciation of the goals of such travels. We will see how a rhetoric of fascination, wonder and curiosity is intertwined with economical, political and religious agendas. There is no "official" travel narrative written by a woman in this time period: we will wonder why and study the representation of women in these texts. Conducted in French.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on speaking practice in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: Participation, weekly readings, online homework, one-page written responses or audio-recorded responses every two weeks, presentation of a visual document, final project.

Prerequisites: Exceptional performance in RLFR 105, strong performance in RLFR 106, or by Placement Test, or Permission of the Instructor.

Enrollment Limit: 12

Enrollment Preferences: If overenrolled, preference given to French Majors & French Certificate Students, and those with compelling justification for admission (statement of interest required).

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course qualifies for a DPE requirement because it addresses the early history of French colonization. The 15th and 16th century travel narratives we will focus on will allow students to critically engage with the first interactions of French people with indigenous populations and inhabitants of the Americas, Africa and India, with the religious and commercial projects undertaken by France vis-à-vis these territories, and with the racial and power dynamics that structure these narratives.

Fall 2020

SEM Section: R1 MR 3:15 pm - 4:30 pm Cécile Tresfels

RLFR 212 (S) Scandalous News: Media and Transgression in Pre-Revolutionary France

Today’s twenty-four-hour news cycle bombards us with scandalous stories. On our smartphones, tablets, and screens, personal transgressions and their political consequences loom large. In this constant state of media immersion, scandal and its communication have come to define our time. Yet
centuries ago in Pre-Revolutionary France, scandalous news played an even more crucial role, in a society centered on obedience to monarchy and monolithic institutions. In this course, we will consider how institutionalized codes of gender, social class, and religion shaped individual identity, how those who broke from these codes created individual autonomy, and how the scandals they caused were communicated to others. To pursue these questions, we will analyze literature, journalism, and legal texts that document scandalous figures and compare these early modern scandals with those of the twenty-first century.

Requirements/Evaluation: active class participation, written reflections, quizzes, mid-semester presentation, and final paper

Prerequisites: strong performance in RLFR 105; RLFR 106; another RLFR 200-level course; placement exam; or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French Majors and certificate students

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

RLFR 215 (F) The French Adventure: Word, Sound, and Image in the Digital Age

The French Adventure examines celebrated French literary texts (from the Middle Ages to Modernity) that draw on the theme of adventure, putting them into dialogue with their graphic novel and filmic adaptations (from the twentieth and twenty-first centuries). This course seeks to explore the phenomena of word (written or spoken), image (still or moving), and sound, as well as their interactions in today's environment of multimedia and digital immersion. Why have we seen an explosion of graphic novels and films depicting French literary classics in recent decades? How can these visual and audiovisual renderings enhance our appreciation for and understanding of written texts, and what aspects of the written word remain untranslatable to the world of the image? To address these questions, we will study a series of literary texts that depict historical moments from the late Middle Ages, to Absolute Monarchy, to the Belle Époque. From our visual vantage point of the twenty-first century, we will gain familiarity with the defining figures and events that these texts represent, from the fifteenth to the twentieth centuries. At the same time, we will interrogate the French-language graphic novel adaptations of each text, as well as portions of American-made filmic representations to consider questions of patrimoine, visual culture, and (trans)national identity. Conducted in French.

Requirements/Evaluation: active class participation, reading journal (with written reflections), quizzes, discussion leading, and final paper

Prerequisites: successful performance in RLFR 105, RLFR 106, or another RLFR 200-level course; or by placement test; or permission of the instructor

Enrollment Limit: 20

Enrollment Preferences: all are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

RLFR 220 (S) Fairy Tales: Love and Politics at the Sun King's Court

This course explores the literary and historical development of love and politics in 17th-century France. These two motifs dominated courtly life at Versailles during the reign of Louis XIV, the Sun King. Since cultural and artistic creations tend to dialogue with social circumstances, the literature of this time period—which critics have sometimes called the "Grand Siècle"—develops different schools of thought on the interactions between politics and love. Some authors approached these interactions from an idealistic or innocent perspective, while others had a more pessimistic or realistic outlook. Together, we will examine why and how each trajectory formed while also investigating the roles of literary genre and authorial gender. As part of our explorations, students will compose their own, original fairy tales and will also adapt a written tale into an in-class theatrical performance. Conducted in French.

Requirements/Evaluation: active class participation, quizzes, a midterm paper, an original fairy tale, an in-class performance of the fairy tale in groups

Prerequisites: successful performance in RLFR 105, RLFR 106, or another RLFR 200-level course; or by placement test; or permission of the instructor
Enrollment Limit: 20
Enrollment Preferences: all are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission

Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

RLFR 224 (S) Sexuality and Seduction in Nineteenth and Twentieth-Century France (DPE)

Cross-listings: RLFR 224 WGSS 224

Primary Cross-listing
In 1857, both Flaubert’s Madame Bovary and Baudelaire’s Les Fleurs du mal were put on trial for sexual indecency and "crimes against public morality." In 1868, Le Figaro attacked Zola’s novel Thérèse Raquin as "putrid literature" for its depiction of adultery, murder, and scandalous sexuality in nineteenth-century Paris. A century later, Gide, Proust, Colette, and Duras continued to shock French readers with their extraordinary novels on male and female homosexuality, intergenerational lovers, and biracial relationships. In this course, we will examine a broad range of issues on sexuality and seduction in nineteenth- and twentieth-century French literature, including eroticism and desire, love and betrayal, marriage and adultery, prostitution and fetishism, gay and lesbian identities, cross-dressing and gender representation, exoticism and colonial (s)exploitation. Readings to include novels, shorts stories, and poems by Chateaubriand, Constant, Duras, Balzac, Flaubert, Baudelaire, Zola, Maupassant, Barbey d'Aurevilly, Gide, Proust, Colette, Duras, and Guibert.

Requirements/Evaluation: active class participation, two shorter papers, a midterm, and a longer final paper
Prerequisites: exceptional performance in RLFR 105, successful performance in RLFR 106 or 107, or by French placement exam, or by permission of instructor

Enrollment Limit: 18
Enrollment Preferences: French majors and certificate students, Women’s, Gender, and Sexuality Studies majors, and those with compelling justification for admission; if the course is overenrolled, students will submit an online form

Expected Class Size: 18

RLFR 225 (F) Remembering the Great War: The First World War in Literature and Film (DPE)

Cross-listings: RLFR 225 COMP 224

Secondary Cross-listing
From 1914 to 1918, the First World War ravaged Europe and slaughtered millions of soldiers and civilians from across the globe. Known as the "war to end (all) war(s)," World War I set the stage for an entire century of military conflict and carnage. New technologies led to unprecedented violence in the trenches, killing and wounding as many as 41 million soldiers and civilians. Beyond the slaughter at the front, the Great War also led to the global influenza pandemic that claimed up to 50 million lives, and the Armenian genocide that presaged the later atrocities of the Holocaust. The war also led
to massive political transformation, from the Irish Rebellion and Russian Revolution, to the collapse of the German, Russian, Austro-Hungarian, and Ottoman Empires, and the redrawing of national borders across Europe and the Middle East. Even the end of the war with Treaty of Versailles lay the groundwork for new animosities that would lead to the Second World War just two decades later. However, the First World War also inspired great social change, from the emergence of the United States as a global leader and the founding of the League of Nations, to growing discontent with colonial rule in Asia and Africa, and greater power for women whose wartime labor influenced the post-war passage of their right to vote in countries across Europe and North America. To honor the centenary of the Great War in 2018, we will examine texts and films that bear witness to the suffering and courage of soldiers and civilians, and consider the legacy of the war in the twentieth- and twenty-first centuries. Readings to include memoirs and novels by Barbusse, Barker, Brittain, Cocteau, Graves, Hemingway, Jünger, Remarque, Wharton, Woolf; poetry by Apollinaire, Brooke, Mackintosh, McCrae, Owen, Sassoon; films by Attenborough, Boyd, Carion, Chaplin, Jeunet, Ozon, Renoir, Trumbo, Walsh, Weir; and archival materials on the roles of Williams students and faculty during the First World War. Readings and Discussions in English.

Requirements/Evaluation: active class participation, two shorter papers (4-5 pages), a midterm, and a longer final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: all are welcome, but if the course is overenrolled, preference will be given to Comparative Literature majors and French majors and certificate students; if the course is over-enrolled, students will submit a form online

Expected Class Size: 18

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 225 (D1) COMP 224 (D1)

Difference, Power, and Equity Notes: As the course description explains, this course centers on a critical examination of difference, power, and equity during WWI. The content examines the effects of class, race, ethnicity, gender, and sexuality on social inequalities among soldiers & civilians, nations & colonies, men & women. The course also employs critical tools to teach students how to articulate and interrogate the social injustices of the Great War, from reading & discussion, to analytical essays & archival investigation.

RLFR 226 (S) Black France/France Noire (DPE)

Cross-listings: AFR 226 RLFR 226

Primary Cross-listing

On the eve of the new millennium, the year 1998 saw the emergence in France of “Black studies à la française” (Ndiaye). Inspired, in part, by the 150th anniversary of the 1848 abolition of slavery, the French black minority “made itself more visible” (Faes and Smith). This course examines a wide range of discursive practices through which athletes, artists, authors, politicians, activists, and scholars amplified their voices in the French hexagone. It retraces the rise of these discourses and how they assert, reframe, and establish blackness as a legitimate field of knowledge and a space of affirmation and contestation. Following a study of the interwar period (1918-1939), when the work of “negritude women” (Sharpley-Whiting) such as “afro-latinité” spurred the negritude movement, we will discuss publications, documentaries, and seminal moments of protest in the early twenty-first century. Course material may include works by Suzanne Césaire, Jane and Paulette Nardal, Aimé Césaire, Frantz Fanon, Achille Mbembé, Françoise Vergès, Pascal Blanchard, Nicolas Bancel and Sandrine Lemaire, Pap Ndiaye, Gaston Kelman, Rokhaya Diallo, Alice Diop, Léonora Miano, and Fabienne and Véronique Kanor. Conducted in French.

Requirements/Evaluation: response papers, midterm paper, TV show, colloquium

Prerequisites: RLFR 201, 202, or 203, or by permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French and Africana Studies concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 226 (D2) RLFR 226 (D1)

Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it focuses on “the shaping of social differences, dynamics
of unequal power, and processes of change” through the lenses of historical colonial legacies, race, gender, citizenship among other questions.

Not offered current academic year

RLFR 228 (S) Introduction to French and Francophone Film

Cross-listings: RLFR 228 COMP 298

Primary Cross-listing

In this course, we watch and examine seminal French and Francophone films. Starting with early French cinema and silent movies of the end of the nineteenth century, we continue with landmark films from the 1920s, ’30s and ’40s. World War II serves as a point of rupture to explore how the advent of Francophone film parallels postcolonial theory. Throughout the semester, we discuss film as spectacle, the emergence of narrative forms, innovative technical practice and their connection to aesthetics. We also look at the role of film in addressing larger questions that include acts of rebellion, decolonization, the radical rejection of societal values, colonialism, dislocation, alienation, French collaboration during the German occupation, and the intersection of history and biography, as well as migration, in between-ness, and transnationalism. Films from the Lumière brothers, Méliès, Guy-Blaché, Vigo, Truffaut, Sembene, Mambety, Malle, Varda, Palcy, Peck, and Sissako. Conducted in French.

Requirements/Evaluation: response papers, midterm paper, TV show, colloquium

Prerequisites: RLFR 201, 202, or 203, or by permission of instructor

Enrollment Limit: 15

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

RLFR 229 Black Outside the U.S.

This course explores multiple ways Black identity evolves, adapts and is experienced differently depending on location. Students analyze Black experience in the U.S., France and Senegal through a range of texts from books and social media to music and film. One key aspect of the course is a study abroad trip to Senegal, which increases cultural awareness through experiential learning. This combination of textual learning with experiential knowledge exemplifies how language, religion, gender, geography, and performance shape one’s racial identity. In the first section of the course, students investigate Black experience in the U.S., focusing on such topics as the one-drop rule, racial profiling and where mixed people fit within Black/White tensions. The second section highlights the politics of language in France. Students explore how words like “Black,” “noir” and “race” have strong political connotations in France and spur both resistance to and alliance with Black American civil rights history. In the third part of the course, students visit Dakar, Senegal, and analyze Blackness through their own observations and encounters. Their trip insights jumpstart the final focus of the course on Senegal. Students investigate the influence of French colonialism on Black identity in Senegal, which makes the two geographical experiences of Blackness very different but still forever linked.

Class Format: seminar, the course includes a required spring break trip to Dakar, Senegal, which is no additional cost to students

Requirements/Evaluation: evaluation will be based on class participation, short weekly reading responses, two 4-5 page papers, a presentation based on the spring break trip, and a final presentation including a short 2-page report

Prerequisites: none

Enrollment Limit: 8

Enrollment Preferences: students who have taken other AFR courses, Francophone speakers and students

Expected Class Size: 8

Grading:

Distributions: (D2)

RLFR 238 (S) Le Moyen Âge en images: Decoding the Middle Ages

This seminar investigates questions of visual culture and textual analysis in the Middle Ages. Although different from today’s multimedia and digital
environment, the Middle Ages boasted its own form of visual culture that will enable us to draw meaningful connections between medieval literature and history and modern-day debates on gender and sexuality. To explore these connections, we will study literary texts from the 12th-16th centuries in modern French translation, making comparisons to bandes dessinées that seek to visualize each text from a twenty-first-century perspective. We will investigate the points of overlap and divergence between the original texts and accompanying comics to ask why and how today’s artists are returning to the literature and culture of the Middle Ages, especially in a time of globalization and technological immersion. For example: How might our findings inform our outlook on international politics, as well as gender-based forms of activism, such as the #MeToo movement, among other forms of social and political engagement? Conducted in French

**Class Format:** Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on discussion in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

**Requirements/Evaluation:** active class participation, essays, online homework assignments, mid-semester presentation: une bande dessinée, and final paper

**Prerequisites:** successful performance in RLFR 106 or another RLFR 200-level course; or by placement test; or permission of the instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** all are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**RLFR 260  (F)  Reading Comics from the French-Speaking World**

**Cross-listings:** COMP 260  RLFR 260

**Primary Cross-listing**

From political cartoons and satire of the 19th century to contemporary graphic novels, the bande dessinée has a long history in the French-speaking world. We will read classics such as Astérix and Tintin, and contemporary BD from France, Québec, Côte d’Ivoire, Morocco, Rwanda, and Guadeloupe to analyze how they tackle subjects such as nation, empire, sexuality, biography, war and human rights. We will pay attention to the visual form and critical theory of the genre. Conducted in French.

**Requirements/Evaluation:** weekly response papers, two short papers, presentation and final research project

**Prerequisites:** RLFR 201, 202, or 203, or by permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** French majors and certificate students, Comparative Literature majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

**RLFR 302  (S)  Monsters of the Renaissance**

Where did monsters appear before comics and blockbusters? Before cinematic ghosts, vampires, and zombies, the French Renaissance popularized the Scythian Lamb, the Monk Fish, the Monopod, the Wind-Eaters from the Island of Ruach, and the mythic giants Gargantua and Pantagruel. The Latin word monstrum referred to a prodigy that did not fit the laws of nature. Thus, the monster not only generated wonder, curiosity, and fear, but both challenged and disrupted normative social values. In this course, students will analyze novels, travel narratives, medical treatises, essays, and epic poems from 16th-century France, when writers, doctors, and travelers developed a critical reflection on monstrosity in order to deal with otherness.
This encompassed fantastic creatures, non-human beings, and natural phenomena, as well as people whose gender, race, religion, and bodies deviated from established norms. In this course, students will think critically about race, gender, and disability, and study the complexities of fear, disgust, wonder, and fascination. Readings to include classical texts by Homer and Ovid, medieval texts like the Legend of Saint George and the Dragon, and Renaissance texts by Francois Rabelais, Jean de Léry, Marguerite de Navarre, Ambroise Paré, Michel de Montaigne, and Agrrippa d’Aubigné.

Requirements/Evaluation: active participation, weekly written responses, midterm exam and final project
Prerequisites: exceptional performance in RLFR 106, or an RLFR 200-level course, or by Placement Test, or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French majors and French certificate students, and those with compelling justification for admission
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)

RLFR 305  (F)  Where We Are & Where We Go: Spaces & Places of Contemporary France
How do people in France give meaning to the spaces they inhabit or move through? What does it mean to be from "here" or "there"? Through contemporary French literature and cultural analysis, we will explore these questions in the urban landscapes of major French cities, including Lyon, Marseilles, Nantes, and Angoulême. We will focus on literary representations of the home, the street, the park, the grocery store, and the train, and discuss the ways videos, press articles, photographs, and websites depict neighborhoods, festivals, and street theater. We will also examine a variety of theories that will help us conceptualize urban space and interpret these literary and cultural texts on city life in contemporary France. Readings to include texts by Annie Ernaux, Patrick Modiano, Leïla Sebbar, Didier van Cauwelaert, Yasmina Reza, Jean Rolin, Marie Darrieussecq, and Xavier Houssin. Conducted in French.

Requirements/Evaluation: class participation, several short essays (1-2 pages), midterm essay (5 pages), digital mapping project, and final oral presentation (based on midterm)
Prerequisites: strong performance in RLFR 106 or 107; a RLFR 200-level course; another RLFR 300-level course; or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French majors & certificate students; those with compelling justification for admission; seniors returning from study abroad (Francophone countries) particularly welcome
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option

RLFR 309  (F)  Contemporary Short Stories from North Africa
Cross-listings: AFR 307  RLFR 309
Primary Cross-listing
Short stories are the vibrant center of the literary landscape in North Africa today. Written in French, Arabic and sometimes Amazigh languages, short stories provide timely interventions in political and social discourse. In this course, we will read short stories that use humor and satire to address the effects of globalization on local communities, that experiment with language to portray war and revolution, and that seek to create a new space for the discussion of gender. We will also analyze films, sociological texts and Moroccan, Algerian and Tunisian online newspapers in order to explore contemporary transformations of life in North Africa. Readings by Maissa Bey, Abdelfattah Kilito, Zeina Tabi, Mohamed Zafzaf, Ahmed Bouzfour, Soumaya Zahy and Foudar Laroui among others. Conducted in French.

Class Format: discussion
Requirements/Evaluation: active class participation, weekly response papers, two short papers, an oral presentation and a final paper
Prerequisites: RLFR 201, 202 or 203 or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French majors and those with compelling justification for admission
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

RLFR 313 (S) Tropical Ecologies: Francophone Caribbean Literature and the Environment (DPE)
Cross-listings: RLFR 313 ENVI 311

Primary Cross-listing

The lushness of the mangroves, the flora and fauna of tropical landscapes, the intricacy of the rhizome, the flow of great rivers, the crashing waves of the Atlantic, the heights of mountainous lands, and expanse of the plateau--the natural world is an important site of Caribbean art in general and, more specifically, the francophone Caribbean novel of the 20th and 21st centuries. Applying eco-criticism to the field of francophone Caribbean literature, the goal of this class is to examine the ways that fiction explores the relationship between human activity and the environment. How does the novel inhabit Caribbean ecologies and topographies? How does it represent nature? In what ways do Caribbean texts meditate on nature and culture together or against one another? As the earthquake in Haiti demonstrated in 2010 with calamitous force, and the cycles of Caribbean hurricanes have shown over the years, natural disaster is also a political crisis. In view of this, we will also consider the legacies of slavery and colonialism in terms of class, gender and race politics. This investigation of the dynamics of natural and cultural phenomena will also have a theoretical frame rooted in critical texts of Caribbean of literary and political movements such as Indigenisme, Négritude, and Créolité. Conducted in French.

Class Format: This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via Zoom multiple times per week, with an emphasis on discussion and small group work. Students are also required to attend a monthly colloquium featuring renowned Caribbean scholars and participate in online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: Students will be required to submit four 2-page position papers that incorporate critical readings with analysis of the books being read in their entirety; each student will also be responsible for making a twenty-five minute oral presentation on a critical/theoretical area related to class readings and discussion; the semester will conclude with a 6-8 page research paper to include footnotes and a bibliography. Attendance is mandatory and active, and informed class participation is required of all students. In addition, students are asked to come up with discussion questions three times throughout the semester.

Prerequisites: Successful performance in RLFR 105 or 106; or a previous RLFR 200-level or 300-level course; or by placement test; or permission of the instructor.

Enrollment Limit: 12

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 313 (D1) ENVI 311 (D1)

Difference, Power, and Equity Notes: As the course description show, this course critically examines difference, power, and equity in the Francophone Caribbean. The content focuses on race and ethnicity, slavery and colonialism, ecology and environmental disaster, and their effects on Caribbean histories, peoples, and cultures. The course teaches students how to critically investigate racial, cultural, and environmental in/justice(s), through texts, films, discussion, debate, and writing.

Spring 2021

RLFR 315 (F) Nature in Crisis: The Classification Craze and The Rise of Museums
Cross-listings: RLFR 315 ENVI 314
Primary Cross-listing

This course examines how understandings of nature evolved dramatically (and at times unsettlingly) from the 17th through the early 20th centuries and how this instability prompted a desire to classify and control natural phenomena. To analyze these issues, we will likewise consider the rise of modern museums, as well as the accompanying acts of classification and curation. We will consider how literary and philosophical texts from the aforementioned time periods depict nature, how real-world interactions with nature led to the creation of (illustrated) taxonomies, how colonization inflected notions of the natural world and also museum exhibits, and finally, how the cabinet of curiosities and later, the museum, provided a space in which to display and analyze nature's more unusual treasures. As part of our explorations, we will build a virtual exhibit of our own to reflect our understanding of nature today and our engagement with concepts of nature from previous eras. Conducted in French. Counts as an Envi Humanities Elective for the Envi Concentration.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on discussion in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: participation, online homework, essays, mid-semester presentation, final class project (virtual exhibit)

Prerequisites: exceptional performance in RLFR 106, or an RLFR 200-level course; or by placement test; or permission of the instructor

Enrollment Limit: 12

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

RLFR 316 (S) Paris on Fire: Incendiary Voices from the City of Light (1830-2015)

Cross-listings: WGSS 315  RLFR 316

Primary Cross-listing

During the 1830s, Balzac described Paris as a "surprising assemblage of movements, machines, and ideas, a city of one hundred thousand novels, the head of the world," but also characterized the French capital as a "land of contrasts," a "monstrous wonder," a "moral sewer." Similarly, writers from Hugo to Zola have simultaneously celebrated Parisian elegance and condemned the appalling misery of Paris's urban poor. Since 1889, Paris has been feted as the "City of Light" for its Enlightenment legacy, its Eiffel Tower modernity, and its luminous urban energy, captured in countless paintings, photographs, and film. However, Paris is also the historical site of revolution, resistance, and riots. From revolutionary revolt (1830, 1848, 1871), to wartime resistance (1870, 1914-18, 1940-44), to reformist and race riots (1968 and 2005), Paris has repetitively sparked with incendiary passion and political protest. As fires raged during the riots in 2005, many heard the echo of Hitler's ominous 1944 question, "Is Paris burning?" and asked: why was Paris burning again at the dawn of the twenty-first century? And following the recent terrorist attacks in Paris in 2015, many wonder what lies ahead for the City of Light. To answer these questions, we will examine the social, political, and literary landscape of Paris during the nineteenth and twentieth centuries, from urbanization and modernization, to occupation and liberation, to immigration and globalization. Readings to include poetry, short stories, and novels by Hugo, Balzac, Baudelaire, Maupassant, Verne, Zola, Apollinaire, Colette, Duras, Perec, Rochefort, and Charef. Films to include works by Clair, Truffaut, Godard, Minnelli, Clément, Leouch, Luhrmann, Kassovitz, Besson, and Jeunet. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers

Prerequisites: strong performance in RLFR 106 or 107; a RLFR 200-level course; another RLFR 300-level course; or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French majors and certificate students; Women's, Gender, and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 20
RLFR 412  (F)  Senior Seminar: Nineteenth-Century French Novel: Desperate Housewives and Extreme Makeovers

Cross-listings:  WGSS 408  RLFR 412

Primary Cross-listing

In 1834, Balzac wrote that "Paris is a veritable ocean. Sound it: you will never know its depth." The same can be said of the French nineteenth-century novel and its boundless ability to echo the past and illuminate the present. From the Romanticism of Stendhal and Hugo, and the Realism of Balzac and Flaubert, to the Naturalism of Zola and Maupassant, the novel became a forum for examining illicit sexuality, institutional misogyny, social injustice, criminal passions, revolutionary struggles, and Parisian pleasures in nineteenth-century France. Characters such as the imprisoned housewife Emma Bovary, the reluctant revolutionary Jean Valjean, the social-climbing lover Julien Sorel, the ambitious undergraduate Rastignac, and the domestically-abused Gervaise became synonymous with France's turbulent social and political landscape from the 1830s to the 1880s. And as recent film adaptations make clear, these desperate housewives and extreme makeovers continue to haunt our twenty-first century present.

Reinterpreted by such actors as Gérard Depardieu, Isabelle Huppert, Uma Thurman, Claire Danes, and Jennifer Aniston, the nineteenth-century novel continues to sound out the scandalous and sensational depths of our own century. Readings to include novels by Balzac, Stendhal, Hugo, Flaubert, Maupassant, Zola. Films to include adaptations by Clément, Berri, August, Arreta, Lelouch, Chabrol. Conducted in French.

Requirements/Evaluation:  active class participation, midterm exam, and two to three papers

Prerequisites:  a 200-level or 300-level RLFR literature course at Williams; advanced coursework during study abroad; or by permission of the instructor

Enrollment Limit:  16

Enrollment Preferences:  French majors and certificate students; Women's, Gender, and Sexuality Studies majors; Comparative Literature majors; and those with compelling justification for admission

Not offered current academic year

RLFR 414  (S)  Senior Seminar: Coming of Age: French and Francophone Childhood and Adolescent Film  (DPE)

Cross-listings:  RLFR 414  COMP 414

Primary Cross-listing

Like the bildungsroman in literature, the coming of age story is a genre in itself in cinema. In this senior seminar, we will watch, discuss, and analyze French and Francophone childhood and adolescent narrative films whose protagonists bring into focus larger issues such as racial discrimination, class, gender, sexual identity, social mobility, repression from the state, regime change, delinquency, justice, bereavement, and human trafficking. We will watch seminal films by Euzhan Palcy, the Dardennes brothers, Céline Sciamma, Férid Boughédir, François Truffaut, Michel Ocelot, Claude Pinoteau, Abdellatif Kéchiche, Laurent Cantet, and Raoul Peck.

Requirements/Evaluation:  three, three-page response papers; thesis statement, methodology, and works cited list on one page; one script of a video essay

Prerequisites:  200-level RLFR courses

Enrollment Limit:  19

Enrollment Preferences:  French and Comparative Literature majors and certificate students

Expected Class Size:  10

Grading:  yes pass/fail option,  no fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 414 (D1) COMP 414 (D1)

Difference, Power, and Equity Notes: This course qualifies for a Difference, Power, and Equity requirement because the films we focus on racial inequality, class, gender, sexual identity, post slavery society in the Caribbean, lack of social mobility, repression from the state, regime change, delinquency, justice, bereavement, and human trafficking.

Not offered current academic year

RLFR 416  (S)  Liberté, Égalité, Fraternité? Questioning Inclusion in French Literature and Culture  (DPE)

"Liberté, Égalité, Fraternité" is the national motto of France and of the Republic of Haïti. It finds its origin in the French Revolution but was institutionalized as the official symbol of the Republic in 1880. In this course, we will study literary texts and historical documents to explore these three terms, their cultural and philosophical meaning, their institutional definitions and their application in French society. Who gets to be free throughout French history? If equality is a Republican principle, what about equity? Could fraternity be replaced by a more inclusive term referring to more than one gender? Readings will include texts of multiple genres from the 16th to the 21st century addressing class, race and gender (Michel de Montaigne, Marie de Gournay, Voltaire, Montesquieu, Victor Hugo, Aimé Césaire, Léonora Miano, Paul B. Preciado), one short film, as well as other historical documents such as the "Code Noir," the "Déclaration des droits de la Femme et de la Citoyenne," the "Décret d'Abolition de l'Esclavage" and the "Constitution" of the Fifth Republic.

Class Format: Remote. This will be a remote course available to all students, whether they are on campus or completing coursework 100% remotely. We will convene synchronously via web-conferencing multiple times per week, with an emphasis on discussion in small groups. There will be many opportunities for all course members to interact via a series of varied online activities both during and in-between our synchronous sessions.

Requirements/Evaluation: Active participation, weekly readings, weekly posts on GLOW, weekly audio recordings, one presentation of a visual document (narrated PowerPoint), multiple steps towards final project: recording a podcast in French [this project, as well as the rest of the course, will take into account accessibility needs and can be modified accordingly].

Prerequisites: Any 200-level or 300-level RLFR literature course at Williams; advanced coursework during study abroad; or by permission of the instructor

Enrollment Limit: 14

Enrollment Preferences: French majors and certificate students in their senior year; if overenrolled: statement of interest required.

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions:  (D1)  (DPE)

Difference, Power, and Equity Notes: This course addresses the discrepancy between the values promoted by the national French motto and their actual application in French society throughout history. Students will investigate how inclusion within the French nation varies according to race, class, gender, sexuality and ability. They will explore the history of French Republican concepts of inclusion such as universalism and "laïcité" as well as their divisive and excluding potential.

RLFR 511  (F) Intensive French Grammar and Translation
This course is designed to offer students a thorough and systematic review of sentence structures and grammar to develop a reading knowledge of French. Through this intensive study, students will learn to decipher the subtleties of the written language, and as they become more confident they will start translating a variety of short excerpts. Students are also expected to learn and develop a wide lexical range centered on art history and criticism, but not limited to it.

**Class Format:**  classes meet twice weekly and are conducted in English

**Requirements/Evaluation:**  class participation, papers, a midterm, and a final examination

**Prerequisites:**  a strong interest and need to learn French

**Enrollment Preferences:**  although this course is to serve the needs of students enrolled in the Graduate Program in the History of Art, undergraduates may enroll by permission of the instructor

**Grading:**  pass/fail option only

**Distributions:**  (D1)

Fall 2020
LEC Section: R1  TR 8:30 am - 9:45 am  Pramila Kolekar

RLFR 512  (S) Readings in French Art History and Criticism
This course is designed to provide Graduate Program students and interested others with knowledge of French acquired through translation and interpretation. The core of this course is based on the reading and translating of a variety of critical works covering different periods and genres in the field of art history. The material read will be analyzed in form and content, translated or summarized, in order to develop the skills and understand the techniques necessary for reading French accurately. Grammar will be reviewed in context.
**Requirements/Evaluation:** evaluation is based on class participation, papers, a midterm, and a final examination

**Prerequisites:** RLFR 511 or permission of instructor; undergraduates are welcome with permission of instructor

**Grading:** pass/fail option only

**Distributions:** (D1)

**RLFR 88 (W) French Sustaining Program**

Students registered for RLFR 101-102 are required to attend and pass the French Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program—check your class schedule to confirm enrollment.

**Grading:** pass/fail option only

Not offered current academic year

---

**RLFR 99 (W) Independent Study: French**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year
Visiting Assistant Professor: M. Monserrati

The study of Italian in the target language encourages students to gain a deep appreciation of the language, culture and literature through active participation and meaningful experience with the culture on its own terms. Italian courses at Williams are therefore conducted exclusively in Italian in order to enhance and reinforce the emotive and cognitive involvement of the students as they are introduced to the Italian world-view in a lively and natural manner. Students desirous of more contact with Italian are encouraged to attend the weekly Italian Table in the designated college dining hall. More information can be found at cfllc.williams.edu/italian.

**RLIT 101  (F)  Elementary Italian**

This course is designed for beginners. Its goal is to give students the opportunity to develop a basic oral/aural and reading/writing proficiency in Italian. During the semester you will be given training in grammar, pronunciation, aural-oral skills, reading and writing in Italian through the study of a wide range of communication patterns and real-life situations. At the end of the semester you will be able to use Italian to talk about yourself, to describe your family, your town, your friends and to discuss about your interests. You will also be able to talk in Italian about present and past events and to converse with your peers about your daily activities. Your listening skills will allow you to understand short dialogues and conversations, to watch clips from mainstream Italian films, and to write short compositions. *Conducted entirely in Italian.* This will be an online course, with a mix of synchronous and asynchronous elements. Students will meet twice a week with me and once a week with the TA in small groups of 4-6 students.

**Class Format:** five hours a week with the professor

**Requirements/Evaluation:** participation, homework, compositions, quizzes, an oral exam, oral presentation, midterm and final exams

**Prerequisites:** none; not open to those who have had one year or more of high school Italian

**Enrollment Limit:** 12

**Enrollment Preferences:** instructor will prioritize on the basis of study abroad plans and year at Williams

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** students registered for RLIT 101-102 are required to attend and pass the sustaining program during Winter Study; credit granted only if both semesters (RLIT 101 and 102) are taken

**Distributions:** (D1)

**Fall 2020**

SEM Section: R1    M-F 1:30 pm - 2:20 pm    Michele Monserrati

**RLIT 102  (S)  Elementary Italian**

This course is designed for beginners who have already some basic knowledge of Italian. Its goal is to give students the opportunity to review and expand their oral/aural and reading/writing proficiency in Italian. During the semester you will continue to learn grammar, vocabulary, pronunciation, while improving your aural-oral skills, reading and writing in Italian. To achieve these goals, you will be presented with a wide range of communication patterns and real-life situations. At the end of the semester you will be able to use Italian to talk about yourself, your life, to describe your town and its history, your dreams and interests, and to express your opinion on complex topics. You will also be able to talk in Italian about present, past, and future events and to express doubts and hopes. You will be able to understand more complex conversations and clips from mainstream Italian films, and to write longer compositions. *Conducted entirely in Italian.*

**Class Format:** This will be an hybrid course. Students will meet four times a week with me and once a week with the TA in small groups of 2-3 students.

**Requirements/Evaluation:** participation, homework, compositions, quizzes, an oral exam, oral presentation, midterm and final exams

**Prerequisites:** RLIT 101; not open to those who have had one year or more of high school Italian
Enrollment Limit: 20
Enrollment Preferences: instructor will prioritize on the basis of study abroad plans and year at Williams
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Unit Notes: students registered for RLIT 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (RLIT 101 and 102) are taken
Distributions: (D1)

Spring 2021
SEM Section: H1 M-F 10:00 am - 10:50 am Michele Monserrati

RLIT 105 (F) Pathway to Proficiency

The course taught in Italian aims primarily at fine-tuning the student's speaking, reading and writing ability, while providing an introduction to the formal study of Italian culture and society through the analysis of short literary texts, articles, films, and plays. This course will also offer an exploration of Italy's lesser-known cultural and natural sites in an attempt to highlight what Italy has to offer in terms of eco-friendly and sustainable tourism and cultural diversity. In the wake of the Black Lives Matter's quest for social justice, a part of this course will be dedicated to Italian black writers and artists to explore how the Italian colonial past is affecting Italy's racial discourse and the construction of its national identity. Students will review and expand the grammar structures learned in the previous semesters to achieve a higher level of fluency and sophistication in language production.

Italian 105 is intended for study-abroad returnees and other advanced speakers; students who have been particularly successful in Italian 101-102 are also encouraged to enroll. This will be an online course, with a mix of synchronous and asynchronous elements. Students will meet twice a week in small groups of 4-6 students. Students will have the option to practice oral communication through 30-minute weekly conversations with native speakers available on the online platform Talkabroad.

Requirements/Evaluation: oral presentations, midterm and final exams, tests, compositions, participation
Prerequisites: RLIT 101/102 or by permission of the instructor
Enrollment Limit: 12
Enrollment Preferences: Students from 101/102 classes, as well as study-abroad returnees.
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Fall 2020
SEM Section: R1 MWF 12:00 pm - 12:50 pm Michele Monserrati

Winter Study -----------------------------------------------

RLIT 88 (W) Italian Sustaining Program

Students registered for RLIT 101-102 are required to attend and pass the Italian Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program. Check your class schedule to confirm enrollment.

Grading: pass/fail option only
Not offered current academic year

RLIT 99 (W) Independent Study: Italian

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
THE MAJOR IN SPANISH

Students who major in Spanish can expect to acquire linguistic fluency along with in-depth knowledge of the cultures of Spain and Latin America. Through the study of the major writers and historical events of the Spanish-speaking world, our program offers training in literary analysis and linguistic expression, as well as a deep appreciation of Hispanic civilizations.

The major consists of nine courses above the 102 level. In exceptional circumstances, the Department may decide to accept RLSP 101-102 for the Spanish major. One of the nine courses must be the 400-level senior seminar taken during the student’s final year at the College; another must be a course that substantially focuses on literature or cultural texts produced before 1800. Students entering at the 200-level may, with the permission of the Department, choose as part of their major program one course not conducted in Spanish but offered by faculty in Romance Languages or another Department or Program, such as Latino/a Studies, Comparative Literature, History, etc., provided that the subject matter relate to and broaden their study of Spanish. Students entering at a very advanced level may, in some cases and with the permission of the Department, include two such courses in their major program. Working with a member of the Spanish faculty, the student will formulate a curricular plan that will ensure balance and coherence in courses taken prior to declaring a major in Spanish. This is especially imperative for students who are planning to spend a part or all of their junior year in Latin America or Spain.

THE DEGREE WITH HONORS IN SPANISH

Students majoring in Spanish may apply to be admitted to the Honors Program in Spanish upon demonstrating the following: (1) fluency of spoken and written language; (2) potential for successful independent research, as demonstrated by strong performance in advanced-level coursework; (3) interest and motivation; and (4) overall quality and feasibility of the proposal. Two routes are available to those who wish to apply for the degree with honors.

The first of these involves the writing of a senior thesis.

By May 15th of their junior year, candidates will have found a thesis advisor, and given the Department a three- to five-page proposal and a preliminary bibliography. (In some cases, and upon consultation with the Department, candidates will have the option to choose a second reader in addition to their primary advisor; for example, when the thesis is interdisciplinary enough in nature that it requires the expertise of an additional reader.

This proposal will be discussed by the Department; by June 1st, the candidate will be informed whether they can proceed with the thesis, and if so, what changes need to be made to the focus and scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and reading.

Upon their return to Williams, candidates will devote to their theses two semesters of independent study (beyond the nine courses required for the major) and the winter study period of their senior year (493-W3-494). The thesis will be written in Spanish and will usually not be shorter than fifty pages. By the end of the Fall semester, students will normally have a clear outline of the project, have done substantial research, and produced the draft of at least the first half of the project. During January this draft will be suitably rewritten and edited with a view to a final version, while the candidates will also begin work on remaining chapters.

Candidates will submit what they have written to the department on the last day of Winter Study.

On the Tuesday of the first week of the spring semester candidates will make a presentation of the project at a departmental colloquium in Spanish. The thesis will be promptly discussed and evaluated to determine whether or not the student should continue in the honors program. The second semester of independent thesis work will be spent writing more chapters, as well as revising, rewriting, and polishing the project where necessary. The completed thesis in its final form will be due on April 25th. At the end of the Spring term, the student will present and defend the final project before members of the Department and others by invitation. The grade will be awarded once members of the Department have consulted after the defense.

The second route is a group of three clearly related courses (offered by the Department of Romance Languages or by other departments, such as History, Art, Philosophy, English, etc.), only one of which may be counted in the nine courses comprising the major. One of the courses will be an Independent Study (plus senior year WSP 30) in the spring of the senior year, at the end of which the student will write an essay that synthesizes the content of the three related courses. Students may apply for this route by November 2 of the senior year.
In the case of both routes to the degree with honors, the department’s recommendation for graduation with honors will be based on the originality and thoroughness of the finished project.

THE CERTIFICATE IN SPANISH

The Certificate in Spanish Language and Culture consists of a sequence of seven courses for which the student must earn a cumulative grade average of B or higher. Those so interested should express their intent to the chair of the department by March 1 or earlier.

For students with no prior Spanish background, the course sequence will consist of Spanish 101-102, Spanish 103 and 104, and three courses in Spanish above the 104 level, with at least one of these courses at the 200-level or higher taken at Williams. If the student starts out the sequence at Spanish 103, in addition to the three courses in Spanish beyond the 104 level (including a 200-level course or higher), two electives may be taken in other departments. One elective should be in Spanish or Latin-American cultural history (art, literature, drama, music) and the other in Spanish or Latin-American intellectual, political, or social history. Spanish 200, 201, or 208 can be counted for the elective requirement.

Electives may be considered from a variety of departments and programs. However, students should consult with the chair of Romance Languages before making any enrollment decisions.

PLACEMENT

Students come to study Spanish at Williams with a wide range of backgrounds and prior experiences. Some will have studied Spanish for many years in high school and earlier. Others will have grown up speaking Spanish with family and friends but had little opportunity to study the language at school. Others have lived in Spanish-speaking countries or otherwise studied in immersive contexts. And for others, Spanish is a brand-new language that they are eager to begin learning.

Whatever your previous experience with Spanish, ¡Bienvenida! ¡Bienvenido! We are glad to have you with us. In order to figure out the most appropriate point of entry, we ask that all students who wish to begin their study of Spanish in the new academic year take the department’s placement exam when it is offered during First Days. The only students who don’t need to take the placement exam are those who qualify as “true beginners,” those with no previous experience of Spanish and for whom 101-102 is obviously the right choice. Everyone else should take the placement test. After you do, the Registrar’s Office will notify you of the level and/or course the Spanish faculty have recommended for you. You should free to reach out to the department chair, your recommended instructor, or any other faculty member if you have questions or concerns about your placement.

STUDY ABROAD

Spanish majors, as well as non-majors interested in further exposure to the language and the culture, are strongly encouraged to study in Spain or Latin America for either a semester or a full year. We recommend that you start planning for study abroad as early as possible, and that you speak to our faculty early on to go over the many possible destinations and programs available to you. In recent years, Williams students have studied in such varied and far-flung locations as Buenos Aires, Havana, Lima, Barcelona, and Madrid. Those who are interested in Madrid may wish to consider the Hamilton College program, with which we maintain consortial ties. Credit for up to four courses can be granted at the discretion of the Department for study overseas. Those four courses count towards the certificate or the major in Spanish. Students interested in study abroad should consult with a member of the department at their earliest convenience.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, provisional approval can be granted (students should be sure to contact the department for details).

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments. If it is a program we are familiar with, the course title and description are enough. If it is a new program/new type of course we need all the available materials (syllabus, assignments, etc.).

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes. Four maximum.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes. They have to be courses that focus on language, culture, history, or politics of the target language/culture.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. Our Senior Seminars are required for the major.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

This hardly ever happens but could happen if a student doesn’t seek out pre-approval from a faculty member.

RLSP 101 (F) Elementary Spanish
This course focuses on grammar, elementary composition, practice in conversation, and reading of easy modern prose. It is taught by the intensive oral method.

Class Format: Remote, and synchronous. Special attention will be given to creating an interactive space for all students.

Requirements/Evaluation: participation, regular homework exercises, quizzes, a midterm, and a final exam.

Prerequisites: This course is for students who have no previous background in Spanish.

Enrollment Limit: 15

Enrollment Preferences: None. However students will two or more years of High School Spanish are normally not eligible.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: Textbook.

Distributions: (D1)

Fall 2020

SEM Section: R1 Cancelled
SEM Section: R2 M-F 10:00 am - 10:50 am Leyla Rouhi

RLSP 102 (S) Elementary Spanish
This course focuses on grammar, elementary composition, practice in conversation, and reading of easy modern prose. It is taught by the intensive oral method.

Class Format: The class meets five hours a week; students will complete workbook and lab exercises weekly.

Requirements/Evaluation: Daily preparation and participation, regular homework assignments, and frequent tests

Prerequisites: RLSP 101; this course is for students who have studied less than two years of Spanish in secondary school

Enrollment Limit: 14

Enrollment Preferences: Students who have completed RLSP 101 in the Fall of 2020.

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Unit Notes: Students in RLSP 101-102 are normally required to attend and pass the sustaining program during the winter study period only if both semesters (RLSP 101 and 102) are taken. In 2020-21 WS activities are highly encouraged and announced via GLOW.

Distributions: (D1)

Spring 2021

LEC Section: R1 M-F 10:00 am - 10:50 am Soledad Fox

RLSP 103 (F) Intensive Intermediate Spanish
This course is a continuation of Spanish 101-102. It is designed to help students improve their proficiency in each of the major skill-groups (listening, speaking, reading and writing) while providing an introduction to the vibrant cultures of the Spanish-speaking world. For fall 2020, RLSP 103 will be a fully-online experience. Students can expect to meet with their professor, teaching assistant and classmates in varying combinations for four hours
each week. You’ll take in feature films, documentaries and shorts, read the news in online periodicals, and tap into your own creativity and critical reasoning skills. Use of a textbook and workbook will support your learning. All assignments are designed to increase vocabulary and improve your ability to handle daily life in a Spanish-speaking country, to express your views on complex subjects such as art and politics, and to increase your knowledge of the cultural traditions of Latin America and Spain. This course provides linguistic training with an emphasis on the variety of Spanish as spoken in Latin America, Spain and the US; it will help to prepare students for further literary and cultural studies as well as provide skills that are increasingly essential in fields such as medicine, law, and education. Conducted in Spanish.

Class Format: Students can expect to spend approximately four hours per week in active on-line engagement with their instructor, TA and classmates. Some of these meetings will take place during the scheduled class hours; others will be added at agreed-upon times once the enrollment is fully established.

Requirements/Evaluation: Regular attendance and active participation in a variety of on-line meetings and activities, as well as workbook exercises and weekly compositions, quizzes, midterm and final exams (oral and written).

Prerequisites: RLSP 101-102 or by Spanish placement exam

Enrollment Limit: 12

Enrollment Preferences: If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Fall 2020

SEM Section: R1 MWF 9:20 am - 10:10 am Jennifer L. French
SEM Section: R2 MWF 10:40 am - 11:30 am Jennifer L. French

RLSP 104 (S) Upper Intermediate Spanish

This course is a continuation of Spanish 103. It focuses on the review of grammar as well as on refining writing and speaking skills. A variety of written and audiovisual journalistic media will enable students to deepen their understanding of Hispanic cultures. The course is taught remotely. There will be two different sections of this course: one will be taught by Professor Carlos Macías Prieto, and the second one by Professor Carolina Melgarejo-Torres. Each section will have a maximum number of 12 students.

Class Format: Students will spend 4 hours per week in class, in active on-line engagement with their Professor, Teaching Associate (TA), and classmates. In addition to the regular MWF classes with their Professor, students will meet for one additional hour per week with the TA. As will be explained in the course syllabus and at the first class meeting, this additional hour with the TA will take place at a time (to be decided during the first weeks of class) that is mutually beneficial for the TA and students.

Requirements/Evaluation: weekly 1- to 2-page compositions, regularity of class participation, oral reports, frequent quizzes, a midterm and a final exam

Prerequisites: RLSP 103 or by Spanish placement exam

Enrollment Limit: 24

Enrollment Preferences: If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

Expected Class Size: 24

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

Spring 2021

LEC Section: R1 MWF 8:15 am - 9:30 am Carolina Melgarejo-Torres
LEC Section: R2 MWF 12:00 pm - 12:50 pm Carlos Macias Prieto

RLSP 105 (F) Advanced Grammar, Composition, Conversation
In this course students will refine their knowledge of Spanish grammar and vocabulary towards further fluency in speaking and writing. The focus of the class is grammar through active engagement with relevant cultural, literary, and political materials centered for the most part on Spain. Students will produce regular grammar and composition exercises as well as oral reports.

**Class Format:** students may participate in TA sessions once a week.

**Requirements/Evaluation:** regular grammar and composition assignments, a mid-term, a final exam, occasional quizzes, oral reports; active participation and regular attendance required.

**Prerequisites:** RLSP 104, or results of the Williams College Placement Test, or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** first-year students, potential majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**RLSP 107 (F) Advanced Grammar and Conversation**

How is Spanish language relevant to my academic field? What linguistic and cultural resources should I acquire to effectively communicate my academic interests in this language? How do I prepare for a professional presentation in Spanish? What are the limitations of the academic language at the moment of interacting with people in the community? The Advanced Grammar course 107 will provide cultural and linguistic resources to address the questions above and other common concerns that students have around their proficiency and skills to communicate effectively. This course focuses on helping students to advance their cultural and communicative skills in Spanish, as they share their professional interests with other students. The class will discuss four general topics -medicine, history and human rights, art, and environmental issues-, which will create the context for students to conduct oral presentations and activities around their own academic fields. Another important emphasis of the course will be to connect students’ professional interests to current issues of social justice in USA, Latino America and other world countries. To expand their cultural and linguistic knowledge, participants will prepare two different types of oral activities for the class: formal-academic presentations and non-formal activities that use colloquial registers. The RLSP 107 course will require a constant and committed collaboration between participants.

**Class Format:** This course will use Remote Teaching with synchronous and asynchronous classes.

**Requirements/Evaluation:** Regular attendance to our online sessions will be strictly required. Because this course will not have any exams, the evaluation will be based on participation, presentations, weekly activities, written reports and a glossary that students will develop along the semester.

**Prerequisites:** RLSP 104, placement exam results, permission of instructor or Department Chair

**Enrollment Limit:** 12

**Enrollment Preferences:** Spanish majors and certificate students, current and potential.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1)

Carolina Melgarejo-Torres

**RLSP 200 (S) Advanced Grammar and Composition through Literature**

This course is designed for advanced students who wish to further polish and refine their grammatical, lexical, and writing skills in Spanish. The course may be taken immediately after 105, by placement exam results, or even after students have begun to sample the Department's literature and culture offerings at the 200- and 300-level. Classic works of short fiction by celebrated Latin American authors such as Gabriel García Márquez and Julio Cortázar will be discussed; selected Latin American films will be viewed as well. For written and oral assignments: weekly essays, in-class presentations, and language-laboratory activities. **Conducted in Spanish.**
Class Format: In-person. Discussion.

Requirements/Evaluation: a weekly essay based on the stories read in class, written lab exercises, participation in the grammatical and literary discussions, quizzes, a mid-term and a final

Prerequisites: RLSP 105, any course 201+, placement exam or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Sophomore

Expected Class Size: 10-19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Spring 2021

LEC Section: H1  M-F 10:00 am - 10:50 am  Gene H. Bell-Villada

RLSP 201  (F)  The Spanish Labyrinth

How can you learn to separate the stereotypical images of Spain from reality? How can we talk about one "Spain", when the country a complex composite of ancient and diverse cultural remnants mixed with recent influxes of immigrants and separatist movements? How has the vulnerable peninsula survived centuries of violent upheavals and divisiveness; dramatic economic rises and collapses? How has the Covid-19 pandemic affected Spain's health system, demographics, and international economy? This course aims to offer students a strong foundation in Spanish issues, whether they have already spent time abroad, or hope to do so in the future. In this course we will approach Spain by studying examples of its literary and artistic production, from periods of brilliant cultural exchange, and times of censorship, repression, and crisis. Some topics of focus will be the Inquisition, the Civil War, contemporary Spain's obsession with its own recent past, and its uncertain future as it begins to recover from the effects of Covid. Secondary texts will also be provided for historical and socio-political background and reference. Conducted in Spanish.

Class Format: Instruction will be remote.

Requirements/Evaluation: Conducted entirely in Spanish, Active regular participation in class discussions. Each student will give one presentation and, on a separate occasion, also be a discussion leader. Two short writing assignments (2-3 pp) and one final essay (10-12 pp). Remote office hours will be scheduled with individual students at different points in the semester to help each one with questions, approaches to homework and class participation, and to go provide additional feedback and practice for writing and oral expression.

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Spanish majors and certificate candidates

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Fall 2020

RLSP 202  (S)  Introduction to the Analysis of Literature in Spanish  (WS)

This course is intended for students who are considering a major in Spanish, including those who have recently completed RLSP 105, 107, or 200. Using a textbook, Aproximaciones al estudio de la literatura hispánica, we will study the fundamentals of genre analysis while reading selected works of prose, poetry and drama from Latin America and Spain. Conducted in Spanish. This course is writing intensive because the techniques of planning, writing, and revising essays will all be extensively discussed and put into practice.

Class Format: This class will be fully remote. Students are expected to be active participants at all scheduled class meetings, which will be used for discussion, collaborative analysis of literature texts, and writing workshops. There will be some additional asynchronous components.

Requirements/Evaluation: assignments will include three 5-page essays, a number of shorter papers, and occasional discussion-leading as well as consistent preparation and class participation

Prerequisites: RLSP 105, 107, 200, 209, or placement exam results indicating readiness for a 200-level course
Enrollment Limit: 12

Enrollment Preferences: first- and second-year students who are considering the major in Spanish

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Our commitment to the formal analysis of literature in Spanish lends itself to a sustained and focused attention to student writing. As we learn to analyze works of literature, we will bring our attention to questions of rhetoric, style and structure to bear on our own writing also. Papers will be "work-shopped" throughout the semester; students will also practice peer-editing in pairs. Students will also receive extensive feedback from the professor with the goal of strategic revision.

Spring 2021

RLSP 203  (F) From Modernismo to El Boom de la Novela

A survey of some of the leading imaginative writers of Ibero America. Readings will begin with the modernista poets and go on to include fiction of Mexico by Rulfo, a wide sampling of verse by Pablo Neruda, and narratives of the "Boom" period by authors such as Borges, Cortázar, Lispector, and García Márquez. Conducted in Spanish.

Class Format: In-person.

Requirements/Evaluation: Response journals, three 6- to 8-page papers, a mid-term and final exam, and class participation.

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Seniors, juniors, and then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RLSP 204  (S) Hispanic/Bilingual Communities in USA: language and identity

"Hispanic/Bilingual Communities in USA: language and identity" is a course for Heritage Learners with two different profiles: those who have acquired Spanish at home and those who have been learning the language at school. Students’ own sense of affective connection with the language through their families will guide our reflection on Spanish as a social component that unifies multiple Hispanic communities in the USA. We will also discuss the dialectal, sociolectal and generational differences between the members of those speaking communities, and the implications of considering these groups as homogenous. The course will address the role that media, institutions and cultural products play in preserving and (re)defining Spanish in the USA. We will review the language and its variation through TV programs, music, magazines, and literature. Heritage Learners already have an important foundation of linguistic knowledge that prepares them for interaction in Spanish. In this course they will be asked to further extend their resources through constant grammar and vocabulary practice. The course requires writing reports and larger texts, and the reading of an important amount of specialized texts in Spanish. Many of the daily activities will require teamwork. The course will meet 2 times per week: M, W, 1 hour 15 minutes per session. Students who have taken Spanish 209 can also register for this course.

Requirements/Evaluation: Evaluation will be based on class participation, daily assignments, essays, projects and one parcial exam.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: sophomores, juniors, majors, or concentrators.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option
Distributions: (D1)

LEC Section: R1   MWF 11:45 am - 1:00 pm   Carolina Melgarejo-Torres

RLSP 205 (F) The Latin-American Novel in Translation (DPE)

Cross-listings: RLSP 205 COMP 205

Primary Cross-listing

A course specifically designed to enable students who have no knowledge of Spanish to read and discover those Latin-American authors who, in the twentieth century, have attracted world-wide attention. Among the texts to be discussed: Borges, Labyrinths; Cortázar, Blow-up and Hopscotch; Lispector, the Hour of the Star lesser works by Fuentes and Puig; and by Nobel Prize-winner Gabriel García Márquez, One Hundred Years of Solitude. Conducted in English

Requirements/Evaluation: class participation, two brief papers, a midterm, and a final exam

Prerequisites: none

Enrollment Limit: 22

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not carry credit for the Spanish major or the certificate

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 205 (D1) COMP 205 (D1)

Difference, Power, and Equity Notes: This course offers students an opportunity to read some major works of fiction that have challenged the "canon" of European and American literature. Through the readings, class members will understand that great literature comes not only from London or Paris, from the U.S. or Russia. Several of these novels, moreover, directly challenge European and Western cultural hegemony and make an implicit claim for the legitimacy of Latin American cultural concerns.

Not offered current academic year

RLSP 206 (S) Latin-American Civilizations

An introduction to the multiple elements constituting Latin-American culture. Class assignments include readings from selected Latin-American essayists and screenings of classic films. Particular focus on the conflict between local and foreign cultural traditions. Areas to be considered: Spanish Catholicism, the influence of European liberalism and U.S. expansion, the Indian and African contribution, and the cultural impact of social revolution in Mexico and Cuba. Conducted in Spanish.

Class Format: In-person

Requirements/Evaluation: two essays on assigned topics, response journals, one oral presentation, active discussion of the ideas and the facts presented in class, a midterm, and a final

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Juniors, sophomores, first-years.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RLSP 209 (F) Spanish for Heritage Speakers
This course is intended for students of Latino/a heritage. It will address the unique needs of students whose knowledge of Spanish comes primarily from informal and family situations rather than a conventional classroom experience. The goal of the course is to build on and expand students’ existing knowledge of Spanish while developing skills for using the language in more formal/academic contexts. This course will be taught remotely.

Requirements/Evaluation: homework, class participation, and a series of communicative projects
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: potential Spanish majors/certificate students and LATS concentrators
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

SEM Section: R1 MWF 12:00 pm - 12:50 pm Carlos Macias Prieto

RLSP 211 (S) A Survey of Spanish Literature from the 11th to the 17th Centuries
This course will introduce the student to some of the major works of Spanish literature from its beginnings through the Golden Age. We will study the historical context in which the works were written as well as the literary history of the periods in question. Students will learn methods of textual analysis through readings of relevant literary criticism. Readings will include selected canonical prose, poetry, and drama of the periods; special emphasis will be given to the myth of the coexistence of three religions in Iberia and the often misguided idea of dividing this literature into the categories of ‘medieval’ and ‘Renaissance’. Conducted in Spanish. This course fulfills the pre-1800 requirement for the Spanish major.

Requirements/Evaluation: evaluation will be based on class participation, short paper assignments, and a final paper
Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
Not offered current academic year

RLSP 214 (S) "Ecologismo": Literature, Culture and the Environment in Latin America (DPE)
Cross-listings: RLSP 214 ENVI 218

Primary Cross-listing
How have Latin American authors and artists responded to environmental concerns, from the logging and rubber booms that threatened the Amazon in the early 20th century to contemporary global warming? How do the realities of Latin American societies—including massive disparities of wealth and poverty; the cultural and political impacts of the region's indigenous populations; and the complex histories of colonialism, dependency and neoliberalism—inform Latin American responses to environmental issues? How does Latin America's environmental imaginary differ from those of the U.S. and Europe? In this course we will explore these issues and more through literature and other cultural texts from Latin America. We will consider short stories and novellas by authors including Horacio Quiroga (Uruguay), Luis Sepúlveda (Chile), Mempo Giardinelli (Argentina), and Ana Cristina Rossi (Costa Rica); poetry by Esthela Calderón (Nicaragua), Juan Carlos Galeano (Colombia), Homero Aridjis (Mexico); the paintings of Tomás Sánchez (Cuba); and feature films as well as shorter documentaries. In Spanish.

Requirements/Evaluation: brief response papers, as well as three 5- to 7-page essays based on close-readings of literary and cultural texts
Prerequisites: RLSP 105, placement exam results, or permission of the instructor
Enrollment Limit: 19
Enrollment Preferences: Spanish and Environmental Studies majors
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
RLSP 214 (D1) ENVI 218 (D1)

**Difference, Power, and Equity Notes:** This course is inspired by and organized around Arturo Escobar's notion of "the political ecology of difference:" our work throughout the semester aims to understand the myriad ways in which "difference"—economic, ecological, and cultural— informs Latin American responses to environmental degradation.

*Not offered current academic year*

---

**RLSP 216 (S) Latin American Environmental Literature and Cultural Production** (DPE)

**Cross-listings:** RLSP 216 ENVI 233

**Primary Cross-listing**

This foundational course explores a wide array of ecocultural texts from Latin America, ranging from accounts of Europeans' first arrival to the crisis of mass extinction and anthropogenic climate change today. In between we consider an eclectic mix of styles and genres, including poetry, essays, prose fiction and speeches produced by a varied group of cultural agents. We read classic texts by canonical figures (José Martí's "Our América," the *Popol Vuh*), which take on new meaning in the current context, as well as some little-known gems of ecological consciousness. Readings and discussion trace connections between environmental thought and the region's long and multi-layered history of colonialism, and students are encouraged to develop their own positions by responding to some of the leading theoretical discourses that animate the field of Latin American ecocriticism: decolonial and creole ecologies, ecofeminism, transcultural materialism, and postdevelopment. Conducted in English.

**Class Format:** This class will be fully remote. Students are expected to be active participants at all scheduled class meetings; there may be some additional asynchronous activities.

**Requirements/Evaluation:** Students will write and revise three formal essays over the course of the semester. There will also be shorter written assignments and intermittent discussion-leading.

**Prerequisites:** None.

**Enrollment Limit:** 15

**Enrollment Preferences:** Preference given to students majoring in Spanish or Environmental Studies.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 216 (D1) ENVI 233 (D1)

**Difference, Power, and Equity Notes:** This course meets the goals of the DPE requirement in that it focalizes the current environmental crisis through the long history of political, economic and cultural struggles in Latin America. We examine the genealogies of environmental culture, tracing the emergence of ecofeminism, for example, through generations of writers. We also examine the phenomenon of creolization and its relationship to the environmental cultures of Latin America's originary peoples.

**RLSP 217 (S) Love in Early Modern Spain**

The principal focus of this course is the Spanish "comedia" of the seventeenth century (with supplemental readings from prose and poetry) to provide us with a dynamic and critical understanding of the theme of love as constructed by the greatest dramatists and authors of the period. Works by Lope de Vega, Tirso de Molina, Calderón, San Juan de la Cruz, Santa Teresa, María de Zayas, and others will show us how the theme was treated from diverse perspectives, and how it related to the social and political context of the time. *Conducted in Spanish.*

**Class Format:** This class will be taught remotely but synchronously.

**Requirements/Evaluation:** Active and meaningful participation, short assignments, one final project.

**Prerequisites:** RLSP 105 or 200, or results of Williams College Placement Exam, or permission of instructor

**Enrollment Limit:** 22

**Enrollment Preferences:** Spanish and Comparative Literature majors

**Expected Class Size:** 20

RLSP 220 (S) Women on the Verge
Cross-listings: RLSP 220 WGSS 222

Primary Cross-listing
From the early twentieth century to the present day, the radical changes in the lives of Spanish women have clearly reflected the tug of war between progress and tradition in recent Spanish history. The dramatic upheavals in Spanish politics have marked and transformed the lives of women to such a great extent that one can often gauge the political and social climate of any given historical moment by considering how the role of women was defined by the law, the Catholic church, education, and other social and political institutions. Using literary and historical texts as well as films and graphic materials, this course will look at the transformations in the public and private lives of Spanish women during the following periods: the turn of the century, the Second Republic, the Spanish Civil War, the Franco years, and the transition to democracy.

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Not offered current academic year

RLSP 228 (S) Velázquez, Goya, and Picasso
Cross-listings: ARTH 228 RLSP 228

Primary Cross-listing
This course will provide an introduction to three major Spanish painters--Velázquez, Goya, and Picasso--who lived and worked, respectively, in the 17th, 18th, 19th and 20th centuries. Though these painters are world famous, they are rarely studied comparatively, and in the context of their Spanish artistic roots. The syllabus will cover the historical and social contexts in which they started working, and how they followed, and departed from, artistic conventions of the time. Through specific paintings, we will consider the historical evolution of the artists' relationship to their patrons and subjects, from the elite status of Velázquez within the royal court, to Goya's dramatic rise with the reigns of Charles III, and Charles IV, and his subsequent exile to France. Picasso was free of royal patronage and also lived in France, yet despite this freedom he remained deeply connected to the themes and concerns of his Spanish artistic predecessors. In addition to key paintings including Velázquez's "Las Meninas" and other royal portraits, Goya's "Maja Desnuda" and his series "The Disasters of War," Picasso's "Guernica," and his own 20th century reinterpretation of "Las Meninas," we will focus on the artists' shared subjects of portraits and war, and consider the following issues: How does the role of the Spanish artist change over the periods covered? How did the artist exercise his freedom whilst under the scrutiny of the court and the Catholic Church? How were these painters' lives and work shaped by key historical events such as the Inquisition, Napoleon's invasion of Spain, or the Spanish Civil War? How does the work of art evolve in its role from private royal commission to public display in museums open to all? We will read short literary pieces from each period, primary materials such as letters and other documents, and historical and critical works. All readings will be in English. Knowledge of Spanish is encouraged, but not required.

Requirements/Evaluation: 3- to 5-page weekly assignment

Prerequisites: none

**RLSP 230  (F) Mexican Literature and Cultural Production  (DPE) (WS)**

This course will offer a survey of the rich and varied cultural production of Mexico, from the pre-Hispanic past to the present. Students will explore a variety of literary genres (pre-Hispanic poetry, creation stories and songs; chronicles of conquest; short works of prose fiction and novels; and modern poetry and essays) as well as other kinds of cultural production within a framework of historical contextualization and formal analysis. The course meets twice per week and it is taught remotely. *Conducted in Spanish.*

Requirements/Evaluation: Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation, active and engaged participation in class discussions.

Prerequisites: RLSP 105, placement exam results, permission of instructor.

Enrollment Limit: 19

Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D1)  (DPE) (WS)

Writing Skills Notes: Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will introduce students to the rich and varied cultural production of Mexico across time and space. It will highlight the often marginalized and neglected intellectual histories of indigenous peoples and other minoritized sectors of Mexican society. As such, students will acquire critical tools to examine and understand the rich and varied cultural production of Mexico.

Fall 2020

SEM Section: R1  TF 1:30 pm - 2:45 pm  Carlos Macias Prieto

**RLSP 251  (F) Somos Sur: US-Mexico-Central American Borderlines  (WS)**

What are borderlands? How have they been created? How do they affect the life of those who cross or are being crossed by these borders? This course focuses on the cultural production that explores US-Mexico-Central American borderlands and the diverse policies and practices that (re)create and (re)image these borders. In consideration of some of the dictatorships in Central America, the NAFTA agreement and post 9/11 policies, as well as war zones and the drug war; we will explore the concepts of citizenship, migration, nationalism, and (in)visibility in its intersection with gender, racial positioning, and social class. Drawing upon cultural studies, feminist theory, history, and ethnography we will examine materials such as photography, installation art, journalism, literature, film, and music. This interdisciplinary approach aims to shed light on the causes and consequences of the political, cultural, and economic narratives involved in our current understanding of these fronteras. This class is conducted in Spanish; readings will be in both English and Spanish.

Requirements/Evaluation: essays, oral presentation, participation

Prerequisites: RLSP 105, placement exam results, permission of the instructor or the Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish majors

Expected Class Size: 18
**RLSP 259  Violent States, Violent Subjects: Nation-Building and War in 19th Century Latin America**  (DPE) (WS)

Although the massive, mechanized wars of the 20th century often overshadow earlier conflicts, the 19th century was also a period of widespread bloodshed in Latin America. First, of course, came the carnage of the Independence Wars, which was followed by decades of civil war (Mexico, Argentina, Peru, Uruguay, Colombia, Venezuela) and two bitter international wars—the Paraguayan War (1864-1870) and the Pacific War (1879-1883)—each of which would have a lasting impact on the countries involved. The restoration of peace brought economic development and new opportunities for dominant groups, but also the return of some of the most violent practices of the colonial period: indigenous peoples were conquered, their lands settled by whites or used for grazing cattle, and blacks (often despite the official abolition of slavery) met with new forms of exclusion, exploitation, and physical violence. In this tutorial we will explore the literary links between some of the violent conflicts listed above and the foundation of national identities in Latin America, reading texts that probe the social and ethical implications of State-sponsored violence. Issues to be explored include militarism and the development of nationalism; genocide and the national community; torture, truth and testimony; and the notion of ‘civilization.’ We will read one or two key precursors and a variety of 19th century texts that may include works by Juan Francisco Manzano, Esteban Echeverría, Ricardo Palma, Rosa Guerra, Dorotea Duprat de Lassere and Juan Crisóstomo Centurión, and Lucio V. Mansilla. In addition, we will read a few contemporary texts, written in the aftermath of the late-20th century dictatorships in the Southern Cone, that actively reflect on the long history of State-sponsored violence in Latin America (Ricardo Piglia, Diamela Eltit, Augusto Roa Bastos). Students will work in trios throughout the semester, each group meeting with the instructor once a week. Each week one of the students will present a 5-page paper on the assigned reading and one will be designated the official respondent, whose job is to lead a discussion of the paper. The third member of the group will turn in a revision of the previous week's paper. Prerequisites: one 200-level RLSP course or permission of instructor. Heritage learners, international students and second-language learners are all heartily welcome. Conducted in Spanish.

**Class Format:** Conducted in Spanish.

**Requirements/Evaluation:** Each student will write and revise a minimum of three five-page papers during the course of the semester. Students will be evaluated on the basis of their preparation for each tutorial meeting as evidenced by the quality and frequency of their engagement with the material, including their classmates' written work. Essays will be graded after they have been revised and submitted to the professor.

**Prerequisites:** Any 200-level Spanish course.

**Enrollment Limit:** 12

**Enrollment Preferences:** Priority given to Spanish majors.

**Expected Class Size:** 12

**Grading:**

**Distributions:** (D1)  (DPE)  (WS)

**Writing Skills Notes:** Students will practice writing throughout the semester, and will receive abundant feedback on their written work from their tutorial partners and the instructor. We are altering the tutorial format from the standard duos to trios of students, so that students will have ample opportunity to revise their written work.

**Difference, Power, and Equity Notes:** This course focuses on issues of diversity, power and privilege within the internal and regional constitution of Latin American countries. We will read with an awareness of some of the ways that differences of race, class, nationality and gender may be mobilized in times of conflict, and consider how the collective narratives that are constructed and imposed in the aftermath tend deal with those conflicts.

**Not offered current academic year**
when it comes to addressing women as cultural producers. Keeping this in mind, in this course we will explore the concept of "Woman" as a representation and women as cultural producers in contemporary Latin America. We will address intersections of race/ethnic positioning, sexual identity, and social class to explore their role in the reception and understanding of the work of these female artists. Through the analysis of varied cultural production, the syllabus will present an interdisciplinary approach to the contributions of female artists to the cultural representation of race/ethnicity, masculinity, femininity, violence, sexuality, gender identity, nationalism, citizenship, and social movements. We will explore the work of artists such as Sara Castrejón, Nahui Ollin, Citlali Fabián, Amparo Dávila, Alejandra Pizarnik, Rosario Castellanos, Reina Roffé, Ana Tijoux, Lucrecia Martel, Chavela Vargas, Graciela Iturbide, Celia Cruz, Lucía Puenzo, Cecilia Barriga, Cristina Rivera Garza, María Novaro, Cristina Peri Rossi, Maruch Sántiz Gómez, Leonora Carrington, and Maris Bustamante, among others. In addition, we will read theoretical texts on diverse subjects corresponding to each specific cultural product.

Requirements/Evaluation: essays (7-8 pages), weekly written reports, oral presentation, active and engaged class participation

Prerequisites: RLSP 105, placement exam results, permission of instructor or Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 274 (D1) COMP 286 (D1) WGSS 275 (D1)

Difference, Power, and Equity Notes: We will address issues of racial/ethnic positioning, sexuality, gender identity, and social class in light of diverse human experiences in contemporary cultural production in Latin America.

Not offered current academic year

RLSP 280  (S)  From Roma to Yalhalhj: Race and Identity Politics Through Contemporary Mexican Cultural Production  (WS)

In 2017, the National Institute of Statistics in Mexico (INEGI) used for the first time a color palette to measure individuals' skin tone. The study showed that "Mexicans who were classified by the interviewers as having darker skin tones tend to have lower levels of education and are worse off economically than their lighter-skinned counterparts" (Zizumbo and Flores, 2017). Raising controversy among those who would like to think of Mexico as a post-racial nation and those who recognize social inequality and discrimination on the basis of skin tone, the debate resonates in the way Mexican citizenship and cultural identity are both represented in mainstream media, even with the intention of showing diversity. The prevalent whitewashing dominating mass media in Mexico extends from advertisements to films, promoting an image of wealth and education intrinsically related to not only skin tone but also with race/ethnic positionality and gender. This course will explore the representation of these variables and their intersections through the analysis of photography, films, novels, paintings, reality shows, telenovelas, advertising campaigns, and music videos. In addition, we will take into account questions of representation, agency, and visibility addressed by cultural producers from pueblos originarios who do not consider themselves Mexican citizens. This class will be conducted in Spanish.

Requirements/Evaluation: essays, oral presentation, participation

Prerequisites: RLSP 105, placement exam results, permission from the instructor or the Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish major

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Weekly short (less than 1000 words) papers, alternatively letter-graded and graded P/F; at least three letter-graded papers will be revisions of a P/F paper; and final 5 pages long paper, which is a revision and expansion of the last weekly paper.

Not offered current academic year

RLSP 303  (S)  Cervantes’ "Don Quijote"

A close study, in Spanish, of one of the most influential and early European novels. Don Quijote by Miguel de Cervantes (1547-1616 C.E) was a hit in its day in the seventeenth century, and has not ceased to influence artists and thinkers since. Moving between humorous and serious tones, Cervantes takes on several issues in the Quijote: the point of fiction in real life, the complications of relationships between men and women, the
meaning of madness, the experience of religious co-existence, the shapes of friendship, and the task of literary criticism, just to name a few. We will read the book in a fine unabridged edition, and set it in several relevant contexts to better understand its original intellectual horizon as well as the reasons for its continuing relevance.

**Class Format:** discussion conducted in Spanish

**Requirements/Evaluation:** active participation, two short papers, and a final project in close consultation with the instructor

**Prerequisites:** any RLSP 200-level literature class taken at Williams, or permission of the instructor

**Enrollment Limit:** none

**Enrollment Preferences:** Spanish and Comparative Literature majors

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** this course fulfills one of the requirements for the Spanish major

**Distributions:** (D1)

**Not offered current academic year**

---

**RLSP 308 (S) Survey of Colonial Latin American Literature from 1492 to the Early 19th Century** (DPE) (WS)

This course will focus on major works of Spanish American literature from 1492 through the first part of the 19th century. Readings will include narrative texts such as *Cartas de relación*, chronicles of conquest, religious texts, and indigenous annals, as well as poetry and drama. While many of the texts will focus on colonial Mexico, we will also study texts from Central and South America. We will focus on the historical contexts and formal aspects of these works, and study methods of textual analysis that are particularly relevant to these texts via selected critical readings. Special attention will be given to colonial encounters and the clash of cultures that produced new identities and textualities under Spanish colonial rule. The course meets twice per week and it is taught remotely. *Conducted in Spanish.*

**Requirements/Evaluation:** Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation and class participation.

**Prerequisites:** One RLSP course at the 200-level or above or permission of instructor

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

**Difference, Power, and Equity Notes:** This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze and understand a diversity of Spanish-American colonial texts from the 16th century to the early 19th century.

**RLSP 319 (F) Dictatorship and the Latin-American Novel** (DPE)

Military dictatorship is among the most crucial factors in Latin-American society and history, and some of the continent’s leading novelists have taken it upon themselves to depict the experience in their work. In this course we will examine both the fact of dictatorship itself and the diverse representation thereof in Spanish-American fiction. Novels by García Márquez, Vargas Llosa, Poniatowska, and Tomas Eloy Martínez will be closely studied. Students will also read Absalom! Absalom! by Faulkner, whose influence on Latin-American authors’ techniques of representation has been decisive and profound.
Class Format: In-person.

Requirements/Evaluation: three 8-page papers, response journals, an oral report, a final 3-page paper, and class participation

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 5-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course focuses on the ultimate sort of power—namely, military dictatorship. And it focuses on the historical fact of such a phenomenon within the U.S. political sphere of influence—Latin America. To study dictatorship and its depiction in literature is a means of understanding the nature of that power imbalance and of taking a first step toward some sense of equity.

Fall 2020

SEM Section: H1  MR 1:30 pm - 2:45 pm  Gene H. Bell-Villada

RLSP 366  (S)  The Exemplary Fiction of Miguel de Cervantes

Miguel de Cervantes (1547-1616) is considered by some to be the father of the modern novel, and known worldwide for authorship of *Don Quijote*. This course will offer students the opportunity to read another body of work by Cervantes: his collection of short prose works collectively titled *Las novelas ejemplares*. Attention will be given to the structure and design of the tales, the socio-political and literary context that shaped them, and the often unsettling implications of Cervantes’ approach to themes such as honor, social and moral presuppositions, marriage, friendship, and the place of representation in art and life.

Requirements/Evaluation: active and meaningful participation; short assignments; presentations.

Prerequisites: any RLSP 200 taken at Williams, results of the Williams College Placement Test, or permission of the instructor

Enrollment Limit: 25

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Unit Notes: Fulfills the pre-1700 major requirement

Distributions: (D1)

Not offered current academic year

RLSP 388  (S)  La Regenta: Masculinity in Crisis in Nineteenth-Century Spain

This seminar is an in-depth study of arguably the most remarkable Spanish novel of the nineteenth century: *La Regenta* (1885) by Leopoldo Alas (alias Clarín, 1852-1901). We will spend the semester living with the most eccentric, repressed, confused, sometimes arrogant, and sometimes humble inhabitants of the fictional city of Vetusta (based on the real city of Oviedo) and immerse ourselves in Spanish history and culture through a story of adultery. In the grand tradition of nineteenth-century novels about fallen women, *La Regenta* in fact reveals the seamy underside of society, the profound anxieties of masculinity and identity formation, as well as where our biases and assumptions about both successful and failed relationships come from today.

Class Format: This class will be taught remotely but synchronously.

Requirements/Evaluation: Active and meaningful participation, short assignments, one final project.

Prerequisites: Any Spanish 200-level class taken at Williams, or results of the Williams Placement Test, or permission of Instructor.

Enrollment Limit: 20

Enrollment Preferences: Spanish and Comparative Literature Majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)
In her 2007 book, *In Catastrophic Times: Resisting the Coming Barbarism*, philosopher Isabelle Stengers offers a chilling observation: "we are more badly equipped than ever for putting to work the solutions defined as necessary" to avoid the most devastating effects of global warming—the extinction of 25 to 75% of existing species; an increase in sea levels that will drown island nations and coastal cities; the breakdown of agricultural systems, leading to widespread famine; and the recurrence of powerful hurricanes and other so-called "natural" disasters. All of this, as Stengers and others point out, will create human upheaval, conflict and suffering on an unprecedented scale. This senior seminar examines works of literature, art and film that Latin Americans have produced in response to the catastrophic times in which we live. We will discuss the political, economic, and cultural histories that have led to our present moment, including neoliberalism, dictatorship, and the rise and fall of the leftwing Pink Tide. Through works of new and experimental fiction, poetry, film, performance and visual art, we will consider the lives and work of environmental activists, including Berta Cáceres and others who were murdered because of their outspoken opposition to extractive capitalism, examine the struggle for the decolonization of environmental knowledge, an epistemological battle increasingly waged on behalf of all living things, and experience the politics of mourning for the hundreds of thousands of life-forms disappearing from the planet. Cultural texts to be explored throughout the semester may include: *La vorágine* (José Eustasio Rivera, Colombia, 1924); *Distancia de rescate* (Samanta Schweblin, Argentina, 2014); *Lo que soño Sebastián* (Rodrigo Rey Rosa, Guatemala, 1995); *Serras da desordem* (Andrea Tonacci, Brazil, 2006); *Boi Neón* (Gabriel Mascaro, Brazil, 2015); *American Fork* (George Handley, USA, 2018).

**Requirements/Evaluation:** rigorous preparation and participation in class discussions, oral presentations and discussion-leading, response papers, one 5- to 7-page paper and one 15- to 20-page paper

**Prerequisites:** one 300-level course in the department, evidence of a successful direct-enroll experience at a local university in Latin America or Spain, or permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** senior Spanish majors; after that, priority will be given to ENVI majors with a strong command of Spanish

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** this is the senior seminar required for all Spanish majors

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

RLSP 401 (D1) ENVI 301 (D1)

**Not offered current academic year**

---

**RLSP 403 (F) Senior Seminar: Early Modern Love and Marriage**

We might think that love is a natural human feeling and marriage its happiest consequence, but in fact these two conditions are among the most carefully constructed phenomena in any society, highly dependent on time period and place. In this senior seminar we will focus on pre-modern Iberia to study the many manifestations and constructions of love (and marriage), several of which continue to influence definitions of both to this day. We will look at sacred, profane, family, and married love through treatises, medical writings, plays, short stories, poems. Our theoretical underpinnings will come from reflections on love from the time period under consideration as well as contemporary critiques of love and marriage. Primary sources will include early lyrical traditions, the poetry of King Alfonso X, the works of Santa Teresa, Lope de Vega, Calderón de la Barca, Cervantes, among others. Conducted in Spanish.

**Requirements/Evaluation:** regular presentations, two to three short papers, one research paper preceded by class presentation, active participation and regular attendance required

**Prerequisites:** any 300-level RLSP course or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** senior Spanish majors and Comparative Literature seniors with Spanish focus

**Expected Class Size:** 15
RLSP 404 (F) Spain's Tale of Two Cities: Madrid and Barcelona (DPE)
The ancient rivalries between Madrid and Barcelona may be best known because of their internationally watched soccer teams, but there's much more to the story than meets the eye in a stadium. Barcelona, immortalized for world audiences in George Orwell's classic *Homage to Catalonia* (1938), has a complicated political and cultural history. Catalans have a fascinating and unique culture and language. Their identity has often been cause for political unrest in their relationship with the rest of Spain, and even amongst Catalans themselves. In recent years, tensions with Spain's capital, Madrid, home to the central government and the Royal family, have filled headlines and divided politicians and even families. In this senior seminar we will focus on these two cities in their own right, and explore the counterpoints between them. We will consider the historical roots of lesser known aspects of Catalan culture and identity in order to tease out some of the myriad perspectives that are at play in Spain today. Materials will come from many different media: historical pieces, music, art and architecture, classic novels and films, recent fiction and essays by second generation authors who have been raised by immigrant parents in both cities, and media pieces. We will also invite cultural observers and players to be guest speakers and help us stay up to date as we follow this ever evolving relationship that keeps journalists and politicians on tenterhooks.

**Class Format:** Remote Instruction.

**Requirements/Evaluation:** This course will be conducted entirely in Spanish. Students will be expected to participate actively in weekly online classes. There will be two short writing assignments of 3-5 pp. Each student will prepare a presentation for one of our class meetings, and be a discussion leader for part of another meeting. Students will be expected to schedule remote office hours with me individually, and to work on an independent research project towards the end of the semester which will culminate in a final paper of 10-15 pp.

**Prerequisites:** Students should be seniors on the road to fulfilling their degree requirements for the Spanish major.

**Enrollment Limit:** 11

**Enrollment Preferences:** Senior Spanish Majors. This is the 20-21 Senior Seminar for the Spanish Major.

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1)  (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement because it compares two rival cities and the struggles for power between a majority (Spanish) and minority (Catalan) culture and language. We will also read texts by first generation authors for whom Spanish and Catalan are dominant but secondary languages and cultures. The syllabus seeks to offer a multiplicity of perspectives in order to help students critically engage with centuries-old patterns of difference and exclusion.

Winter Study ---------------------------------------------------------------

RLSP 30 (W) Honors Essay: Spanish
To be taken by candidates for honors other than by thesis route.
Class Format: honors essay
Grading: pass/fail only
Not offered current academic year

RLSP 31 (W) Senior Thesis: Spanish
To be taken by students registered for Spanish 493-494.
Class Format: thesis
Grading: pass/fail only
Not offered current academic year

RLSP 88 (W) Spanish Sustaining Program
Students registered for RLSP 101-102 are required to attend and pass the Spanish Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program; check your class schedule to confirm enrollment.
Grading: pass/fail option only
Not offered current academic year

RLSP 99 (W) Independent Study: Spanish
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only

Not offered current academic year
RUSSIAN (Div I)
Chair: Professor Janneke van de Stadt

Professors: J. van de Stadt. Assistant Professor: O. Kim. Visiting Professor: Liya Zalaltdinova (Fall). Teaching Associate: Ira Levental.

On leave: J. Cassiday (Fall)

LANGUAGE STUDY
The department provides language instruction to enable students to acquire all five linguistic skills: understanding, speaking, reading, writing, and culture. Russian 101-W88-102 covers the basics of Russian grammar. Russian 151 through 252 offer additional instruction in grammar and vocabulary acquisition, and provide extensive practice in reading and conversation.

STUDY ABROAD
The department strongly encourages students who want fluency in Russian to spend a semester or year studying in Russia or one of the former Soviet republics. Students generally apply to one of several approved foreign study programs. Russian 152 or the equivalent and junior standing are normally prerequisite for study abroad.

FAQ
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
No, generally not until after a student returns and can provide course material for review (e.g. completed work such as exams, portfolios, lab reports and the like).

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?
In addition to course title and description, we always have a conversation with our students about the actual work they completed since sometimes syllabi are vague, or not followed with complete thoroughness.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?
Yes, four courses.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?
No.

Are there specific major requirements that cannot be fulfilled while on study away?
No, the only candidate for this would be the Senior Seminar, and it has never been an issue.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:
None to date.

LITERATURE AND CULTURE IN TRANSLATION
The department regularly offers courses on Russian literature, culture, and politics in English for those students who have little or no knowledge of Russian, but who wish to become acquainted with Russian literary, cultural, and social history.

THE CERTIFICATE IN RUSSIAN
To enhance a student’s educational and professional profiles, the Certificate in Russian offers a useful tool for using the language in a wide variety of disciplines. The sequence of language and culture courses is designed to supplement a student’s major at Williams by enabling the student to expand their knowledge in a related field.

Students who enter Williams with previous training in Russian may substitute more advanced courses for all the 100-level courses; they can also be exempted from up to two of the required courses. Thus, in order to earn a certificate a student must take no fewer than five courses (including three courses in Russian) after enrolling at Williams. The student must achieve proficiency at the level of a B in RUSS 251 or the equivalent.

Required Courses
101
102
103 or 151
104 or 152
one additional course conducted in Russian

Elective Courses
- at least one course on Russian cultural history
- at least one course on Russian intellectual, political, or social history, or post-Soviet economics

THE MAJOR

The Russian major offers students an interdisciplinary approach to the intellectual and cultural history of Russia and the former Soviet republics. Students complete the major by combining courses in Russian language and literature with courses in history, political science, music, economics, and art. The major requires a minimum of ten courses of which at least six must be conducted in Russian, at least two must be at the 300-level, and one at the 400-level. In addition, students may take up to four related courses offered by other departments and taught in English.

Examples of appropriate courses in other departments are:
- HIST 241 Imperial Russia
- SOC 248 Post-Soviet Paradoxes
- HIST 337 After Stalin: Soviet History
- PSCI 286 Russian Politics and Foreign Policy under Vladimir Putin

Students selecting the major must typically complete Russian 104 or 152 (or the equivalent) by the end of the junior year. Majors will normally be expected to take the 400-level seminar offered in their senior year, even if they have previously taken another version of it. Russian majors may receive major credit for summer language study (in consultation with the department) and for as many as four courses taken during study abroad.

THE DEGREE WITH HONORS IN RUSSIAN

At the beginning of the second semester of the senior year, students may nominate themselves to candidacy for the degree with honors. By the end of the junior year at the latest, however, they will have established in consultation with the department their qualifications for embarking on the project, the pattern of study to be followed, and the standards of performance.

Students earn a degree with honors by submitting a senior thesis (493-W31-494) of honors quality.

RUSS 101  (F)  Elementary Russian I

An introduction to contemporary standard Russian, this course provides opportunities to acquire basic proficiency in all five language skills—listening comprehension, speaking, reading, writing, and culture—through immersion, intensive use of authentic materials, and a strong emphasis on the spoken word in all class activities. Greater emphasis is placed on writing in the second semester. For students who already know some Russian, consultation with the department is required before registering for any Russian language course in the sequence 101 through 252. In 2020-2021, RUSS 101 will be a hybrid course. Most of the instruction will be online in both big and small-group format, but there will be some in-person components as well. The final course format will be developed together with students, taking into account health and safety considerations, pedagogical needs, and learning preferences.

Class Format: class meets five times a week and will rely on various modes of instruction
Requirements/Evaluation: active class participation, completion of all assignments, oral and written assessments, and summative exercises.
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: first- and second-year students; students expressing an interest in the Russian major or certificate
Expected Class Size: 10
RUSS 102 (S) Elementary Russian II
An introduction to contemporary standard Russian, this course provides opportunities to acquire basic proficiency in all five language skills-listening comprehension, speaking, reading, writing, and culture-through immersion, intensive use of authentic materials, and a strong emphasis on the spoken word in all class activities. Greater emphasis is placed on writing in the second semester. For students who already know some Russian, consultation with the department is required before registering for any Russian language course in the sequence 101 through 252.

Class Format: Class meets remotely five days a week.

Requirements/Evaluation: active class participation, completion of all assignments, quizzes, tests, and a final exam

Prerequisites: RUSS 101 or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: students expressing an interest in the Russian major or certificate

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Unit Notes: credit granted only if both semesters (RUSS 101 and 102) are taken

Distributions: (D1)

RUSS 140 (S) Crime and Punishment in Russian History  (WS)

Cross-listings: RUSS 140 HIST 140

Secondary Cross-listing
For centuries, people have used crime in Russia and the Russian state's response to crime as lenses through which to examine Russian history and the Russian experience. This tutorial will follow in this tradition, but will adopt a more critical approach to question how or if crime and deviance can speak to the nature of the Russian state and its relationship to Russian society writ large. To answer this question, we will read a combination of original historical sources and recent scholarship that cover the entirety of Russian history: from the creation of the first legal code in Medieval Muscovy to the publication of Alexander Solzhenitsyn's Gulag Archipelago in 1962 and beyond. By semester's end, students will have developed an understanding of both the major historical actors and events in Russian criminal and legal history, and the intellectual debates that they sparked among contemporaries and present day scholars alike.

Requirements/Evaluation: a student either will write and present orally a 3- to 5-page essay on the assigned readings or will be responsible for offering an oral critique of their partner's work

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
RUSS 140 (D2) HIST 140 (D2)
Writing Skills Notes: Each student will write five 5-to-7-page papers on which the instructor will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partners' papers. As the final assignment, each student will revise one of their five papers. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

RUSS 151  (F)  Continuing Russian I
This course develops all five skills--listening comprehension, speaking, reading, writing, and culture--for students who have completed at least one year of college-level Russian. Coursework includes a systematic review of Russian grammar, as well as an examination of a variety of authentic materials from Russian and Soviet culture, current events, and daily life. Intermediate students will concentrate on expanding their vocabulary, while more advanced students will focus on reading and writing about unabridged texts in Russian. Students who complete the yearlong sequence of RUSS 151 and RUSS 152 should be well prepared to undertake study abroad in Russia and are encouraged to do so. Each year this course is custom-designed to meet the needs of those students who enroll, so that both intermediate and advanced students can benefit from taking RUSS 151 and/or RUSS 152 more than once, which may be done with the permission of the instructor.

Class Format: The format for this course is hybrid and will combine online and in-person components.

Requirements/Evaluation: active class participation, completion of all assignments and summative exercises

Prerequisites: completion of at least one year of college-level Russian (RUSS 101-102) or the equivalent, or permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Russian majors and certificate seekers

Expected Class Size: 4-6

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RUSS 203  (F)  Nineteenth-Century Russian Literature: Rebels and Rebellion
"God save us from seeing a Russian revolt, senseless and merciless," famously proclaimed Alexander Pushkin. But is revolt always senseless? And if it's not, what is the meaning behind it? Throughout the nineteenth century, Russian literature gave different answers to these questions. In this course, students will familiarize themselves with the masterpieces of the Golden Age of Russian literature with a particular focus on rebellion understood in its broadest sense: philosophical, psychological, social, sexual, and aesthetic. We will examine the confrontation of the archetypal figure of Russian literature, the "superfluous man," with his milieu in Pushkin, Lermontov, Turgenev, and Goncharov. The social and psychological revolt of another key figure--the "little man"--will be addressed in the works of Pushkin and Gogol. We will then discuss woman's sexual rebellion in Nikolai Leskov and the forms of spiritual rebellion in Leo Tolstoy and Dostoevsky. Finally, we will examine the aesthetic revolution of Chekhov's plays, which challenged the principles of the old theater and marked the turn to new modernist drama. All readings are in English.

Requirements/Evaluation: participation, writing assignments, written exam

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: students majoring or considering a major in Russian or Comparative literature

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 203 (D1) RUSS 203 (D1)

RUSS 204 (S) To See the Past: Russian and Soviet Cinema on History

Cross-listings: RUSS 204 GBST 204 COMP 204

Primary Cross-listing

This course surveys Soviet and Russian cultural history of the 20th- and 21st-centuries through the history of the cinematic medium. We will watch and analyze key films of this period--films by Eisenstein, Vertov, Tarkovsky, Muratova, Balabanov, Živičintsev, and Fedorchenko among others--from a double perspective. On the one hand, we will study the cultural and historical contexts of the Soviet Union and Russia; on the other hand, we will learn the formal and stylistic aspects of the cinematic medium as it developed historically (from silent, to sound, to color, to digital etc.). From this double perspective, we will try to answer a larger question that underlies this course: What kind of historical thinking can we learn through cinema as a medium? In other words, we will take cinema neither simply as a direct reflection of state ideology nor as pure aesthetic form or entertainment for the masses. Rather, we will approach the films of this period as audio-visual texts that are rich in historical content and require our informed and attentive interpretation.

Class Format: The class meets synchronously on campus twice a week. Remote students will be able to join each synchronous session via zoom. Synchronous sessions will consist of discussion and visual analysis of short clips. All films and reading materials will be available online.

Requirements/Evaluation: For each class you'll watch 1 or 2 film(s) and read typically 1 article under 20 pages. You will submit short viewing response before each class. Additionally, there will be short viewing or creative assignments to familiarize students with formal aspects of film. Evaluation will be based on participation, one presentation, short sequence analysis, and final paper or video essay

Prerequisites: none, open to all students

Enrollment Limit: 15

Enrollment Preferences: declared or prospective Russian or Comparative Literature majors, Russian Certificate seekers, Global Studies concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RUSS 204 (D1) GBST 204 (D2) COMP 204 (D1)
RUSS 213 (F) Why do Pussies Riot and What is "Homosexual" Propaganda? Gender and Sexuality in Putin's Russia (DPE)

Cross-listings: COMP 257 GBST 213 WGSS 214 RUSS 213

Primary Cross-listing
Since Vladimir Putin's rise to power, the media has highlighted events in Russia that at first glance resemble oddly sexualized jokes. At the same time that the Kremlin has reinstated authoritarian policy reminiscent of the Soviet Union, the Western press has chronicled Putin's topless vacations in Siberia, protests by the feminist collectives Pussy Riot and Femen, a 2011 ban on women's lacy underwear, federal legislation from 2013 prohibiting "homosexual" propaganda, and a 2017 court decision that outlawed a meme of Putin as a "gay clown." This course examines the Putin regime's ongoing attempts to police gender expression and private sexual behavior, as well as how Russian citizens' performance of gender and sexuality has changed in the past twenty years. We will consider gender and sexuality as distinctive features of Putinism, which have contributed to a biopolitical turn in official policy and inspired resistance and protest among Russian feminists and queers. All readings will be in English, and all films with have English subtitles.

Requirements/Evaluation: active participation in class discussions, several response papers, two short papers (3-5 pages each), and a final project

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: Those majoring in Russian and/or WGSS, as well as Global Studies concentrators.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 257 (D1) GBST 213 (D1) WGSS 214 (D2) RUSS 213 (D1)

Difference, Power, and Equity Notes: The course engages in cultural comparison, explores how power and privilege are allocated differently in post-Soviet Russia than in the West, and critically theorizes contemporary Russian culture and discourse.

Not offered current academic year

RUSS 218 (S) Extreme Persuasions: The Far Right in the United States and Russia (DPE) (WS)

Cross-listings: AMST 219 RUSS 218 WGSS 217

Secondary Cross-listing
The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the 'other' superpower to be an implacable enemy. How have nationalist movements in the United States come to see the Russian Federation as a vanguard for 'whiteness' and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

Requirements/Evaluation: On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%; the term paper, 25%; the in-class presentation of the term paper, 5%.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Majors and concentrators in AMST, Russian, and Women's and Gender Studies.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

Writing Skills Notes: The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

Difference, Power, and Equity Notes: Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.

RUSS 219 (S) Cults of Personality (WS)
Cross-listings: COMP 215 RUSS 219

Primary Cross-listing

First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase "cult of personality" was formulated to discredit the hero-worship that accompanied Joseph Stalin's iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China's Mao Zedong, Iran's Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. All readings will be in English, and all films will have English subtitles.

Class Format: remote
Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first-year students
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 215 (D1) RUSS 219 (D1)

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

RUSS 232 (S) Phantasmagoria, Madness, and the Absurd in Russian Literature and Film
Cross-listings: RUSS 232 COMP 271

Primary Cross-listing

In one of Nikolai Gogol's most famous stories, a man wakes up one day to find that his own nose has left his face and taken on a life of its own. This situation, which we might label bizarre or absurd, just as easily shows how reality often fails to meet our expectations and even suggests that the
story's leading character might have gone mad. But what then is insanity? Likewise, one of Dostoevsky's socially marginal characters contemplates
the fact that only sick people see ghosts, which, in his opinion, "only proves that ghosts cannot appear to anyone but sick people, not that they
themselves do not exist." This course aims to analyze the rich tradition, typified by Gogol and Dostoevsky, of the absurd, the fantastic, and madness in
Russian literature and film of the 19th-21st centuries. Addressing the aesthetic, historical, and political circumstances that nurtured this tradition in
Russian literature and cinema, our course material will explore new dimensions of reality, point out the many paradoxes and absurdities of human
existence, and question our perceptions, as well as the assumption that we are sane. Close analysis of literary and cinematic texts will lead us to a
broader discussion of the relationship between reality and representation, as well as the notions of the absurd and madness. Authors/directors will
include Alexander Pushkin, Nikolai Gogol, Fyodor Dostoevsky, Anton Chekhov, Mikhail Bulgakov, Lyudmila Petruschevskaya, Andrey Tarkovsky, and
Kira Muratova, among others. All readings will be in English, and all films will have English subtitles.

Requirements/Evaluation: class attendance and participation; two analytical papers (3-5 pages); leading class discussion; a creative assignment; an
oral presentation; a final paper (6 pages)

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: none

RUSS 240 (S) The Soviet Experiment

Cross-listings: RUSS 240 HIST 240

Secondary Cross-listing

In 1917, the former Russian Empire became the site of the world's first socialist revolutionary government and the twentieth century's largest
multiethnic state. Over the next quarter century, the Soviet Union witnessed the rise of one of history's most violent dictatorships, an apocalyptic war
that claimed upwards of 26 million lives, and communist expansion into Eastern Europe and the decolonizing world. It also became the site of vibrant
and optimistic utopian cultural projects, flights into space, bitter and hilarious political satire, and a society that was, for the most part, economically
equal. Then in 1991, everything fell apart. This course will survey the origins, life, and collapse of the Soviet Union, paying particular attention to the
ideas that shaped its development, the mark its architects' and leaders' policies left both at home and abroad, and the impact it had on the people who
lived and didn't live to tell the tale.

Class Format: Format: seminar; Each week, students will watch a pre-recorded asynchronous lecture that will provide context for the readings due
that week. Students will be assigned to a small group of no more than 8 students which will "meet" with the instructor for a weekly, tutorial-style
discussion on Zoom.

Requirements/Evaluation: active class participation, two short essays (3-5 pages), one in-class midterm, and one take-home final exam

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: History Majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

RUSS 241 (F) Imperial Russia: State and Society between Europe and Asia

Cross-listings: HIST 241 RUSS 241

Secondary Cross-listing

Russia. The name alone evokes wonder, fear, romance, and history itself. Over the past ten centuries, the territory that we now call the Russian Federation has witnessed dramatic transformations that underwrote its transition from feudal backwater to global superpower. Its journey from tribalism to imperialism, feudalism to autocracy, agrarianism to industrialization, monasticism to parliamentarianism, Orthodox Christianity to revolutionary atheism, left a mark not just on the collective Russian conscious, but on a world that has grown accustomed to viewing Russia as a site for ideas, projects, and processes both exemplary and tragic. How did Russian state power borrow and depart from west European norms? How did foreign and domestic norms contribute to the creation of a "Russian" identity? How did Russian elites and ordinary people resist, collaborate with, or develop an apathy towards the Russian state, and to what success? This course will seek to answer these questions through a survey of Russian Imperial history from its founding in Kievan Rus’ in the 10th century to the October Revolution of 1917.

Class Format: Each week, students will watch a pre-recorded asynchronous lecture that will provide context for the readings due that week. Students will be assigned to a small group of no more than 5 students which will "meet" with the instructor for a weekly, tutorial-style discussion on Zoom.

Requirements/Evaluation: class attendance and participation, two short papers (3-5 pages), ~80 pages of reading a week, one take-home midterm exam essay and one take-home final exam essay

Prerequisites: none, open to all students

Enrollment Limit: 15

Enrollment Preferences: History majors.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

RUSS 248 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: SOC 248 GBST 247 RUSS 248

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners' and instructor's discretion.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

RUSS 275 (S) Russian and Soviet Cinema

Cross-listings: COMP 287  RUSS 275

Primary Cross-listing

In this course, we will survey over a hundred years of Russian and Soviet film to explore how cinema has reflected and, at times, created the country's
most important historical events and cultural myths. We will pay close attention to Russian filmmakers' varied reactions to Hollywood cinema, as well as to the lively body of cinema theory that these reactions generated. Our survey will begin in the pre-Revolutionary era and include representative films from the time of the Bolshevik Revolution, Stalinism and World War II, the Thaw and Stagnation, Glasnost, and the Putin era. In addition to studying films by auteur filmmakers, such as Sergei Eisenstein, Andrei Tarkovsky, and Aleksandr Sokurov, we will watch movies made for the masses, which have helped to form Russians' understanding of their country and themselves. All readings will be in English and all films will be viewed with English subtitles.

**Requirements/Evaluation:** completion of all viewing and reading assignments, active participation in class discussions, two short papers, and a final research project.

**Prerequisites:** none

**RUSS 305 (F) Dostoevsky: The Riddle of the Self and the Other**

**Cross-listings:** RUSS 305 COMP 305

**Primary Cross-listing**

This course offers a comprehensive survey of Fyodor Dostoevsky's literary and intellectual legacy. We will read his major works including *Notes from Underground, Crime and Punishment, Demons, The Brothers Karamazov* and a selection of celebrated short works. Close textual analysis will be accompanied by a discussion of aesthetic, philosophical, and psychological aspects of Dostoevsky's oeuvre. The problem of the self-other relationship in the artistic, philosophical and religious contexts of Russia and Western Europe is one of the key themes that we will trace in this course. More broadly we will look into the problems of the modern individual and modernity in the times of Dostoevsky as well as in our times. All readings are in English translation.

**Class Format:** This will be a hybrid course for in-person and remote students. We will meet in small groups (4-5 students) once a week synchronously (in-person with students who are on campus, and via zoom with students who are enrolled remotely) and will have variety of asynchronous activities (viewing short lectures, writing reading responses, participating in written and video discussion forums)

**Requirements/Evaluation:** Participation, reading responses in the form of blog posts, three short papers, final project

**Prerequisites:** none, open to all students

**RUSS 331 (S) The Brothers Karamazov**

**Cross-listings:** COMP 331 ENGL 371 RUSS 331

**Primary Cross-listing**

Widely hailed as one of the greatest novels ever written, Dostoevsky's *The Brothers Karamazov* contains a series of enigmas, not the least of which is precisely who murdered the Karamazov father. In addition to exploring the shared guilt of all four of the brothers Karamazov in the crime of patricide, Dostoevsky poses the most probing questions of his day: Are families tied together merely by blood or by deeper spiritual bonds? Is religious faith possible in an age of reason, science, and technology? Can man's earthly laws ever carry out divine justice? Is humanity prepared to bear the burden of responsibility that comes with freedom? This tutorial will spend an entire semester exploring Dostoevsky's masterwork, and we will read a variety of secondary sources alongside *The Brothers Karamazov*, including history, philosophy, and literary theory. Our goal will be to understand Dostoevsky's answers to these so-called "accursed questions" through the unique artistic form of *The Brothers Karamazov*.

**Requirements/Evaluation:** completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

**Prerequisites:** at least one 200-level literature class

**RUSS 337 (F) After Stalin: Soviet History from "Thaw" to Collapse**

**Cross-listings:** HIST 337 RUSS 337

**Secondary Cross-listing**

When Joseph Stalin died in 1953, the crowd of people that gathered to view his embalmed body on Moscow's Red Square grew so large, it provoked a stampede that killed nearly 500 people. This moment embodies the uncertainty and challenges that ordinary citizens and state officials faced when they imagined what a post-Stalin future might bring to the Soviet Union. For all the suffering that his rule inflicted on the Soviet people, Stalin remained for many a reliable constant in a life dominated by revolution and war. Stalin's successors faced a classic dilemma: how to reform and breathe new life into a system without disturbing the foundation it needs to stand intact? Despite superpower status and some stunning achievements at home and abroad, the fault lines in Soviet society ran deep. This course will consider the experiences that grew out of the uncertainty that emerged after Stalin's death. We will examine how the "Soviet experiment" evolved - politically, legally, socially, culturally - once the last of the original Bolshevik
revolutionaries left the Kremlin. What opportunities did the post-Stalin moment open up for political elites, members of the professional class, the intelligentsia, and citizens from Soviet republics and satellite states? What obstacles did they face, and how successful were they at overcoming them? In what ways did the spirit of the October and Stalinist Revolutions persist or erode from 1953 until 1991? Most importantly, how did the "children of the revolution" participate in, check out of, or contest the socialist system whose birth their parents witnessed first hand? After all, more generations experienced the Soviet Union without Stalin as their leader than generations who only knew a life with the "Vozhd" in power. Through secondary and primary source readings, we will attempt to recover the voices of those whose lives both shaped and were shaped by the nearly four decades after Joseph Stalin's death.

Requirements/Evaluation: active class participation, two short essays (2-3 pages), and three long essay (5-7 pages)

RUSS 341  (F) Collapse: The Fall and Afterlife of the Soviet Union
Cross-listings: HiST 341  RUSS 341
Secondary Cross-listing

On Christmas Day 1991, Mikhail Gorbachev ended two things: his tenure as President of the Soviet Union, and the Soviet Union itself. In the years that followed, the Soviet Union's fifteen national republics splintered overnight into more than a dozen nation states along uneven and highly contest ethnic lines. In Russia, Boris Yeltsin assumed office as the first president of the Russian Federation, and without delay, began to institute radical economic and social reforms. Under his watch, the country privatized national industry, cut the state budget, and courted foreign multinational businesses. The world most commonly used to describe Russia in the early 1990s is "disappear": money, jobs, food, and people. The very things that Soviet-style socialism had committed itself to providing for started to vanish as a result of invisible and market forces. Russian nationalism replaced Soviet internationalism as a guiding national idea. This course will explore what emerged in the spaces left empty after Soviet-style socialism's demise in three parts. The first part of the semester will examine the origins of the Soviet Union's collapse and its breakup into fifteen successor states. The second part of the semester will survey the political, economic, and social processes that followed the collapse. Finally, the third part of the course will focus on Putin's ascendancy to the presidency and its consequences for Russian citizens at home and Russia's image abroad. Three themes will occupy a prominent place in the course: political-economy, nationalism, and identity. By semester's end, students will have acquired the content and analytical literacy to place the former Soviet Union in its specific historical context and identify multiple sources of causation that may help explain Russia's transition from socialism to capitalism to Putinism during the past quarter century.

Class Format: Each week, students will watch a pre-recorded asynchronous lecture that will provide context for the readings due that week. Students will be assigned to a small group of no more than 5 students which will "meet" with the instructor for a weekly, tutorial-style discussion on Zoom.

Requirements/Evaluation: active class participation, three short essays (3-5 pages), and one long essay (10-12 pages)

Fall 2020
RUSS 345  (S) Bagging the Monsters: Tolstoy’s Other Prose

War and Peace and Anna Karenina, which Henry James famously described as “baggy monsters,” are works that are immediately identified with Leo Tolstoy, a giant of nineteenth-century Russian literature. But Tolstoy wrote so much more! From short works of adult fiction, to stories for children, pedagogical essays, political tracts, aesthetic treatises, and philosophical musings. He produced variously and prodigiously throughout his life and that’s not even counting his fascinating diaries and personal correspondence. Our course readings will probe this exceptional variety with the goal of understanding the scope of Tolstoy’s thinking in greater depth. All readings and discussion will be in Russian.

Class Format: This is a hybrid upper-level seminar that can be taken in-person or online.

Requirements/Evaluation: Active and substantive class participation, leading discussion, weekly short writing assignments, and 1-2 longer writing pieces of 4-5 pages.

Prerequisites: Three years of college Russian or the equivalent. Students who have not taken Russian language at Williams must consult the instructor.

Enrollment Limit: 10

Enrollment Preferences: Russian majors and certificate seekers, then comparative literature majors.

Expected Class Size: 5

Advisory Committee

- Georges B. Dreyfus, Jackson Professor of Religion; on leave Fall 2020
- Laura D. Ephraim, Associate Professor of Political Science
- Ezra D. Feldman, Visiting Assistant Professor of English; affiliated with: Science & Technology Studies, Graduate Program-Art History
- Laura J. Martin, Assistant Professor of Environmental Studies and Faculty Affiliate in History; affiliated with: History Department; on leave 2020-2021
- Bojana Mladenovic, Professor of Philosophy; on leave Fall 2020
- Eli Nelson, Assistant Professor of American Studies
- Jason Josephson Storm, Chair and Professor of Religion, Chair of Science and Technology Studies; affiliated with: Science & Technology Studies

Science and Technology Studies (STS) is an interdisciplinary program concerned with science and technology and their relationship to society. The community of scholars in the Williams STS program apply methods from diverse disciplines. They seek to illuminate the historical, social, cultural, ethical, and political dimensions of science and technology. By bridging humanities, social sciences, science, and technology, our program seeks to build relationships across campus.

The STS program at Williams takes a broad umbrella approach to the discipline. Topics include: sociology of knowledge production; philosophy of science; history of science and technology; the economics of research and development; science and public policy; technology and the environment; scientometrics; interactions between humans and technology; science fiction and other artistic depictions of science and technology; boundaries between pseudo-science, religion, and science; and the broader ethical issues evoked by science and technology.

Science and Technology Studies concentrators must complete a total of six courses. Five of these must have the STS prefix. Students must take: Introduction to STS; Senior Seminar; and three electives, of which at most two can originate in the same department. In addition, Science and Technology Studies concentrators must complete one course with a laboratory or field work component in natural, social, or computer science; this course may also satisfy one of the divisional distribution requirements.

Students may petition the Chair for recognition of a course as an STS course even if it is not cross-listed in STS. The petitions will be approved or denied on a case-by-case basis.

The program is administered by a chair and an advisory committee of faculty who teach in the program. Students who wish to enroll normally register with the chair by the fall of their junior year.

STUDY ABROAD

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Complete syllabus and course description, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study
away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. Be sure to check record of enrollment in classes with laboratory of fieldwork components to satisfy program.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn't:

None to date.

---

**STS 101** (F)(S) Science, Technology and colonialism: A Critical global introduction to Science and Technology Studies

**Cross-listings:** HSCI 101 STS 101

**Primary Cross-listing**

The protests that followed the murder of George Floyd have brought to the fore the realities of racism and violence that Black, Indigenous and People of Color experience daily. They also motivated a long overdue reckoning in various fields and institutions with the legacy of structural racism, and of colonial history. The history of modern science and technology is intractably connected to colonial expansion, decolonization and neo-colonialism. From genocide of Indigenous peoples and the enslavement of Africans, to colonial medicine, eugenics and the atomic bomb, to the out-sourcing of expensive and environmentally hazardous technologies to the Global South, modern science and technology cannot be fully understood without serious reckoning with the history of colonialism, race, gender and sexuality. In this course, we will investigate the history of modern science and technology at a global level from the sixteenth century to today. We will look at how scientific knowledge and institutions influenced and were influenced by colonial expansion and decolonization, by racism and antiracist struggles, by questions of gender and sexuality and by feminist and LGBTQ+ activism. The course will move through different episodes using objects and case studies to understand the history of science and technology, and discuss the methods of science and technology studies. This course is an introduction to Science and Technology Studies. It will be accompanied by an advanced seminar (201) for more advanced students interested in these questions.

**Class Format:** Remote

**Requirements/Evaluation:** two or three short exercises, two papers (3-5 pages and 5-7 pages), and two hour exams

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** first-years and sophomores

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

HSCI 101 (D2) STS 101 (D2)

**Difference, Power, and Equity Notes:** The course addresses how epidemics, and the way medical and political institutions dealt with them, were shaped by issues of race, gender, sexuality and human difference, and how epidemics in turn impacted perception of race, gender and sexuality.

Fall 2020

SEM Section: R1 TR 8:00 am - 9:15 am Grant Shoffstall

Spring 2021

SEM Section: H1 MW 11:45 am - 1:00 pm Ahmed Ragab

**STS 106** (F) Being Human in STEM (DPE)

**Cross-listings:** PHYS 106 GEOS 106 STS 106

**Secondary Cross-listing**

This course combines academic inquiry and community engagement to investigate the themes of diversity and social climate within STEM (science, technology, engineering and mathematics) disciplines. Students will examine how diverse identities including but not limited to gender, race, disability, sexuality, national origin, socioeconomic status, religion, and ethnicity shape the STEM experience both at Williams and nationally. We will ground our understanding through critical reading of primary scholarly research on topics such as implicit bias, identity threat, and effects of team diversity on
excellence. From there, we will execute small group projects. Students will design, execute, and evaluate interventions that relate to the course goals
and that have direct relevance to Williams students, faculty, and staff. For example, a student group could implement a survey of minoritized STEM
students, or create a qualitative interview-based assessment of how socioeconomic status impacts students’ abilities to participate in STEM fields.
Course work includes weekly readings, reflective/opinion writing, in class discussion, and the development and presentation of a group project.

Class Format: class discussions, group project work (out of class time required)
Requirements/Evaluation: short response papers, class discussion participation, leading class discussions, group work, and final project

Enrollment Limit: 15
Enrollment Preferences: DIV III majors; statement of interest may be requested
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Unit Notes: does not count towards GEOS or PHYS major credit

Distributions: (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

PHYS 106 (D3) GEOS 106 (D3) STS 106 (D2)

Difference, Power, and Equity Notes: This course explicitly addresses the intersection of marginalized identities and the STEM experience. Students
will learn how to critically address how issues such as gender, race, ethnicity, and disability impact participation in and the experience of STEM fields.
For example, students will read and critique literature documenting bias in STEM fields, and will also learn about and create interventions that can
address these biases.

Not offered current academic year

STS 115 AIDS: The Disease and Search for a Cure

Since the discovery of the human immunodeficiency virus (HIV-1) in 1983, modern techniques of molecular biology have revealed much about its
structure and life cycle. The intensity of the scientific investigation directed at HIV-1 is unprecedented in history. We now know more about this virus
than any other known pathogen. However, the early optimism concerning the prospects for an effective AIDS vaccine has now waned and HIV strains
that are resistant to drug therapies are common. We are now three decades into the AIDS pandemic and the World Health Organization estimates that
there are more than 34 million HIV-infected persons worldwide. After an introduction to chemical structure, we examine the molecular biology of the
HIV virus, the molecular targets of anti-HIV drugs, and the prospects for a cure. We look at how HIV-1 interacts with the human immune system and
discuss prospects for developing an effective HIV vaccine.

Class Format: three hours per week
Requirements/Evaluation: problem sets, a midterm, quizzes, a final exam, and a presentation/discussion
Prerequisites: none; designed for the non-science major who does not intend to pursue a career in the natural sciences

Enrollment Limit: 45
Expected Class Size: 45
Grading:
Distributions: (D3)

Not offered current academic year

STS 135 (F) Politics after the Apocalypse

Cross-listings: STS 135 PSCI 135

Secondary Cross-listing

What shape will politics take after the apocalypse? Even before the coronavirus pandemic gave us reason to wonder if we are, in fact, living through
an apocalypse, speculation about the end of the world and its aftermath pervaded recent television, movies, literature, philosophy, and critical theory.
In this class we draw these works into conversation with political theories of the "state of nature" and "state of exception" to better understand what
political possibilities are opened and foreclosed in times of crisis. What aspects of politics will endure the ravages of fire or pestilence? What new
political realities might emerge on ground cleared by disaster? What does it say about pre-pandemic politics that we were so eager to consume stories
of states falling and bands of survivors scraping together a nasty, brutish and short existence? And how will the unfolding pandemic change how we
respond to these stories? Class will be driven primarily by discussion, typically introduced by a brief lecture.
Class Format: Class meetings will be conducted remotely using zoom.

Requirements/Evaluation: two 3-5 page papers, one short story (7-15 pages and including an explanatory cover letter), contributions to a class project documenting and analyzing the pandemic, and class participation

Prerequisites: first- or second-year students, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: first-year students

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

SEM Section: R1 WF 1:30 pm - 2:45 pm Laura D. Ephraim

STS 142 (F) AlterNatives: Indigenous Futurism and Science Fiction (DPE)

Cross-listings: AMST 142 STS 142

Secondary Cross-listing

Indigenous people occupy a paradoxical position in time. On one hand, as survivors of genocide and occupation, they are already post-apocalyptic, occupying what many Indigenous thinkers argue is "our ancestor’s dystopia." On the other hand, Indigenous people are relegated to the past in settler and colonial discourses, which, in relying heavily on notions of contact, authenticity, and vanishing, preclude Indigenous peoples from not only futurity, but from modernity and associated visions of science and technology too. This tutorial explores how Native science fiction imagines and enacts futurity from this paradoxical Indigenous temporality. Looking across numerous national and transnational Indigenous contexts, in addition to different kinds of media, including short stories, novels, visual art, video games, films, and online platforms like second life, this tutorial foregrounds the ways in which science fiction functions as a mode of Indigenous theory, knowledge production, and claiming of not only the future but of the past and present, as well. Pairing media readings with works in science fiction and Indigenous studies, we will explore the role of indigeneity in the founding and tropes of European and settler science fiction, Native "slipstream" and eco SF, post-post-apocalyptic thinking, space travel and frontiers, Native pessimism, and Indigenous technologies and epistemologies cast into the future. We will pay careful attention to the political stakes of these narratives and expression for Indigenous sovereignty and self-determination.

Requirements/Evaluation: attendance and participation, weekly 2- to 4-page written responses to class readings, short fiction prompts, and your partner’s writing

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 142 (D2) STS 142 (D2)

Difference, Power, and Equity Notes: This course will underscore the ways in which structures like race, gender, sexuality, and colonialism are deeply imbedded in every form of cultural production, and will highlight how imagining the future otherwise has real impact and import in the lives and political existence colonized people.

Not offered current academic year

STS 153 (S) Androids, Cyborgs, Selves (WS)

Cross-listings: STS 153 ENGL 153
In this expository writing course, we will analyze and argue about how near-human and partly human bodies appear in fiction and film. When do these bodies improve the spaces in which they appear? When do they threaten them? How are they gendered, how are they raced, and why? What do they desire? Authors in different cultural and technological contexts have imagined not-quite-human selves for different ends and in different ways. Together we will develop our ideas on these topics in clear, strong prose. We will also ask how artists have cast human identities into foreign materials and media, and study the distortions and revelations that result. During museum visits at WCMA, students will use examples of self-portraiture, electrified bodies, and aspirational bodies to explore the representation, imitation, and abstraction of selves. Because this is an expository writing seminar, we will spend half or more of our class time discussing and practicing writing skills.

**Requirements/Evaluation:** five response papers (500 words); four essays (1200-1500 words, each in two drafts); class participation

**Prerequisites:** none

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

STS 153 (D2) ENGL 153 (D1)

**Writing Skills Notes:** This expository writing course is dedicated to facilitating real improvement in students' written work. Students write five response papers and four five-page essays (in two drafts) over the course of the semester, receiving substantial instructor feedback on all. Students will practice: drafting, revising, and responding to critique; writing appropriately for given occasions and audiences; grounding their writing in close, analytical reading; and acknowledging sources.

Not offered current academic year

**STS 209 (S) Philosophy of Science**

**Cross-listings:** STS 209 PHIL 209 SCST 209

**Secondary Cross-listing**

It is a generally held belief, in our time and culture, that science is the best source of our knowledge of the world, and of ourselves. The aim of this course is to examine the origins, grounds, and nature of this belief. We will analyze and discuss various accounts of scientific method, structure and justification of scientific theories, scientific choice, change, and the idea that scientific knowledge is progressive. The course will begin with the "received view" of science, advanced by logical empiricists, which assumes the objectivity and the rationality of science. We will then discuss philosophies of science which emerged out of various criticisms of this view - especially those of Popper, Lakatos, Kuhn and Feyerabend - and the challenges to the assumptions of scientific objectivity and rationality their works provoked. This discussion will naturally lead us to the relativist and social-constructivist views developed within contemporary science studies. Finally, we will analyze the current debate about cognitive credentials of science and proper approach to the study of science, which came to be known as "the science wars."

**Class Format:** short lecture component in each class

**Requirements/Evaluation:** class attendance, preparedness and participation; three short assignments; three 5 pages long papers, the last of which will be the final paper, due a week after the end of classes

**Prerequisites:** one PHIL course, or declared major in a natural science, or permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** Philosophy majors and prospective majors

**Expected Class Size:** 10-15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

STS 209 (D2) PHIL 209 (D2) SCST 209 (D2)

Not offered current academic year

**STS 210 (S) Networks of Power: Technology in Human Affairs**
Do we control our technologies, or do our technologies control us? This course will explore different philosophies of technological progress, particularly the constructivist and determinist theories, by examining major technological systems that shaped modern society, such as the telegraph system, the electric grid, radio and television broadcasting, and the internet. Each of these innovations entailed the construction of a complex network designed to serve a mix of public and business interests, and each resulted in wide-ranging and often unforeseen changes to people's lives. Guided by pertinent readings in the history and philosophy of technology, we will look critically at the forms and consequences of technological change, seeking answers to a series of complex and important questions: Is the course of technological progress an inevitable byproduct of scientific and engineering advances, or is it contingent on social and political circumstances and choices? Does technological change reinforce the social and political status quo or challenge it? Are technological and social progress synonymous, or is there a tension between the two? One of the goals of the course will be to provide students with a more informed and critical perspective on the technological upheavals that continue to shape society today.

Class Format: hybrid
Requirements/Evaluation: attendance and participation, team assignments, two in-class exams, one 15-page seminar paper
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option

STS 211 (F) Scientific Selves: Medicine, Technology, and Identity in Early Modern France

The early modern period has long been associated with scientific discovery and shifting ideology in France. From Copernicus on, thinkers such as René Descartes, Blaise Pascal, and Antoine Lavoisier helped advance the Scientific Revolution, which led to medical and technological breakthroughs, as well as important advances in our understanding of the world and our solar system. This course examines the role that France played in pursuing such discoveries, as well as the ways newfound knowledge impacted notions of belonging and alterity. How did the Scientific Revolution and French colonization lead to the creation of social, cultural, and medical "others"? How did scientific discourse permeate verbal and visual expression and depict those who did not fit into normative paradigms of gender, sexuality, ability, ethnicity, belief, and culture? What avenues for self-expression and definition were available to those whom society excluded? What parallels can we see with twenty-first-century questions of political activism, social justice, sciences, and technology? To explore these questions, we will analyze literary texts, visual representations, and historical documents, such as medical treatises, scientific diagrams, and texts on new technologies. Conducted in French.

Requirements/Evaluation: active class participation, written reflections, quizzes, mid-semester presentation, and final paper
Prerequisites: strong performance in RLFR 105; RLFR 106; another RLFR 200-level course; placement exam; or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French Majors and certificate students
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
STS 211 (D1) RLFR 210 (D1)

Not offered current academic year
STS 212 (S) Ethics and Reproductive Technologies

Cross-listings: WGSS 212 PHIL 212 STS 212 SCST 212

Secondary Cross-listing

In her groundbreaking book, The Tentative Pregnancy, Barbara Katz Rothman writes that "[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace--or to let us think we can replace--chance with choice." Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as "motherhood" and "parenthood,", family and genetic relatedness, exploitation and commodification, and reproductive rights and society's interests in reproductive activities. Topics will range from consideration of "mundane" technologies such as in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, and post-mortem gamete procurement. Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)

Prerequisites: none, but introductory-level course in PHIL and/or WGSS recommended

Enrollment Limit: 19

Enrollment Preferences: WGSS and PHIL majors or prospective majors

Expected Class Size: 19

Grading: pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 213 (S) Race, Gender, and the Alien Body: Octavia Butler's Science Fiction

Cross-listings: STS 213 WGSS 213 AFR 213 SCST 213

Secondary Cross-listing

Science fiction is a genre well known for its ability to envision new realities, and Octavia E. Butler (1947-2006) is among the most highly regarded science fiction writers. Butler's uncanny ability to imagine the future anew and to merge those ruminations with her experiences as an African American woman provide powerful commentary on--and often disrupt--modern understandings of race, gender, and human embodiment. We will explore questions such as: What role does 'gender' play in Butler's fiction? How does Butler's treatment of the 'alien' cause us to reconsider what it means to be human? How does Butler incorporate 'race' and the concept of 'other' into her fiction, and how do these techniques help us situate contemporary discussions of a post-race society? We will examine the relationship between Butler's visions for the future and what her narratives of future worlds invariably suggest about the present. We will read key texts including the best-selling text Kindred (1979), the haunting dystopian novel Parable of the Sower (1994), the popular vampire text Fledgling (2005), and the collection Bloodchild and Other Stories (1996). We will also explore contemporary engagement with Butler's work including the relationship between the main character from her book Dawn (1987), and Henrietta Lacks, the African American woman from whom the immortal cell line (HeLa) used for medical research derives. This tutorial will engage Octavia Butler's work broadly, and with particular attention to how the concepts 'race,' 'gender,' 'alien' and 'body' are interrogated in her writings.

Requirements/Evaluation: attendance, paired weekly reflection/response papers, a 5- to 7-page creative writing assignment, and a final essay of 10 pages

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: students with interests and/or prior coursework in Africana Studies and Women's, Gender, and Sexuality Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
Distributions: (D2)

STS 214  (S)  Understanding Social Media
Cross-listings:  STS 214  SOC 212
Secondary Cross-listing

Over just the last twenty years--beginning with Friendster and MySpace and continuing through Facebook and Twitter, Snapchat and Instagram--the rise of social media has had a profound influence on the way we live. It has given a new rhythm to our daily routines, shaped the way we inform ourselves and converse with others, and transformed media and entertainment, politics and public discourse, and many other aspects of culture. This seminar course will undertake a broad and critical examination of social media, looking at it from historical, economic, legal, social, and phenomenological perspectives. The topics addressed will include social media's effects on self-image and self-formation, its influence on protest movements and political campaigns, its use as a conduit for news and propaganda, and the way commercial interests and technical characteristics have shaped its design and use. Through pertinent readings and lively discussions, and drawing on students' own experiences with social media, the course will illuminate social media's benefits and drawbacks while providing a foundation for thinking about possible legal, regulatory, and personal responses to this far-reaching and still unfolding social phenomenon.

Class Format: hybrid
Requirements/Evaluation: attendance and participation, team assignments, two 5-page writing assignments, final exam
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option

STS 215  (F)  Viral Inequality: Power and Difference in Pandemics  (DPE)
Cross-listings:  GBST 217  STS 215
Primary Cross-listing

From contested data to controversial containment strategies, the shape and course of pandemics are influenced at every level by the question: Who matters? Whose lives are prioritized and protected? Whose expertise is made actionable, and why? Focusing on the uneven distribution of risk and care during pandemics, this course explores how global health emergencies are not states of exception, but rather events that lay bare the priorities and interests of their host societies. Our investigation into pandemics--including Black Death, cholera, "Spanish" flu, HIV/AIDS, Ebola and novel coronaviruses--will provide a critical entry point into understanding the social, political, and economic processes that shape health interventions and outcomes, and their divergences along lines of social difference. We will ground our discussion and analysis using key concepts in Science & Technology Studies, while drawing from critical medical anthropology, disability studies, theories of capitalism and disaster studies to enrich our conversation.

Class Format: Online seminar
Requirements/Evaluation: Several short essays and reflection papers
Prerequisites: None, open to all students
Enrollment Limit: 12
Enrollment Preferences: If overenrolled, preference will be given to first-years and sophomores
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 217 (D2) STS 215 (D2)

Difference, Power, and Equity Notes: This course takes an intersectional approach to understanding how global pandemics unfold. It will emphasize how power dynamics and social differences shape responses to, and outcomes of, health emergencies. Readings in social and critical race theory are designed to give students a deeper appreciation of these issues.

Fall 2020
SEM Section: R1  TR 11:30 am - 12:45 pm     Shoan Yin Cheung

STS 221 (F) History of Photography
Cross-listings: ARTH 221 STS 221
Secondary Cross-listing
This lecture course will examine the history of photography from its beginnings in the 1830s to the present, from the first grainy black and white images to the work of contemporary artists using cutting-edge photographic technologies. We will examine photographs used for documentary, scientific, and aesthetic purposes, and we will trace the medium’s emergence and acceptance as a fine art. We will also explore photography’s physical and conceptual characteristics as a medium, paying particular attention to its uniquely intimate and frequently contested relationship to “the real.” By the end of the course, students will have a broad understanding of photography as a unique medium within the history of art and knowledge of the theoretical frameworks that developed alongside that history.

Requirements/Evaluation: three to four short papers, quizzes, online presentations.
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: art history majors
Expected Class Size: 14
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020
LEC Section: R1  MWF 11:45 am - 1:00 pm     Catherine N. Howe

STS 227 Death and Dying (WS)
In this course we will examine traditional philosophical approaches to understanding death and related concepts, with a special focus on the ethical concerns surrounding death and care for the dying. We will begin with questions about how to define death, as well as reflections on its meaning and function in human life. We will move on to examine ethical issues of truth-telling with terminally ill patients and their families, decisions to withhold or withdraw life-sustaining treatments, the care of seriously ill newborns, physician-assisted suicide, euthanasia, and posthumous interests. In addition to key concepts of death, dying, and terminal illness, we will develop and refine notions of medical futility, paternalism and autonomy, particularly within the context of advance directives and surrogate decision making.

Class Format: discussion
Requirements/Evaluation: class attendance and participation, periodic short essays (3 or 4 total, 2-3 pages each), two mid-length papers (5-7 pages and 7-10 pages, respectively); possible experiential learning component
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: PHIL majors, PHLH and STS concentrators, and students with curricular need for the course.

Expected Class Size: 15-19

Grading:

Distributions: (D2) (WS)

Writing Skills Notes: Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

Not offered current academic year

STS 228 (F) Feminist Bioethics (WS)

Cross-listings: PHIL 228 STS 228 WGSS 228

Secondary Cross-listing

In this course we will explore the ways in which feminist approaches to moral thinking have influenced both the methodology and the content of contemporary bioethics. The first portion of the course will address the emergence of the "Ethics of Care," critically assessing its origins in feminist theory, its development within the context of the caring professions, and its potential as a general approach to bioethical reasoning. The second portion of the course will use feminist philosophy to inform our understanding of the ways in which gender structures the individual's interactions with the health care system. To do this we will explore topics that might traditionally be considered "women's issues" in healthcare, such as medicine and body image (e.g., cosmetic surgery, eating disorders), reproductive and genetic technologies, and research on women and their health care needs. In addition we'll also look at feminist analyses of topics that traditionally have not been regarded as "gendered," such as resource allocation and end of life issues.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions; periodic short papers (2-3 pages); midterm and final paper (5-7 and 7-10 pages, respectively); and one oral presentation

Prerequisites: none, although previous coursework in WGSS is desirable

Enrollment Limit: 19

Enrollment Preferences: prospective and declared majors or concentrators in PHIL, WGSS, STS, and PHLH, especially those who need the course to satisfy major or concentration requirements

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 228 (D2) STS 228 (D2) WGSS 228 (D2)

Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

Not offered current academic year

STS 229 (F) The Panopticon: Surveillance, Power, and Inequality (DPE)

Cross-listings: STS 229 SOC 228

Secondary Cross-listing

Surveillance is built into the very fabric of modern life. From CCTV cameras, to supermarket loyalty cards, to the massive gathering of personal data on social media sites, people participate in today's "surveillance societies" just by doing everyday activities. This course uses the metaphor of the "Panopticon" as a doorway to engagement with traditional and new forms of surveillance. First described by philosopher and social theorist Jeremy Bentham, the Panopticon is a physical structure that enables one observer to see all inhabitants without those inhabitants knowing when they are
being observed. In *Discipline and Punish*, Michel Foucault famously expanded thinking on the Panopticon as a metaphor for the "disciplinary" power that lies at the heart of inequality in modern society. Since Bentham and Foucault's time, however, surveillance technologies have changed significantly. To what extent does the concept of the Panopticon give us purchase on today's surveillance societies? How does watching people with new digital and algorithmic surveillance technologies shape the exercise of power and, in turn, (re)produce forms of inequality? Can privacy, convenience, and safety ever be truly balanced? Topics include: the historical origins and expansion of surveillance in modern societies, the emerging total surveillance state in Baltimore City, and whether social media is turning us all into self-surveillance addicts.

Class Format: This class will be taught online only with both synchronous and asynchronous components. Students will be asked to attend one synchronous video meeting per week. The asynchronous portion will involve discussion of readings and video lectures.

Requirements/Evaluation: participation, reading responses, midterm essay, final paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 229 (D2) SOC 228 (D2)

Difference, Power, and Equity Notes: This course explores how power is distributed unequally through the mechanism of surveillance technologies, particularly in regard to racial and class differences. Among other topics, it will consider the concrete case of surveillance in Baltimore City and the question of if and when surveillance is appropriate there, given the city's ongoing crisis of citizen and police violence. Students will discuss police surveillance in a context shaped by racial segregation and class inequality.

Fall 2020

STS 231 (F) The African Anthropocene (DPE)

Cross-listings: ENVI 231 AFR 231 STS 231

Secondary Cross-listing

Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, poetry, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

Class Format: non-traditional technologies, web-streams, social media (Tumblr/Twitter)

Requirements/Evaluation: assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; juniors and seniors

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 231 (D2) AFR 231 (D2) STS 231 (D2)

Difference, Power, and Equity Notes: The African Anthropocene" considers inequity in environmental politics from the vantage of the African continent. Through selected readings and classroom discussions students will tackle questions of power, racial and gendered difference, empire, and economic stratification. The course contributes to the DPE requirement by helping students to develop skills to better analyze abiding challenges in global society.
STS 233 (F) Chemical Intimacies (DPE)

Cross-listings: ARTH 243 ENGL 243 SCST 233 WGSS 233 STS 233

Secondary Cross-listing

This is a research seminar that understands human-chemical entanglement in relationship to environment, sexuality, geography, ecology, and capacity. It doubles as a research class in which students choose a project of chemical intimacy to investigate as their own through the course of the semester. In the first half, we will together read and discuss forms of human-chemical entanglement, whether a matter of industrial pollution, pharmaceutical use, habitual intoxication, gendered self-care or enhancement, or built environment; the goal is to achieve a broad sensibility for the concept as well as a familiarity with thinking biochemically and biopolitically about living bodies, while consistently registering questions of race, gender, class, sexuality, disability, and more. In the second half, each participant will choose and research a historically and geopolitically specific scenario of chemical entanglement, while 1) considering the political, legal, cultural, and labor contexts of the case; 2) exploring relationships between “actual” and “represented” (protest slogans or visual productions in the case of environmental justice activism, for example); 3) examining other research questions germane to their site of interest and their chosen discipline of study. We will take one field trip to a local site.

Requirements/Evaluation: individual research project
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Art History majors, English majors, Environmental Studies majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 243 (D2) ENGL 243 (D1) SCST 233 (D2) WGSS 233 (D2) STS 233 (D2)

Difference, Power, and Equity Notes: The course gives special attention to forms of human-chemical entanglement that are related to environmental justice (pollution), and gender, racial, sexual, indigenous, and disability politics.

Not offered current academic year

STS 235 (F) Innovation, Gender, and Sustainable Development (DPE)

Cross-listings: WGSS 235 STS 235 SCST 235

Secondary Cross-listing

Technological innovation is vital for communities, businesses and nations seeking to adapt to a globalized, competitive world. But any innovation also has impacts on all three dimensions of sustainability: the ecological, the economic, and the social. For example, such impacts may either exacerbate or mitigate gender inequalities. This course uses a gender studies lens to study innovation in the development of sustainable practices in the present and for the future. We will look at the impact of gender stereotypes on innovation, including the co-construction of gender and technology. Since the course is taught by a visiting scholar from Sweden, a particular focus will be the EU's policy of "Gender Mainstreaming" which requires all proposed policies to be assessed for their impact on gender inequality. The course looks at technical development as necessary and valuable, while investigating power relations and taken-for-granted views embedded in the particular forms it takes. The course will rely largely on analysis of case studies, and students will be encouraged to apply the analytic tools of the course to develop US-based case studies of their own.

Class Format: combination of lecture and discussion
Requirements/Evaluation: reading journal, mid-term exam, and a final research project
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Environmental Studies majors, students who have taken WGSS 101
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 235 (D2) STS 235 (D2) SCST 235 (D2)

Difference, Power, and Equity Notes: The course focuses specifically on tools for analyzing the potential differential impacts of sustainable development projects along gender lines.

Not offered current academic year

STS 236 (F) Automatic Culture: From the Mechanical Turk to A.I.

Cross-listings: HSCI 236 SCST 236 STS 236

Primary Cross-listing

Using literary writing and visual representation as our primary points of entry, we will study the history of automation, exploring its effects as idea and as material implementation upon public and private spheres, craftsmen and courts, wage-laborers, artists, and inventors. Readings from such authors as E.T.A. Hoffman, Kurt Vonnegut, Roald Dahl, and Sydney Padua will be supplemented with studies in the history and historiography of technology. The objects we examine will be as different from one another as the dulcimer-playing android presented as a gift to Marie Antoinette, IBM's Deep Blue, and contemporary devices like Amazon's Echo.

Requirements/Evaluation: mid-term and final essays, discussion participation, and brief in-class writing exercises.
Prerequisites: none
Enrollment Limit: 25
Enrollment Preferences: STS concentrators
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
HSCI 236 (D2) SCST 236 (D2) STS 236 (D2)

Not offered current academic year

STS 239 (S) The Ethics of Artificial Intelligence

Cross-listings: STS 239 PHIL 239

Secondary Cross-listing

We will someday live alongside artificially intelligent beings who equal or exceed us. Commentators ranging from technology magnates to physics geniuses—not to mention decades of apocalyptic science fiction—have urged that the future is nothing short of an existential threat to human beings. Whether this is hyperbole or wise prognostication, it cannot be denied that the rise of AI will be a tectonic shift for culture, technology, and our fundamental sense of ourselves. When AI is fully realized, it is likely to be amongst the most important things to happen to our species. Some challenges we face are broad and about the future, though perhaps not the far future. How can we ensure that AI's will act morally? Is a world with AI's overall better or worse for us? How do we create legal and policy frameworks that cover a new kind of thinking being? If they are conscious, will AI's have dignity and rights? Other questions are pressing and immediate: Artificial intelligence techniques are used today to help decide whether someone gets a bank loan, is eligible to be released on bail, or in need of particular medical treatment. And right now there are autonomous vehicles deciding how to behave in traffic, and autonomous weapons capable of delivering lethal force. Is it moral for us to pass along these sorts of decisions to AI's? What if they are biased, unbeknownst to us? What if they are more fair? In this course we will engage ethical questions surrounding the seeming inevitability of AI.

Class Format: mixture of lectures and discussion
Requirements/Evaluation: four short (3- to 4-page) writing assignments and a final essay (8-10 pages)
Prerequisites: none
Enrollment Limit: 25
Enrollment Preferences: CSCI or PHIL majors or STS or COGS concentrators
Expected Class Size: 25
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

STS 239 (D2) PHIL 239 (D2)

Not offered current academic year

STS 240 (F) Great Astronomers and Their Original Publications (WS)

Cross-listings: ASTR 240 STS 240 HSCI 240 LEAD 240

Secondary Cross-listing

In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; Dialogo, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (Miscellanea curiosa, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (Atlas Coelestis, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the Gutenberg Bible (c. 1450) and a Shakespeare First Folio (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported Sidereus Nuncius, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

Class Format: Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: if overenrolled, preference by written paragraph of explanation of why student wants to take the course

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

CON Section: H3 Cancelled

STS 243 (F) Epidemic! A Critical History of Medicine, Science and Power (DPE)

The world after COVID won't look the same. It has disrupted our lives and laid bare the racial, gendered and economic inequalities in our health system, and the deficiencies of political and public health institutions, as it continues to claim more victims. For centuries, communicable diseases ravaged different communities and led to massive mortality and morbidity. The death toll disrupted social organizations, destroyed families and communities, and challenged medical institutions and State authority. Medical thought and practice struggled to make sense of contagion, disease factors and treatment; State authorities were faced with demands to intervene, protect and support the sick, all while its own institutions were ravaged...
by diseases; race, gender, sexuality and other human differences were deployed to justify why some died more, and to show that, for the State, some lives mattered more than others. In this course, we trace how epidemics influenced the history of medicine, science and technology, and how they impacted social structures around the world. We ask about the meaning of contagion, how medical and scientific thought understood diseases. We investigate the history of quarantines and isolations. We ask about race, gender and sexuality and their place in the making of epidemics, and we investigate the history of colonialism and its connection to changing disease landscape. Tracing epidemics from the nineteenth century plagues to COVID, the course investigates the place of epidemics and contagion in medical and scientific thought, how they relate to race, gender, sexuality and colonialism, and how they changed and shaped the world we live in.

Class Format: The class will be hybrid with once a month F2F meeting outside. All other meetings will be conducted remotely

Requirements/Evaluation: 2 response papers (3-5 pages each) + final project (could be a 10-15p paper or creative project of any kind)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Concentrators, followed by seniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course addresses how epidemics, and the way medical and political institutions dealt with them, were shaped by issues of race, gender, sexuality and human difference, and how epidemics in turn impacted perception of race, gender and sexuality. Students will engage with a number of theories and methods related to difference, such as critical race theory, postcolonial theory and queer theory.

Fall 2020

SEM Section: H1  MW 11:45 am - 1:00 pm  Ahmed Ragab

STS 250 (S) Environmental Justice (DPE)

Cross-listings: ENVI 250  STS 250

Secondary Cross-listing

How are local and global environmental problems distributed unevenly according to race, gender, and class? What are the historical, social and economic structures that create unequal exposures to environmental risks and benefits? And how does inequity shape the construction and distribution of environmental knowledge? These are some of the questions we will take up in this course, which will be reading and discussion intensive. Through readings, discussions, and case studies, we will explore EJ in both senses. Potential topics include: toxics exposure, food justice, urban planning, e-waste, unnatural hazards, nuclearism in the U.S. West, natural resources and war, and climate refugees. Occasionally, community leaders, organizers, academics, and government officials will join the class to discuss current issues.

Requirements/Evaluation: several short essays, final essay

Prerequisites: ENVI 101 or permission of the instructor

Enrollment Limit: 12

Enrollment Preferences: Environmental Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 250 (D2) STS 250 (D2)

Difference, Power, and Equity Notes: This course will explore how unequal power leads to environmental injustice. Specifically, we will analyze how local and global environmental problems are distributed unevenly according to race, gender, and class. This is a service-based learning course, and students will hone skills to address environmental injustices.

Not offered current academic year

STS 251 Science and Militarism in the Modern World

In 1961, United States President Dwight D. Eisenhower warned of the global dangers of what he called the “military-industrial complex.” In this course,
we will interrogate the military-scientific complex, or the imbrication of militarism and scientific knowledge. Surveying conflicts from the colonial wars of the late 19th century through to the present-day War on Terror, this course will consider how empire, networks of expert knowledge, resource extraction, environmental contamination, and land degradation have shaped the modern world. Students will engage a range of textual materials including books, films, photographs, and news reports.

**Requirements/Evaluation:** Course requirements include weekly short response papers (4-6 pages) and tutorial discussions.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** ENVI and STS majors and concentrators

**Expected Class Size:** 10

**Grading:**

**Distributions:** (D2)

*Not offered current academic year*

**STS 252 (F) Autopoietic Systems (WS)**

**Cross-listings:** PHIL 252 STS 252

**Secondary Cross-listing**

In ancient Greece, Democritus took his ontological bearings by atoms he took not to come to be, change, or pass away, but to move and interconnect in space so as to compose everything else. Plato also took his ontological bearings by entities that do not change, but ones that are not in space or time: mathematical structures and, at least aspirationally, the forms or ideas of the good, the beautiful, etc. Aristotle, finally, took his ontological bearings by temporal entities, i.e., organisms. In these terms, modern science combines central teachings of Democritus and Plato: the universe is understood as a mechanism whose components--ultimately, atoms--interact in ways governed by mathematical laws, and--for Descartes and his followers--animals, too, are machines rather than organisms. Hence, Laplace's (1814) thesis that "An intellect which at a certain moment would know all forces that set nature in motion, and all positions of all items of which nature is composed, if this intellect were also vast enough to submit these data to analysis, it would embrace in a single formula the movements of the greatest bodies of the universe and those of the tiniest atom; for such an intellect nothing would be uncertain and the future just like the past would be present before its eyes." This deterministic, mechanistic, and reductionist way of thinking has, for the past several hundred years, powerfully influenced such diverse fields as philosophy, biology, and economics. Over the past few decades, however, it has been challenged by new discoveries, particularly in physics and biology, and by theoreticians in a variety of disciplines. These theoreticians focus on complex, dynamic systems as, in one terminology, wholes that are more than the sums of their constituents. In this tutorial, we examine some of the most promising and intriguing trends in this potentially revolutionary movement. Our central focus will be on autopoietic systems, i.e., entities that subsist over time despite changing their material constituents. The smallest such entities are cells, but the tissues, organs, and organisms of which many cells are constituents are also autopoietic systems, as are yet more complex entities such as universities, economies, ecosystems, and states. The process ontology required by autopoietic systems is a radical alternative to the ontology that has been dominant for the past several centuries. It has many exciting implications for various subdisciplines in philosophy and for various academic disciplines beyond philosophy.

**Class Format:** Virtual

**Requirements/Evaluation:** Presentations, responses to presentations, essays, response papers, participation in discussions.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** Philosophy majors and potential majors.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

*This course is cross-listed and the prefixes carry the following divisional credit:*

PHIL 252 (D2) STS 252 (D2)

**Writing Skills Notes:** Students will write 6 6-8 page essays and 6 2-3 page response papers. I will comment on all the essays, and my comments will aim to help students improve their writing skills. Among the issues to be addressed will be the challenge of writing essays to be presented rather than simply to be read.
**STS 261 (S) Science and Militarism in the Modern World**

**Cross-listings:** STS 261 ENVI 261  

**Secondary Cross-listing**

In 1961, United States President Dwight D. Eisenhower warned about the global dangers of what he called the "military-industrial complex." In this course, we will interrogate the military-scientific complex, or the imbrication of militarism and scientific knowledge. Surveying conflicts from World War II through to the present-day War on Terror, this course will consider how empire, networks of expert knowledge, resource extraction, environmental contamination, and land degradation have shaped the modern world. Students will engage a range of textual materials including books, films, photographs, and news reports. Course requirements include weekly writing assignments and participation in small group discussions.

**Class Format:** This course adopts a tutorial model. Students will be divided into 5 groups of 2. Each week the groups will meet with me. Each pair will include one "presenter," who shares a 4-6 page paper responding to the week’s theme, and one "respondent," who will offer a 2-3 page response to the presenter’s paper. The roles of presenter and respondent will alternate each week. Each student will produce 5 papers as "presenter" and 5 papers as "respondent."

**Requirements/Evaluation:** Each student will produce five (4-6 page) papers as "presenter" and five (2-3 page) papers as "respondent." Grades will be issued based on the portfolio of papers and active participation in discussions.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** ENVI and STS majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**STS 265 (F) Digital Performance Lab**

**Cross-listings:** SCST 265 THEA 265 STS 265  

**Secondary Cross-listing**

A collaborative laboratory investigating the intersection of live art and new media, this studio course explores the opportunities for (and problems of) performing through various media. Using audio, video, web-based, interactive, algorithmic, and analog platforms, students will perform research and create performances that examine liveness, broadcasting, digital stages, networking, and what it means to be both a spectator and a maker in the digital age. Students will develop technical and collaborative skills in artistic and new media production, gain fluency in contemporary theories of liveness, performance, and visual culture, and will research historical and current trends in mediatized performance practices.

Platforms/technologies/media forms that may be considered include Twitter, live radio, in-ear monitors, algorithmic composition, bots, video games, live streaming, VJ software, interactive audio, sensors, soundwalks, Snapchat, VR, and surveillance.

**Requirements/Evaluation:** bi-weekly projects and presentations, bi-weekly 2-page critical writing assignments, class participation, work ethic, and collaborative skills

**Prerequisites:** none

**Enrollment Limit:** 20

**Expected Class Size:** 6

**Grading:** no pass/fail option, yes fifth course option

**Materials/Lab Fee:** $100

**Distributions:** (D1)

Not offered current academic year

STS 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Secondary Cross-listing
This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutsch@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020

STS 272 (S) The History and Mythology of Chinese Scripts

Cross-listings: STS 272 CHIN 272 COMP 272

Secondary Cross-listing
Written scripts using what are most often called "Chinese characters" have an attested history of over 3000 years and have been used all over the world to represent a range of different languages. In this course we will examine the history and development of Chinese characters from their earliest extant examples on sacrificial animal bones to their often amusingly misguided use for contemporary tattoos. We will look at historical evidence and mythology, carefully constructed grammatological studies and wild orientalist imaginings. Some topics will include: comparisons between the development of Chinese characters and other written scripts, the relationship between Chinese characters and the languages of China, the use of Chinese characters to write non-Chinese languages, Chinese characters in art and calligraphy, theories of connections between Chinese characters

Class Format: discussion

Requirements/Evaluation: quizzes, short writing assignments, a midterm, and a final exam

Prerequisites: none

Enrollment Limit: none

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

STS 273 (F) Politics without Humans?

Cross-listings: ENVI 273 STS 273 PSCI 273

Secondary Cross-listing

Are human beings the only beings who belong in politics? And is political involvement a unique or defining aspect of what it means to be human? Such questions are increasingly complex as the boundaries of "the human" become blurred by the rise of artificial intelligence, robotics, and brain implants: shifting attitudes towards both animal and human bodies; and the automation of economic and military decisions (buy! sell! attack! retreat?) that used to be the prerogative of human actors. How do visions of politics without humans and humans without politics impact our thinking about longstanding questions of freedom, power, and right? Can and should the link between humans and politics survive in an age in which "posthuman" or "transhuman" entities become central characters in the drama of politics? This class will consider these questions through readings, films and artifacts that bring political theory into conversation with science fiction, popular literature on the so-called "singularity" (the merger of humans with computers), science and technology studies, evolutionary anthropology, "new materialist" philosophy, and feminist theory.

Requirements/Evaluation: three 5- to 7-page papers, regular Glow posts, class participation

Prerequisites: please note that this is an introductory-level course with no prerequisites; first-year students and those with no background in political theory are welcome, as are more experienced students

Enrollment Limit: 25

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

Not offered current academic year

STS 276 Music and the Internet

Since the release of Napster in 1999, the Internet's relationship with music has been sometimes elevating and sometimes adversarial. While it has granted listeners access to broad music libraries and musicians access to large audiences, the Internet has also exposed listeners to legal action, taxed artists with dwindling royalties, and disrupted and reshaped the recording and publishing industries. This course examines how the Internet has affected music at every level, from its creation to its distribution and consumption. Topics will include music written for online spaces, musical performances that take place online, music and online gaming, live music that refers to the Internet, the financial and philosophical background of music file formats, changing notions of musical ownership, censorship of music online, music's place in memes, and the user experience in (and attitudes toward music projected by) services like iTunes, YouTube, Spotify, and musically.

Class Format: discussion

Requirements/Evaluation: 4-page midterm paper, 8-page final paper, one presentation, two mid-semester creative projects

Prerequisites: none
STS 280  (F)  Silicon Valley: Digital Transformation and Democracy

Cross-listings: POEC 280  PSCI 280  STS 280

Secondary Cross-listing
Nearly every country in the world seeks to drive economic growth by promoting digital technologies. In the twenty-first century, the universal model is Silicon Valley. But as much as tech may drive economic growth, it may also threaten democratic politics. This tutorial explores this tension. We do so in four steps by examining (1) the origins of the Silicon Valley model, (2) other countries’ attempts to emulate it, (3) what it’s like to work in tech, and (4) possibilities for regulating the tech sector. Each step will deepen students’ understanding of tech. By engaging multiple analytical lenses, students will develop the tools to articulate the possibilities and imperatives of democratic politics in the twenty-first century.

Requirements/Evaluation:  Five 5-page papers; five 2-page responses; participation
Prerequisites:  One introductory course in political science and/or permission of the instructor.

STS 281  (S)  Religion and Science

Cross-listings: REL 281  STS 281

Secondary Cross-listing
In the last few years the deniers of religion such as Dennett and Dawkins have forcefully argued that recent scientific developments show the degree to which religion is irrelevant to a modern understanding of what it means to be human. Atran and Boyer have made a similar case, arguing that recent progresses in our understanding of human cognition demonstrate that religion is a purely natural phenomenon that has little if any value for human development. Theologians such as Haught and Polkinghorne have rejected these views, arguing that a proper understanding of scientific developments such as evolution and quantum mechanics suggests religiously relevant views of the universe and our place therein. This course considers these competing perspectives while offering critical reflections on the views and categories involved in these controversies. We also examine the works of reflective naturalists such as Bellah and Herrstein, who argue that far from showing the irrelevance of religious ideas and practices, the new mind and life sciences suggest a much more nuanced view according to which religion is both grounded in the natural world and central to the development of human culture. Hence, it cannot be easily discounted as irrelevant to a scientifically informed understanding of what it means to be human.

Requirements/Evaluation:  tutorial format. one paper every two weeks
Prerequisites:  none

Enrollment Limit:  19
Expected Class Size:  14

Fall 2020
TUT Section: RT1  TBA  Sidney A. Rothstein
STS 301  (F) Social Construction  (DPE)

Cross-listings:  COMP 315  WGSS 302  REL 301  SOC 301  STS 301  SCST 301

Secondary Cross-listing

"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constitutionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation:  regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites:  none

Enrollment Limit:  15

Enrollment Preferences:  Religion majors, then majors from cross-listed departments

Expected Class Size:  15

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 315 (D2) WGSS 302 (D2) REL 301 (D2) SOC 301 (D2) STS 301 (D2) SCST 301 (D2)

Difference, Power, and Equity Notes:  Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

Not offered current academic year

STS 302  (S) Race, gender and science: A Black, Brown, and Queer inquiry into Science and Technology Studies  (DPE)

Cross-listings:  HIST 390  STS 302

Primary Cross-listing

The protests that followed the murder of George Floyd have brought to the fore the realities of racism and violence that Black, Indigenous and People of Color experience daily. They also motivated a long overdue reckoning in various fields and institutions with the legacy of structural racism, and of colonial history. The history of modern science, technology and medicine is intractably connected to questions of race, gender, sexuality and colonialism. Scientific knowledge has been influenced by debates related to human difference and to colonialism, and has also contributed to the production of ideas around difference and distinction as well as around equality and equity. In this course, we will take a deeper look into different episodes in the history of modern science, technology and medicine, and will engage in a Black, Brown and Queer reading and investigation of science and technology. The course will offer a deep historical and methodological introduction to STS, as well as to a number of critical disciplines, such as Critical Race Theory, Postcolonial and decolonial theory, queer theory, in relation to science, technology and medicine. This course can serve
as an alternative to STS 101.

Class Format: The course will be held remotely

Requirements/Evaluation: 2 response papers (3-5 pages each) + final project (could be a 10-15 page paper or creative project of any kind)

Prerequisites: Previous courses in STS, history, CRT, WGS, or similar disciplines is preferred but not necessary.

Enrollment Limit: 10

Enrollment Preferences: Juniors and Seniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 308 (S) What is Power?

Cross-listings: REL 308  STS 308  SOC 308  PSCI 306

Secondary Cross-listing

What is power? Despite the importance of notions of power across the social sciences, there is a broad lack of consensus. Is power essentially domination or resistance? Is it freedom, empowerment, privilege, or oppression? Are there forms of unequal social power which are morally neutral or even good? Is power the kind of thing held by individuals, races, genders, classes, discourses, causal mechanisms, institutions, or social structures? What is the connection between social and physical power? Does power obey laws? How does power relate to technology? Or knowledge? Or agency? Or ideology? This course begins with the observation that power is often described as a causal relation—an individual's power is supposed to equal their capacity to produce a change in someone else's behavior. This suggests that the better we can understand the nature of cause and effect, the better we can understand power. Fortunately, in recent decades philosophers have made significant progress in theorizing causation. Hence, this seminar will put two very different bodies of theory in conversation: critical theory about power and philosophy of science about cause and effect. We will trace classic philosophical accounts of power and causation (in European and Chinese philosophy), as well as more recent developments in philosophy of science, political theory, and other fields. The insights we gain in this course from analyzing the nature of power should empower us to more effectively transform society. It will help students in the social sciences to understand the nature of causation in the social world, and it will help students interested in political action to better understand the nature of power. Thinkers to be considered may include: Aristotle, Amy Allen, Hannah Arendt, Bourdieu, Judith Butler, Nancy Cartwright, Foucault, Gramsci, Byung-Chul Han, Han Feizi, Giddens, Hobbes, Hume, Locke, Steven Lukes, Machiavelli, J.L. Mackie, Marx, Nietzsche, Sunzi, and Max Weber.

Class Format: Remote

Requirements/Evaluation: critical annotations for every class, midterm review essay (4-6 pages), final essay (10-12 pages)

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Religion majors, STS concentrators,

STS 315  (S)  Blackness 2.0: Race, Film and New Technologies

Cross-listings:  AFR 315  STS 315  SCST 315  AMST 315

Secondary Cross-listing

Are distinctions of race truly eliminated with digital technologies? Through an engagement with scholarship in media studies, cultural studies, gender studies, and Africana studies (to name a few), this course will investigate the nuanced ways blackness is (re)constructed and (re)presented in digital technologies. Although we will largely focus on representations of blackness in modern film, we will examine the impact of ‘new’ technologies upon the broader categories of race, gender, and sexuality. Additional topics may include: avatar-based entertainment; race in the ‘real’ vs ‘virtual’ world; emoji wars; blogosphere politics; internet and hashtag activism; social networking and a post-race future; and fandom in the twitter era.

Requirements/Evaluation:  participation and attendance, creation and maintenance of a personal blog, structural analyses for film, and design of an original multimedia project

Prerequisites:  none

Enrollment Limit:  19

Enrollment Preferences:  Africana Studies concentrators

Expected Class Size:  15

Grading:  no pass/fail option, no fifth course option

Distributions:  (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 319  (S)  Neuroethics  (WS)

Cross-listings:  NSCI 319  PSYC 319  STS 319

Secondary Cross-listing

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmacology" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an
individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

Requirements/Evaluation: six 5-page position papers and five 2-page response papers as well as participation in discussions

Prerequisites: PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Psychology majors and Neuroscience concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

NSCI 319 (D3) PSYC 319 (D3) STS 319 (D2)

Writing Skills Notes: In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

STS 338 (F) Transhumanism: Religion, Technoscience, Obsolescence

Cross-listings: HSCI 338 SOC 338 STS 338 REL 338

Secondary Cross-listing

This interdisciplinary seminar invites students to pursue sociohistorical analysis and sustained critical discussion of the transhumanist movement and its overriding aims: the augmentation, transformation, and eventual transcendence of human biological constitution; the realization, through speculative technoscientific means, of an enhanced or even "postbiological existence"--a "posthuman condition." "Humanity 2.0." Through close readings of primary historical documents, transhumanist texts, scholarship on transhumanism, works of science-fiction film, literature, and popular culture, we will position the movement as an empirical conduit through which to explore the sociohistorical conditions under which transhumanist ideas and practices have emerged, circulated, and taken up residence. To that end, we will consider the ties of transhumanism to eugenics and massive investments in pharmaceuticals, anti-aging medicine, and so-called "GNR" technologies (i.e. genetics, nanotechnology, and artificial intelligence and robotics); the movement's affinities with neoliberalism and what some have pointed to as transhumanism's racialized subtext of whiteness. We will furthermore devote considerable attention to the technological singularity, the figure of the cyborg, mind-uploading, space colonization, and cryonic suspension, all of which, like transhumanism broadly, suggest that science and technology have in some sense come to operate as powerful channeling agents for the very sorts of beliefs, practices, and forms of association that theorists of secularization expected modernity to displace. Lastly, throughout the course of the seminar we will take transhumanism as a provocation to think broadly and seriously about religion, technology, embodiment, and ways of being human.

Class Format: Remote

Requirements/Evaluation: informal weekly writing, two short review essays, and one 15-page seminar paper

Prerequisites: Prior coursework in sociology-anthropology, history, religion, or science and technology studies.

Enrollment Limit: 14

Enrollment Preferences: Anthropology and Sociology majors and Science and Technology Studies concentrators

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

HSCI 338 (D2) SOC 338 (D2) STS 338 (D2) REL 338 (D2)

Fall 2020

SEM Section: R1   TR 9:45 am - 11:00 am   Grant Shoffstall
Histories of science and religion have been deeply intertwined with colonial and postcolonial history. Colonial claims to legitimacy were often rooted in perceptions of scientific and technological superiority, and colonial expansion often marched in lockstep with missionary activity and forced conversions. In the process, race and human difference emerged as concepts at the intersection of scientific and religious discourses and was forged within the colonial framework. This colonial history of science and religion impacted how scientific and religious thought, practices and institutions developed through the period of decolonization and into today. Similarly, the attendant history of race and human difference continues to influence postcolonial and contemporary discourses around race, ethnicity, identity and migration. In this course, we will trace key moments in the history of science and religion and their relation to coloniality. We will start in the sixteenth century with the rise of modern European empires, move into the height of modern colonialism, indigenous genocides and chattel slavery, and trace decolonization from the middle of the nineteenth into today. Throughout, we will investigate how science and religion emerged as concepts, practices and institutions, and how these narratives impacted, and were impacted by colonial expansion and history. We will pay particular attention to questions of race, gender, sexuality and human difference as key concepts and practices that emerged at the intersections of science, religion and (post)colonialism.

Requirements/Evaluation: 2 response papers (3-5 pages each) + final project (could be a 10-15 page paper or creative project of any kind)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Concentrators, followed by seniors and juniors

Expected Class Size: 15

Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course addresses questions of race, gender, sexuality and human difference as seen through the history of science, technology and medicine. Students will creatively engage with critical race theory, postcolonial theory and queer theory. They will also investigate human suffering as a category that provides a deeper understanding of difference, diversity and equality.

Not offered current academic year

STS 348 (S) Women, Men and Other Animals (DPE)

Cross-listings: ARTH 348 STS 348 SCST 348 WGSS 348 ENGL 348

Secondary Cross-listing

In this seminar, we will together learn to be "animal critics." We will explore ways in which human groups and interests, particularly in the United States, have both attached and divorced themselves from other animals, considering such axes as gender, race, ability, and sexuality as key definitional foils for human engagements with animality. What are the "uses" of "animals" for "us," and precisely who is this "us"? How and when are some willing to see themselves as animal--indeed, under what political conditions do they embrace it? What is the history of unique, often asymmetric, interdependencies between human animals and nonhuman animals? How do actual lives of humans and non-human animals merge and clash with the rhetorics and visualities of human animality? We will examine both "everyday" animality and the forms of animality that stand out only today in retrospect, in their exceptionality, or upon reflecting on structures of privilege. We will build a critical animal studies vocabulary from a range of readings in science, philosophy, art, feminism, indigenous studies, critical race, geography, fiction, film, rhetoric, history, activist movements, disability studies, postcolonial studies, and examine both visual and narrative cultural production.

Requirements/Evaluation: individual research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Art History majors, English majors, Environmental Studies majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 348 (D1) STS 348 (D2) SCST 348 (D2) WGSS 348 (D2) ENGL 348 (D1)

Difference, Power, and Equity Notes: Human/animal intersections are analysed with special attention to axes of gender, race, ability and sexuality.

Not offered current academic year
Philosophy is often described as thinking about thinking: variously conceived inquiries into the nature, scope and limits of human reasoning have always been at its heart. Without challenging the centrality of such projects for philosophy, this tutorial will focus on a less emphasized, but equally essential aspect of our lives: emotions. What are emotions, and how should we think about them? What is the proper ‘geography’—classification and analysis—of our emotions, and what is their relation to our somatic states, feelings, beliefs, judgments, evaluations and actions? Do we have any control over our emotions? Could we (individually and socially) educate and cultivate them? How are conscious and unconscious emotions related to a person’s action, character, and her social world? In addressing these substantive questions, we will also consider which methodological approach—if a single one can be privileged—we should adopt for examining emotions. We will try to determine what is the scope and nature of an adequate theory of emotions, what are the desiderata for such a theory, and what should count as evidence in its favor. We will examine a variety of philosophical and scientific theories of emotion, as well as some issues concerning normative aspects of emotions: the role of emotions in a good life, and the concept of emotional maturity.

Class Format: The class will meet remotely only.

Requirements/Evaluation: Class attendance, preparedness and participation; weekly meetings with the tutorial partner outside of the class; five lead papers (5-7 pages) and five short response papers (2-3 pages).

Prerequisites: two philosophy courses.

Enrollment Limit: 10

Enrollment Preferences: philosophy majors and prospective majors, then psychology majors.

Expected Class Size: 10

Grading: Distributions: (D2)

Not offered current academic year

STS 353 (S) Is Science Native to Turtle Island? The History of Native Science in North America (DPE)

Cross-listings: STS 353 AMST 353

Secondary Cross-listing

Settler sciences and technologies deployed by Europeans colonizing Turtle Island (what settlers called North America) were introduced as weapons of Indigenous termination. From medical violation, to anthropological theft, and industrial pollution, settler technoscience objectified and appropriated Indigenous people and lands, and attempted to displace Indigenous knowledge in the pursuit of settler supremacy. Indigenous bodies were cast as victims, objects and sometimes the tools of this project. And yet, as tools and objects, Indigenous peoples took up settler technoscience in a multitude of ways that failed (both purposefully and not) to adhere to the colonizing mission, incorporating Indigenous knowledges and orientations, subverting settler science as a source of authority, and positioning science as a site of Indigenous sovereignty. The practice of taking up science as a tool of decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and technology studies (STS), history, and postcolonial and queer theory.

Requirements/Evaluation: attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 13

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 353 (D2) AMST 353 (D2)

Difference, Power, and Equity Notes: This course will explore how settler sciences have been used as a technology of difference making, dispossession, and genocide in United States history. It will also provide students a theoretical toolkit and historical perspective by which they can
grapple with the fact that power structures like settler technoscience can be a source of both colonization and liberation.

Not offered current academic year

**STS 364 (S) Mental Health and Illness: Philosophical Considerations**

**Cross-listings:** STS 364  PHIL 364

**Secondary Cross-listing**

This course will raise and discuss a number of philosophical questions concerning our current understanding of mental health and mental illness. We will begin by examining the general concepts of health and disease, and then apply them to human psychology. Throughout the course, our focus will be on the best theoretical and practical knowledge we now have to diagnose, explain, and alleviate mental illness. Some of the questions that we will discuss are: What is psychopathology and what are its causes? Is it possible to have systematic knowledge of subjective experience? If so, is that knowledge importantly different in kind or in rigor from the knowledge we gain through physics, chemistry or geology? Are there metaphysical and ideological assumptions in contemporary psychiatry, and if so, could and should they be avoided? What is the basis on which current psychiatric diagnostic manuals are organized? Is that principle of organization justifiable or not? Do particular case histories offer good explanations of psychopathology? In framing and answering these questions, we will discuss subjective experience (or phenomenology) of mental illness; holism vs. reductionism; functional, historical and structural explanations of psychopathology; theory formation, evidence, and the role of values in psychology and psychiatry; the diversity and disunity of psychotherapeutic approaches; relationship between knowers and the known; and relationship between theoretical knowledge in psychiatry and the practices of healing.

**Requirements/Evaluation:** several writing assignments, evenly spaced throughout the semester

**Prerequisites:** two philosophy courses; or one philosophy and one STS course; or consent of the instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** students who took Philosophy of Science or Philosophy of Mind; Philosophy and Psychology majors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 364 (D2) PHIL 364 (D2)

Not offered current academic year

**STS 370 (F) Medicine and Campus Health in Disruptive Times**

**Cross-listings:** STS 370  WGSS 371  ANTH 371

**Secondary Cross-listing**

This class uses the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus health or community health. Students will use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys to explore our campus community comprised of students, faculty, and/or staff, that build on weekly discussions, feedback, and design exercises. We situate our campus health projects within the wider context of how power and intersectionality inflect and structure health and well-being locally and globally. Our case studies explore how structural racism shapes medical education, pediatric care, and maternity care in the US, how the spread of US psychiatry inflects the landscape of global mental health, and how queer activism responded to the HIV/AIDS crisis. We consider how disruptive moments like COVID-19 or HIV/AIDS can serve as focal moments in social history that reveal underlying inequalities of health outcomes and access. We attend to the parallel roles of narrative in medicine and ethnography, as we contrast the discourse of providers & patients as well as researchers & interlocutors. Throughout our goal is to better understand the strengths and limits of ethnographic inquiry while exploring the challenges of collaborative and participatory research within communities always already structured by power, privilege, and engaged practices.

**Class Format:** Offered in hybrid format, yet students are encouraged to attend in person if they can. Students will be grouped into in-person or remote sections and can be reassigned during the semester if they request or require it for health reasons. Students should complete all assignments, weekly exercises, and attendance in class discussion. Please email me (Kgutsch@williams.edu) to indicate whether you plan to attend in person or remotely.

**Requirements/Evaluation:** Three written fieldnotes, weekly attendance and other writing exercises, midterm and final presentations on fieldwork projects

**Prerequisites:** none, but a class in Anthropology, Sociology, Science & Technology Studies, or other social science is recommended
Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women's, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

Difference, Power, and Equity Notes: This class examines the intersection of race, gender, class, and sexuality in structuring health outcomes, well-being, and access to health resources. It theorizes the ways that intersectionality shapes health of individuals and societies, including patient/provider encounters and efforts to 'improve' community health within contexts of social inequality and social suffering.

Fall 2020

SEM Section: H1    WF 1:30 pm - 2:45 pm     Kim  Gutschow

STS 372  Time and Temporality
Duration, rhythm, speed, pace, trajectory, sequence, articulation, busyness, boredom, flow--time is one of the most fundamental categories of our experience of reality. Since the founding of the discipline, sociologists have been interested in how time, while seemingly given and natural, is deeply influenced by history and society. This two-part course will introduce students to the sociological analysis of time and temporality. In part one, students will explore the emergence of the so-called "modern western temporal order"--the sense of time that many people take for granted as the way things are. We will excavate the historical roots of schedules, clocks, calendars, and time zones; examine how capitalism and colonial conquest disseminated particular notions of time around the globe; and discuss leading theories of how constructions of time change through history and vary among communities. In part two, we will focus on one of the most frequently lamented and celebrated qualities of modern temporality: acceleration. Is the world speeding up? Why do so many people feel always pressed for time? What are the promises and limits of speed, acceleration, and ceaseless change for building a robust democratic society?

Requirements/Evaluation: participation, time diary analysis (3-5 pages), final paper (10-12 pages)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading:

Distributions: (D2)

STS 375  (F)(S)  Human Work in Computational Systems  (QFR)

Cross-listings:  CSCI 377  STS 375

Secondary Cross-listing

As far as we know, the technological singularity has not yet arrived. Therefore, humans remain a part of our current computation pipeline. However, the role humans play varies greatly: self-driving cars aim to have human involvement only in development and emergencies, whereas educational tools are built for constant human involvement. In this course, we broadly explore human work within computational systems through topics such as crowdsourcing, educational technology, citizen science, human computation, open-source software, micro-labor markets, and online gaming. Students should expect broad exposure to a wide variety of human computing topics and group projects on building and evaluating computational systems that use human work.

Class Format: Lectures will be held on Wednesday and Friday each week. Conference sections will each meet once per week. Students should sign up for the lecture section and one conference.

Requirements/Evaluation: Course projects, in-class group work/participation, weekly written homework assignments/readings.

Prerequisites: CSCI 136
Enrollment Limit: 20
Enrollment Preferences: Preference for current CS majors
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Materials/Lab Fee: $75 for purchase of software and work on crowdsourcing platforms.
Distributions: (D2) (QFR)
This course is cross-listed and the prefixes carry the following divisional credit:
CSCI 377 (D3) STS 375 (D2)
Quantitative/Formal Reasoning Notes: This course includes regular homework and projects in which quantitative/formal reasoning skills are practiced and evaluated.

STS 376 (F) Human-Computer Interaction
Cross-listings: STS 376  CSCI 376
Secondary Cross-listing
Human-Computer Interaction (HCI) principles are practiced in the design and evaluation of most software, greatly impacting the lives of anyone who uses interactive technology and other products. There are many ways to design and build applications for people, so what methods can increase the likelihood that our design is the most useful, intuitive, and enjoyable? This course provides an introduction to the field of human-computer interaction, through a user-centered approach to designing and evaluating interactive systems. HCI draws on methods from computer science, the social and cognitive sciences, and interaction design. In this course we will use these methods to: ideate and propose design problems, study existing systems and challenges, explore design opportunities and tradeoffs, evaluate and improve designs, and communicate design problems and solutions to varying audiences.

Requirements/Evaluation: course projects, in-class group work/participation, and exams
Prerequisites: CSCI 136
Enrollment Limit: 24
Enrollment Preferences: current or expected Computer Science majors
Expected Class Size: 24
Grading: no pass/fail option, no fifth course option
Distributions: (D3)
This course is cross-listed and the prefixes carry the following divisional credit:
STS 376 (D2) CSCI 376 (D3)
Not offered current academic year
Secondary Cross-listing

This course examines representations of American landscapes in selected texts from the British colonial era to the present. Critical approaches will include narrative theory, formalism, eco-criticism, and science and technology studies. The central questions are: (1) How do authors adapt narrative and poetic forms to the representation of particular landscapes? (2) How do literary landscape representations change when new technologies arise for traversing and transforming them? (3) What effects can literary landscapes have on the landscapes we live in? Landscapes include settlements, cities, wildernesses, "frontiers," suburbia, and infrastructural scenes. Relevant technologies include the postal service, the railroad, the telegraph and telephone, the automobile, commercial aviation, and Skype. Texts may include: letters of Columbus, American Indian creation stories, early American religious texts, captivity narratives, slave narratives, and poems, short stories, and novels from the 17th to the 21st centuries, as different from one another as Dickinson's "Nature-sometimes sears a Sapling-" and Annie Proulx's *Brokeback Mountain*.

Requirements/Evaluation: discussion participation; five brief response papers (~2 pages); a mid-semester essay (~5 pages); a final essay (12- to 15-pages)

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 376 (D1) STS 377 (D2) AMST 376 (D1)

Not offered current academic year

---

Secondary Cross-listing

Artificial intelligence (AI) is already transforming society and every industry today. In order to ensure that AI serves the collective needs of humanity, we as computer scientists must guide AI so that it has a positive impact on the human experience. This course is an introduction to harnessing the power of AI so that it benefits people and communities. We will cover a number of general topics such as: agency and initiative, AI and ethics, bias and transparency, confidence and errors, human augmentation and amplification, trust and explainability, and mixed-initiative systems. We explore these topics via readings and projects across the AI spectrum, including: dialog and speech-controlled systems, computer vision, data science, recommender systems, text summarization, and UI personalization, among others.

Class Format: There is no scheduled time for lectures. They will be available for asynchronous viewing. Each conference section will meet once per week, on either Tuesday or Wednesday. Students should sign up for lecture and one conference.

Requirements/Evaluation: homework, programming assignments, group work, participation, and quizzes

Prerequisites: CSCI 136, and at least one of CSCI 237, 256, or 334

Enrollment Limit: 20(8/conf)

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Secondary Cross-listing

In this course we will examine the various ways Black scholars, artists, & writers use science fiction and visionary fiction to imagine freedom and new world orders. We will focus on the role of history, particularly slavery, in the Black radical imagination. "Freedom" is the keyword throughout the course. We will grapple with the various and sometimes conflicting meanings and uses of freedom as it relates to blackness, gender, sexuality, class and ability. We will explore multiple forms of scholarship and cultural productions, including film, music, novels, short-stories, art, poetry, and other academic texts. All students will be asked to discover and develop their writerly voices through various critical, creative, experimental and performative assignments.

Requirements/Evaluation:  active participation, completion of various short assignments, one 5-page paper and one 7- to 10-page final paper

Prerequisites:  none

Enrollment Limit:  20

Enrollment Preferences:  Women's, Gender and Sexuality Studies majors, then Africana Studies concentrators

Expected Class Size:  20

STS 401 (F) Critical Perspectives on Science and Technology
A research-oriented course designed to give students direct experience in evaluating and assessing scientific and technological issues. Students initially study particular techniques and methodologies by employing a case study approach. They then apply these methods to a major research project. Students may choose topics from fields such as biotechnology, computers, biomedical engineering, energy, and other resource development. Students will apply their background of historical, philosophical, and technological perspectives in carrying out their study.

Requirements/Evaluation: research paper or project
Prerequisites: none
Enrollment Limit: 5
Expected Class Size: 5
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

STS 402 (F) Cold War Technocultures
Cross-listings: SCST 401 STS 402 SOC 363
Secondary Cross-listing
In this seminar students will pursue sociohistorical analyses of Cold War American culture(s) by attending to key points of intersection between politics, aesthetics, and major technoscientific developments during this period. Part I will focus principally on the emergence of the computer and its role in shaping American infrastructure and styles of thought aimed at Soviet "containment." We will trace the historical threads connecting MIT's "Whirlwind" computer project and the SAGE continental air defense system; nuclear wargaming at the RAND Corporation and the aesthetics of "thinking the unthinkable"; the science of cybernetics and the prospect of automation; and ultimately the role of computation, intermedia, and systems logic in perpetrating the atrocities of the Vietnam War. Part II will take up the Cold War space race--from Luna 2, Sputnik I, and Yuri Gagarin to Projects Mercury, Gemini, and the Apollo moon landing. Within this context we will also consider the Club of Rome's Limits to Growth report; plans backed by NASA for the industrialization and colonization of outer space; and the place of science-fiction as a Cold War aesthetic (print, televisual, cinematic). Part III, finally, will explore key moments of conflict, resistance, appropriation, and unintended consequences of Cold War technoscientific developments, among them antipsychiatry and environmentalism; Project Cybersyn, an infrastructural casualty of the U.S./CIA-backed Chilean coup of 1973; the New Left, the American counterculture, new social movements, and the countercultural roots of new media and neoliberalism.

Requirements/Evaluation: two 5-page book review essays, weekly 1-page papers, midterm essay exam, final essay exam
Prerequisites: STS 101 or instructor consent; prior coursework in Anthropology and Sociology and/or History
Enrollment Limit: 15
Enrollment Preferences: Anthropology and Sociology majors, Science and Technology Studies concentrators
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

Not offered current academic year

STS 413 (S) Feminist Technoscience (DPE)
Cross-listings: WGSS 413 STS 413
Primary Cross-listing
Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? What features do they share as ethical, political, and epistemological practices? What have scientific feminism and feminist science looked like in print and in practice since the middle of the 20th century, and how have they shaped our present, 21st-century technoscientific culture? To address these questions, we will read a set of essays and academic articles that are connected by a trail of citations. These will include works of theory -- like Donna Haraway's "Situated Knowledges" and "A Cyborg
Manifesto” -- research write-ups like Pat Treusch’s “The Art of Failure in Robotics,” and ethnographic work like Sophia Roosth’s “Evolutionary Yarns in Seahorse Valley.” We will also examine the editorial introduction to “Science Out of Feminist Theory,” a 2017 special issue of Catalyst, and we will circle outward and backward to make sense of the terms and arguments we encounter there. While some of the readings will be set in advance, students will help shape the syllabus as we travel toward a better understanding of feminist technoscience’s potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

**Class Format:** This course will meet remotely in Spring 2021.

**Requirements/Evaluation:** discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); final essay (12-15 pages + in-class presentation)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Science and Technology Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 413 (D2) STS 413 (D2)

**Difference, Power, and Equity Notes:** Central to “Feminist Technoscience” is a recognition of and engagement with the historical under-privileging of women, women’s work, and women's bodies in capital-S “Science” and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory. We will also develop feminist accounts of contemporary technoscientific work, even as we critique a number of such accounts from the past several decades.

Spring 2021

SEM Section: R1 TR 9:45 am - 11:00 am Ezra D. Feldman

**Winter Study**

**STS 99 (W) Independent Study: Science and Technology Studies**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year
ANTHROPOLOGY AND SOCIOLOGY (Div II)
SOCIOLOGY
Chair: Professor James Nolan

- Zaid Adhami, Assistant Professor of Religion and Faculty Affiliate in Anthropology & Sociology; affiliated with: Anthropology and Sociology; on leave Fall 2020
- Nicholas Carr, Visiting Professor of Sociology
- David B. Edwards, James N. Lambert ’39 Professor of Anthropology
- Antonia E. Foias, Professor of Anthropology
- Kim Gutschow, Lecturer in Religion and Anthropology/Sociology; affiliated with: Anthropology and Sociology
- Nicolas C. Howe, Director of CES and the Environmental Studies Program, Associate Professor of Environmental Studies and Faculty Affiliate in Anthropology and Sociology; affiliated with: Anthropology and Sociology
- Peter Just, Professor of Anthropology; on leave Fall 2020
- Lisa A. Koryushkina, Visiting Assistant Professor of Sociology
- Joel Lee, Assistant Professor of Anthropology
- James A. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Anthropology and Sociology and Religion; affiliated with: Religion Department, Anthropology and Sociology; on leave 2020-2021
- Gregory C. Mitchell, Chair and Associate Professor of Women's, Gender and Sexuality Studies and Faculty Affiliate in Anthropology/Sociology, Chair of Women's, Gender, and Sexuality Studies; affiliated with: Anthropology and Sociology
- James L. Nolan, Chair and Washington Gladden 1859 Professor of Sociology
- Olga Shevchenko, Professor of Sociology; on leave Spring 2021
- Christina E. Simko, Assistant Professor of Sociology
- Ben Snyder, Assistant Professor of Sociology

The disciplines of anthropology and sociology aim to teach students how to enter into the social/cultural worlds of others, how to grasp those worlds from the viewpoints of their inhabitants, and how to articulate those denizens’ habits of mind, worldviews, and values to broader audiences. **Anthropology** critically analyzes social forms and practices in all their local and global diversity, illuminating the cultural grounding of the ideologies, narratives, and structures in which we are all implicated. **Archaeology** extends this analysis to social formations of the historical and prehistorical past. **Sociology** studies the nature and trajectories of modernity, examining the intricacies of industrial and post-industrial societies and the dilemmas that confront individuals in modern social systems. These disciplines introduce students to classical and contemporary theories that illuminate the contours and contradictions of social experience. The Anthropology & Sociology program promotes a critical engagement with these theories while at the same time bringing evidence and case studies into conversation with theory.

The Department emphasizes qualitative fieldwork in its many forms. We teach students how to formulate, frame, and address intellectual problems. We also teach students the empirical methods widely used in anthropology, sociology, and other related disciplines, including, but not limited to ethnography, participant observation, interviewing, discourse and visual analysis, archival research, oral history, and archaeological methods.

Because the program emphasizes critical thinking skills to assess social claims made by others, and the application of anthropological and sociological skills to present day concerns, undergraduate training in Anthropology or Sociology has proven invaluable to majors pursuing a range of careers, including public policy, diplomacy, international development, marketing, social media development, K-12 education, journalism, medicine, and law.

**MAJORS**

The department offers separate majors in both Anthropology and Sociology, with a broad and diverse array of courses in both disciplines. The department is committed, however, to the unity of the social sciences. To this end, Anthropology and Sociology offer joint core courses in methodology and theory, as well as several elective courses in common. All joint courses are designated “ANSO.”

**Requirements**
For the degree in Anthropology or Sociology, students must complete a minimum of nine courses as outlined below:

**Core Courses**
Majors in both disciplines must take a sequence of four core courses. Three of these are joint (ANSO) courses. The sequences are:

**Anthropology**
- ANTH 101 How to Be Human

**Sociology**
- SOC 101 Invitation to Sociology

**Joint Courses**
- ANSO 205 Ways of Knowing
- ANSO 305 Social Theory
- ANSO 402 Senior Seminar

**Elective Courses**
Majors in Anthropology or Sociology must take five elective courses from the course listings of their respective disciplines or from the joint ANSO listings. Two of the courses chosen are normally at the 300 level or above. In close consultation with their departmental advisors, students may take some selected courses from other disciplines to fulfill major requirements in either Anthropology or Sociology.

Majors in each wing of the department are allowed to count up to two courses in the other wing towards fulfillment of their major requirements.

**STATISTICS AND DATA ANALYSIS**
In addition to the nine total courses required for the major, it is recommended that Anthropology and Sociology majors take Statistics 101 or a comparable course in statistics and data analysis.

**AREA STUDIES CONCENTRATION**
Students who wish to combine a major in Anthropology or Sociology with an Area Studies concentration are encouraged to do so. Courses taken to satisfy an Area Studies requirement may be counted toward the major with prior approval of a student’s departmental advisor. The only exception to this rule is the Area Studies senior seminar, which cannot ordinarily be counted toward the Anthropology or Sociology degree.

**LANGUAGE STUDY, STUDY ABROAD, AND WINTER STUDY**
Departmental advisors will help interested students integrate a major with study abroad, foreign language study, or field research during the winter study period. The department encourages Williams students to take advantage of established foreign study programs in Egypt, Japan, India, Hong Kong, and other countries. Because some foreign study programs do not offer courses that can be counted toward the Anthropology or Sociology degrees, however, sophomores planning to study abroad in junior year must consult with the departmental advisor before declaring a major.

**FAQ**
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

**Can your department or program typically pre-approve courses for major/concentration credit?**
Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). We welcome discussions of curricular plans for those major who travel abroad in their junior year. However, typically, students don’t have access to all the salient information until AFTER they have taken the course.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**
Course title and description, and complete syllabus including readings/assignments. The syllabus and readings/assignment information is required in cases when the course title and description are not sufficient to ascertain whether a course should count towards the major. We also request information on course hours.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**
Yes. We credit two, and in special cases three courses.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**
Yes. The expectation is for an intellectually rigorous semester-long course with a paper/exam component.

**Are there specific major requirements that cannot be fulfilled while on study away?**
Yes. ANSO 205, ANSO 305 and ANSO 402 are almost always taken in the department.
Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. ANSO 305 is offered in the fall and ANSO 205 and ANSO 402 only in the spring. We advise our majors to be aware if they plan to spend all or part of their junior year abroad.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

In one case, a student had assumed that he could take the equivalent of ANSO 205 abroad, and was disappointed to discover that was not the case. He ended up taking ANSO 205 his senior year.

THE DEGREE WITH HONORS IN ANTHROPOLOGY OR SOCIOLOGY

Honors and highest honors are normally awarded for the completion of a year-long research project that has resulted in an original thesis of high quality. Students wishing to write an honors thesis should engage a member of the department faculty as a Thesis Advisor as soon as possible and must submit a proposal for the thesis for department approval no later than the end of spring reading period of the junior year. If the proposal is approved, they will be permitted to register for Anthropology and Sociology 493-W31-494, during which they will write and defend a thesis. If their overall work in the major continues to be of high quality and the thesis is deemed of a similar quality, they may be awarded honors or highest honors in Anthropology or Sociology.

SOC 101  (F)(S)  Invitation to Sociology

This course provides students with an introduction to sociological analysis and an overview of sociology as a discipline. We will focus on the relationship of individuals to the social world and become acquainted with systematic institutional analysis. Students will explore the intersection of biography, history, culture, and social structure as seen in the work of classical and contemporary social thinkers, including Marx, Durkheim, Weber, Simmel, and Goffman. Special consideration will be given to the social and cultural problems of capitalism, rationality and irrationality in modern institutions and organizations, the psychological dilemmas facing the individual in modern society, and the problem of social order and conflict. Please note that the class will be taught in two sections: one meeting on campus, the other meeting remotely via Zoom. Make sure to register for the correct one!

Class Format: This class is a combination of lecture and discussion, and it is offered in two sections. The section listed as 01, with Prof. Simko, will adhere to the traditional format as far as possible, meeting predominantly on campus. The section listed as R2, with Prof. Koryushkina, will meet remotely. It will feature a combination of synchronous lectures and discussions via Zoom, and some measure of asynchronous work. Both sections will engage the same key questions, albeit through different means.

Requirements/Evaluation: several short papers, a group presentation, and a final

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: first-year students and sophomores

SOC 210  (S)  Networks of Power: Technology in Human Affairs

Cross-listings: STS 210  SOC 210
Do we control our technologies, or do our technologies control us? This course will explore different philosophies of technological progress, particularly the constructivist and determinist theories, by examining major technological systems that shaped modern society, such as the telegraph system, the electric grid, radio and television broadcasting, and the internet. Each of these innovations entailed the construction of a complex network designed to serve a mix of public and business interests, and each resulted in wide-ranging and often unforeseen changes to people's lives. Guided by pertinent readings in the history and philosophy of technology, we will look critically at the forms and consequences of technological change, seeking answers to a series of complex and important questions: Is the course of technological progress an inevitable byproduct of scientific and engineering advances, or is it contingent on social and political circumstances and choices? Does technological change reinforce the social and political status quo or challenge it? Are technological and social progress synonymous, or is there a tension between the two? One of the goals of the course will be to provide students with a more informed and critical perspective on the technological upheavals that continue to shape society today.

Class Format: hybrid
Requirements/Evaluation: attendance and participation, team assignments, two in-class exams, one 15-page seminar paper
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Anthropology and Sociology majors

SOC 211 (F) Race and the Environment
Cross-listings: AMST 211 ENVI 211 AFR 211 SOC 211

Secondary Cross-listing
In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address "environmental racism," like Robert Bullard's Dumping in Dixie and David Pellow's Garbage Wars. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for plotting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions--like literature, film, and music--to understand how people of color respond to environmental injustice and imagine the natural world.

Class Format: discussion
Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages), and a self-scheduled final
Prerequisites: none

SOC 212 (S) Understanding Social Media
Cross-listings: STS 214 SOC 212

Primary Cross-listing

Over just the last twenty years--beginning with Friendster and MySpace and continuing through Facebook and Twitter, Snapchat and Instagram--the rise of social media has had a profound influence on the way we live. It has given a new rhythm to our daily routines, shaped the way we inform ourselves and converse with others, and transformed media and entertainment, politics and public discourse, and many other aspects of culture. This seminar course will undertake a broad and critical examination of social media, looking at it from historical, economic, legal, social, and phenomenological perspectives. The topics addressed will include social media's effects on self-image and self-formation, its influence on protest movements and political campaigns, its use as a conduit for news and propaganda, and the way commercial interests and technical characteristics have shaped its design and use. Through pertinent readings and lively discussions, and drawing on students' own experiences with social media, the course will illuminate social media's benefits and drawbacks while providing a foundation for thinking about possible legal, regulatory, and personal responses to this far-reaching and still unfolding social phenomenon.

Class Format: hybrid

Requirements/Evaluation: attendance and participation, team assignments, two 5-page writing assignments, final exam

Prerequisites: none

SOC 216 (F) The City

Modern humans have moved to the city, a site with concentrated powers of various kinds, this move has effected irreversible change in human life. We will examine these forces through readings in urban theories as well as ethnographic studies. We will address themes such as the organization of urban life, the political economy of cities, housing and homelessness, and urban planning. The city is also the chief site of cultural production and meaning, and our scope of interest will range from studying subcultures, to reading graffiti, to analyzing monuments. Bearing in mind the inexorable social change of past decades, we will reconsider some classical thought on urban life in the context of postmodern discourse, conceptualize the post-industrial and global city, and conclude with an examination of the problems faced by cities in developing countries. This course is designed to provide students with a comprehensive introduction to urban studies. Students will become familiarized with both classical and modern urban theories, and in reading ethnographies they will have an opportunity to understand some fundamental methodological approaches to the study of the city.

Requirements/Evaluation: response papers, mid term exam and final research paper

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

Not offered current academic year

SOC 218 (S) Law and Modern Society

This class is designed to introduce students to the field of law and society. The course begins with an overview of the various theoretical perspectives on the subject, including Durkheimian, Marxist, Foucauldian, and Weberian analyses of law and society; as well as the work of those following in the
different theoretical schools established by these scholars. Informed by the theoretical overview, the next part of the course considers empirical research in selected areas of law, including tort law, criminal trial procedures, abortion and divorce law, "community justice," and the adjudication of drug offenses. Recognizing that understandings of our own legal practices are enlightened through comparisons to other legal systems, the second half of the course is primarily historical/comparative in focus. In this section, through an exploration of several case studies, American legal processes and habits are compared with related legal practices in such places as England, Scotland, Ireland, Australia, Germany, Norway, and Canada.

Class Format: discussion

Requirements/Evaluation: a short paper and midterm and final exams

Prerequisites: none

Enrollment Limit: 35

Expected Class Size: 35

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

SOC 221 (F) Money and Intimacy

Can money buy love and care? The course will consider this taboo question from a sociological perspective. We will look into how relevant this question has been over the course of history, what forces have contributed to the shift in thinking about it, and, most importantly, how sociological research helps us understand its current ramifications. We will discuss a wide range of aspects of family life: the relationship between arranged marriage and romantic relationship, the role of inheritance in family and social life, the distribution of resources in the context of modern family forms (most notably remarriages), and the outsourcing of care for dependents. Intimacy bears different value and content in these changing contexts. The course will further look into the changing character of new economy where "people's skills" are ever more required from employees (emotional labor) and where intimacy, care, and/or sex constitute purchasable commodities. A reflection on the growth of new technologies will complicate some of the discussed concepts and notions, but throughout a common denominator of our discussion will be the role of social inequality.

Class Format: This lecture/seminar course will be taught remotely.

Requirements/Evaluation: classroom participation and a final research paper

SOC 228 (F) The Panopticon: Surveillance, Power, and Inequality (DPE)

Cross-listings: STS 229 SOC 228

Primary Cross-listing

Surveillance is built into the very fabric of modern life. From CCTV cameras, to supermarket loyalty cards, to the massive gathering of personal data on social media sites, people participate in today's "surveillance societies" just by doing everyday activities. This course uses the metaphor of the "Panopticon" as a doorway to engagement with traditional and new forms of surveillance. First described by philosopher and social theorist Jeremy Bentham, the Panopticon is a physical structure that enables one observer to see all inhabitants without those inhabitants knowing when they are being observed. In Discipline and Punish, Michel Foucault famously expanded thinking on the Panopticon as a metaphor for the "disciplinary" power that lies at the heart of inequality in modern society. Since Bentham and Foucault's time, however, surveillance technologies have changed significantly. To what extent does the concept of the Panopticon give us purchase on today's surveillance societies? How does watching people with new digital and algorithmic surveillance technologies shape the exercise of power and, in turn, (re)produce forms of inequality? Can privacy, convenience, and safety ever be truly balanced? Topics include: the historical origins and expansion of surveillance in modern societies, the emerging
total surveillance state in Baltimore City, and whether social media is turning us all into self-surveillance addicts.

Class Format: This class will be taught online only with both synchronous and asynchronous components. Students will be asked to attend one synchronous video meeting per week. The asynchronous portion will involve discussion of readings and video lectures.

Requirements/Evaluation: participation, reading responses, midterm essay, final paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 229 (D2) SOC 228 (D2)

Difference, Power, and Equity Notes: This course explores how power is distributed unequally through the mechanism of surveillance technologies, particularly in regard to racial and class differences. Among other topics, it will consider the concrete case of surveillance in Baltimore City and the question of if and when surveillance is appropriate there, given the city's ongoing crisis of citizen and police violence. Students will discuss police surveillance in a context shaped by racial segregation and class inequality.

Fall 2020

SEM Section: R1 MW 10:00 am - 11:15 am Ben Snyder

SOC 230 (S) Memory and Forgetting (DPE)

On the surface, remembering generally confronts us as a deeply personal act. What is more private than nostalgic reverie or the secrets of a dark and painful past? Yet even "individual" memories take shape through social frameworks, and we also remember "collectively" through shared myths, narratives, traditions, and the like. This course will explore the social dimensions of memory and remembering as well as their inevitable counterpart--forgetting. How do social frameworks inform our individual understandings of the past and shape our sense of selfhood? How and why are figures from the past cast as heroes or villains? How do collectivities celebrate past glories, and how do they deal with shameful or embarrassing episodes? How do economic and political power relations shape struggles over the past? In an increasingly global society, can we speak of "cosmopolitan" or "transcultural" forms of memory? Topics will include autobiographical memory and self-identity; memorials, museums, and monuments; reputations, commemorations, and collective trauma; silence, denial, and forgetting; and transitional justice, official apologies, and reparations.

Class Format: For spring 2021, we will adopt a hybrid approach. Students studying on campus will adhere to the traditional format as far as possible, meeting for in-person seminars during the class block. Students studying remotely will cover the same material in a slightly different format, meeting for one synchronous discussion per week and maintaining asynchronous discussion threads using Slack.

Requirements/Evaluation: thoughtful and consistent class participation; an autobiographical essay (4-5 pages); a position paper (4-5 pages); and a research paper (8-10 pages) with class presentation

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course pays particular attention to how power and inequality shape narratives about the past. We will examine and compare several efforts to transform national memories, such as the Equal Justice Initiative memorial in the United States and the Truth and Reconciliation Commission in South Africa. In doing so, we will also consider the role of memory and memorialization in broader processes of social change.

Spring 2021
SOC 234 (S) How Emotions Work

What could be more personal and unique than one's own emotions? Over the last century, sociologists, anthropologists, historians, and social psychologists have challenged this taken for granted view of emotion, revealing just how much context, institutional structures, and history shape feeling. Emotion does not just emerge from an individual's brain and body; it is also a product of intersubjective dynamics outside the individual. In this deeply interdisciplinary course, students explore how societies shape emotion. Beginning with psychological research on the brain/body connection, we build a capacious model for how social context, norms, and institutions interact with individual psychology to produce both conscious and unconscious forms of feeling. As the course progresses, we zoom further out from the individual level and unpack emotional dynamics at the national, cross-cultural, and civilizational levels. Along the way, we take a deeper look at specific emotions, including love, shame, sympathy, sadness, and happiness. The course concludes by focusing on a pressing social problem—the seemingly global crisis of mental illness on college and university campuses. What is causing this crisis? What can we do to address this issue right here in our community?

Requirements/Evaluation: participation, two short essays, midterm essay, emotion map activity, open space meeting, final paper
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
Not offered current academic year

SOC 236 (S) Making Things Visible: Adventures in Documentary Work

Cross-listings: SOC 236 AMST 236 ARTH 237 ENGL 237

Primary Cross-listing
Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will learn methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of examples of investigative work that blend word and image. We will ask questions about the changing practices and expectations associated with the documentarian's role, and the evolving media in which such work can be presented. Lastly, we will discuss ethical questions that haunt documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether "objective representation" is even possible or desirable. Experience in photography and/or video is not required, but students will be expected to master basic technical skills in image acquisition and audio editing taught in a separate lab section. Students should also be prepared to interact extensively with people in the community and spend a significant time off campus doing fieldwork.

Requirements/Evaluation: full participation in discussions, weekly photographic assignments, a research journal, field materials, and an independent final project; in addition to substantial readings, students should be prepared to spend a significant time out of the classroom doing field work
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
SOC 236 (D2) AMST 236 (D2) ARTH 237 (D1) ENGL 237 (D2)

Not offered current academic year

SOC 240 (S) Performing Masculinity in Global Popular Culture (DPE)

Cross-listings: WGSS 240 THEA 241 SOC 240 AMST 241 LATS 241
Secondary Cross-listing
This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J/K-Pop), hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

Requirements/Evaluation: masculinity journal, mid-term essay exam, visual rhetorical analyses of pop culture images

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: a short statement of interest will be solicited

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 240 (D2) THEA 241 (D1) SOC 240 (D2) AMST 241 (D2) LATS 241 (D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

Spring 2021

SEM Section: R1    MW 6:45 pm - 8:00 pm     Gregory C. Mitchell

SOC 241 (S) Meritocracy

Cross-listings: PSCI 241 SOC 241

Secondary Cross-listing

Although fewer than 1% of Americans have a degree from the country’s top 30 colleges and universities, 39% of Fortune 500 CEOs, 41% of federal judges, 44% of the writing and editorial staff at the New York Times, 64% of Davos attendees, and 100% of Supreme Court justices do. Is this a positive sign that the United States is governed by its most talented and capable members who have risen through hard work and equal opportunity? Or a negative one pointing to the power of a corrupt and self-selecting elite? This course explores the theme of meritocracy--rule by the intelligent--in comparative perspective. We will look at both old and new arguments regarding the proper role and definition of merit in political society as well as take the measure of meritocracy in present-day Singapore, France, and the United States. The course concludes with a focus on the current debate over American meritocracy and inequality.

Class Format: Remote

Requirements/Evaluation: two short papers, one long paper, take-home final exam, discussion questions, class participation

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Political Science and Sociology majors, first-years and sophomores intending a Political Science or Sociology major

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021
SOC 244  What They Saw in America

Cross-listings: SOC 244  HIST 366  AMST 244

Primary Cross-listing
This course traces the travels and writings of four important observers of the United States: Alexis de Tocqueville, Max Weber, G.K. Chesterton, and Sayyid Qutb. The course will consider their respective journeys: Where did they go? With whom did they talk? What did they see? The historical scope and varying national origins of the observers provide a unique and useful outsider’s view of America--one that sheds light on persisting qualities of American national character and gives insight into the nature and substance of international attitudes toward the United States over time. The course will analyze the common themes found in the visitors’ respective writings about America and will pay particular attention to their insights on religion, democracy, agrarianism, capitalism, and race.

Requirements/Evaluation:  A midterm examination, two short essays, and a final paper.
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Priority given to Sociology, History, Anthropology, and American Studies majors.
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

SEM Section: H1  TR 11:30 am - 12:45 pm  James L. Nolan

SOC 248  Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: SOC 248  GBST 247  RUSS 248

Primary Cross-listing
Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners’ and instructor’s discretion.

Requirements/Evaluation:  5-page paper every other week, written comments on the partner’s paper in alternate weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Anthropology, Sociology, and Russian majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

Fall 2020
TUT Section: RT1    TBA     Olga Shevchenko

SOC 264 (S) Transnational Activism: Practice, Problems, Ethics (DPE)
Cross-listings: SOC 264  WGSS 263
Secondary Cross-listing
The world’s got problems. These problems don’t respect national boundaries. This class looks at how activists have engaged across borders and with transnational institutions in order to address transnational problems like class inequality, sexism, homophobia, climate change, and more. It asks: what are the different forms that transnational activism takes and how have transnational activists advanced their goals? Why and how have transnational activists' efforts failed? What are the practical and ethical difficulties associated with transnational activism? What does ethical transnational activism look like, and can it also be effective? While focusing especially on the role of transnational activism in combating sex and gender-based inequities, we will also engage with activism that targets the other axes of oppression with which sex and gender-based oppressions are inextricably entwined.
Requirements/Evaluation: class attendance/participation; critical profile of transnational activist; essay or project proposal, final essay or project
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: Women's, Gender, and Sexuality Studies majors and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
SOC 264 (D2) WGSS 263 (D2)
Difference, Power, and Equity Notes: This course centers activism organized around various axes of difference, enabling students to learn about how various groups are defining and pursuing equity. It requires students to explicitly engage the question of ethical intervention in political movements, stressing attentiveness to the dynamics of privilege and marginalization internal to movements.
Not offered current academic year

SOC 291 (S) Religion and the American Environmental Imagination
Cross-listings: SOC 291  REL 291  ENVI 291
Secondary Cross-listing
This course examines the relationship between religious and environmental thought in modern America. Exploring a broad range of practices and beliefs, we will examine the religious (and anti-religious) roots of contemporary environmental discourse. Rather than survey the environmental teachings of organized religious groups, our focus throughout will be on ambiguous, eclectic, and fascinating traditions of "eco-spirituality" and popular "nature religion." Where do these traditions come from? What is their relationship to science, to secularism, to politics, and to the search for environmental justice? Starting with the Transcendentalist movement of the 19th century, we will trace a roughly chronological line to the present, taking long detours into several modern religious trends and movements, including the revitalization and contestation of Native American religions, Wicca and neo-pagan ecofeminism, and evangelical Creation Care. Focusing on the writings of activists and radicals from a variety of religious backgrounds, our overarching question throughout the semester is one of the most critical we face in modern environmental thought: what is the relationship between spirituality and the just, sustainable society?
Requirements/Evaluation: a 15- to 18-page research paper and several shorter writing assignments
Prerequisites: ENVI 101 or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: Environmental Studies majors and concentrators
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

SOC 301 (F) Social Construction (DPE)
Cross-listings: COMP 315 WGSS 302 REL 301 SOC 301 STS 301 SCST 301

Secondary Cross-listing
"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Religion majors, then majors from cross-listed departments
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
COMP 315 (D2) WGSS 302 (D2) REL 301 (D2) SOC 301 (D2) STS 301 (D2) SCST 301 (D2)

Difference, Power, and Equity Notes: Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

Not offered current academic year

SOC 303 (S) Cultures of Climate Change
Cross-listings: SOC 303 ENVI 303

Secondary Cross-listing
This course asks why people think and talk about climate change in such very different ways. Climate change is a physical phenomenon that can be observed, quantified, and measured. But it is also an idea, and as such it is subject to the vagaries of cultural interpretation. Despite scientific agreement about its existence and its causes, many people do not see climate change as a serious problem, or as a problem at all. Many others see it as the most serious problem our species has ever faced. What are the sources of this disparity? Why can't we agree about climate change? How does
something as complex and confusing as climate change become a "problem" in the first place? This course will explore a broad array of factors, from religion to race, class to colonialism. It will focus especially closely on the communication of scientific knowledge, risk perception, and environmental ethics, and it will apply a range of theories from the social sciences and humanities to a set of concrete case studies.

Requirements/Evaluation: a 15- to 18-page research paper and several shorter writing assignments

Prerequisites: ENVI 101 or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators first; Anthropology and Sociology majors second

Not offered current academic year

SOC 308  (S)  What is Power?

Cross-listings: REL 308 STS 308 SOC 308 PSCI 306

Secondary Cross-listing

What is power? Despite the importance of notions of power across the social sciences, there is a broad lack of consensus. Is power essentially domination or resistance? Is it freedom, empowerment, privilege, or oppression? Are there forms of unequal social power which are morally neutral or even good? Is power the kind of thing held by individuals, races, genders, classes, discourses, causal mechanisms, institutions, or social structures? What is the connection between social and physical power? Does power obey laws? How does power relate to technology? Or knowledge? Or agency? Or ideology? This course begins with the observation that power is often described as a causal relation--an individual's power is supposed to equal their capacity to produce a change in someone else's behavior. This suggests that the better we can understand the nature of cause and effect, the better we can understand power. Fortunately, in recent decades philosophers have made significant progress in theorizing causation. Hence, this seminar will put two very different bodies of theory in conversation: critical theory about power and philosophy of science about cause and effect.

We will trace classic philosophical accounts of power and causation (in European and Chinese philosophy), as well as more recent developments in philosophy of science, political theory, and other fields. The insights we gain in this course from analyzing the nature of power should empower us to more effectively transform society. It will help students in the social sciences to understand the nature of causation in the social world, and it will help students interested in political action to better understand the nature of power. Thinkers to be considered may include: Aristotle, Amy Allen, Hannah Arendt, Bourdieu, Judith Butler, Nancy Cartwright, Foucault, Gramsci, Byung-Chul Han, Han Feizi, Giddens, Hobbes, Hume, Locke, Steven Lukes, Machiavelli, J.L. Mackie, Marx, Nietzsche, Sunzi, and Max Weber.

Class Format: Remote

Requirements/Evaluation: critical annotations for every class, midterm review essay (4-6 pages), final essay (10-12 pages)

Prerequisites: None.

SOC 314  (F)  The Social Ecology of Racial and Gender Inequity  (DPE)

Cross-listings: SOC 314 WGSS 314
Why the political furor over monuments? What would a feminist city look like? Does racial justice require integration? This course trains your focus on space and place, asking you to take a socioecological perspective on race, gender, and other axes of privilege and marginalization. In it, we examine how ideas about race, gender and more shape space as well as how the design of space reinforces social constructs and power relations. After examining specific regions (the city, the suburb, the country) and their relation to one another, we examine specific sites (public transport, public toilets, libraries, houses). The course enables students to better understand the tenacity of inequity by drawing attention to its spatial dimension while at the same time introducing students to -- and providing students tools to engage in -- spatial interventions designed to disrupt vicious social-spatial cycles.

Requirements/Evaluation: attendance, class facilitation, problem identification report, two presentations, reflection

Prerequisites: WGSS/SOC Majors

Enrollment Limit: none

Enrollment Preferences: Women’s, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 314 (D2)  WGSS 314 (D2)

Difference, Power, and Equity Notes: This course introduces students to a socioecological approach, giving them a lens which can help them understand how important axes of difference--race and gender--are socially constructed as well as the stubborn persistence of racial and gender power differentials. Students in this course will be required to apply this lens to their own experience, as well as to discuss difficult questions about different obstacles and potential paths to greater equity in social relations.

Not offered current academic year

SOC 315  (F)  Culture, Consumption and Modernity

How do lifestyles, fashions and trends appear and evolve? Are we authors of our own taste? What structures our choices of goods and activities? What is it that gives meaning to objects and makes them desirable? Are there non-consumer societies in the modern world? How has globalization changed the ways people consume in different parts of the globe? This course will explore consumption and consumer practices as products of modernity and will analyze the political, cultural and social agendas that have transformed consumption over time. Politics of consumption (the way in which seemingly free and independent consumption choices aggregate into the existing system of global capitalism) will be treated alongside its symbolic element: the role of consumer practices in creating and articulating identities, building relationships and creating solidarities. We will look at fashion, advertising, arts and shopping in places as varied as nineteenth-century France, socialist Russia, and in contemporary United States, tracing both the mechanisms that structure patterns of consumption, and the consequences that these patterns have for the larger social order.

Requirements/Evaluation: full participation, ten journal entries and a 15-page term paper that will go through a draft and revision stage

Prerequisites: none; open to first year students

Enrollment Limit: 19

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

Not offered current academic year

SOC 324  (S)  Memory and Identity  (DPE)

Our sense of self is inextricably tied to our understanding of our past, both as individuals and as members of society. This sense of origins, however, is far from natural; it itself has its origins in the debates and politics of the time, and evolves under an array of influences. This course analyzes discourses of collective and individual identity and the mechanisms involved in the formulation of the individuals’ sense of their place in the world. Topics include: media of memory, politics of commemoration, nostalgia and selective forgetting, narratives of trauma and of a "golden age," the invention of tradition, and battles over remembrance and heritage, such as the struggles over the proper way to face the difficult past around the world,
with a particular emphasis on the United States and on the memory wars in the post-Soviet space.

**Requirements/Evaluation:** extensive class participation, several short papers, and a final research project with class presentation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Anthropology and Sociology majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement because it explores the diversity of the ways in which communities imagine and engage with their past, and puts struggles over memory in the context of groups’ struggles for power and visibility.

*Not offered current academic year*

**SOC 326 (S) Being Mortal**

One of the defining features of the human condition is our awareness of our own mortality. How do we cope with this awareness? How does it influence our social institutions? We will begin by exploring how social theorists such as Emile Durkheim, Max Weber, Ernest Becker, and Peter Berger grappled with mortality and its significance for human social life. We will then turn to the social institutions that structure our confrontation with mortality today. How, why, and with what consequences has death been "sequestered" in modern Western societies and set aside from the social world of the living? What rites and rituals remain for coping with death and dying, and how do our cultural assumptions influence the experiences of grief, loss, and mourning? How does modern medicine--which is oriented toward cure but must ultimately confront the inescapable realities of aging and death--deal with mortality? How have hospice, palliative care, and debates over physician-assisted suicide changed the landscape in recent years? How do societies cope with collective losses in the aftermath of wars, disasters, and atrocities? Our focus will be on the United States, but we will also consider cross-cultural comparisons.

**Requirements/Evaluation:** three 6- to 7-page papers; an in-class presentation; thoughtful and consistent participation in class discussion

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Sociology and Anthropology majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

*Not offered current academic year*

**SOC 329 (F) Work and Future of Capitalism**

What does it mean to work? How does capitalism shape the way we work? What might work look like in the future? In this three-part course, students engage with global capitalism’s past, present, and future, asking analytic and normative questions about work and the trajectory of capitalism. The first part of the course examines the historical origins of capitalism and leading theories about what capitalism is and how it stratifies the world into racialized social classes. A central theme in part one will be how capitalist labor relations shape meaning and subjectivity, particularly the experience of dignity. In part two, we examine recent and emerging trends in capitalist labor, such as the death of the career, the rise of the "gig" economy, platform capitalism, and even the seemingly inevitable end of work itself as entire occupations become automated by machine learning. A key question will be how these transformations exacerbate and/or alleviate longstanding inequalities from capitalism’s 19th century past. The course concludes by asking students to imagine what work might look like in the next century. Should we continue to work at all? What kinds of social activity should we value, and how would we go about taming, eroding, or even smashing capitalism to allow them to flourish?

**Class Format:** This class will be taught online only with both synchronous and asynchronous components. Students will be asked to attend one synchronous video meeting per week. The asynchronous portion will involve discussion of readings and video lectures.

**Requirements/Evaluation:** participation, reading responses, midterm paper, final paper

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Anthropology and Sociology majors
SOC 338 (F) Transhumanism: Religion, Technoscience, Obsolescence

Cross-listings: HSCI 338  SOC 338  STS 338  REL 338

Primary Cross-listing

This interdisciplinary seminar invites students to pursue sociohistorical analysis and sustained critical discussion of the transhumanist movement and its overriding aims: the augmentation, transformation, and eventual transcendence of human biological constitution; the realization, through speculative technoscientific means, of an enhanced or even "postbiological existence"—a "posthuman condition." "Humanity 2.0." Through close readings of primary historical documents, transhumanist texts, scholarship on transhumanism, works of science-fiction film, literature, and popular culture, we will position the movement as an empirical conduit through which to explore the sociohistorical conditions under which transhumanist ideas and practices have emerged, circulated, and taken up residence. To that end, we will consider the ties of transhumanism to eugenics and massive investments in pharmaceuticals, anti-aging medicine, and so-called "GNR" technologies (i.e. genetics, nanotechnology, and artificial intelligence and robotics); the movement's affinities with neoliberalism and what some have pointed to as transhumanism's racialized subtext of whiteness. We will furthermore devote considerable attention to the technological singularity, the figure of the cyborg, mind-uploading, space colonization, and cryonic suspension, all of which, like transhumanism broadly, suggest that science and technology have in some sense come to operate as powerful channeling agents for the very sorts of beliefs, practices, and forms of association that theorists of secularization expected modernity to displace. Lastly, throughout the course of the seminar we will take transhumanism as a provocation to think broadly and seriously about religion, technology, embodiment, and ways of being human.

Class Format: Remote

Requirements/Evaluation: informal weekly writing, two short review essays, and one 15-page seminar paper

Prerequisites: Prior coursework in sociology-anthropology, history, religion, or science and technology studies.

Enrollment Limit: 14

Enrollment Preferences: Anthropology and Sociology majors and Science and Technology Studies concentrators

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

HSCI 338 (D2) SOC 338 (D2) STS 338 (D2) REL 338 (D2)
documentarians, and memoirists to convey stories from their own research.

Class Format: This course will be taught in a hybrid format. We will meet primarily in person, with a synchronous remote option during the scheduled class period. Some sessions may be held fully online to facilitate small group work.

Requirements/Evaluation: two 4- to 5-page papers; weekly contributions to annotating course readings; thoughtful and consistent participation in class discussion; and a major final project (either a 10- to 12-page analytical paper or an equivalent writing project presented as a podcast)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 362 (D1) SOC 362 (D2)

Fall 2020

SEM Section: H1  TR 9:45 am - 11:00 am  Christina E. Simko

SOC 363  (F)  Cold War Technocultures

Cross-listings: SCST 401  STS 402  SOC 363

Primary Cross-listing

In this seminar students will pursue sociohistorical analyses of Cold War American culture(s) by attending to key points of intersection between politics, aesthetics, and major technoscientific developments during this period. Part I will focus principally on the emergence of the computer and its role in shaping American infrastructure and styles of thought aimed at Soviet "containment." We will trace the historical threads connecting MIT's "Whirlwind" computer project and the SAGE continental air defense system; nuclear wargaming at the RAND Corporation and the aesthetics of "thinking the unthinkable"; the science of cybernetics and the prospect of automation; and ultimately the role of computation, intermedia, and systems logic in perpetrating the atrocities of the Vietnam War. Part II will take up the Cold War space race--from Luna 2, Sputnik I, and Yuri Gagarin to Projects Mercury, Gemini, and the Apollo moon landing. Within this context we will also consider the Club of Rome's Limits to Growth report; plans backed by NASA for the industrialization and colonization of outer space; and the place of science-fiction as a Cold War aesthetic (print, televisual, cinematic). Part III, finally, will explore key moments of conflict, resistance, appropriation, and unintended consequences of Cold War technoscientific developments, among them antipsychiatry and environmentalism; Project Cybersyn, an infrastructural casualty of the U.S./CIA-backed Chilean coup of 1973; the New Left, the American counterculture, new social movements, and the countercultural roots of new media and neoliberalism.

Requirements/Evaluation: two 5-page book review essays, weekly 1-page papers, midterm essay exam, final essay exam

Prerequisites: STS 101 or instructor consent; prior coursework in Anthropology and Sociology and/or History

Enrollment Limit: 15

Enrollment Preferences: Anthropology and Sociology majors, Science and Technology Studies concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

SCST 401 (D2) STS 402 (D2) SOC 363 (D2)

Not offered current academic year

SOC 368  (F)  Technology and Modern Society

Cross-listings: ENVI 368  SOC 368

Primary Cross-listing

With widespread use of new social media, controversial developments in such bio-technical practices as the cloning of mammals, rapid advances in
various forms of telecommunication, and the increasing sophistication of technological weaponry in the military, the triumph of technology remains a defining feature of modern life. For the most part, modern humans remain unflinchingly confident in the possibilities technology holds for continuing to improve the human condition. Indisputably, technology has benefited human life in innumerable ways. However, as with other features of modernity, technology has also had significant, albeit largely unanticipated, social consequences. Working within a sociological paradigm, this course will focus on the less often examined latent functions of technology in modern society. It will consider, for example, the social effects of technology on community life, on privacy, and on how people learn, think, understand the world, communicate, and organize themselves. The course will also examine the effects of technology on medicine, education, criminal law, and agriculture and will consider such counter-cultural reactions to technology as the Luddite movement in early nineteenth century England, Amish agrarian practices, and the CSA (community supported agriculture) movement.

Requirements/Evaluation: two short papers, a midterm exam, and a final exam
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 20
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 368 (D2) SOC 368 (D2)
Not offered current academic year

SOC 372 (S) Time and Temporality
Duration, rhythm, speed, pace, trajectory, sequence, articulation, busyness, boredom, flow–time is one of the most fundamental categories of our experience of reality. Since the founding of the discipline, sociologists have been interested in how time, while seemingly given and natural, is deeply influenced by history and society. This two-part course will introduce students to the sociological analysis of time and temporality. In part one, students will explore the emergence of the so-called "modern western temporal order"--the sense of time that many people take for granted as the way things are. We will excavate the historical roots of schedules, clocks, calendars, and time zones; examine how capitalism and colonial conquest disseminated particular notions of time around the globe; and discuss leading theories of how constructions of time change through history and vary among communities. In part two, we will focus on one of the most frequently lamented and celebrated qualities of modern temporality: acceleration. Is the world speeding up? Why do so many people feel always pressed for time? What are the promises and limits of speed, acceleration, and ceaseless change for building a robust democratic society?

Requirements/Evaluation: participation, time diary analysis (3-5 pages), final paper (10-12 pages)
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

SOC 386 (F) Going Nuclear: American Culture in the Atomic Age
Cross-listings: HIST 387 SOC 386
Primary Cross-listing
This course will examine the historical development and use of the nuclear bomb. Among other features of the early atomic age, the course will look at the Manhattan Project, the delivery of the bombs for combat, and the destructive effects of the bomb's initial use in Hiroshima and Nagasaki and ongoing testing in the Marshall Islands. The class will investigate the role of the nuclear arms race in the Cold War, the consequences of nuclear production on specific communities, and the implications of the atomic age on our critical understanding of technological innovation more generally. We will also consider the saliency of competing narratives interpreting America's decision (and continuing policies) to build, use, and stockpile nuclear weapons. Employing both sociological and historical perspectives, we will explore the interactions between science, politics, and culture in the nuclear age.
Class Format: This will be a hybrid class. The class will meet in person with a synchronous remote option during the scheduled class period.

Requirements/Evaluation: a midterm, a final exam, and a 10- to 12-page research paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Preference given to sociology and history majors.

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 387 (D2) SOC 386 (D2)

Fall 2020

HON Section: H1  TBA  James L. Nolan

SOC 494 (S) Senior Thesis: Sociology

Sociology senior thesis; this is part of a full-year thesis (493-494).

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)
Winter Study -----------------------------------------------------------------------------

SOC 31 (W) Senior Thesis: Sociology 
To be taken by students registered for Sociology 493-494.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year

SOC 99 (W) Independent Study: Sociology 
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
MAJOR IN STATISTICS

The major in Statistics is designed to meet three goals: to introduce some of the central ideas of information and data science, to develop problem-solving ability by teaching students to combine creative thinking with rigorous reasoning, and to develop interdisciplinary skills by applying statistics to an application area of interest.

REQUIREMENTS (10 courses plus colloquium)

The major in Statistics consists of ten courses plus a colloquium requirement. The major includes courses in mathematics, computer science and statistics. Students interested in continuing their study of statistics in graduate school should strongly consider taking Math 350/351 in addition to the other requirements.
Mathematics (2 courses)
  MATH 150 or 151 Multivariable Calculus or equivalent high school course
  MATH 250 Linear Algebra

Except in unusual circumstances, students planning to major in statistics should complete the calculus sequence (MATH 130, 140, 150/151) before the spring of the sophomore year, at the latest. MATH 150 is a prerequisite for STAT 201 and MATH 250 is a prerequisite for STAT 346.

Computer Science (1 course)
  CSCI 134 Intro to Computer Science or CSCI 135 Diving into the Deluge of Data or CSCI 136 Data Structures and Advanced Programming or some other course in the Computer Science Department with prior approval of the Math/Stat department.

Core Courses (4 courses)
  STAT 201 Statistics and Data Analysis, STAT 202 Introduction to Statistical Modeling or STAT 302 Applied Statistical Modeling
  STAT 346 Regression and Forecasting
  STAT 341 Probability
  STAT 360 Inferential Statistics

Continuation (2 courses)
  Any two courses among the 300 or 400 level courses in the department with a STAT prefix.

Capstone Course (1 course)
  The capstone course is a 400-level STAT course taken in the senior year. Although the specific methodological emphasis of the course may vary from year to year, an in-depth project with both a written report and an oral presentation is typically part of the capstone course.

Pass/Fail policies during the Academic Year 2020-2021
  Information about the Department of Mathematics and Statistics Pass/Fail policies during the Academic Year 2020-2021 can be found here.

Colloquium Requirement
  Participation in the Department Colloquium, in which each senior major presents a talk on a mathematical or statistical topic of their choice. Each major must also attend at least 20 colloquia (15 during the Academic Year 2020-2021), and up to 5 attendances may be counted in their junior year. Up to 5 colloquia in mathematics or computer science may also be counted. Students engaged in study away may petition the department in advance to count up to 5 suitable colloquia attendances from their study away program.

PLACEMENT
  Students with an AP Stat score of 5 or 4 are placed in the advanced introductory course Stat 202.

NOTES
  Substitutions, Study Abroad, and Transfer Credit: In some cases, and with prior permission of the Mathematics and Statistics Department, appropriate courses from other institutions may be substituted for the application and continuation requirements, but at least eight courses must be taken from the Department of Mathematics and Statistics at Williams.

  These can, with prior permission, include courses taken away. Students with transfer credit should contact the department about special arrangements.

  Double Counting: No course may count towards two different majors.

  Early Senior Capstone Course: In exceptional circumstances, with the prior permission of the department, a student may be allowed to satisfy the Senior Capstone Course requirement in the junior year, provided that the student has completed at least three 300-level statistics courses before enrolling in the capstone course.

  Planning Courses: Core courses are normally offered every year. Other 300 and 400 level statistics courses are offered on an irregular basis. Students should check with the department before planning far into the future.

  Course Admission: Courses are normally open to all students meeting the prerequisites, subject to any course caps. Students with questions about the level at which courses are conducted are invited to consult department faculty.

FAQ
  Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

  Can your department or program typically pre-approve courses for major/concentration credit?
Yes, in many cases, though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes. They have to be approved MATH/STAT courses.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. Colloquium requirement, Senior Seminar requirement.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. The highly cumulative structure of the major.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

THE DEGREE WITH HONORS IN STATISTICS

The degree with honors in Statistics is awarded to the student who has demonstrated outstanding intellectual achievement in a program of study which extends beyond the requirements of the major. The principal considerations for recommending a student for the degree with honors will be:

Mastery of core material and skills, breadth and, particularly, depth of knowledge beyond the core material, ability to pursue independent study of statistics, originality in methods of investigation, and, where appropriate, creativity in research.

An honors program normally consists of two semesters (STAT 493 and 494) and a winter study (WSP 031) of independent research, culminating in a thesis and a presentation. During the Academic Year 2020-2021 the winter study requirement for the honors program in Statistics is waved. One of STAT 493 or STAT 494 can count as a continuation course, but not both. Neither counts as the 400-level senior capstone course.

An honors program in actuarial studies requires significant achievement on four appropriate examinations of the Society of Actuaries.

Highest honors will be reserved for the rare student who has displayed exceptional ability, achievement or originality. Such a student usually will have written a thesis or pursued actuarial honors. In all cases, the award of honors and highest honors is the decision of the Department.

STAT 101  (F)(S)  Elementary Statistics and Data Analysis  (QFR)

It is impossible to be an informed citizen in the world today without an understanding of data and information. Whether opinion polls, unemployment rates, salary differences between men and women, the efficacy of vaccines or consumer webdata, we need to be able to separate the signal from the noise. We will learn the statistical methods used to analyze and interpret data from a wide variety of sources. The goal of the course is to help reach conclusions and make informed decisions based on data.

Class Format: Hybrid format with both synchronous and asynchronous elements.

Requirements/Evaluation: quizzes and exams and course project

Prerequisites: MATH 102 (or demonstrated proficiency on a diagnostic test)

Enrollment Limit: 25

Enrollment Preferences: sophomores, juniors, and seniors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with MATH130 but no statistics should enroll in STAT161; students with MATH150 but no statistics should enroll in STAT201. Students with AP Stat 4/5 or STAT 101/161/201 should enroll in STAT 202 (if no calc background) or 302 (MATH140 prereq).

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: It is a quantitative course.
**STAT 161 (F)(S) Introductory Statistics for Social Science** (QFR)

This course will cover the basics of modern statistical analysis with a view toward applications in the social sciences and sciences. Topics include exploratory data analysis, elements of probability theory, basic statistical inference, and introduction to statistical modeling. The course focuses on the application of statistics tools to solve problems, to make decisions, and the use of statistical thinking to understand the world.

**Class Format:** For the Spring 2021 semester, synchronous zoom lectures are planned.

**Requirements/Evaluation:** students complete homework, online multiple choice quizzes and exams (including remote oral exams). Students can expect to spend time getting familiar with the statistical software STATA.

**Prerequisites:** MATH 130 (or equivalent); not open to students who have completed STAT 101 or equivalent

**Enrollment Limit:** 25

**Enrollment Preferences:** Economics majors, sophomores

**Expected Class Size:** 25

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Students with calculus background should consider STAT 201, 202 or 302 instead. Students without any calculus background should consider STAT 101. Please refer to the placement chart on the Math&Stat department website for more information.

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** Course analyzes data

---

**STAT 201 (F)(S) Statistics and Data Analysis** (QFR)

Statistics can be viewed as the art and science of turning data into information. Real world decision-making, whether in business or science is often based on data and the perceived information it contains. Sherlock Holmes, when prematurely asked the merits of a case by Dr. Watson, snapped back, "Data, data, data! I can't make bricks without clay." In this course, we will study the basic methods by which statisticians attempt to extract information from data. These will include many of the standard tools of statistical inference such as hypothesis testing, confidence intervals, and linear regression as well as exploratory and graphical data analysis techniques. This is an accelerated introductory statistics course that involves computational programming and incorporates modern statistical techniques.

**Class Format:** Hybrid format

**Requirements/Evaluation:** weekly homework; quizzes and exams

**Prerequisites:** MATH 150 or equivalent; not open to students who have completed STAT 101 or STAT 161 or equivalent

**Enrollment Limit:** 25

**Enrollment Preferences:** Prospective Statistics majors, students for whom the course is a major prerequisite, and seniors

**Expected Class Size:** 25
Grading: yes pass/fail option, yes fifth course option

Unit Notes: Students with AP Stat 4/5 or STAT 101/161 should enroll in STAT 202 (if no calc background) or 302 (MATH 140 prereq). Students with no calc or stats background should enroll in STAT 101. Students with MATH 140 but no statistics should enroll in STAT 161.

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: Students will learn to interpret, choose, carry out, and communicate analyses of data.

---

Fall 2020
LEC Section: R1  MR 3:15 pm - 4:30 pm  Anna M. Plantinga
LEC Section: R2  WF 1:30 pm - 2:45 pm  Elizabeth M. Upton

Spring 2021
LEC Section: R2  MWF 8:00 am - 8:50 am  Anna M. Plantinga
LEC Section: R1  MWF 11:45 am - 1:00 pm  Richard D. De Veaux

---

STAT 202 (F)(S) Introduction to Statistical Modeling (QFR)
Data come from a variety of sources: sometimes from planned experiments or designed surveys, sometimes by less organized means. In this course we'll explore the kinds of models and predictions that we can make from both kinds of data, as well as design aspects of collecting data. We'll focus on model building, especially multiple regression, and talk about its potential to answer questions about the world -- and about its limitations. We'll emphasize applications over theory and analyze real data sets throughout the course.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. The professor and TAs will also offer optional synchronous office hours/review sessions.

Requirements/Evaluation: Homework problems; quizzes; a final project (on a topic that interests you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While your assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

Prerequisites: AP Statistics 4 or 5, or STAT 101, or STAT 161, or STAT 201, or permission of instructor

Enrollment Limit: 25

Enrollment Preferences: Prospective Statistics majors and more senior students

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with a 4 on the AP Stats exam should contact the department for proper placement

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

---

Fall 2020
LEC Section: R1  MWF 12:00 pm - 12:50 pm  Laurie L. Tupper

Spring 2021
LEC Section: R1  MWF 12:00 pm - 12:50 pm  Laurie L. Tupper

---

STAT 302 (F)(S) Applied Statistical Modeling (QFR)
Data may come from various sources and studies with different purpose of analysis. Statistical modeling provides a unified framework to embrace different data types, and focuses on the goals of understanding relationships, assessing differences and making predictions. We will explore different types of statistical models (linear regression, ANOVA, logistic regression etc), and focus on their conditions, the interactive modeling process, as well as the statistical inference tools for drawing conclusions from them. Throughout the course, real datasets will be modeled for interesting questions about the world, and the limitations will be addressed as well.
Class Format: Hybrid format

Requirements/Evaluation: weekly homework assignments, quizzes, exams and a course project.

Prerequisites: One of the following: i) STAT 201; ii) MATH 140 and STAT 101/161/AP Statistics 4/5; iii) Permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Students interested in statistics who have background in calculus and intro stat. Students cannot take STAT 302 either simultaneously or after STAT 346.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: It is an intermediate statistics class with prerequisites that are QFR courses

Fall 2020
LEC Section: H1  MWF 11:45 am - 1:00 pm  Xizhen Cai

Spring 2021
LEC Section: H1  MWF 12:00 pm - 12:50 pm  Xizhen Cai

STAT 310  (F)  Data Visualization  (QFR)
This course is about preparing, visualizing, reporting and presenting different types of data. We will start with creating common plots (e.g., barcharts, histograms, density plots, boxplots, time series and lattice plots), but also discuss visualizing results of statistical models, such as linear or logistic regression models. We will use the ggplot library in R but then switch to the plotly library for interactive graphs with mouse-over and click events. Using R's shiny and DT libraries, we will learn how to create and publish web-apps and dashboards that explore datasets and support online filtering. We will end the class with creating web apps that contain multiple graphs or maps which react to user inputs (such as selecting which variables to plot) or provide real time monitoring of streaming data. Throughout, we will use version control software (Github) to organize and keep track of our code. This course will be taught in a semi-flipped style. While the instructor will introduce certain topics, students will often be responsible for reading material ahead of time and then work individually or in pairs to reproduce material or implement it on their own data.

Requirements/Evaluation: Grading will almost entirely be based on class participation, individual and team-work, project presentations and the student's portfolio.

Prerequisites: Stat 201/202/302; Good knowledge of R

Enrollment Limit: 15

Enrollment Preferences: Preference may be given to stats majors who need the course in order to graduate, but then random selection.

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course teaches how to organize and present data graphically, but also how to critique existing data visualizations.

Fall 2020
LEC Section: R1  MW 10:00 am - 11:15 am  Bernhard Klingenberg

STAT 315  (S)  Applied Machine Learning  (QFR)
How does Netflix recommend films based on your viewing history? How does Facebook group its users and send out targeted ads? How did Google select from thousands of search terms to predict flu? Machine learning (ML) is a rapidly growing field that is concerned with algorithms and models to find patterns in data and solve these practical problems at the intersection between statistics, data science and computer science. This course provides a broad introduction to ideas and methods in machine learning, with emphasis on statistical intuitions and practical data analysis. Topics including regularized regression, SVM, supervised/unsupervised learning, text analysis, neural networks will be covered. Students will use R extensively throughout the course while getting introduced to some ML tools in Python.
Class Format: Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Requirements/Evaluation: weekly homework, one class project, and two or three exams

Prerequisites: MATH 140, and STAT 201/202, or equivalent; or permission of instructor. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Enrollment Limit: 15

Enrollment Preferences: Seniors.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods

Spring 2021

LEC Section: H1    MW 10:00 am - 11:15 am     Shaoyang Ning

STAT 335 (S) Biostatistics and Epidemiology (QFR)

Epidemiology is the study of disease and disability in human populations, while biostatistics focuses on the development and application of statistical methods to address questions that arise in medicine, public health, or biology. This course will begin with epidemiological study designs and core concepts in epidemiology, followed by key statistical methods in public health research. Topics will include multiple regression, analysis of categorical data (two sample methods, sets of 2x2 tables, RxC tables, and logistic regression), survival analysis (Cox proportional hazards model), and a brief introduction to regression with correlated data.

Class Format: Hybrid format

Requirements/Evaluation: evaluation will be primarily based on weekly homework, two midterm exams, a final exam, and a data analysis project

Prerequisites: STAT 201, STAT 202 and MATH 140, or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Junior and senior statistics majors; public health concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This is a statistics course with a focus on quantitative methods relevant to public health studies.

Spring 2021

LEC Section: H1    MWF 9:20 am - 10:10 am     Anna M. Plantinga

STAT 341 (F)(S) Probability (QFR)

Cross-listings: STAT 341 MATH 341

Secondary Cross-listing

The historical roots of probability lie in the study of games of chance. Modern probability, however, is a mathematical discipline that has wide applications in a myriad of other mathematical and physical sciences. Drawing on classical gaming examples for motivation, this course will present axiomatic and mathematical aspects of probability. Included will be discussions of random variables (both discrete and continuous), distribution and expectation, independence, laws of large numbers, and the well-known Central Limit Theorem. Many interesting and important applications will also be presented, including some from classical Poisson processes, random walks and Markov Chains.

Requirements/Evaluation: homework, classwork, and exams

Prerequisites: MATH 250 or permission of the instructor

Enrollment Limit: 30

Enrollment Preferences: Priority will be given to Mathematics majors and to Statistics Majors.
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
STAT 341 (D3) MATH 341 (D3)

Quantative/Formal Reasoning Notes: This is a 300-level Math/Stat course.

Fall 2020
LEC Section: H1    MWF 9:20 am - 10:10 am     Stewart D. Johnson

Spring 2021

STAT 342 (F) Introduction to Stochastic Processes (QFR)

Stochastic processes are mathematical models for random phenomena evolving in time or space. Examples include the number of people in a queue at time t or the accumulated claims paid by an insurance company in an interval of time t. This course introduces the basic concepts and techniques of stochastic processes used to construct models for a variety of problems of practical interest. The theory of Markov chains will guide our discussion as we cover topics such as martingales, random walks, Poisson process, birth and death processes, and Brownian motion.

Requirements/Evaluation: weekly homework, classwork, and exams
Prerequisites: STAT 341
Enrollment Limit: 30
Enrollment Preferences: senior Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical skills and translating real world phenomena into mathematical descriptions.

Not offered current academic year

STAT 344 (F) Statistical Design of Experiments (QFR)

How do you get informative research results? By doing the right experiment in the first place. We'll explore the techniques used to plan experiments that are both efficient and statistically sound, the analysis of the resulting data, and the conclusions we can draw from that analysis. We'll look at classical tools like one- and two-way ANOVA and fractional factorial designs, but we'll also look at optimal design, and see how these two frameworks differ in their philosophy and in what they can do. Throughout the course, we'll make extensive use of R to work with real-world data.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

Requirements/Evaluation: Homework problems; quizzes; a final project (on a topic that interests you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.
Prerequisites: STAT 201, 202, or equivalent, or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Statistics majors, seniors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Quantitative/Formal Reasoning Notes: This course uses mathematical tools and computing programs to design experiments, analyze their results, and assess their effectiveness. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

Fall 2020
LEC Section: R1 MR 3:15 pm - 4:30 pm Laurie L. Tupper

STAT 346 (F)(S) Regression Theory and Applications (QFR)
This course focuses on the building of empirical models through data in order to predict, explain, and interpret scientific phenomena. Regression modeling is the most widely used method for analyzing and predicting a response data and for understand the relationship with explanatory variables. This course provides both theoretical and practical training in statistical modeling with particular emphasis on simple linear, logistic and multiple regression, using R to develop and diagnose models. The course covers the theory of multiple regression and diagnostics from a linear algebra perspective with emphasis on the practical application of the methods to real data sets. The data sets will be taken from a wide variety of disciplines.

Requirements/Evaluation: exams, homework, and a project
Prerequisites: MATH 250 and at least one of STAT 201, 202 or 302. Or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Statistics Majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course prepares students in the use of quantitative methods for the modeling, prediction and understanding of scientific phenomena.

Fall 2020
LEC Section: H1 MWF 11:45 am - 1:00 pm Richard D. De Veaux

Spring 2021
LEC Section: R1 MWF 8:15 am - 9:30 am Richard D. De Veaux

STAT 355 (F) Multivariate Statistical Analysis (QFR)
To better understand complex processes, we study how variables are related to one another, and how they work in combination. Therefore, we want to make inferences about more than one variable at time? Elementary statistical methods might not apply. In this course, we study the tools and the intuition that are necessary to analyze and describe such data sets. Topics covered will include data visualization techniques for high dimensional data sets, parametric and non-parametric techniques to estimate joint distributions, techniques for combining variables, as well as classification and clustering algorithms.

Class Format: This will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements
Requirements/Evaluation: homework, project/presentations, possibly one or two exams.
Prerequisites: MATH 250, and STAT 346 or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: students interested in statistics which have solid background in math and stat
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: It is an advanced statistics class with prerequisites that are QFR courses

Fall 2020
LEC Section: H1 WF 1:30 pm - 2:45 pm Xizhen Cai
STAT 356 (S) Time Series Analysis (QFR)

Time series -- data collected over time -- crop up in applications from economics to engineering to transit. But because the observations are generally not independent, we need special methods to investigate them. This course will include exploratory methods and modeling for time series, including descriptive methods and checking for significance, and a foray into the frequency domain. We will emphasize applications to a variety of real data, explored using R.

Class Format: Introductory lectures will be available asynchronously as text and video; synchronous sessions will discuss questions from lecture, dive further into the material, and work on examples. You'll use chat and discussion boards to build community, study with classmates, and ask questions outside of class time. There will also be optional synchronous office hours/review sessions.

Requirements/Evaluation: Evaluation is primarily based on quizzes and projects (on topics that interest you!). You'll be given the opportunity to assess your own work and resubmit/reattempt assignments as you gain mastery of a topic. Participation matters! Engagement with your peers is an important part of learning, of being a statistician in the Real World...and of your evaluation in this course. While most assignments will be submitted (and graded) individually, you'll be responsible for giving and receiving peer feedback, contributing to live and online discussions, and working together with classmates on practice problems.

Prerequisites: STAT 346 (may be taken concurrently) or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Statistics majors, seniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course uses mathematical tools and computing programs to create models, make predictions, assess uncertainty, and describe data. We'll also emphasize choosing appropriate mathematical tools and interpreting their results in a real-world context.

Spring 2021
LEC Section: R1 WF 1:30 pm - 2:45 pm Laurie L. Tupper

STAT 359 (S) Statistical Computing (QFR)

This course introduces a variety of computational and data-centric topics of applied statistics, which are broadly useful for acquiring, manipulating, visualizing, and analyzing data. We begin with the R language, which will be used extensively throughout the course. Then we'll introduce a variety of other useful tools, including the UNIX environment, scripting analyses using bash, databases and the SQL language, alternative data formats, techniques for visualizing high-dimensional data, and text manipulation using regular expressions. We'll also cover some modern statistical techniques along the way, which are made possible thanks to advances in computational power. This course is strongly computer oriented, and assignments will be project-based.

Requirements/Evaluation: based primarily on projects, homework, and exams

Prerequisites: STAT 201 or 202 and CSCI 134, 135, or 136

Enrollment Limit: 30

Enrollment Preferences: juniors and seniors, Statistics majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Not offered current academic year

STAT 360 (S) Statistical Inference (QFR)

How do we estimate unknown parameters and express the uncertainty we have in our estimate? Is there an estimator that works best? Many topics from introductory statistics such as random variables, the central limit theorem, point and interval estimation and hypotheses testing will be revisited and put on a more rigorous mathematical footing. The focus is on maximum likelihood estimators and their properties. Bayesian and computer intensive resampling techniques (e.g., the bootstrap) will also be considered.
Class Format: For the Spring 2021 semester, synchronous zoom lectures are planned, where the instructor uses Google's jamboard to interact with students

Requirements/Evaluation: Homework, Quizzes, Exams

Prerequisites: MATH 250, STAT 201 or 202, STAT 341

Enrollment Limit: 15

Enrollment Preferences: Statistics majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: A rigorous mathematical course laying the foundation for reasoning with data

Spring 2021

LEC Section: R1  TR 11:30 am - 12:45 pm  Bernhard Klingenberg

STAT 362  (F)  Design of Experiments  (QFR)
How do you get informative research results? By doing the right experiment in the first place. We'll look at the techniques used to plan experiments that are both efficient and statistically sound, the analysis of the resulting data, and the conclusions we can draw from that analysis. Using a framework of optimal design, we'll examine the theory both of classical designs and of alternatives when those designs aren't appropriate. On the applied side, we'll make extensive use of R to work with real-world data.

Requirements/Evaluation: based primarily on projects, homework, and exams

Prerequisites: STAT 346

Enrollment Limit: 30

Enrollment Preferences: seniors/juniors and Statistics majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Not offered current academic year

STAT 365  (F)  Bayesian Statistics  (QFR)
The Bayesian approach to statistical inference represents a reversal of traditional (or frequentist) inference, in which data are viewed as being fixed and model parameters as unknown quantities. Interest and application of Bayesian methods have exploded in recent decades, being facilitated by recent advances in computational power. We begin with an introduction to Bayes’ Theorem, the theoretical underpinning of Bayesian statistics which dates back to the 1700’s, and the concepts of prior and posterior distributions, conjugacy, and closed-form Bayesian inference. Building on this, we introduce modern computational approaches to Bayesian inference, including Markov chain Monte Carlo (MCMC), Metropolis-Hastings sampling, and the theory underlying these simple and powerful methods. Students will become comfortable with modern software tools for MCMC using a variety of applied hierarchical modeling examples, and will use R for all statistical computing.

Requirements/Evaluation: homework and exams

Prerequisites: STAT 201 and MATH 150 and 250, or permission of instructor

Enrollment Limit: 30

Enrollment Preferences: juniors and seniors, Statistics majors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (QFR)

Not offered current academic year

STAT 368  (S)  Modern Nonparametric Statistics  (QFR)
Many statistical procedures and tools are based on a set of assumptions, such as normality or other parametric models. But, what if some or all of these assumptions are not valid and the adopted models are miss-specified? This question leads to an active and fascinating field in modern statistics called nonparametric statistics, where few assumptions are made on data's distribution or the model structure to ensure great model flexibility and robustness. In this course, we start with a brief overview of classic rank-based tests (Wilcoxon, K-S test), and focus primarily on modern nonparametric inferential techniques, such as nonparametric density estimation, nonparametric regression, selection of smoothing parameter (cross-validation), bootstrap, randomization-based inference, clustering, and nonparametric Bayes. Throughout the semester we will examine these new methodologies and apply them on simulated and real datasets using R.

Requirements/Evaluation: performance on exams, homework, and a project
Prerequisites: STAT 201 and STAT 346, or permission of instructor.
Enrollment Limit: 30
Enrollment Preferences: senior Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods.

Not offered current academic year

STAT 372 (F) Longitudinal Data Analysis: Modeling Change over Time (QFR)
This course explores modern statistical methods for drawing scientific inferences from longitudinal data, i.e., data collected repeatedly on experimental units over time. The independence assumption made for most classical statistical methods does not hold with this data structure because we have multiple measurements on each individual. Topics will include linear and generalized linear models for correlated data, including marginal and random effect models, as well as computational issues and methods for fitting these models. We will consider many applications in the social and biological sciences.

Class Format: Hybrid format. Approximately 2/3 of class time will be lecture (in person for students who are on campus, recorded for remote students). All synchronous students (whether in person or online) will attend a remote lab/discussion section each week. Asynchronous options will be provided for students unable to participate synchronously.

Requirements/Evaluation: performance on exams, homework, and a project
Prerequisites: STAT 201 and STAT 346
Enrollment Limit: 15
Enrollment Preferences: junior and senior Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: The course will cover a variety of statistical analysis methods for longitudinal data.

Fall 2020
LEC Section: H1 MWF 10:40 am - 11:30 am Anna M. Plantinga

STAT 397 (F) Independent Study: Statistics
Directed independent study in Statistics.

Fall 2020
STAT 398 (S) Independent Study: Statistics
Directed independent study in Statistics.
Prerequisites: permission of department
Grading: yes pass/fail option, yes fifth course option
Distributions: D3

Spring 2021

STAT 410 (F) Statistical Genetics (QFR)
Genetic studies explore patterns of genetic variation in populations and the effect of genes on diseases or traits. This course provides an introduction to statistical and computational methods for genetic studies. Topics will include Mendelian traits (such as single nucleotide polymorphisms), genome-wide association studies, pathway-based analysis, and methods for population genetics. Students will be introduced to some of the major computational tools for genetic analysis, including PLINK and R/Bioconductor. The necessary background in genetics and biology will be provided alongside the statistical and computational methods.
Requirements/Evaluation: project work, homework, exams, and contribution to discussion
Prerequisites: STAT 346 and STAT 360, or permission of instructor
Enrollment Limit: 14
Enrollment Preferences: Statistics majors, juniors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: D3 (QFR)
Quantitative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods.
Not offered current academic year

STAT 440 (F) Categorical Data Analysis (QFR)
This course focuses on methods for analyzing categorical response data. In contrast to continuous data, categorical data consist of observations classified into two or more categories. Traditional tools of statistical data analysis are not designed to handle such data and pose inappropriate assumptions. We will develop methods specifically designed to address the discrete nature of the observations and consider many applications in the social and biological sciences as well as in medicine, engineering and economics. All methods can be viewed as extensions of traditional regression models and ANOVA.
Requirements/Evaluation: performance on exams, homework, and a project
Prerequisites: STAT 346 and STAT 360
Enrollment Limit: 14
Enrollment Preferences: seniors and Statistics Majors
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: D3 (QFR)
Not offered current academic year

STAT 442 (S) Statistical Learning and Data Mining (QFR)
In both science and industry today, the ability to collect and store data can outpace our ability to analyze it. Traditional techniques in statistics are often
unable to cope with the size and complexity of today's data bases and data warehouses. New methodologies in Statistics have recently been
developed, designed to address these inadequacies, emphasizing visualization, exploration and empirical model building at the expense of traditional hypothesis testing. In this course we will examine these new techniques and apply them to a variety of real data sets.

Class Format: Hybrid format. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Requirements/Evaluation: homework, exams and projects

Prerequisites: STAT 346 or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Statistics majors, juniors and seniors. Students cannot take both STAT 315 and STAT 442. Only one of the two can be taken for credit.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is an advanced statistics class involving theory and application of statistical methods to data.

Spring 2021
LEC Section: H1    MWF 10:40 am - 11:30 am    Xizhen Cai

STAT 458 (F) Spatio-Temporal Data (QFR)

Everything happens somewhere and sometime. But the study of data collected over multiple times and locations requires special methods, due to the dependence structure that relates different observations. In this course, we'll look at exploring, analyzing, and modeling this kind of information—introducing standard methods for purely time-series and purely spatial data, and moving on to methods that incorporate space and time together. Topics will include autocovariance structures, empirical orthogonal functions, and an introduction to Bayesian hierarchical modeling. We'll use R to apply these techniques to real-world datasets.

Requirements/Evaluation: project work, homework, exams, and contribution to discussion

Prerequisites: STAT 346, or permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Seniors and Statistics majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This is an intensive statistics course, involving theoretical and mathematical reasoning as well as the application of mathematical ideas to data using software.

Not offered current academic year

STAT 465 (F) Bayesian Statistics (QFR)

Interest and application of Bayesian methods have exploded in recent decades, being facilitated by recent advances in computational power. Indeed, the Bayesian approach is now recognized across scientific disciplines as a modern and powerful tool. We begin with an introduction to Bayes’ Theorem, the theoretical underpinning of Bayesian statistics which dates back to the 1700's, and the concepts of prior and posterior distributions, conjugacy, and closed-form Bayesian inference. Building on this, we introduce modern computational approaches to performing Bayesian inference, including Markov chain Monte Carlo (MCMC), Metropolis-Hastings sampling, and the theory underlying these simple and powerful methods, before moving on to multivariate sampling methods and methodology. Students will become comfortable with modern software tools for MCMC using a variety of applied hierarchical modeling examples, and will use R for all statistical computing. The course will culminate in an independent Bayesian research project.

Requirements/Evaluation: Homework, exams, and project

Prerequisites: STAT 346, or permission of instructor

Enrollment Limit: 30

Enrollment Preferences: Juniors and Seniors, and Statistics majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course mandates significant mathematical and statistical prowess.

STAT 31  (W)  Senior Honors Thesis
Statistics senior honors thesis.
Class Format: thesis
Grading: pass/fail only
Not offered current academic year

STAT 99  (W)  Indep Study: Statistics
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
THE MAJOR IN SPANISH

Students who major in Spanish can expect to acquire linguistic fluency along with in-depth knowledge of the cultures of Spain and Latin America. Through the study of the major writers and historical events of the Spanish-speaking world, our program offers training in literary analysis and linguistic expression, as well as a deep appreciation of Hispanic civilizations.

The major consists of nine courses above the 102 level. In exceptional circumstances, the Department may decide to accept RLSP 101-102 for the Spanish major. One of the nine courses must be the 400-level senior seminar taken during the student's final year at the College; another must be a course that substantially focuses on literature or cultural texts produced before 1800. Students entering at the 200-level may, with the permission of the Department, choose as part of their major program one course not conducted in Spanish but offered by faculty in Romance Languages or another Department or Program, such as Latino/a Studies, Comparative Literature, History, etc., provided that the subject matter relate to and broaden their study of Spanish. Students entering at a very advanced level may, in some cases and with the permission of the Department, include two such courses in their major program. Working with a member of the Spanish faculty, the student will formulate a curricular plan that will ensure balance and coherence in courses taken prior to declaring a major in Spanish. This is especially imperative for students who are planning to spend a part or all of their junior year in Latin America or Spain.

THE DEGREE WITH HONORS IN SPANISH

Students majoring in Spanish may apply to be admitted to the Honors Program in Spanish upon demonstrating the following: (1) fluency of spoken and written language; (2) potential for successful independent research, as demonstrated by strong performance in advanced-level coursework; (3) interest and motivation; and (4) overall quality and feasibility of the proposal. Two routes are available to those who wish to apply for the degree with honors.

The first of these involves the writing of a senior thesis.

By May 15th of their junior year, candidates will have found a thesis advisor, and given the Department a three- to five-page proposal and a preliminary bibliography. (In some cases, and upon consultation with the Department, candidates will have the option to choose a second reader in addition to their primary advisor; for example, when the thesis is interdisciplinary enough in nature that it requires the expertise of an additional reader).

This proposal will be discussed by the Department; by June 1st, the candidate will be informed whether they can proceed with the thesis, and if so, what changes need to be made to the focus and scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and reading.

Upon their return to Williams, candidates will devote to their theses two semesters of independent study (beyond the nine courses required for the major) and the winter study period of their senior year (493-W31-494). The thesis will be written in Spanish and will usually not be shorter than fifty pages. By the end of the Fall semester, students will normally have a clear outline of the project, have done substantial research, and produced the draft of at least the first half of the project. During January this draft will be suitably rewritten and edited with a view to a final version, while the candidates will also begin work on remaining chapters.

Candidates will submit what they have written to the department on the last day of Winter Study.

On the Tuesday of the first week of the spring semester candidates will make a presentation of the project at a departmental colloquium in Spanish. The thesis will be promptly discussed and evaluated to determine whether or not the student should continue in the honors program. The second semester of independent thesis work will be spent writing more chapters, as well as revising, rewriting, and polishing the project where necessary. The completed thesis in its final form will be due on April 25th. At the end of the Spring term, the student will present and defend the final project before members of the Department and others by invitation. The grade will be awarded once members of the Department have consulted after the defense.

The second route is a group of three clearly related courses (offered by the Department of Romance Languages or by other departments, such as History, Art, Philosophy, English, etc.), only one of which may be counted in the nine courses comprising the major. One of the courses will be an Independent Study (plus senior year WSP 30) in the spring of the senior year, at the end of which the student will write an essay that synthesizes the content of the three related courses. Students may apply for this route by November 2 of the senior year.
In the case of both routes to the degree with honors, the department’s recommendation for graduation with honors will be based on the originality and thoroughness of the finished project.

THE CERTIFICATE IN SPANISH

The Certificate in Spanish Language and Culture consists of a sequence of seven courses for which the student must earn a cumulative grade average of B or higher. Those so interested should express their intent to the chair of the department by March 1 or earlier.

For students with no prior Spanish background, the course sequence will consist of Spanish 101-102, Spanish 103 and 104, and three courses in Spanish above the 104 level, with at least one of these courses at the 200-level or higher taken at Williams. If the student starts out the sequence at Spanish 103, in addition to the three courses in Spanish beyond the 104 level (including a 200-level course or higher), two electives may be taken in other departments. One elective should be in Spanish or Latin-American cultural history (art, literature, drama, music) and the other in Spanish or Latin-American intellectual, political, or social history. Spanish 200, 201, or 208 can be counted for the elective requirement.

Electives may be considered from a variety of departments and programs. However, students should consult with the chair of Romance Languages before making any enrollment decisions.

PLACEMENT

Students come to study Spanish at Williams with a wide range of backgrounds and prior experiences. Some will have studied Spanish for many years in high school and earlier. Others will have grown up speaking Spanish with family and friends but had little opportunity to study the language at school. Others have lived in Spanish-speaking countries or otherwise studied in immersive contexts. And for others, Spanish is a brand-new language that they are eager to begin learning.

Whatever your previous experience with Spanish, ¡Bienvenida! ¡Bienvenido! We are glad to have you with us. In order to figure out the most appropriate point of entry, we ask that all students who wish to begin their study of Spanish in the new academic year take the department's placement exam when it is offered during First Days. The only students who don't need to take the placement exam are those who qualify as “true beginners,” those with no previous experience of Spanish and for whom 101-102 is obviously the right choice. Everyone else should take the placement test. After you do, the Registrar's Office will notify you of the level and/or course the Spanish faculty have recommended for you. You should free to reach out to the department chair, your recommended instructor, or any other faculty member if you have questions or concerns about your placement.

STUDY ABROAD

Spanish majors, as well as non-majors interested in further exposure to the language and the culture, are strongly encouraged to study in Spain or Latin America for either a semester or a full year. We recommend that you start planning for study abroad as early as possible, and that you speak to our faculty early on to go over the many possible destinations and programs available to you. In recent years, Williams students have studied in such varied and far-flung locations as Buenos Aires, Havana, Lima, Barcelona, and Madrid. Those who are interested in Madrid may wish to consider the Hamilton College program, with which we maintain consortial ties. Credit for up to four courses can be granted at the discretion of the Department for study overseas. Those four courses count towards the certificate or the major in Spanish. Students interested in study abroad should consult with a member of the department at their earliest convenience.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, provisional approval can be granted (students should be sure to contact the department for details).

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments. If it is a program we are familiar with, the course title and description are enough. If it is a new program/new type of course we need all the available materials (syllabus, assignments, etc.).

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes. Four maximum.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes. They have to be courses that focus on language, culture, history, or politics of the target language/culture.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. Our Senior Seminars are required for the major.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

This hardly ever happens but could happen if a student doesn’t seek out pre-approval from a faculty member.

**RLSP 101  (F) Elementary Spanish**
This course focuses on grammar, elementary composition, practice in conversation, and reading of easy modern prose. It is taught by the intensive oral method.

**Class Format:** Remote, and synchronous. Special attention will be given to creating an interactive space for all students.

**Requirements/Evaluation:** participation, regular homework exercises, quizzes, a midterm, and a final exam.

**Prerequisites:** This course is for students who have no previous background in Spanish.

**Enrollment Limit:** 15

**Enrollment Preferences:** None. However students will two or more years of High School Spanish are normally not eligible.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** Textbook.

**Distributions:** (D1)

SEM Section: R1    Cancelled
SEM Section: R2    M-F 10:00 am - 10:50 am     Leyla  Rouhi

**RLSP 102  (S) Elementary Spanish**
This course focuses on grammar, elementary composition, practice in conversation, and reading of easy modern prose. It is taught by the intensive oral method.

**Class Format:** The class meets five hours a week; students will complete workbook and lab exercises weekly.

**Requirements/Evaluation:** Daily preparation and participation, regular homework assignments, and frequent tests

**Prerequisites:** RLSP 101; this course is for students who have studied less than two years of Spanish in secondary school

**Enrollment Limit:** 14

**Enrollment Preferences:** Students who have completed RLSP 101 in the Fall of 2020.

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Students in RLSP 101-102 are normally required to attend and pass the sustaining program during the winter study period only if both semesters (RLSP 101 and 102) are taken. In 2020-21 WS activities are highly encouraged and announced via GLOW.

LEC Section: R1    M-F 10:00 am - 10:50 am     Soledad  Fox

**RLSP 103  (F) Intensive Intermediate Spanish**
This course is a continuation of Spanish 101-102. It is designed to help students improve their proficiency in each of the major skill-groups (listening, speaking, reading and writing) while providing an introduction to the vibrant cultures of the Spanish-speaking world. For fall 2020, RLSP 103 will be a fully-online experience. Students can expect to meet with their professor, teaching assistant and classmates in varying combinations for four hours
each week. You'll take in feature films, documentaries and shorts, read the news in online periodicals, and tap into your own creativity and critical reasoning skills. Use of a textbook and workbook will support your learning. All assignments are designed to increase vocabulary and improve your ability to handle daily life in a Spanish-speaking country, to express your views on complex subjects such as art and politics, and to increase your knowledge of the cultural traditions of Latin America and Spain. This course provides linguistic training with an emphasis on the variety of Spanish as spoken in Latin America, Spain and the US; it will help to prepare students for further literary and cultural studies as well as provide skills that are increasingly essential in fields such as medicine, law, and education. Conducted in Spanish.

Class Format: Students can expect to spend approximately four hours per week in active on-line engagement with their instructor, TA and classmates. Some of these meetings will take place during the scheduled class hours; others will be added at agreed-upon times once the enrollment is fully established.

Requirements/Evaluation: Regular attendance and active participation in a variety of on-line meetings and activities, as well as workbook exercises and weekly compositions, quizzes, midterm and final exams (oral and written).

Prerequisites: RLSP 101-102 or by Spanish placement exam

Enrollment Limit: 12

Enrollment Preferences: If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

SEM Section: R2  MWF 10:40 am - 11:30 am  Jennifer L. French

RLSP 104  (S)  Upper Intermediate Spanish

This course is a continuation of Spanish 103. It focuses on the review of grammar as well as on refining writing and speaking skills. A variety of written and audiovisual journalistic media will enable students to deepen their understanding of Hispanic cultures. The course is taught remotely. There will be two different sections of this course: one will be taught by Professor Carlos Macías Prieto, and the second one by Professor Carolina Melgarejo-Torres. Each section will have a maximum number of 12 students.

Class Format: Students will spend 4 hours per week in class, in active on-line engagement with their Professor, Teaching Associate (TA), and classmates. In addition to the regular MWF classes with their Professor, students will meet for one additional hour per week with the TA. As will be explained in the course syllabus and at the first class meeting, this additional hour with the TA will take place at a time (to be decided during the first weeks of class) that is mutually beneficial for the TA and students.

Requirements/Evaluation: weekly 1- to 2-page compositions, regularity of class participation, oral reports, frequent quizzes, a midterm and a final exam

Prerequisites: RLSP 103 or by Spanish placement exam

Enrollment Limit: 24

Enrollment Preferences: If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

Expected Class Size: 24

Grading: yes pass/fail option, no fifth course option

RLSP 105  (F)  Advanced Grammar, Composition, Conversation
In this course students will refine their knowledge of Spanish grammar and vocabulary towards further fluency in speaking and writing. The focus of the class is grammar through active engagement with relevant cultural, literary, and political materials centered for the most part on Spain. Students will produce regular grammar and composition exercises as well as oral reports.

**Class Format:** students may participate in TA sessions once a week.

**Requirements/Evaluation:** regular grammar and composition assignments, a mid-term, a final exam, occasional quizzes, oral reports; active participation and regular attendance required.

**Prerequisites:** RLSP 104, or results of the Williams College Placement Test, or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** first-year students, potential majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**RLSP 107 (F)  Advanced Grammar and Conversation**

How is Spanish language relevant to my academic field? What linguistic and cultural resources should I acquire to effectively communicate my academic interests in this language? How do I prepare for a professional presentation in Spanish? What are the limitations of the academic language at the moment of interacting with people in the community? The Advanced Grammar course 107 will provide cultural and linguistic resources to address the questions above and other common concerns that students have around their proficiency and skills to communicate effectively. This course focuses on helping students to advance their cultural and communicative skills in Spanish, as they share their professional interests with other students. The class will discuss four general topics - medicine, history and human rights, art, and environmental issues -, which will create the context for students to conduct oral presentations and activities around their own academic fields. Another important emphasis of the course will be to connect students' professional interests to current issues of social justice in USA, Latino America and other world countries. To expand their cultural and linguistic knowledge, participants will prepare two different types of oral activities for the class: formal-academic presentations and non-formal activities that use colloquial registers. The RLSP 107 course will require a constant and committed collaboration between participants.

**Class Format:** This course will use Remote Teaching with synchronous and asynchronous classes.

**Requirements/Evaluation:** Regular attendance to our online sessions will be strictly required. Because this course will not have any exams, the evaluation will be based on participation, presentations, weekly activities, written reports and a glossary that students will develop along the semester.

**Prerequisites:** RLSP 104, placement exam results, permission of instructor or Department Chair

**Enrollment Limit:** 12

**Enrollment Preferences:** Spanish majors and certificate students, current and potential.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1)

**RLSP 200 (S)  Advanced Grammar and Composition through Literature**

This course is designed for advanced students who wish to further polish and refine their grammatical, lexical, and writing skills in Spanish. The course may be taken immediately after 105, by placement exam results, or even after students have begun to sample the Department's literature and culture offerings at the 200- and 300-level. Classic works of short fiction by celebrated Latin American authors such as Gabriel García Márquez and Julio Cortázar will be discussed; selected Latin American films will be viewed as well. For written and oral assignments: weekly essays, in-class presentations, and language-laboratory activities. Conducted in Spanish.
Class Format: In-person. Discussion.
Requirements/Evaluation: a weekly essay based on the stories read in class, written lab exercises, participation in the grammatical and literary discussions, quizzes, a mid-term and a final
Prerequisites: RLSP 105, any course 201+, placement exam or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Sophomore
Expected Class Size: 10-19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Spring 2021
LEC Section: H1 M-F 10:00 am - 10:50 am Gene H. Bell-Villada
RLSP 201  (F)  The Spanish Labyrinth
How can you learn to separate the stereotypical images of Spain from reality? How can we talk about one "Spain", when the country a complex composite of ancient and diverse cultural remnants mixed with recent influxes of immigrants and separatist movements? How has the vulnerable peninsula survived centuries of violent upheavals and divisiveness; dramatic economic rises and collapses? How has the Covid-19 pandemic affected Spain's health system, demographics, and international economy? This course aims to offer students a strong foundation in Spanish issues, whether they have already spent time abroad, or hope to do so in the future. In this course we will approach Spain by studying examples of its literary and artistic production, from periods of brilliant cultural exchange, and times of censorship, repression, and crisis. Some topics of focus will be the Inquisition, the Civil War, contemporary Spain's obsession with its own recent past, and its uncertain future as it begins to recover from the effects of Covid. Secondary texts will also be provided for historical and socio-political background and reference. Conducted in Spanish.
Class Format: Instruction will be remote.
Requirements/Evaluation: Conducted entirely in Spanish, Active regular participation in class discussions. Each student will give one presentation and, on a separate occasion, also be a discussion leader. Two short writing assignments (2-3 pp) and one final essay (10-12 pp). Remote office hours will be scheduled with individual students at different points in the semester to help each one with questions, approaches to homework and class participation, and to go provide additional feedback and practice for writing and oral expression.
Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Spanish majors and certificate candidates
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Fall 2020
SEM Section: R1 MW 10:00 am - 11:15 am Soledad Fox
RLSP 202  (S)  Introduction to the Analysis of Literature in Spanish  (WS)
This course is intended for students who are considering a major in Spanish, including those who have recently completed RLSP 105, 107, or 200. Using a textbook, Aproximaciones al estudio de la literatura hispánica, we will study the fundamentals of genre analysis while reading selected works of prose, poetry and drama from Latin America and Spain. Conducted in Spanish. This course is writing intensive because the techniques of planning, writing, and revising essays will all be extensively discussed and put into practice.
Class Format: This class will be fully remote. Students are expected to be active participants at all scheduled class meetings, which will be used for discussion, collaborative analysis of literature texts, and writing workshops. There will be some additional asynchronous components.
Requirements/Evaluation: assignments will include three 5-page essays, a number of shorter papers, and occasional discussion-leading as well as consistent preparation and class participation
Prerequisites: RLSP 105, 107, 200, 209, or placement exam results indicating readiness for a 200-level course
Enrollment Limit: 12
Enrollment Preferences: first- and second-year students who are considering the major in Spanish
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Our commitment to the formal analysis of literature in Spanish lends itself to a sustained and focused attention to student writing. As we learn to analyze works of literature, we will bring our attention to questions of rhetoric, style and structure to bear on our own writing also. Papers will be "work-shopped" throughout the semester; students will also practice peer-editing in pairs. Students will also receive extensive feedback from the professor with the goal of strategic revision.

Spring 2021

RLSP 203  (F)  From Modernismo to El Boom de la Novela
A survey of some of the leading imaginative writers of Ibero America. Readings will begin with the modernista poets and go on to include fiction of Mexico by Rulfo, a wide sampling of verse by Pablo Neruda, and narratives of the "Boom" period by authors such as Borges, Cortázar, Lispector, and García Márquez. Conducted in Spanish.
Class Format: In-person.
Requirements/Evaluation: Response journals, three 6- to 8-page papers, a mid-term and final exam, and class participation.
Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Seniors, juniors, and then sophomores
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option

RLSP 204  (S)  Hispanic/Bilingual Communities in USA: language and identity
"Hispanic/Bilingual Communities in USA: language and identity" is a course for Heritage Learners with two different profiles: those who have acquired Spanish at home and those who have been learning the language at school. Students’ own sense of affective connection with the language through their families will guide our reflection on Spanish as a social component that unifies multiple Hispanic communities in the USA. We will also discuss the dialectical, sociolectal and generational differences between the members of those speaking communities, and the implications of considering these groups as homogenous. The course will address the role that media, institutions and cultural products play in preserving and (re)defining Spanish in the USA. We will review the language and its variation through TV programs, music, magazines, and literature. Heritage Learners already have an important foundation of linguistic knowledge that prepares them for interaction in Spanish. In this course they will be asked to further extend their resources through constant grammar and vocabulary practice. The course requires writing reports and larger texts, and the reading of an important amount of specialized texts in Spanish. Many of the daily activities will require teamwork. The course will meet 2 times per week: M, W, 1 hour 15 minutes per session. Students who have taken Spanish 209 can also register for this course.
Requirements/Evaluation: Evaluation will be based on class participation, daily assignments, essays, projects and one parcial exam.
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: sophomores, juniors, majors, or concentrators.
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)

RLSP 205 (F) The Latin-American Novel in Translation (DPE)

Cross-listings: RLSP 205 COMP 205

Primary Cross-listing

A course specifically designed to enable students who have no knowledge of Spanish to read and discover those Latin-American authors who, in the twentieth century, have attracted world-wide attention. Among the texts to be discussed: Borges, Labyrinths; Cortázar, Blow-up and Hopscotch; Lispector, the Hour of the Star lesser works by Fuentes and Puig; and by Nobel Prize-winner Gabriel García Márquez, One Hundred Years of Solitude. Conducted in English

Requirements/Evaluation: class participation, two brief papers, a midterm, and a final exam

Prerequisites: none

Enrollment Limit: 22

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not carry credit for the Spanish major or the certificate

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 205 (D1) COMP 205 (D1)

Difference, Power, and Equity Notes: This course offers students an opportunity to read some major works of fiction that have challenged the ¿canon¿ of European and American literature. Through the readings, class members will understand that great literature comes not only from London or Paris, from the U.S. or Russia. Several of these novels, moreover, directly challenge European and Western cultural hegemony and make an implicit claim for the legitimacy of Latin American cultural concerns.

Not offered current academic year

RLSP 206 (S) Latin-American Civilizations

An introduction to the multiple elements constituting Latin-American culture. Class assignments include readings from selected Latin-American essayists and screenings of classic films. Particular focus on the conflict between local and foreign cultural traditions. Areas to be considered: Spanish Catholicism, the influence of European liberalism and U.S. expansion, the Indian and African contribution, and the cultural impact of social revolution in Mexico and Cuba. Conducted in Spanish.

Class Format: In-person

Requirements/Evaluation: two essays on assigned topics, response journals, one oral presentation, active discussion of the ideas and the facts presented in class, a midterm, and a final

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Juniors, sophomores, first-years.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

**RLSP 209 (F) Spanish for Heritage Speakers**

This course is intended for students of Latino/a heritage. It will address the unique needs of students whose knowledge of Spanish comes primarily from informal and family situations rather than a conventional classroom experience. The goal of the course is to build on and expand students’ existing knowledge of Spanish while developing skills for using the language in more formal/academic contexts. This course will be taught remotely.

**Requirements/Evaluation:** homework, class participation, and a series of communicative projects

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** potential Spanish majors/certificate students and LATS concentrators

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

Fall 2020

SEM Section: R1 MWF 12:00 pm - 12:50 pm Carlos Macias Prieto

---

**RLSP 211 (S) A Survey of Spanish Literature from the 11th to the 17th Centuries**

This course will introduce the student to some of the major works of Spanish literature from its beginnings through the Golden Age. We will study the historical context in which the works were written as well as the literary history of the periods in question. Students will learn methods of textual analysis through readings of relevant literary criticism. Readings will include selected canonical prose, poetry, and drama of the periods; special emphasis will be given to the myth of the coexistence of three religions in Iberia and the often misguided idea of dividing this literature into the categories of ‘medieval’ and ‘Renaissance’. Conducted in Spanish. This course fulfills the pre-1800 requirement for the Spanish major

**Requirements/Evaluation:** evaluation will be based on class participation, short paper assignments, and a final paper

**Prerequisites:** RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

Not offered current academic year

---

**RLSP 214 (S) “Ecologismo”: Literature, Culture and the Environment in Latin America** (DPE)

**Cross-listings:** RLSP 214 ENVI 218

**Primary Cross-listing**

How have Latin American authors and artists responded to environmental concerns, from the logging and rubber booms that threatened the Amazon in the early 20th century to contemporary global warming? How do the realities of Latin American societies—including massive disparities of wealth and poverty; the cultural and political impacts of the region's indigenous populations; and the complex histories of colonialism, dependency and neoliberalism—inform Latin American responses to environmental issues? How does Latin America’s environmental imaginary differ from those of the U.S. and Europe? In this course we will explore these issues and more through literary and other cultural texts from Latin America. We will consider short stories and novellas by authors including Horacio Quiroga (Uruguay), Luis Sepúlveda (Chile), Mempo Giardinelli (Argentina), and Ana Cristina Rossi (Costa Rica); poetry by Esthela Calderón (Nicaragua), Juan Carlos Galeano (Colombia), Homero Aridjis (Mexico); the paintings of Tomás Sánchez (Cuba); and feature films as well as shorter documentaries. In Spanish.

**Requirements/Evaluation:** brief response papers, as well as three 5- to 7-page essays based on close-readings of literary and cultural texts

**Prerequisites:** RLSP 105, placement exam results, or permission of the instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** Spanish and Environmental Studies majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: This course is inspired by and organized around Arturo Escobar's notion of "the political ecology of difference;" our work throughout the semester aims to understand the myriad ways in which "difference"—economic, ecological, and cultural— informs Latin American responses to environmental degradation.

Not offered current academic year

RLSP 216 (S) Latin American Environmental Literature and Cultural Production (DPE)

Cross-listings: RLSP 216 ENVI 233

Primary Cross-listing

This foundational course explores a wide array of ecocultural texts from Latin America, ranging from accounts of Europeans’ first arrival to the crisis of mass extinction and anthropogenic climate change today. In between we consider an eclectic mix of styles and genres, including poetry, essays, prose fiction and speeches produced by a varied group of cultural agents. We read classic texts by canonical figures (José Martí's "Our América," the Popol Vuh), which take on new meaning in the current context, as well as some little-known gems of ecological consciousness. Readings and discussion trace connections between environmental thought and the region's long and multi-layered history of colonialism, and students are encouraged to develop their own positions by responding to some of the leading theoretical discourses that animate the field of Latin American ecocriticism: decolonial and creole ecologies, ecofeminism, transcultural materialism, and postdevelopment. Conducted in English.

Class Format: This class will be fully remote. Students are expected to be active participants at all scheduled class meetings; there may be some additional asynchronous activities.

Requirements/Evaluation: Students will write and revise three formal essays over the course of the semester. There will also be shorter written assignments and intermittent discussion-leading.

Prerequisites: None.

Enrollment Limit: 15

Enrollment Preferences: Preference given to students majoring in Spanish or Environmental Studies.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 216 (D1) ENVI 233 (D1)

Difference, Power, and Equity Notes: This course meets the goals of the DPE requirement in that it focalizes the current environmental crisis through the long history of political, economic and cultural struggles in Latin America. We examine the genealogies of environmental culture, tracing the emergence of ecofeminism, for example, through generations of writers. We also examine the phenomenon of creolization and its relationship to the environmental cultures of Latin America's originary peoples.

Spring 2021

SEM Section: R1 TR 11:30 am - 12:45 pm Jennifer L. French

RLSP 217 (S) Love in Early Modern Spain

The principal focus of this course is the Spanish "comedia" of the seventeenth century (with supplemental readings from prose and poetry) to provide us with a dynamic and critical understanding of the theme of love as constructed by the greatest dramatists and authors of the period. Works by Lope de Vega, Tirso de Molina, Calderón, San Juan de la Cruz, Santa Teresa, María de Zayas, and others will show us how the theme was treated from diverse perspectives, and how it related to the social and political context of the time. Conducted in Spanish.

Class Format: This class will be taught remotely but synchronously.

Requirements/Evaluation: Active and meaningful participation, short assignments, one final project.

Prerequisites: RLSP 105 or 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 22

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

RLSP 220  (S) Women on the Verge
Cross-listings: RLSP 220 WGSS 222

Primary Cross-listing
From the early twentieth century to the present day, the radical changes in the lives of Spanish women have clearly reflected the tug of war between progress and tradition in recent Spanish history. The dramatic upheavals in Spanish politics have marked and transformed the lives of women to such a great extent that one can often gauge the political and social climate of any given historical moment by considering how the role of women was defined by the law, the Catholic church, education, and other social and political institutions. Using literary and historical texts as well as films and graphic materials, this course will look at the transformations in the public and private lives of Spanish women during the following periods: the turn of the century, the Second Republic, the Spanish Civil War, the Franco years, and the transition to democracy.

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
RLSP 220 (D1) WGSS 222 (D2)

Not offered current academic year

RLSP 228  (S) Velázquez, Goya, and Picasso
Cross-listings: ARTH 228 RLSP 228

Primary Cross-listing
This course will provide an introduction to three major Spanish painters--Velázquez, Goya, and Picasso--who lived and worked, respectively, in the 17th, 18th, 19th and 20th centuries. Though these painters are world famous, they are rarely studied comparatively, and in the context of their Spanish artistic roots. The syllabus will cover the historical and social contexts in which they started working, and how they followed, and departed from, artistic conventions of the time. Through specific paintings, we will consider the historical evolution of the artists' relationship to their patrons and subjects, from the elite status of Velázquez within the royal court, to Goya's dramatic rise with the reigns of Charles III, and Charles IV, and his subsequent exile to France. Picasso was free of royal patronage and also lived in France, yet despite this freedom he remained deeply connected to the themes and concerns of his Spanish artistic predecessors. In addition to key paintings including Velázquez's "Las Meninas" and other royal portraits, Goya's "Maja Desnuda" and his series "The Disasters of War," Picasso's "Guernica," and his own 20th century reinterpretation of "Las Meninas," we will focus on the artists' shared subjects of portraits and war, and consider the following issues: How does the role of the Spanish artist change over the periods covered? How did the artist exercise his freedom whilst under the scrutiny of the court and the Catholic Church? How were these painters' lives and work shaped by key historical events such as the Inquisition, Napoleon's invasion of Spain, or the Spanish Civil War? How does the work of art evolve in its role from private royal commission to public display in museums open to all? We will read short literary pieces from each period, primary materials such as letters and other documents, and historical and critical works. All readings will be in English. Knowledge of Spanish is encouraged, but not required.

Requirements/Evaluation: 3- to 5-page weekly assignment

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 10
**RLSP 230 (F) Mexican Literature and Cultural Production** (DPE) (WS)

This course will offer a survey of the rich and varied cultural production of Mexico, from the pre-Hispanic past to the present. Students will explore a variety of literary genres (pre-Hispanic poetry, creation stories and songs; chronicles of conquest; short works of prose fiction and novels; and modern poetry and essays) as well as other kinds of cultural production within a framework of historical contextualization and formal analysis. The course meets twice per week and it is taught remotely. *Conducted in Spanish.*

**Requirements/Evaluation:** Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation, active and engaged participation in class discussions.

**Prerequisites:** RLSP 105, placement exam results, permission of instructor.

**Enrollment Limit:** 19

**Enrollment Preferences:** Spanish majors and certificate students, current and potential; LATS concentrators

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

**Difference, Power, and Equity Notes:** This course will introduce students to the rich and varied cultural production of Mexico across time and space. It will highlight the often marginalized and neglected intellectual histories of indigenous peoples and other minoritized sectors of Mexican society. As such, students will acquire critical tools to examine and understand the rich and varied cultural production of Mexico.
RLSP 259 Violent States, Violent Subjects: Nation-Building and War in 19th Century Latin America (DPE) (WS)

Although the massive, mechanized wars of the 20th century often overshadow earlier conflicts, the 19th century was also a period of widespread bloodshed in Latin America. First, of course, came the carnage of the Independence Wars, which was followed by decades of civil war (Mexico, Argentina, Peru, Uruguay, Colombia, Venezuela) and two bitter international wars—the Paraguayan War (1864-1870) and the Pacific War (1879-1883)—each of which would have a lasting impact on the countries involved. The restoration of peace brought economic development and new opportunities for dominant groups, but also the return of some of the most violent practices of the colonial period: indigenous peoples were conquered, their lands settled by whites or used for grazing cattle, and blacks (often despite the official abolition of slavery) met with new forms of exclusion, exploitation, and physical violence. In this tutorial we will explore the literary links between some of the violent conflicts listed above and the foundation of national identities in Latin America, reading texts that probe the social and ethical implications of State-sponsored violence. Issues to be explored include militarism and the development of nationalism; genocide and the national community; torture, truth and testimony; and the notion of ‘civilization.’ We will read one or two key precursors and a variety of 19th century texts that may include works by Juan Francisco Manzano, Esteban Echeverría, Ricardo Palma, Rosa Guerra, Dorotea Duprat de Lassere and Juan Crisóstomo Centurión, and Lucio V. Mansilla. In addition, we will read a few contemporary texts, written in the aftermath of the late-20th century dictatorships in the Southern Cone, that actively reflect on the long history of State-sponsored violence in Latin America (Ricardo Piglia, Diamela Eltit, Augusto Roa Bastos). Students will work in trios throughout the semester, each group meeting with the instructor once a week. Each week one of the students will present a 5-page paper on the assigned reading and one will be designated the official respondent, whose job is to lead a discussion of the paper. The third member of the group will turn in a revision of the previous week's paper. Prerequisites: one 200-level RLSP course or permission of instructor. Heritage learners, international students and second-language learners are all heartily welcome. Conducted in Spanish.

Class Format: Conducted in Spanish.

Requirements/Evaluation: Each student will write and revise a minimum of three five-page papers during the course of the semester. Students will be evaluated on the basis of their preparation for each tutorial meeting as evidenced by the quality and frequency of their engagement with the material, including their classmates’ written work. Essays will be graded after they have been revised and submitted to the professor.

Prerequisites: Any 200-level Spanish course.

Enrollment Limit: 12

Enrollment Preferences: Priority given to Spanish majors.

Expected Class Size: 12

Grading:

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will practice writing throughout the semester, and will receive abundant feedback on their written work from their tutorial partners and the instructor. We are altering the tutorial format from the standard duos to trios of students, so that students will have ample opportunity to revise their written work.

Difference, Power, and Equity Notes: This course focuses on issues of diversity, power and privilege within the internal and regional constitution of Latin American countries. We will read with an awareness of some of the ways that differences of race, class, nationality and gender may be mobilized in times of conflict, and consider how the collective narratives that are constructed and imposed in the aftermath tend deal with those conflicts.

Not offered current academic year

RLSP 274 (S) Women's Contemporary Cultural Production in Latin America (DPE)

Cross-listings: RLSP 274 COMP 286 WGSS 275

Primary Cross-listing

In Latin America, women have been largely displaced as historical subjects and reduced, in many ways, to symbolic figures or icons whose trajectories have been depicted as essential to the construction of diverse social projects within the context of patriarchal nation-states. Each country has formed a specific idea of what a woman is, and can be, through its cultural production, and this constant erasure/objectification has led to a complex problematic
when it comes to addressing women as cultural producers. Keeping this in mind, in this course we will explore the concept of "Woman" as a representation and women as cultural producers in contemporary Latin America. We will address intersections of race/ethnic positioning, sexual identity, and social class to explore their role in the reception and understanding of the work of these female artists. Through the analysis of varied cultural production, the syllabus will present an interdisciplinary approach to the contributions of female artists to the cultural representation of race/ethnicity, masculinity, femininity, violence, sexuality, gender identity, nationalism, citizenship, and social movements. We will explore the work of artists such as Sara Castrejón, Nahui Ollin, Citlali Fabián, Amparo Dávila, Alejandra Pizarnik, Rosario Castellanos, Reina Roffé, Ana Tijoux, Lucrecia Martel, Chavela Vargas, Graciela Iturbide, Celia Cruz, Cruz, Lucrecia Puenzo, Cecilia Barriga, Cristina Rivera Garza, María Novaro, Cristina Peri Rossi, Maruch Sántiz Gómez, Leonora Carrington, and Maris Bustamante, among others. In addition, we will read theoretical texts on diverse subjects corresponding to each specific cultural product.

Requirements/Evaluation: essays (7-8 pages), weekly written reports, oral presentation, active and engaged class participation

Prerequisites: RLSP 105, placement exam results, permission of instructor or Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLSP 274 (D1) COMP 286 (D1) WGSS 275 (D1)

Difference, Power, and Equity Notes: We will address issues of racial/ethnic positioning, sexuality, gender identity, and social class in light of diverse human experiences in contemporary cultural production in Latin America.

Not offered current academic year

RLSP 280  (S)  From Roma to Yalhalhj: Race and Identity Politics Through Contemporary Mexican Cultural Production  (WS)

In 2017, the National Institute of Statistics in Mexico (INEGI) used for the first time a color palette to measure individuals' skin tone. The study showed that "Mexicans who were classified by the interviewers as having darker skin tones tend to have lower levels of education and are worse off economically than their lighter-skinned counterparts" (Zizumbo and Flores, 2017). Raising controversy among those who would like to think of Mexico as a post-racial nation and those who recognize social inequality and discrimination on the basis of skin tone, the debate resonates in the way Mexican citizenship and cultural identity are both represented in mainstream media, even with the intention of showing diversity. The prevalent whitewashing dominating mass media in Mexico extends from advertisements to films, promoting an image of wealth and education intrinsically related to not only skin tone but also with race/ethnic positionality and gender. This course will explore the representation of these variables and their intersections through the analysis of photography, films, novels, paintings, reality shows, telenovelas, advertising campaigns, and music videos. In addition, we will take into account questions of representation, agency, and visibility addressed by cultural producers from pueblos originarios who do not consider themselves Mexican citizens. This class will be conducted in Spanish.

Requirements/Evaluation: essays, oral presentation, participation

Prerequisites: RLSP 105, placement exam results, permission from the instructor or the Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish major

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Weekly short (less than 1000 words) papers, alternatively letter-graded and graded P/F; at least three letter-graded papers will be revisions of a P/F paper; and final 5 pages long paper, which is a revision and expansion of the last weekly paper.

Not offered current academic year

RLSP 303  (S)  Cervantes' "Don Quijote"

A close study, in Spanish, of one of the most influential and early European novels. Don Quijote by Miguel de Cervantes (1547-1616 C.E) was a hit in its day in the seventeenth century, and has not ceased to influence artists and thinkers since. Moving between humorous and serious tones, Cervantes takes on several issues in the Quijote: the point of fiction in real life, the complications of relationships between men and women, the
meaning of madness, the experience of religious co-existence, the shapes of friendship, and the task of literary criticism, just to name a few. We will read the book in a fine unabridged edition, and set it in several relevant contexts to better understand its original intellectual horizon as well as the reasons for its continuing relevance.

Class Format: discussion conducted in Spanish

Requirements/Evaluation: active participation, two short papers, and a final project in close consultation with the instructor

Prerequisites: any RLSP 200-level literature class taken at Williams, or permission of the instructor

Enrollment Limit: none

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: this course fulfills one of the requirements for the Spanish major

Distributions: (D1)

Not offered current academic year

RLSP 308  (S)  Survey of Colonial Latin American Literature from 1492 to the Early 19th Century  (DPE)  (WS)

This course will focus on major works of Spanish American literature from 1492 through the first part of the 19th century. Readings will include narrative texts such as Cartas de relación, chronicles of conquest, religious texts, and indigenous annals, as well as poetry and drama. While many of the texts will focus on colonial Mexico, we will also study texts from Central and South America. We will focus on the historical contexts and formal aspects of these works, and study methods of textual analysis that are particularly relevant to these texts via selected critical readings. Special attention will be given to colonial encounters and the clash of cultures that produced new identities and textualities under Spanish colonial rule. The course meets twice per week and it is taught remotely. Conducted in Spanish.

Requirements/Evaluation: Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation and class participation.

Prerequisites: One RLSP course at the 200-level or above or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Spanish majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)  (WS)

Writing Skills Notes: Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze and understand a diversity of Spanish-American colonial texts from the 16th century to the early 19th century.

Spring 2021

SEM Section: R1    TF 1:30 pm - 2:45 pm    Carlos Macias Prieto

RLSP 319  (F)  Dictatorship and the Latin-American Novel  (DPE)

Military dictatorship is among the most crucial factors in Latin-American society and history, and some of the continent’s leading novelists have taken it upon themselves to depict the experience in their work. In this course we will examine both the fact of dictatorship itself and the diverse representation thereof in Spanish-American fiction. Novels by García Márquez, Vargas Llosa, Poniatowska, and Tomas Eloy Martinez will be closely studied. Students will also read Absalom! Absalom! by Faulkner, whose influence on Latin-American authors’ techniques of representation has been decisive and profound.
Difference, Power, and Equity Notes: This course focuses on the ultimate sort of power—namely, military dictatorship. And it focuses on the historical fact of such a phenomenon within the U.S. political sphere of influence—Latin America. To study dictatorship and its depiction in literature is a means of understanding the nature of that power imbalance and of taking a first step toward some sense of equity.

Fall 2020
SEM Section: H1 MR 1:30 pm - 2:45 pm Gene H. Bell-Villada

RLSP 366 (S) The Exemplary Fiction of Miguel de Cervantes
Miguel de Cervantes (1547-1616) is considered by some to be the father of the modern novel, and known worldwide for authorship of Don Quijote. This course will offer students the opportunity to read another body of work by Cervantes: his collection of short prose works collectively titled Las novelas ejemplares. Attention will be given to the structure and design of the tales, the socio-political and literary context that shaped them, and the often unsettling implications of Cervantes' approach to themes such as honor, social and moral presuppositions, marriage, friendship, and the place of representation in art and life.

Requirements/Evaluation: active and meaningful participation; short assignments; presentations.
Prerequisites: any RLSP 200 taken at Williams, results of the Williams College Placement Test, or permission of the instructor
Enrollment Limit: 25
Enrollment Preferences: Spanish and Comparative Literature majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Unit Notes: Fulfills the pre-1700 major requirement
Distributions: (D1)
Not offered current academic year

RLSP 388 (S) La Regenta: Masculinity in Crisis in Nineteenth-Century Spain
This seminar is an in-depth study of arguably the most remarkable Spanish novel of the nineteenth century: La Regenta (1885) by Leopoldo Alas (alias Clarín, 1852-1901). We will spend the semester living with the most eccentric, repressed, confused, sometimes arrogant, and sometimes humble inhabitants of the fictional city of Vetusta (based on the real city of Oviedo) and immerse ourselves in Spanish history and culture through a story of adultery. In the grand tradition of nineteenth-century novels about fallen women, La Regenta in fact reveals the seamy underside of society, the profound anxieties of masculinity and identity formation, as well as where our biases and assumptions about both successful and failed relationships come from today.
Class Format: This class will be taught remotely but synchronously.
Requirements/Evaluation: Active and meaningful participation, short assignments, one final project.
Prerequisites: Any Spanish 200-level class taken at Williams, or results of the Williams Placement Test, or permission of Instructor.
Enrollment Limit: 20
Enrollment Preferences: Spanish and Comparative Literature Majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
In her 2007 book, *In Catastrophic Times: Resisting the Coming Barbarism*, philosopher Isabelle Stengers offers a chilling observation: "we are more badly equipped than ever for putting to work the solutions defined as necessary" to avoid the most devastating effects of global warming--the extinction of 25 to 75% of existing species; an increase in sea levels that will drown island nations and coastal cities; the breakdown of agricultural systems, leading to widespread famine; and the recurrence of powerful hurricanes and other so-called "natural" disasters. All of this, as Stengers and others point out, will create human upheaval, conflict and suffering on an unprecedented scale. This senior seminar examines works of literature, art and film that Latin Americans have produced in response to the catastrophic times in which we live. We will discuss the political, economic, and cultural histories that have led to our present moment, including neoliberalism, dictatorship, and the rise and fall of the leftwing Pink Tide. Through works of new and experimental fiction, poetry, film, performance and visual art, we will consider the lives and work of environmental activists, including Berta Cáceres and others who were murdered because of their outspoken opposition to extractive capitalism, examine the struggle for the decolonization of environmental knowledge, an epistemological battle increasingly waged on behalf of all living things, and experience the politics of mourning for the hundreds of thousands of life-forms disappearing from the planet. Cultural texts to be explored throughout the semester may include: *La vorágine* (José Eustasio Rivera, Colombia, 1924); *Distancia de rescate* (Samanta Schweblin, Argentina, 2014); *Lo que soño Sebastián* (Rodrigo Rey Rosa, Guatemala, 1995); *Serras da desordem* (Andrea Tonacci, Brazil, 2006); *Boi Neón* (Gabriel Mascaro, Brazil, 2015); *American Fork* (George Handley, USA, 2018).

**Requirements/Evaluation:** rigorous preparation and participation in class discussions, oral presentations and discussion-leading, response papers, one 5- to 7-page paper and one 15- to 20-page paper

**Prerequisites:** one 300-level course in the department, evidence of a successful direct-enroll experience at a local university in Latin America or Spain, or permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** senior Spanish majors; after that, priority will be given to ENVI majors with a strong command of Spanish

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** this is the senior seminar required for all Spanish majors
RLSP 404  (F)  Spain’s Tale of Two Cities: Madrid and Barcelona  (DPE)

The ancient rivalries between Madrid and Barcelona may be best known because of their internationally watched soccer teams, but there's much more to the story than meets the eye in a stadium. Barcelona, immortalized for world audiences in George Orwell's classic *Homage to Catalonia* (1938), has a complicated political and cultural history. Catalans have a fascinating and unique culture and language. Their identity has often been cause for political unrest in their relationship with the rest of Spain, and even amongst Catalans themselves. In recent years, tensions with Spain's capital, Madrid, home to the central government and the Royal family, have filled headlines and divided politicians and even families. In this senior seminar we will focus on these two cities in their own right, and explore the counterpoints between them. We will consider the historical roots of lesser known aspects of Catalan culture and identity in order to tease out some of the myriad perspectives that are at play in Spain today. Materials will come from many different media: historical pieces, music, art and architecture, classic novels and films, recent fiction and essays by second generation authors who have been raised by immigrant parents in both cities, and media pieces. We will also invite cultural observers and players to be guest speakers and help us stay up to date as we follow this ever evolving relationship that keeps journalists and politicians on tenterhooks.

**Class Format:** Remote Instruction.

**Requirements/Evaluation:** This course will be conducted entirely in Spanish. Students will be expected to participate actively in weekly online classes. There will be two short writing assignments of 3-5 pp. Each student will prepare a presentation for one of our class meetings, and be a discussion leader for part of another meeting. Students will be expected to schedule remote office hours with me individually, and to work on an independent research project towards the end of the semester which will culminate in a final paper of 10-15 pp.

**Prerequisites:** Students should be seniors on the road to fulfilling their degree requirements for the Spanish major.

**Enrollment Limit:** 11

**Enrollment Preferences:** Senior Spanish Majors. This is the 20-21 Senior Seminar for the Spanish Major.

**Expected Class Size:** 10

**Grading:** yes pass/fail option,  no fifth course option

**Distributions:** (D1)  (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement because it compares two rival cities and the struggles for power between a majority (Spanish) and minority (Catalan) culture and language. We will also read texts by first generation authors for whom Spanish and Catalan are dominant but secondary languages and cultures. The syllabus seeks to offer a multiplicity of perspectives in order to help students critically engage with centuries-old patterns of difference and exclusion.

Winter Study

RLSP 30 (W) Honors Essay: Spanish
To be taken by candidates for honors other than by thesis route.
Class Format: honors essay
Grading: pass/fail only
Not offered current academic year

RLSP 31 (W) Senior Thesis: Spanish
To be taken by students registered for Spanish 493-494.
Class Format: thesis
Grading: pass/fail only
Not offered current academic year

RLSP 88 (W) Spanish Sustaining Program
Students registered for RLSP 101-102 are required to attend and pass the Spanish Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program, check your class schedule to confirm enrollment.
Grading: pass/fail option only
Not offered current academic year

RLSP 99 (W) Independent Study: Spanish
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
The Department of Theatre is committed to the merging of embodied practice and scholarship in the fields of theatre and performance studies. The curriculum is dedicated to the study, practice, appreciation, and interpretation of theatre, performance, and other time-based arts. The major in Theatre emphasizes the collaborative nature of the theatre and performance making by drawing upon courses offered by faculty of the Language, Literature, Music, and Art Departments. Although students will be equipped to proceed to graduate and professional schools in theatre, the major is primarily directed toward those interested in studying theatre and performance as artistic phenomenon and as interpretive tools. Because a deep understanding of theatre requires training and experience with the synthesis on stage, the major includes curricular study of production and performance, as well as continued participation in departmental stage production.

The production arm of the Department of Theatre operates under the supervision of the departmental faculty. Major departmental productions as well as laboratory and experimental productions of all kinds are mounted on the new stages of the ’62 Center for Theatre and Dance. Participation in acting or technical work is open to all members of the Williams College community. Students majoring in Theatre will be asked to consult regularly with departmental advisors in devising the sequence of courses and production participation that will constitute their major.

**MAJOR**

The Major in Theatre consists of nine courses, including the following:

- Theatre 101 The Art of Playing: An Introduction to Theatre and Performance
- Theatre 201 Worldbuilding: Staging and Design For The Theater
- Theatre 301 Embodied Archives: Global Theatre & Performance Histories
- Theatre 406 Practicing Theory: Senior Seminar

Five additional elective courses must be taken from the department’s other offerings (including courses cross-listed with Theatre). Two of the five electives must be taken at the 200-level or higher by the end of the student’s junior year, and an additional two of the five must be taken at the 300-level or higher by the time of graduation. Substitutions of other Williams’ courses, or of Study Abroad courses, may be made only with the consent of the department Chair. Students should consult with the department Chair regularly in planning a balance of practice and scholarship in their elective choices and in mapping a route through the major.

**Production Requirement for the Theatre Major:**

All majors in Theatre are required to participate in a minimum of four department productions. Participation in at least one of these four must be in stage management. Assignment to productions in stage management must be made in consultation with the department Chair. Students participating in a production will be enrolled in THEA 290-299: Theatre Department Production as a partial-credit, fifth course, admitted by permission of the department Chair and evaluated on a Pass/Fail basis only. Students remaining in the course beyond the sixth week of the start of a term will be graded by the instructor. Enrollment is by audition or appointment within the Theatre department. Students who do not wish to enroll for credit will be given the opportunity by the department to be removed from the course. Rehearsals for productions are scheduled TBA, based on the availability of the ensemble, and do not conflict with other academic commitments, such as evening courses or evening exams. The department normally produces three productions per academic year. Students may enroll in multiple productions in the same semester and may repeat a production course by permission of the department Chair. For each departmental production they participate in, a student will receive a partial credit of .5 on their College...
THE DEGREE WITH HONORS IN THEATRE

Candidates for Honors will apply for admission through the submission of a portfolio to the Department Chair by February of their junior year, as well as a description of their proposed project. The project description is a written essay of approximately 750-1000 words that describes in detail the nature, goals, methodology and approximate budget, if applicable, of the proposed course of study to be undertaken in the pursuit of Honors. When developing their project proposal, candidates are encouraged to familiarize themselves with successful past Honors projects from materials provided by the Department. The portfolio will be comprised of four parts:

The first part will include a list of the courses students have taken relevant to their work towards the major. This list will include courses offered by the Theatre Department, but may also include classes taken in other Departments. Students should also list and describe relevant independent studies and production credits.

The second part of the portfolio will include a selection of materials developed for these courses and productions listed in Part 1. The selection should include at least three papers or samples of other written work, and might also include design projects, director’s notebooks, studio art projects, actor’s journals or other forms of documentation of the candidate’s work. For students who have taken a semester away, it is particularly important that they provide the Department with a detailed picture of their activities while studying off-campus. Course descriptions and syllabi should be submitted in addition to a list of courses taken and activities performed.

The third part of the portfolio is an annotated bibliography of approximately twelve dramatic or critical texts the student has read, and that the student feels have had particular relevance in their Theatre education to date. Annotations should be based upon a particular angle of engagement with the text, that reflects the area or areas that the student has chosen to emphasize in their theatrical training. For instance, one might choose to write from the point of view of an actor, a designer, a director, a playwright, or a dramaturg. Generally, annotations should be one or two paragraphs long.

The portfolio should conclude with a retrospective essay that reflects on the materials that are being submitted. Students should look for connections between the various aspects of their work, state any theoretical positions that they have come to embrace, assess their strengths and weaknesses, and discuss their educational goals for their work with the Department during their Senior year.

The portfolio will be examined alongside the student’s record and their project description; a determination will then be made as to admission into the Honors program. Students intending to apply for Honors should meet with the Department Chair or designated Honors Coordinator by the end of the fall semester of their junior year. Once a student is admitted to the Honors program, the department Chair will assign an Honors Project Advisor, who will work with the student to specify a timeline and work program for the completion of the Honors Project. At a minimum, this will entail enrollment in Theatre 493 or 494, plus W32, plus one other course offered either within the department or elsewhere that the candidate and thesis advisor designate as contributing specifically to the overall goals of the honors work. This honors elective may not fulfill any other portion of the Theatre Major, or any other major the student may be pursuing. All honors candidates will present their completed projects to the Department Honors Committee for evaluation.

STUDY ABROAD

The Theatre Department attempts to work individually with majors and prospective majors who desire to study abroad. In general, with careful planning it is usually quite easy for students to complete the major in Theatre if they study abroad for one semester of their junior year. For those wishing to study abroad for more than one semester of junior year, a more complicated situation may arise, but one that can often be successfully managed through close consultation with the department chair. Students are encouraged to consult with the chair early in their Williams careers if they anticipate a combination of Theatre major and study abroad.

FAQ

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in many cases, though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes.
Are there specific major requirements that cannot be fulfilled while on study away?

Yes.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

THE NATIONAL THEATRE INSTITUTE

The Department of Theatre is affiliated with the National Theatre Institute, which offers additional theatre study through its resident semester program. The Institute is fully accredited by Connecticut College and is a member of the Twelve-College Exchange. Limited numbers of Williams students can therefore be selected to take a full semester of intensive theatre study at the NTI, located at the Eugene O’Neill Memorial Theatre Centre in Waterford, Connecticut. During the semester, students from participating colleges live and work as members of a theatre company gaining experience with professional theatre artists in a workshop environment. Early application is essential.

THEA 100  (S)  ADAPTING TO THE LANGUAGE OF THE CAMERA

The course will focus on the creation of screen character and introducing different acting techniques. By means of improvisation, concentration exercises and games, the class will attempt to create a common film vocabulary and understanding through effective analysis of the recorded on-camera scenes. The course will culminate in the presentation of scenes from classical and contemporary film or television. In addition, the students will research one of the masters of the cinema movies -- for example, Charlie Chaplin, Orson Welles, Alfred Hitchcock, Ingmar Bergman, Akira Kurosawa, Federico Fellini, Kathryn Bigelow, Francis Ford Coppola, Spike Lee, Darren Aronofsky, etc. The student will give a brief oral report and write a one to three page paper.

Requirements/Evaluation: The course requires active participation by students in all physical and vocal exercises, rehearsals, concentration exercises, class discussion, oral reports and prepared showings. Therefore, attendance is mandatory in both the Research and Writing Section and the Acting Workshop.

Prerequisites: OPEN TO ALL STUDENTS

Enrollment Limit: 12

Enrollment Preferences: INTEND TO MAJOR IN THEATER

THEA 101  (F)  The Art of Playing: An Introduction to Theatre and Performance

Cross-listings: COMP 151  THEA 101  GBST 116

Primary Cross-listing

This is an introduction to the global art and practice of making theatre. Students will learn about the history, aesthetics, and approaches to the performer's labor associated with select performance forms from around the world. Emphasis will be on the analysis of embodied practices and the relationship between the stage and everyday life. Through readings, audiovisual materials, performance exercises, and discussions we will engage with theatre as a constantly evolving art form, sharpening our analytical skills through theoretical approaches from performance studies. Central to our exploration will be excavating the Eurocentric assumptions that conventionally shape the practice and study of theater in the United States. We will seek ways to decolonize our perspectives and ask critical questions about performance's potential to enact strategies of anti-racism and anti-imperialism. As a capstone project, students will create virtual performances. This course, open to all students, is a gateway to the major in
Theatre, and is a prerequisite for THEA 201, THEA 204, THEA 301, and THEA 401.

**Class Format:** Course will be taught in a hybrid format. Recorded lectures, viewing of online clips, readings, and worksheets can be done asynchronously. We will meet for group discussion and performance exercises on Zoom or, if safe to do so, outside and in the classroom.

**Requirements/Evaluation:** two 5-page critical essays, journal reflections, virtual performances, and active participation in discussions and exercises

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** prospective Theatre majors or Theatre majors or Comparative Literature majors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** none

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

SEM Section: H1 TR 11:30 am - 12:45 pm Shanti Pillai

**THEA 102 (F) In the Room Together: An Introduction to Dance, Theatre, and Live Performance**

**Cross-listings:** ARTS 102 DANC 102 THEA 102

**Primary Cross-listing**

This course offers an introduction to the time-based art of performance, focusing on the embodied and social act of collaboration. Students will explore through a rotating studio and seminar-based format methods for creating and approaching art across a range of time-based media (dance, theatre, performance art, social media, spoken-word poetry), providing a foundation for the expression of ideas through performance. Over the term, students will develop, workshop and perform site-specific pieces, culminating in a final public presentation to the community. Through independent research projects, writing and class discussion, students will study makers whose work unsettles the boundaries of dance, theatre, and performance, such as: Anne Bogart, Bill T. Jones, Pina Bausch, Meredith Monk, Lin Manuel-Miranda, E. Patrick Johnson, Young Jean Lee, and Beyoncé. Evaluation will be based on an assessment of the student's work, participation, commitment, practice, curiosity, creativity, and collaboration with peers. Students will be required to attend '62 Center Series programming as may be required to attend other performance events as well. This course is open to students at all levels of experience and is a gateway and requirement to the major in Theatre.

**Requirements/Evaluation:** assignments will include writing reflections, showings of works in progress, oral presentations, a final performance, and a 5- to 7-page curatorial paper

**Prerequisites:** none

**Enrollment Limit:** 18

**Enrollment Preferences:** students considering the major or already majoring in Theatre

**Expected Class Size:** 18

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** this course serves as the gateway to the major in Theatre and is a prerequisite for several courses in the Theatre major

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

**THEA 103 (F) Acting: Fundamentals**

In this course students will examine the power of public presence through theory and practice while expanding their talents, sensitivity, and imagination, and will increase their self-awareness, confidence, creativity, and other skills that are useful in social situations, public speaking, theatre performances, and virtual interactions.
THEA 104  Greek Literature: Performance, Conflict, Desire

In the *Iliad*, Paris' desire for the famously beautiful Helen leads to the Trojan War, the devastating conflict between the Trojans and the Greeks retold and reimagined time and again in ancient Greek literature. The stories of Troy and its aftermath were performed not only as epic poems (as in the *Iliad* and the *Odyssey*), but also evoked by lyric song, dramatized on the tragic stage, and recounted in oratory. Beginning with the Homeric epics, this course explores the recurring and ever-shifting debates, longings, hostilities, and aspirations that drive Greek literature and shape its reception, paying special attention to questions of performance context and audience. We will consider, for example, how the competitive and erotically-charged environment of the Greek symposium is crucial for understanding both Sappho's songs and the philosophical dialogues of Plato and Xenophon. The nexus of performance, conflict, and desire will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identity, the workings of Athenian democracy, and the development of literary genres. This course will include readings from the works of, e.g., Homer, Sappho, Herodotus, Aeschylus, Sophocles, Euripides, Aristophanes, Thucydides, and Plato, and assignments will incorporate interactive and experiential elements, such as recitations, staged readings, and debates. All readings are in translation.

Requirements/Evaluation: two medium-length essays, final exam, active participation, preparation for and participation in debates and staged readings (short writing assignments, in-class presentations).

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: Classics majors, first years, sophomores

THEA 129 (S) Institutional Critique (DPE)

Cross-listings: THEA 129 ARTS 129

Secondary Cross-listing

This introductory course will investigate the performance potential of the radical art making methodology known as Institutional Critique. Influenced by Situationalism, and the Fluxus movement, Institutional Critique emerged as a way for artists to respond to the art worlds elitism, monopoly on culture, and dependency on Capitalism. Through collaborative performance based projects and readings students will explore the possibility of art to critically intervene in the hegemonic order and insight change within power relationships. We will also explore related movements such as Socially Engaged Practice, a term that describes art that is participatory and focuses as people as the medium. Artists covered will include: Thomas Hirschhorn, Tim Rollins, and Andrea Fraser. You do not need any prior experience just a willingness to use the power of voice and body.

Requirements/Evaluation: three collaborative projects, final independent project, readings, active participation, museum gallery visits, quality of work

Prerequisites: none

Enrollment Limit: 18

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $125 lab fee

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 129 (D1) ARTS 129 (D1)

Difference, Power, and Equity Notes: Through a diverse selection of essays, visual art, and contact with prominent voices operating at the intersection of theory and practice students will examine how the concentration of power in the United States and Europe has contributed to inequities within educational, legislative and artistic institutions. Students will then transfer what they've learned to a research based visual practice that prioritizes social discourse.

Not offered current academic year

THEA 141 (F) Opera

Cross-listings: THEA 141 MUS 141

Secondary Cross-listing

An introduction to the history of opera, from the genre's birth c. 1600 to the present. At various points in its 400-year development, opera has been considered the highest synthesis of the arts, a vehicle for the social elite, or a form of popular entertainment. Opera's position in European cultural history will be a primary focus of our inquiry. We will also study the intriguing relationship between text and music, aspects of performance and production, and the artistic and social conventions of the operatic world. The multidimensional nature of opera invites a variety of analytical and critical perspectives, including those of music analysis, literary studies, feminist interpretations, and political and sociological approaches. Works to be considered include operas by Monteverdi, Lully, Charpentier, Handel, Gluck, Mozart, Rossini, Donizetti, Verdi, Wagner, Bizet, Puccini, Strauss, Berg, Britten, Glass and Adams. This course may involve a trip to the Metropolitan Opera.

Class Format: discussion

Requirements/Evaluation: a midterm, a brief paper, an 8-page paper, and a final exam
THEA 150  

**The Broadway Musical**  
**DPE**

Cross-listings: MUS 150  THEA 150

Secondary Cross-listing

Named for a specific road but enjoying a global impact, the Broadway musical has intersected with multiple styles and societal concerns over the past century. In this course, we explore the American musical theater's roots and relationship to opera, operetta, vaudeville, minstrelsy, and Tin Pan Alley. Traveling through the genre's history, we will encounter a wide range of musical styles, including ragtime, jazz, rock, and hip hop, and will explore several genre transformations, such as movies made into musicals and musicals into movies. We will develop a range of analytical skills as we investigate connections between choreography, lyrics, music, staging, and production. Throughout the semester, we will consider the genre's representations and reflections of ethnicity, race, sexuality, and class. The syllabus includes representative works by Gilbert and Sullivan, Cohan, Gershwin, Kern, Weill, Rodgers and Hammerstein, Lerner and Loewe, Bernstein, Sondheim, Lloyd Webber, and Miranda, with particular focus on such works as Showboat, Oklahoma!, Guys and Dolls, West Side Story, Hair, Rent, and Hamilton.

**Class Format:** discussion

**Requirements/Evaluation:** a midterm, a brief paper, an 8-page paper, and a final exam

---

THEA 201  

**Worldbuilding: Design for the Theater**

Cross-listings: ARTS 201  THEA 201

**Primary Cross-listing**

This course examines designers' creative processes as they investigate a theatrical text and then dream-into-being the fictional worlds of a hypothetical production. Class will consist of several practical projects in multiple areas of design. We will practice a two-pronged technique in response to a text: developing a personal, intuitive creative response while simultaneously supporting all logistical requirements, resulting in an inventive yet dramaturgically sound design. Emphasis will be on folding this individual work process into a larger group collaboration by refining methods of communication, presentation, and group critique.

**Requirements/Evaluation:** Coursework is group class discussion and critiques, paired with several hands-on projects throughout the term.

**Prerequisites:** THEA 101 or permission of instructor

**Enrollment Limit:** 10
Enrollment Preferences: Theatre majors

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Unit Notes: this course is a prerequisite for all upper-level design and directing courses; this course does not count toward the Art major

Materials/Lab Fee: $125 for materials and copying charged to term bill

Distributions: (D1)

LAB Section: H2 M 3:15 pm - 4:30 pm Carolyn Mraz

THEA 202  (F) Ways of Knowing: Music, Movement, Memory

Cross-listings: DANC 215  THEA 202  WGSS 215  AFR 215

Primary Cross-listing

This interdisciplinary seminar proceeds from the premise that the body knows. Ongoing colonial modernity is rooted in a racialized hierarchy: the “civilized” life of the mind vs. the “primitive” instincts of the flesh. According to this binary, the body is marked as irrational, sinful, outside of the archive. The body cannot know because the happenings of the body are ephemeral: unlike documents, they don't last. In this course, we will subject this logic to close scrutiny. As performance scholar Diana Taylor asks, “Whose memories, traditions, and claims to history disappear if performance practices lack the staying power to transmit vital knowledge?” In this course, we look to music, movement, and other repertoires as ways of knowing, remembering, and world-making. How does embodied knowledge travel across time and space? How have performance practices served as modes of what Ashinaabe cultural theorist Gerald Vizenor calls “survivance” (survival + resistance) for indigenous, nomadic, queer, and colored communities. Case studies include: the Middle Passage and the syncretic birth of the Blues in the Americas; nomadism, the nation-state, and the migration of Romani music; and the evolution of queer ball culture. Students will engage with a variety of texts (verbal, sonic, visual, kinesthetic) and respond to them critically not only through writing and discussion, but also through their own performance practices.

Requirements/Evaluation: in-class participation, creative/critical responses to texts, final paper

Prerequisites: none

Enrollment Limit: 14

STU Section: H1 MR 1:30 pm - 2:45 pm Carolyn Mraz
LAB Section: H2 M 3:15 pm - 4:30 pm Carolyn Mraz

THEA 203  (S) Why we put on Masks: Theory and Practice

Masks disguise, protect, and transform. Masks have also been used for spiritual and theatrical purposes throughout the world. In these times masks are part of everyday conversations and lives. This course will survey masks thematically from current events, history, theory, theatre, and geographic locations. There will also be practical assignments in creating masks in various mediums such as recyclable materials, cloth, and paper mâché.

Class Format: Also studio - Remote instruction

Requirements/Evaluation: multiple mask making assignments, some physical theatrical exercises, short papers, short presentations, a final paper and presentation, committed participation and attendance, students will also be expected to partake in discussions

Prerequisites: none

Enrollment Limit: 12
**THEA 204 (S) Acting: Scene Work**

Students will continue to develop technical skills, and the emotional and intellectual resources, required for the actor. The focus will be on the issues of characterization, textual understanding and emotional depth. The means of study and experimentation will be intense scene work requiring thorough preparation and creative collaboration. Improvisation and other exercises will be used to complement the textual work. The dramatic texts providing scenes for class will be from the early realist works onward. Students will be expected to have had previous acting or performance experience, either through completion of Theatre 101, 102, or 103 or through other relevant production experience.

**Requirements/Evaluation:** although there will be some modest written assignments, evaluation in the course will principally reflect the degree of committed participation in the preparation and performance of acting exercises

**Prerequisites:** THEA 101, 102, or 103, or permission of instructor

**Enrollment Limit:** 14

**Enrollment Preferences:** Theatre majors or prospective Theatre majors

---

**THEA 205 (S) Acting for the Camera**

The course will focus on the creation of screen character and introducing different acting techniques. By means of improvisation, concentration exercises and games, the class will attempt to create a common film vocabulary and understanding through effective analysis of the recorded on-camera scenes. The course will culminate in the presentation of scenes from classical and contemporary film or television. In addition, the students will research one of the masters of the cinema movies -- for example, Charlie Chaplin, Orson Welles, Alfred Hitchcock, Ingmar Bergman, Akira Kurosawa, Federico Fellini, Kathryn Bigelow, Francis Ford Coppola, Spike Lee, Darren Aronofsky, etc. The student will give a brief oral report and write a one to three page paper.

**Requirements/Evaluation:** The course requires active participation by students in all physical and vocal exercises, rehearsals, concentration exercises, class discussion, oral reports and prepared showings. Therefore, attendance is mandatory in both the Research and Writing Section and the Acting Workshop.

**Prerequisites:** OPEN TO ALL STUDENTS

**Enrollment Limit:** 12

**Enrollment Preferences:** SOPHOMORES, JUNIORS, SENIORS, MAJORS

---

Spring 2021

SEM Section: R1    TR 9:45 am - 11:00 am     Deborah A. Brothers
THEA 206  (S) Directing for the Stage

An introduction to the resources available to the Stage Director for translating interpretive concepts into stageworthy physical realization. Kinetic and visual directorial controls, as well as textual implications and elements of dramatic structure, and strategies of working with actors and other collaborators will be studied in detail. Most assignments will involve hands-on directing projects presented in class for collective critique.

Requirements/Evaluation: committed participation in the preparation and performance of production exercises; there will be some written assignments

Prerequisites: Theatre 101 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Theatre majors and prospective Theatre majors

Expected Class Size: 8

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

THEA 207  (S) Acting: Physical Theatre and Body Language

This semester Theatre 207 will focus on processes of Physical Theatre. The class is open to students interested in developing their ability in communication through the art of body language. Assigned research, analysis, discussions, and improvised exercises on stage will give us the opportunity to expand our understanding of physical vocabulary and will help us to express our intentions by evocative behavior. Based on various theatre techniques, this course will hone artistic skills for performance and improve students' confidence in their interactions with other people.

Requirements/Evaluation: committed participation in class, and preparation and performance of assigned material

Prerequisites: none

Enrollment Limit: 10

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

THEA 208  (F) Voice, Speech & Song for the Actor

Continuing the vocal technique work in THEA 205, this course provides an intense practice that further deepens the body-voice connection, builds and troubleshoots speech technique, and expands vocal strength, range and endurance through song. Through incorporating the resonator techniques of Roy Hart and Meredith Monk, the speech drills of Edith Skinner and the fundamentals of musical training for the voice, students finish the course able to complete an hour long full voice/speech/song work out. In addition to building a repertoire of voice, speech and singing drills; students will explore how to “act” a song, combining speaking and singing, using songs from the plays of Bertolt Brecht.

Requirements/Evaluation: attendance, participation, drills, and tests on technique

Prerequisites: Intro to Acting (100-level course) or permission of the instructor

Enrollment Limit: 14

Enrollment Preferences: Theatre majors, then Music majors

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

THEA 209  Real Worlds: Performing Everyday Reality Across Global Visual Media

How do we perform our everyday lives for others, and why? What is the most mundane thing one can do and still be considered interesting? What are the racialized, classist, gendered, and political implications of “performing the everyday”--whether on stage, screen, or Twitch? Looking at the ways “everyday reality” is performed across various time-based, visual media (including theatre, video, film, tv, and digital forms) from a global perspective,
this course will interrogate the production, marketing, and, in some cases, fetishization of the banal, everyday, routine, task-based, domestic, and interior elements of life. Contesting the definition of realism as the objective imitation of reality, we will instead seek to understand the aesthetics and conventions used to codify the illusion of "everyday reality" in performance, compiling data from sources that may include: realist films, such as Taiwanese director Tsai Ming-liang's *Goodbye, Dragon Inn* and U.S. director Kelly Reichardt's *Wendy and Lucy*; participatory theatre works, such as the German company Rimini Protokol's theatre of "real people" and French director Mohamed El Khatib's performances of sports fans; reality-based YouTube videos of people performing the art of "Swedish death cleaning" or celebrities living like "normal people"; reality-based tv shows, like Japan's *Terrace House*, or the U.S.'s *Black Ink Crew* or *Love is Blind*; as well as reality-driven content live-streamed on digital and social media, such as *Love or Host* on Twitch. While pre-selected readings and theory will initially guide us in our exploration of the topic, our focus will be on discussing and analyzing materials found and chosen by members of the class. As a major creative component of the course, students will be required to create and develop a short video or other time-based piece in which they (as well as others, if they choose) "perform everyday reality" through a visual medium of their choice.

**Class Format:** For Spring of 2021, the format of this course has not yet been determined. It will likely be conducted in a hybrid fashion, held in both remote and in-person environments, with both synchronous and asynchronous components.

**Requirements/Evaluation:** weekly writing, group work, and participation in remote or in-person discussions; leading a class discussion; a midterm project expressed via a short paper, blog, or other format; a final, larger creative project involving the development of a performance, short video or other time-based work.

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** THEA, ART, COMP, and ENGL majors. All students from the College are, however, welcome into this class and are encouraged to reach out to Prof. Holzapfel with any questions and to express interest: ash2@williams.edu

**Expected Class Size:** 10

**Grading:**

**Distributions:** (D1)

---

**THEA 211  (S)  Performing Greece**

**Cross-listings:** CLAS 211  COMP 248  THEA 211

**Secondary Cross-listing**

Modern readers often encounter Homer, Sappho, Sophocles, and the Greek orators through written texts, yet their first ancient audiences experienced the words of these authors not in silence and solitude, but in live performance contexts. This course, therefore, will take up performance as a critical lens for interpreting ancient Greek literature, situating these works within a rich culture of song, dance, speech, and debate. We will survey the evidence for the musical, visual, and embodied aspects of Greek literature, and also reflect on the rewards and limits of enlivening the ancient world through the reconstruction and re-imagination of its performative dimensions. Our attention to performance will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identities, the workings of Athenian democracy, and the development of literary genres, and it will also enable us to consider the reception and reperformance of Greek myth and literature from new angles. All readings are in translation.

**Class Format:** This is a hybrid course that will likely involve both Zoom and in-person sections; precise format (including potential alternate meeting times) TBD in consultation with enrolled students.

**Requirements/Evaluation:** active participation in class, short essays/projects (2-5 pages each, 5 total, including a longer final essay/project)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** first-year students and sophomores and majors in Classics, Comparative Literature, and Theatre

**Expected Class Size:** 10-12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

CLAS 211 (D1) COMP 248 (D1) THEA 211 (D1)
THEA 214 (S) Writing for Stage and Screen

Cross-listings: THEA 214 ENGL 214

Primary Cross-listing

This studio/workshop course is designed for students interested in a semester-long immersion in the practice of dramatic writing for theater, film, television and audio. Students should expect to write most days. Our focus will be on the fundamentals of story, and the cultivation of each writer's individual voice. In addition to reading existing dramatic texts of various genres and forms, and completing weekly prompts and exercises exploring character, dialogue, structure, theme, conflict and world building, students will work toward a longer final project. Students will present their own work regularly, and respond to each other's work. The course will culminate in a staged reading of excerpts for the campus community.

Requirements/Evaluation: a daily journal; weekly writing exercises; peer responses; a ten-minute piece; a final 20-30 minute piece; attendance and class participation

Prerequisites: students are asked to submit a brief statement describing their interest and any past experience (if applicable) in writing for the stage and/or screen

Enrollment Limit: 18

Enrollment Preferences: Theatre and English majors; Comparative Literature majors

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

THEA 215 (F) Performance Ethnography (DPE)

Cross-listings: GBST 215 DANC 214 ANTH 215 AMST 214 THEA 215

Secondary Cross-listing

The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance, movement, and performance. Traditionally considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) readings in ethnographic studies of dance and performance practices from different parts of the world, and (iii) field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and may include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance or performance experience is assumed or required.

Class Format: community-based field work

Requirements/Evaluation: class participation, reading responses, fieldwork and field notes, short papers, and final essay

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 215 (D2) DANC 214 (D1) ANTH 215 (D2) AMST 214 (D1) THEA 215 (D1)

Difference, Power, and Equity Notes: This course focuses on ethnographic research with an emphasis on the ethics of doing ethnography in field sites and making performances based on that research. In fieldwork and performance work, there is a difference in social, cultural, and political (broadly conceived) power between researcher and interlocutors. In the course, students' critical analytical skills are developed for them to be self-reflective about these power differentials and to address issues of social inequality.
Not offered current academic year

THEA 216  (S)  Asian/American Identities in Motion  (DPE)

Cross-listings: GBST 214  ASST 214  THEA 216  AMST 213  DANC 216

Secondary Cross-listing
The course aims to explore dance and movement-based performances as mediums through which identities in Asian and Asian-American (including South-Asian) communities are cultivated, expressed, and contested. It will orient students towards “reading” and analyzing live and mediated performances within historical, social, and political frameworks. Students will explore how socio-historical contexts influence the processes through which dance performances are invested with particular sets of meanings, and how artists use performance to reinforce or resist stereotypical representations. Core readings will be drawn from Dance, Performance, Asian, and Asian American Studies, and will engage with issues such as nation formation, race and ethnicity, appropriation, tradition and innovation among other topics. This is primarily a discussion-based seminar course, and might also include film screenings, discussion with guest artists and scholars, and opportunities for creative projects. No previous dance experience is required.

Class Format: This course will be taught in a virtual format and will be remote.

Requirements/Evaluation: reading responses, essays, in-class writing assignments, class participation, and group presentations.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first years and sophomores

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 214 (D2) ASST 214 (D1) THEA 216 (D1) AMST 213 (D2) DANC 216 (D1)

Difference, Power, and Equity Notes: This course introduces students to the role of performance in nation formation in Asia and the history of Asian-Americans in the US through analysis of dance performances and practices. Student will explore how race was central to the formation of Asian and the American nation, and how social and legal discriminatory practices against minorities influenced popular culture. The assigned material provide examples of how artists address these inequalities and differences in social power.

Spring 2021

SEM Section: R1  MR 3:15 pm - 4:30 pm  Munjulika  Tarah

THEA 220  (F) Greek Tragedy

Cross-listings: CLAS 202  COMP 220  THEA 220

Secondary Cross-listing
Ancient Greek tragedy was a cultural phenomenon deeply embedded in its 5th-century Athenian context, yet it is also a dramatic form that resonates powerfully with 21st-century artists and audiences. This course examines tragedy on both levels. We will read such plays as Aeschylus’ [Agamemnon], Sophocles’ [Electra], and Euripides’ [Medea] in English translation, considering their literary and dramatic features as well as their relationship to civic, social, and ritual contexts. We will discuss such topics as the construction of gender and identity on the dramatic stage, the engagement between tragedy and other literary genres, and the distinctive styles of the three major Athenian playwrights. We will also survey a set of recent productions and adaptations of these plays, with a particular focus on versions by women, people of color, and non-Western playwrights and producers. We will reflect on how a dramatic form largely produced by and for Athenian citizen men became a creative resource for a remarkably diverse range of 21st-century artists, and explore how modern productions offer fresh perspectives on ancient material.

Requirements/Evaluation: class participation, several essays, brief oral presentations

Prerequisites: none

Enrollment Limit: 35

Enrollment Preferences: majors, first-years, sophomores
THEA 222  (S) Solo Performance

In this tutorial, students will study the process of the creation of one-person performance pieces and will work individually or in collaboration to create original solo works. Each student will perform their own piece at the end of the semester in a final public performance. Students will learn about developing a general production concept and scenic vision, choosing or writing a script, building a character, designing (set, lighting, costume, and sound), publicity, and combining all aspects of theatrical craft to create a successful solo piece. Course time will be divided between class discussion and individual rehearsals with the instructor. Students interested in acting, directing, writing, producing, dramaturgy, design, stage management, and criticism are all welcome.

Requirements/Evaluation: creating a script, building a character, developing various aspects of design, performing a solo piece, and writing a self-evaluation at the end of the semester

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: to be determined by instructor

Expected Class Size: 4

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

THEA 225  (F) Gender and Sexuality in Asian American Theater

Cross-listings: COMP 218  THEA 225  WGSS 225

Secondary Cross-listing

This class begins with the premise that intersectional and interdisciplinary studies of gender and sexuality need to be, and in significant ways already are, in conversation with Asian American studies and theater. How might contemporary Western discourses of masculinity and heterosexuality, for example, depend upon theatrical constructions of Eastern sexual alterity? How have Asian American artists managed and critiqued historically gendered and sexualized stereotypes (e.g., hypersexual Dragon Lady, virginal Lotus Blossom, asexual Charlie Chan) through theatrical intervention? This seminar will closely read dramatic literature written by Asian American artists, as well as engage scholarship in Asian American gender and sexuality studies and performance studies. We will read the work of playwrights including Ayad Akhtar, Ping Chong, Frances Ya-Chu Cowhig, Velina Hasu Houston, David Henry Hwang, Young Jean Lee, Diana Son, Lauren Yee, and Chay Yew.

Requirements/Evaluation: in-class participation, weekly reading responses, midterm reflection, in-class reading, short essay, final essay

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: declared WGSS majors

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 226  (S) Gender and the Dancing Body  (DPE)
This course posits that the dancing body is a particularly rich site for examining the history of gender and sexuality in America and beyond. The aim of the course is to explore ideas related to gender and sexuality as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and will also include film screenings, discussions with guest artists, and opportunities for creative projects. No previous dance experience required.

Class Format: This course will be taught in a virtual format and will be remote.

Requirements/Evaluation: class participation, reading responses, essays, in-class writing assignments, and group presentations

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first years and sophomores

Expected Class Size: 10-15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 226 (D2) THEA 226 (D1) AMST 226 (D2) DANC 226 (D1)

Difference, Power, and Equity Notes: In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

Spring 2021

SEM Section: R1 TF 3:15 pm - 4:30 pm Munjulika Tarah

THEA 228 (S) Performance Practices of Global Youth Cultures

Cross-listings: GBST 228 THEA 228

Primary Cross-listing

This course investigates how young people engage in a variety of performance practices to define social identities and reflect on critical issues. We begin by examining how scholars and media have defined “youth” by way of questioning assumptions about the inherent universality of this social category. We will then explore how young people have thought about and represented themselves. Taking seriously music, dance, fashion, and ritualized uses of public space (including in the virtual realm), we will explore examples of how youth have used performance practices to engage in political activism, subvert hegemonic norms, reconfigure urban geographies, and engage in critical identity politics. Our inquiry will include attention to how youth practices travel globally and adopt new localized political meanings, as well as the ways in which the subversive potential of performances can be subsumed by the normalizing mandates of global capital. Our work in class will be based upon readings, discussions, and audiovisual materials from various parts of the world. Throughout the semester students will turn an analytical eye towards their own practices and modes of consumption. For final projects students will engage in ethnographic research about specific youth cultures in the region and on the Williams campus.

Class Format: reading and discussion

Requirements/Evaluation: includes class discussions, self-reflexive presentations and papers, journal reflections, one 10-page paper based on original research with in-class presentation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: seniors and juniors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 228 (D2) THEA 228 (D1)

Not offered current academic year

THEA 229 (S) Modern Drama

Cross-listings: THEA 229 ENGL 202 COMP 202

Primary Cross-listing

An introduction to major plays and key movements in European and American theatre since the late nineteenth century. Our focus will be on close reading, with attention also to questions of performance and production. Plays to be discussed will likely include: Ibsen, Hedda Gabler; Wilde, The Importance of Being Earnest; Chekhov, The Cherry Orchard; Pirandello, Six Characters in Search of an Author; Brecht, Mother Courage; Miller, Death of a Salesman; Beckett, Waiting for Godot; Hansberry, A Raisin in the Sun; Pinter, Betrayal; Churchill, Cloud Nine; Stoppard, Arcadia.

Requirements/Evaluation: two 5-page papers; regular journal responses; a final exam; and active participation in class discussions

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Theatre, English, and Comparative Literature majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Unit Notes: this course is strongly recommended for any students majoring in Theatre

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 230  Performance Practices of India (DPE)

This course explores ancient and contemporary performance practices in India. Our objects of study will include the text and performance of Sanskrit plays, contemporary and experimental theater productions, as well as forms of dance and ritual. We will discuss dramaturgical structure, staging, acting conventions, gender representation, performer training, the experience and role of the audience, as well as mythological and political themes. Thinking historically and ethnographically, we will seek to understand the aesthetics and social purposes of these practices, in addition to the relationship that performance has with everyday life, contested concepts of the nation, and caste. Throughout the semester we will interrogate the ways in which Western categories such as "classical," "folk," "religious," "traditional," and even the distinction between "dance/theater/music/visual arts" are not indigenous or accurate concepts for organizing thinking about performance in this part of the world.

Requirements/Evaluation:  Evaluation will be based on participation in discussion, reading responses, an oral presentation, and one 10-page paper.

Prerequisites:  none

Enrollment Limit:  12

Enrollment Preferences:  preference for seniors and juniors

Expected Class Size:  12

Grading:

Distributions:  (D1)  (DPE)

Difference, Power, and Equity Notes:  We will examine British colonial edicts that prohibited performance practices as a form of social control as well as in the name of Christian morality. From here we will explore how upper-caste Independence era artists and leaders sought to reinvent the arts as vessels of "Indian" identity, at the cost of further marginalizing hereditary performance communities. We will also interrogate how the Indian state has promoted narrow visions of "femininity" and how artists contest religious nationalism

THEA 233  (S)  Theatre Masters: Become One of Them

Cross-listings:  THEA 233  ENGL 235

Primary Cross-listing

How well do you know Stanislavsky, Strasberg or Adler? This tutorial offers an exploration of the most notable theatre artists from the past and present. Students will select a specific master with a unique theatrical style, and will study that iconic artist's particular method or approach. Students will be encouraged to choose any master who had made a significant contribution to theatre -- such as Constantine Stanislavsky, Stella Adler, Sanford Meisner, Lee Strasberg, Bertolt Brecht, Michael Chekhov, Jerzy Grotowski, Tadeusz Kantor, Pina Bausch, Tadashi Suzuki, Anne Bogart, etc. Each student will conclude their exploration by writing a script and presenting the essence of their research in a brief performance (for the camera) -- portraying the legendary icon at work, in a social situation, or in solitude. You learn more about others when you become them, if only for a moment.

Requirements/Evaluation:  Research, development, creativity, final performance.

Prerequisites:  none

Enrollment Limit:  10

Enrollment Preferences:  none

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 233 (D1)  ENGL 235 (D1)

Spring 2021

TUT Section: RT1     TBA     Omar A. Sangare
THEA 240 (S) Queer Drama (DPE)
Cross-listings: WGSS 237 THEA 240

Primary Cross-listing

This seminar course is a deep dive into the richly dissonant dialogue between queer lives and live performance. How have queer artists shaped and reshaped the field of theatre and performance over time? How has drama, in turn, shaped the landscape of queer life? What inventions and innovations might we attribute to the evolution of "queer"? We will look to the work of artists such as Tennessee Williams, Tarell McCraney, Taylor Mac, Reza Abdoh, Sharon Bridgforth, Virginia Grise, and many others as we seek to map the messy topography of queer performance.

Class Format: three hours per week

Requirements/Evaluation: two 5-page papers, participation in text-based seminars, and a final performance

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: if the class is overenrolled, students will submit a letter of interest in the class

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 237 (D2) THEA 240 (D1)

Difference, Power, and Equity Notes: This course takes "queer" as an analytical and methodological lens for approaching questions of power, performance, and self-making.

Not offered current academic year

THEA 241 (S) Performing Masculinity in Global Popular Culture (DPE)
Cross-listings: WGSS 240 THEA 241 SOC 240 AMST 241 LATS 241

Secondary Cross-listing

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J/Pop), hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

Requirements/Evaluation: masculinity journal, mid-term essay exam, visual rhetorical analyses of pop culture images

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: a short statement of interest will be solicited

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 240 (D2) THEA 241 (D1) SOC 240 (D2) AMST 241 (D2) LATS 241 (D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

Spring 2021
THEA 244  (F)  Tools for Theatre-Making: Introduction To Theatre Technology
This course will cover the fundamental technology employed in theatrical design disciplines including scenery, lighting, costumes, sound, and video/projection. Students will gain a practical working knowledge of theatre technology and organization, including overviews of performance spaces, design practices, technical production methods, management, and collaborative structures in performance-making. Students will participate in design and technical production labs, attend lectures, and may be required to participate as production crew on one or more departmental productions.

Requirements/Evaluation: weekly practical projects, participation in department productions, and committed, focused participation make up the majority of the evaluation elements for this course

Prerequisites: none
Enrollment Limit: 12
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Materials/Lab Fee: $50
Distributions: (D1)

Not offered current academic year

THEA 246  (F)  Asian American Performance: Activism and Aesthetics  (DPE)
Cross-listings: GBST 246  THEA 246  AMST 249

Primary Cross-listing
This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists "do" politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation

Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: sophomores and juniors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 246 (D1) THEA 246 (D1) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

Not offered current academic year

THEA 250  (S)  Feminist Theatres: A Global Perspective  (DPE)  (WS)
Cross-listings: ENGL 253  WGSS 250  THEA 250

Primary Cross-listing
What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, reluctant? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms
might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaboratives from across the globe, from the late-twentieth century to today. Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Aretha Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

Class Format: For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner's papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 253 (D1) WGSS 250 (D2) THEA 250 (D1)

Writing Skills Notes: As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one’s interpretation, and fluidly integrating theory into one's argumentation.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

Spring 2021

TUT Section: HT1 TBA Amy S. Holzapfel

THEA 251 (S) Offensive Art

Cross-listings: THEA 251 PHIL 251

Secondary Cross-listing

Twenty-four centuries ago Plato argued for censorship of art. In the last century New York City mayor Rudy Giuliani attempted to shut down the Brooklyn Museum "Sensations" exhibit because he claimed it offended Christians, and the Cincinnati Contemporary Arts Center was prosecuted for exhibiting allegedly obscene photographs by Robert Mapplethorpe. Just recently, the magazine The Nation apologized for publishing Anders Carlson-Wee's poem adopting the voice of a homeless person, writing "We are sorry for the pain we have caused to the many communities affected by this poem." At Williams College a mural in The Log was temporarily boarded over, Herman Rosse's painting "Carnival of Life" was removed from the '62 Center, and the Theater department cancelled the production of Aleshea Harris' Beast Thing. What should be done about offensive art? What is offensive art? Does it matter who is offended? Does offensive art harm? Is there a difference between being offended and being harmed? Is there a difference between cultural appropriation and cultural appreciation? What are the responsibilities of museum curators and theater producers when presenting art that might offend? Who gets to decide the answer to these questions; indeed, who gets to decide what questions to ask? We will attempt answers by studying classical works (such as Plato's Republic and John Stuart Mill's On Liberty), contemporary articles, and works of art in various media. Trigger Warning: all the works of art studied in this class will be chosen partly because they have offended a significant number of people. You are very likely to be offended by some of the art we discuss. This will be the only trigger warning for the class; if you don't want to be
offended then this course is not for you. This course is part of the John Hyde Teaching Fellowship.

**Requirements/Evaluation:** several short responses (including op-eds on current controversies) and longer final projects (a 12- to 15-page paper or equivalent work in other media)

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** seniors, juniors, then sophomores in that order

**Expected Class Size:** 17

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** potential additional material costs if individual students opt for final projects in other media

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 251 (D1) PHIL 251 (D2)

Not offered current academic year

**THEA 255  (S)  Performing Shakespeare**

This tutorial course will challenge students to interpret and perform characters and scenes from a considerable variety of Shakespeare's work for the stage. Working in pairs, students will function as both directors and actors, bringing scene-work-in-progress first to the instructor for critique/revision, and subsequently to other members of the class for more general discussion. Written assignments, explicating and contextualizing artistic choices, will accompany presentations. Over the course of the semester, assignments will ask students to grapple with particular challenges of Shakespeare's drama (including, for instance, the technical aspects of speaking the verse, and the accompanying challenge of performing in the Elizabethan tradition of "open space"). Other assignments will ask students to consider specific interpretative traditions (feminist, phenomenological, queer studies, post-modern) in preparing their work for presentation. Plays studied will include tragedies (*Macbeth, Anthony and Cleopatra, Othello*), comedies (*The Merchant of Venice, A Midsummer Night's Dream, Twelfth Night*), and histories (*Richard II, Richard III*); theorists assigned for additional readings may include Shirley Nelson Garner, Alan Sinfield, Harry Berger Jr., Arthur Little, Jr., Janet Adelman, William Worthen, Laurence Senelick, Bert States, and Stephen Greenblatt.

**Class Format:** in addition to weekly tutorial meetings, several group "lab" sessions will bring all course members together for larger collaborative work

**Requirements/Evaluation:** weekly performance presentations, weekly 3-page analytical papers, active participation in oral critique

**Prerequisites:** one college level acting class or significant comparable experience (permission of instructor)

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre majors, or those expressing possible interest in Theatre major

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

Not offered current academic year

**THEA 256  (S)  The Expressive Body**

This course aims to allow students to develop the body's capacities for expression and reflect on the experience of movement. On one hand, we will enhance our potential as performers -- both in the rehearsal process and on stage. On the other, we will explore how training our corporeal intelligence can enrich our everyday lives. Studio sessions will seek to cultivate strength, endurance, flexibility, alignment, and balance so that we can gradually expand the body's range of safe possibilities as we begin to work with images, gesture, and emotions. Exercises will be drawn from a range of movement and theatrical techniques including yoga, Bharatanatyam, contemporary dance, Grotowski, butoh, and Schechner's Rasaboxes. Integral to our work will be consideration of the relationship between words, objects, and moving. Concurrently, we will read, write, and discuss some significant ideas about the consciousness of the body to expand our understandings of ourselves from various perspectives. The spirit of the class is one of bold investigation and refined observation in the context of supportive camaraderie as we all grapple with encountering the new, the surprising, and the wonderfully unexpected.

**Class Format:** includes both studio sessions and reading and discussion

**Requirements/Evaluation:** includes participation in studio exercises, in-class performance of monologues and group movement compositions,
**THEA 262 (F) Japanese Theatre and its Contemporary Context**

**Cross-listings:** THEA 262 COMP 262 JAPN 260

**Secondary Cross-listing**

Japan's rich and varied performance traditions, old and new, born of different historical settings, coexist to this day and compete for the attention of audiences, domestically and abroad. The forms to be considered (nohgaku, kabuki, bunraku, shingeki, butoh, and Takarazuka all female revue among others) are all dynamic. Each has transformed itself in response to evolving social conditions. This course examines these performance traditions, considers how each reflects the social, cultural, and political context of its birth, and poses the question, "of what relevance is each to a contemporary audience?" Some of the other questions we will explore are: How have these performing traditions transformed themselves throughout history, including after 3.11? What do we mean by traditional? contemporary? How are traditional and contemporary performance genres interacting with each other? How have the central themes of these works evolved? All readings and discussion will be in English.

**Class Format:** discussion

**Requirements/Evaluation:** active class participation, presentations, written journals, two short papers, and one longer paper

**Prerequisites:** none; open to all

**Enrollment Limit:** 20

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

---

**THEA 265 (F) Digital Performance Lab**

**Cross-listings:** SCST 265 THEA 265 STS 265

**Primary Cross-listing**

A collaborative laboratory investigating the intersection of live art and new media, this studio course explores the opportunities for (and problems of) performing through various media. Using audio, video, web-based, interactive, algorithmic, and analog platforms, students will perform research and create performances that examine liveness, broadcasting, digital stages, networking, and what it means to be both a spectator and a maker in the digital age. Students will develop technical and collaborative skills in artistic and new media production, gain fluency in contemporary theories of liveness, performance, and visual culture, and will research historical and current trends in mediatized performance practices.

Platforms/technologies/media forms that may be considered include Twitter, live radio, in-ear monitors, algorithmic composition, bots, video games, live streaming, VJ software, interactive audio, sensors, soundwalks, Snapchat, VR, and surveillance.

**Requirements/Evaluation:** bi-weekly projects and presentations, bi-weekly 2-page critical writing assignments, class participation, work ethic, and collaborative skills

**Prerequisites:** none

**Enrollment Limit:** 20

**Expected Class Size:** 6

**Grading:** no pass/fail option, yes fifth course option
THEA 266  (S)  Playwriting and Production: Exploration of Playwright as Theater Maker

Cross-listings:  THEA 266  ENGL 271

Primary Cross-listing
This course will examine the role of the playwright as collaborator in the new play production process with discussions of collaborative practice. Through writing exercises and critical response time in class we will focus on writing 10-Minute plays that will culminate in a final presentation collaboratively produced by the class on a digital platform. Group work both during class time and outside hours will be necessary for facilitating full class critical response time and artistic process time with the plays. We will explore case studies of the production of new plays in the American Theatre, including examples of self-producing. A writing and research notebook will be a requirement for the class to encourage self-motivation skills as a theater maker outside of the classroom time. Writing and collaborative practice time will be supplemented with weekly reading or viewing assignments of new plays, critical theory, and research for discussions of structure and practice. Self-selected research readings, media, and art will be a large component of the course over the semester.

Class Format: Hybrid; Synchronous discussion time weekly; Asynchronous collaborative work with peers

Requirements/Evaluation:  weekly writing projects leading up to a longer final project, research and writing notebook complied throughout the semester, peer responses; a ten-minute piece created with peers; attendance and class participation

Prerequisites:  Students are asked to write a personal statement about their experience with collaborative practice and include questions that they would desire to pursue in the course.

Enrollment Limit:  12

Enrollment Preferences:  In instance of over-enrollment, preference will be given to Seniors, Juniors, & Sophomores in the Theatre and English Majors.

Expected Class Size:  10

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 267  (S)  Performance Studies: An Introduction  (DPE)

Cross-listings:  DANC 267  WGSS 267  COMP 267  THEA 267

Secondary Cross-listing
Since the 1980s, performance studies has emerged as an interdisciplinary field of inquiry, with origin tales in theater and anthropology, in communications and philosophy. What might theorizing “performance” as mode, analytic, and object of study have to offer scholarship in the interdisciplinary humanities? In this seminar, we will read texts formative of performance studies, paired with multimedia performance examples, where performance speaks to staged theatrics as well as the presentation of everyday life. We will ask, how are race, gender, sexuality, and nation produced as the effects of legal, political, historical, social, and cultural scripts? And--an important partner question--how do discourses and practices of race, gender, sexuality, and nation in fact produce legal, political, historical, social, and cultural effects? This seminar is an introduction to performance studies, an interdisciplinary field in conversation with theater studies, gender studies, anthropology, philosophy, literary theory, visual studies, dance studies, ethnic studies, queer theory, and postcolonial studies. Students will study and experiment with performance while reading theoretical texts to grapple with concepts including ritual, restored behavior, performativity, mimicry, liveness, the body, objecthood, archive, movement, matter, and affect.
THEA 270  Stop Making Sense: Absurd(ist) Theatre in Historical Context  (WS)

In most academic work the point of analysis is to make sense, to find meaning, to explain intricate or confusing phenomena, to provide clarity from complexity. What happens when we can't do this, indeed, when the objects of our analytical attention seem willfully designed to thwart the attempt? Such is the challenge of "understanding" the traditions of the absurd. In this tutorial course, we will engage this challenge within the realm of Western theatre and performance from 1900 to the present. Beginning with selected readings from writers who have engaged the absurd in theoretical fashion (Albert Camus, Soren Kierkegaard, Jean-Paul Sartre, Martin Esslin), the course will move swiftly to original artworks for contemplation and analysis. Some questions we will grapple with include: How do we, can we, should we respond to art that specifically defies meaning? Can art that seems pointless have a point? How and when have strategies of nonsense, circular reasoning, linguistic obfuscation, and intentional theatrical absence been employed to disguise, or deflect attention from, specific didactic (even political) agendas? What role specifically does theatre, theatricality, or performativity play in the presentation of art that refuses understanding? Playwrights will range from canonical (Samuel Beckett, Eugene Ionesco) to more obscure but equally engaging (as well as baffling) artists (Peter Handke, Slavomir Mrocek, Richard Foreman). We will follow standard practice in tutorial pairs, as each week one student will prepare original analysis of the assigned reading, and the other will craft a response to prompt an hour-long discussion. Whether we "make sense," or perhaps discover different ways of appreciating the varied works of art, will depend on the nature of those weekly attempts.

Requirements/Evaluation: Standard tutorial requirements; weekly paper or response paper from each member of the tutorial pair. Evaluation based on improvement in written expression and engaged contribution to weekly discussions.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Theatre, English, and Comparative Literature majors and prospective majors.

Expected Class Size: 10

Grading:

Distributions: (D1) (WS)

Writing Skills Notes: This tutorial will demand writing from each student each week (either a primary paper or a shorter response paper), and each student will receive regular, extensive feedback including a focus on strategies for successful persuasive argumentation.

Not offered current academic year

THEA 274  Performing Utopia

How is performance utopian by design? How do we perform utopias in our daily lives? This course examines the performative dimensions of utopia and the utopian aspirations of performance. According to Jill Dolan, performance can be a utopian prompt, a space and time to imagine new forms of sociality and ways of being in the world. Using a case-study model, we will consider how different modes of performance--theatre, dance, film, art, and, more recently, social media--have helped produce and sustain utopian socialities in and across shifting temporalities in the U.S. imaginary, including: the Shakers, Harmony, Oneida, Drop City, Soul City, The Farm, as well as recent "intentional communities" that envision "opting out" as a new way of inhabiting earth in the Anthropocene. Alongside such real-world examples, we will consider how performance itself has been theorized as a productively utopian (and also dystopian) realm by critics like Jill Dolan, Miranda Joseph, and Jose E. Muñoz, and artists and companies like Bread and Puppet, The Living Theatre, Rachel Rosenthal, Miguel Gutierrez, Guillermo Gómez-Peña, Faye Driscoll, Theaster Gates, Nick Cave, and Taylor...
Mac. As a way of gaining knowledge through embodied practice, students will work collaboratively each week to envision, create, and perform everyday “mini-utopias” that rise and fall ephemeraly. Students will be required to attend a weekend field trip to The Shaker Museum in Hancock, MA, and may as well, when relevant, be asked to attend various live performances or exhibitions at local arts institutions throughout the term.

Class Format: This course will contain a studio component

Requirements/Evaluation: In-class writing and participation; collaborative, weekly creations of “mini-utopias”; a 6-8 page midterm paper based on independent, archival research; leading of a 10-minute in-class discussion; and a final, 15-minute collaborative performance, or other creative presentation, developed from case-study research and inclusive of an invited audience.

THEA 275  (F)  American Drama: Hidden Knowledge

Cross-listings: THEA 275  AMST 275  ENGL 224

Primary Cross-listing

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What's the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli’s The Prince, Thomas Carlson’s Lying and Deception: Theory and Practice, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O’Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what can we learn in particular from American drama about a national relationship to honesty and its opposites. For Fall 2020, the tutorial will be conducted primarily online. Depending on enrollments, we may divide into groups with three students, instead of the traditional two-student tutorial format.

Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre and English majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Fall 2020

TUT Section: RT1  TBA  Robert E. Baker-White

THEA 280  Theatre As Social Practice

What responsibility does theatre have to its local community or to the greater public? How is theatre an inherently “social practice”? Is “socially engaged art” just a fancy term for community theatre? When do good intentions lead to good art? Tackling these questions through both a seminar and experiential-based educational format, students will consider the aesthetics and ethics of performance as a model of “social practice.” As a major component of the course, Williams students will team up and collaborate with elementary school children from our regional school districts to devise a
work of theatre that engages both the Williams College and Berkshire-wide communities. In the seminar component, students will conduct and share independent research on artists (Mierle Laderman Ukeles, Santiago Sierra, Francis Alÿs, Tino Sehgal, Theaster Gates, Paul Chan), theatre collectives and outreach initiatives (Bread and Puppet, The TEAM, Public Works, Gorilla Girls, Sojourn Theatre, The Neofuturists, 600 Highwaymen, Rimini Protokoll), as well as community-based initiatives in our local art institutions (WCMA, Mass MoCA, The Clark). Critics and theorists to be addressed in the course may include: Allan Kaprow, Theodor Adorno, Augusto Boal, Nicolas Bourriaud, Jacques Rancière, Shannon Jackson, Claire Bishop, Grant Kester, Nato Thompson, Jill Dolan, Pablo Helguera, and Guillermo Gomez-Peña. Note: this course requires that all enrolled students be able to attend one weekly class meeting that meets outside of the Division of the Day hours, so as to be able to collaborate with elementary school children.

Requirements/Evaluation: weekly writing and active, in-class participation; 20-minute oral presentation and handout based on independent research; one leading/teaching of a "rehearsal" with school-age children; creating and performing in a collaborative work of social practice; 10- to 12-page final paper.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Theatre Majors

Expected Class Size: 8-10

Grading:

Unit Notes: this is both a studio and seminar course, with both a workshop/lab and discussion

Distributions: (D1)

THEA 282 (S) Writing for Performance

Cross-listings: ENGL 280 THEA 282

Primary Cross-listing

This studio/seminar course is designed for students with some experience in creative writing and/or performance interested in a deep dive into the art of playwriting. What is a play? What distinguishes writing for performance from writing that is meant to be read? How do we craft a blueprint for a live event? In our rapidly evolving digital world, what sorts of stories and phenomena still ask to be experienced live? How are contemporary theater and performance makers pushing the boundaries of what "writing" means and what constitutes "liveness"? We will read works by Sharon Bridgforth, Sarah Ruhl, Tarrell Alvin McCraney, Tony Kushner, Branden Jacobs-Jenkins, Sarah DeLappe, Suzan-Lori Parks, Edward Albee, August Wilson, Chuck Mee, María Irene Fornés, Young Jean Lee, Stew, and Lightning Rod Special, who have deepened and widened the possibilities of the form. We will also write, beginning with exercises in character, dialogue, action, and world-building, and working toward a longer final project. Students will be expected to present their own work and respond to each other's work regularly. At the end of the term, we will present excerpts of our one-act length works as part of an open studio experience.

Requirements/Evaluation: in-class participation, critical/creative responses to readings, various writing exercises, final one-act performance piece, participation in final presentation

Prerequisites: students with some experience in creative writing and/or performance

Enrollment Limit: 14

Enrollment Preferences: students who have taken THEA 214/ENGL 214 or another creative writing course

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 280 (D1) THEA 282 (D1)

Not offered current academic year

THEA 284 (F) Global Digital Performance (DPE)

This course explores the ways in which digital technologies are shaping performance practices. We will consider theater, dance and performance art, as well as the use of social media in political movements and everyday life. We will begin by examining the long history of mediatization in performance. From painting, puppetry and photography to video, VR and Tik Tok, performers' bodies have always been, in some sense, "mediated."
We will interrogate the affects and power relations at stake in questions of "liveness," paying particular attention to how the representation of bodies is embroiled in longstanding imperialist projects of representing the “Other,” racialized and gendered modes of viewing, and global regimes of neoliberal surveillance. On the other hand, we will examine the role digital communication platforms play in political resistance. We will apply our growing understanding of the pitfalls and potential of digital technologies to examining the aesthetic strategies and political projects of artists and their audiences from various parts of the world. Throughout our work we will acknowledge how access to new technologies, as well as the meaning given to their use, vary between national, cultural, and class contexts. This includes keeping in mind the "digital divide" so that we can chip away at our common sense assumptions that the internet and digital art making are inherently democratic.

**Class Format:** For Fall 2020, this course will be conducted in a hybrid fashion, with both synchronous and asynchronous components. For the remote learning component, students will view brief lectures and online video content, engage with required readings on their own time, and complete handouts and assignments based on prompts. Weekly synchronous discussions (either in small groups or in a larger group) will be conducted either in Zoom or, if it is safe to do so, in a classroom.

**Requirements/Evaluation:** reading responses, class presentations, short digital performance projects, and active discussion participation

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** Theatre majors; Art majors; Global Studies concentrators. This course is open and welcoming to all students. Please be in touch with Prof. Pillai or Prof. Holzapfel with questions or to express interest in the course.

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** This course interrogates the role of artistic and social practices of digital performance in producing and sustaining power structures (state, imperial, colonial, neoliberal) and inequities (racial, gendered, class-based). Focus will include the ways that interactions between makers and users in the virtual realm replicate or contest the inequitable social, racialized, and gendered dynamics that organize daily life offline.

---

The artistic, intellectual, and practical roles of a designer vary widely, from the spectacle of Broadway to the do-it-yourself ingenuity of downtown theater to the conceptual frame of the art gallery space. This course explores the art and techniques of lighting and scenic design for performance. While grounded in a conceptual methodology for development of a design based in textual analysis and research, this course is equally concerned with providing instruction in the techniques and craft necessary for bringing a design to fruition, including: sketching, technical drafting, and model-making; basic physics and theories of color in both surfaces and light; the use of volume, movement, color, intensity, and texture as compositional and storytelling tools; the variety of stage lighting instruments and theatrical soft goods available, and their uses; writing cues; and the translation of concept into light plots, channel hookups, plans and elevations. We will use a variety of performance texts (plays, musicals, opera, and dance) to discover and explore the creative process from the perspective of scenic and lighting designers. The class format will be a combination of lectures, discussions and studio work.

**Requirements/Evaluation:** committed participation in class discussion and feedback; and the thoughtful, timely completion and presentation of multiple design projects of varying scales, focusing on scenic and lighting design, considered both individually and when working in tandem

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** students who have completed THEA 101, 102, 201 or 244, ARTS 100, or equivalent course or practical experience in the performing or studio arts

**Expected Class Size:** 6

**Grading:** no pass/fail option, yes fifth course option

**Materials/Lab Fee:** up to $125 for materials and copying charged to term bill
THEA 286 (S) Sound Design
What is "sound" and how does it work within a design for live performance? Starting from that fundamental question, this course will examine creative, practical, and technical aspects of sound design within a theatrical setting, from the physics of sound and the mechanics of human hearing and perception to sound aesthetics, style, and function. We will learn to effectively analyze a range of scripts and source material, apply research, and make specific choices about world building that serve both the needs of the script and the artist's imaginative impulse. We will experiment with original sound design in a theater space, compare approaches, and learn to listen critically. We will consider how to integrate sound with the other design disciplines, and collaborate effectively to help to create a robust but coherent production.

Class Format: a combination of lectures, discussions, and studio work

Requirements/Evaluation: committed class participation and thoughtful, timely completion of all assignments and projects

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: students who have completed THEA 101, 102, 201 or 244, ARTS 100, or equivalent course or practical experience in the performing or studio arts

Expected Class Size: 6

Grading: no pass/fail option, yes fifth course option

Materials/Lab Fee: $50

Distributions: (D1)

THEA 287 Design for Film & Television
The production designer is responsible for creating, controlling, and managing 'the look' of films and narrative television from page to screen. This hands-on course explores the processes of production design, art direction, and lighting direction processes as related to design for film and television. From initial Production Design sketches and 'Feel-Boards' to accommodating desired cinematographic angles when designing a studio set, design for film requires a designer to shape an entire visual world while keeping in mind the story as a whole. The goal of this course is to provide an initial understanding of the Production Design process in practice through studio work and instruction.

Class Format: This class will be a combination of instruction and in class studio work.

Requirements/Evaluation: committed participation in class discussion and feedback; and the thoughtful, timely completion and presentation of multiple design projects of varying scales, focusing on scenic and lighting design, considered both individually and when working in tandem

Prerequisites: THEA 201, THEA 285, ARTS 100, or permission from instructor with equivalent experience

Enrollment Limit: 12

Enrollment Preferences: In instance of over-enrollment, preference will be given to Seniors, Juniors, & Sophomores in the Theatre Majors & Art Majors

Expected Class Size: 8

Grading:

Materials/Lab Fee: up to $125 for materials and copying charged to term bill

Distributions: (D1)

Not offered current academic year

THEA 288 (F) Storyboarding: Translating the Text into the Visual
In this class, we will explore using pictures to tell stories. With an emphasis on the flow of story arc over time, we will examine existing texts with episodic and sequential structures (such as picture books, comics, albums, film, theater, and opera) and interpret them into storyboards of various 2D
and/or 3D visual media. The focus here is on developing and communicating complete dramaturgically-based visual ideas with an eye towards big-picture concepts. This class is geared towards all students interested in time-based visual narratives such as directing/designing/creating/writing for film and theater. No previous artistic expertise is required, but know that the bulk of the work here will be hands-on art projects, presentations, and group critique and discussion in a studio art class format. We will discuss the particulars of the hybrid format as a class this fall, to make sure everyone is comfortable and responsive to CDC requirements.

**Requirements/Evaluation:** Coursework is comprised of text comprehension, group discussion/critique, and biweekly studio-style art projects.

**Prerequisites:** THEA 101 or permission of instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** theater majors, art majors

**Expected Class Size:** 6

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** materials and copying up to $125 to be added to the students' term bill

**Distributions:** (D1)

**THEA 290 (F)(S) Theatre Department Production**

Participation in the production program is offered as a partial credit fifth course, is open to all students, and can only be taken on a Pass/Fail basis. Theatre Majors are required to participate in four department productions, and must serve as stage manager for one of them. Depending on their role in the production process, students will be admitted to Theatre Production courses by permission of the department Chair, following casting and the assembly of the artistic and production team. Students may participate in a production in one of three major roles: stage management, performing (actor or actress, musician, dancer, etc.), or non-performing (director, designer, dramaturge, choreographer, music director, production manager, etc.). Stage managers or performers should expect to be in rehearsals, generally scheduled during the evening hours from 6-10PM, for up to twenty hours per week during a five to ten-week long production process, as well as up to ten hours per day during tech weekend and up to six hours per day during the performance run of the show. Non-performing roles may be expected to be involved in the production process before the start of rehearsals, participating in meetings, auditions, as well as a post-mortem process for each show. Entrance into a production for actors and major artistic roles are based on competitive auditions or prior experience. There is no online registration. Repeatable course numbers are designated as follows: 291 (Stage Management Production I); 292 (Stage Management Production II); 293 (Stage Management Production III); 294 (Performing Role Production I); 295 (Performing Role Production II); 296 (Performing Role Production III); 297 (Non-Performing Role Production I); 298 (Non-Performing Role Production II); 299 (Non-Performing Role Production III). Evening courses and exams will take precedence over half credit courses. Students may still participate in department productions even if they choose not to enroll for credit.

**Class Format:** half credit, fifth course option only

**Requirements/Evaluation:** participation in the collaboration, commitment to being a team player, dedication to the artistic process, and participation in the final public performance event

**Prerequisites:** none

**Enrollment Limit:** none

**Enrollment Preferences:** none

**Expected Class Size:** 40

**Grading:** pass/fail option only

**Distributions:** No divisional credit

Spring 2021

STU Section: H1    TBA    Omar A. Sangare
THEA 301 (F) Global Theatre and Performance Histories (DPE)

Cross-listings: THEA 301 COMP 303

Primary Cross-listing

A survey of theatre and performance traditions from across the globe, from the classical period to roughly 1880. This course provides students with an overview of theatre's many diverse histories, emphasizing its dual role as both an artistic and social practice. While attending to theatre's formal and aesthetic aspects, we will at the same time focus on the relationship of performance practices to the legacies of state power, hegemony, imperialism, and colonialism in which they are historically embedded. Topics of inquiry may include: classical Greek and Roman theatre; dance/drama of pre-colonial Africa; Indian classical drama; pre-modern theatres of Japan; Medieval and Renaissance theatre in England; Pre-Columbian indigenous performance practices; French and Spanish court theatres; German nationalist theatre; nineteenth-century popular performance in the U.S.; and the rise of realist theatre in Scandinavia. Through close analysis and interpretation of primary sources, including encounters with archival sources housed in Chapin and WCMA and also available in digital form, students will practice and learn the skills of the theatre historian, applying them to their own creative and critical research projects. This course is required for Theatre majors and is a prerequisite for THEA 401.

Class Format: For Fall 2020, this course will be conducted in a hybrid fashion, with both synchronous and asynchronous components. For the remote component, students will view brief lectures and online video content, meet with one another in Zoom, engage with required readings on their own time, and complete brief assignments based on prompts. Synchronous class discussions (either in small groups or in a larger group) and experiences in the archives will be conducted either in Zoom or in a classroom setting.

Requirements/Evaluation: weekly writing and participation in discussions; a midterm "maker" or "critic" project; participation as a "discussion leader" for one class; and a final "maker" or "critic" project

Prerequisites: For theatre majors: THEA 101, 102, 103, or another 100-level theatre course. Students who are not Theatre majors are welcome into the class by permission of instructor. Please email Prof. Holzapfel at: ash2@williams.edu

Enrollment Limit: 16

Enrollment Preferences: Theatre majors

Expected Class Size: 8-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 301 (D1) COMP 303 (D1)

Difference, Power, and Equity Notes: This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the principal (or in some cases only) sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse and embodied forms of repertoire that must be analyzed in relation to the structures of social inequity and power in which they arise.

Fall 2020

SEM Section: H1    TR 11:30 am - 12:45 pm     Amy S. Holzapfel

THEA 304 The Gay Menagerie: Gay Male Subcultures (DPE)

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.
Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group
Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required
Enrollment Limit: 12
Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited
Expected Class Size: 12
Grading:
Distributions: (D2) (DPE)
Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

Not offered current academic year

THEA 305  (F)  Project: Costume-Design, Performance, and Beyond
Cross-listings: ARTS 200  THEA 305
Primary Cross-listing
This course is an intensive study of costume design. Costume designers are always aware of the world around them. They look, listen, reflect, and record. They use inspiration, research, imagination, and innovation for their creations. They simultaneously observe the smallest detail while also picturing the larger world surrounding the pieces they develop. The course focuses on the designer's process, which entails in part: script analysis, collaboration, research, color theory, basic design principles, rendering techniques, fabric research, organizational skills, and presentation of designs.

Requirements/Evaluation: multiple design assignments including a detailed final design project, costume labs, image and research files, costume sketchbook, short papers, committed participation, and attendance; students are required to attend two to three Theatre department or approved performances during the semester; students will also be expected to partake in intelligent critiques of fellow classmates' design work
Prerequisites: successful completion of any 200-level course in any of the fine or performing arts or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Theater and Art Studio, sophomores and juniors
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Unit Notes: does not satisfy any requirements for the Art major
Materials/Lab Fee: $100 lab fee charged to term bill
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 200 (D1) THEA 305 (D1)

Not offered current academic year

THEA 308  (F)  Directing: Bodies in Space and Time
This is a laboratory in which we will investigate the holistic art of directing live performance. The director is both a creator and interpreter. Students will sharpen their visual, spatial, sonic, and kinesthetic sensibilities while developing a clear, cogent directorial voice. We will learn by doing. Assignments will involve hands-on directing projects presented in class for collective critique. Through these weekly assignments, directors will devise and discover strategies for collaboration and vocabularies of action and intention.
Class Format: 3 hours per week
Requirements/Evaluation: weekly directing projects leading up to a longer final project, reviews of live performances, a portfolio compiled over the course of the semester
Prerequisites: none
Enrollment Limit: 6
Enrollment Preferences: Theater majors; if the course is overenrolled, students will submit an application
THEA 310  (F)  Playwriting: Facing the Blank Page  (WS) (QFR)
I believe that after food and shelter, humans need stories to survive. This class will focus on each writer's dreams, fears and desires and how to turn them into plays. Students will explore the fundamentals of playwriting. This will include writing exercises, weekly pages, hearing your scenes out loud and at the end of the semester the first draft of a new play.

Class Format: Hybrid
Requirements/Evaluation: Upon completion of the semester, you will be able to demonstrate and ability to: draft, rewrite, discuss and continue to rewrite; engage verbal discussion of your work and your colleagues work; place the work in context of other artists and artistic pursuits; place work in context of culture and society; complete a full draft of your play.
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Theater majors first, then Concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS) (QFR)

Writing Skills Notes: You are expected to attend class, to keep up with required writing, readings drafts pages to class and participate in all discussions.
Quantative/Formal Reasoning Notes: You are also expected to think critically and articulate your thoughts.

Fall 2020
SEM Section: H1  RF 3:15 pm - 4:30 pm  Lucy Thurber, Ren Dara Santiago

THEA 311  (S)  Theorizing Shakespeare
Cross-listings:  COMP 310  WGSS 311  THEA 311  ENGL 311

Secondary Cross-listing
For complex reasons, Shakespeare has always revealed as much about those who speculate on him as the speculators have revealed about him. In this course, we will engage a few plays in considerable depth: The Merchant of Venice, Hamlet and Antony and Cleopatra. But we will also use these works as a means to engage some of the most compelling trends in recent critical thought, including cultural theory and post-Marxist analysis, political theology, deconstruction and rhetorical theory, psychoanalytic thought and theories of gender and sexuality. In some instances, we will look at applied criticism, in others we will simply place a theoretical work alongside a play and see what they have to say to each other, for instance, what would a Shakespearean reading of Jacques Lacan look like?

Requirements/Evaluation: 20 pages of writing in the form of two short and one longer paper
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Limit: 25
Enrollment Preferences: English majors
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 317 (F) Black Migrations: African American Performance at Home and Abroad
Cross-listings: AFR 317 COMP 319 AMST 317 DANC 317 ENGL 317 THEA 317

Secondary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation: class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

THEA 320 (S) Marlowe and Shakespeare (WS)
Cross-listings: ENGL 320 THEA 320

Secondary Cross-listing

In 1586, at the age of twenty-three, Christopher Marlowe wrote Tamburlaine the Great. Over the next six years—probably while moonlighting as a government spy—he went on to produce some of the strangest and also most influential works of English drama. Then in 1593, Marlowe was murdered, stabbed through the eye in a tavern brawl. It is often said that Marlowe's early death, no less than his early success, made the work of Shakespeare possible. In this class we will read Marlowe's Edward II, the first popular history play in English, and Shakespeare's Richard II; The Jew of Malta; Doctor Faustus; and Macbeth. We will look at ways in which Marlovian preoccupations—with lurid violence, with debasement, with self-invention—resurface in Shakespeare, in new forms. In the process we will also take up more general questions of literary influence: What do writers borrow from each other? And how does the knowledge of indebtedness—shared to varying degrees with an audience—affect the meaning and impact of their work? Critical readings will include essays by Harry Levin, Julia Lupton and Stephen Greenblatt.

Requirements/Evaluation: two 5- to 7-page papers; a ten page final paper

Prerequisites: 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 20

Enrollment Preferences: English majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 320 (D1) THEA 320 (D1)

Writing Skills Notes: Two 5- to 7-page papers. A 10-page final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year
THEA 321  (S)  Arts Organizing in Africa and the Diaspora  (DPE)
Cross-listings:  THEA 321  MUS 323  DANC 323

Secondary Cross-listing

At the heart of this class is the question, how do artists and organizations use the performing arts to effect social change in their communities? Drawing from a number of case studies from throughout Africa and the African Diaspora, we will first endeavor to understand and contextualize issues related to education, social uplift, the environment, and the economy as they relate to specific communities. We will then examine how a series of organizations (from grassroots campaigns to multinational initiatives) utilize the performing arts in response to those issues. Among the issues we will discuss at length are: -How do performers and organizations navigate the interplay between showcasing the performance talents of individuals and groups and foregrounding an issue or cause? More broadly, what dilemmas emerge as social and aesthetic imperatives intermingle? -What are the dynamics between people acting on a local level within their communities and their various international partnerships and audiences? -How can government or NGO sponsorship help and/or hinder systemic change? By the end of the semester, students will be equipped with conceptual frameworks and critical vocabularies that can help them ascertain the functions of performance within larger organizations and in service to complex societal issues. Throughout the course, we will watch and listen to a variety of performances from traditional genres to hip-hop, however this class is less about learning to perform or analyze any particular genre than it is about thinking through how performance is used as a vehicle for social change. Case studies will include youth outreach and uplift in Tanzania through the United African Alliance, campaigns to promote girls' education in Benin and Zimbabwe, community-wide decolonizing initiatives through the Yole!Africa Center in the Democratic Republic of Congo, and the cultural reclamation of a mining town in Suriname through the arts organization, Stichting Kibii.

Class Format: This is a remote course.

Requirements/Evaluation: Four case study profiles, midterm essay (5-7 pages), and a final project. Regular participation in class discussion.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: If the course exceeds the maximum enrollment, selection will be made based on students explanations for why they want to take the class.

Expected Class Size: 15

Grading: yes pass/fail option,  yes fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 321 (D1)  MUS 323 (D1)  DANC 323 (D1)

Difference, Power, and Equity Notes: This course interrogates on a fundamental level issues of power and equity. Using the performing arts as a critical lens, we discuss a series of social and environmental challenges that communities of African descent face. These are in direct dialogue with global systems of power and economic factors. Issues include: environment, education, local communities' interactions with multinational corporations, and representational politics in performance.

Spring 2021

SEM Section: R1  MW 11:45 am - 1:00 pm  Corinna S. Campbell,  Tendai Muparutsa

THEA 322  (F)  Feminist and Queer Performance at the Limit of Action  (DPE)
Cross-listings:  AMST 326  THEA 322  WGSS 321  AFR 328

Secondary Cross-listing

What counts as feminist and queer activism? This course challenges what we dominantly understand as activism—key to the emergence of ethnic studies and feminist and queer theory. Moving away from political actions centered in these fields, such as strikes, protests, and boycotts, this course will turn to visual and performance art works by artists of color, who consider other forms of action that are not overtly visible, resistant, oppositional, agentive, militant, loud, liberatory, and documentable. Each week, we will examine a performance at the limit of action, including silence, sexual abjection, concealment, melancholia, and waiting, alongside issues related to race, gender, sexuality, labor, and migration among others. How might we approach and reconcile with performances that once again reify notions of racialized and gendered bodies as apolitical, passive, submissive, and compliant? Drawing on scholarship within black and women of color feminist criticism, queer of color critique, critical ethnic studies, and performance studies, this course will attune students to the role of aesthetics to interrogate and expand what we typically conceive of as activism, resistance,
power, and survival from racialized, feminized, and queer positions.

**Requirements/Evaluation:** In-class discussion, short weekly reading posts, class presentation, final paper/project

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** WGSS majors and students with experience in American Studies or performance studies coursework

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AMST 326 (D2) THEA 322 (D1) WGSS 321 (D2) AFR 328 (D2)

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of activism is valued over other forms.

Fall 2020

SEM Section: R1    MR 1:30 pm - 2:45 pm     Kelly I Chung

**THEA 323 (F) Marxist Feminisms: Race, Performance, and Labor (DPE)**

**Cross-listings:** THEA 323  WGSS 323  AFR 329  AMST 329

**Secondary Cross-listing**

Who is considered the dominant subject of labor? This course offers an overview of queer, women of color feminist, decolonial, and black and critical ethnic studies critiques of orthodox Marxism. Starting with core texts from the Marxist tradition, we will explore a range of social positions and forms of labor that complicate Marx's emphasis on the white male industrial worker. Each unit, we will study key scholarship that centers reproduction, slavery, care and domestic work, indentured servitude, sex work, and low wage flexible labor, to name a few, alongside queer and feminist modes of performance that respond to and/or provide strategies to live and survive under racial capitalism. We will discuss seminal works by theorists, including Karl Marx, Luce Irigaray, Cedric Robinson, Jennifer Morgan, Hortense Spillers, Lisa Lowe, Gayatri Chakravorty Spivak, Dorothy Roberts, Angela Davis, José Esteban Muñoz, and Leo Bersani, in tandem with performances, such as paintings, performance art, poetry, protests, photography, prints, music, and sculptures. This course will equip students with a critical understanding of the ways racial capitalism has centrally relied upon the mass capture and recruitment of racialized and gendered labor in and beyond the U.S. and how, through performance, life under these conditions have been reimagined.

**Requirements/Evaluation:** In-class discussion, short weekly reading posts, class presentation, final paper

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** WGSS majors and students with experience in American Studies or performance studies coursework

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor is valued over other forms.

Fall 2020

SEM Section: R1    TF 1:30 pm - 2:45 pm     Kelly I Chung
THEA 330  (S)  New Orleans as Muse: Literature, Music, Art, Film and Theatre in the City
Cross-listings: AMST 331  THEA 330  COMP 330

Primary Cross-listing
This course will look at the representation of a city and how it has influenced artists. Students will read, listen to, and view a selection of the literature, music, film and art that represent the city from both pre-flooding and current re-building. Reading selections will include examples such as Harper's Weekly (Lafradio Hearn), The Awakening (Kate Chopin), A Streetcar Named Desire (Tennessee Williams), The Moviegoer (Walker Percy), Why New Orleans Matters (Tom Piazza), A Confederacy of Dunces (John Kennedy O'Toole), New Orleans Sketches (William Faulkner), One Dead in the Attic (Chris Rose). Film examples such as A Streetcar Named Desire, An Interview with a Vampire, The Curious Case of Benjamin Button, When the Levees Broke, Treme, Waiting for Godot (in the 9th Ward). Music selections from examples such as Louis Moreau Gottschalk, Jelly Roll Morton, Louis Armstrong, Fats Domino, The Meters, Kermit Ruffins and the Rebirth Brass Band. Art selections will come from a variety of sources such as THE OGDEN Museum of Southern Art and Prospect 1, 2, & 3.

Requirements/Evaluation: will be on active participation, weekly response essays on film viewings, 2 short essays on class topics, a final paper and a contemporary creative project/performance

Prerequisites: none

Enrollment Limit: 12

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

THEA 332  (F)  Writing in the Margins: Race, Performance, Plagiarism  (DPE)
Cross-listings: ENGL 332  COMP 358  THEA 332

Primary Cross-listing
There is no such thing as an original play. So says playwright Chuck Mee. Someone else, certainly, said it before him. What does it mean to own a story? This seminar/studio course proceeds from a historical understanding that writing and performance are, and have always been, practices of plagiarism. We begin by looking at how bodies, thoughts, and words come to be understood as ownable property in the modern era, and how that process of commodification is inextricably tied to colonialism and the production of race. How do performance and bodily practices trouble our ideas about individual ownership? We look to writers and other artists of color who have plundered "classic" texts and radically reclaimed the colonial canon. We will read intertextual works by Suzan-Lori Parks, Young Jean Lee, Salman Rushdie, Cherrie Moraga, and others. Taking these artists as inspiration, students will choose a text as source material and write in the margins of that text to create new, re-visioned work.

Requirements/Evaluation: a 5-page paper, a performance analysis, a short creative work, and a longer final creative work

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: if the class is overenrolled, students will submit a letter of interest in the class

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Difference, Power, and Equity Notes: This course approaches questions of ownership, race, and power both critically and creatively.

Not offered current academic year

THEA 335  (F)  The Culture of Carnival
Cross-listings: COMP 338  THEA 335
Primary Cross-listing

Carnival is a regenerative festival as well as a transgressive one. It is a time for upheavals and recreating for one day, a new world order. Men dress as women, women dress as men, the poor become kings; drink and sex and outrageous behavior is sanctioned. We will look at festivals in such places as New Orleans, Venice, and Rio. Central to this course are the cultural and religious lives of these societies, and how these festivals exist politically in a modern world as theatre and adult play. A variety of sources will be used, such as newspaper accounts, films, photography, personal memoirs and essays on the subject.

Requirements/Evaluation: regular active class participation, one oral presentation including a 5-page essay, one 15-page research final paper and participation in a group project/public parade

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: sophomores and first-year students

Expected Class Size: 18

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

THEA 339 (F) Introduction to Dramaturgy

The dramaturg is a major collaborator in theatre, playing the multi-faceted role of an in-house producer, curator, historian, literary manager, cultural critic, audience educator, community engager, and all-around supporter of the production team. Working closely with fellow theatre makers, the dramaturg helps to shape a production and facilitate the rewarding process of creating a world on stage. This course will introduce students to the fundamentals of dramaturgy, including: new play development, production research, curatorship, literary management, educational outreach, social and community engagement, and adaptation/translation. Students may also be invited to collaborate as dramaturgs on the Theatre Department’s spring production. Assignments over the term will be hands-on, practical, creative, and project-based and include writing, research, oral presentation, as well as group work. As a culminating project, students will complete a creative adaptation and dramaturgical casebook for source material of their own choosing. Students may be asked to attend some production rehearsals as well as live performances and exhibitions when relevant.

Class Format: seminar, with studio and production components

Requirements/Evaluation: Assignments will be creative and project-based and will range from making image galleries to writing program notes and educational study guides. In-class writing and participation in class discussion will occur daily. A major project over the term will include the assembly
of a final production casebook, including: research and historical summary; timeline; artist's bio; educational guide; image gallery; program note; community outreach strategy; lobby design and curatorship; critical/theoretical perspective; and creative adaptation/translation.

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** Theatre majors

**Expected Class Size:** 6

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

Not offered current academic year

THEA 340 (S)  Shakespeare on Page, Stage and Screen: Text to Performance  (WS)

**Cross-listings:** THEA 340 ENGL 345 COMP 343

**Primary Cross-listing**

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era's concerns--with matters of gender, sexuality, race, class, or materiality, for instance--against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the text in dramatic performance, such challenges--and opportunities--multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the other extreme, staging the plays with the primary aim of making them "speak to our times" risks revisionary absorption in our own interests. We will focus on six Shakespeare plays, from different genres and periods of his career: *Romeo and Juliet*, *Henry V*, *Twelfth Night*, *Hamlet*, *Antony and Cleopatra*, and *A Midsummer Night's Dream*. Proceeding with each from close reading of the text, we will attend to the demands and opportunities of both interpretation and performance, and assess a range of recent film and stage productions.

**Class Format:** This course will be remote, with occasional smaller tutorial-style sections. If pandemic conditions change significantly, I will move to in-person and/or hybrid meetings as warranted.

**Requirements/Evaluation:** Three papers ranging from 4 to 7 pages; several short reading responses and regular discussion board postings; class participation.

**Prerequisites:** A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

**Enrollment Limit:** 14

**Enrollment Preferences:** Theatre and English majors or prospective majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 340 (D1) ENGL 345 (D1) COMP 343 (D1)

**Writing Skills Notes:** Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive timely comments from the instructor on their writing skills, with suggestions for improvement, and there will be opportunities for revision of submitted papers.

THEA 345 (S)  Contemporary Theatre and Performance

**Cross-listings:** COMP 355 ENGL 349 THEA 345

**Primary Cross-listing**

As Gertrude Stein once remarked, "The hardest thing is to know one's present moment." What is going on in the world of theatre and performance today? What are the hot topics in our current artistic landscape? Who are the writers, performers, and directors of the past two decades? This seminar will consider both experimental and mainstream drama and performance from the twenty-first century, focusing on topics such as: post-dramatic
theatre, devised performance, social practice, participatory and immersive theatre, hyper-naturalism, post-identity performance, and weird theatre. Artists and collectives to be considered may include: Suzan-Lori Parks, Will Eno, Richard Maxwell and the NYC Players, Young Jean Lee, Annie Baker, Lucas Hnath, Branden Jacobs-Jenkins, Quiara Alegría Hudes, Anne Washburn, Taylor Mac, Lynn Nottage, Stephen Adly Guirgis, Miguel Gutierrez, Elevator Repair Service, The Wooster Group, and Nature Theatre of Oklahoma. As a final project, students will work individually or in small groups to create a script or short performance that addresses the question: "What is the most important story to be telling through performance right now?" Students may be required to attend theatre, dance, and other performances at the '62 Center and beyond.

Requirements/Evaluation: written and dramaturgical-based assignments, an oral presentation, a mid-term paper, in-class discussions, and a final paper or performance

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Theatre majors; Comparative Literature or English majors

Expected Class Size: 8-10

Grading: yes pass/fail option, yes fifth course option

Not offered current academic year

THEA 350  (S)  Devised Performance: The Art of Embodied Inquiry

Cross-listings: THEA 350  ARTS 250

Primary Cross-listing

This studio course offers students hands-on experience in devising new performance work as an ensemble. Looking to the work of practitioners and collectives like Jerzy Grotowski, El Teatro Campesino, Tectonic Theater Project, Pina Bausch, Belarus Free Theatre, Nrityagram, and SITI Company, we will challenge ourselves to really probe what live performance is capable of. How might we think of performance as a research methodology? As a lifestyle? As a form of political action? This class will function as a laboratory, forming its own unique structure for developing and realizing a live performance. The course provides an opportunity to navigate the complex dynamics present in collaborative creation. Guest classes with practitioners will offer a fuller range of skills for the student ensemble to utilize during the devising process. Work-in-progress presentations spaced regularly throughout the semester will allow the ensemble to receive feedback from small, invited audiences, as well as the opportunity to apply that critique to an ongoing creative process. At the end of the semester the accumulated work will have a public presentation in a workshop format.

Requirements/Evaluation: participation, individual presentations, contribution to group work, self-evaluation; students will contribute to the creation and presentation, by the group as a whole, of a newly devised performance piece

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Theatre majors and Art majors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

THEA 365  (F)  Beckett, Pinter and Stoppard

Cross-listings: ENGL 306  THEA 365  COMP 365  ENGL 365

Primary Cross-listing

Samuel Beckett, Harold Pinter and Tom Stoppard have been amongst the most influential playwrights of the anglophone theatre over much of the last six decades. This course will explore their mutual concern with the capacities and dysfunctions of language, their questioning of Art's value and the scope for originality in the post-nuclear and postmodern era, and, above all, their collective focus on the extent to which selfhood may be realized in
and through performance. Besides reading major plays, we will also give some consideration to the dramatic work crafted by these writers for radio, television and film, and to the political and social commitments animating and counterpointing their literary careers. Readings may include: Endgame, The Caretaker, Rosenkranz and Guildenstern are Dead, Krapp's Last Tape, The Homecoming, No Man's Land, Betrayal, Waiting for Godot, Dogg's Hamlet, The Invention of Love, Arcadia, Rock 'n' Roll, Not I, Rockaby, A Kind of Alaska, Catastrophe, The Real Thing, Indian Ink, Artist Descending a Staircase and One for the Road. Throughout, we will give consideration to these works as both literary and theatrical texts.

Requirements/Evaluation: two long papers, four 1- to 2-page shorter responses, class participation

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Theatre and English majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

THEA 385 (S) The Sculptural Costume and It's Performance Potential

Cross-listings: THEA 385 ARTS 385

Secondary Cross-listing

A team-taught studio art / theatre course designed to explore the rich territory of the wearable sculpture and its generative role in art and performance. From ritual costumes, to Carnival, to Dada performance, to Bauhaus dance, to Helio Oiticica's Parangole, and Nick Cave's sound-suits, there has been a rich tradition where sculpture and costumes merge. Students will study artists who have bridged distinctions between the theatrical costume and the sculptural object as well as produce hybrid objects that explore the range of possibilities within this collaborative practice. The students will produce object-costumes involving a wide variety of media, from recycled materials to new technologies, while striving to develop their individual artistic voices.

Requirements/Evaluation: the quality of work produced, the depth and quality of the content and process, participation in critiques, and attendance

Prerequisites: successful completion of any 200-level course in art studio or performing arts, or permission of the instructor

Enrollment Limit: 14

Enrollment Preferences: Art and Theater majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $125

Not offered current academic year

THEA 388 (F) Research: A Window into Design Dramaturgy

This class combines the targeted playreading skills of a designer with deep dives into visual research. How to gain a foundation of historical research for a specific theatrical work? How to interpret this research through an added lens of specific artistic movement or style? In this class, we will develop skills to source, curate, and present images that both deepen our understanding of a text as designers and visual thinkers, as well as free our imaginations to the aesthetic possibilities of the text. Bi-weekly research projects paired with historically-based dramatic literature provide the main structure of the work. Class time is a combination of discussions of theatrical texts, paired with student project presentations and critiques.

Requirements/Evaluation: Coursework is dramatic literature comprehension and group discussion/critique, combined with biweekly research projects

Prerequisites: THEA 201 or permission of instructor
THEA 393  (F)  Staging Identities

Cross-listings:  THEA 393  ENGL 393

Primary Cross-listing

The construction of selfhood is always to some extent a performative act—as Shakespeare’s Jacques says, “All the world’s a stage / And all the men and women merely players[,]” That performance is inherently dual, since constituted both for the audience of the wider social world, and for the self who seeks to act. Drama as a genre, with its constant negotiation of the competing claims of illusion and the operations of reality, is invariably interested in the exploration of social identity, in the tensions between public and private selfhood, and in the functions of ‘performance’. In this course we will examine theatre’s response to the challenge of self-fashioning in the modern era, and consider the wider ontological status of performance as a category within the context of twentieth century drama and theatrical staging. Readings will include Shakespeare’s *Hamlet* and plays by Chekhov, Pirandello, Churchill, Shepard, Lori-Parks, Beckett, Walcott, Pinter and others, along with selected criticism, theory, and psychoanalytical writings.

Class Format:  Our class meetings will be conducted remotely, but with the seminar group regularly broken into small discussion sections. I will consider moving to in-person teaching for the discussion sections, depending on conditions on campus as the semester progresses.

Requirements/Evaluation:  Two papers totaling about 12 pages, regular posting on discussion boards, and active participation in discussion.

Prerequisites:  A THEA course, a 100-level ENGL course, or a score of 5 on the AP English Literature exam.

Enrollment Limit:  14

Enrollment Preferences:  Theatre and English majors or prospective majors.

Expected Class Size:  14

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 398  (S)  Independent Study: Theatre
THEA 401  (S) Senior Seminar: Practicing Theory
This class constitutes a culminating course of study for the Theater major. It aims to delve deep into consideration of the relationship between theory and practice, between text and performance, between performer and audience, and between aesthetics and politics. We will explore a selection of influential ideas and methodologies that have shaped both making theater and thinking about theater in various historical periods and cultural contexts. Sample artists or critics addressed by the course may include: Antonin Artaud, Veenapani Chawla, Franz Fanon, Bertolt Brecht, Jerzy Grotowski, Richard Schechner, Guillermo Gomez-Peña, Augusto Boal, Anne Bogart, and Rustom Bharucha. Through discussion and experimentation, we will endeavor to understand how theater engages with cultural, social, and philosophical issues that link the stage with the realities and fantasies of everyday life. Central to our exploration will be excavating the Eurocentric assumptions that conventionally shape the practice and study of theater in the United States. We will seek ways to decolonize our perspectives and ask critical questions about performance's potential to enact strategies of anti-racism and anti-imperialism.

Requirements/Evaluation: Participation in discussion, reading responses, and creative projects.
Prerequisites: limited to senior Theatre majors
Enrollment Limit: 10

THEA 416  (S) Senior Seminar: The Art of Minor Resistance: Advanced Readings in Race, Gender, Performance
Cross-listings: COMP 404  ARTH 416  THEA 416  WGSS 416

Secondary Cross-listing
This seminar will study stagings and aesthetic theories of dissent in feminist, queer, anti-colonial, and anti-racist performance. An attunement to performance and to the minor is also a turn toward minoritarian knowledges and lifeworlds. Of interest will be modes of sensing and relating that are not often legible as political—including aesthetics of opacity, quiet, disaffection, aloofness, and inscrutability—but could be understood as critiques of political recognition. Performance is a capacious rubric in this class that will include performance art, social media, photography, music videos, poetry, street protest, and everyday life. Students will learn to describe, interpret, and theorize performance through discussion, writing, and creative form.

Requirements/Evaluation: in-class discussion, partner presentation, weekly reading responses, final project
Prerequisites: WGSS 101
Enrollment Limit: 15

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 455  (S)  Advanced Practicum
This independently designed practicum offers an opportunity for students to gain practical, hands-on experience in theatre at an advanced level by receiving course credit for serving as an assistant to a faculty member on a Theatre Department production. Students interested in assisting a faculty member or guest artist on a production in any non-acting capacity--directing, design (costume, lighting, multimedia, scenic, sound), dramaturgy, or technical management--may enroll in the Advanced Practicum, pending the approval of a designated faculty advisor as well as the Department Chair. Working closely with the faculty advisor, the student will both serve as an assistant on the production and design a curriculum of readings and assignments intended to complement the experience of the assistantship. If funding allows, practitioners in the professional theatre will be invited as guest evaluators. Though the nature of each assistantship will vary according to the demands of each production, the experience of the assistantship will ideally simulate that which a student might undertake within the professional theatre.

Requirements/Evaluation: research, attendance at rehearsals, studio work, & final portfolio; research, attending weekly production meetings, rehearsals, studio work, and final portfolio, as well as other tasks determined by the faculty advisor

Prerequisites: THEA 101 or THEA 102, and THEA 201

Winter Study

THEA 18  (W) Honors Devised Performance Intensive
This Winter Study course will act as an incubator for one or more Theatre Department productions led by students seeking a degree with Honors in Theatre, which are being developed as "devised" works. "Devised performance" is an umbrella term for ensemble-based approaches to making art using research, improvisation, and in-progress showings in a holistic, creative process to produce new and innovative performance work. By looking beyond the traditional roles, structures, and specializations of mainstream theater, today’s most compelling devised theater artists have sought out
creative paradigms of shared responsibility, flattened hierarchies, and communication across disciplines. The ensemble or ensembles in question will be formed during the fall semester, begin their devising process during Winter Study and continue into the Spring Semester, with performances in the weeks following spring break. Students wishing to enroll in this Winter Study course may do so as members of the ensemble (which can involve work in acting, design, or technical and support roles) with permission of the instructor. Students may also participate in any of these various functions in the production, including acting, even if they do not choose to enroll in the Winter Study course. In addition to the normal activities associated with a devising process and the development of a new performance piece, students in the Winter Study course will participate in a work-in-progress showing, or produce a written paper or portfolio, in the last week of January documenting their work to date on the project.

Requirements/Evaluation: final project or presentation
Prerequisites: permission of instructor
Enrollment Limit: POI
Enrollment Preferences: permission of instructor
Grading: pass/fail only
Materials/Lab Fee: $15 and cost of books
Not offered current academic year

THEA 30 (W) Senior Production: Theatre
Theatre senior production.
Class Format: senior project
Grading: pass/fail only
Not offered current academic year

THEA 31 (W) Senior Thesis: Theatre
Theatre senior thesis.
Class Format: thesis
Grading: pass/fail only
Not offered current academic year

THEA 32 (W) Senior Honors Thesis: Theatre

Class Format: independent study
Grading: pass/fail only
Not offered current academic year

THEA 99 (W) Independent Study: Theatre
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
The Tutorial Program offers students a distinctive opportunity to take a heightened form of responsibility for their own intellectual development. No student is required to take a tutorial course, but any student with the appropriate qualifications and interests is invited to do so.

Tutorials place much greater weight than regular courses—or even small seminars—on student participation. They aim to teach students how to develop and present arguments; listen carefully, and then refine their positions in the context of a challenging discussion; and respond quickly and cogently to critiques of their work. Tutorials place particular emphasis on developing analytical skills, writing abilities, and the talents of engaging in rigorous conversation and oral debate.

Since the program's inception in 1988, students have ranked tutorials among the most demanding—and rewarding—courses they have taken at Williams. While not designed to be more difficult than other courses, tutorials are nonetheless challenging, with frequent writing assignments and the expectation that students will be well prepared to participate actively and effectively in weekly discussions. At the same time, students have consistently placed tutorials among the most enriching and consequential courses they have taken. They have appreciated the close attention to their writing and argumentation skills; the opportunity to be held accountable, in a detailed way, for the extended implications of their ideas; the chance to develop their oral abilities as they engage in debate; and the close intellectual bonds tutorials build between teachers and students, and students with each other. Many students have formed important advising and mentoring relationships with their tutorial teachers.

The ways in which particular tutorials are conducted vary across the disciplines, but here is a description of how most tutorials at Williams are organized:

Tutorials are usually limited to 10 students. At the start of term, the instructor divides the students into pairs. Each pair meets weekly with the instructor for roughly one hour. Many tutorial courses begin and end the term with a group seminar, and in some departments, instructors hold weekly group meetings of all tutorial members to provide background information designed to facilitate the students' independent work. But at the heart of every tutorial is the weekly meeting between the instructor and two students. At these weekly meetings, one student delivers a prepared essay or presentation (e.g., an analysis of a text or work of art, a discussion of a problem set, a report on laboratory exercises, etc.) pertaining to the assignment for that week, while the other student—and then the instructor—offer a critique. In the following week, students switch roles. Typically, students write five or six essays (usually in the range of 4-7 pages) during the term, and offer five or six critiques of their partners' work.

Registration

Students pre-register for tutorials as they would any other course. Because of limited enrollments and the special logistical arrangements involved in organizing tutorials, students may not drop a tutorial after 4:00 pm on the day before the first scheduled organizational meeting of the semester. It is important that students determine, before the start of the term, their interest in and commitment to the course, and consult with the instructor if necessary.

Tutorials may not be taken on a pass/fail basis.

AFR 205  (F)  She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings

Cross-listings:  AFR 205  WGSS 207

Primary Cross-listing

The practice of colorism, or skin color discrimination, is very familiar to people of color globally. Often described as intra-racial racism, colorism within the Black American context is part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far-reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much that we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison's writings. Employing the methods of literary and rhetorical criticism, this tutorial will investigate five Morrison novels, The Bluest Eye (1970), Sula (1973), Song of Solomon (1977), Love (2003) and God Help the Child (2015), and some of her non-fiction writings. In our discussions of each text, we will examine the problem of the "color complex" at the intersections of race, gender, sexuality, class and sexual violence, and how the characters manage these overlapping issues. We will bring the novels into conversation with social science articles on the practices of colorism in daily life. Because the tutorial blends different kinds of investigations into colorism, it will equip first year students with tools to critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color
discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic observation.

Class Format: Remote

Requirements/Evaluation: six 2-page papers, two 5- to 7-page papers, 10 minute vlog, annotated bibliography

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: this course is specifically for first-year students and they will receive preference in this class

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

TUT Section: RT1 TBA VaNatta S. Ford

AFR 207 (F) "Out of Africa": Cinematic Por(Be)trayals of a Continent (DPE) (WS)

Cross-listings: ARTH 207 AFR 207

Secondary Cross-listing

This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa’s ‘fighting men’ to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing "Africa" as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of "Africa" as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of "Africa" within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how "Africa" in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.

Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Art History majors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 207 (D1) AFR 207 (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of ‘authentic’ representation as they
have been applied to representations of "Africa" displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African 'identity' has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

Fall 2020

**AFR 217 (F) Women and Girls in (Inter)National Politics** (DPE)

**Cross-listings:** INTR 219  PSCI 219  AFR 217  WGSS 219  LEAD 219

**Secondary Cross-listing**
This tutorial focuses on the writings and autobiographies of women who have shaped national politics through social justice movements in the 20th-21st centuries. Women and girls studied include: Fannie Lou Hamer, Shirley Chisholm, Safiya Bukhari, Erica Garner, Greta Thunberg, Malala Yousafzai, Marielle Franco, Winnie Mandela.

**Requirements/Evaluation:** Weekly 5-page primary analytical papers and 2-page response papers.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Juniors and seniors, sophomores.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
INTR 219 (D2) PSCI 219 (D2) AFR 217 (D2) WGSS 219 (D2) LEAD 219 (D2)

**Difference, Power, and Equity Notes:** This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2020
TUT Section: RT1  TBA  Joy A. James

**AFR 224 (S) Cold War Intellectuals: Civil Rights, Writers and the CIA** (DPE)

**Cross-listings:** AFR 224  PSCI 221  AMST 201  LEAD 220  INTR 220

**Secondary Cross-listing**
This tutorial focuses on US-based views of the Cold War. It examines how intelligence agencies and intellectuals, as well as government officials, viewed civil rights, human rights, and US hegemony. Readings include: Williams J. Maxwell (F. B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature); James Baldwin (The Fire Next Time); Ralph Ellison (The Collected Essays of Ralph Ellison); Report to the President by the Commission on CIA Activities Within the United States (1975, VP Nelson Rockefeller, chair); Hugh Wilford (The Mighty Wurlitzer: How the CIA Played America); Hannah Arendt (The Origins of Totalitarianism; On Violence; "Reflections on Little Rock"); Frances Stonor Saunders (Who Paid the Piper? The CIA and the Cultural Cold War). Students alternate weekly between 5-page primary and 2-page secondary papers on assigned readings.

**Requirements/Evaluation:** Attend all classes; submit completed papers 24 hours before seminar meets.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Juniors and Seniors.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 224 (D2) PSCI 221 (D2) AMST 201 (D2) LEAD 220 (D2) INTR 220 (D2)

**Difference, Power, and Equity Notes:** This tutorial examines the Cold War between the US and the USSR and attempts to use intellectuals to shape and promote the objectives of powerful state entities. The power struggle between the two "superpowers" impacted cultural production and authors. Some of those authors influenced or enlisted into the Cold War sought equity and equality for their communities and eventually fought against the very political powers that employed them.

TUT Section: RT1 TBA Joy A. James

**AMST 275 (F) American Drama: Hidden Knowledge**

**Cross-listings:** THEA 275 AMST 275 ENGL 224

**Secondary Cross-listing**

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What's the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (*The Adventures of Pinocchio*, Machiavelli’s *The Prince*, Thomas Carlson’s *Lying and Deception: Theory and Practice*, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O’Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what can we learn in particular from American drama about a national relationship to honesty and its opposites. For Fall 2020, the tutorial will be conducted primarily online. Depending on enrollments, we may divide into groups with three students, instead of the traditional two-student tutorial format.

**Requirements/Evaluation:** weekly papers/response papers; weekly meeting with instructor and tutorial partner

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre and English majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020
TUT Section: RT1 TBA Robert E. Baker-White

**AMST 488 (F) Fictions of African American History** (DPE) (WS)

**Cross-listings:** HIST 488 AMST 488

**Secondary Cross-listing**

This course examines African American fiction, largely from the late 19th and very early 20th century. These Black authors, none of them professional historians, try to bring African American History to light in an era before this history was taken seriously by the white academy. Many of the authors we examine were activists and journalists who set their novels and short stories during Slavery and Emancipation. We will consider inherently radical act of reading and writing in a society where black literacy was illegal until after the Civil War. Alongside the fiction we will read modern historiography of the era. We will also delve into some of slave narratives published after Emancipation. Readings will include works by Booker T. Washington, James Weldon Johnson, Charles Chesnutt, Paul Laurence Dunbar, and Sutton Griggs. This is a tutorial and will be taught online.
Requirements/Evaluation: Every week a student will write either an essay or a critique. For the final assignment students may either write a review of 2-3 works of historiography OR substantially revise an essay or critique they did during the semester.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History, Africana, and American Studies Majors will have preference. As well as students who have never taken a tutorial.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 488 (D2) AMST 488 (D2)

Writing Skills Notes: Students will write every week (essays and critiques) and receive feedback from their partners and from the professors. The final assignment of the semester is major revision of a one essay or critique. Students will receive feedback on their paper's organization and argument as well as points of style. Since we will be reading both fiction and historiography, we will discuss as a group the different challenges each form poses to essay writing.

Difference, Power, and Equity Notes: African Americans writing during this time lived under the laws and customs of Jim Crow and White Supremacy. Lacking political power, they turned to the power of the written word. We will evaluate the way writing and fiction helped ameliorate (or not) the racial power structures.

Fall 2020

TUT Section: RT1 TBA Gretchen Long

AMST 490 (F) The Suburbs

Cross-listings: AMST 490 ENVI 491 HIST 491

Secondary Cross-listing

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America’s conservative political turn, leading to the election of Ronald Reagan?

Class Format: Remote for fall 2020. As in a regular semester, I’ll work with enrolled students to set up a schedule for our tutorial meetings, which will occur online. At a couple junctures during the semester, we will also try to meet online as a whole class, as well as have a few small group discussions.

Requirements/Evaluation: typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: History majors and students with previous coursework in History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 138  (F) Spectacular Sex (DPE) (WS)

Cross-listings: WGSS 138  ANTH 138

Secondary Cross-listing

From Beyoncé’s Coachella performance to Donald Trump's social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation: weekly response papers; students will also select past papers to develop and rewrite as more formal essays

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students; a statement of interest will be solicited from pre-registrants

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 138 (D2) ANTH 138 (D2)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting.

Difference, Power, and Equity Notes: This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

ANTH 243  (S) Reimagining Rivers

Cross-listings: ENVI 243  ANTH 243

Secondary Cross-listing

Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including climate change, pollution, unsustainable agriculture, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Class Format: This class will be taught in a modified tutorial format, with five groups of three students, each of which will meet for one 75-minute session per week. Sessions will be held in-person and remotely.
Requirements/Evaluation: Each week, each student will either write a 4-5-page essay on assigned readings or write a 2-page critique of a partner’s paper.

Prerequisites: Environmental Studies 101

Enrollment Limit: 15

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ENV 243 (D2) ANTH 243 (D2)

Spring 2021

TUT Section: HT1 TBA Nicolas C. Howe

ANTH 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Primary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutschow@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester ‘writing chat’ with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020

TUT Section: HT1 TBA Kim Gutschow
ARAB 109 (S)  The Iranian Revolution (DPE) (WS)
Cross-listings:  ARAB 109  HIST 109

Secondary Cross-listing

The Iranian Revolution was a major turning point in world history that resulted in the establishment of the Islamic Republic of Iran. This tutorial will evaluate the causes and impact of the revolution and how this seminal event continues to have widespread repercussions around the globe. The first weeks will explore the history of pre-revolutionary Iran with special attention to religious and intellectual trends such as the ideas of Ayatollah Ruhollah Khomeini, Jalal al-e Ahmad, and Ali Shariati. We will then evaluate the revolution itself including the US hostage crisis, the downfall of the Shah Muhammad Reza Pahlavi Shah, and how Khomeini’s vision of society became paramount. Finally, we will explore the aftermath of the revolution including Iran’s geopolitics, the nature of the theocratic system in Iran as well as how the revolution impacted every day lives of Iranians in Iran and abroad particularly how they reflect on the revolution in memoirs, films, and literature.

Class Format: Hybrid

Requirements/Evaluation:  Weekly meetings. Weekly papers - either a 5 page primary paper or a 2-3 page response paper.

Prerequisites:  No prerequisites.

Enrollment Limit:  10

Enrollment Preferences:  First Years and Sophomores.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 109 (D2)  HIST 109 (D2)

Writing Skills Notes:  As a tutorial, students are expected to regularly write analytical and critical papers on the readings. They will receive regular and consistent feedback from the instructor and their partner and will be given the opportunity to re-write some of their assignments.

Difference, Power, and Equity Notes:  The Iranian Revolution, like other major social movements, offered a compelling critique of the status quo and promised a more just society that would be more equitable for all Iranians. The tutorial will consider the relationship between the rhetoric of the Revolution and the lived reality, especially how this seminal event impacted the lives ordinary Iranians. Was the Revolution simply a change in the composition of the political elite or did it yield new realities and more access for Iranians

Spring 2021

TUT Section: HT1    TBA    Magnús T. Bernhardsson

ARAB 408  (F)  Appropriating History. Who Owns the Past? (DPE) (WS)
Cross-listings:  HIST 489  ARAB 408

Secondary Cross-listing

Who owns the past? How have modern states appropriated history? The political use of history is a critical ingredient in any nationalist discourse. In such narratives, the selective utilization of archaeology and ancient history often serves important functions in articulating a conscious and deliberate national history. Thus, in nationalist renderings, archaeological sites and artifacts are not merely relics of the past; they can also be potent and conspicuous symbols of national identity for the modern nation-state. In the Middle East, with its rich archaeological heritage, the relationship among politics, nationalism, and archeology has been particularly strong and interesting. This tutorial addresses the powerful nexus between history and nationalism with a special emphasis on the Middle East. It will explore the battle over who controls history and the "stuff" of history such as antiquities, land, heritage sites, and museum exhibitions and how that control has expressed itself in several Middle Eastern countries, including Iraq, Israel, Turkey, Egypt, Lebanon, and Iran. Furthermore, it will discuss how archaeology entered the political discourse, the ethics of repatriation and appropriation, and archaeology's role in contested terrains and political disputes.

Class Format:  This tutorial can be taken entirely Remote. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

Requirements/Evaluation:  Format: tutorial. Requirements: 5-7 page essays or 2-3 response papers due each week

Prerequisites:  None, though a demonstrated interest in the Middle East is important.
Enrollment Limit: 10
Enrollment Preferences: Seniors and to History and Arabic Studies majors.
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 489 (D2) ARAB 408 (D2)

Writing Skills Notes: As a tutorial, students will receive extensive feedback on their writing each week both from the professor and their partner. Further, students will be given the opportunity to rewrite two of their papers in light of the criticism that they receive during the semester.

Difference, Power, and Equity Notes: This is a tutorial on a particular form of power, namely how the powerful seek to control the past. The ultimate question that this tutorial seeks to answer is: who owns the past? Which history is emphasized and which histories are overlooked? How do modern nation states in different Middle Eastern states cherry-pick the past in order to maintain and develop a national narrative that is suitable to the political and economic powers often at the expense of religious or linguistic minorities.

Fall 2020
TUT Section: RT1 TBA Magnús T. Bernhardsson

ARTH 207 (F) "Out of Africa": Cinematic Por(Be)trayals of a Continent (DPE) (WS)

Cross-listings: ARTH 207 AFR 207

Primary Cross-listing

This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa’s "fighting men" to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing "Africa" as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of "Africa" as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of "Africa" within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how "Africa" in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.

Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)

Prerequisites: none

Enrollment Limit: 10
Enrollment Preferences: Art History majors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 207 (D1) AFR 207 (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.
Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of 'authentic' representation as they have been applied to representations of "Africa" displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African 'identity' has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

Fall 2020
TUT Section: RT1   TBA   Michelle M. Apotsos

ARTH 218  (S) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe  (WS)
Cross-listings: REL 284  WGSS 284  ARTH 218
Primary Cross-listing
This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans--a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries--each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.
Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: First years and sophomores, but open to all.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
REL 284 (D2)  WGSS 284 (D2)  ARTH 218 (D1)
Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021
TUT Section: RT1   TBA   Peter D. Low

ARTH 228  (S) Velázquez, Goya, and Picasso
Cross-listings: ARTH 228  RLSP 228
Secondary Cross-listing
This course will provide an introduction to three major Spanish painters—Velázquez, Goya, and Picasso—who lived and worked, respectively, in the 17th, 18th, 19th and 20th centuries. Though these painters are world famous, they are rarely studied comparatively, and in the context of their Spanish
artistic roots. The syllabus will cover the historical and social contexts in which they started working, and how they followed, and departed from, artistic conventions of the time. Through specific paintings, we will consider the historical evolution of the artists’ relationship to their patrons and subjects, from the elite status of Velázquez within the royal court, to Goya’s dramatic rise with the reigns of Charles III, and Charles IV, and his subsequent exile to France. Picasso was free of royal patronage and also lived in France, yet despite this freedom he remained deeply connected to the themes and concerns of his Spanish artistic predecessors. In addition to key paintings including Velázquez’s "Las Meninas" and other royal portraits, Goya’s "Maja Desnuda" and his series "The Disasters of War," Picasso’s "Guernica," and his own 20th century reinterpretation of "Las Meninas," we will focus on the artists’ shared subjects of portraits and war, and consider the following issues: How does the role of the Spanish artist change over the periods covered? How did the artist exercise his freedom whilst under the scrutiny of the court and the Catholic Church? How were these painters’ lives and work shaped by key historical events such as the Inquisition, Napoleon’s invasion of Spain, or the Spanish Civil War? How does the work of art evolve in its role from private royal commission to public display in museums open to all? We will read short literary pieces from each period, primary materials such as letters and other documents, and historical and critical works. All readings will be in English. Knowledge of Spanish is encouraged, but not required.

Requirements/Evaluation: 3- to 5-page weekly assignment

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 228 (D1) RLSP 228 (D1)

Spring 2021

TUT Section: HT1 TBA Soledad Fox

**ARTH 331 (S) Michelangelo: Self and Sexuality (WS)**

**Cross-listings:** ARTH 331 WGSS 335

**Primary Cross-listing**

Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice--from painting to poetry--wrestles with them in countless, fascinating ways. Students' writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashioning, artist and patron, past and present.

**Class Format:** Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

Requirements/Evaluation: Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation

Prerequisites: Any ARTH course

Enrollment Limit: 10

Enrollment Preferences: ARTH majors and WGSS concentrators (or sophomores intending to pursue the ARTH major or WGSS concentration)

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 115 (F) Sculpture: Poetry with Objects

Sculpture employs the body and has the power to communicate via the physical world in powerful ways. ARTS 115 will offer instruction in how form and meaning can be created through the use of objects. Similar to poetry, where a particular word carries a specific history, meaning, and power, objects also contain complex associations. Through the process of alteration, transformation, and manipulation, sculpture reveals the narrative power of form and materials. This course will provide a historical framework for how sculpture—particularly contemporary works—have expressed ideas, while also providing instruction on techniques and methods used to build, dismantle, rearrange, combine and create art with objects as the inspiration. The ultimate goal will be to develop your individual voice and imagination, become familiar with processes and techniques, and to become fluent in generating meaning that is important to you. We will be integrating the study of a variety of artists whose work utilizes objects in their sculpture such as the work of: Jean Shin, Marcel Broodthaers, Dario Robletto, Doris Salcedo, Robert Gober, among others. This class is designed to be hybrid, with a combination of in-person and remote components. Approximately two thirds of the term will consist of weekly meetings between myself and a pair of students, however, periodically throughout the term, we will meet with the entire class for PowerPoint presentations, demonstrations, visiting artist talks and group critiques.

Class Format: Hybrid model with a portion of the class taught in person and a portion taught remotely. The aim is to have 50 percent of the class in person and 50 percent taught remotely, however this will depend upon how the semester and COVID evolves.

Requirements/Evaluation: Art is a visual language, which speaks to us through our sense of sight and implied touch; you will be evaluated first and foremost on your ability to speak powerfully in this language. Grading also takes into account: effort, attitude, creativity, studio responsibility and participation. Attendance and punctuality is expected for both in-person and remote portions of the course. If you miss more than one unexcused class your grade will automatically drop a letter grade. All work must be completed by the final critique.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Declared and perspective art majors have preference.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: There will be a lab fee to cover a material cost for the class. TBA

Distributions: (D1)

Fall 2020

TUT Section: HT1 W 1:30 pm - 3:40 pm Amy D. Podmore

ARTS 307 (S) The Body Reorganized

This tutorial course asks students to abstract and re-contextualize the body as a topic of conversation in order to expand our discussions about identity. We will discuss the work of artists in which the body remains conceptually central; such as Nick Cave, Saya Woolfalk, Sarah Lucas, Annette Messager. Students will look to their own lived experiences and supporting communities, research historical precedence for contemporary perspectives on identity, and find, through written and collected research, additional cultural work centered within multi-layered and non-normative experiences. Students will react to readings, Christian Enzensberger’s “Smut: An Anatomy of Dirt”, Mary Douglas’ “Purity and Danger”, etc. Students will design their own methods of making with foundational introductions to flexible plane paired with movement-based workshops including stop motion animation shot with cell phones. Students will construct a structural and/or wearable work that references the body, it's topographies, and potential for performance/pose. Research will culminate in an online exhibition documenting student projects through photographic stills and video.

Requirements/Evaluation: Students will construct a structural and/or wearable work that references the body, it's topographies, and potential for performance/pose. Research will culminate in an online exhibition documenting student projects through photographic stills and video.

Prerequisites: none

Enrollment Limit: 10
Enrollment Preferences: Open to all media but constructed around the theme of the body reorganized.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $100.00 lab fee

Distributions: (D1)

Spring 2021

TUT Section: HT1 W 1:30 pm - 2:45 pm Stephanie J Williams

ARTS 315 (F) Humor

In this tutorial, students will explore how humor has been used by artists to communicate ideas powerfully, while working to develop their own voice, ideas, and strengths, visually. Students will explore the nuances of humor as a way to effectively communicate ideas through a visual format. Humor will be used as a way to unpack themes around intimacy and estrangement, history and memory, activism and protest, storytelling, play and silliness. Students will explore how one's vulnerability in their work can become empowering. Being funny is not a prerequisite, nor the goal for this course, though it is absolutely welcome! The class will require good communication and will start with establishing a safe and trusting group dynamic that can encourage experimentation and risk taking. Through assigned readings, screenings, and visits to the WCMA students will explore themes of humor in painting, drawing, sculpture, installation, design, film, comedy performance and literature. This course is interdisciplinary and open to all media. Assignments in this course will be conceptually driven with formal restrictions depending on the students chosen medium. Students are expected to have a working knowledge of their medium prior to taking this course.

Class Format: The class will meet twice a week with one meeting in-person and the second meeting remote. Depending on the class size we may break into smaller independent lab groups / discussion groups.

Requirements/Evaluation: Quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance

Prerequisites: A previous course in the medium in which you plan to work. Students are expected to have a working knowledge of their medium prior to taking this course.

Enrollment Limit: 10

Enrollment Preferences: art majors or permission of instructor

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: Students will be responsible for purchasing their own materials.

Distributions: (D1)

ASST 127 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127 CHIN 427 ASST 127

Secondary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of
the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls’ right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong’s proclamation “women can hold up half of the sky” add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students’ first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of “inequality,” including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Spring 2021

TUT Section: RT1 TBA Li Yu

ASST 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Secondary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditation practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.
Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020

TUT Section: HT1  TBA  Kim Gutschow

ASST 412  (F)  Gandhi: History, Ideas and Legacy  (WS)

Cross-listings: REL 412  LEAD 412  GBST 412  ASST 412  HIST 496

Secondary Cross-listing

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)
Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner’s paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

Fall 2020

TUT Section: RT1   TBA   Aparna Kapadia

ASTR 402  (S) Between the Stars: The Interstellar Medium   (QFR)

The matter between the stars—the interstellar medium—tells the story of the past and future evolution of galaxies and the stars within them. Stars are accompanied by diffuse matter all through their lifetimes, from their birthplaces in dense molecular clouds, to the stellar winds they eject as they evolve, to their final fates as they shed their outer layers, whether as planetary nebulae or dazzling supernovae. As these processes go on, they enrich the interstellar medium with the products of the stars’ nuclear fusion. Interpreting the emission from this interstellar gas is one of astronomers’ most powerful tools to measure the physical conditions, motions, and composition of our own galaxy and others. In this course we will study the interstellar medium in its various forms, from cold, dense, star-forming molecular clouds to X-ray-emitting bubbles formed by supernovae. We will learn about the physical mechanisms that produce the radiation we observe, including radiative ionization and recombination, collisional excitation of “forbidden” lines, collisional ionization, and synchrotron radiation. Applying our understanding of these processes, we will analyze the physical conditions and chemical compositions of a variety of nebulae. Finally, we will discuss the evolution of interstellar material in galaxies across cosmic time. This course is observing-intensive. Throughout the semester students will work in small groups to design, carry out, analyze, and critique their own observations of the interstellar medium using remote observations and archival data.

Class Format: Tutorial meetings will be scheduled with the professor. Meetings may be held in-person, subject to classroom availability, or remotely. Students will also complete observing projects by controlling telescopes remotely and analyzing observations in astronomical databases.

Requirements/Evaluation: weekly problem sets, 10-page final paper, and observing projects

Prerequisites: ASTR 111 and PHYS 201 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: juniors and seniors

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Distributions: (D3)   (QFR)

Quantitative/Formal Reasoning Notes: In this course, students will derive quantitative physical formulas, use these equations to calculate and compare physical properties, and generate and analyze graphical representations of data. They will also make and analyze measurements of astronomical data through observing projects.

Spring 2021

TUT Section: HT1   TBA   Anne Jaskot

BIMO 401  (S) Topics in Biochemistry and Molecular Biology   (WS)

This tutorial course involves critical reading, analysis, and discussion of papers from the current biochemistry and molecular biology literature. Specific topics vary from year to year but are chosen to illustrate the importance of a wide range of both biological and chemical approaches to addressing important questions in the biochemical and molecular biological fields. To facilitate discussion, students will prepare written critiques analyzing the data and conclusions of the chosen literature.

Class Format: two hours per week

Requirements/Evaluation: biweekly papers, tutorial presentation and discussion, and a final paper

Prerequisites: BIOL 202 and BIMO 321

Enrollment Limit: 12

Enrollment Preferences: those completing the BIMO program; open to others with permission of instructor

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

Writing Skills Notes: The critical analysis of published papers in the biochem literature, as expressed in clear and succinct writing, is a key learning goal for the course. The students write biweekly literature critiques (typically 5-6 pages long) throughout the semester. While the specific topic each week differs, the parameters of the assignment are the same each time, allowing students to progressively improve their writing. I provide extensive written feedback on each critique, returned before the next due date.

Spring 2021
TUT Section: HT1   TBA   Amy Gehring

BIOL 219  (F) Dangerous Exposures: Environment, Immunity, and Infectious Disease  (WS)
Global reports of emerging infectious diseases and old diseases with new pathogenic properties incite fears for personal safety as well as national security. The specter of a contagious pandemic has captured the public imagination through the mass news media, movies, and even popular online and board games. In this tutorial course, we will explore the ecology and evolution of several recently emergent diseases such as Ebola hemorrhagic fever, dengue, and AIDS. Topics to be considered include transmission dynamics, epidemiological modeling of vaccination strategies, and wildlife reservoirs that contribute to human virus exposure. We will examine progress in preventing the parasitic disease malaria and why such diseases have proven so refractory. We will also discuss the science behind the recent development of the vaccine against the human papillomavirus, which causes cervical cancer, and the intriguing and highly unusual transmissible cancers in dogs and Tasmanian devils. Finally, we will think about the contributions of inadequate diagnostic capacities world-wide and broader issues of resource shortages in driving the global emergence of drug resistance in tuberculosis and other diseases. One common theme in each of these case studies will be the interplay between the host immune response and the evolution of the pathogen. Although the primary focus of the course is on biology rather than policy, each week’s readings will have implications for public health and/or conservation biology.

Requirements/Evaluation: six 4- to 5-page papers; tutorial presentations, and the student's progress towards intellectual independence and creativity as a presenter and a respondent
Prerequisites: BIOL 101 and 102
Enrollment Limit: 10
Enrollment Preferences: sophomores who have taken BIOL 202, students interested in public health
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

Writing Skills Notes: We work deliberately throughout the semester on writing skills including construction of a written argument and logical flow as well as mechanics. Students write six 4-5-page papers, alternating weekly between papers and written critiques of their partner's writing. Based on substantive feedback from the instructor as well as their partner, students revise and resubmit two of their six papers.

Fall 2020
TUT Section: HT1   TBA   Lois M. Banta

BIOL 411  (F) Developmental Biology: From Patterning to Pathogenesis
A small number of developmental regulators coordinate the interplay between cell proliferation and specification of cell fates during animal development. The genetic basis of many of the cancer and degenerative diseases are, in fact, due to these same developmental regulators whose expression is misregulated in the adult. Through the reading of primary literature, this course in developmental biology will examine the mechanisms of gene expression of key regulators, the biological processes they mediate in the embryo, and how they become misregulated in proliferative and degenerative diseases.

Requirements/Evaluation: bi-weekly tutorial papers, oral commentaries, and tutorial discussion
Prerequisites: BIOL 202
Enrollment Limit: 14
Enrollment Preferences: Senior Biology majors who have not taken a 400-level course followed by seniors then juniors in the major
CHEM 338 (S) Bioinorganic Chemistry: Metals in Living Systems

Bioinorganic chemistry is an interdisciplinary field that examines the role of metals in living systems. Metals are key components of a wide range of processes, including oxygen transport and activation, catalytic reactions such as photosynthesis and nitrogen-fixation, and electron-transfer processes. Metals furthermore perform regulatory roles and stabilize the structures of proteins. In medical applications, they are central to many diagnostic and therapeutic tools, and some metals are highly toxic. The course begins with a review and survey of the principles of coordination chemistry: topics such as structure and bonding, spectroscopic methods, electrochemistry, kinetics and reaction mechanisms. Building on this fundamental understanding of the nature of metals, we will explore the current literature in fields of interest in small groups, presenting our findings to the class periodically.

Class Format: The course will begin with a series of lectures on principles of coordination chemistry, followed by tutorial meetings to discuss journal articles and book materials. This course will be offered in person, with a mix of synchronous and taped lectures and synchronous discussion meetings. Efforts will be made to arrange meetings to accommodate schedules for remote students as much as possible.

Requirements/Evaluation: Evaluation based on problem sets, two exams, class engagement, a class presentation, and a final project.

Prerequisites: CHEM 155 or CHEM 256 and 251/255

Enrollment Limit: 10

Enrollment Preferences: Chemistry majors and BIMO concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)

TUT Section: HT1 TR 9:45 am - 11:00 am Christopher Goh

CHIN 427 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127 CHIN 427 ASST 127

Primary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls’ right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation “women can hold up half of the sky” add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is
conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

COGS 493 (F) Advanced Topics in Mind and Cognition
In the last decade the science of the mind has continued to draw on its 20th century history as well as expand its methodological repertoire. In this tutorial we will investigate current trends in mind and cognition by considering research in cognitive neuroscience, embodied cognition, dynamic systems theory, and empirical approaches to consciousness. Throughout, we will attend both to the specific empirical details as well as the conceptual foundations of this work. We will discuss how it elaborates, expands, and sharpens early views of the domain and methodology of philosophy of mind and cognitive science.

Class Format: This tutorial will be offered remotely at a time agreed upon by the students and instructor.

Requirements/Evaluation: Substantial essay (5-7 pages) every two weeks on assigned material and commentary on tutorial partner's work. Essays will be due in advance and presented orally in tutorial.

Prerequisites: Senior Cognitive Science concentrator

Enrollment Limit: 4

Enrollment Preferences: Open only to Senior Cognitive Science concentrators

Expected Class Size: 2

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Fall 2020

**COMP 109 (F) Spies Like Us: Espionage, Surveillance, and Protest in German Cinema and Literature (WS)**

**Cross-listings:** GERM 110  COMP 109

**Secondary Cross-listing**

This First Year tutorial, available in English, investigates the mutual mistrust between the two Germanies in the Cold War period up until the peaceful popular protests that brought down the Berlin Wall. The political tensions between communist East Germany, the German Democratic Republic (GDR) and its capitalist Western counterpart, the Federal Republic (FRG), created a fascinating culture of governmental spying, but also led to aggravated periods of state surveillance of its own citizens. How were families affected across generations by these divisive politics, including the two states’ differing treatment of the Nazi legacy? What was the involvement of the KGB and the CIA? How did East German intelligence try to destabilize the West from inside? Which locations in Berlin served as centers for spying, given that the city’s terrain is quite flat and exposed? High-profile cases of conflicting loyalties include the Guillaume spy affair that brought down Willy Brandt as Chancellor of the FRG in 1974, and the Brasch family in the GDR, where the father, a communist true believer, turned his three sons over to the Stasi for their dissident activism and engaged art. We will debate filmic treatments of the recruitment of spies as double agents (*Coded Message for the Boss*, 1979), the chilling effects of police surveillance during the Baader-Meinhof radical left terrorist attacks (*The Lost Honor of Katharina Blum*, 1974; *Knife in the Head*, 1978) the afterlives of former terrorists who were offered new identities as ‘ordinary’ East Germans (*The legend of Rita*, 2000), to the effects of the Stasi files becoming accessible to their victims after the fall of the wall (*Es ist nicht vorbei, Anderson*). We will also discuss popular film representations of spying in *Lives of Others* (2007) and *Bridge of Spies* (2015), and selected episodes from the popular TV-series *Germany 83 and 86* (2018). Literature will likely include: Thomas Brasch, *The Sons Die Before the Fathers* (1977), Christa Wolf, *What Remains* (1993), Monika Maron, *Flight of Ashes* (1981), Heinrich Böll, *The Lost Honour of Katharina Blum* (1974). All texts in English, films have English subtitles.

**Class Format:** Students in this course will be separated into small tutorial groups of 3 students, in order to promote intensive exchange of ideas. In a typical week, the students in each group will: (1) study a substantial "text" or film; (2) watch mini-lectures or power points by the instructor to supplement the assigned primary texts.

**Requirements/Evaluation:** 5 5-page tutorial papers and 2-page responses (in English)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** First Years, in groups of 3 students.

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 110 (D1) COMP 109 (D1)

**Writing Skills Notes:** This tutorial will teach students to analyze visual media and fiction in German Studies in combination with secondary sources from a variety of related disciplines (History, Political Science, journalism). The toggling between these different types of sources promotes critical thinking skills.

---

** COMP 215 (S) Cults of Personality (WS)**

**Cross-listings:** COMP 215  RUSS 219

**Secondary Cross-listing**

First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase “cult of personality” was formulated to discredit the hero-worship that accompanied Joseph Stalin’s iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China’s Mao Zedong, Iran’s Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. *All readings will be in English,*
and all films will have English subtitles.

Class Format: remote

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 215 (D1) RUSS 219 (D1)

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

Spring 2021
TUT Section: RT1 TBA Julie A. Cassiday

CSCI 374 (F)(S) Machine Learning (QFR)

This tutorial examines the design, implementation, and analysis of machine learning algorithms. Machine Learning is a field that derives from Artificial Intelligence, Statistics, and others, and aims to develop algorithms that will improve a system's performance. Improvement might involve acquiring new factual knowledge from data, learning to perform a new task, or learning to perform an old task more efficiently or effectively. This tutorial will cover examples of supervised learning algorithms (including Bayesian approaches, support vector machines, and neural networks -- both deep and traditional), unsupervised learning algorithms (including k-means and expectation maximization), and possibly reinforcement learning algorithms (such as Q learning and temporal difference learning). It will also introduce methods for the evaluation of learning algorithms, as well as topics in computational learning theory and ethics.

Class Format: Though this course will be offered remotely by the instructor, pairs of students on campus may choose to meet in person for their tutorial sessions. If so, a classroom will be scheduled for them by the instructor.

Requirements/Evaluation: presentations, problem sets, programming exercises, empirical analyses of algorithms, critical analysis of current literature; the final two weeks are focused on a project of the student's design.

Prerequisites: CSCI 136 and CSCI 256 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Computer Science majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course heavily relies on discrete mathematics, calculus, and elementary statistics. Students will be proving theorems, among many other mathematically oriented assignments. Additionally, they will be programming, which involves analytical and logical thinking.

Spring 2021
TUT Section: HT1 TBA Andrea Danyluk

ECON 214 (S) The Economics and Ethics of CO2 Offsets (WS)
Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

Class Format: This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

Requirements/Evaluation: a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

Prerequisites: ECON 110 or the equivalent, permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

POEC 214 (D2) ENVI 212 (D2) ECON 214 (D2)

Writing Skills Notes: Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner's papers. As the final assignment, each student will revise one of their five papers.

Spring 2021

TUT Section: RT1 TBA Ralph M. Bradburd

ECON 374 (F) Poverty and Public Policy (WS)

Since 1965, the annual poverty rate in the United States has hovered between 10% and 15%, though far more than 15% of Americans experience poverty at some point in their lives. In this course, we will study public policies that, explicitly or implicitly, have as a goal improving the well-being of the poor in this country. These policies include social insurance programs such as Unemployment Insurance; safety net programs such as Temporary Assistance to Needy Families, Supplemental Nutrition Assistance Program, Medicaid, and housing assistance; education programs such as Head Start and public education; and parts of the tax code including the Earned Income Tax Credit and Child Tax Credit. We will explore the design and functioning of these programs, focusing on questions economists typically ask when evaluating public policy such as: What are the goals of the policy and does the policy achieve them? Does the design of the policy lead to unintended effects (either good or bad)? What are the trade-offs inherent in the policy's design? Could the policy be redesigned to achieve its goals more effectively? Through in-depth study of these programs, students will learn how economists bring theoretical models and empirical evidence to bear on important questions of public policy.

Requirements/Evaluation: evaluation will be based on six 5- to 7-page papers and on the quality of the student's oral presentations and commentary on the work of their colleagues

Prerequisites: POEC 253 or ECON 255 or STAT 346 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Economics majors, Political Economy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Each student will write five 5- to 7-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 2- to 3-page critiques of their partners' papers. Midway through the semester, each student will revise one of
Over the past three decades, developing countries have increasingly expanded social protection systems to tackle poverty and vulnerability while promoting inclusive social development and equitable economic growth. These systems provide pro-poor policy instruments that can balance trade and labor market reforms, fiscal adjustments (such as reduced general subsidies) and other economic policies aimed at enabling better market performance. In addition, social protection systems help vulnerable people to cope with shocks to their livelihoods, promoting resilience, human capital development and sometimes high-return risk-taking. In times of crisis, these systems are more important than ever. From March to June 2020, the World Bank identified 195 countries that have adapted and expanded their social protection systems to respond to the COVID-19 pandemic. This tutorial offers the opportunity to explore how shock-responsive social protection systems can better enable developing countries to respond to global and local shocks in a manner that minimizes the medium- to long-term costs of the resulting crises. The tutorial examines how developing countries build social protection systems to tackle poverty, vulnerability and social exclusion that result from global and local shocks. Topics include how the design and implementation of effective interventions both respond to crises and strengthen long-term developmental outcomes. The tutorial focuses on country responses to the COVID-19 pandemic as both a relevant case study and an example of the kinds of global crises to which national social protection systems must be able to respond in the future.

Requirements/Evaluation: Students will write five papers during the term, and will prepare and deliver formal comments on five papers written by other students

Prerequisites: ECON 251 or ECON 252

Enrollment Limit: 10

Enrollment Preferences: Junior and senior Economics majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 532 (D2) ECON 375 (D2)
**Prerequisites:** Economics 251 (Price and Allocation Theory), Statistics 161 or Economics 255 (Econometrics) or POEC 253 (Empirical Methods in Political Economy) or instructor permission.

**Enrollment Limit:** 10

**Enrollment Preferences:** Economics and Political Economy majors, Juniors and Seniors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** Gentrification has been identified in the survey of DPE suggestions as a worthwhile and important topic for a course satisfying the DPE requirement. Gentrification, with its consequent displacement of low-income and frequently minority households in cities is widely viewed as a problem and there have been increasing demands for local policies to limit the rate or extent of gentrification. We will address the causes, measurement of gentrification and extent to which it burdens poor households.

Spring 2021

TUT Section: RT1 TBA Stephen C. Sheppard

**ECON 458 (S) Economics of Risk**

Risk and uncertainty are pervasive features of economic decisions and outcomes. Individuals face risk about health status and future job prospects. For a firm, developing new products is risky; furthermore, once a product has been developed, the firm faces product liability risk if it turns out to be unsafe. Investment decisions--from managing a portfolio to starting a business--are also fraught with uncertainty. Some risks are environmental--both manmade problems and natural disasters; other risks include the possibility of terrorist attack and, more locally, issues of campus safety. This tutorial explores both the private market responses to risk (e.g., financial markets, insurance markets, private contracting, and precautionary investments and saving) and government policies towards risk (e.g., regulation, taxation, and the legal system). From a theoretical standpoint, the course will build on expected utility theory, diversification, options valuation, principal-agent models, contract theory, and cost-benefit analysis. We will apply these tools to a wide variety of economic issues such as the ones listed above. One goal of the course is to discover common themes across the disparate topics. Students will be expected to read and synthesize a variety of approaches to risk and uncertainty and apply them to various issues.

**Class Format:** tutorial; students will meet with the instructor in pairs in each week

**Requirements/Evaluation:** For the first ten weeks, each student will write a 5 - 7 page paper every other week, and comment (of 2 - 3 pages) on their partner's work in the other weeks; the final two weeks will be reserved for papers on a topic of each student's interest (again, 5 - 7 pages but without needing to write a comment on their partner's work); one of the papers during the term will be revised to reflect feedback from the instructor and the student's partner

**Prerequisites:** ECON 251, 252, and 255

**Enrollment Limit:** 10

**Enrollment Preferences:** senior Economics majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

ENGL 224  (F)  American Drama: Hidden Knowledge
Cross-listings: THEA 275  AMST 275  ENGL 224

Secondary Cross-listing
The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What's the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli's The Prince, Thomas Carlson's Lying and Deception: Theory and Practice, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O'Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what can we learn in particular from American drama about a national relationship to honesty and its opposites. For Fall 2020, the tutorial will be conducted primarily online. Depending on enrollments, we may divide into groups with three students, instead of the traditional two-student tutorial format.

Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Theatre and English majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
THEA 275 (D1) AMST 275 (D2) ENGL 224 (D1)

Fall 2020
ENGL 227  (F)  Elegies  (WS)

This tutorial explores elegies as a literary genre. In their most familiar form, elegies honor and memorialize the dead. More broadly conceived, the genre includes works lamenting other kinds of loss as well: the loss of a lover, place, country, or cherished version of one’s past. We’ll consider the special challenges and opportunities of the elegiac voice: how it manages to give public expression to private grief; negotiates problems of tone and perspective; worries about and celebrates the capacity of language to generate hope and consolation; and seeks a kind of solace in the literary effort to evoke, preserve, or rewrite a lost life or an absent past. This course focuses primarily on poetry, English and American, across a broad historical range. We’ll first read poems from 1600-1900—including works by Jonson, Milton, Donne, Dryden, Gray, Shelley, Tennyson, and Whitman, and then turn to some of the twentieth-century’s great poetic elegists—Owen, Yeats, Auden, Lowell, and Heaney. Finally, we’ll consider how the elegiac voice works in fiction, especially in stories by Joyce (“The Dead”) and Nabokov (“Spring in Fialta”).

Class Format: This course will meet remotely. Tutorial pairs will meet for an hour each week with the instructor, using Zoom or Google Meet.

Requirements/Evaluation: Active participation in tutorial meetings. Students will write a 4- to 5-page paper every other week (five in all), and comment on their partners’ papers in alternate weeks

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 10

Enrollment Preferences: Sophomores, but juniors and seniors are also welcome.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: All tutorials (at least in English) are by definition Writing Skills courses. Students will write either the main paper or a response critique in alternate weeks. Students will also have the opportunity to revise.

Fall 2020

TUT Section: RT1   TBA   Stephen Fix

ENGL 234  (F)  The Video Essay

While people today are subject to an unprecedented flood of moving images, few have had the chance to think critically about film and video. Fewer still have had the opportunity to think with the medium, exploiting the resources of film and video in their efforts to understand how these media work on viewers. The Video Essay offers a chance to do that. After being introduced to the fundamentals of film analysis and receiving training in the use of Adobe Premiere Pro, students will spend the term alternately making short video essays and commenting on the essays produced by their partners. Note that this is primarily a course in film analysis: students will not shoot original material. No prior experience is required. Note that the course meets entirely online.

Class Format: We will meet together for three weeks, then break into groups of four. Students in each group will alternate weekly between creating video essays on film topics, and writing commentaries on the essays of their partner. All meetings will be online.

Requirements/Evaluation: four written exercises (1-2 pages); four video essays, increasing from two to six minutes; and four written commentaries on one’s partner's video essays.

Prerequisites: permission of the instructor

Enrollment Limit: 12

Enrollment Preferences: sophomores; first-year students; English majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

TUT Section: RT1 TBA Omar A. Sangare

ENGL 253 (S) Feminist Theatres: A Global Perspective (DPE) (WS)

Cross-listings: ENGL 253 WGSS 250 THEA 250

Secondary Cross-listing

What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, reluctant? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaboratives from across the globe, from the late-twentieth century to today. Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Arethusa Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

Class Format: For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner’s papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact
ENGL 323 (S) A Novel Education (WS)

All novels are conscious of their readers; eighteenth-century novels are obsessed with them. In the century when the genre first flourished, readers are the ultimate objects of novelists' plots. We are addressed, teased, pleaded with, embarrassed, flattered, made fun of, praised, chided, solicited, warned, reminded, rebuked, asked for sympathy, and--always--closely watched. Eighteenth-century novelists--and their narrators--aggressively educate their readers, not only teaching us how to interpret the novel itself, but also demanding that we self-consciously question the powers of mind and habits of heart we bring to the process of interpreting a book, ourselves, and our world. In this tutorial course, we will explore the narrative and rhetorical strategies two of the century's greatest novelists use in creating, shaping, and finally educating their readers. We will focus principally on Henry Fielding's *Tom Jones* (1749) and Laurence Sterne's *Tristram Shandy* (1760-67)--long, brilliantly intricate novels that go about their work in very different ways, but that are equally committed to the project of giving their readers a novel education. We will consider--much more briefly--Fielding's *Joseph Andrews* and Bunyan's *Pilgrim's Progress*. We will also read criticism by such "reader response" theorists as Stanley Fish and Wolfgang Iser, and--in the individualized setting of a tutorial--students will be asked to develop and articulate their own theories of reading by examining critically the ways in which texts affect and educate them. Emphasis will be placed on developing skills not only in reading and interpretation, but also in constructing critical arguments and responding to them in written and oral critiques.

**Class Format:** Remote course. Students will meet with the instructor in pairs for one hour each week.

**Requirements/Evaluation:** Students will write and present a 4-to 5-page paper every other week, and comment on their partners' papers in alternate weeks.

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

**Enrollment Limit:** 10

**Enrollment Preferences:** English majors, not open to first-year students.

Spring 2021

TUT Section: RT1    TBA    Stephen Fix
Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

Class Format: This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

Requirements/Evaluation: a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

Prerequisites: ECON 110 or the equivalent, permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

POEC 214 (D2) ENVI 212 (D2) ECON 214 (D2)

Writing Skills Notes: Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner's papers. As the final assignment, each student will revise one of their five papers.

Spring 2021

TUT Section: RT1 TBA Ralph M. Bradburd

ENVI 219 (F) Evolution of and on Volcanic Islands (WS)

Cross-listings: GEOS 220 ENVI 219

Secondary Cross-listing

Plate tectonic theory accounts for the vast majority of volcanic islands in ocean basins. They form above mantle plume hot spots (Hawaiian and Galapagos Islands), subduction zones (Aleutian and Indonesian arcs), and mid-ocean ridges (Azores and Ascension Island). Iceland is unusual because it is located above a hot spot and the mid-Atlantic ridge. Each plate tectonic setting produces chemically distinctive magmas, and the lifespan of volcanic islands varies widely. Islands above hot spots may be geographically remote and emergent for only several million years, but be part of a long-lived sequence of islands that persists for over a hundred million years. In contrast, island arc volcanoes belong to long geographically continuous chains of volcanoes, commonly in close proximity to continents. This tutorial explores the geologic evolution and lifespan of volcanic islands from formation to submergence, and searches for correlations between these characteristics and plate tectonic setting. We will also consider how geographic isolation, areal extent, lifespan, and climate affect biological evolution on volcanic islands. There will be weekly tutorial meetings with pairs of students, and students will alternate writing papers on assigned topics. This course is in the Solid Earth group for the Geosciences major.

Class Format: Remote, one-hour weekly meetings with tutorial partner and instructor

Requirements/Evaluation: five 5-page papers and critiques of partner's papers

Prerequisites: 100-level GEOS course or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Geosciences majors and students with a demonstrated interest in geosciences

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 220 (D3) ENVI 219 (D3)
Writing Skills Notes: Students will write five 5-page papers and will receive instructor feedback on how to improve their writing skills and formulate sound arguments.

Fall 2020

ENVI 222  (F)  Examining Inconvenient Truths: Climate Science meets U.S. Senate Politics  (WS)
Cross-listings:  GEOS 221  ENVI 222  LEAD 221

Secondary Cross-listing
Former President Barack Obama once said: "There's one issue that will define the contours of this century more dramatically than any other, and that is the urgent threat of a changing climate." While consensus regarding the causes and impacts of climate change has been growing steadily among scientists and researchers (and to some extent, the general public) over the past two decades, the U.S. has yet to confront this issue in a manner consistent with its urgency. This lack of action in the U.S. is at least partly due to the fact that science provides necessary but insufficient information towards crafting effective climate change legislation and the unfortunate fact that climate change has become a highly partisan issue. The primary objective of this tutorial will be to help students develop a greater understanding of the difficulties associated with crafting climate change legislation, with an emphasis on the role of science and politics within the legislative process. To this end, the tutorial will address how the underlying scientific complexities embedded in most climate policies (e.g., offsets, carbon capture and sequestration, uncertainty and complexity of the climate system, leakage) must be balanced by and blended with the different operational value systems (e.g., economic, social, cultural, religious) that underlie U.S. politics. Over the course of this tutorial, students will develop a nuanced sense of how and when science can support the development of comprehensive national climate change legislation within the current partisan climate. This course will take a practical approach, where students will craft weekly policy oriented documents (e.g., policy memos, action memos, research briefs) targeted to selected members of the current U.S. Senate Environment and Public Works Committee, the committee that has historically held jurisdiction over a majority of the major climate change bills that have moved through the legislative process. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: Hybrid: this class will be mostly remote, but there may be some in-person meetings outside for those on campus and interested, weather permitting.

Requirements/Evaluation:  weekly papers (2 - 5 pages in length) and a final oral presentation

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: sophomores, Geosciences and Environmental Studies juniors and seniors

Expected Class Size: 10

Grading:  no pass/fail option,   no fifth course option

Distributions: (D3)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 221 (D3)  ENVI 222 (D3)  LEAD 221 (D3)

Writing Skills Notes: You will learn to write in a variety of policy-focused formats

Fall 2020
TUT Section: RT1   TBA   Alex A. Apotsos

ENVI 243  (S)  Reimagining Rivers
Cross-listings:  ENVI 243  ANTH 243

Primary Cross-listing
Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including climate change, pollution, unsustainable agriculture, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on
scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

**Class Format:** This class will be taught in a modified tutorial format, with five groups of three students, each of which will meet for one 75-minute session per week. Sessions will be held in-person and remotely.

**Requirements/Evaluation:** Each week, each student will either write a 4-5-page essay on assigned readings or write a 2-page critique of a partner's paper.

**Prerequisites:** Environmental Studies 101

**Enrollment Limit:** 15

**Enrollment Preferences:** Environmental Studies majors and concentrators

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 243 (D2) ANTH 243 (D2)

Spring 2021

TUT Section: HT1  TBA  Nicolas C. Howe

**ENVI 244**  (S)  Environmental Ethics  (WS)

**Cross-listings:** ENVI 244  PHIL 244

**Primary Cross-listing**

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature (e.g., Leopold, Taylor, Rolston). Subsequent sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

**Class Format:** Remote format. Students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners' essays in alternate week

**Requirements/Evaluation:** six essays (5-7 pages each) and six carefully prepared oral responses to partners' essays; evaluation will be based on essays, oral responses, and quality of discussion

**Prerequisites:** ENVI 101 or one course in PHIL

**Enrollment Limit:** 10

**Enrollment Preferences:** declared and prospective Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** meets Value Theory requirement only if registration is under PHIL

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 244 (D2) PHIL 244 (D2)

**Writing Skills Notes:** Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.
ENVI 245 (F) Hydrothermal Vents (WS)

Cross-listings: GEOS 245 MAST 245 ENVI 245

Secondary Cross-listing

Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

Prerequisites: none, open to all students

Enrollment Limit: 10

Enrollment Preferences: 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

Writing Skills Notes: Students will write six 5-page papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

Fall 2020

TUT Section: RT1 TBA Lisa A. Gilbert

ENVI 261 (S) Science and Militarism in the Modern World

Cross-listings: STS 261 ENVI 261

Primary Cross-listing

In 1961, United States President Dwight D. Eisenhower warned about the global dangers of what he called the "military-industrial complex." In this course, we will interrogate the military-scientific complex, or the imbrication of militarism and scientific knowledge. Surveying conflicts from World War II through to the present-day War on Terror, this course will consider how empire, networks of expert knowledge, resource extraction, environmental contamination, and land degradation have shaped the modern world. Students will engage a range of textual materials including books, films, photographs, and news reports. Course requirements include weekly writing assignments and participation in small group discussions.

Class Format: This course adopts a tutorial model. Students will be divided into 5 groups of 2. Each week the groups will meet with me. Each pair will include one "presenter," who shares a 4-6 page paper responding to the week's theme, and one "respondent," who will offer a 2-3 page response to the presenter's paper. The roles of presenter and respondent will alternate each week. Each student will produce 5 papers as "presenter" and 5 papers as "respondent."

Requirements/Evaluation: Each student will produce five (4-6 page) papers as "presenter" and five (2-3 page) papers as "respondent." Grades will be issued based on the portfolio of papers and active participation in discussions.

Prerequisites: None

Enrollment Limit: 10
Enrollment Preferences: ENVI and STS majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021
TUT Section: RT1  TBA  Brittany Meché

ENVI 272  (S)  Earth Hazards and Risks  (WS)

Cross-listings: ENVI 272 GEOS 272

Secondary Cross-listing
As individuals, communities, and societies we live with risk from a variety of natural hazards. Depending on where we live, we may be more at risk from hurricanes, volcanoes, earthquakes, flooding, landslides, drought, wildfire, asteroids, or other hazards. Which hazards can be predicted? How far in advance and with what uncertainty? How we evaluate our risks from hazards is important for how we make decisions for ourselves and how we engage with others in decision-making. In this tutorial, we will examine the innovative ways earth scientists currently forecast these hazards. Students will use geospatial and time series data to assess the comparative risks of several hazards at a location that is significant to them (e.g., hometown, site of personal/historical importance). We will combine forecasting effectiveness with vulnerability assessments to strategize ways of proactively mitigating risk. This course is in the Sediments and Life group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs or small groups weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Assessment will be based on participation, tutorial papers, peer reviews, presentations, and a final paper.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: sophomores, Geosciences and Environmental Studies juniors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 272 (D3) GEOS 272 (D3)

Writing Skills Notes: Students will write four (5 page) tutorial papers evaluating the predictability/uncertainty of Earth-related hazards and make short (5 minute) presentations assessing risk of the hazard in their hometown or other location. A final (10 page) paper will synthesize two of the hazards and ability of forecasts to mitigate associated risks. Students will give/receive feedback in the form of peer reviews and receive frequent feedback from the instructor.

Spring 2021
TUT Section: RT1  TBA  Lisa A. Gilbert

ENVI 491  (F)  The Suburbs

Cross-listings: AMST 490 ENVI 491 HIST 491

Secondary Cross-listing
The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of
how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

Class Format: Remote for fall 2020. As in a regular semester, I'll work with enrolled students to set up a schedule for our tutorial meetings, which will occur online. At a couple junctures during the semester, we will also try to meet online as a whole class, as well as have a few small group discussions.

Requirements/Evaluation: typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: History majors and students with previous coursework in History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 247 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: SOC 248 GBST 247 RUSS 248

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners’ and instructor's discretion.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 248 (D2) GBST 247 (D2) RUSS 248 (D1)
Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

Fall 2020

GBST 412 (F) Gandhi: History, Ideas and Legacy (WS)
Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

Secondary Cross-listing
This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner’s paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

GEOS 245  (F)  Hydrothermal Vents  (WS)
Cross-listings: GEOS 245  MAST 245  ENVI 245

Primary Cross-listing

Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

Prerequisites: none, open to all students

Enrollment Limit: 10

Enrollment Preferences: 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

Writing Skills Notes: Students will write six 5-page papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

Fall 2020
TUT Section: RT1    TBA     Lisa A. Gilbert

GEOS 250  (S)  Climate,Tectonics, and Erosion  (WS)

Traditionally tectonics investigated processes operating deep in the crust and mantle, whereas geomorphology focused on surficial processes that shape the landscape. This course explores the complex interactions between tectonic and surficial processes. It has long been recognized that crustal uplift during mountain building creates new landscapes, but we now suspect that variations in erosion rate can fundamentally influence the development of mountains. Climate plays a central role in this feedback loop; the rise of mountains can change climate, and such changes can alter regional erosion rates. This course will examine how geologists use characteristic markers to estimate the amount of surface uplift, methods for determining uplift rate, surface response to faulting and folding, measuring displacement of the crust with GPS and interferometry methods, how mountain building affects erosion and exhumation rates, the limits to relief in mountains, and the interaction between mountains and climate. This course is in the Solid Earth group for the Geosciences major.

Class Format: Remote. After an initial group meeting, students will meet in pairs for one hour each week with the instructor; each student will orally
As individuals, communities, and societies we live with risk from a variety of natural hazards. Depending on where we live, we may be more at risk from hurricanes, volcanoes, earthquakes, flooding, landslides, drought, wildfire, asteroids, or other hazards. Which hazards can be predicted? How far in advance and with what uncertainty? How do we assess our risks from hazards important for how we make decisions for ourselves and how we engage with others in decision-making? In this tutorial, we will examine the innovative ways earth scientists currently forecast these hazards. Students will use geospatial and time series data to assess the comparative risks of several hazards at a location that is significant to them (e.g., hometown, site of personal/historical importance). We will combine forecasting effectiveness with vulnerability assessments to strategize ways of proactively mitigating risk. This course is in the Sediments and Life group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs or small groups weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Assessment will be based on participation, tutorial papers, peer reviews, presentations, and a final paper.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: sophomores, Geosciences and Environmental Studies juniors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

Writing Skills Notes: Students will write four (5 page) tutorial papers evaluating the predictability/uncertainty of Earth-related hazards and make short (5 minute) presentations assessing risk of the hazard in their hometown or other location. A final (10 page) paper will synthesize two of the hazards and ability of forecasts to mitigate associated risks. Students will give/receive feedback in the form of peer reviews and receive frequent feedback from the instructor.
present and past plate motions. We will read journal articles to explore how plate tectonics can help explain the evolution of mountain belts with special emphasis on the Appalachians.

Class Format: Remote, weekly one-hour meetings with tutorial partner and instructor

Requirements/Evaluation: five papers based on journal articles, and critiques of partner’s papers

Prerequisites: GEOS 203, 302, or 303 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: senior Geosciences majors, then juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: As a 400-level seminar, this capstone course is intended to build on and extend knowledge and skills students have developed during previous courses in the major

Distributions: (D3) (WS)

Writing Skills Notes: Five 5-page papers throughout the semester based and journal articles. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1 TBA Paul M. Karabinos

GERM 110 (F) Spies Like Us: Espionage, Surveillance, and Protest in German Cinema and Literature (WS)

Cross-listings: GERM 110 COMP 109

Primary Cross-listing

This First Year tutorial, available in English, investigates the mutual mistrust between the two Germanies in the Cold War period up until the peaceful popular protests that brought down the Berlin Wall. The political tensions between communist East Germany, the German Democratic Republic (GDR) and its capitalist Western counterpart, the Federal Republic (FRG), created a fascinating culture of governmental spying, but also led to aggravated periods of state surveillance of its own citizens. How were families affected across generations by these divisive politics, including the two states’ differing treatment of the Nazi legacy? What was the involvement of the KGB and the CIA? How did East German intelligence try to destabilize the West from inside? Which locations in Berlin served as centers for spying, given that the city’s terrain is quite flat and exposed? High-profile cases of conflicting loyalties include the Guillaume spy affair that brought down Willy Brandt as Chancellor of the FRG in 1974, and the Brasch family in the GDR, where the father, a communist true believer, turned his three sons over to the Stasi for their dissident activism and engaged art. We will debate filmic treatments of the recruitment of spies as double agents (Coded Message for the Boss, 1979), the chilling effects of police surveillance during the Baader-Meinhof radical left terrorist attacks (The Lost Honor of Katharina Blum, 1975; Knife in the Head, 1978) the afterlives of former terrorists who were offered new identities as ‘ordinary’ East Germans (The legend of Rita, 2000), to the effects of the Stasi files becoming accessible to their victims after the fall of the wall (Es ist nicht vorbei, Anderson). We will also discuss popular film representations of spying in Lives of Others (2007) and Bridge of Spies (2015), and selected episodes from the popular TV-series Germany 83 and 86 (2018). Literature will likely include: Thomas Brasch, The Sons Die Before the Fathers (1977), Christa Wolf, What Remains (1993), Monika Maron, Flight of Ashes (1981), Heinrich Böll, The Lost Honour of Katharina Blum (1974). All texts in English, films have English subtitles.

Class Format: Students in this course will be separated into small tutorial groups of 3 students, in order to promote intensive exchange of ideas. In a typical week, the students in each group will: (1) study a substantial "text" or film; (2) watch mini-lectures or power points by the instructor to supplement the assigned primary texts.

Requirements/Evaluation: 5 5-page tutorial papers and 2-page responses (in English)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: First Years, in groups of 3 students.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
**GERM 304 (S) Rebels and Conformists: Postwar Germany from The 'Economic Miracle' to the Fall of the Wall**

**Cross-listings:** GERM 304 WGSS 304

**Primary Cross-listing**

In postwar West Germany, a thorough examination of the Nazi past took a backseat to economic recovery and repairing the country’s international standing, whereas to some extent the reverse was true for the East. An authoritarian democracy, an emphasis on consumerism and the qualitatively different experiences of younger generations led them to question whether the Federal Republic was a restoration or a new beginning? In the East, the cold war led to an increasingly Stalinist interpretation of communist principles, while communist ideals were upheld as an antidote to Nazism and the new materialism. This tutorial will cover a wide range of social protest as reflected in literature and film of the two Germanies: critical responses to the Holocaust in the two countries, the 1968 student revolution, anti-capitalist terrorism by the Baader-Meinhof gang, the feminist and gay rights movements, reformers and repression under Ulbricht and Honecker in the GDR, minority rights and environmental activists. Authors will include: Peter Weiss, *Die Ermittlung*, Heinrich Böll, *Und sagte kein einziges Wort*, Gisela Eilsner, *Riesenwurze*, Emine Sevgi Özdamar, *Das Leben ist eine Karawanserei*, Volker Braun, *Unvollendete Geschichte*, Alice Schwarzer, *Der kleine Unterschied und seine großen Folgen*, Christian Kracht, *Faserland*, Thomas Brussig, *Wasserfarben*. Films may include: Gerhard Klein, *Berlin-Ecke Schönhauser*, Ulrich Plenzdorf, *Die Legende von Paul und Paula*, Rainer Werner Fassbinder, *Angst essen Seele auf*, Uli Edel, *Der Baader-Meinhof Komplex*, Margarethe v. Trotta, *Das zweite Erwachen der Christa Klages*, Heiner Carow, *Coming Out*, Hans Weingartner, *Die fetten Jahre sind vorbei.*

**Class Format:** remote

**Requirements/Evaluation:** alternating 4-page tutorial papers in German, and 2-page critiques

**Prerequisites:** GERM 202 or permission of the instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** German majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** $80 books

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 304 (D1) WGSS 304 (D2)
abroad particularly how they reflect on the revolution in memoirs, films, and literature.

Class Format: Hybrid

Requirements/Evaluation: Weekly meetings. Weekly papers - either a 5 page primary paper or a 2-3 page response paper.

Prerequisites: No prerequisites.

Enrollment Limit: 10

Enrollment Preferences: First Years and Sophomores.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 109 (D2) HIST 109 (D2)

Writing Skills Notes: As a tutorial, students are expected to regularly write analytical and critical papers on the readings. They will receive regular and consistent feedback from the instructor and their partner and will be given the opportunity to re-write some of their assignments.

Difference, Power, and Equity Notes: The Iranian Revolution, like other major social movements, offered a compelling critique of the status quo and promised a more just society that would be more equitable for all Iranians. The tutorial will consider the relationship between the rhetoric of the Revolution and the lived reality, especially how this seminal event impacted the lives of ordinary Iranians. Was the Revolution simply a change in the composition of the political elite or did it yield new realities and more access for Iranians

Spring 2021

TUT Section: HT1 TBA Magnús T. Bernhardsson

HIST 134 (F) The Great War (WS)

In November 2018, world leaders gathered in France to commemorate the centennial of the end of the First World War. Yet the armistice that brought hostilities on the Western front to a close on the eleventh hour of the eleventh day of the eleventh month of 1918, did not have the same significance for Eastern Europe and the Middle East, where revolutions and civil wars continued to be fought well into 1923. Ultimately, the Great War toppled four empires (German, Habsburg, Russian, and Ottoman) and forcibly displaced and killed millions of civilians (including Armenians and Jews), creating new countries and colonies throughout Europe, the Middle East, and Africa. This tutorial will explore the global history of the First World War, a history that is indispensable for understanding the world of today. We will consider a broad range of topics and sources in our examination of the political, social, cultural, economic, and military histories of the Great War and its aftermath.

Requirements/Evaluation: bi-weekly 5- to 7-page papers; bi-weekly written critiques; one revised paper.

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Bi-weekly 5- to 7-page papers; one formal paper revision. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020

TUT Section: RT1 TBA Alexandra Garbarini

HIST 166 (F) Cold War Films (WS)

This history tutorial utilizes popular film as a vehicle to explore American Cold War culture. The Cold War was an intense period of political, ideological, cultural, and military struggle between the United States and the Soviet Union that took place after the Second World War. For every nuclear test, arms sale, or military operation, there was a propaganda ploy, rhetorical barb, or diplomatic ultimatum to match. Amidst this hostile
competition between two incompatible ways of life--communism and capitalism; totalitarianism and democracy--an atmosphere marked by panic, secrecy, insecurity, paranoia, surveillance, and conformity pervaded American life. Given the vast cultural influence of movies, film during this era served as a vital ideological battleground. Moreover, cinema offers us a window into the cultural landscape of Cold War America, for film reflects, interprets, and shapes national identity in complex ways. The films examined in this course (for the most part, Hollywood productions from the mid-1940s to the mid-1960s) serve as unique historical documents and as cultural texts illuminating the ways filmmakers and audiences negotiated the challenges presented by the Cold War struggle. The films assigned for this course focus on a range of topics, including anticommunism, competing visions of Americanism, religion, the Hollywood Ten, J. Edgar Hoover and the FBI, the nuclear arms race, brainwashing, gender, race relations, and the eventual unravelling of the Cold War consensus. The historical analysis of film requires not only a close reading of the movies themselves, but also a clear understanding of the historical context in which they appeared. The readings paired with each film will help to clarify this context and offer interpretations of the films with which we will engage.

Class Format: In general, tutorial sessions will be held via Zoom. Should all students in a tutorial grouping request an in-person meeting, that request will be accommodated pending the availability of an appropriate room. A few larger group meetings will be held throughout the semester, in person for on-campus students and on Zoom for remote students.

Requirements/Evaluation: Students will be required to complete formal writing assignments each week, alternating between 4-page reading response papers and 2-page critiques of their peers' work. These writing assignments will be evaluated alongside preparedness for and performance in tutorial discussions.

Prerequisites: None, open to all students.

Enrollment Limit: 10

Enrollment Preferences: First and second year students will be given priority. If the course is overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between 4-page reading response papers and 2-page critiques of their peers' work. They will receive feedback on each of these papers--in writing and in person--from both the professor and their tutorial partners. Throughout the semester these writing assignments will total 25-30 pages.

Fall 2020
TUT Section: RT1   TBA   Jessica Chapman

HIST 482  (F)  Race and American Foreign Relations  (WS)

From its origins, American society has been suffused with notions of white superiority and racial hierarchies that have underpinned the nation's foreign policy. Ideologies of race factored heavily into the nineteenth century process by which the United States expanded its territorial control across the North American continent and established an empire of its own. Racialized thinking persisted at the heart of U.S. foreign relations in the twentieth century, influencing everything from the administration of empire in the Caribbean and the Pacific and commercial expansion into central America to the decision to use nuclear weapons against Japan, the diplomatic path to war in Vietnam, and more. The defeat of fascism and Nazism in World War II posed serious challenges to the premises of white supremacy, while ushering in a Cold War that would become inextricably bound with the process of decolonization. American diplomats were forced to recon with the challenges domestic racism posed to their foreign policy goals, while black internationalists became increasingly involved with global struggles for liberation and equality. While the global color line grew more hotly contested, white supremacist thinking proved as enduring as it was mutable. This upper division tutorial surveys leading scholarship on a range of topics that centers race as a category for understanding American foreign relations.

Class Format: This tutorial can be take entirely remotely. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: None, open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior coursework related to U.S. foreign relations. If the course is overenrolled, students may be asked to complete a questionnaire to determine enrollment.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners.

Fall 2020
TUT Section: RT1  TBA  Jessica Chapman

HIST 483  (S) Sport and Diplomacy  (DPE) (WS)
Sport has emerged in recent years as a hot topic of study among diplomatic historians. Once considered a marginal topic, sport is now seen as a critical window into the world of international relations. Recent works address not only official state policies pertaining to international sport, but also issues of nationalism, imperialism, racial ideologies, transnational migration, public diplomacy, culture in foreign relations, and the role of sport governing bodies in the international system. In this tutorial, students will read key essays and monographs that contribute to this emerging literature, alongside state-of-the-field essays that explore the methodological and thematic approaches that historians have used to grapple with the complex interactions between countries, peoples, and cultures that occur within the realm of sport.

Class Format: This course will be remote. If conditions allow, I may set up in-person tutorial sessions for on-campus students.

Requirements/Evaluation: Students will write and present orally six essays (5-7 pages each) on assigned readings each week; students not presenting an essay in a given week will produce a 2-3 page written critique.

Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: History majors and students with some prior course work in foreign relations and/or international history

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will each write six (6) tutorial papers of 5-7 pages and six (6) critiques of 2-3 pages. The professor will provide weekly written feedback on each of these papers, and they will be discussed at length in tutorial sessions.

Difference, Power, and Equity Notes: Modern sport emerged in a colonial context as a means of asserting and maintaining control and has become a key site of contestation over the color line in both domestic and international contexts. International sport competitions like the Olympics and the World Cup have served as proxies for military power and showcases for national cultures in ways that have both revealed and concealed ongoing racial tensions. This course explores diversity, power, and equity in international sport.

Spring 2021
TUT Section: RT1  TBA  Jessica Chapman

HIST 484  (F) Victorian Psychology  (WS)

Although the Victorian era has traditionally been considered a psycho-social model of emotional inhibition and sexual prudery, recent studies, by scholars in various disciplines, have demonstrated that this characterization grossly oversimplifies the attitudes toward emotional and sexual life held by Europeans and Americans in the second half of the nineteenth century. This course will investigate professional and popular ideas about human psychology during the Victorian era. We will attempt to define and understand what people thought and felt about insanity, the unconscious, dreams, sexuality, the relationship between natural impulses and civilized society, child psychology and development, the psychological differences between men and women, the relationship between the physical and the psychical. The course will concentrate on the close reading and analysis of primary documents from the era.

Class Format: This tutorial will be taught remotely on Zoom. Once they have been selected, student pairs will meet with the professor for an hour at a regularly scheduled time each week.

Requirements/Evaluation: Students will meet with the instructor using Zoom in pairs once a week. Every other week each student will present a
paper of approximately 5-7 pages on a topic determined by the instructor, due by 5pm the day before the tutorial meeting. The student not writing the paper will critique the paper written by their tutorial partner. Each student will write six papers and serve as a critic on the six papers of their tutorial partner.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Junior and senior History majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: Fulfills the department's seminar requirement for graduation with a degree in History

Distributions: (D2) (WS)

Writing Skills Notes: As a tutorial, with each student writing a paper every other week, this course meets the writing skills requirement.

Fall 2020
TUT Section: RT1    TBA     Thomas A. Kohut

HIST 485  (S)  Freud: A Tutorial  (WS)

Cross-listings: PSYC 158  HIST 485

Primary Cross-listing

This tutorial is devoted to the systematic reading of the principal works of Sigmund Freud, one of the deepest, subtlest, and most influential thinkers of the last one-hundred years. Students will read Freud's work more or less chronologically, beginning with his writings on hysteria and concluding with his deeply pessimistic essay, Civilization and Its Discontents. In tutorial, we will consider the development of Freud's thought over the course of his professional life: his general psychological writings on the nature and functioning of the human psyche, his clinical writings on psychoanalysis as a form of treatment, and his cultural writings on art and artists, on the origin of human society, on religion, and on the relation of the individual to society and civilization. We will not be considering the relevance of Freud's ideas for purposes that transcend his own psychological agenda in the tutorial. Nor will we be much concerned with assessing whether Freud was "right" or "wrong" or whether his thought has clinical relevance today. Instead, we will seek to understand Freud as much as possible on his terms and not on ours, as a historical figure of originality, complexity and contradiction, whose thought deserves close reading and deep understanding within the context of Freud's thought itself.

Class Format: students will write and present orally six essays of 6-7 pages on assigned reading every other week; students not presenting an essay in a given week will be responsible for critiquing the presented essay

Requirements/Evaluation: student grades will be assigned only at the end of the semester based on their papers, their critiques, and their performance in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: juniors and seniors and History majors needing a 400-level seminar or tutorial to fulfill the requirements for a degree in History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: fulfills History's 400-level graduation requirement

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 158 (D2) HIST 485 (D2)

Writing Skills Notes: As a tutorial, this course is by definition writing skills, both in terms of the number of papers that students will produce (six) and in terms of the focus on writing during every tutorial session. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021
TUT Section: RT1    TBA     Thomas A. Kohut
HIST 488 (F)  Fictions of African American History  (DPE) (WS)

Cross-listings:  HIST 488  AMST 488

Primary Cross-listing

This course examines African American fiction, largely from the late 19th and very early 20th century. These Black authors, none of them professional historians, try to bring African American History to light in an era before this history was taken seriously by the white academy. Many of the authors we examine were activists and journalists who set their novels and short stories during Slavery and Emancipation. We will consider inherently radical act of reading and writing in a society where black literacy was illegal until after the Civil War. Alongside the fiction we will read modern historiography of the era. We will also delve into some of slave narratives published after Emancipation. Readings will include works by Booker T. Washington, James Weldon Johnson, Charles Chesnutt, Paul Laurence Dunbar, and Sutton Griggs. This is a tutorial and will be taught online.

Requirements/Evaluation:  Every week a student will write either an essay or a critique. For the final assignment students may either write a review of 2-3 works of historiography OR substantially revise an essay or critique they did during the semester.

Prerequisites:  None

Enrollment Limit:  10

Enrollment Preferences:  History, Africana, and American Studies Majors will have preference. As well as students who have never taken a tutorial.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 488 (D2)  AMST 488 (D2)

Writing Skills Notes:  Students will write every week (essays and critiques) and receive feedback from their partners and from the professors. The final assignment of the semester is major revision of a one essay or critique. Students will receive feedback on their paper's organization and argument as well as points of style. Since we will be reading both fiction and historiography, we will discuss as a group the different challenges each form poses to essay writing.

Difference, Power, and Equity Notes:  African Americans writing during this time lived under the laws and customs of Jim Crow and White Supremacy. Lacking political power, they turned to the power of the written word. We will evaluate the way writing and fiction helped ameliorate (or not) the racial power structures.

Fall 2020

TUT Section: RT1  TBA  Gretchen Long

HIST 489 (F)  Appropriating History. Who Owns the Past?  (DPE) (WS)

Cross-listings:  HIST 489  ARAB 408

Primary Cross-listing

Who owns the past? How have modern states appropriated history? The political use of history is a critical ingredient in any nationalist discourse. In such narratives, the selective utilization of archaeology and ancient history often serves important functions in articulating a conscious and deliberate national history. Thus, in nationalist renderings, archaeological sites and artifacts are not merely relics of the past; they can also be potent and conspicuous symbols of national identity for the modern nation-state. In the Middle East, with its rich archaeological heritage, the relationship among politics, nationalism, and archeology has been particularly strong and interesting. This tutorial addresses the powerful nexus between history and nationalism with a special emphasis on the Middle East. It will explore the battle over who controls history and the "stuff" of history such as antiquities, land, heritage sites, and museum exhibitions and how that control has expressed itself in several Middle Eastern countries, including Iraq, Israel, Turkey, Egypt, Lebanon, and Iran. Furthermore, it will discuss how archaeology entered the political discourse, the ethics of repatriation and appropriation, and archaeology's role in contested terrains and political disputes.

Class Format:  This tutorial can be taken entirely Remote. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

Requirements/Evaluation:  Format: tutorial. Requirements: 5-7 page essays or 2-3 response papers due each week

Prerequisites:  None, though a demonstrated interest in the Middle East is important.
Enrollment Limit: 10
Enrollment Preferences: Seniors and to History and Arabic Studies majors.
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 489 (D2) ARAB 408 (D2)
Writing Skills Notes: As a tutorial, students will receive extensive feedback on their writing each week both from the professor and their partner. Further, students will be given the opportunity to rewrite two of their papers in light of the criticism that they receive during the semester.
Difference, Power, and Equity Notes: This is a tutorial on a particular form of power, namely how the powerful seek to control the past. The ultimate question that this tutorial seeks to answer is: who owns the past? Which history is emphasized and which histories are overlooked? How do modern nation states in different Middle Eastern states cherry-pick the past in order to maintain and develop a national narrative that is suitable to the political and economic powers often at the expense of religious or linguistic minorities.
Fall 2020
TUT Section: RT1 TBA Magnús T. Bernhardsson

HIST 490 (S) Memory, History, and the Extermination of the Jews of Europe (WS)
Cross-listings: HIST 490 JWST 490
Primary Cross-listing
This course is about the postwar legacy of the Holocaust. Nazi Germany's extermination of European Jews has come to be a moral and cultural touchstone for people in Europe and in many other parts of the world. This tutorial explores a series of topics from the immediate aftermath of the Second World War to the present. Engaging with a wide-range of sources, we will wrestle with historical, legal, moral, political, and cultural issues and debates that have emerged out of the confrontation with the extermination of the Jews of Europe. They include: Why was the Holocaust "unprecedented" and "unimaginable"? Is it a Jewish story or universal story? Does the Holocaust raise different issues than other historical events for the historian? How should the Holocaust be represented in words and images, and what are the implications of different means of representing it? Has Germany faced up to its past? Were Germans also victims of World War II? Who were the "bystanders" as compared to the "perpetrators"? Were the postwar trials of perpetrators a travesty of justice? What "lessons" have we learned and should we learn from the Holocaust? By the end of the course, students will have grappled with the ongoing controversies that have arisen among scholars, artists, governments, and lay people about the meaning of the Holocaust for the postwar world. In a world in which extraordinary acts of violence continue to be perpetrated and many nations' pasts are marked by episodes of extreme criminality and/or trauma, exploring the manner by which one such episode has been remembered, avenged, and adjudicated has relevance for considering other societies' efforts to confront their own traumatic pasts.
Class Format: Remote; tutorial; class time consists of weekly one-hour sessions with the instructor and a fellow student
Requirements/Evaluation: Every other week the student will write and present orally a 5- to 7-page paper on the assigned readings of that week; on alternate weeks, the student will write a 2-page critique of the fellow student's paper; a final written exercise is a thought piece on the issues raised in the tutorial to cap off the semester's work.
Prerequisites: permission of instructor
Enrollment Limit: 10
Enrollment Preferences: History majors and Jewish Studies concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 490 (D2) JWST 490 (D2)
Writing Skills Notes: Bi-weekly 5- to 7-page- papers. Students will receive regular and individualized feedback on their writing to help them work on different writing issues throughout the semester.
**HIST 491 (F) The Suburbs**

**Cross-listings:** AMST 490  ENVI 491  HIST 491  

**Primary Cross-listing**

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

**Class Format:** Remote for fall 2020. As in a regular semester, I'll work with enrolled students to set up a schedule for our tutorial meetings, which will occur online. At a couple junctures during the semester, we will also try to meet online as a whole class, as well as have a few small group discussions.

**Requirements/Evaluation:** typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and students with previous coursework in History

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AMST 490 (D2) ENVI 491 (D2) HIST 491 (D2)

Fall 2020

**HIST 495 (S) Stalinism (WS)**

The quarter century during which Joseph Stalin ruled the Soviet Union witnessed some of the twentieth century's most dramatic events: history's fastest plunge into modernity, an apocalyptic world war, and the emergence of a socialist state as a competitive world power. This tutorial will offer students a deep dive not only into the historical depths of the Stalin era but into the gloriously complex historiographical debates that surround it. Some of the questions that will animate the readings, writings, and discussions that tutorial students will engage in are as follows: Did Stalin depart from or represent a continuation of the policies introduced by his predecessor Vladimir Lenin? Did he rule in a totalitarian fashion or in ways comparable to other twentieth century regimes? Were his policies destructive or possibly productive? And perhaps most boggling of all: why did no one resist Stalinist rule?

**Class Format:** TBD

**Requirements/Evaluation:** Each week, a student either will write a 5-7-page essay on the assigned readings or will be responsible for offering an oral critique of their partner’s work. Both tutorial partners will be responsible for completing 200-300 pages of reading each week.

**Prerequisites:** None

**Enrollment Limit:** 10
Enrollment Preferences: History majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Each student will write five 5-to-7-page papers on which the instructor will provide written feedback regarding grammar, style, and argument. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

TUT Section: RT1 TBA Yana Skorobogatov

HIST 496 (F) Gandhi: History, Ideas and Legacy (WS)

Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

Primary Cross-listing

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspects of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi’s own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner’s paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

INTR 220 (S) Cold War Intellectuals: Civil Rights, Writers and the CIA (DPE)

Cross-listings: AFR 224 PSCI 221 AMST 201 LEAD 220 INTR 220

Primary Cross-listing
This tutorial focuses on US-based views of the Cold War. It examines how intelligence agencies and intellectuals, as well as government officials, viewed civil rights, human rights, and US hegemony. Readings include: Williams J. Maxwell (F. B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature); James Baldwin (The Fire Next Time); Ralph Ellison (The Collected Essays of Ralph Ellison); Report to the President by the Commission on CIA Activities Within the United States (1975, VP Nelson Rockefeller, chair); Hugh Wilford (The Mighty Wurlitzer: How the CIA Played America); Hannah Arendt (The Origins of Totalitarianism; On Violence; "Reflections on Little Rock"); Frances Stonor Saunders (Who Paid the Piper? The CIA and the Cultural Cold War). Students alternate weekly between 5-page primary and 2-page secondary papers on assigned readings.

Requirements/Evaluation: Attend all classes; submit completed papers 24 hours before seminar meets.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Juniors and Seniors.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 224 (D2) PSCI 221 (D2) AMST 201 (D2) LEAD 220 (D2) INTR 220 (D2)

Difference, Power, and Equity Notes: This tutorial examines the Cold War between the US and the USSR and attempts to use intellectuals to shape and promote the objectives of powerful state entities. The power struggle between the two "superpowers" impacted cultural production and authors. Some of those authors influenced or enlisted into the Cold War sought equity and equality for their communities and eventually fought against the very political powers that employed them.

Spring 2021
TUT Section: RT1 TBA Joy A. James
Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? Must it be unaffected by any outside influences? If so, freedom may seem impossible since we're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The real question, then, seems to be whether, and how, free choice is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

**Class Format:** This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.

**Requirements/Evaluation:** Five tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)

**Prerequisites:** One PHIL course

**Enrollment Limit:** 10

**Enrollment Preferences:** Current and prospective Philosophy majors

**Expected Class Size:** 10

**Grading:** No pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 272 (D2) JLST 272 (D2)

**Writing Skills Notes:** Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Spring 2021

TUT Section: RT1 TBA Melissa J. Barry

This course is about the postwar legacy of the Holocaust. Nazi Germany’s extermination of European Jews has come to be a moral and cultural touchstone for people in Europe and in many other parts of the world. This tutorial explores a series of topics from the immediate aftermath of the Second World War to the present. Engaging with a wide-range of sources, we will wrestle with historical, legal, moral, political, and cultural issues and debates that have emerged out of the confrontation with the extermination of the Jews of Europe. They include: Why was the Holocaust “unprecedented” and “unimaginable”? Is it a Jewish story or universal story? Does the Holocaust raise different issues than other historical events for the historian? How should the Holocaust be represented in words and images, and what are the implications of different means of representing it? Has Germany faced up to its past? Were Germans also victims of World War II? Who were the “bystanders” as compared to the “perpetrators”? Were the postwar trials of perpetrators a travesty of justice? What “lessons” have we learned and should we learn from the Holocaust? By the end of the course, students will have grappled with the ongoing controversies that have arisen among scholars, artists, governments, and lay people about the meaning of the Holocaust for the postwar world. In a world in which extraordinary acts of violence continue to be perpetrated and many nations’ pasts are marked by episodes of extreme criminality and/or trauma, exploring the manner by which one such episode has been remembered, avenged, and adjudicated has relevance for considering other societies’ efforts to confront their own traumatic pasts.

**Class Format:** Remote; tutorial; class time consists of weekly one-hour sessions with the instructor and a fellow student

**Requirements/Evaluation:** Every other week the student will write and present orally a 5- to 7-page paper on the assigned readings of that week; on alternate weeks, the student will write a 2-page critique of the fellow student’s paper; a final written exercise is a thought piece on the issues raised in the tutorial to cap off the semester’s work.

**Prerequisites:** Permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and Jewish Studies concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

**LEAD 221 (F) Examining Inconvenient Truths: Climate Science meets U.S. Senate Politics**  (WS)

**Cross-listings:** GEOS 221  ENVI 222  LEAD 221

**Secondary Cross-listing**

Former President Barack Obama once said: "There's one issue that will define the contours of this century more dramatically than any other, and that is the urgent threat of a changing climate." While consensus regarding the causes and impacts of climate change has been growing steadily among scientists and researchers (and to some extent, the general public) over the past two decades, the U.S. has yet to confront this issue in a manner consistent with its urgency. This lack of action in the U.S. is at least partly due to the fact that science provides necessary but insufficient information towards crafting effective climate change legislation and the unfortunate fact that climate change has become a highly partisan issue. The primary objective of this tutorial will be to help students develop a greater understanding of the difficulties associated with crafting climate change legislation, with an emphasis on the role of science and politics within the legislative process. To this end, the tutorial will address how the underlying scientific complexities embedded in most climate policies (e.g., offsets, carbon capture and sequestration, uncertainty and complexity of the climate system, leakage) must be balanced by and blended with the different operational value systems (e.g., economic, social, cultural, religious) that underlie U.S. politics. Over the course of this tutorial, students will develop a nuanced sense of how and when science can support the development of comprehensive national climate change legislation within the current partisan climate. This course will take a practical approach, where students will craft weekly policy oriented documents (e.g., policy memos, action memos, research briefs) targeted to selected members of the current U.S. Senate Environment and Public Works Committee, the committee that has historically held jurisdiction over a majority of the major climate change bills that have moved through the legislative process. This course is in the Oceans and Climate group for the Geosciences major.

**Class Format:** Hybrid: this class will be mostly remote, but there may be some in-person meetings outside for those on campus and interested, weather permitting.

**Requirements/Evaluation:** weekly papers (2 - 5 pages in length) and a final oral presentation

**Prerequisites:** none

LEAD 312 (S) American Political Thought (WS)

Cross-listings: PSCI 312 LEAD 312

Secondary Cross-listing

From democracy to liberty, equality to community, foundational ideas -- about what makes for good government, about what constitutes the good society, about what is necessary to lead a good life -- define the American political tradition and consume the American political imagination. Designed not only to uncover these (sometimes melodious, sometimes cacophonous) values but also to place current ideological debates about them in a broader developmental context, this tutorial will offer a topical tour of American political thinking from the birth of nationalism in the colonial period to the remaking of conservatism and liberalism in the early twenty-first century. Utilizing primary source material ranging from presidential speeches to party platforms, newspaper editorials to novels, we will seek to interrogate -- reconciling where possible, distinguishing where necessary, interpreting in all instances -- the disparate visions and assessments of the American political experience offered by politicians, artists, intellectuals, activists, and ordinary citizens over the course of more than two centuries. Our focus, then, is nothing less than the story of America -- as told by those who lived it.

Class Format: For spring 2021, this course will be taught remotely, with a few synchronous seminar classes at the start and end of the course bookending weekly synchronous tutorial sessions.

Requirements/Evaluation: five 5- to 7-page essays, five 2- to 3-page critiques, and a revised and extended 10- to 12-page final essay

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Political Science majors and prospective majors

MAST 245 (F) Hydrothermal Vents (WS)

Cross-listings: GEOS 245 MAST 245 ENVI 245

Secondary Cross-listing

Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

Prerequisites: none, open to all students

Enrollment Limit: 10

Enrollment Preferences: 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

Writing Skills Notes: Students will write six 5-page papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

Fall 2020

MATH 102 (F) Foundations in Quantitative Skills

This course will strengthen a student's foundation in quantitative reasoning in preparation for the science curriculum and QFR requirements. The material will be at the college algebra/precalculus level, and covered in a tutorial format with students working in small groups with the professor. Access to this course is limited to placement by a quantitative skills counselor.
Requirements/Evaluation: homework, presentations during the tutorial meetings, and projects
Prerequisites: access to the course is limited to placement by a quantitative skills counselor
Enrollment Limit: 10
Enrollment Preferences: students who need most help with the quantitative reasoning
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3)

Fall 2020
TUT Section: HT1 TBA Mihai Stoiciu

MATH 315 (S) Methods for Solving Diophantine Equations (QFR)
A Diophantine equation is an equation with integer (or rational) coefficients that is to be solved in integers (or rational numbers). A focus of study for hundreds of years, Diophantine analysis remains a vibrant area of research. It has yielded a multitude of beautiful results and has wide ranging applications in other areas of mathematics, in cryptography, and in the natural sciences. In this project-based tutorial, we will focus on studying and implementing various methods for solving previously unsolved infinite families of Diophantine equations. Depending on their interests, students may choose one or several methods to apply to open problems in the field. Please note that this tutorial will be held virtually.
Requirements/Evaluation: The grade for this course will be a combination of weekly problem sets, weekly oral presentations (approx. 15 min. each), quarterly self-reflections, and a final written project manuscript that will be continually edited throughout the semester (minimum of 5 pages).
Prerequisites: MATH 250 or permission of the instructor
Enrollment Limit: 10
Enrollment Preferences: Sophomores, Juniors, and Seniors based on a short questionnaire of interests. In the event of over-enrollment, preference will be given to those that need the course to graduate.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.

Spring 2021
TUT Section: RT1 TBA Eva Goedhart

MATH 392 (S) Undergraduate Research Topics in Graph Theory (WS) (QFR)
Graph theory is a vibrant area of research with many applications to the social sciences, psychology, and economics. In this project-based tutorial, students will select among the presented topics and will develop research questions and undertake original research in the field. Student assessment is based on drafts of research project manuscript and presentations.
Requirements/Evaluation: presentations and written project manuscript
Prerequisites: MATH 355 or permission of the instructor
Enrollment Limit: 10
Enrollment Preferences: programming experience, students with interests in the intersection of combinatorics and graph theory
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS) (QFR)
Writing Skills Notes: This course will require multiple revisions of a manuscript related to the research project at hand. The final result will be a 10-20 page research article and the course will be designed as a writing intensive course.
Quantitative/Formal Reasoning Notes: The course deals with mathematical research in graph theory and is a quantitative and formal reasoning course.

Spring 2021
TUT Section: RT1    TBA    Pamela E. Harris

MATH 420  (S)  Analytic Number Theory  (QFR)
How many primes are smaller than x? How many divisors does an integer n have? How many different numbers appear in the N x N multiplication table? Precise formulas for these quantities probably don't exist, but over the past 150 years tremendous progress has been made towards understanding these and similar questions using tools and methods from analysis. The goal of this tutorial is to explain and motivate the ubiquitous appearance of analysis in modern number theory—a surprising fact, given that analysis is concerned with continuous functions, while number theory is concerned with discrete objects (integers, primes, divisors, etc). Topics to be covered will include some subset of the following: asymptotic analysis, partial and Euler-Maclaurin summation, counting divisors and Dirichlet's hyperbola method, the randomness of prime factorization and the Erdős-Kac theorem, the partition function and the saddle point method, the prime number theorem and the Riemann zeta function, primes in arithmetic progressions and Dirichlet L-functions, the Goldbach conjecture and the circle method, and sieve methods and gaps between primes.

Requirements/Evaluation: Regularly preparing lectures and writing expository essays in LaTeX. No exams.

Prerequisites: MATH 350 or MATH 351 and familiarity with basic modular arithmetic are hard prerequisites. Familiarity with complex analysis and abstract algebra recommended, but not required.

Enrollment Limit: 10
Enrollment Preferences: Students with complex analysis background will be given priority.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (QFR)

Quantative/Formal Reasoning Notes: It's math.

MUS 272  (S)  Music and Meaning  (WS)
Nearly everyone finds music meaningful, but what exactly does it mean? Without the help of words, this largely non-referential art presents special challenges to interpretation. While most would agree that musical sounds can do such things as mimic the rumbling of thunder, evoke the countryside, suggest the act of chasing, or express rage, the capacity of music to convey meaning remains controversial among scholars, performers, and listeners. Some, following music critic Eduard Hanslick, assert that musical works are essentially "tonally moving forms"—patterns of sound with no reference to the world outside themselves; a work's meaning derives solely from the interplay of musical elements. Others counter that music can signify aspects of human experience, its sounds and structures not merely referring to the outside world but even relating complex narratives. Certain writers have argued that, without the assistance of language, what music signifies remains vague, while others insist that the meaning of music is actually more precise than that of words. In this tutorial course, we will explore a range of questions regarding musical meaning. How can combinations of pitches, rhythms, and instrumental timbres signify something beyond themselves? Is the subject of musical meaning more relevant to some historical styles or genres than others? How can we determine the meaning(s) of a work? Should we concentrate on formal processes within the music? Consider socially constructed meanings? Seek the composer's intentions? Emphasize our personal responses? What makes some interpretations more convincing than others? In grappling with these questions, students will engage with writings by Agawu, Cone, Hanslick, Kramer, Langer, Lewin, Newcomb, and Schopenhauer, among others. Music to be studied includes works by Beethoven, Schubert, Chopin, Brahms, Mahler, Tchaikovsky, Ravel, Stravinsky, Glass, and Adams.

Class Format: This course will be taught remotely. During the first and last weeks of the semester, students will attend one or two online group classes; in the other weeks, students will meet with the instructor in pairs for a one-hour, online session at a mutually convenient time.

Requirements/Evaluation: Students will write and present a 5- to 6-page paper every other week and a 1-2 page response to their partner's paper in the alternate weeks; evaluation will be based on five papers/presentations, and five responses.

Prerequisites: Ability to read music, or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Any student who expresses a strong interest in the course
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: In this tutorial course, students will write and present a 5- to 6-page paper every other week (five papers total) and a 1- to 2-page response to their partner's paper in the alternate weeks (five responses total). Through discussion in the tutorial sessions and comments on the papers, the course will place strong emphasis on developing students' critical thinking and writing skills.

Spring 2021
TUT Section: RT1   TBA   Marjorie W. Hirsch

MUS 273 (F) Dangerous Music (WS)
As a largely non-referential art whose meanings are far from transparent, music might seem to pose little danger. How could mere sounds represent a threat? Yet precisely because its meanings can be obscure, enabling it to achieve its ends surreptitiously, music has intertwined with danger throughout history. With its power to stir the emotions, stimulate bodily movement, encode messages, and foment rebellion, music has often been perceived as an agent of harm. Plato claimed that too much music could make a man effeminate or neurotic, and warned that certain musical modes, melodies, and rhythms promote licentious behavior and anarchic societies. Puritans, Victorians, and totalitarians, as well as opponents of ragtime, rock ‘n roll, and rap, have also accused certain musical genres or styles of exerting dangerous influences, and sought to limit or suppress them. In Afghanistan, the Taliban banned music altogether. While music has often been unfairly accused, its potential for placing people in actual danger is undeniable. Works that are played at ear-splitting decibel levels, that call upon performers to injure themselves, that are used as a form of psychological torture, or that incite violence demand reconsideration of the widely shared view that music is fundamentally a form of entertainment.

Class Format: Will be taught remotely
Requirements/Evaluation: evaluation will be based on participation, five 5-6-page papers/presentations, and five 1-2 page responses
Prerequisites: an ability to read music is desirable but not required
Enrollment Limit: 10
Enrollment Preferences: students with demonstrated interest in music
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Students will write five 5-6 page papers and five 1-2 page responses, and will receive extensive feedback on their writing.

TUT Section: RT1   TBA   Marjorie W. Hirsch

MUS 278 (S) Carmen, 1845 to Now (DPE) (WS)
Cross-listings: MUS 278  WGSS 248

Primary Cross-listing
The story of the gypsy femme fatale Carmen has endured for over 150 years. In Western culture and beyond, she exemplifies the seductive, exotic, independent, and dangerous woman who drives an upstanding man to a life of crime and finally murder. This course explores a broad array of treatments of this archetypal and problematic narrative, starting with Prosper Mérimée's 1845 novella on which Bizet based his famous 1875 opera Carmen. We will consider various staged and film versions of the opera itself, including Francesco Rosi's stunning 1984 movie, and discuss various other film transformations of the story, from DeMille's 1915 silent film through Hammerstein's 1954 all-black musical Carmen Jones, to the MTV version A Hip Hopera of 2004. Comic approaches will also be assessed, from Charlie Chaplin's Carmen Burlesque of 1915 through Spike Jones' 1952 Carmen Murdered! and The Naked Carmen of 1970. We will explore provocative dance interpretations ranging from Carlos Saura's 1983 flamenco version through David Bourne's choreography in his 2001 gay reading called The Car Man. Our journey concludes with a comparison of two post-colonial sub-Saharan African films--the Senegalese director Ramaka's Karmen Geï (2001) and U-Carmen eKhayelitsha (2005) by the South
African director Dornford-May—that push critical reaction to Bizet's story and music beyond Western cultural boundaries.

Class Format: Remote format. After four initial 75-minute group meetings to discuss Mérimée's novella and Bizet's music, students will meet with the instructor in pairs for one hour each week. The scheduled class time is obligatory only for the first two weeks, after which weekly pair meetings will be individually scheduled.

Requirements/Evaluation: Each student will write a 5- to 6-page essay every other week (five in all), and provide 2-page written and oral peer reviews in alternate weeks; evaluation will be based on the quality of written work, discussions, and oral presentation.

Prerequisites: None; ability to read music useful but not necessary

Enrollment Limit: 10

Enrollment Preferences: Preference given to current or prospective Music and Women's Gender & Sexuality Studies majors, then seniors and juniors.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 278 (D1) WGSS 248 (D2)

Writing Skills Notes: Students will write five short essays of 5-6 pages each, and receive oral and written feedback addressing structure, argumentation, and style from their tutorial partner and the instructor on every essay.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement through a critical examination of the ways in which the Carmen story has served as a stage on which multifaceted textual and musical constructions and conflicts express the power dynamics between individual and group identities, encompassing gender and sexuality, nationality, race, ethnicity, and class.

Spring 2021

TUT Section: RT1 MW 11:45 am - 1:00 pm M. Jennifer Bloxam

MUS 279 (F) American Pop Orientalism (DPE) (WS)

This tutorial will investigate the representation of Asians and Asian Americans in American popular culture since the late nineteenth century. Our focus will be on music's role in Orientalist representation in a wide variety of media and genres, including Hollywood film, television, popular song, music videos, Broadway musicals, hip hop, and novels. We will begin with major texts in cultural theory (Said, Bhabha) and will attempt throughout the semester to revise and refine their tenets. Can American Orientalism be distinguished in any fundamental way from nineteenth-century European imperialist thought? How does Orientalist representation calibrate when the "exotic others" being represented are themselves Americans? Our own critical thought will be sharpened through analysis and interpretation of specific works, such as Madame Butterfly, "Chinatown, My Chinatown," Sayonara, Flower Drum Song, Miss Saigon, Rising Sun, M. Butterfly, Aladdin, and Weezer's Pinkerton. We will end the semester by considering the current state of Orientalism in American popular culture.

Requirements/Evaluation: five 5- to 6-page essays and five critical oral responses

Prerequisites: previous related coursework and/or musical experience is desirable, but is not required

Enrollment Limit: 10

Enrollment Preferences: students with prior related course experience

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students will develop analytical and interpretive skills applicable to their future engagements with a wide range of art forms as we investigate the musical, literary, and visual techniques employed in works of exotic representation. We will focus on how popular culture has shaped and reflected perceptions of race and gender in American history since the late 19th century.

Fall 2020
MUS 352 (S) Interplay: Collaborative Traditions in Jazz

"Meaningful theorizing about jazz improvisation at the level of the ensemble must take the interactive, collaborative context of musical invention as a point of departure" - Ingrid Monson, Saying Something. Collaboration gives birth to specific musical moments, shapes the dramatic arc of whole pieces and performances, and is the foundation out of which the styles and larger artistic identities of individuals and groups arise. This class is an opportunity for advanced students of jazz music to investigate the uniquely collaborative nature of jazz language assimilation and communication. Participants will transcribe and analyze examples of musical interplay from the recorded works of the Miles Davis Quintet of the 1960's, the John Coltrane Quartet of the 1960's, and other notable jazz ensembles. They will also undertake a thorough profile of a modern-day ensemble, including a performance-based final project. Essays on jazz aesthetics by Berliner, Monson, Hobson and Rinzler among others will serve to broaden our discussions as we examine the ideas of musical collaboration and group identity through social and commercial lenses.

Class Format: hybrid
Requirements/Evaluation: an assortment of weekly writing/listening/transcription/analysis/composition/performance projects
Prerequisites: advanced jazz theory and performance skills, permission of instructor, MUS 104b, 204 highly suggested
Enrollment Limit: 10
Enrollment Preferences: Music majors, jazz ensemble members
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Spring 2021
TUT Section: HT1 TBA Kris Allen

PHIL 109 (F) Skepticism and Relativism (WS)

Intellectually, we are ready skeptics and relativists. We doubt, we point out that no one can be certain in what she believes, and we are suspicious of declarations of transcendent reason or truth (unless they are our own). Emboldened by our confidence in skeptical arguments, we claim that knowledge is inevitably limited, that it depends on one's perspective, and that everything one believes is relative to context or culture. No domain of inquiry is immune to this destructive skepticism and confident relativism. Science is only "true" for some people, agnosticism is the only alternative to foolish superstition, and moral relativism and, consequently, nihilism are obvious. But is the best conclusion we can come to with respect to our intellectual endeavors that skepticism always carries the day and that nothing at all is true? In this tutorial, we will investigate the nature of skepticism and the varieties of relativism it encourages. Our readings will come primarily from philosophy, but will be supplemented with material from anthropology, physics, psychology, and linguistics. We will look at relativism with respect to reason and truth in general as well as with respect to science, religion, and morality. Along the way, we will need to come to grips with the following surprising fact. With few exceptions, thoroughgoing skepticism and relativism have not been the prevailing views of the greatest minds in the history of philosophy. Were they simply too unsophisticated and confused to understand what is for us the irresistible power of skepticism and relativism? Or might it be that our skepticism and relativism are the result of our own laziness and failure? Of course, this question cannot really be answered, nor is there any value in trying to answer it, and any "answer" will only be "true" for you. Right?

Class Format: This tutorial will convene remotely via Zoom video according to a fixed weekly schedule agreed upon by the instructor and the two tutorial participants at the beginning of the semester.
Requirements/Evaluation: participants will present substantial written work in the tutorial every other week, and will be responsible for commenting on their tutorial partner's work.
Prerequisites: none; this tutorial is an appropriate first course in PHIL.
Enrollment Limit: 8
Enrollment Preferences: first-year students; there is no need to write to the instructor indicating a special interest in the tutorial. If oversubscribed, students will be selected randomly.
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Unit Notes: meets 100-level PHIL major requirement
**PHIL 127 (F)(S) Meaning and Value** (WS)

What gives an individual life meaning? Pleasure? Success in fulfilling desires? Flourishing in ways distinctive to a rational agent or a human being (including, for example, developing rational capacities and self-mastery, succeeding in worthwhile projects, cultivating relationships, living morally, developing spiritually)? Can we be mistaken about how well our lives are going, or about what has value? What are the main sources of uncertainty here? Does the fact that our lives will end threaten their meaning? Can luck spoil an otherwise meaningful life? Can science contribute to our understanding of these issues? We'll examine these and related questions through historical and contemporary readings.

**Class Format:** This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.

**Requirements/Evaluation:** Five tutorial papers (5-6 pages in length), five critiques (2-3 pages in length), and one rewrite.

**Prerequisites:** None. This tutorial is an appropriate first course in PHIL.

**Enrollment Limit:** 10

**Enrollment Preferences:** First-year students and potential philosophy majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** This course meets the 100-level PHIL major requirement.

**Writing Skills Notes:** Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

---

**PHIL 202 (S) History of Modern Philosophy**

This course is a survey of 17th- and 18th-century European philosophy, with a focus on metaphysics and epistemology. Topics will include: What can we know through our senses? Can we know anything through reason alone? What is the nature of the mind? What is the nature of body? What is the relationship between mind and body? What are space and time? Are we rationally justified in drawing causal inferences? Are we justified in believing in God? Authors will include: Descartes, Locke, Berkeley, Leibniz, Hume, and Kant.

**Requirements/Evaluation:** This course will implement the tutorial format and be conducted remotely. Each week, students will complete the assigned readings, watch a pre-recorded lecture by the instructor (asynchronously), write an essay, and meet in pairs (or trios) with the instructor for roughly 75 minutes (synchronously). Students will take turns as the leader one week, and the respondent the next. The week's leader will write a 5- to 6-page essay on the assigned reading, due 36 hours before the meeting. The week's respondent will write a 2- to 3-page essay on the leader's essay, due at the time of the meeting.

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** Preference will be given to Philosophy majors and to students planning to declare the Philosophy major.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Philosophy majors must take either PHIL 201 or PHIL 202 (and can take both)
From questions about contact tracing apps to racial and age disparities in health risk and outcomes, the COVID-19 pandemic has foregrounded the importance of ethics as a key concern in public health policies and activities. Moreover, the ethical issues that are implicated in responses to the pandemic reflect the range of those manifested across the field of public health as a whole. In this course, we will survey the ethics of public health through the lens of the COVID-19 pandemic, investigating concepts and arguments that are central to the ethics of public health research and practice. For example, we will examine the ethics of disease surveillance, treatment and vaccine research, resource allocation and rationing, compulsion and voluntariness in public health measures, and social determinants of health outcomes, among other topics. To do this, we will need to become familiar with key ethical theories; think deeply about such concepts as privacy, paternalism and autonomy, exploitation, cost-benefit analysis and justice; and compare the function of these concepts in the context of the COVID-19 pandemic with the way they work in responses to other public health concerns.

Class Format: This class will be conducted remotely, via weekly synchronous tutorial meetings on Zoom or Google Meet.

Requirements/Evaluation: Biweekly 5-7 page papers, oral commentaries, and tutorial discussions.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Philosophy majors and Public Health concentrators, students with a specific curricular need for the course, and students with a high level of interest who are unlikely to have an opportunity to take the course in a future term

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: Public Health concentrators may use either PHIL 211T Ethics of Public Health or PHIL 213T Biomedical Ethics to fulfill their 3-elective requirement, but they may not use both courses to do so.

Distributions: (D2)  (WS)

Writing Skills Notes: Students will write six biweekly papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Much like the construction of medical knowledge itself, it is from specific cases that general principles of biomedical ethics arise and are systematized into a theoretical framework, and it is to cases they must return, if they are to be both useful and comprehensible to those making decisions within the biomedical context. In this tutorial we will exploit this characteristic of biomedical ethics by using a case-based approach to examining core concepts of the field. The first portion of the course will be devoted to developing and understanding four moral principles which have come to be accepted as canonical: respect for autonomy, beneficence, nonmaleficence, and justice. The remainder of the course will consider key concepts at the core of medical ethics and central issues for the field, such as privacy and confidentiality, the distinction between killing and "letting die," and therapy vs. research. To this end, each week we will (1) read philosophical material focused on one principle or concept, and (2) consider in detail one bioethics case in which the principle or concept has special application or relevance. In some weeks, students will be asked to choose from a small set which case they would like to address; in others the case will be assigned.

Class Format: students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners' essays in alternate weeks

Requirements/Evaluation: bi-weekly papers, oral commentaries, and tutorial discussions

Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: PHIL majors, PHLH concentrators, those who have a curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Spring 2021
TUT Section: RT1 TBA Julie A. Pedroni

PHIL 225  (F)  Existentialism
We will study the philosophical and literary works of Soren Kierkegaard, Friedrich Nietzsche, Jean-Paul Sartre, Simone de Beauvoir, and Albert Camus. What makes these thinkers "Existentialists"? It's not merely that they ask the question, "What gives meaning to a human life?" And, it's not merely that their answers invoke our freedom to determine our own identities. More than this, Existentialists emphasize the subjective relation we bear to our belief systems, moral codes, and personal identities. Existentialists investigate irrational phenomena of human life, including anxiety, boredom, tragedy, despair, meaning, death, faith, sexuality, love, hate, sadism, masochism, and authenticity. And, Existentialists express their thought in philosophical treatises as often as in literary works. In this course we will attempt to understand the dimensions in which Existentialism is a distinctive intellectual tradition.

Class Format: This course will implement the tutorial format and be conducted remotely. Each week, students will watch a pre-recorded lecture given by the professor (asynchronously), and meet in pairs or trios with the professor for roughly 75 minutes via Zoom (synchronously).

Requirements/Evaluation: Each week, students will complete the assigned readings, watch a pre-recorded lecture by the professor, write an essay, and meet in pairs or trios with the professor. Students will take turns as the leader one week, and the respondent the next. The week's leader will write a 5- to 6-page essay on the assigned reading, due 48 hours before the meeting. The week's respondent will write a 2-page essay on the leader's essay due at the time of the meeting. At the meetings, both students will present their essays and hold a discussion. Students will be evaluated cumulatively on their essays and contributions to discussion.

Prerequisites: none
Enrollment Limit: 18
Enrollment Preferences: preference to Philosophy majors
Expected Class Size: 18
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

Fall 2020
TUT Section: RT1 TBA Justin B. Shaddock

PHIL 236  (F)  Contemporary Ethical Theory  (WS)
This course will examine central questions in normative ethics, including the following: Which features of actions are morally important and why (e.g., their motive, their intrinsic nature, or their consequences)? Which characteristics of persons give them moral status? How should moral equality be understood, and what is its foundation? When should we give morality priority over personal commitments and relationships, and why? What makes an individual's life go well? Are we capable of disinterested altruism, or are we motivated solely by self-interest? By which methods should we pursue these questions? We will examine these and related issues by looking in depth at contemporary defenses of consequentialist, deontological, and contractualist theories.

Class Format: This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed upon by the instructor and participants.
Requirements/Evaluation: Six tutorial papers (5-6 pages in length) and six critiques (2-3 pages in length).

Prerequisites: at least one PHIL course or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Current and prospective philosophy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, spaced evenly throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1    TBA     Melissa J. Barry

PHIL 243 (F) The Philosophy of Higher Education: College Controversies (WS)

What are the purposes of higher education? What are the purposes of liberal arts colleges in America? What should be the goals of Williams College? We will begin examining these questions by studying the history of controversies in American higher education, concentrating especially on debates about the curriculum. We will then turn to contemporary controversies such as campus free speech. Assigned works will include Booker T. Washington, Industrial Education, W.E.B. Dubois, The Talented Tenth, Frederick Rudolph, Williams College 1793-1993: Three Eras, Three Cultures, Michael S. Roth, Beyond the University: Why Liberal Education Matters, Allan Bloom, The Closing of the American Mind, Martha Nussbaum, Cultivating Humanity, William Deresiewicz, Excellent Sheep: The Miseducation of the American Elite and the Way to a Meaningful Life, Greg Lukianoff and Jonathan Haidt, The Coddling of the American Mind: How Good Intentions and Bad Ideas Are Setting Up a Generation for Failure, and Anthony T. Kronman, The Assault on American Excellence.

Class Format: This course is a tutorial. Students will meet in pairs with the instructor one hour per week. The default assumption is that this course will meet on-line. If the weather permits we could sometimes meet outside. If there is a reasonably sized well ventilated classroom we could occasionally meet there.

Requirements/Evaluation: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: I will be seeking a balance of interests and backgrounds; preference given to students who have taken at least one philosophy course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks, and will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1    TBA     Steven B. Gerrard

PHIL 244 (S) Environmental Ethics (WS)

Cross-listings: ENVI 244 PHIL 244

Secondary Cross-listing

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature (e.g., Leopold, Taylor, Rolston). Subsequent sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of
moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

**Class Format:** Remote format. Students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners' essays in alternate week

**Requirements/Evaluation:** six essays (5-7 pages each) and six carefully prepared oral responses to partners' essays; evaluation will be based on essays, oral responses, and quality of discussion

**Prerequisites:** ENVI 101 or one course in PHIL

**Enrollment Limit:** 10

**Enrollment Preferences:** declared and prospective Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** meets Value Theory requirement only if registration is under PHIL

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 244 (D2) PHIL 244 (D2)

**Writing Skills Notes:** Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

---

PHIL 250  (S)  Philosophy of Economics  (WS)

The status of economics as a predictive science has been most prominently brought into question, historically, by three unpredicted yet extremely important economic events: the Great Depression of the 1930s, stagflation of the 1970s, and bursting of the mortgage bubble in 2008. The issue of prediction was also raised by economist Donald McCloskey who, in 1988, asked his fellow economists, "If you're so smart, why ain't you rich?" Some critics find predictive failures of economists unsurprising, given the frequent reliance of the latter on assumptions known to be false (e.g., that economic agents are always selfish, have perfect information, and never make mistakes) and on models that unavoidably ignore potentially relevant factors. Perhaps, then, economics is not primarily a predictive science, but instead a descriptive, historical, and/or mathematical one. In this course, relying on works by economists and philosophers, we examine the status of economics as an academic discipline, focusing on its assumptions, methods, and results.

**Requirements/Evaluation:** six 6- to 8-page essays, six 2- to 3-page response papers, participation in discussions

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Philosophy majors and potential majors, then Economics majors and potential majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**Writing Skills Notes:** Six 6- to 8-page essays. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

PHIL 252  (F)  Autopoietic Systems  (WS)
Cross-listings:  PHIL 252  STS 252

Primary Cross-listing

In ancient Greece, Democritus took his ontological bearings by atoms he took not to come to be, change, or pass away, but to move and interconnect in space so as to compose everything else. Plato also took his ontological bearings by entities that do not change, but ones that are not in space or time: mathematical structures and, at least aspirationally, the forms or ideas of the good, the beautiful, etc. Aristotle, finally, took his ontological bearings by temporal entities, i.e., organisms. In these terms, modern science combines central teachings of Democritus and Plato: the universe is understood as a mechanism whose components--ultimately, atoms--interact in ways governed by mathematical laws, and--for Descartes and his followers--animals, too, are machines rather than organisms. Hence, Laplace's (1814) thesis that "An intellect which at a certain moment would know all forces that set nature in motion, and all positions of all items of which nature is composed, if this intellect were also vast enough to submit these data to analysis, it would embrace in a single formula the movements of the greatest bodies of the universe and those of the tiniest atom; for such an intellect nothing would be uncertain and the future just like the past would be present before its eyes." This deterministic, mechanistic, and reductionist way of thinking has, for the past several hundred years, powerfully influenced such diverse fields as philosophy, biology, and economics. Over the past few decades, however, it has been challenged by new discoveries, particularly in physics and biology, and by theoreticians in a variety of disciplines. These theoreticians focus on complex, dynamic systems as, in one terminology, wholes that are more than the sums of their constituents. In this tutorial, we examine some of the most promising and intriguing trends in this potentially revolutionary movement. Our central focus will be on autopoietic systems, i.e., entities that subsist over time despite changing their material constituents. The smallest such entities are cells, but the tissues, organs, and organisms of which many cells are constituents are also autopoietic systems, as are yet more complex entities such as universities, economies, ecosystems, and states. The process ontology required by autopoietic systems is a radical alternative to the ontology that has been dominant for the past several centuries. It has many exciting implications for various subdisciplines in philosophy and for various academic disciplines beyond philosophy.

Class Format: Virtual

Requirements/Evaluation:  Presentations, responses to presentations, essays, response papers, participation in discussions.

Prerequisites:  None.

Enrollment Limit:  10

Enrollment Preferences:  Philosophy majors and potential majors.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 252 (D2)  STS 252 (D2)

Writing Skills Notes:  Students will write 6 6-8 page essays and 6 2-3 page response papers. I will comment on all the essays, and my comments will aim to help students improve their writing skills. Among the issues to be addressed will be the challenge of writing essays to be presented rather than simply to be read.

Fall 2020

TUT Section:  HT1  TBA  Alan White

PHIL 272  (S)  Free Will and Responsibility  (WS)

Cross-listings:  PHIL 272  JLST 272

Primary Cross-listing

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? Must it be unaffected by any outside influences? If so, freedom may seem impossible since we're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The real question, then, seems to be whether, and how, free choice is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Class Format:  This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.
Requirements/Evaluation: Five tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)
Prerequisites: one PHIL course
Enrollment Limit: 10
Enrollment Preferences: current and prospective Philosophy majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PHIL 272 (D2) JLST 272 (D2)

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Spring 2021
TUT Section: RT1 TBA Melissa J. Barry

PHIL 315 (F) Kant's Critique of Pure Reason
Kant's Critique of Pure Reason is perhaps the most significant text in the history of philosophy. It puts an end to the Early Modern traditions of Rationalism and Empiricism, and it stands at the beginning of both the Analytic and Continental traditions in contemporary philosophy. Love it or hate it, you cannot ignore it. In this course, we will study the most important and influential chapters of the Critique with the help of some secondary literature.

Class Format: This course will implement the tutorial format and be conducted remotely. Each week, students will watch a pre-recorded lecture given by the professor (asynchronously), and meet in pairs with the professor for roughly 75 minutes on Zoom (synchronously).

Requirements/Evaluation: Each week, students will complete the assigned readings, watch a lecture by the professor, write an essay, and meet in pairs with the professor. Students will take turns as the leader one week, and the respondent the next. The week's leader will write a 6-page essay on the assigned reading, due 48 hours before the meeting. The week's respondent will write a 2- to 3-page essay on the leader's essay due at the time of the meeting. At the meetings, both students will present their essays and hold a discussion about the readings. Students will be evaluated cumulatively on their essays and contributions to discussion.
Prerequisites: PHIL 202
Enrollment Limit: 10
Enrollment Preferences: Philosophy majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

Fall 2020
TUT Section: RT1 TBA Justin B. Shaddock

PHIL 326 (S) Foucault Now (DPE) (WS)
Cross-listings: WGSS 336 PHIL 326

Primary Cross-listing
If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial
you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by scholars that draw on Foucault to address problems in today's present. Among the contemporary texts assigned might be the following: Bernard Harcourt's *Exposed: Desire and Disobedience in the Digital Age*, Saidiya Hartman's *Wayward Lives, Beautiful Experiments* (2019), Verena Ehrenbusch's *Terrorism: A Genealogy*, Cressida Heyes' *Anaesthetics*, Ladelle McWhorter's *Racism and Sexism in Anglo-America: A Genealogy*, and *Active Intolerance: Michel Foucault, The Prisons Information Group, and the Future of Abolition*, eds. Perry Zum and Andrew Dilts.

Class Format: I will meet with students in a seminar format at various points throughout the semester. I have requested a class block for this reason.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Relevant background in critical theory, social theory, political theory or philosophy.

Enrollment Limit: 10

Enrollment Preferences: I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336 (D2) PHIL 326 (D2)

Writing Skills Notes: This is a tutorial. Students will write five or six 5-6-page papers during the course of the the semester and receive significant feedback on each paper. At the end of each tutorial meeting the student is asked to reflect on how they would approach the paper differently if they were to rewrite it. In this version of the course, I may ask students to select one paper to revise as a final assignment.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. Moreover, we will read material that uses Foucauldian tools to address contemporary issues involving sexism and racism, digital surveillance, and the abolition of prisons.

Spring 2021

TUT Section: RT1 TBA Jana Sawicki

**PHIL 337 (F) Justice in Health Care** (WS)

Justice is a notoriously complex and elusive philosophical concept, the conditions of which are even more difficult to articulate within real world institutions and contexts than in the abstract. In this course we'll explore justice as a fundamental moral principle and as a desideratum of the US health care system. The first portion of the course will be devoted to considering general theories of justice as well as alternative conceptions of justice specifically within the health care context. While social justice and distributive justice are deeply intertwined in the health care context and we will discuss both, we will focus primarily on the concept of distributive justice. This theoretically oriented work will provide the background for subsequent examination of specific topics, which may include, among others: justice in health care financing and reform; justice in health care rationing and access to health care, with particular attention to the intersections of rationing criteria with gender, sexuality, race, disability, and age; justice in the procurement and allocation of organs for transplantation; obesity and personal responsibility for illness; and justice in medical research, including "double standards" for research conducted in low resource settings.

Class Format: This class will be conducted remotely, via weekly synchronous tutorial meetings on Zoom or Google Meet.

Requirements/Evaluation: biweekly papers, oral commentaries, and tutorial discussions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: PHIL majors, PHLH concentrators, those with curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment, and those who are unlikely to have an opportunity to take the course in a later term

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)
Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Fall 2020

TUT Section: RT1 TBA Julie A. Pedroni

PHIL 350 (S) Emotions
Philosophy is often described as thinking about thinking: variously conceived inquiries into the nature, scope and limits of human reasoning have always been at its heart. Without challenging the centrality of such projects for philosophy, this tutorial will focus on a less emphasized, but equally essential aspect of our lives: emotions. What are emotions, and how should we think about them? What is the proper ‘geography’—classification and analysis—of our emotions, and what is their relation to our somatic states, feelings, beliefs, judgments, evaluations and actions? Do we have any control over our emotions? Could we (individually and socially) educate and cultivate them? How are conscious and unconscious emotions related to a person’s action, character, and her social world? In addressing these substantive questions, we will also consider which methodological approach—if a single one can be privileged—we should adopt for examining emotions. We will try to determine what is the scope and nature of an adequate theory of emotions, what are the desiderata for such a theory, and what should count as evidence in its favor. We will examine a variety of philosophical and scientific theories of emotion, as well as some issues concerning normative aspects of emotions: the role of emotions in a good life, and the concept of emotional maturity.

Class Format: The class will meet remotely only.

Requirements/Evaluation: Class attendance, preparedness and participation; weekly meetings with the tutorial partner outside of the class; five lead papers (5-7 pages) and five short response papers (2-3 pages).

Prerequisites: two philosophy courses.

Enrollment Limit: 10

Enrollment Preferences: philosophy majors and prospective majors, then psychology majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021

TUT Section: RT1 TBA Bojana Mladenovic

PHYS 402 (S) Applications of Quantum Mechanics (QFR)
This course will explore a number of important topics in the application of quantum mechanics to physical systems, including perturbation theory, the variational principle and the semiclassical interaction of atoms and radiation. The course will finish up with three weeks on quantum optics including an experimental project on non-classical interference phenomena. Applications and examples will be taken mostly from atomic physics with some discussion of solid state systems.

Class Format: hybrid

Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 301

Enrollment Limit: 10 per sec

Enrollment Preferences: Physics and Astrophysics Majors

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course has weekly problem sets, all of which have a substantial quantitative component.
PHYS 411  (F)  Classical Mechanics  (QFR)
This course will explore advanced topics in classical mechanics including the calculus of variations, the Lagrangian and Hamiltonian formulations of mechanics, phase space, non-linear dynamics and chaos, central-force motion, non-inertial reference frames (including implications for physics on a rotating Earth), and rigid-body rotations. Numerical and perturbative techniques will be developed and used extensively. We will also examine the ways in which classical mechanics informs other fields of physics. In addition to weekly tutorial meetings the class will meet once a week as a whole to discuss new material.

Class Format: hybrid
Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, a final project, and a final exam, all of which have a substantial quantitative component
Prerequisites: PHYS 202 and PHYS/MATH 210 or MATH 209
Enrollment Limit: 10/section
Enrollment Preferences: majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: weekly problem sets requiring substantial quantitative reasoning using analytical and numerical methods.

POEC 214  (S)  The Economics and Ethics of CO2 Offsets  (WS)
Cross-listings: POEC 214  ENVI 212  ECON 214
Secondary Cross-listing
Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

Class Format: This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.
Requirements/Evaluation: a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper
Prerequisites: ECON 110 or the equivalent, permission of instructor
Enrollment Limit: 10
Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
POEC 214 (D2)  ENVI 212 (D2)  ECON 214 (D2)

Writing Skills Notes: Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner’s papers. As the final assignment, each student will revise one of their five papers.

Spring 2021
TUT Section: RT1    TBA    Ralph M. Bradburd

POEC 280  (F)  Silicon Valley: Digital Transformation and Democracy

Cross-listings: POEC 280  PSCI 280  STS 280

Secondary Cross-listing

Nearly every country in the world seeks to drive economic growth by promoting digital technologies. In the twenty-first century, the universal model is Silicon Valley. But as much as tech may drive economic growth, it may also threaten democratic politics. This tutorial explores this tension. We do so in four steps by examining (1) the origins of the Silicon Valley model, (2) other countries’ attempts to emulate it, (3) what it’s like to work in tech, and (4) possibilities for regulating the tech sector. Each step will deepen students’ understanding of tech. By engaging multiple analytical lenses, students will develop the tools to articulate the possibilities and imperatives of democratic politics in the twenty-first century.

Requirements/Evaluation: Five 5-page papers; five 2-page responses; participation

Prerequisites: One introductory course in political science and/or permission of the instructor.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to sophomores or juniors majoring in a Division II field

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Fall 2020
TUT Section: RT1    TBA    Sidney A. Rothstein

PSCI 160  (F)  Refugees in International Politics  (DPE)  (WS)

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be—how a crisis can be chronic. We investigate who refugees are, in international law and popular understanding; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations’ roles in managing population displacement; look at the way that images convey stereotypes; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

Requirements/Evaluation: eleven essays: five lead, five response, and one statement. The first two weeks' essays' grades will be unrecorded.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE)  (WS)

Writing Skills Notes: In addition to writing every week, students will have a chance to write ungraded work; will have a chance to revise submitted work; and will have a chance to work on specific skills cumulatively.

Difference, Power, and Equity Notes: This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we
worry about some of these categories of oppression more than others.

Fall 2020
TUT Section: RT1 TBA Cheryl Shanks

PSCI 219 (F) Women and Girls in (Inter)National Politics (DPE)
Cross-listings: INTR 219 PSCI 219 AFR 217 WGSS 219 LEAD 219
Secondary Cross-listing
This tutorial focuses on the writings and autobiographies of women who have shaped national politics through social justice movements in the 20th-21st centuries. Women and girls studied include: Fannie Lou Hamer, Shirley Chisholm, Safiya Bukhari, Erica Garner, Greta Thunberg, Malala Yousafzai, Marielle Franco, Winnie Mandela.
Requirements/Evaluation: Weekly 5-page primary analytical papers and 2-page response papers.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Juniors and seniors, sophomores.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
INTR 219 (D2) PSCI 219 (D2) AFR 217 (D2) WGSS 219 (D2) LEAD 219 (D2)
Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2020
TUT Section: RT1 TBA Joy A. James

PSCI 221 (S) Cold War Intellectuals: Civil Rights, Writers and the CIA (DPE)
Cross-listings: AFR 224 PSCI 221 AMST 201 LEAD 220 INTR 220
Secondary Cross-listing
This tutorial focuses on US-based views of the Cold War. It examines how intelligence agencies and intellectuals, as well as government officials, viewed civil rights, human rights, and US hegemony. Readings include: Williams J. Maxwell (F. B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature); James Baldwin (The Fire Next Time); Ralph Ellison (The Collected Essays of Ralph Ellison); Report to the President by the Commission on CIA Activities Within the United States (1975, VP Nelson Rockefeller, chair); Hugh Wilford (The Mighty Wurlitzer: How the CIA Played America); Hannah Arendt (The Origins of Totalitarianism; On Violence; "Reflections on Little Rock"); Frances Stonor Saunders (Who Paid the Piper? The CIA and the Cultural Cold War). Students alternate weekly between 5-page primary and 2-page secondary papers on assigned readings.
Requirements/Evaluation: Attend all classes; submit completed papers 24 hours before seminar meets.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Juniors and Seniors.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 224 (D2) PSCI 221 (D2) AMST 201 (D2) LEAD 220 (D2) INTR 220 (D2)
Difference, Power, and Equity Notes: This tutorial examines the Cold War between the US and the USSR and attempts to use intellectuals to shape and promote the objectives of powerful state entities. The power struggle between the two "superpowers" impacted cultural production and authors. Some of those authors influenced or enlisted into the Cold War sought equity and equality for their communities and eventually fought against the very political powers that employed them.

PSCI 312  (S)  American Political Thought  (WS)
Cross-listings: PSCI 312  LEAD 312
Primary Cross-listing

From democracy to liberty, equality to community, foundational ideas -- about what makes for good government, about what constitutes the good society, about what is necessary to lead a good life -- define the American political tradition and consume the American political imagination. Designed not only to uncover these (sometimes melodious, sometimes cacophonous) values but also to place current ideological debates about them in a broader developmental context, this tutorial will offer a topical tour of American political thinking from the birth of nationalism in the colonial period to the remaking of conservatism and liberalism in the early twenty-first century. Utilizing primary source material ranging from presidential speeches to party platforms, newspaper editorials to novels, we will seek to interrogate -- reconciling where possible, distinguishing where necessary, interpreting in all instances -- the disparate visions and assessments of the American political experience offered by politicians, artists, intellectuals, activists, and ordinary citizens over the course of more than two centuries. Our focus, then, is nothing less than the story of America -- as told by those who lived it.

Class Format: For spring 2021, this course will be taught remotely, with a few synchronous seminar classes at the start and end of the course bookending weekly synchronous tutorial sessions.
Requirements/Evaluation: five 5- to 7-page essays, five 2- to 3-page critiques, and a revised and extended 10- to 12-page final essay
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Political Science majors and prospective majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSCI 312 (D2) LEAD 312 (D2)

Writing Skills Notes: Weekly writing with extensive attention to feedback, revision, and improvement.

Spring 2021
TUT Section: RT1    MW 8:15 am - 9:30 am     Justin Crowe

PSCI 332  (S)  The Body as Property  (DPE)
From an ethical standpoint, human bodies are fundamentally different from objects that can be owned, acquired, and exchanged. Yet history furnishes us with countless examples of laws, administrative rules, and social conventions that treat the human body as a form of property. The institution of slavery is a particularly egregious example. But there are other examples of treating the body as property that seem more ambiguous, or even benign: the employment contract in which bodily services are offered in exchange for payment; the feminist slogan "my body, my choice"; or even the every-day transfer of bodily properties into creative projects that then become part of the things people own --- chairs, tables, houses, music, art, and intellectual property. If it is not itself a form of property, how can we explain the use of the human body to acquire possessions, create wealth, and mediate the exchange of other kinds of property? These and other tensions between the concept of property and that of humanity will be the focus of this course. How is property defined, and how far should law go to erode or reinforce distinctions between property and humanity? Course readings focus on Locke, Hegel, Marx, and critical perspectives from feminist theory, critical theory, and critical legal studies (Cheryl Harris, Alexander Kluge, Oskar Negt, Carole Pateman, Rosalind Petchesky, and Dorothy Roberts, among others).

Class Format: Hybrid: Tutorial pairs with both students on campus will meet in person for the majority of our sessions (some weeks may be online). Pairs with one or both students learning remotely will meet exclusively online.
Requirements/Evaluation: five 5- to 7-page essays, five 2- to 3-page critiques, and a revised and extended 10- to 12-page final essay
Prerequisites: prior coursework in political theory, cultural theory, philosophy, or permission of instructor
Enrollment Limit: 10

Enrollment Preferences: Political Science majors (priority given to those concentrating in Political Theory ); Justice & Law Studies concentrators (priority given to those with extensive JLST coursework).
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course fulfills the Difference, Power, and Equity (DPE) requirement by examining how, in the context of legally-sanctioned power relations, bodily differences are constructed, monetized, and used to generate wealth. Race, class, and gender inequalities are central to the analysis.

Spring 2021
TUT Section: HT1    TR 8:00 am - 9:15 am     Nimu Njoya

PSCI 364  (S)  Noam Chomsky and the Radical Critique of American Foreign Policy
Noam Chomsky emerged as one of the most influential figures in the development of modern linguistics during the 1950's. However, since the Vietnam War, Chomsky has also established himself as perhaps the most influential critic of American foreign policy and the Washington national security establishment. This tutorial will examine his wide-ranging critique of American foreign policy over the last half century, focusing on his analysis of the role that he believes the media and academics have played in legitimizing imperialism and human rights abuses around the world. We will also explore the controversies and criticisms of his work from both the right and the left because of his political stance on issues ranging from the Arab-Israeli conflict to humanitarian intervention to free speech. Finally, we will also examine how Chomsky's views, largely considered to be radical for much of his life, have become far more mainstream over time.
Requirements/Evaluation: Students will write five 6-7 page papers over the course of the semester. On weeks that students are not writing the lead paper, they will write a 1-2 page critique of the essay submitted by their tutorial partner.

Prerequisites: One of the following courses is strongly recommended: PSCI 120, 127, 202.

Enrollment Limit: 10

Enrollment Preferences: Students with some previous coursework in American foreign policy or world politics.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: International Relations Subfield

Distributions: (D2)

Spring 2021
TUT Section: RT1  TR 8:00 am - 9:15 am    James McAllister

PSYC 158 (S)  Freud: A Tutorial  (WS)

Cross-listings: PSYC 158  HIST 485

Secondary Cross-listing

This tutorial is devoted to the systematic reading of the principal works of Sigmund Freud, one of the deepest, subtlest, and most influential thinkers of the last one-hundred years. Students will read Freud's work more or less chronologically, beginning with his writings on hysteria and concluding with his deeply pessimistic essay, Civilization and Its Discontents. In tutorial, we will consider the development of Freud's thought over the course of his professional life: his general psychological writings on the nature and functioning of the human psyche, his clinical writings on psychoanalysis as a form of treatment, and his cultural writings on art and artists, on the origin of human society, on religion, and on the relation of the individual to society and civilization. We will not be considering the relevance of Freud's ideas for purposes that transcend his own psychological agenda in the tutorial. Nor will we be much concerned with assessing whether Freud was "right" or "wrong" or whether his thought has clinical relevance today. Instead, we will seek to understand Freud as much as possible on his terms and not on ours, as a historical figure of originality, complexity and contradiction, whose thought deserves close reading and deep understanding within the context of Freud's thought itself.

Class Format: students will write and present orally six essays of 6-7 pages on assigned reading every other week; students not presenting an essay in a given week will be responsible for critiquing the presented essay

Requirements/Evaluation: student grades will be assigned only at the end of the semester based on their papers, their critiques, and their performance in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: juniors and seniors and History majors needing a 400-level seminar or tutorial to fulfill the requirements for a degree in History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: fulfills History's 400-level graduation requirement

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 158 (D2) HIST 485 (D2)

Writing Skills Notes: As a tutorial, this course is by definition writing skills, both in terms of the number of papers that students will produce (six) and in terms of the focus on writing during every tutorial session. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021
TUT Section: RT1    TBA    Thomas A. Kohut
PSYC 327  (S)  Cognition and Education

This class will examine major issues in education. The topics will include international differences in education, educational inequality, dropping out, the teaching labor force, why we have college, cognitive psychology in the classroom, and more. Each student will attend one meeting per week with me and one other student.

Class Format: This hybrid class will be taught synchronously. Students will be matched up in pairs, and hopefully pairs can be arranged such that if a student wants to meet in person they can be paired with another student who wants to meet in person. Meetings will last one hour. Attendance will be required.

Requirements/Evaluation: You will be required to submit a paper (5-7 pages) every other week. The alternate weeks you will read your partner's paper and write a reaction paper. The assignments will include non-fiction books, journal articles, podcasts, and documentaries. You will also be asked to find additional sources to write about in your papers. Evaluation will be based on papers, reaction papers, and participation.

Prerequisites: PSYC 221 or 222, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Psychology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021
TUT Section: HT1  TBA  Nate Kornell

PSYC 358  (F)  Developmental Psychopathology: Trajectories of Risk and Resilience

Why do some youth develop psychopathology in the face of adversity whereas others do not? How do we define psychological disorders in youth? Is resilience a static trait, or can it be promoted? How do we prevent youth from developing psychopathology? In this course, students will address these and other questions using a risk and resilience framework that examines the interactions among multiple risk and protective factors in the pathway to psychopathology. Specifically, students will examine the interactions between individual characteristics (e.g., neurobiological, interpersonal, cognitive, and emotional factors) and environmental contexts (e.g., family, school, peer, early adversity, poverty) in the development of risk and resiliency. Application of etiological models and empirical findings to prevention and intervention approaches will be explored. Throughout the course, students will evaluate current research based upon theory, methodological rigor, and clinical impact.

Class Format: This course will be offered remotely. Each week the professor and the tutorial pair will meet for 60 minutes in a synchronous online meeting. The meetings will be scheduled between 9am and 4pm EST based upon student and professor availability. Attendance will be required at the weekly synchronous online meeting.

Requirements/Evaluation: six 5-page papers, six short response papers, and participation in discussions

Prerequisites: PSYC 252; PSYC 201 recommended

Enrollment Limit: 10

Enrollment Preferences: Psychology majors and Public Health concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

REL 269  (F)  Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE)  (WS)

Cross-listings: REL 269  STS 269  ASST 269  ANTH 269

Secondary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to
Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutsch@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion
Prerequisites: A prior class or some experience with meditation is recommended
Enrollment Limit: 10
Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)
Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

REL 284 (S) From the Battlefield to the Hermit’s Cell: Art and Experience in Norman Europe (WS)

Cross-listings: REL 284 WGSS 284 ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans–a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries–each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects–an emboidery, a building, and a book–give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 284 (D2) WGSS 284 (D2) ARTH 218 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021
TUT Section: RT1 TBA Peter D. Low

REL 285 (S) Haunted: Ghosts in the Study of Religion

Haunting offers a powerful way to speak about forces that affect us profoundly while remaining invisible or elusive. "What is it that holds sway over us like an unconditional prescription? The distance between us and that which commands our moves—or their opposite, our immobility—approaches us: it is a distance that closes in on you at times, it announces a proximity closer than any intimacy or familiarity you have ever known" (Avital Ronell, Dictations: On Haunted Writing [1986] xvi-xvii). The figure of the ghost has been developed by those seeking to grapple with the ongoing effects of
modern slavery, colonialism, state-sponsored terrorism, the holocaust, and personal trauma and loss. Building upon the insights about memory, history, and identity that haunting has been used to address, this course will challenge you to explore the study of religion by way of its "seething absences." We shall ask how the study of religion has endeavored to address loss, trauma, and its persistent effects, what "holds sway" over various approaches to the study of religion, as well as how "religion" constitutes its own ghostly presence, haunting other domains.

**Class Format:** tutorial; meeting in pairs, each student will either write and present a paper or respond to their partner’s paper

**Requirements/Evaluation:** two 1-page papers (written and presented), five 5-page papers, and five oral critiques (based on written notes) of their partner’s paper; students will revise two papers

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Religion majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

REL 412 (F) Gandhi: History, Ideas and Legacy (WS)

**Cross-listings:** REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

**Secondary Cross-listing**

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

**Class Format:** REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

**Requirements/Evaluation:** 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

**Prerequisites:** None, except students who have taken HIST488T will not be permitted to take this class.

**Enrollment Limit:** 10

**Enrollment Preferences:** Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

**Writing Skills Notes:** As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.
RLSP 228 (S) Velázquez, Goya, and Picasso

Cross-listings: ARTH 228 RLSP 228

Primary Cross-listing

This course will provide an introduction to three major Spanish painters--Velázquez, Goya, and Picasso--who lived and worked, respectively, in the 17th, 18th, 19th and 20th centuries. Though these painters are world famous, they are rarely studied comparatively, and in the context of their Spanish artistic roots. The syllabus will cover the historical and social contexts in which they started working, and how they followed, and departed from, artistic conventions of the time. Through specific paintings, we will consider the historical evolution of the artists' relationship to their patrons and subjects, from the elite status of Velázquez within the royal court, to Goya's dramatic rise with the reigns of Charles III, and Charles IV, and his subsequent exile to France. Picasso was free of royal patronage and also lived in France, yet despite this freedom he remained deeply connected to the themes and concerns of his Spanish artistic predecessors. In addition to key paintings including Velázquez's "Las Meninas" and other royal portraits, Goya's "Maja Desnuda" and his series "The Disasters of War," Picasso's "Guernica," and his own 20th century reinterpretation of "Las Meninas," we will focus on the artists' shared subjects of portraits and war, and consider the following issues: How does the role of the Spanish artist change over the periods covered? How did the artist exercise his freedom whilst under the scrutiny of the court and the Catholic Church? How were these painters' lives and work shaped by key historical events such as the Inquisition, Napoleon's invasion of Spain, or the Spanish Civil War? How does the work of art evolve in its role from private royal commission to public display in museums open to all? We will read short literary pieces from each period, primary materials such as letters and other documents, and historical and critical works. All readings will be in English. Knowledge of Spanish is encouraged, but not required.

Requirements/Evaluation: 3- to 5-page weekly assignment

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Spring 2021

TUT Section: HT1 TBA Soledad Fox

RUSS 219 (S) Cults of Personality (WS)

Cross-listings: COMP 215 RUSS 219

Primary Cross-listing

First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase "cult of personality" was formulated to discredit the hero-worship that accompanied Joseph Stalin's iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China's Mao Zedong, Iran's Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. All readings will be in English, and all films will have English subtitles.

Class Format: remote

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none
This course is cross-listed and the prefixes carry the following divisional credit:

COMP 215 (D1) RUSS 219 (D1)

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

RUSS 248  (F)  Altering States: Post-Soviet Paradoxes of Identity and Difference  (DPE) (WS)

Cross-listings:  SOC 248  GBST 247  RUSS 248

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners’ and instructor’s discretion.

Requirements/Evaluation:  5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit:  10

Enrollment Preferences:  Anthropology, Sociology, and Russian majors

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 248 (D2) GBST 247 (D2) RUSS 248 (D1)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

Fall 2020
TUT Section: RT1    TBA     Olga Shevchenko

TUT Section: RT1    TBA     Olga Shevchenko
In ancient Greece, Democritus took his ontological bearings by atoms he took not to come to be, change, or pass away, but to move and interconnect in space so as to compose everything else. Plato also took his ontological bearings by entities that do not change, but ones that are not in space or time: mathematical structures and, at least aspirationally, the forms or ideas of the good, the beautiful, etc. Aristotle, finally, took his ontological bearings by temporal entities, i.e., organisms. In these terms, modern science combines central teachings of Democritus and Plato: the universe is understood as a mechanism whose components—ultimately, atoms—interact in ways governed by mathematical laws, and—for Descartes and his followers—animals, too, are machines rather than organisms. Hence, Laplace’s (1814) thesis that "An intellect which at a certain moment would know all forces that set nature in motion, and all positions of all items of which nature is composed, if this intellect were also vast enough to submit these data to analysis, it would embrace in a single formula the movements of the greatest bodies of the universe and those of the tiniest atom; for such an intellect nothing would be uncertain and the future just like the past would be present before its eyes." This deterministic, mechanistic, and reductionist way of thinking has, for the past several hundred years, powerfully influenced such diverse fields as philosophy, biology, and economics. Over the past few decades, however, it has been challenged by new discoveries, particularly in physics and biology, and by theoreticians in a variety of disciplines. These theoreticians focus on complex, dynamic systems as, in one terminology, wholes that are more than the sums of their constituents. In this tutorial, we examine some of the most promising and intriguing trends in this potentially revolutionary movement. Our central focus will be on autopoietic systems, i.e., entities that subsist over time despite changing their material constituents. The smallest such entities are cells, but the tissues, organs, and organisms of which many cells are constituents are also autopoietic systems, as are yet more complex entities such as universities, economies, ecosystems, and states. The process ontology required by autopoietic systems is a radical alternative to the ontology that has been dominant for the past several centuries. It has many exciting implications for various subdisciplines in philosophy and for various academic disciplines beyond philosophy.

Class Format: Virtual
Requirements/Evaluation: Presentations, responses to presentations, essays, response papers, participation in discussions.
Prerequisites: None.
Enrollment Limit: 10
Enrollment Preferences: Philosophy majors and potential majors.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PHIL 252 (D2) STS 252 (D2)

Writing Skills Notes: Students will write 6 6-8 page essays and 6 2-3 page response papers. I will comment on all the essays, and my comments will aim to help students improve their writing skills. Among the issues to be addressed will be the challenge of writing essays to be presented rather than simply to be read.

Fall 2020

STS 280 (F) Silicon Valley: Digital Transformation and Democracy

Cross-listings: POEC 280  PSCI 280  STS 280

Secondary Cross-listing

Nearly every country in the world seeks to drive economic growth by promoting digital technologies. In the twenty-first century, the universal model is Silicon Valley. But as much as tech may drive economic growth, it may also threaten democratic politics. This tutorial explores this tension. We do so in four steps by examining (1) the origins of the Silicon Valley model, (2) other countries’ attempts to emulate it, (3) what it’s like to work in tech, and (4) possibilities for regulating the tech sector. Each step will deepen students’ understanding of tech. By engaging multiple analytical lenses, students will develop the tools to articulate the possibilities and imperatives of democratic politics in the twenty-first century.

Requirements/Evaluation: Five 5-page papers; five 2-page responses; participation

Prerequisites: One introductory course in political science and/or permission of the instructor.

Hence, it cannot be easily discounted as irrelevant to a scientifically informed understanding of what it means to be human.

Requirements/Evaluation: tutorial format. one paper every two weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: preference for religion majors or future religion majors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 281 (D2) STS 281 (D2)
THEA 233 (S) Theatre Masters: Become One of Them

Cross-listings: THEA 233 ENGL 235

Primary Cross-listing

How well do you know Stanislavsky, Strasberg or Adler? This tutorial offers an exploration of the most notable theatre artists from the past and present. Students will select a specific master with a unique theatrical style, and will study that iconic artist's particular method or approach. Students will be encouraged to choose any master who had made a significant contribution to theatre -- such as Constantine Stanislavsky, Stella Adler, Sanford Meisner, Lee Strasberg, Bertolt Brecht, Michael Chekhov, Jerzy Grotowski, Tadeusz Kantor, Pina Bausch, Tadashi Suzuki, Anne Bogart, etc. Each student will conclude their exploration by writing a script and presenting the essence of their research in a brief performance (for the camera) -- portraying the legendary icon at work, in a social situation, or in solitude. You learn more about others when you become them, if only for a moment.

Requirements/Evaluation: Research, development, creativity, final performance.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: none

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 233 (D1) ENGL 235 (D1)

THEA 250 (S) Feminist Theatres: A Global Perspective (DPE) (WS)

Cross-listings: ENGL 253 WGSS 250 THEA 250

Primary Cross-listing

What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, reluctant? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaboratives from across the globe, from the late-twentieth century to today. Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Arethusa Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, Josué E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

Class Format: For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner's papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response

Prerequisites: none
Enrollment Limit: 10

Enrollment Preferences: Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 253 (D1) WGSS 250 (D2) THEA 250 (D1)

Writing Skills Notes: As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one's interpretation, and fluidly integrating theory into one's argumentation.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

THEA 275 (F) American Drama: Hidden Knowledge

Cross-listings: THEA 275 AMST 275 ENGL 224

Primary Cross-listing

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What's the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli's The Prince, Thomas Carlson's Lying and Deception: Theory and Practice, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O'Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what can we learn in particular from American drama about a national relationship to honesty and its opposites. For Fall 2020, the tutorial will be conducted primarily online. Depending on enrollments, we may divide into groups with three students, instead of the traditional two-student tutorial format.

Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre and English majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

WGSS 127 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127 CHIN 427 ASST 127
Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction
Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.
Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.
Enrollment Limit: 10
Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: books and course packet.
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)
Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.
Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Spring 2021
TUT Section: RT1 TBA Li Yu
WGSS 138 (F) Spectacular Sex (DPE) (WS)
Cross-listings: WGSS 138 ANTH 138
Primary Cross-listing
From Beyoncé's Coachella performance to Donald Trump's social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation: weekly response papers; students will also select past papers to develop and rewrite as more formal essays

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students; a statement of interest will be solicited from pre-registrants

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 138 (D2) ANTH 138 (D2)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting.

Difference, Power, and Equity Notes: This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

WGSS 207  (F)  She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings

Cross-listings:  AFR 205  WGSS 207

Secondary Cross-listing

The practice of colorism, or skin color discrimination, is very familiar to people of color globally. Often described as intra-racial racism, colorism within the Black American context is part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far-reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much that we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison's writings. Employing the methods of literary and rhetorical criticism, this tutorial will investigate five Morrison novels, The Bluest Eye (1970), Sula (1973), Song of Solomon (1977), Love (2003) and God Help the Child (2015), and some of her non-fiction writings. In our discussions of each text, we will examine the problem of the "color complex" at the intersections of race, gender, sexuality, class and sexual violence, and how the characters manage these overlapping issues. We will bring the novels into conversation with social science articles on the practices of colorism in daily life. Because the tutorial blends different kinds of investigations into colorism, it will equip first year students with tools to critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic observation.

Class Format: Remote

Requirements/Evaluation: six 2-page papers, two 5- to 7-page papers, 10 minute vlog, annotated bibliography

Prerequisites: none

Enrollment Limit: 10
Enrollment Preferences: this course is specifically for first-year students and they will receive preference in this class

Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2020

TUT Section: RT1   TBA   Joy A. James

WGSS 244  (F)  Actually Existing Alternative Economies  (DPE)

Capitalism has a way of constraining our imaginations so that we come to believe the only possible form of economic institution is one based on profit seeking, competition and individualism. However movements in countries including Brazil, France, Canada and Spain--and now parts of the U.S.--are demonstrating otherwise. Theorists, practitioners and social activists are adopting labels including 'Solidarity Economy' and 'New Economy' to group together economic activities based on ideals of human provisioning, social justice and environmental sustainability. They point out that many of these activities are already taking place and are often crucial to our lives, but are rendered invisible by economic theory. In the words of Brazilian popular educator and economist Marcos Arruda, 'a solidarity economy does not arise from thinkers or ideas; it is the outcome of the concrete historical struggle of the human being to live and to develop him/herself as an individual and a collective.' Feminist geographers Julie Graham and Katherine Gibson developed practices of 'mapping' local economies with communities in Australia and Western Massachusetts in ways that bring to light the invisible resources and practices of provisioning and solidarity, and challenge what they describe, drawing on the work of feminist theorist Sharon Marcus, as a 'script' of local helplessness to resist the 'rape' of their economies by the forces of global capitalism. Do these proposed discursive practices actually present realistic possibilities for producing sustained economic change? In this tutorial we will learn and debate about some of the activities being named and built under the label of solidarity economy, such as the networks of worker-owned cooperatives in Mondragon, Spain, the growth of local currencies and time exchanges, fair trade organizations and different ways of organizing care work. We will look at some of the history and debates around worker-owned cooperatives, ranging from Victorian England through African-American experiences throughout the 20th century and examples
in post-Independence Africa, to the recent establishment of Cooperation Jackson in Jackson, Mississippi. The ILO has argued that co-ops are a particularly appropriate form to African development. Is this plausible, and what role might they play in AIDS-affected communities? Why has the recent U.S. growth of the solidarity economy been so concentrated in communities of color, and how is it gendered? We will visit some examples in New York or Boston.

Requirements/Evaluation: six papers of 5-7 pages, six written responses to partner's papers, participation in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: open to sophomores and above

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course fulfills the DPE requirement because of its central focus on the diversity of economic institutions within and across countries and the power imbalances that call them into being and challenge some of their survival. The course considers ways the hegemonic discourse of economics tends to render that diversity invisible, and tools, both analytical and activist, for bringing it out into view. It teaches tools to evaluate economic institutions in terms of equity and solidarity.

Fall 2020

TUT Section: RT1 TBA Kiaran Honderich

WGSS 248 (S) Carmen, 1845 to Now (DPE) (WS)

Cross-listings: MUS 278 WGSS 248

Secondary Cross-listing

The story of the gypsy femme fatale Carmen has endured for over 150 years. In Western culture and beyond, she exemplifies the seductive, exotic, independent, and dangerous woman who drives an upstanding man to a life of crime and finally murder. This course explores a broad array of treatments of this archetypal and problematic narrative, starting with Prosper Mérimée's 1845 novella on which Bizet based his famous 1875 opera Carmen. We will consider various staged and film versions of the opera itself, including Francesco Rosi's stunning 1984 movie, and discuss various other film transformations of the story, from DeMille's 1915 silent film through Hammerstein's 1954 all-black musical Carmen Jones, to the MTV version A Hip Hberapa of 2004. Comic approaches will also be assessed, from Charlie Chaplin's Carmen Burlesque of 1915 through Spike Jones' 1952 Carmen Murdered! and The Naked Carmen of 1970. We will explore provocative dance interpretations ranging from Carlos Saura's 1983 flamenco version through David Bourne's choreography in his 2001 gay reading called The Car Man. Our journey concludes with a comparison of two post-colonial sub-Saharan African films--the Senegalese director Ramaka's Karmen Geï (2001) and U-Carmen eKhayelitsha (2005) by the South African director Dornford-May--that push critical reaction to Bizet's story and music beyond Western cultural boundaries.

Class Format: Remote format. After four initial 75-minute group meetings to discuss Mérimée's novella and Bizet's music, students will meet with the instructor in pairs for one hour each week. The scheduled class time is obligatory only for the first two weeks, after which weekly pair meetings will be individually scheduled.

Requirements/Evaluation: Each student will write a 5- to 6-page essay every other week (five in all), and provide 2-page written and oral peer reviews in alternate weeks; evaluation will be based on the quality of written work, discussions, and oral presentation.

Prerequisites: None; ability to read music useful but not necessary

Enrollment Limit: 10

Enrollment Preferences: Preference given to current or prospective Music and Women's Gender & Sexuality Studies majors, then seniors and juniors.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 278 (D1) WGSS 248 (D2)

Writing Skills Notes: Students will write five short essays of 5-6 pages each, and receive oral and written feedback addressing structure,
Difference, Power, and Equity Notes: This course satisfies the DPE requirement through a critical examination of the ways in which the Carmen story has served as a stage on which multifaceted textual and musical constructions and conflicts express the power dynamics between individual and group identities, encompassing gender and sexuality, nationality, race, ethnicity, and class.

WGSS 284  (S)  From the Battlefield to the Hermit’s Cell: Art and Experience in Norman Europe  (WS)
Cross-listings: REL 284  WGSS 284  ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans--a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries--each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects--an embroidery, a building, and a book--give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 284 (D2) WGSS 284 (D2) ARTH 218 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021

TUT Section: RT1    TBA     Peter D. Low

WGSS 304  (S)  Rebels and Conformists: Postwar Germany from The 'Economic Miracle' to the Fall of the Wall

Cross-listings:  GERM 304  WGSS 304

Secondary Cross-listing

In postwar West Germany, a thorough examination of the Nazi past took a backseat to economic recovery and repairing the country’s international standing, whereas to some extent the reverse was true for the East. An authoritarian democracy, an emphasis on consumerism and the qualitatively different experiences of younger generations led them to question whether the Federal Republic was a restoration or a new beginning? In the East, the cold war led to an increasingly Stalinist interpretation of communist principles, while communist ideals were upheld as an antidote to Nazism and the new materialism. This tutorial will cover a wide range of social protest as reflected in literature and film of the two Germanies: critical responses to the Holocaust in the two countries, the 1968 student revolution, anti-capitalist terrorism by the Baader-Meinhof gang, the feminist and gay rights movements, reformers and repression under Ulbricht and Honecker in the GDR, minority rights and environmental activists. Authors will include: Peter Weiss, D ie Ermittlung, Heinrich Böll, Und sagte kein einziges Wort, Gisela Elsner, Riesenzwerge, Emine Sevgi Özdamar, Das Leben ist eine Karawanserei, Volker Braun, Unvollendete Geschichte, Alice Schwarzer, Der kleine Unterschied und seine großen Folgen, Christian Kracht, Faserland, Thomas Brussig, Wasserfarben. Films may include: Gerhard Klein, “Berlin-Ecke Schönhauser,” Ulrich Plenzdorf, “Die Legende von Paul und Paula,” Rainer Werner Faßbinder, “Angst essen Seele auf,” Reinhard Hauff, “Messer im Kopf,” Uli Edel, “Der Baader- Meinhof Komplex,” Margarethe v.
Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice--from painting to poetry--wrestles with them in countless, fascinating ways. Students’ writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashionsing, artist and patron, past and present.

Class Format: Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

Requirements/Evaluation: Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation

Prerequisites: Any ARTH course

Enrollment Limit: 10

Enrollment Preferences: ARTH majors and WGSS concentrators (or sophomores intending to pursue the ARTH major or WGSS concentration)

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 331 (D1) WGSS 335 (D2)

Writing Skills Notes: Tutorial
If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by scholars that draw on Foucault to address problems in today's present. Among the contemporary texts assigned might be the following: Bernard Harcourt's Exposed: Desire and Disobedience in the Digital Age, Saidiya Hartman's Wayward Lives, Beautiful Experiments (2019), Verena Ehrlenbusch’s Terrorism: A Genealogy, Cressida Heyes’ Anaesthetics, Ladelle McWhorter's Racism and Sexism in Anglo-America: A Genealogy, and Active Intolerance: Michel Foucault, The Prisons Information Group, and the Future of Abolition, eds. Perry Zum and Andrew Dilts.

Class Format: I will meet with students in a seminar format at various points throughout the semester. I have requested a class block for this reason.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Relevant background in critical theory, social theory, political theory or philosophy.

Enrollment Limit: 10

Enrollment Preferences: I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336 (D2) PHIL 326 (D2)

Writing Skills Notes: This is a tutorial. Students will write five or six 5-6-page papers during the course of the semester and receive significant feedback on each paper. At the end of each tutorial meeting the student is asked to reflect on how they would approach the paper differently if they were to rewrite it. In this version of the course, I may ask students to select one paper to revise as a final assignment.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. Moreover, we will read material that uses Foucauldian tools to address contemporary issues involving sexism and racism, digital surveillance, and the abolition of prisons.

Spring 2021

TUT Section: RT1 TBA Jana Sawicki
WILLIAMS-EXETER PROGRAMME AT OXFORD UNIVERSITY
Director: Professor Steven Swoap

THE PROGRAMME

Williams College offers a year-long program of studies at Oxford University in co-operation with Exeter College (founded in 1314), one of the constituent colleges of the University. Williams students will be enrolled as Visiting Students at Exeter and as such will be undergraduate members of the University, eligible for access to virtually all of its facilities, libraries, and resources. As Visiting Students in Oxford, students admitted to the Programme will be fully integrated into the intellectual and social life of one of the world’s great universities.

Although students on the Programme will be members of Exeter College, entitled to make full use of Exeter facilities (including the College Library), dine regularly in Hall, and join all College clubs and organizations on the same terms as other undergraduates at Exeter, students will reside in Ephraim Williams House, a compound of four buildings owned by Williams College, roughly 1.4 miles north of the city centre. Up to six students from Exeter College will normally reside in Ephraim Williams House each year, responsible for helping to integrate Williams students into the life of the College and the University. A resident director (and member of the Williams faculty) administers Ephraim Williams House, oversees the academic program, and serves as both the primary academic and personal advisor to Williams students in Oxford.

Students on the Williams-Exeter Programme are required to be in residence in Oxford from Monday, 30 September 2019, until all academic work for Trinity term is complete (potentially as late as at least 27 June 2020) with two breaks for vacations between the three terms. Students enroll for the full academic year, which consists of three eight-week terms of instruction: MICHAELMAS TERM (13 October to 7 December 2019), HILARY TERM (19 January to 14 March 2020), and TRINITY TERM (26 April to 20 June 2019). Students are expected to be in residence to write their first tutorial papers in the week before the eight weeks of instruction begin (0th Week) and to remain in residence during the week after the term ends (9th Week) in order to sit final examinations. Between the three terms there are two intervening five week vacations, during which students may be expected to continue reading as preparation for their upcoming tutorials. Students are required to arrive in Oxford by 30 September 2019 for Programme orientation.

For more general information on the Williams-Exeter Programme, go to exeter.williams.edu.

THE TUTORIAL SYSTEM

Undergraduate instruction at Oxford University is largely carried out through individual or small-group tutorials, in which students meet weekly with their tutor to present and discuss an essay they have written, based on an extensive amount of reading undertaken from an assigned reading list they will receive at the beginning of each term. In addition to the weekly tutorial, students are usually expected to attend a course of lectures offered by the University that corresponds to the material being addressed in their tutorials.

Each student will plan a course of study for the three terms of the academic year in consultation with the director of the Programme. In their capacity as the Tutor for Visiting Students at Exeter College, the director, working closely with Exeter’s subject tutors, will arrange the teaching for the students, monitor student progress, be in regular contact with the student’s tutors, supervise the examinations that students sit at the end of each academic term, and report on each student’s academic progress to the Senior Tutor at Exeter College. There are no “add/drop” periods at Oxford; once a student has made a commitment to a particular tutorial course, and the director has then secured a tutor to teach that course, students cannot back out or change the terms of the tutorial. All tutorials at Oxford are graded, although in exceptional circumstances a tutorial may be converted to pass/fail before the end of the fourth week of term with the permission of the Programme director.

Students are required to enroll in two tutorial courses during Michaelmas term and two tutorials during Hilary Term (each consisting of eight individual tutorial meetings and generally requiring the preparation of eight essays). During Trinity term, students may choose to enroll in either one or two tutorial courses. Although some students take the minimum five tutorial courses, most have enrolled in two tutorials per term for a total of six tutorials over their time at Oxford.

GRADERS AND CREDIT

Grades for each tutorial course reflect the grade assigned to all eight tutorial sessions, including their related essays, considered together, as well as the grade for the final examination. Final examinations last three hours and are always sat in the ninth week of term, following the eight weeks of instruction. For some tutorial courses, tutors may elect to offer the student the option of a final paper or project in lieu of an examination.

Upon satisfactory completion of the requirements for the Williams-Exeter Programme at Oxford University, students receive academic credit for a regular Williams academic year, with each eight-session tutorial plus final examination counting as the equivalent of 1.6 regular semester courses taken at Williams. Grades eventually become a part of their Williams transcript and will be included in the computation of their Grade Point Average.
Tutorial courses in Oxford may be used toward fulfilling the divisional distribution requirement; a student may earn a maximum of three distribution requirements, with no more than one from each division, for the year. All tutorial courses at Oxford meet the Williams College "Writing Intensive" designation, except for those in the studio arts, mathematics, and the sciences.

Tutorial courses in Oxford may also be used to meet major requirements. Students are encouraged to check with their department chair(s) to confirm official department policy.

THE COURSE OF STUDY

In addition to the opportunity to pursue British and Commonwealth Studies, Williams students in Oxford will be able to pursue tutorials in fields in which Oxford is particularly noted (Economics, English Literature, Mathematics, Modern History, Philosophy, Politics, Classics, Theology, the Natural Sciences, etc.). Exeter College also has fellows that are committed to teaching Williams students in three fields: English Language and Literature (with a focus on English literature, 1550-1830 and interests in the rise of the novel and women’s writing); History (with interests spanning the areas of Atlantic World, Global, Imperial, early American, Latin American and Caribbean History); and Medical Law and Ethics (with interests in ethics and regulation of emerging technologies such as gene drive and use of artificial intelligence in medical care). Students are thus encouraged to consider undertaking at least one tutorial course in these fields as part of their course of study.

Students should consult the document “How to Make Preliminary Tutorial Choices for WEPO” to get a sense of some of the standard "papers" (courses) available to students studying on the Williams-Exeter Programme at Oxford. The tutorials listed there represent a selection of some of the papers that comprise the Oxford degrees in various subjects and that are taught in tutorial format, although most are not offered every Oxford term. It needs to be emphasized that this is only a partial list, that the tutorial offerings at Oxford University are incredibly rich, and that one of the attractions of the Programme is that it enables students to define, develop, and pursue their academic interests. Students are therefore encouraged to explore all the courses offered at Oxford even if they are not listed in this Catalog.

Tutorial courses are not offered every term and are often accompanied by scheduled lectures. It is therefore imperative that students consult the relevant “faculty” webpages to make sure when the lectures and/or tutorials they wish to take are actually offered. Sometimes, where appropriate, prerequisites are also listed. It must be noted that study in the sciences is not normally accompanied by laboratory work; science majors seeking major credit for tutorials in the sciences should discuss this situation with their major advisors. Students interested in learning more about the possible courses of study available at Oxford should contact the Director of International Education and Study Away.

A full summary of the list of courses offered by subject can be found at: ox.ac.uk/admissions/undergraduate/courses/course-listing. Detailed descriptions of all the courses listed in can be found on the websites of respective departments or faculties the links of which can be found at: ox.ac.uk/about/departments-a_z.

NON-CREDIT FOREIGN LANGUAGE STUDY

In addition to their regular tutorial courses, students may begin or continue the study of a wide range of foreign languages on a non-credit basis through a variety of arrangements available through the University as well as a number of other educational and cultural institutions in the city of Oxford. Students may put funds from their Programme Cultural Subsidy towards such study.

APPLICATION

Admission to the Programme is competitive. Students must apply to the The Office of International Education and Study Away by the prescribed deadline (normally late January/early February) and, prior to applying, should consult with the chair of their major department. Any questions students might have about curricular offerings at Oxford can also be raised with the director of the Programme in Oxford. In addition to completing the formal application form, students can expect to be interviewed at Williams and will subsequently need to complete an application for Visiting Student status at Oxford University. All admissions to the Programme are subject to approval by Exeter College. Students can expect to be notified of acceptance before Spring Break. It is normally expected that they will have completed the College’s distribution requirement by the end of their sophomore year. In making its decisions, the Admissions Committee of the Williams-Exeter Programme at Oxford University takes student GPA into account, with a general expectation of a minimum GPA of 3.0. More importantly, we expect all applicants to have demonstrated capacity for rigorous independent work and extensive essay writing, and looks favorably on those students whose intellectual maturity, curiosity and enthusiasm would best prepare them for a demanding course of study in Oxford. All applicants must identify two Williams faculty members who are willing to provide references.

Because of the emphasis at Oxford on weekly written work for each tutorial course, at least one of those faculty members should be able to offer an assessment of the applicant’s writing ability.
WILLIAMS-MYSTIC: The Ocean and Coastal Studies Semester of Williams College and Mystic Seaport Museum  
Executive Director: Thomas Van Winkle

- Lisa A. Gilbert, Professor of Geosciences and Marine Sciences at Williams-Mystic; affiliated with: Geosciences Department
- Catherine Robinson Hall, Associate Professor at Williams-Mystic; affiliated with: Maritime Studies Program
- Tim J. Pusack, Assistant Professor at Williams-Mystic
- Ned G. Schaumberg, Assistant Professor at Williams-Mystic
- Sofia E. Zepeda, Assistant Professor at Williams-Mystic; affiliated with: History Department

The Williams-Mystic Semester offers students a unique opportunity to explore the ocean, travel the Atlantic, Pacific, and Gulf coasts, and conduct original active research of their own design in the humanities and sciences. Williams-Mystic is considered the coastal and ocean studies campus of Williams College. Sophomores, juniors, and seniors of all majors welcome to apply. A term at Williams-Mystic includes credit for one semester plus one Winter Study requirement, as well as writing skills course credit and physical education credit. Four Williams courses are offered as an interdisciplinary curriculum in the semester-long program based at Mystic Seaport, in Mystic, Connecticut: Americans and the Maritime Environment, Literature of the Oceans, Marine Policy, and either Marine Ecology or Oceanographic Processes. Travel includes an offshore voyage on the open ocean sailing aboard a tall ship, a seminar along the Pacific Coast, and a Louisiana field seminar, all of which are cross-disciplinary and interdisciplinary exercises. Students live in historic, cooperative, co-ed houses at Mystic Seaport, the world's largest maritime museum, and have full access to world-class maritime collections, a maritime library, a state-of-the-art Marine Sciences teaching and research center, and diverse coastal habitats (where field research can be undertaken in a wide variety of environments, ranging from tide pools and salt marshes to sandy beaches and estuaries). Students also participate in maritime skills under professional instruction, with choices such as ship carving, music of the sea, shipsmithing, or small boat handling and sailing. Williams-Mystic seeks candidates who are willing to try new things and work in a compelling academic environment. No sailing experience necessary. Participation in Williams-Mystic can also be used in partial fulfillment of the Maritime Studies Concentration at Williams. Admission is competitive, and interested students should email wmadmissions@williams.edu, call 860-572-5359, or visit the Williams-Mystic site.

ENVI 263 (S) The Global Ocean: An Interdisciplinary Introduction

Cross-listings: MAST 263 ENVI 263

Secondary Cross-listing

Though it covers most of the planet, the ocean's importance to everyday life is easy to overlook. Its roles as a cultural symbol, resource, highway, and climate regulator make it essential to life around the world. This interdisciplinary course, team-taught by the faculty of the Williams-Mystic Program, will examine key issues in each of the world's oceans while introducing students to the ways these issues connect multiple disciplines and transcend physical, political, and imaginary ocean boundaries. By drawing on the expertise of the five professors -- from humanities, social sciences, and sciences -- this course facilitates the critical study of the ocean from an interdisciplinary perspective and helps them consider their own role in the shifting relationship between humanity and the ocean. This seminar-style course will meet twice a week online, with students assessed by their participation, response papers, and final project, while helping them apply interdisciplinary skills to pressing sustainability issues connecting the environment and society.

Class Format: Remote, including Zoom seminar meetings twice a week

Requirements/Evaluation: Five 2-page papers, participation, and a 6-8 page final paper

Prerequisites: none, open to all students

Enrollment Limit: 20

Enrollment Preferences: 1. first years, 2. sophomores, 3. MAST concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 266  (S)  Reading Water  (WS)

Cross-listings:  ENVI 266  MAST 266

Secondary Cross-listing

Water has such profound and far-reaching influence on individuals, societies, and the planet that it simultaneously risks going overlooked and appearing clichéd. Human beings are made of it and need it to live, yet will die if immersed in it. It is venerated by cultures around the world, yet most people either cannot access clean water, or don't know where their clean water is piped in from. It covers the earth's surface, and has shaped it over eons, yet scientists are still not sure how it came to be here in the first place. This wide-ranging influence also presents challenges for traditional academic structures; thinking about water demands crossing times, spaces, and disciplines. This course will explore the wide-ranging and diverse ways water impacts individuals, cultures, and the environments they call home by drawing on a range of content: hydrology, literature, political theory, storytelling, geography, and more. To do this, we will also develop and examine methods of critically reading as "non-experts"--reading scientific articles as rhetorical objects and reading for scientific principles in literature, for instance--to explore what interdisciplinary thinking opens up (and inhibits), and thus how to effectively engage with and create interdisciplinary work. The goal here is not to define water's cultural or scientific importance, or to determine which disciplines "best" combine to explain water, or to come up with humanities-based solutions to "the water crisis." Rather, these texts, and the water that flows through them will help us explore the opportunities and limits of human perceptions of the other-than-human world. It will help us consider the extent to which those perceptions both shape, and are shaped by, a seemingly simple molecule. And it will help us imagine epistemologies and ontologies that account for the ways water simultaneously flows through us, around us, and through the deep geological history of the planet. Course Texts:  Tristan Gooley -- *How to Read Water* (selections)  Vandana Shiva -- *Water Wars* (selections)  Luna Leopold -- *Water, Rivers, and Creeks* (selections)  Richard White -- *The Organic Machine*  Linda Hogan -- *Solar Storms*  Marc Reisner -- *Cadillac Desert*  Jesmyn Ward -- *Salvage the Bones*  John McPhee -- "Atchafalaya"  Emmi Itäranta -- *Memory of Water*  Brenda Hillman -- "The Hydrology of California"

Class Format:  This class will be remote, meeting synchronously. The class will be primarily discussion-based, and will ask students to lead and structure discussions. Students will have questions, reflections, and insights prepared before class, and use those to drive our in-class activities.

Requirements/Evaluation:  100pg of reading a week, give or take. Approx 20-25 pages of written work throughout the semester.

Prerequisites:  None

Enrollment Limit:  20

Enrollment Preferences:  Preference to majors, and then to sophomores and juniors, respectively.

Expected Class Size:  20

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 266 (D1)  MAST 266 (D1)

Writing Skills Notes:  Students will write four papers of increasing complexity that will require workshopping and drafts. Each of these papers will receive forward-looking writing feedback from me. The first paper centers on paragraph-level stylistic choices, the second on argument/evidence connections, the third on genre, and the final paper synthesizes these writing skills. In addition, students' final grades will allow for revision of earlier papers to encourage and assess growth of writing skills.
Biodiversity in the ocean is facing an onslaught of challenges, both directly and indirectly. It is likely that we are undergoing a sixth mass extinction event, where diversity of life on earth is stunningly at risk. Fortunately, however, we are also finding innovative ways to solve issues and attempt to stave off these dramatic changes to our ecosystems. These solutions potentially have both positive and negative effects. Difficult tradeoffs must be weighed and decisions must be made as people wrestle with known knowns, known unknowns, and unknown unknowns. In this class, we will explore five issues that relate to biodiversity in the ocean. You will have the opportunity to investigate one side of an issue, to collect supporting information, and to advocate for your position all while learning about current biodiversity issues in the ocean. You will be challenged to weigh conflicting evidence to find a positive outcome. Throughout the class you will practice critical thinking, evaluation, and synthesizing skills as you work with multiple viewpoints. Class time will include lecture, in-class group work, and student-led debates of timely, controversial issues. You will be assessed on summaries of information, reflections on topics, and a final project on an issue of your choice relating to ocean biodiversity.

Class Format: Remote, including Zoom seminar meetings twice a week
Requirements/Evaluation: Five 2-page papers, participation, and a 6-8 page final paper
Prerequisites: none, open to all students
Enrollment Limit: 20

The Program in Teaching offers a coordinated cluster of courses, advising and field work that give students the opportunity to study the ideas, questions, and practices involved in good teaching at all levels. The Program seeks to promote and facilitate an exchange of ideas about teachers, learners, and schools, within and beyond the Williams campus. The Program offers a range of opportunities including courses on education, intensive supervised student teaching, workshops, advising, lecture series, and ongoing peer groups for those who teach.

Students may participate in a variety of ways, ranging from taking one course to a sustained in-depth study of teaching and learning geared to those who want to become teachers or educational psychologists. We seek to connect students with one another, to bring in expert teachers to provide mentoring, and to create links across the curriculum so that students can see the vital connections between what they study (French, Algebra or Biology, for example) and the process of teaching those topics to elementary and high school students. The Program is open to any student interested in education and offers opportunities for all levels of interest, including those who want to find out about certification and graduate study.

No specific major is required to participate—although some lend themselves easily to certification, such as Mathematics, English, Biology, American History, or French, almost all of our majors can provide the basis of teacher certification. Alternately, students can major in Psychology, take a concentration of courses in a different field, and then pursue that content area more intensively in graduate work. More information can be found at program-in-teaching.williams.edu.

TEAC Related Courses

**AMST 379 (F) American Pragmatism**

**Cross-listings:** PHIL 379 AMST 379

**Secondary Cross-listing**

Along with jazz, pragmatism stands as the greatest uniquely American contribution to world culture. As the music wails in the background, we will study the classic pragmatists: William James, C. S. Peirce, and John Dewey. We will continue with the contemporary inheritors of the tradition: Cornel West, Richard Rorty, and Hilary Putnam. Although it has influenced both analytic and continental philosophy, pragmatism is a powerful third philosophical movement. Always asking what practical difference would it make, our authors investigate the central questions and disputes of philosophy, from epistemology and metaphysics to ethics and religion. Rather than seeing philosophy as an esoteric discipline, the pragmatic philosophers (with the possible exception of Peirce) see philosophy as integral to our culture and see themselves as public intellectuals.

**Requirements/Evaluation:** final paper, several short assignments

**Prerequisites:** at least two PHIL courses

**Enrollment Limit:** 25

**Enrollment Preferences:** Philosophy and American Studies majors, then seniors and juniors of any major

**Expected Class Size:** 12-15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

**PSYC 341 (S) Stereotypes, Prejudice, and Discrimination**

**Cross-listings:** PSYC 341 WGSS 339

**Primary Cross-listing**

This course will examine social psychological theories and research that are relevant to the understanding of stereotypes, prejudice, and discrimination. We will take a variety of social psychological perspectives, emphasizing sociocultural, cognitive, personality, or motivational explanations. We will examine the impact that stereotypes and prejudice have on people's perceptions of and behaviors toward particular groups or
group members and will explore a variety of factors that tend to exacerbate or weaken this impact. We also will consider some of the sources of stereotypes, prejudice, and discrimination and some of the processes through which they are maintained, strengthened, or revised. In addition, we will examine some of the effects that stereotypes, prejudice, and discrimination can have on members of stereotyped groups, as well as some implications of the social psychological research findings for issues such as education and business and government policies. A major component of this course will be the examination of classic and ongoing empirical research.

Class Format: empirical lab course

Requirements/Evaluation: weekly brief papers, oral reports, two longer papers
Prerequisites: PSYC 201 and 242
Enrollment Limit: 16
Enrollment Preferences: senior, then junior Psychology majors
Expected Class Size: 16
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
PSYC 341 (D2) WGSS 339 (D2)

TEAC Teaching Sequence Courses

AFR 318 (F) Defining and Disrupting the School-to-Prison Pipeline
Cross-listings: PSYC 334 AFR 318

Primary Cross-listing

The school-to-prison pipeline describes a system of processes that pushes children out of school into jails and prisons. This course will explore the pipeline and the relationships between school, prison, and society. We will begin with the history and creation of the modern-day school-to-prison pipeline, focusing on the educational and public policies that encourage the criminalization of "others", with particular emphasis on folks of color and under-resourced communities. We will also look to firsthand accounts from those pushed into the pipeline to humanize the topic and engage in thoughtful and compassionate discussion. Together, we will define "school" and "prison", identifying how these definitions are aligned with the most current iteration of the pipeline, and how they can help us as we work to dismantle it.

Requirements/Evaluation: Assignments for the course include ongoing journal assignments, two 3-5 page papers, and a final project.
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: Africana Studies concentrators and Psychology Majors
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020
SEM Section: H1 TR 9:45 am - 11:00 am Kelsey M. Jones

AFR 324 (S) Critical Perspectives in Special Education
Cross-listings: AFR 324 PSYC 337

Primary Cross-listing

What makes special education "special"? This course will explore the role, purpose, and function of special education in the United States. Given special education's assumption of dis/ability (Baglieri, 2012), we will also create collective and individual frameworks for discussing and deconstructing dis/ability. This course will examine history, policy, and pedagogy related to special education; we will also discuss how law and school practices have
systemically and systematically excluded students of color from general education classrooms, leading to the overrepresentation of Black, Indigenous, and Latinx children in special education. We will listen to narratives shared by people with dis/abilities and our educational histories to understand how personal connections to special education influence our current beliefs and future practice.

**Requirements/Evaluation:** Assignments for the course include ongoing journal assignments, two 3-5 page papers, and a final project.

**Prerequisites:** None

**Enrollment Limit:** 20

**Enrollment Preferences:** Africana Studies concentrators and Psychology Majors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AFR 324 (D2) PSYC 337 (D2)

Spring 2021

SEM Section: R1  TR 8:00 am - 9:15 am  Kelsey M. Jones

**PSYC 101 (F)(S) Introductory Psychology**

An introduction to the major subfields of psychology: behavioral neuroscience, cognitive, developmental, social, and psychological disorders and treatment. The course aims to acquaint students with the major methods, theoretical points of view, and findings of each subfield. Important concepts are exemplified by a study of selected topics and issues within each of these areas.

**Class Format:** The lectures will be done remotely. There will also be opportunities for small group sessions for labs and/or discussion sections. These will be scheduled at a variety of times to accommodate student schedules. Some of these labs/sections will be remote, but we are hoping that some may have an in-person element.

**Requirements/Evaluation:** five unit quizzes, a final exam, and two brief lab reports (or related brief reports, depending on the availability of labs)

**Prerequisites:** none

**Enrollment Limit:** 160

**Expected Class Size:** 160

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

Fall 2020

LEC Section: R1  MWF 10:40 am - 11:30 am  Steven Fein, Clarence J. Gillig

Spring 2021

LEC Section: R1  MWF 10:40 am - 11:30 am  Kris N. Kirby, Clarence J. Gillig

**PSYC 221 (S) Cognitive Psychology**

This course surveys research on human cognition. Topics include perception, attention, learning, memory, categorization, language, judgment, decision making, reasoning, and problem solving.

**Class Format:** This course will be taught entirely remotely. Live, synchronous lectures will take place on Zoom during scheduled course meeting hours (in Eastern Standard time).

**Requirements/Evaluation:** two midterms and a final exam

**Prerequisites:** PSYC 101 or permission of instructor

**Enrollment Limit:** 30

**Enrollment Preferences:** Psychology majors

**Expected Class Size:** 30
PSYC 232 (F) Developmental Psychology
An introduction to the study of human growth and development from conception through emerging adulthood. Topics for discussion include prenatal and infant development, perceptual and motor development, language acquisition, cognitive development, and social and emotional development. These topics form the basis for a discussion of the major theories of human development, including those about early experience, neural plasticity, dynamic systems, information processing, social learning, attachment, parenting, and family systems.

Class Format: This course will be taught entirely remotely. Live, synchronous lectures will take place on Zoom during scheduled course meeting hours (in Eastern Standard time). Students may be assigned to smaller student groups for some class projects. Those groups are permitted to meet on campus following appropriate safety protocols and if everyone in the group is comfortable with the arrangement. Otherwise, all course-related meetings and class presentations will occur remotely.

Requirements/Evaluation: The main form of evaluation will be 3 online written exams (2 midterm, 1 final). Depending on enrollment numbers, there may be an oral exam component to supplement the online exams. Students will also be expected to participate in smaller "book/journal club" meetings throughout the semester and from these meetings, will produce 5 brief writing assignments (2-3 pages each) and a final 15-20 minute group presentation. Attendance is required and active participation during lectures is strongly encouraged.

Prerequisites: PSYC 101
Enrollment Limit: 30
Expected Class Size: 30
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)

PSYC 242 (F)(S) Social Psychology
A survey of theory and research in social psychology. Topics include conformity, group dynamics, stereotyping and prejudice, aggression, altruism, attraction and love, the self, social perception, attitudes and attitude change, and cultural psychology. Applications in the areas of advertising, law, business, and health will also be discussed.

Class Format: Lectures will be remote. We will also have some discussion meetings with smaller groups (primarily during the regular class time) and possibly an occasional other small-group activity). These also will probably be remote, but there is a possibility we will have some in-person element, depending on how things are going on campus and the availability of rooms.

Requirements/Evaluation: two in-class exams, one paper (7 - 10 pages), and an optional final exam
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: Psychology majors
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
PSYC 272 (S) Psychology of Education

This course introduces students to a broad range of theories and research on education. What can developmental research tell us about how children learn? What models of teaching work best, and for what purposes? How do we measure the success of various education practices? What is the best way to describe the psychological processes by which children gain information and expertise? What accounts for individual differences in learning, and how do teachers (and schools) address these individual needs? How do social and economic factors shape teaching practices and the educational experiences of individual students? The course will draw from a wide range of literature (research, theory, and first hand accounts) to consider key questions in the psychology of education. Upon completion of the course, students should be familiar with central issues in pre-college education and know how educational research and the practice of teaching affect one another.

Class Format: discussion

Requirements/Evaluation: two exams and a final project

Prerequisites: PSYC 101

Enrollment Limit: 50

Enrollment Preferences: Psychology majors and those who plan to become teachers

Expected Class Size: 50

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

Not offered current academic year

PSYC 327 (S) Cognition and Education

This class will examine major issues in education. The topics will include international differences in education, educational inequality, dropping out, the teaching labor force, why we have college, cognitive psychology in the classroom, and more. Each student will attend one meeting per week with me and one other student.

Class Format: This hybrid class will be taught synchronously. Students will be matched up in pairs, and hopefully pairs can be arranged such that if a student wants to meet in person they can be paired with another student who wants to meet in person. Meetings will last one hour. Attendance will be required.

Requirements/Evaluation: You will be required to submit a paper (5-7 pages) every other week. The alternate weeks you will read your partner’s paper and write a reaction paper. The assignments will include non-fiction books, journal articles, podcasts, and documentaries. You will also be asked to find additional sources to write about in your papers. Evaluation will be based on papers, reaction papers, and participation.

Prerequisites: PSYC 221 or 222, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Psychology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)
tackle questions such as: How do culture and language affect numerical understanding? What are the sources of children's mathematical misconceptions? What are the effects of early environmental input or input deprivation on mathematical development? What do we know about gender differences in math achievement? How do stereotypes, prejudice, and math anxiety affect math performance? For your laboratory component, you will work with a small group of other students to develop an original research project that tests a specific hypothesis about children's mathematical thinking and learning. Data will be collected in community schools, with the permission of parents, teachers, and children. Your results will be written-up in for your final paper, which will be in the style of an empirical journal article.

Class Format: community-based data collection in local schools

Requirements/Evaluation: class participation, discussion leader, weekly open-notes reading quizzes, individual 12- to 15-page final paper based on empirical group research project

Prerequisites: PSYC 201 and PSYC 232 or permission of the instructor

Enrollment Limit: 16

Enrollment Preferences: Psychology majors, upperclassmen, students with a demonstrated interest in the course material

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021

**SEM Section:** R1  TR 8:00 am - 9:15 am  Kelsey M. Jones

**PSYC 338 (S) Inquiry, Invention and Ideas**

Children tinker, explore and create, but some more than others, and under some conditions more than others. What leads children to investigate, invent and build their own ideas? We will examine the development of curiosity, invention, and the ability to have or construct an idea. We will also look at what accounts for individual differences between children, including the role of intelligence, creativity, social cues, and opportunity. We will look at how these processes unfold at home and in school, and discuss the educational implications of the research we read, and the research we conduct.

**Requirements/Evaluation:** three 3- to 5-page essays, two child observations and a 7- to 10-page final paper

**Prerequisites:** PSYC 101, and PSYC 232 or PSYC 272, or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** preference given to Psychology majors

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

*Not offered current academic year*

**PSYC 372 (F) Advanced Seminar in Teaching and Learning**

This advanced seminar will give students an opportunity to connect theory to practice. Each student will have a teaching placement in a local school, and participate in both peer and individual supervision. In addition, we will read a range of texts that examine different approaches to teaching, as well as theory and research on the process of education. What is the best way to teach? How do various theories of child development and teaching translate into everyday practices with students? Students will be encouraged to reflect on and modify their own teaching practices as a result of what we read as well as their supervision. Questions we will discuss include: What is the relationship between educational goals and curriculum development? What is the relation between substance (knowledge, skills, content) and the interpersonal dynamic inherent in a classroom setting? How do we assess teaching practices and the students' learning? What does it take to be an educated person?

**Requirements/Evaluation:** this course involves a field placement, weekly readings, as well as seminar discussion, supervision, and a graded journal

**Prerequisites:** PSYC 232 or PSYC 272 or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** Psychology majors and those who plan to become teachers

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

*Not offered current academic year*
PSYC 373 (F) Critical Issues in Learning and Teaching

In this seminar we will take a deep dive into several key topics in education. We will examine psychological research as well as a range of other materials (essays, film, recordings of children and personal experiences) to help answer a series of questions, including: Does the kind or quality of schooling have a measurable impact on children? How do you create curriculum? How does one conduct high quality classroom observations? What do good teachers have in common? What is the best way to help teachers get better at what they do? Can remote learning work well in K-12 settings?

Class Format: The course will be taught in a hybrid form (remotely for some and in person for others). Students will meet in small groups with the professor. Each group will meet for a tutorial-like session once a week. We will use students’ papers as a jumping off point for our discussions.

Requirements/Evaluation: Regular class attendance and full participation (whether remote or in-person), five 5-page papers, and regular written responses to other students’ papers. We will also do a variety of in-class activities that may require some independent preparation (gathering materials, or doing brief interviews) and some coordination with one another outside of class time.

Prerequisites: PSYC 232 or PSYC 272 or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Psychology majors and those involved in the Program in Teaching

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Fall 2020

SEM Section: H1 MWF 8:15 am - 9:30 am Susan L. Engel
Women’s, Gender and Sexuality Studies can be defined as the study of how gender is constructed, how it is inflected by differences of race, ethnicity, sexuality, class, and so on, how gender affects the experiences and situations of men and women, and how assumptions about gender influence the construction of knowledge and experience. Scholarship in Women’s, Gender and Sexuality Studies has brought neglected material into established fields and raised important methodological questions that cross disciplinary boundaries and challenge established intellectual frameworks. The program in Women’s, Gender and Sexuality Studies thus includes courses from a wide variety of disciplines that focus in a coherent way on gender issues and/or sexuality issues, as well as core courses that acquaint students with the interdisciplinarity of the field.

THE MAJOR

The Women’s, Gender and Sexuality Studies major encourages students’ exposure to the interdisciplinary character of feminist and sexuality-focused scholarship. In addition, majors are required to gain some knowledge of methods within a field or discipline (3 courses in one of the categories listed below), to appreciate the importance of diversity (racial, sexual, class, ethnic, national, etc.) in scholarship on gender and sexuality, to gain exposure to feminist and/or queer theory, and to pursue work at an advanced level (3 courses at the 300-level).

In order to ensure that students reflect about the paths that they choose through the major, each major will be assigned to an advisor in the spring of the sophomore year. With the advisor, the student will establish a revisable course of study for the following two years. Students interested in declaring a major should contact the Chair of the Program.

Required Courses

The major consists of at least 9 courses. The following are required:

- **WGSS 101 Introduction to Women’s, Gender and Sexuality Studies**
- **WGSS 202 Foundations in Sexuality Studies**
- **WGSS 400-level Junior/Senior Seminar in Women’s, Gender and Sexuality Studies. The seminar explores topics in Women’s, Gender and Sexuality Studies, and varies from year to year. Majors may take more than one seminar, space permitting.**

In addition to these three required courses, students are required to take six electives. In consultation with their major advisor and with approval from the chair, these six elective courses should include:

- Courses from at least 3 different disciplinary traditions.
- At least 3 courses at the 300-level.
- At least 1 course that emphasizes feminist/queer theories and/or methodologies.
- At least 1 course that emphasizes a diversity of racial, sexual, religious, and/or cultural identities and practices.

In the final semester of their senior year, all majors will be required to write a reflective intellectual autobiography of their WGSS major, in which they explain how their courses meet the goals of the major, and analyze the relationship among the courses they have taken, the papers they have written, and the research projects undertaken.
THE DEGREE WITH HONORS

Honors in Women’s, Gender and Sexuality Studies may be granted to majors after an approved candidate completes an honors project, delivers a public presentation of the work, and is awarded honors by the Women’s, Gender and Sexuality Studies Committee. The honors project may be fall semester (plus winter study) or a year-long project. It may consist of a conventional research thesis of 40-70 pages or of other modes of presentation (e.g., art, music, poetry, theater, fiction). Proposals for non-thesis projects should include evidence of experience and competence in the chosen mode.

A student may become a candidate for honors in Women’s, Gender and Sexuality Studies after the following criteria are met:

In April of the junior year, submission and Women’s, Gender and Sexuality Studies Committee approval of a 4- to 6-page project proposal, in which the ideas, aim, general methodology, and preliminary bibliography for the project are outlined and a faculty advisor is named; prior to submission of this proposal, students must consult with a reference librarian.

At the end of the junior year, cumulative grade point average of 3.5 from courses taken in the major;

In the first week of classes of the senior year, submission and approval by the faculty advisor and second reader of a 5- to 10-page “Plan of Action” (an overview of what has already been completed and a schedule of what needs to be accomplished to finish the project). Where appropriate, students pursuing honors will continue to consult with the second reader over the course of the semester(s).

All honors work, including the public presentation, will be evaluated by the Women’s, Gender and Sexuality Studies Committee. It will decide on the awarding of honors; the advisor will award the grade(s).

STUDY ABROAD

The Williams College Women’s, Gender and Sexuality Studies Program encourages potential majors to study abroad in order to enhance their education and gain international perspectives on gender and women’s issues and feminism. There are many excellent study abroad opportunities offering students a variety of possible experiences: among them cultural immersion, field work, intensive language learning, independent study, participation in another educational system. There are several semester-long programs with a specific focus on women and/or gender administered by other U.S. Colleges that would especially enrich the educational experience of our majors:

Antioch College: Comparative Women’s Studies in Europe fall semester

Augsburg College, Center for Global Education: Crossing Borders: Gender and Social Change in Mesoamerica fall semester; and Social and Environmental Justice in Latin America spring semester

School for International Training: The Balkans: Women and Democratization, fall or spring semester

Jamaica: Gender and Development, fall or spring semester

Mali: Gender and Development, fall or spring semester

The Netherlands: Identity, Gender and Sexuality, fall or spring semester

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, complete syllabus, including readings/assignments, and exams or other written work. Depends on the level for which the student is seeking major credit (200- vs 300-).

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.
Are there specific major requirements that cannot be fulfilled while on study away?
Yes. 101 and 402 cannot be fulfilled abroad.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:
None to date.

WGSS 101  (F)(S)  Introduction to Women's, Gender & Sexuality Studies  (DPE) (WS)
This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across the globe. We will survey a wide variety of writers and issues--historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

Class Format: remote only, mixture of synchronous online discussions and mini-lectures, etc.
Requirements/Evaluation:  Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: WGSS majors and potential WGSS majors
Expected Class Size: 12
Grading:  yes pass/fail option, yes fifth course option
Unit Notes: required course for the Women's, Gender and Sexuality Studies major
Distributions:  (D2)  (DPE) (WS)
Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.
Difference, Power, and Equity Notes: This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies' history, activism, and theory.

Fall 2020
SEM Section: R1  MW 6:45 pm - 8:00 pm  Alison A. Case
SEM Section: R2  MW 11:45 am - 1:00 pm  Emily Mitchell-Eaton

Spring 2021
SEM Section: R1  MR 3:15 pm - 4:30 pm  Kelly I Chung
SEM Section: R2  MW 10:00 am - 11:15 am  Greta F. Snyder

WGSS 105  (S)  American Girlhoods  (DPE) (WS)
Cross-listings:  AMST 105  WGSS 105  ENGL 105
Secondary Cross-listing
The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 105 (D1) WGSS 105 (D1) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

Not offered current academic year

WGSS 110  (S)  The Veil: History and Interpretations  (DPE) (WS)

Cross-listings: HIST 110  WGSS 110  ARAB 215

Secondary Cross-listing

This tutorial will consider the history and the changing meanings of the veil (hijab) and its many manifestations (e.g. burqa, chador, niqab), starting with the earliest religious traditions and the status of women in Islamic law. We will then proceed to examine imperialist and orientalist representations of gender in the Middle East, the rise of Islamic feminism and finally consider the emergence and return of the veil in recent years in the Middle East, North America, Asia and Europe.

Requirements/Evaluation: each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner's paper; by semester's end each student will have written a minimum of 40 pages
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Limit: 10
Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar and those with demonstrated interest in the Middle East
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 110 (D2) WGSS 110 (D2) ARAB 215 (D2)

Writing Skills Notes: Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This tutorial considers the veil in many different cultural contexts and time periods and how it has multiple and complex meanings. What does the veil mean and how do people interpret it? Is it empowering or is it subjugation?

Not offered current academic year

WGSS 113  (F)  The Feminist Poetry Movement  (DPE) (WS)
Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 113 (D1) ENGL 113 (D1) AMST 113 (D1)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

Not offered current academic year

WGSS 119 (S) Asian American Femininities (DPE)

Cross-listings: WGSS 119 COMP 119

Primary Cross-listing

This tutorial will introduce students to the intersections of feminist studies and Asian American studies by reading Asian and Asian American literature (read in English) that centers female-identified characters. This course will consider the historical and persistent structures of patriarchy, heterosexism, nationalism, imperialism, war, and globalization through the framework of gender and sexuality studies. Students will read short excerpts of feminist theoretical works, selected with the idea of making scholarly texts more approachable to first- and second-year students. No previous experience with feminist theory or Asian American studies is presumed or required.

Requirements/Evaluation: weekly papers or peer responses

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 8
WGSS 127 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127 CHIN 427 ASST 127

Secondary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind
the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Spring 2021
TUT Section: RT1   TBA   Li Yu

WGSS 132  (F)  Black Writing To/From/About Prison  (DPE)  (WS)

Cross-listings:  WGSS 132  ENGL 132

Secondary Cross-listing
This introductory course considers the disproportionate incarceration of African Americans as it is represented on the page. Keywords for meditation and analysis include blackness, gender, prison, justice, freedom, and abolition. Each reading and class discussion will aid students in developing rigorous and nuanced understandings of these terms. The primary project in this course is the development of open letter writing skills. This epistolary form allows both for the intimate engagement of individual, familiar contact and the deft inclusion of targeted eavesdroppers in order to raise the consciousness of listeners and affirm the value of personal relationships. Course texts will include letters to and from prison; documentaries; selections from anthologies like If They Come in the Morning and Captive Genders: Trans Embodiment and the Prison Industrial Complex; autobiographies like that by Malcolm X, Walidah Imarisha, and Assata Shakur; poetry by Ericka Huggins, Huey Newton, and Terrance Hayes; and critical interventions by scholars like Nikki Jones, Victor Rios, Michelle Alexander, and Angela Davis. We will also look at contemporary groups organizing around abolition and prisoner support including Critical Resistance, Photos From Solitary, and TGIJP (Transgender Gender Variant Intersex Justice Project).

Class Format:  discussion, engagement with guest speakers, engagement with Special Collections

Requirements/Evaluation:  four open letters developed with critical feedback (4-5 pages), a twice weekly question diary, an organization report and presentation, a collectively decided project

Enrollment Limit:  19

Enrollment Preferences:  first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size:  19

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 132 (D1)  ENGL 132 (D1)

Writing Skills Notes:  Open letters are a mainstay of black literature allowing for intimate engagement of the individual and the deft inclusion of targeted eavesdroppers to raise the consciousness of listeners and affirm the value of personal relationships. Students will learn to write letters with purpose to facilitate a felt relationship to the topic; enhance writing skills including achieving clarity and aesthetic value; practice curation of references. Four 5-page letters with rigorous feedback to sharpen form.

Difference, Power, and Equity Notes:  This class studies the historical development of mass incarceration of black folk from its roots in American slavery and white supremacist policy. This class also studies the impact of the prison industrial complex on transgender and queer folk in reproducing gender binaries and sexual abuse in and outside prison walls. The politics of prison abolition and gender self determination present critical interventions into the hegemonic structures of normalized racial dominance and gender oppression.

Not offered current academic year

WGSS 138  (F)  Spectacular Sex  (DPE)  (WS)

Cross-listings:  WGSS 138  ANTH 138

Primary Cross-listing
From Beyoncé’s Coachella performance to Donald Trump’s social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of
theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation: weekly response papers; students will also select past papers to develop and rewrite as more formal essays

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students; a statement of interest will be solicited from pre-registrants

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 138 (D2) ANTH 138 (D2)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting.

Difference, Power, and Equity Notes: This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

Fall 2020

TUT Section: RT1 TBA Gregory C. Mitchell

WGSS 139 (S) Living a Feminist Life (DPE) (WS)

Cross-listings: COMP 139 ENGL 139 WGSS 139

Secondary Cross-listing

The course invites students to consider the range of ways in which "knowledge" about women's, femme's and non-binary lives has been constructed in text, and how this knowledge determines and impacts the way we live and write. The first half of the course is organized around a deep reading of Sara Ahmed's recent theoretical book, Living a Feminist Life, while the second half of the course will examine a spectrum of women's life writing-poetry, music, journalism, theory, and memoir-to discover how text continues to shape feminist lives, and how femme's lived experience in turn shapes feminist discourse. Course materials for the second half of the semester will be generated in part through discussion and students' suggestions. Key texts will include Jamaica Kincaid's A Small Place, Audre Lorde's Sister Outsider, Djamila Boupacha's memoir, Ana Lily Amirpour's film A Girl Walks Home Alone at Night, Sara Ahmed's Living a Feminist Life, Valerie Solanas's SCUM Manifesto, and bell hooks's Teaching to Transgress. In their writing for this course, students will consider how their own intimate relationships-with parents, partners, children, neighbors, or friends-can become sites of feminist activism, and sources of strength and knowledge to be carried into the broader world of public engagement and intervention. In the final weeks of the course, we will collectively interrogate the (false) boundary between writing and living as modes of feminist praxis.

Requirements/Evaluation: five short written assignments and one final research project

Prerequisites: none

Enrollment Limit: 19

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 139 (D1) ENGL 139 (D1) WGSS 139 (D2)

Writing Skills Notes: This course will center writing and research skills with at least one session per week devoted to ladder development and revision. Five short papers (3-4 pages) with one revision (5-6 pages) as well as a bibliography and final research paper (12-15 pages).

Difference, Power, and Equity Notes: This course will examine the generative intersectional site of feminism, antiracism, and anticapitalism to provide an alternative introduction to feminist thought, writing, and practice. The syllabus centers women and femme writers of color.

Not offered current academic year
WGSS 152 (S) The Fourteenth Amendment and the Meanings of Equality (DPE) (WS)

Cross-listings: HIST 152 WGSS 152

Secondary Cross-listing

For more than 150 years, the 14th Amendment of the U.S. Constitution has served as the principal touchstone for legal debates over the meaning of equality and freedom in the United States. This course explores the origins of the 14th Amendment in the years immediately following the Civil War, and examines the evolution of that amendment's meaning in the century that followed. Central themes in this course include the contested interpretations of "birthright citizenship," "due process," "privileges and immunities," "equal protection," and "life, liberty or property"; the rise, fall, and rebirth of substantive due process; battles over incorporating the Bill of Rights into the 14th Amendment; and the changing promise and experience of citizenship. We will pay particular attention to how arguments about the 14th Amendment have shaped and been shaped by the changing meanings of racial and gender equality.

Requirements/Evaluation: a series of short (2-page) response papers; a midterm exam; and a final 12-15 page research paper

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 19

Enrollment Preferences: given first to those who have been dropped from this class previously, then to first-years, then to sophomores

Expected Class Size: 15-19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 152 (D2) WGSS 152 (D2)

Writing Skills Notes: Students will write three short (3-page) response papers to the readings in the first part of the semester, and will also write a substantial (10- to 12-page) research paper. In preparation for the research paper, students will write proposals, develop bibliographies, write outlines and drafts, and do peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it examines the legal, social, and political constructions and theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.

Not offered current academic year

WGSS 177 (S) Gender and Sexuality in Music (DPE)

Cross-listings: MUS 177 WGSS 177

Secondary Cross-listing

This course explores key themes in the expression of gender and sexuality through music. It draws from primarily 21st century examples, across cultures and genres, ranging from pop boy bands to Indian bhangra dance to the musical avant-garde. Themes will include: communicating gendered ideals, dance and embodiment, transgressive performances, biography and subjectivity, intersectionality, music and sexual violence, and marketing. We will explore the ways in which ideas and identities related to sex and gender are formulated and mobilized in music's performance and consumption. Inevitably, issues of sound and stagecraft intersect with factors such as race, age, and class, further informing these experiences. Students will consider their own processes of identifying and interpreting expressions of gender and sexuality in sound and movement, and contemplate the role of culture and society in informing those interpretations.

Requirements/Evaluation: attendance/participation, intermittent GLOW posts and short assignments (2 pgs or less), midterm project, and either a 12-page final paper or a project with supplementary paper (length to be determined in consultation with the instructor).

Prerequisites: open to all students; familiarity with musical terminology is helpful but not required

Enrollment Limit: 15

Enrollment Preferences: WGSS and MUSC majors/prospective majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: This is a hybrid course, with the majority of the classes taking place remotely. The character and frequency of in-person class sessions will depend on the size of the class and the number of students taking part in the in-person option.
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

MUS 177 (D1) WGSS 177 (D2)

Difference, Power, and Equity Notes: This course critically examines the ways in which music constructs and reflects gendered and sexual identities in intersectional space. We discuss how normative viewpoints come to be accepted and interpreted as 'natural,' and how musicians and audiences have maneuvered within and against those socio-political expectations. Music and readings span a wide range of sources--elite, popular, counter-cultural; from Euro-American sources to genres hailing from Brazil, Korea, and India.

Spring 2021
SEM Section: H1   TR 11:30 am - 12:45 pm   Corinna S. Campbell

WGSS 200 (S) Nordic Lights: Literary and Cultural Diversity in Modern Scandinavia (DPE)

Cross-listings: WGSS 200 COMP 232

Secondary Cross-listing

Mythologized as the land of the aurora borealis and the midnight sun, Scandinavia's five distinct nations--Iceland, Norway, Sweden, Denmark, and Finland--are often mistakenly associated with blond-haired and blue-eyed uniformity. Modern Scandinavia, however, is a place of great social and cultural diversity. From medieval Viking sagas to contemporary Nordic rap, the Scandinavian literary tradition is rich in tales of global exploration, childhood imagination, sexual revolution, and multicultural confrontation. Through readings of nineteenth-century drama, twentieth-century novels, and twenty-first century cinema, we will investigate a wide range of issues on class, ethnicity, and identity, including the indigenous reindeer-herding Sámi people, Danish colonialism and the Greenlandic Inuit, Norwegian collaboration and resistance during World War II, and Nordic emigration (to North America) and immigration (from Africa, Asia, Latin America, and the Middle East). Discussion will also focus on Scandinavia's leadership in gender equality and sexual liberation, Scandinavian political isolation and integration (into both the UN and the EU), and the global effects of Nordic pop (ABBA to Björk), glamour (Greta Garbo to Alicia Vikander), technology (Volvo to Nokia), design (IKEA to H&M), and activism (Alfred Nobel to Greta Thunberg). Readings to include works by Henrik Ibsen, August Strindberg, Hans Christian Andersen, Karen Blixen, Astrid Lindgren, Halldór Laxness, Reidar Jónsson, and Peter Hoeg. Films to include works by Ingmar Bergman, Lasse Hallström, Bille August, Colin Nutley, Lukas Moodysson, Josef Fares, Tomas Alfredson, and Tomas Vinterberg. All readings and discussions in English.

Class Format: This will be a remote course for all students, whether they are on campus or not. We will convene synchronously via web-conferencing, with an emphasis on group discussion. There will also be opportunities for students to engage with online activities both during and between our synchronous sessions. Remote office hours will provide even more opportunities for follow-up, questions, and further discussion.

Requirements/Evaluation: active participation, two shorter papers, a midterm, and a longer final paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Comparative Literature and Women's, Gender & Sexuality Studies majors, and those with compelling justification for admission

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 200 (D2) COMP 232 (D1)

Difference, Power, and Equity Notes: As the course description explains, this course centers on a critical examination of difference, power, and equity in modern Scandinavia. The content examines the effects of class, race, ethnicity, gender, and sexuality on social (in)equalities among citizens, institutions, communities, and identities. The course also employs critical tools to teach students how to interrogate Scandinavian diversity and modernity, through reading, film analysis, discussion, and writing.

Spring 2021
SEM Section: R1   TR 11:30 am - 12:45 pm   Brian Martin
In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying “Let us dishonor war!” From the Gallic Wars against Caesar (during the first century BC) to the recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the “War on Terror.” Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers

Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106 or 107; or by French placement exam; or by permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 202 (D1) WGSS 201 (D2)

Not offered current academic year

WGSS 202 (F)(S) Foundations in Sexuality Studies  (DPE)

This course will offer an introduction to the burgeoning interdisciplinary field of sexuality studies in part through examining historical, legal, literary, filmic, cultural studies, sociological, and popular texts, as well as work done under the umbrella of queer theory. It explores the role of race, class, religion, science, region, and nation in the construction of modern gender and sexual identities and in the lived experiences of dissident genders and sexualities. We will examine a range of issues, including histories and strategies of resistance; transgender and intersex theory and activism; critiques of the white racial hegemony of lesbian and gay studies; the consequences of gay marriage; the politics of AIDS and its theoretical implications; globalization and sexuality; the rise of queer visibility and its relation to commodity culture; and recent conceptualizations of homonormativity. The goal of the course is not to achieve any kind of political or intellectual consensus, but to have rigorous debate over some of the key issues in queer studies.

Class Format: discussion

Requirements/Evaluation: Short quizzes, participation, mid-term essay exam, online discussion forum. (No final exam or final paper this semester.)

Prerequisites: None. WGSS 101 may be helpful as background knowledge, but is not required.

Enrollment Limit: 12

Enrollment Preferences: Women's Gender & Sexuality Studies majors, short statement of interest in case of over-enrollment

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines sexual diversity in various forms and asks students to interrogate questions of privilege and positionality, including the intersectional contemplation of sexuality's relationship to race, ethnicity, ability, class, religion, and other axes of identity. It investigates not only sexual difference, but the history of sexual identity and progressive narratives of "gay rights" that have developed over time.
WGSS 203 (S) Chicana/o/x Film and Video

Cross-listings: AMST 205  WGSS 203  LATS 203  ARTH 203

Secondary Cross-listing

Hollywood cinema has long been fascinated with the border between the United States and Mexico. This course will examine representations of the U.S.-Mexico border, Mexican Americans, and Chicanxs in both Hollywood film and independent media. We will consider how positions on nationalism, race, gender, identity, migration, and history are represented and negotiated through film. We will begin by analyzing Hollywood "border" and gang films before approaching Chicana/o/x-produced features, independent narratives, and experimental work. This course will explore issues of film and ideology, genre and representation, nationalist resistance and feminist critiques, queer theory and the performative aspects of identity. Through a focus on Chicana/o/x representation, the course explores a wide spectrum of film history (from the silent era to the present) and considers numerous genres.

Class Format: Remote. Discussion-oriented lecture class. The course will feature synchronous online class meetings. In addition to class meetings and readings, students will be expected to watch 3-5 hours of film per week on GLOW or in the library.

Requirements/Evaluation: one short paper, mid-term exam, final exam and take home essays

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Art majors; LATS concentrators

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 205 (D2) WGSS 203 (D2) LATS 203 (D2) ARTH 203 (D1)

Spring 2021

LEC Section: R1  MW 11:45 am - 1:00 pm  C. Ondine Chavoya

WGSS 205 (S) Gender and Economics

Cross-listings: WGSS 205  ECON 203

Secondary Cross-listing

This course uses economic analysis to explore how gender differences can lead to differences in economic outcomes, in both households and the labor market. Questions to be covered include: How does the family function as an economic unit? How do individuals allocate time between the labor market and the household? How have changes in family structure affected women's employment, and vice-versa? What are possible explanations for gender differences in labor force participation, occupational choice, and earnings? What is the role of government in addressing gender issues in the home and the workplace? How successful are government policies that primarily affect women (e.g., AFDC/TANF, parental leave, subsidization of child care)? The course will focus on the current experience of women in the United States, but will place these gender differences in a historical and cross-cultural context.

Class Format: Course will be remote and will include synchronous lecture/discussion, possibly combined with some asynchronous components.

Requirements/Evaluation: weekly discussion papers, two midterms, and a final paper and presentation

Prerequisites: ECON 110

Enrollment Limit: 25

Enrollment Preferences: If overenrolled, students will be asked to submit short statement of interest.

Expected Class Size: 25
Secondary Cross-listing

The practice of colorism, or skin color discrimination, is very familiar to people of color globally. Often described as intra-racial racism, colorism within the Black American context is part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far-reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much that we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison's writings. Employing the methods of literary and rhetorical criticism, this tutorial will investigate five Morrison novels, The Bluest Eye (1970), Sula (1973), Song of Solomon (1977), Love (2003) and God Help the Child (2015), and some of her non-fiction writings. In our discussions of each text, we will examine the problem of the "color complex" at the intersections of race, gender, sexuality, class and sexual violence, and how the characters manage these overlapping issues. We will bring the novels into conversation with social science articles on the practices of colorism in daily life. Because the tutorial blends different kinds of investigations into colorism, it will equip first year students with tools to critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic observation.

Class Format: Remote

Requirements/Evaluation: six 2-page papers, two 5- to 7-page papers, 10 minute vlog, annotated bibliography

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: this course is specifically for first-year students and they will receive preference in this class

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 209 (D2) PSCI 209 (D2)

WGSS 211 (F) Gender in the Global Economy

Cross-listings: WGSS 211 ECON 105

Primary Cross-listing

This course will present a feminist economic analysis of the global economy, and some of the urgent issues facing women in poor countries. The course will start by developing theoretical resources: these will include feminist critiques of economic theory, work on care labor and the shifting boundaries between markets, governments and households, and discussions of intersectionality and difference. Then we will discuss a series of interlinked issues which may include the contradictory effects of structural adjustment and its successors; the informal sector and global value chains; the economics of sex work and global sex trafficking; and migration. We will finish by looking at community-based activism, non-governmental organizations, and the possibilities for North/South alliances.

Class Format: lecture/discussion

Requirements/Evaluation: reaction papers, research paper; participation in class discussion will count for part of the grade

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Women's, Gender and Sexuality Studies majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major.

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 211 (D2) ECON 105 (D2)

WGSS 212 (S) Ethics and Reproductive Technologies

Cross-listings: WGSS 212 PHIL 212 STS 212 SCST 212

Secondary Cross-listing

In her groundbreaking book, *The Tentative Pregnancy*, Barbara Katz Rothman writes that "[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace--or to let us think we can replace--chance with choice." Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as "motherhood" and "parenthood,"
family and genetic relatedness, exploitation and commodification, and reproductive rights and society's interests in reproductive activities. Topics will range from consideration of "mundane" technologies such as in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, and post-mortem gamete procurement. Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)

Prerequisites: none, but introductory-level course in PHIL and/or WGSS recommended

Enrollment Limit: 19

Enrollment Preferences: WGSS and PHIL majors or prospective majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 213 (S) Race, Gender, and the Alien Body: Octavia Butler's Science Fiction

Cross-listings: STS 213 WGSS 213 AFR 213 SCST 213

Secondary Cross-listing

Science fiction is a genre well known for its ability to envision new realities, and Octavia E. Butler (1947-2006) is among the most highly regarded science fiction writers. Butler's uncanny ability to imagine the future anew and to merge those ruminations with her experiences as an African American woman provide powerful commentary on—and often disrupt—modern understandings of race, gender, and human embodiment. We will explore questions such as: What role does 'gender' play in Butler's fiction? How does Butler's treatment of the 'alien' cause us to reconsider what it means to be human? How does Butler incorporate 'race' and the concept of 'other' into her fiction, and how do these techniques help us situate contemporary discussions of a post-race society? We will examine the relationship between Butler's visions for the future and what her narratives of future worlds invariably suggest about the present. We will read key texts including the best-selling text Kindred (1979), the haunting dystopian novel Parable of the Sower (1994), the popular vampire text Fledgling (2005), and the collection Bloodchild and Other Stories (1996). We will also explore contemporary engagement with Butler's work including the relationship between the main character from her book Dawn (1987), and Henrietta Lacks, the African American woman from whom the immortal cell line (HeLa) used for medical research derives. This tutorial will engage Octavia Butler's work broadly, and with particular attention to how the concepts 'race,' 'gender,' 'alien' and 'body' are interrogated in her writings.

Requirements/Evaluation: attendance, paired weekly reflection/response papers, a 5- to 7-page creative writing assignment, and a final essay of 10 pages

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: students with interests and/or prior coursework in Africana Studies and Women's, Gender, and Sexuality Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 214 (F) Why do Pussies Riot and What is "Homosexual" Propaganda? Gender and Sexuality in Putin's Russia

Cross-listings: COMP 257 GBST 213 WGSS 214 RUSS 213

Secondary Cross-listing
Since Vladimir Putin's rise to power, the media has highlighted events in Russia that at first glance resemble oddly sexualized jokes. At the same time that the Kremlin has reinstated authoritarian policy reminiscent of the Soviet Union, the Western press has chronicled Putin's topless vacations in Siberia, protests by the feminist collectives Pussy Riot and Femen, a 2011 ban on women's lacy underwear, federal legislation from 2013 prohibiting "homosexual" propaganda, and a 2017 court decision that outlawed a meme of Putin as a "gay clown." This course examines the Putin regime's ongoing attempts to police gender expression and private sexual behavior, as well as how Russian citizens' performance of gender and sexuality has changed in the past twenty years. We will consider gender and sexuality as distinctive features of Putinism, which have contributed to a biopolitical turn in official policy and inspired resistance and protest among Russian feminists and queers.

All readings will be in English, and all films with have English subtitles.

Requirements/Evaluation: active participation in class discussions, several response papers, two short papers (3-5 pages each), and a final project

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: Those majoring in Russian and/or WGSS, as well as Global Studies concentrators.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 257 (D1) GBST 213 (D1) WGSS 214 (D2) RUSS 213 (D1)

Difference, Power, and Equity Notes: The course engages in cultural comparison, explores how power and privilege are allocated differently in post-Soviet Russia than in the West, and critically theorizes contemporary Russian culture and discourse.

Not offered current academic year

WGSS 215 (F) Ways of Knowing: Music, Movement, Memory

Cross-listings: DANC 215 THEA 202 WGSS 215 AFR 215

Secondary Cross-listing

This interdisciplinary seminar proceeds from the premise that the body knows. Ongoing colonial modernity is rooted in a racialized hierarchy: the "civilized" life of the mind vs. the "primitive" instincts of the flesh. According to this binary, the body is marked as irrational, sinful, outside of the archive. The body cannot know because the happenings of the body are ephemeral: unlike documents, they don't last. In this course, we will subject this logic to close scrutiny. As performance scholar Diana Taylor asks, "Whose memories, traditions, and claims to history disappear if performance practices lack the staying power to transmit vital knowledge?" In this course, we look to music, movement, and other repertoires as ways of knowing, remembering, and world-making. How does embodied knowledge travel across time and space? How have performance practices served as modes of what Ashinaabe cultural theorist Gerald Vizenor calls "survivance" (survival + resistance) for indigenous, nomadic, queer, and colored communities. Case studies include: the Middle Passage and the syncretic birth of the Blues in the Americas; nomadism, the nation-state, and the migration of Romani music; and the evolution of queer ball culture. Students will engage with a variety of texts (verbal, sonic, visual, kinesthetic) and respond to them critically not only through writing and discussion, but also through their own performance practices.

Requirements/Evaluation: in-class participation, creative/critical responses to texts, final paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Theater majors

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

WGSS 217 (S) Extreme Persuasions: The Far Right in the United States and Russia (DPE) (WS)
The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the 'other' superpower to be an implacable enemy. How have nationalist movements in the United States come to see the Russian Federation as a vanguard for 'whiteness' and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

Requirements/Evaluation: On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%; the term paper, 25%; the in-class presentation of the term paper, 5%.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Majors and concentrators in AMST, Russian, and Women's and Gender Studies.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

Writing Skills Notes: The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

Difference, Power, and Equity Notes: Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.

Spring 2021

SEM Section: H1  TR 11:30 am - 12:45 pm  Alexandar Mihailovic

WGSS 218 (S) Gender and Sexuality in the Neo-slave Narrative (DPE) (WS)

Cross-listings: AMST 218 ENGL 218 AFR 218 WGSS 218

Secondary Cross-listing

Hortense Spillers has noted that ex-slave Harriet Jacobs, "between the lines of her narrative, demarcates a sexuality that is neuterbound" and we live with the aftermath of her observation. "Ungendering," one of the transformations undergone by bodies subjected to the Middle Passage, is one of the keywords that forms the foundation for a conversation about slavery, blackness, gender, sexuality, and archive. Throughout this course we will wrestle with the questions: How does the designation "slave" rupture, reify, or expand our understandings of sexuality and gender? What conditions have necessitated the neo-slave narrative form? Texts include: slave narratives and neo-slave narratives in the forms of novels, visual art, and film. Course texts include: Octavia E. Butler's Kindred, Jewelle Gomez's Gilda Stories, Glenn Ligon's "Runaways", and Jordan Peele's Get Out. Critical theories of blackness, gender, and sexuality are also central texts in this course including that by Darieck Scott, Saidiya Hartman, Hortense Spillers, Matt Richardson, and others. Given that neo-slave narratives intervene in the sexual and gendered silences of slave narratives and the power relations that produced them, students who are hesitant to study sexual violence might consider taking another course.

Requirements/Evaluation: mandatory participation in discussion, four papers including one critical revision (total 20 pages), keyword glossary

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: sophomores
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 218 (D2) ENGL 218 (D1) AFR 218 (D1) WGSS 218 (D2)

Writing Skills Notes: Three thesis papers at 5 pages each (each receiving critical feedback from professor); one thesis paper revision with critical feedback from professor and peers including one letter of revision explaining the student's revision process; one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the work of black writers and artists engaged with the archival silences imposed by the power dynamics of racial hierarchy which constrained the birth of African American literature (the slave narrative). In particular, we examine the meaningful/willful/and censorial omissions that shape the treatment of gender and sexuality in these texts including and especially the silences around sexual abuse and sexual assault practiced by beneficiaries of white supremacy.

WGSS 222 (S) Women on the Verge

Cross-listings: RLSPL 220 WGSS 222

Secondary Cross-listing
From the early twentieth century to the present day, the radical changes in the lives of Spanish women have clearly reflected the tug of war between progress and tradition in recent Spanish history. The dramatic upheavals in Spanish politics have marked and transformed the lives of women to such a great extent that one can often gauge the political and social climate of any given historical moment by considering how the role of women was defined by the law, the Catholic church, education, and other social and political institutions. Using literary and historical texts as well as films and graphic materials, this course will look at the transformations in the public and private lives of Spanish women during the following periods: the turn of the century, the Second Republic, the Spanish Civil War, the Franco years, and the transition to democracy.

Prerequisites: RLSPL 105, or RLSPL 200, or results of Williams College Placement Exam, or permission of instructor
**Enrollment Limit:** 20

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

**Expected Class Size:** 18

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

**Writing Skills Notes:** As the course description explains, this course centers on a critical examination of difference, power, and equity in a broad range of debates on sexuality in France, from 1800-2000. The content examines the effects of class, race, ethnicity, gender, and sexuality on social inequality; and the course employs critical tools to teach students how to articulate and interrogate the complexities of gender and sexuality, from reading and discussion, to critical analysis and writing.

**Difference, Power, and Equity Notes:** As the course description explains, this course centers on a critical examination of difference, power, and equity in a broad range of debates on sexuality in France, from 1800-2000. The content examines the effects of class, race, ethnicity, gender, and sexuality on social inequality; and the course employs critical tools to teach students how to articulate and interrogate the complexities of gender and sexuality, from reading and discussion, to critical analysis and writing.

**WGSS 225 (F) Gender and Sexuality in Asian American Theater**

**Cross-listings:** COMP 218  THEA 225  WGSS 225

**Primary Cross-listing**

This class begins with the premise that intersectional and interdisciplinary studies of gender and sexuality need to be, and in significant ways already are, in conversation with Asian American studies and theater. How might contemporary Western discourses of masculinity and heterosexuality, for example, depend upon theatrical constructions of Eastern sexual alterity? How have Asian American artists managed and critiqued historically
This seminar will closely read dramatic literature written by Asian American artists, as well as engage scholarship in Asian American gender and sexuality studies and performance studies. We will read the work of playwrights including Ayad Akhtar, Ping Chong, Frances Ya-Chu Cowhig, Velina Hasu Houston, David Henry Hwang, Young Jean Lee, Diana Son, Lauren Yee, and Chay Yew.

**Requirements/Evaluation:** in-class participation, weekly reading responses, midterm reflection, in-class reading, short essay, final essay

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** declared WGSS majors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

**WGSS 226 (S) Gender and the Dancing Body** (DPE)

**Cross-listings:** WGSS 226 THEA 226 AMST 226 DANC 226

**Secondary Cross-listing**

This course posits that the dancing body is a particularly rich site for examining the history of gender and sexuality in America and beyond. The aim of the course is to explore ideas related to gender and sexuality as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and will also include film screenings, discussions with guest artists, and opportunities for creative projects. No previous dance experience required.

**Class Format:** This course will be taught in a virtual format and will be remote.

**Requirements/Evaluation:** class participation, reading responses, essays, in-class writing assignments, and group presentations

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** first years and sophomores

**Expected Class Size:** 10-15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 226 (D2) THEA 226 (D1) AMST 226 (D2) DANC 226 (D1)

**Difference, Power, and Equity Notes:** In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

Spring 2021

SEM Section: R1 TF 3:15 pm - 4:30 pm Munjulika Tarah

**WGSS 228 (F) Feminist Bioethics** (WS)

**Cross-listings:** PHIL 228 STS 228 WGSS 228

**Secondary Cross-listing**

In this course we will explore the ways in which feminist approaches to moral thinking have influenced both the methodology and the content of contemporary bioethics. The first portion of the course will address the emergence of the "Ethics of Care," critically assessing its origins in feminist
theory, its development within the context of the caring professions, and its potential as a general approach to bioethical reasoning. The second portion of the course will use feminist philosophy to inform our understanding of the ways in which gender structures the individual's interactions with the healthcare system. To do this we will explore topics that might traditionally be considered "women's issues" in healthcare, such as medicine and body image (e.g., cosmetic surgery, eating disorders), reproductive and genetic technologies, and research on women and their healthcare needs. In addition we'll also look at feminist analyses of topics that traditionally have not been regarded as "gendered," such as resource allocation and end of life issues.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions; periodic short papers (2-3 pages); midterm and final paper (5-7 and 7-10 pages, respectively); and one oral presentation

Prerequisites: none, although previous coursework in WGSS is desirable

Enrollment Limit: 19

Enrollment Preferences: prospective and declared majors or concentrators in PHIL, WGSS, STS, and PHLH, especially those who need the course to satisfy major or concentration requirements

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 228 (D2) STS 228 (D2) WGSS 228 (D2)

Writing Skills Notes: Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

Not offered current academic year

WGSS 230 (F) Gender, Sexuality, and Global HIV/AIDS

Cross-listings: AFR 230 WGSS 230

Primary Cross-listing

The global pandemic of HIV/AIDS is now entering into its fourth decade. Throughout this history sexuality, gender and race and inequality have played a central role in the spread of the virus, and its apparent entrenchment in certain communities. This class will use a gendered, interdisciplinary perspective to investigate the pandemic's social, economic and political causes, impact, and conundrums--the problems it poses for scholarship, activism, public policy, and public health. Issues discussed will include the role of transaction sex and economic structures in both susceptibility to HIV and vulnerability to its impact; stigma and its challenges for HIV prevention, testing and treatment uptake; the role of positive youth in the next stages of the pandemic; and the evolving expressions of biopower in the global AIDS response. The class will look at examples of successful policies and activism as well as the failures, corruption and complacency that have characterized the global pandemic. There will be a particular geographical focus on experiences in the U.S. and sub-Saharan Africa.

Requirements/Evaluation: two short papers and a research paper; class participation will form part of the grade

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Public Health concentrators

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 230 (D2) WGSS 230 (D2)

WGSS 231 (S)  Art, Life, and Death: Locating Women in Italian Renaissance Art (WS)

Cross-listings: ARTH 231  WGSS 231

Secondary Cross-listing

Renaissance art is the stuff of blockbuster museum exhibitions, mass tourist pilgrimage, and record auction prices. From our modern vantage point, the cultural accomplishment of the 15th and 16th centuries in Italy clearly has the ability to astound. Calling to mind the inimitable imagination of Botticelli, the scientific genius of Leonardo, or the superhuman creativity of Michelangelo brings into focus an inspiring narrative of individual accomplishment, innovation, and progress (ideals we easily understand and may well share). This is an important story we still tell of human achievement. This tutorial explores a critical question: where are the women in this narrative? Women were not typically artists, so how might we bring their roles, force, and power into focus? To do this, we will turn away from the grand historical narrative we so easily recognize and enter a more foreign world: a realm of everyday experience in which art—never created for its own sake—was powerful, and mattered to people. Art shaped realities and mediated the fundamental questions and of life and death, from power, sexuality, love, desire, and self-definition, to mortality and communion with divinity When we approach Renaissance art on its own terms, our picture expands to include women, their lives, and what they themselves wanted to see. In addition to secondary scholarship, we will pay close attention to primary sources (including images themselves), giving students ample change to forge original arguments: one of the central goals of the tutorial.

Class Format: some tutorial meetings will be conducted at local museums

Requirements/Evaluation: engaged reading and conversation; five 5-page tutorial papers (with revisions to one of these as final project); five 1- to 2-page responses to partner's tutorial papers

Prerequisites: first-year and sophomore students (this class is open to students with no experience in art history)

Enrollment Limit: 10

Enrollment Preferences: a statement of interest will be requested in the event the course is over-enrolled

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 231 (D1) WGSS 231 (D1)

Writing Skills Notes: This course's fundamental goal is to support opportunity and skills to construct compelling and original written arguments. Tutorial partners will share standards and guidelines for strong writing with instructor: common concepts and language for critique, discussion, and applause. We will consider the power of argument inextricable from the quality of writing, and thus address writing issues, strategies, and successes in a deep way, organically and consistently, in every tutorial meeting.

Not offered current academic year

WGSS 233 (F)  Chemical Intimacies (DPE)

Cross-listings: ARTH 243  ENGL 243  SCST 233  WGSS 233  STS 233

Primary Cross-listing

This is a research seminar that understands human-chemical entanglement in relationship to environment, sexuality, geography, ecology, and capacity. It doubles as a research class in which students choose a project of chemical intimacy to investigate as their own through the course of the semester. In the first half, we will together read and discuss forms of human-chemical entanglement, whether a matter of industrial pollution, pharmaceutical use, habitual intoxication, gendered self-care or enhancement, or built environment; the goal is to achieve a broad sensibility for the concept as well as a familiarity with thinking biochemically and biopolitically about living bodies, while consistently registering questions of race, gender, class, sexuality, disability, and more. In the second half, each participant will choose and research a historically and geopolitically specific scenario of chemical entanglement, while 1) considering the political, legal, cultural, and labor contexts of the case; 2) exploring relationships between "actual" and "represented" (protest slogans or visual productions in the case of environmental justice activism, for example); 3) examining other research questions germane to their site of interest and their chosen discipline of study. We will take one field trip to a local site.

Requirements/Evaluation: individual research project

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Art History majors, English majors, Environmental Studies majors

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 243 (D2) ENGL 243 (D1) SCST 233 (D2) WGSS 233 (D2) STS 233 (D2)

Difference, Power, and Equity Notes: The course gives special attention to forms of human-chemical entanglement that are related to environmental justice (pollution), and gender, racial, sexual, indigenous, and disability politics.

Not offered current academic year

WGSS 235 (F) Innovation, Gender, and Sustainable Development (DPE)

Cross-listings: WGSS 235 STS 235 SCST 235

Primary Cross-listing

Technological innovation is vital for communities, businesses and nations seeking to adapt to a globalized, competitive world. But any innovation also has impacts on all three dimensions of sustainability: the ecological, the economic, and the social. For example, such impacts may either exacerbate or mitigate gender inequalities. This course uses a gender studies lens to study innovation in the development of sustainable practices in the present and for the future. We will look at the impact of gender stereotypes on innovation, including the co-construction of gender and technology. Since the course is taught by a visiting scholar from Sweden, a particular focus will be the EU's policy of "Gender Mainstreaming" which requires all proposed policies to be assessed for their impact on gender inequality. The course looks at technical development as necessary and valuable, while investigating power relations and taken-for-granted views embedded in the particular forms it takes. The course will rely largely on analysis of case studies, and students will be encouraged to apply the analytic tools of the course to develop US-based case studies of their own.

Class Format: combination of lecture and discussion

Requirements/Evaluation: reading journal, mid-term exam, and a final research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Environmental Studies majors, students who have taken WGSS 101

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 235 (D2) STS 235 (D2) SCST 235 (D2)

Difference, Power, and Equity Notes: The course focuses specifically on tools for analyzing the potential differential impacts of sustainable development projects along gender lines.

Not offered current academic year

WGSS 237 (S) Queer Drama (DPE)

Cross-listings: WGSS 237 THEA 240

Secondary Cross-listing

This seminar course is a deep dive into the richly dissonant dialogue between queer lives and live performance. How have queer artists shaped and reshaped the field of theatre and performance over time? How has drama, in turn, shaped the landscape of queer life? What inventions and innovations might we attribute to the evolution of "queer"? We will look to the work of artists such as Tennessee Williams, Tarell McCraney, Taylor Mac, Reza Abdoh, Sharon Bridgforth, Virginia Grise, and many others as we seek to map the messy topography of queer performance.

Class Format: three hours per week

Requirements/Evaluation: two 5-page papers, participation in text-based seminars, and a final performance

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: if the class is overenrolled, students will submit a letter of interest in the class

Expected Class Size: 14
**WGSS 239 (S) History of Sexuality**

**Cross-listings:** GBST 241 WGSS 239 REL 241 HIST 292

**Secondary Cross-listing**

Is sexuality an immutable aspect of who we are or is it socially constructed? How have people understood sex and sexuality throughout history? Why does religion have any say in the sexual lives of individuals and society? What are sexual transgressions and why are they punished? Is sex a commodity that can be exchanged for money? Is sex political? This course will explore these questions through a historical approach, focusing in particular on the shifting understanding of sex and sexuality across historical time and different geographical regions. In investigating the category of sexuality, this course will push us to consider three key questions: 1) Is sexuality a useful category for historical analysis, 2) how have our assumptions regarding sexuality and sexual ethics taken shape and changed over time and 3) how do social, cultural, political, and economic conditions affect changing meanings of sexuality. Historical studies will be read in conjunction with different theoretical frameworks about sexuality. Reading historical accounts of sexuality alongside theoretical pieces will allow us to consider how historians construct an argument and the influence of theoretical frameworks in shaping scholarship. Some of the theorists we will read in the course include: Michel Foucault, David Halperin, Afsaneh Najmabadi, Valerie Traub, and Carla Freccero.

**Requirements/Evaluation:** reading responses, two essays, and final research paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Religion, History, and Women's, Gender and Sexuality Studies majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

**WGSS 240 (S) Performing Masculinity in Global Popular Culture (DPE)**

**Cross-listings:** WGSS 240 THEA 241 SOC 240 AMST 241 LATS 241

**Primary Cross-listing**

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J-K-Pop), hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

**Requirements/Evaluation:** masculinity journal, mid-term essay exam, visual rhetorical analyses of pop culture images

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** a short statement of interest will be solicited
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

WGSS 241  (S)  Sex and Gender in Ancient Greece and Rome
Cross-listings:  WGSS 241  COMP 241  CLAS 241
Secondary Cross-listing
From the household to the marketplace, from sacred spaces to the political arena, sexuality and gender shaped a broad range of attitudes and actions in the ancient Mediterranean world. This course investigates a variety of discourses and practices around sexuality and gender in ancient Greece and Rome with the aim of promoting students' capacity to evaluate claims and dismantle false assumptions about the continuity of the "classical" past with contemporary norms and values. We will carefully analyze, contextualize, and compare a variety of texts, including selections from tragic and comic drama, epic and lyric poetry, handbooks, epitaphs, novels and biography in order to better understand how gender and sexuality were expressed, experienced, and regulated in Greece and Rome. Our emphasis will be on ancient texts, but selections from contemporary criticism and theory will enrich the methodological frameworks through which we approach the primary sources.

Requirements/Evaluation: five to six weekly tutorial papers, five to six responses, a midterm self-evaluation and conference with instructor, a mid-length final paper (approximately eight pages) consisting of a revision and expansion of a previously written paper
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: majors or intended majors in Classics, WGSS, and Comparative Literature
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

WGSS 242  (S)  Women, Gender, and Sexuality in Islam  (DPE)
Cross-listings:  REL 242  WGSS 242  ARAB 242
Secondary Cross-listing
The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism--the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.
**Requirements/Evaluation**: weekly discussion post, midterm essay, and final paper (6-8 pages)

**Prerequisites**: none

**Enrollment Limit**: 19

**Enrollment Preferences**: Religion, Women's, Gender and Sexuality Studies and Arabic majors

**Expected Class Size**: 14

**Grading**: no pass/fail option, yes fifth course option

**Distributions**: (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

**Difference, Power, and Equity Notes**: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

**WGSS 243 (F) Islamic Law: Past and Present**

**Cross-listings**: ARAB 243 WGSS 243 REL 243 HIST 302

**Secondary Cross-listing**

From fear of the Shari'a to its implementation in so called "Islamic countries," Islamic law is perhaps best associated with draconian punishments and the oppression of women. Islamic law is ever present in our public discourse today and yet little is known about it. This course is designed to give students a foundation in the substantive teachings of Islamic law. Islamic law stretches back over 1400 years and is grounded in the Quran, the life example of the Prophet Muhammad, and juridical discourse. Teetering between legal and ethical discourse, the Shari'a moves between what we normally consider law as well as ethics and etiquette. The course will explore four key aspects of the law: its historical development, its ethical and legal content, the law in practice, and the transformation of Islamic law through colonialism and into the contemporary. Specific areas we will cover include: ritual piety, family and personal status law, criminal law, and dietary rules.

**Requirements/Evaluation**: weekly responses, four 2- to 3-page essays

**Prerequisites**: none

**Enrollment Limit**: 19

**Enrollment Preferences**: majors

**Expected Class Size**: 10

**Grading**: yes pass/fail option, yes fifth course option

**Distributions**: (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

Not offered current academic year

**WGSS 244 (F) Actually Existing Alternative Economies (DPE)**

Capitalism has a way of constricting our imaginations so that we come to believe the only possible form of economic institution is one based on profit seeking, competition and individualism. However movements in countries including Brazil, France, Canada and Spain--and now parts of the U.S.--are demonstrating otherwise. Theorists, practitioners and social activists are adopting labels including 'Solidarity Economy' and 'New Economy' to group together economic activities based on ideals of human provisioning, social justice and environmental sustainability. They point out that many of these activities are already taking place and are often crucial to our lives, but are rendered invisible by economic theory. In the words of Brazilian popular educator and economist Marcos Arruda, 'a solidarity economy does not arise from thinkers or ideas; it is the outcome of the concrete historical struggle of the human being to live and to develop him/herself as an individual and a collective.' Feminist geographers Julie Graham and Katherine Gibson developed practices of 'mapping' local economies with communities in Australia and Western Massachusetts in ways that bring to light the invisible
resources and practices of provisioning and solidarity, and challenge what they describe, drawing on the work of feminist theorist Sharon Marcus, as a 'script' of local helplessness to resist the 'rape' of their economies by the forces of global capitalism. Do these proposed discursive practices actually present realistic possibilities for producing sustained economic change? In this tutorial we will learn and debate about some of the activities being named and built under the label of solidarity economy, such as the networks of worker-owned cooperatives in Mondragon, Spain, the growth of local currencies and time exchanges, fair trade organizations and different ways of organizing care work. We will look at some of the history and debates around worker-owned cooperatives, ranging from Victorian England through African-American experiences throughout the 20th century and examples in post-independence Africa, to the recent establishment of Cooperation Jackson in Jackson, Mississippi. The ILO has argued that co-ops are a particularly appropriate form to African development. Is this plausible, and what role might they play in AIDS-affected communities? Why has the recent U.S. growth of the solidarity economy been so concentrated in communities of color, and how is it gendered? We will visit some examples in New York or Boston.

Requirements/Evaluation: six papers of 5-7 pages, six written responses to partner's papers, participation in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: open to sophomores and above

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course fulfills the DPE requirement because of its central focus on the diversity of economic institutions within and across countries and the power imbalances that call them into being and challenge some of their survival. The course considers ways the hegemonic discourse of economics tends to render that diversity invisible, and tools, both analytical and activist, for bringing it out into view. It teaches tools to evaluate economic institutions in terms of equity and solidarity.

TUT Section: RT1 TBA Kiaran Honderich

WGSS 246 (S) India's Identities: Nation, Community, & Individual (DPE) (WS)

Cross-listings: ASST 246 REL 246 ANTH 246 WGSS 246

Secondary Cross-listing

This tutorial considers India's legacy as a booming Asian democracy that is built upon deep and enduring divisions. Why is India's growing population so often described in terms of multiple identities or fragmenting oppositions—including religion, gender, caste, and class? What are the historic roots and recollections of key moments of structural violence in modern Indian history that produce ongoing social conflict as well as social fluidity? We pay particular attention to key historic moments such as Partition, and key communal riots in Gujarat, Hyderabad, and Delhi as well as regions of India such as Jammu & Kashmir in order to understand the struggle for individual subjectivity and identity within a landscape of stark social hierarchies. We will cover climate emergencies, resource scarcities, and ongoing struggles for power and status across very different parts of India. Our readings include ethnographic, sociological, historical analyses as well as fiction, oral history, and popular media sources that attempt to portray India's diverse and fragmented society.

Class Format: meetings weekly, weekly writing, and discussion

Requirements/Evaluation: weekly writing assignments and tutorial attendance every week

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: majors in Anthropology and Sociology, Religion, Asian Studies, or Women's, Gender & Sexuality Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 246 (D2) REL 246 (D2) ANTH 246 (D2) WGSS 246 (D2)

Writing Skills Notes: Weekly writing, writing chats, intensive feedback on writing grammar, style, argument every week.
**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity by theorizing the ways that social power and equity have been and continue to be a source of struggle and division within Indian society. It analyzes the ways that communities have used religion, gender, ethnicity, and caste to struggle for power and status within Indian society.

Not offered current academic year

**WGSS 248 (S) Carmen, 1845 to Now**  (DPE) (WS)

**Cross-listings:** MUS 278  WGSS 248

**Secondary Cross-listing**

The story of the gypsy *femme fatale* Carmen has endured for over 150 years. In Western culture and beyond, she exemplifies the seductive, exotic, independent, and dangerous woman who drives an upstanding man to a life of crime and finally murder. This course explores a broad array of treatments of this archetypal and problematic narrative, starting with Prosper Mérimée's 1845 novella on which Bizet based his famous 1875 opera *Carmen*. We will consider various staged and film versions of the opera itself, including Francesco Rosi's stunning 1984 movie, and discuss various other film transformations of the story, from DeMille's 1915 silent film through Hammerstein's 1954 all-black musical *Carmen Jones*, to the MTV version *A Hip Hopera* of 2004. Comic approaches will also be assessed, from Charlie Chaplin's *Carmen Burlesque* of 1915 through Spike Jones' 1952 *Carmen Murdered!* and *The Naked Carmen* of 1970. We will explore provocative dance interpretations ranging from Carlos Saura's 1983 flamenco version through David Bourne's choreography in his 2001 gay reading called *The Car Man*. Our journey concludes with a comparison of two post-colonial sub-Saharan African films—the Senegalese director Ramaka's *Karmen Geï* (2001) and *U-Carmen eKhayelitsha* (2005) by the South African director Dornford-May—that push critical reaction to Bizet's story and music beyond Western cultural boundaries.

**Class Format:** Remote format. After four initial 75-minute group meetings to discuss Mérimée's novella and Bizet's music, students will meet with the instructor in pairs for one hour each week. The scheduled class time is obligatory only for the first two weeks, after which weekly pair meetings will be individually scheduled.

**Requirements/Evaluation:** Each student will write a 5- to 6-page essay every other week (five in all), and provide 2-page written and oral peer reviews in alternate weeks; evaluation will be based on the quality of written work, discussions, and oral presentation.

**Prerequisites:** None; ability to read music useful but not necessary

**Enrollment Limit:** 10

**Enrollment Preferences:** Preference given to current or prospective Music and Women's Gender & Sexuality Studies majors, then seniors and juniors.

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

MUS 278 (D1) WGSS 248 (D2)

**Writing Skills Notes:** Students will write five short essays of 5-6 pages each, and receive oral and written feedback addressing structure, argumentation, and style from their tutorial partner and the instructor on every essay.

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement through a critical examination of the ways in which the Carmen story has served as a stage on which multifaceted textual and musical constructions and conflicts express the power dynamics between individual and group identities, encompassing gender and sexuality, nationality, race, ethnicity, and class.

Spring 2021

---

**WGSS 250 (S) Feminist Theatres: A Global Perspective**  (DPE) (WS)

**Cross-listings:** ENGL 253  WGSS 250  THEA 250

**Secondary Cross-listing**

What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, reluctant? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaboratives from across the globe, from the late-twentieth century to today.
Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Arethusa Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

**Class Format:** For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

**Requirements/Evaluation:** students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner's papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 253 (D1) WGSS 250 (D2) THEA 250 (D1)

**Writing Skills Notes:** As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one's interpretation, and fluidly integrating theory into one's argumentation.

**Difference, Power, and Equity Notes:** This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

Spring 2021

TUT Section: HT1   TBA   Amy S. Holzapfel

**WGSS 255 (F) “Illness” in Modern and Contemporary Chinese Literature and Culture** (DPE)
**Cross-listings:** CHIN 253  COMP 254  WGSS 255

**Secondary Cross-listing**
From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"--a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness"; the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

**Class Format:** All regular course meetings will be conducted ONLINE with mostly a synchronous mode of instruction. FIRST MEETING: for those who are on campus, we will have our FIRST meeting outdoors; those who remain remote can choose either "Zoom" in or attend a separate online FIRST
Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Pre-class quizzes based on reading and recorded lectures (Graded as Complete or Incomplete); 3) Post-class discussion in forms of paragraph writing and/or video clips (graded as Complete or Incomplete); 4) two short papers (3-5 pages); 5) the final project (including a presentation, and a paper or other form of project).

Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 10

Enrollment Preferences: Chinese, Asian Studies, or Japanese majors; and then to first-year students

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
CHIN 253 (D1) COMP 254 (D1) WGSS 255 (D1)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

Fall 2020

LEC Section: R1    TF 3:15 pm - 4:30 pm     Man  He

WGSS 256 (F)  Buddhism, Sex, & Gender: #MeToo Then and Now (DPE)

Cross-listings: ANTH 256  WGSS 256  REL 256  ASST 256

Secondary Cross-listing

This course considers the feminist voices that have been part and parcel of Buddhist practices, texts, and institutions for most of its 2500-year history. We will conduct a historical genealogy of Buddhist voices that illustrate the fluid and disruptive role of sex, gender, caste, and class in relation to individual behavior and social relations. How did the Buddha's inner revolution produce a set of practices that both reject and reinforce existing binaries and social hierarchies of sex and gender, and with what effects? We will trace a feminist voice that decries harassment, assault, and systemic sexism within Buddhist communities from the first female disciples (Theri) of the Buddha to the current #MeToo era of embattled toxic masculinity. Along the way, we explore a literary canon that contains misogyny and 'she devils' alongside a rich tapestry of female divinities, transgender fluidity, and female liberation. We pursue and intersectional analysis of Buddhist traditions and texts by considering the multiple forms of social hierarchy--gender, sexuality, race, and class--that Buddhism has attempted to transcend. We begin by considering three women in the Buddha's life--his mother (Maya), his stepmother/aunt (Gotami), and his wife (Yashodhara)--as well as the tales of the first enlightened Buddhist women whose topics include prostitution, patriarchy, sexism, and pathetic husbands, as well as their own decaying bodies and beauty. Our next theme is the myriad ways that gender is both produced and deconstructed in Buddhist discourses on enlightenment and the human body. Our final theme considers a range of monastic memoirs, including a Buddhist black nun who left Harvard to take ordination in Thailand, and a Dutchman who studied Zen Japan. We close by examining the current debates in the U.S. and Asia that seek to combat systemic racism, sexism, and casteism in Buddhist traditions.

Requirements/Evaluation: class discussion, reading responses (3-4 pages), writing chat, final research paper (12 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Anthropology, Religion, Asian Studies, Women's, Gender and Sexuality majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 256 (D2) WGSS 256 (D2) REL 256 (D2) ASST 256 (D2)

Difference, Power, and Equity Notes: The course fulfills DPE because it seeks to theorize the role of difference (gender, sex, class, and race) and
intersectionality within Buddhist texts, practices, and institutions. It considers how Buddhist practices and institutions both deconstruct and reproduce social inequality.

Not offered current academic year

WGSS 258 (F) Black Women in African American Literature and Culture

Cross-listings: AMST 248 ENGL 248 WGSS 258

Secondary Cross-listing

This course surveys constructions of black womanhood from the nineteenth century to the present through readings of texts by and about black women. In this course, students will trace how black womanhood became central to uplift ideology and the making and sustaining of black communities in the post-Reconstruction, Harlem Renaissance, and Black Power eras. We will read works across a broad historical spectrum to identify the ways different writers wrestle with race and gender using literary tropes, such as the "tragic mulatto," in different social contexts. We will also engage a range of forms, including an essay (Patricia Hill Collins's "Mammies, Matriarchs, and Other Controlling Images"), a choreopoem (Ntozake Shange's For Colored Girls Who Have Considered Suicide when the Rainbow is Enuf), and socio-political propaganda (the "Black is Beautiful" movement). This course will end with a consideration of the way writer and producer Issa Rae engages with contemporary ideologies of black womanhood in the HBO series Insecure.

Requirements/Evaluation: active class participation, four short papers totaling about 20 pages; final project on the hashtag #blackgirlmagic

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 248 (D2) ENGL 248 (D1) WGSS 258 (D1)

Not offered current academic year

WGSS 259 (S) Adultery in the Nineteenth-Century Novel (WS)

Cross-listings: COMP 259 WGSS 259 ENGL 261

Secondary Cross-listing

In this tutorial, we will read four novels written between 1850 and 1900, all of which focus on the figure of the adulteress: Gustave Flaubert's Madame Bovary (1856), Lev Tolstoy's Anna Karenina (1873-77), Leopoldo Alas y Ureña's La Regenta (1884-85), and Theodor Fontane's Effi Briest (1894). For each week of class, students will read one of these primary texts, as well as a selection of secondary literature that will allow us to understand, over the course of the semester, how and why the adulteress played a key role in the cultural imagination of Europe during this time. All works will be read in English translation.

Class Format: This course will be taught remotely as a tutorial; students will meet with the professor in pairs, with one student from each pair writing a 5-page paper for each class session

Requirements/Evaluation: evaluation will be based on completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: students who have already taken at least one course devoted to literature at Williams

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 259 (D1) WGSS 259 (D2) ENGL 261 (D1)
Writing Skills Notes: This course requires that students write a total of five 5-page essays in the course of the semester, and the professor pays attention to developing each student's writing skills. Students will work on crafting an argumentative essay about literature, as well as on their own writing style.

Not offered current academic year

WGSS 260 (F) Power, Feminist-Style (DPE) (WS)

Cross-listings: WGSS 260  PSCI 260

Primary Cross-listing

This course examines one of the most important concepts in the analysis of sex and gender and efforts to envision sexual and gender justice, the concept of power from multiple feminist perspectives. At the core of feminism lies the critique of inequitable power relations. Some feminists claim that power itself is the root of all evil and that a feminist world is one without power. Others portray the feminist agenda as one of taking power, or of reconstructing society by exercising a specifically feminist mode of power. In this course, we will look at feminist critiques of power, how feminists have employed notions of power developed outside of the arena of feminist thought, and efforts to develop specifically feminist ideas of power. Along the way, we will ask: Are some concepts of power more useful to feminism? Can certain forms of power be considered more feminist than others? How can feminist power be realized? Thinkers we will engage include Judith Butler, Audre Lorde, Catherine MacKinnon, Hannah Arendt, and Patricia Hill Collins.

Requirements/Evaluation: eight short writing assignments (ranging from 250 words to 750 words), drafting and revision of a 10 pg final essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Women's, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 260 (D2) PSCI 260 (D2)

Writing Skills Notes: This course aims to carefully unpack the writing process by focusing on particular elements of writing (summary, critical analysis) while also introducing students to tools they can use to improve their writing (freewriting). Short writing assignments like the proposal, outline, and abstract build on one another and culminate in a final essay that goes through the process of drafting and, after peer and teacher review, revision.

Difference, Power, and Equity Notes: This course requires students to focus on what power does and should look like from the perspective of difference, exploring the relationship between power and equity in the process. Students will reflect on and discuss the working of power in their own lives, why certain forms of power are more or less visible to particular groups, and how different ideas about power promote different interests in society at large.

WGSS 262 (F) Indigenous Feminisms (DPE)

Cross-listings: AMST 260  WGSS 262

Secondary Cross-listing

Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices ‘make a future’ (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and
making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

**Class Format:** Hybrid online/in-person

**Requirements/Evaluation:** Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

**Prerequisites:** None

**Enrollment Limit:** 19

**Enrollment Preferences:** American Studies majors or potential majors have first preference, WGSS majors have next priority.

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 260 (D2) WGSS 262 (D2)

**Difference, Power, and Equity Notes:** This course has as its core mission -- both in subject matter and in pedagogical approaches -- the exploration of difference, power and equity.

---

**WGSS 263 (S) Transnational Activism: Practice, Problems, Ethics (DPE)**

**Cross-listings:** SOC 264  WGSS 263

**Primary Cross-listing**

The world's got problems. These problems don't respect national boundaries. This class looks at how activists have engaged across borders and with transnational institutions in order to address transnational problems like class inequality, sexism, homophobia, climate change, and more. It asks: what are the different forms that transnational activism takes and how have transnational activists have advanced their goals? Why and how have transnational activists' efforts have failed? What are the practical and ethical difficulties associated with transnational activism? What does ethical transnational activism look like, and can it also be effective? While focusing especially on the role of transnational activism in combating sex and gender-based inequities, we will also engage with activism that targets the other axes of oppression with which sex and gender-based oppressions are inextricably entwined.

**Requirements/Evaluation:** class attendance/participation; critical profile of transnational activist; essay or project proposal, final essay or project

**Prerequisites:** none

**Enrollment Limit:** none

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies majors and Sociology majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 264 (D2) WGSS 263 (D2)

**Difference, Power, and Equity Notes:** This course centers activism organized around various axes of difference, enabling students to learn about how various groups are defining and pursuing equity. It requires students to explicitly engage the question of ethical intervention in political movements, stressing attentiveness to the dynamics of privilege and marginalization internal to movements.

Not offered current academic year

---

**WGSS 264 (F) Bodies, Genders, and Sexualities in the Early Christian World (DPE)**

**Cross-listings:** REL 264  WGSS 264

**Secondary Cross-listing**
What does it mean to be a woman or a man? To have body? A gender? A sexuality? In this course we will explore the ways in which bodies, genders, and sexualities were experienced and described in Mediterranean antiquity. Ancient experiences of and ideas about bodies, genders, and sexualities were often very different than those of the contemporary world. Nevertheless, because Greek and Roman antiquity and Christian beginnings often function as the imagined origins of "Western" (or European and American) "civilization," these ancient ideas about bodies, genders, and sexuality, maintain an out-sized presence in current debates about the "normal" body, gender practices, and the contour of sexuality. With a focus on early Christianity, the course seeks, on the one hand, to introduce students to the early history of Christianity through an inspection of its pluriform discourses on the meaning and regulation of bodies, genders, and sexuality, even as it keeps an eye toward the modern legacy of these ideas. On the other hand, the course gives students the opportunity to be introduced to key questions and theories in Women's, Gender, and Sexuality Studies through the study of early Christianity and its environs.

Requirements/Evaluation: weekly response papers, 5- to 6-page paper, 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: majors, student seniority by class

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 264 (D2) WGSS 264 (D2)

Difference, Power, and Equity Notes: The course's focus on the production and use of difference in terms of bodies, genders, and sexualities, and how those putative differences were used to authorize the social distribution of power, qualify this course as meeting the DPE distribution requirement.

Not offered current academic year

WGSS 267 (S) Performance Studies: An Introduction (DPE)

Cross-listings: DANC 267 WGSS 267 COMP 267 THEA 267

Secondary Cross-listing

Since the 1980s, performance studies has emerged as an interdisciplinary field of inquiry, with origins in theater and anthropology, in communications and philosophy. What might theorizing "performance" as mode, analytic, and object of study have to offer scholarship in the interdisciplinary humanities? In this seminar, we will read texts formative of performance studies, paired with multimedia performance examples, where performance speaks to staged theatrics as well as the presentation of everyday life. We will ask, how are race, gender, sexuality, and nation produced as the effects of legal, political, historical, social, and cultural scripts? And--an important partner question--how do discourses and practices of race, gender, sexuality, and nation in fact produce legal, political, historical, social, and cultural effects? This seminar is an introduction to performance studies, an interdisciplinary field in conversation with theater studies, gender studies, anthropology, philosophy, literary theory, visual studies, dance studies, ethnic studies, queer theory, and postcolonial studies. Students will study and experiment with performance while reading theoretical texts to grapple with concepts including ritual, restored behavior, performativity, mimicry, liveness, the body, objecthood, archive, movement, matter, and affect.

Requirements/Evaluation: reflection papers, performance analysis, final paper or performance

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 267 (D1) WGSS 267 (D1) COMP 267 (D1) THEA 267 (D1)

Difference, Power, and Equity Notes: This course tracks performance studies' engagement with feminist, queer, post-colonial, and critical ethnic studies scholarship, equipping students with tools and concepts with which to analyze power, difference, and equity.

Not offered current academic year
WGSS 274 (F) 'As If Her Mouth Were a Weapon': Jamaica Kincaid (DPE)

Cross-listings: ENGL 254  WGSS 274

Secondary Cross-listing

This course explores the work of the internationally renowned author Jamaica Kincaid. We will wrestle with her commentary on concepts and conditions such as death; the afterlife of slavery and colonialism; family relations; love, romance, their absence and their entanglement with hatred; and illness. We will pay particular attention to character and author navigation of negative affects and the blurred boundaries between fiction and autobiography. Course texts include Annie John (1985), Lucy (1990), The Autobiography of My Mother (1996), My Brother (1997), Mr. Potter (2002), and See Now Then (2013). They will be examined through the lenses of race, gender, sexuality, class and citizenship and aided by supplemental readings. This course will explore the power that structures and determines or constrains labor and citizenship status; abortion, reproduction and mothering; memory, literacy and archival production; and more.

Class Format: meeting as a full group two to three times; meeting in tutorial pairs for most of the semester

Requirements/Evaluation: five 4- to 5-page essays and five 2-page critical responses, completed in tutorial pairs, keyword assignment, final roundtable

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 10

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 254 (D1) WGSS 274 (D1)

Difference, Power, and Equity Notes: Students will center afro-caribbean women's subject formation on the terrain of the literary imagination and develop interpretive and analytical skills to examine the affective dimensions of the racialization and gendering of power, of intimacy, and of national belonging.

Not offered current academic year

WGSS 275 (S) Women's Contemporary Cultural Production in Latin America (DPE)

Cross-listings: RLSP 274  COMP 286  WGSS 275

Secondary Cross-listing

In Latin America, women have been largely displaced as historical subjects and reduced, in many ways, to symbolic figures or icons whose trajectories have been depicted as essential to the construction of diverse social projects within the context of patriarchal nation-states. Each country has formed a specific idea of what a woman is, and can be, through its cultural production, and this constant erasure/objectification has led to a complex problematic when it comes to addressing women as cultural producers. Keeping this in mind, in this course we will explore the concept of "Woman" as a representation and women as cultural producers in contemporary Latin America. We will address intersections of race/ethnic positioning, sexual identity, and social class to explore their role in the reception and understanding of the work of these female artists. Through the analysis of varied cultural production, the syllabus will present an interdisciplinary approach to the contributions of female artists to the cultural representation of race/ethnicity, masculinity, femininity, violence, sexuality, gender identity, nationalism, citizenship, and social movements. We will explore the work of artists such as Sara Castrejón, Nahui Ollin, Citlali Fabián, Amparo Dávila, Alejandra Pizarnik, Rosario Castellanos, Reina Roffé, Ana Tijoux, Lucrecia Martel, Chavela Vargas, Graciela Iturbide, Celia Cruz, Lucía Puenzo, Cecilia Barriga, Cristina Rivera Garza, María Novaro, Cristina Peri Rossi, Maruch Sántiz Gómez, Leonora Carrington, and Maris Bustamante, among others. In addition, we will read theoretical texts on diverse subjects corresponding to each specific cultural product.

Requirements/Evaluation: essays (7-8 pages), weekly written reports, oral presentation, active and engaged class participation

Prerequisites: RLSP 105, placement exam results, permission of instructor or Department Chair

Enrollment Limit: 19

Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLSP 274 (D1) COMP 286 (D1) WGSS 275 (D1)

Difference, Power, and Equity Notes: We will address issues of racial/ethnic positioning, sexuality, gender identity, and social class in light of diverse human experiences in contemporary cultural production in Latin America.

Not offered current academic year

WGSS 283 (F) Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film

Cross-listings: WGSS 283 AMST 283 ENGL 286 AFR 283

Primary Cross-listing

In this course we will foreground questions around visibility and memory. We will explore representations of Black queer bodies in experimental, documentary and narrative film. This course will engage foundational texts from Black Queer Studies. We will pair texts with film in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1996), U People (Olive Demetrius and Hanifah Walidah, 2009), Tongues Untied (Marlon Riggs, 1989) and Litany for Survival (Ada Gay Griffin and Michelle Parkerson, 1995). Throughout the course we will evaluate the different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be asked to facilitate a class discussion. You also will be required to do weekly critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that "represents" some segment of Black queer living.

Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, then Africana Studies concentrators

WGSS 284 (S) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe (WS)

Cross-listings: REL 284 WGSS 284 ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature
provides a compelling introduction to the discipline of art history itself, past and present.

**Requirements/Evaluation:** Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** First years and sophomores, but open to all.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 284 (D2) WGSS 284 (D2) ARTH 218 (D1)

**Writing Skills Notes:** In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021

TUT Section: RT1 TBA Peter D. Low

**WGSS 300 (F) Advanced Ballet--Technique, Repertoire, & Revolution: Women at the Barre, on Stage, at the Helm**

**Cross-listings:** DANC 300 WGSS 300

**Secondary Cross-listing**

To loosely paraphrase the feminist Emma Goldman, "If I can't dance, I don't want to be part of your revolution." Designed for intermediate/advanced ballet dancers, in this course students will explore different topics in past and current ballet history through the lens of famous ballets, dancers, choreographers, etc. In Fall 2019, we will focus on some of the notable female figures in the world of ballet: while ballet is often perceived as a primarily "female" art form-and indeed, there are many more females vying for positions in ballet companies than males-historically, women have held far fewer leadership positions than men, and have had fewer choreographic opportunities. In addition to technique classes, variations and/or ensemble sections from selected ballets will be taught and coached to students. This is primarily a studio course, although readings relevant to our coursework will be assigned. These assignments will offer historical context, as well as provide rigorous looks at some of the ways in which ballet hasn't always lived up to its potential as a dance form for all people regardless of class, race, and gender. We'll consider basic information-the plotlines of the ballets-as well as more subtle ideas-famous dancers' takes on these roles, the socio-political aspects of the works themselves and the times they were created in. Viewings will also be assigned to allow students to fully explore and grasp the ballets and to provide additional contextualization. Students will submit (informal) written responses to the assignments. The class may go on one or two field trips to attend performances and will write response papers when applicable. This course MAY BE REPEATED for general academic credit (but not for additional WGGS major credit). ANY student with adequate prior training is welcome to this class! Material will be introduced at an intermediate/advanced level, and individuals will be assessed on their own personal progress.

**Requirements/Evaluation:** quality of participation and progress (throughout the semester) in classes, rehearsals, presentations, and assignment responses

**Prerequisites:** a minimum of three years prior training in ballet, and a demonstrated ability to safely keep up with this level of instruction; permission of instructor required

**Enrollment Limit:** 20

**Enrollment Preferences:** students with demonstrated ability and desire to continue rigorous study

**Expected Class Size:** 5

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** ballet class attire: leotard, tights/leggings, ballet slippers; and for those on pointe, pointe shoes

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

DANC 300 (D1) WGSS 300 (D1)

Not offered current academic year
WGSS 301 (S) Sexual Economies  (DPE)

Cross-listings: ANTH 301  WGSS 301  AMST 334

Primary Cross-listing

This course examines various forms of sexual labor around the world in order to better understand how gendered and sexual performances are used in a variety of cultures and contexts for material benefit. Our topics include "traditional" forms of sex work such as street prostitution, pornography, and escorting as well as other forms of sexualized performances for benefit such as stripping or camming. We also discuss current issues and debates about discourses of "sex trafficking." Course readings come from a range of fields, but focus most heavily on anthropology, sociology, American studies, and gender studies. The readings for this class will frequently foreground the lived experiences of sex workers from a variety of nations, races, classes, religions, and backgrounds in order to explore the broader social implications of our subject matter. The format is largely discussion-based, with short lectures supplementing the reading with summaries of current scholarly and activist debates. We have a variety of guest speakers to share their diverse lived experiences related to this topic.

Requirements/Evaluation: midterm essay exam, short quizzes, participation, Marco Polo video chat posts

Prerequisites: none, though WGSS 101 and/or 202 may be helpful, but not required

Enrollment Limit: 14

Enrollment Preferences: based on statement of interest

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 301 (D2) WGSS 301 (D2) AMST 334 (D2)

Difference, Power, and Equity Notes: We pay particular attention to the intersecting questions of race, sexuality, gender, and class as we explore the political economy of commercial sex. The course teaches students to examine the underlying political and economic structures that create systems of privilege and power, thereby complicating questions and assumptions about sexual consent, coercion, agency, and empowerment with particular attention to race and gender in comparative transnational contexts.

Spring 2021

SEM Section: R1  MW 8:30 pm - 9:45 pm  Gregory C. Mitchell

WGSS 302  (F) Social Construction  (DPE)

Cross-listings: COMP 315  WGSS 302  REL 301  SOC 301  STS 301  SCST 301

Secondary Cross-listing

"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites: none

Enrollment Limit: 15
Enrollment Preferences: Religion majors, then majors from cross-listed departments

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 315 (D2) WGSS 302 (D2) REL 301 (D2) SOC 301 (D2) STS 301 (D2) SCST 301 (D2)

Difference, Power, and Equity Notes: Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

Not offered current academic year

WGSS 303 (F) Humans and Bodies: Theories of Embodiment

Cross-listings: WGSS 303 REL 313

Secondary Cross-listing

What is the body? Does the body precede culture, or is the body a product of society? How does the self relate to the body? How are sexual, racial, and gendered identities formed in and through the body? And how does the self sense its "own" body, or how does the body sense and make the self? In this course, we'll query and theorize embodiment through examining classical approaches (e.g., Freud, Lacan, Merleau-Ponty) as well as more recent queer (e.g., Butler), trans (e.g., Salamon), and posthuman (Haraway) theories of embodiment.

Class Format: Remote synchronous learning

Requirements/Evaluation: Students will be required to take notes on course readings, write 1-2 page weekly response papers, and submit a final paper at the end of the course.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Religion majors, WGSS Majors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

SEM Section: R1 MW 6:45 pm - 8:00 pm Phillip J. Webster

WGSS 304 (S) Rebels and Conformists: Postwar Germany from The 'Economic Miracle' to the Fall of the Wall

Cross-listings: GERM 304 WGSS 304

Secondary Cross-listing

In postwar West Germany, a thorough examination of the Nazi past took a backseat to economic recovery and repairing the country's international standing, whereas to some extent the reverse was true for the East. An authoritarian democracy, an emphasis on consumerism and the qualitatively different experiences of younger generations led them to question whether the Federal Republic was a restoration or a new beginning? In the East, the cold war led to an increasingly Stalinist interpretation of communist principles, while communist ideals were upheld as an antidote to Nazism and the new materialism. This tutorial will cover a wide range of social protest as reflected in literature and film of the two Germanies: critical responses to the Holocaust in the two countries, the 1968 student revolution, anti-capitalist terrorism by the Baader-Meinhof gang, the feminist and gay rights movements, reformers and repression under Ulbricht and Honecker in the GDR, minority rights and environmental activists. Authors will include: Peter Weiss, Die Ermittlung, Heinrich Böll, Und sagte kein einziges Wort, Gisela Elsner, Riesenzwerge, Emine Sevgi Özdamar, Das Leben ist eine Karawanserei, Volker Braun, Unvollendete Geschichte, Alice Schwarz, Der kleine Unterschied und seine großen Folgen, Christian Kracht, Faserland, Thomas Brussig, Wasserfarben. Films may include: Gerhard Klein, "Berlin-Ecke Schönhauser," Ulrich Plenzdorf, "Die Legende von Paul und Paula,"

Class Format: remote

Requirements/Evaluation: alternating 4-page tutorial papers in German, and 2-page critiques

Prerequisites: GERM 202 or permission of the instructor

Enrollment Limit: 12

Enrollment Preferences: German majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $80 books

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021
TUT Section: RT1    TBA     Helga Druxes

WGSS 305  The Gay Menagerie: Gay Male Subcultures  (DPE)

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading:

Distributions: (D2)  (DPE)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

Not offered current academic year

WGSS 308  (F)  Thinking Diaspora: The Black Atlantic and Beyond
Cross-listings: WGSS 308  COMP 300  AMST 308  ENGL 309

Secondary Cross-listing

Water imagery has been central to black diasporic culture since its beginnings in the Middle Passage---suggesting imprisonment, isolation, escape, ancestral communion, and death, for example. This course wrestles with the significance of water in diasporic literature--how it endures, how it has
diminished, how it slips away from us. Black diaspora theory was revolutionized by Paul Gilroy's *The Black Atlantic*, which urged us to consider more deeply the role of the ship, the routes, and the roots entailed in the formation of diasporic consciousness. This course aims to expand students' theoretical skills as we discuss cornerstone and cutting edge texts of diaspora theory, with an emphasis on theories that work with the relationship to water, such as those by Jacqueline Nassy Brown, Omise'ke Tinsley, and Vanessa Agard-Jones. Primary texts will include *The Big Sea* by Langston Hughes, *Sugar and Slate* by Charlotte Williams, Barry Jenkins' *Moonlight*, and more.

**Requirements/Evaluation:** weekly reading responses, presentations, one 10-page paper, engaged feedback process, and thoughtful class participation

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**Enrollment Limit:** 25

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 308 (D2) COMP 300 (D1) AMST 308 (D2) ENGL 309 (D1)

Not offered current academic year

---

**WGSS 309 (S) Feminist Disability Studies: Bodyminds in Place and Space** (DPE)

**Cross-listings:** WGSS 309 AMST 303

**Primary Cross-listing**

In this course we will engage anti-racist feminist theory, disability (or ‘crip’) theory, and human geography to think critically about disability. We will draw on critical geographies of disability to understand the built environment and institutional design; geographic scales of the body and the bodymind; spaces of the home and institutions; and im/mobility and spatial access. We will also consider how disability is shaped by (and shapes) practices of care and mutual aid; experiences of embodiment and impairment; and structures of vulnerability and agency. The course will trace, historically, how ableism has been produced through slavery, colonization, surveillance, and incarceration as well as through movements like eugenics and white liberal feminism. The course will also analyze disability's construction through medicalized notions of wellness, illness, pathology, and cure. Throughout the course, we will consider disability as intersecting with gender, race and ethnicity, queerness, trans*ness, fatness, class, nationality, and citizenship. Most centrally, we will ask: What is the spatiality of dis/ability, and how can space be occupied and reappropriated for radically inclusive uses? How can we understand both normality and deviance as socially constructed concepts that nonetheless have real, and uneven, implications for people's lives?

**Class Format:** This class will be taught online only.

**Requirements/Evaluation:** Student participation; two short (2-pg) reflection papers; two longer (4-5-pg) papers; and a final (12-15 pg) research paper

**Prerequisites:** None

**Enrollment Limit:** 15

**Enrollment Preferences:** WGSS and AMST majors; permission of instructor

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 309 (D2) AMST 303 (D2)

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement because it examines the political, social, and ideological constructions and theorizations of difference, power, and equity. The course explores the ways in which disability is mutually constructed with other axes of identity and difference, and how different groups of people have defined (and redefined) disability to meet various political aims.

Spring 2021

SEM Section: R1 MW 10:00 am - 11:15 am Emily Mitchell-Eaton
WGSS 310  (F) Womanist/Black Feminist Thought

Cross-listings:  WGSS 310  AFR 310  AMST 309  REL 310

Secondary Cross-listing

This course explores the genealogy and development of black feminist and womanist thought. We will investigate the expansion of womanist thought from a theologically dominated discourse to a broader category of critical reflection associated more commonly with black feminism, analyze the relationship between womanism and black feminism, and review the historical interventions of black feminism. As critical reflections upon western norms of patriarchy, heterosexism, and racism, womanism and black feminism begin with the assumption that the experiences of women of color--particularly black women--are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Katie Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies.

Class Format: discussion

Requirements/Evaluation:  class participation, three short response papers, and the completion of an original research paper or project

Prerequisites:  none

Enrollment Limit:  25

Enrollment Preferences:  Africana Studies concentrators, Women's, Gender and Sexuality Studies majors, Religion majors

Expected Class Size:  20

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D2)

Not offered current academic year

WGSS 311  (S) Theorizing Shakespeare

Cross-listings:  COMP 310  WGSS 311  THEA 311  ENGL 311

Secondary Cross-listing

For complex reasons, Shakespeare has always revealed as much about those who speculate on him as the speculators have revealed about him. In this course, we will engage a few plays in considerable depth: The Merchant of Venice, Hamlet and Antony and Cleopatra. But we will also use these works as a means to engage some of the most compelling trends in recent critical thought, including cultural theory and post-Marxist analysis, political theology, deconstruction and rhetorical theory, psychoanalytic thought and theories of gender and sexuality. In some instances, we will look at applied criticism, in others we will simply place a theoretical work alongside a play and see what they have to say to each other, for instance, what would a Shakespearean reading of Jacques Lacan look like?

Requirements/Evaluation:  20 pages of writing in the form of two short and one longer paper

Prerequisites:  a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit:  25

Enrollment Preferences:  English majors

Expected Class Size:  19

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

WGSS 312  (S) An American Family and "Reality" Television  (WS)

Cross-listings:  ARTH 310  WGSS 312  AMST 333

Secondary Cross-listing

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were
broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Louds' marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Class Format: Remote seminar. The course will feature synchronous online class meetings.

Requirements/Evaluation: class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: junior Art majors, followed by senior majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: R1 MW 6:45 pm - 8:00 pm  C. Ondine Chavoya

WGSS 313 (S) Gender, Race, and the Power of Personal Aesthetics

Cross-listings: WGSS 313 AFR 326 AMST 313 LATS 313

Secondary Cross-listing

This course focuses on the politics of personal style among women of color in an era of viral video clips, the 24-hour news cycle, and e-commerce sites dedicated to the dermatological concerns of "minority" females. With a comparative, transnational emphasis on the ways in which gender, sexuality, ethno-racial identity, and class inform standards of beauty, we will examine a variety of materials including commercial websites, histories, personal narratives, ethnographies, sociological case studies, and feminist theory. Departing from the assumption that personal aesthetics are intimately tied to issues of power and privilege, we will engage the following questions: What are the everyday functions of personal style among women of color? Is it feasible to assert that an easily identifiable "African American," "Latina/x," "Arab American" or "Asian American" female aesthetic exists? What role do transnational media play in the development and circulation of popular aesthetic forms? How might the belief in personal style as activist strategy challenge traditional understandings of feminist political activity?

Class Format: This remotely taught, synchronous course follows a discussion format.

Requirements/Evaluation: participation, one student-led discussion period, two written essays of 5-7 pages, final oral exam.

Prerequisites: LATS 105, AMST 201, AFR 200, WGSS 101 or permission of instructor; first year students are not permitted to take this course.

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, American Studies majors, Africana Studies majors, and Women's, Gender and Sexuality Studies majors by seniority. If the class is overenrolled students may be asked to submit a brief writing sample.

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 313 (D2) AFR 326 (D2) AMST 313 (D2) LATS 313 (D2)
WGSS 314 (F) The Social Ecology of Racial and Gender Inequity (DPE)

Cross-listings: SOC 314 WGSS 314

Primary Cross-listing

Why the political furor over monuments? What would a feminist city look like? Does racial justice require integration? This course trains your focus on space and place, asking you to take a socioecological perspective on race, gender, and other axes of privilege and marginalization. In it, we examine how ideas about race, gender and more shape space as well as how the design of space reinforces social constructs and power relations. After examining specific regions (the city, the suburb, the country) and their relation to one another, we examine specific sites (public transport, public toilets, libraries, houses). The course enables students to better understand the tenacity of inequity by drawing attention to its spatial dimension while at the same time introducing students to -- and providing students tools to engage in -- spatial interventions designed to disrupt vicious social-spatial cycles.

Requirements/Evaluation: attendance, class facilitation, problem identification report, two presentations, reflection

Prerequisites: WGSS/SOC Majors

Enrollment Limit: none

Enrollment Preferences: Women's, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 314 (D2) WGSS 314 (D2)

Difference, Power, and Equity Notes: This course introduces students to a socioecological approach, giving them a lens which can help them understand how important axes of difference—race and gender—are socially constructed as well as the stubborn persistence of racial and gender power differentials. Students in this course will be required to apply this lens to their own experience, as well as to discuss difficult questions about different obstacles and potential paths to greater equity in social relations.

Not offered current academic year

WGSS 315 (S) Paris on Fire: Incendiary Voices from the City of Light (1830-2015)

Cross-listings: WGSS 315 RLFR 316

Secondary Cross-listing

During the 1830s, Balzac described Paris as a "surprising assemblage of movements, machines, and ideas, a city of one hundred thousand novels, the head of the world," but also characterized the French capital as a "land of contrasts," a "monstrous wonder," a "moral sewer." Similarly, writers from Hugo to Zola have simultaneously celebrated Parisian elegance and condemned the appalling misery of Paris's urban poor. Since 1889, Paris has been fêted as the "City of Light" for its Enlightenment legacy, its Eiffel Tower modernity, and its luminous urban energy, captured in countless paintings, photographs, and film. However, Paris is also the historical site of revolution, resistance, and riots. From revolutionary revolt (1830, 1848, 1871), to wartime resistance (1870, 1914-18, 1940-44), to reformist and race riots (1968 and 2005), Paris has repetitively sparked with incendiary passion and political protest. As fires raged during the riots in 2005, many heard the echo of Hitler's ominous 1944 question, "Is Paris burning?" and asked: why was Paris burning again at the dawn of the twenty-first century? And following the recent terrorist attacks in Paris in 2015, many wonder what lies ahead for the City of Light. To answer these questions, we will examine the social, political, and literary landscape of Paris during the nineteenth and twentieth centuries, from urbanization and modernization, to occupation and liberation, to immigration and globalization. Readings to include poetry, short stories, and novels by Hugo, Balzac, Baudelaire, Maupassant, Verne, Zola, Apollinaire, Colette, Duras, Perec, Rochefort, and Charef. Films to include works by Clair, Truffaut, Godard, Minnelli, Clément, Lelouch, Luhrmann, Kassovitz, Besson, and Jeunet. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers

Prerequisites: strong performance in RLFR 106 or 107; a RLFR 200-level course; another RLFR 300-level course; or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: French majors and certificate students; Women's, Gender, and Sexuality Studies majors; and those with compelling
justification for admission

Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 315 (D1) RLFR 316 (D1)

Not offered current academic year

WGSS 316 (F) Feeling Queer and Asian
Cross-listings: ASST 316 COMP 313 WGSS 316

Primary Cross-listing
This advanced undergraduate seminar focuses on concepts, queries, and methodologies at the intersections of Asian Americanist critique, queer theory, and affect theory. How might we come to understand Asian gender, sexuality, and racialization less through a language of being or meaning, as through feeling? How do Asian/American discourses rely upon languages of gender and sexuality, and how might queerness depend upon Asianness? How might these theories identify, complicate, and call forth more expansive or alternative practices of belonging? The class will read theories including national abjection, racial melancholia, disaffection, queer diaspora, and homonationalism, as well as engage Asian American literatures.

Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: WGSS majors
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ASST 316 (D2) COMP 313 (D2) WGSS 316 (D2)

Not offered current academic year

WGSS 317 (F) The New Woman in Weimar Culture (WS)
Cross-listings: GERM 317 WGSS 317
Secondary Cross-listing
This course explores the figure of the New Woman, a professional, political, independent, and modern woman, that rises in Germany right at the end of World War I and thrives during the Weimar Republic. Acclaimed as the epitome of Weimar Modernity, the New Woman is nevertheless greeted with great ambivalence: whether a liberated and emancipated woman for some, or a dangerous and promiscuous woman loathed by others, she is perceived as threatening to the patriarchal order. A closer look at artworks by Otto Dix, Christian Schad, and Hannah Höch, films by Fritz Lang and Georg Wilhelm Pabst, poems by Gottfried Benn, Else Lasker-Schüler, and Kurt Tucholsky, novels by Erich Kästner, Vicky Baum, and Irmgard Keun, as well as plays by Frank Wedekind and Bertolt Brecht, will provide a more precise picture of the New Woman's various incarnations, ranging from actresses (Marlene Dietrich), singers (Margo Lion and Claire Waldorf), and dancers (Anita Berber) to prostitutes, and suggest that the New Woman serves as the vessel of male anxieties and represents the contradictions of modernity. Taught in German.

Class Format: taught seminar style in German for the German students and as a tutorial in English for non German speaking students
Requirements/Evaluation: papers and oral presentations
Prerequisites: for students taking it in German: GERM 201 or the equivalent; for students taking the course in English: one college-level literature course
Enrollment Limit: 19
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
GERM 317 (D1) WGSS 317 (D2)

Writing Skills Notes: Students will submit multiple drafts of their papers. Focus is on argument and thesis statement, introduction and conclusion as well as literary analysis and interpretation of primary and secondary literature. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

WGSS 318  (S) Black Masculinities  (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Primary Cross-listing
In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project
Prerequisites: none
Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

Not offered current academic year

WGSS 319  (F) Gender and the Family in Chinese History  (DPE)

Cross-listings: WGSS 319 ASST 319 HIST 319

Secondary Cross-listing
Although sometimes claimed as part of a set of immutable "Asian values," the Chinese family has not remained fixed or stable over time. In this course, we will use the framework of "family" to gain insight into gender, generation, and sexuality in different historical periods. Beginning in the late imperial period (16th-18th Centuries), we will examine the religious, marital, sexual, and child-rearing practices associated with traditional ideals of family. We will also examine the wide variety of "heterodox" practices that existed alongside these ideals, debates over and critiques of gender, family, and sexuality in the twentieth century and in China today.

Class Format: Remote in Fall 2020. Emphasis will be on synchronous discussions and small group work via Zoom (or similar).

Requirements/Evaluation: active participation in discussions and group work, short skills-based writing assignments (2-4 pgs) and short essays (5-7 pgs) leading toward a final paper.
Prerequisites: none; open to first year-students with instructors permission
Enrollment Limit: 15
Enrollment Preferences:  History, Asian Studies, and WGSS majors

Expected Class Size:  10

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 319 (D2)  ASST 319 (D2)  HIST 319 (D2)

Difference, Power, and Equity Notes:  This course focuses on historical regimes of gender and sexuality in China and their transformations over time. Students will be asked to consider these regimes both on their own terms and in comparative perspective.

Fall 2020

SEM Section:  R1  TF 1:30 pm - 2:45 pm  Anne Reinhardt

WGSS 321  (F)  Feminist and Queer Performance at the Limit of Action  (DPE)

Cross-listings:  AMST 326  THEA 322  WGSS 321  AFR 328

Primary Cross-listing

What counts as feminist and queer activism? This course challenges what we dominantly understand as activism---key to the emergence of ethnic studies and feminist and queer theory. Moving away from political actions centered in these fields, such as strikes, protests, and boycotts, this course will turn to visual and performance art works by artists of color, who consider other forms of action that are not overtly visible, resistant, oppositional, agentive, militant, loud, liberatory, and documentable. Each week, we will examine a performance at the limit of action, including silence, sexual abjection, concealment, melancholia, and waiting, alongside issues related to race, gender, sexuality, labor, and migration among others. How might we approach and reconcile with performances that once again reify notions of racialized and gendered bodies as apolitical, passive, submissive, and compliant? Drawing on scholarship within black and women of color feminist criticism, queer of color critique, critical ethnic studies, and performance studies, this course will attune students to the role of aesthetics to interrogate and expand what we typically conceive of as activism, resistance, power, and survival from racialized, feminized, and queer positions.

Requirements/Evaluation:  In-class discussion, short weekly reading posts, class presentation, final paper/project

Prerequisites:  None

Enrollment Limit:  12

Enrollment Preferences:  WGSS majors and students with experience in American Studies or performance studies coursework

Expected Class Size:  12

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 326 (D2)  THEA 322 (D1)  WGSS 321 (D2)  AFR 328 (D2)

Difference, Power, and Equity Notes:  This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of activism is valued over other forms.

Fall 2020

SEM Section:  R1  MR 1:30 pm - 2:45 pm  Kelly I Chung

WGSS 322  (F)  Introduction to Critical Theory  (DPE) (WS)

Cross-listings:  PHIL 321  WGSS 322

Secondary Cross-listing

"Dare to know! Have courage to use your own reason-that is the motto of Enlightenment." Thus the 18th century German philosopher Immanuel Kant exhorts his contemporaries to muster the courage to cultivate their capacity for reason. Modern faith in the prospects of universal human dignity, rational autonomy, the rights of man, individual liberty, democracy, open scientific inquiry and social and political progress depend upon it. Yet from its
inception and continuing into the 19th and 20th centuries we find the promise of Enlightenment challenged by colonialist expansion, the rise of nationalism and the persistence of racism, sexism, genocide, terrorism, and religious extremism as well as the emergence of wars of mass destruction, environmental degradation, and the potential for manipulation of populations by consumerist mass media. Can the promise of Enlightenment be redeemed? Should it be? Among the possible topics addressed will be: criticizing capitalism, alienation and objectification, progress and freedom, the entanglements of power and reason, radical liberalism, the future of democracy as well as post-structuralist, post-colonial, feminist and anti-racist critiques of the Frankfurt School. Readings may include historical as well as contemporary figures such as: Kant, Freud, Horkheimer, Adorno, Marcuse, Habermas, McCarthy, Honneth, Fraser, Amy Allen, Foucault, Ranciere, Achilles Mbembe, Judith Butler, Wendy Brown, Spivak, and Charles Mills, among others.

Class Format: students will work in pairs and meet for 75 minutes each week with the professor

Requirements/Evaluation: each student will write and present five 5- to 6-page paper every other week and a commentary on their partner's essay on alternate weeks; evaluations are based on written work as well as level of preparation and intellectual engagement in tutorial meetings

Prerequisites: PHIL 202, Kant course, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors and students with background in political theory, feminist theory, or post-colonial theory

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 321 (D2) WGSS 322 (D2)

Writing Skills Notes: Tutorial format requires significant writing (six 5-page papers), weekly commentary on writing, and instructor comments on papers.

Difference, Power, and Equity Notes: In this course power, differences, and overcoming injustice, inequality, and domination are central topics.

Not offered current academic year

KGSS 323 (F) Marxist Feminisms: Race, Performance, and Labor (DPE)

Cross-listings: THEA 323 WGSS 323 AFR 329 AMST 329

Primary Cross-listing

Who is considered the dominant subject of labor? This course offers an overview of queer, women of color feminist, decolonial, and black and critical ethnic studies critiques of orthodox Marxism. Starting with core texts from the Marxist tradition, we will explore a range of social positions and forms of labor that complicate Marx's emphasis on the white male industrial worker. Each unit, we will study key scholarship that centers reproduction, slavery, care and domestic work, indentured servitude, sex work, and low wage flexible labor, to name a few, alongside queer and feminist modes of performance that respond to and/or provide strategies to live and survive under racial capitalism. We will discuss seminal works by theorists, including Karl Marx, Luce Irigaray, Cedric Robinson, Jennifer Morgan, Hortense Spillers, Lisa Lowe, Gayatri Chakravorty Spivak, Dorothy Roberts, Angela Davis, José Esteban Muñoz, and Leo Bersani, in tandem with performances, such as paintings, performance art, poetry, protests, photography, prints, music, and sculptures. This course will equip students with a critical understanding of the ways racial capitalism has centrally relied upon the mass capture and recruitment of racialized and gendered labor in and beyond the U.S. and how, through performance, life under these conditions have been reimagined.

Requirements/Evaluation: In-class discussion, short weekly reading posts, class presentation, final paper

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: WGSS majors and students with experience in American Studies or performance studies coursework

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 323 (D1) WGSS 323 (D2) AFR 329 (D2) AMST 329 (D2)

Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial,
gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor is valued over other forms.

Fall 2020

SEM Section: R1  TF 1:30 pm - 2:45 pm  Kelly I Chung

WGSS 324  (S)  Indigenous Women's History  (DPE) (WS)

Cross-listings:  WGSS 324  AMST 324  HIST 362

Secondary Cross-listing

What would it mean to locate indigenous women and their stories at the heart of American history? This advanced junior seminar course answers this question by centering the lives of indigenous women from the pre-colonial period through the present. We will discuss both the historical importance of these women’s lives, as well as the methodological and ethical concerns that arise through the historiographic recovery of their stories. We analyze both canonical figures--such as La Malinche, Pocahontas, and Sakakawea--as well as lesser known historical actors, political leaders, writers, and artists.

Requirements/Evaluation: engaged class participation, weekly reading responses, extended research project (2-page proposal, 5-page annotated bibliography, 15-page final paper and presentation)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: American Studies, History, and Women's Studies, Gender and Sexuality majors

Expected Class Size: 10

Grading: no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 324  (D2) AMST 324  (D2) HIST 362  (D2)

Writing Skills Notes: With substantial focus on students’ development of independent research papers, this course satisfies the Writing Skills requirement.

Difference, Power, and Equity Notes: We examine the lives of indigenous women in the Americas across a span of more than 500 years, asking how and why we come to know these stories through archival records, oral histories, popular culture, and autobiographies. By analyzing the interwoven forces of gender, indigeneity, race, and colonization through both primary documents and secondary scholarship, we will work together to cultivate skills of critical inquiry and better understand the role of power in shaping historical narratives.

Not offered current academic year

WGSS 325  (F)  Television, Social Media, and Black Women 'Unscripted'

Cross-listings:  AFR 325  WGSS 325

Secondary Cross-listing

Nene Leaks, Shonda Rhimes, Oprah Winfrey, Kerry Washington and now Lavern Cox and Melissa Harris-Perry have become common household names. Whether from the television shows they star in, the TV shows they have created, or the social media presence they have developed--these women continue to influence and shape popular culture. In this course we will situate Black women as creators and contributors to popular culture as a whole, but specifically through television (scripted and "unscripted") and social media. We will begin by covering the history of Black women in television. This historical approach will then lead us to examine selected TV episodes, and investigate social media pages of Black actresses, television producers, and the fans of these shows. The aim of this course is to analyze the ways in which Black women continually shift the popular culture paradigm and how they serve as key players determining what is indeed popular.

Requirements/Evaluation:  class participation, response papers, one 10 page paper, and a formal class presentation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences:  juniors and seniors

Expected Class Size: 13
WGSS 327 (F) Foucault on Power and Knowledge  (DPE) (WS)

Cross-listings: PHIL 327  WGSS 327

Secondary Cross-listing
This course begins with a brief introduction to some of Foucault's early writings but focuses on a close reading of a selection of middle and late texts that have become central to debates about the significance and value of his work such as: *Discipline and Punish*, *The History of Sexuality* (vols. 1-3), and selected interviews and course lectures. We will focus particularly on how subjects are positioned in relation to his writings on power and knowledge with particular attention to the later so-called ethical writings in the years before his untimely death in 1984.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: at least two courses in PHIL or political or critical theory, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: current or prospective Philosophy and Women's, Gender and Sexuality Studies majors

Expected Class Size: 8-10

Grading: no pass/fail option, no fifth course option

Unit Notes: meets History requirement only if registration is under PHIL

Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PHIL 327 (D2) WGSS 327 (D2)

Writing Skills Notes: Students will write between 40-50 pages by the end of the semester and receive regular feedback on their written work from the instructor and their tutorial partner. They will write both expository, interpretive and critical essays and will regularly be asked to defend their interpretations and arguments.

Difference, Power, and Equity Notes: This is a course about power and freedom. We read genealogical histories of disciplinary institutions that exclude and aim to correct "dangerous" or "abnormal" individuals, or attach them to identities and desires in order to manage them. We also address power at the level of population management, the emergence of the neoliberal idea of the self as enterprise, and the promise of resistance in the form of ethical practices of freedom.

Not offered current academic year

WGSS 328 (F) Austen and Eliot

Cross-listings: WGSS 328 ENGL 328

Secondary Cross-listing
Austen and Eliot profoundly influenced the course of the novel by making internal consciousness crucial to narrative form. In this course we will explore Austen's innovative aesthetic strategies and the ways in which Eliot assimilated and transformed them. By placing each writer's work in its political and philosophical context-in Austen's case, reactions to the aftermath of the French Revolution, in Eliot's, to the failed mid-century European revolutions and the pressures of British imperialism-we will consider how each writer conceives social and historical exigencies to shape comedies and dramas of consciousness. Readings will include Austen's *Pride and Prejudice*, *Emma*, *Mansfield Park*, and *Persuasion*; Eliot's *The Mill on the Floss*, *The Lifted Veil*; and Daniel Deronda; selected letters and prose; and critical essays.

Class Format: discussion

Requirements/Evaluation: two papers of approximately 8-10 pages

Prerequisites: a Gateway course or permission of the instructor

Enrollment Limit: 25
**Enrollment Preferences:** junior and senior English majors

**Expected Class Size:** 18

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** course books

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 328 (D1) ENGL 328 (D1)

Not offered current academic year

**WGSS 329 (S) Austen, Eliot, Woolf**

**Cross-listings:** ENGL 329 WGSS 329

**Secondary Cross-listing**

At roughly fifty-year intervals, Britain produced three brilliant female novelists -- Jane Austen, George Eliot, and Virginia Woolf -- who would each become renowned, in her own way, for her ability to combine minutely detailed social observation with a rich depiction of the inner lives of her characters. This course will examine some of their major fiction-- with an emphasis on Austen and Eliot -- with special attention to the nature and implications of their narrative methods for representing the consciousnesses of characters, and of the authorial narrative voices that mediate among them. Questions to be considered: how is our understanding of novelistic characters and consciousness shaped by our real-life experience in interpreting the thoughts and character of others, and vice versa? Do "omniscient" narrators lay claim to a privileged kind of knowing presumed to be unavailable either to their character or to readers, or are they modelling humanly available interpretive stances toward a world of others? How do these authors' preoccupations with interior thought relate to their focus on women's experience? Possible texts include Austen's *Emma and Persuasion*, Eliot's *Middlemarch*, *Daniel Deronda*, and *The Lifted Veil*, and Woolf's *The Waves*.

**Class Format:** seminar

**Requirements/Evaluation:** one six-eight-page and one ten-twelve-page essay

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**Enrollment Limit:** 25

**Enrollment Preferences:** English majors

**Expected Class Size:** 25

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

Spring 2021

SEM Section: R1 MR 3:15 pm - 4:30 pm Alison A. Case

**WGSS 330 (S) "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics (DPE) (WS)**

**Cross-listings:** AMST 310 ENGL 302 WGSS 330

**Secondary Cross-listing**

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuye Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Judith Butler, as we analyze the kinds of performances that brought together feminist poetry and political activism. We spend some time in the archives, analyzing documents from the period, including original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for
feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new language to “hear,” not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

**Class Format:** I anticipate that this class will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements.

**Requirements/Evaluation:** two short analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), short presentation, longer final researched paper (10-12 pages)

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** English, Women's, Gender, and Sexuality Studies, American Studies majors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 310 (D2) ENGL 302 (D1) WGSS 330 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, critical summaries of feminist criticism, two four-to-five-page graded papers, one creative assignment, a longer, final researched paper (10-12 pages), written in stages over a period of several weeks with feedback at each stage. Critical feedback on written assignments a week prior to due date through conferences and Google Docs and on graded assignments within one week.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

Spring 2021

SEM Section: H1    TF 1:30 pm - 2:45 pm    Bethany Hicok

**WGSS 331 (F) Queer Europe: Sexualities and Politics since 1850 (DPE)**

**Cross-listings:** HIST 332  WGSS 331

**Secondary Cross-listing**

This course explores the construction, articulation, and politics of queer sexual desire in Europe from the mid-nineteenth century to the present. By placing queer sexualities in their broader social and political context, the course examines the ways in which sexuality has become central to questions of identity, both personal and national, in modern European society. Topics include: ways of thinking about the queer past; women’s “friendships” in Victorian Britain; the role of the new science of sexology in specifying various “sexual perversions”; the rise of sexual undergrounds in the context of European urbanization; the birth of campaigns for “homosexual emancipation”; attempts to regulate and suppress “deviant” sexualities, especially under the fascist and Nazi regimes in the 1930s; the effects of the postwar consumer revolution on the practices of sexual selfhood; the postwar “sex change” debates; the politics of 1950s homophile organizing and the 1970s Gay Liberation Movement; and recent debates about migrant queer identities in an increasingly multicultural Europe. The course will focus primarily on experiences in Britain, France, and Germany, but with some detours to Italy and Russia. Readings will be drawn from sexological texts, political tracts, memoirs, and the writings of recent historians and theorists. Several films will be screened and will also be central to our discussions of the changing meanings of sexual selfhood in modern European societies.

**Class Format:** This will hopefully be a ‘hybrid’ class, taught in person on campus, primarily as a discussion course. After Thanksgiving, the final course readings will be discussed remotely via Zoom. Depending on the numbers, if both on-campus and off-campus students enroll in the course -- or if masks and in-class social distance interfere with fruitful discussions -- instruction may shift to an all-remote format.

**Requirements/Evaluation:** The class will be taught entirely in discussion mode and students will be expected regularly to contribute to the discussion of the readings and films for the course. Evaluation will be based on the quality of those contributions, the posting of four 500-word response papers on the readings (chosen by the students), two 7- to 8-page interpretive essays, and a final research paper of 12- to 15-pages.
**Enrollment Limit:** 15

**Enrollment Preferences:** Junior and Senior History majors, along with Women's, Gender and Sexuality Studies majors, will be given enrollment preference if the class is over-enrolled. But other students are welcome if space is available.

**Expected Class Size:** 8-12

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 332 (D2) WGSS 331 (D2)

**Difference, Power, and Equity Notes:** "Queer Europe" is a DPE course insofar as it explores the mechanisms by which sexual difference has been constituted, contested, and experienced and addresses how what we assume to be the "sexual norm" has a profoundly political history. It focuses on the means by which norms are created and enforced through the operations of power and on how those norms have been challenged and resisted by individuals who have come to understand themselves outside the normative categories of sexual selfhood.

**Fall 2020**

SEM Section: H1    TR 6:45 pm - 8:00 pm    Chris Waters

**WGSS 333 (F) The Nineteenth-Century British Novel**

**Cross-listings:** ENGL 333  WGSS 333

**Secondary Cross-listing**

In nineteenth-century Britain, the novel took on the world. Shaking off its early disrepute, and taking advantage of growing literacy and innovations in production and distribution, it achieved in this period an unrivalled synthesis of mass appeal and aesthetic and social ambition. Its representational aspirations were breathtaking: attempting to comprehend in its pages the dizzying complexity of new social, political, and economic structures, as well as to delineate in finest detail the texture of individual lives and minds. In an age obsessed with the social, it engaged directly with the most compelling issues of the day, including industrialization and the gap between rich and poor, the role of women, nationalism and imperialism, and more broadly, the very nature of historical change itself. But it did so, for the most part, by telling fine-grained stories of ordinary men and women, people trying to make a living, worrying about their families and their neighbors, facing illness and death, and falling in--and sometimes out of--love. Since so many of these stories remain highly accessible works of popular culture, we will work hard to focus on what is strange and specific about the fiction of the nineteenth century, while also recognizing the roots of much that is modern in our own culture. We will also take seriously their social ambitions, looking especially at the ways they formulate, promote, and contest their readers' understanding of themselves as subjects and agents of an ongoing social history. Likely authors include Jane Austen, Walter Scott, Charlotte Bronte, Charles Dickens, Anthony Trollope, and George Eliot.

**Class Format:** This class will be remote only, with two synchronous discussions of 50 min each per week and a mix of mini-lectures, brainstorming documents, etc. for the remaining 50 min/week.

**Requirements/Evaluation:** Heavy (but entertaining!) reading load. Flexible writing requirement includes options for short essays, weekly journal, creative work, and research paper. Students must complete 4 units of writing, with the research paper, if chosen, counting for two. There will be additional bits of informal writing, evaluated as part of the class contribution grade, such as participating in the production of a "brainstorming" doc on Google.

**Prerequisites:** 100-level ENGL course, or a score of 5 on the AP English Literature Exam, or 6 or 7 on Higher Level IB English exam, or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** English majors, Women's, Gender and Sexuality majors, Comparative Literature majors, seniors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

ENGL 333 (D1) WGSS 333 (D2)
WGSS 334  (F)  Islam and Feminism

Cross-listings:  WGSS 334  REL 332  ARAB 332

Secondary Cross-listing

This course examines the relationship between feminism and Islam, focusing particularly on Islamic feminist scholarship. We will take a genealogical approach to our study of Islamic feminism tracing the different discourses that have informed and shaped the field. The first part of the course will begin with a critical examination of orientalist and colonial representations of Muslim women as oppressed and in need of liberation. We will then explore Muslim responses to such critiques that were entwined with nationalist and independence movements. This historical backdrop is critical to understanding why the question of women and their rights and roles become crucial to Muslim self-understanding and Islamic reform. The second part of the course will focus on major intellectuals and thinkers who have influenced Islamic feminism. Finally, the last part of our course will explore the breadth of Islamic feminist literature, covering the following themes: 1) feminist readings of scripture; 2) feminist critiques of Islamic law; and 3) feminist theology.

Requirements/Evaluation:  weekly responses, four 2- to 3-page essays
Prerequisites:  none
Enrollment Limit:  15
Enrollment Preferences:  Religion, Arabic Studies, Women's, Gender and Sexuality Studies, History majors
Expected Class Size:  10
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D2)

WGSS 334 (D2) REL 332 (D2) ARAB 332 (D2)
Not offered current academic year

WGSS 335  (S)  Michelangelo: Self and Sexuality  (WS)

Cross-listings:  ARTH 331  WGSS 335

Secondary Cross-listing

Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice--from painting to poetry--wrestles with them in countless, fascinating ways. Students' writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashioning, artist and patron, past and present.

Class Format:  Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

Requirements/Evaluation:  Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation
Prerequisites:  Any ARTH course
Enrollment Limit:  10
Enrollment Preferences:  ARTH majors and WGSS concentrators (or sophomores intending to pursue the ARTH major or WGSS concentration)
Expected Class Size:  10
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Cross-listings: WGSS 336  PHIL 326

Secondary Cross-listing
If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by scholars that draw on Foucault to address problems in today's present. Among the contemporary texts assigned might be the following: Bernard Harcourt's Exposed: Desire and Disobedience in the Digital Age, Saidiya Hartman's Wayward Lives, Beautiful Experiments (2019), Verena Ehrlenbusch's Terrorism: A Genealogy, Cressida Heyes' Anaesthetics, Ladelle McWhorter's Racism and Sexism in Anglo-America: A Genealogy, and Active Intolerance: Michel Foucault, The Prisons Information Group, and the Future of Abolition, eds. Perry Zum and Andrew Dilts.

Class Format: I will meet with students in a seminar format at various points throughout the semester. I have requested a class block for this reason.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Relevant background in critical theory, social theory, political theory or philosophy.

Enrollment Limit: 10

Enrollment Preferences: I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336 (D2) PHIL 326 (D2)

Writing Skills Notes: This is a tutorial. Students will write five or six 5-6-page papers during the course of the semester and receive significant feedback on each paper. At the end of each tutorial meeting the student is asked to reflect on how they would approach the paper differently if they were to rewrite it. In this version of the course, I may ask students to select one paper to revise as a final assignment.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. Moreover, we will read material that uses Foucauldian tools to address contemporary issues involving sexism and racism, digital surveillance, and the abolition of prisons.

Spring 2021

CON Section: R2  MR 3:15 pm - 4:30 pm  Jana Sawicki

TUT Section: RT1  TBA  Jana Sawicki
Cross-listings: ANTH 337  WGSS 337

Primary Cross-listing

The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related to women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: The seminar will include a mandatory spring break trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. These form the basis of their final research paper. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

Requirements/Evaluation: research paper and its various components, participation

Prerequisites: none

Enrollment Limit: 7

Enrollment Preferences: students are required to attend an info session and submit an application that includes a statement of interest, finalists will need to complete an interview

Expected Class Size: 7

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: the cost of the spring break trip is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 337 (D2) WGSS 337 (D2)

Difference, Power, and Equity Notes: This is a class about social justice movements and racial/gender/sexual diversity. It includes experiential learning devoted to these issues and engages questions related to the origins of inequality and prejudice in Brazil.

Not offered current academic year

WGSS 338 (S) Latina/o/x Musical Cultures: Sounding Out Gender, Race, and Sexuality  (WS)

Cross-listings: AMST 339  COMP 338  LATS 338  WGSS 338

Secondary Cross-listing

In this class we will investigate a wide variety of Latina/o/x popular musical forms, with particular attention to issues of gender, sexuality, and ethno-racial identity. Employing interdisciplinary materials and approaches, this course focuses on the sonic and visual analysis of contemporary Latina/o/x popular music and the identities of its producers, performers, and audiences. We will focus on the following questions, among others: How are hybrid Latina/o/x identities expressed through popular music and dance? In what ways do gender, sexuality, and ethno-racial identity inform the performance and interpretation of particular Latina/o musical forms? What unique role does sound play in our understanding of popular music and identity?

Requirements/Evaluation: class participation, one semester-long original research project conducted in stages

Prerequisites: prior courses in AMST, LATs, or WGSS; not open to first-year students

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, Women's, Gender, and Sexuality Studies majors, and American Studies majors by seniority

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 339 (D2) COMP 338 (D2) LATS 338 (D2) WGSS 338 (D2)

Writing Skills Notes: Students are required to complete a semester-long research paper in steps, each of which is evaluated and completed again as
needed. These include an abstract (1-2 pages), annotated bibliography (2-5 pages), outline (2-7 pages), rough draft (2 at 6-10 pages), peer editing exercise, and final draft (10-12 pages). The intention is that students learn practical skills related to effective writing and to encourage them to engage in writing in planned stages with consistent feedback.

Not offered current academic year

WGSS 339  (S)  Stereotypes, Prejudice, and Discrimination

Cross-listings: PSYC 341  WGSS 339

Secondary Cross-listing

This course will examine social psychological theories and research that are relevant to the understanding of stereotypes, prejudice, and discrimination. We will take a variety of social psychological perspectives, emphasizing sociocultural, cognitive, personality, or motivational explanations. We will examine the impact that stereotypes and prejudice have on people’s perceptions of and behaviors toward particular groups or group members and will explore a variety of factors that tend to exacerbate or weaken this impact. We also will consider some of the sources of stereotypes, prejudice, and discrimination and some of the processes through which they are maintained, strengthened, or revised. In addition, we will examine some of the effects that stereotypes, prejudice, and discrimination can have on members of stereotyped groups, as well as some implications of the social psychological research findings for issues such as education and business and government policies. A major component of this course will be the examination of classic and ongoing empirical research.

Class Format: empirical lab course

Requirements/Evaluation: weekly brief papers, oral reports, two longer papers

Prerequisites: PSYC 201 and 242

Enrollment Limit: 16

Enrollment Preferences: senior, then junior Psychology majors

Expected Class Size: 16

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 340  (S)  Elizabeth Bishop in the Americas  (DPE)

Cross-listings: ENGL 340  AMST 340  WGSS 340  COMP 342

Secondary Cross-listing

Elizabeth Bishop has emerged as one of the most important poets of the 20th century. She is admired not only for her dazzling mastery of the craft but also her adventurous life as a world traveler. Her more than two decades living in Brazil and translating the culture and literature of that country for a North American audience, for instance, make her life and work a rich focal point for cross-cultural study. At the center of the course will be Bishop's stunning meditations on childhood, memory, travel, lesbian sexuality, gender identity, ecology, and race and class in the U.S. and Brazil. We will look at how Bishop intertwines personal and global historical encounters in order to raise serious ethical questions about our shared history of conquest and sense of place in the Americas from the 16th century to the Cold War period of the twentieth. What is ultimately at stake in our claiming of a "home"? We also read a number of the writers in North and South America who were closely connected to Bishop, from Robert Lowell and Ernest Hemingway in North America, to Pablo Neruda and Clarice Lispector in South America. Ultimately, we study how craft, poetic process, and an ethical eye on the world can open up the study of poetry and poetics in the 21st century.

Class Format: three hours per week, in addition to small group discussion and archival research

Requirements/Evaluation: two short papers of 4-5 pages, one longer critical research paper of 10-12 pages, three to four discussion posts (300-500 words)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English, Comparative Literature, Women's, Gender, and Sexuality Studies, American Studies majors

Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 340 (D1) AMST 340 (D2) WGSS 340 (D2) COMP 342 (D1)

Difference, Power, and Equity Notes: This course employs critical tools (case studies, translation theory, archival research, poetics, close reading, comparative approaches, postcolonial theory) to help students question and articulate the way that social injustice, such as racial inequality, poverty, and colonial conquest, shapes national and individual identities. Students will learn how to articulate how our aesthetic and cultural products also serve to shape these identities but also can challenge the dominant power structures.

Not offered current academic year

WGSS 341 (F) Cinematic Representations of Work and Migration after the Wall

Cross-listings: WGSS 341 COMP 341

Secondary Cross-listing
The increased flow of migrants from East to West and from South to North into the center of Europe and the simultaneous tightening of restrictions against illegal migration have brought to the forefront issues of labour, gender, and precarity, citizenship and cultural belonging. We will analyze feature films and documentaries that trace the changing face of work and migration, with an emphasis on flows from countries the former east bloc and Africa to Europe. We will discuss negative effects of globalized capitalism, such as the monetization of feeling and personal relations (Harvey), the concept of intensification and the disembodied state (Nealon and Foucault), but also ask what new opportunities might arise, and for which groups. We will study the depiction of manual labour, illegal migration, women as caregivers, Internet marriage, sex work, and the migrant as a raced and othered body. Theory by Dina Iordanova and William Brown, Ewa Mazierska, Sandro Mezzadra and Brett Neilson, Jeffrey Nealon, Lara Águstin, Angela Melitopoulos, Lauren Berlant and Mieke Bal. Films will likely include: Illegal, Working Man's Death, NordSud.com, Lichter (Lights), Code Unknown, The Flower Bridge, Occident, Since Otar Left, Losers and Winners, Whore's Glory, Le Havre and Time Out.

Requirements/Evaluation: active class participation, two short papers, an oral presentation, and a final paper
Prerequisites: a 200-level ENGL or COMP course, or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: Comparative Literature and Women's Gender & Sexuality majors
Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

WGSS 343 (S) Representations of Racial-Sexual Violence from Enslavement to Emancipation

Cross-listings: INTR 343 AFR 343 AMST 343 WGSS 343

Secondary Cross-listing
This tutorial examines representations of and resistance to racial-sexual violence in American society, from colonial America to contemporary US culture. Interdisciplinary texts cover history, politics, literature, film, feminist studies, American studies, lgbtq and ethnic/black studies. Books include Southern Horrors; Intimate Matters; Scenes of Subjection; Trauma and Recovery; The Delectable Negro: At the Dark End of the Street; films include Birth of a Nation; Bush Mama; To Kill a Mockingbird. The primary focus is on racial and sexual vulnerability to violence and mobilization for freedom from the 18th-21st centuries.

Class Format: students provide primary and response papers and discuss their analyses and theories of social and interpersonal violence
Requirements/Evaluation: weekly primary and response papers
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: preference given to juniors and seniors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

WGSS 346 (S) Queer in the City (DPE)
Cross-listings: AMST 337 AFR 337 WGSS 346

Primary Cross-listing
In this course we will examine the various ways scholars and filmmakers have used ethnography as a critical tool for understanding the intersections of race, place, space, gender and sexuality. We will foreground studies that examine unfamiliar sites of Black struggle, resistance, and survival. We will examine Black gender variant and sexual minorities and how they produce, reproduce and struggle for spaces and places of desire, community, pleasure, love, and loss. We will explore these stories through primarily ethnographic modalities. We will discuss the political and ethical ramifications of these ethnographic narratives paying particular attention to the usefulness and limitations of both "Thin" and "Thick" descriptions. We will use ethnography to center debates regarding the politics of representation of racialized queer space, place, and people through both filmic and written accounts. All students will be asked to discover and develop their ethnographic voices through various critical, creative, experimental and performative assignments.

Requirements/Evaluation: facilitated class discussion; weekly critical response papers; creative projects

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: WGSS majors; students may be asked to write a short statement of interest in the event of over-enrollment

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 337 (D2) AFR 337 (D2) WGSS 346 (D2)

Difference, Power, and Equity Notes: Course directly discusses structural oppression, forms of inequality, and social redress through the intersecting matrices of race, gender, sexuality and other ontological forms.

Not offered current academic year

WGSS 348 (S) Women, Men and Other Animals (DPE)
Cross-listings: ARTH 348 STS 348 SCST 348 WGSS 348 ENGL 348

Primary Cross-listing
In this seminar, we will together learn to be "animal critics." We will explore ways in which human groups and interests, particularly in the United States, have both attached and divorced themselves from other animals, considering such axes as gender, race, ability, and sexuality as key definitional foils for human engagements with animality. What are the "uses" of "animals" for "us," and precisely who is this "us"? How and when are some willing to see themselves as animal--indeed, under what political conditions do they embrace it? What is the history of unique, often asymmetric, interdependencies between human animals and nonhuman animals? How do actual lives of humans and non-human animals merge and clash with the rhetorics and visualities of human animality? We will examine both "everyday" animality and the forms of animality that stand out only today in retrospect, in their exceptionality, or upon reflecting on structures of privilege. We will build a critical animal studies vocabulary from a range of readings in science, philosophy, art, feminism, indigenous studies, critical race, geography, fiction, film, rhetoric, history, activist movements, disability studies, postcolonial studies, and examine both visual and narrative cultural production.

Requirements/Evaluation: individual research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Art History majors, English majors, Environmental Studies majors

Expected Class Size: 15
**WGSS 350  Queer Tongues & Lavender Linguistics (DPE)**

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called "gay voice," the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

**Requirements/Evaluation:** IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

**Prerequisites:** None; prior coursework in WGSS may be helpful, but is not required

**Enrollment Limit:** 12

**Expected Class Size:** 12

**Grading:**

**Distributions:** (D2)  (DPE)

**Difference, Power, and Equity Notes:** This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

**Not offered current academic year**
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 353 (S) The Brontës

Cross-listings: ENGL 353 WGSS 353

Secondary Cross-listing

Around 1845, three sisters in a remote town in Yorkshire effectively converted their father’s humble parsonage into a family writers’ colony. In 1846, each published her first novel—two of which would go on to become major classics. Within 8 years, all three sisters were dead, but by then they had produced seven of the most formally innovative, socially challenging, original and powerful works in English fiction. We will read them all, from Charlotte’s best-selling love story, Jane Eyre, to the underrated Anne’s brilliant and disturbing anatomy of an abusive marriage, The Tenant of Wildfell Hall, to Emily’s singular masterpiece Wuthering Heights, as well as their poetry and selections from the voluminous fantasy fiction they created together as children. We will also read Elizabeth Gaskell’s acclaimed 1857 Life of Charlotte Bronte, the first full-length biography of a woman novelist by a woman novelist, which began the process of making the Brontës the cult figures they remain today. Reading these works together in the bicentennial year of Anne’s birth, we will consider how their shared efforts helped all three sisters to push through boundaries few other women writers had dared to challenge. In a similar spirit of collaboration, we will mix critical and creative writing in our responses to these works.

Requirements/Evaluation: discussion, two critical essays and two short creative pieces

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: none

Enrollment Preferences: English majors, WGSS majors, seniors

Expected Class Size: 25

WGSS 368 (F) Arab Women Writers: Remapping Urban Narratives

Cross-listings: COMP 368 ARAB 368 WGSS 368

Secondary Cross-listing

In "The Lover of Blue Writing above the Sea," (1995) a poem written to console a lover after the death of his beloved, Syrian poet, Ghada al-Samman, pens: “If you are sad and burn the edge of my book/I shall come to you/like the genie in my grandmother’s Damascene stories...” As these lines imply, the fantastic grandmother’s Damascene stories have the power to equally amend broken hearts and restore memories of loss. In this course, we will adopt "the grandmother’s Damascene stories” as a conceptual metaphor that guides our line inquiry into the intersection of Arab women’s narrative and the city. We will read novels and short stories by Arab women writers about cities and capitals in the Arab world and the diaspora. The goal of this course is not only to familiarize students with prominent Arab women novelists, such as Hoda Barakat, Radwa Ashur, Liana Badr, Raja’a Alem, Alia Mamdouh, and Ahlam Mosteghanemi, among others, but also to introduce them to the literary and visual cartography of Beirut, Granada (via Cairo), Ramallah, Mecca, Baghdad, and Constantine, respectively. We will also read short stories about other cities in the world, such as New York, Paris, London, Buenos Aires and Tokyo among other world metropolises. Questions we will address include: How does the city appear as a protagonist? How do Arab women novelists represent nationhood, modernity, memory, love, war, sexuality and religion, among other themes, in their construction of urban narratives? How do these narratives map an Arab feminist metropolis? How do Arab women writers represent cities beyond the Arab world? To answer these questions, we will also look at Arab women’s blogs and watch films that focus on the city as a site for spatial articulation of national histories, popular revolutions, and feminist public spheres.

Requirements/Evaluation: active class participation, several short response papers, three short papers (3-5 pages), a final performance project, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19
Enrollment Preferences: Arabic Studies majors and Comparative Literature majors

WGSS 371 (F) Medicine and Campus Health in Disruptive Times (DPE)

Cross-listings: STS 370  WGSS 371  ANTH 371

Secondary Cross-listing

This class uses the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus health or community health. Students will use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys to explore our campus community comprised of students, faculty, and/or staff, that build on weekly discussions, feedback, and design exercises. We situate our campus health projects within the wider context of how power and intersectionality inflect and structure health and well-being locally and globally. Our case studies explore how structural racism shapes medical education, pediatric care, and maternity care in the US, how the spread of US psychiatry inflects the landscape of global mental health, and how queer activism responded to the HIV/AIDS crisis. We consider how disruptive moments like COVID-19 or HIV/AIDS can serve as focal moments in social history that reveal underlying inequalities of health outcomes and access. We attend to the parallel roles of narrative in medicine and ethnography, as we contrast the discourse of providers & patients as well as researchers & interlocutors. Throughout our goal is to better understand the strengths and limits of ethnographic inquiry while exploring the challenges of collaborative and participatory research within communities always already structured by power, privilege, and engaged practices.

Class Format: Offered in hybrid format, yet students are encouraged to attend in person if they can. Students will be grouped into in-person or remote sections and can be reassigned during the semester if they request or require it for health reasons. Students should complete all assignments, weekly exercises, and attendance in class discussion. Please email me (Kgutschow@williams.edu) to indicate whether you plan to attend in person or remotely.

Requirements/Evaluation: Three written fieldnotes, weekly attendance and other writing exercises, midterm and final presentations on fieldwork projects

Prerequisites: none, but a class in Anthropology, Sociology, Science & Technology Studies, or other social science is recommended

Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women's, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

Difference, Power, and Equity Notes: This class examines the intersection of race, gender, class, and sexuality in structuring health outcomes, well-being, and access to health resources. It theorizes the ways that intersectionality shapes health of individuals and societies, including patient/provider encounters and efforts to 'improve' community health within contexts of social inequality and social suffering.

Fall 2020

WGSS 376 (S) Sex, Gender, and the Law in U.S. History (DPE)

This course explores how the law in America has defined and regulated gender and sexuality. We will evaluate how the law has dictated different roles for men and women, how sexual acts have been designated as legal or illegal, and the ways that race, class, and nationality have complicated the definition and regulation of gender and sexuality. We will examine how assumptions about gender and sexuality have informed the creation and
development of American law, contested interpretations of the Constitution, and the changing meanings of citizenship; We will consider how seemingly
gender neutral laws have yielded varied effects for men and women across race and class divides, challenging some differences while naturalizing
others. Finally, we will examine the power and shortcomings of appeals to formal legal equality waged by diverse groups and individuals. Throughout
the course, we will consider the various methodologies and approaches of the interdisciplinary field of legal history. Topics to be covered will include
the Constitution, slavery, marriage, divorce, custody, inheritance, immigration, sexual violence, reproduction, abortion, privacy, suffrage, jury duty,
work, and military service.  
Requirements/Evaluation: four papers, including three 4- to 6-page papers, and one final paper of 8-10 pages  
Prerequisites: none  
Enrollment Limit: 25  
Enrollment Preferences: History majors, Women's, Gender and Sexuality Studies majors  
Expected Class Size: 20  
Grading: no pass/fail option, yes fifth course option  
Distributions: (D2)  (DPE)  
Difference, Power, and Equity Notes: This course fulfills the DPE requirement because it examines the legal, social, and political constructions and
theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to
fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.  
Not offered current academic year  

WGSS 377  (F)  Legacies of the Gothic Novel: Feminism and Horror in the Transatlantic World  (DPE)  
Cross-listings: WGSS 377  ENGL 377  COMP 377  
Secondary Cross-listing  
Much maligned as a popular or "low" genre at its inception in the late eighteenth century, the gothic form has persisted in its popularity as well as
crossed into "higher" forms of modernism, postmodernism, and postcolonialism. In this course, we will read key texts in the gothic mode-Frankenstein,
Jane Eyre, and Wuthering Heights among others-and follow the ways in which they are revisited and rewritten by contemporary American and
Caribbean writers, filmmakers, and artists. Particularly, we will examine how these texts subvert the realist leanings of Anglo-American narrative fiction
and its assumptions of enlightenment rationalism by way of two main processes: narrative hypertrophy and feminist revisions of horror. The class will
take up select contemporary criticism on the gothic and horror in literature, film, and art. This course will be of interest to students curious about
feminism, postcolonialism, cultural criticism, horror, and comparative literature.  
Requirements/Evaluation: presentation, paper plus revision, final research project  
Prerequisites: one literature or related course  
Enrollment Limit: 25  
Enrollment Preferences: any student with relevant coursework in ENGL, COMP, or WGSS  
Expected Class Size: 20  
Grading: yes pass/fail option, yes fifth course option  
Distributions: (D1)  (DPE)  
This course is cross-listed and the prefixes carry the following divisional credit:  
WGSS 377 (D1) ENGL 377 (D1) COMP 377 (D1)  
Difference, Power, and Equity Notes: The course will follow the path of radical thinking and generic experimentation by feminist writers of the
nineteenth century as they transform in an anti colonial, anti racist, and anti misogynist contexts. We will study power, hegemony, and resistance along
axes of gender, race, state form, and literary craft.  
Not offered current academic year  

WGSS 378  (S)  Uncontrollable: Deconstructing Stereotypes of Black Womanhood in the Americas  
Cross-listings: AFR 378  WGSS 378  
Secondary Cross-listing  
In Black Feminist Thought Patricia Hill Collins powerfully illustrates how "portraying African-American women as stereotypical mammies, matriarchs,
welfare recipients, and hot mommas has been essential to the political economy of domination fostering Black women's oppression." This course
explores how similar social constructions of race and womanhood have evolved in Latin American countries affected by slavery and colonialism. We begin by revisiting Collins' seminal text, as well as the work of other feminist scholars, as a starting point from which to deconstruct controlling images of Black women in Latin American nations. We will then explore clips from films, television series, advertisements, and comic strips to analyze different iterations of stereotypes and their impact on Afro-Latin American women's life chances. The second component of this course will engage with Black women's resistance throughout Latin America. We will engage songs, poetry, and empirical data on Black women's resistance to examine how have and continue to challenge stereotypes, educate the public, and construct their own narratives of black womanhood.

Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages), and a final paper (12-15 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: AFR concentrators

Expected Class Size: 15

WGSS 379 (S) Black Women in the United States (DPE)

Cross-listings: HIST 379, WGSS 379, AFR 379

Secondary Cross-listing

As slaves and free women, activists, domestics, artists and writers, African Americans have played exciting and often unexpected roles in U.S. political, social, and cultural history. In this course we will examine black women's lives from the earliest importation of slaves from Africa and the Caribbean through to the expansion of slavery, the Civil War, freedom, Jim Crow, the Civil Rights movements, and up to the present day. Consistent themes we will explore are the significance of gender in African American history and the changing roles and public perceptions of black women both inside and outside the black community. We will read and discuss a combination of primary and secondary sources; we will also consider music, art, and literature, as well as more standard "historical" texts.

Class Format: discussion

Requirements/Evaluation: student participation, three papers, and a brief oral presentation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: History, WGSS, and American Studies Majors, and Africana Concentrators.

Expected Class Size: 12

WGSS 386 (S) Latinas in the Global Economy: Work, Migration, and Households

Cross-listings: HIST 386  WGSS 386  LATS 386

Secondary Cross-listing

An increasingly global economy, from 1945 to the present, has affected Latinas in their home countries and in the United States. The garment industry, one of the first industries to go global, has relied extensively on Latina workers in their home countries and in the United States. Domestic work, a traditional field of women's work, also crosses borders. Challenging the myth that labor migration is a male phenomenon and that women simply follow the men, this course explores how the global economy makes Latinas labor migrants. What impact has the global economy and economic development had on Latinas' work and their households in their home countries? How have economic changes and government policies shaped Latinas' migrations and their incorporation in the changing U.S. economy? How have Puerto Rican, Mexican, Cuban, Dominican, Salvadoran, and Guatemalan women confronted the challenges created by a globalizing economy and balanced demands to meet their households' needs?

Class Format: discussion

Requirements/Evaluation: class participation and group presentations, short writing assignments, two short essays, and a final paper that will be presented to the class

Prerequisites: open to first-year students with instructor's permission

Enrollment Limit: 25

Expected Class Size: 15

WGSS 389 (F) Fiction of Virginia Woolf

Cross-listings: ENGL 389  WGSS 389

Secondary Cross-listing

"Let us record the atoms as they fall upon the mind in the order in which they fall, let us trace the pattern, however disconnected and incoherent in appearance, which each sight or incident scores upon the consciousness. Let us not take it for granted that life exists more fully in what is commonly thought big than in what is commonly thought small" ("Modern Fiction"). Virginia Woolf's fiction represents a self-conscious and highly experimental challenge to the conventions of Victorian and Edwardian fiction, in an effort to re-center the novel on lived experience. This course will explore the
evolution of the innovative fictional forms by which she tried to bridge the gap between the experience of consciousness and its representation in language. We will also consider the links between Woolf's concern with in the fluidity of consciousness and her interest in gender fluidity and androgyny. We will read most of the major novels, probably including *The Voyage Out*, *Jacob's Room*, *Mrs. Dalloway*, *To the Lighthouse*, *Orlando*, *The Waves*, and *Between the Acts*, together with selected short fiction and critical essays.

**Requirements/Evaluation:** discussion, weekly journal, three 4- to 6-page essays

**WGSS 401 (F) Senior Seminar: Rethinking the Public: the Arts Take on Neoliberalism (DPE)**

**Cross-listings:** WGSS 401 GERM 401 COMP 401

**Secondary Cross-listing**

Western neoliberalism is a predatory excrescence of late capitalism that overvalues competition, transferring the laws of the market to human relationships. It deliberately creates instability not only in the economic sphere but, more generally, in the social collective by encouraging dangerous risk-taking, fomenting crises and cementing systemic inequity, while suggesting to those under its sway that they are corporate 'entrepreneurs of self.' This model of self-management also extends into the sphere of intimate relationships. Of course, because predatory neoliberalism heavily favors a white investor model and is premised on white norms, the racialized body is considered a priori subaltern and subservient. Humanistic and artistic approaches (while not per se immune or outside of neoliberal constraints) effectively polemicize against neoliberalism, and suggest practices that resist its technocratic mindset. Looking at literature, cinema, and critical theory from a range of regions and disciplines, we will focus on Europe and the United States. Moreover, we will ask how forms of neoliberalism affect different regions of the world: Southeast Asia, Russia? Where and how can solidarity be reimagined beyond identity politics? Where is the boundary between animal and human in the neoliberal collective?

**Class Format:** three hours per week

**Requirements/Evaluation:** three 3-page papers, a short oral presentation, a 15-page final paper

**Prerequisites:** 300-level course

**Enrollment Limit:** 25

**Enrollment Preferences:** Comparative Literature majors and advanced students in other fields with permission of instructor

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Materials/Lab Fee:** course books and reader packet

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 401 (D2) GERM 401 (D1) COMP 401 (D1)

**Difference, Power, and Equity Notes:** This course addresses the costs to exploited groups within the neoliberal marketplace. We will discuss theoretical sources from a variety of fields (sociology, economics, philosophy, gender studies) every week that render these forms of expulsion or dispossession explicit. Far from benefiting all, the privileging of self-interest and market relations leads to increased inequality and in turn provokes violent reactions: the birth of new forms of fascism, racism and religious fundamentalism.

Not offered current academic year

**WGSS 403 (S) The Pedagogy of Liberation (DPE)**

Education is inherently political, and politics necessarily involves pedagogy. Who should teach, what is taught, how it is taught, and why it is taught are questions hotly debated at all levels and in all sites of education because the answers have implications for societal reproduction or transformation.
Politicians, activists, even family members at the dinner table all seek to educate in ways that incline us toward particular political positions. At the heart of this class stands the question: if different pedagogies point us in different political directions, then what kind of pedagogy or pedagogies serve the end of liberation from oppression and why? Are there certain pedagogical “goods” that reliably serve the goal of liberation across sites? Or do different sites require different approaches? To begin to answer these questions, we will engage a variety of thinker-teachers and groups known for their commitment to a “pedagogy of liberation.” While feminist thinkers will be foregrounded, we may also look to thinker-teachers who and groups that do not claim this label. In addition to engaging texts which reflect on different aspects of radical pedagogy (content, form, method, etc.) and radical pedagogy in different settings (the college classroom, the social movement headquarters, the home), we will witness radical pedagogy in practice. Moreover, we will enact various radical pedagogical strategies in our own classroom and beyond.

Requirements/Evaluation: Participation, assistance developing syllabus, presentation, final paper or paper equivalent

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to WGSS majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This class is concerned with the relationship between pedagogy and equity - how can pedagogy be leveraged to combat oppression and encourage equity? In it, students will gain not just insight on, but practice in enacting radical democratic pedagogies that flatten power differentials and encourage effective engagement across difference.

Spring 2021

SEM Section: R1 MW 11:45 am - 1:00 pm Greta F. Snyder

WGSS 408 (F) Senior Seminar: Nineteenth-Century French Novel: Desperate Housewives and Extreme Makeovers

Cross-listings: WGSS 408 RLFR 412

Secondary Cross-listing

In 1834, Balzac wrote that “Paris is a veritable ocean. Sound it: you will never know its depth.” The same can be said of the French nineteenth-century novel and its boundless ability to echo the past and illuminate the present. From the Romanticism of Stendhal and Hugo, and the Realism of Balzac and Flaubert, to the Naturalism of Zola and Maupassant, the novel became a forum for examining illicit sexuality, institutional misogyny, social injustice, criminal passions, revolutionary struggles, and Parisian pleasures in nineteenth-century France. Characters such as the imprisoned housewife Emma Bovary, the reluctant revolutionary Jean Valjean, the social-climbing lover Julien Sorel, the ambitious undergraduate Rastignac, and the domestically-abused Gervaise became synonymous with France’s turbulent social and political landscape from the 1830s to the 1880s. And as recent film adaptations make clear, these desperate housewives and extreme makeovers continue to haunt our twenty-first century present. Reinterpreted by such actors as Gérard Depardieu, Isabelle Huppert, Uma Thurman, Claire Danes, and Jennifer Aniston, the nineteenth-century novel continues to sound out the scandalous and sensational depths of our own century. Readings to include novels by Balzac, Stendhal, Hugo, Flaubert, Maupassant, Zola. Films to include adaptations by Clément, Berri, August, Arleta, Lelouch, Chabrol. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers

Prerequisites: a 200-level or 300-level RLFR literature course at Williams; advanced coursework during study abroad; or by permission of the instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Women’s, Gender, and Sexuality Studies majors; Comparative Literature majors; and those with compelling justification for admission

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 408 (D2) RLFR 412 (D1)

Not offered current academic year
In the age of satellite television, e-mail, and mobile applications such as WhatsApp and Skype, transnational living has rapidly emerged as the norm as opposed to the exception. However, what does it really mean to "be transnational"? How are the lived experiences of transnational individuals and communities shaped by categories of difference such as gender, ethno-racial identity, sexuality, and class? What impacts do the growing number of transnational citizens and residents in the U.S. have on our understanding of "American" identity in the local, national, and global contexts? In this interdisciplinary seminar we will analyze recent theories regarding the origins and impacts of transnationalism. Particular attention will be paid throughout the semester to the intersections of gender, ethno-racial identity, sexuality, and class in connection with everyday transnational dynamics. The broad range of case studies examined includes Central American, Colombia, the Dominican Republic, Haiti, Indonesia, Jamaica, Mexico, the Middle East, and Peru.

Class Format: This remotely taught, synchronous course will follow a discussion format.

Requirements/Evaluation: student participation, an original 12-15 page semester-long research paper conducted in stages, and peer editing

Prerequisites: LATS 105, WGSS 101 or AMST 201; junior or senior standing

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, Women's, Gender, and Sexuality Studies majors, and American Studies majors by seniority. If the course is overenrolled students may be asked to submit a brief writing sample.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021

SEM Section: R1    MR 1:30 pm - 2:45 pm    Maria Elena Cepeda

WGSS 411 (S) Advanced Readings and Research

This capstone readings and research seminar for WGSS majors will culminate in a substantial independent research project. In the first half of the semester, we will examine the disciplinary and interdisciplinary development of the field(s) of WGSS; read classic texts and examples of more recent scholarship representing a range of WGSS theories and methods; and explore a variety of methods and strategies for crafting research within the field of WGSS. In the second half of the semester, students will design and conduct their own WGSS-related research projects.

Requirements/Evaluation: weekly discussion questions, research proposal, substantial final research project, and oral presentation

Prerequisites: WGSS 101

Enrollment Limit: none

Enrollment Preferences: WGSS majors

Expected Class Size: 5

Grading: no pass/fail option, no fifth course option

Unit Notes: senior seminar

Distributions: (D2)

Not offered current academic year

WGSS 412 (S) Graphic Sex: Queer Ethnographic Writing

This seminar examines recent and canonical work in queer anthropology, exploring how different cultures construct sexual and gender identities and subjectivities, and what happens when dominant paradigms such as the Euro-American LGBT model become enmeshed in globalization, late
capitalism, and consumerism. We begin with a series of case studies highlighting alternative gender and sexual formations in various cultures around the world, emphasizing how these seemingly "authentic" local categories are themselves the products of historical shifts, colonial relations, and political economy. We also examine how these categories overlap, conflict with, subvert, or syncretize with the increasingly global category of "gay." In addition to reading queer ethnographies, we will also learn the methods required for doing ethnography ourselves, including interviewing techniques, participant observation, writing thick description, data analysis, and editing.

**Requirements/Evaluation:** ethnographic writing assignments (e.g., interviews, field notes, essays, etc.)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Women's, Gender and Sexuality Studies majors and others with substantial background in Women's, Gender and Sexuality Studies or Anthropology and Sociology Studies; statements of interest will be solicited

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Unit Notes:** WGSS junior/senior seminar

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

**WGSS 413 (S) Feminist Technoscience** (DPE)

**Cross-listings:** WGSS 413 STS 413

**Secondary Cross-listing**

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? What features do they share as ethical, political, and epistemological practices? What have scientific feminism and feminist science looked like in print and in practice since the middle of the 20th century, and how have they shaped our present, 21st-century technoscientific culture? To address these questions, we will read a set of essays and academic articles that are connected by a trail of citations. These will include works of theory -- like Donna Haraway's "Situated Knowledges" and "A Cyborg Manifesto" -- research write-ups like Pat Treusch's "The Art of Failure in Robotics," and ethnographic work like Sophia Roosth's "Evolutionary Yarns in Seahorse Valley." We will also examine the editorial introduction to "Science Out of Feminist Theory," a 2017 special issue of Catalyst, and we will circle outward and backward to make sense of the terms and arguments we encounter there. While some of the readings will be set in advance, students will help shape the syllabus as we travel toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

**Class Format:** This course will meet remotely in Spring 2021.

**Requirements/Evaluation:** discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); final essay (12-15 pages + in-class presentation)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Science and Technology Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 413 (D2) STS 413 (D2)

**Difference, Power, and Equity Notes:** Central to "Feminist Technoscience" is a recognition of and engagement with the historical under-privileging of women, women's work, and women's bodies in capital-S "Science" and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory, We will also develop feminist accounts of contemporary technoscientific work, even as we critique a number of such accounts from the past several decades.
WGSS 416  (S)  Senior Seminar: The Art of Minor Resistance: Advanced Readings in Race, Gender, Performance

Cross-listings: COMP 404  ARTH 416  THEA 416  WGSS 416

Primary Cross-listing

This seminar will study stagings and aesthetic theories of dissent in feminist, queer, anti-colonial, and anti-racist performance. An attunement to performance and to the minor is also a turn toward minoritarian knowledges and lifeworlds. Of interest will be modes of sensing and relating that are not often legible as political—including aesthetics of opacity, quiet, disaffection, aloofness, and inscrutability—but could be understood as critiques of political recognition. Performance is a capacious rubric in this class that will include performance art, social media, photography, music videos, poetry, street protest, and everyday life. Students will learn to describe, interpret, and theorize performance through discussion, writing, and creative form.

Requirements/Evaluation:  in-class discussion, partner presentation, weekly reading responses, final project

Prerequisites:  WGSS 101

Enrollment Limit:  15

Enrollment Preferences:  WGSS majors, students with previous performance studies coursework

Expected Class Size:  15

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

WGSS 453  (S)  Women, Gender, and Social Movements in U.S. History

Cross-listings:  HIST 453  WGSS 453

Secondary Cross-listing

This seminar is devoted to researching and writing a substantial research paper on some aspect of U.S. women's or gender history, with a particular focus on social movements. Social movements organized around gender issues and identities have been significant sources of social and political change in U.S. History. Drawing on online archival collections of personal letters and diaries, published writings, organizational records, and oral histories, students will research an individual, social group, organization, event, or movement that invites them to explore that particular subject in depth, while also considering some of the following issues and questions: the different strategies, tactics, and ideologies used for organizing and movement building across the political spectrum; the ways that gender has united and divided grassroots movements; how and when it has been useful for women to act through women's groups versus other types of organizations; the ways that ethnicity, race, religion, and class have been resources for organizing and coalition building; how social movements have shaped and been shaped by larger political and economic developments; the ways that various gendered identities have served as both agents and objects of political and social change; and the relative importance of formally organized politics versus less formal strategies to effect political change.

Requirements/Evaluation:  20- to 25-page research paper

Prerequisites:  none

Enrollment Limit:  15

Enrollment Preferences:  senior History majors

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year
WGSS 468  (S)  Practicum in Curating: Visual Art for a Garden

Cross-listings:  WGSS 468  ARTH 468

Secondary Cross-listing

This course aims to develop the wide range of skills needed to realize an art exhibition in a botanical garden (specifically Marie Selby Botanical Gardens in Sarasota where the instructor is Curator at Large. The course responds to her charge to exhibit artists with 100% name recognition for the first five years of Selby's new "Living Museum" initiative which puts works of art in dialogue with botanicals. In the wake of shows devoted to Marc Chagall (2017), Andy Warhol (2018) and Paul Gauguin (forthcoming, 2019), each student will research and choose a non-male and/or non-white artist of some renown and construct an exhibition of works that might be possible to borrow. Course work includes 1) research on the artist and the concept, the focal works of art, auxiliary objects that do not require climate control (e.g. photographs and other works on paper), social history and other methodological frameworks 2) writing requests e.g., loans, rights; and 3) preparations for several of the following: press release, wall texts, wall labels, audio guide, and programming for the exhibition. The final project includes a 10-page synthetic research paper, written for a general audience, about the artist and their use of flowers as well as the projected installation of the climate-controlled gallery. Students may have the opportunity to participate in a WSP in situ in which they will experience all sectors of the museum, glass house, and gardens.

Class Format: this is a practicum so while it meets 3 hours/week as a seminar does, it is hands on in a different way (e.g., co-peer and one-on-one reviewing by me in class)

Requirements/Evaluation: in-class presentations of research (weekly or bi-weekly), a substantive annotated bibliography, several short writing assignments (e.g. letters, queries, reviews), reading and critiques of others’ work, in-class presentation of two drafts of the final paper and installation

Prerequisites: at least one 100-level course in ARTH

Enrollment Limit: 10

Enrollment Preferences: junior and senior art majors, especially those who have had either methods or a senior seminar and/or those with strong research, writing, and design skills

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: field trip expenses that may not be funded by the department (not to exceed $100)

Distributions:  (D1)

**WGSS 31 (W) Senior Thesis: Women’s and Gender Studies**

See description of Degree with Honors in Women’s, Gender and Sexuality Studies.

**Class Format:**  thesis

**Grading:**  pass/fail only

*Not offered current academic year*

**WGSS 99 (W) Independent Study: Women’s and Gender Studies**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:**  independent study

**Grading:**  pass/fail only

*Not offered current academic year*
The Writing Skills (WS) requirement is to improve student writing proficiency across disciplines. Students in these courses will receive guidance on structure, style, argumentation, and other significant aspects of writing throughout the semester. This may be achieved through brief assignments spaced over the semester, sequenced assignments leading to a longer final paper, etc. WS courses may also include multiple drafts, peer review, conferences or class discussions designed to improve writing skills. (A course with a single long paper due at the end of the semester, but with no required or structured means of addressing writing issues, would not be considered a writing skills course.)

The primary function of the WS designation is to indicate that the course will provide consistent and ongoing feedback on students' writing. Thus, the amount of writing should be substantial and well spaced, followed by timely evaluation and suggestions for improvement. Specifically, a WS course should require multiple assignments, each returned with comments which address writing problems and strategies, as appropriate. Because WS course instructors must pay attention to students' writing skills as well as to their mastery of the content of the course, WS courses have a maximum enrollment of 19.

All students are required to take TWO WS courses: one by the end of sophomore year and one by the end of junior year. Students will benefit most from WS courses by taking them early in their college careers and are strongly encouraged to complete the requirement by the end of sophomore year.

**AFR 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)**

**Cross-listings:** AFR 104 HIST 104

**Secondary Cross-listing**

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

**Requirements/Evaluation:** active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

**Writing Skills Notes:** Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans
made these contributions spite of various and complex inequities.

Spring 2021
SEM Section: H1 MW 11:45 am - 1:00 pm Benjamin Twagira

**AFR 115 (F) The Literature of Sports** (DPE) (WS)

**Cross-listings:** AFR 115 ENGL 115

**Secondary Cross-listing**

The ubiquity of the sporting event, the athlete as hero, the athlete as failure, the crowd, the fan, the stadium, and all of the complex conflicts therein have long been the subjects of some of the finest writing in America and throughout the world. Writers have used sport as a context through which to explore and examine ideas such as beauty, the sublime, tragedy, politics, race, class, sexuality, and gender. This course will focus on poetry, fiction, and non-fiction invested in the public spectacles and private revelations of sport ranging from the poetics of praise to issues of urbanism, colonialism, globalization with readings by Pindar, Rankine, CLR James, Baldwin, Hemingway, Oates, DeLillo, and many others. This course will be taught online in a synchronous format.

**Requirements/Evaluation:** Students will be expected to complete a number of short (5 pages or less) papers during the semester and one longer paper (8-10 pages) at the end of the semester.

**Prerequisites:** None.

**Enrollment Limit:** 14

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course.

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AFR 115 (D2) ENGL 115 (D1)

**Writing Skills Notes:** Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course will focus on literature about sports that addresses, among other topics, civil rights activism, gentrification, race dynamics and race relations both inside and outside of the USA, American exceptionalism, sociocultural construction of emotional displays, mental health, religious conflict, and anti-blackness.

Fall 2020
SEM Section: R1 MW 10:00 am - 11:15 am Rowan Ricardo Phillips

**AFR 158 (F) North of Jim Crow, South of Freedom** (DPE) (WS)

**Cross-listings:** AFR 158 HIST 158

**Secondary Cross-listing**

This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs—all with an eye toward scrutinizing the freedom struggle in its northern variety.

**Class Format:** This course is designed as a seminar and will be taught remotely. Virtual course meetings will revolve around synchronous discussion and remote learners will be expected to attend class regularly and participate actively in each session held via Zoom (or a similar platform).

**Requirements/Evaluation:** Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will be required to submit a topic proposal.

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 10
Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 158 (D2) HIST 158 (D2)

Writing Skills Notes: Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course analyzes the long black freedom struggle in the North during the twentieth century. It examines black northerners’ efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in spite of legal and legislative remedies.

Fall 2020
SEMS Section: R1    TR 11:30 am - 12:45 pm    Tyran K. Steward

AFR 167  (S) Let Freedom Ring? African Americans and Emancipation  (WS)

Cross-listings: AFR 167  HIST 167  AMST 167

Secondary Cross-listing
This course will examine African Americans’ transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.

Requirements/Evaluation: research paper, short writing assignments, class participation

Prerequisites: first-years and sophomores

Enrollment Limit: 19

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 167 (D2) HIST 167 (D2) AMST 167 (D2)

Writing Skills Notes: Students will work throughout the semester on research paper that concerns Emancipation in the US. Students will turn in segments of this paper in separate assignments. During the final weeks of the course students will stitch these components together. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

AFR 207  (F) "Out of Africa": Cinematic Por(Be)trayals of a Continent  (DPE) (WS)

Cross-listings: ARTH 207 AFR 207
Secondary Cross-listing

This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa's 'fighting men' to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing "Africa" as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of "Africa" as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of "Africa" within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how "Africa" in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.

Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Art History majors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 207 (D1) AFR 207 (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of 'authentic' representation as they have been applied to representations of "Africa" displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African 'identity' has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

Fall 2020

TUT Section: RT1   TBA   Michelle M. Apotsos

AFR 209  (F)(S)  Introduction to Racial Capitalism  (DPE) (WS)

Cross-listings: AMST 202  AFR 209

Secondary Cross-listing

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism,
circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Class Format: This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

Requirements/Evaluation: Evaluation will be based on the following requirements: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Essay 1--First submission (5 pgs): 10%; Essay 2 (5 pgs): 10%; Essay 3 (5 pgs): 15%; Essay 4 (5 pgs): 15%. Class will meet twice per week. Tu. meetings will be asynchronous and Th. meetings will be synchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion in small groups and as a class.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

AFR 359 (S) Settler Colonialism, Care, Kinship and Social Reproduction (DPE) (WS)

Cross-listings: AFR 359 AMST 356

Secondary Cross-listing
AMST 356 Settler Colonialism, Care, Kinship and Social Reproduction Contemporary understandings of family, kinship and care were shaped through the invasion of the Indigenous Americas and Transatlantic slavery. Indigenous nations came to be understood by anthropologists and settler states as governed by a logic of kinship, and this understanding was weaponized by the US and Canada to target Indigenous governance for elimination. At the same time, dominant kinship narratives were defined by the property claims made upon Black lives under settler law and by the state-enforced maternal inheritance of racialized bondage. This course will analyze kinship and care as both mechanisms of state control of Indigenous and Black lives and lands, and as sites of insurgency against colonial states. We will analyze how Canada and the U.S. have deployed Child Protective Services, reproductive regulation, Boarding Schools, plantation economies, land dispossession, and the prison industrial complex to target Indigenous, Black, Brown, working class and trans/queer support systems. Applying methodologies and theoretical interventions in Indigenous studies, Black studies and critical political economy to primary texts to US and Canadian law, autobiography, and anthropology, our focus will move from 17th and 18th century British colonial law to autobiographical accounts of slavery and emancipation, to Canada's 19th century Indian Act, to mid-20th century social scientific debates on Black and Indigenous families. We will end by thinking about insurgent practices of organizing care and kinship outside and against the confines of whiteness, capital and the state. The pedagogical aims of the course are to illustrate how kinship narratives anchor settler colonial nationhood and property regimes, and to facilitate the development of skills in writing and independent research, primary source analysis, and critical analysis of law, anthropology, and policy.

Requirements/Evaluation: Class Participation and three critical response papers at three to five pages each (each receiving critical feedback from professor); one response paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process. One final paper (15-20 pages) and one roundtable presentation based on the final paper.

Prerequisites: Prerequisites: one or more of the following courses: AMST 146, Introduction to Indigenous Studies or AFR 200, Introduction to Africana Studies; HIST 254 / AMST 254 (F), Sovereignty, Resistance, and Resilience: Native American Histories to 1865 or AMST 204:

Enrollment Limit: 19

Enrollment Preferences: AMST majors have first priority, AFRICANA majors have second priority.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Unit Notes: This course satisfies EITHER the Space and Place elective OR the Comparative Studies in Race, Ethnicity and Diaspora elective

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 390 (F)(S) Race, Identity, Nature (DPE) (WS)
Cross-listings: ENVI 430  AFR 390  AMST 430

Secondary Cross-listing

From 18th-century claims that climate determined character to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, race, colonialism, identity, and "nature" operate as interconnected terrains of power. Anchored in the contexts of U.S. colonialisms, racialization, and accumulation, this course aims to expose students to the cultural politics of "nature" as a way of "doing" American Studies. Specifically, this course investigates formations of and struggles against U.S. colonialisms, racialization, and accumulation via the many symbolic and material iterations, negotiations, and contestations of the contingent relations between and among human and non-human natures. Organized around a significant research paper and weekly written responses, this course ultimately aims to foster students' critical writing, reading, analytical thinking, and comparative inquiry skills across such contexts and sites of contestation, and across texts of different genres and media. We will work with a wide range of primary sources, including published fiction and poetry, legal documents, newspaper articles, speeches, recorded songs, and films, photos, paintings and other visual culture. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward non-human natures, as well as analyze how ideas of "nature" mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Class Format: This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

Requirements/Evaluation: Evaluation will be based upon the following: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Final Research Essay: 50%, broken down by Research Proposal (2-3 pgs, 10%), Peer Review and Feedback (2 pgs, 10%), Presentation (10%); Essay (15 pgs): 20%. Class will meet twice per week. Tu. meetings will be synchronous and Th. meetings will be asynchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion.

AMST 167  (S) Let Freedom Ring? African Americans and Emancipation  (WS)
Cross-listings:  AFR 167  HIST 167  AMST 167

Secondary Cross-listing
This course will examine African Americans' transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.

Requirements/Evaluation: research paper, short writing assignments, class participation

Prerequisites: first-years and sophomores

Enrollment Limit: 19

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202  (F)(S) Introduction to Racial Capitalism  (DPE) (WS)
Cross-listings:  AMST 202  AFR 209

Primary Cross-listing
The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so
through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

**AMST 219 (S) Extreme Persuasions: The Far Right in the United States and Russia** (DPE) (WS)

**Cross-listings:** AMST 219 RUSS 218 WGSS 217

**Primary Cross-listing**

The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the "other" superpower to be an implacable enemy. How have nationalist movements in the United States come to see the Russian Federation as a vanguard for 'whiteness' and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

**Requirements/Evaluation:** On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%;
The term paper, 25%; the in-class presentation of the term paper, 5%.

**Prerequisites:** None

**Enrollment Limit:** 19

**Enrollment Preferences:** Majors and concentrators in AMST, Russian, and Women's and Gender Studies.

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

**Writing Skills Notes:** The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

**Difference, Power, and Equity Notes:** Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.

AMST 310  (S)  "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics  (DPE) (WS)

**Cross-listings:** AMST 310  ENGL 302  WGSS 330

**Secondary Cross-listing**

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuye Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Judith Butler, as we analyze the kinds of performances that brought together feminist poetry and political activism. We spend some time in the archives, analyzing documents from the period, including original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new language to "hear," not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

**Class Format:** I anticipate that this class will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements.

**Requirements/Evaluation:** two short analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), short presentation, longer final researched paper (10-12 pages)

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** English, Women's, Gender, and Sexuality Studies, American Studies majors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

AMST 310 (D2) ENGL 302 (D1) WGSS 330 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, critical summaries of feminist criticism, two four-to-five-page graded papers, one creative assignment, a longer, final researched paper (10-12 pages), written in stages over a period of several weeks with feedback at each stage. Critical feedback on written assignments a week prior to due date through conferences and Google Docs and on graded assignments within one week.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

Spring 2021

AMST 333 (S)  An American Family and "Reality" Television  (WS)

**Cross-listings:** ARTH 310  WGSS 312  AMST 333

**Secondary Cross-listing**

*An American Family* was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Louds’ marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the *An American Family* series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

**Class Format:** Remote seminar. The course will feature synchronous online class meetings.

**Requirements/Evaluation:** class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper.

Student presentations will be recorded offline and posted to GLOW.

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** junior Art majors, followed by senior majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)  (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

**Writing Skills Notes:** There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Organized around a significant research paper and weekly written responses, this course ultimately aims to foster students' critical writing, reading, analytical thinking, and comparative inquiry skills across such contexts and sites of contestation, and across texts of different genres and media. We will work with a wide range of primary sources, including published fiction and poetry, legal documents, newspaper articles, speeches, recorded songs, and films, photos, paintings and other visual culture. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes,
and practices toward non-human natures, as well as analyze how ideas of “nature” mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

**Class Format:** This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

**Requirements/Evaluation:** Evaluation will be based upon the following: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Final Research Essay: 50%, broken down by Research Proposal (2-3 pgs, 10%), Peer Review and Feedback (2 pgs, 10%), Presentation (10%); Essay (15 pgs): 20%. Class will meet twice per week. Tu. meetings will be synchronous and Th. meetings will be asynchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** American Studies majors will be given preference; secondary preference given to students specializing in Native American and Indigenous Studies, as well as Africana and Environmental Studies majors.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENVI 430 (D2) AFR 390 (D2) AMST 430 (D2)

**Writing Skills Notes:** Emphasis on revision and writing process includes: One thesis paper at 15 pages (receiving critical feedback from professor and peers); one thesis paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process; one research proposal (including thesis outline and annotated bibliography of primary texts) with critical feedback from professor; student presentations and roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** By the end of this course, students should be able to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation. In order to addresses such issues of difference, power, and equity, this course provides students with the necessary th

**AMST 462 (F) Art of California: Pacific Standard Time** (DPE) (WS)

**Cross-listings:** ARTH 462 AMST 462 ARTH 562 LATS 462

**Secondary Cross-listing**

In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

**Requirements/Evaluation:** Several short writing and research assignments, oral presentations, class participation, and a final research paper of
16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

**Prerequisites:** ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

**Enrollment Limit:** 12

**Enrollment Preferences:** senior Art major and senior Latina/o Studies concentrators

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ARTH 462 (D1) AMST 462 (D2) ARTH 562 (D1) LATS 462 (D2)

**Writing Skills Notes:** There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

**SEM Section:** R1  MW 6:45 pm - 8:00 pm  C. Ondine Chavoya

**AMST 488 (F) Fictions of African American History (DPE) (WS)**

**Cross-listings:** HIST 488 AMST 488

**Secondary Cross-listing**

This course examines African American fiction, largely from the late 19th and very early 20th century. These Black authors, none of them professional historians, try to bring African American History to light in an era before this history was taken seriously by the white academy. Many of the authors we examine were activists and journalists who set their novels and short stories during Slavery and Emancipation. We will consider inherently radical act of reading and writing in a society where black literacy was illegal until after the Civil War. Alongside the fiction we will read modern historiography of the era. We will also delve into some of slave narratives published after Emancipation. Readings will include works by Booker T. Washington, James Weldon Johnson, Charles Chesnutt, Paul Laurence Dunbar, and Sutton Griggs. This is a tutorial and will be taught online.

**Requirements/Evaluation:** Every week a student will write either an essay or a critique. For the final assignment students may either write a review of 2-3 works of historiography OR substantially revise an essay or critique they did during the semester.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** History, Africana, and American Studies Majors will have preference. As well as students who have never taken a tutorial.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

HIST 488 (D2) AMST 488 (D2)

**Writing Skills Notes:** Students will write every week (essays and critiques) and receive feedback from their partners and from the professors. The final assignment of the semester is major revision of a one essay or critique. Students will receive feedback on their paper's organization and argument as well as points of style. Since we will be reading both fiction and historiography, we will discuss as a group the different challenges each form poses to essay writing.

**Difference, Power, and Equity Notes:** African Americans writing during this time lived under the laws and customs of Jim Crow and White Supremacy. Lacking political power, they turned to the power of the written word. We will evaluate the way writing and fiction helped ameliorate (or not) the racial power structures.
ANTH 138  (F)  Spectacular Sex  (DPE) (WS)
Cross-listings:  WGSS 138  ANTH 138
Secondary Cross-listing
From Beyoncé's Coachella performance to Donald Trump's social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation: weekly response papers; students will also select past papers to develop and rewrite as more formal essays
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first- and second-year students; a statement of interest will be solicited from pre-registrants
Expected Class Size: 10
Grading:  no pass/fail option,  no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 138 (D2) ANTH 138 (D2)
Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting.
Difference, Power, and Equity Notes: This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

ANTH 269  (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE) (WS)
Cross-listings:  REL 269  STS 269  ASST 269  ANTH 269
Primary Cross-listing
This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.
Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in-person or remotely.
Requirements/Evaluation: weekly tutorial papers and discussion
Prerequisites: A prior class or some experience with meditation is recommended
Enrollment Limit: 10
Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020
TUT Section: HT1    TBA     Kim Gutschow

ARAB 109 (S) The Iranian Revolution (DPE) (WS)

Cross-listings: ARAB 109 HIST 109

Secondary Cross-listing
The Iranian Revolution was a major turning point in world history that resulted in the establishment of the Islamic Republic of Iran. This tutorial will evaluate the causes and impact of the revolution and how this seminal event continues to have widespread repercussions around the globe. The first weeks will explore the history of pre-revolutionary Iran with special attention to religious and intellectual trends such as the ideas of Ayatollah Ruhollah Khomeini, Jalal al-e Ahmad, and Ali Shariati. We will then evaluate the revolution itself including the US hostage crisis, the downfall of the Shah Muhammad Reza Pahlavi Shah, and how Khomeini’s vision of society became paramount. Finally, we will explore the aftermath of the revolution including Iran’s geopolitics, the nature of the theocratic system in Iran as well as how the revolution impacted every day lives of Iranians in Iran and abroad particularly how they reflect on the revolution in memoirs, films, and literature.

Class Format: Hybrid
Requirements/Evaluation: Weekly meetings. Weekly papers - either a 5 page primary paper or a 2-3 page response paper.
Prerequisites: No prerequisites.
Enrollment Limit: 10
Enrollment Preferences: First Years and Sophomores.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 109 (D2) HIST 109 (D2)

Writing Skills Notes: As a tutorial, students are expected to regularly write analytical and critical papers on the readings. They will receive regular and consistent feedback from the instructor and their partner and will be given the opportunity to re-write some of their assignments.

Difference, Power, and Equity Notes: The Iranian Revolution, like other major social movements, offered a compelling critique of the status quo and promised a more just society that would be more equitable for all Iranians. The tutorial will consider the relationship between the rhetoric of the Revolution and the lived reality, especially how this seminal event impacted the lives ordinary Iranians. Was the Revolution simply a change in the composition of the political elite or did it yield new realities and more access for Iranians
ARAB 201  (F)  Intermediate Arabic I  (DPE)  (WS)
This course will build on the students' acquisitions in Arabic 102 to consolidate their learning of the Modern Standard Arabic and one variety of spoken Arabic. In addition to expanding students' vocabulary and enhancing their communication skills, the course will deepen their knowledge and use of grammar in both speaking and writing. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing cultural appreciation of Arabic-speaking countries.

Class Format: Three 75-minute sessions. The class will be taught remotely synchronously three times a week, with asynchronous online material.

Requirements/Evaluation: quizzes, tests, homework, and active class participation

Prerequisites: ARAB 102 or placement test

Enrollment Limit: 12

Enrollment Preferences: If the course is overenrolled preference will be given to those who intend to major or do a certificate in Arabic.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE)  (WS)

Writing Skills Notes: This course involves a great deal of writing, ranging from vocabulary and grammar-focused exercises to written assignments about a variety of topics. Students will receive extensive and timely feedback on this written work.

Difference, Power, and Equity Notes: Any language is the locus of issues of difference, power, and equity. Students will learn about gender and pronouns. They will wonder why Arabic does not have a gender neutral pronoun. Students will understand how Arabic acts as a dominant language in places minority languages in the Middle East and North Africa. Students will emerge from the course with a critical understanding of Arabic language's politics.

Fall 2020
SEM Section: R1  MWF 10:00 am - 11:15 am  Radwa M. El Barouni

ARAB 209  (S)  Saharan Imaginations  (DPE)  (WS)
Cross-listings: ARAB 209  ENVI 208  COMP 234

Primary Cross-listing

Literary representations of the Sahara challenge facile assumptions about this undertheorized place. Approached mainly through the prism of adventure and exploitation, the desert is portrayed as a dead space. However, literature and film furnish a unique opportunity to engage critically with the ways Maghrebi and Middle Eastern culture production represents deserts and raises issues of fundamental importance to these societies. This course offers students the opportunity to engage in close readings of novels and film through the theme of the Sahara and Saharan space. Reading through the politics of human mobility and life in the desert will help students to understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the Saharan sub-genre of African and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to think critically about the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature. Deconstructing reductive Saharanisms, students will see the desert for what it is, rather than what it is portrayed to be or stand for.

Class Format: hybrid

Requirements/Evaluation: active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Students are admitted into the course on a first-come-first-serve basis. If the course is over-enrolled, preference will be given to Arabic Studies and Comparative Literature majors and certificates.

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209 (D1)  ENVI 208 (D1)  COMP 234 (D1)

Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.

Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

Spring 2021
SEM Section: H1    MW 10:00 am - 11:15 am     Brahim El Guabli

ARAB 301  (F)  Advanced Arabic 1  (WS)
A continuation of Intermediate Arabic, ARAB 301 aims to expand students' listening, reading, writing, and speaking skills in Arabic. The course will also stimulate students' intellectual curiosity about the Arabic-speaking regions and enhance their intercultural competence. Using Al-Kitaab as well as a variety of authentic written and audiovisual materials, the course will advance their proficiency in Modern Standard Arabic and one variety of Colloquial Arabic. The course will also encourage students to engage critically with a wide variety of topics in Arabic language as they enrich their knowledge of the different aspects of Arabic language and culture. Students at this stage will also be assisted to generate more complex written and oral assignments.

Requirements/Evaluation:  active class participation, daily assignments, writing portfolio, presentations, quizzes, midterm exam, final exam
Prerequisites:  ARAB 202
Enrollment Limit:  12
Enrollment Preferences:  Arabic majors
Expected Class Size:  8
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D1)  (WS)
Writing Skills Notes: Students will be writing multiple drafts in Arabic; the weekly written work expected from students is 800 words in Arabic language, students will also be doing translations from Arabic into English or vice-versa; and all written work from students will evaluated, and students will receive feedback to rework it. Students will receive detailed and consistent feedback about their writing in Arabic language.

Fall 2020
SEM Section: R1    TR 9:45 am - 11:00 am M 10:00 am - 11:15 am   Lama Nassif

ARAB 302  (S)  Advanced Arabic 2  (DPE)  (WS)
A continuation of Advanced Arabic 1, ARAB 302 aims to reinforce students' listening, reading, writing, and speaking skills in Arabic through a deeper engagement with authentic materials in Modern Standard Arabic. Built around a plethora of texts and audiovisual materials, the course seeks to assist students to develop their language and critical thinking skills in Arabic. Situated at the intersection of language learning and content teaching, this course will prepare students for more scholarly engagement with and in MSA in the fourth year. Like ARAB 301, the course will be conducted entirely in Arabic.

Class Format: course offered remotely
Requirements/Evaluation:  quizzes, exams, presentations, papers, midterm examinations, and projects
Prerequisites:  ARAB 301 or equivalent
Enrollment Limit:  19
Enrollment Preferences:  Arabic Studies, or students who completed ARAB 301
Expected Class Size:  6
Grading:  yes pass/fail option,  yes fifth course option
Distributions: (D1) (DPE) (WS)

Writing Skills Notes: In addition to the weekly writing assignments of 400-word essays, students will produce four portfolios that will involve a careful process of revisions. Each portfolio will include a series of critical reflections on graphic novels and visual storytelling in Arabic. The portfolio will be based on rigorous research in Arabic recourses, summary and essays that can range to 800 words.

Difference, Power, and Equity Notes: As a content course, ARAB 302 will focus on graphic novels, graffiti and caricature in contemporary Arab visual culture. Most of the texts assigned will address the particularity of political language involved in this form and its popularity among Arab youth (and adults) as a cultural expression of dissent. The selected texts will also expose students to stories about class struggle, gender inequality, the social struggles of immigrants and refugees.

Spring 2021
LEC Section: R1    TR 11:30 am - 12:45 pm M 11:45 am - 1:00 pm   Amal Eqeiq

ARAB 363 (F) Where are all the Jews? (DPE) (WS)

Cross-listings: REL 268  ARAB 363  COMP 363  JWST 268

Primary Cross-listing

Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israelite Universelle’s schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews’ departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

Fall 2020
ARAB 369  (S)  Indigenous Narratives: From the Fourth World to the Global South  (DPE)  (WS)

Cross-listings:  GBST 369  HIST 306  COMP 369  ARAB 369

Secondary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashelhiyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10 -pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions:  (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 369  (D2)  HIST 306  (D2)  COMP 369  (D1)  ARAB 369  (D1)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor’s feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Spring 2021

SEM Section: R1  MR 1:30 pm - 2:45 pm     Amal  Eqeiq

ARAB 401  (F)(S)  Topics in Advanced Arabic: Contemporary Arab Cinema  (DPE)  (WS)

The Arab world is a fascinating region with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze select movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

Class Format: The course will be offered remotely (Final course format to be determined closer to the semester)

Requirements/Evaluation: class participation, daily writing and reflections, quizzes, blogs, leading a movie discussion, and a final project.
**Prerequisites:** ARAB 302 or equivalent.

**Enrollment Limit:** 19

**Enrollment Preferences:** if the course is overenrolled, preference will be given to Arabic majors.

**Expected Class Size:** 5-7

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will engage in daily writing and reflections involving prose responses to discussion prompts, movies, YouTube videos, articles, and quiz prompts. The students will also write blogs, a minimum of one speech, and a 5-7 pp. final research paper. The instructor will give daily feedback on students’ writing as well as training in writing skills to advance their writing abilities.

**Difference, Power, and Equity Notes:** The students will engage in an exploration of social, political, and economic realities in Arab societies. They will examine similarities and differences across a variety of contexts involving differential power dynamics, biases, and gender roles. They will reflect on issues of power based on internal and external factors in these societies as positioned in a region torn by political, social, and religious conflicts.

---

**ARAB 408 (F) Appropriating History. Who Owns the Past? (DPE) (WS)**

**Cross-listings:** HIST 489 ARAB 408

**Secondary Cross-listing**

Who owns the past? How have modern states appropriated history? The political use of history is a critical ingredient in any nationalist discourse. In such narratives, the selective utilization of archaeology and ancient history often serves important functions in articulating a conscious and deliberate national history. Thus, in nationalist renderings, archaeological sites and artifacts are not merely relics of the past; they can also be potent and conspicuous symbols of national identity for the modern nation-state. In the Middle East, with its rich archaeological heritage, the relationship among politics, nationalism, and archeology has been particularly strong and interesting. This tutorial addresses the powerful nexus between history and nationalism with a special emphasis on the Middle East. It will explore the battle over who controls history and the "stuff" of history such as antiquities, land, heritage sites, and museum exhibitions and how that control has expressed itself in several Middle Eastern countries, including Iraq, Israel, Turkey, Egypt, Lebanon, and Iran. Furthermore, it will discuss how archaeology entered the political discourse, the ethics of repatriation and appropriation, and archaeology’s role in contested terrains and political disputes.

**Class Format:** This tutorial can be taken entirely Remote. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

**Requirements/Evaluation:** Format: tutorial. Requirements: 5-7 page essays or 2-3 response papers due each week

**Prerequisites:** None, though a demonstrated interest in the Middle East is important.

**Enrollment Limit:** 10

**Enrollment Preferences:** Seniors and to History and Arabic Studies majors.

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

HIST 489 (D2) ARAB 408 (D2)

**Writing Skills Notes:** As a tutorial, students will receive extensive feedback on their writing each week both from the professor and their partner. Further, students will be given the opportunity to rewrite two of their papers in light of the criticism that they receive during the semester.

**Difference, Power, and Equity Notes:** This is a tutorial on a particular form of power, namely how the powerful seek to control the past. The ultimate question that this tutorial seeks to answer is: who owns the past? Which history is emphasized and which histories are overlooked? How do modern nation states in different Middle Eastern states cherry-pick the past in order to maintain and develop a national narrative that is suitable to the political and economic powers often at the expense of religious or linguistic minorities.
ARTH 207  (F)  "Out of Africa": Cinematic Por(Be)trayals of a Continent  (DPE)  (WS)
Cross-listings: ARTH 207  AFR 207

Primary Cross-listing

This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa’s ‘fighting men’ to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing “Africa” as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of “Africa” as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of “Africa” within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how “Africa” in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.

Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Art History majors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 207  (D1)  AFR 207  (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of ‘authentic’ representation as they have been applied to representations of “Africa” displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African ‘identity’ has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

ARTH 218  (S)  From the Battlefield to the Hermit’s Cell: Art and Experience in Norman Europe  (WS)
Cross-listings: REL 284  WGSS 284  ARTH 218

Primary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale,
dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 284 (D2) WGSS 284 (D2) ARTH 218 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021

TUT Section: RT1 TBA Peter D. Low

ARTH 301 (F) Methods of Art History (WS)

This course on the methods and historiography of art history offers art-history majors an overview of the discipline since the late 18th century. The course surveys influential definitions of the discipline, the evolving tasks it has set itself, and the methods it has developed for implementing and executing them. Works of art will inevitably enter into our discussions, but the main objects of study will be texts about art as well as texts about methods for an historical study of art. Topics include: style and periodization; iconography, narratology, and phenomenology; the social functions of images and the social history of art; the materiality of art; race, gender, and sexuality; the global scope of art and art history.

Class Format: In the fall of 2020, this course will be taught in a mixed, tutorial-and-discussion format. Students will meet in tutorial pairs to discuss their papers once per week, and will meet all together once per week to discuss the context and background of the assigned readings. Meetings of the entire class will be online and synchronous; meetings of individual tutorial groups will be either online or in person, depending on circumstances. Museum visits are possible depending on circumstances.

Requirements/Evaluation: six 1,000-word analytical essays plus one 2,000-word revision of an earlier paper. Participation in class discussion. Attendance.

Prerequisites: any prior ARTH course (one or more 100-level ARTH course[s] recommended) or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: The course is limited to art-history majors (and required of them). If the course is over-enrolled, preference will be given to senior art-history majors, then juniors. Second-year students planning to major in art history can enroll with permission.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Unit Notes: Satisfies the ARTH 301 requirement for the art-history major. Will satisfy the methods/junior seminar requirement for the history/studio major, but students wishing to do so must have permission of instructor to enroll.
Distributions: (D1) (WS)

Writing Skills Notes: Students submit one 1,000-word essay every other week, for a total of six short essays. In addition, they revise one of the short papers into a 2,000 writing project at the end of term. The purpose of the essays is to analyze the arguments and rhetoric of influential art-historical scholarship and criticism. The subject of the course, then, is how to write as an art historian. We discuss not only the content of the essays we read and write but also the form, both in class and in office hours.

SEM Section: R1    TR 11:30 am - 12:45 pm     Guy M. Hedreen

ARTH 310  (S) An American Family and “Reality” Television  (WS)

Cross-listings: ARTH 310  WGSS 312  AMST 333

Primary Cross-listing

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called “Reality TV.” In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the “American dream.” Documenting the family’s life over the course of eight months, the series chronicled the dissolution of the Lounds’ marriage and broadcast the “coming out” of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program’s historical reception, and analyze its influence on broadcast and film media, particularly on “reality” television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Class Format: Remote seminar. The course will feature synchronous online class meetings.

Requirements/Evaluation: class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: junior Art majors, followed by senior majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

ARTH 331  (S) Michelangelo: Self and Sexuality  (WS)

Cross-listings: ARTH 331  WGSS 335

Primary Cross-listing

Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment
was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice—from painting to poetry—wrestles with them in countless, fascinating ways. Students’ writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashioning, artist and patron, past and present.

Class Format: Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

Requirements/Evaluation: Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation

Prerequisites: Any ARTH course

Enrollment Limit: 10

Enrollment Preferences: ARTH majors and WGSS concentrators (or sophomores intending to pursue the ARTH major or WGSS concentration)

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 420 (F) Architecture and Sustainability in a Global World (WS)

Cross-listings: ARTH 420 GBST 420 ENVI 420

Primary Cross-listing

What does it mean to create a sustainable built environment? What do such environments look like? Do they look the same for different people across different times and spaces? This course takes these questions as starting points in exploring the concept of architectural sustainability, defined as "minimizing the negative impact of built form on the surrounding landscape," and how this concept can be interpreted not only from an environmental point of view, but from cultural, political, and social perspectives as well. Over the course of the class, students will explore different conceptualizations of sustainability and how these conceptualizations take form in built environments in response to the cultural identities, political agendas, social norms, gender roles, and religious values circulating in society at any given moment. In recognizing the relationship between the way things are constructed (technique of assembly, technology, materials, process) and the deeper meanings behind the structural languages deployed, students will come to understand sustainability as a fundamentally context-specific ideal, and its manifestation within the architectural environment as a mode of producing dialogues about the anticipated futures of both cultural and architectural worlds.

Class Format: This course will be taught in a hybrid mode, with both online (lecture) and in-person (discussion) elements.

Requirements/Evaluation: weekly reading discussion question posts on GLOW, leading class discussions, and a final project/paper (15-20 pages) with presentation

Prerequisites: none, although a course in art/architectural history or environmental studies would be advantageous

Enrollment Limit: 12

Enrollment Preferences: Art History majors, Environmental Studies majors, History and Studio majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 420 (D1) GBST 420 (D2) ENVI 420 (D1)

Writing Skills Notes: This course develops writing proficiency using a series of sequenced assignments that culminate with the formation of a well-articulated, compelling final project. Students will receive extensive feedback on these assignments via a progression-oriented evaluative system that involves both instructor and peer feedback, and will take part in a writing seminar towards gaining the necessary tools for drafting work, formulating ideas, organizing sections, and crafting an abstract.
ARTH 462  (F)  Art of California: Pacific Standard Time  (DPE) (WS)

Cross-listings:  ARTH 462  AMST 462  ARTH 562  LATS 462

Primary Cross-listing

In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation: Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: senior Art major and senior Latina/o Studies concentrators

Expected Class Size: 12

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 462 (D1) AMST 462 (D2) ARTH 562 (D1) LATS 462 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

ARTH 537  (F)  HIV + AIDS in Film and Video  (DPE) (WS)

Spanning activist works, experimental film, Hollywood dramas and documentary, this course examines the role of moving images in the global AIDS crisis, its aftermath, and its ongoing aftershocks. The AIDS crisis of the 1980s and 1990s was, in the words of Larry Kramer, a 'plague' of epic proportions, with an entire generation obliterated before it could reach maturity. And yet, the plague years also spawned a remarkable amount of creative and activist image-making aimed at fighting, mourning, and grappling with AIDS. Now, we find ourselves in another pivotal moment: while the past decade has provoked a new wave of AIDS historiography, the COVID-19 pandemic has caused AIDS to reverberate with even greater force.

Together, we will ask difficult and probing questions about this phenomenon called the 'AIDS epidemic,' examining the role of art in frontline activism, the ethics of AIDS historiography, mainstream visions of the AIDS body, and the need for a diversity of AIDS narratives. This seminar-style course will combine weekly screenings with readings, short writing assignments, student-led discussion, and a final research project of the student's design. In order to facilitate robust discussions and maximize student and faculty safety, the majority of this course will occur online. It will contain some in-person experiences when possible.

Class Format: This course will be largely conducted online, in order to facilitate robust discussions and maximize student and faculty safety. It will contain some in-person experiences when possible.
**Requirements/Evaluation:** Students will be evaluated according to the following criteria: weekly attendance, readings and participation in seminar discussion; leading class discussion once during the semester; 3 short response papers; one paper of 20+ pages of original student research.

**Prerequisites:** MA student, Art History or Studio Art major, or instructor permission

**Enrollment Limit:** 10

**Enrollment Preferences:** MA students first, followed by Art History and Studio Art majors

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will be required to conduct regular writing assignments which will culminate in a graduate-level research paper.

**Difference, Power, and Equity Notes:** This course explores an epidemic that had devastating effects on LGBTQ+ people, and has disproportionately affected communities of color. Questions of difference, power, and equity are absolutely central to the course.

---

**ARTH 538 (F) Realms of Earth and Sky: Indian Painting, ca. 600-1857 (WS)**

On the basis of technique, Indian painting forms a continuum from the beginning of the first millennium down to the mid-nineteenth century: an outline in ink filled with flat, opaque colors which are burnished between each layer to give them opacity. In its media, its subject matter, regional variation, range of patronage, and artistic virtuosity, it displays startling diversity. From the northern Himalayan hills to Mysore in the south, artists, often working in family workshops for royalty, priests and wealthy merchants, have adorned caves and temples, illustrated books, and created lavish albums with themes ranging from the sacred to the secular. The study of Indian painting itself is a vast, evolving body of literature that continues to oscillate between discussions of artistic style and a concentration on content and context. The aim of this seminar is twofold: to outline the development of Indian painting historically; and to understand the political, social and religious circumstances that produced some of the greatest masterworks in Indian art. How was Indian painting used? Who were the patrons? How does the art form reflect the particular cultural values of its time? As an analytic framework, the seminar will consider Indian miniature painting both in light of primary literary sources as well as through current scholarship.

**Requirements/Evaluation:** Class participation. Short weekly responses. Final 15- to 20-page paper to be developed with the instructor throughout the semester.

**Prerequisites:** none, open to all students

**Enrollment Limit:** 19

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Students will submit short written assignments weekly. They will also be required to submit a final paper which they will develop throughout the semester. Students will receive comments and suggestions from the instructor on their writing skills.

**ASST 117 (S) Bombay/Mumbai: Making of a Modern Metropolis (WS)**

**Cross-listings:** GBST 117 HIST 117 ASST 117

**Secondary Cross-listing**

Bombay or Mumbai is India's foremost urban center and is well known today as a truly global city. It is the heart of India's commercial life comparable in vibrancy and multiculturalism with the world's emerging cities like Shanghai, Hong Kong and Sao Paulo. What are the historical elements that contributed to the making of India's most modern and global metropolis? What are the antecedents of the modernity, the vibrant culture, dark underbelly and economic diversity that characterize Bombay today? What does the history of Bombay tell us about modernity in India and the emerging countries of the third world in general? This seminar will help students to answer these questions through historical materials on Bombay as well a wide range of multimedia sources including cinema, photography and literature. With a focus on the 19th and 20th centuries, we will explore themes like the commercial culture of a colonial port city, the modern public sphere, theatre and film, labor migration, public health and prostitution to understand what went into the making of this modern metropolis. The primary objective of this course is to introduce students to a wide range of historical sources and ways of interpreting them. The other objective is facilitating their understanding of the history of modern India through the history of its most important city.

**Requirements/Evaluation:** assessment will be based on class participation and weekly written responses to readings (2 pages), 2-3 short papers (4-5 pages), leading to an oral presentation and final paper (10-12 pages). All writing assignments are structured to build up the final paper.

**Prerequisites:** First years and sophomores only

**Enrollment Limit:** 12

**Enrollment Preferences:** first-years, and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 8-10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 117 (D2) HIST 117 (D2) ASST 117 (D2)
Writing Skills Notes: Weekly reading response (2 pages), several short papers leading to a final research paper. Peer reviews and instructor feedback of all written work to improve writing skills and opportunities to write several drafts.

Spring 2021

SEM Section: R1  TR 11:30 am - 12:45 pm  Aparna Kapadia

ASST 127 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127  CHIN 427  ASST 127

Secondary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaitang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.
ASST 269  (F)  Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE) (WS)

Cross-listings:  REL 269  STS 269  ASST 269  ANTH 269

Secondary Cross-listing
This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutschow@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites:  A prior class or some experience with meditation is recommended

Enrollment Limit:  10

Enrollment Preferences:  ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269  (D2)  STS 269  (D2)  ASST 269  (D2)  ANTH 269  (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.
we will primarily focus on India’s role in the Indian Ocean roughly from the rise of Islam in the seventh century CE through the expansion of various European communities in the region and the subsequent rise of the global economy and colonialism in the nineteenth century. Rather than following a
strict temporal chronology we will concentrate on themes such as travel and adventure; trade and exchange; trust and friendship; religion and society; pilgrimage; piracy; the culture of port cities; and food across time.

Requirements/Evaluation: class participation and weekly responses to readings, 4 short papers (4-5 pages), an oral presentation and final research (10 pages) paper based on any one of the 4 papers written during the course.

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: history majors and students with demonstrable interest in maritime/Indian Ocean history

Expected Class Size: 10-12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 391 (D2) ASST 391 (D2) HIST 391 (D2)

Writing Skills Notes: Students will write 4 short papers (4-5 pages) each and receive detailed feedback from the instructor. One of the four papers will become the basis of a final research paper (10-12 pages) on which each student will work closely with the instructor and receive feedback on improving research and writing skills.

Difference, Power, and Equity Notes: This course questions the conventional view that global interconnectedness was the result of Europe’s discovery of ‘new worlds’. Instead, it centers non-European actors in facilitating global networks before colonialism. Throughout, students will critically engage questions of how Asian and African players forged and shaped global connections across the Indian Ocean arena and examine the ways in which these contributions have been overshadowed in traditional historiography.

Spring 2021

SEM Section: R1 TR 8:30 pm - 9:45 pm Aparna Kapadia

ASST 412 (F) Gandhi: History, Ideas and Legacy (WS)

Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

Secondary Cross-listing

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi’s own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

**Writing Skills Notes:** As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

---

**ASTR 240 (F) Great Astronomers and Their Original Publications** (WS)

**Cross-listings:** ASTR 240 STS 240 HSCI 240 LEAD 240

**Primary Cross-listing**

In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; *Diálogo*, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (*Miscellanea curiosa*, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (*Atlas Coelestis*, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the *Gutenberg Bible* (c. 1450) and a Shakespeare *First Folio* (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported *Sidereus Nuncius*, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

**Class Format:** Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

**Requirements/Evaluation:** class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** if overenrolled, preference by written paragraph of explanation of why student wants to take the course

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASTR 240 (D3) STS 240 (D2) HSCI 240 (D3) LEAD 240 (D3)

**Writing Skills Notes:** Comments on submitted papers will aid in writing skills

**CON Section: H3** Cancelled
ASTR 317 (S) Current topics in Planetary Geology (WS)

Cross-listings: GEOS 317 ASTR 317

Secondary Cross-listing

We will look in detail at geological processes on rocky and icy bodies of the Solar System. Each week will have a specific theme, and students will read a series of scientific articles on that topic. The readings will form the basis for writing and discussion. Areas to be investigated may include ice ages on Mars, the origin of Earth's moon, tectonics on Venus, chaos terrain on Europa, geysers on Enceladus, cryovolcanism on Triton, methane lakes on Titan, the viability of mining in the Asteroid Belt, and the prospects for life on other worlds. This course is in the Solid Earth group for the Geosciences major.

Class Format: Students meet with the professor weekly, in pairs, with one student writing each week and the other critiquing; and both engaging in detailed discussion of the readings.

Requirements/Evaluation: Evaluation is based on written papers, critiques, and discussion.

Prerequisites: GEOS/ASTR 217 (Planets and Moons); OR any two courses at 200-level or higher in Geosciences and/or Astronomy; OR permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Geosciences and Astronomy majors and prospective majors

Expected Class Size: 6

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 317 (D3) ASTR 317 (D3)

Writing Skills Notes: This tutorial-style course focuses on writing, with 6 papers (5-7 pages) written bi-weekly throughout the semester, and partner critiques in alternate weeks.

Spring 2021

SEM Section: HT1 Cancelled

BIMO 401 (S) Topics in Biochemistry and Molecular Biology (WS)

This tutorial course involves critical reading, analysis, and discussion of papers from the current biochemistry and molecular biology literature. Specific topics vary from year to year but are chosen to illustrate the importance of a wide range of both biological and chemical approaches to addressing important questions in the biochemical and molecular biological fields. To facilitate discussion, students will prepare written critiques analyzing the data and conclusions of the chosen literature.

Class Format: two hours per week

Requirements/Evaluation: biweekly papers, tutorial presentation and discussion, and a final paper

Prerequisites: BIOL 202 and BIMO 321

Enrollment Limit: 12

Enrollment Preferences: those completing the BIMO program; open to others with permission of instructor

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

Writing Skills Notes: The critical analysis of published papers in the biochem literature, as expressed in clear and succinct writing, is a key learning goal for the course. The students write biweekly literature critiques (typically 5-6 pages long) throughout the semester. While the specific topic each week differs, the parameters of the assignment are the same each time, allowing students to progressively improve their writing. I provide extensive written feedback on each critique, returned before the next due date.

Spring 2021
BIOL 219  (F) Dangerous Exposures: Environment, Immunity, and Infectious Disease  (WS)

Global reports of emerging infectious diseases and old diseases with new pathogenic properties incite fears for personal safety as well as national security. The specter of a contagious pandemic has captured the public imagination through the mass news media, movies, and even popular online and board games. In this tutorial course, we will explore the ecology and evolution of several recently emergent diseases such as Ebola hemorrhagic fever, dengue, and AIDS. Topics to be considered include transmission dynamics, epidemiological modeling of vaccination strategies, and wildlife reservoirs that contribute to human virus exposure. We will examine progress in preventing the parasitic disease malaria and why such diseases have proven so refractory. We will also discuss the science behind the recent development of the vaccine against the human papillomavirus, which causes cervical cancer, and the intriguing and highly unusual transmissible cancers in dogs and Tasmanian devils. Finally, we will think about the contributions of inadequate diagnostic capacities world-wide and broader issues of resource shortages in driving the global emergence of drug resistance in tuberculosis and other diseases. One common theme in each of these case studies will be the interplay between the host immune response and the evolution of the pathogen. Although the primary focus of the course is on biology rather than policy, each week's readings will have implications for public health and/or conservation biology.

Requirements/Evaluation: six 4- to 5-page papers; tutorial presentations, and the student's progress towards intellectual independence and creativity as a presenter and a respondent

Prerequisites: BIOL 101 and 102

Enrollment Limit: 10

Enrollment Preferences: sophomores who have taken BIOL 202, students interested in public health

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (WS)

Writing Skills Notes: We work deliberately throughout the semester on writing skills including construction of a written argument and logical flow as well as mechanics. Students write six 4-5-page papers, alternating weekly between papers and written critiques of their partner's writing. Based on substantive feedback from the instructor as well as their partner, students revise and resubmit two of their six papers.

Fall 2020

TUT Section: HT1   TBA   Lois M. Banta

CHIN 427  (S) Spring Grass: A Peek into Inequality in China  (DPE)  (WS)

Cross-listings: WGSS 127  CHIN 427  ASST 127

Primary Cross-listing

*Spring Grass (Chuncao)* is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (*gaige kaifang*) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (*nannü bu pingdeng*) and the urban/rural-gap (*chengxiang chabie*) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is
conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of “inequality,” including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Spring 2021
TUT Section: RT1 TBA Li Yu

COMP 109 (F) Spies Like Us: Espionage, Surveillance, and Protest in German Cinema and Literature (WS)

Cross-listings: GERM 110 COMP 109

Secondary Cross-listing

This First Year tutorial, available in English, investigates the mutual mistrust between the two Germanies in the Cold War period up until the peaceful popular protests that brought down the Berlin Wall. The political tensions between communist East Germany, the German Democratic Republic (GDR) and its capitalist Western counterpart, the Federal Republic (FRG), created a fascinating culture of governmental spying, but also led to aggravated periods of state surveillance of its own citizens. How were families affected across generations by these divisive politics, including the two states' differing treatment of the Nazi legacy? What was the involvement of the KGB and the CIA? How did East German intelligence try to destabilize the West from inside? Which locations in Berlin served as centers for spying, given that the city's terrain is quite flat and exposed? High-profile cases of conflicting loyalties include the Guillaume spy affair that brought down Willy Brandt as Chancellor of the FRG in 1974, and the Brasch family in the GDR, where the father, a communist true believer, turned his three sons over to the Stasi for their dissident activism and engaged art. We will debate filmic treatments of the recruitment of spies as double agents (Coded Message for the Boss, 1979), the chilling effects of police surveillance during the Baader-Meinhof radical left terrorist attacks (The Lost Honor of Katharina Blum, 1975; Knife in the Head, 1978) the afterlives of former terrorists who were offered new identities as 'ordinary' East Germans (The legend of Rita, 2000), to the effects of the Stasi files becoming accessible to their victims after the fall of the wall (Es ist nicht vorbei, Anderson). We will also discuss popular film representations of spying in Lives of Others (2007) and Bridge of Spies (2015), and selected episodes from the popular TV-series Germany 83 and 86 (2018). Literature will likely include: Thomas Brasch, The Sons Die Before the Fathers (1977), Christa Wolf, What Remains (1993), Monika Maron, Flight of Ashes (1981), Heinrich Böll, The Lost Honour of Katharina Blum (1974). All texts in English, films have English subtitles.

Class Format: Students in this course will be separated into small tutorial groups of 3 students, in order to promote intensive exchange of ideas. In a typical week, the students in each group will: (1) study a substantial "text" or film; (2) watch mini-lectures or power points by the instructor to
supplement the assigned primary texts.

**Requirements/Evaluation:** 5 5-page tutorial papers and 2-page responses (in English)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** First Years, in groups of 3 students.

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GERM 110 (D1) COMP 109 (D1)

**Writing Skills Notes:** This tutorial will teach students to analyze visual media and fiction in German Studies in combination with secondary sources from a variety of related disciplines (History, Political Science, journalism). The toggling between these different types of sources promotes critical thinking skills.

Fall 2020

TUT Section: RT1 TBA Helga Druxes

**COMP 111 (F)(S) The Nature of Narrative (WS)**

**Cross-listings:** ENGL 120 COMP 111

**Primary Cross-listing**

Narrative--storytelling--is a fundamental human activity. Narratives provide us with maps of how the world does or should or might work, and we make sense of our own experiences through the narratives we construct ourselves. This course examines the nature and workings of narrative using texts from a wide range of literary traditions, media, and genres. Readings may include Western and Asian classics (Homerian epic, *The Tale of Genji*, medieval Chinese narrative), novelistic fiction ranging from nineteenth-century realism to postmodern experimentation (Tolstoy, Garcia-Marquez, Toni Morrison), and visual literature from film and drama to graphic memoir (Mizoguchi Kenji, David Mamet, Art Spiegelman, Alison Bechdel). We will also read some short works of literary theory from around the world to help us broaden our idea of what literature can be and do. All readings in English.

**Class Format:** The spring section of this class will have a hybrid format to the extent possible given conditions on campus and student enrollment. Off-campus students must be able to Zoom in during the scheduled class times.

**Requirements/Evaluation:** Regular attendance and participation in class; short and mid-length writing assignments spaced throughout the semester; revision of selected assignments after receiving instructor feedback.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Students considering a major in Comparative Literature

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 120 (D1) COMP 111 (D1)

**Writing Skills Notes:** Multiple writing assignments that build upon each other, including drafts and revisions, with substantial individualized feedback on writing from the instructor.

SEM Section: R3 WF 1:30 pm - 2:45 pm Sarah M. Allen

Spring 2021
COMP 117 (S) Introduction to Cultural Theory (WS)

Cross-listings: ENGL 117 COMP 117

Secondary Cross-listing

This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study "culture," what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word "culture" means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Laura Mulvey, but we will also, in order to put our new ideas to the test, watch several films (mostly of the class's choosing) and listen to a lot of rock and roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.

Class Format: discussion

Requirements/Evaluation: four formal writing assignments totaling 20 pages (three full essays + one lead-in assignment), informal writing twice weekly, class attendance and participation

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 117 (D1) COMP 117 (D1)

Writing Skills Notes: Students will write three five- to seven-page papers, on which I will provide extensive feedback. Before writing their first papers, students will submit theses and introductions, which I will help them refine. We will hold three extra writing sessions, to discuss how best to organize arguments. Students will write informally before every class.

Spring 2021

SEM Section: R1 TF 1:30 pm - 2:45 pm Christian Thorne

COMP 215 (S) Cults of Personality (WS)

Cross-listings: COMP 215 RUSS 219

Secondary Cross-listing

First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase "cult of personality" was formulated to discredit the hero-worship that accompanied Joseph Stalin's iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China's Mao Zedong, Iran's Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. All readings will be in English, and all films will have English subtitles.

Class Format: remote

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none
Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 215 (D1) RUSS 219 (D1)

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

Spring 2021

TUT Section: RT1 TBA Julie A. Cassiday

COMP 230 (F) The Renaissance in England and the European Continent: Self and World (DPE) (WS)

Cross-listings: ENGL 228 COMP 230

Secondary Cross-listing

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion.

Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Class Format: This course will be conducted synchronously online.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 14

Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 228 (D1) COMP 230 (D1)

Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.
COMP 234 (S) Saharan Imaginations (DPE) (WS)
Cross-listings: ARAB 209  ENVI 208  COMP 234

Secondary Cross-listing

Literary representations of the Sahara challenge facile assumptions about this undertheorized place. Approached mainly through the prism of adventure and exploitation, the desert is portrayed as a dead space. However, literature and film furnish a unique opportunity to engage critically with the ways Maghrebi and Middle Eastern culture production represents deserts and raises issues of fundamental importance to these societies. This course offers students the opportunity to engage in close readings of novels and film through the theme of the Sahara and Saharan space. Reading through the politics of human mobility and life in the desert will help students to understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the Saharan sub-genre of African and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to think critically about the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature.

Deconstructing reductive Saharanisms, students will see the desert for what it is, rather than what it is portrayed to be or stand for.

Class Format: hybrid
Requirements/Evaluation: active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: Students are admitted into the course on a first-come-first-serve basis. If the course is over-enrolled, preference will be given to Arabic Studies and Comparative Literature majors and certificates.
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209 (D1) ENVI 208 (D1) COMP 234 (D1)

Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.

Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

Spring 2021
SEM Section: H1  MW 10:00 am - 11:15 am  Brahim El Guabli

COMP 244 (S) Black Mediterranean (DPE) (WS)
Cross-listings: GBST 244  COMP 244

Primary Cross-listing

Though European border management today seeks to limit and control movement, the Mediterranean region is a historical site of mediation between cultural differences and religious views. This course centers primarily on the works of migrant intellectuals and artists from North Africa and the Middle East, who have emerged from the Mediterranean region to become a significant part of the new voice of Europe. Borrowing from Deleuze and Guattari's definition of "minor literature" as literature that a "minority constructs within a major language" and in which "language is affected with a high coefficient of deterritorialization," we explore the political, cultural and anthropological effects of such literature in today's European public discourse. Today the Mediterranean has become a graveyard where black and brown bodies transit a hostile and deadly passage. Therefore, a centerpiece of this course will be an examination of the racist discourse in Europe in the light of the Black Lives Matter's quest for decolonizing knowledge. In this interdisciplinary course, we read both literary works (Ali Farah, Khatibi, Lakhous, Scego), and critical theory (Cassano, Chambers, Fanon, Hall, Theo Goldberg); we also analyze films, documentaries, podcasts, exhibits and museums of colonialism in Europe.
Class Format: This will be an hybrid course. Students will meet twice a week with me.

Requirements/Evaluation: weekly writing assignments, midterm and final exams, final paper, oral presentation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 244 (D2) COMP 244 (D1)

Writing Skills Notes: This course is designed to be writing-intensive, as it requires weekly response papers, midterm, and final papers, and blog discussions.

Difference, Power, and Equity Notes: Within the theoretical framework of postcolonial studies, this course examines themes such as: race; Europe and its postcolonial legacy; power imbalances in the current European policies of migration; the urban space of Rome as site of conflictual representations of center/periphery.

Spring 2021

SEM Section: H1 TF 1:30 pm - 2:45 pm Michele Monserrati

COMP 251 (F) Dolls, Puppets and Automatons (WS)

Cross-listings: GERM 251 COMP 251

Primary Cross-listing

Since their origin, humans have always made anthropomorphic representations, first in the form of idols, fetishes, or statues for religious worship, later in the shape of puppets, dolls, or automatons for their entertainment qualities. And yet, these objects have always played multiple roles in human society; modernity in particular shows a great interest paired with great ambivalence towards dolls, puppets, and automatons, regarded both as uncanny Doppelgänger or threatening machines. In order to comprehend the scope of our modern fascination with these figures, we will explore their haunting presence in literary texts by ETA Hoffmann, Achim von Arnim, Theodor Storm, Felisberto Hernandez, discuss theoretical texts by Sigmund Freud and Heinrich von Kleist, look at paintings by Oskar Kokoschka and at photographs by Hans Bellmer & Cindy Sherman, watch a ballet by Andreas Heise and films by Fritz Lang and Alex Garland, and watch fashion shows by Alexander McQueen and Jean-Paul Gaultier. Conducted in English.

Class Format: This seminar will be taught online.

Requirements/Evaluation: active class participation, oral presentations on the reading materials, three 5- to 8-page papers

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors, or those considering a major in Comparative Literature

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 251 (D1) COMP 251 (D1)

Writing Skills Notes: Each student will write three 5- to 8-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write two 3-4 page papers on which I will provide written feedback regarding grammar, style, and textual analysis.

Fall 2020

SEM Section: R1 MW 11:45 am - 1:00 pm Christophe A. Kone
In a reference to the story of Babel, Hungarian psychoanalyst Sandor Ferenczi (1873-1933) described in poignant detail the operation of sexual abuse in terms of a profound disjunction on the level of language, in the broadest sense—a problem of translation, so to speak. Indeed, Ferenczi dedicated his entire life to learning the language of his patients' trauma in all its nuances, making himself vulnerable in multiple ways in the process. D. W. Winnicott (1896-1971), too, immersed himself in the lives of his patients, many of them children or adults who had grown up experiencing the death and displacement of wartime England. The theories of these two psychoanalysts, much less known in the humanities than Freud, Lacan, or Klein, dovetail in significant ways with the workings of literature. In this course, we will investigate the ways in which the spaces, configurations, and dynamics of literature from several national traditions align with Ferenczi's explorations of the "confusion of tongues," as well as Winnicott's interest in the "intermediate area of experiencing, to which interior reality and external life both contribute." Texts may include, in addition to articles by Ferenczi and Winnicott, work by Kafka, Kincaid, Baldwin, Bachmann, Bechdel, and others. Modified tutorial format, with groups of three students meeting weekly with the instructor.

Requirements/Evaluation: Requirements: Active participation, four 5-page papers, two portfolio introductions, four 1-2 page responses, one final project. Evaluation: Tutorial papers will receive extensive comments, but no grade; the portfolios and the final project will be graded. Responses will not be evaluated by the instructor, but instead will function well or less well in the context of the discussion. The final grade will be determined by the overall trajectory of the student's learning.

Prerequisites: one college literature course

Enrollment Limit: 18

Enrollment Preferences: majors or prospective majors in Comparative Literature

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Modified tutorial (3 on 1). Students will write four five-page papers, grouped into two portfolios, and will prepare 1-2-page portfolio introductions. They will also produce a final project that is a synthesis of their ideas throughout the semester. Finally, they will be required to write formal responses to their partners' papers.

Spring 2021
SEM Section: H1 TBA Gail M. Newman

"It's so Kafkaesque!" We love to use the most famous Austro-Hungarian-Czech-Jewish writer of all time to characterize puzzling and dispiriting situations. But close examination of Franz Kafka's work and life reveals a multi-dimensional world that goes far beyond the cliché. Jewish in an increasingly anti-Semitic environment, German-speaking surrounded by Czech-speakers, deeply alone in a family that didn't understand him, Kafka produced texts that simultaneously demand and refuse to be interpreted. In this tutorial we will begin with intensive readings of selected short stories and parables, then move on to an exploration of the Kafka's own words from diaries and letters, as well as secondary sources. The course will conclude with discussions of how Kafka's texts and their contexts might relate to contemporary conditions and/or to students' own lives and thoughts. This will be a modified tutorial, with five groups of three students apiece. Students may take the tutorial in either German or English (or a combination of the two), and groups will be formed accordingly.

Class Format: The class will be divided into groups of 3. At each weekly meeting, one of the 3 will present a 5-page paper, another will present a formal response, and the third will participate actively in discussion. Students will incorporate at least one of their papers into a final project that links their discussions of Kafka to their own interests and/or to contemporary issues. Students can take the course in German or English (or a combination of the two), and groups will be formed accordingly.

Requirements/Evaluation: Three 5-page papers, three 1-2 page responses, one final project, discussion leading. Evaluation: Tutorial papers will receive extensive comments, but no grade; the instructor will meet with individual students at least twice during the semester to discuss how things are going for them. Responses will not be evaluated by the instructor, but instead will function well or less well in the context of the discussion. The final project will receive a grade, and the final grade will be determined by the overall trajectory of the student's learning.
**Prerequisites:** For German speakers: GERM 202 or the equivalent preferred, though students with less experience should contact the instructor. For students taking the course in English: one college literature course.

**Enrollment Limit:** 15

**Enrollment Preferences:** German students, majors or potential majors in Comp Lit or German

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 316 (D1) GERM 315 (D1)

**Writing Skills Notes:** The course has a modified tutorial format, with groups of three meeting weekly instead of pairs. Each student will write three 5-page papers plus three 1-2-page responses during the semester, and will prepare a final project. Each paper will receive extensive feedback from the instructor.

*Fall 2020*

SEM Section: H1 TBA Gail M. Newman

**COMP 343 (S) Shakespeare on Page, Stage and Screen: Text to Performance** (WS)

**Cross-listings:** THEA 340 ENGL 345 COMP 343

**Secondary Cross-listing**

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era's concerns—with matters of gender, sexuality, race, class, or materiality, for instance—against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the text in dramatic performance, such challenges—and opportunities—multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the other extreme, staging the plays with the primary aim of making them "speak to our times" risks revisionary absorption in our own interests. We will focus on six Shakespeare plays, from different genres and periods of his career: *Romeo and Juliet*, *Henry V*, *Twelfth Night*, *Hamlet*, *Antony and Cleopatra*, and *A Midsummer Night's Dream*. Proceeding with each from close reading of the text, we will attend to the demands and opportunities of both interpretation and performance, and assess a range of recent film and stage productions.

**Class Format:** This course will be remote, with occasional smaller tutorial-style sections. If pandemic conditions change significantly, I will move to in-person and/or hybrid meetings as warranted.

**Requirements/Evaluation:** Three papers ranging from 4 to 7 pages; several short reading responses and regular discussion board postings; class participation.

**Prerequisites:** A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

**Enrollment Limit:** 14

**Enrollment Preferences:** Theatre and English majors or prospective majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 340 (D1) ENGL 345 (D1) COMP 343 (D1)

**Writing Skills Notes:** Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive timely comments from the instructor on their writing skills, with suggestions for improvement, and there will be opportunities for revision of submitted papers.

*Spring 2021*

SEM Section: R1 TF 1:30 pm - 2:45 pm James L. Pethica
Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israelite Universelle’s schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews’ departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

Fall 2020

SEM Section: H1  MW 10:00 am - 11:15 am  Brahim El Guabli
Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashelhiyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 369 (D2) HIST 306 (D2) COMP 369 (D1) ARAB 369 (D1)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Spring 2021

SEM Section: R1 MR 1:30 pm - 2:45 pm Amal Eqeiq

DANC 302 (F) Moving Words, Wording Dance (DPE) (WS)

Cross-listings: DANC 302 ENGL 335

Primary Cross-listing

How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this course, we will explore different modes of writing about performance such as fiction, ethnography, and performative writing. The course material will primarily focus on books by artist-scholars of color with the aim of engaging with both the politics of identity in performance and also the politics of texts and archives. Each of the texts we encounter will be paired with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. Besides engaging deeply with the selected monographs, we will practice skills related to writing creatively and analytically about movement-based performance. This class will be held remotely and will include a combination of tutorial-like small group meetings, periodic synchronous sessions, and asynchronous work such as Glow posts or recorded lectures. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) participate in discussions about course materials, (iii) produce creative and critical writing (at least 5-6 pages every two weeks and a final cumulative assignment), and (iv) engage in the revision process of their own work and that of their peers based on feedback from the professor and from writing partners.

Requirements/Evaluation: Each student will write three 5- to 6- page papers on which professor and peers will provide critical feedback on content, style, and grammar. Students will also revise the papers and meet with the professor to discuss the revision process. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Junior and Seniors, and those with specific interest in performance, creative, and analytical writing. Prior dance or performance experience not required.
**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

DANC 302 (D1) ENGL 335 (D1)

**Writing Skills Notes:** Each student will write three 5- to 6-page papers on which the professor and peers will provide critical feedback on content, style, and grammar. After each cycle of feedback, students will submit a revision, and will have an individual meeting with the professor to discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

**Difference, Power, and Equity Notes:** The monographs which anchor the course engage with the politics of identity as it manifests in both staged and in everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So, our inquiry throughout the semester will necessarily include how bodies "make meaning" in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.

---

**Fall 2020**

**SEM Section:** R1  MR 3:15 pm - 4:30 pm  Munjulika Tarah

**ECON 214 (S) The Economics and Ethics of CO2 Offsets (WS)**

**Cross-listings:** POEC 214  ENVI 212  ECON 214

**Primary Cross-listing**

Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

**Class Format:** This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

**Requirements/Evaluation:** a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

**Prerequisites:** ECON 110 or the equivalent, permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

POEC 214 (D2) ENVI 212 (D2) ECON 214 (D2)

**Writing Skills Notes:** Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner’s papers. As the final assignment, each student will revise one of their five papers.

---

**Spring 2021**

**TUT Section:** RT1  TBA  Ralph M. Bradburd

**ECON 374 (F) Poverty and Public Policy (WS)**

Since 1965, the annual poverty rate in the United States has hovered between 10% and 15%, though far more than 15% of Americans experience...
poverty at some point in their lives. In this course, we will study public policies that, explicitly or implicitly, have as a goal improving the well-being of the poor in this country. These policies include social insurance programs such as Unemployment Insurance; safety net programs such as Temporary Assistance to Needy Families, Supplemental Nutrition Assistance Program, Medicaid, and housing assistance; education programs such as Head Start and public education; and parts of the tax code including the Earned Income Tax Credit and Child Tax Credit. We will explore the design and functioning of these programs, focusing on questions economists typically ask when evaluating public policy such as: What are the goals of the policy and does the policy achieve them? Does the design of the policy lead to unintended effects (either good or bad)? What are the trade-offs inherent in the policy’s design? Could the policy be redesigned to achieve its goals more effectively? Through in-depth study of these programs, students will learn how economists bring theoretical models and empirical evidence to bear on important questions of public policy.

Requirements/Evaluation: evaluation will be based on six 5- to 7-page papers and on the quality of the student's oral presentations and commentary on the work of their colleagues

Prerequisites: POEC 253 or ECON 255 or STAT 346 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Economics majors, Political Economy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Each student will write five 5- to 7-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 2- to 3-page critiques of their partners' papers. Midway through the semester, each student will revise one of their first three papers.

Fall 2020

TUT Section: HT1 TBA Lara D. Shore-Sheppard

ENGL 104 (S) Creative Non-fiction (WS)

In this course we will read some of the most prominent practitioners of creative non-fiction--writers like John McPhee, Joan Didion, Malcolm Gladwell, Susan Orlean, Ta-Nehisi Coates, Michael Pollan, Zadie Smith and Oliver Sacks. Students will also write in a variety of non-fiction modes--explainers, profiles, essays, memoirs. We will probe the border between invention and fact and consider the ways that narratives are constructed.

Class Format: workshop

Requirements/Evaluation: four short exercises of three pages or less; three longer assignments of five pages; and a final assignment, which is a revision and expansion of an earlier essay

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Four short exercises of three pages or less; three longer assignments of five pages; and a final assignment, which is a revision and expansion of an earlier essay. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: R1 MR 1:30 pm - 2:45 pm John E. Kleiner

ENGL 110 (F) Ruined America: New American Dystopian Novels (WS)

Dystopian novels have become commonplace. But why now? Why do we seem to be experiencing a heightened anxiety over apocalypse? We will consider two types of dystopian visions--those that present a post-apocalyptic world, and those that conjure up wrecked societies out of current evils. Both types present the world we know now as either lost or full of losers. As we visit a variety of recently imagined American dystopias, we will focus on the ethical dilemmas imposed by prospects of our diminished state: the inevitable issues of class, and the divisions of race and gender; the
prospects of anarchy and political oppression; and the threat of technology to our identity and our environment. The class will also focus on techniques to improve your critical reasoning and analytical skills with the goal of writing interesting and well-argued essays.

Class Format: The course will be taught remotely.

Requirements/Evaluation: Two five-page essays, and one final 10-page essay, as well as several short writing assignments. Active seminar participation.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: First-year students

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: The class is primarily design as a writing intensive. I plan on assigning two five-page essays and one 8-10 page essay. The shorter essays will be graded with comments, and either be peer reviewed, or short passages will be selected for class discussion and revision. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020

SEM Section: R1  MWF 8:15 am - 9:30 am  Alan W. De Gooyer

ENGL 111  (S)  Poetry and Politics  (WS)

"Poets are the unacknowledged legislators of the world" wrote Shelley in his 1821 "Defence of Poetry," countering the widely held view of poetry's airy irrelevance to the material progress of humanity. His claims are echoed a century and a half later in Audre Lorde's "Poetry is Not a Luxury,"; in which she argues that poetry is a vital and essential part of her own political struggle as a Black lesbian feminist. But when W.B. Yeats--himself a very politically involved poet--writes in 1917 that "from the quarrel with others comes rhetoric; from the quarrel with ourselves comes poetry," he implies that poetry would suffer from too much involvement with the "quarrel with others" that is politics. And when W. H. Auden writes in 1939 that "poetry makes nothing happen" he appears to locate poetry's value precisely in its irrelevance to politics as such. This course will focus on the vexed relationship between poetry and political struggle, reading predominantly poetry and poetics (writings about poetry) of the last two centuries in an effort to answer the questions: what can poetry do for politics? what does politics do for (or to) poetry? Is poetry essential to political struggle, or do poetry and politics mix only to the detriment of both, producing, on the one hand, bad poetry, and on the other, mere distractions from the "real" work of politics? The primary goal of the course is to make students better readers and appreciators of poetry, and better readers and writers of argumentative prose.

Class Format: discussion

Requirements/Evaluation: graded essays, final in-class team project

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will write 5 essays total. After each essay, students meet individually with the professor to discuss their writing and plan specific improvements in their writing skills. Two of the essays will be revised after peer-review tutorials.

Spring 2021

SEM Section: R1  TF 3:15 pm - 4:30 pm  Alison A. Case

ENGL 112  (F)  Introduction to Literary Criticism  (WS)

What determines meaning? How we interpret is inevitably inflected by our own priorities and preoccupations, by the contexts in which we read, by literary and other conventions, and by the historical and personal circumstances of a work's composition, as well as deriving from the particular words of a text and from the mutable life of language itself. So how to go about the task of reading literature well, and reading critically? This course will focus
on key introductory methods and critical approaches, and is intended to develop your skills in reading, writing about, discussing and interpreting literary texts. Our readings--mainly short fiction and poetry, along with selected introductory work in critical theory--will invite increased self-consciousness about literary form, the functions of criticism, and the process of reading and interpretation. In the last weeks of the course, we will read longer texts, including at least one play and one novel.

Class Format: Our class meetings will be conducted remotely, but with the seminar group regularly broken into small discussion sections. As the semester progresses, I will consider moving to in-person teaching for the discussion sections as conditions on campus clarify.

Requirements/Evaluation: Three papers rising from 3-6 pages, discussion board postings, and contribution to class discussions.

Prerequisites: None

Enrollment Limit: 14

Enrollment Preferences: First-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Three papers, rising from 3 pages for the first, to 6 pages for the last. Postings on Glow discussion boards for all class meetings. Extensive written feedback on longer papers, plus the option of revision.

Fall 2020

SEM Section: R1  MWF 10:40 am - 11:30 am  James L. Pethica

ENGL 114  (F)  Literary Speakers  (WS)

The general purpose of this course is to develop students' skills as interpreters of poetry and short fiction. Its particular focus is on how--and with what effects--poets create the voices of their poems, and fiction writers create their narrators. We'll consider the ways in which literary speakers inform and entice, persuade and sometimes deceive, their audiences. Readings will include texts from various historical periods, with particular emphasis on the twentieth century (including works by James Joyce, Henry James, Vladimir Nabokov, Robert Frost, Toni Cade Bambara, Raymond Carver, and Seamus Heaney).

Class Format: This course will be taught remotely.

Requirements/Evaluation: 4 or 5 papers, of varying lengths, spaced throughout the term (about 15-20 pages total); detailed feedback will be provided on each paper, along with opportunities for revision. There will be no examinations in this course.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: first-year students and then sophomores who have not yet taken a 100-level course in English

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: There will be 4-5 papers assigned, spaced evenly throughout the term, ranging in length from 1-2 pages to about 5 pages. Detailed feedback will be provided on each paper. There will be opportunities for revisions, and for conferences before and after each paper. At least two classes during the term will be specifically devoted to issues related to paper writing.

Fall 2020

SEM Section: R1  MWF 10:40 am - 11:30 am  Stephen Fix

ENGL 115  (F)  The Literature of Sports  (DPE) (WS)

Cross-listings: AFR 115  ENGL 115

Primary Cross-listing

The ubiquity of the sporting event, the athlete as hero, the athlete as failure, the crowd, the fan, the stadium, and all of the complex conflicts therein have long been the subjects of some of the finest writing in America and throughout the world. Writers have used sport as a context through which to
explore and examine ideas such as beauty, the sublime, tragedy, politics, race, class, sexuality, and gender. This course will focus on poetry, fiction, and non-fiction invested in the public spectacles and private revelations of sport ranging from the poetics of praise to issues of urbanism, colonialism, globalization with readings by Pindar, Rankine, CLR James, Baldwin, Hemingway, Oates, DeLillo, and many others. This course will be taught online in a synchronous format.

**Requirements/Evaluation:** Students will be expected to complete a number of short (5 pages or less) papers during the semester and one longer paper (8-10 pages) at the end of the semester.

**Prerequisites:** None.

**Enrollment Limit:** 14

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course.

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AFR 115 (D2) ENGL 115 (D1)

**Writing Skills Notes:** Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course will focus on literature about sports that addresses, among other topics, civil rights activism, gentrification, race dynamics and race relations both inside and outside of the USA, American exceptionalism, sociocultural construction of emotional displays, mental health, religious conflict, and anti-blackness.

---

**ENGL 116 (F)(S) The Remix: Adaptation and Revelation (WS)**

This course explores the ideas of remaking and adaptation. We examine twentieth and twenty-first-century fiction, poetry, film, and hybrid texts that interact with subject matter stretching from Greek mythology to New World castaway stories to global pandemics. What is the nature of the work they attempt? What is lost and gained in these re-visions? In response to these questions, emphasis is placed on critical reading and writing (and rewriting), as well as on research skills. Works considered throughout the term come from, among others, Jorge Luis Borges, Anne Carson, J.M. Coetzee, Alfonso Cuardn, and Natasha Trethewey.

**Class Format:** remote

**Requirements/Evaluation:** at least 20 pages of writing; GLOW posts; class participation

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Students will do at least 20 pages of writing (4 papers) and will be required to significantly revise one paper. Students will also provide two detailed editorial responses to the work of another student. Significant class time will be spent covering strategies for effective and persuasive academic writing. Throughout the semester, students will receive written feedback from the instructor with specific suggestions for revision and improvement.

---

**Fall 2020**

**SEM Section:** R1  MW 10:00 am - 11:15 am  Rowan Ricardo Phillips

**Spring 2021**

**SEM Section:** R1  MWF 8:15 am - 9:30 am  Ricardo A Wilson
ENGL 117 (S) Introduction to Cultural Theory (WS)

Cross-listings: ENGL 117 COMP 117

Primary Cross-listing

This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study “culture,” what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word “culture” means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Laura Mulvey, but we will also, in order to put our new ideas to the test, watch several films (mostly of the class’s choosing) and listen to a lot of rock and roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.

Class Format: discussion

Requirements/Evaluation: four formal writing assignments totaling 20 pages (three full essays + one lead-in assignment), informal writing twice weekly, class attendance and participation

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 117 (D1) COMP 117 (D1)

Writing Skills Notes: Students will write three five- to seven-page papers, on which I will provide extensive feedback. Before writing their first papers, students will submit theses and introductions, which I will help them refine. We will hold three extra writing sessions, to discuss how best to organize arguments. Students will write informally before every class.

Spring 2021

SEM Section: R1 TF 1:30 pm - 2:45 pm Christian Thorne

ENGL 120 (F)(S) The Nature of Narrative (WS)

Cross-listings: ENGL 120 COMP 111

Secondary Cross-listing

Narrative--storytelling--is a fundamental human activity. Narratives provide us with maps of how the world does or should or might work, and we make sense of our own experiences through the narratives we construct ourselves. This course examines the nature and workings of narrative using texts from a wide range of literary traditions, media, and genres. Readings may include Western and Asian classics (Homerian epic, The Tale of Genji, medieval Chinese narrative), novelistic fiction ranging from nineteenth-century realism to postmodern experimentation (Tolstoy, Garcia-Marquez, Toni Morrison), and visual literature from film and drama to graphic memoir (Mizoguchi Kenji, David Mamet, Art Spiegelman, Alison Bechdel). We will also read some short works of literary theory from around the world to help us broaden our idea of what literature can be and do. All readings in English.

Class Format: The spring section of this class will have a hybrid format to the extent possible given conditions on campus and student enrollment. Off-campus students must be able to Zoom in during the scheduled class times.

Requirements/Evaluation: Regular attendance and participation in class; short and mid-length writing assignments spaced throughout the semester; revision of selected assignments after receiving instructor feedback.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Students considering a major in Comparative Literature

Expected Class Size: 12
ENGL 138 (S) What is a Self? Investigations in Literature, Philosophy, and Psychology  (WS)

The experience of having a self (or a subjective point of view) informs and colors literally everything we think, see, and feel. And yet what, exactly, is a self? Is it the unchanging essence of who we are as individuals? Or is it the historically contingent product of ever-changing cultural and political forces (like the media, gender norms, and ideologies about race, to name just a few)? Or, perhaps, is the belief that we have a self just one big illusion, as the Buddha suggested millennia ago and as modern philosophers and scientists have argued in their own different ways more recently? In this class, we'll explore the deep mystery of human existence that we call "the self" or "subjectivity," looking at various attempts to capture, represent, and explain it (even escape it!). Our investigations will be wide-ranging, looking at examples from literature, philosophy, religion, and psychology. Works we'll study include: Tim O'Brien's *The Things They Carried*, Toni Morrison's *Beloved*, and Ruth Ozeki's *A Tale for the Time Being*, and theoretical writings on the self by Plato, Thoreau, and Jean-Paul Sartre among others. Students who genuinely find the experience of the self puzzling and fascinating will get the most out of this class. Bring an open mind about what it is to have a mind in the first place.

Class Format: This seminar will be taught as a hybrid seminar. About once a week, the entire class will meet as a group (on Zoom, most likely). The rest of the time we'll meet in smaller (7 student) discussion groups (in-person, with remote students participating via Zoom). Details of the format can't be worked out until registration is done, but this is the general plan.

Requirements/Evaluation: four essays totaling 16 pages; active class participation; participation in other short writing assignments (there will be lots of free writing!)

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Four essays (ranging in length from 3-6 pages long) in multiple drafts, adding up to 16 pages total. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: H1  MWF 8:15 am - 9:30 am  Bernard J. Rhie
novels by writers such as Danielle Evans, George Saunders, Kali Fajardo-Anstine, Mary Robison, Karen Russell, ZZ Packer, among others.

**Class Format:** This course will be fully remote and structured as a seminar/tutorial hybrid. We'll mix whole-group meetings with small group sessions of 4 students.

**Requirements/Evaluation:** Active participation, written and verbal comments on published and peer work, five essays (2-5 pages each, most in multiple drafts, including a final radical revision of an essay of the student's choice).

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** First-Year students

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Five essays ranging from 2-5 pages each, most in multiple drafts. Students will receive extensive written comments on their writing skills, with suggestions for improvement, and may choose to meet with the professor individually outside of class as often as they'd like. Students will also comment (verbal and written) on published work and their peers' drafts, operating under the assumption that becoming a better writer involves becoming a better reader.

Spring 2021

SEM Section: R1  MWF 8:15 am - 9:30 am  Karen L. Shepard
SEM Section: R2  MW 10:00 am - 11:15 am  Karen L. Shepard

**ENGL 158** (S) **Expository Writing: Contemporary Linked Stories** (WS)

In this expository writing and writing intensive course, we will read and write about several collections of linked short stories about altered states of mind and body, immigrant experiences, and the magic of everyday life. We will examine linked stories as a form organizing narratives that can stand alone, but that resonate powerfully with one another, sharing themes, settings, and sometimes even characters. Texts may include Denis Johnson's *Jesus' Son*, Jumapa Lahiri's *Interpreter of Maladies*, Junot Diaz's *Drown*, Helen Oyeyeme's *What Is Not Yours Is Not Yours*, Carmen Machado's *Her Body and Other Parties*, Amy Bonnaffons's *The Wrong Heaven*, and Ruth Joffre's *Night Beast*. Class time will be split nearly equally between analysis of the assigned texts and active work with student writing including freewriting, rewriting, sentence and paragraph workshops, peer editing, and writing strategy sessions.

**Class Format:** This course will meet remotely in Spring 2021

**Requirements/Evaluation:** 4 or 5 two-page papers, two with required revisions; 4 five-page papers, all with required revisions; discussion participation; attendance.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** First preference goes to first-year students who have not received a 5 on AP LITERATURE or a 6 or 7 on the IB. Additional rules via English Department Website.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** This course is dedicated to the teaching of college-level expository writing. Students will complete several assignment sequences that build from 2-page response papers to 5-page argumentative essays and that include required revisions at multiple stages. About half the class time will be spent discussing and practicing writing strategies and mechanics.

Spring 2021

SEM Section: R1  TR 6:45 pm - 8:00 pm  Ezra D. Feldman

**ENGL 161** (F) **Metafiction** (WS)

This course will examine ways in which literary works reflect on their status as texts. We'll look at the formal pleasures and puzzles generated by
techniques including frame narratives, recursion, and self-reference, in novels, films, and stories by Vladimir Nabokov, Octavia Butler, Kelly Link, Paul Park, and others. Ultimately, we will use the study of metafiction to focus a larger inquiry into the socializing force of self-consciousness in human development. Note that students will be required to use, as well as interpret, metafictional techniques in their assigned writing.

**Class Format:** online discussion

**Requirements/Evaluation:** several short exercises; four or five papers of increasingly complexity, totaling 22 pages; consistent attendance and participation; a love of reading, and a willingness to reread

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course; sophomores

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Students write five essays with considerable feedback from the instructor.

---

**ENGL 203 (S) The Uses of Shakespeare (WS)**

The plays of Shakespeare have a performance history that is exceptionally rich and strange. In this course we will read several of the plays and look at some of the ways they have been re-imagined and restaged. We will consider the origin of the plays as popular entertainment—competing for an audience against bear-baitings and public executions. We will consider their transformation into canonical texts and their de-canonization in parodies like Dogg’s Hamlet and Drunk Shakespeare. Among the works we will read and watch are Romeo and Juliet, The Tempest, Twelfth Night, Shakespeare Behind Bars, Rosencrantz and Guildenstern, Rosencrantz and Guildenstern are Dead, Rosencrantz and Guildenstern are Undead. Assignments will include analytical essays and creative adaptations in a variety of media.

**Requirements/Evaluation:** four 5-page papers, in-class presentation

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**Enrollment Limit:** 16

**Enrollment Preferences:** first- and second-year students, and English majors who have yet to take a Gateway course

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Gateway

**Distributions:** (D1) (WS)

**Writing Skills Notes:** The instructor will provide frequent written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

---

**ENGL 210 (F) American Modernism (WS)**

Modernism in art lasts from about 1850 until about 1950; this course focuses on American fiction centering on the 1920s. Texts in the course run from the familiar (Cather, Fitzgerald, Hemingway) through the difficult (Faulkner), very difficult (Jean Toomer), and impossible (Gertrude Stein); but we’ll learn how to read them all. Even the familiar texts turn out to be stylistically experimental, and experiments in style, in every case, are linked to novel conceptions of religion (especially Hemingway, Fitzgerald), race or ethnicity (Faulkner, Toomer), and gender (Cather, Hemingway, Stein); most of our texts interrelate all of these concerns. After the Great War, the urgency of questions of form, in relation to questions of identity, is whether the world can be redeemed by the reformation of linguistic and generic conventions.

**Class Format:** The course will be entirely remote by Zoom.
**Requirements/Evaluation:** Four papers totaling about 16 pages. Participation in class discussions will also be a factor in the final grade.

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

**Enrollment Limit:** 14

**Enrollment Preferences:** First-year students and sophomores contemplating the English major; other English majors lacking a Gateway; American Studies majors.

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** There will be four papers, totaling about 16 pages. Papers will be read closely both for content and expression. There will be one course meeting devoted entirely to questions of style and composition.

---

**ENGL 223 (S) Apocalypse Now and Then: Poets Confronting Political Crisis (DPE) (WS)**

In moments of great crisis, common wisdom says to turn to the poets; where, then, do the poets turn? Tracing the history of Poetry of Witness throughout the 20th and 21st Centuries, this course explore various strategies poets have used to write about the end of the world, however that may be defined. We will read contemporary poets (such as Danez Smith, Ilya Kaminsky, Aracelis Girmay, and Solmaz Sharif) alongside 20th Century writers who were responding to the catastrophes of their own times (Paul Celan, Pablo Neruda, Gwendolyn Brooks, Bei Dao, and others). Looking backward to other times when the world seemed to be ending, this course will examine some of the strategies that poets have used to navigate writing about war, genocide, forced migration, gendered violence, climate crisis, and other dystopias. The readings we encounter will span various schools and poetic forms, from documentary poetics, to surrealism and the avant garde, to the Black Arts Movement, to speculative writing, and so on. They will be supplemented with critical texts on the political stakes of writing and reading practices by thinkers like Eve Sedgwick, James Baldwin, and Audre Lorde. This is a course that views creative writing as a valid form of critical inquiry; therefore, students will have opportunities to engage creatively with texts throughout the semester. For the final, students will have the option of either writing an analytical paper or submitting a creative project with a critical introduction.

**Requirements/Evaluation:** Students will write short weekly response papers, a 3-5 page midterm essay and an 8-10 page final essay. Creative options will be available in place of some of these assignments.

**Prerequisites:** None.

**Enrollment Limit:** 16

**Enrollment Preferences:** Freshmen and sophomores intending to pursue more advanced work in English; non-English majors interested in creative writing. Application may be required.

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will produce and receive feedback on short writing assignments throughout the semester. These assignments will build skills for students to write either a final comparative analysis paper or a creative project accompanied by a critical introduction.

**Difference, Power, and Equity Notes:** This course focuses on the interactions between political engagements and poetic craft in the 20th and 21st centuries. As such, we will discuss the interplay between artists and the popular resistance movements of their times, the effects of power on literary forms, and the shaping of minoritarian aesthetics. Readings will center writing by poets from marginalized backgrounds whose work engages race, class, ethnicity, gender, sexuality, religion, and disability.

---

**ENGL 227 (F) Elegies (WS)**

Spring 2021

**SEM Section:** R1  TR 11:30 am - 12:45 pm  Franny Choi
This tutorial explores elegies as a literary genre. In their most familiar form, elegies honor and memorialize the dead. More broadly conceived, the genre includes works lamenting other kinds of loss as well: the loss of a lover, place, country, or cherished version of one's past. We'll consider the special challenges and opportunities of the elegiac voice: how it manages to give public expression to private grief; negotiates problems of tone and perspective; worries about and celebrates the capacity of language to generate hope and consolation; and seeks a kind of solace in the literary effort to evoke, preserve, or rewrite a lost life or an absent past. This course focuses primarily on poetry, English and American, across a broad historical range. We'll first read poems from 1600-1900—including works by Jonson, Milton, Donne, Dryden, Gray, Shelley, Tennyson, and Whitman, and then turn to some of the twentieth-century's great poetic elegists—Owen, Yeats, Auden, Lowell, and Heaney. Finally, we'll consider how the elegiac voice works in fiction, especially in stories by Joyce ("The Dead") and Nabokov ("Spring in Fialta").

Class Format: This course will meet remotely. Tutorial pairs will meet for an hour each week with the instructor, using Zoom or Google Meet.

Requirements/Evaluation: Active participation in tutorial meetings. Students will write a 4- to 5-page paper every other week (five in all), and comment on their partners' papers in alternate weeks

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 10

Enrollment Preferences: Sophomores, but juniors and seniors are also welcome.

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: All tutorials (at least in English) are by definition Writing Skills courses. Students will write either the main paper or a response critique in alternate weeks. Students will also have the opportunity to revise.

Fall 2020

TUT Section: RT1 TBA Stephen Fix

ENGL 228  (F) The Renaissance in England and the European Continent: Self and World  (DPE) (WS)

Cross-listings: ENGL 228 COMP 230

Primary Cross-listing

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Class Format: This course will be conducted synchronously online.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 14

Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
**Writing Skills Notes:** The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

---

**ENGL 253 (S) Feminist Theatres: A Global Perspective** (DPE) (WS)

**Cross-listings:** ENGL 253 WGSS 250 THEA 250

**Secondary Cross-listing**

What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, relational? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaboratives from across the globe, from the late-twentieth century to today. Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Arethusa Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

**Class Format:** For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

**Requirements/Evaluation:** students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner's papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 253 (D1) WGSS 250 (D2) THEA 250 (D1)

**Writing Skills Notes:** As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one's interpretation, and fluidly integrating theory into one's argumentation.

**Difference, Power, and Equity Notes:** This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.
ENGL 257 (F) Personal Essay: Writing Workshop (WS)

The personal essay as a literary form includes a wide range of genres including literary journalism, creative nonfiction and the lyric essay. Note the exclusion of "memoir" or "autobiography" in this list. This course is NOT a course in memoir or autobiography. As we become more mindful of our particular points of view (and of ways to explore and exploit this subjectivity), we will turn the focus outside of ourselves. We will experiment with writing that is extro- rather than introspective. While this is primarily a course in creative writing, we will give much of our time to literary analysis and imitation of exemplary essayists (primarily from the 20th and 21st centuries, and primarily from the U.S.) including James Baldwin, James Agee, Annie Dillard, John McPhee, Joan Didion, Adrian NicholeLeBlanc, Jennifer S. Cheng, Anne Carson, Samuel Delaney, Maggie Nelson, Alexander Chee, Lydia Yuknavitch, Saidiya Hartman and Karen Green.

Class Format: This course will be taught remotely, with a combination of synchronous and asynchronous meetings, assignments, short lectures, and opportunities for engagement (e.g. Zoom, Glow, Panopto & Loom). There will be a single, collective meeting every week in the time slot assigned to this course; as well as a single, weekly meeting of small groups of three students in which creative and critical writing will be shared, critiqued and discussed.

Requirements/Evaluation: Evaluation will be based on class participation, peer editing, writing and revision, with special attention given to the student's engagement in every aspect of the writing process.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: students who have not yet taken Creative Writing courses will be given priority

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: This course will demand weekly writing and critical responses, as well as regular opportunities for revision. Total number of pages written will amount to approximately 35.

Fall 2020

ENGL 302 (S) "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics (DPE) (WS)

Cross-listings: AMST 310 ENGL 302 WGSS 330

Primary Cross-listing

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuyu Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Judith Butler, as we analyze the kinds of performances that brought together feminist poetry and political activism. We spend some time in the archives, analyzing documents from the period, including original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new language to "hear," not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

Class Format: I anticipate that this class will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements.

Requirements/Evaluation: two short analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), short presentation, longer final
researched paper (10-12 pages)

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

**Enrollment Limit:** 16

**Enrollment Preferences:** English, Women's, Gender, and Sexuality Studies, American Studies majors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 310 (D2) ENGL 302 (D1) WGSS 330 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, critical summaries of feminist criticism, two four-to-five-page graded papers, one creative assignment, a longer, final researched paper (10-12 pages), written in stages over a period of several weeks with feedback at each stage. Critical feedback on written assignments a week prior to due date through conferences and Google Docs and on graded assignments within one week.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

Spring 2021

SEM Section: H1 TF 1:30 pm - 2:45 pm Bethany Hicok

**ENGL 323 (S) A Novel Education (WS)**

All novels are conscious of their readers; eighteenth-century novels are obsessed with them. In the century when the genre first flourished, readers are the ultimate objects of novelists' plots. We are addressed, teased, pleaded with, embarrassed, flattered, made fun of, praised, chided, solicited, warned, reminded, rebuked, asked for sympathy, and--always--closely watched. Eighteenth-century novelists--and their narrators--aggressively educate their readers, not only teaching us how to interpret the novel itself, but also demanding that we self-consciously question the powers of mind and habits of heart we bring to the process of interpreting a book, ourselves, and our world. In this tutorial course, we will explore the narrative and rhetorical strategies two of the century's greatest novelists use in creating, shaping, and finally educating their readers. We will focus principally on Henry Fielding's *Tom Jones* (1749) and Laurence Sterne's *Tristram Shandy* (1760-67)--long, brilliantly intricate novels that go about their work in very different ways, but that are equally committed to the project of giving their readers a novel education. We will consider--much more briefly--Fielding's *Joseph Andrews* and Bunyan's *Pilgrim's Progress*. We will also read criticism by such "reader response" theorists as Stanley Fish and Wolfgang Iser, and--in the individualized setting of a tutorial--students will be asked to develop and articulate their own theories of reading by examining critically the ways in which texts affect and educate them. Emphasis will be placed on developing skills not only in reading and interpretation, but also in constructing critical arguments and responding to them in written and oral critiques.

**Class Format:** Remote course. Students will meet with the instructor in pairs for one hour each week

**Requirements/Evaluation:** Students will write and present a 4-to 5-page paper every other week, and comment on their partners' papers in alternate weeks

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** English majors, not open to first-year students

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** All tutorials (at least in English) are by definition Writing Skills courses. Students will write either the main paper or a response critique in alternate weeks. Students will also have the opportunity to revise.
ENGL 335  (F)  Moving Words, Wording Dance  (DPE) (WS)

Cross-listings:  DANC 302  ENGL 335

Secondary Cross-listing

How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this course, we will explore different modes of writing about performance such as fiction, ethnography, and performative writing. The course material will primarily focus on books by artist-scholars of color with the aim of engaging with both the politics of identity in performance and also the politics of texts and archives. Each of the texts we encounter will be paired with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. Besides engaging deeply with the selected monographs, we will practice skills related to writing creatively and analytically about movement-based performance. This class will be held remotely and will include a combination of tutorial-like small group meetings, periodic synchronous sessions, and asynchronous work such as Glow posts or recorded lectures. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) participate in discussions about course materials, (iii) produce creative and critical writing (at least 5-6 pages every two weeks and a final cumulative assignment), and (iv) engage in the revision process of their own work and that of their peers based on feedback from the professor and from writing partners.

Requirements/Evaluation: Each student will write three 5- to 6-page papers on which professor and peers will provide critical feedback on content, style, and grammar. Students will also revise the papers and meet with the professor to discuss the revision process. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences:  Junior and Seniors, and those with specific interest in performance, creative, and analytical writing. Prior dance or performance experience not required.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

DANC 302  (D1)  ENGL 335  (D1)

Writing Skills Notes: Each student will write three 5- to 6-page papers on which the professor and peers will provide critical feedback on content, style, and grammar. After each cycle of feedback, students will submit a revision, and will have an individual meeting with the professor to discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Difference, Power, and Equity Notes: The monographs which anchor the course engage with the politics of identity as it manifests in both staged and in everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So, our inquiry throughout the semester will necessarily include how bodies "make meaning" in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.

Fall 2020

SEM Section: R1  MR 3:15 pm - 4:30 pm  Munjulika  Tarah

ENGL 345  (S)  Shakespeare on Page, Stage and Screen: Text to Performance  (WS)

Cross-listings:  THEA 340  ENGL 345  COMP 343

Secondary Cross-listing

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era's concerns--with matters of gender, sexuality, race, class, or materiality, for instance--against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the text in dramatic performance, such challenges--and opportunities--multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the
other extreme, staging the plays with the primary aim of making them “speak to our times” risks revisionary absorption in our own interests. We will focus on six Shakespeare plays, from different genres and periods of his career: Romeo and Juliet, Henry V, Twelfth Night, Hamlet, Antony and Cleopatra, and A Midsummer Night’s Dream. Proceeding with each from close reading of the text, we will attend to the demands and opportunities of both interpretation and performance, and assess a range of recent film and stage productions.

Class Format: This course will be remote, with occasional smaller tutorial-style sections. If pandemic conditions change significantly, I will move to in-person and/or hybrid meetings as warranted.

Requirements/Evaluation: Three papers ranging from 4 to 7 pages; several short reading responses and regular discussion board postings; class participation.

Prerequisites: A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

Enrollment Limit: 14

Enrollment Preferences: Theatre and English majors or prospective majors

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 340 (D1) ENGL 345 (D1) COMP 343 (D1)

Writing Skills Notes: Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive timely comments from the instructor on their writing skills, with suggestions for improvement, and there will be opportunities for revision of submitted papers.

Spring 2021

SEM Section: R1  TF 1:30 pm - 2:45 pm  James L. Pethica

ENGL 493  (F) Honors Colloquium: English  (WS)
A colloquium for students pursuing critical theses and critical specializations. Students will present and critique their work in progress, and discuss issues particular to researching and structuring a long analytical thesis. We will also discuss the work of a variety of recent critics representing a range of methods of literary study. Satisfactory completion of the course will be required for students to continue on in the honors program. The course will meet synchronously online, sometimes as a full seminar and other times in tutorial-small small groups.

Requirements/Evaluation: participation and individual progress on the thesis project, which will be determined in consultation with each student's honors advisor

Prerequisites: admission to the department Honors program

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will write a 20 page thesis chapter in stages and over multiple drafts. Students will receive from the instructor timely comments on their writing, with suggestions for improvement.

Fall 2020

HON Section: H1  MR 3:15 pm - 4:30 pm  Emily Vasilisuskas

ENVI 208  (S) Saharan Imaginations  (DPE) (WS)

Cross-listings: ARAB 209  ENVI 208  COMP 234

Secondary Cross-listing
Literary representations of the Sahara challenge facile assumptions about this undertheorized place. Approached mainly through the prism of adventure and exploitation, the desert is portrayed as a dead space. However, literature and film furnish a unique opportunity to engage critically with the ways Maghrebi and Middle Eastern culture production represents deserts and raises issues of fundamental importance to these societies. This course offers students the opportunity to engage in close readings of novels and film through the theme of the Sahara and Saharan space. Reading through the politics of human mobility and life in the desert will help students to understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the Saharan sub-genre of African and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to think critically about the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature. Deconstructing reductive Saharanisms, students will see the desert for what it is, rather than what it is portrayed to be or stand for.

Class Format: hybrid

Requirements/Evaluation: active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Students are admitted into the course on a first-come-first-serve basis. If the course is over-enrolled, preference will be given to Arabic Studies and Comparative Literature majors and certificates.

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209 (D1) ENVI 208 (D1) COMP 234 (D1)

Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.

Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

Spring 2021

SEM Section: H1  MW 10:00 am - 11:15 am  Brahim El Guabli

ENVI 212  (S) The Economics and Ethics of CO2 Offsets  (WS)

Cross-listings: POEC 214  ENVI 212  ECON 214

Secondary Cross-listing

Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

Class Format: This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

Requirements/Evaluation: a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

Prerequisites: ECON 110 or the equivalent, permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

Expected Class Size: 10
This course is cross-listed and the prefixes carry the following divisional credit:

POEC 214 (D2) ENVI 212 (D2) ECON 214 (D2)

**Writing Skills Notes:** Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner's papers. As the final assignment, each student will revise one of their five papers.

Spring 2021

TUT Section: RT1   TBA   Ralph M. Bradburd

**ENVI 219 (F) Evolution of and on Volcanic Islands (WS)**

**Cross-listings:** GEOS 220  ENVI 219

**Secondary Cross-listing**

Plate tectonic theory accounts for the vast majority of volcanic islands in ocean basins. They form above mantle plume hot spots (Hawaiian and Galapagos Islands), subduction zones (Aleutian and Indonesian arcs), and mid-ocean ridges (Azores and Ascension Island). Iceland is unusual because it is located above a hot spot and the mid-Atlantic ridge. Each plate tectonic setting produces chemically distinctive magmas, and the lifespan of volcanic islands varies widely. Islands above hot spots may be geographically remote and emergent for only several million years, but be part of a long-lived sequence of islands that persists for over a hundred million years. In contrast, island arc volcanoes belong to long geographically continuous chains of volcanoes, commonly in close proximity to continents. This tutorial explores the geologic evolution and lifespan of volcanic islands from formation to submergence, and searches for correlations between these characteristics and plate tectonic setting. We will also consider how geographic isolation, areal extent, lifespan, and climate affect biological evolution on volcanic islands. There will be weekly tutorial meetings with pairs of students, and students will alternate writing papers on assigned topics. This course is in the Solid Earth group for the Geosciences major.

**Class Format:** Remote, one-hour weekly meetings with tutorial partner and instructor

**Requirements/Evaluation:** five 5-page papers and critiques of partner's papers

**Prerequisites:** 100-level GEOS course or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Geosciences majors and students with a demonstrated interest in geosciences

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 220 (D3) ENVI 219 (D3)

**Writing Skills Notes:** Students will write five 5-page papers and will receive instructor feedback on how to improve their writing skills and formulate sound arguments.

Fall 2020

TUT Section: RT1   TBA   Paul M. Karabinos

**ENVI 222 (F) Examining Inconvenient Truths: Climate Science meets U.S. Senate Politics (WS)**

**Cross-listings:** GEOS 221  ENVI 222  LEAD 221

**Secondary Cross-listing**

Former President Barack Obama once said: "There's one issue that will define the contours of this century more dramatically than any other, and that is the urgent threat of a changing climate." While consensus regarding the causes and impacts of climate change has been growing steadily among scientists and researchers (and to some extent, the general public) over the past two decades, the U.S. has yet to confront this issue in a manner consistent with its urgency. This lack of action in the U.S. is at least partly due to the fact that science provides necessary but insufficient information towards crafting effective climate change legislation and the unfortunate fact that climate change has become a highly partisan issue. The primary objective of this tutorial will be to help students develop a greater understanding of the difficulties associated with crafting climate change legislation,
with an emphasis on the role of science and politics within the legislative process. To this end, the tutorial will address how the underlying scientific complexities embedded in most climate policies (e.g., offsets, carbon capture and sequestration, uncertainty and complexity of the climate system, leakage) must be balanced by and blended with the different operational value systems (e.g., economic, social, cultural, religious) that underlie U.S. politics. Over the course of this tutorial, students will develop a nuanced sense of how and when science can support the development of comprehensive national climate change legislation within the current partisan climate. This course will take a practical approach, where students will craft weekly policy-oriented documents (e.g., policy memos, action memos, research briefs) targeted to selected members of the current U.S. Senate Environment and Public Works Committee, the committee that has historically held jurisdiction over a majority of the major climate change bills that have moved through the legislative process. This course is in the Oceans and Climate group for the Geosciences major.

**Class Format:** Hybrid: this class will be mostly remote, but there may be some in-person meetings outside for those on campus and interested, weather permitting.

**Requirements/Evaluation:** weekly papers (2-5 pages in length) and a final oral presentation

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** sophomores, Geosciences and Environmental Studies juniors and seniors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

GEOS 221 (D3) ENVI 222 (D3) LEAD 221 (D3)

**Writing Skills Notes:** You will learn to write in a variety of policy-focused formats

---

**ENVI 244 (S) Environmental Ethics (WS)**

**Cross-listings:** ENVI 244 PHIL 244

**Primary Cross-listing**

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature (e.g., Leopold, Taylor, Rolston). Subsequent sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

**Class Format:** Remote format. Students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners’ essays in alternate week

**Requirements/Evaluation:** six essays (5-7 pages each) and six carefully prepared oral responses to partners’ essays; evaluation will be based on essays, oral responses, and quality of discussion

**Prerequisites:** ENVI 101 or one course in PHIL

**Enrollment Limit:** 10

**Enrollment Preferences:** declared and prospective Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** meets Value Theory requirement only if registration is under PHIL

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 244 (D2) PHIL 244 (D2)
Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Spring 2021
TUT Section: RT1 TBA Julie A. Pedroni

ENVI 245 (F) Hydrothermal Vents (WS)
Cross-listings: GEOS 245 MAST 245 ENVI 245
Secondary Cross-listing

Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

Prerequisites: none, open to all students

Enrollment Limit: 10

Enrollment Preferences: 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

Writing Skills Notes: Students will write six tutorial papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

Fall 2020
TUT Section: RT1 TBA Lisa A. Gilbert

ENVI 266 (S) Reading Water (WS)
Cross-listings: ENVI 266 MAST 266
Secondary Cross-listing

Water has such profound and far-reaching influence on individuals, societies, and the planet that it simultaneously risks going overlooked and appearing clichéd. Human beings are made of it and need it to live, yet will die if immersed in it. It is venerated by cultures around the world, yet most people either cannot access clean water, or don't know where their clean water is piped in from. It covers the earth's surface, and has shaped it over eons, yet scientists are still not sure how it came to be here in the first place. This wide-ranging influence also presents challenges for traditional academic structures; thinking about water demands crossing times, spaces, and disciplines. This course will explore the wide-ranging and diverse ways water impacts individuals, cultures, and the environments they call home by drawing on a range of content: hydrology, literature, political theory, storytelling, geography, and more. To do this, we will also develop and examine methods of critically reading as "non-experts"--reading scientific articles as rhetorical objects and reading for scientific principles in literature, for instance--to explore what interdisciplinary thinking opens up (and
inhibits), and thus how to effectively engage with and create interdisciplinary work. The goal here is not to define water's cultural or scientific
importance, or to determine which disciplines "best" combine to explain water, or to come up with humanities-based solutions to "the water crisis."
Rather, these texts, and the water that flows through them will help us explore the opportunities and limits of human perceptions of the
other-than-human world. It will help us consider the extent to which those perceptions both shape, and are shaped by, a seemingly simple molecule.
And it will help us imagine epistemologies and ontologies that account for the ways water simultaneously flows through us, around us, and through the
deep geological history of the planet. Course Texts: Tristan Gooley -- How to Read Water (selections) Vandana Shiva -- Water Wars (selections) Luna
Jesmyn Ward -- Salvage the Bones John McPhee -- "Atchafalaya" Emmi Itäranta -- Memory of Water Brenda Hillman -- "The Hydrology of California"

Class Format: This class will be remote, meeting synchronously. The class will be primarily discussion-based, and will ask students to lead and
structure discussions. Students will have questions, reflections, and insights prepared before class, and use those to drive our in-class activities.
Requirements/Evaluation: 100pg of reading a week, give or take. Approx 20-25 pages of written work throughout the semester.
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: Preference to majors, and then to sophomores and juniors, respectively.
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 266 (D1) MAST 266 (D1)
Writing Skills Notes: Students will write four papers of increasing complexity that will require workshopping and drafts. Each of these papers will
receive forward-looking writing feedback from me. The first paper centers on paragraph-level stylistic choices, the second on argument/evidence
connections, the third on genre, and the final paper synthesizes these writing skills. In addition, students’ final grades will allow for revision of earlier
papers to encourage and assess growth of writing skills.

Spring 2021
SEM Section: R1  MR 3:15 pm - 4:30 pm  Ned G. Schaumberg

ENVI 272  Earth Hazards and Risks  (WS)
Cross-listings: ENVI 272 GEOS 272
Secondary Cross-listing
As individuals, communities, and societies we live with risk from a variety of natural hazards. Depending on where we live, we may be more at risk
from hurricanes, volcanoes, earthquakes, flooding, landslides, drought, wildfire, asteroids, or other hazards. Which hazards can be predicted? How far
in advance and with what uncertainty? How we evaluate our risks from hazards is important for how we make decisions for ourselves and how we
engage with others in decision-making. In this tutorial, we will examine the innovative ways earth scientists currently forecast these hazards. Students
will use geospatial and time series data to assess the comparative risks of several hazards at a location that is significant to them (e.g., hometown, site
of personal/historical importance). We will combine forecasting effectiveness with vulnerability assessments to strategize ways of proactively mitigating
risk. This course is in the Sediments and Life group for the Geosciences major.
Class Format: This class will meet remotely. Students will meet in pairs or small groups weekly with the instructor for one hour. The entire class will
meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.
Requirements/Evaluation: Assessment will be based on participation, tutorial papers, peer reviews, presentations, and a final paper.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: sophomores, Geosciences and Environmental Studies juniors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 272 (D3) GEOS 272 (D3)

Writing Skills Notes: Students will write four (5 page) tutorial papers evaluating the predictability/uncertainty of Earth-related hazards and make short (5 minute) presentations assessing risk of the hazard in their hometown or other location. A final (10 page) paper will synthesize two of the hazards and ability of forecasts to mitigate associated risks. Students will give/receive feedback in the form of peer reviews and receive frequent feedback from the instructor.

Spring 2021

ENVI 412 (S) Senior Seminar: Perspectives on Environmental Studies (WS)

Cross-listings: MAST 402 ENVI 412

Primary Cross-listing

The Environmental Studies and Maritime Studies programs provide students with an opportunity to explore the myriad ways that humans interact with diverse environments at scales ranging from local to global. The capstone course for Environmental Studies and Maritime Studies, this seminar brings together students who have specialized in the humanities, social studies and the sciences to exchange ideas across these disciplines. Over the course of the seminar, students will develop a sustained independent research project on a topic of their choice, and they will have opportunities throughout the semester to meet with guest speakers to discuss environmental work outside the academy.

Requirements/Evaluation: active participation, discussion leading, several smaller assignments and multi-step capstone project
Prerequisites: declared major/concentration in Environmental Studies or Maritime Studies, ideally to be taken in final semester at Williams
Enrollment Limit: 14
Enrollment Preferences: Environmental Studies majors and concentrators, Maritime Studies concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Unit Notes: required course for students wishing to complete the Maritime Studies concentration
Distributions: No divisional credit (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MAST 402 No divisional credit ENVI 412 No divisional credit

Writing Skills Notes: This course is focused on building up cross-disciplinary writing and communication skills. There will be a multi-step capstone project that emphasizes writing, and there will be opportunities to revise and resubmit work.

ENVI 420 (F) Architecture and Sustainability in a Global World (WS)

Cross-listings: ARTH 420 GBST 420 ENVI 420

Secondary Cross-listing

What does it mean to create a sustainable built environment? What do such environments look like? Do they look the same for different people across different times and spaces? This course takes these questions as starting points in exploring the concept of architectural sustainability, defined as "minimizing the negative impact of built form on the surrounding landscape," and how this concept can be interpreted not only from an environmental point of view, but from cultural, political, and social perspectives as well. Over the course of the class, students will explore different conceptualizations of sustainability and how these conceptualizations take form in built environments in response to the cultural identities, political agendas, social norms, gender roles, and religious values circulating in society at any given moment. In recognizing the relationship between the way things are constructed (technique of assembly, technology, materials, process) and the deeper meanings behind the structural languages deployed, students will come to understand sustainability as a fundamentally context-specific ideal, and its manifestation within the architectural environment as a mode of producing dialogues about the anticipated futures of both cultural and architectural worlds.
Class Format: This course will be taught in a hybrid mode, with both online (lecture) and in-person (discussion) elements.

Requirements/Evaluation: weekly reading discussion question posts on GLOW, leading class discussions, and a final project/paper (15-20 pages) with presentation

Prerequisites: none, although a course in art/architectural history or environmental studies would be advantageous

Enrollment Limit: 12

Enrollment Preferences: Art History majors, Environmental Studies majors, History and Studio majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 420 (D1) GBST 420 (D2) ENVI 420 (D1)

Writing Skills Notes: This course develops writing proficiency using a series of sequenced assignments that culminate with the formation of a well-articulated, compelling final project. Students will receive extensive feedback on these assignments via a progression-oriented evaluative system that involves both instructor and peer feedback, and will take part in a writing seminar towards gaining the necessary tools for drafting work, formulating ideas, organizing sections, and crafting an abstract.

ENVI 430 (F)(S) Race, Identity, Nature (DPE) (WS)

Cross-listings: ENVI 430 AFR 390 AMST 430

Secondary Cross-listing

From 18th-century claims that climate determined character to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, race, colonialism, identity, and “nature” operate as interconnected terrains of power. Anchored in the contexts of U.S. colonialisms, racialization, and accumulation, this course aims to expose students to the cultural politics of “nature” as a way of “doing” American Studies. Specifically, this course investigates formations of and struggles against U.S. colonialisms, racialization, and accumulation via the many symbolic and material iterations, negotiations, and contestations of the contingent relations between and among human and non-human natures. Organized around a significant research paper and weekly written responses, this course ultimately aims to foster students’ critical writing, reading, analytical thinking, and comparative inquiry skills across such contexts and sites of contestation, and across texts of different genres and media. We will work with a wide range of primary sources, including published fiction and poetry, legal documents, newspaper articles, speeches, recorded songs, and films, photos, paintings and other visual culture. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward non-human natures, as well as analyze how ideas of “nature” mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Class Format: This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

Requirements/Evaluation: Evaluation will be based upon the following: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Final Research Essay: 50%, broken down by Research Proposal (2-3 pgs, 10%), Peer Review and Feedback (2 pgs, 10%), Presentation (10%); Essay (15 pgs): 20%. Class will meet twice per week. Tu. meetings will be synchronous and Th. meetings will be asynchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion.

Prerequisites: none

Enrollment Limit: 12
Enrollment Preferences: American Studies majors will be given preference; secondary preference given to students specializing in Native American and Indigenous Studies, as well as Africana and Environmental Studies majors.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 430 (D2) AFR 390 (D2) AMST 430 (D2)

Writing Skills Notes: Emphasis on revision and writing process includes: One thesis paper at 15 pages (receiving critical feedback from professor and peers); one thesis paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process; one research proposal (including thesis outline and annotated bibliography of primary texts) with critical feedback from professor; student presentations and roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: By the end of this course, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation. In order to addresses such issues of difference, power, and equity, this course provides students with the necessary th

GBST 117  (S) Bombay/Mumbai: Making of a Modern Metropolis  (WS)

Cross-listings: GBST 117  HIST 117  ASST 117

Secondary Cross-listing

Bombay or Mumbai is India's foremost urban center and is well known today as a truly global city. It is the heart of India's commercial life comparable in vibrancy and multiculturalism with the world's emerging cities like Shanghai, Hong Kong and Sao Paulo. What are the historical elements that contributed to the making of India's most modern and global metropolis? What are the antecedents of the modernity, the vibrant culture, dark underbelly and economic diversity that characterize Bombay today? What does the history of Bombay tell us about modernity in India and the emerging countries of the third world in general? This seminar will help students to answer these questions through historical materials on Bombay as well a wide range of multimedia sources including cinema, photography and literature. With a focus on the 19th and 20th centuries, we will explore themes like the commercial culture of a colonial port city, the modern public sphere, theatre and film, labor migration, public health and prostitution to understand what went into the making of this modern metropolis. The primary objective of this course is to introduce students to a wide range of historical sources and ways of interpreting them. The other objective is facilitating their understanding of the history of modern India through the history of its most important city.

Requirements/Evaluation: assessment will be based on class participation and weekly written responses to readings (2 pages), 2-3 short papers (4-5 pages), leading to an oral presentation and final paper (10-12 pages). All writing assignments are structured to build up the final paper.

Prerequisites: First years and sophomores only

Enrollment Limit: 12

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 8-10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 117 (D2) HIST 117 (D2) ASST 117 (D2)

Writing Skills Notes: Weekly reading response (2 pages), several short papers leading to a final research paper. Peer reviews and instructor feedback of all written work to improve writing skills and opportunities to write several drafts.
Though European border management today seeks to limit and control movement, the Mediterranean region is a historical site of mediation between cultural differences and religious views. This course centers primarily on the works of migrant intellectuals and artists from North Africa and the Middle East, who have emerged from the Mediterranean region to become a significant part of the new voice of Europe. Borrowing from Deleuze and Guattari's definition of "minor literature" as literature that a "minority constructs within a major language" and in which "language is affected with a high coefficient of deterritorialization," we explore the political, cultural and anthropological effects of such literature in today's European public discourse. Today the Mediterranean has become a graveyard where black and brown bodies transit a hostile and deadly passage. Therefore, a centerpiece of this course will be an examination of the racist discourse in Europe in the light of the Black Lives Matter's quest for decolonizing knowledge.

This interdisciplinary course, we read both literary works (Ali Farah, Khatibi, Lakhous, Scego), and critical theory (Cassano, Chambers, Fanon, Hall, Theo Goldberg); we also analyze films, documentaries, podcasts, exhibits and museums of colonialism in Europe.

Class Format: This will be an hybrid course. Students will meet twice a week with me.

Requirements/Evaluation: weekly writing assignments, midterm and final exams, final paper, oral presentation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 244 (D2) COMP 244 (D1)

Writing Skills Notes: This course is designed to be writing-intensive, as it requires weekly response papers, midterm, and final papers, and blog discussions.

Difference, Power, and Equity Notes: Within the theoretical framework of postcolonial studies, this course examines themes such as: race; Europe and its postcolonial legacy; power imbalances in the current European policies of migration; the urban space of Rome as site of conflictual representations of center/periphery.

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the
tutorial partners' and instructor's discretion.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
SOC 248 (D2) GBST 247 (D2) RUSS 248 (D1)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

Fall 2020

TUT Section: RT1 TBA Olga Shevchenko

GBST 369 (S) Indigenous Narratives: From the Fourth World to the Global South (DPE) (WS)

Cross-listings: GBST 369 HIST 306 COMP 369 ARAB 369

Secondary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, TashëlhiytBerber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10 -pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 369 (D2) HIST 306 (D2) COMP 369 (D1) ARAB 369 (D1)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a
personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor’s feedback and peer review sessions will include review of drafts and argumentative structures.

**Difference, Power, and Equity Notes:** At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Spring 2021

**GBST 391** (S) *When India was the World: Trade, Travel and History in the Indian Ocean* (DPE) (WS)

**Cross-listings:** GBST 391 ASST 391 HIST 391

**Secondary Cross-listing**

What do Ibrahim Ben Yiju, a Jewish merchant from 11th century Yemen, Ibn Batutah, a Muslim scholar from 15th century Morocco and Captain Kidd, a 17th century English pirate have in common? All three men travelled and lived in the Indian Ocean region! This course explores the history of one of the world’s oldest maritime highways that has connected the diverse cultures of Asia, Africa and Europe for millennia, thus making it a vital element in the birth of globalization. Moving away from conventional land-centric histories, we will focus instead on understanding the human past through oceanic interactions. South Asian ports and port cities remained the fulcrum of the Indian Ocean world throughout its history; traders, travellers, nobles, scholars, pilgrims and pirates from all over the world travelled to the Indian coast in search of adventure, spices, knowledge and wealth. Thus we will primarily focus on India’s role in the Indian Ocean roughly from the rise of Islam in the seventh century CE through the expansion of various European communities in the region and the subsequent rise of the global economy and colonialism in the nineteenth century. Rather than following a strict temporal chronology we will concentrate on themes such as travel and adventure; trade and exchange; trust and friendship; religion and society; pilgrimage; piracy; the culture of port cities; and food across time.

**Requirements/Evaluation:** class participation and weekly responses to readings, 4 short papers (4-5 pages), an oral presentation and final research (10 pages) paper based on any one of the 4 papers written during the course.

**Prerequisites:** none; open to all

**Enrollment Limit:** 15

**Enrollment Preferences:** history majors and students with demonstrable interest in maritime/Indian Ocean history

**Expected Class Size:** 10-12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 391 (D2) ASST 391 (D2) HIST 391 (D2)

**Writing Skills Notes:** Students will write 4 short papers (4-5 pages) each and receive detailed feedback from the instructor. One of the four papers will become the basis of a final research paper (10-12 pages) on which each student will work closely with the instructor and receive feedback on improving research and writing skills.

**Difference, Power, and Equity Notes:** This course questions the conventional view that global interconnectedness was the result of Europe’s discovery of ‘new worlds’. Instead, it centers non-European actors in facilitating global networks before colonialism. Throughout, students will critically engage questions of how Asian and African players forged and shaped global connections across the Indian Ocean arena and examine the ways in which these contributions have been overshadowed in traditional historiography.

Spring 2021

**GBST 412** (F) *Gandhi: History, Ideas and Legacy* (WS)

**Cross-listings:** REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

**Secondary Cross-listing**

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well
known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

GEOS 220 (F) Evolution of and on Volcanic Islands (WS)
Cross-listings: GEOS 220 ENVI 219

Primary Cross-listing
Plate tectonic theory accounts for the vast majority of volcanic islands in ocean basins. They form above mantle plume hot spots (Hawaiian and Galapagos Islands), subduction zones (Aleutian and Indonesian arcs), and mid-ocean ridges (Azores and Ascension Island). Iceland is unusual because it is located above a hot spot and the mid-Atlantic ridge. Each plate tectonic setting produces chemically distinctive magmas, and the lifespan of volcanic islands varies widely. Islands above hot spots may be geographically remote and emergent for only several million years, but be part of a long-lived sequence of islands that persists for over a hundred million years. In contrast, island arc volcanoes belong to long geographically continuous chains of volcanoes, commonly in close proximity to continents. This tutorial explores the geologic evolution and lifespan of volcanic islands from formation to submergence, and searches for correlations between these characteristics and plate tectonic setting. We will also consider how geographic isolation, areal extent, lifespan, and climate affect biological evolution on volcanic islands. There will be weekly tutorial meetings with pairs of students, and students will alternate writing papers on assigned topics. This course is in the Solid Earth group for the Geosciences major.

Class Format: Remote, one-hour weekly meetings with tutorial partner and instructor
Requirements/Evaluation: five 5-page papers and critiques of partner's papers
Prerequisites: 100-level GEOS course or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Geosciences majors and students with a demonstrated interest in geosciences
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 220 (D3) ENVI 219 (D3)

Writing Skills Notes: Students will write five 5-page papers and will receive instructor feedback on how to improve their writing skills and formulate sound arguments.

Fall 2020
TUT Section: RT1 TBA Paul M. Karabinos

GEOS 221 (F) Examining Inconvenient Truths: Climate Science meets U.S. Senate Politics (WS)
Cross-listings: GEOS 221 ENVI 222 LEAD 221

Primary Cross-listing
Former President Barack Obama once said: "There's one issue that will define the contours of this century more dramatically than any other, and that is the urgent threat of a changing climate." While consensus regarding the causes and impacts of climate change has been growing steadily among...
scientists and researchers (and to some extent, the general public) over the past two decades, the U.S. has yet to confront this issue in a manner consistent with its urgency. This lack of action in the U.S. is at least partly due to the fact that science provides necessary but insufficient information towards crafting effective climate change legislation and the unfortunate fact that climate change has become a highly partisan issue. The primary objective of this tutorial will be to help students develop a greater understanding of the difficulties associated with crafting climate change legislation, with an emphasis on the role of science and politics within the legislative process. To this end, the tutorial will address how the underlying scientific complexities embedded in most climate policies (e.g., offsets, carbon capture and sequestration, uncertainty and complexity of the climate system, leakage) must be balanced by and blended with the different operational value systems (e.g., economic, social, cultural, religious) that underlie U.S. politics. Over the course of this tutorial, students will develop a nuanced sense of how and when science can support the development of comprehensive national climate change legislation within the current partisan climate. This course will take a practical approach, where students will craft weekly policy oriented documents (e.g., policy memos, action memos, research briefs) targeted to selected members of the current U.S. Senate Environment and Public Works Committee, the committee that has historically held jurisdiction over a majority of the major climate change bills that have moved through the legislative process. This course is in the Oceans and Climate group for the Geosciences major.

**Class Format:** Hybrid: this class will be mostly remote, but there may be some in-person meetings outside for those on campus and interested, weather permitting.

**Requirements/Evaluation:** weekly papers (2 - 5 pages in length) and a final oral presentation

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** sophomores, Geosciences and Environmental Studies juniors and seniors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
GEOS 221 (D3) ENVI 222 (D3) LEAD 221 (D3)

**Writing Skills Notes:** You will learn to write in a variety of policy-focused formats

---

GEOS 245 (F) Hydrothermal Vents (WS)

**Cross-listings:** GEOS 245 MAST 245 ENVI 245

**Primary Cross-listing**

Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

**Class Format:** This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

**Requirements/Evaluation:** Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

**Prerequisites:** none, open to all students

**Enrollment Limit:** 10

**Enrollment Preferences:** 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

Writing Skills Notes: Students will write six 5-page papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

Fall 2020
TUT Section: RT1  TBA  Lisa A. Gilbert

GEOS 250  (S)  Climate, Tectonics, and Erosion  (WS)

Traditionally tectonics investigated processes operating deep in the crust and mantle, whereas geomorphology focused on surficial processes that shape the landscape. This course explores the complex interactions between tectonic and surficial processes. It has long been recognized that crustal uplift during mountain building creates new landscapes, but we now suspect that variations in erosion rate can fundamentally influence the development of mountains. Climate plays a central role in this feedback loop, the rise of mountains can change climate, and such changes can alter regional erosion rates. This course will examine how geologists use characteristic markers to estimate the amount of surface uplift, methods for determining uplift rate, surface response to faulting and folding, measuring displacement of the crust with GPS and interferometry methods, how mountain building affects erosion and exhumation rates, the limits to relief in mountains, and the interaction between mountains and climate. This course is in the Solid Earth group for the Geosciences major.

Class Format: Remote. After an initial group meeting, students will meet in pairs for one hour each week with the instructor; each student will orally present a written paper every other week for criticism during the tutorial session.

Requirements/Evaluation: five 4- to 5-page papers based on journal articles

Prerequisites: at least one of the following courses: GEOS 101, 102, 103, 202, 203, 215, 302, 303, 303 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Geosciences majors and students with a strong interest in Geosciences

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (WS)

Writing Skills Notes: Five 4- to 5-page papers distributed throughout the semester. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021
TUT Section: RT1  TBA  Paul M. Karabinos

GEOS 272  (S)  Earth Hazards and Risks  (WS)

Cross-listings: ENVI 272  GEOS 272

Primary Cross-listing:

As individuals, communities, and societies we live with risk from a variety of natural hazards. Depending on where we live, we may be more at risk from hurricanes, volcanoes, earthquakes, flooding, landslides, drought, wildfire, asteroids, or other hazards. Which hazards can be predicted? How far in advance and with what uncertainty? How will we make decisions for ourselves and how will we engage with others in decision-making. In this tutorial, we will examine the innovative ways earth scientists currently forecast these hazards. Students will use geospatial and time series data to assess the comparative risks of several hazards at a location that is significant to them (e.g., hometown, site of personal/historical importance). We will combine forecasting effectiveness with vulnerability assessments to strategize ways of proactively mitigating risk. This course is in the Sediments and Life group for the Geosciences major.

Class Format: This class will meet remotely. Students will meet in pairs or small groups weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

Requirements/Evaluation: Assessment will be based on participation, tutorial papers, peer reviews, presentations, and a final paper.

Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: sophomores, Geosciences and Environmental Studies juniors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 272 (D3) GEOS 272 (D3)

Writing Skills Notes: Students will write four (5 page) tutorial papers evaluating the predictability/uncertainty of Earth-related hazards and make short (5 minute) presentations assessing the risk of the hazard in their hometown or other location. A final (10 page) paper will synthesize two of the hazards and ability of forecasts to mitigate associated risks. Students will give/receive feedback in the form of peer reviews and receive frequent feedback from the instructor.

Spring 2021
TUT Section: RT1 TBA Lisa A. Gilbert

GEOS 317 (S) Current topics in Planetary Geology (WS)
Cross-listings: GEOS 317 ASTR 317

Primary Cross-listing
We will look in detail at geological processes on rocky and icy bodies of the Solar System. Each week will have a specific theme, and students will read a series of scientific articles on that topic. The readings will form the basis for writing and discussion. Areas to be investigated may include ice ages on Mars, the origin of Earth’s moon, tectonics on Venus, chaos terrain on Europa, geysers on Enceladus, cryovolcanism on Triton, methane lakes on Titan, the viability of mining in the Asteroid Belt, and the prospects for life on other worlds. This course is in the Solid Earth group for the Geosciences major.

Class Format: Students meet with the professor weekly, in pairs, with one student writing each week and the other critiquing; and both engaging in detailed discussion of the readings.

Requirements/Evaluation: Evaluation is based on written papers, critiques, and discussion.
Prerequisites: GEOS/ASTR 217 (Planets and Moons); OR any two courses at 200-level or higher in Geosciences and/or Astronomy; OR permission of instructor

Enrollment Limit: 10
Enrollment Preferences: Geosciences and Astronomy majors and prospective majors
Expected Class Size: 6
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GEOS 317 (D3) ASTR 317 (D3)

Writing Skills Notes: This tutorial-style course focuses on writing, with 6 papers (5-7 pages) written bi-weekly throughout the semester, and partner critiques in alternate weeks.

Spring 2021
SEM Section: HT1 Cancelled

GEOS 401 (F) Global Tectonics and the Rise of Mountains (WS)
Fifty years after the sea-floor spreading hypothesis was first verified using magnetic anomalies, we have spectacular data sets from paleomagnetism, seismology, volcanism, the Global Positioning System, and digital elevation models that provide rich details into the kinematics and mechanisms of present and past plate motions. We will read journal articles to explore how plate tectonics can help explain the evolution of mountain belts with special emphasis on the Appalachians.
Class Format: Remote, weekly one-hour meetings with tutorial partner and instructor

Requirements/Evaluation: five papers based on journal articles, and critiques of partner's papers

Prerequisites: GEOS 203, 302, or 303 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: senior Geosciences majors, then juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: As a 400-level seminar, this capstone course is intended to build on and extend knowledge and skills students have developed during previous courses in the major

Distributions: (D3) (WS)

Writing Skills Notes: Five 5-page papers throughout the semester based on journal articles. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020

TUT Section: RT1 TBA Paul M. Karabinos

GERM 110 (F) Spies Like Us: Espionage, Surveillance, and Protest in German Cinema and Literature (WS)

Cross-listings: GERM 110 COMP 109

Primary Cross-listing

This First Year tutorial, available in English, investigates the mutual mistrust between the two Germanies in the Cold War period up until the peaceful popular protests that brought down the Berlin Wall. The political tensions between communist East Germany, the German Democratic Republic (GDR) and its capitalist Western counterpart, the Federal Republic (FRG), created a fascinating culture of governmental spying, but also led to aggravated periods of state surveillance of its own citizens. How were families affected across generations by these divisive politics, including the two states' differing treatment of the Nazi legacy? What was the involvement of the KGB and the CIA? How did East German intelligence try to destabilize the West from inside? Which locations in Berlin served as centers for spying, given that the city's terrain is quite flat and exposed? High-profile cases of conflicting loyalties include the Guillaume spy affair that brought down Willy Brandt as Chancellor of the FRG in 1974, and the Brasch family in the GDR, where the father, a communist true believer, turned his three sons over to the Stasi for their dissident activism and engaged art. We will debate filmic treatments of the recruitment of spies as double agents (Coded Message for the Boss, 1979), the chilling effects of police surveillance during the Baader-Meinhof radical left terrorist attacks (The Lost Honor of Katharina Blum, 1975; Knife in the Head, 1978) the afterlives of former terrorists who were offered new identities as "ordinary" East Germans (The legend of Rita, 2000), to the effects of the Stasi files becoming accessible to their victims after the fall of the wall (Es ist nicht vorbei, Anderson). We will also discuss popular film representations of spying in Lives of Others (2007) and Bridge of Spies (2015), and selected episodes from the popular TV-series Germany 83 and 86 (2018). Literature will likely include: Thomas Brasch, The Sons Die Before the Fathers (1977), Christa Wolf, What Remains (1993), Monika Maron, Flight of Ashes (1981), Heinrich Böll, The Lost Honour of Katharina Blum (1974). All texts in English, films have English subtitles.

Class Format: Students in this course will be separated into small tutorial groups of 3 students, in order to promote intensive exchange of ideas. In a typical week, the students in each group will: (1) study a substantial "text" or film; (2) watch mini-lectures or power points by the instructor to supplement the assigned primary texts.

Requirements/Evaluation: 5 5-page tutorial papers and 2-page responses (in English)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: First Years, in groups of 3 students.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 110 (D1) COMP 109 (D1)

Writing Skills Notes: This tutorial will teach students to analyze visual media and fiction in German Studies in combination with secondary sources
from a variety of related disciplines (History, Political Science, journalism). The toggling between these different types of sources promotes critical thinking skills.

Fall 2020
TUT Section: RT1  TBA  Helga Druxes

GERM 251 (F) Dolls, Puppets and Automatons (WS)
Cross-listings: GERM 251 COMP 251

Secondary Cross-listing
Since their origin, humans have always made anthropomorphic representations, first in the form of idols, fetishes, or statues for religious worship, later in the shape of puppets, dolls, or automatons for their entertainment qualities. And yet, these objects have always played multiple roles in human society; modernity in particular shows a great interest paired with great ambivalence towards dolls, puppets, and automatons, regarded both as uncanny Doppelgänger or threatening machines. In order to comprehend the scope of our modern fascination with these figures, we will explore their haunting presence in literary texts by ETA Hoffmann, Achim von Arnim, Theodor Storm, Felisberto Hernandez, discuss theoretical texts by Sigmund Freud and Heinrich von Kleist, look at paintings by Oskar Kokoschka and at photographs by Hans Bellmer & Cindy Sherman, watch a ballet by Andreas Heise and films by Fritz Lang and Alex Garland, and watch fashion shows by Alexander McQueen and Jean-Paul Gaultier. Conducted in English.

Class Format: This seminar will be taught online.
Requirements/Evaluation: active class participation, oral presentations on the reading materials, three 5- to 8-page papers
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Comparative Literature majors, or those considering a major in Comparative Literature
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:
GERM 251 (D1) COMP 251 (D1)

Writing Skills Notes: Each student will write three 5- to 8-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write two 3-4 page papers on which I will provide written feedback regarding grammar, style, and textual analysis.

Fall 2020
SEM Section: R1  MW 11:45 am - 1:00 pm  Christophe A. Kone

GERM 315 (F) Kafka and His/Our World (WS)
Cross-listings: COMP 316 GERM 315

Primary Cross-listing
"It's so Kafkaesque!" We love to use the most famous Austro-Hungarian-Czech-Jewish writer of all time to characterize puzzling and dispiriting situations. But close examination of Franz Kafka's work and life reveals a multi-dimensional world that goes far beyond the cliché. Jewish in an increasingly anti-Semitic environment, German-speaking surrounded by Czech-speakers, deeply alone in a family that didn't understand him, Kafka produced texts that simultaneously demand and refuse to be interpreted. In this tutorial we will begin with intensive readings of selected short stories and parables, then move on to an exploration of the Kafka's own words from diaries and letters, as well as secondary sources. The course will conclude with discussions of how Kafka's texts and their contexts might relate to contemporary conditions and/or to students' own lives and thoughts. This will be a modified tutorial, with five groups of three students apiece. Students may take the tutorial in either German or English; groups will be formed accordingly.

Class Format: The class will be divided into groups of 3. At each weekly meeting, one of the 3 will present a 5-page paper, another will present a formal response, and the third will participate actively in discussion. Students will incorporate at least one of their papers into a final project that links their discussions of Kafka to their own interests and/or to contemporary issues. Students can take the course in German or English (or a combination
of the two), and groups will be formed accordingly

Requirements/Evaluation: Three 5-page papers, three 1-2 page responses, one final project, discussion leading. Evaluation: Tutorial papers will receive extensive comments, but no grade; the instructor will meet with individual students at least twice during the semester to discuss how things are going for them. Responses will not be evaluated by the instructor, but instead will function well or less well in the context of the discussion. The final project will receive a grade, and the final grade will be determined by the overall trajectory of the student's learning.

Prerequisites: For German speakers: GERM 202 or the equivalent preferred, though students with less experience should contact the instructor. For students taking the course in English: one college literature course.

Enrollment Limit: 15

Enrollment Preferences: German students, majors or potential majors in Comp Lit or German

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 316 (D1) GERM 315 (D1)

Writing Skills Notes: The course has a modified tutorial format, with groups of three meeting weekly instead of pairs. Each student will write three 5-page papers plus three 1-2-page responses during the semester, and will prepare a final project. Each paper will receive extensive feedback from the instructor.

Fall 2020

SEM Section: H1    TBA    Gail M. Newman

HIST 104  (S)  Race and a Global War: Africa during World War II  (DPE) (WS)

Cross-listings: AFR 104  HIST 104

Primary Cross-listing

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

Requirements/Evaluation: active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 15

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

Writing Skills Notes: Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page
research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

Spring 2021

**SEM Section:** H1  MW 11:45 am - 1:00 pm  Benjamin Twagira

**HIST 109 (S) The Iranian Revolution**  (DPE)  (WS)

**Cross-listings:** ARAB 109  HIST 109

**Primary Cross-listing**

The Iranian Revolution was a major turning point in world history that resulted in the establishment of the Islamic Republic of Iran. This tutorial will evaluate the causes and impact of the revolution and how this seminal event continues to have widespread repercussions around the globe. The first weeks will explore the history of pre-revolutionary Iran with special attention to religious and intellectual trends such as the ideas of Ayatollah Ruhollah Khomeini, Jalal al-e Ahmad, and Ali Shariati. We will then evaluate the revolution itself including the US hostage crisis, the downfall of the Shah Muhammad Reza Pahlavi Shah, and how Khomeini’s vision of society became paramount. Finally, we will explore the aftermath of the revolution including Iran’s geopolitics, the nature of the theocratic system in Iran as well as how the revolution impacted every day lives of Iranians in Iran and abroad particularly how they reflect on the revolution in memoirs, films, and literature.

**Class Format:** Hybrid

**Requirements/Evaluation:** Weekly meetings. Weekly papers - either a 5 page primary paper or a 2-3 page response paper.

**Prerequisites:** No prerequisites.

**Enrollment Limit:** 10

**Enrollment Preferences:** First Years and Sophomores.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 109 (D2)  HIST 109 (D2)

**Writing Skills Notes:** As a tutorial, students are expected to regularly write analytical and critical papers on the readings. They will receive regular and consistent feedback from the instructor and their partner and will be given the opportunity to re-write some of their assignments.

**Difference, Power, and Equity Notes:** The Iranian Revolution, like other major social movements, offered a compelling critique of the status quo and promised a more just society that would be more equitable for all Iranians. The tutorial will consider the relationship between the rhetoric of the Revolution and the lived reality, especially how this seminal event impacted the lives ordinary Iranians. Was the Revolution simply a change in the composition of the political elite or did it yield new realities and more access for Iranians

Spring 2021

**TUT Section:** HT1  TBA  Magnús T. Bernhardsson

**HIST 117 (S) Bombay/Mumbai: Making of a Modern Metropolis**  (WS)

**Cross-listings:** GBST 117  HIST 117  ASST 117

**Primary Cross-listing**

Bombay or Mumbai is India's foremost urban center and is well known today as a truly global city. It is the heart of India's commercial life comparable in vibrancy and multiculturalism with the world's emerging cities like Shanghai, Hong Kong and Sao Paulo. What are the historical elements that contributed to the making of India's most modern and global metropolis? What are the antecedents of the modernity, the vibrant culture, dark underbelly and economic diversity that characterize Bombay today? What does the history of Bombay tell us about modernity in India and the
emerging countries of the third world in general? This seminar will help students to answer these questions through historical materials on Bombay as well as a wide range of multimedia sources including cinema, photography, and literature. With a focus on the 19th and 20th centuries, we will explore themes like the commercial culture of a colonial port city, the modern public sphere, theatre and film, labor migration, public health, and prostitution to understand what went into the making of this modern metropolis. The primary objective of this course is to introduce students to a wide range of historical sources and ways of interpreting them. The other objective is facilitating their understanding of the history of modern India through the history of its most important city.

Requirements/Evaluation: assessment will be based on class participation and weekly written responses to readings (2 pages), 2-3 short papers (4-5 pages), leading to an oral presentation and final paper (10-12 pages). All writing assignments are structured to build up the final paper.

Prerequisites: First years and sophomores only

Enrollment Limit: 12

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 8-10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 117 (D2) HIST 117 (D2) ASST 117 (D2)

Writing Skills Notes: Weekly reading response (2 pages), several short papers leading to a final research paper. Peer reviews and instructor feedback of all written work to improve writing skills and opportunities to write several drafts.

Spring 2021

SEM Section: R1 TR 11:30 am - 12:45 pm Aparna Kapadia

HIST 130 (S) Rioting in British History (WS)

Since scholars in the twentieth century turned from the bird's to the worm's-eye view of the past, scholarship on rioting and crowd actions has grown. Exploring rioting in the history of modern Britain allowed researchers a chance to learn about the values, priorities, and tactics of people not previously centered in the historical record. It also created space to raise questions about what makes something a riot and how visions of public order shape military or police responses to those riots. In this course, we will examine the causes, strategies, and consequences of riots from the 1780s to the 1980s, from bread riots to the Brixton riots. We will also develop our own definitions of what qualifies as a riot, interrogating why our present definitions may differ from those in the past. While this course is rooted in the "classic" studies of British riots, to give students a strong sense of disciplinary practices and traditions, it also allows space to see how cutting-edge scholarship has expanded the discipline. "Rioting in British History" is a remote, synchronous online history seminar designed for first- and second-year students, particularly those interested in the discipline of history. In addition to exploring the theme of rioting in great depth, this course will also provide students the chance to grow as researchers and writers. By the end of this course, students will have developed the ability to analyze and evaluate works of history, identify the kinds of primary sources necessary to answer their historical questions, and write history papers that show their ability to identify and analyze relevant scholarly works and primary source materials. Since this is a writing-intensive course, students should expect to conduct peer evaluations of their writing assignments and will get consistent feedback on their writing assignments from the instructor.

Class Format: This is a remote class with synchronous meetings held over Zoom.

Requirements/Evaluation: Students will have regular reading assignments, averaging around 50 pages per week. Students will complete four unit response papers and one 10-12 page research paper.

Prerequisites: First-year or sophomore standing--juniors and seniors with permission of instructor.

Enrollment Limit: 12

Enrollment Preferences: First-year students will be given preference, followed by sophomores who have not yet taken a 100-level seminar.

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will complete four unit response papers, two of which will receive peer evaluation and feedback in class before being revised and submitted. All papers will receive feedback from the professor. Students will also complete a 10-12 page final research paper which they will develop over the course of the semester, including a rough draft workshop.
HIST 134 (F) The Great War (WS)

In November 2018, world leaders gathered in France to commemorate the centennial of the end of the First World War. Yet the armistice that brought hostilities on the Western front to a close on the eleventh hour of the eleventh day of the eleventh month of 1918, did not have the same significance for Eastern Europe and the Middle East, where revolutions and civil wars continued to be fought well into 1923. Ultimately, the Great War toppled four empires (German, Habsburg, Russian, and Ottoman) and forcibly displaced and killed millions of civilians (including Armenians and Jews), creating new countries and colonies throughout Europe, the Middle East, and Africa. This tutorial will explore the global history of the First World War, a history that is indispensable for understanding the world of today. We will consider a broad range of topics and sources in our examination of the political, social, cultural, economic, and military histories of the Great War and its aftermath.

Requirements/Evaluation: bi-weekly 5- to 7-page papers; bi-weekly written critiques; one revised paper.

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Bi-weekly 5- to 7-page papers; one formal paper revision. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

HIST 137 (F) Victorian Britain and the Anglo-Afghan Wars (WS)

Long before the US and its allies fought the recent war in Afghanistan (2001; ongoing), Britain fought three Afghan Wars. Now almost forgotten, dusty reminders of Britain’s imperial past, they were crucial moments in the “Great Game”, the rivalry between the British and Russian empires for supremacy in Central Asia and control of land routes to British India. Largely disastrous for the British, the First Afghan War (1839-1842) resulted in the tragic deaths of some 16,000 individuals, the Second (1878-1881) generated considerable domestic discord, and the Third (1919) basically ended British influence in Afghan affairs. Nevertheless, they exercised the Victorian imagination and led to numerous cultural productions that will be dissected in our class: illustrated tales of British military exploits proliferated in the press; the children’s writer G.A. Henty turned the conflicts into the stuff of imperial adventure; Rudyard Kipling made the Great Game the backdrop for several works of fiction; military officers, government officials, “lady travelers”, and amateur scholars all mapped the landscape and people of Afghanistan, an endless source of fascination for the Victorians. By interpreting these various forms of documentary evidence, we will not only reconstruct the history of the wars Britain fought in Afghanistan, and the reasons for them, but dissect the stories Britons told themselves about their Empire and about Afghanistan and its people.

Class Format: This will hopefully be a 'hybrid' class, taught in person on campus, primarily as a discussion course with a few remote elements. After Thanksgiving, when students are researching and writing their final papers, all instruction will be remote. Depending on the numbers, if both on-campus and off-campus students enroll in the course -- or if masks and in-class social distance interfere with fruitful discussions -- instruction may shift to an all-remote format.

Requirements/Evaluation: Evaluation will be based on regular and continuous participation in class discussion, two document analyses (750 words each), two guided research essays (5 pages each), and various shorter exercises leading up to a final research paper (10-12 pages) due at the end of class

Prerequisites: None. First-year or sophomore standing required.

Enrollment Limit: 12

Enrollment Preferences: First-year students, and then sophomores who have not taken a 100-level seminar or tutorial in History.

Expected Class Size: 8-12
Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write two document analyses (750 words each) and two guided research essays (5 pages each), all letter-graded and returned with comments. Also, students will write a final research paper (10-12 pages) in consultation with the instructor; a working bibliography and prospectus, and a rough draft, will be required in advance of submission of the final paper. Students will learn about research and writing skills and will receive timely suggestions for improving their work.

Fall 2020

SEM Section: H1 MR 1:30 pm - 2:45 pm Chris Waters

HIST 143 (F) Soccer and History in Latin America: Making the Beautiful Game (WS)
This course examines the rise of soccer (fútbol/futebol) in modern Latin America, from a fringe game to the most popular sport in the region. Focusing especially on Brazil, Argentina, Peru, and Mexico, we will analyze the central role that soccer played as these countries faced profound questions about racial, gender, regional, and national identities. Using autobiographies, videos, and scholarly works from several disciplines, we will consider topics including: the role of race and gender constructions in the initial adoption of soccer; the transformation of this foreign game into a key marker of national identity; the relationship between soccer and political and economic "modernization"; the production of strong, at times violent identities at club, national, and regional levels; and the changes that mass consumerism and globalization have effected on the game and its meanings for Latin Americans.

Class Format: The majority of the semester will consist of tutorial-like work. Students will meet with the instructor in pairs (or perhaps trios, depending on the enrollment). They will take turns writing short papers and critiquing those of their partner(s). We will have only a few synchronous meetings with the whole group. At the start of the semester we will discuss framing themes; at the end, our research topics.

Requirements/Evaluation: class participation, a series of short papers, response papers, and critiques

Prerequisites: First-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 12

Enrollment Preferences: First year students and then sophomores who have not previously taken a 100-level seminar. If oversubscribed an application process may be developed to determine admission to the course

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write five 4-page papers on set topics, five critiques of classmates' papers, and two response papers. They will revise the first of their 4-page papers. Topics involve interpreting different kinds of sources as well as grappling with conflicting arguments. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020

SEM Section: R1 TR 8:30 pm - 9:45 pm Roger A. Kittleson

HIST 156 (F) The Manifesto in U.S. Politics (WS)
Is there a style or tradition of writing political manifestos in the United States? Given the nation's origins in revolution, the answer would seem on the surface to be a definitive "yes." But some observers are skeptical; one writer has gone so far as to say the term "manifesto" connotes "a radicalism that American writers generally lack." This course will investigate that claim. How would we choose to define the very term, "manifesto?" Why have so many radical American writings been embraced as having the characteristics of a manifesto? We'll look at these questions through close readings and analyses of manifestos across three different historical junctures in the U.S. -- the Revolutionary era, the 1830s and 1840s, and the 1960s and early 1970s -- focusing in particular on struggles over racial equality and women's rights.

Class Format: "Hybrid" for fall 2020. I will run one in-person class per week and one synchronous discussion per week (specifically for students who are enrolled remotely). Additional class time for all students will involve different online formats in which we'll focus on collectively working through close readings of primary documents.

Requirements/Evaluation: three graded essays (3-5 pages each), handed in as drafts, given comments, with time for revision; 3 ungraded assignments; short, periodic assignments using research skills
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: first-year students and then sophomores
Expected Class Size: 8
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (WS)

Writing Skills Notes: Students will alternate doing short graded and ungraded assignments in the first 8-10 weeks of the class: the 3 graded assignments (3-5 pages in length) each will involve a draft, and then a revision based on comments; the 3 ungraded assignments are either informal, analytical responses to the reading; short, creative responses; or discussion questions. Students will also write their own manifestos. The last month will focus on gaining library skills and will involve short (1-pg.) assignments.

Fall 2020
SEM Section: H1 MR 1:30 pm - 2:45 pm Karen R. Merrill

HIST 158 (F) North of Jim Crow, South of Freedom (DPE) (WS)
Cross-listings: AFR 158 HIST 158
Primary Cross-listing

This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs—all with an eye toward scrutinizing the freedom struggle in its northern variety.

Class Format: This course is designed as a seminar and will be taught remotely. Virtual course meetings will revolve around synchronous discussion and remote learners will be expected to attend class regularly and participate actively in each session held via Zoom (or a similar platform).

Requirements/Evaluation: Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will be required to submit a topic proposal.

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Limit: 10
Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 158 (D2) HIST 158 (D2)

Writing Skills Notes: Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course analyzes the long black freedom struggle in the North during the twentieth century. It examines black northerners’ efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in spite of legal and legislative remedies.

Fall 2020
SEM Section: R1 TR 11:30 am - 12:45 pm Tyran K. Steward
HIST 163  (S)  From Wampum to Phillis Wheatley: Communications in Early America  (DPE) (WS)
How did the diverse peoples who inhabited early North America communicate with each other, across profound linguistic, cultural, social, and religious differences? This course examines histories of communication in early America and the technologies that communities developed across landscapes of coexistence and also contestation. We will study Indigenous oral traditions, traditional ecological knowledge, and wampum belts as signifiers of identity, meaning, and diplomacy for Native American nations and peoples; artistic and scientific paintings, engravings, and visual culture that moved around the Atlantic World; political orations, newspapers, and pamphlets that galvanized public opinion in the "Age of Revolutions"; stone memorials and monuments that connected communities to ancestral pasts; and the powerful poetry of African American writer Phillis Wheatley along with the orations of Pequot intellectual William Apess. Together we will raise new questions about the meanings and ongoing legacies of early American histories, and grapple with diverse approaches to understanding the past. Additionally, this course provides an opportunity to engage with original materials pertaining to early American histories in the Williams College Archives/Special Collections and Art Museum.

Class Format: Remote course. Class will meet synchronously on Zoom once per week for group conversation, with additional time devoted to Glow discussion posts and other activities. Students are encouraged to virtually meet with the instructor one-on-one to work on writing and projects.

Requirements/Evaluation: active participation in class discussions, several short essays based on readings and discussion topics, museum/archives exercise, final essay

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: limited to first- and second-year students who have not yet taken a 100-level course in History; juniors and seniors only with the permission of the instructor

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Short essays (3-5 pages) spaced throughout the semester with instructor feedback on writing skills as well as historical content; written reflection and analysis related to museum/archives visit with original materials; final essay (8-10 pages) due at end of semester that synthesizes findings from across the whole semester and allows students to closely examine primary/secondary sources; regular opportunities to conference with instructor about writing ideas and drafts.

Difference, Power, and Equity Notes: This course delves into histories and experiences of diverse early Americans, including substantial focus on Native American/Indigenous and African/African American peoples. It introduces students to foundational methods for historical study, including decolonizing methodologies from Native American and Indigenous Studies (NAIS) and African American histories, along with critical vantages on Euro-American settler colonialism and the complex entanglements that arose in multiracial communities.

Spring 2021
SEM Section: R1  TR 11:30 am - 12:45 pm  Christine DeLucia

HIST 166  (F)  Cold War Films  (WS)
This history tutorial utilizes popular film as a vehicle to explore American Cold War culture. The Cold War was an intense period of political, ideological, cultural, and military struggle between the United States and the Soviet Union that took place after the Second World War. For every nuclear test, arms sale, or military operation, there was a propaganda ploy, rhetorical barb, or diplomatic ultimatum to match. Amidst this hostile competition between two incompatible ways of life--communism and capitalism; totalitarianism and democracy--an atmosphere marked by panic, secrecy, insecurity, paranoia, surveillance, and conformity pervaded American life. Given the vast cultural influence of movies, film during this era served as a vital ideological battleground. Moreover, cinema offers us a window into the cultural landscape of Cold War America, for film reflects, interprets, and shapes national identity in complex ways. The films examined in this course (for the most part, Hollywood productions from the mid-1940s to the mid-1960s) serve as unique historical documents and as cultural texts illuminating the ways filmmakers and audiences negotiated the challenges presented by the Cold War struggle. The films assigned for this course focus on a range of topics, including anticomunism, competing visions of Americanism, religion, the Hollywood Ten, J. Edgar Hoover and the FBI, the nuclear arms race, brainwashing, gender, race relations, and the eventual unravelling of the Cold War consensus. The historical analysis of film requires not only a close reading of the movies themselves, but also a clear understanding of the historical context in which they appeared. The readings paired with each film will help to clarify this context and offer interpretations of the films with which we will engage.

Class Format: In general, tutorial sessions will be held via Zoom. Should all students in a tutorial grouping request an in-person meeting, that request will be accommodated pending the availability of an appropriate room. A few larger group meetings will be held throughout the semester, in person for
on-campus students and on Zoom for remote students.

Requirements/Evaluation: Students will be required to complete formal writing assignments each week, alternating between 4-page reading response papers and 2-page critiques of their peers’ work. These writing assignments will be evaluated alongside preparedness for and performance in tutorial discussions.

Prerequisites: None, open to all students.

Enrollment Limit: 10

Enrollment Preferences: First and second year students will be given priority. If the course is overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between 4-page reading response papers and 2-page critiques of their peers’ work. They will receive feedback on each of these papers—in writing and in person—from both the professor and their tutorial partners. Throughout the semester these writing assignments will total 25-30 pages.

Fall 2020

TUT Section: RT1 TBA Jessica Chapman

HIST 167  (S)  Let Freedom Ring? African Americans and Emancipation  (WS)

Cross-listings: AFR 167  HIST 167  AMST 167

Primary Cross-listing

This course will examine African Americans’ transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.

Requirements/Evaluation: research paper, short writing assignments, class participation

Prerequisites: first-years and sophomores

Enrollment Limit: 19

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 167  (D2) HIST 167  (D2) AMST 167  (D2)

Writing Skills Notes: Students will work throughout the semester on research paper that concerns Emancipation in the US. Students will turn in segments of this paper in separate assignments. During the final weeks of the course students will stitch these components together. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: R1  TR 9:45 am - 11:00 am  Gretchen Long

HIST 306  (S)  Indigenous Narratives: From the Fourth World to the Global South  (DPE) (WS)
Secondary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashelhiyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10 -pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 369 (D2) HIST 306 (D2) COMP 369 (D1) ARAB 369 (D1)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Spring 2021

SEM Section: R1 MR 1:30 pm - 2:45 pm Amal Eqeiq

HIST 391 (S) When India was the World: Trade, Travel and History in the Indian Ocean (DPE) (WS)

Cross-listings: GBST 391 ASST 391 HIST 391

Primary Cross-listing

What do Ibrahim Ben Yiju, a Jewish merchant from 11th century Yemen, Ibn Batutah, a Muslim scholar from 15th century Morocco and Captain Kidd, a 17th century English pirate have in common? All three men travelled and lived in the Indian Ocean region! This course explores the history of one of the world's oldest maritime highways that has connected the diverse cultures of Asia, Africa and Europe for millennia, thus making it a vital element in the birth of globalization. Moving away from conventional land-centric histories, we will focus instead on understanding the human past through oceanic interactions. South Asian ports and port cities remained the fulcrum of the Indian Ocean world throughout its history; traders, travellers, nobles, scholars, pilgrims and pirates from all over the world travelled to the Indian coast in search of adventure, spices, knowledge and wealth. Thus we will primarily focus on India's role in the Indian Ocean roughly from the rise of Islam in the seventh century CE through the expansion of various European communities in the region and the subsequent rise of the global economy and colonialism in the nineteenth century. Rather than following a strict temporal chronology we will concentrate on themes such as travel and adventure; trade and exchange; trust and friendship; religion and society;
pilgrimage; piracy; the culture of port cities; and food across time.

Requirements/Evaluation: class participation and weekly responses to readings, 4 short papers (4-5 pages), an oral presentation and final research (10 pages) paper based on any one of the 4 papers written during the course.

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: history majors and students with demonstrable interest in maritime/Indian Ocean history

Expected Class Size: 10-12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 391 (D2) ASST 391 (D2) HIST 391 (D2)

Writing Skills Notes: Students will write 4 short papers (4-5 pages) each and receive detailed feedback from the instructor. One of the four papers will become the basis of a final research paper (10-12 pages) on which each student will work closely with the instructor and receive feedback on improving research and writing skills.

Difference, Power, and Equity Notes: This course questions the conventional view that global interconnectedness was the result of Europe's discovery of 'new worlds'. Instead, it centers non-European actors in facilitating global networks before colonialism. Throughout, students will critically engage questions of how Asian and African players forged and shaped global connections across the Indian Ocean arena and examine the ways in which these contributions have been overshadowed in traditional historiography.

Spring 2021

SEM Section: R1 TR 8:30 pm - 9:45 pm Aparna Kapadia

HIST 482 (F) Race and American Foreign Relations (WS)

From its origins, American society has been suffused with notions of white superiority and racial hierarchies that have underpinned the nation's foreign policy. Ideologies of race factored heavily into the nineteenth century process by which the United States expanded its territorial control across the North American continent and established an empire of its own. Racialized thinking persisted at the heart of U.S. foreign relations in the twentieth century, influencing everything from the administration of empire in the Caribbean and the Pacific and commercial expansion into central America to the decision to use nuclear weapons against Japan, the diplomatic path to war in Vietnam, and more. The defeat of fascism and Nazism in World War II posed serious challenges to the premises of white supremacy, while ushering in a Cold War that would become inextricably bound with the process of decolonization. American diplomats were forced to reckon with the challenges domestic racism posed to their foreign policy goals, while black internationalists became increasingly involved with global struggles for liberation and equality. While the global color line grew more hotly contested, white supremacist thinking proved as enduring as it was mutable. This upper division tutorial surveys leading scholarship on a range of topics that centers race as a category for understanding American foreign relations.

Class Format: This tutorial can be take entirely remotely. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: None, open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior coursework related to U.S. foreign relations. If the course is overenrolled, students may be asked to complete a questionnaire to determine enrollment.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners.
**Fall 2020**

**TUT Section: RT1**  TBA  Jessica Chapman

**HIST 483 (S) Sport and Diplomacy**  (DPE) (WS)

Sport has emerged in recent years as a hot topic of study among diplomatic historians. Once considered a marginal topic, sport is now seen as a critical window into the world of international relations. Recent works address not only official state policies pertaining to international sport, but also issues of nationalism, imperialism, racial ideologies, transnational migration, public diplomacy, culture in foreign relations, and the role of sport governing bodies in the international system. In this tutorial, students will read key essays and monographs that contribute to this emerging literature, alongside state-of-the-field essays that explore the methodological and thematic approaches that historians have used to grapple with the complex interactions between countries, peoples, and cultures that occur within the realm of sport.

**Class Format:** This course will be remote. If conditions allow, I may set up in-person tutorial sessions for on-campus students.

**Requirements/Evaluation:** Students will write and present orally six essays (5-7 pages each) on assigned readings each week; students not presenting an essay in a given week will produce a 2-3 page written critique.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and students with some prior course work in foreign relations and/or international history

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** Students will each write six (6) tutorial papers of 5-7 pages and six (6) critiques of 2-3 pages. The professor will provide weekly written feedback on each of these papers, and they will be discussed at length in tutorial sessions.

**Difference, Power, and Equity Notes:** Modern sport emerged in a colonial context as a means of asserting and maintaining control and has become a key site of contestation over the color line in both domestic and international contexts. International sport competitions like the Olympics and the World Cup have served as proxies for military power and showcases for national cultures in ways that have both revealed and concealed ongoing racial tensions. This course explores diversity, power, and equity in international sport.

**Spring 2021**

**TUT Section: RT1**  TBA  Jessica Chapman

**HIST 484 (F) Victorian Psychology**  (WS)

Although the Victorian era has traditionally been considered a psycho-social model of emotional inhibition and sexual prudery, recent studies, by scholars in various disciplines, have demonstrated that this characterization grossly oversimplifies the attitudes toward emotional and sexual life held by Europeans and Americans in the second half of the nineteenth century. This course will investigate professional and popular ideas about human psychology during the Victorian era. We will attempt to define and understand what people thought and felt about insanity, the unconscious, dreams, sexuality, the relationship between natural impulses and civilized society, child psychology and development, the psychological differences between men and women, the relationship between the physical and the psychical. The course will concentrate on the close reading and analysis of primary documents from the era.

**Class Format:** This tutorial will be taught remotely on Zoom. Once they have been selected, student pairs will meet with the professor for an hour at a regularly scheduled time each week.

**Requirements/Evaluation:** Students will meet with the instructor using Zoom in pairs once a week. Every other week each student will present a paper of approximately 5-7 pages on a topic determined by the instructor, due by 5pm the day before the tutorial meeting. The student not writing the paper will critique the paper written by their tutorial partner. Each student will write six papers and serve as a critic on the six papers of their tutorial partner.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Junior and senior History majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Fulfills the department's seminar requirement for graduation with a degree in History

**Distributions:** (D2) (WS)

**Writing Skills Notes:** As a tutorial, with each student writing a paper every other week, this course meets the writing skills requirement.

**Fall 2020**

TUT Section: RT1 TBA Thomas A. Kohut

**HIST 485 (S) Freud: A Tutorial** (WS)

**Cross-listings:** PSYC 158 HIST 485

**Primary Cross-listing**

This tutorial is devoted to the systematic reading of the principal works of Sigmund Freud, one of the deepest, subtlest, and most influential thinkers of the last one-hundred years. Students will read Freud's work more or less chronologically, beginning with his writings on hysteria and concluding with his deeply pessimistic essay, *Civilization and Its Discontents*. In tutorial, we will consider the development of Freud's thought over the course of his professional life: his general psychological writings on the nature and functioning of the human psyche, his clinical writings on psychoanalysis as a form of treatment, and his cultural writings on art and artists, on the origin of human society, on religion, and on the relation of the individual to society and civilization. We will not be considering the relevance of Freud's ideas for purposes that transcend his own psychological agenda in the tutorial. Nor will we be much concerned with assessing whether Freud was "right" or "wrong" or whether his thought has clinical relevance today. Instead, we will seek to understand Freud as much as possible on his terms and not on ours, as a historical figure of originality, complexity and contradiction, whose thought deserves close reading and deep understanding within the context of Freud's thought itself.

**Class Format:** students will write and present orally six essays of 6-7 pages on assigned reading every other week; students not presenting an essay in a given week will be responsible for critiquing the presented essay

**Requirements/Evaluation:** student grades will be assigned only at the end of the semester based on their papers, their critiques, and their performance in tutorial discussion

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** juniors and seniors and History majors needing a 400-level seminar or tutorial to fulfill the requirements for a degree in History

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** fulfills History's 400-level graduation requirement

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 158 (D2) HIST 485 (D2)

**Writing Skills Notes:** As a tutorial, this course is by definition writing skills, both in terms of the number of papers that students will produce (six) and in terms of the focus on writing during every tutorial session. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Spring 2021**

TUT Section: RT1 TBA Thomas A. Kohut

**HIST 488 (F) Fictions of African American History** (DPE) (WS)

**Cross-listings:** HIST 488 AMST 488

**Primary Cross-listing**

This course examines African American fiction, largely from the late 19th and very early 20th century. These Black authors, none of them professional historians, try to bring African American History to light in an era before this history was taken seriously by the white academy. Many of the authors we examine were activists and journalists who set their novels and short stories during Slavery and Emancipation. We will consider inherently radical act
of reading and writing in a society where black literacy was illegal until after the Civil War. Alongside the fiction we will read modern historiography of the era. We will also delve into some of slave narratives published after Emancipation. Readings will include works by Booker T. Washington, James Weldon Johnson, Charles Chesnutt, Paul Laurence Dunbar, and Sutton Griggs. This is a tutorial and will be taught online.

**Requirements/Evaluation:** Every week a student will write either an essay or a critique. For the final assignment students may either write a review of 2-3 works of historiography OR substantially revise an essay or critique they did during the semester.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** History, Africana, and American Studies Majors will have preference. As well as students who have never taken a tutorial.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 488 (D2) AMST 488 (D2)

**Writing Skills Notes:** Students will write every week (essays and critiques) and receive feedback from their partners and from the professors. The final assignment of the semester is major revision of a one essay or critique. Students will receive feedback on their paper's organization and argument as well as points of style. Since we will be reading both fiction and historiography, we will discuss as a group the different challenges each form poses to essay writing.

**Difference, Power, and Equity Notes:** African Americans writing during this time lived under the laws and customs of Jim Crow and White Supremacy. Lacking political power, they turned to the power of the written word. We will evaluate the way writing and fiction helped ameliorate (or not) the racial power structures.

Fall 2020

TUT Section: RT1  TBA  Gretchen Long

**HIST 489 (F) Appropriating History. Who Owns the Past?** (DPE) (WS)

**Cross-listings:** HIST 489 ARAB 408

**Primary Cross-listing**

Who owns the past? How have modern states appropriated history? The political use of history is a critical ingredient in any nationalist discourse. In such narratives, the selective utilization of archaeology and ancient history often serves important functions in articulating a conscious and deliberate national history. Thus, in nationalist renderings, archaeological sites and artifacts are not merely relics of the past; they can also be potent and conspicuous symbols of national identity for the modern nation-state. In the Middle East, with its rich archaeological heritage, the relationship among politics, nationalism, and archeology has been particularly strong and interesting. This tutorial addresses the powerful nexus between history and nationalism with a special emphasis on the Middle East. It will explore the battle over who controls history and the "stuff" of history such as antiquities, land, heritage sites, and museum exhibitions and how that control has expressed itself in several Middle Eastern countries, including Iraq, Israel, Turkey, Egypt, Lebanon, and Iran. Furthermore, it will discuss how archaeology entered the political discourse, the ethics of repatriation and appropriation, and archaeology's role in contested terrains and political disputes.

**Class Format:** This tutorial can be taken entirely Remote. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

**Requirements/Evaluation:** Format: tutorial. Requirements: 5-7 page essays or 2-3 response papers due each week

**Prerequisites:** None, though a demonstrated interest in the Middle East is important.

**Enrollment Limit:** 10

**Enrollment Preferences:** Seniors and to History and Arabic Studies majors.

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 489 (D2) ARAB 408 (D2)
Writing Skills Notes: As a tutorial, students will receive extensive feedback on their writing each week both from the professor and their partner. Further, students will be given the opportunity to rewrite two of their papers in light of the criticism that they receive during the semester.

Difference, Power, and Equity Notes: This is a tutorial on a particular form of power, namely how the powerful seek to control the past. The ultimate question that this tutorial seeks to answer is: who owns the past? Which history is emphasized and which histories are overlooked? How do modern nation states in different Middle Eastern states cherry-pick the past in order to maintain and develop a national narrative that is suitable to the political and economic powers often at the expense of religious or linguistic minorities.

HIST 490  (S)  Memory, History, and the Extermination of the Jews of Europe  (WS)
Cross-listings: HIST 490  JWST 490

Primary Cross-listing
This course is about the postwar legacy of the Holocaust. Nazi Germany's extermination of European Jews has come to be a moral and cultural touchstone for people in Europe and in many other parts of the world. This tutorial explores a series of topics from the immediate aftermath of the Second World War to the present. Engaging with a wide-range of sources, we will wrestle with historical, legal, moral, political, and cultural issues and debates that have emerged out of the confrontation with the extermination of the Jews of Europe. They include: Why was the Holocaust "unprecedented" and "unimaginable"? Is it a Jewish story or universal story? Does the Holocaust raise different issues than other historical events for the historian? How should the Holocaust be represented in words and images, and what are the implications of different means of representing it? Has Germany faced up to its past? Were Germans also victims of World War II? Who were the "bystanders" as compared to the "perpetrators"? Were the postwar trials of perpetrators a travesty of justice? What "lessons" have we learned and should we learn from the Holocaust? By the end of the course, students will have grappled with the ongoing controversies that have arisen among scholars, artists, governments, and lay people about the meaning of the Holocaust for the postwar world. In a world in which extraordinary acts of violence continue to be perpetrated and many nations' pasts are marked by episodes of extreme criminality and/or trauma, exploring the manner by which one such episode has been remembered, avenged, and adjudicated has relevance for considering other societies' efforts to confront their own traumatic pasts.

Class Format: Remote; tutorial; class time consists of weekly one-hour sessions with the instructor and a fellow student

Requirements/Evaluation: Every other week the student will write and present orally a 5- to 7-page paper on the assigned readings of that week; on alternate weeks, the student will write a 2-page critique of the fellow student's paper; a final written exercise is a thought piece on the issues raised in the tutorial to cap off the semester's work.

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: History majors and Jewish Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 490 (D2) JWST 490 (D2)

Writing Skills Notes: Bi-weekly 5- to 7-page papers. Students will receive regular and individualized feedback on their writing to help them work on different writing issues throughout the semester.

Spring 2021
TUT Section: RT1    TBA    Alexandra Garbarini

HIST 495  (S)  Stalinism  (WS)

The quarter century during which Joseph Stalin ruled the Soviet Union witnessed some of the twentieth century's most dramatic events: history's fastest plunge into modernity, an apocalyptic world war, and the emergence of a socialist state as a competitive world power. This tutorial will offer students a deep dive not only into the historical depths of the Stalin era but into the gloriously complex historiographical debates that surround it. Some of the questions that will animate the readings, writings, and discussions that tutorial students will engage in are as follows: Did Stalin depart from or
represent a continuation of the policies introduced by his predecessor Vladimir Lenin? Did he rule in a totalitarian fashion or in ways comparable to other twentieth century regimes? Were his policies destructive or possibly productive? And perhaps most boggling of all: why did no one resist Stalinist rule?

Class Format: TBD

Requirements/Evaluation: Each week, a student either will write a 5-7-page essay on the assigned readings or will be responsible for offering an oral critique of their partner's work. Both tutorial partners will be responsible for completing 200-300 pages of reading each week.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Each student will write five 5-to-7-page papers on which the instructor will provide written feedback regarding grammar, style, and argument. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

HIST 496 (F) Gandhi: History, Ideas and Legacy (WS)

Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

Primary Cross-listing

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively
In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; *Dialogo*, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (*Miscellanea curiosa*, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (*Atlas Coelestis*, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the *Gutenberg Bible* (c. 1450) and a Shakespeare *First Folio* (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported *Sidereus Nuncius*, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

**Class Format:** Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

**Requirements/Evaluation:** class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** if overenrolled, preference by written paragraph of explanation of why student wants to take the course

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (WS)

**Writing Skills Notes:** Comments on submitted papers will aid in writing skills

**INTR 320 (F) Angela Davis: Political Theory, Activism, and Alliances (DPE) (WS)**

**Cross-listings:** LEAD 319 PSCI 376 INTR 320

**Primary Cross-listing**

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: *Angela Davis: An
Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.

Requirements/Evaluation: Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

Prerequisites: Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

Spring 2021
JLST 272 (S) Free Will and Responsibility (WS)

Cross-listings: PHIL 272 JLST 272

Secondary Cross-listing

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? Must it be unaffected by any outside influences? If so, freedom may seem impossible since we're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The real question, then, seems to be whether, and how, free choice is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Class Format: This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.

Requirements/Evaluation: Five tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)

Prerequisites: one PHIL course

Enrollment Limit: 10

Enrollment Preferences: current and prospective Philosophy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Spring 2021

JWST 268 (F) Where are all the Jews? (DPE) (WS)

Cross-listings: REL 268 ARAB 363 COMP 363 JWST 268

Secondary Cross-listing

Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israélite Universelle's schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews' departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none
Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

LATS 428  (F)  Performing Latina/o Cultural Citizenship  (WS)

Being conscious of citizenship is a commonplace preoccupation for most Latinas/os in the United States of America. How can Latinas/os belong to the national imagined community when many are reminded daily that they are second-class citizens, and even presumed to be criminals, rapists, and drug dealers? How do Latinas understand and negotiate an imperialist and colonial past of violence and deterritorialization? How do Latinas/os feel when they historicize citizenship and discover hidden archival scripts documenting how their ancestors’ land was stolen, or how they were forced to migrate in response to military interventions or invasions that caused economic devastation and death? In this course students will critically think about past and present everyday performances and transactions of citizenship, its many embodiments, and structures of feeling. Most important, students will embark on a theoretical journey of research and readings to make sense of how citizenship is experienced and felt and how it is historically situated en el aquí y ahora. Students will explore, within an interdisciplinary perspective and a critical cultural studies framework, the many forms of citizenship, including sexual citizenship, intimate citizenship, economic citizenship, diasporic citizenship, transnational citizenship, academic citizenship and others.

Requirements/Evaluation:  none

Prerequisites:  none

Enrollment Limit:  12

Enrollment Preferences:  LATS Concentrators

Expected Class Size:  10

Grading:  yes pass/fail option,  yes fifth course option

Unit Notes:  LATS 400 Level seminar

Distributions:  (D2)  (WS)

Writing Skills Notes:  5 papers at 2 pgs each (each receiving feedback); assignments will be responses to specific articles/topics covered in class; attention will be paid to organization of ideas, argument, and critical thinking. Students will also submit a midterm paper (5pgs) and a final paper (8pgs) on a topic of their choice, in consultation with the professor.

LATS 462  (F)  Art of California: Pacific Standard Time  (DPE)  (WS)

Cross-listings:  ARTH 462  AMST 462  ARTH 562  LATS 462

Secondary Cross-listing

In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation:  Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

Prerequisites:  ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

Enrollment Limit:  12

Enrollment Preferences:  senior Art major and senior Latina/o Studies concentrators

Expected Class Size:  12

Grading:  no pass/fail option,  no fifth course option
Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 462 (D1)  AMST 462 (D2)  ARTH 562 (D1)  LATS 462 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

LEAD 221 (F) Examining Inconvenient Truths: Climate Science meets U.S. Senate Politics (WS)

Cross-listings: GEOS 221  ENVI 222  LEAD 221

Secondary Cross-listing

Former President Barack Obama once said: "There's one issue that will define the contours of this century more dramatically than any other, and that is the urgent threat of a changing climate." While consensus regarding the causes and impacts of climate change has been growing steadily among scientists and researchers (and to some extent, the general public) over the past two decades, the U.S. has yet to confront this issue in a manner consistent with its urgency. This lack of action in the U.S. is at least partly due to the fact that science provides necessary but insufficient information towards crafting effective climate change legislation and the unfortunate fact that climate change has become a highly partisan issue. The primary objective of this tutorial will be to help students develop a greater understanding of the difficulties associated with crafting climate change legislation, with an emphasis on the role of science and politics within the legislative process. To this end, the tutorial will address how the underlying scientific complexities embedded in most climate policies (e.g., offsets, carbon capture and sequestration, uncertainty and complexity of the climate system, leakage) must be balanced by and blended with the different operational value systems (e.g., economic, social, cultural, religious) that underlie U.S. politics. Over the course of this tutorial, students will develop a nuanced sense of how and when science can support the development of comprehensive national climate change legislation within the current partisan climate. This course will take a practical approach, where students will craft weekly policy oriented documents (e.g., policy memos, action memos, research briefs) targeted to selected members of the current U.S. Senate Environment and Public Works Committee, the committee that has historically held jurisdiction over a majority of the major climate change bills that have moved through the legislative process. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: Hybrid: this class will be mostly remote, but there may be some in-person meetings outside for those on campus and interested, weather permitting.

Requirements/Evaluation: weekly papers (2 - 5 pages in length) and a final oral presentation

Prerequisites: none

Fall 2020

TUT Section: RT1    TBA    Alex A. Apotsos
LEAD 239 (S) Music in the Global Cold War (WS)

Cross-listings: MUS 239 LEAD 239

Secondary Cross-listing

Throughout the Cold War (1947-1991), music was deployed as a weapon, as a source of nationalist and ideological inspiration, as a form of political protest and resistance, and as propaganda. Music both echoed and helped shape political views and, therefore, prompted various forms of regulation and censorship (McCarthyism in the U.S.; the Union of Soviet Composers). To counter Soviet claims of American cultural inferiority and racism, the U.S. sponsored numerous musical diplomacy efforts showcasing both jazz (Armstrong; Ellington; Brubeck) and classical musicians and composers (Bernstein; American orchestras). Cold War politics and the threat of nuclear war influenced musical styles (Copland; Soviet Socialist Realism; the popular American folk music revival; serialism; rock behind the Iron Curtain), specific musical events (Tokyo East West Music Encounter; concerts celebrating the fall of the Berlin Wall), and individual careers (Shostakovich; Robeson; Van Cliburn). To investigate music's political roles and capacity for expressing communist and democratic capitalist ideologies, we will adopt a case study approach. The Cold War was a global political and, frequently, militaristic struggle. Though our focus will be on music in the U.S.S.R. and U.S.A., we will also consider musical developments impacted by the Cold War throughout Western and Eastern Europe, in Latin America, and in East Asia.

Class Format: Hybrid, meeting twice per week. Class discussion will be central to this course.

Requirements/Evaluation: 20% = Participation; 20% = Paper #1, 5-6 pages; 25% = Paper #2, 8 pages; 35% = Paper #3, 12 pages, due during exam period

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Students with relevant experience in Political Science, History, or Music studies.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

MUS 239 (D1) LEAD 239 (D2)

Writing Skills Notes: Students will write three papers during the semester: a 6 page, 8 page, and a 12 page paper. Drafts of papers 2 and 3 will be required prior to the due dates listed below. This is a "writing skills" course. Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments.

Spring 2021

LEC Section: H1 MR 1:30 pm - 2:45 pm W. Anthony Sheppard

LEAD 240 (F) Great Astronomers and Their Original Publications (WS)

Cross-listings: ASTR 240 STS 240 HSCI 240 LEAD 240

Secondary Cross-listing

In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; Dialogo, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (Miscellanea curiosa, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (Atlas Coelestis, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (relative of special, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929); Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the Gutenberg Bible (c. 1450) and a Shakespeare First Folio (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported Sidereus Nuncius, shown to be a modern construction. The course will be taught in collaboration
between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

Class Format: Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: if overenrolled, preference by written paragraph of explanation of why student wants to take the course

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

CON Section: H3  Cancelled

LEAD 255 (S) Weaponized Leadership: Demagoguery and Populism in Contemporary Perspective (WS)

Cross-listings: LEAD 255  PSCI 255

Primary Cross-listing

Since Donald Trump began his rhetorical assault on immigrants, the political establishment, and the free press, all in the name of "the American people," terms like demagoguery and populism have come to dominate American political discourse. Demagogues and populists are often defined as bad leaders who manipulate the emotions of their audiences for the sake of personal ambition--leaders who turn a good thing (popular government) into something dangerous. At the same time, and as Trump has shown, many of the tactics that populists and demagogues deploy are politically effective. Protest leaders tell their audiences to get angry and to stand up and fight precisely because this kind of rhetoric can move an audience to action when rational persuasion cannot. And, many of the leaders we think of as great today were regarded as demagogues and populists during their own times. Puzzles like these point to our current political moment. How useful are terms like demagoguery and populism for understanding leadership? How have these terms been weaponized to distort politics instead of clarifying it? Should we reserve these terms for leaders who are truly bad, and if so, what counts as a "truly" bad leader (as opposed to one we just happen not to like)? Or can demagogic and populists tactics be deployed in better and worse ways? We will approach these questions through a survey of classic and contemporary writings on popular leadership, from Thucydides and Machiavelli to present-day social science. With these competing theories in view, we will read historical and biographical accounts of some of history's most controversial leaders--including Bolivar, Lenin, FDR, and Hugo Chavez--so as to better understand the popular leaders who dominate much of our politics today.

Class Format: This course will be hybrid, combining elements of synchronous meetings and asynchronous content so as to allow both in-person and remote students to participate.

Requirements/Evaluation: weekly writing assignments, a medium-length essay, and the option either to write a second medium-length essay or to develop the first essay into a longer research paper

Prerequisites: None

Enrollment Limit: 14

Enrollment Preferences: Leadership Studies concentrators and Political Science majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
LEAD 255 (D2) PSCI 255 (D2)

**Writing Skills Notes:** Each student will write a critical essay responding to a particular day's reading assignment, with the option to rewrite. Students will write a 10-12 page research paper on a topic they will have discussed with me. For the final assessment, students will have the option either to write a second 10-12 page research paper on a topic different from the first, or to expand their original paper into a 25-30 page research essay. I will provide written feedback regarding grammar, style, and argument.

Spring 2021

SEM Section: H1 MR 3:15 pm - 4:30 pm Charles U. Zug

LEAD 312 (S) American Political Thought (WS)

**Cross-listings:** PSCI 312 LEAD 312

**Secondary Cross-listing**

From democracy to liberty, equality to community, foundational ideas -- about what makes for good government, about what constitutes the good society, about what is necessary to lead a good life -- define the American political tradition and consume the American political imagination. Designed not only to uncover these (sometimes melodious, sometimes cacophonous) values but also to place current ideological debates about them in a broader developmental context, this tutorial will offer a topical tour of American political thinking from the birth of nationalism in the colonial period to the remaking of conservatism and liberalism in the early twenty-first century. Utilizing primary source material ranging from presidential speeches to party platforms, newspaper editorials to novels, we will seek to interrogate -- reconciling where possible, distinguishing where necessary, interpreting in all instances -- the disparate visions and assessments of the American political experience offered by politicians, artists, intellectuals, activists, and ordinary citizens over the course of more than two centuries. Our focus, then, is nothing less than the story of America -- as told by those who lived it.

**Class Format:** For spring 2021, this course will be taught remotely, with a few synchronous seminar classes at the start and end of the course bookending weekly synchronous tutorial sessions.

**Requirements/Evaluation:** five 5- to 7-page essays, five 2- to 3-page critiques, and a revised and extended 10- to 12-page final essay

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Political Science majors and prospective majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

PSCI 312 (D2) LEAD 312 (D2)

**Writing Skills Notes:** Weekly writing with extensive attention to feedback, revision, and improvement.

Spring 2021

TUT Section: RT1 MW 8:15 am - 9:30 am Justin Crowe

LEAD 319 (F) Angela Davis: Political Theory, Activism, and Alliances (DPE) (WS)

**Cross-listings:** LEAD 319 PSCI 376 INTR 320

**Secondary Cross-listing**

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: *Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.*

**Requirements/Evaluation:** Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24hours before the seminar begins.
Prerequisites: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

Fall 2020

SEM Section: R1 TBA Joy A. James

LEAD 350 (S) Leadership in American Political Development (WS)

Cross-listings: LEAD 350 PSCI 356

Primary Cross-listing

Major change in American politics takes place when an old political order collapses and a new one emerges to replace it, sometimes through violent struggle. Before the Civil War and Reconstruction, for example, states enjoyed autonomy over most areas of politics—including whether or not to maintain slavery. Afterwards, the Federal Government began to assert itself vis-à-vis civil rights and liberties in ways it had never previously done. Relatively, before the Great Depression, state government basically managed their own economies; but the New Deal gave the federal government power to create and manage a new, national economy. What are the deep sources of these architectonic changes? Who or what is responsible for them? And what is the best way to study them? This course will survey the alternative and competing ways in which leading thinkers and scholars answer these questions. Some argue that dynamic individuals—such as Lincoln and Franklin Roosevelt—drive political change, and that change would not happen without such leaders. Others contend that these so-called "leaders" are themselves mere bi-products of impersonal forces, such as party realignments, critical elections, and social, economic, and technological changes. Our goal will be to understand these theories on their own terms, and then to evaluate them with reference to some case studies from American history. To this end, we will study theoretical writings but we will also read selections from histories and biographies that draw a more intimate, nuanced picture of the leaders, groups, and personalities involved in America's most transformative political moments.

Class Format: This course will be hybrid, combining elements of synchronous meetings and asynchronous content so as to allow both in-person and remote students to participate.

Requirements/Evaluation: weekly writing assignments, a medium-length essay, and the option either to write a second medium-length essay or to develop the first essay into a longer research paper

Prerequisites: previous course in Leadership Studies, American politics, or American history

Enrollment Limit: 14

Enrollment Preferences: Leadership Studies concentrators and Political Science majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 412 (F)  Gandhi: History, Ideas and Legacy  (WS)
Cross-listings: REL 412  LEAD 412  GBST 412  ASST 412  HIST 496
Secondary Cross-listing
This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India’s freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the ‘father of the Indian nation’, however, Gandhi is not only known for his political ideas but also for his deep engagement with aspect of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of ‘Mahatma’ or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi’s own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner’s paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

Fall 2020
TUT Section: RT1   TBA   Aparna Kapadia

MAST 245 (F)  Hydrothermal Vents  (WS)
Cross-listings: GEOS 245  MAST 245  ENVI 245
Secondary Cross-listing
Hydrothermal vents are perhaps the most alien places on Earth. Many are located on active volcanoes, especially at mid-ocean ridges, where magma super-heats water to form underwater hot springs. Others are located at deep-sea fracture zones, where the exothermic reaction of serpentinization provides the heat to drive hydrothermal circulation. Hydrothermal vents are extreme environments which host unique organisms, like giant tubeworms
and giant hydrothermal clams, that are found only at these deep sea oases. This tutorial will examine how and where hydrothermal vents form, the strange and ancient life there, and why they are relevant despite feeling so far removed from our daily lives. Hydrothermal vent science draws on geology, physics, chemistry, and biology, so prior interest or coursework in one or more of those fields is suggested. This course is in the Oceans and Climate group for the Geosciences major.

**Class Format:** This class will meet remotely. Students will meet in pairs weekly with the instructor for one hour. The entire class will meet once at the beginning of the semester for organizational purposes and at the end of the semester for a synthesis.

**Requirements/Evaluation:** Five 5-page papers, critiques of tutorial partner's papers, final reflection, and participation

**Prerequisites:** none, open to all students

**Enrollment Limit:** 10

**Enrollment Preferences:** 1. sophomores, 2. first-years, 3. junior and senior GEOS majors and MAST concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

GEOS 245 (D3) MAST 245 (D3) ENVI 245 (D3)

**Writing Skills Notes:** Students will write six 5-page papers. The first five papers will be written every other week, alternating with a tutorial partner. Students will receive oral and written feedback during a discussion with the instructor and their tutorial partner. Students will write a final 5-page reflection paper to synthesize their learning.

**Fall 2020**

TUT Section: RT1   TBA   Lisa A. Gilbert

**MAST 266 (S) Reading Water** (WS)

**Cross-listings:** ENVI 266  MAST 266

**Primary Cross-listing**

Water has such profound and far-reaching influence on individuals, societies, and the planet that it simultaneously risks going overlooked and appearing clichéd. Human beings are made of it and need it to live, yet will die if immersed in it. It is venerated by cultures around the world, yet most people either cannot access clean water, or don't know where their clean water is piped in from. It covers the earth's surface, and has shaped it over eons, yet scientists are still not sure how it came to be here in the first place. This wide-ranging influence also presents challenges for traditional academic structures; thinking about water demands crossing times, spaces, and disciplines. This course will explore the wide-ranging and diverse ways water impacts individuals, cultures, and the environments they call home by drawing on a range of content: hydrology, literature, political theory, storytelling, geography, and more. To do this, we will also develop and examine methods of critically reading as "non-experts"—reading scientific articles as rhetorical objects and reading for scientific principles in literature, for instance—to explore what interdisciplinary thinking opens up (and inhibits), and thus how to effectively engage with and create interdisciplinary work. The goal here is not to define water's cultural or scientific importance, or to determine which disciplines "best" combine to explain water, or to come up with humanities-based solutions to "the water crisis." Rather, these texts, and the water that flows through them will help us explore the opportunities and limits of human perceptions of the other-than-human world. It will help us consider the extent to which those perceptions both shape, and are shaped by, a seemingly simple molecule.

**Class Format:** This class will be remote, meeting synchronously. The class will be primarily discussion-based, and will ask students to lead and structure discussions. Students will have questions, reflections, and insights prepared before class, and use those to drive our in-class activities.

**Requirements/Evaluation:** 100pg of reading a week, give or take. Approx 20-25 pages of written work throughout the semester.

**Prerequisites:** None

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference to majors, and then to sophomores and juniors, respectively.
Expected Class Size: 20  
Grading: yes pass/fail option, no fifth course option  
Distributions: (D1) (WS)  

This course is cross-listed and the prefixes carry the following divisional credit:  
ENVI 266 (D1) MAST 266 (D1)  

Writing Skills Notes: Students will write four papers of increasing complexity that will require workshopping and drafts. Each of these papers will receive forward-looking writing feedback from me. The first paper centers on paragraph-level stylistic choices, the second on argument/evidence connections, the third on genre, and the final paper synthesizes these writing skills. In addition, students' final grades will allow for revision of earlier papers to encourage and assess growth of writing skills.

MAST 402 (S) Senior Seminar: Perspectives on Environmental Studies (WS)  
Cross-listings: MAST 402 ENVI 412  
Secondary Cross-listing  
The Environmental Studies and Maritime Studies programs provide students with an opportunity to explore the myriad ways that humans interact with diverse environments at scales ranging from local to global. The capstone course for Environmental Studies and Maritime Studies, this seminar brings together students who have specialized in the humanities, social studies and the sciences to exchange ideas across these disciplines. Over the course of the seminar, students will develop a sustained independent research project on a topic of their choice, and they will have opportunities throughout the semester to meet with guest speakers to discuss environmental work outside the academy.  

Requirements/Evaluation: active participation, discussion leading, several smaller assignments and multi-step capstone project  
Prerequisites: declared major/concentration in Environmental Studies or Maritime Studies, ideally to be taken in final semester at Williams  
Enrollment Limit: 14  
Enrollment Preferences: Environmental Studies majors and concentrators, Maritime Studies concentrators  
Expected Class Size: 10  
Grading: no pass/fail option, no fifth course option  
Unit Notes: required course for students wishing to complete the Maritime Studies concentration  
Distributions: No divisional credit (WS)  

This course is cross-listed and the prefixes carry the following divisional credit:  
MAST 402 No divisional credit ENVI 412 No divisional credit  
Writing Skills Notes: This course is focused on building up cross-disciplinary writing and communication skills. There will be a multi-step capstone project that emphasizes writing, and there will be opportunities to revise and resubmit work.

MATH 392 (S) Undergraduate Research Topics in Graph Theory (WS) (QFR)  
Graph theory is a vibrant area of research with many applications to the social sciences, psychology, and economics. In this project-based tutorial, students will select among the presented topics and will develop research questions and undertake original research in the field. Student assessment is based on drafts of research project manuscript and presentations.  
Requirements/Evaluation: presentations and written project manuscript  
Prerequisites: MATH 355 or permission of the instructor  
Enrollment Limit: 10  
Enrollment Preferences: programming experience, students with interests in the intersection of combinatorics and graph theory
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS) (QFR)

Writing Skills Notes: This course will require multiple revisions of a manuscript related to the research project at hand. The final result will be a 10-20 page research article and the course will be designed as a writing intensive course.

Quantitative/Formal Reasoning Notes: The course deals with mathematical research in graph theory and is a quantitative and formal reasoning course.

Spring 2021
TUT Section: RT1 TBA Pamela E. Harris

MUS 239 (S) Music in the Global Cold War (WS)

Cross-listings: MUS 239 LEAD 239

Primary Cross-listing
Throughout the Cold War (1947-1991), music was deployed as a weapon, as a source of nationalist and ideological inspiration, as a form of political protest and resistance, and as propaganda. Music both echoed and helped shape political views and, therefore, prompted various forms of regulation and censorship (McCarthyism in the U.S.; the Union of Soviet Composers). To counter Soviet claims of American cultural inferiority and racism, the U.S. sponsored numerous musical diplomacy efforts showcasing both jazz (Armstrong; Ellington; Brubeck) and classical musicians and composers (Bernstein; American orchestras). Cold War politics and the threat of nuclear war influenced musical styles (Copland; Soviet Socialist Realism; the popular American folk music revival; serialism; rock behind the Iron Curtain), specific musical events (Tokyo East West Music Encounter; concerts celebrating the fall of the Berlin Wall), and individual careers (Shostakovich; Robeson; Van Cliburn). To investigate music's political roles and capacity for expressing communist and democratic capitalist ideologies, we will adopt a case study approach. The Cold War was a global political and, frequently, militaristic struggle. Though our focus will be on music in the U.S.S.R. and U.S.A., we will also consider musical developments impacted by the Cold War throughout Western and Eastern Europe, in Latin America, and in East Asia.

Class Format: Hybrid, meeting twice per week. Class discussion will be central to this course.

Requirements/Evaluation: 20% = Participation; 20% = Paper #1, 5-6 pages; 25% = Paper #2, 8 pages; 35% = Paper #3, 12 pages, due during exam period

Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Students with relevant experience in Political Science, History, or Music studies.

Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 239 (D1) LEAD 239 (D2)

Writing Skills Notes: Students will write three papers during the semester: a 6 page, 8 page, and a 12 page paper. Drafts of papers 2 and 3 will be required prior to the due dates listed below. This is a "writing skills" course. Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments.

Spring 2021
LEC Section: H1 MR 1:30 pm - 2:45 pm W. Anthony Sheppard

MUS 272 (S) Music and Meaning (WS)

Nearly everyone finds music meaningful, but what exactly does it mean? Without the help of words, this largely non-referential art presents special challenges to interpretation. While most would agree that musical sounds can do such things as mimic the rumbling of thunder, evoke the countryside, suggest the act of chasing, or express rage, the capacity of music to convey meaning remains controversial among scholars, performers, and listeners. Some, following music critic Eduard Hanslick, assert that musical works are essentially "tonally moving forms"—patterns of sound with no
reference to the world outside themselves; a work's meaning derives solely from the interplay of musical elements. Others counter that music can signify aspects of human experience, its sounds and structures not merely referring to the outside world but even relating complex narratives. Certain writers have argued that, without the assistance of language, what music signifies remains vague, while others insist that the meaning of music is actually more precise than that of words. In this tutorial course, we will explore a range of questions regarding musical meaning. How can combinations of pitches, rhythms, and instrumental timbres signify something beyond themselves? Is the subject of musical meaning more relevant to some historical styles or genres than others? How can we determine the meaning(s) of a work? Should we concentrate on formal processes within the music? Consider socially constructed meanings? Seek the composer's intentions? Emphasize our personal responses? What makes some interpretations more convincing than others? In grappling with these questions, students will engage with writings by Agawu, Cone, Hanslick, Kramer, Langer, Lewin, Newcomb, and Schopenhauer, among others. Music to be studied includes works by Beethoven, Schubert, Chopin, Brahms, Mahler, Tchaikovsky, Ravel, Stravinsky, Glass, and Adams.

Class Format: This course will be taught remotely. During the first and last weeks of the semester, students will attend one or two online group classes; in the other weeks, students will meet with the instructor in pairs for a one-hour, online session at a mutually convenient time.

Requirements/Evaluation: Students will write and present a 5- to 6-page paper every other week and a 1-2 page response to their partner's paper in the alternate weeks; evaluation will be based on five papers/presentations, and five responses.

Prerequisites: Ability to read music, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Any student who expresses a strong interest in the course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: In this tutorial course, students will write and present a 5- to 6-page paper every other week (five papers total) and a 1- to 2-page response to their partner's paper in the alternate weeks (five responses total). Through discussion in the tutorial sessions and comments on the papers, the course will place strong emphasis on developing students' critical thinking and writing skills.

Spring 2021
TUT Section: RT1 TBA Marjorie W. Hirsch

MUS 273 (F) Dangerous Music (WS)

As a largely non-referential art whose meanings are far from transparent, music might seem to pose little danger. How could mere sounds represent a threat? Yet precisely because its meanings can be obscure, enabling it to achieve its ends surreptitiously, music has intertwined with danger throughout history. With its power to stir the emotions, stimulate bodily movement, encode messages, and foment rebellion, music has often been perceived as an agent of harm. Plato claimed that too much music could make a man effeminate or neurotic, and warned that certain musical modes, melodies, and rhythms promote licentious behavior and anarchic societies. Puritans, Victorians, and totalitarians, as well as opponents of ragtime, rock 'n roll, and rap, have also accused certain musical genres or styles of exerting dangerous influences, and sought to limit or suppress them. In Afghanistan, the Taliban banned music altogether. While music has often been unfairly accused, its potential for placing people in actual danger is undeniable. Works that are played at ear-splitting decibel levels, that call upon performers to injure themselves, that are used as a form of psychological torture, or that incite violence demand reconsideration of the widely shared view that music is fundamentally a form of entertainment.

Class Format: Will be taught remotely

Requirements/Evaluation: evaluation will be based on participation, five 5-6-page papers/presentations, and five 1-2 page responses

Prerequisites: an ability to read music is desirable but not required

Enrollment Limit: 10

Enrollment Preferences: students with demonstrated interest in music

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will write five 5-6 page papers and five 1-2 page responses, and will receive extensive feedback on their writing.

Fall 2020
MUS 278  (S) Carmen, 1845 to Now (DPE) (WS)

Cross-listings: MUS 278 WGSS 248

Primary Cross-listing

The story of the gypsy femme fatale Carmen has endured for over 150 years. In Western culture and beyond, she exemplifies the seductive, exotic, independent, and dangerous woman who drives a man to a life of crime and finally murder. This course explores a broad array of treatments of this archetypal and problematic narrative, starting with Prosper Mérimée’s 1845 novella on which Bizet based his famous 1875 opera Carmen. We will consider various staged and film versions of the opera itself, including Francesco Rosi’s stunning 1984 movie, and discuss various other film transformations of the story, from DeMille’s 1915 silent film through Hammerstein’s 1954 all-black musical Carmen Jones, to the MTV version A Hip Hopera of 2004. Comic approaches will also be assessed, from Charlie Chaplin’s Carmen Burlesque of 1915 through Spike Jones’ 1952 Carmen Murdered! and The Naked Carmen of 1970. We will explore provocative dance interpretations ranging from Carlos Saura’s 1983 flamenco version through David Bourne’s choreography in his 2001 gay reading called The Car Man. Our journey concludes with a comparison of two post-colonial sub-Saharan African films—the Senegalese director Ramaka’s Karmen Geï (2001) and U-Carmen eKhayelitsha (2005) by the South African director Dornford-May—that push critical reaction to Bizet’s story and music beyond Western cultural boundaries.

Class Format: Remote format. After four initial 75-minute group meetings to discuss Mérimée’s novella and Bizet’s music, students will meet with the instructor in pairs for one hour each week. The scheduled class time is obligatory only for the first two weeks, after which weekly pair meetings will be individually scheduled.

Requirements/Evaluation: Each student will write a 5- to 6-page essay every other week (five in all), and provide 2-page written and oral peer reviews in alternate weeks; evaluation will be based on the quality of written work, discussions, and oral presentation.

Prerequisites: None; ability to read music useful but not necessary

Enrollment Limit: 10

Enrollment Preferences: Preference given to current or prospective Music and Women’s Gender & Sexuality Studies majors, then seniors and juniors.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

MUS 278 (D1) WGSS 248 (D2)

Writing Skills Notes: Students will write five short essays of 5-6 pages each, and receive oral and written feedback addressing structure, argumentation, and style from their tutorial partner and the instructor on every essay.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement through a critical examination of the ways in which the Carmen story has served as a stage on which multifaceted textual and musical constructions and conflicts express the power dynamics between individual and group identities, encompassing gender and sexuality, nationality, race, ethnicity, and class.

Spring 2021

TUT Section: RT1  MW 11:45 am - 1:00 pm  M. Jennifer Bloxam

MUS 279  (F) American Pop Orientalism (DPE) (WS)

This tutorial will investigate the representation of Asians and Asian Americans in American popular culture since the late nineteenth century. Our focus will be on music’s role in Orientalist representation in a wide variety of media and genres, including Hollywood film, television, popular song, music videos, Broadway musicals, hip hop, and novels. We will begin with major texts in cultural theory (Said, Bhabha) and will attempt throughout the semester to revise and refine their tenets. Can American Orientalism be distinguished in any fundamental way from nineteenth-century European imperialist thought? How does Orientalist representation calibrate when the “exotic others” being represented are themselves Americans? Our own critical thought will be sharpened through analysis and interpretation of specific works, such as Madame Butterfly, “Chinatown, My Chinatown,” Sayonara, Flower Drum Song, Miss Saigon, Rising Sun, M. Butterfly, Aladdin, and Weezer’s Pinkerton. We will end the semester by considering the current state of Orientalism in American popular culture.
Fall 2020
TUT Section: HT1    TBA     W. Anthony  Sheppard

PHIL 109  (F)  Skepticism and Relativism  (WS)

Intellecually, we are ready skeptics and relativists. We doubt, we point out that no one can be certain in what she believes, and we are suspicious of declarations of transcendent reason or truth (unless they are our own). Emboldened by our confidence in skeptical arguments, we claim that knowledge is inevitably limited, that it depends on one's perspective, and that everything one believes is relative to context or culture. No domain of inquiry is immune to this destructive skepticism and confident relativism. Science is only "true" for some people, agnosticism is the only alternative to foolish superstition, and moral relativism and, consequently, nihilism are obvious. But is the best conclusion we can come to with respect to our intellectual endeavors that skepticism always carries the day and that nothing at all is true? In this tutorial, we will investigate the nature of skepticism and the varieties of relativism it encourages. Our readings will come primarily from philosophy, but will be supplemented with material from anthropology, physics, psychology, and linguistics. We will look at relativism with respect to reason and truth in general as well as with respect to science, religion, and morality. Along the way, we will need to come to grips with the following surprising fact. With few exceptions, thoroughgoing skepticism and relativism have not been the prevailing views of the greatest minds in the history of philosophy. Were they simply too unsophisticated and confused to understand what is for us the irresistible power of skepticism and relativism? Or might it be that our skepticism and relativism are the result of our own laziness and failure? Of course, this question cannot really be answered, nor is there any value in trying to answer it, and any "answer" will only be "true" for you. Right?

Class Format: This tutorial will convene remotely via Zoom video according to a fixed weekly schedule agreed upon by the instructor and the two tutorial participants at the beginning of the semester.

Requirements/Evaluation: participants will present substantial written work in the tutorial every other week, and will be responsible for commenting on their tutorial partner's work.

Prerequisites: none; this tutorial is an appropriate first course in PHIL.

Enrollment Limit: 8

Enrollment Preferences: first-year students; there is no need to write to the instructor indicating a special interest in the tutorial. If oversubscribed, students will be selected randomly.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Unit Notes: meets 100-level PHIL major requirement

Distributions: (D2)  (WS)

Writing Skills Notes: Students will write a tutorial essay every other week and will receive written feedback on composition and structure. Essays later in the semester will reflect the writing lessons of earlier in the semester.

Fall 2020
TUT Section: RT1    TBA     Joseph L. Cruz
PHIL 115 (S) Personal Identity  (WS)

Through lectures, discussions, close readings and assigned writings, we will consider a variety of philosophical questions about the nature of persons, and personal identity through time. Persons are subjects of experiences, have thoughts and feelings, motivation and agency; a person is thought of as continuous over time, and as related to, recognized and respected by other persons. Thus, the concept of person plays a significant role in most branches of philosophy, e.g. metaphysics, epistemology, moral and political philosophy, philosophy of mind. Conceptions of person are equally important in science (especially in psychology), law, and the arts. Questions about persons are of central importance for a myriad of our theories and practices, and for the ways in which we live our lives. The aim of this course is to explore and evaluate a number of rival conceptions of persons and personal identity over time. Some of the questions which we will discuss are: What is a person? How do I know that I am one? What constitutes my knowledge of myself as a person, and does that knowledge differ in any significant respect from my knowledge of physical objects and of other people? Our starting and central question will be: What makes me the particular person that I am, and how is my identity as this individual person preserved over time? The course will place special emphasis on developing students’ intellectual skills in close, analytical reading; reconstructing and evaluating claims and reasons that support them; producing original ideas and arguments, orally and in writing; responding to the claims and arguments presented in texts and in class; and writing clear, polished, well-argued papers.

Requirements/Evaluation: Class attendance, preparedness and participation; additional small group weekly meetings; 12 short writing assignments. No final paper and no exam.

Prerequisites: none; open to first year students

Enrollment Limit: 12

Enrollment Preferences: freshmen, sophomores, and philosophy majors who need a 100 level course to satisfy requirement for the major

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Unit Notes: meets 100-level PHIL major requirement

Distributions: (D2) (WS)

Writing Skills Notes: Students will write weekly short assignments (at most 1000 words long), six of which will be letter-graded (but only five best assignments will count for the final grade). All assignments will receive detailed comments on substance as well as on writing skills and strategies.

Spring 2021

SEM Section: R1 MWF 12:00 pm - 12:50 pm Bojana Mladenovic

PHIL 116 (S) Perception and Reality  (WS)

This course is an introduction to philosophy through four major themes: The nature of the universe, the existence of gods, thought itself, and the mind/body problem. Throughout, we will appeal to reason and evidence in forming our best beliefs. Our discussions will range over historical and contemporary works in the Western tradition.

Class Format: This hybrid course will meet in-person and will also be available for remote video attendance and participation. Remote students must attend class synchronously with the in-person seminar and video will not be recorded. Supplemental material--e.g., all office hours and study hall for essays--will convene on-line.

Requirements/Evaluation: active participation; four (5-6 page) essays

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Strong preference given to first-years and sophomores; there is no need to email the professor in advance to indicate a special interest in the course.

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Unit Notes: meets 100-level PHIL major requirement

Distributions: (D2) (WS)

Writing Skills Notes: Students will craft 4 six page essays, each with extensive comments on structure and composition with an eye toward developing their skills in philosophical writing.
PHIL 121  (F)(S)  Truth, Goodness, and Beauty  (WS)

In our everyday lives, we routinely assume that our clocks can tell us the truth about what time it is, that committing murder is wrong, and that there are people, landscapes, and works of art that are beautiful. But we are also aware that people can and often do disagree about what is true, what is good or right, and what is beautiful. Should the fact of such disagreement lead us to conclude that truth, goodness, and beauty are in some basic sense relative to human beings, perhaps as individuals, perhaps as members of societies or cultures? Some philosophers defend such conclusions, but others argue that truth, goodness, and beauty are "objective," in some important sense, despite the fact that people disagree about them. This introductory course addresses these and related issues.

Class Format: Remote

Requirements/Evaluation: Attendance, participation in class discussions, comments added to essays during class discussion.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: first-year students and potential Philosophy majors

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Unit Notes: meets 100-level PHIL major requirement

Distributions: (D2)  (WS)

Writing Skills Notes: Students write 1-page papers on assigned topics for most classes. I will grade and comment on 18 and a teaching assistant will comment on but not grade another 13. Comments will aim to enable students to improve their writing skills.

PHIL 126  (F)  Paradoxes  (WS)

There are three grains of sand on my desk. This is unfortunate, but at least there isn't a heap of sand on my desk. That would be really worrisome. On the other hand, there is a heap of sand in my backyard. I don't know how exactly how many grains of sand are in this heap, but let's say 100,000. My daughter removes one grain of sand. I don't know why, she just does. It seems like there is still a heap of sand in my backyard. In fact, it seems like you can't change a heap of sand into something that isn't a heap of sand by removing one grain of sand. Right? But now we have a problem. By repeated application of the same reasoning, it seems that even after she removes 99,997 grains of sand--I don't know what she wants with all this sand, but I'm starting to worry about that girl--there is still a heap of sand in my backyard. But three grains isn't enough for a heap. So there is not a heap in my backyard. Now I'm confused. Where did my reasoning go wrong?

What we have here is an example of the sorites paradox. It is a paradox, because I started with seemingly true statements and used valid reasoning to arrive at contradictory conclusions. We can learn a lot about logic, language, epistemology and metaphysics by thinking through and attempting to resolve paradoxes. In this class, we'll work together to think through some ancient and contemporary paradoxes. We'll also work on writing lucid prose that displays precisely the logical structure of arguments, engages in focused critique of these arguments, and forcefully presents arguments of our own. Other topics could include: Zeno's paradoxes of motion and plurality, the liar's paradox, the surprise-exam paradox, paradoxes of material constitution, Newcomb's Problem, and the Prisoner's Dilemma.

Class Format: The format of this class is different this year. The instructor will record 2-3 lectures per week which will be made available online. We will also have small tutorial-style meetings each week for which some students will write papers and others will comment on these papers. These tutorial-style meetings will be in-person or via zoom. Finally, there will be synchronous weekly meetings of the class as a whole for discussion and review.

Requirements/Evaluation: (i) Weekly small group papers (4-5 pages) or comments (1-2 pages) on papers of peers; (ii) Final term-paper (~10 pages) in multiple drafts; (iii) Active and informed participation in class discussions.

Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: First and second year students. Prospective philosophy majors.

Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option

Unit Notes: Meets 100-level PHIL major requirement

Distributions: (D2) (WS)

Writing Skills Notes: Students will write a number of short papers and responses to papers of their peers. Both the content and the writing will be evaluated. These papers will focus on clear and precise presentation and evaluation of arguments. Each student will also write a final term-paper in multiple drafts. For the final paper, each student will develop a topic in consultation with the instructor and will do independent research. They will submit a first draft and will then revise that draft.

Fall 2020
SEM Section: H1    MWF 8:15 am - 9:30 am     Keith E. McPartland

PHIL 127  (F)(S)  Meaning and Value  (WS)
What gives an individual life meaning? Pleasure? Success in fulfilling desires? Flourishing in ways distinctive to a rational agent or a human being (including, for example, developing rational capacities and self-mastery, succeeding in worthwhile projects, cultivating relationships, living morally, developing spiritually)? Can we be mistaken about how well our lives are going, or about what has value? What are the main sources of uncertainty here? Does the fact that our lives will end threaten their meaning? Can luck spoil an otherwise meaningful life? Can science contribute to our understanding of these issues? We’ll examine these and related questions through historical and contemporary readings.

Class Format: This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.

Requirements/Evaluation: Five tutorial papers (5-6 pages in length), five critiques (2-3 pages in length), and one rewrite.

Prerequisites: None. This tutorial is an appropriate first course in PHIL.

Enrollment Limit: 10
Enrollment Preferences: First-year students and potential philosophy majors

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

Unit Notes: This course meets the 100-level PHIL major requirement.

Distributions: (D2) (WS)

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1    TBA     Melissa J. Barry

Spring 2021
TUT Section: RT1    TBA     Melissa J. Barry

PHIL 211  (F) Ethics of Public Health  (WS)
From questions about contact tracing apps to racial and age disparities in health risk and outcomes, the COVID-19 pandemic has foregrounded the importance of ethics as a key concern in public health policies and activities. Moreover, the ethical issues that are implicated in responses to the pandemic reflect the range of those manifested across the field of public health as a whole. In this course, we will survey the ethics of public health through the lens of the COVID-19 pandemic, investigating concepts and arguments that are central to the ethics of public health research and practice. For example, we will examine the ethics of disease surveillance, treatment and vaccine research, resource allocation and rationing, compulsion and voluntariness in public health measures, and social determinants of health outcomes, among other topics. To do this, we will need to become familiar with key ethical theories; think deeply about such concepts as privacy, paternalism and autonomy, exploitation, cost-benefit analysis and justice; and compare the function of these concepts in the context of the COVID-19 pandemic with the way they work in responses to other public health concerns.
Class Format: This class will be conducted remotely, via weekly synchronous tutorial meetings on Zoom or Google Meet.

Requirements/Evaluation: Biweekly 5-7 page papers, oral commentaries, and tutorial discussions.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Philosophy majors and Public Health concentrators, students with a specific curricular need for the course, and students with a high level of interest who are unlikely to have an opportunity to take the course in a future term

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: Public Health concentrators may use either PHIL 211T Ethics of Public Health or PHIL 213T Biomedical Ethics to fulfill their 3-elective requirement, but they may not use both courses to do so.

Distributions: (D2) (WS)

Writing Skills Notes: Students will write six biweekly papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Fall 2020
TUT Section: RT1 TBA Julie A. Pedroni

PHIL 213 (S) Biomedical Ethics (WS)

Much like the construction of medical knowledge itself, it is from specific cases that general principles of biomedical ethics arise and are systematized into a theoretical framework, and it is to cases they must return, if they are to be both useful and comprehensible to those making decisions within the biomedical context. In this tutorial we will exploit this characteristic of biomedical ethics by using a case-based approach to examining core concepts of the field. The first portion of the course will be devoted to developing and understanding four moral principles which have come to be accepted as canonical: respect for autonomy, beneficence, nonmaleficence, and justice. The remainder of the course will consider key concepts at the core of medical ethics and central issues for the field, such as privacy and confidentiality, the distinction between killing and "letting die," and therapy vs. research. To this end, each week we will (1) read philosophical material focused on one principle or concept, and (2) consider in detail one bioethics case in which the principle or concept has special application or relevance. In some weeks, students will be asked to choose from a small set which case they would like to address; in others the case will be assigned.

Class Format: students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners' essays in alternate weeks

Requirements/Evaluation: bi-weekly papers, oral commentaries, and tutorial discussions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: PHIL majors, PHLH concentrators, those who have a curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Spring 2021
TUT Section: RT1 TBA Julie A. Pedroni
PHIL 236 (F) Contemporary Ethical Theory (WS)
This course will examine central questions in normative ethics, including the following: Which features of actions are morally important and why (e.g., their motive, their intrinsic nature, or their consequences)? Which characteristics of persons give them moral status? How should moral equality be understood, and what is its foundation? When should we give morality priority over personal commitments and relationships, and why? What makes an individual’s life go well? Are we capable of disinterested altruism, or are we motivated solely by self-interest? By which methods should we pursue these questions? We will examine these and related issues by looking in depth at contemporary defenses of consequentialist, deontological, and contractualist theories.

Class Format: This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed upon by the instructor and participants.

Requirements/Evaluation: Six tutorial papers (5-6 pages in length) and six critiques (2-3 pages in length).

Prerequisites: at least one PHIL course or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Current and prospective philosophy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, spaced evenly throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1 TBA Melissa J. Barry

PHIL 243 (F) The Philosophy of Higher Education: College Controversies (WS)
What are the purposes of higher education? What are the purposes of liberal arts colleges in America? What should be the goals of Williams College? We will begin examining these questions by studying the history of controversies in American higher education, concentrating especially on debates about the curriculum. We will then turn to contemporary controversies such as campus free speech. Assigned works will include Booker T. Washington, Industrial Education, W.E.B. DuBois, The Talented Tenth, Frederick Rudolph, Williams College 1793-1993: Three Eras, Three Cultures, Michael S. Roth, Beyond the University: Why Liberal Education Matters, Allan Bloom, The Closing of the American Mind, Martha Nussbaum, Cultivating Humanity, William Deresiewicz, Excellent Sheep: The Miseducation of the American Elite and the Way to a Meaningful Life, Greg Lukianoff and Jonathan Haidt, The Coddling of the American Mind: How Good Intentions and Bad Ideas Are Setting Up a Generation for Failure, and Anthony T. Kronman, The Assault on American Excellence.

Class Format: This course is a tutorial. Students will meet in pairs with the instructor one hour per week. The default assumption is that this course will meet on-line. If the weather permits we could sometimes meet outside. If there is a reasonably sized well ventilated classroom we could occasionally meet there.

Requirements/Evaluation: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: I will be seeking a balance of interests and backgrounds; preference given to students who have taken at least one philosophy course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks, and will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Fall 2020
TUT Section: RT1 TBA Steven B. Gerrard
PHIL 244 (S) Environmental Ethics (WS)

Cross-listings: ENVI 244 PHIL 244

Secondary Cross-listing

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature (e.g., Leopold, Taylor, Rolston). Subsequent sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

Class Format: Remote format. Students will meet with the professor in pairs via Zoom for approximately 75 minutes per week, writing and presenting 5- to 7-page essays every other week, and commenting orally on partners' essays in alternate weeks.

Requirements/Evaluation: six essays (5-7 pages each) and six carefully prepared oral responses to partners' essays; evaluation will be based on essays, oral responses, and quality of discussion.

Prerequisites: ENVI 101 or one course in PHIL

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: meets Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 244 (D2) PHIL 244 (D2)

Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Spring 2021

TUT Section: RT1 TBA Julie A. Pedroni

PHIL 250 (S) Philosophy of Economics (WS)

The status of economics as a predictive science has been most prominently brought into question, historically, by three unpredicted yet extremely important economic events: the Great Depression of the 1930s, stagflation of the 1970s, and bursting of the mortgage bubble in 2008. The issue of prediction was also raised by economist Donald McCloskey who, in 1988, asked his fellow economists, “If you're so smart, why ain't you rich?” Some critics find predictive failures of economists unsurprising, given the frequent reliance of the latter on assumptions known to be false (e.g., that economic agents are always selfish, have perfect information, and never make mistakes) and on models that unavoidably ignore potentially relevant factors. Perhaps, then, economics is not primarily a predictive science, but instead a descriptive, historical, and/or mathematical one. In this course, relying on works by economists and philosophers, we examine the status of economics as an academic discipline, focusing on its assumptions, methods, and results.

Requirements/Evaluation: six 6- to 8-page essays, six 2- to 3-page response papers, participation in discussions.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors and potential majors, then Economics majors and potential majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
In ancient Greece, Democritus took his ontological bearings by atoms he took not to come to be, change, or pass away, but to move and interconnect in space so as to compose everything else. Plato also took his ontological bearings by entities that do not change, but ones that are not in space or time: mathematical structures and, at least aspirationally, the forms or ideas of the good, the beautiful, etc. Aristotle, finally, took his ontological bearings by temporal entities, i.e., organisms. In these terms, modern science combines central teachings of Democritus and Plato: the universe is understood as a mechanism whose components—ultimately, atoms—interact in ways governed by mathematical laws, and—for Descartes and his followers—animals, too, are machines rather than organisms. Hence, Laplace’s (1814) thesis that “An intellect which at a certain moment would know all forces that set nature in motion, and all positions of all items of which nature is composed, if this intellect were also vast enough to submit these data to analysis, it would embrace in a single formula the movements of the greatest bodies of the universe and those of the tiniest atom; for such an intellect nothing would be uncertain and the future just like the past would be present before its eyes.” This deterministic, mechanistic, and reductionist way of thinking has, for the past several hundred years, powerfully influenced such diverse fields as philosophy, biology, and economics. Over the past few decades, however, it has been challenged by new discoveries, particularly in physics and biology, and by theoreticians in a variety of disciplines. These theoreticians focus on complex, dynamic systems as, in one terminology, wholes that are more than the sums of their constituents. In this tutorial, we examine some of the most promising and intriguing trends in this potentially revolutionary movement. Our central focus will be on autopoietic systems, i.e., entities that subsist over time despite changing their material constituents. The smallest such entities are cells, but the tissues, organs, and organisms of which many cells are constituents are also autopoietic systems, as are yet more complex entities such as universities, economies, ecosystems, and states. The process ontology required by autopoietic systems is a radical alternative to the ontology that has been dominant for the past several centuries. It has many exciting implications for various subdisciplines in philosophy and for various academic disciplines beyond philosophy.

Class Format: Virtual

Requirements/Evaluation: Presentations, responses to presentations, essays, response papers, participation in discussions.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors and potential majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 252 (D2) STS 252 (D2)

Writing Skills Notes: Students will write 6 6-8 page essays and 6 2-3 page response papers. I will comment on all the essays, and my comments will aim to help students improve their writing skills. Among the issues to be addressed will be the challenge of writing essays to be presented rather than simply to be read.
Primary Cross-listing

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? Must it be unaffected by any outside influences? If so, freedom may seem impossible since we're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The real question, then, seems to be whether, and how, free choice is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Class Format: This tutorial will meet remotely by Zoom on a fixed weekly schedule agreed to by the instructor and participants.

Requirements/Evaluation: Five tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)

Prerequisites: one PHIL course

Enrollment Limit: 10

Enrollment Preferences: current and prospective Philosophy majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 272 (D2) JLST 272 (D2)

Writing Skills Notes: Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Spring 2021

TUT Section: RT1    TBA    Melissa J. Barry

PHIL 326 (S) Foucault Now (DPE) (WS)

Cross-listings: WGSS 336 PHIL 326

Primary Cross-listing

If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by scholars that draw on Foucault to address problems in today's present. Among the contemporary texts assigned might be the following: Bernard Harcourt's Exposed: Desire and Disobedience in the Digital Age, Saidiya Hartman's Wayward Lives, Beautiful Experiments (2019), Verena Ehrenbusch's Terrorism: A Genealogy, Cressida Heyes’ Anaethetics, Ladelle McWhorter's Racism and Sexism in Anglo-America: A Genealogy, and Active Intolerance: Michel Foucault, The Prisons Information Group, and the Future of Abolition, eds. Perry Zurn and Andrew Dilts.

Class Format: I will meet with students in a seminar format at various points throughout the semester. I have requested a class block for this reason.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Relevant background in critical theory, social theory, political theory or philosophy.

Enrollment Limit: 10

Enrollment Preferences: I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

Expected Class Size: 10
PHIL 337  (F)  Justice in Health Care  (WS)
Justice is a notoriously complex and elusive philosophical concept, the conditions of which are even more difficult to articulate within real world institutions and contexts than in the abstract. In this course we'll explore justice as a fundamental moral principle and as a desideratum of the US health care system. The first portion of the course will be devoted to considering general theories of justice as well as alternative conceptions of justice specifically within the health care context. While social justice and distributive justice are deeply intertwined in the health care context and we will discuss both, we will focus primarily on the concept of distributive justice. This theoretically oriented work will provide the background for subsequent examination of specific topics, which may include, among others: justice in health care financing and reform; justice in health care rationing and access to health care, with particular attention to the intersections of rationing criteria with gender, sexuality, race, disability, and age; justice in the procurement and allocation of organs for transplantation; obesity and personal responsibility for illness; and justice in medical research, including "double standards" for research conducted in low resource settings.

Class Format: This class will be conducted remotely, via weekly synchronous tutorial meetings on Zoom or Google Meet.

Requirements/Evaluation: biweekly papers, oral commentaries, and tutorial discussions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: PHIL majors, PHLH concentrators, those with curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment, and those who are unlikely to have an opportunity to take the course in a later term

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

PHIL 341  (S)  Black Marxism: Political Theory and Anti-Colonialism  (DPE) (WS)

Cross-listings: AFR 340  INTR 341  PSCI 373  PHIL 341

Secondary Cross-listing
The seminar involves a critical engagement with key Africana political leaders, theorists and liberationists. We will examine the Pan-African writings of: Cedric Robinson (Black Marxism); Walter Rodney (How Capitalism Underdeveloped Africa), Eric Williams (Capitalism and Slavery; From Columbus to
Castro; Frantz Fanon (The Wretched of the Earth); Malcolm X (Malcolm X Speaks); Amilcar Cabral (Resistance and Decolonization; Unity and Struggle); C. L. R. James (The Black Jacobins).

Requirements/Evaluation: Attend all classes. Papers are due 24 hours before the start of class. Participate in class discussions.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 340 (D2) INTR 341 (D2) PSCI 373 (D2) PHIL 341 (D2)

Writing Skills Notes: Three thesis papers at five pages each (each receiving critical feedback from professor); one thesis paper revision with critical feedback from professor and peers, including one letter of revision explaining the student’s revision process; one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course focuses on anti-colonial struggles against European powers. Research will include the concept of "internal colonies" in the US.

Spring 2021

SEM Section: R1 TBA Joy A. James

PHLH 220 (F) International Nutrition (DPE) (WS)

Global malnutrition continues to represent one of the most challenging issues of international development. Problems of both under- and overnutrition beginning as early as in utero can detrimentally influence the health, development and survival of resource-limited populations. This course introduces students to the most prevalent nutritional issues through a food policy perspective and exposes them to a wide variety of interventions, policies and current debates in the field of international nutrition. In addition to exploring the multi-level programmatic approaches for the prevention and treatment of the related nutritional problems, students will gain exposure and experience in program design and program proposal writing. Readings will involve both real-world programmatic documents/evaluations as well as peer-reviewed journal articles. Examples will be drawn from Africa, Asia and Latin America.

Class Format: This class will be remote. Each week students will typically be asked to (1) watch a series of short lectures- think 10-15’ clips, (2) read peer reviewed articles and post on discussion boards (3) attend synchronous meetings - both in small groups of and as a whole class during assigned class time. Instructor will also be available for one-on-one online meetings/check-ins.

Requirements/Evaluation: six 1-page essays, one final term paper (10-15 pages), one oral presentation, and active class participation

Prerequisites: PHLH 201 or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Public Health concentrators

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: As a writing skills course, students will write six 1-page essays (each with an optional rewrite) which will help build the specific writing skills necessary for the final 10- to 15 page paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course exposes the issues of difference, power and inequity by exploring the unequal distribution of resources and power at the global, national and intra-national level within the international nutrition context. We will also critically engage with issues of power, cultural difference and related ethics in the context of international development and nutrition programming.

Fall 2020

SEM Section: R1 MW 6:45 pm - 8:00 pm Marion Min-Barron
Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

**Class Format:** This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

**Requirements/Evaluation:** a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

**Prerequisites:** ECON 110 or the equivalent, permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
POEC 214 (D2) ENVI 212 (D2) ECON 214 (D2)

**Writing Skills Notes:** Each student will write five 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partner's papers. As the final assignment, each student will revise one of their five papers.

---

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be--how a crisis can be chronic. We investigate who refugees are, in international law and popular understanding; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations' roles in managing population displacement; look at the way that images convey stereotypes; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

**Requirements/Evaluation:** eleven essays: five lead, five response, and one statement. The first two weeks' essays' grades will be unrecorded.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** In addition to writing every week, students will have a chance to write ungraded work; will have a chance to revise submitted work; and will have a chance to work on specific skills cumulatively.

**Difference, Power, and Equity Notes:** This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we worry about some of these categories of oppression more than others.
Since Donald Trump began his rhetorical assault on immigrants, the political establishment, and the free press, all in the name of "the American people," terms like demagoguery and populism have come to dominate American political discourse. Demagogues and populists are often defined as bad leaders who manipulate the emotions of their audiences for the sake of personal ambition--leaders who turn a good thing (popular government) into something dangerous. At the same time, and as Trump has shown, many of the tactics that populists and demagogues deploy are politically effective. Protest leaders tell their audiences to get angry and to stand up and fight precisely because this kind of rhetoric can move an audience to action when rational persuasion cannot. And, many of the leaders we think of as great today were regarded as demagogues and populists during their own times. Puzzles like these point to our current political moment. How useful are terms like demagoguery and populism for understanding leadership? How have these terms been weaponized to distort politics instead of clarifying it? Should we reserve these terms for leaders who are truly bad, and if so, what counts as a "truly" bad leader (as opposed to one we just happen not to like)? Or can demagogic and populists tactics be deployed in better and worse ways? We will approach these questions through a survey of classic and contemporary writings on popular leadership, from Thucydides and Machiavelli to present-day social science. With these competing theories in view, we will read historical and biographical accounts of some of history's most controversial leaders--including Bolivar, Lenin, FDR, and Hugo Chavez--so as to better understand the popular leaders who dominate much of our politics today.

**Class Format:** This course will be hybrid, combining elements of synchronous meetings and asynchronous content so as to allow both in-person and remote students to participate.

**Requirements/Evaluation:** weekly writing assignments, a medium-length essay, and the option either to write a second medium-length essay or to develop the first essay into a longer research paper

**Prerequisites:** None

**Enrollment Limit:** 14

**Enrollment Preferences:** Leadership Studies concentrators and Political Science majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 255 (D2) PSCI 255 (D2)

**Writing Skills Notes:** Each student will write a critical essay responding to a particular day's reading assignment, with the option to rewrite. Students will write a 10-12 page research paper on a topic they will have discussed with me. For the final assessment, students will have the option either to write a second 10-12 page research paper on a topic different from the first, or to expand their original paper into a 25-30 page research essay. I will provide written feedback regarding grammar, style, and argument.

---

This course is an introduction to the contemporary politics of Africa, with the aim of sparking a life-long interest in the affairs of the region. Comprised of nearly 50 countries and home to over 1 billion people, sub-Saharan Africa is remarkable in its diversity, particularly in regards to a number of outcomes central to the study of political science: how do institutions of the past shape current dynamics of political competition and economic growth? Why are some countries stable democracies while others struggle with military coups or authoritarian rule? What sparks political violence and how can countries emerge from conflict? Our focus is both contemporary and comparative, organized thematically around common political experiences and attributes across the region. We begin with the legacies of colonialism, the slave trade, and the politics of liberation. We then interrogate dynamics...
central to political life in Africa over the 60 years since independence: the role of ethnic diversity in shaping competition, the prominence of patronage politics, and the evolution of elections. We next assess major dimensions that have historically shaped the study of African politics, including conflict and violence, economic development, and foreign aid. The final section takes a comparative approach to some of the most pressing issues in Africa today: health crises, migration and mobility, technological revolution, climate change, and the emerging power of women and youth.

Class Format: A typical class session will be about 40% lecture and 60% discussion

Requirements/Evaluation: Class Participation, Map Quiz, Country Case Study (12 - 15 pages, written incrementally throughout semester) and Presentation

Prerequisites: None.

Enrollment Limit: 12

Enrollment Preferences: all first-years and sophomores; those juniors and seniors majoring in political science or concentrating in Global Studies.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Over the course of the semester, students will produce a substantive political science research paper. We will break the writing assignment into component parts throughout the semester, focusing on structure, substance, style, and citations. We will revise drafts based on individual feedback, engage in collective writing exercises, as well as learn the elements of peer review.

Difference, Power, and Equity Notes: This course takes the racial, ethnic, linguistic, and religious diversity of sub-Saharan Africa as a starting point for understanding the contemporary politics of the region. The course addresses the legacies of systemic inequality as well as strategies of resistance to oppression. We also examine how ethnic and religious diversity shape political institutions, competition, and conflict, comparing different countries and over time.

Spring 2021

SEM Section: H1  MR 3:15 pm - 4:30 pm  Elizabeth Iams Wellman

PSCI 312 (S) American Political Thought (WS)

Cross-listings: PSCI 312 LEAD 312

Primary Cross-listing

From democracy to liberty, equality to community, foundational ideas -- about what makes for good government, about what constitutes the good society, about what is necessary to lead a good life -- define the American political tradition and consume the American political imagination. Designed not only to uncover these (sometimes melodious, sometimes cacophonous) values but also to place current ideological debates about them in a broader developmental context, this tutorial will offer a topical tour of American political thinking from the birth of nationalism in the colonial period to the remaking of conservatism and liberalism in the early twenty-first century. Utilizing primary source material ranging from presidential speeches to party platforms, newspaper editorials to novels, we will seek to interrogate -- reconciling where possible, distinguishing where necessary, interpreting in all instances -- the disparate visions and assessments of the American political experience offered by politicians, artists, intellectuals, activists, and ordinary citizens over the course of more than two centuries. Our focus, then, is nothing less than the story of America -- as told by those who lived it.

Class Format: For spring 2021, this course will be taught remotely, with a few synchronous seminar classes at the start and end of the course bookending weekly synchronous tutorial sessions.

Requirements/Evaluation: five 5- to 7-page essays, five 2- to 3-page critiques, and a revised and extended 10- to 12-page final essay

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Political Science majors and prospective majors

Writing Skills Notes: Weekly writing with extensive attention to feedback, revision, and improvement.

Spring 2021

TUT Section: RT1  MW 8:15 am - 9:30 am  Justin Crowe

PSCI 356 (S)  Leadership in American Political Development  (WS)

Cross-listings: LEAD 350  PSCI 356

Secondary Cross-listing

Major change in American politics takes place when an old political order collapses and a new one emerges to replace it, sometimes through violent struggle. Before the Civil War and Reconstruction, for example, states enjoyed autonomy over most areas of politics—including whether or not to maintain slavery. Afterwards, the Federal Government began to assert itself vis-à-vis civil rights and liberties in ways it had never previously done. Relatedly, before the Great Depression, state government basically managed their own economies; but the New Deal gave the federal government power to create and manage a new, national economy. What are the deep sources of these architectonic changes? Who or what is responsible for them? And what is the best way to study them? This course will survey the alternative and competing ways in which leading thinkers and scholars answer these questions. Some argue that dynamic individuals—such as Lincoln and Franklin Roosevelt—drive political change, and that change would not happen without such leaders. Others contend that these so-called “leaders” are themselves mere bi-products of impersonal forces, such as party realignments, critical elections, and social, economic, and technological changes. Our goal will be to understand these theories on their own terms, and then to evaluate them with reference to some case studies from American history. To this end, we will study theoretical writings but we will also read selections from histories and biographies that draw a more intimate, nuanced picture of the leaders, groups, and personalities involved in America’s most transformative political moments.

Class Format: This course will be hybrid, combining elements of synchronous meetings and asynchronous content so as to allow both in-person and remote students to participate.

Requirements/Evaluation: weekly writing assignments, a medium-length essay, and the option either to write a second medium-length essay or to develop the first essay into a longer research paper

Prerequisites: previous course in Leadership Studies, American politics, or American history

Enrollment Limit: 14

Enrollment Preferences: Leadership Studies concentrators and Political Science majors

Expected Class Size: 14

PSCI 376 (F) Angela Davis: Political Theory, Activism, and Alliances (DPE) (WS)

Cross-listings: LEAD 319 PSCI 376 INTR 320

Secondary Cross-listing

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.

Requirements/Evaluation: Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

Prerequisites: Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

Fall 2020
SEM Section: R1 TBA Joy A. James
PSYC 158 (S) Freud: A Tutorial (WS)

Cross-listings: PSYC 158 HIST 485

Secondary Cross-listing

This tutorial is devoted to the systematic reading of the principal works of Sigmund Freud, one of the deepest, subtlest, and most influential thinkers of the last one-hundred years. Students will read Freud's work more or less chronologically, beginning with his writings on hysteria and concluding with his deeply pessimistic essay, Civilization and Its Discontents. In tutorial, we will consider the development of Freud's thought over the course of his professional life: his general psychological writings on the nature and functioning of the human psyche, his clinical writings on psychoanalysis as a form of treatment, and his cultural writings on art and artists, on the origin of human society, on religion, and on the relation of the individual to society and civilization. We will not be considering the relevance of Freud's ideas for purposes that transcend his own psychological agenda in the tutorial. Nor will we be much concerned with assessing whether Freud was "right" or "wrong" or whether his thought has clinical relevance today. Instead, we will seek to understand Freud as much as possible on his terms and not on ours, as a historical figure of originality, complexity and contradiction, whose thought deserves close reading and deep understanding within the context of Freud's thought itself.

Class Format: students will write and present orally six essays of 6-7 pages on assigned reading every other week; students not presenting an essay in a given week will be responsible for critiquing the presented essay

Requirements/Evaluation: student grades will be assigned only at the end of the semester based on their papers, their critiques, and their performance in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: juniors and seniors and History majors needing a 400-level seminar or tutorial to fulfill the requirements for a degree in History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: fulfills History's 400-level graduation requirement

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 158 (D2) HIST 485 (D2)

Writing Skills Notes: As a tutorial, this course is by definition writing skills, both in terms of the number of papers that students will produce (six) and in terms of the focus on writing during every tutorial session. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

TUT Section: RT1 TBA Thomas A. Kohut

REL 268 (F) Where are all the Jews? (DPE) (WS)

Cross-listings: REL 268 ARAB 363 COMP 363 JWST 268

Secondary Cross-listing

Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israelite Universelle’s schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews’ departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the
in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

**Requirements/Evaluation:** 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** students interested in critical and comparative literary, religious or historical studies.

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

**Writing Skills Notes:** Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

**REL 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience** (DPE) (WS)

**Cross-listings:** REL 269  STS 269  ASST 269  ANTH 269

**Secondary Cross-listing**

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

**Class Format:** Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in-person or remotely.

**Requirements/Evaluation:** weekly tutorial papers and discussion

**Prerequisites:** A prior class or some experience with meditation is recommended

**Enrollment Limit:** 10

**Enrollment Preferences:** ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)
Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020

REL 284 (S) From the Battlefield to the Hermit’s Cell: Art and Experience in Norman Europe (WS)
Cross-listings: REL 284 WGSS 284 ARTH 218

Secondary Cross-listing
This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 284 (D2) WGSS 284 (D2) ARTH 218 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021

REL 412 (F) Gandhi: History, Ideas and Legacy (WS)
Cross-listings: REL 412 LEAD 412 GBST 412 ASST 412 HIST 496

Secondary Cross-listing
This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspects of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

Fall 2020

TUT Section: RT1    TBA    Aparna Kapadia

RLSP 202 (S) Introduction to the Analysis of Literature in Spanish (WS)

This course is intended for students who are considering a major in Spanish, including those who have recently completed RLSP 105, 107, or 200. Using a textbook, Aproximaciones al estudio de la literatura hispánica, we will study the fundamentals of genre analysis while reading selected works of prose, poetry and drama from Latin America and Spain. Conducted in Spanish. This course is writing intensive because the techniques of planning, writing, and revising essays will all be extensively discussed and put into practice.

Class Format: This class will be fully remote. Students are expected to be active participants at all scheduled class meetings, which will be used for discussion, collaborative analysis of literature texts, and writing workshops. There will be some additional asynchronous components.

Requirements/Evaluation: assignments will include three 5-page essays, a number of shorter papers, and occasional discussion-leading as well as consistent preparation and class participation

Prerequisites: RLSP 105, 107, 200, 209, or placement exam results indicating readiness for a 200-level course

Enrollment Limit: 12

Enrollment Preferences: first- and second-year students who are considering the major in Spanish

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Our commitment to the formal analysis of literature in Spanish lends itself to a sustained and focused attention to student
writing. As we learn to analyze works of literature, we will bring our attention to questions of rhetoric, style and structure to bear on our own writing also. Papers will be "work-shopped" throughout the semester; students will also practice peer-editing in pairs. Students will also receive extensive feedback from the professor with the goal of strategic revision.

Spring 2021
SEM Section: R1  MWF 10:40 am - 11:30 am  Jennifer L. French

RLSP 230 (F) Mexican Literature and Cultural Production (DPE) (WS)
This course will offer a survey of the rich and varied cultural production of Mexico, from the pre-Hispanic past to the present. Students will explore a variety of literary genres (pre-Hispanic poetry, creation stories and songs; chronicles of conquest; short works of prose fiction and novels; and modern poetry and essays) as well as other kinds of cultural production within a framework of historical contextualization and formal analysis. The course meets twice per week and it is taught remotely. Conducted in Spanish.

Requirements/Evaluation: Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation, active and engaged participation in class discussions.

Prerequisites: RLSP 105, placement exam results, permission of instructor.
Enrollment Limit: 19
Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write three 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will introduce students to the rich and varied cultural production of Mexico across time and space. It will highlight the often marginalized and neglected intellectual histories of indigenous peoples and other minoritized sectors of Mexican society. As such, students will acquire critical tools to examine and understand the rich and varied cultural production of Mexico.

Fall 2020
SEM Section: R1  TF 1:30 pm - 2:45 pm  Carlos Macias Prieto

RLSP 308 (S) Survey of Colonial Latin American Literature from 1492 to the Early 19th Century (DPE) (WS)
This course will focus on major works of Spanish American literature from 1492 through the first part of the 19th century. Readings will include narrative texts such as Cartas de relación, chronicles of conquest, religious texts, and indigenous annals, as well as poetry and drama. While many of the texts will focus on colonial Mexico, we will also study texts from Central and South America. We will focus on the historical contexts and formal aspects of these works, and study methods of textual analysis that are particularly relevant to these texts via selected critical readings. Special attention will be given to colonial encounters and the clash of cultures that produced new identities and textualities under Spanish colonial rule. The course meets twice per week and it is taught remotely. Conducted in Spanish.

Requirements/Evaluation: Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation and class participation.

Prerequisites: One RLSP course at the 200-level or above or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: Spanish majors
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Writing Skills Notes: Each student will write three 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze and understand a diversity of Spanish-American colonial texts from the 16th century to the early 19th century.

Spring 2021
SEM Section: R1  TF 1:30 pm - 2:45 pm  Carlos Macias Prieto

RUSS 218  (S)  Extreme Persuasions: The Far Right in the United States and Russia  (DPE)  (WS)
Cross-listings:  AMST 219  RUSS 218  WGSS 217
Secondary Cross-listing

The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the ‘other’ superpower to be an implacable enemy. How have nationalist movements in the United States come to see the Russian Federation as a vanguard for ‘whiteness’ and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

Requirements/Evaluation: On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%; the term paper, 25%; the in-class presentation of the term paper, 5%.

Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: Majors and concentrators in AMST, Russian, and Women's and Gender Studies.
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions:  (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

Writing Skills Notes: The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

Difference, Power, and Equity Notes: Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.

Spring 2021
SEM Section: H1  TR 11:30 am - 12:45 pm  Alexandar Mihailovic

RUSS 219  (S)  Cults of Personality  (WS)
Cross-listings:  COMP 215  RUSS 219
First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase "cult of personality" was formulated to discredit the hero-worship that accompanied Joseph Stalin's iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China's Mao Zedong, Iran's Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. All readings will be in English, and all films will have English subtitles.

Class Format: remote

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 215 (D1) RUSS 219 (D1)

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

Spring 2021

TUT Section: RT1 TBA Julie A. Cassiday

RUSS 248 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: SOC 248 GBST 247 RUSS 248

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners' and instructor's discretion.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:

SOC 248 (D2) GBST 247 (D2) RUSS 248 (D1)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

Fall 2020

TUT Section: RT1 TBA Olga Shevchenko

STS 240 (F) Great Astronomers and Their Original Publications (WS)

Cross-listings: ASTR 240 STS 240 HSCI 240 LEAD 240

Secondary Cross-listing

In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; Dialogo, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (Miscellanea curiosa, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (Atlas Coelestis, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the Gutenberg Bible (c. 1450) and a Shakespeare First Folio (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported Sidereus Nuncius, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

Class Format: Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: if overenrolled, preference by written paragraph of explanation of why student wants to take the course

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Writing Skills Notes: Comments on submitted papers will aid in writing skills

Fall 2020

SEM Section: H1 W 1:30 pm - 2:20 pm Jay M. Pasachoff, Wayne G. Hammond
In ancient Greece, Democritus took his ontological bearings by atoms he took not to come to be, change, or pass away, but to move and interconnect in space so as to compose everything else. Plato also took his ontological bearings by entities that do not change, but ones that are not in space or time: mathematical structures and, at least aspirationally, the forms or ideas of the good, the beautiful, etc. Aristotle, finally, took his ontological bearings by temporal entities, i.e., organisms. In these terms, modern science combines central teachings of Democritus and Plato: the universe is understood as a mechanism whose components—ultimately, atoms—interact in ways governed by mathematical laws, and—for Descartes and his followers—animals, too, are machines rather than organisms. Hence, Laplace's (1814) thesis that "An intellect which at a certain moment would know all forces that set nature in motion, and all positions of all items of which nature is composed, if this intellect were also vast enough to submit these data to analysis, it would embrace in a single formula the movements of the greatest bodies of the universe and those of the tiniest atom; for such an intellect nothing would be uncertain and the future just like the past would be present before its eyes." This deterministic, mechanistic, and reductionist way of thinking has, for the past several hundred years, powerfully influenced such diverse fields as philosophy, biology, and economics. Over the past few decades, however, it has been challenged by new discoveries, particularly in physics and biology, and by theoreticians in a variety of disciplines. These theoreticians focus on complex, dynamic systems as, in one terminology, wholes that are more than the sums of their constituents. In this tutorial, we examine some of the most promising and intriguing trends in this potentially revolutionary movement. Our central focus will be on autopoietic systems, i.e., entities that subsist over time despite changing their material constituents. The smallest such entities are cells, but the tissues, organs, and organisms of which many cells are constituents are also autopoietic systems, as are yet more complex entities such as universities, economies, ecosystems, and states. The process ontology required by autopoietic systems is a radical alternative to the ontology that has been dominant for the past several centuries. It has many exciting implications for various subdisciplines in philosophy and for various academic disciplines beyond philosophy.

Class Format: Virtual

Requirements/Evaluation: Presentations, responses to presentations, essays, response papers, participation in discussions.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors and potential majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 252 (D2) STS 252 (D2)

Writing Skills Notes: Students will write 6 6-8 page essays and 6 2-3 page response papers. I will comment on all the essays, and my comments will aim to help students improve their writing skills. Among the issues to be addressed will be the challenge of writing essays to be presented rather than simply to be read.

Fall 2020

TUT Section: HT1 TBA Alan White

STS 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Secondary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research
helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in-person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

Fall 2020

TUT Section: HT1 TBA Kim Gutschow

THEA 250 (S) Feminist Theatres: A Global Perspective (DPE) (WS)

Cross-listings: ENGL 253 WGSS 250 THEA 250

Primary Cross-listing

What makes a work of theatre feminist? How do plays, social practices, and performances engage with different models of feminism: liberal, radical, materialist, intersectional, reluctant? Why has feminism mattered to theatre makers of the past? Should it still matter to us now? If so, what forms might future feminist theatres and performance practices take? In this tutorial, students will work in pairs to examine the political relation of models of feminism to plays and performances by theatre artists, companies, and collaborators from across the globe, from the late-twentieth century to today. Interrogating feminism's own legacies of exclusionary and biased tactics, we will focus on the racialized and class-based aspects of feminist performance practices and the history of radical and intersectional feminism in theatre. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, The WOW Café, Hélène Cixous, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Wendy Wasserstein, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Karen Finley, Suzan-Lori Parks, Young Jean Lee, Lisa Kron, Tori Sampson, Arethusa Speaks, Women's Project and Productions, Sarah DeLappe, and others. Close reading and analysis of source material will occur alongside engagement with critical essays and writings by: Audre Lorde, Judith Butler, bell hooks, Gloria Anzaldúa, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, Sue-Ellen Case, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students alternating the presentation and reading of a series of 5-page papers.

Class Format: For Spring 2021, the format for the course is to be determined. Ideally, we will meet weekly and in-person in groups of 3 (two students and professor). Should necessary social distancing measures be in place, we will conduct our tutorial meetings remotely in either Zoom or Google Meet.

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; they will write a 5-page paper every other week (five in all), and comment on their partner's papers in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and critical written and oral response
Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre majors; WGSS majors; ART majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 253 (D1) WGSS 250 (D2) THEA 250 (D1)

Writing Skills Notes: As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one's interpretation, and fluidly integrating theory into one's argumentation.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

Spring 2021

TUT Section: HT1 TBA Amy S. Holzapfel

THEA 310 (F) Playwriting: Facing the Blank Page (WS) (QFR)

I believe that after food and shelter, humans need stories to survive. this class will focus on each writer's dreams, fears and desires and how to turn them into plays. Students will explore the fundamentals of playwriting. This will include writing exercises, weekly pages, hearing your scenes out loud and at the end of the semester the first draft of a new play.

Class Format: Hybrid

Requirements/Evaluation: Upon completion of the semester, you will be able to demonstrate and ability to: draft, rewrite, discuss and continue to rewrite; engage verbal discussion of your work and your colleagues work; place the work in context of other artists and artistic pursuits; place work in context of culture and society; complete a full draft of your play.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Theater majors first, then Concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS) (QFR)

Writing Skills Notes: You are expected to attend class, to keep up with required writing, readings drafts pages to class and participate in all discussions.

Quantitative/Formal Reasoning Notes: You are also expected to think critically and articulate your thoughts.

THEA 340 (S) Shakespeare on Page, Stage and Screen: Text to Performance (WS)

Cross-listings: THEA 340 ENGL 345 COMP 343

Primary Cross-listing

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era's concerns--with matters of gender, sexuality, race, class, or materiality, for instance--against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the text in dramatic performance, such challenges--and opportunities--multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the
other extreme, staging the plays with the primary aim of making them "speak to our times" risks revisionary absorption in our own interests. We will focus on six Shakespeare plays, from different genres and periods of his career: Romeo and Juliet, Henry V, Twelfth Night, Hamlet, Antony and Cleopatra, and A Midsummer Night's Dream. Proceeding with each from close reading of the text, we will attend to the demands and opportunities of both interpretation and performance, and assess a range of recent film and stage productions.

Class Format: This course will be remote, with occasional smaller tutorial-style sections. If pandemic conditions change significantly, I will move to in-person and/or hybrid meetings as warranted.

Requirements/Evaluation: Three papers ranging from 4 to 7 pages; several short reading responses and regular discussion board postings; class participation.

Prerequisites: A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

Enrollment Limit: 14

Enrollment Preferences: Theatre and English majors or prospective majors

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 340 (D1) ENGL 345 (D1) COMP 343 (D1)

Writing Skills Notes: Three papers ranging from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive timely comments from the instructor on their writing skills, with suggestions for improvement, and there will be opportunities for revision of submitted papers.

Spring 2021

SEM Section: R1 TF 1:30 pm - 2:45 pm James L. Pethica

WGSS 101 (F)(S) Introduction to Women's, Gender & Sexuality Studies (DPE) (WS)

This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across the globe. We will survey a wide variety of writers and issues--historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

Class Format: remote only, mixture of synchronous online discussions and mini-lectures, etc.

Requirements/Evaluation: Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: WGSS majors and potential WGSS majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: required course for the Women's, Gender and Sexuality Studies major

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.

Difference, Power, and Equity Notes: This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies’
Spring Grass is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.
Difference, Power, and Equity Notes: The issue of “inequality,” including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

TUT Section: RT1    TBA     Li Yu

WGSS 138 (F) Spectacular Sex (DPE) (WS)
Cross-listings: WGSS 138  ANTH 138

Primary Cross-listing
From Beyoncé's Coachella performance to Donald Trump's social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation: weekly response papers; students will also select past papers to develop and rewrite as more formal essays
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first- and second-year students; a statement of interest will be solicited from pre-registrants
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2)  (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 138 (D2) ANTH 138 (D2)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting.

Difference, Power, and Equity Notes: This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

Fall 2020
TUT Section: RT1    TBA     Gregory C. Mitchell

WGSS 217 (S) Extreme Persuasions: The Far Right in the United States and Russia (DPE) (WS)
Cross-listings: AMST 219  RUSS 218  WGSS 217

Secondary Cross-listing
The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the ‘other’ superpower to be an implacable enemy. How have nationalist movements in the United States come to see the Russian Federation as a vanguard for ‘whiteness’ and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and
homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

Requirements/Evaluation: On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%; the term paper, 25%; the in-class presentation of the term paper, 5%.

Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: Majors and concentrators in AMST, Russian, and Women's and Gender Studies.
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

Writing Skills Notes: The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

Difference, Power, and Equity Notes: Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.

WGSS 248  (S) Carmen, 1845 to Now  (DPE) (WS)

Cross-listings: MUS 278  WGSS 248

Secondary Cross-listing

The story of the gypsy femme fatale Carmen has endured for over 150 years. In Western culture and beyond, she exemplifies the seductive, exotic, independent, and dangerous woman who drives an upstanding man to a life of crime and finally murder. This course explores a broad array of treatments of this archetypal and problematic narrative, starting with Prosper Mérimée's 1845 novella on which Bizet based his famous 1875 opera Carmen. We will consider various staged and film versions of the opera itself, including Francesco Rosi's stunning 1984 movie, and discuss various other film transformations of the story, from DeMille's 1915 silent film through Hammerstein's 1954 all-black musical Carmen Jones, to the MTV version A Hip Hopera of 2004. Comic approaches will also be assessed, from Charlie Chaplin's Carmen Burlesque of 1915 through Spike Jones' 1952 Carmen Murdered! and The Naked Carmen of 1970. We will explore provocative dance interpretations ranging from Carlos Saura's 1983 flamenco version through David Bourne's choreography in his 2001 gay reading called The Car Man. Our journey concludes with a comparison of two post-colonial sub-Saharan African films--the Senegalese director Ramaka's Karmen Geï (2001) and U-Carmen eKhayelitsha (2005) by the South African director Dornford-May--that push critical reaction to Bizet's story and music beyond Western cultural boundaries.

Class Format: Remote format. After four initial 75-minute group meetings to discuss Mérimée's novella and Bizet's music, students will meet with the instructor in pairs for one hour each week. The scheduled class time is obligatory only for the first two weeks, after which weekly pair meetings will be individually scheduled.

Requirements/Evaluation: Each student will write a 5- to 6-page essay every other week (five in all), and provide 2-page written and oral peer reviews in alternate weeks; evaluation will be based on the quality of written work, discussions, and oral presentation.

Prerequisites: None; ability to read music useful but not necessary
Enrollment Limit: 10
Enrollment Preferences: Preference given to current or prospective Music and Women's Gender & Sexuality Studies majors, then seniors and juniors.
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 278 (D1) WGSS 248 (D2)

Writing Skills Notes: Students will write five short essays of 5-6 pages each, and receive oral and written feedback addressing structure, argumentation, and style from their tutorial partner and the instructor on every essay.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement through a critical examination of the ways in which the Carmen story has served as a stage on which multifaceted textual and musical constructions and conflicts express the power dynamics between individual and group identities, encompassing gender and sexuality, nationality, race, ethnicity, and class.

Spring 2021

Writing Skills Notes: As a tutorial, this course will require extensive practice in writing, editing, and revising. Emphasis be directed towards building and developing a compelling argument, providing thorough evidence for one’s interpretation, and fluidly integrating theory into one's argumentation.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.
WGSS 284  (S)  From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe  (WS)

Cross-listings: REL 284  WGSS 284  ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 284 (D2)  WGSS 284 (D2)  ARTH 218 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Spring 2021

TUT Section: RT1  TBA  Peter D. Low

WGSS 312  (S)  An American Family and "Reality" Television  (WS)

Cross-listings: ARTH 310  WGSS 312  AMST 333

Secondary Cross-listing

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Lounds' marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research
paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Class Format: Remote seminar. The course will feature synchronous online class meetings.

Requirements/Evaluation: class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: None

Enrollment Limit: 14

Enrollment Preferences: Junior Art majors, followed by senior majors

Expected Class Size: 12

Grading: No pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: R1 MW 6:45 pm - 8:00 pm C. Ondine Chavoya

WGSS 330 (S) "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics (DPE) (WS)

Cross-listings: AMST 310 ENGL 302 WGSS 330

Secondary Cross-listing

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuye Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Judith Butler, as we analyze the kinds of performances that brought together feminist poetry and political activism. We spend some time in the archives, analyzing documents from the period, including original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new language to "hear," not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

Class Format: I anticipate that this class will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements.

Requirements/Evaluation: two short analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), short presentation, longer final researched paper (10-12 pages)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

Enrollment Limit: 16

Enrollment Preferences: English, Women's, Gender, and Sexuality Studies, American Studies majors

Expected Class Size: 16

Grading: Yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, critical summaries of feminist criticism, two four-to-five-page graded papers, one creative assignment, a longer, final researched paper (10-12 pages), written in stages over a period of several weeks with feedback at each stage. Critical feedback on written assignments a week prior to due date through conferences and Google Docs and on graded assignments within one week.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

WGSS 335 (S) Michelangelo: Self and Sexuality (WS)

Cross-listings: ARTH 331  WGSS 335

Secondary Cross-listing
Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice--from painting to poetry--wrestles with them in countless, fascinating ways. Students' writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashioning, artist and patron, past and present.

Class Format: Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

Requirements/Evaluation: Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation

Prerequisites: Any ARTH course

Enrollment Limit: 10

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336 (S) Foucault Now (DPE) (WS)

Cross-listings: WGSS 336  PHIL 326

Secondary Cross-listing
If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the
biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by scholars that draw on Foucault to address problems in today's present. Among the contemporary texts assigned might be the following: Bernard Harcourt's Exposed: Desire and Disobedience in the Digital Age, Saidiya Hartman's Wayward Lives, Beautiful Experiments (2019), Verena Ehrlenbusch’s Terrorism: A Genealogy, Cressida Heyes’ Anaesthetics, Ladelle McWhorter’s Racism and Sexism in Anglo-America: A Genealogy, and Active Intolerance: Michel Foucault, The Prisons Information Group, and the Future of Abolition, eds. Perry Zum and Andrew Dills.

Class Format: I will meet with students in a seminar format at various points throughout the semester. I have requested a class block for this reason.

Requirements/Evaluation: evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner’s papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Relevant background in critical theory, social theory, political theory or philosophy.

Enrollment Limit: 10

Enrollment Preferences: I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336 (D2) PHIL 326 (D2)

Writing Skills Notes: This is a tutorial. Students will write five or six 5-6-page papers during the course of the semester and receive significant feedback on each paper. At the end of each tutorial meeting the student is asked to reflect on how they would approach the paper differently if they were to rewrite it. In this version of the course, I may ask students to select one paper to revise as a final assignment.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. Moreover, we will read material that uses Foucauldian tools to address contemporary issues involving sexism and racism, digital surveillance, and the abolition of prisons.
