Quantative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal
CHEM 153  (F)  Concepts of Chemistry  (QFR)
This course broadens and deepens the foundation in chemistry of students who have had typically one year of chemistry at the high school level. Most students begin study of chemistry at Williams with this course. Familiarity with stoichiometry, basic concepts of equilibria, and the model of an atom is expected. Principal topics for this course include kinetic theory of gases, modern atomic theory, molecular structure and bonding, states of matter, chemical equilibrium (acid-base and solubility), and an introduction to atomic and molecular spectroscopies. Laboratory periods will largely focus on experiment design, data analysis, literature, scientific writing, ethics, and other skills critical to students' development as scientists. There may also be the opportunity for some hands-on laboratory experience for students who are on-campus. The course is of interest to students who anticipate professional study in chemistry, related sciences, or one of the health professions, as well as to those who want to explore the fundamentals of chemistry as part of their general education. This course may be taken pass/fail; however, students who are considering graduate study in science or in the health professions should elect to take this course for a grade.

Class Format: lecture, three times per week and laboratory, four hours per week
Requirements/Evaluation: quantitative weekly problem set assignments, laboratory work and reports, hour tests, and a final exam
Prerequisites: Students are required to take the online Chemistry Placement Survey prior to registering for the course (chemistry.williams.edu/placement); incoming first-year students are required to speak with a faculty member during First Days.
Enrollment Limit: 35/lecture
Enrollment Preferences: incoming first year students also must speak with a faculty member during First Days
Expected Class Size: 70
Grading: yes pass/fail option, no fifth course option
Unit Notes: CHEM 153 or its equivalent is a prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration
Distributions: (D3)  (QFR)
Quantitative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.
Attributes: BIMO Required Courses

CHEM 155  (F)  Principles of Modern Chemistry  (QFR)
This course is designed for students with a strong preparation in chemistry (including laboratory experience) in secondary school, such as provided by an Advanced Placement chemistry course (or equivalent) with a corresponding AP Chemistry Exam score of 5 (or a 6 or 7 on the IB Exam, or equivalent). Topics include chemical thermodynamics, kinetics, structure and bonding, coordination chemistry, electrochemistry and spectroscopy and their application to fields such as materials science, catalysis, environmental, biological, and medicinal chemistry. Laboratory periods will focus on
hands-on skills, data representation and analysis, scientific writing, exploration of the scientific literature, and other skills critical to students’
development as scientists. This course is designed for students who are anticipating further study in chemistry, related sciences, or one of the health
professions, as well as for students who want to explore the fundamental ideas of chemistry as part of their general education.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: frequent short assignments in preparation for class, quantitative weekly problem sets, laboratory work and reports, an
hour test, and a final exam

Prerequisites: Students are required to take the online Chemistry Placement Survey prior to registering for the course
(chemistry.williams.edu/placement); incoming first-year students are required to speak with a faculty member during First Days.

Enrollment Limit: 16/lab

Enrollment Preferences: first year students and sophomores; incoming first year students also must meet with a faculty member during First Days

Expected Class Size: 32

Grading: no pass/fail option, no fifth course option

Unit Notes: CHEM 155 or its equivalent is a prerequisite to CHEM 156; one of CHEM 151 or 153 or 155 required for the BIMO concentration

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem sets in which quantitative/formal
reasoning skills are practiced and evaluated.

Attributes: BIMO Required Courses

CHEM 156 (S) Organic Chemistry: Introductory Level (QFR)
This course provides the necessary background in organic chemistry for students who are planning advanced study or a career in chemistry, the
biological sciences, or the health professions. It initiates the systematic study of the common classes of organic compounds with emphasis on theories
of structure and reactivity. The fundamentals of molecular modeling as applied to organic molecules are presented. Specific topics include basic
organic structure and bonding, isomerism, stereochemistry, molecular energetics, the theory and interpretation of infrared and nuclear magnetic
spectroscopy, substitution, elimination and addition reactions. The coordinated laboratory work includes purification and separation techniques,
structure-reactivity studies, organic synthesis, IR and NMR spectroscopy, and the identification of unknown compounds.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: quantitative problem solving, laboratory performance, three midterm exams, and a final exam

Prerequisites: CHEM 151 or 153 or 155 or placement exam or permission of instructor

Enrollment Limit: 50/lecture

Enrollment Preferences: Seniors, juniors, sophomores, first-year students

Expected Class Size: 100

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course fulfills the QFR requirement with regular and substantial problem solving in which
quantitative/formal reasoning skills are practiced and evaluated.

LAB Section: 03  M 1:00 pm - 5:00 pm
CHEM 251  (F)  Organic Chemistry: Intermediate Level

This course is a continuation of Chemistry 156 and it concludes the systematic study of the common classes of organic compounds with emphasis on theories of structure and reactivity. Specific topics include radical chemistry, an introduction to mass spectrometry and ultraviolet spectroscopy, the theory and chemical reactivity of conjugated and aromatic systems, the concepts of kinetic and thermodynamic control, an extensive treatment of the chemistry of the carbonyl group, alcohols, ethers, polyfunctional compounds, the concept of selectivity, the fundamentals of organic synthesis, an introduction to carbohydrates, carboxylic acids and derivatives, acyl substitution reactions, amines, and an introduction to amino acids, peptides, and proteins. The coordinated laboratory work includes application of the techniques learned in the introductory level laboratory, along with new functional group analyses, to the separation and identification of several unknown samples. Skills in analyzing NMR, IR, and MS data are practiced and further refined.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: midterm exams, problem sets, laboratory performance, including written lab reports, and a final exam

Prerequisites: CHEM 156 or permission of instructor

Enrollment Limit: 45/lecture

Enrollment Preferences: seniors, juniors, then sophomores

Expected Class Size: 100

Grading: no pass/fail option, no fifth course option

Distributions: (D3)

Attributes: BIMO Required Courses

CHEM 255  (F)  Organic Chemistry: Intermediate Level--Special Laboratory Section

This course is a continuation of CHEM 156 and contains the same material as CHEM 251 except for the laboratory program described below: The aim of this advanced laboratory section is to enrich and enhance the laboratory experiences of motivated students of recognized ability by providing a laboratory program that more closely resembles the unpredictable nature and immediacy of true chemical research. Students synthesize, isolate, and characterize (using a range of modern physical and spectroscopic techniques) a family of unknown materials in a series of experiments constituting an integrated, semester-long investigation. A flexible format is employed in which the students are responsible for helping to plan the course of their laboratory work based upon discussions with the instructor about the previous week's experimental results. Students are drawn from CHEM 156 with placement based upon student selection and nomination by the CHEM 156 instructor. Participants attend their regular CHEM 251 lecture but attend the special laboratory section instead of a CHEM 251 laboratory section.
Class Format: lecture, three hours per week and laboratory, four hours per week; weekly one-hour discussion

Requirements/Evaluation: the requirements for the CHEM 251 lecture and performance in this special laboratory section including written laboratory reports and participation in discussions

Prerequisites: permission of instructor

Enrollment Limit: 12

Enrollment Preferences: sophomores

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: course was developed under a grant from the Ford Foundation

Distributions: (D3)

Not offered current academic year

CHEM 256 (S) Advanced Chemical Concepts

This course treats an array of topics in modern chemistry, emphasizing broad concepts that connect and weave through the various subdisciplines of the field--biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. It provides the necessary background in chemical science for students who are planning advanced study or a career in chemistry, biological science, geoscience, environmental science, or a health profession. Topics include coordination complexes, thermodynamics, electrochemistry, and kinetics. Students must select a laboratory section, either a standard or an intensive section. The standard laboratory sections will give students hands-on experience involving synthesis, characterization, and reactivity studies of coordination and organic complexes; spectroscopic analyses; thermodynamics; electrochemistry; and kinetics. Students will hone their skills in the presentation of results through written reports and worksheets. The aim of the intensive laboratory section (lab section 07) is to provide a program that more closely resembles the unpredictable nature of authentic chemical research. This format will require students to think flexibly and independently, and be willing to take responsibility for determining the path of their laboratory work over the course of the semester. This section will require a weekly discussion period in addition to the laboratory session. The timing of the discussion period will be determined once students have been selected. This section will emphasize collaborative work, experimental design, data analysis and the communication and presentation of results. Enrollment will be limited to students with a strong interest in developing their chemistry laboratory skills. Interested students should consult with the course instructor for more information.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: homework assignments, laboratory work, quizzes, midterm exam, and a final exam

Prerequisites: CHEM 251/255, or permission of instructor

Enrollment Limit: 30/lecture

Enrollment Preferences: seniors, juniors, then sophomores

Expected Class Size: 60

Grading: no pass/fail option, yes fifth course option

Unit Notes: for the BIMO concentration, CHEM 256 not required if CHEM 155 was taken

Distributions: (D3)

CHEM 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 319 (D3) CHEM 319 (D3) BIOL 319 (D3) PHYS 319 (D3) CSCI 319 (D3)

Quantitative/Formal Reasoning Notes: Through lab work, homework sets and a major project, students will learn or further develop their skills in programming in Python, and about the basis of Bayesian approaches to phylogenetic tree estimation.

CHEM 321 (F) Biochemistry I: Structure and Function of Biological Molecules (QFR)

Cross-listings: BIMO 321 BIOL 321 CHEM 321

Secondary Cross-listing

This course introduces the foundational concepts of biochemistry with an emphasis on the structure and function of biological macromolecules. Specifically, the structure of proteins and nucleic acids are examined in detail in order to determine how their chemical properties and their biological behavior result from those structures. Other topics covered include catalysis, enzyme kinetics, mechanism and regulation; the molecular organization of biomembranes; and the flow of information from nucleic acids to proteins. In addition, the principles and applications of the methods used to characterize macromolecules in solution and the interactions between macromolecules are discussed. The in-person laboratory provides further opportunity to study macromolecules and to learn the fundamental experimental techniques of biochemistry including electrophoresis, chromatography, and principles of enzymatic assays. A laboratory section will also be provided for remote students, which will examine similar topics and techniques through literature and data analysis.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: quizzes, two midterm exams, a final exam, problem sets and performance in the laboratories including lab reports

Prerequisites: BIOL 101 and CHEM 251/255 and CHEM 155/256

Enrollment Limit: 16/lab
Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 48

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

Distributions: (D3) (QFR)

CHEM 322 (S) Biochemistry II: Metabolism (QFR)

Cross-listings: BIOL 322 CHEM 322 BIMO 322

Secondary Cross-listing

This lecture course provides an in-depth presentation of the complex metabolic reactions that are central to life. Emphasis is placed on the biological flow of energy including alternative modes of energy generation (aerobic, anaerobic, photosynthetic); the regulation and integration of the metabolic pathways including compartmentalization and the transport of metabolites; and biochemical reaction mechanisms including the structures and mechanisms of coenzymes. This comprehensive study also includes the biosynthesis and catabolism of small molecules (carbohydrates, lipids, amino acids, and nucleotides). Laboratory experiments introduce the principles and procedures used to study enzymatic reactions, bioenergetics, and metabolic pathways.

Class Format: Lecture three hours per week and laboratory two hours per week.

Requirements/Evaluation: several exams and performance in the laboratories including lab reports that emphasize conceptual and quantitative and/or graphic analysis of data

Prerequisites: BIOL 101 and CHEM 251/255 or permission of instructor

Enrollment Limit: 60

Enrollment Preferences: junior and senior Biology and Chemistry majors and BIMO concentrators

Expected Class Size: 60

Grading: no pass/fail option, no fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major; cannot be counted towards the Biology major in addition to BIOL 222

CHEM 324 (S) Enzyme Kinetics and Reaction Mechanisms

Enzymes are complex biological molecules capable of catalyzing chemical reactions with very high efficiency, stereo-selectivity and specificity. The study of enzymatically-catalyzed reactions gives insight into the study of organic reaction mechanisms in general, and into the topic of catalysis especially. This course explores the methods and frameworks for determining enzymatic reaction mechanisms. These methods are based on a firm foundation of organic reaction mechanisms and chemical kinetics. We will investigate the major types of biochemical reactions, focusing on their catalytic mechanisms and how those mechanisms can be elucidated. We will lay the foundation for this mechanistic consideration with discussion of transition state theory, structure-reactivity relationships, steady state and pre-steady kinetics, use of isotopes, genetic modification, and other tools for probing enzymatic reactions. We will also examine the catalytic roles of a variety of vitamins and cofactors.

Class Format: three hours per week
Requirements/Evaluation: problem sets, quizzes, a midterm exam, a paper, and a final exam
Prerequisites: CHEM/BIOL/BIMO 321 or permission of instructor
Enrollment Limit: 20
Enrollment Preferences: Chemistry majors or BIMO concentrators
Expected Class Size: 10
Grading: no pass/fail option, yes fifth course option
Distributions: (D3)

Spring 2022

CHEM 326 (S) Chemical and Synthetic Biology

This course surveys the rapidly evolving, interdisciplinary and interconnected fields of chemical and synthetic biology. Chemical biology uses precise molecular-level manipulations to influence living systems from the bottom up, often by introducing components that are foreign to nature. Synthetic biology takes advantage of existing molecular technology and adopts an engineering mindset to reprogram life. Students will achieve literacy through immersion in chemical and synthetic biology. We will prioritize broad exposure to these fields, their vocabulary, culture, practices and ideas, through extensive engagement with the primary literature that expert practitioners use to teach themselves. The instructor will guide, facilitate, and give feedback, but de-emphasize direct instruction. Students take on the agency and responsibility for assimilating meaning from the material and working together effectively to advance everyone’s understanding. This model prioritizes skills important for autonomous and collaborative work in real-world scientific and professional fields. Topics we will cover include synthetic genomes, metabolic engineering, chemical synthesis and manipulation of biomacromolecules, directed evolution, and reworking of the central dogma.

Class Format: lecture, three hours per week
Requirements/Evaluation: Course work includes consistent and intensive engagement with primary literature, weekly short presentations, informal writing assignments, response papers/problem sets, and an independent research project with presentation and writing components. The workload is designed to be distributed evenly throughout the semester. There are no exams.
Prerequisites: CHEM/BIOL/BIMO 321
Enrollment Limit: 20
Enrollment Preferences: senior and junior Chemistry and Biology majors with a demonstrated interest in chemical or synthetic biology
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D3)
Attributes: BIMO Interdepartmental Electives

Not offered current academic year

CHEM 335 (F) Inorganic/Organometallic Chemistry
This course covers fundamental aspects of the chemistry of main group elements and transition metals, and highlights how these properties are key to understanding the roles of these elements in a range of applications, from the catalysis of synthetic organic transformations, the functions of enzymatic processes, the production of commodity chemicals such as plastics, to the actions of metal-based drugs such as cis-platin. The course introduces concepts of symmetry and group theory, and their systematic application to the study of the structure, bonding, and spectroscopy of inorganic and coordination compounds. The course also covers the kinetics and mechanism of selected inorganic and organometallic reactions. Class discussions will involve exploration of the primary literature and review articles around recent developments and applications in inorganic chemistry.

**Class Format:** lecture, three hours per week and laboratory, four hours per week

**Requirements/Evaluation:** problem sets, two exams, presentations, and group-based literature reviews

**Prerequisites:** CHEM 155 or 256 and 251/255

**Enrollment Limit:** 10/lab

**Enrollment Preferences:** senior and junior chemistry majors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3)

---

**CHEM 336 (F) Materials Chemistry**

Materials have defined much of what is possible in our daily lives. Materials scientists are at the center of imagining and delivering progress, as they improve existing materials and develop new ones to meet today's needs. Materials science focuses on the relationships between the structure, processing, properties, and performance of materials. In this course, we will explore how the properties and potential applications of a solid are related to its atomic and molecular structure, as well as to its organization on larger length scales than are traditionally considered in chemistry. We will cover a variety of different types of materials including metals, ceramics, polymers, and composites. We will examine some of the latest developments in materials science, including new strategies for the synthesis of materials on different length scales, as well as a variety of potential applications of emerging technologies.

**Class Format:** three hours per week

**Requirements/Evaluation:** problem sets, reviews of research articles, two exams, and oral presentations

**Prerequisites:** CHEM 155 or 256 and 251/255

**Enrollment Limit:** 20

**Enrollment Preferences:** Chemistry majors

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3)

**Attributes:** MTSC Courses

**CHEM 338 (S) Bioinorganic Chemistry: Metals in Living Systems**

Bioinorganic chemistry is an interdisciplinary field that examines the role of metals in living systems. Metals are key components of a wide range of processes, including oxygen transport and activation, catalytic reactions such as photosynthesis and nitrogen-fixation, and electron-transfer processes. Metals furthermore perform regulatory roles and stabilize the structures of proteins. In medical applications, they are central to many diagnostic and therapeutic tools, and some metals are highly toxic. The course begins with a review and survey of the principles of coordination
chemistry: topics such as structure and bonding, spectroscopic methods, electrochemistry, kinetics and reaction mechanisms. Building on this fundamental understanding of the nature of metals, we will explore the current literature in fields of interest in small groups, presenting our findings to the class periodically.

**Class Format:** The course will begin with a series of lectures on principles of coordination chemistry, followed by tutorial meetings to discuss journal articles and book materials.

**Requirements/Evaluation:** Evaluation based on problem sets, two exams, class engagement, a class presentation, and a final project.

**Prerequisites:** CHEM 155 or CHEM 256 and 251/255

**Enrollment Limit:** 10

**Enrollment Preferences:** Chemistry majors and BIMO concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3)

**Attributes:** BIMO Interdepartmental Electives

**CHEM 341 (S) Toxicology and Cancer**

**Cross-listings:** ENVI 341 CHEM 341

**Primary Cross-listing**

What is a poison and what makes it poisonous? Paracelcus commented in 1537: “What is not a poison? All things are poisons (and nothing is without poison). The dose alone keeps a thing from being a poison.” Is the picture really this bleak; is modern technology-based society truly swimming in a sea of toxic materials? How are the nature and severity of toxicity established, measured and expressed? Do all toxic materials exert their effect in the same manner, or can materials be poisonous in a variety of different ways? Are the safety levels set by regulatory agencies low enough for a range of common toxic materials, such as mercury, lead, and certain pesticides? How are poisons metabolized and how do they lead to the development of cancer? What is cancer and what does it take to cause it? What biochemical defense mechanisms exist to counteract the effects of poisons?

This course attempts to answer these questions by surveying the fundamentals of modern chemical toxicology and the induction and progression of cancer. Topics will range from description and quantitation of the toxic response, including risk assessment, to the basic mechanisms underlying toxicity, mutagenesis, carcinogenesis, and DNA repair.

**Class Format:** three times per week

**Requirements/Evaluation:** two hour tests, a class presentation and paper, participation in discussion sessions, a self-exploration of the current toxicological literature, and a final exam

**Prerequisites:** CHEM 156; may be taken concurrently with CHEM 251/255; a basic understanding of organic chemistry

**Enrollment Limit:** 30

**Expected Class Size:** 24

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D3)

Not offered current academic year

**CHEM 342 (S) Synthetic Organic Chemistry**

The origins of organic chemistry are to be found in the chemistry of living things and the emphasis of this course is on the chemistry of naturally-occurring compounds. This course presents the logic and practice of chemical total synthesis while stressing the structures, properties and preparations of terpenes, polyketides and alkaloids. Modern synthetic reactions are surveyed with an emphasis on the stereochemical and mechanistic themes that underlie them. To meet the requirements for the semester's final project, each student chooses an article from the recent synthetic literature and then analyzes the logic and strategy involved in the published work in a final paper. A summary of this paper is also presented to the class in a short seminar. There will be no laboratory component in 2022. Instead, one of the three class meetings each week will focus on
discussion and presentation of reactions, mechanisms, and syntheses from the chemical literature.

Class Format: lecture, three hours per week and conference, 1.5 hours per week

Requirements/Evaluation: problem sets, midterm exams, class participation, class presentations, and a final project

Prerequisites: CHEM 256 or permission of instructor

Enrollment Limit: 16

Enrollment Preferences: Chemistry majors, seniors and juniors

CHEM 344 (S) Physical Organic Chemistry

The structure of a molecule is inherently linked to its reactivity, and these correlations form the basis for understanding organic reaction mechanisms. This course advances the understanding from previous organic courses through a detailed examination of the concepts that underlie these structure/reactivity relationships, including molecular strain and stability, acid/base chemistry, steric and electronic effects, and aromaticity. These concepts will also be explored in the context of specific classes of reaction mechanisms. Classical and modern experimental and theoretical tools used to elucidate reaction mechanisms will also be presented, including reaction kinetics, isotope effects, and linear free energy relationships. By studying the primary literature, we will see how these experiments have been applied to the elucidation of reaction mechanism, while also learning to design a set of experiments for study of mechanisms of contemporary interest.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: problem sets, exams, laboratory reports, presentations, and class participation

Prerequisites: CHEM 155 or CHEM 256 and 251/255

Enrollment Limit: 7/lab

Enrollment Preferences: Chemistry majors: seniors, juniors, sophomores

CHEM 348 (F) Polymer Chemistry

From synthetic to natural macromolecules, we encounter polymers everywhere and everyday. This course explores the multitude of synthetic techniques available and discusses how structure defines function. Topics include condensation and chain (anionic, cationic, radical) polymerizations, dendrimers, controlling molecular weight, ring opening, and biopolymer syntheses. Fundamentals of composition and physical properties of polymers, and methods of characterization are also covered.

Class Format: lecture three hours per week and laboratory four hours per week

Requirements/Evaluation: weekly literature discussions, two exams, and a final project

Prerequisites: CHEM 251/255

Enrollment Limit: 12

CHEM 361  (F)  Quantum Chemistry and Chemical Dynamics
This course provides an introduction to quantum mechanics which serves as the basis for understanding atomic and molecular structure as well as spectroscopic methods. This leads to a discussion of chemical kinetics and molecular reaction dynamics in the gas phase and in solution. Computational chemistry methods are used to illustrate chemical concepts, to interpret experimental data, and to extend hypotheses. Applications of these principles are chosen from contemporary research fields, including polymer chemistry, photochemistry, atmospheric chemistry, and solid and liquid state chemistry. Quantitative laboratory experiments and consultation with the scientific literature provide the background necessary for carrying out an independent theoretical or experimental project.

Class Format: lecture, three times per week and laboratory, four hours per week
Requirements/Evaluation: class participation, problem sets, exams, laboratory work, and an independent project
Prerequisites: CHEM 155 or 256
Enrollment Limit: 8/lab
Enrollment Preferences: seniors, then juniors
Expected Class Size: 16
Grading: no pass/fail option, no fifth course option

Cross-listings: ENVI 364  CHEM 364
Primary Cross-listing

Instrumental methods of analysis provide scientists with different lenses to observe and elucidate fundamental chemical phenomena and to measure parameters and properties at the atomic, molecular, and bulk scales. This course introduces a framework for learning about a variety of instrumental techniques that typically include chromatography, mass spectrometry, thermal methods, atomic and molecular absorption and emission spectroscopy, X-ray diffraction, and optical and electron microscopies. Students complete two 5-6 week long laboratory projects and gain hands-on experience and project planning skills to study molecules and materials of interest. This practical experience is complemented by lectures that cover the theory and broader applications of these techniques. Students also explore the primary literature and highlight recent advances in instrumental methods that address today’s analytical questions. The skills learned are useful in a wide variety of scientific areas and will prepare you well for research endeavors.

Class Format: lecture, two times per week and laboratory, four hours per week; periodic small group meetings to plan laboratory research projects
Requirements/Evaluation: Weekly data analysis and project planning assignments for laboratory and analysis of readings for class, two project reports and presentations, one oral presentation of an application of instrumental methods, a final independent literature project and presentation; demonstrated progress in research skills, and project engagement.
Prerequisites: CHEM 155 or 256 and 251/255; may be taken concurrently with CHEM 256 with permission of instructor
Enrollment Limit: 16
Enrollment Preferences: Chemistry and Environmental Studies majors
CHEM 364 (S) Thermodynamics and Statistical Mechanics

The thermodynamic laws provide us with our most powerful and general scientific principles for predicting the direction of spontaneous change in physical, chemical, and biological systems. This course develops the concepts of energy, entropy, free energy, temperature, heat, work, and chemical potential within the framework of classical and statistical thermodynamics. The principles developed are applied to a variety of problems: chemical reactions, phase changes, energy technology, industrial processes, and environmental science. Laboratory experiments provide quantitative and practical demonstrations of the theory of real and ideal systems studied in class.

Class Format: lecture, three times per week and laboratory, four hours per week

Requirements/Evaluation: class participation, oral presentations, problem sets, laboratory work, and an independent project

Prerequisites: CHEM 155 or 256, and basic knowledge of applied integral and differential calculus

Enrollment Limit: 16/lab

Enrollment Preferences: Chemistry majors: seniors, juniors, then sophomores

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D3)

Attributes: BIMO Interdepartmental Electives

LAB Section: 02 M 1:00 pm - 5:00 pm Enrique Peacock-López

CHEM 367 (S) Biophysical Chemistry

This course is designed to provide a working knowledge of basic physical chemistry to students primarily interested in the biochemical, biological, or medical professions. Topics of physical chemistry are presented from the viewpoint of their application to biochemical problems. Three major areas of biophysical chemistry are discussed: 1) the conformation of biological macromolecules and the forces that stabilize them; 2) techniques for the study of biological structure and function including spectroscopic, hydrodynamic, electrophoretic, and chromatographic; 3) the behavior of biological macromolecules including ligand interaction and conformational transitions.

Class Format: lecture/discussion three hours per week and laboratory four hours per week

Requirements/Evaluation: problem sets and/or quizzes, laboratory work, and exams

Prerequisites: CHEM 155 or 256 and 251/255, and MATH 140 or equivalent

Enrollment Limit: 6/lab

Enrollment Preferences: junior and senior Chemistry majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D3)
CHEM 368 (S) Computational Chemistry and Molecular Spectroscopy (QFR)
This course provides an introduction to the principles of computational quantum mechanics and their application to problems of chemical interest such as chemical bonding, chemical reactivity, and molecular spectroscopy. Emphasis is placed upon modern electronic structure calculations, their fundamentals, practical considerations, interpretation, and applications to current research questions. Under guidance in sessions and through independent work, students will use computational methods to explore assigned weekly research problems. The research results will be presented to and discussed with the tutorial partner at the end of each week.

Requirements/Evaluation: tutorial participation, presentations, and submitted papers
Prerequisites: CHEM 361 or equivalent background in Physics
Enrollment Limit: 10
Enrollment Preferences: Chemistry majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantitative/Formal Reasoning Notes: This course fulfills the QFC requirement with problem sets for assignments in which quantitative/formal reasoning skills are practiced.

Spring 2022

CHEM 373 (F) Environmental Organic Chemistry
Cross-listings: ENVI 373 CHEM 373
Primary Cross-listing
This course introduces students to the methods used to assess the risks posed by organic chemicals to human, animal, and ecosystem health. Our goal is to develop a quantitative understanding for how specific features of organic molecular structure directly dictate a given molecule's environmental fate. We will begin by using thermodynamic principles to estimate the salient physiochemical properties of molecules (e.g., vapor pressure, solubility, charging behavior, etc.) that impact the distribution, or partitioning, of organic chemicals between air, water, soils, and biota. Then, using quantitative structure activity relationships, we will predict the degradation kinetics resulting from natural nucleophilic, photochemical, and biological processes that determine chemical lifetime in the environment.

Class Format: Lecture/discussion; lecture, three hours per week and discussion, 75 minutes per week.
Requirements/Evaluation: weekly problem sets, two midterm exams, a final exam, participation in discussion, an independent research proposal
Prerequisites: CHEM 251 and either CHEM 155 or CHEM 256. ENVI 102 is strongly recommended.
Enrollment Limit: 15
Enrollment Preferences: junior and senior Chemistry and Environmental Studies majors with a demonstrated interest in environmental chemistry
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D3)
This course is cross-listed and the prefixes carry the following divisional credit:

Winter Study  

CHEM 18  (W) Introduction to Research in Biochemistry
An independent experimental project in biochemistry is carried out in collaboration with a member of the Department with expertise in biochemistry. Biochemistry is a branch of chemistry that deals with the molecular details of living systems including the interaction of biologically important molecules. In the Chemistry Department, studies are underway to investigate the structure/function relationship of proteins, the interaction between proteins and RNA and DNA, the molecular basis of bacterial gene regulation, the lipid composition of model membranes, and the molecular underpinnings of viral infection.

Requirements/Evaluation:  a 10-page written report is required
Prerequisites:  completion of CHEM 151/3/5 and permission of the instructor and department; interested students must consult with the faculty instructor
Enrollment Limit:  4
Enrollment Preferences:  expression of student interest
Grading:  pass/fail only
Not offered current academic year

CHEM 20  (W) Introduction to Research in Inorganic Chemistry
Students in this course will carry out an independent research project in collaboration with a member of the Department with expertise in inorganic chemistry. Representative projects include the synthesis and study of polymers to encapsulate heavy metals with an eye to environmental remediation and the synthesis of coordination complexes as models of enzymes and as catalysts for the oxidation of organic compounds. The interdisciplinary nature of the project will expose students to a range of inorganic and organic synthetic protocols and analytical and spectroscopic techniques for the characterization of new materials and the monitoring of catalysis. In addition to lab work, participants will engage in an exploration of careers in chemistry and a discussion of topics of interest to chemists, such as ethics and creating a diverse workforce.

Requirements/Evaluation:  a 10-page written report is required
Prerequisites:  completion of CHEM 151/3/5 and permission of the instructor and department; interested students must consult with the faculty instructor
CHEM 23 (W) Introduction to Research in Organic Chemistry
An independent experimental project in organic chemistry is carried out in collaboration with a member of the Department. Representative projects include: Controlled synthesis of block copolymers as self-assembled nanocarriers. Students involved in this work will learn techniques involved in organic synthesis, including analysis by NMR, IR, and SEC.
Requirements/Evaluation: a 10-page written report is required
Prerequisites: completion of CHEM 151/3/5 and permission of the instructor and department; interested students must consult with the faculty instructor

CHEM 24 (W) Introduction to Research in Physical Chemistry
An independent experimental project in physical chemistry is carried out in collaboration with a member of the Department with expertise in physical chemistry. Current research projects in the Department include computer modeling of non-linear, chaotic chemical and biochemical systems, molecular modeling of water clusters, laser spectroscopy of chlorofluorocarbon substitutes, and observing the dynamics in glasses using single molecule spectroscopy and molecular dynamics simulations.
Requirements/Evaluation: a 10-page written report is required
Prerequisites: completion of CHEM 151/3/5 and permission of the instructor and department; interested students must consult with the faculty instructor

CHEM 31 (W) Senior Research and Thesis: Chemistry
To be taken by students registered for Chemistry 493, 494.
Class Format: independent study
Grading: pass/fail only

CHEM 41 (W) It’s a Material World—What’s It Made Of—Intensive
We’ll talk about how underlying atomic and molecular scale structure gives rise to physical properties that you already have an intuitive sense for: things like hardness, softness, elasticity, color, brittleness, conductivity, transparency... Once we understand how these properties arise, we can start thinking about how and why we use certain materials for particular applications and consider the historical and societal changes that result from choosing or developing new materials for those specific applications. What kinds of materials (or innovations in the skills or techniques used to produce them) have been valued over time? What has been the impact of these technological advances? From there, we can start to think about how to design new materials with new kinds of properties or combinations of properties. We’ll look at old materials as well as new, and venture a bit into the modern world of materials, which involves design and characterization of meso and nanoscale structures. We’ll take a little time to do some lab experiments as well, to give you a peek at some strategies used in nanofabrication, as well a chance to use some of the kinds of instrumentation used in studying nanoscale materials. Because this course is designed to count for both a regular full semester credit as well as a winter study credit, it will
necessarily be a fairly intense experience. We're going to be moving through material pretty quickly, and it'll be hard for you to tackle the problems that
you'll need to on your own at this pace in addition to doing the readings and going over class notes. So rather than structure the course to be 3 hours
of uninterrupted class time/day followed by many hours of trying to do the rest of the work on your own, the course will be structured in order to provide
a lot of help along the way. We'll be meeting together for more hours each day, and we'll use the extra time to do a lot of problem solving work
together, as this is the best way to work through material, as well as to do a lot of demos that will illustrate what we're talking about. There will be
support available from course TAs, who will help with the problem solving during the day, as well as be available some evenings for additional help on
problem sets, as well as for preparation for exams. I'm also hoping to break up the classwork a bit with some lab based activities, but that is still up in
the air at this point. If we do this, there won't be any lab reports or separate homework associated with the labs that we do, though it's possible that
there may be some questions on problem sets or exams associated with these parts. This course will be a non-majors level introduction to materials
chemistry, with no chemistry background required.

Class Format: Lectures may be via zoom or may be via pre-recorded lectures. Problem solving will be done synchronously via zoom. We'll take
breaks during the day, but you should assume that you will be expected to participate synchronously for several hours/day.

Requirements/Evaluation: a series of problem sets, two exams, and a final

Prerequisites: permission of a dean

Enrollment Limit: 12

Enrollment Preferences: students who need to make up a deficiency

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: This course is designed to count for both full semester, Winter Study, and QFR credit. Once a dean approves enrollment, the Registrar's
Office will register students in both CHEM 100 and CHEM 41.

Not offered current academic year

CHEM 99 (W) Independent Study: Chemistry

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a
faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late
September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is
approved prior to the Winter Study registration period.

Class Format: independent study

Grading: pass/fail only

Not offered current academic year
Department of Asian Languages, Literatures, & Cultures  
Chinese, Japanese, East Asian Languages & Cultures  
(Div I & II, see explanation below)

Chair: TBD

- Cecilia Chang, Frederick Latimer Wells Professor of Chinese; on leave 2021-22
- Man He, Assistant Professor of Chinese
- Shinko Kagaya, Professor of Japanese
- Cornelius C. Kubler, Stanfield Professor of Asian Studies
- Christopher M. B. Nugent, Professor of Chinese
- Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; on leave 2021-22
- Li Yu, Professor of Chinese

Visitors:
- Eun Young Seong, Visiting Assistant Professor of Japanese

Language Fellows:
- Yi-Zhi Chen
- Tianwen Han

Teaching Associate:
- Xian Fung

Department Mission Statement and Curricular Goal

The mission of the Department of Asian Languages, Literatures, and Cultures is to produce “global citizens” who will be able to make contributions in different sectors of society in a globalized and diverse world with multilingual abilities, intercultural communicative competence, and multicultural leadership skills. Graduates of our department will not only achieve proficiency in at least one Asian language but also become competent in intercultural communication. They will develop interpretive and analytical skills using both primary texts and secondary sources and become familiar with the textual and cultural traditions in Asia.

The department offers three distinct major tracks: Chinese, Japanese, and East Asian Languages & Cultures. Each major requires a minimum of ten courses. Up to four study-away credits can be counted toward a major.

Learning Objectives for the Chinese Major

Students who complete the requirements for a major in Chinese will be able to:

- Attain the Advanced level in speaking, listening and reading, and Intermediate High level in writing based on the ACTFL proficiency guidelines.
- Read and analyze basic texts written in Classical Chinese.
- Gain intercultural communicative skills to competently navigate a wide range of social and cultural contexts in Chinese-speaking environments.
- Critically read and analyze a variety of Chinese-language primary sources for academic and professional purposes.
- Engage critically with important aspects of the historical and cultural developments and trends in China’s diverse and complex past and present.
- Acquire the skills to enable them to continue their engagement with the target language and culture as lifelong learners and users of Chinese.
THE MAJOR

In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least eight Mandarin Chinese language courses (CHIN 101, 102, 201, 202, 301, 302, 401, 402) and at least one course in Classical Chinese (CHIN 312). To gain a deeper understanding of Chinese cultural traditions, students should take at least one Chinese core elective in Chinese literary, linguistic, or cultural studies (taught either in English or in Chinese) with prefixes and primary cross-listings in CHIN.

Students placed out of lower-level language courses can take approved electives related to Chinese language and culture (including additional CHIN core electives, additional Asian language courses, or Chinese studies courses offered in art, comparative literature, history, music, political science, religion, etc.) to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

Learning Objectives for the Japanese Major

Students who complete the requirements for a major in Japanese will be able to:

- Demonstrate linguistic competency/proficiency in comprehending, speaking, reading, and writing in Japanese at the ACTFL Intermediate High to Advanced levels.
- Critically read and analyze a variety of Japanese primary sources for academic and professional purposes.
- Critically engage with Japanese culture, past and present, recognizing its diversity and vibrancy.
- Navigate a wide range of social and cultural contexts by communicating effectively and appropriately with people of other cultures in their local and global communities.
- Continue their engagement with Japanese language and culture as lifelong learners and users of Japanese.

THE MAJOR

In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least eight Japanese language courses (JAPN 101, 102, 201, 202, 301, 302, 401, 402), at least one Japanese core elective in Japanese literary, linguistic, or cultural studies (taught either in English or in Japanese) with prefixes and primary cross-listings in JAPN, and one approved elective related to Japanese language and culture (including additional JAPN core electives, additional Asian language courses, or Japanese studies courses offered in art, comparative literature, history, music, political science, religion, etc.).

Students placed out of lower-level language courses can take additional approved electives to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

Learning Objectives for the East Asian Languages and Cultures Major

Students who complete the requirements for a major in East Asian Languages and Cultures will be able to:

- Attain a minimum of Intermediate High level in speaking, listening and reading of either Chinese or Japanese, and Intermediate Low level in writing in the language based on the ACTFL proficiency guidelines.
- Acquire research, problem-solving, and critical thinking skills by engaging in linguistic or literary analysis in the field of Chinese studies or Japanese studies.
- Obtain basic intercultural communicative skills to navigate some social and cultural contexts in Chinese- or Japanese-speaking environments.
- Continue their engagement with an Asian language and culture as lifelong learners and users of the target language.
- Students who choose the dual-language option will attain the Advanced level in speaking, listening, and reading in either Chinese or Japanese, and the intermediate level in a second Asian language based on the ACTFL proficiency guidelines.

THE MAJOR

East Asian Languages and Cultures (EALC) major: In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least six language courses (or attain a minimum proficiency equivalent to the completion of 302) in one East Asian language offered by the department (currently Chinese Mandarin and Japanese). To gain a deeper understanding of the Chinese or Japanese cultural traditions and to develop research skills in the Chinese or Japanese fields, they should take at least two Chinese/Japanese core electives in literary, linguistic, or cultural studies in their primary focus of study with prefixes and primary cross-listings in CHIN/JAPN, and two approved electives related to Chinese/Japanese language and culture (including additional CHIN/JAPN core electives, additional Asian language courses, Chinese/Japanese studies courses offered in art, comparative literature, history, music, political science, religion, etc.).
Students placed out of lower-level language courses can take additional approved electives to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

This major offers students who are able to complete the 402 level in either Chinese or Japanese by the end of their sophomore year a dual-language option which will allow them to learn a second Asian language and reach the Intermediate level in speaking that language by the time of graduation. Please consult with the chair or language coordinator for more information about this option.

PLACEMENT TEST

Students who have studied or otherwise developed some familiarity with Chinese or Japanese language before coming to Williams and who wish to continue their studies of these languages at the college should take a placement test before they pre-register for a language course. Students who wish to take the Chinese placement test can self-enroll in a GLOW course at https://glow.williams.edu/enroll/CHINESE. Students who wish to take the Japanese placement test should contact the Japanese Coordinator.

THE DEGREE WITH HONORS

The department offers students the option of pursuing a degree with Honors in Chinese, Japanese, or East Asian Languages and Cultures through writing an honors thesis. Honors theses allow students a unique opportunity to undertake an examination of topics and texts with a greater depth than regular courses allow. The great majority of students who undertake the challenge of writing an honors thesis find it to be one of their most rewarding academic experiences at Williams.

Students interested in pursuing a degree with Honors should begin thinking about their thesis topic and materials as early as possible. This is particularly true for students who need to gather materials or conduct research abroad, as this will typically take place during their junior year or the summer between their junior and senior years. It is the responsibility of the student to approach faculty members to inquire about their willingness to serve as a thesis advisor. Ideally, students should have previously taken a course with that faculty member in an area related to the subject matter of the thesis. Faculty members will usually only advise a single thesis per year, and never more than two, with students who first approach the faculty member about serving as advisor being given priority. It is recommended that students approach the faculty members with whom they are interested in working for their thesis by the end of the fall semester of their junior year.

Students must submit a proposal to the department chair and their intended advisor before they pre-register for senior year courses in the spring of their junior year. The proposal should include a statement of the topic, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. If the department approves the thesis proposal, the student should enroll in CHIN 493-W31-494, or JAPN 493-W31-494, depending on their major track. Please note that admission to the honors thesis program will normally be limited to students with a consistent record of honors-level work, as indicated by at least a B+ average in their courses for the major.

Students will typically meet with their advisor once a week at a set time other than office hours. The advisor will present the student with a set of deadlines for different stages in the thesis, ranging from a bibliography to the final draft. While these deadlines will vary for different advisors and theses, two deadlines will apply to all theses, whether analytic or translation. 1) Students must submit a finished first chapter or substantial section of polished translation by the last day of the first semester reading period. If the student misses this deadline, he or she will not be allowed to continue the thesis. 2) The finished thesis is due to the advisor by 4:00 pm on the Monday two weeks after the last day of Spring Recess. The student should submit three copies of the thesis at this time. There will be no extensions.

The department will assign two readers, separate from the advisor, to each thesis. The readers will give a written assessment of the thesis that will be an important factor in the final determination of the student’s grades for the thesis and what honors designation, if any, will be given. These written comments will be shared with the student. Within two weeks after submission, the department will schedule an oral defense. This will be a one to one-and-a-half hour session in which the student will give a public presentation of his or her thesis to members of the department and invited guests followed by a question and answer period. A final, corrected copy of the thesis must be submitted to the Technical Services Department of Sawyer Library by 4:00 P.M. on the last day of the final examination period.

In order to qualify for Honors, the department must agree that the student has earned two semester grades of B+ or higher, based on his or her thesis and oral defense. Students whose thesis and defense are deemed by the department to be of exceptional merit will be awarded Highest Honors. A letter from the department chair will inform students of these decisions.

COVID-19 CHANGES

Due to the pandemic, the department has reduced the number of courses required for its majors for the graduating classes of ’21, ’22, and ’23. For these years, the minimum requirements are nine courses as follows:

Chinese major: CHIN 101, 102, 201, 202, 301, 302, 401, 402, 312.
Japanese major: JAPN 101, 102, 202, 301, 302, 401, 402, one approved elective.

East Asian Languages and Cultures major: at least six CHIN/JAPN language courses (or a minimum proficiency equivalent to the completion of 302), two CHIN/JAPN core electives, and one approved elective.

Students with higher language proficiency who are placed out of any of the core language courses (101 through 402) can take an equal number of faculty-approved electives taught either in Chinese/Japanese or in English on literature, linguistics, culture studies or related Chinese or Japanese studies disciplines (e.g., art history, history, political science) to fulfill the core language requirement.

Students who plan to study abroad either during the summer or during their junior year MUST consult with department faculty for advice.

STUDY ABROAD

Students intending to major in the department are strongly encouraged to study in Asia at some point during their time at Williams—for a summer or for a semester or full year. Study-abroad in an immersive environment in the target culture is an indispensable step toward advanced proficiency in a second language. Prospective majors or language students who are planning to study abroad must attend the fall semester study-abroad information sessions organized by the department or discuss their plans with department faculty as far in advance as possible. The department administers the Linen Grants for Summer Study in Asia which fund selected students’ summer intensive language study or research projects. Up to four study-abroad courses may be transferred and counted toward graduation and toward the majors offered in the department. Students MUST contact the department faculty BEFORE assuming study-away credit will be granted toward the major in the department. Upon return, students should ask their study-away program to send their transcript to the Registrar’s office so that the appropriate number of credits can be transferred and granted by the department chair.

DEPARTMENT EMAIL LISTS

To be informed about the events, activities and funding opportunities in the department, please use your Williams login to sign up for one or more of the following GLOW special interest email lists.

- “DALLC Majors and Faculty” (open to all current and prospective Chinese, Japanese, or East Asian Languages and Cultures majors):
  https://glow.williams.edu/enroll/AWTMXP
- “Asia-Related Funding Opportunities” (open to all students who would like to seek internal or external funding related to Asia):
  https://glow.williams.edu/enroll/PGJHAC
- “Special Interest Chinese” (open to all students interested in Chinese language and culture):
  https://glow.williams.edu/enroll/XEYMPG
- “Special Interest Japanese” (open to all students interested in Japanese language and culture):
  https://glow.williams.edu/enroll/DAYTN3

CHIN 101 (F) Basic Chinese

An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing at about the 200-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively.

Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English.

Requirements/Evaluation: classroom performance, homework, quizzes, unit tests, and an oral and written final exam

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: If the course is overenrolled, first priority will be given to current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; and second priority will be given to first-year students and sophomores.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option
Unit Notes: Course credit granted only if both semesters (CHIN 101 and 102) are taken

Distributions: (D1)

Fall 2021

CHIN 102 (S) Basic Chinese
An introduction to Mandarin, the language with the largest number of native speakers in the world, which is the national language of China and Taiwan, and one of the official languages of Singapore. Course objectives are for the student to develop simple, practical conversational skills and acquire basic proficiency in reading and writing in both the simplified and the traditional script at about the 500-character level. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Both audio and video materials will be employed extensively.

Class Format: (for spoken classes) dialog performance, drills, communicative exercises; (for written classes) oral reading, questions and discussion in Chinese, translation and explanation in English

Requirements/Evaluation: classroom performance, homework, quizzes, unit tests, and an oral and written final exam

Prerequisites: CHIN 101 or equivalent

Enrollment Limit: 15

Enrollment Preferences: Students who have taken CHIN 101 or equivalent.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Unit Notes: students registered for CHIN 101-102 are required to attend and pass the sustaining program during the winter study period; credit granted only if both semesters (CHIN 101 and 102) are taken

Distributions: (D1)

CHIN 131 (S) Basic Cantonese
An introduction to Standard Cantonese, a major regional language of southern China which is spoken by over 70 million people in Hong Kong, Macao, Guangdong, and Guangxi as well as by many overseas Chinese in Southeast Asia, Hawaii, and North America. Due to the pervasive influence of Hong Kong as well as the economic transformation of Guangdong Province, the prestige of Cantonese within China has been rising steadily over the past few decades. Our focus in this course will be on developing basic listening and speaking skills, though some attention will also be paid to written Cantonese, including the special characters which have been used for centuries to write colloquial Cantonese and which have become even more widely used in Hong Kong since 1997. Since students will ordinarily possess prior proficiency in Mandarin, a closely related language, they should be able to attain in one semester approximately the same proficiency level that is attained in the first two semesters of Mandarin.

Class Format: dialog performance, drills, communicative exercises, oral reading, questions and discussion

Requirements/Evaluation: evaluation is based on classroom performance, homework, quizzes, unit tests, and an oral and written final exam

Prerequisites: CHIN 202 or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Chinese and Asian Studies majors who have no prior background in Cantonese

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)
CHIN 134 (S) Leaving the World Behind: The Literature of Reclusion (DPE) (WS)
Cross-listings: ANTH 134 CHIN 134 COMP 134 REL 134

Primary Cross-listing

Living in a time of political and social turmoil, Confucius told his followers: “When the realm has the Way, show yourself; when it lacks the way, hide.” Reclusion here is a moral choice, justified by the ethical decline of the state. But it could also be a mortal necessity in a period in which government service was a distinctly hazardous pursuit. In other contexts becoming a hermit could instead be figured as aesthetic stance meant to preserve one’s artistic integrity against the dominant claims of society. This course looks at the literature of reclusion-living a life of seclusion from society-in a range of different cultures and periods, from ancient China to contemporary America. With sources that include poems, essays, novels, and films, we will investigate a set of issues surrounding radical seclusion. What different forms does reclusion take? Can one be a hermit without being completely separated from society? What is the relationship between hermits and the state-to what extent does one depend on the other? What are the philosophical and moral implications of eremitism? Is separating oneself from human society an inherently immoral act? What is the relationship between reclusion and technology in the contemporary world? What is the nature of solitude and can it be experienced in a group (for example, in contemporary “intentional communities”)? While most of our work will focus on textual analysis, there will be an experiential component to the course as well. Each student will design and implement their own experiment in (short-term) eremitism.

Class Format: experiential component

Requirements/Evaluation: tutorial papers, responses, and an individual project

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students, Chinese majors, Religion majors, Anthropology majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 134 (D1) CHIN 134 (D1) COMP 134 (D1) REL 134 (D2)

Writing Skills Notes: Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner's paper. Papers will receive substantial writing-based feedback from both the instructor and partner.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social differences and dynamics of unequal power. Acts of reclusion are often ways that individuals can challenge the dominance of the state and other structures of authority indirectly. Modes of reclusion can differ substantially depending on the social standing of the recluse. These are issues that we will examine in the course.

CHIN 140 (F) Introduction to Traditional Chinese Literature

Cross-listings: COMP 140 CHIN 140

Primary Cross-listing

With a written record stretching over 3000 years, China's literary cultures are some of the richest and most varied in human history. Their influence continues to be felt not only in modern China, but also throughout much of the world. This course examines the origins and development of the different literatures of China from their earliest stages up until the end of the imperial system in 1911. We will read texts ranging from the Analects of Confucius to the medieval poetry of the Tang dynasty, from Buddhist sutras to plays about prostitutes and singing girls. An invulnerable monkey god may make an appearance to sow chaos as well. He's difficult to pin down. Some important themes will include: the role of the individual versus that of the community, responses to catastrophe and disorder, the fantastic, the articulation of the self through literature, and ways of dealing with historical and literary legacies. All readings are in English translation.

Requirements/Evaluation: five short writing assignments (2 pages each), one paper (6-7-pages), and a final exam

Prerequisites: none
CHIN 152 (S) Introduction to Taiwanese/Southern Min Language and Culture

This course, which includes a required, fully-funded two-week field trip to Taipei, Quemoy (Jinmen), and Xiamen over Spring Break, constitutes an introduction to Taiwanese, the majority language of Taiwan, which is essentially the same as the native language of Xiamen, China and environs. Different varieties of this language, which is also known as Amoy, Hokkien, Fukienese, and Southern Min are spoken by about 50 million people in Taiwan, southern Fujian, the Philippines, Indonesia, Malaysia, and Singapore. Suppressed in Taiwan by the Japanese from 1895-1945 and by the KMT Chinese government from 1945 through the 1970s, Taiwanese—in both its spoken and written forms—has been experiencing a fascinating revival in recent decades. The most divergent of all the major Chinese "dialects," this language is of special linguistic interest because it has preserved a number of features of Old Chinese. Our focus will be on developing basic listening and speaking skills, though we will also study some of the special characters used to write Taiwanese. The relationship between language and culture and the sociolinguistically appropriate use of language will be stressed throughout. Since students in the course will ordinarily possess prior proficiency in Mandarin, a related language, we should be able to cover in one semester about as much as is covered in the first two semesters of Mandarin. Classes will include dialog performance, drills, communicative exercises, and oral reading and discussion of written Taiwanese. Required Spring Break field trip to Taiwan and China, funded by the Global Initiatives Fund.

Requirements/Evaluation: classroom performance, homework, quizzes, tests, a journal and term paper based on the field trip, and an oral and written final exam; Spring Break field trip to Taiwan and China, funded by the Global Initiatives Fund

Prerequisites: CHIN 301 or permission of the instructor

Enrollment Limit: 8

Enrollment Preferences: if course is over-enrolled, students will be selected based on a statement of rationale and goals for wishing to participate, with CHIN and ASST majors receiving priority

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

CHIN 162 (S) Languages of East Asia

Cross-listings: CHIN 162 ANTH 162 ASIA 162 GBST 162

Primary Cross-listing

An introduction to the three major languages of East Asia: Chinese, Japanese, and Korean. Working with various types of multimedia including audio, video, images, animation, and texts, we'll take up the phonetics, phonology, morphology, and syntax of these three languages, including also their history and writing systems as well as how they function in the societies where they are spoken. Though the emphasis of the course is on linguistic analysis, we'll learn several dozen common expressions in each language. Some of the questions to be discussed are: What are the similarities and differences among these three languages? How are and aren't they related? How did the modern standard form of each develop and what is its relationship to any non-standard languages and dialects? How do these three languages reflect sociolinguistic phenomena such as gender, class, and politeness? How do the writing systems of these languages function and what is the role of Chinese characters in them? What has been the influence of Classical Chinese on Modern Chinese, Japanese, and Korean? How have these languages changed due to influence from English and other languages? And what are the prospects for their future development, including the influence of computers and digital communications? While this course is not intended as a comprehensive introduction to linguistics, it does introduce many basic terms and concepts from that discipline.

Class Format: combination of lecture, discussion, and language practice

Requirements/Evaluation: six quizzes, three 2- to 3-page papers, an oral presentation, and an 8- to 10-page term paper
Prerequisites: none (no prior background in linguistics or any Asian language required, open to all students)

Enrollment Limit: 20

Enrollment Preferences: open to all with preference to first-year students and sophomores

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

CHIN 201  (F) Intermediate Chinese

These two courses are designed to consolidate the foundations built in Basic Chinese and continue developing students' skills in aural comprehension, speaking, reading, and writing. Upon completion of the courses, students should be able to speak Chinese with fluency on everyday topics, reach a literacy level of 1000 characters (approximately 1200 common words written in both traditional and simplified characters), read materials written in simple standard written Chinese, and produce both orally and in writing short compositions on everyday topics. Conducted in Mandarin.

Class Format: Students will do dialog performance and communicative exercises in the speaking/listening classes. We will do read-aloud, questions and answers in the reading/writing classes.

Requirements/Evaluation: classroom performance, homework, daily quizzes, regular written and oral unit tests, and a final exam (including both oral and written portions)

Prerequisites: CHIN 102 or permission of instructor. Students who have never taken a Chinese language course at Williams should take the Chinese Placement Test in GLOW before pre-registering in this course.

Enrollment Limit: 15

Enrollment Preferences: priorities will be given to first-year students and sophomores, then to juniors and seniors.

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

CHIN 214 (F) Foundations of China

Cross-listings: ANTH 212  GBST 212  REL 218  HIST 214  ASIA 211  CHIN 214

Primary Cross-listing

This course examines the foundational period of Chinese civilization, from the earliest evidence of human activity in the geographical region we now call China, through the end of the Han dynasty in the early third-century CE. This is the period that saw the creation and spread of the Chinese script (a writing system that would be the dominant one in East Asia for thousands of years), the teachings of Confucius (whose ideas continue to play a role in the lives of billions of people today), the construction of the Great Wall (which is not, as it turns out, visible from space), and the creation of the imperial bureaucratic system (that was, in essence, the progenitor of the modern bureaucratic state). We will proceed chronologically but focus on a set of thematic topics, including language and writing, religion and philosophy, art and architecture, politics and economics, and science and technology. While this course is entitled "Foundations of China," we will take a critical perspective on narratives, both Chinese and Western, that see Chinese history as an unbroken history of a single "civilization."

Requirements/Evaluation: short writing assignments (approximately 750-1000 words each), quizzes, a mid-term, and a final exam

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: Chinese majors, History majors, Religion majors, and Anthropology majors

CHIN 223 (S) Ethnic Minorities in China: Past and Present  (DPE)

Cross-listings: ANTH 223  CHIN 223

Primary Cross-listing

According to the most recent census conducted in China in 2010, of the 1.3 billion population of China, more than 110 million (8.49%) were ethnic minorities (shaoshu minzu). Most of the minority groups reside in autonomous regions and districts, which constitute 64% of China's total acreage. This course introduces students to the multiethnic aspect of China's past and present. We will ask the central question of "what is minzu" and address various topics such as the minority-group identification project; the definition of minzu (translated as "ethnic group," "nationality," or "race" by different scholars); the intersections between language, religion, tourism, diaspora and ethnicity; historical sino-centric views about "foreigners" and "barbarians" as well as the roles that "barbarians" have played in China's long history. We will examine how social differences and hierarchy are constructed and discuss how power plays in the shaping of "ethnicity." A multidisciplinary approach will be adopted for the course, taking in sources from anthropology, history, literature, ethnic studies, and cultural studies. Throughout the course, the pedagogical techniques of "intercultural dialogue" will be adopted to encourage students to discuss their own ethnic experiences and compare ethnic minority issues in China with similar issues in the United States. Students are also encouraged to come up with real-world solutions and strategies to deal with issues of racism, bias, and discrimination.

Class Format: The course will be offered remotely and adopt a learner-centered, quasi-tutorial format. Every week students will view recorded
lectures and participate in an online discussion forum asynchronously. In addition, students will be placed into smaller groups and meet with the instructor once a week for synchronous discussions.

**Requirements/Evaluation:** class attendance, weekly quizzes, active participation in both the online discussion forum and in-class meetings, two short (5-page) response papers, and one final research paper (10-12 pages).

**Prerequisites:** none, open to all students; no knowledge of Chinese language required

**Enrollment Limit:** 15

**Enrollment Preferences:** current and prospective majors in the Department of Asian Studies, then to first-years

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Materials/Lab Fee:** books and reading packet

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 223 (D2) CHIN 223 (D2)

**Difference, Power, and Equity Notes:** We explore the interactions between "power" and "ethnicity," "center" and "periphery" in the Chinese context and compare them with students' own experiences. Students are required to write one short response paper on their personal encounter with the concept of "race" or "ethnicity." For the final research paper, students are required to identify one problem among all the ethnic minority issues in the Chinese context and write a policy recommendation to make real-world changes.

**CHIN 224 (F) Enlightenment, Revolution, and Modernity: Literature and Intellectual Culture of Modern China**

**Cross-listings:** CHIN 224 COMP 219

**Primary Cross-listing**

This course introduces modern China through literature, culture, and critical thought, covering the last decade of the 19th century, the first half of the 20th century, and a few years after the founding of the People’s Republic of China. We will read important examples of fictions, essays, and poems by modern Chinese thinkers and writers. We will engage with film, theatrical performances, and other forms of popular culture from the late Qing Dynasty to the years before the Cultural Revolution. We will also read works that were created at the peripheries of history such as cross-cultural diasporic Chinese writings beyond the geographical limits of China. Delving into issues of revolution, war, enlightenment, and modernization, we will gain insights through close readings of these works about the fundamental questions that were faced by modern China and Chinese people. The first three decades of the 20th century witnessed the great achievements of canonical modern writers as well as eruption of multiple historical movements. They also saw the emergence of a modernized popular culture, new social classes, and awakening gender activists in the urban spaces. The next twenty years underwent a revolutionary turn to be more concerned with nationalist issues under the impact of war. While a singular revolutionary literature ensued in mainland China after 1949, literary and cultural modernism as a form of resistance in the context of Cold War started to develop in the sinophone regions other than mainland China such as Taiwan and Hong Kong. In this class, all readings are in English. Complementary readings in original Chinese texts are not required but welcomed.

**Class Format:** discussion

**Requirements/Evaluation:** mid-term exam; final exam; final writing project

**Attributes:** GBST East Asian Studies Electives

Not offered current academic year
From the famous human/butterfly metamorphosis in the Daoist text Zhuangzi to contemporary writer Liu Cixin's award-winning "Three Bodies Problem," the "fantastic" has always been part of Chinese literature that pushes the boundary of human imagination. Readers and writers create fantastic beasts (though not always know where to find them), pass down incredible tales, assign meanings to unexplainable phenomena, and reject--sometimes embrace--stories that could potentially subvert their established framework of knowledge. Meanwhile, the "fantastic" is also historically and culturally contingent. What one considers "fantastic" reveals as much about the things gazed upon as about the perceiving subject--his or her values, judgment, anxiety, identity, and cultural burden. Using "fantastic" literature as a critical lens, this course takes a thematic approach to the masterpieces of Chinese literature from the first millennium BCE up until twenty-first century China. We will read texts ranging from Buddhist miracle tales to the avant-garde novel about cannibalism, from medieval ghost stories to the creation of communist superheroes during the Cultural Revolution. The topics that we will explore include shifting human/non-human boundaries, representations of the foreign land (also the "underworld"), the aestheticization of female ghosts, utopia and dystopia, and the fantastic as social criticism and national allegory. All materials and discussions are in English.

Requirements/Evaluation: participation, weekly posting, three writing assignments, final paper, oral presentation
Prerequisites: none

From the "wows" that the first short films invoked at a Shanghai teahouse in 1896 to the $527 million (or 3.4 billion RMB) grossed at the box-office by a 3D fantasy in 2019, Chinese films have struck a responsive chord among domestic and foreign audiences. In this survey course, we will explore the evolving relationships between Chinese films and five "significant others" that are central to film and film-making. Roughly following a chronological order, this course will examine 1) the effect of new technological developments (such as photography, sound, color, special FX) on film; 2) the tension between film and traditional modes of public entertainment (such as operas and shadow plays); 3) film's social role to affirm and contest gender, national, and class identities; 4) the need to garner differing sources of financial support (state funding, cultural entrepreneurs, and transnational capital); and 5) the circulation of Chinese films in the global market. Class materials include various genre films (melodrama, horror, martial arts, comedy, etc.), directors' notes, contemporary reviews, and scholarship in China and media studies. All materials and discussions are in English.

Class Format: All regular course meetings will be conducted ONLINE with mostly a synchronous mode of instruction. Students are also expected to complete asynchronous preparations (view the films and Panopto lecture clips, read scholarship, and contribute to the discussion board) before the regular class hour. All materials are posted on GLOW. For full information, please contact the instructor.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Pre-class discussion posts based on reading and recorded lectures (Graded as Complete or Incomplete); 3) two short papers (3-5 pages); 4) two peer review papers (1-2 pages); and 5) the final project (including a presentation, and a paper or other form of project).

CHIN 227 (S) Made in China or Making “China”?: Twentieth-Century Chinese Performative Culture

Cross-listings: CHIN 227 THEA 227 COMP 227

Primary Cross-listing

This course explores the ways in which twentieth-century Chinese performative culture fashioned our contemporary understanding of “China.” Starting with Chinese hybrid theatres staged in the US, Japan, and semicolonial Shanghai in the early 1900s and ending with the 2008 Beijing Olympic Opening Ceremonies, this course examines performative works drawn from the breadth of an expanded 20th century; including film, spoken drama, intercultural reproductions of Peking and Kun Operas, revolutionary and avant-garde theatre, Chinese Rock concerts, and global mass mediated performances. Emphasis will be placed on how performances (encompassing the performance onstage and the performance-making backstage) placed "China" on the global stage; and shaped racial, gender, and national identities among play-makers and audiences. We will also explore how Chinese operas were reinvented as “traditional culture” and a “national essence” in the early 20th century; and how agents of Chinese performance, as makers of imaginary worlds, serve as both assets and threats to real-life arbiters of power. The class will be structured around the themes of “Inventing Tradition on the World Stage,” “Acting the Right Part,” and “Performing the Nation.” Students will learn to engage performances as cultural texts embedded in national and global histories. By gaining knowledge about major playwrights, directors, artists, networks, and ideas, students will also become fluent in the landscape of performance culture in China. All class materials and discussions are in English.

Class Format: lecture/discussion

Requirements/Evaluation: regular in-class participation, three short papers (3-5 pages), and one final project

Prerequisites: none

Not offered current academic year

CHIN 228 (F) Global Chinese Literature

Cross-listings: COMP 209 CHIN 228

Primary Cross-listing

This course centers upon a critical question in China studies: how to identify and theorize about Chinese literature (cultural productions in other media forms included) created outside the boundaries of Mainland China. "What is Chinese?" "What is Chinese culture?" "What is Chinese literature and culture like beyond China?" "How is China/Chinese perceived in different Sinophone communities?" are some of the major questions we engage in this course. Taking a comparative approach, we will read and analyze Chinese literature produced in various regions and cultures (Hong Kong, Taiwan, Singapore, Malaysia, etc.) at critical historical moments during the second half of the twentieth century and early years of the twenty-first century. We will also read critical essays in studies of Shijie huawen wenxue (Global Chinese-language literature) to gain a theoretical understanding of the scholarship. The purpose of the course is two-fold: First, it is expected that we expand our purview in studying Chinese-language literature and...
culture; second, we will learn to think critically the ways in which such concepts as Chinese and Chineseness travel and translate among peoples, regions, nations, and cultures. The course is conducted online, with a mostly synchronous mode of instruction. No prior knowledge in Chinese is required.

**Requirements/Evaluation:** 5-to-10-minute pop quizzes; 2 term exams; one final paper (5-6 pages)

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** Priority will be given to Chinese majors, Asian Studies majors, and Comparative Literature majors.

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

CHIN 252  (F)  Bridging Theory and Practice: Learning and Teaching Chinese as a Second Language

This course introduces students to the principles of second language acquisition (SLA), a field of study that investigates how people learn a foreign language and provides a basis for understanding research related to foreign language learning and teaching. Theoretical issues to be covered include what it means to know a language, how one becomes proficient in a foreign language, factors that affect the learning process, and the role of one's native language. We will also examine what SLA research has discovered about teaching grammar, pronunciation, vocabulary, and writing. The goal is to explore ways in which SLA theories can be applied to facilitate acquisition of Chinese in terms of learning strategies and curriculum design. This course will be useful to both students who want to improve their own learning of Chinese and those who plan to teach or conduct research on Chinese.

*All readings in English with some examples in Chinese.*

**Class Format:** discussion

CHIN 253  (S)  "Illness" in Modern and Contemporary Chinese Literature and Culture  (DPE)

**Cross-listings:** COMP 254  CHIN 253  WGSS 255

**Primary Cross-listing**

From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"—a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness"; the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.
Class Format: All regular course meetings will be conducted in person.

Requirements/Evaluation: Evaluation will be based on 1) ACTlVE in-class discussion; 2) Publishing GLOW Discussion posts based on reading (Graded as Complete or Incomplete); 3) three short papers (3-5 pages); 4) the final project (including an abstract, a presentation, and a paper or other form of project).

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

CHIN 272 (S) The History and Mythology of Chinese Scripts

Cross-listings: STS 272  CHIN 272  COMP 272

Primary Cross-listing

Written scripts using what are most often called “Chinese characters” have an attested history of over 3000 years and have been used all over the world to represent a range of different languages. In this course we will examine the history and development of Chinese characters from their earliest extant examples on sacrificial animal bones to their often amusingly misguided use for contemporary tattoos. We will look at historical evidence and mythology, carefully constructed grammatical studies and wild orientalist imaginings. Some topics will include: comparisons between the development of Chinese characters and other written scripts, the relationship between Chinese characters and the languages of China, the use of Chinese characters to write non-Chinese languages, Chinese characters in art and calligraphy, theories of connections between Chinese characters and Chinese philosophy and literature, issues of education and literacy, and the future of Chinese characters in the digital age.

CHIN 301 (F) Upper-Intermediate Chinese
The goal of this course is to continue developing students' overall language proficiency. However, special emphasis will be on strengthening students' reading and writing proficiency in standard written Chinese, the grammar and vocabulary of which differ considerably from colloquial Chinese introduced during the first two years of instruction. Conducted in Mandarin.

Class Format: All regular course meetings will be conducted in-person. The class meets four days per week. Specifically, we meet twice in lecture (75 mins) as a whole class; and twice in conference (50 mins).

Requirements/Evaluation: Evaluation will be based on daily classroom performance, short essays, presentations, homework, quizzes, unit tests, and a final exam (oral and written).

Prerequisites: CHIN 202 or permission of instructor. Students who have never taken a Chinese language course at Williams should take the Chinese Placement Test in GLOW before pre-registering in this course.

Enrollment Limit: 15
Enrollment Preferences: Current or perspective majors in the Department of Asian Languages, Literatures, and Cultures; Asian Studies Concentration

CHIN 312 (F) Introduction to Classical Chinese
This course is an introduction to the grammar and basic vocabulary of Classical Chinese, the standard written language of China from around the seventh century BCE through the 1920s (and for many centuries an important written language in Japan, Korea, and Vietnam as well). Aspects of Classical Chinese continue to play a role in both written (e.g., in newspaper, academic, and legal writing) and in spoken (e.g., proverbs and
aphorisms) modern Chinese. Our work in this course will be based on reading, translating, and discussing philosophical, political, literary, and historical anecdotes from the Spring and Autumn (770-481 BCE) through the Han (206 BCE-220 CE) periods, as they served as the foundation for the language. We will conduct discussions of grammatical and philological issues primarily in English and most of our translation work will be from Classical Chinese into English. We will, however, frequently discuss the points of intersection between Classical and Modern Chinese. Students are required to have completed CHIN 202 or the equivalent. Students who have extensive reading knowledge of Chinese characters through other languages (such as Japanese) may also take this course with the instructor's permission.

Requirements/Evaluation: classroom performance, homework, quizzes, tests, and a final exam
Prerequisites: CHIN 202 or extensive reading knowledge of Chinese characters through other languages
Enrollment Limit: 40
Enrollment Preferences: Students who have completed CHIN 202 or have extensive reading knowledge of Chinese characters through other languages

CHIN 413  (S)  Intermediate Classical Chinese: Ideas of Authority in Classical Chinese Literature

This course builds on the foundation established in Introduction to Classical Chinese (CHIN 412) by examining longer and more complicated texts from the Warring States (403-221 BCE) and Han (206 BCE-220 CE) periods. While our focus will be on careful linguistic analysis and translation, we will also discuss these texts in terms of their philosophical ideas, rhetorical methods, and cultural and historical contexts. The works we will read include some of the foundational texts of Chinese philosophical and political thought, including the Confucian Analects, the Mencius, and the Zhuangzi. While this course is a continuation of Chinese 312, students with prior work in Classical Chinese (through study abroad, attending high school in a Chinese speaking region, etc.) are welcome as well.

Requirements/Evaluation: classroom performance, homework, quizzes, tests, and a final exam

Prerequisites: CHIN 312 or prior coursework in Classical Chinese

Enrollment Limit: none

Enrollment Preferences: none

CHIN 420  (S)  Masterpieces in Modern Chinese Literature

"To modernize the Chinese people, it has to start from the modernization of the genre ‘novel’." Liang Qichao, the famous Chinese intellectual in the early twentieth century, envisioned a collapsing China to be salvaged by, first, its modernized literature. Indeed, throughout China's long century of struggle, exploration, and transformation, literature has been playing a crucial role in negotiating (the consequence of) modernity, fueling revolution, investigating human interiority, constructing national identity, and coping with trauma and diaspora. This course introduces students to the masterpieces in modern Chinese literature and their representations of critical events in twentieth-century Chinese history. In this course, we will focus on the genre "novel" and pay close attention to the language and literary devices that the authors use for storytelling, characterization, and self-representation. The class is organized by themes, such as, for example, modernity, revolution, diaspora, root-seeking, trauma, science fiction and so on. Through class discussions, writing assignments, and oral presentation on the final project, this course will further develop students’ language proficiency, especially reading ability and effective communication in a formal setting. This course also trains students to be a critical reader who will be able to not only analyze the key moments and literary masterworks of modern China but also reflect on the complexity of Chinese culture vis-à-vis its tradition and the global context. The course is conducted in Mandarin.

Class Format: discussion

Requirements/Evaluation: participation, presentations, quizzes, discussion questions posting, 3 writing assignments, final project

Prerequisites: CHIN 402 or permission of instructor

CHIN 422 (S)  Old Shanghai, New Shanghai

Cross-listings: CHIN 422  ASIA 122  ASST 122

Primary Cross-listing

Once nicknamed as "Paris of the East," Shanghai, now a megacity with a population of 25 million, is the industrial, commercial and financial center of contemporary China. Shanghai is often depicted as a metropolis that marked the beginning of China's modernity and urban culture. People from other regions in China see Shanghai as a city full of opportunities, but characterize its people as astute and shrewd, cocky and unwelcoming. Foreigners, however, find the city appealing and its people open-minded. Jews fleeing Nazi persecutions during WWII, found Shanghai to be a "paradise of ghetto" that provided the only haven of survival. For local people, there have always been two Shanghai: an old one and a new one. They are proud of the new Shanghai but constantly nostalgic about the old one. This tutorial examines the multifaceted city of Shanghai and its people from historical and cultural perspectives. We will look at the city's history (from the late nineteenth century to present day), its local language and culture, and everyday life of the people (including migrants and foreigners) living in it. The central ideas we will explore are "modernity" and "regional identity." We will investigate how these theoretical constructs play out in the making of the city of Shanghai and the formation of its unique local identity. Course readings include historical and cultural studies as well as documentaries in English about Shanghai, and primary sources in Chinese in a wide range of genres including fiction, essays, and films (English translation of the primary sources are available for students taking the course in English). The course is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST 122T and students wishing to take the course in Chinese should register under CHIN 422T. Students will come away with a critical understanding about China's regional cultures and one of its most important metropolitan cities. Chinese language learners will be able to improve their reading and writing skills in Chinese through this course. The course has a required field trip to a Chinese restaurant on a Saturday or Sunday, depending on all students' schedules.

Requirements/Evaluation: each tutorial pair will meet with the instructor for one hour per week, during which time we will discuss a 5-page paper that one of the partners has submitted

Prerequisites: none for students taking ASST 122; CHIN 402 or permission of the instructor for students taking CHIN 422

Enrollment Limit: 10

Enrollment Preferences: current or prospective Asian Studies, Chinese, or Japanese majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

CHIN 423 (F)  A Century of Romance: Emotional Life in Modern Chinese Literature and Visual Culture

The modernization of the Chinese nation is accompanied by revolutionary changes in Chinese people's understanding of their domestic world. Through readings of literary and visual productions, this course introduces students to the modern Chinese conceptualizations of sexuality, love, and family life at varying historical stages. With emotional feelings and experiences at its thematic center, the course is mainly organized by genre and form, the purpose of which is twofold: one, to help students understand comprehensively how the private life of modern Chinese has been intertwined with the grand history of a nation-state; two, to develop students' language proficiency through the study of different literary genres and visual forms. We will read literary and visual representations of, for instance, the transforming family structures in the revolutionary years, romantic experiences during the socialist construction, and gender relations in the reform era. We will, through exercises of translation, interpretation, and creative imitation, get ourselves more familiar with genres including but not limited to poems, short stories, correspondence, diaries, critical essays, song lyrics, play scripts, etc. The course is conducted in Mandarin, but some bilingual materials are also involved for translation and interpretation purposes.
CHIN 424 (S) Navigating across Cities: Space, Materials, and (Wo)Men in the Sinophone World

This course focuses on the theme of urban modernity in Sinophone world, namely, Chinese-speaking districts and regions including but not limited to PRC China. Through the lens of literary and multi-media productions such as fictional writings, films, TV programs, newspaper reports and columns, stage performance, and art exhibitions that are created among various Chinese-speaking communities in and about the urban settings---Beijing, Shanghai, Chengdu, Hong Kong, Taipei, cities in other Asian countries as well as those in the United States---this course expects to discuss the representations of space, materials, and people that are connected to and by such a language called "Chinese" in its broadest, most complicated, and, in some cases, controversial sense. What is Chinese(s)? What is Chinese culture(s)? What roles does Chinese language play in urban productions? How is space and material experienced through a particular language and language culture? These are some of the questions we will explore in the course. The classes are conducted with a combination of seminars, semi-tutorial writing workshops, oral presentations, and field trips (contingent upon available events). All materials for discussion are in Chinese.

Class Format: all materials for discussion are in Chinese

Requirements/Evaluation: several papers; oral presentation

Prerequisites: none

CHIN 425 (F) Becoming Taiwan: Social, Cultural, and Economic Discourses of Modern Day Taiwan

A small island in East Asia and home to 23 million people, Taiwan is the largest economy that is not a member of the United Nations. From 1949, when the Nationalist Party (KMT) retreated to Taiwan after the Chinese Civil War, to becoming one of the Four Asian Tigers in the latter half of the 20th century, Taiwan has developed into a multifaceted society through an array of social/cultural/economic changes associated with industrialization, globalization and identity formation. In this course, we will examine some of the signal examples of these experiences that define the Taiwan society that it is today through literary works and films, as well as journalistic and academic articles. By way of group discussions and individual projects, students will acquire domain-specific vocabulary and develop abilities to analyze and discuss in Mandarin complex ideas related to the aforementioned issues. Using a semi-tutorial format and collaborating with a graduate program in Chinese pedagogy in Taiwan, this course is designed to provide opportunities for Williams students to engage in direct conversation with a language partner on course assignments and for the MA students in Taiwan to gain practical training in helping non-native speakers of Mandarin Chinese develop linguistic proficiency at the levels of Advanced Low to the Advanced Mid based on the ACTFL proficiency guidelines.

Class Format: semi-tutorial format, students will meet as a large group periodically for linguistic development and two to three people groups regularly for discussions

Requirements/Evaluation: quizzes, presentations, posting of discussion questions, two position papers (3 pages) and one final paper (5 pages)

Prerequisites: CHIN 402 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: seniors and Chinese majors; email the instructor
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

Not offered current academic year

CHIN 427 (S) Spring Grass: A Peek into Inequality in China (DPE) (WS)

Cross-listings: ASIA 127 WGSS 127 CHIN 427 ASST 127

Primary Cross-listing

Spring Grass (Chuncao) is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues.

Through close readings of the novel, the eponymous TV drama series, documentaries, films, and short stories depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the sky" add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Class Format: remote instruction

Requirements/Evaluation: active participation in tutorial meetings, five 4-5 page tutorial papers, five 2-page critiques, online writing portfolio as the final project.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to freshmen and sophomores who register under ASST or WGSS, and to Chinese language learners who register under CHIN.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: books and course packet.

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 127 (D1) WGSS 127 (D2) CHIN 427 (D1) ASST 127 (D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students' first drafts and students are required to turn in a revised version. At the end of the semester, students will compile an online writing portfolio to include their best works.

Difference, Power, and Equity Notes: The issue of "inequality," including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.
CHIN 428 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228  COMP 297  CHIN 428

Primary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

CHIN 99 (W) Independent Study: Chinese

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study

Grading: pass/fail only

Not offered current academic year
The course offerings in Classics enable students to explore the ancient Greek, Roman, and Mediterranean worlds from various perspectives, including literature, history, art, archaeology, philosophy, and religion. Courses are of two types: language (Greek and Latin) and courses in which all the readings are in English translation (Classical Studies). The 100-level language courses are intensive introductions to Greek and Latin grammar and reading skills; the 200-level language courses combine grammar review with primary readings from Greek or Latin texts of key historical periods; Latin 302 and the 400-level language courses are seminars that explore in depth selected authors or topics and the methods of analysis appropriate to each of them. Classical Studies courses offer introductions to and more specialized study of the literature, visual and material culture, history, and other aspects of the Greek and Roman worlds.

MAJOR

Majors and prospective majors are encouraged to consult with the department’s faculty to ensure a well-balanced and comprehensive selection of Classics courses appropriate to their individual interests. A course in ancient history is strongly recommended. Majors may also benefit from advice on courses offered in other departments that would complement their particular interests in Classics. A reading knowledge of French, German, and Italian is useful for advanced study in Classics and is required in at least two of these modern languages by graduate programs in classics, ancient history, classical art and archaeology, and medieval studies.

The department offers two routes to the major: Route A emphasizes more coursework in Greek and Latin, while Route B emphasizes more Classical Studies courses.

Route A: (1) Six courses in Greek and/or Latin, with at least two 400-level courses in one language. (2) Three additional courses from the offerings in Greek, Latin, or Classical Studies or from approved courses in other departments and programs.

Route B: (1) One course each from any two of the following categories: literature (CLAS 101 or CLAS 102); visual and material culture (CLAS 209 or CLAS 210); history (CLAS 222 or CLAS 223). (2) Four courses in Greek or Latin with at least one at the 400-level, or the four-course sequence CLLA 101, 102, 201, and 302. (3) Three additional courses from the offerings in Classical Studies or from approved courses in other departments and programs.

Classics Colloquium: All Classics majors in residence are expected to participate fully in the life of the department through attendance at lectures and other departmental events.

THE DEGREE WITH HONORS IN CLASSICS

Students who wish to be considered for the degree with honors will normally prepare a thesis or pursue appropriate independent study in one semester and winter study of their senior year. The thesis or independent study offers students the opportunity to work in depth on a topic of their choosing and to apply and develop the techniques and critical methods with which they have become acquainted during their regular course work. It may also include relevant work with members of other departments. In order to write a thesis, students normally must have a minimum GPA of 3.3 in their major courses and must submit a thesis proposal that earns departmental approval before the end of the spring semester of their junior year. To be awarded the degree with honors in Classics, the student is required to have taken a minimum of ten semester courses in the department (not including the thesis or independent study) and to have demonstrated original or superior ability in studies in the field both through course work and through the thesis or equivalent independent study.

COURSE NUMBERING SYSTEM

Language Courses: The numbering of courses through the 300 level reflects the prerequisites involved. The only prerequisite for any 400-level course is Greek 201 or Latin 302. The rotation of 400-level courses is arranged to permit exposure, in a three- to four-year period, to most of the important periods and genres of Greek and Latin literature. Students may enter the rotation at 100-level, 200-level, or 300-level, depending on previous experience.
Classical Studies Courses: The numbering of these courses does not reflect a strict sequence, and most of them do not assume prior experience in Classics or a cross-listed field. The following pairs of courses offer excellent introductions to key areas of study within Classics: CLAS 101 and 102 (literature), CLAS 209, 210 (visual and material culture), CLAS 222, 223 (history).

STUDY AWAY

We strongly encourage Classics majors to study away in their junior year, at programs in Italy (especially the semester-length program at the Intercollegiate Center for Classical Studies in Rome), at programs in Greece (especially the College Year in Athens, which students need only attend for one semester), and in the Williams at Oxford Program. Our majors have also had excellent Classics experiences in other study-abroad programs in Italy and Greece and at various universities in Europe and the United Kingdom. In addition, we encourage students to take advantage of opportunities available in the summer: study abroad programs in Italy and Greece, archaeological digs, or even carefully planned individual travel to sites in Greece, Italy or other areas of the ancient Mediterranean world. When the college cannot do so, the department may be able to provide some financial support for summer study abroad. The department’s faculty are always available to advise students, the chair has materials to share, and students can visit the department’s website for information and links to helpful sites. Majors who are considering studying away should especially consult with faculty members about the implications for language study.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g., syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Complete syllabus and course description, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

No, but students should consult with the department about language sequences.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

CLAS 101 Greek Literature: Performance, Conflict, Desire

In the Iliad, Paris’ desire for the famously beautiful Helen leads to the Trojan War, the devastating conflict between the Trojans and the Greeks retold and reimagined time and again in ancient Greek literature. The stories of Troy and its aftermath were performed not only as epic poems (as in the Iliad and the Odyssey), but also evoked by lyric song, dramatized on the tragic stage, and recounted in oratory. Beginning with the Homeric epics, this course explores the recurring and ever-shifting debates, longings, hostilities, and aspirations that drive Greek literature and shape its reception, paying special attention to questions of performance context and audience. We will consider, for example, how the competitive and erotically-charged environment of the Greek symposium is crucial for understanding both Sappho’s songs and the philosophical dialogues of Plato and Xenophon. The nexus of performance, conflict, and desire will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identity, the workings of Athenian democracy, and the development of literary genres. This course will include readings from the works of, e.g., Homer, Sappho, Herodotus, Aeschylus, Sophocles, Euripides, Aristophanes, Thucydides, and Plato, and assignments will incorporate interactive and experiential elements, such as recitations, staged readings, and debates. All readings are in translation.
In one of the earliest known attempts to explain the universe, the philosopher-poet Empedocles wrote that everything in existence is moved by love and strife. This fundamental pair of forces has shaped accounts of human experience for over two millennia. Are these principles simple opposites, complements, or even two aspects of a single concept? What happens when they fall out of balance or both are absent? Can love consume strife, or strife destroy love? Artists and writers have taken up these and similar questions in myriad forms, from nursery rhymes to epic poems, from philosophical contemplation to popular song, from the tragic stage to the silver screen. This course will use Greek and Latin works as touchstones for exploring ancient and modern representations of love and strife. Our ancient sources may include Homer, Sappho, Sophocles, Horace, Catullus, and Seneca, as well as architecture, graffiti, and epitaphs. Later sources may include Shakespeare and screwball comedies, Broadway standards and the Beatles, Renaissance fresco and modern sculpture, and literary professions of love from the silly to the sublime. All readings are in translation. All readings will be in translation.
Requirements/Evaluation: Class participation, short written assignments, and a final paper/project.
Prerequisites: None.
Enrollment Limit: 12
Enrollment Preferences: If the course is overenrolled, preference will be given to Classics and Comparative Literature majors and prospective majors.
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

CLAS 202 (F) Greek Tragedy
Cross-listings: CLAS 202 COMP 220 THEA 220

Primary Cross-listing

Ancient Greek tragedy was a cultural phenomenon deeply embedded in its 5th-century Athenian context, yet it is also a dramatic form that resonates powerfully with 21st-century artists and audiences. This course examines tragedy on both levels. We will read such plays as Aeschylus' [Agamemnon], Sophocles' [Electra], and Euripides' [Medea] in English translation, considering their literary and dramatic features as well as their relationship to civic, social, and ritual contexts. We will discuss such topics as the construction of gender and identity on the dramatic stage, the engagement between tragedy and other literary genres, and the distinctive styles of the three major Athenian playwrights. We will also survey a set of recent productions and adaptations of these plays, with a particular focus on versions by women, people of color, and non-Western playwrights and producers. We will reflect on how a dramatic form largely produced by and for Athenian citizen men became a creative resource for a remarkably diverse range of 21st-century artists, and explore how modern productions offer fresh perspectives on ancient material.

Requirements/Evaluation: class participation, several essays, brief oral presentations
Prerequisites: none
Enrollment Limit: 35
Enrollment Preferences: majors, first-years, sophomores
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1)

CLAS 203 (S) History of Ancient Greek Philosophy
Cross-listings: CLAS 203 PHIL 201

Secondary Cross-listing

Very few people believe that everything is water, that we knew everything before birth, that philosophers ought to rule the state, or that the earth is at the center of the cosmos. Why then should we spend our time studying people who in addition to having these surprising beliefs have been dead for 2500 years? First of all, Greek thinkers, especially Plato and Aristotle, radically shaped the trajectory of western thought in every area of philosophy. No one can have an adequate understanding of western intellectual history without some familiarity with the Greeks, and we might think that an understanding of our intellectual history can deepen our understanding of our own situation. More importantly, many of the thinkers that we will read in this class are simply excellent philosophers, and it is worthwhile for anyone interested in philosophical problems to read treatments of these problems by excellent philosophers. We will begin the course by looking briefly at some of the Presocratic philosophers active in the Mediterranean world of the seventh through fifth centuries BCE, and some of the sophists active in the fifth century. We will then turn to several of Plato's dialogues, examining Plato's portrayal of Socrates and his development of a new and profoundly powerful philosophical conception. Finally, we will examine some of Aristotle’s works on metaphysics, epistemology and ethics, considering some of the ways Aristotle’s thought responds to that of predecessors.
Class Format: The format of this class is going to be different this year. We will not have in-person lectures. Instead, approximately three 1-hour recorded lectures will be made available each week for students to watch. There will also be meetings of 3-4 students with the instructor each week for which some students will write papers and others will prepare comments. These will be either in-person or via zoom. Finally, there will be a synchronous zoom session each week for larger group discussion.

Requirements/Evaluation: (i) Students will write papers (4-6 pages) for the small groups meetings and will comment on the papers of their peers (1-2 pages); (ii) There will be two take-home exams including a comprehensive final exam; (iii) Active and informed participation in small group discussions.

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Philosophy and Classics Majors.

Expected Class Size: 15-20

Grading: no pass/fail option, yes fifth course option

Unit Notes: Philosophy majors must take either PHIL 201 or PHIL 202 (and are encouraged to take both)

CLAS 205  (S)  Ancient Wisdom Literature

Cross-listings:  JWST 205  REL 205  COMP 217  CLAS 205

Secondary Cross-listing

The Biblical books of Proverbs, Ecclesiastes, and Job are often grouped together under the Hebrew category of hokhmah, 'wisdom.' Although these books are very different in content, they can all be interpreted as meditations on ethical and practical philosophy. In this way, they represent the Hebrew Bible’s canonical embrace of a widespread Near Eastern literary phenomenon. From the instructional literature of Egypt and Mesopotamia to Greek didactic poetry and fables, ancient Mediterranean cultures offer a wide range of texts that engage the issues of personal behavior, leadership, and justice. Starting with the central wisdom books of the Hebrew Bible and moving through relevant material from the Apocrypha, New Testament, and the Egyptian and Babylonian traditions, this course will examine the literature of wisdom throughout the ancient world with an eye toward understanding its various social, political, and philosophical contexts. We will then consider the Greek wisdom tradition in such texts as Hesiod’s Works and Days, Aesop’s fables, and fragments from the pre-Socratic philosophers. Finally, we will explore the influence of these ancient sources on later expressions of wisdom in medieval European literature, as well as more recent examples such as Benjamin Franklin’s Poor Richard’s Almanack.

All readings are in translation.

Requirements/Evaluation: class participation, short written assignments, and two longer papers

Prerequisites: none

CLAS 207 (F) From Adam to Noah: Literary Imagination and the Primeval History in Genesis

Cross-listings: COMP 250  REL 207  JWST 207  CLAS 207

Secondary Cross-listing

How long did Adam and Eve live in the Garden of Eden? What was the mark of Cain? Why did Enoch not die? Who was Noah's wife? How did Giants survive the Flood? These are only a few of the fascinating questions that ancient readers and interpreters of the Book of Genesis asked and attempted to answer. The first ten chapters of Genesis present a tantalizingly brief narrative account of the earliest history of humankind. The text moves swiftly from the Creation to the Flood and its immediate aftermath, but this masterful economy of style leaves many details unexplained. This course will explore the rich and varied literary traditions associated with the primeval history in the Genesis. Through a close reading of ancient noncanonical sources such as the Book of Enoch, Jubilees, and the Life of Adam and Eve, as well as Jewish traditions represented in Josephus, Philo, and Rabbinic literature and other accounts presented in early Christian and Gnostic texts, we will investigate the ways in which the elliptical style of Genesis generated a massive body of ancient folklore, creative exegesis, and explicit literary re-imagining of the early history of humankind. We will then turn to some continuations of these variant traditions in medieval literature, with particular attention to the material on the figures of Cain and Noah. All readings are in translation.

Class Format: For the fall of 2020, this course will taught online. The seminar will meet at the regularly scheduled time twice a week.

Requirements/Evaluation: Class participation and several writing assignments.

Prerequisites: None.

CLAS 210 (F) Art and Experience in Ancient Rome

Cross-listings: ARTH 211  CLAS 210

Primary Cross-listing

To see and be seen--it could be argued that this was the very definition of Roman culture. Much like today, spectacle and the dissemination of images lay at the heart of political and social life. The visual arts were crucial both to how the Romans rehearsed their identity and goals as a community, and to how individual Romans communicated their achievements and values. In this course, lectures on the art and architecture of ancient Rome (ca. 300 B.C.-A.D. 400) will provide the backdrop for an investigation into the role visual culture played in the lives of all Romans, including slaves and former slaves, women and children. Special topics will include the funeral and funerary portraiture; the military triumph and monuments of victory; the house as a site of memory; the use of images on coins; participation in religious celebrations; displays of war booty and prisoners of war; experience and audience at the racetrack and in the amphitheater; the spectacle of food and dining; and the Roman street as both contested space and a place for art. Readings will include a combination of primary and secondary sources. All readings are in translation.

Requirements/Evaluation: attendance and preparation, a mid-term, a final, and a medium-length paper

Prerequisites: none

Enrollment Limit: none

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

ARTH 211 (D1) CLAS 210 (D1)
CLAS 211 (S) Performing Greece

Cross-listings: CLAS 211 COMP 248 THEA 211

Primary Cross-listing

Modern readers often encounter Homer, Sappho, Sophocles, and the Greek orators through written texts, yet their first ancient audiences experienced the words of these authors not in silence and solitude, but in live performance contexts. This course, therefore, will take up performance as a critical lens for interpreting ancient Greek literature, situating these works within a rich culture of song, dance, speech, and debate. We will survey the evidence for the musical, visual, and embodied aspects of Greek literature, and also reflect on the rewards and limits of enlivening the ancient world through the reconstruction and re-imagination of its performative dimensions. Our attention to performance will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identities, the workings of Athenian democracy, and the development of literary genres, and it will also enable us to consider the reception and reperformance of Greek myth and literature from new angles. All readings are in translation.

Class Format: This is a hybrid course that will likely involve both Zoom and in-person sections; precise format (including potential alternate meeting times) TBD in consultation with enrolled students.

Requirements/Evaluation: active participation in class, short essays/projects (2-5 pages each, 5 total, including a longer final essay/project)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: first-year students and sophomores and majors in Classics, Comparative Literature, and Theatre

Expected Class Size: 10-12

Grading: yes pass/fail option, yes fifth course option

CLAS 213 (S) The Human Figure in the Ancient Mediterranean

Cross-listings: ARTH 213 CLAS 213

Secondary Cross-listing

From the earliest representations in the third millennium BCE until the end of the Roman period in the fifth century CE the human body remained the foremost choice of subject for artists, patrons, critics, and the public in the ancient Mediterranean world. This course will consider cultural ideas about the body in antiquity, and trace their repercussions in the modern era. Over the course of the semester we will concentrate on 12 case studies, each representing a specific concept from an area of the Mediterranean. Topics include the "shining bodies" of bare-chested potentates in Egypt and the ancient Near East, statues that give the dead voice, the perfection and humanity of the bodies of the gods, ancient Greek science and the nude goddess, the pathos of Hellenistic athletes, and the interpretative challenge of the ambiguous and sensuous marble forms of the Barberini Faun or the Sleeping Hermaphrodite, both found in Roman contexts. We'll consider the cross-influences of ideas about gender, class, race and the body coded in public and private art. Reading material will include ancient literature in translation as well as contemporary critical essays. Evaluation will be based on participation in discussion and group presentations, in-class writing assignments, short response papers, and a final 8-page research paper. Engaged library research of original paper topics will be supported throughout the semester.

Requirements/Evaluation: participation in discussion and group presentations, in-class writing assignments, short response papers, a final 8-page research paper.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: open to any student, majors and non-majors, with interests in the ancient world; no experience with art history required; first-years and sophomores are encouraged

Expected Class Size: 12
CLAS 214 (S) Athletics and Literature in Ancient Greece (WS)

Cross-listings: COMP 252 CLAS 214

Primary Cross-listing
The modern Olympic games are one of the most visible traces of ancient Greek influence on contemporary culture. Less well-known, however, are the complex and challenging poems (originally songs) of Pindar and Bacchylides that celebrated the victors of the archaic Greek games. These victory odes are a rich source for the study of Greek culture, from their vivid descriptions of heroic feats to their philosophical claims about human life and divine favor. Athletic competition provides the impetus for these songs and constitutes one of their major themes, yet their significance extends far beyond a single athlete or festival. In this course, we will interrogate the relationship between athletics and literary production in the ancient Greek world. We will use both primary and secondary sources to develop familiarity with major festivals, games, events, and figures, and use that knowledge to contextualize our analysis of Greek literature. Ancient Greek athletic discourse will thus provide an entry point to broader reflections on the literary construction and representation of the body and its movement, as well as the interplay between literature and its cultural contexts.

Requirements/Evaluation: brief writing assignments, essays, class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: majors, first-years, sophomores

Writing Skills Notes: Weekly (pass/fail) writing assignments (1-2 pages), five graded essays (two of which will be revisions and expansions of previous work, 4-5 pages each), regular in-class workshops on writing style and essay structure. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

Cross-listings: CLAS 215 REL 215

Secondary Cross-listing
In this course, students will be introduced to the New Testament through an exploration of how the New Testament became a book. We will start by examining the letters of Paul--its earliest texts--in terms of the habits and traditions of ancient letter-writing. We will similarly place the other texts of the New Testament in the context of Greek, Roman, and Jewish literary traditions and conventions. As the semester moves forward, we will examine how the New Testament itself became a material object--a book--and how its changing material status shaped its meaning and functioning. We will see the New Testament transform from a library of separate scrolls and/or codices (a library which was occasionally bound together into a single codex), to a luxury object in the Middle Ages, to a cheap printed object in the wake of the printing revolution of the 19th century, to its modern life as both a highly marketed object and a searchable digital thing, in online spaces and mobile apps.

**CLAS 219  (S) Judaism Under Ancient Greek and Roman Imperialisms**

**Cross-listings**: CLAS 219  REL 219  JWST 219

**Secondary Cross-listing**

How did ancient Greek and Roman empires shape the beginnings of Judaism? In this course, we will examine how Greek and Roman imperial systems of identity, ethnicity, law, religion, and knowledge affected Judaism as a religious and cultural system. We will pay particular attention to the ways that Jews/Judeans responded to these imperial pressures, especially as those responses articulated "hybrid" versions of Judaism that were informed both by resistance to imperial centers as well as the sheer hegemony of those cultural systems. The course thus uses (and introduces students to) postcolonial theory to study the history of Judaism under Greek and Roman empires. Readings for this course will include a wide array of ancient Jewish works, such as the books of Maccabees, Flavius Josephus, Philo of Alexandria, the Dead Sea Scrolls, and the Mishnah. The course will also include select readings from early Christian texts and postcolonial theory.

**Requirements/Evaluation**: active participation and preparation, papers

**CLAS 221  (F) Technologies of Religion in the Early Christian World**

**Cross-listings**: CLAS 221  REL 221

**Secondary Cross-listing**

What is the relationship between religion and technology? How do various technologies affect the production and distribution of religious knowledge? Facilitate communication and interaction with the divine? Transform the religious self? In this course, we will look specifically at the uses and effects of technology on religion in the early Christian world. While focused most directly on the influence of technology on the development of early Christianity, the course will also explore the place of technology in coterminous movements: in "pagan" sacrifice, Neoplatonic divination, and Stoic practices of the self. By examining technologies of text production, sacrifice, memory, and the self, the course will shed light on early Christianity and its competing religious and philosophical movements, as well as on the nature of technology's relationship to religion.

**Requirements/Evaluation**: active preparation and participation, short reading response papers (1 page), and a final exam

**Prerequisites**: none

CLAS 221 (D1) REL 221 (D2)

**Not offered current academic year**
Ancient Greece has been thought to embody the origins of Western civilization in its institutions, values, and thought; it has been seen as the infancy of modern society, with the attributes of innocence, purity, and the infant's staggering capacity for exploration and learning; it has been interpreted as an essentially primitive, violent culture with a thin veneer of rationality; and it has been celebrated as the rational culture par excellence. The study of ancient Greece indeed requires an interpretive framework, yet Greek culture and history have defied most attempts to articulate one. We will make our attempt in this course by investigating ancient Greece as a set of cultures surprisingly foreign to us, as it so often was to its own intellectual elite. But we will also come to appreciate the rich and very real connections between ancient Greek and modern Western civilization. The course will begin with Bronze Age-Greece and the earliest developments in Greek culture, and will conclude with the spread of Greek influence into Asia through the conquests of Alexander the Great. We will explore topics such as the aristocratic heritage of the city-state, the effects of pervasive war on Greek society, the competitive spirit in political and religious life, the confrontations with the East, the relationship of intellectual culture to Greek culture as a whole, Greek dependence on slavery, and the diversity of political and social forms in the Greek world.

**CLAS 226 (S) The Ancient Novel**

**Cross-listings:** COMP 226 CLAS 226

**Primary Cross-listing**

Pirates, prostitutes, witches, and donkeys: the novels of ancient Greece and Rome often surprise their modern readers with a striking blend of humor, violence, and eroticism. From damsels in distress and daring rescues to impossible journeys and magical transformations, this course will consider these remarkable and varied texts within their own literary and cultural contexts. By reading the works of such authors as Longus, Lucian, Apuleius, and Heliodorus, we will survey the different forms of extended prose fiction that have traditionally been called the ancient "novel." We will confront the challenges of defining the genre itself, and consider both its ancient literary heritage and its later reception and afterlife. We will also explore the ways in which these texts engage with the complex and diverse world of the ancient Mediterranean, paying close attention to the representation of gender, sexuality, ethnicity, and cultural identity. *All readings are in translation.*

**Requirements/Evaluation:** class participation, in-class presentations, brief reading responses (1-page), and a final paper (8-10 pages)

**Prerequisites:** none, although some prior knowledge of the ancient Mediterranean will be useful

**CLAS 227 (F) The Examined Life: Ancient Ethical Literature at Rome**

**Cross-listings:** COMP 277 CLAS 227

**Primary Cross-listing**

The philosophical schools of classical antiquity had in common a commitment to *eudaemonia*; that is, they considered human flourishing as a chief goal of life. This aim was not limited to professional philosophers, however. Rather, the question of how humans should live was a widespread and deeply felt concern, and ethical considerations pervade ancient texts across many genres. This course will focus on works of literature that consider how to live wisely, happily, and well, whether through seeking pleasure or acting justly, whether through political engagement or by retreating from society. We will analyze a wide variety of texts, but all are animated by an ethical premise most famously enunciated by Socrates, namely, that the unexamined life is not worth living. Readings may include dialogues, speeches, correspondence, plays, and poems, among them the *Satires* and *Epistles* of Horace, Seneca's *On Leisure* and *On the Happy Life*, and the *Meditations* of Marcus Aurelius. All readings will be in translation.
**Requirements/Evaluation:** class participation, several short written assignments, one or two longer essays (around five pages)

**Prerequisites:** none

**Enrollment Limit:** 24

**Enrollment Preferences:** Classics majors, Comparative Literature majors, or intending Classics and Comparative Literature majors

**Expected Class Size:** 20

### CLAS 230 (F) From Alexander to Cleopatra: Remodeling the Mediterranean World

**Cross-listings:** CLAS 230  ARTH 230

**Primary Cross-listing**

The period between Alexander the Great (323 B.C.) and Cleopatra (30 B.C.), like our own, was characterized by internationalism, migration, wide-ranging cultural values and religious practices, and ethnically diverse urban populations. Large numbers of non-Greeks came under the control of newly established Hellenistic kingdoms, while in the west Rome's emergence as a superpower offered both new opportunity and danger. The Hellenistic world was a place of vibrant change in the spheres of art, architecture, urban planning, and public spectacle. In this course, we will consider the art and archaeology of this period in their political, social, and religious contexts, focusing on the visual language of power and royalty; developments in painting, sculpture, mosaics, and monumental architecture; interactions between Greeks and non-Greeks; and the impact of Greek culture in Rome.

**Requirements/Evaluation:** class participation, quizzes, midterm, final exam, and one medium-length paper

**Prerequisites:** none

**Enrollment Limit:** 40

**Enrollment Preferences:** students with an interest in the ancient Mediterranean world and in the history of western art and architecture

**Expected Class Size:** 35

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

### CLAS 231 (S) Travel in the Ancient Mediterranean

**Cross-listings:** CLAS 231  COMP 253

**Primary Cross-listing**

The ancient Mediterranean was a vast yet deeply interconnected world, not unlike our own. In spite of difficulties, people traversed it as traders, explorers, colonial invaders, refugees, pilgrims and even tourists. In this course, we will study both the practical realities of travel in the ancient Greco-Roman world and how the idea of journeys shaped and was shaped by these cultural contexts. We will navigate from Ithaca to Italy, from the depths of the underworld all the way to the Moon, as we read foundational travel narratives from Homer, Apollonius of Rhodes, Vergil, Lucian, and Apuleius. We will discuss how these texts represent cultural interactions, and in particular how they construct foreign "others" as well as local identities, and how they interrogate the limits and possibilities of human knowledge. Finally, we will observe how these texts themselves contribute to the emergence of a genre of travel narratives, with influences stretching to the modern day. All readings will be in English

**Class Format:** Class meetings will likely be primarily virtual, with potential for some in-person meeting opportunities.

**Requirements/Evaluation:** class participation, several short writing assignments, quizzes, final paper
CLAS 235  (S)  The Garden in the Ancient World

Cross-listings:  COMP 235  REL 235  CLAS 235  ENVI 232

Primary Cross-listing

Drawing on the literature, art, and archaeology of ancient gardens and on real gardens of the present day, this course examines the very nature and experience of the garden and the act of gardening. Using a multi-disciplinary approach, we will explore the garden as a paradise; as a locus for philosophical discussion and religious encounter; as a site of labor, conquest, and resistance; and as a place for solace, inspiration, and desire. This course will be grounded in crucial readings from antiquity, such as the Hebrew Bible, Homer, Sappho, Cicero, Lucretius, Vergil, Horace, Columella, and Augustine, and in the perspectives of more modern writers, from Jane Austen and Tom Stoppard to contemporary cultural historian George McKay. Ultimately, our goal is to analyze conceptions and expressions of beauty, power, and love-in the garden. All readings are in translation.

Requirements/Evaluation:  class participation, short written assignments, and a final project

Prerequisites:  none

Enrollment Limit:  20

Expected Class Size:  15

Grading:  no pass/fail option, yes fifth course option

Distributions:  (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

CLAS 241  (S)  Sex and Gender in Ancient Greece and Rome

Cross-listings:  WGSS 241  COMP 241  CLAS 241

Primary Cross-listing

From the household to the marketplace, from sacred spaces to the political arena, sexuality and gender shaped a broad range of attitudes and actions in the ancient Mediterranean world. This course investigates a variety of discourses and practices around sexuality and gender in ancient Greece and Rome with the aim of promoting students' capacity to evaluate claims and dismantle false assumptions about the continuity of the "classical" past with contemporary norms and values. We will carefully analyze, contextualize, and compare a variety of texts, including selections from tragic and comic drama, epic and lyric poetry, handbooks, epitaphs, novels and biography in order to better understand how gender and sexuality were expressed, experienced, and regulated in Greece and Rome. Our emphasis will be on ancient texts, but selections from contemporary criticism and theory will enrich the methodological frameworks through which we approach the primary sources.

Requirements/Evaluation:  five to six weekly tutorial papers, five to six responses, a midterm self-evaluation and conference with instructor, a mid-length final paper (approximately eight pages) consisting of a revision and expansion of a previously written paper

Prerequisites:  none
**CLAS 242 (S) The Country and the City in the Classical World**

**Cross-listings:** ANTH 242  ENVI 242  CLAS 242

**Primary Cross-listing**

A growing urban-rural divide is defining political discourse around the world. The interrelation and tension between "city" and "countryside" are not new, however, but date back to the time when cities first began. How do cities occupy and transform, interact with and displace rural landscapes? What are the values, stereotypes, and ideals--as well as artistic, literary, and architectural forms--associated with the city and the countryside? What role does one play in the political, social, and economic life of the other? With a focus on ancient Greece and, especially, Rome, this course will combine archaeological evidence and contemporary scholarship with primary sources ranging from Hesiod, Theocritus, Vergil, and Propertius to Cato the Elder, Varro, Vitruvius, and Pliny the Elder, to examine an array of topics including land surveying and colonization; agrarian legislation; the urban food supply; rustic religion in the city; urban parks and gardens; and the concept of the pastoral. Together, we will explore the city and the countryside - not just as places, but also as states of mind. All readings are in translation.

**Requirements/Evaluation:** informed participation, two short papers (2-5 pages), final paper (8-10 pages)

**Prerequisites:** none, although prior knowledge of the ancient world will be useful

**Enrollment Limit:** 19

**Enrollment Preferences:** declared and intending majors in Classics and Environmental Studies

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

**CLAS 248 (S) Greek Art and the Gods**

**Cross-listings:** ARTH 238  REL 216  CLAS 248

**Secondary Cross-listing**

In the *Iliad*, when the god Apollo is visualized, it is as a man, angry in his heart, coming down from the peaks of Olympus, bow and quiver on his shoulders, the arrows clanging as the god moves, "like the coming of night," to bring dogs, horses, and men to their deaths. By the end of the Classical period, one statue of the archer god depicted him as a boy teasing a lizard. In this course, we will examine the development of the images the Greek gods and goddesses, from their superhuman engagement in the heroic world of epic, to their sometimes sublime artistic presence, complex religious function, and transformation into metaphors in aesthetic and philosophical thought. The course will cover the basic stylistic, iconographical, narrative, and ritual aspects of the gods and goddesses in ancient Greek culture. The course will address in detail influential artistic monuments, literary forms, and social phenomena, including the sculptures of Olympia and the Parthenon; divine corporeality in poetry; the theology of mortal-immortal relations; the cultural functions of visual representations of gods, and the continued interest in the gods long after the end of antiquity. Readings assignments will include selections from Homer, Hesiod, Sappho, Aischylos, Euripides, Plato, Walter Burkert, Jean-Pierre Vernant, Nikolaus Himmelmann, Erika Simon, and Friedrich Nietzsche.

**Class Format:** discussion

**Requirements/Evaluation:** short writing assignments, midterm exam, final exam, final paper
Prerequisites: none
Enrollment Limit: 40
Enrollment Preferences: preference will be given to pre-registered Art-History majors needing to fulfill the pre-1800 requirement; otherwise, the course is open to any interested student
Expected Class Size: 30
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

CLAS 270 (F) Reading Jesus, Writing Gospels: Christian Origins in Context (WS)
Cross-listings: REL 270 COMP 263 CLAS 270
Secondary Cross-listing
What were the religious and cultural landscapes in which Christianity emerged? How did inhabitants of the ancient Mediterranean world speak about the concept and significance of religion? How have scholars of early Christianity answered these questions? What are the implications of their reconstructions of early Christian history? The course is divided into four parts. The first part establishes the interpretive approach of the course. The second part of this course addresses these questions by examining the formation of Christianity from its origins as a Jewish movement until its legalization, using a comparative socio-historical approach. The third part of the course focuses on the earliest literature produced by the Jesus movement and consider it within a comparative framework developed in the first half of the course. The final part of the course emphasizes modern interpretations of Jesus and the Jesus movement; here we shall be examining how scholars make use of ancient materials to frame their arguments.
Class Format: lecture/discussion
Requirements/Evaluation: three 3-page papers (with revisions), one 5- to 7-page paper (that builds on one of the earlier 3 page papers), and a final paper (7-10 pages, that draws on some of the earlier writing in addition to new writing)
Prerequisites: none; open to all
Enrollment Limit: 19
Enrollment Preferences: sophomores, especially potential majors in Religion, Classics, and Comparative Literature
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
REL 270 (D2) COMP 263 (D2) CLAS 270 (D2)
Writing Skills Notes: Students will write a series of short essays, with required revisions, to develop their skills in close reading of ancient texts and interpretive analysis of modern scholarship about Christian origins. In each successive section of the course, writing from the prior unit will inform the subsequent papers.

Fall 2021
SEM Section: 01 MR 1:10 pm - 2:25 pm Denise K. Buell

CLAS 306 (S) The Good Life in Greek and Roman Ethics
Cross-listings: CLAS 306 PHIL 306
Secondary Cross-listing
Most thoughtful human beings spend a good deal of time musing about how we ought to live and about what counts as a good life for a human being. The philosophers of ancient Greece and Rome were among the first thinkers to develop rigorous arguments in response to such musings. Much of the moral philosophy produced in Greece and Rome remains as relevant today as when it was written. In this course, we will examine some central texts
in ancient Greek and Roman moral philosophy. We will begin by reading some of Plato’s early dialogues and his Republic. We will then turn to Aristotle’s Nicomachean Ethics. We will then examine writings in the Stoic and Epicurean traditions, as well as Cicero’s On the Ends of Good and Evil. As we proceed through the course, we will look at the way in which each thinker characterizes happiness, virtue and the relation between the two. We will also pay close attention to the way in which each of these thinkers takes the practice of philosophy to play a key role in our realization of the good human life. This course is part of the Williams College program at the Berkshire County Jail and House of Corrections and will be held at the jail. Transportation will be provided by the college. The class will be composed equally of Williams students and inmates, and one goal of the course will be to encourage students from different backgrounds to think together about issues of common human concern.

Requirements/Evaluation: several short response pieces; a final paper of 10-15 pages
Prerequisites: none
Enrollment Limit: 9
Enrollment Preferences: juniors & seniors & students who can demonstrate an interest in the subject matter of the class; there will not be any preference purely on the basis of major; final selection for the course will be made on the basis of an interview with the instructor
Expected Class Size: 9
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

Attributes: PHIL History Courses
Not offered current academic year

CLAS 307 (F) Augustine’s Confessions
Cross-listings: CLAS 307 PHIL 307 REL 303
Secondary Cross-listing
No thinker has done more to shape the Western intellectual tradition than Augustine (354-430 CE), and no book displays Augustine’s dynamic vision of reality more compellingly than the Confessions. Its probing and intimate reflections on the meaning of human life, the nature of God and mind, time and eternity, will and world, good and evil, love and sexuality have challenged every generation since Augustine’s own. The seminar will be structured around a close, critically engaged reading of the Confessions (in English translation) and will give attention to its historical context and significance as well as to its philosophical and theological ideas. (There will be optional, supplementary opportunity to engage with the Latin text for interested students with some facility with Latin.)
Class Format: The course will be taught in a hybrid (partly in-person, partly remote) or wholly remote format—a final decision about format will be made in early September, prior to the first class. Class meetings (in whatever format) will consist primarily in student presentations and open, directed discussion of assigned readings.
Requirements/Evaluation: Regular reading assignments from the Confessions and related secondary literature. Weekly participation in online discussion on Glow (15% of final grade); 3 class presentations (of various lengths and kinds) (20%); a short paper (maximum 1500 words) due around the middle of the semester (20%); a term paper in two drafts (maximum 3000 words) due near and the end of the semester (40%); preparation for and participation in class that shows thoughtful engagement with the assigned readings (5%).
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Advanced students in Philosophy, Religion and/or Classics
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option
Distributions: (D2)
This course is cross-listed and the prefixes carry the following divisional credit:

From Achilles to Alexander: Leadership and Community in Ancient Greece

Cross-listings: HIST 323 CLAS 323 LEAD 323

Primary Cross-listing

Visionary, opportunist, reformer, tyrant, demagogue, popular champion: concise characterization of influential leaders is often irresistible. But placing leaders in their much less easily encapsulated political, social, and religious contexts reveals them to be far more complicated and challenging subjects. Among the questions that will guide our study of Greek leadership: Was the transformative leader in a Greek city always an unexpected one, arising outside of the prevailing political and/or social systems? To what extent did the prevailing systems determine the nature of transformative as well as of normative leadership? How did various political and social norms contribute to legitimating particular kinds of leader? After studying such leaders as the "tyrants" who prevailed in many Greek cities of both the archaic and classical eras, then Athenian leaders like Solon, Cleisthenes, Cimon, Pericles, Cleon, and Demosthenes, and Spartans like Cleomenes, Leonidas, Brasidas, and Lysander, we will focus on Alexander the Great, whose unique accomplishments transformed every aspect of Greek belief about leadership, national boundaries, effective government, the role of the governed, and the legitimacy of power. Readings will include accounts of leadership and government by ancient Greek authors (e.g. Homer, Solon, Herodotus, Thucydides, Plato, Aristotle, Demosthenes, all in translation) and contemporary historians and political theorists.

Class Format: discussion

Requirements/Evaluation: contributions to class discussions, three short papers (4-6 pages each), a midterm exam, and an oral presentation leading to a significant final paper (10-12 pages)

Prerequisites: none, but a background and/or interest in the ancient world, political systems, and/or Leadership Studies is preferred

Enrollment Limit: 19

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Aristotle's Metaphysics

Cross-listings: CLAS 332 PHIL 332

Secondary Cross-listing

In this course we will study Aristotle's Metaphysics concentrating of books gamma-theta. Aristotle sets out to study being qua being, or what is insofar as it is. The thoughts that Aristotle expresses in these books were instrumental in setting an intellectual agenda that dominated western thought through the Middle Ages and provided the backdrop against which the modern philosophical tradition arose. Furthermore, many of the issues that Aristotle takes up in these books remain of central importance in contemporary philosophy. Our main goal in this course is to work our way through Aristotle's text which can be extremely daunting, and to reconstruct his central positions and his arguments for these positions. We will also read selections from the vast secondary literature on Aristotle's Metaphysics.

Requirements/Evaluation: discussion leadership, weekly short papers, term paper

Prerequisites: PHIL 201, CLAS 203

Enrollment Limit: 12

Enrollment Preferences: Philosophy and Classics majors

Expected Class Size: 8-10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

CLAS 332 (D1) PHIL 332 (D2)

Attributes: PHIL History Courses

Not offered current academic year
Horse-men, cat-women, goat-men, tree-women, man-bulls, fish-girls, snake-people—cross-species compound creatures are everywhere in ancient Greek and Roman art, poetry, and culture. The conceptual or cognitive value of those “demigods” has changed over time. In art, demigods have frequently been reduced to the status of decoration, and in literature, they have become generic markers of fantasy. But they are hardly without meaning. Embodied in satyrs, centaurs, nymphs, and other demigods is a vision of an alternative evolutionary and cultural history. In it, humans and animals live together. The distinction between nature and culture is not meaningful. Male and female are equal. The industrial revolution never happens. This course traces the history of demigods from its origins in ancient Greek art and poetry until today. We pay special attention to three points: the relationship between mythology of demigods and ancient political theory about primitive life; evolving conceptions of nature, the origin of species, and the environment; and the capacity of the visual arts to create mythology that has a limited literary counterpart. The first half of the course examines the origins and character of the demigods, in works of ancient art, e.g. the François vase and the Parthenon, as well as ancient texts, including Hesiod’s Theogony and Ovid’s Metamorphoses. We examine relevant cultural practices, intellectual history, and conceptions of nature, in texts such as Euripides’ Bakchai, Plato’s Phaidros, and Lucretius’ De rerum natura. We will consider in detail ancient theories of the origins of species as well as the relationship between nature and human culture. The second half of the course investigates the post-classical survival of demigods. We consider the “rediscovery” of demigods in the work of Renaissance artists such as Botticelli, Michelangelo, Dürer, and Titian, and the rediscovery of ancient materialist theories of nature and culture. We consider in detail the important role played by demigods in the formation of Modernism in art and literature. Key texts include Schiller, “Naive and sentimental poetry,” Nietzsche, Birth of Tragedy, Mallarmé, “L’Apres midi d’une faun,” Aby Warburg’s cultural-historical texts, and Stoppard’s Arcadia. Problems include the relationship between nymphs and prostitutes in Manet, and the meaning of fauns and the Minotaur in Picasso. We conclude with demigods in popular culture such as the Narnia chronicles or Hunger Games.

Class Format: Lecture and discussion. When possible, we will meet outdoors in person; when that is not possible, we will meet online.

Requirements/Evaluation: The requirements of the course include: attendance and participation in discussion; preparing summaries/analyses of reading assignments for discussions; one presentation on a research project, and one 20-page paper on the research project.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: art history majors, graduate students in art history, classics majors, then any interested student

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Unit Notes: This course will satisfy the seminar requirement in art history.

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

CLAS 466  (S)  Hellenistic Art and the Beginning of Art History

Cross-listings: ARTH 466 CLAS 466

Secondary Cross-listing

The Hellenistic Period (323-31 BCE) saw the small city-states of the Greek peninsula replaced by far flung kingdoms as important centers of power and culture. In the wake of Alexander the Great's extension of the borders of the classical world all the way to the banks of the Indus River, increased trade, and the movement of individuals between Greece, Egypt, and the Near and Middle East encouraged innovations in philosophy, medicine, religion, literature and art. In fact, a revolution in artistic ideas and forms centered on the social and ethnic diversity of human experience. Royal patrons, and wealthy private citizens including an increasing number of women, commissioned artworks for cities, sanctuaries, tombs, palaces, and estates on a scale rarely seen before. And with the rise of Rome, plundered artworks of earlier periods soon became the desired objects of wealthy collectors, contributing to a mashup of stylistic influence. In this course we'll look closely at influential works of art in bronze, marble, fresco, and mosaic, where artists push the limits of their media in order to express emotional states ranging from pathos to ecstasy, from the mental exhaustion of a defeated athlete, to the cool restraint of a powerful ruler. We'll attempt to understand the conceptual and cultural forces that encouraged artistic innovations of the fourth century BCE through first century CE. We'll also look for the influences of Hellenistic art on artists and writers from the Renaissance to the present day. Reading material includes ancient literature in translation, recent surveys of Hellenistic art, and recent critical essays.
Requirements/Evaluation: Students are responsible, in groups of 2 or 3, for leading discussions based on selected readings. A 5-page midterm paper, and two oral reports—one 6 minutes in length, the other 15-20 minutes in length—will help form the basis for a 15-18 page research paper on a specific artwork or concept in Hellenistic art, or the adaptation of Hellenistic artworks or themes in later periods, that will be due at the end of the semester. A museum visit may be possible, depending on circumstances.

**CLAS 499 (S) Senior Colloquium**

This two-semester course is required for all senior Classics majors and usually meets four times each semester. Our activities vary from year to year but normally include presentations by seniors who are taking independent studies or writing Honors theses in Classics, as well as meetings with guest speakers and distinguished visiting professors. Although required for the Classics major, this is a non-credit course and does not count toward the number of semester courses required for the Classics major or for graduation. Senior majors are expected to attend every colloquium unless excused in advance.

**Class Format:** colloquium

**Grading:** non-graded

**Distributions:** No divisional credit

Not offered current academic year

---

**Winter Study** -------------------------------------------------------------

**CLAS 31 (W) Senior Thesis: Classics**

May be taken by students registered for Classics 493-494.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year

---

**CLAS 99 (W) Independent Study: Classics**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year
The course offerings in Classics enable students to explore the ancient Greek, Roman, and Mediterranean worlds from various perspectives, including literature, history, art, archaeology, philosophy, and religion. Courses are of two types: language (Greek and Latin) and courses in which all the readings are in English translation (Classical Studies). The 100-level language courses are intensive introductions to Greek and Latin grammar and reading skills; the 200-level language courses combine grammar review with primary readings from Greek or Latin texts of key historical periods; Latin 302 and the 400-level language courses are seminars that explore in depth selected authors or topics and the methods of analysis appropriate to each of them. Classical Studies courses offer introductions to and more specialized study of the literature, visual and material culture, history, and other aspects of the Greek and Roman worlds.

MAJOR

Majors and prospective majors are encouraged to consult with the department’s faculty to ensure a well-balanced and comprehensive selection of Classics courses appropriate to their individual interests. A course in ancient history is strongly recommended. Majors may also benefit from advice on courses offered in other departments that would complement their particular interests in Classics. A reading knowledge of French, German, and Italian is useful for advanced study in Classics and is required in at least two of these modern languages by graduate programs in classics, ancient history, classical art and archaeology, and medieval studies.

The department offers two routes to the major: Route A emphasizes more coursework in Greek and Latin, while Route B emphasizes more Classical Studies courses.

**Route A:**
1. Six courses in Greek and/or Latin, with at least two 400-level courses in one language.
2. Three additional courses from the offerings in Greek, Latin, or Classical Studies or from approved courses in other departments and programs.

**Route B:**
1. One course each from any two of the following categories: literature (CLAS 101 or CLAS 102); visual and material culture (CLAS 209 or CLAS 210); history (CLAS 222 or CLAS 223).
2. Four courses in Greek or Latin with at least one at the 400-level, or the four-course sequence CLLA 101, 102, 201, and 302.
3. Three additional courses from the offerings in Classical Studies or from approved courses in other departments and programs.

**Classics Colloquium:** All Classics majors in residence are expected to participate fully in the life of the department through attendance at lectures and other departmental events.

THE DEGREE WITH HONORS IN CLASSICS

Students who wish to be considered for the degree with honors will normally prepare a thesis or pursue appropriate independent study in one semester and winter study of their senior year. The thesis or independent study offers students the opportunity to work in depth on a topic of their choosing and to apply and develop the techniques and critical methods with which they have become acquainted during their regular course work. It may also include relevant work with members of other departments. In order to write a thesis, students normally must have a minimum GPA of 3.3 in their major courses and must submit a thesis proposal that earns departmental approval before the end of the spring semester of their junior year. To be awarded the degree with honors in Classics, the student is required to have taken a minimum of ten semester courses in the department (not including the thesis or independent study) and to have demonstrated original or superior ability in studies in the field both through course work and through the thesis or equivalent independent study.

COURSE NUMBERING SYSTEM

**Language Courses:** The numbering of courses through the 300 level reflects the prerequisites involved. The only prerequisite for any 400-level course is Greek 201 or Latin 302. The rotation of 400-level courses is arranged to permit exposure, in a three- to four-year period, to most of the important periods and genres of Greek and Latin literature. Students may enter the rotation at 100-level, 200-level, or 300-level, depending on
previous experience.

Classical Studies Courses: The numbering of these courses does not reflect a strict sequence, and most of them do not assume prior experience in Classics or a cross-listed field. The following pairs of courses offer excellent introductions to key areas of study within Classics: CLAS 101 and 102 (literature), CLAS 209, 210 (visual and material culture), CLAS 222, 223 (history).

STUDY AWAY

We strongly encourage Classics majors to study away in their junior year, at programs in Italy (especially the semester-length program at the Intercollegiate Center for Classical Studies in Rome), at programs in Greece (especially the College Year in Athens, which students need only attend for one semester), and in the Williams at Oxford Program. Our majors have also had excellent Classics experiences in other study-abroad programs in Italy and Greece and at various universities in Europe and the United Kingdom. In addition, we encourage students to take advantage of opportunities available in the summer: study abroad programs in Italy and Greece, archaeological digs, or even carefully planned individual travel to sites in Greece, Italy or other areas of the ancient Mediterranean world. When the college cannot do so, the department may be able to provide some financial support for summer study abroad. The department’s faculty are always available to advise students, the chair has materials to share, and students can visit the department’s website for information and links to helpful sites. Majors who are considering studying away should especially consult with faculty members about the implications for language study.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g., syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Complete syllabus and course description, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

No, but students should consult with the department about language sequences.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

CLGR 101 (F) Introduction to Greek

This full-year, intensive course presents the fundamentals of ancient Greek grammar, syntax, and vocabulary. While finishing the formal study of the language in the second semester, students begin reading prose and poetry of the classical period, usually works by Xenophon and Euripides.

Requirements/Evaluation: frequent quizzes, tests, and a final exam

Prerequisites: none; designed for students who are beginning Greek or have studied less than two years of Greek in secondary school; students with some previous experience in Greek may want to enroll in CLGR 102 only (consult the department)

Enrollment Limit: 15

Enrollment Preferences: Classics majors or intended Classics majors, first years and sophomores

Expected Class Size: 8-10
Grading: no pass/fail option, yes fifth course option
Unit Notes: credit granted only if both semesters (CLGR 101 and 102) are taken
Distributions: (D1)

Fall 2021
LEC Section: 01  MWF 11:00 am - 12:15 pm  Kerry A. Christensen

CLGR 102  (S) Introduction to Greek
This full-year, intensive course presents the fundamentals of Greek grammar, syntax, and vocabulary and introduces students, in the second semester, to works of the classical period (usually Xenophon and Euripides).
Class Format: Greek 101-102 is being offered as a hybrid course. It is designed so that any student may enroll and thrive regardless of their location or mode of participation—on-campus and taking the class in person or studying remotely from any location. Students who will be taking the class remotely are encouraged to consult with the instructor about their circumstances.
Requirements/Evaluation: frequent quizzes, tests, and a final exam
Prerequisites: CLGR 101 or permission of department
Enrollment Limit: 15
Enrollment Preferences: Classics majors or intended Classics majors, first years and sophomores
Expected Class Size: 8-10
Grading: no pass/fail option, yes fifth course option
Unit Notes: credit granted only if both semesters (CLGR 101 and 102) are taken
Distributions: (D1)

Spring 2022
LEC Section: 01  MWF 11:00 am - 12:15 pm  Kerry A. Christensen

CLGR 201  (F) Intermediate Greek
We will be reading selections from Hesiod's *Theogony* and Plato's *Republic*, combined with grammar review. While the primary goal of this course is to develop fluency in reading Greek, we will also consider the literary and cultural significance of our texts, exploring issues such as archaic conceptions of the gods and cosmos, Greek poetic forms of expression, the transition from archaic to classical thought, and literature in the life of the polis.
Requirements/Evaluation: Evaluation will be based on classroom participation, quizzes, tests, and a final exam.
Prerequisites: CLGR 101-102 or two years of Greek in secondary school
Enrollment Limit: 12
Enrollment Preferences: Classics majors and intended Classics majors
Expected Class Size: 5-10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Fall 2021
SEM Section: 01  MR 1:10 pm - 2:25 pm  Kerry A. Christensen

CLGR 401  (S) Homer: The Iliad
From the early archaic era through the classical and beyond, Homer's *Iliad* and *Odyssey* remained foundational in Greek discourse about community, leadership, war, heroism, family, friendship, loyalty, the gods, justice, and much more. Nearly all of subsequent Greek literature, both poetry and prose, developed out of a dialogue with these epics. In this course, we will read extensive selections from the *Iliad* in Greek and the entire epic in translation.
CLGR 402 (S) Homer: The Odyssey

From the early archaic era through the classical and beyond, Homer's *Iliad* and *Odyssey* remained foundational in Greek discourse about community, leadership, war, heroism, family, friendship, loyalty, the gods, justice, and much more. Nearly all of subsequent Greek literature, both poetry and prose, developed out of a dialogue with these epics. In this course, we will read extensive selections from the *Odyssey* in Greek and the entire epic in translation.

**Requirements/Evaluation:** class participation, short written assignments and/or oral reports, a midterm and final exams, and a final paper

**Prerequisites:** CLGR 201 or permission of instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** majors in Classics, Comparative Literature, English and other literatures

**Expected Class Size:** 5-6

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

---

CLGR 404 (S) Tragedy

Tragedy was a hybrid genre invented in sixth-fifth century Athens, where tragic performances in the city's festival of the Greater Dionysia played a vital role in the democratic polis. This course will focus on reading in Greek a complete tragedy of Sophokles or Euripides; we will also read in translation several other tragedies, a satyr-play, and a comedy of Aristophanes. While focusing on questions of particular importance for the play we are reading in Greek, we will also situate that play in a larger context by exploring, for instance: aspects of the social and political situations in and for which fifth-century tragedies were first produced; the several performance genres out of which tragedy was created; developments in the physical characteristics of the theater and in elements of staging and performance; problems of representation particularly relevant to theatrical production and performance.

**Class Format:** This is a hybrid course that will likely involve both Zoom and in-person sections; precise format (including potential alternate meeting times) TBD in consultation with enrolled students.

**Requirements/Evaluation:** contributions to class, midterm and final exams (take-home), and a final paper

**Prerequisites:** CLGR 201 or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Classics majors, students continuing the Greek sequence

**Expected Class Size:** 13

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

---

CLGR 405 (F) Greek Lyric Poetry

This course will explore the development of Greek lyric poetry from the eighth to the fifth centuries BCE. Beginning with Archilochus, Sappho, and
Alcaeus, and proceeding through such poets as Solon, Anacreon, Ibycus, and Theognis, we will examine the formal, social, and performative contexts of lyric, the influence of epic and choral poetry on the evolution of the genre, and the difficulties of evaluating a fragmentary corpus. Finally, we will explore the influence of political and economic changes in the early fifth century on the work of Simonides. The goal throughout is to investigate the structures, innovations, and problems of poetic self-expression in early Greek poetry.

Requirements/Evaluation: class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Limit: 12
Expected Class Size: 5
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

CLGR 409 (F) Plato

Plato's writing has exercised an incalculable influence on the development of subsequent philosophy and literature, but his dialogues are equally compelling when they are read independently of the works they have inspired. In this course we will read substantial selections from one or more of the so-called middle dialogues (Symposium, Phaedo, Republic, Phaedrus), in which a variety of speakers, including Socrates, ask and provisionally answer questions such as what are love, beauty, and justice, and how does the human soul in possession of these goods participate in the divine?

Class Format: For the fall of 2020, this course will be taught online. The seminar will meet at the regularly scheduled time twice a week or at a mutually agreed on time that does not conflict with other course work.

Requirements/Evaluation: evaluation will be based on class participation, several short written assignments, a midterm and final exam, and a longer final paper
Prerequisites: CLGR 201 or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: if oversubscribed, preference given to majors in Classics, Philosophy, Comparative Literature, English or another literature
Expected Class Size: 5-6
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

CLGR 412 (F) Herodotus

This course will focus on the reading in Greek of Herodotus' Histories, his multivalent and deeply human account of how and why several hundred years of contact and conflict between the Greek city-states and non-Greek peoples to the east culminated in the Persian invasion of Greece. We will explore the ways in which his rich narrative style and intellectual landscape reflect the influence of Greek and Near Eastern oral traditions, Ionian philosophical thought, Greek tragedy, and contemporary Athenian rhetoric and philosophy. We will also study his use of anthropological methods, ethnography, and geography in explaining human events. Among the many themes that permeate his work, we will pay special attention to the working of divine versus human justice, the mutability of human affairs, the nature of authority, the role of family, and the quest for wisdom.

Requirements/Evaluation: class participation, two short written assignments, a midterm exam, a final paper, and a final exam
Prerequisites: CLGR 201 or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Classics majors
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year
CLGR 414 (F) Thucydides
This course will focus on Thucydides’ powerful history of the Peloponnesian War. It is a rich text with much to say about human nature, human motivation, power, morality, the fragility of civilized life, the nature of democracy, leadership, causality in human affairs, and the impact on the Greek city-states of thirty years of nearly continuous war.

Requirements/Evaluation: class preparation and participation, a midterm exam, a final paper, and a final translation exam

Prerequisites: CLGR 201 or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Classics majors

Expected Class Size: 6

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

Winter Study -----------------------------------------------

CLGR 99 (W) Independent Study: Greek
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study

Grading: pass/fail only

Not offered current academic year
The course offerings in Classics enable students to explore the ancient Greek, Roman, and Mediterranean worlds from various perspectives, including literature, history, art, archaeology, philosophy, and religion. Courses are of two types: language (Greek and Latin) and courses in which all the readings are in English translation (Classical Studies). The 100-level language courses are intensive introductions to Greek and Latin grammar and reading skills; the 200-level language courses combine grammar review with primary readings from Greek or Latin texts of key historical periods; Latin 302 and the 400-level language courses are seminars that explore in depth selected authors or topics and the methods of analysis appropriate to each of them. Classical Studies courses offer introductions to and more specialized study of the literature, visual and material culture, history, and other aspects of the Greek and Roman worlds.

MAJOR

Majors and prospective majors are encouraged to consult with the department’s faculty to ensure a well-balanced and comprehensive selection of Classics courses appropriate to their individual interests. A course in ancient history is strongly recommended. Majors may also benefit from advice on courses offered in other departments that would complement their particular interests in Classics. A reading knowledge of French, German, and Italian is useful for advanced study in Classics and is required in at least two of these modern languages by graduate programs in classics, ancient history, classical art and archaeology, and medieval studies.

The department offers two routes to the major: Route A emphasizes more coursework in Greek and Latin, while Route B emphasizes more Classical Studies courses.

**Route A:**
1. Six courses in Greek and/or Latin, with at least two 400-level courses in one language.
2. Three additional courses from the offerings in Greek, Latin, or Classical Studies or from approved courses in other departments and programs.

**Route B:**
1. One course each from any two of the following categories: literature (CLAS 101 or CLAS 102); visual and material culture (CLAS 209 or CLAS 210); history (CLAS 222 or CLAS 223).
2. Four courses in Greek or Latin with at least one at the 400-level, or the four-course sequence CLLA 101, 102, 201, and 302.
3. Three additional courses from the offerings in Classical Studies or from approved courses in other departments and programs.

**Classics Colloquium:** All Classics majors in residence are expected to participate fully in the life of the department through attendance at lectures and other departmental events.

**THE DEGREE WITH HONORS IN CLASSICS**

Students who wish to be considered for the degree with honors will normally prepare a thesis or pursue appropriate independent study in one semester and winter study of their senior year. The thesis or independent study offers students the opportunity to work in depth on a topic of their choosing and to apply and develop the techniques and critical methods with which they have become acquainted during their regular course work. It may also include relevant work with members of other departments. In order to write a thesis, students normally must have a minimum GPA of 3.3 in their major courses and must submit a thesis proposal that earns departmental approval before the end of the spring semester of their junior year. To be awarded the degree with honors in Classics, the student is required to have taken a minimum of ten semester courses in the department (not including the thesis or independent study) and to have demonstrated original or superior ability in studies in the field both through course work and through the thesis or equivalent independent study.

**COURSE NUMBERING SYSTEM**

**Language Courses:** The numbering of courses through the 300 level reflects the prerequisites involved. The only prerequisite for any 400-level course is Greek 201 or Latin 302. The rotation of 400-level courses is arranged to permit exposure, in a three- to four-year period, to most of the important periods and genres of Greek and Latin literature. Students may enter the rotation at 100-level, 200-level, or 300-level, depending on previous experience.
Classical Studies Courses: The numbering of these courses does not reflect a strict sequence, and most of them do not assume prior experience in Classics or a cross-listed field. The following pairs of courses offer excellent introductions to key areas of study within Classics: CLAS 101 and 102 (literature), CLAS 209, 210 (visual and material culture), CLAS 222, 223 (history).

STUDY AWAY
We strongly encourage Classics majors to study away in their junior year, at programs in Italy (especially the semester-length program at the Intercollegiate Center for Classical Studies in Rome), at programs in Greece (especially the College Year in Athens, which students need only attend for one semester), and in the Williams at Oxford Program. Our majors have also had excellent Classics experiences in other study-abroad programs in Italy and Greece and at various universities in Europe and the United Kingdom. In addition, we encourage students to take advantage of opportunities available in the summer: study abroad programs in Italy and Greece, archaeological digs, or even carefully planned individual travel to sites in Greece, Italy or other areas of the ancient Mediterranean world. When the college cannot do so, the department may be able to provide some financial support for summer study abroad. The department’s faculty are always available to advise students, the chair has materials to share, and students can visit the department’s website for information and links to helpful sites. Majors who are considering studying away should especially consult with faculty members about the implications for language study.

FAQ
Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
Yes, in some cases, if appropriate course information is available in advance (e.g., syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?
Complete syllabus and course description, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?
No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?
No.

Are there specific major requirements that cannot be fulfilled while on study away?
No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)
No, but students should consult with the department about language sequences.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:
None to date.

CLLA 101 (F) Introduction to Latin
This is a full-year course on the fundamentals of the Latin language. We focus throughout on learning grammar and vocabulary, and we regularly incorporate selections from literature, inscriptions, and other sources. Over time, we gradually increase the emphasis on reading selections from Latin poetry (e.g., Ovid’s *Metamorphoses*) and prose (e.g., Piny's *Letters*).

Requirements/Evaluation: frequent quizzes, classroom exercises, two midterms, a final project

Prerequisites: none; this course is designed for the student with no previous preparation in Latin or with only a little Latin who wishes a refresher; students with some previous experience in Latin may want to enroll in CLLA 102 only (consult the department)

Enrollment Limit: 15

Enrollment Preferences: Classics majors or intended Classics majors, first years and sophomores

Expected Class Size: 8-10
CLLA 102 (S) Introduction to Latin
This is a full-year course on the fundamentals of the Latin language. We focus throughout on learning grammar and vocabulary, and we regularly incorporate selections from literature, inscriptions, and other sources. Over time, we gradually increase the emphasis on reading selections from Latin poetry (e.g., Ovid's *Metamorphoses*) and prose (e.g., Piny's *Letters*).

Class Format: recitation/discussion

Requirements/Evaluation: frequent quizzes, tests, classroom exercises, and a final exam

Prerequisites: CLLA 101 or permission of department

Enrollment Limit: 18

Expected Class Size: 10-12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: credit granted only if both semesters (CLLA 101 and 102) are taken

Distributions: (D1)

Spring 2022

LEC Section: 01    MWF 11:00 am - 12:15 pm     Nicole G. Brown

CLLA 201 (F) Intermediate Latin: The Late Republic
This course aims to strengthen skills gained in previous study. In order to develop greater fluency and familiarity with classical Latin, we will read, translate, and analyze Cicero's *Pro Caelio* and selected short poems of Catullus. Both authors are brilliant stylists, though each writes in a very different mode. Taken together, these texts offer an excellent introduction to the expressive capacity of Latin in prose and verse. They also open up intriguing overlapping perspectives on the social, sexual, and political mores of late Republican Rome. We will consider the cultural context and implications of these texts as time permits.

Requirements/Evaluation: Engaged participation in class, occasional quizzes and short written assignments, a midterm and final exam

Prerequisites: CLLA 101-102 or 3-4 years of Latin in secondary school; consult the department

Enrollment Limit: 12

Enrollment Preferences: Classics majors and prospective majors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Fall 2021

SEM Section: 01    MWF 10:00 am - 10:50 am     Amanda R. Wilcox

CLLA 302 (S) Vergil's Aeneid
This course is a comprehensive introduction to Vergil's *Aeneid*. Students will develop their ability to read and translate the Latin text of the poem, while at the same time exploring the major interpretive issues surrounding the definitive Roman epic. Through a combination of close reading and large-scale analysis, we will investigate the poem's literary, social, and political dimensions with special attention to Vergil's consummate poetic craftsmanship.
CLLA 403 (S) The Invention of Love: Catullus and the Roman Elegists

This course will explore the development of Latin love poetry in the first century BCE. Beginning with Catullus, we will examine the influence of Greek lyric poetry on the evolution of the genre as well as Roman attitudes toward love exhibited in other literature of the Late Republic. We will then turn to the full development of the elegiac form in the love poems of Propertius, Tibullus, and Sulpicia. Finally, we will explore the transformation of the genre in Ovid's *Amores*. The goal throughout is to investigate the conventions, innovations, and problems of expressing personal desire and longing amid the social and political upheaval of the transition from Republic to Principate.

Class Format: This course will be offered hybrid, with remote and in-person students joining synchronous meetings together over zoom. The exact logistics of this format may be adjusted in consultation with enrolled students.

Requirements/Evaluation: evaluation will be based on class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Classics majors
Expected Class Size: 10-12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

CLLA 406 (F) Horace's Odes

This course will explore the poetic delights of Horace's extraordinary experiment in crafting Latin personal verse using Greek lyric forms. We will immerse ourselves in the poems' intricate construction and examine how they engage such themes as love and friendship, landscape and memory, youth and old age, politics, and morality. At the same time, we will consider the variety of voices and perspectives within the poems and their complex relationship both to Greek and Latin poetic traditions and to Horace's own contemporary world. The goal throughout is to investigate the literary, social, political, and philosophical dimensions of the odes, as well as their consummate poetic artistry.

Requirements/Evaluation: class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Classics majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

CLLA 407 (S) Caesar and Cicero

The one a brilliant strategist, the other preeminent in the courts, Caesar and Cicero were both master politicians whose ambitions for their country and
themselves brought them into bitter conflict. Their combined oeuvres provide compelling, detailed accounts of the events and personalities that ended the Roman republic and ushered in an era of prolonged civil war. Moreover, despite striking stylistic differences, their works jointly are regarded as the acme of classical Latin prose. In this course we will read extensive selections from Caesar's commentaries and Cicero's speeches and correspondence, aiming throughout at better understanding their rhetorical brilliance and pragmatic persuasive goals.

Class Format: discussion
Requirements/Evaluation: class participation, several short written assignments (such as article reviews), a midterm exam and essay of moderate length, plus a final exam and longer paper
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 12
Expected Class Size: 6-9
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Spring 2022
LEC Section: 01    TF 1:10 pm - 2:25 pm    Amanda R. Wilcox

CLLA 408  (F)  Roman Comedy
The comic plays that still survive all had their first productions within roughly forty years between 200 and 160 BCE, as Rome rapidly expanded its military, economic, and political reach beyond the Apennine peninsula. They present critically important evidence for how Roman literature and cultural identity developed in the second century, and they document formulas for slapstick action and low-brow jokes that remain in use even today. Staged in Greek costume and featuring ostensibly Greek characters, the comedies revel in mocking stereotypical Roman values but ultimately reassert them. Sometimes what the Romans found funny is all too familiar; sometimes it's shocking. Our main focus will be on the Mostellaria of Plautus, often translated as "The Haunted House." Characteristic of its genre, the Mostellaria focuses on generational conflict within a household, especially between father and son. To enrich our conversation, we will read several other comedies in translation as well as selected scholarly investigations of this play, its genre, and the historical context.

Class Format: Discussion/recitation. For the fall of 2020, this course will be taught online. The seminar will meet at the regularly scheduled time twice per week.
Requirements/Evaluation: Evaluation will be based on class participation, several written assignments of varying length, and possibly short quizzes as well as a midterm exam and a final exam and/or essay.
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: If the course is oversubscribed, preference will be given to majors and potential majors in Classics and Comparative Literature
Expected Class Size: 8-10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
Not offered current academic year

CLLA 409  (S)  Seneca and the Self
This course considers ethical and literary dimensions of self-fashioning, self-examination, and the conception of selfhood in the Stoic philosophy of the younger Seneca through close reading of extensive selections from his philosophical works and tragedies. The focus of this course lies squarely in the first century CE and on the analysis of Seneca's own texts. We begin, however, with an introduction to the ethics of Roman Stoicism through the personae theory of Panaetius as transmitted by Cicero's De Officiis. Moreover, we will read and discuss reflections on selfhood from some of Seneca's most famous philosophical and literary heirs, including Montaigne, Emerson, and Foucault, both to enrich our understanding of his work and to gain an appreciation of his considerable influence on later writing about the self.

Requirements/Evaluation: class participation, several short written and oral assignments, midterm and final exams, and a final paper
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 12
Expected Class Size: 5-10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)
Not offered current academic year

CLLA 414 (F) Vergil's Eclogues and Georgics
This course will explore the two major works of Vergil that precede the *Aeneid: the Eclogues*, a series of ten pastoral poems that range widely across personal, political, and mythological themes; and the *Georgics*, a longer didactic poem in four books that uses an agricultural framework to examine issues of life, death, power, suffering, and love. The goal throughout is to investigate the literary, political, and social dimensions of the poems with special attention to their relationship to earlier models, as well as their exquisite poetic craftsmanship

Requirements/Evaluation: class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Classics majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Fall 2021
SEM Section: 01    TF 2:35 pm - 3:50 pm     Edan Dekel

CLLA 415 (S) Ovid's *Metamorphoses*
This course will explore Ovid's greatest work, an epic poem in fifteen books entitled *Metamorphoses*. Ovid's poem narrates the story of the world from its beginning down to his own day, the reign of Augustus, via a series of tales closely woven together through the theme of change. We will translate and discuss large portions of the Latin text along with selections from contemporary scholarship in order to consider the poem in its original political and cultural context as well as its relationship to earlier models and its post-classical reception.

Requirements/Evaluation: class participation, a midterm exam, a final paper, and a final exam
Prerequisites: CLLA 302 or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: Classics majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Cognitive science is concerned with how humans, non-human animals, and computers acquire, represent, manipulate, and use information. As an interdisciplinary field it combines research and theory from computer science (e.g., artificial intelligence), cognitive psychology, philosophy, linguistics, and neuroscience, and to some extent evolutionary biology, math, and anthropology. Complex issues of cognition are not easily addressed using traditional intra-disciplinary tools. Cognitive researchers in any discipline typically employ a collection of analytic and modeling tools from across traditional disciplinary boundaries. Thus, the methods and research agenda of cognitive science are broader than those of any of the fields that have traditionally contributed to cognitive science. The Cognitive Science Program is designed to provide students with the broad interdisciplinary foundation needed to approach issues of cognition.

THE CONCENTRATION

The concentration in Cognitive Science consists of six courses, including an introductory course, four electives, and a senior seminar. Minds, Brains, and Intelligent Behavior (COGS 222) is the entry point into the concentration, and provides an interdisciplinary perspective on issues of cognition. Ideally, it should be taken before the end of the sophomore year. Emphasizing the highly interdisciplinary nature of the field, the four electives must be distributed over at least three course prefixes. In the fall of the senior year, concentrators will participate in a senior seminar (COGS 493) or a senior tutorial, depending on enrollments.

Required Courses

COGS/PHIL/PSYC 222 Minds, Brains, and Intelligent Behavior: An Introduction to Cognitive Science

COGS 493 Senior Seminar or Senior Tutorial (In years where 493 is not offered, students should contact the Program Chair for details).

Elective Courses

Four electives are required, chosen from at least three prefixes, at most two of which can be at the 100 level.

Biol 204(S)Animal Behavior

Catalog details

Taught by: Manuel Morales

COGS 328 / PSYC 328(S)Cognitive Approaches to Visual Perception

Catalog details

Taught by: Omer Daglar Tanrikulu

CSCI 134(F, S)Introduction to Computer Science

Catalog details

Taught by: Jeannie R Albrecht, Shikha Singh, Rohit Bhattacharya

CSCI 361 / MATH 361(F, S)Theory of Computation

Catalog details

Taught by: Aaron Williams

CSCI 373 Artificial Intelligence

Catalog details

Taught by: Jon Park

CSCI 374 TMachine Learning

  Taught by: Annie Tang, Elizabeth Upton, Shaoyang Ning

STAT 201(F, S) Statistics and Data Analysis
  Taught by: Stewart Johnson

Formal admission to candidacy for honors will occur at the end of the fall semester of the senior year and will be based on promising performance in COGS 493. This program will consist of COGS W31-494(S), and will be supervised by members of the advisory committee from at least two departments. Presentation of a thesis, however, should not be interpreted as a guarantee of a degree with honors.

STUDY ABROAD
  Students who wish to discuss plans for study abroad are invited to meet with any member of the Cognitive Science advisory committee.

FAQ
  Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?
  Yes, in many cases, though students should be sure to contact the department.
What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Complete syllabus and course description, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No. As long as the study abroad courses conform to the interdisciplinary distribution requirements of the concentration.

Are there specific major requirements that cannot be fulfilled while on study away?

No.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

COGS 222 (F)(S) Minds, Brains, and Intelligent Behavior: An Introduction to Cognitive Science

Cross-listings: PSYC 222 PHIL 222 COGS 222

Primary Cross-listing

This course will emphasize interdisciplinary approaches to the study of intelligent systems, both natural and artificial. Cognitive science synthesizes research from cognitive psychology, computer science, linguistics, neuroscience, and contemporary philosophy. Special attention will be given to the philosophical foundations of cognitive science, representation and computation in symbolic and connectionist architectures, concept acquisition, problem solving, perception, language, semantics, reasoning, and artificial intelligence.

Requirements/Evaluation: midterm and final exams, and weekly exercises

Prerequisites: PSYC 101 or any PHIL course or CSCI 134 or permission of instructor; background in more than one of these is recommended.

Enrollment Limit: 20

Enrollment Preferences: sophomore and first-year students, with additional preference given to students who satisfy more of the prerequisites.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: meets Contemporary Metaphysics & Epistemology requirement only if registration is under PHIL

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COGS 328 (S) Cognitive Approaches to Visual Perception
Cross-listings: PSYC 328  COGS 328

Primary Cross-listing

When you open your eyes, you immediately perceive your environment in great detail. Seeing is so quick and effortless that people mistakenly think that vision works like a camera. However, the reason it feels effortless is due to the tremendous amount of complex processes and computations that take place in your brain whenever you open your eyes. In this course, we will explore such processes from a computational perspective. How does cognitive psychology approach visual perception? What is the relationship between perception and cognition? How can we experimentally study visual consciousness? In addition to exploring such questions, we will also examine how our visual system processes certain visual features in our environment, such as motion, color, depth and shape.

Requirements/Evaluation: Class participation, weekly take-home quizzes, weekly short commentaries on readings, class presentation, individual 12- to 15-page final paper

Prerequisites: PSYC 221, COGS/PHIL/PSYC 222, or permission of instructor

Enrollment Limit: 19

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

COGS 493 (F) Advanced Topics in Mind and Cognition

In the last decade the science of the mind has continued to draw on its 20th century history as well as expand its methodological repertoire. In this seminar we will investigate current trends in mind and cognition by considering research in cognitive neuroscience, embodied cognition, dynamic systems theory, and empirical approaches to consciousness. Throughout, we will attend both to the specific empirical details as well as the conceptual foundations of this work. We will discuss how it elaborates, expands, and sharpens early views of the domain and methodology of philosophy of mind and cognitive science.

Requirements/Evaluation: weekly short essays, seminar presentation, final paper/project

Prerequisites: Senior Cognitive Science concentrator

Enrollment Limit: 12

Enrollment Preferences: Open only to Senior Cognitive Science concentrators

Expected Class Size: 5

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Winter Study

COGS 31 (W) Senior Thesis: Cognitive Science
May be taken by students registered for Cognitive Science 494.
Class Format: independent study
Grading: pass/fail only
Not offered current academic year
COGS 99  (W)  Ind Study: Cognitive Science

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study

Grading:  pass/fail only

Not offered current academic year
Students motivated by a desire to study literary art in the broadest sense of the term will find an intellectual home in the Program in Comparative Literature. The Program in Comparative Literature gives students the opportunity to develop their critical faculties through the analysis of literature across cultures, and through the exploration of literary and critical theory. By crossing national, linguistic, historical, and disciplinary boundaries, students of Comparative Literature learn to read texts for the ways they make meaning, the assumptions that underlie that meaning, and the aesthetic elements evinced in the making. Students of Comparative Literature are encouraged to examine the widest possible range of literary communication, including the metamorphosis of media, genres, forms, and themes.

Whereas specific literature programs allow the student to trace the development of one literature in a particular culture over a period of time, Comparative Literature juxtaposes the writings of different cultures and epochs in a variety of ways. Because interpretive methods from other disciplines play a crucial role in investigating literature’s larger context, the Program offers courses intended for students in all divisions of the college and of all interests. These include courses that introduce students to the comparative study of world literature and courses designed to enhance any foreign language major in the Williams curriculum. In addition, the Program offers courses in literary theory that illuminate the study of texts of all sorts.

Note: the English Department allows students to count one course with a COMP prefix as an elective within the English major.

MAJOR

The Comparative Literature major consists of nine courses in literature (broadly conceived) or relevant theoretical approaches, and a Senior Portfolio (COMP 490; thesis-writers substitute COMP 494). All Comparative Literature majors are required to take COMP 111: The Nature of Narrative (in exceptional circumstances, a student may substitute an upper-level course with the approval of the Comparative Literature Advisory Committee).

Five (or more) of the remaining courses must include, as at least half of their content, material originally written in a language other than English (non-English texts may be read in the original language or in translation) OR be heavily focused on comparison across different media.

Senior Portfolio

The Senior Portfolio is an assembly of the student’s work that explores their intellectual development through the course of their study of Comparative Literature. The student will select three pieces of work from previous courses taken for the major and tie them together through an eight-to-ten-page unifying essay or other creative project. There are a range of possibilities for this aspect of the portfolio, including more traditional analytic essays and other forms of creative artistic expression (fiction, poetry, visual arts, etc.). For thesis writers, the thesis replaces the Senior Portfolio. Majors will present their Senior Portfolios during a symposium soon after spring break in their final spring semester. Students should select a Senior Portfolio advisor and submit an initial proposal to the advisor and to the chair in the semester preceding (fall semester of senior year for students graduating in June, and fall semester of junior year for students graduating in December), and must enroll in COMP 490 in their final spring semester.

THE DEGREE WITH HONORS IN COMPARATIVE LITERATURE

Prerequisites

Honors candidates in Comparative Literature are required to have maintained a GPA of 3.5 in the major to qualify for submitting a thesis proposal. In addition, candidates must demonstrate a strong interest in a specific topic for which an appropriate faculty advisor will be available in the senior year.

Timing

Students wishing to pursue a thesis in Comparative Literature are strongly urged to secure an advisor by the end of the week after Spring Break in their junior year. By May 15th of their junior year, candidates must submit to the Program Advisory Committee a one- to two-page proposal and a preliminary bibliography. The Advisory Committee will inform candidates by June 1 whether they may proceed with the thesis and advise them about any changes that should be made in the focus or scope of the project. The summer before the senior year will be spent compiling a more detailed bibliography and preparing for the process of writing the thesis.

In their senior year, candidates will devote two semesters and the winter study period to their theses (493-31-494). By the end of the Fall semester, students will normally have undertaken substantial research and produced the draft of at least the first half of the project. At this point students should also have a clear sense of the work remaining for completion of the thesis. In the course of the Fall semester, students will also have chosen and met with a second reader for the project, who will provide additional guidance and read the final thesis. By the end of Winter Study, students should have completed a draft of the entire project. At that time, the Comparative Literature Advisory Committee, together with the advisor, will determine whether the project may continue as an Honors Thesis, or whether its first portions (COMP 493-COMP 31) will be graded as
Independent Studies.

The second semester of independent thesis work will be spent revising as necessary. The completed thesis in its final form will be due one week before the last day of classes. The student will make a public presentation of the thesis as part of the Senior Portfolio Symposium soon after spring break.

Characteristics of the Thesis, Evaluation, and Major Credit

The topic of the thesis must be comparative and/or theoretical. It is also possible to write a thesis that consists of an original translation of a significant text or texts; in this case, a theoretical apparatus must accompany the translation. The complete thesis must be at least 50 and at most 75 pages in length, excluding the bibliography.

The advisor will assign the grades for the thesis courses (COMP 493-31-494); the Advisory Committee will determine whether a candidate will receive Honors, Highest Honors, or no honors.

For students who pursue an honors thesis, the total number of courses required for the major—including the thesis course (COMP 493-31-494)—is 10, i.e., one of the thesis courses may substitute for one course and the Senior Portfolio.

STUDY ABROAD

The Program in Comparative Literature strongly urges its majors to study abroad. Up to four courses on literature taken abroad can be counted towards the major, provided they satisfy the program’s requirements.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in many cases, though students should be sure to contact the department. Some courses can be approved definitively, others provisionally. Approval for core credit may require more information.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments. Sometimes we can tell from the title, sometimes a description is needed. We often need to know the readings assigned.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes, four.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. No substitutions are allowed for COMP 111 (Nature of Narrative).

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. No study abroad spring semester senior year because of the senior portfolio. We also strongly recommended that students take COMP 111 Nature of Narrative before studying abroad (but they aren’t required to do so).

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

Not a common problem, but it has happened. The department typically doesn’t count Div II-type culture courses.

COMP 101  Greek Literature: Performance, Conflict, Desire

In the *Iliad*, Paris’ desire for the famously beautiful Helen leads to the Trojan War, the devastating conflict between the Trojans and the Greeks retold and reimagined time and again in ancient Greek literature. The stories of Troy and its aftermath were performed not only as epic poems (as in the *Iliad* and the *Odyssey*), but also evoked by lyric song, dramatized on the tragic stage, and recounted in oratory. Beginning with the Homeric epics, this course explores the recurring and ever-shifting debates, longings, hostilities, and aspirations that drive Greek literature and shape its reception, paying special attention to questions of performance context and audience. We will consider, for example, how the competitive and erotically-charged
environment of the Greek symposium is crucial for understanding both Sappho's songs and the philosophical dialogues of Plato and Xenophon. The nexus of performance, conflict, and desire will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identity, the workings of Athenian democracy, and the development of literary genres. This course will include readings from the works of, e.g., Homer, Sappho, Herodotus, Aeschylus, Sophocles, Euripides, Aristophanes, Thucydides, and Plato, and assignments will incorporate interactive and experiential elements, such as recitations, staged readings, and debates. All readings are in translation.

**Requirements/Evaluation:** two medium-length essays, final exam, active participation, preparation for and participation in debates and staged readings (short writing assignments, in-class presentations).

**Prerequisites:** none

**Enrollment Limit:** 40

**Enrollment Preferences:** Classics majors, first years, sophomores

**Expected Class Size:** 10-15

**Grading:**

**Distributions:** (D1)

**Not offered current academic year**

**COMP 105 (S) “Make it New”: The Modernist Experiment (WS)**

**Cross-listings:** ENGL 106  COMP 105

**Secondary Cross-listing**

In her essay “Mr. Bennett and Mrs. Brown” (1924), Virginia Woolf proposed that around 1910 "human character" itself had suddenly changed, rendering existing conventions "in religion, conduct, politics, and literature" no longer adequate to express the new age. "And so the smashing and the crashing began. Thus it is that we hear all around us, in poems and novels . . . the sound of breaking and falling, crashing and destruction." This course will explore the effort of artists in the decade or so before and after World War I to "make it new." We will read work by Conrad, Yeats, Frost, Pound, Joyce, T.S. Eliot, Mansfield, Woolf, Faulkner, Wallace Stevens, William Carlos Williams and others, and chart the range of innovative narrative and formal strategies Modernist writers adopted in their efforts to represent consciousness, experience, memory and the objective world more fully and accurately in an era of massive social, political and technological change. We will also consider some non-print media, including developments in the visual arts from the post-impressionists through to the surrealists, the work of the Bahaus, and early experiments in film.

**Requirements/Evaluation:** active class participation; three papers rising from 3-7 pages; three two-page reading responses

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** students who have not taken or placed out of a 100-level ENGL course

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENGL 106 (D1) COMP 105 (D1)

**Writing Skills Notes:** Three papers rising from 3-7 pages; three 2-page reading responses. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Attributes:** ENGL Literary Histories C

**Not offered current academic year**

**COMP 106 (F) Temptation (WS)**

**Cross-listings:** COMP 106  ENGL 107

**Secondary Cross-listing**

We want most those things we can’t--or shouldn’t--have. Or, to put it another way, it is when limitations are placed on our actions by law, religion, or the facts of our own biology that we experience desire most acutely. In this course, we will examine fictional narratives, lyric poems, and philosophical meditations in which people are tempted to act against their better judgement. Free will, ambition, temperance, suspense, despair, and repression will be our conceptual preoccupations. We will get to know such writers and artists as Homer, Euripides, Ovid, Augustine, Shakespeare, Donne, Milton,
Laclos, Mozart, Freud, Frost, and Scorsese.

Requirements/Evaluation: Four five-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: First-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 106 (D1) ENGL 107 (D1)

Writing Skills Notes: Students will write four five-page papers, each of which will receive timely and extensive written feedback from the instructor. Students will be invited to discuss their papers with the instructor at the draft stage.

Fall 2021

SEM Section: 01    TR 9:55 am - 11:10 am     Emily  Vasiliauskas

COMP 107 (S) Advanced French: Danger and Desire in French Film and Fiction (DPE)

Cross-listings: RLFR 106 COMP 107

Secondary Cross-listing

This is an advanced course in French language designed to help you improve your speaking, comprehension, reading, and writing, through the dynamic study of short literary texts and films focusing on danger and desire in nineteenth-, twentieth-, and twenty-first-century France. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French literature and cinema. As a focus for improving your French, we will examine a broad range of texts and films on danger and desire in France from 1820 to 2020, with an emphasis on passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

Requirements/Evaluation: active class participation, grammar exercises, two short papers, midterm, and final paper

Prerequisites: Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

Enrollment Limit: 16

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 106 (D1) COMP 107 (D1)

Difference, Power, and Equity Notes: This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies, men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

Spring 2022

SEM Section: 01    TR 9:55 am - 11:10 am     Brian  Martin
In the first book of Vergil's *Aeneid*, the god Jupiter prophesies the foundation and the greatness of Rome: "I place no limits on their fortunes and no time; I grant them empire without end." Yet elsewhere in this epic account of Rome's origins, this promise of unlimited power for the descendants of Romulus seems to be seriously abridged. Some readers have seen, not only in the *Aeneid* but throughout classical Roman literature, a persistent tendency to inscribe the decay and disintegration of Roman power into the very works that proclaim and celebrate Roman preeminence. This course explores the ancient Romans' own interpretations of their past, their present, and their destiny: the humble beginnings of their city, its rise to supreme world power, and premonitions of its decline. Related topics for our consideration will include Roman constructions of gender, the location and expression of virtue in the public and private spheres, the connections and conflicts between moral probity and political success, the exercise of individual power versus action on behalf of the commonwealth, the absorption of foreign customs and peoples into Rome, the management of literal and imaginary frontiers, and other anxieties of empire. We will read selections and complete works by a wide variety of Roman authors, including Cicero, Catullus, Caesar, Vergil, Sallust, Horace, Ovid, Seneca, and Tacitus. *All readings will be in translation.*

**Class Format:** discussion

**Requirements/Evaluation:** short written assignments, midterm and final exams with essays, and contributions to class discussion

**Prerequisites:** none

**Enrollment Limit:** 25

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

CLS 102 (D1) COMP 108 (D1)

Not offered current academic year
Enrollment Limit: 12

Enrollment Preferences: First Years, in groups of 3 students.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 110 (D1) COMP 109 (D1)

Writing Skills Notes: This tutorial will teach students to analyze visual media and fiction in German Studies in combination with secondary sources from a variety of related disciplines (History, Political Science, journalism). The toggling between these different types of sources promotes critical thinking skills.

Fall 2021

TUT Section: T1 TBA Helga Druxes

COMP 110 (S) Introduction to Comparative Literature

Cross-listings: ENGL 241 COMP 110

Primary Cross-listing

Comparative literature involves reading and analyzing literature drawn from different times, movements, cultures, and media. In this class, we will study English translations of texts from eras spanning the ancient to the contemporary; literary movements including romanticism, realism, and postmodernism; national traditions arising in Western and Eastern Europe, Asia, and Latin America; and media including prose fiction, graphic memoir, and film. Throughout the course, we will consider what it means to think about all these different works as literary texts. To help with this, we will also read selections of literary theory that define literature and its goal in abstract or philosophical terms. Assignments will focus on close, creative reading of relatively short texts by authors like Homer, Sei Shônagon, Kleist, Lermontov, Zola, Borges, Wilde, Mamet, Bechdel, and others. All readings will be in English.

Requirements/Evaluation: attendance, participation, two 5-page papers, a few short responses, midterm exam

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: students considering a major in Comparative Literature

Expected Class Size: 35

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 241 (D1) COMP 110 (D1)

Not offered current academic year

COMP 111 (F)(S) The Nature of Narrative (WS)

Cross-listings: COMP 111 ENGL 120

Primary Cross-listing

Narrative--storytelling--is a fundamental human activity. Narratives provide us with maps of how the world does or should or might work, and we make sense of our own experiences through the narratives we construct ourselves. This course examines the nature and functions of narrative using texts from a wide range of literary traditions, media, and genres. Readings may span classics (e.g. Homerian epic and/or The Tale of Genji), fiction ranging from nineteenth-century realism to postmodern experimentation (possibly including Kafka, Tolstoy, Garcia-Marquez, Toni Morrison, and/or James Baldwin), and visual literature from film and drama to graphic memoir (possibly including Mizoguchi Kenji, Art Spiegelman, Alison Bechdel, and/or Asghar Farhad). We may also read some short works of literary theory from around the world to help us broaden our idea of what literature can be and do. All readings in English.

Class Format: The second half of the course may have a modified tutorial format, where small groups meet with the instructor once a week, with students' papers and responses forming the basis of the discussion.
Requirements/Evaluation: Regular attendance and participation in class; short and mid-length writing assignments spaced throughout the semester; revision of selected assignments after receiving instructor feedback.

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Students considering a major in Comparative Literature

Expected Class Size: 18

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 111 (D1) ENGL 120 (D1)

Writing Skills Notes: Multiple writing assignments that build upon each other, including drafts and revisions, with substantial individualized feedback on writing from the instructor.

COMP 117 (F) Introduction to Cultural Theory (WS)

Cross-listings: ENGL 117 COMP 117

Secondary Cross-listing

This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study "culture," what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word "culture" means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Laura Mulvey, but we will also, in order to put our new ideas to the test, watch several films (mostly of the class's choosing) and listen to a lot of rock and roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.

Class Format: discussion

Requirements/Evaluation: four formal writing assignments totaling 20 pages (three full essays + one lead-in assignment), informal writing twice weekly, class attendance and participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 117 (D1) COMP 117 (D1)

Writing Skills Notes: Students will write three five- to seven-page papers, on which I will provide extensive feedback. Before writing their first papers, students will submit theses and introductions, which I will help them refine. We will hold three extra writing sessions, to discuss how best to organize arguments. Students will write informally before every class.

Attributes: AMST Critical and Cultural Theory Electives
COMP 118 (F) Animal Subjects (DPE)

Cross-listings: COMP 118 GERM 118

Primary Cross-listing

Nonhuman animals constitute the limit against which humans define themselves; at the same time, they challenge such boundaries. Thinking about animals, then, always also means exploring our own humanity. In this tutorial, we will draw on the vast archive of literature, philosophy, and art that engages animals in order to reconsider what and how these representations mean. Bringing philosophers and poets into conversation with one another, we will critically examine common assumptions about other beings as we probe the categories that structure our perceptions. Considering our complex relationships with other animals, we will address questions of ontology, aesthetics, and ethics: What makes an animal? Can animals be represented? How should animal suffering affect us? In order to approach such questions, we will focus on the intricate entanglements that constitute human and nonhuman lives, emphasizing moments of contact and conflict.

Requirements/Evaluation: regular attendance and participation, alternating 4- to 6-page tutorial papers, and 2-page critiques

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 118 (D1) GERM 118 (D1)

Difference, Power, and Equity Notes: The course considers the connections between different systems of oppression by examining the ways in which tropes of animality are transferred onto marginalized human groups, including, but not limited to, women and people of color. Students will also acquire the critical tools to recognize and investigate instances of interlocking violence that frequently hide in plain sight.

Not offered current academic year

COMP 119 (S) Asian American Femininities (DPE)

Cross-listings: WGSS 119 COMP 119

Secondary Cross-listing

This tutorial will introduce students to the intersections of feminist studies and Asian American studies by reading Asian and Asian American literature (read in English) that centers female-identified characters. This course will consider the historical and persistent structures of patriarchy, heterosexism, nationalism, imperialism, war, and globalization through the framework of gender and sexuality studies. Students will read short excerpts of feminist theoretical works, selected with the idea of making scholarly texts more approachable to first- and second-year students. No previous experience with feminist theory or Asian American studies is presumed or required.

Requirements/Evaluation: weekly papers or peer responses

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-year students

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 119 (D2) COMP 119 (D2)

Difference, Power, and Equity Notes: The course studies and historicizes the social, cultural, and political forces that shape gender, race, sexuality, and migration for Asian/American womxn.

Not offered current academic year
COMP 128 (S) Reading Asian American Literature

Cross-listings: COMP 128 ENGL 128 AMST 128

Secondary Cross-listing

Though the category and term "Asian American" came about as a result of political struggle in the 1960s, what we now call Asian American writing in English began in the nineteenth century and has played a significant role in every American literary "movement" from Modernism, realism, protest literature to various avant-gardes, the graphic novel, and digital poetries. This course closely reads a sampling of texts in a variety of genres and styles-produced by writers from various Asian American ethnic groups-from the late nineteenth century to the present and contextualizes them historically, both domestically and globally. We will examine the material, cultural, political, and psychic intersections of larger structural forces with individual writers and texts. Along the way, we will interrogate the notion of "Asian American"—its contradictions, heterogeneous nature, and our assumptions—and its relation to the idea of "American." Some questions we will ask: "Why have Asian Americans and Asian American writers and writing so often been viewed as 'foreign' or 'alien' to the American body politic and the English-language literary tradition?" "How might Asian American writing be linked to other English-language texts in the Asian diaspora?"

Requirements/Evaluation: six 2-3 pp. papers, participation (attendance, discussion, GLOW posts), and a final project (the final project is 7-9 pages: either a creative project or an analytical paper)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: prospective AMST or ENGL majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 129 (F) James Baldwin's Song

Cross-listings: AFR 128 COMP 129 MUS 179

Secondary Cross-listing

"It is only in his music [. . .] that the Negro in America has been able to tell his story. It is a story which otherwise has yet to be told and which no American is prepared to hear," wrote James Baldwin in Notes of a Native Son in 1955. In this course, we strive to listen more closely to racialized experience through James Baldwin's musical literature. Through analysis and creation of music, we hope to better understand cultural difference and collective humanity. In this course, we closely analyze James Baldwin's use of song names, creation of musician characters, and replication of musical elements in his writing. Baldwin's musical word play crosses historical and genre boundaries. So we will explore texts from his early to late career, such as the gospel music of his youth in the semi-autobiographical novel Go Tell It on the Mountain, the metaphor of the blues in the play written during the civil-rights movement Blues for Mr. Charlie, the jazz musician protagonist in "Sonny's Blues" written after World War II in Paris, and his only musical recording in A Lover's Question set down near the end of his life. In addition to closely analyzing James Baldwin's attention to music throughout his literature, students will learn basic music writing and production skills. The tutorial will draw on a range of musical resources, including playlists, music workshops, guest lectures and performances. All of these resources will guide students to a more attuned hearing not only of music but also of the African American experience it reflects. By the end of the course, students will have written several short 1-2 page close analysis essays and song lyrics. For their final project, students will produce an original song based on key insights from the course. No musical experience is required, though an openness to learn and practice songwriting is expected.

Requirements/Evaluation: Several short 1-2 page close analysis essays of Baldwin's work, oral peer feedback presentations, song lyrics, and an original song composition for the final project

Prerequisites: None

Enrollment Limit: 10
**Enrollment Preferences:** This course is specifically for first-year students and they will receive preference in this class; a statement of interest will be solicited from pre-registrants.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**COMP 130 Writing for the Humanities** (WS)

Compelling academic prose is a rare beast. In this course we will investigate what makes for good academic writing and how we can produce it ourselves. We will begin with words, then progress to sentences, paragraphs, and essays. Our reading will be close, our writing closer. Topics include the following: Are adverbs incredibly important? When is less more, and when isn’t it? Is your garden English, or is it Chinese? What is the “uneven U” and why does it work? How does your audience affect how you write? In addition to reading writing about writing by Orwell, Fish, Tufte, Hayot, and (inevitably) Strunk and White, we will look closely at academic prose out in the wild, both good and bad. This course is for anyone who is interested in exploring in more depth the craft of writing, whether you have always considered yourself a “good writer” or struggle to fill a single page (or both). Our focus will be on academic writing for the humanities, but the skills we will develop are relevant to many other contexts as well.

**Requirements/Evaluation:** Regular attendance and active participation in class; writing assignments ranging in length from sentences to essays of varying length (500 words to 5-7 pages).

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** First- and second-year students

**Expected Class Size:** 12

**Grading:***

**Distributions:** (D1) (WS)

**Writing Skills Notes:** The course will center on explicit, in-depth discussion of writing. We will read and discuss both writing on writing, and examples of prose. Students will complete weekly writing assignments of varying lengths and degrees of formality on which they will receive feedback from the instructor with particular attention to the craft of writing; some assignments will also be shared with the rest of the class.

**Not offered current academic year**

**COMP 134 (S) Leaving the World Behind: The Literature of Reclusion** (DPE) (WS)

**Cross-listings:** ANTH 134 CHIN 134 COMP 134 REL 134

**Secondary Cross-listing**

Living in a time of political and social turmoil, Confucius told his followers: “When the realm has the Way, show yourself; when it lacks the way, hide.” Reclusion here is a moral choice, justified by the ethical decline of the state. But it could also be a mortal necessity in a period in which government service was a distinctly hazardous pursuit. In other contexts becoming a hermit could instead be figured as aesthetic stance meant to preserve one’s artistic integrity against the dominant claims of society. This course looks at the literature of reclusion-living a life of seclusion from society-in a range of different cultures and periods, from ancient China to contemporary America. With sources that include poems, essays, novels, and films, we will investigate a set of issues surrounding radical seclusion. What different forms does reclusion take? Can one be a hermit without being completely separated from society? What is the relationship between hermits and the state-to what extent does one depend on the other? What are the philosophical and moral implications of eremitism? Is separating oneself from human society an inherently immoral act? What is the relationship between reclusion and technology in the contemporary world? What is the nature of solitude and can it be experienced in a group (for example, in contemporary "intentional communities")? While most of our work will focus on textual analysis, there will be an experiential component to the course as well. Each student will design and implement their own experiment in (short-term) eremitism.
Class Format: experiential component
Requirements/Evaluation: tutorial papers, responses, and an individual project
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first-year students, Chinese majors, Religion majors, Anthropology majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 134 (D1) CHIN 134 (D1) COMP 134 (D1) REL 134 (D2)

Writing Skills Notes: Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner's paper. Papers will receive substantial writing-based feedback from both the instructor and partner.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social differences and dynamics of unequal power. Acts of reclusion are often ways that individuals can challenge the dominance of the state and other structures of authority indirectly. Modes of reclusion can differ substantially depending on the social standing of the recluse. These are issues that we will examine in the course.

Not offered current academic year

COMP 139  (S) Living a Feminist Life  (DPE) (WS)

Cross-listings: COMP 139  ENGL 139  WGSS 139

Secondary Cross-listing

The course invites students to consider the range of ways in which "knowledge" about women's, femme's and non-binary lives has been constructed in text, and how this knowledge determines and impacts the we have and make. The first half of the course is organized around a deep reading of Sara Ahmed's recent theoretical book, Living a Feminist Life, while the second half of the course will examine a spectrum of women's life writing-poetry, music, journalism, theory, and memoir-to discover how text continues to shape feminist lives, and how femmes' lived experience in turn shapes feminist discourse. Course materials for the second half of the semester will be generated in part through discussion and students' suggestions. Key texts will include Jamaica Kincaid's A Small Place, Audre Lorde's Sister Outsider, Djamila Boupacha's memoir, Ana Lily Amirpour's film A Girl Walks Home Alone at Night, Sara Ahmed's Living a Feminist Life, Valerie Solanas's SCUM Manifesto, and bell hooks's Teaching to Transgress. In their writing for this course, students will consider how their own intimate relationships-with parents, partners, children, neighbors, or friends-can become sites of feminist activism, and sources of strength and knowledge to be carried into the broader world of public engagement and intervention. In the final weeks of the course, we will collectively interrogate the (false) boundary between writing and living as modes of feminist praxis.

Requirements/Evaluation: five short written assignments and one final research project
Prerequisites: none
Enrollment Limit: 19
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 140  (F) Introduction to Traditional Chinese Literature
Cross-listings: COMP 140  CHIN 140

Secondary Cross-listing

With a written record stretching over 3000 years, China's literary cultures are some of the richest and most varied in human history. Their influence continues to be felt not only in modern China, but also throughout much of the world. This course examines the origins and development of the different literatures of China from their earliest stages up until the end of the imperial system in 1911. We will read texts ranging from the Analects of Confucius to the medieval poetry of the Tang dynasty, from Buddhist sutras to plays about prostitutes and singing girls. An invulnerable monkey god may make an appearance to sow chaos as well. He's difficult to pin down. Some important themes will include: the role of the individual versus that of the community, responses to catastrophe and disorder, the fantastic, the articulation of the self through literature, and ways of dealing with historical and literary legacies. All readings are in English translation.

Requirements/Evaluation: five short writing assignments (2 pages each), one paper (6-7-pages), and a final exam

COMP 141  (S)  Black Autobiography

Cross-listings: AFR 140  COMP 141

Secondary Cross-listing

Autobiography--whether slave narrative, memoir, or semi-fictional life account--has served as a primary form of writing for people of African descent. Although primarily understood as a textual means for articulating selfhood, Black autobiographies also ask other questions like: How do Black reflections on the self necessitate critiques of society and culture? How have Black autobiographies been utilized for political mobilization? And, what might a collective analysis of Black autobiographies reveal about changes in conceptions of Black selfhood over time? We will explore these concerns by reading autobiographies across time and space by authors like Ottobah Cugoano, W. E. B. Du Bois, and Alice Walker.

Requirements/Evaluation: class participation, two to three short papers (5- to 7-pages), and a 15- to 20-page paper or multimedia final project

COMP 151  (F)  The Art of Playing: An Introduction to Theatre and Performance

Cross-listings: THEA 101  COMP 151  GBST 116

Secondary Cross-listing

This is an introduction to the global art and practice of making theatre. Students will learn about the history, aesthetics, and approaches to the performer's labor associated with select performance forms from around the world. Emphasis will be on the analysis of embodied practices and the
relationship between the stage and everyday life. Through readings, audiovisual materials, performance exercises, and discussions we will engage with theatre as a constantly evolving art form, sharpening our analytical skills through theoretical approaches from performance studies. Central to our exploration will be excavating the Eurocentric assumptions that conventionally shape the practice and study of theater in the United States. We will seek ways to decolonize our perspectives and ask critical questions about performance's potential to enact strategies of anti-racism and anti-imperialism. This course, open to all students, is a gateway to the major in Theatre, and is a prerequisite for THEA 201, THEA 204, THEA 301, and THEA 401.

Requirements/Evaluation: two 5-page critical essays, journal reflections, studio exercises, and active participation in all activities
Prerequisites: none

COMP 153 (S) Japanese Film
Cross-listings: ASIA 153 ASST 153 COMP 153
Primary Cross-listing
From the swashbuckling samurai films of Kurosawa and delicate family dramas of Ozu to edgy cinematic experiments and a breathtaking range of animation, Japan has one of the most varied and exciting film traditions in the world. This course will introduce you to major periods, genres, and directors in that tradition. We will read film criticism that represents a range of approaches, but we'll focus particularly on learning and practicing the kind of close visual analysis that will allow you to build your own original descriptions of how a given scene "works." Throughout the course we will consider the relationship between classic cinema and popular genres like sword flicks, melodramas, psychological thrillers, and anime, focusing particularly on directors whose work seems to borrow equally from genre film and the artistic avant-garde. All texts are translated or subtitled. All levels welcome.

Class Format: This class will have a hybrid format: on-campus students will meet in a classroom during the scheduled class slot (observing campus distancing protocols), while off-campus students participate simultaneously via Zoom. Off-campus students must be able to Zoom in during the scheduled class times.
Requirements/Evaluation: attendance & participation, a few short response assignments, two 5-page papers, in-class test
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: students majoring or considering a major in comparative literature

**COMP 166 (F) Being Muslim, Being American:** American Muslim Literature in the 21st century  (DPE)
Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

**Requirements/Evaluation:** regular reading responses, short midterm essays, and final paper

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** First-year students and sophomores

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

**Difference, Power, and Equity Notes:** This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

**COMP 186 (F) Japanese Popular Visual Culture**

**Cross-listings:** COMP 186 ARTH 586 ASIA 186 ARTH 286

**Primary Cross-listing**

The phrase "Japanese popular culture" often calls to mind comics and animation, but Japan's earliest visual pop culture dates back to the 17th century and the development of arts like kabuki theater and woodblock prints that could be produced for a mass audience. This course traces Japanese popular culture through a range of visual media: kabuki and puppet theater, premodern and postmodern visual art (ukiyo-e, Superflat), classic film (Ozu, Mizoguchi, Kurosawa), manga/comics (Tezuka, Otomo, Hagio), and animation (Oshii, Miyazaki, Kon). The class will also study material examples of Japanese popular culture on display in the *Repro Japan* exhibition at the Williams College Museum of Art. We will develop visual reading skills to come up with original interpretations of these works, and compare different media to make them shed light on one another.

**Class Format:** discussion

COMP 200  (S)  European Modernism--and Its Discontents
What is/was Modernism? An artistic movement? A new dynamic and sensibility? A transformative response to changed conditions? All these and more? This course will attempt to deal with such issues via examination of certain key works spanning the years 1850-1930. Topics to be considered: the rise of industrial capitalism and the literary market, advances in science and technology, urban alienation and social conflict, anti-"bourgeois" stances, the displacement of religion, the fragmented self, the proliferation of multiple perspectives, the breaks with the past and privileging of the present, and the horrors of war. To be studied: poetry by Baudelaire, Yeats, and Neruda; prose fiction by Dostoevsky, Kafka, Proust, Joyce, and Woolf; drama by Beckett; Futurist and Surrealist manifestoes; German Expressionist films; and theoretical writings by Marx, Freud, Nietzsche, Ortega y Gasset, and Benjamin. In addition, select portions of Bell-Villada's Art for Art's Sake and Literary Life and Peter Gay's Modernism will serve as general background to the course. All readings in English.

Class Format: discussion

Requirements/Evaluation: class participation, brief weekly journals, one class presentation, three 6-page papers, a mid-term, and a final

Prerequisites: none; first-year students must consult with the instructor before registering for this course

COMP 201  (F)  The Hebrew Bible

Cross-listings: JWST 201  COMP 201  REL 201

Secondary Cross-listing

The Hebrew Bible is perhaps the single most influential work in the history of Western philosophy, literature, and art. But the overwhelming presence of the text in nearly every aspect of modern culture often obscures the sheer brilliance of its narrative technique as well as the complex interplay between law, history, prophecy, and poetry. This course offers a comprehensive introduction to the literary, historical, and theological aspects of the Hebrew Bible with an eye towards developing a sophisticated understanding of the text in its ancient context. Through the close reading of substantial portions of the Hebrew Scripture in translation and the application of various modern critical approaches to culture and literature, students will explore fundamental questions about the social, ritual, and philosophical history of ancient Israel, as well as the fundamental power of storytelling that has resonated across two millennia.

Class Format: discussion

Requirements/Evaluation: class participation, short written assignments, and two to three longer papers

**Attributes:** ENGL Literary Histories C
This course surveys Soviet and Russian cultural history of the 20th- and 21st-centuries through the history of the cinematic medium. We will watch and analyze key films of this period--films by Eisenstein, Vertov, Tarkovsky, Muratova, Balabanov, Zviagintsev, and Fedorchenko among others--from a double perspective. On the one hand, we will study the cultural and historical contexts of the Soviet Union and Russia; on the other hand, we will learn the formal and stylistic aspects of the cinematic medium as it developed historically (from silent, to sound, to color, to digital etc.). From this double perspective, we will try to answer a larger question that underlies this course: What kind of historical thinking can we learn through cinema as a medium? In other words, we will take cinema neither simply as a direct reflection of state ideology nor as pure aesthetic form or entertainment for the masses. Rather, we will approach the films of this period as audio-visual texts that are rich in historical content and require our informed and attentive interpretation.

Class Format: The class meets synchronously on campus twice a week. Remote students will be able to join each synchronous session via zoom. Synchronous sessions will consist of discussion and visual analysis of short clips. All films and reading materials will be available online.

Requirements/Evaluation: For each class you'll watch 1 or 2 film(s) and read typically 1 article under 20 pages. You will submit short viewing response before each class. Additionally, there will be short viewing or creative assignments to familiarize students with formal aspects of film. Evaluation will be based on participation, one presentation, short sequence analysis, and final paper or video essay.

Prerequisites: none, open to all students

Secondary Cross-listing

A course specifically designed to enable students who have no knowledge of Spanish to read and discover those Latin-American authors who, in the twentieth century, have attracted world-wide attention. Among the texts to be discussed: Borges, Labyrinths; Cortázar, Blow-up and Hopscotch; Lispector, the Hour of the Star lesser works by Fuentes and Puig; and by Nobel Prize-winner Gabriel García Márquez, One Hundred Years of Solitude. Conducted in English

Requirements/Evaluation: class participation, two brief papers, a midterm, and a final exam

Prerequisites: none

Enrollment Limit: 22

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 22

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not carry credit for the Spanish major or the certificate

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLSP 205 (D1) COMP 205 (D1)

Difference, Power, and Equity Notes: This course offers students an opportunity to read some major works of fiction that have challenged the ¿canon¿ of European and American literature. Through the readings, class members will understand that great literature comes not only from London.
or Paris, from the U.S. or Russia. Several of these novels, moreover, directly challenge European and Western cultural hegemony and make an implicit claim for the legitimacy of Latin American cultural concerns.

COMP 206 (S) The Book of Job and Joban Literature

Cross-listings: REL 206  JWST 206  COMP 206

Secondary Cross-listing

The Book of Job has often been described as the most philosophical book of the Hebrew Bible. The story of one man's struggle to understand the cause of his suffering and his relationship to God represents the finest flowering of the Near Eastern wisdom literature tradition. Through its exploration of fundamental issues concerning human suffering, fate and divinity, and the nature of philosophical self-examination, Job has served as a touchstone for the entire history of existential literature. At the same time, the sheer poetic force of the story has inspired some of the greatest artistic and literary meditations in the Western tradition. This course will engage in a close reading of the Book of Job in its full cultural, religious, and historical context with special attention to its literary, philosophical, and psychological dimensions. We will then proceed to investigate key modern works in several genres that involve Joban motifs, themes, and text both explicitly and implicitly. These texts will include Franz Kafka's *The Trial*, Archibald MacLeish's *J.B.*, Robert Frost's "Masque of Reason," Carl Jung's *Answer to Job*, and William Blake's *Illustrations to the Book of Job*. All readings are in translation.

Class Format: For the spring of 2021, this course will be taught online. The seminar will meet at the regularly scheduled time twice a week.

Requirements/Evaluation: Evaluation will be based on class participation, weekly short written assignments, and two longer papers.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: If the course is overenrolled, preference will be given to students who have already taken a course in biblical literature.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

COMP 207 (S) Genesis: The Family Saga

Cross-listings: COMP 207  REL 208  JWST 208

Secondary Cross-listing

The Book of Genesis has rightly been described as the masterpiece of Hebrew biblical narrative. In particular, the continuous tale that begins with Abraham and Sarah and extends four generations to the children of Jacob, Leah, and Rachel is one of the most extraordinary examples of literary artistry in any time or tradition. As one family wrestles with the promise of becoming a chosen people, the narrative explores themes of marriage, parenthood, sibling rivalry, land, violence, wandering, and, above all, the complex relationship between humanity and God. This course will examine those themes through a close reading of Genesis in translation, from Abraham and Sarah's first appearance on the scene to the death of Jacob. We will consider the text from multiple perspectives with an eye toward understanding the literary, philosophical, and psychological dimensions that continue to amaze and perplex readers to this day.

Requirements/Evaluation: class participation, a series of short writing assignments, and two longer papers

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students who have already taken a course in Biblical literature

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

COMP 208  (S) Through the Looking Glass: Comparative Children’s Literature
Oh, the reads we will read, if you follow my lead!
We will amble at first and then soon pick up speed,
And we’ll bury our noses in books thick and thin.
This I vow by the hair on my chinny-chin-chin.
There’ll be picture books, fairy tales, primers, and verse,
Tales of joy, fun, and laughter; and, alas, the reverse.
Some were written in English, but most of them not.
Though we’ll read in translation: Sign on up, polyglot!
For example, there’s Lindgren, Collodi, and Grimm,
Tonatiuh, and Sendak. Surely, you’ve heard of him?
We’ll critique illustrations, we’ll wonder, we’ll ponder,
And by turns we’ll divine what defines this grand genre.
Is it mere fun and games, pixie dust, sweet as pie?
Does it ask to be read with a serious eye?
Books appeal to our puzzler--our minds--after all,
And a child is a thinker, no matter how small.
You’ll reflect, cogitate, then you’ll write, write, write, WRITE!
And your thoughts will become this instructor’s delight.

Class Format: This hybrid course is designed as a seminar, but depending on student enrollment and how the semester takes shape, we may play with the format to include tutorial-style sessions.

Requirements/Evaluation: regular reading and/or viewing, leading class discussion, 4-5 short writing assignments (2 pages), one longer writing assignment (4-5 pages), and a final project

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Comparative Literature majors, then students in teaching program

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

COMP 209  (F) Global Chinese Literature

Cross-listings: COMP 209  CHIN 228

Secondary Cross-listing
This course centers upon a critical question in China studies: how to identify and theorize about Chinese literature (cultural productions in other media forms included) created outside the boundaries of Mainland China. "What is Chinese?" "What is Chinese culture?" "What is Chinese literature and culture like beyond China?" "How is China/Chinese perceived in different Sinophone communities?" are some of the major questions we engage in this course. Taking a comparative approach, we will read and analyze Chinese literature produced in various regions and cultures (Hong Kong,
Taiwan, Singapore, Malaysia, etc.) at critical historical moments during the second half of the twentieth century and early years of the twenty-first century. We will also read critical essays in studies of Shijie huawen wenxue (Global Chinese-language literature) to gain a theoretical understanding of the scholarship. The purpose of the course is two-fold: First, it is expected that we expand our purview in studying Chinese-language literature and culture; second, we will learn to think critically the ways in which such concepts as Chinese and Chineseness travel and translate among peoples, regions, nations, and cultures. The course is conducted online, with a mostly synchronous mode of instruction. No prior knowledge in Chinese is required.

Requirements/Evaluation: 5-to-10-minute pop quizzes; 2 term exams; one final paper (5-6 pages)
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Priority will be given to Chinese majors, Asian Studies majors, and Comparative Literature majors.
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

COMP 210  (F)  Latina/o Language Politics: Hybrid Voices
Cross-listings: AMST 240  COMP 210  LATS 240
Secondary Cross-listing
In this course we will focus on issues of language and identity in the contemporary cultural production and lived experience of various Latina/o/x communities. As such, how are cultural values and material conditions expressed through Latina/o/x language and literature? How does Latina/o/x identity challenge traditional notions of the relationship between language, culture, and nation? In what ways might Latina/o/x literary and linguistic practices serve as tools for social change? Departing from an overview of common linguistic ideologies, we will examine code-switching, bilingual education, recent linguistic legislation, and the English Only movement. Throughout the course we will survey texts culled from a variety of literary genres as well, including autobiography, novels, and poetry. Both directly and/or indirectly, these texts address Latina/o/x language politics, as well as the broader themes of power, community, ethno-racial identity, gender, sexuality, class, and hybridity.
Requirements/Evaluation: participation, two essays, final take-home examination
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Latina/o Studies concentrators, American Studies majors, Comparative Literature majors by seniority
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

COMP 211  (F)  The Jewish Art of Interpretation
Cross-listings: REL 222  JWST 222  COMP 211
Secondary Cross-listing
Turn it and turn it, for everything is in it. This famous rabbinic dictum offers an enigmatic yet comprehensive account of the principles that have defined the Jewish practice of interpretation for over two millennia. The imperative to keep a text, word, image, or concept in constant motion, in order to generate as many meanings and cross-meanings as possible, challenges us to transform the act of interpretation itself into a virtuosic craft or art that can engage the human imagination as diversely and powerfully as the creation of the works being interpreted. At the same time, emphasis on the dynamism between text and interpreter should dispel the notion that only expansive works have expansive meanings. If interpretation itself is an art,
then even the shortest text can contain "everything" within it when it participates in that art. This course will engage students in a radical experiment in the art of interpretation. Through a deep encounter with a selection of miniature texts, ranging from ancient rabbinic proverbs and medieval fables to the modern parables and fragments of Franz Kafka, as well as folklore and jokelore from every period in Jewish history up to the present, we will develop an interpretive practice that combines analytic, critical, and creative principles in both written and oral contexts. The goal throughout is to explore interactively how the making of meaning is an integral part of the human experience.

**Requirements/Evaluation:** class participation, regular short written and oral assignments, and a final project

**Prerequisites:** none

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Grading:** yes pass/fail option, no fifth course option

**COMP 212 (S) Moving While Black**

**Cross-listings:** COMP 212 AMST 212 AFR 216 DANC 217

**Secondary Cross-listing**

Opening your apartment door, driving down the highway, taking a knee, raising a fist, sitting at the lunch counter then or sitting in a café now, these movements have historically and presently prompted fear at a minimum and in the most grave cases death for black people. Whether in the U.S. or globally, moving in the world as a black person often means being perceived as different, foreign and threatening. Crawling, dancing, running and boxing, these movements have countered fear and articulated the beauty, pride, creativity and political resistance of black people. In both cases, black movement matters and means much. While many consider movement to be just organized dance moves, this course expands students' definitions of black movement and teaches them to analyze multiple perceptions, uses, and reactions to it. "Moving while Black" offers examples of physical movement in improvised and practiced performance, quotidian movement, geographical movement across national borders and symbolic, politicized gestures. Students will investigate black movement via interdisciplinary sources that reflect various time periods and locations. Students may analyze such texts as Jacob Lawrence's visual art in *The Migration Series*, the movement of the rumba dance form between Cuba and the Democratic Republic of Congo, the Alvin Ailey American Dance Theater's "Revelations," William Pope. L's choreographed crawls, the 1995 World Rugby Cup in South Africa, and the 2018 case of a Kansas resident arrested while moving into his own home. Additionally, this course features an important practice element, in which students experiment with in-class movement exercises and workshops, engage with dance archives at Jacob's Pillow, interview participants of Kusika, and create and perform their own choreographies. While no previous experience in performance is required, curiosity and openness to learning through one's own body movement is expected.

**Class Format:** classes will rotate throughout the semester between seminar discussions in the classroom and performance exercises in the studio

**Requirements/Evaluation:** multiple reading/viewing responses in a movement journal, an essay closely analyzing movement; a presentation, and multiple movement-based performances including a final project with outside research and a proposal

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** Africana Studies concentrators

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

Spring 2022
COMP 213 (S) Reading the Qur'an

Cross-listings: ARAB 236 REL 236 COMP 213 GBST 236

Secondary Cross-listing

In the nearly 1500 years of Islamic history, the Qur'an has been a central source of spiritual insight, ethical and legal guidance, sacred stories, and theological principles. Considered the divine word of God, the Qur'an is central to devotional life. This course will explore the Qur'an as a text that is always in a state of production. We will focus significantly on close readings of the text of the Qur'an, in addition to pre-modern and modern Qur'anic exegesis. The course will begin with a historical account of the revelation and collection of the Qur'an, placing the form and content of the text in the context of 7th century Arab society and the life of the Prophet. We will then study Qur'anic commentaries to discuss how Muslims have drawn theological, legal, philosophical, and mystical meaning from the Qur'an. We will pose some of the following questions: What do the different exegetical methods tell us about the intertextual nature of the Qur'an? How have these shifting notions affected the meaning made from Qur'anic verses and passages? What role do interpretive communities play in determining what the Qur'an says? Lastly, through an exploration of the art of Qur'an recitation, calligraphy, and Qur'an manuscripts, we will explore the ways in which the Qur'an is also an object of devotion in Muslim life.

Requirements/Evaluation: class participation, weekly reading responses, 3- to 4-page midterm paper, and a final project with a media component and a 4- to 6-page analytical essay

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion and Arabic Studies majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Spring 2022

COMP 214 (S) Moses: Stranger in a Strange Land

Cross-listings: COMP 214 REL 202 JWST 202

Secondary Cross-listing

As chieftain, priest, prophet, and lawgiver all in one, Moses occupies the central place in the history of Israelite and Jewish leaders. However, he is a somewhat unlikely candidate for such an important role. He is God's chosen leader among the enslaved Israelites, but he is raised as an Egyptian prince. He is a spokesman for his people, but he is slow of speech. He is the lawgiver and first judge of his nation, yet he is quick-tempered and impatient. The story of the most revered figure in the Jewish tradition, who nevertheless remains an outsider to the very end, has fascinated commentators and inspired countless artistic and literary interpretations. This course will engage in a close study of the figure of Moses by examining the biblical narrative of his life and career from Exodus through Deuteronomy with an eye towards understanding the complex and often contradictory portrait of this self-described "stranger in a strange land." We will also examine some of the ancient legendary and folkloric accounts about Moses, as well as philosophical and allegorical treatments in Hellenistic Jewish, early Christian, and Muslim biographies. We will then proceed to investigate key modern reconfigurations and critiques of Moses in several genres, which may include renaissance visual depictions, literary works by Sigmund Freud, George Eliot, Thomas Mann, and Zora Neale Hurston, and even musical and cinematic renditions. All readings are in translation.

Requirements/Evaluation: class participation, short written assignments, and two or three longer papers

COMP 215 (S) Cults of Personality (WS)

Cross-listings: COMP 215 RUSS 219

Secondary Cross-listing

First uttered by Soviet leader Nikita Khrushchev in 1956, the phrase "cult of personality" was formulated to discredit the hero-worship that accompanied Joseph Stalin's iron-fisted rule of the Soviet Union. Since then, the phrase has gained currency as a condemnation of a variety of seemingly all-powerful leaders in oppressive political regimes, including China's Mao Zedong, Iran's Ayatollah Khomeini, and the ruling Kim family in North Korea. In this course, we will examine the phenomenon of the cult of personality from a variety of perspectives, beginning with the cult surrounding Stalin and ending with that of Vladimir Putin. Our course material will encompass scholarship from multiple disciplines, including history, sociology, political science, cultural and media studies, as well as artistic expression typically labeled propaganda in literature, the visual arts, and film. Although our course will begin in the Soviet Union and end in contemporary Russia, we will explore how the cult of personality has been adapted and updated for different cultural and political purposes in fascist Germany and Spain, China, Iran, North Korea, and Cuba. All readings will be in English, and all films will have English subtitles.

Class Format: remote

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: none

Enrollment Limit: 10

Writing Skills Notes: Students will be writing papers (5-6 pages) every other week and receiving detailed feedback on their writing with the expectation that they will identify areas in need of improvement and work on these throughout the semester. The course will also require that students write one paper together with their tutorial partner and that they rewrite two different papers, one at midterm and the other at the end of the term.

Not offered current academic year

COMP 216 (F) Folk and Fairy Tales in Literature and Beyond (WS)

From cannibalistic crones in sugary cottages to frogs who can be transformed with a kiss, the English term "folktale" covers a broad range of stories that been beloved and belittled, transmitted and transformed for hundreds of years in many cultures. This course will look broadly at folktales from different traditions, ranging from early China to medieval Europe and contemporary America. We will approach the folktale from a number of perspectives, including typological approaches; moral notions embedded in such tales; and the often porous borders between the natural and the supernatural, the animal and the human, and living and dead. We will consider the way normative gender and ethnic roles are portrayed and sometimes undermined. We will also consider the complex literary histories of folktales, looking at sources, the interplay of oral and written traditions, folktales as alternative histories, notions of authorship, and the ways stories transform in the course of transmission.

Requirements/Evaluation: class participation, two or three short written assignments during the semester, and a 9- to 10-page final paper (with opportunity for revision of the final paper)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will write and receive written feedback addressing writing specifically on four written assignments over the course of the semester: one short analytic paper, a midterm analytic paper of ~5 pages, a tale, and a final paper (length will vary depending on the type of paper chosen). They will revise the midterm paper based on feedback from the instructor and, when feasible, a peer critique group, and will have the opportunity to submit a draft of the second longer paper for feedback.

Not offered current academic year

COMP 217  (S)  Ancient Wisdom Literature

Cross-listings: JWST 205  REL 205  COMP 217  CLAS 205

Secondary Cross-listing

The Biblical books of Proverbs, Ecclesiastes, and Job are often grouped together under the Hebrew category of hokhmah, 'wisdom.' Although these books are very different in content, they can all be interpreted as meditations on ethical and practical philosophy. In this way, they represent the Hebrew Bible's canonical embrace of a widespread Near Eastern literary phenomenon. From the instructional literature of Egypt and Mesopotamia to Greek didactic poetry and fables, ancient Mediterranean cultures offer a wide range of texts that engage the issues of personal behavior, leadership, and justice. Starting with the central wisdom books of the Hebrew Bible and moving through relevant material from the Apocrypha, New Testament, and the Egyptian and Babylonian traditions, this course will examine the literature of wisdom throughout the ancient world with an eye toward understanding its various social, political, and philosophical contexts. We will then consider the Greek wisdom tradition in such texts as Hesiod's Works and Days, Aesop's fables, and fragments from the pre-Socratic philosophers. Finally, we will explore the influence of these ancient sources on later expressions of wisdom in medieval European literature, as well as more recent examples such as Benjamin Franklin's Poor Richard's Almanack. All readings are in translation.

Requirements/Evaluation: class participation, short written assignments, and two longer papers

COMP 218  (F)  Gender and Sexuality in Asian American Theater

Cross-listings: COMP 218 THEA 225 WGSS 225

Secondary Cross-listing

This class begins with the premise that intersectional and interdisciplinary studies of gender and sexuality need to be, and in significant ways already are, in conversation with Asian American studies and theater. How might contemporary Western discourses of masculinity and heterosexuality, for example, depend upon theatrical constructions of Eastern sexual alterity? How have Asian American artists managed and critiqued historically gendered and sexualized stereotypes (e.g., hypersexual Dragon Lady, virginal Lotus Blossom, asexual Charlie Chan) through theatrical intervention? This seminar will closely read dramatic literature written by Asian American artists, as well as engage scholarship in Asian American gender and sexuality studies and performance studies. We will read the work of playwrights including Ayad Akhtar, Ping Chong, Frances Ya-Chu Cowhig, Velina Hasu Houston, David Henry Hwang, Young Jean Lee, Diana Son, Lauren Yee, and Chay Yew.

Requirements/Evaluation: in-class participation, weekly reading responses, midterm reflection, in-class reading, short essay, final essay

COMP 219 (F) Enlightenment, Revolution, and Modernity: Literature and Intellectual Culture of Modern China

Cross-listings: CHIN 224 COMP 219

Secondary Cross-listing
This course introduces modern China through literature, culture, and critical thought, covering the last decade of the 19th century, the first half of the 20th century, and a few years after the founding of the People's Republic of China. We will read important examples of fictions, essays, and poems by modern Chinese thinkers and writers. We will engage with film, theatrical performances, and other forms of popular culture from the late Qing Dynasty to the years before the Cultural Revolution. We will also read works that were created at the peripheries of history such as cross-cultural diasporic Chinese writings beyond the geographical limits of China. Delving into issues of revolution, war, enlightenment, and modernization, we will gain insights through close readings of these works about the fundamental questions that were faced by modern China and Chinese people. The first three decades of the 20th century witnessed the great achievements of canonical modern writers as well as eruption of multiple historical movements. They also saw the emergence of a modernized popular culture, new social classes, and awakening gender activists in the urban spaces. The next twenty years underwent a revolutionary turn to be more concerned with nationalist issues under the impact of war. While a singular revolutionary literature ensued in mainland China after 1949, literary and cultural modernism as a form of resistance in the context of Cold War started to develop in the sinophone regions other than mainland China such as Taiwan and Hong Kong. In this class, all readings are in English. Complementary readings in original Chinese texts are not required but welcomed.

Class Format: discussion
Requirements/Evaluation: mid-term exam; final exam; final writing project

COMP 220 (F) Greek Tragedy

Cross-listings: CLAS 202 COMP 220 THEA 220

Secondary Cross-listing
Ancient Greek tragedy was a cultural phenomenon deeply embedded in its 5th-century Athenian context, yet it is also a dramatic form that resonates powerfully with 21st-century artists and audiences. This course examines tragedy on both levels. We will read such plays as Aeschylus' [Agamemnon], Sophocles' [Electra], and Euripides' [Medea] in English translation, considering their literary and dramatic features as well as their relationship to civic, social, and ritual contexts. We will discuss such topics as the construction of gender and identity on the dramatic stage, the engagement between tragedy and other literary genres, and the distinctive styles of the three major Athenian playwrights. We will also survey a set of recent productions and adaptations of these plays, with a particular focus on versions by women, people of color, and non-Western playwrights and producers. We will reflect on how a dramatic form largely produced by and for Athenian citizen men became a creative resource for a remarkably diverse range of 21st-century artists, and explore how modern productions offer fresh perspectives on ancient material.
COMP 223 (S) Japanese Food Culture in a Global Context

Cross-listings: JAPN 223 COMP 223

Secondary Cross-listing
The bourgeoning popularity of Japanese food on a global scale has resulted in a surge of new research, literature, and films. Conversely, the effects of globalization have transformed the dining experience within Japan to be ever more multiethic. This interdisciplinary course explores the complex relationship between food and culture in Japan, and the emergence of Japanese cuisine as a global phenomenon, referring to a variety of materials and practices. Topics to be addressed include modernization, nation-building, militarization, globalization, the environment, and popular culture.

Requirements/Evaluation: active class participation, three response papers, two small projects (including descriptions and class presentations), and one research paper and presentation

COMP 224 (F) Remembering the Great War: The First World War in Literature and Film (DPE)

Cross-listings: RLFR 225 COMP 224

Primary Cross-listing
From 1914 to 1918, the First World War ravaged Europe and slaughtered millions of soldiers and civilians from across the globe. Known as the “war to end (all) war(s),” World War I set the stage for an entire century of military conflict and carnage. New technologies led to unprecedented violence in the trenches, killing and wounding as many as 41 million soldiers and civilians. Beyond the slaughter at the front, the Great War also led to the global influenza pandemic that claimed up to 50 million lives, and the Armenian genocide that presaged the later atrocities of the Holocaust. The war also led to massive political transformation, from the Irish Rebellion and Russian Revolution, to the collapse of the German, Russian, Austro-Hungarian, and Ottoman Empires, and the redrawing of national borders across Europe and the Middle East. Even the end of the war with Treaty of Versailles lay the groundwork for new animosities that would lead to the Second World War just two decades later. However, the First World War also inspired great social change, from the emergence of the United States as a global leader and the founding of the League of Nations, to growing discontent with colonial rule in Asia and Africa, and greater power for women whose wartime labor influenced the post-war passage of their right to vote in countries across Europe and North America. To honor the centenary of the Great War in 2018, we will examine texts and films that bear witness to the suffering and courage of soldiers and civilians, and consider the legacy of the war in the twentieth- and twenty-first centuries. Readings to include memoirs and novels by Barbusse, Barker, Brittain, Cocteau, Graves, Hemingway, Jünger, Remarque, Wharton, Woolf; poetry by Apollinaire, Brooke, Mackintosh, McCrae, Owen, Sassoon; films by Attenborough, Boyd, Carion, Chaplin, Jeunet, Ozon, Renoir, Trumbo, Walsh, Weir; and archival materials on the roles of Williams students and faculty during the First World War. Readings and Discussions in English.

Requirements/Evaluation: active class participation, two shorter papers (4-5 pages), a midterm, and a longer final paper (6-8 pages)
Prerequisites: none
Enrollment Limit: 18
Enrollment Preferences: all are welcome, but if the course is overenrolled, preference will be given to Comparative Literature majors and French majors and certificate students; if the course is over-enrolled, students will submit a form online

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 225 (D1) COMP 224 (D1)

Difference, Power, and Equity Notes: As the course description explains, this course centers on a critical examination of difference, power, and equity during WWI. The content examines the effects of class, race, ethnicity, gender, and sexuality on social inequalities among soldiers & civilians, nations & colonies, men & women. The course also employs critical tools to teach students how to articulate and interrogate the social injustices of the Great War, from reading & discussion, to analytical essays & archival investigation.

COMP 225 (F) The Fantastic in Chinese Literature
Cross-listings: COMP 225 CHIN 225
Secondary Cross-listing
From the famous human/butterfly metamorphosis in the Daoist text Zhuangzi to contemporary writer Liu Cixin's award-winning "Three Bodies Problem," the "fantastic" has always been part of Chinese literature that pushes the boundary of human imagination. Readers and writers create fantastic beasts (though not always know where to find them), pass down incredible tales, assign meanings to unexplainable phenomena, and reject--sometimes embrace--stories that could potentially subvert their established framework of knowledge. Meanwhile, the "fantastic" is also historically and culturally contingent. What one considers "fantastic" reveals as much about the things gazed upon as about the perceiving subject--his or her values, judgment, anxiety, identity, and cultural burden. Using "fantastic" literature as a critical lens, this course takes a thematic approach to the masterpieces of Chinese literature from the first millennium BCE up until twenty-first century China. We will read texts ranging from Buddhist miracle tales to the avant-garde novel about cannibalism, from medieval ghost stories to the creation of communist superheroes during the Cultural Revolution. The topics that we will explore include shifting human/non-human boundaries, representations of the foreign land (also the "underworld"), the aestheticization of female ghosts, utopia and dystopia, and the fantastic as social criticism and national allegory. All materials and discussions are in English.
Requirements/Evaluation: participation, weekly posting, three writing assignments, final paper, oral presentation
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: none
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option

COMP 226 (S) The Ancient Novel
Cross-listings: COMP 226 CLAS 226
Secondary Cross-listing
Pirates, prostitutes, witches, and donkeys: the novels of ancient Greece and Rome often surprise their modern readers with a striking blend of humor, violence, and eroticism. From damsels in distress and daring rescues to impossible journeys and magical transformations, this course will consider these remarkable and varied texts within their own literary and cultural contexts. By reading the works of such authors as Longus, Lucian, Apuleius, and Heliodorus, we will survey the different forms of extended prose fiction that have traditionally been called the ancient "novel." We will confront the
challenges of defining the genre itself, and consider both its ancient literary heritage and its later reception and afterlife. We will also explore the ways in which these texts engage with the complex and diverse world of the ancient Mediterranean, paying close attention to the representation of gender, sexuality, ethnicity, and cultural identity. All readings are in translation.

Requirements/Evaluation: class participation, in-class presentations, brief reading responses (1-page), and a final paper (8-10 pages)
Prerequisites: none, although some prior knowledge of the ancient Mediterranean will be useful
Enrollment Limit: 19
Enrollment Preferences: Classics and Comparative Literature majors
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1)

COMP 227 (S) Made in China or Making "China"?: Twentieth-Century Chinese Performative Culture
Cross-listings: CHIN 227 THEA 227 COMP 227
Secondary Cross-listing
This course explores the ways in which twentieth-century Chinese performative culture fashioned our contemporary understanding of "China." Starting with Chinese hybrid theatres staged in the US, Japan, and semicolonial Shanghai in the early 1900s and ending with the 2008 Beijing Olympic Opening Ceremonies, this course examines performative works drawn from the breadth of an expanded 20th century; including film, spoken drama, intercultural reproductions of Peking and Kun Operas, revolutionary and avant-garde theatre, Chinese Rock concerts, and global mass mediated performances. Emphasis will be placed on how performances (encompassing the performance onstage and the performance-making backstage) placed "China" on the global stage; and shaped racial, gender, and national identities among play-makers and audiences. We will also explore how Chinese operas were reinvented as "traditional culture" and a "national essence" in the early 20th century; and how agents of Chinese performance, as makers of imaginary worlds, serve as both assets and threats to real-life arbiters of power. The class will be structured around the themes of "Inventing Tradition on the World Stage," "Acting the Right Part," and "Performing the Nation." Students will learn to engage performances as cultural texts embedded in national and global histories. By gaining knowledge about major playwrights, directors, artists, networks, and ideas, students will also become fluent in the landscape of performance culture in China. All class materials and discussions are in English.
Class Format: lecture/discussion
Requirements/Evaluation: regular in-class participation, three short papers (3-5 pages), and one final project
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: students who major or plan to major in Chinese and/or Asian Studies

COMP 230 (S) The Renaissance in England and the European Continent: Self and World (DPE) (WS)
Cross-listings: ENGL 228 COMP 230
Secondary Cross-listing
At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into
contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 19

Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 228 (D1) COMP 230 (D1)

Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

COMP 231 (F) Postmodernism (WS)

Cross-listings: COMP 231 ENGL 266

Primary Cross-listing

In one definition, postmodernism in art and literature is what you get when you combine modernism's radical experimentation with pop culture's easy appeal. This term has been used to describe works from Andy Warhol's paintings of Campbell's soup cans and Jean Baudrillard's critical essays on Disneyland to Murakami Haruki's euphoric conspiracy novels. Theorists of the postmodern have argued that it represents not only a radical change in aesthetic sensibilities, but a fundamentally new relationship between art, language, and society. In this tutorial, we will read some of the most important theoretical essays defining the postmodern (essays which themselves often embrace this playful and sometimes ironic style), and we will pair them with artistic texts that are said to illustrate the features of postmodernism. The latter will be mainly novels and short stories from around the world, but one feature of this theory is a flattening of the distinction between high and low culture as well as between the written and the visual, so we will also examine examples from architecture, visual art, and/or broader pop culture. Texts will include essays by Jean Baudrillard, Fredric Jameson, Jean-François Lyotard, and others; novels and short stories by writers like Don DeLillo, Italo Calvino, and Murakami Haruki; painting and sculpture associated with Pop Art and Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

Class Format: after an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week

Requirements/Evaluation: participation plus 4 papers (4-5 pages), 2 short papers (1-2 pages), and 4 peer critiques (1 page)

Prerequisites: a previous literature or critical theory course at Williams plus sophomore standing or higher, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Comparative Literature majors, students with a demonstrated interest
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 231 (D1) ENGL 266 (D1)

Writing Skills Notes: Students will write several regularly spaced papers that build on one another by revisiting, extending, and/or rewriting earlier material. Students will receive detailed written feedback from the instructor on each paper, addressing argument, organization, and style, as well as written peer feedback on the longer papers. (See requirements for details about the number and type of assignments.)

COMP 232 (S) Nordic Lights: Literary and Cultural Diversity in Modern Scandinavia (DPE)
Cross-listings: WGSS 200 COMP 232

Primary Cross-listing
Mythologized as the land of the aurora borealis and the midnight sun, Scandinavia's five distinct nations--Iceland, Norway, Sweden, Denmark, and Finland--are often mistakenly associated with blond-haired and blue-eyed uniformity. Modern Scandinavia, however, is a place of great social and cultural diversity. From medieval Viking sagas to contemporary Nordic rap, the Scandinavian literary tradition is rich in tales of global exploration, childhood imagination, sexual revolution, and multicultural confrontations. Through readings of nineteenth-century drama, twentieth-century novels, and twenty-first century cinema, we will investigate a wide range of issues on class, ethnicity, and identity, including the indigenous reindeer-herding Sámi people, Danish colonialism and the Greenlandic Inuit, Norwegian collaboration and resistance during World War II, and Nordic emigration (to North America) and immigration (from Africa, Asia, Latin America, and the Middle East). Discussion will also focus on Scandinavia's leadership in gender equality and sexual liberation, Scandinavian political isolation and integration (into both the UN and the EU), and the global effects of Nordic pop (ABBA to Björk), glamour (Greta Garbo to Alicia Vikander), technology (Volvo to Nokia), design (IKEA to H&M), and activism (Alfred Nobel to Greta Thunberg). Readings to include works by Henrik Ibsen, August Strindberg, Hans Christian Andersen, Karen Blixen, Astrid Lindgren, Halldór Laxness, Reidar Jónsson, and Peter Hoeg. Films to include works by Ingmar Bergman, Lasse Hallström, Bille August, Colin Nutley, Lukas Moodysson, Josef Fares, Tomas Alfredson, and Tomas Vinterberg. All readings and discussions in English.

Class Format: This will be a remote course for all students, whether they are on campus or not. We will convene synchronously via web-conferencing, with an emphasis on group discussion. There will also be opportunities for students to engage with online activities both during and between our synchronous sessions. Remote office hours will provide even more opportunities for follow-up, questions, and further discussion.
Requirements/Evaluation: active participation, two shorter papers, a midterm, and a longer final paper
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Comparative Literature and Women's, Gender & Sexuality Studies majors, and those with compelling justification for admission
Expected Class Size: 12

COMP 233 (F) Love and Strife
In one of the earliest known attempts to explain the universe, the philosopher-poet Empedocles wrote that everything in existence is moved by love and strife. This fundamental pair of forces has shaped accounts of human experience for over two millennia. Are these principles simple opposites, complements, or even two aspects of a single concept? What happens when they fall out of balance or both are absent? Can love consume strife, or strife destroy love? Artists and writers have taken up these and similar questions in myriad forms, from nursery rhymes to epic poems, from philosophical contemplation to popular song, from the tragic stage to the silver screen. This course will use Greek and Latin works as touchstones for exploring ancient and modern representations of love and strife. Our ancient sources may include Homer, Sappho, Sophocles, Horace, Catullus, and Seneca, as well as architecture, graffiti, and epitaphs. Later sources may include Shakespeare and screwball comedies, Broadway standards and the Beatles, Renaissance fresco and modern sculpture, and literary professions of love from the silly to the sublime. All readings are in translation.

**Class Format:** For the fall of 2020, this course will taught online. The seminar will meet at the regularly scheduled time twice a week.

**Requirements/Evaluation:** Class participation, short written assignments, and a final paper/project.

**Prerequisites:** None.

**Enrollment Limit:** 12

**Enrollment Preferences:** If the course is overenrolled, preference will be given to Classics and Comparative Literature majors and prospective majors.

**Cross-listings:** COMP 235 REL 235 CLAS 235 ENVI 232

**Secondary Cross-listing**

Drawing on the literature, art, and archaeology of ancient gardens and on real gardens of the present day, this course examines the very nature and experience of the garden and the act of gardening. Using a multi-disciplinary approach, we will explore the garden as a paradise; as a locus for philosophical discussion and religious encounter; as a site of labor, conquest, and resistance; and as a place for solace, inspiration, and desire. This course will be grounded in crucial readings from antiquity, such as the Hebrew Bible, Homer, Sappho, Cicero, Lucretius, Vergil, Horace, Columella, and Augustine, and in the perspectives of more modern writers, from Jane Austen and Tom Stoppard to contemporary cultural historian George McKay. Ultimately, our goal is to analyze conceptions and expressions of beauty, power, and love-in the garden. All readings are in translation.

**COMP 236** (F)(S) Narrating Color: Black Women Sing and Write About Complexion

**Cross-listings:** COMP 236 WGSS 206 AFR 202

**Secondary Cross-listing**

Colorism, skin color discrimination where light skin is privileged over dark skin, is not a new phenomenon, but globally entrenched in our society and one of the many vestiges of white supremacy. For Black Americans of all backgrounds, colorism is a familiar and a living legacy concretized by the institution of slavery in the Americas. Although some believe that we are "post-color," similarly to those that naively believe we are "post-race," one can look to the recent example of misogynoir (misogyny directed at Black women) and skin color politics that Meghan Markle, the Duchess of Sussex, has faced at the hands of the British Monarchy, that her light-skinned color, biraciality, and class privileges couldn't protect her from. Alternatively, we can look at the numerous examples of colorism and anti-Black racism that tennis icon Serena Williams is subjected to because of her dark-brown skin complexion and body shape. One cannot fully understand the issue of colorism without understanding that it is an outgrowth or an extension of anti-Black racism firmly rooted in white supremacy, and so insidious that it impacts all aspects of Black life. Examining colorism through literary texts and music, provides a depth of understanding that both compliments and expands these empirical studies. Literature and music provide the narratives and rhythm that paint a vivid picture of the many ways that colorism impacts the lives of Black people. Through the methods of literary and rhetorical criticism we will examine the works of five Black women authors and music artists that take up issues around colorism and passing. We will explore, Toni Morrison's, *The Origins of Others* (2017), Brit Bennett's, *The Vanishing Half* (2020), Tressie McMillan Cottom's, *Thick* (2019), Marita Golden's, *Don't Play in the Sun* (2004), Yaba Blay's, *One Drop: Shifting the Lens on Race* (2021), Nina Simone's, "Four Women" (1966) and "Young, Gifted and Black" (1958), Sara Martin's, "Mean Tight Mama" (1927), India.Arie's, "Brown Skin" (2001), Azealia Banks' "Liquorice" (2012), and Beyoncé's "Creole"
"Formation" (2016) and "Brown Skin Girl" (2020). By examining colorism in both literature and music, it will give first year students a foundational and nuanced understanding of skin tone bias and equip them with the tools to critically engage literary and music texts.

**Requirements/Evaluation:** Three, short papers (4-5 pages) discussing aspects of the readings and songs; three response papers to tutorial partner's papers (2 pages long); two, video essays; two, Twitter threads explaining aspects of one of the books and one of the songs; and a curated playlist of songs that would serve as accompaniment to one of the texts from the class.

**COMP 237 (S) Medieval Worlds**

While the word “medieval” was first used to designate the period in European history between the fall of Rome and the Renaissance, historians and literary scholars frequently use the term to label periods in other regions and cultures that not only overlap chronologically with the European Middle Ages, but also appear to share similarities in terms of technology, social structures, and religious orientation. This course examines the notion of the "medieval" primarily through the lens of literature. We will read "medieval" works ranging from the Anglo-Saxon poem Beowulf to the landscape poems and folktales of eighth-century China, from a Persian epic to a Sanskrit story-cycle, and the diary of a Japanese court lady. Topics will include the following: How did people create, experience, and transmit literary texts in different medieval cultures? What where the material conditions of literature in these cultures, and how did they impact the development of literature? What roles did religion play in texts that are not explicitly religious? What does it mean to think of the medieval as a category across different cultures?

**Requirements/Evaluation:** preparation and active participation in class, several short (1- to 2-page) reflection papers, two mid-length (4- to 5-page) papers or projects

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Comparative Literature majors and prospective majors

---

**COMP 239 (F) What is a Novel?**

**Cross-listings:** COMP 239  ENGL 240

**Secondary Cross-listing**

What is a novel? Where did it come from? Why would anyone invent such a thing in the first place? This course is an introduction to the ways literary critics have attempted to give a genre as hard-to-pin down as the novel a theoretical framework. For a long time, nobody thought the novel needed a theory—too popular, too loose and baggy to be thought of as one thing. Today, novel theory is legion. To only name a few, one can find theories of the novel that identify themselves as formalist, psychoanalytic, post-structuralist, Marxist, historical, and post-colonial, as well as accounts that emphasize sexuality and gender, for example, or the novel's trans-national development. We will move back and forth from the theory of the novel to its practice in
order to see how the novel and its understanding have changed over the past 200 or so years. Novelists will come from the 19th and 20th centuries, likely Austen, Dickens, and Mieville. Theorists are likely to include Henry James, Benjamin, Lukacs, Barthes, Watt, McKeon, Jameson, Eve Sedgwick, Edward Said, Leo Bersani, and Franco Moretti.

**Requirements/Evaluation:** four to five papers totaling about 20 pages; regular, substantial, and intensive participation in class

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**COMP 240 (F) Introduction to Literary Theory** (WS)

**Cross-listings:** COMP 240 ENGL 230

**Secondary Cross-listing**

This course introduces students to some of the most significant and compelling trends in modern criticism-such as gender and postcolonial theory, deconstruction, sociological analysis, and psychoanalytic criticism-in an applied, hands-on way. The course will engage a range of primary texts from Shakespeare to Hitchcock by way of varied theoretical approaches. Can Othello, for instance, be read as a feminist text? A site of class struggle? A staging of the relationship between language and the unconscious? The course aims both to make familiar some of the critical methods students are likely to encounter in the field of literary studies these days, and to show how such methods can transform our understanding of a text, opening surprising possibilities even in familiar works. In the process, the course will also raise broader questions about the imperatives and usefulness of literary theory in relation to texts and worlds.

**Class Format:** discussion

**Requirements/Evaluation:** frequent short papers totaling 20 pages

**Prerequisites:** a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

**COMP 241 (S) Sex and Gender in Ancient Greece and Rome**

**Cross-listings:** WGSS 241 COMP 241 CLAS 241

**Secondary Cross-listing**

From the household to the marketplace, from sacred spaces to the political arena, sexuality and gender shaped a broad range of attitudes and actions in the ancient Mediterranean world. This course investigates a variety of discourses and practices around sexuality and gender in ancient Greece and
Rome with the aim of promoting students’ capacity to evaluate claims and dismantle false assumptions about the continuity of the “classical” past with contemporary norms and values. We will carefully analyze, contextualize, and compare a variety of texts, including selections from tragic and comic drama, epic and lyric poetry, handbooks, epitaphs, novels and biography in order to better understand how gender and sexuality were expressed, experienced, and regulated in Greece and Rome. Our emphasis will be on ancient texts, but selections from contemporary criticism and theory will enrich the methodological frameworks through which we approach the primary sources.

Requirements/Evaluation: five to six weekly tutorial papers, five to six responses, a midterm self-evaluation and conference with instructor, a mid-length final paper (approximately eight pages) consisting of a revision and expansion of a previously written paper

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: majors or intended majors in Classics, WGSS, and Comparative Literature

COMP 242 (S) Americans Abroad (DPE)

Cross-listings: COMP 242 ENGL 250 AMST 242

Primary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture--American or foreign.

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 18

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 242 (D1) ENGL 250 (D1) AMST 242 (D2)

Difference, Power, and Equity Notes: We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

Attributes: AMST Arts in Context Electives GBST Borders, Exiles + Diaspora Studies Electives
COMP 243 Performance Practices of India (DPE)
This course explores ancient and contemporary performance practices in India. Our objects of study will include the text and performance of Sanskrit plays, contemporary and experimental theater productions, as well as forms of dance and ritual. We will discuss dramaturgical structure, staging, acting conventions, gender representation, performer training, the experience and role of the audience, as well as mythological and political themes. Thinking historically and ethnographically, we will seek to understand the aesthetics and social purposes of these practices, in addition to the relationship that performance has with everyday life, contested concepts of the nation, and caste. Throughout the semester we will interrogate the ways in which Western categories such as "classical," "folk," "religious," "traditional," and even the distinction between "dance/theater/music/visual arts" are not indigenous or accurate concepts for organizing thinking about performance in this part of the world.

Requirements/Evaluation: Evaluation will be based on participation in discussion, reading responses, an oral presentation, and one 10-page paper.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: preference for seniors and juniors

Expected Class Size: 12

Grading:

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: We will examine British colonial edicts that prohibited performance practices as a form of social control as well as in the name of Christian morality. From here we will explore how upper-caste Independence era artists and leaders sought to reinvent the arts as vessels of "Indian" identity, at the cost of further marginalizing hereditary performance communities. We will also interrogate how the Indian state has promoted narrow visions of "femininity" and how artists contest religious nationalism

COMP 244 (S) Black Mediterranean (DPE) (WS)

Cross-listings: GBST 244 COMP 244

Primary Cross-listing

Though European border management today seeks to limit and control movement, the Mediterranean region is a historical site of mediation between cultural differences and religious views. This course centers primarily on the works of migrant intellectuals and artists from North Africa and the Middle East, who have emerged from the Mediterranean region to become a significant part of the new voice of Europe. Borrowing from Deleuze and Guattari's definition of "minor literature" as literature that a "minority constructs within a major language" and in which "language is affected with a high coefficient of deterritorialization," we explore the political, cultural and anthropological effects of such literature in today's European public discourse. Today the Mediterranean has become a graveyard where black and brown bodies transit a hostile and deadly passage. Therefore, a centerpiece of this course will be an examination of the racist discourse in Europe in the light of the Black Lives Matter's quest for decolonizing knowledge. In this interdisciplinary course, we read both literary works (Ali Farah, Khatibi, Lakhous, Scego), and critical theory (Cassano, Chambers, Fanon, Hall, Theo Goldberg); we also analyze films, documentaries, podcasts, exhibits and museums of colonialism in Europe.

Class Format: This will be an hybrid course. Students will meet twice a week with me.

Requirements/Evaluation: weekly writing assignments, midterm and final exams, final paper, oral presentation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 244 (D1) COMP 244 (D1)
Writing Skills Notes: This course is designed to be writing-intensive, as it requires weekly response papers, midterm, and final papers, and blog discussions.

Difference, Power, and Equity Notes: Within the theoretical framework of postcolonial studies, this course examines themes such as: race; Europe and its postcolonial legacy; power imbalances in the current European policies of migration; the urban space of Rome as site of conflictual representations of center/periphery.

COMP 248 (S) Performing Greece
Cross-listings: CLAS 211  COMP 248  THEA 211
Secondary Cross-listing

Modern readers often encounter Homer, Sappho, Sophocles, and the Greek orators through written texts, yet their first ancient audiences experienced the words of these authors not in silence and solitude, but in live performance contexts. This course, therefore, will take up performance as a critical lens for interpreting ancient Greek literature, situating these works within a rich culture of song, dance, speech, and debate. We will survey the evidence for the musical, visual, and embodied aspects of Greek literature, and also reflect on the rewards and limits of enlivening the ancient world through the reconstruction and re-imagination of its performative dimensions. Our attention to performance will give us a distinct perspective on many important topics within the study of Greek culture, including the construction of personal and collective identities, the workings of Athenian democracy, and the development of literary genres, and it will also enable us to consider the reception and reperformance of Greek myth and literature from new angles. All readings are in translation.

Class Format: This is a hybrid course that will likely involve both Zoom and in-person sections; precise format (including potential alternate meeting times) TBD in consultation with enrolled students.

Requirements/Evaluation: active participation in class, short essays/projects (2-5 pages each, 5 total, including a longer final essay/project)
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: first-year students and sophomores and majors in Classics, Comparative Literature, and Theatre
Expected Class Size: 10-12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

COMP 249 (F) Trauma and Memory in Maghrebi and Middle Eastern Literatures  (DPE) (WS)
Cross-listings: ARAB 249  COMP 249
Secondary Cross-listing

Arabic literature produced in the Maghreb and the Middle East has always engaged with the socio-political concerns of different Arab societies. Whether caused by the colonial state(s) or by post-independence leadership, trauma has been a central theme in Maghrebi and Middle Eastern literature for a long time. Using a combination of memoirs, films, and fictional works, this course aims to raise students' critical awareness and aesthetic appreciation of literary representations of the multiple traumas inflicted on people and societies in the Maghreb and the Middle East. The different novels and films assigned in this course will be read against seminal literature on memory and trauma studies to answer the following questions: how does Arabic literature remember? In what ways does Arabic literature engage with the past sequelae of colonialism, dictatorship, war, and displacement? How do Arabic novelists and memoirists dialogue with memory and trauma theory even though Arabic scholarship has given short shrift to trauma and memory ethics and aesthetics? What events or experiences are pivotal to collective and individual traumas represented in Maghrebi and Middle Eastern literature(s)?

Requirements/Evaluation: regular posts on Glow, two five-page papers, one ten-page final paper, one presentation, and participation in class
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Arabic Studies majors and certificate students
Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 249 (D1) COMP 249 (D1)

Writing Skills Notes: Students in the course will write: 1) 400-word weekly, focused responses on Glow; 2) a book review (600 words); 3) two five-page papers as mid-terms; 4) one ten-page paper as a final paper for the course. Students are required to present an outline of their papers before submitting a draft paper. Students will receive detailed and consistent feedback on the writing. Students are required to incorporate the feedback to improve their drafts before they become final.

Difference, Power, and Equity Notes: Students in this course will learn how to identify and analyze gender, class, and power-related aspects of traumatic memory. The different readings assigned in this course will help students develop critical skills to examine how various forms of power and social inequality play out in memories of war, political detention, forcible disappearance, and social ostracism in the Maghreb and the Middle East.

COMP 250 (F) From Adam to Noah: Literary Imagination and the Primeval History in Genesis

Cross-listings: COMP 250 REL 207 JWST 207 CLAS 207

Secondary Cross-listing
How long did Adam and Eve live in the Garden of Eden? What was the mark of Cain? Why did Enoch not die? Who was Noah's wife? How did Giants survive the Flood? These are only a few of the fascinating questions that ancient readers and interpreters of the Book of Genesis asked and attempted to answer. The first ten chapters of Genesis present a tantalizingly brief narrative account of the earliest history of humankind. The text moves swiftly from the Creation to the Flood and its immediate aftermath, but this masterful economy of style leaves many details unexplained. This course will explore the rich and varied literary traditions associated with the primeval history in the Genesis. Through a close reading of ancient noncanonical sources such as the Book of Enoch, Jubilees, and the Life of Adam and Eve, as well as Jewish traditions represented in Josephus, Philo, and Rabbinic literature and other accounts presented in early Christian and Gnostic texts, we will investigate the ways in which the elliptical style of Genesis generated a massive body of ancient folklore, creative exegesis, and explicit literary re-imagining of the early history of humankind. We will then turn to some continuations of these variant traditions in medieval literature, with particular attention to the material on the figures of Cain and Noah. All readings are in translation.

Class Format: For the fall of 2020, this course will taught online. The seminar will meet at the regularly scheduled time twice a week.

Requirements/Evaluation: Class participation and several writing assignments.

Prerequisites: None.

Enrollment Limit: 12

Enrollment Preferences: If the class is overenrolled, preference will be given to students who have already taken a course in Biblical literature.

COMP 251 (F) Dolls, Puppets and Automatons (WS)

Cross-listings: GERM 251 COMP 251

Primary Cross-listing
Since their origin, humans have always made anthropomorphic representations, first in the form of idols, fetishes, or statues for religious worship, later in the shape of puppets, dolls, or automatons for their entertainment qualities. And yet, these objects have always played multiple roles in human society; modernity in particular shows a great interest paired with great ambivalence towards dolls, puppets, and automatons, regarded both as
uncanny Doppelgänger or threatening machines. In order to comprehend the scope of our modern fascination with these figures, we will explore their haunting presence in literary texts by ETA Hoffmann, Achim von Arnim, Theodor Storm, Felisberto Hernandez, discuss theoretical texts by Sigmund Freud and Heinrich von Kleist, look at paintings by Oskar Kokoschka and at photographs by Hans Bellmer & Cindy Sherman, watch a ballet by Andreas Heise and films by Fritz Lang and Alex Garland, and watch fashion shows by Alexander McQueen and Jean-Paul Gaultier. Conducted in English.

Class Format: This seminar will be taught online.

Requirements/Evaluation: active class participation, oral presentations on the reading materials, three 5- to 8-page papers

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors, or those considering a major in Comparative Literature

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Not offered current academic year

COMP 252  (S) Athletics and Literature in Ancient Greece  (WS)

Cross-listings: COMP 252 CLAS 214

Secondary Cross-listing

The modern Olympic games are one of the most visible traces of ancient Greek influence on contemporary culture. Less well-known, however, are the complex and challenging poems (originally songs) of Pindar and Bacchylides that celebrated the victors of the archaic Greek games. These victory odes are a rich source for the study of Greek culture, from their vivid descriptions of heroic feats to their philosophical claims about human life and divine favor. Athletic competition provides the impetus for these songs and constitutes one of their major themes, yet their significance extends far beyond a single athlete or festival. In this course, we will interrogate the relationship between athletics and literary production in the ancient Greek world. We will use both primary and secondary sources to develop familiarity with major festivals, games, events, and figures, and use that knowledge to contextualize our analysis of Greek literature. Ancient Greek athletic discourse will thus provide an entry point to broader reflections on the literary construction and representation of the body and its movement, as well as the interplay between literature and its cultural contexts.

Requirements/Evaluation: brief writing assignments, essays, class participation

Prerequisites: none

Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Not offered current academic year

COMP 253  (S) Travel in the Ancient Mediterranean
The ancient Mediterranean was a vast yet deeply interconnected world, not unlike our own. In spite of difficulties, people traversed it as traders, explorers, colonial invaders, refugees, pilgrims and even tourists. In this course, we will study both the practical realities of travel in the ancient Greco-Roman world and how the idea of journeys shaped and was shaped by these cultural contexts. We will navigate from Ithaca to Italy, from the depths of the underworld all the way to the Moon, as we read foundational travel narratives from Homer, Apollonius of Rhodes, Vergil, Lucian, and Apuleius. We will discuss how these texts represent cultural interactions, and in particular how they construct foreign "others" as well as local identities, and how they interrogate the limits and possibilities of human knowledge. Finally, we will observe how these texts themselves contribute to the emergence of a genre of travel narratives, with influences stretching to the modern day. All readings will be in English.

Class Format: Class meetings will likely be primarily virtual, with potential for some in-person meeting opportunities.

Requirements/Evaluation: class participation, several short writing assignments, quizzes, final paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Classics and comparative literature majors and prospective majors

COMP 254 (S) "Illness" in Modern and Contemporary Chinese Literature and Culture (DPE)

Cross-listings: COMP 254 CHIN 253 WGSS 255

Secondary Cross-listing

From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"—a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness": the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

Class Format: All regular course meetings will be conducted in person.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Publishing GLOW Discussion posts based on reading (Graded as Complete or Incomplete); 3) three short papers (3-5 pages); 4) the final project (including an abstract, a presentation, and a paper or other form of project).

Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 20

Enrollment Preferences: Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Comp majors; Asian Studies Concentration; WSGG majors; and then to first-year students

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:

COMP 254 (D1) CHIN 253 (D1) WGSS 255 (D2)

**Difference, Power, and Equity Notes:** This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

**COMP 255 (F) Love and Death in Modern Japanese Literature and Visual Culture**

**Cross-listings:** ASST 253 ASIA 253 COMP 255

**Primary Cross-listing**

Modern Japanese fiction is similar to Western fiction in many ways, but there are intriguing differences concealed within that sameness. This course investigates Japanese culture and compares it with our own, by examining Japanese literature about two universal human experiences--love and death--and asking how Japanese writers inflect these ideas in their work. The course begins with tales of doomed lovers that were popular in the eighteenth-century kabuki and puppet theaters, and that still feature prominently in Japanese popular culture today. From there we move on to a range of other relationships between love and death, including parental love and sacrifice, martyrdom and love of country, sex and the occult, and romance at an advanced age. We will focus on novels and short stories by canonical modern authors like Tanizaki, Kawabata, and Mishima, as well as contemporary popular fiction by writers like Murakami Haruki and Murakami Ryu. We will also give significant attention to popular visual culture, including puppet theater, comics, animation, and film. *The class and the readings are in English.*

**Class Format:** For this hybrid class, on-campus students will meet in a classroom during the scheduled class slot (observing campus distancing protocols), while off-campus students participate simultaneously via Zoom. Off-campus students must be able to Zoom in during the scheduled class times.

**Requirements/Evaluation:** attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project

**Prerequisites:** none; no familiarity with Japanese language or culture is required

**Enrollment Limit:** 12

**Enrollment Preferences:** Students majoring or considering a major in Comparative Literature

**COMP 256 (F) Stop Making Sense: Absurd(ist) Theatre in Historical Context** (WS)

**Cross-listings:** THEA 252 COMP 256 ENGL 256

**Secondary Cross-listing**

We want to make sense of things. In nearly all of our academic pursuits, the point of analysis is to find meaning, to explain intricate or confusing phenomena, to provide clarity from complexity. What happens when we can't do this, indeed, when the objects of our analytical attention seem willfully designed to thwart the attempt? Such is the challenge of "understanding" the traditions of the absurd. In this tutorial course, we will engage this challenge within the realm of Western theatre and performance from 1900 to the present. Beginning with selected readings from writers who have engaged the absurd in theoretical fashion (Albert Camus, Soren Kierkegaard, Jean-Paul Sartre, Martin Esslin), the course will move swiftly to original
artworks for contemplation and analysis. Some questions we will grapple with include: How do we, can we, should we respond to art that specifically defies meaning? Can art that seems pointless have a point? Playwrights will range from canonical (Samuel Beckett, Eugene Ionesco) to more obscure but equally engaging (as well as baffling) artists (Peter Handke, Slavomir Mrocek). We will follow standard practice in tutorial pairs, as each week one student will prepare original analysis of the assigned reading, and the other will craft a response to prompt an hour-long discussion. Whether we "make sense," or perhaps discover different ways of appreciating the varied works of art, will depend on the nature of those weekly attempts.

**Requirements/Evaluation:** Evaluation will be based on weekly tutorial papers/response papers, and active participation in weekly tutorial sessions.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre, English, and Comparative Literature majors.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**COMP 257 (F) Why do Pussies Riot and What is "Homosexual" Propaganda? Gender and Sexuality in Putin's Russia** (DPE)

**Cross-listings:** COMP 257 GBST 213 WGSS 214 RUSS 213

**Secondary Cross-listing**

Since Vladimir Putin's rise to power, the media has highlighted events in Russia that at first glance resemble oddly sexualized jokes. At the same time that the Kremlin has reinstated authoritarian policy reminiscent of the Soviet Union, the Western press has chronicled Putin's topless vacations in Siberia, protests by the feminist collectives Pussy Riot and Femen, a 2011 ban on women's lacy underwear, federal legislation from 2013 prohibiting "homosexual" propaganda, and a 2017 court decision that outlawed a meme of Putin as a "gay clown." This course examines the Putin regime's ongoing attempts to police gender expression and private sexual behavior, as well as how Russian citizens' performance of gender and sexuality has changed in the past twenty years. We will consider gender and sexuality as distinctive features of Putinism, which have contributed to a biopolitical turn in official policy and inspired resistance and protest among Russian feminists and queers. *All readings will be in English, and all films with have English subtitles.*

**Requirements/Evaluation:** active participation in class discussions, several response papers, two short papers (3-5 pages each), and a final project

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 260 (D1) COMP 260 (D1)

**Difference, Power, and Equity Notes:** The readings in this course focus on French colonial and Francophone postcolonial history, contemporary migration, and structures of discrimination built on race, religion, gender, and ableism in the French-speaking world. We will explore how graphic novels in their hybrid visual/verbal forms propose different ways of shaping the dynamics and the discourse of difference and power.

Fall 2021
COMP 262 (F) Japanese Theatre and its Contemporary Context

Cross-listings: THEA 262 COMP 262 JAPN 260

Secondary Cross-listing

Japan's rich and varied performance traditions, old and new, born of different historical settings, coexist to this day and compete for the attention of audiences, domestically and abroad. The forms to be considered (nohgaku, kabuki, bunraku, shingeki, butoh, and Takarazuka all female revue among others) are all dynamic. Each has transformed itself in response to evolving social conditions. This course examines these performance traditions, considers how each reflects the social, cultural, and political context of its birth, and poses the question, "of what relevance is each to a contemporary audience?" Some of the other questions we will explore are: How have these performing traditions transformed themselves throughout history, including after 3.11? What do we mean by traditional? contemporary? How are traditional and contemporary performance genres interacting with each other? How have the central themes of these works evolved? All readings and discussion will be in English.

Class Format: discussion

Requirements/Evaluation: active class participation, presentations, written journals, two short papers, and one longer paper

Not offered current academic year

COMP 263 (F) Reading Jesus, Writing Gospels: Christian Origins in Context (WS)

Cross-listings: REL 270 COMP 263 CLAS 270

Secondary Cross-listing

What were the religious and cultural landscapes in which Christianity emerged? How did inhabitants of the ancient Mediterranean world speak about the concept and significance of religion? How have scholars of early Christianity answered these questions? What are the implications of their reconstructions of early Christian history? The course is divided into four parts. The first part establishes the interpretive approach of the course. The second part of this course addresses these questions by examining the formation of Christianity from its origins as a Jewish movement until its legalization, using a comparative socio-historical approach. The third part of the course focuses on the earliest literature produced by the Jesus movement and consider it within a comparative framework developed in the first half of the course. The final part of the course emphasizes modern interpretations of Jesus and the Jesus movement; here we shall be examining how scholars make use of ancient materials to frame their arguments.

Class Format: lecture/discussion

Requirements/Evaluation: three 3-page papers (with revisions), one 5- to 7-page paper (that builds on one of the earlier 3 page papers), and a final paper (7-10 pages, that draws on some of the earlier writing in addition to new writing)

Prerequisites: none; open to all

Enrollment Limit: 19

Enrollment Preferences: sophomores, especially potential majors in Religion, Classics, and Comparative Literature

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 270 (D2) COMP 263 (D2) CLAS 270 (D2)

Writing Skills Notes: Students will write a series of short essays, with required revisions, to develop their skills in close reading of ancient texts and
interpreative analysis of modern scholarship about Christian origins. In each successive section of the course, writing from the prior unit will inform the subsequent papers.

COMP 264 (S) The End of the World in Japanese Literature and Visual Culture

Cross-listings: COMP 264 ASIA 254 ASST 254

Primary Cross-listing

From the endemic warfare of the medieval era to the atomic bombing and the violent explosion of technology in the last century, the end of the world is an idea which has occupied a central place in almost every generation of Japanese literature. Paradoxically, the spectacle of destruction has given birth to some of the most beautiful, most moving, and most powerfully thrilling literature in the Japanese tradition. Texts may be drawn from medieval war narratives like The Tale of the Heike; World War II fiction and films by Ibuse Masuji, Imamura Shôhei, and Ichikawa Kon; fantasy and science fiction novels by Abe Kôbô, Murakami Haruki and Murakami Ryû; and apocalyptic comics and animation by Oshii Mamoru, Otomo Katsuhiro, and others. The class and the readings are in English; no familiarity with Japanese language or culture is required.

Class Format: discussion

Requirements/Evaluation: in-class exam, ungraded creative project, and a few short response assignments, plus two 5- to 7-page papers emphasizing original, creative readings of the literary texts

Prerequisites: none; open to all

Enrollment Limit: 25

Enrollment Preferences: students majoring or considering a major in a related field

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 264 (D1) ASIA 254 (D1) ASST 254 (D1)

Attributes: GBST East Asian Studies Electives

Not offered current academic year

COMP 265 (F) Theories of Language and Literature (WS)

Cross-listings: COMP 265 ENGL 209

Secondary Cross-listing

This course is made up of questions: What is literature and why would anyone want to study it? What can you figure out by examining language that you can't figure out by studying history or psychology? Do students of literature have distinctive ways of asking questions about the world? Why do we call some language literary? Can any language be literary if it appears in the right kind of book? Is there a difference between verbal forms of art and visual or auditory ones? Can novels do things that plays and poetry cannot? Why does anyone read poetry anyway?

Requirements/Evaluation: informal writing every week; three 6-page papers; class attendance and participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 265 (D1) ENGL 209 (D1)

Writing Skills Notes: Informal writing before every class (about 500 words); three 6-page essays, plus a lead-in assignment on which the professor
comments; two special writing sessions; fifteen pages of writing advice. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**COMP 266 (S) Confession and Deception in Japanese Literature**

**Cross-listings:** ASIA 266  ASST 266  COMP 266

**Primary Cross-listing**

Situated at the origins of Japanese literature are the beautiful and revealing diaries of ladies in waiting at the tenth-and eleventh-century court. Yet one of the most famous of these women turned out to be a man. For the next thousand years, Japanese literary tradition would place a premium on confessional writing, but the distortions and concealments of these narrators (and the authors hiding behind them) would always prove at least as interesting as the revelations. This course examines several centuries of Japanese literature to ask whether you can ever put your true self into writing; along the way I will ask you what you reveal, conceal, discover, or reinvent about yourself when you write about literature for a class like this. Texts will range from classical and medieval court literature by Sei Shônagon and Lady Nijô, through autobiographical and confessional novels by Sôseki, Tanizaki, Mishima, and Abe Kôbô, to documentary and subculture films like *The New God* and *Kamikaze Girls*. The class and the readings are in English; no familiarity with Japanese language or culture is required.

**Requirements/Evaluation:** attendance and participation, a few short response assignments, one test, two 5-page papers, and an ungraded creative project

**Prerequisites:** none; no familiarity with Japanese language or culture is required

**Enrollment Limit:** 25

**Enrollment Preferences:** students majoring or considering a major in Comparative Literature

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**COMP 267 (S) Performance Studies: An Introduction** (DPE)

**Cross-listings:** DANC 267  WGSS 267  COMP 267  THEA 267

**Primary Cross-listing**

Since the 1980s, performance studies has emerged as an interdisciplinary field of inquiry, with origin tales in theater and anthropology, in communications and philosophy. What might theorizing “performance” as mode, analytic, and object of study have to offer scholarship in the interdisciplinary humanities? In this seminar, we will read texts formative of performance studies, paired with multimedia performance examples, where performance speaks to staged theatrics as well as the presentation of everyday life. We will ask, how are race, gender, sexuality, and nation produced as the effects of legal, political, historical, social, and cultural scripts? And--an important partner question--how do discourses and practices of race, gender, sexuality, and nation in fact produce legal, political, historical, social, and cultural effects? This seminar is an introduction to performance studies, an interdisciplinary field in conversation with theater studies, gender studies, anthropology, philosophy, literary theory, visual studies, dance studies, ethnic studies, queer theory, and postcolonial studies. Students will study and experiment with performance while reading theoretical texts to grapple with concepts including ritual, restored behavior, performativity, mimicry, liveness, the body, objecthood, archive, movement, matter, and affect.

**Requirements/Evaluation:** reflection papers, performance analysis, final paper or performance

**Prerequisites:** none

**Enrollment Limit:** 20
Enrollment Preferences: Comparative Literature majors

COMP 268 (S) Novel Worlds

Cross-listings: ENGL 263 COMP 268

Secondary Cross-listing

Reading a novel can feel like falling into another world, an immersion in an encompassing fictional reality saturated with detail--each novel its own trip down the rabbit hole. From Jane Austen's "3 or 4 families in a country village" to Roberto Bolano's teeming modern day Mexico City of millions, the novel's distinctive power is in making both the few and the many feel like a complete world. But what are worlds, anyway? Are they spaces, like a container? Or are they not a thing at all, but social systems--ways of belonging that are constantly being made and remade? This course is about the specific world--imagining powers of the novel, tracing out various techniques and strategies by which literary texts create worlds. Our hunch: the modern notion of "world" finds its origin in the novel, and the novel constitutes one of the most sophisticated sites of reflection upon the notion of world. We'll read a number of novels, ranging from 19th century authors like Austen and Dickens, to contemporary genre writing--science fiction and the detective novel--as well as from a range of national traditions to see how novels, and ideas of world, shift over time and space. To get at our central questions, we'll read some philosophical and critical texts that are preoccupied by world-ness, with attention to current debates about the idea of World Literature. Novel texts likely to include: Jane Austen's *Emma*, Charles Dickens's *Bleak House*, Carroll's *Alice in Wonderland*, Italo Calvino's *Invisible Cities*, and Roberto Bolano's *Savage Detectives*.

Requirements/Evaluation: papers (approximately 20 pages), other forms of writing in-class and otherwise, participation

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: sophomores and first-year students

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

COMP 269 Stop Making Sense: Absurd(ist) Theatre in Historical Context (WS)

In most academic work the point of analysis is to make sense, to find meaning, to explain intricate or confusing phenomena, to provide clarity from complexity. What happens when we can't do this, indeed, when the objects of our analytical attention seem willfully designed to thwart the attempt? Such is the challenge of "understanding" the traditions of the absurd. In this tutorial course, we will engage this challenge within the realm of Western theatre and performance from 1900 to the present. Beginning with selected readings from writers who have engaged the absurd in theoretical fashion (Albert Camus, Soren Kierkegaard, Jean-Paul Sartre, Martin Esslin), the course will move swiftly to original artworks for contemplation and analysis. Some questions we will grapple with include: How do we, can we, should we respond to art that specifically defies meaning? Can art that seems pointless have a point? How and when have strategies of nonsense, circular reasoning, linguistic obfuscation, and intentional theatrical absence been employed to disguise, or deflect attention from, specific didactic (even political) agendas? What role specifically does theatre, theatricality, or performativity play in the presentation of art that refuses understanding? Playwrights will range from canonical (Samuel Beckett, Eugene Ionesco) to
more obscure but equally engaging (as well as baffling) artists (Peter Handke, Slavomir Mrocek, Richard Foreman). We will follow standard practice in tutorial pairs, as each week one student will prepare original analysis of the assigned reading, and the other will craft a response to prompt an hour-long discussion. Whether we "make sense," or perhaps discover different ways of appreciating the varied works of art, will depend on the nature of those weekly attempts.

**Requirements/Evaluation:** Standard tutorial requirements; weekly paper or response paper from each member of the tutorial pair. Evaluation based on improvement in written expression and engaged contribution to weekly discussions.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre, English, and Comparative Literature majors and prospective majors.

**Expected Class Size:** 10

**Grading:**

**Distributions:** (D1) (WS)

**Writing Skills Notes:** This tutorial will demand writing from each student each week (either a primary paper or a shorter response paper), and each student will receive regular, extensive feedback including a focus on strategies for successful persuasive argumentation.

**COMP 271 (S)** Phantasmagoria, Madness, and the Absurd in Russian Literature and Film

**Cross-listings:** RUSS 232 COMP 271

**Secondary Cross-listing**

In one of Nikolai Gogol's most famous stories, a man wakes up one day to find that his own nose has left his face and taken on a life of its own. This situation, which we might label bizarre or absurd, just as easily shows how reality often fails to meet our expectations and even suggests that the story's leading character might have gone mad. But what then is insanity? Likewise, one of Dostoevsky's socially marginal characters contemplates the fact that only sick people see ghosts, which, in his opinion, "only proves that ghosts cannot appear to anyone but sick people, not that they themselves do not exist." This course aims to analyze the rich tradition, typified by Gogol and Dostoevsky, of the absurd, the fantastic, and madness in Russian literature and film of the 19th-21st centuries. Addressing the aesthetic, historical, and political circumstances that nurtured this tradition in Russian literature and cinema, our course material will explore new dimensions of reality, point out the many paradoxes and absurdities of human existence, and question our perceptions, as well as the assumption that we are sane. Close analysis of literary and cinematic texts will lead us to a broader discussion of the relationship between reality and representation, as well as the notions of the absurd and madness. Authors/directors will include Alexander Pushkin, Nikolai Gogol, Fyodor Dostoevsky, Anton Chekhov, Mikhail Bulgakov, Lyudmila Petrushevskaya, Andrey Tarkovsky, and Kira Muratova, among others. All readings will be in English, and all films will have English subtitles.

**Requirements/Evaluation:** class attendance and participation; two analytical papers (3-5 pages); leading class discussion; a creative assignment; an oral presentation; a final paper (6 pages)

**Prerequisites:** none

**COMP 272 (S) The History and Mythology of Chinese Scripts**

**Cross-listings:** STS 272 CHIN 272 COMP 272

**Secondary Cross-listing**

Written scripts using what are most often called "Chinese characters" have an attested history of over 3000 years and have been used all over the
world to represent a range of different languages. In this course we will examine the history and development of Chinese characters from their earliest extant examples on sacrificial animal bones to their often amusingly misguided use for contemporary tattoos. We will look at historical evidence and mythology, carefully constructed grammatological studies and wild orientalist imaginings. Some topics will include: comparisons between the development of Chinese characters and other written scripts, the relationship between Chinese characters and the languages of China, the use of Chinese characters to write non-Chinese languages, Chinese characters in art and calligraphy, theories of connections between Chinese characters and Chinese philosophy and literature, issues of education and literacy, and the future of Chinese characters in the digital age.

**Class Format:** discussion

**Requirements/Evaluation:** quizzes, short writing assignments, a midterm, and a final exam

**Cross-listings:** COMP 273 ENGL 273 GBST 273

**Primary Cross-listing**

Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

**Requirements/Evaluation:** short papers, one research paper, oral presentations, midterm, class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Comparative Literature and English majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** COMP core course

**Distributions:** (D1) (DPE) (WS)

COMP 276 (S) Black Europeans

Cross-listings: COMP 276 AFR 276 GERM 276

Primary Cross-listing

This course explores the invisibility of Black Europeans from the Enlightenment to the present with a particular focus on French, German, Austrian, Dutch, British, and Russian history. With the European Enlightenment as point of departure, the tutorial investigates the large presence of Blacks as objectified subjects in paintings and decorative artifacts of the 18th and 19th centuries while interrogating their century-long absence from European historiography until fairly recently. In this tutorial, we will start discussing the significance of the Code Noir (1685) as well as the major economic impact of the Atlantic Slave Trade on European countries such as Great Britain, France, and the Netherlands. We will read historical biographies about a handful of outstanding Black Europeans in France (composer Monsieur de Saint George), Germany (Prussian officer Gustav Sabac el Cher, philosopher Wilhelm Anton Amo), Austria (royal tutor Angelo Soliman), Holland (Prince Kwasi Boachi), and Russia (military leader Abram Petrovitch Gannibal) during the 18th and 19th centuries, study paintings and decorative artifacts of the 18th and 19th centuries depicting black servants--such as Hyacinthe Rigaud's Portrait of Marquise de Louville (1708), Nicolas Lancret's The Escaped Bird (1730), and Manet's Olympia (1863) to name a few--and watch the biopic Belle by Amma Asante (2013), narrating the life of black heiress Dido Elizabeth Belle in 18th-century England. We will also do a quick survey of 20th-century European cinema, that has until now cast very few black actors in supporting and leading roles, and we will ponder the representation of black people in recent films that were commercially successful at the box office (such as Les Intouchables by Nakache/Toledano, France 2011). Finally, we will reflect on the deep roots of European colonialism that takes the form of national debates surrounding the naming of chocolate-coated treats and licorice sweets (Têtes de nègre, Mohrenkopf, and Negerkuss) or of a controversy around cultural identity resulting from the grotesque depiction of black men in folkloric tradition (like Zwarte Piet in the Netherlands).

Requirements/Evaluation: six 5- to 7-page argumentative papers; six 2- to 3-page response papers; final paper optional

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first-years, sophomores, and juniors
**COMP 277 (F) The Examined Life: Ancient Ethical Literature at Rome**

**Cross-listings:** COMP 277 CLAS 227

**Secondary Cross-listing**

The philosophical schools of classical antiquity had in common a commitment to *eudaemonia*; that is, they considered human flourishing as a chief goal of life. This aim was not limited to professional philosophers, however. Rather, the question of how humans should live was a widespread and deeply felt concern, and ethical considerations pervade ancient texts across many genres. This course will focus on works of literature that consider how to live wisely, happily, and well, whether through seeking pleasure or acting justly, whether through political engagement or by retreating from society. We will analyze a wide variety of texts, but all are animated by an ethical premise most famously enunciated by Socrates, namely, that the unexamined life is not worth living. Readings may include dialogues, speeches, correspondence, plays, and poems, among them the *Satires* and *Epistles* of Horace, Seneca’s *On Leisure* and *On the Happy Life*, and the *Meditations* of Marcus Aurelius. All readings will be in translation.

**Requirements/Evaluation:** class participation, several short written assignments, one or two longer essays (around five pages)

**Prerequisites:** none

**Enrollment Limit:** 24

**Enrollment Preferences:** Classics majors, Comparative Literature majors, or intending Classics and Comparative Literature majors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**COMP 280 (F) Art at its Limits: Representing the Holocaust (DPE) (WS)**

**Cross-listings:** COMP 280 JWST 280 GERM 280

**Secondary Cross-listing**

The Holocaust poses unique challenges to art: it is an event that unsettles the very notion of representation while, at the same time, also demanding it. Art, after all, is a mode of witnessing as well as a form of commemoration; it allows survivors to record their testimony and later generations to remember. Yet the representation of suffering can all too easily become exploitative or aestheticizing, it can turn pain into entertainment and history into fiction. How, then, do writers, artists, and filmmakers navigate the representation of the Shoah if it resists comprehension and undermines traditional forms of narrative? In this course, we will ask if and how art can do justice to a catastrophe of such magnitude as the Holocaust by analyzing different forms of media from a variety of cultural backgrounds. What can poetry offer that remains foreclosed to prose? Was Art Spiegelman's graphic novel *Maus* really in bad taste? How should documentaries approach the Shoah, and is there a place for Hollywood films in the archives of commemoration? Texts among others by Tadeusz Borowski, Tadeusz Ró’ewicz, Art Spiegelman, Paul Celan, Primo Levi, Sylvia Plath, Hannah Arendt, Theodor W. Adorno, Jacques Derrida, and Maurice Blanchot; films by Quentin Tarantino, Claude Lanzmann, Paweł Pawlikowski, and Steven Spielberg.

**Requirements/Evaluation:** three 2-page critical responses, oral presentation, final project

**Prerequisites:** none

**Enrollment Limit:** 20
Enrollment Preferences: German and Comparative Literature majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 280 (D1) JWST 280 (D2) GERM 280 (D1)

Writing Skills Notes: Three 2-page papers spaced over the course of the semester on which students will receive detailed feedback and which they will be able to revise; the final project will either be a 10-page paper or a creative project accompanied by a 4-page reflection that will consider the creative component in relation to the themes of the course. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course will examine how art can help us think about the catastrophic abuses of power in the Third Reich. While many of the texts we will examine focus on the stories of Jewish people, the class will also consider how the narratives of other persecuted groups, including the Sinti and Roma, people with disabilities, and LGBTQ victims and survivors, relate to and differ from these experiences.

Not offered current academic year

COMP 286 (S) Women's Contemporary Cultural Production in Latin America (DPE)

Cross-listings: RLSP 274 COMP 286 WGSS 275

Secondary Cross-listing

In Latin America, women have been largely displaced as historical subjects and reduced, in many ways, to symbolic figures or icons whose trajectories have been depicted as essential to the construction of diverse social projects within the context of patriarchal nation-states. Each country has formed a specific idea of what a woman is, and can be, through its cultural production, and this constant erasure/objectification has led to a complex problematic when it comes to addressing women as cultural producers. Keeping this in mind, in this course we will explore the concept of "Woman" as a representation and women as cultural producers in contemporary Latin America. We will address intersections of race/ethnic positioning, sexual identity, and social class to explore their role in the reception and understanding of the work of these female artists. Through the analysis of varied cultural production, the syllabus will present an interdisciplinary approach to the contributions of female artists to the cultural representation of race/ethnicity, masculinity, femininity, violence, sexuality, gender identity, nationalism, citizenship, and social movements. We will explore the work of artists such as Sara Castrejón, Nahui Ollin, Citlali Fabián, Amparo Dávila, Alejandra Pizarnik, Rosario Castellanos, Reina Roffé, Ana Tijoux, Lucrecia Martel, Chavela Vargas, Graciela Iturbide, Celia Cruz, Lucia Puenzo, Cecilia Barriga, Cristina Rivera Garza, Maria Novaro, Cristina Peri Rossi, Maruch Sántiz Gómez, Leonora Carrington, and Maris Bustamante, among others. In addition, we will read theoretical texts on diverse subjects corresponding to each specific cultural product.

Requirements/Evaluation: essays (7-8 pages), weekly written reports, oral presentation, active and engaged class participation

Prerequisites: RLSP 105, placement exam results, permission of instructor or Department Chair

**COMP 289 (F) Theorizing Magic**

**Cross-listings:** REL 297 COMP 289 ANTH 297

**Secondary Cross-listing**

This is a course about magic. It is not about stage magic, sleight of hand, or the art of pulling rabbits out of hats. You will learn no card tricks. But instead we will learn about those people who believed in the reality of certain powers; from the ability to summon good or evil spirits, transform base metals into gold, predict the future, or manipulate matter by thought alone. The problem of how to theorize magic has long been a cause of concern for the natural and social sciences. Many a sociologist and anthropologist has imagined that belief in magic should have vanished with modernity (despite much evidence to the contrary). Meanwhile, philosophers of science have been long fascinated with the demarcation problem-figuring out grounds by which to distinguish legitimate sciences (like astronomy) from their magical or pseudoscientific cousins (like astrology). We will trace these discussions and problematize them by looking at the beliefs of self-defined witches and magicians. This should put us in a position to interrogate the construction of concepts of magic, science, and religion and show how the boundaries between these categories emerged historically. Topics to be discussed will include: the rationality of magic, the fine lines separating magic, science and religion, the persecution of witches, and the role notions of magic and superstition played in European modernization and colonization projects. The tutorial sessions will be customized to student interests, but texts will likely include selections from primary works in translation, such as Cornelius Agrippa's *Occult Philosophy*, Giordano Bruno's *On Magic*, Aleister Crowley’s *Magick Liber Aba*, as well as selections from secondary literature, perhaps including Marcel Mauss, *A General Theory of Magic*, Max Weber, "Science as Vocation," Tanya Luhmann, *Persuasions of the Witches' Craft*, Thomas Kuhn, *The Structure of Scientific Revolutions*, Larry Laudan, "The Demise of the Demarcation Problem," E.E. Evans-Pritchard, *Witchcraft and Oracles, and Magic among the Azande*, and/or Kelly Hayes, *Holy Harlots: Femininity, Sexuality and Black Magic in Brazil*.

**Requirements/Evaluation:** weekly writing assignments and tutorial attendance every week

COMP 291  (F)  Red Chamber Dreams: Reading China's Greatest Novel  (WS)

Cross-listings:  ASIA 291  COMP 291

Primary Cross-listing

Since it first began to circulate in manuscript in the mid-eighteenth century, Cao Xueqin's novel *Story of the Stone* (*Shitou ji*), also called *Dream of the Red Chamber* (*Honglou meng*), has captured the imaginations of readers young and old with its sprawling story of the coming-of-age of members of a wealthy family on the cusp of ruin. As critically acclaimed as it is beloved, *Story of the Stone* is widely regarded as China's greatest novel due to the intricacy of its narrative, the complexity of its characters, and the sophistication with which it deals with themes as varied as romance, enlightenment, sexuality and gender identity, and the construction of public and private spaces. The focus of this tutorial will be reading the 120-chapter novel. Students will have the option to read either in Chinese or English (though papers and class discussion will be in English). We will also read scholarly literature to learn about some of the major critical approaches to the novel, and about its enduring importance in the Chinese literary tradition.

Requirements/Evaluation:  Tutorial papers (including revision of selected papers for a final portfolio) and responses.

Prerequisites:  None.

Enrollment Limit:  10

Enrollment Preferences:  Comparative literature majors and prospective majors; Asian Studies concentrators.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 291 (D1)  COMP 291 (D1)

Writing Skills Notes:  Students will write a 5- to 7-page paper every other week for a total of five papers. On weeks in which they are not writing, they will critique their partner's paper. Papers will receive substantial individualized feedback on both writing and content from the instructor as well as the tutorial partner.

COMP 292  (F)  War and Resistance: Two Centuries of War Literature in France (1800-2015)  (DPE)

Cross-listings:  RLFR 202  COMP 292  WGSS 201

Secondary Cross-listing

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. *Conducted in French.*

Requirements/Evaluation:  active class participation, midterm exam, and two to three papers (of 3-5 pages each)

Prerequisites:  exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor

Enrollment Limit:  16

Enrollment Preferences:  French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size:  16
Grading: yes pass/fail option, no fifth course option  
Distributions: (D1) (DPE)  
This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film. Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

COMP 293 (S) Great Big Books (WS)
Cross-listings: ENGL 233 COMP 293

Secondary Cross-listing
Some of the greatest novels are really, really long-so long that they are too seldom read and taught. This course takes time to enjoy the special pleasures of novels of epic scope: the opportunity to immerse oneself in a wide and teeming fictional world; to focus sustained attention on the changeable fortunes of characters and societies over a long span of time; to appreciate the detailed grounding of lives in their social environment and historical moment; to experience the leisurely and urgent rhythms, with their elaborate patterning of build-ups and climaxes, that are possible in such works. We will read but two novels, both preoccupied with the disruption and evolution of lives and loves at moments of historic upheaval: War and Peace (1869), Leo Tolstoy's epic of the Napoleonic Wars, and Parade's End (1924-28), Ford Madox Ford's modernist masterpiece about World War I and its traumatic impact on English social life. Set a century apart, the novels are distinguished by vivid and scrupulous representation of their respective wars, by their shrewd accounts of political and social pressures informing the crises, and by their insight into the struggles of those whose lives are engulfed in global crisis. Tolstoy's and Ford's approaches to fictional representation, however, provide intriguing contrasts: one favors the lucidity of classic realism, the other the challenges of modernist innovation; one deploys a single multiplot novel, the other a tetralogy of shorter novels developing a single plot. We will discuss the differing strategies and effects of these two approaches, as well as the more general difficulties of reading and interpreting long fiction.

Requirements/Evaluation: regular class participation and four 5-page papers, two of them submitted in both a draft and a revision
Prerequisites: a 100-level English course, or a score of 5 on the Advanced Placement examination in English Literature or a 6 or 7 on the International Baccalaureate
Enrollment Limit: 19
Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

COMP 296 (S) Chinese Film and Its Significant Others (DPE)
Cross-listings: CHIN 226 COMP 296

Secondary Cross-listing
From the "wows" that the first short films invoked at a Shanghai teahouse in 1896 to the $527 million (or 3.4 billion RMB) grossed at the box-office by a 3D fantasy in 2019, Chinese films have struck a responsive chord among domestic and foreign audiences. In this survey course, we will explore the evolving relationships between Chinese films and five "significant others" that are central to film and film-making. Roughly following a chronological
order, this course will examine 1) the effect of new technological developments (such as photography, sound, color, special FX) on film; 2) the tension between film and traditional modes of public entertainment (such as operas and shadow plays); 3) film's social role to affirm and contest gender, national, and class identities; 4) the need to garner differing sources of financial support (state funding, cultural entrepreneurs, and transnational capital); and 5) the circulation of Chinese films in the global market. Class materials include various genre films (melodrama, horror, martial arts, comedy, etc.), directors' notes, contemporary reviews, and scholarship in China and media studies. All materials and discussions are in English.

Class Format: All regular course meetings will be conducted ONLINE with mostly a synchronous mode of instruction. Students are also expected to complete asynchronous preparations (view the films and Panopto lecture clips, read scholarship, and contribute to the discussion board) before the regular class hour. All materials are posted on GLOW. For full information, please contact the instructor.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Pre-class discussion posts based on reading and recorded lectures (Graded as Complete or Incomplete); 3) two short papers (3-5 pages); 4) two peer review papers (1-2 pages); and 5) the final project (including a presentation, and a paper or other form of project).

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: current or prospective Chinese, Japanese, Asian Studies, and Comparative Literature majors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

CHIN 226 (D1) COMP 296 (D1)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the clashes and negotiations between Western media technological modernities and Chinese indigenous understanding of shadows, visuality, and sound. By discussing various films produced from mainland China, Hong Kong, Taiwan, and other diaspora areas from 1920 to now, this course asks students to explore how cinema invokes (and erases) differences, and consolidates (and challenges) hegemonic notions of nation, gender, and class.

Not offered current academic year

COMP 297 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228 COMP 297 CHIN 428

Secondary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

COMP 298 (S) Introduction to French and Francophone Film

**Cross-listings:** RLFR 228  COMP 298

**Secondary Cross-listing**

In this course, we watch and examine seminal French and Francophone films. Starting with early French cinema and silent movies of the end of the nineteenth century, we continue with landmark films from the 1920s, '30s and '40s. World War II serves as a point of rupture to explore how the advent of Francophone film parallels postcolonial theory. Throughout the semester, we discuss film as spectacle, the emergence of narrative forms, innovative technical practice and their connection to aesthetics. We also look at the role of film in addressing larger questions that include acts of rebellion, decolonization, the radical rejection of societal values, colonialism, dislocation, alienation, French collaboration during the German occupation, and the intersection of history and biography, as well as migration, in between-ness, and transnationalism. Films from the Lumière brothers, Méliés, Guy-Blaché, Vigo, Truffaut, Sembene, Mambety, Malle, Varda, Palcy, Peck, and Sissako. Conducted in French.

**Requirements/Evaluation:** response papers, midterm paper, TV show, colloquium

**Prerequisites:** RLFR 201, 202, or 203, or by permission of instructor

COMP 301 (S) Sublime Confusion: A Survey of Literary and Critical Theory

**Cross-listings:** ENGL 301  COMP 301

**Primary Cross-listing**

Which is more appealing, a roller coaster or a rose? For much of its history, art and literary theory has conceived itself as a science devoted to explaining and defining "beauty." But running alongside this is an edgier countercurrent that worships something else: an experience of excitement, fear, suspense, or thrilling confusion often described as "the sublime." The sublime interested early critics, from classical rhetoricians to the German Idealists, as a way to make aesthetics more scientific paradoxically by identifying the doorway through which art and literature escaped the realm of reason. More recently the notion of literature's exciting confusion has played a key role in modern critical theory from Russian formalism to new criticism, deconstruction, postmodernism, and posthumanism. (In fact, poststructuralist criticism itself has a thrillingly confusing quality that we will not ignore.) We will take up a cross section of critical theory from classical times to the present, focusing on careful reading of relatively short texts by Plato, Aristotle, Addison, Burke, Schiller, Nietzsche, Shklovsky, I.A. Richards, Barthes, Derrida, Lyotard, Fredric Jameson, Haraway, and others. Case studies ranging from opera to Xbox will enlighten, thrill, and confound you. Written assignments will encourage you to parse these theories carefully
and apply them to the literary texts that most interest you: prose, poetry, or drama from any time and place; film, visual art, or architecture; music, new media, or digital media, and beyond.

**Requirements/Evaluation:** attendance and active participation, several short response assignments, final project consisting of a scripted oral presentation and a 15-page final paper

**Prerequisites:** 200- or 300-level course in literature, theory, or philosophy, or permission of the instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** students majoring or considering a major in a related field

**Expected Class Size:** 9

**Not offered current academic year**

**COMP 303 (F) Embodied Archives: Global Theatre & Performance Histories** (DPE)

**Cross-listings:** COMP 303 THEA 301

**Secondary Cross-listing**

What is the past good for? Why study theatre history now? What do the archival performance traditions, practices, and sources of yesterday have, if anything, to offer the theatre artists of today and tomorrow? Digging into these questions, this combined studio/seminar course will introduce students to major global theatre and performance histories by considering how they’ve been taken up--adapted, appropriated, recycled, critiqued, and re-appropriated--by artists working in the field now. Why does dramatist Luis Alfaro return to Sophocles’ *Electra* to tell a story about the experiences of Chicana/o communities in L.A.? What does the playwright Branden Jacobs-Jenkins find compelling about the allegorical performances of English Medieval theatre? What role does traditional Korean dance ritual play in the experimental theatre of artist Young Jean Lee? How have collaborators at New York’s Public Theater sought to re-vitalize Shakespeare’s works through community-driven practices? Through comparative pairings such as these, we will study and draw inspiration from the ways contemporary dramatists, makers, directors, and performers have approached the theatrical forms and performance practices of the past in the effort to create new perspectives on the present. While attending to theatre's formal and aesthetic aspects, we will at the same time focus on the relationship of performance to the enduring legacies of empire, state power, colonialism, and private capital in which they are historically embedded and by which they are shaped. If and when possible, we will encounter archival sources housed in College Archives and WCMA. As a final creative project, students will adapt, critique, or re-appropriate a source material of their own choosing. This course is required for Theatre majors and is a prerequisite for THEA 401.

**Class Format:** This class is a combined studio/seminar. Students will be required to present and share their creative responses to the material studied in the course.

**Requirements/Evaluation:** journal writing and active participation in class; a midterm creative adaptation project and accompanying “research casebook”; participation as discussion leader for one class; and a final creative adaptation or performance project and accompanying “research casebook.”

**Prerequisites:** For Theatre majors: any 100 or 200-level theatre course.

**Enrollment Limit:** 16

**Enrollment Preferences:** Theatre majors; Comparative Literature majors

**Expected Class Size:** 8-10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**
COMP 303 (D1) THEA 301 (D1)

**Difference, Power, and Equity Notes:** This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the dominant sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in
In a reference to the story of Babel, Hungarian psychoanalyst Sandor Ferenczi (1873-1933) described in poignant detail the operation of sexual abuse in terms of a profound disjunction on the level of language, in the broadest sense—"a problem of translation," so to speak. Indeed, Ferenczi dedicated his entire life to learning the language of his patients' trauma in all its nuances, making himself vulnerable in multiple ways in the process. D. W. Winnicott (1896-1971), too, immersed himself in the lives of his patients, many of them children or adults who had grown up experiencing the death and displacement of wartime England. The theories of these two psychoanalysts, much less known in the humanities than Freud, Lacan, or Klein, dovetail in significant ways with the workings of literature. In this course, we will investigate the ways in which the spaces, configurations, and dynamics of literature from several national traditions align with Ferenczi's explorations of the "confusion of tongues," as well as Winnicott's interest in the "intermediate area of experiencing, to which interior reality and external life both contribute." Texts may include, in addition to articles by Ferenczi and Winnicott, work by Kafka, Kincaid, Baldwin, Bachmann, Bechdel, and others. Modified tutorial format, with groups of three students meeting weekly with the instructor.

**Requirements/Evaluation:** Requirements: Active participation, four 5-page papers, two portfolio introductions, four 1-2 page responses, one final project. Evaluation: Tutorial papers will receive extensive comments, but no grade; the portfolios and the final project will be graded. Responses will not be evaluated by the instructor, but instead will function well or less well in the context of the discussion. The final grade will be determined by the overall trajectory of the student's learning.

**Prerequisites:** one college literature course

**Enrollment Limit:** 18

**Enrollment Preferences:** majors or prospective majors in Comparative Literature

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Modified tutorial (3 on 1). Students will write four five-page papers, grouped into two portfolios, and will prepare 1-2-page portfolio introductions. They will also produce a final project that is a synthesis of their ideas throughout the semester. Finally, they will be required to write formal responses to their partners' papers.

Not offered current academic year

**COMP 305 (F) Dostoevsky: The Riddle of the Self and the Other**

**Cross-listings:** RUSS 305 COMP 305

**Secondary Cross-listing**

This course offers a comprehensive survey of Fyodor Dostoevsky's literary and intellectual legacy. We will read his major works including *Notes from Underground, Crime and Punishment, Demons, The Brothers Karamazov* and a selection of celebrated short works. Close textual analysis will be accompanied by a discussion of aesthetic, philosophical, and psychological aspects of Dostoevsky's oeuvre. The problem of the self-other relationship in the artistic, philosophical and religious contexts of Russia and Western Europe is one of the key themes that we will trace in this course. More broadly we will look into the problems of the modern individual and modernity in the times of Dostoevsky as well as in our times. All readings are in English translation.

**Class Format:** This will be a hybrid course for in-person and remote students. We will meet in small groups (4-5 students) once a week synchronously (in-person with students who are on campus, and via zoom with students who are enrolled remotely) and will have variety of asynchronous activities (viewing short lectures, writing reading responses, participating in written and video discussion forums)

**Requirements/Evaluation:** Participation, reading responses in the form of blog posts, three short papers, final project

**Prerequisites:** none, open to all students

**Enrollment Limit:** 15

**Enrollment Preferences:** RUSS and COMP majors, and Russian Certificate-seekers

**Expected Class Size:** 15
COMP 306 (S) Rise and Shine with Tolstoy
Cross-listings: RUSS 306 COMP 306

Secondary Cross-listing
Prepare to alternately fall in love and lock horns with this illustrious nineteenth-century Russian author. He is worth it. Whether searching for the meaning of life, interrogating what it means to love another human being or struggling with religious faith, Tolstoy was a busy, busy man and a prolific writer. This course will examine his life and major works in the broader context of Western intellectual history. Readings will include his two great novels, *War and Peace* and *Anna Karenina*, as well as a number of shorter works, such as *The Cossacks* and *Hadji Murad*. We will also consider some of Tolstoy's aesthetic and religious writing as we examine his constant, rich, and at times surprising development as one of the greatest artists and thinkers of 19th-century Europe.

Requirements/Evaluation: timely completion of all reading assignments, active and substantive class participation, discussion leading, 4-5 short essays, and a final project

COMP 307 (S) Aesthetic Outrage (WS)
Cross-listings: COMP 307 ENGL 332

Secondary Cross-listing
In this tutorial course we will explore interdisciplinary ways of theorizing the outraged reception of provocative works of film, theater, and fiction. When riots, censorship, and vilification greet such works in moments of political and social upheaval, the public outrage is often strangely out of proportion to either the work's aesthetic nature or its overt commentary on the political crisis. Something powerfully symptomatic is at work, then: a set of threatened investments, unacknowledged values, and repressed ideas which surface explosively, but indirectly, in the aesthetic outrage. In an attempt to understand the strange logic of public outrage against works of art, we will explore the respective works' historical contexts, and use theoretical models--aesthetic, political, psychological, social--as a means of illuminating the dynamics of outrage and exposing understated linkages between a work's figurative logic and the political passions of its historical moment. We will study instances of outrage in the context of French Revolution (Beaumarchais' *The Marriage of Figaro*), the wave of anarchist terrorism in turn-of-the-century Paris (Jarry's *Ubu the King*), the sodomy trials of Oscar Wilde (*The Importance of Being Earnest*), the Irish Revolution (Synge's *The Playboy of the Western World* and O'Casey's *The Plough and the Stars*), and Stalinist collectivization (Eisenstein's suppressed film *Bezhin Meadow*). After two weeks in which we will meet as a group, students will meet with the instructor in pairs for one hour each week during the rest of the semester. They will write a 5- to 6-page paper every other week (five in all), and a short written analyses of their partners' papers in alternate weeks. Emphasis will be placed on developing skills not only in reading and interpretation (of historical events and of theoretical texts as well as of literature and film), but also in constructing critical arguments and responding to them in written and oral critiques.
COMP 310  (S)  Theorizing Shakespeare

Cross-listings: COMP 310  WGSS 311  THEA 311  ENGL 311

Secondary Cross-listing

For complex reasons, Shakespeare has always revealed as much about those who speculate on him as the speculators have revealed about him. In this course, we will engage a few plays in considerable depth: *The Merchant of Venice*, *Hamlet* and *Antony and Cleopatra*. But we will also use these works as a means to engage some of the most compelling trends in recent critical thought, including cultural theory and post-Marxist analysis, political theology, deconstruction and rhetorical theory, psychoanalytic thought and theories of gender and sexuality. In some instances, we will look at applied criticism, in others we will simply place a theoretical work alongside a play and see what they have to say to each other, for instance, what would a Shakespearean reading of Jacques Lacan look like?

Requirements/Evaluation: 20 pages of writing in the form of two short and one longer paper

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English majors

Expected Class Size: 19

COMP 315 (F) Social Construction (DPE)

Cross-listings: COMP 315 WGSS 302 REL 301 SOC 301 STS 301 SCST 301

Secondary Cross-listing
"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 10-page research paper, and final project

Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Religion majors, then majors from cross-listed departments
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

COMP 316 (F) Kafka and His/Our World (WS)
Cross-listings:  COMP 316  GERM 315

Secondary Cross-listing

"It's so Kafkaesque!" We love to use the most famous Austro-Hungarian-Czech-Jewish writer of all time to characterize puzzling and dispiriting situations. But close examination of Franz Kafka's work and life reveals a multi-dimensional world that goes far beyond the cliché. Jewish in an increasingly anti-Semitic environment, German-speaking surrounded by Czech-speakers, deeply alone in a family that didn't understand him, Kafka produced texts that simultaneously demand and refuse to be interpreted. In this tutorial we will begin with intensive readings of selected short stories and parables, then move on to an exploration of the Kafka's own words from diaries and letters, as well as secondary sources. The course will conclude with discussions of how Kafka's texts and their contexts might relate to contemporary conditions and/or to students' own lives and thoughts. This will be a modified tutorial, with five groups of three students apiece. Students may take the tutorial in either German or English; groups will be formed accordingly.

Class Format: The class will be divided into groups of 3. At each weekly meeting, one of the 3 will present a 5-page paper, another will present a formal response, and the third will participate actively in discussion. Students will incorporate at least one of their papers into a final project that links their discussions of Kafka to their own interests and/or to contemporary issues. Students can take the course in German or English (or a combination of the two), and groups will be formed accordingly.

Requirements/Evaluation: Three 5-page papers, three 1-2 page responses, one final project, discussion leading. Evaluation: Tutorial papers will receive extensive comments, but no grade; the instructor will meet with individual students at least twice during the semester to discuss how things are going for them. Responses will not be evaluated by the instructor, but instead will function well or less well in the context of the discussion. The final project will receive a grade, and the final grade will be determined by the overall trajectory of the student's learning.

Prerequisites: For German speakers: GERM 202 or the equivalent preferred, though students with less experience should contact the instructor. For students taking the course in English: one college literature course.

Enrollment Limit: 15

Enrollment Preferences: German students, majors or potential majors in Comp Lit or German

Expected Class Size: 15

Grading: yes pass/fail option,  no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 316 (D1) GERM 315 (D1)

Writing Skills Notes: The course has a modified tutorial format, with groups of three meeting weekly instead of pairs. Each student will write three 5-page papers plus three 1-2-page responses during the semester, and will prepare a final project. Each paper will receive extensive feedback from the instructor.

Not offered current academic year

COMP 317  (F)  Dante

Cross-listings:  COMP 317  ENGL 304

Secondary Cross-listing

In the spring of 1300, Dante Alighieri entered Hell. The Divine Comedy is the record of the journey that followed. It is organized around a series of encounters with figures from the poet's past—for example, a former teacher damned for violating nature—as well as historical and literary characters: Ulysses, Thomas Aquinas, Plato, Virgil, Adam. Though the Comedy is probably now best known for its savagery—the bodies split open, the Popes turned upside down and lit on fire—it is also, as Dante claims, a love story and a work of high imaginative daring. Among its final images is a vision of paradise rendered through the precise if also mind-bending language of non-Euclidean geometry. In this course we will read the three books of the Comedy (Inferno, Purgatorio, Paradiso), the Vita Nuova, and a few brief selections from Dante's other works. All readings will be in translation. The course will be taught remotely.

Requirements/Evaluation: five written exercises and a 10-page final paper

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 14

Enrollment Preferences: English majors

Expected Class Size: 10
Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

COMP 319  (F)  Black Migrations: African American Performance at Home and Abroad

Cross-listings:  AFR 317  COMP 319  AMST 317  DANC 317  ENGL 317  THEA 317

Secondary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham’s dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation:  class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 322  (S)  Comic Lives: Graphic Novels & Dangerous Histories of the African Diaspora

Cross-listings:  COMP 322  ENGL 356  AFR 323  AMST 323  ARTH 223

Secondary Cross-listing

This course explores how the graphic novel has been an effective, provocative and at times controversial medium for representing racialized histories. Drawing on graphic novels such as the late Congressman John Lewis’ March and Ebony Flowers’ Hot Comb, this course illustrates and critiques multiple ways the graphic novel commingles word and image to create more sensorial access into ethnic traumas, challenges and interventions in critical moments of resistance throughout history. Students will practice analyzing graphic novels with the help of critical essays, reviews and film; the chosen texts will center on Africana cultures, prompting students to consider how the graphic novel may act as a useful alternate history for marginalized peoples. During the course, students will build comic creation and analysis skills through short exercises, eventually building up to the final project of a graphic short story that illustrates historical and/or autobiographical narratives. No art experience is required, only an openness to expanding one's visual awareness and composition skills. This course is often taught in collaboration with the Williams College Museum of Art's Object Lab program, which allows the class to have its own space and art objects that are directly related to the course topic. Although it is a remote course this year, this class may still feature Object Lab participation, film screenings, and collaborations with guest speakers.

Class Format: This is a remote class that will primarily feature synchronous sessions with some asynchronous sessions.
**Requirements/Evaluation:** class participation, written responses, student-led facilitation, one 3-page graphic analysis, one 6- to 8-page essay, and a final project (producing a graphic short story)

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** If the enrollment limit is exceeded, preference will be given to Africana Studies concentrators or students who have taken AFR 200, the department’s introductory course.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** this course is part of the Gaudino Danger Initiative

**Distributions:** (D2)

**COMP 323 (F) Born to be Wild: Rethinking Animals in Pre-modern and Modern Texts** (DPE)

**Cross-listings:** COMP 323 ARAB 323 ENVI 321

**Secondary Cross-listing**

In the past few months, images of dolphins appearing in the Venetian canals, and wild animals roaming eerie looking post-apocalyptic deserted streets have gone viral. The majority of these images have proven to be fake, however their popularity was witness to people's hope that we can "reset" the environment and a yearning to reframe animals' positionality vis-à-vis their habitats and humans. Using critical lenses from ecocriticism and animal studies, we will be exploring texts from non-Western traditions in which animals figure strongly from pre-modern times to the age of the Anthropocene. The focus will be on Arabic, Persian and Turkish texts all in translation. The course will be traversing several genres and texts from Pre-Islamic poetry, the Quran, the 10th century Ikhwan as-Safa's epistle The Case of Animals versus Man Before the King of the Jinn, the fables of Kalila and Dimna, Farid ed-Din 'Attar's Conference of Birds, travelogues, paintings, contemporary film till we reach recent fiction with cyborgs and drones. Throughout the course, we will be examining themes such as diverse conceptualizations of what it means to be an "animal", what constitutes' animal agency and animal subjectivity irrespective of humans and their often utilitarian lens. We will do this by investigating how animals through these texts have been represented, imagined and reconfigured whether allegorically or otherwise as communities and in relation to humans and the environment and the implications of that. Finally, we will explore what a poetics of animal studies in these cultural and literary traditions could look like. The course will consist of multiple forms of evaluation like participation, Glow posts, essays, experiential reflections and creative tasks.

**Class Format:** This class will be offered remotely synchronously twice a week (75 minutes each session), in addition to prerecorded asynchronous material at times.

**Requirements/Evaluation:** The course will consist of multiple forms of evaluation like participation, Glow posts, essays, experiential reflections and creative tasks.

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** Arabic majors, Comparative Literature Majors, Environmental Studies Majors and Arabic certificate holders.

**Expected Class Size:** 10

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

COMP 323 (D1) ARAB 323 (D1) ENVI 321 (D1)

**Difference, Power, and Equity Notes:** This course deals with different literary traditions and their aesthetics. The approach is both synchronic and diachronic by looking at texts and their texts from different time periods and at different genres. The course will be examining what it means to be an "animal" vis-a-vis human beings and their environment and animal agency in these literary traditions as opposed to the often utilitarian lens that animals have often been viewed through.
COMP 330 (S) New Orleans as Muse: Literature, Music, Art, Film and Theatre in the City

Cross-listings: AMST 331 THEA 330 COMP 330

Secondary Cross-listing

This course will look at the representation of a city and how it has influenced artists. Students will read, listen to, and view a selection of the literature, music, film and art that represent the city from both pre-flooding and current re-building. Reading selections will include examples such as Harper's Weekly (Lafcadio Hearn), The Awakening (Kate Chopin), A Streetcar Named Desire (Tennessee Williams), The Moviegoer (Walker Percy), Why New Orleans Matters (Tom Piazza), A Confederacy of Dunces (John Kennedy O’Toole), New Orleans Sketches (William Faulkner), One Dead in the Attic (Chris Rose). Film examples such as A Streetcar Named Desire, An Interview with a Vampire, The Curious Case of Benjamin Button, When the Levees Broke, Treme, Waiting for Godot (in the 9th Ward). Music selections from examples such as Louis Moreau Gottschalk, Jelly Roll Morton, Louis Armstrong, Fats Domino, The Meters, Kermit Ruffins and the Rebirth Brass Band. Art selections will come from a variety of sources such as THE OGDEN Museum of Southern Art and Prospect 1, 2, & 3.

Requirements/Evaluation: will be on active participation, weekly response essays on film viewings, 2 short essays on class topics, a final paper and a contemporary creative project/performance

COMP 331 (S) The Brothers Karamazov

Cross-listings: COMP 331 ENGL 371 RUSS 331

Secondary Cross-listing

Widely hailed as one of the greatest novels ever written, Dostoevsky's The Brothers Karamazov contains a series of enigmas, not the least of which is precisely who murdered the Karamazov father. In addition to exploring the shared guilt of all four of the brothers Karamazov in the crime of patricide, Dostoevsky poses the most probing questions of his day: Are families tied together merely by blood or by deeper spiritual bonds? Is religious faith possible in an age of reason, science, and technology? Can man's earthly laws ever carry out divine justice? Is humanity prepared to bear the burden of responsibility that comes with freedom? This tutorial will spend an entire semester exploring Dostoevsky's masterwork, and we will read a variety of secondary sources alongside The Brothers Karamazov, including history, philosophy, and literary theory. Our goal will be to understand Dostoevsky's answers to these so-called "accursed questions" through the unique artistic form of The Brothers Karamazov.

Requirements/Evaluation: completion of weekly reading and writing assignments, as well as active engagement during tutorial sessions

Prerequisites: at least one 200-level literature class

Enrollment Limit: 10

Enrollment Preferences: students majoring or considering a major in Russian, Comparative Literature, or English

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

COMP 332  (F)  Popular Culture in the Arab World: Youth, Populism, and Politics  (DPE)

Cross-listings: ARAB 331  COMP 332

Secondary Cross-listing

Since the uprisings in the Arab world in 2011 and the counter-revolutions that followed, much attention has been paid to the significant role of the "popular" in creating social and political transformations. The voice of the youth and "the street," in particular, emerged as massive sources and sites for political mobilization. But, are these categories identical? Does youth culture equal popular culture? This survey course is designed to provide students with an introduction to the different layers that constitute popular culture in the Arab world since the decolonization of Arab states in the 1950s. Questions that we will ask include: What constitutes "popular culture" in the Arab world? How is it different than folk culture, mass culture, or "high" culture? Who are the key players in the creation and dissemination of "popular" culture? Besides globalization, for example, what other social, political and economic dynamics engulf the definition of the "popular"? What are modes of self-fashioning and representation of Arab identity that characterize this culture? To answer these questions we will examine original sources (with English translation) that include a graphic novel, political cartoon and graffiti, documentaries, TV shows, soap operas, video clips, music, comedy, blogs, news and social media. A selection of essays from anthropology, Arab culture studies, political science, journalism, and online videos will be used to provide historical and critical context for the material discussed in class.

Requirements/Evaluation:  active class participation, two shorter papers (3-4 pages), two film reviews and critical reflections (1-page), a performance, and a longer final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students majoring in or considering a major in Arabic Studies

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 334  (S)  Imagining Joseph

Cross-listings: REL 334  JWST 334  COMP 334  ANTH 334

Secondary Cross-listing

Beloved son, rival brother, faithful servant, dreamer, seer, object of desire, lover, husband, bureaucrat, Joseph is one of the most fully-limned and compelling figures in the Jewish, Christian, and Muslim scriptural traditions. The story of Joseph unfolds over fourteen chapters in the Hebrew Bible, and is the subject of the fourth longest sura in the Qur'an. Through millennia, the story of Joseph has inspired a wealth of interpretations, commentary, apocrypha, re-tellings, and back-story, including an apocryphal book of scripture about Joseph and his wife, Asenath, Sufi poetry about Joseph and Zuleikha (Potiphar's wife), a trilogy by the 20th century German novelist Thomas Mann, a musical by Andrew Lloyd Weber, and many expressions in Western visual art. The course will explore these various expressions, looking to them for the ways in which Joseph has captured the imaginations of peoples and cultures across time and space. The course will be organized as a collaborative seminar in which the class will read the foundational scriptures together, followed by thematic discussions to which students will contribute insights from their own readings of particular peripheral texts. Students will learn the pleasures of close and intense exegetical reading in approaching the Hebrew Bible and Qur'an, as well as the more expansive pleasures of linking post-scriptural expressions together.

COMP 336  (S) The Banlieue in Literature, Music, and Film  (DPE) (WS)
Cross-listings: RLFR 300  COMP 336  AFR 339
Secondary Cross-listing
The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, "urban culture"—as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do "banlieue films" and "banlieue lit" tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.
Requirements/Evaluation: 3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).
Prerequisites: RLFR 105 and above
Enrollment Limit: 14
Enrollment Preferences: French majors and certificate students , Africana and Comparative literature students
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 300 (D1) COMP 336 (D1) AFR 339 (D2)
Writing Skills Notes: To hone their research and writing skills (and prepare for their conference on the banlieue), students will write three research papers (with thesis statement and subheadings) from which they will receive professor feedback.
Difference, Power, and Equity Notes: This course, Banlieue in Lit, Music, Film fosters difficult but carefully framed conversations about race, class, gender, citizenship, housing segregation, discursive practices, immigration and belonging in contemporary France and how identities and power relationships are expressed in banlieue film, literature and French hip hop music.

COMP 338  (F) The Culture of Carnival
Cross-listings: COMP 338  THEA 335
Secondary Cross-listing

Carnival is a regenerative festival as well as a transgressive one. It is a time for upheavals and recreating for one day, a new world order. Men dress as women, women dress as men, the poor become kings; drink and sex and outrageous behavior is sanctioned. We will look at festivals in such places as New Orleans, Venice, and Rio. Central to this course are the cultural and religious lives of these societies, and how these festivals exist politically in a modern world as theatre and adult play. A variety of sources will be used, such as newspaper accounts, films, photography, personal memoirs and essays on the subject.

Requirements/Evaluation: regular active class participation, one oral presentation including a 5-page essay, one 15-page research final paper and participation in a group project/public parade

COMP 340 (S) Literature and Psychoanalysis

Cross-listings: COMP 340 ENGL 363

Primary Cross-listing

The British psychoanalyst D. W. Winnicott once wrote: "It is a joy to be hidden, and a disaster not to be found." This course will explore the many ways in which writing enacts this paradox, examining in the process several main strands of psychoanalytic thought in relation to literature that precedes, accompanies, and follows it in history. Approximately the first three-fourths of the course will involve close readings of theoretical and literary texts, which will be shared in a seminar format. In the latter portion of the course, students will work with each other and with the instructor on analyzing the processes of reading and writing as they produce original psychoanalytic readings of texts of their choice. All readings in English.

Class Format: discussion

Requirements/Evaluation: active engagement with the material and with each other, plus two 5-7-page papers, one 8-10-page paper, and a symposium presentation

Prerequisites: one previous course in either COMP or ENGL, or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

COMP 341 (F) Cinematic Representations of Work and Migration after the Wall

Cross-listings: WGSS 341 COMP 341

Primary Cross-listing

The increased flow of migrants from East to West and from South to North into the center of Europe and the simultaneous tightening of restrictions against illegal migration have brought to the forefront issues of labour, gender, and precarity, citizenship and cultural belonging. We will analyze
feature films and documentaries that trace the changing face of work and migration, with an emphasis on flows from countries the former east bloc and Africa to Europe. We will discuss negative effects of globalized capitalism, such as the monetization of feeling and personal relations (Harvey), the concept of intensification and the disembodied state (Nealon and Foucault), but also ask what new opportunities might arise, and for which groups. We will study the depiction of manual labour, illegal migration, women as caregivers, Internet marriage, sex work, and the migrant as a raced and othered body. Theory by Dina Iordanova and William Brown, Ewa Mazierska, Sandro Mezzadra and Brett Neilson, Jeffrey Nealon, Lara Águstin, Angela Melitopoulos, Lauren Berlant and Mieke Bal. Films will likely include: Illegal, Working Man's Death, NordSud.com, Lichter (Lights), Code Unknown, The Flower Bridge, Occident, Since Otar Left, Losers and Winners, Whore's Glory, Le Havre and Time Out.

Requirements/Evaluation: active class participation, two short papers, an oral presentation, and a final paper

COMP 342 (S) Elizabeth Bishop in the Americas (DPE)

Cross-listings: ENGL 340 AMST 340 WGSS 340 COMP 342

Secondary Cross-listing

Elizabeth Bishop has emerged as one of the most important poets of the 20th century. She is admired not only for her dazzling mastery of the craft but also her adventurous life as a world traveler. Her more than two decades living in Brazil and translating the culture and literature of that country for a North American audience, for instance, make her life and work a rich focal point for cross-cultural study. At the center of the course will be Bishop's stunning meditations on childhood, memory, travel, lesbian sexuality, gender identity, ecology, and race and class in the U.S. and Brazil. We will look at how Bishop intertwines personal and global historical encounters in order to raise serious ethical questions about our shared history of conquest and sense of place in the Americas from the 16th century to the Cold War period of the twentieth. What is ultimately at stake in our claiming of a "home"? We also read a number of the writers in North and South America who were closely connected to Bishop, from Robert Lowell and Ernest Hemingway in North America, to Pablo Neruda and Clarice Lispector in South America. Ultimately, we study how craft, poetic process, and an ethical eye on the world can open up the study of poetry and poetics in the 21st century.

Class Format: three hours per week, in addition to small group discussion and archival research

Requirements/Evaluation: two short papers of 4-5 pages, one longer critical research paper of 10-12 pages, three to four discussion posts (300-500 words)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English, Comparative Literature, Women's, Gender, and Sexuality Studies, American Studies majors

Difference, Power, and Equity Notes: This course employs critical tools (case studies, translation theory, archival research, poetics, close reading, comparative approaches, postcolonial theory) to help students question and articulate the way that social injustice, such as racial inequality, poverty, and colonial conquest, shapes national and individual identities. Students will learn how to articulate how our aesthetic and cultural products also serve to shape these identities but also can challenge the dominant power structures.

Attributes: AMST Critical and Cultural Theory Electives ENGL Criticism Courses ENGL Literary Histories C GBST Borders, Exiles + Diaspora
COMP 343  (S)  Shakespeare on Page, Stage and Screen: Text to Performance  (WS)

Cross-listings:  THEA 340  ENGL 345  COMP 343

Secondary Cross-listing

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era’s concerns—with matters of gender, sexuality, race, class, or materiality, for instance—against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the text in dramatic performance, such challenges—and opportunities—multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the other extreme, staging the plays with the primary aim of making them "speak to our times” risks revisionary absorption in our own interests. We will focus on six Shakespeare plays, from different genres and periods of his career: Romeo and Juliet, Henry V, Twelfth Night, Hamlet, Antony and Cleopatra, and A Midsummer Night's Dream. Proceeding with each from close reading of the text, we will attend to the demands and opportunities of both interpretation and performance, and assess a range of recent film and stage productions.

Class Format: This course will be remote, with occasional smaller tutorial-style sections. If pandemic conditions change significantly, I will move to in-person and/or hybrid meetings as warranted.

Requirements/Evaluation:  Three papers ranging from 4 to 7 pages; several short reading responses and regular discussion board postings; class participation.

Prerequisites:  A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

Enrollment Limit:  14

Enrollment Preferences:  Theatre and English majors or prospective majors

Expected Class Size:  14

Grading:  no pass/fail option, no fifth course option

Distributions:  (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 340 (D1)  ENGL 345 (D1)  COMP 343 (D1)

Students will receive timely comments from the instructor on their writing skills, with suggestions for improvement, and there will be opportunities for revision of submitted papers.

Attributes:  ENGL Literary Histories A

COMP 344  (F)  Love and Revolution

Cross-listings:  ENGL 347  COMP 344

Secondary Cross-listing

"Love" is here a kind of shorthand for questions of sexuality and gender: why do novels, plays, and films about contemporaneous political revolutions so often get caught up in seemingly superfluous and unrelated disturbances in the field of sexuality and gender relations? In this course we will study such works, which are especially responsive to social currents whose logic they cannot fully articulate. In these texts a state of political revolution almost irresistibly touches off sexual subversiveness as well, inviting the reader or spectator to interpret just what sexual upheaval has to do with political revolution. We will take up this problem in the setting of several historical revolutions and some literary and cinematic works that represent them: for example, the French Revolution (Beaumarchais' The Marriage of Figaro and the Marquis de Sade’s Philosophy in the Bedroom); the Irish Revolution (plays by Synge, O'Casey, and Yeats); the Russian Revolutions of 1905 and 1917 (Bely’s Petersburg, Babel's Red Cavalry); the revolution constituted by Nazism (Hitler's Mein Kampf, the films Triumph of the Will and The Damned); the Prague Spring (Kundera's The Unbearable Lightness of Being); and the Algerian Revolution (Pontecorvo's film The Battle of Algiers). We will confront such questions as why an author might suggest that revolution can only be sustained through incest and libertinism; why passionate nationalist revolutionaries should be scandalized by the idea of oedipal violence and take refuge in myths of female purity; how to interpret revolution and gender relations in the context of disparate cultures. We will examine historical and social texts as well as artistic ones, learning how literature and history might be read together and inversely: that is, learning to
read literature or film as a kind of political event, and to read history literarily, with an eye to its rhetoric and figuration.

Requirements/Evaluation: active participation in class discussions, several short written exercises, two 8-page papers

Prerequisites: a 100-level English course, or a score of 5 on the Advanced Placement examination in English literature or a 6 or 7 on the International Baccalaureate

Enrollment Limit: 25

Enrollment Preferences: English majors, Comparative Literature majors

Expected Class Size: 18

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 345 (F) Wonderland(s): Alice in Translation

Cross-listings: ENGL 365 COMP 345 GBST 345

Primary Cross-listing

"What do you mean by that?" said the Caterpillar, sternly. "Explain yourself!" "I can't explain myself, I'm afraid, Sir," said Alice, "because I'm not myself, you see?" The confusion around personal identity, which Alice is seen to experience as she makes her way through Wonderland, can be examined productively as an allegory of translation. Beyond living through the developmental and socio-cultural transitions of a child, what happens to Alice, a seminal text in children's literature, when it travels down the rabbit hole to a new linguistic wonderland? For starters, the seven-year-old girl becomes Marie in Danish, Arihi in Maori, Ai-chan in Japanese, and Paapachchi in Kannada. Then there are the highly idiosyncratic humor, word play, embedded English nursery rhymes, and iconic illustrations by Tenniel. How do they fare in new linguistic, cultural, and even genre contexts? Lewis Carroll told his publisher in 1866: "Friends here seem to think the book is untranslatable." And yet. Over 200 translations later, including Kazakh, Shona, Papiamento, Braille, and Emoji, Alice continues to delight and confound readers all over the world and to pose myriad challenges as well as opportunities for translators. This course will serve as an introduction to the theory and practice of translation using Carroll's Alice as an anchoring primary text. We will examine key disciplinary issues and concepts, such as equivalence, domestication, foreignization, and autonomy and challenge the old canard that translation leads ineluctably, and exclusively, to loss.

Requirements/Evaluation: active and substantive class participation; discussion leading; weekly translation exercises; 2-3 short writing assignments; final project

Prerequisites: students must have at least three years of college-level second-language instruction or the equivalent (advanced proficiency), or permission of the instructor

Enrollment Limit: 16

COMP 346 (S) Revolutions and Counter-Revolutions: Narratives from the Arab World, Latin America and the Caribbean (DPE)
This course offers a South-South comparative reading of revolutions and counter-revolutions in the second half of the 20th century in the Arab World, Latin America and the Caribbean. Throughout we will read novels and watch films that focus on histories of social movements, post-independence revolutions, indigenous autonomies, dictatorship, and counter-revolutions with the aim to investigate narratives of people power vs. absolute power, insurgency vs. neocolonialism, utopias and dystopias. A comparative and critical reading of these texts will introduce you to the complex histories of national liberation, state terrorism and democratic imagination in two geographies in the Global South that share similar struggles against Euro-American imperialism. These texts will also familiarize you with an alternative, yet foundational, canon of Arabic, Latin American and Caribbean literatures and cinema, particularly from the post-Sixties generation in the Arab world and the post-Boom Latin American generation. Although this course is conceptualized as a South-South comparative reading of revolution and counter-revolution, it does not adhere to strict geographical parallels between the Arab World, Latin America and the Caribbean. It is mapped, however, according to major critical questions and thematic tropes that inform this topic. For example, how do contemporary Iraqi and Chilean writers and filmmakers write an aesthetic of evil in narratives that investigate the legacy of prolonged dictatorship? How do national novels in Mexico and Palestine depict parallel movements of indigenous resistance and anti-capitalist struggles? What motifs of dystopia are illustrated in narratives about post-revolution civil wars in Argentina and Syria? What histories of popular nationalism and socialism are revealed in feminist memoirs from Egypt and Cuba from the 1960s and 1970s?

Requirements/Evaluation: active class participation, two short papers (3-4 pages), two film reviews (1-page), two critical reflections (1-page), a performance, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 346 (D1) COMP 346 (D1)

Difference, Power, and Equity Notes: This course will explore difference, power, and equality through a comparative reading of narratives of dissent and revolt. The novels examines the effects of class, race, ethnicity, gender and sexuality on social and economic inequalities that ultimately have mobilized revolutions in the Arab world, Latin America, and the Caribbean since the 1960s. Reading narratives of socialist revolutions from the Global South, students will hone skills to address global injustices and neoliberalism.

Not offered current academic year

COMP 347 (F) Silence, Loss, and (Non)Memory in Austria 1900-the Present (DPE)

Cross-listings: GERM 331 COMP 347

Secondary Cross-listing

One hundred years after the fall of the Austro-Hungarian Empire at the end of World War I, Austria is a tiny fragment of its former self. Since that signal loss, Austria's identity has been closely tied to its ghostly past, for better or for worse. Think of Austria and glittering Klimt paintings come to mind, or the majestic Alps of The Sound of Music, or perhaps a melody from Mozart or Strauss plays in the ear. And no wonder: tourism is one of the largest industries in Austria; the nation lives on being seen and heard. But a great deal is invisible and inaudible to the tourist in Austria. In this course we will explore the hidden core of Austrian culture from 1900 to the present. We'll begin with the tremendous intellectual ferment surrounding Sigmund Freud's elaboration of the unconscious at the turn of the century, from Hofmannsthal's paralysis of language through Schnitzler's streams of consciousness to Kafka's carefully crafted renderings of inner worlds. Then we will turn to an examination of the phenomenon of loss at the end of World War I: loss of empire, loss of relevance, loss of hierarchical certainty. Stefan Zweig documents this phenomenon timelessly. The second half of the course will focus on the driver of Austrian identity from 1938 on, the so-called Anschluss (annexation) by the Nazis, and the (non)memory of the horrors that ensued. We will probe the idiosyncratic mixture of trauma and guilt that characterizes Austria today through the work of contemporary authors and filmmakers. Psychoanalytic theory, especially recent discussions of the transgenerational transmission of trauma and perpetrator guilt, will provide a conceptual framework for the literary works. Austria will serve as a case study of the psychology of right-wing populism and the resistance against it in the early 21st century; at the end of the course, we will compare the situation there with the United States.

Requirements/Evaluation: Active participation, frequent written responses, two shorter papers and a longer final project

Prerequisites: none

Enrollment Limit: 20
Enrollment Preferences: German or Comparative Literature majors

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GERM 331 (D1) COMP 347 (D1)

Difference, Power, and Equity Notes: The course includes a close and critical examination of the exercise and denial of power, namely complicity in the Holocaust and resistance to acknowledging that complicity. The investigation of Austria’s curious combination of guilt and trauma can be extended to our own context; we will discuss the consequences of not acknowledging the wrongdoings of oneself and one’s own group for the moral and political health of the society.

COMP 351 (S) Friedrich Nietzsche: Philosophizing with a Hammer

Cross-listings: REL 354  COMP 351

Secondary Cross-listing

In one of his last major writings, Twilight of the Idols (Götzen-Dämmerung, 1889), Friedrich Nietzsche described his project as an attempt to sound out various established philosophical truths or intellectual "idols," saying, "they will be touched here with a hammer as with a tuning fork, these are the oldest, most convinced, puffed-up, and fat-headed idols you will ever find...And also the most hollow." To be sure, Nietzsche directed his often combative prose against everything from traditional religion to philosophy itself. Nietzsche is one of the most frequently cited and most frequently misunderstood philosophers of our current era. By reading Nietzsche's writings in context, this course will attempt to liberate Nietzsche from his later reputation. We will think with and sometimes against Nietzsche, focusing on his notions of religion, mythology, power, morality, and enlightenment, and we will pay special attention to his reflections on the limits of reason/knowledge. Along the way, students will get a new sense of Nietzsche's most famous theoretical formulations including "the death of God," the Übermensch, and the split between Dionysian/Apollonian modes of thought.

COMP 352 (S) Mysticism: Vision, Writing, History (WS)
Cross-listings: REL 374 COMP 352 ENGL 374

Secondary Cross-listing
The promise of God's real presence in the world lies at the heart of Christianity as a messianic and scriptural faith. But mystics, who seek out and bear witness to their own experiences of the divine, have often been viewed with suspicion by church and state authorities. At stake in these confrontations between orthodoxy and the individual witness are questions of knowledge and power. To whom does God speak, who speaks for God, and how can anyone, whether mystic or priest, be certain? We will learn how these questions have inflected certain passages in the history of Christian belief and practice: the flourishing culture of mystical writing by medieval women, the efforts of some Protestant sects to distribute authority more horizontally, and early modern philosophers' criticisms of prophecy and fanaticism. But our deepest concerns will be literary and aesthetic. What modes of writing did mystics use to express what was, in fact, inexpressible? What role did visual art play in visionary experience? And how has mysticism influenced the work two of the twentieth century's most significant theorists of language, Ludwig Wittgenstein and Jacques Derrida?

Requirements/Evaluation: biweekly 5-page papers, biweekly 2-page response papers, thoughtful participation in class discussions
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

COMP 354 (F) The Literary Afterlife
Cross-listings: COMP 354 ENGL 319

Secondary Cross-listing
What do writers mean when they say that they will live on after death through their books? In this course, we will explore the long history of thinking about literature as a way to compensate for mortality, and we will compare the literary afterlife to religious and philosophical versions of eternity. Many of the writers on our syllabus were anxious about the compatibility of the pursuit of worldly fame with the desire for Christian salvation. We will study how their sense of a conflict between the two afterlives changed over time: from the recovery of pagan antiquity during the Renaissance, across the theological transformations of the Reformation, to the consequences of print. The course deals with some of literature's greatest ambitions--to cheat death, to make a lasting contribution to human culture--but we will often find ourselves caught in an undertow of skepticism. Is writing any less susceptible to decay than human bodies are? If so, is literary accomplishment worth the risk of one's soul? Authors and texts will include Sappho, Ovid, Lucretius, Ecclesiastes, Augustine, Petrarch, Julian of Norwich, Montaigne, Shakespeare's Hamlet and Richard II, Jonson, Donne, and Milton.
COMP 355 (S) Contemporary Theatre and Performance
Cross-listings: COMP 355 ENGL 349 THEA 345

Secondary Cross-listing
As Gertrude Stein once remarked, “The hardest thing is to know one’s present moment.” What is going on in the world of theatre and performance today? What are the hot topics in our current artistic landscape? Who are the writers, performers, and directors of the past two decades? This seminar will consider both experimental and mainstream drama and performance from the twenty-first century, focusing on topics such as: post-dramatic theatre, devised performance, social practice, participatory and immersive theatre, hyper-naturalism, post-identity performance, and weird theatre. Artists and collectives to be considered may include: Suzan-Lori Parks, Will Eno, Richard Maxwell and the NYC Players, Young Jean Lee, Annie Baker, Lucas Hnath, Branden Jacobs-Jenkins, Quiara Alegría Hudes, Anne Washburn, Taylor Mac, Lynn Nottage, Stephen Adly Guirgis, Miguel Gutierrez, Elevator Repair Service, The Wooster Group, and Nature Theatre of Oklahoma. As a final project, students will work individually or in small groups to create a script or short performance that addresses the question: “What is the most important story to be telling through performance right now?” Students may be required to attend theatre, dance, and other performances at the '62 Center and beyond.

Requirements/Evaluation: written and dramaturgical-based assignments, an oral presentation, a mid-term paper, in-class discussions, and a final paper or performance
Prerequisites: none

COMP 356 (S) The Myth of Venice and its Modern Aftermath
Cross-listings: COMP 356 ENGL 358 GBST 356
Primary Cross-listing
The Republic of Venice existed for over a millennium, during which time its historical image came to be enmeshed with mythical representations, such as the image of the city rising out of the waters of the lagoon, or the personification of the city itself as a Queen of the Adriatic. This course begins in the year 1797, at the end of the Republic, and the emergence of an extensive body of literature centered on Venice and its mythical facets. Readings will include Romantic views of Venice and the 20th century reshaping of the literary myth surrounding the city. A journey into this fascinating tradition will shed light on how the literary and visual representation of Venice, rather than the focus on a nostalgic evocation of the death of the Republic, became a premise of exploration for literary modernity. Toward the end of the course we will leave the lagoon to explore the postmodern recreations of Venice around the world (from Los Angeles and Las Vegas, to Macao, Yongin, and beyond) Readings will include excerpts from Byron’s Childe
Harold's Pilgrimage, John Ruskin's Stones of Venice, as well as full readings of Thomas Mann's Death in Venice, Marinetti's Futurist manifestos, Italo Calvino's Invisible Cities, and more. We will also examine movies, such as Luchino Visconti’s Senso and Death in Venice and Nicholas Roeg's Don't Look Now. This course is offered in English; all texts are provided in translation.

Requirements/Evaluation: mini-papers, one individual presentation, mini-presentations, midterm, participation, final project
Prerequisites: familiarity with modern aesthetics such as romanticism, modernism and postmodernism is desirable

Enrollment Limit: 20
Enrollment Preferences: Comparative Literature majors

Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option

COMP 357 (F) Re/Generations I: Memory Against Forgetting and the Global American Empire (DPE)

Cross-listings: COMP 357 ENGL 300 AMST 300

Secondary Cross-listing

This is a two-part junior seminar in which we take an expansive approach to memoir as a form, genre, and practice, with specific attention given to texts reckoning with the traumas, transgressions, and transformations of what we understand as "America" and its many discontents. As such, the courses are remote and may be taken in sequence or autonomously. In this first part, we focus on authors charting the lives and afterlives of chattel slavery, settler colonialism, genocide, war, and the expansion of the global American empire, from the 19th through 20th centuries. How do these authors remediate the critical (il)legibility of personhood and place, community and nation? What myths must be dispelled and/or rewritten? What structural elements are deployed to tackle the obstacles of hegemonic power and historical amnesia, and how do these authors re/generate "what remains of lost histories and histories of loss" (Eng and Kazanjian)? Texts to be considered may include: Narrative of the Life of Frederick Douglass, an American Slave; Hawaii's Story by Hawaii's Queen (Lili'oukalani); Notes of a Native Son (James Baldwin); Borderlands/La Frontera (Gloria Anzaldúa); Dictee (Theresa Hak Kyung Cha).

Class Format: Remote

Requirements/Evaluation: weekly reading responses, midterm and final papers

Prerequisites: American Studies 101 and/or 301, previous coursework in race, ethnicity, and diaspora, junior or senior standing, or permission of instructor

Enrollment Limit: 12
Enrollment Preferences: American Studies majors

Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 357 (D1) ENGL 300 (D2) AMST 300 (D2)

Difference, Power, and Equity Notes: Analyzes the dynamics of power and privilege in the U.S. from a national and transnational context, examines the perspectives of socially marginalized groups, and fosters an understanding of the beliefs, experiences, and cultural productions of these groups.

Attributes: AMST Arts in Context Electives

Not offered current academic year

COMP 359 (S) Foucault: Confessions of the Flesh

Cross-listings: REL 355 COMP 359 STS 355

Secondary Cross-listing
The French philosopher, historian, and social critic, Michel Foucault (1926-1984) has had a massive influence across a range of disciplines. Indeed, in 2019, Google Scholar ranked Foucault as the number one most highly cited scholar in the Humanities and Social Sciences. While many of his contemporaries have faded in importance, Foucault's writings on power, madness, the history of sexuality, and the structures of domination and governmentality have become central to the theoretical canon of a range of academic disciplines. To be a scholar in the humanities today is often to be in Foucault's shadow. But despite the many references to his work, Foucault is frequently misunderstood and subsequent scholars often attribute to him positions he would have repudiated. Now almost forty years after his death, his work is also long overdue for a reappraisal as we come to understand Foucault better as a person and especially as the final, and posthumous, volume of his History of Sexuality, *Confessions of the Flesh*, has only just appeared and been translated into English. In this course we will mainly read Foucault supplemented with occasional contextual readings. Although we will touch on his earlier writings, this seminar will emphasize his middle-to-late period (beginning with *The Archaeology of Knowledge*) and including selections from his later monographs, lectures, interviews, and short writings. It will culminate in the unfinished intellectual and political project that occupied Foucault in his last days. We will think with and often against Foucault, focusing primarily on questions of power, knowledge, truth, and addressing his later emancipatory gesture toward "technologies of the self." We will also appraise the methodologies that Foucault described as "archaeology" and "genealogy." We will historicize Foucault in his life and cultural context and ask how much of his arguments still apply today. What blind-spots did he have? Which of his ideas are worth consolidating and which need repudiating? How might we go beyond Foucault?

**COMP 362 (F) Stories We Tell**
Cross-listings: COMP 362  SOC 362

Secondary Cross-listing

From The Moth to StoryCorps to Williams College's own Storytime, stories are ubiquitous in contemporary society. Indeed, sociologists have argued that social life is itself "storied"—that we locate ourselves within familiar narrative structures, using them to "construct" identities and "tell" our lives. Stories, in this view, are not only the stuff of literature, but also the very fabric of social life: the foundation for individual and collective identities. This course grapples with the role of stories and storytelling in modern social life. What role do stories play in constituting personal identity? What cultural templates structure the stories we tell? Why are memoirs so popular, and how can we explain the more recent resurgence of interest in oral forms of storytelling? What role does storytelling play in politics and social movements? Specific topics will include confessional culture, podcasts, memoir, politics, and social change. Along the way, we will pay explicit attention to medium, and consider how sociologists might learn from journalists, documentarians, and memoirists to convey stories from their own research.

Requirements/Evaluation: thoughtful and consistent participation in class discussion; four response papers (2 pages each); a narrative analysis essay (5 pages); and a major final project (either a 10-page analytical paper or an equivalent writing project presented as a podcast)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

COMP 363 (F) Where are all the Jews?  (DPE) (WS)

Cross-listings: REL 268  ARAB 363  COMP 363  JWST 268

Secondary Cross-listing

Until four decades ago, many Maghrebi and Middle Eastern cities and villages teemed with Jewish populations. However, the creation of the Alliance Israelite Universelle's schools (1830s), the establishment of the State of Israel in 1948, the decolonization process in the Maghreb and the Middle East, and the Arab defeat in the Six-Day War accelerated the departure of Arab and Berber Jews from their homelands to other destinations, including France, Israel, Canada, the United States, and different Latin American countries. Arab and Berber Jews' departure from their ancestral lands left a socioeconomic and cultural void that Maghrebi and Middle Eastern cultural production has finally started to address, albeit shyly. The course will help students understand the depth of Jewish life in the Maghreb and the Middle East, and interrogate the local and global factors that led to their disappearance from both social and cultural memories for a long time. Reading fiction, autobiographies, ethnographies, historiographical works, and anthropological texts alongside documentaries films, the students will understand how literature and film have become a locus in which amnesia about Arab/Berber Jews is actively contested by recreating a bygone world. Resisting both conflict and nostalgia as the primary determinants of Jewish-Muslim relations, the course will help students think about multiple ways in which Jews and Muslims formed communities of citizens despite their differences and disagreements.

Class Format: The course will be offered both in-person and remotely. Students enrolled remotely are required to watch the recorded videos of the in-person sessions in order to stay abreast of the discussions that take place in the classroom and enrich their engagement with the materials assigned in the course.

Requirements/Evaluation: 400-word weekly, focused responses on Glow; a book review (600 words); two five-page papers as mid-terms; one ten-page final paper; one presentation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: students interested in critical and comparative literary, religious or historical studies.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

REL 268 (D2) ARAB 363 (D1) COMP 363 (D1) JWST 268 (D2)

Writing Skills Notes: Students are required to present an outline of their papers before submitting a draft paper. The professor will give feedback on each written work to improve students' writing skills. Students are required to incorporate the feedback to improve their drafts before they become final. Students will receive detailed and consistent feedback about their writing in Arabic language. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Students in this course will understand the historical process that lead to the disappearance of Arab/Berber Jews. Students also will work out alternative ways to grasp Jewish-Muslim relations beyond nostalgia and conflict. Finally, students enrolled in the course will grapple with and try to disentangle the complexity of Jewish-Muslim citizenship in both pre-colonial and postcolonial contexts.

Attributes: JWST Core Electives

Not offered current academic year

COMP 364 (S) Aestheticism & Decadence

Cross-listings: COMP 364 ENGL 344

Secondary Cross-listing

"Fin de Siècle": Despair over a seemingly perilous decline in moral standards, scandalous forms of art and writing, anxieties brought on by Britain's uneasy relation to its colonies, and the emergence of new dissident sexual and social identities, led some to fear (and others to celebrate) that the ways of Victorian Britain were not long for this world at end of the 19th century. This course will consider two loosely affiliated artistic movements, aestheticism and decadence, as responses both scandalized and scandalizing to this exhilarating period. The terms themselves are elusive; so, much of our work will entail tracing out the multiple and often contradictory uses of them. Do they designate a distinct cultural and historical moment, a loose set of writers and artists, a set of thematic preoccupations? Or, might we better understand aestheticism and decadence as a style of writing, or even of the self—one we are as likely to find in 21st-century New York as 19th-century London? We'll read writers such as Oscar Wilde, who reveled in amoral manifestos like "art for art's sake" by elevating artifice and shallowness to first principles of life; as well as Sherlock Holmes, who pursued something like "detection for detection's sake". Our reading will range across novels, plays, poetry, essays, and works that seem to exceed or fall short of those genres, all in the period that gave us both science fiction and the detective story. We'll be especially interested in attempts to rethink traditional social bonds in works that value solitude over sociality, the transient encounter over the enduring relationship, new forms of affective communities, and to think about how literary form might relate to those efforts. Along with fiction, essays, and drama, we'll explore their interrelation with the broad and compelling range of visual art produced in this period. Likely authors include: Huysmans, Wilde, H.G. Wells, Darwin, Conan Doyle, RL Stevenson, Kipling, Edith Wharton.

Requirements/Evaluation: two papers (one shorter, one longer), a series of shorter response papers, regular and substantial contributions to class discussions

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 25

Enrollment Preferences: English majors

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Cross-listings: ENGL 306 THEA 365 COMP 365 ENGL 365

Secondary Cross-listing

Samuel Beckett, Harold Pinter and Tom Stoppard have been amongst the most influential playwrights of the anglophone theatre over much of the last six decades. This course will explore their mutual concern with the capacities and dysfunctions of language, their questioning of Art's value and the scope for originality in the post-nuclear and postmodern era, and, above all, their collective focus on the extent to which selfhood may be realized in
and through performance. Besides reading major plays, we will also give some consideration to the dramatic work crafted by these writers for radio, television and film, and to the political and social commitments animating and counterpointing their literary careers. Readings may include: *Endgame*, *The Caretaker*, *Rosenkranz and Guildenstern are Dead*, *Krapp's Last Tape*, *The Homecoming*, *No Man's Land*, *Betrayal*, *Waiting for Godot*, *Dogg's Hamlet*, *The Invention of Love*, *Arcadia*, *Rock 'n' Roll*, *Not I*, *Rockaby*, *A Kind of Alaska*, *Catastrophe*, *The Real Thing*, *Indian Ink*, *Artist Descending a Staircase* and *One for the Road*. Throughout, we will give consideration to these works as both literary and theatrical texts.

**Requirements/Evaluation:** two long papers, four 1- to 2-page shorter responses, class participation

**COMP 366 (F) Joyce, Woolf, and Proust**

**Cross-listings:** ENGL 325 COMP 366

**Secondary Cross-listing**

This seminar focuses on novels by three of the most important writers of modernist fiction: Marcel Proust (*Swann's Way*, the first novel of his sequence *In Search of Lost Time*); Virginia Woolf (*To the Lighthouse*); and James Joyce (*Ulysses*, read in slightly abridged form). By juxtaposing these path breaking texts, we will examine the distinctive yet related ways in which they explore crucial preoccupations of modernism: the threat and the exhilaration of cultural loss in face of social and political transformations in the early twentieth century; the turn to memory, to art, and to objects as stays against de-stabilized subjectivity and as means of re-thinking value; the emergence of new forms of political and sexual identity; the heightening of consciousness to the verge of transport or disintegration; and the roots and perversities of desire. Students who have studied *Ulysses* in a previous course are welcome.

**Requirements/Evaluation:** regular class participation, two 8- to 10-page papers

**Prerequisites:** a 100-level ENGL course, a score of 5 on the AP English Lit exam, or a score of 6 or 7 on the Higher Level IB English exam; students who have taken ENGL 360 are welcome

**COMP 367 (F) The Diasporic Impulse in African American Art**

**Cross-listings:** COMP 367 AFR 368

**Secondary Cross-listing**

Since the mid-20th century, growing numbers of African American artists have explored historical, symbolic, and ritual meanings shared by Blacks in the USA and people of African descent in other parts of the diaspora. Using specific visual, musical, literary, and kinetic themes, Black creatives--across genres--develop work that addresses explicit and implicit points of diasporic connection around issues of identity,
indigenous/ancestral wisdom, cultural and political critique, and alternative religious orientations. Looking especially at the work of playwright August Wilson, painters John Biggers and Daniel Minter, dancer Katherine Dunham, and sculptor Elizabeth Catlett Mora, this course examines the symbolic and ritual vocabularies of African American art in diasporic perspective.

Requirements/Evaluation: class participation, two to three short papers (5-7 pages), and a final project

Prerequisites: none

COMP 368  (F)  Arab Women Writers: Remapping Urban Narratives

Cross-listings: COMP 368  ARAB 368  WGSS 368

Secondary Cross-listing

In "The Lover of Blue Writing above the Sea," (1995) a poem written to console a lover after the death of his beloved, Syrian poet, Ghada al-Samman, pens: "If you are sad and burn the edge of my book/I shall come to you/like the genie in my grandmother’s Damascene stories..." As these lines imply, the fantastic grandmother's Damascene stories have the power to equally amend broken hearts and restore memories of loss. In this course, we will adopt "the grandmother's Damascene stories" as a conceptual metaphor that guides our line inquiry into the intersection of Arab women's narrative and the city. We will read novels and short stories by Arab women writers about cities and capitals in the Arab world and the diaspora. The goal of this course is not only to familiarize students with prominent Arab women novelists, such as Hoda Barakat, Radwa Ashur, Liana Badr, Raja'a Alem, Alia Mamdouh, and Ahlam Mosteghanemi, among others, but also to introduce them to the literary and visual cartography of Beirut, Granada (via Cairo), Ramallah, Mecca, Baghdad, and Constantine, respectively. We will also read short stories about other cities in the world, such as New York, Paris, London, Buenos Aires and Tokyo among other world metropolis. Questions we will address include: How does the city appear as a protagonist? How do Arab women novelists represent nationhood, modernity, memory, love, war, sexuality and religion, among other themes, in their construction of urban narratives? How do these narratives map an Arab feminist metropolis? How do Arab women writers represent cities beyond the Arab world? To answer these questions, we will also look at Arab women's blogs and watch films that focus on the city as a site for spatial articulation of national histories, popular revolutions, and feminist public spheres.

Requirements/Evaluation: active class participation, several short response papers, three short papers (3-5 pages), a final performance project, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors and Comparative Literature majors

COMP 369  (S)  Indigenous Narratives: From the Fourth World to the Global South  (DPE) (WS)

Cross-listings: HIST 306  GBST 369  COMP 369  ARAB 369

Primary Cross-listing
In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Tashelhiyt Berber tales in Morocco, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Class Format: Course will be offered remotely.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

COMP 377 (F) Legacies of the Gothic Novel: Feminism and Horror in the Transatlantic World (DPE)

Cross-listings: WGSS 377 ENGL 377 COMP 377

Secondary Cross-listing

Much maligned as a popular or "low" genre at its inception in the late eighteenth century, the gothic form has persisted in its popularity as well as crossed into "higher" forms of modernism, postmodernism, and postcolonialism. In this course, we will read key texts in the gothic mode-Frankenstein, Jane Eyre, and Wuthering Heights among others-and follow the ways in which they are revisited and rewritten by contemporary American and Caribbean writers, filmmakers, and artists. Particularly, we will examine how these texts subvert the realist leanings of Anglo-American narrative fiction and its assumptions of enlightenment rationalism by way of two main processes: narrative hypertrophy and feminist revisions of horror. The class will take up select contemporary criticism on the gothic and horror in literature, film, and art. This course will be of interest to students curious about feminism, postcolonialism, cultural criticism, horror, and comparative literature.

Requirements/Evaluation: presentation, paper plus revision, final research project

Prerequisites: one literature or related course

Enrollment Limit: 25

Enrollment Preferences: any student with relevant coursework in ENGL, COMP, or WGSS
Difference, Power, and Equity Notes: The course will follow the path of radical thinking and generic experimentation by feminist writers of the nineteenth century as they transform in an anti colonial, anti racist, and anti misogynist contexts. We will study power, hegemony, and resistance along axes of gender, race, state form, and literary craft.

COMP 380 (S) Literary and Critical Theory in the Twentieth Century

Cross-listings: COMP 380 ENGL 370

Primary Cross-listing

From the rise of modern literary criticism around 1900 to the explosion of high theory in the 1980s and 1990s, the twentieth century witnessed an international flowering of new ideas about how to interpret art and literature: Russian Formalism, American New Criticism, French Structuralism and Deconstruction, and a welter of post- prefixed concepts that claim to transcend national boundaries: the poststructural, the postmodern, the postcolonial, the posthuman. What are the ideas associated with these different movements, and how are they connected? Does each represent a radical break with previous ways of reading, or do they actually build on one another and evolve in a systematic way? And given the entanglement between criticism and teaching, which are the theories that seem to define the work we do (and want to do) here at Williams? This course will focus on a very careful reading of essays representing major 20th-century critical schools (and a couple of their earlier precursors), by critics like Plato, Schiller, Shklovsky, Richards, Barthes, Derrida, de Man, Beauvoir, Butler, and Said. Written assignments will encourage you to parse these theories carefully and apply them to the literary texts that most interest you: prose or poetry from any time and place; film, visual art, or architecture; music, new media, or digital media, etc.

Class Format: This class will have a hybrid format: on-campus students will meet in a classroom during the scheduled class slot (observing campus distancing protocols), while off-campus students participate simultaneously via Zoom. Off-campus students must be able to Zoom in during the scheduled class times.

Requirements/Evaluation: attendance and active participation, several short response assignments, final project consisting of a scripted oral presentation and a 15-page final paper

Prerequisites: at least one previous literature or theory course

Enrollment Limit: 12

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

In this course, we will examine transnational Asian/American film and video through the frameworks of film and visual studies, cultural studies, and critical media literacy. We will traverse communal, national, and transnational lines with a heterogeneity of forms and genres, including narrative, documentary, experimental, short film, music video, public access television, and YouTube. We will attend to multiple modes of critical analysis: (1) the conditions of power and visibility being mediated by sites of representation, (2) the networks and platforms helping to make these sites possible, and
We will also interrogate: How are Asian, American, and/or Asian American representation being produced, performed, embodied, circulated, and consumed? What are the social, political, economic, and cultural forces at play in a given historical context? What artistic and political strategies are at play in the complex nexus of producers, directors, actors, distributors, and viewers? And what are the possibilities, limits, and stakes for different strategies of invention and intervention, activism and resistance? We will consider films from the United States as well as the inter-Asian context. Students will produce a creative media project at the end of the semester.

Requirements/Evaluation: attendance and participation; weekly online journal entries (1-2 pages); midterm paper (5-7 pages); final creative project

COMP 386 (S) Fiction of Beckett and Sebald

Cross-listings: ENGL 386 COMP 386

Secondary Cross-listing

This seminar explores the work of two of the most original and influential fiction-writers of the last half of the 20th century, Samuel Beckett and W. G. Sebald. The work of both writers was profoundly influenced by World War II and the Holocaust, and their fiction centers on issues of loss and memory, of decay (of bodies, things, cultures, traditions), of reason and imagination as fragile means of enduring privation. Yet material so sobering and often bleak has rarely been rendered so absorbingly, or with such unorthodox forms of beauty. Their methods for reinventing fiction differ. Beckett increasingly strips his fiction of details of time, place, and even event, and ultimately struggles to free his speaking voice from the burdens of narration itself, the better to focus attention on the simple but logically rigorous, brilliant, often comic effects of his spare language. Sebald, who sometimes called his novels "documentary fiction," fashions a blend of recollection, fiction, geo-cultural history, and dream-like meditation, focused on the decline of European civilizations; his more chromatic prose, marked by obliquity, melancholy, and dry wit, is filled with curious facts and haunting anecdotes. We will read some of Beckett’s short fiction and his great trilogy, *Molloy*, *Malone Dies*, and *The Unnamable*; Sebald’s major works of fiction, *Vertigo*, *The Emigrants*, *The Rings of Saturn*, and *Austerlitz*; and a few short stories and novellas by precursors or successors such as Kafka, Borges, and Thomas Bernhard.

Requirements/Evaluation: regular class participation, two 8- to 10-page papers

COMP 387 (S) Ibsen, Chekhov and the emergence of Modern drama

Cross-listings: COMP 387 THEA 387 ENGL 309

Secondary Cross-listing
This course will center on the plays of Henrik Ibsen and Anton Chekhov, key figures in the development of Modern European drama. Prospective readings will include Ibsen's *A Doll's House* (1879), *The Wild Duck* (1884), *Rosmersholm* (1886) and *Hedda Gabler* (1890); Chekhov's *The Seagull* (1896), *Uncle Vanya* (1900), *Three Sisters* (1901) and *The Cherry Orchard* (1904); along with August Strindberg's *Creditors* (1889) and Oscar Wilde's *An Ideal Husband* (1894). We will chart the development of dramatic realism and naturalism, and situate these plays in the context of the late-nineteenth century "ache of modernism", with supplemental readings that highlight changing conceptions of identity and subjectivity, emerging strains and contestations over gender and sexuality, and the wider sociological, political and technological changes of the period. The course will also be centrally concerned with these playwrights' innovative explorations of the investigations of theatre's capacities and limitations in representing social reality and the 'performance' of selfhood.

**Requirements/Evaluation:** Five papers, alternating weeks with your tutorial partner; critical responses to your partner's essays; evaluation of participation.

What is an historical event, and how do such events differ from other occurrences? How are historical changes reflected in or produced by literature, art and other cultural forms? Who or what makes history and what is the nature of historical agency? Is history always "written by the victors," as one says, or are there ways of challenging dominant accounts of the past? This seminar will attempt to answer these questions through readings of works of philosophy, poetry, history, prose fiction, film, photography, and cultural criticism that reflect upon the nature of history. Though answers will be multiple, course reading and discussion will in general strive to determine the consequences of understanding history as a site in which reading and writing, experience and narration, and action and interpretation interpenetrate. May include works by Kant, Burke, Hegel, Charlotte Smith, Marx & Engels, Woolf, Kafka, Arendt, Benjamin, Mahmood Darwish, Thomas Demand, and Eyal Sivan.

**Requirements/Evaluation:** two papers, one 6 and one 10-12 pages in length, and general participation

COMP 401  (F) Senior Seminar: Rethinking the Public: the Arts Take on Neoliberalism  (DPE)
Cross-listings: WGSS 401  COMP 401  GERM 401

Primary Cross-listing
Western neoliberalism is a predatory excrescence of late capitalism that overvalues competition, transferring the laws of the market to human relationships. It deliberately creates instability not only in the economic sphere but, more generally, in the social collective by encouraging dangerous risk-taking, fomenting crises and cementing systemic inequity, while suggesting to those under its sway that they are corporate "entrepreneurs of self." This model of self-management also extends into the sphere of intimate relationships. Of course, because predatory neoliberalism heavily favors a white investor model and is premised on white norms, the racialized body is considered a priori subaltern and subservient. Humanistic and artistic approaches (while not per se immune or outside of neoliberal constraints) effectively polemicize against neoliberalism, and suggest practices that resist its technocratic mindset. Looking at literature, cinema, and critical theory from a range of regions and disciplines, we will focus on Europe and the United States. Moreover, we will ask how forms of neoliberalism affect different regions of the world: Southeast Asia, Russia? Where and how can solidarity be reimagined beyond identity politics? Where is the boundary between animal and human in the neoliberal collective?

Class Format: three hours per week
Requirements/Evaluation: three 3-page papers, a short oral presentation, a 15-page final paper
Prerequisites: 300-level course

**COMP 406** (S) **The Historical Novel**

**Cross-listings:** ENGL 402 COMP 406

**Secondary Cross-listing**

Setting a novel in a prior time period risks estranging a reader, yet the genre has roused deep-rooted interest, intense critical debate, and aesthetic daring. In this course, we will explore the complex and layered uses of a historical past in literary works of the seventeenth through twenty-first centuries, by way of novels by Madame de Lafayette, Scott, M. Shelley, Dickens, Eliot, Ford, Woolf, Morrison, Sebald, and Roy. Exploring the uses of gothic and sensational effects, dystopian and utopian possibilities, and fractured time, we will consider the aesthetic and political experiments historical novels have spawned. We will do so in context of the sustained critical engagement with the genre by such thinkers as Lukacs, Benjamin, Adorno, Jameson, McKeon and Moretti.

**Requirements/Evaluation:** class discussion and a 20-page final paper

ENGL 402 (D1) COMP 406 (D1)

**Attributes:** ENGL Criticism Courses ENGL Literary Histories B ENGL Literary Histories C
Can we imagine possibilities of justice not dictated by already determined norms? What would a community founded on such a conception of justice look like? Can we imagine a version of community not founded on exclusion? What would the members of such a community look like—what version of subjectivity would that community imply? And might literature in particular have something to say about the possibilities for such versions of community, selfhood, and justice? This course will look at recent, theoretically-oriented writing on justice and community, with an emphasis on the work of Hannah Arendt, Jacques Derrida, Jean-Luc Nancy and Giorgio Agamben. We will place this challenging and exciting philosophical work in relation to fiction from Euripides to Kafka, Farah and Kushner, films (Almodovar, Farhadi), photography (Silva, Badlands and worldly examples of competing claims to justice. The course pursues the aims of the DPE initiative by engaging works in which cultural difference and power differentials reveal the limits of universalizing accounts of law and justice, works such as Euripides’ Bacchae, Nuruddin Farah’s Maps, Louise Erdrich’s poetry, and Farhadi’s A Separation. But the course will equally suggest that such contingency is inherent in the concept of justice as such, insofar as the problem of justice is bound up with forms of constituting indebtedness that define humans as communal beings. In that sense, contingency, and differentials of power mark justice even in its most familiar instances-intimately and close to home, as it were.

COMP 408 (F) Modernism in Brazil (DPE)

Cross-listings: ARTH 408 COMP 408

Secondary Cross-listing

"Modernism" in art: when we think about it, we may not readily think of Brazil. But Brazil was in fact a vibrant battleground of ideas around what it was to be innovative, modern, and avant-garde. Between 1920 and 1945, artists, poets, and critics in the metropolises of São Paulo and Rio de Janeiro actively debated on the creation, and potential, of a uniquely Brazilian modernist aesthetic that would stand on par with the European avant-gardes. But what did "Brazilianess" mean to these intellectuals? What role did gender and race relations--indigeneity in particular--play in the construction of this aesthetic? How did the necessities and demands of the national context shape these modernist practices? This seminar will take a deep dive in this fascinatingly contradictory moment in Brazil, a chapter that would become a fundamental reference to Brazilian artists in the 1960s and even to this day. In addition to detailed analyses of artworks, we will read manifestos, novels, and criticism from this period, and the most up to date secondary interpretive texts.

Requirements/Evaluation: participation, short presentations, four 2-page writing assignments, final 12-page research paper
**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** none

**Expected Class Size:** 8

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 408 (D1) COMP 408 (D1)

**Difference, Power, and Equity Notes:** This course fulfills DPE requirements through textual, visual, and historical analyses that explore the cultural biases and geopolitical forces that have restricted the exposure of Brazilian modernism in Western art history. The course also centers on contextualizing the artistic practices of Brazilian modernism and analyzing them in relation to race, gender, and class dynamics, and to issues of colonialism, nationalism, and revolutionary politics.

Not offered current academic year

**COMP 414 (S) Senior Seminar: Coming of Age: French and Francophone Childhood and Adolescent Film** (DPE)

**Cross-listings:** RLFR 414 COMP 414

**Secondary Cross-listing**

Like the bildungsroman in literature, the coming of age story is a genre in itself in cinema. In this senior seminar, we will watch, discuss, and analyze French and Francophone childhood and adolescent narrative films whose protagonists bring into focus larger issues such as racial discrimination, class, gender, sexual identity, social mobility, repression from the state, regime change, delinquency, justice, bereavement, and human trafficking. We will watch seminal films by Euzhan Palcy, the Dardennes brothers, Céline Sciamma, Férid Boughédir, François Truffaut, Michel Ocelot, Claude Pinoteau, Abdellatif Kéchiche, Laurent Cantet, and Raoul Peck.

**Requirements/Evaluation:** three, three-page response papers; thesis statement, methodology, and works cited list on one page; one script of a video essay

**Prerequisites:** 200-level RLFR courses

**Enrollment Limit:** 19

**Enrollment Preferences:** French and Comparative Literature majors and certificate students

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 414 (D1) COMP 414 (D1)

**Difference, Power, and Equity Notes:** This course qualifies for a Difference, Power, and Equity requirement because the films we focus on racial inequality, class, gender, sexual identity, post slavery society in the Caribbean, lack of social mobility, repression from the state, regime change, delinquency, justice, bereavement, and human trafficking.

Not offered current academic year

**COMP 416 (S) Postcolonial Theory and the World Literature Debates** (DPE)

**Cross-listings:** ENGL 416 COMP 416

**Secondary Cross-listing**

When publishers, scholars, reviewers, and critics talk about the massive, beautiful, prismatic literary and cultural traditions outside of Western culture, they sometimes refer to them by their geographical provenance--African literature, say, or Sumerian art--or perhaps by their historical moment--Ottoman architecture, or postcolonial Indonesian poetry--but more and more, the catch-all category of World Literature has begun to hold sway in influential places, and is changing the shape of how we think, learn, and write about non-Western aesthetics, as well as how we participate in our "own" cultures in all their complexity. If we can imagine a kind of literature that truly goes under the headings of "World Literature," or "Global Literature," what can we possibly exclude? Doesn't all literature belong to the world? What might we gain by using this term, and what might we lose? What histories are attached to the various names and classifications we assign to culture and how does cultural "othering" uphold or resist forms of
economic, political, and military dominance? In this advanced seminar, we will work carefully through the history and influential writings of postcolonialism as a particular challenge to hegemonic forms of representation, cultural production, and naming, starting with a close consideration of the writings of the movement's founders and key commentators, including Aimé Césaire, Frantz Fanon, Edward Said, Gayatri Spivak, Robert J.C. Young, Gauri Viswanathan, Partha Chatterjee, and Homi Bhabha, and consider their influence on later postcolonial writers and critics around the world. In the second half of the semester, we will turn our attention to the historical underpinnings and current firestorm of debates about World Literature, beginning with Goethe, Marx, Adorno, Frederic Jameson, Franco Moretti, and Pascale Casanova and shifting finally to critics of the ideas of World and Global Literature.

Requirements/Evaluation: two to three papers

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: students who have done relevant coursework in Division I or II

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Unit Notes: Theory course

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 416 (D1) COMP 416 (D1)

Difference, Power, and Equity Notes: This course will consider literary canonicity and postcolonial theory's challenges through an examination of genre, criticism, institutional power, material conditions of publication, and postcolonial culture's relationship to the legacies of colonialism. We will interrogate power and the writing of history, material and cultural resource extraction, and narrative theory against developmental discourse.

Not offered current academic year

COMP 421 (F) Fanaticism

Cross-listings: COMP 421 ENGL 421

Secondary Cross-listing

Eighteenth and nineteenth-century writers of literature and political philosophy repudiate fanaticism, whether as a religious, political or amorous posture. But what is fanaticism, and why should it be considered such a threat, particularly during a period that embraced an enlightened secular rationalism? In this course, we will examine these questions by considering literary texts that dramatize fanaticism in light of accounts by philosophers and historians. Readings will include novels by M. Shelley, Hogg, Dickens, Eliot, Conrad, among others, and political philosophy and historical writings by Voltaire, Kant, Diderot, Burke, Hume, Carlyle, Adorno, and a range of recent critics. We will also watch films by Riefenstahl, Hitchcock and Pontecorvo, and look at paintings, drawings and sculpture by Fragonard, Goya, and Shibonare. Since fanaticism has recently had considerable political currency, we will also examine contemporary accounts that reanimate the debates and concerns of the course.

Requirements/Evaluation: two shorter or one long paper(s), approximately 20 pages

Prerequisites: a 300-level English course or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: junior and senior English majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: cost of books

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 421 (D1) ENGL 421 (D1)

Attributes: ENGL Criticism Courses ENGL Literary Histories B
COMP 422 (S) Art, Architecture, and Poetry: Islamic Devotional Culture in South Asia

Cross-listings: COMP 422 ARTH 422 REL 422

Secondary Cross-listing

How have scholars interpreted and classified terms such as "Islamic art" and "Muslim culture," and how have these classifications affected the interpretation of the arts in South Asia? There are different points of view regarding what constitutes as "Islamic" art and culture. Is an imperial wine cup with "God is Great" inscribed on it an "Islamic" object? How is an erotic epic narrating the romance of a Hindu prince understood as embodying the principles of Muslim devotion? This interdisciplinary seminar, focusing on South Asian Muslim devotional culture as articulated through the material culture, the arts of the book, architecture, and poetry, will navigate these questions from two perspectives. The first is to understand how Muslim devotional cultural expression in South Asia circumscribes and interprets itself. The second viewpoint is that of scholarship and the various interpretive voices that have framed the field over the last century.

Requirements/Evaluation: class participation, 2-page response papers on class readings, leading class discussion, final 15-20-page research paper

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Art Majors, and then to students of any major interested in art and culture of Islam

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 422 (D1) ARTH 422 (D1) REL 422 (D2)

Not offered current academic year

COMP 456 (F) Topics in Critical Theory: Hegel and the Dialectic

Cross-listings: COMP 456 ENGL 456

Secondary Cross-listing

This course is for students of any major who wish to continue studying critical, cultural, or literary theory. Students will give close attention to a single theorist or philosophical school or perhaps to a single question as taken up by several theorists. Prior coursework in critical theory or continental philosophy, no matter the department, is strongly recommended. The subject of this semester's seminar is the dialectic. "Dialectical" is one of those collegiate words, the kind of word that some people use a lot without knowing for sure what it means. That said, there are a couple of different ways of making sense of dialectics. The word's nearest synonym is "dialogue." Broadly, then, "dialectics" is a name for any philosophy that incorporates into itself the back-and-forth of conversation. Modern dialectics, meanwhile, sets out from two ideas: first, that it is impossible to think about anything in isolation, that we understand all things via relation and contradistinction, that we couldn't call any person "female" if we weren't also compelled to call some people "male"; and second, that all such conceptual pairs (male/female, black/white, east/west) are less settled than they look. You can't not divide the world into oppositions, and all such oppositions will collapse. This is an idea that, systematically pursued, can change the way we think about language, ethics, politics, literature, and art. We will read key texts from major dialectical thinkers: Hegel, Marx, Adorno, but mostly Hegel.

Requirements/Evaluation: seminar paper of 25 pages; informal weekly writing; class participation

Prerequisites: prior coursework in critical theory or continental philosophy is recommended but not necessary, no prior coursework in English is required

Enrollment Limit: 15

Enrollment Preferences: seniors with background in critical theory

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 456 (D1) ENGL 456 (D1)

Attributes: ENGL Criticism Courses PHIL Related Courses

Not offered current academic year
Moments of political turmoil expose the highly charged ways in which a culture structures itself around a narrative past. In this course, we will read literary and cinematic works that invoke such moments of upheaval—the French and Russian Revolutions as well as those of 1848, the rise of fascism and the Great Depression of the 1930s, the battle for Algerian independence, the AIDS crisis, among others—in order to explore those fraught narratives of the past. We will consider such issues as the rise of the historical novel, the aesthetics of fascism and of democracy under pressure, fantasies of decolonization, representational clashes of culture, forms of affective and sexual disorientation, and the uses of melancholy in representing historical loss. Readings will be drawn from literary works by Gay, Edgeworth, Scott, Shelley, Balzac, Eliot, Conrad, Kafka, Babel, Mann, Borges, Stoppard, Kushner, Morrison, Pamuk, Bolano, and Philip, and theoretical essays by Kant, Burke, Carlyle, Marx, Benjamin, Adorno, Foucault, de Certeau, Jameson, Lefort and Ahmed. Films will include such works as Eisenstein’s October, Reifenstahl’s The Blue Light, Wellman’s Nothing Sacred and Pontecorvo’s The Battle of Algiers.

Class Format: discussion

Requirements/Evaluation: two shorter or one longer paper/s, approximately 20 pages

Prerequisites: a 300-level English course or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: junior and senior English majors

COMP 490 (S) Senior Portfolio

This is a required, non-credit, pass/fail course for Comparative Literature majors in their final two semesters at the college who are not writing a senior thesis.

Class Format: There are no regular meetings for this class. Please contact the chair of the Program in Comparative Literature for further information.

Requirements/Evaluation: Students must successfully complete their Senior Portfolio project.

Prerequisites: Majoring in Comparative Literature

Enrollment Limit: none

Enrollment Preferences: Comparative Literature majors in their final two semesters who are not writing a thesis.

Expected Class Size: NA

Grading: pass/fail option only

Distributions: (D1)

Not offered current academic year

COMP 493 (F) Senior Thesis: Comparative Literature

Comparative Literature senior thesis; this is part of a full-year thesis (493-494).

Requirements/Evaluation: Substantial progress on research and writing of the senior thesis.

Prerequisites: Permission of the Comparative Literature advisory committee.

Enrollment Limit: none

Enrollment Preferences: Candidates for Honors in Comparative Literature

Expected Class Size: NA
COMP 494 (S) Senior Thesis: Comparative Literature
Comparative Literature senior thesis; this is part of a full-year thesis (493-494).

Requirements/Evaluation: Completion of the senior thesis, including presentation of the thesis at the spring Senior Portfolio Symposium or, for fall degree candidates, an equivalent venue in the fall.

Prerequisites: Successful completion of COMP 493 and permission of the Comparative Literature advisory committee.

Enrollment Limit: none

Enrollment Preferences: Candidates for Honors in Comparative Literature

Expected Class Size: NA

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

COMP 497 (F) Independent Study: Comparative Literature
Comparative Literature 400-level independent study.

Requirements/Evaluation: To be determined in consultation with the instructor.

Prerequisites: Permission of the instructor.

Enrollment Limit: None

Enrollment Preferences: None

Expected Class Size: NA

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

COMP 498 (S) Independent Study: Comparative Literature
Comparative Literature 400-level independent study.

Requirements/Evaluation: To be determined in consultation with the instructor.

Prerequisites: Permission of the instructor.

Enrollment Limit: None

Enrollment Preferences: None

Expected Class Size: NA

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)
Winter Study  

COMP 31 (W) Senior Thesis: Comparative Literature  
To be taken by students registered for Comparative Literature 493-494.  
Class Format: independent study  
Grading: pass/fail only  
Not offered current academic year  

COMP 99 (W) Independent Study: Comparative Literature  
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.  
Class Format: independent study  
Grading: pass/fail only  
Not offered current academic year
Computers and computation are pervasive in our society. They play enormously important roles in areas as diverse as education, science, business, and the arts. Understanding the nature of computation and exploring the great potential of computers are the goals of the discipline of computer science. A sample of the areas of research investigated by the Williams Department of Computer Science alone illustrates the vast range of topics that are of interest to computer scientists and computing professionals today. This includes: the use of computer-generated graphic images in the arts and as a tool for visualization in the sciences and other areas; the protocols that make transmission of information over the Internet possible; the design of revolutionary new computer languages that simplify the process of constructing complex programs for computers; the development of machine learning algorithms that can extract useful and even novel information from data that is too complex for humans to analyze; algorithms that can solve problems that were previously too hard to solve in a reasonable amount of time, just by giving up a little bit of optimality in the solution; the investigation of machine architectures and specific hardware aimed at making computing fast.

The department recognizes that students’ interests in computer science will vary widely. The department attempts to meet these varying interests through: (1) the major; (2) a selection of courses intended for those who are interested primarily in an introduction to computer science; (3) recommended course sequences for the non-major who wants a more extensive introduction to computer science in general or who seeks to develop some specific expertise in computing for application in some other discipline.

MAJOR

The goal of the major is to provide an understanding of algorithmic problem solving as well as the conceptual organization of computers and complex programs running on them. Emphasis is placed on the fundamental principles of computer science, building upon the mathematical and theoretical ideas underlying these principles. The introductory and core courses build a broad and solid base for understanding computer science. The more advanced courses allow students to sample a variety of specialized areas including graphics, artificial intelligence, computer architecture, networks, compiler design, human computer interaction, distributed systems, and operating systems. Independent study and honors work provide opportunities for students to study and conduct research on topics of special interest.

The major in Computer Science equips students to pursue a wide variety of career opportunities. It can be used as preparation for a career in computing, for graduate school, or to provide important background and techniques for the student whose future career will extend outside of computer science.

MAJOR REQUIREMENTS

Required Courses in Computer Science
A minimum of 8 courses is required in Computer Science, including the following:

Introductory Courses
- Computer Science 134 Introduction to Computer Science
- Computer Science 136 Data Structures and Advanced Programming

Core Courses
- Computer Science 237 Computer Organization
- Computer Science 256 Algorithm Design and Analysis
- Computer Science 334 Principles of Programming Languages
- Computer Science 361 Theory of Computation

Elective Courses
Two or more electives (bringing the total number of Computer Science courses to at least 8) chosen from 300- or 400-level courses in Computer Science. Computer Science courses with 9 as the middle digit (reading, research, and thesis courses) will normally not be used to satisfy the elective requirements. Students may petition the department to waive this restriction with good reason.

Required Courses in Mathematics
- Any Mathematics or Statistics course at the 200-level or higher except for MATH 200

Required Proficiency in Discrete Mathematics
Students must demonstrate proficiency in discrete mathematics by either passing the departmental Discrete Mathematics Proficiency Exam or by earning a grade of C- or better in MATH 200. This requirement must be met by the end of the sophomore year.

The Discrete Mathematics Proficiency Exam may be taken at most twice and cannot be taken beyond the sophomore year. The exam may not be used to fulfill the requirement for a student who has taken the course pass/fail or who has received a letter grade below C- in Math 200.

Students considering pursuing a major in Computer Science are urged to take Computer Science 134 and to begin satisfying their mathematics requirements early. Note in particular that the Discrete Mathematics Proficiency requirement is a prerequisite for many advanced courses.

Students who take Computer Science 102T, 103, 107, or 109 may use that course as one of the two electives required for the major in Computer Science. Computer Science 102T, 103, 107, 109, and 134 are not open to students who have taken a Computer Science course numbered 136 or higher.

To be eligible for admission to the major, a student must have completed at least two Computer Science courses, including Computer Science 136, as well as fulfilled the Discrete Mathematics Proficiency Requirement by the end of the sophomore year. A Mathematics course at the 200-level or higher (except for MATH 200) must be completed by the end of the junior year. Students are urged to have completed two of the four core courses (Computer Science 237, 256, 334, and 361) by the end of the sophomore year and must normally have completed at least three out of the four core courses by the end of the junior year.

We encourage students to be intellectually engaged in our field beyond the formal structure of courses. As such, all computer science majors must attend at least twenty Computer Science colloquia. Juniors and seniors are encouraged to attend at least five during each semester they are present on campus. Prospective majors in their first and second years are also encouraged to attend. A student studying away on a program approved by the International Education and Study Away Office will receive four colloquium credits for each semester away, up to a total of eight credits.

With the advance permission of the department, two appropriate mathematics or statistics courses may be substituted for one Computer Science elective. Appropriate mathematics classes are those numbered 300 or above, and appropriate statistics courses are those numbered 200 or above. Other variations in the required courses, adapting the requirements to the special needs and interests of the individual student, may be arranged in consultation with the department.

LABORATORY FACILITIES
The Computer Science Department maintains five departmental computer laboratories for students taking Computer Science courses, as well as a lab that can be configured for teaching specialized topics such as robotics. The workstations in these laboratories also support student and faculty research in computer science.

THE DEGREE WITH HONORS IN COMPUTER SCIENCE
The degree with honors in Computer Science is awarded to students who have demonstrated outstanding intellectual achievement in a program of study extending beyond the requirements of the regular major. The principal considerations in recommending a student for the degree with honors will be: mastery of core material, ability to pursue independent study of computer science, originality in methods of investigation, and creativity in research. Honors study is highly recommended for those students with strong academic records in computer science who wish to attend graduate school,
pursue high-level industrial positions in computing, or who would simply like to experience research in computer science.

Prospective honors students are urged to consult with their departmental advisor at the time of registration in the spring of the sophomore or at the beginning of the junior year to arrange a program of study that could lead to the degree with honors. Such a program normally consists of Computer Science 493 and 494 and a WSP of independent research under the guidance of a Computer Science faculty member, culminating in a thesis that is judged acceptable by the department. The program produces a significant piece of written work and often includes a major computer program. All honors candidates are required to give an oral presentation of their research in the Computer Science Colloquium in early spring semester.

Students considering honors work should obtain permission from the department before registering in the fall of the senior year. Formal admission to candidacy occurs at the beginning of the spring semester of the senior year and is based on promising performance in the fall semester and winter study units of honors work. Recommendations for the degree with honors will be made for outstanding performance in the three honors courses. Highest honors will be recommended for students who have displayed exceptional ability, achievement, or originality.

INTRODUCTORY COURSES

Computer Science 134 provides an introduction to computer science with a focus on developing computer programming skills. These skills are essential to most upper-level courses in the department. As a result, Computer Science 134 together with Computer Science 136, are required as a prerequisite to most advanced courses in the department. Those students intending to take several Computer Science courses are urged to take 134 early.

Those students interested in learning more about exciting new ideas in computer science, but not necessarily interested in developing extensive programming skills, should consider Computer Science 102 The Socio-Techno Web, 103 Electronic Textiles, 107 Creating Games, or 109 The Art and Science of Computer Graphics.

Students with significant programming experience should consider electing Computer Science 136 (see “Advanced Placement” below). Students are always welcome to contact a member of the department for guidance in selecting a first course.

COMPUTER SCIENCE 134

Introduction to Computer Science covers fundamental concepts in the design, implementation and testing of computer programs including loops, conditionals, functions, elementary data types and recursion. There is a strong focus on constructing correct, understandable and efficient programs in a structured language such as Java or Python.

STUDY ABROAD

Study abroad can be a wonderful experience. Students who hope to take computer science courses while abroad should discuss their plans in advance with the chair of the department or the departmental study away advisor. Students who plan to study away but do not expect to take courses toward the major should work with the department to create a plan to ensure that they will be able to complete the major. While study abroad is generally not an impediment to completing the major, students should be aware that certain computer science courses must be taken in a particular sequence and that not all courses are offered every semester (or every year). Students who wish to discuss their plans are invited to meet with any of the faculty in Computer Science.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings and assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes. Typically no more than two CSCI courses and one Math course.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

No.
Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes. Many CSCI electives are not taught every year. Students should develop a plan to complete all major requirements and discuss them with the department prior to going abroad.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

Students must have courses pre-approved prior to going abroad to ensure they meet the curricular goals and standards of the department.

ADVANCED PLACEMENT

Students with an extensive background in computer science are urged to take the Advanced Placement Examination in Computer Science. A score of 4 or better on the AP Computer Science A exam is normally required for advanced placement in Computer Science 136.

Students who wish to be placed in Computer Science 136 but who have not taken the Advanced Placement Examination should consult with the department. Such students should have had a good course in computer science using a structured language such as Java or Python.

PLANS OF STUDY FOR NON-MAJORS

The faculty in Computer Science believes that students can substantially enrich their academic experience by completing a coherent plan of study in one or more disciplines outside of their majors. With this in mind, we have attempted to provide students majoring in other departments with options in our department’s curriculum ranging from two-course sequences to collections of courses equivalent to what would constitute a minor at institutions that recognize such a concentration. Students interested in designing such a plan of study are invited to discuss their plans in detail with a member of the faculty. To assist students making such plans, we include some suggestions below.

Students seeking to develop an extensive knowledge of computer science without majoring in the department are encouraged to use the major requirements as a guide. In particular, the four core courses required of majors are intended to provide a broad knowledge of topics underlying all of computer science. Students seeking a concentration in Computer Science are urged to complete at least two of these courses followed by one of our upper-level electives. Such a program would typically require the completion of a total of five Computer Science courses in addition to the Discrete Mathematics Proficiency requirement.

There are several sequences of courses appropriate for those primarily interested in developing skills in programming for use in other areas. For general programming, Computer Science 134 followed by 136 and 256 will provide students with a strong background in algorithm and data structure design together with an understanding of issues of correctness and efficiency. Students of the Bioinformatics program are encouraged to take Computer Science 134 at a minimum, and should also consider Computer Science 136 and 256. The sequence of courses Computer Science 109 and 134 would provide sufficient competence in computer graphics for many students interested in applying such knowledge either in the arts or sciences.

There are, of course, many other alternatives. We encourage interested students to consult with the department chair or other members of the department’s faculty.

GENERAL REMARKS

Divisional Requirements

All Computer Science courses may be used to satisfy the Division III distribution requirement.

Alternate Year Courses

Computer Science 102T, 103, 107, 109, 315, 319, 326, 331, 333, 336T, 337T, 338, 339, 356T, 357, 358, 371, 373, 374T, 375, 376, 382, and 434T are each usually offered every other year. All other Computer Science courses are normally offered every year.

Course Numbering

The increase from 100, through 200 and 300, to 400 indicates in most instances an increasing level of maturity in the subject that is expected of students. Within a series, numeric order does not indicate the relative level of difficulty of courses. Rather, the middle digit of the course number (particularly in upper-level courses) generally indicates the area of computer science covered by the course.

Course Descriptions

Brief descriptions of the courses in Computer Science can be found below. More detailed information on the offerings in the department is available at http://www.cs.williams.edu/.

Courses Open on a Pass-Fail Basis

Students taking a Computer Science course on a pass-fail basis must meet all the requirements set for students taking the course on a graded basis.

With the permission of the department, any course offered by the department may be taken pass-fail (with the exception of tutorials), though courses graded with the pass-fail option may not be used to satisfy any of the major or honors requirements. However, with the permission of the
CSCI 102  (F) The Socio-Techno Web  (QFR)

This course introduces many fundamental concepts in computer science by examining the social aspects of computing. As more and more people use the technologies and services available via the Internet, online environments like Facebook, Amazon, Google, Twitter, and blogs are flourishing. However, several of the problems related to security, privacy, and trust that exist in the real world transfer and become amplified in the virtual world created by the ubiquity and pervasiveness of the Internet. In this course, we will investigate how the social, technological, and natural worlds are connected, and how the study of networks sheds light on these connections. Topics include the structure of the Social Web and networks in general; issues such as virtual identity, personal and group privacy, trust evaluation and propagation, and online security; and the technology, economics, and politics of Web information and online communities. No background in computer science or programming is required or expected.

Class Format: groups of three or four

Requirements/Evaluation: tutorial discussions, presentations, problem sets and labs, a midterm exam, and a final project or paper

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: first-year students and sophomores who have not previously taken a computer science course

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (QFR)

Not offered current academic year

CSCI 103  (F) Electronic Textiles  (QFR)

Digital data is being infused throughout the entire physical world, escaping the computer monitor and spreading to other devices and appliances, including the human body. Electronic textiles, or eTextiles, is one of the next steps toward making everything interactive and this course aims to introduce learners to the first steps of developing their own wearable interactive technology devices. After completing a series of introductory eTextiles projects to gain practice in necessary sewing, circuitry, and programming skills, students will propose and design their own eTextiles projects, eventually implementing them with sewable Arduino components, and other found electronic components as needed. The scope of the project will depend on the individual's prior background, but can include everything from a sweatshirt with light-up turn signals for bicycling, to a wall banner that displays the current air quality of the room, to a stuffed animal that plays a tune when the lights go on, to whatever project you can conceivably accomplish with sewable Arduino inputs, outputs, and development board in a semester context. This class will introduce students to introductory computer programming, circuitry, and sewing with the goal of creating novel wearable artifacts that interact with the world.

Class Format: interspersed with hands-on activities in a computer lab

Requirements/Evaluation: weekly homework assignments and a final project

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: students who have not previously taken a CSCI course

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: a fee of $85 will be added to term bill to cover Lilypad Arduino components (Protosnap Plus Kit, battery holders switched and not-switched, sets of LEDs, temperature sensor, vibe board, tri-color LED), alligator test leads, and fabric scissors

Distributions:  (D3)  (QFR)

Quantitative/Formal Reasoning Notes: The course will teach students the basics of computer programming through projects in which quantitative/formal reasoning skills are practiced and evaluated.

Not offered current academic year

CSCI 134  (F)(S) Introduction to Computer Science  (QFR)
This course introduces students to the science of computation by exploring the representation and manipulation of data and algorithms. We organize and transform information in order to solve problems using algorithms written in a modern object-oriented language. Topics include organization of data using objects and classes, and the description of processes using conditional control, iteration, methods and classes. We also begin the study of abstraction, self-reference, reuse, and performance analysis. While the choice of programming language and application area will vary in different offerings, the skills students develop will transfer equally well to more advanced study in many areas. In particular, this course is designed to provide the programming skills needed for further study in computer science and is expected to satisfy introductory programming requirements in other departments.

Requirements/Evaluation: weekly programming projects, weekly written homeworks, and two examinations.
Prerequisites: none, except for the standard prerequisites for a (QFR) course; previous programming experience is not required

Enrollment Limit: 36(12/lab)

Enrollment Preferences: if the course is over-enrolled, enrollment will be determined by lottery

Expected Class Size: 36

Grading: yes pass/fail option, yes fifth course option

Unit Notes: students with prior experience with object-oriented programming should discuss appropriate course placement with members of the department

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course includes regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.

Attributes: COGS Interdepartmental Electives

CSCI 136  (F)(S)  Data Structures and Advanced Programming  (QFR)
This course builds on the programming skills acquired in Computer Science 134. It couples work on program design, analysis, and verification with an introduction to the study of data structures. Data structures capture common ways in which to store and manipulate data, and they are important in the construction of sophisticated computer programs. Students are introduced to some of the most important and frequently used data structures: lists, stacks, queues, trees, hash tables, graphs, and files. Students will be expected to write several programs, ranging from very short programs to more elaborate systems. Emphasis will be placed on the development of clear, modular programs that are easy to read, debug, verify, analyze, and modify.
Requirements/Evaluation:  programming and written assignments, quizzes, examinations
Prerequisites:  CSCI 134 or equivalent; fulfilling the Discrete Mathematics Proficiency requirement is recommended, but not required
Enrollment Limit:  60(12/lab)
Enrollment Preferences:  if the course is over-enrolled, enrollment will be determined by lottery
Expected Class Size:  60
Grading:  yes pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  This course include regular and substantial problem sets, labs, and/or projects in which quantitative/formal reasoning skills are practiced and evaluated.

CSCI 237  (F)(S)  Computer Organization  (QFR)
This course studies the basic instruction set architecture and organization of a modern computer. It provides a programmer's view of how computer systems execute programs, store information, and communicate. Over the semester the student learns the fundamentals of translating higher level languages into assembly language, and the interpretation of machine languages by hardware. At the same time, a model of computer hardware organization is developed from the gate level upward.
Requirements/Evaluation:  weekly programming assignments and/or problem sets, quizzes, midterm and final exams
Prerequisites:  CSCI 136
Enrollment Limit:  12 per lab
Enrollment Preferences:  current or expected Computer Science majors
Expected Class Size:  24
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Quantative/Formal Reasoning Notes:  The course will consist of programming assignments and problem sets in which quantitative/formal reasoning skills are practiced and evaluated.
CSCI 256  (F)(S)  Algorithm Design and Analysis  (QFR)
This course investigates methods for designing efficient and reliable algorithms. By carefully analyzing the structure of a problem within a mathematical framework, it is often possible to dramatically decrease the computational resources needed to find a solution. In addition, analysis provides a method for verifying the correctness of an algorithm and accurately estimating its running time and space requirements. We will study several algorithm design strategies that build on data structures and programming techniques introduced in Computer Science 136. These include greedy, divide-and-conquer, dynamic programming, and network flow algorithms. Additional topics of study include algorithms on graphs and strategies for handling potentially intractable problems.

Requirements/Evaluation: Problem sets, midterm and final examinations
Prerequisites: CSCI 136 and fulfillment of the Discrete Mathematics Proficiency requirement
Enrollment Limit: 24
Enrollment Preferences: Preference will be given to students who need the class in order to complete the major. Ties will be broken by seniority (seniors first, then juniors, etc.).
Expected Class Size: 24
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (QFR)
Quantative/Formal Reasoning Notes: This course will have weekly problem sets in which students will formally prove statements about the behavior and performance of algorithms. In short, the course is about applying abstract and mathematical reasoning to the study of algorithms and computation.

CSCI 315  (F)  Computational Biology
Cross-listings: CSCI 315  PHYS 315
Secondary Cross-listing
This course will provide an overview of Computational Biology, the application of computational, mathematical, statistical, and physical problem-solving techniques to interpret the rapidly expanding amount of biological data. Topics covered will include database searching, DNA sequence alignment, clustering, RNA structure prediction, protein structural alignment, methods of analyzing gene expression, networks, and genome assembly using techniques such as string matching, dynamic programming, hidden Markov models, and expectation-maximization.

Requirements/Evaluation: weekly Python programming assignments, code reviews, problem sets, a few quizzes and a final project
Prerequisites: programming experience (e.g., CSCI 136), mathematics (PHYS/MATH 210 or MATH 150), and physical science (PHYS 142 or 151, or
This course is cross-listed and the prefixes carry the following divisional credit:

CSCI 319 (S) Integrative Bioinformatics, Genomics, and Proteomics Lab (QFR)

Cross-listings: MATH 319 CHEM 319 BIOL 319 PHYS 319 CSCI 319

Secondary Cross-listing

What can computational biology teach us about cancer? In this lab-intensive experience for the Genomics, Proteomics, and Bioinformatics program, computational analysis and wet-lab investigations will inform each other, as students majoring in biology, chemistry, computer science, mathematics/statistics, and physics contribute their own expertise to explore how ever-growing gene and protein data-sets can provide key insights into human disease. In this course, we will take advantage of one well-studied system, the highly conserved Ras-related family of proteins, which play a central role in numerous fundamental processes within the cell. The course will integrate bioinformatics and molecular biology, using database searching, alignments and pattern matching, and phylogenetics to reconstruct the evolution of gene families by focusing on the gene duplication events and gene rearrangements that have occurred over the course of eukaryotic speciation. By utilizing high through-put approaches to investigate genes involved in the inflammatory and MAPK signal transduction pathways in human colon cancer cell lines, students will uncover regulatory mechanisms that are aberrantly altered by siRNA knockdown of putative regulatory components. This functional genomic strategy will be coupled with independent projects using phosphorylation-state specific antisera to test our hypotheses. Proteomic analysis will introduce the students to de novo structural prediction and threading algorithms, as well as data-mining approaches and Bayesian modeling of protein network dynamics in single cells. Flow cytometry and mass spectrometry may also be used to study networks of interacting proteins in colon tumor cells.

Class Format: two afternoons of lab, with one hour of lecture, per week. In most weeks, we will meet one day for lecture discussions.

Requirements/Evaluation: lab participation, several short homework assignments, one lab report, a programming project, and a grant proposal

Prerequisites: BIOL 202; students who have not taken BIOL 202 but have taken BIOL 101 and a CSCI course, or CSCI/PHYS 315, may enroll with permission of instructor. No prior computer programming experience is required.

Enrollment Limit: 12

Enrollment Preferences: seniors, then juniors, then sophomores

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: does not satisfy the distribution requirement for the Biology major

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

CSCI 326 (S) Software Methods (QFR)
Sophisticated software systems play a prominent role in many aspects of our lives, and while programming can be a very creative and exciting process, building a reliable software system of any size is no easy feat. Moreover, the ultimate outcome of any programming endeavor is likely to be incomplete, unreliable, and unmaintainable unless principled methods for software construction are followed. This course explores those methods. Specific topics include: software processes; specifying requirements and verifying correctness; abstractions; design principles; software architectures; concurrent and scalable systems design; testing and debugging; and performance evaluation.

Requirements/Evaluation:  homework, programming assignments, group work, presentations, exams
Prerequisites:  CSCI 136, and at least one of CSCI 237, 256, or 334
Enrollment Limit:  24
Enrollment Preferences:  current or expected Computer Science majors
Expected Class Size:  24
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)

Not offered current academic year

CSCI 331  (F)  Introduction to Computer Security  (QFR)
This class explores common vulnerabilities in computer systems, how attackers exploit them, and how systems engineers design defenses to mitigate them. The goal is to be able to recognize potential vulnerabilities in one’s own software and to practice defensive design. Hands-on experience writing assembly language and C code to inspect and modify the low-level operation of running programs is emphasized. Finally, regular reading and writing assignments round out the course to help students understand the cultural and historical background of the computer security “arms race.”

Class Format:  This course has twice-weekly lecture meetings as well as a weekly lab meeting.
Requirements/Evaluation:  weekly reading responses, lab assignments, midterm exam, and final project
Prerequisites:  CSCI 136 and CSCI 237
Enrollment Limit:  24(12/lab)
Enrollment Preferences:  upper-level students
Expected Class Size:  24
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Quantitative/Formal Reasoning Notes:  This course include regular and substantial problem sets and labs in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2021
LEC Section:  01    MR 2:35 pm - 3:50 pm    Daniel W. Barowy
LAB Section:  02    W 1:10 pm - 2:25 pm    Daniel W. Barowy
LAB Section:  03    W 2:35 pm - 3:50 pm    Daniel W. Barowy

CSCI 333  (S)  Storage Systems  (QFR)
This course will examine topics in the design, implementation, and evaluation of storage systems. Topics include the memory hierarchy; ways that data is organized (both logically and physically); storage hardware and its influence on storage software designs; data structures; performance models; and system measurement/evaluation. Readings will be taken from recent technical literature, and an emphasis will be placed on identifying and evaluating design trade-offs.

Class Format:  Lecture content will be through asynchronously viewed video modules. Two scheduled conference sections will each meet twice per week. They will be used for synchronous conference meetings that include discussions, activities, and programming tasks. One conference section will be in-person and one will be remote. Students should sign up for the lecture section and one conference section.
Requirements/Evaluation:  programming assignments, quizzes, midterm examination, and a final project
Prerequisites:  CSCI 136; CSCI 237 or permission of instructor
Enrollment Limit:  40
**Enrollment Preferences:** current Computer Science majors, students with research experience or interest

**Expected Class Size:** 40

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This course will have students develop quantitative/formal reasoning skills through problem sets and programming assignments.

Not offered current academic year

---

**CSCI 334 (F)(S) Principles of Programming Languages** (QFR)

This course examines the concepts and structures governing the design and implementation of programming languages. It presents an introduction to the concepts behind compilers and run-time representations of programming languages; features of programming languages supporting abstraction and polymorphism; and the procedural, functional, object-oriented, and concurrent programming paradigms. Programs will be required in languages illustrating each of these paradigms.

**Requirements/Evaluation:** weekly problem sets and programming assignments, a midterm examination, and a final examination

**Prerequisites:** CSCI 136

**Enrollment Limit:** 24

**Enrollment Preferences:** current or expected Computer Science majors

**Expected Class Size:** 24

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantative/Formal Reasoning Notes:** This course include regular and substantial problem sets and labs in which quantitative/formal reasoning skills are practiced and evaluated.

---

**CSCI 336 (F) Computer Networks** (QFR)

This course explores the design and implementation of computer networks. Topics include wired and wireless networks; techniques for efficient and reliable encoding and transmission of data; addressing schemes and routing mechanisms; resource allocation for bandwidth sharing; and security issues. An important unifying themes is the distributed nature of all network problems. We will examine the ways in which these issues are addressed by current protocols such as TCP/IP and 802.11 WIFI.

**Class Format:** groups of three or four

**Requirements/Evaluation:** problem sets, programming assignments, and midterm and final examinations

**Prerequisites:** CSCI 136 and 237

**Enrollment Limit:** 18

**Enrollment Preferences:** current or expected Computer Science majors

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

Not offered current academic year

---

**CSCI 337 (S) Digital Design and Modern Architecture** (QFR)

This tutorial course considers topics in the low-level design of modern architectures. Course meetings will review problems of designing effective architectures including instruction-level parallelism, branch-prediction, caching strategies, and advanced ALU design. Readings will be taken from
recent technical literature. Labs will focus on the development of custom CMOS circuits to implement projects from gates to bit-sliced ALUs. Final group projects will develop custom logic demonstrating concepts learned in course meetings.

Class Format: groups of three or four

Requirements/Evaluation: microprocessor design projects, participation in tutorial meetings, and examinations

Prerequisites: CSCI 237

Enrollment Limit: 18

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Not offered current academic year

CSCI 338 (F) Parallel Processing (QFR)

This course explores different parallel programming paradigms used for writing applications on today's parallel computer systems. The course will introduce concurrency (i.e. multiple simultaneous computations) and the synchronization primitives that allow for the creation of correct concurrent applications. It will examine how a variety of systems organize parallel processing resources and enable users to write parallel programs for these systems. Covered programming paradigms will include multiprogramming with processes, message passing, threading in shared memory multiprocessors, vector processing, graphics processor programming, transactions, MapReduce, and other forms of programming for the cloud. Class discussion is based on assigned readings. Assignments provide students the opportunity to develop proficiency in writing software using different parallel programming paradigms.

Requirements/Evaluation: homework assignments, programming projects, and up to two exams

Prerequisites: CSCI 136 or equivalent programming experience, and CSCI 237, or permission of instructor

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: The course will consist of substantial problem sets and programming assignments in which quantitative/formal reasoning skills are practiced and evaluated.

Not offered current academic year

CSCI 339 (S) Distributed Systems (QFR)

This course studies the key design principles of distributed systems, which are collections of independent networked computers that function as single coherent systems. Covered topics include communication protocols, processes and threads, naming, synchronization, consistency and replication, fault tolerance, and security. Students also examine some specific real-world distributed systems case studies, including Google and Amazon. Class discussion is based on readings from the textbook and research papers. The goals of this course are to understand how large-scale computational systems are built, and to provide students with the tools necessary to evaluate new technologies after the course ends.

Requirements/Evaluation: weekly homework assignments, midterm exam, 3 major programming projects, and a final project

Prerequisites: CSCI 237

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: The course will consist of programming assignments and problem sets in which quantitative/formal reasoning skills are practiced and evaluated.
CSCI 356  (F)  Advanced Algorithms (QFR)
This course explores advanced concepts in algorithm design, algorithm analysis and data structures. Areas of focus will include algorithmic complexity, randomized and approximation algorithms, geometric algorithms, and advanced data structures. Topics will include combinatorial algorithms for packing, and covering problems, algorithms for proximity and visibility problems, linear programming algorithms, approximation schemes, hardness of approximation, search, and hashing.

Class Format: this class will follow the meeting structure of a tutorial, with groups of three or four

Requirements/Evaluation: weekly problem sets, several small programming projects, weekly paper summaries, and a small, final project

Prerequisites: CSCI 256; CSCI 361 is recommended but not required

Enrollment Limit: 10

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (QFR)

Quantitative/Formal Reasoning Notes: This class has regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Not offered current academic year

CSCI 357  (S)  Algorithmic Game Theory (QFR)
This course focuses on topics in game theory and mechanism design from a computational perspective. We will explore questions such as: how to design algorithms that incentivize truthful behavior, that is, where the participants have no incentive to cheat? Should we let drivers selfishly minimize their commute time or let a central algorithm direct traffic? Does Arrow's impossibility result mean that all voting protocols are doomed? The overarching goal of these questions is to understand and analyze selfish behavior and whether it can or should influence system design. Students will learn how to model and reason about incentives in computational systems both theoretically and empirically. Topics include types of equilibria, efficiency of equilibria, auction design and mechanism design with money, two-sided markets and mechanism design without money, incentives in computational applications such as P2P systems, and computational social choice.

Requirements/Evaluation: weekly problem sets and/or programming assignments, two midterm exams, and a final project.

Prerequisites: CSCI 256

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3)  (QFR)

Quantitative/Formal Reasoning Notes: The course will consist problem sets and programming assignments in which quantitative/formal reasoning skills are practiced and evaluated.

Not offered current academic year

Spring 2022

LEC Section: 01  MR 2:35 pm - 3:50 pm  Shikha Singh

CSCI 358  (F)  Applied Algorithms (QFR)
This course is about bridging the gap between theoretical running time and writing fast code in practice. The course is divided into two basic topics. The first is algorithmic: we will discuss some of the most useful tools in a coder's toolkit. This includes topics like randomization (hashing, filters, approximate counters), linear and convex programming, similarity search, and cache-efficient algorithms. Our goal is to talk about why these efficient algorithms make seemingly difficult problems solvable in practice. The second topic is applications: we will discuss how to implement algorithms in an efficient way that takes advantage of modern hardware. Specific topics covered will include blocking, loop unrolling, pipelining, as well as strategies for performance analysis. Projects and assessments will include both basic theoretical aspects (understanding why the algorithms we discuss actually
work), and practical aspects (implementing the algorithms we discuss to solve important problems, and optimizing the code so it runs as quickly as possible).

Requirements/Evaluation: Over the course of each week, there will be either an assignment or a mini-midterm. Assignments and mini-midterms have similar structure, with both a coding and problem set component, but mini-midterms will be weighted more heavily and must be completed individually. There will also be a take home final at the end of the year.

Prerequisites: CSCI 256 and CSCI 237

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: The course will consist of programming assignments and problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

Fall 2021
LEC Section: 01 MR 1:10 pm - 2:25 pm Samuel McCauley

CSCI 361 (F)(S) Theory of Computation (QFR)

Cross-listings: MATH 361 CSCI 361

Primary Cross-listing

This course introduces a formal framework for investigating both the computability and complexity of problems. We study several models of computation including finite automata, regular languages, context-free grammars, and Turing machines. These models provide a mathematical basis for the study of computability theory--the examination of what problems can be solved and what problems cannot be solved--and the study of complexity theory--the examination of how efficiently problems can be solved. Topics include the halting problem and the P versus NP problem.

Class Format: Lecture content will be delivered through asynchronously viewed video modules. Conference sections meeting twice per week will be used for synchronous discussions. Students should sign up for lecture and one conference section.

Requirements/Evaluation: online multiple choice and short answer questions, weekly problem sets in groups, a research project, and a final examination

Prerequisites: CSCI 256 or both a 300-level MATH course and permission of instructor

Enrollment Limit: 24(12/con)

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

MATH 361 (D3) CSCI 361 (D3)

Quantative/Formal Reasoning Notes: This course include regular and substantial problem sets in which quantitative/formal reasoning skills are practiced and evaluated.

LEC Section: 01 ASYN Aaron M. Williams

Spring 2022
LEC Section: 01 ASYN Aaron M. Williams
CSCI 370  Machine Learning: Algorithms and Applications  (QFR)
The course introduces students to the fascinating field of Machine Learning. Machine Learning is a subset of Artificial Intelligence which studies learning algorithms - the algorithms that once set up make it possible for a machine to learn on its own without being explicitly instructed. The first half of the course (Algorithms) covers basic Machine Learning algorithms and the Math behind them: Stochastic Optimizations, Decision Trees, Memory-based Reasoning, Bayesian Belief Networks, Clustering, Associations, and Neural Nets. We will follow the logic behind these algorithms and implement them in pure Python. Students are expected to have some background in Statistics and Linear Algebra, however all the required Math fundamentals will be provided in the form of short primers. The second part (Applications) is fully dedicated to solving real-life predictive problems in a series of extensive Data Science labs. We will use the implementation of the ML algorithms from the sklearn Python library. This exploratory activity culminates in an open-ended student project inspired by student interests. Students will be exposed to applications of Machine Learning to Science, Humanities and real-life. By the end of the course they will acquire a toolbox for exploring a modern world full of digital data and making their own discoveries. The ambitious far-reaching implicit objective includes developing interest in Math as a discovery tool, learning how to handle ambiguity, and better understanding and formalizing mental models of learning.

Requirements/Evaluation:  Regular problem sets and/or programming labs; weekly quizzes; and a final project.
Prerequisites:  Math 150/151, CSCI 256, and some fluency in the Python programming language. Recommended: MATH 250 and STAT 201 or above. This class cannot be taken by students who have completed CSCI 374.
Enrollment Limit:  24
Expected Class Size:  24
Grading:  
Distributions:  (D3)  (QFR)
Quantitative/Formal Reasoning Notes:  This course includes regular and substantial assignments in which quantitative/formal reasoning skills are practiced and evaluated.
Not offered current academic year

CSCI 373  (S)  Artificial Intelligence  (QFR)
Artificial Intelligence (AI) has become part of everyday life, but what is it, and how does it work? This course introduces theories and computational techniques that serve as a foundation for the study of artificial intelligence. Potential topics include the following: Problem solving by search, Logic, Planning, Constraint satisfaction problems, Uncertainty and probabilistic reasoning, Bayesian networks, and Automated Learning.

Requirements/Evaluation:  several programming projects in the first half of the semester and a larger project spanning most of the second half of the semester; reading responses and discussion; midterm examination
Prerequisites:  CSCI 136 and (CSCI 256 or permission of instructor)
Enrollment Limit:  24
Expected Class Size:  24
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D3)  (QFR)
Attributes:  COGS Interdepartmental Electives
Not offered current academic year

CSCI 374  (S)  Machine Learning  (QFR)
This tutorial examines the design, implementation, and analysis of machine learning algorithms. Machine Learning is a field that derives from Artificial Intelligence, Statistics, and others, and aims to develop algorithms that will improve a system's performance. Improvement might involve acquiring new factual knowledge from data, learning to perform a new task, or learning to perform an old task more efficiently or effectively. This tutorial will cover
examples of supervised learning algorithms (including Bayesian approaches, support vector machines, and neural networks -- both deep and traditional), unsupervised learning algorithms (including k-means and expectation maximization), and possibly reinforcement learning algorithms (such as Q learning and temporal difference learning). It will also introduce methods for the evaluation of learning algorithms, as well as topics in computational learning theory and ethics.

Class Format: Though this course will be offered remotely by the instructor, pairs of students on campus may choose to meet in person for their tutorial sessions. If so, a classroom will be scheduled for them by the instructor.

Requirements/Evaluation: presentations, problem sets, programming exercises, empirical analyses of algorithms, critical analysis of current literature; the final two weeks are focused on a project of the student's design.

Prerequisites: CSCI 136 and CSCI 256 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Computer Science majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course heavily relies on discrete mathematics, calculus, and elementary statistics. Students will be proving theorems, among many other mathematically oriented assignments. Additionally, they will be programming, which involves analytical and logical thinking.

Attributes: COGS Interdepartmental Electives

Not offered current academic year

CSCI 375 (F) Natural Language Processing (QFR)

Natural language processing is a branch of computer science that studies methods for analyzing and generating written or spoken human language. It is a rapidly developing field that has given rise to many useful applications including search engines, speech recognizers, and automated personal assistants. Potential topics include information retrieval, information extraction, question answering, and language models.

Requirements/Evaluation: exams, problem sets, and programming projects

Prerequisites: CSCI 136 and (CSCI 256 or permission of instructor)

Enrollment Limit: 24

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Not offered current academic year

CSCI 376 (F) Human-Computer Interaction

Cross-listings: STS 376 CSCI 376

Primary Cross-listing

Human-Computer Interaction (HCI) principles are practiced in the design and evaluation of most software, greatly impacting the lives of anyone who uses interactive technology and other products. There are many ways to design and build applications for people, so what methods can increase the likelihood that our design is the most useful, intuitive, and enjoyable? This course provides an introduction to the field of human-computer interaction, through a user-centered approach to designing and evaluating interactive systems. HCI draws on methods from computer science, the social and cognitive sciences, and interaction design. In this course we will use these methods to: ideate and propose design problems, study existing systems and challenges, explore design opportunities and tradeoffs, evaluate and improve designs, and communicate design problems and solutions to varying audiences.

Requirements/Evaluation: course projects, in-class group work/participation, and exams

Prerequisites: CSCI 136

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24
As far as we know, the technological singularity has not yet arrived. Therefore, humans remain a part of our current computation pipeline. However, the role humans play varies greatly: self-driving cars aim to have human involvement only in development and emergencies, whereas educational tools are built for constant human involvement. In this course, we broadly explore human work within computational systems through topics such as crowdsourcing, educational technology, citizen science, human computation, open-source software, micro-labor markets, and online gaming. Students should expect broad exposure to a wide variety of human computing topics and group projects on building and evaluating computational systems that use human work.

Class Format: Lectures will be held on Wednesday and Friday each week. Conference sections will each meet once per week. Students should sign up for the lecture section and one conference.

Requirements/Evaluation: Course projects, in-class group work/participation, weekly written homework assignments/readings.

Prerequisites: CSCI 136

Enrollment Limit: 20

Enrollment Preferences: Preference for current CS majors

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Materials/Lab Fee: $75 for purchase of software and work on crowdsourcing platforms.

Distributions: (D3) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
CSCI 377 (D3) STS 375 (D3)

Quantitative/Formal Reasoning Notes: This course includes regular homework and projects in which quantitative/formal reasoning skills are practiced and evaluated.

Not offered current academic year
CSCI 379  (F)(S)  Causal Inference  (QFR)

Does X cause Y? If so, how? And what is the strength of this causal relation? Seeking answers to such causal (as opposed to associational) questions is a fundamental human endeavor; the answers we find can be used to support decision-making in various settings such as healthcare and public policy. But how does one tease apart causation from association--early in our statistical education we are taught that "correlation does not imply causation." In this course, we will re-examine this phrase and learn how to reason with confidence about the validity of causal conclusions drawn from messy real-world data. We will cover core topics in causal inference including causal graphical models, unsupervised learning of the structure of these models, expression of causal quantities as functions of observed data, and robust/efficient estimation of these quantities using statistical and machine learning methods. Concepts in the course will be contextualized via regular case studies.

Requirements/Evaluation: Problem sets, programming exercises, empirical analyses, case studies, and a final project.

Prerequisites: CSCI 136, and either CSCI 256 or STAT 201/202.

Enrollment Limit: 24

Enrollment Preferences: Computer science majors and prospective majors.

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantative/Formal Reasoning Notes: This course heavily relies on discrete mathematics, algorithms, and elementary statistics. There will be regular assignments requiring rigorous quantitative or formal reasoning.

CSCI 397  (F) Independent Reading: Computer Science

Directed independent reading in Computer Science.

Requirements/Evaluation: To be determined by supervising faculty member.

Prerequisites: permission of department

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: NA

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3)

Fall 2021
IND Section: 01  TBA  Stephen N. Freund

CSCI 398  (S) Independent Reading: Computer Science
Directed independent reading in Computer Science.

Requirements/Evaluation: To be determined by supervising faculty member.

Prerequisites: permission of department

Enrollment Limit: none

Enrollment Preferences: none

Expected Class Size: NA

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3)

Spring 2022

IND Section: 01 TBA Stephen N. Freund

CSCI 432 (S) Operating Systems (QFR)

This course explores the design and implementation of computer operating systems. Topics include historical aspects of operating systems development, systems programming, process scheduling, synchronization of concurrent processes, virtual machines, memory management and virtual memory, I/O and file systems, system security, os/architecture interaction, and distributed operating systems.

Requirements/Evaluation: several implementation projects that will include significant programming, as well as written homework, and up to two exams

Prerequisites: CSCI 237 and either CSCI 256 or 334

Enrollment Limit: 24

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: The course will consist of substantial problem sets and/or programming assignments in which quantitative/formal reasoning skills are practiced and evaluated.

Spring 2022

LEC Section: 01 MW 8:30 am - 9:45 am Duane A. Bailey

LAB Section: 02 M 1:10 pm - 2:25 pm Duane A. Bailey

LAB Section: 03 M 2:35 pm - 3:50 pm Duane A. Bailey

CSCI 434 (S) Compiler Design (QFR)

This tutorial covers the principles and practices for the design and implementation of compilers and interpreters. Topics include all stages of the compilation and execution process: lexical analysis; parsing; symbol tables; type systems; scope; semantic analysis; intermediate representations; run-time environments and interpreters; code generation; program analysis and optimization; and garbage collection. The course covers both the theoretical and practical implications of these topics. Students will construct a full compiler for a simple object-oriented language.

Class Format: groups of three or four

Requirements/Evaluation: presentations, problem sets, a substantial implementation project, and two exams

Prerequisites: CSCI 237 and 256 CSCI 334 is recommended, but not required

Enrollment Limit: 10

Enrollment Preferences: current or expected Computer Science majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)
CSCI 493 (F) Research in Computer Science
This course provides highly-motivated students an opportunity to work independently with faculty on research topics chosen by individual faculty. Students are generally expected to perform a literature review, identify areas of potential contribution, and explore extensions to existing results. The course culminates in a concise, well-written report describing a problem, its background history, any independent results achieved, and directions for future research.

Requirements/Evaluation: class participation, presentations, and the final written report
Prerequisites: none
Enrollment Limit: none
Enrollment Preferences: open to senior Computer Science majors with permission of instructor
Expected Class Size: NA
Grading: yes pass/fail option, yes fifth course option
Unit Notes: this course (along with CSCI 31 and CSCI 494) is required for students pursuing honors, but enrollment is not limited to students pursuing honors

Winter Study  ---------------------------------------------------------------

CSCI 23  (W)  Introduction to Research and Development in Computing
An independent project is completed in collaboration with a member of the Computer Science Department. The projects undertaken will either involve
the exploration of a research topic related to the faculty member’s work or the implementation of a software system that will extend the students design
and implementation skills. It is expected that the student will spend 20 hours per week working on the project. At the completion of the project, each
student will submit a 10-page written report or the software developed together with appropriate documentation of its behavior and design. In addition,
students will be expected to give a short presentation or demonstration of their work. Prior to the beginning of the Winter Study registration period, any
student interested in enrolling must have arranged with a faculty member in the department to serve as their supervisor for the course.

Class Format:  TBA individually arranged
Requirements/Evaluation:  final paper and presentation/demonstration
Prerequisites:  project must be preapproved by the faculty supervisor
Enrollment Limit:  POI
Enrollment Preferences:  preference given to sophomores and juniors
Grading:  pass/fail only
Materials/Lab Fee:  none
Not offered current academic year

CSCI 31  (W)  Senior Thesis: Computer Science
To be taken by students registered for Computer Science 493-494.

Class Format:  independent study
Grading:  pass/fail only
Not offered current academic year

CSCI 99  (W)  Independent Study: Computer Science TEST
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a
faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late
September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is
approved prior to the Winter Study registration period.

Class Format:  independent study
Requirements/Evaluation:  test
Prerequisites: test
Enrollment Limit: test
Enrollment Preferences: test
Expected Class Size: test
Grading: pass/fail only
Distributions: (D3)

Not offered current academic year
Students with the talent and energy for working independently and with the strong support of faculty advisors may undertake a Contract Major: a coherent study of an interdisciplinary subject not covered by a regularly offered major. The purpose of a Contract Major is to allow highly motivated students to follow a course of study outside the boundaries of established majors. Students have an opportunity to draw from the wealth of offered courses and develop a major that corresponds to their particular interests and goals.

A Contract Major must be in an area suitable to the talents of the faculty in residence and cannot consist of modifications to an existing major. A Contract Major also must conform to the structure and coherence of a departmental or program major—it must embody a disciplined study that moves from an elementary to an advanced level and culminate in a synthesis similar to a senior major course.

Developing a Contract Major proposal is both interesting and demanding. Due to these demands, students should carefully consider the advantage of working within existing majors or programs, taking note of the considerable intellectual pleasures involved in sharing similar educational experiences with other students working within the same area of study.

Students who wish to explore or propose a Contract Major should consult with the Contract Major Advisor and potential faculty advisors as early as possible first semester of sophomore year.

Considerations
A Contract Major cannot be pursued in conjunction with another major or concentration.

Alternatives:
- two majors
- major + concentration
- major + coordinate program
- major + courses of special interest

Identification
A Contract Major is:
- A coherent study of an interdisciplinary subject not covered by a regularly offered major or concentration, consistent with the liberal arts mission.
- A cumulative study that moves from an elementary to an advanced level.
- A course of study that is appropriate for the undergraduate level—not so narrowly defined where it would be considered a graduate level course of study.

A Contract Major cannot consist of minor modifications to an existing major or concentration.

Advising
Before deciding to pursue a Contract Major, schedule an appointment with Amanda Turner, Contract Major Advisor (CMA) prior to November 15. This advising session will help determine if a Contract Major is a good fit and also serve as an overview to the Contract Major approval process. More information can be found on the Contract Major site.

CMAJ 493 (F) Senior Thesis: Contract Major
A Contract Major senior thesis, which is determined in consultation with faculty advisors, is either: one semester term (CMAJ 493 or CMAJ 494) and one Winter Study term (CMAJ 31); or two semester terms and Winter Study term (CMAJ 493, CMAJ 31, and CMAJ 494).

Grading: yes pass/fail option, yes fifth course option

Unit Notes: Divisional credit is either I, II, or III depending on approved Contract Major proposal.

Distributions: No divisional credit
CMAJ 494 (S) Senior Thesis: Contract Major
A Contract Major senior thesis, which is determined in consultation with faculty advisors, is either: one semester term (CMAJ 493 or CMAJ 494) and one Winter Study term (CMAJ 31); or two semester terms and Winter Study term (CMAJ 493, CMAJ 31, and CMAJ 494).

Grading: yes pass/fail option, yes fifth course option
Unit Notes: Divisional credit is either I, II, or III depending on approved Contract Major proposal.
Distributions: No divisional credit

Winter Study -----------------------------------------------

CMAJ 31 (W) Senior Thesis: Contract Major
To be taken by students registered for Contract Major 493, 494.

Grading: pass/fail only
Not offered current academic year

CMAJ 99 (W) Independent Study: Contract Major
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
The Critical Languages Program enables students to study important foreign languages relevant to their academic interests but not taught in regular courses at Williams. The program can field a limited number of courses per year*, and it has offered one-year of elementary Hebrew, Hindi, Korean, Persian, Portuguese, and Swahili thus far. Students work independently with standard language textbooks and audio materials for roughly ten hours per week and attend twice weekly group review sessions with tutors who are native speakers. Language faculty from other institutions provide the course syllabus, conduct the exams, and determine the final grades. An organizational meeting for enrolled students is held the first week of each semester.

Interested students must present an application and have it approved before registering for a course. Applications are available during the first two weeks of April and can be obtained from the Coordinator at the Center for Foreign Languages, Literatures, and Cultures, Hollander 230 or online at cflclc.williams.edu/critical-languages.

Note that like other elementary language courses, the Critical Languages courses are hyphenated, meaning no credit is given for the first semester until the second semester is successfully completed. Students must normally begin a course in the fall semester. It cannot be taken Pass/Fail. An organizational meeting will be held the first week of each semester.

A consecutive year of intermediate language study will be considered only upon petition of those students completing a full year of elementary study with the Critical Languages Program and as long as a minimum of two students are enrolled to continue their language study.

All courses adhere to the guidelines of the National Association of Self-Instructional Language Programs (NASILP).

* A Critical Languages course will be scheduled only if and when at least two students are accepted for study and provided a native tutor and outside examiner have been contracted.

CRHE 101 (F) Elementary Hebrew

Introduction to the alphabet and language structure with emphasis on communicative skills. Students will receive a foundation in the language being able to hold simple conversations, use a range of vocabulary related to daily activities and transactions, and gain familiarity with basic, frequently used grammatical structures and the writing system of the language.

Class Format: twice-weekly review sessions

Requirements/Evaluation: Written and oral midterm and final exams.

Prerequisites: Sophomore or higher standing with a GPA of 3.0 or higher; application to the Critical Language Program in early April.

Enrollment Limit: 8

Enrollment Preferences: Preference given to application submissions received during the information-application period in April.

Expected Class Size: 2-8

Grading: no pass/fail option, yes fifth course option

Unit Notes: minimum of two students in order to schedule the course

Distributions: (D1)

Interested students must present an application and have it approved before registering for a course. Applications are available during the first two weeks of April and can be obtained from the Coordinator at the Center for Foreign Languages, Literatures, and Cultures, Hollander 230 or online at cflc.williams.edu/critical-languages.

Note that like other elementary language courses, the Critical Languages courses are hyphenated, meaning no credit is given for the first semester until the second semester is successfully completed. Students must normally begin a course in the fall semester. It cannot be taken Pass/Fail. An organizational meeting will be held the first week of each semester.

A consecutive year of intermediate language study will be considered only upon petition of those students completing a full year of elementary study with the Critical Languages Program and as long as a minimum of two students are enrolled to continue their language study.

All courses adhere to the guidelines of the National Association of Self-Instructional Language Programs (NASILP).

*A Critical Languages course will be scheduled only if and when at least two students are accepted for study and provided a native tutor and outside examiner have been contracted.

CRPE 101  (F) Elementary Persian
Introduction to the alphabet and language structure with emphasis on communicative skills. Students will receive a foundation in the language being able to hold simple conversations, use a range of vocabulary related to daily activities and transactions, and gain familiarity with basic, frequently used grammatical structures and the writing system of the language.

Class Format: twice-weekly review sessions
Requirements/Evaluation: Spoken and written midterm and final exams.
Prerequisites: Sophomore or higher standing with a minimum GPA of 3.0; application to the Critical Language Program in early April.
Enrollment Limit: 8
Enrollment Preferences: Preference given to application submission during the information-application period in April.
Expected Class Size: 2 - 8
Grading: no pass/fail option, yes fifth course option
Unit Notes: Minimum enrollment of two students in order to schedule the course.
Distributions: (D1)

Fall 2021
LEC Section: 01 TBA Jane E. Canova

CRPE 102  (S) Elementary Persian
Continuation in developing communicative skills, vocabulary building, and furthering familiarity with frequently used grammatical structures and writing.

Requirements/Evaluation: Oral and written midterm and final exams.
Prerequisites: Must have completed CRPE 101.
Enrollment Limit: 8

Enrollment Preferences: Students who have presented application and enrolled in CRPE 101.

Expected Class Size: 2-8

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Spring 2022

LEC Section: 01    TBA     Jane E. Canova
The Critical Languages Program enables students to study important foreign languages relevant to their academic interests but not taught in regular courses at Williams. The program can field a limited number of courses per year*, and it has offered one-year of elementary Hebrew, Hindi, Korean, Persian, Portuguese, and Swahili thus far. Students work independently with standard language textbooks and audio materials for roughly ten hours per week and attend twice weekly group review sessions with tutors who are native speakers. Language faculty from other institutions provide the course syllabus, conduct the exams, and determine the final grades. An organizational meeting for enrolled students is held the first week of each semester.

Interested students must present an application and have it approved before registering for a course. Applications are available during the first two weeks of April and can be obtained from the Coordinator at the Center for Foreign Languages, Literatures, and Cultures, Hollander 230 or online at cfllc.williams.edu/critical-languages.

Note that like other elementary language courses, the Critical Languages courses are hyphenated, meaning no credit is given for the first semester until the second semester is successfully completed. Students must normally begin a course in the fall semester. It cannot be taken Pass/Fail. An organizational meeting will be held the first week of each semester.

A consecutive year of intermediate language study will be considered only upon petition of those students completing a full year of elementary study with the Critical Languages Program and as long as a minimum of two students are enrolled to continue their language study.

All courses adhere to the guidelines of the National Association of Self-Instructional Language Programs (NASILP).

* A Critical Languages course will be scheduled only if and when at least two students are accepted for study and provided a native tutor and outside examiner have been contracted.

DANCE (Div I)
Chair: Sandra Burton

- Sandra L. Burton, Lipp Family Director of Dance and Senior Lecturer in Dance
- Saroya Y. Corbett, Gaius Charles Bolin Fellow in Dance
- Erica Dankmeyer, Artist-in-Residence in Dance
- Janine Parker, Artist-in-Residence in Dance
- Munjulika Tarah, Assistant Professor of Dance

The Dance Department offers students ways to investigate embodied knowledge and to develop multiple perspectives by studying individuals and communities. Our courses support close study of physical practices, histories, cultural context and musical understanding and interpretation. Through techniques, research, and creative inquiry, students deepen capacity for interdisciplinary discovery.

The department curriculum offers complementary study in the disciplines of Theater, Visual Art, Africana Studies, American Studies, Asian-American Studies, Global Studies, Gender Studies, Music, and Performance Studies. Dance technique courses include ballet, modern, and African Dance.

Currently students seeking to anchor their academic and creative study in dance may pursue the Contract Major option. Designated courses are offered for full academic and/or PE credit; you must register for PE courses through the Physical Education department.

All students are welcome to audition for membership in the Department’s performing companies which include: CoDa, whose members train in and perform works created in the vocabularies of modern dance and ballet; Kusika, an African Dance and percussion ensemble which accepts members as dancers, musicians, and storytellers; Sankofa, the college’s step team, whose members present this percussive dance form with both respect to tradition and an energetic exploration of new ideas; and the Zambezi Marimba Band, which performs music from Zambia and Zimbabwe, as well as from around the world. Membership is also possible through invitation by the company directors. Company members study with faculty, guest artists and peers. Student choreographers are also supported.

DANC 100 (F) Foundations in Dance

This course is an introduction to the fundamentals of dance history and techniques focusing on Ballet, Modern dance and African dance and music genres. Regular physical work that provides experience in dance technique, reading, discussion about cultural context and significant innovators, viewing media, live performance and writing about dance are required. This course may not be taken for PE credit.

Class Format: discussion
Requirements/Evaluation: active participation and progress in the techniques, quality of written assignments and project presentations
Prerequisites: none
Enrollment Limit: 25
Enrollment Preferences: beginning dancers and students with no prior experience
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Unit Notes: may not be taken for PE credit
Distributions: (D1)

Not offered current academic year

DANC 103 (F) Historical Research in Dance and Performance Studies

Cross-listings: ARTH 204 DANC 103
Primary Cross-listing

This course is an introduction to the historical context of dance forms prevalent in the US and analysis of movement-based performances. While
readings and viewings will focus on the socio-historical background of dance genres practiced at Williams and beyond, an important element of the course will be the practice of documenting, interpreting, and writing about performances as historical and cultural mediums. The course will enable students interested in dance, theatrical and visual arts (including advertising and marketing) to hone their skills in the practice of analyzing still and moving images, while also offering students of history and art history the opportunity to develop competency in historical research. This is primarily a discussion-based seminar course. Learning objectives: to understand the social and political contexts for various performance genres; to explore interdisciplinary and embodied modes of engaging with movement; to develop the ability to document, analyze, and write about dance as a historical and cultural text.

Class Format: This class will be held remotely and will include a combination of tutorial-like small group meetings, periodic synchronous sessions, and asynchronous work such as Glow posts or recorded lectures.

Requirements/Evaluation: short weekly assignments, two 5-7 page essays, two group presentations.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first-years and sophomores

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 204 (D1) DANC 103 (D1)

Not offered current academic year

DANC 104 (F) Ballet I Beginning Ballet Technique

In this class, students learn the fundamentals of ballet technique, in a manner both safe and challenging. This is an absolute beginning course: EVERYONE is welcome! In barre work and center/traveling exercises, the class will begin to develop a working understanding of basic positions of the arms and legs; individual steps such as turns and jumps; and simple combinations. Through repetition and logical progression artistry, musicality, strength and coordination will develop and grow. This course may be repeated for credit. *NOTE: students can receive either partial academic credit for this course (credit which doesn't count toward the number required for graduation, but which does appear on one's final transcript) or Physical Education credit. For students who wish PE credit, please register through the PE department.

Class Format: course meets for the full semester, twice per week

Requirements/Evaluation: quality of participation, individual progress with the physical material, and clear understanding of concepts

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: beginning students

Expected Class Size: 12

Grading: pass/fail option only

Unit Notes: May be taken for PE or partial academic credit. If PE, register through the PE dept. Otherwise, students must contact instructors for permission to be put on roster and must attend the first class meeting.

Materials/Lab Fee: Ballet class attire, i.e., leotards, tights/leggings, slippers (students should purchase their own clothing); Est. cost: $75

Distributions: No divisional credit

Fall 2021

STU Section: 01  TR 11:20 am - 12:35 pm  Janine Parker

DANC 105  BFF! (Ballet Film Festival!) Ballet Technique, History/Evolution

This course is for ANYONE interested in learning about ballet, through a variety of experiences. First, of course, will be physical practice. For those who have no (or little) prior ballet training, you'll learn the fundamentals of ballet technique in a safe but challenging class (separate classes are available for intermediate/advanced dancers) twice per week. All course participants will gather together once a week for movie/documentary viewings—a wide range of films (primarily) about ballet and ballet dancers from around the world. Readings and other viewings will be assigned so that
all students have a grasp of the overarching history of ballet. We'll consider whether, how, and why "traditional" ballets can be relevant as performance art today, and explore ways in which ballet has stumbled, and ways in which it has soared and evolved. While the course assignments will offer historical context, we'll also take a rigorous look at broader topics in the art form, including some of the ways in which ballet hasn't always lived up to its potential as a dance form for all people regardless of class, race, and gender. We'll consider basic information—plot-lines of ballets we'll be looking at—as well as more subtle ideas—famous dancers' takes on these roles, the socio-political aspects of the works themselves and the times they were created in. Students will submit (informal) written responses to the assignments. The class may go on one or two field trips to attend performances and will write response papers when applicable. EVERYONE is welcome in this class, and students will be assessed on their individual progress.

Class Format: In addition to physical classwork in the dance studio, class will gather to view/discuss dance films; one or two field trips to view live dance will occur over semester

Requirements/Evaluation: Workload: in-class physical participation, 2x per week, 75 minutes each class = 2.5 hours/wk; group film viewing/discussion = 3 hours per week; outside of class readings and viewings, with informal written responses, assigned 1x or 2x per week = 2-4 hours/wk; one or two live performance "field trips" with response papers over course of semester. Evaluation: based on quality of participation & individual progress in technique class, (50% of grade); quality of assignment responses and in-class discussions (20% of grade); live performance response papers (10% of grade); final "Film Festival Review" paper (20% of grade)

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: Students who express a wish to engage with dance in the future

Expected Class Size: 15

Grading:

Materials/Lab Fee: Ballet class attire: leotard, tights/leggings, ballet slippers (students should purchase their own clothing) approx. $75-100. Field Trip travel/meals: approx. $75 per student per trip (max two trips per semester)

Distributions: (D1)

Not offered current academic year
and stories. They are embodied, and they create change through this embodiment. During the summer of 1964, the Motown anthem Dancing In the Street (D.I.T.S.) became a joyful expression of the desire to take up space, in tune with the powerful political and social justice movements of the time. D.I.T.S. continues to be sung by contemporary artists as an expression of celebration and as a call to action, highlighting the cyclical nature of time and experience. What brought people into the streets in communities across the globe in 1964, in 2020, and beyond? With this question in mind, we will examine, discuss, and respond to the ways in which artistic expression can document lived experiences, and deploy similar tactics to explore and document our present lives. How have artists documented and driven forward major themes in social justice, both in the past and in our current times? A primary focus of consideration will be the anti-lynching movement across time, which has given rise to the art and aesthetics of the Civil Rights, Black Lives Matter, and Say Her Name Movements. Grounding this work will be a deep exploration of “Strange Fruit,” an artistic tour de force that began life as a poem in response to a photographic image and grew to encompass dance, visual art, theatre, media, and music—particularly the enduring and repeating renditions by artists like Billie Holiday, Pearl Primus, and Nina Simone. The course trajectory will also be deeply affected by the students who take part, offering their own stories and experiences in conversation with the work of influential creative practitioners. Inspired by our own origin stories and the roll call of cities heard in D.I.T.S., we will consider the ways in which dance, music, theatre, visual art and other forms of creative expression are made to be shared, causing culture and experiences to bear witness and become meaningful beyond the boundaries of origin.

Course meetings will include viewings and discussions of creative expression in various media and formats through an ethnographic performance studies lens, further examining the role of the artist as witness/documentarian, activist, and agent of change. This work will serve as a catalyst in the production of original performance offerings (solo and group-based) that will be shared with a public audience.

Class Format: Seminar/Studio. This course is a collaboration with Gotham Professional Arts Academy, an arts-focused public high school in Brooklyn, NY, and all sessions will feature the participation of students from both institutions. Other resources include guest artists and scholars, the online Jacob’s Pillow Dance Interactive and Archives, the Williams College Museum of Art, New York City Public Library of Performing Arts, and the Schomburg Center for Research in Black Culture.

Requirements/Evaluation: Evaluation will be based upon: 1. Scheduled showings of material you and any collaborators are making in response to course materials, guest artists and scholars. 2. Quality of participation in weekly meetings that are interactive and discussions of course materials. 3. A 7-10 page paper that provides the research foundation for your final project. 4. A final performance project/presentation that is a synthesis of the information and ideas presented and developed over the course of the semester.

Prerequisites: None. This course is intended for beginning as well as experienced students who are curious about ways that the arts (dance, music, theater, media, etc.) document the present and the past. DANC 107 & DANC 108 do not need to be taken in sequence.

Enrollment Limit: 12

Enrollment Preferences: An interest in the arts, performance studies, popular culture, history, and/or experience in social dance, music, theatre, writing or visual art making. No prior training is necessary in the above. Come prepared to play, take risks, and find joy together

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

DANC 108  (S)  Dancing in the Streets (The Message)

There is a reason why collective activism and impulses toward revolution are called “movements.” Movements have bodies, actions, rhythms, voices, and stories. They are embodied, and they create change through this embodiment. During the summer of 1964, the Motown anthem Dancing In the Street (D.I.T.S.) became a joyful expression of the desire to take up space, in tune with the powerful political and social justice movements of the time. D.I.T.S. continues to be sung by contemporary artists as an expression of celebration and as a call to action, highlighting the cyclical nature of time and experience. What brought people into the streets in communities across the globe in 1964, in 2020, and beyond? With this question in mind, we will examine, discuss, and respond to the ways in which artistic expression can document lived experiences, and deploy similar tactics to explore and document our present lives. How have artists documented and driven forward major themes in social justice, both in the past and in our current times? A primary focus of consideration will be the use of storytelling as a vehicle for artistic expression that connects people and ideas across time and space. When Grandmaster Flash and The Furious Five drop “The Message” in 1982, the Bronx is burning, and the birth of hip-hop has people returning to the streets. Disco's velvet rope comes down and urban America comes together to celebrate the life they can live, aspire toward a life they want to live, and spread the word about the realities they face along the way. The cypher creates space for verse, hooks, samples, and dance, and the world becomes a canvas as graffiti artists work to claim space and contribute to a new canon. With global urban music like hip-hop, reggae, and Afrobeats as
a backdrop, we will examine the impact of vernacular African American dance and music, and its presence in various performance traditions. The course trajectory will also be deeply affected by the students who take part, offering their own stories and experiences in conversation with the work of influential creative practitioners. Inspired by our own origin stories and the roll call of cities heard in D.I.T.S., we will consider the ways in which dance, music, theatre, visual art and other forms of creative expression are made to be shared, causing culture and experiences to bear witness and become meaningful beyond the boundaries of origin. Course meetings will include viewings and discussions of creative expression in various media and formats through an ethnographic performance studies lens, further examining the role of the artist as witness/documentarian, activist, and agent of change. This work will serve as a catalyst in the production of original performance offerings (solo and group-based) that will be shared with a public audience. We will examine how dancers/chorographers Rosie Perez, Fatima Robinson, Charles O. Anderson, Nora Chipaumire and Rennie Harris use dance and media to tell personal stories and document public events. Musicians/performers Billie Holiday, Nina Simone, Beyoncé, Public Enemy, Kendrick Lamar and visual artists Carrie Mae Weems, Titus Kaphar, Hank Willis Thomas, and Adrian Piper are creators whose work will be referenced. What questions are artists posing? What statements are they making? What can be made that responds to this work and that reflects your own stories? Course meetings will include: 1. Weekly movement and music sessions to learn selected dance and music material 2. Weekly discussion of readings, media and other course materials 3. Making a solo and a collaborative project during the semester to be shared as a final project 4. A short research paper on an artist, movement or form that your work informs your work

DANC 201 (F) African Dance and Percussion

Cross-listings: AFR 201 DANC 201 MUS 220

Primary Cross-listing

We will examine two forms that embody continuity of tradition or the impact of societal, political or economic change. Lamban was created by the Djeli, popularly called Griots served many roles in the kingdoms of Ghana and Old Mali from the 12th century to current times. This dance and music form continues as folklore in modern day Guinea, Senegal, Mali and The Gambia where it is practiced by the Mandinka people. Bira is an ancient and contemporary spiritual practice of Zimbabwe's Shona people. While these forms are enduring cultural practices, Kpanlogo from the modern West African state of Ghana represents the post-colonial identity of this nation's youth and their aspirations for independence at the end of the 1950s. We will also consider the introduction of these forms outside of their origin. This course can be taken for academic and/or PE credit

Class Format: class hours will be used to learn and use the dance and music of at least two forms including historical context, a group and individual research project or paper. When possible, our process will include guest artists and field trips to see live performance as well as use of the archives at Jacob's Pillow Dance Festival.

Requirements/Evaluation: discussion of assignments, group response performances, and short research paper. Students enrolled for PE credit are responsible only for the performance-based projects

Prerequisites: none
Enrollment Limit: 12

Enrollment Preferences: students who have taken a 100 level dance course of DANC 202; have experience in a campus-based performance ensemble; or have permission of the instructors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Cross-listings: AFR 206 MUS 221 DANC 202

Primary Cross-listing

Before the 20th century, the African continent was the source of dance and music that influenced new forms rooted on and off the continent. These forms are shaped by the impact of religion, colonialism, national political movements, travel, immigration, and the continuing emergence of technology. In South Africa, the labor conditions of miners instigated the creation of Isicathulo, Gum boots, and in Brazil the history of colonialism is a factor that anchors Samba as a sustaining cultural and socioeconomic force. The birth of Hip Hop in the 20th century finds populations across the globe using its music, dance, lyrics, and swagger as a vehicle for individual and group voice. Hip Hop thrives as a cultural presence in most countries of the African continent and in the Americas. We will examine the factors that moved this form from the Bronx, New York, to Johannesburg, South Africa, and Rio, Brazil. We will examine at least two of these forms learning dance and music technique and composition material that will inform their practice. Each of these genres generated new physical practices, new and enduring communities while continuing to embody specific histories that have moved beyond their place of origin. What is their status in this century?

Class Format: class hours will be divided among discussion of media and readings; rehearsal of dance and music techniques; field trips to view performances; research at the Jacob Pillow's archives; and interaction with visiting artists

Requirements/Evaluation: a series of discussion, research, and individual and group projects; all of which will inform collaboration on mid-term and final projects

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: students who have taken DANC 107, 108 or DANC 201; have experience in a campus based performance ensemble; or have permission of the instructors

DANC 203 (S) Intermediate Ballet: Technique, Repertoire, History and Now

Designed for dancers who have achieved a beginning/intermediate level, in this course students will explore different eras of ballet through the lens of famous ballets, dancers, choreographers and other key figures. In addition to technique classes, corps de ballet (ensemble) sections and/or variations
from the chosen ballets will be taught and coached to students. Learning sequences from these ballets is an excellent training tool, as these short
dances are technically, musically, dramatically and spatially challenging. Therefore, this is primarily a studio course, although, through readings and
viewings, we will also consider whether, how, and why these ballets can be relevant as performance art today. While the course assignments will offer
historical context, we'll also take a rigorous look at broader topics in the art form, including some of the ways in which ballet hasn't always lived up to
its potential as a dance form for all people regardless of class, race, and gender. We'll consider basic information--the plot-lines of the ballets we'll be
working on--as well as more subtle ideas--famous dancers' takes on these roles, the socio-political aspects of the works themselves and the times
they were created in. Viewings will also be assigned to allow students to fully explore and grasp the ballets. Students will submit (informal) written
responses to the assignments. The class may go on one or two field trips to attend performances and will write response papers when applicable.
ANY student with adequate prior knowledge is welcome to this class! Students will be assessed on their individual progress. This course MAY BE
REPEATED for credit.

Class Format: lecture and discussion

Requirements/Evaluation: quality of participation & individual progress in tech. class, rehearsals and presentations; as well as quality of assign.
responses, quizzes, etc.

Prerequisites: prior experience in ballet training; permission from instructor required for all students to enroll

Enrollment Limit: 20

Enrollment Preferences: students with demonstrated prior experience

Expected Class Size: 7

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: ballet class attire: leotard, tights/leggings, ballet slippers

Distributions: (D1)

Not offered current academic year

DANC 204  (S)  Ballet II Intermediate Technique

This course is for students who have reached an intermediate level of ballet and are serious about continued progression in their technique and artistry
and interested in working with spirit, perseverance, and joy. ANY student with adequate prior knowledge is welcome to this class! Proper alignment
and rigorous but safe application of technique are stressed. Classes will follow the traditional ballet class format of barre work proceeding into center
work*: vocabulary, ability and stamina will be built in a safe but challenging atmosphere. Students will be guided to work safely and correctly with their
individual abilities. The classes have live piano accompaniment. In Fall 2020, classes will be offered each week in the following formats: in-studio for
on-campus students; live-streaming for off-campus students in a similar time zone; pre-recorded films for off-campus students unable to realistically
engage in the "live" session blocks. If the number of on-campus students exceeds the studio space limit for this year, we will follow an alternating
studio/livestream schedule. Classes will be designed with the knowledge that many spaces will be restrictive. Elements such as floor barre will be
given as training supplements for students working in very small spaces. *In Fall 2020, traveling exercises such as traditional grand allegro will be
greatly reduced/deconstructed.

Class Format: Full semester participation, pass/fail or PE credit. In Fall 2020, classes will be offered in these formats: in-studio for on-campus
students; live-streaming for off-campus students in a similar time zone; pre-recorded films for off-campus students unable to engage in live session
blocks. If the number of on-campus students exceeds the space limit for this year, we'll follow an alternating studio/livestream schedule. Classes will
be designed with the knowledge that many spaces are restrictive.

Requirements/Evaluation: Robust participation and individual progress with material, technique and deeper understanding of concepts

Prerequisites: Ballet I and/or prior experience in ballet, and permission of instructor.

Enrollment Limit: 12

Enrollment Preferences: students who have taken level I, placement class with instructor or permission based on prior training

Expected Class Size: 8

Grading: pass/fail option only

Unit Notes: May be taken for PE or partial academic credit. If PE, register through the PE dept. Otherwise, students must contact instructors for
permission to be put on roster and must attend the first class meeting.

Materials/Lab Fee: ballet class attire, i.e., leotards, tights/leggings, slippers (students should purchase their own clothing); Est. cost: $75

Distributions: No divisional credit
DANC 205 (F) Modern Rebels: Movement Revolt and Revelation

"I dance not to entertain but to help people better understand each other." --Pearl Primus

This course offers students the opportunity to learn both the embodied practices and historic context of modern dance. Twice a week, students study modern dance technique at the level appropriate for them, as an immersion into the physicality, principles, and aesthetics of the form. Once a week, students attend a seminar together in which we examine a range of artists' voices, such as Doris Humphrey, Charles Weidman, Martha Graham, Pearl Primus, Jose' Limon, Talley Beatty, Jane Dudley and Alvin Ailey, innovative artists whose works arose from both stylistic and thematic concerns in the struggle for artistic freedom and social justice. Modern dance choreographers responded directly to their individual identities, including gender, race, age, etc., and laid the foundation for contemporary dance today. Through readings, viewings, discussion and writing, we will consider these topics and why some artists, and not others, had greater opportunities to advance their art form as a tool for expression, social critique and resistance.

Class Format: Instructor will determine which technique level is appropriate for each student. Please contact instructor prior to registration. After contacting the instructor, students will enroll in either Beginning Modern Dance: Section 02 Tuesday/Friday 1:10-2:25 pm (T) OR Intermediate Modern Dance: Section 03 Tuesday/Friday 2:35-3:50 pm (U). Once you enroll in your lab section you will automatically be enrolled in seminar, which meets Weds. 1:10-2pm (X).

Requirements/Evaluation: Students will be evaluated based on their work in both technique classes and seminar. Students are evaluated in an ongoing way on their individual progress in technique; they are expected to demonstrate consistent effort and focus in order to support their growth. Students are expected to complete course readings and viewings in order to actively participate in seminar discussions, generate periodic short written responses, and demonstrate an understanding of the foundations of modern dance and its legacy, yesterday and today.

Prerequisites: None. Instructor will determine which technique class is the appropriate level for each student. Please contact instructor prior to registration.

Enrollment Limit: 20

Enrollment Preferences: Preference given via lottery if over-enrolled

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

LAB Section: 03 TF 2:35 pm - 3:50 pm Erica Dankmeyer

DANC 206 (F) Modern Dance II: Intermediate Modern Dance

This course is designed for students with some experience with dance technique who wish to develop their skills specific to modern dance. Students will learn the physicality, aesthetics, and philosophy of the art form. We will build increased endurance, expanded vocabulary of movement, and will explore more complex use of space, with a focus on musical awareness and longer phrases of movement. Proper body alignment and use of breath, space, and music are emphasized. Live musical accompaniment will give students the opportunity to approach movement with varied and nuanced sound. Approaches to technique created by various founding figures in modern dance will be introduced where appropriate, in order to recognize the depth of styles and shared concepts at the root of the art form.

Class Format: For .5 (P/F) or PE credit, full semester participation required.

Requirements/Evaluation: Quality of participation and progress made during the semester with the creative and physical concepts taught. Students will be assessed on their individual progress.

Prerequisites: Modern I and /or permission of the instructor; may be repeated for credit. If the student is unsure if their experience in dance provides enough preparation, or is not known by the instructor, they should seek permission of the instructor.

Enrollment Limit: 12

Enrollment Preferences: Students who have taken Modern I or other department dance courses with technique components, or who have previous study in a dance technique.
**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** May be taken for partial (.5 P/F) academic credit, or PE credit. For PE credit, register through the PE Dept. Students seeking .5 credit, contact instructor for enrollment procedure and assistance.

**Distributions:** No divisional credit

Fall 2021

STU Section: 01 TF 2:35 pm - 3:50 pm Erica Dankmeyer

**DANC 207 (F) ReReading/Righting Ballet’s History: Celebrating BIPOC Figures in Ballet (w/ Ballet Technique)**

“What does dance give you?” asked the great African American dancer, teacher, and director Arthur Mitchell: “The freedom to be who you are and do what you want to do.” In the ballet world, however, Black, Indigenous, and People of Color have struggled to achieve that “freedom” their white counterparts have enjoyed. In this course students continue their technical/artistic training in ballet while also exploring different topics in past and current ballet history; in Fall 2021, our main focus will be on some of the notable BIPOC figures in the world of ballet, with the history of ballet providing both a timeline and a sociopolitical backdrop against which we can trace and discover the intersectionality that has helped shape the aesthetics of ballet as well as other genres we know today. Though this is primarily a studio course (with twice-weekly ballet technique classes) readings and viewings relevant to our coursework will be assigned; a third weekly meeting will be held for group discussions on those assignments. Alongside broader ballet history texts, the essays and articles by authors such as Brenda Dixon Gottschild and Theresa Ruth Howard will offer keen insights into some of the more specific issues and topics regarding race and diversity in the field of ballet. In addition to informal, written responses to the readings and viewings, Howard's website "Memoirs of Blacks in Ballet" will be an important anchor/springboard for course projects. Howard will be a guest collaborator in this course for Fall ’21; in addition to joining us (remotely) for discussions, she will guide us in those projects.

**Class Format:** Students will be placed in either Beginning Ballet, or Intermediate/Advanced Ballet (see prerequisites for more information): Beginning Beginner Ballet: Section 02 Tuesday/Thursday 11:10 am-12:35 pm (N) OR Intermediate/Advanced Ballet: Section 03 Monday/Wednesday 11:00 am-12:15 pm (P). ALL students will meet together for a third class meeting/seminar on Fridays, 11:00 am-12:15 pm.

**Requirements/Evaluation:** Robust engagement in technique classes and meeting sessions; timely and thoughtful written (informal) responses to assigned readings and viewings; development and presentation of course projects.

**Prerequisites:** Technique for the two levels will be separate. For the beginner level NO prior experience is required. For the int/adv level, students must have at least three yrs of prior ballet training, and instructor's permission.

**Enrollment Limit:** 12

**Enrollment Preferences:** Students who are invested in learning both the physical aspect of ballet technique, as well as its broader history and the specific areas this course is investigating.

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** Ballet class attire (i.e., leotards, tights/leggings, slippers)--students are responsible for acquiring personal clothing and shoes. Est. cost $75-150.

**Distributions:** (D1)

**DANC 210 (S) LET'S MAKE A DANCE: Dance Making and Re-Making**

This course is designed for first-time dance makers as well as more experienced dance students who seek the opportunity to practice dance making in a structured, intimate setting. Any genre or style of dance may be explored. Projects are designed primarily to empower the creator to clarify the intent and vision for their work. Central to this is the practice of giving and receiving feedback, using Liz Lerman's Critical Response Process (CRP). Projects may include solo and group work, site-specific dance making, and creating in collaboration. Students are expected to rigorously build upon and revise their work(s) in three possible roles: artist, responder, and facilitator. Studying the work and philosophies of dance makers in a variety of genres, such
as Akram Khan, Pina Bausch, Camille A. Brown, and William Forsythe will give further context to our work. Weekly presentation of assignments, active participation in CRP sessions, reading assignments, identifying to the group one’s intended goal(s) for the week, written reflection on sessions, and final showing will be required. Three seminar sessions will be included in the class.

Class Format: plus one full class meeting per week

Requirements/Evaluation: weekly presentation of assignments, participation in CRP sessions, identifying to the group one’s intended goal, written reflection on sessions, and final showing

Prerequisites: none

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Not offered current academic year

DANC 211  (S)  Afro-Modern Dance: Theory & Practice (Dunham Technique)

Modern African diasporic dance creates a conversation between the past and the present; it brings forth memories of the African "homeland" and of the dispersal of African bodies around the world, while simultaneously engaging the current joys, pains, challenges, and cultural growth of Black people. Through movement and rhythm, dancers experience the embodied knowledge of previous generations, while connecting to contemporary cultural, political, and economic realities. Katherine Dunham devoted her life to exploring and exposing the multiple layers and complexities of the African diasporic experience through her ethnographic dance choreographies, her dance technique, her schools, her music, and her writing. Dunham's work as a dance anthropologist, artist, educator, and humanitarian is manifested in Dunham Technique; the technique is a fusion of African diasporic dance, ballet and modern dancer, and functions as an embodied medium for cultural communication. The technique is considered "a way of life" as it uses theory and philosophy to engage participants in a holistic experience that is not only physical, but also intellectual, emotional, and spiritual. Through this combination of physicality, history, theory, and philosophy, Dunham Technique is a tool to understand one's inner self and place oneself within a historical and cultural framework. In this course, students will explore the history, theory, and philosophies of Dunham Technique and Katherine Dunham, while actively participating with the technique's movement concepts and vocabulary. Students will engage in the fundamentals of a Dunham Technique movement class through center floor work, barre exercises, progressions, and choreography. The course will combine the studio experience of the physical technique with lectures and discussions. Students will learn about the three theories of Dunham Technique (Form and Function, Intercultural Communication, and Socialization through the Arts) and its three philosophies (Self-Examination, Detachment, and Discrimination) while also learning the history and historical context of the technique and its creator. Students are expected to have experience in modern dance or other dance techniques.

Class Format: The course meets in person, twice per week for the full semester. The course includes two main integrated components: physical dance training and lecture/discussion. Students will experience guest artists certified in Dunham Technique.

Requirements/Evaluation: Students will be evaluated on the completion of (4) journals, the quality of the final movement assignment, the completion of weekly reading assignments, and their participation during class activities/discussions.

Prerequisites: Students who have taken Modern I/DANC 106 or other department dance courses with technique components, or have previous study in Dunham technique.

Enrollment Limit: 25

Enrollment Preferences: Students with 1-2 years of formal dance training and interested in expanding their knowledge of African diasporic dance and Dunham Technique.

Expected Class Size: 15-20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

DANC 214  (F) Performance Ethnography  (DPE)

Cross-listings: GBST 215  DANC 214  ANTH 215  AMST 214  THEA 215
The course aims to explore the theory, practice, and ethics of ethnographic research with a focus on dance, movement, and performance. Traditionally considered to be a method of research in anthropology, ethnography is the descriptive and analytical study of a particular community through fieldwork, where the researcher immerses herself in the culture of the people that she researches. In this course students will be introduced to (i) critical theory that grounds ethnography as a research methodology, (ii) readings in ethnographic studies of dance and performance practices from different parts of the world, and (iii) field research in the local community for their own ethnographic projects. This is primarily a discussion-based seminar course and may include fieldwork, attendance at live performances, film screenings, workshop with guest artists etc. No previous dance or performance experience is assumed or required.

Class Format: community-based field work

Requirements/Evaluation: class participation, reading responses, fieldwork and field notes, short papers, and final essay

Prerequisites: none

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 215 (D2) DANC 214 (D1) ANTH 215 (D2) AMST 214 (D1) THEA 215 (D1)

Difference, Power, and Equity Notes: This course focuses on ethnographic research with an emphasis on the ethics of doing ethnography in field sites and making performances based on that research. In fieldwork and performance work, there is a difference in social, cultural, and political (broadly conceived) power between researcher and interlocutors. In the course, students' critical analytical skills are developed for them to be self-reflective about these power differentials and to address issues of social inequality.

Not offered current academic year

DANC 216  (S)  Asian/American Identities in Motion  (DPE)

Cross-listings: GBST 214  ASST 214  THEA 216  AMST 213  ASIA 214  DANC 216

Primary Cross-listing

The course aims to explore dance and movement-based performances as mediums through which identities in Asian and Asian-American (including South-Asian) communities are cultivated, expressed, and contested. It will orient students towards "reading" and analyzing live and mediated performances within historical, social, and political frameworks. Students will explore how socio-historical contexts influence the processes through which dance performances are invested with particular sets of meanings, and how artists use performance to reinforce or resist stereotypical representations. Core readings will be drawn from Dance, Performance, Asian, and Asian American Studies, and will engage with issues such as nation formation, race and ethnicity, appropriation, tradition and innovation among other topics. This is primarily a discussion-based seminar course, and might also include film screenings, discussion with guest artists and scholars, and opportunities for creative projects. No previous dance experience is required.

Class Format: This course will be taught in a virtual format and will be remote.

Requirements/Evaluation: reading responses, essays, in-class writing assignments, class participation, and group presentations.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first years and sophomores

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 214 (D2) ASST 214 (D1) THEA 216 (D1) AMST 213 (D1) ASIA 214 (D1) DANC 216 (D1)

Difference, Power, and Equity Notes: This course introduces students to the role of performance in nation formation in Asia and the history of Asian-Americans in the US through analysis of dance performances and practices. Student will explore how race was central to the formation of Asian
and the American nation, and how social and legal discriminatory practices against minorities influenced popular culture. The assigned material provide examples of how artists address these inequalities and differences in social power.

DANC 217 (S) Moving While Black
Cross-listings: COMP 212 AMST 212 AFR 216 DANC 217

Opening your apartment door, driving down the highway, taking a knee, raising a fist, sitting at the lunch counter then or sitting in a café now, these movements have historically and presently prompted fear at a minimum and in the most grave cases death for black people. Whether in the U.S. or globally, moving in the world as a black person often means being perceived as different, foreign and threatening. Crawling, dancing, running and boxing, these movements have countered fear and articulated the beauty, pride, creativity and political resistance of black people. In both cases, black movement matters and means much. While many consider movement to be just organized dance moves, this course expands students' definitions of black movement and teaches them to analyze multiple perceptions, uses, and reactions to it. "Moving while Black" offers examples of physical movement in improvised and practiced performance, quotidian movement, geographical movement across national borders and symbolic, politicized gestures. Students will investigate black movement via inter disciplinary sources that reflect various time periods and locations. Students may analyze such texts as Jacob Lawrence's visual art in The Migration Series, the movement of the rumba dance form between Cuba and the Democratic Republic of Congo, the Alvin Ailey American Dance Theater's "Revelations," William Pope.L's choreographed crawls, the 1995 World Rugby Cup in South Africa, and the 2018 case of a Kansas resident arrested while moving into his own home. Additionally, this course features an important practice element, in which students experiment with in-class movement exercises and workshops, engage with dance archives at Jacob's Pillow, interview participants of Kusika, and create and perform their own choreographies. While no previous experience in performance is required, curiosity and openness to learning through one's own body movement is expected.

Class Format: classes will rotate throughout the semester between seminar discussions in the classroom and performance exercises in the studio
Requirements/Evaluation: multiple reading/viewing responses in a movement journal, an essay closely analyzing movement; a presentation, and multiple movement-based performances including a final project with outside research and a proposal
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: Africana Studies concentrators
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)
This course is cross-listed and the prefixes carry the following divisional credit:

DANC 226 (S) Gender and the Dancing Body (DPE)
Cross-listings: WGSS 226 AMST 226 THEA 226 DANC 226

This course posits that the dancing body is a particularly rich site for examining the history of gender and sexuality in America and beyond. The aim of the course is to explore ideas related to gender and sexuality as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and will also include film screenings, discussions with guest artists, and opportunities for creative projects. No previous dance experience required.

Class Format: This course will be taught in a virtual format and will be remote.
Requirements/Evaluation: class participation, reading responses, essays, in-class writing assignments, and group presentations
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: first years and sophomores
Expected Class Size: 10-15
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 226 (D2) AMST 226 (D1) THEA 226 (D1) DANC 226 (D1)

Difference, Power, and Equity Notes: In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

Not offered current academic year

DANC 267 (S) Performance Studies: An Introduction (DPE)

Cross-listings: DANC 267 WGSS 267 COMP 267 THEA 267

Secondary Cross-listing

Since the 1980s, performance studies has emerged as an interdisciplinary field of inquiry, with origin tales in theater and anthropology, in communications and philosophy. What might theorizing "performance" as mode, analytic, and object of study have to offer scholarship in the interdisciplinary humanities? In this seminar, we will read texts formative of performance studies, paired with multimedia performance examples, where performance speaks to staged theatrics as well as the presentation of everyday life. We will ask, how are race, gender, sexuality, and nation produced as the effects of legal, political, historical, social, and cultural scripts? And--an important partner question--how do discourses and practices of race, gender, sexuality, and nation in fact produce legal, political, historical, social, and cultural effects? This seminar is an introduction to performance studies, an interdisciplinary field in conversation with theater studies, gender studies, anthropology, philosophy, literary theory, visual studies, dance studies, ethnic studies, queer theory, and postcolonial studies. Students will study and experiment with performance while reading theoretical texts to grapple with concepts including ritual, restored behavior, performativity, mimicry, liveness, the body, objecthood, archive, movement, matter, and affect.

Requirements/Evaluation: reflection papers, performance analysis, final paper or performance

Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Comparative Literature majors
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 267 (D1) WGSS 267 (D1) COMP 267 (D1) THEA 267 (D1)

Difference, Power, and Equity Notes: This course tracks performance studies' engagement with feminist, queer, post-colonial, and critical ethnic studies scholarship, equipping students with tools and concepts with which to analyze power, difference, and equity.

Attributes: WGSS Theory Courses

Not offered current academic year

DANC 280 (S) Dancing the Score/Scoring the Dance

Cross-listings: MUS 280 DANC 280

Secondary Cross-listing

This course is designed for students interested in intensive collaborative composition work in dance and music. Students in dance will be paired with students in music; both students will be supported in creating in collaboration by practicing composition in their respective disciplines while working closely with each other in a structured, intimate setting. Any genre or style of music or dance may be explored. Projects will allow students to practice
methodologies of collaboration and creation. Groups will evolve, and document procedures unique to their group. Students are expected to rigorously build upon and revise their work(s) by making active use of feedback sessions. Studying historic and contemporary dance and music collaborations in a variety of genres will give further context to our work. Weekly presentation of assignments, active participation in feedback sessions, identifying to the group what the next steps are, written reflection on sessions, and final showing will be required. Creating in collaboration trains students to articulate vision and intention while enabling the instructors to differentiate their aesthetic values from those of the students. It also trains students to collaborate with other disciplines during the creative process. The format allows class members to receive undivided focus on their processes, while also challenging them to assess their own abilities, create their own next steps, and discover how movement can inspire music as well as music inspiring dance. This tutorial provides a crucial central aspect of the creative arts: a space for ongoing feedback driven by the questions arising for the students, rather than specific aesthetic preferences or working practices. Investment in the work of one’s group is central, sharing responsibility for the development of others’ as well as one’s own work.

**Class Format:** each student choreographer will work with a student composer; they will share responsibility choosing, creating, developing, completing, and presenting their projects

**Requirements/Evaluation:** 10% class participation, 20% written assignments, 70% composition assignments

**Prerequisites:** permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** composition students and student choreographers

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

**DANC 285 (F) Scenic and Lighting Design for Performance**

**Cross-listings:** DANC 285 THEA 285

**Secondary Cross-listing**

The artistic, intellectual, and practical roles of a designer vary widely, from the spectacle of Broadway to the do-it-yourself ingenuity of downtown theater to the conceptual frame of the art gallery space. This course explores the art and techniques of lighting and scenic design for performance. While grounded in a conceptual methodology for development of a design based in textual analysis and research, this course is equally concerned with providing instruction in the techniques and craft necessary for bringing a design to fruition, including: sketching, technical drafting, and model-making; basic physics and theories of color in both surfaces and light; the use of volume, movement, color, intensity, and texture as compositional and storytelling tools; the variety of stage lighting instruments and theatrical soft goods available, and their uses; writing cues; and the translation of concept into light plots, channel hookups, plans and elevations. We will use a variety of performance texts (plays, musicals, opera, and dance) to discover and explore the creative process from the perspective of scenic and lighting designers. The class format will be a combination of lectures, discussions and studio work.

**Requirements/Evaluation:** committed participation in class discussion and feedback; and the thoughtful, timely completion and presentation of multiple design projects of varying scales, focusing on scenic and lighting design, considered both individually and when working in tandem

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** students who have completed THEA 101, 102, 201 or 244, ARTS 100, or equivalent course or practical experience in the performing or studio arts

**Expected Class Size:** 6

**Grading:** no pass/fail option, yes fifth course option

**Materials/Lab Fee:** up to $125 for materials and copying charged to term bill

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

DANC 285 (D1) THEA 285 (D1)
DANC 300  (F)  Advanced Ballet--Technique, Repertoire, & Revolution: Women at the Barre, on Stage, at the Helm

Cross-listings: DANC 300  WGSS 300

Primary Cross-listing

To loosely paraphrase the feminist Emma Goldman, "If I can't dance, I don't want to be part of your revolution." Designed for intermediate/advanced ballet dancers, in this course students will explore different topics in past and current ballet history through the lens of famous ballets, dancers, choreographers, etc. In Fall 2019, we will focus on some of the notable female figures in the world of ballet: while ballet is often perceived as a primarily "female" art form—and indeed, there are many more females vying for positions in ballet companies than males—historically, women have held far fewer leadership positions than men, and have had fewer choreographic opportunities. In addition to technique classes, variations and/or ensemble sections from selected ballets will be taught and coached to students. This is primarily a studio course, although readings relevant to our coursework will be assigned. These assignments will offer historical context, as well as provide rigorous looks at some of the ways in which ballet hasn't always lived up to its potential as a dance form for all people regardless of class, race, and gender. We'll consider basic information—the plotlines of the ballets—as well as more subtle ideas—famous dancers' takes on these roles, the socio-political aspects of the works themselves and the times they were created in. Viewings will also be assigned to allow students to fully explore and grasp the ballets and to provide additional contextualization. Students will submit (informal) written responses to the assignments. The class may go on one or two field trips to attend performances and will write response papers when applicable. This course MAY BE REPEATED for general academic credit (but not for additional WGGS major credit). ANY student with adequate prior training is welcome to this class! Material will be introduced at an intermediate/advanced level, and individuals will be assessed on their own personal progress.

Requirements/Evaluation: quality of participation and progress (throughout the semester) in classes, rehearsals, presentations, and assignment responses

Prerequisites: a minimum of three years prior training in ballet, and a demonstrated ability to safely keep up with this level of instruction; permission of instructor required

Enrollment Limit: 20

Enrollment Preferences: students with demonstrated ability and desire to continue rigorous study

Expected Class Size: 5

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: ballet class attire: leotard, tights/leggings, ballet slippers; and for those on pointe, pointe shoes

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 300 (D1) WGSS 300 (D1)

DANC 301  (S)  Creative Process in Dance

This course gives the experienced mover the opportunity to develop a personal creative voice by examining and practicing methods used to make dances. Creating and collaborating in virtual platforms will allow us to study dance making as it is being practiced in the current moment. We will focus on theory, methods, and the history of composing dance in various traditions. Students will be asked to identify their own methods and engage in research and regular presentations of their compositions for critical feedback. We will practice giving and receiving feedback designed to support artistic growth by using Liz Lerman's Critical Response Process (CRP). Projects may include solo and group work, site-specific dance making, and creating in collaboration. The class will view works by innovative professional choreographers in various dance genres, both contemporary and historic, such as Ephrat Asherie, Michelle Dorrance, Heddy Malem, Shen Wei, Jawole Willa Jo Zollar, Pina Bausch, Akram Khan, George Balanchine, Eiko and Koma, Rennie Harris, Martha Graham, Camille A. Brown, and Trisha Brown. We will have the opportunity to engage directly with guest artists in order to examine contemporary choreographic processes and repertoire. To more fully understand the context in which works were created, we will read work by dance scholars such as John O. Perpener, Brenda Dixon Gottschild, Liz Lerman, Deborah Jowitt, Sally Banes, and Susan Leigh Foster. One or two virtual field trips to Jacob's Pillow, MassMoCA, or other locations in the Berkshires will be included.

Class Format: This course will be taught in an on-line format.

Requirements/Evaluation: Weekly showings of projects, active engagement in feedback sessions and discussion of readings and viewing assignments, written reflections, and final project presentation
Prerequisites: Experience with dance/movement practices and by permission of the instructors

Enrollment Limit: 10

Enrollment Preferences: students who have an active dance practice, defined as study of technique(s) and the habit of composing dances in a specific genre such as Modern dance, Hip Hop, Ballet, African dance forms, social dance and including a hybrid use of dance vocabularies.

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

DANC 302  (F)  Moving Words, Wording Dance  (DPE)  (WS)
Cross-listings:  DANC 302  ENGL 335

Primary Cross-listing

How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this course, we will explore different modes of writing about performance such as fiction, ethnography, and performative writing. The course material will primarily focus on books by artist-scholars of color with the aim of engaging with both the politics of identity in performance and also the politics of texts and archives. Each of the texts we encounter will be paired with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. Besides engaging deeply with the selected monographs, we will practice skills related to writing creatively and analytically about movement-based performance. This class will be held remotely and will include a combination of tutorial-like small group meetings, periodic synchronous sessions, and asynchronous work such as Glow posts or recorded lectures. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) participate in discussions about course materials, (iii) produce creative and critical writing (at least 5-6 pages every two weeks and a final cumulative assignment), and (iv) engage in the revision process of their own work and that of their peers based on feedback from the professor and from writing partners.

Requirements/Evaluation: Each student will write three 5- to 6- page papers on which professor and peers will provide critical feedback on content, style, and grammar. Students will also revise the papers and meet with the professor to discuss the revision process. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Junior and Seniors, and those with specific interest in performance, creative, and analytical writing. Prior dance or performance experience not required.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions:  (D1)  (DPE)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

DANC 302  (D1)  ENGL 335  (D1)

Writing Skills Notes: Each student will write three 5- to 6- page papers on which the professor and peers will provide critical feedback on content, style, and grammar. After each cycle of feedback, students will submit a revision, and will have an individual meeting with the professor to discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Difference, Power, and Equity Notes: The monographs which anchor the course engage with the politics of identity as it manifests in both staged and everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So, our inquiry throughout the semester will necessarily include how bodies "make meaning" in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.

Not offered current academic year

DANC 304  (F)(S)  Ballet III Technique for Intermediate/Advanced Dancers

Designed for dancers who have achieved intermediate/advanced level of ballet technique, and who are interested in working with spirit, perseverance, and joy. Everyone at the appropriate level is welcome! Class includes barre work, center and traveling exercises that incorporate adage, pirouettes,
petit and grand allegro*. Proper alignment and rigorous but safe application of technique are expected, as is an openness to continuing to develop artistic expression. (Additional pointe work available if applicable and requested.) Students are encouraged to work safely and correctly within their individual abilities so that artistry, musicality and the dynamics in ballet are explored. The classes have live piano accompaniment.

**Class Format:** This class can be repeated and meets for the full semester, twice per week. May be taken for PE (2 credits) or partial academic credit. Partial academic credit does NOT go towards the required # for graduation, but will appear on final transcripts. If PE, register through the PE dept. Otherwise, students must contact instructors for permission to be put on roster and must attend the first class meeting.

**Requirements/Evaluation:** Robust participation and individual progress with the material, concepts, and technique

**Prerequisites:** minimum of three years prior experience in ballet or permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** students who have at least three years experience in ballet; students with prior engagement with Dance Department

**Expected Class Size:** 8

**Grading:** pass/fail option only

**Unit Notes:** May be taken for PE or partial academic credit. If PE, register through the PE dept. Otherwise, students must contact instructors for permission to be put on roster and must attend the first class meeting.

**Materials/Lab Fee:** Ballet class attire (i.e., leotards, tights/leggings, slippers and/or pointe shoes)--students are responsible for acquiring personal clothing and shoes. Est. cost $75-150.

**Distributions:** No divisional credit

**DANC 305  (S) Advanced Ballet Technique and Performance**

Designed for intermediate/advanced ballet dancers, this is primarily a studio course. Twice a week dancers will have a 75 minute ballet technique class composed of barre and center work (adage, pirouettes, petit allegro, grand allegro); pointe work and/or partnering will follow for a 1/2 hour, as applicable. The 3rd weekly class meeting will consist of a warm-up followed by rehearsal of a new ballet that will be created for the class. This new ballet will be performed in a formal setting later in the semester, to be determined based on covid protocols at the time. In Spring 2021, classes will be offered each week in the following formats: in-studio for on-campus students; live-streaming for off-campus students in a similar time zone; recorded classes pre-recorded films for off-campus students unable to realistically engage in the "live" session blocks. If the number of on-campus students exceeds the studio space limit for this year, we will follow an alternating studio/livestream schedule. It is understood that some students may be taking class in restrictive spaces and, as necessary, students should seek advice from instructor regarding adaptation tools. This course MAY BE REPEATED for general academic credit. ANY student with adequate prior training is welcome to this class! Material will be introduced at an intermediate/advanced level, and individuals will be assessed on their own personal progress.

**Class Format:** There will be at least two performances, outside the informal studio setting, of the original ballet the students will be learning.

**Requirements/Evaluation:** Quality of participation and progress (throughout the semester) in classes, rehearsals, and performances. Each student will be expected to review/rehearse material on their own, outside of regular classes/rehearsals, in order to come to each meeting prepared and ready to progress.

**Prerequisites:** a minimum of three years prior training in ballet, and a demonstrated ability to safely keep up with this level of instruction; permission of instructor required

**Enrollment Limit:** 12

**Enrollment Preferences:** Students with demonstrated ability and desire to work collaboratively, thoughtfully, rigorously

**Expected Class Size:** 6

**Grading:** yes pass/fail option, yes fifth course option

**Materials/Lab Fee:** Ballet class attire (i.e., leotards, tights/leggings, slippers and/or pointe shoes)--students are responsible for acquiring personal clothing and shoes. Est. cost $75-150.

DANC 317 (F) Black Migrations: African American Performance at Home and Abroad

Cross-listings: AFR 317  COMP 319  AMST 317  DANC 317  ENGL 317  THEA 317

Secondary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation: class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

DANC 323 (S) Arts Organizing in Africa and the Diaspora (DPE)

Cross-listings: THEA 321  MUS 323  DANC 323

Secondary Cross-listing

At the heart of this class is the question, how do artists and organizations use the performing arts to effect social change in their communities? Drawing from a number of case studies from throughout Africa and the African Diaspora, we will first endeavor to understand and contextualize issues related to education, social uplift, the environment, and the economy as they relate to specific communities. We will then examine how a series of organizations (from grassroots campaigns to multinational initiatives) utilize the performing arts in response to those issues. Among the issues we will discuss at length are: -How do performers and organizations navigate the interplay between showcasing the performance talents of individuals and groups and foregrounding an issue or cause? More broadly, what dilemmas emerge as social and aesthetic imperatives intermingle? -What are the dynamics between people acting on a local level within their communities and their various international partnerships and audiences? -How can government or NGO sponsorship help and/or hinder systemic change? By the end of the semester, students will be equipped with conceptual frameworks and critical vocabularies that can help them ascertain the functions of performance within larger organizations and in service to complex societal issues. Throughout the course, we will watch and listen to a variety of performances from traditional genres to hip-hop, however this class is less about learning to perform or analyze any particular genre than it is about thinking through how performance is used as a vehicle for social change.
Case studies will include youth outreach and uplift in Tanzania through the United African Alliance, campaigns to promote girls' education in Benin and Zimbabwe, community-wide decolonizing initiatives through the Yole!Africa Center in the Democratic Republic of Congo, and the cultural reclamation of a mining town in Suriname through the arts organization, Stichting Kibii.

Class Format: This is a remote course.

Requirements/Evaluation: Four case study profiles, midterm essay (5-7pages), and a final project. Regular participation in class discussion.
Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: If the course exceeds the maximum enrollment, selection will be made based on students' explanations for why they want to take the class.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Difference, Power, and Equity Notes: This course interrogates on a fundamental level issues of power and equity. Using the performing arts as a critical lens, we discuss a series of social and environmental challenges that communities of African descent face. These are in direct dialogue with global systems of power and economic factors. Issues include: environment, education, local communities' interactions with multinational corporations, and representational politics in performance.

DANC 330 (S) Modern Folklore: Postcolonial Dance and Music in Africa

Cross-listings: AFR 330 MUS 330 DANC 330

Primary Cross-listing

"Folklore is a mixture of traditions, poems, songs, dances and legends of the people, it can be no other than the reflection of the life of the country and if that country develops, there is no reason why the folklore which is the living expression, should not develop as well. Modern folklore in present Africa is as authentic as the Africa of old." --Keita Fodeba, founding Artistic Director of Les Ballet Africain, Guinea, West Africa. This course will involve intensive dance and musical practice that is rooted in traditional and contemporary forms from the African continent and the Diaspora. We will examine the international impact of countries who achieved independence from Europe in the late 1950’s-1990s such as Les Ballets Africain, National Dance Company of Senegal, Bembeya Jazz, Ghana Dance Ensemble, and the national dance and music companies of Zimbabwe, Jamaica, and Cuba. Our study will include the impact of artists such as James Brown, Miriam Makeba, Michael Jackson, and Youssou N'Dour, as well as Hip Hop culture and the emergence of new forms of music and dance or modern folklore.

Requirements/Evaluation: student progress with music and dance material taught, quality of assigned short papers, quality of research and performance midterm and final projects

Prerequisites: Any of the following courses offer students preparation or experience DANC 100, 201, 202; MUS 111, 117, 120, 211, 222, 233; AFR 193, 200, 223, experience in a campus-based dance or music ensemble or permission of the instructors

Enrollment Limit: 14

DIRECTIONS, POWER, AND EQUITY (DPE)

Williams College recognizes that in a diverse and globalized world, the critical examination of difference, power, and equity is an essential part of a liberal arts education. The Difference, Power, and Equity (DPE) requirement provides students with the opportunity to analyze the shaping of social differences, dynamics of unequal power, and processes of change. Courses satisfying the DPE requirement include content that encourages students to confront and reflect on the operations of difference, power and equity. They also provide students with critical tools they will need to be responsible agents of change. Employing a variety of pedagogical approaches and theoretical perspectives, DPE courses examine themes including but not limited to race, class, ethnicity, gender, sexuality, and religion.

All students are required to complete at least ONE course that has the DPE designation. Although this course, which may be counted toward the divisional distribution requirement, can be completed any semester before graduation, students are urged to complete the course by the end of the sophomore year. The requirement may be fulfilled with a course taken away from campus, but students wishing to use this option must petition the Committee on Educational Affairs (CEA) upon their return by providing a clear and detailed explanation of how the course taken away from Williams fulfills the DPE requirement.

AFR 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)

Cross-listings: AFR 104 HIST 104

Secondary Cross-listing

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers’ biographies, and propaganda posters.

Requirements/Evaluation: active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 15

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

Writing Skills Notes: Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans
made these contributions, despite various and complex inequities.

**AFR 158 (S) North of Jim Crow, South of Freedom** *(DPE) (WS)*

**Cross-listings:** HIST 158 AFR 158

**Secondary Cross-listing**

This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs—all with an eye toward scrutinizing the freedom struggle in its northern variety.

**Requirements/Evaluation:** Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will be required to submit a topic proposal.

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 19

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 158 (D2) AFR 158 (D2)

**Writing Skills Notes:** Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. **AFR 159 (F) Crossing the Color Line: A History of Passing** *(DPE) (WS)*

**Cross-listings:** AFR 159 HIST 159

**Secondary Cross-listing**

In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal's racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the
United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

Requirements/Evaluation: Weekly formal response papers and written critiques.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 159 (D2) HIST 159 (D2)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

Difference, Power, and Equity Notes: Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

AFR 203 (F) The Making of Modern Africa (DPE)

Cross-listings: AFR 203 HIST 205

Secondary Cross-listing

This course traces the incorporation of Africa into an expanding global world from the middle of the 19th century to the present and examines the impact of this integration on the history of African cultures and modern nation states. It is designed to provide you with an introductory understanding of the economic, social, and political forces that have shaped Africa in recent times and continue to affect the lives of individual people across the continent. Over the course of the semester you will be introduced to major historical themes in African History from the past 150 years, including the abolition of the slave trade and its effects, African states in the 19th century, the growing integration of different regions into shifting global and economic systems, European colonization, and African resistance to imperial conquest. We will also explore the emergence of the nationalist and anti-colonial movements, and Africa's post-colonial experiences of self-governance. Within these broad historical processes, the class will cover additional key themes such as religious change and the role of Western missionaries; changing gender roles; environmental exploitation and change; the emergence of the developmental state; urbanization; military dictatorships, and war and violence in the late 20th century. We will also cover some of the issues surrounding the study of African History as a discipline. This is a challenging task as no single course can cover more than a silver of the complexity and variety of the continent. This is why we approach the study of Modern African History through a comparative prism.

Requirements/Evaluation: active participation in discussion, map quiz, response papers, midterm and final exams, and a case study paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 30

Grading: no pass/fail option, yes fifth course option
Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 203 (D2) HIST 205 (D2)

Difference, Power, and Equity Notes: This course will introduce students to how modern Africans have contended with powerful forces that have deeply affected the continent. It will examine how different societies on the continent -- in different environments and circumstances -- devised solutions to the challenges of the day. All of the readings, discussions, and assignments will ask students to center and insert African voices into histories fraught with misrepresentations.

AFR 209  (F)(S)  Introduction to Racial Capitalism  (DPE)  (WS)

Cross-listings: AMST 202  AFR 209

Secondary Cross-listing

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202  (D2)  AFR 209  (D2)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora  GBST Economic Development Studies Electives
AFR 217  (F)  Women and Girls in (Inter)National Politics  (DPE)

Cross-listings:  INTR 219  AFR 217  WGSS 219  AMST 217  LEAD 219

Secondary Cross-listing

This tutorial focuses on the writings and autobiographies of women who have shaped national politics through social justice movements in the 20th-21st centuries. Women and girls studied include: Fannie Lou Hamer, Shirley Chisholm, Safiya Bukhari, Erica Garner, Greta Thunberg, Malala Yousafzai, Marielle Franco, Winnie Mandela.

Requirements/Evaluation:  Weekly 5-page primary analytical papers and 2-page response papers.

Prerequisites:  none

Enrollment Limit:  10

Enrollment Preferences:  Juniors and seniors, sophomores.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

INTR 219 (D2) AFR 217 (D2) WGSS 219 (D2) AMST 217 (D2) LEAD 219 (D2)

Difference, Power, and Equity Notes:  This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

AFR 231  (S)  Africa and the Anthropocene  (DPE)

Cross-listings:  STS 231  ENVI 231  AFR 231

Secondary Cross-listing

Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

Requirements/Evaluation:  Assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay

Prerequisites:  none

Enrollment Limit:  19

Enrollment Preferences:  Environmental Studies majors and concentrators

Expected Class Size:  19

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 231 (D2) ENVI 231 (D2) AFR 231 (D2)

Difference, Power, and Equity Notes:  Africa and the Anthropocene considers inequity in environmental politics from the vantage of the African continent. Through selected readings and classroom discussions students will tackle questions of power, racial and gendered difference, empire,
economic stratification. The course contributes to the DPE requirement by helping students to develop skills to better analyze abiding challenges in global society.

AFR 237  (S)  Islam in the United States: Race, Religion, Politics  (DPE)

Cross-listings:  REL 237  AFR 237  AMST 237

Secondary Cross-listing

Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.

Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Majors and concentrators in REL, AFR, and AMST

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 270  (F)  Sport and the Global Color Line  (DPE)

Cross-listings:  HIST 270  LEAD 270  AFR 270

Secondary Cross-listing

Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas--like movie theaters, railroads, schools, and other public sites--shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will
examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

**Class Format:** Lecture and discussion.

**Requirements/Evaluation:** Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

**Prerequisites:** None.

**Enrollment Limit:** 40

**Enrollment Preferences:** Open to all students with completion of course admission survey if overenrolled.

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 270 (D2) LEAD 270 (D2) AFR 270 (D2)

**Difference, Power, and Equity Notes:** This course will prompt students to evaluate the commercialization and commodification, perceptions and portrayals of minority athletes in popular media forms. Students will trace the emerging ideas, shifts, and trends in the depiction of race and in the process of racialization.

**AFR 304 (S) A History of Health and Healing in Africa (DPE)**

**Cross-listings:** HIST 305  AFR 304  GBST 305

**Secondary Cross-listing**

This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

**Requirements/Evaluation:** active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 305 (D2) AFR 304 (D2) GBST 305 (D2)

**Difference, Power, and Equity Notes:** This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and and inequalities.

AFR 331  (F)  Black Masculinities  (DPE)

Cross-listings:  AMST 350  ENGL 375  AFR 331  WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation:  students will be responsible for 2 short papers and a final project

Prerequisites:  none

Enrollment Limit:  19

Enrollment Preferences:  WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size:  14

Grading:  yes pass/fail option,    yes fifth course option

AFR 339  (S)  The Banlieue in Literature, Music, and Film  (DPE)  (WS)

Cross-listings:  RLFR 300  COMP 336  AFR 339

Secondary Cross-listing

The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, "urban culture"--as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do "banlieue films" and "banlieue lit" tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

Requirements/Evaluation:  3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).
Prerequisites: RLFR 105 and above

Enrollment Limit: 14

Enrollment Preferences: French majors and certificate students, Africana and Comparative literature students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 300 (D1) COMP 336 (D1) AFR 339 (D2)

Writing Skills Notes: To hone their research and writing skills (and prepare for their conference on the banlieue), students will write three research papers (with thesis statement and subheadings) from which they will receive professor feedback.

Difference, Power, and Equity Notes: This course, Banlieue in Lit, Music, Film fosters difficult but carefully framed conversations about race, class, gender, citizenship, housing segregation, discursive practices, immigration and belonging in contemporary France and how identities and power relationships are expressed in banlieue film, literature and French hip hop music.

AFR 346 (F) Modern Brazil (DPE)

Cross-listings: AFR 346 HIST 346

Secondary Cross-listing

Brazil has been the "country of the future" longer than it has been an independent nation. Soon after Europeans descended on its shores, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often contributed to an exaggerated patriotism, it has also fostered ambiguity—for if the label suggests Brazil's potential, it also underlines the country's failure to live up to that promise. This course will examine Brazil's modern history by taking up major themes from Independence to the present. Beginning with a "bloodless" independence that sparked massive civil wars, we will analyze the hierarchies that have characterized Brazilian society. The course will give particular attention to themes of race, gender, sexuality, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations.

Class Format: discussion

Requirements/Evaluation: class participation will count for 20% of final grade; each of two 5-page papers will count for 25%; and a final 8- to 10-page paper will count for 30%

Prerequisites: none; open to first-year students with instructors permission

Enrollment Limit: 25

Enrollment Preferences: History majors, Latino/a Studies concentrators

Expected Class Size: 20-25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 346 (D2) HIST 346 (D2)

Difference, Power, and Equity Notes: The course—in all of its readings, discussion, papers—centers on the formation of different and dynamic identities in 19th- through 21st-century Brazil. Throughout the semester we examine how Brazilians created, recreated, and/or rejected categories of difference and how these resulting actions connected to broad political and cultural changes. Links to current questions—like the struggles of communities of quilombolas (descendants of runaway or freed slaves)—receive particular attention

AFR 347 (F) (De)colonial Ecologies  (DPE) (WS)

Cross-listings: AFR 347  AMST 332  ENVI 332

Secondary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Requirements/Evaluation:

Prerequisites:
- AMST 101, AFR 200, and/or ENVI 101

Enrollment Limit: 15

Enrollment Preferences: AMST, AFR, ENVI

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 347 (D2) AMST 332 (D2) ENVI 332 (D2)

Writing Skills Notes: One thesis paper at 15 pages. The writing process is staggered, with each part graded, and with critical feedback from professor and peers. Specifically, one research proposal (including thesis outline and annotated bibliography of primary texts) with feedback from professor; one thesis paper draft with feedback from peers; one letter of revision explaining the student's revision process; one final draft with critical feedback from professor; and student presentation and discussion.

Difference, Power, and Equity Notes: The course addresses issues of difference, power, and equity, and offers theoretical tools and perspectives to understand these issues. Specifically, students learn how to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Attributes: ENVI Humanities, Arts + Social Science Electives

AFR 349 (S) Race, Development, and Food Sovereignty  (DPE) (WS)

Cross-listings: AFR 349  ENVI 349  AMST 342

Secondary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen? Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize
students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful "agribusiness" corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of "food sovereignty" movements--efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

SEM Section: 01 TF 2:35 pm - 3:50 pm Hossein Ayazi

AFR 367 (S) Black History Is Labor History (DPE) (WS)

Cross-listings: AFR 367 HIST 367

Secondary Cross-listing

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as ant工会ism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.

Requirements/Evaluation: Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites: recommended for students with sophomore standing or above
Enrollment Limit: 25
Enrollment Preferences: HIST and AFR majors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 367 (D2) HIST 367 (D2)

Writing Skills Notes: Students will be required to write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages). Throughout the semester, these writing assignments will total roughly 22-30 pages.

Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

Spring 2022
SEM Section: 01 MR 1:10 pm - 2:25 pm Tyran K. Steward

AFR 381  (F) Media and Society in Africa  (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Secondary Cross-listing
The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programing. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers', readers' and listeners' control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media's role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: This course open to all students

Enrollment Limit: 10
Enrollment Preferences: Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques - both oral and written - from the professor, as well as oral critiques from tutorial partners.

Difference, Power, and Equity Notes: Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important
societal concerns are expressed through the media in Africa.

Fall 2021

AMST 101 F(S) America: The Nation and Its Discontents (DPE)
This course introduces students to the capacious and extraordinarily varied interdisciplinary field of American Studies. First institutionalized in the mid-twentieth century, American Studies once bridged literature and history in an attempt to discover a singular American identity. Over 80 years later, many American Studies scholars reject this exceptionalizing rhetoric, working instead to understand how genocide, enslavement, colonization, and militarism/war are foundational to the formation of the U.S. nation-state, and how marginalized and minoritized peoples have survived through, rebelled against, and created new visions for collectivity, relationality, and community. In this course, students will be introduced to the dynamic ways American Studies work links to ethnic studies; women, gender, and sexuality studies; literary studies, political science; critical geography; critical media studies; disability studies; history; anthropology; sociology; art; and more. We will anchor this array of approaches by examining beliefs, practices, places, and migrations that have shaped and been shaped by the U.S., and we will pay particular attention to the people who labor for, have been racialized by, and who think critically about "America." Through close reading; discussions; and analyses of music, art, and film, we will collectively reckon with the questions of who and what makes "America" -- hemispherically, transnationally, globally. In the process, students will be encouraged to co-create a learning experience rooted in praxis, political consciousness, intersectionality, and mutual support.

Requirements/Evaluation: Evaluation will be based on class participation, weekly reading questions or discussion posts, and series of written assignments (three 3-page papers; and one 5- to 7-page paper)
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: first- and second-year students
Expected Class Size: 20
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE)
Difference, Power, and Equity Notes: This course satisfies the DPE requirement in its constant interrogation of historical patterns of unequal access to power, wealth, and citizenship in the U.S., and in its recognition and analysis of resistance to such inequities.

AMST 105 F(S) American Girlhoods (DPE) (WS)
Cross-listings: AMST 105 WGSS 105 ENGL 105
Secondary Cross-listing
The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
AMST 105 (D2) WGSS 105 (D2) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

AMST 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: ENGL 113 AMST 113 WGSS 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course
employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

AMST 125 (S) Introduction to Asian American Studies (DPE)

This course covers topics and approaches salient to contemporary Asian American Studies as an interdisciplinary field of scholarship and activism. Drawing on primary source documents, scholarship, visual media, and creative work, we will look at cross-racial solidarity and organizing, anti-Asian exclusion and xenophobia, war and refugee communities, public and mental health, and immigration histories and experiences. We will ground our inquiry in the social movements from which the field emerged in the late-1960s and 1970s, then move on to address foundational terms for Asian American and Pacific Islander scholars, such as race, bodies, citizenship, empire, transnationalism, and Indigeneity. Throughout the course we will stay attentive to overlapping histories between Asian American and Native, Indigenous, Black, and Latinx people and communities. Students will also have a number of opportunities to practice analytic writing, do creative work, engage in personal reflection, and participate in community building.

Requirements/Evaluation: Weekly: an average of 75 pages of reading (or watch a film), participate in class discussions. 5x per semester: 2-page writing or creative assignments, including letter writing, conduct an interview, analyzing a passage from a historical document, or close read a scene from a film or story. Final: A 5-7-page final paper, small group project, or individual project.

Prerequisites: none

Enrollment Limit: 12

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course defines "Asian" and "Asian American" as categories of social difference created through historical conditions (e.g. migration, imperialism) that change over time. These terms also refer to forms of personhood with racial, national, and ethnic meaning determined by unequal distribution of power and resources. Students in the course are asked to understand, engage, and articulate these differences, historical, and social process.

AMST 166 (F) Being Muslim, Being American: American Muslim Literature in the 21st century (DPE)

Cross-listings: REL 166 COMP 166 AMST 166 ENGL 268

Secondary Cross-listing

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none
Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

AMST 200  (S)  Ethnographic Directions in American Studies  (DPE)

This course introduces students to the practice and politics of ethnography, broadly defined as the study and representation of people, culture, and society. Our approach will be post-positive and interpretive, with attention to the social stakes of ethnographic research and methodology writ large.

We begin the semester by looking at the history of ethnographic methodologies in anthropology and sociology, and then examine efforts to decolonize ethnography. We then read several examples of decolonial, feminist, or otherwise critical ethnographic research related to marginalized or minoritized groups in the U.S. -- such as undocumented migrants from Latin America, formerly unhoused Black girls, Diné fighting resource extraction on the reservation, and Cambodian refugees in the Bronx -- along with articles that illuminate issues of power, observation, consent, and representation in ethnographic research. Through readings, discussion, and engagement in ethnographic exercises, students will gain familiarity with the different phases or components of conducting ethnographic research, while also considering different styles of ethnographic production, including creative work. While this course is designed to look specifically at ethnographic directions that intersect with the interdisciplinary field of American Studies, it is open to any student interested in the study of pressing social issues (such as the prison-industrial complex, refugee resettlement, and drug addiction) and creating communities of mutual care and solidarity for surviving, fighting, and quite possibly, solving them.

Requirements/Evaluation: Weekly: Average 75 pages of reading; participation in class discussions. Every 3-4 weeks: research assignments. Once per semester: group presentation. End of semester: one 5-page paper.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Enrollment preferences if over enrolled: AMST majors, students seeking methods courses

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course covers ethnographic approaches to understanding social relations and cultural processes, with particular attention to scholarship in which power relations; structural analysis; and race and gender are central.

AMST 202  (F)(S)  Introduction to Racial Capitalism  (DPE) (WS)

Cross-listings: AMST 202  AFR 209

Primary Cross-listing

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of “racial
capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

AMST 206 (S) Designer Genes (DPE) (WS)

Cross-listings: ENGL 208 AMST 206 STS 208 WGSS 208

Secondary Cross-listing

In this course, we explore cultural texts that attempt to come to terms with--or exploit--the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book The Mutant Project. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary In the Family, for instance, explores the personal and political issues associated with...
hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel Dawn explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film Gattaca shows us a fully realized dystopian society where genetically modified humans are the norm—a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies, American Studies, English majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

**Difference, Power, and Equity Notes:** This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics' case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

**AMST 209 (F) Introduction to Black, Brown, and Queer Theory (DPE)**

Have you ever tried to relate your experiences, rooted in your own complex identities, history, and social networks, to those of others you perceive as different and perhaps allied, but found you lacked some fundamental vocabulary? This is a common problem, even for critical theorists who take as their object of study political, affective, and epistemological structures of difference and power. Critical race, postcolonial, Indigenous, and queer theories have often centered the relationship between the normative and non-normative, between straight and queer, colonizer and colonized, and white and black. Connections between the differently non-normative can sometimes be pushed to the periphery. But what if we were to center that periphery? What views of complex power structures and new avenues of thought and solidarity would arise if we took as our starting point the social and theoretical interconnectedness and overlap of black, brown, and queer folks? This course will serve as an introduction to critical race, postcolonial, Indigenous, and queer theories as conceptually and phenomenologically interlocking and allied fields. By reading with theorists in all these traditions and at their intersections, we will explore how blackness, indigeneity, and brownness are constructed and function in the context of colonialism and settler colonialism, how differently racialized bodies are sexed and sexualized, and how queerness as method can speak across these issues. No background in critical theory is required for this course. We will focus on how to read and discuss theory, and how to think holistically about the structures that work to keep us divided.

**Requirements/Evaluation:** attendance and class participation, two 4-page reflection papers, and a final creative project (TBD with instructor) or take-home exam

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** American Studies majors

AMST 237 (S) Islam in the United States: Race, Religion, Politics (DPE)
Cross-listings: REL 237 AFR 237 AMST 237
Secondary Cross-listing
Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.
Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay

Cross-listings: COMP 242 ENGL 250 AMST 242

Secondary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture--American or foreign.

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student’s own experiences

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 18

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 242 (D1) ENGL 250 (D1) AMST 242 (D2)

Difference, Power, and Equity Notes: We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered "soul food"? In this course, we will answer these questions by digging into the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

Requirements/Evaluation: two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

AMST 249 (F) Asian American Performance: Activism and Aesthetics (DPE)

Cross-listings: THEA 246  GBST 246  AMST 249

Secondary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: sophomores, juniors, and seniors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

AMST 260 (F) Indigenous Feminisms (DPE)
Cross-listings: AMST 260 WGSS 262

Primary Cross-listing

Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices ‘make a future’ (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

Class Format: Hybrid online/in-person

Requirements/Evaluation: Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: American Studies majors or potential majors have first preference, WGSS majors have next priority.

Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 260 (D2) WGSS 262 (D2)

Difference, Power, and Equity Notes: This course has as its core mission -- both in subject matter and in pedagogical approaches -- the exploration of difference, power and equity.

AMST 305 (S) The Gay Menagerie: Gay Male Subcultures (DPE)
Cross-listings: WGSS 305 ANTH 305 AMST 305 THEA 304

Cross-listing

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

AMST 308 (S) Angela Davis: Political Theory, Activism, and Alliances (DPE) (WS)

Cross-listings: LEAD 319 PSCI 376 INTR 320 AMST 308

Secondary Cross-listing

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.

Requirements/Evaluation: Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

Prerequisites: Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
**Writing Skills Notes:** Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

**AMST 321 (F) Unsettled Futures: Time, Crisis, and Science Fiction from the Margins (DPE)**

**Cross-listings:** AMST 321 STS 321

**Primary Cross-listing**

Societies around the globe are now confronting a triple crisis that threatens not only political orders but also the very existence of certain forms of life: (1) financial collapse(s) that have increased the awareness and severity of mass inequality, (2) climate change and mass extinctions, and (3) the rise of white supremacy and ethno-nationalisms that threaten BIPOC lives and representative democracies. These material and political challenges have depleted many of the cultural resources that enable imagining non-apocalyptic futures. Yet, these crises are not novel. Many groups in the periphery--geographic, economic, and cultural--were and are already living through the uneven distribution of the apocalypse. Science fiction (SF) has emerged as a privileged symbolic field for the expression of hopes and anxieties that drive both culture and tech industries. Whether seen as a form of productive pessimism or liberatory theory, SF from the margins is deployed as a political tool for enacting change in the present. In this course, we will survey the history of SF as a variable and theoretical orientation constituted through the unfolding of uneven global encounters. We will analyze SF in the Cold War, Anthropocene, decolonization movements, and postcolonial and Indigenous landscapes, reading major works in SF and science and technology studies (STS) that address the politics of crisis, apocalypse, and global futures. In addition to novels and short stories, this course will incorporate film, graphic novels, music videos, video games, and other science fiction subgenres.

**Requirements/Evaluation:** Class discussion, approximately 10 pages of creative writing, 5 page analysis paper of your classmate's creative writing, final paper or project (5-8 page paper or equivalent)

**Enrollment Limit:** 15

**Enrollment Preferences:** Students who have taken American Studies 101 and/or Science and Technology Studies 101

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Cross-listings:** AFR 347 AMST 332 ENVI 332
Primary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

Enrollment Limit: 15

Enrollment Preferences: AMST, AFR, ENVI

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

AMST 342 (S) Race, Development, and Food Sovereignty (DPE) (WS)

Cross-listings: AFR 349 ENVI 349 AMST 342

Primary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen? Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful "agribusiness" corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied
practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of “food sovereignty” movements—efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

AMST 350 (F) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

AMST 351  (F) Queer Tongues & Lavender Linguistics  (DPE)

Cross-listings: ANTH 350  AMST 351  WGSS 350

Secondary Cross-listing

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called "gay voice," the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

Prerequisites: None; prior coursework in WGSS may be helpful, but is not required

Enrollment Limit: 15

Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 350 (D2) AMST 351 (D2) WGSS 350 (D2)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

AMST 352  (S) Global Health in the Transpacific  (DPE)

Cross-listings: AMST 352  STS 311  ASIA 352

Secondary Cross-listing

East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the
linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia’s claim of “viral sovereignty” to protect their biological specimens from Western intellectual property regimes and Hmong refugees’ resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.

Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper

Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.

Enrollment Limit: 12

Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 352 (D2) STS 311 (D2) ASIA 352 (D2)

AMST 353 (S) Is Science Native to Turtle Island? The History of Native Science in North America (DPE)

Cross-listings: STS 353 AMST 353

Primary Cross-listing

Settler sciences and technologies deployed by Europeans colonizing Turtle Island (what settlers called North America) were introduced as weapons of Indigenous termination. From medical violation, to anthropological theft, and industrial pollution, settler technoscience objectified and appropriated Indigenous people and lands, and attempted to displace Indigenous knowledge in the pursuit of settler supremacy. Indigenous bodies were cast as victims, objects and sometimes the tools of this project. And yet, as tools and objects, Indigenous peoples took up settler technoscience in a multitude of ways that failed (both purposefully and not) to adhere to the colonizing mission, incorporating Indigenous knowledges and orientations, subverting settler science as a source of authority, and positioning science as a site of Indigenous sovereignty. The practice of taking up science as a tool of decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and technology studies (STS), history, and postcolonial and queer theory.

Requirements/Evaluation: attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 13

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 353 (D2) AMST 353 (D2)
**Difference, Power, and Equity Notes:** This course will explore how settler sciences have been used as a technology of difference making, dispossession, and genocide in United States history. It will also provide students a theoretical toolkit and historical perspective by which they can grapple with the fact that power structures like settler technoscience can be a source of both colonization and liberation.

AMST 401 (S) Policing Nations: Indigenous Nations and the Carceral State (DPE)

This course examines the birth of the prison on Indigenous lands - how the settler carceral state emerged from the legal and political architectures of conquest as well as from Transatlantic slavery. It examines the continuities between the prison, the reservation, the barracks, the plantation, Boarding Schools and foster homes as modes of incarcerating Indigenous life and movements for liberation. To do so, we will be engaging with Indigenous legal theory, movements, and writings on the carceral state, including writings from incarcerated Indigenous intellectuals, Boarding School and foster care survivors, and feminists. Our approach will be rooted in the interdisciplinary practices of Native American and Indigenous Studies, American Studies, legal studies and political theory. This course strives to provide a history of the present through examining the relations, structuring presuppositions, discourses and material edifices of conquest and genocide on Turtle Island and for Indigenous nations in settler states across the globe. We will end by thinking with Indigenous feminist mappings of abolition and futures beyond the prison house of the settler state. The pedagogical aims of this course will be to illustrate the role of conquest, anti-Indigeneity and settler law in producing the contemporary prison system, and to introduce students to the broad canon of Indigenous legal theory and Indigenous legal traditions that do not proceed from carceral premises. It will aim to facilitate skills in primary source analysis, in proficiency with legal theory, in independent research, and critical analysis of different forms of the carceral state.

Requirements/Evaluation: Final Paper: 40%; Weekly Reading Responses 30%; Participation 10%; Seminar Presentations: 20%

Prerequisites: At least one of the following: AFRI 234; AMST/AFR 209; AFRI 210; AFR 318:AMST 142: AMST 146; AMST 260; INTR 220/AMST 201; INTR 320/LEAD 319; AMST 356; PSCI 210; INTR/AFR 340

AMST 404 (F) New Works in Asian American Studies (DPE)

In this seminar, we will consider recent and/or recently intensifying debates, conversations, and intellectual directions in Asian American Studies. Topics may include white settler colonialism; indigeneity, the Pacific, and the transpacific; refugee experiences; media, including video games; political participation, conservatism, and religion; affirmative action; sexual violence; mental health; and comparative and relational racialization. We will also consider some new works of Asian American film and literature, and the criticism it generates. Course material will focus on scholarship that critically engage race, gender, sexuality, indigeneity, and/or disability as key terms. Students will be asked to develop a final project or paper based on one of the topics or books covered in the course. Students will gain an understanding of the field's recent concerns but also become familiar with the broader political, social, and cultural contexts from which they emerge.

Requirements/Evaluation: In-class participation, weekly papers, one in-class presentation of the reading, final paper (10-12 pages of scholarly work or criticism) or final project (interview with an author or art work may be an option)

Prerequisites: AMST125 (Introduction to Asian American Studies) or equivalent from another unit e.g. WGSS
Enrollment Limit: 12

Enrollment Preferences: Senior American Studies majors; juniors or seniors with demonstrated interest in Asian American Studies (especially previous coursework)

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course is organized around Asian American scholarship that foregrounds systems of power and hierarchies of identity. Students will consider how Asian American experiences throughout the history of the U.S. are shaped by uneven and often unjust processes, such as war or economic liberalism, and aspects of identity, such as race, indigeneity, gender/sexuality, class, and religion.

AMST 468 (F) Race, Empire, and the Birth of the American Century (DPE)

Cross-listings: HIST 468 AMST 468

Secondary Cross-listing

This course examines the birth of the "American Century" by studying the extension of Manifest Destiny to the Pacific, especially the American occupation of Hawaii and the Philippines.

Requirements/Evaluation: a series of weekly papers and a final research paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: must be a History or American Studies major

Expected Class Size: 15-19

Grading: no pass/fail option, no fifth course option

Unit Notes: History department senior seminar

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 468 (D2) AMST 468 (D2)

Difference, Power, and Equity Notes: The course will cover the unequal power relations between Anglo Americans and Native Americans, Hawaiians, and Filipinos, as evidenced in the American occupation of land within our shores and the colonization of two island nations in the Pacific.

We will study how the American presence in these areas affected how the original inhabitants were perceived and represented by Americans as witnessed in their presence at the Worlds Fairs of 1893 and 1904.

ANTH 101 (F)(S) How To Be Human (DPE)

Is there such a thing as "human nature"? This course is an introduction to cultural anthropology (also known as social or socio-cultural anthropology), the study of human society in all its profound variety. Through deep, sustained, systematic participation in and observation of a particular social context, anthropologists seek to comprehend and illuminate the human condition. Anthropologists' insights into the ways in which human institutions-language, economy, religion, social stratification, law, sexuality, art, the state, and many more-are culturally constructed and reproduced have transformed the way the world is understood. Puncturing ethnocentrism, anthropology's attentiveness to the ideas and practices of cultures in every part of the globe vastly enriches the archive of human answers to human problems. The distinctive methods of the discipline enable anthropologists to discover patterns and phenomena not discernible in other modes of enquiry. With such findings anthropologists are able to make
critical interventions in public discourse and to demonstrate how deeply we are all shaped by cultural forces.

Requirements/Evaluation: weekly posts in response to readings, two group presentations, several short writing exercises, final exam

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: first-year students and sophomores

Expected Class Size: 30

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course is an introduction to cultural anthropology and deals extensively with race, ethnicity, religion, gender, etc., as cultural constructs creating social difference, hierarchies of power, and the creation of inequities in communities and societies. Readings in ethnography, social theory, and sociology are designed to give students a deeper appreciation of all these issues.

ANTH 240  (S)  Work as a Cultural System  (DPE)

"You know my reputation," sang Billy Joe Shaver, "I am everything I do." In many ways we are homo faber, the species that makes its world and we are defined by what we make, by the work we do. This course will undertake a broad survey of work as cultural systems across time and space. How do societies define work, how do they organize it? Who controls the processes of work, who controls the product of work? When is work an act of pure creation and when is it stultifying labor? How is work enabled and how is it compensated? What defines the difference between work and leisure and how are they valued? How does control over access to work, the organization of work, and the appropriation of its products determine difference, power, and equity in a society? These questions will guide an examination of work drawing on works of philosophy, history, ethnography, literature, and film examining people at work ranging from hunter-gatherers to tin miners, from slaves to corporate managers, from merchant mariners in the age of sail to physicians struggling to adapt to computerized medical records.

Requirements/Evaluation: students will compose several response papers, a take-home midterm exam and a final research paper of 15-20 pages

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Anthropology and Sociology majors

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Access to work, control over the work process, control over the fruits of labor, and compensation for work, are a principal means for creating and maintaining social difference, power, and equity. It is impossible to seriously study the nature of work without discussing these topics. By placing the universal experience of work in a broad spatial and temporal context students will discover an enhanced analytical ability to critically understand their own experiences of work and those of others.

SEM Section: 01 MWF 11:00 am - 12:15 pm Peter Just

ANTH 269  (F)  Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Secondary Cross-listing

This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism,
and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively--be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation:  weekly tutorial papers and discussion
Prerequisites:  A prior class or some experience with meditation is recommended
Enrollment Limit:  10
Enrollment Preferences:  ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors
Expected Class Size:  10
Grading:  yes pass/fail option,  no fifth course option
Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes:  This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes:  This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

ANTH 305  (S)  The Gay Menagerie: Gay Male Subcultures  (DPE)
Cross-listing:  WGSS 305  ANTH 305  AMST 305  THEA 304

Secondary Cross-listing
Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format:  There will be some minor performance elements such as workshops during class.

Requirements/Evaluation:  Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group
Prerequisites:  None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required
Enrollment Limit:  12
Enrollment Preferences:  WGSS majors; in the event of over-enrollment there statements of interest will be solicited
Expected Class Size:  12
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D2)  (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (D2) ANTH 305 (D2) AMST 305 (D2) THEA 304 (D1)

**Difference, Power, and Equity Notes:** This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

**Attributes:** WGSS Racial Sexual + Cultural Diversity Courses

**ANTH 337 (F) Race, Sex & Gender in Brazil** (DPE)

**Cross-listings:** ANTH 337 WGSS 337

**Secondary Cross-listing**

The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: Students must also commit to registering for a winter study travel course with a trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

**Requirements/Evaluation:** research paper and its various components, participation

**Prerequisites:** none

**Enrollment Limit:** 7

**Enrollment Preferences:** students are required to attend an info session and submit an application that includes a statement of interest, finalists will need to complete an interview

**Expected Class Size:** 7

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** The cost of the winter study travel portion is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student.

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 337 (D2) WGSS 337 (D2)

**Difference, Power, and Equity Notes:** This is a class about social justice movements and racial/gender/sexual diversity. It includes experiential learning devoted to these issues and engages questions related to the origins of inequality and prejudice in Brazil.

SEM Section: 01   W 7:00 pm - 9:40 pm   Gregory C. Mitchell

**ANTH 350 (F) Queer Tongues & Lavender Linguistics** (DPE)

**Cross-listings:** ANTH 350 AMST 351 WGSS 350

**Secondary Cross-listing**

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist
theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA “change charts.” We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called “gay voice,” the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists’ ethnographies of queer communities’ language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

Prerequisites: None; prior coursework in WGSS may be helpful, but is not required

Enrollment Limit: 15

Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 350 (D2) AMST 351 (D2) WGSS 350 (D2)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

ANTH 371 (F) Medicine and Campus Health in Disruptive Times (DPE) (WS)

Cross listings: STS 370 WGSS 371 ANTH 371

Primary Cross-listing

This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.

Requirements/Evaluation: Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.

Prerequisites: A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended

Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women's, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

Writing Skills Notes: This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

Difference, Power, and Equity Notes: This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

ARAB 201 (F) Intermediate Arabic I (DPE) (WS)
This course will build on the students' acquisitions in Arabic 102 to consolidate their learning of the Modern Standard Arabic and one variety of spoken Arabic. In addition to expanding students' vocabulary and enhancing their communication skills, the course will deepen their knowledge and use of grammar in both speaking and writing. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing cultural appreciation of Arabic-speaking countries.

Requirements/Evaluation: quizzes, tests, homework, and active class participation
Prerequisites: ARAB 102 or placement test
Enrollment Limit: 12
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: This course involves a great deal of writing, ranging from vocabulary and grammar-focused exercises to written assignments about a variety of topics. Students will receive extensive and timely feedback on this written work.

Difference, Power, and Equity Notes: Any language is the locus of issues of difference, power, and equity. Students will learn about gender and pronouns. They will wonder why Arabic does not have a gender neutral pronoun. Students will understand how Arabic acts as a dominant language in places minority languages in the Middle East and North Africa. Students will emerge from the course with a critical understanding of Arabic language's politics.

Fall 2021

ARAB 242 (S) Women, Gender, and Sexuality in Islam (DPE)
Cross-listings: REL 242 WGSS 242 ARAB 242

Secondary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude
with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women’s own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Religion, Women’s, Gender and Sexuality Studies and Arabic majors
Expected Class Size: 14
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

Spring 2022
SEM Section: 01    TR 8:30 am - 9:45 am     Saadia Yacoob

ARAB 302  (S) Advanced Arabic 2  (DPE) (WS)
A continuation of Advanced Arabic 1, ARAB 302 aims to reinforce students' listening, reading, writing, and speaking skills in Arabic through a deeper engagement with authentic materials in Modern Standard Arabic. Built around a plethora of texts and audiovisual materials, the course seeks to assist students to develop their language and critical thinking skills in Arabic. Situated at the intersection of language learning and content teaching, this course will prepare students for more scholarly engagement with and in MSA in the fourth year. Like ARAB 301, the course will be conducted entirely in Arabic.
Class Format: course offered remotely
Requirements/Evaluation: quizzes, exams, presentations, papers, midterm examinations, and projects
Prerequisites: ARAB 301 or equivalent
Enrollment Limit: 19
Enrollment Preferences: Arabic Studies, or students who completed ARAB 301
Expected Class Size: 8
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)
Writing Skills Notes: In addition to the weekly writing assignments of 400-word essays, students will produce four portfolios that will involve a careful process of revisions. Each portfolio will include a series of critical reflections on graphic novels and visual storytelling in Arabic. The portfolio will be based on rigorous research in Arabic recourses, summary and essays that can range to 800 words.
Difference, Power, and Equity Notes: As a content course, ARAB 302 will focus on graphic novels, graffiti and caricature in contemporary Arab visual culture. Most of the texts assigned will address the particularity of political language involved in this form and its popularity among Arab youth (and adults) as a cultural expression of dissent. The selected texts will also expose students to stories about class struggle, gender inequality, the social struggles of immigrants and refugees.

SEM Section: 01    MWF 11:00 am - 12:15 pm     Amal Eqeiq

ARAB 303  (S) Food in the Middle East: A History  (DPE)
Secondary Cross-listing

In this course we examine the rich culinary history of the Middle East first among the three major religions in the region (Judaism, Christianity, and Islam), then during the time of major Islamic Empires such as the Abbasids and Ottomans, and finally in the modern period. Using an array of primary and secondary sources, we explore the social, religious, literary, and economic place of food. We will study the consumption of an attitudes toward specific foodstuffs, gauging the medicinal and culinary value of spices, the historical taboos against drinking coffee and alcohol, and the dispute over various dishes within modern nationalist constructions. We will also investigate how Middle Eastern peoples from different ethnic, geographic, and religious backgrounds have historically used food to express their distinct cultural, national, and gendered identities.

Requirements/Evaluation: attendance, participation, map exercise, leading discussion, 3 short essays, final paper/research project

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: History and Arabic Studies majors, seniors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 303 (D2) HIST 303 (D2)

Difference, Power, and Equity Notes: This course explores a variety of themes within Middle Eastern food history and their implications to different religious communities, genders, and/or socio-economic groups, across a large swath of time. Students will be asked to explore these topics in class discussions and writing assignments, using multiple comparative perspectives.

SEM Section: 01    TR 9:55 am - 11:10 am    Febe Armanios

ARAB 340  (F)  Arab Women Memoirs: Writing Feminist History  (DPE) (WS)

In this seminar we review selected autobiographical writings by Arab women writers from the wave of independence in the 20th century to the contemporary Arab uprisings, passing through all the transformations that globalization and the technosphere have instigated. We will examine the role that first-voice narrative plays in shaping literature, history and thought, while providing a space to reclaim cultural, social and political agency. Focusing on the different articulations of self-representation, our discussion will address how these women reflect on the shifting discourses of identities, gender, nationalism, religion, feminism, sexuality, politics, borders and their histories. Questions we will address include: How did these memoirs contribute to the development of Arab feminist consciousness? How did these women writers carve a literary space for feminist memory in modern Arabic literature? In addition to the memoirs, we will look at women's blogs and watch films that focus on first-person narrative to discuss related topics, such as, visual testimonies, virtual political participation and feminist resistance in the technosphere.

Requirements/Evaluation: Students will write the following: three response papers (2-3 pages), at least 6 journals entries (300 words per entry) and a final analytical research essay (7-10 pages). They will have a final performance project.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: In addition to writing several short papers, a final research paper, a reflection on their final performance project, students will write six journals. The combination of research writing, personal reflection echoes the creative non-fiction genre of the course. It also provides students with the opportunity to reflect on forms of history/memory writing.

Difference, Power, and Equity Notes: Gender inequality, sexism, and the intersection of colonialism, nationalism and capitalism are the heart of this course. The memoirs of Arab women writers from the late 19th century to the present continue depict the history of women’s movement and the
struggle for women's rights in the Arab-speaking world while addressing the different hierarchies of power and domination that regulate them to second class citizens. Students will learn DPE vocabulary and critical terminology.

Fall 2021

SEM Section: 01    MR 1:10 pm - 2:25 pm    Amal Eqeiq

ARAB 370  (S) Archives of Global Solidarity: Records of Collective Memory of Emancipation  (DPE) (WS)

Departing from the Arabic notions of takatul and taddamun as interlinked expressions of social and political solidarity, this course seeks to investigate the textual and visual cultural production of solidarity in the Arabic-speaking world. While both terms have informed the shaping of modern Arab politics in the mid 20th century—from the birth of the socialist state to the rise of pan-Arabism—it's instrumentalization as key principles of internationalism, Third Worldism, trans-nationalism, and global camaraderie since the 1990s is parallel to the emergence of social movements and popular resistance across the Middle East, North Africa and beyond. What is the meaning of solidarity and how it mobilized collective emancipation is the guiding question of this course. To interrogate this question we will read novels, poems, memoirs, labor unions and feminist manifestos, and essays that feature multidirectional solidarity and alliance building across borders of East-East and South-South. We will also examine visual and digital archives that documents particular historical moments that marked a turning point of global solidarity, such as the Spanish Civil War, the Cuban Revolution, the Algerian War, the Prague Spring, the Palestinian Intifada, the Zapatista Uprising, and most recently, the Arab Uprisings. As we approach these historical moments through a variety of texts and genres, we will identify encounters between activists and writers who established cross-regional movements and the cultural exchange between artistic collaborations.

Requirements/Evaluation: Students will write five responses to partner's papers (2 pages long); two 5-7 pages paper discussing aspects of the readings; one 10-mintues oral presentation of a reflection on digital solidarity, and a final poster project on archiving global solidarity.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: This tutorial will be aimed at first year and second year students interested in majoring in Arabic Studies, and/or concentrating in Comparative Literature and Global Studies.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will engage a variety of writing forms, including weekly response papers to their tutorial partner, a research final paper, an outline for an oral presentation, a reflection on digital media and a design of a poster. Throughout this process, they will receive oral and written feedback and work with revisions. The interdisciplinary material that will be covered in the tutorial will also require the production of distinct formats of writings and research skills.

Difference, Power, and Equity Notes: South-South and East-East encounters during the 1960s in the writings of contemporary Arab writers and activists resisting dictatorship and police states is the core of this tutorial. Students will gain a deeper understanding of DPE through a close examination of the triangulation of colonial boundaries, postcolonial states, and imperialist domination that shape the context of global solidarity in the Arab world and beyond.

TUT Section: T1    TBA    Amal Eqeiq

ARAB 401  (F) Topics in Advanced Arabic: Contemporary Arab Cinema  (DPE) (WS)

The Arab world is a fascinating region with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze select movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

Class Format: The course will be offered remotely (Final course format to be determined closer to the semester)
Requirements/Evaluation:  class participation, daily writing and reflections, quizzes, blogs, leading a movie discussion, and a final project.

Prerequisites:  ARAB 302 or equivalent.

Enrollment Limit:  19

Enrollment Preferences:  if the course is overenrolled, preference will be given to Arabic majors.

Expected Class Size:  5-7

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE) (WS)

Writing Skills Notes:  Students will engage in daily writing and reflections involving prose responses to discussion prompts, movies, YouTube videos, articles, and quiz prompts. The students will also write blogs, a minimum of one speech, and a 5-7 pp. final research paper. The instructor will give daily feedback on students' writing as well as training in writing skills to advance their writing abilities.

Difference, Power, and Equity Notes:  The students will engage in an exploration of social, political, and economic realities in Arab societies. They will examine similarities and differences across a variety of contexts involving differential power dynamics, biases, and gender roles. They will reflect on issues of power based on internal and external factors in these societies as positioned in a region torn by political, social, and religious conflicts.

ARTH 103  (S)  East Asian Art  (DPE)

Cross-listings:  ASIA 103  ARTH 103

Primary Cross-listing

This course is an introduction to the history of East Asian art from prehistory to the present with particular emphasis on China, Korea, and Japan. Through thematic units, we look at artworks in their original contexts and consider how cross-cultural exchanges stimulated new interpretations across time and space. We examine a broad range of objects including ritual bronze vessels, Buddhist temples, landscape paintings, woodblock prints, and installations. We also discuss these artworks in relation to other forms of creative expression such as ritual practice, performance, and literature. How is East Asia defined geographically and culturally? How did the exchange of ideas, trade, and travel impact the formation of East Asian art? How do artworks and artifacts help us understand East Asia's past? These fundamental questions guide our discussion. Through this course, you will learn to think critically about shared and diverse human experiences across cultures and historical periods. We will also discuss the historiography of East Asian art and analyze why certain types of objects were historically underrepresented in museum spaces and academic scholarship. Artworks from the Williams College Museum of Art and Special Collections also form an integral part of the course.

Requirements/Evaluation:  attendance, class participation, worksheets, visual analysis paper (2-3 pages in length), midterm and non-cumulative final exam, virtual exhibition project and presentation

Prerequisites:  none

Enrollment Limit:  30

Enrollment Preferences:  Open to all students regardless of major

Expected Class Size:  25

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 103 (D1)  ARTH 103 (D1)

Difference, Power, and Equity Notes:  This course fulfills the Difference, Power, and Equity requirement by investigating the ways that migration and cross-cultural exchange shaped artistic developments in East Asia. Students will reflect on the cultural production of diverse peoples and traditions within this geographical region and confront the ways in which historical legacies of imperialism and colonialism continue to shape international relations.

Spring 2022
ARTH 106  (F)  An Invitation to World Architecture  (DPE)
What is architecture? Built form? Object? Space? How do we think about architecture as we move around, within, and through it? What can architecture tell us not only about material, design, and engineering, but also about the individuals, groups, and communities who make it? These inquiries provide the starting points for thinking about what architecture means as concept, space, and practice, and how it affects the ways in which human beings experience the world. As the primary mode through which we organize our lived reality, architecture not only channels human behavior into specific repertoires of action and reaction but also symbolizes beliefs, value systems, and ideas about the self, gender, nation, race/ethnicity, community, life, death, and the transcendent. Such themes, thus, constitute the critical lenses that students will use over the course of the semester to unpack how structural form has and continues to define the human condition in the broadest sense. Drawing from a variety of texts and examples that emphasize the diversity and complexity of architectonic traditions around the world, this course will analyze how individuals have employed architectural strategies to solve the problems of living within diverse contexts and how such spaces not only provide meaning in everyday life but also actively and dynamically order the world as space, object, environment, text, process, and symbol.

Class Format: This course has 2 components: lectures and conferences / discussion sections. Students will be expected to attend two lectures and one conference / discussion section weekly. Students will sign up separately for the lecture component and the conference / discussion section component.

Requirements/Evaluation: Written evaluative measures: 8 object lab assignments, 6 written responses to class prompts, 6 in-class quizzes, and a virtual student exhibition. Other evaluative measures: conference / discussion section participation, attendance.

Prerequisites: none

Enrollment Limit: 90

Enrollment Preferences: First preference: senior art majors who need a 100-level course to fulfill their major requirements. Second preference: first- and second- year undeclared students.

Expected Class Size: 90

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes: This course fulfills DPE requirements in two ways. First, it unsettles established presuppositions, biases, and predispositions that have positioned the "West" as "best" in canons of architectural history. Secondly, it explores how architecture - past and present - communicates, supports, and/or resists hierarchies of power and socio-political influence in society by acting as modes of propaganda, tools of imperialism, sites of resistance, and/or spaces of affirmation.

Fall 2021
LEC Section: 01    TR 9:55 am - 11:10 am     Carolyn J. Wargula

ARTH 210  (F) Intro to Latin American and Latinx Art: Contradictions & Continuities, Postcolonial to the Present  (DPE)
This course introduces students to the breadth and richness of the visual arts in Latin American and U.S. Latinx art. The course begins in the late 19th and early 20th centuries, when artists and writers first began formulating the notion of an art "native" to Latin America, and continues through the ever-expanding cultural expressions developed throughout the 20th and 21st centuries. Through a contextual approach, we will pay particular attention to Latin American artists' shifting relationships to race, class, and gender issues, their affiliations with political and revolutionary ideals, and their critical stance vis-à-vis the European avant-gardes. Similarly, we will analyze the emergence and development of Latinx artistic practices in the postwar U.S., tracing these artists' own exploration of race, class, and gender dynamics. This class introduces Latin American and Latinx artistic practices and scholarship to enable students to develop a critical understanding of the historical specificity of diverse movements, their relation to canonical
definitions of modern and contemporary art, and their relevance to issues of colonialism, nationalism, revolutionary politics, and globalization. We will consider a vast array of genres--from painting and sculpture to printmaking, photography, conceptual, installation, and performance art--and will draw from artist statements, manifestos, and secondary interpretive texts to consider both the impetus behind these dynamic artworks and their lasting legacies.

Requirements/Evaluation: midterm exam and non-cumulative final exam, weekly short reading responses, attendance, and active participation
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: if overenrolled, waitlisted students will be selected on a lottery
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course fulfills DPE requirements through historical, visual, and thematic analyses that explore the cultural biases and geopolitical forces that have restricted the exposure of Latin American and Latinx art in the canon of Western art history. The course also centers on contextualizing Latin American and Latinx artistic practices and analyzing them in relation to race, gender, and class dynamics, and to issues of colonialism, nationalism, revolutionary politics, and globalization.

ARTH 246 (F) Museum Culture: Do you see what I see? (DPE)
We are all citizens of global visual culture, subject to a daily assault of images, artifacts, information and experiences. What we see and how we make meaning from it all depends on so many variables--who we are, where we are, and what we choose to look at. A critical question is how "art" figures and what agency it wields in millennial settings. This class is an opportunity to explore these issues with particular reference to museums and the objects enshrined therein. Digitized collections enable us to wander freely in space and time, following ideas/images through history even as we might also engage the 'real thing' in person. Our approach will be comparative and interrogative; case studies might range from an oil painting to a wooden sculpture, a coin to an illuminated manuscript, a photograph to a video. Along the way, we will consider what "art" really is and how different visual cultures might be presented or distorted in museum exhibitions and public spaces. Particular attention will be given to traditions or people that have been erased or misunderstood over time as art history has evolved as a discipline. Students will look, sketch, photograph and write throughout the semester, thereby exploring the entire spectrum of visuality from production to reception.
Requirements/Evaluation: Mandatory class attendance and substantive participation, weekly Glow Posts, curatorial term project.
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Sophomores and majors.
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: We will cover museums in diverse cultures and explore the porous boundaries between the "Orient", Europe and America. How art manifests inequalities of power and how museums privilege or erase particular groups of people will be addressed. Because collecting art entails money and privilege, understanding art history entails exploring social and cultural hierarchies.

ARTH 247 (S) Art and Representation in the Wake of Empire, Europe After 1945 (DPE)
Foregrouding the exhibition as a critical form of aesthetic and political contestation, this course examines the transformation of colonial projects of
early modernity to the post-World War II period. It will situate European visual culture within systems of transnational exchange and the art and cultures of other continents, while reflecting upon its economic and political impacts within its own newly reconfigured borders. National identity will be set in relief against a burgeoning cosmopolitanism, migration shifts, and increased tourism worldwide. Work in a variety of media will illustrate the multifaceted nature of these interactions and their engagement with materials, persons, and things in the commodification and use of natural resources. Of the themes addressed in this course--postcolonial, anticapitalism, imperialism, neocolonialism, and existentialism--particular attention will be focused upon the history of independence movements in the former European colonies and their reflection in works of art in Europe and abroad. We will consider the role major international and perennial art exhibitions--such as Documenta in Germany and the Venice Biennale in Italy--have played in the reconceptualization of the field of contemporary art, as well as other institutions of art confronting new waves of fascism in Europe. With a transhistorical approach, we will assess the work of international curators and cultural theorists who have remapped the relationship between art and politics, and the Global North and South.

Requirements/Evaluation: Weekly response papers (1-2 pages); participation in class; one 12-15 page paper
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Students planning to major in Art History, Art History and Studio Art majors, then any interested student
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: The course examines difference, power, and equity in artistic practice as a means of rethinking European identity within a globalized world. Migration, diaspora, and citizenship--and their differentials of power and movement--are central to course assignments and discussions. It focuses on the lasting impacts of colonialism beyond European borders as a way of understanding the logic of cultural hegemony.

ARTH 311  (S) Women and Art in East Asia (DPE)

Cross-listings: ARTH 311 ASIA 311

Primary Cross-listing

For over a thousand years, women in East Asia profoundly influenced the development of the visual arts, yet their formidable presence remains largely hidden. This seminar explores the critical roles women played as patrons, artists, and collectors of the arts in China, Korea, and Japan. We cover historical periods from the 10th century to the present day and discuss both traditional and nontraditional media including painting, sculpture, photography, and embroidery. Topics include didactic paintings for women in the Song court, calligraphy and painting as gendered modes of expression in Heian period Japan, the revival of Buddhist arts in Korea under the patronage of aristocratic women, and artworks by modern and contemporary artists that contest dominant representations of gender and sexuality. The course does not simply focus on artistic production, but also contextualizes these topics in light of emergent theorizations and readings on femininity, feminism, and the sexual politics of representation. Along with a final research paper, students will generate a substantial Wikipedia entry on a certain aspect of the course to promote the coverage of women and the arts online. No prior knowledge of Asian art history is required or assumed

Requirements/Evaluation: attendance, class participation and discussion, 5 object or reading response papers (2-3 pages), Wikipedia page editing project and presentation (5-7 minutes long), and 8-10-page final research paper (written in stages over the semester including a 10-15-minute presentation)
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Art History, Asian Studies, Chinese, or Japanese majors, but open to all
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity by exploring the construction of gender in relation to power. We discuss how Daoist, Confucian, Shinto, and Buddhist ideas historically shaped attitudes toward women and address the ways in which colonialism and Orientalism shaped understandings of gender differences and roles in East Asia. Students will be introduced to theoretical texts of feminism and postcolonialism and learn to identify key issues to the feminist art historical project.

**ARTH 315  (S) Underground Berlin: Art, Performance, and Film, 1980s to Present (DPE)**

**Cross-listings:** GERM 314  WGSS 344  ARTH 315

**Primary Cross-listing**

Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin's present, its contradictory mix of new and old, "deep history" and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government's plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city's social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape--from art museums and theater houses to occupied buildings, from independent publishing imprints and collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.

**Requirements/Evaluation:** Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Art History majors, German majors, then any interested student

**Expected Class Size:** 12

**Grading:** no pass/fail option,  no fifth course option

**Distributions:**  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 314 (D1)WGSS 344 (D2) ARTH 315 (D1)

**Difference, Power, and Equity Notes:** Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

**ARTH 561  (F) Land, Memory, Materiality: Histories and Futures of Indigenous North American Arts (DPE)**

**Cross-listings:** ARTH 561  HIST 454

**Primary Cross-listing**

This course engages Indigenous North American traditions of creative expression, remembrance, and representation in historical, contemporary, and future-facing ways. Drawing upon diverse Native American and First Nations theories and practices, it ranges widely across the continent to consider Indigenous arts and material culture within specific cultural, socioeconomic, and political contexts. Part of the course is grounded in the Native Northeast, including the Indigenous homelands of the Stockbridge-Munsee Mohican Community in which the Graduate Art Program and Williams
College are situated. Other units will focus on continuities and transformations in artistic and maker-traditions within and across specific Indigenous nations and communities. The course is especially interested in connections between past and present, and the innovative ways Indigenous artists, makers, and knowledge-keepers have reckoned with what has come before, while also mapping meaningful future pathways. Topics will include repatriation and community-led restorative efforts to bring home ancestors and important heritage items "collected" over the centuries following 1492; concepts and practices of cultural, intellectual, visual, and political sovereignty, as well as of decolonizing museums; the complex dynamics of collaboration; and Indigenous challenges to Eurocentric and settler colonial approaches to preservation, interpretation, and classification. Class members will develop familiarity with methods and ethics grounded in Native American and Indigenous Studies, and with new scholarship by leading and emerging critics and creators.

**Class Format:** The course will feature seminar discussions as well as local field trips to museums, libraries, and archives with pertinent collections.

**Requirements/Evaluation:** Engaged participation in discussions; in-class presentations; short writing assignments in preparation for final project; final original research and interpretive project

**Prerequisites:** For undergraduates, at least two prior courses in or related to History, Art History, Native American and Indigenous Studies, and/or Museum Studies.

**Enrollment Limit:** 16

**Enrollment Preferences:** Priority for Graduate Art students. Four seats will be reserved for undergraduates, with preference to junior and senior majors in Art History and History. Undergraduates should email a brief statement of interest to cd10@williams.edu.

**Expected Class Size:** 16

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 561 (D1) HIST 454 (D2)

**Difference, Power, and Equity Notes:** The course centers theories, experiences, and expressions from Native American/Indigenous communities, scholars, and artists/makers, while engaging foundational and new work in Native American and Indigenous Studies (NAIS). The course also provides students with critical tools for reckoning with settler colonialism and its historical as well as enduring impacts in Indigenous contexts; and with race, ethnicity, sovereignty, and tribal nationhood as key interpretive frames.

ASIA 228 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228  COMP 297  CHIN 428

Secondary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

ASIA 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Secondary Cross-listing

This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively—be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

ASIA 352 (S) Global Health in the Transpacific (DPE)

Cross-listings: AMST 352 STS 311 ASIA 352

Secondary Cross-listing
East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and
disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia’s claim of “viral sovereignty” to protect their biological specimens from Western intellectual property regimes and Hmong refugees’ resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.

Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper

Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.

Enrollment Limit: 12

Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Primary Cross-listing

Biology and Social Issues of the Tropics explores the biological dimensions of social issues in tropical societies, and focuses specifically on the peoples of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to human ecology and the tropical environment. Each section provides the science behind the issues and ends with possible solutions. The course highlights differences between the tropics and areas at higher latitudes. It begins with a survey of the tropical environment, including a global climate model, variation in tropical climates and the amazing diversity of tropical biomes. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria, AIDS and Covid-19 (SARS-CoV-2). The final part of the course covers the place of human societies in local and global ecosystems including the challenges of tropical food production, the interaction of humans with their supporting ecological environment and climate change. This course fulfills the DPE requirement. Through lectures, debates and readings, students confront social issues and policies from the perspective of biologists. This builds a framework for lifelong exploration of human diversity in terms of difference, power and equity.

Class Format: Debate

Requirements/Evaluation: two hour exams, a short paper, debate presentation, and a final exam

Prerequisites: none

Enrollment Limit: 60

Enrollment Preferences: Preference will be given to Environmental Studies majors/concentrators, students in need of a Division III or DPE requirement, and then Seniors, Juniors, Sophomores, and First Year students.

Expected Class Size: 60

Grading: no pass/fail option, no fifth course option

Unit Notes: Does not count for credit in the Biology major.

Distributions: (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 134 (D3) ENVI 134 (D3)

Difference, Power, and Equity Notes: This course highlights differences between the tropics and higher latitudes. For each section we focus on difference—different natural habitats and biodiversity, different patterns of population growth, different human disease profiles, different types of agriculture and different contributions to and impacts of climate change. For each section we highlight differences in power and the inequities of resource distribution. We then debate potential solutions to ameliorate these inequities.

CHIN 253 (S) "Illness" in Modern and Contemporary Chinese Literature and Culture (DPE)

Cross-listings: COMP 254 CHIN 253 WGSS 255

Primary Cross-listing

From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"—a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness": the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course,
we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

**Class Format:** All regular course meetings will be conducted in person.

**Requirements/Evaluation:** Evaluation will be based on 1) ACTIVE in-class discussion; 2) Publishing GLOW Discussion posts based on reading (Graded as Complete or Incomplete); 3) three short papers (3-5 pages); 4) the final project (including an abstract, a presentation, and a paper or other form of project).

**Prerequisites:** None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

**Enrollment Limit:** 20

**Enrollment Preferences:** Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Comp majors; Asian Studies Concentration; WSGG majors; and then to first-year students

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**
COMP 254 (D1) CHIN 253 (D1) WGSS 255 (D2)

**Difference, Power, and Equity Notes:** This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

**CHIN 428 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films** (DPE) (WS)

**Cross-listings:** ASIA 228 COMP 297 CHIN 428

**Primary Cross-listing**

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

**Requirements/Evaluation:** attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

**Prerequisites:** None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

**Enrollment Limit:** 10

**Enrollment Preferences:** current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

**Writing Skills Notes:** Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

**Difference, Power, and Equity Notes:** This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

**COMP 107 (S) Advanced French: Danger and Desire in French Film and Fiction** (DPE)

**Cross-listings:** RLFR 106 COMP 107

**Secondary Cross-listing**

This is an advanced course in French language designed to help you improve your speaking, comprehension, reading, and writing, through the dynamic study of short literary texts and films focusing on danger and desire in nineteenth-, twentieth-, and twenty-first-century France. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French literature and cinema. As a focus for improving your French, we will examine a broad range of texts and films on danger and desire in France from 1820 to 2020, with an emphasis on passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

**Requirements/Evaluation:** active class participation, grammar exercises, two short papers, midterm, and final paper

**Prerequisites:** Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

**Enrollment Limit:** 16

**Enrollment Preferences:** All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

**Expected Class Size:** 16

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 106 (D1) COMP 107 (D1)

**Difference, Power, and Equity Notes:** This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies, men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

**COMP 166 (F) Being Muslim, Being American: American Muslim Literature in the 21st century** (DPE)

**Cross-listings:** REL 166 COMP 166 AMST 166 ENGL 268
Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

COMP 230  (S)  The Renaissance in England and the European Continent: Self and World  (DPE) (WS)

Cross-listings: ENGL 228  COMP 230

Secondary Cross-listing

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 19

Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)  (DPE) (WS)
Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

COMP 242 (S) Americans Abroad  (DPE)

Cross-listings: COMP 242  ENGL 250  AMST 242

Primary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture--American or foreign.

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student’s own experiences

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 18

Expected Class Size: 18

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 242 (D1) ENGL 250 (D1) AMST 242 (D2)

Difference, Power, and Equity Notes: We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

COMP 273 (S) Detectives Without Borders (DPE) (WS)

Cross-listings: COMP 273 ENGL 273 GBST 273

Primary Cross-listing
Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective
typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature and English majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: COMP core course

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)

Writing Skills Notes: This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students’ ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

Difference, Power, and Equity Notes: A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

COMP 292  (F)  War and Resistance: Two Centuries of War Literature in France (1800-2015)  (DPE)

Cross-listings: RLFR 202  COMP 292  WGSS 201

Secondary Cross-listing

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying “Let us dishonor war!” From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the “War on Terror.” Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)

Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 16
Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film. Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

COMP 297 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228  COMP 297  CHIN 428

Secondary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

TUT Section: T1   TBA   Man He
What is the past good for? Why study theatre history now? What do the archival performance traditions, practices, and sources of yesterday have, if anything, to offer the theatre artists of today and tomorrow? Digging into these questions, this combined studio/seminar course will introduce students to major global theatre and performance histories by considering how they’ve been taken up—adapted, appropriated, recycled, critiqued, and re-appropriated—by artists working in the field now. Why does dramatist Luis Alfaro return to Sophocles’ Electra to tell a story about the experiences of Chicano communities in L.A.? What does the playwright Branden Jacobs-Jenkins find compelling about the allegorical performances of English Medieval theatre? What role does traditional Korean dance ritual play in the experimental theatre of artist Young Jean Lee? How have collaborators at New York’s Public Theater sought to re-vitalize Shakespeare’s works through community-driven practices? Through comparative pairings such as these, we will study and draw inspiration from the ways contemporary dramatists, makers, directors, and performers have approached the theatrical forms and performance practices of the past in the effort to create new perspectives on the present. While attending to theatre’s formal and aesthetic aspects, we will at the same time focus on the relationship of performance to the enduring legacies of empire, state power, colonialism, and private capital in which they are historically embedded and by which they are shaped. If and when possible, we will encounter archival sources housed in College Archives and WCMA. As a final creative project, students will adapt, critique, or re-appropriate a source material of their own choosing. This course is required for Theatre majors and is a prerequisite for THEA 401.

Class Format: This class is a combined studio/seminar. Students will be required to present and share their creative responses to the material studied in the course.

Requirements/Evaluation: Journal writing and active participation in class; a midterm creative adaptation project and accompanying “research casebook”; participation as discussion leader for one class; and a final creative adaptation or performance project and accompanying “research casebook.”

Prerequisites: For Theatre majors: any 100 or 200-level theatre course.

Enrollment Limit: 16

Enrollment Preferences: Theatre majors; Comparative Literature majors

Expected Class Size: 8-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 303 (D1) THEA 301 (D1)

Difference, Power, and Equity Notes: This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the dominant sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in which they historically arise.

Fall 2021

STU Section: 01 TR 11:20 am - 12:35 pm Amy S. Holzapfel

This advanced undergraduate seminar focuses on concepts, queries, and methodologies at the intersections of Asian Americanist critique, queer theory, and affect theory. How might we come to understand Asian gender, sexuality, and racialization less through a language of being or meaning, as through feeling? How do Asian/American discourses rely upon languages of gender and sexuality, and how might queerness depend upon Asianess? How might these theories identify, complicate, and call forth more expansive or alternative practices of belonging? The class will read theories including national abjection, racial melancholia, disaffection, queer diaspora, and homonationalism, as well as engage Asian American literatures.

Requirements/Evaluation: in-class participation, partnered presentation, weekly reading responses (350 words max), short analytical essay (4-5 pages), and creative final project (e.g. poem, epistolary letter, syllabus soundtrack) (5-8 pages)
**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** WGSS majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 313 (D1) ASIA 316 (D2) WGSS 316 (D2)

**Difference, Power, and Equity Notes:** This interdisciplinary seminar centers the interconnected constructions of race, ethnicity, gender, sexuality, and nation as they give shape to Asian American and Asian diasporic sexuality studies.

**COMP 336 (S) The Banlieue in Literature, Music, and Film (DPE) (WS)**

**Cross-listings:** RLFR 300  COMP 336  AFR 339

**Secondary Cross-listing**

The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, “urban culture”--as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do “banlieue films” and “banlieue lit” tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

**Requirements/Evaluation:** 3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).

**Prerequisites:** RLFR 105 and above

**Enrollment Limit:** 14

**Enrollment Preferences:** French majors and certificate students, Africana and Comparative literature students

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 300 (D1) COMP 336 (D1) AFR 339 (D2)

**Writing Skills Notes:** To hone their research and writing skills (and prepare for their conference on the banlieue), students will write three research papers (with thesis statement and subheadings) from which they will receive professor feedback.

**Difference, Power, and Equity Notes:** This course, Banlieue in Lit, Music, Film fosters difficult but carefully framed conversations about race, class, gender, citizenship, housing segregation, discursive practices, immigration and belonging in contemporary France and how identities and power relationships are expressed in banlieue film, literature and French hip hop music.

ECON 107 (F) Inequality in a Classless Society: The Soviet Experiment and its Aftermath (DPE)

Cross-listings: ECON 107 SOC 217

Primary Cross-listing

All societies have to come up with some way of distributing wealth and income. In turn, individuals and groups comprising these societies grapple with, justify, and at times contest their place in social and economic hierarchy. Complex as they are, such processes are all the more pressing in societies built on the explicit promise of economic equality, as was the case in the USSR and socialist Eastern Europe. Using the combined perspectives offered by economics, history, and sociology, this course will trace the practices and lived realities of social differentiation and income/wealth distribution brought about by the socialist experiment and intensifying after its demise. We will explore the life of class in these supposedly classless societies, and its reconfiguration after 1991, approaching class as, simultaneously, a matter of social classification, consumption differences, cultural identity, economic policy, and political power. We will study how the economic and political developments of late-socialism and the transition period generated class-based differences in all walks of life, and ask what these experiments have to teach us about inequalities and persistent social and economic divisions closer to home.

Requirements/Evaluation: Class participation; small writing assignments and research exercises; and a final research project

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: 1st and 2nd-year students thinking about majoring in Anthropology, Sociology, or Economics

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major. It may be taken for the SOC major.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 107 (D2) SOC 217 (D2)

Difference, Power, and Equity Notes: The subject matter of this course is all about the origins, evolution, current structures, and implications of economic and social differentiation in a region quite apart from the United States. Moreover, by crossing disciplinary lines, we hope it will offer a particularly valuable perspective on such issues. Thus, we felt that it should naturally serve as a DPE course.

Fall 2021

SEM Section: 01 MR 1:10 pm - 2:25 pm Steven E. Nafziger, Olga Shevchenko

ECON 204 (S) Economics of Developing Countries (DPE)

Cross-listings: ENVI 234 ECON 204

Primary Cross-listing

The leaders of developing countries almost universally proclaim "economic development" to be their eventual destination, but it is not easy to visualize the journey. Is rapid economic growth sufficient to generate development, or do governments need to invest proactively in health, education and social protection? Can agriculture support incomes and provide jobs, or is urban industrial development a prerequisite? How do households in developing countries insure themselves against adverse outcomes? Can policies enable entrepreneurship and innovation in such economies? Is it true that corruption is a significant obstacle? Has the climate crisis upended our traditional models to the point where we need to rethink the notion of development? How does the global COVID-19 pandemic threaten the progress developing countries have achieved, and what policy responses will be most effective in addressing the crisis? The class will introduce these and other issues, as analyzed by economists.

Class Format: discussion

Requirements/Evaluation: short essays/assignments; two individual take-home exams; final group project

Prerequisites: one ECON class at Williams or prior course deemed equivalent by the Economics Department

Enrollment Limit: 25

Enrollment Preferences: first-year and sophomore students

Expected Class Size: 25

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 234 (D2) ECON 204 (D2)

Difference, Power, and Equity Notes: This course provides a setting for students to learn about the causes and consequences of poverty in developing countries. It requires students to engage with questions of political and economic power, stressing attentiveness to how market relationships may not generate welfare-maximizing opportunities for poor and marginalized populations. Through exercises and a group project, the course builds analytical and empirical skills for diagnosing and addressing constraints on economic development.

ECON 218 (S) Markets, Distrust, and History (DPE)

Cross-listings: GBST 218 ECON 218

Primary Cross-listing
Global markets connect strangers: people of different races, religions, and classes. There are huge profits from such economic contact, but there are also risks: of being cheated, deceived, or coerced. This course examines how global markets have evolved over the past five hundred years using insights from the economics of incentives (principal-agent models, contracts, mechanism design). Case studies will cover: the spice trade and conflict in the Indian Ocean (early 16th century), capital markets and fraud in Amsterdam and London (17th and 18th century), the coffee trade and deception in Mocha and Java (18th and 19th), slavery and its abolition in Brazil (20th), colonial control and resistance in Kenya (21st), and the constraints on “fair trade” in Nicaragua and US (present). Required readings for this class will be sixty or more pages per week, and will include historical case studies, excerpts from novels, and reportage.

Requirements/Evaluation: Students will be evaluated based on class participation, weekly assignments, a midterm, and a final.

Prerequisites: Econ 110

Enrollment Limit: 25

Enrollment Preferences: If overenrolled, students will be asked to submit a short statement of interest.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 218 (D2) ECON 218 (D2)

Difference, Power, and Equity Notes: This course analyzes the evolution of economic inequity. It analyzes how global market opportunities have been shaped by race, religion, wealth, and power.

ENGL 105 (F)(S) American Girlhoods (DPE) (WS)

Cross-listings: AMST 105 WGSS 105 ENGL 105

Primary Cross-listing
The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation
Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 105 (D2) WGSS 105 (D2) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

ENGL 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: ENGL 113 AMST 113 WGSS 113

Primary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)
**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; three four-to-five-page graded papers; one creative assignment; and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women’s Liberation Movement.

---

**ENGL 208 (S) Designer Genes** (DPE) (WS)

**Cross-listings:** ENGL 208 AMST 206 STS 208 WGSS 208

**Secondary Cross-listing**

In this course, we explore cultural texts that attempt to come to terms with—or exploit—the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book *The Mutant Project*. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary *In the Family*, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel *Dawn* explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film *Gattaca* shows us a fully realized dystopian society where genetically modified humans are the norm—a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies, American Studies, English majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)**

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

**Difference, Power, and Equity Notes:** This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics' case studies, close reading) to help students question and articulate the
social injustices at play in scientific research and bioengineering.

ENGL 228 (S) The Renaissance in England and the European Continent: Self and World (DPE) (WS)

Cross-listings: ENGL 228 COMP 230

Primary Cross-listing

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 19

Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 228 (D1) COMP 230 (D1)

Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

SEM Section: 01 TR 11:20 am - 12:35 pm Emily Vasiliauskas

ENGL 231 (F)(S) Literature of the Sea (DPE)

Cross-listings: MAST 231 ENGL 231

Secondary Cross-listing

The ocean, and human relationships with it, have been central features of literatures and cultures around the world for more than a thousand years.
But since literary study is typically based around authors' homelands, careful examination of the oceanic experience is often pushed to the periphery—an "empty space" to be crossed between nations, a "vast darkness" antithetical to human life, or a mirror for land-borne concerns. Increasingly, however, scholars and readers are centering the sea and stories about it as a means stepping outside human frameworks of space and time, situating the complex emotions and narratives inspired by the ocean into a complex network of geologic history and teeming other-than-human life. This course examines a wide range of texts and perspectives on the ocean and human relationships with it. Doing so will help us consider how literature both plays into and subverts dominant viewpoints of the ocean. Through texts that consider 19th-century whaling, the Middle Passage, the postcolonial Caribbean, and islands throughout the Pacific Ocean, we will explore a range of questions, including: What can we learn from examining efforts to write about the ocean? How do ocean stories help individuals understand themselves, their communities, and their place in global environments? What can the range of cultural and literary perspectives on our "single, global ocean" reveal about the ways different people are both connected with and profoundly distant from each other? Most importantly, we will practice, as a classroom community, different strategies for carefully reading texts while connecting them to cultural traditions, surrounding environments, and personal experiences.

Class Format: weekly roundtable discussions, including coastal and near-shore field trips and multiple field seminars.

Requirements/Evaluation: regular papers, class participation, journal-writing, and a final assignment

Prerequisites: N/A

Enrollment Limit: 25

Enrollment Preferences: Williams-Mystic Students only

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: offered only at Mystic Seaport

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

MAST 231 (D1) ENGL 231 (D1)

Difference, Power, and Equity Notes: This course focuses on the range of cultural perspectives about the sea, as well as the ways those perspectives can unsettle and challenge dominant narratives about the sea and its role in colonial expansion. Furthermore, this course centers voices that are typically overlooked in the genre of "Sea Literature," paying particular attention to Indigenous and African-American narratives about the ocean.

ENGL 250  (S) Americans Abroad (DPE)

Cross-listings: COMP 242 ENGL 250 AMST 242

Secondary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of "home" into something that reflected their individual identity, and not one imposed by any national culture—American or foreign.
**Requirements/Evaluation:** each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences

**Prerequisites:** any literature course at Williams or permission of instructor

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 242 (D1) ENGL 250 (D1) AMST 242 (D2)

**Difference, Power, and Equity Notes:** We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

**ENGL 252 (F) Ficciones: A Course on Fiction** (DPE)

**Cross-listings:** ENGL 252 LATS 222

Secondary Cross-listing

This course is focused on the art and practice of writing fiction. We will study published fiction by Latina/o, Latin American, Afro-Diasporic, and other writers of the Global South, paying close attention to how each author employs narrative elements--characterization, plotting, structure, dialogue mechanics, setting, tone, theme--as well as the values and visions expressed. Regular assignments and in-class exercises will help students strengthen their own narrative skills.

**Requirements/Evaluation:** attendance and class participation, writing exercises, 4- to 5-page midterm paper (close-reading a text), 10- to 15-page final paper

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Latina/o Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**ENGL 268 (F) Being Muslim, Being American: American Muslim Literature in the 21st century** (DPE)

**Cross-listings:** REL 166 COMP 166 AMST 166 ENGL 268

Secondary Cross-listing

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less
common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

Fall 2021

ENGL 273 (S) Detectives Without Borders (DPE) (WS)

Cross-listings: COMP 273 ENGL 273 GBST 273

Secondary Cross-listing

Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature and English majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: COMP core course

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)
Writing Skills Notes: This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students' ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

Difference, Power, and Equity Notes: A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

SEM Section: 01 TF 1:10 pm - 2:25 pm Michele Monseratti

ENGL 279 (F) Introduction to Latinx Literature: From 'I Am Joaquin' to Borderless-Future Dreams (DPE) (WS)

This course is designed to introduce you to Latinx literary and cultural production from the 1930s through the present. We will read and encounter some of the most urgent and exciting literary-artistic texts produced by Latinxs in the U.S., focusing our attention on the post-war period and the flourishing of the Chicano Movement-related cultural renaissance of the late 1960s and early 70s, along with the Movement's significant aftermaths.

This focus highlights the significant contributions Chicana/o voices have made to Latinx literary studies and creates space for the incorporation of other Latin American-descended peoples (including Nuyoricans, Cubanos, Central Americans, Afro-Latinxs, and more). In addition to traditional narrative forms, we will also study poetry, films, photography, plays, murals, and performance art. In this way, you will gain a critical awareness of how Latinxs have historically engaged in various modes of artistic experiment to better question some of the twentieth and twenty-first centuries' most pressing global and local political issues (from migration to racism to coloniality to heterosexism to gentrification to U.S. imperialism and more). The course, at its core, will explore issues of identity-formation, particularly as they relate to Latinx struggles for equality on the fault lines of race, class, and gender/sexuality. Who and/or what is the Latinx subject, and how does the question of identity relate to struggles for cultural recognition and political equality? To what extent does the Latinx subject's political freedom rest upon practices and processes of identify-formation or, alternatively, dis-identification? As we explore these questions, we will also examine how Latinxs come to inhabit and articulate a sense of space and place in the shifting landscapes of culture--from the city to the campo to the cultural in-between of the border.

Requirements/Evaluation: Active participation in in-class and online discussion, four 4-5 page essays, weekly reading responses, and an in-class presentation.

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 19

Enrollment Preferences: Sophomores considering the English major, but juniors and seniors are also welcome.

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: The instructor will provide written feedback on student work. Students will receive timely feedback on essay assignments with suggestions for improvement. Reading-response prompts will be geared towards helping students practice writing and analysis skills. Students may also be asked to attend occasional 1-on-1 meetings with instructor to discuss writing.

Difference, Power, and Equity Notes: This course offers students the opportunity to learn and think critically about Latinx community struggles throughout U.S. social history while examining the forms of cultural expression that arise out of and in relation to those struggles. It also delves into the intersectional nature of Latinx community struggles as they emerge along the fault lines of race, class, and gender/sexuality.

ENGL 375 (F) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing
In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

SEM Section: 01    W 7:00 pm - 9:40 pm    Kai M. Green

ENGL 392 (S) Acción Poética: Poetic Art's Critiques of an Americas of Conquest (DPE)

Can poems be thought of as social acts, or as a kind of “acción poética” (poetic action)? What would it mean, in other words, to resituate our understanding of poetry within the realms of speech act theory, performance studies, and the local and global histories of social conflict in the Americas? In this course, we will examine the long history of poetic form in the Americas to trace the emergence of separate, but related poetic experimentalisms, particularly in the literary traditions of modern Latin American and U.S.-Latinx poetry and performance art. Throughout the course, we'll ask what it means to write with and without the body in mind. We'll attend to the embodied forms of poetic expression that emerge prior to the twentieth century while investigating poetry's articulations of geo-social space in the Americas. Our course will then focus on the vanguard poetries of twentieth-century Latin America (Neruda, Mistral, Vallejo, Zurita, et al.) and on the transcultural modernities of U.S.-Latinx poetry and performance. Through our explorations of poetic form's encounters with a social history of the Americas, we'll receive a glimpse of what poetry looks like in a world of spiritual, political, ecological, and humanitarian crises. Readings will likely include works by: Gabriela Mistral, Pablo Neruda, Vicente Huidobro, César Vallejo, Raúl Zurita, Cecilia Vicuña, Miguel Algarín, Sandra María Esteves, Willie Perdomo, Julia de Burgos, Emmy Pérez, Gloria Anzaldúa, Loma Dee Cervantes, Sandra Cisneros, Francisco X. Alarcón, Guillermo Gómez-Peña, Coco Fusco, Laura Aguilar, Asco, Sor Juana Inés de la Cruz, Phillips Wheatley, José Martí, Rubén Darío, Walt Whitman, Emily Dickinson, and more. Although useful, reading knowledge of Spanish is not expected or required; Spanish-language texts will be provided in English translation alongside the original.

Requirements/Evaluation: Active participation in in-class and online discussion, two close-reading papers (5 pages each), contributions to course blog, and a final 8-10 page research paper.

Prerequisites: A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 25

Enrollment Preferences: English majors, but non-majors with a strong interest in the subject are welcome.

Expected Class Size: 25
Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course offers students the opportunity to think critically about the experiences of socially marginalized groups throughout U.S. and Latin American history. The course emphasizes the experiences of colonization and U.S. imperialism in Latin America and those of social conflict in border regions throughout the U.S. Moreover, it invites students to ask what it means to write poetry from the standpoint of various subject positions (as determined by race, class, gender/sexuality, etc.).

ENVI 134 (F) The Tropics: Biology and Social Issues (DPE)
Cross-listings: BIOL 134 ENVI 134
Secondary Cross-listing

Biology and Social Issues of the Tropics explores the biological dimensions of social issues in tropical societies, and focuses specifically on the peoples of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to human ecology and the tropical environment. Each section provides the science behind the issues and ends with possible solutions. The course highlights differences between the tropics and areas at higher latitudes. It begins with a survey of the tropical environment, including a global climate model, variation in tropical climates and the amazing diversity of tropical biomes. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria, AIDS and Covid-19 (SARS-CoV-2). The final part of the course covers the place of human societies in local and global ecosystems including the challenges of tropical food production, the interaction of humans with their supporting ecological environment and climate change. This course fulfills the DPE requirement. Through lectures, debates and readings, students confront social issues and policies from the perspective of biologists. This builds a framework for lifelong exploration of human diversity in terms of difference, power and equity.

Class Format: Debate
Requirements/Evaluation: two hour exams, a short paper, debate presentation, and a final exam
Prerequisites: none
Enrollment Limit: 60
Enrollment Preferences: Preference will be given to Environmental Studies majors/concentrators, students in need of a Division III or DPE requirement, and then Seniors, Juniors, Sophomores, and First Year students.
Expected Class Size: 60
Grading: no pass/fail option, no fifth course option
Unit Notes: Does not count for credit in the Biology major.
Distributions: (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
BIOL 134 (D3) ENVI 134 (D3)

Difference, Power, and Equity Notes: This course highlights differences between the tropics and higher latitudes. For each section we focus on difference--different natural habitats and biodiversity, different patterns of population growth, different human disease profiles, different types of agriculture and different contributions to and impacts of climate change. For each section we highlight differences in power and the inequities of resource distribution. We then debate potential solutions to ameliorate these inequities.

ENVI 230 (S) Geographies of Food Justice (DPE)
Recent scholarship & reporting clearly show inequalities of race, class, & gender in access to adequate, healthy, & culturally appropriate food. Observers often call poor, segregated urban areas food deserts, evoking a landscape dominated by fast food & devoid of vegetables. Farmer & food sovereignty activist Leah Penniman instead refers to this as food apartheid to emphasize that inequalities in food access are the result of racism and are inseparable from other injustices. Notably, deserts & apartheid are both spatial metaphors, referring not only to the environments in which people eat, but also the systems of social, political, & economic power that define those places. This course considers the relationship between food, power, & geography by looking at such places. We ask: How does where people eat shape what they eat? What can we learn about structural racism & settler colonialism by looking at the diverse sites of food insecurity? How do people experience a globalized food system in uniquely localized ways? How do struggles over land & labor shape the possibilities for justice in the food system? Does it matter where our food is produced? We begin with a critical reevaluation of the concept of food deserts, drawing on works by scholars who question the term's usefulness. Next, we consider indigenous hunting & fishing practices. From the Arctic to the Saint Lawrence River, ancestral practices are undergoing fundamental disruptions from settler colonialism & its effects, which include climate change & toxic contamination. Additional topics include farmworkers, pesticide exposure, migration, free trade, & diet-related disease. We will read works by geographers, anthropologists, sociologists, & journalists, among others. Throughout, we ask how people are enacting food justice & sovereignty on the ground. We listen to those on the frontlines & imagine a world in which their visions are reality.

Requirements/Evaluation: 2-3 short papers on assigned topics, final research paper, class discussion, occasional short oral presentations

Prerequisites: ENVI 101 or permission

Enrollment Limit: 19

Enrollment Preferences: Environmental studies majors and concentrators

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course considers how race, racism, and class shape access to food. We will discuss accountability within the food movement, and discuss ways to address inequalities in this area.

**ENVI 234  (S)  Economics of Developing Countries  (DPE)**

**Cross-listings:** ENVI 234  ECON 204

**Secondary Cross-listing**

The leaders of developing countries almost universally proclaim "economic development" to be their eventual destination, but it is not easy to visualize the journey. Is rapid economic growth sufficient to generate development, or do governments need to invest proactively in health, education and social protection? Can agriculture support incomes and provide jobs, or is urban industrial development a prerequisite? How do households in developing countries insure themselves against adverse outcomes? Can policies enable entrepreneurship and innovation in such economies? Is it true that corruption is a significant obstacle? Has the climate crisis upended our traditional models to the point where we need to rethink the notion of development? How does the global COVID-19 pandemic threaten the progress developing countries have achieved, and what policy responses will be most effective in addressing the crisis? The class will introduce these and other issues, as analyzed by economists.

**Class Format:** discussion

**Requirements/Evaluation:** short essays/assignments; two individual take-home exams; final group project

**Prerequisites:** one ECON class at Williams or prior course deemed equivalent by the Economics Department

**Enrollment Limit:** 25

**Enrollment Preferences:** first-year and sophomore students

**Expected Class Size:** 25

**Grading:** no pass/fail option,  no fifth course option

**Distributions:** (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

**Primary Cross-listing**

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered "soul food"? In this course, we will answer these questions by digging in to the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are
interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

**Requirements/Evaluation:** two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

**Expected Class Size:** 19

Fall 2021
ENVI 271  (S)  Theatre and Environment: Site, Ecology, Utopia  (DPE)

Cross-listings: THEA 272  ENVI 271

Secondary Cross-listing

What is theatre's relation to the environment, whether natural or social? How does the site, place, or context of a performance change its meaning? What role does theatre play within grassroots campaigns for climate action, environmental justice, or Indigenous land rights? How can we use theatre to, in the words of adrienne maree brown, "practice, in every possible way, the world we want to see?" In this studio course, participants will collaborate in small groups to create and share short performances based on a series of prompts, such as: site, nature, immersion, ecology, biomimicry, and utopia. Acknowledging the deep inequities (racial, gendered, ethnic, class-based) that constitute all human and environmental interaction, we will work to understand how art's relationship to the environment is itself shaped by the historical legacies of empire and global capitalism. As a contribution to the work of the studio, each student will share independent research on an artist, activist movement, or collective of their choice, such as: Hito Steyerl, Ellie Ga, Marta Rosler, Joan Jonas, Paul Chan, Theaster Gates, Bread and Puppet, Punch Drunk, En Garde Arts, Talking Birds, Rimini Protokoll, Extinction Rebellion, Greenpeace, and others. Critics and theorists considered may include: Allan Kaprow, Augusto Boal, Miwon Kwon, Nick Kaye, Claire Doherty, Donna Haraway, Grant Kester, Nato Thompson, and adrienne maree brown. As a special project in the class, we will collaborate with The Zilkha Center to create a series of performances that engage with topics relevant to the campus community, including climate action and environmental justice. Note: this is a maker's course that invites students to create, develop, perform, and share their work with each other and, in some cases, public audiences.

Class Format: This is a maker-based studio course that requires deep collaboration on the creation, development, and performing of original works of theatre and live art.

Requirements/Evaluation: Creation and presentation of a series of four short performance pieces; leading a 10-minute class discussion; a 15-minute independent oral presentation on a chosen artist or collective; weekly journal writing; deep and active participation and collaboration.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: if overenrolled, preference will be given to Theatre majors and Environmental Studies majors

Expected Class Size: 10-12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 272  (D1)  ENVI 271  (D1)

Difference, Power, and Equity Notes: This course interrogates the deep inequities, injustices (racial, gendered, ethnic, and class-based), and power relations that constitute all of humanity's relation with earth's environment, ecosystem, and ecology. Students will not only study artists and collectives engaged with the work of environmental justice, accountability, and action, they will also make such art themselves.

Cross-listings: AFR 347  AMST 332  ENVI 332

Secondary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human
and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples’ visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

Enrollment Limit: 15

Enrollment Preferences: AMST, AFR, ENVI

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Secondary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen? Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful "agribusiness" corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of "food sovereignty" movements--efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

Secondary Cross-listing
Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

Prerequisites: none

Enrollment Limit: 23

Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MAST 351 (D2) ENVI 351 (D2) PSCI 319 (D2)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.
Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

GBST 218 (S) Markets, Distrust, and History (DPE)
Cross-listings: GBST 218 ECON 218
Secondary Cross-listing

Global markets connect strangers: people of different races, religions, and classes. There are huge profits from such economic contact, but there are also risks: of being cheated, deceived, or coerced. This course examines how global markets have evolved over the past five hundred years using insights from the economics of incentives (principal-agent models, contracts, mechanism design). Case studies will cover: the spice trade and conflict in the Indian Ocean (early 16th century), capital markets and fraud in Amsterdam and London (17th and 18th century), the coffee trade and deception in Mocha and Java (18th and 19th), slavery and its abolition in Brazil (20th), colonial control and resistance in Kenya (21st), and the constraints on "fair trade" in Nicaragua and US (present). Required readings for this class will be sixty or more pages per week, and will include historical case studies, excerpts from novels, and reportage.

Requirements/Evaluation: Students will be evaluated based on class participation, weekly assignments, a midterm, and a final.

Prerequisites: Econ 110

Enrollment Limit: 25

Enrollment Preferences: If overenrolled, students will be asked to submit a short statement of interest.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Cross-listings: THEA 246 GBST 246 AMST 249
Secondary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: sophomores, juniors, and seniors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 246 (D1) GBST 246 (D2) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

GBST 273 (S) Detectives Without Borders (DPE) (WS)

Cross-listings: COMP 273 ENGL 273 GBST 273

Secondary Cross-listing
Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation

Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Comparative Literature and English majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Unit Notes: COMP core course
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)

Writing Skills Notes: This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students' ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

Difference, Power, and Equity Notes: A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

Attributes: GBST Borders, Exiles + Diaspora Studies Electives
GBST 305 (S)  A History of Health and Healing in Africa  (DPE)

Cross-listings:  HIST 305  AFR 304  GBST 305

Secondary Cross-listing

This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 305 (D2) AFR 304 (D2) GBST 305 (D2)

Difference, Power, and Equity Notes: This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and and inequalities.

GBST 351 (S)  The New Left and Neoliberalism in Latin America  (DPE)

Cross-listings:  GBST 351  PSCI 351

Secondary Cross-listing

Recent years have seen a resurgence of the political left in Latin America. This course seeks to understand the origins of this new left, the ideas and character of its protagonists, the neoliberal philosophy it opposes, and the arena of democratic politics it inhabits today. We first read polemics from both sides, before stepping back to consider Latin American political economy, including the twentieth-century left, from a more historical and analytical perspective. With this preparation, we then look more closely at major contemporary figures and movements in Venezuela, Bolivia, Ecuador, Brazil, and other countries. After considering explanations of the rise of the left and assessments of its performance in power, we end our common readings by asking what it might mean today to be on the left in Latin America--or anywhere--both in policy and political terms.

Class Format: discussion then seminar

Requirements/Evaluation: three short essays, a 1-page reflection paper, and a 12-page research proposal

Prerequisites: a course on Latin America and a course in Economics or permission of the instructor

Enrollment Limit: 15
Enrollment Preferences: Political Science majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 351 (D2) PSCI 351 (D2)

Difference, Power, and Equity Notes: The New Left in Latin America originated in efforts to remedy inequalities born of the Conquest, uneven capitalist development, and racial prejudice. Its neoliberal foes generally do not doubt the existence of these inequalities, but they question the proposition that the state could adequately address them. This course engages, contextualizes, and deepens the debate.

GBST 480 (F) Media and Society in Africa (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Secondary Cross-listing

The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programing. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers’, readers’ and listeners’ control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media’s role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: This course open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers’ writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques - both oral and written - from the professor, as well as oral critiques from tutorial partners.

Difference, Power, and Equity Notes: Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important societal concerns are expressed through the media in Africa.

GERM 314 (S) Underground Berlin: Art, Performance, and Film, 1980s to Present (DPE)

Cross-listings: GERM 314  WGSS 344  ARTH 315

Secondary Cross-listing

Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin’s present, its contradictory mix of new and old, “deep history” and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government’s plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city’s social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape—from art museums and theater houses to occupied buildings, from independent publishing imprints and collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.

Requirements/Evaluation: Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Art History majors, German majors, then any interested student

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
GERM 314 (D1) WGSS 344 (D2) ARTH 315 (D1)

Difference, Power, and Equity Notes: Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

HIST 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)

Cross-listings: AFR 104  HIST 104

Primary Cross-listing

This course highlights African experiences of World War II. Although most histories have excluded Africa’s role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war’s impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent’s role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers’ biographies, and propaganda posters.

Requirements/Evaluation: active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12
**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

**Writing Skills Notes:** Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 158 (D2) AFR 158 (D2)

**Writing Skills Notes:** Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course analyzes the long black freedom struggle in the North during the twentieth century. It examines black northerners’ efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in
In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal’s racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

Requirements/Evaluation: Weekly formal response papers and written critiques.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 159 (D2) HIST 159 (D2)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2 pages) of their peers’ work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

Difference, Power, and Equity Notes: Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

Attributes: HIST Group F Electives - U.S. + Canada
continent. Over the course of the semester you will be introduced to major historical themes in African History from the past 150 years, including the abolition of the slave trade and its effects, African states in the 19th century, the growing integration of different regions into shifting global and economic systems, European colonization, and African resistance to imperial conquest. We will also explore the emergence of the nationalist and anti-colonial movements, and Africa’s post-colonial experiences of self-governance. Within these broad historical processes, the class will cover additional key themes such as religious change and the role of Western missionaries; changing gender roles; environmental exploitation and change; the emergence of the developmental state; urbanization; military dictatorships, and war and violence in the late 20th century. We will also cover some of the issues surrounding the study of African History as a discipline. This is a challenging task as no single course can cover more than a silver of the complexity and variety of the continent. This is why we approach the study of Modern African History through a comparative prism.

**Requirements/Evaluation:** active participation in discussion, map quiz, response papers, midterm and final exams, and a case study paper (7-10 pages)

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

**Expected Class Size:** 30

**Grading:** no pass/fail option, yes fifth course option

**Secondary Cross-listing**

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered “soul food”? In this course, we will answer these questions by digging in to the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

**Requirements/Evaluation:** two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: This course considers the production and consumption of food as a locus of power over the last 300 years, and contextualizes current movements for food justice and sovereignty in light of those histories. Students will have opportunities to reflect on questions of power, privilege, and racism in contemporary food movements. Our final unit focuses on challenges to critical food studies from fat liberation and body positivity.

HIST 270 (F) Sport and the Global Color Line (DPE)

Cross-listings: HIST 270 LEAD 270 AFR 270

Primary Cross-listing

Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas—like movie theaters, railroads, schools, and other public sites—shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

Class Format: Lecture and discussion.

Requirements/Evaluation: Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

Prerequisites: None.

Enrollment Limit: 40

Enrollment Preferences: Open to all students with completion of course admission survey if overenrolled.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

HIST 303 (S) Food in the Middle East: A History (DPE)

Cross-listings: ARAB 303 HIST 303

Primary Cross-listing

In this course we examine the rich culinary history of the Middle East first among the three major religions in the region (Judaism, Christianity, and Islam), then during the time of major Islamic Empires such as the Abbasids and Ottomans, and finally in the modern period. Using an array of primary and secondary sources, we explore the social, religious, literary, and economic place of food. We will study the consumption of an attitudes toward specific foodstuffs, gauging the medicinal and culinary value of spices, the historical taboos against drinking coffee and alcohol, and the dispute over various dishes within modern nationalist constructions. We will also investigate how Middle Eastern peoples from different ethnic, geographic, and
religious backgrounds have historically used food to express their distinct cultural, national, and gendered identities.

**Requirements/Evaluation:** attendance, participation, map exercise, leading discussion, 3 short essays, final paper/research project

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** History and Arabic Studies majors, seniors

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 303 (D2) HIST 303 (D2)

**Difference, Power, and Equity Notes:** This course explores a variety of themes within Middle Eastern food history and their implications to different religious communities, genders, and/or socio-economic groups, across a large swath of time. Students will be asked to explore these topics in class discussions and writing assignments, using multiple comparative perspectives.

**HIST 305 (S) A History of Health and Healing in Africa** (DPE)

**Cross-listings:** HIST 305 AFR 304 GBST 305

**Primary Cross-listing**

This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

**Requirements/Evaluation:** active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 305 (D2) AFR 304 (D2) GBST 305 (D2)

**Difference, Power, and Equity Notes:** This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and and inequalities.

**Attributes:** AFR Core Electives GBST African Studies Electives HIST Group A Electives - Africa
HIST 346 (F) Modern Brazil (DPE)

Cross-listings: AFR 346 HIST 346

Primary Cross-listing

Brazil has been the "country of the future" longer than it has been an independent nation. Soon after Europeans descended on its shores, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often contributed to an exaggerated patriotism, it has also fostered ambiguity—for if the label suggests Brazil's potential, it also underlines the country's failure to live up to that promise. This course will examine Brazil's modern history by taking up major themes from Independence to the present. Beginning with a "bloodless" independence that sparked massive civil wars, we will analyze the hierarchies that have characterized Brazilian society. The course will give particular attention to themes of race, gender, sexuality, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations.

Class Format: discussion

Requirements/Evaluation: class participation will count for 20% of final grade; each of two 5-page papers will count for 25%; and a final 8- to 10-page paper will count for 30%

Prerequisites: none; open to first-year students with instructors permission

Enrollment Limit: 25

Enrollment Preferences: History majors, Latino/a Studies concentrators

Expected Class Size: 20-25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352 (F)(S) American Maritime History (DPE) (WS)

Cross-listings: HIST 352 MAST 352

Secondary Cross-listing

This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.

Class Format: Seminars, discussions, and field seminars

Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project

Prerequisites: None

Enrollment Limit: 27
Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: Offered only at Mystic Seaport

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352 (D2) MAST 352 (D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

HIST 367  (S)  Black History is Labor History  (DPE) (WS)

Cross-listings:  AFR 367  HIST 367

Primary Cross-listing

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antinationalism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.

Requirements/Evaluation: Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites: recommended for students with sophomore standing or above

Enrollment Limit: 25

Enrollment Preferences: HIST and AFR majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 367 (D2) HIST 367 (D2)

Writing Skills Notes: Students will be required to write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages). Throughout the semester, these writing assignments will total roughly 22-30 pages.

Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United
States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

HIST 454  (F)  Land, Memory, Materiality: Histories and Futures of Indigenous North American Arts  (DPE)

Cross-listings:  ARTH 561  HIST 454

Secondary Cross-listing

This course engages Indigenous North American traditions of creative expression, remembrance, and representation in historical, contemporary, and future-facing ways. Drawing upon diverse Native American and First Nations theories and practices, it ranges widely across the continent to consider Indigenous arts and material culture within specific cultural, socioeconomic, and political contexts. Part of the course is grounded in the Native Northeast, including the Indigenous homelands of the Stockbridge-Munsee Mohican Community in which the Graduate Art Program and Williams College are situated. Other units will focus on continuities and transformations in artistic and maker-traditions within and across specific Indigenous nations and communities. The course is especially interested in connections between past and present, and the innovative ways Indigenous artists, makers, and knowledge-keepers have reckoned with what has come before, while also mapping meaningful future pathways. Topics will include repatriation and community-led restorative efforts to bring home ancestors and important heritage items "collected" over the centuries following 1492; concepts and practices of cultural, intellectual, visual, and political sovereignty, as well as of decolonizing museums; the complex dynamics of collaboration; and Indigenous challenges to Eurocentric and settler colonial approaches to preservation, interpretation, and classification. Class members will develop familiarity with methods and ethics grounded in Native American and Indigenous Studies, and with new scholarship by leading and emerging critics and creators.

Class Format:  The course will feature seminar discussions as well as local field trips to museums, libraries, and archives with pertinent collections.

Requirements/Evaluation:  Engaged participation in discussions; in-class presentations; short writing assignments in preparation for final project; final original research and interpretive project

Prerequisites:  For undergraduates, at least two prior courses in or related to History, Art History, Native American and Indigenous Studies, and/or Museum Studies.

Enrollment Limit:  16

Enrollment Preferences:  Priority for Graduate Art students. Four seats will be reserved for undergraduates, with preference to junior and senior majors in Art History and History. Undergraduates should email a brief statement of interest to cd10@williams.edu.

Expected Class Size:  16

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 561  HIST 454

Difference, Power, and Equity Notes:  The course centers theories, experiences, and expressions from Native American/Indigenous communities, scholars, and artists/makers, while engaging foundational and new work in Native American and Indigenous Studies (NAIS). The course also provides students with critical tools for reckoning with settler colonialism and its historical as well as enduring impacts in Indigenous contexts; and with race, ethnicity, sovereignty, and tribal nationhood as key interpretive frames.

HIST 480 (F) Media and Society in Africa (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Primary Cross-listing

The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programing. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers’, readers’ and listeners’ control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media’s role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: This course open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers’ writing. Formal
writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques - both oral and written - from the professor, as well as oral critiques from tutorial partners.

**Difference, Power, and Equity Notes:** Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important societal concerns are expressed through the media in Africa.

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: *Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.*

**Requirements/Evaluation:** Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24hours before the seminar begins.

**Prerequisites:** Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

**Enrollment Limit:** 19

**Enrollment Preferences:** Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2) AMST 308 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

JWST 249 (S) Anti-Semitism (DPE)

Cross-listings: JWST 249 REL 249

Secondary Cross-listing
This course will investigate intellectual traditions, political movements, and cultural objects that portray Jews, Jewishness, or Judaism as essentially pernicious. We will analyze materials from a variety of times and places, including the ancient world, the medieval period, and the present day. We will assess the impact of anti-Semitism on the lives of Jews and non-Jews. But we will also read theoretical approaches to the study of anti-Semitism that raise key questions for our investigation. Where does the term "anti-Semitism" come from and how exactly should it be defined? Is anti-Semitism a continuous phenomenon that connects every claim of Jewish perniciousness, wherever it is alleged, for over two thousand years of human history? Or should every context be treated as fundamentally distinct, so that the claim of Jewish perniciousness is presumed to have a distinct meaning, origin, and purpose in each case? What motivates charges of Jewish perniciousness? What are the particular threats typically alleged to be posed by Jews, Jewishness, and Judaism? How do constructions of Jewish perniciousness fit with constructions of race, gender, ethnicity, religion, class, sexuality, and nationality in different times and places?

Requirements/Evaluation: three short papers (4-5 pages), one longer final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Jewish Studies concentrators, Religion majors, and students who have taken JWST 203

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
JWST 249 (D2) REL 249 (D2)

Difference, Power, and Equity Notes: This course will introduce students to discursive, institutional, and social structures that have organized the stigmatization, domination, and persecution of Jews in various geographic locations for over two thousand years. An understanding of these structures is crucial to understanding contemporary dynamics of difference and power. Students will also learn how anti-Semitism intersects with constructions of race, gender, class, religion, ethnicity, and nation.

LATS 222 (F) Ficciones: A Course on Fiction (DPE)
Cross-listings: ENGL 252 LATS 222

Primary Cross-listing

This course is focused on the art and practice of writing fiction. We will study published fiction by Latina/o, Latin American, Afro-Diasporic, and other writers of the Global South, paying close attention to how each author employs narrative elements--characterization, plotting, structure, dialogue mechanics, setting, tone, theme--as well as the values and visions expressed. Regular assignments and in-class exercises will help students strengthen their own narrative skills.

Requirements/Evaluation: attendance and class participation, writing exercises, 4- to 5-page midterm paper (close-reading a text), 10- to 15-page final paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 252 (D1) LATS 222 (D2)

Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2021

TUT Section: T1  TBA  Joy A. James

LEAD 270 (F) Sport and the Global Color Line (DPE)
Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas—like movie theaters, railroads, schools, and other public sites—shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

Class Format: Lecture and discussion.

Requirements/Evaluation: Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

Prerequisites: None.

Enrollment Limit: 40

Enrollment Preferences: Open to all students with completion of course admission survey if overenrolled.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 270 (D2) LEAD 270 (D2) AFR 270 (D2)

Difference, Power, and Equity Notes: This course will prompt students to evaluate the commercialization and commodification, perceptions and portrayals of minority athletes in popular media forms. Students will trace the emerging ideas, shifts, and trends in the depiction of race and in the process of racialization.

**MAST 231 (F)(S) Literature of the Sea** (DPE)

**Cross-listings**: MAST 231  ENGL 231

**Primary Cross-listing**

The ocean, and human relationships with it, have been central features of literatures and cultures around the world for more than a thousand years. But since literary study is typically based around authors' homelands, careful examination of the oceanic experience is often pushed to the periphery—an "empty space" to be crossed between nations, a "vast darkness" antithetical to human life, or a mirror for land-borne concerns. Increasingly, however, scholars and readers are centering the sea and stories about it as a means stepping outside human frameworks of space and time, situating the complex emotions and narratives inspired by the ocean into a complex network of geologic history and teeming other-than-human life. This course examines a wide range of texts and perspectives on the ocean and human relationships with it. Doing so will help us consider how literature both plays into and subverts dominant viewpoints of the ocean. Through texts that consider 19th-century whaling, the Middle Passage, the postcolonial Caribbean, and islands throughout the Pacific Ocean, we will explore a range of questions, including: What can we learn from examining efforts to write about the ocean? How do ocean stories help individuals understand themselves, their communities, and their place in global environments? What can the range of cultural and literary perspectives on our "single, global ocean" reveal about the ways different people are both connected with and profoundly distant from each other? Most importantly, we will practice, as a classroom community, different strategies for carefully reading texts while connecting them to cultural traditions, surrounding environments, and personal experiences.

**Class Format**: weekly roundtable discussions, including coastal and near-shore field trips and multiple field seminars.

**Requirements/Evaluation**: regular papers, class participation, journal-writing, and a final assignment

**Prerequisites**: N/A

**Enrollment Limit**: 25

**Enrollment Preferences**: Williams-Mystic Students only

**Expected Class Size**: 20

**Grading**: no pass/fail option, no fifth course option

**Unit Notes**: offered only at Mystic Seaport

**Distributions**: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

MAST 231 (D1) ENGL 231 (D1)

**Difference, Power, and Equity Notes**: This course focuses on the range of cultural perspectives about the sea, as well as the ways those perspectives can unsettle and challenge dominant narratives about the sea and its role in colonial expansion. Furthermore, this course centers voices that are typically overlooked in the genre of "Sea Literature," paying particular attention to Indigenous and African-American narratives about the ocean.

MAST 351 (F)(S) Marine Policy  (DPE) (WS)  
Cross-listings:  MAST 351  ENVI 351  PSCI 319  

Primary Cross-listing  

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.  

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.  

Requirements/Evaluation:  Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available  

Prerequisites:  none  

Enrollment Limit:  23  

Enrollment Preferences:  must be enrolled at Williams-Mystic in Mystic, Connecticut  

Expected Class Size:  22  

Grading:  no pass/fail option,  no fifth course option  

Unit Notes:  must be enrolled at Williams-Mystic in Mystic, Connecticut  

Distributions:  (D2)  (DPE) (WS)  

This course is cross-listed and the prefixes carry the following divisional credit:  
MAST 351 (D2) ENVI 351 (D2) PSCI 319 (D2)  

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.  

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

MAST 352 (F)(S) American Maritime History  (DPE) (WS)  
Cross-listings:  HIST 352  MAST 352  

Primary Cross-listing  

This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.
Class Format: Seminars, discussions, and field seminars

Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project

Prerequisites: None

Enrollment Limit: 27

Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: Offered only at Mystic Seaport

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352 (D2) MAST 352 (D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

MATH 308  (S)  Mathematical and Computational Approaches to Social Justice  (DPE) (QFR)

Civil rights activist, educator, and investigative journalist Ida B. Wells said that "the way to right wrongs is to shine the light of truth upon them." In this research-based tutorial, students will bring the vanguard of quantitative approaches to bear on issues of social justice. Each tutorial pair will carry out a substantial project in one of the following areas: criminal justice, education equity, environmental justice, health care equity, and inclusion in arts/media. All students should expect to invest substantial effort in reading social justice literature and in acquiring new skills in data science, mathematics, and computation.

Class Format: This is a research-based tutorial.

Requirements/Evaluation: To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor follows the policy of "ungrading." Over the course of the semester, students will develop a rubric to assess their own learning and will evaluate themselves according to this rubric.

Prerequisites: Across each tutorial pair: multivariable calculus (e.g., Math 150/151), linear algebra (e.g., Math 250), statistics (e.g., Stat 161/201), computer programming (e.g., Comp 134), some working knowledge of or interest in social justice issues.

Enrollment Limit: 10

Enrollment Preferences: This is a tutorial and hence is capped at 10 students. Students interested in enrolling should contact the instructor as soon as possible. The instructor will ask for a brief statement of interest and selected other information.

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D3) (DPE) (QFR)

Difference, Power, and Equity Notes: Students study issues of equity, diversity, and inclusion in areas such as criminal justice, arts/media, environmental justice, education, and health care, and along identity axes such as gender, race/ethnicity, disability status, and sexual orientation.

Quantative/Formal Reasoning Notes: Students use multiple mathematical, statistical, and computational frameworks to acquire, model, and analyze
MUS 111  (S)  Music in Global Circulation  (DPE)

(Formerly Music Cultures of the World.) This course introduces a variety of musical genres and practices from around the world, alongside a discussion of the processes and politics of their global circulation. Through learning about a combination of contemporary styles and longstanding musical traditions spanning a broad geographical range, students will develop a working knowledge of musical terms, concepts, and influential musicians. Beyond engaging with music's sound and structure, we will address its capacity to express personal and group identity, and its ability to both reflect and shape broader social ideas and circumstances. In particular, we will consider music's global circulation, and how its contents and meanings reflect those processes. Genres covered in the course vary intermittently but often include: "throat singing" genres in Tuva and Sardinia, Zimbabwean mbira and Chimurenga music, Argentine Tango, Ghanaian azonto and highlife, Balinese gamelan, and North Indian classical music. No prior musical training is required.

Requirements/Evaluation: class attendance and participation, three 5-7 page written assignments, and an 8-10 page final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: current or prospective majors in Music, upperclassmen.

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes: Not only are students exposed to a wide range of musical material from across the globe, they also consider how music becomes meaningful and powerful in light of local contexts and the politics of circulation. Discussions and written assignments address issues including gender identity, economic disparity, the politics of cultural preservation, and music's potential in situations of political unrest.

Attributes: MUS World Music/Ethnomusicology

MUS 118  (S)  Hearing Race in America, 1890-1955  (DPE)

The rise of Rock ‘n’ Roll in the mid-1950s has typically been viewed as a temporary confluence in American culture, suggesting possibilities for musical and racial integration even as various forms of appropriation and exclusion were perpetuated. This course will explore the earlier multiple musical streams that merged at this moment. We will start by engaging with contemporary and historical perspectives on race, adopting a radically interdisciplinary approach. Our focus will then be on several of the most prominent vernacular and commercial forms of American music during this period: ragtime, blues, jazz, rhythm and blues, Tin Pan Alley, country, bluegrass, Tex-Mex/Tejano conjunto, “Latin jazz,” and cajun/zydeco. Prior to the 1950s, these musical styles were segregated, at least in terms of production and marketing. How did racial assumptions and histories shape the creation, dissemination, and reception of this music? Can we hear the multiple ways in which race played out in American music in the first half of the twentieth century?

Class Format: lecture/discussion

Requirements/Evaluation: Evaluation will be based on a 5-page paper, a midterm, a 7-page paper, a final exam, and on class participation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Random selection.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes: We will focus on how racial imagination and systemic racism shaped the creation, marketing, and reception of
multiple genres and styles in American popular music from 1890 to 1955. Before embarking on this historical study, we will first become familiar with current theories of race and with dominant American perceptions of race c. 1900. Perceptions of difference (in multiple forms), realities of market power, and issues of artistic and financial equity directly impacted music in this period.

Spring 2022
LEC Section: 01 MR 1:10 pm - 2:25 pm W. Anthony Sheppard

PHIL 320 (F) Topics in Critical Theory: Subjection, Power, Freedom (DPE) (WS)
Any critical theory presupposes an account how both individual and social subjects come into being. Some critical theorists within the Frankfurt School tradition draw from upon ideas about the constitution of the subject developed in the early 19th century German philosophy of Hegel. According to Hegel, subjects are both historically and socially constituted; they are formed through their relations with other subjects. Hence, being with others, being dependent on others, is regarded as a key structuring feature of human existence. By the early 20th century, in the works of Freud, we encounter the idea of the intra-psychic features of subjects and the importance of understanding and regulating psychic forces both within and between subjects in order to adapt to the demands of living at any given time, born as we are both dependent upon and vulnerable to others. This raises the question whether a more complete account of the emergence of subjects must address both psychic, historical and social dimensions of subjectivity, the ways in which they are intertwined, and their importance for not only psychological well-being, but also relatively well-regulated socio-political relations. In this course we take up questions such as the following: What sorts of subjects do we find in modern Western societies? What are the forces, and the dynamics between forces (i.e., economic, technological, modes of communication, techniques of social control, biological, psychological) that make certain types of subjects possible influencing both their self-understandings and their forms of life? What role do emotional, irrational or unconscious forces play? To what extent do these myriad force relations limit, enable, or deform our participation as political citizens, and our capacity to transform and improve them? In our attempts to make headway in answering such daunting questions, we investigate recent debates in critical theory concerning subjection and resistance, intersubjective recognition and redistribution, social pathologies and the idea of a political unconscious. Readings will be drawn from recent work in the Frankfurt School and poststructuralist traditions of critical theory as well as anti-racist, anti-colonial, feminist and queer theories that draw upon them.

Class Format: We will schedule at least one seminar meeting during the semester. I will consult with students about the best time for this meeting.

Requirements/Evaluation: Evaluation will be based on written work (five 6-7 page papers, and five 2-3 page commentaries on your partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Demonstrated background in history of modern philosophy (PHIL 202), modern political theory, or critical and social theories.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to philosophy majors and prospective majors and students with demonstrated interest and background in critical or social theories.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will write five of 5-7 pages in length, one of which they will revise and submit at the end of the term. We will also meet in seminar once or twice during the semester. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own positions. Students will receive written and oral feedback on both the content and form of their papers and contributions in meetings.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. In addition, the course will contain readings that address race, class, gender and the legacy of colonialism.

PHLH 201 (S) Dimensions of Public Health (DPE)
Public health is concerned with protecting and improving health at the level of a community or population. Although individual behavior is an essential
element of public health, collective, rather than individual, outcomes are the focus of public health study. In this course we will survey the field of public health, introducing students to core concepts and methods that highlight the interrelationship of individual choice and social institutions with environmental and biological factors in producing health outcomes at the population level. We will develop these concepts and methods within the context of signal cases and public health crises, covering infectious disease epidemics and prevention, sexual health, and mental health.

**Class Format:** Course will be taught remotely.

**Requirements/Evaluation:** two papers on a selected population or country and health issue, peer reviews and active contribution to class discussion, including on Glow

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** sophomores, potential Public Health concentrators

**Expected Class Size:** 14

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** No divisional credit (DPE)

**Difference, Power, and Equity Notes:** This course fulfills the DPE requirement because of its central focus on the ways that difference and power shape health outcomes in the U.S. and internationally. It uses an interdisciplinary approach to explore issues including the historical relations between communities of color, healthcare providers, and public health practitioners; contestation over the role of markets and government in public health; and differing explanations for the patterns of race, class, etc., in health outcomes.

**Attributes:** PHLH Core Courses

SEM Section: 02 MWF 11:00 am - 12:15 pm Kiaran Honderich

**PHLH 351 (F) Racism in Public Health (DPE)**

In the face of a global pandemic and increased police brutality, states and counties across the nation are declaring racism a public health crisis. This push to identify systemic racism as a high priority in public health action and policy is an important symbolic and political move. It names the faults of histories, systems and institutions but also brings to the spotlight the individual and community responsibility to dismantle racism in the US. In this tutorial, we will examine racism in public health policy, practice and research through an investigation of several mediums of evidence and information, ranging from peer reviewed literature to news editorials, podcasts and documentaries. We will explore specific pathways by which racism functions in the disciplines of biostatistics, epidemiology, social & behavioral sciences, health policy & management and environmental health sciences while also examining the dynamics of power and history in research and community practice. We will also gain skills in speaking across differences and articulation of how our own perceptions and lived experiences of race and racism impact our study of public health. This tutorial will most likely elicit uncomfortable and hard conversations about race and requires an openness to self-reflection and the practice of articulation.

**Requirements/Evaluation:** bi-weekly tutorial papers, weekly journaling, oral commentaries and tutorial discussion

**Prerequisites:** PHLH 201

**Enrollment Limit:** 10

**Enrollment Preferences:** Public Health concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** In this course students will examine and critically examine the inequities and race based social and health injustices, and the ways racism infiltrates public health action and policy, both historically and currently. They will also refine their self reflection skills in understanding how their own positions of privilege and power, or lack thereof, inform their understanding of public health.

TUT Section: T1 TBA Marion Min-Barron
The rise of gigantic tech firms—Google, Apple, Facebook, Amazon—has sparked widespread worries about the role of business power in capitalist democracy. Are these firms monopolies? How can they be better regulated? Should they be? This course studies the politics of business by centering analysis on the firm. From the perspective of the workplace, we investigate the firm as an arena of power, where workers and managers meet each other in continuous contests for control. From the perspective of the public sphere, we investigate the firm as an actor whose power maps uneasily onto the channels of democratic representation. Approaching the firm as both arena and actor in a number of capitalist democracies, we will compare the politics of business across different sectors, but will focus especially on tech and finance.

Requirements/Evaluation: Four short analysis briefs; four short response briefs; one presentation; one final paper; participation
Prerequisites: One introductory course in political science and/or permission of the instructor
Enrollment Limit: 15
Enrollment Preferences: Preference will be given to sophomores or juniors majoring in a Division II field
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:
PSCI 287 (D2) POEC 287 (D2)

Difference, Power, and Equity Notes: This course studies power through the lens of class, applying that lens to understand how power functions in the employment relationship, as well as the way that firms exercise power in society more generally.
Attributes: POEC Comparative POEC/Public Policy Courses PSCI Comparative Politics Courses

Fall 2021
SEM Section: 01 TR 9:55 am - 11:10 am Sidney A. Rothstein

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be—how a crisis can be chronic. We investigate who refugees are, in international law and popular understanding; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations’ roles in managing population displacement; look at the way that images convey stereotypes; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

Requirements/Evaluation: eleven essays: five lead, five response, and one statement. The first two weeks' essays' grades will be unrecorded.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first-year students
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

Writing Skills Notes: In addition to writing every week, students will have a chance to write ungraded work; will have a chance to revise submitted work; and will have a chance to work on specific skills cumulatively.

Difference, Power, and Equity Notes: This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we worry about some of these categories of oppression more than others.
Attributes: POEC International Political Economy Courses PSCI International Relations Courses
PSCI 260  (F)  Power, Feminist-Style  (DPE) (WS)

Cross-listings: WGSS 260  PSCI 260

Secondary Cross-listing

This course examines one of the most important concepts in the analysis of sex and gender and efforts to envision sexual and gender justice—the concept of power—from multiple feminist perspectives. At the core of feminism lies the critique of inequitable power relations. Some feminists claim that power itself is the root of all evil and that a feminist world is one without power. Others portray the feminist agenda as one of taking power, or of reconstructing society by exercising a specifically feminist mode of power. In this course, we will look at feminist critiques of power, how feminists have employed notions of power developed outside of the arena of feminist thought, and efforts to develop specifically feminist ideas of power. Along the way, we will ask: Are some concepts of power more useful to feminism? Can certain forms of power be considered more feminist than others? How can feminist power be realized? Thinkers we will engage include Judith Butler, Audre Lorde, Catherine MacKinnon, Hannah Arendt, and Patricia Hill Collins.

Requirements/Evaluation: eight short writing assignments (ranging from 250 words to 750 words), drafting and revision of a 10 pg final essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Women's, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 260 (D2)  PSCI 260 (D2)

Writing Skills Notes: This course aims to carefully unpack the writing process by focusing on particular elements of writing (summary, critical analysis) while also introducing students to tools they can use to improve their writing (freewriting). Short writing assignments like the proposal, outline, and abstract build on one another and culminate in a final essay that goes through the process of drafting and, after peer and teacher review, revision.

Difference, Power, and Equity Notes: This course requires students to focus on what power does and should look like from the perspective of difference, exploring the relationship between power and equity in the process. Students will reflect on and discuss the working of power in their own lives, why certain forms of power are more or less visible to particular groups, and how different ideas about power promote different interests in society at large.

SEM Section: 01  TF 2:35 pm - 3:50 pm  Greta F. Snyder

PSCI 266  (S)  The United States and Latin America  (DPE)

This course examines the most important political and diplomatic divide in the Western Hemisphere. The first half is a historical survey of U.S.-Latin American foreign relations from the early Spanish American independence movements through the end of the Cold War, with some emphasis on the latter. We consider how this history confirms or undermines influential views about U.S. foreign relations and about international relations generally. We also compare historical U.S. foreign policy toward the hemisphere to current policy globally. The second half covers the most important current issues in hemispheric relations: the rise of leftist governments in Latin America; the war on drugs; immigration and border security; and competition with China for influence. At the end we briefly reconsider current U.S. policies, in view of the economic and political evolution of Latin America, in historical perspective.

Class Format: more lecture in the first half, more discussion and several in-class debates in the second

Requirements/Evaluation: a map quiz, two short papers, a longer paper, and either another policy paper and a regular final exam, or a 10-page research paper and a short final exam
Prerequisites: none
Enrollment Limit: 35
Enrollment Preferences: Political Science majors
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: In the paper that considers the first part of the course, the students weigh to what extent U.S. policy toward Latin America was affected by the largely derogatory attitudes of U.S. diplomats toward Latin Americans. A unit in the second part of the course critically analyzes current U.S. immigration policy in this context.

PSCI 281  (S) Contemporary African Politics (DPE)
This course is an introduction to the contemporary politics of Africa, with the aim of sparking a life-long interest in the affairs of the region. Comprised of nearly 50 countries and home to over 1 billion people, sub-Saharan Africa is remarkable in its diversity, particularly in regards to a number of outcomes central to the study of political science: how do institutions of the past shape current dynamics of political competition and economic growth? Why are some countries stable democracies while others struggle with military coups or authoritarian rule? What sparks political violence and how can countries emerge from conflict? Our focus is both contemporary and comparative, organized thematically around common political experiences and attributes across the region. We begin with the legacies of colonialism, the slave trade, and the politics of liberation. We then interrogate dynamics central to political life in Africa over the 60 years since independence: the role of ethnic diversity in shaping competition, the prominence of patronage politics, and the evolution of elections. We next assess major dimensions that have historically shaped the study of African politics, including conflict and violence, economic development, and foreign aid. The final section takes a comparative approach to some of the most pressing issues in Africa today: health crises, migration and mobility, technological revolution, climate change, and the emerging power of women and youth.

Class Format: A typical class session will be about 60% lecture and 40% discussion
Requirements/Evaluation: Class Participation, Map Quiz, 3 short papers (5 pages)
Prerequisites: None.
Enrollment Limit: 25
Enrollment Preferences: all first-years and sophomores; those juniors and seniors majoring in political science or concentrating in Global Studies.
Expected Class Size: 25
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course takes the racial, ethnic, linguistic, and religious diversity of sub-Saharan Africa as a starting point for understanding the contemporary politics of the region. The course addresses the legacies of systemic inequality as well as strategies of resistance to oppression. We also examine how ethnic and religious diversity shape political institutions, competition, and conflict, comparing different countries and over time.

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

**Class Format:** This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

**Requirements/Evaluation:** Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

**Prerequisites:** none

**Enrollment Limit:** 23

**Enrollment Preferences:** must be enrolled at Williams-Mystic in Mystic, Connecticut

**Expected Class Size:** 22

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** must be enrolled at Williams-Mystic in Mystic, Connecticut

**PSCI 351  (S) The New Left and Neoliberalism in Latin America  (DPE)**

**Cross-listings:** GBST 351  PSCI 351

**Primary Cross-listing**

Recent years have seen a resurgence of the political left in Latin America. This course seeks to understand the origins of this new left, the ideas and character of its protagonists, the neoliberal philosophy it opposes, and the arena of democratic politics it inhabits today. We first read polemics from both sides, before stepping back to consider Latin American political economy, including the twentieth-century left, from a more historical and analytical perspective. With this preparation, we then look more closely at major contemporary figures and movements in Venezuela, Bolivia, Ecuador, Brazil, and other countries. After considering explanations of the rise of the left and assessments of its performance in power, we end our common readings by asking what it might mean today to be on the left in Latin America—or anywhere—both in policy and political terms.

**Class Format:** discussion then seminar

**Requirements/Evaluation:** three short essays, a 1-page reflection paper, and a 12-page research proposal

**Prerequisites:** a course on Latin America and a course in Economics or permission of the instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Political Science majors

**Expected Class Size:** 15

**Grading:**  yes pass/fail option,  yes fifth course option

**Distributions:** (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 351 (D2)  PSCI 351 (D2)

**Difference, Power, and Equity Notes:** The New Left in Latin America originated in efforts to remedy inequalities born of the Conquest, uneven capitalist development, and racial prejudice. Its neoliberal foes generally do not doubt the existence of these inequalities, but they question the proposition that the state could adequately address them. This course engages, contextualizes, and deepens the debate.

LEC Section: 01    MR 1:10 pm - 2:25 pm     James E. Mahon

**PSCI 367  (S) Decolonizing International Relations  (DPE)**

The Oxford English Dictionary defines Decolonization as "the withdrawal from its colonies of a colonial power; the acquisition of political or economic independence by such colonies." The emergence of an international system of sovereign states--the core foundation of international relations--presumes the process of dismantling systems of domination, extraction, and exclusion ended long ago. However, there is increasing recognition that International Relations in all forms, including theory, research, and policy, continue to be structured by traditional paradigms of power (e.g. white, male, elite). This course begins with the premise that knowledge is embedded within, and often reproduces, power hierarchies. Thus, this class is organized as a collaborative investigation with the aims of: 1) examining how whiteness and other historically dominant perspectives shape
International Relations theory and research areas; 2) expanding and improving our understanding of International Relations through different lenses (e.g. race, class, gender, disability, indigenous, queer, subaltern); and 3) exploring the implications of a more inclusive approach to International Relations, both within the classroom as well as contemporary decolonization movements in the US and around the world.

Requirements/Evaluation: Participation, 3 response/reflection papers, annotated bibliography

Prerequisites: One prior course in International Relations or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: Juniors and Seniors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This class encourages students to recognize the power dynamics inherent within, and reproduced by, the study of International Relations as structured by traditionally dominant paradigms. This class provides students with the tools to critically identify, decenter, and deconstruct dominant lenses as well as the opportunity to engage with, and apply, an inclusive approach centering a more expansive range of theoretical perspectives and knowledge production.

PSYC 349 (S) Psychology and Law (DPE)

This course focuses on applications of psychology to the administration of justice. Drawing from the areas of social, personality, cognitive, and developmental psychology, we will look critically at the processes of criminal justice. We will compare the law’s informal theories of human behavior with what psychologists know on the basis of empirical studies. We will cover a number of contemporary topics including police-civilian interactions, custodial interrogations, false confessions and guilty pleas, forensic evidence, deception detection, eyewitness identifications, alibi generation and corroboration, repressed and recovered memories, and jury selection and decision-making. We will also discuss methodological issues associated with conducting research in psychology and law. In the laboratory component of the course, students will design and conduct their own empirical research projects based on course readings and topics. These semester-long projects will be conducted collaboratively in pairs or teams.

Class Format: empirical lab course

Requirements/Evaluation: attendance and active class participation, several brief (1-2 page) reading response papers, (2-3) class presentations, written/oral project proposal (4-5 pages), participation empirical project (experiment design, data collection, data visualization, data analysis, interpretation), final APA-style research paper (15-20 pages), oral presentation of the research project

Prerequisites: PSYC 201 and either PSYC 242 or PSYC 221

Enrollment Limit: 16

Enrollment Preferences: Psychology majors

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (DPE)

Difference, Power, and Equity Notes: We will explore the differing dynamics of power between legal actors and consider the psychological and structural factors that contribute to vulnerability, coercion, and inequality in the justice system. Through discussions of race, age, body, gender, disability, and stigmatized identities, this course will encourage students to challenge assumptions of objectivity and fairness in our legal system.

REL 166 (F) Being Muslim, Being American: American Muslim Literature in the 21st century (DPE)

Cross-listings: REL 166 COMP 166 AMST 166 ENGL 268

Primary Cross-listing

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims’ own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims’ own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

REL 237 (S) Islam in the United States: Race, Religion, Politics (DPE)

Cross-listings: REL 237 AFR 237 AMST 237

Primary Cross-listing
Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.

Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Majors and concentrators in REL, AFR, and AMST
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option

REL 238 (F) Islam and Reason (DPE)

In an essay on the "reality of Islam," the popular New Atheist writer, Sam Harris, concludes: "All civilized nations must unite in condemnation of a theology that now threatens to destabilize much of the Earth... It is time we realized that the endgame for civilization is not political correctness. It is not respect for the abject religious certainties of the mob. It is reason." These words forcefully express the common sentiment that the fanatical blind faith demanded by "mainstream Islam" poses a major threat to the so-called civilized world. Islam is thus seen as exemplifying the irrational dogmatism of religion par excellence. This course will critically examine such assumptions, by exploring how Muslim philosophers and theologians throughout the history of Islam have addressed a variety of questions, such as: Is faith compatible with reason and rationality? What is the relation between reason
and scripture? What modes of perception, reasoning, and knowledge are involved in religious belief? What room is there for doubt, skepticism, and critique in Islam? We will explore these questions through an array of primary and secondary readings in Islamic theology, philosophy, mysticism, and ethics, as well as anthropological engagements with lived Islam. Through these explorations, we will also critically reflect on our own cultural assumptions about religious belief, the nature of reason and knowledge, and the politics and power-dynamics of reason and rationality.

Requirements/Evaluation: Regular discussion posts; Midterm essay; Final essay
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Religion majors
Expected Class Size: 5-10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course requires students to engage deeply with a very different philosophical universe than that of the modern West. This is also meant to prompt a critical engagement with our own cultural and philosophical assumptions about reason, knowledge, and religious belief. Finally, we will also reflect on the politics and power-dynamics of reason and rationality, considering how dominant modes of thinking are designated as "reason" and others are relegated to being objects of critique.

REL 242 (S) Women, Gender, and Sexuality in Islam (DPE)

Cross-listings: REL 242 WGSS 242 ARAB 242

Primary Cross-listing
The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors
Expected Class Size: 14
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.
REL 249  (S)  Anti-Semitism  (DPE)
Cross-listings: JWST 249  REL 249

Primary Cross-listing
This course will investigate intellectual traditions, political movements, and cultural objects that portray Jews, Jewishness, or Judaism as essentially pernicious. We will analyze materials from a variety of times and places, including the ancient world, the medieval period, and the present day. We will assess the impact of anti-Semitism on the lives of Jews and non-Jews. But we will also read theoretical approaches to the study of anti-Semitism that raise key questions for our investigation. Where does the term "anti-Semitism" come from and how exactly should it be defined? Is anti-Semitism a continuous phenomenon that connects every claim of Jewish perniciousness, wherever it is alleged, for over two thousand years of human history? Or should every context be treated as fundamentally distinct, so that the claim of Jewish perniciousness is presumed to have a distinct meaning, origin, and purpose in each case? What motivates charges of Jewish perniciousness? What are the particular threats typically alleged to be posed by Jews, Jewishness, and Judaism? How do constructions of Jewish perniciousness fit with constructions of race, gender, ethnicity, religion, class, sexuality, and nationality in different times and places?

Requirements/Evaluation:  three short papers (4-5 pages), one longer final paper (6-8 pages)
Prerequisites:  none
Enrollment Limit:  30
Enrollment Preferences:  Jewish Studies concentrators, Religion majors, and students who have taken JWST 203
Expected Class Size:  18
Grading:  no pass/fail option, no fifth course option
Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
JWST 249 (D2) REL 249 (D2)

Difference, Power, and Equity Notes:  This course will introduce students to discursive, institutional, and social structures that have organized the stigmatization, domination, and persecution of Jews in various geographic locations for over two thousand years. An understanding of these structures is crucial to understanding contemporary dynamics of difference and power. Students will also learn how anti-Semitism intersects with constructions of race, gender, class, religion, ethnicity, and nation.

Attributes:  JWST Core Electives

REL 269  (F)  Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE) (WS)

Cross-listings:  REL 269  STS 269  ASIA 269  ANTH 269

Primary Cross-listing
This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively—be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 helped us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation:  weekly tutorial papers and discussion
Prerequisites:  A prior class or some experience with meditation is recommended
Enrollment Limit: 10
Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

TUT Section: T1 TBA Kim Gutschow

REL 276 (S) Gnosis, Gnostics, Gnosticism (DPE)
Cross-listings: REL 276 COMP 258

Primary Cross-listing

Reality is not what it seems. Salvation by knowledge, arch-heresy, an eternal source of mystical insights and experiences, secret esoteric teachings available only to a few. All these and more have been claims made about gnosis, Gnostics, and Gnosticism. This course will introduce you to the key ancient texts and ideas associated with Gnostics in modern forms of esotericism and spiritualities. We shall explore how claims about gnosis offer modes of critiquing and seeking to transform unjust social and political systems.

Class Format: lecture/discussion
Requirements/Evaluation: weekly GLOW posts, 1 textual analysis paper, 1 historiographical analysis paper, and a final paper that entails a revision and expansion of earlier writing for the course.
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: students with prior coursework in biblical or other ancient literature or history
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 276 (D2) COMP 258 (D1)

Difference, Power, and Equity Notes: This course situates "gnosis" as a practical epistemological orientation used both to disrupt and challenge power arrangements deemed unjust and to empower those who are marginalized within dominant power structures. At the same time, the course interrogates "gnostic" epistemological claims as capable of being used to reinstall hierarchical power structures. Attention to power and equity and how difference is produced is at the center of the course.

Spring 2022
LEC Section: 01 MR 1:10 pm - 2:25 pm Denise K. Buell

RLFR 101 (F) Introduction to French Language and Francophone Cultures (DPE)
This year-long course offers a complete introduction to the French language and is designed to help you become fully conversant in French by focusing on four fundamental language skills: listening, speaking, reading, and writing. Through daily practice, class activities, interactive discussion,
listening exercises, written work, reading assignments, and active engagement with music, video, and film, you will quickly gain confidence and increasing facility with your abilities to speak and understand both spoken and written French. In addition, our study of grammar, vocabulary, and communication skills will be organized around an engaging and dynamic introduction to a variety of French-speaking cultures around the world, from France and Belgium, to Québec and Martinique, to Sénégal and Morocco. Conducted in French.

Requirements/Evaluation: active class participation, workbook exercises and compositions, chapter tests, midterms, and final exams

Prerequisites: none; for students who have never formally studied French; students who have previously studied French (in any formal course, at any level) must take the French Placement Test in late August or early September

Enrollment Limit: 18

Enrollment Preferences: all are welcome, but if over-enrolled, preference will be given to first-year and second-year students and those with compelling justification for admission

Expected Class Size: 18

Grading: yes pass/fail option, no fifth course option

Unit Notes: RLFR 101-102 is a year-long course; credit granted only if both semesters (RLFR 101 and 102) are taken. RLFR 101-102 students must also take the French Winter Study Course.

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: Through its focus on French and Francophone cultures around the world, this course enables students to gain both linguistic and cultural proficiency, and to engage with the great diversity of colonial and post-colonial cultures, histories, and identities in France and Belgium, Québec and Martinique, Sénégal and Morocco.

Fall 2021

SEM Section: 01 M-F 9:00 am - 9:50 am Brian Martin

RLFR 106 (S) Advanced French: Danger and Desire in French Film and Fiction (DPE)

Cross-listings: RLFR 106 COMP 107

Primary Cross-listing

This is an advanced course in French language designed to help you improve your speaking, comprehension, reading, and writing, through the dynamic study of short literary texts and films focusing on danger and desire in nineteenth-, twentieth-, and twenty-first-century France. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French literature and cinema. As a focus for improving your French, we will examine a broad range of texts and films on danger and desire in France from 1820 to 2020, with an emphasis on passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

Requirements/Evaluation: active class participation, grammar exercises, two short papers, midterm, and final paper

Prerequisites: Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

Enrollment Limit: 16

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 106 (D1) COMP 107 (D1)

Difference, Power, and Equity Notes: This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies,
men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

Spring 2022
SEM Section: 01   TR 9:55 am - 11:10 am   Brian Martin

RLFR 202 (F) War and Resistance: Two Centuries of War Literature in France (1800-2015) (DPE)
Cross-listings: RLFR 202  COMP 292  WGSS 201

Primary Cross-listing
In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)
Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor
Enrollment Limit: 16
Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission
Expected Class Size: 16
Grading: yes pass/fail option, no fifth course option
Distributions: (D1)  (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film. Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

Fall 2021
SEM Section: 01   MW 11:00 am - 12:15 pm   Brian Martin

RLFR 260 (F) Francophone Graphic Novels (DPE)
Cross-listings: RLFR 260  COMP 260

Primary Cross-listing
In this class we will read contemporary graphic novels and bandes dessinées from Côte d'Ivoire, Morocco, Guadeloupe, Lebanon, France, and Québec to analyze how they approach subjects such as colonial history, migration and discrimination, gender and sexuality, and representations of disability and the racialized body. We will pay particular attention to the visual form and the critical theory of the graphic novel to further understand why this hybrid genre has become so popular and widespread, and how it is shaping conversations about difference and power in the Francophone world. Conducted in French.

Requirements/Evaluation: weekly 1-page response papers, two short 4-5-page papers, presentation and final 7-8-page research paper
Prerequisites: RLFR 105, 106, by placement or by permission of instructor
This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 260 (D1) COMP 260 (D1)

**Difference, Power, and Equity Notes:** The readings in this course focus on French colonial and Francophone postcolonial history, contemporary migration, and structures of discrimination built on race, religion, gender, and ableism in the French-speaking world. We will explore how graphic novels in their hybrid visual/verbal forms propose different ways of shaping the dynamics and the discourse of difference and power.

**RLFR 300 (S) The Banlieue in Literature, Music, and Film**    (DPE) (WS)

**Cross-listings:** RLFR 300 COMP 336 AFR 339

**Primary Cross-listing**

The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, “urban culture”--as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do “banlieue films” and “banlieue lit” tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

**Requirements/Evaluation:** 3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).

**Prerequisites:** RLFR 105 and above

---

**Spring 2022**

**SEM Section:** 01    **MW 11:00 am - 12:15 pm**    Sophie F. Saint-Just

---

**Enrollment Limit:** 14

**Enrollment Preferences:** French majors and certificate students, Africana and Comparative literature students

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

RLFR 300 (D1) COMP 336 (D1) AFR 339 (D2)

**Writing Skills Notes:** To hone their research and writing skills (and prepare for their conference on the banlieue), students will write three research papers (with thesis statement and subheadings) from which they will receive professor feedback.

**Difference, Power, and Equity Notes:** This course, Banlieue in Lit, Music, Film fosters difficult but carefully framed conversations about race, class, gender, citizenship, housing segregation, discursive practices, immigration and belonging in contemporary France and how identities and power relationships are expressed in banlieue film, literature and French hip hop music.

**Attributes:** FMST Core Courses
RLFR 410  (F)  Senior Seminar: Movement and Migration  (DPE)  
How do movement and migration produce and disrupt constructions of identity, home, and the nation? In the context of movement and migration, how is place imagined, experienced, and remembered? What are the relationships between movement and containment, flight and freedom? Over the course of the semester, we will examine literary texts, film and visual art from French-speaking communities that focus on: the immigration experience in France, the construction of a Francophone Atlantic identity, internal migration between rural and urban spaces, clandestine migration between Africa and Europe, population displacement due to war, and the possibility of creating portable or nomadic places of memory. Works by Chamoiseau, Glissant, Diome, Condé, Maffe, Pineau, and Binebine among others. Conducted in French.

Requirements/Evaluation: Weekly 1-page response papers, 5-page mid-term paper and a final 10-page research paper and presentation.

Prerequisites: Any 200-level RLFR course, or by permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Senior French majors and students completing the certificate in French, but open to advanced students of French.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE)

Difference, Power, and Equity Notes: Students will explore how literature, film and art narratives on migration and movement challenge (and also sometimes replicate) discourses of exclusion and structures of discrimination based on race and ethnic identity and gender. While the course focuses on French-speaking communities and people, we will think broadly about difference and power as they relate to movement, flight and freedom.

Fall 2021

SEM Section: 01   TF 1:10 pm - 2:25 pm   Katarzyna M. Pieprzak

RLSP 264  (S)  Outcasts of the Lettered City: Nation-Building and the Margins in 19th Century Latin America  (DPE) (WS)  
Bandits, vagabonds, runaway slaves, and unruly women. Defeated soldiers. Afro-Colombian rivermen. Indigenous Americans and their white captives. Latin American cultural production of the 19th century is conventionally studied in terms of the urban intellectuals' projects of nation-formation in the aftermath of the long struggle for independence from Spain. This course examines that process from the outside, considering instead a series of literary and other writings that represent the marginalized others of the desired nation-state, the women and men, many of them Afro-descended, Indigenous and mixed race, who found themselves excluded from the new national community—or who preferred a life on the pampas, deep in the jungle, or somewhere else outside the confines of bourgeois society. Primary readings will be selected from among the following: Simón Rodríguez, American Societies in 1828, Juan Francisco Manzano, Autobiography of a Slave; Domingo F. Sarmiento, Facundo. Civilization and Barbarism in the Argentine Republic; José Hernández, Martín Fierro; Flora Tristán, Peregrinations of a Pariah; Juan Crisóstomo Centurión, Viaje nocturno, Federico Gamboa, Santa; Candelario Obeso, Popular Songs of My Land; Cínthia Villaverde, Cecilia Valdés, Lucio V. Mansilla, Excursion to the Ranquel Indians. We will also read a number of critical essays by leading scholars in the field of 19th century Latin American literature.

Requirements/Evaluation: Students will write and revise approximately 20 double-spaced pages, in Spanish, over the course of the semester. Students will also prepare 10-15 minutes responses to their classmates’ work. We will read 100-150 pages of Spanish prose each week and well as critical essays, which will often be in English.

Prerequisites: Any 200-level course with an RLSP prefix or permission of instructor.

Enrollment Limit: 12

Enrollment Preferences: Spanish majors and potential Spanish majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE) (WS)

Writing Skills Notes: This course is conducted as a tutorial. The number of students in each unit (pairs or triplets) depends on how many students enroll, but whatever our structure turns out to be, each student can anticipate multiple opportunities to write and revise their individual essays in response to feedback from their classmate and professor, as well as to serve as the respondent offering feedback other students’ work. Thus we emphasize editing and revision as essential parts of the writing process.

Difference, Power, and Equity Notes: This course examines structures of exclusion in 19th century Latin America -- the reproduction and perpetuation of socio-economic and institutional structures based on racial, gendered and class-based hierarchies established during the colonial era -- and the spaces that historical individuals have been able to occupy within and around them.
RLSP 319  (S) Dictatorship and the Latin-American Novel  (DPE)

Military dictatorship is among the most crucial factors in Latin-American society and history, and some of the continent’s leading novelists have taken it upon themselves to depict the experience in their work. In this course we will examine both the fact of dictatorship itself and the diverse representation thereof in Spanish-American fiction. Novels by García Márquez, Vargas Llosa, Poniatowska, and Tomas Eloy Martínez will be closely studied. Students will also read Absalom! Absalom! by Faulkner, whose influence on Latin-American authors’ techniques of representation has been decisive and profound.

Class Format: In-person.

Requirements/Evaluation: three 8-page papers, response journals, an oral report, a final 3-page paper, and class participation

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 5-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course focuses on the ultimate sort of power—namely, military dictatorship. And it focuses on the historical fact of such a phenomenon within the U.S. political sphere of influence—Latin America. To study dictatorship and its depiction in literature is a means of understanding the nature of that power imbalance and of taking a first step toward some sense of equity.

Attributes: GBST Latin American Studies Electives

Summer 2022

SEM Section: 01   MR 2:35 pm - 3:50 pm   Gene H. Bell-Villada

Do the Americas have a common literature? If so, is it possible to trace their roots and continuity from the colonial era to the present? Literary critic Matin Lienhard suggests that it is indeed possible to trace the origin of a literature common to Latin America from the colonial era and into present by focusing on what he calls "alternative literatures"—literatures that relativize the importance of Europeanized and Creole literatures and valorize the richness of oral traditions in the Americas. Such literatures, he asserts, are closely tied to marginalized sectors of society. In this course, we will take Lienhard's concept of "alternative literatures" as a point of departure to pursue our own examinations of how these "alternative literatures" are constituted. While the primary aim of this course is to focus on the writings of Latin American authors, we will end by exploring the relationship between "alternative" Latin American literatures and Chicana/o/x literatures. Readings will include narrative texts such as Cartas de relación, chronicles of conquest, religious texts, indigenous annals, poetry, and drama, as well as contemporary Latin American and Chicana/o/x novels.

Requirements/Evaluation: Four essays, class presentations, active participation, and regular attendance required

Prerequisites: any 300-level RLSP course or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Senior Spanish Majors.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write four 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will rewrite each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule as well as the writings of more contemporary minority authors of Latin America. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze a diversity of Spanish-American
RUSS 401 (F) Senior Seminar: Queer Russia  (DPE)
This seminar explores queerness as both a cultural concept and social reality in Russia and the Soviet Union from the nineteenth century to the present. We will begin with the history of LBGTQ+ Russians, as well as an overview of texts produced by queer writers, in the Russian Empire and Soviet Union. We will then investigate queerness in post-Soviet Russia, where non-normative sexuality has become a hotly contested political concept over the past three decades. In addition to reading texts and viewing films by about and by LGBTQ+ Russians, we will examine the genesis, implementation, and impact of the 2013 ban on "homosexual propaganda," which has placed homophobia at the center of national identity in the Russian Federation. We will also read theoretical works to help us understand not only the unique formations and expressions of queerness in Russia, but also how local Russian queerness plays out on the global stage.

Requirements/Evaluation: completion of all reading and viewing assignments, preparation for and active participation in class discussions, two 4-5 page papers, and a final 20-minute presentation based on students’ independent research

Prerequisites: RUSS 252 or the permission of the instructor

Enrollment Limit: 10

Enrollment Preferences: those majoring in Russian or pursuing a Certificate in Russian

Expected Class Size: 5

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This seminar explores how gender and sexuality have been conceptualized and experienced in Russia with a particular emphasis on how non-normative gender and sexuality have become tools in the struggle for social and political power in post-Soviet Russia. Our exploration of queerness in Russia over the past two centuries will help students to develop critical skills for assessing how gender and sexuality are currently conceptualized in the United States.

SOC 217 (F) Inequality in a Classless Society: The Soviet Experiment and its Aftermath  (DPE)

Cross-listings: ECON 107  SOC 217

Secondary Cross-listing

All societies have to come up with some way of distributing wealth and income. In turn, individuals and groups comprising these societies grapple with, justify, and at times contest their place in social and economic hierarchy. Complex as they are, such processes are all the more pressing in societies built on the explicit promise of economic equality, as was the case in the USSR and socialist Eastern Europe. Using the combined perspectives offered by economics, history, and sociology, this course will trace the practices and lived realities of social differentiation and income/wealth distribution brought about by the socialist experiment and intensifying after its demise. We will explore the life of class in these supposedly classless societies, and its reconfiguration after 1991, approaching class as, simultaneously, a matter of social classification, consumption differences, cultural identity, economic policy, and political power. We will study how the economic and political developments of late-socialism and the transition period generated class-based differences in all walks of life, and ask what these experiments have to teach us about inequalities and persistent social and economic divisions closer to home.

Requirements/Evaluation: Class participation; small writing assignments and research exercises; and a final research project

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: 1st and 2nd-year students thinking about majoring in Anthropology, Sociology, or Economics

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option
Unit Notes: This course cannot count toward the ECON major. It may be taken for the SOC major.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ECON 107 (D2) SOC 217 (D2)

Difference, Power, and Equity Notes: The subject matter of this course is all about the origins, evolution, current structures, and implications of economic and social differentiation in a region quite apart from the United States. Moreover, by crossing disciplinary lines, we hope it will offer a particularly valuable perspective on such issues. Thus, we felt that it should naturally serve as a DPE course.

Fall 2021
SEM Section: 01 MR 1:10 pm - 2:25 pm Steven E. Nafziger, Olga Shevchenko

SOC 230 (S) Memory and Forgetting (DPE)
On the surface, remembering generally confronts us as a deeply personal act. What is more private than nostalgic reverie or the secrets of a dark and painful past? Yet even "individual" memories take shape through social frameworks, and we also remember "collectively" through shared myths, narratives, traditions, and the like. This course will explore the social dimensions of memory and remembering as well as their inevitable counterpart--forgetting. How do social frameworks inform our individual understandings of the past and shape our sense of selfhood? How and why are figures from the past cast as heroes or villains? How do collectivities celebrate past glories, and how do they deal with shameful or embarrassing episodes? How do economic and political power relations shape struggles over the past? In an increasingly global society, can we speak of "cosmopolitan" or "transcultural" forms of memory? Topics will include autobiographical memory and self-identity; memorials, museums, and monuments; reputations, commemorations, and collective trauma; silence, denial, and forgetting; and transitional justice, official apologies, and reparations.

Requirements/Evaluation: thoughtful and consistent class participation; an autobiographical essay (4-5 pages); four response papers (2 pages each); and a research paper (8-10 pages) with class presentation

Prerequisites: none

Enrollment Limit: 19
Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course pays particular attention to how power and inequality shape narratives about the past. We will examine and compare several efforts to transform national memories, such as the Equal Justice Initiative memorial in the United States and the Truth and Reconciliation Commission in South Africa. In doing so, we will also consider the role of memory and memorialization in broader processes of social change.

Spring 2022
SEM Section: 01 MR 2:35 pm - 3:50 pm Christina E. Simko

STS 101 (S) STEM's Empire: A Critical Introduction to Science and Technology Studies (DPE)
Who follows the science? The COVID-19 pandemic has upended many's beliefs in the rationality of scientific enterprise, exposing the institutions, power dynamics, and inequalities that shape its constitution. Meanwhile, the "tech fix" approach to ending the pandemic solely through vaccination has produced staggering death tolls compared to non-pharmaceutical interventions like masking, social distancing, and contact tracing implemented in places such as Liberia, Rwanda, and the Asia-Pacific, which have contained COVID-19 with relative success. As feminist and postcolonial scholars have long told us, the power of science often operates through division, producing dichotomies such as West/non-West, modern/traditional, global/local, developed/underdeveloped, and science/non-science. It is inextricably linked to the colonial conquest of territories, bodies, and minds. In this course, we will explore scientific practice and the production of scientific knowledge through the metaphor of empire: How might we understand scientific claims to truth, knowing that colonial relations of power are still embedded in our identities and institutions, and in the hegemonies that shape our world? We will explore this question by engaging with feminist and postcolonial critiques of science, studying controversies over the environment, medicine, indigenous knowledge, diversity in STEM, and other topics. We will pay particular attention to the situated processes out of which claims to
the universal or global are made, asking who is left out of making such claims as well. An introductory course, students will be exposed to key debates in STS and learn critical tools for analyzing science and technology in an unequal but interconnected world.

**Requirements/Evaluation:** Several short response papers, mid-term paper, final project

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** first-years and sophomores

**Expected Class Size:** 14

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course will demonstrate how issues of power shapes the practices of empiricism.

Spring 2022

SEM Section: 01 TR 11:20 am - 12:35 pm Shoan Yin Cheung

**STS 102 (F) Breeding Controversy: Technologies and Ideologies of Population Control** (DPE)

**Cross-listings:** WGSS 103 STS 102

**Primary Cross-listing**

What is "good breeding?" For whom is birth control "liberating?" This course traces the surprising ways that concepts of population growth and decline from the natural sciences come to inform social discourses on "overpopulation" in the twentieth and twenty-first centuries. Science and politics mix to decide: who should be able to reproduce--and, consequently, who might not be born--so that some may live more prosperously? By studying the history of eugenics movements, contraceptive technologies in the context of development, and the racialized cultures of reproductive medicine, we will analyze how scientific ways of thinking about human lives reflect and reproduce social inequities. We will use the tools of feminist technoscience studies to understand how science, culture, power, and politics intersect to create new technologies of "selection" that are far from natural. New literatures in critical race STS, black feminist thought, and critical theory will inform our discussions.

**Requirements/Evaluation:** Weekly paper or response and in-class debate.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** Freshmen. If over-enrolled, students will submit a short paragraph stating their interest in the course.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 103 (D2) STS 102 (D2)

**Difference, Power, and Equity Notes:** This course will demonstrate how scientific knowledges also reflect biases organized along lines of social difference, including race, gender, class and nation. Readings in critical race theory will give students a deeper appreciation of these issues.

**STS 208 (S) Designer Genes** (DPE) (WS)

**Cross-listings:** ENGL 208 AMST 206 STS 208 WGSS 208

**Secondary Cross-listing**

In this course, we explore cultural texts that attempt to come to terms with--or exploit--the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is
normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book The Mutant Project. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary In the Family, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel Dawn explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film Gattaca shows us a fully realized dystopian society where genetically modified humans are the norm—a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects.

Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies, American Studies, English majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

**Difference, Power, and Equity Notes:** This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics’ case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

**STS 231 (S) Africa and the Anthropocene** (DPE)

**Cross-listings:** STS 231 ENVI 231 AFR 231

**Secondary Cross-listing**

Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

**Requirements/Evaluation:** Assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies majors and concentrators

**Expected Class Size:** 19
Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
STS 231 (D2) ENVI 231 (D2) AFR 231 (D2)

Difference, Power, and Equity Notes: Africa and the Anthropocene considers inequity in environmental politics from the vantage of the African continent. Through selected readings and classroom discussions students will tackle questions of power, racial and gendered difference, empire, and economic stratification. The course contributes to the DPE requirement by helping students to develop skills to better analyze abiding challenges in global society.

STS 250 (F) Environmental Justice (DPE)

Cross-listings: STS 250 ENVI 250

Secondary Cross-listing
How are local and global environmental problems distributed unevenly according to race, gender, and class? What are the historical, social and economic structures that create unequal exposures to environmental risks and benefits? And how does inequity shape the construction and distribution of environmental knowledge? These are some of the questions we will take up in this course, which will be reading and discussion intensive. Through readings, discussions, and case studies, we will explore EJ in both senses. Potential topics include: toxics exposure, food justice, urban planning, e-waste, unnatural hazards, nuclearism in the U.S. West, natural resources and war, and climate refugees. Occasionally, community leaders, organizers, academics, and government officials will join the class to discuss current issues.

Requirements/Evaluation: several short essays, final essay
Prerequisites: ENVI 101 or permission of the instructor
Enrollment Limit: 12
Enrollment Preferences: juniors, seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
STS 250 (D2) ENVI 250 (D2)

Difference, Power, and Equity Notes: This course will explore how unequal power leads to environmental injustice. Specifically, we will analyze how local and global environmental problems are distributed unevenly according to race, gender, and class. This is a service-based learning course, and students will hone skills to address environmental injustices.

STS 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Secondary Cross-listing
This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative
neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively—be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester ‘writing chat’ with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

Fall 2021

TUT Section: T1 TBA Kim Gutschow

STS 311 (S) Global Health in the Transpacific (DPE)

Cross-listings: AMST 352 STS 311 ASIA 352

Primary Cross-listing

East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia's claim of "viral sovereignty" to protect their biological specimens from Western intellectual property regimes and Hmong refugees' resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.

Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper

Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.

Enrollment Limit: 12

Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Societies around the globe are now confronting a triple crisis that threatens not only political orders but also the very existence of certain forms of life: (1) financial collapse(s) that have increased the awareness and severity of mass inequality, (2) climate change and mass extinctions, and (3) the rise of white supremacy and ethno-nationalisms that threaten BIPOC lives and representative democracies. These material and political challenges have depleted many of the cultural resources that enable imagining non-apocalyptic futures. Yet, these crises are not novel. Many groups in the periphery--geographic, economic, and cultural--were and are already living through the uneven distribution of the apocalypse. Science fiction (SF) has emerged as a privileged symbolic field for the expression of hopes and anxieties that drive both culture and tech industries. Whether seen as a form of productive pessimism or liberatory theory, SF from the margins is deployed as a political tool for enacting change in the present. In this course, we will survey the history of SF as a variable and theoretical orientation constituted through the unfolding of uneven global encounters. We will analyze SF in the Cold War, Anthropocene, decolonization movements, and postcolonial and Indigenous landscapes, reading major works in SF and science and technology studies (STS) that address the politics of crisis, apocalypse, and global futures. In addition to novels and short stories, this course will incorporate film, graphic novels, music videos, video games, and other science fiction subgenres.

Requirements/Evaluation:  Class discussion, approximately 10 pages of creative writing, 5 page analysis paper of your classmate's creative writing, final paper or project (5-8 page paper or equivalent)

Enrollment Limit: 15

Enrollment Preferences: Students who have taken American Studies 101 and/or Science and Technology Studies 101

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 321 (D2) STS 321 (D2)

Difference, Power, and Equity Notes: This course examines the racial, ethnic, gendered, and sexed dimensions of science fiction and traces how marginalized people have imagined the future amidst an atemporal and unfolding apocalypse. Students will work with postcolonial, Indigenous, queer, and critical race media concerning the future, and will gain the skills needed to read political orders and crises through the lens of the margin.

Attributes: AMST Arts in Context Electives AMST Comp Studies in Race, Ethnicity, Diaspora AMST Critical and Cultural Theory Electives
decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and technology studies (STS), history, and postcolonial and queer theory.

Requirements/Evaluation: attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors and Science and Technology Studies concentrators

Expected Class Size: 13

Grading: no pass/fail option, no fifth course option

STS 370 (F) Medicine and Campus Health in Disruptive Times (DPE) (WS)

Cross-listings: STS 370 WGSS 371 ANTH 371

Secondary Cross-listing

This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.

Requirements/Evaluation: Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.

Prerequisites: A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended

Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women's, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

Difference, Power, and Equity Notes: This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

STS 413  (S)  Feminist and Critical Technoscience  (DPE)

Cross-listings: WGSS 413  STS 413

Primary Cross-listing

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? Scholars of feminist science and technology studies (FSTS) have addressed these questions in their studies of scientific objectivity, technological vulnerability, environmentalism, and the makings (or doings) of race as well as gender. We will explore these questions and topics with a view to identifying the range of ethical, political, and epistemological practices within feminist and critical technoscience. We will read theoretical texts in FSTS, such as Donna Haraway's "Situated Knowledges" and Safiya Umoja Noble's "A future for intersectional black feminist technology studies." We will also read case studies, such as Pat Treusch's "The Art of Failure in Robotics" and Emily Martin's "The Egg and the Sperm: How Science Has Constructed a Romance Based on Stereotypical Male-Female Roles." While our preliminary readings will be set in advance, students will help shape the syllabus as we advance toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

Requirements/Evaluation: discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); annotated bibliography; final essay (12-15 pages + in-class presentation)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Science and Technology Studies concentrators

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 413 (D2) STS 413 (D2)

Difference, Power, and Equity Notes: Central to "Feminist and Critical Technoscience" is a recognition of and engagement with the historical under-privileging of women, women's work, and women's bodies in capital-S "Science" and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory. We will also examine feminist accounts of contemporary technoscientific work as well as critical STS with a focus on race.

THEA 246  (F)  Asian American Performance: Activism and Aesthetics  (DPE)

Cross-listings: THEA 246  GBST 246  AMST 249

Primary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do
politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: sophomores, juniors, and seniors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 246 (D1) GBST 246 (D2) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

Fall 2021

SEM Section: 01    W 1:10 pm - 3:50 pm     Shanti Pillai

THEA 272  (S)  Theatre and Environment: Site, Ecology, Utopia  (DPE)

Cross-listings: THEA 272  ENVI 271

Primary Cross-listing

What is theatre's relation to the environment, whether natural or social? How does the site, place, or context of a performance change its meaning? What role does theatre play within grassroots campaigns for climate action, environmental justice, or Indigenous land rights? How can we use theatre to, in the words of adrienne maree brown, “practice, in every possible way, the world we want to see?” In this studio course, participants will collaborate in small groups to create and share short performances based on a series of prompts, such as: site, nature, immersion, ecology, biomimicry, and utopia. Acknowledging the deep inequities (racial, gendered, ethnic, class-based) that constitute all human and environmental interaction, we will work to understand how art’s relationship to the environment is itself shaped by the historical legacies of empire and global capitalism. As a contribution to the work of the studio, each student will share independent research on an artist, activist movement, or collective of their choice, such as: Hito Steyerl, Ellie Ga, Marta Rosler, Joan Jonas, Paul Chan, Theaster Gates, Bread and Puppet, Punch Drunk, En Garde Arts, Talking Birds, Rimini Protokoll, Extinction Rebellion, Greenpeace, and others. Critics and theorists considered may include: Allan Kaprow, Augusto Boal, Miwon Kwon, Nick Kaye, Claire Doherty, Donna Haraway, Grant Kester, Paul Chan, Theaster Gates, Bread and Puppet, Punch Drunk, En Garde Arts, Talking Birds, Rimini Protokoll, Extinction Rebellion, Greenpeace, and others. Critics and theorists considered may include: Allan Kaprow, Augusto Boal, Miwon Kwon, Nick Kaye, Claire Doherty, Donna Haraway, Grant Kester, Nato Thompson, and Adrienne Maree Brown. As a special project in the class, we will collaborate with The Zilkha Center to create a series of performances that engage with topics relevant to the campus community, including climate action and environmental justice. Note: this is a maker's course that invites students to create, develop, perform, and share their work with each other and, in some cases, public audiences.

Class Format: This is a maker-based studio course that requires deep collaboration on the creation, development, and performing of original works of theatre and live art.

Requirements/Evaluation: Creation and presentation of a series of four short performance pieces; leading a 10-minute class discussion; a 15-minute independent oral presentation on a chosen artist or collective; weekly journal writing; deep and active participation and collaboration.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: if overenrolled, preference will be given to Theatre majors and Environmental Studies majors

Expected Class Size: 10-12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
THEA 272 (D1) ENVI 271 (D1)

**Difference, Power, and Equity Notes:** This course interrogates the deep inequities, injustices (racial, gendered, ethnic, and class-based), and power relations that constitute all of humanity's relation with earth's environment, ecosystem, and ecology. Students will not only study artists and collectives engaged with the work of environmental justice, accountability, and action, they will also make such art themselves.

**THEA 301 (F) Embodied Archives: Global Theatre & Performance Histories** (DPE)

**Cross-listings:** COMP 303  THEA 301

**Primary Cross-listing**

What is the past good for? Why study theatre history now? What do the archival performance traditions, practices, and sources of yesterday have, if anything, to offer the theatre artists of today and tomorrow? Digging into these questions, this combined studio/seminar course will introduce students to major global theatre and performance histories by considering how they've been taken up--adapted, appropriated, recycled, critiqued, and re-appropriated--by artists working in the field now. Why does dramatist Luis Alfaro return to Sophocles' Electra to tell a story about the experiences of Chicano communities in L.A.? What does the playwright Branden Jacobs-Jenkins find compelling about the allegorical performances of English Medieval theatre? What role does traditional Korean dance ritual play in the experimental theatre of artist Young Jean Lee? How have collaborators at New York's Public Theater sought to re-vitalize Shakespeare's works through community-driven practices? Through comparative pairings such as these, we will study and draw inspiration from the ways contemporary dramatists, makers, directors, and performers have approached the theatrical forms and performance practices of the past in the effort to create new perspectives on the present. While attending to theatre's formal and aesthetic aspects, we will at the same time focus on the relationship of performance to the enduring legacies of empire, state power, colonialism, and private capital in which they are historically embedded and by which they are shaped. If and when possible, we will encounter archival sources housed in College Archives and WCMA. As a final creative project, students will adapt, critique, or re-appropriate a source material of their own choosing. This course is required for Theatre majors and is a prerequisite for THEA 401.

**Class Format:** This class is a combined studio/seminar. Students will be required to present and share their creative responses to the material studied in the course.

**Requirements/Evaluation:** journal writing and active participation in class; a midterm creative adaptation project and accompanying "research casebook"; participation as discussion leader for one class; and a final creative adaptation or performance project and accompanying "research casebook."

**Prerequisites:** For Theatre majors: any 100 or 200-level theatre course.

**Enrollment Limit:** 16

**Enrollment Preferences:** Theatre majors; Comparative Literature majors

**Expected Class Size:** 8-10

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 303 (D1) THEA 301 (D1)

**Difference, Power, and Equity Notes:** This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the dominant sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in which they historically arise.

THEA 304 (S) The Gay Menagerie: Gay Male Subcultures (DPE)

Cross-listings: WGSS 305 ANTH 305 AMST 305 THEA 304

Secondary Cross-listing

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in a (mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (D2) ANTH 305 (D2) AMST 305 (D2) THEA 304 (D1)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

WGSS 101 (F)(S) Introduction to Women's, Gender & Sexuality Studies (DPE) (WS)

This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across the globe. We will survey a wide variety of writers and issues--historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

Class Format: Mix of lectures and seminars

Requirements/Evaluation: Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS majors and potential WGSS majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: required course for the Women's, Gender and Sexuality Studies major
**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.

**Difference, Power, and Equity Notes:** This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies’ history, activism, and theory.

**Attributes:** WGSS Theory Courses

**WGSS 103  (F) Breeding Controversy: Technologies and Ideologies of Population Control  (DPE)**

**Cross-listings:** WGSS 103  STS 102

**Secondary Cross-listing**

What is "good breeding?" For whom is birth control "liberating?" This course traces the surprising ways that concepts of population growth and decline from the natural sciences come to inform social discourses on "overpopulation" in the twentieth and twenty-first centuries. Science and politics mix to decide: who should be able to reproduce—and, consequently, who might not be born—so that some may live more prosperously? By studying the history of eugenics movements, contraceptive technologies in the context of development, and the racialized cultures of reproductive medicine, we will analyze how scientific ways of thinking about human lives reflect and reproduce social inequities. We will use the tools of feminist technoscience studies to understand how science, culture, power, and politics intersect to create new technologies of "selection" that are far from natural. New literatures in critical race STS, black feminist thought, and critical theory will inform our discussions.

**Requirements/Evaluation:** Weekly paper or response and in-class debate.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** Freshmen. If over-enrolled, students will submit a short paragraph stating their interest in the course.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 103 (D2) STS 102 (D2)

**Difference, Power, and Equity Notes:** This course will demonstrate how scientific knowledges also reflect biases organized along lines of social difference, including race, gender, class and nation. Readings in critical race theory will give students a deeper appreciation of these issues.

**WGSS 105  (F)(S) American Girlhoods  (DPE) (WS)**

**Cross-listings:** AMST 105  WGSS 105  ENGL 105

**Secondary Cross-listing**
The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 105 (D2) WGS 105 (D2) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

WGSS 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: ENGL 113 AMST 113 WGSS 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

WGSS 201  (F)  War and Resistance: Two Centuries of War Literature in France (1800-2015)  (DPE)

Cross-listings: RLFR 202  COMP 292  WGSS 201

Secondary Cross-listing

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)
Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 16
Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film. Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.
WGSS 202 (F)(S) Foundations in Sexuality Studies  (DPE)

This course will offer an introduction to the burgeoning interdisciplinary field of sexuality studies in part through examining historical, legal, literary, filmic, cultural studies, sociological, and popular texts, as well as work done under the umbrella of queer theory. It explores the role of race, class, religion, science, region, and nation in the construction of modern gender and sexual identities and in the lived experiences of dissident genders and sexualities. We will examine a range of issues, including histories and strategies of resistance; transgender and intersex theory and activism; critiques of the white racial hegemony of lesbian and gay studies; the consequences of gay marriage; the politics of AIDS and its theoretical implications; globalization and sexuality; the rise of queer visibility and its relation to commodity culture; and recent conceptualizations of homonormativity. The goal of the course is not to achieve any kind of political or intellectual consensus, but to have rigorous debate over some of the key issues in queer studies.

Class Format: discussion

Requirements/Evaluation: Class participation, on-line discussion forum, two papers of around 5-7 pages.

Prerequisites: None. WGSS 101 may be helpful as background knowledge, but is not required.

Enrollment Limit: 19

Enrollment Preferences: Women's Gender & Sexuality Studies majors, short statement of interest in case of over-enrollment

Expected Class Size: 19

Grading: yes pass/fail option,  yes fifth course option

Distributions: (D2)  (DPE)

Difference, Power, and Equity Notes: This course examines sexual diversity in various forms and asks students to interrogate questions of privilege and positionality, including the intersectional contemplation of sexuality's relationship to race, ethnicity, ability, class, religion, and other axes of identity. It investigates not only sexual difference, but the history of sexual identity and progressive narratives of "gay rights" that have developed over time.

WGSS 208 (S) Designer Genes  (DPE) (WS)

Cross-listings: ENGL 208  AMST 206  STS 208  WGSS 208

Primary Cross-listing

In this course, we explore cultural texts that attempt to come to terms with--or exploit--the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book The Mutant Project. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary In the Family, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel Dawn explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The filmGattaca shows us a fully realized dystopian society where genetically modified humans are the norm--a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.
Requirements/Evaluation: Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Women's, Gender, and Sexuality Studies, American Studies, English majors
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

Difference, Power, and Equity Notes: This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics’ case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

This tutorial focuses on the writings and autobiographies of women who have shaped national politics through social justice movements in the 20th-21st centuries. Women and girls studied include: Fannie Lou Hamer, Shirley Chisholm, Safiya Bukhari, Erica Garner, Greta Thunberg, Malala Yousafzai, Marielle Franco, Winnie Mandela.

Requirements/Evaluation: Weekly 5-page primary analytical papers and 2-page response papers.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Juniors and seniors, sophomores.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
INTR 219 (D2) AFR 217 (D2) WGSS 219 (D2) AMST 217 (D2) LEAD 219 (D2)

Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2021
TUT Section: T1    TBA     Joy A. James
The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

**Requirements/Evaluation:** weekly discussion post, midterm essay, and final paper (6-8 pages)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Religion, Women's, Gender and Sexuality Studies and Arabic majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, yes fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:

REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

**Difference, Power, and Equity Notes:** This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

Spring 2022

SEM Section: 01    TR 8:30 am - 9:45 am     Saadia Yacoob
Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 20

Enrollment Preferences: Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Comp majors; Asian Studies Concentration; WSGG majors; and then to first-year students

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 254 (D1) CHIN 253 (D1) WGSS 255 (D2)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

Spring 2022

SEM Section: 01    MR 1:10 pm - 2:25 pm    Man He

WGSS 260  (F)  Power, Feminist-Style  (DPE) (WS)

Cross-listings: WGSS 260  PSCI 260

Primary Cross-listing

This course examines one of the most important concepts in the analysis of sex and gender and efforts to envision sexual and gender justice from multiple feminist perspectives. At the core of feminism lies the critique of inequitable power relations. Some feminists claim that power itself is the root of all evil and that a feminist world is one without power. Others portray the feminist agenda as one of taking power, or of reconstructing society by exercising a specifically feminist mode of power. In this course, we will look at feminist critiques of power, how feminists have employed notions of power developed outside of the arena of feminist thought, and efforts to develop specifically feminist ideas of power. Along the way, we will ask: Are some concepts of power more useful to feminism? Can certain forms of power be considered more feminist than others? How can feminist power be realized? Thinkers we will engage include Judith Butler, Audre Lorde, Catherine MacKinnon, Hannah Arendt, and Patricia Hill Collins.

Requirements/Evaluation: eight short writing assignments (ranging from 250 words to 750 words), drafting and revision of a 10 pg final essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Women's, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 260 (D2) PSCI 260 (D2)

Writing Skills Notes: This course aims to carefully unpack the writing process by focusing on particular elements of writing (summary, critical analysis) while also introducing students to tools they can use to improve their writing (freewriting). Short writing assignments like the proposal, outline, and abstract build on one another and culminate in a final essay that goes through the process of drafting and, after peer and teacher review, revision.

Difference, Power, and Equity Notes: This course requires students to focus on what power does and should look like from the perspective of difference, exploring the relationship between power and equity in the process. Students will reflect on and discuss the working of power in their own lives, why certain forms of power are more or less visible to particular groups, and how different ideas about power promote different interests in
Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices ‘make a future’ (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

**Class Format:** Hybrid online/in-person

**Requirements/Evaluation:** Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

**Cross-listings:** COMP 313 ASIA 316 WGSS 316

**Primary Cross-listing**

This advanced undergraduate seminar focuses on concepts, queries, and methodologies at the intersections of Asian Americanist critique, queer theory, and affect theory. How might we come to understand Asian gender, sexuality, and racialization less through a language of being or meaning, as through feeling? How do Asian/American discourses rely upon languages of gender and sexuality, and how might queerness depend upon Asianess? How might these theories identify, complicate, and call forth more expansive or alternative practices of belonging? The class will read theories including national abjection, racial melancholia, disaffection, queer diaspora, and homonationalism, as well as engage Asian American literatures.

**Requirements/Evaluation:** in-class participation, partnered presentation, weekly reading responses (350 words max), short analytical essay (4-5 pages), and creative final project (e.g. poem, epistolary letter, syllabus soundtrack) (5-8 pages)

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** WGSS majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**
COMP 313 (D1) ASIA 316 (D2) WGSS 316 (D2)

**Difference, Power, and Equity Notes:** This interdisciplinary seminar centers the interconnected constructions of race, ethnicity, gender, sexuality, and nation as they give shape to Asian American and Asian diasporic sexuality studies.

Spring 2022
WGSS 318  (F)  Black Masculinities  (DPE)

Cross-listings: AMST 350  ENGL 375  AFR 331  WGSS 318

Primary Cross-listing
In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men's sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors
Expected Class Size: 14
Grading: yes pass/fail option,  yes fifth course option
Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350  (D2)  ENGL 375  (D1)  AFR 331  (D2)  WGSS 318  (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

WGSS 337  (F)  Race, Sex & Gender in Brazil  (DPE)

Cross-listings: ANTH 337  WGSS 337

Primary Cross-listing
The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: Students must also commit to registering for a winter study travel course with a trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

Requirements/Evaluation: research paper and its various components, participation
Prerequisites: none
Enrollment Limit: 7

Enrollment Preferences: students are required to attend an info session and submit an application that includes a statement of interest, finalists will need to complete an interview

Expected Class Size: 7

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: The cost of the winter study travel portion is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 337 (D2) WGSS 337 (D2)

Difference, Power, and Equity Notes: This is a class about social justice movements and racial/gender/sexual diversity. It includes experiential learning devoted to these issues and engages questions related to the origins of inequality and prejudice in Brazil.

WGSS 344 (S) Underground Berlin: Art, Performance, and Film, 1980s to Present  (DPE)

Cross-listings: GERM 314  WGSS 344  ARTH 315

Secondary Cross-listing

Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin's present, its contradictory mix of new and old, "deep history" and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government's plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city's social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape--from art museums and theater houses to occupied buildings, from independent publishing imprints and collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.

Requirements/Evaluation: Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Art History majors, German majors, then any interested student

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 314 (D1) WGSS 344 (D2) ARTH 315 (D1)

Difference, Power, and Equity Notes: Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

Spring 2022

SEM Section: 01  W 1:10 pm - 3:50 pm  Alena J Williams
Education is inherently political, and politics necessarily involves pedagogy. Who should teach, what is taught, how it is taught, and why it is taught are questions hotly debated at all levels and in all sites of education because the answers have implications for societal reproduction or transformation. Politicians, activists, even family members at the dinner table all seek to educate in ways that incline us toward particular political positions. At the heart of this class stands the question: if different pedagogies point us in different political directions, then what kind of pedagogy or pedagogies serve the end of liberation from oppression and why? Are there certain pedagogical "goods" that reliably serve the goal of liberation across sites? Or do different sites require different approaches? To begin to answer these questions, we will engage a variety of thinker-teachers and groups known for their commitment to a "pedagogy of liberation." While feminist thinkers will be foregrounded, we may also look to thinker-teachers who and groups that do not claim this label. In addition to engaging texts which reflect on different aspects of radical pedagogy (content, form, method, etc.) and radical pedagogy in different settings (the college classroom, the social movement headquarters, the home), we will witness radical pedagogy in practice. Moreover, we will enact various radical pedagogical strategies in our own classroom and beyond.

**Requirements/Evaluation:** Perusall, aspirational learning statement, syllabus co-construction and reflection, class facilitation, interview project and reflection, one-on-one discussions

**Prerequisites:** None

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference will be given to WGSS majors.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This class is concerned with the relationship between pedagogy and equity - how can pedagogy be leveraged to combat oppression and encourage equity? In it, students will gain not just insight on, but practice in enacting radical democratic pedagogies that flatten power differentials and encourage effective engagement across difference.

**Attributes:** WGSS Theory Courses

Spring 2022

SEM Section: 01 TF 1:10 pm - 2:25 pm Greta F. Snyder

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA “change charts.” We then build on this as we turn to sociolinguistics as students will learn how to do Conversation Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called “gay voice,” the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists’ ethnographies of queer communities’ language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

**Requirements/Evaluation:** IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

**Prerequisites:** None; prior coursework in WGSS may be helpful, but is not required

**Enrollment Limit:** 15

**Enrollment Preferences:** WGSS majors; short statements of interest will be solicited in the event of overenrollment

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option
Distributions: (D2)  (DPE)  
This course is cross-listed and the prefixes carry the following divisional credit:  
ANTH 350  (D2)  AMST 351  (D2)  WGSS 350  (D2)  

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

WGSS 371  (F)  Medicine and Campus Health in Disruptive Times  (DPE)  (WS)  
Cross-listings: STS 370  WGSS 371  ANTH 371  

Secondary Cross-listing  
This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques such as participant observation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.  

Requirements/Evaluation: Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.  
Prerequisites: A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended  

Enrollment Limit: 20  
Enrollment Preferences: Majors in Anthropology, Sociology, Women's, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies  

Expected Class Size: 20  
Grading: yes pass/fail option, no fifth course option  
Distributions: (D2)  (DPE)  (WS)  
This course is cross-listed and the prefixes carry the following divisional credit:  
STS 370  (D2)  WGSS 371  (D2)  ANTH 371  (D2)  

Writing Skills Notes: This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.  

Difference, Power, and Equity Notes: This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? Scholars of feminist science and technology studies (FSTS) have addressed these questions in their studies of scientific objectivity, technological vulnerability, environmentalism, and the makings (or doings) of race as well as gender. We will explore these questions and topics with a view to identifying the range of ethical, political, and epistemological practices within feminist and critical technoscience. We will read theoretical texts in FSTS, such as Donna Haraway’s “Situated Knowledges” and Safiya Umoja Noble’s “A future for intersectional black feminist technology studies.” We will also read case studies, such as Pat Treusch's “The Art of Failure in Robotics” and Emily Martin’s “The Egg and the Sperm: How Science Has Constructed a Romance Based on Stereotypical Male-Female Roles.” While our preliminary readings will be set in advance, students will help shape the syllabus as we advance toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

Requirements/Evaluation: discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); annotated bibliography; final essay (12-15 pages + in-class presentation)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Science and Technology Studies concentrators

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

Difference, Power, and Equity

AFR 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)

Cross-listings: AFR 104 HIST 104

Secondary Cross-listing

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.
**Requirements/Evaluation:** active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

**Writing Skills Notes:** Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

AFR 158 (S) North of Jim Crow, South of Freedom (DPE) (WS)

**Cross-listings:** HIST 158 AFR 158

**Secondary Cross-listing**

This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs—all with an eye toward scrutinizing the freedom struggle in its northern variety.

**Requirements/Evaluation:** Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will be required to submit a topic proposal.

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 19

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 158 (D2) AFR 158 (D2)

**Writing Skills Notes:** Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course analyzes the long black freedom struggle in the North during the twentieth century. It examines
black northerners' efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in spite of legal and legislative remedies.

AFR 159 (F) Crossing the Color Line: A History of Passing (DPE) (WS)

Cross-listings:  AFR 159  HIST 159

Secondary Cross-listing

In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal's racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries--class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

Requirements/Evaluation: Weekly formal response papers and written critiques.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option,  no fifth course option

Distributions:   (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 159 (D2) HIST 159 (D2)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

Difference, Power, and Equity Notes: Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

AFR 203 (F) The Making of Modern Africa (DPE)

Cross-listings:  AFR 203  HIST 205

Secondary Cross-listing

This course traces the incorporation of Africa into an expanding global world from the middle of the 19th century to the present and examines the
impact of this integration on the history of African cultures and modern nation states. It is designed to provide you with an introductory understanding of the economic, social, and political forces that have shaped Africa in recent times and continue to affect the lives of individual people across the continent. Over the course of the semester you will be introduced to major historical themes in African History from the past 150 years, including the abolition of the slave trade and its effects, African states in the 19th century, the growing integration of different regions into shifting global and economic systems, European colonization, and African resistance to imperial conquest. We will also explore the emergence of the nationalist and anti-colonial movements, and Africa’s post-colonial experiences of self-governance. Within these broad historical processes, the class will cover additional key themes such as religious change and the role of Western missionaries; changing gender roles; environmental exploitation and change; the emergence of the developmental state; urbanization; military dictatorships, and war and violence in the late 20th century. We will also cover some of the issues surrounding the study of African History as a discipline. This is a challenging task as no single course can cover more than a silver of the complexity and variety of the continent. This is why we approach the study of Modern African History through a comparative prism.

Requirements/Evaluation: active participation in discussion, map quiz, response papers, midterm and final exams, and a case study paper (7-10 pages)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 30

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 203 (D2) HIST 205 (D2)

Difference, Power, and Equity Notes: This course will introduce students to how modern Africans have contended with powerful forces that have deeply affected the continent. It will examine how different societies on the continent -- in different environments and circumstances -- devised solutions to the challenges of the day. All of the readings, discussions, and assignments will ask students to center and insert African voices into histories fraught with misrepresentations.

LEC Section: 01 TR 11:20 am - 12:35 pm Benjamin Twagira

AFR 209 (F)(S) Introduction to Racial Capitalism (DPE) (WS)

Cross-listings: AMST 202 AFR 209

Secondary Cross-listing

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"—which rejects treatments of race (and racism) as external to the so-called real workings of capitalism—as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Prerequisites: none
Enrollment Limit: 12

**Enrollment Preferences:** American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

**Writing Skills Notes:** Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

This tutorial focuses on the writings and autobiographies of women who have shaped national politics through social justice movements in the 20th-21st centuries. Women and girls studied include: Fannie Lou Hamer, Shirley Chisholm, Safiya Bukhari, Erica Garner, Greta Thunberg, Malala Yousafzai, Marielle Franco, Winnie Mandela.

**Requirements/Evaluation:** Weekly 5-page primary analytical papers and 2-page response papers.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Juniors and seniors, sophomores.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

INTR 219 (D2) AFR 217 (D2) WGSS 219 (D2) AMST 217 (D2) LEAD 219 (D2)

**Difference, Power, and Equity Notes:** This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

**AFR 231 (S) Africa and the Anthropocene **(DPE)

**Cross-listings:** STS 231  ENVI 231  AFR 231
Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

Requirements/Evaluation: Assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Environmental Studies majors and concentrators
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

AFR 237 (S) Islam in the United States: Race, Religion, Politics (DPE)

Cross-listings: REL 237 AFR 237 AMST 237

Secondary Cross-listing
Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.

Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Majors and concentrators in REL, AFR, and AMST
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option

AFR 270  (F)  Sport and the Global Color Line  (DPE)

Cross-listings: HIST 270 LEAD 270 AFR 270

Secondary Cross-listing
Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas—like movie theaters, railroads, schools, and other public sites—shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

Class Format: Lecture and discussion.

Requirements/Evaluation: Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

Prerequisites: None.

Enrollment Limit: 40

Enrollment Preferences: Open to all students with completion of course admission survey if overenrolled.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 270 (D2) LEAD 270 (D2) AFR 270 (D2)

Difference, Power, and Equity Notes: This course will prompt students to evaluate the commercialization and commodification, perceptions and portrayals of minority athletes in popular media forms. Students will trace the emerging ideas, shifts, and trends in the depiction of race and in the process of racialization.

AFR 304  (S)  A History of Health and Healing in Africa  (DPE)

Cross-listings: HIST 305 AFR 304 GBST 305

Secondary Cross-listing
This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the
way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 305 (D2) AFR 304 (D2) GBST 305 (D2)

Difference, Power, and Equity Notes: This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and inequalities.

AFR 331 (F) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

AFR 339 (S) The Banlieue in Literature, Music, and Film (DPE) (WS)

Cross-listings: RLFR 300  COMP 336  AFR 339

Secondary Cross-listing

The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, “urban culture”--as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do “banlieue films” and “banlieue lit” tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

Requirements/Evaluation: 3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).

Prerequisites: RLFR 105 and above

Enrollment Limit: 14

Enrollment Preferences: French majors and certificate students, Africana and Comparative literature students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

AFR 346 (F) Modern Brazil (DPE)

Cross-listings: AFR 346  HIST 346

Secondary Cross-listing

Brazil has been the “country of the future” longer than it has been an independent nation. Soon after Europeans descended on its shores, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often contributed to an exaggerated patriotism, it has also fostered ambiguity—for if the label suggests Brazil’s potential, it also underlines the country’s failure to live up to that promise. This course will examine Brazil’s modern history by taking up major themes from Independence to the present. Beginning with a “bloodless” independence that sparked massive civil wars, we will analyze the hierarchies that have characterized Brazilian society. The course will give particular attention to themes of race, gender, sexuality, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations.
Class Format: discussion

Requirements/Evaluation: class participation will count for 20% of final grade; each of two 5-page papers will count for 25%; and a final 8- to 10-page paper will count for 30%

Prerequisites: none; open to first-year students with instructors permission

Enrollment Limit: 25

Enrollment Preferences: History majors, Latino/a Studies concentrators

Expected Class Size: 20-25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 347 (F) (De)colonial Ecologies (DPE) (WS)
Cross-listings: AFR 347 AMST 332 ENVI 332

Secondary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

AFR 349 (S) Race, Development, and Food Sovereignty (DPE) (WS)

Cross-listings: AFR 349 ENVI 349 AMST 342

Secondary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen? Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful "agribusiness" corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of "food sovereignty" movements--efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

Specifically, one research proposal (including thesis outline and annotated bibliography of primary texts) with feedback from professor; one thesis paper draft with feedback from peers; one letter of revision explaining the student's revision process; one final draft with critical feedback from professor; and student presentation and discussion.

Difference, Power, and Equity Notes: The course addresses issues of difference, power, and equity, and offers theoretical tools and perspectives to understand these issues. Specifically, students learn how to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.
AFR 367 (S) Black History is Labor History (DPE) (WS)

Cross-listings: AFR 367 HIST 367

Secondary Cross-listing

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antiunionism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.

Requirements/Evaluation: Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites: recommended for students with sophomore standing or above

Enrollment Limit: 25

Enrollment Preferences: HIST and AFR majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 367 (D2) HIST 367 (D2)

Writing Skills Notes: Students will be required to write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages). Throughout the semester, these writing assignments will total roughly 22-30 pages.

Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities among black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

AFR 381 (F) Media and Society in Africa (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Secondary Cross-listing

The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programming. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers', readers' and listeners' control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media's role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.
Requirements/Evaluation:  Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites:  This course open to all students

Enrollment Limit:  10

Enrollment Preferences:  Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

Expected Class Size:  10

Grading:  no pass/fail option, no fifth course option

Distributions:  (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)

Writing Skills Notes:  Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques - both oral and written - from the professor, as well as oral critiques from tutorial partners.

Difference, Power, and Equity Notes:  Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important societal concerns are expressed through the media in Africa.

Fall 2021
TUT Section: T1    TBA    Benjamin Twagira

AMST 101  (F)(S)  America: The Nation and Its Discontents  (DPE)

This course introduces students to the capacious and extraordinarily varied interdisciplinary field of American Studies. First institutionalized in the mid-twentieth century, American Studies once bridged literature and history in an attempt to discover a singular American identity. Over 80 years later, many American Studies scholars reject this exceptionalizing rhetoric, working instead to understand how genocide, enslavement, colonization, and militarism/war are foundational to the formation of the U.S. nation-state, and how marginalized and minoritized peoples have survived through, rebelled against, and created new visions for collectivity, relationality, and community. In this course, students will be introduced to the dynamic ways American Studies work links to ethnic studies; women, gender, and sexuality studies; literary studies, political science; critical geography; critical media studies; disability studies; history; anthropology; sociology; art; and more. We will anchor this array of approaches by examining beliefs, practices, places, and migrations that have shaped and been shaped by the U.S., and we will pay particular attention to the people who labor for, have been racialized by, and who think critically about “America.” Through close reading; discussions; and analyses of music, art, and film, we will collectively reckon with the questions of who and what makes “America” -- hemispherically, transnationally, globally. In the process, students will be encouraged to co-create a learning experience rooted in praxis, political consciousness, intersectionality, and mutual support.

Requirements/Evaluation:  Evaluation will be based on class participation, weekly reading questions or discussion posts, and series of written assignments (three 3-page papers; and one 5- to 7-page paper)

Prerequisites:  none

Enrollment Limit:  20

Enrollment Preferences:  first- and second-year students

Expected Class Size:  20

Grading:  yes pass/fail option, no fifth course option

Distributions:  (D2) (DPE)

Difference, Power, and Equity Notes:  This course satisfies the DPE requirement in its constant interrogation of historical patterns of unequal access to power, wealth, and citizenship in the U.S., and in its recognition and analysis of resistance to such inequities.

Fall 2021
SEM Section: 01    MR 2:35 pm - 3:50 pm    Jan  Padios
AMST 105  (F)(S) American Girlhoods  (DPE) (WS)

Cross-listings:  AMST 105  WGSS 105  ENGL 105

Secondary Cross-listing

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation:  at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

Prerequisites:  none

Enrollment Limit:  19

Expected Class Size:  19

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 105 (D2) WGSS 105 (D2) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

AMST 113  (F) The Feminist Poetry Movement  (DPE) (WS)

Cross-listings:  ENGL 113  AMST 113  WGSS 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.
Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

AMST 125 (S) Introduction to Asian American Studies (DPE)

This course covers topics and approaches salient to contemporary Asian American Studies as an interdisciplinary field of scholarship and activism. Drawing on primary source documents, scholarship, visual media, and creative work, we will look at cross-racial solidarity and organizing, anti-Asian exclusion and xenophobia, war and refugee communities, public and mental health, and immigration histories and experiences. We will ground our inquiry in the social movements from which the field emerged in the late-1960s and 1970s, then move on to address foundational terms for Asian American and Pacific Islander scholars, such as race, bodies, citizenship, empire, transnationalism, and Indigeneity. Throughout the course we will stay attentive to overlapping histories between Asian American and Native, Indigenous, Black, and Latinx people and communities. Students will also have a number of opportunities to practice analytic writing, do creative work, engage in personal reflection, and participate in community building.

Requirements/Evaluation: Weekly: an average of 75 pages of reading (or watch a film), participate in class discussions. 5x per semester: 2-page writing or creative assignments, including letter writing, conduct an interview, analyzing a passage from a historical document, or close read a scene from a film or story. Final: A 5-7-page final paper, small group project, or individual project.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: If over enrolled: first-year students, AMST majors, or graduating students without prior experience with the topic

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course defines "Asian" and "Asian American" as categories of social difference created through historical conditions (e.g. migration, imperialism) that change over time. These terms also refer to forms of personhood with racial, national, and ethnic meaning determined by unequal distribution of power and resources. Students in the course are asked to understand, engage, and articulate these differences, historical, and social process.

**AMST 166  (F)  Being Muslim, Being American: American Muslim Literature in the 21st century  (DPE)**

*Cross-listings: REL 166  COMP 166  AMST 166  ENGL 268*

*Secondary Cross-listing*

Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims’ own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims’ own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

*Requirements/Evaluation: regular reading responses, short midterm essays, and final paper*

*Prerequisites: none*

*Enrollment Limit: 20*

*Enrollment Preferences: First-year students and sophomores*

*Expected Class Size: 15*

*Grading: no pass/fail option, yes fifth course option*

*This course is cross-listed and the prefixes carry the following divisional credit:*

REL 166 (D2)  COMP 166 (D1)  AMST 166 (D2)  ENGL 268 (D1)

**Difference, Power, and Equity Notes:** This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

---

**AMST 200  (S)  Ethnographic Directions in American Studies  (DPE)**

This course introduces students to the practice and politics of ethnography, broadly defined as the study and representation of people, culture, and society. Our approach will be post-positive and interpretive, with attention to the social stakes of ethnographic research and methodology writ large.

We begin the semester by looking at the history of ethnographic methodologies in anthropology and sociology, and then examine efforts to decolonize ethnography. We then read several examples of decolonial, feminist, or otherwise critical ethnographic research related to marginalized or minoritized groups in the U.S. -- such as undocumented migrants from Latin America, formerly unhoused Black girls, Diné fighting resource extraction on the reservation, and Cambodian refugees in the Bronx -- along with articles that illuminate issues of power, observation, consent, and representation in ethnographic research. Through readings, discussion, and engagement in ethnographic exercises, students will gain familiarity with the different phases or components of conducting ethnographic research, while also considering different styles of ethnographic production, including creative work. While this course is designed to look specifically at ethnographic directions that intersect with the interdisciplinary field of American Studies, it is open to any student interested in the study of pressing social issues (such as the prison-industrial complex, refugee resettlement, and drug addiction) and creating communities of mutual care and solidarity for surviving, fighting, and quite possibly, solving them.

*Requirements/Evaluation: Weekly: Average 75 pages of reading; participation in class discussions. Every 3-4 weeks: research assignments. Once per semester: group presentation. End of semester: one 5-page paper.*

*Prerequisites: None*

*Enrollment Limit: 12*

*Enrollment Preferences: Enrollment preferences if over enrolled: AMST majors, students seeking methods courses*
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course covers ethnographic approaches to understanding social relations and cultural processes, with particular attention to scholarship in which power relations; structural analysis; and race and gender are central.

AMST 202 (F)(S) Introduction to Racial Capitalism (DPE) (WS)

Cross-listings: AMST 202 AFR 209

Primary Cross-listing

The historical relationship between race and capitalism is one of the most enduring debates in U.S. historiography, shaping modes of inquiry and analysis across history, law, economics, sociology, anthropology, and other fields. This course seeks to introduce students to the concept of "racial capitalism"--which rejects treatments of race (and racism) as external to the so-called real workings of capitalism--as a way to understand this relationship and as an activist hermeneutic through which to identify and respond to the conditions that American Studies must reckon with. Students will gain familiarity with the global history of racial capitalism and the power of the concept itself through secondary sources and a wide range of primary sources, and through engaged discussion and short essays. Throughout the course, we will pay special attention to the cultural politics, political geographies, and historical development of racial capitalism, thus attending to how the social relations of racial capitalism have been known, lived, and resisted across time and space. The course is organized around three key themes: the land question; race, capitalism, and nation; and the banalities of racial capitalism. Across these themes, the course will address such issues and topics as North American settler colonialism, circum-Caribbean plantation slave and "Coolie" labor, mass incarceration, the subprime mortgage crisis, and the War on Terror. The course will do so through and against a history of racial capitalism that privileges the U.S. nation-state in particular. By the end of this course, students should be able to: detail and analyze the historical development of and resistance to racial capitalism, doing so in relation to the global itineraries of racial slavery, settler colonialism, imperialism, and white supremacy; trace the history of the concept of racial capitalism itself; and identify how the concept continues to shape the field of American Studies.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: American Studies majors, students specializing in Native American and Indigenous Studies, Africana majors, History majors

Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 202 (D2) AFR 209 (D2)

Writing Skills Notes: Emphasis on writing process and revision: Three thesis papers at 5 pages each (each receiving critical feedback from professor and peers); one keyword glossary where students develop rigorous definitions of course key terms; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: Throughout, the course addresses the issues of difference, power, and equity amongst groups and the nature of the theoretical tools or perspectives used to understand these issues. It does so familiarizing students with "racial capitalism" as both a way of understanding the historical relationship between race and capitalism, and as an activist hermeneutic to respond to the conditions that American Studies and other fields must reckon with in the present.

Attributes: AMST Comp Studies in Race, Ethnicity, Diaspora GBST Economic Development Studies Electives

Fall 2021
In this course, we explore cultural texts that attempt to come to terms with—or exploit—the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book *The Mutant Project*. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick’s documentary *In the Family*, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel *Dawn* explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film *Gattaca* shows us a fully realized dystopian society where genetically modified humans are the norm—a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies, American Studies, English majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

**Difference, Power, and Equity Notes:** This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics' case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

SEM Section: 01 TR 9:55 am - 11:10 am Bethany Hicok

**AMST 209 (F) Introduction to Black, Brown, and Queer Theory** (DPE)

Have you ever tried to relate your experiences, rooted in your own complex identities, history, and social networks, to those of others you perceive as
different and perhaps allied, but found you lacked some fundamental vocabulary? This is a common problem, even for critical theorists who take as their object of study political, affective, and epistemological structures of difference and power. Critical race, postcolonial, Indigenous, and queer theories have often centered the relationship between the normative and non-normative, between straight and queer, colonizer and colonized, and white and black. Connections between the differently non-normative can sometimes be pushed to the periphery. But what if we were to center that periphery? What views of complex power structures and new avenues of thought and solidarity would arise if we took as our starting point the social and theoretical interconnectedness and overlap of black, brown, and queer folks? This course will serve as an introduction to critical race, postcolonial, Indigenous, and queer theories as conceptually and phenomenologically interlocking and allied fields. By reading with theorists in all these traditions and at their intersections, we will explore how blackness, indigeneity, and brownness are constructed and function in the context of colonialism and settler colonialism, how differently racialized bodies are sexed and sexualized, and how queerness as method can speak across these issues. No background in critical theory is required for this course. We will focus on how to read and discuss theory, and how to think holistically about the structures that work to keep us divided.

Requirements/Evaluation: attendance and class participation, two 4-page reflection papers, and a final creative project (TBD with instructor) or take-home exam

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: American Studies majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course introduces students to theories of difference and power, such as critical race, postcolonial, Indigenous, and queer theories. The aim of the course is to establish the skills and frameworks needed to think about how these categories and theories interact, overlap, and constitute one another.

Difference, Power, and Equity Notes: This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

Fall 2021
Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.

Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay

AMST 242 (S) Americans Abroad (DPE)

Cross-listings: COMP 242 ENGL 250 AMST 242

Secondary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture--American or foreign.
**Requirements/Evaluation:** Each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences.

**Prerequisites:** Any literature course at Williams or permission of instructor.

**Enrollment Limit:** 18

**Expected Class Size:** 18

**Grading:** No pass/fail option, no fifth course option.

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

- COMP 242 (D1)
- ENGL 250 (D1)
- AMST 242 (D2)

**Difference, Power, and Equity Notes:** We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narratives in which they reflect on a situation of personal dislocation, either while traveling, or at home.

**Secondary Cross-listing**

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered "soul food"? In this course, we will answer these questions by digging into the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

**Requirements/Evaluation:** Two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities.

**Prerequisites:** None

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; History majors

**Expected Class Size:** 19

**Grading:** No pass/fail option, no fifth course option.

Cross-listings: THEA 246 GBST 246 AMST 249

Secondary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: sophomores, juniors, and seniors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

AMST 260 (F) Indigenous Feminisms (DPE)

Cross-listings: AMST 260 WGSS 262

Primary Cross-listing

Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices ‘make a future’ (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

Class Format: Hybrid online/in-person

Requirements/Evaluation: Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulosity and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

**Class Format:** There will be some minor performance elements such as workshops during class.

**Requirements/Evaluation:** Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

**Prerequisites:** None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

**Enrollment Limit:** 12

**Enrollment Preferences:** WGSS majors; in the event of over-enrollment there statements of interest will be solicited

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (D2) ANTH 305 (D2) AMST 305 (D2) THEA 304 (D1)

**Difference, Power, and Equity Notes:** This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

**Attributes:** WGSS Racial Sexual + Cultural Diversity Courses

Cross-listings: LEAD 319  PSCI 376  INTR 320  AMST 308

Secondary Cross-listing

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: *Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.*

Requirements/Evaluation: Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

Prerequisites: Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2) AMST 308 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

AMST 321 (F) Unsettled Futures: Time, Crisis, and Science Fiction from the Margins (DPE)

Cross-listings: AMST 321 STS 321

Primary Cross-listing

Societies around the globe are now confronting a triple crisis that threatens not only political orders but also the very existence of certain forms of life: (1) financial collapse(s) that have increased the awareness and severity of mass inequality, (2) climate change and mass extinctions, and (3) the rise of white supremacy and ethno-nationalisms that threaten BIPOC lives and representative democracies. These material and political challenges have depleted many of the cultural resources that enable imagining non-apocalyptic futures. Yet, these crises are not novel. Many groups in the periphery--geographic, economic, and cultural--were and are already living through the uneven distribution of the apocalypse. Science fiction (SF) has emerged as a privileged symbolic field for the expression of hopes and anxieties that drive both culture and tech industries. Whether seen as a form of productive pessimism or liberatory theory, SF from the margins is deployed as a political tool for enacting change in the present. In this course, we will survey the history of SF as a variable and theoretical orientation constituted through the unfolding of uneven global encounters. We will analyze SF in the Cold War, Anthropocene, decolonization movements, and postcolonial and Indigenous landscapes, reading major works in SF and science and technology studies (STS) that address the politics of crisis, apocalypse, and global futures. In addition to novels and short stories, this course will incorporate film, graphic novels, music videos, video games, and other science fiction subgenres.

Requirements/Evaluation: Class discussion, approximately 10 pages of creative writing, 5 page analysis paper of your classmate's creative writing, final paper or project (5-8 page paper or equivalent)

Enrollment Limit: 15

Enrollment Preferences: Students who have taken American Studies 101 and/or Science and Technology Studies 101

Expected Class Size: 15
This course examines the racial, ethnic, gendered, and sexed dimensions of science fiction and traces how marginalized people have imagined the future amidst an atemporal and unfolding apocalypse. Students will work with postcolonial, Indigenous, queer, and critical race media concerning the future, and will gain the skills needed to read political orders and crises through the lens of the margin.

AMST 332 (F) (De)colonial Ecologies  (DPE) (WS)

Cross-listings: AFR 347  AMST 332  ENVI 332

Primary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

Enrollment Limit: 15

Enrollment Preferences: AMST, AFR, ENVI

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2021
AMST 342 (S) Race, Development, and Food Sovereignty (DPE) (WS)

Cross-listings: AFR 349  ENVI 349  AMST 342

Primary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen? Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful "agribusiness" corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of "food sovereignty" movements—efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

Prerequisites: AMST 101, AFR 200, and/or ENVI 101

AMST 350 (F) Black Masculinities (DPE)

Cross-listings: AMST 350  ENGL 375  AFR 331  WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and
constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 351 (F) Queer Tongues & Lavender Linguistics (DPE)

Cross-listings: ANTH 350 AMST 351 WGSS 350

Secondary Cross-listing
This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA “change charts.” We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called “gay voice,” the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists’ ethnographies of queer communities’ language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures
Prerequisites: None; prior coursework in WGSS may be helpful, but is not required
Enrollment Limit: 15
Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 350 (D2) AMST 351 (D2) WGSS 350 (D2)
Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

AMST 352  (S)  Global Health in the Transpacific  (DPE)

Cross-listings: AMST 352  STS 311  ASIA 352

Secondary Cross-listing

East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia's claim of "viral sovereignty" to protect their biological specimens from Western intellectual property regimes and Hmong refugees' resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.

Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper

Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.

Enrollment Limit: 12

Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 353  (S)  Is Science Native to Turtle Island? The History of Native Science in North America  (DPE)

Cross-listings: STS 353  AMST 353

Primary Cross-listing

Settler sciences and technologies deployed by Europeans colonizing Turtle Island (what settlers called North America) were introduced as weapons of Indigenous termination. From medical violation, to anthropological theft, and industrial pollution, settler technoscience objectified and appropriated Indigenous people and lands, and attempted to displace Indigenous knowledge in the pursuit of settler supremacy. Indigenous bodies were cast as victims, objects and sometimes the tools of this project. And yet, as tools and objects, Indigenous peoples took up settler technoscience in a multitude of ways that failed (both purposefully and not) to adhere to the colonizing mission, incorporating Indigenous knowledges and orientations, subverting settler science as a source of authority, and positioning science as a site of Indigenous sovereignty. The practice of taking up science as a tool of
decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and technology studies (STS), history, and postcolonial and queer theory.

**Requirements/Evaluation:** attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** American Studies majors and Science and Technology Studies concentrators

**Expected Class Size:** 13

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 353 (D2) AMST 353 (D2)

**Difference, Power, and Equity Notes:** This course will explore how settler sciences have been used as a technology of difference making, dispossession, and genocide in United States history. It will also provide students a theoretical toolkit and historical perspective by which they can grapple with the fact that power structures like settler technoscience can be a source of both colonization and liberation.

AMST 401 (S) Policing Nations: Indigenous Nations and the Carceral State (DPE)

This course examines the birth of the prison on Indigenous lands - how the settler carceral state emerged from the legal and political architectures of conquest as well as from Transatlantic slavery. It examines the continuities between the prison, the reservation, the barracks, the plantation, Boarding Schools and foster homes as modes of incarcerating Indigenous life and movements for liberation. To do so, we will be engaging with Indigenous legal theory, movements, and writings on the carceral state, including writings from incarcerated Indigenous intellectuals, Boarding School and foster care survivors, and feminists. Our approach will be rooted in the interdisciplinary practices of Native American and Indigenous Studies, American Studies, legal studies and political theory. This course strives to provide a history of the present through examining the relations, structuring presuppositions, discourses and material edifices of conquest and genocide on Turtle Island and for Indigenous nations in settler states across the globe. We will end by thinking with Indigenous feminist mappings of abolition and futures beyond the prison house of the settler state. The pedagogical aims of this course will be to illustrate the role of conquest, anti-Indigeneity and settler law in producing the contemporary prison system, and to introduce students to the broad canon of Indigenous legal theory and Indigenous legal traditions that do not proceed from carceral premises. It will aim to facilitate skills in primary source analysis, in proficiency with legal theory, in independent research, and critical analysis of different forms of the carceral state.

Requirements/Evaluation: Final Paper: 40%; Weekly Reading Responses 30%; Participation 10%; Seminar Presentations: 20%

Prerequisites: At least one of the following: AFRI 234; AMST/AFR 209; AFRI 210; AFR 318; AMST 142; AMST 146; AMST 260; INTR 220/AMST 201; INTR 320/LEAD 319; AMST 356; PSCI 210; INTR/AFR 340

Enrollment Limit: 25

AMST 404  (F)  New Works in Asian American Studies  (DPE)
In this seminar, we will consider recent and/or recently intensifying debates, conversations, and intellectual directions in Asian American Studies. Topics may include white settler colonialism; indigeneity, the Pacific, and the transpacific; refugee experiences; media, including video games; political participation, conservatism, and religion; affirmative action; sexual violence; mental health; and comparative and relational racialization. We will also consider some new works of Asian American film and literature, and the criticism it generates. Course material will focus on scholarship that critically engage race, gender, sexuality, indigeneity, and/or disability as key terms. Students will be asked to develop a final project or paper based on one of the topics or books covered in the course. Students will gain an understanding of the field's recent concerns but also become familiar with the broader political, social, and cultural contexts from which they emerge.

Requirements/Evaluation:  In-class participation, weekly papers, one in-class presentation of the reading, final paper (10-12 pages of scholarly work or criticism) or final project (interview with an author or art work may be an option)
Prerequisites:  AMST125 (Introduction to Asian American Studies) or equivalent from another unit e.g. WGSS
Enrollment Limit:  12
Enrollment Preferences:  Senior American Studies majors; juniors or seniors with demonstrated interest in Asian American Studies (especially previous coursework)
Expected Class Size:  12
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D2)  (DPE)

Difference, Power, and Equity Notes: This course is organized around Asian American scholarship that foregrounds systems of power and hierarchies of identity. Students will consider how Asian American experiences throughout the history of the U.S. are shaped by uneven and often unjust processes, such as war or economic liberalism, and aspects of identity, such as race, indigeneity, gender/sexuality, class, and religion.

ANTH 101  (F)(S) How To Be Human  (DPE)
Is there such a thing as 'human nature'? This course is an introduction to cultural anthropology (also known as social or socio-cultural anthropology), the study of human society in all its profound variety. Through deep, sustained, systematic participation in and observation of a particular social context, anthropologists seek to comprehend and illuminate the human condition. Anthropologists' insights into the ways in which human institutions-language, economy, religion, social stratification, law, sexuality, art, the state, and many more-are culturally constructed and reproduced have transformed the way the world is understood. Puncturing ethnocentrism, anthropology's attentiveness to the ideas and practices of cultures in every part of the globe vastly enriches the archive of human answers to human problems. The distinctive methods of the discipline enable anthropologists to discover patterns and phenomena not discernible in other modes of enquiry. With such findings anthropologists are able to make critical interventions in public discourse and to demonstrate how deeply we are all shaped by cultural forces.

Requirements/Evaluation: weekly posts in response to readings, two group presentations, several short writing exercises, final exam
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: first-year students and sophomores
Expected Class Size: 30
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course is an introduction to cultural anthropology and deals extensively with race, ethnicity, religion, gender, etc., as cultural constructs creating social difference, hierarchies of power, and the creation of inequities in communities and societies. Readings in ethnography, social theory, and sociology are designed to give students a deeper appreciation of all these issues.

ANTH 240  (S) Work as a Cultural System  (DPE)
"You know my reputation," sang Billy Joe Shaver, "I am everything I do." In many ways we are homo faber, the species that makes its world and we are defined by what we make, by the work we do. This course will undertake a broad survey of work as cultural systems across time and space. How do societies define work, how do they organize it? Who controls the processes of work, who controls the product of work? When is work an act of pure creation and when is it stultifying labor? How is work enabled and how is it compensated? What defines the difference between work and leisure and how are they valued? How does control over access to work, the organization of work, and the appropriation of its products determine difference, power, and equity in a society? These questions will guide an examination of work drawing on works of philosophy, history, ethnography, literature, and film examining people at work ranging from hunter-gatherers to tin miners, from slaves to corporate managers, from merchant mariners in the age of sail to physicians struggling to adapt to computerized medical records.

Requirements/Evaluation: students will compose several response papers, a take-home midterm exam and a final research paper of 15-20 pages
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Anthropology and Sociology majors
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: Access to work, control over the work process, control over the fruits of labor, and compensation for work, are a principal means for creating and maintaining social difference, power, and equity. It is impossible to seriously study the nature of work without discussing these topics. By placing the universal experience of work in a broad spatial and temporal context students will discover an enhanced analytical ability to critically understand their own experiences of work and those of others.

ANTH 269  (F)  Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience  (DPE) (WS)

Cross-listings: REL 269  STS 269  ASIA 269  ANTH 269

Secondary Cross-listing
This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively--be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion
Prerequisites: A prior class or some experience with meditation is recommended
Enrollment Limit: 10
Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors
Expected Class Size: 10
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

ANTH 305  (S)  The Gay Menagerie: Gay Male Subcultures  (DPE)

Cross-listings: WGSS 305  ANTH 305 AMST 305 THEA 304

Secondary Cross-listing
Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories),
and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of “fabulousness and faggotry,” the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating “preferences,” genealogies of BDSM and leather culture, sexual health and discourses of “risk,” the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (D2) ANTH 305 (D2) AMST 305 (D2) THEA 304 (D1)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

ANTH 337 (F) Race, Sex & Gender in Brazil (DPE)

Cross-listings: ANTH 337  WGSS 337

Secondary Cross-listing

The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: Students must also commit to registering for a winter study travel course with a trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

Requirements/Evaluation: research paper and its various components, participation

Prerequisites: none

Enrollment Limit: 7

Enrollment Preferences: students are required to attend an info session and submit an application that includes a statement of interest, finalists will need to complete an interview

Expected Class Size: 7

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: The cost of the winter study travel portion is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student.
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 337 (D2) WGSS 337 (D2)

Difference, Power, and Equity Notes: This is a class about social justice movements and racial/gender/sexual diversity. It includes experiential learning devoted to these issues and engages questions related to the origins of inequality and prejudice in Brazil.

ANTH 350  (F) Queer Tongues & Lavender Linguistics  (DPE)

Cross-listings: ANTH 350 AMST 351 WGSS 350

Secondary Cross-listing

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called "gay voice," the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairyttales and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

Prerequisites: None; prior coursework in WGSS may be helpful, but is not required

Enrollment Limit: 15

Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 350 (D2) AMST 351 (D2) WGSS 350 (D2)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

ANTH 371  (F) Medicine and Campus Health in Disruptive Times  (DPE) (WS)

Cross-listings: STS 370 WGSS 371 ANTH 371

Primary Cross-listing

This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques...
such as observant participation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.

Requirements/Evaluation: Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.

Prerequisites: A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended

Enrollment Limit: 20

Enrollment Preferences: Majors in Anthropology, Sociology, Women’s, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

Expected Class Size: 20

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

Writing Skills Notes: This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

Difference, Power, and Equity Notes: This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

ARAB 201  (F) Intermediate Arabic I  (DPE) (WS)
This course will build on the students' acquisitions in Arabic 102 to consolidate their learning of the Modern Standard Arabic and one variety of spoken Arabic. In addition to expanding students' vocabulary and enhancing their communication skills, the course will deepen their knowledge and use of grammar in both speaking and writing. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing cultural appreciation of Arabic-speaking countries.

Requirements/Evaluation: quizzes, tests, homework, and active class participation

Prerequisites: ARAB 102 or placement test

Enrollment Limit: 12

Enrollment Preferences: If the course is overenrolled preference will be given to those who intend to major or do a certificate in Arabic.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: This course involves a great deal of writing, ranging from vocabulary and grammar-focused exercises to written assignments about a variety of topics. Students will receive extensive and timely feedback on this written work.

Difference, Power, and Equity Notes: Any language is the locus of issues of difference, power, and equity. Students will learn about gender and pronouns. They will wonder why Arabic does not have a gender neutral pronoun. Students will understand how Arabic acts as a dominant language in places minority languages in the Middle East and North Africa. Students will emerge from the course with a critical understanding of Arabic language's
ARAB 242  (S) Women, Gender, and Sexuality in Islam  (DPE)

Cross-listings: Rel 242  WGSS 242  ARAB 242

Secondary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

Spring 2022

SEM Section: 01  TR 8:30 am - 9:45 am  Saadia  Yacoob

ARAB 302  (S) Advanced Arabic 2  (DPE) (WS)

A continuation of Advanced Arabic 1, ARAB 302 aims to reinforce students' listening, reading, writing, and speaking skills in Arabic through a deeper engagement with authentic materials in Modern Standard Arabic. Built around a plethora of texts and audiovisual materials, the course seeks to assist students to develop their language and critical thinking skills in Arabic. Situated at the intersection of language learning and content teaching, this course will prepare students for more scholarly engagement with and in MSA in the fourth year. Like ARAB 301, the course will be conducted entirely in Arabic.

Class Format: course offered remotely

Requirements/Evaluation: quizzes, exams, presentations, papers, midterm examinations, and projects

Prerequisites: ARAB 301 or equivalent

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies, or students who completed ARAB 301

Expected Class Size: 8
Writing Skills Notes: In addition to the weekly writing assignments of 400-word essays, students will produce four portfolios that will involve a careful process of revisions. Each portfolio will include a series of critical reflections on graphic novels and visual storytelling in Arabic. The portfolio will be based on rigorous research in Arabic recourses, summary and essays that can range to 800 words.

Difference, Power, and Equity Notes: As a content course, ARAB 302 will focus on graphic novels, graffiti and caricature in contemporary Arab visual culture. Most of the texts assigned will address the particularity of political language involved in this form and its popularity among Arab youth (and adults) as a cultural expression of dissent. The selected texts will also expose students to stories about class struggle, gender inequality, the social struggles of immigrants and refugees.

ARAB 303 (S) Food in the Middle East: A History (DPE)
Cross-listings: ARAB 303 HIST 303
Secondary Cross-listing
In this course we examine the rich culinary history of the Middle East first among the three major religions in the region (Judaism, Christianity, and Islam), then during the time of major Islamic Empires such as the Abbasids and Ottomans, and finally in the modern period. Using an array of primary and secondary sources, we explore the social, religious, literary, and economic place of food. We will study the consumption of an attitudes toward specific foodstuffs, gauging the medicinal and culinary value of spices, the historical taboos against drinking coffee and alcohol, and the dispute over various dishes within modern nationalist constructions. We will also investigate how Middle Eastern peoples from different ethnic, geographic, and religious backgrounds have historically used food to express their distinct cultural, national, and gendered identities.
Requirements/Evaluation: attendance, participation, map exercise, leading discussion, 3 short essays, final paper/research project
Prerequisites: none
Enrollment Limit: 20
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 303 (D2) HIST 303 (D2)
Difference, Power, and Equity Notes: This course explores a variety of themes within Middle Eastern food history and their implications to different religious communities, genders, and/or socio-economic groups, across a large swath of time. Students will be asked to explore these topics in class discussions and writing assignments, using multiple comparative perspectives.

ARAB 340 (F) Arab Women Memoirs: Writing Feminist History (DPE) (WS)
In this seminar we review selected autobiographical writings by Arab women writers from the wave of independence in the 20th century to the contemporary Arab uprisings, passing through all the transformations that globalization and the technosphere have instigated. We will examine the role that first-voice narrative plays in shaping literature, history and thought, while providing a space to reclaim cultural, social and political agency. Focusing on the different articulations of self-representation, our discussion will address how these women reflect on the shifting discourses of identities, gender, nationalism, religion, feminism, sexuality, politics, borders and their histories. Questions we will address include: How did these memoirs contribute to the development of Arab feminist consciousness? How did these women writers carve a literary space for feminist memory in modern Arabic literature? In addition to the memoirs, we will look at women's blogs and watch films that focus on first-person narrative to discuss
related topics, such as, visual testimonies, virtual political participation and feminist resistance in the technosphere.

Requirements/Evaluation: Students will write the following: three response papers (2-3 pages), at least 6 journals entries (300 words per entry) and a final analytical research essay (7-10 pages). They will have a final performance project.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: In addition to writing several short papers, a final research paper, a reflection on their final performance project, students will write six journals. The combination of research writing, personal reflection echoes the creative non-fiction genre of the course. It also provides students with the opportunity to reflect on forms of history/memory writing.

Difference, Power, and Equity Notes: Gender inequality, sexism, and the intersection of colonialism, nationalism and capitalism are the heart of this course. The memoirs of Arab women writers from the late 19th century to the present continue depict the history of women's movement and the struggle for women's rights in the Arab-speaking world while addressing the different hierarchies of power and domination that regulate them to second class citizens. Students will learn DPE vocabulary and critical terminology.

Fall 2021

SEM Section: 01 MR 1:10 pm - 2:25 pm Amal Eqeiq

ARAB 370 (S) Archives of Global Solidarity: Records of Collective Memory of Emancipation (DPE) (WS)

Departing from the Arabic notions of takatul and taddamun as interlinked expressions of social and political solidarity, this course seeks to investigate the textual and visual cultural production of solidarity in the Arabic-speaking world. While both terms have informed the shaping of modern Arab politics in the mid 20th century--from the birth of the socialist state to the rise of pan-Arabism--their instrumentalization as key principles of internationalism, Third Worldism, trans-nationalism, and global camaraderie since the 1990s is parallel to the emergence of social movements and popular resistance across the Middle East, North Africa and beyond. What is the meaning of solidarity and how it mobilized collective emancipation is the guiding question of this course. To interrogate this question we will read novels, poems, memoirs, labor unions and feminist manifestos, and essays that feature multidirectional solidarity and alliance building across borders of East-East and South-South. We will also examine visual and digital archives that documents particular historical moments that marked a turning point of global solidarity, such as the Spanish Civil War, the Cuban Revolution, the Algerian War, the Prague Spring, the Palestinian Intifada, the Zapatista Uprising, and most recently, the Arab Uprisings. As we approach these historical moments through a variety of texts and genres, we will identify encounters between activists and writers who established cross-regional movements and the cultural exchange between artistic collaborations.

Requirements/Evaluation: Students will write five responses to partner's papers (2 pages long); two 5-7 pages paper discussing aspects of the readings; one 10-minutes oral presentation of a reflection on digital solidarity, and a final poster project on archiving global solidarity.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: This tutorial will be aimed at first year and second year students interested in majoring in Arabic Studies, and/or concentrating in Comparative Literature and Global Studies.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will engage a variety of writing forms, including weekly response papers to their tutorial partner, a research final paper, an outline for an oral presentation, a reflection on digital media and a design of a poster. Throughout this process, they will receive oral and written feedback and work with revisions. The interdisciplinary material that will be covered in the tutorial will also require the production of distinct formats of writings and research skills.

Difference, Power, and Equity Notes: South-South and East-East encounters during the 1960s in the writings of contemporary Arab writers and activists resisting dictatorship and police states is the core of this tutorial. Students will gain a deeper understanding of DPE through a close
examination of the triangulation of colonial boundaries, postcolonial states, and imperialist domination that shape the context of global solidarity in the Arab world and beyond.

Spring 2022
TUT Section: T1  TBA  Amal Eqeiq

**ARAB 401 (F) Topics in Advanced Arabic: Contemporary Arab Cinema (DPE) (WS)**

The Arab world is a fascinating region with rich traditions and vibrant societies. Through an exploration of contemporary Arab cinema, this course will introduce you to issues in modern Arab societies that represent the diversity of the region as well as the shared concerns and challenges. We will analyze select movies and texts, exploring how Arab filmmakers represent social, political, and economic change and realities in their societies. Some topics include nationalism and national identity, gender identities, civil wars, religion, social justice, and the recent revolts. The course will be conducted in Arabic, and we will employ linguistic and paralinguistic analyses of the movies as a means to explore modern Arab thought and cultures.

**Class Format:** The course will be offered remotely (Final course format to be determined closer to the semester)

**Requirements/Evaluation:** class participation, daily writing and reflections, quizzes, blogs, leading a movie discussion, and a final project.

**Prerequisites:** ARAB 302 or equivalent.

**Enrollment Limit:** 19

**Enrollment Preferences:** if the course is overenrolled, preference will be given to Arabic majors.

**Expected Class Size:** 5-7

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will engage in daily writing and reflections involving prose responses to discussion prompts, movies, YouTube videos, articles, and quiz prompts. The students will also write blogs, a minimum of one speech, and a 5-7 pp. final research paper. The instructor will give daily feedback on students’ writing as well as training in writing skills to advance their writing abilities.

**Difference, Power, and Equity Notes:** The students will engage in an exploration of social, political, and economic realities in Arab societies. They will examine similarities and differences across a variety of contexts involving differential power dynamics, biases, and gender roles. They will reflect on issues of power based on internal and external factors in these societies as positioned in a region torn by political, social, and religious conflicts.

**ARTH 103 (S) East Asian Art (DPE)**

**Cross-listings:** ASIA 103  ARTH 103

**Primary Cross-listing**

This course is an introduction to the history of East Asian art from prehistory to the present with particular emphasis on China, Korea, and Japan. Through thematic units, we look at artworks in their original contexts and consider how cross-cultural exchanges stimulated new interpretations across time and space. We examine a broad range of objects including ritual bronze vessels, Buddhist temples, landscape paintings, woodblock prints, and installations. We also discuss these artworks in relation to other forms of creative expression such as ritual practice, performance, and literature. How is East Asia defined geographically and culturally? How did the exchange of ideas, trade, and travel impact the formation of East Asian art? How do artworks and artifacts help us understand East Asia’s past? These fundamental questions guide our discussion. Through this course, you will learn to think critically about shared and diverse human experiences across cultures and historical periods. We will also discuss the historiography of East Asian art and analyze why certain types of objects were historically underrepresented in museum spaces and academic scholarship. Artworks from the Williams College Museum of Art and Special Collections also form an integral part of the course.

**Requirements/Evaluation:** attendance, class participation, worksheets, visual analysis paper (2-3 pages in length), midterm and non-cumulative final exam, virtual exhibition project and presentation

**Prerequisites:** none
**Enrollment Limit:** 30

**Enrollment Preferences:** Open to all students regardless of major

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ASIA 103 (D1) ARTH 103 (D1)

**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity requirement by investigating the ways that migration and cross-cultural exchange shaped artistic developments in East Asia. Students will reflect on the cultural production of diverse peoples and traditions within this geographical region and confront the ways in which historical legacies of imperialism and colonialism continue to shape international relations.

**Attributes:** ARTH pre-1800 Courses  GBST East Asian Studies Electives

**ARTh 106 (F) An Invitation to World Architecture (DPE)**

What is architecture? Built form? Object? Space? How do we think about architecture as we move around, within, and through it? What can architecture tell us not only about material, design, and engineering, but also about the individuals, groups, and communities who make it? These inquiries provide the starting points for thinking about what architecture means as concept, space, and practice, and how it affects the ways in which human beings experience the world. As the primary mode through which we organize our lived reality, architecture not only channels human behavior into specific repertoires of action and reaction but also symbolizes beliefs, value systems, and ideas about the self, gender, nation, race/ethnicity, community, life, death, and the transcendent. Such themes, thus, constitute the critical lenses that students will use over the course of the semester to unpack how structural form has and continues to define the human condition in the broadest sense. Drawing from a variety of texts and examples that emphasize the diversity and complexity of architectonic traditions around the world, this course will analyze how individuals have employed architectural strategies to solve the problems of living within diverse contexts and how such spaces not only provide meaning in everyday life but also actively and dynamically order the world as space, object, environment, text, process, and symbol.

**Class Format:** This course has 2 components: lectures and conferences / discussion sections. Students will be expected to attend two lectures and one conference / discussion section weekly. Students will sign up separately for the lecture component and the conference / discussion section component.

**Requirements/Evaluation:** Written evaluative measures: 8 object lab assignments, 6 written responses to class prompts, 6 in-class quizzes, and a virtual student exhibition. Other evaluative measures: conference / discussion section participation, attendance.

**Prerequisites:** none

**Enrollment Limit:** 90

**Enrollment Preferences:** First preference: senior art majors who need a 100-level course to fulfill their major requirements. Second preference: first- and second- year undeclared students.

**Expected Class Size:** 90

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** This course fulfills DPE requirements in two ways. First, it unsettles established presuppositions, biases, and predispositions that have positioned the "West" as "best" in canons of architectural history. Secondly, it explores how architecture - past and present - communicates, supports, and/or resists hierarchies of power and socio-political influence in society by acting as modes of propaganda, tools of imperialism, sites of resistance, and/or spaces of affirmation.

**CON Section:** 07  F 2:35 pm - 3:50 pm
ARTh 210 (F) Intro to Latin American and Latinx Art: Contradictions & Continuities, Postcolonial to the Present (DPE)

This course introduces students to the breadth and richness of the visual arts in Latin American and U.S. Latinx art. The course begins in the late 19th and early 20th centuries, when artists and writers first began formulating the notion of an art "native" to Latin America, and continues through the ever-expanding cultural expressions developed throughout the 20th and 21st centuries. Through a contextual approach, we will pay particular attention to Latin American artists' shifting relationships to race, class, and gender issues, their affiliations with political and revolutionary ideals, and their critical stance vis-à-vis the European avant-gardes. Similarly, we will analyze the emergence and development of Latinx artistic practices in the postwar U.S., tracing these artists' own exploration of race, class, and gender dynamics. This class introduces Latin American and Latinx artistic practices and scholarship to enable students to develop a critical understanding of the historical specificity of diverse movements, their relation to canonical definitions of modern and contemporary art, and their relevance to issues of colonialism, nationalism, revolutionary politics, and globalization. We will consider a vast array of genres--from painting and sculpture to printmaking, photography, conceptual, installation, and performance art--and will draw from artist statements, manifestos, and secondary interpretive texts to consider both the impetus behind these dynamic artworks and their lasting legacies.

Requirements/Evaluation: midterm exam and non-cumulative final exam, weekly short reading responses, attendance, and active participation

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: if overenrolled, waitlisted students will be selected on a lottery

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course fulfills DPE requirements through historical, visual, and thematic analyses that explore the cultural biases and geopolitical forces that have restricted the exposure of Latin American and Latinx art in the canon of Western art history. The course also centers on contextualizing Latin American and Latinx artistic practices and analyzing them in relation to race, gender, and class dynamics, and to issues of colonialism, nationalism, revolutionary politics, and globalization.

Fall 2021

ARTh 246 (F) Museum Culture: Do you see what I see?! (DPE)

We are all citizens of global visual culture, subject to a daily assault of images, artifacts, information and experiences. What we see and how we make meaning from it all depends on so many variables--who we are, where we are, and what we choose to look at. A critical question is how "art" figures and what agency it wields in millennial settings. This class is an opportunity to explore these issues with particular reference to museums and the objects enshrined therein. Digitized collections enable us to wander freely in space and time, following ideas/images through history even as we might also engage the 'real thing' in person. Our approach will be comparative and interrogative; case studies might range from an oil painting to a wooden sculpture, a coin to an illuminated manuscript, a photograph to a video. Along the way, we will consider what "art" really is and how different visual cultures might be presented or distorted in museum exhibitions and public spaces. Particular attention will be given to traditions or people that have been erased or misunderstood over time as art history has evolved as a discipline. Students will look, sketch, photograph and write throughout the semester, thereby exploring the entire spectrum of visuality from production to reception.

Requirements/Evaluation: Mandatory class attendance and substantive participation, weekly Glow Posts, curatorial term project.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Sophomores and majors.
Expected Class Size: 12
Grading: yes pass/fail option, no fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: We will cover museums in diverse cultures and explore the porous boundaries between the "Orient", Europe and America. How art manifests inequalities of power and how museums privilege or erase particular groups of people will be addressed. Because collecting art entails money and privilege, understanding art history entails exploring social and cultural hierarchies.

ARTH 247 (S) Art and Representation in the Wake of Empire, Europe After 1945 (DPE)

Foregrounding the exhibition as a critical form of aesthetic and political contestation, this course examines the transformation of colonial projects of early modernity to the post-World War II period. It will situate European visual culture within systems of transnational exchange and the art and cultures of other continents, while reflecting upon its economic and political impacts within its own newly reconfigured borders. National identity will be set in relief against a burgeoning cosmopolitanism, migration shifts, and increased tourism worldwide. Work in a variety of media will illustrate the multifaceted nature of these interactions and their engagement with materials, persons, and things in the commodification and use of natural resources. Of the themes addressed in this course--postcolony, anticapitalism, imperialism, neocolonialism, and existentialism--particular attention will be focused upon the history of independence movements in the former European colonies and their reflection in works of art in Europe and abroad. We will consider the role major international and perennial art exhibitions--such as Documenta in Germany and the Venice Biennale in Italy--have played in the reconceptualization of the field of contemporary art, as well as other institutions of art confronting new waves of fascism in Europe. With a transhistorical approach, we will assess the work of international curators and cultural theorists who have remapped the relationship between art and politics, and the Global North and South.

Requirements/Evaluation: Weekly response papers (1-2 pages); participation in class; one 12-15 page paper
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Students planning to major in Art History, Art History and Studio Art majors, then any interested student
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: The course examines difference, power, and equity in artistic practice as a means of rethinking European identity within a globalized world. Migration, diaspora, and citizenship--and their differentials of power and movement--are central to course assignments and discussions. It focuses on the lasting impacts of colonialism beyond European borders as a way of understanding the logic of cultural hegemony.

ARTH 311 (S) Women and Art in East Asia (DPE)

Cross-listings: ARTH 311 ASIA 311

Primary Cross-listing

For over a thousand years, women in East Asia profoundly influenced the development of the visual arts, yet their formidable presence remains largely hidden. This seminar explores the critical roles women played as patrons, artists, and collectors of the arts in China, Korea, and Japan. We cover historical periods from the 10th century to the present day and discuss both traditional and nontraditional media including painting, sculpture, photography, and embroidery. Topics include didactic paintings for women in the Song court, calligraphy and painting as gendered modes of expression in Heian period Japan, the revival of Buddhist arts in Korea under the patronage of aristocratic women, and artworks by modern and...
contemporary artists that contest dominant representations of gender and sexuality. The course does not simply focus on artistic production, but also contextualizes these topics in light of emergent theorizations and readings on femininity, feminism, and the sexual politics of representation. Along with a final research paper, students will generate a substantial Wikipedia entry on a certain aspect of the course to promote the coverage of women and the arts online. No prior knowledge of Asian art history is required or assumed.

**Requirements/Evaluation:** attendance, class participation and discussion, 5 object or reading response papers (2-3 pages), Wikipedia page editing project and presentation (5-7 minutes long), and 8-10-page final research paper (written in stages over the semester including a 10-15-minute presentation)

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Art History, Asian Studies, Chinese, or Japanese majors, but open to all

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 311 (D1) ASIA 311 (D1)

**Difference, Power, and Equity Notes:** This course fulfills the Difference, Power, and Equity by exploring the construction of gender in relation to power. We discuss how Daoist, Confucian, Shinto, and Buddhist ideas historically shaped attitudes toward women and address the ways in which colonialism and Orientalism shaped understandings of gender differences and roles in East Asia. Students will be introduced to theoretical texts of feminism and postcolonialism and learn to identify key issues to the feminist art historical project.

**ARTH 315 (S) Underground Berlin: Art, Performance, and Film, 1980s to Present** (DPE)

**Cross-listings:** GERM 314 WGSS 344 ARTH 315

**Primary Cross-listing**

Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin's present, its contradictory mix of new and old, "deep history" and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government's plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city's social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape—from art museums and theater houses to occupied buildings, from independent publishing imprints and collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.

**Requirements/Evaluation:** Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Art History majors, German majors, then any interested student

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GERM 314 (D1) WGSS 344 (D2) ARTH 315 (D1)
Difference, Power, and Equity Notes: Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

ARTH 561  (F)  Land, Memory, Materiality: Histories and Futures of Indigenous North American Arts  (DPE)

Cross-listings: ARTH 561  HIST 454

Primary Cross-listing

This course engages Indigenous North American traditions of creative expression, remembrance, and representation in historical, contemporary, and future-facing ways. Drawing upon diverse Native American and First Nations theories and practices, it ranges widely across the continent to consider Indigenous arts and material culture within specific cultural, socioeconomic, and political contexts. Part of the course is grounded in the Native Northeast, including the Indigenous homelands of the Stockbridge-Munsee Mohican Community in which the Graduate Art Program and Williams College are situated. Other units will focus on continuities and transformations in artistic and maker-traditions within and across specific Indigenous nations and communities. The course is especially interested in connections between past and present, and the innovative ways Indigenous artists, makers, and knowledge-keepers have reckoned with what has come before, while also mapping meaningful future pathways. Topics will include repatriation and community-led restorative efforts to bring home ancestors and important heritage items "collected" over the centuries following 1492; concepts and practices of cultural, intellectual, visual, and political sovereignty, as well as of decolonizing museums; the complex dynamics of collaboration; and Indigenous challenges to Eurocentric and settler colonial approaches to preservation, interpretation, and classification. Class members will develop familiarity with methods and ethics grounded in Native American and Indigenous Studies, and with new scholarship by leading and emerging critics and creators.

Class Format: The course will feature seminar discussions as well as local field trips to museums, libraries, and archives with pertinent collections.

Requirements/Evaluation: Engaged participation in discussions; in-class presentations; short writing assignments in preparation for final project; final original research and interpretive project

Prerequisites: For undergraduates, at least two prior courses in or related to History, Art History, Native American and Indigenous Studies, and/or Museum Studies.

Enrollment Limit: 16

Enrollment Preferences: Priority for Graduate Art students. Four seats will be reserved for undergraduates, with preference to junior and senior majors in Art History and History. Undergraduates should email a brief statement of interest to cd10@williams.edu.

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTH 561 (D1)  HIST 454 (D2)

Difference, Power, and Equity Notes: The course centers theories, experiences, and expressions from Native American/Indigenous communities, scholars, and artists/makers, while engaging foundational and new work in Native American and Indigenous Studies (NAIS). The course also provides students with critical tools for reckoning with settler colonialism and its historical as well as enduring impacts in Indigenous contexts; and with race, ethnicity, sovereignty, and tribal nationhood as key interpretive frames.

ASIA 103  (S)  East Asian Art  (DPE)

Cross-listings: ASIA 103  ARTH 103

Secondary Cross-listing
This course is an introduction to the history of East Asian art from prehistory to the present with particular emphasis on China, Korea, and Japan. Through thematic units, we look at artworks in their original contexts and consider how cross-cultural exchanges stimulated new interpretations across time and space. We examine a broad range of objects including ritual bronze vessels, Buddhist temples, landscape paintings, woodblock prints, and installations. We also discuss these artworks in relation to other forms of creative expression such as ritual practice, performance, and literature. How is East Asia defined geographically and culturally? How did the exchange of ideas, trade, and travel impact the formation of East Asian art? How do artworks and artifacts help us understand East Asia's past? These fundamental questions guide our discussion. Through this course, you will learn to think critically about shared and diverse human experiences across cultures and historical periods. We will also discuss the historiography of East Asian art and analyze why certain types of objects were historically underrepresented in museum spaces and academic scholarship. Artworks from the Williams College Museum of Art and Special Collections also form an integral part of the course.

Requirements/Evaluation: attendance, class participation, worksheets, visual analysis paper (2-3 pages in length), midterm and non-cumulative final exam, virtual exhibition project and presentation

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Open to all students regardless of major

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 103 (D1) ARTH 103 (D1)

Difference, Power, and Equity Notes: This course fulfills the Difference, Power, and Equity requirement by investigating the ways that migration and cross-cultural exchange shaped artistic developments in East Asia. Students will reflect on the cultural production of diverse peoples and traditions within this geographical region and confront the ways in which historical legacies of imperialism and colonialism continue to shape international relations.

ASIA 228  (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films  (DPE) (WS)

Cross-listings: ASIA 228  COMP 297  CHIN 428

Secondary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hoodlun" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

ASIA 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Secondary Cross-listing

This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively—be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 352 (S) Global Health in the Transpacific  (DPE)  
Cross-listings: AMST 352 STS 311 ASIA 352  
Secondary Cross-listing  
East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia’s claim of “viral sovereignty” to protect their biological specimens from Western intellectual property regimes and Hmong refugees’ resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.  
Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper  
Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.  
Enrollment Limit: 12  
Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.  
Expected Class Size: 12  
Grading: no pass/fail option, no fifth course option  
Distributions: (D2) (DPE)  
This course is cross-listed and the prefixes carry the following divisional credit:

BIOL 134 (F) The Tropics: Biology and Social Issues (DPE)
Cross-listings: BIOL 134 ENVI 134

Primary Cross-listing
Biology and Social Issues of the Tropics explores the biological dimensions of social issues in tropical societies, and focuses specifically on the peoples of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to human ecology and the tropical environment. Each section provides the science behind the issues and ends with possible solutions. The course highlights differences between the tropics and areas at higher latitudes. It begins with a survey of the tropical environment, including a global climate model, variation in tropical climates and the amazing diversity of tropical biomes. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria, AIDS and Covid-19 (SARS-CoV-2). The final part of the course covers the place of human societies in local and global ecosystems including the challenges of tropical food production, the interaction of humans with their supporting ecological environment and climate change. This course fulfills the DPE requirement. Through lectures, debates and readings, students confront social issues and policies from the perspective of biologists. This builds a framework for lifelong exploration of human diversity in terms of difference, power and equity.

Class Format: Debate
Requirements/Evaluation: two hour exams, a short paper, debate presentation, and a final exam
Prerequisites: none
Enrollment Limit: 60
Enrollment Preferences: Preference will be given to Environmental Studies majors/concentrators, students in need of a Division III or DPE requirement, and then Seniors, Juniors, Sophomores, and First Year students.
Expected Class Size: 60
Grading: no pass/fail option, no fifth course option
Unit Notes: Does not count for credit in the Biology major.
Distributions: (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
BIOL 134 (D3) ENVI 134 (D3)

Difference, Power, and Equity Notes: This course highlights differences between the tropics and higher latitudes. For each section we focus on difference--different natural habitats and biodiversity, different patterns of population growth, different human disease profiles, different types of agriculture and different contributions to and impacts of climate change. For each section we highlight differences in power and the inequities of resource distribution. We then debate potential solutions to ameliorate these inequities.

CHIN 253 (S) "Illness" in Modern and Contemporary Chinese Literature and Culture (DPE)

Cross-listings: COMP 254  CHIN 253  WGSS 255

Primary Cross-listing

From early modern anxieties about China's status as the "sick man of Asia" to contemporary concerns regarding the prospect of transnational pandemics, "illnesses" and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes "illness"—a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of "illness"; the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers' analytical essays and fictional writings in the 20th century; we examine how metaphorical "illness" such as infectious cannibalism and fin-de-siècle "viruses," are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we will focus on the interplay between literature canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

Class Format: All regular course meetings will be conducted in person.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Publishing GLOW Discussion posts based on reading (Graded as Complete or Incomplete); 3) three short papers (3-5 pages); 4) the final project (including an abstract, a presentation, and a paper or other form of project).

Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 20

Enrollment Preferences: Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Comp majors; Asian Studies Concentration; WSGG majors; and then to first-year students

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 254 (D1) CHIN 253 (D1) WGSS 255 (D2)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading "illness" in 20th and 21st century China. We will exam how "illness" is sometimes gendered and politicized; how "illness", in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

CHIN 428 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228  COMP 297  CHIN 428

Primary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective
amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant-readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner’s paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

COMP 107 (S) Advanced French: Danger and Desire in French Film and Fiction (DPE)

Cross-listings: RLFR 106 COMP 107

Secondary Cross-listing

This is an advanced course in French language designed to help you improve your speaking, comprehension, reading, and writing, through the dynamic study of short literary texts and films focusing on danger and desire in nineteenth-, twentieth-, and twenty-first-century France. Through active discussion and debate, textual and cinematic analysis, grammatical review, and careful writing and revision, you will improve your command of spoken and written French, strengthen your ability to express complex ideas, expand your vocabulary, and deepen your understanding of French fiction, film, and culture. This is an ideal course to prepare for study abroad or for more advanced coursework in French literature and cinema. As a focus for improving your French, we will examine a broad range of texts and films on danger and desire in France from 1820 to 2020, with an emphasis on passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

Requirements/Evaluation: active class participation, grammar exercises, two short papers, midterm, and final paper

Prerequisites: Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

Enrollment Limit: 16

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 16
Difference, Power, and Equity Notes: This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies, men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

COMP 166 (F) Being Muslim, Being American: American Muslim Literature in the 21st century (DPE)

Cross-listings: REL 166 COMP 166 AMST 166 ENGL 268

Secondary Cross-listing
Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

COMP 230 (S) The Renaissance in England and the European Continent: Self and World (DPE) (WS)

Cross-listings: ENGL 228 COMP 230

Secondary Cross-listing
At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into
contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions
Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor
Enrollment Limit: 19
Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 228 (D1) COMP 230 (D1)
Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
Difference, Power, and Equity Notes: This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

COMP 242 (S) Americans Abroad (DPE)
Cross-listings: COMP 242 ENGL 250 AMST 242
Primary Cross-listing
This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture—American or foreign.
Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student’s own experiences
Prerequisites: any literature course at Williams or permission of instructor
Enrollment Limit: 18
**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**COMP 273 (S) Detectives Without Borders (DPE) (WS)**

**Cross-listings:** COMP 273 ENGL 273 GBST 273

**Primary Cross-listing**

Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

**Requirements/Evaluation:** short papers, one research paper, oral presentations, midterm, class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** COMP core course

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)

**Writing Skills Notes:** This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students’ ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

**Difference, Power, and Equity Notes:** A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

**COMP 292 (F) War and Resistance: Two Centuries of War Literature in France (1800-2015) (DPE)**

**Cross-listings:** RLFR 202 COMP 292 WGSS 201

**Secondary Cross-listing**

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying “Let us dishonor
war!” From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the “War on Terror.” Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)

Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film. Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

COMP 297 (S) Present Pasts: The Politics of Memory in Contemporary Chinese Literatures and Films (DPE) (WS)

Cross-listings: ASIA 228 COMP 297 CHIN 428

Secondary Cross-listing

What happens when memories, already slippery, are further massaged by literary and cinematic narrative strategies? How is the historical "pasts" remembered, forgotten, and subverted in a literary "presence"? This tutorial explores the politics of memory in contemporary literatures and films from the People's Republic of China (post-socialist era, 1978), Taiwan (post-martial law, 1987), and Hong Kong (postcolonial era, 1997). We will look at how literary and cinematic works in each of these "post" societies represent state-sponsored narratives of remembrance, dissidents' collective amnesia, and at the popular level, a playful yet cynical flirtation with politics. With close- and distant- readings of textualized and visualized memories, we will examine themes of nation and locality, public and private, mesology and mythology, amnesia and nostalgia, and diaspora and settlement in the PRC, Taiwan, and Hong Kong from the late 1980s until to today. Course readings include "root-seeking", "new realist", "avant-garde" and "hooligan" novels, examples from the Taiwanese small theater movement, and the transnational cinemas made by the fifth, sixth, and second new wave filmmakers from these three "post" societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or COMP and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: attendance and participation, five 5-page papers, five peer-review and critique papers, revisions on selected papers.

Prerequisites: None for students taking the course under ASST and COMP 297; CHIN 402 or permission of the instructor for students taking CHIN 428

Enrollment Limit: 10

Enrollment Preferences: current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; COMP majors; Asian Studies Concentration

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ASIA 228 (D1) COMP 297 (D1) CHIN 428 (D1)

Writing Skills Notes: Students will write a 5-page paper every other week for a total of five papers. On weeks when they are not writing papers, they are expected to critique their tutorial partner's paper as peer reviewers. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. Students are also required to revise key paragraphs, sections, and papers throughout the semester.

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze and critique the following entangled modernist dualisms: present and pasts; memory and representations; diaspora and settlement; transnationalism and localism. By discussing texts produced from the PRC, Hong Kong, Taiwan, and other diaspora areas in these "post" societies, this course asks students to explore how literary and cinematic narratives invoke (and erase) differences, and challenge (and consolidate) borders.

COMP 303  (F)  Embodied Archives: Global Theatre & Performance Histories  (DPE)

Cross-listings: COMP 303  THEA 301

Secondary Cross-listing

What is the past good for? Why study theatre history now? What do the archival performance traditions, practices, and sources of yesterday have, if anything, to offer the theatre artists of today and tomorrow? Digging into these questions, this combined studio/seminar course will introduce students to major global theatre and performance histories by considering how they've been taken up--adapted, appropriated, recycled, critiqued, and re-appropriated--by artists working in the field now. Why does dramatist Luis Alfaro return to Sophocles' Electra to tell a story about the experiences of Chicano communities in L.A.? What does the playwright Branden Jacobs-Jenkins find compelling about the allegorical performances of English Medieval theatre? What role does traditional Korean dance ritual play in the experimental theatre of artist Young Jean Lee? How have collaborators at New York's Public Theater sought to re-vitalize Shakespeare's works through community-driven practices? Through comparative pairings such as these, we will study and draw inspiration from the ways contemporary dramatists, makers, directors, and performers have approached the theatrical forms and performance practices of the past in the effort to create new perspectives on the present. While attending to theatre's formal and aesthetic aspects, we will at the same time focus on the relationship of performance to the enduring legacies of empire, state power, colonialism, and private capital in which they are historically embedded and by which they are shaped. If and when possible, we will encounter archival sources housed in College Archives and WCMA. As a final creative project, students will adapt, critique, or re-appropriate a source material of their own choosing. This course is required for Theatre majors and is a prerequisite for THEA 401.

Class Format: This class is a combined studio/seminar. Students will be required to present and share their creative responses to the material studied in the course.

Requirements/Evaluation: journal writing and active participation in class; a midterm creative adaptation project and accompanying "research casebook"; participation as discussion leader for one class; and a final creative adaptation or performance project and accompanying "research casebook."

Prerequisites: For Theatre majors: any 100 or 200-level theatre course.

Enrollment Limit: 16

Enrollment Preferences: Theatre majors; Comparative Literature majors

Expected Class Size: 8-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 303 (D1) THEA 301 (D1)

Difference, Power, and Equity Notes: This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the dominant sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in which they historically arise.
COMP 313 (S) Feeling Queer and Asian  (DPE)

Cross-listings:  COMP 313  ASIA 316  WGSS 316

Secondary Cross-listing

This advanced undergraduate seminar focuses on concepts, queries, and methodologies at the intersections of Asian Americanist critique, queer theory, and affect theory. How might we come to understand Asian gender, sexuality, and racialization less through a language of being or meaning, as through feeling? How do Asian/American discourses rely upon languages of gender and sexuality, and how might queerness depend upon Asianness? How might these theories identify, complicate, and call forth more expansive or alternative practices of belonging? The class will read theories including national abjection, racial melancholia, disaffection, queer diaspora, and homonationalism, as well as engage Asian American literatures.

Requirements/Evaluation:  in-class participation, partnered presentation, weekly reading responses (350 words max), short analytical essay (4-5 pages), and creative final project (e.g. poem, epistolary letter, syllabus soundtrack) (5-8 pages)

Prerequisites:  none

Enrollment Limit:  20

Enrollment Preferences:  WGSS majors

Expected Class Size:  15

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 313 (D1) ASIA 316 (D2) WGSS 316 (D2)

Difference, Power, and Equity Notes:  This interdisciplinary seminar centers the interconnected constructions of race, ethnicity, gender, sexuality, and nation as they give shape to Asian American and Asian diasporic sexuality studies.

COMP 336 (S) The Banlieue in Literature, Music, and Film  (DPE) (WS)

Cross-listings:  RLFR 300  COMP 336  AFR 339

Secondary Cross-listing

The banlieue looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, "urban culture"—as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the banlieue in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of banlieues in the French media tell us about the State, French politics, and the state of French politics? What do "banlieue films" and "banlieue lit" tell us about the banlieue? In this course, conducted in French, we will read, watch, and listen to various constructions of the banlieue in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

Requirements/Evaluation:  3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).

Prerequisites:  RLFR 105 and above

Enrollment Limit:  14

Enrollment Preferences:  French majors and certificate students , Africana and Comparative literature students

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option
Primary Cross-listing

All societies have to come up with some way of distributing wealth and income. In turn, individuals and groups comprising these societies grapple with, justify, and at times contest their place in social and economic hierarchy. Complex as they are, such processes are all the more pressing in societies built on the explicit promise of economic equality, as was the case in the USSR and socialist Eastern Europe. Using the combined perspectives offered by economics, history, and sociology, this course will trace the practices and lived realities of social differentiation and income/wealth distribution brought about by the socialist experiment and intensifying after its demise. We will explore the life of class in these supposedly classless societies, and its reconfiguration after 1991, approaching class as, simultaneously, a matter of social classification, consumption differences, cultural identity, economic policy, and political power. We will study how the economic and political developments of late-socialism and the transition period generated class-based differences in all walks of life, and ask what these experiments have to teach us about inequalities and persistent social and economic divisions closer to home.

Requirements/Evaluation: Class participation; small writing assignments and research exercises; and a final research project

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: 1st and 2nd-year students thinking about majoring in Anthropology, Sociology, or Economics

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major. It may be taken for the SOC major.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 107 (D2) SOC 217 (D2)

Difference, Power, and Equity Notes: The subject matter of this course is all about the origins, evolution, current structures, and implications of economic and social differentiation in a region quite apart from the United States. Moreover, by crossing disciplinary lines, we hope it will offer a particularly valuable perspective on such issues. Thus, we felt that it should naturally serve as a DPE course.
the journey. Is rapid economic growth sufficient to generate development, or do governments need to invest proactively in health, education and social protection? Can agriculture support incomes and provide jobs, or is urban industrial development a prerequisite? How do households in developing countries insure themselves against adverse outcomes? Can policies enable entrepreneurship and innovation in such economies? Is it true that corruption is a significant obstacle? Has the climate crisis upended our traditional models to the point where we need to rethink the notion of development? How does the global COVID-19 pandemic threaten the progress developing countries have achieved, and what policy responses will be most effective in addressing the crisis? The class will introduce these and other issues, as analyzed by economists.

**Class Format:** discussion

**Requirements/Evaluation:** short essays/assignments; two individual take-home exams; final group project

**Prerequisites:** one ECON class at Williams or prior course deemed equivalent by the Economics Department

**Enrollment Limit:** 25

**Enrollment Preferences:** first-year and sophomore students

**Expected Class Size:** 25

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 234 (D2) ECON 204 (D2)

**Difference, Power, and Equity Notes:** This course provides a setting for students to learn about the causes and consequences of poverty in developing countries. It requires students to engage with questions of political and economic power, stressing attentiveness to how market relationships may not generate welfare-maximizing opportunities for poor and marginalized populations. Through exercises and a group project, the course builds analytical and empirical skills for diagnosing and addressing constraints on economic development.

**Cross-listings:** GBST 218 ECON 218

**Primary Cross-listing**

Global markets connect strangers: people of different races, religions, and classes. There are huge profits from such economic contact, but there are also risks: of being cheated, deceived, or coerced. This course examines how global markets have evolved over the past five hundred years using insights from the economics of incentives (principal-agent models, contracts, mechanism design). Case studies will cover: the spice trade and conflict in the Indian Ocean (early 16th century), capital markets and fraud in Amsterdam and London (17th and 18th century), the coffee trade and deception in Mocha and Java (18th and 19th), slavery and its abolition in Brazil (20th), colonial control and resistance in Kenya (21st), and the constraints on "fair trade" in Nicaragua and US (present). Required readings for this class will be sixty or more pages per week, and will include historical case studies, excerpts from novels, and reportage.

**Requirements/Evaluation:** Students will be evaluated based on class participation, weekly assignments, a midterm, and a final.

**Prerequisites:** Econ 110

**Enrollment Limit:** 25

**Enrollment Preferences:** If overenrolled, students will be asked to submit a short statement of interest.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 218 (D2) ECON 218 (D2)

**Difference, Power, and Equity Notes:** This course analyzes the evolution of economic inequity. It analyzes how global market opportunities have been shaped by race, religion, wealth, and power.
ENGL 105 (F)(S) American Girlhoods (DPE) (WS)

Cross-listings: AMST 105 WGSS 105 ENGL 105

Primary Cross-listing

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 105 (D2) WGSS 105 (D2) ENGL 105 (D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

Attributes: AMST Arts in Context Electives

ENGL 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: ENGL 113 AMST 113 WGSS 113

Primary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also
help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

**Class Format:** discussion, some lecture, project work in archives and art gallery

**Requirements/Evaluation:** three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first years

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

*This course is cross-listed and the prefixes carry the following divisional credit:*

ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

**ENGL 208  (S) Designer Genes**  (DPE) (WS)

**Cross-listings:** ENGL 208  AMST 206  STS 208  WGSS 208

**Secondary Cross-listing**

In this course, we explore cultural texts that attempt to come to terms with--or exploit--the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book *The Mutant Project*. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary *In the Family,* for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel *Dawn* explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film *Gattaca* shows us a fully realized dystopian society where genetically modified humans are the norm--a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

**Prerequisites:** none
**Enrollment Limit:** 19

**Enrollment Preferences:** Women's, Gender, and Sexuality Studies, American Studies, English majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)--written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

**Difference, Power, and Equity Notes:** This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics’ case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

**ENGL 228 (S) The Renaissance in England and the European Continent: Self and World (DPE) (WS)**

**Cross-listings:** ENGL 228 COMP 230

**Primary Cross-listing**

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

**Requirements/Evaluation:** Five four-page papers, in-class presentation, thoughtful participation in discussions

**Prerequisites:** A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** First- and second-year students, and English majors who have yet to take a Gateway course

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENGL 228 (D1) COMP 230 (D1)

**Writing Skills Notes:** The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for
improvement.

**Difference, Power, and Equity Notes:** This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

**ENGL 231 (F)(S) Literature of the Sea (DPE)**

**Cross-listings:** MAST 231 ENGL 231

**Secondary Cross-listing**

The ocean, and human relationships with it, have been central features of literatures and cultures around the world for more than a thousand years. But since literary study is typically based around authors' homelands, careful examination of the oceanic experience is often pushed to the periphery—an "empty space" to be crossed between nations, a "vast darkness" antithetical to human life, or a mirror for land-borne concerns. Increasingly, however, scholars and readers are centering the sea and stories about it as a means stepping outside human frameworks of space and time, situating the complex emotions and narratives inspired by the ocean into a complex network of geologic history and teeming other-than-human life. This course examines a wide range of texts and perspectives on the ocean and human relationships with it. Doing so will help us consider how literature both plays into and subverts dominant viewpoints of the ocean? How do ocean stories help individuals understand themselves, their communities, and their place in global environments? What can the range of cultural and literary perspectives on our "single, global ocean" reveal about the ways different people are both connected with and profoundly distant from each other? Most importantly, we will practice, as a classroom community, different strategies for carefully reading texts while connecting them to cultural traditions, surrounding environments, and personal experiences.

**Class Format:** weekly roundtable discussions, including coastal and near-shore field trips and multiple field seminars.

**Requirements/Evaluation:** regular papers, class participation, journal-writing, and a final assignment

**Prerequisites:** N/A

**Enrollment Limit:** 25

**Enrollment Preferences:** Williams-Mystic Students only

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

ENGL 250 (S) Americans Abroad  (DPE)

Cross-listings: COMP 242  ENGL 250  AMST 242

Secondary Cross-listing

This course will explore some of the many incarnations of American experiences abroad between the end of the 19th century and the present day. Materials will be drawn from novels, short stories, films, and nonfiction about Americans in Europe in times of war and peace. We will compare and contrast the experiences of novelists, soldiers, students, war correspondents, jazz musicians, and adventurers. What has drawn so many Americans to Europe? What is the difference between a tourist, an expat, and an émigré? What are the profound, and often comic, gaps between the traveler’s expectations and the reality of living in, say, Paris or a rural village in Spain? What are the misadventures and unexpected rewards of living, working, writing, or even falling in love in translation? Authors may include: Edith Wharton, Henry James, Langston Hughes, Martha Gellhorn, Ernest Hemingway, Elaine Dundy, Richard Wright, and Ben Lerner. Additional reading will be drawn from historical and critical works. All readings will be in English. This comparative course is designed to highlight the challenges and benefits of cultural immersion abroad. It will focus on the linguistic, emotional, intellectual, and social adaptation skills that are required to understand others, and oneself, in new contexts. Many of the authors chose, or were forced to, leave oppressive situations in the United States where their futures were limited due to factors related to politics, gender, race or class (and combinations thereof). We will study their dislocation, and freedom, and struggles to reshape their concept of “home” into something that reflected their individual identity, and not one imposed by any national culture—American or foreign.

Requirements/Evaluation: each student will give an in-class presentation and complete 3 writing assignments totaling 20 pages; one of these writing assignments will be a personal travel narrative based on the student's own experiences

Prerequisites: any literature course at Williams or permission of instructor

Enrollment Limit: 18

Expected Class Size: 18

Grading:  no pass/fail option,  no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 242 (D1) ENGL 250 (D1) AMST 242 (D2)

Difference, Power, and Equity Notes: We will read and analyze primary materials and literature that reflect on Americans who chose, or were forced to, reinvent themselves abroad to escape oppressive situations in the United States related to gender, class, race, or political views. The socio-historical context of each writer will be crucial to understanding their situations. Students will write critical papers, and their own narrative in which they reflect on a situation of personal dislocation, either while traveling, or at home.

ENGL 252 (F) Ficciones: A Course on Fiction  (DPE)

Cross-listings:  ENGL 252  LATS 222

Secondary Cross-listing

This course is focused on the art and practice of writing fiction. We will study published fiction by Latina/o, Latin American, Afro-Diasporic, and other writers of the Global South, paying close attention to how each author employs narrative elements—characterization, plotting, structure, dialogue mechanics, setting, tone, theme—as well as the values and visions expressed. Regular assignments and in-class exercises will help students strengthen their own narrative skills.

Requirements/Evaluation: attendance and class participation, writing exercises, 4- to 5-page midterm paper (close-reading a text), 10- to 15-page final paper

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Latina/o Studies concentrators

Expected Class Size: 12

Grading:  yes pass/fail option,  no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 252 (D1) LATS 222 (D2)

Difference, Power, and Equity Notes: Student work will encourage personal and cultural expression, with the opportunity to analyze the shaping of social differences, dynamics of unequal power, and processes of change.

ENGL 268 (F) Being Muslim, Being American: American Muslim Literature in the 21st century (DPE)

Cross-listings: REL 166  COMP 166  AMST 166  ENGL 268

Secondary Cross-listing
Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

ENGL 273 (S) Detectives Without Borders (DPE) (WS)

Cross-listings: COMP 273  ENGL 273  GBST 273

Secondary Cross-listing

Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international
journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature and English majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Unit Notes: COMP core course

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)

Writing Skills Notes: This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students' ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

Difference, Power, and Equity Notes: A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

ENGL 279 (F) Introduction to Latinx Literature: From 'I Am Joaquin' to Borderless-Future Dreams (DPE) (WS)

This course is designed to introduce you to Latinx literary and cultural production from the 1930s through the present. We will read and encounter some of the most urgent and exciting literary-artistic texts produced by Latinxs in the U.S., focusing our attention on the post-war period and the flourishing of the Chicano Movement-related cultural renaissance of the late 1960s and early 70s, along with the Movement's significant aftermaths. This focus highlights the significant contributions Chicanx voices have made to Latinx literary studies and creates space for the incorporation of other Latin American-descended peoples (including Nuyoricans, Cubanos, Central Americans, Afro-Latinxs, and more). In addition to traditional narrative forms, we will also study poetry, films, photography, plays, murals, and performance art. In this way, you will gain a critical awareness of how Latinxs have historically engaged in various modes of artistic experiment to better question some of the twentieth and twenty-first centuries' most pressing global and local political issues (from migration to racism to coloniality to heterosexism to gentrification to U.S. imperialism and more). The course, at its core, will explore issues of identity-formation, particularly as they relate to Latinx struggles for equality on the fault lines of race, class, and gender/sexuality. Who and/or what is the Latinx subject, and how does the question of identity relate to struggles for cultural recognition and political equality? To what extent does the Latinx subject's political freedom rest upon practices and processes of identity-formation or, alternatively, dis-identification? As we explore these questions, we will also examine how Latinxs come to inhabit and articulate a sense of space and place in the shifting landscapes of culture--from the city to the campo to the cultural in-between of the border.

Requirements/Evaluation: Active participation in in-class and online discussion, four 4-5 page essays, weekly reading responses, and an in-class presentation.

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 19

Enrollment Preferences: Sophomores considering the English major, but juniors and seniors are also welcome.

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)
Writing Skills Notes: The instructor will provide written feedback on student work. Students will receive timely feedback on essay assignments with suggestions for improvement. Reading-response prompts will be geared towards helping students practice writing and analysis skills. Students may also be asked to attend occasional 1-on-1 meetings with instructor to discuss writing.

Difference, Power, and Equity Notes: This course offers students the opportunity to learn and think critically about Latinx community struggles throughout U.S. social history while examining the forms of cultural expression that arise out of and in relation to those struggles. It also delves into the intersectional nature of Latinx community struggles as they emerge along the fault lines of race, class, and gender/sexuality.

ENGL 375 (F) Black Masculinities (DPE)

Cross-listings: AMST 350 ENGL 375 AFR 331 WGSS 318

Secondary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men’s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

SEM Section: 01 W 7:00 pm - 9:40 pm Kai M. Green

ENGL 392 (S) Acción Poética: Poetic Art’s Critiques of an Americas of Conquest (DPE)

Can poems be thought of as social acts, or as a kind of “acción poética” (poetic action)? What would it mean, in other words, to resituate our understanding of poetry within the realms of speech act theory, performance studies, and the local and global histories of social conflict in the Americas? In this course, we will examine the long history of poetic form in the Americas to trace the emergence of separate, but related poetic experimentalisms, particularly in the literary traditions of modern Latin American and U.S.-Latinx poetry and performance art. Throughout the course, we'll ask what it means to write with and without the body in mind. We'll attend to the embodied forms of poetic expression that emerge prior to the
twentieth century while investigating poetry's articulations of geo-social space in the Americas. Our course will then focus on the vanguard poetries of twentieth-century Latin America (Neruda, Mistral, Vallejo, Zurita, et al.) and on the transcultural modernities of U.S.-Latinx poetry and performance. Through our explorations of poetic form's encounters with a social history of the Americas, we'll receive a glimpse of what poetry looks like in a world of spiritual, political, ecological, and humanitarian crises. Readings will likely include works by: Gabriela Mistral, Pablo Neruda, Vicente Huidobro, César Vallejo, Raúl Zurita, Cecilia Vicuña, Miguel Algarín, Sandra María Esteves, Willie Perdomo, Julia de Burgos, Emmy Pérez, Gloria Anzaldúa, Lorna Dee Cervantes, Sandra Cisneros, Francisco X. Alarcón, Guillermo Gómez-Peña, Coco Fusco, Laura Aguilar, Asco, Sor Juana Inés de la Cruz, Phillis Wheatley, José Martí, Rubén Darío, Walt Whitman, Emily Dickinson, and more. Although useful, reading knowledge of Spanish is not expected or required; Spanish-language texts will be provided in English translation alongside the original.

Requirements/Evaluation: Active participation in in-class and online discussion, two close-reading papers (5 pages each), contributions to course blog, and a final 8-10 page research paper.

Prerequisites: A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 25

Enrollment Preferences: English majors, but non-majors with a strong interest in the subject are welcome.

Expected Class Size: 25

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course offers students the opportunity to think critically about the experiences of socially marginalized groups throughout U.S. and Latin American history. The course emphasizes the experiences of colonization and U.S. imperialism in Latin America and those of social conflict in border regions throughout the U.S. Moreover, it invites students to ask what it means to write poetry from the standpoint of various subject positions (as determined by race, class, gender/sexuality, etc.).

ENVI 134  (F)  The Tropics: Biology and Social Issues  (DPE)

Cross-listings: BIOL 134  ENVI 134

Secondary Cross-listing

Biology and Social Issues of the Tropics explores the biological dimensions of social issues in tropical societies, and focuses specifically on the peoples of tropical regions in Africa, Asia, Latin America, Oceania, and the Caribbean. Tropical issues have become prominent on a global scale, and many social issues in the tropics are inextricably bound to human ecology and the tropical environment. Each section provides the science behind the issues and ends with possible solutions. The course highlights differences between the tropics and areas at higher latitudes. It begins with a survey of the tropical environment, including a global climate model, variation in tropical climates and the amazing diversity of tropical biomes. The next section focuses on human population biology, and emphasizes demography and the role of disease particularly malaria, AIDS and Covid-19 (SARS-CoV-2). The final part of the course covers the place of human societies in local and global ecosystems including the challenges of tropical food production, the interaction of humans with their supporting ecological environment and climate change. This course fulfills the DPE requirement. Through lectures, debates and readings, students confront social issues and policies from the perspective of biologists. This builds a framework for lifelong exploration of human diversity in terms of difference, power and equity.

Class Format: Debate

Requirements/Evaluation: two hour exams, a short paper, debate presentation, and a final exam

Prerequisites: none

Enrollment Limit: 60

Enrollment Preferences: Preference will be given to Environmental Studies majors/concentrators, students in need of a Division III or DPE requirement, and then Seniors, Juniors, Sophomores, and First Year students.

Expected Class Size: 60

Grading: no pass/fail option, no fifth course option

Unit Notes: Does not count for credit in the Biology major.
**Distributions:** (D3) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

LEC Section: 01 MWF 11:00 am - 11:50 am Joan Edwards

**ENVI 230 (S) Geographies of Food Justice** (DPE)

Recent scholarship & reporting clearly show inequalities of race, class, & gender in access to adequate, healthy, & culturally appropriate food. Observers often call poor, segregated urban areas food deserts, evoking a landscape dominated by fast food & devoid of vegetables. Farmer & food sovereignty activist Leah Penniman instead refers to this as food apartheid to emphasize that inequalities in food access are the result of racism and are inseparable from other injustices. Notably, deserts & apartheid are both spatial metaphors, referring not only to the environments in which people eat, but also the systems of social, political, & economic power that define those places. This course considers the relationship between food, power, & geography by looking at such places. We ask: How does where people eat shape what they eat? What can we learn about structural racism & settler colonialism by looking at the diverse sites of food insecurity? How do people experience a globalized food system in uniquely localized ways? How do struggles over land & labor shape the possibilities for justice in the food system? Does it matter where our food is produced? We begin with a critical reevaluation of the concept of food deserts, drawing on works by scholars who question the term's usefulness. Next, we consider indigenous hunting & fishing practices. From the Arctic to the Saint Lawrence River, ancestral practices are undergoing fundamental disruptions from settler colonialism & its effects, which include climate change & toxic contamination. Additional topics include farmworkers, pesticide exposure, migration, free trade, & diet-related disease. We will read works by geographers, anthropologists, sociologists, & journalists, among others. Throughout, we ask how people are enacting food justice & sovereignty on the ground. We listen to those on the frontlines & imagine a world in which their visions are reality.

**Requirements/Evaluation:** 2-3 short papers on assigned topics, final research paper, class discussion, occasional short oral presentations

**Prerequisites:** ENVI 101 or permission

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental studies majors and concentrators

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This course considers how race, racism, and class shape access to food. We will discuss accountability within the food movement, and discuss ways to address inequalities in this area.

ENVI 234  (S)  Economics of Developing Countries  (DPE)

Cross-listings: ENVI 234  ECON 204

Secondary Cross-listing
The leaders of developing countries almost universally proclaim "economic development" to be their eventual destination, but it is not easy to visualize the journey. Is rapid economic growth sufficient to generate development, or do governments need to invest proactively in health, education and social protection? Can agriculture support incomes and provide jobs, or is urban industrial development a prerequisite? How do households in developing countries insure themselves against adverse outcomes? Can policies enable entrepreneurship and innovation in such economies? Is it true that corruption is a significant obstacle? Has the climate crisis upended our traditional models to the point where we need to rethink the notion of development? How does the global COVID-19 pandemic threaten the progress developing countries have achieved, and what policy responses will be most effective in addressing the crisis? The class will introduce these and other issues, as analyzed by economists.

Class Format: discussion

Requirements/Evaluation: short essays/assignments; two individual take-home exams; final group project
Prerequisites: one ECON class at Williams or prior course deemed equivalent by the Economics Department
Enrollment Limit: 25
Enrollment Preferences: first-year and sophomore students
Expected Class Size: 25
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 234 (D2) ECON 204 (D2)

Difference, Power, and Equity Notes: This course provides a setting for students to learn about the causes and consequences of poverty in developing countries. It requires students to engage with questions of political and economic power, stressing attentiveness to how market relationships may not generate welfare-maximizing opportunities for poor and marginalized populations. Through exercises and a group project, the course builds analytical and empirical skills for diagnosing and addressing constraints on economic development.

Primary Cross-listing

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why black-eyed peas and collards are considered “soul food”? In this course, we will answer these questions by digging into the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

Requirements/Evaluation: two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

ENVI 271 (S) Theatre and Environment: Site, Ecology, Utopia (DPE)

Cross-listings: THEA 272 ENVI 271

Secondary Cross-listing

What is theatre's relation to the environment, whether natural or social? How does the site, place, or context of a performance change its meaning? What role does theatre play within grassroots campaigns for climate action, environmental justice, or Indigenous land rights? How can we use theatre to, in the words of adrienne maree brown, “practice, in every possible way, the world we want to see?” In this studio course, participants will collaborate in small groups to create and share short performances based on a series of prompts, such as: site, nature, immersion, ecology, biomimicry, and utopia. Acknowledging the deep inequities (racial, gendered, ethnic, class-based) that constitute all human and environmental interaction, we will work to understand how art's relationship to the environment is itself shaped by the historical legacies of empire and global capitalism. As a contribution to the work of the studio, each student will share independent research on an artist, activist movement, or collective of their choice, such as: Hito Steyerl, Ellie Ga, Marta Rosler, Joan Jonas, Paul Chan, Theaster Gates, Bread and Puppet, Punch Drunk, En Garde Arts, Talking Birds, Rimini Protokoll, Extinction Rebellion, Greenpeace, and others. Critics and theorists considered may include: Allan Kaprow, Augusto Boal, Miwon Kwon, Nick Kaye, Claire Doherty, Donna Haraway, Grant Kester, Nato Thompson, and adrienne maree brown. As a special project in the class, we will collaborate with The Zilkha Center to create a series of performances that engage with topics relevant to the campus community, including climate action and environmental justice. Note: this is a maker's course that invites students to create, develop, perform, and share their work with each other and, in some cases, public audiences.

Class Format: This is a maker-based studio course that requires deep collaboration on the creation, development, and performing of original works of theatre and live art.

Requirements/Evaluation: Creation and presentation of a series of four short performance pieces; leading a 10-minute class discussion; a 15-minute independent oral presentation on a chosen artist or collective; weekly journal writing; deep and active participation and collaboration.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: if overenrolled, preference will be given to Theatre majors and Environmental Studies majors

Expected Class Size: 10-12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 272 (D1) ENVI 271 (D1)

Difference, Power, and Equity Notes: This course interrogates the deep inequities, injustices (racial, gendered, ethnic, and class-based), and power relations that constitute all of humanity's relation with earth's environment, ecosystem, and ecology. Students will not only study artists and collectives engaged with the work of environmental justice, accountability, and action, they will also make such art themselves.
ENVI 332  (F)  (De)colonial Ecologies  (DPE) (WS)
Cross-listings:  AFR 347  AMST 332  ENVI 332

Secondary Cross-listing

What is the relationship between race, colonialism, and capitalism? How do such structures organize nature, including human nature? How do ideas of "nature" and "the human" come to structure race, colonialism, and capitalism? From the "discovery" and plunder of the "New World," to 18th-century claims that climate determined racial character, to the 21st-century proliferation of DNA tests underwriting claims to Indigenous ancestry, it is clear that race, colonialism, capitalism constitute asymmetric world ecologies, and give rise to interconnected liberation struggles. Anchored in the contexts of U.S. colonialism and racial capitalism, and drawing on environmentalist, Black Marxist, and feminist works, this course aims to expose students to a world history of colonial and decolonial ecologies. By the end of this course, students should be able to describe the historical foundations of dominant ideas, attitudes, and practices toward human and non-human natures. Students should also be able to analyze how such orientations toward human and non-human natures mediate the ways in which colonial, racial, gender, and sexual categories and structures inform and are (re)produced by U.S. institutions and in public areas such as the law, public policy, and property. Finally, students should be able to interpret how racialized and colonized peoples' visions, representations, and practices of liberation constitute decolonial ecologies that contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

Writing Skills Notes:  One thesis paper at 15 pages. The writing process is staggered, with each part graded, and with critical feedback from professor and peers. Specifically, one research proposal (including thesis outline and annotated bibliography of primary texts) with feedback from professor; one thesis paper draft with feedback from peers; one letter of revision explaining the student's revision process; one final draft with critical feedback from professor; and student presentation and discussion.

Difference, Power, and Equity Notes:  The course addresses issues of difference, power, and equity, and offers theoretical tools and perspectives to understand these issues. Specifically, students learn how to interpret how racialized and colonized peoples' visions, representations, and practices of liberation with regard to relations with non-human natures and the materiality of land precede, contend with, and exceed normative political, economic, and social categories of governance and systems of dispossession and exploitation.

ENVI 349  (S)  Race, Development, and Food Sovereignty  (DPE) (WS)
Cross-listings:  AFR 349  ENVI 349  AMST 342

Secondary Cross-listing

What does it mean to "settle" land? What racial encounters and acts of survival took place around the plantation? How have farmworkers and landowners faced off against government policies and "agribusiness" corporations? What was the "Green Revolution" and why did it happen?
Agriculture as a relation to land based on domestication, enclosure, and commerce has long been a means of and justification for racial and colonial dispossession and exploitation across the Americas, including what is now the United States. At the same time, an array of embodied practices in relation to the land and one another complicate and contest these histories of racial and colonial dispossession. Broadly, this course aims to familiarize students with the historical and present-day entwining of colonial and racial dispossession, exploitation, and resistance at the heart of U.S. economies of agriculture. By the end of this course, students should be able to analyze how the historical foundations of U.S. agriculture have entailed and intertwined the taking of lands and removal of Indigenous peoples, the enslavement of African peoples, mass migration, and various forms of exploitative labor. Students should also be able to assess how these historical foundations continued to serve as the material conditions reproduced throughout the course of the 19th and 20th centuries under discriminatory government policies and powerful “agribusiness” corporations, as well as the possibilities and limits of redress and reform through state and corporate action. Finally, students should be able to interpret how embodied practices in relation to the land and one another precede, exceed, and push against the logics and histories of racial and colonial dispossession. The course is organized around three units that interrogate economies of agriculture within and beyond the U.S. nation-state. Each unit interrogates a key period of time from the founding of the United States, through 20th-century Pax Americana, and on into the present. Finally, each unit does so while attending to the emergence and enactment of “food sovereignty” movements—efforts to foster a new international trade regime, agrarian reform, a shift to agroecological production practices, attention to gender relations and equity, and the protection of intellectual and indigenous property rights.

**Requirements/Evaluation:**
- Participation: 25%
- Weekly Response (350-500 words): 25%
- Final Essay--Research proposal (2-3 pgs.): 10%
- Final Essay--Peer review and feedback (2 pgs.): 10%
- Final Essay--Presentation: 10%
- Final Essay--Paper (15 pgs.): 20%

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

**Class Format:** This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

**Requirements/Evaluation:**
- Weekly Readings
- Class Participation
- Small and large group strategy exercises (written and oral)
- Written Research
Prerequisites: none

Enrollment Limit: 23

Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

GBST 218 (S) Markets, Distrust, and History (DPE)

Cross-listings: GBST 218 ECON 218

Secondary Cross-listing

Global markets connect strangers: people of different races, religions, and classes. There are huge profits from such economic contact, but there are also risks: of being cheated, deceived, or coerced. This course examines how global markets have evolved over the past five hundred years using insights from the economics of incentives (principal-agent models, contracts, mechanism design). Case studies will cover: the spice trade and conflict in the Indian Ocean (early 16th century), capital markets and fraud in Amsterdam and London (17th and 18th century), the coffee trade and deception in Mocha and Java (18th and 19th), slavery and its abolition in Brazil (20th), colonial control and resistance in Kenya (21st), and the constraints on “fair trade” in Nicaragua and US (present). Required readings for this class will be sixty or more pages per week, and will include historical case studies, excerpts from novels, and reportage.

Requirements/Evaluation: Students will be evaluated based on class participation, weekly assignments, a midterm, and a final.

Prerequisites: Econ 110

Enrollment Limit: 25

Enrollment Preferences: If overenrolled, students will be asked to submit a short statement of interest.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course analyzes the evolution of economic inequity. It analyzes how global market opportunities have been shaped by race, religion, wealth, and power.
GBST 246 (F) Asian American Performance: Activism and Aesthetics (DPE)
Cross-listings: THEA 246 GBST 246 AMST 249
Secondary Cross-listing

This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.

Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: sophomores, juniors, and seniors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 246 (D1) GBST 246 (D2) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

GBST 273 (S) Detectives Without Borders (DPE) (WS)
Cross-listings: COMP 273 ENGL 273 GBST 273
Secondary Cross-listing

Why is detective fiction so popular? What explains the continuing multiplication of mystery novels despite the seemingly finite number of available plots? This course will explore the worldwide fascination with this genre beginning with European writers before turning to more distant detective stories worldwide. The international scope of our readings will highlight how authors in different countries have developed their own national detective typologies while simultaneously responding to the international influence of the Anglo-American model. Simultaneously, the readings will trace the evolution of the genre from the classical Sherlock Holmes model through later iterations, including golden age, hard-boiled, police procedural, female detective types, and more. Alongside fictional narratives, essays on the genre will provide the theoretical ground for our investigation. Our international journey will begin in England and the United States (G.K. Chesterton, Robert Knox, and Edgar Allan Poe) and continue through Japan (Edogawa Rampo), France (Georges Simenon), Italy (Andrea Camilleri), Argentina (Jorge Luis Borges), and beyond. As we journey around the world, we will look at the possibility of reading detective fiction through the categories of gender, postcolonial, and race studies. Film adaptations of the novels we read, TV shows, and film noirs will also be included in the course material. All readings will be in English.

Requirements/Evaluation: short papers, one research paper, oral presentations, midterm, class participation
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Comparative Literature and English majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Unit Notes: COMP core course
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
COMP 273 (D1) ENGL 273 (D1) GBST 273 (D2)

Writing Skills Notes: This writing skills course requires weekly short papers, blog entries, and three 5- to 7-page papers, which will test students’ ability in close-reading, comparative readings, and research analysis. I will provide written feedback regarding grammar, style, and argument.

Difference, Power, and Equity Notes: A significant part of the course addresses post-colonial critical theory issues by including crime fiction from non-Western countries (South Africa, Japan, Brazil, Argentina). The post-colonial reading of those novels is supported by the reading of post-colonial theory such as (Frantz Fanon and Edward Said). The issue of gender inequalities is central to the course. Women and LGBTQ detectives are included in the syllabus.

Spring 2022

GBST 305 (S) A History of Health and Healing in Africa (DPE)

Cross-listings: HIST 305 AFR 304 GBST 305

Secondary Cross-listing

This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages), presentation, and one research paper (8-12 pages).

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 305 (D2) AFR 304 (D2) GBST 305 (D2)

Difference, Power, and Equity Notes: This course explores transformations in how Africans in the recent past have experienced, practiced and conceptualized health and healing. These transformations have been triggered by the expansion of global biomedicine, new and lethal epidemics, old diseases in changing environments, and new political and economic decisions by policymakers. The history of health and healing in Africa provides a critical lens through which to examine societal imbalances and and inequalities.

Spring 2022
GBST 351 (S) The New Left and Neoliberalism in Latin America (DPE)

Cross-listings: GBST 351 PSCI 351

Secondary Cross-listing

Recent years have seen a resurgence of the political left in Latin America. This course seeks to understand the origins of this new left, the ideas and character of its protagonists, the neoliberal philosophy it opposes, and the arena of democratic politics it inhabits today. We first read polemics from both sides, before stepping back to consider Latin American political economy, including the twentieth-century left, from a more historical and analytical perspective. With this preparation, we then look more closely at major contemporary figures and movements in Venezuela, Bolivia, Ecuador, Brazil, and other countries. After considering explanations of the rise of the left and assessments of its performance in power, we end our common readings by asking what it might mean today to be on the left in Latin America--or anywhere--both in policy and political terms.

Class Format: discussion then seminar

Requirements/Evaluation: three short essays, a 1-page reflection paper, and a 12-page research proposal

Prerequisites: a course on Latin America and a course in Economics or permission of the instructor

Enrollment Limit: 15

Enrollment Preferences: Political Science majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 351 (D2) PSCI 351 (D2)

Difference, Power, and Equity Notes: The New Left in Latin America originated in efforts to remedy inequalities born of the Conquest, uneven capitalist development, and racial prejudice. Its neoliberal foes generally do not doubt the existence of these inequalities, but they question the proposition that the state could adequately address them. This course engages, contextualizes, and deepens the debate.

LEC Section: 01 MR 1:10 pm - 2:25 pm James E. Mahon

GBST 480 (F) Media and Society in Africa (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Secondary Cross-listing

The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programming. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers', readers' and listeners' control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media's role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: This course open to all students

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior experience with African history. If the course is
over-enrolled, students may be asked to complete a questionnaire to determine enrollment

**Expected Class Size:** 10  
**Grading:** no pass/fail option, no fifth course option  
**Distributions:** (D2) (DPE) (WS)  

**This course is cross-listed and the prefixes carry the following divisional credit:**  
HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)  

**Writing Skills Notes:** Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers’ writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques—both oral and written—from the professor, as well as oral critiques from tutorial partners.

**Difference, Power, and Equity Notes:** Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important societal concerns are expressed through the media in Africa.

**Fall 2021**  
**TUT Section:** T1 TBA Benjamin Twagira  

**GERM 314 (S) Underground Berlin: Art, Performance, and Film, 1980s to Present** (DPE)  
**Cross-listings:** GERM 314 WGSS 344 ARTH 315  

**Secondary Cross-listing**  
Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin's present, its contradictory mix of new and old, "deep history" and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government's plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city's social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape—from art museums and theater houses to occupied buildings, from independent publishing imprints and collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.  

**Requirements/Evaluation:** Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)  
**Prerequisites:** none  
**Enrollment Limit:** 12  
**Enrollment Preferences:** Art History majors, German majors, then any interested student  
**Expected Class Size:** 12  
**Grading:** no pass/fail option, no fifth course option  
**Distributions:** (D1) (DPE)  

**This course is cross-listed and the prefixes carry the following divisional credit:**  
GERM 314 (D1) WGSS 344 (D2) ARTH 315 (D1)  

**Difference, Power, and Equity Notes:** Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

HIST 104 (S) Race and a Global War: Africa during World War II (DPE) (WS)

Cross-listings: AFR 104  HIST 104

Primary Cross-listing

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

Requirements/Evaluation: active participation in discussion, map quiz, 2 short papers (3-5 pages), presentation, and one research paper (8-12 pages)

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 15

Enrollment Preferences: first-year students and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 104 (D2) HIST 104 (D2)

Writing Skills Notes: Students will write two 3-5-page essays each written in two drafts with instructor comments. They will also write an 8-12-page research paper with required submission of a proposed topic, an annotated bibliography, an outline, and a draft before the final paper itself. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

HIST 158 (S) North of Jim Crow, South of Freedom (DPE) (WS)

Cross-listings: HIST 158  AFR 158

Primary Cross-listing

This course analyzes the freedom struggle in the North during the twentieth century. Whereas black northerners drew from broader campaigns and traditions of black resistance, we will explore territorial distinctions in the region that otherwise have been flattened within the long history of civil rights discourse. To accomplish this aim, we will engage the following themes: black culture and radicalism; community formation and residential segregation; demographic and migratory transitions; deindustrialization and the war; gender and respectability politics; labor tensions and civil rights unionism; northern racial liberalism; and the influence of world affairs--all with an eye toward scrutinizing the freedom struggle in its northern variety.

Requirements/Evaluation: Students are expected to participate actively and will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (8-10 pages) in consultation with the instructor and will
be required to submit a topic proposal.

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students and then sophomores who have not previously taken a 100-level seminar

**Expected Class Size:** 19

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 158 (D2) AFR 158 (D2)

**Writing Skills Notes:** Students will write three short essays (3-4 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course analyzes the long black freedom struggle in the North during the twentieth century. It examines black northerners’ efforts to achieve citizenship and equality as well as their challenges and involvements with northern racial liberalism. It offers students the opportunity to think critically about how black resistance campaigns emerged and evolved as discriminatory racial practices persisted in spite of legal and legislative remedies.

**HIST 159 (F) Crossing the Color Line: A History of Passing** (DPE) (WS)

**Cross-listings:** AFR 159 HIST 159

**Primary Cross-listing**

In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal’s racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

**Requirements/Evaluation:** Weekly formal response papers and written critiques.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 159 (D2) HIST 159 (D2)

**Writing Skills Notes:** Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers’ work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions
for improvement. Students also will receive feedback from their tutorial partners.

**Difference, Power, and Equity Notes:** Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

**HIST 205 (F) The Making of Modern Africa (DPE)**

**Cross-listings:** AFR 203 HIST 205

**Primary Cross-listing**

This course traces the incorporation of Africa into an expanding global world from the middle of the 19th century to the present and examines the impact of this integration on the history of African cultures and modern nation states. It is designed to provide you with an introductory understanding of the economic, social, and political forces that have shaped Africa in recent times and continue to affect the lives of individual people across the continent. Over the course of the semester you will be introduced to major historical themes in African History from the past 150 years, including the abolition of the slave trade and its effects, African states in the 19th century, the growing integration of different regions into shifting global and economic systems, European colonization, and African resistance to imperial conquest. We will also explore the emergence of the nationalist and anti-colonial movements, and Africa’s post-colonial experiences of self-governance. Within these broad historical processes, the class will cover additional key themes such as religious change and the role of Western missionaries; changing gender roles; environmental exploitation and change; the emergence of the developmental state; urbanization; military dictatorships, and war and violence in the late 20th century. We will also cover some of the issues surrounding the study of African History as a discipline. This is a challenging task as no single course can cover more than a silver of the complexity and variety of the continent. This is why we approach the study of Modern African History through a comparative prism.

**Requirements/Evaluation:** active participation in discussion, map quiz, response papers, midterm and final exams, and a case study paper (7-10 pages)

**Prerequisites:** none

**Enrollment Limit:** 30

**Enrollment Preferences:** if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

**Expected Class Size:** 30

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 203 (D2) HIST 205 (D2)

**Difference, Power, and Equity Notes:** This course will introduce students to how modern Africans have contended with powerful forces that have deeply affected the continent. It will examine how different societies on the continent -- in different environments and circumstances -- devised solutions to the challenges of the day. All of the readings, discussions, and assignments will ask students to center and insert African voices into histories fraught with misrepresentations.

**HIST 265 (F) Race, Power, & Food History (DPE)**

**Cross-listings:** HIST 265 ENVI 246 AMST 245

**Secondary Cross-listing**

Have you ever wondered why Spam is so popular in Hawaii and why Thai food is available all across the United States? Are you curious why
black-eyed peas and collards are considered "soul food"? In this course, we will answer these questions by digging in to the histories of global environmental transformation through colonialism, slavery, and international migration. We will consider the production and consumption of food as a locus of power over the last 300 years. Beginning with the rise of the Atlantic slave trade and continuing through the 20th century, we trace the global movement of plants, foods, flavors, workers, businesses, and agricultural knowledge. Major units include rice production by enslaved people in the Americas; Asian American food histories during the Cold War; and fat studies critiques of obesity discourse. We will discuss food justice, food sovereignty, and contemporary movements for food sustainability in the context of these histories and our contemporary world. Readings are interdisciplinary, but our emphasis will be on historical analyses of race, labor, environment, health, and gender.

Requirements/Evaluation: two to three papers on assigned topics (4-6 pages); one longer final paper (8-10 pages); participation in discussion and online activities

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; American Studies majors; Public Health concentrators; history majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 265 (D2) ENVI 246 (D2) AMST 245 (D2)

Difference, Power, and Equity Notes: This course considers the production and consumption of food as a locus of power over the last 300 years, and contextualizes current movements for food justice and sovereignty in light of those histories. Students will have opportunities to reflect on questions of power, privilege, and racism in contemporary food movements. Our final unit focuses on challenges to critical food studies from fat liberation and body positivity

HIST 270 (F) Sport and the Global Color Line (DPE)

Cross-listings: HIST 270 LEAD 270 AFR 270

Primary Cross-listing
Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas—like movie theaters, railroads, schools, and other public sites—shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

Class Format: Lecture and discussion.

Requirements/Evaluation: Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

Prerequisites: None.

Enrollment Limit: 40

Enrollment Preferences: Open to all students with completion of course admission survey if overenrolled.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: This course will prompt students to evaluate the commercialization and commodification, perceptions and portrayals of minority athletes in popular media forms. Students will trace the emerging ideas, shifts, and trends in the depiction of race and in the process of racialization.

HIST 303  (S)  Food in the Middle East: A History  (DPE)
Cross-listings: ARAB 303  HIST 303

Primary Cross-listing
In this course we examine the rich culinary history of the Middle East first among the three major religions in the region (Judaism, Christianity, and Islam), then during the time of major Islamic Empires such as the Abbasids and Ottomans, and finally in the modern period. Using an array of primary and secondary sources, we explore the social, religious, literary, and economic place of food. We will study the consumption of an attitudes toward specific foodstuffs, gauging the medicinal and culinary value of spices, the historical taboos against drinking coffee and alcohol, and the dispute over various dishes within modern nationalist constructions. We will also investigate how Middle Eastern peoples from different ethnic, geographic, and religious backgrounds have historically used food to express their distinct cultural, national, and gendered identities.

Requirements/Evaluation: attendance, participation, map exercise, leading discussion, 3 short essays, final paper/research project
Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: History and Arabic Studies majors, seniors
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 303 (D2) HIST 303 (D2)

Difference, Power, and Equity Notes: This course explores a variety of themes within Middle Eastern food history and their implications to different religious communities, genders, and/or socio-economic groups, across a large swath of time. Students will be asked to explore these topics in class discussions and writing assignments, using multiple comparative perspectives.

HIST 305  (S)  A History of Health and Healing in Africa  (DPE)
Cross-listings: HIST 305  AFR 304  GBST 305

Primary Cross-listing
This class will explore the history of health and healing in Africa, with emphasis on the colonial and post-colonial eras. During the semester we will explore diverse medical and social interventions in African health over the past 150 years. How have African societies understood healthy communities and public health? We will examine this question through the study of spirit possession and other African healing practices but also how they have intersected with different biomedical practices and public health programs. We will also study the patterns and social impacts of new diseases in the twentieth century, as well as transformations in the understanding and treatment of diseases long present on the continent. In particular we will explore shifting understandings of the causes, treatment, and social implications of sleeping sickness, malaria, and HIV/AIDS. The development of colonial rule, shifting environmental conditions, changing diets, and urbanization all impacted the disease landscape, as well as the way African societies have understood public health. Indeed, the themes of health, medicine and disease provide a useful lens for understanding important social transformations across the continent.

Requirements/Evaluation: active participation in discussion, map quiz, reading reflections, a primary source analysis paper (3-5 pages),
presentation, and one research paper (8-12 pages).

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** if course is over-enrolled, preference to history majors and students with a demonstrated interest in African studies

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**HIST 346 (F) Modern Brazil (DPE)**

**Cross-listings:** AFR 346  HIST 346

**Primary Cross-listing**

Brazil has been the "country of the future" longer than it has been an independent nation. Soon after Europeans descended on its shores, Brazil was hailed as a land of resources so rich and diverse that they would inevitably produce great wealth and global power for its inhabitants. Although this has often contributed to an exaggerated patriotism, it has also fostered ambiguity—for if the label suggests Brazil’s potential, it also underlines the country’s failure to live up to that promise. This course will examine Brazil’s modern history by taking up major themes from Independence to the present. Beginning with a "bloodless" independence that sparked massive civil wars, we will analyze the hierarchies that have characterized Brazilian society. The course will give particular attention to themes of race, gender, sexuality, and citizenship; national culture and modernity; and democracy and authoritarianism in social and political relations.

**Class Format:** discussion

**Requirements/Evaluation:** class participation will count for 20% of final grade; each of two 5-page papers will count for 25%; and a final 8- to 10-page paper will count for 30%

**Prerequisites:** none; open to first-year students with instructors permission

**Enrollment Limit:** 25

**Enrollment Preferences:** History majors, Latino/a Studies concentrators

**Expected Class Size:** 20-25

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 346 (D2) HIST 346 (D2)

**Difference, Power, and Equity Notes:** The course—in all of its readings, discussion, papers—centers on the formation of different and dynamic identities in 19th- through 21st-century Brazil. Throughout the semester we examine how Brazilians created, recreated, and/or rejected categories of difference and how these resulting actions connected to broad political and cultural changes. Links to current questions—like the struggles of communities of quilombolas (descendants of runaway or freed slaves)—receive particular attention

HIST 352  (F)(S)  American Maritime History  (DPE) (WS)
Cross-listings: HIST 352 MAST 352

This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.

Class Format: Seminars, discussions, and field seminars
Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project
Prerequisites: None
Enrollment Limit: 27
Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors
Expected Class Size: 22
Grading: no pass/fail option, no fifth course option
Unit Notes: Offered only at Mystic Seaport

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352 (D2) MAST 352 (D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

HIST 367  (S)  Black History is Labor History  (DPE) (WS)
Cross-listings: AFR 367  HIST 367

Primary Cross-listing
This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antunionism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.
Requirements/Evaluation: Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites: recommended for students with sophomore standing or above

Enrollment Limit: 25

Enrollment Preferences: HIST and AFR majors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 367 (D2) HIST 367 (D2)

Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people’s pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

HIST 454 (F) Land, Memory, Materiality: Histories and Futures of Indigenous North American Arts (DPE)

Cross-listings: ARTH 561 HIST 454

Secondary Cross-listing
This course engages Indigenous North American traditions of creative expression, remembrance, and representation in historical, contemporary, and future-facing ways. Drawing upon diverse Native American and First Nations theories and practices, it ranges widely across the continent to consider Indigenous arts and material culture within specific cultural, socioeconomic, and political contexts. Part of the course is grounded in the Native Northeast, including the Indigenous homelands of the Stockbridge-Munsee Mohican Community in which the Graduate Art Program and Williams College are situated. Other units will focus on continuities and transformations in artistic and maker-traditions within and across specific Indigenous nations and communities. The course is especially interested in connections between past and present, and the innovative ways Indigenous artists, makers, and knowledge-keepers have reckoned with what has come before, while also mapping meaningful future pathways. Topics will include repatriation and community-led restorative efforts to bring home ancestors and important heritage items "collected" over the centuries following 1492; concepts and practices of cultural, intellectual, visual, and political sovereignty, as well as of decolonizing museums; the complex dynamics of collaboration; and Indigenous challenges to Eurocentric and settler colonial approaches to preservation, interpretation, and classification. Class members will develop familiarity with methods and ethics grounded in Native American and Indigenous Studies, and with new scholarship by leading and emerging critics and creators.

Class Format: The course will feature seminar discussions as well as local field trips to museums, libraries, and archives with pertinent collections.
Requirements/Evaluation: Engaged participation in discussions; in-class presentations; short writing assignments in preparation for final project; final original research and interpretive project
Prerequisites: For undergraduates, at least two prior courses in or related to History, Art History, Native American and Indigenous Studies, and/or Museum Studies.
Enrollment Limit: 16
Enrollment Preferences: Priority for Graduate Art students. Four seats will be reserved for undergraduates, with preference to junior and senior
majors in Art History and History. Undergraduates should email a brief statement of interest to cd10@williams.edu.

Expected Class Size: 16
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 561 (D1) HIST 454 (D2)

Difference, Power, and Equity Notes: The course centers theories, experiences, and expressions from Native American/Indigenous communities, scholars, and artists/makers, while engaging foundational and new work in Native American and Indigenous Studies (NAIS). The course also provides students with critical tools for reckoning with settler colonialism and its historical as well as enduring impacts in Indigenous contexts; and with race, ethnicity, sovereignty, and tribal nationhood as key interpretive frames.

HIST 480 (F) Media and Society in Africa (DPE) (WS)

Cross-listings: HIST 480 GBST 480 AFR 381

Primary Cross-listing
The Media have long played important roles in African societies. As early as the second half of the 19th century, African intellectuals were using print technology to address the people. As radio technology was in its infancy during the first half of the twentieth century, Africans were gathering around re-diffusion stations and later around single receivers to listen to news and entertainment programing. In this tutorial, we will examine these histories of media and media technologies on the continent. Ultimately, we will explore the roles that media played in serving particular community needs and how
communities also adapted new media technologies to fit local conditions. Media content has historically been determined based on standards beyond viewers’, readers’ and listeners’ control. We will examine the influences that editors and political leaders on the continent have exerted on content as well as what forces they responded to. We will also further explore the media’s role in major events on the continent, from governmental changes to the ending of apartheid in South Africa and the role that media have played in areas of conflict.

**Requirements/Evaluation:** Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

**Prerequisites:** This course open to all students

**Enrollment Limit:** 10

**Enrollment Preferences:** Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 480 (D2) GBST 480 (D2) AFR 381 (D2)

**Writing Skills Notes:** Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers’ writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular feedback and critiques—both oral and written—from the professor, as well as oral critiques from tutorial partners.

**Difference, Power, and Equity Notes:** Modern media developed in Africa as means of control and cultivating dutiful colonial subjects. However, media then emerged as sites of contestation and even tools with which colonial subjects challenged colonial rule. They have continued to be revealing sites for issues of gender, race, class, and ethnicity. As such, this course immensely explores diversity, power and equity and how these all-important societal concerns are expressed through the media in Africa.

**Difference, Power, and Equity Notes:** This tutorial examines how girls and women confront capitalism, imperialism, climate devastation, patriarchy and poverty. The national and international movements that they participated in or led were based on shifting the balance of powers towards the impoverished, colonized, and imprisoned.

**Fall 2021**
INTR 320  (S)  Angela Davis: Political Theory, Activism, and Alliances  (DPE) (WS)

Cross-listings: LEAD 319  PSCI 376  INTR 320  AMST 308

Primary Cross-listing

This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.

Requirements/Evaluation: Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

Prerequisites: Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

Enrollment Limit: 19

Enrollment Preferences: Juniors and Seniors with previous courses taken in Africana Studies, American Studies, Political Science, Philosophy.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

LEAD 319 (D2) PSCI 376 (D2) INTR 320 (D2) AMST 308 (D2)

Writing Skills Notes: Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

Difference, Power, and Equity Notes: This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

Secondary Cross-listing

This course will investigate intellectual traditions, political movements, and cultural objects that portray Jews, Jewishness, or Judaism as essentially pernicious. We will analyze materials from a variety of times and places, including the ancient world, the medieval period, and the present day. We will assess the impact of anti-Semitism on the lives of Jews and non-Jews. But we will also read theoretical approaches to the study of anti-Semitism that raise key questions for our investigation. Where does the term "anti-Semitism" come from and how exactly should it be defined? Is anti-Semitism a continuous phenomenon that connects every claim of Jewish perniciousness, wherever it is alleged, for over two thousand years of human history? Or should every context be treated as fundamentally distinct, so that the claim of Jewish perniciousness is presumed to have a distinct meaning, origin, and purpose in each case? What motivates charges of Jewish perniciousness? What are the particular threats typically alleged to be posed by Jews, Jewishness, and Judaism? How do constructions of Jewish perniciousness fit with constructions of race, gender, ethnicity, religion, class, sexuality, and nationality in different times and places?

Requirements/Evaluation: three short papers (4-5 pages), one longer final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 30
**Enrollment Preferences:** Jewish Studies concentrators, Religion majors, and students who have taken JWST 203

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

JWST 249 (D2) REL 249 (D2)

**Difference, Power, and Equity Notes:** This course will introduce students to discursive, institutional, and social structures that have organized the stigmatization, domination, and persecution of Jews in various geographic locations for over two thousand years. An understanding of these structures is crucial to understanding contemporary dynamics of difference and power. Students will also learn how anti-Semitism intersects with constructions of race, gender, class, religion, ethnicity, and nation.

**LATS 222 (F) Ficciones: A Course on Fiction** (DPE)

**Cross-listings:** ENGL 252 LATS 222

**Primary Cross-listing**

This course is focused on the art and practice of writing fiction. We will study published fiction by Latina/o, Latin American, Afro-Diasporic, and other writers of the Global South, paying close attention to how each author employs narrative elements--characterization, plotting, structure, dialogue mechanics, setting, tone, theme--as well as the values and visions expressed. Regular assignments and in-class exercises will help students strengthen their own narrative skills.

**Requirements/Evaluation:** attendance and class participation, writing exercises, 4- to 5-page midterm paper (close-reading a text), 10- to 15-page final paper

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Latina/o Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENGL 252 (D1) LATS 222 (D2)

**Difference, Power, and Equity Notes:** Student work will encourage personal and cultural expression, with the opportunity to analyze the shaping of social differences, dynamics of unequal power, and processes of change.

**LEAD 270 (F) Sport and the Global Color Line (DPE)**

**Cross-listings:** HIST 270 LEAD 270 AFR 270

**Secondary Cross-listing**

Throughout the twentieth century, African Americans have broken racial barriers, confronted racial stereotypes, and garnered unprecedented success within popular culture, most notably sport. In this course, students will explore the relationship of the black athlete to the color line. We will complicate the historical view of sport as a site of professional advancement and race reform by demonstrating how societal racial practices were reconstructed within athletics. In essence, this course will emphasize the role sport performed in structuring racial exclusion as athletic arenas—like movie theaters, railroads, schools, and other public sites—shaped what Historian Grace Elizabeth Hale has termed the "culture of segregation." Though our primary focus will be on the experiences African Americans encountered, we will also probe the color line beyond its typical black-white binary. Thus, we will examine the achievements and altercations that other ethnic and racial groups realized in their transnational push for equality and inclusion.

**Class Format:** Lecture and discussion.

**Requirements/Evaluation:** Students will be graded on class participation and will have two take-home midterm essay examination (4-6 pages). In addition, students will write two or three response papers (2-3 pages) and a final research paper.

**Prerequisites:** None.

**Enrollment Limit:** 40

**Enrollment Preferences:** Open to all students with completion of course admission survey if overenrolled.

**Expected Class Size:** 25

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

**HIST 270 (D2) LEAD 270 (D2) AFR 270 (D2)**

**Difference, Power, and Equity Notes:** This course will prompt students to evaluate the commercialization and commodification, perceptions and portrayals of minority athletes in popular media forms. Students will trace the emerging ideas, shifts, and trends in the depiction of race and in the process of racialization.

**Fall 2021**

**LEAD 319 (S) Angela Davis: Political Theory, Activism, and Alliances (DPE) (WS)**

**Cross-listings:** LEAD 319 PSCI 376 INTR 320 AMST 308

**Secondary Cross-listing**
This seminar examines the political thought, activism, and iconography of abolitionist Angela Davis. The seminar involves a critical engagement with the philosopher, former political prisoner, and their relationship with other theorists, authors and activists. Readings include: Angela Davis: An Autobiography; Soledad Brother: The Prison Letters of George Jackson; The Morning Breaks: The Trial of Angela Davis; Women, Race, and Class; If They Come in the Morning.

**Requirements/Evaluation:** Requirements: students attend each seminar class and come prepared to discuss the readings. Papers are due by email 24 hours before the seminar begins.

**Prerequisites:** Preferences: Juniors and Seniors who have taken courses in Africana Studies, American Studies, Political Science, Philosophy.

**Enrollment Limit:** 19

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

- LEAD 319 (D2)
- PSCI 376 (D2)
- INTR 320 (D2)
- AMST 308 (D2)

**Writing Skills Notes:** Three thesis papers at five pages each will receive critical feedback from the professor; one of the three papers will be revised with critical feedback from professor and peers, accompanied by a one-page statement explaining student's revisions; one keyword glossary where students define their key terms used in the paper; one roundtable discussion based on the final paper.

**Difference, Power, and Equity Notes:** This course examines political activism in the 1960s-1970s during the Cold War in which the civil rights, black power and student anti-war movements challenged traditional US domestic and foreign policies. Examining the differential powers of university Regents, governors, presidents, and police forces and prison administrations in relation to social justice movements led by people under the age of thirty, we examine the structures of institutional power and the agency of cadre theorists.

**MAST 231 (F)(S) Literature of the Sea** (DPE)

**Cross-listings:** MAST 231 ENGL 231

**Primary Cross-listing**

The ocean, and human relationships with it, have been central features of literatures and cultures around the world for more than a thousand years. But since literary study is typically based around authors' homelands, careful examination of the oceanic experience is often pushed to the periphery—an "empty space" to be crossed between nations, a "vast darkness" antithetical to human life, or a mirror for land-borne concerns. Increasingly, however, scholars and readers are centering the sea and stories about it as a means stepping outside human frameworks of space and time, situating the complex emotions and narratives inspired by the ocean into a complex network of geologic history and teeming other-than-human life. This course examines a wide range of texts and perspectives on the ocean and human relationships with it. Doing so will help us consider how literature both plays into and subverts dominant viewpoints of the ocean. Through texts that consider 19th-century whaling, the Middle Passage, the postcolonial Caribbean, and islands throughout the Pacific Ocean, we will explore a range of questions, including: What can we learn from examining efforts to write about the ocean? How do ocean stories help individuals understand themselves, their communities, and their place in global environments? What can the range of cultural and literary perspectives on our "single, global ocean" reveal about the ways different people are both connected with and profoundly distant from each other? Most importantly, we will practice, as a classroom community, different strategies for carefully reading texts while connecting them to cultural traditions, surrounding environments, and personal experiences.

**Class Format:** weekly roundtable discussions, including coastal and near-shore field trips and multiple field seminars.

**Requirements/Evaluation:** regular papers, class participation, journal-writing, and a final assignment

**Prerequisites:** N/A

**Enrollment Limit:** 25

**Enrollment Preferences:** Williams-Mystic Students only

**Expected Class Size:** 20
This course is cross-listed and the prefixes carry the following divisional credit:
MAST 231 (D1) ENGL 231 (D1)

Difference, Power, and Equity Notes: This course focuses on the range of cultural perspectives about the sea, as well as the ways those perspectives can unsettle and challenge dominant narratives about the sea and its role in colonial expansion. Furthermore, this course centers voices that are typically overlooked in the genre of "Sea Literature," paying particular attention to Indigenous and African-American narratives about the ocean.

MAST 351 (F)(S) Marine Policy (DPE) (WS)

Cross-listings: MAST 351 ENVI 351 PSCI 319

Primary Cross-listing

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

Prerequisites: none

Enrollment Limit: 23

Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
MAST 351 (D2) ENVI 351 (D2) PSCI 319 (D2)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.
MAST 352  (F)(S)  American Maritime History  (DPE) (WS)

Cross-listings: HIST 352  MAST 352

Primary Cross-listing

This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people’s complex interactions with the oceans and seas.

Class Format: Seminars, discussions, and field seminars

Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project

Prerequisites: None

Enrollment Limit: 27

Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: Offered only at Mystic Seaport

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352 (D2) MAST 352 (D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

Attributes: AMST Space and Place Electives  ENVI Humanities, Arts + Social Science Electives  EXPE Experiential Education Courses  HIST Group F Electives - U.S. + Canada  HIST Group P Electives - Premodern
mathematics, and computation.

**Class Format:** This is a research-based tutorial.

**Requirements/Evaluation:** To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor follows the policy of "ungrading." Over the course of the semester, students will develop a rubric to assess their own learning and will evaluate themselves according to this rubric.

**Prerequisites:** Across each tutorial pair: multivariable calculus (e.g., Math 150/151), linear algebra (e.g., Math 250), statistics (e.g., Stat 161/201), computer programming (e.g., Comp 134), some working knowledge of or interest in social justice issues.

**Enrollment Limit:** 10

**Enrollment Preferences:** This is a tutorial and hence is capped at 10 students. Students interested in enrolling should contact the instructor as soon as possible. The instructor will ask for a brief statement of interest and selected other information.

**Expected Class Size:** 10

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D3) (DPE) (QFR)

**Difference, Power, and Equity Notes:** Students study issues of equity, diversity, and inclusion in areas such as criminal justice, arts/media, environmental justice, education, and health care, and along identity axes such as gender, race/ethnicity, disability status, and sexual orientation.

**Quantitative/Formal Reasoning Notes:** Students use multiple mathematical, statistical, and computational frameworks to acquire, model, and analyze real-world data.

---

**MUS 111 (S) Music in Global Circulation (DPE)**

(Formerly Music Cultures of the World.) This course introduces a variety of musical genres and practices from around the world, alongside a discussion of the processes and politics of their global circulation. Through learning about a combination of contemporary styles and longstanding musical traditions spanning a broad geographical range, students will develop a working knowledge of musical terms, concepts, and influential musicians. Beyond engaging with music's sound and structure, we will address its capacity to express personal and group identity, and its ability to both reflect and shape broader social ideas and circumstances. In particular, we will consider music's global circulation, and how its contents and meanings reflect those processes. Genres covered in the course vary intermittently but often include: "throat singing" genres in Tuva and Sardinia, Zimbabwean mbira and Chimurenga music, Argentine Tango, Ghanaian azonto and highlife, Balinese gamelan, and North Indian classical music. No prior musical training is required.

**Requirements/Evaluation:** class attendance and participation, three 5-7 page written assignments, and an 8-10 page final paper

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** current or prospective majors in Music, upperclassmen.

**Expected Class Size:** 20

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**Difference, Power, and Equity Notes:** Not only are students exposed to a wide range of musical material from across the globe, they also consider how music becomes meaningful and powerful in light of local contexts and the politics of circulation. Discussions and written assignments address issues including gender identity, economic disparity, the politics of cultural preservation, and music's potential in situations of political unrest.

**MUS 118 (S) Hearing Race in America, 1890-1955 (DPE)**

The rise of Rock 'n' Roll in the mid-1950s has typically been viewed as a temporary confluence in American culture, suggesting possibilities for musical
and racial integration even as various forms of appropriation and exclusion were perpetuated. This course will explore the earlier multiple musical streams that merged at this moment. We will start by engaging with contemporary and historical perspectives on race, adopting a radically interdisciplinary approach. Our focus will then be on several of the most prominent vernacular and commercial forms of American music during this period: ragtime, blues, jazz, rhythm and blues, Tin Pan Alley, country, bluegrass, Tex-Mex/Tejano conjunto, "Latin jazz," and cajun/zydeco. Prior to the 1950s, these musical styles were segregated, at least in terms of production and marketing. How did racial assumptions and histories shape the creation, dissemination, and reception of this music? Can we hear the multiple ways in which race played out in American music in the first half of the twentieth century?

Class Format: lecture/discussion

Requirements/Evaluation: Evaluation will be based on a 5-page paper, a midterm, a 7-page paper, a final exam, and on class participation.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Random selection.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: We will focus on how racial imagination and systemic racism shaped the creation, marketing, and reception of multiple genres and styles in American popular music from 1890 to 1955. Before embarking on this historical study, we will first become familiar with current theories of race and with dominant American perceptions of race c. 1900. Perceptions of difference (in multiple forms), realities of market power, and issues of artistic and financial equity directly impacted music in this period.

Spring 2022

LEC Section: 01 MR 1:10 pm - 2:25 pm W. Anthony Sheppard

PHIL 320 (F) Topics in Critical Theory: Subjection, Power, Freedom (DPE) (WS)

Any critical theory presupposes an account how both individual and social subjects come into being. Some critical theorists within the Frankfurt School tradition draw from upon ideas about the constitution of the subject developed in the early 19th century German philosophy of Hegel. According to Hegel, subjects are both historically and socially constituted; they are formed through their relations with other subjects. Hence, being with others, being dependent on others, is regarded as a key structuring feature of human existence. By the early 20th century, in the works of Freud, we encounter the idea of the intra-psychic features of subjects and the importance of understanding and regulating psychic forces both within and between subjects in order to adapt to the demands of living at any given time, born as we are both dependent upon and vulnerable to others. This raises the question whether a more complete account of the emergence of subjects must address both psychic, historical and social dimensions of subjectivity, the ways in which they are intertwined, and their importance for not only psychological well-being, but also relatively well-regulated socio-political relations. In this course we take up questions such as the following: What sorts of subjects do we find in modern Western societies? What are the forces, and the dynamics between forces (i.e., economic, technological, modes of communication, techniques of social control, biological, psychological) that make certain types of subjects possible influencing both their self-understandings and their forms of life? What role do emotional, irrational or unconscious forces play? To what extent do these myriad force relations limit, enable, or deform our participation as political citizens, and our capacity to transform and improve them? In our attempts to make headway in answering such daunting questions, we investigate recent debates in critical theory concerning subjection and resistance, intersubjective recognition and redistribution, social pathologies and the idea of a political unconscious. Readings will be drawn from recent work in the Frankfurt School and poststructuralist traditions of critical theory as well as anti-racist, anti-colonial, feminist and queer theories that draw upon them.

Class Format: We will schedule at least one seminar meeting during the semester. I will consult with students about the best time for this meeting.

Requirements/Evaluation: Evaluation will be based on written work (five 6-7 page papers, and five 2-3 page commentaries on your partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Demonstrated background in history of modern philosophy (PHIL 202), modern political theory, or critical and social theories.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to philosophy majors and prospective majors and students with demonstrated interest and background in critical or social theories.

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will write five of 5-7 pages in length, one of which they will revise and submit at the end of the term. We will also meet in seminar once or twice during the semester. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own positions. Students will receive written and oral feedback on both the content and form of their papers and contributions in meetings.

Difference, Power, and Equity Notes: In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. In addition, the course will contain readings that address race, class, gender and the legacy of colonialism.

PHLH 201 (S) Dimensions of Public Health (DPE)

Public health is concerned with protecting and improving health at the level of a community or population. Although individual behavior is an essential element of public health, collective, rather than individual, outcomes are the focus of public health study. In this course we will survey the field of public health, introducing students to core concepts and methods that highlight the interrelationship of individual choice and social institutions with environmental and biological factors in producing health outcomes at the population level. We will develop these concepts and methods within the context of signal cases and public health crises, covering infectious disease epidemics and prevention, sexual health, and mental health.

Class Format: Course will be taught remotely.

Requirements/Evaluation: two papers on a selected population or country and health issue, peer reviews and active contribution to class discussion, including on Glow

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: sophomores, potential Public Health concentrators

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: No divisional credit (DPE)

Difference, Power, and Equity Notes: This course fulfills the DPE requirement because of its central focus on the ways that difference and power shape health outcomes in the U.S. and internationally. It uses an interdisciplinary approach to explore issues including the historical relations between communities of color, healthcare providers, and public health practitioners; contestation over the role of markets and government in public health; and differing explanations for the patterns of race, class, etc., in health outcomes.

PHLH 351 (F) Racism in Public Health (DPE)

In the face of a global pandemic and increased police brutality, states and counties across the nation are declaring racism a public health crisis. This push to identify systemic racism as a high priority in public health action and policy is an important symbolic and political move. It names the faults of histories, systems and institutions but also brings to the spotlight the individual and community responsibility to dismantle racism in the US. In this tutorial, we will examine racism in public health policy, practice and research through an investigation of several mediums of evidence and information, ranging from peer reviewed literature to news editorials, podcasts and documentaries. We will explore specific pathways by which racism functions in the disciplines of biostatistics, epidemiology, social & behavioral sciences, health policy & management and environmental health sciences while also examining the dynamics of power and history in research and community practice. We will also gain skills in speaking across differences and
articulation of how our own perceptions and lived experiences of race and racism impact our study of public health. This tutorial will most likely elicit uncomfortable and hard conversations about race and requires an openness to self-reflection and the practice of articulation.

**Requirements/Evaluation:** bi-weekly tutorial papers, weekly journaling, oral commentaries and tutorial discussion

**Prerequisites:** PHLH 201

**Enrollment Limit:** 10

**Enrollment Preferences:** Public Health concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** In this course students will examine and critically examine the inequities and race based social and health injustices, and the ways racism infiltrates public health action and policy, both historically and currently. They will also refine their self reflection skills in understanding how their own positions of privilege and power, or lack thereof, inform their understanding of public health.

**POEC 287 (F) The Firm (DPE)**

**Cross-listings:** PSCI 287 POEC 287

**Secondary Cross-listing**

The rise of gigantic tech firms--Google, Apple, Facebook, Amazon--has sparked widespread worries about the role of business power in capitalist democracy. Are these firms monopolies? How can they be better regulated? Should they be? This course studies the politics of business by centering analysis on the firm. From the perspective of the workplace, we investigate the firm as an arena of power, where workers and managers meet each other in continuous contests for control. From the perspective of the public sphere, we investigate the firm as an actor whose power maps uneasily onto the channels of democratic representation. Approaching the firm as both arena and actor in a number of capitalist democracies, we will compare the politics of business across different sectors, but will focus especially on tech and finance.

**Requirements/Evaluation:** Four short analysis briefs; four short response briefs; one presentation; one final paper; participation

**Prerequisites:** One introductory course in political science and/or permission of the instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Preference will be given to sophomores or juniors majoring in a Division II field

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

PSCI 287 (D2) POEC 287 (D2)

**Difference, Power, and Equity Notes:** This course studies power through the lens of class, applying that lens to understand how power functions in the employment relationship, as well as the way that firms exercise power in society more generally.

---

**PSCI 160 (S) Refugees in International Politics (DPE) (WS)**

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be--how a crisis can be chronic. We investigate who refugees are, in international law and popular understanding; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations’ roles in managing population displacement; look at the way that images convey
stereotypes; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

**Requirements/Evaluation:** eleven essays: five lead, five response, and one statement. The first two weeks’ essays’ grades will be unrecorded.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** In addition to writing every week, students will have a chance to write ungraded work; will have a chance to revise submitted work; and will have a chance to work on specific skills cumulatively.

**Difference, Power, and Equity Notes:** This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we worry about some of these categories of oppression more than others.

**Cross-listings:** WGSS 260  PSCI 260

**Secondary Cross-listing**

This course examines one of the most important concepts in the analysis of sex and gender and efforts to envision sexual and gender justice, the concept of power, from multiple feminist perspectives. At the core of feminism lies the critique of inequitable power relations. Some feminists claim that power itself is the root of all evil and that a feminist world is one without power. Others portray the feminist agenda as one of taking power, or of reconstructing society by exercising a specifically feminist mode of power. In this course, we will look at feminist critiques of power, how feminists have employed notions of power developed outside of the arena of feminist thought, and efforts to develop specifically feminist ideas of power. Along the way, we will ask: Are some concepts of power more useful to feminism? Can certain forms of power be considered more feminist than others? How can feminist power be realized? Thinkers we will engage include Judith Butler, Audre Lorde, Catherine MacKinnon, Hannah Arendt, and Patricia Hill Collins.

**Requirements/Evaluation:** eight short writing assignments (ranging from 250 words to 750 words), drafting and revision of a 10 pg final essay

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Women’s, Gender, and Sexuality Studies majors

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 260 (D2)  PSCI 260 (D2)

**Writing Skills Notes:** This course aims to carefully unpack the writing process by focusing on particular elements of writing (summary, critical analysis) while also introducing students to tools they can use to improve their writing (freewriting). Short writing assignments like the proposal, outline, and abstract build on one another and culminate in a final essay that goes through the process of drafting and, after peer and teacher review, revision.

**Difference, Power, and Equity Notes:** This course requires students to focus on what power does and should look like from the perspective of difference, exploring the relationship between power and equity in the process. Students will reflect on and discuss the working of power in their own lives, why certain forms of power are more or less visible to particular groups, and how different ideas about power promote different interests in society at large.
PSCI 266  (S)  The United States and Latin America  (DPE)

This course examines the most important political and diplomatic divide in the Western Hemisphere. The first half is a historical survey of U.S.-Latin American foreign relations from the early Spanish American independence movements through the end of the Cold War, with some emphasis on the latter. We consider how this history confirms or undermines influential views about U.S. foreign relations and about international relations generally. We also compare historical U.S. foreign policy toward the hemisphere to current policy globally. The second half covers the most important current issues in hemispheric relations: the rise of leftist governments in Latin America; the war on drugs; immigration and border security; and competition with China for influence. At the end we briefly reconsider current U.S. policies, in view of the economic and political evolution of Latin America, in historical perspective.

Class Format: more lecture in the first half, more discussion and several in-class debates in the second

Requirements/Evaluation:  a map quiz, two short papers, a longer paper, and either another policy paper and a regular final exam, or a 10-page research paper and a short final exam

Prerequisites: none

Enrollment Limit: 35

Enrollment Preferences: Political Science majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: In the paper that considers the first part of the course, the students weigh to what extent U.S. policy toward Latin America was affected by the largely derogatory attitudes of U.S. diplomats toward Latin Americans. A unit in the second part of the course critically analyzes current U.S. immigration policy in this context.

PSCI 287 (F) The Firm (DPE)
Cross-listings: PSCI 287 POEC 287

Primary Cross-listing
The rise of gigantic tech firms--Google, Apple, Facebook, Amazon--has sparked widespread worries about the role of business power in capitalist democracy. Are these firms monopolies? How can they be better regulated? Should they be? This course studies the politics of business by centering analysis on the firm. From the perspective of the workplace, we investigate the firm as an arena of power, where workers and managers meet each other in continuous contests for control. From the perspective of the public sphere, we investigate the firm as an actor whose power maps uneasily onto the channels of democratic representation. Approaching the firm as both arena and actor in a number of capitalist democracies, we will compare the politics of business across different sectors, but will focus especially on tech and finance.

Requirements/Evaluation: Four short analysis briefs; four short response briefs; one presentation; one final paper; participation
Prerequisites: One introductory course in political science and/or permission of the instructor
Enrollment Limit: 15
Enrollment Preferences: Preference will be given to sophomores or juniors majoring in a Division II field
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
PSCI 287 (D2) POEC 287 (D2)

Difference, Power, and Equity Notes: This course studies power through the lens of class, applying that lens to understand how power functions in the employment relationship, as well as the way that firms exercise power in society more generally.

PSCI 319 (F)(S) Marine Policy (DPE) (WS)
Cross-listings: MAST 351 ENVI 351 PSCI 319

Secondary Cross-listing
Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.
**Class Format:** This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

**Requirements/Evaluation:** Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

**Prerequisites:** none

**Enrollment Limit:** 23

**Enrollment Preferences:** must be enrolled at Williams-Mystic in Mystic, Connecticut

**Expected Class Size:** 22

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** must be enrolled at Williams-Mystic in Mystic, Connecticut

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

MAST 351 (D2) ENVI 351 (D2) PSCI 319 (D2)

**Writing Skills Notes:** Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

**Difference, Power, and Equity Notes:** Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

**PSCI 351 (S) The New Left and Neoliberalism in Latin America** (DPE)

**Cross-listings:** GBST 351  PSCI 351

**Primary Cross-listing**

Recent years have seen a resurgence of the political left in Latin America. This course seeks to understand the origins of this new left, the ideas and character of its protagonists, the neoliberal philosophy it opposes, and the arena of democratic politics it inhabits today. We first read polemics from both sides, before stepping back to consider Latin American political economy, including the twentieth-century left, from a more historical and analytical perspective. With this preparation, we then look more closely at major contemporary figures and movements in Venezuela, Bolivia, Ecuador, Brazil, and other countries. After considering explanations of the rise of the left and assessments of its performance in power, we end our common readings by asking what it might mean today to be on the left in Latin America--or anywhere--both in policy and political terms.

**Class Format:** discussion then seminar

**Requirements/Evaluation:** three short essays, a 1-page reflection paper, and a 12-page research proposal

**Prerequisites:** a course on Latin America and a course in Economics or permission of the instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Political Science majors

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

**PSCI 367 (S) Decolonizing International Relations** (DPE)

The Oxford English Dictionary defines Decolonization as "the withdrawal from its colonies of a colonial power; the acquisition of political or economic independence by such colonies." The emergence of an international system of sovereign states--the core foundation of international relations--presumes the process of dismantling systems of domination, extraction, and exclusion ended long ago. However, there is increasing recognition that International Relations in all forms, including theory, research, and policy, continue to be structured by traditional paradigms of power (e.g. white, male, elite). This course begins with the premise that knowledge is embedded within, and often reproduces, power hierarchies. Thus, this class is organized as a collaborative investigation with the aims of: 1) examining how whiteness and other historically dominant perspectives shape International Relations theory and research areas; 2) expanding and improving our understanding of International Relations through different lenses (e.g. race, class, gender, disability, indigenous, queer, subaltern); and 3) exploring the implications of a more inclusive approach to International Relations, both within the classroom as well as contemporary decolonization movements in the US and around the world.

**Requirements/Evaluation:** Participation, 3 response/reflection papers, annotated bibliography

**Prerequisites:** One prior course in International Relations or permission of the instructor

**Enrollment Limit:** 15

**Enrollment Preferences:** Juniors and Seniors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This class encourages students to recognize the power dynamics inherent within, and reproduced by, the study of International Relations as structured by traditionally dominant paradigms. This class provides students with the tools to critically identify, decenter, and deconstruct dominant lenses as well as the opportunity to engage with, and apply, an inclusive approach centering a more expansive range of theoretical perspectives and knowledge production.

PSYC 349 (S) Psychology and Law (DPE)

This course focuses on applications of psychology to the administration of justice. Drawing from the areas of social, personality, cognitive, and developmental psychology, we will look critically at the processes of criminal justice. We will compare the law's informal theories of human behavior with what psychologists know on the basis of empirical studies. We will cover a number of contemporary topics including police-civilian interactions, custodial interrogations, false confessions and guilty pleas, forensic evidence, deception detection, eyewitness identifications, alibi generation and corroborate, repressed and recovered memories, and jury selection and decision-making. We will also discuss methodological issues associated with conducting research in psychology and law. In the laboratory component of the course, students will design and conduct their own empirical research projects based on course readings and topics. These semester-long projects will be conducted collaboratively in pairs or teams.

Class Format: empirical lab course

Requirements/Evaluation: attendance and active class participation, several brief (1-2 page) reading response papers, (2-3) class presentations, written/oral project proposal (4-5 pages), participation empirical project (experiment design, data collection, data visualization, data analysis, interpretation), final APA-style research paper (15-20 pages), oral presentation of the research project

Prerequisites: PSYC 201 and either PSYC 242 or PSYC 221

Enrollment Limit: 16

Enrollment Preferences: Psychology majors

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D3) (DPE)

Difference, Power, and Equity Notes: We will explore the differing dynamics of power between legal actors and consider the psychological and structural factors that contribute to vulnerability, coercion, and inequality in the justice system. Through discussions of race, age, body, gender, disability, and stigmatized identities, this course will encourage students to challenge assumptions of objectivity and fairness in our legal system.

REL 166 (F) Being Muslim, Being American: American Muslim Literature in the 21st century (DPE)
Islam and Muslims in the United States are the subject of extensive public scrutiny and media coverage in broader public discourses. It is less common, however, to hear Muslims' own voices speak about their lives, experiences, beliefs, and commitments. This course will take a literary approach to exploring American Muslims' own narratives about themselves, which will serve as an introduction to religion in contemporary U.S. culture. We will address questions such as: How do American Muslims attempt to fashion their identity in the wake of 9/11? What are the pressures and demands of American national belonging and cultural citizenship that Muslims must navigate? How are race, gender, ethnic heritage, and immigration definitive of Muslim experiences and self-understandings? How are Muslims approaching the tensions between communal belonging and individuality? What are the competing claims and contestations about authentic expressions of Islam? We will be engaging such themes through an analysis of popular memoirs, autobiographies, novels, short stories, poetry, films, and comedy.

Requirements/Evaluation: regular reading responses, short midterm essays, and final paper

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: First-year students and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 166 (D2) COMP 166 (D1) AMST 166 (D2) ENGL 268 (D1)

Difference, Power, and Equity Notes: This course will explore the intersections of power in American Muslim life, such as: Muslims as a religious minority in the context of the War on Terror; racial and ethnic differences in Muslim communities; immigration and national belonging; competing claims to religious authenticity and authority; and conflicting gendered norms. Students will learn to identify these multiple layers and configurations in the texts, and how to analyze their workings in nuanced multidimensional ways.

REL 237 (S) Islam in the United States: Race, Religion, Politics  (DPE)

Cross-listings: REL 237 AFR 237 AMST 237

Primary Cross-listing

Malcolm X is one of the most iconic yet controversial figures in the black freedom struggle in the United States. He is also arguably the most prominent and influential Muslim in the history of the United States. His story and legacy powerfully illustrate the complex intersections of Muslim identity, political resistance, and national belonging. From the early period of "Black Muslim" movements represented by Malcolm X, to the current "War on Terror" era, American Muslims have faced a complex intersection of exclusions and marginalization, in relation to national belonging, race, and religion. Taking Malcolm X as our point of departure, this course examines how American Muslims have navigated these multiple layers of marginalization. We will therefore consider how the broader socio-political contexts that Muslims are a part of shape their visions of Islam, and how they contest these competing visions among themselves. In so doing, we will examine the complex relation between religion, race, and politics in the United States. Throughout the course, we will be engaging with historical and anthropological material, autobiographies, comics, documentaries, films, historical primary-source documents, and social media materials. The course fosters critical thinking about diversity by challenging assumptions of who Muslims are, what being American means, and what Islam is. It also focuses on the complex interaction of different dimensions of diversity, from religion to ideology, race, nationality, ethnicity, culture, gender, and language.

Requirements/Evaluation: regular reading responses, midterm essay, final exam/essay

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Majors and concentrators in REL, AFR, and AMST

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Spring 2022
SEM Section: 01    MW 11:00 am - 12:15 pm     Zaid Adhami

REL 238 (F) Islam and Reason (DPE)

In an essay on the "reality of Islam," the popular New Atheist writer, Sam Harris, concludes: "All civilized nations must unite in condemnation of a theology that now threatens to destabilize much of the Earth... It is time we realized that the endgame for civilization is not political correctness. It is not respect for the abject religious certainties of the mob. It is reason." These words forcefully express the common sentiment that the fanatical blind faith demanded by "mainstream Islam" poses a major threat to the so-called civilized world. Islam is thus seen as exemplifying the irrational dogmatism of religion par excellence. This course will critically examine such assumptions, by exploring how Muslim philosophers and theologians throughout the history of Islam have addressed a variety of questions, such as: Is faith compatible with reason and rationality? What is the relation between reason and scripture? What modes of perception, reasoning, and knowledge are involved in religious belief? What room is there for doubt, skepticism, and critique in Islam? We will explore these questions through an array of primary and secondary readings in Islamic theology, philosophy, mysticism, and ethics, as well as anthropological engagements with lived Islam. Through these explorations, we will also critically reflect on our own cultural assumptions about religious belief, the nature of reason and knowledge, and the politics and power-dynamics of reason and rationality.

Requirements/Evaluation: Regular discussion posts; Midterm essay; Final essay
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Religion majors
Expected Class Size: 5-10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course requires students to engage deeply with a very different philosophical universe than that of the modern West. This is also meant to prompt a critical engagement with our own cultural and philosophical assumptions about reason, knowledge, and religious belief. Finally, we will also reflect on the politics and power-dynamics of reason and rationality, considering how dominant modes of thinking are designated as "reason" and others are relegated to being objects of critique.

REL 242 (S) Women, Gender, and Sexuality in Islam (DPE)

Cross-listings: REL 242 WGS 242 ARAB 242

Primary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic
law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism—the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

REL 249 (S) Anti-Semitism (DPE)

Cross-listings: JWST 249 REL 249

Primary Cross-listing

This course will investigate intellectual traditions, political movements, and cultural objects that portray Jews, Jewishness, or Judaism as essentially pernicious. We will analyze materials from a variety of times and places, including the ancient world, the medieval period, and the present day. We will assess the impact of anti-Semitism on the lives of Jews and non-Jews. But we will also read theoretical approaches to the study of anti-Semitism that raise key questions for our investigation. Where does the term "anti-Semitism" come from and how exactly should it be defined? Is anti-Semitism a continuous phenomenon that connects every claim of Jewish perniciousness, wherever it is alleged, for over two thousand years of human history? Or should every context be treated as fundamentally distinct, so that the claim of Jewish perniciousness is presumed to have a distinct meaning, origin, and purpose in each case? What motivates charges of Jewish perniciousness? What are the particular threats typically alleged to be posed by Jews, Jewishness, and Judaism? How do constructions of Jewish perniciousness fit with constructions of race, gender, ethnicity, religion, class, sexuality, and nationality in different times and places?

Requirements/Evaluation: three short papers (4-5 pages), one longer final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Jewish Studies concentrators, Religion majors, and students who have taken JWST 203

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

JWST 249 (D2) REL 249 (D2)

Difference, Power, and Equity Notes: This course will introduce students to discursive, institutional, and social structures that have organized the stigmatization, domination, and persecution of Jews in various geographic locations for over two thousand years. An understanding of these structures is crucial to understanding contemporary dynamics of difference and power. Students will also learn how anti-Semitism intersects with constructions of race, gender, class, religion, ethnicity, and nation.

Attributes: JWST Core Electives
REL 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Primary Cross-listing

This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively--be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

Attributes: GBST South + Southeast Asia Studies Electives PHLH Social Determinants of Health
Difference, Power, and Equity Notes: This course situates "gnosis" as a practical epistemological orientation used both to disrupt and challenge power arrangements deemed unjust and to empower those who are marginalized within dominant power structures. At the same time, the course interrogates "gnostic" epistemological claims as capable of being used to reinstall hierarchical power structures. Attention to power and equity and how difference is produced is at the center of the course.
passion and ambition, infatuation and seduction, betrayal and vengeance, courage and cruelty, warfare and resistance. Works to include nineteenth-century texts by Chateaubriand, Duras, Balzac, Mérimée, Flaubert, Maupassant, Zola; twentieth-century texts by Colette, Camus, Sartre, Beauvoir, Duras, Ernaux, Guibert, Quint, Lindon, Vilrouge; and twenty-first-century films by Caron, Ozon, Ducastel, Martineau, Dercourt, and Becker. Conducted in French.

Requirements/Evaluation: active class participation, grammar exercises, two short papers, midterm, and final paper

Prerequisites: Exceptional performance in RLFR 104; successful performance in RLFR 105; or by placement test; or permission of the instructor.

Enrollment Limit: 16

Enrollment Preferences: All are welcome, but if over-enrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission.

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 106 (D1) COMP 107 (D1)

Difference, Power, and Equity Notes: This course centers on a critical examination of difference, power, and equity in French film & fiction. The content examines the effects of class, ethnicity, gender, and sexuality on social inequalities among rich & poor, soldiers & civilians, nations & colonies, men & women. The course employs critical tools to teach students how to articulate and interrogate social injustice, through reading, viewing, discussion, writing, and revision.

Spring 2022

SEM Section: 01 TR 9:55 am - 11:10 am Brian Martin

RLFR 202 (F) War and Resistance: Two Centuries of War Literature in France (1800-2015) (DPE)

Cross-listings: RLFR 202 COMP 292 WGSS 201

Primary Cross-listing

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac, Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir, Carion, Jeunet, Malle, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)

Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 202 (D1) COMP 292 (D1) WGSS 201 (D2)

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film.
Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

Fall 2021

**SEM Section: 01    MW 11:00 am - 12:15 pm    Brian Martin**

**RLFR 260 (F) Francophone Graphic Novels (DPE)**

**Cross-listings:** RLFR 260 COMP 260

**Primary Cross-listing**

In this class we will read contemporary graphic novels and *bandes dessinées* from Côte d'Ivoire, Morocco, Guadeloupe, Lebanon, France, and Québec to analyze how they approach subjects such as colonial history, migration and discrimination, gender and sexuality, and representations of disability and the racialized body. We will pay particular attention to the visual form and the critical theory of the graphic novel to further understand why this hybrid genre has become so popular and widespread, and how it is shaping conversations about difference and power in the Francophone world. *Conducted in French.*

**Requirements/Evaluation:** weekly 1-page response papers, two short 4-5-page papers, presentation and final 7-8-page research paper

**Prerequisites:** RLFR 105, 106, by placement or by permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** French majors and certificate students, Comparative Literature majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE)

*This course is cross-listed and the prefixes carry the following divisional credit:*

RLFR 260 (D1) COMP 260 (D1)

**Difference, Power, and Equity Notes:** The readings in this course focus on French colonial and Francophone postcolonial history, contemporary migration, and structures of discrimination built on race, religion, gender, and ableism in the French-speaking world. We will explore how graphic novels in their hybrid visual/verbal forms propose different ways of shaping the dynamics and the discourse of difference and power.

---

**RLFR 300 (S) The Banlieue in Literature, Music, and Film (DPE) (WS)**

**Cross-listings:** RLFR 300 COMP 336 AFR 339

**Primary Cross-listing**

The *banlieue* looms large in the French collective imagination. From its origins in medieval law, the term banlieue at the end of the 20th century has taken on multiple, at times overlapping, but almost exclusively negative meanings. It designates a peripheral geographical space often in contrast to its city center, social exclusion, "urban culture"—as in Hip Hop-produced within that space, and last but not least the symbolic bias through which its inhabitants are viewed (Vieillard-Baron). In this course, we will examine various constructions of the *banlieue* in French music, a manifesto, film, blogs, and literature to focus on the analytical, contestatory and affirmative dimensions of these narratives. Two decades after the film La haine, and ten years after the riots, how are filmmakers, artists, authors, and scholars of the banlieue reimagining and reframing the banlieue? What do current depictions of *banlieues* in the French media tell us about the State, French politics, and the state of French politics? What do "banlieue films" and "banlieue lit" tell us about the *banlieue*? In this course, conducted in French, we will read, watch, and listen to various constructions of the *banlieue* in French music, film, and literature to focus on the contestatory and affirmative dimensions of these narratives.

**Requirements/Evaluation:** 3 thesis five-page research papers, 2 start-of-the-class brief presentations, active participation to in-class discussions and mini-conference on the banlieue (class final project).

**Prerequisites:** RLFR 105 and above

**Enrollment Limit:** 14

**Enrollment Preferences:** French majors and certificate students, Africana and Comparative literature students
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
RLFR 300 (D1) COMP 336 (D1) AFR 339 (D2)

Writing Skills Notes: To hone their research and writing skills (and prepare for their conference on the banlieue), students will write three research papers (with thesis statement and subheadings) from which they will receive professor feedback.

Difference, Power, and Equity Notes: This course, Banlieue in Lit, Music, Film fosters difficult but carefully framed conversations about race, class, gender, citizenship, housing segregation, discursive practices, immigration and belonging in contemporary France and how identities and power relationships are expressed in banlieue film, literature and French hip hop music.

Attributes: FMST Core Courses

Spring 2022

SEM Section: 01  MW 11:00 am - 12:15 pm  Sophie F. Saint-Just

RLFR 410  (F) Senior Seminar: Movement and Migration  (DPE)
How do movement and migration produce and disrupt constructions of identity, home, and the nation? In the context of movement and migration, how is place imagined, experienced and remembered? What are the relationships between movement and containment, flight and freedom? Over the course of the semester, we will examine literary texts, film and visual art from French-speaking communities that focus on: the immigration experience in France, the construction of a Francophone Atlantic identity, internal migration between rural and urban spaces, clandestine migration between Africa and Europe, population displacement due to war, and the possibility of creating portable or nomadic places of memory. Works by Chamoiseau, Glissant, Diome, Condé, Mafré, Pineau, and Binebine among others. Conducted in French.

Requirements/Evaluation: Weekly 1-page response papers, 5-page mid-term paper and a final 10-page research paper and presentation.
Prerequisites: Any 200-level RLFR course, or by permission of instructor
Enrollment Limit: 15
Enrollment Preferences: Senior French majors and students completing the certificate in French, but open to advanced students of French.

Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: Students will explore how literature, film and art narratives on migration and movement challenge (and also sometimes replicate) discourses of exclusion and structures of discrimination based on race and ethnic identity and gender. While the course focuses on French-speaking communities and people, we will think broadly about difference and power as they relate to movement, flight and freedom.

Fall 2021

SEM Section: 01  TF 1:10 pm - 2:25 pm  Katarzyna M. Pieprzak

RLSP 264  (S) Outcasts of the Lettered City: Nation-Building and the Margins in 19th Century Latin America  (DPE) (WS)
Bandits, vagabonds, runaway slaves, and unruly women. Defeated soldiers. Afro-Colombian rivermen. Indigenous Americans and their white captives. Latin American cultural production of the 19th century is conventionally studied in terms of the urban intellectuals' projects of nation-formation in the aftermath of the long struggle for independence from Spain. This course examines that process from the outside, considering instead a series of literary and other writings that represent the marginalized others of the desired nation-state, the women and men, many of them Afro-descended, Indigenous and mixed race, who found themselves excluded from the new national community—or who preferred a life on the pampas, deep in the jungle, or somewhere else outside the confines of bourgeois society. Primary readings will be selected from among the following: Simón Rodríguez, American Societies in 1828, Juan Francisco Manzano, Autobiography of a Slave; Domingo F. Sarmiento, Facundo. Civilization and Barbarism in the Argentine Republic; José Hernández, Martín Pié, Flora Tristán, Peregrinations of a Pariah; Juan Crisóstomo Centurión, Viaje nocturno, Federico Gamboa, Santa; Candelario Obeso, Popular Songs of My Land; Cirilo Villaverde, Cecilia Valdés, Lucio V. Mansilla, Excursion to the Ranquel Indians. We will also read a number of critical essays by leading scholars in the field of 19th century Latin American literature.
Requirements/Evaluation: Students will write and revise approximately 20 double-spaced pages, in Spanish, over the course of the semester. Students will also prepare 10-15 minutes responses to their classmates’ work. We will read 100-150 pages of Spanish prose each week and well as critical essays, which will often be in English.

Prerequisites: Any 200-level course with an RLSP prefix or permission of instructor.

Enrollment Limit: 12

Enrollment Preferences: Spanish majors and potential Spanish majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: This course is conducted as a tutorial. The number of students in each unit (pairs or triplets) depends on how many students enroll, but whatever our structure turns out to be, each student can anticipate multiple opportunities to write and revise their individual essays in response to feedback from their classmate and professor, as well as to serve as the respondent offering feedback other students’ work. Thus we emphasize editing and revision as essential parts of the writing process.

Difference, Power, and Equity Notes: This course examines structures of exclusion in 19th century Latin America -- the reproduction and perpetuation of socio-economic and institutional structures based on racial, gendered and class-based hierarchies established during the colonial era -- and the spaces that historical individuals have been able to occupy within and around them.

Spring 2022

TUT Section: T1 TBA Jennifer L. French

RLSP 319 (S) Dictatorship and the Latin-American Novel (DPE)

Military dictatorship is among the most crucial factors in Latin-American society and history, and some of the continent’s leading novelists have taken it upon themselves to depict the experience in their work. In this course we will examine both the fact of dictatorship itself and the diverse representation thereof in Spanish-American fiction. Novels by García Márquez, Vargas Llosa, Poniatowska, and Tomas Eloy Martinez will be closely studied. Students will also read Absalom! Absalom! by Faulkner, whose influence on Latin-American authors’ techniques of representation has been decisive and profound.

Class Format: In-person.

Requirements/Evaluation: three 8-page papers, response journals, an oral report, a final 3-page paper, and class participation

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 5-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course focuses on the ultimate sort of power—namely, military dictatorship. And it focuses on the historical fact of such a phenomenon within the U.S. political sphere of influence—Latin America. To study dictatorship and its depiction in literature is a means of understanding the nature of that power imbalance and of taking a first step toward some sense of equity.

Attributes: GBST Latin American Studies Electives

Spring 2022

SEM Section: 01 MR 2:35 pm - 3:50 pm Gene H. Bell-Villada

Do the Americas have a common literature? If so, is it possible to trace their roots and continuity from the colonial era to the present? Literary critic Matin Lienhard suggests that it is indeed possible to trace the origin of a literature common to Latin America from the colonial era and into present by focusing on what he calls "alternative literatures"—literatures that relativize the importance of Europeanized and Creole literatures and valorize the richness of oral traditions in the Americas. Such literatures, he asserts, are closely tied to marginalized sectors of society. In this course, we will take
Lienhard's concept of "alternative literatures" as a point of departure to pursue our own examinations of how these "alternative literatures" are constituted. While the primary aim of this course is to focus on the writings of Latin American authors, we will end by exploring the relationship between "alternative" Latin American literatures and Chicana/o/x literatures. Readings will include narrative texts such as Cartas de relación, chronicles of conquest, religious texts, indigenous annals, poetry, and drama, as well as contemporary Latin American and Chicana/o/x novels.

Requirements/Evaluation: Four essays, class presentations, active participation, and regular attendance required

Prerequisites: any 300-level RLSP course or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Senior Spanish Majors.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write four 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule as well as the writings of more contemporary minority authors of Latin America. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze a diversity of Spanish-American colonial texts from the 16th century as well as more contemporary narrative texts.

Fall 2021

SEM Section: 01    TF 1:10 pm - 2:25 pm     Carlos Macias Prieto

RUSS 401 (F) Senior Seminar: Queer Russia (DPE)

This seminar explores queerness as both a cultural concept and social reality in Russia and the Soviet Union from the nineteenth century to the present. We will begin with the history of LBGTQ+ Russians, as well as an overview of texts produced by queer writers, in the Russian Empire and Soviet Union. We will then investigate queerness in post-Soviet Russia, where non-normative sexuality has become a hotly contested political concept over the past three decades. In addition to reading texts and viewing films by about and by LGBTQ+ Russians, we will examine the genesis, implementation, and impact of the 2013 ban on "homosexual propaganda," which has placed homophobia at the center of national identity in the Russian Federation. We will also read theoretical works to help us understand not only the unique formations and expressions of queerness in Russia, but also how local Russian queerness plays out on the global stage.

Requirements/Evaluation: completion of all reading and viewing assignments, preparation for and active participation in class discussions, two 4-5 page papers, and a final 20-minute presentation based on students' independent research

Prerequisites: RUSS 252 or the permission of the instructor

Enrollment Limit: 10

Enrollment Preferences: those majoring in Russian or pursuing a Certificate in Russian

Expected Class Size: 5

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This seminar explores how gender and sexuality have been conceptualized and experienced in Russia with a particular emphasis on how non-normative gender and sexuality have become tools in the struggle for social and political power in post-Soviet Russia. Our exploration of queerness in Russia over the past two centuries will help students to develop critical skills for assessing how gender and sexuality are currently conceptualized in the United States.

Fall 2021

SEM Section: 01    TF 2:35 pm - 3:50 pm     Julie A. Cassiday

SOC 217 (F) Inequality in a Classless Society: The Soviet Experiment and its Aftermath (DPE)
All societies have to come up with some way of distributing wealth and income. In turn, individuals and groups comprising these societies grapple with, justify, and at times contest their place in social and economic hierarchy. Complex as they are, such processes are all the more pressing in societies built on the explicit promise of economic equality, as was the case in the USSR and socialist Eastern Europe. Using the combined perspectives offered by economics, history, and sociology, this course will trace the practices and lived realities of social differentiation and income/wealth distribution brought about by the socialist experiment and intensifying after its demise. We will explore the life of class in these supposedly classless societies, and its reconfiguration after 1991, approaching class as, simultaneously, a matter of social classification, consumption differences, cultural identity, economic policy, and political power. We will study how the economic and political developments of late-socialism and the transition period generated class-based differences in all walks of life, and ask what these experiments have to teach us about inequalities and persistent social and economic divisions closer to home.

Requirements/Evaluation: Class participation; small writing assignments and research exercises; and a final research project

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: 1st and 2nd-year students thinking about majoring in Anthropology, Sociology, or Economics

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major. It may be taken for the SOC major.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 107 (D2) SOC 217 (D2)

Difference, Power, and Equity Notes: The subject matter of this course is all about the origins, evolution, current structures, and implications of economic and social differentiation in a region quite apart from the United States. Moreover, by crossing disciplinary lines, we hope it will offer a particularly valuable perspective on such issues. Thus, we felt that it should naturally serve as a DPE course.

Fall 2021

SEM Section: 01 MR 1:10 pm - 2:25 pm Steven E. Nafziger, Olga Shevchenko

SOC 230 (S) Memory and Forgetting (DPE)

On the surface, remembering generally confronts us as a deeply personal act. What is more private than nostalgic reverie or the secrets of a dark and painful past? Yet even "individual" memories take shape through social frameworks, and we also remember "collectively" through shared myths, narratives, traditions, and the like. This course will explore the social dimensions of memory and remembering as well as their inevitable counterpart--forgetting. How do social frameworks inform our individual understandings of the past and shape our sense of selfhood? How and why are figures from the past cast as heroes or villains? How do collectivities celebrate past glories, and how do they deal with shameful or embarrassing episodes? How do economic and political power relations shape struggles over the past? In an increasingly global society, can we speak of "cosmopolitan" or "transcultural" forms of memory? Topics will include autobiographical memory and self-identity; memorials, museums, and monuments; reputations, commemorations, and collective trauma; silence, denial, and forgetting; and transitional justice, official apologies, and reparations.

Requirements/Evaluation: thoughtful and consistent class participation; an autobiographical essay (4-5 pages); four response papers (2 pages each); and a research paper (8-10 pages) with class presentation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: if overenrolled, students will be asked to submit a short statement of interest

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course pays particular attention to how power and inequality shape narratives about the past. We will
examine and compare several efforts to transform national memories, such as the Equal Justice Initiative memorial in the United States and the Truth and Reconciliation Commission in South Africa. In doing so, we will also consider the role of memory and memorialization in broader processes of social change.

Spring 2022
SEM Section: 01 MR 2:35 pm - 3:50 pm Christina E. Simko

STS 101 (S) STEM's Empire: A Critical Introduction to Science and Technology Studies (DPE)
Who follows the science? The COVID-19 pandemic has upended many’s beliefs in the rationality of scientific enterprise, exposing the institutions, power dynamics, and inequalities that shape its constitution. Meanwhile, the "tech fix" approach to ending the pandemic solely through vaccination has produced staggering death tolls compared to non-pharmaceutical interventions like masking, social distancing, and contact tracing implemented in places such as Liberia, Rwanda, and the Asia-Pacific, which have contained COVID-19 with relative success. As feminist and postcolonial scholars have long told us, the power of science often operates through division, producing dichotomies such as West/non-West, modern/traditional, global/local, developed/underdeveloped, and science/non-science. It is inextricably linked to the colonial conquest of territories, bodies, and minds. In this course, we will explore scientific practice and the production of scientific knowledge through the metaphor of empire: How might we understand scientific claims to truth, knowing that colonial relations of power are still embedded in our identities and institutions, and in the hegemonies that shape our world? We will explore this question by engaging with feminist and postcolonial critiques of science, studying controversies over the environment, medicine, indigenous knowledge, diversity in STEM, and other topics. We will pay particular attention to the situated processes out of which claims to the universal or global are made, asking who is left out of making such claims as well. An introductory course, students will be exposed to key debates in STS and learn critical tools for analyzing science and technology in an unequal but interconnected world.

Requirements/Evaluation: Several short response papers, mid-term paper, final project
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: first-years and sophomores
Expected Class Size: 14
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)
Difference, Power, and Equity Notes: This course will demonstrate how issues of power shapes the practices of empiricism.

Spring 2022
SEM Section: 01 TR 11:20 am - 12:35 pm Shoan Yin Cheung

STS 102 (F) Breeding Controversy: Technologies and Ideologies of Population Control (DPE)
Cross-listings: WGSS 103 STS 102
Primary Cross-listing
What is "good breeding?" For whom is birth control "liberating?" This course traces the surprising ways that concepts of population growth and decline from the natural sciences come to inform social discourses on "overpopulation" in the twentieth and twenty-first centuries. Science and politics mix to decide: who should be able to reproduce--and, consequently, who might not be born--so that some may live more prosperously? By studying the history of eugenics movements, contraceptive technologies in the context of development, and the racialized cultures of reproductive medicine, we will analyze how scientific ways of thinking about human lives reflect and reproduce social inequities. We will use the tools of feminist technoscience studies to understand how science, culture, power, and politics intersect to create new technologies of "selection" that are far from natural. New literatures in critical race STS, black feminist thought, and critical theory will inform our discussions.

Requirements/Evaluation: Weekly paper or response and in-class debate.
Prerequisites: None.
Enrollment Limit: 10
Enrollment Preferences: Freshmen. If over-enrolled, students will submit a short paragraph stating their interest in the course.
Expected Class Size: 10
Difference, Power, and Equity Notes: This course will demonstrate how scientific knowledges also reflect biases organized along lines of social difference, including race, gender, class and nation. Readings in critical race theory will give students a deeper appreciation of these issues.

Attributes: PHLH Reproductive, Maternal and Child Health
**STS 231 (S) Africa and the Anthropocene (DPE)**

**Cross-listings:** STS 231  ENVI 231  AFR 231

**Secondary Cross-listing**

Despite its low contributions to global carbon emissions, the continent of Africa is predicted to experience some of the worst effects of climate change. This interdisciplinary course investigates the causes and consequences of this troubling contradiction. It positions the African continent as an important site for understanding how legacies of empire, racial and gendered inequality, resource extraction, and capital accumulation impact contemporary global environmental politics. Students will engage theoretical texts, reports from international organizations, films, novels, and web-based content. Topics include: humanism/post-humanism; migration and displacement; representations of conflict; and sustainable development.

**Requirements/Evaluation:** Assignments include: short written commentaries, current event analysis, presentations, and a final analytical essay

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Environmental Studies majors and concentrators

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 231 (D2) ENVI 231 (D2) AFR 231 (D2)

**Difference, Power, and Equity Notes:** Africa and the Anthropocene considers inequity in environmental politics from the vantage of the African continent. Through selected readings and classroom discussions students will tackle questions of power, racial and gendered difference, empire, and economic stratification. The course contributes to the DPE requirement by helping students to develop skills to better analyze abiding challenges in global society.

**Attributes:** ENVI Humanities, Arts + Social Science Electives  GBST African Studies Electives  GBST Economic Development Studies Electives
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 250 (D2) ENVI 250 (D2)

Difference, Power, and Equity Notes: This course will explore how unequal power leads to environmental injustice. Specifically, we will analyze how local and global environmental problems are distributed unevenly according to race, gender, and class. This is a service-based learning course, and students will hone skills to address environmental injustices.

SEM Section: 01    W 1:10 pm - 3:50 pm     Laura J. Martin

STS 269 (F) Mindfulness Examined: Meditation, Emotion, and Affective Neuroscience (DPE) (WS)

Cross-listings: REL 269 STS 269 ASIA 269 ANTH 269

Secondary Cross-listing

This course provides a social analysis of and practical engagement with mindfulness in the US today. It considers the modern applications of Buddhist meditation as a tool to improve awareness of the related processes of mind, behavior, and emotions within landscapes structured by racism, sexism, and other systemic inequalities. We consider how mindfulness relates to Buddhist discourses as well as the rapid rise of fields like contemplative neuroscience, affective neuroscience, and integrative neurobiology. How can mindfulness help people communicate more effectively—be they doctors or patients, teachers or students? How has the exploding research on mindfulness and meditation since 2000 help us understand the intersection of human emotions, behaviors, and relationships? We train in a variety of Buddhist meditation practices through the semester including forest bathing, mindfulness, compassion meditation, while unpacking the subjective experience of our minds and emotions first-hand. Students will be asked to train in mindfulness practices the entire semester while studying models of the mind developed by research in clinical and evolutionary psychology, affective neuroscience, and interpersonal neuroscience.

Requirements/Evaluation: weekly tutorial papers and discussion

Prerequisites: A prior class or some experience with meditation is recommended

Enrollment Limit: 10

Enrollment Preferences: ANTH, SOC, REL, ASST majors; PHLH, STS concentrators; seniors and juniors

Expected Class Size: 10

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 269 (D2) STS 269 (D2) ASIA 269 (D2) ANTH 269 (D2)

Writing Skills Notes: This class will involve weekly tutorial essays or oral responses, intensive written feedback on every essay, and a mid-semester 'writing chat' with the instructor.

Difference, Power, and Equity Notes: This class fulfills the Difference, Power, and Equity requirement because it will explore the ways that mindfulness can address the growing epidemic of anxiety, depression, and other mental health issues we find in the US today. We study mindfulness from an intersectional perspective and relate its benefits to intersecting inequities and intergenerational trauma in the US today.

STS 311 (S) Global Health in the Transpacific (DPE)

Cross-listings: AMST 352 STS 311 ASIA 352

Primary Cross-listing
East is East, and West is West, Rudyard Kipling famously wrote in 1889, but never has this been true. Just as war, imperialism, and transnational flows of capital move people, cultures, and ideas across the Pacific, similar patterns of migration and mobility shape the transmission of illness and disease as well. This course explores global health and disease control as sites of domination and resistance in the Pacific Rim. Articulating the linkages between Asia/America, we will look at the racialization of people and pestilence during the third plague pandemic in Hong Kong and San Francisco, malaria control projects in colonial Southeast Asia, and the rise of modern genomics out of the ashes of Hiroshima and concern over radiation risk, and other cases, to understand how disregard for Asian bodies has shaped the development of modern medicine and public health. At the same time, Indonesia's claim of "viral sovereignty" to protect their biological specimens from Western intellectual property regimes and Hmong refugees' resistance to biomedical intervention in their struggles with mental illness offer counterpoints to Western hegemony. This course provides a critical examination of biosecurity as modern geopolitical struggle and puts Asia-Pacific and the Pacific Rim at the center of our exploration of global health.

Requirements/Evaluation: Reading responses, two short review essays, and one seminar paper
Prerequisites: Previous coursework in anthropology and sociology, some knowledge of the Asia-Pacific region.
Enrollment Limit: 12
Enrollment Preferences: Juniors and Seniors, STS concentrators. If overenrolled, students will submit a short paragraph explaining their interest in the course.
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 352 (D2) STS 311 (D2) ASIA 352 (D2)

Difference, Power, and Equity Notes: This course examines the inequalities that shape global health interventions.

STS 321 (F) Unsettled Futures: Time, Crisis, and Science Fiction from the Margins (DPE)
Cross-listings: AMST 321 STS 321
Secondary Cross-listing

Societies around the globe are now confronting a triple crisis that threatens not only political orders but also the very existence of certain forms of life: (1) financial collapse(s) that have increased the awareness and severity of mass inequality, (2) climate change and mass extinctions, and (3) the rise of white supremacy and ethno-nationalisms that threaten BIPOC lives and representative democracies. These material and political challenges have depleted many of the cultural resources that enable imagining non-apocalyptic futures. Yet, these crises are not novel. Many groups in the periphery--geographic, economic, and cultural--were and are already living through the uneven distribution of the apocalypse. Science fiction (SF) has emerged as a privileged symbolic field for the expression of hopes and anxieties that drive both culture and tech industries. Whether seen as a form of productive pessimism or liberatory theory, SF from the margins is deployed as a political tool for enacting change in the present. In this course, we will survey the history of SF as a variable and theoretical orientation constituted through the unfolding of uneven global encounters. We will analyze SF in the Cold War, Anthropocene, decolonization movements, and postcolonial and Indigenous landscapes, reading major works in SF and science and technology studies (STS) that address the politics of crisis, apocalypse, and global futures. In addition to novels and short stories, this course will incorporate film, graphic novels, music videos, video games, and other science fiction subgenres.

Requirements/Evaluation: Class discussion, approximately 10 pages of creative writing, 5 page analysis paper of your classmate's creative writing, final paper or project (5-8 page paper or equivalent)
Enrollment Limit: 15
Enrollment Preferences: Students who have taken American Studies 101 and/or Science and Technology Studies 101
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 321 (D2) STS 321 (D2)

**Difference, Power, and Equity Notes:** This course examines the racial, ethnic, gendered, and sexed dimensions of science fiction and traces how marginalized people have imagined the future amidst an atemporal and unfolding apocalypse. Students will work with postcolonial, Indigenous, queer, and critical race media concerning the future, and will gain the skills needed to read political orders and crises through the lens of the margin.

STS 353 (S) *Is Science Native to Turtle Island? The History of Native Science in North America* (DPE)

**Cross-listings:** STS 353 AMST 353

**Secondary Cross-listing**

Settler sciences and technologies deployed by Europeans colonizing Turtle Island (what settlers called North America) were introduced as weapons of Indigenous termination. From medical violation, to anthropological theft, and industrial pollution, settler technoscience objectified and appropriated Indigenous people and lands, and attempted to displace Indigenous knowledge in the pursuit of settler supremacy. Indigenous bodies were cast as victims, objects and sometimes the tools of this project. And yet, as tools and objects, Indigenous peoples took up settler technoscience in a multitude of ways that failed (both purposefully and not) to adhere to the colonizing mission, incorporating Indigenous knowledges and orientations, subverting settler science as a source of authority, and positioning science as a site of Indigenous sovereignty. The practice of taking up science as a tool of decolonization has become explicit in recent decades as expressly Native sciences now shape tribal funding, college education, and negotiations with international governing bodies. This course will trace the history of Native science across different nations and disciplines from the antebellum period when settler sciences were taking shape in civilian institutions to the present when Native science is professionalizing and being codified. We will read primary sources and scientific treatises by Indigenous leaders, activists, and scientists alongside secondary sources in Indigenous science and technology studies (STS), history, and postcolonial and queer theory.

**Requirements/Evaluation:** attendance and class participation, two 4-page research papers, and a final creative project (TBD with instructor) or 8- to 10-page paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** American Studies majors and Science and Technology Studies concentrators

**Expected Class Size:** 13

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 353 (D2) AMST 353 (D2)

**Difference, Power, and Equity Notes:** This course will explore how settler sciences have been used as a technology of difference making, dispossession, and genocide in United States history. It will also provide students a theoretical toolkit and historical perspective by which they can grapple with the fact that power structures like settler technoscience can be a source of both colonization and liberation.

STS 370 (F) *Medicine and Campus Health in Disruptive Times* (DPE) (WS)

**Cross-listings:** STS 370 WGSS 371 ANTH 371

**Secondary Cross-listing**

This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history
that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.

**Requirements/Evaluation:** Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.

**Prerequisites:** A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended

**Enrollment Limit:** 20

**Enrollment Preferences:** Majors in Anthropology, Sociology, Women’s, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

**Writing Skills Notes:** This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

**Difference, Power, and Equity Notes:** This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

---

**STS 413 (S) Feminist and Critical Technoscience** (DPE)

**Cross-listings:** WGSS 413 STS 413

**Primary Cross-listing**

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? Scholars of feminist science and technology studies (FSTS) have addressed these questions in their studies of scientific objectivity, technological vulnerability, environmentalism, and the makings (or doings) of race as well as gender. We will explore these questions and topics with a view to identifying the range of ethical, political, and epistemological practices within feminist and critical technoscience. We will read theoretical texts in FSTS, such as Donna Haraway’s “Situated Knowledges” and Safiya Umoja Noble's "A future for intersectional black feminist technology studies." We will also read case studies, such as Pat Treusch's "The Art of Failure in Robotics" and Emily Martin's "The Egg and the Sperm: How Science Has Constructed a Romance Based on Stereotypical Male-Female Roles." While our preliminary readings will be set in advance, students will help shape the syllabus as we advance toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

**Requirements/Evaluation:** discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); annotated bibliography; final essay (12-15 pages + in-class presentation)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Science and Technology Studies concentrators
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 413 (D2) STS 413 (D2)

Difference, Power, and Equity Notes: Central to “Feminist and Critical Technoscience” is a recognition of and engagement with the historical under-privileging of women, women's work, and women's bodies in capital-S "Science" and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory. We will also examine feminist accounts of contemporary technoscientific work as well as critical STS with a focus on race.

THEA 246 (F) Asian American Performance: Activism and Aesthetics (DPE)
Cross-listings: THEA 246 GBST 246 AMST 249

Primary Cross-listing
This seminar will explore contemporary Asian American plays, stand-up comedy, performance art, and spoken word with an eye to how artists do politics through their cultural labor. We will begin with a brief survey of images from popular media to identify legacies of Orientalism. From here we will move towards examining the ways in which Asian American artists from various eras subvert stereotypes and pursue projects of social justice. In watching performances and reading scripts, essays, and interviews, we will attend to narratives, acting methods, theatrical design, spectatorship, and the political economy of cultural production that shapes how Asian American artists make and show work. In addition, we will explore how artists stake political claims in the public sphere through teaching and community organizing.
Requirements/Evaluation: two 5-page critical essays, reading responses, class presentations, and active discussion participation
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: sophomores, juniors, and seniors
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 246 (D1) GBST 246 (D2) AMST 249 (D2)

Difference, Power, and Equity Notes: Course fosters critical engagement with artistic practices that seek to address the concerns of populations in the US who have historically had unequal access to resources and audiences for representing themselves and their political concerns. Students will ask questions about how Asian American artists address legacies of Orientalism, as well as how they facilitate community engagement and approach projects of social justice.

Fall 2021
SEM Section: 01 W 1:10 pm - 3:50 pm Shanti Pillai

THEA 272 (S) Theatre and Environment: Site, Ecology, Utopia (DPE)
Cross-listings: THEA 272 ENVI 271

Primary Cross-listing
What is theatre's relation to the environment, whether natural or social? How does the site, place, or context of a performance change its meaning? What role does theatre play within grassroots campaigns for climate action, environmental justice, or Indigenous land rights? How can we use theatre to, in the words of adrienne maree brown, “practice, in every possible way, the world we want to see?” In this studio course, participants will
collaborate in small groups to create and share short performances based on a series of prompts, such as: site, nature, immersion, ecology, biomimicry, and utopia. Acknowledging the deep inequities (racial, gendered, ethnic, class-based) that constitute all human and environmental interaction, we will work to understand how art's relationship to the environment is itself shaped by the historical legacies of empire and global capitalism. As a contribution to the work of the studio, each student will share independent research on an artist, activist movement, or collective of their choice, such as: Hito Steyerl, Ellie Ga, Marta Rosler, Joan Jonas, Paul Chan, Theater Gates, Bread and Puppet, Punch Drunk, En Garde Arts, Talking Birds, Rimini Protokoll, Extinction Rebellion, Greenpeace, and others. Critics and theorists considered may include: Allan Kaprow, Augusto Boal, Miwon Kwon, Nick Kaye, Claire Doherty, Donna Haraway, Grant Kester, Nato Thompson, and adrienne maree brown. As a special project in the class, we will collaborate with The Zilkha Center to create a series of performances that engage with topics relevant to the campus community, including climate action and environmental justice. Note: this is a maker's course that invites students to create, develop, perform, and share their work with each other and, in some cases, public audiences.

**Class Format:** This is a maker-based studio course that requires deep collaboration on the creation, development, and performing of original works of theatre and live art.

**Requirements/Evaluation:** Creation and presentation of a series of four short performance pieces; leading a 10-minute class discussion; a 15-minute independent oral presentation on a chosen artist or collective; weekly journal writing; deep and active participation and collaboration.

**Prerequisites:** none

**Enrollment Limit:** 16

**Expected Class Size:** 10-12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

THEA 272 (D1) ENVI 271 (D1)

**Difference, Power, and Equity Notes:** This course interrogates the deep inequities, injustices (racial, gendered, ethnic, and class-based), and power relations that constitute all of humanity's relation with earth's environment, ecosystem, and ecology. Students will not only study artists and collectives engaged with the work of environmental justice, accountability, and action, they will also make such art themselves.

**Attributes:** ENVI Humanities, Arts + Social Science Electives

THEA 301 (F) **Embodied Archives: Global Theatre & Performance Histories** (DPE)

**Cross-listings:** COMP 303 THEA 301

**Primary Cross-listing**

What is the past good for? Why study theatre history now? What do the archival performance traditions, practices, and sources of yesterday have, if anything, to offer the theatre artists of today and tomorrow? Digging into these questions, this combined studio/seminar course will introduce students to major global theatre and performance histories by considering how they've been taken up--adapted, appropriated, recycled, critiqued, and re-appropriated--by artists working in the field now. Why does dramatist Luis Alfaro return to Sophocles' *Electra* to tell a story about the experiences of Chicano communities in L.A.? What does the playwright Branden Jacobs-Jenkins find compelling about the allegorical performances of English Medieval theatre? What role does traditional Korean dance ritual play in the experimental theatre of artist Young Jean Lee? How have collaborators at New York's Public Theater sought to re-vitalize Shakespeare's works through community-driven practices? Through comparative pairings such as these, we will study and draw inspiration from the ways contemporary dramatists, makers, directors, and performers have approached the theatrical forms and performance practices of the past in the effort to create new perspectives on the present. While attending to theatre's formal and aesthetic aspects, we will at the same time focus on the relationship of performance to the enduring legacies of empire, state power, colonialism, and private capital in which they are historically embedded and by which they are shaped. If and when possible, we will encounter archival sources housed in College Archives and WCMA. As a final creative project, students will adapt, critique, or re-appropriate a source material of their own choosing. This course is required for Theatre majors and is a prerequisite for THEA 401.

**Class Format:** This class is a combined studio/seminar. Students will be required to present and share their creative responses to the material studied in the course.
Requirements/Evaluation: journal writing and active participation in class; a midterm creative adaptation project and accompanying "research casebook"; participation as discussion leader for one class; and a final creative adaptation or performance project and accompanying "research casebook."

Prerequisites: For Theatre majors: any 100 or 200-level theatre course.

Enrollment Limit: 16

Enrollment Preferences: Theatre majors; Comparative Literature majors

Expected Class Size: 8-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 303 (D1) THEA 301 (D1)

Difference, Power, and Equity Notes: This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the dominant sites of knowledge transfer, status, and value in our field. Instead, theatre and performance are approached as diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in which they historically arise.

Fall 2021

STU Section: 01 TR 11:20 am - 12:35 pm Amy S. Holzapfel

THEA 304 (S) The Gay Menagerie: Gay Male Subcultures (DPE)

Cross-listings: WGSS 305 ANTH 305 AMST 305 THEA 304

Secondary Cross-listing

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in a (mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (D2) ANTH 305 (D2) AMST 305 (D2) THEA 304 (D1)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

Attributes: WGSS Racial Sexual + Cultural Diversity Courses
WGSS 101  (F)(S) Introduction to Women's, Gender & Sexuality Studies  (DPE) (WS)
This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across the globe. We will survey a wide variety of writers and issues--historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

Class Format: Mix of lectures and seminars

Requirements/Evaluation: Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS majors and potential WGSS majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: required course for the Women's, Gender and Sexuality Studies major

Distributions:  (D2)  (DPE) (WS)

Writing Skills Notes: This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.

Difference, Power, and Equity Notes: This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies' history, activism, and theory.

WGSS 103  (F) Breeding Controversy: Technologies and Ideologies of Population Control  (DPE)

Cross-listings:  WGSS 103  STS 102

Secondary Cross-listing

What is "good breeding?" For whom is birth control "liberating?" This course traces the surprising ways that concepts of population growth and decline from the natural sciences come to inform social discourses on "overpopulation" in the twentieth and twenty-first centuries. Science and politics mix to decide: who should be able to reproduce--and, consequently, who might not be born--so that some may live more prosperously? By studying the history of eugenics movements, contraceptive technologies in the context of development, and the racialized cultures of reproductive medicine, we will analyze how scientific ways of thinking about human lives reflect and reproduce social inequities. We will use the tools of feminist technoscience studies to understand how science, culture, power, and politics intersect to create new technologies of "selection" that are far from natural. New literatures in critical race STS, black feminist thought, and critical theory will inform our discussions.

Requirements/Evaluation: Weekly paper or response and in-class debate.
**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** Freshmen. If over-enrolled, students will submit a short paragraph stating their interest in the course.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 103 (D2) STS 102 (D2)

**Difference, Power, and Equity Notes:** This course will demonstrate how scientific knowledges also reflect biases organized along lines of social difference, including race, gender, class and nation. Readings in critical race theory will give students a deeper appreciation of these issues.

**Attributes:** PHLH Reproductive, Maternal and Child Health

---

**WGSS 105 (F)(S) American Girlhoods (DPE) (WS)**

**Cross-listings:** AMST 105  WGSS 105  ENGL 105

**Secondary Cross-listing**

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of “manners and morals” does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

**Requirements/Evaluation:** at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

AMST 105 (D2) WGSS 105 (D2) ENGL 105 (D1)

**Writing Skills Notes:** Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

**Attributes:** AMST Arts in Context Electives

**WGSS 113 (F) The Feminist Poetry Movement (DPE) (WS)**
Cross-listings:  ENGL 113  AMST 113  WGSS 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: three analysis papers (4-5 pages), creative (1-2 pages), discussion posts (5 pages), curated final project (archival exhibit with 7-page paper), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 113 (D1) AMST 113 (D2) WGSS 113 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts, three four-to-five-page graded papers, one creative assignment, and a final digital research project (10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

WGSS 201  (F)  War and Resistance: Two Centuries of War Literature in France (1800-2015)  (DPE)

Cross-listings:  RLFR 202  COMP 292  WGSS 201

Secondary Cross-listing

In 1883, Maupassant called on his fellow war veterans and writers to join him in speaking out against warfare and violence, crying "Let us dishonor war!" From the Gallic Wars against Caesar (during the first century BC) to recent terrorist attacks in France (at the opening of the twenty-first century), the French literary tradition is rich in texts that bear witness to war and speak out against its monstrous inhumanity. While war literature in France can be traced back to ancient and medieval texts on Vercingétorix, Charlemagne, William the Conqueror, and Joan of Arc, this course will focus specifically on literary representations of war during the nineteenth- and twentieth-centuries, from the Napoleonic Wars, to the First and Second World Wars, to the Algerian and Cold Wars, and the "War on Terror." Discussions will examine the impact of war on soldiers and civilians, patriotism and
pacifism, history and memory; the implications of war as invasion and conquest, occupation and resistance, victory and defeat; the relationship of war
to gender, sexuality, and ethnicity; and the role of war in colonialism and genocide. Readings to include novels, short stories, and poems by Balzac,
Stendhal, Hugo, Rimbaud, Daudet, Maupassant, Zola, Cocteau, Wiesel, Duras, Camus, and Fanon. Films to include works by Resnais, Renoir,
Carion, Jeunet, Maile, Angelo, Pontecorvo, and Duras. Conducted in French.

Requirements/Evaluation: active class participation, midterm exam, and two to three papers (of 3-5 pages each)

Prerequisites: exceptional performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of
instructor

Enrollment Limit: 16

Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors;
and those with compelling justification for admission

Expected Class Size: 16

Grading: yes pass/fail option, no fifth course option

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in French war literature and film.
Through the study of war (as invasion and conquest, occupation and resistance, colonialism and genocide), the course thus challenges students to
examine the effects of class, race, religion, ethnicity, gender, and sexuality in narratives on war and violence, and on survival and resistance.

Fall 2021

SEM Section: 01 MW 11:00 am - 12:15 pm Brian Martin

WGSS 202 (F)(S) Foundations in Sexuality Studies (DPE)

This course will offer an introduction to the burgeoning interdisciplinary field of sexuality studies in part through examining historical, legal, literary,
filmic, cultural studies, sociological, and popular texts, as well as work done under the umbrella of queer theory. It explores the role of race, class,
religion, science, region, and nation in the construction of modern gender and sexual identities and in the lived experiences of dissident genders and
sexualities. We will examine a range of issues, including histories and strategies of resistance; transgender and intersex theory and activism; critiques
of the white racial hegemony of lesbian and gay studies; the consequences of gay marriage; the politics of AIDS and its theoretical implications;
globalization and sexuality; the rise of queer visibility and its relation to commodity culture; and recent conceptualizations of homonormativity. The goal
of the course is not to achieve any kind of political or intellectual consensus, but to have rigorous debate over some of the key issues in queer studies.

Class Format: discussion

Requirements/Evaluation: Class participation, on-line discussion forum, two papers of around 5-7 pages.

Prerequisites: None. WGSS 101 may be helpful as background knowledge, but is not required.

Enrollment Limit: 19

Enrollment Preferences: Women's Gender & Sexuality Studies majors, short statement of interest in case of over-enrollment

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course examines sexual diversity in various forms and asks students to interrogate questions of privilege
and positionality, including the intersectional contemplation of sexuality's relationship to race, ethnicity, ability, class, religion, and other axes of
identity. It investigates not only sexual difference, but the history of sexual identity and progressive narratives of "gay rights" that have developed over
time.

Fall 2021

SEM Section: 01 TR 9:55 am - 11:10 am Kai M. Green
In this course, we explore cultural texts that attempt to come to terms with—or exploit—the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when.” Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a “global race to genetically modify humans,” as the anthropologist Eben Kirksey has documented in his new book The Mutant Project. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary In the Family, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel Dawn explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The filmGattaca shows us a fully realized dystopian society where genetically modified humans are the norm—a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

Requirements/Evaluation: Two short analysis papers (4-5 pages), digital humanities Story Map assignment/art analysis, discussion posts (5 pages), short presentation, longer final researched paper/project (8-10 pages).

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Women's, Gender, and Sexuality Studies, American Studies, English majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 208 (D1) AMST 206 (D2) STS 208 (D2) WGSS 208 (D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: weekly p/f discussion posts; two four-to-five-page graded papers; one descriptive digital assignment (the Story Map); and a final researched paper (8-10 pages)—written in stages. Students receive critical feedback on written assignments through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next.

Difference, Power, and Equity Notes: This course asks students to think deeply about questions of social justice in the context of the revolution in modern genetics. Race, class, gender, and sexuality all play a role in who has access to new life-saving technologies, and how these technologies are used. This course employs critical tools (feminist and queer theory, ethics’ case studies, close reading) to help students question and articulate the social injustices at play in scientific research and bioengineering.

WGSS 242 (S) Women, Gender, and Sexuality in Islam    (DPE)

Cross-listings: REL 242   WGSS 242   ARAB 242

Secondary Cross-listing

The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism--the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences. Some of the topics covered in this course include: marriage and divorce, slavery, modesty and veiling, and homosexuality.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

REL 242 (D2) WGSS 242 (D2) ARAB 242 (D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

Spring 2022

SEM Section: 01    TR 8:30 am - 9:45 am     Saadia  Yacoob
From the early modern anxieties about China’s status as the “sick man of Asia” to contemporary concerns regarding the prospect of transnational pandemics, “illness” and their related stories have played a critical role in making and contesting individual psychologies and Chinese modernity in the 20th and 21st centuries. Actual illnesses, from tuberculosis to AIDS to the Novel Coronavirus, constitute not only social realities that trouble political and popular minds in their own right; but further provide powerful metaphors for exploring issues of human rights, national identity, and transnational circulation. This course examines how Chinese literature in the 20th and 21st centuries writes and visualizes “illness” – a universal human experience that is nevertheless heavily bounded by culture and history. Specifically, we examine the cultural and social meaning of “illness”; the relationship between illness on the one hand, and the politics of body, gender, and class on the other; we ask how infectious disease, and mental illness are defined, represented, and understood in both male and female writers’ analytical essays and fictional writings in the 20th century; we examine how metaphorical “illness” such as infectious cannibalism and fin-de-siècle “viruses,” are imagined and interpreted by key culture figures ranging from the founding father of modern literature (Lu Xun), to the winner of the 2012 Nobel Prize in Literature (Mo Yan). Throughout the course, we focus on the interplay between literary canons (fictions, essays, and dramas) and popular media and genres: blockbuster cinemas and art house films, popular novels, photographs and posters, etc.

Class Format: All regular course meetings will be conducted in person.

Requirements/Evaluation: Evaluation will be based on 1) ACTIVE in-class discussion; 2) Publishing GLOW Discussion posts based on reading (Graded as Complete or Incomplete); 3) three short papers (3-5 pages); 4) the final project (including an abstract, a presentation, and a paper or other form of project).

Prerequisites: None; no knowledge of Chinese language required, though students with Chinese language background are encouraged to work with Chinese sources if they wish; open to all

Enrollment Limit: 20

Enrollment Preferences: Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Comp majors; Asian Studies Concentration; WSGG majors; and then to first-year students

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 254 (D1) CHIN 253 (D1) WGSS 255 (D2)

Difference, Power, and Equity Notes: This course provides students with the opportunity to analyze the shaping of social stigma as well as the dynamics of unequal power by means of closely reading “illness” in 20th and 21st century China. We will examine how “illness” is sometimes gendered and politicized; how “illness”, in other times, empowers individuals and bonds underrepresented minorities. Illness, as a seemingly universal human experience, tells diverse stories of (in)difference, (dis)power, and (un)equity.

Attributes: PHLH Bioethics + Interpretations of Health
can feminist power be realized? Thinkers we will engage include Judith Butler, Audre Lorde, Catherine MacKinnon, Hannah Arendt, and Patricia Hill Collins.

Requirements/Evaluation: eight short writing assignments (ranging from 250 words to 750 words), drafting and revision of a 10 pg final essay

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Women's, Gender, and Sexuality Studies majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 260 (D2) PSCI 260 (D2)

Writing Skills Notes: This course aims to carefully unpack the writing process by focusing on particular elements of writing (summary, critical analysis) while also introducing students to tools they can use to improve their writing (freewriting). Short writing assignments like the proposal, outline, and abstract build on one another and culminate in a final essay that goes through the process of drafting and, after peer and teacher review, revision.

Difference, Power, and Equity Notes: This course requires students to focus on what power does and should look like from the perspective of difference, exploring the relationship between power and equity in the process. Students will reflect on and discuss the working of power in their own lives, why certain forms of power are more or less visible to particular groups, and how different ideas about power promote different interests in society at large.

WGSS 262 (F) Indigenous Feminisms (DPE)

Cross-listings: AMST 260  WGSS 262

Secondary Cross-listing

Indigenous women, Two Spirit and trans people have always stood on the frontlines of decolonization struggles in the Americas, from treaty negotiations to self defense against settler invasion, to the Standing Rock Sioux struggle against the Dakota Access Pipeline, to creating independent databases and mutual support networks amongst the loved ones of Missing and Murdered Indigenous Women, Girls, Trans and Two Spirit people. This course maps out some of the intellectual and political interventions of Indigenous feminists in analyzing and struggling against genocide, heteropatriarchy, conquest and racial capitalism in settler states like the US and Canada. This course will focus on how Indigenous women, Two Spirit and trans people have analyzed and struggled against the imposition of colonial constructs of gender and sexuality that mark Indigenous lives and lands as sites of extraction. It will examine how carceral regimes of control produced by the intertwined histories of conquest and Transatlantic slavery have been imposed upon Indigenous lives through the child protection system and the prison industrial complex. Students will be invited to consider how Indigenous feminist practices 'make a future' (Brant 1981) against and beyond the settler state. This course aims to familiarize students with historical and contemporary Indigenous feminist works, as well as provide an overview of Indigenous feminist political formations, poetry, fiction, and making practices. Pedagogically, this course will also facilitate the development and sharpening of skills in social analysis, writing and argumentation.

Class Format: Hybrid online/in-person

Requirements/Evaluation: Three one page reading responses, 30%; One two-page critical peer response 10%; One Final paper, 50%; Course participation and attendance 10%

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: American Studies majors or potential majors have first preference, WGSS majors have next priority.

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 305 (S) The Gay Menagerie: Gay Male Subcultures (DPE)

Cross-listings: WGSS 305 ANTH 305 AMST 305 THEA 304

Primary Cross-listing

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

WGSS 316 (S) Feeling Queer and Asian (DPE)

Cross-listings: COMP 313 ASIA 316 WGSS 316

Primary Cross-listing

This advanced undergraduate seminar focuses on concepts, queries, and methodologies at the intersections of Asian Americanist critique, queer theory, and affect theory. How might we come to understand Asian gender, sexuality, and racialization less through a language of being or meaning,
as through feeling? How do Asian/American discourses rely upon languages of gender and sexuality, and how might queerness depend upon Asianness? How might these theories identify, complicate, and call forth more expansive or alternative practices of belonging? The class will read theories including national abjection, racial melancholia, disaffection, queer diaspora, and homonationalism, as well as engage Asian American literatures.

Requirements/Evaluation: in-class participation, partnered presentation, weekly reading responses (350 words max), short analytical essay (4-5 pages), and creative final project (e.g. poem, epistolary letter, syllabus soundtrack) (5-8 pages)

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: WGSS majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 313 (D1) ASIA 316 (D2) WGSS 316 (D2)

Difference, Power, and Equity Notes: This interdisciplinary seminar centers the interconnected constructions of race, ethnicity, gender, sexuality, and nation as they give shape to Asian American and Asian diasporic sexuality studies.

WGSS 318  (F)  Black Masculinities  (DPE)

Cross-listings: AMST 350  ENGL 375  AFR 331  WGSS 318

Primary Cross-listing

In this seminar, we will study the evolution of Black masculinities through cultural, social, and political movements from 20th century to the present. This course engages Black feminist thought, Black masculinities studies, queer theory and performance studies. We will examine the relationship and constitutive nature of masculinity and femininity. By examining representations and presentations of Black masculinities, we will pursue questions such as: How is blackness always already gendered? How is gender always already racialized? What are the effects of these gendering and racializing practices on Black bodies, spaces, and places? How has dominant society attempted to define Black masculinity? In what ways have Black people undermined these narratives and redefined themselves? How do racial stereotypes about Black men¿s sexuality inform representations of Black masculinities? What is the future of Black Gender? We will trouble the relationship between manhood and masculinity by examining the ways in which masculinity can move across various kinds of bodies. In addition to reading critical and creative texts, we will view films and engage other kinds of media. Students will be responsible for 2 short papers and a final project.

Requirements/Evaluation: students will be responsible for 2 short papers and a final project

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: WGSS Majors will get preference, then Juniors and Seniors

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 350 (D2) ENGL 375 (D1) AFR 331 (D2) WGSS 318 (D2)

Difference, Power, and Equity Notes: This course engages content and materials that explore various forms of difference, power, and equity, along with facilitating the development of skills that will help students address the implications of said forms. This course considers current examples and historical examples of Black masculinity. This course fosters difficult conversations about how difference works and has worked, how identities and power relationships have been grounded in lived experience.

Attributes: WGSS Racial Sexual + Cultural Diversity Courses  WGSS Theory Courses
WGSS 337  (F)  Race, Sex & Gender in Brazil  (DPE)

Cross-listings:  ANTH 337  WGSS 337

Primary Cross-listing

The course introduces students to anthropological literature of Brazil as well as Brazilian novels and films. Its focus is on understanding the history and contemporary culture of Brazil through attention to racial justice, including the country's unique history and legacies of slavery in comparative context. It also examines questions of gender, including the history of feminism in Brazil and current debates related women's equality such as Brazil's abortion laws, domestic violence, sexual tourism, and job opportunities for women. Lastly, we also examine LGBT history in Brazil and dive into writing about queer culture there. NOTE: Students must also commit to registering for a winter study travel course with a trip to Rio de Janeiro, during which time students will visit important historical sites, museums, and relevant cultural attractions. They will also meet collectively with faculty members from several universities and NGOs to learn about the research and projects our Brazilian hosts are engaged in. Students also have their own individual exploratory research projects there related to social justice, which are integral to the seminar. Students should also be aware of the physical demands of the trip, which include extensive walking, some hiking, and exposure to summer heat and the elements in the Atlantic Rainforest. Thanks to the Global Initiatives Venture Fund, the cost of the trip is covered for all students enrolled.

Requirements/Evaluation:  research paper and its various components, participation

Prerequisites:  none

Enrollment Limit:  7

Enrollment Preferences:  students are required to attend an info session and submit an application that includes a statement of interest, finalists will need to complete an interview

Expected Class Size:  7

Grading:  no pass/fail option,  no fifth course option

Materials/Lab Fee:  The cost of the winter study travel portion is included (i.e., airfare, most meals, lodging, etc.), but costs related to incidental expenses (e.g., souvenirs, drinks), passports, vaccinations, etc. are not and will vary by student.

Distributions:  (D2)  (DPE)

WGSS 344  (S)  Underground Berlin: Art, Performance, and Film, 1980s to Present  (DPE)

Cross-listings:  GERM 314  WGSS 344  ARTH 315

Secondary Cross-listing

Subsequent to the National Socialist suppression of sexual expression, the intersections of politics and art in the post-World War II era reflected an organic embeddedness within the context of the city of Berlin. This course reflects upon this history to understand Berlin's present, its contradictory mix of new and old, "deep history" and nostalgia. Often described as an island moored within the communist territory of East Germany during the years of the Berlin Wall, West-Berlin became the city towards which many queer artists, musicians, and activists gravitated in order to avoid the involuntary conscription in the Bundeswehr, as an unexpected outcome of the government's plan to boost population in the former capital. We will focus on the excavation and recognition of inter/cultural positions that challenge German nationalism, at the same time that the country reestablished itself as a world power. Over the semester, we will rethink Berlin with respect to the once nascent geopolitics of the European Union, and the city's social fluctuations and periods of migration as registered through audiovisual and performative forms in advance of and in the decades following the fall of the wall in 1989. Focusing on art, performance, and film, we will examine the architectural, discursive, and cultural spaces in which these forms of creative and political expression take shape—from art museums and theater houses to occupied buildings, from independent publishing imprints and
collaborative nonprofit organizations to night clubs. This course will examine the changing city with respect to activism, collectivity, alienation, solidarity, and belonging.

**Requirements/Evaluation:** Weekly response papers (1-2 pages); participation in class; one research paper (12-15 pages)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Art History majors, German majors, then any interested student

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

**Difference, Power, and Equity Notes:** Artistic works and subcultural formations addressed in this class reflect the intersection of difference, power, and equity in contemporary culture and society. Situating the work of artists and activists within a specific and evolving social and geopolitical context, it promotes greater understanding and skills for engaging in cultural debates on racism, homophobia, and sexism.

Spring 2022

SEM Section: 01    W 1:10 pm - 3:50 pm     Alena J Williams

**WGSS 345  (S)  The Pedagogy of Liberation**  (DPE)

Education is inherently political, and politics necessarily involves pedagogy. Who should teach, what is taught, how it is taught, and why it is taught are questions hotly debated at all levels and in all sites of education because the answers have implications for societal reproduction or transformation. Politicians, activists, even family members at the dinner table all seek to educate in ways that incline us toward particular political positions. At the heart of this class stands the question: if different pedagogies point us in different political directions, then what kind of pedagogy or pedagogies serve the end of liberation from oppression and why? Are there certain pedagogical "goods" that reliably serve the goal of liberation across sites? Or do different sites require different approaches? To begin to answer these questions, we will engage a variety of thinker-teachers and groups known for their commitment to a "pedagogy of liberation." While feminist thinkers will be foregrounded, we may also look to thinker-teachers who and groups that do not claim this label. In addition to engaging texts which reflect on different aspects of radical pedagogy (content, form, method, etc.) and radical pedagogy in different settings (the college classroom, the social movement headquarters, the home), we will witness radical pedagogy in practice. Moreover, we will enact various radical pedagogical strategies in our own classroom and beyond.

**Requirements/Evaluation:** Perusall, aspirational learning statement, syllabus co-construction and reflection, class facilitation, interview project and reflection, one-on-one discussions

**Prerequisites:** None

**Enrollment Limit:** 20

**Enrollment Preferences:** Preference will be given to WGSS majors.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**Difference, Power, and Equity Notes:** This class is concerned with the relationship between pedagogy and equity - how can pedagogy be leveraged to combat oppression and encourage equity? In it, students will gain not just insight on, but practice in enacting radical democratic pedagogies that flatten power differentials and encourage effective engagement across difference.

**WGSS 350  (F)  Queer Tongues & Lavender Linguistics**  (DPE)

**Cross-listings:** ANTH 350  AMST 351  WGSS 350
Primary Cross-listing

This course in linguistics provides an introduction to linguistic anthropology, sociolinguistics, and folklore studies using topics and approaches related to gender and sexuality. It is a methods course based in empirical research principles, but a basic familiarity with the broad strokes of queer/feminist theory may be helpful. One goal of the class will be learning to read and write in IPA (International Phonetic Alphabet) and how to construct and use IPA "change charts." We then build on this as we turn to sociolinguistics as students will learn how to do Discourse Analysis and Conversation Analysis, using WGSS-oriented topics (e.g., upspeak, vocal fry, so-called “gay voice,” the gendered nature of turn-taking and interrupting.) We then turn to an extended unit on queer folklore and folklife, learning how anthropologists and folklorists use motif type indexes (e.g., Propp Functions, Thompson Type Index, etc) to study oral narratives and how feminist/queer theorists can use these to analyze gender in folk/fairytales and other stories. We also read several linguistic anthropologists' ethnographies of queer communities' language practices in global context. The semester concludes with a unit on LGBT slang, argots, and profanity.

Requirements/Evaluation: IPA Quizzes (reading/writing), Conversation Analysis/Turntaking Transcription Assignment, Urban Legends Tale Type Analysis, Short Analytical Paper on Feminist/Queer Folk Figures

Prerequisites: None; prior coursework in WGSS may be helpful, but is not required

Enrollment Limit: 15

Enrollment Preferences: WGSS majors; short statements of interest will be solicited in the event of overenrollment

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ANTH 350 (D2) AMST 351 (D2) WGSS 350 (D2)

Difference, Power, and Equity Notes: This course examines the centrality of power in communication as broken down along axes such as sex, gender, and sexuality. It deliberately takes a canonical field (i.e., linguistic anthropology) that often neglected the gendered nature of communication and puts these questions at the center of the curriculum. Assignments are structured in such a way as to build awareness of the role of gender and sexuality within human interactions and how sociolinguistics reveal power imbalances.

Cross-listings: STS 370 WGSS 371 ANTH 371

Secondary Cross-listing

This class applies the methods and theories of critical medical anthropology and medical sociology to help students design and pursue innovative ethnographic projects that explore campus or community health. How do disruptive moments like COVID-19 serve as focal moments in social history that reveal underlying social inequalities of access, health outcomes, and well-being? Students learn and use an array of ethnographic techniques such as observant participation, interviewing, focus groups, and qualitative surveys building on weekly discussions, feedback, and design exercises to explore our campus and/or wider community. We situate our campus health projects by considering the wider context of power and intersectionality that inflect and structure health and well-being within our community, nation, & world. Our case ethnographies explore how structural racism shapes medical education and healthcare care in the US, how concepts of sexual citizenship can reshape debates on sexual assault on campus, how the spread of US psychiatry inflects the landscape of global mental health across Asia, and how queer activism responds to the HIV/AIDS crisis. We consider the roles of narrative, active listening, and empathy in both medicine and ethnography, while practicing skills that can benefit student researchers and interlocutors, providers as well as patients. Our goal is understand the strengths and limits of qualitative and participatory research within communities always already structured by power, privilege, and engaged practices.

Requirements/Evaluation: Three written fieldnotes, weekly attendance, writing and discussion exercises, & final oral presentations & data visualizations for fieldwork projects.

Prerequisites: A course in Anthropology, Sociology, Science & Technology Studies, or across DIV II is strongly recommended

Enrollment Limit: 20
**Enrollment Preferences:** Majors in Anthropology, Sociology, Women’s, Gender and Sexuality Studies; Concentrators in Public Health, Science and Technology Studies

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 370 (D2) WGSS 371 (D2) ANTH 371 (D2)

**Writing Skills Notes:** This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

**Difference, Power, and Equity Notes:** This class examines the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It theorizes and explores the ways that intersectionality and implicit bias shapes health and well-being in the community, patient/provider encounters, and efforts to 'improve' community and individual health in the US, Asia, and across the globe.

**Attributes:** EXPE Experiential Education Courses  PHLH Methods in Public Health

---

**Fall 2021**

SEM Section: 01  W 1:10 pm - 3:50 pm  Kim Gutschow

SEM Section: 02  Cancelled

**WGSS 413 (S) Feminist and Critical Technoscience (DPE)**

**Cross-listings:** WGSS 413  STS 413

**Secondary Cross-listing**

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? Scholars of feminist science and technology studies (FSTS) have addressed these questions in their studies of scientific objectivity, technological vulnerability, environmentalism, and the makings (or doings) of race as well as gender. We will explore these questions and topics with a view to identifying the range of ethical, political, and epistemological practices within feminist and critical technoscience. We will read theoretical texts in FSTS, such as Donna Haraway's "Situated Knowledges" and Safiya Umoja Noble's "A future for intersectional black feminist technology studies." We will also read case studies, such as Pat Treusch's "The Art of Failure in Robotics" and Emily Martin's "The Egg and the Sperm: How Science Has Constructed a Romance Based on Stereotypical Male-Female Roles." While our preliminary readings will be set in advance, students will help shape the syllabus as we advance toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

**Requirements/Evaluation:** discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); annotated bibliography; final essay (12-15 pages + in-class presentation)

**Prerequisites:** none

**Enrollment Limit:** 12

**Enrollment Preferences:** Science and Technology Studies concentrators

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 413 (D2) STS 413 (D2)

**Difference, Power, and Equity Notes:** Central to "Feminist and Critical Technoscience" is a recognition of and engagement with the historical under-privileging of women, women's work, and women's bodies in capital-S "Science" and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory. We will also examine feminist accounts of contemporary technoscientific work as well as critical STS with a focus on race.

**Attributes:** STS Senior Seminars

**Spring 2022**
DEPARTMENT of ASIAN LANGUAGES, LITERATURES, & CULTURES
CHINESE, JAPANESE, EAST ASIAN LANGUAGES & CULTURES

(Div I & II, see explanation below)

Chair: TBD

- Cecilia Chang, Frederick Latimer Wells Professor of Chinese; on leave 2021-22
- Man He, Assistant Professor of Chinese
- Shinko Kagaya, Professor of Japanese
- Cornelius C. Kubler, Stanfield Professor of Asian Studies
- Christopher M. B. Nugent, Professor of Chinese
- Kasumi Yamamoto, Frank M. Gagliardi Professor of Japanese; on leave 2021-22
- Li Yu, Professor of Chinese

Visitors:
- Eun Young Seong, Visiting Assistant Professor of Japanese

Language Fellows:
  Yi-Zhi Chen
  Tianwen Han

Teaching Associate:
  Xian Fung

Department Mission Statement and Curricular Goal

The mission of the Department of Asian Languages, Literatures, and Cultures is to produce “global citizens” who will be able to make contributions in different sectors of society in a globalized and diverse world with multilingual abilities, intercultural communicative competence, and multicultural leadership skills. Graduates of our department will not only achieve proficiency in at least one Asian language but also become competent in intercultural communication. They will develop interpretive and analytical skills using both primary texts and secondary sources and become familiar with the textual and cultural traditions in Asia.

The department offers three distinct major tracks: Chinese, Japanese, and East Asian Languages & Cultures. Each major requires a minimum of ten courses. Up to four study-away credits can be counted toward a major.

Learning Objectives for the Chinese Major

Students who complete the requirements for a major in Chinese will be able to:

- Attain the Advanced level in speaking, listening and reading, and Intermediate High level in writing based on the ACTFL proficiency guidelines.
- Read and analyze basic texts written in Classical Chinese.
- Gain intercultural communicative skills to competently navigate a wide range of social and cultural contexts in Chinese-speaking environments.
- Critically read and analyze a variety of Chinese-language primary sources for academic and professional purposes.
- Engage critically with important aspects of the historical and cultural developments and trends in China’s diverse and complex past and present.
- Acquire the skills to enable them to continue their engagement with the target language and culture as lifelong learners and users of Chinese.
THE MAJOR

In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least eight Mandarin Chinese language courses (CHIN 101, 102, 201, 202, 301, 302, 401, 402) and at least one course in Classical Chinese (CHIN 312). To gain a deeper understanding of Chinese cultural traditions, students should take at least one Chinese core elective in Chinese literary, linguistic, or cultural studies (taught either in English or in Chinese) with prefixes and primary cross-listings in CHIN.

Students placed out of lower-level language courses can take approved electives related to Chinese language and culture (including additional CHIN core electives, additional Asian language courses, or Chinese studies courses offered in art, comparative literature, history, music, political science, religion, etc.) to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

Learning Objectives for the Japanese Major

Students who complete the requirements for a major in Japanese will be able to:

- Demonstrate linguistic competency/proficiency in comprehending, speaking, reading, and writing in Japanese at the ACTFL Intermediate High to Advanced levels.
- Critically read and analyze a variety of Japanese primary sources for academic and professional purposes.
- Critically engage with Japanese culture, past and present, recognizing its diversity and vibrancy.
- Navigate a wide range of social and cultural contexts by communicating effectively and appropriately with people of other cultures in their local and global communities.
- Continue their engagement with Japanese language and culture as lifelong learners and users of Japanese.

THE MAJOR

In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least eight Japanese language courses (JAPN 101, 102, 201, 202, 301, 302, 401, 402), at least one Japanese core elective in Japanese literary, linguistic, or cultural studies (taught either in English or in Japanese) with prefixes and primary cross-listings in JAPN, and one approved elective related to Japanese language and culture (including additional JAPN core electives, additional Asian language courses, or Japanese studies courses offered in art, comparative literature, history, music, political science, religion, etc.).

Students placed out of lower-level language courses can take additional approved electives to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

Learning Objectives for the East Asian Languages and Cultures Major

Students who complete the requirements for a major in East Asian Languages and Cultures will be able to:

- Attain a minimum of Intermediate High level in speaking, listening and reading of either Chinese or Japanese, and Intermediate Low level in writing in the language based on the ACTFL proficiency guidelines.
- Acquire research, problem-solving, and critical thinking skills by engaging in linguistic or literary analysis in the field of Chinese studies or Japanese studies.
- Obtain basic intercultural communicative skills to navigate some social and cultural contexts in Chinese- or Japanese-speaking environments.
- Continue their engagement with an Asian language and culture as lifelong learners and users of the target language.
- Students who choose the dual-language option will attain the Advanced level in speaking, listening, and reading in either Chinese or Japanese, and the intermediate level in a second Asian language based on the ACTFL proficiency guidelines.

THE MAJOR

East Asian Languages and Cultures (EALC) major: In order to develop proficiency and intercultural communicative skills in the language, students are required to complete at least six language courses (or attain a minimum proficiency equivalent to the completion of 302) in one East Asian language offered by the department (currently Chinese Mandarin and Japanese). To gain a deeper understanding of the Chinese or Japanese cultural traditions and to develop research skills in the Chinese or Japanese fields, they should take at least two Chinese/Japanese core electives in literary, linguistic, or cultural studies in their primary focus of study with prefixes and primary cross-listings in CHIN/JAPN, and two approved electives related to Chinese/Japanese language and culture (including additional CHIN/JAPN core electives, additional Asian language courses, or Chinese/Japanese studies courses offered in art, comparative literature, history, music, political science, religion, etc.).
Students placed out of lower-level language courses can take additional approved electives to replace the language course requirement. Potential electives can be found under the course listings for the program in Asian Studies.

This major offers students who are able to complete the 402 level in either Chinese or Japanese by the end of their sophomore year a dual-language option which will allow them to learn a second Asian language and reach the Intermediate level in speaking that language by the time of graduation. Please consult with the chair or language coordinator for more information about this option.

PLACEMENT TEST

Students who have studied or otherwise developed some familiarity with Chinese or Japanese language before coming to Williams and who wish to continue their studies of these languages at the college should take a placement test before they pre-register for a language course. Students who wish to take the Chinese placement test can self-enroll in a GLOW course at https://glow.williams.edu/enroll/JTHEN. Students who wish to take the Japanese placement test should contact the Japanese Coordinator.

THE DEGREE WITH HONORS

The department offers students the option of pursuing a degree with Honors in Chinese, Japanese, or East Asian Languages and Cultures through writing an honors thesis. Honors theses allow students a unique opportunity to undertake an examination of topics and texts with a greater depth than regular courses allow. The great majority of students who undertake the challenge of writing an honors thesis find it to be one of their most rewarding academic experiences at Williams.

Students interested in pursuing a degree with Honors should begin thinking about their thesis topic and materials as early as possible. This is particularly true for students who need to gather materials or conduct research abroad, as this will typically take place during their junior year or the summer between their junior and senior years. It is the responsibility of the student to approach faculty members to inquire about their willingness to serve as a thesis advisor. Ideally, students should have previously taken a course with that faculty member in an area related to the subject matter of the thesis. Faculty members will usually only advise a single thesis per year, and never more than two, with students who first approach the faculty member about serving as advisor being given priority. It is recommended that students approach the faculty members with whom they are interested in working for their thesis by the end of the fall semester of their junior year.

Students must submit a proposal to the department chair and their intended advisor before they pre-register for senior year courses in the spring of their junior year. The proposal should include a statement of the topic, a general description of the types of materials available for study and how the study will be carried out, and the name of the faculty member who will serve as advisor. If the department approves the thesis proposal, the student should enroll in CHIN 493-W31-494, or JAPN 493-W31-494, depending on their major track. Please note that admission to the honors thesis program will normally be limited to students with a consistent record of honors-level work, as indicated by at least a B+ average in their courses for the major.

Students will typically meet with their advisor once a week at a set time other than office hours. The advisor will present the student with a set of deadlines for different stages in the thesis, ranging from a bibliography to the final draft. While these deadlines will vary for different advisors and theses, two deadlines will apply to all theses, whether analytic or translation. 1) Students must submit a finished first chapter or substantial section of polished translation by the last day of the first semester reading period. If the student misses this deadline, he or she will not be allowed to continue the thesis. 2) The finished thesis is due to the advisor by 4:00 pm on the Monday two weeks after the last day of Spring Recess. The student should submit three copies of the thesis at this time. There will be no extensions.

The department will assign two readers, separate from the advisor, to each thesis. The readers will give a written assessment of the thesis that will be an important factor in the final determination of the student’s grades for the thesis and what honors designation, if any, will be given. These written comments will be shared with the student. Within two weeks after submission, the department will schedule an oral defense. This will be a one to one-and-a-half hour session in which the student will give a public presentation of his or her thesis to members of the department and invited guests followed by a question and answer period. A final, corrected copy of the thesis must be submitted to the Technical Services Department of Sawyer Library by 4:00 P.M. on the last day of the final examination period.

In order to qualify for Honors, the department must agree that the student has earned two semester grades of B+ or higher, based on his or her thesis and oral defense. Students whose thesis and defense are deemed by the department to be of exceptional merit will be awarded Highest Honors. A letter from the department chair will inform students of these decisions.

COVID-19 CHANGES

Due to the pandemic, the department has reduced the number of courses required for its majors for the graduating classes of ’21, ’22, and ’23. For these years, the minimum requirements are nine courses as follows:

Chinese major: CHIN 101, 102, 201, 202, 301, 302, 401, 402, 312.
Japanese major: JAPN 101, 102, 202, 301, 302, 401, 402, one approved elective.

East Asian Languages and Cultures major: at least six CHIN/JAPN language courses (or a minimum proficiency equivalent to the completion of 302), two CHIN/JAPN core electives, and one approved elective.

Students with higher language proficiency who are placed out of any of the core language courses (101 through 402) can take an equal number of faculty-approved electives taught either in Chinese/Japanese or in English on literature, linguistics, culture studies or related Chinese or Japanese studies disciplines (e.g., art history, history, political science) to fulfill the core language requirement.

Students who plan to study abroad either during the summer or during their junior year MUST consult with department faculty for advice.

STUDY ABROAD

Students intending to major in the department are strongly encouraged to study in Asia at some point during their time at Williams—for a summer or for a semester or full year. Study-abroad in an immersive environment in the target culture is an indispensable step toward advanced proficiency in a second language. Prospective majors or language students who are planning to study abroad must attend the fall semester study-abroad information sessions organized by the department or discuss their plans with department faculty as far in advance as possible. The department administers the Linen Grants for Summer Study in Asia which fund selected students’ summer intensive language study or research projects. Up to four study-abroad courses may be transferred and counted toward graduation and toward the majors offered in the department. Students MUST contact the department faculty BEFORE assuming study-away credit will be granted toward the major in the department. Upon return, students should ask their study-away program to send their transcript to the Registrar’s office so that the appropriate number of credits can be transferred and granted by the department chair.

DEPARTMENT EMAIL LISTS

To be informed about the events, activities and funding opportunities in the department, please use your Williams login to sign up for one or more of the following GLOW special interest email lists.

- “DALLC Majors and Faculty” (open to all current and prospective Chinese, Japanese, or East Asian Languages and Cultures majors):
  https://glow.williams.edu/enroll/AWTMXP
- “Asia-Related Funding Opportunities” (open to all students who would like to seek internal or external funding related to Asia):
  https://glow.williams.edu/enroll/PGJHAC
- “Special Interest Chinese” (open to all students interested in Chinese language and culture):
  https://glow.williams.edu/enroll/XEYMPG
- “Special Interest Japanese” (open to all students interested in Japanese language and culture):
  https://glow.williams.edu/enroll/DAYTN3
The primary objectives of the economics major are to develop an understanding of how individuals, organizations and societies meet their material needs. The introductory courses present the fundamental principles of economics at a level that is useful for understanding a wide range of social and
The core theory courses provide a more rigorous grounding in the tools used in analyzing individual choice, the functioning of markets, and the behavior of output, employment, and inflation. The econometrics course familiarizes students with the methods used to analyze economic data, and equips them with the tools necessary to critique and conduct empirical research. The electives draw on the skills developed in the introductory and core courses to gain a richer understanding of specific aspects of economic behavior and public policy.

**The economics major and business careers.** The analytical and critical thinking skills taught in economics classes are useful for many careers, including business. The major is not designed to provide pre-professional training in business or management, however. Students from a wide variety of majors, including the sciences and humanities, have gone on to successful business careers. We therefore advise those interested in business to acquire a broad exposure to the arts, social science, and natural sciences, and to major in a subject that engages their interest even if that subject is something other than economics.

**Planning for a possible economics major.** Given the hierarchical structure of the economics major, students considering the economics major should try to start with ECON 110 during their first year. Since ECON 255 requires a prior statistics course (STAT 161, 201 or 202), prospective economics majors should complete the statistics requirement relatively early in their college careers. Since the 400-level electives typically require at least two of the intermediate core courses (ECON 251, 252, or 255), students are strongly encouraged to complete the core courses by the end of junior year. We prefer that the three intermediate core classes be taken at Williams, so students planning on studying abroad as juniors should aim to complete these courses before departure if possible.

**Preparation for graduate school.** Graduate study in economics requires considerably more mathematical training than that necessary for the economics major. We advise students who are considering pursuing a Ph.D. to take at a minimum MATH 150 or 151, MATH 209 or 309, MATH 250, and MATH 350. We also advise students to consider electives such as ECON 451, 471, 472, 474, or 475 that present advanced perspectives on contemporary economic theory or econometrics. As graduate schools look for evidence of research aptitude, we also encourage those interested in graduate school to pursue the Honors program.

**MAJOR REQUIREMENTS**

Nine courses are required for the economics major. These are:

**Introductory Courses**

- Economics 110 Principles of Microeconomics
- Economics 120 Principles of Macroeconomics. Prerequisite: ECON 110

Passing the quantitative studies exam or the equivalent is a prerequisite for both classes. Both are suitable for non-majors. Courses numbered 200-299 will require one or both as prerequisites.

**Core Courses**

- Economics 251 Price and Allocation Theory. Prerequisites: differential calculus (MATH 130 or equivalent) and ECON 110
- Economics 252 Macroeconomics. Prerequisites: differential calculus (MATH 130 or equivalent), ECON 110 and ECON 120
- Economics 255 Econometrics. Prerequisites: differential calculus (MATH 130 or equivalent) plus either STAT 161, 201 or 202. STAT 101 will also serve as a prerequisite, but only if taken prior to the fall of 2018. STAT 346 can be used to satisfy the ECON 255 major requirement, although not all upper-level electives and seminars accept STAT 346 as a prerequisite in lieu of ECON 255. Students with a double major in Statistics and Economics who choose to use STAT 346 to satisfy the ECON 255 requirement must take an additional ECON elective at any level. POEC 253 may not substitute for ECON 255 in fulfilling the major requirements, although some electives may accept POEC 253 as a prerequisite in lieu of ECON 255. POEC 253 may not substitute for ECON 255 in fulfilling the major requirements, although some electives may accept POEC 253 as a prerequisite in lieu of ECON 255.

The three core classes may be taken in any order. All of the 300- and 400-level electives will require at least one of the core classes, and many of the 400-level seminars require ECON 255.

**Elective Courses**

Students must complete at least four economics electives at the 200-level or higher in addition to the introductory and core classes listed above. At least two must be advanced electives numbered 300 to 398. At least one must be a seminar numbered 400-490. A second seminar may be taken in lieu of a 300-level elective. Enrollment preference for 400-level classes is given to seniors who have not already taken a seminar. Note that some of the advanced electives may have specific requirements beyond the core economics courses and MATH 130. With the permission of the instructor, undergraduates may enroll in 500-level graduate courses given by the Center for Development Economics. These courses can substitute for advanced electives numbered 300-398, unless otherwise noted in the course description.

**AP, IB and A-level Exams**

The ECON 110 requirement may be waived for students who earned a 5 on the microeconomics AP exam, and the ECON 120 requirement may be waived for those who received a 5 on the macroeconomics AP exam. Both the ECON 110 and 120 requirements may be waived for students who
received an A on the A-level exam in economics or earned a 6 or 7 in the higher economics IB exam. A requirement may be waived for students who earned below a 5 on the microeconomics or macroeconomics AP exams or below a 6 on the higher economics IB exam after consultation with the department. In all cases, results from the department placement exam are taken into account in making the determination of whether a requirement will be waived.

Students who start at Williams prior to Fall 2020 will receive major credit for each course requirement that is waived and may complete the major with either eight or seven additional courses, depending on whether they place out of one or both introductory courses. These would include the introductory course for which no advanced placement was granted (if applicable), the three core classes, and four electives.

Students who start at Williams in Fall 2020 and following will receive advanced placement, but no reduction in the number of courses required for the major. Completion of a major in Economics requires nine semester courses. These would include the introductory course for which no advanced placement was granted (if applicable) and one additional elective at the 200-level or higher, or two additional electives at the 200-level or higher if both ECON 110 and 120 requirements are waived, the three core theory classes, and the four electives.

A score of 5 on the statistics AP exam, a 6 or a 7 on the statistics IB exam, or an A on the A-level statistics exam will satisfy the statistics prerequisites for ECON 255.

STUDY ABROAD AND TRANSFER CREDIT

Students may receive credit for college courses taken at other institutions, including those taken as part of a study abroad program. Most economics courses taken elsewhere that have an introductory economics prerequisite will qualify for 200-level elective credit. Some may be able to count towards a specific departmental requirement, including the introductory or core courses, or qualify as a 300-level elective. In order to receive the appropriate credit, courses must be approved ahead of time by the Department’s Coordinator for Transfer/Study Abroad Credit. (The Department’s web site will indicate which faculty member is serving as the Coordinator.) General study away guidelines for Economics are posted at econ.williams.edu/major/study-abroad.

THE DEGREE WITH HONORS IN ECONOMICS

Graduating with honors requires the completion of a substantial piece of independent research. Those with an economics GPA of at least 3.5 are encouraged to apply. In addition, because theses typically make use of empirical methods, those considering writing a thesis are strongly advised to complete Econ 255 before the end of junior year.

The honors program involves working closely with a faculty adviser on a subject related to the faculty member’s area of expertise. The first step in pursuing honors is therefore to develop a thesis proposal in consultation with a faculty adviser. The proposal is then submitted to the Department for approval.

The Department offers both a half-year and a full-year honors program:

The half-year program entails enrolling in a one-semester seminar plus a WSP class. Students may either enroll in ECON 491 in the fall semester and ECON 30 during winter study, or they may take ECON 30 during winter study and ECON 492 in the spring. Proposals for a fall semester thesis are due in May of the junior year, while those doing a spring thesis will submit their proposals in December of the senior year. Those choosing the half-year option often base their projects on research that had been initiated in an advanced elective or a seminar, although this is not a requirement.

The full-year program involves taking ECON 493 in the fall, ECON 31 during winter study, and ECON 494 in the spring. Proposals are due in May of the junior year.

Both programs require students to remain on campus during winter study.

Prospective honors students considering studying abroad during their junior year should plan to complete the core courses and at least one 300-level elective by the end of their sophomore year. They are also urged to begin their collaboration with their intended adviser prior to departure, and to consult with the Director of Research on the options for pursuing honors. (The Department’s web site will indicate which faculty member is serving as the Director of Research.)

Further details on the two routes, the application procedure and deadlines are contained in memos sent to economics majors in the spring and fall semesters. The information is also available on the Department’s web site.

In addition to completing the research project, the College Bulletin states that in order to graduate with honors, students must take at least one course in addition to the minimum number required for the major. Students in the full-year program may substitute ECON 493 for an upper-level elective (excluding those numbered 400-490). Students enrolled in the half-year program may not substitute ECON 491 or 492 for one of their electives.

GRADUATE COURSES IN DEVELOPMENT ECONOMICS

Graduate courses given by the Center for Development Economics are open to undergraduates who have taken the prerequisites, although in most cases, permission of instructor is also required. Unless otherwise specified in the course description, these courses can substitute for electives numbered 300-398 in the major.
ECON 105 (F) Gender in the Global Economy

Cross-listings: WGSS 211  ECON 105

Secondary Cross-listing

This course will present a feminist economic analysis of the global economy, and some of the urgent issues facing women in poor countries. The course will start by developing theoretical resources: these will include feminist critiques of economic theory, work on care labor and the shifting boundaries between markets, governments and households, and discussions of intersectionality and difference. Then we will discuss a series of interlinked issues which may include the contradictory effects of structural adjustment and its successors; the informal sector and global value chains; the economics of sex work and global sex trafficking; and migration. We will finish by looking at community-based activism, non-governmental organizations, and the possibilities for North/South alliances.

Class Format: lecture/discussion

Requirements/Evaluation: reaction papers, research paper; participation in class discussion will count for part of the grade

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Women's, Gender and Sexuality Studies majors

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major.

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 211 (D2) ECON 105 (D2)

Attributes: GBST Economic Development Studies Electives  POEC International Political Economy Courses  WGSS Racial Sexual + Cultural Diversity Courses

Not offered current academic year

ECON 107 (F) Inequality in a Classless Society: The Soviet Experiment and its Aftermath (DPE)

Cross-listings: ECON 107  SOC 217

Primary Cross-listing

All societies have to come up with some way of distributing wealth and income. In turn, individuals and groups comprising these societies grapple with, justify, and at times contest their place in social and economic hierarchy. Complex as they are, such processes are all the more pressing in societies built on the explicit promise of economic equality, as was the case in the USSR and socialist Eastern Europe. Using the combined perspectives offered by economics, history, and sociology, this course will trace the practices and lived realities of social differentiation and income/wealth distribution brought about by the socialist experiment and intensifying after its demise. We will explore the life of class in these supposedly classless societies, and its reconfiguration after 1991, approaching class as, simultaneously, a matter of social classification, consumption differences, cultural identity, economic policy, and political power. We will study how the economic and political developments of late-socialism and the transition period generated class-based differences in all walks of life, and ask what these experiments have to teach us about inequalities and persistent social and economic divisions closer to home.

Requirements/Evaluation: Class participation; small writing assignments and research exercises; and a final research project

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: 1st and 2nd-year students thinking about majoring in Anthropology, Sociology, or Economics

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Unit Notes: This course cannot count toward the ECON major. It may be taken for the SOC major.
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ECON 107 (D2) SOC 217 (D2)

Difference, Power, and Equity Notes: The subject matter of this course is all about the origins, evolution, current structures, and implications of economic and social differentiation in a region quite apart from the United States. Moreover, by crossing disciplinary lines, we hope it will offer a particularly valuable perspective on such issues. Thus, we felt that it should naturally serve as a DPE course.

Fall 2021
SEM Section: 01 MR 1:10 pm - 2:25 pm Steven E. Nafziger, Olga Shevchenko

ECON 110  (F)(S)  Principles of Microeconomics  (QFR)
This course is an introduction to the study of the forces of supply and demand that determine prices and the allocation of resources in markets for goods and services, markets for labor, and markets for natural resources. The focus is on how and why markets work, why they may fail to work, and the policy implications of both their successes and failures. The course focuses on developing the basic tools of microeconomic analysis and then applying those tools to topics of popular or policy interest such as minimum wage legislation, pollution control, competition policy, international trade policy, discrimination, tax policy, and the role of government in a market economy.

Requirements/Evaluation: problem sets, quizzes, short essays, two midterms, final exam

Prerequisites: none

Enrollment Limit: 40

Enrollment Preferences: This course is required of Economics and Political Economy majors and highly recommended for those non-majors interested in Environmental Studies and Women's, Gender and Sexuality Studies.

Expected Class Size: 40

Grading: yes pass/fail option, no fifth course option

Unit Notes: The department recommends students follow this course with ECON 120 or with a lower-level elective that has ECON 110 as its prerequisite; students may alternatively proceed directly to ECON 251 after taking this introductory course.

Distributions: (D2) (QFR)

Quantative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.

ECON 120  (F)(S)  Principles of Macroeconomics  (QFR)
This course provides an introduction to the study of the aggregate national economy. It develops the basic theories of macroeconomics and applies them to topics of current interest. Issues to be explored include: the causes of inflation, unemployment, recessions, and depressions; the role of government fiscal and monetary policy in stabilizing the economy; the determinants of long-run economic growth; the long- and short-run effects of taxes, budget deficits, and other government policies on the national economy; the role of financial frictions in amplifying recessions; and the workings
of exchange rates and international finance.

Requirements/Evaluation: Depending on instructor, may include: problem sets, short essays, quizzes, reading assignments, either one or two midterms, and a final exam.

Prerequisites: ECON 110

Enrollment Limit: 40

Enrollment Preferences: First-year students and sophomores.

Expected Class Size: 40

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.

ECON 133  (S)  Plantation Economy and the Poetics of Caribbean Economic Thought

Cross-listings: ECON 133  GBST 133  AFR 133

Secondary Cross-listing

This introductory course to Caribbean Economic Thought contextualizes the poetics of economic ideas and knowledge alongside literary works connected to Caribbean Economic Development. Using Plantation Economy Tradition as a starting point and an important contribution to postcolonial development thinking, we will explore the interdisciplinary basis of this tradition rooted in the Caribbean cultural and historical experience. By examining literary and economic writings of Caribbeanists and Caribbean connected contributors side by side, we seek to uncover these links to how the Caribbean economy and society is framed, conceptualized and traversed as transplanted spaces, agrarian-resort-offshore spaces integral to merchant and industrial capitalism, exploitation and extraction and New World social formations. We will examine texts of contributors to the New World Group from the 1960s, 70s, and contemporary works that centers the Caribbean within global economic transformations. In this way, we explore historical and contemporary events ranging from indigenous genocide, commercial slave trading and indenture, structural adjustment and postcolonial debt, technology to the current fragmenting of global neoliberalism. This course explores themes like colonialism, dependent underdevelopment, home/away, migration, developmentalism, epistemic sovereignty, economic transformation, land ownership, freedom, 'creoleness'/créolité, negritude and regional integration. This exploration will help students broaden their understanding of conventional perspectives of the economy to analyze how the material understandings of economic phenomena framed in the plantation economy affect and engage with cultural and literary works in pluralistic, productive, and powerful ways.

Requirements/Evaluation: Oral or poster presentation analyzing a literary and Caribbean economist's work side-by-side (15 minutes or full-length/multi-page poster); critical analysis of a Caribbean economic sector or major regional report--choice made after discussion with instructor (10 pages); final project: historical review of a specific Caribbean community defined by group, geography or economic status drawing upon class, race, gendered axes of analysis (15 pages); participation (creative presentation of a reading drawing upon Caribbean cultures that must raise questions for class discussion)

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Preference also for 1st and 2nd year students. If over-enrolled preference to AFR and Political Economy students.

Expected Class Size: 10
ECON 203 (S) Gender and Economics

Cross-listings: WGSS 205 ECON 203

Primary Cross-listing

This course uses economic analysis to explore how gender differences can lead to differences in economic outcomes, in both households and the labor market. Questions to be covered include: How does the family function as an economic unit? How do individuals allocate time between the labor market and the household? How have changes in family structure affected women’s employment, and vice-versa? What are possible explanations for gender differences in labor force participation, occupational choice, and earnings? What is the role of government in addressing gender issues in the home and the workplace? How successful are government policies that primarily affect women (e.g., AFDC/TANF, parental leave, subsidization of child care)? The course will focus on the current experience of women in the United States, but will place these gender differences in a historical and cross-cultural context.

Class Format: Course will be remote and will include synchronous lecture/discussion, possibly combined with some asynchronous components.

Requirements/Evaluation: weekly discussion papers, two midterms, and a final paper and presentation

Prerequisites: ECON 110

Enrollment Limit: 25

Enrollment Preferences: If overenrolled, students will be asked to submit short statement of interest.

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 205  (S)  Public Economics

This course examines the role of the government in the economy. We consider three broad issues: When should governments intervene in the economy? What is the most effective form of intervention? What effects do government policies have on incentives and behavior? In addition to a theoretical perspective, we will discuss particular government spending programs in the United States, including Social Security, various types of publicly-provided insurance, spending on education, and public assistance for the poor. Finally, we will study how the government raises revenue through taxation. We will discuss the principles that guide tax design and consider the effects of the tax code on behavior.

Class Format: Lecture / discussion format.

Requirements/Evaluation: problem sets, short writing assignments, participation in discussion and activities, midterm exam, and final exam

Prerequisites: ECON 110

Enrollment Limit: 25

Enrollment Preferences: Prospective economics and political economy majors

ECON 209  (S)  Labor Economics and Policy

Employment--finding it (or looking for but not finding it), its compensation, and the conditions under which it occurs--is a key concern for most residents of advanced economies throughout their adult lives. Work is the main source of income for the vast majority of working-age adults in these economies, and work-related issues and policies reliably top national policy agendas. Labor economics is the study of these issues--how the level and distribution of skills, wages, employment, and income are determined in the market for labor and how various policies affect this market and its outcomes. In this course we will apply the tools of microeconomics to analyze labor force participation, the allocation of time to market work, migration, labor demand, investment in human capital (education and on-the-job training), discrimination, unions and unemployment. We will also examine the impact of government programs and mandates such as employment-based tax credits, unemployment insurance, antipoverty programs, and minimum wages on the labor market. We will devote particular attention to topics of current U.S. policy interest, including immigration, income inequality, and education.

Class Format: discussion

Requirements/Evaluation: problem sets, short writing assignments, midterm and final exam

Prerequisites: ECON 110
**ECON 212 (F) Markets And Morals**

What are the moral foundations necessary to support a free market economy? Does capitalism need a moral base—and if so, does the operation of a market economy erode the moral and ethical foundations on which it rests? We read Adam Smith, Mill, Keynes, Galbraith and other neoclassical philosophers writing about the social fabric that holds an atomistic free market political economy together, with particular emphasis on Smith's "other book"—Theory of Moral Sentiments—as an argument for limits to self-interested behavior inherent in human nature. (What is the sound of one Invisible Hand clapping?) We test our own articulated moral and political values against the existing political economy of Western democracies with help from more contemporary authors like Amartya Sen, Kenneth Boulding and Robert Kuttner. We will examine in depth the market for carbon offsets as a case study for the evaluation of the ethical validity of market-based solutions to climate problems. Students will write final papers on how well selected aspects of free market economies (organization of production, distribution of resources, mechanisms of inheritance, taxation) measure up to their own stated sense of justice—and how we might reform or perfect markets to align better with our morals.

**Requirements/Evaluation:** 3- to 5-page opinion paper (15%), 5-page comparative paper (20%), final paper applying learning to a specific context (40%), class participation and discussion posts (25%)

**Prerequisites:** ECON 110

**Enrollment Limit:** 19

**Enrollment Preferences:** letters written to instructor

**Expected Class Size:** 19

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

**Attributes:** POEC U.S. Political Economy + Public Policy Course

Not offered current academic year

**ECON 213 (F) Introduction to Environmental and Natural Resource Economics (QFR)**

We'll use economics to learn why we harm the environment and overuse natural resources, and what we can do about it. We'll talk about whether and how we can put a dollar value on nature and ecosystem services. We'll study cost benefit analysis, pollution in general, climate change, environmental justice, natural resources (like fisheries, forests, and fossil fuels), and energy. We will take an economic approach to global sustainability, and study the relationship between the environment and economic growth and trade. Consideration of justice and equity will be woven through the whole semester.

**Requirements/Evaluation:** problem sets, short essays, final paper; intermediate assignments may include poster, presentation, brief writing assignment

**Prerequisites:** ECON 110 or equivalent

**Enrollment Limit:** 25

**Enrollment Preferences:** first-year and sophomore students

**Expected Class Size:** 25

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** this course will count toward both the Environmental Studies major and concentration

**Distributions:** (D2) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
ECON 213 (D2) ENVI 213 (D2)

Quantative/Formal Reasoning Notes: We will use formal theory expressed in math and graphs, perform calculations, and consume statistical data.

ECON 214 (S) The Economics and Ethics of CO2 Offsets (WS)

Cross-listings: POEC 214  ENVI 212  ECON 214

Primary Cross-listing

Some electric utilities and other CO2 emission polluters are allowed to purchase carbon offsets to achieve a portion of their mandated emissions cuts, in effect, to pay others to reduce carbon emissions in their stead. Some individuals, college and universities, and for-profit and non-profit institutions have chosen voluntarily to purchase carbon offsets as a way of reducing their carbon footprint. But do offsets actually succeed in reducing carbon emissions? What separates a legitimate offset from one that is not? How should we measure the true impact of an offset? How do carbon offsets compare to other policies for reducing carbon emissions in terms of efficiency, equity, and justice? Is there something inherently wrong about "commodifying" the atmosphere? Is there something inherently wrong about selling or buying the right to pollute? Should colleges and universities be using the purchase of offsets to achieve "carbon neutrality?"

Class Format: This tutorial will be taught remotely via Zoom meetings. Each student will be the tutorial partner of one other student, and each pair of tutorial partners will meet with the instructor for 75 minutes each week. Individual "office hour meetings" will also occur via Zoom meetings.

Requirements/Evaluation: a 5- to 7-page paper every other week; a 3-page written critique every other week; one re-write paper

Prerequisites: ECON 110 or the equivalent, permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**ECON 217 (F) The Economics of National Defense**

**Cross-listings:** ECON 217 LEAD 214

**Primary Cross-listing**

National defense is one of the largest components of the US Federal Budget (~15%) and remains a significant part of the nation's GDP (~3%). The study of defense economics in this course will apply principles of microeconomics and macroeconomics to analyze, within the context of national security strategy and policy, issues concerning resource allocation in wartime and peacetime, labor supply and demand, industrial organization and defense acquisition, and the formation and maintenance of alliances. While the focus of the course will be on economics, to provide context on what makes defense economics a special topic, we will also consider questions unique to the military such as how to deter conflict, how to fight wars, how to provide humanitarian assistance and protection to civilians in conflict or disaster areas, and how the national defense may adapt to issues like climate change. We will also consider historical examples from America's wars—e.g., the Civil War, World War 2, Vietnam, and the more recent conflicts in Iraq and Afghanistan. The plan is to use a variety of sources—academic materials, popular media such as news footage and films, and guest speakers—to provide a full-range of perspective on the course topics.

**Class Format:** Mix of lecture and discussion

**Requirements/Evaluation:** Individual Papers, Group Paper and Presentation, Midterm and Final Exam

**Prerequisites:** ECON 110 and ECON 120

**ECON 218 (S) Markets, Distrust, and History (DPE)**

**Cross-listings:** GBST 218 ECON 218

**Primary Cross-listing**

Global markets connect strangers: people of different races, religions, and classes. There are huge profits from such economic contact, but there are also risks: of being cheated, deceived, or coerced. This course examines how global markets have evolved over the past five hundred years using insights from the economics of incentives (principal-agent models, contracts, mechanism design). Case studies will cover: the spice trade and conflict in the Indian Ocean (early 16th century), capital markets and fraud in Amsterdam and London (17th and 18th century), the coffee trade and deception in Mocha and Java (18th and 19th), slavery and its abolition in Brazil (20th), colonial control and resistance in Kenya (21st), and the constraints on “fair trade” in Nicaragua and US (present). Required readings for this class will be sixty or more pages per week, and will include historical case studies, excerpts from novels, and reportage.

**Requirements/Evaluation:** Students will be evaluated based on class participation, weekly assignments, a midterm, and a final.

**Prerequisites:** Econ 110

**Enrollment Limit:** 25
Enrollment Preferences: If overenrolled, students will be asked to submit a short statement of interest.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 227 (F) Acquiring Art: Selecting and Purchasing Objects For WCMA

Cross-listings: ARTH 527  ECON 227  ARTH 327

Secondary Cross-listing

How do museums acquire art? Factors considered in selecting objects include: the museum's existing collection, its mission, the availability of suitable objects, evaluation of the art historical importance of potential purchases, and the available budget. How can objects be identified and obtained at the most reasonable cost? How do auctions work and what strategies are best for purchasing works at auction? Is it more economical to purchase art at auction or to work with dealers or (for contemporary works) directly with artists? Do museums consider value in the same way as private collectors? What role does an object's history and condition play in the evaluation process? In this course students will work as teams to identify and propose objects for addition to the collection of the Williams College Museum of Art (WCMA). A significant budget will be made available for the acquisition. We will discuss approaches for identification, acquisition and evaluation of objects. Student teams will be responsible for identifying a set of objects that would make appropriate additions to the WCMA collection, and a strategy for acquiring one or more of those objects. Working with the advice of WCMA curatorial staff, one or more of these objects will be acquired using the agreed strategy, and the object will become part of the WCMA permanent collection. Graduate students will participate in all aspects of the class but may be required to undertake different assignments.

Requirements/Evaluation: three papers of 10-15 pages each and class participation; student teams will make proposals for objects; each student will be required to submit three papers, dealing with the objects, the likely cost, and the best strategy

Prerequisites: ECON 110 or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: senior majors in Art History, Economics and Political Economy; graduate students will be admitted only by permission of instructors

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

ECON 228 (F) Water as a Scarce Resource

Cross-listings: ECON 228  ENVI 228

Primary Cross-listing

For a variety of reasons including environmental pollution, urbanization, changing agricultural techniques, resource mismanagement, and the consequences of climate change, water is becoming a scarce resource even in places where it was relatively plentiful in the past, and it is likely to
become an increasingly scarce resource over the coming decades. In this course we will use basic economic models to consider policy issues relating to water: Is access to water a basic human right, and if so, what market and non-market mechanisms should play a role in water allocation? Does public ownership of water improve the way it is provided and used? Why do societies differ in their approaches to allocating water and are some systems better than others? What does it mean to have a property right to water? Could private property rights to water help address the water pollution problem? How can societies change their water-related property rights, regulations and social institutions when individuals have implicit or explicit rights to the institutional status quo? Who has the right to water that crosses international boundaries? How should societies allocate water across generations?

Class Format: meeting with the instructor in pairs for an hour each week

Requirements/Evaluation: a 5- to 7-page paper every other week (5 in all), prepare and present a written critique of their partners' papers in alternate weeks, and revise and re-write one of their five papers; evaluation will be based on the quality of the papers and on the quality of the student's oral presentations and commentary on the work of their colleagues

Prerequisites: ECON 110 or equivalent

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or to major or concentrate in Environmental Studies, and to students who are already major or concentrators in those subjects

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

ECON 229  (S)  Law and Economics  (QFR)

This course applies the tools of microeconomic analysis to private (i.e., civil) law. This analysis has both positive and normative aspects. The positive aspects deal with how individuals respond to the incentives created by the legal system. Examples include: how intellectual property law encourages the creation of knowledge while simultaneously restricting the dissemination of intellectual property; how tort law motivates doctors to avoid malpractice suits; and how contract law facilitates agreements. The normative aspects of the analysis ask whether legal rules enhance economic efficiency (or, more broadly, social welfare). Examples include: what legal rules are most appropriate for mitigating pollution, ensuring safe driving, and guaranteeing workplace safety? The course will also cover the economics of legal systems; for example, what are the incentives for plaintiffs to initiate lawsuits and what role do lawyers play in determining outcomes. The course will also consider potential reforms of the legal system.

Class Format: discussion

Requirements/Evaluation: class participation, problem sets, short papers based on actual court cases and possible legal reforms, a midterm exam, and a final exam

Prerequisites: ECON 110

Enrollment Limit: 35

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (QFR)

ECON 230  (S)  The Economics of Health and Health Care

Health, health care, and economics intersect in important ways. Health is an essential component of individual well-being and a fundamental input to a productive economy, making its production a societal priority as well as an individual one. Health care expenditures make up substantial fractions of economic activity in developed countries; in the United States health care expenditures are nearly one-fifth of the national economy, raising questions of why health care spending is so high and whether the spending effectively produces better health. At the same time, health is about more than just
health care; it is driven by many other factors, from individual behavior, to market forces, to government policy. In this course we will examine the economics of health by applying microeconomic analysis to the problems of health and health care provision. The course focuses on three broad areas: the inputs to health and the demand for health care; the structure and functioning of health care markets and the roles of key institutions; and the role of public policy in furthering individual and population health. Special attention will be devoted to topics of current policy interest, including health disparities, problems of health care costs and cost containment, health insurance reform and the Affordable Care Act, the role of public health interventions, and drug development and regulation. The COVID-19 pandemic has brought many of the challenges of health and health care into sharp focus, and we will examine the pandemic as a particularly instructive case study.

Class Format: The class is a mixture of lecture and discussion.
Requirements/Evaluation: Several short papers, participation in class discussion, and a final research project and presentation.
Prerequisites: ECON 110 and a class in statistics
Enrollment Limit: 25
Enrollment Preferences: Economics majors who need a 200-level elective, Political Economy majors, and Public Health concentrators

ECON 231  (S)  The Economics of Inequality
There are many outcomes in the United States that show profound levels of inequality: education, earnings, wealth, housing, environmental health, and life expectancy, just to name a few. This course examines the economic forces that drive and/or explain these inequalities in the U.S. The beginning of the course covers definitions and economic techniques used to measure income and wealth inequality, as well as differences between perceived and actual inequalities. We then move on to the theoretical underpinnings of the rise of domestic economic inequality, as well as models and theories of discrimination. Finally, we will explore how economic inequalities carry over into health, housing, and environmental quality through policies or social mechanisms. We will discuss and investigate the following questions and more: How are skill and education related to income? How do income and health interact, and which causes the other? How is the level of economic inequality in the country perceived? Which historic policies have led to specific inequalities, and was the inequality an intentional or inadvertent outcome? What have other countries done differently, and how does what the U.S. has done compare in terms of disparities? What exactly is discrimination, and what are the cumulative effects of it in the labor market and health outcomes?

Class Format: Lecture and small discussion groups
Requirements/Evaluation: Several short papers (peer- and instructor-reviewed), article review, and final project and presentation
Prerequisites: ECON 110
Enrollment Limit: 25
Enrollment Preferences: Economics majors
Expected Class Size: 25
Grading: yes pass/fail option, yes fifth course option

LEC Section: 01 MWF 10:00 am - 10:50 am Katie Gutierrez

ECON 232  (F)  Financial Markets, Institutions and Policies  (QFR)
The focus of the course will be on how firms, financial markets, and central banks interact in the economy. Key questions addressed in the course include: How do firms allocate their resources to enhance their value? How are firms evaluated by the financial markets? How are asset prices determined, and how are these prices related to interest rates? Are financial markets efficient, and what are the implications of their efficiency or lack
thereof? How does the financial system help with the management of risks faced by society? We will also study the role of the central bank (the Federal Reserve in the US), monetary policy, and government regulation and their impacts on financial decision making. Key questions include: How do central banks set monetary policy and how do those policies affect the economy and the financial decision-making process? How does monetary policy change when interest rates are (virtually) zero?

Class Format: There will be a mix of lecture and discussion.

Requirements/Evaluation: 5-7 Problem Sets, Quantitative Exercises, Group Paper, and Final Exam

Prerequisites: ECON 110 and ECON 120

Enrollment Limit: 25

Enrollment Preferences: Sophomore and Junior Economics majors

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Fall 2021

LEC Section: 01  TR 8:30 am - 9:45 am  Neal J. Rappaport

ECON 233  (S) Behavioral Economics and Public Policy

In many ways, the fields of psychology and economics both study the same phenomena: the motives that guide our decision-making across different contexts. This course provides a survey of the ways in which these two fields intersect, i.e., behavioral economics. Topics include how individual responses to economic incentives can be influenced by heuristics, framing, social norms, and other psychological motives; we will also study how these concepts are incorporated into microeconomics models. Concurrently, the course will review applications of these ideas to public policy and firm strategy. For instance, we will examine how behavioral economics has informed efforts to reduce poverty, increase environmental conservation, encourage long-term financial planning, and improve health and diet outcomes, among many other topics. The course will also discuss whether and how we ought to judge which behaviors are socially desirable and worth encouraging through policy.

Requirements/Evaluation: One midterm, one final exam, 4-6 problem sets, and 1-2 writing assignments

Prerequisites: ECON 110

Enrollment Limit: 30

Enrollment Preferences: If over-enrolled, I will aim to accept a mix of years and majors

Expected Class Size: 30

Grading: yes pass/fail option, no fifth course option

Distributions: (D2)

Attributes: POEC Comparative POEC/Public Policy Courses

Spring 2022

ECON 238  (F) Sustainable Economic Growth

Cross-listings: ENVI 238  ECON 238

Primary Cross-listing

Is it possible to have infinite economic growth on a finite planet? This question has sparked a great deal of inquiry across the social sciences. Some argue that we need to slow or even end economic growth to prevent environmental catastrophe. Others argue that market forces, especially changing prices and improved technology, will ensure that growth can continue unabated without significant negative consequences. Still others argue that government intervention is necessary to limit negative consequences of economic progress, but that effective interventions are still compatible with
sustained economic growth. In this class, we will explore the insights that economics has to offer on this important question. We will start by considering the importance of finite inputs used in production, including fossil fuels, minerals, and land, among others. Then, we will consider whether undesirable byproducts of economic growth will prevent sustained growth. This second part of class will place a lot of emphasis on climate change. Throughout the class, we will pay special attention to the role that government intervention can or cannot play in promoting sustainable economic growth. This class will reinforce important concepts taught in introductory microeconomics and introductory macroeconomics.

**Class Format:** The first half of the class is lecture-based. The second half of the class is discussion-based.

**Requirements/Evaluation:** midterms exams, final exam, problem sets, short writing assignments, video-taped presentations, class participation

**Prerequisites:** ECON 110 and ECON 120

**Enrollment Limit:** 25

**Enrollment Preferences:** potential or declared social science majors

**Expected Class Size:** 20

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 238 (D2) ECON 238 (D2)

**Attributes:** ENVI Environmental Policy POEC Comparative POEC/Public Policy Courses

**ECON 240 (F) Colonialism and Underdevelopment in South Asia (DPE) (QFR)**

British colonial rule in South Asia shaped economy and society in fundamental ways. As resistance to colonial rule emerged in the late nineteenth century, "nationalist" writers developed a critique of its economic impact via taxation, fiscal policy, trade, and many other policies. In their turn, supporters of British rule, "apologists," argued that British rule had laid the foundations of economic growth by securing property rights, enforcing contracts, and developing infrastructure. The debate between "nationalists" and "apologists" has never quite ended, but after the recent growth of the Indian economy it has lost some of its emotional charge. We will use this opportunity to revisit the controversy.

**Requirements/Evaluation:** essays (one every other week) and responses to partner's essays will be evaluated

**Prerequisites:** one course in ECON

**Enrollment Limit:** 10

**Enrollment Preferences:** Economics major, prior course on South Asia

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (QFR)

**Difference, Power, and Equity Notes:** Issues of difference, power, and equity are at the heart of any analysis of colonialism, hence the DPE designation.

**Quantitative/Formal Reasoning Notes:** Students will write six essays, in which they will employ economic models and engage with quantitative evidence, so the course satisfies the QFR requirement.

**ECON 242 (F) Evaluating the Costs and Benefits of Public Policies**

How do we determine whether introducing a new vaccine is cost-effective and worth the investment costs or whether a policy to protect a wetland is worth the sacrifice? Is it possible to assess the economic consequences in terms of benefits and costs of new healthcare regulations? Economists typically use the tools of applied cost-benefit (CBA) and cost-effectiveness analysis (CEA) in order to address such policy questions. The goal of applied economic evaluations is to identify, measure, and value all relevant costs and benefits of new public policy investments and regulations. This course covers both theory and practice of economic appraisal of a public policy (an investment project, regulation, a specific treatment etc.), with an emphasis on health care and public health applications. The CBA and CEA methods covered in the class are widely used in many other policy areas
as well, including public transportation, infrastructure investment and environmental policy.

**Requirements/Evaluation:** computer lab assignments, active class participation, midterm exam, and final exam

**Prerequisites:** ECON 110 or equivalent, MATH 130 or equivalent

**Enrollment Limit:** 30

**Enrollment Preferences:** Econ Majors and Public Health Concentrators

**Expected Class Size:** 20

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

**Attributes:** PHLH Decision-Making by Institutions + Individuals  POEC Comparative POEC/Public Policy Courses

Not offered current academic year

**ECON 251 (F)(S) Price and Allocation Theory**  (QFR)

A study of the determination of relative prices and their importance in shaping the allocation of resources and the distribution of income. Subjects include: behavior of households in a variety of settings, such as buying goods and services, saving, and labor supply; behavior of firms in various kinds of markets; results of competitive and noncompetitive markets in goods, labor, land, and capital; market failure; government policies as sources of and responses to market failure; welfare criteria; limitations of mainstream analysis.

**Requirements/Evaluation:** Requirements vary by professor, but typically include frequent problem sets and multiple exams, including a final exam. They may also include one or more quizzes, short essays, collaborative projects, or presentations.

**Prerequisites:** ECON 110 and MATH 130 or its equivalent

**Enrollment Limit:** 30

**Enrollment Preferences:** Current or prospective Economics majors.

**Expected Class Size:** 30

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)  (QFR)

**Quantitative/Formal Reasoning Notes:** Course involves developing and analyzing mathematical models of real-world phenomena, grounded in tools like calculus and game theory. Students are assumed to be comfortable with topics from introductory calculus, including differentiation and integration.

**ECON 252 (F)(S) Macroeconomics**  (QFR)

A study of aggregate economic activity: output, employment, inflation, and interest rates. The class will develop a theoretical framework for analyzing economic growth and business cycles. The theory will be used to evaluate policies designed to promote growth and stability, and to understand economic developments in the U.S. and abroad. Instructors may use elementary calculus in assigned readings, exams and lectures.

**Requirements/Evaluation:** Requirements vary by professor, but typically include frequent problem sets and/or written assignments, midterm(s), and a final exam.

**Prerequisites:** ECON 110 and 120 and MATH 130 or its equivalent

**Enrollment Limit:** 30

**Enrollment Preferences:** Current or prospective Economics majors.

**Expected Class Size:** 30
Grading: no pass/fail option, no fifth course option

Distributions: (D2) (QFR)

Quantitative/Formal Reasoning Notes: Course involves mathematical modeling of real-world phenomena, analyzing quantitative results, and describing those results in words.
