- [Publications and Websites: Chief Communications Officer](#)
- [Sexual Misconduct: Title IX Coordinator](#)
- [Transcripts, Records, Catalog: Registrar](#)

The corporate name is The President and Trustees of Williams College.
Williams College is dedicated to building a diverse and inclusive community in which members of all backgrounds can live, learn and thrive. In compliance with state and federal law, Williams does not discriminate in admission, employment, or administration of its programs and activities on the basis of race, color, sex, national origin, religion, age, disability, marital status, sexual orientation, gender identity or expression, ancestry, or military service.

Inquiries should be addressed to:

Assistant Vice President & Title IX Coordinator
Office of Institutional Diversity, Equity, and Inclusion
Williams College
PO Box 607
Williamstown, MA 01267
413-597-4376
In the gentle light of the Berkshire hills, Williams pursues a bold ambition: To provide the finest possible liberal arts education. If the goal is immodest, it is also bracing: Elevating the sights and standards of every member of the community, encouraging them to keep faith with the challenge inscribed on the College’s gates: “climb high, climb far.”

Williams is fortunate to have extraordinary resources, but its strength derives above all else from the quality of its people.

Williams students rank with the best in the country; the rigor and competitiveness of the College’s admission standards place Williams in the company of only a handful of other institutions. Over the past thirty years especially, Williams has both strengthened its academic profile and actively recruited a student body that is markedly more diverse in many dimensions, including race, national origin, and the educational and socio-economic background of its families.

The strength of the student body today is the product of the College’s resolve to search as widely as possible for students of high academic ability and great personal promise. Diversity is not an end in itself, but a principle flowing from the conviction that encountering differences is at the heart of the educational enterprise—differences, certainly, of ideas and beliefs, but also differences of perspectives rooted in the varied histories students bring with them.

As both an educational and social imperative, we are committed to welcoming talented students irrespective of their financial resources, and it is therefore a central institutional priority—unwaveringly supported by all parts of the College community—to maintain our policies of need-blind admission for domestic students and of fully meeting a student’s demonstrated need. And, recognizing that of those to whom much has been given much may properly be required, we ask all our students to understand that an education at Williams should not be regarded as a privilege destined to create further privilege, but rather as a privilege that creates the opportunity and responsibility to serve society at large.

We seek to capitalize on our character as a residential college by placing great emphasis on the learning that takes place not only inside the classroom, but outside as well, where students can strengthen mind, body, and spirit by participating in athletic teams, artistic performances, political debates, religious and volunteer groups, and nearly one-hundred-and-seventy extra-curricular organizations. We also urge students to see their college as a laboratory in citizenship. To an unusual degree, Williams gives students primary
responsibility for creating and governing their own community, whether as Junior Advisors (chosen by fellow students to live with and mentor first-year students), or as guardians of academic integrity through the student-led Honor Code.

Recruiting top talent from a wide variety of institutions, Williams asks its faculty to accept a distinctive—and unusually demanding—combination of challenges: to be exemplary teachers, productive scholars or artists, and active partners in running the institution. Well supported by the College through research funding and a generous sabbatical program, Williams faculty are leaders in their fields—recognized nationally, and often internationally, for the high quality and significance of their scholarly and creative work. They also embrace the chance to shape their college, serving in a civic spirit on an array of committees, and as senior officers of an institution that has long prized shared governance and collaborative decision-making.

But it is the teaching gene that especially defines Williams professors. They devote sustained attention every year to assessing the quality and freshness of the curriculum, and to crafting pedagogical approaches that help nurture in their students a passionate pleasure in the life of the mind. Faculty members invite students to become partners in the process of intellectual discovery. That partnership becomes visible in every classroom, where students are expected to contribute rather than consume; in the challenging setting of Williams tutorials, where students take the lead in explaining what is interesting and consequential about that week’s assignment; and in the College’s ambitious programs to engage students directly in faculty research.

But the classroom and curriculum are only the entry points. Professors at Williams want to know not only what their students think, but how they think and who they are. They want to know students in all their dimensions—to learn their histories and hopes, to advise them on matters personal as well as academic, to see them as complex individuals who deserve attention and respect.

Faculty and students together, learning with and from each other in a community whose intimacy of scale fosters close personal and intellectual relationships; where concern for the needs and ideas of other people is not only an educational, but an ethical, imperative; where the values of engagement and decency fundamentally shape the educational process: These are the ideals to which Williams faculty and students aspire.

They have strong partners. Williams is blessed with an enormously talented administrative and support staff; they keenly understand the College’s mission and devote their energies to advancing it. Williams alumni are fiercely and intelligently loyal, contributing generously of their time, experience, and resources. Far from insisting that the College remain as it was in their time, alumni encourage Williams to reinvent itself for each new
generation. Williams trustees (all of whom are currently alumni) provide discerning strategic direction and careful stewardship of the College’s assets. While the board is fully engaged, it keeps its focus on large policy issues and long-term decisions.

We are fortunate, too, in our location. Surrounded by communities that enthusiastically support and participate in its educational project, Williams is at home in a town rich with cultural resources. The College strives to be a responsible citizen and employer, and contributes both expertise and resources to numerous local initiatives. The natural beauty of the Berkshires makes us especially conscious of the urgent need to address—through our teaching and research, and through the daily operations of the College—the environmental problems that threaten an increasingly fragile planet.

That is who we are, and this is what we aim to do: To develop in students both the wisdom and skills they will need to become responsible contributors to whatever communities they join, and the richly textured inner lives that will make them rigorously self-reflective, ethically alert, and imaginatively alive. Public and private purposes, as it were, harmoniously nurturing each other. Toward these ends, certain principles and values shape our sense of mission:

- Our purpose is not to offer specialized or professional training, but to develop in our students strong writing, speaking, and quantitative abilities, as well as analytical and interpretive talents, tested in relation to a wide range of issues and disciplines. We embrace the liberal arts claim that a broadly educated person will be more capable of adapting to the particular needs of the professions and of public life than a person narrowly trained in singular subjects.
- Our curricular requirements aim to negotiate the crucial balance between breadth and depth. We combine an appropriately liberal distribution of each student’s course choices across the curriculum with some measure of control over the methods and subject matter of at least one field. While fully recognizing the important value of disciplinary approaches and the departmental structures that support them, we have welcomed and participated in the academy’s growing emphasis on inter-disciplinary learning as a way of understanding the inter-connectedness of ideas, and as a bulwark against the fragmentation of knowledge.
- Through the increasingly global reach of our curriculum, as well as the diversity of our campus community, we seek to develop in students the capacity to see beyond the limits of their own experience. So many of the world’s problems—from racism, to sectarian and nationalistic violence, to everyday forms of disrespect—stem from a failure to imagine our way into the lives of other people, a failure to understand the beliefs and contingencies that shape their lives, a failure to hear the stories that other people are trying to tell us. A liberal education alone cannot solve the world’s problems, but it can help to open minds and deepen human empathy.
• Our curriculum is as varied, up-to-date, and forward-thinking as the contemporary world requires, but we also want to strengthen our students’ curiosity about, and respect for, the past: for the story of how people before us have responded to challenges different from—but analogous to—our own, for the story of where human beings have been, what we have achieved, and how we have failed. We want to resist the tendency to see our historical moment as so much more complex and dangerous than those experienced by earlier generations that we fail to think of the past as something that calls to us with an urgent, or admonitory, or even sympathetic voice.

• We want, too, to lean against the growing culture of simplification, where intricate issues are boiled down into fiercely held “positions,” where counter-arguments are seen as irritating distractions from clarity, where “points” have more power and visibility than the thinking that produced them. We want instead to inspire in our students the confidence to be undaunted by complexity, and to embrace it in ways that will prove valuable to them and to society at large.

• We aim to encourage students to develop a personal stance toward learning and knowledge, and to make judgments that put their beliefs and values on the line. We want them to have the courage of their convictions, but at the same time, to seek out criticism of their own ideas, and to appreciate the virtues of personal and intellectual humility.

These values and ambitions will serve as beacons into a future when the college will continue to encounter, and continue to welcome, changes in our demographics, our curriculum, our approaches to what and how we learn. To remain a vibrant institution that both reflects and leads the society of which it is a part, Williams must always adapt and grow, and be prepared—as we tell our students they too must be prepared—to respond in an agile, nuanced way to needs and challenges we cannot yet anticipate.

In summarizing this college’s mission, we can turn to the eloquent words spoken by Williams President John Sawyer ’39 in his induction address in 1961:

The most versatile, the most durable, in an ultimate sense the most practical knowledge and intellectual resources which [students] can now be offered are those impractical arts and sciences around which a liberal education has long centered: the capacity to see and feel, to grasp, respond, and act over a widening arc of experience; the disposition and ability to think, to question, to use knowledge to order an ever-extending range of reality; the elasticity to grow, to perceive more widely and more deeply, and perhaps to create; the understanding to decide where to stand and the will and tenacity to do so; the wit and wisdom, the humanity and humor to try to see oneself, one’s society, and one’s world with open eyes, to live a life usefully, to help things in which one believes on their way. This is not the whole of a liberal arts education, but as I understand it, this range of goals is close to its core.
So it was more than a half-century ago, and so it remains today.

The statement above is the product of discussions during the 2016-17 academic year in the Accreditation Self-Study Steering Committee, whose twenty-eight members include faculty, students, and administrators, and in the Williams College Board of Trustees. The Board approved this statement in June 2017.
Williams uses a holistic admission process that focuses on gaining a deeper understanding of an applicant’s academic achievements and personal character. Applicants to Williams should pursue the strongest program of study offered by their schools. While there are no absolute requirements for admission, competitive first-year candidates typically study English, math, natural science, foreign language and social studies in four-year sequences and present a distinguished record throughout their secondary school career.

While the academic record is the most important factor in the admission process, we seek students who will serve as leaders not only in the classroom but also in the community at large. To that end, we also consider all candidates’ non-academic involvements and achievements at school and in their communities. A strong co-curricular record might reflect a wide range of talents and achievements or distinguished accomplishment in just one or a few areas.

First-Year Applicants

First-year applicants for whom Williams is their first-choice college may apply under the binding Early Decision program. The deadline for submission is November 15, and applicants will receive notice of a decision by December 15. Early Decision applicants may submit an Early Decision application to only one institution and, if admitted under Early Decision, are expected to withdraw all other college applications and to initiate no new applications.

First-year applicants who wish to apply to more than one college should apply under the non-binding Regular Decision plan. The deadline for submission is January 8, and applicants will receive notice of a decision by April 1. The majority of applicants apply under Regular Decision and, if admitted, have until May 1 to accept their place in the class. Acceptances are always contingent upon the applicant finishing the school year in good standing.

Here is additional information about the admission process and required materials.

Transfer Applicants

Williams welcomes transfer applications from students with strong intellectual promise and community engagement. Transfer students may apply for fall enrollment only; we do not accept mid-year transfers. Students will be informed of their class standing at the point
of admission. Those who enroll as first-semester juniors will select a major upon matriculation. Students are not eligible for admission if they have already received a bachelor’s degree.

30 semester hours are considered equivalent to a full year at Williams. Students with one year or more of college credit completed or in process should apply as transfers. Students with less than one year of college credit are encouraged to apply as first-years. Regardless of how you apply, college credit may be considered for course placement.

Williams students must fulfill a two-year residency requirement, so transfer students will be granted a maximum of two years’ worth of credit. Students who have earned more than two years of transferable credit must relinquish credit in order to meet the residency requirement, but they may still use that credit for course placement.

The deadline for transfer application submission is March 1. Applicants will receive notice of a decision by April 15 and have until June 1 to accept their place in the class.

Here is additional information about the transfer admission process and required materials.

**Veteran Applicants**

Williams encourages applications from individuals who have actively served in the U.S. military. Veterans may apply either as first-year or transfer students, depending on the amount of college coursework completed. Please consult the Apply page for more information. The Registrar will determine how much credit will be awarded for work completed at other institutions.

We require transcripts of all secondary and post-secondary academic work, including any coursework completed during service. We take a holistic approach to the admission process, and will evaluate each application—including these transcripts—in context, taking into account any time that may have elapsed since enrollment. If service has caused gaps in academic work for more than two years, we recommend enrolling in challenging college-level courses prior to submitting a formal application. Successful completion of post-secondary coursework will provide us with the most recent picture of academic abilities and the best evidence of potential for academic success.

Our standard applications for admission may not accurately capture all of a veteran’s individual interests and experiences, so we encourage applicants to detail any unique circumstances and achievements in the additional information section or by submitting supplementary materials.
An application fee waiver is available for all veterans and can be requested on the Coalition Application and the Common Application. A fee waiver for the CSS PROFILE is also available by emailing the Admission Office.

We meet 100 percent of each admitted veteran’s demonstrated financial need for four years. In many cases, this may well exceed the aid provided by veterans’ benefit programs.

More detailed information on available financial aid, Post-9/11 GI Bill® benefits, and our participation in the Yellow Ribbon Program, is available on the Financial Aid Office site.

**International Applicants**

Williams is committed to building a community that includes the brightest minds from around the world. Each year, we receive nearly 2,300 international applications—that is, from students who, regardless of country of residence, do not hold U.S. citizenship, permanent residency or a green card—from more than 100 countries. Today, international students make up nine percent of the Williams student body.

Given the number of international applicants to Williams annually, the Admission Committee is familiar with the nuances of school systems and curricula from around the world. Therefore, international applicants follow the same application procedures as U.S. citizens and are not required to submit any additional forms or testing. Those students whose first language or language of academic instruction is not English must document their English proficiency, but there is no one required examination. While we are happy to review TOEFL or IELTS results, such examinations are not requirements for admission to Williams.

Financial Aid

catalog.williams.edu/financial-aid

Williams has one of the most generous financial aid programs in the country, thanks to generations of gifts from alumni, parents, and friends. It allows us to award more than $60 million a year in financial aid to more than half of all Williams’ students. Our financial aid program is based entirely on need, and we meet 100 percent of every student’s demonstrated need. We are committed to working with students and their families to make a Williams’ education affordable.

Here are details for all applicants and current students about the financial aid process and required application materials based on your citizenship status.

First-Year Applicants

First-year applicants for whom Williams is their first-choice college may apply under the binding Early Decision program. The deadline for financial aid is November 20, and applicants will receive notice of a decision by December 15.

First-year applicants who wish to apply to more than one college should apply under the non-binding Regular Decision plan. The deadline for financial aid is January 15, and applicants will receive notice of a decision by April 1.

Transfer Applicants

Transfer applicants who wish to apply for financial aid as part of the admissions process should do so by March 15 and applicants will receive notice of a decision by May 1.

Current Students

Current students who have received financial aid in past or would like to be considered for the first time should apply for financial aid annually. Preferred submission date for all current students is November 15 for the following academic year. Student who meet this submission date will expect to receive their award for the following academic year before the end of spring term. Please note that international students who did not apply for financial aid during the admission process will not receive financial aid during their time at Williams.

Contact Us
Here is detailed information about our policies and procedures as well as our most frequent questions. All applicants are assigned a financial aid officer to walk them through each step and their officer is listed on the award notice.

For more information please contact:

Office of Financial Aid
Williams College
Weston Hall

Williamstown, MA 01267
413-597-4181
finaid@williams.edu
finaid.williams.edu
Williams College, within the limits of available funds, offers educational opportunities to all who qualify for admission. Endowment income and annual contributions from alumni and friends allow Williams to keep tuition at about half the actual cost per student.

The Student Accounts Office oversees billing and expenses—detailed information can be found on their site.

### Comprehensive Fee

Charges for 2020-21 tuition, room, board, and fees are as follows:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$59,350</td>
</tr>
<tr>
<td>Room</td>
<td>$7,625</td>
</tr>
<tr>
<td>Board</td>
<td>$7,375</td>
</tr>
<tr>
<td>Activities &amp; Residential House Fees</td>
<td>$310</td>
</tr>
<tr>
<td>Study Away Fee (if applicable)</td>
<td>$1,500</td>
</tr>
</tbody>
</table>

The charge for full-time students per semester hour will be $1,978.

### Health Insurance

The Commonwealth of Massachusetts requires health insurance for all full and three-quarter time students.

Williams offers a qualifying student health insurance plan through Blue Cross Blue Shield of Massachusetts (BCBS). Information about the plan is emailed to every student in May. Students enrolled in the Williams plan for 2020-21 will be charged $2,291.00 for this coverage.

Participation in this plan may be waived if a student certifies by August 15 that the coverage offered by an alternative program is comparable to the plan offered by Williams. Questions about the plan or online waiver/enrollment process should be directed to Gallagher Student Health.

### Term Bill Payments
Term bills for one-half of the annual comprehensive fee are issued electronically to students twice a year:

- mid-July due by August 8
- mid-December due by January 8

Additional billing statements are sent on a monthly basis with any miscellaneous charges or credits that are posted to a student’s account during the course of the term.

Students are encouraged to grant access to parents and other parties to the Student Account Center to pay and view bills online. Payments may be made by echeck, ACH or by credit card (2.99% convenience fee). International payments may be made by wire transfer through Flywire. Payments may also be made by check, mailed directly to:

Williams College  
Student Accounts Office  
PO Box 406  
Williamstown, MA 01267

**Payment Plans**

Williams offers two installment payment plans, administered by Tuition Management Systems’ Student Account Center (SAC), where charges for each term are paid in equal installments, with no interest charges.

Information on payment plan options and SAC can be found at the Student Account Center.

**Returned Checks**

A $30 charge will be assessed for each returned check paid directly to Williams or any payment through the Student Account Center. A cashier check or money order may be required as payment for a returned check.

**Outside Scholarships/Employer Tuition Benefit Plans**

Students who receive a scholarship that was not awarded through the Financial Aid Office, or an employer tuition benefit plan, must complete a Scholarship Information Sheet and submit it to the Financial Aid Office by May 30. Provisional credit will be posted to the term bill. If actual payment for the provisional credit is not received by the date anticipated, the provisional credit will expire and be removed from a student’s account creating a balance due.

**Loans**
The Financial Aid Office has information about loan options available to parents.

**Outstanding Balances**

Accounts that are not paid in full by the due date may be assessed a $250.00 late fee. This includes accounts which have a balance due to a late loan application or the failure of the student or parent to sign promissory notes on a timely basis.

A student with an outstanding balance may be held from the following activities:

- Returning to campus for new semester
- Pre-registration for following semester
- Drop/add for current semester
- Housing lottery for next semester
- Parking lottery for next semester

Upon graduation, all outstanding balances must be paid, and all books and materials must be returned to the Library, before a student is entitled to a degree or a transcript.

**Refund Policy and Tuition Refund Insurance**

Federal regulations require that all educational institutions disclose their refund policy to all prospective students. Here is the Williams College Refund Policy, which outlines withdrawal deadlines and amounts refunded.

Williams offers a GradGuard™ Tuition Protection Plan which supplements the Williams College Refund Policy in the case of a medical withdrawal.

**Federal Funds Repayment**

For students receiving Title IV federal funds, repayment of federal funds on a pro-rata basis will be determined up to the 60% point of the semester per federal regulation. Please note that withdrawal late in the semester could result in a balance owed to Williams for federal aid that must be returned to the program.

**Tax Forms**

Williams will issue a 1098-T form at the end of each calendar year for the American Opportunity and Lifetime Learning tax credits. The 1098-T should not be used to calculate the amount of scholarship and grant aid that is taxable. These forms will be mailed by January 31 to the student at the permanent address on file.

**Veterans Affairs’ (VA) Title 38 United States Code Section 3679(e) School Compliance Statement**
Williams College’s billing policy is compliant with the requirements of 38 USC 3679(e). Any covered individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits will be permitted to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33, and ending on the earlier of the following dates:

1. The date on which payment from VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.

For students under chapter 33, a certificate of eligibility can also include a “Statement of Benefits” obtained from the Department of Veterans Affairs’ (VA) website – eBenefits. For students under chapter 31, a VAF 28-1905 form serves as authorization of benefits.

Williams College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, because of the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

NOTE: A covered individual is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at https://www.benefits.va.gov/gibill.

The Winter Study Period covers 24 calendar days.
Concentrations

In addition to majoring in a field, students may choose to concentrate elective courses in a single topic or area. A concentration is normally declared spring of sophomore year. Concentrations are offered in the following programs:

Coordinate Programs

A number of programs do not offer concentrations formally, but do provide students with the opportunity to study interdisciplinary topics:

These programs provide guidance only and do not appear on transcripts.

Honors Program

The Honors Program requires two or three courses (one of which may be a Winter Study course) constituting a clearly interrelated pattern of study in the form of specialization within the major or interdisciplinary study with courses from other programs, and culminates in a thesis or project. At least one of the courses is in addition to the minimum number required for the major or concentration. Students must do the equivalent of two theses or projects to be eligible for honors in two majors or a major and concentration.

Prior to enrolling in the final required course for their program and before senior year, students should contact individual departments or programs for information about special criteria, procedures, and patterns of study for honors.

The degree is awarded with honors or highest honors at the end of senior year if, in the judgment of the department or program, its criteria of excellence have been met.

As the final step, honors theses or projects must be submitted to Special Collections, according to their specific guidelines.

Foreign Language Certificates

Certificates are awarded in Arabic, French, German, Russian, and Spanish. The certificate confirms a particular degree of proficiency, cultural literacy, and experience with the language. The number of courses required for a certificate varies, depending on the language. Please see individual programs for details.

Combined Program in Liberal Arts and Engineering
Williams offers opportunities for students to combine their liberal arts education at Williams with undergraduate professional training in engineering via two 5-year dual-degree programs: a 3-2 program with the Fu Foundation School of Engineering and Applied Science at Columbia University, and a 2-1-1-1 program with the Thayer School of Engineering at Dartmouth. Upon successful completion of either of these programs, a student receives a Bachelor of Arts degree from Williams as well as either a Bachelor of Science (Columbia) or Bachelor of Engineering (Dartmouth) degree in an engineering discipline.

Students interested in pursuing either dual-degree program must complete the requirements for a Williams degree, including the major and distribution requirements, as well as the prerequisite courses for their engineering program of choice, so it is necessary to plan course selections at Williams carefully. The Physics Department’s Pre-Engineering site includes a list of Williams courses recommended to prospective engineers, as well as links to further resources.

A popular alternative to the dual-degree programs is to complete the Williams B.A. in the usual four years, majoring in one of the sciences, and then go directly to a graduate program in engineering.

The pre-engineering advisor, Katharine Jensen, will be happy to assist students interested in any of the options leading to engineering careers.

Tutorial Program

The Tutorial Program offers Williams students a distinctive opportunity to take a heightened form of responsibility for their own intellectual development. No student is required to take a tutorial course, but any student with the appropriate qualifications and interests is invited to do so.

Tutorials place much greater weight on student participation—more so than regular courses or small seminars. They aim to teach students how to develop and present arguments; listen carefully, and then refine their positions in the context of a challenging discussion; and respond quickly and cogently to critiques of their work. Tutorials place particular emphasis on developing analytical skills, writing abilities, and the talents of engaging in rigorous conversation and oral debate.

The ways in which particular tutorials are conducted vary across the disciplines, but this is how most tutorials at Williams are organized:

Tutorials are usually limited to ten students. At the start of term, the instructor divides students into pairs. Each pair meets weekly with the instructor for roughly one hour—this is the main focus of tutorial courses. Many tutorial courses begin and end the term with a group seminar, and in a few departments, instructors hold weekly group meetings of all
tutorial members to provide background information designed to facilitate students’ independent work.

At these weekly meetings, one student delivers a prepared essay or presentation (e.g., an analysis of a text or work of art, a discussion of a problem set, a report on laboratory exercises, etc.) pertaining to the assignment for that week, while the other student—and then the instructor—offer a critique. In the following week, students switch roles. Typically, students write five or six essays (usually in the range of 4-7 pages) during the term, and offer five or six critiques of their partners’ work.

Since the program’s inception in 1988, students have ranked tutorials among the most demanding—and rewarding—courses they have taken at Williams. While not designed to be more difficult than other courses, tutorials are nonetheless challenging, with frequent writing assignments and the expectation that students will be well prepared to participate actively and effectively in weekly discussions. At the same time, students have consistently placed tutorials among the most enriching and consequential courses they have taken. They appreciate the close attention to their writing and argumentation skills; the opportunity to be held accountable, in a detailed way, for the extended implications of their ideas; the chance to develop their oral abilities as they engage in debate; and the close intellectual bonds tutorials build between teachers and students, and students with each other. Many students have formed important advising and mentoring relationships with their tutorial teachers.

Registration Information

Students pre-register for tutorials as they would any other course. Because of limited enrollments and the special logistical arrangements involved in organizing tutorials, students may not drop a tutorial after 4:00 pm on the day before the first scheduled organizational meeting of the semester. It is important that students determine, before the start of the term, their interest in and commitment to the course, and consult with the instructor if necessary.

Tutorials may not be taken on a pass/fail basis.

This is a current list of tutorials offered.

Independent Study

When students wish to study a subject not covered by regular course offerings, arrangements can be made to take independent study courses under faculty supervision. Once plans for an independent study have been discussed with a faculty sponsor, the Independent Study Request form should be submitted before the beginning of the semester in which the independent study will be taken, but no later than the last day of the drop/add period.
Cross-Enrollment Program

Students may register at Bennington College or Massachusetts College of Liberal Arts for courses not offered at Williams.

Please note, one and two credit courses at Bennington College are not transferable.

Contact the Registrar’s Office to make arrangements.

Study Away

Students are encouraged to think about the option of study away as they begin the process of considering major fields and course requirements sophomore year. All students in good standing with no deficiencies, including financial aid recipients, are encouraged to study away during all or part of their junior year. The Office of International Education and Study Away offers up to 200 approved programs, both domestically and internationally, for students to choose from. Nearly 50% of the junior class chooses to study away for a full semester or academic year.

Credit earned in the Williams-Mystic Maritime Studies Program and the Williams-Exeter Programme at Oxford University are considered Williams credits and the grades will be applied toward the GPA. Students participating in all other approved programs will receive general credit and their GPA will not be impacted, however, the experience will appear on their Williams transcript. Coursework will transfer toward the Williams degree assuming students earn a C- or above. Approval is required from the chair of a student’s major department for major credit; the Director of International Education and Study Away and the Committee on Academic Standing (CAS) for general credit.

The one-time petition deadline is March 1st the year before a student chooses to study away. To learn more about the process please contact the Office of International Education and Study Away.

Fellowships

The Williams Office of Fellowships helps students extend their learning outside of the classroom. A national fellowship or a Williams College award may help you fund graduate study in the US or abroad or support travel, study, and experiential learning as an undergraduate. From the initial inquiry to the nomination and selection stages of a national competition, the Fellowships Office works with undergraduates, seniors, and alumni to prepare competitive applications. Students are encouraged to attend information sessions held by the Office of Fellowships and discuss their candidacy with the Director of Fellowships.

Experiential Education
Experiential education, involving “learning by doing” outside the classroom, is a robust part of the Williams curriculum. In addition to the use of traditional laboratory work in the natural sciences and studio work in art, faculty have been challenging students to become engaged more personally in the Williams curriculum through field work, whether in the form of research, sustained work on special projects, or through placement with community organizations. Courses which include experiential learning provide students with opportunities to encounter firsthand the issues that they read and study about, requiring them to apply academic learning to nonacademic settings and challenging them to use their experiences in those settings to think more critically and deeply about what they are studying. Experiential courses, as defined above, range from fully integrated off-campus programs such as the Williams-Mystic Maritime Studies Program to courses involving a small field research exercise or project. The amount and nature of the experiential component(s) varies according to the instructor’s judgment. More information can be found on the Center for Learning in Action site.

Special Academic Programs

The Office of Special Academic Programs (OSAP), part of the Office of Institutional Diversity and Equity, develops and administers programs that address diversity and inclusion in higher education. Beginning with the pre-enrollment programs—Summer Humanities and Social Sciences (SHSS) and Summer Science Program (SSP)—OSAP provides opportunities for students to thrive academically. The Mellon Mays Undergraduate Fellowship (MMUF) and the Allison Davis Research Fellowship (ADRF) give selected students the opportunity to learn advanced research skills and practice them on research projects of their own design with the guidance of a faculty mentor and a cohort of peers. The fellowships offer stipends so students can use their time to pursue research instead of campus and summer jobs. The ultimate goal of these fellowships is to increase the number of students from underrepresented groups in PhD programs and academic careers. OSAP also helps connect eligible students to a variety of other opportunities, from the Creating Connections Consortium (C3) summer fellowships to the Institute for Recruitment of Teachers (IRT) to a wide variety of summer research programs. More information can be found on the OSAP site.
Summary

Williams College offers a course of study leading to the Bachelor of Arts degree. The course requirements prescribe both the number of courses to be completed and the minimum grade level to be achieved; the curriculum also requires that each student explore several fields of knowledge and major in one.

To be eligible for the Bachelor of Arts degree students must complete the following requirements within eight semesters, including any semesters for which a student receives credit while not in residence at Williams (semesters spent away on exchange or other approved programs at other colleges are included in the eight semesters):

- Pass 32 semester courses, 4 per semester (see COVID-19 policy addendum):
  - at least 29 of which must be regularly graded A-E (see COVID-19 policy addendum), including 19 with grades of C- (in any semester) or a grade of Pass (in Spring 2020, Fall 2020, and Spring 2021);
  - a maximum of 3 P/F courses, with a limit of 1 P/F per semester (see COVID-19 policy addendum);
  - students may not repeat a course for which degree credit has been awarded.
- Fulfill the four-part distribution requirement with graded (see COVID-19 policy addendum) courses taken at Williams or at programs under the direction of Williams College faculty:
  1. Divisional requirement: three graded (see COVID-19 policy addendum) semester courses (with two different prefixes) in each division, two of which must be completed by the end of sophomore year.
  2. Writing Skills (WS) requirement: two writing skills courses, one by the end of sophomore year, and one by the end of junior year.
  3. Difference, Power, and Equity (DPE) requirement: one before graduation, however, students are urged to complete the course by the end of sophomore year. (Class of 2021: students who have successfully completed an EDI course do not need to complete a DPE course; students who have not taken an EDI course can satisfy the requirement by completing a DPE course. Class of 2022, 2023, 2024: students must satisfy the DPE requirement).
  4. Quantitative/Formal Reasoning (QFR) requirement: one by the end of junior year.
- Complete all requirements for the major with an average of C- or higher.
- Pass four Winter Study courses (see COVID-19 policy addendum).
• Complete four quarters of physical education by the end of sophomore year in at least two different activities.

• Take the swim test at the start of the first semester at Williams—students who fail to complete the test must pass a basic swim course.

• Be in residence at Williams eight semesters, two of which can be an approved Study Away program. Students must be in residence for both semesters of their final year.

**Academic Requirement**

To be eligible for the Bachelor of Arts degree students must pass 32 semester courses (see COVID-19 policy addendum), at least 29 of which must be regularly graded A-E (see COVID-19 policy addendum), including 19 with grades of C- (in any semester) or a grade of Pass (in Spring 2020, Fall 2020, and Spring 2021); fulfill the four-part distribution requirement; complete all requirements for the major with an average of C- or higher; and pass four Winter Study courses (see COVID-19 policy addendum). Students may not repeat a course for which degree credit has been awarded.

**Distribution Requirements**

The distribution requirement falls into four parts. Courses used to fulfill these requirements must be regularly graded (see COVID-19 policy addendum).

1) **Divisional requirement**: Designed to ensure students take an appropriately diverse distribution of courses across the full range of the curriculum.

Courses are grouped into three divisions:

- Division I: Languages and the Arts
- Division II: Social Studies
- Division III: Science and Mathematics

Students must complete at least three graded (see COVID-19 policy addendum) semester courses in each division. Two in each division must be completed by the end of sophomore year. No more than two of the courses used to satisfy the requirement may have the same course prefix. The courses must be taken at Williams or at programs under the direction of Williams College faculty.

There may be exceptions to divisional credit, and those exceptions are noted in individual course descriptions.

**Division I** courses are designed to help students become better able to respond to the arts sensitively and intelligently by learning the language, whether verbal, visual, or musical, of a significant field of artistic expression. Students learn how to develop the capacity for
critical discussion, to increase awareness of the esthetic and moral issues raised by works of art, and to grow in self-awareness and creativity.

- Arabic (exceptions, see individual course descriptions)
- Art History
- Art Studio
- Asian Studies (any Asian Studies course that is also cross-listed with another subject carries divisional credit of that subject; for other exceptions see individual course descriptions)
- Chinese (exceptions, see individual course descriptions)
- Classics
- Comparative Literature
- Critical Languages
- Dance
- English
- Environmental Studies (any Environmental Studies course that is also cross-listed with another subject carries divisional credit of that subject; for other exceptions see individual course descriptions)
- French
- German
- Greek
- History of Science (exceptions, see individual course descriptions)
- Interdisciplinary Studies (exceptions, see individual course descriptions)
- Italian
- Japanese (exceptions, see individual course descriptions)
- Latin
- Literary Studies
- Maritime Studies (exceptions, see individual course descriptions)
- Music
- Russian
- Spanish
- Theatre

**Division II** courses consider the institutions and social structures that human beings have created, whether knowingly or unknowingly, and which in turn markedly affect their lives. These courses are intended to help students recognize, analyze, and evaluate these human structures in order that they may better understand themselves and the social world in which they live.

- Africana Studies
- American Studies
- Anthropology
Division III courses are intended to provide some of the factual and methodological knowledge needed to be an informed citizen in a world deeply influenced by scientific thought and technological accomplishment, and to cultivate skill in exact and quantitative reasoning.

- Astronomy
- Astrophysics
- Biochemistry and Molecular Biology
- Biology
- Chemistry
- Computer Science
Environmental Studies (any Environmental Studies course that is also cross-listed with another subject carries divisional credit of that subject; for other exceptions see individual course descriptions)

- Geosciences
- History of Science (exceptions, see individual course descriptions)
- Interdisciplinary Studies (exceptions, see individual course descriptions)
- Maritime Studies (exceptions, see individual course descriptions)
- Mathematics
- Neuroscience
- Physics
- Psychology (exceptions, see individual course descriptions)
- Statistics

**Writing Skills (WS) requirement:** The goal of this requirement is to improve student writing proficiency across disciplines. Students in these courses will receive guidance on structure, style, argumentation, and other significant aspects of writing throughout the semester. This may be achieved through brief assignments spaced over the semester, sequenced assignments leading to a longer final paper, etc. WS courses may also include multiple drafts, peer review, conferences or class discussions designed to improve writing skills. (A course with a single long paper due at the end of the semester, but with no required or structured means of addressing writing issues, would not be considered a writing skills course.)

The primary function of the WS designation is to indicate that the course will provide consistent and ongoing feedback on students’ writing. Thus, the amount of writing should be substantial and well spaced, followed by timely evaluation and suggestions for improvement. Specifically, a WS course should require multiple assignments, each returned with comments which address writing problems and strategies, as appropriate. Because WS course instructors must pay attention to students’ writing skills as well as to their mastery of the content of the course, WS courses have a maximum enrollment of 19.

All students are required to take TWO WS courses: one by the end of sophomore year and one by the end of junior year. Students will benefit most from WS courses by taking them early in their college careers and are strongly encouraged to complete the requirement by the end of sophomore year.

Here is a current list of courses offered that meet the WS requirement.

More information for faculty.

3) **Difference, Power, and Equity (DPE) requirement:** Williams College recognizes that in a diverse and globalized world, the critical examination of difference, power, and equity is an essential part of a liberal arts education. The DPE requirement provides
students with the opportunity to analyze the shaping of social differences, dynamics of unequal power, and processes of change. Courses satisfying the DPE requirement include content that encourages students to confront and reflect on the operations of difference, power and equity. They also provide students with critical tools they will need to be responsible agents of change. Employing a variety of pedagogical approaches and theoretical perspectives, DPE courses examine themes including but not limited to race, class, ethnicity, gender, sexuality, and religion.

All students are required to complete at least ONE DPE course. Although this course, which may be counted toward the divisional distribution requirement, can be completed any semester before graduation, students are urged to complete the course by the end of sophomore year. The requirement may be fulfilled with a course taken away from campus, but students wishing to use this option must petition the Committee on Educational Affairs (CEA) upon their return by providing a clear and detailed explanation of how the course taken away from Williams fulfills the DPE requirement.

**Class of 2021**

Students who have successfully completed an EDI course do not need to complete a DPE course.

Students who have not taken an EDI course can satisfy the requirement by completing a DPE course.

**Class of 2022, 2023, 2024**

Students must satisfy the DPE requirement.

Here is a current list of courses offered that meet the DPE requirement.

More information for faculty.

**4) Quantitative/Formal Reasoning (QFR) requirement:** This requirement is intended to help students become adept at reasoning mathematically and abstractly. The ability to apply a formal method to reach conclusions, use numbers comfortably, and employ the research tools necessary to analyze data lessens barriers to carrying out professional and economic roles. The hallmarks of a QFR course are the representation of facts in a language of mathematical symbols and the use of formal rules to obtain a determinate answer. Primary evaluation in these courses is based on multistep mathematical, statistical, or logical inference (as opposed to descriptive answers).

Prior to senior year, all students must satisfactorily complete ONE QFR course. Students requiring extra assistance (as assessed during First Days) are normally placed into MATH 100/101/102, which is to be taken before fulfilling the QFR requirement.
Here is a current list of courses offered that meet the QFR requirement.

More information for faculty.

**Major Requirement**

The major requirement is designed to assure that all Williams students have the experience of disciplined and cumulative study, carried on over an extended period of time, in an important field of intellectual inquiry. Students are required to declare a major spring of sophomore year.

**Majors**

- American Studies
- Anthropology
- Arabic
- Art (History, Studio)
- Asian Studies
- Astronomy
- Astrophysics
- Biology
- Chemistry
- Chinese
- Classics
- Comparative Literature
- Computer Science
- Economics
- English
- Environmental Studies
- French
- Geosciences
- German
- History
- Japanese
- Mathematics
- Music
- Philosophy
- Physics
- Political Economy
- Political Science
- Psychology
- Religion
- Russian
General Structure of Majors

1) Students must elect at least nine courses in their major field. A major may also require an additional course and/or one Winter Study course during junior or senior year.

Students may also fulfill the minimum requirements for a major by taking eight courses in the major field and two courses, approved by a major advisor, in associated fields. In interdepartmental majors, such as Political Economy, a larger number of courses may be required.

2) A prescribed sequence of courses, supplemented by parallel courses, and including a major seminar, is required in some major fields. Other majors ask students to plan a sequence of elective courses, including advanced work building on elementary courses in the field, and ending in a one- or two- semester faculty-organized course or project senior year. All majors provide a system of counseling to help students plan programs reflecting individual interests as well as disciplined and cumulative patterns of inquiry.

Courses in many major programs require prerequisite courses in related areas. A full description of the detailed structure of each major is found under the heading of that major.

Major and Concentration

A student can count a course twice for a major and a concentration(s).

Two Majors

Although students may be granted permission to use a course from one major to fulfill a particular requirement in another, a student must take the minimum number of courses in each field without counting any course twice. Students may be a candidate for honors in either or both of the majors, but a course for honors in one major may not be used for an honors course in another.

Three Majors

Students may complete three majors with the permission of all majors and the Committee on Academic Standing (CAS). Although students may be granted permission to use a course from one major to fulfill a particular requirement in another, a student must take
the minimum number of courses in all fields without counting any course twice. Students may be a candidate for honors in either or all of the majors, but a course for honors in one major may not be used for an honors course in another.

Contract Major

Students who wish to undertake the coherent study of an interdisciplinary subject not covered by a regularly offered major may propose a Contract Major. Those interested in this option should thoroughly review the Contract Major site, and begin consulting with the Contract Major Advisor and potential faculty advisors fall semester of sophomore year. Students completing a Contract Major may not do so in conjunction with a second major.

Winter Study

Winter Study, which began in 1967, is intended to provide students and faculty with a dramatically different educational experience. The differences are in the nature of the courses, the nature of the learning experience, and the change of educational pace and format from fall and spring semesters. These differences apply to the faculty and students in several ways: faculty can try out courses with new subjects and techniques that might, if successful, be used later in the regular terms; they can explore subjects not amenable to inclusion in regular courses; and they can investigate fields outside their usual areas of expertise. In their academic work (which is graded Pass, Perfunctory Pass, or Fail) students can explore new fields at low risk, concentrate on one subject that requires a great deal of time, develop individual research projects, or work in a different milieu (as interns, for example, or on trips outside Williamstown). In addition, Winter Study offers students an opportunity for more independence and initiative in a less formal setting, more opportunity to participate in cultural events, and an occasion to get to know one another better.

Students who fail their Winter Study course will be required to make up the deficiency. Students who fail through gross neglect of work may be put on academic probation or required to resign. A student who receives a second Perfunctory Pass grade in Winter Study will be required to pass a fifth course the following spring or fall semester.

Swim Test

Williams believes it is vitally important that students possess the ability to swim.

A swim test is required of all first-year students at the start of the academic year. Students are required to swim 25 yards front crawl and 25 yards backstroke.

While all first-year students are required to report to the pool for the swim test, non-swimmers are not required to take the test but must register for a beginning swim class through the Physical Education Department during the first quarter of the year.
The swim test is designed to be a safe and comfortable experience for everyone. If a student would prefer to take the swim test in a private setting, for reasons of religious observance or gender identity/expression, accommodations can be made.

**Physical Education Requirement**

The Physical Education (PE) requirement provides students the opportunity of establishing and maintaining a general level of fitness and well-being; of developing abilities in carry-over activities; of discovering and extending their own physical capabilities; and of developing skills in activities with survival implications, such as swimming.

Students must complete four PE credits as a requirement for graduation.

Students must complete at least two PE credits during the first year.

All four PE credits must be completed by the end of a student’s sophomore year. Students will not be permitted to study abroad if the Physical Education requirement has not been met.

The requirement may be met through successful participation in the following:

- Successful completion of a physical education or dance department activity course.
- Participation on a varsity, junior varsity, or club team.
- Participation in a regularly scheduled Williams Outing Club activity (requires WOC membership).
- Independent class (must be approved by the Physical Education Coordinator only after three PE credits have been earned).

Additionally, students must enroll in at least two different activities to fulfill the requirement.

- Completion of a physical education activity class earns one PE credit.
- Participation on a varsity, junior varsity or club sport team earns two PE credits per season.
- Students involved in dance ensembles earn two PE credits.
- Students may earn a maximum of three PE credits in one discipline.

Satisfactory attendance is required except for students excused by a Dean and the Director of Medical Services or the Director of Counseling Services.

PE credits are posted only twice per year, at the end of fall semester and at the end of spring semester. As a result, Academic Progress Reports may not accurately reflect PE credits.
- At the beginning of fall semester, PE credits listed should be accurate through the end of the previous spring semester.
- During late October/early November, any physical education activities completed during the first half of fall semester will not yet be posted.
- At the beginning of spring semester, any physical education activities completed during Winter Study will not be posted; they will be posted once Winter Study grading is completed.
- During April preregistration any physical education activities completed during the first half of spring semester will not be posted; they will be posted at the end of spring semester.

If your PE credits still seem incorrect, please check with the Physical Education Department.

**Residence Requirement**

Students who begin college at Williams must spend eight semesters in residence, two of which can be an approved Study Away program.

Students transferring to Williams from other institutions as sophomores are expected to spend six semesters in residence and juniors must spend four semesters in residence.

Students must be in residence for both semesters of their final year.
Graduate Programs

catalog.williams.edu/graduate-programs

Master of Arts in the History of Art

In cooperation with the Sterling and Francine Clark Art Institute, Williams College offers a two-year course of study leading to the degree of Master of Arts in the History of Art. The objective of the program is to offer to a small number of students a thorough professional preparation for careers in the visual arts, including schools and museums, and to enable them to pursue further research whether independently or at institutions offering higher graduate degrees. The curriculum consists of seminars in a wide range of art historical subjects. Opportunities are provided for practical experience in museum work at The Clark, the Williams College Museum of Art, the Massachusetts Museum of Contemporary Art, and other local collections. The study of primary materials is further extended by field trips to other collections. The degree is normally awarded after two years of resident graduate study. To earn the degree, students must take ten courses, of which at least six must be graduate seminars (including ARTH 504 and ARTH 506). In connection with the preparation of a paper for the Graduate Symposium, students will register for an eleventh course (ARTH 509), to be graded pass/fail, in their fourth semester. A demonstration of proficiency in reading two foreign languages is required. Of these two, German is required, and French is recommended. In January of the first year, students participate in a European study trip with selected faculty; in January of the second year, students must complete a draft of their Qualifying Paper. In addition to all course work, students must, at the end of the second year, present a shortened version of the Qualifying Paper in a graduate symposium to be held on Commencement weekend. To enter the program a successful applicant must have been awarded the degree of Bachelor of Arts or its equivalent from an accredited institution. An undergraduate major in art history is not required for acceptance to the program. More information is available on the Grad Art site.

Master of Arts in Policy Economics

The Center for Development Economics (CDE), which opened at Williams College in 1960, offers an intensive one-year program in economic analysis leading to the degree of Master of Arts in Policy Economics. The program is specifically designed for economists from developing countries who have already embarked on professional careers in the public sector. The curriculum requires courses in development economics, macroeconomics, public finance, and econometrics. CDE fellows choose among other courses in lecture, seminar, and tutorial formats. Recent course electives have included: developing country macroeconomics II; financial development and regulation; tax policy; international trade and development; program evaluation for international development; environmental and natural resource policy; international financial institutions; long-term fiscal challenges; the
role of social safety nets; and micro-simulation for policy analysis. Williams undergraduates who satisfy course prerequisites, with the consent of the individual instructor, are encouraged to take courses at the CDE. Admission to the master’s degree program is highly selective, with several hundred applicants each year for approximately 30 places. Candidates normally have a B.A. or B.Sc. degree with honors in economics or a related field, two or more years of relevant work experience, and an effective command of spoken and written English. CDE fellows are often nominated for the program by public agencies from which they will be on leave. More information is available on the CDE site.
On March 17, 1896, Williams students voted 247 to 42 in favor of inaugurating a campus-wide Honor Code. While it has evolved over time, this Honor Code remains, to this day, a critical component of our academic community. The Honor Code is only ratified by Williams students, and as such, only student members of the Honor and Discipline Committee can vote on cases.
As an institution fundamentally concerned with the free exchange of ideas, Williams College has always depended on the academic integrity of each of its members. In the spirit of this free exchange, the students and faculty of Williams recognize the necessity and accept the responsibility for academic honesty.

A student who enrolls at the College thereby agrees to respect and acknowledge the research and ideas of others in his or her work and to abide by those regulations governing work stipulated by the instructor. Any student who breaks these regulations, misrepresents his or her own work, or collaborates in the misrepresentation of another’s work has committed a serious violation of this agreement.

Students and faculty report alleged violations of this agreement to the Honor and Discipline Committee. The Honor and Discipline Committee is made up of eight students, eight faculty, and the Dean of the College. The Dean designates one student as chair. The Faculty Steering Committee designates a Faculty Chair.

A case begins when a member of the community comes forward with evidence that a violation of the Honor Code might have occurred. This person normally brings the suspected violation to the attention of the Student Chair (SC) or the Faculty Chair (FC). If the Chairs decide that there is sufficient evidence to proceed, the SC meets with the concerned student(s) as soon as possible, informs them of the allegation, and presents them with copies of the supporting evidence. The SC listens to what the student(s) has to say and provides instruction/guidance concerning their rights and the Honor Committee’s standard procedures. The conversation between the student and the SC may become part of the evidence at a hearing at the discretion of the SC. The SC should make clear during the conversation with the student whether the discussion is confidential or not. The SC encourages all students to meet with a dean who can offer them advice and support as they prepare for the hearing.

Students who are brought before the Honor Committee have the right to be accompanied by an advisor. The advisor must be a member of the College community (i.e., student, faculty or staff); students may not be accompanied by or represented by an attorney. During the hearing the advisor and the accused student may speak to one another, but the advisor may not address the committee or question witnesses.
1. Login to Williams Student Records with your Williams ID and password.
2. From the Self-Service menu, select the section “Williams Honor Code.”
3. Read all sections of the Honor Code and check the available boxes to affirm your complete understanding of the Honor Code and to assert your agreement to abide.

Note: You must go through the above steps to remove the “Honor Code” hold placed on your Williams Student Records account. If you do not follow the above steps, then your access to Williams Student Records, including class registration, will be restricted.

If a student is unsure how the Honor Code applies in a particular situation, it is ultimately the student’s responsibility to find out from his or her professor how the Honor Code applies in that situation. An open and highly individualized system can last only as long as both the students and the faculty work together to create a true academic community.

In all written material, including ungraded assignments and drafts, students are expected to avoid the possibility of even unintentional plagiarism by acknowledging the sources of their work. Careful observance of accepted standards of reference and attribution is required. The basic rules are summarized below. Students are further advised to consult a recognized style manual to learn how to acknowledge sources correctly.

The basic rules of attribution for all academic assignments, including homework, require that:

1. A direct quotation (whether a single word, phrase, sentence, paragraph, or series of paragraphs) must always be identified by quotation marks, by indenting and single spacing, or by reduced type size of the quoted material, and a note must be used to state the exact source.
2. A paraphrase of the work of another must be acknowledged as such by a note stating the source.
3. Indebtedness to the specific ideas of others, or the summarizing of several pages, even though expressed in different words, must be acknowledged by a note stating the source.
4. In every instance, the use of another student’s laboratory reports, computer programs, or other material must be acknowledged by a note.
5. Even the use of a student’s own previous or concurrent work must be acknowledged; thus, a student must obtain the prior permission of both the previous and current instructors before submitting all or part of the same paper in more than one course.

NOTE: Attempts to gain academic advantage by misleading a professor are violations of the Honor Code. For example, if a student claims to have handed in an assignment,
that work must actually have been submitted.

For Students

Resources on when to cite

If you are at all unsure about how to properly cite your work, you should always go speak to your professor first. They will know what they expect better than anyone else. These other resources are also available if you would like additional help:

For Faculty

Assembling your syllabus and course packet

When faculty do not provide any citations to the required course readings, either on the syllabus, on the title page of copied articles, or on a table of contents, then students are unable to provide the citations themselves, and might reasonably think that they may be held to this same low standard. Please model good citation practice by providing in at least one place in your course materials the complete references that students should use when drawing on the course readings for essays.

Decisions to make while writing the Honor Code section of your syllabus

Collaboration with classmates

If all papers and lab exercises are to be the work of an individual, remind students of this. Please do remind your students that the Honor Code applies as much to response papers, lab reports, and ungraded work as it does to term papers and exams. If students are allowed or encouraged to work with others, do they also have to acknowledge them? If they need to acknowledge others, does this mean simply recording classmates’ names or does it also involve identifying the shared idea? Does working together to draft a response using the computer, then emailing the draft to everyone, violate the injunction that one’s written work needs to be one’s own? Where exactly is that line?

Use of outside resources

If students are allowed to use some resources but not others, please make the distinction clear. May course readings and the student’s own class notes be supplemented by classmates’ notes? By published interpretation and criticism not assigned in class? By talking to their mom? By Wikipedia? By assigned readings that they have completed for another class the same semester?

Use of technology

Please make clear whether students are allowed to use smartphones or laptops, or to check their answers using reference books or technology, before handing in homework (as well as during class and on exams). May they use the iPhone’s clock function? The calculator? Dictionary?
Citation style
Sometimes when faculty ask students to write about a specific text or phenomenon, they allow the students to refer informally to that text. If everyone has read the same edition of *Don Quixote*, it might be acceptable for the student to refer to its page numbers without providing a full reference that includes the author, publisher and edition; the same might apply to articles from an assigned reading packet. Sometimes faculty require a full, formal citation. Making the required form clear, especially by using it to reference readings on the syllabus, is helpful. Do online response essays need formal citations? Ungraded responses? If formality varies, explain when and why. Please help get across to students that the style of a citation is not as important as the fact that the citation is provided. Using the wrong style is not an honor code violation. Failing to provide a citation is.

Common knowledge
Students increasingly claim that they neglected to cite something because the ideas they drew from it were “common knowledge.” This is hardly ever accurate. The common-knowledge rule of thumb applies to public facts—the US has 50 states, the Archduke was assassinated in 1914—not to interpretations, statistics, or even to particular formulations/phrasings of those facts. The content, for example, of Wikipedia and Sparknotes is proprietary, not common knowledge, and data drawn from the statistical handbook that the US Census Bureau puts out every year are the product of specific work, though they are in the public domain. Communicating this to students would be a big help.

Reporting potential violations of the honor code is essential to our academic integrity. If you have any reason to believe that the honor code has been violated, even if the suspected violation would be minor, the best thing to do is to inform the Student or Faculty Chair of the Honor Committee as soon as possible. It is the committee’s responsibility alone to determine whether or not an honor code violation has occurred.

For Faculty and TAs
If you have any reason to suspect one of your students has violated the honor code on any assignment, you must contact the Faculty Chair of the Honor Committee.

For reasons of equity across the student body, suspected infractions must be taken to the Honor Committee and may not be dealt with by individual instructors. The College decided many years ago that a decentralized process would be fundamentally unfair: different instructors might interpret an identical case in wildly differing ways, so the same infraction gets, in one class, a failure on the assignment, on another a talking-to, on a third the benefit of the doubt and a chance for a do-over, and so on.
In addition, faculty cannot know if the student already has a long record of disciplinary problems and is even, in fact, on probation, or does/not have a turbulent family life as claimed.

Basic equity means that like cases are treated alike. Only the Dean's Office and the Honor Committee have the context and track record to determine which cases are alike.

Please keep in mind that TAs and faculty members are only responsible for reporting potential infractions. Faculty are not responsible for determining innocence, guilt, or even whether a hearing should be convened. As a result, you do not have to be completely sure whether an infraction has occurred, but you are obligated to report any suspicious assignments or behavior. It is up to the Faculty Chair, in cooperation with the Student Chair and the Dean of the College, to determine whether to proceed with a hearing.

**For classmates**

If you suspect that someone in your class has violated the honor code, you should contact either your professor, the Student Chair, or the Faculty Chair of the Honor Committee as soon as possible. Once the chairs are notified (by you or by your professor), they will meet with you to go over the evidence or story to see whether your concern is something that should be brought to a hearing. Your professor does not need to have witnessed or otherwise been aware of the suspected infraction in order to report your suspicion to the committee.

You don’t need to be completely sure that the honor code has been violated to report your suspicion, it is the committee’s responsibility alone to decide whether or not an infraction has occurred.

**For other scenarios (roommates, strangers, etc.)**

If you are aware that another student may have violated the honor code, it is your responsibility as a Williams student to report it. Our honor code specifically describes this obligation. Many students have come forward to report potential infractions made by other students whom they did and did not know. It is a difficult responsibility, but one that is essential for maintaining our integrity as students and as an institution.

To report an infraction, contact either the Student or Faculty Chair of the Honor Committee.

**Honor Committee Members**

**Before a Hearing**
A case begins when a member of the community comes forward with evidence that a violation of the Honor Code might have occurred. This person normally brings the suspected violation to the attention of the Student Chair (SC) or the Faculty Chair (FC). If the Chairs decide that there is sufficient evidence to proceed, the SC meets with the concerned student(s) as soon as possible, informs them of the allegation, and presents them with copies of the supporting evidence. The SC will ensure the student is informed about their rights and the Honor Committee procedures; while the SC can instruct the student on what is allowed and not allowed in the process, they may not advise the student as to what the best course of action is. The SC will also ask the student if there are any members of the panel (student or faculty) who the student believes cannot hear the case fairly. Requests for the recusal of a panel member must be based on a specific and substantial conflict of interest, not a general or unspecified impression. The SC and FC will decide on any such requests.

The conversation between the SC and the accused may become part of the evidence at a hearing at the discretion of the SC. The SC should make clear during the conversation with the accused student whether the discussion is confidential or not. The FC will meet with the members of the faculty or staff who will be appearing at the hearing to acquaint them with hearing procedure and guidelines.

When the case is ready to move forward, the SC, FC, and Dean decide on a time for the hearing. The members sitting for that case will be asked beforehand if any member of the committee has a significant reason to doubt their ability to consider the case fairly; they may ask to be recused. Acquaintance or friendship with a participant alone are not grounds for recusal; the committee chairs will need to hear strong and convincing reasons. The SC and FC will decide on any such requests. The SC informs the accused student(s) of the time and place of the hearing.

In preparation for the hearing, the Dean’s Office will have prepared sufficient copies of all written evidence for committee members and the accused. Accused students have the right and responsibility to present any relevant evidence. They have the right to call witnesses on their behalf. Students presenting written evidence should bring sufficient copies for the committee; if they need assistance in preparing evidence, they may call on the Dean’s Office for help (photocopying, providing internet hook-ups, etc.) Accused students have the right to be accompanied by an advisor. The advisor must be a member of the College community (i.e., student, faculty or staff). An accused student may not be accompanied by or represented by an attorney. During the hearing the advisor and the accused student may speak to one another, but the advisor may not address the committee or question witnesses.

**During a Hearing**
The Honor Committee must have at least three-quarters of its student (voting) members on campus at the time of the hearing. If fewer than five student members can be present at a hearing, both the accused student and the Dean must agree to proceed with the hearing.

The individual who has brought the case forward presents his or her evidence and explains why s/he suspects an Honor Code violation. Members of the committee, as well as the accused student may ask questions for clarification at any time. After the presentation, committee members and the accused student may ask any additional questions. If there are additional witnesses to the alleged violation of the Honor Code, they are brought in one at a time and questioned first by the committee and then by the accused student.

Next, the accused student has the opportunity to respond to the charges: this could include providing an explanation, presenting exculpatory evidence, offering an apology, or whatever else the student wishes the committee to hear. The student may choose to call witnesses on his or her behalf. Witnesses are brought in one at a time. The committee and the individual who brought the case forward questions the accused student and any witnesses in turn.

Once questions have been asked and answered, the individual who brought the case forward and any remaining witnesses leave the hearing. The accused student may address the committee or answer any final questions. When finished, the accused student leaves the room.

The committee then deliberates over three questions:

1. Is the alleged behavior an infraction of the Honor Code?
2. If it is, did the accused student commit the infraction?
3. If s/he did, what penalty is recommended to the Dean?

All members of the committee present at the hearing participate in the deliberations; however, only the student members can vote. A vote of three-quarters of those present and voting is required both for finding the student responsible for violating the Honor Code and for recommending a sanction to the Dean. In the event that a three-quarters vote to recommend a sanction cannot be reached, one or more students may endorse separate recommended sanctions. A recommendation for dismissal requires a unanimous vote of the student members present. The dismissal is carried out only upon approval by both the Dean of the College and the President of the College.

Immediately after the hearing, the SC lets the accused know what the committee decided. The FC relays the same information to the person who brought the case forward.
If the committee does find the accused responsible for violating the honor code, then the dean will relay the decision formally, in writing. In a letter to the student (copied to the person who brought the case forward, the SC, and the FC), the dean will let the student know the sanction imposed, the reasons for this, and the committee’s particular concerns.

Requirements & Sanctions

The panel may assign any of the following requirements/sanctions (individually or in combination) in response to a violation of the Honor Code. Students who are found responsible for violating the Honor Code are expected to learn from the hearing, finding, and requirement/sanction. Subsequent infractions of the honor code (after an initial incident) will almost certainly result in more severe sanctions.

- **Warning:** A warning is intended to educate the student about the Honor Code and community standards, and to serve as notice that continuation or repetition of prohibited conduct may be cause for additional disciplinary action. A warning does not become part of the student's permanent record. Students who receive a warning can answer negatively if they are asked if they have been subject to College discipline. A warning remains in a student’s file until graduation, when it is removed.

- **Mandatory educational tutorial:** This Instructional material is designed to educate students about the importance of academic integrity, and to serve as a guide for proper practices around collaboration, citation, quotation, and more. This educational sanction does not become part of the student's permanent record. Students who receive this sanction can answer negatively if they are asked if they have been subject to College discipline. Notation of an educational requirement remains in a student’s file until graduation, when it is removed. Students who fail to complete the tutorial by the end of the semester in which the infraction occurred will automatically be placed on disciplinary probation.

- **Failure in the assignment:** The student will automatically receive an F for the assignment in which the infraction was committed. This sanction does not automatically become part of the student’s permanent record unless it is accompanied by disciplinary probation or suspension. Students who receive this sanction can answer negatively if they are asked if they have been subject to College discipline. Notation of the hearing outcome remains in a student’s file until graduation, when it is removed.
- **Failure in the course:** The student will automatically receive an F for the course in which the infraction was committed. This sanction does not automatically become part of the student's permanent record unless it is accompanied by disciplinary probation or suspension. Students who receive this sanction can answer negatively if they are asked if they have been subject to College discipline. The failing grade will appear as an E on the academic transcript. Notation of the hearing outcome remains in a student's file until graduation, when it is removed.

- **Disciplinary Probation:** To be assigned for a specified period of time. This sanction becomes part of the student's permanent record, and remains on file for seven years. Students who receive this sanction must answer affirmatively if they are asked if they have been subject to College discipline. Subsequent violation of the Honor Code will normally result in suspension or expulsion from the College. The student meets regularly with a dean during the probationary period. As a general matter, parents/guardians are notified about disciplinary probation.

- **Suspension:** Separation from the College, and exclusion from College premises, and from other privileges and activities. Readmission to the College after the term of suspension is not automatic but requires an application to the Dean of College. This sanction becomes part of the student's permanent record, and remains on file for seven years. Students who receive this sanction must answer affirmatively if they are asked if they have been subject to College discipline. Subsequent violation of the Honor Code will normally result in suspension or expulsion from the College. As a general matter, parents/guardians are notified about suspension.

- **Expulsion:** Permanent termination of student status, and exclusion from College premises, privileges, and activities. This sanction becomes part of the student's permanent record, and remains on file permanently. Students who receive this sanction must answer affirmatively if they are asked if they have been subject to College discipline. As a general matter, parents/guardians are notified about expulsion.

- **Other Actions:** In addition to or in place of the above actions, the hearing panel may assign such other penalties, as it deems appropriate.
The accused student may request a reconsideration of the Committee’s decision on the basis of substantial new evidence or improper procedures. A request for reconsideration must be made in writing to one or both of the Committee chairs within a week of the Committee’s decision, or the decision is considered accepted. The request for reconsideration will only be granted if a majority of the Committee members who heard the case agree. The Committee may choose to reconsider either the case in its entirety or just one or more aspects of the case, and in doing so may receive or review any information it determines is relevant to the reconsideration. Following its reconsideration, the Committee will refer its decision to the Dean for the Dean’s action, if any, as appropriate. After a rehearing, the Dean’s decision is permanent. The student does not have any right to contest the rehearing’s decision and sanction.

This page contains links to anonymized reports of previous cases that the Honor and Discipline Committee has heard, in addition to the sanctions recommended by the committee and imposed by the Dean.
Academic Policies

Students are required to be thoroughly familiar with the policies stated below.

Any exceptions to academic policies are by petition to the Committee on Academic Standing with the understanding that not all exceptions are approved.

Attendance

Williams College does not administer a general system of required classroom attendance. Students are expected to make full use of their educational opportunities by regular class attendance and assume the academic risks incurred by absences.

Instructors may set such standards of attendance as they deem necessary for the satisfactory conduct of their courses.

Students who fail to meet these standards may be warned by the instructor and notice sent to the Dean that continued absence could result in their being dropped from the course. A failing grade will be assigned to any regularly graded course dropped after the designated course change period. Students who do not attend the first-class meeting in a regular semester or Winter Study course may be required to withdraw by the instructor. Attendance is required at announced tests and final examinations unless the student is specifically excused by the instructor or a Dean.

Williams College Policy on Observance of Religious Holidays

Because no Williams student should ever have to choose between important religious observances and academic or athletic commitments, College policy provides for students who wish to participate in religious observances that conflict with other obligations to make arrangements with their instructors and coaches to do so.

The policy, approved in 1984 by the faculty and trustees in compliance with the laws of the Commonwealth of Massachusetts, states that “Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such requirement, and shall be provided an opportunity to make up such requirement which they may have missed because of such absence now—provided, however, that such makeup examination or work shall not create an unreasonable burden upon the College.” No adverse or prejudicial effects shall result to any student who makes use of this provision of College policy.

Course Change Period

---

1/18
Course changes may be made during the Drop/Add period at the beginning of each semester. No changes may be made after that period except with the approval of the Committee on Academic Standing, after consultation with the Dean’s Office. During Winter Study, a second Winter Study course may be added if the instructor approves but the original course may not be dropped. A late fee of $5 per day may be assessed for each course change accepted after the announced deadline.

**Year-Long Courses**

Year-long courses are designated by an odd number and an even number joined by a hyphen; the work of the two semesters constitutes an integral, indivisible course. Therefore, if a student does not pass the second half of a year-long course, they forfeit credit for the first half and incur a deficiency as a result of the forfeiture. Students who register for a year-long course are required to do both semesters of that course within the same academic year.

**Grading System**

Williams uses the following system of grades: A = excellent; B = good; C = fair; D = passing; E = failing. These letters, with plus and minus value, have the following numerical equivalents in calculating grade averages:

- A+ = 4.0 (4.33 prior to fall 2020)
- A = 4.00
- A- = 3.67
- B+ = 3.33
- B = 3.00
- B- = 2.67
- C+ = 2.33
- C = 2.00
- C- = 1.67
- D+ = 1.33
- D = 1.00
- D- = 0.67

E = 0 results in a course deficiency

A student receives credit for a course by obtaining a grade of at least D-.

**First-Year Student Advisories**

In the middle of each semester, instructors report to the Registrar those first-year students whose grades at that time are unsatisfactory. The students and their academic advisors receive these notices as a matter of routine.
Eligibility for and Completion of Majors

To be eligible for any major, students must have received grades of C- or better in each course in the major taken in the first two years of college and Pass on any Winter Study Project taken in the major department or program. A senior may enter a major only upon the approval of the department chair and the Committee on Academic Standing.

All semester courses in the major must be taken on an A-E graded basis, unless a course is the first in the major; in that case, it can be taken pass/fail. In rare instances, and only with the permission of the relevant chair, students may be allowed to count a second pass/fail course for the major. In addition to passing each major course and, where required, a major Winter Study Project, the student must maintain an average in the major of 1.67 or higher. Seniors who have an average below 1.67 in the major field normally will not be allowed to continue. A senior who receives a grade of E in the first semester of a required major course may be dropped from the College at mid-year. A student who falls below these standards may continue in the major only with the approval of the Committee on Academic Standing.

A senior major exercise is not required by every department but is by some. All departments requiring such an exercise specify it as such in the description of their major programs, and all students in those departments must complete the exercise satisfactorily.

Early Concentration Rules

During the first two years of study, students are limited in the number of courses they may take in one department or subject each semester as follows:

- First-year students may take no more than one course with the same course prefix, nor more than two in one department, in a semester.
- Sophomores may take no more than two courses with the same course prefix, nor more than three in one department, in a semester.
- Sophomores may take no more than three courses with the same course prefix, nor more than four in one department, during the full year.
- A student may take no more than a total of five courses with the same course prefix, nor more than eight in one department, during the first two years.

Any exception to the above early concentration rules may be requested by a petition to the Committee on Academic Standing (CAS) filed at the time of registration.

Course Load

COVID-19 addendum: Students enrolled fall 2020 or spring 2021 are required to complete three courses each semester.
Students may not enroll in fewer courses than the required load unless on a documented and approved reduced course load.

If a student wants to enroll in four courses, a fourth course may be:

- Taken on a pass/fail basis (provided the course is designated pass/fail) or as a regular graded course.
- Dropped up to the sixth week of the semester.
- Used to repair a previously earned deficiency but not for subsequent deficiencies.

If a student wishes to withdraw from a fourth course beyond the sixth week deadline, they will have to go through the Dean of the College process for withdrawing from a course. Their record will indicate a “W” but a student will not have to make up the course.

Students failing a fourth course during fall 2020 or spring 2021 will not have to make up the course.

Students who complete:

- Three courses in both fall 2020 and spring 2021 semesters will be required to complete a total of 30 courses for graduation.
- Three courses in one semester and four courses in the other will be required to complete a total of 31 courses for graduation.
- Four courses in both semesters will be required to complete a total of 32 courses for graduation.

When fourth courses are used to make up prior deficiencies, they are not associated with an increase to 31 or 32 total courses for graduation.

Students are required to complete four courses each semester.

**Approved Reduced Course Load**

**COVID-19 addendum:** Students enrolled fall 2020 or spring 2021 on a reduced course load must be enrolled in a minimum of two courses each semester and complete their total number of required courses for graduation.

If a student with a disability believes that they are unable to pursue a full course of study, the student may petition the Disabilities and Accommodations Advisory Committee for permission to pursue a reduced course load. Such a petition must be accompanied by a professional evaluation that addresses the student’s inability to maintain a full course of study and discusses the rationale for a reduced course load. Upon consideration of a student’s petition and supporting documentation, the Disabilities and Accommodations
Advisory Committee makes a recommendation to the Committee on Academic Standing, which renders decisions. Such cases are considered on an individual basis and may be initiated at any time during the student’s tenure at Williams.

A reduced course load permits students with documented need based on a disability to take three rather than four courses each semester. Students approved for a reduced course load must still complete all academic requirements of the college (including passing 32 courses, completing a major, and completing all of the distribution requirements) in order to graduate.

Academic rules of the college as they apply to students on approved reduced (three) course load:

- Minimum academic standards for a student on a reduced course load are three grades of C- (in any semester) or a grade of Pass (in Spring 2020, Fall 2020, and Spring 2021) OR two grades of C- or better and a Pass each semester, and at least Perfunctory Pass on the Winter Study Project. The Committee on Academic Standing may require a student to withdraw from the college for a period of time for failure to meet these minimum standards.
- Students may take a fourth course as an extra course. This course may be taken pass/fail or for a grade, and will count toward the 32 course requirement.
- Students on a reduced course load should confer with the Registrar and with Dr. Wallace, Director of Accessible Education, at least once each year to make plans for completing the degree. Since the student will complete fewer than 32 Williams courses in eight semesters, the student will need to either take summer courses elsewhere or take additional semesters at Williams in order to complete their graduation requirements. Note, however, that only Williams courses can be used for completing distribution requirements.
- If a student wishes to take summer courses elsewhere, they must be pre-approved by the Registrar and must be taken at an accredited four-year institution and be in a field appropriate to the liberal arts.
- If a student wishes to take courses elsewhere that count towards the requirements of their major, those courses will need to be approved by the chair in their major department or program.
- If a student receives financial aid, that aid can be extended if the reduced course load requires additional semesters to complete 32 courses.
- The college requires all students to take a full course load. This means that students on a reduced course load must be enrolled in a minimum of three courses each semester. Students who come to the end of a semester having completed 30 or 31 courses, and choose to complete those remaining courses by petitioning to take an additional semester at Williams will be expected to be enrolled in three courses that final semester.
• As is the case for all students, students are permitted to withdraw from one course in the first year and one additional course during the remaining semesters at Williams, so long as the requirements for withdrawing from a course are met. If the student withdraws from a course, the deficiency must be made up in either the following summer or the next semester.

• Students on reduced course load who plan to study away should be sure to let both Dr. Wallace and the study away advisor know of their intention to take a reduced course load while away. Many study away programs permit students to take a three course load if they have been approved for that load by their home institution, but some programs are fully integrated such that taking only three courses is not possible without disrupting the academic integrity of the program.

• If a student is approved for a reduced course load without a specific ending date, Dr. Wallace will review the necessity of continuing on reduced load at the beginning of each term. He may contact the student to request updated academic or medical information if needed to determine the appropriateness of continuing the reduced course load accommodation.

---

**Pass/Fail Option**

**COVID-19 addendum:** For students enrolled spring 2020, fall 2020, or spring 2021, students may opt to take any designated course pass/fail. Courses taken pass/fail (if designated) will not count toward a student’s total allowance of three pass/fail courses over the duration of their time at Williams and can be used to fulfill the distribution requirement (divisional; Writing Skills; Difference, Power, and Equity; and Quantitative/Formal Reasoning).

Students have until the last day of classes fall 2020 and spring 2021 to decide to opt for pass/fail in any course designated pass/fail.

Students may take up to 3 courses on a pass/fail basis (but no more than one in any given semester). Students may designate a course pass/fail between the third and tenth week of the semester. Once a course has been designated pass/fail, however, this designation cannot be changed. Students must achieve a minimum grade of D- in a pass/fail course to receive a “P”. An “F” in a pass/fail course will be recorded as an “E” on students’ records and will count toward the GPA, but a “P” will not.

Courses taken pass/fail cannot be used to fulfill distributional requirements (divisional, WS, DPE, QFR). No course counting toward a major, certificate, or concentration can be taken pass/fail unless this course is the first one taken toward that credential. (In rare circumstances, chairs of programs or departments may grant exceptions to this rule.)
Students may designate a fifth course as one of their pass/fail options, similarly by the tenth week of the semester. Courses taken pass/fail as part of a four-course load or as a fifth course to make up a course deficiency will count toward graduation; courses taken pass/fail as an extra course will not count toward graduation.

Instructors have the option of designating any of their courses (except tutorials) as eligible for the pass/fail option. These courses are available for students to enroll on a graded or pass/fail basis.

**Extra Graded (fka Fifth) Course Option**

**COVID-19 addendum:** Any extra course taken spring 2020 will not count towards the 32 to graduate UNLESS a student is taking it to make up a deficiency from a prior term.

Except in the case of the unbalanced course program described above, a student may, by the end of drop/add, enroll in a fifth course that must be designated as an extra graded course. An extra course may be dropped any time up to the sixth week of the semester. If a student chooses to continue in the course and the course is available for the pass/fail option, they must decide by the tenth week whether to complete the course on an A-E graded basis or change the course to pass/fail. An extra course graded “Pass” may not be used to fulfill distribution or major, concentration, or certificate requirements (under rare circumstances, the chair of the relevant program or department may grant an exception to this rule) or to accelerate graduation, but may be used to make up a deficiency from a prior semester as one of the 32 semester courses required to complete the degree. An extra course completed as a fifth A-E graded course may be used to fulfill distribution or major, concentration, or certificate requirements or to make up a deficiency incurred in a prior term, but not to accelerate graduation. The grade received will be included in the calculation of the student’s cumulative grade-point average.

Instructors have the option of designating any of their courses (except tutorials) as eligible for the fifth course option. These courses are available for students to enroll as a Fifth Course.

Policy exceptions apply to extra half credit Dance, Music, and Theatre courses.

**Withdrawing from a Course**

**COVID-19 addendum:**

- During fall 2020 or spring 2021 students have until the end of the last day of classes to withdraw from a course.
- If a student wishes to withdraw from a fourth course beyond the sixth week deadline, they will have to go through the Dean of the College process for withdrawing from a course.
- In the case of a withdrawals from a fourth course past the stated deadline, the record will indicate a “W” but a student will not have to make up the course.

First-year and first-semester transfer students may be permitted to withdraw from one course (incurring a deficiency but no grade penalty) as late as the tenth week of the semester. Upperclass students also may withdraw from a course under the same conditions once in subsequent years. A withdrawal, recorded on the transcript as a “W,” is granted only with the approval of the instructor and a dean and only if there is complete agreement between the instructor and the dean that, despite conscientious effort to do the work, continuation in the course would be detrimental to the overall educational interest or health of the student. The deficiency thereby incurred must be removed in the normal manner.

**Deadlines for Coursework**

Deadlines for coursework are set by the instructor with the following limitations:

- for courses with final exams, the latest that written work may be due is 5:00 pm on the last day of reading period.
- for courses without final exams, the latest that written work may be due is 5:00 pm on the third-to-last day of the exam period.
- If work is due before these deadlines, the instructor may grant an extension up to these deadlines solely at their discretion. Short extensions beyond these deadlines may be granted by a dean but only with the concurrence of the instructor. No extensions will be granted beyond the examination period except in the case of serious illness.
- Instructors may require students who have missed announced quizzes or hour tests to present satisfactory explanations to a dean before they are permitted to make up the exercises.
- If a student is absent from a final examination, a make-up examination may be given only with the permission of a dean and at a time determined by the dean.

**Failing a Course and Deficiencies**

**COVID-19 addendum:**

- Students failing a fourth course during fall 2020 or spring 2021 will not have to make up the course.
A fourth course taken fall 2020 or spring 2021 may be used to cover a previously earned deficiency but not for subsequent deficiencies.

A fifth or sixth extra-graded course taken fall 2020 or spring 2021 may be used to cover a deficiency incurred in a prior or subsequent semester.

When a student falls behind in course credits because of a failure or course withdrawal, they have a deficiency. Deficiencies are typically made up by courses taken after the deficiencies have been incurred; however students may petition the Committee on Academic Standing to make up a course deficiency due to failure or withdrawal with a previously-completed fifth course taken at Williams.

A deficiency incurred in the fall term must be made up before the start of the following academic year. A deficiency incurred in the spring semester must be made up prior to the start of the following spring semester. A student may, in consultation with the Dean’s Office, petition the Committee on Academic Standing with an alternate plan.

A student must make up a deficiency in one of these ways:

- obtain a grade of at least C- in a summer school course, approved in advance by the Registrar, at a regionally accredited four-year college or university; (the grade will not, however, be included in the calculation of the student’s cumulative grade point average)
- pass an extra course, either on a pass/fail or on an A-E graded basis, at Williams in the semester following the withdrawal or failure.
- in the case of a first-semester failure of a year-long course, obtain a grade of at least a C- in the work of the second semester of that course. The failure for the first semester will, however, remain on the student’s record and will be included in the cumulative grade point average. If a failure occurs in the second semester of a full-year course, credit for passing the first semester may be retained only upon the recommendation of the department concerned and with the approval of the Committee on Academic Standing.

A senior who incurs a failure in the first semester in a required major course may be dropped from the College at midyear.

**Separation for Low Scholarship**

It is the policy of Williams College not to permit a student to remain in residence after it has become evident that they are either unable or unwilling to maintain reasonable standards of academic achievement. At the end of each term, the Committee on Academic Standing reviews all academic records that fail to meet the following minimum academic requirements:
Four grades of C- or better, or three grades of C- or better and a Pass each semester, and at least Perfunctory Pass on the Winter Study Project.

Students whose records fail to meet these minimum academic requirements or whose records otherwise fail to show adequate progress may be required to resign.

Students who are required to resign from the College for academic reasons are normally not permitted to return for at least one year from the date of their resignation. A student who has been required to resign from the College may petition the Committee on Academic Standing through the Office of the Dean of the College for reinstatement. That petition must include (1) evidence that the student has made up all course deficiencies, (2) a letter to the Committee providing convincing evidence that the student is ready and able to complete work toward a degree at Williams.

Students who are required to resign due to failure to meet minimum academic requirements can appeal that decision by making a personal statement to the Committee on Academic Standing (in person, in writing, or via Skype/conference call). The CAS decision upon appeal is final.

When required to resign, students must vacate their rooms promptly. Financial aid students must also see the Director of Financial Aid before leaving to discuss loan repayment and renewal of aid in the event of readmission.

**Students are expected to vacate their rooms, including belongings, upon withdrawal from the College and follow all housing deadlines for departure.**

**Withdrawal from the College in Good Standing**

**COVID-19 addendum:** Students attending Williams during the academic year 2020-2021 have until the end of the last day of classes to withdraw from a course.

Students may request personal leaves of absence from a dean and, if granted, withdraw from the College. Such time away, often as a period of reassessment and self evaluation, can prove to be beneficial educationally. A withdrawal in good standing may be granted for not less than one semester and not more than three years. Students who withdraw in good standing are readmitted with the approval of the Dean’s Office and are expected to complete the degree without further interruption.

Students may request permission from a dean to withdraw at any time. If a student is granted a personal leave of absence after the semester begins, but before the end of the drop/add period, the transcript will list the date of withdrawal as the day before the term began. If a personal leave is granted after the end of the drop/add period, but before the end of the eighth week of the semester, the transcript will list the date of withdrawal, but
the semester will not count toward the maximum of eight allowed to complete the degree. If a personal withdrawal is allowed after the eighth week of the semester, the transcript will list the date of withdrawal and the courses in progress, each with a W; the semester will normally count toward the maximum of eight allowed to complete the degree and the student will incur deficiencies that must be made up before returning to the College.

Refunds

Payment refund or credit in the event of withdrawal is described in the Williams College Refund Policy.

Eligibility for Extracurricular Activities

A student is eligible to participate in any athletic, dramatic, literary, or musical event and be in the student government, or other organization as a member, substitute, or officer, unless they are declared ineligible:

1) by the Dean;
2) by vote of the Discipline Committee; or
3) by vote of the Committee on Academic Standing because of a dangerously low record.

The Student Honor Committee may recommend to the Dean loss of eligibility as a penalty for a violation of the Honor Code.

Dean’s List

COVID-19 addendum: During fall 2020 and spring 2021, all students who attain a semester average of 3.50 or higher in a program of three or more courses taken on an A-E graded basis are placed on the Dean’s List for that semester. Students with two courses taken on an A-E graded basis and one pass/fail course are not eligible for the Dean’s List.

All students who attain a semester average of 3.50 or higher in a program of four or more courses taken on an A-E graded basis are placed on the Dean’s List for that semester. Students with three courses taken on an A-E graded basis and one pass/fail course are not eligible for the Dean’s List.

Phi Beta Kappa Society (amended fall 2019)

1. The requirements for election to membership shall include the completion of all required Winter Study Projects. There shall be two elections of new members for each class, at the end of the junior and senior years.
2. At the end of the junior year, all students in the highest five percent of the class, ranked by cumulative grade point average, shall be eligible for election provided they have met the requirements and have completed enough courses to be considered candidates for the B.A. degree in the following year. A student who leaves Williams at the end of the junior year to attend graduate school may be elected under the above procedures.

3. At the end of the senior year, all students not yet elected and in the highest 12.5 percent of the class, ranked by cumulative grade point average, shall be eligible for election provided they have met the requirements. Seniors who have met the requirements can also be become eligible for election by nomination from a faculty member at Williams College. Nominations shall be approved by an election committee of at least three faculty members of Phi Beta Kappa, with one from each division; the members of the committee will be chosen by the faculty officers of the Williams chapter, in consultation with the membership. The total number of students elected shall not exceed 15 percent of the class.

4. Students shall be eligible for election only if they have been students at Williams College for at least two years.

5. Honorary members may be elected from distinguished alumni, faculty, or staff of the college. Nominations shall be approved by the election committee. The number of honorary members elected shall ordinarily not exceed two each year.

6. Any student who shall have gained their rank by unfair means or who in the judgment of the Dean of the College is not of good moral character is ineligible to election.

7. The name of a member elect shall be entered on the roll only after they have accepted the election and has paid to the Treasurer the regular entrance fee.

8. Any undergraduate member who withdraws from the College before graduation or who falls short of the minimum Phi Beta Kappa scholastic standing may, upon a two-thirds vote of the members present at the annual meeting, be deprived of membership in the society.

9. Any undergraduate member who is expelled from the College shall be deprived of membership in the Society.

10. While connected with Williams College as an officer of instruction or administration, any graduate of Williams College who is a member of another chapter of Phi Beta Kappa shall be considered a regular member of the Williams chapter.

11. While connected with Williams College as professor, associate professor or assistant professor, or an officer of administration, any member of another chapter of Phi Beta Kappa shall have all the privileges of the Williams chapter, including holding office and voting. While connected with Williams College, any other officer of instruction or administration who is a member of another chapter shall have all the privileges of the Williams chapter, except holding office and voting.

**Awarding of Degrees**

12/18
By vote of the Trustees, the degree of Bachelor of Arts is conferred at Commencement upon students who have completed the requirements as to courses and grades to the satisfaction of the Faculty. The right to a degree may, however, be forfeited by misconduct at any time prior to the conferring of the degree. Students receiving their degree in absentia must communicate that decision to the Dean of the College and the Registrar no later than two weeks prior to commencement. Diplomas will not be authorized for students who have not paid College charges or have not returned all books belonging to the library.

**Graduation with Distinction (Latin Honors)**

The Faculty will recommend to the Trustees that the degree of Bachelor of Arts with distinction (Latin Honors) be conferred upon those members of the graduating class who have passed all Winter Study Projects and obtained a four-year average in the top:

- 35% of the graduating class – Bachelor of Arts cum laude or higher
- 15% of the graduating class – Bachelor of Arts magna cum laude or higher
- 2% of the graduating class – Bachelor of Arts summa cum laude

**Winter Study**

**COVID-19 addendum:** A Winter Study term will not be offered during the 2020-2021 academic year. Students who enroll in fall 2020 and/or spring 2021 will only be required to pass three Winter Study courses.

Students must pass a Winter Study course in each of their four years. Winter Study courses are graded Pass, Perfunctory Pass, or Fail. All work must be submitted by the last day of the Winter Study term; work may be accepted after this date only with the permission of a Dean. Students who fail their Winter Study course or receive a second Perfunctory Pass will be placed on academic probation by the Committee on Academic Standing and will be required to make up the deficiency. Students who fail through gross neglect of work will normally be required to resign.

**Student Records**

Williams College has policies regarding the kinds of information that will be included in the permanent record of students as well as policies regarding the retention, safety and security, and disposal of records. Its information-release policies respect the rights of individual privacy, the confidentiality of records, and the best interests of students and the institution.
Williams values the privacy of its students and complies with the Family Educational Rights and Privacy Act (FERPA), which governs access and release of student education records.

The Student Records Disclosure Policy is emailed annually to ensure students are aware of their rights.

1. **A student has the right to inspect and review their education records within 45 days of their request.**

Even though the law allows 45 days, at Williams, requests are normally honored at the time they are submitted. Students should submit their requests to the persons maintaining the records to which they wish access, e.g. the registrar, dean, department chair, or other appropriate officials.

2. **A student has the right to request that corrections be made to their education records if they believe the records are inaccurate or misleading or otherwise in violation their privacy rights under FERPA.**

Students should address such requests to the official responsible for the record and must clearly identify the parts of the record which they wish amended and why they believe them to be inaccurate or misleading.

If the official responsible for the record does not agree to amend the record as requested, Williams will notify the student of the decision and advise them of the right to a hearing and the procedures for initiating one. If Williams decides after the hearing not to amend the education record, the student may place a written statement in the record commenting upon the information therein and the student’s disagreement with the college’s decision not to amend the record.

3. **A student has the right to consent to disclosures of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent.**

Williams College generally will not disclose personally identifiable information from a student’s education records without his/her consent; however, the College may make authorized disclosures without consent as specified under the law.

Under FERPA, Williams College may, at the College’s discretion, release personally identifiable information from education records without the student’s prior consent in certain specified circumstances, including but not limited to:
Disclosure to school officials with legitimate educational interests. “School officials” are Williams College employees in administrative, supervisory, academic or support staff positions; Williams College trustees; individuals and companies with whom the College has contracted to perform institutional services and functions, such as attorneys, auditors, consultants, volunteers, and collection agencies. School officials have a “legitimate educational interest” if they need to review an education record in order to fulfill their professional responsibilities;

- Disclosure to organizations involved in awarding financial aid;
- Disclosure to parents of financially dependent (see Parental Notification Policy);
- Disclosure to parents or legal guardians of students under twenty-one years of age regarding information about violations of college drug and alcohol policies;
- Disclosure to comply with a judicial order or subpoena (after making a reasonable effort to notify the student in advance of compliance so that the student can take protective action). An exception to this notification requirement exists if the subpoena is issued by a federal grand jury or for other law enforcement purposes and the requesting agency specifically ordered that the existence of the subpoena is not to be disclosed;
- Disclosure to appropriate parties in a health or safety emergency, in order to protect the health or safety of the student or other individuals; and
- Disclosure of the results of final student disciplinary proceedings to victims of violent crimes or sexual offenses.

Note that, upon request, Williams will disclose a student’s education records to officials of another school in which the student seeks or intends to enroll, as well as institutions where the student has already enrolled.

In addition, Williams may make public the following student “directory information” unless the student informs the registrar in writing by September 15 that their prior consent be required during that academic year:

- name
- permanent and College addresses
- campus electronic mail address
- permanent, mobile, and campus telephone numbers
- date of birth
- major field
- extra-curricular activities
- height and weight of members of athletic teams
- dates of attendance
- degrees, honors, and awards
- other schools attended

Williams is very conservative in its use of this directory information and releases it outside
the college community only when its release is deemed of benefit to students. Generally this information is not publicly available outside the Williams network, with the exception of the directory. The directory lists name, class year, campus address and campus e-mails.

A student may opt to consider directory information confidential and it will be flagged as such in the student’s record. To elect this option, the student must inform the registrar in writing by September 15 that prior consent is required to release directory information, and should contact the Associate Registrar, Mary.L.Morrison@williams.edu, to discuss this request.

4. A student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by Williams to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

Family Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202–8520

Record Retention

- Records that document the academic progress of matriculated students: This series may include but is not limited to high school and other college transcripts, admission applications, major and concentration declaration forms, independent study petitions, summer school and study away petitions, petitions for exceptions to College academic policies, applications for withdrawal from the College, and transfer admissions to the College. These types of records are retained for five years from last enrollment.
- Records related to grades: Paper/email submissions of grades and grading changes, reports of unsatisfactory grades, pass/fail designations, fifth course options, withdrawal with W grade forms, and audit validation forms are retained for seven years beyond end of pertinent term.
- Official transcript at the time of graduation is a permanent record.

Parental Notification Policy

As noted above, FERPA regulations and state statutes assign students the right to release information contained in their educational records. Specifically, FERPA entrusts this right to students once they reach the age of eighteen or enroll in a postsecondary institution. Consistent with Williams’ efforts to promote each student’s personal growth and autonomy, and to preserve a climate of trust with them, the College will not release any information contained within a student’s educational record to parents without the
student’s consent. However, when appropriate and as allowed by FERPA, the College does permit the release of certain information of financially dependent students to parents without the student’s consent. The specific instances in which Williams will and will not notify parents warrant particular attention.

Note: The College reserves the right to notify a parent or guardian of their student’s status in situations not specifically listed below if the circumstances warrant and if it is in the best interest of the student and the College community.

Notice of a Student’s Academic Standing

The College believes that each student is responsible for his or her academic progress and performance. Therefore, Williams communicates with students regarding their academic performance. For instance, in an effort to foster students’ sense of responsibility for their academic endeavors, grades and academic advisories are sent directly to students and are not released to parents or guardians unless a student specifically requests in writing to the Office of the Registrar that they be released. While students are encouraged to share information regarding their academic progress with their parents, Williams does not mandate it.

Academically, however, there are instances when the College will typically notify parents of a student’s academic performance with or without the student’s consent. Parents generally will be notified of a student’s academic standing regardless of consent when there is a change of status, i.e., when a student is required to resign (either temporarily or permanently) due to failure to meet academic standards.

Notice of a Student’s Disciplinary/Conduct Standing

As a member of the Williams community, the College expects each student to take responsibility for his or her actions. Our Code of Conduct serves as a standard and guide for students’ behavior. Violations of our Code of Conduct warrant a College response. Generally, the College will communicate any disciplinary response to a Code violation directly with the student, and parents or guardians will not be notified, unless the student chooses to inform his or her parents. However, if the College response results in a change in the student’s status (i.e., probation, suspension, or expulsion), the college typically will notify parents or guardians of the changed status.

Likewise, Williams reserves the right to inform the parents of any student if the student violates any Federal, State, or local law, or campus regulation governing the use or possession of alcohol or drugs.

Notice of a Student’s Health/Welfare Standing
Information regarding a student’s health and/or psychological welfare is protected by strict policies instituted to ensure the student’s confidentiality. While students are encouraged to share information regarding their health and/or psychological welfare with their parents, without students’ informed consent (typically in writing), the College cannot share this type of information with their parents or guardian except as set forth below.

Williams recognizes that situations arise in which a student may be unable to give informed consent. If a student is transported to the hospital in a critical situation, the parent or guardian of the student will be notified. Where possible, the College will allow the individual student time to make direct notification to parent or guardian or explicitly identify a third party to make contact with the parent or guardian. In such instances when a student is being treated by an external healthcare provider, the College expects the external provider to determine the appropriateness of parental notification and undertake such notification when deemed appropriate. Having the external provider directly notify the parents ensures that parents receive the most informed and precise information regarding their child’s well-being.

If a student is facing a health- or safety-related emergency or is deemed a threat to a person on campus, the College may decide to notify parents without the consent of the student. The College may also contact a parent or guardian if it comes to the attention of school officials that a student has been inexplicably absent from campus for a prolonged period of time.

**Health and Counseling Records**

As noted above, FERPA pertains specifically to education records and it does not address records that may be generated in Health and Wellness Services. FERPA’s protection of education records does not include those records: (1) relating to a student that are either created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional; (2) generated solely to provide treatment to the student; and (3) not disclosed to anyone other than individuals providing such treatment.

Access to Williams Health and Wellness Services’ records is limited by departmental confidentiality policies, professional ethics, and state law. In particular, information shared, generated, and/or obtained during visits to Health and Wellness Services is protected from disclosure by specific policies regulating the release of such information.
Center for Academic Resources

The Center for Academic Resources houses a number of services and programs designed to support students’ academic and intellectual engagement and to help them take full advantage of the curriculum. Our goal is to help students explore and take full advantage of Williams’ educational/intellectual opportunities of living and learning.

'68 Center for Career Exploration

At the '68 Center for Career Exploration, we’re dedicated to the future success of Williams’ students, and that means helping them make the most of the time and opportunities right now. We’re students’ one-stop shop for career exploration, internship, job, and graduate school searching, resume critiques, interviewing advice, and networking. It’s never too early to stop by for an appointment. Whether a student is an undeclared first-year or a senior ready for their first job in a chosen field, we’re here to help students explore, define, and achieve their career potential.

Students can get started exploring with the professional Career Advisors in:

Or, explore directly with alumni through the first-ever alumni career mentoring network, EphLink.

Each year the office organizes one large career fair and hosts over 120 employer campus visits throughout the year. We offer an extensive database of curated internships and jobs, summer internship funding, and interview support. Internship funding is available through our Alumni Sponsored Internship Program (ASIP) for currently enrolled first-years, sophomores, and juniors participating in an unpaid or limited stipend full-time summer internship. This Program enables students to perform a public service to these organizations and work on special projects with an opportunity to gain experience, explore career fields, develop skills, and build a network.

For more information or to subscribe to our monthly newsletter visit the '68 Center for Career Exploration site.

Graduate Study and Professional Careers

Although Williams’ principal function is to provide a broad and solid liberal education that will be of lasting value no matter what vocation a student may pursue, Williams recognizes that no fundamental conflict exists between a liberal education and preparation for a
professional career, on the contrary, a foundation of liberal studies increases professional
competence in any field. A student should plan their program of study to provide as much
educational breadth and enrichment as circumstances permit. A student should also give
serious consideration to post-college plans early in their college career.

Each major provides the foundation for graduate study in the corresponding field. Students
should consult with individual programs for requirements and for special advice regarding
preparation for graduate study. Students should also consult with the appropriate faculty
advisors as early as possible to make certain they have taken all the necessary factors into
consideration.

**Religious Study**

There is no particular path through the Williams curriculum designed or recommended for
students intending to prepare for a career as a religious professional, enroll in a seminary,
or pursue theological education. Undergraduate study in many fields within the liberal arts
curriculum can be useful to the prospective minister, priest, rabbi, imam, or teacher of
religion.

Students with vocational interests that may include ordination or certification as a
religious professional in a field such as chaplaincy, religious education, service to a
congregation, faith-based humanitarian work or some other form of ministry are urged to
make themselves known to one of the chaplains (or, where appropriate, one of the local
clergy) as soon as these interests begin to come into focus. Ordination requirements vary
widely depending on the particular religious community or tradition; in some cases, it may
be possible to make progress on certain credentials in academic study or field experience
during the college years. Many divinity schools and theological seminaries expect and
welcome students whose understanding of “ministry” or sense of call is very much still in
formation. A basic foundation in the study of religion is certainly helpful—sacred texts,
scriptural languages, history, philosophy, phenomenology and comparative studies, etc.
But undergraduate study in other disciplines—music and the arts, political science and
economics, anthropology, psychology and sociology—may also enhance preparations at the
graduate level for future service to communities of faith.

Leave information is noted.

- Daniel P. Aalberts, Kennedy P. Richardson ’71 Professor of Physics; 1989, B.S., Massachusetts Institute of Technology, 1994, Ph.D., Massachusetts Institute of Technology, 1996, Postdoctoral Research at, University of Leiden, 1997, Postdoctoral Fellow at, Rockefeller University
- Tomas Adalsteinsson, Assistant Professor of Physical Education and Head Women’s Golf Coach; 2011, M.A., John F. Kennedy University
- Colin C. Adams, Thomas T. Read Professor of Mathematics; 1978, B.S., Massachusetts Institute of Technology, 1983, Ph.D., University of Wisconsin, Madison; on leave 2020-2021
- Zaid Adhami, Assistant Professor of Religion and Faculty Affiliate in Anthropology & Sociology; 2010, M.A., Stanford University, 2010, B.A., Stanford University, 2017, Ph.D., Duke University; affiliated with: Anthropology and Sociology; on leave Fall 2020
- Jeannie R Albrecht, Professor of Computer Science; 2001, B.S., Gettysburg College, 2003, M.S., Duke University, 2007, Ph.D., University of California, San Diego; on leave 2020-2021
- Cecilia Aldarondo, Assistant Professor of Art; 2012, Ph.D., University of Minnesota
- Kris Allen, Lyell B. Clay Artist in Residence in Jazz Activities/Lecturer in Music, Director of the Jazz Ensemble; 1998, B.M., Hartt School, University of Hartford, 2004, M.M., State University of NY, Purchase Conservatory
- Sarah M. Allen, Chair and Associate Professor of Comparative Literature; 1992, A.B., Harvard University, 1996, M.A., University of Michigan, 2003, Ph.D., Harvard University; affiliated with: Asian Studies Department
- Alex A. Apotsos, Lecturer in Geosciences; 1999, B.S., Duke University, 2007, Ph.D., Massachusetts Institute of Technology
- Kevin M. App, Assistant Professor of Physical Education and Head Men’s Basketball Coach; 2007, B.S., Cornell University
- Sonya K. Auer, Visiting Assistant Professor of Biology; 2001, B.A., Prescott College, 2011, Ph.D., University of California, Riverside
- Hossein Ayazi, Visiting Assistant Professor of American Studies; 2010, B.Sc., University of California, San Diego, 2018, Ph.D., University of California, Berkeley
- Duane A. Bailey, Professor of Computer Science; 1982, B.A., Amherst College, 1984, M.S., University of Massachusetts, Amherst, 1988, Ph.D., University of Massachusetts, Amherst
- Jon M. Bakija, W. Van Alan Clark ’41 Third Century Professor in the Social Sciences; 1990, B.A., Wesleyan University, 1995, M.A., University of Michigan, 2000, Ph.D., University of Michigan
- Lois M. Banta, Chair and Professor of Biology; 1983, B.A., Johns Hopkins University, 1990, Ph.D., California Institute of Technology
- Daniel W. Barowy, Assistant Professor of Computer Science; 2002, B.A., University of Massachusetts, Amherst, 2010, B.S., Boston University, 2013, M.S., Boston University, 2017, Ph.D., University of Massachusetts, Amherst; on leave 2020-2021
- Alix H. Barrale, Assistant Professor of Physical Education and Head Field Hockey Coach; 1993, B.A., Williams College, 1996, M.S., Smith College
- Bill Barrale, Assistant Professor of Physical Education, Head Baseball Coach; 1994, B.S., Northeastern University, 2004, M.A., Rowan University
- Ethan M. Barron, Assistant Professor of Physical Education, Head Men's Track & Field Coach; 2001, B.A., Tufts University, 2005, M.Ed., Middlebury College
- Melissa J. Barry, Professor of Philosophy; 1988, B.A., Wheaton College, 1998, Ph.D., University of Notre Dame
- Ron D. Bassar, Assistant Professor of Biology; 2001, B.A., Prescott College, 2011, Ph.D., University of California, Riverside; on leave 2020-2021
- Gene H. Bell-Villada, Harry C. Payne Professor of Romance Languages; 1963, B.A., University of Arizona, 1967, M.A., University of California, Berkeley, 1974, Ph.D., Harvard University
- Ben Benedict, Senior Lecturer; 1973, B.A., Yale University, 1976, M.Arch., Yale University
- Magnús T. Bernhardsson, Chair of Arabic Studies, Brown Professor of History and Faculty Affiliate in Leadership Studies and Religion; 1990, B.A., University of Iceland, 1992, M.A., Yale University, 1999, Ph.D., Yale University; affiliated with: Leadership Studies Program, Arabic Studies Department, Religion Department
• Alexander Bevilacqua, Assistant Professor of History; 2007, B.A., Harvard University, 2008, M.Phil., Cambridge University, 2010, M.A., Princeton University, 2014, Ph.D., Princeton University; on leave 2020-2021
• Mari Rodriguez Binnie, Assistant Professor of Art; 2005, B.A., Northwestern University, 2011, M.A., University of Texas, Austin, 2017, Ph.D., University of Texas, Austin; on leave 2020-2021
• William B. Binnie, Visiting Lecturer in Art; 2008, B.A., Pitzer College, the Claremont College, 2014, M.F.A., Southern Methodist University, Meadows School of Arts
• Julie C. Blackwood, Associate Professor of Mathematics; 2006, B.S., Rochester Institute of Technology, 2010, Ph.D., University of California, Davis; on leave Spring 2021
• M. Jennifer Bloxam, Herbert H Lehman Professor of Music; 1979, B.M., University of Illinois, 1982, M.A., Yale University, 1987, Ph.D., Yale University
• Casey D. Bohlen, Visiting Assistant Professor of History and Religion; 2008, B.A., Brown University, 2013, M.A., Harvard University, 2016, Ph.D., Harvard University; affiliated with: Religion Department
• Christopher A. Bolton, Professor of Comparative and Japanese Literature; 1989, B.A., Harvard University, 1998, Ph.D., Stanford University
• Ralph M. Bradburd, David A. Wells Professor of Political Economy; 1970, B.A., Columbia College, 1975, M.A., Columbia University, 1976, Ph.D., Columbia University
• Alice C. Bradley, Assistant Professor of Geosciences; 2011, B.E., Dartmouth College, 2014, M.S., University of Colorado, Boulder, 2016, Ph.D., University of Colorado, Boulder
• Rashida K. Braggs, Associate Professor of Africana Studies and Faculty Affiliate in Comparative Literature, Faculty Fellow of the Davis Center and the Office of Institutional Diversity, Equity and Inclusion; 1998, B.A., Yale University, 2000, M.S., Boston University, 2006, Ph.D., Northwestern University; affiliated with: The Davis Center, VP-InstDivrstyEquity&Inclusion
• Janis Bravo, Instructor in Biology; 1980, B.S., Cornell University, 1990, Ph.D., Rutgers University
• Johanna Breiding, Assistant Professor of Art; 2006, B.A., Scripps College, 2012, M.F.A., California Institute of the Arts
• Theresa Brock, Visiting Assistant Professor of French Language and Francophone Cultures; 2011, B.A., University of Delaware, 2013, M.A., Pennsylvania State University, 2017, Ph.D., Pennsylvania State University
• Victoria Brooks, Visiting Lecturer in the Graduate Program in Art History; 2001, B.A., University of Bristol, 2006, M.A., Royal College of Art
• Deborah Brothers, Costume Director and Lecturer in Theatre; 1976, B.F.A., University of New Orleans, 1979, M.F.A., California Institute of the Arts
• Nicole G. Brown, Assistant Professor of Classics; 2001, B.A., Mount Holyoke College, 2003, M.A.T., University of Massachusetts, Amherst, 2014, M.A., Princeton University, 2018, Ph.D., Princeton University; on leave 2020-2021
• Denise K. Buell, Cluett Professor of Religion; 1987, B.A., Princeton University, 1990, M.Div., Harvard University, 1995, Ph.D., Harvard University; on leave Fall 2020
• Sandra L. Burton, Lipp Family Director of Dance and Senior Lecturer in Dance; 1983, B.A., City College of New York, 1987, M.F.A., Bennington College
• Xizhen Cai, Assistant Professor of Statistics; 2014, Ph.D., Pennsylvania State University
• Corinna S. Campbell, Associate Professor of Music; 2003, B.M., Northwestern University, 2005, M.M., Bowling Green State University, 2012, Ph.D., Harvard University
• Gerard Caprio, Chair of the Executive Committee for the Center for Development Economics and William Brough Professor of Economics; 1972, B.A., Williams College, 1974, M.A., University of Michigan, 1976, Ph.D., University of Michigan; affiliated with: Ctr-Development Economics
• Deborah L. Carlisle, Instructor in Biology; 2014, Ph.D., University of Massachusetts, Amherst
• Josh Carlson, Visiting Assistant Professor of Mathematics; 2013, B.S., Iowa State University, 2019, Ph.D., Iowa State University
• Anthony J. Carrasquillo, Assistant Professor of Chemistry; 2007, B.A., Bowdoin College, 2007, B.A., Bowdoin College, 2015, Ph.D., Massachusetts Institute of Technology
• Nicholas Carr, Visiting Professor of Sociology; 1981, B.A., Dartmouth College, 1984, M.A., Harvard University
• Matt E. Carter, Associate Professor of Biology; 2000, B.A., Whitman College, 2010, Ph.D., Stanford University; affiliated with: Neuroscience Program
• Gregory P. Casey, Assistant Professor of Economics; 2018, Ph.D., Brown University
• Alison A. Case, Dennis Meenan ’54 Third Century Professor of English; 1984, B.A., Oberlin College, 1988, M.A., Cornell University, 1991, Ph.D., Cornell University
• David N. Cassuto, Class of 1946 Visiting Distinguished Professor of Environmental Studies; 1985, B.A., Wesleyan University, 1994, Ph.D., Indiana University
• Victor A. Cazares, Assistant Professor of Psychology; 2007, B.A., California State University, Los Angeles, 2009, M.A., California State University, Los Angeles, 2015, Ph.D., University of Michigan; affiliated with: Neuroscience Program
• Anik A. Cepeda, Assistant Professor of Physical Education and Head Coach of Women’s Tennis; 2013, B.A., College of William and Mary
• Maria Elena Cepeda, Chair and Professor of Latina/o Studies; 1995, B.A., Kenyon College, 1997, M.A., University of Michigan, 2003, Ph.D., University of Michigan; affiliated with: Women, Gender & Sexuality Stdy, American Studies Program
• Arturo Chang, Gaius Charles Bolin Fellow in Political Science; 2015, B.A., DePaul University, 2017, M.A., Northwestern University
• Cecilia Chang, Frederick Latimer Wells Professor of Chinese; 1981, B.A., Fu-Jen University, 1987, M.A., University of California, Los Angeles, 2004, Ph.D., University of Massachusetts, Amherst
• Matthew Chao, Assistant Professor of Economics; 2006, B.A., Dartmouth College, 2015, Ph.D., California Institute of Technology
• Jessica Chapman, Professor of History; 1999, B.A., Valparaiso University, 2001, M.A., University of California, Santa Barbara, 2006, Ph.D., University of California, Santa Barbara
• C. Ondine Chavoya, Professor of Art; 1992, B.A., University of California, Santa Cruz, 1996, M.A., University of Rochester, 2002, Ph.D., University of Rochester; affiliated with: Latina/o Studies Program
• Pei-Wen Chen, Assistant Professor of Biology; 2001, B.S., National Yang-Ming University, 2003, M.S., Albert Einstein College of Medicine, 2008, Ph.D., Albert Einstein College of Medicine
• Franny Choi, Gaius Charles Bolin Fellow in English; 2011, B.A., Brown University, 2018, M.F.A., University of Michigan
• Kerry A. Christensen, Garfield Professor of Ancient Languages; 1981, B.A., Swarthmore College, 1983, M.A., Princeton University, 1993, Ph.D., Princeton University; on leave Fall 2020
• Kelly I Chung, Visiting Assistant Professor of of Women's, Gender, and Sexuality Studies; 2018, Ph.D., Northwestern University
• Cassandra J. Cleghorn, Senior Lecturer in English and American Studies; 1983, B.A., University of California, Santa Cruz, 1988, M.A., Yale University, 1995, Ph.D., Yale University; affiliated with: American Studies Program; on leave Spring 2021
• Phoebe A. Cohen, Associate Professor of Geosciences; 2002, B.A., Cornell University, 2010, Ph.D., Harvard University; on leave Spring 2021
• Jeremy D. Cone, Assistant Professor of Psychology; 2007, B.A., University of Waterloo, 2012, Ph.D., Cornell University
• Michael Conforti, Lecturer in the Graduate Program in Art History; 1968, B.A., Trinity College, 1973, M.A., Harvard University, 1977, Ph.D., Harvard University; affiliated with: Art Department
• Eliza L Congdon, Assistant Professor of Psychology; 2008, B.S., Brown University, 2016, Ph.D., University of Chicago
• José A. Constantine, Assistant Professor of Geosciences; 1999, B.S., College of William and Mary, 2002, M.S., University of California, Davis, 2008, Ph.D., University of California, Santa Barbara
• Mea S. Cook, Chair and Associate Professor of Geosciences; 1999, B.A., Princeton University, 2006, Ph.D., Mass Institute of Technology - Woods Hole Oceanographic Institution Joint Program in Oceanography
• Carl B. Cornell, Visiting Assistant Professor of French; 2011, B.A., St. Lawrence University, 2018, Ph.D., Pennsylvania State University
• Rónadh Cox, Edward Brust Professor of Geology and Mineralogy; 1985, B.S., University College Dublin, 1993, Ph.D., Stanford University
• George T. Crane, Chair of Asian Studies and the Edward S. Greenbaum 1910 Professor of Political Science; 1979, B.A., State University of New York, Purchase, 1981, M.A., University of Wisconsin, Madison, 1986, Ph.D., University of Wisconsin, Madison; affiliated with: Asian Studies Department
• Marshall Creighton, Lecturer in Physical Education and Assistant Strength & Conditioning Coach; 2002, B.A., Williams College
• Justin Crowe, Chair of Leadership Studies and Associate Professor of Political Science; 2003, B.A., Williams College, 2005, M.A., Princeton University, 2007, Ph.D., Princeton University; affiliated with: Leadership Studies Program
• Joseph L. Cruz, Professor of Philosophy; 1991, B.A., Williams College, 1999, Ph.D., University of Arizona
• Erica Dankmeyer, Artist-in-Residence in Dance; 1991, B.A., Williams College
• Andrea Danyluk, Mary A and William Wirt Warren Professor of Computer Science, Chair of Cognitive Science Program; 1984, A.B., Vassar College, 1986, M.S., Columbia University, 1992, Ph.D., Columbia University; affiliated with: Cognitive Science Program
• Derek Dean, Lecturer in Biology; 1994, B.A., Oberlin College/Conservatory, 2004, Ph.D., Cornell University
• Alan De Gooyer, Lecturer in English; 1987, B.A., Colorado State University, 1991, M.A., University of Denver, 1994, Ph.D., University of Virginia
• Edan Dekel, Chair and Professor of Classics, Chair of Jewish Studies Program; 1996, B.A., Brown University, 1998, M.A., University of California, Berkeley, 2005, Ph.D., University of California, Berkeley; affiliated with: Religion Department
• Christine DeLucia, Assistant Professor of History; 2006, A.B., Harvard University, 2009, M.Phil., Yale University, 2012, Ph.D., Yale University
• Richard D. De Veaux, C. Carlisle and Margaret Tippit Professor of Statistics; 1973, A.B., Princeton University, 1980, M.A., Stanford University, 1986, Ph.D., Stanford University
• Charlie Doret, Associate Professor of Physics; 2002, B.A., Williams College, 2006, A.M., Harvard University, 2010, Ph.D., Harvard University
• Georges B. Dreyfus, Jackson Professor of Religion; 1969, B.A., La Chaux-de-Fonds, 1987, M.A., University of Virginia, 1991, Ph.D., University of Virginia; on leave Fall 2020

6/31
• Sara Dubow, Associate Dean of the Faculty, Professor of History; 1991, B.A., Williams College, 1996, M.A., University of Massachusetts at Amherst, 2003, Ph.D., Rutgers University; affiliated with: History Department
• Susan Dunn, Massachusetts Professor of Humanities; , B.A., Smith College, , Ph.D., Harvard University; affiliated with: Leadership Studies Program
• David B. Edwards, James N. Lambert ’39 Professor of Anthropology; 1975, B.A., Princeton University, 1979, M.A., University of Michigan, 1986, Ph.D., University of Michigan
• Holly Edwards, Senior Lecturer in Art; 1975, B.A., Princeton University, 1981, M.A., University of Michigan, 1990, Ph.D., New York University Institute of Fine Arts

• Brahim El Guabli, Assistant Professor of Arabic Studies; 2005, B.A., Bordeaux III University, 2016, Ph.D., Princeton University
• Susan L. Engel, Senior Lecturer in Psychology, The Class of 1959 Director of Program in Teaching; 1980, B.A., Sarah Lawrence College, 1985, Ph.D., City University of New York; on leave Spring 2021
• Laura D. Ephraim, Associate Professor of Political Science; 2000, B.A., Pomona College, 2010, Ph.D., Northwestern University
• Amal Eqeiq, Assistant Professor of Comparative Literature; 1997, B.A., Hebrew University, 2004, M.A., Tel Aviv University, 2006, M.A., University of Oregon, 2013, Ph.D., University of Washington; affiliated with: Comparative Literature Program; on leave Fall 2020
• Pete Farwell, Assistant Professor of Physical Education, Head Cross Country Coach, and Assistant Coach Men’s and Women’s Track; 1973, B.A., Williams College, 1990, M.A., Central Michigan University
• Steven Fein, Professor of Psychology; 1986, A.B., Princeton University, 1991, Ph.D., University of Michigan
• Ezra D. Feldman, Visiting Assistant Professor of English; 2002, A.B., Harvard University, 2008, M.F.A., Cornell University, 2017, Ph.D., Cornell University; affiliated with: Science & Technology Studies, Graduate Program-Art History
• Molly Q Feldman, Visiting Assistant Professor of Computer Science; 2011, B.A., Swarthmore College, 2018, M.S., Cornell University, 2020, Ph.D., Cornell University
- Ronald L. Feldman, Artist in Residence in Orchestral and Instrumental Activities/Lecturer in Music, Director of the Berkshire Symphony; 1971, B.M., Boston University School for the Arts; on leave Fall 2020
- Kevin Flaherty, Lecturer in Astronomy and Observatory Supervisor; 2005, B.S., University of Rochester, 2011, Ph.D., University of Arizona; affiliated with: Physics Department
- Antonia E. Foias, Professor of Anthropology; 1987, B.A., Harvard University, 1996, Ph.D., Vanderbilt University
- VaNatta S. Ford, Assistant Professor of Africana Studies; 2000, B.S., Illinois State University, 2005, M.Div., Howard University, 2011, Ph.D., Howard University
- Caroline O. Fowler, Lecturer in the Graduate Program in Art History; 2012, Ph.D., Princeton University
- Soledad Fox, V-Nee Yeh ’81 Professor of Spanish and Comparative Literature; 1990, B.A., Sarah Lawrence College, 1997, M.A., City University of New York, 2001, Ph.D., City University of New York
- Jennifer L. French, Professor of Spanish; 1995, B.A., College of William and Mary, 1997, M.A., Rutgers University, 2001, Ph.D., Rutgers University
- Stephen N. Freund, Chair & John B. McCoy and John T. McCoy Professor of Computer Science; 1995, B.S., Stanford University, 1998, M.S., Stanford University, 2000, Ph.D., Stanford University
- Alexandra Garbarini, Professor of History; 1994, B.A., Williams College, 1997, M.A., University of California, Los Angeles, 2003, Ph.D., University of California, Los Angeles
- Thomas A. Garrity, Webster Atwell Class of 1921 Professor of Mathematics; 1981, B.A., University of Texas, 1981, B.S., University of Texas, 1986, Ph.D., Brown University; on leave 2020-2021
- Amy Gehring, Professor of Chemistry, Chair of Biochemistry Program; 1994, B.A., Williams College, 1998, Ph.D., Harvard University, 2002, Postdoctoral Fellow at, Harvard University
- Steven B. Gerrard, Professor of Philosophy; 1978, B.A., Amherst College, 1982, M.A., University of Chicago, 1987, Ph.D., University of Chicago; on leave Spring 2021
- Matthew Gibson, Assistant Professor of Economics; 2005, A.B., Harvard University, 2015, Ph.D., University of California, San Diego
• Lisa A. Gilbert, Professor of Geosciences and Marine Sciences at Williams-Mystic; 1997, A.B., Dartmouth College, 1999, M.S., University of Washington, 2004, Ph.D., University of Washington; affiliated with: Geosciences Department

• Meghan K. Gillis, Assistant Professor of Physical Education and Head Coach of Women's Ice Hockey; 2007, B.A., Bowdoin College, 2009, M.S., University of Massachusetts, Amherst

• Allison L. Gill, Assistant Professor of Biology; 2011, B.A., Mount Holyoke College, 2017, Ph.D., Boston University

• Graham K. Giovanetti, Assistant Professor of Physics; 2006, B.S., College of William and Mary, 2015, Ph.D., University of North Carolina, Chapel Hill

• Michael A. Glier, Alexander Falck Class of 1899 Professor of Art; 1976, B.A., Williams College, 1977, M.A., Hunter College City University of New York

• Susan Godlonton, Associate Professor of Economics; 2003, B.A., University of Cape Town, 2003, B.A., Stellenbosch University, 2007, M.A., University of Cape Town, 2013, Ph.D., University of Michigan

• Eva G. Goedhart, Visiting Assistant Professor of Mathematics; 2003, B.S., James Madison University, 2005, M.A., Wake Forest University, 2015, Ph.D., Bryn Mawr College

• Christopher Goh, Professor of Chemistry, Faculty Fellow of the Davis Center and the Office of Institutional Diversity, Equity and Inclusion; 1989, B.S., University of Durham, 1996, Ph.D., Harvard University; affiliated with: The Davis Center, VP-InstDivrsyEquity&Inclusion

• Sarah L. Goh, Chair and Professor of Chemistry; 1996, B.S., University of Michigan, 1998, M.S., University of Massachusetts, Amherst, 2004, Ph.D., University of California, Berkeley

• Leo Goldmakher, Associate Professor of Mathematics; 2004, B.A., Princeton University, 2009, Ph.D., University of Michigan

• Matthew A. Gold, Artist in Residence in Percussion and Contemporary Music Performance; 1994, B.M., Northwestern University, 2016, M.M., Shepherd School of Music, Rice University

• Ed Gollin, Chair and Professor of Music; 1992, B.S., Massachusetts Institute of Technology, 1995, M.A., Queens College, CUNY, 2000, Ph.D., Harvard University

• Manuel Gonzales, Visiting Assistant Professor of English; 1996, B.A., University of Texas, Austin, 2003, M.F.A., Columbia University

• Marc Gotlieb, Halvorsen Director of the Graduate Program in Art History; 1980, B.A., University of Toronto, 1984, M.A., Johns Hopkins University, 1990, Ph.D., Johns Hopkins University; affiliated with: Art Department

• David Gürcay-Morris, Associate Professor of Theatre; 1996, B.A., Williams College, 2001, M.F.A., University of Washington, Seattle; on leave 2020-2021

• Daniel R. Greenberg, Assistant Professor of Physical Education and Head Coach of Men's Tennis; 2013, M.Ed., Massachusetts College of Liberal Arts
• Kai M. Green, Assistant Professor of Women’s, Gender and Sexuality Studies; 2007, B.A., Williams College, 2011, M.A., University of Southern California, 2014, Ph.D., University of Southern California; on leave 2020-2021
• Kerry-Ann Green, Assistant Professor of Chemistry; 2006, B.Sc., The University of the West Indies, Mona, 2013, D.Phil, The University of the West Indies, Mona, 2020, Postdoctoral Fellow at, West Virginia University
• Wang Guowei, Artist in Residence in Chinese Music Performance and Director of the Williams College Chinese Ensemble
• Kelsey Gura, Assistant Professor of Physical Education and Head Alpine Ski Coach; 2010, B.A., Williams College
• Kim Gutschow, Lecturer in Religion and Anthropology/Sociology; 1988, B.A., Harvard University, 1995, M.A., Harvard University, 1998, Ph.D., Harvard University; affiliated with: Anthropology and Sociology
• Catherine Robinson Hall, Associate Professor at Williams-Mystic; 1985, B.A., University of Rhode Island, 1989, J.D., Vermont Law School; affiliated with: Maritime Studies Program
• Amie A. Hane, Professor of Psychology, Chair of Public Health; 1996, B.A., University of Maryland, 1999, M.A., University of Maryland, 2002, Ph.D., University of Maryland; affiliated with: Neuroscience Program, Public Health Program; on leave Spring 2021
• Nicole T. Harrington, Visiting Assistant Professor of Psychology; 1987, B.A., Boston College, 1995, Ph.D., University of Vermont
• Pamela E. Harris, Associate Professor of Mathematics; 2005, B.S., Marquette University, 2008, M.S., University of Wisconsin, Milwaukee, 2012, Ph.D., University of Wisconsin, Milwaukee
• Katie M. Hart, Assistant Professor of Chemistry; 2004, B.S., Haverford College, 2013, Ph.D., University of California, Berkeley
• Laurie Heatherington, Edward Dorr Griffin Professor of Psychology; 1976, B.A., Miami University, 1981, Ph.D., University of Connecticut
• Guy M. Hedreen, Amos Lawrence Professor of Art; 1981, B.A., Pomona College, 1983, M.A., Bryn Mawr College, 1988, Ph.D., Bryn Mawr College
• Kris Herman, Assistant Professor of Physical Education, Head Softball Coach; 1986, B.A., Tufts University, 1989, M.A., Tufts University
• Man He, Assistant Professor of Chinese; 2000, B.A., Renmin University, 2004, M.A., Seton Hall University, 2009, M.A., Ohio State University, 2015, Ph.D., Ohio State University

10/31
• Jacqueline Hidalgo, Associate Dean for Institutional Diversity, Equity and Inclusion, Professor of Latina/o Studies and Religion; 2000, B.A., Columbia University, 2003, M.A., Union Theological Seminary, 2010, Ph.D., Claremont Graduate University; affiliated with: Religion Department, Latina/o Studies Program
• Josh D. Hillman, Lecturer in Physical Education and Head Men's Golf Coach; 2000, B.A., University of Rhode Island

Julie Pedroni, Lecturer in Philosophy; 1986, B.A., Wells College, 1999, Ph.D., Georgetown University; affiliated with: Ctr-Environmental Studies
Peter L. Pedroni, Professor of Economics; 1986, B.A., Miami University, 1993, Ph.D., Columbia University, 1993, M.A., Columbia University
James L. Pethica, Senior Lecturer in English and Theatre; 1980, B.A., Oxford University, 1987, Ph.D., Oxford University; affiliated with: Theatre Department
Greg Phelan, Associate Professor of Economics; 2007, B.A., Yale University, 2010, M.A., Yale University, 2012, M.Phil., Yale University, 2014, Ph.D., Yale University
Katarzyna M. Pieprzak, Professor of Francophone Literature, French Language, and Comparative Literature; 1995, B.A., Rice University, 1998, M.A., University of Michigan, 2001, Ph.D., University of Michigan; on leave 2020-2021
Shanti Pillai, Assistant Professor of Theatre; 1989, B.A., Stanford University, 1990, M.A., University of California, Berkeley, 2005, Ph.D., New York University
Anna M. Plantinga, Assistant Professor of Statistics; 2013, B.S., Calvin College, 2018, Ph.D., University of Washington
Amy D. Podmore, Art Dept Co-Chair & Chair of Studio Art, J. Kirk T. Varnedoe 1967 Professor of Art; 1982, B.S., State University of New York, Buffalo, 1987, M.F.A., University of California, Davis
Kailani Polzak, Assistant Professor of Art; 2007, B.A., University of California, Santa Cruz, 2017, Ph.D., University of California, Berkeley; on leave 2020-2021
Daniel E. Prindle, Visiting Instructor in Music; 2003, B.M., Berklee College of Music, 2011, M.M., University of Massachusetts, Amherst
Marek S. Proboz, Visiting Lecturer in Theatre
Tim J. Pusack, Assistant Professor at Williams-Mystic; 2005, B.A., Colgate University, 2013, Ph.D., Oregon State University
Christopher L. Pye, Class of 1924 Professor of English; 1975, B.A., Oberlin College, 1977, M.A., University College, 1984, Ph.D., Cornell University
Ahmed Ragab, Richmond Visiting Professor; 2006, M.D., Qasr al-Aini School of Medicine, Cairo University, 2010, Ph.D., École Pratique des Hautes Études; affiliated with: Religion Department, American Studies Program
- Ashok S. Rai, Professor of Economics; 1992, B.A., Stanford University, 1997, Ph.D., University of Chicago
- Sarah Rara, Assistant Professor of Art; 2005, B.A., Brown University, 2011, M.F.A., University of Southern California
- Bob Rawle, Assistant Professor of Chemistry; 2008, B.A., Pomona College, 2014, Ph.D., Stanford University
- Mark R. Raymond, Assistant Professor of Physical Education and Head Coach of Football; 1998, M.A., Syracuse University
- Sarah E. Raymond, Assistant Professor of Physical Education and Head Women's Soccer Coach; 1991, B.A.S., Phillip Institute of Technology, 2003, M.C.S., Long Island University
- Anjuli F. Raza Kolb, Associate Professor of English; 2003, B.A., Columbia College, 2006, M.A., Columbia University, 2008, M.Phil., Columbia University, 2013, Ph.D., Columbia University; on leave 2020-2021
- Anne Reinhardt, Chair and Professor of History; 1990, B.A., Harvard University, 1994, M.A., University of California, Berkeley, 2002, Ph.D., Princeton University
- Mark T. Reinhardt, Chair and Class of 1956 Professor of American Civilization; 1983, B.A., Wesleyan University, 1991, Ph.D., University of California, Santa Cruz; affiliated with: American Studies Program
- Bernard J. Rhie, Chair and Associate Professor of English; 1997, B.A., University of California, Berkeley, 2001, M.A., University of Pennsylvania, 2005, Ph.D., University of Pennsylvania
- Kenny Rivero, Visiting Assistant Professor of Art; 2006, B.F.A., School of Visual Arts, 2012, M.F.A., Yale University
- Neil Roberts, Chair and Professor of Africana Studies and Faculty Affiliate in Political Science and Religion; 1998, B.A., Brown University, 2003, M.A., University of Chicago, 2007, Ph.D., University of Chicago; affiliated with: Religion Department, Political Science Department
- Shivon A. Robinson, Assistant Professor of Psychology; 2011, B.A., Williams College, 2016, Ph.D., University of Pennsylvania; affiliated with: Neuroscience Program
- Henrik Ronellenfitsch, Assistant Professor of Physics; 2010, B.Sc., ETH Zürich, 2012, M.Sc., ETH Zürich, 2016, Dr.rer.n, Georg-August-Universität Göttingen
- Shawn J. Rosenheim, Professor of English, Chair of Campus Environmental Committee; 1985, B.A., Oberlin College, 1988, M.A., Yale University, 1993, Ph.D., Yale University
• Sidney A. Rothstein, Assistant Professor of Political Science; 2009, B.A., Reed College, 2017, Ph.D., University of Pennsylvania
• Leyla Rouhi, Preston S. Parish ’41 Third Century Professor of Romance Languages; 1987, B.A., Oxford University, 1988, M.A., Harvard University, 1995, Ph.D., Harvard University
• Marketa Rulikova, Visiting Assistant Professor of Sociology; 1996, B.A., University of Pardubice, 1997, M.A., Central European University, 2001, Ph.D., Polish Academy of Science
• Sophie F. Saint-Just, Assistant Professor of French and Francophone Studies; 1991, B.A., La Sorbonne Nouvelle (Paris III), 1994, M.A., La Sorbonne Nouvelle (Paris III), 2004, M.Phil., City University of New York, 2013, Ph.D., City University of New York; on leave 2020-2021
• Michael Samson, Senior Lecturer in Economics; 1983, B.A., Yale University, 1994, Ph.D., Stanford University
• Alberto Sandoval-Sanchez, Bennett Boskey Visiting Professor; 1983, Ph.D., University of Minnesota
• Marlene J. Sandstrom, Dean of the College, Hales Professor of Psychology; 1991, B.A., Yale University, 1993, M.A., Duke University, 1996, Ph.D., Duke University; affiliated with: Psychology Department
• Noah J. Sandstrom, Chair and Professor of Psychology; 1994, B.A., Knox College, 1997, M.A., Duke University, 1999, Ph.D., Duke University; affiliated with: Neuroscience Program
• Omar A. Sangare, Chairperson and Professor of Theatre; 1993, M.F.A., The Theatre Academy, 2006, Ph.D., The Theatre Academy
• Ren Dara Santiago, Visiting Lecturer in Theatre
• Robert M. Savage, Professor of Biology; 1987, B.A., Bowdoin College, 1993, Ph.D., Wesleyan University
• Kenneth K. Savitsky, Professor of Psychology; 1993, B.A., Indiana University, 1997, Ph.D., Cornell University
• Jana Sawicki, Chair of Philosophy and Morris Professor of Rhetoric; 1974, B.A., Sweet Briar College, 1978, M.A., Columbia University, 1983, Ph.D., Columbia University
• Ned G. Schaumberg, Assistant Professor at Williams-Mystic; 2009, B.A., Whitman College, 2012, M.A., University of Washington, 2018, Ph.D., University of Washington
• Lucie Schmidt, John J Gibson Professor of Economics; 1993, A.B., Smith College, 1997, M.A., University of Michigan, 2003, Ph.D., University of Michigan
• Pallavi Sen, Assistant Professor of Art; 2016, M.F.A., Virginia Commonwealth University
• Eun Young Seong, Visiting Assistant Professor of Japanese; 2008, B.A., Korea University, 2012, M.A., The University of Tokyo, 2019, Ph.D., University of California, Irvine
• Justin B. Shaddock, Assistant Professor of Philosophy; 2004, B.A., University of Notre Dame, 2011, Ph.D., University of Chicago
• Cheryl Shanks, Professor of Political Science; 1983, B.A., University of California, Santa Cruz, 1988, M.A., University of Michigan, 1994, Ph.D., University of Michigan
• Kelly A. Shaw, Associate Professor of Computer Science; 1997, B.S., Duke University, 2005, Ph.D., Stanford University
• Karen L. Shepard, Senior Lecturer in English; 1987, B.A., Williams College, 1992, M.F.A., University of Houston
• Stephen C. Sheppard, Class of 2012 Professor of Economics; 1977, B.S., University of Utah, 1979, M.A., Washington University, 1984, Ph.D., Washington University
• Olga Shevchenko, Professor of Sociology; 1996, B.A., Moscow State University, 1997, M.A., Central European University, 2002, Ph.D., University of Pennsylvania; on leave Spring 2021
• Cesar E. Silva, Hagey Family Professor of Mathematics; 1977, B.S., Catholic University of Peru, 1979, M.A., University of Rochester, 1984, Ph.D., University of Rochester; on leave 2020-2021
• Christina E. Simko, Assistant Professor of Sociology; 2005, B.A., Bridgewater College, 2007, M.A., University of Virginia, 2013, Ph.D., University of Virginia
• Jeremy C Simon, Visiting Assistant Professor of Psychology; 2013, B.A., Amherst College, 2017, M.A., Brandeis University, 2020, Ph.D., Brandeis University
• Shikha Singh, Assistant Professor of Computer Science; 2013, M.S., Indian Institute of Technology, 2018, Ph.D., Stony Brook University
• Eiko Maruko Siniawer, Class of 1955 Memorial Professor of History; 1997, B.A., Williams College, 1999, M.A., Harvard University, 2003, Ph.D., Harvard University; affiliated with: Asian Studies Department
• Yana Skorobogatov, Assistant Professor of History; 2009, B.A., University of California, Berkeley, 2012, M.A., University of Texas, Austin, 2018, Ph.D., University of California, Berkeley
• David L. Smith, John W Chandler Professor of English; 1974, B.A., New College, 1975, M.A., University of Chicago, 1980, Ph.D., University of Chicago
• Matthew J. Smith, Sterling Brown '22 Visiting Professor of Africana Studies; 2002, Ph.D., University of Florida
• Thomas E. Smith, Professor of Chemistry; 1988, B.A., Williams College, 1996, Ph.D., Stanford University, 1998, Postdoctoral Fellow at, Harvard University
• Ben Snyder, Assistant Professor of Sociology; 2003, B.A., Haverford College, 2007, M.A., University of Virginia, 2013, Ph.D., University of Virginia
• Greta F. Snyder, Visiting Assistant Professor of Women's, Gender, and Sexuality Studies; 2003, B.A., Haverford College, 2007, M.A., University of Virginia, 2011, Ph.D., University of Virginia
• Anita R. Sokolsky, Professor of English; 1974, B.A., Oberlin College, 1979, M.A., Cornell University, 1983, Ph.D., Cornell University; on leave 2020-2021
• Stefanie Solum, Professor of Art; 1991, B.A., University of Wisconsin, Madison, 1995, M.A., University of California, Berkeley, 2001, Ph.D., University of California, Berkeley
• Peter Starenko, Visiting Assistant Professor of History
• Stephanie J. Steele, Visiting Assistant Professor of Psychology; 2007, B.A., Smith College, 2012, M.A., Suffolk University, 2017, Ph.D., Suffolk University
• Doris J. Stevenson, Lyell B. Clay Artist in Residence, Piano; 1967, B.M., Arizona State University, 1969, M.M., University of Southern California
• Tyran K. Steward, Assistant Professor of History; 2000, B.A., Morehouse College, 2009, M.A., Eastern Michigan University, 2013, Ph.D., Ohio State University
• Mihai Stoiciu, Chair and Professor of Mathematics; 2005, Ph.D., California Institute of Technology
• Jason Josephson Storm, Chair and Professor of Religion, Chair of Science and Technology Studies; 1999, B.A., Hampshire College, 2001, M.A., Harvard University, 2006, Ph.D., Stanford University; affiliated with: Science & Technology Studies
• Frederick W. Strauch, Chair and Professor of Physics; 1998, B.S., Loyola College, 2004, Ph.D., University of Maryland, 2007, Postdoctoral Associate, National Institute of Standards and Technology
• Laura R. Strauch, Lecturer in Chemistry; 1999, B.S., Loyola College
• Catherine B. Stroud, Associate Professor of Psychology; 2002, B.A., University of Wisconsin, Madison, 2006, M.A., State University of New York, Stony Brook, 2009, Ph.D., State University of New York, Stony Brook
• Erin Sullivan, Assistant Professor of Physical Education, Head Men's Soccer Coach; 1996, B.A., Williams College, 2006, M.B.A., Western New England College
• Matthew Swagler, Visiting Assistant Professor of History; 2002, B.A., Brown University, 2012, M.Phil., Columbia University, 2017, Ph.D., Columbia University
• Anand V. Swamy, The Willmott Family Third Century Professor of Economics; 1983, B.A., University of Delhi, 1985, M.A., Delhi School of Economics, 1993, Ph.D., Northwestern University; on leave Spring 2021
• Steven J. Swoap, Howard B. Schow ’50 and Nan W. Schow Professor of Biology and Director of the Williams-Exow Programme at Oxford University; 1990, B.A., Trinity University, 1994, Ph.D., University of California, Irvine; affiliated with: Williams-Exeter Prg at Oxford
• Munjulika Tarah, Assistant Professor of Dance; 2006, B.A., Randolph College, 2007, M.A., Northwestern University, 2013, Ph.D., Northwestern University
• John W. Thoman, J. Hodge Markgraf Professor of Chemistry; 1982, B.A., Williams College, 1987, Ph.D., Massachusetts Institute of Technology
• Owen Thompson, Assistant Professor of Economics; 2005, B.A., Evergreen State College, 2013, Ph.D., University of Massachusetts, Amherst
• Christian Thorne, Professor of English; 1995, B.A., Wesleyan University, 2001, Ph.D., Duke University; on leave Fall 2020
• Ben W. Thuronyi, Assistant Professor of Chemistry; 2007, B.A., Swarthmore College, 2015, Ph.D., University of California, Berkeley; on leave Fall 2020
• Stephen J. Tifft, Professor of English; 1975, B.A., Harvard University, 1976, M.A., Cornell University, 1984, Ph.D., Cornell University; on leave 2020-2021
• Claire S. Ting, Professor of Biology; 1986, B.A., Yale University, 1989, M.S., Cornell University, 1994, Ph.D., Cornell University; on leave 2020-2021
• Matthew Tokeshi, Assistant Professor of Political Science; 2006, B.A., University of California, Berkeley, 2012, M.A., Princeton University, 2016, Ph.D., Princeton University; on leave Fall 2020
• Chad M. Topaz, Professor of Mathematics; 1996, A.B., Harvard University, 1997, M.S., Northwestern University, 2002, Ph.D., Northwestern University
• Cécile Tresfels, Assistant Professor of French; 2010, M.A., University of Paris III, 2019, Ph.D., Stanford University
• David R. Tucker-Smith, Professor of Physics; 1995, B.A., Amherst College, 2001, Ph.D., University of California, Berkeley, 2003, Postdoctoral Associate, Massachusetts Institute of Technology
• Laurie L. Tupper, Assistant Professor of Statistics; 2008, B.A., Swarthmore College, 2013, M.S., Cornell University, 2016, Ph.D., Cornell University
• Amanda K. Turek, Assistant Professor of Chemistry; 2009, B.S., University of Wisconsin, Madison, 2015, Ph.D., Harvard University, 2019, Postdoctoral Associate, Yale University
• Daniel B. Turek, Assistant Professor of Statistics; 2003, B.S., Massachusetts Institute of Technology, 2003, B.S., Massachusetts Institute of Technology, 2004, M.Eng., Massachusetts Institute of Technology, 2013, Ph.D., University of Otago
• Damian Turner, Assistant Professor of Biology; 2004, B.S., Morgan State University, 2010, Ph.D., University of Connecticut Health Center
• Benjamin Twagira, Assistant Professor of History; 2000, B.A., La Roche College, 2008, M.A., University of Wisconsin-Madison, 2018, Ph.D., Boston University
• Elizabeth M. Upton, Assistant Professor of Statistics; 2007, B.S., University of New Hampshire, 2011, M.Ed., Harvard School of Education, 2019, Ph.D., Boston University; on leave Spring 2021
• Vincent van der Vinne, Visiting Assistant Professor of Biology; 2008, B.S., University of Groningen, 2010, M.Sc., University of Groningen, 2015, Ph.D., University of Groningen
• Janneke van de Stadt, Chair of German and Russian and Professor of Russian; 1988, B.A., Amherst College, 1994, M.A., University of Wisconsin, Madison, 2000, Ph.D., University of Wisconsin, Madison
• Emily Vasiliasuskas, Assistant Professor of English; 2007, A.B., Harvard University, 2008, M.Phil., University of Cambridge, Trinity College, 2009, M.A., Warburg Institute, 2015, Ph.D., Princeton University
• Tommy Verdell, Assistant Professor of Physical Education, Associate Athletic Director for Inclusion and Compliance; 2018, M.A., Concordia University Irvine
• Kate Wachala, Assistant Professor of Physical Education and Head Coach of Women’s Crew; 2001, B.A., University of Washington
• Zachary Wadsworth, Assistant Professor of Music; 2005, B.M., Eastman School of Music, University of Rochester, 2007, M.M., Yale University, 2012, D.M.A., Cornell University
• Chen Wang, Visiting Assistant Professor of Chinese; 2004, B.A., East China Normal University, 2007, M.A., East China Normal University, 2015, M.A., University of Minnesota, Twin Cities, 2019, Ph.D., University of Minnesota, Twin Cities
• Carolyn J. Wargula, Visiting Assistant Professor of Art; 2013, B.A., St. John's University, 2015, M.A., University of Pittsburgh, 2020, Ph.D., University of Pittsburgh
• Chris Waters, Hans W. Gatzke '38 Professor of Modern European History; 1977, B.A., California State University, Long Beach, 1979, M.A., Harvard University, 1985, Ph.D., Harvard University; on leave Spring 2021
• Tara E. Watson, Professor of Economics; 1996, B.A., Wesleyan University, 2003, Ph.D., Harvard University; affiliated with: Public Health Program
• Phillip J. Webster, Visiting Assistant Professor of Religion; 2016, Ph.D., University of Pennsylvania
• Elizabeth Iams Wellman, Visiting Assistant Professor of Political Science; 2002, A.B., Duke University, 2010, M.A., University of Chicago, 2019, Ph.D., Yale University
• Carmen T. Whalen, Carl W. Vogt '58 Professor of History, Faculty Fellow of the Davis Center and the Office of Institutional Diversity, Equity and Inclusion; 1985, B.A., Hampshire College, 1989, M.A., Rutgers University, 1994, Ph.D., Rutgers University; affiliated with: The Davis Center, Latina/o Studies Program, VP-InstDivrstyEquity&Inclusion
• Alan White, Mark Hopkins Professor of Philosophy; 1972, B.A., Tulane University, 1976, M.A., Pennsylvania State University, 1980, Ph.D., Pennsylvania State University
• Robert Wiesenberger, Lecturer in the Graduate Program in Art History; 2018, Ph.D., Columbia University
• Amanda R. Wilcox, Professor of Classics; 1996, B.A., Reed College, 1999, M.A., University of Pennsylvania, 2002, Ph.D., University of Pennsylvania
• Aaron M. Williams, Assistant Professor of Computer Science; 2009, Ph.D., University of Victoria
• Heather Williams, William Dwight Whitney Professor of Biology; 1977, A.B., Bowdoin College, 1985, Ph.D., Rockefeller University; affiliated with: Neuroscience Program
• Mason B. Williams, Assistant Professor of Leadership Studies and Political Science; 2006, B.A., Princeton University, 2009, M.A., Columbia University, 2012, Ph.D., Columbia University; affiliated with: Political Science Department; on leave 2020-2021
• Stephanie J Williams, Arthur Levitt, Jr. '52 Artist-in-Residence; 2003, B.F.A., James Madison University, 2007, M.F.A., Rhode Island School of Design
• Ricardo A Wilson, Assistant Professor of English; 2000, B.A., Brown University, 2015, Ph.D., University of Southern California
• John D. Wiltshire-Gordon, Visiting Assistant Professor of Mathematics; 2011, B.A., University of Chicago, 2016, Ph.D., University of Michigan
• Bud Wobus, Edna McConnell Clark Professor of Geology; 1962, B.A., Washington University, 1963, M.A., Harvard University, 1966, Ph.D., Stanford University
• Scott Wong, Charles R. Keller Professor of History; 1976, B.A., Rutgers University, 1979, M.A., University of Michigan, 1992, Ph.D., University of Michigan; on leave Spring 2021
• Caitlin Woolsey, Postdoctoral Fellow in the Graduate Program in Art History
• Saadia Yacoob, Assistant Professor of Religion; 2003, B.A., American University, 2007, M.A., McGill University, 2015, Ph.D., Duke University; on leave Fall 2020
• Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; 1980, B.A., Aoyama Gakuin University, 1985, M.A., Columbia University, 1994, M.A., Cornell University, 2000, Ph.D., Cornell University; on leave 2020-2021
• Li Yu, Professor of Chinese; 1994, B.A., East China Normal University, 1997, M.A., Ohio State University, 2003, Ph.D., Ohio State University
• Safa R. Zaki, Dean of the Faculty, Professor of Psychology; 1989, B.A., American University, 1993, M.A., Arizona State University, 1996, Ph.D., Arizona State University; affiliated with: Psychology Department
• Liya Zalaltdinova, Visiting Lecturer in Russian; 2019, Ph.D., State University of New York at Albany
• Sofia E. Zepeda, Assistant Professor at Williams-Mystic; 2008, B.A., University of California, Santa Cruz, 2012, M.A., University of Arizona, 2019, Ph.D., University of Arizona
• David J. Zimmerman, Professor of Economics and Orrin Sage Professor of Political Economy; 1985, B.A., University of Toronto, 1987, M.A., Princeton University, 1992, Ph.D., Princeton University; on leave Spring 2021
• Charles U. Zug, Visiting Assistant Professor of Leadership Studies; 2015, B.A., St. John’s College, 2017, M.A., University of Texas at Austin, 2020, Ph.D., University of Texas at Austin

Emeriti Faculty

Henry Art, Rosenburg Professor of Environmental Studies and Biology

Andrea Barrett, Senior Lecturer in English

Donald Beaver, Professor of History of Science

Ilona Bell, Samuel Fessenden Clarke Professor of English

Robert Bell, Frederick Latimer Wells Professor of English

Roger Bolton, William Brough Professor of Economics

Michael Brown, James N. Lambert ’39 Professor of Anthropology and Latin American Studies

Kim B. Bruce, Frederick Latimer Wells Professor of Computer Science

Jean-Bernard Bucky, William Dwight Whitney Professor of Arts and Theatre

Lynda Bundtzen, Herbert H. Lehman Professor of English

James Carlton, Professor of Marine Sciences

Phebe Cramer, Professor of Psychology

Stuart Crampton, Barclay Jermain Professor of Natural Philosophy
Andrew Crider, Mary A. & William Wirt Warren Professor Psychology
Robert Dalzell, Fred Rudolph Professor of American Culture
William Darrow, Cluett Professor of Religion
David Dethier, Edward Brust Professor of Geology and Mineralogy
Charles Dew, Ephraim Williams Professor of American History
Samuel Edgerton, Amos Lawrence Professor of Art
David Eppel, Professor of Theatre
Ed Epping, Alexander Falck Class of 1899 Professor of Art
Richard Farley, Assistant Professor of Physical Education
Zirka Filipczak, J. Kirk T. Varnedoe '67 Professor of Art
Robert Fisher, Assistant Professor of Physical Education
Peter K. Frost, Frederick L. Schuman Professor of International Relations
George Goethals, Dennis A. Meenan '54 Professor of Leadership Studies
Darra Goldstein, Willcox B. and Harriet M. Adsit Professor of Russian
Suzanne Graver, John Hawley Roberts Professor of English
Eva Grudin, Senior Lecturer in Art
Mark Haxthausen, Robert Sterling Clark Professor of Art History
Meredith Hoppin, Frank M Gagliardi Professor of Classics
John Hyde, Brown Professor of History
Robert Jackall, Willmott Family Third Century Professor Sociology & Public Affairs
Andrew Jaffe, Lyell B. Clay Artist in Residence in Jazz and Senior Lecturer in Music
Ju-Yu Scarlett Jang, Professor of Art
Eugene Johnson, Amos Lawrence Professor of Art
Markes Johnson, Charles L. MacMillan Professor of Natural Science
Lawrence Kaplan, Halford R. Clark Professor of Natural Sciences
Saul Kassin, Massachusetts Professor of Psychology
Robert Kavannaugh, Hales Professor of Psychology
David Kechley, Professor of Music
Bruce Kieffer, Professor of German
Sherron Knopp, John Hawley Roberts Professor of English
James Kolesar, Vice President for Public Affairs
Karen Kwitter, Ebenezer Fitch Professor of Astronomy
Benjamin W. Labaree, Professor of History and Environmental Studies
Aida Laleian, Professor of Art
Steven Levin, Professor of Art
Charles Lovett, Philip and Dorothy Schein Professor of Chemistry
George Marcus, Professor of Political Science
Christine Mason, Assistant Professor of Physical Education
Douglas Moore, Mary A. and William Wirt Warren Professor of Music
Frank Morgan, Webster Atwell - Class of 1921 Professor of Mathematics
Thomas Murtagh, John B. McCoy and John T. McCoy Professor of Computer Science
Francis Oakley, Edward Dorr Griffin Professor of the History of Ideas; President; and Senior Oakley Fellow
Carol Ockman, Robert Sterling Clark Professor of Art History
David Pilachowski, Director of Libraries
Lawrence Raab, Harry C. Payne Professor of Poetry
David Richardson, William R. Kenan, Jr. Professor of Chemistry
Kenneth Roberts, A. Barton Hepburn Professor of Music
T. Michael Russo, Assistant Professor of Physical Education
Carl R. Samuelson, Assistant Director of Physical Education
Shanti Singham, Professor of History and Africana Studies
Anne Skinner, Senior Lecturer in Chemistry
David Smith, Senior Lecturer in Biology
Paul Solomon, Professor of Psychology
Steven Souza, Senior Lecturer in Astronomy
Richard Stamelman, Professor of Comparative Literature
Jefferson Strait, John B. McCoy and John T. McCoy Professor of Physics
Karen Swann, Morris Professor of Rhetoric
Barbara Takenaga, Mary A. and William Wirt Warren Professor of Art
Kurt Tauber, Class of 1924 Professor of Political Science
Mark C. Taylor, Cluett Professor of Humanities
William Wagner, Brown Professor of History
Peter Wells, Assistant Professor of Physical Education
Alex Willingham, Professor of Political Science
James Wood, Charles R. Keller Professor of History
William Wootters, Barclay Jermain Professor of Natural Philosophy
Reiko Yamada, Professor of Japanese
Betty Zimmerberg, Howard B. Schow '50 and Nan W. Schow Professor of Neuroscience
Steven Zottoli, Howard B. Schow '50 Professor of Biology

Graduation

Of the 544 who entered in the fall of 2013, 88% graduated from Williams within 4 years and 95% within 6 years.

Of the 546 who entered in the fall of 2014, 89% graduated from Williams within 4 years and 96% within 6 years.
AFRICANA STUDIES (Div II)
Chair: Associate Professor Neil Roberts

- Rashida K. Braggs, Associate Professor of Africana Studies and Faculty Affiliate in Comparative Literature, Faculty Fellow of the Davis Center and the Office of Institutional Diversity, Equity and Inclusion; affiliated with: The Davis Center, VP-InstDivrsityEquity&Inclusion
- VaNatta S. Ford, Assistant Professor of Africana Studies
- Regine M Jean-Charles, W. Ford Schumann Visiting Professor in Democratic Studies; affiliated with: Africana Studies
- Kelsey Jones, Distinguished Visiting Professor of Education
- James A. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Anthropology and Sociology and Religion; affiliated with: Religion Department, Anthropology and Sociology; on leave 2020-2021
- Rhon S. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Religion; on leave 2020-2021
- Neil Roberts, Chair and Professor of Africana Studies and Faculty Affiliate in Political Science and Religion; affiliated with: Religion Department, Political Science Department

GENERAL PROGRAM DESCRIPTION

The Africana Studies Program is an interdisciplinary concentration offering students an in-depth understanding of the history, politics, religion, and culture of peoples of African descent, especially in the Americas. We use music, dance, literature, the arts, and scholarly works to explore the origins of this field of study in the fulcrum of African American and Caribbean movements of resistance. A trans-national program, intellectually influenced by scholars from W. E. B. Du Bois to the present, Africana Studies encourages students to study abroad, and offers travel Winter Study courses designed to expose students to experiential learning settings outside of the classroom.

CONCENTRATION IN AFRICANA STUDIES

Candidates for a concentration in Africana Studies must complete at least five courses listed as Africana courses [note: many Africana courses are cross-listed with departmental offerings; all these are considered Africana Studies courses and can be used to count both for the concentration and for the departmental major of which they are a part]. Two of these five courses are required courses that every concentrator takes. They are the introductory course, AFR 200, normally taken in the sophomore and junior years, but open to all students; and an Africana capstone Senior seminar, normally taken in the senior year, but also open to others at the Professor's discretion. Additional courses may be taken either with our core Africana faculty or with faculty and visiting professors affiliated with the program. However, at least one of these three additional courses must be listed as “Core Electives” which are each designated in the descriptions below as a “Primary Crosslisting.” We also encourage students to take at least one course in a program/department other than Africana Studies and consider an experiential learning winter study session. Concentrators are expected to meet with the Chair and/or an Africana core faculty member to plan their concentration.

AFRICANA STUDIES AND OTHER PROGRAMS

Students concentrating in Africana Studies are encouraged to pursue concentrations in American Studies, Environmental Studies, Latina/o Studies, Performance Studies, and Women’s, Gender and Sexuality Studies. Many of the courses counted for these concentrations may also earn credit toward the Africana Studies concentration.

REQUIREMENTS

Africana Studies courses required for the concentration:

AFR 200 Introduction to Africana Studies

and one of the following two AFR 400-level Senior Seminar capstone courses (not all 400-level courses meet the requirement for the concentration):

AFR 440(S) CAPSTONE: Performing Blackness

AFR 450 CAPSTONE: Sylvia Wynter, Black Lives, and Struggle for the Human

One core elective:

AFR 132 / AMST 132 / PSCI 132 Contemporary Africana Social and Political Philosophy
Taught by: Neil Roberts
Catalog details

AFR 140 / COMP 141 Black Autobiography
Taught by: TBA
AFR 200 (F, S) Introduction to Africana Studies
   Taught by: Neil Roberts, VaNatta Ford

AFR 205 T / WGSS 207 (F) She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings
   Taught by: VaNatta Ford

AFR 208 T / AMST 208 / REL 262 Time and Blackness
   Taught by: James Manigault-Bryant

AFR 211 / AMST 211 / ENVI 211 / SOC 211 Race and the Environment
   Taught by: James Manigault-Bryant

AFR 213 T / STS 213 / WGSS 213 Race, Gender, and the Alien Body: Octavia Butler's Science Fiction
   Taught by: Rhon Manigault-Bryant

AFR 216 / DANC 217 Moving While Black
   Taught by: Rashida Braggs

AFR 248 / HIST 248 The Caribbean: From Slavery to Independence
   Taught by: Shanti Singham

AFR 299 / PSCI 233 / REL 261 Rastafari: Dread, Politics, Agency
   Taught by: Neil Roberts

AFR 302 (S) Complexion Complexities: Colorism in Literature, Lyrics & Everyday Life
   Taught by: VaNatta Ford

AFR 310 / AMST 309 / REL 310 / WGSS 310 Womanist/Black Feminist Thought
   Taught by: Rhon Manigault-Bryant

AFR 315 / AMST 315 / STS 315 Blackness 2.0: Race, Film and New Technologies
   Taught by: Rhon Manigault-Bryant

AFR 317 / AMST 317 / DANC 317 / ENGL 317 / THEA 317 / COMP 319 Black Migrations: African American Performance at Home and Abroad
   Taught by: Rashida Braggs

AFR 318 / PSYC 334 (F) Defining and Disrupting the School-to-Prison Pipeline
   Taught by: Kelsey Jones

AFR 321 (F) Trending Black: Race & Social Media in the 21st Century
   Taught by: VaNatta Ford

AFR 323 / ARTH 223 / COMP 322 / AMST 323 / ENGL 356 (S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora
   Taught by: Rashida Braggs

AFR 324 / PSYC 337 (S) Critical Perspectives in Special Education
   Taught by: Kelsey Jones

AFR 325 / WGSS 325 Television, Social Media, and Black Women 'Unscripted'
   Taught by: VaNatta Ford

AFR 348 T / LEAD 348 / PSCI 348 The Black Radical Tradition
   Taught by: Neil Roberts

AFR 356 The Plantation and Its Afterlife
   Taught by: James Manigault-Bryant

AFR 360 / LEAD 360 / PHIL 360 / PSCI 370 The Political Thought of Frantz Fanon
   Taught by: Neil Roberts

AFR 405 CAPSTONE: Africana Studies and the Disciplines
   Taught by: James Manigault-Bryant

AFR 440 (F) CAPSTONE: Performing Blackness
   Taught by: Rashida Braggs
AFR 450 / PSCI 372(S) CAPSTONE: Sylvia Wynter, Black Lives, and Struggle for the Human
Taught by: Neil Roberts

AFR 476 / HIST 476 CAPSTONE: Black Radicalism
Taught by: Shanti Singham

AFR 497(F) INDEPENDENT STUDY: Africana Studies
Taught by: Neil Roberts

AFR 498(S) INDEPENDENT STUDY: Africana Studies
Taught by: Neil Roberts

INTR 320 / LEAD 319 / PSCI 376(F) Angela Davis: Political Theory, Activism, and Alliances
Taught by: Joy James

RLFR 229 Black Outside the U.S.

Taught by: TBA

Two additional electives (a total of three required for the concentration):
Most electives are included below. However, students should check with the program chair to see if other courses not listed here might count as electives toward the concentration.

HONORS PROGRAM IN AFRI CANA STUDIES
A student wishing to earn honors must complete an “Honors Dossier” during the Winter Study term and Spring semester of their Senior Year. This Dossier is comprised of three linked essays. Students may begin the project with two essays written for Africana Studies courses and, under their advisor’s guidance complete additional research, incorporate instructor feedback, and substantially re-write and expand these two papers. The third essay must be a new work, written specifically for the Honors project. Students must also write a substantive introduction that explains the theme (theoretical, geographic, chronological etc.) that connects the three essays. The introduction should address the significance of the theme to the interdisciplinary study of the peoples and cultures of the African diaspora. It should also explain the logic of the three papers and how they work together. Dossiers will be due in mid-April (after Spring Break). Under some circumstances, a student may want to include a record of a performance or piece of visual art in the Dossier. In this case, a written analysis and explanation should accompany that piece. The total Honors Dossier should consist of no less than 45 pages of written work.

Students should submit a proposal for an Honors Dossier in the fall semester of their Senior year, no later than mid-October. They may draw on papers written in Africana courses during any semester including the fall semester of their Senior Year. Students may petition to include a paper written for a course outside of the Africana curriculum. Africana faculty will meet late in the fall semester to approve or decline Honors Dossier proposals. Students whose proposals are approved will be assigned an advisor and should register for W31-AFR 494 in the winter study/spring of the Senior Year.

At the Honors presentation night in the spring, each Honors student will prepare and give an oral defense of their dossier. During the defense, students will present the key points their overarching project and field questions from select faculty and student critics, all of whom will have read the dossier.

AFR 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)

Cross-listings: AFR 104  HIST 104

Secondary Cross-listing
This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view
the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

Requirements/Evaluation: active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 15

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

Writing Skills Notes: Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

Spring 2021

SEM Section: H1 MW 11:45 am - 1:00 pm Benjamin Twagira

AFR 105 (F) Materials, Meanings, and Messages in the Arts of Africa (DPE)

Cross-listings: ARTH 104 AFR 105

Secondary Cross-listing

This course introduces students to the wealth, power, and diversity of expressive forms that have characterized the arts of Africa and its Diaspora from prehistory to the present. Pulling extensively from the collections at the Williams College Museum of Art and other campus resources, students will not only experience firsthand the wide array of objects that have been produced within this vast geography, but will also come to recognize how multiple senses including sight, sound, smell, and touch play a key role in understanding how these objects work within their respective contexts. As tools of political control, social protest, divine manifestation, and spiritual intervention, these objects and their associated performances also challenge what we might typically consider art in the Western tradition and as such students will be pushed to think beyond such terms in their examinations of these rich creative traditions.

Requirements/Evaluation: weekly WCMA object lab reports, weekly reading discussion GLOW posts, bi-monthly quizzes (7 total), two reading response papers (3 pages each)

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: Art History and African Studies majors

Expected Class Size: 40

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 104 (D1) AFR 105 (D2)

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of the differences between concepts of art in
African and Western traditions, and how this difference has formed the foundation for hierarchies of power within the art world that have long disenfranchised and disempowered artists from the continent. This course highlights this historical platform in order to renovate established biases and assumptions about these objects that position them as 'primitive' or 'exotic' constructs.

Not offered current academic year

**AFR 113 (S) Musics of Africa**

**Cross-listings:** AFR 113 MUS 120

**Secondary Cross-listing**

This course introduces a selection of musical cultures from the geographical breadth of Africa. Following an introductory exploration of the fundamental aesthetic and social parameters governing African musical practice, we will engage in a series of case studies considering a diverse array of musical practices and related social and political issues in specific locales. Featured countries include Ghana, Zimbabwe, Ethiopia, Algeria and the Democratic Republic of Congo. This course samples a wide range of musical practices from the Ghanaian dance craze, azonto, to Ethiopian liturgical chants, to Shona mbira music in Zimbabwe. Performance analysis and critical reading and listing assignments are combined with a number of hands-on workshops and musical exercises.

**Class Format:** discussion

**Requirements/Evaluation:** grade based on a listening journal, bi-weekly short assignments, a final paper, and class participation

**Prerequisites:** no prerequisites: prior musical background is not essential for this class

**Enrollment Limit:** 20

**Enrollment Preferences:** current or prospective Music majors and Africana Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 113 (D2) MUS 120 (D1)

Not offered current academic year

**AFR 115 (F) The Literature of Sports** (DPE) (WS)

**Cross-listings:** AFR 115 ENGL 115

**Secondary Cross-listing**

The ubiquity of the sporting event, the athlete as hero, the athlete as failure, the crowd, the fan, the stadium, and all of the complex conflicts therein have long been the subjects of some of the finest writing in America and throughout the world. Writers have used sport as a context through which to explore and examine ideas such as beauty, the sublime, tragedy, politics, race, class, sexuality, and gender. This course will focus on poetry, fiction, and non-fiction invested in the public spectacles and private revelations of sport ranging from the poetics of praise to issues of urbanism, colonialism, globalization with readings by Pindar, Rankine, CLR James, Baldwin, Hemingway, Oates, DeLillo, and many others. This course will be taught online in a synchronous format.

**Requirements/Evaluation:** Students will be expected to complete a number of short (5 pages or less) papers during the semester and one longer paper (8-10 pages) at the end of the semester.

**Prerequisites:** None.

**Enrollment Limit:** 14

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course.

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 115 (D2) ENGL 115 (D1)

**Writing Skills Notes:** Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
Difference, Power, and Equity Notes: This course will focus on literature about sports that addresses, among other topics, civil rights activism, gentrification, race dynamics and race relations both inside and outside of the USA, American exceptionalism, sociocultural construction of emotional displays, mental health, religious conflict, and anti-blackness.

Fall 2020
SEM Section: R1  MW 10:00 am - 11:15 am  Rowan Ricardo Phillips

AFR 129  (F) Twentieth-Century Black Poets
Cross-listings: ENGL 129  AFR 129

Secondary Cross-listing
From Langston Hughes to contemporary poets such as Angela Jackson and Claudia Rankine, African American poets have been preoccupied with the relations of poetry to other traditions. Vernacular speech, English poetry, jazz and other musical forms, folk humor, and African mythology have all been seen as essential sources for black poetry. This course will survey major poets such as Hughes, James Weldon Johnson, Countee Cullen, Robert Hayden, Gwendolyn Brooks, Amiri Baraka, Jackson, and Yusef Komunyakaa, reading their poems and their essays and interviews about poetic craft. We will ask how black poetry has been defined and whether there is a single black poetic tradition or several.

Requirements/Evaluation: several short papers, a 15-page final paper
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course
Expected Class Size: 14
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)

AFR 132  (F) Contemporary Africana Social and Political Philosophy
Cross-listings: AMST 132  AFR 132  PSCI 132

Primary Cross-listing
This introductory seminar investigates the relationship between three major schools of thought in contemporary Africana social and political philosophy, namely the African, Afro-American, and Afro-Caribbean intellectual traditions. We will discuss a range of thinkers including Aimé Césaire, Angela Y. Davis, Edouard Glissant, Lewis R. Gordon, Kwame Gyekye, Paget Henry, bell hooks, Charles W. Mills, Nkiru Nzegwu, Lucius Outlaw, Oyèrónke Oyewùmi, Tommie Shelby, and Sylvia Wynter. A primary goal of the course is to provide students with the intellectual resources to decipher problems central to philosophical discourse and to allow students an opportunity to apply what they learn to critical issues in current geopolitics.

Requirements/Evaluation: attendance and participation, two 5- to 7-page essays, and one 10-page final paper
Prerequisites: none; open to all
Enrollment Limit: 15
Enrollment Preferences: first- and second-year students
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year
AFR 136  (S)  Slavery and the Making of a Literary Tradition
Cross-listings:  AFR 136  ENGL 136

Secondary Cross-listing
How has the subject and iconography of slavery continued to preoccupy the American literary and cultural imagination? In this course, we will examine the transatlantic circulation of ideas regarding race, nation, citizenship, self-mastery, agency, and freedom in colonial and antebellum America and consider how these debates have continued to the present. We will read such authors as Phyllis Wheatley, Harriet Jacobs, Harriet Wilson, William Faulkner, Mark Twain, and Toni Morrison. Forms will include poetry, slave narratives, novels, advertisements, broadsides, pamphlets, and other ephemera. We will also view cinematic representations of slavery, such as WGN's *Underground*, the adaptation of Solomon Northrop's *12 Years a Slave*, and Issa Rae's parody "Due North" in *Insecure.*

Requirements/Evaluation:  active class participation, four short papers totaling about 20 pages
Prerequisites:  first-year students who have not taken or placed out of a 100-level ENGL course
Enrollment Limit:  19
Enrollment Preferences:  none
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 136 (D2) ENGL 136 (D1)
Not offered current academic year

AFR 140  (S)  Black Autobiography
Cross-listings:  AFR 140  COMP 141

Primary Cross-listing
Autobiography--whether slave narrative, memoir, or semi-fictional life account--has served as a primary form of writing for people of African descent. Although primarily understood as a textual means for articulating selfhood, Black autobiographies also ask other questions like: How do Black reflections on the self necessitate critiques of society and culture? How have Black autobiographies been utilized for political mobilization? And, what might a collective analysis of Black autobiographies reveal about changes in conceptions of Black selfhood over time? We will explore these concerns by reading autobiographies across time and space by authors like Ottobah Cugoano, W. E. B. Du Bois, and Alice Walker.

Requirements/Evaluation:  class participation, two to three short papers (5- to 7-pages), and a 15- to 20-page paper or multimedia final project
Prerequisites:  none
Enrollment Limit:  20
Enrollment Preferences:  first- and second-year students
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 140 (D2) COMP 141 (D1)
Not offered current academic year

AFR 158  (F)  North of Jim Crow, South of Freedom  (DPE) (WS)
Cross-listings:  AFR 158  HIST 158

Secondary Cross-listing
This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential
segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs—all with an eye toward scrutinizing the freedom struggle in its northern variety.

Class Format: This course is designed as a seminar and will be taught remotely. Virtual course meetings will revolve around synchronous discussion and remote learners will be expected to attend class regularly and participate actively in each session held via Zoom (or a similar platform).

Requirements/Evaluation: Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will be required to submit a topic proposal.

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 158 (D2) HIST 158 (D2)

Writing Skills Notes: Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course analyzes the long black freedom struggle in the North during the twentieth century. It examines black northerners’ efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in spite of legal and legislative remedies.

AFR 167 (S) Let Freedom Ring? African Americans and Emancipation (WS)

Cross-listings: AFR 167  HIST 167  AMST 167

Secondary Cross-listing

This course will examine African Americans’ transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.

Requirements/Evaluation: research paper, short writing assignments, class participation

Prerequisites: first-years and sophomores

Enrollment Limit: 19

Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 167 (D2) HIST 167 (D2) AMST 167 (D2)
Writing Skills Notes: Students will work throughout the semester on research paper that concerns Emancipation in the US. Students will turn in segments of this paper in separate assignments. During the final weeks of the course students will stitch these components together. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021
SEM Section: R1 TR 9:45 am - 11:00 am Gretchen Long

AFR 200 (F)(S) Introduction to Africana Studies
This course introduces students to the content and contours of Africana Studies as a vibrant field of knowledge. Through exploration of the genealogy, disciplinary diversity, and evolution of the field, we will examine the depth and range of experiences of African-descended peoples throughout the Americas, the Caribbean, Europe, and Africa. We will also give some attention to how members of the Diaspora remember and encounter Africa, as well as their diverse responses to the history of enslavement, colonialism, apartheid, racism, and globalization. Through materials that embrace both historical and contemporary perspectives, we seek to help students develop critical frameworks for understanding African diasporic experience while simultaneously illumining disjunctures and challenges for the field. This course features two pedagogical strategies: 1) a rotational, interdisciplinary approach that includes the expertise, methods, and specializations of Africana faculty; and 2) the incorporation of aesthetic materials--film, photography, music, dance, performance, and artwork--to enhance student ability to draw ongoing connections between visual and textual sources covered in the course. Close textual analysis, vibrant debate, and engaging discourse are expected.

Class Format: Remote format; This class will be taught synchronously primarily.
Requirements/Evaluation: class participation, weekly e-reading response papers, two short essays, and a final research project
Prerequisites: none
Enrollment Limit: 18
Enrollment Preferences: Africana Studies concentrators
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)

AFR 201 (S) African Dance and Percussion
Cross-listings: AFR 201 MUS 220 DANC 201

Secondary Cross-listing
We will examine two forms that embody continuity of tradition or the impact of cultural shifts in generations. Lamban was created by the Djeli, popularly called Griots who historically served many roles in traditional society from the Kingdom of Ghana and Old Mali spanning the 12th-current centuries. This dance and music form continues as folklore in modern day Guinea, Senegal, Mali and The Gambia where it was created and practiced by the Mandinka people. Bira is an ancient and contemporary spiritual practice of Zimbabwe’s Shona people. Both of these forms are enduring cultural practices while Kpanlogo from the modern West African state of Ghana represents the post-colonial identity of this nation’s youth at the end of the 1950s. This course can be taken for academic and/or PE credit.

Class Format: class hours will be divided among research and discussion of the dance, percussion, and music of two forms, as well as physical learning and group projects; also includes field trips to view an area performance and the archives at Jacob Pillow
Requirements/Evaluation: discussion of assignments, group response performances, and short research paper. Students enrolled for PE credit are responsible only for the performance-based projects
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: students who have taken DANC 100 or DANC 201; have experience in a campus-based performance ensemble; or have
AFR 203  The Making of Modern Africa  (DPE)
This course traces the incorporation of Africa into an expanding global world from the middle of the 19th century to the present and examines the impact of this integration on the history of African cultures and modern nation states. It is designed to provide you with an introductory understanding of the economic, social, and political forces that have shaped Africa in recent times and continue to affect the lives of individual people across the continent. Over the course of the semester you will be introduced to major historical themes in African History from the past 150 years, including the abolition of the slave trade and its effects, African states in the 19th century, the growing integration of different regions into shifting global and economic systems, European colonization, and African resistance to imperial conquest. We will also explore the emergence of the nationalist and anti-colonial movements, and Africa’s post-colonial experiences of self-governance. Within these broad historical processes, the class will cover additional key themes such as religious change and the role of Western missionaries; changing gender roles; environmental exploitation and change; the emergence of the developmental state; urbanization; military dictatorships, and war and violence in the late 20th century. We will also cover some of the issues surrounding the study of African History as a discipline. This is a challenging task as no single course can cover more than a silver of the complexity and variety of the continent. This is why we approach the study of Modern African History through a comparative prism.

Requirements/Evaluation:  active participation in discussion, map quiz, response papers, midterm and final exams, and a case study paper (7-10 pages)
Prerequisites:  none
Enrollment Limit:  15
Enrollment Preferences:  if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies
Expected Class Size:  15
Grading:  
Distributions:  (D2)  (DPE)

Difference, Power, and Equity Notes:  This course will introduce students to how modern Africans have contended with powerful forces that have deeply affected the continent. It will examine how different societies on the continent -- in different environments and circumstances -- devised solutions to the challenges of the day. All of the readings, discussions, and assignments will ask students to center and insert African voices into histories fraught with misrepresentations.

Not offered current academic year

AFR 205  (F)  She Speaks in Color: Examining the 'Color Complex' in Toni Morrison's Writings
Cross-listings:  AFR 205  WGSS 207
Primary Cross-listing

The practice of colorism, or skin color discrimination, is very familiar to people of color globally. Often described as intra-racial racism, colorism within the Black American context is part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far-reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much that we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison's writings. Employing the methods of literary and rhetorical criticism, this tutorial will investigate five Morrison novels, The Bluest Eye (1970), Sula (1973), Song of Solomon (1977), Love (2003) and God Help the Child (2015), and some of her non-fiction writings. In our discussions of each text, we will examine the problem of the "color complex" at the intersections of race, gender, sexuality, class and sexual violence, and how the characters manage these overlapping issues. We will bring the novels into conversation with social science articles on the practices of colorism in daily life. Because the tutorial blends different kinds of investigations into colorism, it will equip
first year students with tools to critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color
discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic
observation.

Class Format: Remote

Requirements/Evaluation: six 2-page papers, two 5- to 7-page papers, 10 minute vlog, annotated bibliography

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: this course is specifically for first-year students and they will receive preference in this class

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Fall 2020

TUT Section: RT1 TBA VaNatta S. Ford

AFR 206 (F) African Dance and Percussion

Cross-listings: AFR 206 MUS 221 DANC 202

Secondary Cross-listing

Before the 20th century, the African continent was the source of dance and music that influenced new forms rooted on and off the continent. These
forms are shaped by the impact of religion, colonialism, national political movements, travel, immigration, and the continuing emergence of technology.

In South Africa, the labor conditions of miners instigated the creation of Isicathulo, Gum boots, and in Brazil the history of colonialism is a factor that
anchors Samba as a sustaining cultural and socioeconomic force. The birth of Hip Hop in the 20th century finds populations across the globe using its
music, dance, lyrics, and swagger as a vehicle for individual and group voice. Hip Hop thrives as a cultural presence in most countries of the African
continent and in the Americas. We will examine the factors that moved this form from the Bronx, New York, to Johannesburg, South Africa, and Rio,
Brazil. We will examine at least two of these forms learning dance and music technique and composition material that will inform their practice. Each of
these genres generated new physical practices, new and enduring communities while continuing to embody specific histories that have moved beyond
their place of origin. What is their status in this century?

Class Format: class hours will be divided among discussion of media and readings; rehearsal of dance and music techniques; field trips to view
performances; research at the Jacob Pillow's archives; and interaction with visiting artists

Requirements/Evaluation: a series of discussion, research, and individual and group projects; all of which will inform collaboration on mid-term and
final projects

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: students who have taken DANC 100 or DANC 201; have experience in a campus based performance ensemble; or have
permission of the instructors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 206 (D2) MUS 221 (D1) DANC 202 (D1)

Not offered current academic year

AFR 207 (F) "Out of Africa": Cinematic Por(Be)trayals of a Continent (DPE) (WS)

Cross-listings: ARTH 207 AFR 207
This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa’s ‘fighting men’ to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing “Africa” as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of “Africa” as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of “Africa” within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how “Africa” in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.

Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Art History majors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 207 (D1) AFR 207 (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of ‘authentic’ representation as they have been applied to representations of “Africa” displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African ‘identity’ has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

Fall 2020

TUT Section: RT1 TBA Michelle M. Apotsos

AFR 208 (F) Time and Blackness

Cross-listings: AFR 208 REL 262 AMST 208

Primary Cross-listing

The concept of time is one of the most examined, yet least theorized, concepts in Africana Studies. While the field is saturated with historical studies and literary analyses that take up issues of cultural memory, both of which involve thinking about time, time itself is rarely the subject of sustained inquiry. This may be due to its abstractness as an idea and the level of analysis its conceptualization demands, or because time in the African American experience cannot be understood outside of the meaning of race, which itself is far from tangible. In this tutorial, “Time and Blackness,” we will explore how African American writers across a number of genres understand time. We will read select texts of fiction as well as spiritual autobiographies, historical narratives, and sociological studies to understand how writers draw from—and create—paradigms of time to organize their work. The following questions will structure our investigation: What are the constituent elements of time in African American writing? How does race shape the ways a writer conceives of the experience of time? In examining writings across genres, is there something that we can call an identifiable African-American “timescape”?
**Requirements/Evaluation:** assignments will include six 2-page response papers; two 5-page writing assignments; and a final, 10-page review essay on how time is understood in a genre of writing

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** concentrators in Africana Studies, majors in Religious Studies, and majors in American Studies

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

**AFR 209 (F)(S) Introduction to Racial Capitalism (DPE) (WS)**

**Cross-listings:** AMST 202 AFR 209

**Secondary Cross-listing**

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of “racial capitalism”—which rejects treatments of race (and racism) as external to the so-called real workings of capitalism—as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and “Coolie” labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

**Class Format:** This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

**Requirements/Evaluation:** Evaluation will be based on the following requirements: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Essay 1--First submission (5 pgs): 10%; Essay--Revision (5 pgs): 10%; Essay 2 (5 pgs): 15%; Essay 3 (5 pgs): 15%. Class will meet twice per week. Tu. meetings will be asynchronous and Th. meetings will be synchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion in small groups and as a class.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

**Writing Skills Notes:** Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor
and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

**AFR 211 (F) Race and the Environment**

**Cross-listings:** AMST 211  ENVI 211  AFR 211  SOC 211

**Primary Cross-listing**

In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address "environmental racism," like Robert Bullard's *Dumping in Dixie* and David Pellow's *Garbage Wars*. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for plotting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions--like literature, film, and music--to understand how people of color respond to environmental injustice and imagine the natural world.

**Class Format:** discussion

**Requirements/Evaluation:** class participation, 2-3 short papers (5-7 pages), and a self-scheduled final

**Prerequisites:** none

**Enrollment Limit:** 20

**Expected Class Size:** 20

**AFR 212 (S) Jazz Theory and Improvisation I**

**Cross-listings:** MUS 104  AFR 212

**Secondary Cross-listing**

The theory and application of basic techniques in jazz improvisation and performance styles, including blues forms, swing, bebop, modally based composition, Afro-Cuban, etc. Appropriate for students with skill on their instrument and some basic theoretical knowledge. Knowledge of all key signatures, major/minor keys and modes, intervals, triads and basic seventh chords and their functions within keys. Students should be able to play and demonstrate these concepts on their instruments-competence on an instrument is essential (vocalists and drummers will be encouraged to study the piano). Pianists and guitarists should be able to sight read chords on a jazz lead sheet.

**Class Format:** alternates between lecture style exposition of theoretical topics and a master class where students will perform and be evaluated on assigned repertoire

**Requirements/Evaluation:** weekly assignments, (e.g., harmonic analysis and exercises in transposition and transcription), a midterm, a transcription project and the end of semester concert, as well as improvement as measured in weekly class performance

**Prerequisites:** MUS 103 and/or permission of instructor; musical literacy required as per above description; private study on student's individual
Enrollment Limit: 15

Enrollment Preferences: prospective Music majors, then Jazz Ensemble members, then Music majors

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Unit Notes: this course will share aural skills labs with MUS 104a; students considering taking this course should consult the lab times and plan their schedules accordingly

AFR 213 (S) Race, Gender, and the Alien Body: Octavia Butler's Science Fiction

Cross-listings: STS 213 WGSS 213 AFR 213 SCST 213

Primary Cross-listing

Science fiction is a genre well known for its ability to envision new realities, and Octavia E. Butler (1947-2006) is among the most highly regarded science fiction writers. Butler's uncanny ability to imagine the future anew and to merge those ruminations with her experiences as an African American woman provide powerful commentary on--and often disrupt--modern understandings of race, gender, and human embodiment. We will explore questions such as: What role does 'gender' play in Butler's fiction? How does Butler's treatment of the 'alien' cause us to reconsider what it means to be human? How does Butler incorporate 'race' and the concept of 'other' into her fiction, and how do these techniques help us situate contemporary discussions of a post-race society? We will examine the relationship between Butler's visions for the future and what her narratives of future worlds invariably suggest about the present. We will read key texts including the best-selling text Kindred (1979), the haunting dystopian novel Parable of the Sower (1994), the popular vampire text Fledgling (2005), and the collection Bloodchild and Other Stories (1996). We will also explore contemporary engagement with Butler's work including the relationship between the main character from her book Dawn (1987), and Henrietta Lacks, the African American woman from whom the immortal cell line (HeLa) used for medical research derives. This tutorial will engage Octavia Butler's work broadly, and with particular attention to how the concepts 'race,' 'gender,' 'alien' and 'body' are interrogated in her writings.

Requirements/Evaluation: attendance, paired weekly reflection/response papers, a 5- to 7-page creative writing assignment, and a final essay of 10 pages

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: students with interests and/or prior coursework in Africana Studies and Women's, Gender, and Sexuality Studies

AFR 215 (F) Ways of Knowing: Music, Movement, Memory

Cross-listings: DANC 215 THEA 202 WGSS 215 AFR 215

Secondary Cross-listing

This interdisciplinary seminar proceeds from the premise that the body knows. Ongoing colonial modernity is rooted in a racialized hierarchy: the "civilized" life of the mind vs. the "primitive" instincts of the flesh. According to this binary, the body is marked as irrational, sinful, outside of the archive. The body cannot know because the happenings of the body are ephemeral: unlike documents, they don't last. In this course, we will subject this logic to close scrutiny. As performance scholar Diana Taylor asks, "Whose memories, traditions, and claims to history disappear if performance practices lack the staying power to transmit vital knowledge?" In this course, we look to music, movement, and other repertoires as ways of knowing, remembering, and world-making. How does embodied knowledge travel across time and space? How have performance practices served as modes of
what Ashinaabe cultural theorist Gerald Vizenor calls "survivance" (survival + resistance) for indigenous, nomadic, queer, and colored communities. Case studies include: the Middle Passage and the syncretic birth of the Blues in the Americas; nomadism, the nation-state, and the migration of Romani music; and the evolution of queer ball culture. Students will engage with a variety of texts (verbal, sonic, visual, kinesthetic) and respond to them critically not only through writing and discussion, but also through their own performance practices.

**Requirements/Evaluation:** in-class participation, creative/critical responses to texts, final paper

**Prerequisites:** none

AFR 216 (S) Moving While Black

**Cross-listings:** DANC 217 AFR 216

**Primary Cross-listing**

Opening your apartment door, driving down the highway, taking a knee, raising a fist, sitting at the lunch counter then or sitting in a café now, these movements have historically and presently prompted fear at a minimum and in the most grave cases death for black people. Whether in the U.S. or globally, moving in the world as a black person often means being perceived as different, foreign and threatening. Crawling, dancing, running and boxing, these movements have countered fear and articulated the beauty, pride, creativity and political resistance of black people. In both cases, black movement matters and means much. While many consider movement to be just organized dance moves, this course expands students' definitions of black movement and teaches them to analyze multiple perceptions, uses, and reactions to it. "Moving while Black" offers examples of physical movement in improvised and practiced performance, quotidian movement, geographical movement across national borders and symbolic, politicized gestures. Students will investigate black movement via interdisciplinary sources that reflect various time periods and locations. Students may analyze such texts as Jacob Lawrence's visual art in The Migration Series, the movement of the rumba dance form between Cuba and the Democratic Republic of Congo, the Alvin Ailey American Dance Theater's "Revelations," William Pope.L's choreographed crawls, the 1995 World Rugby Cup in South Africa, and the 2018 case of a Kansas resident arrested while moving into his own home. Additionally, this course features an important practice element, in which students experiment with in-class movement exercises and workshops, engage with dance archives at Jacob's Pillow, interview participants of Kusika, and create and perform their own choreographies. While no previous experience in performance is required, curiosity and openness to learning through one's own body movement is expected.

**Class Format:** classes will rotate throughout the semester between seminar discussions in the classroom and performance exercises in the studio

**Requirements/Evaluation:** multiple reading/viewing responses in a movement journal, an essay closely analyzing movement; a presentation, and multiple movement-based performances including a final project with outside research and a proposal

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** Africana Studies concentrators

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2020
TUT Section: RT1 TBA Joy A. James

AFR 218 (S) Gender and Sexuality in the Neo-slave Narrative (DPE) (WS)

Cross-listings: AMST 218 ENGL 218 AFR 218 WGSS 218

Secondary Cross-listing
Hortense Spillers has noted that ex-slave Harriet Jacobs, “between the lines of her narrative, demarcates a sexuality that is neuterbound” and we live with the aftermath of her observation. “Ungendering,” one of the transformations undergone by bodies subjected to the Middle Passage, is one of the keywords that forms the foundation for a conversation about slavery, blackness, gender, sexuality, and archive. Throughout this course we will wrestle with the questions: How does the designation “slave” rupture, reify, or expand our understandings of sexuality and gender? What conditions have necessitated the neo-slave narrative form? Texts include: slave narratives and neo-slave narratives in the forms of novels, visual art, and film. Course texts include: Octavia E. Butler's Kindred, Jewelle Gomez's Gilda Stories, Glenn Ligon's “Runaways”, and Jordan Peele's Get Out. Critical theories of blackness, gender, and sexuality are also central texts in this course including that by Darieck Scott, Saidiya Hartman, Hortense Spillers, Matt Richardson, and others. Given that neo-slave narratives intervene in the sexual and gendered silences of slave narratives and the power relations that produced them, students who are hesitant to study sexual violence might consider taking another course.

Requirements/Evaluation: mandatory participation in discussion, four papers including one critical revision (total 20 pages), keyword glossary

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: sophomores

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 218 (D2) ENGL 218 (D1) AFR 218 (D1) WGSS 218 (D2)

Writing Skills Notes: Three thesis papers at 5 pages each (each receiving critical feedback from professor); one thesis paper revision with critical feedback from professor and peers including one letter of revision explaining the student's revision process; one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the work of black writers and artists engaged with the archival silences imposed by the power dynamics of racial hierarchy which constrained the birth of African American literature (the slave narrative). In particular, we examine the
meaningful/willful/and censorial omissions that shape the treatment of gender and sexuality in these texts including and especially the silences around sexual abuse and sexual assault practiced by beneficiaries of white supremacy.

AFR 223 (F) Politics of Performance/Performing Politics in Contemporary Africa (DPE) (WS)

Cross-listings: MUS 222 AFR 223

Secondary Cross-listing

Using select examples from throughout Africa, this course highlights genres, artists, and works that engage with social and ideological change. Students practice critical listening and performance analysis, while also considering the social contexts that render these performances meaningful and provocative. Topics include: challenges to mass mediated stereotypes of African populations, the social and economic impact of cultural tourism, music as a form of social critique, changing attitudes toward women and the LGBTQIA community, music and global aid organizations, issues of migration and displacement, and the changing roles of traditional musical occupations. Popular genres-among them Afrobeat, kwaito, soukous, rai, mbalax, Chimurenga music, and a variety of rap and hip-hop styles-are discussed alongside numerous traditional and ceremonial genres, national/political anthems, and concert pieces. Active participation in class discussion is an important component of this course.

Class Format: this class places a strong emphasis on discussion

Requirements/Evaluation: in-class preparation and participation, bi-weekly short writing assignments, a midterm paper and a final project

Prerequisites: some familiarity with music terminology encouraged

Enrollment Limit: 15

Enrollment Preferences: sophomores, juniors, or seniors who are current or prospective Music majors, as well as current and prospective Africana Studies and Latina/o Studies concentrators

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

MUS 222 (D1) AFR 223 (D2)

Writing Skills Notes: Students receive regular feedback on multiple short assignments throughout the semester. Particular focus is dedicated to crafting and substantiating written arguments.
Difference, Power, and Equity Notes: Throughout the course, students engage with case studies concerning specific socio-political contexts within Africa, with an emphasis placed on music's role as a social agent. Topics include representational politics, music as a tool for the powerful as well as the politically disempowered, and music's role in conflict resolution.

Not offered current academic year

AFR 224 (S) Cold War Intellectuals: Civil Rights, Writers and the CIA (DPE)

Cross-listings: AFR 224  PSCI 221  AMST 201  LEAD 220  INTR 220

Secondary Cross-listing

This tutorial focuses on US-based views of the Cold War. It examines how intelligence agencies and intellectuals, as well as government officials, viewed civil rights, human rights, and US hegemony. Readings include: Williams J. Maxwell (F. B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature); James Baldwin (The Fire Next Time); Ralph Ellison (The Collected Essays of Ralph Ellison); Report to the President by the Commission on CIA Activities Within the United States (1975, VP Nelson Rockefeller, chair); Hugh Wilford (The Mighty Wurlitzer: How the CIA Played America); Hannah Arendt (The Origins of Totalitarianism; On Violence; "Reflections on Little Rock"); Frances Stonor Saunders (Who Paid the Piper? The CIA and the Cultural Cold War). Students alternate weekly between 5-page primary and 2-page secondary papers on assigned readings.

Requirements/Evaluation: Attend all classes; submit completed papers 24 hours before seminar meets.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Juniors and Seniors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 224 (D2) PSCI 221 (D2) AMST 201 (D2) LEAD 220 (D2) INTR 220 (D2)

Difference, Power, and Equity Notes: This tutorial examines the Cold War between the US and the USSR and attempts to use intellectuals to shape and promote the objectives of powerful state entities. The power struggle between the two "superpowers" impacted cultural production and authors. Some of those authors influenced or enlisted into the Cold War sought equity and equality for their communities and eventually fought against the very political powers that employed them.

Spring 2021
TUT Section: RT1   TBA   Joy A. James

AFR 226 (S) Black France/France Noire (DPE)

Cross-listings: AFR 226  RLFR 226

Secondary Cross-listing

On the eve of the new millennium, the year 1998 saw the emergence in France of "Black studies à la française" (Ndiaye). Inspired, in part, by the 150th anniversary of the 1848 abolition of slavery, the French black minority "made itself more visible" (Faes and Smith). This course examines a wide range of discursive practices through which athletes, artists, authors, politicians, activists, and scholars amplified their voices in the French hexagone. It retraces the rise of these discourses and how they assert, reframe, and establish blackness as a legitimate field of knowledge and a space of affirmation and contestation. Following a study of the interwar period (1918-1939), when the work of "negritude women" (Sharpley-Whiting) such as "afro-latinité" spurred the negritude movement, we will discuss publications, documentaries, and seminal moments of protest in the early twenty-first century. Course material may include works by Suzanne Césaire, Jane and Paulette Nardal, Aimé Césaire, Frantz Fanon, Achille Mbembé, Françoise Vergès, Pascal Blanchard, Nicolas Bancel and Sandrine Lemaire, Pap Ndiaye, Gaston Kelman, Rokhaya Diallo, Alice Diop, Léonora Miano, and Fabienne and Véronique Kanor. Conducted in French.

Requirements/Evaluation: response papers, midterm paper, TV show, colloquium

Prerequisites: RLFR 201, 202, or 203, or by permission of instructor

Enrollment Limit: 20
Enrollment Preferences: French and Africana Studies concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 226 (D2) RLFR 226 (D1)

Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it focuses on "the shaping of social differences, dynamics of unequal power, and processes of change" through the lenses of historical colonial legacies, race, gender, citizenship among other questions.

Not offered current academic year

AFR 228 (F) Revolt and Revelation in 20th-Century Americas

Cross-listings: AFR 228 AMST 228 REL 223 LATS 228

Secondary Cross-listing

Writing in 1971, Dominican priest and Peruvian theologian Gustavo Gutierrez asked "Is the Church fulfilling a purely religious role when by its silence or friendly relationships it lends legitimacy to dictatorial and oppressive government?" Such a question encapsulates the sometimes agonistic and other times deeply intertwined relationships between religious institutions, religious thought, and movements for political transformation in the 20th century Americas. This course examines those forms of "God-talk" broadly termed "liberation theologies" that responded to and challenged social relationships of class, colonization, race, culture, gender, sexuality, (dis)ability, and ecology. These theologies were borne out of and in turn deeply shaped struggles against oppressive regimes and structures in the Americas, and as such we will focus on some specific theological writings--such as those of Gutierrez--and their relationship to distinct social movements and struggles over land, economy, and political power, especially in Brazil, El Salvador, Perú, and the United States of America between 1960-2000.

Requirements/Evaluation: participation, short writing exercises, a 5- to 6-page take-home midterm essay, and an 8- to 12-page final review essay

Prerequisites: none

AFR 229 Black Outside the U.S.

This course explores multiple ways Black identity evolves, adapts and is experienced differently depending on location. Students analyze Black experience in the U.S., France and Senegal through a range of texts from books and social media to music and film. One key aspect of the course is a study abroad trip to Senegal, which increases cultural awareness through experiential learning. This combination of textual learning with experiential knowledge exemplifies how language, religion, gender, geography, and performance shape one's racial identity. In the first section of the course, students investigate Black experience in the U.S., focusing on such topics as the one-drop rule, racial profiling and where mixed people fit within Black/White tensions. The second section highlights the politics of language in France. Students explore how words like "Black," "noir" and "race" have strong political connotations in France and spur both resistance to and alliance with Black American civil rights history. In the third part of the course, students visit Dakar, Senegal, and analyze Blackness through their own observations and encounters. Their trip insights jumpstart the final focus of the course on Senegal. Students investigate the influence of French colonialism on Black identity in Senegal, which makes the two geographical experiences of Blackness very different but still forever linked.

Class Format: seminar, the course includes a required spring break trip to Dakar, Senegal, which is no additional cost to students

Requirements/Evaluation: evaluation will be based on class participation, short weekly reading responses, two 4-5 page papers, a presentation based on the spring break trip, and a final presentation including a short 2-page report

Prerequisites: none
AFR 230  (F) Gender, Sexuality, and Global HIV/AIDS

Cross-listings:  AFR 230  WGSS 230

Secondary Cross-listing

The global pandemic of HIV/AIDS is now entering into its fourth decade. Throughout this history sexuality, gender and race and inequality have played a central role in the spread of the virus, and its apparent entrenchment in certain communities. This class will use a gendered, interdisciplinary perspective to investigate the pandemic's social, economic and political causes, impact, and conundrums—the problems it poses for scholarship, activism, public policy, and public health. Issues discussed will include the role of transaction sex and economic structures in both susceptibility to HIV and vulnerability to its impact; stigma and its challenges for HIV prevention, testing and treatment uptake; the role of positive youth in the next stages of the pandemic; and the evolving expressions of biopower in the global AIDS response. The class will look at examples of successful policies and activism as well as the failures, corruption and complacency that have characterized the global pandemic. There will be a particular geographical focus on experiences in the U.S. and sub-Saharan Africa.

Requirements/Evaluation:  two short papers and a research paper; class participation will form part of the grade
Prerequisites:  none

AFR 231  (F) The African Anthropocene  (DPE)

Cross-listings:  ENVI 231  AFR 231  STS 231

Secondary Cross-listing

Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, poetry, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

Class Format:  non-traditional technologies, web-streams, social media (Tumblr/Twitter)

Requirements/Evaluation:  assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay
Prerequisites:  none

Enrollment Limit:  8
Enrollment Preferences:  students who have taken other AFR courses, Francophone speakers and students
Expected Class Size:  8
Grading:  
Distributions:  (D2)  (DPE)     
This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: The African Anthropocene” considers inequity in environmental politics from the vantage of the African continent. Through selected readings and classroom discussions students will tackle questions of power, racial and gendered difference, empire, and economic stratification. The course contributes to the DPE requirement by helping students to develop skills to better analyze abiding challenges in global society.

AFR 237 (S) Islam in the United States: From Black Muslims to the War on Terror

Cross-listings: REL 237 AMST 237 AFR 237

Secondary Cross-listing

Malcolm X is likely the most prominent and influential Muslim figure in the history of the United States. His story represents two fundamental themes in the history of Islam in America: conflict between Muslims over what is "authentic" or "orthodox" Islam; and the ways that American history, politics, and culture determine the contours of "American Islam". This course will explore these two themes through an array of topics in the history of American Islam. In so doing, we will examine the complex relation between religion, politics, and culture in the United States. Beginning with the story of Malcolm X, the Nation of Islam, and other African-American Muslim movements, we will try to understand: What made Islam so appealing to millions of African-Americans throughout the 20th century? And were these genuinely "religious" and "Islamic" movements, or just racial/political "black nationalist" movements in the guise of religion? What counts as legitimately "Islamic", and who gets to decide? We will then move into the latter half of the 20th century and the post-9/11 debates over authentic Islam. What happened to American Muslim communities and organizations after the waves of post-1965 immigration from Muslim countries? How have debates about Muslim identity shifted over time, from being configured in terms of black separatism, to transnational/diasporic identity, to the attempts at articulating an indigenous "American-Muslim" identity? How have national narratives around 9/11 and the "War on Terror" impacted these debates over identity and "true Islam"? And how have these debates intersected with gender, racial, and ethnic politics? Throughout the course, we will be studying historical and anthropological material, autobiographies, novels, documentaries, films, and social media. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to race, ethnicity, nationality, culture, gender, language, and age.

Requirements/Evaluation: in-class participation and presentations; 3 short essays; final project

AFR 242 (F) Introduction to the Music of John Coltrane

Cross-listings: AFR 242 MUS 252

Secondary Cross-listing

This course offers the serious music student an opportunity to study the unique body of work produced by saxophonist and composer John Coltrane (1926-1967). The course traces the evolution of Coltrane's compositional and performance styles in the context of the musical and cultural environment in which they developed. Emphasis placed on Coltrane's musical style, representing a unique synthesis of influences, including jazz, world, and European Classical music and spirituality. Substantial listening and reading assignments, including a biography and related criticism, as well as detailed score analysis and study, are required.

Requirements/Evaluation: in-class participation including small quizzes, midterm, class presentation, and final paper

Prerequisites: MUS 103 and/or 203 strongly recommended; musical literacy sufficient to deal with the material and /or permission of instructor
AFR 243 (S) Asian/American and Black Literary and Cultural Thought

Cross-listings: AMST 243  AFR 243

Secondary Cross-listing

One durable legacy of white settler colonialism has been to its divide-and-conquer management of minority populations—an amazingly effective strategy still widely practiced in a variety of forms today. While Asian Americans have been deemed "model minorities" in contrast to "unmodel" minorities—namely, African Americans—and racial minorities have been pitted against one another in the oppression Olympics and on the issue of affirmative action, there has, in fact, been a long history of political, literary, and cultural thought that have joined blacks and Asian/Asian Americans, from W.E.B. Du Bois to current ideas about digital possibilities (and constraints). In this course we will examine the theory, political writings, art, music and literature that sprang from and attended the early Marxist-Communist fight for universal brotherhood; movements against colonialism, capitalism, and the Vietnam War; Yellow Power and Black Power; and topics such as black and Asian diasporas, Afro-futurism, multiculturalism, "Afro-pessimism", racial melancholia, and digital futurities.

Requirements/Evaluation: one shorter paper (4-6 pages), midterm; final paper/project (10-12 pages), response papers and/or posts on GLOW; participation (class discussion and attendance)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors, sophomores

AFR 246 (S) African American History, 1619-1865

Cross-listings: AFR 246  HIST 281

Secondary Cross-listing

This course provides an introduction to the history of African Americans in United States during the colonial, early republic, and antebellum eras. The experience of enslavement necessarily dominates this history, and it is the contours and nuances of slavery—and the development of racial classifications—that give this course its focus. We will also explore African cultural influences, the significance of gender, the lives of free blacks, and the cultural and intellectual significance of the abolitionist movement. The course closes on the themes that emerge from the Civil War, and on the meaning of freedom and emancipation. Our readings will include primary sources and secondary literature. Class meetings will combine lecture and discussion. Informed participation in class discussion is essential. This Power etc course explores the experiences and expressions of the culturally diverse peoples of African descent in the New World (and the Old), as well as the myriad ways in which they confront, negotiate, and at times challenge dominant U.S. and/or European hierarchies of race, culture, gender and class.

Requirements/Evaluation: class discussion, short informal writing assignments, three formal papers from 3-7 pages, and a final exam

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: first- and second-year students
**AFR 248 (S) The Caribbean: From Slavery to Independence**

**Cross-listings:** HIST 248 AFR 248

**Primary Cross-listing**

This class will begin with and foreground the current crisis in Puerto Rico, an island emblematic of the history of colonialism, racism, environmental destruction, and economic exploitation of the region. But as the Caribbean has suffered, so has it resisted. From the Haitian Revolution to the Manley 'Revolt' in Jamaica, the Puerto Rican Independence Movement, the Cuban Revolution, and the Grenadian Revolution, the Caribbean has been at the forefront of radical change in the New World. Pioneering slave emancipation, independence from European empires, and unique experiments in socialism, communism, and Black Power, these small islands have been world leaders. But their innovative social and political experimentation--expressed in vivid artistic and musical forms--have all too often met with disdain and repression by their more powerful neighbors or former colonial rulers. This course will examine the audacious experiments of the Caribbean people from the eighteenth to the twentieth centuries as well as the repression they have faced from abroad. We will pay attention to the rich cultural diversity of the region, using film, music, literature and art to examine diverse phenomenon, including voodoo, Santeria, and Rastafarianism. We will also explore the prospects for continuing change in the contemporary Caribbean, paying special attention to the environmental challenges they face amidst rising sea levels, drought, heat waves, and the effect of two hundred years of environmental destruction at the hands of rapacious foreigners, from slaveowners to cruise ship lines to bauxite and oil producers.

**Requirements/Evaluation:** class participation, a mid-term and final paper, and a 10-12 page research paper

**AFR 250 (S) Translating Black Resistance: Historical and Contemporary Challenges**

"My ebony skin...is my naked soul; my skin is language, and the reading is all yours."

The lyrics' excerpt authored by Afro-Brazilian artists Matumbi and Portugal eloquently convey/denounce how Black skin and the Black body may function as a canvas upon which multiple meanings are imposed or assigned/prescribed: as embattled territories constantly subjected to multiple (mis)interpretations. Conversely, Black skin/bodies become sites of resistance, expressing/becoming potent languages through which oppressive systems are challenged, and powerful anti-racist struggles/movements crafted/expressed or performed/reinvented. How have verbal and non-verbal communications functioned as core aspect of Afro-Diasporic confrontational praxis to intersecting racialized/gendered oppressions and annihilation? How may we challenge Eurocentric bodies of knowledge as a key component in political projects of Black erasures? The course will explore such issues by placing the politics of language, translation/interpretation, ideology, and identity at the center of historical and contemporary movements of resistance against deadly manifestations of anti-black racism and gendered/homophobic violence(s). We will engage with such collective Black resistance responses by analyzing music, film, poetry and other Black art forms in Latin America, and particularly Brazil, and we shall examine authors including Conceição Evaristo, Angela Y. Davis, Patrícia Hill Collins, Joélzito Araújo, Paul Bandia, Brent Edwards, Lazzo Matumbi, and Randal Johnson.

**Requirements/Evaluation:** class participation; three two-page response papers; midterm exam; and a 10 to 12- page final paper.

**Prerequisites:** None

**Enrollment Limit:** 15
Enrollment Preferences: Africana Studies concentrators

AFR 251 (S) Afro-Diasporic Crossroads: Translating and (Re)Imagining Black Experiences

For many centuries Black subjects have forged multiple forms/processes/modes of resistance, yielded in particular by the brutal forced migration of African men and women in the Transatlantic Slave Trade. Afro-Diasporic subjects utilized, evoked, and preserved their cultural and historical/intellectual legacies, healing practices/sacred traditions - and (re)crafted the African Diaspora. This course will examine the crucial roles played by the politics of language and translation in Afro-Diasporic dispersions, intersections, and (re)connections. We will explore the concept of translation as reparation and the ethics of translation, while interrogating how language may be utilized as an effective tool for political control and conversely, a powerful means for Black Liberation. Grounded on Black Feminist Theory, we will engage with the often-overlooked significance of embodied Black knowledge in translation theories within and beyond the boundaries of written texts across African Diasporic settings. Particular attention will be placed on a critical analysis of the ways through which Black popular cultures travels across African Diasporic settings. Authors we shall explore in the seminar include Angela Y. Davis, Patricia Hill Collins, Rachel Harding, Paul Bandia, Brent Edwards, Omise'ke Tinsley, Marsha J. Hamilton and Eleanor S. Block.

Requirements/Evaluation: class participation; three two-page response papers; midterm exam; and a 10 to 12-page final paper.

AFR 254 (F) Bebop: The (R)evolution of Modern Jazz

Cross-listings: AFR 254  MUS 254
Secondary Cross-listing

In the 1940s, Jazz turned a corner, transitioning from the functional and popular music of the swing era to the increasingly complex art music known as bebop. The practitioners of this new sub-genre were seen not as showmen or entertainers, but (in the words of poet Ralph Ellison) as "frozen faced introverts, dedicated to chaos." This music was simultaneously old and new, a musical evolution interpreted through the lens of cultural revolution. This class will survey the lives, music and continuing impact of bebop's most pivotal figures: Charlie Parker, Thelonious Monk, Dizzy Gillespie, Bud Powell and Kenny Clarke among many others. Through score study and guided listening assignments, the class will examine the melodic, harmonic and rhythmic innovations associated with this pivotal era in jazz history. We will evaluate, compare and contrast examples of contemporary theoretical scholarship concerning this musical vocabulary and it's evolution. Intersections between the music and parallel artistic, social and political movements will also be addressed.

Requirements/Evaluation: weekly reading, listening, short written responses to discussion prompts and participation in class discussion; quizzes on assigned readings and listening, and final exam
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Music majors, Jazz Ensemble members, Africana Studies concentrators
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

AFR 257 (F)  Social Justice Traditions: 1960s to #Black Lives Matter  (DPE)

Cross-listings: AFR 257  AMST 256  HIST 256

Secondary Cross-listing

We live in a time of renewed social justice activism, as people from all walks of life confront economic inequality, police violence, discrimination against transgender individuals, and other forms of oppression. This course is designed to clarify where recent initiatives like Black Lives Matter and Occupy Wall Street came from, and to evaluate how they might shape American life in the near future. Movements have histories, as today's activists draw on the "freedom dreams," tactics, and styles of rhetoric crafted by their predecessors, while making use of new technologies, such as Twitter, and evolving understandings of "justice." Taking a historical approach, we will begin by studying the civil rights, Black Power, anti-war, counter-culture, and feminist initiatives of the 1960s. We will then explore how progressive and radical activists adjusted their theories and strategies as the country became more conservative in the 1970s and 1980s. Making use of movement documents, documentary films, and scholarly accounts, we will study the development of LGBTQ, ecological, and economic justice initiatives up to the present day. Throughout, we will seek to understand how movements in the United States are shaped by global events and how activists balance their political work with other desires and commitments.

Requirements/Evaluation: attendance and class participation; four 2 page reading response papers; discussion of films via GLOW forums; and a final 7-8 page analytical essay

Prerequisites: none

Enrollment Limit: 35

Enrollment Preferences: first-years, sophomores, and American Studies majors

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Difference, Power, and Equity Notes: The class focuses on struggles for rights, recognition, and redistribution of resources of people of color, women, LGBTQ folks, the working poor, and immigrants. We focus on the tension between groups asserting they are the "same" as others in society, and hence deserving of equal rights, and the celebration of difference as a means of asserting pride and building solidarity. We discuss how movements borrow and adapt tactics, slogans, and ideas of justice from other movements.

AFR 259  (S)  Bilad al-Sudan and Beyond: Arts of the Afro-Islamic World

Cross-listings: ARAB 259  AFR 259  ARTH 259

Secondary Cross-listing

From the Swahili stone houses of East Africa to the massive earth and timber mosques of the Sahel, the story of Islam in Africa is one of cultural and spiritual hybridity expressed through material form. In this course, students will explore how artistic forms and traditions in Africa have functioned as vehicles of access and integration for Islam, enabling it to assimilate itself with numerous African contexts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just one African Islam, but many different iterations, each shaped by the specific frameworks of its cultural context. The contemporary component of the course will examine how modernity in the form of globalization, technology, and Westernization has affected Afro-Islamic artistic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period.

Requirements/Evaluation: three reading response papers (2 pages each), class journal, a mid-term exam, and a final exam

Prerequisites: none, although an introductory course in art history or Islamic studies would be useful

Enrollment Limit: 25

Enrollment Preferences: students who have declared a major in Art History or Africana Studies

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

AFR 275 (S) Southern Literary Aesthetics (DPE) (WS)

Cross-listings: ENGL 275 AFR 275 AMST 276

Secondary Cross-listing

Hip-Hop artists signify as "the dirty South" the distinct sounds, rhythms, landscapes, gestures, desires as well as frustrations of Black residents living in the southernmost regions of the U.S. American continent. In this course, students will examine what the South means to American concepts and how the South is used to make meaning in literature, music, art, digital archives, and film. We will give particular attention to how representations of the South are informed by region, gender, sexuality, and class. At the end of the course, students will be able to identify Black southern aesthetics across various genres and mediums with attention to historical and regional specificity despite the opacity of these categories. Potential artists include Jean Toomer, Alice Walker, Ernest Gaines, William Faulkner, Jesmyn Ward, Zora Neale Hurston, Natasha Trethewey, E. Patrick Johnson, Trudier Harris, Kiese Laymon, Julie Dash, Spike Lee, Askia Muhammad Touré, Alexis Pauline Gumbs, Alison Janae Hamilton, Outkast, DJ Khalid, Beyoncé Knowles, and Solange Knowles.

Requirements/Evaluation: four or five writing assignments that total about 20 pages; discussion facilitation

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first-years and sophomores

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 275 (D1) AFR 275 (D1) AMST 276 (D2)

Writing Skills Notes: Students will develop a writing practice through short in-class assignments that culminate in four or five formal submissions. Students will receive group as well as one-on-one feedback on useful writing principles. Feedback will focus on structure, style, argumentation, and audience.

Difference, Power, and Equity Notes: Students will analyze the "shaping of social differences, dynamics of unequal power, and processes of change" in the South. Students will discover how region impacts race, gender, sexuality, and class.

Not offered current academic year

AFR 276 (S) Black Europeans

Cross-listings: COMP 276 AFR 276 GERM 276

Secondary Cross-listing

This course explores the invisibility of Black Europeans from the Enlightenment to the present with a particular focus on French, German, Austrian, Dutch, British, and Russian history. With the European Enlightenment as point of departure, the tutorial investigates the large presence of Blacks as objectified subjects in paintings and decorative artifacts of the 18th and 19th centuries while interrogating their century-long absence from European historiography until fairly recently. In this tutorial, we will start discussing the significance of the Code Noir (1685) as well as the major economic impact of the Atlantic Slave Trade on European countries such as Great Britain, France, and the Netherlands. We will read historical biographies about a handful of outstanding Black Europeans in France (composer Monsieur de Saint George), Germany (Prussian officer Gustav Sabac el Cher, philosopher Wilhelm Anton Amo), Austria (royal tutor Angelo Soliman), Holland (Prince Kwasi Boachi), and Russia (military leader Abram Petrovitch Gannibal) during the 18th and 19th centuries, study paintings and decorative artifacts of the 18th and 19th centuries depicting black servants--such as Hyacinthe Rigaud's Portrait of Marquise de Louville (1708), Nicolas Lancret's The Escaped Bird (1730), and Manet's Olympia (1863) to name a few--and watch the biopic Belle by Amma Asante (2013), narrating the life of black heiress Dido Elizabeth Belle in 18th-century England. We will also do a quick survey of 20th-century European cinema, that has until now cast very few black actors in supporting and leading roles, and we will ponder the representation of black people in recent films that were commercially successful at the box office (such as Les Intouchables by Nakache/Toledano, France 2011). Finally, we will reflect on the deep roots of European colonialism that takes the form of national debates surrounding the naming of chocolate-coated treats and licorice sweets (Têtes de nègre, Mohrenkopf, and Negerkuss) or of a controversy around cultural identity resulting from
the grotesque depiction of black men in folkloric tradition (like Zwarte Piet in the Netherlands).

Requirements/Evaluation: six 5- to 7-page argumentative papers; six 2- to 3-page response papers; final paper optional

Prerequisites: none

Enrollment Limit: 10

AFR 280 (S) Emancipation to BlackLivesMatter

Cross-listings: AFR 280 HIST 280 LEAD 280

Secondary Cross-listing

This introductory course surveys the cultural, political, and social history of African Americans from Reconstruction to the present. It offers a balance between a "top-down" and "bottom-up" approach and focuses primarily on African Americans' quest for citizenship, equality, justice, and opportunity. In addition to examining major historical developments and popular figures within the modern black past, we will explore the lesser-known histories of everyday people who helped shaped the black freedom struggle. In so doing, we will interrogate conventional narratives of progressive movements since emancipation. Some of the main topics include: the transition from slavery to freedom; the rise of Jim Crow and the politics of racial uplift; the Great Migration and the emergence of the New Negro; the Great Depression and the New Deal; World War II and the struggle for economic and racial inclusion; the postwar period and the intersecting movements of Civil Rights and Black Power; and the impacts of deindustrialization and mass incarceration on the black community. We will end with a discussion of the Obama years and Black Lives Matter.

Requirements/Evaluation: Students will be graded on class participation and will have two take-home essay examinations (a midterm and a final, each 6-8 pages). In addition, students will write two response papers (2-3 pages) and will complete a mapping project based on The Negro Motorist Green Handbook.

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: students with demonstrated interest in material

AFR 283 (F) Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film

Cross-listings: WGSS 283 AMST 283 ENGL 286 AFR 283

Secondary Cross-listing

In this course we will foreground questions around visibility and memory. We will explore representations of Black queer bodies in experimental, documentary and narrative film. This course will engage foundational texts from Black Queer Studies. We will pair texts with film in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1996), U People (Olive Demetrius and Hanifah Walidah, 2009), Tongues Untied (Marlon Riggs, 1989) and Litany for Survival (Ada Gay Griffin and Michelle Parkerson, 1995). Throughout the course we will evaluate
the different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be asked to facilitate a class discussion. You also will be required to do weekly critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that "represents" some segment of Black queer living.

Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film

AFR 301 Experimental African American Poetry

Contemporary African American poets in various cities and towns across the nation--from New York City to Los Angeles, from Berkeley to Durham, N.C.--are currently producing a vibrant and thriving body of formally experimental work, yet this poetry is largely unknown to readers both within and outside the academy. This formally innovative poetry defamiliarizes what we normally expect of "black writing" and pushes us to question our assumptions and presumptions about black identity, "identity politics," the avant-garde (for example, is it implicitly raced?), formalism, socially "relevant" writing, the (false) dichotomy of form versus content, the black "community," digital poetics, and other issues of race and aesthetics. We will examine the writings of living poets, who range widely in age, and those of their avant-garde predecessors in the twentieth century. We will also be making links between this poetry and African American music and visual art.

Requirements/Evaluation: two papers (6-8 pages and 8-10 pages), short response papers, oral presentation, and class participation

Prerequisites: none, though at least one previous literature course preferred

Enrollment Limit: 15

Enrollment Preferences: American Studies majors
AFR 302  (S)  Complexion Complexities: Colorism in Literature, Lyrics & Everyday Life

Often viewed as the "dirty laundry" of the Black American past, colorism, or skin color bias, is a pervasive force within modern global society. Although it is not a new issue, its impact is far reaching and continues to have damaging effects on people of color—especially members within the African Diaspora. From skin bleaching creams like "Whitenicious" to rap music's fetishesization of light-skinned women, colorism is a very real and present issue affecting Black life. From the literary works of Wallace Thurman and Toni Morrison, to the lyrics of blues crooner Big Bill Broonzy and rapper Lil Wayne, we will analyze the many ways that the politics of color influence standards of beauty and attractiveness, perceptions of behavior and criminality, and economic attainment and stability.

Class Format: Remote
Requirements/Evaluation: class participation, response papers, one 6- to 8-page paper, and a formal class presentation

AFR 303  (F)  The 19th Century and Its Shadow

Cross-listings: AFR 303 ENGL 307

Secondary Cross-listing
This course explores canonical American literature from the nineteenth century alongside a selection of contemporary literary and cinematic texts that call on and intervene with this body of work. Following Toni Morrison’s charge that the contemplation of a black presence "is central to any understanding of our national literature and should not be permitted to hover at the margins of the literary imagination," this course focuses on how ideas of race are explored throughout the canon and how they have been carried forward. Works considered throughout the term come from, among others, Julie Dash, Frederick Douglass, Saidiya Hartman, Harriet Jacobs, Mat Johnson, Herman Melville, Toni Morrison, Nate Parker, Edgar Allen Poe, Quentin Tarantino, Mark Twain, and Colson Whitehead.

Requirements/Evaluation: weekly reading responses, active class participation, three close readings (500 words each), annotated bibliography, class presentation, final paper (13-15 pages)
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Limit: 16
Enrollment Preferences: English majors, then sophomores considering the major

AFR 304 (S) A History of Health and Healing in Africa (DPE)

Cross-listings: AFR 304  HIST 305

Secondary Cross-listing

This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 304 (D2) HIST 305 (D2)

Difference, Power, and Equity Notes: This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and and inequalities.

AFR 305 (S) Race and the Zombie Apocalypse

Cross-listings: ENGL 308  AFR 305

Secondary Cross-listing

This course takes a critical approach to our contemporary understanding of the figure of the zombie and its inextricable link to discourses on race and blackness in the Americas. An introductory grounding in theories of social death allows an opportunity to explore the racial anxiety that gave birth to the genre and trace its development throughout the hemisphere. The course considers the novels, films, and critical texts that frame the genre in order to pose the following questions: What can the figure of the zombie teach us about our evolving relationship to race? What roles do gender and sexuality play in the construction of the genre? And, finally, how does the recent proliferation of zombie-related television shows, movies, books, and video games reflect our present-day concerns?

Class Format: remote

Requirements/Evaluation: weekly reading responses, active class participation, three close readings (500 words each), annotated bibliography, class presentation, final paper (13-15 pages)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 16

Enrollment Preferences: English majors, then sophomores considering the major

Expected Class Size: 16
AFR 307 (F) Contemporary Short Stories from North Africa

Cross-listings: AFR 307 RLFR 309

Secondary Cross-listing

Short stories are the vibrant center of the literary landscape in North Africa today. Written in French, Arabic and sometimes Amazigh languages, short stories provide timely interventions in political and social discourse. In this course, we will read short stories that use humor and satire to address the effects of globalization on local communities, that experiment with language to portray war and revolution, and that seek to create a new space for the discussion of gender. We will also analyze films, sociological texts and Moroccan, Algerian and Tunisian online newspapers in order to explore contemporary transformations of life in North Africa. Readings by Maissa Bey, Abdelfattah Kilito, Zeina Tabi, Mohamed Zafzaf, Ahmed Bouzfour, Soumaya Zahy and Fouad Laroui among others. Conducted in French.

Class Format: discussion

Requirements/Evaluation: active class participation, weekly response papers, two short papers, an oral presentation and a final paper
Prerequisites: RLFR 201, 202 or 203 or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French majors and those with compelling justification for admission
Expected Class Size: 20

AFR 308 Four Poets: Gwendolyn Brooks, Frank O'Hara, Sylvia Plath, and Amiri Baraka

The study of literature often relies on seemingly "objective" labels to sort and group writers. These four major American poets from the last century were often segregated into different categories: Gwendolyn Brooks (1917-2000) and Amiri Baraka (1934-2014) clumped together as black poets; Sylvia Plath (1932-1963) labelled a "Confessional Poet" and/or taught as a female poet but not a "white poet"; Frank O'Hara (1926-1966), designated a "New York School" poet but not a "white poet" or "male poet." In looking closely at the poetry of these four writers, whose work is usually not taught side by side, we will ask questions about the assumptions implicit in the concepts and categories of American (and English-language) poetics and how literary history usually gets written. For example, who is the presumed "universal" poetic speaker? Who is the assumed reader? Do our attitudes about raced and gendered bodies influence how we read raced and gendered poets? Is a queer poet read with the same particularity as a black poet?

Requirements/Evaluation: Two short papers (4-5 pp.) = 25%; One final paper (8-10 pp.) = 50%; Two short response papers = 15%; Participation = 10%

AFR 309 (S) Scriptures and Race

Cross-listings: REL 309 AFR 309 LATS 309

Secondary Cross-listing

This course focuses on the relationships between constructions of race in the post-1492 American world and “Christian scriptures.” The big questions of the course examine the ways that contestations of power are intertwined with the making of, interpretation, and transformation of sacred texts. Both scriptures and race are conceptual constellations of human social imagination, and yet their conceptualization has often been embroiled in the hopes and traumas of everyday life in the Americas. How and why did these two terms come to have any relationship to each other? How and why do peoples engage “scriptures”? In what ways have “scriptures” informed how people imagine themselves, their communities, and their relationship to religious and racial “others”? How did “scriptures” and “race” inform each other in modern colonialisms and imperialisms? In this course, we will examine the ways that scriptures have been employed in order to understand and develop notions of race, and we will examine how ideas about and lived experiences of race have informed the concept of scriptures as well as practices of scriptural interpretation.

Requirements/Evaluation: participation, short writing exercises, a 5- to 8-page take-home midterm essay, and a 10- to 15-page final essay

AFR 310 (F) Womanist/Black Feminist Thought

Cross-listings: WGSS 310 AFR 310 AMST 309 REL 310

Primary Cross-listing

This course explores the genealogy and development of black feminist and womanist thought. We will investigate the expansion of womanist thought from a theologically dominated discourse to a broader category of critical reflection associated more commonly with black feminism, analyze the relationship between womanism and black feminism, and review the historical interventions of black feminism. As critical reflections upon western norms of patriarchy, heterosexism, and racism, womanism and black feminism begin with the assumption that the experiences of women of color—particularly black women—are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Katie Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies.

Class Format: discussion

Requirements/Evaluation: class participation, three short response papers, and the completion of an original research paper or project

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: Africana Studies concentrators, Women's, Gender and Sexuality Studies majors, Religion majors

AFR 311 Women Warriors, Colonial Soldiers, and Slave Armies: Soldiering and Warfare in African History (DPE)

Soldiering is one of the oldest professions in African history. Throughout the continent's long history, ordinary soldiers have risen to become kings,
queens, presidents, and held other positions of significance. Soldiers in African history have hailed from diverse backgrounds, ranging from the enslaved to those from the nobility. Notable soldiers in African history have been both men and women. Certainly, in Africa as in other world regions there is a tendency to associate the military profession with men. Yet, there have been famous female military warriors in African history, some of the most famous ones being Queen Nzinga in the seventeenth century; the all-female military units in the kingdom of Dahomey, known for their rigor and being effective fighters; and, more recently, Alice Lakwena who commanded a rebellion that nearly brought down the Ugandan government in the late twentieth century. Some of the other themes which we will explore include how warfare was organized from the precolonial era to more recent times; the impact of changing technologies on warfare and the everyday life of armed soldiers; colonial conquest and the soldiers who fought for Europeans and those who resisted; recruitment criteria during the colonial period, and colonial military identities; service in the military as labor and rebellions and mutinies over pay and work conditions; the army and nationalism. Throughout the course we will challenge the enduring Western image and stereotype of Africa as a violent place by focusing on a) the changing conditions that have pushed individuals and communities to go to war, and b) by examining how Africans have initiated and resolved conflict. Students will analyze a variety of resources including soldiers' biographies, films, oral traditions, and archival sources that will help them to come up with their own arguments about the role of the soldiers and the military in Africa.

Requirements/Evaluation: active participation in discussion, map quiz, response papers, a short analytic paper (3-5 pages), presentation, and one research paper (8-12 pages).

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 20

Grading: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines the critical questions of how and why Africans have waged military campaigns, and how they have inspired others to join them. From the pre-colonial era to the present, all forms of military action in Africa were in many respects expressions of societal imbalances based on ethnicity, race, gender, generation, and class.

AFR 317 (F) Black Migrations: African American Performance at Home and Abroad

Cross-listings: AFR 317 COMP 319 AMST 317 DANC 317 ENGL 317 THEA 317
Primary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation: class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

AFR 318 (F) Defining and Disrupting the School-to-Prison Pipeline

Cross-listings: PSYC 334 AFR 318

Primary Cross-listing

The school-to-prison pipeline describes a system of processes that pushes children out of school into jails and prisons. This course will explore the pipeline and the relationships between school, prison, and society. We will begin with the history and creation of the modern-day school-to-prison pipeline, focusing on the educational and public policies that encourage the criminalization of "others", with particular emphasis on folks of color and under-resourced communities. We will also look to firsthand accounts from those pushed into the pipeline to humanize the topic and engage in thoughtful and compassionate discussion. Together, we will define "school" and "prison", identifying how these definitions are aligned with the most current iteration of the pipeline, and how they can help us as we work to dismantle it.

Requirements/Evaluation: Assignments for the course include ongoing journal assignments, two 3-5 page papers, and a final project.

AFR 321 (F) Trending Black: Race & Social Media in the 21st Century

The 21st Century ushered in new and exciting ways for people to communicate digitally. With the creation of social media outlets like Facebook, Twitter, Instagram, and more recently TikTok, connecting with the world is literally one click, or selfie away. Though much of the attention around
social media is focused on people with race and educational privilege, people of color have created their own spaces to curate, articulate, and produce culture. Through the methods of rhetorical criticism, critical discourse analysis, cultural criticism and ethnography, we will investigate the ways Africana cultures, specifically in the United States, utilize social media to shape community and influence popular culture. This course will give students hands-on experience analyzing various texts, and a deeper understanding of rhetorical methodologies.

AFR 323  (S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora

Cross-listings: ENGL 356 AFR 323 AMST 323 ARTH 223 COMP 322

Primary Cross-listing

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as the late Congressman John Lewis' March and Ebony Flowers' Hot Comb, this course illustrates and critiques multiple ways the graphic novel commingles word and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels with the help of critical essays, reviews and film; the chosen texts will center on Africana cultures, prompting students to consider how the graphic novel may act as a useful alternate history for marginalized peoples. During the course, students will build comic creation and analysis skills through short exercises, eventually building up to the final project of a graphic short story that illustrates historical and/or autobiographical narratives. No art experience is required, only an openness to expanding one's visual awareness and composition skills. This course is often taught in collaboration with the Williams College Museum of Art's Object Lab program, which allows the class to have its own space and art objects that are directly related to the course topic. Although it is a remote course this year, this class may still feature Object Lab participation, film screenings, and collaborations with guest speakers.

Class Format: This is a remote class that will primarily feature synchronous sessions with some asynchronous sessions.

Requirements/Evaluation: class participation, written responses, student-led facilitation, one 3-page graphic analysis, one 6- to 8-page essay, and a
final project (producing a graphic short story)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: If the enrollment limit is exceeded, preference will be given to Africana Studies concentrators or students who have taken AFR 200, the department's introductory course.

Expected Class Size: 20

AFR 326 (S) Gender, Race, and the Power of Personal Aesthetics

Cross-listings: WGSS 313  AFR 326  AMST 313  LATS 313

Secondary Cross-listing

This course focuses on the politics of personal style among women of color in an era of viral video clips, the 24-hour news cycle, and e-commerce sites dedicated to the dermatological concerns of "minority" females. With a comparative, transnational emphasis on the ways in which gender, sexuality, ethno-racial identity, and class inform standards of beauty, we will examine a variety of materials including commercial websites, histories, personal narratives, ethnographies, sociological case studies, and feminist theory. Departing from the assumption that personal aesthetics are intimately tied to issues of power and privilege, we will engage the following questions: What are the everyday functions of personal style among women of color? Is it feasible to assert that an easily identifiable "African American," "Latina/x," "Arab American" or "Asian American" female aesthetic exists? What role do transnational media play in the development and circulation of popular aesthetic forms? How might the belief in personal style as activist strategy challenge traditional understandings of feminist political activity?

Class Format: This remotely taught, synchronous course follows a discussion format.

Requirements/Evaluation: participation, one student-led discussion period, two written essays of 5-7 pages, final oral exam.

Prerequisites: LATS 105, AMST 201, AFR 200, WGSS 101 or permission of instructor; first year students are not permitted to take this course.

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, American Studies majors, Africana Studies majors, and Women's, Gender and Sexuality Studies majors by seniority. If the class is overenrolled students may be asked to submit a brief writing sample.

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

AFR 327 (S) Sounds and Pressures: Music in the 1970s Caribbean

Cross-listings: AFR 327  HIST 342  MUS 327

Primary Cross-listing

For the Caribbean the 1970s was a decade of cultural excitement and political tragedy. 1960s radical consciousness contributed to rapidly changing music styles that formed by the early seventies and blossomed on the world stage as the decade progressed. This was the period when Jamaican Reggae, Haitian Konpa, and Spanish Caribbean Salsa, asserted their presence in the mainstream. But the countries that birthed these popular music forms were locked in political crisis. In Jamaica, political violence escalated, Haiti faced a brutal dictatorship and Cuba was caught in the midst of Cold War strain. A common response to these challenges was massive emigration from the Caribbean to the United States. This course will examine the
music produced in the 1970s Caribbean and its relationship to the forces of migration, national politics, and inter-regional contact. After a background on Cuban and Haitian music, the course will give greatest focus to Jamaican politics its relationship with Reggae, which reached further than any other Caribbean music form in the 1970s. It will explore the journeys of the music as it accompanied and oftentimes preceded the arrival of large numbers of Caribbean immigrants. In the process, the US imaginary of the Caribbean was reshaped by the popularization of Caribbean commercial music.

AFR 328 (F) Feminist and Queer Performance at the Limit of Action  (DPE)
Cross-listings: AMST 326 THEA 322 WGSS 321 AFR 328
Secondary Cross-listing
What counts as feminist and queer activism? This course challenges what we dominantly understand as activism---key to the emergence of ethnic studies and feminist and queer theory. Moving away from political actions centered in these fields, such as strikes, protests, and boycotts, this course will turn to visual and performance art works by artists of color, who consider other forms of action that are not overtly visible, resistant, oppositional, agentive, militant, loud, liberatory, and documentable. Each week, we will examine a performance at the limit of action, including silence, sexual abjection, concealment, melancholia, and waiting, alongside issues related to race, gender, sexuality, labor, and migration among others. How might we approach and reconcile with performances that once again reify notions of racialized and gendered bodies as apolitical, passive, submissive, and compliant? Drawing on scholarship within black and women of color feminist criticism, queer of color critique, critical ethnic studies, and performance studies, this course will attune students to the role of aesthetics to interrogate and expand what we typically conceive of as activism, resistance, power, and survival from racialized, feminized, and queer positions.
Requirements/Evaluation: In-class discussion, short weekly reading posts, class presentation, final paper/project
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: WGSS majors and students with experience in American Studies or performance studies coursework

AFR 329 (F) Marxist Feminisms: Race, Performance, and Labor  (DPE)
Cross-listings: THEA 323 WGSS 323 AFR 329 AMST 329
Secondary Cross-listing
Who is considered the dominant subject of labor? This course offers an overview of queer, women of color feminist, decolonial, and black and critical ethnic studies critiques of orthodox Marxism. Starting with core texts from the Marxist tradition, we will explore a range of social positions and forms of labor that complicate Marx’s emphasis on the white male industrial worker. Each unit, we will study key scholarship that centers reproduction, slavery, care and domestic work, indentured servitude, sex work, and low wage flexible labor, to name a few, alongside queer and feminist modes of performance that respond to and/or provide strategies to live and survive under racial capitalism. We will discuss seminal works by theorists, including Karl Marx, Luce Irigaray, Cedric Robinson, Jennifer Morgan, Hortense Spillers, Lisa Lowe, Gayatri Chakravorty Spivak, Dorothy Roberts, Angela Davis, José Esteban Muñoz, and Leo Bersani, in tandem with performances, such as paintings, performance art, poetry, protests, photography, prints, music, and sculptures. This course will equip students with a critical understanding of the ways racial capitalism has centrally relied upon the mass capture and recruitment of racialized and gendered labor in and beyond the U.S. and how, through performance, life under these conditions have been reimagined.

AFR 330 (S) Modern Folklore: Postcolonial Dance and Music in Africa
Cross-listings: AFR 330 MUS 330 DANC 330

Secondary Cross-listing
"Folklore is a mixture of traditions, poems, songs, dances and legends of the people, it can be no other than the reflection of the life of the country and if that country develops, there is no reason why the folklore which is the living expression, should not develop as well. Modern folklore in present Africa is as authentic as the Africa of old." --Keita Fodeba, founding Artistic Director of Les Ballet Africain, Guinea, West Africa. This course will involve intensive dance and musical practice that is rooted in traditional and contemporary/forms from the African continent and the Diaspora. We will examine the international impact of countries who achieved independence from Europe in the late 1950's-1990s such as Les Ballets Africain, National Dance Company of Senegal, Bembeya Jazz, Ghana Dance Ensemble, and the national dance and music companies of Zimbabwe, Jamaica, and Cuba. Our study will include the impact of artists such as James Brown, Miriam Makeba, Michael Jackson, and Youssou N'Dour, as well as Hip Hop culture and the emergence of new forms of music and dance or modern folklore.

Requirements/Evaluation: student progress with music and dance material taught, quality of assigned short papers, quality of research and performance midterm and final projects
Prerequisites: Any of the following courses offer students preparation or experience DANC 100, 201, 202; MUS 111, 117, 120, 211, 221, 233; AFR 193, 200, 223, experience in a campus-based dance or music ensemble or permission of the instructors
Enrollment Limit: 14
Enrollment Preferences: students who have taken DANC 201, 202 or any of the courses listed in the prerequisites
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Materials/Lab Fee: occasional fees to attend concerts; fee range free-$35
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

AFR 331 (S) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing
In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

Not offered current academic year

AFR 332 (Anti-)Imperialism, Race, and the Archive (DPE) (WS)

What is U.S. imperialism? How are the social relations of racial capitalism important to U.S. imperialism? How have anti-imperial, anti-racist, and anti-capitalist struggles taken shape within, against, and beyond the U.S. nation-state, and how have these struggles shaped the U.S. nation-state itself? Finally, what kind of anti-imperial activist hermeneutics does American Studies offer and how can they be strengthened to reckon with the specific conditions of the U.S. imperial present? Anchored in these questions, this course seeks to introduce students to the history of U.S. imperialism. It does so beyond the traditional understanding of empire as a one-way agglomerating imposition of power in distant areas, and instead accounts for the co-constitution of reigning state-capitalist orders and global processes of spatial and social differentiation. Following such an approach to the history of U.S. imperialism, this course is organized around four time periods: 1770s to 1890s; 1890s to 1930s; 1930s to 1980s; and 1980s to the present. Across each period, we will attend to processes of U.S. imperial expansion, capital accumulation, and racial domination, and resistance to these processes. We will do so using secondary sources and a wide range of primary sources, including published fiction, legal documents, newspaper articles, speeches, films, and photos. By the end of this course, students should be able to detail a genealogy of the U.S. imperial present that accounts for: the significance of imperial and inter-imperial relations in the formation of U.S. national culture, institutions, and public areas such as law and public policy; how U.S. territorial colonialization has underpinned the development of U.S. imperial infrastructure, the imperial state form, and imperial culture; and how U.S. territorial and extraterritorial sovereignty exist in perpetual reaction to the primary claims of Indigenous peoples and other threats to reigning state-capitalist orders.

Requirements/Evaluation: Evaluation will be based on the following assessments: Class Participation: 25%; Weekly Response (350-500 words): 25%; Essay 1--First submission (5 pgs.): 10%; Essay 1--Revision (5 pgs.): 10%; Essay 2 (5 pgs.): 15%; Essay 3 (5 pgs.): 15%
**AFR 333 (S) New Asian American, African American, Native American, and Latina/o Writing**

**Cross-listings:** AMST 403 LATS 403 AFR 333

**Secondary Cross-listing**

The most exciting and forward-thinking writing in the English language today is being done by formally experimental writers of color. Their texts push the boundaries of aesthetic form while simultaneously engaging questions of culture, politics, and history. This course argues not only for the centrality of minority experimental work to English literature but a fundamental rethinking of English literary studies so as to confront the field's imbedded assumptions about race, a legacy of British colonialism, and to make the idea of the aesthetic more open to ideas generated in critical race studies, diaspora studies, American studies, and those fields that grapple more directly with history and politics. In the critical realms of English, work by minority writers is often relegated to its own segregated spaces, categorized by ethnic identity, or tokenized as "add-ons" to more "central" or "fundamental" categories of literature (such as Modernism, poetics, the avant-garde). Recent work by Asian American, African American, Native American and Latino/a writers challenges our assumptions and preconceptions about ethnic literature, American literature, English literature, formal experimentation, genre categorization, and so on. This writing forces us to examine our received notions about literature, literary methodologies, and race. Close reading need not be opposed to critical analyses of ideologies. Formal experimentation need not be opposed to racial identity nor should it be divorced from history and politics, even, or especially, a radical politics.

**Requirements/Evaluation:** one shorter paper (7-8 pp.), one final paper or creative project (10-12 pp.), two short response papers, a presentation, and participation

**Prerequisites:** none but those with some previous experience with literature and/or literary analysis might be helpful

**Enrollment Limit:** 15

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

**AFR 335 (F) Sacred Custodians: Environmental Conservation in Africa (DPE)**

**Cross-listings:** AFR 335 ENVI 304 GBST 304 HIST 304

**Secondary Cross-listing**

In this seminar we will explore environmental conservation in Africa. In particular we will look at African ideas, ethics, and approaches to environmental conservation. Are there African ideas, ethics, and activities that are uniquely conservationist in nature? We will explore well-known African leaders to understand what spurred them to become conservationists, how they interpreted and communicated environmental crises. For example, Wangari Maathai is a world-renowned female scientist who established the Green Belt Movement in Kenya. This movement focuses on addressing the problem of deforestation. Ken Saro-Wiwa was an activist in Nigeria who fought for and alongside local communities against multinational oil corporations. We will examine these and other African conservation practices alongside popular images of environmental crisis that place blame for environmental degradation on Africans. Students will be invited to critically study histories of environmental management on the continent and the emergence, development, and impact of the idea of conservation. We will unpack the rich histories of conservation efforts in Africa, such as resource extraction, game parks, desertification, wildlife and hunting, traditional practices, and climate change.

**Class Format:** If there's sufficient enrollment, this course will be taught in 2 sections, 1 in-person section and 1 remote section;

**Requirements/Evaluation:** Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, critical reflections on films, a case study (5-7 pages), and a take-home final exam.

**Prerequisites:** None

**Enrollment Limit:** 15

**Enrollment Preferences:** If course is over-enrolled, preference to History Majors and students with a demonstrated interest in African studies. If there's sufficient enrollment, this course will be taught in 2 sections, 1 in-person section and 1 remote section.

**Expected Class Size:** 10-12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AFR 335 (D2) ENVI 304 (D2) GBST 304 (D2) HIST 304 (D2)

**Difference, Power, and Equity Notes:** This course will intensively explore the question of how various global and local actors have defined environmental degradation and promoted approaches to conservation in Africa. It guides students through an examination of the different power dynamics that have shaped environmental conservation thought and practices on the continent. This course, therefore, provides a critical lens through which to examine the inequalities rooted in race, gender, and other forms of difference

Secondary Cross-listing

In this course we will examine the various ways scholars and filmmakers have used ethnography as a critical tool for understanding the intersections of race, place, space, gender and sexuality. We will foreground studies that examine unfamiliar sites of Black struggle, resistance, and survival. We will examine Black gender variant and sexual minorities and how they produce, reproduce and struggle for spaces and places of desire, community, pleasure, love, and loss. We will explore these stories through primarily ethnographic modalities. We will discuss the political and ethical ramifications of these ethnographic narratives paying particular attention to the usefulness and limitations of both 'Thin' and 'Thick' descriptions. We will use ethnography to center debates regarding the politics of representation of racialized queer space, place, and people through both filmic and written accounts. All students will be asked to discover and develop their ethnographic voices through various critical, creative, experimental and performative assignments.

Requirements/Evaluation: facilitated class discussion; weekly critical response papers; creative projects

Prerequisites: none

AFR 345 (S) Race and Feeling in Twentieth Century Literature

Cross-listings: AFR 345 ENGL 342

Secondary Cross-listing
Although we now take for granted that race is socially constructed, the terrain of racial feeling is less certain. In this course, we recognize that states of feeling are also socially constructed; they are marked and shaped by race and other categories. Questions concerning the circulation of feeling between individuals and their generative possibilities have preoccupied sociologists, psychologists, and literary theorists since the mid-1990s, and we will take up where they left off. In this course, we will study the ways in which literary representations of shame in African American literature offer insight into the interior lives of individuals who have been stigmatized by histories of disempowerment, trauma, and the real or imagined racialized gaze. We will analyze the influence of shame in works by such authors as James Weldon Johnson, Nella Larsen, Alice Walker, James Baldwin, Sherley Anne Williams, Phyllis J. Perry, Toni Morrison, and E. Lynn Harris, and we will engage the ways in which shame, and its correlative feelings --- guilt, pride, humiliation, and love --- emerge in texts through various formal and aesthetic choices. We will also engage such theorists as Eve Kosofsky Sedgwick, Sara Ahmed, Sianne Ngai, Heather Love, Darieck Scott, Erving Goffman, and Melissa Harris-Perry to assist us in our inquiry into the intersections of race, feeling, and literature.

Requirements/Evaluation: active class participation, two short essays of scholarly commentary on critical theory, midterm exam, 8- to 10-page paper
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Limit: 25
Expected Class Size: 25

AFR 346 (S) Modern Brazil (DPE)

Cross-listings: AFR 346 HIST 346

Secondary Cross-listing

Brazil has been the "country of the future" longer than it has been an independent nation. Soon after Europeans descended on its shores, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often contributed to an exaggerated patriotism, it has also fostered ambiguity—for if the label suggests Brazil's potential, it also underlines the country's failure to live up to that promise. This course will examine Brazil's modern history by taking up major themes from Independence to the present. Beginning with a "bloodless" independence that sparked massive civil wars, we will analyze the hierarchies that have characterized Brazilian society. The course will give particular attention to themes of race, gender, sexuality, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations.

Class Format: discussion

Requirements/Evaluation: class participation will count for 20% of final grade; each of two 5-page papers will count for 25%; and a final 8- to 10-page paper will count for 30%

Prerequisites: none; open to first-year students with instructors permission

Enrollment Limit: 25

Enrollment Preferences: History majors, Latino/a Studies concentrators

Expected Class Size: 15-20

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

AFR 348 (S) The Black Radical Tradition

Cross-listings: AFR 348 PSCI 348 LEAD 348

Primary Cross-listing

The black radical tradition is a modern tradition of thought and action begun after transatlantic slavery's advent. Contemporary social science and the humanities overwhelmingly portray it as a critique of black politics in the latter's liberal, libertarian, and conservative forms. This tutorial unsettles that framing, first by situating the black radical tradition as a species of black politics, and second through expanding the boundaries of black politics beyond the United States. Central to the black radical tradition's architecture are inquiries into the concepts of freedom, race, equality, rights, and humanism; meaning of "radical"; the national-transnational relationship; notions of leadership; status of global capitalism; the nexus of theory and praxis; and revolutionary politics. We begin with examinations of these central notions and debates, and then move to investigations of the political thought of four key late modern Afro-Caribbean and African-American thinkers within the tradition: Walter Rodney, Sylvia Wynter, Cedric Robinson, and Angela Davis.

Requirements/Evaluation: attendance; five 5-page essays, five 2-page critiques, and one 1-page essay for the final class

Prerequisites: none; open to all

Enrollment Limit: 10

Enrollment Preferences: Africana Studies concentrators, Leadership Studies concentrators, and Political Science majors

AFR 351  (F)(S)  Spirits of Rebellion: The L.A. Rebellion Filmmakers  (DPE)

Cross-listings:  ENGL 357  AFR 351  AMST 359

Secondary Cross-listing

When Beyoncé unveiled the *Lemonade* visual album in 2016, her production captured the artistic spirit and gave new life to an earlier work: Julie Dash's *Daughters of the Dust* (1991), a luminous film about three generations of the Gullah people and the first motion picture by a Black woman to obtain wide theatrical release in the United States. Many, however, are unaware of the decades-long cinematic movement to which Dash belongs. In this course, we will devote our critical inquiry to the creative output of the L.A. Rebellion, a group of Black cinematic artists trained at the UCLA Film and Television School between the 1960s and 1990s. Our visual journey will take us through a diverse set of filmmakers like Charles Burnett, Ben Caldwell, Barbara McCullough, Julie Dash, Zeinabu irene Davis, Haile Gerima, Allie Sharon Larkin, Billy Woodberry, among many, many others, and how they sought to not only redefine the Black image on-screen but also reimagine the infinite possibilities of Blackness. We will pay close attention to the heterogeneity of genres, styles, and techniques that they put into practice from narrative to neorealism to documentary to avant-garde/experimental to African and African American musical and storytelling traditions. We will explore the various social and political issues that were represented by their films including: racial and class oppression, Black feminisms, Black Power, Afrocentrism, anti-colonialism and decolonization, police brutality and mass incarceration, radical social movements and coalition building, and the importance of community-based art and film practices. Finally, we will touch upon some of the recent works that have been inspired by the L.A. Rebellion, including the aforementioned *Lemonade* and Barry Jenkins' *Moonlight* (2016). Our viewership will be supplemented with readings in Black social and cultural criticism.

Requirements/Evaluation:

weekly online journal responses (1-2 pages); midterm essay (5-7 pages); final project

Prerequisites:  AMST 101 and/or 301, critical studies in race and ethnicity or cultural studies, or permission of the instructor

Enrollment Limit:  12

Enrollment Preferences:  American Studies majors

AFR 352  (S)  Mystic Spirituality in Black Women’s Social Justice Activism: Brazil-USA

Cross-listings:  REL 352  AFR 352  WGSS 352

Primary Cross-listing

This course examines the meanings and manifestations of mystic spirituality in the lives and work of selected Black women artists/activists in the USA and Brazil. The writings of Lucille Clifton (poet), Rosemarie Freeney Harding (activist and counselor) and Makota Valdina Pinto (activist and Candomblé ritual elder) are key texts for our exploration of the uses of mystic sensibilities and Afro-Atlantic ritual traditions--such as dreams and visions, prayer, divination, sacred dance, healing rites and other forms of unmediated intimate encounter with the sacred--as resources for creativity, community organizing, self-care and as aspects of political and social critique in African American and Afro-Brazilian contexts. The methodology of the course blends historical, literary and womanist approaches in an investigation of the conjunctions of spiritual practice and activism in the experience of
women in the Afro-Atlantic diaspora.

Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages) and a final project

AFR 353  (S)  Digging in the Crates: Making and Unmaking Literary Tradition  (DPE)

Cross-listings: ENGL 352  AFR 353

Secondary Cross-listing

This interdisciplinary seminar focuses on matters of style in literature, art, and music in order to explore and subsequently reimagine how relationships between texts form literary traditions. Instead of assuming what a literary tradition is, and without prioritizing a teleological chronology of literary influence as literary traditions tend to do, we will study work ranging from antiquity to the present, anachronistically and in tandem, in order to better understand how the past speaks to the present and how the present speaks to the past. As a general, if imperfect, rule of thumb we will be working regularly with pairs of texts, one from prior to 1800 and another from after 1800: for example, a Toni Morrison novel with a Homeric epic, the work of Jamaica Kincaid with John Milton’s *Paradise Lost*, or the poetry of John Donne with the lyrics of the Wu Tang Clan.

Requirements/Evaluation: Students will be expected to write a number of one-pages response papers during the semester, two papers in the range of 5-8 pages each, and a final paper of 8-10 pages.

Prerequisites: None.

Enrollment Limit: 16

Enrollment Preferences: In the case of overenrollment, preference will be given to English majors and Africana Studies concentrators.

Expected Class Size: 16

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 352 (D1) AFR 353 (D2)

Difference, Power, and Equity Notes: This course will focus on the educational system as a means of reproducing hierarchies and inequality.

Spring 2021

SEM Section: R1  MW 10:00 am - 11:15 am  Rowan Ricardo Phillips

AFR 356  (F)  The Plantation and Its Afterlife

This course is a meditation on the significance of the plantation in modern life. Rather than treating the plantation as solely a socio-economic formation that utilizes captive labor for the efficient production of goods, we will consider the plantation as a space that has defined, and continues to define, social, economic, and spatial relations. In so doing, we will explore numerous literatures and cultural productions about the plantation in Africa and its diaspora, including historical and sociological studies, fiction, visual art, and music. We will not only interrogate how the plantation form is reproduced over time, but also how it appears in collective memory, and how it enables political mobilization.

Requirements/Evaluation: class participation; two to three short papers (6- to 8-pages); and a 15- to 20-page paper or multimedia final project

Prerequisites: none

AFR 357 (S) Racial and Religious Mixture (DPE)
Cross-listings: REL 314 AFR 357 LATS 327 AMST 327

Secondary Cross-listing

The very term "mixture" implies that two or more distinct substances have been brought together. Distinctions of race and religion are social fictions; yet, the lived ramifications of these social fictions involve tense struggles over the boundaries of racial and religious communities. These boundaries are not just ideas but also practices. In the history of the Americas, mixed racial and religious identities and experiences have more often been the result of violent clashes than romantic encounters. Still, the romanticization of the New World as a geography that makes such mixtures possible reaches back to the earliest days of Spanish conquest in the Americas. This course critically reconsidered varying ways that racial and religious mixtures have been imagined, defined, challenged, negotiated, and survived under imaginative and legal rubrics of mestizaje, creolization, transculturation, passing, syncretism, religious hybridity, and mixed race studies.

Class Format: mostly discussion
Requirements/Evaluation: participation, short writing exercises, a 3-page first essay, a 5- to 8-page second essay, and a 10- to 14-page final paper
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: seniors, concentrators, majors, those with prior relevant coursework
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 314 (D2) AFR 357 (D2) LATS 327 (D2) AMST 327 (D2)

Difference, Power, and Equity Notes: Focusing on how different peoples have critically theorized and made meaning about and out of racial and religious differences and interconnections, this Difference, Power, and Equity course investigates the ways that knowledge about mixture and difference--and their roles in hierarchical distributions of social and political power--have been critically constructed and transformed.

Not offered current academic year

AFR 359 (S) Settler Colonialism, Care, Kinship and Social Reproduction (DPE) (WS)
Cross-listings: AFR 359 AMST 356

Secondary Cross-listing

AMST 356 Settler Colonialism, Care, Kinship and Social Reproduction Contemporary understandings of family, kinship, and care were shaped through the invasion of the Indigenous Americas and Transatlantic slavery. Indigenous nations came to be understood by anthropologists and settler states as governed by a logic of kinship, and this understanding was weaponized by the US and Canada to target Indigenous governance for elimination. At the same time, dominant kinship narratives were defined by the property claims made upon Black lives under settler law and by the state-enforced maternal inheritance of racialized bondage. This course will analyze kinship and care as both mechanisms of state control of Indigenous and Black lives and lands, and as sites of insurgency against colonial states. We will analyze how Canada and the U.S. have deployed Child Protective Services, reproductive regulation, Boarding Schools, plantation economies, land dispossession, and the prison industrial complex to target Indigenous, Black, Brown, working class and trans/queer support systems. Applying methodologies and theoretical interventions in Indigenous studies, Black studies and critical political economy to primary texts to US and Canadian law, autobiography, and anthropology, our focus will move from 17th and 18th century British colonial law to autobiographical accounts of slavery and emancipation, to Canada's 19th century Indian Act, to mid-20th century social scientific debates on Black and Indigenous families. We will end by thinking about insurgent practices of organizing care and kinship outside and against the confines of whiteness, capital and the state. The pedagogical aims of the course are to illustrate how kinship narratives anchor settler colonial nationhood and property regimes, and to facilitate the development of skills in writing and independent research, primary source analysis, and critical analysis of law, anthropology, and policy.

Requirements/Evaluation: Class Participation and three critical response papers at three to five pages each (each receiving critical feedback from
professor); one response paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process. One final paper (15-20 pages) and one roundtable presentation based on the final paper.

**Prerequisites:** Prerequisites: one or more of the following courses: AMST 146, Introduction to Indigenous Studies or AFR 200, Introduction to Africana Studies; HIST 254 / AMST 254(F), Sovereignty, Resistance, and Resilience: Native American Histories to 1865 or AMST 204;

**Enrollment Limit:** 19

**Enrollment Preferences:** AMST majors have first priority, AFRICANA majors have second priority.

**Expected Class Size:** 19

**Grading:** yes pass/fail option, no fifth course option

**Unit Notes:** This course satisfies EITHER the Space and Place elective OR the Comparative Studies in Race, Ethnicity and Diaspora elective

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 359 (D2) AMST 356 (D2)

**Writing Skills Notes:** Explanation: Three critical response papers at three to five pages each (each receiving critical feedback from professor); one response paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process. One final paper (15-20 pages) and one roundtable presentation based on the final paper.

**Difference, Power, and Equity Notes:** This course focuses upon the operations of difference, power and equity in settler colonial governance in the Americas, particularly in terms of how the legal and extralegal regulation of family, kinship and care are sites where racial, colonial, ethnic, gender and sexual difference are produced and reproduced. It aims to provide students with critical tools to become responsible agents of change, by informing them of the ways that concerns for social equity in the field of kinship and family h

**AFR 360 (F) The Political Thought of Frantz Fanon** (WS)

**Cross-listings:** PHIL 360  PSCI 370  LEAD 360  AFR 360

**Primary Cross-listing**

Martinican psychiatrist, philosopher, and revolutionary Frantz Fanon was among the leading critical theorists and Africana thinkers of the twentieth century. Fanon ushered in the decolonial turn in critical theory, a move calling on those both within and outside of Europe to challenge the coloniality of the age and to forge a new vision of politics in the postcolonial period. This course is an advanced seminar devoted to a comprehensive examination of Fanon’s political thought. We will begin with an analysis of primary texts by Fanon and end by considering how Fanon has been interpreted by his contemporaries as well as activists and critical theorists writing today.

**Requirements/Evaluation:** attendance and participation, weekly online reading response papers, a class presentation, two 7-page essays, and one 20-page final research paper

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Africana Studies concentrators, Leadership Studies concentrators, and Political Science majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 360 (D2) PSCI 370 (D2) LEAD 360 (D2) AFR 360 (D2)

**Writing Skills Notes:** Students write weekly online reading response papers, two 7-page essays, and one 20-page final research paper. Students receive written feedback from me throughout, meet with me 1-on-1 to discuss 7-page essays to then revise/re-submit and also receive written feedback before final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year
Readings in American Slavery  This course will delve into how and what historians have written about US slavery for the last century or so. Rather than marching through time, like we might in a survey course, we'll explore the nooks and crannies of slavery's history. We'll consider gender and sexuality, labor and capitalism, regional difference, maritime culture, and every day life. We'll compare histories produced well before the Civil Rights Movement to books written afterward. We'll consider the obstacles and challenges Black scholars faced in the academy and consider the significance of their work. Finally, we'll examine slavery's role in today's world, beginning with the institution's relationship with American universities and continuing on to the recent protests against monuments and statues.

Requirements/Evaluation:  Four written essays/reviews, final paper. Students must also complete reading and contribute to class discussions.

Prerequisites:  None

Enrollment Limit:  12

Enrollment Preferences:  Priority given to History, American Studies, and Africana Studies concentrators/ majors.

Expected Class Size:  10

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 363 (D2)  AMST 368 (D2)  HIST 368 (D2)

Difference, Power, and Equity Notes:  This course will explicitly examine how power worked and changed during the centuries of legal slavery in the United States. Since lawmakers joined power and violence to definitions of whiteness and blackness, we will study how these definitions emerged and changed over time. Students will address issues of violence, legal and extra legal means of continuing slavery through changing political and economic conditions. Additionally, the course will consider the racial barriers in the academy.

AFR 367  (S)  Black History is Labor History  (DPE)

Cross-listings:  AFR 367  HIST 367

Secondary Cross-listing

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antunionism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.

Requirements/Evaluation:  Students are expected to participate actively and will write two comparative essays (5-7 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites:  recommended for students with sophomore standing or above

Enrollment Limit:  25

Enrollment Preferences:  HIST and AFR majors

Expected Class Size:  20

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

AFR 368  (F)  The Diasporic Impulse in African American Art

Cross-listings:  COMP 367  AFR 368

Primary Cross-listing
Since the mid-20th century, growing numbers of African American artists have explored historical, symbolic, and ritual meanings shared by Blacks in the USA and people of African descent in other parts of the diaspora. Using specific visual, musical, literary, and kinetic themes, Black creatives--across genres--develop work that addresses explicit and implicit points of diasporic connection around issues of identity, indigenous/ancestral wisdom, cultural and political critique, and alternative religious orientations. Looking especially at the work of playwright August Wilson, painters John Biggers and Daniel Minter, dancer Katherine Dunham, and sculptor Elizabeth Catlett Mora, this course examines the symbolic and ritual vocabularies of African American art in diasporic perspective.

Requirements/Evaluation: class participation, two to three short papers (5-7 pages), and a final project
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Africana Studies concentrators
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option

AFR 369  (S)  African Art and the Western Museum (DPE) (WS)

Cross-listings:  AFR 369  ARTH 308

Secondary Cross-listing
This tutorial provides a focused study of the issues associated with the exhibition of African objects within Western institutions from the formative period of the practice in the early 19th century to the modern era. Covering topics ranging from early collection and display methodologies to exhibition-based practice in the contemporary digital era, this tutorial will provide an opportunity for robust discussion about the interactions that have occurred between the arts of Africa and the Western museum over the lengthy history of their engagement. Students will investigate the nature of the cross-cultural dialogues taking place and the politics of display at work in regional museum spaces that display African art towards fleshing out how exhibitions function through the strategic organization and display of objects. In other words, students will explore how the dialogues created between objects and individuals often speak to the voices and agendas that collide, collaborate, and even compete with each other within the environment of the museum.

Requirements/Evaluation: field trips to area museums, targeted writing assignments 5-7 pages in length, and peer response papers (two of each type per month)
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Art History and African Studies Majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**Writing Skills Notes:** Targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length). Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** Explores issues of 'authentic' representation as it applies to African artifacts displayed within the contexts of Western art museums. Through discussions of cultural capital, rights of seeing, and the politics of representation, students analyze how the meaning of African 'art' has been dictated by a Western museum culture and how one can disrupt this hegemony through strategic exhibition and display practices.

Not offered current academic year

**AFR 370 (F) The Caribbean and the World: 1945-1968**

**Cross-listings:** AFR 370 HIST 370

**Primary Cross-listing**

The ending of the Second World War in 1945 coincided with the dawn of a new nationalism in the modern Caribbean. The British territories were beginning their shift away from colonialism and charting a path toward independence that would arrive in the early 1960s. Their independent neighbors contended with US imperialism which greatly shaped questions of race, nationalism, and sovereignty. By the 1960s much of the region faced crises that grew out of the tensions of the postwar period. This course examines closely these transformations in the Caribbean. It is divided into three parts.

The course begins with an examination of the ideas about race, state development and empire that dominated Caribbean intellectual discourse of the 1940s. Key texts for this period include the works of Caribbean intellectuals such as Roger Mais, Una Marson, CLR James, and Jacques Roumain who considered the possibilities of racial equality and democracy in the postcolonial Caribbean. The course then looks more closely at 1950s attempts to forge greater Caribbean unity during the early Cold War years. West Indian Federation and the circuits of travel within the Caribbean are given special focus. Finally, the course will discuss challenges of the postcolonial Caribbean by looking at the circumstances and wider responses to regional radicalism in the 1960s. The key events that will be examined in this section include the Duvalier dictatorship, the Cuban Missile Crisis, and black power in Jamaica in 1968.

**Requirements/Evaluation:** class participation, 3-4 short papers (5-7 pages)

**AFR 378 (S) Uncontrollable: Deconstructing Stereotypes of Black Womanhood in the Americas**

**Cross-listings:** AFR 378 WGSS 378

**Primary Cross-listing**

In *Black Feminist Thought* Patricia Hill Collins powerfully illustrates how "portraying African-American women as stereotypical mammys, matriarchs, welfare recipients, and hot mammas has been essential to the political economy of domination fostering Black women's oppression." This course explores how similar social constructions of race and womanhood have evolved in Latin American countries affected by slavery and colonialism. We begin by revisiting Collins' seminal text, as well as the work of other feminist scholars, as a starting point from which to deconstruct controlling images of Black women in Latin American nations. We will then explore clips from films, television series, advertisements, and comic strips to analyze different iterations of stereotypes and their impact on Afro-Latin American women's life chances. The second component of this course will engage with Black
women's resistance throughout Latin America. We will engage songs, poetry, and empirical data on Black women's resistance to examine how they have and continue to challenge stereotypes, educate the public, and construct their own narratives of black womanhood.

Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages), and a final paper (12-15 pages)

Prerequisites: none

AFR 379  (S)  Black Women in the United States  (DPE)

Cross-listings: HIST 379  WGSS 379  AFR 379

Secondary Cross-listing

As slaves and free women, activists, domestics, artists and writers, African Americans have played exciting and often unexpected roles in U.S. political, social, and cultural history. In this course we will examine black women's lives from the earliest importation of slaves from Africa and the Caribbean through to the expansion of slavery, the Civil War, freedom, Jim Crow, the Civil Rights movements, and up to the present day. Consistent themes we will explore are the significance of gender in African American history and the changing roles and public perceptions of black women both inside and outside the black community. We will read and discuss a combination of primary and secondary sources; we will also consider music, art, and literature, as well as more standard "historical" texts.

Class Format: discussion

Requirements/Evaluation: student participation, three papers, and a brief oral presentation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: History, WGSS, and American Studies Majors, and Africana Concentrators.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

**AFR 382 (S) Contemporary Afro-Latin American Social Movements**

This seminar course will provide students with an introduction to diverse histories, political beliefs, and mobilization strategies of 20th and 21st century Afro-Latin American social movements, as well as their relationship with their respective governments. Primary documents, audiovisual texts and social science research will complement lectures and class discussions to prepare students to discuss the contributions and critiques of the movements within broader discussions of the politics of blackness in the African Diaspora. While the course focuses on contemporary experiences activism, each topic is introduced with a historical overview of African-descended peoples in Latin America. By the course's conclusion, students should be able to discuss a wide range of ideas, experiences, and strategies of black politics in the Latin America as well as the similarities in themes and characteristics that have shaped much of the experiences. Furthermore, students should be able to assess the ways in which black movements in Latin America have: challenged hegemonic narratives, approached politics of culture and multiculturalism, contested invisibility, utilized transnational diasporic politics, and (re)defined conceptualizations of citizenship and belonging.

**Requirements/Evaluation:** in-class participation, weekly reading responses, a book review, and a final paper and presentation

**Prerequisites:** none

**Enrollment Limit:** 13

**Enrollment Preferences:** Africana Studies concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

---

**AFR 383 (S) Race and Ethnicity in Latin America**

**Cross-listings:** AFR 383 HIST 443

**Secondary Cross-listing**

Race and ethnicity have been central to the formation of national identities in Latin America, as well as to the creation of transnational networks that include Latin Americans. This seminar will critically examine familiar characterizations of Brazil and other countries as "racial democracies" and look at the historical roots and political impact of both "positive" and "negative" stereotypes of race relations in the region. To do this we will explore the rise and decline of slavery, the changing constructions of indigenous and Afro-Latin American identities at national and transnational levels, and to the emergence of new Black Movements and other racial and ethnic activism in Colombia, Guatemala, Brazil, and elsewhere.

**Requirements/Evaluation:** class participation, one short paper, and a substantial (20-25 page) research paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** History majors and Latino/a Studies concentrators

**Expected Class Size:** 10-15
AFR 386 (S) Democratic Vistas
Cross-listings: ENGL 391 AFR 386

Primary Cross-listing
This seminar will focus on the ways in which texts create nuanced representations of democratic ideals and practices as well as, of course, representations of the failures of democratic ideals and practices. Our goal will be to explore how literature encourages readers to think about democracy, and what impact that can have on our lives as readers and citizens. To this end, we will study work across five genres—poetry, fiction, non-fiction, photography, and film—to arrange and enhance our sense of how plot, structure, figuration, and allusion occupy themselves with the challenge of the Democratic Vista: which is to say with visions of what democracy is, has been, and has the potential be. Among the texts and authors likely to be studied are Robert Hayden, Ralph Ellison, Toni Morrison, Don DeLillo, Jamaica Kincaid, Ishion Hutchinson, Natalie Diaz, Octavia Butler, Colson Whitehead, Morgan Parker, Nana Kwame Adjei-Brenyahm Teju Cole, and contemporary films such as Ryan Coogler's BLACK PANTHER and Boots Riley's SORRY TO BOTHER YOU.

Requirements/Evaluation: attendance and participation, two short essays, and a 12- to 15-page final paper; additional requirements will include film screenings outside of class, interactive (e.g., Skype, etc.) author visits inside of class, and campus talks germane to the seminar

Prerequisites: none, open to all students

Enrollment Limit: 15

Enrollment Preferences: Africana Studies concentrators and English majors

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Not offered current academic year

AFR 390 (F)(S) Race, Identity, Nature (DPE) (WS)
Cross-listings: ENVI 430 AFR 390 AMST 430

Secondary Cross-listing
From 18th-century claims that climate determined character to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, race, colonialism, identity, and "nature" operate as interconnected terrains of power. Anchored in the contexts of U.S. colonialisms, racialization, and accumulation, this course aims to expose students to the cultural politics of "nature" as a way of "doing" American Studies. Specifically, this course investigates formations of and struggles against U.S. colonialisms, racialization, and accumulation via the many symbolic and material iterations, negotiations, and contestations of the contingent relations between and among human and non-human natures. Organized around a significant research paper and weekly written responses, this course ultimately aims to foster students' critical writing, reading, analytical thinking, and comparative inquiry skills across such contexts and sites of contestation, and across texts of different genres and media. We will work with a wide range of primary sources, including published fiction and poetry, legal documents, newspaper articles, speeches, recorded songs, and films, photos, paintings and other visual culture. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward non-human natures, as well as analyze how ideas of "nature" mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Class Format: This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the
same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

**Requirements/Evaluation:** Evaluation will be based upon the following: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Final Research Essay: 50%, broken down by Research Proposal (2-3 pgs, 10%), Peer Review and Feedback (2 pgs, 10%), Presentation (10%); Essay (15 pgs): 20%. Class will meet twice per week. Tu. meetings will be synchronous and Th. meetings will be asynchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** American Studies majors will be given preference; secondary preference given to students specializing in Native American and Indigenous Studies, as well as Africana and Environmental Studies majors.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**Writing Skills Notes:** Emphasis on revision and writing process includes: One thesis paper at 15 pages (receiving critical feedback from professor and peers); one thesis paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process; one research proposal (including thesis outline and annotated bibliography of primary texts) with critical feedback from professor; student presentations and roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** By the end of this course, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation. In order to addresses such issues of difference, power, and equity, this course provides students with the necessary th

---

**AFR 405 (S) CAPSTONE: Africana Studies and the Disciplines**

Of the many things that distinguish Africana Studies from other fields of knowledge, most remarkable are its creative uses and critiques of disciplinary perspectives. In some instances, a scholar in the field might move between disciplines; in others, a scholar might integrate two or more disciplines into one point of view. Disciplinary creativity accommodates the array of information—written texts, music, visual art, film—that contributes to our understanding of the African Diaspora. This seminar will illuminate the disciplinary nuances and challenges of studying people of African descent. After outlining genealogies of Africana Studies and the field's complicated relationships to social science disciplines, students will closely read classic texts by some of the pioneers in the field and explore their uses of disciplinary perspectives. In the latter half of the course, students will have the opportunity to design and conduct their own research projects with the aforementioned disciplinary concerns in mind.

**Requirements/Evaluation:** class participation, a couple of short papers and the completion of a final research paper or project

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Africana Studies concentrators

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

AFR 440  (F)  CAPSTONE: Performing Blackness

In modern parlance and scholarship, blackness is understood not as a biological but rather a socially constructed phenomenon. This course extends common perceptions by working from the foundational concept that blackness is not only social construction but also performance and lived experience. Using the lens of performance on racial identity foregrounds the active and shifting nature of race in contrast to the potentially passive, static connotation of construction. But what is this term performance that is now so widely used as to be an anathema? In this course, we explore performance broadly as entertainment, representation, social function, and lived experience. By the end of the course, students will analyze multiple performance types from theatrical and dance performance to performance of race in everyday life. They will also study and practice at least four core black performance studies methodologies: oral interpretation of literature, ethnography, written performance analysis, and embodied performance (i.e. movement, music and/or theatre). In this way, students will begin to understand performance as both subject matter and method. The course will be structured around discussions, written responses, and performance exercises that help students analyze and practice each methodology. At the end of the semester, students will create final creative research projects that articulate key theories of black performance studies and draw on at least one of the featured performance methodologies. While preference is given to Africana Studies concentrators, students are not required to have prior performance experience.

Class Format: This is a hybrid class that welcomes students' participation remotely and/or in the physical classroom. It will include a mix of online synchronous and asynchronous meetings alongside meetings in the classroom. This term the course will feature performance methodologies most receptive to social distancing, such as visual art, spoken word and music. There may also be field trips to important sites, which will follow university safety guidelines.

Requirements/Evaluation: class participation, performance exercises, response papers, and a final creative research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Africana Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

AFR 450  (S)  CAPSTONE: Sylvia Wynter, Black Lives, and Struggle for the Human

Cross-listings: PSCI 372  AFR 450

Primary Cross-listing

How do we judge the value of life? What is the significance of death and arbitrary threats to our existence? Why probe modern notions of black and blackness? What defines optimism, pessimism, enslavement, freedom, creativity, and being human? Do black lives matter? This capstone seminar will explore these and related questions through an examination of the life and work of Jamaican novelist, playwright, cultural critic, and philosopher Sylvia Wynter. Methodologically interdisciplinary, the course shall examine written and audiovisual texts that explore Wynter’s inquiries into the central seminar queries. We will study figures and movements for black lives whose geopolitics frame the milieu of Wynter's work. Our examination of intellectuals and activists, with their explicit and implicit engagements with Wynter, shall facilitate assessing the possibilities, challenges, and visions of black living. We will also explore the current implications of Wynter's thought for Africana political theory, Afro-futurism, social justice, human rights, and critiques of liberal humanism. In the latter half of the course, students will have the opportunity to design, conduct, and present their own final research projects.

Class Format: Remote format. This class will be taught synchronously primarily.

Requirements/Evaluation: attendance and participation; a 7-page midterm essay; class presentation; and a final research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Africana Studies concentrators and Political Science majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

SEM Section: R1    MW 10:00 am - 11:15 am     Neil Roberts

AFR 476 (F) CAPSTONE: Black Radicalism
Cross-listings: AFR 476 HIST 476

Primary Cross-listing
Amandla! Black Power! Venceremos! A Luta Continua! Ever since the end of slavery—brought about by the Haitian Revolution, slave rebellions, maroons, Quilombos, Civil War and various other means of resistance—transatlantic people of African descent have demanded radical change in the organization of modern societies. Their struggles and ideas have changed the ways we think and study—through the formation of Africana/African-American/Black-Studies—and the ways in which we express ideas—through the creation of rich traditions of music, dance, theater, poetry, carnivals, sculpture, and art that have acted as global conduits of cultures of resistance. In this Senior Seminar, we will study the most tumultuous period of Black radicalism in the 1960’s, focusing on the Black Panther Party, the League of Revolutionary Black Workers, the Third World Women's Alliance/Angela Davis, and Caribbean and African radical movements, with an eye to examining their relevance to Black radical movements today.

Requirements/Evaluation: student participation, a take-home mid-term paper, and the completion of an original research paper or project; all projects will have some written component, but may include a dance performance, spoken word, fieldwork, etc.
Prerequisites: none; open to all
Enrollment Limit: 15
Enrollment Preferences: Africana Studies concentrators; History majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)

Winter Study -----------------------------------------------------------------------------------------------

AFR 30  (W)  Sen Project: Africana Studies
To be taken by students registered for Africana Studies 491 who are candidates for honors.
Class Format: independent study
Grading:  pass/fail only
Not offered current academic year

AFR 99  (W)  Ind Study: Africana Studies
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading:  pass/fail only
Not offered current academic year
AMERICAN STUDIES (Div II)
Chair: Professor Dorothy Wang

- Hossein Ayazi, Visiting Assistant Professor of American Studies
- Maria Elena Cepeda, Chair and Professor of Latina/o Studies; affiliated with: Women, Gender & Sexuality Stdy, American Studies Program
- Cassandra J. Cleghorn, Senior Lecturer in English and American Studies; affiliated with: American Studies Program; on leave Spring 2021
- Anthony Y. Kim, Visiting Assistant Professor of American Studies
- Margaux L Kristjansson, Mellon Postdoctoral Fellow in Native American and Indigenous Studies in the American Studies Program
- Alexandar Mihailovic, Visiting Lecturer in American Studies
- Eli Nelson, Assistant Professor of American Studies
- Jan Padios, Associate Professor of American Studies
- Ahmed Ragab, Richmond Visiting Professor; affiliated with: Religion Department, American Studies Program
- Mark T. Reinhardt, Chair and Class of 1956 Professor of American Civilization; affiliated with: American Studies Program
- Dorothy J. Wang, Professor and Chair of the American Studies Program

GENERAL PROGRAM DESCRIPTION
The American Studies Program, a ten-course major, uses interdisciplinary approaches to develop students’ understanding of the complexity of the culture(s) usually labeled “American.” Examining history, literature, visual media, performance, and other forms of expression, we explore the processes of cultural definition as contested by diverse individuals and groups. We ask new questions about aspects of American life long taken for granted; we also use American culture as a laboratory for testing classic and contemporary theories about how cultures work.

NON-MAJORS, FIRST-YEAR STUDENTS, AND SOPHOMORES
America: the Nation and Its Discontents, our introductory course, is open to non-majors including first-year students, who are especially encouraged to take the class. All elective courses are open to students who meet the requirements or prerequisites specified in the course description. American Studies 301, the junior seminar required of majors, is open to non-majors with permission of the instructor.

COURSES AND COURSE NUMBERING
American Studies offers courses at all levels. Our 100-level electives, which give preference to first-year students, explore a substantive topic in-depth without seeking to introduce the field as a whole. Our introductory course, AMST 101, explores broad patterns of power and imagination, struggle and social change in American culture but also introduces the interdisciplinary approach and diverse cultural artifacts, genres, and media that distinguish American Studies as a form of inquiry. Both this course and our occasional 200-level electives are appropriate for students at all levels, including first-years. The intermediate electives at the 300-level are offered primarily for juniors and seniors, although, when space and instructor policy permits, they are open to sophomores. All majors are required to take AMST 301, the junior seminar, which teaches students how to employ theories and methods central to the field. The 400-level courses designated as senior seminars are designed for senior majors, though other students (majors and non-majors) with appropriate preparation are typically welcome in these courses as well.

THE MAJOR
Required Courses
- American Studies 101, America: the Nation and Its Discontents
- American Studies 301, Junior Seminar
- One 400-level course designated Senior Seminar

 Elective Courses
 Seven courses: four should be chosen from your primary specialization field; the remaining three electives must represent each of the remaining three fields, to ensure breadth of your study. At least one of your seven electives should cover pre-1900 American history or culture.

THE DEGREE WITH HONORS IN AMERICAN STUDIES
ELIGIBILITY AND APPLICATION FOR HONORS
Candidates for honors in American Studies will undertake a substantial, year-long, independent project during their senior year. Applicants should have a consistent record of high achievement in courses taken for the major, and normally will have done work in the field of study of their proposed thesis. Students who wish to write or produce an honors project should consult with both the chair and a prospective faculty adviser in the fall or winter of their junior year. Students who wish to pursue honors must submit a brief proposal describing their project to the Chair of the American Studies Program by the time of spring registration of their junior year. Final admission to the honors thesis program will depend on the AMST advisory committee’s assessment of the qualifications of the student and the merits and feasibility of the project (including the availability of relevant faculty advisers). If your thesis is approved, you will enroll in AMST 491/Winter Study/AMST 492. These courses, taken together, count as one of your required electives.

**TIMELINE FOR AMERICAN STUDIES HONORS THESIS STUDENTS**

The fall and winter study deadlines vary widely, depending on your own rhythms, the timing of your meetings with your adviser, etc. The first part of the fall is typically devoted to refining the questions at the heart of your project, and the scope of your argument (including literature review, archival research, etc.) Most students begin this work over the summer. We encourage our students to start writing as soon as possible. Typically, we aim to have students write a draft of one substantive chapter and the introduction by the end of finals week in fall semester, though some have produced two substantive chapter drafts instead.

January is very important. Many pages of new writing and editing of previous work will can be done in this period. Occasionally, seniors will meet together in an informal thesis colloquium. The goal for Winter Study, generally speaking, is to know by the end of it what you will need to write in the last push as Spring semester begins. Your biggest push will come in February and March. All writing and revisions should be done by the end of spring break. Here are the approximate deadlines:

- Immediate after Spring Break: draft of entire thesis is due to your adviser and your two readers;
- Two – three weeks later: deadline for readers to respond to you with comments/suggestions;
- Wednesday of the last week of classes: final version of thesis due to readers.

Senior thesis writers will share their work with interested faculty and students in a public presentation in the last weeks of the spring semester. Designation of Honors or Highest Honors will be decided by the faculty at the end of the semester.

**ADVISING**

All majors will be assigned a faculty adviser. Majors must meet with their adviser during the first week of classes during the fall semester and at the time of the spring semester registration period in order to have their courses and plans for the American Studies major approved. Both majors and non-majors are encouraged to talk at any time with the program chair or other affiliated faculty about the major.

**AMERICAN STUDIES AND OTHER PROGRAMS**

Students majoring in American Studies are encouraged to consider pursuing concentrations in Africana Studies, Environmental Studies, Latina/o Studies, Performance Studies, and Women’s, Gender and Sexuality Studies. Many of the courses counted for those concentrations may also earn credit toward the American Studies major.

**STUDY AWAY FROM WILLIAMS**

We encourage students to pursue cross-cultural comparative studies. A major in American Studies can be combined with study away from Williams for a semester or a year if plans are made carefully. Many courses that will be approved for College credit may also count toward the American Studies major. Many of the courses offered by Williams at Mystic Program also count toward the major. Please see the chair if you have questions about how your study abroad may enhance your American Studies experience.

Students planning to be away in the junior year should have taken American Studies 101 before they leave; those who can take the Junior Seminar before they go away are strongly encouraged to do so. Students should consult as early as possible with the chair or their adviser about their plans for fulfilling the requirements of the major.

**SPECIALIZATION FIELDS**

To provide focus for work in the major, each student will choose one of the specialization fields listed below and record this choice when registering for the major. (This commitment can be revised, in consultation with the chair.) At least four electives should be taken from this primary field.

**ARTS IN CONTEXT**

This specialization is for students interested in American arts, literature and media. Its approaches are interdisciplinary: it trains students to examine cultural artifacts with attention to aesthetic form and to the contexts—historical, social, political—that determine and situate those forms. Broadly, it asks how history has shaped the arts and media and how the arts and media have shaped how we think and who we are. Students in this specialization take courses across a range of genres and media: poetry, fiction, music, film and video, pop culture, visual culture, performance,
Students may check with the program chair to see if other courses not listed here might count as electives.

THEA 275 T / ENGL 224 / AMST 275(F) American Drama: Hidden Knowledge
COMPARATIVE STUDIES IN RACE, ETHNICITY, AND DIASPORA

This interdisciplinary specialization examines the role of race, ethnicity, and diasporic movements in the construction of American identities. Students explore how experiences and concepts of race and ethnicity are transformed through the processes of diaspora and immigration. These courses may encompass a broad spectrum of fields such as history, literature, religion, politics, anthropology, gender studies, media and the performing arts, among others. NOTE: Concentrators in this area are required to take a combination of courses that will allow them to comparatively assess the experiences of at least two ethno-racial groups in the Americas.

CRITICAL AND CULTURAL THEORY
Critical and cultural theory is for students who want their American Studies work to combine philosophy, aesthetics, and social thought. Its approach is methodological, conceptual, and problem-driven. Students combine courses in feminist theory, anti-imperial and postcolonial theory, literary theory, critical race theory, queer theory, psychoanalysis, Marxism, and other counter-traditions in political theory and philosophy.

AMST 101 (F)(S) America: The Nation and Its Discontents (DPE)

American Studies is a capacious, interdisciplinary, and extraordinarily varied field encompassing ethnic studies, women and gender studies, political science, media studies, history, anthropology, literature, ethnography, and more. "America" as a term is itself contentious. Is America transnational and transhistorical? Does America mean the United States? Is it a settler colonial empire? A symbol of liberal democracy? Who or what is American and who or what makes America? In asking and answering these questions, American Studies scholars value scholarship and teaching rooted in
praxis, political relevance, intersectionality, and solidarity. In this course, we will anchor the dizzying array of methods and questions surrounding who, what, where, when (and why) is America(n) by focusing on the very real ways these subjects are embodied -- in environments, practices and artifacts, and in the bodies of people who labor under, are colonized and oppressed by, who resist, refuse, reform, and reimagine "America." The goal of this course is to explore the myriad and contradictory ways in which America has been made and unmade, training students in primary source analysis, including political manifestos, autobiographies, historical and archival materials, legal documents, ethnography, art, literature, music, and film.

**Class Format:** This course will be taught remotely, with a combination of synchronous and asynchronous meetings, assignments, short lectures, and opportunities for engagement (e.g. Zoom, Glow, Panopto & Loom). In the time slots assigned to this course, there will be a single, collective meeting every week, as well as weekly meetings of small groups in which readings are further discussed.

**Requirements/Evaluation:** Evaluation will be based on class participation, weekly reading questions (via Glow quiz), and series of written assignments (three 3-page papers; and one 5- to 7-page paper).

**Prerequisites:** none

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement in its constant interrogation of historical patterns of unequal access to power, wealth, citizenship, and education in the U.S., and in its recognition and analysis of forms of resistance to and corrections of such inequities.

---

**AMST 105  (S)  American Girlhoods  (DPE) (WS)**

**Cross-listings:** AMST 105  WGSS 105  ENGL 105

**Secondary Cross-listing**

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

**Requirements/Evaluation:** at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 105 (D1) WGSS 105 (D1) ENGL 105 (D1)

**Writing Skills Notes:** Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course considers the construction of girhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.
AMST 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: WGSS 113 ENGL 113 AMST 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 113 (D1) ENGL 113 (D1) AMST 113 (D1)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

AMST 114 (S) Of Caravans and Narcos: U.S. Media Narratives about Central and South America (DPE)

Cross-listings: LATS 114 AMST 114

Secondary Cross-listing

What do contemporary U.S. media discourses about Central and South America reveal about relationships of power in the Americas? How does the systematic analysis of visual, textual, and sonic media discourse enhance our comprehension of broader social dynamics? How do South and Central Americans in the diaspora actively counter dominant media narratives about their communities? And what does it mean to center the unique histories, cultures, and political contexts of diasporic Central and South Americans within Latina/o/x Studies? Drawing from a wide range of scholarly materials and media platforms, this interdisciplinary course assumes a transnational approach to these issues, with an emphasis on how to conduct effective discourse analysis of everyday media texts. Above all, we will highlight the ways in which ethno-racial identity, gender, sexuality, class, and nation intersect to inform mainstream U.S. media narratives and our understandings of past and present modes of representation.
Class Format: discussion

Requirements/Evaluation: two short (5- to 7-page) essays; one class presentation; final take-home examination (5-7 pages)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: LATS concentrators by seniority; AMST majors by seniority

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

LATS 114 (D2) AMST 114 (D2)

Difference, Power, and Equity Notes: This course encourages students to develop critical thinking skills regarding the intersection of categories of difference (including ethno-racial identity, gender, sexuality, class, and nation) employing a variety of scholarly materials and every day media texts. Students will be encouraged to consider past and current relationships of power across the Americas with an eye towards how attitudes towards Central and South Americans shape representations of these communities in the Global North.

Not offered current academic year

AMST 125  (F)(S) Introduction to Asian American and Pacific Islander Studies  (DPE)

This course covers topics and approaches salient to contemporary Asian American and Pacific Islander (AAPI) Studies as an interdisciplinary field of scholarship and activism. Drawing on primary source documents, scholarship, visual media, and creative work, we will look at cross-racial solidarity and organizing, anti-Asian exclusion and xenophobia, war and refugee communities, public and mental health, and immigration histories and experiences. We will ground our inquiry in the social movements from which the field emerged in the late-1960s and 1970s, then move on to address foundational terms for Asian American and Pacific Islander scholars, such as race, citizenship, queerness, empire, transnationalism, and Indigeneity. Throughout the course we will stay attentive to overlapping histories between AAPI and Native, Indigenous, Black, and Latinx people and communities. Students will also have a number of opportunities to practice analytic writing, do creative work, engage in personal reflection, and participate in community building.

Class Format: This course will be conducted remotely. International students should contact the professor by email if interested.

Requirements/Evaluation: Weekly: an average of 50 pages of reading and/or watch a documentary film; view a pre-recorded mini-lecture made by the professor; submit 200-300-word responses to readings and a 75-100-word discussion question; participate in synchronous class discussions or synchronous small-group discussions with the professor. Three free passes on these assignments. 3x per semester: 3-page writing or creative assignments, including letter writing, interviewing a classmate, analyzing a passage from a historical document, or close reading a scene from a film or story. Final: Each student will participate in a class-wide final project.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: If over enrolled: first-year students, AMST majors, or graduating students without prior experience with the topic

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course defines "Asian," "Asian American," and "Pacific Islander" as categories of social difference created through historical conditions (e.g. migration, imperialism) that change over time. These terms also refer to forms of personhood with racial, national, and ethnic meaning determined by unequal distribution of power and resources. Students in the course are asked to understand, engage, and articulate these differences, historical, and social process.

Fall 2020

SEM Section: R1  TF 1:30 pm - 2:45 pm  Jan  Padios

Spring 2021

SEM Section: R1  TF 1:30 pm - 2:45 pm  Jan  Padios
AMST 128  (S)  Reading Asian American Literature
Cross-listings:  COMP 128  ENGL 128  AMST 128

**Primary Cross-listing**

Though the category and term "Asian American" came about as a result of political struggle in the 1960s, what we now call Asian American writing in English began in the nineteenth century and has played a significant role in every American literary "movement" from Modernism, realism, protest literature to various avant-gardes, the graphic novel, and digital poetries. This course closely reads a sampling of texts in a variety of genres and styles-produced by writers from various Asian American ethnic groups-from the late nineteenth century to the present and contextualizes them historically, both domestically and globally. We will examine the material, cultural, political, and psychic intersections of larger structural forces with individual writers and texts. Along the way, we will interrogate the notion of "Asian American"--its contradictions, heterogeneous nature, and our assumptions--and its relation to the idea of "American." Some questions we will ask: "Why have Asian Americans and Asian American writers and writing so often been viewed as 'foreign' or 'alien' to the American body politic and the English-language literary tradition?" "How might Asian American writing be linked to other English-language texts in the Asian diaspora?"

**Requirements/Evaluation:** six 2-3 pp. papers, participation (attendance, discussion, GLOW posts), and a final project (the final project is 7-9 pages: either a creative project or an analytical paper)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** prospective AMST or ENGL majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 128 (D2) ENGL 128 (D1) AMST 128 (D2)

Not offered current academic year

AMST 132  (F)  Contemporary Africana Social and Political Philosophy
Cross-listings:  AMST 132  AFR 132  PSCI 132

**Secondary Cross-listing**

This introductory seminar investigates the relationship between three major schools of thought in contemporary Africana social and political philosophy, namely the African, Afro-American, and Afro-Caribbean intellectual traditions. We will discuss a range of thinkers including Aimé Césaire, Angela Y. Davis, Édouard Glissant, Kwame Gyekye, Paget Henry, bell hooks, Charles W. Mills, Nkiru Nzegwu, Lucius Outlaw, Oyèrónke Oyewùmi, Tommie Shelby, and Sylvia Wynter. A primary goal of the course is to provide students with the intellectual resources to decipher problems central to philosophical discourse and to allow students an opportunity to apply what they learn to critical issues in current geopolitics.

**Requirements/Evaluation:** attendance and participation, two 5- to 7-page essays, and one 10-page final paper

**Prerequisites:** none; open to all

**Enrollment Limit:** 15

**Enrollment Preferences:** first- and second-year students

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 132 (D2) AFR 132 (D2) PSCI 132 (D2)

Not offered current academic year

AMST 142  (F)  AlterNatives: Indigenous Futurism and Science Fiction  (DPE)
Cross-listings:  AMST 142  STS 142

**Primary Cross-listing**
Indigenous people occupy a paradoxical position in time. On one hand, as survivors of genocide and occupation, they are already post-apocalyptic, occupying what many Indigenous thinkers argue is "our ancestor's dystopia." On the other hand, Indigenous people are relegated to the past in settler and colonial discourses, which, in relying heavily on notions of contact, authenticity, and vanishing, preclude Indigenous peoples from not only futurity, but from modernity and associated visions of science and technology too. This tutorial explores how Native science fiction imagines and enacts futurity from this paradoxical Indigenous temporality. Looking across numerous national and transnational Indigenous contexts, in addition to different kinds of media, including short stories, novels, visual art, video games, films, and online platforms like second life, this tutorial foregrounds the ways in which science fiction functions as a mode of Indigenous theory, knowledge production, and claiming of not only the future but of the past and present, as well. Pairing media readings with works in science fiction and Indigenous studies, we will explore the role of indigeneity in the founding and tropes of European and settler science fiction, Native "slipstream" and eco SF, post-post-apocalyptic thinking, space travel and frontiers, Native pessimism, and Indigenous technologies and epistemologies cast into the future. We will pay careful attention to the political stakes of these narratives and expression for Indigenous sovereignty and self-determination.

Requirements/Evaluation: attendance and participation, weekly 2- to 4-page written responses to class readings, short fiction prompts, and your partner’s writing

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 142 (D2) STS 142 (D2)

Difference, Power, and Equity Notes: This course will underscore the ways in which structures like race, gender, sexuality, and colonialism are deeply imbedded in every form of cultural production, and will highlight how imagining the future otherwise has real impact and import in the lives and political existence colonized people.

Not offered current academic year

AMST 146 (F) Introduction to Native American and Indigenous Studies (DPE)

What does it mean to be a citizen of an Indigenous nation? Why are there laws against selling inauthentic Native American art? Who is two spirit and what obligations and politics does that position and identity entail? Where do we locate tradition and Indigenous peoples in time? In this course, we will address these questions and more, surveying indigeneity as it is constructed and expressed in historical narratives, activism and education, governance and identity, art and literature, science and religion, and gender and sexuality. Knowledge of the Indigenous is a foundational element of the United States. From missionaries documenting Indigenous languages, to sports mascots, DNA testing, and even to New Age spirit quests and sweat lodges, the coherence and legitimacy of this settler colonial empire has demanded expertise in and the appropriation of Indigenous bodies, knowledges, and cultures as a means of continually displacing and erasing them. And yet, that is not the only way to produce knowledge of, by, and with Indigenous people. Indigenous Studies provides a variant way of thinking and learning about indigeneity. The imperative of Indigenous Studies is to understand Indigenous peoples on their own terms and the world on those same terms. In this course we will explore not only questions related to Native America today, but also the various reasons and implications for why we study it.

Class Format: This course will be taught remotely. Class sessions will include asynchronous lectures and Zoom-based discussion sections. Additionally, we will interact through online message boards and group film screenings.

Requirements/Evaluation: attendance and class participation, three 3- to 5-page essays, and one in-class presentation

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: American Studies majors or first- and second-year students

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course addresses the dynamics of power inherent in studying Indigenous people in the academy, and will provide students the vocabulary and framework necessary to interrogate how settler colonialism and Indigenous survivance intersects with questions
of race, gender, sexuality, and the construction of difference.

Fall 2020
SEM Section: R1    MR 3:15 pm - 4:30 pm    Eli Nelson

AMST 157  (S)  1960s and U.S. History   (WS)
Cross-listings:  HIST 157   AMST 157
Secondary Cross-listing
This 100-level seminar will introduce students to the craft of history through the study of the 1960s, an important decade in American history (indeed, the world). In the U.S., this decade was marked by the on-going war in Vietnam, the struggle against racial inequality and racist oppression, changes in attitudes toward sex and sexuality, music, the role of youth culture, advances in technology, the rise of new expressions of American conservatism, and other tumultuous transformations in politics, culture, and the economy.
Requirements/Evaluation:  two 3-- to 5--page papers based on readings; a 5-- to 7-page oral history project; research precis, annotated bibliography; final 10--page research paper; class participation
Prerequisites:  first-years
Enrollment Limit:  19
Enrollment Preferences:  first-years
Expected Class Size:  15
Grading:  no pass/fail option,   no fifth course option
Distributions:  (D2)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 157 (D2)   AMST 157 (D2)
Writing Skills Notes: Precis and annotated bibliography will receive critical feedback from professor and peers, and dedicated time in class to discuss assignments and traits of effective history writing. On all papers students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
Not offered current academic year

AMST 167  (S)  Let Freedom Ring? African Americans and Emancipation   (WS)
Cross-listings:  AFR 167   HIST 167   AMST 167
Secondary Cross-listing
This course will examine African Americans' transition from slavery to freedom. In the years that encompassed the Civil War and immediately after, most African Americans changed from being legal property, able to be bought, sold, mortgaged, rented out, and leveraged into U.S. citizens, with the Constitutional right to male suffrage. This course examines this transition. How did it come about? To what extent were African Americans able to exercise their rights that the constitution guaranteed? How did Emancipation shape African American family relations, culture and demography? This is a research seminar. We will examine work of historians and discuss the contradictions and nuances of emancipation. Readings will include monographs, scholarly articles and heavy dose of primary sources, as many as possible written by African Americans themselves. Assignments include an original research paper on an aspect of Emancipation. We will devote considerable time throughout the semester to finding primary and secondary sources and on the writing process.
Requirements/Evaluation:  research paper, short writing assignments, class participation
Prerequisites:  first-years and sophomores
Enrollment Limit:  19
Enrollment Preferences:  first-years, and then sophomores who have not previously taken a 100-level seminar
Expected Class Size:  19
Grading:  yes pass/fail option,   yes fifth course option
Distributions:  (D2)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 167 (D2) HIST 167 (D2) AMST 167 (D2)

Writing Skills Notes: Students will work throughout the semester on research paper that concerns Emancipation in the US. Students will turn in segments of this paper in separate assignments. During the final weeks of the course students will stitch these components together. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021
SEM Section: R1 TR 9:45 am - 11:00 am Gretchen Long

AMST 200 (F)(S) Ethnographic Directions (DPE)
This course introduces students to the practice and politics of ethnography, broadly defined as the study and representation of people, culture, and society. We begin the semester by looking at the history of ethnographic methodologies in anthropology and sociology, and examining how ethnography can be decolonized. We then read several examples of ethnographic research related to marginalized or minority groups in the U.S. -- such as undocumented migrants from Latin America, formerly unsheltered Black girls, or Diné fighting resource extraction on the reservation -- along with articles that illuminate issues of power, observation, consent, and representation in ethnographic research. Through readings, discussion, and engagement in ethnographic exercises, students will gain familiarity with the different phases or components of conducting ethnographic research, while also considering different styles of ethnographic production, including creative work. While this course is designed to look specifically at ethnographic directions that intersect with the interdisciplinary field of American Studies, it is open to any student interested in exploring many of the pressing social issues of our time (such as mass incarceration, refugee resettlement, and drug addiction); committed to thinking critically about how to study these problems; and creating communities of care and solidarity for fighting, and quite possibly, solving them.

Class Format: This course will be conducted remotely. International students should contact the professor by email if interested.

Requirements/Evaluation: Weekly: Average 50 pages of reading; submit 200-300-word responses to readings and a 75-100-word discussion question; participate in synchronous class discussions. Three free passes given on these assignments. Three times per semester: Short ethnographic research assignments, such as conducting (socially distant) observation or an interview; coding a transcript; or writing a mini-research proposal. Final: 1) a 5-page scholarly book review of one single-authored ethnographic work. OR 2) a 5-page scholarly blog post about a particular issue in ethnography.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Enrollment preferences if over enrolled: AMST majors, students seeking methods courses

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course covers a range of ethnographic studies of people and cultures around the world, with particular attention to scholarship in which power relations and structural analysis are central. Students are asked to discover how scholars use ethnographic methods to account for differences within and between communities.

Fall 2020

AMST 201 (S) Cold War Intellectuals: Civil Rights, Writers and the CIA (DPE)

Cross-listings: AFR 224 PSCI 221 AMST 201 LEAD 220 INTR 220

Secondary Cross-listing
This tutorial focuses on US-based views of the Cold War. It examines how intelligence agencies and intellectuals, as well as government officials, viewed civil rights, human rights, and US hegemony. Readings include: Williams J. Maxwell (F. B. Eyes: How J. Edgar Hoover's Ghostreaders Framed African American Literature); James Baldwin (The Fire Next Time); Ralph Ellison (The Collected Essays of Ralph Ellison); Report to the President by the Commission on CIA Activities Within the United States (1975, VP Nelson Rockefeller, chair); Hugh Wilford (The Mighty Wurlitzer: How the CIA Played America); Hannah Arendt (The Origins of Totalitarianism; On Violence; “Reflections on Little Rock”); Frances Stonor Saunders (Who Paid the
Piper? The CIA and the Cultural Cold War. Students alternate weekly between 5-page primary and 2-page secondary papers on assigned readings.

Requirements/Evaluation: Attend all classes; submit completed papers 24 hours before seminar meets.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Juniors and Seniors.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 224 (D2) PSCI 221 (D2) AMST 201 (D2) LEAD 220 (D2) INTR 220 (D2)

Difference, Power, and Equity Notes: This tutorial examines the Cold War between the US and the USSR and attempts to use intellectuals to shape and promote the objectives of powerful state entities. The power struggle between the two "superpowers" impacted cultural production and authors. Some of those authors influenced or enlisted into the Cold War sought equity and equality for their communities and eventually fought against the very political powers that employed them.

AMST 202  (F)(S) Introduction to Racial Capitalism  (DPE)  (WS)
Cross-listings: AMST 202  AFR 209

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slavery and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Requirements/Evaluation: Evaluation will be based on the following requirements: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Essay 1--First submission (5 pgs): 10%; Essay--Revision (5 pgs): 10%; Essay 2 (5 pgs): 15%; Essay 3 (5 pgs): 15%. Class will meet twice per week. Tu. meetings will be asynchronous and Th. meetings will be synchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion in small groups and as a class.
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History
majors

Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

AMST 204 (F) Modern Rebels: Revolt, Resistance, Reconstruction and Revelation

Cross-listings: AMST 204 DANC 205

Secondary Cross-listing

"Dance is the fist with which I fight the sickening ignorance of prejudice." -Pearl Primus Early 20th century modern dance exemplified embodied rebellion. The body as a tool for expression, social critique and resistance evolved radically, as the work of modern dance artists in the U.S. exposed and dismantled restrictive aspects of the racial and social dynamics of the 20th century, especially for women and people of color. We will examine particular artists' voices that arose with new aesthetic and thematic concerns in the struggle for artistic freedom and social justice, while examining why some, and not others, had opportunities to advance their art. We will investigate key artists and works in the historic canon in order to understand the ways in which bodies rebel, overtly and covertly, to guide us in the power and importance of embodied resistance. Virtual class visits with artists active in the reconstruction and performance of works of protest such as Talley Beatty's Mourne's Bench, Jane Dudley's Time is Money and Harmonica Breakdown, Martha Graham's Chronicle and Deep Song, Pearl Primus' Strange Fruit and Hard Time Blues, Sophie Maslow's Dustbowl Ballads, and Anna Sokolow's Slaughter of the Innocents and Rooms will enhance our dialogue. We will also connect these historic pieces to the work of current artists such as Dr. Shamell Bell and Akram Khan. We will learn to "read" dance as a language and to develop a critical framework by examining, for example, how we define bodily innovation, what a work reflects about its time, its creator, and the place of dance in society, how the body is constructed/deconstructed in the work, spiritual practice in relation to dance-making, the social identity of the creator and the performers, and the role of music/sound/text in relation to movement expression. We will periodically practice movement ideas in workshops designed for any student; no previous dance experience is expected or required. The class will collaboratively develop final project(s) on our chosen themes, using movement, sound, and research to develop our own call(s) to action. These will be activated in spaces both physical and virtual.

Class Format: Hybrid

Requirements/Evaluation: Students are expected to complete course readings and viewings in order to actively participate in discussions, generate periodic short written responses, and develop and present a final project.

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Preference given via lottery if over-enrolled

Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

AMST 205 (S) Chicana/o/x Film and Video

Cross-listings: AMST 205  WGSS 203  LATS 203  ARTH 203

Secondary Cross-listing

Hollywood cinema has long been fascinated with the border between the United States and Mexico. This course will examine representations of the U.S.-Mexico border, Mexican Americans, and Chicanxs in both Hollywood film and independent media. We will consider how positions on nationalism, race, gender, identity, migration, and history are represented and negotiated through film. We will begin by analyzing Hollywood "border" and gang films before approaching Chicana/o/x-produced features, independent narratives, and experimental work. This course will explore issues of film and ideology, genre and representation, nationalist resistance and feminist critiques, queer theory and the performative aspects of identity. Through a focus on Chicana/o/x representation, the course explores a wide spectrum of film history (from the silent era to the present) and considers numerous genres.

Class Format: Remote. Discussion-oriented lecture class. The course will feature synchronous online class meetings. In addition to class meetings and readings, students will be expected to watch 3-5 hours of film per week on GLOW or in the library.

Requirements/Evaluation: one short paper, mid-term exam, final exam and take home essays

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Art majors; LATS concentrators

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

AMST 208 (F) Time and Blackness

Cross-listings: AFR 208  REL 262  AMST 208

Secondary Cross-listing

The concept of time is one of the most examined, yet least theorized, concepts in Africana Studies. While the field is saturated with historical studies and literary analyses that take up issues of cultural memory, both of which involve thinking about time, time itself is rarely the subject of sustained inquiry. This may be due to its abstractness as an idea and the level of analysis its conceptualization demands, or because time in the African American experience cannot be understood outside of the meaning of race, which itself is far from tangible. In this tutorial, "Time and Blackness," we will explore how African American writers across a number of genres understand time. We will read select texts of fiction as well as spiritual autobiographies, historical narratives, and sociological studies to understand how writers draw from--and create--paradigms of time to organize their work. The following questions will structure our investigation: What are the constituent elements of time in African American writing? How does race shape the ways a writer conceives of the experience of time? In examining writings across genres, is there something that we can call an identifiable African-American "timescape"?

Requirements/Evaluation: assignments will include six 2-page response papers; two 5-page writing assignments; and a final, 10-page review essay on how time is understood in a genre of writing

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: concentrators in Africana Studies, majors in Religious Studies, and majors in American Studies
Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Not offered current academic year

AMST 209 (F) Introduction to Black, Brown, and Queer Theory (DPE)
Have you ever tried to relate your experiences, rooted in your own complex identities, history, and social networks, to those of others you perceive as different and perhaps allied, but found you lacked some fundamental vocabulary? This is a common problem, even for critical theorists who take as their object of study political, affective, and epistemological structures of difference and power. Critical race, postcolonial, Indigenous, and queer theories have often centered the relationship between the normative and non-normative, between straight and queer, colonizer and colonized, and white and black. Connections between the differently non-normative can sometimes be pushed to the periphery. But what if we were to center that periphery? What views of complex power structures and new avenues of thought and solidarity would arise if we took as our starting point the social and theoretical interconnectedness and overlap of black, brown, and queer folks? This course will serve as an introduction to critical race, postcolonial, Indigenous, and queer theories as conceptually and phenomenologically interlocking and allied fields. By reading with theorists in all these traditions and at their intersections, we will explore how blackness, indigeneity, and brownness are constructed and function in the context of colonialism and settler colonialism, how differently racialized bodies are sexed and sexualized, and how queerness as method can speak across these issues. No background in critical theory is required for this course. We will focus on how to read and discuss theory, and how to think holistically about the structures that work to keep us divided.

Requirements/Evaluation: attendance and class participation, two 4-page reflection papers, and a final creative project (TBD with instructor) or take-home exam

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course introduces students to theories of difference and power, such as critical race, postcolonial, Indigenous, and queer theories. The aim of the course is to establish the skills and frameworks needed to think about how these categories and theories interact, overlap, and constitute one another.

Not offered current academic year

AMST 211 (F) Race and the Environment
Cross-listings: AMST 211 ENVI 211 AFR 211 SOC 211

Secondary Cross-listing
In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address “environmental racism,” like Robert Bullard’s Dumping in Dixie and David Pellow’s Garbage Wars. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for plotting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions—like literature, film, and music—to understand how people of color respond to environmental injustice and imagine the natural world.

Class Format: discussion

Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages), and a self-scheduled final

Prerequisites: none

Enrollment Limit: 20
AMST 212 Moving While Black

Opening your apartment door, driving down the highway, taking a knee, raising a fist, sitting at the lunch counter then or sitting in a café now, these movements have historically and presently prompted fear at a minimum and in the most grave cases death for black people. Whether in the U.S. or globally, moving in the world as a black person often means being perceived as different, foreign and threatening. Crawling, dancing, running and boxing, these movements have countered fear and articulated the beauty, pride, creativity and political resistance of black people. In both cases, black movement matters and means much. While many consider movement to be just organized dance moves, this course expands students’ definitions of black movement and teaches them to analyze multiple perceptions, uses, and reactions to it. “Moving while Black” offers examples of physical movement in improvised and practiced performance, quotidian movement, geographical movement across national borders and symbolic, politicized gestures. Students will investigate black movement via interdisciplinary sources that reflect various time periods and locations. Students may analyze such texts as Jacob Lawrence’s visual art in The Migration Series, the movement of the rumba dance form between Cuba and the Democratic Republic of Congo, the Alvin Alley American Dance Theater’s “Revelations,” William Pope.L’s choreographed crawls, the 1995 World Rugby Cup in South Africa, and the 2018 case of a Kansas resident arrested while moving into his own home. Additionally, this course features an important practice element, in which students experiment with in-class movement exercises and workshops, engage with dance archives at Jacob's Pillow, interview participants of Kusika, and create and perform their own choreographies. While no previous experience in performance is required, curiosity and openness to learning through one's own body movement is expected.

Class Format: classes will rotate throughout the semester between seminar discussions in the classroom and performance exercises in the studio

Requirements/Evaluation: multiple reading/viewing responses in a movement journal, an essay closely analyzing movement; a presentation, and multiple movement-based performances including a final project with outside research and a proposal

Prerequisites: none

Enrollment Limit: 14

Expected Class Size: 10

Grading: (D2)

Not offered current academic year

AMST 213 Asian American Identities in Motion (DPE)

Cross-listings: GBST 214 ASST 214 THEA 216 AMST 213 DANC 216

Secondary Cross-listing

The course aims to explore dance and movement-based performances as mediums through which identities in Asian and Asian-American (including South-Asian) communities are cultivated, expressed, and contested. It will orient students towards "reading" and analyzing live and mediated performances within historical, social, and political frameworks. Students will explore how socio-historical contexts influence the processes through which dance performances are invested with particular sets of meanings, and how artists use performance to reinforce or resist stereotypical representations. Core readings will be drawn from Dance, Performance, Asian, and Asian American Studies, and will engage with issues such as nation formation, race and ethnicity, appropriation, tradition and innovation among other topics. This is primarily a discussion-based seminar course, and might also include film screenings, discussion with guest artists and scholars, and opportunities for creative projects. No previous dance experience is required.

Class Format: This course will be taught in a virtual format and will be remote.

Requirements/Evaluation: reading responses, essays, in-class writing assignments, class participation, and group presentations.

Prerequisites: none

Enrollment Limit: 15
Enrollment Preferences:  first years and sophomores

Expected Class Size:  15

Grading:     yes pass/fail option,     no fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 214 (D2) ASST 214 (D1) THEA 216 (D1) AMST 213 (D2) DANC 216 (D1)

Difference, Power, and Equity Notes: This course introduces students to the role of performance in nation formation in Asia and the history of Asian-Americans in the US through analysis of dance performances and practices. Student will explore how race was central to the formation of Asian and the American nation, and how social and legal discriminatory practices against minorities influenced popular culture. The assigned material provide examples of how artists address these inequalities and differences in social power.

Spring 2021

SEM Section: R1    MR 3:15 pm - 4:30 pm     Munjulika Tarah

AMST 214  (F)  Performance Ethnography  (DPE)

Cross-listings:  GBST 215  DANC 214  ANTH 215  AMST 214  THEA 215

Secondary Cross-listing

The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance, movement, and performance. Traditionally considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) readings in ethnographic studies of dance and performance practices from different parts of the world, and (ii) field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and may include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance or performance experience is assumed or required.

Class Format:  community-based field work

Requirements/Evaluation:  class participation, reading responses, fieldwork and field notes, short papers, and final essay

Prerequisites:  none

Enrollment Limit:  15

Expected Class Size:  10

Grading:     no pass/fail option,     no fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 215 (D2) DANC 214 (D1) ANTH 215 (D2) AMST 214 (D1) THEA 215 (D1)

Difference, Power, and Equity Notes: This course focuses on ethnographic research with an emphasis on the ethics of doing ethnography in field sites and making performances based on that research. In fieldwork and performance work, there is a difference in social, cultural, and political (broadly conceived) power between researcher and interlocutors. In the course, students' critical analytical skills are developed for them to be self-reflective about these power differentials and to address issues of social inequality.

Not offered current academic year

AMST 216  (F)  Landscape, Place and Power

Cross-listings:  AMST 216  ENVI 217

Secondary Cross-listing

How does culture shape the way we imagine, use, and experience the physical environment, and how does the physical environment shape culture in turn? What can landscapes tell us about the values, beliefs, and ideas of the people who make them? What is the relationship between place and social power? This course will explore the various ways in which scholars from a broad range of disciplines have sought to answer these questions by incorporating insights from social theory and cultural criticism. Focusing on studies of place and landscape in the Americas from the time of European colonization to the present, it will examine key works from fields such as cultural geography, environmental history, ecocriticism, environmental
philosophy, and anthropology, and it will survey the major methodological and theoretical commitments that unite these fields.

Requirements/Evaluation: three 5- to 7-page essays; several shorter writing assignments

Prerequisites: ENVI 101 or permission of instructor

Enrollment Limit: 19

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 216 (D2) ENVI 217 (D2)

Not offered current academic year

AMST 218 (S) Gender and Sexuality in the Neo-slave Narrative  (DPE) (WS)

Cross-listings: AMST 218  ENGL 218  AFR 218  WGSS 218

Secondary Cross-listing

Hortense Spillers has noted that ex-slave Harriet Jacobs, "between the lines of her narrative, demarcates a sexuality that is neuterbound" and we live with the aftermath of her observation. "Ungendering," one of the transformations undergone by bodies subjected to the Middle Passage, is one of the keywords that forms the foundation for a conversation about slavery, blackness, gender, sexuality, and archive. Throughout this course we will wrestle with the questions: How does the designation "slave" rupture, reify, or expand our understandings of sexuality and gender? What conditions have necessitated the neo-slave narrative form? Texts include: slave narratives and neo-slave narratives in the forms of novels, visual art, and film. Course texts include: Octavia E. Butler's Kindred, Jewelle Gomez's Gilda Stories, Glenn Ligon's "Runaways", and Jordan Peele's Get Out. Critical theories of blackness, gender, and sexuality are also central texts in this course including that by Darieck Scott, Saidiya Hartman, Hortense Spillers, Matt Richardson, and others. Given that neo-slave narratives intervene in the sexual and gendered silences of slave narratives and the power relations that produced them, students who are hesitant to study sexual violence might consider taking another course.

Requirements/Evaluation: mandatory participation in discussion, four papers including one critical revision (total 20 pages), keyword glossary

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: sophomores

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 218 (D2) ENGL 218 (D1) AFR 218 (D1) WGSS 218 (D2)

Writing Skills Notes: Three thesis papers at 5 pages each (each receiving critical feedback from professor); one thesis paper revision with critical feedback from professor and peers including one letter of revision explaining the student's revision process; one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the work of black writers and artists engaged with the archival silences imposed by the power dynamics of racial hierarchy which constrained the birth of African American literature (the slave narrative). In particular, we examine the meaningful/wilful/censorial omissions that shape the treatment of gender and sexuality in these texts including and especially the silences around sexual abuse and sexual assault practiced by beneficiaries of white supremacy.

Not offered current academic year

AMST 219 (S) Extreme Persuasions: The Far Right in the United States and Russia  (DPE) (WS)

Cross-listings: AMST 219  RUSS 218  WGSS 217

Primary Cross-listing

The purpose of this course is to explore the unexpected recent confluence of the American and Russian far-right movements, among advocates for authoritarianism in both countries who have traditionally understood the ‘other’ superpower to be an implacable enemy. How have nationalist
movements in the United States come to see the Russian Federation as a vanguard for 'whiteness' and traditional masculinity in European identity, overturning the perception of Russia as a racial Other that was prevalent among American conservatives during the Cold War? What are the affinities between the imperial and openly patriarchal aspirations of Putinism and the goals of American religious Reconstructionism, with its interpretation of the Confederacy as a God-given model for racial separatism and gender complementarianism? We will discuss repressive historical legacies and homophobia in both countries, devoting particular attention to debates about protest art and the removal of monuments, and to movements that situate themselves in opposition to neoliberal forms of ethno-nationalism.

Requirements/Evaluation: On average, there will be 100 pages of reading per week. Over the course of the semester, students will be required to view three films, which will be discussed in class. Class participation counts for 25% of the course grade; each of the first three response papers, 15%; the term paper, 25%; the in-class presentation of the term paper, 5%.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Majors and concentrators in AMST, Russian, and Women's and Gender Studies.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 219 (D2) RUSS 218 (D1) WGSS 217 (D2)

Writing Skills Notes: The written work is comprised of three response papers (5-7 pages each), a rough draft of the term paper (8-10 pages) that will be ungraded but extensively commented upon, and the term paper itself (10-15 pages). Each student to discuss their writing strategies prior to the deadlines for the essay assignments. For the essays, students may choose from among a range of prompts, or design a topic of their own.

Difference, Power, and Equity Notes: Students will use the assigned readings as points of departure for analyzing and responding to traditionalist configurations of gender and ethno-nationalism in the United States and the Russian Federation. Particular attention will be devoted to the proliferation of different conceptions of power and privilege in both countries, and to ways in which a parsing of them may facilitate an engagement with the arguments of far right movements while retaining the concept of social justice.
AMST 221 (F) Introduction to Urban Studies: Shaping and Living the City

Cross-listings: AMST 221 ENVI 221 LATS 220

Secondary Cross-listing

Generally, cities have been described either as vibrant commercial and cultural centers or as violent and decaying urban slums. In an effort to begin to think more critically about cities, this course introduces important topics in the interdisciplinary field of Urban Studies. Specifically, we will discuss concepts and theories used to examine the peoples and structures that make up cities: In what ways do socio-cultural, economic, and political factors affect urban life and development? How are cities planned and used by various stakeholders (politicians, developers, businesses, and residents)? How do people make meaning of the places they inhabit? We will pay particular attention to the roles of race, ethnicity, class, and gender in understanding and interpreting urban communities. Texts include works by anthropologists, historians, sociologists, cultural critics, cultural geographers, and literary writers.

Class Format: discussion

Requirements/Evaluation: attendance and class participation, several short writing assignments (1-2 pages), two creative group projects and presentations, a midterm essay (6-7 pages) and final essay (8-10 pages)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: first- and second-year students as well as American Studies majors and Latina/o Studies concentrators

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 221 (D2) ENVI 221 (D2) LATS 220 (D2)

Not offered current academic year

AMST 223 (F) Eating Empire: Asian/Pacific Islander/American Foodways and Culture (DPE)

"War is probably the single most powerful instrument of dietary change in human experience." --Sidney Mintz. Cans of spam, bars of chocolate, and bubbling pots of military stew. A motley mix of sucrose, sodium, monosodium glutamate, and spices; often overprocessed, constantly repackaged, sometimes illicitly exchanged, and daily consumed. In this course, we will take an interdisciplinary approach to exploring the historical processes, social practices, and cultural politics of food in the age of U.S. empire, mapping out reverse pathways from our palates, plates, counters, and kitchens towards the lands and seas that connect the Americas, the Pacific Islands, and Asia in the 20th and 21st centuries. We will examine food through a range of contexts and case studies, including but not limited to scholarship, (auto)ethnography, literature, film, television, advertising, social media, and blogs. We will ask: how is food entangled within histories and patterns of war, imperialism, settler colonialism, capitalism, diaspora, and migration? What does food tell us about our attachments, investments, and (dis)taste for narratives around democracy and multiculturalism, authenticity and appropriation, gentrification and privilege, "tradition" and change? Finally, how can food help us reimagine the social and political dimensions of the places we live in and nourish pathways to decolonial futures and possibilities? This will be primarily a discussion-based seminar although a minimal amount of cooking may also be required.

Requirements/Evaluation: participation (attendance, discussion, posts), reading responses, short video, fieldwork, final analytical paper/project

Prerequisites: AMST 101

Enrollment Limit: 15

Enrollment Preferences: American Studies majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Analyzes the dynamics of power and privilege in the U.S. from a national and transnational context, examines the perspectives of socially marginalized groups, and fosters an understanding of the beliefs, experiences, and cultures of these groups.

Not offered current academic year

AMST 224 (S) U.S. Latinx Religions
Cross-listings: REL 224 AMST 224 LATS 224

Secondary Cross-listing

In this course, we will engage aspects of Latinx religious experiences, practices, and expressions in the United States of America. Given the plurality of Latinx communities and religious lives in the U.S.A., we can only consider select contexts that help us understand the challenges of studying and defining the "religious" and "hybridity" in Latinx contexts. We will survey certain selected religious traditions and practices --such as popular Catholic devotion to Guadalupe, crypto-Judaism, curanderismo, Latinx Muslims, and Santería--by focusing on particular moments of religious expression as elucidated in specific historiographies, ethnographies, art, literature, and film.

Class Format: discussion

Requirements/Evaluation: class participation, short writing exercises, a 3-page essay, a 5-page essay, and an 8-12-page final review essay/project

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: LATS concentrators and AMST and REL majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

AMST 225  Black Outside the U.S.

This course explores multiple ways Black identity evolves, adapts and is experienced differently depending on location. Students analyze Black experience in the U.S., France and Senegal through a range of texts from books and social media to music and film. One key aspect of the course is a study abroad trip to Senegal, which increases cultural awareness through experiential learning. This combination of textual learning with experiential knowledge exemplifies how language, religion, gender, geography, and performance shape one's racial identity. In the first section of the course, students investigate Black experience in the U.S., focusing on such topics as the one-drop rule, racial profiling and where mixed people fit within Black/White tensions. The second section highlights the politics of language in France. Students explore how words like "Black," "noir" and "race" have strong political connotations in France and spur both resistance to and alliance with Black American civil rights history. In the third part of the course, students visit Dakar, Senegal, and analyze Blackness through their own observations and encounters. Their trip insights jumpstart the final focus of the course on Senegal. Students investigate the influence of French colonialism on Black identity in Senegal, which makes the two geographical experiences of Blackness very different but still forever linked.

Class Format: seminar, the course includes a required spring break trip to Dakar, Senegal, which is no additional cost to students

Requirements/Evaluation: evaluation will be based on class participation, short weekly reading responses, two 4-5 page papers, a presentation based on the spring break trip, and a final presentation including a short 2-page report

Prerequisites: none

Enrollment Limit: 8

Enrollment Preferences: students who have taken other AFR courses, Francophone speakers and students

AMST 226  Gender and the Dancing Body  (DPE)

Cross-listings: WGSS 226 THEA 226 AMST 226 DANC 226

Secondary Cross-listing

This course posits that the dancing body is a particularly rich site for examining the history of gender and sexuality in America and beyond. The aim of the course is to explore ideas related to gender and sexuality as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to
dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and will also include film screenings, discussions with guest artists, and opportunities for creative projects. No previous dance experience required.

**Class Format:** This course will be taught in a virtual format and will be remote.

**Requirements/Evaluation:** class participation, reading responses, essays, in-class writing assignments, and group presentations

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** first years and sophomores

**Expected Class Size:** 10-15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

**Spring 2021**

**SEM Section:** R1  TF 3:15 pm - 4:30 pm  Munjulika Tarah

**AMST 228 (F) Revolt and Revelation in 20th-Century Americas**

**Cross-listings:** AFR 228  AMST 228  REL 223  LATS 228

**Secondary Cross-listing**

Writing in 1971, Dominican priest and Peruvian theologian Gustavo Gutierrez asked “Is the Church fulfilling a purely religious role when by its silence or friendly relationships it lends legitimacy to dictatorial and oppressive government?” Such a question encapsulates the sometimes agonistic and other times deeply intertwined relationships between religious institutions, religious thought, and movements for political transformation in the 20th century Americas. This course examines those forms of “God-talk” broadly termed “liberation theologies” that responded to and challenged social relationships of class, colonization, race, culture, gender, sexuality, (dis)ability, and ecology. These theologies were borne out of and in turn deeply shaped struggles against oppressive regimes and structures in the Americas, and as such we will focus on some specific theological writings--such as those of Gutierrez--and their relationship to distinct social movements and struggles over land, economy, and political power, especially in Brazil, El Salvador, Perú, and the United States of America between 1960-2000.

**Requirements/Evaluation:** participation, short writing exercises, a 5- to 6-page take-home midterm essay, and an 8- to 12-page final review essay

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** majors and concentrators

**Expected Class Size:** 12

**AMST 230 (S) Contemporary American Fiction**

**Cross-listings:** AMST 230  ENGL 229

**Secondary Cross-listing**

In this course we will read and analyze a selection of fiction written between 1945 and the present, with an emphasis on proving (in the sense of
testing) the three terms in the course title. Could John Cheever's "The Enormous Radio" really be contemporary? Is James Baldwin's Giovanni's Room American in the same way as Alice Munro's Dear Life? And is Michelle Tea's Black Wave fiction or something else? Along the way, we'll also ask: What forms and themes define contemporary American fiction? And why should we invest in defining the "contemporary" period at all? Other authors we will study may include: Raymond Carver, Thomas Pynchon, Toni Morrison, Renata Adler, Margaret Atwood, Lydia Davis, Chang Rae Lee, Jennifer Egan, and Colson Whitehead.

Requirements/Evaluation: four papers totaling about 20 pages; participation in class discussions

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 230 (D2) ENGL 229 (D1)

AMST 232 Bewilderment: Contemporary U.S. Poetry and the Ethics of Unknowing (DPE) (WS)

"I perceive I have not really understood any thing, not a single object, and that no man ever can," wrote Walt Whitman in a great poem of 1860. "Tell all the truth, but tell it slant," answered Emily Dickinson a few years later, as if suggesting a strategy for how to write one's way into Whitman's radical uncertainty. These articulations of knowing and unknowing, of telling and untelling, continue to thread their way into U.S. poetry today. This course will explore bewilderment as both a poetic strategy and an ethical position. How do error, randomness, contradiction, obliquity, and dissociation serve the poem and the poet? How do such strategies counter ideas of literary mastery, heroism, virtuosity, privilege and celebrity? What are the political possibilities of such counter stances, especially as embodied and expressed by poets who speak from outside the stronghold of the white male establishment? We will primarily read from recently published work in the U.S., but will also be interested to track the literary traditions that have shaped how contemporary poets think and write. Authors read may include: Wanda Coleman, Eileen Myles, Anne Carson, Layli Long Soldier, Vanessa Angelica Villarreal, Fanny Howe, Terrance Hayes, Jennifer Chang, Tiana Clark, Brenda Hillman, Jane Wong, Tommy Pico, Paisley Rekdahl, Brian Teare, Diana Khoi Nguyen, and C. D. Wright.

Requirements/Evaluation: Classroom participation in discussion, several papers of graduated lengths and complexity (for a total of 20 pages of writing).

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: potential sophomore English majors have first choice, then prospective or current American Studies majors

Expected Class Size: 19

Grading:

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Gateway courses in English traditionally emphasize writing skills, and this course is no exception. Attention will paid to drafts and revisions of essays.

Difference, Power, and Equity Notes: The vast majority of works read are authored by poets outside the white male straight cisgender establishment. More importantly, we will constantly engage the question of how poetry may serve the needs of equity and inclusion in the U.S. contemporary literary marketplace.

AMST 236 (S) Making Things Visible: Adventures in Documentary Work

Cross-listings: SOC 236 AMST 236 ARTH 237 ENGL 237

Secondary Cross-listing

Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will
learn methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of examples of investigative work that blend word and image. We will ask questions about the changing practices and expectations associated with the documentarian's role, and the evolving media in which such work can be presented. Lastly, we will discuss ethical questions that haunt documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether "objective representation" is even possible or desirable. Experience in photography and/or video is not required, but students will be expected to master basic technical skills in image acquisition and audio editing taught in a separate lab section. Students should also be prepared to interact extensively with people in the community and spend a significant time off campus doing fieldwork.

Requirements/Evaluation: full participation in discussions, weekly photographic assignments, a research journal, field materials, and an independent final project; in addition to substantial readings, students should be prepared to spend a significant time out of the classroom doing field work

AMST 237  (S)  Islam in the United States: From Black Muslims to the War on Terror

Cross-listings: REL 237  AMST 237  AFR 237

Secondary Cross-listing

Malcolm X is likely the most prominent and influential Muslim figure in the history of the United States. His story represents two fundamental themes in the history of Islam in America: conflict between Muslims over what is "authentic" or "orthodox" Islam; and the ways that American history, politics, and culture determine the contours of "American Islam". This course will explore these two themes through an array of topics in the history of American Islam. In so doing, we will examine the complex relation between religion, politics, and culture in the United States. Beginning with the story of Malcolm X, the Nation of Islam, and other African-American Muslim movements, we will try to understand: What made Islam so appealing to millions of African-Americans throughout the 20th century? And were these genuinely "religious" and "Islamic" movements, or just racial/political "black nationalist" movements in the guise of religion? What counts as legitimately "Islamic", and who gets to decide? We will then move into the latter half of the 20th century and the post-9/11 debates over authentic Islam. What happened to American Muslim communities and organizations after the waves of post-1965 immigration from Muslim countries? How have debates about Muslim identity shifted over time, from being configured in terms of black separatism, to transnational/diasporic identity, to the attempts at articulating an indigenous "American-Muslim" identity? How have national narratives around 9/11 and the "War on Terror" impacted these debates over identity and "true Islam"? And how have these debates intersected with gender, racial, and ethnic politics? Throughout the course, we will be studying historical and anthropological material, autobiographies, novels, documentaries, films, and social media. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to race, ethnicity, nationality, culture, gender, language, and age.

Requirements/Evaluation: in-class participation and presentations; 3 short essays; final project

AMST 238 (F) Zen and the Art of American Literature

Cross-listings: ENGL 239 REL 228 AMST 238

Secondary Cross-listing

Just one hundred years ago, few Americans knew the first thing about Buddhism. But in 2020, who hasn't heard of (or even tried) mindfulness or meditation? Buddhist ideas and practices now seem ubiquitous, available even in the form of smartphone apps like Headspace and Ten Percent Happier. In this class, we'll explore how Buddhism came to be the profoundly important cultural force in American life that it is today. We'll read a variety of Buddhist-influenced literary texts, from the Beat poetry of the 1950s to contemporary novels like Ruth Ozeki's *A Tale for the Time Being*. And we'll range far beyond the world of literature into other cultural domains in which Buddhism has had a deep impact, like environmentalism, psychotherapy, and Western attitudes towards death and dying. We'll also give special attention to the role that Buddhism is playing in the struggle for racial justice (from bell hooks to Black Lives Matter). And we'll engage in an experiential investigation of the benefits of incorporating contemplative practices like mindfulness into higher education: students will learn a variety of meditation techniques, and we'll spend time each week practicing and reflecting upon those practices. Students will be expected to maintain a daily meditation practice outside of class (10-15 minutes a day), with the help of one of those newfangled meditation apps no less! No prior experience with meditation is necessary. Just an open mind. (For detailed information about the format of this hybrid course, please visit: www.tinyurl.com/Engl239info)

Class Format: This is a hybrid course. The class will be divided into small discussion groups of 6-7 students (two of the groups will be in-person; one of them remote). In a typical week, the whole class will meet together once on Zoom for 45-60 minutes and each discussion group will meet once for 60 minutes (either in-person or remote). For more info about the class format, please visit: www.tinyurl.com/Engl239info (students who are interested in this course should visit this URL).

Requirements/Evaluation: Regular attendance will be strictly required; weekly Glow posts; and a final critical or creative project (like an 8-10 page essay, podcast episode, or zine).

Prerequisites: none

Enrollment Limit: 21

Enrollment Preferences: preference will go to juniors and seniors; students who pre-register should email brhie@williams.edu an explanation of why they want to take this course, which will be used to decide enrollment. The class For more info: www.tinyurl.com/Engl239info

Fall 2020

AMST 239 (S) Asian/Pacific Islander/American Documentary Cinemas (DPE)

In Asian America Through The Lens, film scholar Jun Xing contends, "documentaries have been, and remain, the predominant genre of Asian American cinema" (1998). In this course, we will launch an investigation into this statement and examine a selection of A/P/A documentaries ranging from independent and experimental film, public access television, and digital and social media, 1960s--present. We will ask: (1) how did A/P/A documentary develop as a tradition and practice in relation to mainstream media industries?, (2) how has documentary been mobilized to critique, demystify, and/or disrupt dominant scripts like Orientalism, the Yellow Peril, and the Model Minority Myth?, and (3) how do documentary makers formally negotiate the generic impulse for the "real" and "authentic" against the burden of A/P/A representation? While neither chronological nor all-encompassing in its capacity, we will do our best to situate the historical and material conditions that form and inform the works and contextualize their visual aesthetic practices and tactics of representation. We will also pay particular attention to untangling the intersectional and multidimensional categories of race/ethnicity, gender, sexuality, class, and ability that emerge from the sociohistorical processes of war, immigration, nationalism, colonialism and settler colonialism, state violence, and social movements. Finally, we will meet and engage with current artists, filmmakers, and organizers in order to gain insight into development, production, distribution, and reception.

Requirements/Evaluation: weekly reading responses, a midterm paper, final creative project and paper
**Difference, Power, and Equity Notes:** Analyzes the dynamics of power and privilege in the U.S. from a national and transnational context, examines the perspectives of socially marginalized groups, and fosters an understanding of the beliefs, experiences, and cultures of these groups.

**AMST 240 (F) Latina/o Language Politics: Hybrid Voices**

**Cross-listings:** AMST 240 COMP 210 LATS 240

**Secondary Cross-listing**

In this course we will focus on issues of language and identity in the contemporary cultural production and lived experience of various Latina/o/x communities. As such, how are cultural values and material conditions expressed through Latina/o/x language and literature? How does Latina/o/x identity challenge traditional notions of the relationship between language, culture, and nation? In what ways might Latina/o/x literary and linguistic practices serve as tools for social change? Departing from an overview of common linguistic ideologies, we will examine code-switching, bilingual education, recent linguistic legislation, and the English Only movement. Throughout the course we will survey texts culled from a variety of literary genres as well, including autobiography, novels, and poetry. Both directly and/or indirectly, these texts address Latina/o/x language politics, as well as the broader themes of power, community, ethno-racial identity, gender, sexuality, class, and hybridity.

**Requirements/Evaluation:** participation, two essays, final take-home examination

**Prerequisites:** none

**Enrollment Limit:** 12

**AMST 241 (S) Performing Masculinity in Global Popular Culture (DPE)**

**Cross-listings:** WGSS 240 THEA 241 SOC 240 AMST 241 LATS 241

**Secondary Cross-listing**

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J/K-Pop), hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

**Requirements/Evaluation:** masculinity journal, mid-term essay exam, visual rhetorical analyses of pop culture images

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** a short statement of interest will be solicited
Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

WGSS 240 (D2) THEA 241 (D1) SOC 240 (D2) AMST 241 (D2) LATS 241 (D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

Spring 2021

SEM Section: R1  MW 6:45 pm - 8:00 pm  Gregory C. Mitchell

AMST 242 (S) Americans Abroad  (DPE)

Cross-listings: COMP 242  ENGL 250  AMST 242

Secondary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler's expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture--American or foreign.

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 18

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 242 (D1) ENGL 250 (D1) AMST 242 (D1)

Difference, Power, and Equity Notes: We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to politics, gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

AMST 243 (S) Asian/American and Black Literary and Cultural Thought

Cross-listings: AMST 243  AFR 243

Primary Cross-listing

One durable legacy of white settler colonialism has been to its divide-and-conquer management of minority populations--an amazingly effective strategy still widely practiced in a variety of forms today. While Asian Americans have been deemed "model minorities" in contrast to "unmodel"
minorities--namely, African Americans--and racial minorities have been pitted against one another in the oppression Olympics and on the issue of affirmative action, there has, in fact, been a long history of political, literary, and cultural thought that have joined blacks and Asian/Asian Americans, from W.E.B. Du Bois to current ideas about digital possibilities (and constraints). In this course we will examine the theory, political writings, art, music and literature that sprang from and attended the early Marxist-Communist fight for universal brotherhood; movements against colonialism, capitalism, and the Vietnam War; Yellow Power and Black Power; and topics such as black and Asian diasporas, Afro-futurism, multiculturalism, "Afro-pessimism", racial melancholia, and digital futurities.

**Requirements/Evaluation:** one shorter paper (4-6 pages), midterm; final paper/project (10-12 pages), response papers and/or posts on GLOW; participation (class discussion and attendance)

**Prerequisites:** none

**AMST 245 (F) Race, Power, & Food History** (DPE)

**Cross-listings:** HIST 265 ENVI 246 AMST 245

**Secondary Cross-listing**

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered "soul food"? In this course, we will answer these questions by digging in to the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a
locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

Class Format: Fall 2020 only: The course will be taught in a hybrid format that accommodates students on campus and those learning remotely. Depending on enrollment, some break-out discussions may need to be scheduled outside of the allotted time block (as would be the case in a tutorial). Discussion will be supplemented with a mix of synchronous and asynchronous online activities.

Requirements/Evaluation: two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 265 (D2) ENVI 246 (D2) AMST 245 (D2)

Difference, Power, and Equity Notes: This course considers the production and consumption of food as a locus of power over the last 300 years, and contextualizes current movements for food justice and sovereignty in light of those histories. Students will have opportunities to reflect on questions of power, privilege, and racism in contemporary food movements. Our final unit focuses on challenges to critical food studies from fat liberation and body positivity

AMST 246 (S) Aesthetics and Place-making in Latina/o New York

Cross-listings: AMST 246 LATS 246

Secondary Cross-listing

New York City has long served as a nexus of Latina/o migration and settlement since the late nineteenth century. From the New York sound of Afro-Cuban and Puerto Rican salsa to the poetics of slam poetry forged in the Nuyorican Poets Cafe, New York’s Latinas/os have defined and developed numerous forms of Latina/o popular expression. This course examines the aesthetic foundations of Latina/o New York, remaining attentive to the numerous diasporas that have migrated to and made the city their home. Student will engage with a multiplicity of popular cultural genres including memoirs, literature, poetry, sound, visual art, and photography in the context of the history of the city while focusing on key themes of racial formation, the politics of space and place, and the labor of culture.

Class Format: discussion

Requirements/Evaluation: attendance and class participation, short writing exercises, 4- to 5-page midterm paper close-reading a text, and a 10- to 15-page final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: LATS concentrators and AMST majors

AMST 248 (F) Black Women in African American Literature and Culture

Cross-listings: AMST 248 ENGL 248 WGSS 258

Secondary Cross-listing

This course surveys constructions of black womanhood from the nineteenth century to the present through readings of texts by and about black women. In this course, students will trace how black womanhood became central to uplift ideology and the making and sustaining of black communities in the post-Reconstruction, Harlem Renaissance, and Black Power eras. We will read works across a broad historical spectrum to identify the ways different writers wrestle with race and gender using literary tropes, such as the "tragic mulatto," in different social contexts. We will also engage a range of forms, including an essay (Patricia Hill Collins's "Mammies, Matriarchs, and Other Controlling Images"), a choreopoem (Ntozake Shange's For Colored Girls Who Have Considered Suicide when the Rainbow is Enuf), and socio-political propaganda (the "Black is Beautiful" movement). This course will end with a consideration of the way writer and producer Issa Rae engages with contemporary ideologies of black womanhood in the HBO series Insecure.

Requirements/Evaluation: active class participation, four short papers totaling about 20 pages; final project on the hashtag #blackgirlmagic

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 248 (D2) ENGL 248 (D1) WGSS 258 (D1)

Not offered current academic year

AMST 249 (F) Asian American Performance: Activism and Aesthetics (DPE)

Cross-listings: GBST 246 THEA 246 AMST 249

Secondary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: sophomores and juniors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 246 (D1) THEA 246 (D1) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

Not offered current academic year
AMST 251  North American Histories to 1865  (DPE)

This course surveys North American histories from ancient Indigenous pasts to the U.S. Civil War. Beginning with the diverse Native societies that have long lived and interacted in specific Indigenous homelands, it then traces Indigenous encounters with a range of expansionist European colonial projects, and the dynamic, contested quality of these relationships and resistances. The course delves into the origins, evolution, and violences of the transatlantic slave trade, and the ways that peoples of African descent created new lives and identities in the Caribbean and North America. The transformations of the seventeenth and eighteen centuries are examined in detail, including political, economic, cultural, and religious transformations and upheavals that fostered new senses of individual and collective identities. Connecting the pivotal Seven Years War and American Revolution, the course traces out the legacies of these contestations for multiple empires, nations, and communities. The last section of the course examines the antebellum era, multiple struggles for rights, land, and autonomy, and the coming of the U.S. Civil War as well as its ongoing legacies. The course introduces students to a wide range of historical methodologies and critical approaches to the past, and moves from large-scale vantages to on-the-ground accounts of how specific people experienced historical changes. The course conveys a sense of how key debates and struggles from the past have shaped North American presents and futures, and how scholars and communities have grappled with these topics. It also provides opportunities for engaging original archival and material culture collections at Williams College.

Class Format: lecture/discussion

Requirements/Evaluation: class participation, short writing assignments, reading responses, final essay

Prerequisites: none; open to all

Enrollment Limit: 30

Enrollment Preferences: first- and second-year students

Expected Class Size: 15-20

Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course deeply engages a multiplicity of communities' experiences in North America over many millennia, including Native American/Indigenous people and sovereign nations, and African diasporic populations and transatlantic networks. It introduces students to a wide range of critical approaches, methodologies, and historiographies, including decolonizing and indigenizing techniques. It emphasizes the inherent and long-term diversity, plurality, and contestation of North American histories.

AMST 252  (S)  Puerto Rico and its Diaspora

Cross-listings: AMST 252  LATS 252

Secondary Cross-listing

On September 20, 2018, Maria---a category four hurricane made landfall on Puerto Rico. The most powerful storm to hit the island since 1932, Maria caused widespread catastrophic damage on a land already suffering from the devastating effects of a decades-long economic recession. Three months after the hurricane, half the island remained without power, water service yet to be reestablished in many areas, and aid distribution inadequate and inconsistent. The hurricane and its aftermath brought mainstream U.S. attention to Puerto Rico and its diaspora, while simultaneously calling attention to the island's status and relationship to the United States. This hybrid onsite-Skype-travel course is for students interested in learning about the historical, social, and political relationship between Puerto Rico and the United States. We will examine, for example, the political status of Puerto Rico, migration, race, social movements, and expressive cultural forms that have emerged as a result of this asymmetrical relationship. Through the study of the impact and legacy of U.S. policies on the island, we will also consider how the fiscal and humanitarian crisis and proposed solutions affect the daily collective lives of the people in the U.S. territory and the diaspora. This course is a unique collaboration between Vassar, Williams, and the UPR. To enroll in this course, students must commit to participating in an alternative spring break/community engagement project in Puerto Rico and flexible with possible changes in class time when Skyping with students from the University of Puerto Rico. We will gather in Puerto Rico to meet with peers from UPR and for an alternative spring break collaboration, interfacing with various community organizations that have taken up vital social, medical, and economic roles vacated by the United States. Taller Salud, PECES, and Casa Pueblo are among the organizations in Puerto Rico that students may work with as a part of the course's community engagement component.

Class Format: to enroll in this course, students must commit to participating in an alternative spring break/community engagement learning project in Puerto Rico

Requirements/Evaluation: class participation, short writing exercises, group work/project, a midterm essay (5-7 pages), and a final essay (10-12 pages)

Prerequisites: students should have some fluency with the Spanish language
Enrollment Limit: 8

Enrollment Preferences: should be first- and second-years, students considering an American Studies major or Latina/o Studies concentration; AMST majors and LATS concentrators.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 252 (D2) LATS 252 (D2)

Not offered current academic year

AMST 254 (F) Sovereignty, Resistance, and Resilience: Native American Histories to 1865 (DPE)

Cross-listings: HIST 254 AMST 254 LEAD 254

Secondary Cross-listing

This course surveys Native American/Indigenous North American histories from creation through the U.S. Civil War, tracing the complex ways that tribal nations and communities have shaped North America. It also introduces foundational methodologies in Native American and Indigenous Studies and strategies for pursuing decolonizing scholarship and action. Beginning with the diverse Indigenous societies that inhabited the Americas millennia before Columbus’s arrival, it discusses the cultural complexity of Native peoples, nations, and worldviews rooted in particular ecosystems and homelands, as well as accounts of beginnings and migrations. It addresses how Native peoples confronted grievous epidemics resulting from the “Columbian Exchange,” and contended with Euro-colonial projects of “discovery” and colonization. Indigenous nations’ multifaceted efforts to maintain sovereignty and lands through eras of pervasive violence and removal are discussed, as well as the important yet under-recognized ways that Native communities negotiated the tumultuous era and conflicting allegiances of the Civil War. The course centers on Indigenous actors-intellectuals, diplomats, legal strategists, knowledge keepers, spiritual leaders, artists, and others-and consistently connects historical events with present-day debates over land, historical memory, education, and activism. Additionally, it provides an opportunity to engage with original materials pertaining to Native histories in the Williams College Archives/Special Collections and Art Museum. While the scope of the course is continental and transoceanic, it devotes significant attention to the Native Northeast and the particular Indigenous homelands in which Williams College is located.

Class Format: Remote class. Class will blend short pre-recorded lectures with weekly Zoom discussion sections/seminar format, plus time for virtual one-on-one conversations with the instructor.

Requirements/Evaluation: active participation in class discussion, several short essays based on readings and discussion topics, (virtual) museum/archives exercise, final essay

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: History or American Studies majors, followed by first- and second-year students

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 254 (D2) AMST 254 (D2) LEAD 254 (D2)

Difference, Power, and Equity Notes: This course intensively explores Native American/Indigenous North American histories, experiences, and forms of critical and creative expression, as well as responses to and engagements with Euro-American settler colonialism. It guides students into methodologies central to Native American and Indigenous Studies (NAIS), and gives opportunities for oral and written reflections on NAIS approaches to historical themes and sources, as well as decolonizing methodologies more broadly.

Fall 2020

SEM Section: R1 TR 9:45 am - 11:00 am Christine DeLucia

AMST 256 (F) Social Justice Traditions: 1960s to #Black Lives Matter (DPE)

Cross-listings: AFR 257 AMST 256 HIST 256
We live in a time of renewed social justice activism, as people from all walks of life confront economic inequality, police violence, discrimination against transgender individuals, and other forms of oppression. This course is designed to clarify where recent initiatives like Black Lives Matter and Occupy Wall Street came from, and to evaluate how they might shape American life in the near future. Movements have histories, as today's activists draw on the "freedom dreams," tactics, and styles of rhetoric crafted by their predecessors, while making use of new technologies, such as Twitter, and evolving understandings of "justice." Taking a historical approach, we will begin by studying the civil rights, Black Power, anti-war, counter-culture, and feminist initiatives of the 1960s. We will then explore how progressive and radical activists adjusted their theories and strategies as the country became more conservative in the 1970s and 1980s. Making use of movement documents, documentary films, and scholarly accounts, we will study the development of LGBTQ, ecological, and economic justice initiatives up to the present day. Throughout, we will seek to understand how movements in the United States are shaped by global events and how activists balance their political work with other desires and commitments.

**Requirements/Evaluation:**
- attendance and class participation;
- four 2 page reading response papers;
- discussion of films via GLOW forums;
- and a final 7-8 page analytical essay

**Prerequisites:** none

**Enrollment Limit:** 35

**Enrollment Preferences:** first-years, sophomores, and American Studies majors

**Expected Class Size:** 25

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 257 (D2) AMST 256 (D2) HIST 256 (D2)

**Difference, Power, and Equity Notes:** The class focuses on struggles for rights, recognition, and redistribution of resources of people of color, women, LGBTQ folks, the working poor, and immigrants. We focus on the tension between groups asserting they are the "same" as others in society, and hence deserving of equal rights, and the celebration of difference as a means of asserting pride and building solidarity. We discuss how movements borrow and adapt tactics, slogans, and ideas of justice from other movements.

Not offered current academic year

**AMST 259 (S) New England Environmental History** (WS)

**Cross-listings:** AMST 259 HIST 259 ENVI 259

**Secondary Cross-listing**

Have you ever wondered why there are few old-growth forests in New England? What Williamstown looked like before Williams was founded? How ideas about environmental preservation have changed over time? These are some of the questions we will explore in this course, which introduces students to the discipline of Environmental History through New England examples. During the semester we will: (1) read and discuss scholarship on the environmental history of New England and the world; (2) use case studies and field trips to examine how past environments are represented in museum exhibits, digital projects, and physical landscapes; (3) Develop a research paper based on original archival research

**Requirements/Evaluation:**
- several short essays, final project

**Prerequisites:** ENVI 101 or permission of the instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies concentrators

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 259 (D2) HIST 259 (D2) ENVI 259 (D2)

**Writing Skills Notes:** Six response papers for which the instructor will provide consistent feedback on writing skills as well as content. Sequenced writing workshops that lead toward a final research paper.

Not offered current academic year
AMST 260 (F) Indigenous Feminisms (DPE)
Cross-listings: AMST 260 WGSS 262

Primary Cross-listing

Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices ‘make a future’ (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

Class Format: Hybrid online/in-person

Requirements/Evaluation: Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: American Studies majors or potential majors have first preference, WGSS majors have next priority.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 260 (D2) WGSS 262 (D2)

Difference, Power, and Equity Notes: This course has as its core mission -- both in subject matter and in pedagogical approaches -- the exploration of difference, power and equity.

Fall 2020

SEM Section: H1 TF 3:15 pm - 4:30 pm Margaux L Kristjansson

AMST 264 (F) American Art and Architecture, 1600 to Present
Cross-listings: AMST 264 ARTH 264

Secondary Cross-listing

American art is often looked at as a provincial version of the real thing--i.e., European art--and found wanting. This course examines American architecture, painting, and sculpture on its own terms, in the light of the social, ideological and economic forces that shaped it. Special attention will be paid to such themes as the Puritan legacy and attitudes toward art; the making of art in a commercial society; and the tension between the ideal and the real in American works of art.

Requirements/Evaluation: 15-page research paper (divided into an annotated bibliography, first draft and revised draft); weekly study questions on the readings; final 15-minute oral exam

Enrollment Limit: 60

Expected Class Size: 60

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 264 (D1) ARTH 264 (D1)
AMST 265 (S)  Pop Art  (WS)  
Cross-listings:  AMST 265  ARTH 265  
Secondary Cross-listing

The use of commercial and mass media imagery in art became recognized as an international phenomenon in the early 1960s. Items such as comic strips, advertising, movie stills, television programs, soup cans, “superstars,” and a variety of other accessible and commonplace objects inspired the subject matter, form, and technique. This course will critically examine the history and legacy of Pop Art by focusing on its social and aesthetic contexts. An important component of the course involves developing skills in analyzing visual images, comparing them with other forms, and relating them to their historical context.

Requirements/Evaluation:  one final research paper (15 pages) written in stages over the semester including revisions; bibliographic research, writing exercises, and oral presentations  
Prerequisites:  none  
Enrollment Limit:  18  
Enrollment Preferences:  Art majors  
Expected Class Size:  18  
Grading:  yes pass/fail option,  no fifth course option  
Distributions:  (D1)  (WS)  
This course is cross-listed and the prefixes carry the following divisional credit:  
AMST 265 (D1)  ARTH 265 (D1)  
Writing Skills Notes:  There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

AMST 266 (S)  Being American, Being Muslim: American Muslim Literature in the 21st century  (DPE)  
Cross-listings:  COMP 228  AMST 266  ENGL 268  REL 266  
Secondary Cross-listing

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims’ own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims’ own narratives about themselves. We will address questions such as: How have American Muslims understood their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? What are the competing claims and contestations about authentic expressions of Islam? How are Muslims approaching the tensions between communal belonging and individuality? We will be engaging such questions primarily through an analysis of popular memoirs, autobiographies, novels, and short stories, but will also explore some plays, films, poetry, and comedy.

Requirements/Evaluation:  regular reading responses, two short essays (3-4 pages), final presentation, and final paper (7-8 pages)  
Prerequisites:  none  
Enrollment Limit:  none  
Enrollment Preferences:  none  
Expected Class Size:  20  
Grading:  no pass/fail option,  yes fifth course option  
Distributions:  (D2)  (DPE)  
This course is cross-listed and the prefixes carry the following divisional credit:  
COMP 228 (D1)  AMST 266 (D2)  ENGL 268 (D1)  REL 266 (D2)  
Difference, Power, and Equity Notes:  This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing
AMST 267 (F) The Roaring Twenties and the Rough Thirties

Cross-listings: AMST 267 HIST 266

Secondary Cross-listing

This course will probe the domestic history of the U.S. from 1919 to 1939 and the cultural, economic, political, and social changes accompanying America's evolution into a modern society. Themes include: developments in work, leisure, and consumption; impact of depression on the organization of the public and private sectors; persistence of traditional values such as individualism and the success ethos in shaping responses to change; and the evolving diversity of America and the American experience.

Class Format: This course will be taught remotely and will feature both asynchronous and synchronous instruction. Virtual course meetings will revolve around synchronous discussion and remote learners will be expected to attend class regularly and participate actively in each session held via Zoom (or a similar platform).

Requirements/Evaluation: Students will be graded on class participation and will have two take-home essay examinations (a midterm and a final, each 6-8 pages). In addition, students will write two short response papers and will complete an interpretative essay (5-7 pages) focused on art from the WPA Federal Art Project.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: HIST and AMST majors as well as students with demonstrated interest in the material

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 272 (S) American Postmodern Fiction

Cross-listings: AMST 272 ENGL 272

Secondary Cross-listing

American fiction took a turn at World War II; the simplest way to name the turn is from modernism to postmodernism. The most obvious mark of postmodern narration is its self-consciousness: postmodern books tend to be about themselves, even when they are most historical or realistic. Already a paradox emerges: why would World War II make narratives more self-reflexive? The first book in the course, and the best for approaching this paradox, is Heller's *Catch-22*. It also serves as a good introduction to the unlikely merging in American fiction of high European post-structuralist postmodernism and low American punk postmodernism. Subsequent books in the course will probably include Pynchon's *The Crying of Lot 49*, Morrison's *Beloved*, DeLillo's *White Noise*, Carver's *What We Talk About When We Talk About Love*, Diaz's *The Brief Wondrous Life Of Oscar Wao*, and Whitehead's *The Underground Railroad*.

Requirements/Evaluation: three papers of increasing length and weight, contributions to class discussion

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: first-year students who have placed out of 100-level English and sophomores considering the major; then Junior and Senior English majors

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Distributions: (D1)
Not offered current academic year

AMST 275 (F) American Drama: Hidden Knowledge

Cross-listings: THEA 275 AMST 275 ENGL 224

Secondary Cross-listing

The Buddha is said to have identified three things that cannot stay hidden: the sun, the moon, and the truth. What's the secret? Who is lying? Who is breaking the rules? American drama abounds with hidden knowledge and false representations. (This is not surprising: theatre is always on some level a deceptive practice, a place where one person pretends to be another, and where what is spoken is always open to skeptical scrutiny. We might say theatre is always lying as much as lying is always theatre.) This tutorial course will examine what lies hidden in American plays from the late nineteenth century to the early twenty-first. Beginning with excerpted critical and historical writings on secrecy and lying (The Adventures of Pinocchio, Machiavelli's The Prince, Thomas Carlson's Lying and Deception: Theory and Practice, among others), we will proceed to a set of American plays from across a wide spectrum of playwrights, including Eugene O'Neill, Edward Albee, Sarah Ruhl, Arthur Miller, Amy Herzog, Susan Glaspell, Sophie Treadwell, Annie Baker, and others. Student papers will explore how hidden knowledge structures dramatic action, how different characters create and respond to untruths, and what we can learn in particular from American drama about a national relationship to honesty and its opposites. For Fall 2020, the tutorial will be conducted primarily online. Depending on enrollments, we may divide into groups with three students, instead of the traditional two-student tutorial format.

Requirements/Evaluation: weekly papers/response papers; weekly meeting with instructor and tutorial partner

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Theatre and English majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

TUT Section: RT1 TBA Robert E. Baker-White

AMST 276 (S) Southern Literary Aesthetics (DPE) (WS)

Cross-listings: ENGL 275 AFR 275 AMST 276

Secondary Cross-listing

Hip-Hop artists signify as "the dirty South" the distinct sounds, rhythms, landscapes, gestures, desires as well as frustrations of Black residents living in the southernmost regions of the U.S. American continent. In this course, students will examine what the South means to American concepts and how the South is used to make meaning in literature, music, art, digital archives, and film. We will give particular attention to how representations of the South are informed by region, gender, sexuality, and class. At the end of the course, students will be able to identify Black southern aesthetics across various genres and mediums with attention to historical and regional specificity despite the opacity of these categories. Potential artists include Jean Toomer, Alice Walker, Ernest Gaines, William Faulkner, Jesmyn Ward, Zora Neale Hurston, Natasha Trethewey, E. Patrick Johnson, Trudier Harris, Kiese Laymon, Julie Dash, Spike Lee, Askia Muhammad Touré, Alexis Pauline Gumbs, Alison Janae Hamilton, Outkast, DJ Khalid, Beyoncé Knowles, and Solange Knowles.

Requirements/Evaluation: four or five writing assignments that total about 20 pages; discussion facilitation

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first-years and sophomores
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 275 (D1) AFR 275 (D1) AMST 276 (D2)

Writing Skills Notes: Students will develop a writing practice through short in-class assignments that culminate in four or five formal submissions. Students will receive group as well as one-on-one feedback on useful writing principles. Feedback will focus on structure, style, argumentation, and audience.

Difference, Power, and Equity Notes: Students will analyze the “shaping of social differences, dynamics of unequal power, and processes of change” in the South. Students will discover how region impacts race, gender, sexuality, and class.

Not offered current academic year

AMST 283  (F)  Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film
Cross-listings: WGSS 283  AMST 283  ENGL 286  AFR 283

Secondary Cross-listing
In this course we will foreground questions around visibility and memory. We will explore representations of Black queer bodies in experimental, documentary and narrative film. This course will engage foundational texts from Black Queer Studies. We will pair texts with film in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1996), U People (Olive Demetrius and Hanifah Walidah, 2009), Tongues Untied (Marlon Riggs, 1989) and Litany for Survival (Ada Gay Griffin and Michelle Parkerson, 1995). Throughout the course we will evaluate the different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be asked to facilitate a class discussion. You also will be required to do weekly critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that “represents” some segment of Black queer living.

Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film

Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Women's, Gender and Sexuality Studies majors, then Africana Studies concentrators
Expected Class Size: 20
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)

Not offered current academic year

AMST 284  (S)  Introduction to Asian American History  (DPE)
Cross-listings: HIST 284  ASST 284  AMST 284

Secondary Cross-listing
This course covers the immigration of Asian to the U.S. from the 1850s to the present and the lives of both immigrants and their descendants. Possible topics are the Chinese Exclusion Act, the incarceration of Japanese Americans during WWII and the arrival of Vietnamese to the U.S. after the war in Viet Nam.

Class Format: discussion

Requirements/Evaluation: a series of short essays and a final oral history/family history

Prerequisites: none
Enrollment Limit: 40
Expected Class Size: 25
Difference, Power, and Equity Notes: This course will focus on the legal barriers to Asian American immigration and citizenship that reveal the racial, class, gender, and religious biases against people from that part of the world. By examining these issues, we will see an unequal balance of power as well as the various ways Asian immigrants resisted American immigration laws and would eventually build communities in many parts of the US.

Not offered current academic year

AMST 300  (F)  Re/Generations I: Memory Against Forgetting and the Global American Empire  (DPE)

Cross-listings:  COMP 357  ENGL 300  AMST 300

Primary Cross-listing
This is a two-part junior seminar in which we take an expansive approach to memoir as a form, genre, and practice, with specific attention given to texts reckoning with the traumas, transgressions, and transformations of what we understand as "America" and its many discontents. As such, the courses are remote and may be taken in sequence or autonomously. In this first part, we focus on authors charting the lives and afterlives of chattel slavery, settler colonialism, genocide, war, and the expansion of the global American empire, from the 19th through 20th centuries. How do these authors remediate the critical illegibility of personhood and place, community and nation? What myths must be dispelled and/or rewritten? What structural elements are deployed to tackle the obstacles of hegemonic power and historical amnesia, and how do these authors re/generate "what remains of lost histories and histories of loss" (Eng and Kazanjian)? Texts to be considered may include: Narrative of the Life of Frederick Douglass, an American Slave; Hawaii’s Story by Hawaii’s Queen (Lili’oukalani); Notes of a Native Son (James Baldwin); Borderlands/La Frontera (Gloria Anzaldúa); Dictee (Theresa Hak Kyung Cha).

Class Format: Remote

Requirements/Evaluation: weekly reading responses, midtern and final papers

Prerequisites: American Studies 101 and/or 301, previous coursework in race, ethnicity, and diaspora, junior or senior standing, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: American Studies majors

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 357 (D1) ENGL 300 (D1) AMST 300 (D2)

Difference, Power, and Equity Notes: Analyzes the dynamics of power and privilege in the U.S. from a national and transnational context, examines the perspectives of socially marginalized groups, and fosters an understanding of the beliefs, experiences, and cultural productions of these groups.

Fall 2020

AMST 301  (S)  Theories and Methods in American Studies (Junior Seminar)

This course aims to provide a “how to” of American Studies from an integrative, multiracial, and socio-cultural perspective. Taking American culture as a site for testing classic and contemporary theories about how cultures work, the Junior Seminar in American Studies serves as an introduction to resources and techniques for interdisciplinary research. Students will be exposed to and experiment with a wide range of current theoretical and methodological approaches employed in American Studies and contributing disciplinary fields, and in the process gain a working competence in all four tracks of the major (Space and Place; Comparative Studies in Race, Ethnicity and Diaspora; Arts in Context; and Critical and Cultural Theory).

The goal of the course is not only for students to develop knowledge of main currents in the field of American Studies but also to become practitioners through a series of assignments that will permit students to exercise their newfound skills. Students will thus, for instance, develop rhetorical analyses,
gather ethnographic data, and “read” assorted spaces and buildings, as the class explores such problems or topics as national narratives, ethnoracial formations, the American prison system, and the circulation of commodities.

Class Format: discussion

Requirements/Evaluation: Class participation; short writing assignments (3 to 5 pages in length) and a final paper or multimedia project: total of 20 pp; one oral presentation.

Prerequisites: AMST 101/201 Intro to American Studies, junior or senior standing, or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: juniors majoring in American Studies

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: required of junior majors

Distributions: (D2)

Spring 2021

SEM Section: R1  MW 6:45 pm - 8:00 pm  Eli Nelson

AMST 302  (F)  Environmental Planning Workshop: Community-Based Experience

Cross-listings: AMST 302  ENVI 302

Secondary Cross-listing

This interdisciplinary, experiential workshop introduces students to the field of planning through hands-on community projects. Environmental Planning includes a range of disciplines pertaining to the natural and built landscape such as city planning, housing, transportation, energy, open space and recreation, municipal services, ecological design, landscape architecture, neighborhood design, and community development, to list a few. This year, the focus will be on issues currently at the forefront of the field: planning for public health and pandemics, racist planning legacies and anti-racist approaches, poverty and affordable housing, climate resilience planning, alternative transportation and transit, and agriculture and food systems. The class is organized into two parts. Part 1 involves reading and discussion of the planning literature: history, theory, policy, ethics, legal framework, and case studies. Labs include GIS mapping, hands-on planning exercises and project development. Part 2 involves project work: tackling an current planning problem in your home community. The class culminates in a public presentation.

Class Format: Classes will be remote; some lab sessions will be in-person (held outside) for those on campus and others will be remote; there will be some in-person small group meetings held outside for those on campus. Scheduled class time and lab times will include small group discussion and collaborative group work and individual project work.

Requirements/Evaluation: Response papers (about four 1-page papers), planning exercises, class discussion, reports submitted in segments (total about 30 pp), collaborative small group work, class presentations frequently during semester, final class presentations over zoom.

Prerequisites: ENVI 101; open to seniors only

Enrollment Limit: 16

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Unit Notes: Required course for Environmental Studies major and concentration

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 302 (D2) ENVI 302 (D2)

Fall 2020
AMST 303  (S) Feminist Disability Studies: Bodyminds in Place and Space  (DPE)

Cross-listings:  WGSS 309  AMST 303

Secondary Cross-listing

In this course we will engage anti-racist feminist theory, disability (or ‘crip’) theory, and human geography to think critically about disability. We will draw on critical geographies of disability to understand the built environment and institutional design; geographic scales of the body and the bodymind; spaces of the home and institutions; and im/mobility and spatial access. We will also consider how disability is shaped by (and shapes) practices of care and mutual aid; experiences of embodiment and impairment; and structures of vulnerability and agency. The course will trace, historically, how ableism has been produced through slavery, colonization, surveillance, and incarceration as well as through movements like eugenics and white liberal feminism. The course will also analyze disability’s construction through medicalized notions of wellness, illness, pathology, and cure. Throughout the course, we will consider disability as intersecting with gender, race and ethnicity, queerness, trans*ness, fatness, class, nationality, and citizenship. Most centrally, we will ask: What is the spatiality of dis/ability, and how can space be occupied and reappropriated for radically inclusive uses? How can we understand both normality and deviance as socially constructed concepts that nonetheless have real, and uneven, implications for people’s lives?

Class Format:  This class will be taught online only.

Requirements/Evaluation:  Student participation; two short (2-pg) reflection papers; two longer (4-5-pg) papers; and a final (12-15 pg) research paper

Prerequisites:  None

Enrollment Limit:  15

Enrollment Preferences:  WGSS and AMST majors; permission of instructor

Expected Class Size:  15

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 309  (D2) AMST 303  (D2)

Difference, Power, and Equity Notes:  This course satisfies the DPE requirement because it examines the political, social, and ideological constructions and theorizations of difference, power, and equity. The course explores the ways in which disability is mutually constructed with other axes of identity and difference, and how different groups of people have defined (and redefined) disability to meet various political aims.

Spring 2021

SEM Section:  R1  MW 10:00 am - 11:15 am  Emily  Mitchell-Eaton

AMST 305  The Gay Menagerie: Gay Male Subcultures  (DPE)

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of “fabulousness and faggotry,” the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating “preferences,” genealogies of BDSM and leather culture, sexual health and discourses of “risk,” the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format:  There will be some minor performance elements such as workshops during class.
**Requirements/Evaluation:** quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

**Prerequisites:** None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

**Enrollment Limit:** 12

**Enrollment Preferences:** WGSS majors; in the event of over-enrollment there statements of interest will be solicited

**Expected Class Size:** 12

**Grading:**

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course examines how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

Not offered current academic year

**AMST 307 (F) Experimental African American Poetry**

**Cross-listings:** AMST 307, ENGL 327, AFR 301

**Primary Cross-listing**

Contemporary African American poets in various cities and towns across the nation—from New York City to Los Angeles, from Berkeley to Durham, N.C.—are currently producing a vibrant and thriving body of formally experimental work, yet this poetry is largely unknown to readers both within and outside the academy. This formally innovative poetry defamiliarizes what we normally expect of "black writing" and pushes us to question our assumptions and presumptions about black identity, "identity politics," the avant-garde (for example, is it implicitly raced?), formalism, socially "relevant" writing, the (false) dichotomy of form versus content, the black "community," digital poetics, and other issues of race and aesthetics. We will examine the writings of living poets, who range widely in age, and those of their avant-garde predecessors in the twentieth century. We will also be making links between this poetry and African American music and visual art.

**Requirements/Evaluation:** two papers (6-8 pages and 8-10 pages), short response papers, oral presentation, and class participation

**Prerequisites:** none, though at least one previous literature course preferred

**Enrollment Limit:** 15

**Enrollment Preferences:** American Studies majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 307 (D2) ENGL 327 (D1) AFR 301 (D2)

Not offered current academic year

---

**AMST 308 (F) Thinking Diaspora: The Black Atlantic and Beyond**

**Cross-listings:** WGSS 308, COMP 300, AMST 308, ENGL 309

**Secondary Cross-listing**

Water imagery has been central to black diasporic culture since its beginnings in the Middle Passage—suggesting imprisonment, isolation, escape, ancestral communion, and death, for example. This course wrestles with the significance of water in diasporic literature—how it endures, how it has diminished, how it slips away from us. Black diaspora theory was revolutionized by Paul Gilroy's *The Black Atlantic*, which urged us to consider more deeply the role of the ship, the routes, and the roots entailed in the formation of diasporic consciousness. This course aims to expand students' theoretical skills as we discuss cornerstone and cutting edge texts of diaspora theory, with an emphasis on theories that work with the relationship to water, such as those by Jacqueline Nassy Brown, Omise'eke Tinsley, and Vanessa Agard-Jones. Primary texts will include *The Big Sea* by Langston Hughes, *Sugar and Slate* by Charlotte Williams, Barry Jenkins' *Moonlight*, and more.

**Requirements/Evaluation:** weekly reading responses, presentations, one 10-page paper, engaged feedback process, and thoughtful class participation

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**Enrollment Limit:** 25
AMST 309 (F) Womanist/Black Feminist Thought

Cross-listings: WGSS 310 AFR 310 AMST 309 REL 310

Secondary Cross-listing

This course explores the genealogy and development of black feminist and womanist thought. We will investigate the expansion of womanist thought from a theologically dominated discourse to a broader category of critical reflection associated more commonly with black feminism, analyze the relationship between womanism and black feminism, and review the historical interventions of black feminism. As critical reflections upon western norms of patriarchy, heterosexism, and racism, womanism and black feminism begin with the assumption that the experiences of women of color—particularly black women—are significant standpoints in modern western society. Through the examination of interdisciplinary and methodological diversity within these fields, students will be introduced to key figures including Alice Walker, Zora Neale Hurston, and Katie Cannon, and will engage materials that draw from multiple fields, including, but not limited to, literature, history, anthropology, and religious studies.

Class Format: discussion

Requirements/Evaluation: class participation, three short response papers, and the completion of an original research paper or project

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: Africana Studies concentrators, Women's, Gender and Sexuality Studies majors, Religion majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

AMST 310 (S) "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics (DPE) (WS)

Cross-listings: AMST 310 ENGL 302 WGSS 330

Secondary Cross-listing

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuye Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Judith Butler, as we analyze the kinds of performances that brought together feminist poetry and political activism. We spend some time in the archives, analyzing documents from the period, including original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new language to "hear," not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

Class Format: I anticipate that this class will be a hybrid course for students who are both remote and in-person, with a mix of synchronous and asynchronous elements.
Requirements/Evaluation: two short analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), short presentation, longer final researched paper (10-12 pages)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

Enrollment Limit: 16

Enrollment Preferences: English, Women's, Gender, and Sexuality Studies, American Studies majors

Expected Class Size: 16

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 310 (D2) ENGL 302 (D1) WGSS 330 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, critical summaries of feminist criticism, two four-to-five-page graded papers, one creative assignment, a longer, final researched paper (10-12 pages), written in stages over a period of several weeks with feedback at each stage. Critical feedback on written assignments a week prior to due date through conferences and Google Docs and on graded assignments within one week.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

Spring 2021

SEM Section: H1 TF 1:30 pm - 2:45 pm Bethany Hicok

AMST 311 Four Poets: Gwendolyn Brooks, Frank O'Hara, Sylvia Plath, and Amiri Baraka

The study of literature often relies on seemingly "objective" labels to sort and group writers. These four major American poets from the last century were often segregated into different categories: Gwendolyn Brooks (1917-2000) and Amiri Baraka (1934-2014) clumped together as black poets; Sylvia Plath (1932-1963) labelled a "Confessional Poet" and/or taught as a female poet but not a "white poet"; Frank O'Hara (1926-1966), designated a "New York School" poet but not a "white poet" or "male poet." In looking closely at the poetry of these four writers, whose work is usually not taught side by side, we will ask questions about the assumptions implicit in the concepts and categories of American (and English-language) poetics and how literary history usually gets written. For example, who is the presumed "universal" poetic speaker? Who is the assumed reader? Do our attitudes about raced and gendered bodies influence how we read raced and gendered poets? Is a queer poet read with the same particularity as a black poet?

Requirements/Evaluation: Two short papers (4-5 pp.) = 25%; One final paper (8-10 pp.) = 50%; Two short response papers = 15%; Participation = 10%

AMST 312 (S) Chicago

Cross-listings: LATS 312 ENVI 313 AMST 312

Secondary Cross-listing

"The city of big shoulders has plenty of room for diversity," reads the official visitor's website for the City of Chicago. Focusing on this claim, this course asks students to think critically about what kind room has been made for diversity—social, spatial, and ideological. Additionally we examine the ways in which diverse social actors have shouldered their way into the imagined and physical landscape of the city. Working with ethnography, history,
literature, critical essays, and popular culture, we will explore the material and discursive constructions of Chi-Town and urban life among its residents. Appreciating these constructions we also consider how Chicago has served as a key site for understandings of urbanity within a broader national and global context.

**Class Format:** discussion

**Requirements/Evaluation:** attendance and class participation, group presentations and discussions, 5 critical briefs (2-pages) and a book review essay (15 pages)

**Prerequisites:** none

**AMST 313 (S) Gender, Race, and the Power of Personal Aesthetics**

**Cross-listings:** WGSS 313  AFR 326  AMST 313  LATS 313

**Secondary Cross-listing**

This course focuses on the politics of personal style among women of color in an era of viral video clips, the 24-hour news cycle, and e-commerce sites dedicated to the dermatological concerns of "minority" females. With a comparative, transnational emphasis on the ways in which gender, sexuality, ethno-racial identity, and class inform standards of beauty, we will examine a variety of materials including commercial websites, histories, personal narratives, ethnographies, sociological case studies, and feminist theory. Departing from the assumption that personal aesthetics are intimately tied to issues of power and privilege, we will engage the following questions: What are the everyday functions of personal style among women of color? Is it feasible to assert that an easily identifiable "African American," "Latina/x," "Arab American" or "Asian American" female aesthetic exists? What role do transnational media play in the development and circulation of popular aesthetic forms? How might the belief in personal style as activist strategy challenge traditional understandings of feminist political activity?

**Class Format:** This remotely taught, synchronous course follows a discussion format.

**Requirements/Evaluation:** participation, one student-led discussion period, two written essays of 5-7 pages, final oral exam.

**Prerequisites:** LATS 105, AMST 201, AFR 200, WGSS 101 or permission of instructor; first year students are not permitted to take this course.

**Enrollment Limit:** 12

**Enrollment Preferences:** Latina/o Studies concentrators, American Studies majors, Africana Studies majors, and Women's, Gender and Sexuality Studies majors by seniority. If the class is overenrolled students may be asked to submit a brief writing sample.

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

**AMST 315 (S) Blackness 2.0: Race, Film and New Technologies**

**Cross-listings:** AFR 315  STS 315  SCST 315  AMST 315

**Secondary Cross-listing**

Are distinctions of race truly eliminated with digital technologies? Through an engagement with scholarship in media studies, cultural studies, gender
studies, and Africana studies (to name a few), this course will investigate the nuanced ways blackness is (re)constructed and (re)presented in digital
technologies. Although we will largely focus on representations of blackness in modern film, we will examine the impact of 'new' technologies upon the
broader categories of race, gender, and sexuality. Additional topics may include: avatar-based entertainment; race in the 'real' vs 'virtual' world; emoji
wars; blogosphere politics; internet and hashtag activism; social networking and a post-race future; and fandom in the twitter era.

Requirements/Evaluation: participation and attendance, creation and maintenance of a personal blog, structural analyses for film, and design of an
original multimedia project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Africana Studies concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

AMST 317 (F) Black Migrations: African American Performance at Home and Abroad

Cross-listings: AFR 317 COMP 319 AMST 317 DANC 317 ENGL 317 THEA 317

Secondary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African
Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to
sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did
musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance
performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first
novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to
his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration
of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics
through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation: class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page
research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 322 (S) Race, Culture, Incarceration

Cross-listings: AMST 322 INTR 322 AFR 322 PSCI 313

Secondary Cross-listing

This course explores racially-fashioned policing and incarceration from the Reconstruction era convict prison lease system to contemporary mass
incarceration and "stop and frisk" policies of urban areas in the United States. Also explored will be political imprisonment in the United States.

Requirements/Evaluation: brief analytical papers and group presentations.
AMST 323  (S)  Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora

Cross-listings:  ENGL 356  AFR 323  AMST 323  ARTH 223  COMP 322

Secondary Cross-listing

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as the late Congressman John Lewis' *March* and Ebony Flowers' *Hot Comb*, this course illustrates and critiques multiple ways the graphic novel comingles word and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels with the help of critical essays, reviews and film; the chosen texts will center on Africana cultures, prompting students to consider how the graphic novel may act as a useful alternate history for marginalized peoples. During the course, students will build comic creation and analysis skills through short exercises, eventually building up to the final project of a graphic short story that illustrates historical and/or autobiographical narratives. No art experience is required, only an openness to expanding one's visual awareness and composition skills. This course is often taught in collaboration with the Williams College Museum of Art's Object Lab program, which allows the class to have its own space and art objects that are directly related to the course topic. Although it is a remote course this year, this class may still feature Object Lab participation, film screenings, and collaborations with guest speakers.

Class Format: This is a remote class that will primarily feature synchronous sessions with some asynchronous sessions.

Requirements/Evaluation: class participation, written responses, student-led facilitation, one 3-page graphic analysis, one 6- to 8-page essay, and a final project (producing a graphic short story)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: If the enrollment limit is exceeded, preference will be given to Africana Studies concentrators or students who have taken AFR 200, the department's introductory course.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: this course is part of the Gaudino Danger Initiative

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 324  (S)  Indigenous Women's History  (DPE) (WS)

Cross-listings:  WGSS 324  AMST 324  HIST 362

Primary Cross-listing

What would it mean to locate indigenous women and their stories at the heart of American history? This advanced junior seminar course answers this question by centering the lives of indigenous women from the pre-colonial period through the present. We will discuss both the historical importance of these women's lives, as well as the methodological and ethical concerns that arise through the historiographic recovery of their stories. We analyze both canonical figures--such as La Malinche, Pocahontas, and Sakakawea--as well as lesser known historical actors, political leaders, writers, and artists.
Requirements/Evaluation: engaged class participation, weekly reading responses, extended research project (2-page proposal, 5-page annotated bibliography, 15-page final paper and presentation)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: American Studies, History, and Women's Studies, Gender and Sexuality majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 324 (D2) AMST 324 (D2) HIST 362 (D2)

Writing Skills Notes: With substantial focus on students' development of independent research papers, this course satisfies the Writing Skills requirement.

Difference, Power, and Equity Notes: We examine the lives of indigenous women in the Americas across a span of more than 500 years, asking how and why we come to know these stories through archival records, oral histories, popular culture, and autobiographies. By analyzing the interwoven forces of gender, indigeneity, race, and colonization through both primary documents and secondary scholarship, we will work together to cultivate skills of critical inquiry and better understand the role of power in shaping historical narratives.

Not offered current academic year

AMST 326  (F) Feminist and Queer Performance at the Limit of Action  (DPE)

Cross-listings: AMST 326  THEA 322  WGSS 321  AFR 328

Secondary Cross-listing

What counts as feminist and queer activism? This course challenges what we dominantly understand as activism—key to the emergence of ethnic studies and feminist and queer theory. Moving away from political actions centered in these fields, such as strikes, protests, and boycotts, this course will turn to visual and performance art works by artists of color, who consider other forms of action that are not overtly visible, resistant, oppositional, agentive, militant, loud, liberatory, and documentable. Each week, we will examine a performance at the limit of action, including silence, sexual abjection, concealment, melancholia, and waiting, alongside issues related to race, gender, sexuality, labor, and migration among others. How might we approach and reconcile with performances that once again reify notions of racialized and gendered bodies as apolitical, passive, submissive, and compliant? Drawing on scholarship within black and women of color feminist criticism, queer of color critique, critical ethnic studies, and performance studies, this course will attune students to the role of aesthetics to interrogate and expand what we typically conceive of as activism, resistance, power, and survival from racialized, feminized, and queer positions.

Requirements/Evaluation: In-class discussion, short weekly reading posts, class presentation, final paper/project

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: WGSS majors and students with experience in American Studies or performance studies coursework

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 326 (D2) THEA 322 (D1) WGSS 321 (D2) AFR 328 (D2)

Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of activism is valued over other forms.

Fall 2020

SEM Section: R1  MR 1:30 pm - 2:45 pm  Kelly I Chung
AMST 327 (S) Racial and Religious Mixture (DPE)
Cross-listings: REL 314 AFR 357 LATS 327 AMST 327

Secondary Cross-listing

The very term "mixture" implies that two or more distinct substances have been brought together. Distinctions of race and religion are social fictions; yet, the lived ramifications of these social fictions involve tense struggles over the boundaries of racial and religious communities. These boundaries are not just ideas but also practices. In the history of the Americas, mixed racial and religious identities and experiences have more often been the result of violent clashes than romantic encounters. Still, the romanticization of the New World as a geography that makes such mixtures possible reaches back to the earliest days of Spanish conquest in the Americas. This course critically reconsidering varying ways that racial and religious mixtures have been imagined, defined, challenged, negotiated, and survived under imaginative and legal rubrics of mestizaje, creolization, transculturation, passing, syncretism, religious hybridity, and mixed race studies.

Class Format: mostly discussion

Requirements/Evaluation: participation, short writing exercises, a 3-page first essay, a 5- to 8-page second essay, and a 10- to 14-page final paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: seniors, concentrators, majors, those with prior relevant coursework

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 314 (D2) AFR 357 (D2) LATS 327 (D2) AMST 327 (D2)

Difference, Power, and Equity Notes: Focusing on how different peoples have critically theorized and made meaning about and out of racial and religious differences and interconnections, this Difference, Power, and Equity course investigates the ways that knowledge about mixture and difference--and their roles in hierarchical distributions of social and political power--have been critically constructed and transformed.

Not offered current academic year

AMST 329 (F) Marxist Feminisms: Race, Performance, and Labor (DPE)
Cross-listings: THEA 323 WGSS 323 AFR 329 AMST 329

Secondary Cross-listing

Who is considered the dominant subject of labor? This course offers an overview of queer, women of color feminist, decolonial, and black and critical ethnic studies critiques of orthodox Marxism. Starting with core texts from the Marxist tradition, we will explore a range of social positions and forms of labor that complicate Marx's emphasis on the white male industrial worker. Each unit, we will study key scholarship that centers reproduction, slavery, care and domestic work, indentured servitude, sex work, and low wage flexible labor, to name a few, alongside queer and feminist modes of performance that respond to and/or provide strategies to live and survive under racial capitalism. We will discuss seminal works by theorists, including Karl Marx, Luce Irigaray, Cedric Robinson, Jennifer Morgan, Hortense Spillers, Lisa Lowe, Gayatri Chakravorty Spivak, Dorothy Roberts, Angela Davis, José Esteban Muñoz, and Leo Bersani, in tandem with performances, such as paintings, performance art, poetry, protests, photography, prints, music, and sculptures. This course will equip students with a critical understanding of the ways racial capitalism has centrally relied upon the mass capture and recruitment of racialized and gendered labor in and beyond the U.S. and how, through performance, life under these conditions have been reimagined.

Requirements/Evaluation: In-class discussion, short weekly reading posts, class presentation, final paper

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: WGSS majors and students with experience in American Studies or performance studies coursework

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 323 (D1) WGSS 323 (D2) AFR 329 (D2) AMST 329 (D2)
Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor is valued over other forms.

Fall 2020
SEM Section: R1  TF 1:30 pm - 2:45 pm  Kelly I Chung

AMST 330  (Anti-)Imperialism, Race, and the Archive  (DPE)  (WS)
What is U.S. imperialism? How are the social relations of racial capitalism important to U.S. imperialism? How have anti-imperial, anti-racist, and anti-capitalist struggles taken shape within, against, and beyond the U.S. nation-state, and how have these struggles shaped the U.S. nation-state itself? Finally, what kind of anti-imperial activist hermeneutics does American Studies offer and how can they be strengthened to reckon with the specific conditions of the U.S. imperial present? Anchored in these questions, this course seeks to introduce students to the history of U.S. imperialism. It does so beyond the traditional understanding of empire as a one-way agglomerating imposition of power in distant areas, and instead accounts for the co-constitution of reigning state-capitalist orders and global processes of spatial and social differentiation. Following such an approach to the history of U.S. imperialism, this course is organized around four time periods: 1770s to 1890s; 1890s to 1930s; 1930s to 1980s; and 1980s to the present. Across each period, we will attend to processes of U.S. imperial expansion, capital accumulation, and racial domination, and resistance to these processes. We will do so using secondary sources and a wide range of primary sources, including published fiction, legal documents, newspaper articles, speeches, films, and photos. By the end of this course, students should be able to detail a genealogy of the U.S. imperial present that accounts for: the significance of imperial and inter-imperial relations in the formation of U.S. national culture, institutions, and public areas such as law and public policy; how U.S. territorial colonialization has underpinned the development of U.S. imperial infrastructure, the imperial state form, and imperial culture; and how U.S. territorial and extraterritorial sovereignty exist in perpetual reaction to the primary claims of Indigenous peoples and other threats to reigning state-capitalist orders.

Requirements/Evaluation: Evaluation will be based on the following assessments: Class Participation: 25%; Weekly Response (350-500 words): 25%; Essay 1--First submission (5 pgs.): 10%; Essay 1--Revision (5 pgs.): 10%; Essay 2 (5 pgs.): 15%; Essay 3 (5 pgs.): 15%

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors,

Expected Class Size: 15

Grading:

Distributions:  (D2)  (DPE)  (WS)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

Not offered current academic year

AMST 331  (S) New Orleans as Muse: Literature, Music, Art, Film and Theatre in the City

Cross-listings: AMST 331  THEA 330  COMP 330

Secondary Cross-listing This course will look at the representation of a city and how it has influenced artists. Students will read, listen to, and view a selection of the literature, music, film and art that represent the city from both pre-flooding and current re-building. Reading selections will include examples such as Harper's Weekly (Lafcadio Hearn), The Awakening (Kate Chopin), A Streetcar Named Desire (Tennessee Williams), The Moviegoer (Walker Percy), Why New Orleans Matters (Tom Piazza), A Confederacy of Dunces (John Kennedy O’Toole), New Orleans Sketches (William Faulkner), One Dead in the Attic (Chris Rose). Film examples such as A Streetcar Named Desire, An Interview with a Vampire, The Curious Case of Benjamin Button, When the Levees Broke, Treme, Waiting for Godot (in the 9th Ward). Music selections from examples such as Louis Moreau Gottschalk, Jelly Roll Morton, Louis
Armstrong, Fats Domino, The Meters, Kermit Ruffins and the Rebirth Brass Band. Art selections will come from a variety of sources such as THE OGDEN Museum of Southern Art and Prospect 1, 2, & 3.

Requirements/Evaluation: will be on active participation, weekly response essays on film viewings, 2 short essays on class topics, a final paper and a contemporary creative project/performance

Prerequisites: none

Enrollment Limit: 12

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Not offered current academic year

AMST 333 (S) An American Family and "Reality" Television (WS)

Cross-listings: ARTH 310 WGSS 312 AMST 333

Secondary Cross-listing

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Louds' marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Class Format: Remote seminar. The course will feature synchronous online class meetings.

Requirements/Evaluation: class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: junior Art majors, followed by senior majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2021

SEM Section: R1 MW 6:45 pm - 8:00 pm C. Ondine Chavoya

AMST 334 (S) Sexual Economies (DPE)

Cross-listings: ANTH 301 WGSS 301 AMST 334

Secondary Cross-listing

This course examines various forms of sexual labor around the world in order to better understand how gendered and sexual performances are used
in a variety of cultures and contexts for material benefit. Our topics include "traditional" forms of sex work such as street prostitution, pornography, and escorting as well as other forms of sexualized performances for benefit such as stripping or camming. We also discuss current issues and debates about discourses of "sex trafficking." Course readings come from a range of fields, but focus most heavily on anthropology, sociology, American studies, and gender studies. The readings for this class will frequently foreground the lived experiences of sex workers from a variety of nations, races, classes, religions, and backgrounds in order to explore the broader social implications of our subject matter. The format is largely discussion-based, with short lectures supplementing the reading with summaries of current scholarly and activist debates. We have a variety of guest speakers to share their diverse lived experiences related to this topic.

Requirements/Evaluation: midterm essay exam, short quizzes, participation, Marco Polo video chat posts
Prerequisites: none, though WGSS 101 and/or 202 may be helpful, but not required
Enrollment Limit: 14
Enrollment Preferences: based on statement of interest
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 301 (D2) WGSS 301 (D2) AMST 334 (D2)

Difference, Power, and Equity Notes: We pay particular attention to the intersecting questions of race, sexuality, gender, and class as we explore the political economy of commercial sex. The course teaches students to examine the underlying political and economic structures that create systems of privilege and power, thereby complicating questions and assumptions about sexual consent, coercion, agency, and empowerment with particular attention to race and gender in comparative transnational contexts.

Spring 2021
SEM Section: R1   MW 8:30 pm - 9:45 pm   Gregory C. Mitchell

AMST 335  (S) Uncovering Williams
Cross-listings: AMST 335  ARTH 335

Primary Cross-listing

Sparked by current controversies around visual representations at Williams, this course—a joint effort of the Williams College Museum of Art and the American Studies Program—interrogates the history of the college and its relationship to land, people, architecture, and artifacts. Students in this course will examine the visual and material culture of Williams and the land it occupies to uncover how the long and complex history of the college reverberates in the spaces and places students, faculty, and staff traverse daily. We take seriously that objects and environments are not neutral nor are the atmospheres that they reflect and produce. Our interdisciplinary approach draws from the methods and theories of American studies, art history, material culture studies, critical race theory, gender studies, and eco-criticism. Topics of discussion may include: the foundation of the college and displacement of native populations; buildings, objects, and monuments linked to Williams’ evangelical history and the role of missionaries in American imperialism; the symbolic meaning of the varied architectural styles at the college; and the visibility/invisibility of the college's relationship to slavery and Abolitionism.

Requirements/Evaluation: participation (discussion, GLOW posts), 2-3 short papers, one 5- to 6-page midterm paper, and a 10- to 12-page final project (either a research paper or a substantial arts-type project) and bibliography
Prerequisites: sophomore standing or permission of the instructor
Enrollment Limit: 19
Enrollment Preferences: AMST majors
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 335 (D2) ARTH 335 (D1)
AMST 337 (S) Queer in the City (DPE)

Cross-listings: AMST 337 AFR 337 WGSS 346

Secondary Cross-listing

In this course we will examine the various ways scholars and filmmakers have used ethnography as a critical tool for understanding the intersections of race, place, space, gender and sexuality. We will foreground studies that examine unfamiliar sites of Black struggle, resistance, and survival. We will examine Black gender variant and sexual minorities and how they produce, reproduce and struggle for spaces and places of desire, community, pleasure, love, and loss. We will explore these stories through primarily ethnographic modalities. We will discuss the political and ethical ramifications of these ethnographic narratives paying particular attention to the usefulness and limitations of both ‘Thin’ and ‘Thick’ descriptions. We will use ethnography to center debates regarding the politics of representation of racialized queer space, place, and people through both filmic and written accounts. All students will be asked to discover and develop their ethnographic voices through various critical, creative, experimental and performative assignments.

Requirements/Evaluation: facilitated class discussion; weekly critical response papers; creative projects

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: WGSS majors; students may be asked to write a short statement of interest in the event of over-enrollment

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 337 (D2) AFR 337 (D2) WGSS 346 (D2)

Difference, Power, and Equity Notes: Course directly discusses structural oppression, forms of inequality, and social redress through the intersecting matrices of race, gender, sexuality and other ontological forms.

Not offered current academic year

AMST 338 (S) Literature of the American Renaissance

Cross-listings: COMP 337 ENGL 338 AMST 338

Secondary Cross-listing

The decades leading up to the Civil War have often been described as the "American Renaissance" because of the breathtaking explosion of literary achievements in that period (including Walden; Moby-Dick; The Scarlet Letter; Narrative of the Life of Frederick Douglass; and the groundbreaking poetry of Walt Whitman and Emily Dickinson). For the first time, American writers were broadly the equal or more of their European counterparts. We will explore the distinctive character of this achievement, paying close attention to the transformational power of language, and the promises it offered to refigure personal and political identity in a time when the American experiment approached the brink of collapse.

Class Format: discussion

Requirements/Evaluation: in addition to actively participating in class, students will be required to submit very short reading entries on Glow, and to write two comparative essays (of 8 and 12 pages).

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on he Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English majors; American Studies majors; Comparative Literature majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 337 (D1) ENGL 338 (D1) AMST 338 (D2)
AMST 339  (S)  Latina/o/x Musical Cultures: Sounding Out Gender, Race, and Sexuality  (WS)

Cross-listings: LATS 338  AMST 339  WGSS 338

Secondary Cross-listing
In this class we will investigate a wide variety of Latina/o/x popular musical forms, with particular attention to issues of gender, sexuality, and ethno-racial identity. Employing interdisciplinary materials and approaches, this course focuses on the sonic and visual analysis of contemporary Latina/o/x popular music and the identities of its producers, performers, and audiences. We will focus on the following questions, among others: How are hybrid Latina/o/x identities expressed through popular music and dance? In what ways do gender, sexuality, and ethno-racial identity inform the performance and interpretation of particular Latina/o musical forms? What unique role does sound play in our understanding of popular music and identity?

Requirements/Evaluation: class participation, one semester-long original research project conducted in stages

Prerequisites: prior courses in AMST, LATS, or WGSS; not open to first-year students

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, Women’s, Gender, and Sexuality Studies majors, and American Studies majors by seniority

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions:  (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
LATS 338 (D2)  AMST 339 (D2)  WGSS 338 (D2)

Writing Skills Notes: Students are required to complete a semester-long research paper in steps, each of which is evaluated and completed again as needed. These include an abstract (1-2 pages), annotated bibliography (2-5 pages), outline (2-7 pages), rough draft (2 at 6-10 pages), peer editing exercise, and final draft (10-12 pages). The intention is that students learn practical skills related to effective writing and to encourage them to engage in writing in planned stages with consistent feedback.

AMST 340  (S)  Elizabeth Bishop in the Americas  (DPE)

Cross-listings: ENGL 340  AMST 340  WGSS 340  COMP 342

Secondary Cross-listing
Elizabeth Bishop has emerged as one of the most important poets of the 20th century. She is admired not only for her dazzling mastery of the craft but also her adventurous life as a world traveler. Her more than two decades living in Brazil and translating the culture and literature of that country for a North American audience, for instance, make her life and work a rich focal point for cross-cultural study. At the center of the course will be Bishop's stunning meditations on childhood, memory, travel, lesbian sexuality, gender identity, ecology, and race and class in the U.S. and Brazil. We will look at how Bishop intertwines personal and global historical encounters in order to raise serious ethical questions about our shared history of conquest and sense of place in the Americas from the 16th century to the Cold War period of the twentieth. What is ultimately at stake in our claiming of a "home"? We also read a number of the writers in North and South America who were closely connected to Bishop, from Robert Lowell and Ernest Hemingway in North America, to Pablo Neruda and Clarice Lispector in South America. Ultimately, we study how craft, poetic process, and an ethical eye on the world can open up the study of poetry and poetics in the 21st century.

Class Format: three hours per week, in addition to small group discussion and archival research

Requirements/Evaluation: two short papers of 4-5 pages, one longer critical research paper of 10-12 pages, three to four discussion posts (300-500 words)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English, Comparative Literature, Women’s, Gender, and Sexuality Studies, American Studies majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D1)  (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 340 (D1) AMST 340 (D2) WGSS 340 (D2) COMP 342 (D1)

**Difference, Power, and Equity Notes:** This course employs critical tools (case studies, translation theory, archival research, poetics, close reading, comparative approaches, postcolonial theory) to help students question and articulate the way that social injustice, such as racial inequality, poverty, and colonial conquest, shapes national and individual identities. Students will learn how to articulate how our aesthetic and cultural products also serve to shape these identities but also can challenge the dominant power structures.

*Not offered current academic year*

**AMST 343 (S) Representations of Racial-Sexual Violence from Enslavement to Emancipation**

**Cross-listings:** INTR 343 AFR 343 AMST 343 WGSS 343

**Secondary Cross-listing**

This tutorial examines representations of and resistance to racial-sexual violence in American society, from colonial America to contemporary US culture. Interdisciplinary texts cover history, politics, literature, film, feminist studies, American studies, LGBTQ and ethnic/black studies. Books include *Southern Horrors; Intimate Matters; Scenes of Subjection; Trauma and Recovery; The Delectable Negro; At the Dark End of the Street;* films include *Birth of a Nation; Bush Mama; To Kill a Mockingbird.* The primary focus is on racial and sexual vulnerability to violence and mobilization for freedom from the 18th-21st centuries.

**Class Format:** students provide primary and response papers and discuss their analyses and theories of social and interpersonal violence

**Requirements/Evaluation:** weekly primary and response papers

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** preference given to juniors and seniors

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

*Not offered current academic year*

**AMST 344 (F) Pacific-New England Material Histories (DPE)**

**Cross-listings:** ARTH 344 AMST 344

**Secondary Cross-listing**

This course looks at the indigenous, colonial, maritime, and missionary histories that connect New England to island nations in the Pacific in the eighteenth and nineteenth centuries. Rather than thinking of Hawai‘i and Massachusetts merely as opposite ends of United States colonial expansion, we will focus on the heterogenous cast of historical actors—from queens to whalers—who interacted in these places and generated new forms in architecture, painting, printmaking, the decorative arts, textiles, and publishing. Particular attention will be paid to the politics of Hawaiian visual culture and the histories of Williams alumni in Hawai‘i, but the readings, discussions, and student papers will not be limited exclusively to those subjects. Our time together will be split between lecture and class discussion, with some meetings devoted to archival research and object-based case studies in collections on campus. As a group, we will establish a corpus of objects and conceptual frameworks for analyzing what "Pacific-New England" means and how that might challenge our existing assumptions about regional art histories. Finally, we will experiment as a class with the best ways to convey what we’ve learned through our collective inquiry—whether in different forms of writing or by workshopping more creative approaches.

**Requirements/Evaluation:** participation in discussion, two short papers, final research project, and presentation; note: one required field trip, scheduled in consultation with the students

**Prerequisites:** none

**Enrollment Limit:** 12

**Expected Class Size:** 8

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 344 (D1) AMST 344 (D2)

Difference, Power, and Equity Notes: This course traces the ways that systemic biases regarding race, religion, gender, and class impacted and continue to affect relations of power, wealth, and ultimately sovereignty in the United States and in Hawai'i.

Not offered current academic year

AMST 346  (F)  Latinas/os and the Media: From Production to Consumption
Cross-listings:  LATS 346  AMST 346
Secondary Cross-listing

This interdisciplinary course focuses on the areas of Latina/o media production, policy, content, and consumption in an attempt to answer the following questions, among others: How do Latinas/os construct identity (and have their identities constructed for them) through the media? How can we best understand the complex relationship between consumer, producer, and media text? How are Latina/o stereotypes constructed and circulated in mass media? Where do issues of Latina/o consumer agency come into play? In what ways does popular media impact our understanding of ethno-racial identities, gender, sexuality, class, language, and nation?

Requirements/Evaluation: student participation, one 2- to 3-page close reading exercise, and an original 10- to 12 page research paper conducted in stages

Prerequisites:  LATS 105 or permission of the instructor; no first-year students are permitted to take this course

Enrollment Limit:  12

Enrollment Preferences:  Latina/o Studies concentrators or American Studies majors by seniority

Expected Class Size:  12

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

SEM Section:  R1  MR 1:30 pm - 2:45 pm  Maria Elena Cepeda

AMST 347  (S)  Beyond Cli-Fi: Climate Change Histories & the Arts of Resilience  (DPE)
Cross-listings:  AMST 347  ENVI 348
Secondary Cross-listing

This interdisciplinary environmental humanities seminar begins with the premise that our present climate crisis is a political project of globalization propelled by capitalism and its cultural logic. Causes and consequences of climate change can only be understood by examining the historical trajectories of carbon-based economic, political, and cultural systems since the 19th century. We trace the intellectual genealogy of modern climate science, consider the politics of indigenous knowledge as related to extractivism, and examine literary and artistic engagements with the natural world. We pay particular attention to the narrative strategies that scientists and policymakers use to talk about climate, and we develop creative critiques of the dominant discourses. We use historical and cultural analysis to study social movement strategy and tactics among advocates for climate mitigation, adaptation, and resilience. We begin and end with creative responses to climate crisis, always asking: How can we move beyond dystopia and defeatism? How might history inform social movements for climate resilience? How can the arts, theater, and literary production articulate a new politics of survival? What narrative forms enable and inspire climate action?

Requirements/Evaluation:  one short creative writing assignment; several short critical papers (3-4 pages); final essay (10-15 pages)

Prerequisites:  ENVI 101 or instructor permission

Enrollment Limit:  none

Enrollment Preferences:  ENVI or AMST majors or concentrators; people with demonstrated interest in the course topics

Expected Class Size:  15

Grading:  no pass/fail option,  no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 347 (D2) ENVI 348 (D2)

Difference, Power, and Equity Notes: This course considers the historical differences in economic, political, and cultural power which have shaped our present climate crisis. We consider both who drives environmental change and who experiences it first hand. We consider in particular how differences of class, race, and gender shape capacities for resilience and resistance and we examine social movement strategy, with particular attention to Indigenous and POC social movement thinkers and leaders.

Not offered current academic year

AMST 348 (F) Graphic Narratives as Democratic Ideals

Cross-listings: COMP 348 AMST 348 LATS 348

Secondary Cross-listing

This course examines the graphic narrative in terms of how each author/illustrator employs narrative elements (plotting, structure, characterization, text, and visuals) to express social realities within the context of democratic ideals. The primary focus will be on texts that explore themes of democracy and Latinidades. We will also discuss the "graphic activism" of artists like Sharon Lee De La Cruz of Digital Citizens Lab, a design collective with a focus on civic technology. Throughout the course, students will have the opportunity to create their own graphic narratives, either digitally or in print. Possible guest speaker: comic book artist Ivan Vélez (Planet Bronx, 2015 Creative Capital Award in Visual Arts).

Class Format: workshop

Requirements/Evaluation: attendance and class participation, short writing exercises, 4-5 page midterm paper (close-reading a text), 10-15 page final creative paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: LATS concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 348 (D2) AMST 348 (D2) LATS 348 (D2)

Not offered current academic year

AMST 350 (S) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

Not offered current academic year

AMST 351 Queer Tongues & Lavender Linguistics (DPE)
This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called "gay voice," the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

Prerequisites: None; prior coursework in WGSS may be helpful, but is not required
Enrollment Limit: 12
Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment
Expected Class Size: 12
Grading:
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

Not offered current academic year

AMST 353 Is Science Native to Turtle Island? The History of Native Science in North America (DPE)
Cross-listings: STS 353 AMST 353

Primary Cross-listing
Settler sciences and technologies deployed by Europeans colonizing Turtle Island (what settlers called North America) were introduced as weapons of Indigenous termination. From medical violation, to anthropological theft, and industrial pollution, settler technoscience objectified and appropriated Indigenous people and lands, and attempted to displace Indigenous knowledge in the pursuit of settler supremacy. Indigenous bodies were cast as victims, objects and sometimes the tools of this project. And yet, as tools and objects, Indigenous peoples took up settler technoscience in a multitude of ways that failed (both purposefully and not) to adhere to the colonizing mission, incorporating Indigenous knowledges and orientations, subverting settler science as a source of authority, and positioning science as a site of Indigenous sovereignty. The practice of taking up science as a tool of decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and
technology studies (STS), history, and postcolonial and queer theory.

Requirements/Evaluation: attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 13

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 353 (D2) AMST 353 (D2)

Difference, Power, and Equity Notes: This course will explore how settler sciences have been used as a technology of difference making, dispossession, and genocide in United States history. It will also provide students a theoretical toolkit and historical perspective by which they can grapple with the fact that power structures like settler technoscience can be a source of both colonization and liberation.

Not offered current academic year

AMST 355 (F) Creating Whiteness: Racial Taxonomies in 'American' Art, 1650-1900

Cross-listings: AMST 355 ARTH 515

Secondary Cross-listing

“What is race?” “How is a race created?” “What are the racial histories and subsequent political implications of ‘American’ art?” These are the central questions of our exploration. Drawing on two centuries of making in the Americas—from 17th century casta paintings of New Spain to the pictorialist photographs of Fred Holland Day—the object-based seminar for graduate students (and undergraduates with instructor’s approval) draws upon area collections (including WCMA and The Clark Art Institute) to make the argument that racial ideologies have always been sutured to definitions of an American canon. Our approach is the case study: devoting one or two class meetings to the exploration of eight specific moments/artists in order to engage with the intersectional ideologies of personal and collective identity, e.g., self and the Divine; portraiture and the nation, armed conflict, and the constructed mutabilities of gender and sexuality. Additional artists and topics include: the Stuart family’s images of George Washington and Thomas Jefferson; advances in photographic technology vis-à-vis the amputated bodies of Civil War veterans; gender fluidity in John Singer Sargent; and the equation of homoeroticism and black bodies in pictorialism. Designed to provide breadth and specific moments of depth, we will be covering processes of making across multiple mediums and time periods. An elementary reading knowledge of French, Latin, Portuguese, and/or Spanish will not go amiss.

Requirements/Evaluation: research paper, presentations

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 355 (D1) ARTH 515 (D1)

Not offered current academic year

AMST 356 (S) Settler Colonialism, Care, Kinship and Social Reproduction (DPE) (WS)

Cross-listings: AFR 359 AMST 356

Primary Cross-listing

AMST 356 Settler Colonialism, Care, Kinship and Social Reproduction Contemporary understandings of family, kinship and care were shaped through the invasion of the Indigenous Americas and Transatlantic slavery. Indigenous nations came to be understood by anthropologists and settler states as governed by a logic of kinship, and this understanding was weaponized by the US and Canada to target Indigenous governance for elimination. At the
same time, dominant kinship narratives were defined by the property claims made upon Black lives under settler law and by the state-enforced maternal inheritance of racialized bondage. This course will analyze kinship and care as both mechanisms of state control of Indigenous and Black lives and lands, and as sites of insurgency against colonial states. We will analyze how Canada and the U.S. have deployed Child Protective Services, reproductive regulation, Boarding Schools, plantation economies, land dispossession, and the prison industrial complex to target Indigenous, Black, Brown, working class and trans/queer support systems. Applying methodologies and theoretical interventions in Indigenous studies, Black studies and critical political economy to primary texts to US and Canadian law, autobiography, and anthropology, our focus will move from 17th and 18th century British colonial law to autobiographical accounts of slavery and emancipation, to Canada's 19th century Indian Act, to mid-20th century social scientific debates on Black and Indigenous families. We will end by thinking about insurgent practices of organizing care and kinship outside and against the confines of whiteness, capital and the state. The pedagogical aims of the course are to illustrate how kinship narratives anchor settler colonial nationhood and property regimes, and to facilitate the development of skills in writing and independent research, primary source analysis, and critical analysis of law, anthropology, and policy.

Requirements/Evaluation: Class Participation and three critical response papers at three to five pages each (each receiving critical feedback from professor); one response paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process. One final paper (15-20 pages) and one roundtable presentation based on the final paper.

Prerequisites: Prerequisites: one or more of the following courses: AMST 146, Introduction to Indigenous Studies or AFR 200, Introduction to Africana Studies; HIST 254 / AMST 254(F), Sovereignty, Resistance, and Resilience: Native American Histories to 1865 or AMST 204:

Enrollment Limit: 19
Enrollment Preferences: AMST majors have first priority, AFRICANA majors have second priority.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Unit Notes: This course satisfies EITHER the Space and Place elective OR the Comparative Studies in Race, Ethnicity and Diaspora elective

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 359 (D2) AMST 356 (D2)

Writing Skills Notes: Explanation: Three critical response papers at three to five pages each (each receiving critical feedback from professor); one response paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process. One final paper (15-20 pages) and one roundtable presentation based on the final paper.

Difference, Power, and Equity Notes: This course focuses upon the operations of difference, power and equity in settler colonial governance in the Americas, particularly in terms of how the legal and extralegal regulation of family, kinship and care are sites where racial, colonial, ethnic, gender and sexual difference are produced and reproduced. It aims to provide students with critical tools to become responsible agents of change, by informing them of the ways that concerns for social equity in the field of kinship and family

Spring 2021

SEM Section: R1 WF 1:30 pm - 2:45 pm Margaux L Kristjansson

AMST 357 (S) Re/Generations II: Contemporary Experiments in Memory, Trauma, and Self (DPE)

This is a two-part junior seminar in which we take an expansive approach to memoir as a form, genre, and practice, with specific attention given to texts reckoning with the traumas, transgressions, and transformations of what we understand as "America" and its many discontents. As such, the courses are remote and may be taken in sequence or autonomously. In this second part, we convene on a selection from our historical present and explore how categories of identity and experience, memory and history are being constructed and deconstructed, reimagined and remade anew. We will ask: how do these authors narrate the overlapping cycles of loss, pain, grief, survival, resilience, and resistance in the face of historical violence? What possibilities for (individual and collective) healing can exist in and beyond the world as we know it? What does it even mean to have or to not have, to find, to lose, to have stolen, to dissolve, and/or to recover a self in a besieged American present-future tense? Texts to be considered may include: How to Write an Autobiographical Novel (Alexander Chee); When They Call You A Terrorist: A Black Lives Matter Memoir (Patrisse Khan-Cullors and asha bandele); Heart Berries (Terese Marie Mailhot); Know My Name (Chanel Miller); On Earth We're Briefly Gorgeous (Ocean Vuong).

Class Format: Remote

Requirements/Evaluation: weekly reading responses, midterm and final papers

Prerequisites: American Studies 101 and/or 301, previous coursework in race, ethnicity, and diaspora, junior or senior standing, or permission of
**AMST 359 (F)(S) Spirits of Rebellion: The L.A. Rebellion Filmmakers (DPE)**

**Cross-listings:** ENGL 357  AFR 351  AMST 359

**Primary Cross-listing**

When Beyoncé unveiled the *Lemonade* visual album in 2016, her production captured the artistic spirit and gave new life to an earlier work: Julie Dash's *Daughters of the Dust* (1991), a luminous film about three generations of the Gullah people and the first motion picture by a Black woman to obtain wide theatrical release in the United States. Many, however, are unaware of the decades-long cinematic movement to which Dash belongs. In this course, we will devote our critical inquiry to the creative output of the L.A. Rebellion, a group of Black cinematic artists trained at the UCLA Film and Television School between the 1960s and 1990s. Our visual journey will take us through a diverse set of filmmakers like Charles Burnett, Ben Caldwell, Barbara McCullough, Julie Dash, Zeinabu irene Davis, Haile Gerima, Alile Sharon Larkin, Billy Woodberry, among many, many others, and how they sought to not only redefine the Black image on-screen but also reimagine the infinite possibilities of Blackness. We will pay close attention to the heterogeneity of genres, styles, and techniques that they put into practice from narrative to neorealism to documentary to avant-garde/experimental to African and African American musical and storytelling traditions. We will explore the various social and political issues that were represented by their films including: racial and class oppression, Black feminisms, Black Power, Afrocentrism, anti-colonialism and decolonization, police brutality and mass incarceration, radical social movements and coalition building, and the importance of community-based art and film practices. Finally, we will touch upon some of the recent works that have been inspired by the L.A. Rebellion, including the aforementioned *Lemonade* and Barry Jenkins’ *Moonlight* (2016). Our viewership will be supplemented with readings in Black social and cultural criticism.

**Requirements/Evaluation:** weekly online journal responses (1-2 pages); midterm essay (5-7 pages); final project

**Prerequisites:** AMST 101 and/or 301, critical studies in race and ethnicity or cultural studies, or permission of the instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** American Studies majors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course contributes to the Difference, Power, and Equity designation by examining the social, political, cultural, and historical forces that contribute to Black cinematic representation.
Early Americans inhabited an interconnected world through which people, beliefs, and objects circulated. This course explores the "Atlantic World" as both a place and a concept: an ocean surrounded by diverse communities and empires, and an imagined space of shared or competing affiliations. Moving from the tenth century to the nineteenth, it examines ecological, cultural, political, economic, intellectual, and religious exchanges among Native Americans, Europeans and colonizers, and Africans and African Americans. It introduces both conceptual dimensions of this Atlantic paradigm and case studies that investigate its human subtleties, with the goal of examining early American history through a transnational lens. The course will take up the stories of Wabanaki mariners and Norse/Viking expansionists; Pocahontas, a trio of Inuit people, and myriad other Indigenous travelers to Europe; West African survivors of the Middle Passage and their enslaved descendants who pushed for survival and recognition of their humanity overseas; New England religious dissidents, intellectuals, and profiteers from Caribbean slavery; Touissant L'Ouverture and the reverberations of the Haitian Revolution; and whaling ship crews who pursued cetaceans ever farther out at sea, among other topics. The course also delves into new methodologies for telling histories that have been unevenly presented or seemingly silenced in traditional documentary archives, probing ways that oral traditions, songs, archaeology, material culture, and other forms of expression and representation can help recast the nature and meanings of these connected spaces and histories. Additionally, it provides an opportunity to engage with original materials pertaining to Atlantic World histories in the Williams College Archives/Special Collections and Art Museum.

Class Format: will alternate with seminar-type discussion of readings

Requirements/Evaluation: active participation in class discussion, several short essays based on readings and discussion topics, museum/archives exercise, final essay

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: sophomore, junior, and senior History majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 361 (D2) AMST 360 (D2)

Difference, Power, and Equity Notes: This course examines the formation, expression, and articulation of racial, ethnic, cultural, and other forms of difference in the historical Atlantic World, and the ways that peoples of Indigenous and African descent engaged with and challenged European colonization. It devotes substantial time to critical methodologies that re-center voices oftentimes treated as "silenced" or "absent" in older literatures, and helps students build fluencies in recovering and analyzing these lives.

Not offered current academic year

AMST 368 (F) Framing American Slavery (DPE)

Cross-listings: AFR 363 AMST 368 HIST 368

Secondary Cross-listing

Readings in American Slavery  This course will delve into how and what historians have written about US slavery for the last century or so. Rather than marching through time, like we might in a survey course, we'll explore the nooks and crannies of slavery's history. We'll consider gender and sexuality, labor and capitalism, regional difference, maritime culture, and every day life. We'll compare histories produced well before the Civil Rights Movement to books written afterward. We'll consider the obstacles and challenges Black scholars faced in the academy and consider the significance of their work. Finally, we'll examine slavery's role in today's world, beginning with the institution's relationship with American universities and continuing on to the recent protests against monuments and statues.

Requirements/Evaluation: Four written essays/reviews, final paper. Students must also complete reading and contribute to class discussions.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Priority given to History, American Studies, and Africana Studies concentrators/ majors.

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
AFR 363 (D2) AMST 368 (D2) HIST 368 (D2)

Difference, Power, and Equity Notes: This course will explicitly examine how power worked and changed during the centuries of legal slavery in the United States. Since lawmakers joined power and violence to definitions of whiteness and blackness, we will study how these definitions emerged and changed over time. Students will address issues of violence, legal and extra legal means of continuing slavery through changing political and economic conditions. Additionally, the course will consider the racial barriers in the academy.

Fall 2020
SEM Section: R1    TR 9:45 am - 11:00 am     Gretchen Long

AMST 376 (F) Landscapes in American Literature

Cross-listings: ENGL 376 STS 377 AMST 376

Secondary Cross-listing
This course examines representations of American landscapes in selected texts from the British colonial era to the present. Critical approaches will include narrative theory, formalism, eco-criticism, and science and technology studies. The central questions are: (1) How do authors adapt narrative and poetic forms to the representation of particular landscapes? (2) How do literary landscape representations change when new technologies arise for traversing and transforming them? (3) What effects can literary landscapes have on the landscapes we live in? Landscapes include settlements, cities, wildernesses, “frontiers,” suburbia, and infrastructural scenes. Relevant technologies include the postal service, the railroad, the telegraph and telephone, the automobile, commercial aviation, and Skype. Texts may include: letters of Columbus, American Indian creation stories, early American religious texts, captivity narratives, slave narratives, and poems, short stories, and novels from the 17th to the 21st centuries, as different from one another as Dickinson’s “Nature-sometimes sears a Sapling-” and Annie Proulx’s *Brokeback Mountain*.

Requirements/Evaluation: discussion participation; five brief response papers (~2 pages); a mid-semester essay (~5 pages); a final essay (12- to 15-pages)

Prerequisites: none
Enrollment Limit: 15
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 376 (D1) STS 377 (D2) AMST 376 (D1)

Not offered current academic year

AMST 379 (F) American Pragmatism

Cross-listings: PHIL 379 AMST 379

Secondary Cross-listing
Along with jazz, pragmatism stands as the greatest uniquely American contribution to world culture. As the music wails in the background, we will study the classic pragmatists: William James, C. S. Peirce, and John Dewey. We will continue with the contemporary inheritors of the tradition: Cornel West, Richard Rorty, and Hilary Putnam. Although it has influenced both analytic and continental philosophy, pragmatism is a powerful third philosophical movement. Always asking what practical difference would it make, our authors investigate the central questions and disputes of philosophy, from epistemology and metaphysics to ethics and religion. Rather than seeing philosophy as an esoteric discipline, the pragmatic philosophers (with the possible exception of Peirce) see philosophy as integral to our culture and see themselves as public intellectuals.

Requirements/Evaluation: final paper, several short assignments
Prerequisites: at least two PHIL courses
Enrollment Limit: 25
Enrollment Preferences: Philosophy and American Studies majors, then seniors and juniors of any major
Expected Class Size: 12-15
AMST 380 (F) Freedom Dreams, Afro-Futures & Visionary Fictions

Cross-listings: AFR 380 SCST 380 WGSS 380 AMST 380 ENGL 381 STS 380

Secondary Cross-listing

In this course we will examine the various ways Black scholars, artists, & writers use science fiction and visionary fiction to imagine freedom and new world orders. We will focus on the role of history, particularly slavery, in the Black radical imagination. “Freedom” is the keyword throughout the course. We will grapple with the various and sometimes conflicting meanings and uses of freedom as it relates to blackness, gender, sexuality, class and ability. We will explore multiple forms of scholarship and cultural productions, including film, music, novels, short-stories, art, poetry, and other academic texts. All students will be asked to discover and develop their writerly voices through various critical, creative, experimental and performative assignments.

Requirements/Evaluation: active participation, completion of various short assignments, one 5-page paper and one 7- to 10-page final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, then Africana Studies concentrators

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 381 (S) The Legal History of Asian America (DPE)

Cross-listings: HIST 381 AMST 381

Secondary Cross-listing

This course will focus on how certain legal structures have shaped the Asian American experience. We will examine the impact of the laws that are part of the anti-Chinese movement, the Chinese Exclusion Act, the incarceration of Japanese Americans during WWII, school desegregation, citizenship cases, and other legal decisions that have influenced the development of Asian American history.

Requirements/Evaluation: two 2- to 3-page response papers, two-5- to 7-page essays, one final paper of 15 pages

Prerequisites: none, open to all students

Enrollment Limit: 25

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 381 (D2) AMST 381 (D2)

Difference, Power, and Equity Notes: This class will cover immigration law, civil rights law, and gender relations, all under the umbrella of legal decisions which determined the racial, class, and gender makeup of the Asian American population from the late-1800s to the present.

Not offered current academic year

AMST 382 (S) Transnational Asian/American Film and Video
Cross-listings: AMST 382  COMP 382

Primary Cross-listing

In this course, we will examine transnational Asian/American film and video through the frameworks of film and visual studies, cultural studies, and critical media literacy. We will traverse communal, national, and transnational lines with a heterogeneity of forms and genres, including narrative, documentary, experimental, short film, music video, public access television, and YouTube. We will attend to multiple modes of critical analysis: (1) the conditions of power and visibility being mediated by sites of representation, (2) the networks and platforms helping to make these sites possible, and (3) the materials, meanings, and acts being generated by them. We will also interrogate: How are Asian, American, and/or Asian American representation being produced, performed, embodied, circulated, and consumed? What are the social, political, economic, and cultural forces at play in a given historical context? What artistic and political strategies are at play in the complex nexus of producers, directors, actors, distributors, and viewers? And what are the possibilities, limits, and stakes for different strategies of invention and intervention, activism and resistance? We will consider films from the United States as well as the inter-Asian context. Students will produce a creative media project at the end of the semester.

Requirements/Evaluation: attendance and participation; weekly online journal entries (1-2 pages); midterm paper (5-7 pages); final creative project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: American Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

AMST 403 (S) New Asian American, African American, Native American, and Latina/o Writing

Cross-listings: AMST 403 LATS 403 AFR 333

Primary Cross-listing

The most exciting and forward-thinking writing in the English language today is being done by formally experimental writers of color. Their texts push the boundaries of aesthetic form while simultaneously engaging questions of culture, politics, and history. This course argues not only for the centrality of minority experimental work to English literature but a fundamental rethinking of English literary studies so as to confront the field's imbedded assumptions about race, a legacy of British colonialism, and to make the idea of the aesthetic more open to ideas generated in critical race studies, diaspora studies, American studies, and those fields that grapple more directly with history and politics. In the critical realms of English, work by minority writers is often relegated to its own segregated spaces, categorized by ethnic identity, or tokenized as "add-ons" to more "central" or "fundamental" categories of literature (such as Modernism, poetics, the avant-garde). Recent work by Asian American, African American, Native American and Latino/a writers challenges our assumptions and preconceptions about ethnic literature, American literature, English literature, formal experimentation, genre categorization, and so on. This writing forces us to examine our received notions about literature, literary methodologies, and race. Close reading need not be opposed to critical analyses of ideologies. Formal experimentation need not be opposed to racial identity nor should it be divorced from history and politics, even, or especially, a radical politics.

Requirements/Evaluation: one shorter paper (7-8 pp.), one final paper or creative project (10-12 pp.), two short response papers, a presentation, and participation

Prerequisites: none but those with some previous experience with literature and/or literary analysis might be helpful

Enrollment Limit: 15

Enrollment Preferences: American Studies majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

AMST 404 New Works in Asian American & Pacific Islander Studies (DPE)

In this seminar, we will consider new and/or newly intensifying debates and conversations in Asian American and Pacific Islander Studies. Topics may include white settler colonialism; indigeneity, the Pacific, and the transpacific; refugee experiences; political participation, conservativism, and religion; affirmative action; sexual violence; mental health; and comparative and relational racialization. We will also consider some new works of Asian American film and literature, and the criticism it generates. In addition to reading very recent scholarship on these topics in the field, we will also look at related media coverage, policy proposals, law, and/or activism. Students will therefore not only gain an understanding of the field's recent concerns but also become familiar with the broader political, social, and cultural contexts from which they emerge. Course material will focus on scholarship and issues that critically engage race, gender, sexuality, indigeneity, and/or disability as key terms. Students will be asked to develop a final project or paper based on one of the topics covered in the course.

Requirements/Evaluation: Participation, weekly bibliographic annotations, one 3-5 page paper, one final presentation (8-10 page paper plus in-class
Prerequisites: Permission of Instructor/AMST recommended
Enrollment Limit: 12
Enrollment Preferences: American Studies majors, Seniors, Juniors
Expected Class Size: 12
Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course is organized around Asian American and Pacific Islander (AAPI) scholarship that foregrounds systems of power and hierarchies of identity. Students will consider how AAPI experiences throughout the history of the U.S. are shaped by uneven and often unjust processes, such as war or economic liberalism, and aspects of identity, such as race, indigeneity, gender/sexuality, class, and religion.

Not offered current academic year

AMST 405 (F) Critical Indigenous Theory (DPE)

Intellectual decolonization is not a bounded project. On one hand, it demands a vocabulary of difference and refusal that rejects colonial theories and epistemologies. On the other, it demands that we interrogate our own intellectual and cultural traditions and trauma. Critical Indigenous theory is a tool in those projects, as it offers a corrective and an opening up of both dominant critical theory traditions that violently erase Indigenous bodies and political realities and of Indigenous theory that can essentialize difference and replicate oppressive dynamics in our communities. Critical Indigenous theory seeks to understand the structures and relations of power in settler colonialism, nested sovereignty, and culturally specific Indigenous philosophical traditions, like Indigenous studies more broadly, but also questions the key concepts that define Indigenous studies: tradition, sovereignty, authenticity, identity, race, gender, and sexuality. In this course, we will read major works in critical Indigenous theory that address indigeneity as it relates to race, postcolonial theory, feminist and two-spirit critique, alternative political engagement with the settler colonial state, and questions of "colonial unknowing." We will work on cultivating the reading practices needed to parse dense theoretical texts, and over the course of the semester you will develop a research project on a topic of your choosing that will allow you to take critical Indigenous theories and employ them as analytic tools and lenses.

Class Format: This course will be taught remotely. Class sessions will include Zoom based seminar meetings during the designated course times, as well as asynchronous peer-editing and collaboration on final papers.

Requirements/Evaluation: attendance and participation, one discussion prospectus, and a 20-page research paper
Prerequisites: junior or senior status and some background in American Studies, Native American Studies, or Critical Theory or permission of the instructor
Enrollment Limit: 10
Enrollment Preferences: American Studies majors
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Students will be invited to think deeply about the intersections of race, gender, colonialism, sexuality, and epistemology, and develop skills necessary to identify the theoretical basis of decolonial activism.

AMST 408 (F) Envisioning Urban Life: Objects, Subjects, and Everyday People

Cross-listings: LATS 408 AMST 408
Secondary Cross-listing

What is the relationship between real life in urban communities and the multiple ways in which they are imagined? What does it mean to be "urban," to live in an "urban community," or to be the product of an "urban environment"? Who do we think the people are who populate these spaces? This course takes a critical look at specific populations, periods, and problems that have come to dominate and characterize our conceptions of the quality,
form, and function of U.S. urban life. A few of the topics we may cover include historical accounts of the varied ways in which poverty and "urban culture" have been studied; race, class, and housing; the spatial practices of urban youth and the urban elderly; and gendered perspectives on social mobility and community activism. Finally, this course will explore how diverse social actors negotiate responses to their socio-spatial and economic circumstances, and, in the process, help envision and create different dimensions of the urban experience.

Requirements/Evaluation: class participation, a short essay, a series of writing exercises, and a semester-long final project

Prerequisites: prior courses in AMST, LATS, or permission of instructor; not open to first year students

Enrollment Limit: 14

Enrollment Preferences: senior Latina/o Studies concentrators and senior American Studies majors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
LATS 408 (D2) AMST 408 (D2)

Not offered current academic year

AMST 411 (S) Transnationalism and Difference: Comparative Perspectives

Cross-listings: LATS 409 WGSS 409 AMST 411

Secondary Cross-listing

In the age of satellite television, e-mail, and mobile applications such as WhatsApp and Skype, transnational living has rapidly emerged as the norm as opposed to the exception. However, what does it really mean to "be transnational"? How are the lived experiences of transnational individuals and communities shaped by categories of difference such as gender, ethno-racial identity, sexuality, and class? What impacts do the growing number of transnational citizens and residents in the U.S. have on our understanding of "American" identity in the local, national, and global contexts? In this interdisciplinary seminar we will analyze recent theories regarding the origins and impacts of transnationalism. Particular attention will be paid throughout the semester to the intersections of gender, ethno-racial identity, sexuality, and class in connection with everyday transnational dynamics. The broad range of case studies examined includes Central American, Colombia, the Dominican Republic, Haiti, Indonesia, Jamaica, Mexico, the Middle East, and Peru.

Class Format: This remotely taught, synchronous course will follow a discussion format.

Requirements/Evaluation: student participation, an original 12-15 page semester-long research paper conducted in stages, and peer editing

Prerequisites: LATS 105, WGSS 101 or AMST 201; junior or senior standing

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators, Women's, Gender, and Sexuality Studies majors, and American Studies majors by seniority. If the course is overenrolled students may be asked to submit a brief writing sample.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021

SEM Section: R1 MR 1:30 pm - 2:45 pm Maria Elena Cepeda

AMST 430 (F)(S) Race, Identity, Nature (DPE) (WS)

Cross-listings: ENVI 430 AFR 390 AMST 430

Primary Cross-listing

From 18th-century claims that climate determined character to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, race, colonialism, identity, and "nature" operate as interconnected terrains of power. Anchored in the contexts of U.S. colonialisations, racialization, and
accumulation, this course aims to expose students to the cultural politics of "nature" as a way of "doing" American Studies. Specifically, this course investigates formations of and struggles against U.S. colonialisms, racialization, and accumulation via the many symbolic and material iterations, negotiations, and contestations of the contingent relations between and among human and non-human natures. Organized around a significant research paper and weekly written responses, this course ultimately aims to foster students' critical writing, reading, analytical thinking, and comparative inquiry skills across such contexts and sites of contestation, and across texts of different genres and media. We will work with a wide range of primary sources, including published fiction and poetry, legal documents, newspaper articles, speeches, recorded songs, and films, photos, paintings and other visual culture. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward non-human natures, as well as analyze how ideas of "nature" mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Class Format: This course is designated as remote. However, international students who want to take this course but need it to be designated as a hybrid course in order to do so may instead register for an independent study with Prof. Ayazi. As a hybrid course, this independent study will have the same requirements as the listed course, with the exception of a limited number of face-to-face meetings in Williamstown or Boston. Please contact Prof. Ayazi at ha5@williams.edu to discuss such an arrangement.

Requirements/Evaluation: Evaluation will be based upon the following: Class Participation: 25%; Weekly Responses (350-500 words): 25%; Final Research Essay: 50%, broken down by Research Proposal (2-3 pgs, 10%), Peer Review and Feedback (2 pgs, 10%), Presentation (10%); Essay (15 pgs): 20%. Class will meet twice per week. Tu. meetings will be synchronous and Th. meetings will be asynchronous. Asynchronous components of the course include pre-recorded lectures, discussion boards, and other exercises that promote as much connection as possible within the constraints of remote education. Toward this end, synchronous meetings will center engaged discussion.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: American Studies majors will be given preference; secondary preference given to students specializing in Native American and Indigenous Studies, as well as Africana and Environmental Studies majors.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 430 (D2) AFR 390 (D2) AMST 430 (D2)

Writing Skills Notes: Emphasis on revision and writing process includes: One thesis paper at 15 pages (receiving critical feedback from professor and peers); one thesis paper revision with critical feedback from professor and peers, including one letter of revision explaining the student's revision process; one research proposal (including thesis outline and annotated bibliography of primary texts) with critical feedback from professor; student presentations and roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: By the end of this course, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation. In order to addresses such issues of difference, power, and equity, this course provides students with the necessary th

AMST 455 (S) The Afterlives of Objects: Telling American Histories through Material Culture and Museums (DPE)

Cross-listings: HIST 455 AMST 455

Secondary Cross-listing

Material culture studies examine relationships between people and objects. Tangible artifacts like furniture, clothing, ceramics, tools, and buildings
give insight into communities' identities, aspirations, and struggles. This course approaches American histories through objects, and considers how interdisciplinary methodologies can reveal alternative understandings of the past. The course traces changing theories and practices of preservation, curation, and display; shifting conceptions of "heritage" among diverse peoples; and ethical challenges posed by Native American and African American items held in museums, particularly in relation to repatriation considerations. The course involves a staged set of class visits to work with collections at the Williams College Archives/Special Collections and Art Museum as well as local/regional repositories and historic sites. While the scope of the course is continental and at times transoceanic, it includes substantial focus on the Northeast/New England and the material assemblages and landscapes that shape western Massachusetts. Students will build familiarity with appropriate techniques for handling objects, cultivate skills for developing and carrying out an original research project, and explore diverse modes of analysis and expression for telling the stories of objects and their associated communities.

**Requirements/Evaluation:** active participation in class discussion and museum visits, in-class presentation about one week's readings, research project prospectus, research project

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** junior and senior History and American Studies majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 455 (D2) AMST 455 (D2)

**Difference, Power, and Equity Notes:** This course examines diverse historical experiences of North American peoples, including Native Americans and African Americans, in conjunction with responses to Euro-American settler colonialism. It introduces students to foundational methodologies in object studies including decolonizing approaches, and explores key debates about possession, interpretation, and repatriation of objects to descendant communities, such as the Native American Graves Protection and Repatriation Act (NAGPRA).

*Not offered current academic year*

**AMST 462 (F) Art of California: Pacific Standard Time** (DPE) (WS)

**Cross-listings:** ARTH 462 AMST 462 ARTH 562 LATS 462

**Secondary Cross-listing**

In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

**Requirements/Evaluation:** Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

**Prerequisites:** ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

**Enrollment Limit:** 12

**Enrollment Preferences:** senior Art major and senior Latina/o Studies concentrators

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 462 (D1) AMST 462 (D2) ARTH 562 (D1) LATS 462 (D2)

**Writing Skills Notes:** There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for
improvement.

**Difference, Power, and Equity Notes:** Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

**AMST 468 (F) Race, Empire, and the Birth of the American Century (DPE)**

**Cross-listings:** HIST 468 AMST 468

**Secondary Cross-listing**
This course examines the birth of the "American Century" by studying the extension of Manifest Destiny to the Pacific, especially the American occupation of Hawaii and the Philippines.

**Requirements/Evaluation:** a series of weekly papers and a final research paper

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** must be a History or American Studies major

**Expected Class Size:** 15-19

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** History department senior seminar

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

HIST 468 (D2) AMST 468 (D2)

**Difference, Power, and Equity Notes:** The course will cover the unequal power relations between Anglo Americans and Native Americans, Hawaiians, and Filipinos, as evidenced in the American occupation of land within our shores and the colonization of two island nations in the Pacific. We will study how the American presence in these areas affected how the original inhabitants were perceived and represented by Americans as witnessed in their presence at the Worlds Fairs of 1893 and 1904.

**Not offered current academic year**

**AMST 478 (S) Cold War Landscapes**

**Cross-listings:** AMST 478 HIST 478 ENVI 478

**Secondary Cross-listing**
The Cold War between the United States and the Soviet Union set in motion dramatic changes to the natural and built environments of many nations between 1945 and 1991. Nuclear test and missile launch sites, naval installations, military production operations, and border securitizations are just a few of the most obvious ways in which the stand-off between the two countries altered rural and urban landscapes around the world. But one can also see the Cold War as setting in motion less immediately direct but nonetheless profound changes to the way that many people saw and planned for the environments around them, as evidenced, for instance, by the rise of the American suburb, the reconstruction of postwar Europe, and agricultural and industrial initiatives in many developing nations. We will begin this seminar by exploring several distinct "Cold War landscapes" in the United States, then move on to examining others in Europe and the Soviet Union. We will spend the final weeks of the semester discussing examples from other parts of the world. Our approach to our topics will be interdisciplinary throughout the semester, and students are welcome to write their research papers on any geographical area of the world.

**Requirements/Evaluation:** class participation, weekly critical writing, and a final 20- to 25-page research paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** History, Environmental Studies majors if over-enrolled

**Expected Class Size:** 10
AMST 488  (F)  Fictions of African American History  (DPE) (WS)

Cross-listings:  HIST 488  AMST 488

Secondary Cross-listing
This course examines African American fiction, largely from the late 19th and very early 20th century. These Black authors, none of them professional historians, try to bring African American History to light in an era before this history was taken seriously by the white academy. Many of the authors we examine were activists and journalists who set their novels and short stories during Slavery and Emancipation. We will consider inherently radical act of reading and writing in a society where black literacy was illegal until after the Civil War. Alongside the fiction we will read modern historiography of the era. We will also delve into some of slave narratives published after Emancipation. Readings will include works by Booker T. Washington, James Weldon Johnson, Charles Chesnutt, Paul Laurence Dunbar, and Sutton Griggs. This is a tutorial and will be taught online.

Requirements/Evaluation: Every week a student will write either an essay or a critique. For the final assignment students may either write a review of 2-3 works of historiography OR substantially revise an essay or critique they did during the semester.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History, Africana, and American Studies Majors will have preference. As well as students who have never taken a tutorial.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 488 (D2) AMST 488 (D2)

Writing Skills Notes: Students will write every week (essays and critiques) and receive feedback from their partners and from the professors. The final assignment of the semester is major revision of a one essay or critique. Students will receive feedback on their paper's organization and argument as well as points of style. Since we will be reading both fiction and historiography, we will discuss as a group the different challenges each form poses to essay writing.

Difference, Power, and Equity Notes: African Americans writing during this time lived under the laws and customs of Jim Crow and White Supremacy. Lacking political power, they turned to the power of the written word. We will evaluate the way writing and fiction helped ameliorate (or not) the racial power structures.

Fall 2020
TUT Section: RT1  
TBA  
Gretchen Long

AMST 490  (F)  The Suburbs

Cross-listings: AMST 490  ENVI 491  HIST 491

Secondary Cross-listing
The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies?
Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

**Class Format:** Remote for fall 2020. As in a regular semester, I'll work with enrolled students to set up a schedule for our tutorial meetings, which will occur online. At a couple junctures during the semester, we will also try to meet online as a whole class, as well as have a few small group discussions.

**Requirements/Evaluation:** typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and students with previous coursework in History

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Winter Study --------------------------------------------------------------

AMST 30 (W) Senior Honors: American Studies
To be taken by students registered for American Studies 491 or 492.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year

AMST 99 (W) Independent Study: American Studies
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
ANTHROPOLOGY AND SOCIOLOGY (Div II)

Chair: Professor James Nolan

- Zaid Adhami, Assistant Professor of Religion and Faculty Affiliate in Anthropology & Sociology; affiliated with: Anthropology and Sociology; on leave Fall 2020
- Nicholas Carr, Visiting Professor of Sociology
- David B. Edwards, James N. Lambert ’39 Professor of Anthropology
- Antonia E. Foias, Professor of Anthropology
- Kim Gutschow, Lecturer in Religion and Anthropology/Sociology; affiliated with: Anthropology and Sociology
- Nicolas C. Howe, Director of CES and the Environmental Studies Program, Associate Professor of Environmental Studies and Faculty Affiliate in Anthropology and Sociology; affiliated with: Anthropology and Sociology
- Peter Just, Professor of Anthropology; on leave Fall 2020
- Lisa A. Koryushkina, Visiting Assistant Professor of Sociology
- Joel Lee, Assistant Professor of Anthropology
- James A. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Anthropology and Sociology and Religion; affiliated with: Religion Department, Anthropology and Sociology; on leave 2020-2021
- Gregory C. Mitchell, Chair and Associate Professor of Women’s, Gender and Sexuality Studies and Faculty Affiliate in Anthropology/Sociology, Chair of Women’s, Gender, and Sexuality Studies; affiliated with: Anthropology and Sociology
- James L. Nolan, Chair and Washington Gladden 1859 Professor of Sociology
- Olga Shevchenko, Professor of Sociology; on leave Spring 2021
- Christina E. Simko, Assistant Professor of Sociology
- Ben Snyder, Assistant Professor of Sociology

The disciplines of anthropology and sociology aim to teach students how to enter into the social/cultural worlds of others, how to grasp those worlds from the viewpoints of their inhabitants, and how to articulate those denizens’ habits of mind, worldviews, and values to broader audiences. Anthropology critically analyzes social forms and practices in all their local and global diversity, illuminating the cultural grounding of the ideologies, narratives, and structures in which we are all implicated. Archaeology extends this analysis to social formations of the historical and prehistorical past. Sociology studies the nature and trajectories of modernity, examining the intricacies of industrial and post-industrial societies and the dilemmas that confront individuals in modern social systems. These disciplines introduce students to classical and contemporary theories that illuminate the contours and contradictions of social experience. The Anthropology & Sociology program promotes a critical engagement with these theories while at the same time bringing evidence and case studies into conversation with theory.

The Department emphasizes qualitative fieldwork in its many forms. We teach students how to formulate, frame, and address intellectual problems. We also teach students the empirical methods widely used in anthropology, sociology, and other related disciplines, including, but not limited to ethnography, participant observation, interviewing, discourse and visual analysis, archival research, oral history, and archaeological methods.

Because the program emphasizes critical thinking skills to assess social claims made by others, and the application of anthropological and sociological skills to present day concerns, undergraduate training in Anthropology or Sociology has proven invaluable to majors pursuing a range of careers, including public policy, diplomacy, international development, marketing, social media development, K-12 education, journalism, medicine, and law.

MAJORS

The department offers separate majors in both Anthropology and Sociology, with a broad and diverse array of courses in both disciplines. The department is committed, however, to the unity of the social sciences. To this end, Anthropology and Sociology offer joint core courses in methodology and theory, as well as several elective courses in common. All joint courses are designated “ANSO.”

Requirements

For the degree in Anthropology or Sociology, students must complete a minimum of nine courses as outlined below:
Core Courses

Majors in both disciplines must take a sequence of four core courses. Three of these are joint (ANSO) courses. The sequences are:

**Anthropology**

ANTH 101 How to Be Human

**Sociology**

SOC 101 Invitation to Sociology

**Joint Courses**

ANSO 205 Ways of Knowing
ANSO 305 Social Theory
ANSO 402 Senior Seminar

Elective Courses

Majors in Anthropology or Sociology must take five elective courses from the course listings of their respective disciplines or from the joint ANSO listings. Two of the courses chosen are normally at the 300 level or above. In close consultation with their departmental advisors, students may take some selected courses from other disciplines to fulfill major requirements in either Anthropology or Sociology.

Majors in each wing of the department are allowed to count up to two courses in the other wing towards fulfillment of their major requirements.

**STATISTICS AND DATA ANALYSIS**

In addition to the nine total courses required for the major, it is recommended that Anthropology and Sociology majors take Statistics 101 or a comparable course in statistics and data analysis.

**AREA STUDIES CONCENTRATION**

Students who wish to combine a major in Anthropology or Sociology with an Area Studies concentration are encouraged to do so. Courses taken to satisfy an Area Studies requirement may be counted toward the major with prior approval of a student’s departmental advisor. The only exception to this rule is the Area Studies senior seminar, which cannot ordinarily be counted toward the Anthropology or Sociology degree.

**LANGUAGE STUDY, STUDY ABROAD, AND WINTER STUDY**

Departmental advisors will help interested students integrate a major with study abroad, foreign language study, or field research during the winter study period. The department encourages Williams students to take advantage of established foreign study programs in Egypt, Japan, India, Hong Kong, and other countries. Because some foreign study programs do not offer courses that can be counted toward the Anthropology or Sociology degrees, however, sophomores planning to study abroad in junior year must consult with the departmental advisor before declaring a major.

**FAQ**

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

**Can your department or program typically pre-approve courses for major/concentration credit?**

Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). We welcome discussions of curricular plans for those major who travel abroad in their junior year. However, typically, students don’t have access to all the salient information until AFTER they have taken the course.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**

Course title and description, and complete syllabus including readings/assignments. The syllabus and readings/assignment information is required in cases when the course title and description are not sufficient to ascertain whether a course should count towards the major. We also request information on course hours.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**

Yes. We credit two, and in special cases three courses.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**

Yes. The expectation is for an intellectually rigorous semester-long course with a paper/exam component.

**Are there specific major requirements that cannot be fulfilled while on study away?**

Yes. ANSO 205, ANSO 305 and ANSO 402 are almost always taken in the department.

**Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)**
Yes. ANSO 305 is offered in the fall and ANSO 205 and ANSO 402 only in the spring. We advise our majors to be aware if they plan to spend all or part of their junior year abroad.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

In one case, a student had assumed that he could take the equivalent of ANSO 205 abroad, and was disappointed to discover that was not the case. He ended up taking ANSO 205 his senior year.

THE DEGREE WITH HONORS IN ANTHROPOLOGY OR SOCIOLOGY

Honors and highest honors are normally awarded for the completion of a year-long research project that has resulted in an original thesis of high quality. Students wishing to write an honors thesis should engage a member of the department faculty as a Thesis Advisor as soon as possible and must submit a proposal for the thesis for department approval no later than the end of spring reading period of the junior year. If the proposal is approved, they will be permitted to register for Anthropology and Sociology 493-W31-494, during which they will write and defend a thesis. If their overall work in the major continues to be of high quality and the thesis is deemed of a similar quality, they may be awarded honors or highest honors in Anthropology or Sociology.

ANSO 205 (S) Ways of Knowing

An applied exploration of how one makes sense of the social world through fieldwork. Some of the key questions of the course are: What are the philosophical and epistemological underpinnings of social inquiry? How does one frame intellectual problems and go about collecting, sifting, and assessing field materials? How do qualitative and quantitative approaches to social inquiry differ? How are they similar? What is the importance of history to sociological and anthropological research? How do social researchers use archival and other documentary materials to interpret society? What is the relationship between empirical data and the generation of social theory? What are the typical ethical dilemmas of fieldwork and of other kinds of social research? How do researchers’ personal biographies and values shape their work? We will approach these problems both abstractly and concretely, through readings in epistemology as well as a series of case studies, drawing upon the field experiences of departmental faculty and guest speakers from both inside and outside the academy. The course will also feature hands-on training in field methods, in which students design and undertake their own pilot field projects.

Class Format: This class will be taught remotely with both synchronous and asynchronous components. Students must attend two synchronous video meetings per week. The asynchronous portion will involve semi-weekly postings on the assigned readings using the Perusall app along with weekly video lectures.

Requirements/Evaluation: full-participation in the seminar, an independent ethnographic project, several short written assignments, and a final research essay/proposal (roughly 30 pages of writing in total).

Prerequisites: ANTH 101 or SOC 101 or permission of instructor

Enrollment Limit: 16

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

Spring 2021

SEM Section: R1  WF 1:30 pm - 2:45 pm   Ben Snyder

ANSO 305 (F) Social Theory

An introduction to social theory in anthropology and sociology, with strong emphasis on enduring themes that cut across disciplinary divides. What is modern about modern social theory? How do social thinkers construe “society” and “culture,” and have these constructions withstood challenges over time? What role does human agency play in the unfolding of social life, and where does that sense of agency come from in the first place? What are the forces that animate social interaction on the level of individuals, social groups and complex units like nation-states? What are the possibilities and limits of systematic approaches to the study of human social experience? The course emphasizes major differences between interpretive frameworks as well as the common elements that contribute to a deeper understanding of the social world.
Class Format: This course will be taught in a hybrid format. We will meet primarily in person, with a synchronous remote option during the scheduled class period. Some sessions may be held fully online to facilitate small group work.

Requirements/Evaluation: full participation in the seminar, weekly contributions to annotating course readings, and three papers

Prerequisites: ANTH 101 or SOC 101 or ANSO 205 or permission of the instructor

Enrollment Limit: 19

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Unit Notes: AMST Critical and Cultural Theory Electives

Distributions: (D2)

Fall 2020

SEM Section: H1   MR 1:30 pm - 2:45 pm   Christina E. Simko

ANSO 402 (S) Senior Seminar

This capstone seminar combines intensive discussion and individual research. Half of the course will be dedicated to the discussion of current debates central to the concerns of both anthropology and sociology, such as the ethics of conducting fieldwork, humanitarianism and relief, global public health, poverty and the city, and environmental conservation. Among the topics discussed, the ethical dilemmas of conducting ethnography will be a common theme. The second half of the course will be devoted to independent individual original projects which should have a major ethnographic component. At the end of the course, students will present their projects to the seminar.

Requirements/Evaluation: full participation, major research project and paper (30 pages), class presentation; weekly short responses

Prerequisites: only senior majors in Anthropology and Sociology, or permission of instructor

Enrollment Limit: none

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2021

SEM Section: H1   TF 3:15 pm - 4:30 pm   Antonia E. Foias

Winter Study --------------------------------------------------------------

ANSO 99 (W) Independent Study: Anthropology & Sociology

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study

Grading: pass/fail only

Not offered current academic year
ANTHROPOLOGY AND SOCIOLOGY (Div II)

ANTHROPOLOGY
Chair: Professor James Nolan

- Zaid Adhami, Assistant Professor of Religion and Faculty Affiliate in Anthropology & Sociology; affiliated with: Anthropology and Sociology; on leave Fall 2020
- Nicholas Carr, Visiting Professor of Sociology
- David B. Edwards, James N. Lambert ’39 Professor of Anthropology
- Antonia E. Foias, Professor of Anthropology
- Kim Gutschow, Lecturer in Religion and Anthropology/Sociology; affiliated with: Anthropology and Sociology
- Nicolas C. Howe, Director of CES and the Environmental Studies Program, Associate Professor of Environmental Studies and Faculty Affiliate in Anthropology and Sociology; affiliated with: Anthropology and Sociology
- Peter Just, Professor of Anthropology; on leave Fall 2020
- Lisa A. Koryushkina, Visiting Assistant Professor of Sociology
- Joel Lee, Assistant Professor of Anthropology
- James A. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Anthropology and Sociology and Religion; affiliated with: Religion Department, Anthropology and Sociology; on leave 2020-2021
- Gregory C. Mitchell, Chair and Associate Professor of Women’s, Gender and Sexuality Studies and Faculty Affiliate in Anthropology/Sociology, Chair of Women’s, Gender, and Sexuality Studies; affiliated with: Anthropology and Sociology
- James L. Nolan, Chair and Washington Gladden 1859 Professor of Sociology
- Olga Shevchenko, Professor of Sociology; on leave Spring 2021
- Christina E. Simko, Assistant Professor of Sociology
- Ben Snyder, Assistant Professor of Sociology

The disciplines of anthropology and sociology aim to teach students how to enter into the social/cultural worlds of others, how to grasp those worlds from the viewpoints of their inhabitants, and how to articulate those denizens’ habits of mind, worldviews, and values to broader audiences.

**Anthropology** critically analyzes social forms and practices in all their local and global diversity, illuminating the cultural grounding of the ideologies, narratives, and structures in which we are all implicated. **Archaeology** extends this analysis to social formations of the historical and prehistorical past. **Sociology** studies the nature and trajectories of modernity, examining the intricacies of industrial and post-industrial societies and the dilemmas that confront individuals in modern social systems. These disciplines introduce students to classical and contemporary theories that illuminate the contours and contradictions of social experience. The Anthropology & Sociology program promotes a critical engagement with these theories while at the same time bringing evidence and case studies into conversation with theory.

The Department emphasizes qualitative fieldwork in its many forms. We teach students how to formulate, frame, and address intellectual problems. We also teach students the empirical methods widely used in anthropology, sociology, and other related disciplines, including, but not limited to ethnography, participant observation, interviewing, discourse and visual analysis, archival research, oral history, and archaeological methods.

Because the program emphasizes critical thinking skills to assess social claims made by others, and the application of anthropological and sociological skills to present day concerns, undergraduate training in Anthropology or Sociology has proven invaluable to majors pursuing a range of careers, including public policy, diplomacy, international development, marketing, social media development, K-12 education, journalism, medicine, and law.

**MAJORS**

The department offers separate majors in both Anthropology and Sociology, with a broad and diverse array of courses in both disciplines. The department is committed, however, to the unity of the social sciences. To this end, Anthropology and Sociology offer joint core courses in methodology and theory, as well as several elective courses in common. All joint courses are designated “ANSO.”
Requirements
For the degree in Anthropology or Sociology, students must complete a minimum of nine courses as outlined below:

Core Courses
Majors in both disciplines must take a sequence of four core courses. Three of these are joint (ANSO) courses. The sequences are:

**Anthropology**
ANTH 101 How to Be Human

**Sociology**
SOC 101 Invitation to Sociology

**Joint Courses**
ANSO 205 Ways of Knowing
ANSO 305 Social Theory
ANSO 402 Senior Seminar

Elective Courses
Majors in Anthropology or Sociology must take five elective courses from the course listings of their respective disciplines or from the joint ANSO listings. Two of the courses chosen are normally at the 300 level or above. In close consultation with their departmental advisors, students may take some selected courses from other disciplines to fulfill major requirements in either Anthropology or Sociology.

Majors in each wing of the department are allowed to count up to two courses in the other wing towards fulfillment of their major requirements.

STATISTICS AND DATA ANALYSIS
In addition to the nine total courses required for the major, it is recommended that Anthropology and Sociology majors take Statistics 101 or a comparable course in statistics and data analysis.

AREA STUDIES CONCENTRATION
Students who wish to combine a major in Anthropology or Sociology with an Area Studies concentration are encouraged to do so. Courses taken to satisfy an Area Studies requirement may be counted toward the major with prior approval of a student's departmental advisor. The only exception to this rule is the Area Studies senior seminar, which cannot ordinarily be counted toward the Anthropology or Sociology degree.

LANGUAGE STUDY, STUDY ABROAD, AND WINTER STUDY
Departmental advisors will help interested students integrate a major with study abroad, foreign language study, or field research during the winter study period. The department encourages Williams students to take advantage of established foreign study programs in Egypt, Japan, India, Hong Kong, and other countries. Because some foreign study programs do not offer courses that can be counted toward the Anthropology or Sociology degrees, however, sophomores planning to study abroad in junior year must consult with the departmental advisor before declaring a major.

FAQ
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). We welcome discussions of curricular plans for those major who travel abroad in their junior year. However, typically, students don't have access to all the salient information until AFTER they have taken the course.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?
Course title and description, and complete syllabus including readings/assignments. The syllabus and readings/assignment information is required in cases when the course title and description are not sufficient to ascertain whether a course should count towards the major. We also request information on course hours.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?
Yes. We credit two, and in special cases three courses.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?
Yes. The expectation is for an intellectually rigorous semester-long course with a paper/exam component.

Are there specific major requirements that cannot be fulfilled while on study away?
Yes. ANSO 205, ANSO 305 and ANSO 402 are almost always taken in the department.
Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. ANSO 305 is offered in the fall and ANSO 205 and ANSO 402 only in the spring. We advise our majors to be aware if they plan to spend all or part of their junior year abroad.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

In one case, a student had assumed that he could take the equivalent of ANSO 205 abroad, and was disappointed to discover that was not the case. He ended up taking ANSO 205 his senior year.

THE DEGREE WITH HONORS IN ANTHROPOLOGY OR SOCIOLOGY

Honors and highest honors are normally awarded for the completion of a year-long research project that has resulted in an original thesis of high quality. Students wishing to write an honors thesis should engage a member of the department faculty as a Thesis Advisor as soon as possible and must submit a proposal for the thesis for department approval no later than the end of spring reading period of the junior year. If the proposal is approved, they will be permitted to register for Anthropology and Sociology 493-W31-494, during which they will write and defend a thesis. If their overall work in the major continues to be of high quality and the thesis is deemed of a similar quality, they may be awarded honors or highest honors in Anthropology or Sociology.

ANTH 101  (F)(S)  How To Be Human  (DPE)

Is there such a thing as "human nature"? This course is an introduction to cultural anthropology (also known as social or socio-cultural anthropology), the study of human society in all its profound variety. Through deep, sustained, systematic participation in and observation of a particular social context, anthropologists seek to comprehend and illuminate the human condition. Anthropologists’ insights into the ways in which human institutions—language, economy, religion, social stratification, law, sexuality, art, the state, and many more—are culturally constructed and reproduced have transformed the way the world is understood. Puncturing ethnocentrism, anthropology's attentiveness to the ideas and practices of cultures in every part of the globe vastly enriches the archive of human answers to human problems. The distinctive methods of the discipline enable anthropologists to discover patterns and phenomena not discernible in other modes of enquiry. With such findings anthropologists are able to make critical interventions in public discourse and to demonstrate how deeply we are all shaped by cultural forces.

Class Format: Hybridity is a beautiful and productive thing. In Fall 2020 we will have regular in-class lecture-and-discussion sessions once a week with virtual learners projected into the classroom and fully participant. The second meeting of the week will be a combination of ethnographic film viewings, synchronous and asynchronous group exercises and group presentations.

Requirements/Evaluation: weekly posts in response to readings, two group presentations, several short writing exercises, final exam

Prerequisites: first-year students and sophomores

Enrollment Limit:  25

Enrollment Preferences: first-year students; sophomores may enroll if there is room

Expected Class Size:  20

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)

Difference, Power, and Equity Notes: The course is an introduction to cultural anthropology and deals extensively with race, ethnicity, religion, gender, etc., as cultural constructs creating social difference, hierarchies of power, and the creation of inequities in communities and societies. Readings in ethnography, social theory, and sociology are designed to give students a deeper appreciation of all these issues.

Fall 2020

LEC Section: H1    TR 11:30 am - 12:45 pm     Joel Lee

Spring 2021

LEC Section: H1    MWF 11:45 am - 1:00 pm     David B. Edwards

ANTH 103  (F)  Pyramids, Bones, and Sherds: What is Archaeology?
Anthropology examines not only living societies, but also prehistoric cultures whose remains are found worldwide. This course will present how archaeology reconstructs the various aspects of human society from the physical record of prehistory. How do we study the subsistence and settlement patterns, the political and social organization, and the economy and ideology of prehistoric societies who have left behind mute material records? The objective of anthropological archaeology is to bring to life these prehistoric cultures through archaeological analysis. The different goals, approaches and methodologies of modern archaeology will be discussed theoretically and then applied to case studies.

**Class Format:** In the Fall 2020, the course will have a hybrid format. In person and remote students will attend lectures or class discussions during the regular twice-a-week schedule, with an additional synchronous session for remote students to address questions. If remote students cannot attend additional Q&A session, open office hours will also be available.

**Requirements/Evaluation:** class presentations, two 12-15pp analytical papers, midterm and final exams

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** First and second year students.

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

---

Living in a time of political and social turmoil, Confucius told his followers: “When the realm has the Way, show yourself; when it lacks the way, hide.” Reclusion here is a moral choice, justified by the ethical decline of the state. But it could also be a mortal necessity in a period in which government service was a distinctly hazardous pursuit. In other contexts becoming a hermit could instead be figured as aesthetic stance meant to preserve one’s artistic integrity against the dominant claims of society. This course looks at the literature of reclusion-living a life of seclusion from society-in a range of different cultures and periods, from ancient China to contemporary America. With sources that include poems, essays, novels, and films, we will investigate a set of issues surrounding radical seclusion. What different forms does reclusion take? Can one be a hermit without being completely separated from society? What is the relationship between hermits and the state-to what extent does one depend on the other? What are the philosophical and moral implications of eremitism? Is separating oneself from human society an inherently immoral act? What is the relationship between reclusion and technology in the contemporary world? What is the nature of solitude and can it be experienced in a group (for example, in contemporary “intentional communities”)? While most of our work will focus on textual analysis, there will be an experiential component to the course as well. Each student will design and implement their own experiment in (short-term) eremitism.

**Class Format:** experiential component

**Requirements/Evaluation:** tutorial papers, responses, and an individual project

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students, Chinese majors, Religion majors, Anthropology majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ANTH 134 (D1) CHIN 134 (D1) COMP 134 (D1) REL 134 (D2)

**Writing Skills Notes:** Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner's paper. Papers will receive substantial writing-based feedback from both the instructor and partner.

**Difference, Power, and Equity Notes:** This course provides students with the opportunity to analyze the shaping of social differences and dynamics of unequal power. Acts of reclusion are often ways that individuals can challenge the dominance of the state and other structures of authority.
indirectly. Modes of reclusion can differ substantially depending on the social standing of the recluse. These are issues that we will examine in the course.

Not offered current academic year

ANTH 138 (F) Spectacular Sex  (DPE) (WS)
Cross-listings:  WGSS 138  ANTH 138

Secondary Cross-listing
From Beyoncé's Coachella performance to Donald Trump's social media antics, spectacles captivate us. Spectacles may be live shows, media events, or even everyday performances ranging from interactive advertisements to viral video sensations. But what are the uses of spectacle? Why are some compelling while others fall flat? How do spectacles control society or maintain social norms? And, importantly for our purposes, how does spectacle shape gender in society? Or from another angle, how does sexuality infuse spectacle? This tutorial introduces students to theories of spectacle ranging from the ancient Greeks to Marxist-inspired thinkers in the 20th century. In particular, we will examine how feminist thinkers have contributed to this literature and how theories of spectacle relate to questions of gender and sexuality. Our weekly readings focus on pairings of theoretical readings with writing on popular cultural examples and case studies. Some possible topics include sporting events, charity ad campaigns, music videos, political events, and social media.

Requirements/Evaluation:  weekly response papers; students will also select past papers to develop and rewrite as more formal essays
Prerequisites:  none
Enrollment Limit:  10
Enrollment Preferences:  first- and second-year students; a statement of interest will be solicited from pre-registrants
Expected Class Size:  10
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 138 (D2) ANTH 138 (D2)

Writing Skills Notes:  This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers. Students will select past response papers for development and rewriting. 

Difference, Power, and Equity Notes:  This course deals substantively with questions about privilege and power as they interact along the intersections of race, gender, sexuality, class, ability, and other axes of difference.

Fall 2020
TUT Section: RT1  TBA  Gregory C. Mitchell

ANTH 208 (S) The U.S. and Afghanistan: A Post-Mortem  (DPE)
Cross-listings:  GBST 208  ANTH 208  ASST 208  PSCI 220

Primary Cross-listing
The United States attacked and defeated the Afghan Taliban regime over in the course of a few short weeks in 2001. Within a few years, the finality of that victory was brought into question as the Taliban regrouped and eventually reasserted itself as a formidable guerrilla army that the U.S. military could not easily defeat. At the same time that it was facing a more difficult military challenge than anticipated, the United States got bogged down in the process of nation-building, as well as efforts at social reform. This course examines the history of American involvement in Afghanistan, beginning with the Cold War when the U.S. used Afghanistan as a test case for new models of political modernization and economic development. We will go on to discuss the U.S. support for Islamist political parties during the Soviet occupation of Afghanistan in the 1980s and the consequent rise of the Taliban, and the role of Afghanistan in the September 11th attacks and the "War on Terror" that followed. The course will conclude with a consideration of the impact and legacy of the two decades of nation-building and social reform carried out by the United States since 9/11.

Requirements/Evaluation:  grading will be determined by class participation, two short essays, and a 15-page research paper
Prerequisites:  none
Enrollment Limit: 25

Enrollment Preferences: Anthropology and Sociology majors, Global Studies concentrators, Political Science and Asian Studies majors will get preference

Expected Class Size: 15-20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 208 (D2) ANTH 208 (D2) ASST 208 (D2) PSCI 220 (D2)

Difference, Power, and Equity Notes: Among the topics relevant to power and difference to be considered in this course are the American support and later disavowal of Islamist political parties to advance US geopolitical goals, public relations efforts "to save Afghan women" after 9/11, and the uses and misuses of American military, economic, and political power to build a western-style democratic government and bring western-oriented social reforms to a society radically different from U.S. society.

Spring 2021

SEM Section: R1 WF 1:30 pm - 2:45 pm David B. Edwards

ANTH 212 (F) Foundations of China

Cross-listings: HIST 214 CHIN 214 ANTH 212 GBST 212 REL 218

Secondary Cross-listing

This course examines the foundational period of Chinese civilization, from the earliest evidence of human activity in the geographical region we now call China, through the end of the Han dynasty in the early third-century CE. This is the period that saw the creation and spread of the Chinese script (a writing system that would be the dominant one in East Asia for thousands of years), the teachings of Confucius (whose ideas continue to play a role in the lives of billions of people today), the construction of the Great Wall (which is not, as it turns out, visible from space), and the creation of the imperial bureaucratic system (that was, in essence, the progenitor of the modern bureaucratic state). We will proceed chronologically but focus on a set of thematic topics, including language and writing, religion and philosophy, art and architecture, politics and economics, and science and technology. While this course is entitled "Foundations of China," we will take a critical perspective on narratives, both Chinese and Western, that see Chinese history as an unbroken history of a single "civilization."

Requirements/Evaluation: short writing assignments (approximately 750 words each), quizzes, a mid-term, and a final exam

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: Chinese majors, History majors, Religion majors, and Anthropology majors

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

ANTH 214 (F) The Rise and Fall of Civilizations

Cross-listings: ANTH 214 ENVI 224

Primary Cross-listing

Over the centuries, philosophers and historians have asked how societies evolved from simple hunter-gatherer bands to complex urban civilizations. Human prehistory and history have shown the repeated cycles of the rise, expansion and collapse of early civilizations in both the Old and New World. What do the similarities and differences in the development of these first civilizations tell us about the nature of societal change, civilization and the state, and human society itself? The course will examine these issues through an introductory survey of the earliest civilizations in Mesopotamia, Egypt, India, Mesoamerica and South America. Classical and modern theories on the nature, origin, and development of the state will be reviewed in light of the archaeological evidence.
Class Format: Class discussion and debates will complement lecture with powerpoint presentation. In the Fall 2020, the course will have a hybrid format. In person and remote students will attend lectures or class discussions during the regular twice-a-week schedule, with an additional synchronous session for remote students to address questions. If remote students cannot attend additional Q&A session, open office hours will also be available.

Requirements/Evaluation: midterm, final exam, 15pp analytical paper, two quizzes

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First and second years.

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 214 (D2) ENVI 224 (D2)

Fall 2020

ANTH 215  (F) Performance Ethnography  (DPE)
Cross-listings: GBST 215  DANC 214  ANTH 215  AMST 214  THEA 215

Secondary Cross-listing

The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance, movement, and performance. Traditionally considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) readings in ethnographic studies of dance and performance practices from different parts of the world, and (iii) field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and may include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance or performance experience is assumed or required.

Class Format: community-based field work

Requirements/Evaluation: class participation, reading responses, fieldwork and field notes, short papers, and final essay

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 215 (D2) DANC 214 (D1) ANTH 215 (D2) AMST 214 (D1) THEA 215 (D1)

Difference, Power, and Equity Notes: This course focuses on ethnographic research with an emphasis on the ethics of doing ethnography in field sites and making performances based on that research. In fieldwork and performance work, there is a difference in social, cultural, and political (broadly conceived) power between researcher and interlocutors. In the course, students’ critical analytical skills are developed for them to be self-reflective about these power differentials and to address issues of social inequality.

Not offered current academic year

ANTH 216  (S) Urbanism in the Ancient World
Cross-listings: ANTH 216  GBST 216

Primary Cross-listing
This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Angkor, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots at the beginning of the first civilizations in Euroasia and the Americas. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanites had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities?

Requirements/Evaluation: 5-page papers every other week, oral responses on alternate weeks; tutorial attendance is required

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: sophomores; or majors in Anthropology or Sociology

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 216 (D2) GBST 216 (D2)

ANTH 219 (S) The Art and Archeology of Maya Civilization

Cross-listings: ANTH 219 ARTH 209

Primary Cross-listing

The ancient Maya civilization was one of the most sophisticated and complex cultures of prehispanic Central America. Its complex calendrics, astronomy, mathematics, art and hieroglyphic writing system are celebrated worldwide. The course will examine the trajectory and nature of ancient Maya civilization from the combined perspectives of archaeology and art history. The origins and evolution of the Maya states during the Preclassic period (1000 B.C.-A.D. 250) will be explored through the rich archaeological remains and Preclassic art styles. The Classic Maya civilization (A.D. 250-1000) will then be presented through a detailed survey of the archaeology, art and hieroglyphic texts of this period. Finally, the collapse of Classic Maya civilization and its transformation and endurance during the Postclassic period and under early Spanish rule (A.D. 1000-1600) will be critically evaluated through a review of the archaeological, iconographic, and ethnohistorical evidence.

Class Format: lecture/discussion

Requirements/Evaluation: midterm and final exams, hieroglyphic project, 15pp research paper

Prerequisites: none, but an introductory ARTH or ANTH course recommended

Enrollment Limit: none

Enrollment Preferences: Anthropology/Sociology and Art History majors

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

LEC Section: H1   TF 1:30 pm - 2:45 pm   Antonia E. Foias

ANTH 222 (F) Heroes, Saints and Celebrity

Cross-listings: REL 273 ANTH 222
Primary Cross-listing

This course examines the ways in which cultures select, ritually celebrate, institutionally harness, and ultimately devour people designated as 'extraordinary'. We will begin by considering cultural archetypes and theories of the hero and how heroism has been understood in different eras and cultural contexts. Using Weber's theory of charisma as a foundation, we will look at a number of specific case studies to evaluate the relationship between individual creativity and action and the demands of social conformity and control. Finally, we will examine how charisma is commoditized in the form of the celebrity in contemporary American culture.

Requirements/Evaluation: class participation, two short response papers, research paper, final exam
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

ANTH 223 (S) Ethnic Minorities in China: Past and Present (DPE)
Cross-listings: ANTH 223 CHIN 223

Secondary Cross-listing

According to the most recent census conducted in China in 2010, of the 1.3 billion population of China, more than 110 million (8.49%) were ethnic minorities (shaoshu minzu). Most of the minority groups reside in autonomous regions and districts, which constitute 64% of China's total acreage. This course introduces students to the multiethnic aspect of China's past and present. We will ask the central question of "what is minzu" and address various topics such as the minority-group identification project; the definition of minzu (translated as "ethnic group," "nationality," or "race" by different scholars); the intersections between language, religion, tourism, diaspora and ethnicity; historical sino-centric views about "foreigners" and "barbarians" as well as the roles that "barbarians" have played in China's long history. We will examine how social differences and hierarchy are constructed and discuss how power plays in the shaping of "ethnicity." A multidisciplinary approach will be adopted for the course, taking in sources from anthropology, history, literature, ethnic studies, and cultural studies. Throughout the course, the pedagogical techniques of "intercultural dialogue" will be adopted to encourage students to discuss their own ethnic experiences and compare ethnic minority issues in China with similar issues in the United States. Students are also encouraged to come up with real-world solutions and strategies to deal with issues of racism, bias, and discrimination.

Class Format: The course will be offered remotely and adopt a learner-centered, quasi-tutorial format. Every week students will view recorded lectures and participate in an online discussion forum asynchronously. In addition, students will be placed into smaller groups and meet with the instructor once a week for synchronous discussions.

Requirements/Evaluation: class attendance, weekly quizzes, active participation in both the online discussion forum and in-class meetings, two short (5-page) response papers, and one final research paper (10-12 pages).
Prerequisites: none, open to all students; no knowledge of Chinese language required
Enrollment Limit: 15
Enrollment Preferences: current and prospective majors in the Department of Asian Studies, then to first-years
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Materials/Lab Fee: books and reading packet
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 223 (D2) CHIN 223 (D2)

Difference, Power, and Equity Notes: We explore the interactions between "power" and "ethnicity," "center" and "periphery" in the Chinese context and compare them with students’ own experiences. Students are required to write one short response paper on their personal encounter with the
concept of "race" or "ethnicity." For the final research paper, students are required to identify one problem among all the ethnic minority issues in the Chinese context and write a policy recommendation to make real-world changes.

Spring 2021

SEM Section: R1  TF 1:30 pm - 2:45 pm  Li Yu

ANTH 225 (F) Ways of Seeing

This course examines the potential of images for revealing aspects of cultural normally obscured by the written word and for transmitting different, sometimes undervalued insights and knowledge of the social world. The central focus of this course is documentary film, and we will consider both the theory and practice of the documentary in the United States and abroad as it has evolved over time and as it is evident in contemporary filmmaking. In the course of the semester, we will examine some of the ways in which filmmakers, and ethnographic filmmakers in particular, have approached the task of documenting and understanding different aspects of social reality. Among the questions that we will consider are the following: What is the relationship between written texts and images? What is it that documentary films "document?" What is the relationship between images and stories, and should the techniques used in fiction films to construct voice, point of view, identification, narrative sequence, etc. apply as well in the creation of nonfiction films? What is the role of film in anthropology, and how does ethnographic filmmaking relate to anthropology and to the broader documentary film tradition? In the last part of the course, we will consider the proliferation of cell phone videos and platforms such as Youtube and Instagram and their significance for the documentary film genre more generally.

Class Format: The class will be taught remotely and will include pre-recorded lectures, conversations with filmmakers and producers, and weekly online discussions

Requirements/Evaluation: Weekly response/critiques of assigned films, a longer written paper (10-12 pages) or video essay of comparable scope

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Anthropology/Sociology majors, open to first-year students

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

ANTH 226 (F) Spiritual But Not Religious

Cross-listings: REL 226 ANTH 226

Secondary Cross-listing

Today, more than one in five people in the United States identify as "none" when asked about their religious affiliation. Yet that does not mean that religious sentiment or spirituality is on the decline. On the contrary, talk of "spirituality" is more pervasive than ever in popular discourse. Increasingly Americans claim that they are "spiritual but not religious" or that they prefer "individual religion" over "organized religion." This course seeks to understand and investigate this phenomenon. What is the lived experience of being "spiritual but not religious"? What counts as spirituality? Is there a meaningful distinction between spirituality and religion? What does this distinction assume about the nature of organized religion? What is the history that led us to this ideology of individualized spirituality? And what are the social and political implications of this trend? We will explore these questions and study this phenomenon through an engagement with ethnography (the qualitative research method generally described as "participant-observation"). Over the course of the semester, students will be expected to conduct an ethnographic research project within local communities in Williams College and Williamstown. Alongside our central readings on spirituality, we will also be studying some background in the theory and practice of this methodology. Throughout the semester, students will work together on developing the practical skills necessary to conduct an ethnographic project, and will be gradually executing their own individual projects. This will include: designing a feasible project and research question, selecting research sites and interlocutors, taking field-notes and conducting interviews, and finally analyzing data and writing an ethnographic essay.

Requirements/Evaluation: regular reading responses; semester-long research project with frequent small assignments building up to the final product (15- to 20-page paper)
ANTH 227 (F) Language and Society: What Does Your Speech Say About You?

Cross-listings: ANTH 227, ARAB 227

Secondary Cross-listing

Sociolinguistics is the study of how aspects of society influence the way language is used by the society members. In this course, we will examine the inter-relationships between the way language is used in various social contexts affecting that usage. How and why do languages change? How does language reflect a person's identity? How does language intersect with power relations among individuals within a society? Does language vary according to gender? How are language varieties formed, and what determines their status within speech communities? How and why do speakers code-switch among different varieties? These are some key questions that we will examine in this class, drawing on readings that focus on different languages.

Requirements/Evaluation: active class participation, response essays, assignments, article presentation, variation paper, final exam

ANTH 228 (F) Jihad

Most studies of the global jihad movement focus on ideology, operations, and strategy. Numerous studies have also focused on the individual psychology of those who join jihad groups. Often ignored are the cultural dimensions of Islamic jihad. This course examines both the "global" culture of jihad--those cultural elements of the movement that are common across national and linguistic borders--and the particular ways in which jihadi groups reflect and respond to the local cultures in which they operate. Among the topics to be considered are the ways in which jihad adherents use ritual, poetry, graphic imagery, dress and grooming codes, music, film, social media, dream interpretation, and mythology to fix their place in the world and advance their political and social agendas. The course will also examine the role of violence in creating a distinctive and exclusionary social milieu within jihad groups and in defining the relationship between these groups and the societies that surround and, in some cases, support them. Of particular interest for the course will be the ways in which cultural elements of jihadi groups and the jihadi "lifestyle" are mobilized to attract new recruits to the jihad movement.

Requirements/Evaluation: class participation, four short and informal blog posts (1-page each), two longer response papers (2- to 3-pages each), one research paper (12- to 15-pages)

ANTH 229 (F) Introduction to Islamic Studies

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 230  Musical Ethnography
Music provides a constant accompaniment to most of our lives, from mundane activities to personal or collective moments of celebration and grief. Often, we experience music's impact on us without fully considering how it shapes our ideas and experiences. Drawing on ethnomusicology, anthropology, and related fields, this course explores how music can illuminate people's practices of being-in-the-world. Musical ethnography describes both the means by which scholars pursue this line of questioning, and also the written work that results from such an investigation. This course features a hands-on approach to musical ethnography. Students will each conduct ethnographic fieldwork in a musical community within Williamstown and the surrounding area. Coursework will survey approaches to methodology (modes and degrees of researcher involvement, practical skills related to documentation), issues of ethics, and social and musical analysis.

Class Format: lecture/discussion
Requirements/Evaluation: class participation, small assignments (four 1-2 page assignments), interview transcript with commentary, reading response, final project and presentation
Prerequisites: some musical training/experience necessary, see instructor for more information
Enrollment Limit: 10
Enrollment Preferences: Seniors, music and anthropology/sociology majors
Expected Class Size: 6
Grading:
Unit Notes: MUS World Music/Ethnomusicology
Distributions: (D1)
Not offered current academic year

ANTH 232  (S) Town and Gown: Investigating the Relationship of College and Community
Team-taught by an anthropologist and a journalist, this course investigates the relationship between Williams College and the surrounding communities of Northern Berkshire County via ethnographic/journalistic research conducted by students. The course will look at several case studies centered on "town-gown" relations in different eras and locations in order to contextualize and provide comparative material for understanding the relationship of Williams to its neighboring communities. Among the topics to be considered and possibly investigated will be the social and economic effects of colleges on local communities, the role of alcohol and athletics in town/gown relations, and how the increasing corporatization of academic institutions has changed the nature of town-gown interactions and the place and role of institutions of higher education in their communities. The focus of the course will be on student research, and a large percentage of class time will be devoted to learning the basic techniques of ethnographic and journalistic research, including interviewing, oral historical research, survey research, and participant-observation. Each student will conduct a major research project of their own devising, which will culminate in an investigative report and a public presentation.

Requirements/Evaluation: class participation, research exercises, major ethnographic research paper
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
Not offered current academic year

ANTH 233  (S) Spiritual Crossroads: Religious Life in Southeast Asia
Cross-listings: ANTH 233  ASST 233  REL 253
Primary Cross-listing
No region of the world presents a richer tapestry of religious beliefs, practices, and institutions than Southeast Asia. Buddhism, Hinduism, Christianity and Islam are all to be found and all of them interpenetrate and contend with each other and with a deep undergirding of animism, shamanism, and
mystical folk belief systems. This course will survey these religious traditions through time and space, looking in particular at the growing tension between religion and the state as fundamentalism and religious militancy have spread into the region in recent times. All of Southeast Asia will be covered, but particular attention will be devoted to Indonesia, where religious blending and the growth of new fundamentalism are both especially marked.

Requirements/Evaluation: midterm, short essays, term paper
Prerequisites: none; open to non-majors
Enrollment Limit: 19
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 233 (D2) ASST 233 (D2) REL 253 (D2)

ANTH 235  (F)  Refugees and Migrants
An overflow of refugees to the EU and alarmist electoral campaign rhetoric in the U.S. have intensified the issue of international migration around the world. Right- and left-wing politicians and their constituents, human rights activists and state officials, journalists and NGOs discuss, argue, and mull over causes and consequences of population change, strategies of migration management, and predicaments of social integration. In this course, we will examine the emerging conditions of international migration. Specifically, we will focus on how contemporary welfare and labor regimes, claims on citizenship rights, immigration rules, public deliberations, and interethnic and racial experience shape the movements of people and affect their lives by controlling their bodies, subjectivities, social networks, health, and labor. We will draw on domestic and international case studies as we examine a controversy surrounding the Arizona immigration law, DACA debates, challenges of a migration crisis in EU, rural-to-urban migration in India, and a complexity of refugee flows in the Caucasus and the Middle East. We will briefly engage with the subtleties of migration estimation, such as the politics of population censuses, and will analyze consequences of immigration on host populations.

Requirements/Evaluation: one midterm, two short policy memos, one research paper
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: seniors and juniors
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

ANTH 240  (S)  Work as a Cultural System  (DPE)
"You know my reputation," sang Billy Joe Shaver, "I am everything I do." In many ways we are homo faber, the species that makes its world and we are defined by what we make, by the work we do. This course will undertake a broad survey of work as cultural systems across time and space. How do societies define work, how do they organize it? Who controls the processes of work, who controls the product of work? When is work an act of pure creation and when is it stultifying labor? How is work enabled and how is it compensated? What defines the difference between work and leisure and how are they valued? How does control over access to work, the organization of work, and the appropriation of its products determine difference, power, and equity in a society? These questions will guide an examination of work drawing on works of philosophy, history, ethnography, literature, and film examining people at work ranging from hunter-gatherers to tin miners, from slaves to corporate managers, from merchant mariners in the age of sail to physicians struggling to adapt to computerized medical records.

Requirements/Evaluation: students will compose several response papers, a take-home midterm exam and a final research paper of 15-20 pages
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Access to work, control over the work process, control over the fruits of labor, and compensation for work, are a principal means for creating and maintaining social difference, power, and equity. It is impossible to seriously study the nature of work without discussing these topics. By placing the universal experience of work in a broad spatial and temporal context students will discover an enhanced analytical ability to critically understand their own experiences of work and those of others.

Not offered current academic year

ANTH 242 (S) The Country and the City in the Classical World

Cross-listings: ENVI 242 ANTH 242 CLAS 242

Secondary Cross-listing

A growing urban-rural divide is defining political discourse around the world. The interrelation and tension between "city" and "countryside" are not new, however, but date back to the time when cities first began. How do cities occupy and transform, interact with and displace rural landscapes? What are the values, stereotypes, and ideals—as well as artistic, literary, and architectural forms—associated with the city and the countryside? What role does one play in the political, social, and economic life of the other? With a focus on ancient Greece and, especially, Rome, this course will combine archaeological evidence and contemporary scholarship with primary sources ranging from Hesiod, Theocritus, Vergil, and Propertius to Cato the Elder, Varro, Vitruvius, and Pliny the Elder, to examine an array of topics including land surveying and colonization; agrarian legislation; the urban food supply; rustic religion in the city; urban parks and gardens; and the concept of the pastoral. Together, we will explore the city and the countryside—not just as places, but also as states of mind. All readings are in translation.

Requirements/Evaluation: informed participation, two short papers (2-5 pages), final paper (8-10 pages)

Prerequisites: none, although prior knowledge of the ancient world will be useful

Enrollment Limit: 19

Enrollment Preferences: declared and intending majors in Classics and Environmental Studies

ANTH 243 (S) Reimagining Rivers

Cross-listings: ENVI 243 ANTH 243

Secondary Cross-listing

Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including climate change, pollution, unsustainable agriculture, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Class Format: This class will be taught in a modified tutorial format, with five groups of three students, each of which will meet for one 75-minute session per week. Sessions will be held in-person and remotely.

Requirements/Evaluation: Each week, each student will either write a 4-5-page essay on assigned readings or write a 2-page critique of a partner's paper.

Prerequisites: Environmental Studies 101

Enrollment Limit: 15

Enrollment Preferences: Environmental Studies majors and concentrators

ANTH 246 (S) India's Identities: Nation, Community, & Individual (DPE) (WS)
Cross-listings: ASST 246 REL 246 ANTH 246 WGSS 246

Secondary Cross-listing
This tutorial considers India's legacy as a booming Asian democracy that is built upon deep and enduring divisions. Why is India's growing population so often described in terms of multiple identities or fragmenting oppositions— including religion, gender, caste, and class? What are the historic roots and recollections of key moments of structural violence in modern Indian history that produce ongoing social conflict as well as social fluidity? We pay particular attention to key historic moments such as Partition, and key communal riots in Gujarat, Hyderabad, and Delhi as well as regions of India such as Jammu & Kashmir in order to understand the struggle for individual subjectivity and identity within a landscape of stark social hierarchies. We will cover climate emergencies, resource scarcities, and ongoing struggles for power and status across very different parts of India. Our readings include ethnographic, sociological, historical analyses as well as fiction, oral history, and popular media sources that attempt to portray India's diverse and fragmented society.

Class Format: meetings weekly, weekly writing, and discussion
Requirements/Evaluation: weekly writing assignments and tutorial attendance every week
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: majors in Anthropology and Sociology, Religion, Asian Studies, or Women's, Gender & Sexuality Studies
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

ANTH 249 (S) The Sacred in South Asia
Cross-listings: ANTH 249 ASST 242 REL 149

Primary Cross-listing
Is religious identity necessarily singular and unambiguous? The jinn - Islamic spirits born of fire - are sought out for their healing and other powers not only by Muslims in India, but by Hindus, Christians and Sikhs, as well. In parts of Bengal statues of the Hindu goddess Durga are traditionally sculpted by Muslim artisans. Buddhist pilgrimage sites in Sri Lanka contain tombs of Muslim Sufi saints and shrines of Hindu deities. South Asia - where a fifth of humanity lives - provides some of the most striking examples of pluralism and religiously composite culture in our contemporary world. Yet at the same time, strident religious majoritarianism has been a defining feature of the politics of India, Pakistan and Sri Lanka for decades, and haunts Nepal and Bangladesh as well. Are these two modes of religious being - pluralistic and composite on the one hand, singular and majoritarian on the other - reflective of two different conceptions of selfhood? What if we turn from questions of community and identity to questions of unseen power and the sacred? This course is an exploration of lived religion in South Asia. It is simultaneously a study of popular Hinduism, Buddhism and Islam and an
introduction to the anthropology of religion. Centered on in-depth studies of popular sites of 'syncretic' ritual practice (shared across religious
difference) as well as studies of mass mobilizations that seek to align the religious community with the nation, we approach from multiple angles what
the sacred might mean in modernity.

Requirements/Evaluation: weekly (1 page) posts on readings, two short (5 page) papers, and one (12-14 page) final research paper.
Prerequisites: Interest in the topic!

Enrollment Limit: 13
Enrollment Preferences: Students in all fields of study are most welcome; if overenrolled, priority will be given to majors in Anthropology, Sociology,
Religion and Asian Studies.

ANTH 255  (S)  Buddhism: Ideas and Practices
Cross-listings: ANTH 255 REL 255 ASST 255
Secondary Cross-listing
This course introduces students to Buddhism by examining its ideas and practices as they have taken place in actual social contexts rather than as
disembodied textual objects. After examining the main ideas and narratives of the tradition, we turn our attention to Thailand where we examine how
these ideas and narratives have shaped a whole range of practices, from meditation to shamanistic rituals. We then consider the transformations that
Buddhism is undergoing in contemporary society, examining the rise of meditation movement, the changing role of monks and laity, the resurgence of
the nun order, the rise of Buddhist social activism and the development of new Buddhist social philosophies. We ask questions such as: How can
Buddhism adapt to a modern global consumerist society? What are the transformations involved in this process and the role that Buddhism can play in
such a global society? Should Buddhists take advantage of the opportunities of this new global culture or should they adopt a critical stance toward its
consumerist values?

Class Format: discussion
Requirements/Evaluation: full attendance and active participation; two essays
Prerequisites: none
Enrollment Limit: 25

Not offered current academic year

ANTH 256  (F)  Buddhism, Sex, & Gender: #MeToo Then and Now  (DPE)
Cross-listings: ANTH 256 WGSS 256 REL 256 ASST 256
Secondary Cross-listing
This course considers the feminist voices that have been part and parcel of Buddhist practices, texts, and institutions for most of its 2500-year history.
We will conduct a historical genealogy of Buddhist voices that illustrate the fluid and disruptive role of sex, gender, caste, and class in relation to
individual behavior and social relations. How did the Buddha's inner revolution produce a set of practices that both reject and reinforce existing
binaries and social hierarchies of sex and gender, and with what effects? We will trace a feminist voice that decries harassment, assault, and systemic
sexism within Buddhist communities from the first female disciples (Theri) of the Buddha to the current #MeToo era of embattled toxic masculinity.
Along the way, we explore a literary canon that contains misogyny and 'she devils' alongside a rich tapestry of female divinities, transgender fluidity, and female liberation. We pursue and intersectional analysis of Buddhist traditions and texts by considering the multiple forms of social hierarchy--gender, sexuality, race, and class--that Buddhism has attempted to transcend. We begin by considering three women in the Buddha's life--his mother (Maya), his stepmother/aunt (Gotami), and his wife (Yashodhara)--as well as the tales of the first enlightened Buddhist women whose topics include prostitution, patriarchy, sexism, and pathetic husbands, as well as their own decaying bodies and beauty. Our next theme is the myriad ways that gender is both produced and deconstructed in Buddhist discourses on enlightenment and the human body. Our final theme considers a range of monastic memoirs, including a Buddhist black nun who left Harvard to take ordination in Thailand, and a Dutchman who studied Zen Japan. We close by examining the current debates in the U.S. and Asia that seek to combat systemic racism, sexism, and casteism in Buddhist traditions.

Requirements/Evaluation: class discussion, reading responses (3-4 pages), writing chat, final research paper (12 pages)

Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences:  Anthropology, Religion, Asian Studies, Women's, Gender and Sexuality majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 256 (D2)  WGSS 256 (D2)  REL 256 (D2)  ASST 256 (D2)

Difference, Power, and Equity Notes: The course fulfills DPE because it seeks to theorize the role of difference (gender, sex, class, and race) and intersectionality within Buddhist texts, practices, and institutions. It considers how Buddhist practices and institutions both deconstruct and reproduce social inequality.
Not offered current academic year

ANTH 262 (S) Language and Power
"A language is a dialect with an army." This (originally Yiddish) aphorism points to ways in which language, often imagined to be a neutral or apolitical medium of communication, proves in practice to be a social domain fully implicated in the operations of power. How do we create community - and social exclusion - by the way that we talk? What role does speech play in the accumulation of cultural capital? How are racism and colonialism sustained or subverted by language practices, and how can speech transform the world? This introduction to linguistic anthropology draws together classic works of linguistic and semiotic theory with studies of the politics of actual speech grounded in rich and particular cultural and historical contexts, from witchcraft accusations in rural France to the partition of Hindi and Urdu in colonial South Asia. Students will gain familiarity with key concepts (speech acts, performatives, code-switching, language ideology), themes and debates in the social scientific study of language. Assignments include regular postings of 1-page critical response papers and an ethnographic project analyzing a series of speech events in our local community.

Requirements/Evaluation: Regular postings of critical response papers and an ethnographic final project.

Prerequisites: None.
Enrollment Limit: 20
Enrollment Preferences: Students in all fields of study are most welcome. If overenrolled, priority will be given to Anthropology or Sociology majors or final-year students.
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option

ANTH 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)
Cross-listings: REL 269  STS 269  ASST 269  ANTH 269

Primary Cross-listing
This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

**Class Format:** Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutsch@williams.edu) to indicate whether you intend to take this class in-person or remotely.

**Requirements/Evaluation:** weekly tutorial papers and discussion

**Prerequisites:** A prior class or some experience with meditation is recommended

**Enrollment Limit:** 10

**Enrollment Preferences:** ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

**Writing Skills Notes:** This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester ‘writing chat’ with the instructor.

**Difference, Power, and Equity Notes:** This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

---

**Anth 281 (S) The Seeds of Divinity: Exploring Precolumbian Art & Civilization in a Museum Exhibit**

**Cross-listings:** ARTH 281 ANTH 281 REL 280

**Primary Cross-listing**
For all ancient civilizations, the gods were a powerful force, affecting all aspects of human lives and dominating ancient art. This course will explore concepts of divinity in five civilizations in Precolumbian Central America: Aztec, Maya, Zapotec, Teotihuacan, and Nayarit. The course examines how the broad concept of divinity is materialized in everyday life. We will query how the human body is used as the prism through which concepts about humanity, the human soul and the supernatural are perceived and depicted in the art of these civilizations. This is a project based course, and each student will study one or more art objects from these five civilizations, and consider how these objects could be presented in a museum exhibit.

**Requirements/Evaluation:** active class participation; three short papers; 15-page research paper and presentation

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** ANTH, SOC and ARTH majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ANTH 287 (S) Propaganda

We live in the age of mass persuasion. From commercial ads to political campaigns, from mass media “news”-both fake and real-to large scale movements for social change, we are constantly bombarded by powerful messages that aim to capture, hold, and impact our attention and direct our actions. Drawing on symbolic socio-linguistic analysis, we will examine the institutional and technical apparatus of modern propaganda and will discuss the role of intellectuals, “attention merchants,” and receptive audiences in creating the propaganda machine. We will pay special attention to campaigns that aim to overthrow social structures, or to ensure their maintenance and functioning. We will engage with explicit messages received via propagandistic media and implicit directives that aim to silence, obfuscate, and erase. Theoretical discussions will be complemented with intense, in-depth investigations of case studies of persuasive techniques in the Nazi Ministry of Propaganda, Cold war culture wars, Middle Eastern and Post-Soviet regimes, U.S. and Russian electoral and political campaigns. As we explore the overwhelming diversity of persuasive techniques of contemporary propaganda apparatus, we will turn our attention to various ways through which it impacts and molds our individual selves: from organizing dreams and desires to shaping autobiographies. We will conclude the course by creating our own examples of persuasive mass communication.

Requirements/Evaluation:  one midterm, one group research project, three short papers
Prerequisites:  none
Enrollment Limit:  none
Enrollment Preferences:  none
Expected Class Size:  25
Grading:  yes pass/fail option, yes fifth course option
Distributions:  (D2)

ANTH 297 (F) Theorizing Magic

Cross-listings:  REL 297  COMP 289  ANTH 297

Secondary Cross-listing

This is a course about magic. It is not about stage magic, sleight of hand, or the art of pulling rabbits out of hats. You will learn no card tricks. But instead we will learn about those people who believed in the reality of certain powers; from the ability to summon good or evil spirits, transform base metals into gold, predict the future, or manipulate matter by thought alone. The problem of how to theorize magic has long been a cause of concern for the natural and social sciences. Many a sociologist and anthropologist has imagined that belief in magic should have vanished with modernity (despite much evidence to the contrary). Meanwhile, philosophers of science have been long fascinated with the demarcation problem-figuring out grounds by which to distinguish legitimate sciences (like astronomy) from their magical or pseudoscientific cousins (like astrology). We will trace these discussions and problematize them by looking at the beliefs of self-defined witches and magicians. This should put us in a position to interrogate the construction of concepts of magic, science, and religion and show how the boundaries between these categories emerged historically. Topics to be discussed will include: the rationality of magic, the fine lines separating magic, science and religion, the persecution of witches, and the role notions of magic and superstition played in European modernization and colonization projects. The tutorial sessions will be customized to student interests, but texts will likely include selections from primary works in translation, such as Cornelius Agrippa’s *Occult Philosophy*, Giordano Bruno's *On Magic*, Aleister Crowley’s *Magick Liber ABA*, as well as selections from secondary literature, perhaps including Marcel Mauss, *A General Theory of Magic*, Max Weber, “Science as Vocation,” Tanya Luhrmann, *Persuasions of the Witches’ Craft*, Thomas Kuhn, *The Structure of Scientific Revolutions*, Larry Laudan, “The Demise of the Demarcation Problem,” E.E. Evans-Pritchard, *Witchcraft and Oracles*, and *Magic among the Azande*, and/or Kelly Hayes, *Holy Harlots: Femininity, Sexuality and Black Magic in Brazil*.

Requirements/Evaluation:  weekly writing assignments and tutorial attendance every week
Prerequisites:  none
Enrollment Limit:  10
Enrollment Preferences:  potential Religion or Comparative Literature majors
Expected Class Size:  10
Grading:  no pass/fail option, no fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

ANTH 299 (F) Ritual, Power and Transgression

Cross-listings: REL 274 ANTH 299

Primary Cross-listing

The focus of this course is on the role of ritual in harnessing political power. In the first part of the semester, we examine some of the ways in which different cultures manufacture social order and political power through categories of inclusion and exclusion, clean and dirty, proper and improper, and licit and illicit. We will be particularly attuned to the ways in which these categories are performed through and maintained by rituals and how bodies are deployed in ritual spaces as instruments of persuasion and control. We will also look in depth at a variety of ritual forms, including scapegoating and sacrifice, and how they serve as engines of political control and protest, and we will examine the uses of dead bodies and memorials as vehicles for gaining and maintaining political power and the destruction and desecration of bodies and memorials as a form of political protest and dissent. Throughout the semester, we will be relating theoretical texts and historical cases to current political struggles in this country and abroad.

Class Format: The class will be taught remotely.

Requirements/Evaluation: class participation, biweekly responses to instructor prompts, three short (500 words) response papers, and one 10- to 12-page (2000-2400 words) research paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: ANSO and REL majors, open to first-years

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2020

SEM Section: R1 MWF 12:00 pm - 12:50 pm David B. Edwards

ANTH 301 (S) Sexual Economies (DPE)

Cross-listings: ANTH 301 WGS 301 AMST 334

Secondary Cross-listing

This course examines various forms of sexual labor around the world in order to better understand how gendered and sexual performances are used in a variety of cultures and contexts for material benefit. Our topics include "traditional" forms of sex work such as street prostitution, pornography, and escorting as well as other forms of sexualized performances for benefit such as stripping or camming. We also discuss current issues and debates about discourses of "sex trafficking." Course readings come from a range of fields, but focus most heavily on anthropology, sociology, American studies, and gender studies. The readings for this class will frequently foreground the lived experiences of sex workers from a variety of nations, races, classes, religions, and backgrounds in order to explore the broader social implications of our subject matter. The format is largely discussion-based, with short lectures supplementing the reading with summaries of current scholarly and activist debates. We have a variety of guest speakers to share their diverse lived experiences related to this topic.

Requirements/Evaluation: midterm essay exam, short quizzes, participation, Marco Polo video chat posts

Prerequisites: none, though WGSS 101 and/or 202 may be helpful, but not required

Enrollment Limit: 14

Enrollment Preferences: based on statement of interest

Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 301 (D2) WGSS 301 (D2) AMST 334 (D2)

Difference, Power, and Equity Notes: We pay particular attention to the intersecting questions of race, sexuality, gender, and class as we explore the political economy of commercial sex. The course teaches students to examine the underlying political and economic structures that create systems of privilege and power, thereby complicating questions and assumptions about sexual consent, coercion, agency, and empowerment with particular attention to race and gender in comparative transnational contexts.

Spring 2021
SEM Section: R1 MW 8:30 pm - 9:45 pm Gregory C. Mitchell

ANTH 305 The Gay Menagerie: Gay Male Subcultures (DPE)
Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in a mostly US-context in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of “fabulousness and faggotry,” the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating “preferences,” genealogies of BDSM and leather culture, sexual health and discourses of “risk,” the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of “difference.”

Not offered current academic year

ANTH 311 (S) Islam and the Critical Study of Secularism (DPE)

Cross-listings: ANTH 311 REL 311

Secondary Cross-listing
Since the Iranian Revolution of 1979, successive Islamist movements have sought to transform Muslim states along religious lines. In Euro-American discourses on political Islam, such blatant disregard for the separation of religion and state is often seen as a tragic failure of secularization. Islam, in other words, is understood as a religion out of place in the modern world. While the global resurgence of religion in the face of much scientific and material progress has tempered scholarly enthusiasm for the secularization thesis, contemporary Islamic religiosity is increasingly viewed as an aberration from the regular course of history. Moreover, as scholars rewrite the script of secularization by unearthing modern secularism's European-Christian heritage, they unwittingly bolster a narrative of civilizational difference between Islam and the secular West. Our understanding of Islam is thus inextricably tied to its oppositional framing as the other of secularism. In this course, we will critically assess Euro-centric representations of Islam as created through canonical and critical discourses on secularism. Rather than assuming a natural opposition between Islam and secularism, we will examine the various modalities of power, institutional formations, habits of thinking, normative presuppositions, and cultural and visceral
sensibilities that configure their agonistic relationship. This examination amounts to deconstructing the very category of the secular in its cognitive and sensory dimensions. To accomplish this task, we will rely on the work of Talal Asad and his interlocutors in Religious Studies, Anthropology, Continental Philosophy, Postcolonial Studies, and Comparative Literature. The course content is divided into 2 modules. Module A: "Theorizations" will examine Euro-centric theories of secularism and problematize their portrayals of Islam as an intrinsically asecular religion. In Module B: "Secularism Beyond Europe," we will read postcolonial critiques of secularization and examine its alternative trajectories in non-European contexts. Crucially, we will shift from a conventional emphasis on the state by comparing Islamic and secular disciplines of subject formation. By the end of the course, students will be able to appreciate how secular legal, political, and cultural institutions have re-defined religion in the modern world. Further, they will be able to discern the ways in which contemporary Islamic movements are both responses to and manifestations of a global secular condition.

Class Format: This course will be conducted online in its entirety and will rely on a combination of synchronous and asynchronous modes of learning. The synchronous component will consist of weekly class meetings via Zoom. A discussion leader will be assigned once a week to present on the week's readings and lead class discussion. The asynchronous component will consist of weekly reading responses (500 words each), 2 essays (1,000 words each), and a final paper (2,500 words).

Requirements/Evaluation: Weekly Reading Responses (500 words each): 30%; 2 Essays (1,000 words each): 20%; Attendance and Class Participation: 10%; Term Paper (10 double-spaced pages/2,500 words): 40%. Note: Out of the 13 weekly reading responses, you can choose to skip a maximum of 3

Prerequisites: None.

Enrollment Limit: 19

Enrollment Preferences: Juniors and seniors.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 311 (D2) REL 311 (D2)

Difference, Power, and Equity Notes: This course will sensitize students to the intractable difficulties of securing religious freedom, diversity, and tolerance under secular law. Students will gain a nuanced historical understanding of the role of Islam as a political force in postcolonial Muslim societies and its implications for religious minorities. Notably, they will understand how religiously motivated forms of violence and oppression are often deeply imbricated with secular power and institutions.

Spring 2021

SEM Section: R1 TR 6:45 pm - 8:00 pm Sohaib I. Khan

ANTH 322 (F) Waste and Value

Cross-listings: ENVI 322 GBST 322 ANTH 322

Primary Cross-listing

What is trash and what is treasure? In what ways does value depend upon and necessitate waste, and how is the dialectic between the two inflected by culture? When we 'throw away' things at Williams College, where exactly do they go, and who handles them 'down the line'? What are the local and global economies of waste in which we are all embedded and how are they structured by class, race, caste, gender and nation? In this seminar we critically examine the production of waste - both as material and as category - and its role in the production of value, meaning, hierarchy and the environment. Readings include ethnographic accounts of sanitation labor and social hierarchy; studies of the political and environmental consequences of systems of waste management in the colonial period and the present; and theoretical inquiries into the relation between filth and culture, including work by Mary Douglas, Dipesh Chakrabarty and Karl Marx. Geographically the foci are South Asia, Japan, and the United States. There is also a fieldwork component to the course. In (safe, socially distant) fieldtrips we follow the waste streams flowing out of Williams - to an incinerator, a sewage treatment plant, recycling and composting facilities and other sites - and students individually explore the everyday social life of waste in our communities.

Class Format: Hybridity is a beautiful and productive thing. Each week we will meet once for in-person seminar-style classes, virtual learners projected into the room with us. The other meeting each week will be either a fieldtrip (carefully designed with precautions, and with an individually-tailored alternative for virtual learners) or a synchronous virtual meeting with a guest speaker.

Requirements/Evaluation: regular posting of critical response papers, field notes on waste streams, research-based final paper
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: majors in ANSO, ENVI, ASST
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 322 (D2) GBST 322 (D2) ANTH 322 (D2)

Fall 2020
SEM Section: H1 MR 3:15 pm - 4:30 pm Joel Lee

ANTH 323 (F) Democracy and Citizenship in the Age of Multiculturalism (DPE)
Democracy (and its particular implementation in the United States) is regularly taken as an unconditional ideal for the rest of the world. In this class, we will analyze democracy as a culturally and historically specific form of social relations and meanings. We will carefully examine a broad range of phenomena that pertain to democracy—for instance, cultural notions of participation in public life in Post-Socialist Germany or categorization of citizens in contemporary India, attachment to homeland among migrant workers in Russia or transnational rhetoric of Chinese bloggers. By so doing, we will study local meanings, circulating discourses, multiple contestations, and changing forms of power in regimes that are heralded as democratic. Our focus on citizenship (broadly defined)—i.e., a recognized right to be different while being accepted as a part of a national community—will bring to light complex issues in the relationship between the state and its subjects. We will discuss how men and women, the abled and the disabled, the migrants and the natives identify with their statuses and define their place in state structures. Anthropological studies of citizenship and diversity of forms of belonging and identification in democratic states will enable us to understand cleavages of power inequality and conceptual predicaments of social fairness in the contemporary world. Ethnographic studies from around the world will be used to provide specific examples of the ability and failure of democratic regimes to govern their varied populations.

Requirements/Evaluation: one long research paper, three book reports, and seminar discussions
Prerequisites: ANTH 101 or SOC 101 or by permission of the instructor
Enrollment Limit: none
Enrollment Preferences: juniors and seniors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Through an in-depth examination of case-studies of citizen exclusion and inclusion around the world, the course will foster students' critical engagement with a concept of democracy. Special attention will be paid to a differential access to power on a basis of gender, disability, migration status, and ideological constructions of difference.

Not offered current academic year

ANTH 328 (F) Emotions and the Self
Everyone everywhere experiences emotions, and everyone everywhere is faced with the task of conceptualizing a self-hood and its place in the social world. This course analyzes a variety of recent attempts in the social sciences to come to grips with topics that have long been avoided: the nature of the interior experience and an epistemological framework for its cross-cultural comparison. Exploring the borderlands between anthropology, sociology, and psychology, we will bring the tools of ethnographic analysis to bear on central pan-human concepts: emotions and the self. By examining these phenomena as they occur in other cultures, we will be better placed to apprehend and challenge the implicit (and often unconsciously held) assumptions about emotions and the self in our own culture, both in daily life and in academic psychological theory. What are emotions? Are they things—neuro-physiological states—or ideas—sociocultural constructions? How are they to be described; compared? What is the self? How are selves constructed and constituted? How do various cultures respond to categories of emotion and self, and how can we develop a sense of the relationship between self and emotion?

Requirements/Evaluation: typical for that of a tutorial
ANTH 330  (F)  The Documentary Project: Ethnography and the Visual Narrative

The goals of ethnography and documentary work overlap. Both strive to communicate a compelling sense of people's lives, and to connect them to broader struggles and issues faced by others. Further, ethnography as a method emphasizes a close and sustained interaction, or "engagement" between the practitioner and her subjects. In this class, students will have the opportunity to practice both engagement and compelling presentation, by working throughout the semester on planning and executing a documentary project. The course will emphasize the use of visual narratives accompanied by text and audio drawn from interviews. Students will practice different types of documentation, and consider techniques for approaching, imaging and interviewing subjects. The practical aspects of developing a project, gaining access, working in unfamiliar environments and editing both visual and audio material will be reviewed. Conceptual topics will include myths about "truth" and "objectivity" in visual media, tensions between the goals of the documentarian and her responsibilities to her subjects, and differences between the documentary and ethnographic point of view. Acceptance into the class requires technical competence in photography or videography (as evidenced by prior coursework or portfolio), and a demonstrated ability to work independently and to commit to a long-term project. Participants should expect to spend significant time working off campus.

Requirements/Evaluation:  develop and execute a semester length documentary project under instructor guidance; produce and edit weekly visual and audio content; participate in class critiques

Prerequisites:  SOC 236 or permission of instructor

ANTH 334  (S)  Imagining Joseph

Beloved son, rival brother, faithful servant, dreamer, seer, object of desire, lover, husband, bureaucrat, Joseph is one of the most fully-limned and compelling figures in the Jewish, Christian, and Muslim scriptural traditions. The story of Joseph unfolds over fourteen chapters in the Hebrew Bible, and is the subject of the fourth longest sura in the Qur'an. Through millennia, the story of Joseph has inspired a wealth of interpretations, commentary, apocrypha, re-tellings, and back-story, including an apocryphal book of scripture about Joseph and his wife, Asenath, Sufi poetry about Joseph and Zuleikha (Potiphar's wife), a trilogy by the 20th century German novelist Thomas Mann, a musical by Andrew Lloyd Weber, and many expressions in Western visual art. The course will explore these various expressions, looking to them for the ways in which Joseph has captured the imaginations of peoples and cultures across time and space. The course will be organized as a collaborative seminar in which the class will read the foundational scriptures together, followed by thematic discussions to which students will contribute insights from their own readings of particular peripheral texts. Students will learn the pleasures of close and intense exegetical reading in approaching the Hebrew Bible and Qur'an, as well as the more expansive pleasures of linking post-scriptural expressions together.

Requirements/Evaluation:  3- to 5-page weekly response papers; 15-page final paper; class participation

Prerequisites:  none

Enrollment Limit:  12

Enrollment Preferences:  based on responses to a questionnaire

Expected Class Size:  10
Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 334 (D2) JWST 334 (D2) COMP 334 (D1) ANTH 334 (D2)

Not offered current academic year

ANTH 337  (S)  Race, Sex & Gender in Brazil  (DPE)

Cross-listings: ANTH 337  WGSS 337

Secondary Cross-listing
The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: The seminar will include a mandatory spring break trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. These form the basis of their final research paper. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

Requirements/Evaluation: research paper and its various components, participation
Prerequisites: none
Enrollment Limit: 7

Expected Class Size: 7
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: the cost of the spring break trip is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 337 (D2) WGSS 337 (D2)

Difference, Power, and Equity Notes: This is a class about social justice movements and racial/gender/sexual diversity. It includes experiential learning devoted to these issues and engages questions related to the origins of inequality and prejudice in Brazil.

Not offered current academic year

ANTH 350  Queer Tongues & Lavender Linguistics  (DPE)

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called "gay voice," the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytale and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures
Prerequisites: None; prior coursework in WGSS may be helpful, but is not required
Enrollment Limit: 12

Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment

Expected Class Size: 12

Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

Not offered current academic year

ANTH 371 (F) Medicine and Campus Health in Disruptive Times (DPE)

Cross-listings: STS 370  WGSS 371  ANTH 371

Primary Cross-listing

This class uses the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus health or community health. Students will use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys to explore our campus community comprised of students, faculty, and/or staff, that build on weekly discussions, feedback, and design exercises. We situate our campus health projects within the wider context of how power and intersectionality inflect and structure health and well-being locally and globally. Our case studies explore how structural racism shapes medical education, pediatric care, and maternity care in the US, how the spread of US psychiatry inflects the landscape of global mental health, and how queer activism responded to the HIV/AIDS crisis. We consider how disruptive moments like COVID-19 or HIV/AIDS can serve as focal moments in social history that reveal underlying inequalities of health outcomes and access. We attend to the parallel roles of narrative in medicine and ethnography, as we contrast the discourse of providers & patients as well as researchers & interlocutors. Throughout our goal is to better understand the strengths and limits of ethnographic inquiry while exploring the challenges of collaborative and participatory research within communities always already structured by power, privilege, and engaged practices.

Class Format: Offered in hybrid format, yet students are encouraged to attend in person if they can. Students will be grouped into in-person or remote sections and can be reassigned during the semester if they request or require it for health reasons. Students should complete all assignments, weekly exercises, and attendance in class discussion. Please email me (Kgutschow@williams.edu) to indicate whether you plan to attend in person or remotely.

Requirements/Evaluation: Three written fieldnotes, weekly attendance and other writing exercises, midterm and final presentations on fieldwork projects

Prerequisites: none, but a class in Anthropology, Sociology, Science & Technology Studies, or other social science is recommended

Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women’s, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

Difference, Power, and Equity Notes: This class examines the intersection of race, gender, class, and sexuality in structuring health outcomes, well-being, and access to health resources. It theorizes the ways that intersectionality shapes health of individuals and societies, including patient/provider encounters and efforts to ‘improve’ community health within contexts of social inequality and social suffering.

Fall 2020

**ANTH 412 (S) Graphic Sex: Queer Ethnographic Writing**

**Cross-listings:** ANTH 412  WGSS 412

**Secondary Cross-listing**

This seminar examines recent and canonical work in queer anthropology, exploring how different cultures construct sexual and gender identities and subjectivities, and what happens when dominant paradigms such as the Euro-American LGBT model become enmeshed in globalization, late capitalism, and consumerism. We begin with a series of case studies highlighting alternative gender and sexual formations in various cultures around the world, emphasizing how these seemingly "authentic" local categories are themselves the products of historical shifts, colonial relations, and political economy. We also examine how these categories overlap, conflict with, subvert, or syncretize with the increasingly global category of "gay." In addition to reading queer ethnographies, we will also learn the methods required for doing ethnography ourselves, including interviewing techniques, participant observation, writing thick description, data analysis, and editing.

**Requirements/Evaluation:** ethnographic writing assignments (e.g., interviews, field notes, essays, etc.)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Women's, Gender and Sexuality Studies majors and others with substantial background in Women's, Gender and Sexuality Studies or Anthropology and Sociology Studies; statements of interest will be solicited

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Unit Notes:** WGSS junior/senior seminar

Winter Study -----------------------------------------------------------------------------

ANTH 31 (W) Senior Thesis: Anthropology
To be taken by students registered for Anthropology 493-494.
Class Format: thesis
Grading: pass/fail only
Not offered current academic year

ANTH 99 (W) Independent Study: Anthropology
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
ANTHROPOLOGY AND SOCIOLOGY (Div II)

SOCILOGY

Chair: Professor James Nolan

- Zaid Adhami, Assistant Professor of Religion and Faculty Affiliate in Anthropology & Sociology; affiliated with: Anthropology and Sociology; on leave Fall 2020
- Nicholas Carr, Visiting Professor of Sociology
- David B. Edwards, James N. Lambert ’39 Professor of Anthropology
- Antonia E. Foias, Professor of Anthropology
- Kim Gutschow, Lecturer in Religion and Anthropology/Sociology; affiliated with: Anthropology and Sociology
- Nicolas C. Howe, Director of CES and the Environmental Studies Program, Associate Professor of Environmental Studies and Faculty Affiliate in Anthropology and Sociology; affiliated with: Anthropology and Sociology
- Peter Just, Professor of Anthropology; on leave Fall 2020
- Lisa A. Koryushkina, Visiting Assistant Professor of Sociology
- Joel Lee, Assistant Professor of Anthropology
- James A. Manigault-Bryant, Professor of Africana Studies and Faculty Affiliate in Anthropology and Sociology and Religion; affiliated with: Religion Department, Anthropology and Sociology; on leave 2020-2021
- Gregory C. Mitchell, Chair and Associate Professor of Women's, Gender and Sexuality Studies and Faculty Affiliate in Anthropology/Sociology, Chair of Women's, Gender, and Sexuality Studies; affiliated with: Anthropology and Sociology
- James L. Nolan, Chair and Washington Gladden 1859 Professor of Sociology
- Olga Shevchenko, Professor of Sociology; on leave Spring 2021
- Christina E. Simko, Assistant Professor of Sociology
- Ben Snyder, Assistant Professor of Sociology

The disciplines of anthropology and sociology aim to teach students how to enter into the social/cultural worlds of others, how to grasp those worlds from the viewpoints of their inhabitants, and how to articulate those denizens’ habits of mind, worldviews, and values to broader audiences.

Anthropology critically analyzes social forms and practices in all their local and global diversity, illuminating the cultural grounding of the ideologies, narratives, and structures in which we are all implicated. Archaeology extends this analysis to social formations of the historical and prehistorical past. Sociology studies the nature and trajectories of modernity, examining the intricacies of industrial and post-industrial societies and the dilemmas that confront individuals in modern social systems. These disciplines introduce students to classical and contemporary theories that illuminate the contours and contradictions of social experience. The Anthropology & Sociology program promotes a critical engagement with these theories while at the same time bringing evidence and case studies into conversation with theory.

The Department emphasizes qualitative fieldwork in its many forms. We teach students how to formulate, frame, and address intellectual problems. We also teach students the empirical methods widely used in anthropology, sociology, and other related disciplines, including, but not limited to ethnography, participant observation, interviewing, discourse and visual analysis, archival research, oral history, and archaeological methods.

Because the program emphasizes critical thinking skills to assess social claims made by others, and the application of anthropological and sociological skills to present day concerns, undergraduate training in Anthropology or Sociology has proven invaluable to majors pursuing a range of careers, including public policy, diplomacy, international development, marketing, social media development, K-12 education, journalism, medicine, and law.

MAJORS

The department offers separate majors in both Anthropology and Sociology, with a broad and diverse array of courses in both disciplines. The department is committed, however, to the unity of the social sciences. To this end, Anthropology and Sociology offer joint core courses in methodology and theory, as well as several elective courses in common. All joint courses are designated “ANSO.”

Requirements
For the degree in Anthropology or Sociology, students must complete a minimum of nine courses as outlined below:

Core Courses
Majors in both disciplines must take a sequence of four core courses. Three of these are joint (ANSO) courses. The sequences are:

**Anthropology**
ANTH 101 How to Be Human

**Sociology**
SOC 101 Invitation to Sociology

**Joint Courses**
ANSO 205 Ways of Knowing
ANSO 305 Social Theory
ANSO 402 Senior Seminar

Elective Courses
Majors in Anthropology or Sociology must take five elective courses from the course listings of their respective disciplines or from the joint ANSO listings. Two of the courses chosen are normally at the 300 level or above. In close consultation with their departmental advisors, students may take some selected courses from other disciplines to fulfill major requirements in either Anthropology or Sociology.

Majors in each wing of the department are allowed to count up to two courses in the other wing towards fulfillment of their major requirements.

**STATISTICS AND DATA ANALYSIS**
In addition to the nine total courses required for the major, it is recommended that Anthropology and Sociology majors take Statistics 101 or a comparable course in statistics and data analysis.

**AREA STUDIES CONCENTRATION**
Students who wish to combine a major in Anthropology or Sociology with an Area Studies concentration are encouraged to do so. Courses taken to satisfy an Area Studies requirement may be counted toward the major with prior approval of a student’s departmental advisor. The only exception to this rule is the Area Studies senior seminar, which cannot ordinarily be counted toward the Anthropology or Sociology degree.

**LANGUAGE STUDY, STUDY ABROAD, AND WINTER STUDY**
Departmental advisors will help interested students integrate a major with study abroad, foreign language study, or field research during the winter study period. The department encourages Williams students to take advantage of established foreign study programs in Egypt, Japan, India, Hong Kong, and other countries. Because some foreign study programs do not offer courses that can be counted toward the Anthropology or Sociology degrees, however, sophomores planning to study abroad in junior year must consult with the departmental advisor before declaring a major.

**FAQ**
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

**Can your department or program typically pre-approve courses for major/concentration credit?**
Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). We welcome discussions of curricular plans for those major who travel abroad in their junior year. However, typically, students don't have access to all the salient information until AFTER they have taken the course.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**
Course title and description, and complete syllabus including readings/assignments. The syllabus and readings/assignment information is required in cases when the course title and description are not sufficient to ascertain whether a course should count towards the major. We also request information on course hours.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**
Yes. We credit two, and in special cases three courses.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**
Yes. The expectation is for an intellectually rigorous semester-long course with a paper/exam component.

**Are there specific major requirements that cannot be fulfilled while on study away?**
Yes. ANSO 205, ANSO 305 and ANSO 402 are almost always taken in the department.
Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. ANSO 305 is offered in the fall and ANSO 205 and ANSO 402 only in the spring. We advise our majors to be aware if they plan to spend all or part of their junior year abroad.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

In one case, a student had assumed that he could take the equivalent of ANSO 205 abroad, and was disappointed to discover that was not the case. He ended up taking ANSO 205 his senior year.

THE DEGREE WITH HONORS IN ANTHROPOLOGY OR SOCIOLOGY

Honors and highest honors are normally awarded for the completion of a year-long research project that has resulted in an original thesis of high quality. Students wishing to write an honors thesis should engage a member of the department faculty as a Thesis Advisor as soon as possible and must submit a proposal for the thesis for department approval no later than the end of spring reading period of the junior year. If the proposal is approved, they will be permitted to register for Anthropology and Sociology 493-W31-494, during which they will write and defend a thesis. If their overall work in the major continues to be of high quality and the thesis is deemed of a similar quality, they may be awarded honors or highest honors in Anthropology or Sociology.

SOC 101  (F)(S)  Invitation to Sociology

This course provides students with an introduction to sociological analysis and an overview of sociology as a discipline. We will focus on the relationship of individuals to the social world and become acquainted with systematic institutional analysis. Students will explore the intersection of biography, history, culture, and social structure as seen in the work of classical and contemporary social thinkers, including Marx, Durkheim, Weber, Simmel, and Goffman. Special consideration will be given to the social and cultural problems of capitalism, rationality and irrationality in modern institutions and organizations, the psychological dilemmas facing the individual in modern society, and the problem of social order and conflict. Please note that the class will be taught in two sections: one meeting on campus, the other meeting remotely via Zoom. Make sure to register for the correct one!

Class Format: This class is a combination of lecture and discussion, and it is offered in two sections. The section listed as 01, with Prof. Simko, will adhere to the traditional format as far as possible, meeting predominantly on campus. The section listed as R2, with Prof. Koryushkina, will meet remotely. It will feature a combination of synchronous lectures and discussions via Zoom, and some measure of asynchronous work. Both sections will engage the same key questions, albeit through different means.

Requirements/Evaluation: several short papers, a group presentation, and a final

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

SOC 210  (S)  Networks of Power: Technology in Human Affairs

Cross-listings: STS 210  SOC 210
Do we control our technologies, or do our technologies control us? This course will explore different philosophies of technological progress, particularly the constructivist and determinist theories, by examining major technological systems that shaped modern society, such as the telegraph system, the electric grid, radio and television broadcasting, and the internet. Each of these innovations entailed the construction of a complex network designed to serve a mix of public and business interests, and each resulted in wide-ranging and often unforeseen changes to people's lives. Guided by pertinent readings in the history and philosophy of technology, we will look critically at the forms and consequences of technological change, seeking answers to a series of complex and important questions: Is the course of technological progress an inevitable byproduct of scientific and engineering advances, or is it contingent on social and political circumstances and choices? Does technological change reinforce the social and political status quo or challenge it? Are technological and social progress synonymous, or is there a tension between the two? One of the goals of the course will be to provide students with a more informed and critical perspective on the technological upheavals that continue to shape society today.

Class Format: hybrid

Requirements/Evaluation: attendance and participation, team assignments, two in-class exams, one 15-page seminar paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

SOC 211 (F) Race and the Environment

Cross-listings: AMST 211  ENVI 211  AFR 211  SOC 211

Secondary Cross-listing

In contemporary societies, race remains an enduring impediment to the achievement of equality. Generally understood as a socially meaningful way of classifying human bodies hierarchically, race manifests itself in a number of arenas, including personal experience, economic production and distribution, and political organization. In this course, we will explore how race emerges in local and global environmental issues, like pollution and climate change. We will begin with a review of some of the landmark texts in Environmental Studies that address “environmental racism,” like Robert Bullard’s *Dumping in Dixie* and David Pellow’s *Garbage Wars*. We will examine how and to what extent polluting facilities like landfills, oil refineries, and sewage treatment plants are disproportionately located in communities of color; we will also pay attention to how specific corporations create the underlying rationale for plotting industrial sites. After outlining some of the core issues raised in this scholarship, we will turn to cultural productions—like literature, film, and music—to understand how people of color respond to environmental injustice and imagine the natural world.

Class Format: discussion

Requirements/Evaluation: class participation, 2-3 short papers (5-7 pages), and a self-scheduled final

Prerequisites: none

Enrollment Limit: 20

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 211 (D2) ENVI 211 (D2) AFR 211 (D2) SOC 211 (D2)

SOC 212 (S) Understanding Social Media
Over just the last twenty years—beginning with Friendster and MySpace and continuing through Facebook and Twitter, Snapchat and Instagram—the rise of social media has had a profound influence on the way we live. It has given a new rhythm to our daily routines, shaped the way we inform ourselves and converse with others, and transformed media and entertainment, politics and public discourse, and many other aspects of culture. This seminar course will undertake a broad and critical examination of social media, looking at it from historical, economic, legal, social, and phenomenological perspectives. The topics addressed will include social media's effects on self-image and self-formation, its influence on protest movements and political campaigns, its use as a conduit for news and propaganda, and the way commercial interests and technical characteristics have shaped its design and use. Through pertinent readings and lively discussions, and drawing on students' own experiences with social media, the course will illuminate social media's benefits and drawbacks while providing a foundation for thinking about possible legal, regulatory, and personal responses to this far-reaching and still unfolding social phenomenon.

Class Format: hybrid

Requirements/Evaluation: attendance and participation, team assignments, two 5-page writing assignments, final exam

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

Spring 2021

SEM Section: H1  MW 11:45 am - 1:00 pm  Nicholas  Carr

SOC 216  (F) The City

Modern humans have moved to the city, a site with concentrated powers of various kinds, this move has effected irreversible change in human life. We will examine these forces through readings in urban theories as well as ethnographic studies. We will address themes such as the organization of urban life, the political economy of cities, housing and homelessness, and urban planning. The city is also the chief site of cultural production and meaning, and our scope of interest will range from studying subcultures, to reading graffiti, to analyzing monuments. Bearing in mind the inexorable social change of past decades, we will reconsider some classical thought on urban life in the context of postmodern discourse, conceptualize the post-industrial and global city, and conclude with an examination of the problems faced by cities in developing countries. This course is designed to provide students with a comprehensive introduction to urban studies. Students will become familiarized with both classical and modern urban theories, and in reading ethnographies they will have an opportunity to understand some fundamental methodological approaches to the study of the city.

Requirements/Evaluation: response papers, mid term exam and final research paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

Not offered current academic year

SOC 218  (S) Law and Modern Society

This class is designed to introduce students to the field of law and society. The course begins with an overview of the various theoretical perspectives on the subject, including Durkheimian, Marxist, Foucauldian, and Weberian analyses of law and society; as well as the work of those following in the
different theoretical schools established by these scholars. Informed by the theoretical overview, the next part of the course considers empirical research in selected areas of law, including tort law, criminal trial procedures, abortion and divorce law, "community justice," and the adjudication of drug offenses. Recognizing that understandings of our own legal practices are enlightened through comparisons to other legal systems, the second half of the course is primarily historical/comparative in focus. In this section, through an exploration of several case studies, American legal processes and habits are compared with related legal practices in such places as England, Scotland, Ireland, Australia, Germany, Norway, and Canada.

Class Format: discussion
Requirements/Evaluation: a short paper and midterm and final exams
Prerequisites: none
Enrollment Limit: 35
Expected Class Size: 35
Grading: no pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

SOC 221  (F)  Money and Intimacy
Can money buy love and care? The course will consider this taboo question from a sociological perspective. We will look into how relevant this question has been over the course of history, what forces have contributed to the shift in thinking about it, and, most importantly, how sociological research helps us understand its current ramifications. We will discuss a wide range of aspects of family life: the relationship between arranged marriage and romantic relationship, the role of inheritance in family and social life, the distribution of resources in the context of modern family forms (most notably remarriages), and the outsourcing of care for dependents. Intimacy bears different value and content in these changing contexts. The course will further look into the changing character of new economy where "people's skills" are ever more required from employees (emotional labor) and where intimacy, care, and/or sex constitute purchasable commodities. A reflection on the growth of new technologies will complicate some of the discussed concepts and notions, but throughout a common denominator of our discussion will be the role of social inequality.

Class Format: This lecture/seminar course will be taught remotely.
Requirements/Evaluation: classroom participation and a final research paper
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

Fall 2020
SEM Section: R1    TF 1:30 pm - 2:45 pm     Marketa  Rulikova

SOC 228  (F)  The Panopticon: Surveillance, Power, and Inequality  (DPE)
Cross-listings: STS 229  SOC 228
Primary Cross-listing
Surveillance is built into the very fabric of modern life. From CCTV cameras, to supermarket loyalty cards, to the massive gathering of personal data on social media sites, people participate in today's "surveillance societies" just by doing everyday activities. This course uses the metaphor of the "Panopticon" as a doorway to engagement with traditional and new forms of surveillance. First described by philosopher and social theorist Jeremy Bentham, the Panopticon is a physical structure that enables one observer to see all inhabitants without those inhabitants knowing when they are being observed. In *Discipline and Punish*, Michel Foucault famously expanded thinking on the Panopticon as a metaphor for the "disciplinary" power that lies at the heart of inequality in modern society. Since Bentham and Foucault's time, however, surveillance technologies have changed significantly. To what extent does the concept of the Panopticon give us purchase on today's surveillance societies? How does watching people with new digital and algorithmic surveillance technologies shape the exercise of power and, in turn, (re)produce forms of inequality? Can privacy, convenience, and safety ever be truly balanced? Topics include: the historical origins and expansion of surveillance in modern societies, the emerging
total surveillance state in Baltimore City, and whether social media is turning us all into self-surveillance addicts.

**Class Format:** This class will be taught online only with both synchronous and asynchronous components. Students will be asked to attend one synchronous video meeting per week. The asynchronous portion will involve discussion of readings and video lectures.

**Requirements/Evaluation:** participation, reading responses, midterm essay, final paper

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Anthropology and Sociology majors

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 229 (D2) SOC 228 (D2)

**Difference, Power, and Equity Notes:** This course explores how power is distributed unequally through the mechanism of surveillance technologies, particularly in regard to racial and class differences. Among other topics, it will consider the concrete case of surveillance in Baltimore City and the question of if and when surveillance is appropriate there, given the city’s ongoing crisis of citizen and police violence. Students will discuss police surveillance in a context shaped by racial segregation and class inequality.

**Fall 2020**

SEM Section: R1  MW 10:00 am - 11:15 am  Ben Snyder

**SOC 230 (S) Memory and Forgetting** (DPE)

On the surface, remembering generally confronts us as a deeply personal act. What is more private than nostalgic reverie or the secrets of a dark and painful past? Yet even "individual" memories take shape through social frameworks, and we also remember "collectively" through shared myths, narratives, traditions, and the like. This course will explore the social dimensions of memory and remembering as well as their inevitable counterpart—forgetting. How do social frameworks inform our individual understandings of the past and shape our sense of selfhood? How and why are figures from the past cast as heroes or villains? How do collectivities celebrate past glories, and how do they deal with shameful or embarrassing episodes? How do economic and political power relations shape struggles over the past? In an increasingly global society, can we speak of "cosmopolitan" or "transcultural" forms of memory? Topics will include autobiographical memory and self-identity; memorials, museums, and monuments; reputations, commemorations, and collective trauma; silence, denial, and forgetting; and transitional justice, official apologies, and reparations.

**Class Format:** For spring 2021, we will adopt a hybrid approach. Students studying on campus will adhere to the traditional format as far as possible, meeting for in-person seminars during the class block. Students studying remotely will cover the same material in a slightly different format, meeting for one synchronous discussion per week and maintaining asynchronous discussion threads using Slack.

**Requirements/Evaluation:** thoughtful and consistent class participation; an autobiographical essay (4-5 pages); a position paper (4-5 pages); and a research paper (8-10 pages) with class presentation

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** if overenrolled, students will be asked to submit a short statement of interest

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course pays particular attention to how power and inequality shape narratives about the past. We will examine and compare several efforts to transform national memories, such as the Equal Justice Initiative memorial in the United States and the Truth and Reconciliation Commission in South Africa. In doing so, we will also consider the role of memory and memorialization in broader processes of social change.

**Spring 2021**
SOC 234 (S) How Emotions Work
What could be more personal and unique than one's own emotions? Over the last century, sociologists, anthropologists, historians, and social psychologists have challenged this taken for granted view of emotion, revealing just how much context, institutional structures, and history shape feeling. Emotion does not just emerge from an individual's brain and body; it is also a product of intersubjective dynamics outside the individual. In this deeply interdisciplinary course, students explore how societies shape emotion. Beginning with psychological research on the brain/body connection, we build a capacious model for how social context, norms, and institutions interact with individual psychology to produce both conscious and unconscious forms of feeling. As the course progresses, we zoom further out from the individual level and unpack emotional dynamics at the national, cross-cultural, and civilizational levels. Along the way, we take a deeper look at specific emotions, including love, shame, sympathy, sadness, and happiness. The course concludes by focusing on a pressing social problem—the seemingly global crisis of mental illness on college and university campuses. What is causing this crisis? What can we do to address this issue right here in our community?

Requirements/Evaluation: participation, two short essays, midterm essay, emotion map activity, open space meeting, final paper
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
Not offered current academic year

SOC 236 (S) Making Things Visible: Adventures in Documentary Work
Cross-listings: SOC 236 AMST 236 ARTH 237 ENGL 237
Primary Cross-listing
Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will learn methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of examples of investigative work that blend word and image. We will ask questions about the changing practices and expectations associated with the documentarian's role, and the evolving media in which such work can be presented. Lastly, we will discuss ethical questions that haunt documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether "objective representation" is even possible or desirable. Experience in photography and/or video is not required, but students will be expected to master basic technical skills in image acquisition and audio editing taught in a separate lab section. Students should also be prepared to interact extensively with people in the community and spend a significant time off campus doing fieldwork.

Requirements/Evaluation: full participation in discussions, weekly photographic assignments, a research journal, field materials, and an independent final project; in addition to substantial readings, students should be prepared to spend a significant time out of the classroom doing field work
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:
SOC 236 (D2) AMST 236 (D2) ARTH 237 (D1) ENGL 237 (D2)
Not offered current academic year

SOC 240 (S) Performing Masculinity in Global Popular Culture (DPE)
Cross-listings: WGSS 240 THEA 241 SOC 240 AMST 241 LATS 241
Secondary Cross-listing
This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans* men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia (e.g., J/K-Pop), hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

Requirements/Evaluation: masculinity journal, mid-term essay exam, visual rhetorical analyses of pop culture images
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: a short statement of interest will be solicited
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 240 (D2) THEA 241 (D1) SOC 240 (D2) AMST 241 (D2) LATS 241 (D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

Secondary Cross-listing
Although fewer than 1% of Americans have a degree from the country’s top 30 colleges and universities, 39% of Fortune 500 CEOs, 41% of federal judges, 44% of the writing and editorial staff at the New York Times, 64% of Davos attendees, and 100% of Supreme Court justices do. Is this a positive sign that the United States is governed by its most talented and capable members who have risen through hard work and equal opportunity? Or a negative one pointing to the power of a corrupt and self-selecting elite? This course explores the theme of meritocracy--rule by the intelligent--in comparative perspective. We will look at both old and new arguments regarding the proper role and definition of merit in political society as well as take the measure of meritocracy in present-day Singapore, France, and the United States. The course concludes with a focus on the current debate over American meritocracy and inequality.

Class Format: Remote
Requirements/Evaluation: two short papers, one long paper, take-home final exam, discussion questions, class participation
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Political Science and Sociology majors, first-years and sophomores intending a Political Science or Sociology major
Expected Class Size: 16
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021
SOC 244 (S) What They Saw in America

Cross-listings: SOC 244 HIST 366 AMST 244

Primary Cross-listing

This course traces the travels and writings of four important observers of the United States: Alexis de Tocqueville, Max Weber, G.K. Chesterton, and Sayyid Qutb. The course will consider their respective journeys: Where did they go? With whom did they talk? What did they see? The historical scope and varying national origins of the observers provide a unique and useful outsider's view of America--one that sheds light on persisting qualities of American national character and gives insight into the nature and substance of international attitudes toward the United States over time. The course will analyze the common themes found in the visitors’ respective writings about America and will pay particular attention to their insights on religion, democracy, agrarianism, capitalism, and race.

Requirements/Evaluation: A midterm examination, two short essays, and a final paper.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Priority given to Sociology, History, Anthropology, and American Studies majors.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021

SOC 248 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: SOC 248 GBST 247 RUSS 248

Primary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their postsocialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as the Russia-Ukraine conflict or the persistent tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Russia, but will also read studies on East Germany, Bulgaria, Poland, Latvia and Ukraine. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the postsocialist condition.

Class Format: The course will meet remotely for the most part, although in-person meetings with the appropriate precautions may be arranged at the tutorial partners’ and instructor's discretion.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

SOC 264  (S) Transnational Activism: Practice, Problems, Ethics  (DPE)
Cross-listings: SOC 264  WGSS 263
Secondary Cross-listing

The world's got problems. These problems don't respect national boundaries. This class looks at how activists have engaged across borders and with transnational institutions in order to address transnational problems like class inequality, sexism, homophobia, climate change, and more. It asks: what are the different forms that transnational activism takes and how have transnational activists have advanced their goals? Why and how have transnational activists' efforts have failed? What are the practical and ethical difficulties associated with transnational activism? What does ethical transnational activism look like, and can it also be effective? While focusing especially on the role of transnational activism in combating sex and gender-based inequities, we will also engage with activism that targets the other axes of oppression with which sex and gender-based oppressions are inextricably entwined.

Requirements/Evaluation: class attendance/participation; critical profile of transnational activist; essay or project proposal, final essay or project
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: Women's, Gender, and Sexuality Studies majors and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
SOC 264 (D2) WGSS 263 (D2)

Difference, Power, and Equity Notes: This course centers activism organized around various axes of difference, enabling students to learn about how various groups are defining and pursuing equity. It requires students to explicitly engage the question of ethical intervention in political movements, stressing attentiveness to the dynamics of privilege and marginalization internal to movements.

Not offered current academic year

SOC 291  (S) Religion and the American Environmental Imagination
Cross-listings: SOC 291  REL 291  ENVI 291
Secondary Cross-listing

This course examines the relationship between religious and environmental thought in modern America. Exploring a broad range of practices and beliefs, we will examine the religious (and anti-religious) roots of contemporary environmental discourse. Rather than survey the environmental teachings of organized religious groups, our focus throughout will be on ambiguous, eclectic, and fascinating traditions of "eco-spirituality" and popular "nature religion." Where do these traditions come from? What is their relationship to science, to secularism, to politics, and to the search for environmental justice? Starting with the Transcendentalist movement of the 19th century, we will trace a roughly chronological line to the present, taking long detours into several modern religious trends and movements, including the revitalization and contestation of Native American religions, Wicca and neo-pagan ecofeminism, and evangelical Creation Care. Focusing on the writings of activists and radicals from a variety of religious backgrounds, our overarching question throughout the semester is one of the most critical we face in modern environmental thought: what is the relationship between spirituality and the just, sustainable society?

Requirements/Evaluation: a 15- to 18-page research paper and several shorter writing assignments
Prerequisites: ENVI 101 or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

SOC 301 (F) Social Construction (DPE)

Cross-listings: COMP 315 WGSS 302 REL 301 SOC 301 STS 301 SCST 301

Secondary Cross-listing

"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion majors, then majors from cross-listed departments

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 315 (D2) WGSS 302 (D2) REL 301 (D2) SOC 301 (D2) STS 301 (D2) SCST 301 (D2)

Difference, Power, and Equity Notes: Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

Not offered current academic year

SOC 303 (S) Cultures of Climate Change

Cross-listings: SOC 303 ENVI 303

Secondary Cross-listing

This course asks why people think and talk about climate change in such very different ways. Climate change is a physical phenomenon that can be observed, quantified, and measured. But it is also an idea, and as such it is subject to the vagaries of cultural interpretation. Despite scientific agreement about its existence and its causes, many people do not see climate change as a serious problem, or as a problem at all. Many others see it as the most serious problem our species has ever faced. What are the sources of this disparity? Why can't we agree about climate change? How does
something as complex and confusing as climate change become a "problem" in the first place? This course will explore a broad array of factors, from religion to race, class to colonialism. It will focus especially closely on the communication of scientific knowledge, risk perception, and environmental ethics, and it will apply a range of theories from the social sciences and humanities to a set of concrete case studies.

Requirements/Evaluation: a 15- to 18-page research paper and several shorter writing assignments
Prerequisites: ENVI 101 or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: Environmental Studies majors and concentrators first; Anthropology and Sociology majors second
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option

SOC 308 (S) What is Power?
Cross-listings: REL 308 STS 308 SOC 308 PSCI 306
Secondary Cross-listing
What is power? Despite the importance of notions of power across the social sciences, there is a broad lack of consensus. Is power essentially domination or resistance? Is it freedom, empowerment, privilege, or oppression? Are there forms of unequal social power which are morally neutral or even good? Is power the kind of thing held by individuals, races, genders, classes, discourses, causal mechanisms, institutions, or social structures? What is the connection between social and physical power? Does power obey laws? How does power relate to technology? Or knowledge? Or agency? Or ideology? This course begins with the observation that power is often described as a causal relation--an individual's power is supposed to equal their capacity to produce a change in someone else's behavior. This suggests that the better we can understand the nature of cause and effect, the better we can understand power. Fortunately, in recent decades philosophers have made significant progress in theorizing causation. Hence, this seminar will put two very different bodies of theory in conversation: critical theory about power and philosophy of science about cause and effect.

Class Format: Remote
Requirements/Evaluation: critical annotations for every class, midterm review essay (4-6 pages), final essay (10-12 pages)
Prerequisites: None.

SEM Section: R1 MR 3:15 pm - 4:30 pm Jason Josephson Storm

SOC 314 (F) The Social Ecology of Racial and Gender Inequity (DPE)
Cross-listings: SOC 314 WGSS 314
Why the political furor over monuments? What would a feminist city look like? Does racial justice require integration? This course trains your focus on space and place, asking you to take a socioecological perspective on race, gender, and other axes of privilege and marginalization. In it, we examine how ideas about race, gender and more shape space as well as how the design of space reinforces social constructs and power relations. After examining specific regions (the city, the suburb, the country) and their relation to one another, we examine specific sites (public transport, public toilets, libraries, houses). The course enables students to better understand the tenacity of inequity by drawing attention to its spatial dimension while at the same time introducing students to -- and providing students tools to engage in -- spatial interventions designed to disrupt vicious social-spatial cycles.

Requirements/Evaluation: attendance, class facilitation, problem identification report, two presentations, reflection
Prerequisites: WGSS/SOC Majors
Enrollment Limit: none
Enrollment Preferences: Women’s, Gender, and Sexuality Studies majors
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
SOC 314 (D2) WGSS 314 (D2)

Difference, Power, and Equity Notes: This course introduces students to a socioecological approach, giving them a lens which can help them understand how important axes of difference--race and gender--are socially constructed as well as the stubborn persistence of racial and gender power differentials. Students in this course will be required to apply this lens to their own experience, as well as to discuss difficult questions about different obstacles and potential paths to greater equity in social relations.

Not offered current academic year

SOC 315 (F) Culture, Consumption and Modernity
How do lifestyles, fashions and trends appear and evolve? Are we authors of our own taste? What structures our choices of goods and activities? What is it that gives meaning to objects and makes them desirable? Are there non-consumer societies in the modern world? How has globalization changed the ways people consume in different parts of the globe? This course will explore consumption and consumer practices as products of modernity and will analyze the political, cultural and social agendas that have transformed consumption over time. Politics of consumption (the way in which seemingly free and independent consumption choices aggregate into the existing system of global capitalism) will be treated alongside its symbolic element: the role of consumer practices in creating and articulating identities, building relationships and creating solidarities. We will look at fashion, advertising, arts and shopping in places as varied as nineteenth-century France, socialist Russia, and in contemporary United States, tracing both the mechanisms that structure patterns of consumption, and the consequences that these patterns have for the larger social order.

Requirements/Evaluation: full participation, ten journal entries and a 15-page term paper that will go through a draft and revision stage
Prerequisites: none; open to first year students
Enrollment Limit: 19
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)

Not offered current academic year

SOC 324 (S) Memory and Identity (DPE)
Our sense of self is inextricably tied to our understanding of our past, both as individuals and as members of society. This sense of origins, however, is far from natural; it itself has its origins in the debates and politics of the time, and evolves under an array of influences. This course analyzes discourses of collective and individual identity and the mechanisms involved in the formulation of the individuals’ sense of their place in the world. Topics include: media of memory, politics of commemoration, nostalgia and selective forgetting, narratives of trauma and of a “golden age,” the invention of tradition, and battles over remembrance and heritage, such as the struggles over the proper way to face the difficult past around the world,
with a particular emphasis on the United States and on the memory wars in the post-Soviet space.

**Requirements/Evaluation:** extensive class participation, several short papers, and a final research project with class presentation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Anthropology and Sociology majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement because it explores the diversity of the ways in which communities imagine and engage with their past, and puts struggles over memory in the context of groups’ struggles for power and visibility.

Not offered current academic year

---

**SOC 326 (S) Being Mortal**

One of the defining features of the human condition is our awareness of our own mortality. How do we cope with this awareness? How does it influence our social institutions? We will begin by exploring how social theorists such as Emile Durkheim, Max Weber, Ernest Becker, and Peter Berger grappled with mortality and its significance for human social life. We will then turn to the social institutions that structure our confrontation with mortality today. How, why, and with what consequences has death been "sequestered" in modern Western societies and set aside from the social world of the living? What rites and rituals remain for coping with death and dying, and how do our cultural assumptions influence the experiences of grief, loss, and mourning? How does modern medicine—which is oriented toward cure but must ultimately confront the inescapable realities of aging and death—deal with mortality? How have hospice, palliative care, and debates over physician-assisted suicide changed the landscape in recent years? How do societies cope with collective losses in the aftermath of wars, disasters, and atrocities? Our focus will be on the United States, but we will also consider cross-cultural comparisons.

**Requirements/Evaluation:** three 6- to 7-page papers; an in-class presentation; thoughtful and consistent participation in class discussion

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Sociology and Anthropology majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

Not offered current academic year

---

**SOC 329 (F) Work and Future of Capitalism**

What does it mean to work? How does capitalism shape the way we work? What might work look like in the future? In this three-part course, students engage with global capitalism’s past, present, and future, asking analytic and normative questions about work and the trajectory of capitalism. The first part of the course examines the historical origins of capitalism and leading theories about what capitalism is and how it stratifies the world into racialized social classes. A central theme in part one will be how capitalist labor relations shape meaning and subjectivity, particularly the experience of dignity. In part two, we examine recent and emerging trends in capitalist labor, such as the death of the career, the rise of the "gig" economy, platform capitalism, and even the seemingly inevitable end of work itself as entire occupations become automated by machine learning. A key question will be how these transformations exacerbate and/or alleviate longstanding inequalities from capitalism’s 19th century past. The course concludes by asking students to imagine what work might look like in the next century. Should we continue to work at all? What kinds of social activity should we value, and how would we go about taming, eroding, or even smashing capitalism to allow them to flourish?

**Class Format:** This class will be taught online only with both synchronous and asynchronous components. Students will be asked to attend one synchronous video meeting per week. The asynchronous portion will involve discussion of readings and video lectures.

**Requirements/Evaluation:** participation, reading responses, midterm paper, final paper

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Anthropology and Sociology majors
SOC 338 (F) Transhumanism: Religion, Technoscience, Obsolescence

Cross-listings: HSCI 338  SOC 338  STS 338  REL 338

Primary Cross-listing
This interdisciplinary seminar invites students to pursue sociohistorical analysis and sustained critical discussion of the transhumanist movement and its overriding aims: the augmentation, transformation, and eventual transcendence of human biological constitution; the realization, through speculative technoscientific means, of an enhanced or even "postbiological existence"--a "posthuman condition." "Humanity 2.0." Through close readings of primary historical documents, transhumanist texts, scholarship on transhumanism, works of science-fiction film, literature, and popular culture, we will position the movement as an empirical conduit through which to explore the sociohistorical conditions under which transhumanist ideas and practices have emerged, circulated, and taken up residence. To that end, we will consider the ties of transhumanism to eugenics and massive investments in pharmaceuticals, anti-aging medicine, and so-called "GNR" technologies (i.e. genetics, nanotechnology, and artificial intelligence and robotics); the movement's affinities with neoliberalism and what some have pointed to as transhumanism's racialized subtext of whiteness. We will furthermore devote considerable attention to the technological singularity, the figure of the cyborg, mind-uploading, space colonization, and cryonic suspension, all of which, like transhumanism broadly, suggest that science and technology have in some sense come to operate as powerful channeling agents for the very sorts of beliefs, practices, and forms of association that theorists of secularization expected modernity to displace. Lastly, throughout the course of the seminar we will take transhumanism as a provocation to think broadly and seriously about religion, technology, embodiment, and ways of being human.

Class Format: Remote
Requirements/Evaluation: informal weekly writing, two short review essays, and one 15-page seminar paper
Prerequisites: Prior coursework in sociology-anthropology, history, religion, or science and technology studies.
Enrollment Limit: 14
Enrollment Preferences: Anthropology and Sociology majors and Science and Technology Studies concentrators
Expected Class Size: 14
Grading: yes pass/fail option, no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:
HSCI 338 (D2) SOC 338 (D2) STS 338 (D2) REL 338 (D2)

SOC 362 (F) Stories We Tell

Cross-listings: COMP 362  SOC 362

Primary Cross-listing
From The Moth to StoryCorps to Williams College's own Storytime, stories are ubiquitous in contemporary society. Indeed, sociologists have argued that social life is itself "storied"--that we locate ourselves within familiar narrative structures, using them to "construct" identities and "tell" our lives. Stories, in this view, are not only the stuff of literature, but also the very fabric of social life: the foundation for individual and collective identities. This course grapples with the role of stories and storytelling in modern social life. What role do stories play in constituting personal identity? What cultural templates structure the stories we tell? Why are memoirs so popular, and how can we explain the more recent resurgence of interest in oral forms of storytelling? What role does storytelling play in politics and social movements? Specific topics will include confessional culture, podcasts, memoir, politics, and social change. Along the way, we will pay explicit attention to medium, and consider how sociologists might learn from journalists,
documentarians, and memoirists to convey stories from their own research.

Class Format: This course will be taught in a hybrid format. We will meet primarily in person, with a synchronous remote option during the scheduled class period. Some sessions may be held fully online to facilitate small group work.

Requirements/Evaluation: two 4- to 5-page papers; weekly contributions to annotating course readings; thoughtful and consistent participation in class discussion; and a major final project (either a 10- to 12-page analytical paper or an equivalent writing project presented as a podcast)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

SOC 363 (F) Cold War Technocultures

Cross-listings: SCST 401 STS 402 SOC 363

Primary Cross-listing

In this seminar students will pursue sociohistorical analyses of Cold War American culture(s) by attending to key points of intersection between politics, aesthetics, and major technoscientific developments during this period. Part I will focus principally on the emergence of the computer and its role in shaping American infrastructure and styles of thought aimed at Soviet "containment." We will trace the historical threads connecting MIT's "Whirlwind" computer project and the SAGE continental air defense system; nuclear wargaming at the RAND Corporation and the aesthetics of "thinking the unthinkable"; the science of cybernetics and the prospect of automation; and ultimately the role of computation, intermedia, and systems logic in perpetrating the atrocities of the Vietnam War. Part II will take up the Cold War space race--from Luna 2, Sputnik I, and Yuri Gagarin to Projects Mercury, Gemini, and the Apollo moon landing. Within this context we will also consider the Club of Rome's Limits to Growth report; plans backed by NASA for the industrialization and colonization of outer space; and the place of science-fiction as a Cold War aesthetic (print, televisual, cinematic). Part III, finally, will explore key moments of conflict, resistance, appropriation, and unintended consequences of Cold War technoscientific developments, among them antipsychiatry and environmentalism; Project Cybersyn, an infrastructural casualty of the U.S./CIA-backed Chilean coup of 1973; the New Left, the American counterculture, new social movements, and the countercultural roots of new media and neoliberalism.

Requirements/Evaluation: two 5-page book review essays, weekly 1-page papers, midterm essay exam, final essay exam

Prerequisites: STS 101 or instructor consent; prior coursework in Anthropology and Sociology and/or History

Enrollment Limit: 15

Enrollment Preferences: Anthropology and Sociology majors, Science and Technology Studies concentrators

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Not offered current academic year

SOC 368 (F) Technology and Modern Society

Cross-listings: ENVI 368 SOC 368

Primary Cross-listing

With widespread use of new social media, controversial developments in such bio-technical practices as the cloning of mammals, rapid advances in
various forms of telecommunication, and the increasing sophistication of technological weaponry in the military, the triumph of technology remains a defining feature of modern life. For the most part, modern humans remain unflinchingly confident in the possibilities technology holds for continuing to improve the human condition. Indisputably, technology has benefited human life in innumerable ways. However, as with other features of modernity, technology has also had significant, albeit largely unanticipated, social consequences. Working within a sociological paradigm, this course will focus on the less often examined latent functions of technology in modern society. It will consider, for example, the social effects of technology on community life, on privacy, and on how people learn, think, understand the world, communicate, and organize themselves. The course will also examine the effects of technology on medicine, education, criminal law, and agriculture and will consider such counter-cultural reactions to technology as the Luddite movement in early nineteenth century England, Amish agrarian practices, and the CSA (community supported agriculture) movement.

Requirements/Evaluation: two short papers, a midterm exam, and a final exam

Not offered current academic year

SOC 372 (S) Time and Temporality
Duration, rhythm, speed, pace, trajectory, sequence, articulation, busyness, boredom, flow–time is one of the most fundamental categories of our experience of reality. Since the founding of the discipline, sociologists have been interested in how time, while seemingly given and natural, is deeply influenced by history and society. This two-part course will introduce students to the sociological analysis of time and temporality. In part one, students will explore the emergence of the so-called “modern western temporal order”–the sense of time that many people take for granted as the way things are. We will excavate the historical roots of schedules, clocks, calendars, and time zones; examine how capitalism and colonial conquest disseminated particular notions of time around the globe; and discuss leading theories of how constructions of time change through history and vary among communities. In part two, we will focus on one of the most frequently lamented and celebrated qualities of modern temporality: acceleration. Is the world speeding up? Why do so many people feel always pressed for time? What are the promises and limits of speed, acceleration, and ceaseless change for building a robust democratic society?

Requirements/Evaluation: participation, time diary analysis (3-5 pages), final paper (10-12 pages)
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
Not offered current academic year

SOC 386 (F) Going Nuclear: American Culture in the Atomic Age
Cross-listings: HIST 387 SOC 386
Primary Cross-listing
This course will examine the historical development and use of the nuclear bomb. Among other features of the early atomic age, the course will look at the Manhattan Project, the delivery of the bombs for combat, and the destructive effects of the bomb's initial use in Hiroshima and Nagasaki and ongoing testing in the Marshall Islands. The class will investigate the role of the nuclear arms race in the Cold War, the consequences of nuclear production on specific communities, and the implications of the atomic age on our critical understanding of technological innovation more generally. We will also consider the saliency of competing narratives interpreting America's decision (and continuing policies) to build, use, and stockpile nuclear weapons. Employing both sociological and historical perspectives, we will explore the interactions between science, politics, and culture in the nuclear age.
**Class Format:** This will be a hybrid class. The class will meet in person with a synchronous remote option during the scheduled class period.

**Requirements/Evaluation:** a midterm, a final exam, and a 10- to 12-page research paper

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference given to sociology and history majors.

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Winter Study

SOC 31 (W) Senior Thesis: Sociology
To be taken by students registered for Sociology 493-494.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year

SOC 99 (W) Independent Study: Sociology
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
ARABIC STUDIES
(Div I, with some exceptions as noted in course descriptions)

Chair: Professor Magnus Bernhardsson

- Magnús T. Bernhardsson, Chair of Arabic Studies, Brown Professor of History and Faculty Affiliate in Leadership Studies and Religion; affiliated with: Leadership Studies Program, Arabic Studies Department, Religion Department
- Brahim El Guabli, Assistant Professor of Arabic Studies
- Amal Eqeiq, Assistant Professor of Comparative Literature; affiliated with: Comparative Literature Program; on leave Fall 2020
- Lama Nassif, Assistant Professor of Comparative Literature; affiliated with: Comparative Literature Program

Middle Eastern and Maghrebi Studies is a vibrant, growing, and important field in the United States and around the world. Students wishing to enter this rich and varied discipline can begin with a major in Arabic Studies at Williams. The major is designed to give students a foundation in the Arabic language and to provide the opportunity for interdisciplinary and multidisciplinary study of Arab, Islamic, North African and Middle Eastern literatures, art, film, history, religion and politics.

THE MAJOR IN ARABIC STUDIES

Students wishing to major in Arabic Studies must complete ten courses, including the following six courses:

ARAB 101-102 Elementary Arabic
ARAB 201 Intermediate Arabic I
ARAB 202 Intermediate Arabic II
ARAB 301 Advanced Arabic I
ARAB 302 Advanced Arabic II

Students must also take at least one 400-level ARAB course, in addition to three other courses in Arabic and Middle Eastern Studies in Arabic Studies or affiliated units. At least one of these courses should be from the arenas of language and the arts (Div I) and at least one from politics, religion, economics, history, etc. (Div II). Students should consult with the Department to confirm that electives are authorized.

Students who place into more advanced language courses may substitute additional courses, adding up to a total of at least nine courses.

Up to four courses from approved study abroad programs may be counted toward the major.

THE CERTIFICATE IN ARABIC

The Certificate in Arabic demonstrates that a student has acquired a working foundation in the language. The sequence of eight language and culture courses is designed to supplement a student’s major at Williams by enabling the student to expand their knowledge in a related field.

Required Courses

ARAB 101
ARAB 102
ARAB 201
ARAB 202
ARAB 301
ARAB 302

At least one elective course, either in Arabic literature, arts, or culture, or in Arabic history, religion, politics, economics, etc.

Students must earn a cumulative grade average of B or higher in the sequence of seven courses.

Students who enter Williams with previous training in Arabic may be exempted from up to two of the required seven courses. Thus, in order to earn a certificate, a student must take no fewer than five courses (including three language courses) after enrolling at Williams.

THE DEGREE WITH HONORS IN ARABIC STUDIES

Prerequisites
Honors candidates in Arabic are required to have maintained a GPA of 3.5 in the major to qualify for submitting a thesis proposal. In addition, candidates must demonstrate a strong interest in a specific topic for which an appropriate faculty advisor will be available in the senior year.

**Timing**

Students wishing to pursue a thesis in Arabic are strongly urged to secure an advisor by the end of the week after Spring Break in their junior year. By May 15th of their junior year, candidates must submit to the Program Advisory Committee a one- to two-page proposal and a preliminary bibliography. The Advisory Committee will inform candidates by June 1 whether they may proceed with the thesis and advise them about any changes that should be made in the focus or scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and preparing for the process of writing the thesis.

In their senior year, candidates will devote two semesters and the winter study period to their theses (ARAB 493-W31-ARAB 494). By the end of the Fall semester, students will normally have undertaken substantial research and produced the draft of at least the first half of the project. At this point students should also have a clear sense of the work remaining for completion of the thesis. In the course of the Fall semester, students will also have chosen and met with a second reader for the project, who will provide additional guidance and read the final thesis. By the end of Winter Study, students should have completed a draft of the entire project. At that time, the Comparative Literature Advisory Committee, together with the advisor, will determine whether the project may continue as an Honors Thesis, or whether its first portions (ARAB 493-W) will be graded as Independent Studies.

The second semester of independent thesis work will be spent revising as necessary. The completed thesis in its final form will be due one week before the last day of classes. At the end of the Spring term, the student will make a public presentation of the final project, to which members of the Advisory Committee will be specially invited.

**Characteristics of the Thesis, Evaluation, and Major Credit**

The topic of the thesis must have to do with some aspect of Arabic language, culture, history, politics, etc. and will be worked out between the thesis writer and her/his advisor. It is also possible to write a thesis that consists of an original translation of a significant text or texts; in this case, a theoretical apparatus must accompany the translation. The complete thesis must be at least 50 and at most 75 pages in length, excluding the bibliography.

The advisor will assign the grades for the thesis courses (ARAB 493-W-494); the Advisory Committee will determine whether a candidate will receive Honors, Highest Honors, or no honors.

For students who pursue an honors thesis, the total number of courses required for the major-including the thesis course (ARAB 493-W-494)-is 10, i.e., one of the thesis courses may substitute for one elective.

**STUDY ABROAD**

**FAQ**

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

**Can your department or program typically pre-approve courses for major/concentration credit?**

Yes, in many cases, though students should be sure to contact the department.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**

Course title and description, and complete syllabus including readings/assignments. We may need specific information (assigned readings) to determine whether the course counts for Div I or II major credit.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**

Yes, four.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**

No.

**Are there specific major requirements that cannot be fulfilled while on study away?**

No. Students can receive credit toward the major's language requirements from for-credit summer language programs like Middlebury, etc. These count toward the 4-course maximum.

**Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)**

Yes. Make sure you have the needed number of Div I and Div II courses for the major. Know the difference.
Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

It has happened, but we try to be as flexible as possible.

ARAB 101 (F) Elementary Arabic
This is the first course in the year-long Beginning Arabic sequence. It will help you establish a foundation of communicative competence and understanding of the Arabic language and culture. The course adopts an integrated-skills approach with a focus on “formal Arabic” (or so-called Modern Standard Arabic), the language of formal writing and speech in Arab countries, while simultaneously familiarizing you with one variety of spoken Arabic. The course focuses on day-to-day situations and familiar topics.

Class Format: In Fall 2020, this course will be remote with some aspects of in-person training when applicable.

Requirements/Evaluation: tests, daily homework, active class participation, a skit, a culture portfolio, and engagement in a variety of co-curricular activities

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: students considering a major in Arabic Studies

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: students registered for ARAB 101 and 102 are required to attend and pass the sustaining program during the Winter Study period; credit is granted only if both semesters (ARAB 101 and 102) are taken

Distributions: (D1)

Fall 2020

SEM Section: R1 TR 11:30 am - 12:45 pm MF 11:45 am - 1:00 pm  Lama  Nassif

ARAB 102 (S) Elementary Arabic
This is the second semester of the Beginning Arabic sequence. This course will continue building the listening, speaking, reading and writing skills students acquired in Arabic 101. Arabic 102 will also develop your competence in Modern Standard Arabic (MSA) primarily. The students will be equipped with the vocabulary, reading facility, grammatical skills as well as the cultural competence they need to navigate familiar topics and simple communication situation in MSA. Students will expand the range of topics, grammar, tenses, and pronouns they use to express themselves both orally and in writing in MSA. This second semester will allow students to listen (to), speak, read, and write about a variety of topics that are geared toward consolidating and enriching their prior acquisitions in Arabic.

Class Format: five hours a week

Requirements/Evaluation: weekly quizzes, daily homework, in-class participation, skits, presentations, recordings, and assiduous participation in cultural events organized by the department in Arabic (Arabic table; movie nights etc)

Prerequisites: ARAB 101

Enrollment Limit: 12

Enrollment Preferences: In the event the course is over-enrolled, priority will be given to students majoring or intending to major in Arabic Studies.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: students registered for ARAB 101 and 102 are required to attend and pass the sustaining program during the winter study period; credit is granted only if both semesters (ARAB 101 and 102) are taken.

Distributions: (D1)

Spring 2021
ARAB 109 (S) The Iranian Revolution (DPE) (WS)

Cross-listings: ARAB 109 HIST 109

Secondary Cross-listing

The Iranian Revolution was a major turning point in world history that resulted in the establishment of the Islamic Republic of Iran. This tutorial will evaluate the causes and impact of the revolution and how this seminal event continues to have widespread repercussions around the globe. The first weeks will explore the history of pre-revolutionary Iran with special attention to religious and intellectual trends such as the ideas of Ayatollah Ruhollah Khomeini, Jalal al-e Ahmad, and Ali Shariati. We will then evaluate the revolution itself including the US hostage crisis, the downfall of the Shah Muhammad Reza Pahlavi Shah, and how Khomeini’s vision of society became paramount. Finally, we will explore the aftermath of the revolution including Iran’s geopolitics, the nature of the theocratic system in Iran as well as how the revolution impacted every day lives of Iranians in Iran and abroad particularly how they reflect on the revolution in memoirs, films, and literature.

Class Format: Hybrid

Requirements/Evaluation: Weekly meetings. Weekly papers - either a 5 page primary paper or a 2-3 page response paper.

Prerequisites: No prerequisites.

Enrollment Limit: 10

Enrollment Preferences: First Years and Sophomores.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 109 (D2) HIST 109 (D2)

Writing Skills Notes: As a tutorial, students are expected to regularly write analytical and critical papers on the readings. They will receive regular and consistent feedback from the instructor and their partner and will be given the opportunity to re-write some of their assignments.

Difference, Power, and Equity Notes: The Iranian Revolution, like other major social movements, offered a compelling critique of the status quo and promised a more just society that would be more equitable for all Iranians. The tutorial will consider the relationship between the rhetoric of the Revolution and the lived reality, especially how this seminal event impacted the lives ordinary Iranians. Was the Revolution simply a change in the composition of the political elite or did it yield new realities and more access for Iranians

Spring 2021

TUT Section: HT1 TBA Magnús T. Bernhardsson

ARAB 111 (F) Movers and Shakers in the Middle East

Cross-listings: ARAB 111 HIST 111 LEAD 150

Secondary Cross-listing

This course examines the careers, ideas, and impact of leading politicians, religious leaders, intellectuals, and artists in the Middle East in the twentieth century. Utilizing biographical studies and the general literature on the political and cultural history of the period, this course will analyze how these individuals achieved prominence in Middle Eastern society and how they addressed the pertinent problems of their day, such as war and peace, relations with Western powers, the role of religion in society, and the status of women. A range of significant individuals will be studied, including Gamal Abd al-Nasser, Mustafa Kemal Ataturk, Ayatollah Khomeini, Muhammad Mussadiq, Umm Khulthum, Sayyid Qutb, Anwar Sadat, Naghuib Mahfouz, and Huda Shaarawi.

Requirements/Evaluation: class participation, short essays, and a final paper

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 19

Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15-19

Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 111 (D2) HIST 111 (D2) LEAD 150 (D2)

Not offered current academic year

ARAB 201 (F) Intermediate Arabic I (DPE) (WS)
This course will build on the students’ acquisitions in Arabic 102 to consolidate their learning of the Modern Standard Arabic and one variety of spoken Arabic. In addition to expanding students’ vocabulary and enhancing their communication skills, the course will deepen their knowledge and use of grammar in both speaking and writing. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing cultural appreciation of Arabic-speaking countries.

Class Format: Three 75-minute sessions. The class will be taught remotely synchronously three times a week, with asynchronous online material.
Requirements/Evaluation: quizzes, tests, homework, and active class participation
Prerequisites: ARAB 102 or placement test
Enrollment Limit: 12
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)
Writing Skills Notes: This course involves a great deal of writing, ranging from vocabulary and grammar-focused exercises to written assignments about a variety of topics. Students will receive extensive and timely feedback on this written work.
Difference, Power, and Equity Notes: Any language is the locus of issues of difference, power, and equity. Students will learn about gender and pronouns. They will wonder why Arabic does not have a gender neutral pronoun. Students will understand how Arabic acts as a dominant language in places minority languages in the Middle East and North Africa. Students will emerge from the course with a critical understanding of Arabic language's politics.

Fall 2020
SEM Section: R1 MWF 10:00 am - 11:15 am Radwa M. El Barouni

ARAB 202 (S) Intermediate Arabic II
As a continuation of ARAB 201, this course will expose students to Modern Standard Arabic and one variety of spoken Arabic while increasing their cultural literacy in Arab civilization. Our main textbook will be Al-Kitaab fii Ta'allum al-'Arabiyya Part II but outside materials from diverse media such as television and newspapers will also be included. Class will be conducted in Arabic.

Class Format: class meets four hours a week in two 75-minute sessions and one 50-minute session. An additional conversation session is required.
Requirements/Evaluation: active participation, daily homework, writing portfolio, oral components, quizzes, midterm exam, and final exam
Prerequisites: ARAB 201 or placement test
Enrollment Limit: none
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Spring 2021
LEC Section: R1 MWF 11:45 am - 1:00 pm Lama Nassif

ARAB 207 (F) The Modern Middle East (DPE)
**Cross-listings:** HIST 207  JWST 217  REL 239  GBST 101  LEAD 207  ARAB 207

**Secondary Cross-listing**

This survey course addresses the main economic, religious, political and cultural trends in the modern Middle East. Topics to be covered include the cultural diversity of the Middle East, relations with Great Powers, the impact of imperialism, the challenge of modernity, the creation of nation states and nationalist ideologies, the discovery of oil, radical religious groups, and war and peace. Throughout the course these significant changes will be evaluated in light of their impact on the lives of a variety of individuals in the region and especially how they have grappled differently with increasing Western political and economic domination.

**Requirements/Evaluation:** participation, two short papers, quizzes, midterm, and final exam

**Prerequisites:** none

**Enrollment Limit:** 40

**Enrollment Preferences:** History & Arabic majors, and Jewish studies concentrators; completion of course admission survey if overenrolled

**Expected Class Size:** 30-40

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 207 (D2)  JWST 217 (D2)  REL 239 (D2)  GBST 101 (D2)  LEAD 207 (D2)  ARAB 207 (D2)

**Difference, Power, and Equity Notes:** This course introduces students to the incredible diversity of the Middle East. It will explore how people of different backgrounds and in different situations have responded in diverse ways to the problems of the day. Students will acquire the critical tools to assess a number of interpretations of the past and how to understand and appreciate the many narratives in the Middle East today that have profound political and cultural implications.

**Not offered current academic year**

ARAB 209 (S) Saharan Imaginations (DPE) (WS)

**Cross-listings:** ARAB 209 ENVI 208 COMP 234

**Primary Cross-listing**

Literary representations of the Sahara challenge facile assumptions about this undertheorized place. Approached mainly through the prism of adventure and exploitation, the desert is portrayed as a dead space. However, literature and film furnish a unique opportunity to engage critically with the ways Maghrebi and Middle Eastern culture production represents deserts and raises issues of fundamental importance to these societies. This course offers students the opportunity to engage in close readings of novels and film through the theme of the Sahara and Saharan space. Reading through the politics of human mobility and life in the desert will help students to understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the Saharan sub-genre of African and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to think critically about the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature. Deconstructing reductive Saharanisms, students will see the desert for what it is, rather than what it is portrayed to be or stand for.

**Class Format:** hybrid

**Requirements/Evaluation:** active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** Students are admitted into the course on a first-come-first-serve basis. If the course is over-enrolled, preference will be given to Arabic Studies and Comparative Literature majors and certificates.

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 209 (D1) ENVI 208 (D1) COMP 234 (D1)

**Writing Skills Notes:** Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.
Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

Spring 2021
SEM Section: H1    MW 10:00 am - 11:15 am    Brahim El Guabli

ARAB 211  (S) Understanding 9/11 and the War in Iraq  (DPE)
Cross-listings:  HIST 211    ARAB 211
Secondary Cross-listing
What were some of the causes of 9/11/2001 and what were some of the consequences? Why and how did the United States invade Iraq in 2003 and what impact did the subsequent occupation of that country have on the rest of the Middle East? In this course on recent political and cultural international history, that will also consider this history in film and popular culture, the monumental ramifications of the "War on Terror" will be considered and how this framework has shaped the 21st century. In the first part of the course, US-Middle Eastern relations will be explored and the eventual emergence of al-Qaeda in the late 1990s. Then the terrorist attacks on American soil on 9/11 will be studied and the ensuing wars on Afghanistan and Iraq. Particular attention will be on the prelude to the Iraq War, especially how that war was justified and rationalized, and the eventual occupation of Iraq. The myriad Iraqi responses will be studied along with American military experience. Finally, the course will evaluate the significance of the first decade of the 21st century and how these events continue to reverberate today.

Requirements/Evaluation: short online writings and papers and a final project
Prerequisites: none
Enrollment Limit: 40
Enrollment Preferences: History and Arabic Studies majors
Expected Class Size: 25
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 211 (D2) ARAB 211 (D2)

Difference, Power, and Equity Notes: This course will consider power and difference in a number of ways. First, it will evaluate how the US government used its political power to convince the public to support a military operation under questionable premises. Second, it will critically assess the "War on Terror" and who has benefited from it. Third, it will examine how the American military occupied Iraq and the ways in which Iraqis tried to resist the American designs on their country.

Not offered current academic year

ARAB 212  (S) Distant Encounters: East Meets West in the Art of the European Middle Ages  (WS)
Cross-listings:  ARTH 212    REL 210    ARAB 212
Secondary Cross-listing
In this tutorial, students will investigate the rich artistic consequences -- in architecture, manuscript illumination, mosaic, sculpture, panel painting, fresco, metalwork, and other minor arts -- of European contact with the Eastern Mediterranean between approximately 300 and 1450 CE. From the beginnings of Christianity, pilgrims from Europe made the long journey to sacred sites in the Holy Land (extending across parts of present-day Egypt, Israel, Syria, and Turkey). When these sites became less accessible with the spread of Islam in the seventh century, Europeans sought to recreate the sites at home. Later, from 1095 onward, Christian Europeans attempted to reclaim and hold the Holy Land from non-Christians by force, through an ill-fated series of five major and several lesser "crusades." Over the centuries, before, during, and after the Crusades, exposure to the peoples, ideas, and cultures of the Eastern Mediterranean also came through trade and through the travel and settlement of non-Europeans in Europe itself, particularly in Spain, Sicily, and Venice. Together, through open discussion, we will explore artistic production within each of these different cross-cultural contexts of East-West encounter. In the process, we will reflect on how art could function as a conduit for the exchange of ideas in the Middle Ages, and how it could be used both to negotiate and to intensify cultural difference.

Requirements/Evaluation: participation in discussion; five 5-7-page tutorial papers (one of which will be revised as a final writing assignment); five
1-2-page response papers

Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: First- and second-year students, but open to all
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 212 (D1) REL 210 (D1) ARAB 212 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Not offered current academic year

ARAB 215 (S) The Veil: History and Interpretations (DPE) (WS)

Cross-listings: HIST 110 WGSS 110 ARAB 215

Secondary Cross-listing

This tutorial will consider the history and the changing meanings of the veil (hijab) and its many manifestations (e.g. burqa, chador, niqab), starting with the earliest religious traditions and the status of women in Islamic law. We will then proceed to examine imperialist and orientalist representations of gender in the Middle East, the rise of Islamic feminism and finally consider the emergence and return of the veil in recent years in the Middle East, North America, Asia and Europe.

Requirements/Evaluation: each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner's paper; by semester's end each student will have written a minimum of 40 pages
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Limit: 10
Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar and those with demonstrated interest in the Middle East
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 110 (D2) WGSS 110 (D2) ARAB 215 (D2)

Writing Skills Notes: Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This tutorial considers the veil in many different cultural contexts and time periods and how it has multiple and complex meanings. What does the veil mean and how do people interpret it? Is it empowering or is it subjugation?

Not offered current academic year

ARAB 222 (S) Photography in/of the Middle East (DPE)

Cross-listings: ARTH 222 ARAB 222

Secondary Cross-listing

Photography has been globally disseminated and locally inflected since its invention. In the Middle East, the powers and pleasures of the medium have been valued by colonial forces, indigenous populations, photojournalists and artists; the resulting images merit aesthetic and art historical appreciation even as they grant visual access to the social and political dynamics operative in diverse cultural contexts. We will explore photographic practices in various zones of the Middle East--e.g., the Holy Land, Turkey, Egypt and the Persian sphere--by attending to individual photographers and case studies. This tightly focused approach will support, in turn, a consideration of the agency and power of images more generally--what work do photographs do? Who resists and who benefits? The goal will be to appreciate diverse styles and perspectives that underlie renderings of the Middle
East.

Class Format: discussion

Requirements/Evaluation: midterm, Glow posts, term project

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 15-20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 222 (D1) ARAB 222 (D1)

Difference, Power, and Equity Notes: Photographs are tricky. Whose experiences and values do they really represent--those who are depicted? Those who wield the camera? Or, those who view images that are so easily reproduced and widely shared? How does identity figure? Religious conviction? Political affiliation? And how are these variables encoded in the material evidence? Appreciating the myriad powers of images requires multiple skills--from close-looking to interdisciplinary analysis--useful in contemporary visual culture.

Not offered current academic year

ARAB 227  (F)  Language and Society: What Does Your Speech Say About You?

Cross-listings: ANTH 227  ARAB 227

Primary Cross-listing

Sociolinguistics is the study of how aspects of society influence the way language is used by the society members. In this course, we will examine the inter-relationships between the way language is used in various social contexts affecting that usage. How and why do languages change? How does language reflect a person's identity? How does language intersect with power relations among individuals within a society? Does language vary according to gender? How are language varieties formed, and what determines their status within speech communities? How and why do speakers code-switch among different varieties? These are some key questions that we will examine in this class, drawing on readings that focus on different languages.

Requirements/Evaluation: active class participation, response essays, assignments, article presentation, variation paper, final exam

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: seniors, students who need to fulfill Arabic major or Anthropology major requirements, students interested in linguistics

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 227 (D2) ARAB 227 (D1)

Not offered current academic year

ARAB 234  (F)  What is Islam?  (DPE)

Cross-listings: ARAB 234  REL 234  GBST 234  HIST 208

Secondary Cross-listing

This course introduces students to Islam as a varied and contested historical tradition. The course will trace the historical development of Islam, focusing on religious and intellectual thought, political developments, and the practices and lived lives of Muslims. We will begin with situating the rise of Islam within the context of late antiquity, followed by an examination of the life of Muhammad, and the rise of Muslim empires. These developments will form the framework through which we investigate the theological, philosophical, legal, mystical, and literary writings of Muslims from the classical to the early modern periods of Islamic history. The main aim of the course is to develop a framework for understanding the historical developments through which Muslims have constructed ideas about normativity, authority, and orthodoxy in debates around Islam. Sources will include pre-modern
historical and religious texts (in translation).

Requirements/Evaluation: reading responses, two essays, final exam

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Religion majors (or those considering Religion as a major), then Arabic Studies and History majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 234 (D2) REL 234 (D2) GBST 234 (D2) HIST 208 (D2)

Difference, Power, and Equity Notes: This course looks role of power, in particular imperial and colonial power in the construction of religion. To that end, the course will explore how the rise of Muslim empires shaped the construction of pre-modern Islam and subsequently the role of European colonialism in shaping the emergence of modern Islam. This course will teach students critical tools in postcolonial theory about the relationship between power and the production of knowledge and the agency of the colonized.

Not offered current academic year

ARAB 236 (S) Reading the Qur'an

Cross-listings: ARAB 236 REL 236 COMP 213 GBST 236

Secondary Cross-listing

In the nearly 1500 years of Islamic history, the Qur'an has been a central source of spiritual insight, ethical and legal guidance, sacred stories, and theological principles. Considered the divine word of God, the Qur'an is central to devotional life. This course will explore the Qur'an as a text that is always in a state of production. We will focus significantly on close readings of the text of the Qur'an, in addition to pre-modern and modern Qur'anic exegesis. The course will begin with a historical account of the revelation and collection of the Qur'an, placing the form and content of the text in the context of 7th century Arab society and the life of the Prophet. We will then study Qur'anic commentaries to discuss how Muslims have drawn theological, legal, philosophical, and mystical meaning from the Qur'an. We will pose some of the following questions: What do the different exegetical methods tell us about the intertextual nature of the Qur'an? How have these shifting notions affected the meaning made from Qur'anic verses and passages? What role do interpretive communities play in determining what the Qur'an says? Lastly, through an exploration of the art of Qur'an recitation, calligraphy, and Qur'an manuscripts, we will explore the ways in which the Qur'an is also an object of devotion in Muslim life.

Requirements/Evaluation: class participation, weekly reading responses, 3- to 4-page midterm paper, and a final project with a media component and a 4- to 6-page analytical essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Religion and Arabic Studies majors

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 242 (S) Women, Gender, and Sexuality in Islam (DPE)

Cross-listings: REL 242 WGSS 242 ARAB 242

Secondary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility
of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Religion, Women’s, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

ARAB 243 (F) Islamic Law: Past and Present

Cross-listings: ARAB 243 WGSS 243 REL 243 HIST 302

Secondary Cross-listing

From fear of the Shari'a to its implementation in so-called "Islamic countries," Islamic law is perhaps best associated with draconian punishments and the oppression of women. Islamic law is ever present in our public discourse today and yet little is known about it. This course is designed to give students a foundation in the substantive teachings of Islamic law. Islamic law stretches back over 1400 years and is grounded in the Quran, the life example of the Prophet Muhammad, and juridical discourse. Teetering between legal and ethical discourse, the Shari'a moves between what we normally consider law as well as ethics and etiquette. The course will explore four key aspects of the law: its historical development, its ethical and legal content, the law in practice, and the transformation of Islamic law through colonialism and into the contemporary. Specific areas we will cover include: ritual piety, family and personal status law, criminal law, and dietary rules.

Requirements/Evaluation: weekly responses, four 2- to 3-page essays

Prerequisites: none

Enrollment Limit: 19

ARAB 249 (F) Trauma and Memory in Maghrebi and Middle Eastern Literatures (DPE) (WS)

Cross-listings: ARAB 249 COMP 249

Primary Cross-listing

Arabic literature produced in the Maghreb and the Middle East has always engaged with the socio-political concerns of different Arab societies. Whether caused by the colonial state(s) or by post-independence leadership, trauma has been a central theme in Maghrebi and Middle Eastern literature for a long time. Using a combination of memoirs, films, and fictional works, this course aims to raise students’ critical awareness and aesthetic appreciation of literary representations of the multiple traumas inflicted on people and societies in the Maghreb and the Middle East. The different novels and films assigned in this course will be read against seminal literature on memory and trauma studies to answer the following questions: how does Arabic literature remember? In what ways does Arabic literature engage with the past sequelae of colonialism, dictatorship, war, and displacement? How do Arabic novelists and memoirists dialogue with memory and trauma theory even though Arabic scholarship has given short shift to trauma and memory ethics and aesthetics? What events or experiences are pivotal to collective and individual traumas represented in Maghrebi and Middle Eastern literature(s)?

Requirements/Evaluation: regular posts on Glow, two five-page papers, one ten-page final paper, one presentation, and participation in class

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors and certificate students

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 249 (D1) COMP 249 (D1)

Writing Skills Notes: Students in the course will write: 1) 400-word weekly, focused responses on Glow; 2) a book review (600 words); 3) two five-page papers as mid-terms; 4) one ten-page paper as a final paper for the course. Students are required to present an outline of their papers before submitting a draft paper. Students will receive detailed and consistent feedback on the writing. Students are required to incorporate the feedback to improve their drafts before they become final.

Difference, Power, and Equity Notes: Students in this course will learn how to identify and analyze gender, class, and power-related aspects of traumatic memory. The different readings assigned in this course will help students develop critical skills to examine how various forms of power and social inequality play out in memories of war, political detention, forcible disappearance, and social ostracism in the Maghreb and the Middle East.

Not offered current academic year

ARAB 257 (F) Iran, Islam, and the Last Great Revolution

Cross-listings: ARAB 257 PSCI 257

Secondary Cross-listing

The title and inspiration for this course comes from Robin Wright's book The Last Great Revolution. Wright argues that the 1979 Revolution in Iran completes the promise of the Modern Era, "launched in the West" but "adopted by or adapted to all other parts of the world." The overthrow of 2500 years of monarchy "paved the way for using Islam to push for empowerment." It is this empowerment, of nations and of ordinary individuals, that stands as the signal quality of modernity. The notion that post revolutionary Iran offers an alternative path to modernity is hardly conventional wisdom in the United States or Europe, where images of men draped in religious passion and women in forbidding black chadors are as common as the belief that the 1979 Revolution set Iran spinning back thirteen centuries in time. If westerners do not view Iran as entirely anti-modern, then at best they see it as a country filled with "paradoxes" and "puzzles," one in which indie rock bands play underground, figuratively and literally beneath the feet of retrograde religious fanatics, or unveiled women attend all-night parties only to slip back into proper hejab the next morning. The class will ask you to consider why these assumptions exist, whether they are the symptoms of a western civilization "clashing” with the east, and if they are exclusive to the United States or Europe. Does there also exist an "orientalism in reverse,” a negative gaze of Iranians towards the west and towards their fellow, "backwards” citizens?

ARAB 259 (S) Bilad al-Sudan and Beyond: Arts of the Afro-Islamic World
Cross-listings: ARAB 259 AFR 259 ARTH 259
Secondary Cross-listing
From the Swahili stone houses of East Africa to the massive earth and timber mosques of the Sahel, the story of Islam in Africa is one of cultural and spiritual hybridity expressed through material form. In this course, students will explore how artistic forms and traditions in Africa have functioned as vehicles of access and integration for Islam, enabling it to assimilate itself with numerous African contexts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just one African Islam, but many different iterations, each shaped by the specific frameworks of its cultural context. The contemporary component of the course will examine how modernity in the form of globalization, technology, and Westernization has affected Afro-Islamic artistic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period.
Requirements/Evaluation: three reading response papers (2 pages each), class journal, a mid-term exam, and a final exam
Prerequisites: none, although an introductory course in art history or Islamic studies would be useful
Enrollment Limit: 25
Enrollment Preferences: students who have declared a major in Art History or Africana Studies
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 301 (F) Advanced Arabic 1 (WS)
A continuation of Intermediate Arabic, ARAB 301 aims to expand students' listening, reading, writing, and speaking skills in Arabic. The course will also stimulate students' intellectual curiosity about the Arabic-speaking regions and enhance their intercultural competence. Using Al-Kitaab as well as a variety of authentic written and audiovisual materials, the course will advance their proficiency in Modern Standard Arabic and one variety of Colloquial Arabic. The course will also encourage students to engage critically with a wide variety of topics in Arabic language as they enrich their knowledge of the different aspects of Arabic language and culture. Students at this stage will also be assisted to generate more complex written and oral assignments.
Requirements/Evaluation: active class participation, daily assignments, writing portfolio, presentations, quizzes, midterm exam, final exam
Prerequisites: ARAB 202
Enrollment Limit: 12
Enrollment Preferences: Arabic majors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)
Writing Skills Notes: Students will be writing multiple drafts in Arabic; the weekly written work expected from students is 800 words in Arabic language, students will also be doing translations from Arabic into English or vice-versa; and all written work from students will evaluated, and students will receive feedback to rework it. Students will receive detailed and consistent feedback about their writing in Arabic language.
ARAB 302 (S) Advanced Arabic 2 (DPE) (WS)
A continuation of Advanced Arabic 1, ARAB 302 aims to reinforce students' listening, reading, writing, and speaking skills in Arabic through a deeper engagement with authentic materials in Modern Standard Arabic. Built around a plethora of texts and audiovisual materials, the course seeks to assist students to develop their language and critical thinking skills in Arabic. Situated at the intersection of language learning and content teaching, this course will prepare students for more scholarly engagement with and in MSA in the fourth year. Like ARAB 301, the course will be conducted entirely in Arabic.

Class Format: course offered remotely
Requirements/Evaluation: quizzes, exams, presentations, papers, midterm examinations, and projects
Prerequisites: ARAB 301 or equivalent
Enrollment Limit: 19
Enrollment Preferences: Arabic Studies, or students who completed ARAB 301
Expected Class Size: 6
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

Writing Skills Notes: In addition to the weekly writing assignments of 400-word essays, students will produce four portfolios that will involve a careful process of revisions. Each portfolio will include a series of critical reflections on graphic novels and visual storytelling in Arabic. The portfolio will be based on rigorous research in Arabic resources, summary and essays that can range to 800 words.

Difference, Power, and Equity Notes: As a content course, ARAB 302 will focus on graphic novels, graffiti and caricature in contemporary Arab visual culture. Most of the texts assigned will address the particularity of political language involved in this form and its popularity among Arab youth (and adults) as a cultural expression of dissent. The selected texts will also expose students to stories about class struggle, gender inequality, the social struggles of immigrants and refugees.

ARAB 307 (F) To Die For? Nationalism in the Middle East (DPE)
Cross-listings: HIST 307 ARAB 307

Secondary Cross-listing
In 1932, or twelve years into his rule and twelve years after the establishment of Iraq, King Faysal I lamented that there were "no Iraqi people but only unimaginable masses of human beings, devoid of any patriotic idea, imbued with religious traditions and absurdities, connected by no common tie."
This course will consider how true the King’s statement still holds by evaluating the various attempts at state and nation building in the modern Middle East. Some of the more prominent questions that this course will examine include: What is a nation? What are essential characteristics of a nation? Who are a people? Why are people ready to die for the nation? And who is included and excluded in the nationalist narrative? After assessing some of the more influential theories of nationalism, we will explore the historical experience of nationalism and national identity in Egypt, Israel, Turkey, Iran, and Iraq. What has been at the basis of nationhood? How did European concepts of nation translate into the Middle Eastern context? What was the role of religion in these modern societies? How did traditional notions of gender affect conceptions of citizenship? We will also explore some of the unresolved issues facing the various nations of the Middle East, such as unfulfilled nationalist aspirations, disputes over land and borders, and challenges to sovereignty.

Class Format: A hybrid course for students who are both on campus and remote. Depending on the number of students, the course will primarily be taught seminar style on campus following appropriate social distancing guidelines or in the tutorial format with a mix of on campus and remote groups. Some class meetings may be remote and asynchronous but this will mostly be a synchronous campus class.

Requirements/Evaluation: There will be several options to fulfill the requirements of this course including a weekly journal, oral exam or a final research paper (12-15 pages).
Prerequisites: None.
Enrollment Limit: 15
Enrollment Preferences: History and Arabic Studies majors, seniors, and students with a demonstrated interest in the Middle East.

Expected Class Size: 8-10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 307 (D2) ARAB 307 (D2)

Difference, Power, and Equity Notes: This course examines the power of the state to decide who is included and not included in the nationalist narrative. How does it seek to promote unity and how does it explain differences within and outside of society? Though nationalism can be a very powerful unifying factor, this course will also consider examples where nationalism has the opposite effect.

Fall 2020

SEM Section: H1 MWF 11:45 am - 1:00 pm Magnús T. Bernhardsson

ARAB 308 (S) The Nile (DPE)

Cross-listings: HIST 308 ARAB 308

Secondary Cross-listing

For millennia, the Nile River has sustained civilizations in eastern and northern Africa. It is the only reason that Egyptians have been able to live in the Sahara Desert. It was at the banks of this river that some of the most significant human structures were built and some of the most beautiful artworks conceived. The Nile provided the silt and hence the alluvial soils on which all the great Egyptian empires were founded. Yet now in the 21st century, the Nile River is at a historical turning point. The water level and quality is dwindling while at the same time the number of people who rely on the river is ever increasing. This course will consider the history of the Nile and the peoples and cultures it has sustained. After a brief overview of the role of the river in ancient Egypt, we will explore the modern political and cultural history of the Nile. Who lives along this river and what kind of cultures have developed in the Nile valley? We will evaluate the numerous attempts to manage and control the Nile and the continuous efforts to utilize the river for human development such as agriculture and the tourism industry. At the end of the semester we will consider the relationship of the mega city Cairo with the Nile and whether the tensions among Nile riparian states will lead to “water wars” in East Africa and the Middle East.

Requirements/Evaluation: short papers and final project/paper

Prerequisites: none, though background in Middle East history is preferable

Enrollment Limit: 19

Enrollment Preferences: History and Arabic Studies majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 308 (D2) ARAB 308 (D2)

Difference, Power, and Equity Notes: The course fulfills the DPE requirement because it evaluates the differing experiences of the Nile among different cultural groups. It will evaluate how the central government is constantly trying to change how people use their water and therefore over-determine how people interact with their natural environment.

Not offered current academic year

ARAB 323 (F) Born to be Wild: Rethinking Animals in Pre-modern and Modern Texts (DPE)

Cross-listings: COMP 323 ARAB 323 ENVI 321

Primary Cross-listing

In the past few months, images of dolphins appearing in the Venetian canals, and wild animals roaming eerie looking post-apocalyptic deserted streets have gone viral. The majority of these images have proven to be fake, however their popularity was witness to people's hope that we can "reset" the environment and a yearning to reframe animals' positionality vis-à-vis their habitats and humans. Using critical lenses from ecocriticism and animal studies, we will be exploring texts from non-Western traditions in which animals figure strongly from pre-modern times to the age of the Anthropocene. The focus will be on Arabic, Persian and Turkish texts all in translation. The course will be traversing several genres and texts from Pre-Islamic poetry,
the Quran, the 10th century Ikhwan as-Safa’s epistle *The Case of Animals versus Man Before the King of the Jinn*, the fables of *Kalila and Dimna*, Farid ed-Din ‘Attar’s *Conference of Birds*, travelogues, paintings, contemporary film till we reach recent fiction with cyborgs and drones. Throughout the course, we will be examining themes such as diverse conceptualizations of what it means to be an "animal", what constitutes’ animal agency and animal subjectivity irrespective of humans and their often utilitarian lens. We will do this by investigating how animals through these texts have been represented, imagined and reconfigured whether allegorically or otherwise as communities and in relation to humans and the environment and the implications of that. Finally, we will explore what a poetics of animal studies in these cultural and literary traditions could look like. The course will consist of multiple forms of evaluation like participation, Glow posts, essays, experiential reflections and creative tasks.

**Class Format:** This class will be offered remotely synchronously twice a week (75 minutes each session), in addition to prerecorded asynchronous material at times.

**Requirements/Evaluation:** The course will consist of multiple forms of evaluation like participation, Glow posts, essays, experiential reflections and creative tasks.

**Prerequisites:** None

**Enrollment Limit:** 12

**Expected Class Size:** 10

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 323 (D1) ARAB 323 (D1) ENVI 321 (D1)

**Difference, Power, and Equity Notes:** This course deals with different literary traditions and their aesthetics. The approach is both synchronic and diachronic by looking at texts and their texts from different time periods and at different genres. The course will be examining what it means to be an "animal" vis-a-vis human beings and their environment and animal agency in these literary traditions as opposed to the often utilitarian lens that animals have often been viewed through.

Fall 2020

SEM Section: R1 MW 11:45 am - 1:00 pm Radwa M. El Barouni

**ARAB 329 (S) Against the Grain: The Counternarratives of Historical Fiction in the Arab World** (DPE) (WS)

**Cross-listings:** ARAB 329 HIST 303

**Primary Cross-listing**

In 2011, a few months after the large scale protests in Egypt that led to Mubarak’s forced abdication of power, a story circulated in social media that was then picked up by traditional media about the fabrication of a key image that goes back to the 1973 war. Every October on the annual anniversary of the war, pictures reappeared in the media, commemorating the event. A widespread one was one of Mubarak, then a major general in the army and commander of the air force, standing right next to al-Sadat looking lost in thought, while everyone else is focused on al-Sadat as he explains routes and war plans on the maps in front of them. The image had been photoshopped. Sa’d al-Shathl’ who was chief of staff during the 1973 war was “airbrushed out of history” to be replaced by Mubarak in the photo, allowing for an altered historical narrative about each man’s respective role and importance. Because of such incidents, the difficulty or impossibility of accessing “official” archives and the control of historical narratives by the state, historical fiction as a genre is of added significance in the Arab world. In this course, we will be examining eight works of Arabic historical fiction in translation, transregionally from the late nineteenth century to the present, with a focus more on the last few decades. Historical fiction will be examined both as *epistêmê* and as *technê* to explore its associated aesthetics and incorporation of different archives, documents and forms. We will be exploring the possibility of considering historical fiction as an alternative archive that opens up new definitions and forms of experiences, community and subjectivity instead of the traditional narrative of the nation-state. Alongside the novels that will vary from a whodunnit in contemporary Lebanon (*The Mehlis Report* by Rabee Jaber) to a work that is about the fall of Granada in 15th century Spain (*Granada* by Radwa Ashour), we will be reading theoretical texts alongside the novels.

**Requirements/Evaluation:** participation and engagement with material in class: 30%; four 5 page papers: 20%; presentations/debates: 15%; mid-term term project: 15%; end of term paper: 20%

**Prerequisites:** statement of interest

**Enrollment Limit:** 19
Enrollment Preferences: Arabic Studies majors and certificate students

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 329 (D1) HIST 303 (D2)

Writing Skills Notes: Four 5-page papers long papers evenly spaced through the semester, a mid-term project and a research paper 10 pages long.

Difference, Power, and Equity Notes: The course aims to engage with how historical narratives have traditionally privileged those who have power, and thus see literary texts as an alternative archive that allows for counter narratives that show an array of experiences and redefinition of subjectivity and community outside of the traditional paradigm of the nation state and which allows the dismantling of the monolithic presentation of historical narratives in and of the Arab world.

Not offered current academic year

ARAB 331 (F) Popular Culture in the Arab World: Youth, Populism, and Politics (DPE)

Cross-listings: ARAB 331 COMP 332

Primary Cross-listing

Since the uprisings in the Arab world in 2011 and the counter-revolutions that followed, much attention has been paid to the significant role of the "popular" in creating social and political transformations. The voice of the youth and "the street," in particular, emerged as massive sources and sites for political mobilization. But, are these categories identical? Does youth culture equal popular culture? This survey course is designed to provide students with an introduction to the different layers that constitute popular culture in the Arab world since the decolonization of Arab states in the 1950s. Questions that we will ask include: What constitutes "popular culture" in the Arab world? How is it different than folk culture, mass culture, or "high" culture? Who are the key players in the creation and dissemination of "popular" culture? Besides globalization, for example, what other social, political and economic dynamics engulf the definition of the "popular"? What are modes of self-fashioning and representation of Arab identity that characterize this culture? To answer these questions we will examine original sources (with English translation) that include a graphic novel, political cartoon and graffiti, documentaries, TV shows, soap operas, video clips, music, comedy, blogs, news and social media. A selection of essays from anthropology, Arab culture studies, political science, journalism, and online videos will be used to provide historical and critical context for the material discussed in class.

Requirements/Evaluation: active class participation, two shorter papers (3-4 pages), two film reviews and critical reflections (1-page), a performance, and a longer final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students majoring in or considering a major in Arabic Studies

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 331 (D1) COMP 332 (D1)

Difference, Power, and Equity Notes: As the course description explains, this course engages the concept of the popular through a critical examination of difference, power, and equality in the context of national revolt against colonialism, dictatorship, and socioeconomic injustice in the Arab world since the 1950s. The content will focus on addressing how voices from the margins, particularly the youth, the urban poor, and women, articulated a political language of popular resistance against the dual hegemony of state and colony.

Not offered current academic year

ARAB 332 (F) Islam and Feminism

Cross-listings: WGSS 334 REL 332 ARAB 332

Secondary Cross-listing

This course examines the relationship between feminism and Islam, focusing particularly on Islamic feminist scholarship. We will take a genealogical
approach to our study of Islamic feminism tracing the different discourses that have informed and shaped the field. The first part of the course will begin with a critical examination of orientalist and colonial representations of Muslim women as oppressed and in need of liberation. We will then explore Muslim responses so such critiques that were entwined with nationalist and independence movements. This historical backdrop is critical to understanding why the question of women and their rights and roles become crucial to Muslim self-understanding and Islamic reform. The second part of the course will focus on major intellectuals and thinkers who have influenced Islamic feminism. Finally, the last part of our course will explore the breadth of Islamic feminist literature, covering the following themes: 1) feminist readings of scripture; 2) feminist critiques of Islamic law; and 3) feminist theology.

Requirements/Evaluation: weekly responses, four 2- to 3-page essays
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Religion, Arabic Studies, Women's, Gender and Sexuality Studies, History majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 346 (S) Revolutions and Counter-Revolutions: Narratives from the Arab World, Latin America and the Caribbean (DPE)
Cross-listings: ARAB 346 COMP 346

Secondary Cross-listing
This course offers a South-South comparative reading of revolutions and counter-revolutions in the second half of the 20th century in the Arab World, Latin America and the Caribbean. Throughout we will read novels and watch films that focus on histories of social movements, post-independence revolutions, indigenous autonomies, dictatorship, and counter-revolutions with the aim to investigate narratives of people power vs. absolute power, insurgency vs. neocolonialism, utopias and dystopias. A comparative and critical reading of these texts will introduce you to the complex histories of national liberation, state terrorism and democratic imagination in two geographies in the Global South that share similar struggles against Euro-American imperialism. These texts will also familiarize you with an alternative, yet foundational, canon of Arabic, Latin American and Caribbean literatures and cinema, particularly from the post-Sixties generation in the Arab world and the post-Boom Latin American generation. Although this course is conceptualized as a South-South comparative reading of revolution and counter-revolution, it does not adhere to strict geographical parallels between the Arab World, Latin America and the Caribbean. It is mapped, however, according to major critical questions and thematic tropes that inform this topic. For example, how do contemporary Iraqi and Chilean writers and filmmakers write an aesthetic of evil in narratives that investigate the legacy of prolonged dictatorship? How do national novels in Mexico and Palestine depict parallel movements of indigenous resistance and anti-capitalist struggles? What motifs of dystopia are illustrated in narratives about post-revolution civil wars in Argentina and Syria? What histories of popular nationalism and socialism are revealed in feminist memoirs from Egypt and Cuba from the 1960s and 1970s?

Requirements/Evaluation: active class participation, two short papers (3-4 pages), two film reviews (1-page), two critical reflections (1-page), a performance, and a final paper (7-10 pages)
Prerequisites: none
Enrollment Limit: 19
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 346 (D1) COMP 346 (D1)

Difference, Power, and Equity Notes: This course will explore difference, power, and equality through a comparative reading of narratives of dissent and revolt. The novels examines the effects of class, race, ethnicity, gender and sexuality on social and economic inequalities that ultimately have mobilized revolutions in the Arab world, Latin America, and the Caribbean since the 1960s. Reading narratives of socialist revolutions from the Global South, students will hone skills to address global injustices and neoliberalism.

Not offered current academic year
Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israelite Universelle’s schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews’ departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

ARAB 368  (F)  Arab Women Writers: Remapping Urban Narratives

Cross-listings: COMP 368  ARAB 368  WGSS 368

Primary Cross-listing

In "The Lover of Blue Writing above the Sea," (1995) a poem written to console a lover after the death of his beloved, Syrian poet, Ghada al-Samman, pens: "If you are sad and burn the edge of my book/i shall come to you/like the genie in my grandmother’s Damascene stories..." As these lines imply, the fantastic grandmother's Damascene stories have the power to equally amend broken hearts and restore memories of loss. In this course, we will adopt "the grandmother's Damascene stories" as a conceptual metaphor that guides our line inquiry into the intersection of Arab women’s narrative and the city. We will read novels and short stories by Arab women writers about cities and capitals in the Arab world and the diaspora. The goal of this course is not only to familiarize students with prominent Arab women novelists, such as Hoda Barakat, Radwa Ashur, Liana Badr, Raja’a Alem, Alia
Mamdouh, and Ahlam Mosteghanemi, among others, but also to introduce them to the literary and visual cartography of Beirut, Granada (via Cairo), Ramallah, Mecca, Baghdad, and Constantine, respectively. We will also read short stories about other cities in the world, such as New York, Paris, London, Buenos Aires and Tokyo among other world metropolises. Questions we will address include: How does the city appear as a protagonist? How do Arab women novelists represent nationhood, modernity, memory, love, war, sexuality and religion, among other themes, in their construction of urban narratives? How do these narratives map an Arab feminist metropolis? How do Arab women writers represent cities beyond the Arab world? To answer these questions, we will also look at Arab women's blogs and watch films that focus on the city as a site for spatial articulation of national histories, popular revolutions, and feminist public spheres.

Requirements/Evaluation: active class participation, several short response papers, three short papers (3-5 pages), a final performance project, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors and Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 369  (S)  Indigenous Narratives: From the Fourth World to the Global South  (DPE) (WS)

Cross-listings: GBST 369  HIST 306  COMP 369  ARAB 369

Secondary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashelhiyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10 -pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 369 (D2) HIST 306 (D2) COMP 369 (D1) ARAB 369 (D1)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor’s feedback and peer
review sessions will include review of drafts and argumentative structures.

**Difference, Power, and Equity Notes:** At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

**ARAB 401  (F)(S)  Topics in Advanced Arabic: Contemporary Arab Cinema  (DPE)  (WS)**

The Arab world is a fascinating region with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze select movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

**Class Format:** The course will be offered remotely (Final course format to be determined closer to the semester)

**Requirements/Evaluation:** class participation, daily writing and reflections, quizzes, blogs, leading a movie discussion, and a final project.

**Prerequisites:** ARAB 302 or equivalent.

**Enrollment Limit:** 19

**Enrollment Preferences:** if the course is overenrolled, preference will be given to Arabic majors.

**Expected Class Size:** 5-7

**Grading:**  no pass/fail option,  no fifth course option

**Distributions:**  (D1)  (DPE)  (WS)

**Writing Skills Notes:** Students will engage in daily writing and reflections involving prose responses to discussion prompts, movies, YouTube videos, articles, and quiz prompts. The students will also write blogs, a minimum of one speech, and a 5-7 pp. final research paper. The instructor will give daily feedback on students’ writing as well as training in writing skills to advance their writing abilities.

**Difference, Power, and Equity Notes:** The students will engage in an exploration of social, political, and economic realities in Arab societies. They will examine similarities and differences across a variety of contexts involving differential power dynamics, biases, and gender roles. They will reflect on issues of power based on internal and external factors in these societies as positioned in a region torn by political, social, and religious conflicts.

**ARAB 408  (F)  Appropriating History. Who Owns the Past?  (DPE)  (WS)**

**Cross-listings:**  HIST 489  ARAB 408

**Secondary Cross-listing**

Who owns the past? How have modern states appropriated history? The political use of history is a critical ingredient in any nationalist discourse. In such narratives, the selective utilization of archaeology and ancient history often serves important functions in articulating a conscious and deliberate
national history. Thus, in nationalist renderings, archaeological sites and artifacts are not merely relics of the past; they can also be potent and conspicuous symbols of national identity for the modern nation-state. In the Middle East, with its rich archaeological heritage, the relationship among politics, nationalism, and archeology has been particularly strong and interesting. This tutorial addresses the powerful nexus between history and nationalism with a special emphasis on the Middle East. It will explore the battle over who controls history and the "stuff" of history such as antiquities, land, heritage sites, and museum exhibitions and how that control has expressed itself in several Middle Eastern countries, including Iraq, Israel, Turkey, Egypt, Lebanon, and Iran. Furthermore, it will discuss how archaeology entered the political discourse, the ethics of repatriation and appropriation, and archaeology's role in contested terrains and political disputes.

Class Format: This tutorial can be taken entirely Remote. On campus students may request in-person tutorial sessions, pending the agreement of other students and the availability of appropriate rooms.

Requirements/Evaluation: Format: tutorial. Requirements: 5-7 page essays or 2-3 response papers due each week

Prerequisites: None, though a demonstrated interest in the Middle East is important.

Enrollment Limit: 10

Enrollment Preferences: Seniors and to History and Arabic Studies majors.

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 489 (D2) ARAB 408 (D2)

Writing Skills Notes: As a tutorial, students will receive extensive feedback on their writing each week both from the professor and their partner. Further, students will be given the opportunity to rewrite two of their papers in light of the criticism that they receive during the semester.

Difference, Power, and Equity Notes: This is a tutorial on a particular form of power, namely how the powerful seek to control the past. The ultimate question that this tutorial seeks to answer is: who owns the past? Which history is emphasized and which histories are overlooked? How do modern nation states in different Middle Eastern states cherry-pick the past in order to maintain and develop a national narrative that is suitable to the political and economic powers often at the expense of religious or linguistic minorities.

ARAB 411  (F)  Happy Holidays! A Comparative History of Commemorations and Festivals

Cross-listings:  REL 321  HIST 411  ARAB 411

Secondary Cross-listing

What do our holidays tell us about ourselves and our societies? This seminar in religious, political and cultural history is in two parts. In the first half, we will explore the major holidays and festivals that emerged in the Middle East among the three monotheistic religions (Judaism, Christianity, and Islam). It will examine how certain events became ritualized and then spread to different parts of the globe and were adapted to specific cultural situations. We will consider the role of myth and commemoration and how various religious holidays are celebrated in different ways around the world. The second part of the seminar focuses on secular holidays with particular attention to the Modern Middle East. Which events are commemorated and how and what are the political implications of these celebrations?

Requirements/Evaluation:  several short response papers and a 20- to 25-page final paper

ARAB 412  Advanced Readings in Contemporary Arabic Literature

This course, taught in Arabic, aims at providing students with a deeper understanding of contemporary Arab literature. By navigating different literary moments, foci and genres, the course will offer a panoramic view of the contemporary literary map of the region. While the course will focus on some mainstream writers such as the Egyptian Naguib Mahfouz and the Sudanese Tayyib Salih, it will also feature stateless and non-canonical writers such as Alaa Al-Sarky and young poets using ‘amiyya’ or colloquial Arabic as their main tool of expression. We will read short stories, excerpts from novels, literary critiques, interviews with authors, examples of classical and lyrical poetry, as well as watch a number of movies based on literary adaptations. Through examining representative literary texts from various parts of the Arab region, students will not only broaden their awareness of the socio-political and cultural dynamics emanating from these works, but will also improve their linguistic and stylistic knowledge of Arabic at more sophisticated levels.

Requirements/Evaluation: active participation in class, reading responses, presentations, blogs, quizzes, final paper

Prerequisites: ARAB 302 or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: Arabic Studies majors and certificate students

Expected Class Size: 10

ARAB 415  (S)  Examining the Arab Cultural Landscape: What does Arabic Media Actually Say  (DPE) (WS)

How does Arabic media represent the Arab landscape? This course will examine Arabic media as a window to the understanding of modern Arab though and culture. It will discuss how issues of political, historical, social, and economic significance in the Arab world are discussed, debated, and analyzed. Some issues include political and social freedoms, inter-Arab relations, national identity, recent revolts, gender identities, the Arabic language in a changing world, and technology in the age of globalization. The course will explore these issues as represented in the language of print, internet, television, movies, and social media, and we will employ linguistic and paralinguistic analysis of these resources.

Class Format: This course will involve two 75-minute sessions in addition to a weekly discussion session with the TA.

Requirements/Evaluation: active participation in class, daily assignments, blogs, quizzes, presentation, final project

Prerequisites: ARAB 302
ARAB 416  (S)  Arabic Short Stories: Societies, Cultural narratives & Literary aesthetics

In this course we will explore the literary languages of Arabic and as well as various political and socio-economic issues via a selection of short stories that hail from geographically diverse authors. Being attentive to detailed readings of the text, their context, and the environment within which the author composed the text in question, we will weave our way through these short stories, developing the four language skills in addition to cultural competency. Although the course will avoid the monolithic approach of reading these stories as a social document that is a reflection or mirror of their societies, and will be equally concerned with the aesthetics of the Arabic literary narratives, the socio-economic and political issues discussed in the stories will be of relevance to the broader realms of Middle Eastern studies writ large. Tradition vs. modernity, the individual in opposition to the state, and gender issues are just some of the themes that will be discussed. In addition to the short stories provided, the class will engage in complimentary activities and material, like links to open source online videos and articles to expand on our knowledge of specific Arabic cultural and sociological phenomena. In addition to enhancing students' listening, speaking, reading and writing skills, close, critical attention will be paid to deepening students' cultural competence.

Students are expected to give three presentations through the course of the semester, write weekly response papers in Arabic, participate in a collective project, and produce a final paper about a topic of their choosing in consultation with the instructor.

Requirements/Evaluation:  active participation, three presentations, collaborative project, final paper

Prerequisites:  ARAB 302 or permission of the Instructor

Enrollment Limit:  12

ARAB 420  (F)  Current Events from the Maghreb and the Middle East

Students in this course will engage with authentic materials from Arabic media, covering the Maghreb and the Middle East. Using original content from newspapers, magazines, websites, TV channels, podcasts, and specialized news outlets, the course will take students from intermediate high to advanced high level. Through their active engagement with the course materials, students will acquire a very diverse vocabulary, strengthen their mastery of Arabic grammar, and perform advanced linguistic skills in Modern Standard Arabic (MSA). Moreover, students in this course will be able to produce substantial narratives about complicated and abstract topics, argue for or against an idea, and discuss a variety of topics in MSA. In addition to enhancing students' listening, speaking, reading and writing skills, close, critical attention will be paid to deepening students' cultural competence.

Students are expected to give three presentations through the course of the semester, write weekly response papers in Arabic, participate in a collective project, and produce a final paper about a topic of their choosing in consultation with the instructor.

Requirements/Evaluation:  active participation, three presentations, collaborative project, final paper

Prerequisites:  ARAB 302 or permission of the Instructor

Enrollment Limit:  15
Enrollment Preferences: Arabic Studies majors and certificate students

Grading: no pass/fail option, no fifth course option
Distributions: (D1)
Not offered current academic year

ARAB 427  Revolutions & Revolutionaries in the Arab World's Modern History  (DPE) (WS)
What is the difference between a [Thawrah] (revolution), an ['Inqil'b Sha'ab'] (popular led-coup) and an ['Intif''ah] (uprising)? Was the 2011 "Arab Spring" the first time that people in the Arab world had revolted against their governments? Were the 1977 bread "riots" in Egypt an ['Intif''ah] or revolution that was quelled promptly? How does the 1958 coup in Iraq compare to the coup there five years later in 1963 or other coups across the Arab world? What were the role of the Amazigh in North Africa in rebelling against colonialism? In this course, we will be looking transnationally at the different revolutions, uprisings and coups that have taken place in the Arab world in its modern history. Through a variety of medium, the course will explore the socio-political and economic factors that resulted in these instances in history and the effects thereof. We will also be looking at the cultural production that flourished after revolutions, coups and uprisings from the blatantly propagandist to the nuanced and subversive! The course will be entirely in Arabic and aims to take participants from intermediate high to the advanced-mid/high level according to ACTFL standards. The course will be engaging with and developing, on a weekly basis all five language skills: reading, writing, listening, speaking and cultural proficiency and will focus on the language functions that are required at this level. This writing intensive course will consist of multiple forms of evaluation such as participation, debates, presentations, a mid-term video project and an end of year writing project.

Class Format: flipped classroom

Requirements/Evaluation: writing assignments, participation, debates, presentations, a mid-term video project, and an end of year writing project
Prerequisites: having done three years of Arabic language and preferably time abroad
Enrollment Limit: 10
Enrollment Preferences: seniors

ARAB 480  (F) Interpretations of the Israeli Palestinian Conflict  (DPE)

Cross-listings: ARAB 480  GBST 480  JWST 480  HIST 480

Secondary Cross-listing
This tutorial addresses the powerful, competing, and bitterly contested historical narratives that underpin the Israeli-Palestinian conflict. Both Israelis and Palestinians appeal to history to legitimize their territorial claims and to justify contemporary action. Special attention will be paid to the interpretations of key historical moments, especially the 1948 and 1967 wars, and on the contrasting views of some of the core issues of the conflict (Jerusalem, refugees, settlements, terrorism).

Requirements/Evaluation: 5- to 7-page essays or 2-page critiques due each week and a final report (3-4 pages) at the end of the semester
Prerequisites: none, though some academic experience with Middle East materials is preferred
Enrollment Limit: 10
Enrollment Preferences: History majors and Arabic Studies majors and Jewish Studies concentrators

- Carolyn J. Wargula, Visiting Assistant Professor of Art
- Stephanie J Williams, Arthur Levitt, Jr. ’52 Artist-in-Residence

The Department offers students different paths to explore the vital connection between visuality and creativity. With courses of study in the History of Art and the Practice of Studio Art (or a combination of History and Studio), the Major is designed to train students to develop the technical, conceptual, critical, and historical tools they need to engage the visual world.

ADVISING

Majors are expected to discuss their choice of courses and path through the major with their advisor or another professor in the department. Official departmental advisors for each route through the major (listed here below) are available to field general questions concerning curriculum, requirements, and planning to study away.

Art History Faculty Advisor: Guy Hedreen
Art Studio Faculty Advisor: Amy Podmore
ART HISTORY

The history of art is different from other historical disciplines in that it is founded on direct visual confrontation with objects that are both concretely present and yet documents of the past. We emphasize analysis of images, objects, and built environments as the basis for critical thought and visual literacy. In addition to formal and iconographic analysis, we use the work of other disciplines to understand visual images, such as social history, perceptual psychology, engineering, psychoanalysis, cultural studies, and archaeology. Because of its concentration on visual experience, the Art History major increases one’s ability to observe and to use those observations as analytical tools for understanding history and culture.

Major Requirements

The Art History major requires a minimum of nine courses:

Any three of the following six courses: ARTH 101, ARTH 102, ARTH 103, ARTH 104, ARTH 105 and ARTH 106

Any ARTS (studio) course.

Any two courses in Art History concerned with the following: one course in art history concerned with a period prior to 1800 and one course in art history concerned with post 1800.

ARTH 301 Methods of Art History

One 400-level Seminar or 500-level Graduate Seminar (in addition this course may be used to satisfy the pre-1800 or post-1800 requirement).

One additional course, at any level.

The faculty encourages students to construct a major with historical depth and cultural breadth. The numbered sequence of courses is intended to develop knowledge and skills appropriate to students’ level of experience, ultimately supporting original, independent work at the 400-level.

100-LEVEL COURSES require no experience in the subject. They are introductions to the field that develop students’ skills in visual analysis, interpretation, and written expression and argumentation.

200-LEVEL COURSES are introductions to specific fields within art history, but normally open to students with no experience in art history. Often, there is a significant lecture component to the courses.

300-LEVEL COURSES focus more closely on specific art-historical problems, or present material in a tutorial format. The goal of these courses is to build skills needed for independent research and sustained analytical writing. Generally, there is a higher expectation of student participation or initiative, and longer and/or more frequent writing assignments. In the 300 level, students learn to work with and evaluate different types of sources, research tools, historical perspectives, and methodological approaches.

400-LEVEL COURSES are intensive discussion-oriented seminars that emphasize critical analysis and build toward student-initiated, independent work (oral presentations and sustained, analytical research papers). Advanced majors who have taken ARTH 301 are encouraged to work at the 400 or 500 level, and papers produced in these courses are normally the basis for the senior thesis.

HISTORY AND STUDIO

This route offers students the opportunity to propose a course of study that investigates a particular medium or a particular issue bridging both wings of the department. Examples of past History and Studio projects include topics related to architecture, curating, and performance, but are not limited to these.

In many cases, it is better to choose an Art History or Studio Art route, taking additional courses in the other wing, as desired. The History and Studio route is offered as a third option and requires approval.

The application for the History and Studio route must include both a written statement and a list of proposed courses. It must be approved by an advisor from both Art History and Studio Art and be submitted to the department’s administrative assistant before registering for the major.

History and Studio students whose projects have a Studio emphasis have the opportunity to take the Senior Tutorial (ArtS 418) with permission of the instructor and to participate in the senior Studio exhibition. Those seniors with a History emphasis can apply to write a thesis and, if accepted, will be admitted to the required Winter Study and Senior Thesis Seminar (ArtH 494) which culminate in a thesis and thesis presentation. Or, a student may propose a senior independent study.

Major Requirements

The History and Studio major requires a minimum of nine courses:

Any TWO of the following six courses: ARTH 101, 102, 103, or 104, 105 or 106

ARTS 100-level course

ARTS 200-level course
THE DEGREE WITH HONORS IN ART

Students who wish to become candidates for the degree with honors must show prior evidence of superior performance in the major as well as research capabilities to carry out the proposed project.

Art History

To graduate with honors in art history, students are to enroll in the Senior Thesis Seminar (ARTH 494) during the Spring semester of their senior year, where they will develop an original research paper (completed in a prior course, a travel research project, or an independent study). To be admitted to the seminar, students must submit their original research paper to the Art Department's Administrative Assistant in Lawrence no later than the end of the reading period of the Fall semester. The paper must be properly formatted and include both illustrations and bibliography. It must additionally include a thesis project proposal of 500-700 words.

Students must also secure an academic advisor for their project and complete the advising Agreement Form (available from the Art Department’s Administrative Assistant) by the end of the reading period of the Fall semester. This form serves to verify: a) your advisor’s support of your project, and b) your advisor’s approval of your plans for Winter Study. Students should plan to dedicate Winter Study to work on their thesis project and, to this end, they should enroll in ARTH 31 immediately after (but not before) notification of admission into ARTH 494. (To avoid problems should they not be admitted to ARTH 494, students should pre-register in another Winter Study course). Because faculty are not usually available during this period, it is very important for students to plan, together with their advisors, a work schedule for Winter Study with concrete goals. Admission to the Senior Thesis Seminar will be determined by the instructor of the seminar, in consultation with the Art Department faculty. The important criteria for admission are: 1) the quality, originality, and potential of the research paper on which the thesis project will be based; 2) the availability of a suitable advisor for the project, and the commitment of that advisor to supervise the work during the Spring term; 3) strong past performance in the art history route to the Major; 4) completion of ARTH 301 by the time of the application (exceptions to this rule must be granted beforehand by the chair of the Department).

In early January, the instructor will notify students of their admission to the Thesis Seminar. Since enrollment is by invitation only, students should pre-register for four classes in the Spring semester. If invited to join the seminar, students should then drop one of those courses and add the Thesis Seminar during drop-add period. The Thesis Seminar is to be taken in addition to the nine required courses for the art history route to the Major. Once in the seminar, students will revise, refine, and expand on previous research and produce a paper of approximately 25 pages. At the end of the semester, they will present a shortened version of the paper to the faculty and public at the Williams College Museum of Art.

Students who have identified a thesis topic and secured an advisor may apply early (in the Spring semester of their junior year) in order to pursue—in relation to their thesis project—summer research opportunities and/or a faculty-sponsored independent study in the following Fall semester. The procedure and criteria for students applying early are the same as those outlined above. (That is, students applying early would likewise take the Winter Study and Spring courses). Materials for early application (the same as outlined above) would be due by 5:00 pm on the Thursday preceding Spring Break.

History and Studio

The route to honors is a combination of the art studio and art history routes to honors. At the beginning of senior year, a candidate for honors in History and Studio makes a proposal to two faculty members, one faculty advisor from each wing of the department. If both advisors agree to supervise the project, the candidate enrolls in an independent study and works through the Fall semester and Winter Study. The progress of the project is assessed by both advisors at the end of Winter Study; if the project is not well enough developed, the advisors may end it at that time. If the project is allowed to move forward, the student enrolls either in Senior Seminar (ARTS 418, for which they will need permission of the instructor), if the project is primarily a matter of making art, or in an Honors Independent Study, if it is primarily a writing project. The final project is submitted to the two advisors, who will determine whether or not it will receive honors.

STUDY ABROAD

The Art Department encourages students to travel during Winter Study, and to study abroad for a semester during the junior year. Students planning on studying abroad must: consult a departmental advisor, leave a copy of their Study Away Petition on file in the Department, and consider the required junior seminars (ARTH 301 and ARTS 319) that prepare students for the independent research and/or independent artistic production which is the focus of the senior year.
Art History

Art History majors must take ARTH 301 in their junior year unless they are planning to study abroad for a full year or unless there is only one section of 301 offered; in that case, they may take the required class in their senior year (and should consider taking the course as a second-semester sophomore). The Department does not pre-approve courses for the art history major, but will offer provisional credit for courses that appear to satisfy requirements for the major. Art history majors may satisfy no more than 3 requirements abroad (the ARTS requirement may be satisfied abroad only if the student is away for the full academic year. Student may not receive credit for 400-level work while abroad). Art history students should be aware that in many programs course selection is limited and is not known before one commits to the program. It may happen that none of the art history courses offered during the semester abroad satisfy distribution requirements for the major.

History and Studio

History and Studio majors must plan accordingly for their elected junior seminar. For art history courses taken abroad, history and Studio majors can seek provisional credit for courses that appear to satisfy requirements for the major. No provisional credit is possible for studio courses; students must submit their portfolios for review, and will receive credit only if the work completed abroad is deemed roughly equivalent in quality and quantity to coursework at the College (students should contact the Departmental advisor in studio for the portfolio review, and digital photographs are fine in the case that original work is not available). No more than 2 major requirements may be satisfied per semester while abroad (one in studio, one in history), with no more than 3 courses total. History and Studio majors cannot satisfy ARTS 319 or any 400-level courses abroad.

ARTH 101  (F)  Introduction to European Art Before 1700

Cross-listings:  ARTH 101  REL 105

Primary Cross-listing

A team-taught introduction to the art and architecture of Europe from the ancient Mediterranean to Baroque Italy. This course celebrates the glory of works of art as physical objects, to be viewed and contemplated, to be sure, but also often to be worshiped, worn, touched (even licked), held, exhibited, bought and sold, passed through or around, and lived in. To help students begin to appreciate how these works of art might have been understood by those who originally made and used them, the course sets its objects of study within a number of revealing historical contexts, from the social and the political to the philosophical and the art historical. To give students time with works of art, our discussion-centered conferences use the wealth of art resources in Williamstown: the Clark Art Institute, the buildings and sculpture of the Williams College Campus, and the Williams College Museum of Art.

Class Format:  This course has 2 components: lectures and conferences. The lectures will be twice weekly, asynchronous, and recorded. Conferences are once per week and synchronous (these small discussions of 5 students each will be taught in person for students in residence, and via Zoom for students enrolled remotely).

Requirements/Evaluation:  Three shorter essays, quizzes, engaged participation in conference sections

Prerequisites:  none

Enrollment Limit:  30

Enrollment Preferences:  none

Expected Class Size:  30

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 101 (D1) REL 105 (D2)

Fall 2020

LEC Section: H1  MW 12:00 pm - 12:50 pm  Peter D. Low,  Stefanie Solum
CON Section: R4  T 1:30 pm - 2:45 pm  Stefanie Solum
ARTH 102  (S)  Art and Architecture from the Age of Enlightenment to the Present
A semester-long, team-taught introduction to European and American art & architecture from approximately 1600 to the present. Students will learn how to analyze art made for the widest variety of purposes, from inspiration and contemplation to commemoration and condemnation. We will look at some of this era’s most deeply moving art, including works by Rembrandt and Maya Lin, Bernini and Frank Lloyd Wright, Van Gogh and Kehinde Wiley. To the extent that we are able, we will also spend time with original works and familiarize ourselves with the wealth of resources in Williamstown: the Williams College Museum of Art, the Clark Art Institute, and the Chapin Rare Book Library.

Class Format: discussion
Requirements/Evaluation: quizzes, midterm, two papers and a final exam
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: art history majors
Expected Class Size: 30
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)

CON Section: R4  T 1:30 pm - 2:45 pm
CON Section: R7  R 1:30 pm - 2:45 pm

ARTH 103  (F)  East Asian Art  (DPE)
Cross-listings: ASST 103  ARTH 103

Primary Cross-listing
This course is an introduction to the history of East Asian art from prehistory to the present with particular emphasis on China, Korea, and Japan. Through four thematic units (memorialization, religion, nature, and identity), we look at artworks in their original contexts and consider how cross-cultural exchanges stimulated new interpretations across time and space. We examine a broad range of objects including ritual bronze vessels, Buddhist temples, landscape paintings, woodblock prints, and installations. We also discuss these artworks in relation to other forms of creative expression such as ritual practice, performance, and literature. How is East Asia defined geographically and culturally? How did the exchange in ideas, trade, and travel impact the formation of East Asian art? How do artworks and artifacts help us understand East Asia's past? These fundamental questions guide our discussion. Through this course, students learn to think critically about shared and diverse human experiences across cultures and historical periods. Students also reflect on historiographical issues surrounding East Asian art and analyze why certain types of artworks were historically underrepresented in museum spaces and academic scholarship. To contribute to public knowledge, students will also develop and edit a Wikipedia page on an artwork or artist of their choice. Visits to the Williams College Museum of Art and Special Collections also form an integral part of the course.

Class Format: Some classes may be conducted at WCMA; course content will be delivered asynchronously; interactive activities will take place in synchronous sessions
Requirements/Evaluation: Class participation, open-book midterm and final exam, 4 object or reading response papers (2-3 pages in length), key work presentation (5-7 minutes long), Wikipedia page editing project and presentation (5-7 minutes long)
Prerequisites: none
Enrollment Limit: 30
**Enrollment Preferences:** Open to all students regardless of major

**Expected Class Size:** 30

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARS 103 (D1) ARTH 103 (D1)

**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity requirement by investigating the ways that migration and cross-cultural exchange shaped artistic developments in East Asia. Students will reflect on the cultural production of diverse peoples and traditions within this geographical region and confront the ways in which historical legacies of imperialism and colonialism continue to shape international relations.

Fall 2020

LEC Section: H1 WF 1:30 pm - 2:45 pm Carolyn J. Wargula

**ARTH 104 (F) Materials, Meanings, and Messages in the Arts of Africa (DPE)**

**Cross-listings:** ARTH 104 AFR 105

**Primary Cross-listing**

This course introduces students to the wealth, power, and diversity of expressive forms that have characterized the arts of Africa and its Diaspora from prehistory to the present. Pulling extensively from the collections at the Williams College Museum of Art and other campus resources, students will not only experience firsthand the wide array of objects that have been produced within this vast geography, but will also come to recognize how multiple senses including sight, sound, smell, and touch play a key role in understanding how these objects work within their respective contexts. As tools of political control, social protest, divine manifestation, and spiritual intervention, these objects and their associated performances also challenge what we might typically consider art in the Western tradition and as such students will be pushed to think beyond such terms in their examinations of these rich creative traditions.

**Requirements/Evaluation:** weekly WCMA object lab reports, weekly reading discussion GLOW posts, bi-monthly quizzes (7 total), two reading response papers (3 pages each)

**Prerequisites:** none

**Enrollment Limit:** 40

**Enrollment Preferences:** Art History and African Studies majors

**Expected Class Size:** 40

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 104 (D1) AFR 105 (D2)

**Difference, Power, and Equity Notes:** This course fulfills DPE requirements through its exploration of the differences between concepts of art in African and Western traditions, and how this difference has formed the foundation for hierarchies of power within the art world that have long disenfranchised and disempowered artists from the continent. This course highlights this historical platform in order to renovate established biases and assumptions about these objects that position them as 'primitive' or 'exotic' constructs.

Not offered current academic year

**ARTH 105 (S) Arts of South Asia (DPE)**

**Cross-listings:** ASST 107 ARTH 105

**Primary Cross-listing**

South Asia, which includes the modern-day nations of Afghanistan, Pakistan, India, Bangladesh, Sri Lanka, Nepal, Bhutan and Maldives, is often compared to the European continent. Regional societies in the Indian "subcontinent" are as distinct from each other as those of Italy, Germany and France. Similarly, they also differ in their language, dress, diet, rituals and politics. However, parallel to the wealth of diversity, South Asia also demonstrates a rich history of interconnectedness. This complex web of culture, language, religion and politics is best manifested in the arts of the
region. How does visual culture reflect regional variations? How does a survey of artistic style and iconography help uncover networks of exchange across South Asia? What role did the arts play in the expression of religious traditions such as Buddhism, Hinduism, Jainism and Islam? With these questions in mind, this course is designed as a survey of the arts of South Asia starting with the height of the Indus Valley Civilization in 2600 BCE and ending in 1857 CE, a date that marks the cessation of independent rule in South Asia. Using the study of architecture, painting, sculpture and textiles, students will learn how to make stylistic and iconographic analyses, while also improving their art historical writing and analytic skills.

**Requirements/Evaluation:** Weekly reading discussion GLOW posts. Two short quizzes. Mid-term. Final exam

**Prerequisites:** none, open to all students

**Enrollment Limit:** 25

**Enrollment Preferences:** First years, sophomores and juniors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ASST 107 (D1) ARTH 105 (D1)

**Difference, Power, and Equity Notes:** In addition to a survey, the course also highlights the conceptual differences between the arts of South Asia and Western constructs of art and culture. The survey will analyze how South Asian art was codified and examined during the colonial and post-colonial periods, and how that understanding has come to define the field over the last century. The course will encourage students to challenge longstanding biases and assumptions when studying these artworks.

Spring 2021

LEC Section: R1    MW 10:00 am - 11:15 am    Murad K. Mumtaz

**ARTH 106 (S) An Invitation to World Architecture**  (DPE)

What is architecture? Built form? Object? Space? How do we think about architecture as we move around, within, and through it? What can architecture tell us not only about material, design, and engineering, but also about the individuals, groups, and communities who make it? These inquiries provide the starting points for thinking about what architecture means as concept, space, and practice, and how it affects the ways in which human beings experience the world. As the primary mode through which we organize our lived reality, architecture not only channels human behavior into specific repertoires of action and reaction but also symbolizes beliefs, value systems, and ideas about the self, gender, nation, race/ethnicity, community, life, death, and the transcendent. Such themes, thus, constitute the critical lenses that students will use over the course of the semester to unpack how structural form has and continues to define the human condition in the broadest sense. Drawing from a variety of texts and examples that emphasize the diversity and complexity of architectonic traditions around the world, this course will analyze how individuals have employed architectural strategies to solve the problems of living within diverse contexts and how such spaces not only provide meaning in everyday life but also actively and dynamically order the world as space, object, environment, text, process, and symbol.

**Class Format:** Remote

**Requirements/Evaluation:** weekly discussion question submissions on GLOW, weekly written responses to class prompts, 1 individual presentation per student, group class projects

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** First / second years and senior art majors who need a 100-level course to fulfill their major requirements

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills DPE requirements in two ways. First, it unsettles established presuppositions, biases, and predispositions that have positioned the "West" as "best" in canons of architectural history. Secondly, it explores how architecture - past and present - communicates, supports, and/or resists hierarchies of power and socio-political influence in society by acting as modes of propaganda, tools of imperialism, sites of resistance, and/or spaces of affirmation.
**ARTH 203  (S)  Chicana/o/x Film and Video**

**Cross-listings:** AMST 205  WGSS 203  LATS 203  ARTH 203

**Secondary Cross-listing**

Hollywood cinema has long been fascinated with the border between the United States and Mexico. This course will examine representations of the U.S.-Mexico border, Mexican Americans, and Chicanxs in both Hollywood film and independent media. We will consider how positions on nationalism, race, gender, identity, migration, and history are represented and negotiated through film. We will begin by analyzing Hollywood "border" and gang films before approaching Chicana/o/x-produced features, independent narratives, and experimental work. This course will explore issues of film and ideology, genre and representation, nationalist resistance and feminist critiques, queer theory and the performative aspects of identity. Through a focus on Chicana/o/x representation, the course explores a wide spectrum of film history (from the silent era to the present) and considers numerous genres.

**Class Format:** Remote. Discussion-oriented lecture class. The course will feature synchronous online class meetings. In addition to class meetings and readings, students will be expected to watch 3-5 hours of film per week on GLOW or in the library.

**Requirements/Evaluation:** one short paper, mid-term exam, final exam and take home essays

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Art majors; LATS concentrators

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 205 (D2) WGSS 203 (D2) LATS 203 (D2) ARTH 203 (D1)

---

**ARTH 204  (F)  Historical Research in Dance and Performance Studies**

**Cross-listings:** ARTH 204  DANC 103

**Secondary Cross-listing**

This course is an introduction to the historical context of dance forms prevalent in the US and analysis of movement-based performances. While readings and viewings will focus on the socio-historical background of dance genres practiced at Williams and beyond, an important element of the course will be the practice of documenting, interpreting, and writing about performances as historical and cultural mediums. The course will enable students interested in dance, theatrical and visual arts (including advertising and marketing) to hone their skills in the practice of analyzing still and moving images, while also offering students of history and art history the opportunity to develop competency in historical research. This is primarily a discussion-based seminar course. Learning objectives: to understand the social and political contexts for various performance genres; to explore interdisciplinary and embodied modes of engaging with movement; to develop the ability to document, analyze, and write about dance as a historical and cultural text.

**Class Format:** This class will be held remotely and will include a combination of tutorial-like small group meetings, periodic synchronous sessions, and asynchronous work such as Glow posts or recorded lectures.

**Requirements/Evaluation:** short weekly assignments, two 5-7 page essays, two group presentations.

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** first-years and sophomores

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option
This course introduces students to Buddhist art and architecture in Japan from its introduction in the sixth century through the present. We focus on the ways different communities—of the imperial court, immigrant artists, monks, women, and commoners—employed and venerated Buddhist images for political legitimacy, personal salvation, and worldly benefit. This course also examines how Japanese Buddhist imagery became aestheticized in the early twentieth century and appropriated later in modern and contemporary visual cultures. Some of the topics to be discussed include the reception of continental styles of Buddhist bronze sculpture, the relationship between mandalas and rituals, the role of women in developing Buddhist embroideries, and the Western reappraisal of Zen arts. Students will develop familiarity with the concepts and ideas underlying the production of Buddhist images and will gain foundational skills in analyzing the visual, material, and iconographic qualities of Japanese Buddhist art. For the final project, students will design a digital exhibition focused around one of the topics of the course.

Requirements/Evaluation: Class participation, 4 reading and object response papers (2-3 pages), and digital exhibition project (8-10-page proposal written in stages over the semester including a 10-minute presentation)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First- and second-year students, but open to all

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 205 (D1) REL 213 (D2) ARTH 205 (D1)

Spring 2021

LEC Section: H1 WF 1:30 pm - 2:45 pm Carolyn J. Wargula

This tutorial provides a focused study of the politics / poetics of visualization and identification associated with film and cinema about Africa from past to present. From colonial-era propaganda newsreels about Africa’s ‘fighting men’ to contemporary white-savior narratives that exploit current socio-political ruptures on the continent for epic effect, films about Africa produced by a primarily Western cinematic regime have proven themselves to be highly effective apparatuses for framing “Africa” as a concept to be summoned time and time again to tell different stories for different audiences, and in doing so privilege particular viewpoints and imaginaries. This tutorial will provide a space for robust discussion and debate about the various representative tropes, conceptualizations, and visualizations that have been used to shape the contours of “Africa” as understood by a primarily Western audience from past to present, and how these same tropes in many ways have come to define the nature of the relationship between film / cinema and the continent over the history of their engagement. In doing so, it will also address how strategic displays and narratives deployed by cinematic productions often support specific power dynamics that locate an idea of “Africa” within paradigms of specific cultural and political understanding. In zeroing in on how such films promote targeted realities for people and places within the continent, this tutorial will address how “Africa” in Western film and cinematic traditions is positioned within a particular framework of understanding that is more often than not irrevocably tethered to a Western imaginary.
Class Format: This tutorial will be predominantly remote, with student pairs meeting with the instructor on a weekly basis via Google hangouts. There may be options for in-person events as the semester progresses, but this is to be determined.

Requirements/Evaluation: targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Art History majors and seniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 207 (D1) AFR 207 (D2)

Writing Skills Notes: This course fulfills Writing Skills requirements through its focus on the development of writing proficiency in terms of writing mechanics, syntax, and organization. It is also designed to help students craft a general approach to formulating a well-articulated, compelling argument. Students will receive extensive feedback on bi-monthly writing assignments from both the instructor and their peers as well as a comprehensive mid-semester critique from the instructor.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through its exploration of issues of 'authentic' representation as they have been applied to representations of "Africa" displayed within the contexts of Western film and cinema. Through discussions of cultural capital and the politics of representation, students analyze how a general African 'identity' has been dictated by Western film culture and how this hegemony is currently being disrupted by an emergent generation of African artists and filmmakers.

Fall 2020

TUT Section: RT1 TBA Michelle M. Apotsos

ARTH 209 (S) The Art and Archeology of Maya Civilization

Cross-listings: ANTH 219 ARTH 209

Secondary Cross-listing

The ancient Maya civilization was one of the most sophisticated and complex cultures of prehispanic Central America. Its complex calendrics, astronomy, mathematics, art and hieroglyphic writing system are celebrated worldwide. The course will examine the trajectory and nature of ancient Maya civilization from the combined perspectives of archaeology and art history. The origins and evolution of the Maya states during the Preclassic period (1000 B.C. - A.D. 250) will be explored through the rich archaeological remains and Preclassic art styles. The Classic Maya civilization (A.D. 250-1000) will then be presented through a detailed survey of the archaeology, art and hieroglyphic texts of this period. Finally, the collapse of Classic Maya civilization and its transformation and endurance during the Postclassic period and under early Spanish rule (A.D. 1000-1600) will be critically evaluated through a review of the archaeological, iconographic, and ethnohistorical evidence.

Class Format: lecture/discussion

Requirements/Evaluation: midterm and final exams, hieroglyphic project, 15pp research paper

Prerequisites: none, but an introductory ARTH or ANTH course recommended

Enrollment Limit: none

Enrollment Preferences: Anthropology/Sociology and Art History majors

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 219 (D2) ARTH 209 (D1)

Spring 2021

LEC Section: H1 TF 1:30 pm - 2:45 pm Antonia E. Foias
This course introduces students to the breadth and richness of the visual arts in Latin American and U.S. Latina/o art. The course begins in the late 19th and early 20th centuries, when artists and writers first began formulating the notion of an art “native” to Latin America, and continues through the ever-expanding cultural expressions developed throughout the 20th and 21st centuries. Through a contextual approach, we will pay particular attention to Latin American artists' shifting relationships to race, class, and gender issues, their affiliations with political and revolutionary ideals, and their critical stance vis-à-vis the European avant-gardes. Similarly, we will analyze the emergence and development of Latina/o artistic practices in the postwar U.S., tracing these artists' own exploration of race, class, and gender dynamics. This class introduces Latin American and Latina/o artistic practices and scholarship to enable students to develop a critical understanding of the historical specificity of diverse movements, their relation to canonical definitions of modern and contemporary art, and their relevance to issues of colonialism, nationalism, revolutionary politics, and globalization. We will consider a vast array of genres--from painting and sculpture to printmaking, photography, conceptual, installation, and performance art--and will draw from artist statements, manifestos, and secondary interpretive texts to consider both the impetus behind these dynamic artworks and their lasting legacies.

**Requirements/Evaluation:** midterm exam and non-cumulative final exam, weekly short reading responses, attendance, and active participation

**Prerequisites:** none

**Enrollment Limit:** 30

**Expected Class Size:** 25

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills DPE requirements through historical, visual, and thematic analyses that explore the cultural biases and geopolitical forces that have restricted the exposure of Latin American and Latina/o art in the canon of Western art history. The course also centers on contextualizing Latin American and Latina/o artistic practices and analyzing them in relation to race, gender, and class dynamics, and to issues of colonialism, nationalism, revolutionary politics, and globalization.

**ARTH 211 (F) Art and Experience in Ancient Rome**

**Cross-listings:** ARTH 210 ARTH 211 CLAS 210

**Secondary Cross-listing**

To see and be seen--it could be argued that this was the very definition of Roman culture. Much like today, spectacle and the dissemination of images lay at the heart of political and social life. The visual arts were crucial both to how the Romans rehearsed their identity and goals as a community, and to how individual Romans communicated their achievements and values. In this course, lectures on the art and architecture of ancient Rome (ca. 300 B.C.-A.D. 400) will provide the backdrop for an investigation into the role visual culture played in the lives of all Romans, including slaves and former slaves, women and children. Special topics will include the funeral and funerary portraiture; the military triumph and monuments of victory; the house as a site of memory; the use of images on coins; participation in religious celebrations; displays of war booty and prisoners of war; experience and audience at the racetrack and in the amphitheater; the spectacle of food and dining; and the Roman street as both contested space and a place for art. Readings will include a combination of primary and secondary sources. All readings are in translation.

**Requirements/Evaluation:** attendance and preparation, a mid-term, a final, and a medium-length paper

**Prerequisites:** none

**Enrollment Limit:** none

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 212  (S)  Distant Encounters: East Meets West in the Art of the European Middle Ages  (WS)

Cross-listings:  ARTH 212  REL 210  ARAB 212

Primary Cross-listing

In this tutorial, students will investigate the rich artistic consequences -- in architecture, manuscript illumination, mosaic, sculpture, panel painting, fresco, metalwork, and other minor arts -- of European contact with the Eastern Mediterranean between approximately 300 and 1450 CE. From the beginnings of Christianity, pilgrims from Europe made the long journey to sacred sites in the Holy Land (extending across parts of present-day Egypt, Israel, Syria, and Turkey). When these sites became less accessible with the spread of Islam in the seventh century, Europeans sought to recreate the sites at home. Later, from 1095 onward, Christian Europeans attempted to reclaim and hold the Holy Land from non-Christians by force, through an ill-fated series of five major and several lesser "crusades." Over the centuries, before, during, and after the Crusades, exposure to the peoples, ideas, and cultures of the Eastern Mediterranean also came through trade and through the travel and settlement of non-Europeans in Europe itself, particularly in Spain, Sicily, and Venice. Together, through open discussion, we will explore artistic production within each of these different cross-cultural contexts of East-West encounter. In the process, we will reflect on how art could function as a conduit for the exchange of ideas in the Middle Ages, and how it could be used both to negotiate and to intensify cultural difference.

Requirements/Evaluation: participation in discussion; five 5-7-page tutorial papers (one of which will be revised as a final writing assignment); five 1-2-page response papers

Prerequisites: none

Enrollment Limit:  10

Enrollment Preferences: First- and second-year students, but open to all

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 212 (D1) REL 210 (D1) ARAB 212 (D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

Not offered current academic year

ARTH 213  (S)  The Human Figure in the Ancient Mediterranean

Cross-listings:  ARTH 213  CLAS 213

Primary Cross-listing

From the earliest representations in the third millennium BCE until the end of the Roman period in the fifth century CE the human body remained the foremost choice of subject for artists, patrons, critics, and the public in the ancient Mediterranean world. This course will consider cultural ideas about the body in antiquity, and trace their repercussions in the modern era. Over the course of the semester we will concentrate on 12 case studies, each representing a specific concept from an area of the Mediterranean. Topics include the "shining bodies" of bare-chested potentates in Egypt and the ancient Near East, statues that give the dead voice, the perfection and humanity of the bodies of the gods, ancient Greek science and the nude goddess, the pathos of Hellenistic athletes, and the interpretative challenge of the ambiguous and sensuous marble forms of the Barberini Faun or the Sleeping Hermaphrodite, both found in Roman contexts. We'll consider the cross-influences of ideas about gender, class, race and the body coded in public and private art. Reading material will include ancient literature in translation as well as contemporary critical essays. Evaluation will be based on participation in discussion and group presentations, in-class writing assignments, short response papers, and a final 8-page research paper. Engaged library research of original paper topics will be supported throughout the semester.

Requirements/Evaluation: participation in discussion and group presentations, in-class writing assignments, short response papers, a final 8-page research paper.

Prerequisites: none

Enrollment Limit:  19

Enrollment Preferences: open to any student, majors and non-majors, with interests in the ancient world; no experience with art history required; first-years and sophomores are encouraged

Expected Class Size: 12
This course provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 5-7-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

ARTH 220 (F) Sacred Spaces of Islam

A clean place oriented towards Mecca is enough for daily prayer, but the communal practices of Islam are myriad and they often transpire in more formal architectural settings. These structures range from traditional columned halls of brick and timber to modernist ensembles of reinforced concrete and plate glass; monuments may be open to the elements, flat-roofed or domed; surfaces may be enhanced with carved marble, inlaid wood, glazed tile and other beautifying elements.

Class Format: discussion
**Requirements/Evaluation:** midterm, final, term project

**Prerequisites:** none

**ARTH 221 (F) History of Photography**

**Cross-listings:** ARTH 221 STS 221

**Primary Cross-listing**

This lecture course will examine the history of photography from its beginnings in the 1830s to the present, from the first grainy black and white images to the work of contemporary artists using cutting-edge photographic technologies. We will examine photographs used for documentary, scientific, and aesthetic purposes, and we will trace the medium’s emergence and acceptance as a fine art. We will also explore photography’s physical and conceptual characteristics as a medium, paying particular attention to its uniquely intimate and frequently contested relationship to “the real.” By the end of the course, students will have a broad understanding of photography as a unique medium within the history of art and knowledge of the theoretical frameworks that developed alongside that history.

**Requirements/Evaluation:** three to four short papers, quizzes, online presentations.

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** art history majors

**Expected Class Size:** 14

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1)

**ARTH 222 (S) Photography in/of the Middle East  (DPE)**

**Cross-listings:** ARTH 222 ARAB 222

**Primary Cross-listing**

Photography has been globally disseminated and locally inflected since its invention. In the Middle East, the powers and pleasures of the medium have been valued by colonial forces, indigenous populations, photojournalists and artists; the resulting images merit aesthetic and art historical appreciation even as they grant visual access to the social and political dynamics operative in diverse cultural contexts. We will explore photographic practices in various zones of the Middle East--e.g., the Holy Land, Turkey, Egypt and the Persian sphere--by attending to individual photographers and case studies. This tightly focused approach will support, in turn, a consideration of the agency and power of images more generally--what work do photographs do? Who resists and who benefits? The goal will be to appreciate diverse styles and perspectives that underlie renderings of the Middle East.

**Class Format:** discussion

**Requirements/Evaluation:** midterm, Glow posts, term project

**Prerequisites:** none

**Enrollment Limit:** none

**Enrollment Preferences:** none

**Expected Class Size:** 15-20
**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 222 (D1) ARAB 222 (D1)

**Difference, Power, and Equity Notes:** Photographs are tricky. Whose experiences and values do they really represent—those who are depicted? Those who wield the camera? Or, those who view images that are so easily reproduced and widely shared? How does identity figure? Religious conviction? Political affiliation? And how are these variables encoded in the material evidence? Appreciating the myriad powers of images requires multiple skills—from close-looking to interdisciplinary analysis—useful in contemporary visual culture.

**Not offered current academic year**

**ARTH 223 (S) Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora**

**Cross-listings:** ENGL 356 AFR 323 AMST 323 ARTH 223 COMP 322

**Secondary Cross-listing**

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as the late Congressman John Lewis' *March* and Ebony Flowers' *Hot Comb*, this course illustrates and critiques multiple ways the graphic novel commingles word and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels with the help of critical essays, reviews and film; the chosen texts will center on Africana cultures, prompting students to consider how the graphic novel may act as a useful alternate history for marginalized peoples. During the course, students will build comic creation and analysis skills through short exercises, eventually building up to the final project of a graphic short story that illustrates historical and/or autobiographical narratives. No art experience is required, only an openness to expanding one's visual awareness and composition skills. This course is often taught in collaboration with the Williams College Museum of Art's Object Lab program, which allows the class to have its own space and art objects that are directly related to the course topic. Although it is a remote course this year, this class may still feature Object Lab participation, film screenings, and collaborations with guest speakers.

**Class Format:** This is a remote class that will primarily feature synchronous sessions with some asynchronous sessions.

**Requirements/Evaluation:** class participation, written responses, student-led facilitation, one 3-page graphic analysis, one 6- to 8-page essay, and a final project (producing a graphic short story)

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** If the enrollment limit is exceeded, preference will be given to Africana Studies concentrators or students who have taken AFR 200, the department's introductory course.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** this course is part of the Gaudino Danger Initiative

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

**ARTH 228 (S) Velázquez, Goya, and Picasso**

**Cross-listings:** ARTH 228 RLSP 228

**Secondary Cross-listing**

This course will provide an introduction to three major Spanish painters—Velázquez, Goya, and Picasso—who lived and worked, respectively, in the 17th, 18th, 19th and 20th centuries. Though these painters are world famous, they are rarely studied comparatively, and in the context of their Spanish artistic roots. The syllabus will cover the historical and social contexts in which they started working, and how they followed, and departed from, artistic conventions of the time. Through specific paintings, we will consider the historical evolution of the artists' relationship to their patrons and subjects,
from the elite status of Velázquez within the royal court, to Goya's dramatic rise with the reigns of Charles III, and Charles IV, and his subsequent exile to France. Picasso was free of royal patronage and also lived in France, yet despite this freedom he remained deeply connected to the themes and concerns of his Spanish artistic predecessors. In addition to key paintings including Velázquez's "Las Meninas" and other royal portraits, Goya's "Maja Desnuda" and his series "The Disasters of War," Picasso's "Guernica," and his own 20th century reinterpretation of "Las Meninas," we will focus on the artists' shared subjects of portraits and war, and consider the following issues: How does the role of the Spanish artist change over the periods covered? How did the artist exercise his freedom whilst under the scrutiny of the court and the Catholic Church? How were these painters' lives and work shaped by key historical events such as the Inquisition, Napoleon's invasion of Spain, or the Spanish Civil War? How does the work of art evolve in its role from private royal commission to public display in museums open to all? We will read short literary pieces from each period, primary materials such as letters and other documents, and historical and critical works. All readings will be in English. Knowledge of Spanish is encouraged, but not required.

**Requirements/Evaluation:** 3- to 5-page weekly assignment

**Prerequisites:** none

**ARTH 230 (F) From Alexander to Cleopatra: Remodeling the Mediterranean World**

**Cross-listings:** CLAS 230  ARTH 230

**Secondary Cross-listing**

The period between Alexander the Great (323 B.C.) and Cleopatra (30 B.C.), like our own, was characterized by internationalism, migration, wide-ranging cultural values and religious practices, and ethnically diverse urban populations. Large numbers of non-Greeks came under the control of newly established Hellenistic kingdoms, while in the west Rome's emergence as a superpower offered both new opportunity and danger. The Hellenistic world was a place of vibrant change in the spheres of art, architecture, urban planning, and public spectacle. In this course, we will consider the art and archaeology of this period in their political, social, and religious contexts, focusing on the visual language of power and royalty; developments in painting, sculpture, mosaics, and monumental architecture; interactions between Greeks and non-Greeks; and the impact of Greek culture in Rome.

**Requirements/Evaluation:** class participation, quizzes, midterm, final exam, and one medium-length paper

**Prerequisites:** none

**Enrollment Limit:** 40

**Enrollment Preferences:** students with an interest in the ancient Mediterranean world and in the history of western art and architecture

**Expected Class Size:** 35

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

---

**ARTH 231 (S) Art, Life, and Death: Locating Women in Italian Renaissance Art (WS)**

**Cross-listings:** ARTH 231  WGSS 231

**Primary Cross-listing**
Renaissance art is the stuff of blockbuster museum exhibitions, mass tourist pilgrimage, and record auction prices. From our modern vantage point, the cultural accomplishment of the 15th and 16th centuries in Italy clearly has the ability to astound. Calling to mind the inimitable imagination of Botticelli, the scientific genius of Leonardo, or the superhuman creativity of Michelangelo brings into focus an inspiring narrative of individual accomplishment, innovation, and progress (ideals we easily understand and may well share). This is an important story we still tell of human achievement. This tutorial explores a critical question: where are the women in this narrative? Women were not typically artists, so how might we bring their roles, force, and power into focus? To do this, we will turn away from the grand historical narrative we so easily recognize and enter a more foreign world: a realm of everyday experience in which art—never created for its own sake—was powerful, and mattered to people. Art shaped realities and mediated the fundamental questions of life and death, from power, sexuality, love, desire, and self-definition, to mortality and communion with divinity. When we approach Renaissance art on its own terms, our picture expands to include women, their lives, and what they themselves wanted to see. In addition to secondary scholarship, we will pay close attention to primary sources (including images themselves), giving students ample change to forge original arguments: one of the central goals of the tutorial.

Class Format: some tutorial meetings will be conducted at local museums

Requirements/Evaluation: engaged reading and conversation; five 5-page tutorial papers (with revisions to one of these as final project); five 1- to 2-page responses to partner's tutorial papers

Prerequisites: first-year and sophomore students (this class is open to students with no experience in art history)

Enrollment Limit: 10

Enrollment Preferences: a statement of interest will be requested in the event the course is over-enrolled

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 231 (D1) WGSS 231 (D1)

Writing Skills Notes: This course's fundamental goal is to support opportunity and skills to construct compelling and original written arguments. Tutorial partners will share standards and guidelines for strong writing with instructor: common concepts and language for critique, discussion, and applause. We will consider the power of argument inextricable from the quality of writing, and thus address writing issues, strategies, and successes in a deep way, organically and consistently, in every tutorial meeting.

Not offered current academic year

ARTH 232 (S) Renaissance Rome: Renovating the Eternal City

George Eliot called Rome "the city of visible history," a place with the power to bring "the past of a whole hemisphere" right before our eyes. The magnetic visual power of Rome did not just occur naturally, however; it is a product of a bold urban project first envisioned by Renaissance popes and brought into being by the artists and architects they hired. During the fifteenth and sixteenth centuries, Rome was transformed from a shrinking and neglected medieval town into a thriving center of artistic energy and invention. Beginning with the papacy's return to the city in 1417, we will focus on the historical, ideological, and artistic forces behind this period of renovation and restoration that reshaped the urban and artistic fabric of the city. We will study the particularly Roman foundations for the period known as the High Renaissance, then, approaching art historical touchstones by Michelangelo, Raphael, and Bramante as works grounded in a uniquely Roman sense of time and historical destiny. We will conclude with a selective look at Baroque works by Caravaggio, Bernini and Borromini, examining their their powerful innovations and effects as a continuation of the Renaissance renovation of the eternal city.

Class Format: discussion

Requirements/Evaluation: ungraded mapping assignments and short written assignments, 7- to 10-page research paper, midterm and final examinations

Prerequisites: none; open to Art majors as well as non-majors

Enrollment Limit: 30

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year
ARTH 233 (S) Italian Renaissance Art

A survey of Italian art from Giotto to Michelangelo. This course will follow a chronological framework, giving students a grounding in the development of Italian art over the course of the 14th-16th centuries, but will also take a thematic approach that will allow us to delve into important art historical issues. Some, such as historical consciousness and the relationship to the past, or the reinvention of the idea of the artist and of art itself, will be important as we construct a critical understanding of the idea of “renaissance,” or “rebirth,” long central to the identity of the period. Others, such as gender, patronage, power, naturalism, and the materiality of objects, will bring us deep into the worlds in which these dazzling and still powerful works of art were originally created and experienced.

Class Format: The format of this hybrid course will depend upon student enrollment, but the goal is to have a robust in-person component. Class time will be a combination of lecture segments and seminar discussions, with a mid-semester interlude of tutorial-style meetings.

Requirements/Evaluation: 2 Quizzes, 2 Essays, Final Take-Home Exam

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: ARTH majors and students interested in the ARTH major

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

ARTH 237 (S) Making Things Visible: Adventures in Documentary Work

Cross-listings: SOC 236 AMST 236 ARTH 237 ENGL 237

Secondary Cross-listing

Photography, like ethnography, is an art of looking carefully and taking notice. This course will explore the overlaps between documentary photography and field methods of social science, concentrating particularly on the genre in which the two intersect: the photo essay. The students will learn methods of visual narrative and storytelling, using techniques of interviewing, still photography, and video. Concurrently, we will explore a number of examples of investigative work that blend word and image. We will ask questions about the changing practices and expectations associated with the documentarian’s role, and the evolving media in which such work can be presented. Lastly, we will discuss ethical questions that haunt documentary work, including issues of responsibility and politics of representation, as well as the perennial question of whether “objective representation” is even possible or desirable. Experience in photography and/or video is not required, but students will be expected to master basic technical skills in image acquisition and audio editing taught in a separate lab section. Students should also be prepared to interact extensively with people in the community and spend a significant time off campus doing fieldwork.

Requirements/Evaluation: full participation in discussions, weekly photographic assignments, a research journal, field materials, and an independent final project; in addition to substantial readings, students should be prepared to spend a significant time out of the classroom doing field work

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Anthropology and Sociology majors

ARTH 238 (S) Greek Art and the Gods
Cross-listings: ARTH 238  REL 216  CLAS 248

Primary Cross-listing

In the *Iliad*, when the god Apollo is visualized, it is as a man, angry in his heart, coming down from the peaks of Olympos, bow and quiver on his shoulders, the arrows clanging as the god moves, "like the coming of night," to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into metaphors in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address in detail influential artistic monuments, literary forms, and social phenomena, including the sculptures of Olympia and the Parthenon; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural functions of visual representations of gods, and the continued interest in the gods long after the end of antiquity. Readings assignments will include selections from Homer, Hesiod, Sappho, Aischylos, Euripides, Plato, Walter Burkert, Jean-Pierre Vernant, Nikolaus Himmelmann, Erika Simon, and Friedrich Nietzsche.

Class Format: discussion

Requirements/Evaluation: short writing assignments, midterm exam, final exam, final paper

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: preference will be given to pre-registered Art-History majors needing to fulfill the pre-1800 requirement; otherwise, the course is open to any interested student

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 238 (D1) REL 216 (D1) CLAS 248 (D1)

ARTH 239 (F) Social Media in the Nineteenth Century: Prints and Pictorial Persuasion (WS)

This tutorial surveys the public lives of printed pictures in Europe between 1789 and 1914. Though the history of print extends well beyond these chronological limits, the so-called "long nineteenth century" witnessed the invention of new printmaking technologies. Larger audiences could now stay abreast of the period's revolutions, wars, and breakthroughs both in science and in fashion. Designed for students who have no prior experience studying art history, the course will begin with an overview of printmaking techniques before moving on to focused case studies that include pornographic political engravings made during the French Revolution, etchings created by the Spanish artist Francisco de Goya, and the manipulation of self and space made possible by early photography. We will analyze how these works were produced in multiples, circulated by publishers and dealers, and consumed by viewers across Europe. Readings in cultural theory, intellectual history, the history of technology, and art history will help students develop their own interdisciplinary approach to the print. Together we will ask: what makes this medium social? How is cultural critique made visible? What can print cultures teach us about today's practices of engaging with images digitally?

Requirements/Evaluation: alternating weekly essays (4-5 pages) and responses (2 pages) as well as discussion; three group meetings in WCMA, the Clark, and Chapin Library

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: In this course, students will write a minimum of 20 pages broken up over several shorter analytical essays. Moreover, they will also write brief responses to their partners' essays in which they consider the craft of writing and composition. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year
ARTH 240 (F) Histories, Communities, and Collections
What can the College's collections of documents, artifacts, art objects, natural history specimens, and rare books—whether housed in the Special Collections of the Library, Archives, or at the Williams College Museum of Art (WCMA)—teach us about our institutional past? How do we put that past into dialogue with our present? Planned specifically to engage with the WCMA’s The Field is the World, an exhibition that investigates two invisible histories contained within collections here on campus, this course will approach the questions of histories, communities, and collections in two ways. First, in lectures we will survey the history of collecting in Europe and the United States from the eighteenth century up to critical reinterpretations by contemporary artists and consider how collecting was often tied to other endeavors like establishing national institutions, researching human variety, representing colonial expansion, or documenting missionary efforts. Second, in interactive sessions we will meet with curators, librarians, and guest speakers to look at objects first hand and to discuss the relationship between collecting and scholarship. Over the course of the semester we will examine the historical models of knowledge production and audience engendered by collections and their display. Moreover, we will work together to formulate new models of interpretation that address overlooked histories and engage with the current interests of our campus community.

Class Format: two 75-minute meetings per week; one in lecture format, the other in discussion format
Requirements/Evaluation: participation in interactive sessions, weekly written responses, one 3- to 4-page essay, one 8- to 10-page final project (proposal for an exhibition or a recontextualization)
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: for interactive sessions at WCMA and the Library space will be limited
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)
Not offered current academic year

ARTH 241 (F) Impressionism, Post-Impressionism, and Modernity
In 1874, an art critic mockingly termed Claude Monet’s painting of a sunrise over the sea “impressionist [...] more unfinished than wallpaper in an embryonic state.” With this phrase, he gave a name to a new style of painting that profoundly shaped the late nineteenth and early twentieth-century avant-garde movements in Europe and beyond. Beginning with the invention of photography in the early nineteenth century and ending with the advent of cinema, abstraction, and mechanized warfare in the first decades of the twentieth, this course will trace the origins and afterlives of “Impressionism” in art and cultural history. Many of the artists who continue to draw the largest crowds in museums around the world today—among them Manet and Monet, Degas and Seurat, Van Gogh and Rodin, Klimt and Picasso—fall within our period of study and will be subjects of our examination. Designed for students who have no prior experience studying art history, the course will prioritize methods of close looking and formal analysis. (If social distancing protocols allow, the course will include optional study visits to examine first-hand examples of paintings, sculptures, decorative arts, and printmaking at the Clark Art Institute and Manton Study Center for Works on Paper and Williams College Museum of Art). At the same time, the questions and methods at the core of our inquiry will be fundamentally interdisciplinary, and will engage students all across the humanities and sciences (major scientific figures such as the inventor Thomas Edison and the evolutionary biologist Charles Darwin will figure prominently in our narrative). Readings will emphasize close engagement with primary sources drawn from multiple disciplines: writings by artists and art critics from the period, as well as scientists, philosophers, psychologists, political theorists, and poets. We will approach “Impressionism” and “Post-Impressionism” as episodes in the cultural history of Europe that are uniquely revealing of a historical experience we still acutely feel today, which was called, for the first time in the nineteenth-century, “modernity.”

Class Format: lectures posted to Glow, and discussion sections via ZOOM, with optional in-person study visits to local museum collections
Requirements/Evaluation: weekly discussion question, 1 visual analysis essay (4pp), take-home midterm, take-home final, research paper (8pp)
Prerequisites: None
Enrollment Limit: 30
Enrollment Preferences: Art-history majors, then art-studio and history and studio majors, then any interested student.
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
Fall 2020
ARTh 243 (F) Chemical Intimacies (DPE)

Cross-listings: ARTH 243 ENGL 243 SCST 233 WGSS 233 STS 233

Secondary Cross-listing

This is a research seminar that understands human-chemical entanglement in relationship to environment, sexuality, geography, ecology, and capacity. It doubles as a research class in which students choose a project of chemical intimacy to investigate as their own through the course of the semester. In the first half, we will together read and discuss forms of human-chemical entanglement, whether a matter of industrial pollution, pharmaceutical use, habitual intoxication, gendered self-care or enhancement, or built environment; the goal is to achieve a broad sensibility for the concept as well as a familiarity with thinking biochemically and biopolitically about living bodies, while consistently registering questions of race, gender, class, sexuality, disability, and more. In the second half, each participant will choose and research a historically and geographically specific scenario of chemical entanglement, while 1) considering the political, legal, cultural, and labor contexts of the case; 2) exploring relationships between "actual" and "represented" (protest slogans or visual productions in the case of environmental justice activism, for example); 3) examining other research questions germane to their site of interest and their chosen discipline of study. We will take one field trip to a local site.

Requirements/Evaluation: individual research project

Prerequisites: none

Enrollment Limit: 10

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 243 (D2) ENGL 243 (D1) SCST 233 (D2) WGSS 233 (D2) STS 233 (D2)

Difference, Power, and Equity Notes: The course gives special attention to forms of human-chemical entanglement that are related to environmental justice (pollution), and gender, racial, sexual, indigenous, and disability politics.

Not offered current academic year

ARTh 244 (S) City, Anti-City, and Utopia: Town Planning from 1500 to 1800

The Italian Renaissance gave us our modern conception of the ideal city, whose geometrically regular form was both symbol and instrument of a perfectly ordered society. This alluring notion has preoccupied artists and theorists from Michelangelo and Thomas More to Albrecht Dürer and Christopher Wren; it achieved tangible form in such new capitals as St. Petersburg and Washington, D.C. But the West has remained characteristically ambivalent about the city, especially in the United States, an ambivalence reflected in persistent attempts to decentralize the city (Frank Lloyd Wright), to beautify it (the City Beautiful Movement), reshape it (Urban Renewal) or abandon it (suburbanization). This course looks at the roots of those movements, and the development of urban and anti-urban thought from the Renaissance to the Industrial Revolution. Topics include Renaissance fortification design, the colonial cities of the New World, the picturesquely landscaped English garden, and the separatist societies that sought to create communal utopias in the wilderness.

Requirements/Evaluation: one paper (10-20 pages) and a simple design project, weekly study questions and a final exam (weighted respectively at 30, 20, 20, and 30% of the grade)

Prerequisites: none

Enrollment Limit: 45

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

ARTh 246 (F) Do You See What I See?! Museum Culture (DPE)
We are all entangled in global visual culture, an endless stream of images, information, and experiences. However, how we make meaning of it depends on so many variables—who we are, where we are, and what we view and value. It also depends on what tools we bring to bear, especially in such challenging times! A critical question is how “art” figures and what agency it wields among people. By extension, what role do museums play in the education of individuals and the formation of communities? This class is an opportunity to explore these issues with particular reference to our own institution (Williams College Museum of Art or WCMA) and the objects enshrined therein. We will consider how the collection has grown and changed over time, and compare that trajectory with those of other museums to broaden our inquiry. How, for example, are local and/or globalizing agendas manifest in exhibitions and acquisitions? And how does the heritage industry factor in transnational museum culture? Along the way, we will consider diverse materials—from oil painting to wooden sculpture, numismatics to manuscripts, photography to performance—and how different cultures might be presented, distorted and even erased in gallery installations and public spaces. A primary focus will be the role of curators—what do they do and how does their work help to shape the world we occupy? This will be a hands-on class beginning with the following question: What have YOU curated lately?

Class Format: Class will be synchronous and remote. We will use Power Point and Zoom to support discussion about visual materials.

Requirements/Evaluation: Mandatory class attendance and substantive participation, weekly Glow Posts, curatorial term project.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Sophomores and majors.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: We will cover museums in diverse cultures, serving differences of power and communities of difference. The geographic spread will encompass the "Orient", Europe and America.

Fall 2020

SEM Section: R1 TF 1:30 pm - 2:45 pm Holly Edwards

ARTH 248 (S) War, Revolt, and Revolution in Art 1750-1850

This lecture course will focus on the dynamics of art, culture, and experience in Europe from the later eighteenth century to the middle of the nineteenth century. Spanning the global conflict of the Seven Years War, French Revolution of 1789, Haitian Revolution, Napoleonic occupations, and the Revolutions of 1848, this period of dramatic artistic, social, and political change gave rise to new conceptions of subjectivity, freedom, as expressed in the visual arts. How did art, new practices of art-making, and new modes of aesthetic experience convey and embody these crises, at once at the intimate level of individual experience and across transformations wrought by war and empire? We will examine the work of major artists in depth, particularly as that work helps constitute new accounts of the individual subject, the citizen, the migrations of populations, the spectacle of punishment, and other great alterations in the public sphere. Additionally, we will discuss the ways in which these histories have been addressed in art-historical writing and in museum practice.

Class Format: A third of our class time will be devoted to discussion. This course will also require students to visit WCMA, Special Collections, and the Clark.

Requirements/Evaluation: Attendance, participation, two essays (4-5 pages double spaced), midterm examination, final examination.

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: sophomores and juniors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Spring 2021

LEC Section: R1 TR 8:30 am - 9:45 am Marc Gotlieb
**ARTH 249 (S) Introduction to Visual Cultures of Contact** (DPE)

This introductory lecture course will survey the visual and material products of European contact with Asia, Oceania, Africa, and the Americas between 1500 and 1900. This period witnessed the establishment and loss of Spanish, English, and French colonies, a proliferation of exploratory voyages, and the abolition of the transatlantic slave trade. Some of our objects of study will be European in origin from well-known artists including Rubens, Velasquez, Reynolds, and Gauguin. In many cases we will be asking questions about circulation—whether we are looking at Tupi featherwork from Brazil brought to Europe, Flemish prints adapted by artists in Central and South America, or tattoos on the bodies of people traveling to and from Tahiti. Against the backdrop of these context-specific case studies, students will be asked to consider contact, colonialism, exchange, and appropriation more conceptually.

**Requirements/Evaluation:** midterm exam, final exam, five 1-page assignments, research paper (7-9 pages)

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Art majors

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement in its investigation of the constructions of difference precipitated by intercultural contact and in its discussion of critical readings that will help students analyze the histories of difference and power. Students will not only learn about the past, but also work together to come up with methodological approaches that speak to the continuing effects of these histories.

**ARTH 259 (S) Bilad al-Sudan and Beyond: Arts of the Afro-Islamic World**

**Cross-listings:** ARAB 259 AFR 259 ARTH 259

**Primary Cross-listing**

From the Swahili stone houses of East Africa to the massive earth and timber mosques of the Sahel, the story of Islam in Africa is one of cultural and spiritual hybridity expressed through material form. In this course, students will explore how artistic forms and traditions in Africa have functioned as vehicles of access and integration for Islam, enabling it to assimilate itself with numerous African contexts towards becoming the dominant religious force on the continent. In addition, students will investigate how the forms, functions, and meanings of Afro-Islamic objects across the continent reflect not just one African Islam, but many different iterations, each shaped by the specific frameworks of its cultural context. The contemporary component of the course will examine how modernity in the form of globalization, technology, and Westernization has affected Afro-Islamic artistic traditions, and how these shifts reflect larger evolutions within understandings of Islam in Africa in the contemporary period.

**Requirements/Evaluation:** three reading response papers (2 pages each), class journal, a mid-term exam, and a final exam

**Prerequisites:** none, although an introductory course in art history or Islamic studies would be useful

**Enrollment Limit:** 25

**Enrollment Preferences:** students who have declared a major in Art History or Africana Studies

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

**ARTH 262 (S) Modern Architecture**

A century ago, the Modern Movement promised the most sweeping cultural transformation since the Renaissance. Architecture was only one lobe of a comprehensive movement that embraced literature and painting, music and theater, all aspiring to the same radical emancipation from traditional form and structures of authority. What happened? How and why did modern architecture abandon its utopian vision. Students will explored the major developments in Western architecture from 1900 to the present, and become familiar with its major figures: Wright, Gropius, Mies van der Rohe, Le Corbusier, Aalto, Kahn, Venturi, Gehry, Koolhaas, and Hadid. Students will learn a variety of skills: design a 1000-square foot vacation house; present
to the class an analysis of a building; and organize a small exhibition of architectural treatises in the Chapin Library.

**Requirements/Evaluation:** two hour tests and a design project including drawings and a written statement

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** juniors and sophomores

**Expected Class Size:** 30

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 264 (F) American Art and Architecture, 1600 to Present**

**Cross-listings:** AMST 264 ARTH 264

**Primary Cross-listing**

American art is often looked at as a provincial version of the real thing--i.e., European art--and found wanting. This course examines American architecture, painting, and sculpture on its own terms, in the light of the social, ideological and economic forces that shaped it. Special attention will be paid to such themes as the Puritan legacy and attitudes toward art; the making of art in a commercial society; and the tension between the ideal and the real in American works of art.

**Requirements/Evaluation:** 15-page research paper (divided into an annotated bibliography, first draft and revised draft); weekly study questions on the readings; final 15-minute oral exam

**Enrollment Limit:** 60

**Expected Class Size:** 60

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 264 (D1) ARTH 264 (D1)

Not offered current academic year

**ARTH 265 (S) Pop Art (WS)**

**Cross-listings:** AMST 265 ARTH 265

**Primary Cross-listing**

The use of commercial and mass media imagery in art became recognized as an international phenomenon in the early 1960s. Items such as comic strips, advertising, movie stills, television programs, soup cans, "superstars," and a variety of other accessible and commonplace objects inspired the subject matter, form, and technique. This course will critically examine the history and legacy of Pop Art by focusing on its social and aesthetic contexts. An important component of the course involves developing skills in analyzing visual images, comparing them with other forms, and relating them to their historical context.

**Requirements/Evaluation:** one final research paper (15 pages) written in stages over the semester including revisions; bibliographic research, writing exercises, and oral presentations

**Prerequisites:** none

**Enrollment Limit:** 18

**Enrollment Preferences:** Art majors

**Expected Class Size:** 18

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 265 (D1) ARTH 265 (D1)

**Writing Skills Notes:** There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a
process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

**ARTH 272 (F) Art of the Noble Path: Buddhist Material Culture Across Asia**

**Cross-listings:** REL 272 ARTH 272 ASST 272

**Primary Cross-listing**

Buddhism has spread throughout Asia and beyond since its emergence in India in the 5th century BCE, providing a shared philosophical and cosmological framework for diverse cultures. Artistic expression, regional politics and cultural landscapes have been shaped by its remarkable influence. With patrons ranging from powerful monarchs and monks to merchants and tradespeople, Buddhist art has historically reflected the religion's social inclusivity. This course will survey the architecture, painting and material culture of Buddhism in Asia, tracing its influence in diverse media, from rock-cut architecture to Zen painting. A close reading of primary texts, such as architectural inscriptions in India, manuscripts from Tibet, and travelogues of Chinese pilgrims, will provide greater context for the artworks.

**Requirements/Evaluation:** 3 ten-minute quizzes, weekly Glow responses, a midterm, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Art History majors, Asian Studies majors, Religious Studies majors, Art Studio majors

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**ARTH 273 (S) The Arts of the Book in Asia**

**Cross-listings:** ARTH 273 ASST 273

**Primary Cross-listing**

From palm leaf manuscripts to scrolls to Islamic codices, books have long served as vehicles of religious, cultural and artistic exchange in Asia. Owing both to their portability and status as finely crafted art objects, books have transmitted ideas across the continent, spreading courtly styles of painting from China to India, esoteric Buddhist teachings from Kashmir to Tibet and Mongolia, as well as the Quranic arts of calligraphy and illumination from Islamic South Asia to Southeast Asia. This course will survey the interwoven history of book arts as it developed and disseminated across different regions of Asia. The course will also introduce students to the major art forms of the book, such as painting, calligraphy and illumination. The aim of the survey is to understand the book as object while also investigating its content and its larger cultural significance. A number of class meetings will take place in the Williams College Museum of Art where students will have the opportunity to study original artworks from the collection.

**Requirements/Evaluation:** 2 quizzes, 2 short response papers, a final project/paper based on museum objects, 1-hour in-class final exam

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** preference will be given to Art Majors, and then to students of any major interested in art and culture of Asia

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 281  (S)  The Seeds of Divinity: Exploring Pre Columbian Art & Civilization in a Museum Exhibit

Cross-listings:  ARTH 281  ANTH 281  REL 280

Secondary Cross-listing

For all ancient civilizations, the gods were a powerful force, affecting all aspects of human lives and dominating ancient art. This course will explore concepts of divinity in five civilizations in Pre Columbian Central America: Aztec, Maya, Zapotec, Teotihuacan, and Nayarit. The course examines how the broad concept of divinity is materialized in everyday life. We will query how the human body is used as the prism through which concepts about humanity, the human soul and the supernatural are perceived and depicted in the art of these civilizations. This is a project based course, and each student will study one or more art objects from these five civilizations, and consider how these objects could be presented in a museum exhibit.

Requirements/Evaluation:  active class participation; three short papers; 15-page research paper and presentation

Prerequisites:  none

Enrollment Limit:  20

Enrollment Preferences:  ANTH, SOC and ARTH majors

Expected Class Size:  12

Grading:  no pass/fail option,  no fifth course option

ARTH 284  (F)  The Postwar Avant-Gardes

Artistic discourse in the Western hemisphere dramatically changed course in the wake of the Second World War. The mass trauma inflicted by the war prompted artists and critics throughout the region to reassess the role and potential of art in society. But the war’s displacement of communities also displaced the centers for artistic activity, and avant-garde practices soon expanded vigorously throughout the Americas. Through comparative studies, this course will analyze the artistic avant-gardes that emerged simultaneously in the United States and Latin America after 1945. We will place these myriad practices in dialogue, to elucidate the complexity, richness, and vitality of artistic practices in the postwar era.

Requirements/Evaluation:  midterm exam, final exam, one short 2-page writing assignment, one 6- to 8-page research paper

Prerequisites:  none

Enrollment Limit:  30

Enrollment Preferences:  none

Expected Class Size:  20

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D1)

Not offered current academic year

ARTH 286  (F)  Japanese Popular Visual Culture

Cross-listings:  COMP 186  ASST 186  ARTH 586  ARTH 286

Secondary Cross-listing

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo-e, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Hagio), and animation (Oshii, Miyazaki, Kon). The class will also study material examples of Japanese popular culture on display in the Repro Japan exhibition at the Williams College Museum of Art. We will develop visual reading skills to come up with original interpretations of these works, and compare different media to make them shed light on one another.

Class Format: discussion

Requirements/Evaluation:  attendance, participation, two 5-page papers, final exam
Prerequisites: none
Enrollment Limit: 35
Enrollment Preferences: students majoring or considering a major in a related discipline
Expected Class Size: 20
Grading: no pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 301 (F) Methods of Art History (WS)
This course on the methods and historiography of art history offers art-history majors an overview of the discipline since the late 18th century. The course surveys influential definitions of the discipline, the evolving tasks it has set itself, and the methods it has developed for implementing and executing them. Works of art will inevitably enter into our discussions, but the main objects of study will be texts about art as well as texts about methods for an historical study of art. Topics include: style and periodization; iconography, narratology, and phenomenology; the social functions of images and the social history of art; the materiality of art; race, gender, and sexuality; the global scope of art and art history.

Class Format: In the fall of 2020, this course will be taught in a mixed, tutorial-and-discussion format. Students will meet in tutorial pairs to discuss their papers once per week, and will meet all together once per week to discuss the context and background of the assigned readings. Meetings of the entire class will be online and synchronous; meetings of individual tutorial groups will be either online or in person, depending on circumstances. Museum visits are possible depending on circumstances.
Requirements/Evaluation: six 1,000-word analytical essays plus one 2,000-word revision of an earlier paper. Participation in class discussion. Attendance.
Prerequisites: any prior ARTH course (one or more 100-level ARTH course[s] recommended) or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: The course is limited to art-history majors (and required of them). If the course is over-enrolled, preference will be given to senior art-history majors, then juniors. Second-year students planning to major in art history can enroll with permission.
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Unit Notes: Satisfies the ARTH 301 requirement for the art-history major. Will satisfy the methods/junior seminar requirement for the history/studio major, but students wishing to do so must have permission of instructor to enroll.
Distributions: (D1) (WS)
Writing Skills Notes: Students submit one 1,000-word essay every other week, for a total of six short essays. In addition, they revise one of the short papers into a 2,000 writing project at the end of term. The purpose of the essays is to analyze the arguments and rhetoric of influential art-historical scholarship and criticism. The subject of the course, then, is how to write as an art historian. We discuss not only the content of the essays we read and write but also the form, both in class and in office hours.

Fall 2020

ARTH 303 (S) Museums: History and Practice
Cross-listings: ARTH 303 LEAD 301 ARTH 501
Secondary Cross-listing
Art museums not only express the political, economic and cultural values of their period of formation, but the evolution of those values that have resulted in today's arts institutions. Looking at museums past and present internationally, the seminar will envision the future of museums as we recognize the programmatic trends developing in our own moment of civic and social unrest. The class will consider this future while examining existing governance and management policies and practices, the role of architecture and installation in interpretation and experience, guidelines in the accessioning and deaccessioning works of art, and issues in repatriation and restitution of cultural property. Surveying museums ranging in size and
type from the "encyclopedic" to newly established contemporary arts institutions and alternative spaces, we will investigate current trends in acquisition, exhibition, educational programming in light of the equity and social justice demands of our time. With our goal of imagining art museums in the future, class discussions will have a special focus on how museums might strive to balance their traditional scholarly and artistic responsibilities with their heightened civic and social roles, doing so while maintaining financial stability in the increasingly market-driven, metric-conscious, not-for-profit environment of our time.

**Requirements/Evaluation:** oral presentations and discussion in class and one seminar paper (with class presentation) at the end of the semester

**Prerequisites:** undergraduates should email michael.conforti@williams.edu to schedule a discussion before registering for the course

**Enrollment Limit:** 10

**Enrollment Preferences:** graduate students, then senior art history majors, then other undergraduates

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** satisfies the seminar requirement for the undergraduate Art History major

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

SEM Section: H1 T 1:10 pm - 3:50 pm Michael Conforti

**ARTH 305 (F) Queer Art, Queer Archives**

Focusing on a number of recent museum exhibitions dedicated to queer art and artists in the U.S. and abroad, this course critically examines the emergence of queer art histories. How are queer art histories being written and presented? And how is queer art being collected and preserved? We will explore these questions (and others) through the lens of the archive and the research and collecting practices associated with archives. As a class, we will critically examine the role, limits, and possibilities of archives in art historical research, curatorial practice, and museum exhibitions. Course readings will consider various historical, theoretical, and methodological approaches to the archive and curatorial practice. We will also consider artists’ archives and what has been described as an "archival impulse" in contemporary art. This course is being developed in conjunction with Williams College Museum of Art's presentation of the traveling exhibition Axis Mundo: Queer Networks in Chicano L.A., the first historical exhibition on queer Latinx art. Select assignments and student presentations will encourage first-hand experience with artworks in the exhibition.

**Requirements/Evaluation:** multiple short writing and bibliographic exercises; regular oral presentations; research paper (18-20 pages) written in stages and revised and expanded over the semester

**Prerequisites:** ARTH 102 or permission of instructor; GRADART exempt from ARTH 102 prerequisite

**Enrollment Limit:** none

**Enrollment Preferences:** senior majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 308 (S) African Art and the Western Museum (DPE) (WS)**

**Cross-listings:** AFR 369 ARTH 308

**Primary Cross-listing**

This tutorial provides a focused study of the issues associated with the exhibition of African objects within Western institutions from the formative period of the practice in the early 19th century to the modern era. Covering topics ranging from early collection and display methodologies to exhibition-based practice in the contemporary digital era, this tutorial will provide an opportunity for robust discussion about the interactions that have occurred between the arts of Africa and the Western museum over the lengthy history of their engagement. Students will investigate the nature of the cross-cultural dialogues taking place and the politics of display at work in regional museum spaces that display African art towards fleshing out how exhibitions function through the strategic organization and display of objects. In other words, students will explore how the dialogues created between
objects and individuals often speak to the voices and agendas that collide, collaborate, and even compete with each other within the environment of the museum.

**Requirements/Evaluation:** field trips to area museums, targeted writing assignments 5-7 pages in length, and peer response papers (two of each type per month)

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Art History and African Studies Majors

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 369 (D2) ARTH 308 (D1)

**Writing Skills Notes:** Targeted bi-monthly writing assignments (5-7 pages in length) and bi-monthly peer response papers (2 pages in length). Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** Explores issues of 'authentic' representation as it applies to African artifacts displayed within the contexts of Western art museums. Through discussions of cultural capital, rights of seeing, and the politics of representation, students analyze how the meaning of African 'art' has been dictated by a Western museum culture and how one can disrupt this hegemony through strategic exhibition and display practices.

**ARTH 310 (S) An American Family and "Reality" Television (WS)**

**Cross-listings:** ARTH 310 WGSS 312 AMST 333

**Primary Cross-listing**

*An American Family* was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream."

Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Louds' marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the *An American Family* series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

**Class Format:** Remote seminar. The course will feature synchronous online class meetings.

**Requirements/Evaluation:** class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper. Student presentations will be recorded offline and posted to GLOW.

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** junior Art majors, followed by senior majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 310 (D1) WGSS 312 (D2) AMST 333 (D2)

**Writing Skills Notes:** There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

---

Spring 2021
**ARTH 311 (S) Women and Art in East Asia (DPE)**

**Cross-listings:** ARTH 311 ASST 311

**Primary Cross-listing**

For over a thousand years, women in East Asia profoundly influenced the development of the visual arts, yet their formidable presence remains largely hidden. This seminar explores the critical roles women played as patrons, artists, and collectors of the arts in China, Korea, and Japan. We cover historical periods from the 10th century to the present day and discuss both traditional and nontraditional media including painting, sculpture, photography, embroidery, and even inks. Topics include didactic paintings for women in the Song court, calligraphy and painting as gendered modes of expression in Heian period Japan, the revival of Buddhist arts in Korea under the patronage of imperial women, and artworks by modern and contemporary artists that contest dominant representations of gender and sexuality. The course does not simply focus on artistic production, but also contextualizes these topics in light of emergent theorizations and readings on femininity, feminism, and the sexual politics of representation. Along with a final research paper, students will generate a substantial Wikipedia entry on a certain aspect of the course to promote the coverage of women and the arts online. No prior knowledge of Asian art history is required or assumed.

**Requirements/Evaluation:** Class participation, 4 object or reading response papers (2-3 pages), Wikipedia page editing project and presentation (5-7 minutes long), and 12-15-page final research paper (written in stages over the semester including a 15-minute presentation)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Art History and Asian Studies majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 311 (D1) ASST 311 (D1)

**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity by exploring the construction of gender in relation to power. We discuss how Daoist, Confucian, Shinto, and Buddhist ideas historically shaped attitudes toward women and address the ways in which colonialism and Orientalism shaped understandings of gender differences and roles in East Asia. Students will be introduced to theoretical texts of feminism and postcolonialism and learn to identify key issues to the feminist art historical project

Spring 2021

**ARTH 314 (F) Emperors of Heaven and Earth: Mughal Power and Art in India, 1525-1707**

**Cross-listings:** HIST 314 ARTH 314 ASST 314

**Secondary Cross-listing**

The Mughal dynasty ruled over most of northern India from the 16th to the 19th centuries. The Mughal Empire was the grandest and longest to rule the Indian subcontinent--much larger than any European empire in the early modern world--and it continued to have a lasting impact on South Asia. Mughals established a centralized administration with a vast complex of personnel, money and information networks. Styling themselves as 'Emperors of Heaven and Earth', the Mughal kings were also globally viewed as political innovators and unprecedented patrons of art. Their visual practices were as much a part of their imperial ideologies as their administrative and military measures. This co-taught course combines the disciplines of Art History and History to explore the intricate workings of Mughal politics and ideologies. The first of its kind to bring an interdisciplinary approach to teaching South Asia at Williams, the course asks: How did the Mughals sustain their empire for three centuries? How did they use art and politics to rule over diverse and largely non-Muslim populations? How did these Muslim imperial patrons merge Persian and Central Asian cultural values with preexisting Indian forms of administrative and artistic expression? How does Mughal culture continue to shape the South Asian imagination today? Readings will include a variety of visual and literary texts. We will delve deep into the world of biographies, travel accounts, poetry, architecture and a plethora of artworks. Students will take a hands-on approach to Mughal painting through several visits to the WCMA and a dedicated Object Lab. The primary aim of this co-taught course is to introduce students to a multifaceted picture of one of the greatest empires in pre-colonial world history. Another goal is to
familiarize them with a wide range of visual and written primary sources and develop a vocabulary for 'reading' these.

Requirements/Evaluation: class participation and weekly responses to readings, 4-5 short papers and a final paper

Prerequisites: students who have previously taken HIST312 will not be permitted to take this course; no other prerequisites

Enrollment Limit: none

Enrollment Preferences: graduating seniors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

ARTH 327 (F)  Acquiring Art: Selecting and Purchasing Objects For WCMA

Cross-listings: ARTH 527 ECON 227 ARTH 327

Primary Cross-listing

How do museums acquire art? Factors considered in selecting objects include: the museum's existing collection, its mission, the availability of suitable objects, evaluation of the art historical importance of potential purchases, and the available budget. How can objects be identified and obtained at the most reasonable cost? How do auctions work and what strategies are best for purchasing works at auction? Is it more economical to purchase art at auction or to work with dealers or (for contemporary works) directly with artists? Do museums consider value in the same way as private collectors? What role does an object's history and condition play in the evaluation process? In this course students will work as teams to identify and propose objects for addition to the collection of the Williams College Museum of Art (WCMA). A significant budget will be made available for the acquisition. We will discuss approaches for identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA curatorial staff, one or more of these objects will be acquired using the agreed strategy, and the object will become part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be required to submit three papers, dealing with the objects, the likely cost, and the best strategy

Prerequisites: ECON 110 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: senior majors in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 330 (S)  Michelangelo: Biography, Mythology, and the History of Art

One might argue that Michelangelo's enduring fame, and his preeminence in the European art historical canon, is as much a product of his artistic persona as his artistic achievement. Indeed, the classic image of the artist as a brooding, tortured genius of unstoppable creative force finds its roots in the Italian Renaissance, and specifically in the fascinating biography--and mythology--of Michelangelo. With a life and career more fully documented than those of any western artist to precede him, Michelangelo provides the foundations for a triangulation of person-persona-artistic production that has a modern ring. But what are the limits of our knowledge, and what are the boundaries of interpretation? And how might we approach the study of an artistic self when that self is, also, a work of art? In this course, students will become well-acquainted with the life and work of Michelangelo, giving critical attention to the connection between the artist and his work. We will investigate, in particular, the practice of interpreting his work according to his philosophical outlook, political convictions, religious beliefs, sexual desire, and more. While this course will bring us deep into the life and work of a
single artist, one of its goals is to generate ideas about the very act of biographically-based art historical interpretation. How can thinking carefully about Michelangelo reshape our own thinking about art historical practice?

**Requirements/Evaluation:** evaluation will be based on the quality and improvement of written work (5 weekly papers and 5 response papers, and a final written exercise addressing major themes of the tutorial), and oral dialogue

**Prerequisites:** one ARTH course of any level; open to sophomores, juniors, and seniors

**Enrollment Limit:** 10

**Enrollment Preferences:** none

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**Not offered current academic year**

**ARTH 331 (S) Michelangelo: Self and Sexuality (WS)**

**Cross-listings:** ARTH 331 WGSS 335

**Primary Cross-listing**

Who are artists? We each have different answers to this question, but our responses would probably share some common assumptions about human individuality and the centrality of the self to artistic creation. In this tutorial, we will take a critical lens to these ideas by studying the life, work, and passions of the Italian artist, Michelangelo Buonarroti (1475-1564). Michelangelo is a towering archetype of the autonomous artistic self: the distinctive personality who telegraphs individual beliefs, feelings, and desires through the creative act. His lifelong engagement with the physicality, beauty, and sensuality of the (male) human body has encouraged the connection between the man and his work on the most intimate levels of pleasure and desire. Ironically, Michelangelo would not have understood our modern conceptions of artistic selfhood or sexuality, but his own Renaissance moment was obsessed with questions surrounding the nature of human identity and subjectivity. His artistic practice--from painting to poetry--wrestles with them in countless, fascinating ways. Students’ writing and critical conversation will venture into the spaces between man and myth, selfhood and self-fashioning, artist and patron, past and present.

**Class Format:** Tutorial meetings will take place primarily on Zoom, with the hopeful possibility of some in-person meetings for students in residence on campus.

**Requirements/Evaluation:** Five 5-7 page essays, five 1-2 page responses to partner's essays, critical conversation

**Prerequisites:** Any ARTH course

**Enrollment Limit:** 10

**Enrollment Preferences:** ARTH majors and WGSS concentrators (or sophomores intending to pursue the ARTH major or WGSS concentration)

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

TUT Section: HT1  TBA  Stefanie Solum

**ARTH 332 (F) Abstraction in Action: Global Modern and Contemporary Art (WS)**

Abstraction, be it gestural or geometrical, was a protagonist in the story of global modernisms and continues to be a powerful visual language in contemporary art. The term "abstraction" may first appear straightforward, but its associations are quite complex: in varying historical contexts, abstraction has signaled formalist rupture, cultural co-optation, revolutionary politics, as well as racial, feminist, and queer critique. This object-oriented course will delve deeply into non-representation in global modern and contemporary art; we will supplement our careful study of artworks with primary documents, as well as with canonical theoretical frameworks and the reassessments that have sought to complicate these. This seminar is organized into two weekly sessions--a lecture and a discussion--to introduce key concepts and issues and to allow for ample group dialogue on these. Ultimately,
the course seeks to revise and expand the cartographies and ontologies of abstraction in the 20th and 21st centuries. As such, it welcomes students with an interest in modern and contemporary art, yet does not require previous coursework in either.

Class Format: biweekly seminar, with one lecture session and one discussion session

Requirements/Evaluation: participation, weekly assignments, final 12- to 15-page paper written in stages throughout the semester

Prerequisites: must have previously taken one Art History course in any area

Enrollment Limit: 19

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will complete short written assignments and will prepare a final paper in three stages throughout the semester. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

ARTH 335  (S)  Uncovering Williams
Cross-listings: AMST 335  ARTH 335

Secondary Cross-listing
Sparked by current controversies around visual representations at Williams, this course--a joint effort of the Williams College Museum of Art and the American Studies Program--interrogates the history of the college and its relationship to land, people, architecture, and artifacts. Students in this course will examine the visual and material culture of Williams and the land it occupies to uncover how the long and complex history of the college reverberates in the spaces and places students, faculty, and staff traverse daily. We take seriously that objects and environments are not neutral nor are the atmospheres that they reflect and produce. Our interdisciplinary approach draws from the methods and theories of American studies, art history, material culture studies, critical race theory, gender studies, and eco-criticism. Topics of discussion may include: the foundation of the college and displacement of native populations; buildings, objects, and monuments linked to Williams’ evangelical history and the role of missionaries in American imperialism; the symbolic meaning of the varied architectural styles at the college; and the visibility/invvisbility of the college’s relationship to slavery and Abolitionism.

Requirements/Evaluation: participation (discussion, GLOW posts), 2-3 short papers, one 5- to 6-page midterm paper, and a 10- to 12-page final project (either a research paper or a substantial arts-type project) and bibliography

Prerequisites: sophomore standing or permission of the instructor

Enrollment Limit: 19

Enrollment Preferences: AMST majors

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

ARTH 337  (S)  Visual Politics
Cross-listings: PSCI 337  ARTH 337

Secondary Cross-listing
Even casual observers know that appearances matter politically and that the saturation of politics by visual technologies, media, and images has reached unprecedented levels. Yet the visual dimensions of political life are at best peripheral topics in contemporary political science and political theory. This seminar explores how our understanding of politics and political theory might change if visuality were made central to our inquiries. Treating the visual as a site of power and struggle, order and change, we will examine not only how political institutions and conflicts shape what images people see and how they make sense of them but also how the political field itself is visually constructed. Through these explorations, which
will consider a wide variety of visual artifacts and practices (from 17th century paintings to the optical systems of military drones and contemporary forms of surveillance), we will also take up fundamental theoretical questions about the place of the senses in political life. Readings may include excerpts from ancient and modern theorists, but our primary focus will be contemporary and will bring political theory into conversation with other fields, particularly art history and visual studies but also film and media studies, psychoanalysis, cognitive science, and STS. Possible authors include Arendt, Bal, Belting, Benjamin, Browne, Buck-Morss, Butler, Clark, Connolly, Crary, Deleuze, Fanon, Foucault, Freedberg, Garland-Thompson, Hobbes, Kittler, Machiavelli, Mercer, Mitchell, Mulvey, Plato, Rancière, Sartre, Virilio, Warburg, and Zeki.

Requirements/Evaluation: regular, engaged class participation, several Glow posts, and three 7- to 8-page papers

Prerequisites: at least one prior course in political theory, cultural theory, visual studies, or art history; or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Political Science and Art History majors (including students in the grad program); then qualified students from all disciplines welcome, space permitting

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

**ARTH 338 (S) The Romantic Revolution: Art and Experience in 19th-Century Europe**

This course explores major moments in nineteenth-century European painting and sculpture in relation to sweeping transformations across multiple dimensions of human experience, including aesthetics, philosophy, psychology, politics, and beyond. Key artists include Friedrich, Delacroix, Blake, Turner, Courbet, and many others. In each case we will interrogate their work across multiple art historical and intellectual perspectives, at once with a view to unveiling larger developments, but also to make the case for works of art as powerful bearers of meaning, and shapers of experience, in and of themselves. Assignments keyed to introducing students to a range of art historical methods and modes of argument and interpretation.

**Class Format:** combination lecture and discussion

**Requirements/Evaluation:** two research papers approximately 10 pages each; final exam; additional short reports

**Prerequisites:** none

**Enrollment Limit:** 25

**Expected Class Size:** 25

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 342 (S) Monuments and Miniatures: Architecture and Painting in India**

**Cross-listings:** ASST 342 ARTH 342

**Primary Cross-listing**

This tutorial is designed to provide an in-depth comparative study of two of the most important cultural expressions in the history of the Indian Subcontinent: Architecture and Painting. From sprawling pleasure gardens and palaces to iconic tomb complexes and temples, the built environment has served various cultural, religious and communal functions in India. Intimate in scale, and made primarily for an elite audience, miniature painting has also performed a key role in preserving and transmitting cultural values over time and space. Despite obvious differences in scale and scope, architectural monuments and miniature paintings produced for manuscripts and albums reflect similar creative impulses. They are also often linked through their relationship to text, and can be interpreted through contemporaneous literature. In the tutorial, students will be asked to make careful analyses of the iconography, symbolism and historical frameworks of monumental architecture and miniature painting in India. Original literature in translation and recent scholarly essays will help provide the framework for considering the artworks from the perspective of their patrons, creators and audiences. We will also consider the shifting roles and meanings of these artworks through the ages. For example, what was the original symbolism of the Taj Mahal, and how has it become a highly contested, political space in contemporary India? How did grand picture albums from the seventeenth century, made for some of the most powerful emperors in global history, function as tools for political self-fashioning? And what do their modern reception as part of Western museum collections tell us about the transformation of India during the British colonial period?
**Requirements/Evaluation:** bi-weekly writing assignments 5-7 pages in length, short peer response papers, field trips to local museums

**Prerequisites:** none, open to all students

**Enrollment Limit:** 10

**Expected Class Size:** 6

**Grading:** no pass/fail option, no fifth course option

Not offered current academic year

**ARTH 344 (F) Pacific-New England Material Histories (DPE)**

**Cross-listings:** ARTH 344 AMST 344

**Primary Cross-listing**

This course looks at the indigenous, colonial, maritime, and missionary histories that connect New England to island nations in the Pacific in the eighteenth and nineteenth centuries. Rather than thinking of Hawai‘i and Massachusetts merely as opposite ends of United States colonial expansion, we will focus on the heterogenous cast of historical actors-from queens to whalers-who interacted in these places and generated new forms in architecture, painting, printmaking, the decorative arts, textiles, and publishing. Particular attention will be paid to the politics of Hawaiian visual culture and the histories of Williams alumni in Hawai‘i, but the readings, discussions, and student papers will not be limited exclusively to those subjects. Our time together will be split between lecture and class discussion, with some meetings devoted to archival research and object-based case studies in collections on campus. As a group, we will establish a corpus of objects and conceptual frameworks for analyzing what “Pacific-New England” means and how that might challenge our existing assumptions about regional art histories. Finally, we will experiment as a class with the best ways to convey what we’ve learned through our collective inquiry—whether in different forms of writing or by workshops more creative approaches.

**Requirements/Evaluation:** participation in discussion, two short papers, final research project, and presentation; note: one required field trip, scheduled in consultation with the students

**Prerequisites:** none

**Enrollment Limit:** 12

**Expected Class Size:** 8

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 344 (D1) AMST 344 (D2)

**Difference, Power, and Equity Notes:** This course traces the ways that systemic biases regarding race, religion, gender, and class impacted and continue to affect relations of power, wealth, and ultimately sovereignty in the United States and in Hawai‘i.

Not offered current academic year

**ARTH 348 (S) Women, Men and Other Animals (DPE)**

**Cross-listings:** ARTH 348 STS 348 SCST 348 WGSS 348 ENGL 348

**Secondary Cross-listing**

In this seminar, we will together learn to be “animal critics.” We will explore ways in which human groups and interests, particularly in the United States, have both attached and divorced themselves from other animals, considering such axes as gender, race, ability, and sexuality as key definitional foils for human engagements with animality. What are the “uses” of “animals” for “us,” and precisely who is this “us”? How and when are some willing to see themselves as animal—indeed, under what political conditions do they embrace it? What is the history of unique, often asymmetric, interdependencies between human animals and nonhuman animals? How do actual lives of humans and non-human animals merge and clash with the rhetorics and visualities of human animality? We will examine both “everyday” animality and the forms of animality that stand out only today in
retrospect, in their exceptionality, or upon reflecting on structures of privilege. We will build a critical animal studies vocabulary from a range of readings in science, philosophy, art, feminism, indigenous studies, critical race, geography, fiction, film, rhetoric, history, activist movements, disability studies, postcolonial studies, and examine both visual and narrative cultural production.

Requirements/Evaluation: individual research project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Women's, Gender and Sexuality Studies majors, Art History majors, English majors, Environmental Studies majors

Expected Class Size: 15

Difference, Power, and Equity Notes: Human/animal intersections are analysed with special attention to axes of gender, race, ability and sexuality.

Not offered current academic year

ARTH 358  (S)  Latinx Installation and Site-Specific Art

Cross-listings: LATS 358  ARTH 358

Secondary Cross-listing

This course will explore the various forms of installation and site-specific artworks created by Latinx artists for both museums and public space. We will examine the ways in which Latinx artists have used space as a material in the production of artworks and how this impacts the works’ meanings and the viewer's experience. Within the context of U.S. Latinx culture and history, we will connect notions of space with ideas about cultural citizenship, civil rights, and social justice. A variety of art forms will be studied, from traditional to experimental, including murals, sculpture, performance, video, and several multimedia, interactive, or participatory projects. While establishing a historical lineage and theoretical frameworks for analyzing this growing genre, we will pay particular attention to how these works engage urban space and often challenge the institutional assumptions of museums and curatorial practice. Likewise, we will examine the important debates associated with various public art and museum installation controversies.

Class Format: discussion

Requirements/Evaluation: two short papers, periodic research reports, final research paper, and presentation

Prerequisites: LATS 105 or ARTH 102 or permission of instructor; GRADART exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators and Art majors

ARTH 363  Space into Place: Composing Modernity through Maps and Landscape Paintings, 1500-1900

Colonial expansion and growing trade networks created new needs for picturing the globe in early modern Europe. In other words, globalization required a world broken down into concrete units that could be known and recognized. The artistic and the cartographic were two fundamental modes of representing space. What we might learn by bringing landscape paintings and maps together in dialogue? What are the aesthetic expectations of each genre? How were subject, scale, perspective, and proportion determined and by whom? Moving beyond a binary opposition of science versus art, we will study conventions and changes in mapmaking and landscape painting from the sixteenth to nineteenth centuries to analyze shifting conceptions of national identity, modernity, and the relation of humans to nature. Course lectures and an interdisciplinary array of readings will provide historical and conceptual support for object-based discussions in the Williams College Museum of Art, the Chapin Rare Book Library, and at the Clark Art Institute.

Class Format: this course will meet twice per week, the first meeting will be in the format of a lecture, the second will be a seminar-style discussion
ARTH 367 (F) Documentary Fictions

Cross-listings: ARTH 367 ENGL 367

Secondary Cross-listing
The first movies excited viewers not by telling stories, but by reproducing the world: a dancer’s billowing skirts, the sight of Niagara Falls, the arrival of a train at the station—such vignettes felt viscerally real. Our fascination with documentaries derives, in large part, from the way seemingly transparent images are woven into narratives full of hidden assumptions. Every viewer of the Zapruder film sees the same thing: President Kennedy, struck by a bullet, lurches forward. But what that might mean—whether it points toward a lone gunman or a conspiracy, toward the Soviet Union or the CIA—still remains uncertain. We’ll explore the tensions between image and story, evidence and context, in films ranging from Fred Ott’s “Sneeze” (1894) to Josh Oppenheimer’s The Act of Killing (2012), concluding with a look at the effects of contemporary image technologies on our sense of personal and national identity. Readings for the course will be drawn from narrative theory, epistemology, and cultural theory, as framed by writers including Trinh Minh-ha, Christian Metz, and Bill Nichols.

Requirements/Evaluation: four written and multimedia exercises (1-2 pages each), two essays (six and twelve pages), and a willingness to experiment with formats

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 25

Enrollment Preferences: English majors; Art and Comparative Literature majors; students with experience making video

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 367 (D1) ENGL 367 (D1)

ARTH 368 HIV + AIDS in Film and Video (DPE)

Spanning activist works, experimental film, Hollywood dramas and documentary, this course examines the role of moving images in reckoning with the global AIDS crisis, its aftermath, and its ongoing aftershocks. The AIDS crisis of the 1980s and 1990s was, in the words of Larry Kramer, a ‘plague’ of epic proportions, with an entire generation obliterated before it could reach maturity. And yet, the ‘plague’ years also spawned a remarkable amount of creative and activist image-making aimed at fighting, mourning, and grappling with AIDS. Now, we find ourselves in another pivotal moment: the past decade has yielded a new wave of artworks dedicated to memorializing the crisis, while for many communities, the crisis never ended. Together, we will ask difficult and probing questions about this phenomenon called the ‘AIDS epidemic,’ examining the role of art in frontline activism, the ethics of AIDS historiography, mainstream visions of the AIDS body, and the need for a diversity of AIDS narratives. This seminar-style course will combine weekly screenings with readings and intensive discussion.

Requirements/Evaluation: Discussion facilitation, attendance and participation, short response papers, long research paper

Prerequisites: ARTH 102 or permission of instructor; GRADART exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: senior majors

Expected Class Size: 12

Grading:
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This is an intersectional course in LGBTQ+ art history, with an examination of the relationship between sexuality, gender, ethnicity and power within AIDS activism and the AIDS crisis.

Not offered current academic year

ARTH 379  (S)  Writing Art
Cross-listings: ENGL 379  ARTH 379
Secondary Cross-listing
This course is conceived primarily as an experiential adventure in creative forms of art writing. We'll read several recent examples of such work (from writers including John Ashbery, Roland Barthes, John Berger, Teju Cole, Jorie Graham, Robin Coste Lewis, Eileen Myles, Ali Smith, Roberto Tejada, and John Yau) to get a sense of the range of approaches, from the ekphrastic poem to the essay to the novel, alive today; and we will spend considerable time in local museums, engaging intimately with works of art through various writing prompts, as you create your own creative responses to visual art. Along the way, we will work to historicize and theorize the relation between the verbal and visual arts, and to ask what looking at art brings to creative writing, as well as the ways creative writing might extend or alter the work of art history.

Class Format: This will be a hybrid course. We will divide our time between seminar meetings, where we will discuss published texts; museum visits, where you'll engage directly with visual art; and small group meetings, where you'll get feedback on your evolving work.

Requirements/Evaluation: engaged participation; successful completion of assignments; demonstrated commitment and quality of the work, as evidenced by a final portfolio of revised writing.

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 12

Enrollment Preferences: Undergraduate majors in English or Art and graduate students in Art.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 400  (F)  Clark Visiting Professor Seminar: writing TO art
Cross-listings: ARTH 500  ARTH 400
Secondary Cross-listing
In this seminar, we will think about writing TO art and for it, rather than merely about it; but first, we will think about how we think. I intend that we read essays and stories that confront the ways in which we think. That might sound abstract, but in fact it is rather concrete: we bring to works of art our predilections or tastes, psychologies, politics, habits of mind, in short, our subjectivity. We are not blank slates, art is not, either. Art is layered with its own history, and histories, criticisms, reactions, rejections, movements. Art is not static. How do we writers move with art, confront our reactions, and ask why we have them. To me, one of the most important aspects in writing is judging one's own reactions, for instance, in the choice of words. To that end, that of confronting our thinking, we will read, among other things: Adorno's "Coming to Terms with the Past;" Joan Scott's "The Evidence of Experience;" Kafka's "Josephine the Mouse Singer and the Mouse People," and "The Hunger Artist;" Freud's "Notes on War and Death," and Craig Owens', "On Speaking to Others" and "Feminism and Post-Modernism." We will also read some of my anti-art art criticism, or what I call stories written in relationship to art. Some of these employ fictions, some not. We will read a few of my "Madame Realism" pieces, as well as essays on Warhol and some other contemporary artists. We will do some writing. We will visit with or be visited by critics and/or artists. We will look at art in galleries, and write about what we have seen.

Requirements/Evaluation: writing assignments, participation

Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: graduate students get preference; places for 8 undergraduate and 8 graduate students assured
Expected Class Size: 16
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

ARTH 402 (S) Monuments and The Art of Memorial

The urge to commemorate is a timeless human impulse. Individuals, heroic acts, and historic events have been marked by mounds, architecture, images, words, and ephemera for over 5000 years. The value of the subject or focus of a commemoration changes over time. Entropy, iconoclasm, and vandalism have been seen as either positive or negative modes of destruction. Recent events have brought into high relief monuments long taken for granted as markers of the American urban landscape. Calls for the removal of monuments that have elevated individuals implicated in colonialism and racism have led to a powerful surge in alternative monument-making, and brought commemorative images back into public consciousness. Over the course of the seminar students will document and explore the concepts behind monuments and memorials in the Western tradition from their origins in the ancient Mediterranean (Mesopotamia, Egypt, Greece, Imperial Rome), and chart their reception, interpretation, destruction, and/or influence in later periods. We will also analyze the abstraction and inversion of monumental form seen in the counter monuments of the late twentieth century such as Maya Lin's Vietnam Veterans Memorial (1982) or Gunter Demnig's Stumbling Stones project (Stolpersteine, 1992-the present), the world's largest decentralized memorial for the victims of Nazi terror. Our consideration of historical monuments will be paired with ongoing contemporary discussions of action around the removal of memorials, and the call for creative alternatives. During the second half of the semester seminar participants will research a memorial trend or a specific monument, and investigate and parse its context and reception over time. A short presentation and a substantial paper, written in stages, will be the end result of the research project.

Class Format: Discussion oriented course. We will meet online but, when possible, we will meet outside.
Requirements/Evaluation: The requirements of the course include: attendance and participation in discussion; 3 short responses to readings or artworks related to discussions; a short (15 minute max) report on a research project; a 15-18 page paper on the research project, written in stages.
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Art History majors and grad students, then any interested student
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Unit Notes: This course will fulfill the seminar requirement for the major in Art History. It can also fulfill the pre-1800 requirement should you pursue a seminar project in that area.

ARTH 403 (S) Clark Visiting Professor Seminar: Art and Law

Cross-listings: ARTH 503 ARTH 403
Secondary Cross-listing

In the 1960s, artists began to engage conspicuously with legal ideas, rituals, and documents. The law--a primary institution subject to intense moral and political scrutiny--was a widely recognized source of authority to audiences inside the art world and out. Artists frequently engaged with the law in ways that signaled a recuperation of the integrity that they believed had been compromised by the very institutions entrusted with establishing standards of just conduct. These artists sought to convey the social purpose of an artwork without overstating its political impact and without losing sight of how aesthetic decisions compel audiences to see their everyday world differently. Addressing the role that law plays in enabling artworks to function as social and political forces, this course explores the question of an "applied art history," namely, how art history might intervene or inflect
extra-artistic institutions such as the law. Topics to be considered include: artists' rights, human-animal relationships, globalism as extraterritoriality, what "agreement" means in concept and practice.

Requirements/Evaluation: research paper, class presentations

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students; places for 8 undergraduate and 8 graduate students assured

ARTH 404 (F) The Enemies of Impressionism, 1870-1900

This class explores European and international painting and sculpture of the last quarter of the nineteenth-century, particularly the work of artists once famous in their day but whose reputations collapsed with the rise of Impressionism and Modernism. Once dismissed as trivializing, sensationalizing, politically suspect, kitsch, and simply "bad"—much of this art has attracted new attention and enthusiasm in recent year. Focus on aesthetic theory, narrative, cinema, and — most of all — viewer experience. Artists include Gérôme, Bouguereau, Alma-Tadema, and many others.

Requirements/Evaluation: readings and research paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: none

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 405 (F) Seminar in Architectural Criticism

How does one judge a building? According to its structural efficiency or its aesthetic qualities? Its social responsibility—or just its pizzazz? Depending on the building, and the critic, any of these questions might be pertinent, or impertinent. This seminar explores architectural criticism, that curious genre between literature and architecture, and looks at its history, nature and function. We will read and discuss classic reviews by historical and contemporary critics as John Ruskin, Mariana van Rensselaer, Lewis Mumford, Ada Louise Huxtable and Herbert Muschamp. Insights gained from these discussions will be applied by students to writing their own reviews, which will likewise be discussed in class. Early assignments will concentrate on mechanics: how to describe a building vividly and accurately, how to balance description and interpretation judiciously, how to compare. Subsequent ones will be more synthetic, encouraging students to write bold, lively and critical essays. The ultimate goal is to develop a distinctive and effective voice, and to gain a better understanding of the nature of criticism in general.

Requirements/Evaluation: students will write and revise six papers (5-7 pages) during the semester

Prerequisites: any 100 level ARTH course or permission of instructor

Enrollment Limit: 11

Enrollment Preferences: junior Art History majors

Expected Class Size: 11

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)
ARTh 407 (F) Materials and Material Culture along the Eastern Silk Road

The Silk Road, a network of land and sea trading routes stretching from the Mediterranean to East Asia, served as a conduit for dynamic interactions and cross-cultural exchanges in the era before globalization. As a great cultural highway, the Silk Road stimulated the movement of peoples, the trade of luxury goods, and the transmission of technologies, ideas, and artistic motifs. This seminar examines the materials and material things traveling along the Silk Road from the fall of the Han Dynasty to the rise of the Mongol Empire (ca. 300 too 1400 CE). We focus, in particular, on the movement and use of three key materials: silk, glass, and paper. Topics include the transmission of silk-weaving technologies between China and Central Asia, glass bead production on the Korean peninsula, and the role of Japan’s Shosoin Treasury in the construction of kingship. The emphasis will be on the material culture and sites from China, Korea, and Japan, with forays to India, Afghanistan, Turkey, and beyond. Students learn to critically analyze issues related to cultural interactions and gain familiarity with critical approaches to materiality and material culture studies. As a class, we will also develop a collaborative map as a resource to remember historical developments as well as key dates, objects, materials, and individuals in this course. Evaluation will be based on class participation, response papers, the collaborative mapping project, and a final paper. No prior knowledge of Asian art history is required or assumed.

Requirements/Evaluation: Class participation, group presentation, 4 object or reading response papers (2-3 pages), collaborative mapping project and presentation (5-7 minutes long), 12-15-page final research paper (written in stages over the semester including a 15-minute presentation)

Prerequisites: Any 100-level Art History course or permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Art History majors

Expected Class Size: 14

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

ARTh 408 (F) Modernism in Brazil (DPE)

Cross-listings: ARTH 408  COMP 408

Primary Cross-listing

"Modernism" in art: when we think about it, we may not readily think of Brazil. But Brazil was in fact a vibrant battleground of ideas around what it was to be innovative, modern, and avant-garde. Between 1920 and 1945, artists, poets, and critics in the metropolises of São Paulo and Rio de Janeiro actively debated on the creation, and potential, of a uniquely Brazilian modernist aesthetic that would stand on par with the European avant-gardes. But what did "Brazilianess" mean to these intellectuals? What role did gender and race relations--indigeneity in particular--play in the construction of this aesthetic? How did the necessities and demands of the national context shape these modernist practices? This seminar will take a deep dive in this fascinatingly contradictory moment in Brazil, a chapter that would become a fundamental reference to Brazilian artists in the 1960s and even to this day. In addition to detailed analyses of artworks, we will read manifestos, novels, and criticism from this period, and the most up to date secondary interpretive texts.

Requirements/Evaluation: participation, short presentations, four 2-page writing assignments, final 12-page research paper

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: none

Expected Class Size: 8

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 408 (D1) COMP 408 (D1)

Difference, Power, and Equity Notes: This course fulfills DPE requirements through textual, visual, and historical analyses that explore the cultural
biases and geopolitical forces that have restricted the exposure of Brazilian modernism in Western art history. The course also centers on contextualizing the artistic practices of Brazilian modernism and analyzing them in relation to race, gender, and class dynamics, and to issues of colonialism, nationalism, and revolutionary politics.

**ARTH 412 (S) The Politics of Aesthetics: Collaboration and Participation in Contemporary Art**

The social turn is a hallmark of contemporary art, as artists since the 1960s turned from the art object toward dynamic exchanges with the public, from sole author to collaborative engagement. This seminar provides a theoretical framework to historicize as well as to critically analyze the promise and pitfalls of collaborative works, of favoring active participants over passive spectators, and of the meteoric rise of what is now commonly known as “social practice” art. A wide range of case studies from around the world will also allow us to delve into the intersections and productive tensions between aesthetics and politics, or between art and life.

**Requirements/Evaluation:** discussion questions, weekly presentations on either a text or an artist, three response papers, final 12- to 15-page paper

**Prerequisites:** must have previously taken an Art History course

**Enrollment Limit:** 10

**Expected Class Size:** 7

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

**ARTH 416 (S) Senior Seminar: The Art of Minor Resistance: Advanced Readings in Race, Gender, Performance**

**Cross-listings:** COMP 404 ARTH 416 THEA 416 WGSS 416

**Secondary Cross-listing**

This seminar will study stagings and aesthetic theories of dissent in feminist, queer, anti-colonial, and anti-racist performance. An attunement to performance and to the minor is also a turn toward minoritarian knowledges and lifeworlds. Of interest will be modes of sensing and relating that are not often legible as political--including aesthetics of opacity, quiet, disaffection, aloofness, and inscrutability--but could be understood as critiques of political recognition. Performance is a capacious rubric in this class that will include performance art, social media, photography, music videos, poetry, street protest, and everyday life. Students will learn to describe, interpret, and theorize performance through discussion, writing, and creative form.

**Requirements/Evaluation:** in-class discussion, partner presentation, weekly reading responses, final project

**Prerequisites:** WGSS 101

**Enrollment Limit:** 15

**Enrollment Preferences:** WGSS majors, students with previous performance studies coursework

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

COMP 404 (D2) ARTH 416 (D2) THEA 416 (D1) WGSS 416 (D2)

**ARTH 418 Gothic Wonder: Exploring the Medieval Cathedral Then and Now**

Through their enormous scale, through the gravity-defying complexity of their construction, and through the sumptuousness of their materials and decoration, Gothic cathedrals were built to amaze visitors--the medieval equivalent of the blockbuster movie, and then some. The goal was to activate and overwhelm all of the senses and thereby both to produce an experience of transcendence for the people entering and using the cathedral, and to capture their hearts. The widespread social media reaction of shock and dismay to the fire at Notre Dame in Paris last year suggests that this power of the medieval cathedral to captivate remains very much alive. But these cathedrals have also, over the centuries, embodied and perpetuated hierarchies of authority and privilege, and have consumed vast economic resources. As a result, they have often been centers of conflict--and this too remains true today, as the heated debate in France over the rebuilding of Notre Dame testifies. This seminar will investigate the multiplicity of realities
that make up the Gothic cathedral, from the Middle Ages to the present day. Together, we will look at a number of Europe's most renowned cathedrals, through time—in France (including Notre Dame in Paris), England, Italy, Germany, Spain, and elsewhere—and consider both how each building has changed over the centuries and how it has been differently interpreted. As this collective conversation is unfolding, students will also pursue individual research projects on a cathedral of their own choosing, the aim being similarly to examine one of these remarkable monuments over time and in its shifting contexts.

Requirements/Evaluation: Participation in class discussion; oral presentation; 15-20-page research paper.

Prerequisites: Permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Art majors, but open to all

ARTH 420  (F)  Architecture and Sustainability in a Global World  (WS)

Cross-listings: ARTH 420  GBST 420  ENVI 420

Primary Cross-listing

What does it mean to create a sustainable built environment? What do such environments look like? Do they look the same for different people across different times and spaces? This course takes these questions as starting points in exploring the concept of architectural sustainability, defined as "minimizing the negative impact of built form on the surrounding landscape," and how this concept can be interpreted not only from an environmental point of view, but from cultural, political, and social perspectives as well. Over the course of the class, students will explore different conceptualizations of sustainability and how these conceptualizations take form in built environments in response to the cultural identities, political agendas, social norms, gender roles, and religious values circulating in society at any given moment. In recognizing the relationship between the way things are constructed (technique of assembly, technology, materials, process) and the deeper meanings behind the structural languages deployed, students will come to understand sustainability as a fundamentally context-specific ideal, and its manifestation within the architectural environment as a mode of producing dialogues about the anticipated futures of both cultural and architectural worlds.

Class Format: This course will be taught in a hybrid mode, with both online (lecture) and in-person (discussion) elements.

Requirements/Evaluation: weekly reading discussion question posts on GLOW, leading class discussions, and a final project/paper (15-20 pages) with presentation

Prerequisites: none, although a course in art/architectural history or environmental studies would be advantageous

Enrollment Limit: 12

Enrollment Preferences: Art History majors, Environmental Studies majors, History and Studio majors

Expected Class Size: 12

Grading:  no pass/fail option,  no fifth course option

Distributions: (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 420  (D1) GBST 420  (D2) ENVI 420  (D1)

Writing Skills Notes: This course develops writing proficiency using a series of sequenced assignments that culminate with the formation of a well-articulated, compelling final project. Students will receive extensive feedback on these assignments via a progression-oriented evaluative system that involves both instructor and peer feedback, and will take part in a writing seminar towards gaining the necessary tools for drafting work, formulating ideas, organizing sections, and crafting an abstract.

ARTH 421  (S)  Picturing God in the Middle Ages

Cross-listings:  REL 421  ARTH 421
Primary Cross-listing

How did medieval Europeans imagine their God and how did they give what they imagined pictorial form? How were these pictures used, both in public and in private life, and why? Paying particular attention to the function and experience of medieval works of art, this seminar will examine the evolution of images of God, in both the Eastern and Western halves of Europe, and the problems these images often generated. Through readings and class discussion, the course will investigate, among other specific topics: the varied attitudes toward the representability of God in Judaism, Islam, and Christianity; the impact of the Roman cult of the emperor and of images of the dead on the earliest portraits of Christ; the cult of the icon, concerns over idolatry, and the destruction of images; ideas about spiritual versus physical vision and their influence on the making and viewing of pictures; the relationship of sacred images to relics, the Eucharist, and other aspects of Christian ritual; and the pictorial exploration of both the torture and sexuality of Christ. Students will also pursue an individual research project, in which they will examine in greater depth a specific depiction of divinity of their choosing, in light of what we have considered together in the seminar.

Class Format: Class will meet online at first but may shift to in-person if circumstances allow

Requirements/Evaluation: class participation, oral presentation, one short paper (2-3 pages), final research paper (15-20 pages)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Preference given to Art majors and seniors.

ARTH 422  (S)  Art, Architecture, and Poetry: Islamic Devotional Culture in South Asia

Cross-listings: COMP 422  ARTH 422  REL 422

Primary Cross-listing

How have scholars interpreted and classified terms such as "Islamic art" and "Muslim culture," and how have these classifications affected the interpretation of the arts in South Asia? There are different points of view regarding what constitutes as "Islamic" art and culture. Is an imperial wine cup with "God is Great" inscribed on it an "Islamic" object? How is an erotic epic narrating the romance of a Hindu prince understood as embodying the principles of Muslim devotion? This interdisciplinary seminar, focusing on South Asian Muslim devotional culture as articulated through the material culture, the arts of the book, architecture, and poetry, will navigate these questions from two perspectives. The first is to understand how Muslim devotional cultural expression in South Asia circumscribes and interprets itself. The second viewpoint is that of scholarship and the various interpretive voices that have framed the field over the last century.

Requirements/Evaluation: class participation, 2-page response papers on class readings, leading class discussion, final 15-20-page research paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Art Majors, and then to students of any major interested in art and culture of Islam

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

ARTH 424  (S)  Heaven's Gate:The Romanesque Sculpted Portal and the Creation of Sacred Space Through Art
During the course of the eleventh century, the designers of European churches fashioned a new architectural language that we now label "Romanesque." One of the most innovative and dramatic aspects of this new language was its assimilation of monumental sculpture, absent in Europe since the fifth century. The focus of attention in this regard was the portal, which marked the threshold between the profane realm of the outside world and the sacred space of the church. Often characterized as the "marquee of the Middle Ages," the Romanesque sculpted portal, with its startling juxtaposition of the spiritual and the physical, of ecstatic visions of the heavenly realm and writhing, biting monsters, constitutes one of the true high-points of creativity in medieval art. Through the lens of modern scholarship, this seminar will investigate the antecedents and origins of the Romanesque sculpted portal and examine in detail its most renowned manifestations. Emphasis will be placed on understanding these often complex sculptural schemes within their original functional and material contexts, especially in terms of how they helped to create the sacred space of the church behind. Students will then have the opportunity to develop their own research projects, informed by what we have learned in the seminar, but focused on an example of sacred threshold art of their own choosing.

Requirements/Evaluation: class discussion/participation, oral presentation, and a 15- to 20-page research paper

Prerequisites: permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Art majors and graduate students

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

ARTH 430 (F) Aesthetics and Human Variety: European Representations of Oceania

Using European representations of the inhabitants of Oceania as the primary materials of our investigation, this seminar will explore the connections to be made among theories of beauty, practices of art making, and the construction of race as a scientific concept in the second half of the eighteenth century and the beginning of the nineteenth century. In Europe, this was a period that gave rise to aesthetics as a branch of philosophy, to several theories of the origins of human difference, to debates over the abolition of slavery, and to no fewer than fifteen expeditions to the Pacific Ocean. This course will investigate the crucial role that pictures played in all of these developments. Though students will not be required to write their research papers on pictures of Oceania, they should consider the central questions of the course: What purposes do the various conceptions of race serve? What are the aesthetic assumptions made by theorists of race? How do models of making art influence European ideas about foreigners? How do the pictures of foreign peoples impact the construction of race?

Requirements/Evaluation: class discussion, weekly reading responses, an oral presentation, and a 15- to 20-page research paper

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 434 (S) Renaissance Time

Time defines the Renaissance, whether framed as the "rebirth" of the past or the foundation of the present. Either way, past historians molded this period with time as their medium, fixing the Renaissance at the dynamic center of history. Flowing from historiographic foundations, this course will follow diverse art historical streams of Renaissance time to the present. How do Renaissance images play along by pointing to times outside of their frames? What are the implications for the historical worlds-the contexts-we build around objects in order to understand them? How do we navigate the role our own perspectives, interests, and desires play in the form we give to the past? How has time shaped the historic hegemonies of geographic place, and how might we re-deploy temporal strategies to dislodge them? This is a Renaissance course that explores topics fundamental to the
broader history of art, and one that ranges widely in focus from the theoretical to the concrete. We will base our discussions both on class readings and on object-based assignments in local museums designed to explore the living relationships we forge with the art of cultures long since gone. Accordingly, students will spend (lots of) time with Renaissance works at the Clark Art Institute, and work with/at WCMA to shape new narratives that bridge past and present while honoring them both.

**Class Format:** component of museum-based coursework

** Requirements/Evaluation:** class discussions and written preparation (students have a range of choices); two brief essays based on museum assignments (one with wall label); and a 10- to 15-page research paper

**Prerequisites:** one 100-level Art History course and any other Art History course, or permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** Art History and History majors and graduate students in the History of Art

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 435 (F) The Medieval Object**

**Cross-listings:** ARTH 535  ARTH 435

**Primary Cross-listing**

After years of focusing on theory, scholars of medieval art have returned to an examination of physical objects. Distinctly strange and even monstrous, such small material things as reliquaries, liturgical vessels, game pieces, and textiles transgress the traditional categories of art, some made from precious materials and others of such base substances as bones and dirt. Even books were treated as tangible things, not only to be read as texts, but also to be looked at, paraded, and displayed with the Eucharist. Collected in church treasuries during the Middle Ages, exchanged, and reconfigured, medieval objects served simultaneously as earthly assets and spiritual investments. The seminar will focus on the making, function, and collecting of medieval objects. Each student will participate in weekly discussions stimulated by the instructor's presentations and selected readings. Students will also conduct research on an object available for study, will present an analysis of it for discussion by the class, and submit a 15- to 20-page term paper taking into account any comments and criticisms.

**Class Format:** three hours per week

**Requirements/Evaluation:** class participation, oral presentation, 15- to 20-page research paper

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** Art majors and Art History graduate students; 16 (8 undergrad, 8 graduate)

**Expected Class Size:** 14

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 535 (D1) ARTH 435 (D1)

Not offered current academic year

**ARTH 436 (S) Demigods: Nature, social theory, and visual imagination in art and literature, ancient to modern**

**Cross-listings:** ENVI 436  ARTH 436  CLAS 436

**Primary Cross-listing**

Horse-men, cat-women, goat-men, tree-women, man-bulls, fish-girls, snake-people--cross-species compound creatures are everywhere in ancient Greek and Roman art, poetry, and culture. The conceptual or cognitive value of those "demigods" has changed over time. In art, demigods have frequently been reduced to the status of decoration, and in literature, they have become generic markers of fantasy. But they are hardly without meaning. Embodied in satyrs, centaurs, nymphs, and other demigods is a vision of an alternative evolutionary and cultural history. In it, humans and animals live together. The distinction between nature and culture is not meaningful. Male and female are equal. The industrial revolution never happens. This course traces the history of demigods from its origins in ancient Greek art and poetry until today. We pay special attention to three
points: the relationship between mythology of demigods and ancient political theory about primitive life; evolving conceptions of nature, the origin of species, and the environment; and the capacity of the visual arts to create mythology that has a limited literary counterpart. The first half of the course examines the origins and character of the demigods, in works of ancient art, e.g. the François vase and the Parthenon, as well as ancient texts, including Hesiod's Theogony and Ovid's Metamorphoses. We examine relevant cultural practices, intellectual history, and conceptions of nature, in texts such as Euripides' Bacchae, Plato's Phaidros, and Lucretius' De rerum natura. We will consider in detail ancient theories of the origins of species as well as the relationship between nature and human culture. The second half of the course investigates the post-classical survival of demigods. We consider the "rediscovery" of demigods in the work of Renaissance artists such as Botticelli, Michelangelo, Dürer, and Titian, and the rediscovery of ancient materialist theories of nature and culture. We consider in detail the important role played by demigods in the formation of Modernism in art and literature. Key texts include Schiller, "Naive and sentimental poetry," Nietzsche, Birth of Tragedy, Mallarmé, "L'Apres midi d'une faun," Aby Warburg's cultural-historical texts, and Stoppard's Arcadia. Problems include the relationship between nymphs and prostitutes in Manet, and the meaning of fauns and the Minotaur in Picasso. We conclude with demigods in popular culture such as the Narnia chronicles or Hunger Games.

Class Format: Lecture and discussion. When possible, we will meet outdoors in person; when that is not possible, we will meet online.

Requirements/Evaluation: The requirements of the course include: attendance and participation in discussion; preparing summaries/analyses of reading assignments for discussions; one presentation on a research project, and one 20-page paper on the research project.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: art history majors, graduate students in art history, classics majors, then any interested student

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Unit Notes: This course will satisfy the seminar requirement in art history.

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021

SEM Section: H1 MR 1:30 pm - 2:45 pm Guy M. Hedreen

ARTh 438 (S) Ambrotypes to Instagram: Photography and the Human Portrait

"A portrait! What could be more simple and more complex, more obvious and more profound?" exclaimed the nineteenth-century poet and critic Charles Baudelaire. With the invention of photography in the first half of the nineteenth century and with the digital revolution of the twentieth, portraiture arguably became more simple and more complex, more obvious and more profound. In this seminar, we will explore this complicated and fascinating history. Photographic portraits are fine art and vernacular culture. They serve private and public functions. They help to fashion the self and construct group identity. They disguise and disclose the truth. In the classroom, galleries, and archives, we will investigate the problems of likeness and semblance, veracity and credibility. We will delve into the conflict between representations of individuals and representations of types, and we will attend to the complicated, sometimes fraught, relationship between photographer and subject, even when they are one and the same.

Requirements/Evaluation: class participation, short essays, individual presentations, and a final research paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Art History majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

ARTh 440 (F) Contemporary Exhibitions: Los Angeles and Latin America (DPE)

Cross-listings: LATS 440 ARTH 440

Primary Cross-listing
This seminar examines connections between Latinx and Latin American art through a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time: LA/LA that opened in 2017. While the chronological span for the overall project reaches from Pre-Colombian art to present, we will focus on modern and contemporary art after the 1960s and consider key themes of art and activism, borders and diaspora, globalism and modernism, and popular culture and science fiction in the visual arts. Diverse in scope, these shows explored important developments in the arts of the Americas from the late-20th and 21st centuries, including, abstraction, Chicano muralism, Conceptual art, craft, feminist art, Kinetic art, Modernist design and architecture, social practice, and queer activism. Students will pursue individual research projects directly related to the art exhibitions we study, and examine photography, performance, painting, sculpture (including installation and participatory art), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation: several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages
Prerequisites: ARTH 102 (graduate students are exempt from the prerequisite)
Enrollment Limit: 15
Enrollment Preferences: senior Art majors and senior Latina/o Studies concentrators
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
LATS 440 (D2) ARTH 440 (D1)

Difference, Power, and Equity Notes: Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

Not offered current academic year

ARTH 442  (F)  Richardson, Sullivan, Wright: The Roots of American Modernism
Should a building express the facts of its program and materials--directly and without sentimentality? Or should a building be a physical manifestation of the personality and ego of its creator? These demands--one of radical objectivity, and one of radical subjectivity--seem to be mutually exclusive, yet together they form the basis for modern architecture at the start of the 20th century. The architectural lineage of Louis Sullivan, H. H. Richardson, and Frank Lloyd Wright is distinguished by the high degree of tension between the competing demands of factuality and selfhood. This seminar explores the theoretical roots of their architecture, its philosophical sources in transcendentalism, Unitarianism, German romanticism; and treating such aspects as decorative arts, architectural education and theory, and architectural autobiography.

Requirements/Evaluation: one hour presentation, 20-page paper
Prerequisites: any 100-level ARTH course or consent of instructor
Enrollment Limit: 11
Enrollment Preferences: senior Art majors and graduate students
Expected Class Size: 9
Grading: no pass/fail option, yes fifth course option
Distributions: (D1)

ARTH 462  (F)  Art of California: Pacific Standard Time  (DPE) (WS)
Cross-listings: ARTH 462  AMST 462  ARTH 562  LATS 462
Primary Cross-listing
In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and
queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation: Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: senior Art major and senior Latina/o Studies concentrators

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 466 (S) Hellenistic Art and the Beginning of Art History

Cross-listings: ARTH 466 CLAS 466

Primary Cross-listing

The Hellenistic Period (323-31 BCE) saw the small city-states of the Greek peninsula replaced by far flung kingdoms as important centers of power and culture. In the wake of Alexander the Great's extension of the borders of the classical world all the way to the banks of the Indus River, increased trade, and the movement of individuals between Greece, Egypt, and the Near and Middle East encouraged innovations in philosophy, medicine, religion, literature and art. In fact, a revolution in artistic ideas and forms centered on the social and ethnic diversity of human experience. Royal patrons, and wealthy private citizens including an increasing number of women, commissioned artworks for cities, sanctuaries, tombs, palaces, and estates on a scale rarely seen before. And with the rise of Rome, plundered artworks of earlier periods soon became the desired objects of wealthy collectors, contributing to a mashup of stylistic influence. In this course we'll look closely at influential works of art in bronze, marble, fresco, and mosaic, where artists push the limits of their media in order to express emotional states ranging from pathos to ecstasy, from the mental exhaustion of a defeated athlete, to the cool restraint of a powerful ruler. We'll attempt to understand the conceptual and cultural forces that encouraged artistic innovations of the fourth century BCE through first century CE. We'll also look for the influences of Hellenistic art on artists and writers from the Renaissance to the present day. Reading material includes ancient literature in translation, recent surveys of Hellenistic art, and recent critical essays.

Requirements/Evaluation: Students are responsible, in groups of 2 or 3, for leading discussions based on selected readings. A 5-page midterm paper, and two oral reports –one 6 minutes in length, the other 15-20 minutes in length-- will help form the basis for a 15-18 page research paper on a specific artwork or concept in Hellenistic art, or the adaptation of Hellenistic artworks or themes in later periods, that will be due at the end of the semester. A museum visit may be possible, depending on circumstances.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Art majors, and then to students of any major interested in art and thought in the ancient Mediterranean world, with
Expected Class Size: 10

ARTH 468 (S) Practicum in Curating: Visual Art for a Garden
Cross-listings: WGSS 468 ARTH 468
Primary Cross-listing
This course aims to develop the wide range of skills needed to realize an art exhibition in a botanical garden (specifically Marie Selby Botanical Gardens in Sarasota where the instructor is Curator at Large. The course responds to her charge to exhibit artists with 100% name recognition for the first five years of Selby’s new “Living Museum” initiative which puts works of art in dialogue with botanicals. In the wake of shows devoted to Marc Chagall (2017), Andy Warhol (2018) and Paul Gauguin (forthcoming, 2019), each student will research and choose a non-male and/or non-white artist of some renown and construct an exhibition of works that might be possible to borrow. Course work includes 1) research on the artist and the concept, the focal works of art, auxiliary objects that do not require climate control (e.g. photographs and other works on paper), social history and other methodological frameworks 2) writing requests e.g., loans, rights; and 3) preparations for several of the following: press release, wall texts, wall labels, audio guide, and programming for the exhibition. The final project includes a 10-page synthetic research paper, written for a general audience, about the artist and their use of flowers as well as the projected installation of the climate-controlled gallery. Students may have the opportunity to participate in a WSP in situ in which they will experience all sectors of the museum, glass house, and gardens.

Class Format: this is a practicum so while it meets 3 hours/week as a seminar does, it is hands on in a different way (e.g., co-peer and one-on-one reviewing by me in class)
Requirements/Evaluation: in-class presentations of research (weekly or bi-weekly), a substantive annotated bibliography, several short writing assignments (e.g. letters, queries, reviews), reading and critiques of others' work, in-class presentation of two drafts of the final paper and installation
Prerequisites: at least one 100-level course in ARTH
Enrollment Limit: 10
Enrollment Preferences: junior and senior art majors, especially those who have had either methods or a senior seminar and/or those with strong research, writing, and design skills
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: field trip expenses that may not be funded by the department (not to exceed $100)
Distributions: (D1)

Not offered current academic year

ARTH 472 (F) Timelines
Art is really time-consuming--to make, to view, to use, to understand. We enshrine it, excavate it, curate it, deploy it and sometimes we deliberately destroy it. We are always telling stories about the stuff. We seem to think that we control these many fabled things, though they meddle endlessly in the spaces between self and other, human and divine. Great art can be inspiring, enabling people to transcend time, or it can be traumatizing, making time stop altogether. Or both! To explore such powers, we will begin in the 19th century, when commonplace notions of past and present wobbled seriously with the invention of photography and the avid pursuit of archaeology. Thereafter, we will operate across time and space, with particular reference to the Middle East, where art has figured in many religions and also many conflicts. There will be no single story-line, but rather a series of case studies and hands-on projects; we will consider materials ranging from iconic paintings and sacred spaces to calendar art and photojournalism. Along the way, creativity and iconoclasm will be recurring themes. Choose this class if you are curious about the agency and power
that art wields in our lives.

Class Format: will include making, breaking, and writing as well as discussion of assigned readings

Requirements/Evaluation: regular attendance and active class participation, Glow Posts, term project

Prerequisites: one studio or art history class

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

ARTH 474 (S) Brazilian Art in the 20th Century: Aesthetics, Internationalism, Utopia

In 1924 the modernist poet Oswald de Andrade radically called for Brazilians to engage in cultural "anthropophagy"—to cannibalize from European modernist ideas and synthesize these with local aesthetic and cultural values. Toward the mid-20th century, the narrative of Brazilian art was marked by the desire on part of artists and intellectuals to problematize its place in Latin America, and vis-à-vis the European avant-gardes. They did so with a strong utopian perspective, developing aesthetic strategies to confront and transcend Brazil's underdevelopment. Yet ideas around nationalism, internationalism, and utopia shifted dramatically when a military dictatorship came to power between 1964 and 1985. How did artists and intellectuals rethink the role of aesthetics in such critical sociopolitical conditions? How did these terms shift again after Brazil returned to democracy, and soon aggressively entered an increasingly globalized economic system? Our seminar will delve into these complex relationships for a comprehensive understanding of the development of modern and contemporary Brazilian art. This is a Writing Intensive course, and there are no prerequisites to enroll.

Requirements/Evaluation: weekly presentations, two review exercises, four 5-page papers

ARTH 494 (S) Thesis Seminar

To graduate with honors in art history, students are to enroll in the Senior Honors Seminar during the Spring semester of their senior year, where they will develop an original research paper based on prior research. Under the guidance of the instructor, students will present and defend their own work in both written and oral form, as well as respond to, and critique, the work of their peers. As students work toward transforming their existing paper into an honors’ thesis, they will also be trained in skills necessary to analyze an argument effectively, and strategies of constructive critique.

Requirements/Evaluation: once in the seminar, students will revise, refine and expand on previous research and produce a paper of approximately 25 pages and present a shortened version of the paper to the faculty and public at the Williams College Museum of Art

Prerequisites: for requirements of entry into the course, please see "The Degree with Honors in Art, Art History"

Enrollment Limit: 8

Enrollment Preferences: permission of instructor required

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the Art History seminar requirement

ARTh 500 (F) Clark Visiting Professor Seminar: writing TO art

Cross-listings: ARTH 500 ARTH 400

Primary Cross-listing

In this seminar, we will think about writing TO art and for it, rather than merely about it; but first, we will think about how we think. I intend that we read essays and stories that confront the ways in which we think. That might sound abstract, but in fact it is rather concrete: we bring to works of art our predilections or tastes, psychologies, politics, habits of mind, in short, our subjectivity. We are not blank slates, art is not, either. Art is layered with its own history, and histories, criticisms, reactions, rejections, movements. Art is not static. How do we writers move with art, confront our reactions, and ask why we have them. To me, one of the most important aspects in writing is judging one’s own reactions, for instance, in the choice of words. To that end, that of confronting our thinking, we will read, among other things: Adorno’s “Coming to Terms with the Past;” Joan Scott’s “The Evidence of Experience;” Kafka’s “Josephine the Mouse Singer and the Mouse People,” and “The Hunger Artist;” Freud’s “Notes on War and Death,” and Craig Owens’, “On Speaking to Others” and “Feminism and Post-Modernism.” We will also read some of my anti-art art criticism, or what I call stories written in relationship to art. Some of these employ fictions, some not. We will read a few of my “Madame Realism” pieces, as well as essays on Warhol and some other contemporary artists. We will do some writing. We will visit with or be visited by critics and/or artists. We will look at art in galleries, and write about what we have seen.

Requirements/Evaluation: writing assignments, participation

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: graduate students get preference; places for 8 undergraduate and 8 graduate students assured

ARTh 501 (S) Museums: History and Practice

Cross-listings: ARTH 303 LEAD 301 ARTH 501

Primary Cross-listing

Art museums not only express the political, economic and cultural values of their period of formation, but the evolution of those values that have
resulted in today's arts institutions. Looking at museums past and present internationally, the seminar will envision the future of museums as we recognize the programmatic trends developing in our own moment of civic and social unrest. The class will consider this future while examining existing governance and management policies and practices, the role of architecture and installation in interpretation and experience, guidelines in the accessioning and deaccessioning works of art, and issues in repatriation and restitution of cultural property. Surveying museums ranging in size and type from the "encyclopedic" to newly established contemporary arts institutions and alternative spaces, we will investigate current trends in acquisition, exhibition, educational programming in light of the equity and social justice demands of our time. With our goal of imagining art museums in the future, class discussions will have a special focus on how museums might strive to balance their traditional scholarly and artistic responsibilities with their heightened civic and social roles, doing so while maintaining financial stability in the increasingly market-driven, metric-conscious, not-for-profit environment of our time.

Requirements/Evaluation: oral presentations and discussion in class and one seminar paper (with class presentation) at the end of the semester

Prerequisites: undergraduates should email michael.conforti@williams.edu to schedule a discussion before registering for the course

Enrollment Limit: 10

ARTH 503  (S) Clark Visiting Professor Seminar: Art and Law

Cross-listings: ARTH 503  ARTH 403

Primary Cross-listing

In the 1960s, artists began to engage conspicuously with legal ideas, rituals, and documents. The law—a primary institution subject to intense moral and political scrutiny—was a widely recognized source of authority to audiences inside the art world and out. Artists frequently engaged with the law in ways that signaled a recuperation of the integrity that they believed had been compromised by the very institutions entrusted with establishing standards of just conduct. These artists sought to convey the social purpose of an artwork without overstating its political impact and without losing sight of how aesthetic decisions compel audiences to see their everyday world differently. Addressing the role that law plays in enabling artworks to function as social and political forces, this course explores the question of an "applied art history," namely, how art history might intervene or inflect extra-artistic institutions such as the law. Topics to be considered include: artists' rights, human-animal relationships, globalism as extraterritoriality, what "agreement" means in concept and practice.

Requirements/Evaluation: research paper, class presentations

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students; places for 8 undergraduate and 8 graduate students assured

ARTH 504 (F) Proseminar in Research and Method

In this graduate Proseminar on Research and Method, we will read a number of texts that form the foundation of art history as a discipline, including the writings of Plato, Panofsky, Lessing, Heidegger, Wölflin, and Barthes (among others). We will study these works against the grain, considering how art history is currently transforming under the fields of ecology, disability studies, queer theory, and radical black feminism. Students will work closely with the collections of the Clark to theorize how absences are integral to institutional histories, and we will think about how we can, as historians, responsibly address voices that have been removed from the canons of art history. This course considers not only central writings of art historical methodology but also the limits for decolonizing art history and the museum, as we will examine how the formation of the discipline depended upon absenting critical perspectives and voices.

Class Format: in-person seminar with option to attend remotely, remote learning after Thanksgiving

Requirements/Evaluation: class participation, writing assignments

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art

ARTH 506 (S) Expository Writing Workshop

This writing seminar for graduate students in Art History will afford intensive full group discussions of writing skills and substantial one-on-one writing consultations (to be held on Google Meet). Group discussions will center on three kinds of texts: Writing about writing, published writing in the discipline of Art History, and student writing in progress. In six such discussions we will improve our vocabulary and method for discussing writing; we will learn to build better and more sophisticated sentences, paragraphs, and arguments; and we will practice anticipatory reading and writing in order to strengthen our control of both voice and structure. Each discussion will be supported with both exempla and exercises, and our watchword in all cases will be "revision." In one-on-one consultations (3-4 per person), I will offer tailored critique of each student's work, setting aside time as needed to troubleshoot sentences, paragraphs, or arguments together.

Requirements/Evaluation: class participation, participation in consultation meetings, writing assignments,

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

ARTH 507 (S) Object Workshop

Meeting for six sessions over the semester, this workshop is designed to introduce first-year graduate students to technical, material, and connoisseurial perspectives relevant to the study and analysis of art objects. We will draw on local collections and expertise for our case studies.

Requirements/Evaluation: participation

Prerequisites: none

Enrollment Limit: none
Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art

Grading: pass/fail option only

Distributions: (D1)

Not offered current academic year

ARTH 508 (S) Art and Conservation: An Inquiry into History, Methods, and Materials

This course is designed to acquaint students with observation and examination techniques for works of art, artifacts, and decorative arts objects; give them an understanding of the history of artist materials and methods; and familiarize them with the ethics and procedures of conservation. This is not a conservation training course but is structured to provide a broader awareness for those who are planning careers involving work with cultural objects. Sessions will be held at the Williamstown Art Conservation Center, Williams College, the Clark Art Institute, and the Governor Nelson A. Rockefeller Empire State Plaza Art Collection in Albany. Examination questions may be formulated from exhibitions at these locations. Six exams will be given. Exam scores will be weighed in proportion to the number of sessions covered by the exam (e.g., the paintings exam, derived from six sessions of the course, will count as 25% of the final grade).

Class Format: slide presentations, lectures, gallery talks, hands-on opportunities, technical examinations, and group discussions

Requirements/Evaluation: attendance is required at all sessions; the course grade is based on exams given throughout the semester; there is no final exam

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Graduate Program students, then students in art history or studio art

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 509 (S) Graduate Symposium

This course is designed to assist qualified fourth-semester graduate students in preparing a scholarly paper to be presented at the annual Graduate Symposium. Working closely with a student and faculty ad hoc advisory committee, each student will prepare a twenty-minute presentation based on the Qualifying Paper. Special emphasis is placed on the development of effective oral presentation skills.

Class Format: symposium

Requirements/Evaluation: each student will present three practice runs and a final oral presentation at the symposium

Prerequisites: successful completion and acceptance of the Qualifying Paper

Grading: pass/fail option only

Unit Notes: limited to and required of second-year students in the Graduate Program in the History of Art

Distributions: (D1)

Not offered current academic year

ARTH 510 (F) Approaches to Drawing from Connoisseurship to Conceptualism

This course will consider the art of drawing as a pedagogical tool and cultural practice from the sixteenth to the twentieth century. Creative and commercial forces over four centuries have fostered different types of and reasons for production: presentation drawings in sixteenth century Italy, an increased market for drawings in seventeenth century Holland, a fashion for powdery pastels in eighteenth century France, and the critical promotion of drawing as a form of autographic thinking in the nineteenth century. Drawing has enjoyed a resurgence in the last fifty years as Minimalism and Conceptualism have the pushed the medium’s boundaries. Equal consideration will be given to the history of collecting and to materials from the invention of the Conté crayon to the deteriorating effects of acidic paper. The seminar will coincide with a major loan exhibition at the Clark of over one hundred drawings from the Renaissance through contemporary: Drawing in Depth: Master Drawings from the Thaw Collection. The class will be held in the Manton Study Center for Works on Paper and the Clark galleries with visits to the Williams College Museum of Art.

Requirements/Evaluation: involved class participation, several short presentations, one short paper, and a final paper approximately 20 pages

Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: Graduate Program students and then to senior Art History majors
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

ARTH 512 (F) Why Look at Animals? Some Contemporary Positions
This seminar, named for a 1977 essay by the art critic John Berger, considers a recent tendency in contemporary art to see nonhuman animals less as objects for human delectation-to be owned, eaten, or symbolized with-than as subjects, endowed with specific forms of intelligence, agency, and/or cross-species kinship. We will take as case studies the work of artists such as Francis Alÿs, Xu Bing, Sue Coe, Coco Fusco, Pierre Huyghe, Jochen Lempert, Chris Marker, and Lin May Saeed, among others. Readings will come in part from the rapidly growing, multidisciplinary field of animal studies. In the process, we will consider concepts such as animacy; animal ethics; animalization; the anthropocene; biopolitics; and posthumanism. This seminar anticipates two exhibitions concerning animals at the Clark in Summer 2020.
Requirements/Evaluation: active class participation, presentations, writing assignments
Prerequisites: none

Enrollment Limit: 14
Enrollment Preferences: MA students, then advanced Art History undergraduates
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

ARTH 515 (F) Creating Whiteness: Racial Taxonomies in 'American' Art, 1650-1900
Cross-listings: AMST 355 ARTH 515
Primary Cross-listing
"What is race?" "How is a race created?" "What are the racial histories and subsequent political implications of 'American' art?" These are the central questions of our exploration. Drawing on two centuries of making in the Americas—from 17th century casta paintings of New Spain to the pictorialist photographs of Fred Holland Day—this object-based seminar for graduate students (and undergraduates with instructor's approval) draws upon area collections (including WCMA and The Clark Art Institute) to make the argument that racial ideologies have always been sutured to definitions of an American canon. Our approach is the case study: devoting one or two class meetings to the exploration of eight specific moments/artists in order to engage with the intersectional ideologies of personal and collective identity, e.g., self and the Divine; portraiture and the nation, armed conflict, and the constructed mutabilities of gender and sexuality. Additional artists and topics include: the Stuart family's images of George Washington and Thomas Jefferson; advances in photographic technology vis-a-vis the amputated bodies of Civil War veterans; gender fluidity in John Singer Sargent; and the equation of homoeroticism and black bodies in pictorialism. Designed to provide breadth and specific moments of depth, we will be covering processes of making across multiple mediums and time periods. An elementary reading knowledge of French, Latin, Portuguese, and/or Spanish will not go amiss.
Requirements/Evaluation: research paper, presentations
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Why do buildings need words, or do they? For most of the world and most of history, buildings are made without the benefit of formal architectural thought. But at various times, ideas about the aesthetics of buildings, their cultural and philosophical meaning, and their underlying principles, have been matters of great public interest. And architectural theory—in the form of treatises, manifestos, and critical reviews—has exercised an enormous effect on building. This theory can be prescriptive, presenting categorical rules for making good buildings; it can be descriptive, looking at how buildings perform in the real world; and it can be radical, seeking to change the essence and definition of architecture. Theory seemed very important to architects twenty years ago, but no longer. Why is that? We will investigate. Students will give short presentations on key theorists, such as Vitruvius, Alberti, Palladio, Laugier, Boullée, A. W. N. Pugin, Viollet-le-Duc, Gottfried Semper, Le Corbusier, and Robert Venturi. The semester will conclude with a 15- to 20-page seminar paper, based on comments and discussion following a classroom presentation.

Requirements/Evaluation: class participation, writing assignments
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: MA students, then advanced undergraduates
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

since the fifth century. The focus of attention in this regard was the portal, which marked the threshold between the profane realm of the outside world and the sacred space of the church. Often characterized as the "marquee of the Middle Ages," the Romanesque sculpted portal, with its startling juxtaposition of the spiritual and the physical, of ecstatic visions of the heavenly realm and writhing, biting monsters, constitutes one of the true high-points of creativity in medieval art. Through the lens of modern scholarship, this seminar will investigate the antecedents and origins of the Romanesque sculpted portal and examine in detail its most renowned manifestations. Emphasis will be placed on understanding these often complex sculptural schemes within their original functional and material contexts, especially in terms of how they helped to create the sacred space of the church behind. Students will then have the opportunity to develop their own research projects, informed by what we have learned in the seminar, but focused on an example of sacred threshold art of their own choosing.

Requirements/Evaluation: class discussion/participation, oral presentation, and a 15- to 20-page research paper

Prerequisites: permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Art majors and graduate students

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

ARTH 524  (F)  The Watchful Object

What is implied by an object that "watches"? Is it sentient? Animate? Through what apparatus does it gain the power to perceive and in turn generate some type of action? Watchful objects--sometimes known problematically as 'fetishes,' 'idols,' and 'totems'--have existed in numerous material cultures in Africa over time and have often been saddled with titles and labels that largely reflect colonial-era notions of primitivism linked with non-Western objects, spaces, and peoples. Even today, many of these objects are still inappropriately connected to systems of the occult rather than being recognized as crucial cogs in the socio-political, cultural, and spiritual mechanics of lived experience on the continent both past and in some cases present. The purpose of this seminar, thus, is to unpack the multiple identities that these objects have experienced as a way of understanding 1.) the circumstances and situations that catalyzed their production; and 2.) how their various material and metaphorical components function as power-producing elements that enable these forms to become 'watchful' presences in society that operate in accordance with their 'observations' of the human condition. This course will also address how the psychological agency of many of these material traditions has prompted their inclusion and absorption within contemporary artistic practices as well, often in the form of productions and performances that provoke unsettling and often transformative experiences in viewers.

Requirements/Evaluation: in-class presentations, class discussion, and a final research project

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students

Expected Class Size: 12

ARTH 527  (F)  Acquiring Art: Selecting and Purchasing Objects For WCMA

Cross-listings: ARTH 527  ECON 227  ARTH 327

Secondary Cross-listing

How do museums acquire art? Factors considered in selecting objects include: the museum's existing collection, its mission, the availability of suitable objects, evaluation of the art historical importance of potential purchases, and the available budget. How can objects be identified and obtained at the most reasonable cost? How do auctions work and what strategies are best for purchasing works at auction? Is it more economical to purchase art at auction or to work with dealers or (for contemporary works) directly with artists? Do museums consider value in the same way as private collectors? What role does an object's history and condition play in the evaluation process? In this course students will work as teams to identify and propose
objects for addition to the collection of the Williams College Museum of Art (WCMA). A significant budget will be made available for the acquisition. We will discuss approaches for identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA curatorial staff, one or more of these objects will be acquired using the agreed strategy, and the object will become part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be required to submit three papers, dealing with the objects, the likely cost, and the best strategy

Prerequisites: ECON 110 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: senior majors in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

ARTH 530  (S)  Demigods: Nature, Social Theory, and Visual Imagination in Art and Literature, Ancient to Modern

Cross-listings:  ARTH 530  CLAS 236

Primary Cross-listing

Embodyed in satyrs, centaurs, nymphs, and other demigods is a vision of an alternative evolutionary and cultural history. In it, humans and animals live together. The distinction between nature and culture is not meaningful. Male and female are equal. The industrial revolution never happens. This course traces the history of demigods from its origins in ancient Greek art and poetry until today. We pay special attention to three points: the relationship between mythology of demigods and ancient political theory about primitive life; evolving conceptions of the environment, and the capacity of the visual arts to create mythology that has a limited literary counterpart. The first half of the course examines the origins and character of the demigods, in works of ancient art, e.g. the François vase and the Parthenon, as well as ancient texts, including Hesiod's Theogony and Ovid's Metamorphoses. We examine relevant cultural practices, intellectual history, and conceptions of nature, in texts such as Euripides and Lucretius. The second half of the course investigates the post-classical survival of demigods. We consider the "rediscovery" of demigods in the work of Renaissance artists such as Botticelli, Michelangelo, Dürer, and Titian. We consider in detail the important role played by demigods in the formation of Modernism in art and literature. Key texts include Schiller, "Naive and sentimental poetry," Nietzsche, Birth of Tragedy, Mallermé, "L'Apres midi d'une faun,"Aby Warburg, and Stoppard's Arcadia. Problems include the relationship between nymphs and prostitutes in Manet, and the meaning of fauns and the Minotaur in Picasso. We conclude with demigods in popular culture such as the Narnia chronicles or Hunger Games.

Requirements/Evaluation: attendance, participation in discussion, one short presentation on a demigod in ancient art, one longer presentation on demigods in early modern, modern, or contemporary art, and a 20-page research paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: first year graduate students, then second year graduate students; undergraduates by permission only

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

ARTH 530 (D1) CLAS 236 (D1)

Not offered current academic year

ARTH 535  (F)  The Medieval Object

Cross-listings:  ARTH 535  ARTH 435
After years of focusing on theory, scholars of medieval art have returned to an examination of physical objects. Distinctly strange and even monstrous, such small material things as reliquaries, liturgical vessels, game pieces, and textiles transgress the traditional categories of art, some made from precious materials and others of such base substances as bones and dirt. Even books were treated as tangible things, not only to be read as texts, but also to be looked at, paraded, and displayed with the Eucharist. Collected in church treasuries during the Middle Ages, exchanged, and reconfigured, medieval objects served simultaneously as earthly assets and spiritual investments. The seminar will focus on the making, function, and collecting of medieval objects. Each student will participate in weekly discussions stimulated by the instructor's presentations and selected readings. Students will also conduct research on an object available for study, will present an analysis of it for discussion by the class, and submit a 15- to 20-page term paper taking into account any comments and criticisms.

Class Format: three hours per week
Requirements/Evaluation: class participation, oral presentation, 15- to 20-page research paper
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Art majors and Art History graduate students; 16 (8 undergrad, 8 graduate)
Expected Class Size: 14
Grading: no pass/fail option, yes fifth course option

ARTH 536 (S) Charles and Maurice Prendergast in WCMA Collections
This seminar will investigate the careers of Maurice and Charles Prendergast, who occupy curious positions in American art. Students will work closely with the art and archival collections of the Prendergasts at WCMA, which is the largest repository of their work in the world. Maurice's Post-Impressionism placed him at the forefront of American modernism in the first decades of the twentieth century, culminating with his inclusion in the infamous Armory Show of 1913. Charles, a leading frame maker before adapting techniques of his craft to create incised panels, intersects with the Arts & Crafts Movement, Symbolism, and vernacular material culture. While the brothers are firmly canonical, they are often regarded as isolated from major formal and iconographic concerns of their peers. Scholarship, much of it produced at WCMA, has often focused on their subject matter. Participants in this class will consider new material and theoretical approaches to the brothers' work that may (or may not) prove productive in resituating their place in American art.

Requirements/Evaluation: class participation and writing assignments
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: MA students, then advanced art history undergraduates

ARTH 537 (F) HIV + AIDS in Film and Video (DPE) (WS)
Spanning activist works, experimental film, Hollywood dramas and documentary, this course examines the role of moving images in the global AIDS crisis, its aftermath, and its ongoing aftershocks. The AIDS crisis of the 1980s and 1990s was, in the words of Larry Kramer, a 'plague' of epic proportions, with an entire generation obliterated before it could reach maturity. And yet, the plague years also spawned a remarkable amount of creative and activist image-making aimed at fighting, mourning, and grappling with AIDS. Now, we find ourselves in another pivotal moment: while the past decade has provoked a new wave of AIDS historiography, the COVID-19 pandemic has caused AIDS to reverberate with even greater force. Together, we will ask difficult and probing questions about this phenomenon called the 'AIDS epidemic,' examining the role of art in frontline activism, the ethics of AIDS historiography, mainstream visions of the AIDS body, and the need for a diversity of AIDS narratives. This seminar-style course will combine weekly screenings with readings, short writing assignments, student-led discussion, and a final research project of the student's design.
in order to facilitate robust discussions and maximize student and faculty safety, the majority of this course will occur online. It will contain some in-person experiences when possible.

**Class Format:** This course will be largely conducted online, in order to facilitate robust discussions and maximize student and faculty safety. It will contain some in-person experiences when possible.

**Requirements/Evaluation:** Students will be evaluated according to the following criteria: weekly attendance, readings and participation in seminar discussion; leading class discussion once during the semester; 3 short response papers; one paper of 20+ pages of original student research.

**Prerequisites:** MA student, Art History or Studio Art major, or instructor permission

**Enrollment Limit:** 10

**Enrollment Preferences:** MA students first, followed by Art History and Studio Art majors

**Expected Class Size:** 10

**Grading:** Yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will be required to conduct regular writing assignments which will culminate in a graduate-level research paper.

**Difference, Power, and Equity Notes:** This course explores an epidemic that had devastating effects on LGBTQ+ people, and has disproportionately affected communities of color. Questions of difference, power, and equity are absolutely central to the course.

---

**ARTH 538 (F) Realms of Earth and Sky: Indian Painting, ca. 600-1857 (WS)**

On the basis of technique, Indian painting forms a continuum from the beginning of the first millennium down to the mid-nineteenth century: an outline in ink filled with flat, opaque colors which are burnished between each layer to give them opacity. In its media, its subject matter, regional variation, range of patronage, and artistic virtuosity, it displays startling diversity. From the northern Himalayan hills to Mysore in the south, artists, often working in family workshops for royalty, priests and wealthy merchants, have adorned caves and temples, illustrated books, and created lavish albums with themes ranging from the sacred to the secular. The study of Indian painting itself is a vast, evolving body of literature that continues to oscillate between discussions of artistic style and a concentration on content and context. The aim of this seminar is twofold: to outline the development of Indian painting historically; and to understand the political, social and religious circumstances that produced some of the greatest masterworks in Indian art. How was Indian painting used? Who were the patrons? How does the art form reflect the particular cultural values of its time? As an analytic framework, the seminar will consider Indian miniature painting both in light of primary literary sources as well as through current scholarship.

**Requirements/Evaluation:** Class participation. Short weekly responses. Final 15- to 20-page paper to be developed with the instructor throughout the semester.

**Prerequisites:** none, open to all students

**Enrollment Limit:** 19

**Enrollment Preferences:** graduate students, undergraduate art majors

**Expected Class Size:** 8

**Grading:** No pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Students will submit short written assignments weekly. They will also be required to submit a final paper which they will develop throughout the semester. Students will receive comments and suggestions from the instructor on their writing skills.

---

**ARTH 540 (F) In Vinculus Invictus: Portraits in Prison**

Among all the portraits produced during the modern period, some have been painted or, more recently, photographed in prison. Portraits in prison exist at a crossroad of politics, law, and identity; they offer a great opportunity to think about art and society. Artists themselves have made self-portraits during their own imprisonments, or sometimes a portrait of one of their fellow prisoners. More often it was the prisoners or their relatives...
who commissioned an artistic record of their detention. The idea of commemorating such a moment, or to evoke it as a claim to fame, seems surprising at best, outrageous and provocative at worst. But there has been, since the 16th century, an enduring tradition of portraiture in prison with its masterpieces and its pantheon, a tradition that fits into the wider pictorial attention to the prison itself. With the French Revolution, the nature of prison changed. It became a tragic symbol of political "debates." Within a few years, a terrifying series of portraits appeared that would nurture Western political thought and visual culture until now. Since the 18th century, these portraits have become more concerned with ideas that stretch beyond the individual and into the realm of social justice, mass incarceration, and the prison-industrialization complex.

Requirements/Evaluation: oral and written assignments

ARTH 541  (F)  Aesthetics After Evolutionary Biology: Darwin, Nietzsche, Freud
This interdisciplinary seminar examines the rise of evolutionary biology, a new explanatory paradigm that solidified in Europe in the middle of the nineteenth century, and its ramifications in art and aesthetic theory in the late nineteenth and early twentieth centuries. We will consider how natural histories of creation, and corresponding reclassifications of the human as a species category, went hand in hand with a reconceptualization of the aesthetic faculties, and the processes of art's production and reception. A core component of this seminar will be the close study of key texts by Charles Darwin, and two thinkers who were among the most radical in extending his key insights into the domain of aesthetic theory--the psychoanalyst Sigmund Freud, and the philosopher Friedrich Nietzsche. These primary texts will provide points of departure for studying the work of a number of innovative practitioners working across a range of media, among them the composer Richard Wagner, the Neo-Impressionist painter Georges Seurat, the architect Adolf Loos, the choreographer Vaslav Nijinsky, and the art historian Aby Warburg. Methodologically a major aim of this seminar is to think together critically about the nature of art's relations to other domains of cultural production such as science or philosophy, and to interrogate what it means, both practically and epistemologically, to pursue "interdisciplinarity" as a strategy for art history.

Requirements/Evaluation: seminar presentations, research paper
Prerequisites: none

ARTH 542  (F)  Insubordinate Bodies: The Body in Conceptual Art in Latin America, 1960-1980
The use of the body-be it the artist's or those of willing and unwilling participants-is among art's most significant developments internationally since the 1960s. In Latin America between the 1960s and 1980s, activating the body not only was a strong conceptual strategy to escape object-based practices; it was also a potent way for artists to disobey and confront forms of violence and control exerted by repressive regimes. But the body too was a forceful medium by which artists could subvert heteronormative frameworks, through the visualization and performance of feminist critiques and queer identities. This seminar will explore the role of the body in Latin American conceptual art through localized case studies, elucidating the body's particular strength as a vehicle for political and institutional critique, as well as its potential to unlock alternate narratives of conceptual practices in the region.

Requirements/Evaluation: active participation and weekly assignments, leading class discussion, three short responses, and final research paper
Prerequisites: none
Enrollment Limit: 12
Expected Class Size: 10
ARTH 543  (F)  Color, High and Low

Why should color in prints be controversial? For most of the nineteenth century—even as technical advances encouraged a flowering of color in woodcut, intaglio, and especially lithographic production—entrenched voices in the art establishment continued to insist on printmaking as an art of black and white. Drawing upon a wide variety of examples from the Clark’s collection, this course will explore the range of associations that attached to color prints, along a broad spectrum from highbrow preciousness and subtlety to lowbrow commercialism and bad taste. Color lithography was a particular lightning rod for controversy: although chromatic experiments in this medium enabled striking aesthetic innovations, the extreme complexity of the process also meant that the designer of a print became farther and farther removed from its actual production. This was just as true for the delicate and exquisite suites produced in limited editions by Pierre Bonnard, Edouard Vuillard, and Maurice Denis as it was for the large-scale, brightly-colored lithographic posters of Jules Chéret and Henri de Toulouse-Lautrec, used to advertise popular urban entertainments. Alongside the close examination of original works of art, a set of critical and theoretical readings will help us navigate the paradoxes of printed color. Apart from the standard requirements, including a research paper and class presentation, students will have an option to participate in a summer 2020 exhibition based on the course findings. This course will take place in the Manton Study Center for Works on Paper at the Clark.

Requirements/Evaluation:  class participation and writing assignments

ARTH 544  (S)  Women Artists in Paris, 1850-1900

In this seminar, we will examine the historically undervalued contributions of women in the art of the later nineteenth century. During this period, leading artists from around the world, including many women, were drawn to the academies, museums, salons, and studios of Paris. While women were largely excluded from formal training, many nonetheless navigated the complex systems of artistic production. We will focus on this multinational group of talented women (including Marie Bashkirtseff, Rosa Bonheur, Anna Ancher, Mary Cassatt), and we will assess their work against contemporary sociopolitical thought and aesthetic theories. Readings will draw upon early critical reviews of public exhibitions, biographical materials, studies of pedagogical and institutional practices, and social histories of art. In and through these materials, we will explore the marginalizing narrative that was created for women artists in Paris, and, most importantly, we will reconstruct an alternative history through our discussions and class presentations.

Requirements/Evaluation:  seminar presentations and research paper

Prerequisites:  none

Enrollment Limit:  14

Enrollment Preferences:  preference given to graduate students and then to senior Art History majors

Expected Class Size:  14

ARTH 545  Architectural Theory in Crisis

Why do buildings need words, or do they? For most of the world and most of history, buildings are made without the benefit of formal architectural thought. But at various times, ideas about the aesthetics of buildings, their cultural and philosophical meaning, and their underlying principles, have been matters of great public interest. And architectural theory—in the form of treatises, manifestos, and critical reviews—has exercised an enormous
effect on building. This theory can be prescriptive, presenting categorical rules for making good buildings; it can be descriptive, looking at how buildings perform in the real world; and it can be radical, seeking to change the essence and definition of architecture. Theory seemed very important to architects twenty years ago, but that is not the case today. Why? We will investigate. Students will give short presentations on key theorists, such as Vitruvius, Alberti, Palladio, Laugier, Boulée, A. W. N. Pugin, Viollet-le-Duc, Gottfried Semper, Le Corbusier, and Robert Venturi. The semester will conclude with a 20-page seminar paper, based on comments and discussion following a classroom presentation.

ARTH 546  (F)  Texere: The Material Philosophy of Print and Textile, ca. 1500-1900

It is a commonplace in the literature on textiles that the words for both text and textile derive from the Latin texere: to weave. As this etymological root indicates, the action of making cloth provides the metaphorical structure by which we conceive of language from the threading of thought to the weaving of prose and poetry. In the recent theoretical writings of Tim Ingold, among others, the processes of weaving-textility-offer a model against which to conceive of the dominant hylomorphic conception of matter and form as a process of imprint. Instead, textiles illustrate a world that is created through forces in motion, never imprinting, but moving against and within one another. This seminar will use these questions as the starting point to examine the interaction between printed matter (embodying a hylomorphic process) and textile (a material challenge to hylomorphism). The Clark Art Library contains a preeminent collection of textile material, and this seminar will dive into the Mary Ann Beinecke collection to examine histories of gender and labor, figuration and ornament, mobility and place, and finally, form and matter. The case studies will range from sixteenth-century needlepoint model books to twentieth-century kimono design.

ARTH 547  (F)  The Studio, The Bedroom, & the Tomb: Artists and Artistic Biographies in the 19th Century&Beyond

How was the vocation of the artist thematized in the European cultural imagination in the Romantic age and its aftermath? Even more, how did artists themselves articulate, experience, and reproduce that sense of vocation?—What were its mythologies and poetics, at once as they were circulated in visual culture, but also as they were lived, experienced, and reproduced by artists themselves? We will explore such question across three historically, psychologically, and tropologically configured "sites": the artist’s studio, the artist’s desire, and the artist’s death. Readings by Freud, Balzac, Kris and Kurtz, along with scholarship largely centered on the visual arts of the 18th and 19th centuries. With instructor permission, students may undertake research projects in any field of the history of art.

Class Format: in person class with remote learning option, switch to all remote learning after thanksgiving

Requirements/Evaluation: presentations, research paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: graduate students, then advanced Art History major undergrads

Expected Class Size: 12
ARTH 548 (S) Landscape, Theory, Ideology

To use the term "landscape" is to imply and assume a subject position. Unlike the categories of "nature," "wilderness," "vista," or "ecology," a landscape is something invented and experienced (or observed, or represented, or cultivated) solely by human agents. The term "landscape" is variously deployed in the service of a range of political and philosophical positions. This seminar explores "landscape" as a fruitful agitation in critical theory and aesthetic discourse over the past thirty years. The course will interact with the artists and photographic works on view in the exhibition, Landmarks, a 150-year survey of landscape photography in WCMA's collection. We will examine i) how landscape as medium and as genre moves from literature to painting to photography; ii) how to read and employ contemporary theory in the service of artwork from bygone eras; and iii) we will ask who exercises the agency and privilege to name, to invent, to denote a space or a view as worthy of sight.

Requirements/Evaluation: class participation, writing assignments

Not offered current academic year

ARTH 549 (F) Art, Biology, Beauty

This interdisciplinary seminar is offered in conjunction with the upcoming RAP Colloquium scheduled for March 2020, "Beauty, Sexuality, Selection: Darwinian Revolutions in Aesthetics." (Seminar participants will be expected to attend.) Our theme will be Charles Darwin's controversial theory of "sexual selection" as both a historical idea of aesthetic response and beauty, and as a theoretical concept that is back in play in current evolutionary thinking. Readings will be drawn from ancient philosophy, current science, art history, the history of science, and other fields, to engage the following questions: how did the existence of difference in the organic world—gender difference broadly but also more specifically racial difference in the human species—motivate Darwin's theory of an "aesthetic evolution" driven by animal and human perception of visual beauty? How did philosophical aesthetics contribute to Darwin's biological theory of beauty, and how did Darwin's biological theory of beauty unsettle the discipline of philosophical aesthetics? In which ways did the arts and visual cultures of Europe and elsewhere shape Darwin's aesthetic assumptions? How did, and how does, the concept of sexual selection destabilize the concept of "art" as a human cultural activity? How might "sexual selection" complicate historical and current delineations drawn between nature and culture, between the innate and the arbitrary?

ARTH 550 (S) The History, Theory, and Problem of Connoisseurship

The museum and market have long relied upon the "talent" of a chosen few "connoisseurs," whose abilities (i.e. "the expert eye")-shrouded in mythology and vaguery-have profoundly influenced the interpretation of objects. This seminar will interrogate the problematic construct of connoisseurship in the market (Duveen), in the museum (Pope-Hennessy), and in the academy (Berenson). Through readings about the history and
theory of the practice from the sixteenth century to the modern day, we will reassess the meaning, and validity, of connoisseurship in visual culture. And, through conversations about authorship, working methods, and artistic intent, we will question what we learn from close looking. This seminar will include case studies using objects in the Clark's permanent collection, focusing on in-depth discussions of materials, techniques, attribution, quality, and the burgeoning field of conservation science. Students will be asked to conduct their own rigorous object-based research.

Requirements/Evaluation: class participation, writing assignments

ARTH 562  (F)  Art of California: Pacific Standard Time  (DPE) (WS)

Cross-listings: ARTH 462  AMST 462  ARTH 562  LATS 462

Secondary Cross-listing

In this course, we will study the visual arts and culture of California after 1960 and consider the region's place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation: Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: senior Art major and senior Latina/o Studies concentrators

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 462 (D1) AMST 462 (D2) ARTH 562 (D1) LATS 462 (D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Course themes of art and activism, borders and diaspora, globalism and modernism in the visual arts and how they intersect with the exploration of difference, power, and equity and the various ways that artists have produced works and developed practices that critically probe this intersection. Through discussion, presentations, and writing assignments students will develop skills in analyzing artworks and exhibitions that respond to and/or document social inequality and social injustice.

Fall 2020

SEM Section: R1   MW 6:45 pm - 8:00 pm   C. Ondine Chavoya

ARTH 563  (F)(S)  Contemporary Curatorial Workshop

Bi-weekly workshop for graduate students working on contemporary art and curatorial projects. Under the direction of the chair, students will present
on-going curatorial projects, undertake studio and site visits, host local and visiting curators for presentations, and explore key topics in modern and contemporary art and curatorial practice.

Class Format: workshop, meets all year
Requirements/Evaluation: no requirements except participation and attendance
Prerequisites: graduate art students
Enrollment Limit: 25
Enrollment Preferences: only open to graduate students
Expected Class Size: 25
Grading: pass/fail option only
Distributions: (D1)

Fall 2020
SEM Section: H1 M 4:00 pm - 6:00 pm Victoria Brooks

Spring 2021
SEM Section: H1 M 4:00 pm - 6:00 pm Victoria Brooks

ARTH 570  (S) Image-making, Orientalism and Visual Culture
Images enjoy extraordinary power in the spaces between self and other, human and divine. They play myriad roles--witness, surrogate, instigator, supplicant--and travel freely across political, religious and cultural boundaries. They are also subject to reproduction, alteration and destruction as disparate visual cultures interact and globalizing processes ensue. This course will focus on various regions--e.g. United States, France, Turkey, and the Perso-Islamic sphere--and the images that factor in the intervening spaces, from 1800 to the present. We will begin with the theme of self-fashioning and the peculiar nature of portraiture. Thereafter, the entanglement of religious beliefs and visual traditions will broaden our inquiry, leading us to contested dynamics like iconoclasm and aniconism, and reductionist types like veiled women and pious men. Along the way, proliferating and palimpsestic forms of Orientalism will oblige us to consider the very concept of global visual culture. Students will submit weekly GLOW posts to foster class discussion and undertake a major research project over the course of the semester.

Class Format: Remote synchronous
Requirements/Evaluation: Class participation, weekly oral presentations, 15-20 page term research project.
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Graduate students
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Spring 2021
SEM Section: R1 W 1:00 pm - 3:00 pm Holly Edwards

ARTH 575  (F) Regression as Modern Fantasy: Archaism, Primitivism, Prehistory
This course analyzes the implications of European modernity's engagement with cultural artifacts it wanted to classify beneath the prefix "pre." We take as our object an aesthetic strategy employed with increasing frequency by modern artists in Europe after 1800: the self-conscious mobilization of visual forms thought to telegraph priority to later advancements, whether historically or developmentally. Our inquiry, beginning with the German Nazarenes and extending into the early twentieth century around the moment of WW1, foregrounds such strategies as key to grasping new notions of temporality and geography that emerged in European modernity. We will inquire into the historical and intellectual contexts that sustained chronological and cultural primitivisms, including the history of colonialism, discoveries of Paleolithic cave art, and the emergence of the modern disciplines of archeology, anthropology, ethnography, child psychology, and psychoanalysis. Alongside close visual scrutiny of some of modernism's most canonical and problematic objects, including key works by Picasso and Gauguin, we will examine the literature that proliferated in this period devoted to the art of peoples deemed "primitive," including the Greeks in the pre-classical period, non-Western peoples, and children.
ARTh 576 (S) Paper, Process, Practice

Works on paper, particularly multiples, confound many of the received ideas around artistic invention and originality. This course will address the varied functions of printmaking in Europe over four centuries (1500-1900), giving special attention to the following questions: What is the relationship between prints and other artistic media? How do the material constraints involved in printmaking lead to a particular set of practices, and how in turn do those marry with technological advances to produce new aesthetic possibilities? To what extent did Old Masters such as Dürer and Rembrandt define the terms for later printmakers, and how did their example enable and/or discourage innovation in printed subject matter and style? What was the role of prints in creating both new forums for public discourse and new collecting publics? Arranged thematically rather than chronologically, this course will cover a wide array of printmakers and types of printed media.

Requirements/Evaluation: class participation, class presentation, research paper
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Art history MA students, then advanced undergraduates
Expected Class Size: 16
Grading: pass/fail option only
Distributions: (D1)

Spring 2021
SEM Section: H1  M 10:30 am - 12:30 pm  Anne R. Leonard

ARTh 577 Questions for Global Art History: A Workshop

Art history’s so-called “global turn” has been underway for over twenty years, but it would be difficult to say that it has yielded a consistent set of methodological approaches. When we consider a project global in scope does that mean simply thinking beyond national or regional designations? Are we looking for expansive networks of materials and makers? Evidence of intercultural exchange? In this seminar, we will begin by looking at several recent approaches to defining global art history and consider terms like contact, exchange, appropriation, transculturation, and cosmopolitanism. We will discuss the spatial vocabulary of oceans and borderlands and the dynamics of power engendered by colonialism, imperialism, and racialization. Thereafter, our weekly case studies will come from the students’ research projects. Though students are not expected to begin the seminar with an argument for their final paper, they should arrive with a topic in mind that pertains to a “global” art history subject in the period between 1500 and 1900 CE. In consultation with the professor, each student will then select readings to discuss with the group so we can work together to come up with questions and approaches that are commensurate to the topic. Our course may end in affirming the heterogeneity of global methods, deciding that this is a benefit rather than deficit. The collective aim is to understand, problematize, and reformulate the approaches available to us so that we can better address the topics that interest us as a group.

Requirements/Evaluation: Students are required to participate in discussion every week, lead one week of discussion, give a brief paper presentation, and submit a 20-page final essay.
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Graduate students, then advanced undergraduate students with permission of the professor.
Expected Class Size: 10
ARTH 582  (F)  On Race, Art, and Property
In her seminal article "Whiteness as Property," critical race theorist and professor Cheryl Harris contends that the legal system in the United States "has come to embody and legitimize benefits that accrue to citizens who are white." The legacy of our legal system, which has dehumanized people by rendering them as property and legalized the theft of land by colonizers from Native Americans, is not confined to the past, but has shaped our world and thrives within our present moment. How has this legacy and Harris' theory been explored in contemporary art? How might it allow us to revisit artworks and practices by canonical artists from alternative perspectives? This course aims to study aspects of this complicated history through a broad range of texts from legal and literary theory to art history to Black and Native American studies to more immediately authored texts published on social media platforms. Students are encouraged to think dexterously as we study works by Gordon Matta-Clark, Michael Heizer, Sondra Perry, Cameron Rowland, and Cauleen Smith--among others.

Requirements/Evaluation: presentations, writing assignments
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: If over-enrolled, by application
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Fall 2020
SEM Section: H1  T 1:30 pm - 3:30 pm  Meg Onli

ARTH 583  (F)  Graphic Content: Typography and the Book between Art and Design
This seminar considers the entangled histories of fine art and graphic design by focusing on creative practices surrounding the letterform and the book form from 1900 to the present. We will study historical avant-garde movements active in publishing and making-public; the development of the graphic design discipline, in print and on screen; and logocentric artistic tendencies from concrete poetry and pop art to conceptualism and artists' books. We will also consider diverse literary practices, graphic visualization, and political agitation. The seminar will make use of the Clark library's outstanding collection of artists' books and the holdings of the Chapin library at Williams. We will welcome several guests, including art historians, artist-designers, designer-artists, editors, publishers, and bookmakers.

Class Format: in person seminar with remote option, remote learning after thanksgiving
Requirements/Evaluation: class participation, class presentation, research paper/project
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Art History MA students, then advanced undergraduates. Course will be by application if overenrolled.
Expected Class Size: 10
Grading: pass/fail option only
Distributions: (D1)

Fall 2020
SEM Section: R1  W 1:30 pm - 3:30 pm  Robert Wiesenberger

ARTH 586  (F)  Japanese Popular Visual Culture
Cross-listings: COMP 186  ASST 186  ARTH 586  ARTH 286
Secondary Cross-listing
The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo-e, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Hagio), and animation (Oshii, Miyazaki, Kon). The class will also study material examples of Japanese popular culture on display in the Repro Japan exhibition at the Williams College Museum of Art. We will develop visual reading skills to come up with original interpretations of these works, and compare different media to make them shed light on one another.

**Class Format:** discussion

**Requirements/Evaluation:** attendance, participation, two 5-page papers, final exam

**Prerequisites:** none

**Enrollment Limit:** 35

**Enrollment Preferences:** students majoring or considering a major in a related discipline

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

- COMP 186 (D1)
- ASST 186 (D1)
- ARTH 586 (D1)
- ARTH 286 (D1)

*Not offered current academic year*

**ARTH 587 (S) Crash! The Car Accident as Myth and Metaphor in American Art and Visual Culture**

A year after MoMA elevated machinery to high art in 1934, Grant Wood painted Death on The Ridge Road (Williams College Museum of Art), a depiction of the deadly side of the streamlined modern machines that Alfred Barr might have presented at MoMA. A generation later, Andy Warhol's Death and Disasters series multiplied gruesome images of crushed cars and bodies to numbing effect. During the ensuing years, both Jackson Pollock and David Smith (among others) became traffic fatalities. Roughly bookended by the Great Depression and the 1960s, but also considering works of art and visual materials before and after those parameters, this seminar will explore the stakes of car crash imagery for American artists and culture. Readings may include topics in trauma studies, automotive technology, physics, posthumanism, law, and object oriented ontology as well as grounding participants in American art and history of the middle third of the twentieth century. Participants in the course will also have the opportunity to help shape the content, themes, and narrative of an exhibition on car accidents in American art being organized by WCMA.

**Requirements/Evaluation:** oral presentations and written assignments

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** graduate students, then advanced undergraduate Art History majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

*Not offered current academic year*

**ARTH 594 (S) Traveling Seminar: Slavery and the Dutch Golden Age**

This course takes as its starting point the exhibition at the Rijksmuseum opening in September 2019: Slavery, an exhibition. With this installation, the curators of the Rijksmuseum seek to correct dominant narratives of seventeenth and eighteenth-century Dutch history, which have absent the role of slavery in determining the economic, social, and visual history of the Netherlands. With a Travel Grant awarded by the College Art Association, the students in this seminar will travel to the Netherlands to visit this exhibition and other relevant cultural institutions in order to examine the possibilities and limits for 'decolonizing' the museum. This course will study how slavery is imbricated within the mythic construction of a 'Dutch Golden Age' while also examining what happens when the history of enslaved peoples becomes translated into the space of a museum and exhibition. We will consider a revisionist history of Dutch artistic production, accounting for slavery in determining the Dutch economy and visual production while also asking what happens when slavery becomes narrated in the space of one of the nation's history museums. We will read contemporary black feminist theory such as Sylvia Wynter, Saidiya Hartman, Hortense Spillers, and Christina Sharpe as a means to struggle with how the space of the exhibition chooses to activate and write those missing histories, and we will examine if it is even possible to responsibly tell the story of slavery over two centuries when the majority of the subjects have been completely defaced, removed, and excised from the historical record, and their voices are often the ones still

*The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. Winter Study ---------------------------------------------------------------

ARTH 31 (W) Senior Thesis: Art History

To be taken by students registered for ArtH 494. For requirements of entry into the course, please see "The Degree with Honors in Art, Art History" in the catalogue or on the Art Department's webpage.

Class Format: independent study

Enrollment Limit: 8
**Enrollment Preferences:** students need permission of the department to register for this course

**Grading:** pass/fail only

Not offered current academic year

**ARTH 33 (W) Honors Independent Study: Art History**
To be taken by candidates for honors by the independent study route.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year

**ARTH 99 (W) Independent Study: Art History**
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** Independent study

**Grading:** pass/fail only

Not offered current academic year

- Pallavi Sen, Assistant Professor of Art
- Stefanie Solum, Professor of Art
- Carolyn J. Wargula, Visiting Assistant Professor of Art
- Stephanie J Williams, Arthur Levitt, Jr. ’52 Artist-in-Residence

The Department offers students different paths to explore the vital connection between visuality and creativity. With courses of study in the History of Art and the Practice of Studio Art (or a combination of History and Studio), the Major is designed to train students to develop the technical, conceptual, critical, and historical tools they need to engage the visual world.

ADVISING

Majors are expected to discuss their choice of courses and path through the major with their advisor or another professor in the department. Official departmental advisors for each route through the major (listed here below) are available to field general questions concerning curriculum, requirements, and planning to study away.

Art History Faculty Advisor: Guy Hedreen
Art Studio Faculty Advisor: Amy Podmore
ART STUDIO

The Studio division of the art major has been structured to develop students’ perceptions and imaginations as they investigate a variety of visual media and to foster the development of a critical understanding of making art to support creative interests.

Major Requirements

The Studio Art major requires a minimum of nine courses:

- ARTS 100 Drawing I
- One art history course (preferably taken by the end of the junior year)
- A combination of at least three 100 and 200-level courses in three different media (ARTS 100 and tutorials do not satisfy this requirement)
- ARTS 319 Junior Seminar
- One 300-level ARTS course
- One elected ARTS course
- ARTS 418 Senior Seminar

The numbered sequence of courses in the Studio Art major is intended to develop knowledge and skills appropriate to students’ levels of experience, ultimately supporting original, independent work at the 400-level. ARTS 100 is an introduction to the principles of drawing and design, which are the foundation of visual expression. An art history course not only increases visual knowledge of other periods and cultures, but also provides exposure to the methods of visual analysis. 100 and 200-level ARTS courses introduce the relation between form and content and serve as introductions to a variety of media including architecture, painting, performance, photography, printmaking, sculpture, and video. 300-level courses place greater emphasis on the application of visual skills to thematic concerns, and to the development of the student’s individual vision. The capstone to the major, ARTS 418, provides a comprehensive, professional exhibition experience. Students not only define, research, and create an original body of work, but are also engaged in all aspects of producing an exhibition at the Williams College Museum of Art.

The faculty encourages students to begin exploring studio art in the first year so that they can fully explore a variety of media in preparation for independent work in the junior and senior year. A successful route through the major might look like this:

First year: two classes at the 100 and/or 200 level in different media and an art history class. We encourage students to explore media with which they are unfamiliar, as doing so provides a good base and allows for more flexibility later on. While there is only one art history class required for the major, we encourage students to take advantage of the rich art history offerings throughout their four years of study.

Second year: at least two 100 and/or 200 level courses.

Third year: Junior seminar, a 200- or 300-level course and a possible second art history class.

Fourth year: one 300-level course, ARTS 418, and other courses chosen to support your individual interests.

HISTORY AND STUDIO

This route offers students the opportunity to propose a course of study that investigates a particular medium or a particular issue bridging both wings of the department. Examples of past History and Studio projects include topics related to architecture, curating, and performance, but are not limited to these.

In many cases, it is better to choose an Art History or Studio Art route, taking additional courses in the other wing, as desired. The History and Studio route is offered as a third option and requires approval.

The application for the History and Studio route must include both a written statement and a list of proposed courses. It must be approved by an advisor from both Art History and Studio Art and be submitted to the department’s administrative assistant before registering for the major.

History and Studio students whose projects have a Studio emphasis have the opportunity to take the Senior Tutorial (ArtS 418) with permission of the instructor and to participate in the senior Studio exhibition. Those seniors with a History emphasis can apply to write a thesis and, if accepted, will be admitted to the required Winter Study and Senior Thesis Seminar (ArTH 494) which culminate in a thesis and thesis presentation. Or, a student may propose a senior independent study.

Major Requirements

The History and Studio major requires a minimum of nine courses:

- Any TWO of the following four courses: ARTH 101, 102, 103, or 104
- ARTS 100-level course
ARTS 200-level course
ARTH 301 Methods OR ARTS 319 Junior Seminar
ARTH 400-level OR 500-level course
ARTS 300-level course OR ARTS 418 Senior Seminar (with permission) OR ARTH 494 (with permission)
ARTH elective
ARTS elective

One advisor from Art History and one from Studio Art must sign off each semester before a student may register for classes.

THE DEGREE WITH HONORS IN ART

Students who wish to become candidates for the degree with honors must show prior evidence of superior performance in the major as well as research capabilities to carry out the proposed project.

Art Studio

Studio art concentrators who wish to be candidates for honors are required to take an extra studio course, of their choosing, for a total of ten courses. One of the ten courses must be the 400-level Senior Seminar (ARTS 418). Students must also take the Honors Independent Study course (ARTS 31) during Winter Study of their senior year. Studio faculty will provide feedback on the progress of the honors project at the beginning of the Spring semester.

Honors candidates enrolled in the Senior Seminar must demonstrate prior experience in the media chosen for the honors work. This proof may consist of one or more 200-level courses in the medium, course work at the 300 level, and/or a portfolio demonstrating the student’s proficiency in the media chosen for the honors project. This work must be presented to the instructor of the Senior Tutorial at the start of the Spring semester. At the end of the Spring semester of senior year, honors candidates will orally defend their work in the senior exhibition at WCMA. The entire studio faculty will attend each defense. Based on the work and the oral defense, the studio faculty (as a whole) will designate honors, high honors or no honors.

History and Studio

The History and Studio route to honors is an integral combination of Studio Art and Art History. Fall semester of senior year, a candidate for honors in History and Studio makes a project proposal to two faculty members, one from each wing of the department. If both advisors agree to supervise the project, the candidate enrolls in either the Studio or the History required Winter Study course or an independent Winter Study. At the end of Winter Study the progress of the project is assessed by the advisors. In the spring semester, the student enrolls either in the Senior Seminar (ARTS 418 with the permission of the instructor), or in the Senior Thesis Seminar (ARTH 494 with the permission of the instructor), or in an Honors Independent Study. If the project is exhibited in the senior Studio exhibition it is judged by the art faculty, (including the two advisors for the project), along with the other exhibiting honors candidates.

Otherwise, the final project is submitted to the two faculty advisors and, in the case of History, also to the instructor of the Senior Thesis Seminar, who will determine whether or not it will receive honors.

STUDY ABROAD

The Art Department encourages students to travel during Winter Study, and to study abroad for a semester during the junior year. Students planning on studying abroad must: consult a departmental advisor, leave a copy of their Study Away Petition on file in the Department, and consider the required junior seminars (ARTH 301 and ARTS 319) that prepare students for the independent research and/or independent artistic production which is the focus of the senior year.

Art Studio

Studio Art Majors must take the required Junior Seminar (ARTS 319) in the fall semester of their junior year, unless they are planning to study abroad for a full year, or unless they have permission of the chair of the department (in these cases, they may take the required class in their sophomore or senior year). The Department does not grant pre-approval or provisional credit for study abroad courses; studio majors must submit their portfolios for review, and will receive credit only if the work completed abroad is deemed roughly equivalent in quality and quantity to coursework at the College (students should contact the Departmental advisor in studio for the portfolio review, and digital photographs are fine in the case that original work is not available). No more than 1 requirement for the major can be taken per semester abroad (2 if one of the courses is in art history). Courses must be in fine arts fields to qualify for major credit. ARTS 319 and ARTS 418 cannot be fulfilled abroad.

History and Studio

History and Studio majors must plan accordingly for their elected junior seminar. For art history courses taken abroad, history and studio majors can seek provisional credit for courses that appear to satisfy requirements for the major. No provisional credit is possible for studio courses; students must submit their portfolios for review, and will receive credit only if the work completed abroad is deemed roughly equivalent in quality and quantity to coursework at the College (students should contact the Departmental advisor in studio for the portfolio review, and digital photographs are fine in the case that original work is not available). No more than 2 major requirements may be satisfied per semester while abroad (one in studio, one in history),
ARTS 100  (F)(S) Drawing I

The goal of the course is to provide training in basic two dimensional design concepts like composition, value, space, proportion and line as well as a critical perspective on drawing in the 21st C. Observational drawing skills will be taught asynchronously in short daily lessons within six, week-long segments. Assignments with roots in 20th C Avant-garde and 21st C global practice will be interspersed within these skill-building lessons to provide students with a critical contrast to traditional approaches to drawing and opportunities for individual expression. Since this class will be taught remotely, we will meet online as a class for slide talks and discussion, as well as in small groups of 3 or 4 for critique. So that students may work in a domestic setting, the size of the assignments are modest and the materials like pencil, brush pen, and colored paper are clean. In order to submit assignments, students will need access to a digital camera, such as a cell phone.

Class Format: This is a remote class with 6 weeks of short, daily, asynchronous demonstrations and assignments, which can be completed in approximately 60 - 90 minutes a day. Interspersed between these 6 weekly units, students will be given a single assignment to be completed over the course of the week. The class will meet twice a week, once as a full class for slide talks and discussion and again in small groups for critique.

Requirements/Evaluation: successful application of new skills, development of concept, participation in class, effort, timeliness and attendance

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: art majors, first years, sophomores, juniors, seniors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: $200 -$300. Materials will be shipped directly to students.

Distributions: (D1)

Fall 2020
STU Section: R1  MWF 11:45 am - 1:00 pm  Michael A. Glier

Spring 2021
STU Section: R1  MWF 11:45 am - 1:00 pm  Michael A. Glier

ARTS 100  (S) Drawing I

Drawing can provide a vehicle for encountering and interpreting your experiences. This course will heighten your awareness of the visual world, teach basic drawing skills, and demonstrate how drawing operates as a form of visual exchange. A variety of materials will be covered as you explore the 2-dimensional concepts of line, form, proportion, gesture, spatial depth, and value. Towards the latter part of the semester, more emphasis will be placed on the use of drawing as idea, and you will have the opportunity to express yourself through the visual language of drawing.

Requirements/Evaluation: the quality and quantity of work produced, depth and quality of investigative process, participation in critiques, and attendance

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Art Majors (declared); students who have previously enrolled but have been dropped from the course, first-year and sophomore students

Expected Class Size: 18

Grading: no pass/fail option, yes fifth course option

Materials/Lab Fee: TBD lab fee charged to term bill

Distributions: (D1)

Not offered current academic year
ARTS 100 (S) Drawing I
This course is designed to introduce the fundamentals of drawing. A significant portion of class time will be devoted to learning some of the basics of drawing, such as line, gesture, composition, and value. Acquiring technical skill is an important goal of this class, and intensive weekly assignments are a significant part of that process.

Requirements/Evaluation: quality of work produced as well as successful completion of all assignments and attendance
Prerequisites: none
Enrollment Limit: 18
Expected Class Size: 18
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: TBD lab fee charged to term bill
Distributions: (D1)

Not offered current academic year

ARTS 100 (F)(S) Drawing I
This course is designed to introduce students to perceptual, experiential and analytical moments associated with the language of drawing, and to do so in ways that offer the opportunity to see the world with greater clarity, and with a broader understanding of art and the visual language. This course provides technical skills associated with observational drawing, experiential moments with a variety of materials, and the opportunity for self expression and the communication of ideas. Each studio class blends drawing practices and exercises designed to further one's understanding of the language of drawing, and more broadly, offers a foundation for further study in the visual arts.

Requirements/Evaluation: individual critiques, a mid-term critique, a final portfolio submission, attendance, effort and participation
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Art Majors (declared); students who have previously enrolled but have been dropped from the course, first-year and sophomore students
Expected Class Size: 10
Grading: no pass/fail option, yes fifth course option
Materials/Lab Fee: $200-$300 lab fee charged to term bill
Distributions: (D1)

Spring 2021
STU Section: H2  TR 8:00 pm - 9:15 pm  Frank Jackson

ARTS 100 (F)(S) Drawing I
This course is designed to introduce students to the basic elements of drawing. The first half of the course will expose students to formal and fundamental aspects of the visual language through observational drawing exercises. Working from the still life, landscape, and human form, concepts and skills related to line, space, form, and perspective will be introduced. Students will work with a wide variety of materials and will gain facility in media such as charcoal, graphite, collage, watercolor and ink. As the term progresses, assignments and exercises will become more complex and students will explore more conceptual ideas in drawing related to material specificity, research, experimentation, and working from the imagination. The class will conclude with a publication of a zine. The theme or topic of the publication will be determined by the dynamic of the class and the students’ curiosities and concerns. Through lectures, assigned readings, screenings, and visits to the WCMA, this course hopes to expand what it means to draw and to become aware of how drawing appears in the practices of other artists as well the world outside of art contexts.

Class Format: The class will meet in-person twice weekly. Depending on the class size we may break into smaller independent lab groups / discussion groups.

Requirements/Evaluation: quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences:  current and prospective art majors

Expected Class Size:  10

Grading:  yes pass/fail option,  no fifth course option

Materials/Lab Fee:  $200-$300

Distributions:  (D1)

Fall 2020
STU Section: H2  MW 10:00 am - 11:15 am  William B. Binnie, Kenny Rivero

Spring 2021
STU Section: H3  MW 10:00 am - 11:15 am  William B. Binnie

ARTS 102  (F)  In the Room Together: An Introduction to Dance, Theatre, and Live Performance

Cross-listings:  ARTS 102  DANC 102  THEA 102

Secondary Cross-listing
This course offers an introduction to the time-based art of performance, focusing on the embodied and social act of collaboration. Students will explore through a rotating studio and seminar-based format methods for creating and approaching art across a range of time-based media (dance, theatre, performance art, social media, spoken-word poetry), providing a foundation for the expression of ideas through performance. Over the term, students will develop, workshop and perform site-specific pieces, culminating in a final public presentation to the community. Through independent research projects, writing and class discussion, students will study makers whose work unsettles the boundaries of dance, theatre, and performance, such as: Anne Bogart, Bill T. Jones, Pina Bausch, Meredith Monk, Lin Manuel-Miranda, E. Patrick Johnson, Young Jean Lee, and Beyoncé. Evaluation will be based on an assessment of the student's work, participation, commitment, practice, curiosity, creativity, and collaboration with peers. Students will be required to attend '62 Center Series programming as may be required to attend other performance events as well. This course is open to students at all levels of experience and is a gateway and requirement to the major in Theatre.

Requirements/Evaluation:  assignments will include writing reflections, showings of works in progress, oral presentations, a final performance, and a 5- to 7-page curatorial paper

Prerequisites:  none

Enrollment Limit:  18

Enrollment Preferences:  students considering the major or already majoring in Theatre

Expected Class Size:  18

Grading:  yes pass/fail option,  yes fifth course option

Unit Notes:  this course serves as the gateway to the major in Theatre and is a prerequisite for several courses in the Theatre major

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 102 (D1) DANC 102 (D1) THEA 102 (D1)

Not offered current academic year

ARTS 105  (S)  Video Essay

This introductory studio course engages the genre of video essay. Situated at the intersection of video art and documentary film practices, video essay explores the interval between politics and aesthetics, fiction and non-fiction, in an attempt to create a personal language with which to describe the tension between social, political, and personal realities. Students gain hands-on video production experience with editing, cinematography, and sound design grounded in the editorial and rhetorical strategies of video essay which articulate a language of relationships: between sound and image, artist and subject, fact and feeling, memory and language. Self-referential and reflexive, video essay operates in a space of inquiry between poetry, philosophy, autobiography, politics, and cultural studies. The course examines how video essay moves across disciplines, reflecting ethical and aesthetic strategies developed within documentary film, journalism, auto-ethnography, auto-fiction, media theory, performance, and the history of video art itself, in pursuit of a renewed relationship to processes of observation, memory, and recognition. Assignments emphasize the creation and presentation of an original body of video work for critique, alongside research, writing, and discussion of theoretical texts and artworks, including the work of Chris Marker, Hito Steyerl, Trinh T. Minh-ha, Harun Farocki, Agnès Varda, among others.
Class Format: hybrid format: a mix of in person and remote meetings with additional asynchronous lectures, technical lessons, and screenings to supplement our course work. We will aim to keep class meetings small, and depending on the class size we may break into smaller independent lab groups / discussion groups.

Requirements/Evaluation: Quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: art majors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Materials/Lab Fee: $150 lab fee charged to term bill

Distributions: (D1)

Spring 2021

STU Section: H1 W 12:00 pm - 2:45 pm Sarah Rara

ARTS 110 Digital Photography, Identity and Place

This remote introductory level course offers an in-depth exploration of digital photography. Emphasis is placed on the camera's relationship to the body and constructions of identity. Students will develop a fundamental control of photographic techniques through various exercises, experimentation, field, at home and/or studio experience. Students will learn how to use DSLR cameras and introductory level Photoshop editing techniques to create a personal body of work that examines the medium's role in representing various identities. Additionally, visiting artist lecture presentations and thorough critique will foster theoretical and visual literacy for the analysis of works. How is photography implicated in the construction and performance of identity? How does it complicate national, cultural, gender, race and sexual identity.

Class Format: This class will take place over Zoom

Requirements/Evaluation: Students must budget roughly ten hours per week outside of class for photographing and editing; Students must complete all projects on time. Students will create a photographic body of work with accompanying artist statement. Students must be active participants during class discussion and critiques.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Art majors who have not yet taken an introductory photography class

Expected Class Size: 12

Grading:

Materials/Lab Fee: $250 standard lab fee charged to term bill

Distributions: (D1)

Not offered current academic year

ARTS 111 (F) Introduction to Video Art

This introductory-level course offers an expansive definition of video art, exploring the complex interrelations between video and other disciplines within contemporary art. Video art's inherent heterogeneity is examined as a vital part of the medium's identity and as a radical mechanism for cultural discourse. Coursework includes lectures, readings, discussions, hands-on tutorials, production assignments, and active participation in dialog/critique. Camera, sound, lighting, and editing techniques are taught alongside key theoretical, historical, and aesthetic approaches to video art. Experimentation and interdisciplinary approaches are encouraged in considering how video art hybridizes with other media, ingests emerging technologies, and develops new distribution models.

Class Format: We will adhere to a hybrid format: a mix of in person and remote meetings with additional asynchronous lectures, technical lessons, and screenings to supplement our course work. We will aim to keep class meetings small, and depending on the class size we may break into smaller independent lab groups / discussion groups.

Requirements/Evaluation: quality of work produced, depth and quality of investigative process, participation in critique and discussion, class
citizenship, attendance

Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: current and prospective art majors
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Materials/Lab Fee: $230
Distributions: (D1)

Fall 2020
STU Section: H1  M 12:00 pm - 2:45 pm  Sarah Rara

ARTS 112  (S) Introduction to Documentary Filmmaking  (DPE)
In a 2010 article, *New York Times* film critic A. O. Scott described the field of contemporary documentary film as 'heterogeneous to the point of anarchy.' This course takes this heterogeneity to heart, acquainting students with a wide array of creative approaches and key debates in documentary film. In addition to a historical, ethical and critical foundation in the field of documentary, students will acquire a basic grounding in the fundamentals of video production, including cinematography, sound and editing. Course requirements include class attendance and regular critiques, weekly film screenings and readings outside class, 2-3 minor filmmaking exercises, and major assignments in the form of 3-4 short nonfiction video projects.

Requirements/Evaluation: timely and committed completion of assignments, attendance and participation
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: majors have priority
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: $150
Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes: The practice of documentary film is centrally bound to ethics--who and how we represent onscreen. Historically, documentary has tended to gaze on marginalized communities in problematic ways; this course will make issues of power, race, class and representation central to the production of documentary media.

Spring 2021
STU Section: R1  M 1:30 pm - 4:30 pm  Cecilia Aldarondo

ARTS 114  (F) Art into Activism
This introductory studio art class will examine how art has been and can be engaged with activist and political causes. Can art be created from social or political ideas? Is all political art merely propaganda? What makes a work “political”? What does artistic work that is topical, informed, and critical look like? In addition to looking at various works by contemporary artists and used in political movements, we will be working on weekly assignments that will introduce students to 2-D image making, video, and performance. This class is a hands-on studio class which will require hours outside the class working on projects.

Requirements/Evaluation: projects, assignments, class participation, attendance
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: first-years and sophomores
Expected Class Size: 14
Grading: no pass/fail option, no fifth course option
Distributions: (D1)
ARTS 115 (F) Sculpture: Poetry with Objects

Sculpture employs the body and has the power to communicate via the physical world in powerful ways. ARTS 115 will offer instruction in how form and meaning can be created through the use of objects. Similar to poetry, where a particular word carries a specific history, meaning, and power, objects also contain complex associations. Through the process of alteration, transformation, and manipulation, sculpture reveals the narrative power of form and materials. This course will provide a historical framework for how sculpture—particularly contemporary works—have expressed ideas, while also providing instruction on techniques and methods used to build, dismantle, rearrange, combine and create art with objects as the inspiration. The ultimate goal will be to develop your individual voice and imagination, become familiar with processes and techniques, and to become fluent in generating meaning that is important to you. We will be integrating the study of a variety of artists whose work utilizes objects in their sculpture such as the work of: Jean Shin, Marcel Broodthaers, Dario Robletto, Doris Salcedo, Robert Gober, among others. This class is designed to be hybrid, with a combination of in-person and remote components. Approximately two thirds of the term will consist of weekly meetings between myself and a pair of students, however, periodically throughout the term, we will meet with the entire class for PowerPoint presentations, demonstrations, visiting artist talks and group critiques.

Class Format: Hybrid model with a portion of the class taught in person and a portion taught remotely. The aim is to have 50 percent of the class in person and 50 percent taught remotely, however this will depend upon how the semester and COVID evolves.

Requirements/Evaluation: Art is a visual language, which speaks to us through our sense of sight and implied touch; you will be evaluated first and foremost on your ability to speak powerfully in this language. Grading also takes into account: effort, attitude, creativity, studio responsibility and participation. Attendance and punctuality is expected for both in-person and remote portions of the course. If you miss more than one unexcused class your grade will automatically drop a letter grade. All work must be completed by the final critique.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Declared and perspective art majors have preference.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: There will be a lab fee to cover a material cost for the class. TBA

Distributions: (D1)

Fall 2020

TUT Section: HT1 W 1:30 pm - 3:40 pm Amy D. Podmore

ARTS 116 (F) Monotypes

Spontaneous and delightfully unpredictable, the monotype is a style of printmaking that creates exactly one image by applying ink onto a flat surface, and transferring it to paper using pressure - by hand or a through a printing press. It is neither drawing nor painting, it is both! In this class students will use the monotype to heighten their sensitivity to line, colour, tone, texture, transparency, pressure, ink viscosity, and overall composition. They will also explore techniques like tracing, stencilling, chine-collé, reductive + additive mark making, and hand rubbing, while acquainting themselves with the history of the medium -- its practitioners, and its scope. No prior experience in drawing or painting required, though it is quite welcome.

Requirements/Evaluation: quality of work, investment towards studio time, active presence in discussions and critique, attendance

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Arts majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year
ARTS 119  (S)  Miniature Stories
What is the American experience? What does an American look like? This course uses miniature set and puppet building techniques, using easily manipulated materials in order to tell stories about the American experience. Greer Lankton’s queer puppets and Charles Ledray’s intricate thrift store men’s suits use miniaturized scale as a vehicle to expand our understanding of the American experience through highly focused visuals. Students will explore how scale and point of view can be used to explore power dynamics, identity, and mythology. Students develop their own research methods based on short writing assignments, image and object collection, and material exploration.

Requirements/Evaluation: Students' production methods will incorporate scaled building techniques, introductory lighting, and staging processes towards the completion of a singular narrative work built in miniature. Students will also design and complete a shortlist, a collection of point-of-view stills that explore their chosen narrative in sequence. The course will culminate at an end of semester online exhibition of their work.

Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Art majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: $75.00 lab fee
Distributions: (D1)

Spring 2021
STU Section: H1  R 9:45 am - 12:45 pm  Stephanie J Williams

ARTS 122  (F)(S)  Photography, Identity and the Absence of Representation
This remote introductory level course offers an in-depth exploration of the DSLR camera and image by utilizing photographic digital technology. Emphasis is placed on the camera’s relationship to the body, domestic space and constructions of identity. Students will develop a fundamental control of photographic processes through technical exercises and at-home/on-campus and online experimentations. Students will learn how to use DSLR cameras, editing techniques and photographic curation to create an online portfolio and exhibition reflecting on a personal body of work that examines the medium’s role in representing (or not representing) identities. Additionally, three photographers will be visiting our zoom classes to give virtual presentations on their individual processes and artistic works. There will be short weekly readings and in-depth critiques to foster theoretical and visual literacy for the analysis of works. How is photography implicated in the construction and performance of identity? How does it complicate national, cultural, gender, race and sexual identity?

Class Format: This class will be taught remotely. Students who are on campus will have access to the photography lab and facilities. Students will be allowed access to the facilities on a one-on-one basis with a supervisor.

Requirements/Evaluation: Students midterm and final critique of their body of work and accompanying artist statement
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: Art majors who have not yet taken an introductory photography class
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Materials/Lab Fee: $250 standard lab fee charged to term bill
Distributions: (D1)

Fall 2020
STU Section: R1  M 6:45 pm - 9:45 pm  Johanna Breiding
Spring 2021
STU Section: R1  R 1:30 pm - 4:30 pm  Johanna Breiding

ARTS 123  (F)  Drawing Dreaming
Sometimes a drawing is a recreation of what is right in front of us, accepted and understood by us both. And sometimes a drawing is what we have never seen before/what doesn’t yet exist, but want very much to be real: a house, a garden, a truth, accountability for an injustice, a declaration, a dream, a scream, a monument (or its absence), a sculpture, an institution, a circumstance, a love, futures. In this class, we will use mark making as a tool for making such imaginings a little more solid, and clear. Each week we will look at artworks (or what could be perceived as that) that embody dreaming, envisioning, manifestation, and transformation, including but not limited to the spectacular public drawings now part of Richmond’s confederate monuments, Shaker gift drawings, house and garden plans, protest signs, commemorative murals and memorials, flags, emblems, dream entries and tarot decks. Every other week, our class will host visitors whose art+work+life has inspired this course, including artists, educators, and organisers. Though this isn’t a traditional drawing class, it will include introductions to various foundational techniques and tools, along with intensive drawing exercises before delving into self driven assignments.

Class Format: Classes will meet remotely, and if it is deemed safe, the drawing studio may be open for staggered drawing sessions in small groups. All students will be adequately trained in documenting their work for weekly reviews with the instructor.

Requirements/Evaluation: weekly assignments, mid-term project, final projects, attendance and participation, generous presence

Prerequisites: Previous drawing experience preferred and/or completion of Drawing 100.

Enrollment Limit: 17

Enrollment Preferences: Art/Art History majors

Expected Class Size: 17

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $100

Distributions: (D1)

Fall 2020

STU Section: R1  TR 11:30 am - 12:45 pm  Pallavi Sen

ARTS 128 (S) Introductory Video

In this course we explore how the proliferation of video has transformed the way we relate our own image, and that of others. Video has become a platform for hypervisibility. In an era of selfies, live-streaming, state sanctioned violence (and its digital record), how might we use video as a tool of empathy and accountability? We will pursue answers to these questions through the act of making. In this introductory level course students will gain facility in Adobe Premiere and other post-production tools in the Adobe Creative Suite. Students will explore camera technique, lighting, and how to work with appropriated footage. We will look at early and contemporary video works in order to situate the work being made in class. Video Art will also be contextualized within vernacular applications of video. Through regular technical exercises, readings, and group critiques, students will learn how to use video as critical tool in their practice.

Requirements/Evaluation: evaluation will be based on discussion participation and the technical and conceptual strength of the projects, with consideration given to individual development

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: students majoring in Studio Arts

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $150.00 fee charged to term bill

Distributions: (D1)

Not offered current academic year

ARTS 129 (S) Institutional Critique (DPE)

Cross-listings: THEA 129  ARTS 129

Primary Cross-listing

This introductory course will investigate the performance potential of the radical art making methodology known as Institutional Critique. Influenced by Situationalism, and the Fluxus movement, Institutional Critique emerged as a way for artists to respond to the art worlds elitism, monopoly on culture,
and dependency on Capitalism. Through collaborative performance based projects and readings students will explore the possibility of art to critically intervene in the hegemonic order and insight change within power relationships. We will also explore related movements such as Socially Engaged Practice, a term that describes art that is participatory and focuses as people as the medium. Artists covered will include: Thomas Hirshhorn, Tim Rollins, and Andrea Fraser. You do not need any prior experience just a willingness to use the power of voice and body.

Requirements/Evaluation: three collaborative projects, final independent project, readings, active participation, museum gallery visits, quality of work

Prerequisites: none

Enrollment Limit: 18

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $125 lab fee

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 129 (D1) ARTS 129 (D1)

Difference, Power, and Equity Notes: Through a diverse selection of essays, visual art, and contact with prominent voices operating at the intersection of theory and practice students will examine how the concentration of power in the United States and Europe has contributed to inequities within educational, legislative and artistic institutions. Students will then transfer what they've learned to a research based visual practice that priorities social discourse.

Not offered current academic year

ARTS 130  (S)  Material Issues
What kind of maker should one be, after reading the latest climate report? The tendency to build, design, love, and collect objects - in our shelves and in our museums and in our landfills - is central to the human story. We have (serious) material issues! This class looks at individuals that hold ecology and what the environment asks of us close to their heart and their making, moving beyond ‘green’ as metaphor. We will study creative practices that work in partnership with land, with forests, agriculture, radically sustainable materials, food and food cultures. Through the semester, we will alter how we consume and what we consume, we will learn to repair, learn to divest, and learn how to make our own: Food! Clothes! Quilts! Containers! Pigments! _________! Our projects will be cross cultural, interdisciplinary, slow, working at the pace of seasons, working with what is already present in our homes, in our neighbourhoods. Through guided assignments and discussions, students will draft a personal and collective manifesto detailing their relationship to material and climate change, and develop a final project, in any format, that engages with it. We will work with our hands often, and well.

Requirements/Evaluation: active and thoughtful participation in class, sensitive and dedicated approach towards assignments

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Art majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

ARTS 132  (F)  Sculpture: The Human Form in Contemporary Art
The figure has an intrinsic relationship to us and our lives and has provided artists with creative challenges throughout time. This course uses the human form as the subject to introduce students to the three-dimensional world of sculpture. It combines the traditional study of figure modeling in clay, with a more contemporary approach to how the figure is used in art today. The first part of the semester has you working from observation while learning how to realistically construct the human figure in the third dimension. You will work in clay, gaining skills in modeling, anatomy, the study of proportion, gesture, texture, negative and positive space and balance and gravity. We begin aiming for realism and move towards abstraction. The second part of the term will provide the opportunity to explore a more open and contemporary approach to how sculpture utilizes the figure to express meaning, explore materials and employ form. You will be introduced to a variety of skills, materials and concepts as you learn to work in the round making a form interesting from all views. Ultimately you will begin to explore and develop the ability to communicate your ideas in a visual manner as well as comment on the human condition.
ARTS 200  (F)  Project: Costume-Design, Performance, and Beyond

Cross-listings: ARTS 200  THEA 305

Secondary Cross-listing
This course is an intensive study of costume design. Costume designers are always aware of the world around them. They look, listen, reflect, and record. They use inspiration, research, imagination, and innovation for their creations. They simultaneously observe the smallest detail while also picturing the larger world surrounding the pieces they develop. The course focuses on the designer's process, which entails in part: script analysis, collaboration, research, color theory, basic design principles, rendering techniques, fabric research, organizational skills, and presentation of designs.

Requirements/Evaluation: multiple design assignments including a detailed final design project, costume labs, image and research files, costume sketchbook, short papers, committed participation, and attendance; students are required to attend two to three Theatre department or approved performances during the semester; students will also be expected to partake in intelligent critiques of fellow classmates’ design work

Prerequisites: successful completion of any 200-level course in any of the fine or performing arts or permission of instructor

Enrollment Limit: 10
Enrollment Preferences: Theater and Art Studio, sophomores and juniors
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Unit Notes: does not satisfy any requirements for the Art major
Materials/Lab Fee: $100 lab fee charged to term bill
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 200 (D1) THEA 305 (D1)
Not offered current academic year

ARTS 201  (S)  Worldbuilding: Design for the Theater

Cross-listings: ARTS 201  THEA 201

Secondary Cross-listing
This course examines designers’ creative processes as they investigate a theatrical text and then dream-into-being the fictional worlds of a hypothetical production. Class will consist of several practical projects in multiple areas of design. We will practice a two-pronged technique in response to a text: developing a personal, intuitive creative response while simultaneously supporting all logistical requirements, resulting in an inventive yet dramaturgically sound design. Emphasis will be on folding this individual work process into a larger group collaboration by refining methods of communication, presentation, and group critique.

Requirements/Evaluation: Coursework is group class discussion and critiques, paired with several hands-on projects throughout the term.

Prerequisites: THEA 101 or permission of instructor

Enrollment Limit: 10
Enrollment Preferences:  Theatre majors

Expected Class Size:  8

Grading:     yes pass/fail option,     yes fifth course option

Unit Notes:  this course is a prerequisite for all upper-level design and directing courses; this course does not count toward the Art major

Materials/Lab Fee:  $125 for materials and copying charged to term bill

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2021
STU Section: H1  MR 1:30 pm - 2:45 pm  Carolyn Mraz
LAB Section: H2  M 3:15 pm - 4:30 pm  Carolyn Mraz

ARTS 215  (F)  Sustainabuilding (verb)

Sustainability considerations figure prominently (and always have) in good building design.  This architectural design studio will include instruction, research, and reading about current design and energy strategies.  These lessons will be applied in two or more design problems.  Drawings and models will be critiqued in class reviews with outside critics.

Requirements/Evaluation:  quality of design and presentation

Prerequisites:  none but ARTS 220 and/or ENVI 108 are recommended; permission of instructor is required; preregistration does not guarantee admission to the course

Enrollment Limit:  15

Expected Class Size:  15

Grading:     yes pass/fail option,     yes fifth course option

Materials/Lab Fee:  TBD lab fee charged to term bill

Distributions: (D1)

Fall 2020
STU Section: H1  F 1:30 pm - 4:30 pm  Ben Benedict

ARTS 220  (S)  Architectural Design I

Instruction in design with an introduction to architectural theory. Five simple design problems will explore form and meaning in architecture. Each problem will require drawings/model and will be critiqued in a class review with outside critics.

Requirements/Evaluation:  quality of design, with improvement taken into account

Prerequisites:  ARTS 100; ARTH 101-102 strongly suggested; permission of instructor is required; registration does not guarantee admission to the course

Enrollment Limit:  15

Expected Class Size:  15

Grading:     yes pass/fail option,     yes fifth course option

Materials/Lab Fee:  TBD lab fee charged to term bill

Distributions: (D1)

Spring 2021
STU Section: H1  F 1:30 pm - 4:30 pm  Ben Benedict

ARTS 225  (S)  Video Ecologies
This studio course in video art investigates human connection with fraught landscapes and multi-species worlds, developing strategies by which our environment is witnessed, created, and negotiated through videographic acts. Video ecologies consider our environment as relational and invested with notions of identity. What can passionate immersion in our environment as apprehended through the senses (including and beyond vision) reveal about historical and lived experience, and the embodied effects of global capitalism? How might video serve to open up new understandings, relationships, entanglements, accountabilities? This course will critically examine socio-political and personal dimensions of ecology through readings and discussion engaging with environmentalism, intersectional feminism, queer theory, and postcolonialism. With in-depth instruction on technical and conceptual strategies used in video art, the emphasis of the course will be on the creation of an original body of work that includes several short video assignments and a substantial final video grounded in research on a specific ecological subject chosen by the student. In-class tutorials provide hands-on experience with lens-based production strategies in the context of historical and contemporary examples of video art that explore the land as a site for multiple temporalities, inter-species relationships, contamination, precarity, survival, and ruin.

**Class Format:** hybrid format: a mix of in person and remote meetings with additional asynchronous lectures, technical lessons, and screenings to supplement our course work. We will aim to keep class meetings small, and depending on the class size we may break into smaller independent lab groups / discussion groups.

**Requirements/Evaluation:** quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance

**Prerequisites:** 100 level video course or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Art, Film & Media Studies concentrators and students interested in film and media studies.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** $150 lab fee charged to term bill

**Distributions:** (D1)

---

Spring 2021

STU Section: H1  M 12:00 pm - 2:45 pm  Sarah Rara

**ARTS 226 (S) Hyperobjects and the Mundane**

This remote class will use photography, the archive, the environment and the latest Do-It-Yourself trends to explore object-oriented ontology and the notion of "Hyperobjects," or objects that transcend the local by massively spanning time and space. This class will use DIY techniques and mundane objects and materials as a tool to build models, sculptures and installations that will later on be photographed in the "studio" and outdoors. Using science-fiction references and mythology we will attempt to document and/or create a space that is invisible or has not yet been experienced by the world. What does ecological philosophy/eco-feminism currently look like, and (how) will it translate after the end of the world through the remaining photographic image and media? This class will search for, invent, and document Hyperobjects - entities of vast temporal/spatial dimensions that defeat traditional ideas of what a thing, object or photograph is.

**Class Format:** This class will meet over Zoom and will include time in the outdoors.

**Requirements/Evaluation:** Students must budget roughly ten hours per week outside of class for photographing, editing and printing. Students must complete all projects on time. Students must think outside of the box and be ready to work collaboratively. Students must be active participants during class discussion and critiques.

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Art majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Materials/Lab Fee:** $250 standard lab fee charged to term bill

**Distributions:** (D1)

---

Spring 2021
ARTS 228 (F) The Art of Almost Nothing

In this studio tutorial class, students will create studio art projects by using materials that are mainly not bought but found, repurposed, and/or overlooked and ubiquitous. In this time of extreme material production and consumption, with a great deal being thrown out and unrecoverable, how can we make intentional, creative meaning from what is around us? This class is concerned with impacts on the environment but also with how consumer culture has wielded profound influence in the current production of studio art. How can we engage with our major concerns—esthetic, topical, critical—and use what is around us mindfully and creatively with desired impact? Some of the artists we will look at: William Pope L., Ana Mendieta, David Hammons, Tania Bruguera, and the Yes Men. This class is a hands-on studio class with weekly assignments.

Class Format: studio class, 3 hours per week

Requirements/Evaluation: projects, assignments, class participation, attendance

Prerequisites: one previous studio art class at Williams

Enrollment Limit: 14

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: TBD

Distributions: (D1)

Not offered current academic year

ARTS 230 (S) Drawing II

This intermediate drawing course focuses on technique, style and content. Class sessions will focus on representing the human figure in representational and abstract styles, including cubism and abstract expressionism. Homework projects will focus on developing individual concepts and personal expression. Exercises will include traditional materials on paper as well as non-traditional methods and exercises. The course culminates with an independent project of work in series.

Requirements/Evaluation: the quality of work produced, participation in class discussions and critiques, successful completion of all assignments and attendance

Prerequisites: ARTS 100

Enrollment Limit: 15

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: TBD lab fee charged to term bill

Distributions: (D1)

Not offered current academic year

ARTS 236 (F)(S) LINOCUT!

A subset of relief printmaking, linocuts are images made by carving the surface of soft linoleum blocks. Relying almost completely on our hands, we will learn to work with a variety of cutting tools, controlling their speed and pressure to create bold, clear imagery. The course will include introductions to various methods in lino printing including stencilling, collaging, reduction printing, while also familiarising students with the fundamentals of printmaking inks and papers—how to use them, choose them, modify them. The majority of the course will be taught remotely, and students will explore ways of making prints at home, using simple tabletop tools and a baren for hand-printing (instead of the press). If deemed safe, private printing sessions can be arranged for on-campus students a few times in the semester. Lectures will consider the history of the block print, its present day interdisciplinary potential, and virtual visits with contemporary practitioners. Students will work towards creating a diverse portfolio that demonstrates fluency across various techniques, using them individually or in combination.

Class Format: If the number of students is large, the printshop will not be open for extended work hours - for instance, to carve your block. If small, staggered and fixed private work hours will be assigned. If deemed safe, private printing sessions will be arranged for on campus students a few times in the semester.
ARTS 241 (F)(S)  Introduction to Acrylic Painting: Five Modern Painters

To learn the fundamentals of 2D design, as well as some of the concepts that inform modern painting, this class will engage the work of Jean-Michel Basquiat, Henri Matisse, Amy Sherald, Alma Thomas, and Stanley Whitney. All distinctly modern, the styles of these artists range from figurative to fully abstract. The class will spend two weeks on each artist, analyzing and copying a work in the first week and producing a visual response in the second. Students will meet twice a week online, once as a class for technical demonstration and slide presentations and again in small groups of 3 or 4 for reading discussion and critique. Some demonstrations and supporting materials will be available asynchronously. The goals of the class are to introduce students to basic painting skills like color mixing, brushwork, composition, and palette management, as well as concepts like color theory, modernism and self-expression in a cultural context. So that students may work in a domestic setting, the size of the assignments are modest and the materials like water-based acrylics, crayons, and paper are manageable. In order to post homework, students will need access to a digital camera.

Class Format: This is a remote class taught twice weekly, once as a class and again in small tutorial groups. Some technical demonstrations and research materials will be available asynchronously.

Requirements/Evaluation: Students will be evaluated on technical improvement, conceptual development, expressiveness and inventiveness. Class participation, timeliness and attendance will also be considered.

Prerequisites: ARTS 100. Students with significant experience with drawing or painting, but have not completed Arts 100, require permission of the instructor.

Enrollment Limit: 12

Enrollment Preferences: art majors, sophomores, juniors, seniors, first years

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: $350 - $500. Materials will be shipped directly to students.

Distributions: (D1)

Fall 2020
STU Section: R1  TR 9:45 am - 11:00 am  Michael A. Glier

Spring 2021
STU Section: R1  TR 9:45 am - 11:00 am  Michael A. Glier

ARTS 241 (S)  Introduction to Oil Painting

This course is designed to introduce the fundamentals of oil painting. A significant portion of class time will be devoted to learning some of the basics of painting, such as the manipulation of color, value, surface, and texture. We will learn how to prepare paper and canvas supports as well as exploring the properties of several mediums (what the paint is mixed with to allow for application and drying). This course is focused on giving students access to a range of introductory techniques that they can explore during the semester. We will also spend time looking at each other's work and giving feedback and suggestions as well as studying the work of established artists. Evaluation will be based on evidence of each student's progress, as shown by the weekly assignments; attendance and participation in class discussions.
ARTS 250  (S)  Devised Performance: The Art of Embodied Inquiry

Cross-listings:  THEA 350  ARTS 250

Secondary Cross-listing

This studio course offers students hands-on experience in devising new performance work as an ensemble. Looking to the work of practitioners and collectives like Jerzy Grotowski, El Teatro Campesino, Tectonic Theater Project, Pina Bausch, Belarus Free Theatre, Nrityagram, and SITI Company, we will challenge ourselves to really probe what live performance is capable of. How might we think of performance as a research methodology? As a lifestyle? As a form of political action? This class will function as a laboratory, forming its own unique structure for developing and realizing a live performance. The course provides an opportunity to navigate the complex dynamics present in collaborative creation. Guest classes with practitioners will offer a fuller range of skills for the student ensemble to utilize during the devising process. Work-in-progress presentations spaced regularly throughout the semester will allow the ensemble to receive feedback from small, invited audiences, as well as the opportunity to apply that critique to an ongoing creative process. At the end of the semester the accumulated work will have a public presentation in a workshop format.

Requirements/Evaluation:  participation, individual presentations, contribution to group work, self-evaluation; students will contribute to the creation and presentation, by the group as a whole, of a newly devised performance piece

Prerequisites:  none

Enrollment Limit:  14

Enrollment Preferences:  Theatre majors and Art majors

Expected Class Size:  10

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 350  (D1) ARTS 250  (D1)

Not offered current academic year

ARTS 251  (F)  The Personal Documentary  (DPE)

In this course, we will survey the terrain of personal documentary in all its complexity--its marginal roots, and its current mainstream appeal. Examining a wide array of formal approaches from diary films, to archival excavations, to first-person odysseys, we will ask: what does it mean to tell a story that is personal, vulnerable, ethical? How is the current watershed moment of COVID provoking us to re-imagine our ideas of self and community, private and public? How to avoid predictability and narcissism, and instead use self-reflection productively? How do race, sexuality, class and gender inflect personal filmmaking? Major assignments will include 3-4 short videos; supplementary assignments include a daily diary, weekly film screenings, and 1-2 readings per week. In order to comply with social distancing mandates, the majority of this course will occur online and production assignments will be designed to ensure maximum student safety. While students will have access to campus equipment and lab space, assignments will embrace the possibilities of at-home, DIY approaches to filmmaking.

Class Format:  In order to comply with social distancing mandates, the majority of this course will occur online and production assignments will be designed to ensure maximum student safety. While students will have access to campus equipment and lab space, assignments will embrace the possibilities of at-home, DIY approaches to filmmaking.

Requirements/Evaluation:  preparation and participation; 3-4 short videos; daily diary; weekly film screenings, 1-2 readings per week
Prerequisites: 100 level video course or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: sophomores, juniors, majors
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Materials/Lab Fee: $230
Distributions: (D1) (DPE)
Difference, Power, and Equity Notes: This course will consider the role of race, gender and sexuality in representing personal experience onscreen.

Fall 2020
STU Section: R1    T 6:45 pm - 9:45 pm    Cecilia  Aldarondo

ARTS 260  (S)  Objects in Video, Video as Object
In a world where the screen is often taken for granted, how might we begin to dissect the ways video has transformed visual perception? This course will focus on video installation and how video is transformed by its physical context. We will examine how videos shift our relationship to objects in space. Students will experiment with lighting and set building, paying particular attention to how surfaces are transformed by the lens. We will also explore projection mapping, built installation, and the peculiarities of the screen. We will look at works by artists who have emphasized the physicality or immateriality of video through installation and web-based art. We will read a variety of texts, charting the shifting role video has played in contemporary society. Through weekly assignments and regular critiques, we will begin to unpack how the videos we make contact with daily can shift our relationship with our own bodies and our surrounding environment.
Requirements/Evaluation: discussion, participation, and the technical and conceptual strength of the projects, with consideration given to individual development
Prerequisites: 100 level video course
Enrollment Limit: 12
Enrollment Preferences: current and prospective Art majors
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Materials/Lab Fee: $125
Distributions: (D1)
Not offered current academic year

ARTS 271  (F)  Sonic Art
Cross-listings: ARTS 271  MUS 271
Secondary Cross-listing
The course explores sound art through research and hands-on creative projects. Students will create original sound works, working collaboratively with partners from complementary disciplines. Precedents for sound installation, sonic pavilions, sound performance and artist-made instruments will be reviewed. Example works include texts on an ancient Greek Chythonic cult, instruments created by contemporary Brazilian transdisciplinary artists, the collaborative group Experiments in Art and Technology (E.A.T.) as well as works by artists showing at Mass MoCa and Documenta 14.
Requirements/Evaluation: presentation of students mini projects (20%), four artistic projects (20%)
Prerequisites: none
Enrollment Limit: 8
Enrollment Preferences: students with either Studio Art or Music experience
Expected Class Size: 8
Grading: no pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 273 (F) Sound Art, Public Music

Cross-listings: MUS 175  ARTS 273

Secondary Cross-listing

Western music performance traditionally occurs within contained spaces in which performer and audience adhere to designated locations and follow tacit scripts: seats/stage; applause/bows, etc. In recent years, traditional boundaries and expectations of performance and reception have loosened, often moving into public spaces: from sound art installations to ambient music, from interactive sound sculpture to radio art to social media driven flash mobs. This course examines the work of pioneers in public music and sound art including Alvin Lucier, Bill Fontana, John Cage, Hildegard Westerkamp, Brian Eno and John Luther Adams, among others. The course will alternate between study and analysis of particular artistic strategies and the creation of sound art works inspired by ideas and creators we are studying.

Requirements/Evaluation: class participation, three short (2- to 4-page) essays, a response journal and the creation of four sound art works

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: juniors and seniors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Unit Notes: ARTS elective

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 175 (D1) ARTS 273 (D1)

Fall 2020

SEM Section: H1    MR 3:15 pm - 4:30 pm     Brad Wells

ARTS 275 (S) Sculpture

This course is an exploration of the media and processes of sculpture, with the ultimate goal being visual fluency and the successful expression of your ideas. The focus will be on the development of technical and analytical skills as they relate to the interplay of form, content, and materials. You will be introduced to a variety of techniques and processes associated with the making of sculpture, including, but not limited to, woodworking, welding and building forms out of cardboard. The field of sculpture has expanded to encompass wide-ranging approaches towards manipulating form and space, thus a wide variety of media exploration is encouraged.

Requirements/Evaluation: the quality of the work produced as well as participation in critiques, and attendance

Prerequisites: any ARTS 100-level course or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Art Majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $185 lab fee charged to term bill

Distributions: (D1)

Not offered current academic year

ARTS 287 Design for Film & Television

The production designer is responsible for creating, controlling, and managing 'the look' of films and narrative television from page to screen. This hands-on course explores the processes of production design, art direction, and lighting direction processes as related to design for film and television.
From initial Production Design sketches and 'Feel-Boards' to accommodating desired cinematographic angles when designing a studio set, design for film requires a designer to shape an entire visual world while keeping in mind the story as a whole. The goal of this course is to provide an initial understanding of the Production Design process in practice through studio work and instruction.

Class Format: This class will be a combination of instruction and in class studio work.

Requirements/Evaluation: committed participation in class discussion and feedback; and the thoughtful, timely completion and presentation of multiple design projects of varying scales, focusing on scenic and lighting design, considered both individually and when working in tandem

Prerequisites: THEA 201, THEA 285, ARTS 100, or permission from instructor with equivalent experience

Enrollment Limit: 12

Enrollment Preferences: In instance of over-enrollment, preference will be given to Seniors, Juniors, & Sophomores in the Theatre Majors & Art Majors

Expected Class Size: 8

Grading:

Materials/Lab Fee: up to $125 for materials and copying charged to term bill

Distributions: (D1)

Not offered current academic year

ARTS 303  (F)  Public Address System: Art, Language, Action

This interdisciplinary tutorial engages the role of language in art, as students examine the role of text, speech, and gesture within their own work. The course engages the material and transformative effects of language in and alongside artworks, exploring the link between words and actions, the convergence of personal and political through speech and writing, and the role of the reader/viewer/receiver. Students articulate tactical strategies for deploying language within and alongside creative studio practices, through coursework that combines intensive studio work, writing, reading, and discussion. The tutorial format allows for a wide variety of media and approaches. Students will meet weekly with a peer and the professor to review work, as well as several sessions where the entire class will meet for presentation, critique, and discussion. The course demands significant outside studio time as well as maintaining a regular writing practice for the duration of the course. Emphasis is on the creation of an original body of artwork. Assignments include several independent studio projects (8 short assignments and 1 major final assignment) independent studio projects that engage language (text, speech, gesture) and weekly writing meditations (1-3 pages in length). Weekly writing meditations engage the text score, hybrid essay, film essay, memoir, and auto-fiction, paying close attention to repetition, difference, codes, and systems of signification. All coursework must be completed by the final tutorial meeting.

Class Format: Students will meet weekly with a peer and the professor to review work, as well as several sessions where the entire class will meet for presentation, critique, and discussion. Meetings will be in-person and/or remote, with some flexibility taking into account student preferences within the hybrid format.

Requirements/Evaluation: Quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Art majors (juniors, seniors)

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $230

Distributions: (D1)

Fall 2020

ARTS 307  (S)  The Body Reorganized

This tutorial course asks students to abstract and re-contextualize the body as a topic of conversation in order to expand our discussions about identity. We will discuss the work of artists in which the body remains conceptually central; such as Nick Cave, Saya Woolfalk, Sarah Lucas, Annette
Messager. Students will look to their own lived experiences and supporting communities, research historical precedence for contemporary perspectives on identity, and find, through written and collected research, additional cultural work centered within multi-layered and non-normative experiences. Students will react to readings, Christian Enzensberger's "Smut: An Anatomy of Dirt", Mary Douglas' "Purity and Danger", etc. Students will design their own methods of making with foundational introductions to flexible plane paired with movement-based workshops including stop motion animation shot with cell phones. Students will construct a structural and/or wearable work that references the body, its topographies, and potential for performance/pose. Research will culminate in an online exhibition documenting student projects through photographic stills and video.

Requirements/Evaluation: Students will construct a structural and/or wearable work that references the body, its topographies, and potential for performance/pose. Research will culminate in an online exhibition documenting student projects through photographic stills and video.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Open to all media but constructed around the theme of the body reorganized.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $100.00 lab fee

Distributions: (D1)

Spring 2021

TUT Section: HT1  W 1:30 pm - 2:45 pm  Stephanie J Williams

ARTS 315 (F) Humor

In this tutorial, students will explore how humor has been used by artists to communicate ideas powerfully, while working to develop their own voice, ideas, and strengths, visually. Students will explore the nuances of humor as a way to effectively communicate ideas through a visual format. Humor will be used as a way to unpack themes around intimacy and estrangement, history and memory, activism and protest, storytelling, play and silliness. Students will explore how one's vulnerability in their work can become empowering. Being funny is not a prerequisite, nor the goal for this course, though it is absolutely welcome! The class will require good communication and will start with establishing a safe and trusting group dynamic that can encourage experimentation and risk taking. Through assigned readings, screenings, and visits to the WCMA students will explore themes of humor in painting, drawing, sculpture, installation, design, film, comedy performance and literature. This course is interdisciplinary and open to all media. Assignments in this course will be conceptually driven with formal restrictions depending on the students chosen medium. Students are expected to have a working knowledge of their medium prior to taking this course.

Class Format: The class will meet twice a week with one meeting in-person and the second meeting remote. Depending on the class size we may break into smaller independent lab groups / discussion groups.

Requirements/Evaluation: Quality of work produced, depth and quality of investigative process, participation in critique and discussion, class citizenship, attendance

Prerequisites: A previous course in the medium in which you plan to work. Students are expected to have a working knowledge of their medium prior to taking this course.

Enrollment Limit: 10

Enrollment Preferences: art majors or permission of instructor

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: Students will be responsible for purchasing their own materials.

Distributions: (D1)

Fall 2020

TUT Section: HT1  MR 3:15 pm - 4:30 pm  Amy D. Podmore,  Kenny Rivero

ARTS 319 (F) Junior Seminar

This remote Junior Seminar is an intensive online class designed to provide art majors the opportunity to strengthen their ability to communicate
clearly through the visual language by offering an overview of current themes and issues within the art world and beyond. The class is structured around everyday tangible spaces, including the home, backyard, and street, as well as imaginative and virtual experiments that are designed to help further each student's skillset, broaden their knowledge of contemporary art, and to offer critical and analytic experiences that deepen the student's understanding of the role of art in society. What is at stake and how does one create deeply personal/political work? Your voices are now more important than ever and this class is an integral stepping stone in accessing these voices through visual, written, and spoken language. Through various texts, screenings, in-depth critique, and visiting artist lectures, the Junior Seminar finds a balance between self-exploration and group dynamics, between solo and collaborative art practices, between reflection and expression, and between resistance and care.

**Class Format:** This class will be taught remotely. Students who are on campus will have access to studio space and facilities. There will be a strict system to allow for students on campus to work productively, while adhering to safety and health regulations.

**Requirements/Evaluation:** quality of work produced, participation in class discussions and critiques, successful completion of all assignments, and attendance

**Prerequisites:** three studio courses required for the major, or permission of instructor

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Studio Art and Art History and Practice majors are required to take this course in the junior year unless studying abroad during the fall semester

**Materials/Lab Fee:** TBD lab fee charged to term bill

**Distributions:** (D1)

---

**ARTS 323 (F)  Colour Function**

This tutorial places colour as a central consideration in our object making. Experiments and discussions will include development of dyes and inks, foraging for colours, understanding palettes and their relationship to 'the tasteful' and 'the garish', 'beautiful' and 'the unpleasant', colour blocking, monochromes, culture and colour, and the relationship between a variety of pigments, their medium of suspension, and the material they stain or sit directly on top of, unstable. In this way, we will work with a large selection of media and the assignments will be both foundational and highly experimental; you are creating a hundred new colours within a strict grid--you are mixing two new colours through light and projection alone, with no guides. The course is open to anyone who has taken advanced classes in printmaking + drawing, sculpture, and photography.

**Class Format:** the class will meet in tutorial pairs once a week and collectively whenever there is a skill workshop

**Requirements/Evaluation:** weekly assignments and final project; participation, generosity towards studio and studio members; attendance

**Prerequisites:** any 200-level art studio class or submit a portfolio for consideration

**Enrollment Limit:** 10

**Expected Class Size:** 6

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**Not offered current academic year**

---

**ARTS 329 (F)  Architectural Design II**

A continuation and expansion of ideas and skills learned in Architectural Design I. There will be four to six design projects requiring drawings and models, each of which will emphasize particular aspects of architectural theory and design. One project will be built full-scale by the students in the class.

**Class Format:** design studio, site visits, lectures, readings

**Requirements/Evaluation:** quality of designs during the term
ARTS 337  (S)  This Is An Experiment!
Keeping printmaking as our source and primary method, this class will use the possibilities within the discipline to create layered, expansive, and highly experimental surfaces. Students will work with a variety of printmaking techniques, and build on their existing knowledge of etching, relief, lithography, and screen printing. They will take risks with inks and their viscosity, the scale of their printing blocks, the temperamental nature of their material, the variety of methods on a single print, and consider outcomes that go beyond images on paper. Prior printmaking experience is strongly recommended. Students will be evaluated on their progress towards building a print based body of work.

Requirements/Evaluation: active and thoughtful participation, time and thought dedicated to their studio practice/project, completion of assignments
Prerequisites: any printmaking class
Enrollment Limit: 12
Enrollment Preferences: Art majors
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option
Distributions: (D1)
Not offered current academic year

ARTS 344  (S)  Taswirkhana: Technique and Practice of Indian Drawing and Painting  (DPE)
Cross-listings: ASST 344  ARTS 344

Primary Cross-listing
Small in scale but vast in its representation, the world of Indian painting is famous for its stylized naturalism and mastery of line. It is an artistic practice whose legacy stretches back to at least the first century CE. This studio course will introduce students to the technique and practice of traditional Indian drawing and painting. The course is designed as a workshop in which students will learn to use materials and techniques of this art form. By engaging with a non-western traditional practice, the aim of the course is to expose students to a pluralistic engagement with art making. Students will learn paper and pigment preparation, as well as the basics of traditional drawing and painting techniques. The class will learn from studying a selection of original masterworks of Indian art from the Williams College Museum of Art that will be displayed in the Object Lab. Working with original artworks will help students situate the hands-on study of Indian painting practice alongside exemplary historical examples.

Requirements/Evaluation: Class participation, discussions and critiques, successful completion of all assignments and attendance
Prerequisites: none, open to all students
Enrollment Limit: 10
Enrollment Preferences: Preference will be given to studio and art history majors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ASST 344 (D1) ARTS 344 (D1)

Difference, Power, and Equity Notes: The course invites students to engage with a pluralistic studio practice that is in stark contrast to mainstream modern and contemporary art practices. The course will follow a traditional, Indian workshop-style format which has its own particular rules and unique visual vocabulary. From the material preparation of pigments, paper and brushes, to the techniques of drawing and painting, the course will introduce students to an alternative, non-Western, mode of art making.
ARTS 345 (S) Art in Times of Crisis  (DPE)

In an era of ever-increasing emergency, what is the role of art? Can poems save us? What media and forms of exhibition are best suited to respond to urgent crises? What creative methodologies might we develop in collaboration with one another, in the interest of building community as well as making great art? This course is an interdisciplinary, experimental intervention into our present era. In addition to producing multiple original artworks, we will do deep dives into 3 art activist case studies: Puerto Rico's current societal collapse, the HIV + AIDS movement, and global climate justice. Readings and artists will include Octavia Butler, Adrienne Marie-Brown, Rebecca Solnit, Raquel Salas-Rivera, Yarimar Bonilla, David Wojnarowicz, Douglas Crimp, and many others.

Requirements/Evaluation:  readings, screenings, attendance, participation, and committed completion of assignments
Prerequisites:  any 200-level art studio class or submit a portfolio for consideration
Enrollment Limit:  10
Expected Class Size:  10
Grading:  no pass/fail option, no fifth course option
Materials/Lab Fee:  $150
Distributions:  (D1) (DPE)

Difference, Power, and Equity Notes: This course examines crises which disproportionately impact communities of color and marginalized people. Race and class will be central areas of inquiry.

Spring 2021
STU Section: R1  T 1:30 pm - 4:30 pm  Cecilia Aldarondo

ARTS 369 (S) QUILTY!

A quilt is a glorious formation to be asleep under, and in this class we will spend the entire semester making a single wonderful one. A dynamic composition for the home! Students will learn how to collect and choose fabrics, cut them into bold lively shapes, and practice efficient ways of using a needle and thread to sew them together. By looking at quilting traditions internationally, both improvisational and hyper precise methods of construction will be adopted - the quilt is for everyone! Students will also learn basic embroidery and applique techniques to embellish the quilt top, and draw with thread as they bind and stuff the layers of their quilt with (local) wool.

Requirements/Evaluation:  a single quilted and bound queen sized quilt.
Prerequisites:  200 level studio art classes completed, and/or letter stating enthusiasm and investment in handwork and textiles, and/or previous sewing experience.
Enrollment Limit:  10
Expected Class Size:  10
Grading:  no pass/fail option, no fifth course option
Distributions:  (D1)

Spring 2021

ARTS 385 (S) The Sculptural Costume and It’s Performance Potential

Cross-listings:  THEA 385  ARTS 385

Primary Cross-listing

A team-taught studio art / theatre course designed to explore the rich territory of the wearable sculpture and its generative role in art and performance.
From ritual costumes, to Carnival, to Dada performance, to Bauhaus dance, to Helio Oiticica's Parangole, and Nick Cave's sound-suits, there has been a rich tradition where sculpture and costumes merge. Students will study artists who have bridged distinctions between the theatrical costume and the sculptural object as well as produce hybrid objects that explore the range of possibilities within this collaborative practice. The students will produce object-costumes involving a wide variety of media, from recycled materials to new technologies, while striving to develop their individual artistic voices.

**Requirements/Evaluation:** the quality of work produced, the depth and quality of the content and process, participation in critiques, and attendance

**Prerequisites:** successful completion of any 200-level course in art studio or performing arts, or permission of the instructor

**Enrollment Limit:** 14

**Enrollment Preferences:** Art and Theater majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** $125

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 385 (D1) ARTS 385 (D1)

Not offered current academic year

**ARTS 396 WONDERFUL THINGS!**

A spinning top! A clock! A toy! A sundial, a deck of cards, a lantern, pompoms, building blocks that rise and topple, puppets, paper kites, paper planes, toy boats that float --play objects are born into the world over and over, transforming in colour and shape, yet holding onto an essential structure that give them their name and purpose. In this class, students will construct their own versions of (some of) these classic objects using humble and lovely materials: paper, glue, bamboo, cloth, light, wood, perhaps wind, string. Our guides will be existing histories of making, the wonderful image of disparate objects on a well made shelf, all the handmade objects we have loved, childhood toys, a desire to play still, and delight.

**Requirements/Evaluation:** weekly assignments, final project

**Prerequisites:** Drawing 100 and/or sculpture classes and/or portfolio of studio work

**Enrollment Limit:** 10

**Enrollment Preferences:** Studio art majors

**Expected Class Size:** 10

**Grading:**

**Distributions:** (D1)

Not offered current academic year

**ARTS 418 (S) Senior Seminar**

In this capstone class for studio art majors, students define, research, create and present an original body of work which will be exhibited. The emphasis will be on producing a strong and coherent body of artwork for their senior exhibition at the Williams College Museum of Art, (in person or virtual). Students will focus on strengthening ideas, developing formal skills and practicing critical analysis. They may work in any medium in which they have developed a high degree of proficiency. To prepare to partake in an exhibition on this level, students must learn to schedule and pace themselves, communicate, deal with spatial considerations beyond their studio, document their work effectively and work within firm deadlines. The nature of this course will have you working closely as a team, as well as individually, towards creating a strong and exciting student show this May at the Williams College Museum of Art (or via a virtual platform). The class will meet in large and small groups throughout the semester for critique and discussion and also have assigned readings, films, and/or lectures.

**Class Format:** intensive studio art class

**Requirements/Evaluation:** Art is a visual language, which speaks to us through our sense of sight and implied touch; you will be evaluated first and foremost on your ability to speak powerfully in this language. Evaluation also takes into account: effort, attitude, creativity, studio responsibility and participation. Attendance and punctuality is expected for both remote and in person portions of the course. If you miss more than one unexcused class your grade will automatically drop a letter grade. All work must be completed by the final critique.

**Prerequisites:** You must be a senior Art Studio major with all requirements fulfilled by the end of this term
Enrollment Limit: none

Enrollment Preferences: Studio Art major; permission of instructor is required for History and Practice majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: no lab fee, students are responsible for purchasing supplies

Distributions: (D1)

Winter Study

**ARTS 31 (W) Senior Studio: Independent Project Art Studio**

Independent project to be taken by candidates for honors in Art Studio.

**Class Format:** Independent project

**Grading:** pass/fail only

Not offered current academic year

**ARTS 99 (W) Independent Study: Art Studio**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
MASTER OF ARTS IN ART HISTORY

Requirements

To qualify for the Master of Arts degree in art history, candidates complete a minimum of twelve courses for graduate credit plus two winter study periods, the latter comprising an international Study Trip in the first year (normally in January) (ARTH 51) and preparation of a Draft Qualifying Paper in the second (ARTH 52). Students must also demonstrate reading proficiency in two foreign languages, one of them German (for more specific information on the language requirements, see below, after the listing for ARTH 597/598). At the end of the second year, all students present a shortened version of the Qualifying Paper in the annual Graduate Symposium.

At least eight of the twelve courses must be graduate seminars. Included among them are four required of all students: ARTH 504, "Methods of Art History," to be taken during the first semester; ARTH 506, "Graduate Art History Writing Workshop" and ARTH 507, "Object Workshop," to be taken in the second; and ARTH 509, "Graduate Student Symposium," to be taken in the fourth.

Students must also fulfill a distribution requirement by undertaking coursework in three of six areas:

- East Asian, Indian, Islamic art
- Ancient Near Eastern, Egyptian, Greek, and Roman art
- Early Christian, Byzantine, and Western Medieval art to 1400
- Western art, 1400 to 1780
- Western art, 1780 to present
- Arts of Africa, Oceania, and the Americas (Pre-Hispanic or Native American cultures)

Students may petition the Director to apply a thematic or non-period specific course toward the distribution requirement by demonstrating substantial work in an appropriate area.

Undergraduate Courses and Private Tutorials

With permission from the Director and the individual instructors, students may take up to four undergraduate courses for graduate credit, with the understanding that research papers submitted in such courses meet a standard commensurate with those prepared for graduate seminars.

In addition to regularly offered seminars and classes, students may arrange up to two private tutorials (ARTH 595/596) by submitting petitions to the Director describing the substance of their projects, including bibliography, and the nature of the work they will submit for evaluation. The petitions must be co-signed in advance by both the students and their faculty supervisors.

Of the minimum requirement of twelve courses, the combined number of private tutorials and undergraduate courses applied to the degree may not exceed four.

The Qualifying Paper
The Qualifying Paper is normally a revision of a seminar or private tutorial paper produced in one of the previous three semesters, expanded and refined over the second Winter Study term and a portion of the fourth semester. Students submit the topic of the Qualifying Paper in writing to the Director by the final day of exams of their third semester. Before this, students must obtain their original faculty supervisor’s agreement to be engaged in the Qualifying Paper process.

On the first Friday of their fourth semester, students submit drafts of their Qualifying Paper, including illustrations, to three faculty readers (generally the original faculty supervisor, the Director, and the Post-Doctoral Teaching Fellow). Although a draft, this version of the paper should be brought to a high level of completion.

Early in the fourth semester, students and their readers meet together to discuss the drafts. Within six weeks of these discussions (at a date determined by the Director), students submit their Qualifying Papers. Qualifying Papers should not exceed 8,000 words, including footnotes and bibliography.

The Graduate Symposium

All second-year students speak in the Symposium, presenting 20-minute talks developed from their Qualifying Papers. Each student has an ad hoc committee to give advice in preparing these presentations (ad hoc committees comprise, but are not limited to, the Director, one additional faculty mentor, one first-year graduate student, and one second-year graduate student). Preparations include at least three practice sessions for each student. Speakers present the first and third of these run-throughs to the ad hoc committee, the second to the other second-year students in a workshop scheduled by the Director.

Grades and Academic Standing

The Program uses the following grading system:

- A+ = truly exceptional (4.33)
- A = outstanding (4.00)
- A- = excellent (3.67)
- B+ = good (3.33)
- B = satisfactory (3.00)
- B- = barely adequate (2.67)
- C = inadequate (0)
- E = failing (0)

Courses in which students receive a grade below B- do not receive graduate credit.

Letter grades are used in all seminars except ARTH 507, 509, and 563. These and the Winter Study courses (ARTH 51 and 52) are Pass/Fail. Grades in language courses are converted to Pass/Fail on the Williams transcript and are not calculated in the GPA. The Director reviews students’ records at the end of the first year; those with GPAs of 3.00 or lower may be asked to resign from the Program.

Course instructors set the deadlines for coursework. If students seek and receive extensions that result in semester grades of Incomplete, they must hand in their work by the instructor’s revised deadline, which will be no later than the second Monday of the next semester’s classes. Extensions beyond this date will be solely at the discretion of the Director (in consultation with the instructor).

Students who resign from the Program may, after a period of at least one year, petition to the Director for re-admission. Such a petition must include evidence that deficiencies have been remedied and that the student is capable of completing the course of study without further interruption.

The M.A. requirements are designed for completion in two consecutive academic years in residence. There is no credit for coursework done prior to matriculation in the Program. The Program is full-time, requires students to live in Williamstown or its vicinity, and does not normally admit students on a part-time basis.

Language Courses

The Graduate Program’s degree requirements include reading competence in two languages (other than English) of scholarly and academic relevance to the history of art. One of the two languages must be German. Many students select French as the second although, with permission of the Director, other languages may serve. The Program offers dedicated courses in reading French and German for art history. Other language classes at Williams are listed in the course catalog, although the coordination of undergraduate and graduate schedules can be challenging.

Incoming students’ language preparation is assessed through exams administered at the outset of the semester. In French and German, scores attained on SAT II reading examinations determine placement within the two-semester language course sequence.

French: If students attain a minimum score of 700 on the French placement exam, they are exempted from further coursework in that language.
With a score between 500 and 700, they are placed into the graduate course of readings in art history, French 512. With a score below 500, they enroll in the introductory course, French 511. In the case of a second language other than French, arrangements will be made on an individual basis.

German: With a score below 450, students enroll in the introductory course, German 515. Students who score between 450 and 500 are placed into German 516. With scores between 500 and 700, students enroll in the advanced reading course, German 513. Students attaining a minimum score of 700 on the German placement exam are exempted from further coursework in that language.

**ARTH 500  (F)  Clark Visiting Professor Seminar: writing TO art**

**Cross-listings:** ARTH 500  ARTH 400

**Primary Cross-listing**

In this seminar, we will think about writing TO art and for it, rather than merely about it; but first, we will think about how we think. I intend that we read essays and stories that confront the ways in which we think. That might sound abstract, but in fact it is rather concrete: we bring to works of art our predilections or tastes, psychologies, politics, habits of mind, in short, our subjectivity. We are not blank slates, art is not, either. Art is layered with its own history, and histories, criticisms, reactions, rejections, movements. Art is not static. How do we writers move with art, confront our reactions, and ask why we have them. To me, one of the most important aspects in writing is judging one's own reactions, for instance, in the choice of words. To that end, that of confronting our thinking, we will read, among other things: Adorno's "Coming to Terms with the Past;" Joan Scott's "The Evidence of Experience;" Kafka's "Josephine the Mouse Singer and the Mouse People;" and "The Hunger Artist;" Freud's "Notes on War and Death;" and Craig Owens', "On Speaking to Others" and "Feminism and Post-Modernism." We will also read some of my anti-art art criticism, or what I call stories written in relationship to art. Some of these employ fictions, some not. We will read a few of my "Madame Realism" pieces, as well as essays on Warhol and some other contemporary artists. We will do some writing. We will visit with or be visited by critics and/or artists. We will look at art in galleries, and write about what we have seen.

**Requirements/Evaluation:** writing assignments, participation

**Prerequisites:** none

**Enrollment Limit:** 16

**Enrollment Preferences:** graduate students get preference; places for 8 undergraduate and 8 graduate students assured

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 501  (S)  Museums: History and Practice**

**Cross-listings:** ARTH 303  LEAD 301  ARTH 501

**Primary Cross-listing**

Art museums not only express the political, economic and cultural values of their period of formation, but the evolution of those values that have resulted in today's arts institutions. Looking at museums past and present internationally, the seminar will envision the future of museums as we recognize the programmatic trends developing in our own moment of civic and social unrest. The class will consider this future while examining existing governance and management policies and practices, the role of architecture and installation in interpretation and experience, guidelines in the accessioning and deaccessioning works of art, and issues in repatriation and restitution of cultural property. Surveying museums ranging in size and type from the "encyclopedic" to newly established contemporary arts institutions and alternative spaces, we will investigate current trends in acquisition, exhibition, educational programming in light of the equity and social justice demands of our time. With our goal of imagining art museums in the future, class discussions will have a special focus on how museums might strive to balance their traditional scholarly and artistic responsibilities with their heightened civic and social roles, doing so while maintaining financial stability in the increasingly market-driven, metric-conscious, not-for-profit environment of our time.

**Requirements/Evaluation:** oral presentations and discussion in class and one seminar paper (with class presentation) at the end of the semester

**Prerequisites:** undergraduates should email michael.conforti@williams.edu to schedule a discussion before registering for the course
Enrollment Limit: 10

Enrollment Preferences: graduate students, then senior art history majors, then other undergraduates

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: satisfies the seminar requirement for the undergraduate Art History major

ARTH 503  (S) Clark Visiting Professor Seminar: Art and Law

Cross-listings: ARTH 503 ARTH 403

Primary Cross-listing

In the 1960s, artists began to engage conspicuously with legal ideas, rituals, and documents. The law—a primary institution subject to intense moral and political scrutiny—was a widely recognized source of authority to audiences inside the art world and out. Artists frequently engaged with the law in ways that signaled a recuperation of the integrity that they believed had been compromised by the very institutions entrusted with establishing standards of just conduct. These artists sought to convey the social purpose of an artwork without overstating its political impact and without losing sight of how aesthetic decisions compel audiences to see their everyday world differently. Addressing the role that law plays in enabling artworks to function as social and political forces, this course explores the question of an "applied art history," namely, how art history might intervene or inflect extra-artistic institutions such as the law. Topics to be considered include: artists' rights, human-animal relationships, globalism as extraterritoriality, what "agreement" means in concept and practice.

Requirements/Evaluation: research paper, class presentations

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students; places for 8 undergraduate and 8 graduate students assured

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Spring 2021

SEM Section: H1  R 1:00 pm - 3:00 pm  Joan Kee

ARTH 504  (F) Proseminar in Research and Method

In this graduate Proseminar on Research and Method, we will read a number of texts that form the foundation of art history as a discipline, including the writings of Plato, Panofsky, Lessing, Heidegger, Wölfflin, and Barthes (among others). We will study these works against the grain, considering how art history is currently transforming under the fields of ecology, disability studies, queer theory, and radical black feminism. Students will work closely with the collections of the Clark to theorize how absences are integral to institutional histories, and we will think about how we can, as historians, responsibly address voices that have been removed from the canons of art history. This course considers not only central writings of art historical methodology but also the limits for decolonizing art history and the museum, as we will examine how the formation of the discipline depended upon absenting critical perspectives and voices.

Class Format: in-person seminar with option to attend remotely, remote learning after Thanksgiving
ARTh 506 (S) Expository Writing Workshop

This writing seminar for graduate students in Art History will afford intensive full group discussions of writing skills and substantial one-on-one writing consultations (to be held on Google Meet). Group discussions will center on three kinds of texts: Writing about writing, published writing in the discipline of Art History, and student writing in progress. In six such discussions we will improve our vocabulary and method for discussing writing; we will learn to build better and more sophisticated sentences, paragraphs, and arguments; and we will practice anticipatory reading and writing in order to strengthen our control of both voice and structure. Each discussion will be supported with both exempla and exercises, and our watchword in all cases will be "revision." In one-on-one consultations (3-4 per person), I will offer tailored critique of each student's work, setting aside time as needed to troubleshoot sentences, paragraphs, or arguments together.

Requirements/Evaluation: class participation, participation in consultation meetings, writing assignments,
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Spring 2021
SEM Section: R1  W 10:30 am - 12:30 pm  Ezra D. Feldman

ARTh 507 (S) Object Workshop

Meeting for six sessions over the semester, this workshop is designed to introduce first-year graduate students to technical, material, and connoisseurial perspectives relevant to the study and analysis of art objects. We will draw on local collections and expertise for our case studies.

Requirements/Evaluation: participation
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: limited to and required of first-year students in the Graduate Program in the History of Art
Grading: pass/fail option only
Distributions: (D1)

Not offered current academic year

ARTh 508 (S) Art and Conservation: An Inquiry into History, Methods, and Materials

This course is designed to acquaint students with observation and examination techniques for works of art, artifacts, and decorative arts objects; give them an understanding of the history of artist materials and methods; and familiarize them with the ethics and procedures of conservation. This is not a conservation training course but is structured to provide a broader awareness for those who are planning careers involving work with cultural objects. Sessions will be held at the Williamstown Art Conservation Center, Williams College, the Clark Art Institute, and the Governor Nelson A. Rockefeller
Empire State Plaza Art Collection in Albany. Examination questions may be formulated from exhibitions at these locations. Six exams will be given. Exam scores will be weighed in proportion to the number of sessions covered by the exam (e.g., the paintings exam, derived from six sessions of the course, will count as 25% of the final grade).

Class Format: slide presentations, lectures, gallery talks, hands-on opportunities, technical examinations, and group discussions

Requirements/Evaluation: attendance is required at all sessions; the course grade is based on exams given throughout the semester; there is no final exam

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Graduate Program students, then students in art history or studio art

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 509 (S) Graduate Symposium

This course is designed to assist qualified fourth-semester graduate students in preparing a scholarly paper to be presented at the annual Graduate Symposium. Working closely with a student and faculty ad hoc advisory committee, each student will prepare a twenty-minute presentation based on the Qualifying Paper. Special emphasis is placed on the development of effective oral presentation skills.

Class Format: symposium

Requirements/Evaluation: each student will present three practice runs and a final oral presentation at the symposium

Prerequisites: successful completion and acceptance of the Qualifying Paper

Grading: pass/fail option only

Unit Notes: limited to and required of second-year students in the Graduate Program in the History of Art

Distributions: (D1)

Not offered current academic year

ARTH 510 (F) Approaches to Drawing from Connoisseurship to Conceptualism

This course will consider the art of drawing as a pedagogical tool and cultural practice from the sixteenth to the twentieth century. Creative and commercial forces over four centuries have fostered different types of and reasons for production: presentation drawings in sixteenth century Italy, an increased market for drawings in seventeenth century Holland, a fashion for powdery pastels in eighteenth century France, and the critical promotion of drawing as a form of autographic thinking in the nineteenth century. Drawing has enjoyed a resurgence in the last fifty years as Minimalism and Conceptualism have the pushed the medium's boundaries. Equal consideration will be given to the history of collecting and to materials from the invention of the Conté crayon to the deteriorating effects of acidic paper. The seminar will coincide with a major loan exhibition at the Clark of over one hundred drawings from the Renaissance through contemporary: Drawing in Depth: Master Drawings from the Thaw Collection. The class will be held in the Manton Study Center for Works on Paper and the Clark galleries with visits to the Williams College Museum of Art.

Requirements/Evaluation: involved class participation, several short presentations, one short paper, and a final paper approximately 20 pages

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Graduate Program students and then to senior Art History majors

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 512 (F) Why Look at Animals? Some Contemporary Positions

This seminar, named for a 1977 essay by the art critic John Berger, considers a recent tendency in contemporary art to see nonhuman animals less as
objects for human delectation—be owned, eaten, or symbolized with—than as subjects, endowed with specific forms of intelligence, agency, and/or cross-species kinship. We will take as case studies the work of artists such as Francis Alÿs, Xu Bing, Sue Coe, Coco Fusco, Pierre Huyghe, Jochen Lempert, Chris Marker, and Lin May Saeed, among others. Readings will come in part from the rapidly growing, multidisciplinary field of animal studies. In the process, we will consider concepts such as animacy; animal ethics; animalization; the anthropocene; biopolitics; and posthumanism. This seminar anticipates two exhibitions concerning animals at the Clark in Summer 2020.

Requirements/Evaluation: active class participation, presentations, writing assignments
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: MA students, then advanced Art History undergraduates
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 355 (D1) ARTH 515 (D1)

Not offered current academic year
ARTH 521 (S) Islam and the Image in Indian Painting, c.1450-c.1750

This seminar will explore Indian painting made for Muslim patrons from the medieval period to the early modern era. The course considers how paintings produced for an elite Indo-Muslim audience can be situated within the frameworks of "Islamic art," a loaded historiographical term that has been questioned in recent times. The seminar will also address some of the major problems that continue to haunt Indian art scholarship. For most of its history, the academic study of Indian painting has seldom considered contemporaneous literary voices that shed light on the motivations behind artworks. Furthermore, the historiography, deeply entrenched in its colonial and orientalist roots, has largely isolated images from their supporting texts—a curious oversight in light of the fact that miniature painting is primarily an art of the book. These biases have affected the way museums have collected, displayed and interpreted miniature paintings. Western museums continue to place paintings made for books and albums in their "South Asian" collections while textual manuscripts and calligraphic specimens made for the same Muslim audiences—even at times bound in the same albums—are categorized as "Islamic art." What does this isolation of text from image imply about prevailing views of Islamic art? In order to understand the various intended functions of miniature painting and its possible role as an "Islamic" art, the seminar will explore ways to conceptually reintegrate images and texts belonging to key manuscripts and albums that were dispersed during the colonial and post-colonial periods. To better understand the cultural, historical and religious context surrounding artworks students will read primary literature ranging from autobiography to devotional poetry, often written by the very patrons and subjects of the paintings to be discussed.

ARTH 523 (S) Heaven's Gate: The Romanesque Sculpted Portal and the Creation of Sacred Space Through Art

Cross-listings: ARTH 523 ARTH 424

Secondary Cross-listing

During the course of the eleventh century, the designers of European churches fashioned a new architectural language that we now label "Romanesque." One of the most innovative and dramatic aspects of this new language was its assimilation of monumental sculpture, absent in Europe since the fifth century. The focus of attention in this regard was the portal, which marked the threshold between the profane realm of the outside world and the sacred space of the church. Often characterized as the "marquee of the Middle Ages," the Romanesque sculpted portal, with its startling juxtaposition of the spiritual and the physical, of ecstatic visions of the heavenly realm and writhing, biting monsters, constitutes one of the true high-points of creativity in medieval art. Through the lens of modern scholarship, this seminar will investigate the antecedents and origins of the Romanesque sculpted portal and examine in detail its most renowned manifestations. Emphasis will be placed on understanding these often complex sculptural schemes within their original functional and material contexts, especially in terms of how they helped to create the sacred space of the church behind. Students will then have the opportunity to develop their own research projects, informed by what we have learned in the seminar, but focused on an example of sacred threshold art of their own choosing.

Requirements/Evaluation: class discussion/participation, oral presentation, and a 15- to 20-page research paper

Prerequisites: permission of instructor
Enrollment Limit: 14
Enrollment Preferences: Art majors and graduate students
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 523 (D1) ARTH 424 (D1)
Not offered current academic year

ARTH 524 (F) The Watchful Object

What is implied by an object that "watches"? Is it sentient? Animates? Through what apparatus does it gain the power to perceive and in turn generate some type of action? Watchful objects--sometimes known problematically as 'fetishes,' 'idols,' and 'totems'--have existed in numerous material cultures in Africa over time and have often been saddled with titles and labels that largely reflect colonial-era notions of primitivism linked with non-Western objects, spaces, and peoples. Even today, many of these objects are still inappropriately connected to systems of the occult rather than being recognized as crucial cogs in the socio-political, cultural, and spiritual mechanics of lived experience on the continent both past and in some cases present. The purpose of this seminar, thus, is to unpack the multiple identities that these objects have experienced as a way of understanding 1.) the circumstances and situations that catalyzed their production; and 2.) how their various material and metaphorical components function as power-producing elements that enable these forms to become 'watchful' presences in society that operate in accordance with their 'observations' of the human condition. This course will also address how the psychological agency of many of these material traditions has prompted their inclusion and absorption within contemporary artistic practices as well, often in the form of productions and performances that provoke unsettling and often transformative experiences in viewers.

Requirements/Evaluation: in-class presentations, class discussion, and a final research project
Prerequisites: none

Enrollment Limit: 16
Enrollment Preferences: second-year graduate students, then first-year graduate students, then advanced undergraduate students
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)
Not offered current academic year

ARTH 527 (F) Acquiring Art: Selecting and Purchasing Objects For WCMA

Cross-listings: ARTH 527  ECON 227  ARTH 327
Secondary Cross-listing

How do museums acquire art? Factors considered in selecting objects include: the museum's existing collection, its mission, the availability of suitable objects, evaluation of the art historical importance of potential purchases, and the available budget. How can objects be identified and obtained at the most reasonable cost? How do auctions work and what strategies are best for purchasing works at auction? Is it more economical to purchase art at auction or to work with dealers or (for contemporary works) directly with artists? Do museums consider value in the same way as private collectors?

What role does an object's history and condition play in the evaluation process? In this course students will work as teams to identify and propose objects for addition to the collection of the Williams College Museum of Art (WCMA). A significant budget will be made available for the acquisition. We will discuss approaches for identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA curatorial staff, one or more of these objects will be acquired using the agreed strategy, and the object will become part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be required to submit three papers, dealing with the objects, the likely cost, and the best strategy
Prerequisites: ECON 110 or permission of instructor

Enrollment Limit: 20
Enrollment Preferences: senior majors in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 527 (D1) ECON 227 (D1) ARTH 327 (D1)

Not offered current academic year

ARTH 530 (S) Demigods: Nature, Social Theory, and Visual Imagination in Art and Literature, Ancient to Modern

Cross-listings: ARTH 530 CLAS 236

Primary Cross-listing

Embodied in satyrs, centaurs, nymphs, and other demigods is a vision of an alternative evolutionary and cultural history. In it, humans and animals live together. The distinction between nature and culture is not meaningful. Male and female are equal. The industrial revolution never happens. This course traces the history of demigods from its origins in ancient Greek art and poetry until today. We pay special attention to three points: the relationship between mythology of demigods and ancient political theory about primitive life; evolving conceptions of the environment, and the capacity of the visual arts to create mythology that has a limited literary counterpart. The first half of the course examines the origins and character of the demigods, in works of ancient art, e.g. the François vase and the Parthenon, as well as ancient texts, including Hesiod's Theogony and Ovid's Metamorphoses. We examine relevant cultural practices, intellectual history, and conceptions of nature, in texts such as Euripides and Lucretius. The second half of the course investigates the post-classical survival of demigods. We consider the "rediscovery" of demigods in the work of Renaissance artists such as Botticelli, Michelangelo, Dürer, and Titian. We consider in detail the important role played by demigods in the formation of Modernism in art and literature. Key texts include Schiller, "Naive and sentimental poetry," Nietzsche, Birth of Tragedy, Mallermé, "L'Après midi d'une faun," Aby Warburg, and Stoppard's Arcadia. Problems include the relationship between nymphs and prostitutes in Manet, and the meaning of fauns and the Minotaur in Picasso. We conclude with demigods in popular culture such as the Narnia chronicles or Hunger Games.

Requirements/Evaluation: attendance, participation in discussion, one short presentation on a demigod in ancient art, one longer presentation on demigods in early modern, modern, or contemporary art, and a 20-page research paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: first year graduate students, then second year graduate students; undergraduates by permission only

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 530 (D1) CLAS 236 (D1)

Not offered current academic year

ARTH 535 (F) The Medieval Object

Cross-listings: ARTH 535 ARTH 435

Secondary Cross-listing

After years of focusing on theory, scholars of medieval art have returned to an examination of physical objects. Distinctly strange and even monstrous, such small material things as reliquaries, liturgical vessels, game pieces, and textiles transgress the traditional categories of art, some made from precious materials and others of such base substances as bones and dirt. Even books were treated as tangible things, not only to be read as texts, but also to be looked at, paraded, and displayed with the Eucharist. Collected in church treasuries during the Middle Ages, exchanged, and reconfigured, medieval objects served simultaneously as earthly assets and spiritual investments. The seminar will focus on the making, function, and collecting of medieval objects. Each student will participate in weekly discussions stimulated by the instructor's presentations and selected readings. Students will also conduct research on an object available for study, will present an analysis of it for discussion by the class, and submit a 15- to 20-page term paper taking into account any comments and criticisms.
Class Format: three hours per week

Requirements/Evaluation: class participation, oral presentation, 15- to 20-page research paper

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Art majors and Art History graduate students; 16 (8 undergrad, 8 graduate)

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 535 (D1) ARTH 435 (D1)

Not offered current academic year

ARTH 536 (S) Charles and Maurice Prendergast in WCMA Collections

This seminar will investigate the careers of Maurice and Charles Prendergast, who occupy curious positions in American art. Students will work closely with the art and archival collections of the Prendergasts at WCMA, which is the largest repository of their work in the world. Maurice's Post-Impressionism placed him at the forefront of American modernism in the first decades of the twentieth century, culminating with his inclusion in the infamous Armory Show of 1913. Charles, a leading frame maker before adapting techniques of his craft to create incised panels, intersects with the Arts & Crafts Movement, Symbolism, and vernacular material culture. While the brothers are firmly canonical, they are often regarded as isolated from major formal and iconographic concerns of their peers. Scholarship, much of it produced at WCMA, has often focused on their subject matter. Participants in this class will consider new material and theoretical approaches to the brothers' work that may (or may not) prove productive in restituting their place in American art.

Requirements/Evaluation: class participation and writing assignments

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: MA students, then advanced art history undergraduates

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

ARTH 537 (F) HIV + AIDS in Film and Video (DPE) (WS)

Spanning activist works, experimental film, Hollywood dramas and documentary, this course examines the role of moving images in the global AIDS crisis, its aftermath, and its ongoing aftershocks. The AIDS crisis of the 1980s and 1990s was, in the words of Larry Kramer, a 'plague' of epic proportions, with an entire generation obliterated before it could reach maturity. And yet, the plague years also spawned a remarkable amount of creative and activist image-making aimed at fighting, mourning, and grappling with AIDS. Now, we find ourselves in another pivotal moment: while the past decade has provoked a new wave of AIDS historiography, the COVID-19 pandemic has caused AIDS to reverberate with even greater force. Together, we will ask difficult and probing questions about this phenomenon called the 'AIDS epidemic,' examining the role of art in frontline activism, the ethics of AIDS historiography, mainstream visions of the AIDS body, and the need for a diversity of AIDS narratives. This seminar-style course will combine weekly screenings with readings, short writing assignments, student-led discussion, and a final research project of the student's design. In order to facilitate robust discussions and maximize student and faculty safety, the majority of this course will occur online. It will contain some in-person experiences when possible.

Class Format: This course will be largely conducted online, in order to facilitate robust discussions and maximize student and faculty safety. It will contain some in-person experiences when possible.

Requirements/Evaluation: Students will be evaluated according to the following criteria: weekly attendance, readings and participation in seminar discussion; leading class discussion once during the semester; 3 short response papers; one paper of 20+ pages of original student research.

Prerequisites: MA student, Art History or Studio Art major, or instructor permission

Enrollment Limit: 10
Enrollment Preferences: MA students first, followed by Art History and Studio Art majors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will be required to conduct regular writing assignments which will culminate in a graduate-level research paper.

Difference, Power, and Equity Notes: This course explores an epidemic that had devastating effects on LGBTQ+ people, and has disproportionately affected communities of color. Questions of difference, power, and equity are absolutely central to the course.

Fall 2020

SEM Section: R1  M 1:30 pm - 3:30 pm  Cecilia Aldarondo

ARTH 538  (F)  Realms of Earth and Sky: Indian Painting, ca. 600-1857  (WS)
On the basis of technique, Indian painting forms a continuum from the beginning of the first millennium down to the mid-nineteenth century: an outline in ink filled with flat, opaque colors which are burnished between each layer to give them opacity. In its media, its subject matter, regional variation, range of patronage, and artistic virtuosity, it displays startling diversity. From the northern Himalayan hills to Mysore in the south, artists, often working in family workshops for royalty, priests and wealthy merchants, have adorned caves and temples, illustrated books, and created lavish albums with themes ranging from the sacred to the secular. The study of Indian painting itself is a vast, evolving body of literature that continues to oscillate between discussions of artistic style and a concentration on content and context. The aim of this seminar is twofold: to outline the development of Indian painting historically; and to understand the political, social and religious circumstances that produced some of the greatest masterworks in Indian art. How was Indian painting used? Who were the patrons? How does the art form reflect the particular cultural values of its time? As an analytic framework, the seminar will consider Indian miniature painting both in light of primary literary sources as well as through current scholarship.

Requirements/Evaluation: Class participation. Short weekly responses. Final 15- to 20-page paper to be developed with the instructor throughout the semester.

Prerequisites: none, open to all students

Enrollment Limit: 19

Enrollment Preferences: graduate students, undergraduate art majors

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will submit short written assignments weekly. They will also be required to submit a final paper which they will develop throughout the semester. Students will receive comments and suggestions from the instructor on their writing skills.

Fall 2020

SEM Section: H1  R 1:30 pm - 3:30 pm  Murad K. Mumtaz

ARTH 540  (F)  In Vinculus Invictus: Portraits in Prison
Among all the portraits produced during the modern period, some have been painted or, more recently, photographed in prison. Portraits in prison exist at a crossroad of politics, law, and identity; they offer a great opportunity to think about art and society. Artists themselves have made self-portraits during their own imprisonments, or sometimes a portrait of one of their fellow prisoners. More often it was the prisoners or their relatives who commissioned an artistic record of their detention. The idea of commemorating such a moment, or to evoke it as a claim to fame, seems surprising at best, outrageous and provocative at worst. But there has been, since the 16th century, an enduring tradition of portraiture in prison with its masterpieces and its pantheon, a tradition that fits into the wider pictorial attention to the prison itself. With the French Revolution, the nature of prison changed. It became a tragic symbol of political "debates." Within a few years, a terrifying series of portraits appeared that would nurture Western political thought and visual culture until now. Since the 18th century, these portraits have become more concerned with ideas that stretch beyond the individual and into the realm of social justice, mass incarceration, and the prison-industrialization complex.

Requirements/Evaluation: oral and written assignments

Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: graduate students, then upper level undergraduate Art History majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

ARTH 541 (F) Aesthetics After Evolutionary Biology: Darwin, Nietzsche, Freud

This interdisciplinary seminar examines the rise of evolutionary biology, a new explanatory paradigm that solidified in Europe in the middle of the nineteenth century, and its ramifications in art and aesthetic theory in the late nineteenth and early twentieth centuries. We will consider how natural histories of creation, and corresponding reclassifications of the human as a species category, went hand in hand with a reconceptualization of the aesthetic faculties, and the processes of art's production and reception. A core component of this seminar will be the close study of key texts by Charles Darwin, and two thinkers who were among the most radical in extending his key insights into the domain of aesthetic theory—the psychoanalyst Sigmund Freud, and the philosopher Friedrich Nietzsche. These primary texts will provide points of departure for studying the work of a number of innovative practitioners working across a range of media, among them the composer Richard Wagner, the Neo-Impressionist painter Georges Seurat, the architect Adolf Loos, the choreographer Vaslav Nijinsky, and the art historian Aby Warburg. Methodologically a major aim of this seminar is to think together critically about the nature of art's relations to other domains of cultural production such as science or philosophy, and to interrogate what it means, both practically and epistemologically, to pursue "interdisciplinarity" as a strategy for art history.

Requirements/Evaluation: seminar presentations, research paper
Prerequisites: none

Enrollment Limit: 16
Enrollment Preferences: graduate students, then advanced undergraduate students
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

ARTH 542 (F) Insubordinate Bodies: The Body in Conceptual Art in Latin America, 1960-1980

The use of the body—be it the artist’s or those of willing and unwilling participants—is among art’s most significant developments internationally since the 1960s. In Latin America between the 1960s and 1980s, activating the body not only was a strong conceptual strategy to escape object-based practices; it was also a potent way for artists to disobey and confront forms of violence and control exerted by repressive regimes. But the body too was a forceful medium by which artists could subvert heteronormative frameworks, through the visualization and performance of feminist critiques and queer identities. This seminar will explore the role of the body in Latin American conceptual art through localized case studies, elucidating the body’s particular strength as a vehicle for political and institutional critique, as well as its potential to unlock alternate narratives of conceptual practices in the region.

Requirements/Evaluation: active participation and weekly assignments, leading class discussion, three short responses, and final research paper
Prerequisites: none

Enrollment Limit: 12
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

ARTH 543 (F) Color, High and Low

Why should color in prints be controversial? For most of the nineteenth century—even as technical advances encouraged a flowering of color in woodcut, intaglio, and especially lithographic production—entrenched voices in the art establishment continued to insist on printmaking as an art of black and white. Drawing upon a wide variety of examples from the Clark’s collection, this course will explore the range of associations that attached to
color prints, along a broad spectrum from highbrow preciousness and subtlety to lowbrow commercialism and bad taste. Color lithography was a particular lightning rod for controversy: although chromatic experiments in this medium enabled striking aesthetic innovations, the extreme complexity of the process also meant that the designer of a print became farther and farther removed from its actual production. This was just as true for the delicate and exquisite suites produced in limited editions by Pierre Bonnard, Edouard Vuillard, and Maurice Denis as it was for the large-scale, brightly-colored lithographic posters of Jules Chéret and Henri de Toulouse-Lautrec, used to advertise popular urban entertainments. Alongside the close examination of original works of art, a set of critical and theoretical readings will help us navigate the paradoxes of printed color. Apart from the standard requirements, including a research paper and class presentation, students will have an option to participate in a summer 2020 exhibition based on the course findings. This course will take place in the Manton Study Center for Works on Paper at the Clark.

**Requirements/Evaluation:** class participation and writing assignments

**Prerequisites:** none

**Enrollment Limit:** none

**Enrollment Preferences:** MA students, then advanced Art History undergraduates

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**ARTH 544** (S) **Women Artists in Paris, 1850-1900**

In this seminar, we will examine the historically undervalued contributions of women in the art of the later nineteenth century. During this period, leading artists from around the world, including many women, were drawn to the academies, museums, salons, and studios of Paris. While women were largely excluded from formal training, many nonetheless navigated the complex systems of artistic production. We will focus on this multinational group of talented women (including Marie Bashkirtseff, Rosa Bonheur, Anna Ancher, Mary Cassatt), and we will assess their work against contemporary sociopolitical thought and aesthetic theories. Readings will draw upon early critical reviews of public exhibitions, biographical materials, studies of pedagogical and institutional practices, and social histories of art. In and through these materials, we will explore the marginalizing narrative that was created for women artists in Paris, and, most importantly, we will reconstruct an alternative history through our discussions and class presentations.

**Requirements/Evaluation:** seminar presentations and research paper

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** preference given to graduate students and then to senior Art History majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

Not offered current academic year

**ARTH 545** **Architectural Theory in Crisis**

Why do buildings need words, or do they? For most of the world and most of history, buildings are made without the benefit of formal architectural thought. But at various times, ideas about the aesthetics of buildings, their cultural and philosophical meaning, and their underlying principles, have been matters of great public interest. And architectural theory—in the form of treatises, manifestos, and critical reviews—has exercised an enormous effect on building. This theory can be prescriptive, presenting categorical rules for making good buildings; it can be descriptive, looking at how buildings perform in the real world; and it can be radical, seeking to change the essence and definition of architecture. Theory seemed very important to architects twenty years ago, but that is not the case today. Why? We will investigate. Students will give short presentations on key theorists, such as Vitruvius, Alberti, Palladio, Laugier, Boulée, A. W. N. Pugin, Viollet-le-Duc, Gottfried Semper, Le Corbusier, and Robert Venturi. The semester will conclude with a 20-page seminar paper, based on comments and discussion following a classroom presentation.

**Class Format:** presentations

**Requirements/Evaluation:** several short presentations and a final 30-minute presentation, to be followed by a 20-page paper

**Prerequisites:** permission of instructor

**Enrollment Limit:** 11
Enrollment Preferences: Graduate students

ARTH 546 (F) Texere: The Material Philosophy of Print and Textile, ca. 1500-1900

It is a commonplace in the literature on textiles that the words for both text and textile derive from the Latin texere: to weave. As this etymological root indicates, the action of making cloth provides the metaphorical structure by which we conceive of language from the threading of thought to the weaving of prose and poetry. In the recent theoretical writings of Tim Ingold, among others, the processes of weaving-textility-offer a model against which to conceive of the dominant hylomorphic conception of matter and form as a process of imprint. Instead, textiles illustrate a world that is created through forces in motion, never imprinting, but moving against and within one another. This seminar will use these questions as the starting point to examine the interaction between printed matter (embodying a hylomorphic process) and textile (a material challenge to hylomorphism). The Clark Art Library contains a preeminent collection of textile material, and this seminar will dive into the Mary Ann Beinecke collection to examine histories of gender and labor, figuration and ornament, mobility and place, and finally, form and matter. The case studies will range from sixteenth-century needlepoint model books to twentieth-century kimono design.

Requirements/Evaluation: class participation, writing assignments

ARTH 547 (F) The Studio, The Bedroom, & the Tomb: Artists and Artistic Biographies in the 19th Century&Beyond

How was the vocation of the artist thematized in the European cultural imagination in the Romantic age and its aftermath? Even more, how did artists themselves articulate, experience, and reproduce that sense of vocation?--What were its mythologies and poetics, at once as they were circulated in visual culture, but also as they were lived, experienced, and reproduced by artists themselves? We will explore such question across three historically, psychologically, and tropologically configured "sites": the artist's studio, the artist's desire, and the artist's death. Readings by Freud, Balzac, Kris and Kurtz, along with scholarship largely centered on the visual arts of the 18th and 19th centuries. With instructor permission, students may undertake research projects in any field of the history of art.

Class Format: in person class with remote learning option, switch to all remote learning after thanksgiving
Requirements/Evaluation: presentations, research paper

Fall 2020
SEM Section: H1 R 10:30 am - 12:30 pm Marc Gotlieb

ARTH 548 (S) Landscape, Theory, Ideology

To use the term "landscape" is to imply and assume a subject position. Unlike the categories of "nature," "wilderness," "vista," or "ecology," a
landscape is something invented and experienced (or observed, or represented, or cultivated) solely by human agents. The term "landscape" is variously deployed in the service of a range of political and philosophical positions. This seminar explores "landscape" as a fruitful agitation in critical theory and aesthetic discourse over the past thirty years. The course will interact with the artists and photographic works on view in the exhibition, Landmarks, a 150-year survey of landscape photography in WCMAs collection. We will examine i) how landscape as medium and as genre moves from literature to painting to photography; ii) how to read and employ contemporary theory in the service of artwork from bygone eras; and iii) we will ask who exercises the agency and privilege to name, to invent, to denote a space or a view as worthy of sight.

Requirements/Evaluation: class participation, writing assignments

ARTH 549 (F) Art, Biology, Beauty
This interdisciplinary seminar is offered in conjunction with the upcoming RAP Colloquium scheduled for March 2020, "Beauty, Sexuality, Selection: Darwinian Revolutions in Aesthetics." (Seminar participants will be expected to attend.) Our theme will be Charles Darwin's controversial theory of "sexual selection" as both a historical idea of aesthetic response and beauty, and as a theoretical concept that is back in play in current evolutionary thinking. Readings will be drawn from ancient philosophy, current science, art history, the history of science, and other fields, to engage the following questions: how did the existence of difference in the organic world--gender difference broadly but also more specifically racial difference in the human species--motivate Darwin's theory of an "aesthetic evolution" driven by animal and human perception of visual beauty? How did philosophical aesthetics contribute to Darwin's biological theory of beauty, and how did Darwin's biological theory of beauty unsettle the discipline of philosophical aesthetics? In which ways did the arts and visual cultures of Europe and elsewhere shape Darwin's aesthetic assumptions? How did, and how does, the concept of sexual selection destabilize the concept of "art" as a human cultural activity? How might "sexual selection" complicate historical and current delineations drawn between nature and culture, between the innate and the arbitrary?

Requirements/Evaluation: seminar participation, presentations, research paper

ARTH 550 (S) The History, Theory, and Problem of Connoisseurship
The museum and market have long relied upon the "talent" of a chosen few "connoisseurs," whose abilities (i.e. "the expert eye")-shrouded in mythology and vagueness-have profoundly influenced the interpretation of objects. This seminar will interrogate the problematic construct of connoisseurship in the market (Duveen), in the museum (Pope-Hennessy), and in the academy (Berenson). Through readings about the history and theory of the practice from the sixteenth century to the modern day, we will reassess the meaning, and validity, of connoisseurship in visual culture. And, through conversations about authorship, working methods, and artistic intent, we will question what we learn from close looking. This seminar will include case studies using objects in the Clark's permanent collection, focusing on in-depth discussions of materials, techniques, attribution, quality, and the burgeoning field of conservation science. Students will be asked to conduct their own rigorous object-based research.

Requirements/Evaluation: class participation, writing assignments

ARTH 562  (F)  Art of California: Pacific Standard Time  (DPE) (WS)

Cross-listings: ARTH 462  AMST 462  ARTH 562  LATS 462

Secondary Cross-listing
In this course, we will study the visual arts and culture of California after 1960 and consider the region’s place in modern art history. We will focus on a series of recent exhibitions organized as part of a Getty initiative entitled Pacific Standard Time. Diverse in scope, these shows explored important developments in postwar art in California, including feminist art, African American assemblage, Chicano collectives, Modernist architecture, craft, and queer activism. In this seminar, we will pursue research projects directly related to the art exhibitions we study, and examine southern California conceptualism, photography, performance, painting, sculpture (including assemblage and installation), and video by artists both canonical and lesser known. Student projects will analyze the critical responses to the exhibitions, while also exploring the roles of archives, art criticism, and curatorial practice in contemporary art history.

Requirements/Evaluation: Several short writing and research assignments, oral presentations, class participation, and a final research paper of 16-20 pages written in stages over the course of the semester. The course will feature synchronous online class meetings with some small discussion groups. Student presentations will be recorded offline and posted to GLOW.

Prerequisites: ARTH 102 - Grad Art exempt from ARTH 102 prerequisite

Enrollment Limit: 12

Enrollment Preferences: senior Art major and senior Latina/o Studies concentrators

ARTH 563  (F)(S)  Contemporary Curatorial Workshop

Bi-weekly workshop for graduate students working on contemporary art and curatorial projects. Under the direction of the chair, students will present on-going curatorial projects, undertake studio and site visits, host local and visiting curators for presentations, and explore key topics in modern and contemporary art and curatorial practice.

Class Format: workshop, meets all year

Requirements/Evaluation: no requirements except participation and attendance

Prerequisites: graduate art students

Enrollment Limit: 25

Enrollment Preferences: only open to graduate students

Expected Class Size: 25
ARTh 570  (S) Image-making, Orientalism and Visual Culture

Images enjoy extraordinary power in the spaces between self and other, human and divine. They play myriad roles--witness, surrogate, instigator, supplicant--and travel freely across political, religious and cultural boundaries. They are also subject to reproduction, alteration and destruction as disparate visual cultures interact and globalizing processes ensue. This course will focus on various regions--e.g. United States, France, Turkey, and the Perso-Islamic sphere--and the images that factor in the intervening spaces, from 1800 to the present. We will begin with the theme of self-fashioning and the peculiar nature of portraiture. Thereafter, the entanglement of religious beliefs and visual traditions will broaden our inquiry, leading us to contested dynamics like iconoclasm and aniconism, and reductionist types like veiled women and pious men. Along the way, proliferating and palimpsestic forms of Orientalism will oblige us to consider the very concept of global visual culture. Students will submit weekly GLOW posts to foster class discussion and undertake a major research project over the course of the semester.

Class Format: Remote synchronous
Requirements/Evaluation: Class participation, weekly oral presentations, 15-20 page term research project.
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Graduate students
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option

Spring 2021
SEM Section: R1    W 1:00 pm - 3:00 pm     Holly  Edwards

ARTh 575  (F) Regression as Modern Fantasy: Archaism, Primitivism, Prehistory

This course analyzes the implications of European modernity’s engagement with cultural artifacts it wanted to classify beneath the prefix “pre.” We take as our object an aesthetic strategy employed with increasing frequency by modern artists in Europe after 1800: the self-conscious mobilization of visual forms thought to telegraph priority to later advancements, whether historically or developmentally. Our inquiry, beginning with the German Nazarenes and extending into the early twentieth century around the moment of WW1, foregrounds such strategies as key to grasping new notions of temporality and geography that emerged in European modernity. We will inquire into the historical and intellectual contexts that sustained chronological and cultural primitivisms, including the history of colonialism, discoveries of Paleolithic cave art, and the emergence of the modern disciplines of archeology, anthropology, ethnography, child psychology, and psychoanalysis. Alongside close visual scrutiny of some of modernism’s most canonical and problematic objects, including key works by Picasso and Gauguin, we will examine the literature that proliferated in this period devoted to the art of peoples deemed “primitive,” including the Greeks in the pre-classical period, non-Western peoples, and children.

Requirements/Evaluation: seminar presentations, research paper

ARTH 576  (S)  Paper, Process, Practice

Works on paper, particularly multiples, confound many of the received ideas around artistic invention and originality. This course will address the varied functions of printmaking in Europe over four centuries (1500-1900), giving special attention to the following questions: What is the relationship between prints and other artistic media? How do the material constraints involved in printmaking lead to a particular set of practices, and how in turn do those marry with technological advances to produce new aesthetic possibilities? To what extent did Old Masters such as Dürer and Rembrandt define the terms for later printmakers, and how did their example enable and/or discourage innovation in printed subject matter and style? What was the role of prints in creating both new forums for public discourse and new collecting publics? Arranged thematically rather than chronologically, this course will cover a wide array of printmakers and types of printed media.

Requirements/Evaluation: class participation, class presentation, research paper
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Art history MA students, then advanced undergraduates
Expected Class Size: 16
Grading: pass/fail option only

ARTH 577  Questions for Global Art History: A Workshop

Art history’s so-called “global turn” has been underway for over twenty years, but it would be difficult to say that it has yielded a consistent set of methodological approaches. When we consider a project global in scope does that mean simply thinking beyond national or regional designations? Are we looking for expansive networks of materials and makers? Evidence of intercultural exchange? In this seminar, we will begin by looking at several recent approaches to defining global art history and consider terms like contact, exchange, appropriation, transculturation, and cosmopolitanism. We will discuss the spatial vocabulary of oceans and borderlands and the dynamics of power engendered by colonialism, imperialism, and racialization. Thereafter, our weekly case studies will come from the students’ research projects. Though students are not expected to begin the seminar with an argument for their final paper, they should arrive with a topic in mind that pertains to a “global” art history subject in the period between 1500 and 1900 CE. In consultation with the professor, each student will then select readings to discuss with the group so we can work together to come up with questions and approaches that are commensurate to the topic. Our course may end in affirming the heterogeneity of global methods, deciding that this is a benefit rather than deficit. The collective aim is to understand, problematize, and reformulate the approaches available to us so that we can better address the topics that interest us as a group.

Requirements/Evaluation: Students are required to participate in discussion every week, lead one week of discussion, give a brief paper presentation, and submit a 20-page final essay.
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: Graduate students, then advanced undergraduate students with permission of the professor.
Expected Class Size: 10

ARTH 582  (F)  On Race, Art, and Property

In her seminal article "Whiteness as Property," critical race theorist and professor Cheryl Harris contends that the legal system in the United States "has come to embody and legitimize benefits that accrue to citizens who are white." The legacy of our legal system, which has dehumanized people by rendering them as property and legalized the theft of land by colonizers from Native Americans, is not confined to the past, but has shaped our world and thrives within our present moment. How has this legacy and Harris’ theory been explored in contemporary art? How might it allow us to revisit...
artworks and practices by canonical artists from alternative perspectives? This course aims to study aspects of this complicated history through a broad range of texts from legal and literary theory to art history to Black and Native American studies to more immediately authored texts published on social media platforms. Students are encouraged to think dexterously as we study works by Gordon Matta-Clark, Michael Heizer, Sondra Perry, Cameron Rowland, and Cauleen Smith—among others.

**Requirements/Evaluation:** presentations, writing assignments

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** If over-enrolled, by application

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

---

**ARTH 583 (F) Graphic Content: Typography and the Book between Art and Design**

This seminar considers the entangled histories of fine art and graphic design by focusing on creative practices surrounding the letterform and the book form from 1900 to the present. We will study historical avant-garde movements active in publishing and making-public; the development of the graphic design discipline, in print and on screen; and logocentric artistic tendencies from concrete poetry and pop art to conceptualism and artists' books. We will also consider diverse literary practices, graphic visualization, and political agitation. The seminar will make use of the Clark library's outstanding collection of artists' books and the holdings of the Chapin library at Williams. We will welcome several guests, including art historians, artist-designers, designer-artists, editors, publishers, and bookmakers.

**Class Format:** in person seminar with remote option, remote learning after thanksgiving

**Requirements/Evaluation:** class participation, class presentation, research paper/project

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Art History MA students, then advanced undergraduates. Course will be by application if overenrolled.

**Expected Class Size:** 10

**Grading:** pass/fail option only

**Distributions:** (D1)

---

**ARTH 586 (F) Japanese Popular Visual Culture**

**Cross-listings:** COMP 186  ASST 186  ARTH 586  ARTH 286

**Secondary Cross-listing**

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo-e, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Hagio), and animation (Oshii, Miyazaki, Kon). The class will also study material examples of Japanese popular culture on display in the Repro Japan exhibition at the Williams College Museum of Art. We will develop visual reading skills to come up with original interpretations of these works, and compare different media to make them shed light on one another.

**Class Format:** discussion

**Requirements/Evaluation:** attendance, participation, two 5-page papers, final exam

**Prerequisites:** none
ARTH 587  (S)  Crash! The Car Accident as Myth and Metaphor in American Art and Visual Culture

A year after MoMA elevated machinery to high art in 1934, Grant Wood painted Death on The Ridge Road (Williams College Museum of Art), a depiction of the deadly side of the streamlined modern machines that Alfred Barr might have presented at MoMA. A generation later, Andy Warhol's Death and Disasters series multiplied gruesome images of crushed cars and bodies to numbing effect. During the ensuing years, both Jackson Pollock and David Smith (among others) became traffic fatalities. Roughly bookended by the Great Depression and the 1960s, but also considering works of art and visual materials before and after those parameters, this seminar will explore the stakes of car crash imagery for American artists and culture. Readings may include topics in trauma studies, automotive technology, physics, posthumanism, law, and object oriented ontology as well as grounding participants in American art and history of the middle third of the twentieth century. Participants in the course will also have the opportunity to help shape the content, themes, and narrative of an exhibition on car accidents in American art being organized by WCMA.

Requirements/Evaluation: oral presentations and written assignments
Prerequisites: none

Enrollment Limit: 16
Enrollment Preferences: graduate students, then advanced undergraduate Art History majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

ARTH 594  (S)  Traveling Seminar: Slavery and the Dutch Golden Age

This course takes as its starting point the exhibition at the Rijksmuseum opening in September 2019: Slavery, an exhibition. With this installation, the curators of the Rijksmuseum seek to correct dominant narratives of seventeenth and eighteenth-century Dutch history, which have absented the role of slavery in determining the economic, social, and visual history of the Netherlands. With a Travel Grant awarded by the College Art Association, the students in this seminar will travel to the Netherlands to visit this exhibition and other relevant cultural institutions in order to examine the possibilities and limits for 'decolonizing' the museum. This course will study how slavery is imbricated within the mythic construction of a 'Dutch Golden Age' while also examining what happens when the history of enslaved peoples becomes translated into the space of a museum and exhibition. We will consider a revisionist history of Dutch artistic production, accounting for slavery in determining the Dutch economy and visual production while also asking what happens when slavery becomes narrated in the space of one of the nation's history museums. We will read contemporary black feminist theory such as Sylvia Wynter, Saidiya Hartman, Hortense Spillers, and Christina Sharpe as a means to struggle with how the space of the exhibition chooses to activate and write those missing histories, and we will examine if it is even possible to responsibly tell the story of slavery over two centuries when the majority of the subjects have been completely defaced, removed, and excised from the historical record, and their voices are often the ones still absent. In the words of Saidiya Hartman, we will ask: "Is it possible to construct a story from the 'locus of impossible speech' or resurrect lives from the ruins?"

Requirements/Evaluation: participation in class travel, class participation and presentation, research paper
Prerequisites: none

Enrollment Limit: 12
Enrollment Preferences: MA art history students, by application if overenrolled
Expected Class Size: 12
Grading: pass/fail option only
Distributions: (D1)

Asian American Studies is an interdisciplinary field of study that examines the histories, literatures, cultures and lived experiences of people of Asian descent living in the United States and diasporically in other countries of the Americas. This field of study holds an important role in exploring not only the Asian American experience as framed within the larger intellectual inquiries of race and ethnicity in national and global contexts but also issues of transnationality and diaspora. Knowledge in this field is critical in understanding the U.S. society, history, literature, religion, etc. The critical lens of Asian American studies is also helpful for thinking through many other fields and topics such as colonialism, capitalism, imperialism, immigration, globalization, as well as less overtly racially marked topics such as aesthetics and political theory.

Williams College is yet to build an Asian American Studies concentration or program. Before that happens, students interested in Asian American Studies can take the following courses related to Asian American Studies located in several different academic units.

**Fall 2019**

AMST 125 Introduction to Asian American Studies (Kim)
AMST 223 Eating Empire: Asian/Pacific Islander/American Foodways and Culture (Kim)
AMST 243 Asian/American and Black Literary and Cultural Thought (Wang)
HIST 384 Selected Topics in Asian American Studies (Wong)
HIST 468 Race, Empire, and the Birth of the American Century (Wong)
WGSS 316 Feeling Queer and Asian (Huang)

**Spring 2020**

AMST 128 Reading Asian American Literature (Kim)
AMST 382 Transnational Asian/American Film and Video (Kim)
AMST 403 New Asian American, African American, Native American and Latina/o Writing (Wang)
DANC 216 Asian-American Identities in Motion (Tarah)
HIST 381 The Legal History of Asian America (Wong)
MUS 279 American Pop Orientalism (Sheppard)

In addition to the above courses, students are strongly encouraged to take courses on Race, Ethnicity, and Diaspora in American Studies. Students interested in various disciplines about Asia can take courses in Asian Studies.

As of March 2019 when the Course Catalog was finalized, the CPC Asian American Studies Working Group has completed its final report and submitted its recommendations to the senior administration. Based on this report, the Curricular Planning Committee (CPC) and the Committee on Appointments and Promotions (CAP) are actively engaging in discussions about various options regarding possible pathways toward establishing an Asian American Studies program, a concentration, or both at Williams. In the meantime, students interested in pursuing a concentration in Asian American Studies should consult with Professor Dorothy Wang (American Studies) or Professor Vivian Huang (Women's, Gender and Sexuality Studies).
ASIAN STUDIES  
(Div I & II, see explanation below)  
Chair: Professor George Crane

- Cecilia Chang, Frederick Latimer Wells Professor of Chinese
- Man He, Assistant Professor of Chinese
- Shinko Kagaya, Professor of Japanese
- Cornelius C. Kubler, Stanfield Professor of Asian Studies; on leave 2020-2021
- Christopher M. B. Nugent, Professor of Chinese, Chair of Comparative Literature Program
- Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; on leave 2020-2021
- Li Yu, Professor of Chinese

Affiliated Faculty:
- Christopher Bolton, Professor of Comparative Literature and Japanese Literature
- George Crane, Chair of Asian Studies and the Edward S. Greenbaum 1910 Professor of Political Science
- George Dreyfus, Jackson Professor of Religion
- Ju-Yu Scarlett Jang, Professor of Art
- Jason Josephson Storm, Professor of Religion
- Peter Just, Professor of Anthropology
- Aparna Kapadia, Associate Professor of History
- Eiko Maruko Siniawer, Professor of History
- Anne Reinhardt, Chair and Professor of History
- W. Anthony Sheppard, Marylin & Arthur Levitt Professor of Music
- Scott Wong, Charles R. Keller Professor of History

Visitors:
- Susanne Ryuyin Kerekes, Gaius Charles Bolin Fellow in Religion and Asian Studies
- Eun Young Seong, Visiting Assistant Professor of Japanese
- Kaoruko Minamoto, Visiting Lecturer in Japanese
- Chen Wang, Visiting Assistant Professor of Chinese

Mission Statement and Learning Objectives

The mission of the Department of Asian Studies is to help as many students as possible—both majors and non-majors—develop practical proficiency in Asian languages and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of one or more of the disciplines represented within Asian Studies (including anthropology, art history, economics, history, linguistics, literature, music, political science, religion, and sociology), so that they may realize their fullest intellectual and personal potential and be able to make useful contributions to society. The department offers three distinct major tracks: Asian Studies, Chinese, and Japanese.

Learning Objectives for the Asian Studies Major

Asian Studies is a multi-disciplinary and interdisciplinary major track that combines the humanities and social sciences with language study. It aims to help students develop practical proficiency in an Asian language and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of Asia through a particular disciplinary lens. Beyond training in the discipline they choose for their three-course disciplinary qualification, students have the opportunity to explore a range of other disciplinary approaches and perspectives.
Majors in Asian Studies will:

- Attain a practical proficiency in an Asian language (either Chinese or Japanese currently offered by the department, or Hindi or Korean, offered by the Critical Language Program of the Center for Foreign Languages, Literatures, and Cultures).
- Gain awareness and understanding of a particular country or region in Asia through training in one of the disciplines represented in the Department of Asian Studies (anthropology, art history, economics, history, linguistics, literature, music, political science, religion, or sociology).
- Have an opportunity to explore a range of disciplinary approaches and perspectives in addition to their primary disciplinary focus and apply a range of research methodologies with a focus on interdisciplinarity.
- Develop close reading, analytical writing, and critical thinking skills by engaging in cross-linguistic, cross-cultural, and comparative historical analysis.
- Gain a comparative perspective on issues affecting Asia as a region.
- Develop global awareness and engagement through identification of the values, perspectives, and practices of Asian societies, both past and present.

**THE MAJOR**

Due to the Covid-19 pandemic: the Asian Studies major is reduced to **nine** for the classes of 21, 22, 23. The requirements are:

- **Four** semesters of Chinese or Japanese, a faculty-approved **three** course disciplinary qualification, **one** comparative Asian Studies course, and **one** Asian Studies elective, which can include further language study. The **Chinese** and **Japanese** programs have also decided it would be best to reduce the number of courses required for their respective majors to **nine** for the graduating classes of 21, 22, and 23. Requirements are as follows:
  - **Eight** semesters of Chinese or Japanese language (at least four of them should be 300-level or higher). For Chinese **one** additional course, Chinese 312 (Classical Chinese) is required. In Japanese, **one** faculty-approved elective is also required. For students with higher language proficiency who are placed out of any of the core language courses (101 through 402), they can take an equal number of faculty-approved electives taught either in Chinese or Japanese or English on literature, linguistics, culture studies or related China or Japanese studies disciplines (e.g., art history, history, political science) to fulfill the core language requirement.
  - We offer courses in English in the field of Asian Studies as well as courses in Chinese and Japanese language, literature, and culture. Three distinct majors are offered: a major in Chinese; a major in Japanese; and an interdisciplinary Asian Studies major which allows students to choose from a wide range of courses in the anthropology, art, economics, history, languages, linguistics, literatures, music, politics, religion, and sociology of China, Taiwan, Japan, and other Asian countries. An increasing number of courses on South Asia are also offered (e.g. ASST 117, ASST 221, ASST 244, ASST 246T, ASST 248, ASST 252, ASST 256, ASST 391, ASST 415, ASST 424, ASST 431, ASST 488). Students interested in taking Korean or Hindi may take these languages through the Critical Language Program administered by the Center for Foreign Languages, Literatures, and Cultures.
  - Students with questions about the Asian Studies majors or about Asian Studies course offerings should consult the chair. Please note: Courses with ASST prefix carry Division II credit unless otherwise noted and courses with CHIN and JAPN prefixes carry Division I credit unless otherwise noted.

All students wishing to major in the Department of Asian Studies are required to take and pass a total of eleven courses, as follows:

- One course that explicitly compares at least two countries in Asia, such as ASST 103, ASST 126, ASST 233, ASST 245, ASST 248, ASST 250, ASST 256, ASST 271, ASST 391, ASST 414, ASST 424, ASST 431, JAPN 258. Or students may take instead a course on a country that is different from their country of primary focus.
  - Four semesters of Chinese or Japanese language (including no more than two 100-level courses).

In addition to completing (1) and (2) above, all majors choose either an Area Studies track, leading to a major in Asian Studies; or a Language Studies track, leading to a major in Chinese or Japanese.

The requirements for Asian Studies are indicated below:

**Asian Studies Major**

- Three-course qualification in one of the disciplines represented within Asian Studies (anthropology/sociology, art history, economics, history, linguistics, literature, music, political science, religion). The qualification, to be determined through consultation between students and their advisor, normally includes an introductory course and more advanced courses. At least two of these three courses must be on Asia.
  - Three approved electives, which may include further language work.

**STUDY ABROAD**

Students intending to major in Asian Studies are encouraged to study in Asia during one or both semesters of their junior year. Williams faculty serve on the boards of several study abroad programs in China and Japan. Opportunities to study in India, Indonesia, Korea, Taiwan, Thailand, and other Asian countries are also available. Prospective Asian Studies majors who are planning to study abroad should discuss their plans with their
advisor as far in advance as possible. Up to eight courses taken overseas may be counted toward graduation, and up to four courses taken off campus may be counted toward the major.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). For programs that we are familiar with, we usually pre-approve credits.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, complete syllabus including readings/assignments, and exams or other written work.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes, maximum of four courses.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Approved courses only.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Not in particular. Students are always strongly encouraged to consult with the department faculty ahead of time to plan on what courses to take during study-away and what courses to take up return.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

There have been cases where students decided to take different courses after they arrived at the program and those courses did not meet our requirements.

THE DEGREE WITH HONORS

Students interested in writing an honors thesis in Asian Studies should submit a proposal to the department chair before they pre-register for senior courses in the spring of their junior year. The proposal should include a statement of the topic, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. Admission to the honors thesis program will normally be limited to students who have maintained at least a B+ average in their courses for the major.

Students admitted to the program should register for ASST 493-W31-494. They will be expected to turn in the final draft of their thesis shortly after spring break and to discuss their results formally with their faculty graders. Their final grades in the three courses listed above and the award of Honors, Highest Honors, or no honors will be determined by the quality of the thesis and the student’s performance in the oral defense.

THE ASIAN STUDIES ENDOWMENT

The Linen summer grants for study abroad, the Linen visiting professorships, and several other programmatic activities in the department are supported by an endowment for Asian Studies established by family and friends in memory of James A. Linen III, Class of 1934, Trustee of the College from 1948 to 1953 and from 1963 to 1982.

ASST 103  (F)  East Asian Art  (DPE)

Cross-listings:  ASST 103  ARTH 103

Secondary Cross-listing

This course is an introduction to the history of East Asian art from prehistory to the present with particular emphasis on China, Korea, and Japan. Through four thematic units (memorialization, religion, nature, and identity), we look at artworks in their original contexts and consider how cross-cultural exchanges stimulated new interpretations across time and space. We examine a broad range of objects including ritual bronze vessels, Buddhist temples, landscape paintings, woodblock prints, and installations. We also discuss these artworks in relation to other forms of creative
expression such as ritual practice, performance, and literature. How is East Asia defined geographically and culturally? How did the exchange in ideas, trade, and travel impact the formation of East Asian art? How do artworks and artifacts help us understand East Asia's past? These fundamental questions guide our discussion. Through this course, students learn to think critically about shared and diverse human experiences across cultures and historical periods. Students also reflect on historiographical issues surrounding East Asian art and analyze why certain types of artworks were historically underrepresented in museum spaces and academic scholarship. To contribute to public knowledge, students will also develop and edit a Wikipedia page on an artwork or artist of their choice. Visits to the Williams College Museum of Art and Special Collections also form an integral part of the course.

**Class Format:** Some classes may be conducted at WCMA; course content will be delivered asynchronously; interactive activities will take place in synchronous sessions

**Requirements/Evaluation:** Class participation, open-book midterm and final exam, 4 object or reading response papers (2-3 pages in length), key work presentation (5-7 minutes long), Wikipedia page editing project and presentation (5-7 minutes long)

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** Open to all students regardless of major

**Expected Class Size:** 30

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 103 (D1) ARTH 103 (D1)

**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity requirement by investigating the ways that migration and cross-cultural exchange shaped artistic developments in East Asia. Students will reflect on the cultural production of diverse peoples and traditions within this geographical region and confront the ways in which historical legacies of imperialism and colonialism continue to shape international relations.

Fall 2020

LEC Section: H1    WF 1:30 pm - 2:45 pm    Carolyn J. Wargula

**ASST 107 (S) Arts of South Asia** (DPE)

**Cross-listings:** ASST 107 ARTH 105

**Secondary Cross-listing**

South Asia, which includes the modern-day nations of Afghanistan, Pakistan, India, Bangladesh, Sri Lanka, Nepal, Bhutan and Maldives, is often compared to the European continent. Regional societies in the Indian "subcontinent" are as distinct from each other as those of Italy, Germany and France. Similarly, they also differ in their language, dress, diet, rituals and politics. However, parallel to the wealth of diversity, South Asia also demonstrates a rich history of interconnectedness. This complex web of culture, language, religion and politics is best manifested in the arts of the region. How does visual culture reflect regional variations? How does a survey of artistic style and iconography help uncover networks of exchange across South Asia? What role did the arts play in the expression of religious traditions such as Buddhism, Hinduism, Jainism and Islam? With these questions in mind, this course is designed as a survey of the arts of South Asia starting with the height of the Indus Valley Civilization in 2600 BCE and ending in 1857 CE, a date that marks the cessation of independent rule in South Asia. Using the study of architecture, painting, sculpture and textiles, students will learn how to make stylistic and iconographic analyses, while also improving their art historical writing and analytic skills.

**Requirements/Evaluation:** Weekly reading discussion GLOW posts. Two short quizzes. Mid-term. Final exam

**Prerequisites:** none, open to all students

**Enrollment Limit:** 25

**Enrollment Preferences:** First years, sophomores and juniors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: In addition to a survey, the course also highlights the conceptual differences between the arts of South Asia and Western constructs of art and culture. The survey will analyze how South Asian art was codified and examined during the colonial and post-colonial periods, and how that understanding has come to define the field over the last century. The course will encourage students to challenge longstanding biases and assumptions when studying these artworks.

Spring 2021
LEC Section: R1    MW 10:00 am - 11:15 am    Murad K. Mumtaz

ASST 115 (F) The World of the Mongol Empire (WS)

Cross-listings: HIST 115  ASST 115

Secondary Cross-listing
By the middle of the thirteenth century, Mongol armies led by Genghis Khan had conquered an enormous swath of territory, extending from China westward to Eastern Europe and the Middle East. Further expanded by Genghis's descendants, the Mongol Empire incorporated a vast range of different peoples and cultures, enhancing communications, trade, and exchange among them. In this course we will examine the "world order" of the Mongol Empire from its origins on the Asian steppe through its expansion, consolidation, and disintegration, as well as its legacies. From a wide range of primary and secondary sources, including literature, chronicles, and traveler's accounts, we will investigate the diverse experiences of the Mongol world in places such as China, Russia, Persia, and Central Asia.

Requirements/Evaluation: active participation in discussion, several short papers, and a final research paper

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 19

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15-19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 115 (D2) ASST 115 (D2)

Writing Skills Notes: Three 5- to 7-page papers written in two drafts each with instructor feedback, one 10- to 12-page final research paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

ASST 117 (S) Bombay/Mumbai: Making of a Modern Metropolis (WS)

Cross-listings: GBST 117  HIST 117  ASST 117

Secondary Cross-listing
Bombay or Mumbai is India's foremost urban center and is well known today as a truly global city. It is the heart of India's commercial life comparable in vibrancy and multiculturalism with the world's emerging cities like Shanghai, Hong Kong and Sao Paulo. What are the historical elements that contributed to the making of India's most modern and global metropolis? What are the antecedents of the modernity, the vibrant culture, dark underbelly and economic diversity that characterize Bombay today? What does the history of Bombay tell us about modernity in India and the emerging countries of the third world in general? This seminar will help students to answer these questions through historical materials on Bombay as well a wide range of multimedia sources including cinema, photography and literature. With a focus on the 19th and 20th centuries, we will explore themes like the commercial culture of a colonial port city, the modern public sphere, theatre and film, labor migration, public health and prostitution to understand what went into the making of this modern metropolis. The primary objective of this course is to introduce students to a wide range of historical sources and ways of interpreting them. The other objective is facilitating their understanding of the history of modern India through the history of its most important city.

Requirements/Evaluation: assessment will be based on class participation and weekly written responses to readings (2 pages), 2-3 short papers (4-5 pages), leading to an oral presentation and final paper (10-12 pages). All writing assignments are structured to build up the final paper.

Prerequisites: First years and sophomores only
Enrollment Limit: 12
Enrollment Preferences: first-years, and then sophomores who have not previously taken a 100-level seminar
Expected Class Size: 8-10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
GBST 117 (D2) HIST 117 (D2) ASST 117 (D2)
Writing Skills Notes: Weekly reading response (2 pages), several short papers leading to a final research paper. Peer reviews and instructor feedback of all written work to improve writing skills and opportunities to write several drafts.

Spring 2021
SEM Section: R1 TR 11:30 am - 12:45 pm Aparna Kapadia

ASST 121 (F) The Two Koreas (WS)
Cross-listings: HIST 121 ASST 121
Secondary Cross-listing
The two Koreas--North and South--were born in the aftermath of World War II, when the United States and the Soviet Union arbitrarily divided the peninsula into two zones of occupation at the 38th parallel. Today, over six decades later, the split endures as what has been called “the Cold War’s last divide.” This tutorial examines the history of the two Koreas from their creation in 1945 to the present. We will explore the historical and ideological origins of the division; how tensions between North and South led to the outbreak of the Korean War; why the paths of the two Koreas have differed so markedly; how each country has been shaped by its political leaders and their ideologies; and what recent developments in North Korea, including its nuclear program, have meant for relations on the peninsula and beyond. Course material will include primary and secondary sources of various kinds, including political documents, intellectual treatises, films, and short stories.
Requirements/Evaluation: students will meet with the instructor in pairs for an hour each week; a student either will write and present orally a 5- to 7-page essay on the assigned readings or will be responsible for offering an oral critique of their partner's work
Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor
Enrollment Limit: 10
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 121 (D2) ASST 121 (D2)
Writing Skills Notes: In this tutorial, students receive substantial feedback from the professor (and from their partner) both in the sessions and in written comments about all aspects of their writing—argumentation, structure, mechanics. Such feedback is offered on five papers (of 5-7 pages in length) that they write over the course of the semester; they can also elect to receive comments on their final, synthetic paper (12-15 pages in length). Significant guidance is also given on the paper-writing process.
Not offered current academic year

ASST 122 (S) Old Shanghai, New Shanghai
Cross-listings: CHIN 422 ASST 122
Secondary Cross-listing
Once nicknamed as “Paris of the East,” Shanghai, now a megacity with a population of 25 million, is the industrial, commercial and financial center of contemporary China. Shanghai is often depicted as a metropolis that marked the beginning of China's modernity and urban culture. People from other regions in China see Shanghai as a city full of opportunities, but characterize its people as astute and shrewd, cocky and unwelcoming. Foreigners, however, find the city appealing and its people open-minded. Jews fleeing Nazi persecutions during WWII, found Shanghai to be a “paradise of ghetto” that provided the only haven of survival. For local people, there have always been two Shanghai: an old one and a new one. They are proud of the
new Shanghai but constantly nostalgic about the old one. This tutorial examines the multifaceted city of Shanghai and its people from historical and cultural perspectives. We will look at the city's history (from the late nineteenth century to present day), its local language and culture, and everyday life of the people (including migrants and foreigners) living in it. The central ideas we will explore are "modernity" and "regional identity." We will investigate how these theoretical constructs play out in the making of the city of Shanghai and the formation of its unique local identity. Course readings include historical and cultural studies as well as documentaries in English about Shanghai, and primary sources in Chinese in a wide range of genres including fiction, essays, and films (English translation of the primary sources are available for students taking the course in English). The course is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST 122T and students wishing to take the course in Chinese should register under CHIN 422T. Students will come away with a critical understanding about China's regional cultures and one of its most important metropolitan cities. Chinese language learners will be able to improve their reading and writing skills in Chinese through this course. The course has a required field trip to a Chinese restaurant on a Saturday or Sunday, depending on all students' schedules.

Requirements/Evaluation: each tutorial pair will meet with the instructor for one hour per week, during which time we will discuss a 5-page paper that one of the partners has submitted

Prerequisites: none for students taking ASST 122; CHIN 402 or permission of the instructor for students taking CHIN 422

Enrollment Limit: 10

Enrollment Preferences: current or prospective Asian Studies, Chinese, or Japanese majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: students wishing to take the course in English should register under ASST 122 and students wishing to take the course in Chinese should register under CHIN 422

Materials/Lab Fee: $100

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

ASST 127 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: WGSS 127 CHIN 427 ASST 127

Secondary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.
Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

ASST 133 (S) Buddhist Literature

Cross-listings: REL 133 ASST 133 ENGL 147

Secondary Cross-listing

This course introduces students to the diverse literary culture of Buddhist Asia. Through close readings of particular influential Buddhist texts, we will analyze not only what the texts say and mean, but also learn about the "social life" of these texts--i.e., what is the socio-historical context of these texts, who are the intended audience, what is the relationship of these texts with their particular communities, how do these communities engage with their texts, including how texts have been translated, taught, worshipped and ritualized. We will also explore the materiality of these texts, which is as diverse as the languages in which these texts are written. Alongside an exploration of materiality requires that we reflect on what counts as "text". Moreover, by sampling different genres of Buddhist texts (e.g., philosophical, historical, narrative, grammatical, cosmological, astrological, magical), we will discuss what makes them Buddhist and what makes them literary. The Lotus Sutra, the Heart Sutra, the Dhammapada, and Vessantara Jataka are just some of the texts we will study in this course. No prior knowledge about Buddhism is required.

Requirements/Evaluation: Attendance and active participation 20%; Short writing assignments 25% (i.e., a one-page, single-space, critical response based on the class reading x 5 total); Mid-term exam (in-class: identification terms and short essay) 25%; Final project and presentation 30% (the final grade includes initial consultation with the instructor regarding topic selection, annotated bibliography, project outline, final presentation, and final written report).

ASST 153 (S) Japanese Film

Cross-listings: ASST 153 COMP 153

Secondary Cross-listing

From the swashbuckling samurai films of Kurosawa and delicate family dramas of Ozu to edgy cinematic experiments and a breathtaking range of animation, Japan has one of the most varied and exciting film traditions in the world. This course will introduce you to major periods, genres, and directors in that tradition. We will read film criticism that represents a range of approaches, but we'll focus particularly on learning and practicing the kind of close visual analysis that will allow you to build your own original descriptions of how a given scene "works." Throughout the course we will consider the relationship between classic cinema and popular genres like sword flicks, melodramas, psychological thrillers, and anime, focusing particularly on directors whose work seems to borrow equally from genre film and the artistic avant-garde. All texts are translated or subtitled. All levels welcome.

Class Format: This class will have a hybrid format: on-campus students will meet in a classroom during the scheduled class slot (observing campus distancing protocols), while off-campus students participate simultaneously via Zoom. Off-campus students must be able to Zoom in during the scheduled class times.

Requirements/Evaluation: attendance & participation, a few short response assignments, two 5-page papers, in-class test

ASST 186 (F) Japanese Popular Visual Culture

Cross-listings: COMP 186 ASST 186 ARTH 586 ARTH 286

Secondary Cross-listing

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Hagio), and animation (Oshii, Miyazaki, Kon). The class will also study material examples of Japanese popular culture on display in the Repro Japan exhibition at the Williams College Museum of Art. We will develop visual reading skills to come up with original interpretations of these works, and compare different media to make them shed light on one another.

ASST 205 (S) Patrons, Rituals, and Living Images in Japanese Buddhism

Cross-listings: ASST 205 REL 213 ARTH 205

Secondary Cross-listing

This course introduces students to Buddhist art and architecture in Japan from its introduction in the sixth century through the present. We focus on the ways different communities--the imperial court, immigrant artists, monks, women, and commoners--employed and venerated Buddhist images for political legitimacy, personal salvation, and worldly benefit. This course also examines how Japanese Buddhist imagery became aestheticized in the early twentieth century and appropriated later in modern and contemporary visual cultures. Some of the topics to be discussed include the reception of continental styles of Buddhist bronze sculpture, the relationship between mandalas and rituals, the role of women in developing Buddhist
embroideries, and the Western reappraisal of Zen arts. Students will develop familiarity with the concepts and ideas underlying the production of Buddhist images and will gain foundational skills in analyzing the visual, material, and iconographic qualities of Japanese Buddhist art. For the final project, students will design a digital exhibition focused around one of the topics of the course.

Requirements/Evaluation: Class participation, 4 reading and object response papers (2-3 pages), and digital exhibition project (8-10-page proposal written in stages over the semester including a 10-minute presentation)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First- and second-year students, but open to all

ASST 207 (F) An Exploration of Japanese Language and Culture

Cross-listings: JAPN 407 ASST 207

Secondary Cross-listing

Language is the primary means for human beings to lead social lives and it expresses, embodies and symbolizes cultural and social reality. This tutorial will examine the intertwining ways in which the Japanese language reflects the patterns of life and intrinsic beliefs of Japanese, while exploring how this linguistic code may influence and shape the ways Japanese think. We will look into the following topics: polite language and the variety of personal pronouns in order to examine how the hierarchical structure of Japanese society is reflected in them. Also, we will explore women's speech, youth and queer Japanese to discuss social and gender identities and the role of linguistic stereotypes in manga, anime and TV dramas as well as the "easy Japanese movement," which depicts the shift from a monolingual to multilingual Japanese society. And finally, our examination will investigate the semantic and cultural losses that occur in translations from Japanese prose to English prose. The course is conducted in either Japanese or English with materials drawn from linguistics and sociocultural studies both in Japanese and English. Students wishing to take the course in English should register under ASST 207T and students wishing to take the course in Japanese should register under JAPN 407T. Japanese language learners will not only develop analytical and critical thinking, but will gain more advanced Japanese skills such as reading to understand the logic of arguments, exponent narrative, and academic presentations and writing.

Requirements/Evaluation: attendance and participation, 5 short papers, 5 critiques, and one final project; ASST 207 will meet once a week; JAPN 407 will meet twice a week

Prerequisites: none for ASST 207; a 400-level Japanese language course, advanced level Japanese proficiency or permission of instructor for JAPN 407

Enrollment Limit: 10

Enrollment Preferences: current or prospective Japanese, Chinese, and Asian Studies majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Cross-listings: GBST 208  ANTH 208  ASST 208  PSCI 220

Secondary Cross-listing

The United States attacked and defeated the Afghan Taliban regime over the course of a few short weeks in 2001. Within a few years, the finality of that victory was brought into question as the Taliban regrouped and eventually reasserted itself as a formidable guerilla army that the U.S. military could not easily defeat. At the same time that it was facing a more difficult military challenge than anticipated, the United States got bogged down in the process of nation-building, as well as efforts at social reform. This course examines the history of American involvement in Afghanistan, beginning with the Cold War when the U.S. used Afghanistan as a test case for new models of political modernization and economic development. We will go on to discuss the U.S. support for Islamist political parties during the Soviet occupation of Afghanistan in the 1980s and the consequent rise of the Taliban, and the role of Afghanistan in the September 11th attacks and the "War on Terror" that followed. The course will conclude with a consideration of the impact and legacy of the two decades of nation-building and social reform carried out by the United States since 9/11.

Requirements/Evaluation: grading will be determined by class participation, two short essays, and a 15-page research paper

Prerequisites: none

Enrollment Limit: 25

Expected Class Size: 15-20

ASST 213 (S) Modern China, 1600-Present

Cross-listings: HIST 213 ASST 213

Secondary Cross-listing

China's presence continues to grow in our world today, but contemporary China also evinces complex contradictions: a market economy promoted by a nominally Communist government, extremes of urban wealth and rural poverty, increasing participation in the international community and intensifying nationalist rhetoric. This course examines China's historical engagement with the modern world to offer perspective on its current conditions. We will begin with the Qing (1644-1911) conquest of China and consolidation of a multi-ethnic empire, and investigate China's encounters with Western and Japanese imperialism, the rise of Chinese nationalism, Republican and Communist revolutions, and the often turbulent history of the People's Republic. Throughout, we will examine themes of social, economic, intellectual, and cultural change through predominantly primary source reading and analysis.

Class Format: HIST 213 will be taught remotely, with emphasis on synchronous discussions.

Requirements/Evaluation: class participation, two short papers, two essays, a midterm and a self-scheduled final exam

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: open to all; preference to History or Asian Studies majors only if overenrolled

The course aims to explore dance and movement-based performances as mediums through which identities in Asian and Asian-American (including South-Asian) communities are cultivated, expressed, and contested. It will orient students towards “reading” and analyzing live and mediated performances within historical, social, and political frameworks. Students will explore how socio-historical contexts influence the processes through which dance performances are invested with particular sets of meanings, and how artists use performance to reinforce or resist stereotypical representations. Core readings will be drawn from Dance, Performance, Asian, and Asian American Studies, and will engage with issues such as nation formation, race and ethnicity, appropriation, tradition and innovation among other topics. This is primarily a discussion-based seminar course, and might also include film screenings, discussion with guest artists and scholars, and opportunities for creative projects. No previous dance experience is required.  
Class Format: This course will be taught in a virtual format and will be remote.  
Requirements/Evaluation: reading responses, essays, in-class writing assignments, class participation, and group presentations.

Over a century of constant warfare came to an end in the late 1500s, ushering in more than two hundred years of relative peace in a Japan that was ruled by a military government. This course will take up the extraordinary changes and enduring continuities of the period between the establishment of the Tokugawa government in the early 1600s and its eventual collapse in 1868, an era characterized by societal order and tensions, economic growth and stagnation, the development of cities and towns, the flourishing of urban culture, the spread of new and different ideas, and the decline of the samurai. We will focus on the political, social, and cultural history of early modern Japan, including topics such as the establishment of the Tokugawa order, the nature of the political system, foreign relations, urbanization, popular culture, material culture, the quality of life, the legal order, gender and sexuality, and the fall of the Tokugawa government. Assigned materials will include government documents, intellectual treatises, autobiographies, literature, and films.

Stunning revolutions, the construction and collapse of an empire, the waging of wars, devastating defeat and occupation by a foreign power, and postwar economic ups and downs have marked Japan’s modern experience. This course will explore how various Japanese people from factory workers and farmers to politicians and intellectuals have understood, shaped, and lived the upheavals from the 1850s through the present day. And it will examine how the country of Japan as well as individual Japanese people have defined the identities and meanings of “modern Japan”. We will ask why a modernizing revolution emerged out of the ashes of the early modern order; what democracy and its failures wrought; how world war was experienced and what legacies it left in its wake; and how postwar Japan has struggled with the successes and costs of affluence. Materials will include anthropological studies, government documents, intellectual treatises, fiction, films, and oral histories.

Who are Zainichi Koreans (Koreans in Japan)? How are they different from Koreans in Korea or in the United States? Contemporary Korean TV dramas and films have depicted Koreans as attractive and successful people appealing to Hallyu (Korean Wave) fans around the world. However, Zainichi Koreans, who are the largest ethnic minority in Japan, have been frequently portrayed as abusive husbands/fathers, pitiful wives/mothers, or juvenile delinquents in both Japanese and Korean cinema and literature. Through close readings of films, novels, and short essays, we will explore little-known yet significant representations of Zainichi Koreans by focusing on Japanese and Korean historical contexts. By doing so, we will discover new aspects of transnational exchange not only between Japanese and Koreans, but also between South and North Koreans in Japan. All class materials will be available in English translation or with English subtitles.

Requirements/Evaluation: attendance/participation; short written responses; midterm essay; group presentation; final essay

Prerequisites: none

Enrollment Limit: 21

Enrollment Preferences: Open to all students, but if over-enrolled, priority will be given to Asian Studies and Japanese majors

Cross-listings: HIST 220 ASST 222
Secondary Cross-listing
This course is an introduction to the history of India and South Asia from prehistoric times to the emergence of early modernity. During these centuries, the subcontinent emerged as one of the most diverse and complex regions of the world, as it continues to be even today. The course will cover the period between the rise of the urban Indus Valley civilization to the end of the Mughal Empire and will address topics such the as the origins and development of the caste system and 'Hinduism', society and culture in the great epics like the Ramayana, the beginnings of Jain and Buddhist thought, politics and patronage under Islamic polities, the formation of Mughal imperial authority through art, architecture and literature, among others. Through the study of social processes, the course will focus on the diversity and connectedness that have defined the subcontinent throughout its history. It will also consider the role of history in the region and how a number of events from the past continue to inform its present.
Class Format: REMOTE. This class will be taught remotely and will be use a lecture-discussion format with some online/asynchronous work.
Requirements/Evaluation: class participation, response papers and presentation, 2 essays, take-home a mid-term and a final exam
Prerequisites: none; open to all
Enrollment Limit: 15
Enrollment Preferences: History Majors, and those with demonstrable interest in South Asian history

Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option

ASST 230   Performance Practices of India   (DPE)
This course explores ancient and contemporary performance practices in India. Our objects of study will include the text and performance of Sanskrit plays, contemporary and experimental theater productions, as well as forms of dance and ritual. We will discuss dramaturgical structure, staging, acting conventions, gender representation, performer training, the experience and role of the audience, as well as mythological and political themes. Thinking historically and ethnographically, we will seek to understand the aesthetics and social purposes of these practices, in addition to the relationship that performance has with everyday life, contested concepts of the nation, and caste. Throughout the semester we will interrogate the ways in which Western categories such as "classical," "folk," "religious," "traditional," and even the distinction between "dance/theater/music/visual arts" are not indigenous or accurate concepts for organizing thinking about performance in this part of the world.

Requirements/Evaluation:  Evaluation will be based on participation in discussion, reading responses, an oral presentation, and one 10-page paper.
Prerequisites:  none

Enrollment Limit: 12
Enrollment Preferences: preference for seniors and juniors
Expected Class Size: 12
Grading:
Distributions:  (D1)  (DPE)
Difference, Power, and Equity Notes:  We will examine British colonial edicts that prohibited performance practices as a form of social control as well as in the name of Christian morality. From here we will explore how upper-caste Independence era artists and leaders sought to reinvent the arts as vessels of "Indian" identity, at the cost of further marginalizing hereditary performance communities. We will also interrogate how the Indian state has promoted narrow visions of "femininity" and how artists contest religious nationalism

ASST 232  (S)  Buddhist Economics
Cross-listings:  REL 232  ASST 232
Secondary Cross-listing
Or, "From 'Shark Tank' to 'Monk Cave': Business and Socially Engaged Buddhism". Television shows like Shark Tank, featuring a panel of potential investors who consider propositions from aspiring entrepreneurs, evinces that popular culture values only the making of profit. In such a capitalistic world, who are the "winners" and "losers"? What impact does a business/product have beyond its intended consumer benefits? What is the Buddhist response to business and commerce and its overall effects on individuals, society, and ecology? This course will challenge students to research, analyze, and devise resolutions for real world issues, by having students employ Buddhist solutions informed by concepts such as compassion, interconnectedness, and Socially Engaged Buddhism. Students will scrutinize the related concept of "structural violence". We will look at examples from Bhutan's "Gross Domestic Happiness", Thailand's "Sufficiency Economy", China's state-led religious charities under the name of "Humanistic Buddhism", as well as the ordination of trees. This course hopes to prepare students to be critical, rather than merely passive, world citizens, especially in the realm of business, and to be more conscious and aware of their everyday life choices and its impact on every aspect of society.

Requirements/Evaluation:  attendance and active participation 20%; experiential exercises 25% (i.e., critical reflection that incorporates class readings with personal experience of the various experiential exercises conducted throughout the term: mainly, a 30-day social-media cleanse, and meditation sessions); Mid-term exam (in-class: identification terms and short essay) 25%; Final project and presentation 30% (the final grade includes
initial consultation with the instructor regarding topic selection, annotated bibliography, project outline, final presentation, and final written report).

**ASST 233 (S) Spiritual Crossroads: Religious Life in Southeast Asia**

**Cross-listings:** ANTH 233  ASST 233  REL 253

**Secondary Cross-listing**

No region of the world presents a richer tapestry of religious beliefs, practices, and institutions than Southeast Asia. Buddhism, Hinduism, Christianity and Islam are all to be found and all of them interpenetrate and contend with each other and with a deep undergirding of animism, shamanism, and mystical folk belief systems. This course will survey these religious traditions through time and space, looking in particular at the growing tension between religion and the state as fundamentalism and religious militancy have spread into the region in recent times. All of Southeast Asia will be covered, but particular attention will be devoted to Indonesia, where religious blending and the growth of new fundamentalism are both especially marked.

**ASST 242 (S) The Sacred in South Asia**

**Cross-listings:** ANTH 249  ASST 242  REL 149

**Secondary Cross-listing**

Is religious identity necessarily singular and unambiguous? The jinn - Islamic spirits born of fire - are sought out for their healing and other powers not only by Muslims in India, but by Hindus, Christians and Sikhs, as well. In parts of Bengal statues of the Hindu goddess Durga are traditionally sculpted by Muslim artisans. Buddhist pilgrimage sites in Sri Lanka contain tombs of Muslim Sufi saints and shrines of Hindu deities. South Asia - where a fifth of humanity lives - provides some of the most striking examples of pluralism and religiously composite culture in our contemporary world. Yet at the same time, strident religious majoritarianism has been a defining feature of the politics of India, Pakistan and Sri Lanka for decades, and haunts Nepal and Bangladesh as well. Are these two modes of religious being - pluralistic and composite on the one hand, singular and majoritarian on the other - reflective of two different conceptions of selfhood? What if we turn from questions of community and identity to questions of unseen power and the sacred? This course is an exploration of lived religion in South Asia. It is simultaneously a study of popular Hinduism, Buddhism and Islam and an introduction to the anthropology of religion. Centered on in-depth studies of popular sites of 'syncretic' ritual practice (shared across religious difference) as well as studies of mass mobilizations that seek to align the religious community with the nation, we approach from multiple angles what the sacred might mean in modernity.

**Requirements/Evaluation:** weekly (1 page) posts on readings, two short (5 page) papers, and one (12-14 page) final research paper.
Prerequisites: Interest in the topic!

Enrollment Limit: 13

ASST 244  (S)  Mind and Persons in Indian Thought

Cross-listings: REL 244 ASST 244

Secondary Cross-listing

In this course, we follow the Indian philosophical conversation concerning the self and the nature of consciousness, particularly as they are found in its various Yogic traditions. We start with some of the Hindu views about the self and the mind and consider their ethical implications. We then consider a range of Buddhist critiques of these views, focusing more particularly on the Madhyamaka, which radicalizes the critique of the self into a global anti-realist and skeptical stance. We also examine the Yogacara school, which offers a process view of reality focusing on the analysis of experience. We conclude by considering some of the later Hindu holistic views of the self as responses to the Buddhist critique. In this way we come to realize that far from being the irrational foil of "the West," Indian tradition is a rich resource for thinking through some of the central questions that have challenged philosophers in both traditions.

This tutorial considers India's legacy as a booming Asian democracy that is built upon deep and enduring divisions. Why is India's growing population so often described in terms of multiple identities or fragmenting oppositions—including religion, gender, caste, and class? What are the historic roots and recollections of key moments of structural violence in modern Indian history that produce ongoing social conflict as well as social fluidity? We pay particular attention to key historic moments such as Partition, and key communal riots in Gujarat, Hyderabad, and Delhi as well as regions of India such as Jammu & Kashmir in order to understand the struggle for individual subjectivity and identity within a landscape of stark social hierarchies. We will cover climate emergencies, resource scarcities, and ongoing struggles for power and status across very different parts of India. Our readings include ethnographic, sociological, historical analyses as well as fiction, oral history, and popular media sources that attempt to portray India’s diverse and fragmented society.
Class Format: meetings weekly, weekly writing, and discussion
Requirements/Evaluation: weekly writing assignments and tutorial attendance every week
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: majors in Anthropology and Sociology, Religion, Asian Studies, or Women's, Gender & Sexuality Studies

ASST 250 (F) Scholars, Saints and Immortals: Virtue Ethics in East Asia

Cross-listings: REL 250  ASST 250

Secondary Cross-listing

In East Asian cultures, as in the United States, popular conceptions of morality typically take their shape, not from explicit rules, but from moral paragons—stylized figures that are said to embody a distinctive cluster of virtues. For example, American Christians invoke not only Jesus, but also a pantheon of “secular saints” as diverse as Martin Luther King Jr. and General Patton, George Washington and Cesar Chavez. This course will explore the cultural functions of moral paragons and philosophies of virtue in East Asia by introducing students to examples from Chinese and Japanese history, ranging from Confucian articulations of the ideal scholar-bureaucrat to Buddhist conceptions of the Bodhisattva to Taoist immortals. It will also address the history of ethical thought in East Asia, focusing particular attention on conceptions of “Virtue Ethics.” This approach has come to be seen by some contemporary analytic philosophers as a way out of the impasse produced by ethical relativism and the loss of theological rationales for moral action. Readings will include Euro-American philosophers such as Nietzsche and MacIntyre as well as primary texts in translation by Chuang-tzu, Confucius, Shantideva and others.

Class Format: discussion

Requirements/Evaluation: active participation, short writing assignments, midterm, and a self-scheduled final exam

ASST 253 (F) Love and Death in Modern Japanese Literature and Visual Culture

Cross-listings: ASST 253  COMP 255

Secondary Cross-listing

Modern Japanese fiction is similar to Western fiction in many ways, but there are intriguing differences concealed within that sameness. This course investigates Japanese culture and compares it with our own, by examining Japanese literature about two universal human experiences—love and death—and asking how Japanese writers inflect these ideas in their work. The course begins with tales of doomed lovers that were popular in the eighteenth-century kabuki and puppet theaters, and that still feature prominently in Japanese popular culture today. From there we move on to a range of other relationships between love and death, including parental love and sacrifice, martyrdom and love of country, sex and the occult, and romance at an advanced age. We will focus on novels and short stories by canonical modern authors like Tanizaki, Kawabata, and Mishima, as well as contemporary popular fiction by writers like Murakami Haruki and Murakami Ryu. We will also give significant attention to popular visual culture, including puppet theater, comics, animation, and film. The class and the readings are in English.

Class Format: For this hybrid class, on-campus students will meet in a classroom during the scheduled class slot (observing campus distancing
protocols), while off-campus students participate simultaneously via Zoom. Off-campus students must be able to Zoom in during the scheduled class times.

**Requirements/Evaluation:** attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project

**ASST 255 (S) Buddhism: Ideas and Practices**

**Cross-listings:** ANTH 255 REL 255 ASST 255

**Secondary Cross-listing**

This course introduces students to Buddhism by examining its ideas and practices as they have taken place in actual social contexts rather than as disembodied textual objects. After examining the main ideas and narratives of the tradition, we turn our attention to Thailand where we examine how these ideas and narratives have shaped a whole range of practices, from meditation to shamanistic rituals. We then consider the transformations that Buddhism is undergoing in contemporary society, examining the rise of meditation movement, the changing role of monks and laity, the resurgence of the nun order, the rise of Buddhist social activism and the development of new Buddhist social philosophies. We ask questions such as: How can
Buddhism adapt to a modern global consumerist society? What are the transformations involved in this process and the role that Buddhism can play in such a global society? Should Buddhists take advantage of the opportunities of this new global culture or should they adopt a critical stance toward its consumerist values?

**Class Format:** discussion

**Requirements/Evaluation:** full attendance and active participation; two essays

Not offered current academic year

**ASST 256 (F) Buddhism, Sex, & Gender: #MeToo Then and Now (DPE)**

**Cross-listings:** ANTH 256 WGSS 256 REL 256 ASST 256

**Secondary Cross-listing**

This course considers the feminist voices that have been part and parcel of Buddhist practices, texts, and institutions for most of its 2500-year history. We will conduct a historical genealogy of Buddhist voices that illustrate the fluid and disruptive role of sex, gender, caste, and class in relation to individual behavior and social relations. How did the Buddha's inner revolution produce a set of practices that both reject and reinforce existing binaries and social hierarchies of sex and gender, and with what effects? We will trace a feminist voice that decries harassment, assault, and systemic sexism within Buddhist communities from the first female disciples (Theri) of the Buddha to the current #MeToo era of embattled toxic masculinity.

Along the way, we explore a literary canon that contains misogyny and 'she devils' alongside a rich tapestry of female divinities, transgender fluidity, and female liberation. We pursue and intersectional analysis of Buddhist traditions and texts by considering the multiple forms of social hierarchy—gender, sexuality, race, and class—that Buddhism has attempted to transcend. We begin by considering three women in the Buddha's life—his mother (Maya), his stepmother/aunt (Gotami), and his wife (Yashodhara)—as well as the tales of the first enlightened Buddhist women whose topics include prostitution, patriarchy, sexism, and pathetic husbands, as well as their own decaying bodies and beauty. Our final theme considers a range of monastic memoirs, including a Buddhist black nun who left Harvard to take ordination in Thailand, and a Dutchman who studied Zen Japan.

We close by examining the current debates in the U.S. and Asia that seek to combat systemic racism, sexism, and casteism in Buddhist traditions.

**Requirements/Evaluation:** class discussion, reading responses (3-4 pages), writing chat, final research paper (12 pages)

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Anthropology, Religion, Asian Studies, Women's, Gender and Sexuality majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Difference, Power, and Equity Notes:** The course fulfills DPE because it seeks to theorize the role of difference (gender, sex, class, and race) and intersectionality within Buddhist texts, practices, and institutions. It considers how Buddhist practices and institutions both deconstruct and reproduce social inequality.

Not offered current academic year

**ASST 266 (S) Confession and Deception in Japanese Literature**

**Cross-listings:** ASST 266 COMP 266
Situated at the origins of Japanese literature are the beautiful and revealing diaries of ladies in waiting at the tenth-and eleventh-century court. Yet one of the most famous of these women turned out to be a man. For the next thousand years, Japanese literary tradition would place a premium on confessional writing, but the distortions and concealments of these narrators (and the authors hiding behind them) would always prove at least as interesting as the revelations. This course examines several centuries of Japanese literature to ask whether you can ever put your true self into writing; along the way I will ask you what you reveal, conceal, discover, or reinvent about yourself when you write about literature for a class like this. Texts will range from classical and medieval court literature by Sei Shônagon and Lady Nijô, through autobiographical and confessional novels by Sôseki, Tanizaki, Mishima, and Abe Kôbô, to documentary and subculture films like The New God and Kamikaze Girls. The class and the readings are in English; no familiarity with Japanese language or culture is required.

Requirements/Evaluation: attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project

Prerequisites: none; no familiarity with Japanese language or culture is required

Enrollment Limit: 25

ASST 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASST 269 ANTH 269

Secondary Cross-listing

This course offers a social analysis and condensed genealogy of mindfulness from its roots as a Buddhist meditation practice through its modern application as a tool to improve our awareness of the related processes of mind, behavior, and emotions. We consider how mindfulness relates to Buddhist discourses and practices, and to the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How and why has the research on mindfulness and other applied meditative practices exploded since 2000? How has this research helped us understand and explain the intersection of mind, emotion, behavior, and human development? We critically examine the models of the mind developed by clinical and evolutionary psychologists and researchers in fields such as affective neuroscience to better understand the applications of mindfulness in the US today. Specifically, we consider how mindfulness and other forms of meditation are being used to improve the training of health care providers and educators, while augmenting and deepening the quality of their engagement with patients, students, and others they serve. We examine and train in a variety of meditation practices including mindfulness and forest bathing, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to engage in mindfulness practices the entire semester.

Class Format: Offered in a hybrid format, but students are encouraged to attend in person if they can. Studies will be grouped in pairs or threesomes, that will meet in-person or remotely. Please email me (Kgutscho@williams.edu) to indicate whether you intend to take this class in -person or remotely.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 269 (D2) STS 269 (D2) ASST 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays of 1200 or 600 words, written feedback on every essay, and a mid-semester ‘writing chat’ with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that
mindfulness can alleviate pervasive and population-wide health issues in the US including rising rates of anxiety, depression, and other mental health issues that are exacerbated by stress related to social inequality and structural violence. It also explores the ways that mindfulness has been marketed as an elite and non-inclusive practice within the US.

ASST 272  (F)  Art of the Noble Path: Buddhist Material Culture Across Asia

Cross-listings:  REL 272  ARTH 272  ASST 272

Secondary Cross-listing
Buddhism has spread throughout Asia and beyond since its emergence in India in the 5th century BCE, providing a shared philosophical and cosmological framework for diverse cultures. Artistic expression, regional politics and cultural landscapes have been shaped by its remarkable influence. With patrons ranging from powerful monarchs and monks to merchants and tradespeople, Buddhist art has historically reflected the religion’s social inclusivity. This course will survey the architecture, painting and material culture of Buddhism in Asia, tracing its influence in diverse media, from rock-cut architecture to Zen painting. A close reading of primary texts, such as architectural inscriptions in India, manuscripts from Tibet, and travelogues of Chinese pilgrims, will provide greater context for the artworks.

Requirements/Evaluation:  3 ten-minute quizzes, weekly Glow responses, a midterm, and a final exam

ASST 273  (S)  The Arts of the Book in Asia

Cross-listings:  ARTH 273  ASST 273

Secondary Cross-listing
From palm leaf manuscripts to scrolls to Islamic codices, books have long served as vehicles of religious, cultural and artistic exchange in Asia. Owing both to their portability and status as finely crafted art objects, books have transmitted ideas across the continent, spreading courtly styles of painting from China to India, esoteric Buddhist teachings from Kashmir to Tibet and Mongolia, as well as the Quranic arts of calligraphy and illumination from Islamic South Asia to Southeast Asia. This course will survey the interwoven history of book arts as it developed and disseminated across different regions of Asia. The course will also introduce students to the major art forms of the book, such as painting, calligraphy and illumination. The aim of the survey is to understand the book as object while also investigating its content and its larger cultural significance. A number of class meetings will take place in the Williams College Museum of Art where students will have the opportunity to study original artworks from the collection.

Requirements/Evaluation:  2 quizzes, 2 short response papers, a final project/paper based on museum objects, 1-hour in-class final exam

Prerequisites:  none

Enrollment Limit:  25

Enrollment Preferences:  preference will be given to Art Majors, and then to students of any major interested in art and culture of Asia

Expected Class Size:  20

Grading:  yes pass/fail option, yes fifth course option

ASST 278  (F)  Buddhist Material Culture: Objects of Practice and Merit

Cross-listings:  REL 278  ASST 278

Secondary Cross-listing

You've heard of the "material girl" (or boy), but what about the material Buddhist? This course encourages students to look beyond modernist ideals of Buddhism as a rational tradition of monks, monasteries and manuscripts, merely advocating mindfulness. In this course, we take Buddhist "stuff" (material culture) seriously. We explore what exactly is material culture, and what makes it Buddhist? If Buddhism is supposed to be a tradition that encourages non-attachment, then what is meant by "Buddhist material culture"? Shouldn't Buddhists be free of material things? Or, rather, who says they have to be? This course offers: (1) an introduction to the core concepts of Buddhism; (2) a brief overview of Material Religion, or the "material turn" in the study of religion; and (3) a preliminary exploration into the vast material- and spiritual worlds of Buddhist Asia, particularly China, Japan, Myanmar, Tibet, and Thailand. We begin by decolonializing Buddhism (think mandala, not only meditation; or ghosts and spirits, not just sutra). Next, we trace religious studies trends that privilege material investigations that acknowledge the agency of not only humans but also the agency of objects/things/stuff, and that emphasizes the dynamics among people, things, and spirits. We learn about these dynamics by looking closely at Buddhist stuff. Things act upon us, and we (re)act upon them. They shape identity, create meaning, and maintain relationships. We will learn that things are never just things. They help us better understand what people do in Buddhism, not just what people believe. This course includes brief experiential components on Buddhist meditation and ritual. No prior experience in meditation or Buddhism is required. This course does not assume any previous background in Buddhism, Religion, Asian Studies, or Art History.

Class Format: This class is remote with a mix of synchronous and asynchronous requirements. Synchronous meetings are limited to once a week for roughly one hour (between 60-75 minutes). Many of our synchronous requirements will feature breakout sessions into small groups for intimate, peer exchanges, followed by discussions with the entire class. A few asynchronous sessions will require community-building with your peers through some form of work exchange or reflection related to the weekly topic.

Requirements/Evaluation: Attendance and active participation 25%; Short writing assignments 25% (one-page, single-space, critical response based on class reading x 4 total); Mid-term exam 25% (identification terms, short essay); Final project and presentation 25% (initial consultation with the instructor regarding topic selection, annotated bibliography and project outline, formal written report (4-5 single-space pages) , presentation, and final reflection)

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Religion and Asian Studies majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 284  (S)  Introduction to Asian American History (DPE)

Cross-listings:  HIST 284  ASST 284  AMST 284

Secondary Cross-listing

This course covers the immigration of Asian to the U.S. from the 1850s to the present and the lives of both immigrants and their descendants. Possible topics are the Chinese Exclusion Act, the incarceration of Japanese Americans during WWII and the arrival of Vietnamese to the U.S. after the war in Viet Nam.

Class Format: discussion
Requirements/Evaluation: a series of short essays and a final oral history/family history
Prerequisites: none
Enrollment Limit: 40
Expected Class Size: 25
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 284 (D2) ASST 284 (D2) AMST 284 (D2)

Difference, Power, and Equity Notes: This course will focus on the legal barriers to Asian American immigration and citizenship that reveal the racial, class, gender, and religious biases against people from that part of the world. By examining these issues, we will see an unequal balance of power as well as the various ways Asian immigrants resisted American immigration laws and would eventually build communities in many parts of the US.

This course is cross-listed and the prefixes carry the following divisional credit:
For over a thousand years, women in East Asia profoundly influenced the development of the visual arts, yet their formidable presence remains largely hidden. This seminar explores the critical roles women played as patrons, artists, and collectors of the arts in China, Korea, and Japan. We cover historical periods from the 10th century to the present day and discuss both traditional and nontraditional media including painting, sculpture, photography, embroidery, and even inkstones. Topics include didactic paintings for women in the Song court, calligraphy and painting as gendered modes of expression in Heian period Japan, the revival of Buddhist arts in Korea under the patronage of imperial women, and artworks by modern and contemporary artists that contest dominant representations of gender and sexuality. The course does not simply focus on artistic production, but also contextualizes these topics in light of emergent theorizations and readings on femininity, feminism, and the sexual politics of representation. Along with a final research paper, students will generate a substantial Wikipedia entry on a certain aspect of the course to promote the coverage of women and the arts online. No prior knowledge of Asian art history is required or assumed.

Requirements/Evaluation: Class participation, 4 object or reading response papers (2-3 pages), Wikipedia page editing project and presentation (5-7 minutes long), and 12-15-page final research paper (written in stages over the semester including a 15-minute presentation)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Art History and Asian Studies majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 311 (D1) ASST 311 (D1)

Difference, Power, and Equity Notes: This course fulfills the Difference, Power, and Equity by exploring the construction of gender in relation to power. We discuss how Daoist, Confucian, Shinto, and Buddhist ideas historically shaped attitudes toward women and address the ways in which colonialism and Orientalism shaped understandings of gender differences and roles in East Asia. Students will be introduced to theoretical texts of feminism and postcolonialism and learn to identify key issues to the feminist art historical project.

Established in the early 1500s, the Mughal Empire was one of the grandest and the longest to rule the Indian subcontinent for over three hundred years. Commanding unprecedented resources and administering a population of 100 to 150 million at its zenith--much larger than any European empire in the early modern world--the Mughals established a centralized administration, with a vast complex of personnel, money, and information networks. Mughal emperors were also political and cultural innovators of global repute. Moreover, while the Mughal dynasty was brought to an end with British colonial rule over India in 1857, the Mughal administrative structures and cultural influences continued to have a lasting impact on the British and later Indian states that followed. Centered around the intersection of the themes of power, patronage of art and architecture and religion, this course will ask: What factors contributed to the durability of the Mughal Empire for three centuries? How did global trade and innovations in taxation contribute to its wealth and stability? How did this dynasty of Muslim monarchs rule over diverse, and largely non-Muslim populations? How did they combine Persian cultural elements with regional ones to establish an empire that was truly Indian in nature? How were the Mughals viewed in their contemporary world of gunpowder empires like the Safavids of Persia and the Ottomans of Turkey? Readings will include the best of the recent
scholarship on this vastly influential empire and a rich collection of primary sources, including emperor's memoirs, accounts of European travelers, and racy biographies, which will allow students make their own analysis. They will also have the opportunity to interpret paintings (some of which are held in the WCMA collections) and architecture. They will also discuss how the Mughals are remembered in South Asian film and music.

**Requirements/Evaluation:** participation, response papers/short essays, one final paper

**Prerequisites:** none, open to first-year students with instructor permission

**Enrollment Limit:** 25

**Enrollment Preferences:** History majors and potential History majors

**ASST 314 (F) Emperors of Heaven and Earth: Mughal Power and Art in India, 1525-1707**

**Cross-listings:** HIST 314 ARTH 314 ASST 314

**Secondary Cross-listing**

The Mughal dynasty ruled over most of northern India from the 16th to the 19th centuries. The Mughal Empire was the grandest and longest to rule the Indian subcontinent—much larger than any European empire in the early modern world—and it continued to have a lasting impact on South Asia. Mughals established a centralized administration with a vast complex of personnel, money and information networks. Styling themselves as ‘Emperors of Heaven and Earth’, the Mughal kings were also globally viewed as political innovators and unprecedented patrons of art. Their visual practices were as much a part of their imperial ideologies as their administrative and military measures. This co-taught course combines the disciplines of Art History and History to explore the intricate workings of Mughal politics and ideologies. The first of its kind to bring an interdisciplinary approach to teaching South Asia at Williams, the course asks: How did the Mughals sustain their empire for three centuries? How did they use art and politics to rule over diverse and largely non-Muslim populations? How did these Muslim imperial patrons merge Persian and Central Asian cultural values with preexisting Indian forms of administrative and artistic expression? How does Mughal culture continue to shape the South Asian imagination today? Readings will include a variety of visual and literary texts. We will delve deep into the world of biographies, travel accounts, poetry, architecture and a plethora of artworks. Students will take a hands-on approach to Mughal painting through several visits to the WCMA and a dedicated Object Lab. The primary aim
of this co-taught course is to introduce students to a multifaceted picture of one of the greatest empires in pre-colonial world history. Another goal is to familiarize them with a wide range of visual and written primary sources and develop a vocabulary for 'reading' these.

**Requirements/Evaluation:** class participation and weekly responses to readings, 4-5 short papers and a final paper

**Prerequisites:** students who have previously taken HIST312 will not be permitted to take this course; no other prerequisites

**Enrollment Limit:** none

**Enrollment Preferences:** graduating seniors

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**ASST 319 (F) Gender and the Family in Chinese History** (DPE)

**Cross-listings:** WGSS 319 ASST 319 HIST 319

**Secondary Cross-listing**

Although sometimes claimed as part of a set of immutable "Asian values," the Chinese family has not remained fixed or stable over time. In this course, we will use the framework of "family" to gain insight into gender, generation, and sexuality in different historical periods. Beginning in the late imperial period (16th-18th Centuries), we will examine the religious, marital, sexual, and child-rearing practices associated with traditional ideals of family. We will also examine the wide variety of "heterodox" practices that existed alongside these ideals, debates over and critiques of gender, family, and sexuality in the twentieth century and in China today.

**Class Format:** Remote in Fall 2020. Emphasis will be on synchronous discussions and small group work via Zoom (or similar).

**Requirements/Evaluation:** active participation in discussions and group work, short skills-based writing assignments (2-4 pgs) and short essays (5-7 pgs) leading toward a final paper.

**Prerequisites:** none; open to first year-students with instructors permission

**Enrollment Limit:** 15

**Enrollment Preferences:** History, Asian Studies, and WGSS majors
**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**
WGSS 319 (D2) ASST 319 (D2) HIST 319 (D2)

**Difference, Power, and Equity Notes:** This course focuses on historical regimes of gender and sexuality in China and their transformations over time. Students will be asked to consider these regimes both on their own terms and in comparative perspective.

**ASST 320 (S) Emotions in Modern Japanese History**

**Cross-listings:** ASST 320  HIST 320

**Secondary Cross-listing**

Emotions have been integral to the human experience—to relationships between people, political decision making, economic behavior, individual and communal identities, international affairs, and national projects. This course will consider a full range of emotions including fear, insecurity, pride, anxiety, desire, anger, and happiness. And it will examine these emotions as both actors in history and subjects of historical inquiry. We will ask how emotions have reflected and shaped the making of modern Japan. What role have emotions played in steering the course of Japanese history, from the modernizing revolutions of the late 1800s, imperialism, colonialism, and war, to the navigation of both affluence and economic insecurity in the postwar era? How have emotions been talked about and represented in modern Japan? We will also discuss different ways of researching and writing a history of emotions.

**Class Format:** remote with synchronous, seminar-style discussion

**Requirements/Evaluation:** class discussion; response papers; research paper (12-15 pages)

**Prerequisites:** none; open to first-year students with instructor's permission

**Enrollment Limit:** 15

**Enrollment Preferences:** History or Asian Studies majors; prospective majors

**ASST 321 (S) History of U.S.-Japan Relations, 1853-Present**

**Cross-listings:** LEAD 321  ASST 321  HIST 321 (DPE)

**Secondary Cross-listing**

An unabating tension between conflict and compromise has been an undercurrent of U.S.-Japan relations since the 1850s, at times erupting into clashes reaching the scale of world war and at times allowing for measured collaboration. We will explore the U.S.-Japan relationship from the perspectives of both countries with a focus on how culture, domestic concerns, economic and political aims, international contexts, and race have helped shape its course and nature. This course will fulfill the Difference, Power, and Equity requirement by examining not just the diplomatic relationship between the U.S. and Japan, but also how various types of interactions have influenced the dynamics of power between these two countries and have shaped the ways in which each country has understood and portrayed the other.

**Class Format:** remote with synchronous, seminar-style discussion

**Requirements/Evaluation:** class participation, response papers (500 words), one short paper (5 pages), and a research paper (12-15 pages)
**Difference, Power, and Equity Notes:** The course focuses on differences in power (economic, cultural, political, and military) between Japan and the U.S., from the 1850s through the present. It considers the ways in which Japan has been subordinate to the U.S. for much of this history, and the conflicts that have resulted when Japan has attempted to overturn this dynamic of power. Students will acquire the skills of history and international relations to examine how race, culture, and politics have shaped this relationship.

Spring 2021

**ASST 344 (S) Taswirkhana: Technique and Practice of Indian Drawing and Painting (DPE)**

*Secondary Cross-listing*

Small in scale but vast in its representation, the world of Indian painting is famous for its stylized naturalism and mastery of line. It is an artistic practice...
whose legacy stretches back to at least the first century CE. This studio course will introduce students to the technique and practice of traditional Indian drawing and painting. The course is designed as a workshop in which students will learn to use materials and techniques of this art form. By engaging with a non-western traditional practice, the aim of the course is to expose students to a pluralistic engagement with art making. Students will learn paper and pigment preparation, as well as the basics of traditional drawing and painting techniques. The class will learn from studying a selection of original masterworks of Indian art from the Williams College Museum of Art that will be displayed in the Object Lab. Working with original artworks will help students situate the hands-on study of Indian painting practice alongside exemplary historical examples.

Requirements/Evaluation: Class participation, discussions and critiques, successful completion of all assignments and attendance

Prerequisites: none, open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to studio and art history majors

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 344 (D1) ARTS 344 (D1)

Difference, Power, and Equity Notes: The course invites students to engage with a pluralistic studio practice that is in stark contrast to mainstream modern and contemporary art practices. The course will follow a traditional, Indian workshop-style format which has its own particular rules and unique visual vocabulary. From the material preparation of pigments, paper and brushes, to the techniques of drawing and painting, the course will introduce students to an alternative, non-Western, mode of art making.

Spring 2021

STU Section: H1   MR 1:30 pm - 2:45 pm   Murad K. Mumtaz

ASST 345 (S) The Meaning of Life and Politics in Ancient Chinese Thought

Cross-listings: PSCI 345 ASST 345

Secondary Cross-listing

How can we live a good life? What standards should we use to judge how political power is constituted and used? This class will involve students in close reading of, and exegetical writing about, core texts of ancient Chinese philosophy in English translation. The purpose is to gain an understanding of a number of different perspectives on life and politics, especially Confucianism, Legalism and Daoism. While the primary focus will be on the meaning of the texts in the context of their own times, contemporary applications of core concepts will also be considered. The class will begin with background readings, since no prior work in Chinese philosophy or history is assumed. Then the class will read significant portions of the following canonical works: *Yijing*, *Analects*, *Mencius*, *Daodejing*, *Zhuangzi*, and *Han Feizi*.

Class Format: The class will be hybrid with both online and in-person sessions.

Requirements/Evaluation: two 5-page papers and one 15-page paper

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: preference to seniors but all are welcome.

Expected Class Size: 10

Not offered current academic year

ASST 389 (S) The Vietnam Wars (DPE)

Cross-listings: LEAD 389 HIST 389 ASST 389

Secondary Cross-listing
This course explores Vietnam's twentieth century wars, including an anti-colonial war against France (1946-1954), a massive Cold War conflict involving the United States (1965-1973), and postcolonial confrontations with China and Cambodia in the late-1970s. Course materials will focus primarily on Vietnam's domestic politics and its relations with other countries. Lectures, readings, films, and discussions will explore the process by which Vietnam's anti-colonial struggle became one of the central conflicts of the Cold War, and examine the ramifications of that fact for all parties involved. The impact of these wars can hardly be overstated, as they affected the trajectory of French decolonization, altered America's domestic politics and foreign policy, invigorated anti-colonial movements across the Third World, and left Vietnam isolated in the international community. Students will read a number of scholarly texts, primary sources, memoirs, and novels to explore everything from high-level international diplomacy to personal experiences of conflict and dramatic social change wrought by decolonization and decades of warfare.

Class Format: This course will be fully remote. The course format will prioritize synchronous discussions and small group work via Zoom.

Requirements/Evaluation: class participation, several short papers, and a 10- to 12-page final paper
Prerequisites: none; open to all
Enrollment Limit: 15
Enrollment Preferences: History and Asian Studies majors
Expected Class Size: 10-15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
LEAD 389 (D2) HIST 389 (D2) ASST 389 (D2)

Difference, Power, and Equity Notes: This course traces Vietnam's anti-colonial movements from colonization to liberation. Students will examine power struggles among Vietnamese nationalists from a variety of different religious, class, ideological, and regional backgrounds, as well as Vietnam's diplomatic and military rivalries with France, China, the Soviet Union, and the United States. Readings will focus on Vietnamese voices to explore how the country surmounted seemingly impossible international power dynamics.

Spring 2021
ASST 391  (S)  When India was the World: Trade, Travel and History in the Indian Ocean  (DPE) (WS)

Cross-listings: GBST 391  ASST 391  HIST 391

Secondary Cross-listing

What do Ibrahim Ben Yiju, a Jewish merchant from 11th century Yemen, Ibn Batutah, a Muslim scholar from 15th century Morocco and Captain Kidd, a 17th century English pirate have in common? All three men travelled and lived in the Indian Ocean region! This course explores the history of one of the world's oldest maritime highways that has connected the diverse cultures of Asia, Africa and Europe for millennia, thus making it a vital element in the birth of globalization. Moving away from conventional land-centric histories, we will focus instead on understanding the human past through oceanic interactions. South Asian ports and port cities remained the fulcrum of the Indian Ocean world throughout its history; traders, travellers, nobles, scholars, pilgrims and pirates from all over the world travelled to the Indian coast in search of adventure, spices, knowledge and wealth. Thus we will primarily focus on India's role in the Indian Ocean roughly from the rise of Islam in the seventh century CE through the expansion of various European communities in the region and the subsequent rise of the global economy and colonialism in the nineteenth century. Rather than following a strict temporal chronology we will concentrate on themes such as travel and adventure; trade and exchange; trust and friendship; religion and society; pilgrimage; piracy; the culture of port cities; and food across time.

Requirements/Evaluation: class participation and weekly responses to readings, 4 short papers (4-5 pages), an oral presentation and final research (10 pages) paper based on any one of the 4 papers written during the course.

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: history majors and students with demonstrable interest in maritime/Indian Ocean history

Expected Class Size: 10-12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 391 (D2) ASST 391 (D2) HIST 391 (D2)

Writing Skills Notes: Students will write 4 short papers (4-5 pages) each and receive detailed feedback from the instructor. One of the four papers will become the basis of a final research paper (10-12 pages) on which each student will work closely with the instructor and receive feedback on improving research and writing skills.

Difference, Power, and Equity Notes: This course questions the conventional view that global interconnectedness was the result of Europe's discovery of 'new worlds'. Instead, it centers non-European actors in facilitating global networks before colonialism. Throughout, students will critically engage questions of how Asian and African players forged and shaped global connections across the Indian Ocean arena and examine the ways in which these contributions have been overshadowed in traditional historiography.

Spring 2021

SEM Section: R1  TR 8:30 pm - 9:45 pm  Aparna Kapadia

ASST 412  (F)  Gandhi: History, Ideas and Legacy  (WS)

Cross-listings: REL 412  LEAD 412  GBST 412  ASST 412  HIST 496

Secondary Cross-listing

This course studies the life, work, and ideas of M.K. Gandhi (1869-1948), one of the most influential thinkers of the non-western world. Gandhi is well known today for his philosophy of non-violent resistance and its application in India's freedom struggle as well as his influence on the work of leaders like Martin Luther King and Nelson Mandela. Hailed as the 'father of the Indian nation', however, Gandhi is not only known for his political ideas but also for his deep engagement with aspects of everyday human behavior and morality: truth, vegetarianism, sex and celibacy, to name just a few of his obsessions which contributed to making his broader philosophy. It is this commitment to a morally pure life that earned him the title of 'Mahatma' or Great Soul in India. This tutorial will focus on three key aspects of Gandhi: his ideas of peaceful protest as means of social and political change, his contemplations on moral philosophy, and on his legacy in modern India and the world. Students will read a combination of Gandhi's own writings as well as journal articles, monographs and films. The course will probe questions such as: What was the context and nature of Gandhian nationalism? Did it help to integrate the Indian nation? Was Gandhi truly a Great Soul, a saint or a shrewd politician? In what ways is Gandhi received and
remembered by the Indian nation today? How does understanding a figure like Gandhi facilitate our understanding of modern nationalism, citizenship and political action?

Class Format: REMOTE. This tutorial will be taught remotely but will otherwise follow the usual tutorial format of weekly hour-long meetings, pairing students who will alternatively write papers and critiques each week.

Requirements/Evaluation: 5-7-page essays or 2-page critique due each week and a final report (3-4 pages) at the end of the semester.

Prerequisites: None, except students who have taken HIST488T will not be permitted to take this class.

Enrollment Limit: 10

Enrollment Preferences: Senior history majors and students who have previously taken HIST221. Students who have previously taken HIST488T will not be permitted to take this class.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 412 (D2) LEAD 412 (D2) GBST 412 (D2) ASST 412 (D2) HIST 496 (D2)

Writing Skills Notes: As a tutorial, this course is Writing Intensive as students not only write weekly papers but they also develop critical tools to engage in close reading of texts and interpret them and the facts therein. Each week, they will develop their writing by providing constructive criticism of their partner's paper, and in turn, learn to receive and build on critiques of their own work. Students will be given the opportunity to substantively revise their work on a regular basis.

Fall 2020

TUT Section: RT1 TBA Aparna Kapadia

ASST 413 (S) History of Taiwan (WS)

Cross-listings: ASST 413 HIST 481

Secondary Cross-listing

Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation, or an "inalienable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C.. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. The goal of the course is neither to debate nor resolve the "Taiwan question", but to explore the history and historical arguments that inform it.

Requirements/Evaluation: weekly papers and critiques

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: History or Asian Studies majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASST 413 (D2) HIST 481 (D2)

Writing Skills Notes: In this tutorial course, students will write bi-weekly 5- to 7-page papers with feedback from both the instructor and tutorial partner. Students will revise one of their tutorial papers as a final assignment. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

ASST 99 (W) Independent Study: Asian Studies
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late
September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

*Not offered current academic year*
ASIAN STUDIES

CHINESE

(Div I & II, see explanation below)

Chair: Professor George Crane

- Cecilia Chang, Frederick Latimer Wells Professor of Chinese
- Man He, Assistant Professor of Chinese
- Shinko Kagaya, Professor of Japanese
- Cornelius C. Kubler, Stanfield Professor of Asian Studies; on leave 2020-2021
- Christopher M. B. Nugent, Professor of Chinese, Chair of Comparative Literature Program
- Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; on leave 2020-2021
- Li Yu, Professor of Chinese

Affiliated Faculty:
- Christopher Bolton, Professor of Comparative Literature and Japanese Literature
- George Crane, Chair of Asian Studies and the Edward S. Greenbaum 1910 Professor of Political Science
- George Dreyfus, Jackson Professor of Religion
- Ju-Yu Scarlett Jang, Professor of Art
- Jason Josephson Storm, Professor of Religion
- Peter Just, Professor of Anthropology
- Aparna Kapadia, Associate Professor of History
- Eiko Maruko Siniawer, Professor of History
- Anne Reinhardt, Chair and Professor of History
- W. Anthony Sheppard, Marylin & Arthur Levitt Professor of Music
- Scott Wong, Charles R. Keller Professor of History

Visitors:
- Susanne Ryuyin Kerekes, Gaius Charles Bolin Fellow in Religion and Asian Studies
- Eun Young Seong, Visiting Assistant Professor of Japanese
- Kaoruko Minamoto, Visiting Lecturer in Japanese
- Chen Wang, Visiting Assistant Professor of Chinese

Mission Statement and Learning Objectives

The mission of the Department of Asian Studies is to help as many students as possible—both majors and non-majors—develop practical proficiency in Asian languages and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of one or more of the disciplines represented within Asian Studies (including anthropology, art history, economics, history, linguistics, literature, music, political science, religion, and sociology), so that they may realize their fullest intellectual and personal potential and be able to make useful contributions to society. The department offers three distinct major tracks: Asian Studies, Chinese, and Japanese.

Learning Objectives for the Chinese Major

Consisting of a core language curriculum and a variety of courses in the various disciplines represented in the department, the Chinese major track enables students to achieve proficiency in aural comprehension, speaking, reading, and writing in Mandarin Chinese, as well as to understand the cultural traditions and diversity of the Chinese-speaking regions in the world. Majors in Chinese are expected to function as responsible global
citizens, able to use the Chinese language to interact and collaborate in their community and the globalized world, while remaining keenly aware and respectful of varying cultural beliefs, norms, and sensitivities.

Students who complete the requirements for a major in Chinese will be able to:

- Attain the Advanced level in speaking, listening and reading, and Intermediate-High level in writing based on the ACTFL proficiency guidelines.
- Understand the basic grammar and vocabulary of Classical Chinese.
- Master intercultural skills to competently navigate a wide range of social and cultural contexts.
- Critically read and analyze a variety of Chinese-language primary sources for academic and professional purposes.
- Acquire research, problem-solving, and critical thinking skills by engaging in cross-linguistic, cross-cultural, and comparative historical analysis.
- Engage critically with important aspects of the historical and cultural developments and trends in China’s diverse and complex past and present.
- Acquire the skills to enable them to continue their engagement with the target language and culture as lifelong learners and users of Chinese.

THE MAJOR

Due to the Covid-19 pandemic: the Chinese and Japanese programs have decided it would be best to reduce the number of courses required for their respective majors to nine for the graduating classes of 21, 22, and 23. Requirements are as follows:

Eight semesters of Chinese or Japanese language (at least four of them should be 300-level or higher). For Chinese one additional course, Chinese 312 (Classical Chinese) is required. In Japanese, one faculty-approved elective is also required. For students with higher language proficiency who are placed out of any of the core language courses (101 through 402), they can take an equal number of faculty-approved electives taught either in Chinese or Japanese or English on literature, linguistics, culture studies or related China or Japanese studies disciplines (e.g., art history, history, political science) to fulfill the core language requirement.

The Asian Studies major is also reduced to nine for the classes of 21, 22, 23. The requirements are:

Four semesters of Chinese or Japanese, a faculty-approved three course disciplinary qualification, one comparative Asian Studies course, and one Asian Studies elective, which can include further language study.

We offer courses in English in the field of Asian Studies as well as courses in Chinese and Japanese language, literature, and culture. Three distinct majors are offered: a major in Chinese; a major in Japanese; and an interdisciplinary Asian Studies major which allows students to choose from a wide range of courses in the anthropology, art, economics, history, languages, linguistics, literatures, music, politics, religion, and sociology of China, Taiwan, Japan, and other Asian countries. An increasing number of courses on South Asia are also offered (e.g. ASST 117, ASST 221, ASST 244, ASST 246T, ASST 248, ASST 252, ASST 256, ASST 391, ASST 415, ASST 424, ASST 431, ASST 488). Students interested in taking Korean or Hindi may take these languages through the Critical Language Program administered by the Center for Foreign Languages, Literatures, and Cultures. Students with questions about the Asian Studies majors or about Asian Studies course offerings should consult the chair. Please note: Courses with ASST prefix carry Division II credit unless otherwise noted and courses with CHIN and JAPN prefixes carry Division I credit unless otherwise noted.

All students wishing to major in the Department of Asian Studies are required to take and pass a total of eleven courses, as follows:

One course that explicitly compares at least two countries in Asia, such as ASST 103, ASST 126, ASST 233, ASST 245, ASST 248, ASST 250, ASST 256, ASST 271, ASST 391, ASST 414, ASST 424, ASST 431, JAPN 258. Or students may take instead a course on a country that is different from their country of primary focus.

Four semesters of Chinese or Japanese language (including no more than two 100-level courses).

In addition to completing (1) and (2) above, all majors choose either an Area Studies track, leading to a major in Asian Studies; or a Language Studies track, leading to a major in Chinese or Japanese.

The requirements for Chinese are indicated below:

**Chinese Major**

- Four additional semesters of Chinese language (300-level or higher).
- One semester of Classical Chinese.
- One approved course in Chinese literature, linguistics, or culture.

**STUDY ABROAD**

Students intending to major in Asian Studies are encouraged to study in Asia during one or both semesters of their junior year. Williams faculty serve on the boards of several study abroad programs in China and Japan. Opportunities to study in India, Indonesia, Korea, Taiwan, Thailand, and
other Asian countries are also available. Prospective Asian Studies majors who are planning to study abroad should discuss their plans with their advisor as far in advance as possible. Up to eight courses taken overseas may be counted toward graduation, and up to four courses taken off campus may be counted toward the major.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). For programs that we are familiar with, we usually pre-approve credits.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?
Course title and description, complete syllabus including readings/assignments, and exams or other written work.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?
Yes, maximum of four courses.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?
Approved courses only.

Are there specific major requirements that cannot be fulfilled while on study away?
No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Not in particular. Students are always strongly encouraged to consult with the department faculty ahead of time to plan on what courses to take during study-away and what courses to take up return.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:
There have been cases where students decided to take different courses after they arrived at the program and those courses did not meet our requirements.

THE DEGREE WITH HONORS

Students interested in writing an honors thesis in Chinese should submit a proposal to the department chair before they pre-register for senior courses in the spring of their junior year. The proposal should include a statement of the topic, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. Admission to the honors thesis program will normally be limited to students who have maintained at least a B+ average in their courses for the major.

Students admitted to the program should register for CHIN 493-W31-494. They will be expected to turn in the final draft of their thesis shortly after spring break and to discuss their results formally with their faculty graders. Their final grades in the three courses listed above and the award of Honors, Highest Honors, or no honors will be determined by the quality of the thesis and the student’s performance in the oral defense.

THE ASIAN STUDIES ENDOWMENT

The Linen summer grants for study abroad, the Linen visiting professorships, and several other programmatic activities in the department are supported by an endowment for Asian Studies established by family and friends in memory of James A. Linen III, Class of 1934, Trustee of the College from 1948 to 1953 and from 1963 to 1982.

CHIN 101  (F)  Basic Chinese

An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing at about the 200-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively.

Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English. With the exception of a few possible in-person classes in the beginning of the semester, most
classes will be conducted online synchronously.

Requirements/Evaluation: classroom performance, homework, quizzes, unit tests, and an oral and written final exam

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: priorities will be given to first-year students and sophomores, then to juniors and seniors.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Unit Notes: Course credit granted only if both semesters (CHIN 101 and 102) are taken

Distributions: (D1)

Fall 2020

CHIN 102 (S) Basic Chinese

An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing in both the simplified and the traditional script at about the 500-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively.

Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English

Requirements/Evaluation: classroom performance, homework, quizzes, unit tests, and an oral and written final exam

Prerequisites: CHIN 101 or equivalent

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Unit Notes: students registered for CHIN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (CHIN 101 and 102) are taken

Distributions: (D1)

CHIN 134 (S) Leaving the World Behind: The Literature of Reclusion (DPE) (WS)

Cross-listings: ANTH 134  CHIN 134  COMP 134  REL 134

Primary Cross-listing

Living in a time of political and social turmoil, Confucius told his followers: "When the realm has the Way, show yourself; when it lacks the way, hide." Reclusion here is a moral choice, justified by the ethical decline of the state. But it could also be a mortal necessity in a period in which government service was a distinctly hazardous pursuit. In other contexts becoming a hermit could instead be figured as aesthetic stance meant to preserve one's artistic integrity against the dominant claims of society. This course looks at the literature of reclusion-living a life of seclusion from society-in a range of different cultures and periods, from ancient China to contemporary America. With sources that include poems, essays, novels, and films, we will investigate a set of issues surrounding radical seclusion. What different forms does reclusion take? Can one be a hermit without being completely separated from society? What is the relationship between hermits and the state-to what extent does one depend on the other? What are the
philosophical and moral implications of eremitism? Is separating oneself from human society an inherently immoral act? What is the relationship between reclusion and technology in the contemporary world? What is the nature of solitude and can it be experienced in a group (for example, in contemporary "intentional communities")? While most of our work will focus on textual analysis, there will be an experiential component to the course as well. Each student will design and implement their own experiment in (short-term) eremitism.

Class Format: experiential component

Requirements/Evaluation: tutorial papers, responses, and an individual project

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students, Chinese majors, Religion majors, Anthropology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 134 (D1) CHIN 134 (D1) COMP 134 (D1) REL 134 (D2)

Writing Skills Notes: Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner’s paper. Papers will receive substantial writing-based feedback from both the instructor and partner.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social differences and dynamics of unequal power. Acts of reclusion are often ways that individuals can challenge the dominance of the state and other structures of authority indirectly. Modes of reclusion can differ substantially depending on the social standing of the recluse. These are issues that we will examine in the course.

Not offered current academic year

CHIN 140  (F)  Introduction to Traditional Chinese Literature

Cross-listings: COMP 140  CHIN 140

Primary Cross-listing

With a written record stretching over 3000 years, China’s literary cultures are some of the richest and most varied in human history. Their influence continues to be felt not only in modern China, but also throughout much of the world. This course examines the origins and development of the different literatures of China from their earliest stages up until the end of the imperial system in 1911. We will read texts ranging from the Analects of Confucius to the medieval poetry of the Tang dynasty, from Buddhist sutras to plays about prostitutes and singing girls. An invulnerable monkey god may make an appearance to sow chaos as well. He’s difficult to pin down. Some important themes will include: the role of the individual versus that of the community, responses to catastrophe and disorder, the fantastic, the articulation of the self through literature, and ways of dealing with historical and literary legacies. All readings are in English translation.

Requirements/Evaluation: five short writing assignments (2 pages each), one paper (6-7-pages), and a final exam

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 140 (D1) CHIN 140 (D1)

CHIN 152  (S)  Introduction to Taiwanese/Southern Min Language and Culture

This course, which includes a required, fully-funded two-week field trip to Taipei, Quemoy (Jinmen), and Xiamen over Spring Break, constitutes an introduction to Taiwanese, the majority language of Taiwan, which is essentially the same as the native language of Xiamen, China and environs. Different varieties of this language, which is also known as Amoy, Hokkien, Fukienese, and Southern Min are spoken by about 50 million people in
Taiwan, southern Fujian, the Philippines, Indonesia, Malaysia, and Singapore. Suppressed in Taiwan by the Japanese from 1895-1945 and by the KMT Chinese government from 1945 through the 1970s, Taiwanese—in both its spoken and written forms—has been experiencing a fascinating revival in recent decades. The most divergent of all the major Chinese "dialects," this language is of special linguistic interest because it has preserved a number of features of Old Chinese. Our focus will be on developing basic listening and speaking skills, though we will also study some of the special characters used to write Taiwanese. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Since students in the course will ordinarily possess prior proficiency in Mandarin, a related language, we should be able to cover in one semester about as much as is covered in the first two semesters of Mandarin. Classes will include dialog performance, drills, communicative exercises, and oral reading and discussion of written Taiwanese. Required Spring Break field trip to Taiwan and China, funded by the Global Initiatives Fund.

Requirements/Evaluation: classroom performance, homework, quizzes, tests, a journal and term paper based on the field trip, and an oral and written final exam; Spring Break field trip to Taiwan and China, funded by the Global Initiatives Fund

Prerequisites: CHIN 301 or permission of the instructor

Enrollment Limit: 8

Enrollment Preferences: if course is over-enrolled, students will be selected based on a statement of rationale and goals for wishing to participate, with CHIN and ASST majors receiving priority

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

CHIN 201 (F) Intermediate Chinese

These two courses are designed to consolidate the foundations built in Basic Chinese and continue developing students' skills in aural comprehension, speaking, reading, and writing. Upon completion of the courses, students should be able to speak Chinese with fluency on everyday topics, reach a literacy level of 1000 characters (approximately 1200 common words written in both traditional and simplified characters), read materials written in simple standard written Chinese, and produce both orally and in writing short compositions on everyday topics. Conducted in Mandarin.

Class Format: Students will do dialog performance and communicative exercises in the speaking/listening classes. We will do read-aloud, questions and answers in the reading/writing classes. All classes are conducted online and in the synchronous mode to maximize teacher-student and student-student interactions.

Requirements/Evaluation: classroom performance, homework, daily quizzes, regular written and oral unit tests, and a final exam (including both oral and written portions)

Prerequisites: CHIN 102 or permission of instructor. Students who have never taken a Chinese language course at Williams should take the Chinese Placement Test in GLOW before pre-registering in this course.

Enrollment Limit: 10

Enrollment Preferences: priorities will be given to first-year students and sophomores, then to juniors and seniors.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

CHIN 214  (F)  Foundations of China

Cross-listings: HIST 214  CHIN 214  ANTH 212  GBST 212  REL 218

Primary Cross-listing

This course examines the foundational period of Chinese civilization, from the earliest evidence of human activity in the geographical region we now call China, through the end of the Han dynasty in the early third-century CE. This is the period that saw the creation and spread of the Chinese script (a writing system that would be the dominant one in East Asia for thousands of years), the teachings of Confucius (whose ideas continue to play a role in the lives of billions of people today), the construction of the Great Wall (which is not, as it turns out, visible from space), and the creation of the imperial bureaucratic system (that was, in essence, the progenitor of the modern bureaucratic state). We will proceed chronologically but focus on a set of thematic topics, including language and writing, religion and philosophy, art and architecture, politics and economics, and science and technology. While this course is entitled "Foundations of China," we will take a critical perspective on narratives, both Chinese and Western, that see Chinese history as an unbroken history of a single "civilization."

Requirements/Evaluation: short writing assignments (approximately 750 words each), quizzes, a mid-term, and a final exam

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: Chinese majors, History majors, Religion majors, and Anthropology majors

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 214 (D1) CHIN 214 (D1) ANTH 212 (D2) GBST 212 (D1) REL 218 (D1)

Not offered current academic year

CHIN 223  (S)  Ethnic Minorities in China: Past and Present  (DPE)

Cross-listings: ANTH 223  CHIN 223

Primary Cross-listing

According to the most recent census conducted in China in 2010, of the 1.3 billion population of China, more than 110 million (8.49%) were ethnic minorities (shaoshu minzu). Most of the minority groups reside in autonomous regions and districts, which constitute 64% of China's total acreage. This course introduces students to the multiethnic aspect of China's past and present. We will ask the central question of "what is minzu" and address various topics such as the minority-group identification project; the definition of minzu (translated as "ethnic group," "nationality," or "race" by different scholars); the intersections between language, religion, tourism, diaspora and ethnicity; historical sino-centric views about "foreigners" and "barbarians" as well as the roles that "barbarians" have played in China's long history. We will examine how social differences and hierarchy are
constructed and discuss how power plays in the shaping of "ethnicity." A multidisciplinary approach will be adopted for the course, taking in sources from anthropology, history, literature, ethnic studies, and cultural studies. Throughout the course, the pedagogical techniques of "intercultural dialogue" will be adopted to encourage students to discuss their own ethnic experiences and compare ethnic minority issues in China with similar issues in the United States. Students are also encouraged to come up with real-world solutions and strategies to deal with issues of racism, bias, and discrimination.

Class Format: The course will be offered remotely and adopt a learner-centered, quasi-tutorial format. Every week students will view recorded lectures and participate in an online discussion forum asynchronously. In addition, students will be placed into smaller groups and meet with the instructor once a week for synchronous discussions.

Requirements/Evaluation: class attendance, weekly quizzes, active participation in both the online discussion forum and in-class meetings, two short (5-page) response papers, and one final research paper (10-12 pages).

Prerequisites: none, open to all students; no knowledge of Chinese language required

Enrollment Limit: 15

Enrollment Preferences: current and prospective majors in the Department of Asian Studies, then to first-years

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Materials/Lab Fee: books and reading packet

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 223 (D2) CHIN 223 (D2)

Difference, Power, and Equity Notes: We explore the interactions between "power" and "ethnicity," "center" and "periphery" in the Chinese context and compare them with students' own experiences. Students are required to write one short response paper on their personal encounter with the concept of "race" or "ethnicity." For the final research paper, students are required to identify one problem among all the ethnic minority issues in the Chinese context and write a policy recommendation to make real-world changes.

Spring 2021

SEM Section: R1 TF 1:30 pm - 2:45 pm Li Yu

CHIN 224 (F) Enlightenment, Revolution, and Modernity: Literature and Intellectual Culture of Modern China

Cross-listings: CHIN 224 COMP 219

Primary Cross-listing

This course introduces modern China through literature, culture, and critical thought, covering the last decade of the 19th century, the first half of the 20th century, and a few years after the founding of the People's Republic of China. We will read important examples of fictions, essays, and poems by modern Chinese thinkers and writers. We will engage with film, theatrical performances, and other forms of popular culture from the late Qing Dynasty to the years before the Cultural Revolution. We will also read works that were created at the peripheries of history such as cross-cultural diasporic Chinese writings beyond the geographical limits of China. Delving into issues of revolution, war, enlightenment, and modernization, we will gain insights through close readings of these works about the fundamental questions that were faced by modern China and Chinese people. The first three decades of the 20th century witnessed the great achievements of canonical modern writers as well as eruption of multiple historical movements. They also saw the emergence of a modernized popular culture, new social classes, and awakening gender activists in the urban spaces. The next twenty years underwent a revolutionary turn to be more concerned with nationalist issues under the impact of war. While a singular revolutionary literature ensued in mainland China after 1949, literary and cultural modernism as a form of resistance in the context of Cold War started to develop in the sinophone regions other than mainland China such as Taiwan and Hong Kong. In this class, all readings are in English. Complementary readings in original Chinese texts are not required but welcomed.

Class Format: discussion

Requirements/Evaluation: mid-term exam; final exam; final writing project

CHIN 225 (F) The Fantastic in Chinese Literature

Cross-listings: COMP 225 CHIN 225

Primary Cross-listing
From the famous human/butterfly metamorphosis in the Daoist text Zhuangzi to contemporary writer Liu Cixin's award-winning "Three Bodies Problem," the "fantastic" has always been part of Chinese literature that pushes the boundary of human imagination. Readers and writers create fantastic beasts (though not always know where to find them), pass down incredible tales, assign meanings to unexplainable phenomena, and reject--sometimes embrace--stories that could potentially subvert their established framework of knowledge. Meanwhile, the "fantastic" is also historically and culturally contingent. What one considers "fantastic" reveals as much about the things gazed upon as about the perceiving subject--his or her values, judgment, anxiety, identity, and cultural burden. Using "fantastic" literature as a critical lens, this course takes a thematic approach to the masterpieces of Chinese literature from the first millennium BCE up until twenty-first century China. We will read texts ranging from Buddhist miracle tales to the avant-garde novel about cannibalism, from medieval ghost stories to the creation of communist superheroes during the Cultural Revolution. The topics that we will explore include shifting human/non-human boundaries, representations of the foreign land (also the "underworld"), the aestheticization of female ghosts, utopia and dystopia, and the fantastic as social criticism and national allegory. All materials and discussions are in English.

Requirements/Evaluation: participation, weekly posting, three writing assignments, final paper, oral presentation

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

CHIN 226 (S) Chinese Film and Its Significant Others (DPE)

Cross-listings: CHIN 226 COMP 296

Primary Cross-listing
From the "wows" that the first short films invoked at a Shanghai teahouse in 1896 to the $527 million (or 3.4 billion RMB) grossed at the box-office by a 3D fantasy in 2019, Chinese films have struck a responsive chord among domestic and foreign audiences. In this survey course, we will explore the evolving relationships between Chinese films and five "significant others" that are central to film and film-making. Roughly following a chronological order, this course will examine 1) the effect of new technological developments (such as photography, sound, color, special FX) on film; 2) the tension between film and traditional modes of public entertainment (such as operas and shadow plays); 3) film's social role to affirm and contest gender, national, and class identities; 4) the need to garner differing sources of financial support (state funding, cultural entrepreneurs, and transnational capital); and 5) the circulation of Chinese films in the global market. Class materials include various genre films (melodrama, horror, martial arts, comedy, etc.), directors' notes, contemporary reviews, and scholarship in China and media studies. All materials and discussions are in English.

Class Format: All regular course meetings will be conducted ONLINE with mostly a synchronous mode of instruction. Students are also expected to complete asynchronous preparations (view the films and Panopto lecture clips, read scholarship, and contribute to the discussion board) before the regular class hour. All materials are posted on GLOW. For full information, please contact the instructor.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Pre-class discussion posts based on reading and recorded lectures (Graded as Complete or Incomplete); 3) two short papers (3-5 pages); 4) two peer review papers (1-2 pages); and 5) the final project (including a presentation, and a paper or other form of project).
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: current or prospective Chinese, Japanese, Asian Studies, and Comparative Literature majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
CHIN 226 (D1) COMP 296 (D1)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the clashes and negotiations between Western media technological modernities and Chinese indigenous understanding of shadows, visuality, and sound. By discussing various films produced from mainland China, Hong Kong, Taiwan, and other diaspora areas from 1920 to now, this course asks students to explore how cinema invokes (and erases) differences, and consolidates (and challenges) hegemonic notions of nation, gender, and class.

CHIN 227 (S) Made in China or Making "China"?: Twentieth-Century Chinese Performative Culture

Cross-listings: CHIN 227 THEA 227 COMP 227

Primary Cross-listing
This course explores the ways in which twentieth-century Chinese performative culture fashioned our contemporary understanding of "China."
Starting with Chinese hybrid theatres staged in the US, Japan, and semicolonial Shanghai in the early 1900s and ending with the 2008 Beijing Olympic Opening Ceremonies, this course examines performative works drawn from the breadth of an expanded 20th century; including film, spoken drama, intercultural reproductions of Peking and Kun Operas, revolutionary and avant-garde theatre, Chinese Rock concerts, and global mass mediated performances. Emphasis will be placed on how performances (encompassing the performance onstage and the performance-making backstage) placed "China" on the global stage; and shaped racial, gender, and national identities among play-makers and audiences. We will also explore how Chinese operas were reinvented as "traditional culture" and a "national essence" in the early 20th century; and how agents of Chinese performance, as makers of imaginary worlds, serve as both assets and threats to real-life arbiters of power. The class will be structured around the themes of "Inventing Tradition on the World Stage," "Acting the Right Part," and "Performing the Nation." Students will learn to engage performances as cultural texts embedded in national and global histories. By gaining knowledge about major playwrights, directors, artists, networks, and ideas, students will also become fluent in the landscape of performance culture in China. All class materials and discussions are in English.

Class Format: lecture/discussion
Requirements/Evaluation: regular in-class participation, three short papers (3-5 pages), and one final project

Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: students who major or plan to major in Chinese and/or Asian Studies

CHIN 228 (F) Global Chinese Literature

Cross-listings: CHIN 228 COMP 209

Primary Cross-listing
This course centers upon a critical question in China studies: how to identify and theorize about Chinese literature (cultural productions in other media
forms included) created outside the boundaries of Mainland China. "What is Chinese?" "What is Chinese culture?" "What is Chinese literature and culture like beyond China?" "How is China/Chinese perceived in different Sinophone communities?" are some of the major questions we engage in this course. Taking a comparative approach, we will read and analyze Chinese literature produced in various regions and cultures (Hong Kong, Taiwan, Singapore, Malaysia, etc.) at critical historical moments during the second half of the twentieth century and early years of the twenty-first century. We will also read critical essays in studies of Shijie huawen wenxue (Global Chinese-language literature) to gain a theoretical understanding of the scholarship. The purpose of the course is two-fold: First, it is expected that we expand our purview in studying Chinese-language literature and culture; second, we will learn to think critically the ways in which such concepts as Chinese and Chineseness travel and translate among peoples, regions, nations, and cultures. The course is conducted online, with a mostly synchronous mode of instruction. No prior knowledge in Chinese is required.

Requirements/Evaluation: 5-to-10-minute pop quizzes; 2 term exams; one final paper (5-6 pages)
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Priority will be given to Chinese majors, Asian Studies majors, and Comparative Literature majors.
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option

CHIN 237 (F) Present Past: The Politics of Memory in Contemporary Chinese Literatures and Films

Cross-listings: COMP 297 CHIN 237

Primary Cross-listing
What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "past" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, amnesia and nostalgia, and home and diaspora in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies.

Requirements/Evaluation: attendance and participation, five short papers, five short critiques of a partner's paper, one final project
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: current or prospective Chinese, Asian Studies, and Comparative Literature majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

CHIN 252 (F) Bridging Theory and Practice: Learning and Teaching Chinese as a Second Language

This course introduces students to the principles of second language acquisition (SLA), a field of study that investigates how people learn a foreign
language and provides a basis for understanding research related to foreign language learning and teaching. Theoretical issues to be covered include what it means to know a language, how one becomes proficient in a foreign language, factors that affect the learning process, and the role of one's native language. We will also examine what SLA research has discovered about teaching grammar, pronunciation, vocabulary, and writing. The goal is to explore ways in which SLA theories can be applied to facilitate acquisition of Chinese in terms of learning strategies and curriculum design. This course will be useful to both students who want to improve their own learning of Chinese and those who plan to teach or conduct research on Chinese.

All readings in English with some examples in Chinese.

Class Format: discussion

Requirements/Evaluation: class participation, several oral presentations and short papers, and a final research project

CHIN 253 (F) "Illness" in Modern and Contemporary Chinese Literature and Culture (DPE)

Cross-listings: CHIN 253 COMP 254 WGSS 255

Primary Cross-listing

From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"--a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness"; the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

Class Format: All regular course meetings will be conducted ONLINE with mostly a synchronous mode of instruction. FIRST MEETING: for those who are on campus, we will have our FIRST meeting outdoors; those who remain remote can choose either "Zoom" in or attend a separate online FIRST meeting. For full information, please contact the instructor.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Pre-class quizzes based on reading and recorded lectures (Graded as Complete or Incomplete); 3) Post-class discussion in forms of paragraph writing and/or video clips (graded as Complete or Incomplete); 4) two short papers (3-5 pages); 5) the final project (including a presentation, and a paper or other form of project).

Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 10

Enrollment Preferences: Chinese, Asian Studies, or Japanese majors; and then to first-year students

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

CHIN 253 (D1) COMP 254 (D1) WGSS 255 (D1)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human
experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

CHIN 272 (S)  The History and Mythology of Chinese Scripts
Cross-listings: STS 272  CHIN 272  COMP 272
Primary Cross-listing
Written scripts using what are most often called "Chinese characters" have an attested history of over 3000 years and have been used all over the world to represent a range of different languages. In this course we will examine the history and development of Chinese characters from their earliest extant examples on sacrificial animal bones to their often amusingly misguided use for contemporary tattoos. We will look at historical evidence and mythology, carefully constructed grammatical studies and wild orientalist imaginings. Some topics will include: comparisons between the development of Chinese characters and other written scripts, the relationship between Chinese characters and the languages of China, the use of Chinese characters to write non-Chinese languages, Chinese characters in art and calligraphy, theories of connections between Chinese characters and Chinese philosophy and literature, issues of education and literacy, and the future of Chinese characters in the digital age.

CHIN 312  (F)  Introduction to Classical Chinese

This course is an introduction to the grammar and basic vocabulary of Classical Chinese, the standard written language of China from around the seventh century BCE through the 1920s (and for many centuries an important written language in Japan, Korea, and Vietnam as well). Aspects of Classical Chinese continue to play a role in both written (e.g., in newspaper, academic, and legal writing) and in spoken (e.g., proverbs and aphorisms) modern Chinese. Our work in this course will be based on reading, translating, and discussing philosophical, political, literary, and historical anecdotes from the Spring and Autumn (770-481 BCE) through the Han (206 BCE-220 CE) periods, as they served as the foundation for the language. We will conduct discussions of grammatical and philological issues primarily in English and most of our translation work will be from Classical Chinese into English. We will, however, frequently discuss the points of intersection between Classical and Modern Chinese. Students are required to have completed CHIN 202 or the equivalent. Students who have extensive reading knowledge of Chinese characters through other languages (such as Japanese) may also take this course with the instructor's permission.

Class Format: For fall 2020, CHIN 312 will be offered as a hybrid in-person/online course.

Requirements/Evaluation: classroom performance, homework, quizzes, tests, and a final exam

Prerequisites: CHIN 202 or extensive reading knowledge of Chinese characters through other languages

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Studies

Expected Class Size: 10

CHIN 413 (S) Intermediate Classical Chinese: Ideas of Authority in Classical Chinese Literature
This course builds on the foundation established in Introduction to Classical Chinese (CHIN 412) by examining longer and more complicated texts from the Warring States (403-221 BCE) and Han (206 BCE-220 CE) periods. While our focus will be on careful linguistic analysis and translation, we will also discuss these texts in terms of their philosophical ideas, rhetorical methods, and cultural and historical contexts. The works we will read include some of the foundational texts of Chinese philosophical and political thought, including the Confucian Analects, the Mencius, and the Zhuangzi. While this course is a continuation of Chinese 312, students with prior work in Classical Chinese (through study abroad, attending high school in a Chinese speaking region, etc.) are welcome as well.
CHIN 420 (S) Masterpieces in Modern Chinese Literature

"To modernize the Chinese people, it has to start from the modernization of the genre 'novel.'" Liang Qichao, the famous Chinese intellectual in the early twentieth century, envisioned a collapsing China to be salvaged by, first, its modernized literature. Indeed, throughout China's long century of struggle, exploration, and transformation, literature has been playing a crucial role in negotiating (the consequence of) modernity, fueling revolution, investigating human interiority, constructing national identity, and coping with trauma and diaspora. This course introduces students to the masterpieces in modern Chinese literature and their representations of critical events in twentieth-century Chinese history. In this course, we will focus on the genre "novel" and pay close attention to the language and literary devices that the authors use for storytelling, characterization, and self-representation. The class is organized by themes, such as, for example, modernity, revolution, diaspora, root-seeking, trauma, science fiction and so on. Through class discussions, writing assignments, and oral presentation on the final project, this course will further develop students' language proficiency, especially reading ability and effective communication in a formal setting. This course also trains students to be a critical reader who will be able to not only analyze the key moments and literary masterworks of modern China but also reflect on the complexity of Chinese culture vis-à-vis its tradition and the global context. The course is conducted in Mandarin.

Class Format: discussion

Requirements/Evaluation: classroom performance, homework, quizzes, tests, and a final exam

CHIN 422 (S) Old Shanghai, New Shanghai

"Once nicknamed as "Paris of the East," Shanghai, now a megacity with a population of 25 million, is the industrial, commercial and financial center of contemporary China. Shanghai is often depicted as a metropolis that marked the beginning of China's modernity and urban culture. People from other regions in China see Shanghai as a city full of opportunities, but characterize its people as astute and shrewd, cocky and unwelcoming. Foreigners, however, find the city appealing and its people open-minded. Jews fleeing Nazi persecutions during WWII, found Shanghai to be a "paradise of ghetto" that provided the only haven of survival. For local people, there have always been two Shanghai: an old one and a new one. They are proud of the new Shanghai but constantly nostalgic about the old one. This tutorial examines the multifaceted city of Shanghai and its people from historical and cultural perspectives. We will look at the city's history (from the late nineteenth century to present day), its local language and culture, and everyday life of the people (including migrants and foreigners) living in it. The central ideas we will explore are "modernity" and "regional identity." We will investigate how these theoretical constructs play out in the making of the city of Shanghai and the formation of its unique local identity. Course readings include historical and cultural studies as well as documentaries in English about Shanghai, and primary sources in Chinese in a wide range of genres including fiction, essays, and films (English translation of the primary sources are available for students taking the course in English). The course is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST 122T and students wishing to take the course in Chinese should register under CHIN 422T. Students will come away with a critical understanding about China's regional cultures and one of its most important metropolitan cities. Chinese language learners will be able to improve their reading and writing skills in Chinese.

Class Format: discussion

CHIN 423  (F)  A Century of Romance: Emotional Life in Modern Chinese Literature and Visual Culture

The modernization of the Chinese nation is accompanied by revolutionary changes in Chinese people's understanding of their domestic world. Through readings of literary and visual productions, this course introduces students to the modern Chinese conceptualizations of sexuality, love, and family life at varying historical stages. With emotional feelings and experiences at its thematic center, the course is mainly organized by genre and form, the purpose of which is twofold: one, to help students understand comprehensively how the private life of modern Chinese has been intertwined with the grand history of a nation-state; two, to develop students' language proficiency through the study of different literary genres and visual forms. We will read literary and visual representations of, for instance, the transforming family structures in the revolutionary years, romantic experiences during the socialist construction, and gender relations in the reform era. We will, through exercises of translation, interpretation, and creative imitation, get ourselves more familiar with genres including but not limited to poems, short stories, correspondence, diaries, critical essays, song lyrics, play scripts, etc. The course is conducted in Mandarin, but some bilingual materials are also involved for translation and interpretation purposes.

Requirements/Evaluation: oral presentation; translation project; short piece of creative writing.

Prerequisites: none

Enrollment Limit: none

Enrollment Preferences: Chinese majors

CHIN 424  (S)  Navigating across Cities: Space, Materials, and (Wo)Men in the Sinophone World

This course focuses on the theme of urban modernity in Sinophone world, namely, Chinese-speaking districts and regions including but not limited to PRC China. Through the lens of literary and multi-media productions such as fictional writings, films, TV programs, newspaper reports and columns, stage performance, and art exhibitions that are created among various Chinese-speaking communities in and about the urban settings---Beijing, Shanghai, Chengdu, Hong Kong, Taipei, cities in other Asian countries as well as those in the United States---this course expects to discuss the representations of space, materials, and people that are connected to and by such a language called "Chinese" in its broadest, most complicated, and, in some cases, controversial sense. What is Chinese(s)? What is Chinese culture(s)? What roles does Chinese language play in urban productions? How is space and material experienced through a particular language and language culture? These are some of the questions we will explore in the course. The classes are conducted with a combination of seminars, semi-tutorial writing workshops, oral presentations, and field trips (contingent upon available events). All materials for discussion are in Chinese.

Class Format: all materials for discussion are in Chinese
CHIN 425  (F)  Becoming Taiwan: Social, Cultural, and Economic Discourses of Modern Day Taiwan

A small island in East Asia and home to 23 million people, Taiwan is the largest economy that is not a member of the United Nations. From 1949, when the Nationalist Party (KMT) retreated to Taiwan after the Chinese Civil War, to becoming one of the Four Asian Tigers in the latter half of the 20th century, Taiwan has developed into a multifaceted society through an array of social/cultural/economic changes associated with industrialization, globalization and identity formation. In this course, we will examine some of the signal examples of these experiences that define the Taiwan society that it is today through literary works and films, as well as journalistic and academic articles. By way of group discussions and individual projects, students will acquire domain-specific vocabulary and develop abilities to analyze and discuss in Mandarin complex ideas related to the aforementioned issues. Using a semi-tutorial format and collaborating with a graduate program in Chinese pedagogy in Taiwan, this course is designed to provide opportunities for Williams students to engage in direct conversation with a language partner on course assignments and for the MA students in Taiwan to gain practical training in helping non-native speakers of Mandarin Chinese develop linguistic proficiency at the levels of Advanced Low to the Advanced Mid based on the ACTFL proficiency guidelines.

Class Format: semi-tutorial format, students will meet as a large group periodically for linguistic development and two to three people groups regularly for discussions

Requirements/Evaluation: quizzes, presentations, posting of discussion questions, two position papers (3 pages) and one final paper (5 pages)

Prerequisites: CHIN 402 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: seniors and Chinese majors; email the instructor

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Fall 2020

SEM Section: R1    Cancelled

CHIN 427  (S)  Spring Grass: A Peek into Inequality in China  (DPE) (WS)

Cross-listings:  WGSS 127  CHIN 427  ASST 127

Primary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the
problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Spring 2021

TUT Section: RT1 TBA Li Yu

CHIN 493 (F) Senior Thesis: Chinese

Chinese senior thesis; this is part of a full-year thesis (493-494).

Winter Study

CHIN 31 (W) Senior Thesis: Chinese
To be taken by all students who are candidates for honors in Chinese.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year

CHIN 88 (W) Chinese Sustaining Program
Students registered for CHIN 101-102 are required to attend and pass the Chinese Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program, check your class schedule to confirm enrollment.
Requirements/Evaluation: regular attendance and active participation
Prerequisites: Chinese 101
Grading: pass/fail option only
Materials/Lab Fee: one Xerox packet
Not offered current academic year

CHIN 99 (W) Independent Study: Chinese
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only

Not offered current academic year
ASIAN STUDIES
JAPANESE
(Div I & II, see explanation below)

Chair: Professor George Crane

- Cecilia Chang, Frederick Latimer Wells Professor of Chinese
- Man He, Assistant Professor of Chinese
- Shinko Kagaya, Professor of Japanese
- Cornelius C. Kubler, Stanfield Professor of Asian Studies; on leave 2020-2021
- Christopher M. B. Nugent, Professor of Chinese
- Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; one leave 2020-2021
- Li Yu, Professor of Chinese

Affiliated Faculty:

- Christopher Bolton, Professor of Comparative Literature and Japanese Literature
- George Crane, Chair of Asian Studies and the Edward S. Greenbaum 1910 Professor of Political Science
- George Dreyfus, Jackson Professor of Religion
- Ju-Yu Scarlett Jang, Professor of Art
- Jason Josephson Storm, Professor of Religion
- Peter Just, Professor of Anthropology
- Aparna Kapadia, Associate Professor of History
- Eiko Maruko Siniawer, Professor of History
- Anne Reinhardt, Chair and Professor of History
- W. Anthony Sheppard, Marylin & Arthur Levitt Professor of Music
- Scott Wong, Charles R. Keller Professor of History

Visitors:

- Susanne Ryuyin Kerekes, Gaius Charles Bolin Fellow in Religion and Asian Studies
- Eun Young Seong, Visiting Assistant Professor of Japanese
- Kaoruko Minamoto, Visiting Lecturer in Japanese
- Chen Wang, Visiting Assistant Professor of Chinese

Mission Statement and Learning Objectives

The mission of the Department of Asian Studies is to help as many students as possible—both majors and non-majors—develop practical proficiency in Asian languages and, in the tradition of the liberal arts, acquire a meaningful understanding of important facets of one or more of the disciplines represented within Asian Studies (including anthropology, art history, economics, history, linguistics, literature, music, political science, religion, and sociology). so that they may realize their fullest intellectual and personal potential and be able to make useful contributions to society. The department offers three distinct major tracks: Asian Studies, Chinese, and Japanese.

Learning Objectives for the Japanese Major

The Japanese major consists of a core language curriculum and a variety of interdisciplinary courses offered in the Asian Studies Department. In the Japanese language courses, students attain linguistic and cultural proficiency from the elementary through the advanced level. The interdisciplinary courses are designed to deepen students’ understanding of and familiarity with diversity and dynamicity in Japanese culture.
Students who complete the requirements for a major in Japanese will be able to:

- Demonstrate linguistic competency/proficiency in comprehending, speaking, reading, and writing in Japanese at the ACTFL intermediate-high to advanced levels.
- Critically read and analyze a variety of Japanese primary sources for academic and professional purposes.
- Conduct research by engaging in cross-linguistic, cross-cultural, and comparative historical analysis with problem-solving and critical thinking skills.
- Critically engage with Japanese culture, past and present, recognizing its diversity and vibrancy.
- Navigate a wide range of social and cultural contexts by communicating effectively and appropriately with people of other cultures in their local and global communities.
- Continue their engagement with Japanese language and culture as lifelong learners and users of Japanese.

THE MAJOR

Due to the Covid-19 pandemic: the Chinese and Japanese programs have decided it would be best to reduce the number of courses required for their respective majors to nine for the graduating classes of 21, 22, and 23. Requirements are as follows:

Eight semesters of Chinese or Japanese language (at least four of them should be 300-level or higher). For Chinese one additional course, Chinese 312 (Classical Chinese) is required. In Japanese, one faculty-approved elective is also required. For students with higher language proficiency who are placed out of any of the core language courses (101 through 402), they can take an equal number of faculty-approved electives taught either in Chinese or Japanese or English on literature, linguistics, culture studies or related China or Japanese studies disciplines (e.g., art history, history, political science) to fulfill the core language requirement. The Asian Studies major is also reduced to nine for the classes of 21, 22, 23. The requirements are:

Four semesters of Chinese or Japanese, a faculty-approved three course disciplinary qualification, one comparative Asian Studies course, and one Asian Studies elective, which can include further language study.

We offer courses in English in the field of Asian Studies as well as courses in Chinese and Japanese language, literature, and culture. Three distinct majors are offered: a major in Chinese; a major in Japanese; and an interdisciplinary Asian Studies major which allows students to choose from a wide range of courses in the anthropology, art, economics, history, languages, linguistics, literatures, music, politics, religion, and sociology of China, Taiwan, Japan, and other Asian countries. An increasing number of courses on South Asia are also offered (e.g. ASST 117, ASST 221, ASST 244, ASST 246T, ASST 248, ASST 252, ASST 256, ASST 391, ASST 415, ASST 424, ASST 431, ASST 488). Students interested in taking Korean or Hindi may take these languages through the Critical Language Program administered by the Center for Foreign Languages, Literatures, and Cultures. Students with questions about the Asian Studies majors or about Asian Studies course offerings should consult the chair. Please note: Courses with ASST prefix carry Division II credit unless otherwise noted and courses with CHIN and JAPN prefixes carry Division I credit unless otherwise noted.

All students wishing to major in the Department of Asian Studies are required to take and pass a total of eleven courses, as follows:

One course that explicitly compares at least two countries in Asia, such as ASST 103, ASST 126, ASST 233, ASST 245, ASST 248, ASST 250, ASST 256, ASST 271, ASST 391, ASST 414, ASST 424, ASST 431, JAPN 258. Or students may take instead a course on a country that is different from their country of primary focus.

Four semesters of Chinese or Japanese language (including no more than two 100-level courses).

In addition to completing (1) and (2) above, all majors choose either an Area Studies track, leading to a major in Asian Studies; or a Language Studies track, leading to a major in Chinese or Japanese.

The requirements for Japanese are indicated below:

Japanese Major

- Four additional semesters of Japanese language (300-level or higher).
- One approved course in Japanese language (400-level), literature or culture.
- One approved elective on Japan.

STUDY ABROAD

Students intending to major in Asian Studies are encouraged to study in Asia during one or both semesters of their junior year. Williams faculty serve on the boards of several study abroad programs in China and Japan. Opportunities to study in India, Indonesia, Korea, Taiwan, Thailand, and other Asian countries are also available. Prospective Asian Studies majors who are planning to study abroad should discuss their plans with their advisor as far in advance as possible. Up to eight courses taken overseas may be counted toward graduation, and up to four courses taken off campus may be counted toward the major.
FAQ
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
Yes. In some cases, provisional approval can be granted (students should be sure to contact the department for details). For programs that we are familiar with, we usually pre-approve credits.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?
Course title and description, complete syllabus including readings/assignments, and exams or other written work.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?
Yes, maximum of four courses.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?
Approved courses only.

Are there specific major requirements that cannot be fulfilled while on study away?
No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
Not in particular. Students are always strongly encouraged to consult with the department faculty ahead of time to plan on what courses to take during study-away and what courses to take up return.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:
There have been cases where students decided to take different courses after they arrived at the program and those courses did not meet our requirements.

THE DEGREE WITH HONORS
Students interested in writing an honors thesis in Japanese should submit a proposal to the department chair before they pre-register for senior courses in the spring of their junior year. The proposal should include a statement of the topic, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. Admission to the honors thesis program will normally be limited to students who have maintained at least a B+ average in their courses for the major.

Students admitted to the program should register for JAPN 493-W31-494. They will be expected to turn in the final draft of their thesis shortly after spring break and to discuss their results formally with their faculty graders. Their final grades in the three courses listed above and the award of Honors, Highest Honors, or no honors will be determined by the quality of the thesis and the student’s performance in the oral defense.

THE ASIAN STUDIES ENDOWMENT
The Linen summer grants for study abroad, the Linen visiting professorships, and several other programmatic activities in the department are supported by an endowment for Asian Studies established by family and friends in memory of James A. Linen III, Class of 1934, Trustee of the College from 1948 to 1953 and from 1963 to 1982.

JAPN 101  (F)  Elementary Japanese
An introduction to modern spoken and written Japanese, the course aims to instill proficiency in Japanese by developing four necessary skills of speaking, listening, reading, and writing to successfully interact with native speakers. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Audio, video and computer-assisted learning materials will be used extensively. Classes consist of a combination of "act" classes, conducted exclusively in Japanese, where students use the language in various types of drills and communicative activities, and "fact" classes, conducted in Japanese and English, where students learn about the language and culture.

Class Format: fact classes, three hours per week; act classes three hours per week
Requirements/Evaluation: daily classroom performance, homework, quizzes, a midterm, and a final exam
Prerequisites: none
JAPN 101 (S) Elementary Japanese
An introduction to modern spoken and written Japanese, the course aims to instill proficiency in Japanese by developing four necessary skills of speaking, listening, reading, and writing to successfully interact with native speakers. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Audio, video and computer-assisted learning materials will be used to facilitate learning. Classes consist of a combination of "act" classes, conducted exclusively in Japanese, where students use the language in various types of drills and communicative activities, and "fact" classes, conducted in Japanese and English, where students learn about the language and culture.

Class Format: fact classes, three hours per week; act classes three hours per week

JAPN 131 (F) Introduction to Japanese Linguistics
This course is an introduction to the basic ideas and methodology of linguistics. We learn how to formally analyze the patterns of speech sounds (phonetics and phonology), word formation (morphology), sentence structures (syntax), and meanings (semantics and pragmatics). Other topics, such as first language acquisition and language variations, may be discussed as needed. Although we use Japanese as the primary target data throughout the course, we occasionally look at data from other languages for further application of linguistic methodology and for the better understanding of cross-linguistic variations and underlying universality across languages. Classes are conducted in English.

Requirements/Evaluation: class discussion, reading assignments (as preparation for class), written assignments (exercises), mid-term and final exam
Prerequisites: no background knowledge of Japanese or linguistics is required; open to all students who are interested in Japanese language or language in general

Enrollment Limit: 25

Enrollment Preferences: first-year and sophomore students

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

JAPN 201 (F) Intermediate Japanese

This course is a continuation of First-Year Japanese 101-102, further developing the four skills of speaking, listening, reading, and writing. The same general methodology will be used. Upon completing the course, students will have been introduced to most of the major structural patterns of contemporary Japanese and will be able to read simple expository prose.

Class Format: fact classes, three hours per week; act classes three hours per week

Requirements/Evaluation: daily performance, homework, quizzes, a midterm, and a final exam

Prerequisites: JAPN 101-102 or permission of instructor

Enrollment Limit: 10

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

CON Section: H2  MWF 9:20 am - 10:10 am  Kaoruko Minamoto

JAPN 220 (S) Being Korean in Japan (DPE)

Cross-listings: JAPN 220 ASST 220
Primary Cross-listing

Who are Zainichi Koreans (Koreans in Japan)? How are they different from Koreans in Korea or in the United States? Contemporary Korean TV dramas and films have depicted Koreans as attractive and successful people appealing to Hallyu (Korean Wave) fans around the world. However, Zainichi Koreans, who are the largest ethnic minority in Japan, have been frequently portrayed as abusive husbands/fathers, pitiful wives/mothers, or juvenile delinquents in both Japanese and Korean cinema and literature. Through close readings of films, novels, and short essays, we will explore little-known yet significant representations of Zainichi Koreans by focusing on Japanese and Korean historical contexts. By doing so, we will discover new aspects of transnational exchange not only between Japanese and Koreans, but also between South and North Koreans in Japan. All class materials will be available in English translation or with English subtitles.

Requirements/Evaluation: attendance/participation; short written responses; midterm essay; group presentation; final essay

Prerequisites: none

Enrollment Limit: 21

Enrollment Preferences: Open to all students, but if over-enrolled, priority will be given to Asian Studies and Japanese majors

Expected Class Size: 21

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
JAPN 220 (D1) ASST 220 (D1)

Difference, Power, and Equity Notes: This course looks at the dynamics of unequal power in the social marginality of Korean immigrants in Japan. Exploring historical contexts, students will analyze how the ethnic particularity of the Korean minority has engaged with and against Japanese society. Students will also examine how we might associate the minority culture and history with extensive global issues, including the relationships between environmental problems and minorities, wars and women, and imperialism and migration.

Spring 2021

LEC Section: H1    MR 3:15 pm - 4:30 pm    Eun Young Seong

JAPN 223 (S) Japanese Food Culture in a Global Context

Cross-listings: JAPN 223 COMP 223

Primary Cross-listing

The bourgeoning popularity of Japanese food on a global scale has resulted in a surge of new research, literature, and films. Conversely, the effects of globalization have transformed the dining experience within Japan to be ever more multiethnic. This interdisciplinary course explores the complex relationship between food and culture in Japan, and the emergence of Japanese cuisine as a global phenomenon, referring to a variety of materials and practices. Topics to be addressed include modernization, nation-building, militarization, globalization, the environment, and popular culture.

Requirements/Evaluation: active class participation, three response papers, two small projects (including descriptions and class presentations), and one research paper and presentation

Prerequisites: none

Enrollment Limit: 20

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
JAPN 223 (D1) COMP 223 (D1)

Not offered current academic year

JAPN 258 (S) Language and Literacy Development

Cross-listings: PSYC 258 JAPN 258

Primary Cross-listing
Language is uniquely a human function and fundamental to one's participation in society. Children learn to talk in the first three years of life at an impressive speed. However, in order to successfully participate in academic and social life, it is critical for one to develop literacy skills. Learning to read is a multifaceted process that involves various cognitive resources. This course is an introduction to language development and literacy acquisition in first language and in a cross-linguistic environment including Japanese, Chinese and English. Linguistic concepts such as phonology, syntax and morphology will be introduced as we discuss the acquisition processes. Questions to be addressed include: How does a child develop oral language from birth? How does a child learn the meaning of words? How is learning to talk and read similar or different across various languages? How is learning to read different from learning to speak? How “natural” is it to learn to read?

Requirements/Evaluation: active participation in the class discussion, weekly reaction paper, quiz, final paper
Prerequisites: none
Enrollment Limit: 25
Enrollment Preferences: Japanese, Chinese, Asian Studies, and Psychology majors
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option

Unit Notes: Psychology majors, this course counts as a 200-level elective in psychology but does not count as one of the three 200-level courses for the major; for Asian Studies, Chinese, and Japanese majors, this course counts as a comparative requirement course

Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:
PSYC 258 (D2) JAPN 258 (D1)
Not offered current academic year

JAPN 260 (F) Japanese Theatre and its Contemporary Context
Cross-listings: THEA 262 COMP 262 JAPN 260
Primary Cross-listing
Japan's rich and varied performance traditions, old and new, born of different historical settings, coexist to this day and compete for the attention of audiences, domestically and abroad. The forms to be considered (nohgaku, kabuki, bunraku, shingeki, butoh, and Takarazuka all female revue among others) are all dynamic. Each has transformed itself in response to evolving social conditions. This course examines these performance traditions, considers how each reflects the social, cultural, and political context of its birth, and poses the question, "of what relevance is each to a contemporary audience?" Some of the other questions we will explore are: How have these performing traditions transformed themselves throughout history, including after 3.11? What do we mean by traditional? contemporary? How are traditional and contemporary performance genres interacting with each other? How have the central themes of these works evolved? All readings and discussion will be in English.

Class Format: discussion
Requirements/Evaluation: active class participation, presentations, written journals, two short papers, and one longer paper
Prerequisites: none; open to all
Enrollment Limit: 20
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

JAPN 274 (F) Confronting Japan
Cross-listings: JAPN 274 COMP 274
Primary Cross-listing
This tutorial looks into confrontations, within Japan and across its borders, how such confrontations are perceived, handled and narrated, and what they tell us about Japanese society. Through literature and other media, we will probe domestic issues, such as gender/economic disparities, aging, minorities, suicide, reclusion and post 3-11 recovery, and international issues, related to Japan's shifting roles within East Asia and beyond.
Discussions will untangle the conflicting perspectives, and elaborate the thoughts and feelings of the various contestants. All readings and discussions will be in English. Some course materials will also be available in Japanese, for those interested.

Requirements/Evaluation: 4- to 5-page papers and 2-page critiques (in alternating weeks), and one final report at the culmination of the course

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Japanese majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

JAPN 274 (D1) COMP 274 (D1)

Not offered current academic year

JAPN 301  (F)  Upper-Intermediate Japanese

This course is a continuation of Japanese 201 and 202. Students will further develop the four skills of speaking, listening, reading, and writing, while consolidating the foundations built in Elementary and Intermediate Japanese. The same general methodology will be used. In this course, students begin to emphasize vocabulary building through the study of situationally oriented materials stressing communicative competence. The reading of expository prose in both semi-authentic and authentic materials of intermediate difficulty will also receive some extensive attention.

Class Format: three 75-minute classes (hybrid)

Requirements/Evaluation: daily performance, homework, quizzes, a midterm, and a final exam

Prerequisites: JAPN 202 or permission of instructor

Enrollment Limit: 10

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Fall 2020

LEC Section: H1    MWF 10:00 am - 11:15 am     Eun Young Seong

JAPN 302  (S)  Upper-Intermediate Japanese

This course is a continuation of Japanese 301. Students will further develop the four skills of speaking, listening, reading, and writing, while consolidating the foundations built in Elementary and Intermediate Japanese. In this course, students work on the reading skills for comprehending primary source materials and expository prose of intermediate difficulty; the communication skills for conducting practical conversations and presentations; and the listening skills for interpreting various types of information.

Class Format: three 75-minute classes

Requirements/Evaluation: daily performance, homework, quizzes, a midterm, and a final exam

Prerequisites: JAPN 301 or permission of instructor

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Spring 2021

LEC Section: H1    MWF 8:15 am - 9:30 am     Eun Young Seong
JAPN 401 (F) Advanced Japanese
This course is a continuation of Japanese 301 and 302. Students will develop the four skills of speaking, listening, reading, and writing in the discussion of social issues in contemporary Japan. Topics may vary according to the level of the students.

Class Format: three 75-minute classes (hybrid)
Requirements/Evaluation: daily performance, homework, quizzes and projects (presentations)
Prerequisites: JAPN 302 or permission of instructor
Enrollment Limit: 8
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Fall 2020
LEC Section: R1 MWF 11:45 am - 1:00 pm Eun Young Seong

JAPN 402 (S) Advanced Japanese
A continuation of Japanese 401, developing speaking, listening, reading, and writing skills in the discussion of social issues in contemporary Japan. Topics may vary according to the level of the students.

Class Format: three 75-minute classes
Requirements/Evaluation: daily performance, homework, quizzes and projects (presentations)
Prerequisites: JAPN 401 or permission of instructor
Enrollment Limit: none
Enrollment Preferences: none
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Spring 2021
LEC Section: R1 MWF 11:45 am - 1:00 pm Eun Young Seong

JAPN 406 (F) Advanced Japanese: JLPT 1, 2 or 3
This course is for advanced students, especially for those who would aim to pass Level 1, 2, or 3 of the Japanese Language Proficiency Test (JLPT) offered by the Japan Foundation and Japan Educational Exchanges and Services. JLPT not only measures examinees' skill level, but has been used as a form of qualification, and also often for employment screening and evaluation. Students will work on all five areas of chôkai (listening comprehension), dokkai (reading comprehension), bunpô (grammar), goi (vocabulary) and kanji, based on their skill level.

Requirements/Evaluation: daily preparation and in-class performance, a weekly journal, and taking the JLPT exam suited to your level in December
Prerequisites: any one of Japanese 300- or 400-level courses or permission of instructor
Enrollment Limit: 5
Expected Class Size: 4
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
Not offered current academic year

JAPN 407 (F) An Exploration of Japanese Language and Culture
Cross-listings: JAPN 407 ASST 207
Language is the primary means for human beings to lead social lives and it expresses, embodies and symbolizes cultural and social reality. This tutorial will examine the intertwining ways in which the Japanese language reflects the patterns of life and intrinsic beliefs of Japanese, while exploring how this linguistic code may influence and shape the ways Japanese think. We will look into the following topics: polite language and the variety of personal pronouns in order to examine how the hierarchical structure of Japanese society is reflected in them. Also, we will explore women's speech, youth and queer Japanese to discuss social and gender identities and the role of linguistic stereotypes in manga, anime and TV dramas as well as the "easy Japanese movement," which depicts the shift from a monolingual to multilingual Japanese society. And finally, our examination will investigate the semantic and cultural losses that occur in translations from Japanese prose to English prose. The course is conducted in either Japanese or English with materials drawn from linguistics and sociocultural studies both in Japanese and English. Students wishing to take the course in English should register under ASST 207T and students wishing to take the course in Japanese should register under JAPN 407T. Japanese language learners will not only develop analytical and critical thinking, but will gain more advanced Japanese skills such as reading to understand the logic of arguments, exponent narrative, and academic presentations and writing.

Requirements/Evaluation: attendance and participation, 5 short papers, 5 critiques, and one final project; ASST 207 will meet once a week; JAPN 407 will meet twice a week

Prerequisites: none for ASST 207; a 400-level Japanese language course, advanced level Japanese proficiency or permission of instructor for JAPN 407

Enrollment Limit: 10

Enrollment Preferences: current or prospective Japanese, Chinese, and Asian Studies majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: students wishing to take the course in English should register under ASST 207 and students wishing to take the course in Japanese should register under JAPN 407

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

JAPN 407 (D1) ASST 207 (D1)

Not offered current academic year

JAPN 493 (F) Senior Thesis: Japanese

Japanese senior thesis; this is part of a full-year thesis (493-494).

**Winter Study**  

JAPN 31 (W) Senior Thesis: Japanese  
To be taken by all students who are candidates for honors in Japanese.  
**Class Format:** independent study
**Grading:** pass/fail only

**JAPN 88 (W) Japanese Sustaining Program**  
Students registered for JAPN 101-102 are required to attend and pass the Japanese Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program, check your class schedule to confirm enrollment.

**Requirements/Evaluation:** regular attendance and active participation
**Prerequisites:** Japanese 101
**Grading:** pass/fail option only
**Materials/Lab Fee:** one Xerox packet

**JAPN 99 (W) Independent Study: Japanese**  
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study
**Grading:** pass/fail only

---
How long will the Sun shine? How do we discover Earth-like planets among the many exoplanets circling other stars? How did the universe begin and how has it evolved over its 13.8-billion-year history? How do we detect not only light but also gravitational waves from afar? Astronomy is the science that asks and tries to answer questions like these. We have come a long way toward understanding what makes the sky appear as it does and how the Universe behaves. The Astronomy Department offers courses for anyone who is interested in learning about the Universe, and who would like to be able to follow new astronomical discoveries as they are made. All courses in Astronomy satisfy the Division III requirement. The Astronomy major and the Astrophysics major (administered jointly with the Physics Department) are described below.

The beginning astronomy courses are offered on two levels. Astronomy 101, 102, 104, and 330-range courses are intended primarily for non-science majors and have no prerequisite. Astronomy 111 is designed for students with some exposure to physics. It has a prerequisite of one year of high school physics or permission of the instructor, and a co-requisite of Mathematics 140 or equivalent background in calculus.

Most of the astronomy courses take advantage of our observational and computational facilities including a 24-inch computer-controlled telescope with sensitive electronic detectors, and our own computer network for image processing and data analysis. The Astronomy Department site can be found at astronomy.williams.edu.

ASTRONOMY MAJOR

The Astronomy major is designed for students with an interest in learning about many aspects of modern astronomy, but who do not choose to take the most advanced physics and math courses of the astrophysics major. It is also appropriate as a second major for students concentrating in another field; in particular, combining an Astronomy major with a related major like Geoscience or Computer Science has been a fruitful path for some of our students. The Astronomy major emphasizes understanding the observed properties of the physical systems that comprise the known Universe, from the Sun and solar system, to the evolution of stars and star clusters, to the Milky Way Galaxy, to external galaxies and clusters of galaxies. Because some knowledge of physics and calculus is necessary to understand many astronomical phenomena, the Astronomy major requires the first two semesters each of the physics and calculus that are also required of Physics majors and Astrophysics majors.

There are several possible routes through the Astronomy major, depending on preparation and interest. Students considering a major in Astronomy should consult with members of the department early and often. A first-year student, if unsure about choosing between Astronomy and Astrophysics, may wish to take not only Astronomy 111 but also Physics 131, 141, or 151 and Mathematics 140 (if necessary) in the fall. Students who might place out of physics courses should read the section on placement under Physics.

Major Requirements for Astronomy

- Astronomy 111 Introduction to Astrophysics OR Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home OR Astronomy 104 The Milky Way Galaxy and the Universe Beyond
- Two 200-level Astronomy courses (or additional 400-level Astronomy courses as substitutes)
- Two 400-level Astronomy courses
- Physics 131 Particles and Waves OR Physics 141 Particles and Waves—Enriched OR equivalent placement
- Physics 142 Foundations of Modern Physics or Physics 151 Seminar on Modern Physics
- Mathematics 140 Calculus II
- Mathematics 150 Multivariable Calculus OR Mathematics 151 Multivariable Calculus OR equivalent placement

The total number of courses required for the Astronomy major is nine. A typical path through the major will begin with Physics 141, which is suitable for students with one year of high school physics and a background in calculus. However, students without high school physics may begin with Physics 131, and students entering with Advanced Placement in physics and/or math may obtain credit toward the major for the equivalent of Physics 142 and/or Mathematics 150 or 151 taken elsewhere. There are some aspects of astronomy that are closely related to chemistry or geosciences. In recognition of this, certain advanced courses in those departments can be accepted for credit toward the Astronomy major.

THE DEGREE WITH HONORS IN ASTRONOMY
The honors degree in Astronomy will be awarded on the basis of a senior thesis presenting the results of an original observational, experimental, or theoretical investigation conducted by the student under the direction of a faculty member in Astronomy. There are no specific grade requirements (other than College-wide requirements for remaining in good academic standing) for entry into the thesis research program; however, a student wishing to do a thesis should have demonstrated both ability and motivation for independent work in previous courses and in any earlier research involvement. Students doing theses will normally choose a topic and an advisor early in the second semester of their junior year and usually begin their thesis work during the summer. During the senior year, those students whose proposals have been approved will elect two courses and a winter study project in addition to the minimum requirements for the major. Preparation for the thesis will occupy at least one course (Astronomy 493) and the winter study project (Astronomy 031). At the end of the winter study period, the department will decide, in consultation with each student, whether to admit that student to honors candidacy. Both a written thesis and an oral presentation to faculty and fellow students are required. The degree with honors will be awarded to those who meet these requirements with distinction. The degree with highest honors will be awarded to those who fulfill the requirements with unusually high distinction.

The department will be flexible with regard to the number and timing of courses devoted to thesis research within the general guidelines of two courses and a winter study project over and above the minimum major requirements and the written and oral presentations, especially in cases of students with advanced standing and/or summer research experience. Students considering unusual requests are urged to consult with potential advisors or the department chair as early as possible.

**ASTROPHYSICS MAJOR**

The Astrophysics major is designed for students who want a rigorous introduction to the field, and includes not only those who plan graduate study in astronomy, astrophysics, or a closely related area, but also those interested in a wide variety of careers. Astrophysics alumni are not only astronomers but also computer scientists, geologists, teachers, doctors, lawyers, business school professors, and so on. In recent years, many astrophysics majors have had a second major in fields as wide ranging as mathematics, computer science, geosciences, economics, English, and art history. This major emphasizes the description of the Universe and its constituents in terms of physical processes. Potential Astrophysics majors should consult early with members of the Astronomy and Physics Departments to determine their most appropriate route through the major. An essential ingredient in such students' undergraduate training is experience in physics and mathematics. Therefore, the major normally will begin in the first year a student is at Williams with Physics 131, 141, or 151 and Mathematics 140 or 150 or 151 in the fall. Physics 141 is recommended for students with one year of high school physics and a background in calculus. Students with very good background placing them out of Physics 142 and out of Mathematics 140 may choose to take Physics 201 and Mathematics 150 or 151 instead. Astronomy 111 will often be taken in the fall of the sophomore year; however, many students take it in the fall of their first year at Williams, along with physics and math. Students who might place out of physics courses should read the section on placement under Physics; those who place out of Physics 131 or 141 into Physics 142 or 151 should particularly consider taking Astronomy 111 in the fall of their first year.

In addition to the major courses described below, other courses in geosciences, mathematics, and computer science may also be appropriate.

**Major Requirements for Astrophysics**

- Astronomy 111 Introduction to Astrophysics OR Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home OR Astronomy 104 The Milky Way Galaxy and the Universe Beyond
- Physics 131 Particles and Waves OR Physics 141 Particles and Waves—Enriched OR equivalent placement
- Physics 142 Foundations of Modern Physics OR Physics 151 Seminar on Modern Physics
- Physics 201 Electricity and Magnetism
- Physics 202 Waves and Optics
- Physics/Mathematics 210 Mathematical Methods for Scientists
- Physics 301 Introductory Quantum Physics
- Mathematics 150 Multivariable Calculus OR Mathematics 151 Multivariable Calculus
- Three 400-level astronomy courses OR two 400-level astronomy courses and one of the following:
  - Astronomy 211 Astronomical Observing and Data Analysis
  - Physics 302 Statistical Physics
  - Physics 402T Applications of Quantum Mechanics
  - Physics 405T Electromagnetic Theory
  - Physics 411T Classical Mechanics;
The total number of courses required for the Astrophysics major, an interdisciplinary major, is eleven. Students entering with Advanced Placement in physics and/or mathematics may obtain credit toward the major for the equivalent of Physics 141 and/or Mathematics 140 and/or 150 or 151 taken elsewhere, but at least 8 courses in astronomy, physics, and mathematics must be taken at Williams. There are some aspects of astrophysics that are closely related to chemistry or geosciences. In recognition of this relation, certain advanced courses in those departments can be accepted for credit toward the Astrophysics major on a two-for-one basis. It is not possible to double major in Astrophysics and Physics.

THE DEGREE WITH HONORS IN ASTROPHYSICS

The honors degree in Astrophysics will be awarded on the basis of a senior thesis presenting the results of an original observational, experimental, or theoretical investigation carried out by the student under the direction of a faculty member in Astronomy or Physics. There are no specific grade requirements (other than College-wide requirements for remaining in good academic standing) for entry into the thesis research program; however, a student wishing to do a thesis should have demonstrated both ability and motivation for independent work in previous courses and in any earlier research involvement. Students doing theses will normally choose a topic and an advisor early in the second semester of their junior year and usually begin their thesis work during the summer. During the senior year, those students whose proposals have been approved will elect two courses and a winter study project in addition to the minimum requirements for the major. Preparation for the thesis will occupy at least one course (Astrophysics 493) and the winter study project (Astrophysics 031). At the end of the winter study period, the departments will decide, in consultation with each student, whether to admit that student to honors candidacy. Both a written thesis and an oral presentation to faculty and fellow students are required. The degree with honors will be awarded to those who meet these requirements with distinction. The degree with highest honors will be awarded to those who fulfill the requirements with unusually high distinction.

The departments will be flexible with regard to the number and timing of courses devoted to thesis research within the general guidelines of two courses and a winter study project over and above the minimum major requirements and the written and oral presentations, especially in cases of students with advanced standing and/or summer research experience. Students considering unusual requests are urged to consult with potential advisors or the department chairs as early as possible.

STUDY ABROAD

FAQ

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. PHYS 301, a required course for the Astrophysics major, is only taught in the fall, and is difficult to replicate abroad, especially regarding the lab component.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.
ASTR 101  (F)  Stars: From Suns to Black Holes

For the new era of "multimessenger astronomy" (not only light and its like but also particles from space and gravitational waves): What makes a star shine? For how long will the Sun keep shining and what will happen to it then? What are black holes and how can they form? How and what have we found out about the recently gravitational radiation resulting from two giant black holes merging and, with additional signals in the spectrum, from the merger of two neutron stars? What do we learn about the Sun from total solar eclipses? Astronomy 101, a non-major, general introduction to the part of contemporary astronomy that includes how stars form and die, will provide answers to these questions. We pay special attention to recent exciting discoveries, including regular briefings and current emails plus bonus coverage of NASA's Mars2020 to Mars with the participation of Williams alumni/ae. Topics include discoveries with the Hubble Space Telescope, missions to discover planets around other stars, the latest huge telescopes and some results; how astronomers interpret the light received from distant celestial objects; and the Sun as a typical star. We discuss how pulsars and black holes result from the evolution of massive stars and how supermassive black holes lurk in galaxies/quasars. We discuss the discovery of thousands of "exoplanets" around stars other than the Sun, validating our choice of topics. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of and on the same level as Astr 102 (solar system)/104 (galaxies/cosmology); students who have taken those courses are welcome. Observing sessions will include remote use of the telescopes for nighttime observations and daytime observations of the Sun, mainly remotely but with on-campus possibilities. There will be five laboratories, available both in afternoon sessions on campus or remotely.

Class Format: lecture (two sessions per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration, available both in place and remotely. Planetarium and Roof-Observatory TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously.

Requirements/Evaluation: two hour tests, a final exam, an observing portfolio, and lab reports

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: first enrolled

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Unit Notes: non-major course

Distributions: (D3)

Fall 2020
LEC Section: H1  TR 9:45 am - 11:00 am  Jay M. Pasachoff
LAB Section: H2  MR 1:30 pm - 2:45 pm  Kevin Flaherty
LAB Section: H3  MR 3:15 pm - 4:30 pm  Kevin Flaherty

ASTR 102  (S)  Our Solar System and Others

What makes Earth different from all the other planets? What has NASA's Curiosity on Mars found about Mars's past running water and suitability for life? We will follow the February 2021 landing of NASA's Mars2020 with its alumni/ae participation! How has knowledge about Pluto been transformed by NASA's 2015 flyby and the associated ground-based studies with which Williams College faculty and students participate? Will asteroids or comets collide with the Earth again? What is a solar eclipse like? What do we learn from the rare transits of Mercury and of Venus that Williams faculty and students have studied? Astronomy 102, a non-major, general introduction to the part of contemporary astronomy that comprises the study of the solar system, will provide answers to these questions and more. We will cover the historical development of humanity's understanding of the solar system, examining contributions by Aristotle, Ptolemy, Copernicus, Galileo, Newton, Einstein, and others. We will discuss the discovery of over 4000 exoplanets around stars other than the Sun. The course gives special attention to exciting discoveries of the past few years by space probes and by the Hubble Space Telescope and the Kepler/K2/TESS missions. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 (stars and stellar evolution) and 104 (galaxies and cosmology), and students who have taken those courses are welcome.

Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration. A planetarium demonstration will also take place, available both in place and remotely. Planetarium and Roof-Observing TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously.
ASTR 104  (S)  The Milky Way Galaxy and the Universe Beyond

It has been less than a century since the Sun was discovered not to be at the center of the Milky Way Galaxy, and the Milky Way Galaxy was determined to be only one of countless "island universes" in space. A host of technological advances is enabling us to understand even more clearly our place in the universe and how the universe began. For example, the recently discovered "chirp" from gravitational radiation (reported in 2016) resulting from two giant black holes merging, and the "chirp" from two neutron stars merging, also producing light, radio and x-ray radiation, has opened a whole different way of observing the Universe from the traditional use of light and other forms of electromagnetic radiation. We are now therefore in the new era of multimessenger astronomy. Further, the Hubble Space Telescope and the Chandra X-ray Observatory bring exceptionally clear images over a wider range of the spectrum; their images are aiding astronomers to better understand the past and future of the Universe, and new infrared images are expected with the launch of the James Webb Space Telescope. Observations with those and other new telescopes on the ground and in space help to confirm and enlarge our understanding of the Big Bang. In addition, study of the early Universe (most recently from the Planck spacecraft) and large-scale mapping programs such as the Sloan Digital Sky Survey, the European Space Agency's Gaia, and the Dark Energy Survey. Astronomy 104, a non-major, general introduction to part of contemporary astronomy comprising the study of galaxies and the Universe, explores the answers to questions like: What is the Milky Way?; Why are quasars so luminous?; Is the Universe made largely of "dark matter" and "dark energy"?; What determines the ultimate fate of the Universe? How have studies of Cepheid variables and distant supernovae with the Hubble Space Telescope determine that the Universe is 13.8 billion years old and indicated that the Universe's expansion is accelerating? How significant is the current discrepancy between the age and expansion rate of the Universe as measured from supernova observations as opposed to measurements from the cosmic background radiation? We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 and 102, and students who have taken those courses are welcome.

Class Format: lecture (two sessions per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration, available both in place and remotely. Planetarium and Roof-Observatory TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously. Current astronomical discoveries will be discussed at the beginning of each class and by email throughout the semester.

Requirements/Evaluation: two hour tests, a final exam, lab reports, and an observing portfolio

Prerequisites: none; not open to students who have taken or are taking ASTR 330

Enrollment Limit: 25

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Unit Notes: non-major course

Distributions: (D3)

Not offered current academic year

Spring 2021

LAB Section: H2  MR 1:30 pm - 2:45 pm  Kevin Flaherty

ASTR 107  (F)  Astrobiology
Astrobiology is the study of the origin, evolution, and distribution of life in the universe. As such it is an inherently interdisciplinary field, incorporating all of the basic natural sciences: biology, chemistry, physics, astronomy, and the earth sciences, as well as aspects of philosophy, sociology, and engineering. Questions we will seek answers to in this class include: How, why, when, and where did life evolve on Earth, and what does that tell us about how it might evolve elsewhere? What are the chances that there is life on other planets and moons in our solar system, and why? Are there habitable planets elsewhere in the universe, and will we ever truly know if any of them contain life? We will approach these questions using a combination of lectures, activities, labs, homework assignments, and virtual visits from some of the country's leading Astrobiology researchers. Examples of lab and homework activities include exploring our definition of life by making observations about living and non-living systems, examining evidence for ancient habitable environments in rocks, reconstructing the geological history of Mars using satellite imagery, and modeling exoplanet atmospheres using computer simulations. Assessment will be based on participation, quizzes, labs and homework assignments, and a final group project where students will write a mock NASA mission proposal. This course is in the Sediments and Life group for the Geosciences major.

Class Format: All lecture components will be via asynchronous online content. Labs will have in person and remote options; in person lab group will meet every other week and have virtual group project work on alternate weeks.

Requirements/Evaluation: Assessment will be based on participation, quizzes, labs and homework assignments, and a final group project where students will write a mock NASA mission proposal.

Prerequisites: none

Enrollment Limit: 48

Enrollment Preferences: first year and second year students, Geosciences majors

Expected Class Size: 48

Grading: yes pass/fail option, yes fifth course option

Unit Notes: This course counts towards the GEOS Group B Electives - Sediments and Life

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 107 (D3) ASTR 107 (D3)

ASTR 111 (F) Introduction to Astrophysics (QFR)

The science of astronomy spans vast scales of space and time, from individual atoms to entire galaxies and from the universe's beginning to the future fate of our Sun. In this course, we will survey some of the main ideas in modern astrophysics, with an emphasis on the physics of stars and galaxies. ASTR 111 is the first course in the Astrophysics and Astronomy major sequences. It is also appropriate for students planning to major in one of the other sciences or mathematics and for others who would like a quantitative introduction that emphasizes the relationship of contemporary physics to astronomy. Topics include gravity and orbits, radiation laws and stellar spectra, physical characteristics of the Sun and other stars, star formation and evolution, black holes, galaxies, the expanding universe, and the Big Bang. Students will also use telescopes remotely to observe stars, nebulae, planets, and galaxies and to make daytime observations of the Sun.

Class Format: This is a hybrid course. Lectures will be provided both in-person and for remote viewing. Students will work in small groups on discussions and calculations. Each group can choose to meet remotely or in class. Students can switch groups, and groups can switch format, as needed. Prof. Jaskot will meet with remote groups during their discussion to answer questions. The class has 6 afternoon labs, with both in-person and remote options. Remote observing sessions will occur throughout the semester.

Requirements/Evaluation: weekly problem sets, one hour-long test, a final project, lab reports, and an observing portfolio

Prerequisites: a year of high school Physics, concurrent college Physics, or permission of instructor, and MATH 140 or equivalent

Enrollment Limit: 28

Enrollment Preferences: potential Astronomy majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course requires regular problem sets and quantitative assignments. The course will emphasize how physical equations explain the observed properties of the universe.

Fall 2020
LEC Section: H1  TR 11:30 am - 12:45 pm  Anne Jaskot
LAB Section: H2  T 1:00 pm - 3:00 pm  Kevin Flaherty
LAB Section: H3  W 1:00 pm - 3:00 pm  Kevin Flaherty

ASTR 211  (S)  Astronomical Observing and Data Analysis  (QFR)
How do astronomers make scientific measurements for objects that are light-years away from Earth? This course will introduce the basics of telescopes and observations and will give students hands-on training in the techniques astronomers use to obtain, process, and analyze scientific data. We will discuss observation planning, CCD detectors, signal statistics, image processing, and photometric and spectroscopic observations. We will begin by focusing on ground-based optical observations and will move on to non-optical observations, both electromagnetic (e.g., radio waves, X-rays) and non-electromagnetic (e.g., gravitational waves, neutrinos). Throughout the course, students will use computational techniques to work with real astronomical data, taken with our 24" telescope and from data archives.

Class Format: discussion, computer lab work, and observing
Requirements/Evaluation: weekly problem sets, lab work, and observing projects
Prerequisites: MATH 150 or 151; prior experience with Unix and computer programming is helpful, but not required
Enrollment Limit: 14
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course requires regular problem sets. Labs require computer programming and statistical and graphical analyses of data.
Not offered current academic year

Cross-listings: ASTR 217  GEOS 217

Secondary Cross-listing
This course examines the history and geology of the solar system. No two planets are exactly alike, and as we acquire more data and higher-resolution images, our sense of wonder grows. However, we can't hike around and hammer rocks on Venus or Titan, so we have to infer composition, form, texture and process from remotely-captured images and sparse chemical and spectral data. We will consider the origin of the solar system, the formation and evolution of planetary bodies, and the role of impacts, volcanism, tectonics and geomorphology in shaping them. We will summarize basic geological concepts of stratigraphy, structure and chronology and show how they can be applied off-world. We will review solar system exploration, and will include planetary data in lab exercises. This course is in the Solid Earth group for the Geosciences major.

Requirements/Evaluation: Periodic short quizzes, reading journal, lab exercises, class participation
Prerequisites: any 100-level GEOS or any 100-level ASTR course, or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: Geosciences majors, Astronomy/Astrophysics majors, and sophomores
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:
ASTR 240  (F)  Great Astronomers and Their Original Publications  (WS)

Cross-listings:  ASTR 240  STS 240  HSCI 240  LEAD 240

Primary Cross-listing

In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; *Dialogo*, 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (*Miscellanea curiosa*, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (*Atlas Coelestis*, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929); Edwin Hubble (Hubble’s law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (Universe’s expansion rate, 2000s). First editions will be available in Williams’s Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the *Gutenberg Bible* (c. 1450) and a Shakespeare *First Folio* (1623, with a discussion of astronomical references in Shakespeare’s plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported *Sidereus Nuncius*, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

Class Format: Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: if overenrolled, preference by written paragraph of explanation of why student wants to take the course

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions:  (D3)  (WS)

Secondary Cross-listing

We will look in detail at geological processes on rocky and icy bodies of the Solar System. Each week will have a specific theme, and students will read a series of scientific articles on that topic. The readings will form the basis for writing and discussion. Areas to be investigated may include ice ages on Mars, the origin of Earth’s moon, tectonics on Venus, chaos terrain on Europa, geyserons on Enceladus, cryovolcanism on Triton, methane lakes on Titan, the viability of mining in the Asteroid Belt, and the prospects for life on other worlds. This course is in the Solid Earth group for the
**Class Format:** Students meet with the professor weekly, in pairs, with one student writing each week and the other critiquing; and both engaging in detailed discussion of the readings.

**Requirements/Evaluation:** Evaluation is based on written papers, critiques, and discussion.

**Prerequisites:** GEOS/ASTR 217 (Planets and Moons); OR any two courses at 200-level or higher in Geosciences and/or Astronomy; OR permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Geosciences and Astronomy majors and prospective majors

**Expected Class Size:** 6

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (WS)

*This course is cross-listed and the prefixes carry the following divisional credit:*

GEOS 317 (D3) ASTR 317 (D3)

**Writing Skills Notes:** This tutorial-style course focuses on writing, with 6 papers (5-7 pages) written bi-weekly throughout the semester, and partner critiques in alternate weeks.

---

**ASTR 330 (S) The Nature of the Universe**

This course is a journey through space and time from the first fractions of a second after the Big Bang to the ultimate fate of the Universe billions of years into the future. Topics include the Big Bang and its remnant cosmic background radiation, cosmic inflation, conditions during the first three minutes, creation of the elements, stellar and galactic black holes, relativity, the detection of gravitational waves, galaxies and quasars, dark matter, and the formation of the large-scale structure of the Universe. We will explore current ideas about the fate of our Universe, including the acceleration of its expansion, and its implications for the end of time. Finally, we will consider the fantastic but serious theoretical proposal that ours is but one of countless universes existing within a multiverse.

**Class Format:** This is a remote course. Synchronous lectures and break-out discussions will take place during the scheduled class time. These lectures may be recorded for the benefit of students in substantially different time zones; these students will then schedule a separate small-group discussion time in consultation with the professor. Remote observing sessions will occur throughout the semester.

**Requirements/Evaluation:** two midterm exams, a small observing portfolio, occasional quizzes, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 48

**Enrollment Preferences:** open only to juniors and seniors; closed to students who have taken or are taking ASTR 104, and closed to ASTR, ASPH, and PHYS majors; preference given to seniors

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Unit Notes:** non-major course; course in the 33X sequence are meant as general education courses for students in all majors

**Distributions:** (D3)

---

**ASTR 336 (S) Science, Pseudoscience, and the Two Cultures**

Cross-listings: LEAD 336  ASTR 336  HSCI 336

**Primary Cross-listing**

A famous dichotomy between the sciences and the humanities, and public understanding of them, was laid down by C. P. Snow and has been widely
discussed, with ignorance of the second law of thermodynamics compared with ignorance of Shakespeare. In this seminar, we will consider several aspects of science and scientific culture, including how scientific thinking challenges the claims of pseudoscience. We will consider C. P. Snow and his critics as well as the ideas about the Copernican Revolution and other paradigms invented by Thomas Kuhn. We will discuss the recent "Science Wars" over the validity of scientific ideas. We will consider the fundamental originators of modern science, including Tycho, Kepler, Galileo, and Newton, viewing their original works in the Chapin Library of rare books and comparing their interests in science with what we now call pseudoscience, like alchemy. We will review the history and psychology of astrology and other pseudosciences. Building on the work of Martin Gardner in *Fads and Fallacies in the Name of Science*, and using such recent journals as *The Skeptical Inquirer* and *The Scientific Review of Alternative Medicine*, we consider from a scientific point of view what is now called complementary or alternative medicine, including both older versions such as chiropractic and newer nonscientific practices. We will discuss the current global-climate-change deniers and their effects on policy. We discuss vaccination policy. We consider such topics as GM (genetically modified) foods, the safety and regulation of dietary supplements, and the validity of government and other recommendations relevant to the roles of dietary salt, sugar, and fat in health. We consider the search for extraterrestrial intelligence (SETI) and reports of UFO's and aliens. We consider the possible effects that superstitious beliefs have on the general public's cooperation in vaccination programs and other consequences of superstition. We will discuss conspiracy theories such as those about the Kennedy assassination, in view of the 2017 release of many documents from the time and the recent book by Alexandra Zapruder, the granddaughter of the person whose on-the-spot movie documented the fatal shot. We also consider a range of dramas that are based on scientific themes, such as Tom Stoppard's *Arcadia* and Michael Frayn's *Copenhagen*.

**Requirements/Evaluation:** biweekly 5-page papers, participation in discussions, and a 15-page final paper  
**Prerequisites:** none  
**Enrollment Limit:** 12  
**Enrollment Preferences:** juniors and seniors and to those with backgrounds in science, history of science, or philosophy  
**Expected Class Size:** 12  
**Grading:** yes pass/fail option, yes fifth course option  
**Unit Notes:** non-major course; does not count toward ASPH, ASTR or PHYS major  
**Distributions:** (D3)

**ASTR 402 (S) Between the Stars: The Interstellar Medium** (QFR)  
The matter between the stars--the interstellar medium--tells the story of the past and future evolution of galaxies and the stars within them. Stars are accompanied by diffuse matter all through their lifetimes, from their birthplaces in dense molecular clouds, to the stellar winds they eject as they evolve, to their final fates as they shed their outer layers, whether as planetary nebulae or dazzling supernovae. As these processes go on, they enrich the interstellar medium with the products of the stars' nuclear fusion. Interpreting the emission from this interstellar gas is one of astronomers' most powerful tools to measure the physical conditions, motions, and composition of our own galaxy and others. In this course we will study the interstellar medium in its various forms, from cold, dense, star-forming molecular clouds to X-ray-emitting bubbles formed by supernovae. We will learn about the physical mechanisms that produce the radiation we observe, including radiative ionization and recombination, collisional excitation of "forbidden" lines, collisional ionization, and synchrotron radiation. Applying our understanding of these processes, we will analyze the physical conditions and chemical compositions of a variety of nebulae. Finally, we will discuss the evolution of interstellar material in galaxies across cosmic time. This course is observing-intensive. Throughout the semester students will work in small groups to design, carry out, analyze, and critique their own observations of the interstellar medium using remote observations and archival data.  
**Class Format:** Tutorial meetings will be scheduled with the professor. Meetings may be held in-person, subject to classroom availability, or remotely. Students will also complete observing projects by controlling telescopes remotely and analyzing observations in astronomical databases.  
**Requirements/Evaluation:** weekly problem sets, 10-page final paper, and observing projects  
**Prerequisites:** ASTR 111 and PHYS 201 or permission of instructor  
**Enrollment Limit:** 10  
**Enrollment Preferences:** juniors and seniors  
**Expected Class Size:** 6  
**Grading:** no pass/fail option, no fifth course option
**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** In this course, students will derive quantitative physical formulas, use these equations to calculate and compare physical properties, and generate and analyze graphical representations of data. They will also make and analyze measurements of astronomical data through observing projects.

Spring 2021

TUT Section: HT1   TBA   Anne Jaskot

**ASTR 404 (S) Unsolved Problems in Galaxy Evolution**

**Cross-listings:** ASTR 404

**Primary Cross-listing**

In this tutorial, we will learn about galaxies and their evolution by focusing on some of the key mysteries astronomers are trying to solve. Questions may include: How do galaxies turn their gas supply into stars? Is there a universal initial mass function for star formation? What is the origin of multiple stellar populations in globular clusters? Why do some galaxies cease star formation? Which galaxies reionized the universe? We will discuss the nature of each unsolved problem, debate the theories proposed to answer it, and consider how future progress might be made.

**Requirements/Evaluation:** student’s papers, responses to the partner’s papers, and problem sets

**Prerequisites:** ASTR 111 and PHYS 142 or 151 or permission of instructor

**Enrollment Limit:** 10

**Expected Class Size:** 6

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3)

Not offered current academic year

**ASTR 412 (F) Heliophysics**

**Cross-listings:** ASTR 412  PHYS 412

**Primary Cross-listing**

We study all aspects of the Sun, our nearest star. This semester follows the total solar eclipses of August 21, 2017, whose totality crossed the U.S. from coast to coast, and the July 2, 2019, total solar eclipse that crossed Chile and Argentina. In addition to discussing our observations of these eclipses and what has been learned about the solar atmosphere from eclipse research, we discuss the solar interior (including the Nobel-prize-winning solar neutrino experiment and helioseismology), the photosphere, the chromosphere, the corona, and the solar wind. We discuss the Sun as an example of stars in general. We discuss both theoretical aspects and observational techniques, including work at recent total solar eclipses. We discuss results from current spacecraft, including the Solar and Heliospheric Observatory (SOHO), the Solar Dynamics Observatory, the Sun Watcher (SWAP), and Hinode (Sunrise), and the new GOES/UVSI (Solar Ultraviolet Imager) run by an alumnus as well as additional Total Solar Irradiance measurements from ACRIMSAT and SORCE. We will discuss the role of solar observations in confirming Einstein’s General Theory of Relativity with the bending of light at the 1919, 1922, and 2017 total solar eclipses as well as gravitational redshift measurements in solar spectral lines, extending our discussion to the recent "chirp" of gravitational radiation reported from several colliding black holes and neutron stars observed with the Laser Interferometer Gravitational-wave Observatory (LIGO). We hope to observe the transit of Mercury across the face of the Sun on November 11, 2019, during the semester; we also discuss our data analysis of recent transits of Mercury we observed from the ground and from space (most recently in May 2016). We will highlight the 2004 and 2012 transits of Venus across the face of the Sun as observed from Earth, the first such transits of Venus since 1882, as well as our work in observing transits of Venus from Jupiter with the Hubble.

**Requirements/Evaluation:** biweekly tutorial presentations; biweekly response to colleagues’ presentations

**Prerequisites:** ASTR 111 or a 200-level Physics course; or permission of the instructor

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

Not offered current academic year

ASTR 99 (W) Independent Study: Astronomy or Astrophysics
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Grading:  pass/fail only
Not offered current academic year
How long will the Sun shine? How do we discover Earth-like planets among the many exoplanets circling other stars? How did the universe begin and how has it evolved over its 13.8-billion-year history? How do we detect not only light but also gravitational waves from afar? Astronomy is the science that asks and tries to answer questions like these. We have come a long way toward understanding what makes the sky appear as it does and how the Universe behaves. The Astronomy Department offers courses for anyone who is interested in learning about the Universe, and who would like to be able to follow new astronomical discoveries as they are made. All courses in Astronomy satisfy the Division III requirement. The Astronomy major and the Astrophysics major (administered jointly with the Physics Department) are described below.

The beginning astronomy courses are offered on two levels. Astronomy 101, 102, 104, and 330-range courses are intended primarily for non-science majors and have no prerequisite. Astronomy 111 is designed for students with some exposure to physics. It has a prerequisite of one year of high school physics or permission of the instructor, and a co-requisite of Mathematics 140 or equivalent background in calculus.

Most of the astronomy courses take advantage of our observational and computational facilities including a 24-inch computer-controlled telescope with sensitive electronic detectors, and our own computer network for image processing and data analysis. The Astronomy Department site can be found at astronomy.williams.edu.

ASTRONOMY MAJOR

The Astronomy major is designed for students with an interest in learning about many aspects of modern astronomy, but who do not choose to take the most advanced physics and math courses of the astrophysics major. It is also appropriate as a second major for students concentrating in another field; in particular, combining an Astronomy major with a related major like Geoscience or Computer Science has been a fruitful path for some of our students. The Astronomy major emphasizes understanding the observed properties of the physical systems that comprise the known Universe, from the Sun and solar system, to the evolution of stars and star clusters, to the Milky Way Galaxy, to external galaxies and clusters of galaxies. Because some knowledge of physics and calculus is necessary to understand many astronomical phenomena, the Astronomy major requires the first two semesters each of the physics and calculus that are also required of Physics majors and Astrophysics majors.

There are several possible routes through the Astronomy major, depending on preparation and interest. Students considering a major in Astronomy should consult with members of the department early and often. A first-year student, if unsure about choosing between Astronomy and Astrophysics, may wish to take not only Astronomy 111 but also Physics 131, 141, or 151 and Mathematics 140 (if necessary) in the fall. Students who might place out of physics courses should read the section on placement under Physics.

Major Requirements for Astronomy

Astronomy 111 Introduction to Astrophysics OR Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home OR Astronomy 104 The Milky Way Galaxy and the Universe Beyond
Two 200-level Astronomy courses (or additional 400-level Astronomy courses as substitutes)
Two 400-level Astronomy courses
Physics 131 Particles and Waves OR Physics 141 Particles and Waves—Enriched OR equivalent placement
Physics 142 Foundations of Modern Physics or Physics 151 Seminar on Modern Physics
Mathematics 140 Calculus II
Mathematics 150 Multivariable Calculus OR Mathematics 151 Multivariable Calculus OR equivalent placement

The total number of courses required for the Astronomy major is nine. A typical path through the major will begin with Physics 141, which is suitable for students with one year of high school physics and a background in calculus. However, students without high school physics may begin with Physics 131, and students entering with Advanced Placement in physics and/or math may obtain credit toward the major for the equivalent of Physics 142 and/or Mathematics 150 or 151 taken elsewhere. There are some aspects of astronomy that are closely related to chemistry or geosciences. In recognition of this, certain advanced courses in those departments can be accepted for credit toward the Astronomy major.

THE DEGREE WITH HONORS IN ASTRONOMY
The honors degree in Astronomy will be awarded on the basis of a senior thesis presenting the results of an original observational, experimental, or theoretical investigation carried out by the student under the direction of a faculty member in Astronomy. There are no specific grade requirements (other than College-wide requirements for remaining in good academic standing) for entry into the thesis research program; however, a student wishing to do a thesis should have demonstrated both ability and motivation for independent work in previous courses and in any earlier research involvement. Students doing theses will normally choose a topic and an advisor early in the second semester of their junior year and usually begin their thesis work during the summer. During the senior year, those students whose proposals have been approved will elect two courses and a winter study project in addition to the minimum requirements for the major. Preparation for the thesis will occupy at least one course (Astronomy 493) and the winter study project (Astronomy 031). At the end of the winter study period, the department will decide, in consultation with each student, whether to admit that student to honors candidacy. Both a written thesis and an oral presentation to faculty and fellow students are required. The degree with honors will be awarded to those who meet these requirements with distinction. The degree with highest honors will be awarded to those who fulfill the requirements with unusually high distinction.

The department will be flexible with regard to the number and timing of courses devoted to thesis research within the general guidelines of two courses and a winter study project over and above the minimum major requirements and the written and oral presentations, especially in cases of students with advanced standing and/or summer research experience. Students considering unusual requests are urged to consult with potential advisors or the department chair as early as possible.

ASTROPHYSICS MAJOR

The Astrophysics major is designed for students who want a rigorous introduction to the field, and includes not only those who plan graduate study in astronomy, astrophysics, or a closely related area, but also those interested in a wide variety of careers. Astrophysics alumni are not only astronomers but also computer scientists, geologists, teachers, doctors, lawyers, business school professors, and so on. In recent years, many astrophysics majors have had a second major in fields as wide ranging as mathematics, computer science, geosciences, economics, English, and art history. This major emphasizes the description of the Universe and its constituents in terms of physical processes. Potential Astrophysics majors should consult early with members of the Astronomy and Physics Departments to determine their most appropriate route through the major. An essential ingredient in such students' undergraduate training is experience in physics and mathematics. Therefore, the major normally will begin in the first year a student is at Williams with Physics 131, 141, or 151 and Mathematics 140 or 150 or 151 in the fall. Physics 141 is recommended for students with one year of high school physics and a background in calculus. Students with very good background placing them out of Physics 142 and out of Mathematics 140 may choose to take Physics 201 and Mathematics 150 or 151 instead. Astronomy 111 will often be taken in the fall of the sophomore year; however, many students take it in the fall of their first year at Williams, along with physics and math. Students who might place out of physics courses should read the section on placement under Physics; those who place out of Physics 131 or 141 into Physics 142 or 151 should particularly consider taking Astronomy 111 in the fall of their first year.

In addition to the major courses described below, other courses in geosciences, mathematics, and computer science may also be appropriate.

**Major Requirements for Astrophysics**

Astronomy 111 Introduction to Astrophysics OR Astronomy 101 Stars: From Suns to Black Holes and either Astronomy 102 The Solar System—Our Planetary Home OR Astronomy 104 The Milky Way Galaxy and the Universe Beyond

Physics 131 Particles and Waves OR Physics 141 Particles and Waves—Enriched OR equivalent placement

Physics 142 Foundations of Modern Physics OR Physics 151 Seminar on Modern Physics

Physics 201 Electricity and Magnetism

Physics 202 Waves and Optics

Physics/Mathematics 210 Mathematical Methods for Scientists

Physics 301 Introductory Quantum Physics

Mathematics 150 Multivariable Calculus OR Mathematics 151 Multivariable Calculus

Three 400-level astronomy courses OR two 400-level astronomy courses and one of the following:

Astronomy 211 Astronomical Observing and Data Analysis

Physics 302 Statistical Physics

Physics 402T Applications of Quantum Mechanics

Physics 405T Electromagnetic Theory

Physics 411T Classical Mechanics;
The total number of courses required for the Astrophysics major, an interdisciplinary major, is eleven. Students entering with Advanced Placement in physics and/or mathematics may obtain credit toward the major for the equivalent of Physics 141 and/or Mathematics 140 and/or 150 or 151 taken elsewhere, but at least 8 courses in astronomy, physics, and mathematics must be taken at Williams. There are some aspects of astrophysics that are closely related to chemistry or geosciences. In recognition of this relation, certain advanced courses in those departments can be accepted for credit toward the Astrophysics major on a two-for-one basis. It is not possible to double major in Astrophysics and Physics.

THE DEGREE WITH HONORS IN ASTROPHYSICS

The honors degree in Astrophysics will be awarded on the basis of a senior thesis presenting the results of an original observational, experimental, or theoretical investigation carried out by the student under the direction of a faculty member in Astronomy or Physics. There are no specific grade requirements (other than College-wide requirements for remaining in good academic standing) for entry into the thesis research program; however, a student wishing to do a thesis should have demonstrated both ability and motivation for independent work in previous courses and in any earlier research involvement. Students doing theses will normally choose a topic and an advisor early in the second semester of their junior year and usually begin their thesis work during the summer. During the senior year, those students whose proposals have been approved will elect two courses and a winter study project in addition to the minimum requirements for the major. Preparation for the thesis will occupy at least one course (Astrophysics 493) and the winter study project (Astrophysics 031). At the end of the winter study period, the departments will decide, in consultation with each student, whether to admit that student to honors candidacy. Both a written thesis and an oral presentation to faculty and fellow students are required. The degree with honors will be awarded to those who meet these requirements with distinction. The degree with highest honors will be awarded to those who fulfill the requirements with unusually high distinction.

The departments will be flexible with regard to the number and timing of courses devoted to thesis research within the general guidelines of two courses and a winter study project over and above the minimum major requirements and the written and oral presentations, especially in cases of students with advanced standing and/or summer research experience. Students considering unusual requests are urged to consult with potential advisors or the department chairs as early as possible.

FAQ

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. PHYS 301, a required course for the Astrophysics major, is only taught in the fall, and is difficult to replicate abroad, especially regarding the lab component.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.
For the new era of "multimessenger astronomy" (not only light and its like but also particles from space and gravitational waves): What makes a star shine? For how long will the Sun keep shining and what will happen to it then? What are black holes and how can they form? How and what have we found out about the recently gravitational radiation resulting from two giant black holes merging and, with additional signals in the spectrum, from the merger of two neutron stars? What do we learn about the Sun from total solar eclipses? Astronomy 101, a non-major, general introduction to the part of contemporary astronomy that includes how stars form and die, will provide answers to these questions. We pay special attention to recent exciting discoveries, including regular briefings and current emails plus bonus coverage of NASA's Mars2020 to Mars with the participation of Williams alumni/ae. Topics include discoveries with the Hubble Space Telescope, missions to discover planets around other stars, the latest huge telescopes and some results; how astronomers interpret the light received from distant celestial objects; and the Sun as a typical star. We discuss how pulsars and black holes result from the evolution of massive stars and how supermassive black holes lurk in galaxies/quasars. We discuss the discovery of thousands of "exoplanets" around stars other than the Sun, validating our choice of topics. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of and on the same level as Astr 102 (solar system)/104 (galaxies/cosmology); students who have taken those courses are welcome. Observing sessions will include remote use of the telescopes for nighttime observations and daytime observations of the Sun, mainly remotely but with on-campus possibilities. There will be five laboratories, available both in afternoon sessions on campus or remotely.

Class Format: lecture (two sessions per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration, available both in place and remotely. Planetarium and Roof-Observatory TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously.

Requirements/Evaluation: two hour tests, a final exam, an observing portfolio, and lab reports

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: first enrolled

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Unit Notes: non-major course

Distributions: (D3)

ASTR 102 (S) Our Solar System and Others

What makes Earth different from all the other planets? What has NASA's Curiosity on Mars found about Mars's past running water and suitability for life? We will follow the February 2021 landing of NASA's Mars2020 with its alumni/ae participation! How has knowledge about Pluto been transformed by NASA's 2015 flyby and the associated ground-based studies with which Williams College faculty and students participate? Will asteroids or comets collide with the Earth again? What is a solar eclipse like? What do we learn from the rare transits of Mercury and of Venus that Williams faculty and students have studied? Astronomy 102, a non-major, general introduction to the part of contemporary astronomy that comprises the study of the solar system, will provide answers to these questions and more. We will cover the historical development of humanity's understanding of the solar system, examining contributions by Aristotle, Ptolemy, Copernicus, Galileo, Newton, Einstein, and others. We will discuss the discovery of over 4000 exoplanets around stars other than the Sun. The course gives special attention to exciting discoveries of the past few years by space probes and by the Hubble Space Telescope and the Kepler/K2/TESS missions. We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 (stars and stellar evolution) and 104 (galaxies and cosmology), and students who have taken those courses are welcome.

Class Format: lecture (three hours per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration. A planetarium demonstration will also take place, available both in place and remotely. Planetarium and Roof-Observing TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously.
ASTR 104  (S)  The Milky Way Galaxy and the Universe Beyond

It has been less than a century since the Sun was discovered not to be at the center of the Milky Way Galaxy, and the Milky Way Galaxy was determined to be only one of countless "island universes" in space. A host of technological advances is enabling us to understand even more clearly our place in the universe and how the universe began. For example, the recently discovered "chirp" from gravitational radiation (reported in 2016) resulting from two giant black holes merging, and the "chirp" from two neutron stars merging, also producing light, radio and x-ray radiation, has opened a whole different way of observing the Universe from the traditional use of light and other forms of electromagnetic radiation. We are now therefore in the new era of multimessenger astronomy. Further, the Hubble Space Telescope and the Chandra X-ray Observatory bring exceptionally clear images over a wider range of the spectrum; their images are aiding astronomers to better understand the past and future of the Universe, and new infrared images are expected with the launch of the James Webb Space Telescope. Observations with those and other new telescopes on the ground and in space help to confirm and enlarge our understanding of the Big Bang. In addition, study of the early Universe (most recently from the Planck spacecraft) and large-scale mapping programs such as the Sloan Digital Sky Survey, the European Space Agency's Gaia, and the Dark Energy Survey. Astronomy 104, a non-major, general introduction to part of contemporary astronomy comprising the study of galaxies and the Universe, explores the answers to questions like: What is the Milky Way?; Why are quasars so luminous?; Is the Universe made largely of "dark matter" and "dark energy"?; What determines the ultimate fate of the Universe? How have studies of Cepheid variables and distant supernovae with the Hubble Space Telescope determine that the Universe is 13.8 billion years old and indicated that the Universe's expansion is accelerating? How significant is the current discrepancy between the age and expansion rate of the Universe as measured from supernova observations as opposed to measurements from the cosmic background radiation? We regularly discuss the latest news briefs and developments in astronomy and relate them to the topics covered in the course. This course is independent of, and on the same level as Astronomy 101 and 102, and students who have taken those courses are welcome.

Class Format: lecture (two sessions per week), observing sessions (scattered throughout the semester), afternoon labs (five times per semester), and a planetarium demonstration, available both in place and remotely. Planetarium and Roof-Observatory TAs will be available for consultation, in addition to the instructors, throughout the semester. This course is also available asynchronously. Current astronomical discoveries will be discussed at the beginning of each class and by email throughout the semester.

Requirements/Evaluation:  two hour tests, a final exam, an observing portfolio, and lab reports
Prerequisites:  none; not open to students who have taken or are taking ASTR 330
Enrollment Limit: 25
Expected Class Size: 15
Grading:  yes pass/fail option,  no fifth course option
Unit Notes: non-major course
Distributions:  (D3)

Spring 2021
LAB Section: H2  MR 1:30 pm - 2:45 pm  Kevin Flaherty

LEC Section: R1  TR 9:45 am - 11:00 am  Jay M. Pasachoff

ASTR 107  (F)  Astrobiology
Astrobiology is the study of the origin, evolution, and distribution of life in the universe. As such it is an inherently interdisciplinary field, incorporating all of the basic natural sciences: biology, chemistry, physics, astronomy, and the earth sciences, as well as aspects of philosophy, sociology, and engineering. Questions we will seek answers to in this class include: How, why, when, and where did life evolve on Earth, and what does that tell us about how it might evolve elsewhere? What are the chances that there is life on other planets and moons in our solar system, and why? Are there habitable planets elsewhere in the universe, and will we ever truly know if any of them contain life? We will approach these questions using a combination of lectures, activities, labs, homework assignments, and virtual visits from some of the country's leading Astrobiology researchers. Examples of lab and homework activities include exploring our definition of life by making observations about living and non-living systems, examining evidence for ancient habitable environments in rocks, reconstructing the geological history of Mars using satellite imagery, and modeling exoplanet atmospheres using computer simulations. Assessment will be based on participation, quizzes, labs and homework assignments, and a final group project where students will write a mock NASA mission proposal. This course is in the Sediments and Life group for the Geosciences major.

Class Format: All lecture components will be via asynchronous online content. Labs will have in person and remote options; in person lab group will meet every other week and have virtual group project work on alternate weeks.

Requirements/Evaluation: Assessment will be based on participation, quizzes, labs and homework assignments, and a final group project where students will write a mock NASA mission proposal.

Prerequisites: none

Enrollment Limit: 48

Enrollment Preferences: first year and second year students, Geosciences majors

Expected Class Size: 48

Grading: yes pass/fail option, yes fifth course option

Unit Notes: This course counts towards the GEOS Group B Electives - Sediments and Life

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 107 (D3) ASTR 107 (D3)

ASTR 111 (F) Introduction to Astrophysics (QFR)

The science of astronomy spans vast scales of space and time, from individual atoms to entire galaxies and from the universe's beginning to the future fate of our Sun. In this course, we will survey some of the main ideas in modern astrophysics, with an emphasis on the physics of stars and galaxies. ASTR 111 is the first course in the Astrophysics and Astronomy major sequences. It is also appropriate for students planning to major in one of the other sciences or mathematics and for others who would like a quantitative introduction that emphasizes the relationship of contemporary physics to astronomy. Topics include gravity and orbits, radiation laws and stellar spectra, physical characteristics of the Sun and other stars, star formation and evolution, black holes, galaxies, the expanding universe, and the Big Bang. Students will also use telescopes remotely to observe stars, nebulae, planets, and galaxies and to make daytime observations of the Sun.

Class Format: This is a hybrid course. Lectures will be provided both in-person and for remote viewing. Students will work in small groups on discussions and calculations. Each group can choose to meet remotely or in class. Students can switch groups, and groups can switch format, as needed. Prof. Jaskot will meet with remote groups during their discussion to answer questions. The class has 6 afternoon labs, with both in-person and remote options. Remote observing sessions will occur throughout the semester.

Requirements/Evaluation: weekly problem sets, one hour-long test, a final project, lab reports, and an observing portfolio

Prerequisites: a year of high school Physics, concurrent college Physics, or permission of instructor, and MATH 140 or equivalent

Enrollment Limit: 28

Enrollment Preferences: potential Astronomy majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course requires regular problem sets and quantitative assignments. The course will emphasize how physical equations explain the observed properties of the universe.

Fall 2020
LEC Section: H1  TR 11:30 am - 12:45 pm  Anne Jaskot
LAB Section: H2  T 1:00 pm - 3:00 pm  Kevin Flaherty
LAB Section: H3  W 1:00 pm - 3:00 pm  Kevin Flaherty

ASTR 211 (S) Astronomical Observing and Data Analysis (QFR)
How do astronomers make scientific measurements for objects that are light-years away from Earth? This course will introduce the basics of telescopes and observations and will give students hands-on training in the techniques astronomers use to obtain, process, and analyze scientific data. We will discuss observation planning, CCD detectors, signal statistics, image processing, and photometric and spectroscopic observations. We will begin by focusing on ground-based optical observations and will move on to non-optical observations, both electromagnetic (e.g., radio waves, X-rays) and non-electromagnetic (e.g., gravitational waves, neutrinos). Throughout the course, students will use computational techniques to work with real astronomical data, taken with our 24" telescope and from data archives.

Class Format: discussion, computer lab work, and observing
Requirements/Evaluation: weekly problem sets, lab work, and observing projects
Prerequisites: MATH 150 or 151; prior experience with Unix and computer programming is helpful, but not required
Enrollment Limit: 14
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: The course requires regular problem sets. Labs require computer programming and statistical and graphical analyses of data.

Not offered current academic year

ASTR 217 (S) Planets and Moons
Cross-listings: ASTR 217  GEOS 217
Secondary Cross-listing
This course examines the history and geology of the solar system. No two planets are exactly alike, and as we acquire more data and higher-resolution images, our sense of wonder grows. However, we can't hike around and hammer rocks on Venus or Titan, so we have to infer composition, form, texture and process from remotely-captured images and sparse chemical and spectral data. We will consider the origin of the solar system, the formation and evolution of planetary bodies, and the role of impacts, volcanism, tectonics and geomorphology in shaping them. We will summarize basic geological concepts of stratigraphy, structure and chronology and show how they can be applied off-world. We will review solar system exploration, and will include planetary data in lab exercises. This course is in the Solid Earth group for the Geosciences major.

Requirements/Evaluation: Periodic short quizzes, reading journal, lab exercises, class participation
Prerequisites: any 100-level GEOS or any 100-level ASTR course, or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: Geosciences majors, Astronomy/Astrophysics majors, and sophomores
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3)
This course is cross-listed and the prefixes carry the following divisional credit:
ASTR 240  (F)  Great Astronomers and Their Original Publications  (WS)
Cross-listings:  ASTR 240  STS 240  HSCI 240  LEAD 240

Primary Cross-listing
In this course we will study some of the greatest figures in astronomy and consider their leadership in advancing progress in the field. We will consider their lives and works, especially as represented by original copies of their books and other publications. These great astronomers include: 16th century, Nicolaus Copernicus (heliocentric universe); Tycho Brahe (best pre-telescopic observations); 17th century, Galileo (discoveries with his first astronomical telescope, 1610; sunspots, 1613; "Dialogo," 1632); Johannes Kepler (laws of planetary motion, 1609, 1619); Johannes Hevelius and Elisabeth Hevelius (atlases of the Moon and of stars, 1647, and 1687); Isaac Newton (laws of universal gravitation and of motion, 1687); 18th century, Edmond Halley (Miscellanea curiosa, eclipse maps, 1715, 1724); John Flamsteed and Margaret Flamsteed (Atlas Coelestis, 1729); and William Herschel and Caroline Herschel (1781, 1798). Also, from more recent times in which original works are often articles rather than books: 20th century, Albert Einstein (special relativity, 1905; general relativity, 1916); Marie Curie (radioactivity); Cecilia Payne-Gaposchkin (hydrogen dominating stars, 1929), Edwin Hubble (Hubble's law, 1929); Vera Rubin (dark matter, 1970s); Jocelyn Bell Burnell (pulsar discovery, 1968); and 21st century: Wendy Freedman (universe's expansion rate, 2000s). First editions will be available in Williams's Chapin Library of rare books, and facsimiles or digital copies will be provided for remote learning. We will also consider how such original materials are collected and preserved, and look at examples from the wider world of rarities, such as a leaf from the Gutenberg Bible (c. 1450) and a Shakespeare First Folio (1623, with a discussion of astronomical references in Shakespeare's plays). We evaluate a trove of books and papers about historic transits of Venus. We discuss matters of fraud and authenticity, especially the case of a purported Sidereus Nuncius, shown to be a modern construction. The course will be taught in collaboration between an astronomer and a rare books librarian, with remote lectures by experts from around the world.

Class Format: Meeting on campus in the Chapin Library classroom (Sawyer 452) or remotely; students who are not on campus can visit the original books at a later time/year.

Requirements/Evaluation: class participation, two 5-page intermediate papers, and a final 15-page paper; student choice of additional readings from a provided reading list

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: if overenrolled, preference by written paragraph of explanation of why student wants to take the course

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Writing Skills Notes: Comments on submitted papers will aid in writing skills

Fall 2020

SEM Section: H1  W 1:30 pm - 2:20 pm  Jay M. Pasachoff, Wayne G. Hammond

CON Section: H2  W 3:00 pm - 5:00 pm  Jay M. Pasachoff, Wayne G. Hammond

CON Section: H3  Cancelled

ASTR 317  (S)  Current topics in Planetary Geology  (WS)
Cross-listings: GEOS 317  ASTR 317

Secondary Cross-listing
We will look in detail at geological processes on rocky and icy bodies of the Solar System. Each week will have a specific theme, and students will read a series of scientific articles on that topic. The readings will form the basis for writing and discussion. Areas to be investigated may include ice ages on Mars, the origin of Earth's moon, tectonics on Venus, chaos terrain on Europa, geysers on Enceladus, cryovolcanism on Triton, methane lakes on Titan, the viability of mining in the Asteroid Belt, and the prospects for life on other worlds. This course is in the Solid Earth group for the
Geosciences major.

**Class Format:** Students meet with the professor weekly, in pairs, with one student writing each week and the other critiquing; and both engaging in detailed discussion of the readings.

**Requirements/Evaluation:** Evaluation is based on written papers, critiques, and discussion.

**Prerequisites:** GEOS/ASTR 217 (Planets and Moons); OR any two courses at 200-level or higher in Geosciences and/or Astronomy; OR permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Geosciences and Astronomy majors and prospective majors

**Expected Class Size:** 6

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GEOS 317 (D3) ASTR 317 (D3)

**Writing Skills Notes:** This tutorial-style course focuses on writing, with 6 papers (5-7 pages) written bi-weekly throughout the semester, and partner critiques in alternate weeks.

Spring 2021

SEM Section: HT1 Cancelled

**ASTR 330 (S) The Nature of the Universe**

This course is a journey through space and time from the first fractions of a second after the Big Bang to the ultimate fate of the Universe billions of years into the future. Topics include the Big Bang and its remnant cosmic background radiation, cosmic inflation, conditions during the first three minutes, creation of the elements, stellar and galactic black holes, relativity, the detection of gravitational waves, galaxies and quasars, dark matter, and the formation of the large-scale structure of the Universe. We will explore current ideas about the fate of our Universe, including the acceleration of its expansion, and its implications for the end of time. Finally, we will consider the fantastic but serious theoretical proposal that ours is but one of countless universes existing within a multiverse.

**Class Format:** This is a remote course. Synchronous lectures and break-out discussions will take place during the scheduled class time. These lectures may be recorded for the benefit of students in substantially different time zones; these students will then schedule a separate small-group discussion time in consultation with the professor. Remote observing sessions will occur throughout the semester.

**Requirements/Evaluation:** two midterm exams, a small observing portfolio, occasional quizzes, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 48

**Enrollment Preferences:** open only to juniors and seniors; closed to students who have taken or are taking ASTR 104, and closed to ASTR, ASPH, and PHYS majors; preference given to seniors

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Unit Notes:** non-major course; course in the 33X sequence are meant as general education courses for students in all majors

**Distributions:** (D3)

Spring 2021

LEC Section: R1 MR 1:30 pm - 2:45 pm Anne Jaskot

**ASTR 336 (S) Science, Pseudoscience, and the Two Cultures**

**Cross-listings:** LEAD 336 ASTR 336 HSCI 336

**Primary Cross-listing**

A famous dichotomy between the sciences and the humanities, and public understanding of them, was laid down by C. P. Snow and has been widely
discussed, with ignorance of the second law of thermodynamics compared with ignorance of Shakespeare. In this seminar, we will consider several aspects of science and scientific culture, including how scientific thinking challenges the claims of pseudoscience. We will consider C. P. Snow and his criticism as well as the ideas about the Copernican Revolution and other paradigms invented by Thomas Kuhn. We will discuss the recent "Science Wars" over the validity of scientific ideas. We will consider the fundamental origins of modern science, including Tycho, Kepler, Galileo, and Newton, viewing their original works in the Chapin Library of rare books and comparing their interests in science with what we now call pseudoscience, like alchemy. We will review the history and psychology of astrology and other pseudosciences. Building on the work of Martin Gardner in Fads and Fallacies in the Name of Science, and using such recent journals as The Skeptical Inquirer and The Scientific Review of Alternative Medicine, we consider from a scientific point of view what is now called complementary or alternative medicine, including both older versions such as chiropractic and newer nonscientific practices. We will discuss the current global-climate-change deniers and their effects on policy. We discuss vaccination policy. We consider such topics as GM (genetically modified) foods, the safety and regulation of dietary supplements, and the validity of government and other recommendations relevant to the roles of dietary salt, sugar, and fat in health. We consider the search for extraterrestrial intelligence (SETI) and reports of UFO's and aliens. We consider the possible effects that superstitious beliefs have on the general public's cooperation in vaccination programs and other consequences of superstition. We will discuss conspiracy theories such as those about the Kennedy assassination, in view of the 2017 release of many documents from the time and the recent book by Alexandra Zapruder, the granddaughter of the person whose on-the-spot movie documented the fatal shot. We also consider a range of dramas that are based on scientific themes, such as Tom Stoppard's Arcadia and Michael Frayn's Copenhagen.

Requirements/Evaluation: biweekly 5-page papers, participation in discussions, and a 15-page final paper
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: juniors and seniors and to those with backgrounds in science, history of science, or philosophy
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Unit Notes: non-major course; does not count toward ASPH, ASTR or PHYS major
Distributions: (D3)
This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: In this course, students will derive quantitative physical formulas, use these equations to calculate and compare physical properties, and generate and analyze graphical representations of data. They will also make and analyze measurements of astronomical data through observing projects.

Spring 2021
TUT Section: HT1    TBA     Anne Jaskot

ASTR 404 (S) Unsolved Problems in Galaxy Evolution

Cross-listings: ASTR 404

Primary Cross-listing

In this tutorial, we will learn about galaxies and their evolution by focusing on some of the key mysteries astronomers are trying to solve. Questions may include: How do galaxies turn their gas supply into stars? Is there a universal initial mass function for star formation? What is the origin of multiple stellar populations in globular clusters? Why do some galaxies cease star formation? Which galaxies reionized the universe? We will discuss the nature of each unsolved problem, debate the theories proposed to answer it, and consider how future progress might be made.

Requirements/Evaluation: student's papers, responses to the partner's papers, and problem sets

Prerequisites: ASTR 111 and PHYS 142 or 151 or permission of instructor

Enrollment Limit: 10

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

ASTR 404 (D3)

Not offered current academic year

ASTR 412 (F) Heliophysics

Cross-listings: ASTR 412 PHYS 412

Primary Cross-listing

We study all aspects of the Sun, our nearest star. This semester follows the total solar eclipses of August 21, 2017, whose totality crossed the U.S. from coast to coast, and the July 2, 2019, total solar eclipse that crossed Chile and Argentina. In addition to discussing our observations of these eclipses and what has been learned about the solar atmosphere from eclipse research, we discuss the solar interior (including the Nobel-prize-winning solar neutrino experiment and helioseismology), the photosphere, the chromosphere, the corona, and the solar wind. We discuss the Sun as an example of stars in general. We discuss both theoretical aspects and observational techniques, including work at recent total solar eclipses. We discuss results from current spacecraft, including the Solar and Heliospheric Observatory (SOHO), the Solar Dynamics Observatory, the Sun Watcher (SWAP), and Hinode (Sunrise), and the new GOES/UVSI (Solar Ultraviolet Imager) run by an alumnus as well as additional Total Solar Irradiance measurements from ACRIMSAT and SORCE. We will discuss the role of solar observations in confirming Einstein's General Theory of Relativity with the bending of light at the 1919, 1922, and 2017 total solar eclipses as well as gravitational redshift measurements in solar spectral lines, extending our discussion to the recent "chirp" of gravitational radiation reported from several colliding black holes and neutron stars observed with the Laser Interferometer Gravitational-wave Observatory (LIGO). We hope to observe the transit of Mercury across the face of the Sun on November 11, 2019, during the semester; we also discuss our data analysis of recent transits of Mercury we observed from the ground and from space (most recently in May 2016). We will highlight the 2004 and 2012 transits of Venus across the face of the Sun as observed from Earth, the first such transits of Venus since 1882, as well as our work in observing transits of Venus from Jupiter with the Hubble.

Requirements/Evaluation: biweekly tutorial presentations; biweekly response to colleagues' presentations

Prerequisites: ASTR 111 or a 200-level Physics course; or permission of the instructor

ASTR 499  (S) Physics and Astronomy Colloquium
Cross-listings: PHYS 499  ASTR 499
Secondary Cross-listing
Physicists and Astronomers from around the country come to explain their research. Students of Physics and Astronomy at any level are welcome. Registration is not necessary to attend. A non-credit course.
Class Format: colloquium
Requirements/Evaluation: not a for-credit course
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: none
Grading: non-graded
Unit Notes: registration not necessary to attend
Distributions: No divisional credit
This course is cross-listed and the prefixes carry the following divisional credit:
Winter Study

ASTR 31 (W) Senior Research: Astronomy
To be taken by students registered for Astronomy 493, 494.
Grading: pass/fail only

ASTR 32 (W) Senior Research: Astrophysics
Cross-listings: ASTR 32 PHYS 32
Primary Cross-listing
To be taken by students registered for Astrophysics 495, 496.
Class Format: independent study
Grading: pass/fail only
This course is cross-listed and the prefixes carry the following divisional credit:
ASTR 32 PHYS 32

ASTR 99 (W) Independent Study: Astronomy or Astrophysics
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Grading: pass/fail only

Not offered current academic year
Biochemistry and molecular biology are dynamic fields that lie at the forefront of science. Through elucidation of the structure and function of biologically important molecules (such as nucleic acids, lipids, proteins, and carbohydrates) these disciplines have provided important insights and advances in the fields of molecular engineering (recombinant DNA technology, “intelligent” drug design, “in vitro evolution”), genomics and proteomics, signal transduction, immunology, developmental biology, and evolution.

The Biochemistry and Molecular Biology Program is designed to provide students with an opportunity to explore living systems in molecular terms. Biochemistry and molecular biology are at the interface between the chemical and biological methods of looking at nature; therefore, the program draws heavily from these disciplines. While chemistry is concerned with the relationship between molecular structure and reactions, and biology focuses on cells and organisms, biochemistry and molecular biology probe the details of the structures and interactions of molecules in living systems in order to provide the foundation for a better understanding of biological molecules both individually and as members of more complex structures.

Program

While aspects of biochemistry and molecular biology can be very diverse, a common set of chemical and biological principles underlie the more advanced topics. With this in mind, the program has been structured to provide the necessary background in chemistry and biology and the opportunity to study the many facets of the modern areas of the biochemical sciences. Students interested in the Biochemistry and Molecular Biology Program should plan their course selection carefully. Since it is expected that Biochemistry 321 and 322 would be taken in the junior year, students are advised to take the prerequisites for those courses in both chemistry and biology during their first two years at Williams. While the program is open to all students, it is expected that it will appeal primarily to majors in biology and chemistry because of the number of courses required in those fields. In addition to taking the required courses, students planning to complete the Biochemistry and Molecular Biology Program are strongly encouraged to elect courses in mathematics and physics.

The following interdepartmental courses serve as the core of the Biochemistry and Molecular Biology Program. BIMO 321 and 322 provide a comprehensive introduction to biochemistry. BIMO 401, the capstone course for the concentration, provides students the opportunity to examine the current scientific literature in a wide variety of BIMO-related research areas.

To complete the concentration in Biochemistry and Molecular Biology, a student must complete all of the required courses listed below, take at least one elective in biology and one elective in chemistry from the list below, and attend at least eight Biology and/or Chemistry Department colloquia. Since the Chemistry Department counts two biology courses and the Biology Department counts two chemistry courses toward the majors (each of which can be completed with only eight other courses), a student majoring in either chemistry or biology would have to take only two or three additional courses to complete the program.

Required Courses
BIMO 321 / BIOL 321 / CHEM 321 (F, S) Biochemistry I: Structure and Function of Biological Molecules
   Taught by: Amy Gehring, Katie Hart
   Catalog details

BIMO 322 / BIOL 322 / CHEM 322 (S) Biochemistry II: Metabolism
   Taught by: Cynthia Holland
   Catalog details

BIMO 401 T (S) Topics in Biochemistry and Molecular Biology
   Taught by: Amy Gehring
   Catalog details

Biology Courses

BIOL 101 (F) The Cell
   Taught by: Daniel Lynch, Damian Turner, Cynthia Holland, Lois Banta
   Catalog details

BIOL 102 (S) The Organism
   Taught by: Robert Savage, Heather Williams
   Catalog details

BIOL 202 (F) Genetics
   Taught by: Luana Maroja
   Catalog details

Chemistry Courses

CHEM 151 (F) Introductory Chemistry
   Taught by: Katie Hart, Sarah Goh
   Catalog details

CHEM 153 (F) Concepts of Chemistry
   Taught by: Bob Rawle, Lee Park
   Catalog details

CHEM 155 (F) Principles of Modern Chemistry
   Taught by: Enrique Peacock-López
   Catalog details

CHEM 156 (S) Organic Chemistry: Introductory Level
   Taught by: Sarah Goh, Kerry Ann Green
   Catalog details

CHEM 251 (F) Organic Chemistry: Intermediate Level
   Taught by: Sarah Goh, Jenna MacIntyre, Thomas Smith, Amanda Turek
   Catalog details

CHEM 256 (S) Advanced Chemical Concepts
   Taught by: John Thoman
   Catalog details

Elective Courses

   Students can check with the program chair to see if other courses not listed here might count as electives.

BIOL 305 (S) Evolution
   Taught by: Luana Maroja
   Catalog details

BIOL 308 Integrative Plant Biology: Fundamentals and New Frontiers
   Taught by: Claire Ting
   Catalog details

BIOL 312 / NSCI 312 (F) Sensory Biology
   Taught by: Heather Williams
   Catalog details

BIOL 313 (S) Immunology
   Taught by: Damian Turner
   Catalog details

BIOL 315 Microbiology: Diversity, Cellular Physiology, and Interactions
   Taught by: Lois Banta
   Catalog details

BIOL 319 / CHEM 319 / CSCI 319 / MATH 319 / PHYS 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab
   Taught by: Lois Banta
   Catalog details

BIOL 326 (F) Cellular Assembly and Movement
   Taught by: Pei-Wen Chen
   Catalog details

BIOL 407 / NSCI 347 Neurobiology of Emotion
   Taught by: TBA
   Catalog details

BIOL 410 (S) Nanomachines in Living Systems
   Taught by: TBA
   Catalog details
Colloquium Requirement

Concentrators must attend at least eight Biology and/or Chemistry Department colloquia. The Biology and Chemistry Departments hold colloquia on Friday afternoons during the fall and spring semesters. Scientists from other academic or research institutions are invited to present their research to students and faculty. There are approximately a dozen colloquia offered each semester among which BIMO concentrators may choose. Attendance at the honors student research presentations and the Biology/BIMO Alumni Reunion poster session also count toward the colloquium requirement. Concentrators may receive credit for colloquia attended during any of their semesters at Williams College.

BIMO 321  (F)(S) Biochemistry I: Structure and Function of Biological Molecules  (QFR)

Cross-listings:  BIMO 321  BIOL 321  CHEM 321

Primary Cross-listing

This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules.
Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

**Class Format:** Synchronous lectures (2x 75-minute meetings per week) and labs, two hours per week. Enrollment in the appropriate laboratory section is required for both in-person and remote students.

**Requirements/Evaluation:** Quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports

**Prerequisites:** BIOL 101 and CHEM 251/255 and CHEM 155/256

**Enrollment Limit:** 7/lab

**Enrollment Preferences:** junior and senior Biology and Chemistry majors and BIMO concentrators

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

**Distributions:** (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

**Quantitative/Formal Reasoning Notes:** This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

Fall 2020

LAB Section: 02    T 1:00 pm - 3:00 pm    Amy Gehring
LAB Section: 03    W 3:30 pm - 5:30 pm    Jenna L. MacIntire
LAB Section: 04    R 1:00 pm - 3:00 pm    Jenna L. MacIntire
LAB Section: 06    R 3:30 pm - 5:30 pm    Jenna L. MacIntire
LEC Section: H1    MWF 11:45 am - 1:00 pm    Amy Gehring
LAB Section: R5    R 1:00 pm - 3:00 pm    Amy Gehring

Spring 2021

LAB Section: 02    M 1:00 pm - 3:00 pm    Katie M. Hart
LEC Section: H1    TR 9:45 am - 11:00 am    Katie M. Hart
LAB Section: R3    M 3:30 pm - 5:30 pm    Katie M. Hart

**BIMO 322 (S) Biochemistry II: Metabolism** (QFR)

**Cross-listings:** BIOL 322 CHEM 322 BIMO 322

**Primary Cross-listing**

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

**Class Format:** Lecture three hours per week and laboratory two hours per week. There will be one entirely in-person section of 24 students and one remote section. The in-person lab sections can accommodate 40 in-person students (8 per section), and there will be a remote lab section.

**Requirements/Evaluation:** several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data
Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit: 24/Lecture

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 48

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
BIOL 322 (D3) CHEM 322 (D3) BIMO 322 (D3)

Quantitative/Formal Reasoning Notes: The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

Spring 2021
LEC Section: 01 TR 9:45 am - 11:00 am Cynthia K. Holland
LAB Section: 03 T 1:00 pm - 3:00 pm Janis E. Bravo
LAB Section: 04 T 3:30 pm - 5:30 pm Janis E. Bravo
LAB Section: 05 W 1:00 pm - 3:00 pm Janis E. Bravo
LAB Section: 06 W 3:30 pm - 5:30 pm Janis E. Bravo
LAB Section: 08 R 3:30 pm - 5:30 pm Janis E. Bravo
LEC Section: R2 TR 11:30 am - 12:45 pm Cynthia K. Holland
LAB Section: R7 R 1:00 pm - 3:00 pm Janis E. Bravo, Cynthia K. Holland

BIMO 401 (S) Topics in Biochemistry and Molecular Biology (WS)
This tutorial course involves critical reading, analysis, and discussion of papers from the current biochemistry and molecular biology literature. Specific topics vary from year to year but are chosen to illustrate the importance of a wide range of both biological and chemical approaches to addressing important questions in the biochemical and molecular biological fields. To facilitate discussion, students will prepare written critiques analyzing the data and conclusions of the chosen literature.

Class Format: two hours per week

Requirements/Evaluation: biweekly papers, tutorial presentation and discussion, and a final paper

Prerequisites: BIOL 202 and BIMO 321

Enrollment Limit: 12

Enrollment Preferences: those completing the BIMO program; open to others with permission of instructor

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

Writing Skills Notes: The critical analysis of published papers in the biochem literature, as expressed in clear and succinct writing, is a key learning goal for the course. The students write biweekly literature critiques (typically 5-6 pages long) throughout the semester. While the specific topic each week differs, the parameters of the assignment are the same each time, allowing students to progressively improve their writing. I provide extensive written feedback on each critique, returned before the next due date

Spring 2021
TUT Section: HT1 TBA Amy Gehring

Winter Study ---------------------------------------------

BIMO 99 (W) Independent Study: Biochemistry and Molecular Biology
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

*Not offered current academic year*
Bioinformatics, genomics, and proteomics are rapidly advancing fields that integrate the tools and knowledge from biology, chemistry, computer science, mathematics, physics, and statistics in research at the intersection of the biological and informational sciences. Inspired by the enormous amount of biological data that are being generated from the sequencing of genomes, these new fields will help us pose and answer biological questions that have long been considered too complex to address. Research in genomics, proteomics, and bioinformatics will also significantly impact society affecting medicine, culture, economics, and politics.

The Bioinformatics, Genomics, and Proteomics curriculum involves faculty from the Biology, Chemistry, Computer Science, Mathematics/Statistics, and Physics departments and was designed to provide students with an understanding of these revolutionary new areas of investigation. The introductory level courses, Computation and Biology and Statistics for Biologists are accessible to all students interested in gaining familiarity with the power of genomic analysis. Students interested in graduate work in bioinformatics, genomics, and proteomics should take the core courses and five of the recommended courses. Interested students are also encouraged to participate in independent research with members of the advisory faculty as they explore the development of these new fields.

**BIGP Courses**

**BIMO 321 (F)(S) Biochemistry I: Structure and Function of Biological Molecules (QFR)**

**Cross-listings:** BIMO 321 BIOL 321 CHEM 321

BIOL 202  (F)  Genetics  (QFR)

Genetics, classically defined as the study of heredity, has evolved into a discipline whose limits are continually expanded by innovative molecular technologies. This course covers the experimental basis for our current understanding of the inheritance, structures, and functions of genes. It introduces approaches used by contemporary geneticists and molecular biologists to explore questions in areas of biology ranging from evolution to medicine. The laboratory part of the course provides an experimental introduction to modern genetic analysis. Laboratory experiments include linkage analysis, bacterial transformation with plasmids and DNA restriction mapping. This COVID year we will have in-person lectures and labs. Furthermore all students will have access to recorded lectures, notes, slides and handouts. For remote students, lab reports will also be required (writing and data analysis). Remote students will be able to collect data for some of the labs or otherwise will have access to class data for analyses.

Class Format: six hours per week

Requirements/Evaluation:  bi-weekly problem sets, weekly laboratory exercises and laboratory reports, and examinations

Prerequisites:  BIOL 101 and 102

Enrollment Limit:  60

Enrollment Preferences:  Students planning on Biology major

Expected Class Size:  60

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major

Distributions:  (D3)  (QFR)

Quantative/Formal Reasoning Notes:  This course has a large quantitative component, mainly probabilities and basic statistics. Lab reports and data analyses are a large component of the grade.

Fall 2020

LAB Section: 06    W 1:00 pm - 3:00 pm     Derek  Dean
LAB Section: 05    T 1:00 pm - 3:00 pm     Derek  Dean
LAB Section: 04    M 1:00 pm - 3:00 pm     Derek  Dean
This course offers a critical analysis of contemporary concepts in biological evolution. We focus on the relation of evolutionary mechanisms (e.g., selection, drift, and migration) to long term evolutionary patterns (e.g., evolutionary innovations, origin of major groups, and adaptation). Topics include micro-evolutionary models, natural and sexual selection, speciation, the inference of evolutionary history, evolutionary medicine among others.

Requirements/Evaluation: independent research project, problem sets, participation in discussions and exams

Prerequisites: BIOL 202

Enrollment Limit: 22

Enrollment Preferences: Seniors and biology majors

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: We will use mathematical models to study population genetics.

Spring 2021

LEC Section: H1    MWF 10:40 am - 11:30 am     Luana S. Maroja
LAB Section: H2    W 1:00 pm - 3:00 pm     Luana S. Maroja
LAB Section: H3    R 1:00 pm - 3:00 pm     Luana S. Maroja

BIOL 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319  CHEM 319  BIOL 319  PHYS 319  CSCI 319

Primary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with
permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

SEM Section: 01  TR 9:45 am - 11:00 am  Lois M. Banta
SEM Section: R2  MW 6:45 pm - 8:00 pm  Lois M. Banta

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
BIOL 322 (D3) CHEM 322 (D3) BIMO 322 (D3)

Quantitative/Formal Reasoning Notes: The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

BIOL 430 (S) Genome Sciences: At the Cutting Edge (WS)
Research in genomics has integrated and revolutionized the field of biology, including areas of medicine, plant biology, microbiology, and evolutionary biology. Moreover, recent developments in “metagenomics” (genomic studies of entire communities of microorganisms in natural environments, such as the mammalian gut and the deep sea) and “metatranscriptomics” (studies of genome wide changes in expression and mRNA levels in natural communities of organisms) have generated unprecedented knowledge about the genomic potential of a community and the in situ biological activity of different ecological niches. In this course we will explore how research in these and related areas, including proteomics, have advanced our fundamental understanding of (1) organisms in the three domains of life, and their interactions and evolutionary relationships; (2) biological systems and environments, such as the human body, extreme environments, and the oceans; (3) strategies for solving global challenges in medicine, agriculture, energy resources, and environmental sciences. During the course, students will meet each week for one hour with a tutorial partner and the instructor. Every other week, students will present a written and oral critical analysis of the assigned research articles. On alternate weeks, students will question/critique the work of their colleague.

Requirements/Evaluation: five (4-5 page) papers, tutorial presentations, and the student's effectiveness as a critic

Prerequisites: BIOL 202

Enrollment Limit: 10

Enrollment Preferences: open to juniors and seniors; senior Biology majors who have not taken a 400-level course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: BIMO, BIGP; does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (WS)

Writing Skills Notes: Weekly written assignments consisting of four-page critique papers (five total during a semester) and two-page response papers (five total during a semester). Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

CHEM 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)
This course is cross-listed and the prefixes carry the following divisional credit:
MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

CHEM 321  (F)(S)  Biochemistry I: Structure and Function of Biological Molecules  (QFR)
Cross-listings:  BIMO 321  BIOL 321  CHEM 321

Secondary Cross-listing
This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

Class Format: Synchronous lectures (2x 75-minute meetings per week) and labs, two hours per week. Enrollment in the appropriate laboratory section is required for both in-person and remote students.

Requirements/Evaluation: Quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports

Prerequisites:  BIOL 101 and CHEM 251/255 and CHEM 155/256

Enrollment Limit:  7/lab

Enrollment Preferences:  junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size:  14

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

Quantitative/Formal Reasoning Notes:  This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

Fall 2020
LAB Section: 04    R 1:00 pm - 3:00 pm     Jenna L. MacIntire
LAB Section: R5    R 1:00 pm - 3:00 pm     Amy Gehring
LEC Section: H1    MWF 11:45 am - 1:00 pm     Amy Gehring

LAB Section: 06    R 3:30 pm - 5:30 pm     Jenna L. MacIntire

Spring 2021
LEC Section: H1    TR 9:45 am - 11:00 am     Katie M. Hart
CHEM 322 (S) Biochemistry II: Metabolism (QFR)

Cross-listings: BIOL 322 CHEM 322 BIMO 322

Secondary Cross-listing

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: Lecture three hours per week and laboratory two hours per week. There will be one entirely in-person section of 24 students and one remote section. The in-person lab sections can accommodate 40 in-person students (8 per section), and there will be a remote lab section.

Requirements/Evaluation: several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data

Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit: 24/Lecture

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 48

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 322 (D3) CHEM 322 (D3) BIMO 322 (D3)

Quantitative/Formal Reasoning Notes: The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.
**Prerequisites:** none, except for the standard prerequisites for a (QFR) course; previous programming experience is not required

**Enrollment Limit:** 30(10/lab)

**Enrollment Preferences:** if the course is over-enrolled, enrollment will be determined by lottery

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** students with prior experience with object-oriented programming should discuss appropriate course placement with members of the department

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** This course include regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.

**CSCI 136 (F)(S) Data Structures and Advanced Programming** (QFR)

This course builds on the programming skills acquired in Computer Science 134. It couples work on program design, analysis, and verification with an introduction to the study of data structures. Data structures capture common ways in which to store and manipulate data, and they are important in the construction of sophisticated computer programs. Students are introduced to some of the most important and frequently used data structures: lists, stacks, queues, trees, hash tables, graphs, and files. Students will be expected to write several programs, ranging from very short programs to more elaborate systems. Emphasis will be placed on the development of clear, modular programs that are easy to read, debug, verify, analyze, and modify.

**Class Format:** Lecture content will be through asynchronously viewed video modules. Three scheduled (MWF) course sections will be used for synchronous conference meetings. Two sections will be in-person and one will be remote. There will be 5 scheduled weekly lab sections that will be remote. Students should sign up for the lecture section, one conference, and one lab.

**Requirements/Evaluation:** programming and written assignments, quizzes, examinations

**Prerequisites:** CSCI 134 or equivalent; fulfilling the Discrete Mathematics Proficiency requirement is recommended, but not required

**Enrollment Limit:** 60(12/lab)

**Enrollment Preferences:** if the course is over-enrolled, enrollment will be determined by lottery

**Expected Class Size:** 60

**Grading:** yes pass/fail option, no fifth course option
Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course include regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.

PHYS 302 (S) Statistical Mechanics & Thermodynamics (QFR)

Macrosopic objects are made up of huge numbers of fundamental particles interacting in simple ways—obeying the Schrödinger equation, Newton's and Coulomb's Laws—and these objects can be described by macroscopic properties like temperature, pressure, magnetization, heat capacity, conductivity, etc. In this course we will develop the tools of statistical physics, which will allow us to predict the cooperative phenomena that emerge in large ensembles of interacting particles. We will apply those tools to a wide variety of physical questions, including the behavior of gases, polymers, heat engines, biological and astrophysical systems, magnets, and electrons in solids.

Class Format: lecture/discussion three hours per week and weekly laboratory work
**Requirements/Evaluation:** weekly problem sets, exams, and labs, all of which have a substantial quantitative component

**Prerequisites:** required: PHYS 201, PHYS/MATH 210 or MATH 309; recommended: PHYS 202, PHYS 301

**Enrollment Limit:** 10 per lab

**Enrollment Preferences:** the in crowd

**Expected Class Size:** 10 per lab

**Grading:** yes pass/fail option, yes fifth course option

**STAT 101 (F)(S) Elementary Statistics and Data Analysis** (QFR)

It is impossible to be an informed citizen in the world today without an understanding of data and information. Whether opinion polls, unemployment rates, salary differences between men and women, the efficacy of vaccines or consumer webdata, we need to be able to separate the signal from the noise. We will learn the statistical methods used to analyze and interpret data from a wide variety of sources. The goal of the course is to help reach conclusions and make informed decisions based on data.

**Class Format:** Hybrid format with both synchronous and asynchronous elements.

**Requirements/Evaluation:** quizzes and exams and course project

**Prerequisites:** MATH 102 (or demonstrated proficiency on a diagnostic test)

**Enrollment Limit:** 25

**Enrollment Preferences:** sophomores, juniors, and seniors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** students with MATH130 but no statistics should enroll in STAT161; students with MATH150 but no statistics should enroll in STAT201. Students with AP Stat 4/5 or STAT 101/161/201 should enroll in STAT 202 (if no calc background) or 302 (MATH140 prereq).

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** It is a quantitative course.

Fall 2020

LEC Section: H2 MWF 9:20 am - 10:10 am Shaoyang Ning
LEC Section: H1 MWF 8:00 am - 8:50 am Shaoyang Ning

Spring 2021

LEC Section: H1 MWF 12:00 pm - 12:50 pm Shaoyang Ning
STAT 201 (F)(S) Statistics and Data Analysis  (QFR)
Statistics can be viewed as the art and science of turning data into information. Real world decision-making, whether in business or science is often based on data and the perceived information it contains. Sherlock Holmes, when prematurely asked the merits of a case by Dr. Watson, snapped back, “Data, data, data! I can’t make bricks without clay.” In this course, we will study the basic methods by which statisticians attempt to extract information from data. These will include many of the standard tools of statistical inference such as hypothesis testing, confidence intervals, and linear regression as well as exploratory and graphical data analysis techniques. This is an accelerated introductory statistics course that involves computational programming and incorporates modern statistical techniques.

Class Format: Hybrid format
Requirements/Evaluation: weekly homework; quizzes and exams
Prerequisites: MATH 150 or equivalent; not open to students who have completed STAT 101 or STAT 161 or equivalent
Enrollment Limit: 25
Enrollment Preferences: Prospective Statistics majors, students for whom the course is a major prerequisite, and seniors
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Unit Notes: Students with AP Stat 4/5 or STAT 101/161 should enroll in STAT 202 (if no calc background) or 302 (MATH 140 prereq). Students with no calc or stats background should enroll in STAT 101. Students with MATH 140 but no statistics should enroll in STAT 161.
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: Students will learn to interpret, choose, carry out, and communicate analyses of data.

Fall 2020
LEC Section: R2  WF 1:30 pm - 2:45 pm  Elizabeth M. Upton
LEC Section: R1  MR 3:15 pm - 4:30 pm  Anna M. Plantinga

Spring 2021
LEC Section: H2  MWF 8:00 am - 8:50 am  Anna M. Plantinga
LEC Section: R1  MWF 11:45 am - 1:00 pm  Richard D. De Veaux

STAT 410 (F) Statistical Genetics  (QFR)
Genetic studies explore patterns of genetic variation in populations and the effect of genes on diseases or traits. This course provides an introduction to statistical and computational methods for genetic studies. Topics will include Mendelian traits (such as single nucleotide polymorphisms), genome-wide association studies, pathway-based analysis, and methods for population genetics. Students will be introduced to some of the major computational tools for genetic analysis, including PLINK and R/Bioconductor. The necessary background in genetics and biology will be provided alongside the statistical and computational methods.

Requirements/Evaluation: project work, homework, exams, and contribution to discussion
Prerequisites: STAT 346 and STAT 360, or permission of instructor
Enrollment Limit: 14
Enrollment Preferences: Statistics majors, juniors and seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This is a statistics class with a focus on mathematical, computational, and data analysis skills as well as appropriate practical application of analysis methods.

Not offered current academic year
The Biology curriculum has been designed to provide students with a broad base for understanding principles governing life processes at all levels, from biochemistry and cell biology to physiology to ecology and behavior. Courses emphasize fundamentals common to all sub-disciplines including the coupling of structure to function, the transfer of energy in living systems, communication, and the molding of diversity by the evolutionary process. In upper-level courses and in independent and honors research, students have the opportunity to investigate areas at the frontiers of modern biology.

Although the Biology major is specifically designed to provide a balanced curriculum in the broader context of the liberal arts, it is also excellent preparation for graduate studies in the life sciences and in the health professions.

**MAJOR REQUIREMENTS**

In order to make the major accessible to students with diverse interests, required courses are kept to a minimum. The Biology major is satisfied by nine courses, as follows:

- Biology 101 The Cell
- Biology 102 The Organism
- Biology 202 Genetics
Any two 300-level courses, each of which must have a laboratory associated with it

Any one 400-level course other than 493-494

Any other three courses or any other two courses and two semesters of Organic Chemistry

**Note:** Independent study courses and AMS 311 (Same as Biology 231) do not fulfill the 300-level or 400-level course requirements. WIOX 316 Biology: Evolution, in the Williams Oxford Program qualifies for major credit at the 200-level.

**Distribution Requirement**

In order to ensure that majors broaden their knowledge of biology, one of the elective courses for the major must include an upper-level course covering biological processes at levels of organization above the cell. Courses that satisfy this distribution requirement are indicated in the individual course description.

**COURSE SELECTION AND PLACEMENT**

It is preferable for students who plan to major in biology, or think they may be interested in doing so, to take Biology 101, 102 during their first year at Williams. It is also possible to begin the Biology major during the sophomore year, although students should understand that it may require taking two or more biology courses during several semesters.

Students interested in biology, whether or not they intend to major in it, are encouraged to take Biology 101, 102. It is also possible, with permission of the instructor, to take Biology 203 Ecology, Biology 204 Animal Behavior and Biology 220 Field Botany without prerequisite. Other 100-level biology courses are designed specifically for students who do not intend to take additional upper-level courses in biology. All of these courses satisfy the Division III distribution requirement.

Beginning students should normally enroll in Biology 101 and 102. Students with unusually strong backgrounds in biology, such as those with outstanding performance on the College Board Biology Advanced Placement Test, may be permitted to elect a sophomore-level course in lieu of Biology 101 and/or Biology 102 upon successful completion of a departmental qualifying exam, administered during First Days.

**COURSES RELATED TO THE BIOLOGY MAJOR**

Students planning to pursue their interest in biology and related fields after completing their undergraduate degrees are strongly encouraged to take one year of chemistry, at least one semester of mathematics (a course in statistics is recommended), and one semester of physics. Students may wish to check the requirements for graduate admission at relevant universities, and are also encouraged to consult with the Biology Department’s graduate school advisor about prerequisites for admission to graduate programs.

**BIOCHEMISTRY AND MOLECULAR BIOLOGY**

Students interested in Biochemistry and Molecular Biology (BIMO) should consult the general statement under Biochemistry and Molecular Biology.

**BIOINFORMATICS, GENOMICS AND PROTEOMICS**

Students interested in Bioinformatics, Genomics and Proteomics (BiGP) should consult the general statement under Bioinformatics, Genomics and Proteomics. Biology majors interested in this field are strongly encouraged to enroll in Integrative Bioinformatics, Genomics, and Proteomics (Biology 319).

**NEUROSCIENCE**

Students interested in Neuroscience (NSCI) should consult the general statement under Neuroscience.

**PUBLIC HEALTH**

Students interested in Public Health (PH) should consult the general statement under Public Health.

**ENVIRONMENTAL STUDIES**

Students interested in Environmental Studies (ENVI) should consult with Biology faculty members associated with the program and the general statement under Environmental Studies.

**THE DEGREE WITH HONORS IN BIOLOGY**

In order to be recommended for the degree with honors, a Biology major is normally expected to have completed the equivalent of two semesters and a winter study (031) of independent research culminating in a thesis which demonstrates outstanding achievement of an original and innovative nature. Although the presentation of a thesis and associated oral presentation in the fall and poster defense in the spring are required for consideration for a degree with honors, their completion should not be interpreted as a guarantee of a degree with honors. The principal considerations in admitting a student to the program of independent honors research will be mastery of fundamental material and skills, ability to pursue independent study successfully, and demonstrated interest and motivation. Students interested in participating in the honors program should consult with the department early in the spring semester of the junior year; approval must be received before spring registration in the junior year. The number of Biology
Department faculty available to mentor research students and the number of students each can accommodate in her/his lab vary from year to year. Although the department will make every effort to provide an opportunity for students to conduct Honors research, you should be aware that it may not be possible to assign all applicants to a laboratory.

The minimum course requirements for a degree with honors in Biology are Biology 101, Biology 102, Biology 202, two 300-level biology courses (each of which must have a laboratory associated with it), one 400-level biology course, Biology 493, Biology 494, WSP 031, and any other two courses in biology (or any other one course and two semesters of Organic Chemistry). Note: A student who has a double major cannot count any course twice. For example, if a student is a Biology and Chemistry major, Organic Chemistry can only be counted in one of the two majors.

In addition to the normal honors route, which includes two semesters (Biology 493-494) and a winter study of research (WSP 031) during senior year, students have the option, subject to the approval of their thesis advisor, to begin the honors research during winter study junior year or during the second semester junior year. In general, thesis students who start during WSP or spring semester of their junior year are working on a project that requires winter or spring field work. Students beginning honors in winter study of junior year would take Biology 494 in the spring of their junior year followed by Biology 493 in the fall of their senior year; students beginning honors during the second semester of junior year would take Biology 494 that semester, followed by Biology 493 in the fall of senior year and winter study research in the winter of the senior year.

STUDY ABROAD

Students planning on majoring in Biology are strongly advised to take Biology 202 before going abroad, since Biology 202 is required for the major and is a prerequisite for many upper-level courses; a Genetics course taken while studying away cannot substitute for Biology 202. Biology majors studying abroad may receive credit toward the major for at most two 200-level electives; the departmental distribution requirement can be satisfied through an appropriate course taken during study abroad. Students should meet with the Department's study abroad advisor to discuss study abroad options.

FAQ

**Can your department or program typically pre-approve courses for major/concentration credit?**

Yes, in many cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department. We usually want to see a syllabus.

**What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?**

Course title and description, ideally complete syllabus including readings/assignments.

**Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?**

Yes. Only two of the nine major course credits can be taken somewhere other than Williams.

**Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?**

Yes. Courses taken for major credit anywhere other than Williams will only count as 200-level credit, regardless of the level or format of the course.

**Are there specific major requirements that cannot be fulfilled while on study away?**

Yes. BIOL 202 Genetics, 300-level lab courses, and 400-level senior seminar.

**Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)**

Yes. Genetics is only offered in the fall. Those late to the major need to be aware of this as Genetics is a prerequisite for most upper division courses.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

Courses that are focused on clinical areas of study, and courses in environmental studies that focus on policy or sociology rather than biology, would not be granted credit in biology.

CREDIT FOR COURSES AT OTHER INSTITUTIONS

Students who enroll in study away programs may receive credit for up to two 200-level electives towards the biology major. Courses must be pre-approved by the Biology Department Study Away Advisor.

Students wishing to satisfy prerequisites for courses offered by the Biology Department with courses taken at other institutions should consult, in person, with a member of the Biology Department, prior to registering for the course that requires a prerequisite. Such consultations will include a
RESEARCH AND THESIS COURSES

Individual research projects must be approved by the department. Application should be made to the department prior to spring registration.

Note: Senior thesis and independent study courses do not count as 300-level or 400-level course requirements for the major. Only one research course (i.e., BIOL 297, BIOL 298, BIOL 493, or BIOL 494) may be counted towards the major requirements.

BIOL 101  (F)  The Cell

This course investigates cell structure and function as a consequence of evolutionary processes, and it stresses the dynamic properties of living systems. Topics include an introduction to biological molecules and enzyme action, membrane structure and function, energy exchange and design of metabolic systems, expression of genetic information, cell signaling, cell trafficking, the cell cycle, and cancer. Student-designed laboratory experiments and discussions based on primary biology literature will highlight how biological knowledge is created and understood.

Class Format: In-person sections (Lynch and Holland): lecture, 3 hours per week and laboratory/discussion, 2 hours per week. Remote section (Turner): Pre-recorded lectures and 3 online meetings per week. Laboratory/discussion, 2 hours per week.

Requirements/Evaluation: hour tests, a final exam, lab reports, discussion assignments, and discussion participation

Prerequisites: none

Enrollment Limit: 30/Lecture

Enrollment Preferences: first-year students

Expected Class Size: 120

Grading: no pass/fail option, no fifth course option

Distributions: (D3)
BIOL 102 (S) The Organism
This course focuses upon the developmental and evolutionary processes that have given rise to a wide diversity of multicellular organisms. We consider many levels of biological organization, from molecular and cellular to individuals and populations in our examination of evolutionary concepts. Topics include meiosis and sexual reproduction, developmental and evolutionary mechanisms, and speciation with representative examples from a diversity of plants and animals. Readings are drawn from a variety of sources, including the recent primary literature.

Requirements/Evaluation: hour tests, a final exam and laboratory reports
Prerequisites: BIOL 101 or permission of instructor
Enrollment Limit: none
Enrollment Preferences: none
Expected Class Size: 152
Grading: no pass/fail option, yes fifth course option
Distributions: (D3)

Spring 2021
LEC Section: 01 MWF 9:20 am - 10:10 am Robert M. Savage
LEC Section: 02 MWF 10:40 am - 11:30 am Robert M. Savage
LEC Section: 03 TR 9:45 am - 11:00 am Heather Williams
LAB Section: 05 M 1:00 pm - 3:00 pm Derek Dean
LAB Section: 06 T 1:00 pm - 3:00 pm Derek Dean
LAB Section: 07 W 1:00 pm - 3:00 pm Derek Dean

LAB Section: R9 MW 6:45 pm - 8:00 pm Derek Dean

BIOL 133 (F) Biology of Exercise and Nutrition
This class, intended for the non-scientist, focuses on the impact of exercise and nutrition on the human body. We will discuss topics such as how different types of training influence exercise performance; the changes that occur in the cardiovascular system during an exercise routine; the inherent limits of the body to perform aerobic and anaerobic tasks; and the long-term health consequences of a lifetime of activity of inactivity. We will also examine how nutrition and metabolism affect body composition. For example, we will rigorously and scientifically scrutinize the use of "fad" diets as a means to lose weight.

Class Format: three hours per week
Requirements/Evaluation: exams and bi-weekly laboratory exercises and laboratory report
Prerequisites: none
Enrollment Limit: 90
Enrollment Preferences: seniors, juniors, sophomores, then first-year students
Expected Class Size: 90
Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3)

Not offered current academic year

BIOL 135 (F) Evolution as Fact and Theory

This course examines evolution as a science and its current and historical importance. Lectures focus on the evidence for evolution, the main evolutionary forces (natural selection and others) and the diversification processes that generate biodiversity. We will also explore recent evolutionary trends and discussions such as human evolution, heritability, personalized genomics, antibiotic and pesticide resistance, climate change, and the conflict between creationists and evolutionists. Includes a trip to the American Museum of Natural History in NYC.

Requirements/Evaluation: exams, panel discussion, short papers and participation

Enrollment Limit: 60

Expected Class Size: 60

Grading: yes pass/fail option, yes fifth course option

Unit Notes: may not be taken as credit towards the Biology major; not open to students who took BIOL 305

Distributions: (D3)

Not offered current academic year

BIOL 154 (F) The Tropics: Biology and Social Issues (DPE)

Cross-listings: BIOL 154 ENVI 154

Primary Cross-listing

This course counts towards the Biology major but is also accessible to non-majors. It explores the biological dimensions of social issues in tropical societies, and focuses specifically on the peoples of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to human ecology, evolution, and physiology. The course highlights differences between the tropics and areas at higher latitudes. It begins with a survey of the tropical environment, including major climatic and habitat features. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria, AIDS and Covid-19 (SARS-CoV-2). The final part of the course covers the place of human societies in local and global ecosystems including the challenges of tropical food production and the interaction of humans with their supporting ecological environment. This course fulfills the DPE requirement. Through lectures, debates and readings, students confront social issues and policies from the perspective of biologists. This builds a framework for lifelong exploration of human diversity in terms of difference, power and equity.

Class Format: Debate

Requirements/Evaluation: two hour exams, a short paper, debate presentation, and a final exam

Prerequisites: none

Enrollment Limit: 24

Enrollment Preferences: Preference will be given to biology majors, environmental studies majors and students who were previously dropped from the course.

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Unit Notes: Counts for credit in the Biology major. Satisfies the distribution requirement for the Biology major.

Distributions: (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 154 (D3) ENVI 154 (D3)

Difference, Power, and Equity Notes: This course highlights differences between the tropics and areas at higher latitudes. For each section we focus on difference—different natural habitats and biodiversity, different patterns of population growth, different human disease profiles, different types of agriculture and impacts of climate change. For each section we highlight differences in power and the inequities of resource distribution. We then debate potential policies to ameliorate these inequities.
BIOL 165 (F) Coral Reefs: Ecology, Threats, & Conservation

Cross-listings: BIOL 165 MAST 265 ENVI 265

Secondary Cross-listing

Coral reefs are a fascinating ecosystem found throughout the world's tropical oceans. Corals can thrive in nutrient-poor oceans because of the mutualistic relationship with algal symbionts. And as a foundational species, corals provide a habitat for numerous species, possibly the highest diversity found on the planet. However, these complex and beautiful ecosystems are declining worldwide from a variety of local and global threats. In this course, we will explore coral reef ecology through an in-depth examination of the biotic and abiotic factors contributing to the ecosystem's functioning. We will also investigate the causes and consequences of threats to coral reefs, such as ocean warming, ocean acidification, and resource extraction. Finally, we will identify the many efforts worldwide to conserve coral reefs and promote their resilience. In this seminar course, offered remotely, you will demonstrate your proficiency through knowledge assessments, short writing reflections, a virtual coral fragmentation experiment, and a creative advocacy project. This course aims to deepen your awareness of the complex species interactions on coral reefs and the physical factors affecting coral survival while fostering hope through current conservation efforts.

Class Format: Remote, including Zoom seminar meetings twice a week

Requirements/Evaluation: Four 1-paragraph discussion board post, One 20-question knowledge assessment (quiz), Three 2-page writing reflections, One lab results and discussion write-up 2-3 pages figures included, and a creative (medium is student choice) advocacy project.

Prerequisites: none, open to all students

Enrollment Limit: 20

Enrollment Preferences: 1. First-Year, 2. Sophomores

Expected Class Size: 16

Grading: yes pass/fail option, yes fifth course option

Unit Notes: Does not count for Biology major credit.

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 165 (D3) MAST 265 (D2) ENVI 265 (D2)

BIOL 202 (F) Genetics (QFR)

Genetics, classically defined as the study of heredity, has evolved into a discipline whose limits are continually expanded by innovative molecular technologies. This course covers the experimental basis for our current understanding of the inheritance, structures, and functions of genes. It introduces approaches used by contemporary geneticists and molecular biologists to explore questions in areas of biology ranging from evolution to medicine. The laboratory part of the course provides an experimental introduction to modern genetic analysis. Laboratory experiments include linkage analysis, bacterial transformation with plasmids and DNA restriction mapping. This COVID year we will have in-person lectures and labs. Furthermore all students will have access to recorded lectures, notes, slides and handouts. For remote students, lab reports will also be required (writing and data analysis). Remote students will be able to collect data for some of the labs or otherwise will have access to class data for analyses.

Class Format: six hours per week

Requirements/Evaluation: bi-weekly problem sets, weekly laboratory exercises and laboratory reports, and examinations

Prerequisites: BIOL 101 and 102

Enrollment Limit: 60

Enrollment Preferences: Students planning on Biology major

Expected Class Size: 60

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major
Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course has a large quantitative component, mainly probabilities and basic statistics. Lab reports and data analyses are a large component of the grade.

Fall 2020

LAB Section: 04  M 1:00 pm - 3:00 pm  Derek Dean
LAB Section: 05  T 1:00 pm - 3:00 pm  Derek Dean
LAB Section: 06  W 1:00 pm - 3:00 pm  Derek Dean
LAB Section: 07  R 1:00 pm - 3:00 pm  Derek Dean
LAB Section: 08  M 3:30 pm - 5:30 pm  Derek Dean
LAB Section: 09  T 3:30 pm - 5:30 pm  Derek Dean
LAB Section: 10  W 3:30 pm - 5:30 pm  Derek Dean
LAB Section: 11  R 3:30 pm - 5:30 pm  Derek Dean
LEC Section: H1  MWF 10:40 am - 11:30 am  Luana S. Maroja
LEC Section: H2  MWF 12:00 pm - 12:50 pm  Luana S. Maroja
LAB Section: R3  MW 6:45 pm - 8:00 pm  Derek Dean

BIOL 203  (F) Ecology  (QFR)

Cross-listings: ENVI 203  BIOL 203

Primary Cross-listing

This course combines lectures with field and indoor laboratory exercises to explore factors that determine the distribution and abundance of plants and animals in natural systems. The course begins with an overall view of global patterns and then builds from the population to the ecosystem level. An emphasis is given to basic ecological principles and relates them to current environmental issues. Selected topics include population dynamics (competition, predation, mutualism); community interactions (succession, food chains and diversity) and ecosystem function (biogeochemical cycles, energy flow). In Fall 2020, the course will use a hybrid model, with recorded lecture material available to all students. In person and remote class meetings will focus on problem sets and interactive case studies. Labs will be available in either in person or remote modalities. Remote participants will have the opportunity to collect their own data for some lab exercises, while in other cases will receive background information and media describing the data collection process. All students will be required to complete all data analyses and written lab reports.

Class Format: Six hours per week. All labs will be available in both remote and in-person modalities. All students (whether in person or remote) may choose their preferred modality for each lab module. Due to COVID-19 distancing requirements, some labs will require walking to field sites. The instructor will work with individual students to identify accommodations that support in person lab participation as needed.

Requirements/Evaluation: problem sets, lab reports, hour exams, and a final exam

Prerequisites: BIOL 101 and 102, or ENVI 101 or 102, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: students planning to pursue Biology and/or ENVI

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 203 (D3) BIOL 203 (D3)

Quantitative/Formal Reasoning Notes: Much of the material in this course centers on the interpretation and application of mathematical models used to describe ecological systems. The laboratory section of this course also contains a large data analysis component. Students are introduced to t-tests, Mann-Whitney U tests, chi-square analysis, and regression.
BIOL 204 (S) Animal Behavior
Making sense of what we see while watching animals closely is both an enthralling pastime and a discipline that draws on many aspects of biology. Explanations can be found on many levels: evolutionary theory tells us why certain patterns have come to exist, molecular biology can help us understand how those patterns are implemented, neuroscience gives insights as to how the world appears to the behaving animal, endocrinology provides information on how suites of behaviors are regulated. The first part of the course focuses upon how descriptive studies provide the basis for formulating questions about behavior as well as the statistical methods used to evaluate the answers to these questions. We then consider the behavior of individuals, both as it is mediated by biological mechanisms and as it appears from an evolutionary perspective. The second half of the course is primarily concerned with the behaviors of groups of animals from a wide variety of vertebrate and invertebrate species, concentrating upon the stimuli, responses, and internal mechanisms that maintain social systems and on the selection pressures that drive animals toward a particular social system.

Class Format: six hours per week
Requirements/Evaluation: examinations, lab reports, and a research paper
Prerequisites: BIOL 102, or PSYC 101, or permission of instructor
Enrollment Limit: 32
Enrollment Preferences: Biology majors and Neuroscience concentrators
Expected Class Size: 32
Grading: yes pass/fail option, no fifth course option
Unit Notes: satisfies the distribution requirement for the Biology major
Distributions: (D3)

Spring 2021

LEC Section: H1   TR 8:00 am - 9:15 am   Manuel A. Morales
LAB Section: H2   W 1:00 pm - 3:00 pm   Manuel A. Morales
LAB Section: H3   R 1:00 pm - 3:00 pm   Manuel A. Morales

BIOL 205 (S) Physiology
This lecture-based course examines principles, patterns, and mechanisms of biological function from the level of cells and tissues to the whole organism. The themes of the course include structure and function, mechanisms of regulation, control and integration, and adaptation to the environment. Examples of these themes are taken from a wide variety of organisms with a focus on vertebrates. Laboratories provide practical experience in measurement and experimental elucidation of physiological phenomena and functional analysis of gross structure.

Class Format: This COVID-19 year’s offering will feature in-person lectures and labs. Remote students will have access to lectures (either a synchronous video stream or an asynchronous video recording), handouts, and lab materials.
Requirements/Evaluation: Daily practice problems, midterm exams, laboratory exercises, and a final exam
Prerequisites: BIOL 101 and 102; open to first-year students with permission of the Biology department
Enrollment Limit: 60
Enrollment Preferences: Seniors, then juniors, then sophomores.
Expected Class Size: 60
Grading: no pass/fail option, no fifth course option
Unit Notes: satisfies the distribution requirement for the Biology major
Distributions: (D3)

Spring 2021
**BIOL 210  (F)  Mathematical Biology**  (QFR)

**Cross-listings:** BIOL 210  MATH 310

**Secondary Cross-listing**

This course will provide an introduction to the many ways in which mathematics can be used to understand, analyze, and predict biological dynamics. We will learn how to construct mathematical models that capture essential properties of biological processes while maintaining analytic tractability. Analytic techniques, such as stability and bifurcation analysis, will be introduced in the context of both continuous and discrete time models. Additionally, students will couple these analytic tools with numerical simulation to gain a more global picture of the biological dynamics. Possible biological applications include, but are not limited to, single and multi-species population dynamics, neural and biological oscillators, tumor cell growth, and infectious disease dynamics.

**Class Format:** Unless circumstances change, students will have the option of taking the course in person or remotely

**Requirements/Evaluation:** problem sets, quizzes/exams, participation, final project and paper

**Prerequisites:** MATH 250 and MATH 309, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** if over-enrolled, will have students submit reasons for taking class; preference to those with interest in both subjects

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3)  (QFR)

**This course is cross-listed and the prefixes carry the following divisional credit:**

BIOL 210  (D3)  MATH 310  (D3)

**Quantitative/Formal Reasoning Notes:** The course will introduce methods for developing and analyzing mathematical models.

---

**BIOL 211  (S)  Paleobiology**

**Cross-listings:** GEOS 212  BIOL 211

**Secondary Cross-listing**

The fossil record is a direct window into the history of life on Earth and contains a wealth of information on evolution, biodiversity, and climate change. This course investigates the record of ancient life forms, from single-celled algae to snails to dinosaurs. In addition to the intellectual discovery of fossils as organic relics and the ways in which fossils have been used to support conflicting views on nature, geologic time, and evolution, we will cover a range of topics central to modern paleobiology. These include: how the fossil record informs our understanding of evolutionary processes including speciation; the causes and consequences of mass extinctions; how fossils help us tell time and reconstruct the Earth’s climactic and tectonic history; statistical analysis of the fossil record to reconstruct biodiversity through time; analysis of fossil morphology to recreate the biomechanics of extinct organisms; and using fossil communities to reconstruct past ecosystems. Laboratory exercises will take advantage of Williams’ fossil collections as well as published datasets to provide a broad understanding of fossils and the methods we use to study the history of life on Earth, including using the programming language R (no previous experience is required). We will also view a diversity of fossils in their geologic and paleo-environmental context on our field trip to Eastern New York. This course is in the Sediments and Life group for the Geosciences major.

**Class Format:** field trip to the the Paleozoic of New York State

**Requirements/Evaluation:** lab assignments, short quizzes and writing assignments, and a final exam

**Prerequisites:** any 100-level GEOS course or BIOL 102, 203 or 205
Secondary Cross-listing

This course is designed to give an overview of the field of neuroscience progressing from a molecular level onwards to individual neurons, neural circuits, and ultimately regulated output behaviors of the nervous system. Topics include a survey of the structure and function of the nervous system, basic neurophysiology and neurochemistry, development, learning and memory, sensory and motor systems, and clinical disorders. Throughout the course, many examples from current research in neuroscience are used to illustrate the concepts being considered. The lab portion of the course will emphasize a) practical hands-on exercises that amplify the material presented in class; b) interpreting and analyzing data; c) presenting the results in written form and placing them in the context of published work; and d) reading and critiquing scientific papers. Lectures will be pre-recorded and shared asynchronously. Students will be divided into small groups (~6 students each) that will meet synchronously with the instructors once a week for 30 minutes to further discuss concepts covered in the lecture. These meetings will take place within the scheduled class period and be in either in-person or online formats. If in-person numbers are too low to populate a given discussion subgroup, then that group would meet via the previously described online format. The lab component will be available to remote students in modified form, and will cover much of the same content as the in-person sections. Evaluation will be based on participation in discussion groups, exercises, problem sets and quizzes performed in small groups, lab reports, two midterm exams, and a final exam.

Class Format: Lectures will be pre-recorded and shared asynchronously. Students will be divided into small groups that will meet synchronously with the instructors once a week for 30 minutes to further discuss concepts covered in the lecture. The lab component will be available to remote students in modified form, and will cover much of the same content as the in-person sections.

Requirements/Evaluation: Evaluation will be based on participation in discussion groups, exercises, problem sets and quizzes performed in small groups, lab reports, two midterm exams, and a final exam.

Prerequisites: PSYC 101 or BIOL 101; open to first-year students only with permission of instructor

Enrollment Limit: 36

Enrollment Preferences: sophomores and Biology and Psychology majors

Expected Class Size: 36

Grading: yes pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

LAB Section: 08  W 1:00 pm - 3:00 pm  Martha J. Marvin
Global reports of emerging infectious diseases and old diseases with new pathogenic properties incite fears for personal safety as well as national security. The specter of a contagious pandemic has captured the public imagination through the mass news media, movies, and even popular online and board games. In this tutorial course, we will explore the ecology and evolution of several recently emergent diseases such as Ebola hemorrhagic fever, dengue, and AIDS. Topics to be considered include transmission dynamics, epidemiological modeling of vaccination strategies, and wildlife reservoirs that contribute to human virus exposure. We will examine progress in preventing the parasitic disease malaria and why such diseases have proven so refractory. We will also discuss the science behind the recent development of the vaccine against the human papillomavirus, which causes cervical cancer, and the intriguing and highly unusual transmissible cancers in dogs and Tasmanian devils. Finally, we will think about the contributions of inadequate diagnostic capacities world-wide and broader issues of resource shortages in driving the global emergence of drug resistance in tuberculosis and other diseases. One common theme in each of these case studies will be the interplay between the host immune response and the evolution of the pathogen. Although the primary focus of the course is on biology rather than policy, each week’s readings will have implications for public health and/or conservation biology.

**Requirements/Evaluation:** six 4- to 5-page papers; tutorial presentations, and the student's progress towards intellectual independence and creativity as a presenter and a respondent

**Prerequisites:** BIOL 101 and 102

**Enrollment Limit:** 10

**Enrollment Preferences:** sophomores who have taken BIOL 202, students interested in public health

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**Writing Skills Notes:** We work deliberately throughout the semester on writing skills including construction of a written argument and logical flow as well as mechanics. Students write six 4-5-page papers, alternating weekly between papers and written critiques of their partner’s writing. Based on substantive feedback from the instructor as well as their partner, students revise and resubmit two of their six papers.
BIOL 222  (S) Essentials of Biochemistry  (QFR)
This course will explore the biochemistry of cellular processes and contextualize these processes in healthy and diseased states. Lecture topics in this one semester course will include the structure and function of proteins (enzymes and non-enzymatic proteins), lipids, and carbohydrates. Lectures will also survey the major metabolic pathways (carbohydrates, lipids, and amino acids) with particular attention to enzyme regulation and the integration of metabolism in different tissues and under different metabolic conditions. In the discussion/laboratory component of the course a combination of primary literature, hypothesis-driven exercises, problem solving, and bench work will be used to illustrate how particular techniques and experimental approaches are used in biochemical fields.

Class Format: in-person lecture and lab, synchronous lecture and asynchronous lab
Requirements/Evaluation: regular quizzes, final exam, writing assignments (including problem sets), and lab assignments
Prerequisites: BIOL 101 and CHEM 156; not open to students who have taken BIOL 321 or BIOL 322
Enrollment Limit: 18
Enrollment Preferences: seniors who need to fulfill the biochemistry requirement for premedical school
Expected Class Size: 18
Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the biology major in addition to either BIOL 321 or BIOL 322; cannot be counted towards the BIMO concentration

Distributions: (D3)  (QFR)
Quantative/Formal Reasoning Notes: The laboratory program is quantitative covering data analyses, numerical transformations, graphical displays.

Spring 2021
LEC Section: H1  TR 9:45 am - 11:00 am  Daniel V. Lynch
LAB Section: H2  W 1:00 pm - 3:00 pm  Daniel V. Lynch
LAB Section: H3  W 3:30 pm - 5:30 pm  Daniel V. Lynch
LAB Section: H4  R 1:00 pm - 3:00 pm  Daniel V. Lynch

BIOL 225  (F) Sustainable Food & Agriculture

Cross-listings: BIOL 225  ENVI 225

Primary Cross-listing
A tutorial course investigating patterns, processes, and stability in human-dominated, food production systems. The course will examine sustainable food and agriculture from an ecological perspective. Topics will include: changes in diversity, concentration, and scale, flows of energy, circulation (or not) of fertilizer nutrients, carbon balances in soils, and stability of food production, processing, and distribution ecosystems. A day-long field experience will take place on a local farm.

Requirements/Evaluation: writing assignments, tutorial presentation, performance in the role of paper critic, and course participation
Prerequisites: BIOL 102 or ENVI 102
Enrollment Limit: 10
Enrollment Preferences: open to sophomores, juniors, and seniors, with preference given to sophomores over juniors and seniors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
BIOL 231 (S) Marine Ecology

Cross-listings: MAST 311 BIOL 231

Secondary Cross-listing

Using the principles of evolutionary biology and experimental ecology, this course examines the processes that control the diversity, abundance and distribution of marine organisms. Major marine communities, including estuaries, the rocky shore, sandy beaches, salt marshes, coral reefs, and the deep sea are discussed in detail.

Class Format: including coastal and near-shore field trips, 10 days offshore, and a laboratory or field research project

Requirements/Evaluation: two tests, a research project, and a presentation

Prerequisites: BIOL 101 or GEOS/MAST 104, or permission of instructor

Grading: yes pass/fail option, yes fifth course option

Unit Notes: offered only at Mystic Seaport

Distributions: (D3)

Not offered current academic year

BIOL 234 (S) Biology of our Sexes: The Genetic and Epigenetic Regulation of Sex Determination

Many physical and behavioral characteristics that are associated with male and female anatomy, physiology, and behavior are initially the products of molecular choices arising from the action of our chromosomes in early development. The embryonic assignment of sex can also lead to intersex or hermaphroditic outcomes in many different organisms with extraordinary and illuminating biological effects. We will explore the molecular mechanisms and evolutionary basis of sex determination in both plants and animals, as well as the physical and behavioral expression of sex by the organism discussed, and experiments that create and characterize traits and behavior of mosaic/intersex organisms. Additionally, the epigenetic regulation of the X chromosome in mammals has a canonical role in our understanding of sex determination, but whole genome studies and investigations of autosomes and the Y chromosome have raised new layers of complexity for understanding the molecular basis of human sex and sexuality.

Requirements/Evaluation: six 5-page papers; six 1-page response papers; tutorial presentations; discussion skills/investment

Prerequisites: BIOL 202 (Genetics), or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: sophomores and juniors, with preference to Biology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)

Not offered current academic year

BIOL 297 (F) Independent Study: Biology

Biology 200-level independent study. Each student carries out independent field or laboratory research under the supervision of a member of the department.

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3)

Fall 2020
BIOL 298 (S) Independent Study: Biology
Biology 200-level independent study. Each student carries out independent field or laboratory research under the supervision of a member of the department.

Grading: no pass/fail option, yes fifth course option

Distributions: (D3)

Spring 2021

IND Section: H1   TBA   Lois M. Banta

BIOL 302 (F) Communities and Ecosystems (QFR)

Cross-listings: BIOL 302 ENVI 312

Primary Cross-listing
An advanced ecology course that examines how species interact with each other and their environment and how communities are assembled. This course emphasizes phenomena that emerge in complex ecological systems, building on the fundamental concepts of population biology, community ecology, and ecosystem science. This foundation will be used to understand specific topics relevant to conservation including invisibility and the functional significance of diversity for ecosystem stability and processes. Lectures and labs will explore how to characterize the emergent properties of communities and ecosystems, and how theoretical, comparative, and experimental approaches are used to understand their structure and function. The lab component of this course will emphasize hypothesis-oriented field experiments as well as "big-data" analyses using existing data sets. The laboratory component of the course will culminate with a self-designed independent or group project.

Class Format: six hours per week

Requirements/Evaluation: lab reports, a midterm exam, a term project presentation, and a final project paper

Prerequisites: BIOL/ENVI 203 or 220

Enrollment Limit: 28

Enrollment Preferences: Biology majors and Environmental Studies majors and concentrators

Expected Class Size: 24

Grading: yes pass/fail option, yes fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
BIOL 302 (D3) ENVI 312 (D3)

Not offered current academic year

BIOL 305 (S) Evolution (QFR)
This course offers a critical analysis of contemporary concepts in biological evolution. We focus on the relation of evolutionary mechanisms (e.g., selection, drift, and migration) to long term evolutionary patterns (e.g., evolutionary innovations, origin of major groups, and adaptation). Topics include micro-evolutionary models, natural and sexual selection, speciation, the inference of evolutionary history, evolutionary medicine among others.

Requirements/Evaluation: independent research project, problem sets, participation in discussions and exams

Prerequisites: BIOL 202

Enrollment Limit: 22

Enrollment Preferences: Seniors and biology majors

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major
BIOL 308  (F)  Integrative Plant Biology: Fundamentals and New Frontiers

Plants are one of the most successful groups of organisms on Earth and have a profound impact on all life. Successful use of plants in addressing global problems and understanding their role in natural ecosystems depends on fundamental knowledge of the molecular mechanisms by which they grow, develop, and respond to their environment. This course will examine the molecular physiology of plants using an integrative approach that considers plants as dynamic, functional units in their environment. Major emphasis will be on understanding fundamental plant processes, such as photosynthesis, growth and development, water transport, hormone physiology, and flowering, from the molecular to the organismal level. Environmental effects on these processes will be addressed in topics including photomorphogenesis, stress physiology, mineral nutrition, and plant-microbe interactions. Discussions of original research papers will examine the mechanisms plants use to perform these processes and explore advances in the genetic engineering of plants for agricultural, environmental, and medical purposes. Laboratory activities stress modern approaches and techniques used in investigating plant physiological processes.

Class Format: six hours per week
Requirements/Evaluation: lab reports, a term paper, and exams
Prerequisites: BIOL 202 or permission of instructor
Enrollment Limit: 24
Enrollment Preferences: Biology majors
Expected Class Size: 24
Grading: no pass/fail option, yes fifth course option
Unit Notes: satisfies the distribution requirement for the Biology major
Distributions: (D3)
Not offered current academic year

BIOL 311  (F)  Neural Systems and Circuits

Cross-listings: BIOL 311  NSCI 311
Primary Cross-listing

This course will examine the functional organization of the mammalian brain, emphasizing both neuroanatomy and neurophysiology. How do specific populations of neurons and their connections encode sensory information, form perceptions of the external and internal environment, make cognitive decisions, and execute movements? How does the brain produce feelings of reward/motivation and aversion/pain? How does the nervous system regulate homeostatic functions such as sleep, food intake, and thirst? We will explore these questions using a holistic, integrative approach, considering molecular/cellular mechanisms, physiological characterizations of neurons, and connectivity among brain systems. Journal article discussions will complement course topics, providing experience in reading, understanding, and critiquing primary research papers. Writing an original literature review article will provide experience in expository writing and anonymous peer review. Laboratory sessions will provide experience in examining macroscopic and microscopic neural structures, as well as performing experiments to elucidate the structure and function of neural systems using classical and cutting-edge techniques.

Class Format: In Fall 2020, this course will be offered in a hybrid format, with in-person experiences for students on campus, as well as the ability to complete discussions/labs remotely. Exact details to be announced prior to the first day of the course.
Requirements/Evaluation: Class participation, completion of labs, literature review assignment, hour exams, a final exam
Prerequisites: BIOL 212 (same as PSYC 212 or NSCI 201) or BIOL 205
Enrollment Limit: 12
Enrollment Preferences: Biology majors and Neuroscience concentrators
BIOL 312 (F) Sensory Biology

Cross-listings: NSCI 312 BIOL 312

**Primary Cross-listing**

How do animals sense properties of the physical world? How do they convert physical or chemical energy to a signal within a cell that carries information? How is that information represented? What are the limits on what can be sensed? We will look for answers to these questions by investigating the molecular and cellular mechanisms of sensory transduction, and how these mechanisms constrain the types of information that the nervous system encodes and processes. We will also ask how natural selection shapes the type of sensory information that animals extract from the world, and what adaptations allow some species to have "special" senses. Some of the examples we will consider are: bat echolocation (hair cells in the ear), detecting visual motion (amacrine cells in the mammalian retina), the constant reshaping of the olfactory system (chemical mapping of odors), what makes a touch stimulus noxious, and enhanced color vision (in birds, bees, and shrimp). This course will be "flipped", with readings and on-line presentations to be done before class and in-class time devoted to short quizzes, additional explanations of the material, and discussions of the primary literature. Laboratory exercises will focus on the nematode C. elegans, an important model system, to explore and extend how we understand touch, temperature sensation, and chemosensation.

**Class Format:** Prior to each class, students will do assigned readings and view on-line presentations of material. The "lecture" hours will be used to complete short quizzes (~5 minutes), go over concepts and experiments that require elaboration, answer questions, and discuss assigned papers from the primary literature. The lab program will have 5 pre-designed labs; the remainder of the semester will be devoted to independent projects.

**Requirements/Evaluation:** Four take-home exams, an independent research project (proposal, followed by results/discussion), presentation about a non-standard sensory system, short quizzes, lab and class participation.

**Prerequisites:** Either BIOL 212 or BIOL 205

**Enrollment Limit:** 12

**Enrollment Preferences:** Preference to senior Biology majors who need a 300-level course; then to senior Neuroscience concentrators who need a Bio elective; then to Biology majors. Not open to students who have taken Biology 213.

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** Does not satisfy the distribution requirement for the Biology major

**Distributions:** (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

NSCI 312 (D3) BIOL 312 (D3)

BIOL 313 (S) Immunology
The rapidly evolving field of immunology examines the complex network of interacting molecules and cells that function to recognize and respond to agents foreign to the individual. In this course, we will focus on the biochemical mechanisms that act to regulate the development and function of the immune system and how alterations in different system components can cause disease. Textbook readings will be supplemented with current literature.

Class Format: Video lectures with in class discussions. Laboratory two hours a week
Requirements/Evaluation: exams, laboratory reports, and a research paper
Prerequisites: BIOL 202
Enrollment Limit: 12
Enrollment Preferences: senior and then junior Biology majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Unit Notes: does not satisfy the distribution requirement for the Biology major
Distributions: (D3)

BIOL 315 (S) Microbiology: Diversity, Cellular Physiology, and Interactions
Bioterrorism and the alarming spread of antibiotic resistant bacteria are but two of the reasons for the resurgence of interest in the biology of microorganisms. This course will examine microbes from the perspectives of cell structure and function, genomics, and evolution. A central theme will be the adaptation of bacteria as they evolve to fill specific ecological niches, with an emphasis on microbe: host interactions that lead to pathogenesis. We will consider communication among bacteria as well as between bacteria and their environment. Topics include: microbial development, population dynamics, metagenomics, bioremediation, plant and animal defenses against infection, and bacterial strategies to subvert the immune system. In the lab, major projects will focus on the mammalian gut microbiome and the isolation and characterization of bacteria from natural environments. The lab experience will culminate in multi-week independent investigations. Readings will be comprised primarily of articles from the primary literature.

Class Format: lectures three hours a wee and laboratory three hours a week
Requirements/Evaluation: three exams/writing assignments, responses to thought questions on readings, a lab report/notebook, and an oral presentation
Prerequisites: BIOL 202
Enrollment Limit: 24
Enrollment Preferences: senior and then junior Biology majors
Expected Class Size: 24
Grading: no pass/fail option, no fifth course option
Unit Notes: does not satisfy the distribution requirement for the Biology major
Distributions: (D3)

Not offered current academic year

BIOL 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)
Cross-listings: MATH 319 CHEM 319 BIOL 319 PHY 319 CSCI 319
Primary Cross-listing
What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science,
mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high throughput approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

Spring 2021

BIOL 321  (F)(S)  Biochemistry I: Structure and Function of Biological Molecules  (QFR)

Cross-listings: BIMO 321  BIOL 321  CHEM 321

Secondary Cross-listing

This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

Class Format: Synchronous lectures (2x 75-minute meetings per week) and labs, two hours per week. Enrollment in the appropriate laboratory section is required for both in-person and remote students.

Requirements/Evaluation: Quizzes, a midterm exam, a final exam, problem sets and performance in the laboratories including lab reports

Prerequisites: BIOL 101 and CHEM 251/255 and CHEM 155/256

Enrollment Limit: 7/lab
Enrollment Preferences:  junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size:  14

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIMO 321 (D3) BIOL 321 (D3) CHEM 321 (D3)

Quantitative/Formal Reasoning Notes:  This course fulfills the QFR requirement with regular problem sets in which quantitative/formal reasoning skills are practiced.

BIOL 322  (S)  Biochemistry II: Metabolism  (QFR)

Cross-listings:  BIOL 322  CHEM 322  BIMO 322

Secondary Cross-listing

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: Lecture three hours per week and laboratory two hours per week. There will be one entirely in-person section of 24 students and one remote section. The in-person lab sections can accommodate 40 in-person students (8 per section), and there will be a remote lab section.

Requirements/Evaluation:  several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data

Prerequisites:  BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit:  24/Lecture

Enrollment Preferences:  junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size:  48

Grading:  no pass/fail option,  no fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions:  (D3)  (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 326  (F) Cellular Assembly and Movement

This course will focus on how multi-protein complexes are assembled to control key cellular processes in eukaryotic systems: 1) protein sorting and trafficking, 2) establishment and maintenance of cell architecture, and 3) mitosis, cell migration and tissue morphogenesis that require coordination of the membrane transport and cytoskeleton. The course will highlight involvement of these processes in pathological conditions. Laboratories will use mammalian tissue culture as a model system to study cellular functions. Important techniques in cell biology will be introduced in the first half of the semester; in the second half of the term, students will conduct a multi-week independent project. Textbook readings will be supplemented with primary literature.

Class Format: This hybrid course will have a combination of in-person and pre-recorded lectures, and laboratory, three hours a week; the laboratory projects will require additional time outside of class hours. The in-person lectures will be recorded for remote students. Class time will be devoted to a mix of lecture and discussion of articles. Remote students will join discussion sessions and participate in lab via Zoom.

Requirements/Evaluation: three exams, in-class discussion of papers, lab reports, an oral presentation and research paper based on an independent lab research project

Prerequisites:  BIOL 202

Enrollment Limit:  12

Enrollment Preferences:  senior and junior Biology majors

Expected Class Size:  12

Grading:  no pass/fail option,  yes fifth course option

Unit Notes:  does not satisfy the distribution requirement for the Biology major

BIOL 329  (F) Conservation Biology  (QFR)

Cross-listings:  ENVI 339  BIOL 329

Primary Cross-listing

This course examines the application of population genetics, population ecology, community ecology, and systematics to the conservation of biological diversity. The overarching theme of the course is on the role of stochastic processes for small populations. Lecture/discussion topics will include extinction, the genetics of small populations, metapopulations, and importantly, conservation strategies. Labs will include a mixture of computer and lab projects.

Class Format: lecture and discussion, 3 hours per week; lab, 1.25 hours per week. students will be assigned to a lab section (block AA - either W or F from 1:30-2:45) during the first week of class.

Requirements/Evaluation:  Evaluation will be based on lab assignments, two exams, discussion participation, and an independent project

Prerequisites:  BIOL 203/ENVI 203, or BIOL 305, or permission of instructor
**Enrollment Limit:** 12  
**Enrollment Preferences:** Biology majors, seniors, and juniors  
**Expected Class Size:** 12  
**Grading:** yes pass/fail option, yes fifth course option  
**Unit Notes:** Satisfies the distribution requirement for the Biology major  
**Distributions:** (D3) (QFR)  

**This course is cross-listed and the prefixes carry the following divisional credit:**  
ENVI 339 (D3) BIOL 329 (D3)  

**Quantitative/Formal Reasoning Notes:** This course uses quantitative and statistical analyses in both the laboratory and lecture portion of the course. In lectures mathematical models will be covered to understand conservation dynamics. In lab, students will collect and analyze data and present results in graphical and statistical forms.

**Fall 2020**

LEC Section: H1  TR 8:00 am - 9:15 am  Manuel A. Morales  
LAB Section: H2  WF 1:30 pm - 2:45 pm  Manuel A. Morales

**BIOL 330 (S) Genomes: Structure, Function, Evolution**

Biologists have only recently learned to read the complete genome sequence of organisms. Figuring out how to interpret these "texts" is now the focus of much of contemporary research in molecular biology and genetics. This course will concentrate on the origin, function, and evolution of central features of eukaryotic genomes, including gene structure, genome size, repeated sequences, and the complexity of gene regulation. Students will develop the ability to evaluate the contribution of neutral and adaptive processes in shaping genome complexity through: (1) critical evaluation of the primary research literature, (2) investigation of genome structural variation using wet-lab approaches and publically available genomic data, and (3) an original research project.

**Class Format:** lectures three hours a week and laboratory three hours a week; the laboratory projects will require occasional time outside of class hours

**Requirements/Evaluation:** three exams, written responses and in-class discussion of papers, two laboratory reports, and oral presentation of an independent laboratory project

**Prerequisites:** BIOL 202

**Enrollment Limit:** 24  
**Enrollment Preferences:** Biology majors  
**Expected Class Size:** 24  
**Grading:** no pass/fail option, no fifth course option  
**Distributions:** (D3)

Not offered current academic year

**BIOL 335 (S) Chronobiology**

Internal clocks control nearly all aspects of physiology and behavior and allow organisms to anticipate the dramatic environmental changes between day and night. In this course we will focus on the organization of internal clocks at the molecular, organ and physiological levels. We will explore how internal rhythms are synchronized with the environment and the means by which clocks drive physiological rhythms. Subsequently, we will investigate how endogenous clocks help organisms cope with rhythmic changes in our environment, and how disruption of our internal rhythms compromises health and wellbeing. Lectures and student presentations will alternate with discussions of primary literature. Laboratory sessions will explore the characteristics of the circadian system in mice and will require time outside the normal laboratory hours for independent projects.

**Requirements/Evaluation:** Evaluation will be based on three exams, two or three oral presentations, and a lab report.

**Prerequisites:** BIOL 205 or BIOL 212/NSCI201

**Enrollment Limit:** 18  
**Enrollment Preferences:** Senior, then junior biology majors and NSCI concentrators
Expected Class Size: 18  
Grading:  no pass/fail option,  yes fifth course option  
Distributions:  (D3)

BIOL 402 (S) Rapid Evolution in Ecology  
Darwin believed that evolution was a slow process. Until recently, the impact of evolutionary changes on short-term ecological studies was considered to be minimal. However, empirical documentation of rapid, directly observed evolution has changed this view and has led to an increased focus on the joint dynamics of evolution and ecology including community genetics, niche construction, and evolutionary rescue. In this course, we first focus on the literature presenting the evidence for rapid evolutionary change in natural and experimental populations. Then, we explore the consequences of rapid evolutionary change for our understanding of population, community, and ecosystem ecology including the impacts that evolutionary changes have for conservation efforts and predicting the response of organisms to global environmental and climate change.

Requirements/Evaluation:  participation in discussions, several short papers and presentations  
Prerequisites:  BIOL 202  
Enrollment Limit:  12  
Enrollment Preferences:  Biology seniors who have not yet taken a 400-level course  
Expected Class Size:  12  
Grading:  no pass/fail option,  no fifth course option  
Unit Notes:  satisfies the distribution requirement for the Biology major  
Distributions:  (D3)  
Not offered current academic year

BIOL 407 (S) Neurobiology of Emotion  
Cross-listings:  BIOL 407  NSCI 347  
Primary Cross-listing  
Emotion is influenced and governed by a number of neural circuits and substrates, and emotional states can be influenced by experience, memory, cognition, and many external stimuli. We will read and discuss articles about mammalian neuroanatomy associated with emotion as defined by classic lesion studies, pharmacology, electrophysiology, fMRI imaging, knockout mouse studies, as well as new opti-genetic methods for investigating neural circuit function in order to gain an understanding of the central circuits and neurotransmitter systems that are implicated in emotional processing and mood disorders.

Class Format:  three hours per week  
Requirements/Evaluation:  class participation and several short papers  
Prerequisites:  BIOL 202 and 212; open to juniors and seniors  
Enrollment Limit:  12  
Enrollment Preferences:  senior Biology majors who have not taken a 400-level Biology course; then to eligible NSCI concentrators  
Expected Class Size:  12  
Grading:  yes pass/fail option,  yes fifth course option  
Unit Notes:  does not satisfy the distribution requirement for the Biology major  
Distributions:  (D3)  
This course is cross-listed and the prefixes carry the following divisional credit:  
BIOL 407 (D3) NSCI 347 (D3)  
Not offered current academic year
BIOL 410 (S) Nanomachines in Living Systems

Through reading and discussing the primary literature, this course will explore how nanometer-sized biological molecules like proteins perform functions that require integration of information and transmission of force at much larger scales, microns and above. These nanoscale proteins will be considered as nanomachines that can transform a chemical energy into a mechanical one. We will focus on the cytoskeleton, which gives cells their shape, organizes the internal parts of cells and provides mechanical support for essential cellular processes like cell division and movement. An emphasis will be placed on how the biochemical properties of actin, actin-binding proteins and motors are used to generate mechanical force necessary for the respective biological function. Topics will include some controversial and emerging hypotheses in the field: sliding versus depolymerizing hypotheses for constriction of the contractile ring in cytokinesis, roles of cytoskeleton in pathogen entry and propagation, organelle dynamics, polarity establishment in cell migration, immunological synapse and neuronal function.

Class Format: The course will have two sections: one is in-person and the other is remote. In-person discussion or via ZOOM, three hours per week

Requirements/Evaluation: class participation and several short papers

Prerequisites: BIOL 202; open to juniors and seniors

Enrollment Limit: 20

Enrollment Preferences: senior Biology majors who have not taken a 400-level course, then juniors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3)

BIOL 411 (F) Developmental Biology: From Patterning to Pathogenesis

A small number of developmental regulators coordinate the interplay between cell proliferation and specification of cell fates during animal development. The genetic basis of many of the cancer and degenerative diseases are, in fact, due to these same developmental regulators whose expression is misregulated in the adult. Through the reading of primary literature, this course in developmental biology will examine the mechanisms of gene expression of key regulators, the biological processes they mediate in the embryo, and how they become misregulated in proliferative and degenerative diseases.

Requirements/Evaluation: bi-weekly tutorial papers, oral commentaries, and tutorial discussion

Prerequisites: BIOL 202

Enrollment Limit: 14

Enrollment Preferences: Senior Biology majors who have not taken a 400-level course followed by seniors then juniors in the major

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D3)

Fall 2020

BIOL 412 (S) Neural and Hormonal Basis of Hunger

Cross-listings: BIOL 412  NSCI 342

Primary Cross-listing

Hunger and satiety are highly regulated behavioral states that maintain energy homeostasis in animals. This course will focus on readings from the primary literature to track numerous recent advances in how the brain and endocrine systems regulate appetite. Topics include how organ systems
communicate with the brain to regulate appetite, how different populations of neurons in the brain interact to regulate appetite, how brain systems that regulate appetite affect other behaviors, and how the neural and hormonal basis of hunger compare with brain systems that regulate other homeostatic systems such as thirst. By tracing the advances in appetite regulation within the past decade, we will also trace the advent of cutting-edge molecular, genetic, and optical-based tools that are transforming multiple fields within physiology and neuroscience. Students in this class will have the opportunity to improve skills in written and oral scientific presentation.

Requirements/Evaluation: written assignments, oral presentations, and participation

Prerequisites: BIOL 205 or BIOL/PSYC 212, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: seniors who have not taken a 400-level course

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 412 (D3) NSCI 342 (D3)

Not offered current academic year

BIOL 413 (F) Global Change Ecology

Cross-listings: ENVI 423 BIOL 413

Primary Cross-listing

Plants and animals are increasingly faced with rapid environmental change driven by human activities across the globe. How do they cope with challenges imposed by climate change, altered nutrient cycling, biological invasions, and increased urbanization? What are the impacts of organismal responses at the population and community level? This course uses an integrative approach to understand the impacts of global change at multiple levels of biological organization in both aquatic and terrestrial environments. We examine how global-scale environmental changes affect the distribution and abundance of species and alter community organization. We also consider the physiological and behavioural mechanisms underlying species responses and the role of acclimation versus adaptation in coping with rapid environmental change. Finally, we learn the analytical tools used to predict future responses to global change. Class discussions will focus on readings drawn from the primary literature.

Class Format: two 75-minute discussion sessions each week

Requirements/Evaluation: class participation and several short papers

Prerequisites: BIOL 203 or BIOL 305, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: senior Biology majors who have not yet taken a 400-level course

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 414 (S) Life at Extremes: Molecular Mechanisms

All organisms face variability in their environments, and the molecular and cellular responses to stresses induced by environmental change often illuminate otherwise hidden facets of normal physiology. Moreover, many organisms have evolved unique molecular mechanisms, such as novel cellular compounds or macromolecular structural modifications, which contribute to their ability to survive continuous exposure to extreme conditions, such as high temperatures or low pH. This course will examine how chaperonins, proteases, and heat- and cold-shock proteins are regulated in response to changes in the external environment. We will then consider how these and other molecular mechanisms function to stabilize DNA and proteins- and, ultimately, cells and organisms. Other extreme environments, such as hydrothermal vents on the ocean floor, snow fields, hypersaline
lakes, the intertidal zone, and acid springs provide further examples of cellular and molecular responses to extreme conditions. Biotechnological applications of these molecular mechanisms in areas such as protein engineering will also be considered. Class discussions will focus upon readings from the primary literature.

**Class Format:** discussion three hours per week

**Requirements/Evaluation:** class participation and several short papers

**Prerequisites:** BIOL 202; open to juniors and seniors

**Enrollment Limit:** 12

**Enrollment Preferences:** senior Biology majors who have not taken a 400-level course; then juniors

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major

**Distributions:** (D3)

**BIOL 418 (S) Signal Transduction to Cancer**

Division of normal cells is a highly regulated process based on input from both intrinsic and extrinsic signals. The cell’s response to its environment affects all aspects of cell behavior: proliferation, death, differentiation and migration. The goal of the course is to understand the molecular mechanisms of signal transduction that guide normal cell behavior and how disruptions in this process can lead to cancer. We will focus on the Hedgehog-Gli signaling pathway that is activated in 30% of all known cancers. Genetic studies will serve as an introduction to the components of the pathway, followed by an examination of the molecular mechanisms of signal reception, transduction of intracellular information, scaffolding and transcriptional targets. The final section of the course will investigate how high throughput screens, medicinal chemistry studies and mouse models are used to identify small molecular inhibitors of pathway components. We will consider the effectiveness of these inhibitors in pharmacological studies, clinical trials and potential cancer treatments.

**Requirements/Evaluation:** four papers

**Prerequisites:** BIOL 202 or permission of instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** senior and then junior Biology majors

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** does not satisfy the distribution requirement for the Biology major

**Distributions:** (D3)

Not offered current academic year

---

**BIOL 419 (S) Secrets of Enzymes: Fidelity, Promiscuity, and Disease**

Living organisms have spent the past 4 billion years evolving proteins and enzymes that perform basic cellular functions to support life. Over time, duplications and mutations of these enzymes have led to novel reactions, pathways, and chemistries. To gain an appreciation for these molecular catalysts, we will start by considering how enzymes are synthesized, how errors are introduced and corrected, and how proteins are degraded. We will then analyze the effects of beneficial errors on the evolution of new function and the effects of undesirable errors in human disease. The final section of this course will focus on how enzymes such as CRISPR/Cas9 act as ‘molecular scissors’ to cut DNA and how these enzymes can be used to correct errors. We will explore the implications of this field in active areas of biomedical research, including antibiotic resistance and personalized medicine. Discussions and writing assignments will focus on reading and critiquing the scientific literature.

**Class Format:** discussion three hours per week

**Requirements/Evaluation:** four 4- to 5-page papers and participation in discussions

**Prerequisites:** BIOL 202 required; recommended BIOL 222 or BIOL 321

**Enrollment Limit:** 12

**Enrollment Preferences:** senior Biology majors who have not taken a 400-level course, then juniors

**Expected Class Size:** 12
BIOL 421 (F) Thermoregulation: From Molecules to Organisms

Thermal physiology involves the study of molecular events, organ systems, and organism-environmental interactions that are involved with heat production and temperature maintenance. The area of thermal physiology has been around for over 100 years. However, only in the last 5-7 years has the science progressed to understanding basic fundamental mechanisms for generating and regulating heat production. This tutorial will focus on four questions: 1) how do organisms generate heat? 2) how do organisms sense the temperature in the environment? 3) how do organisms integrate information about the environment (temperature, humidity, time of day, etc.) with internal information (deep body temperature, energy stores, etc.) to regulate their metabolic production of heat? 4) how do animals make "the decision" to enter a state of torpor?

Requirements/Evaluation: five 4- to 5-page papers; five 1- to 2-page response papers; tutorial presentations; contribution to the intellectual enterprise

Prerequisites: BIOL 205 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: senior Biology majors that have not had a 400-level course, followed by senior Biology majors, followed by junior Biology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3)

Not offered current academic year

BIOL 422 (F) Ecology of Sustainable Agriculture

A seminar/field course investigating patterns, processes, and concepts of stability in human-dominated, food production ecosystems. As a capstone course, the course will draw upon the experiences that students have had in biology and environmental studies courses. Topics will include: the relationships among diversity, ecosystem function, sustainability, resilience, and stability of food production, distribution systems, nutrient pools and processing in human dominated ecosystems. Two extensive field trips will be taken to agricultural operations in the region. Each student will present a seminar on a topic requiring extensive reading of primary resources and is responsible for leading the discussion that ensues. Reading question paper assignments will be due prior to the seminar. Criticism paper assignments will be made at approximately bi-weekly intervals and due two days after the seminar to which they relate.

Class Format: two 75 minute sessions per week

Requirements/Evaluation: writing assignments, seminar presentation, and course participation

Prerequisites: BIOL/ENVI 203 or BIOL 302 or permission of instructor

Enrollment Limit: 16

Enrollment Preferences: senior Biology and Environmental Studies Majors and Environmental Studies Concentrators; then Junior majors/concentrators, then seniors, then juniors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: satisfies the distribution requirement for the Biology major

Distributions: (D3)

Not offered current academic year

BIOL 428 (S) Forests of the Future--Understanding Global Change through 'Big Science' Experiments

Increases in atmospheric CO2 and warming temperatures associated with global climate change affect the growth and physiology of plants and microorganisms and the cycling and storage of carbon and nutrients within terrestrial ecosystems. These changes cross scale and encompass
complex feedbacks that are challenging to predict and understand. Over the past several decades, scientists have used large-scale global change experiments to depict the future of organisms and ecosystems in a CO2-enriched, warmer world. In this course, we will trace the progress of these experiments and evaluate our understanding of the effect of global changes on plant growth and physiology, microbial community composition and activity, and ecosystem nutrient cycling processes. We will then consider the interactive effects of multi-factor global changes and assess the promises and challenges of interpreting biological responses at the ecosystem level. Finally, we will investigate how experimental results can be integrated within models that describe and predict ecosystem function at a global scale. Throughout the course, we will consider how understanding gained from manipulative experiments can be used to inform and prioritize climate change mitigation strategies. Discussions and writing assignments will focus on reading and critiquing the scientific literature. Writing assignments will include two short writing assignments (3 pages each) and a final research proposal (6 pages), as well as formal written peer review. Students will gain experience revising scientific writing.

Requirements/Evaluation: Writing assignments will include two short writing assignments (3 pages each) and a final experimental/grant proposal (6 pages), as well as formal written peer review. Students will gain experience revising scientific writing.

Prerequisites: BIOL203 (Ecology) or BIOL302 (Communities and Ecosystems) or BIOL329 (Conservation Biology)

BIOL 430 (S) Genome Sciences: At the Cutting Edge (WS)

Research in genomics has integrated and revolutionized the field of biology, including areas of medicine, plant biology, microbiology, and evolutionary biology. Moreover, recent developments in “metagenomics” (genomic studies of entire communities of microorganisms in natural environments, such as the mammalian gut and the deep sea) and “metatranscriptomics” (studies of genome wide changes in expression and mRNA levels in natural communities of organisms) have generated unprecedented knowledge about the genomic potential of a community and the in situ biological activity of different ecological niches. In this course we will explore how research in these and related areas, including proteomics, have advanced our fundamental understanding of (1) organisms in the three domains of life, and their interactions and evolutionary relationships; (2) biological systems and environments, such as the human body, extreme environments, and the oceans; (3) strategies for solving global challenges in medicine, agriculture, energy resources, and environmental sciences. During the course, students will meet each week for one hour with a tutorial partner and the instructor. Every other week, students will present a written and oral critical analysis of the assigned research articles. On alternate weeks, students will question/critique the work of their colleague.

Requirements/Evaluation: five (4-5 page) papers, tutorial presentations, and the student's effectiveness as a critic

Prerequisites: BIOL 202

Enrollment Limit: 10

Enrollment Preferences: open to juniors and seniors; senior Biology majors who have not taken a 400-level course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: BIMO, BIQP; does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (WS)

Writing Skills Notes: Weekly written assignments consisting of four-page critique papers (five total during a semester) and two-page response papers (five total during a semester). Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

BIOL 432 (F) Evolutionary Genetics

The synthesis of evolutionary processes with the mechanistic understanding of genetics has lent insight into many mysteries of life. The goal of this course is to explore the interface between evolution and genetics to make sense of fundamental biological processes. For example, why do we expect
that male and female offspring occur in 50:50 ratios? How and why do unusual sex-ratios occur? Other topics include: conflict among genes, evolution of allelic dominance, adaptation at the molecular level, and genetics of speciation. Class discussion and written assignments will emphasize critical evaluation and synthesis of the scientific literature.

Requirements/Evaluation: class participation and several short papers
Prerequisites: BIOL 202; open to juniors and seniors
Enrollment Limit: 12
Enrollment Preferences: seniors who have not taken a 400 level course, then juniors and Biology majors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Unit Notes: satisfies the distribution requirement for the Biology major
Distributions: (D3)

BIOL 435  Causes of the obesity epidemic
The prevalence of a host of metabolic diseases has increased dramatically in recent decades. The causes underlying these increases remain hotly contested. During this course we will discuss primary literature to better understand the mechanisms by which our body regulates energy metabolism and how this is shaped by genetics and evolution. Subsequently, we will explore how our metabolic environment has been altered in modern society and try to figure out what mechanisms should be targeted to reverse the obesity epidemic.

Requirements/Evaluation: Evaluation will be based on four 4-5 page papers and class participation.
Prerequisites: BIOL 205 or Permission of Instructor.
Enrollment Limit: 12
Enrollment Preferences: Senior Biology majors who have not taken a 400-level course, then junior Biology majors.
Expected Class Size: 12
