Whatever your previous experience with Spanish, ¡Bienvenida! ¡Bienvenido! We are glad to have you with us. In order to figure out the most appropriate point of entry, we ask that all students who wish to begin their study of Spanish in the new academic year take the department's placement exam when it is offered during First Days. The only students who don’t need to take the placement exam are those who qualify as “true beginners,” those with no previous experience of Spanish and for whom 101-102 is obviously the right choice. Everyone else should take the placement test. After you do, the Registrar's Office will notify you of the level and/or course the Spanish faculty have recommended for you. You should free to reach out to the department chair, your recommended instructor, or any other faculty member if you have questions or concerns about your placement.

STUDY ABROAD

Spanish majors, as well as non-majors interested in further exposure to the language and the culture, are strongly encouraged to study in Spain or Latin America for either a semester or a full year. We recommend that you start planning for study abroad as early as possible, and that you speak to our faculty early on to go over the many possible destinations and programs available to you. In recent years, Williams students have studied in such varied and far-flung locations as Buenos Aires, Havana, Lima, Barcelona, and Madrid. Those who are interested in Madrid may wish to consider the Hamilton College program, with which we maintain consortial ties. Credit for up to four courses can be granted at the discretion of the Department for study overseas. Those four courses count towards the certificate or the major in Spanish. Students interested in study abroad should consult with a member of the department at their earliest convenience.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, provisional approval can be granted (students should be sure to contact the department for details).

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments. If it is a program we are familiar with, the course title and description are enough. If it is a new program/new type of course we need all the available materials (syllabus, assignments, etc.).

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

Yes. Four maximum.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes. They have to be courses that focus on language, culture, history, or politics of the target language/culture.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. Our Senior Seminars are required for the major.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study
away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

This hardly ever happens but could happen if a student doesn't seek out pre-approval from a faculty member.

RLSP 101 (F) Elementary Spanish
This course focuses on grammar, elementary composition, practice in conversation, and reading of short, easy prose. It is taught by the intensive oral method.

Requirements/Evaluation: Engaged daily participation, regular homework exercises, quizzes, a midterm, and a final exam. All students must take the Winter Study Sustaining program to continue to RLSP 102.

Prerequisites: This course is for students who have no previous background in Spanish.

Enrollment Limit: 18

Enrollment Preferences: This course is introductory. Students who have a background in Spanish should seek an alternate course. Preference will be given to those with potential interest in pursuing the certificate, major, and/or studying away in a Spanish speaking country.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

Fall 2024
SEM Section: 01    M-F 10:00 am - 10:50 am     Soledad Fox

RLSP 102 (S) Elementary Spanish
This course is a continuation of RLSP 101 and must be completed after also taking the Winter Study Sustaining Program to be eligible for credit. It focuses on grammar, elementary composition, practice in conversation, and reading of easy texts. It is taught by the intensive oral method.

Class Format: The class meets five hours a week; students will complete workbook and lab exercises weekly.

Requirements/Evaluation: Daily preparation and participation, regular assignments, frequent tests, a midterm and a final. At least two cultural activities per semester must be attended.

Prerequisites: RLSP 101; this course is for students who have studied less than two years of Spanish in secondary school. Students must complete RLSP 101 as well as the Winter Study sustaining program to be eligible to enroll.

Enrollment Limit: 20

Enrollment Preferences: Students enrolled in RLSP 101.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: Students in RLSP 101-102 are required to attend and pass the sustaining program during the winter study period.

RLSP 103 (F) Intensive Intermediate Spanish
RLSP 103 (F) Intensive Intermediate Spanish. This course is a continuation of Spanish 101-102. It is designed to help students improve their proficiency in each of the major skill-groups (listening, speaking, reading and writing) while providing an introduction to the cultures of the Spanish-speaking world. Classroom activities and homework are designed to increase vocabulary and improve your ability to handle daily life in a
Spanish-speaking country, to express your views on complex subjects such as art and politics, and to increase your knowledge of the cultural traditions of Latin America and Spain. Film screenings and readings in Hispanic literature, culture and politics will provide material for in-class discussion and some writing assignments. This course provides the linguistic and cultural training that is necessary to engage the diverse Spanish-speaking communities of Latin America, Spain and the US; it will help to prepare students for further literary and cultural studies as well as provide skills that are increasingly essential in fields such as medicine, law, and education. Conducted in Spanish.

**Class Format:** Class meets four hours a week: three times with the professor (either in the morning or at noon) and one time in the afternoon with the TA.

**Requirements/Evaluation:** Regular attendance and active in-class participation, workbook exercises and weekly compositions, quizzes, midterm and final exams.

**Prerequisites:** RLSP 101-102 or by Spanish placement exam

**Enrollment Limit:** 20

**Enrollment Preferences:** If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

**Expected Class Size:** 20

**Grading:**  no pass/fail option,  no fifth course option

**Distributions:**  (D1)

---

**RLSP 104 (S) Intensive Intermediate Spanish, Upper Level**

This course is a continuation of Spanish 103. During the spring semester we resume our work to expand your proficiency in each of the major skill-groups (listening, speaking, reading and writing) while increasing familiarity with the vibrant cultures of the Spanish-speaking world. Students in both sections of RLSP 104 can once again expect to sample a variety of written and audiovisual media--poems and short fiction, essays, journalism, blogs and film--to deepen their understanding of Hispanic cultures. However, Section 2 will have a more distinct focus on cinema: we will watch a series of classic and contemporary films and develop the specialized vocabulary and skills needed to analyze them in class discussions and student writing. Regardless of which section you are in, students in Spanish 104 can expect to write regularly and to meet with their professor, teaching associate and classmates in varying combinations for four hours each week. This course is designed to prepare students for further literary and cultural studies in Spanish--including the challenges of study abroad--and to hone communication skills that are increasingly essential in professional fields such as medicine, law, and education. Conducted in Spanish. Más and its accompanying Cuaderno de Práctica will serve as our primary texts. Conducted in Spanish. For students who have not taken Spanish 103 at Williams, the departmental placement exam is required for enrollment in this course.

**Class Format:** Seminar. Students will spend 4 hours per week in class in engagement with their Professor, Teaching Associate (TA), and classmates. In addition to the regular MWF classes with their Professor, students will meet for one additional hour per week with the TA. As will be explained in the course syllabus and at the first class meeting, this additional hour with the TA will take place at a time (to be decided during the first weeks of class) that is mutually beneficial for the TA and students.

**Requirements/Evaluation:** Weekly 1- to 2-page compositions, daily homework and class participation, oral reports, midterm exams and a final exam.

**Prerequisites:** RLSP 103 or by Spanish placement exam or permission of instructor.

**Enrollment Limit:** 20

**Enrollment Preferences:** If the course is over-subscribed, priority will be given to first-year students and others with a demonstrable commitment to study of Spanish.

**Expected Class Size:** 20

**Grading:**  no pass/fail option,  no fifth course option

**Distributions:**  (D1)
RLSP 105  (F)  Advanced Grammar, Composition, Conversation

In this course students will refine their knowledge of Spanish grammar and vocabulary towards further fluency in speaking and writing. The focus of the class is grammar through active engagement with grammar exercises as well as relevant cultural materials. The section that meets at 9 a.m. will have a focus on Latin American poetry, and the section that meets at noon will focus on the politics and culture of contemporary Spain. Students will produce regular grammar and composition exercises as well as oral reports. They will also meet with the Teaching Associate, in smaller groups, weekly.

Class Format: students must participate in TA sessions once a week.

Requirements/Evaluation: regular grammar and composition assignments, a mid-term, occasional quizzes, oral reports; active participation and regular attendance required.

Prerequisites: RLSP 104, or results of the Williams College Placement Test, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: first-year students, potential majors

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

---

RLSP 106  (S)  Advanced Grammar and Composition through Literature  (WS)

This course is designed for advanced students who wish to further polish and refine their grammatical, lexical, and writing skills in Spanish. The course may be taken immediately after 104, by placement exam results, or even after students have begun to sample the Department's literature and culture offerings at the 200- and 300-level. Classic works of short fiction by celebrated Latin American authors such as Gabriel García Márquez and Julio Cortázar will be discussed; selected Latin American films will be viewed as well. For written and oral assignments: weekly essays, in-class presentations, and language-laboratory activities. Conducted in Spanish.

Requirements/Evaluation: A weekly essay based on the stories read in class. Written lab exercises. Participation in the grammatical and literary discussions. Oral presentations, quizzes, a mid-term exam, and a final exam

Prerequisites: RLSP 104, any course 201+, placement exam or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: In the event of over-enrollment, preference will be given to sophomores.

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Weekly essays, corrected for both language and content. Constant feedback from instructor. Students will be required to revise and rewrite their graded essays.
**RLSP 201 (F) The Spanish Labyrinth**

How can you learn to separate the stereotypical images of Spain from its current reality? How can we talk about one "Spain" when the country is a complex composite of ancient and diverse cultural remnants mixed with recent influxes of immigrants, and separatist movements? How has the vulnerable peninsula survived centuries of violent upheavals and divisiveness; dramatic economic rises and collapses? How have recent events and political tensions affected Spain's health system, demographics, and economy? This course aims to offer students a strong foundation in Spanish issues, whether they have already spent time abroad, or hope to do so in the future. In this course we will approach Spain by studying examples of its literary and artistic production, from periods of brilliant cultural exchange, and times of censorship, repression, and crisis. Some topics of focus will be the Inquisition, the Civil War, contemporary Spain's obsession with its own recent past, and its uncertain future. Secondary texts will also be provided for historical and socio-political background and reference. Conducted in Spanish. We will also use films and music.

**Requirements/Evaluation:** Conducted entirely in Spanish. Evaluation will be based on active daily participation and attendance, oral presentations, 2 short papers and a final research project.

**Prerequisites:** RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

**Enrollment Limit:** 20

**Enrollment Preferences:** Spanish majors, certificate candidates, and anyone who has studied away in Spain or plans to.

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)

**RLSP 202 (S) Introduction to the Analysis of Literature in Spanish**  (WS)

This course is intended for students who are considering a major in Spanish, including those who have recently completed RLSP 105, 107, 200, 201 or 209. Using a textbook, *Aproximaciones al estudio de la literatura hispánica*, we will study the fundamentals of genre analysis while reading selected works of prose, poetry, and drama from Latin America and Spain. In addition to studying the principles and techniques of literary analysis, this course will continue to develop your speaking, writing, and reading comprehension skills with a particular emphasis on composition. Conducted in Spanish.

**Class Format:** Students are expected to be active participants at all scheduled class meetings, which will be used for discussion and collaborative analysis of literary texts as well as workshopping student writing.

**Requirements/Evaluation:** Graded assignments will include three essays of five pages each as well as consistent preparation and class participation.

**Prerequisites:** RLSP 105, 107, 200, 209, or placement exam results indicating readiness for a 200-level course

**Enrollment Limit:** 20

**Enrollment Preferences:** first- and second-year students who are considering the major in Spanish

**Expected Class Size:** 20

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)  (WS)

**Writing Skills Notes:** Each student will write and revise three essays of roughly give pages each. Feedback will be provided regarding grammar, style, and argument. On Fridays we will workshop student papers.

**RLSP 203 (F) From Modernismo to El Boom de la Novela**

A survey of some of the leading imaginative writers of Ibero America. Readings will begin with the modernista poets and go on to include fiction of Mexico by Rulfo, a wide sampling of verse by Pablo Neruda, and narratives of the "Boom" period by authors such as Borges, Cortázar, Lispector, and García Márquez. Conducted in Spanish.

**Requirements/Evaluation:** Response journals, three 6- to 8-page papers, a mid-term and final exam, and class participation.
**Prerequisites:** RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

**Enrollment Limit:** 12

**Enrollment Preferences:** Seniors, juniors, and then sophomores

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**RLSP 205 (S) Magical Realists, Fantasists, Experimentalists: The Latin-American Novel in Translation (DPE)**

**Cross-listings:** COMP 205

**Primary Cross-listing**

A course specifically designed to enable students who have no knowledge of Spanish to read and discover those Latin-American authors who, in the twentieth century and after, have attracted world-wide attention. Among the texts to be discussed: Borges, Labyrinths; Cortázar, Blow-up and Hopscotch; Lispector, the Hour of the Star; lesser works by Fuentes and Puig; and by Nobel Prize-winner Gabriel García Márquez, One Hundred Years of Solitude. Conducted in English

**Requirements/Evaluation:** class participation, two brief papers, a midterm, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 22

**Enrollment Preferences:** Latina/o Studies concentrators, Comp Lit majors

**Expected Class Size:** 22

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** does not carry credit for the Spanish major or the certificate

**Distributions:** (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 205(D1) RLSP 205(D1)

**Difference, Power, and Equity Notes:** This course offers students an opportunity to read some major works of fiction that have challenged the canon of European and American literature. Through the readings, class members will understand that great literature comes not only from London or Paris, from the U.S. or Russia. Several of these novels, moreover, directly challenge European and Western cultural hegemony and make an implicit claim for the legitimacy of Latin American cultural concerns.

**RLSP 206 (S) Latin-American Civilizations**

An introduction to the multiple elements constituting Latin-American culture. Class assignments include readings from selected Latin-American essayists and screenings of classic films. Particular focus on the conflict between local and foreign cultural traditions. Areas to be considered: Spanish Catholicism, the influence of European liberalism and U.S. expansion, the Indian and African contribution, and the cultural impact of social revolution in Mexico and Cuba. Conducted in Spanish.

**Requirements/Evaluation:** two essays on assigned topics, response journals, one oral presentation, active discussion of the ideas and the facts presented in class, a midterm, and a final

**Prerequisites:** RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

**Enrollment Limit:** 12
Enrollment Preferences: Juniors, sophomores, first-years.

RLSP 209 (F) Spanish for Heritage Speakers

Cross-listings: LATS 209

Primary Cross-listing

This course is intended for students of Latino/a heritage. It will address the unique needs of students whose knowledge of Spanish comes primarily from informal and family situations rather than a conventional classroom experience. The goal of the course is to build on and expand students’ existing knowledge of Spanish while developing skills for using the language in more formal/academic contexts. Conducted in Spanish.

Requirements/Evaluation: homework, class participation, and a series of communicative projects

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Potential Spanish majors/certificate students and LATS concentrators

RLSP 210 (S) Graphic Novels, Spain, and Economic Crisis

The massive economic crisis that began in 2007 affected all areas of life in Spain, among other things, led to the rise of several social movements and critiques of neoliberalism. In this class we will study graphic novels -- a booming medium in contemporary Spain -- along with other mediums such as literature and film to see how they reflect this key moment in Spanish society. We will consider the ways in which these novels represent new social movements as well as effects of the crisis that continue to this day. In the process, we will not only gain a better understanding of contemporary Spain, but also unpack the characteristics of visual storytelling. Readings may include Miguel Brieva's Lo que me está pasando, Manel Fontdevila's ¡No os indignéis tanto!, and Isaac Rosa's & Cristina Bueno's Aquí vivió: Historia de un desahucio.

Requirements/Evaluation: Conducted entirely in Spanish. Evaluation will be based on active participation and attendance, one group presentation, four take-home essay quizzes, and one final project (12-15 pages).

Prerequisites: Spanish 105 or 106, or results of the College Placement Exam, or permission of instructor.

Enrollment Limit: 20

Enrollment Preferences: Spanish majors and certificate students.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1)

RLSP 217 (S) Love and marriage in Medieval and Early Modern Spain
We are often told that love is a natural human feeling and marriage its happiest consequence. But these two conditions are constructed and depend on society's dominant values. In this class we focus on pre-modern Spain to study the principles and fears that create definitions of love and marriage, also with a view to how some of these have survived to this day in our own communities. Our theoretical frames will come from the medieval and early modern periods, but also from contemporary definitions and critiques. Primary sources will include lyrical traditions, the writings of King Alfonso X, the works of Santa Teresa de Ávila, San Juan de la Cruz, Lope de Vega, Tirso de Molina, Pedro Calderón de la Barca, Miguel de Cervantes, among others.

Requirements/Evaluation: Active and meaningful participation, short assignments, one final project.
Prerequisites: RLSP 105 or 200, or results of Williams College Placement Exam, or permission of instructor
Enrollment Limit: 22
Enrollment Preferences: Spanish and Comparative Literature majors
Expected Class Size: 20
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

Not offered current academic year

RLSP 219 (F) Latin American Diasporic Cultures: The Venezuelan Case
The history of Latin America cannot be fully understood without the study of the mass migrations that have taken place to and from the region throughout the 20th and 21st centuries. These displacements differ in nature, do not share a single origin, route, or destination. They primarily stem from complex political conflicts (racial, gender, sexual, economic, climatic) and have left a definitive mark on the hemispheric cultural imagination. This course aims to study the narratives surrounding migration and migrants in Latin America. What are the geographies of displacement? Is the Chihuahuan Desert or the Darien Gap a wall? Is the Caribbean Sea a border? What happens to the narrative when it emerges under the sign of exile? How does the figure of the migrant destabilize notions of law, nation, and personhood? How is the migrant body constituted, and how do literature, cinema, visual arts, or performance portray it? We will conduct a panoramic analysis of cultural materials and critical interventions produced throughout the continent regarding the figure of the migrant, arriving at the current Venezuelan diaspora--comprising more than seven million people--and its aesthetic, ethical, and political resonances. Primary materials include texts by Reinaldo Arenas, Virgilio Piñera, Manuel Ramos Otero, Valeria Luiselli, Sonia Nazario, Juan Pablo Villalobos, Balam Rodrigo, Adalber Salas Hernández, and Gina Saraceni, as well as works by visual artists José Rafael Perozo and Gerardo Rosales, films by Mariana Rondón and Diego Quemada-Diez, among others. Conducted in Spanish, the course will also have a public orientation, with some activities open to the wider university community.

Requirements/Evaluation: Evaluation is based on active participation, several short compositions, a conference paper, and a final project.
Prerequisites: RLSP 105 or higher; or results of the College Placement Test; or permission of instructor.
Enrollment Limit: 20
Enrollment Preferences: Spanish majors and certificate candidates; comp lit majors with a focus on Spanish.
Expected Class Size: 20
Grading: no pass/fail option, no fifth course option

RLSP 220 (S) Women on the Verge
Cross-listings: WGSS 222

Primary Cross-listing
From the early twentieth century to the present day, the radical changes in the lives of Spanish women have clearly reflected the tug of war between progress and tradition in recent Spanish history. The dramatic upheavals in Spanish politics have marked and transformed the lives of women to such a great extent that one can often gauge the political and social climate of any given historical moment by considering how the role of women was defined by the law, the Catholic church, education, and other social and political institutions. Using literary and historical texts as well as films, newspapers and other media, this course will look at the transformations in the public and private lives of Spanish women during the following periods: the turn of the century, the Second Republic, the Spanish Civil War, the Franco years, the transition to democracy, and the present day.
Requirements/Evaluation: This course is conducted entirely in Spanish.

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 20

Enrollment Preferences: Spanish and Comparative Literature majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

RLSP 231 (F)  Indigenous Writers of Colonial Mexico and Peru  (DPE) (WS)

This course examines the writings of 16th and 17th Century Indigenous authors of New Spain and colonial Peru. We will study the works of well-known Indigenous writers such as Hernando de Alvarado Tezozomoc, Fernando de Alva Ixtlilxochitl, El “Inca” Garcilaso de la Vega, and Guaman Poma de Ayala, as well as writings by lesser-known and anonymous Indigenous authors. Our focus on the historical contexts and formal aspects of their works will be supplemented and enhanced by a study of the critical methods of textual analysis that are particularly relevant to Indigenous texts, as facilitated by a set of selected critical readings. The course, in short, will aim to interrogate the idea of a “Spanish lettered city” (a colonial city dominated by Spanish men of letters) and will explore the possibilities of an “alter-native” lettered city, one in which Indigenous writing flourishes during times of crisis. Conducted in Spanish.

Requirements/Evaluation: Each student will write four 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise the first three papers and submit a final version. Excellent preparation and active, engaged participation in class discussions is required.

Prerequisites: RLSP 105, 107, 200, or 202, placement exam results, or permission of instructor.

Enrollment Limit: 19

Enrollment Preferences: Spanish majors and certificate students, current and potential; LATS concentrators

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write four 4- to 5-page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will introduce students to the rich and varied cultural production of colonial Mexico and Peru. It will highlight the often marginalized and neglected intellectual histories of Indigenous peoples and other minoritized sectors of colonial society. As such, students will acquire critical tools to examine and understand the rich and varied cultural production of Mexico and Peru during the Spanish colonial era.

RLSP 232 (S)  Islam in medieval and Early Modern Spain

The presence of Islam—in all its diverse manifestations—is not new to Europe, least of all to Spain. In this course we will focus for the most part on the medieval and early modern periods to study the ways in which which Muslims and Islam have inhabited and been portrayed in the Iberian Peninsula. We will cover a wide range of perspectives as well as cultural material. While the bulk of the course is focused on the period prior to 1700 CE, towards the end of the course we will relate our findings to contemporary Spain through social and legal debates, among them topics related to immigration. Conducted in Spanish

Requirements/Evaluation: Several short reaction papers, active and regular class participation, presentations, and one final project.
Prerequisites: RLSP 105 or above, or results of the Williams College Placement Exam, or permission of instructor

Enrollment Limit: 22

Enrollment Preferences: Spanish majors and certificate candidates, Comp Lit majors with a focus in Spanish

Expected Class Size: 22

Grading: yes pass/fail option, no fifth course option

RLSP 259 Violent States, Violent Subjects: Nation-Building and War in 19th Century Latin America (DPE) (WS)

Although the massive, mechanized wars of the 20th century often overshadow earlier conflicts, the 19th century was also a period of widespread bloodshed in Latin America. First, of course, came the carnage of the Independence Wars, which was followed by decades of civil war (Mexico, Argentina, Peru, Uruguay, Colombia, Venezuela) and two bitter international wars—the Paraguayan War (1864-1870) and the Pacific War (1879-1883)—each of which would have a lasting impact on the countries involved. The restoration of peace brought economic development and new opportunities for dominant groups, but also the return of some of the most violent practices of the colonial period: indigenous peoples were conquered, their lands settled by whites or used for grazing cattle, and blacks (often despite the official abolition of slavery) met with new forms of exclusion, exploitation, and physical violence. In this tutorial we will explore the literary links between some of the violent conflicts listed above and the foundation of national identities in Latin America, reading texts that probe the social and ethical implications of State-sponsored violence. Issues to be explored include militarism and the development of nationalism; genocide and the national community; torture, truth and testimony; and the notion of 'civilization.' We will read one or two key precursors and a variety of 19th century texts that may include works by Juan Francisco Manzano, Esteban Echeverría, Ricardo Palma, Rosa Guerra, Dorotea Duprat de Lassere and Juan Crisóstomo Centurión, and Lucio V. Mansilla. In addition, we will read a few contemporary texts, written in the aftermath of the late-20th century dictatorships in the Southern Cone, that actively reflect on the long history of State-sponsored violence in Latin America (Ricardo Piglia, Diamela Eltit, Augusto Roa Bastos). Students will work in trios throughout the semester, each group meeting with the instructor once a week. Each week one of the students will present a 5-page paper on the assigned reading and one will be designated the official respondent, whose job is to lead a discussion of the paper. The third member of the group will turn in a revision of the previous week's paper. Prerequisites: one 200-level RLSP course or permission of instructor. Heritage learners, international students and second-language learners are all heartily welcome. Conducted in Spanish.

Class Format: Conducted in Spanish.

Requirements/Evaluation: Each student will write and revise a minimum of three five-page papers during the course of the semester. Students will be evaluated on the basis of their preparation for each tutorial meeting as evidenced by the quality and frequency of their engagement with the material, including their classmates' written work. Essays will be graded after they have been revised and submitted to the professor.

Prerequisites: Any 200-level Spanish course.

Enrollment Limit: 12

Enrollment Preferences: Priority given to Spanish majors.

Expected Class Size: 12

Grading:

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will practice writing throughout the semester, and will receive abundant feedback on their written work from their tutorial partners and the instructor. We are altering the tutorial format from the standard duos to trios of students, so that students will have ample opportunity to revise their written work.

Difference, Power, and Equity Notes: This course focuses on issues of diversity, power and privilege within the internal and regional constitution of Latin American countries. We will read with an awareness of some of the ways that differences of race, class, nationality and gender may be mobilized in times of conflict, and consider how the collective narratives that are constructed and imposed in the aftermath tend deal with those conflicts.

Not offered current academic year

RLSP 301 (S) Cervantes' "Don Quijote"
We will devote the semester to the study of one novel: Miguel de Cervantes' *Don Quijote*, published in the early part of the 17th century. We will try to understand the reasons for the novel's immense and ongoing influence. We will study Cervantes' handling of issues that continue to have relevance to our lives today: relationships, the role of fiction in life, the shapes of mental illness, how we show people who we think we are, how our governments, families and friends decide who we are, the fun and annoyance of going on a road trip with someone, the meaning of justice, and the meaning of storytelling, to name a few. In the process, we will set things in context to understand what was going on in Cervantes' world. Finally, we will find that even an entire semester was not enough to engage fully with this extraordinary work. *Conducted in English using a contemporary translation.*

**Class Format:** lecture/discussion

**Requirements/Evaluation:** active class participation; two to three short projects and one final research project

**Prerequisites:** any 200-level RLSP or Comp Lit or English course at Williams

**Enrollment Limit:** 20

**Enrollment Preferences:** Spanish majors and Comp Lit majors and Engl majors.

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1)

*Not offered current academic year*

---

**RLSP 304 (S) Environmental Literature and Film in Latin America** *(DPE) (WS)*

**Cross-listings:** ENVI 311 / COMP 311

**Primary Cross-listing**

What use are aesthetics when the world is (literally) on fire? We will take up this question and others in a critical engagement with Latin American cultural production of the twentieth and twentieth centuries, especially works of literature and film that directly or indirectly engage with environmental crisis. Students can expect to explore a variety of media, forms and genres, including works that range from (more or less) mainstream to cutting edge. Our examinations of literature and film will be supported by theoretical writings produced in the Americas and other places. Writers and directors whose work may be considered include, but are not limited to: Lucrecia Martel, Ciro Guerra, Rafael Barrett, Samanta Schweblin, Ernesto Cardenal, Juan Rufio, María Luisa Bombal, Eduardo Gudynas, Silvia Rivera Cusicanqui, Eduardo Viveiros de Castro, Isabelle Stengers.

**Requirements/Evaluation:** This course will be conducted seminar-style. Students will be expected to prepare thoroughly and be active, engaged participants in class discussions. In addition to day to day preparation and participation, other graded assignments will include discussion-leading, one short (5-7 page) essay and a longer (15-20 page) paper combining research and original analysis.

**Prerequisites:** One college literature of film course at the 200-level or above.

**Enrollment Limit:** 19

**Enrollment Preferences:** Envi majors and concentrators, Comp Lit majors, Spanish majors and those working towards the Spanish certificate.

**Expected Class Size:** 12

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 311(D1) RLSP 304(D1) COMP 311(D1)

**Writing Skills Notes:** All students in the course will write (and rewrite) no less than 20 pages. Major writing assignments will be scaffolded, with explicit discussion of the writing process (pre-writing, drafting, revision) and consultation.

**Difference, Power, and Equity Notes:** The works of literature and film that we will be examining challenge North American conceptions of climate change (and environmental crisis more broadly) by making visible (often uncomfortably so) the colonial and neocolonial history of extractivism.

**RLSP 311 (F) The Politics of Love in Latin American Literature** *(DPE) (WS)*

Cynical, sincere, confused and confusing, love and politics have a lot of complicated history together in Latin America. This course considers works of literature and other cultural texts in which love and politics are explicitly intertwined: the authors, artists and activists we consider profess love for their
followers and would-be converts, represent love as a (revolutionary) political force, contest the legitimacy of patriarchal heteronormativity, and sometimes all three. We will consider writings by 20th and 21st century political leaders whose speeches and other writings convey the melodrama of radionovelas (Eva Perón) as well as the sacrificial love of the guerrillero (José Martí, Che Guevara) and the anarchist (Rafael Barrett). We may also consider the love professed by historical figures including Catholic missionaries (Antonio Ruiz de Riveria) and 19th century abolitionists (Juan Francisco Manzano, Gertrudis Gómez de Avellaneda) and/or nation-builders (Mármol, Sarmiento). We may examine tensions around the domestication of love in writings in translation by Brazil's Clarice Lispector and the torment of eros in Elena Garro's political novel Memories of the Future. We will likely read poems of grief and love for those murdered in the secret detention centers of the Southern Cone dictatorships (Raúl Zurita, Juan Gelman). We will delve into the politics of queer love, solidarity and mourning with authors such as Mario Puig, Reinaldo Arenas, and Cristina Peri Rossi, and in Sebastián Leilo's 2017 film, A Fantastic Woman. We will conclude by considering the politics of love as articulated by Black Lives Matter, particularly as the movement has taken shape in Latin American countries, and its impact in Colombia and elsewhere. Conducted in Spanish.

Requirements/Evaluation: Regular preparation for class is required, as is thoughtful participation in class discussions. Students will be evaluated for both. Students will also be evaluated for discussion-leading and making presentations on their original research in progress. There will be two graded essays, one of 5-7 pages and the other 15-20.

Prerequisites: One RLSP course at the 200 level.

Enrollment Limit: 19

Enrollment Preferences: Students majoring or completing a certificate in Spanish.

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will be writing and rewriting roughly twenty pages. Longer assignments will be broken down into stages (proposal, bibliography, research, analysis, draft, revision) with feedback from the instructor at every stage.

Difference, Power, and Equity Notes: Using literary texts, we will delve into the ways a wide variety of political actors -- from the mainstream to the radical fringe -- talk about love in Latin American contexts. Some of them will seem comparatively cynical, but in other cases we will be looking at how people contest the hegemony of patriarchal, capitalistic and heteronormative definitions of what "counts" as true love.

Not offered current academic year

RLSP 319  (F) Dictatorship and the Latin-American Novel  (DPE)

Military dictatorship is among the most crucial factors in Latin-American society and history, and some of the continent's leading novelists have taken it upon themselves to depict the experience in their work. In this course we will examine both the fact of dictatorship itself and the diverse representation thereof in Spanish-American fiction. Novels by García Márquez, Vargas Llosa, Poniatowska, and Tomas Eloy Martínez will be closely studied. Students will also read Absalom! Absalom! by Faulkner, whose influence on Latin-American authors' techniques of representation has been decisive and profound.

Class Format: In-person.

Requirements/Evaluation: three 8-page papers, response journals, an oral report, a final 3-page paper, and class participation

Prerequisites: RLSP 105, or RLSP 200, or results of Williams College Placement Exam, or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: Spanish majors, Latina/o Studies concentrators

Expected Class Size: 5-10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course focuses on the ultimate sort of power-namely, military dictatorship. And it focuses on the historical fact of such a phenomenon within the U.S. political sphere of influence--Latin America. To study dictatorship and its depiction in literature is a means of understanding the nature of that power imbalance and of taking a first step toward some sense of equity.

RLSP 342  (S) Reading Sor Juana: “única poetisa americana, musa décima,”  (DPE) (WS)
This course focuses on the writings of one of the most revered women writers in Hispanic Letters, Sor Juana Inés de la Cruz, who was regarded by her contemporaries as the Tenth Muse. Our exploration and study of Sor Juana’s writings will focus on the different genres in which she wrote—prose, poetry, and drama—and it will include a survey and analysis of the historical context in which she wrote, the formal aspects of her writings, and critical essays about her work written by leading scholars in the field of Latin American literature. Near the end of the semester, the course will conclude by expanding its focus to examine the ways in which Sor Juana’s work has influenced contemporary Latin American and U.S. Latina authors. Conducted in Spanish.

Requirements/Evaluation: Each student will write three 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide two 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version. Excellent preparation and class participation is required.

Prerequisites: One RLSP course at the 200-level or above or permission of instructor

Enrollment Limit: 19

Enrollment Preferences: Spanish majors

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write three 5-7 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide two 2-page critiques of their partner’s papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight the intellectual production of one of the most revered women writers in Hispanic Letters. It will explore the challenges women writers faced as well as the social critiques Sor Juana makes in her writings about the exclusion of women and other racial minorities in Spanish colonial society. As such, students will gain critical skills to analyze and understand the diversity of Spanish-American society through Sor Juana’s texts.

RLSP 344 (S) Contemporary Latin American Queer Aesthetics (DPE)

Conducted in Spanish, this advanced seminar examines a panoramic corpus of contemporary cinema, literature, and music in Latin America to trace possible shared political and cultural characteristics of a queer aesthetic. We will explore the works of renowned figures such as Reinaldo Arenas, Chavela Vargas, Pedro Lemebel, and Mariana Rondón, among others, to delve into the intricate layers of queer expression within the region. Is it possible to discern a common transnational queer identity among Latin American countries? What would it look like, sound like? Would it have a shared political mission? What would be its symbols? Primarily focusing on Venezuela, Cuba, Puerto Rico, Dominican Republic, Mexico, Chile, and Argentina, we will analyze a wide range of cultural artifacts—including the work of writers, filmmakers, and musicians—to discuss contemporary debates on identity and representation surrounding sexuality, but also in its intersection with race, gender, and social class. Through an interdisciplinary and intersectional lens, this course will offer a feminist analysis of Latin American counterculture, interrogating the process whereby queer aesthetics enter and sabotage the mainstream. By the end of the seminar, students will have a strong knowledge of contemporary queer artistic practices in Latin America and will be able to identify the most prominent theoretical contributions on sexual and gender dissidence from the region.

Requirements/Evaluation: Evaluation is based on active participation, class presentations, a weekly forum debate, and either a final paper or project.

Prerequisites: Any 200-level course in Spanish taken at Williams or permission of the instructor.

Enrollment Limit: 20

Enrollment Preferences: Spanish majors, Spanish certificate candidates.

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: The course explores the politics and aesthetics of Latin American cultural material from the framework of resistance and queer activism, giving students the opportunity to understand the construction of alternative Latin American identities that go against the mainstream.
RLSP 405 (S) Alternative American Literatures: From the Indigenous Chronicle to the Latin American & Chic. Novel (DPE) (WS)

Do the Americas have a common literature? If so, is it possible to trace their roots and continuity from the colonial era to the present? Literary critic Matin Lienhard suggests that it is indeed possible to trace the origin of a literature common to Latin America from the colonial era and into present by focusing on what he calls "alternative literatures"—literatures that relativize the importance of Europeanized and Creole literatures and valorize the richness of oral traditions in the Americas. Such literatures, he asserts, are closely tied to marginalized sectors of society. In this course, we will take Lienhard's concept of "alternative literatures" as a point of departure to pursue our own examinations of how these "alternative literatures" are constituted. While the primary aim of this course is to focus on the writings of Latin American authors, we will end by exploring the relationship between "alternative" Latin American literatures and Chicana/o/x literatures. Readings will include narrative texts such as Cartas de relación, chronicles of conquest, religious texts, indigenous annals, poetry, and drama, as well as contemporary Latin American and Chicana/o/x novels.

Requirements/Evaluation: Four essays, class presentations, active participation, and regular attendance required

Prerequisites: any 300-level RLSP course or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Senior Spanish Majors.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Each student will write four 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial rule as well as the writings of more contemporary minority authors of Latin America. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze a diversity of Spanish-American colonial texts from the 16th century as well as more contemporary narrative texts.

Spring 2025

SEM Section: 01 TF 2:35 pm - 3:50 pm Alejandro Castro

RLSP 407 (F) Gender, Race and Nature: Ecocritical Examinations of Latin American Culture (DPE)

This senior seminar brings an ecocritical focus to the study of Latin American cultural production. We are particularly interested in works of literature and other kinds of cultural texts that critique, subvert, or transcend conventionally Eurocentric and patriarchal conceptualizations of the human and its relation to non-human being. Rhetorical tropes linked to extractivist economic practices and their alternatives will be identified and analyzed over the course of the semester as we sample a wide range of literary and non-literary texts (poetry, narrative prose, essay, film, painting, woodcuts, music, digital media) produced throughout the 20th and 21st centuries. We will also read and discuss writings by leading ecocritics and decolonial theorists including Silvia Rivera Cusicanqui, Eduardo Gudynas, Mary Louise Pratt, Walter Mignolo, and more.

Requirements/Evaluation: Thorough preparation and active class participation, discussion-leading, one 5-7 page paper and one 15-20 page paper as well as a paper proposal, abstract, bibliography, and draft.

Prerequisites: Study abroad, one or more RLSP courses at the 200+ level, or permission of instructor.

Enrollment Limit: 19

Enrollment Preferences: Senior Spanish majors, then other interested students.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course brings decolonial theory and ecocriticism together in an approach to Latin American cultural production.

Winter Study ---------------------------------------------------------------

RLSP 30 (W) Honors Essay: Spanish
To be taken by candidates for honors other than by thesis route.
Class Format: honors essay
Grading: pass/fail only
Not offered current academic year

RLSP 31 (W) Senior Thesis: Spanish
To be taken by students registered for Spanish 493-494.
RLSP 88 (W) Spanish Sustaining Program
Students registered for RLSP 101-102 are required to attend and pass the Spanish Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program—check your class schedule to confirm enrollment.

Grading: pass/fail option only
Not offered current academic year

RLSP 99 (W) Independent Study: Spanish
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
The Department of Theatre is committed to the merging of embodied practice and scholarship in the fields of theatre and performance studies. The curriculum is dedicated to the study, practice, appreciation, and interpretation of theatre, performance, and other time-based arts. The major in Theatre emphasizes the collaborative nature of the theatre and performance making by drawing upon courses offered by faculty of the Language, Literature, Music, and Art Departments. Although students will be equipped to proceed to graduate and professional schools in theatre, the major is primarily directed toward those interested in studying theatre and performance as artistic phenomenon and as interpretive tools. Because a deep understanding of theatre requires training and experience with the synthesis on stage, the major includes curricular study of production and performance, as well as continued participation in departmental stage production.

The production arm of the Department of Theatre operates under the supervision of the departmental faculty. Major departmental productions as well as laboratory and experimental productions of all kinds are mounted on the new stages of the '62 Center for Theatre and Dance. Participation in acting or technical work is open to all members of the Williams College community. Students majoring in Theatre will be asked to consult regularly with departmental advisors in devising the sequence of courses and production participation that will constitute their major.

**MAJOR**

**The Major in Theatre consists of nine courses, including the following:**

- Theatre 101 The Art of Playing: An Introduction to Theatre and Performance
- Theatre 201 Worldbuilding: Staging and Design For The Theater
- Theatre 301 Embodied Archives: Global Theatre & Performance Histories
- Theatre 406 Practicing Theory: Senior Seminar

Five additional elective courses must be taken from the department’s other offerings (including courses cross-listed with Theatre). Two of the five electives must be taken at the 200-level or higher by the end of the student’s junior year, and an additional two of the five must be taken at the 300-level or higher by the time of graduation. Substitutions of other Williams’ courses, or of Study Abroad courses, may be made only with the consent of the department Chair. Students should consult with the department Chair regularly in planning a balance of practice and scholarship in their elective choices and in mapping a route through the major.

**Production Requirement for the Theatre Major:**

All majors in Theatre are required to participate in a minimum of four department productions. Participation in at least one of these four must be in stage management. Assignment to productions in stage management must be made in consultation with the department Chair. Students participating in a production will be enrolled in THEA 290-299: Theatre Department Production as a partial-credit, fifth course, admitted by permission of the department Chair and evaluated on a Pass/Fail basis only. Students remaining in the course beyond the sixth week of the start of a term will be graded by the instructor. Enrollment is by audition or appointment within the Theatre department. Students who do not wish to enroll for credit will be given the opportunity by the department to be removed from the course. Rehearsals for productions are scheduled TBA, based on the availability of the ensemble, and do not conflict with other academic commitments, such as evening courses or evening exams. The department normally produces three productions per academic year. Students may enroll in multiple productions in the same semester and may repeat a production course by permission of the department Chair. For each departmental production they participate in, a student will receive a partial credit of .5 on their College
THE DEGREE WITH HONORS IN THEATRE

GUIDELINES FOR HONORS

IN THE DEPARTMENT OF THEATRE WILLIAMS COLLEGE

Students interested in pursuing Honors in Theatre should first refer to the guidelines for undertaking Honors in any discipline at Williams College. These guidelines state: “Williams awards the degree with Honors to those students who have demonstrated imagination, initiative, and intellectual independence within the major.”

Next, students should refer to the description of the Degree with Honors in Theatre as described in the Williams course catalog. This states:

THE DEGREE WITH HONORS IN THEATRE

Candidates for Honors should apply for admission through the submission of a project proposal to the Department Chair by the first Friday of the second term of their junior year. Students considering admission to the Honors program in Theatre must have achieved at least a 3.5 grade point average in all Theatre courses, with a minimum of five courses completed by the fall term of their junior year (this GPA must be maintained throughout the senior year in order to achieve Honors), and have already demonstrated both ability and experience through coursework, production, and/or performance. In addition, applicants must have a plan in place to complete their Stage Management requirement by the end of the first term of their senior year. For projects including a production element, all performances must occur within the second term of the yearlong Honors project. Admission into the program will be determined on the basis of the student’s acceptance of the terms and conditions stated by the faculty. Students may request a specific faculty advisor. However, students are not guaranteed to be assigned their requested advisor. Requests may be denied depending on faculty availability. All candidates will be informed of their admittance to the Honors program by the end of the second term of their junior year.

Once a student is admitted, the department Chair will assign an Honors Advisor, who will work with the student to specify a timeline and program for the completion of the Honors project.

Students will be evaluated on an ongoing basis. If a student’s work in the first or second term does not meet the standards of Honors, their project will be converted into a standard Independent Study. The Honors Advisor will determine both the first and second semester grades for the candidate. All Honors candidates will present their completed projects to the department for evaluation by the faculty of Theatre. Determination of High Honors, Honors, or No Honors will be made by the department. Honors of any kind are contingent upon satisfactory completion of the Honors project. High Honors is awarded only to those whose performance in the program has been regarded as exceptional.

PROJECT PROPOSAL

The project proposal is a written essay of approximately 750-1000 words that describes the nature, goals, and methodology of the proposed course of study and project to be undertaken in the pursuit of Honors. The proposal must be structured by the following sections with headings, designating each section:

Project Description: a complete and detailed description of the proposed project, including its major aims and objectives. Successful proposals will not only convey the critical and intellectual significance of the project but also its artistic and creative potentials by making reference to select theory, practice, or scholarship in the fields of performance and theatre studies, as well
as other disciplines if relevant.

Methodology: a description of the methods and strategies to be undertaken in pursuit of the project's objectives.

Contribution to Field: a brief rationale for the project’s expected contributions to the practice and field of theatre arts and/or scholarship.

Contribution to Educational Experience: a brief description of how the proposed project contributes to the candidate’s own educational goals and development.

Timeline of Completion: an estimated timeline of the project, including stages of development and expected deadlines.

Required Supplemental Materials (not included in proposal word count):

Bibliography: a preliminary bibliography of resources, which may include texts, videos, archives, or other reference materials to be consulted during the planned course of study, formatted in MLA or Chicago.

Resume: a recent resume.

Please note: for projects involving a performance and/or production components, candidates should be mindful of the scope and scale of their proposed project, taking into account the resources and labor required for the realization of their project. All accepted Honors projects will be provided with a modest and equitable budget, the limits of which they must agree to work within. Budgeting will begin only after acceptance into the Honors program. See: Guidelines for Production in Honors Projects.

All documents, including the project proposal and any supplemental material, must be submitted digitally to the Chair.

TIMETABLE OF PROPOSAL AND COMPLETION OF HONORS

The following offers the default timetable for admission into Honors and completion of all Honors projects, based on a regular academic calendar (fall/spring). Note: students wishing to apply for Honors in an off-cycle fashion (spring and fall of the same calendar year) must be in touch with the Chair early in the second term of their junior year to express interest in applying for Honors.

For all Honors candidates: failure to meet established deadlines may result in dismissal from Honors.

JUNIOR YEAR:

Fall term: candidates meet with the Chair to express interest in pursuing Honors.

By second Friday of Spring term: project proposal due to Chair.

Candidates will be informed by mid April of the decision by the faculty of Theatre regarding admission to Honors. Admission into the program will be determined on the basis of the student’s acceptance of the terms and conditions stated by the faculty. Department assigns Honors Advisor(s) to admitted candidates.

SENIOR YEAR, FALL:

Course registration for Fall: all Honors candidates must enroll in THEA 493

During term: research and preparation for production or written thesis

Course pre-registration for Winter Study and Spring term: candidates should expect to register for W32 and THEA 494.

December 1: progress report due to Honors Advisor. The report is a written statement of 2-3 pages in which the candidate accounts for the progress they have made so far as well as their plans for moving forward in the remainder of the academic year
End of Fall term: Honors Advisor, in consultation with faculty in Theatre, determines whether a candidate may proceed with Honors for a second term or turn the project into an Independent Study. Should a candidate not be given permission to continue in Honors for the second term, they must change their enrollments as appropriate for Winter Study and the Spring term.

**SENIOR YEAR, WINTER STUDY:**

Candidates must continue to advance their Honors projects, using the time to prepare for their second term.

**SENIOR YEAR, SPRING:**

March 15: progress report due to Honors Advisor. The report is a written statement of 2-3 pages, in which the candidate accounts for the progress they have made so far as well as their plans for moving forward in the remainder of the year.

If applicable, the production and performance component of the Honors project will occur during this term.

May 1: all written theses and digital production portfolios due to Honors Advisor. All written theses must conform to the formatting guidelines set by Williams College and include proper citation as well as a bibliography. All production components and performance elements must be fully completed by this time. In the case of an Honors project in production, the student must submit to their Honors Advisor a digital production portfolio, which may contain: director’s or actor’s notes or journal, research materials, photographs or video of the production, or design renderings and sketches, etc. The candidate will work with their Honors Advisor to determine the exact contents of the digital portfolio. All production portfolios must also contain a proper bibliography of sources and materials consulted during the project.

During the final two weeks of classes: oral presentations of theses will be scheduled by the Chair, in consultation with candidates and faculty members.

By end of exam period: candidates will be informed of the departmental decision of Honors, High Honors, or No Honors. Note: All written Honors theses must be digitally submitted to the Library Archives by the final day of exam period.

**Additional Information**

**Proposals for Joint or Collaborative Projects:**

Students may submit proposals for projects that are collaborative in nature, and may even propose joint projects in which no more than two Senior Theatre Majors plan to execute an Honors project together. However, in such cases the department will evaluate admission to the Honors program on an individual basis, and, should the project be approved, will also determine the awarding of No Honors, Honors, or High Honors on an individual basis. If one student from a joint project is admitted to the Honors program and the other is not, then the department will work with the approved student to see whether a revision to the original proposal will allow the project to proceed.

**Technical, Financial, and Staff Support:**

Students proposing to engage in production or performance as part of their Honors projects should recognize that departmental constraints (financial, technical, and personnel) dictate to a significant degree what levels of support are possible in any given year. See: Guidelines for Production in Honors Projects. The Department will make every effort to support the interests and
goals of students as we see fit and within our range of possibility. However, students should tailor their proposals toward projects that can be produced with modest and limited means, both in material resources and staffing support. All honors projects will be given a fair and equitable budget. Flexibility within proposals is required. Due to their unique nature, not all projects will necessarily receive the exact same kind of technical or material support: at the same time, the department will do its best to assure that Honors projects are supported as equally as possible so as to maximize the educational benefits for each Honors candidate.

We aim to create equity of access within the varied requirements of Honors.

STUDY ABROAD

The Theatre Department attempts to work individually with majors and prospective majors who desire to study abroad. In general, with careful planning it is usually quite easy for students to complete the major in Theatre if they study abroad for one semester of their junior year. For those wishing to study abroad for more than one semester of junior year, a more complicated situation may arise, but one that can often be successfully managed through close consultation with the department chair. Students are encouraged to consult with the chair early in their Williams careers if they anticipate a combination of Theatre major and study abroad.

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in many cases, though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, and complete syllabus, including readings/assignments.

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

Yes.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

Yes.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

THE NATIONAL THEATRE INSTITUTE

The Department of Theatre is affiliated with the National Theatre Institute, which offers additional theatre study through its resident semester program. The Institute is fully accredited by Connecticut College and is a member of the Twelve-College Exchange. Limited numbers of Williams students can therefore be selected to take a full semester of intensive theatre study at the NTI, located at the Eugene O’Neill Memorial Theatre Centre in Waterford, Connecticut. During the semester, students from participating colleges live and work as members of a theatre company gaining experience with professional theatre artists in a workshop environment. Early application is essential.

THEA 101 (F) The Art of Playing: An Introduction to Theatre and Performance

Cross-listings: COMP 151 / GBST 116

Primary Cross-listing
This is an introduction to the global art and practice of making theatre. Students will learn about the history, aesthetics, and approaches to the performer's labor associated with select performance forms from around the world. Emphasis will be on the analysis of embodied practices and the relationship between the stage and everyday life. Through readings, audiovisual materials, performance exercises, and discussions we will engage with theatre as a constantly evolving art form, sharpening our analytical skills through theoretical approaches from performance studies. Central to our exploration will be excavating the Eurocentric assumptions that conventionally shape the practice and study of theater in the United States. We will seek ways to decolonize our perspectives and ask critical questions about performance’s potential to enact strategies of anti-racism and anti-imperialism. This course, open to all students, is a gateway to the major in Theatre, and is a prerequisite for THEA 201, THEA 204, THEA 301, and THEA 401.

Requirements/Evaluation: two 5-page critical essays, journal reflections, studio exercises, and active participation in all activities

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: prospective Theatre majors or Theatre majors or Comparative Literature majors

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

THEA 104  (F) Greek Literature: Performance, Conflict, Desire

Cross-listings: COMP 101 / CLAS 101 / DANC 101

Secondary Cross-listing

In the Iliad, Paris’ desire for the famously beautiful Helen leads to the Trojan War, the devastating conflict between the Trojans and the Greeks retold and reimagined time and again in ancient Greek literature. The stories of Troy and its aftermath were performed not only as epic poems (as in the Iliad and the Odyssey), but also re-enacted by singing and dancing choruses, dramatized on the tragic stage, and recounted in oratory. Beginning with the Homeric epics, this course explores the recurring and ever-shifting debates, longings, hostilities, and aspirations that drive Greek literature and shape
its reception, with a particular focus on questions of performance context and audience. Our attention to sound, movement, and staging will be
enriched by consideration of select examples from the rich reception history of Greek myth in modern theater and dance. The nexus of performance,
conflict, and desire will also give us a distinct perspective on many important topics within the study of Greek culture, including the embodiment of
personal and collective identities, the workings of Athenian democracy, and the development of literary genres. This course will include readings from,
e.g., Homer, Sappho, Herodotus, Aeschylus, Sophocles, Euripides, Aristophanes, Thucydides, and Plato, as well as viewings of relevant performance
works. All readings are in translation.

Requirements/Evaluation: midterm and final exam; brief (one or two pages) written assignments; participation in class.

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Classics majors, first years, sophomores

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

THEA 109  (S)  The Art of Yoga: Practice, Philosophy, Politics, Possibilities  (DPE)

Cross-listings: ASIA 109

Primary Cross-listing

This course offers an immersive, interdisciplinary approach to hatha yoga, the branch of yoga that emphasizes bodily techniques for channeling
energy, and achieving balance and quietude. It has been practiced and theorized variously in South Asia since ancient times. More recently, beginning
in the late 19th century, it has been popularized throughout the globe, and has served as a source of inspiration for artists in various disciplines,
including the theatre. Our work will follow four interrelated paths that will provide a broad context for our own experience and offer us tools for
developing creativity: 1) We will dedicate ourselves to the careful study of the physical practice of yoga asanas, giving emphasis to biomechanical
principles of alignment. Our study will include some basics of yoga anatomy; 2) We will study some allied philosophical principles, as they emerge
from the Sanskrit text, Patanjali's *Yoga Sutras*, and some current commentaries on that text, by means of expanding the significance of our practice to
all areas of our lives; 3) We will attend to the cultural politics of yoga by discussing new scholarship on its ancient origins as well as critical inquiry
about how issues of appropriation, Orientalism, and racism shape its current manifestations; 4) We will examine how artists have incorporated
elements of yoga into their practice. To explore how yoga might support our own artistic and innovative thinking, we will pair our practice with creative
exercises. In this way, the course aims to explore the relationship of theory and practice. It will be of interest to students in the arts and anyone
interested in fostering artistry and the imagination. Students must be prepared to engage in a physical practice of asana, as well as commit to reading,
writing, and discussion. No previous experience with yoga is required.

Requirements/Evaluation: Students will write 3-page weekly papers, either in response to readings or embodied exercises, or the tutorial partner's
essay. Written feedback will be given by instructor. Students will be expected to demonstrate that they are regularly practicing outside of class both by
the quality of questions they bring to our sessions together, as well as their continuous refinement of the poses. Students will not be evaluated in
relation to a standard, but according to their own dedicated and steady progress with respect to the experience of yoga practice. The evaluation
process includes attendance.

Prerequisites: Prospective students will be asked to submit an online form with questions about their interest in the class.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to first-year students.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $50 for yoga mat, belt, and balls.

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 109(D1) ASIA 109(D1)

**Difference, Power, and Equity Notes:** Throughout the course we will reflect on the ways in which the knowledge created through yogic practice and philosophy disrupts and provincializes European epistemological systems. Moreover, we will engage in critical inquiry into the ways in which the global popularity of yoga is shaped by colonial legacies of Orientalist representation, as well as contemporary modes of cultural appropriation and consumerism.

Spring 2025
TUT Section: T1    TBA    Shanti Pillai

THEA 141  (F) Opera

**Cross-listings:** MUS 141

**Secondary Cross-listing**

An introduction to the history of opera, from the genre's birth c. 1600 to the present. At various points in its 400-year development, opera has been considered the highest synthesis of the arts, a vehicle for the social elite, or a form of popular entertainment. Opera's position in European cultural history will be a primary focus of our inquiry. We will also study the intriguing relationship between text and music, aspects of performance and production, and the artistic and social conventions of the operatic world. The multidimensional nature of opera invites a variety of analytical and critical perspectives, including those of music analysis, literary studies, feminist interpretations, and political and sociological approaches. Works to be considered include operas by Monteverdi, Lully, Charpentier, Handel, Gluck, Mozart, Rossini, Donizetti, Verdi, Wagner, Bizet, Puccini, Strauss, Berg, Britten, Glass, and Adams.

**Class Format:** discussion

**Requirements/Evaluation:** a midterm, a brief paper, an 8-page paper, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Students with experience in music and/or theater studies.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

THEA 150  (S) The Broadway Musical  (DPE)

**Cross-listings:** MUS 150

**Secondary Cross-listing**

Named for a specific road but enjoying a global impact, the Broadway musical has intersected with multiple styles and societal concerns over the past century. In this course, we explore the American musical theater's roots and relationship to opera, operetta, vaudeville, minstrelsy, and Tin Pan Alley. Traveling through the genre's history, we will encounter a wide range of musical styles, including ragtime, jazz, rock, and hip hop, and will explore several genre transformations, such as movies made into musicals and musicals into movies. We will develop a range of analytical skills as we investigate connections between choreography, lyrics, music, staging, and production. Throughout the semester, we will consider the genre's representations and reflections of ethnicity, race, sexuality, and class. The syllabus includes representative works by Gilbert and Sullivan, Cohan, Gershwin, Kern, Weill, Rodgers and Hammerstein, Lerner and Loewe, Bernstein, Sondheim, Lloyd Webber, Tesori, and Miranda, with particular focus on such works as Showboat, Oklahoma!, Guys and Dolls, West Side Story, Hair, Rent, and Hamilton.

**Class Format:** discussion

**Requirements/Evaluation:** a midterm, a brief paper, an 8-page paper, and a final exam

**Prerequisites:** none

**Enrollment Limit:** 30
Enrollment Preferences: Seniors and Juniors and music majors.

Expected Class Size: 30

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 150(D1) MUS 150(D1)

Difference, Power, and Equity Notes: We will develop skills aimed at analyzing and interpreting how perceptions of race, gender, and class shaped, and were shaped by, Broadway. We will consider the extent to which, for example, blackface minstrelsy and ethnic-based humor persisted and how specific musicals aimed to engage with critical social and political issues throughout the genre's history. Musicals have played a major role in the contested and ongoing endeavor to define “America.”

Not offered current academic year

THEA 183  (F) Stage Direction for Opera and Musical Theatre

Cross-listings: MUS 183

Secondary Cross-listing
The course provides an overview of the fundamentals of stage direction for opera and musical theatre. Students will develop an understanding of the basic principles of design and the process necessary for developing an approach to directing a production. They will explore the work of stage directors whose output has been particularly influential and learn about a variety of approaches to process and rehearsal technique. Repertoire studied will include a range of opera and musical theatre from the beginning of the form to its current trends and a broad variety of directorial approaches from traditional to concept productions. Students will complete the process of developing a concept/approach for a production with a title of their choosing.

Class Format: Hybrid lecture/studio format

Requirements/Evaluation: Students will complete the process of developing a concept/approach for a production with a title of their choosing.

Prerequisites: none

Enrollment Limit: 24

Enrollment Preferences: Music and Theatre majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

THEA 201  (S) Worldbuilding: Design for the Theater

Cross-listings: ARTS 201

Primary Cross-listing
This course examines designers' creative processes as they investigate a theatrical text and then dream-into-being the fictional worlds of a hypothetical production. Class will consist of several practical projects in multiple areas of design. We will practice a two-pronged technique in response to a text: developing a personal, intuitive creative response while simultaneously supporting all logistical requirements, resulting in an inventive yet dramaturgically sound design. Emphasis will be on folding this individual work process into a larger group collaboration by refining methods of communication, presentation, and group critique.

Requirements/Evaluation: Coursework is group class discussion and critiques, paired with several hands-on projects throughout the term.

Prerequisites: THEA 101 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Theatre majors
THEA 203  (F) Living Masks: Theory and Practice
The Mask is one of the oldest performance tools in the history of humanity - they conceal, reveal, and transform. For millennia they have been used in spiritual contexts like ritual storytelling, dance, and funerals. In our own times, theoretical and protective masks are part of everyday conversations and day to day life. This course will survey, discuss, and experiment with masks thematically and tangibly across histories, cultures, and traditions. There will be practical assignments in creating masks with various mediums such as recyclable materials, cloth, and paper mâché.

Requirements/Evaluation: multiple mask-fabricating assignments, some physical theatrical exercises, short papers, short presentations, a final paper and presentation, committed participation and attendance, students will also be expected to partake in discussions

Prerequisites: none

THEA 206  (S) Directing for the Stage
An introduction to the resources available to the Stage Director for translating interpretive concepts into stageworthy physical realization. Kinetic and visual directorial controls, as well as textual implications and elements of dramatic structure, and strategies of working with actors and other collaborators will be studied in detail. Most assignments will involve hands-on directing projects presented in class for collective critique.

Requirements/Evaluation: committed participation in the preparation and performance of production exercises; there will be some written assignments

Prerequisites: Theatre 101 or permission of instructor

THEA 209  (S) Realism: Scene Study
A studio in the acting, craft, and performance of realism. How do we perform in the present moment? How do we act with purpose and intention? What
makes something look and feel like it is happening for the first time? When might acting require us to do less rather than more? In this studio, we will explore tools and methods used by actors to tell truthful stories and convey the close imitation of reality on stage. Beginning with basic techniques and exercises, we will move into more advanced scene studies based on short scenes from works by contemporary U.S. playwrights. Playwrights may include Branden Jacobs-Jenkins, Bess Wohl, Amy Herzog, Annie Baker, Dominique Morisseau, Eboni Booth, Quiara Alegría Hudes, Jackie Sibblies Drury, Lauren Yee, Mona Mansour, Martyna Majok, Taylor Mac, and others. As a final project, students will perform two- or three-person scenes, potentially in front of an invited audience.

Requirements/Evaluation: active participation in class exercises and discussion; off-book performance of a variety of scenes throughout the semester; final project with research and performance.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: Theatre majors, preference given to those who have taken Thea 101.

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

THEA 210  (F)  The Art of Making Art: Production Management Across the Arts

An introductory look at management across the performing arts from the point of view of the Production Manager and Artistic Producer. How do these team members facilitate the conceptual ideas of creative teams while balancing the practical realities of the business of the arts? This course will examine how collaborators in a variety of fields breakdown barriers, embrace change and recover from failures. Through exercises, textual analysis and research projects participants will develop a theoretical creative project and will explore the management process in the following areas: communication, collaboration, scheduling, budgeting, human resources, negotiation and creativity.

Requirements/Evaluation: Case Study; Field Notebook; (4) Research Projects/Presentations; Collaborative Creative Project; Active classroom participation

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Preference given to Theatre majors, juniors and seniors

Expected Class Size: 5

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

THEA 216  (F)  Asian/American Identities in Motion  (DPE)

Cross-listings: AAS 216 / AMST 213 / DANC 216 / GBST 214 / ASIA 216

Secondary Cross-listing

The course aims to explore dance and movement-based performances as mediums through which identities in Asian and Asian American (including South Asian) communities are cultivated, expressed, and contested. Students will engage with how social and historical contexts influence the processes through which dance practices are invested with particular sets of meanings, and how artists use performance to reinforce or resist stereotypical representations. Core readings will be drawn from Dance, Performance, Asian, and Asian American Studies to engage with issues such as nation formation, racial and ethnic identity politics, appropriation, tradition and innovation among other topics. This is primarily a discussion-based seminar course, and might also include screenings, movement workshops, and discussion with guest artists and scholars. No previous dance experience is required.

Requirements/Evaluation: reading responses, in-class writing assignments, participation in discussions and presentations, two 5-6 page essays, and a final cumulative essay assignment.

Prerequisites: none
Enrollment Limit:  15
Enrollment Preferences:  first years and sophomores
Expected Class Size:  10
Grading:  no pass/fail option,  no fifth course option
Distributions:  (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 216(D2)  AMST 213(D2)  DANC 216(D1)  GBST 214(D2)  ASIA 216(D1)  THEA 216(D1)

Difference, Power, and Equity Notes: This course introduces students to the role of performance in nation formation in Asia and the history of Asian Americans in the US through analysis of dance practices. Student will explore how race was central to the formation of Asian and the American nations, and how social and legal discriminatory practices against minorities influence identity and popular cultural practices. The assigned material provide examples of how artists address these inequalities and differences in social power.

SEM Section: 01    WF 11:00 am - 12:15 pm     Munjulika R. Tarah

THEA 217  (F)  Acting Through Impulse

Acting Through Impulse: An actor's job is inherently contradictory: we must remain present and alive onstage but craft a coherent, repeatable performance. We must access depth and intensity of feeling but do so sustainably, while remaining grounded in our bodies. This course will explore the link between aliveness and preparation, between impulse and regulation. Forging those links requires cooperation between the imagination, the body, and the text. Together, we will approach impulse from several angles: first, through movement and image, then through the operations of the nervous system, and finally through scenework. There will be journal and written assignments, but the bulk of the classwork will be practice-based, incorporating physical exercises, warm-up training, monologue work and scene performance.

Prerequisites:  None
Enrollment Limit:  14
Enrollment Preferences:  Theatre majors; students having taken THEA 101
Expected Class Size:  14
Grading:  yes pass/fail option,  yes fifth course option
Distributions:  (D1)

Fall 2024
STU Section: 01    T 1:10 pm - 3:50 pm     Erica Terpening-Romeo

THEA 220  (S)  Greek Tragedy  (DPE)

Cross-listings:  CLAS 202 / COMP 220

Secondary Cross-listing

Ancient Greek tragedy was a cultural phenomenon deeply embedded in its 5th-century Athenian context, yet it is also a dramatic form that resonates powerfully with 21st-century artists and audiences. This course examines tragedy on both levels. We will read such plays as Aeschylus' *Agamemnon*, Sophocles' *Electra*, and Euripides' *Medea* in English translation, considering their literary and dramatic features as well as their relationship to civic, social, and ritual contexts. We will discuss such topics as the construction of gender and identity on the dramatic stage, the engagement between tragedy and other literary genres, and the distinctive styles of the three major Athenian playwrights. We will also survey a set of recent productions and adaptations of these plays, with a particular focus on how modern playwrights and producers use Greek tragedy to explore justice, power, race, gender, status, and sexuality. We will consider how a dramatic form largely produced by and for Athenian citizen men became a creative resource for a remarkably diverse range of 21st-century artists, and explore how modern productions offer fresh perspectives on ancient material. All readings will be in English.

Requirements/Evaluation:  class participation, several essays, brief oral presentations
**Difference, Power, and Equity Notes:** This course considers the questions of justice and power central to the performance of tragedy in the ancient Greek world, as well as the manifold ways in which 21st-century artists have used Greek drama to explore the modern construction of race, gender, class, and sexuality. Students will also examine how theater can operate both as a form of institutional power and as a space for exposing, critiquing, and reimagining dominant cultural narratives.

Not offered current academic year

THEA 221  (S)  Acting Shakespeare

Acting Shakespeare: In this course we will learn to understand, unpack, and embody Shakespearean text. Our work will be both intellectually and physically rigorous, with equal time spent on the meaning and mechanics of the language--and decoding the secret directions for actors Shakespeare embedded in his plays--and on the physical and vocal training necessary to fully embody these texts. Actors must feel empowered to take full ownership of Shakespeare's work, rather than being too reverent or shrinking in its shadow. So we will spend the final part of the semester "meddling" with Shakespeare, finding opportunities to explode, expand, and explore these endlessly resilient and versatile plays. Classwork will include written assignments as well as rigorous scene work and monologue work. We will work with selections from several plays, including Hamlet, Twelfth Night, Measure for Measure, Romeo and Juliet, and Richard III.

**Requirements/Evaluation:** Short written assignments. Rigorous rehearsal and performance of monologues and short scenes.

**Prerequisites:** None

Enrollment Limit: 14

Enrollment Preferences: Theatre majors; students who have taken THEA 101

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

Spring 2025

STU Section: 01  TF 1:10 pm - 2:25 pm  Erica Terpening-Romeo

THEA 225  (F)  Facilitating Creativity: Introduction to Stage Management Theory

In this course students will explore the pillars of stage management (leadership, communication, safety, collaboration, empowerment) and theatre making from the point of view of the stage manager. Using the production process (pre-production, rehearsals, tech, performances, closing) as the framework, students will develop communication and organizational tools that break down barriers in the creative process. Management theory is integrated into each step, allowing each student to identify how their practice can be informed by theory and to begin cultivating their individual management style.

**Requirements/Evaluation:** Course long development of a prompt book and stage management paperwork, reflection essays and active classroom participation.

**Prerequisites:** none

Enrollment Limit: 10

Enrollment Preferences: preference given to THEA majors

Expected Class Size: 5

Grading: yes pass/fail option, yes fifth course option
THEA 226 (S) Gender and the Dancing Body (DPE)

Cross-listings: DANC 226 / AMST 226 / WGSS 226

Secondary Cross-listing

This course posits that the dancing body is a particularly rich site for examining the history of gender in America and beyond. The aim of the course is to explore ideas related to gender as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and may also include film screenings, movement workshops, discussions with guest artists and scholars. No previous dance experience required.

Requirements/Evaluation: participation in discussions and presentations, reading responses, in-class writing assignments, two 5-6 page essays, and a final cumulative essay.

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: first years and sophomores

Expected Class Size: 10-15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 226(D1) AMST 226(D2) WGSS 226(D2) THEA 226(D1)

Difference, Power, and Equity Notes: In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

Spring 2025

THEA 229 (S) Modern Drama

Cross-listings: COMP 202 / ENGL 202

Primary Cross-listing

An introduction to major plays and key movements in European and American theatre since the late nineteenth century. Our focus will be on close reading, with attention also to questions of performance and production. Plays to be discussed will likely include: Ibsen, Hedda Gabler; Wilde, The Importance of Being Earnest; Chekhov, The Cherry Orchard; Pirandello, Six Characters in Search of an Author; Brecht, Mother Courage; Miller, Death of a Salesman; Beckett, Waiting for Godot; Hansberry, A Raisin in the Sun; Pinter, Betrayal; Churchill, Cloud Nine; Stoppard, Arcadia.

Requirements/Evaluation: Two 6-page papers; regular Glow posts; and active participation in class discussions.

Prerequisites: none

Enrollment Limit: 18

Enrollment Preferences: Theatre, English, and Comparative Literature majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Unit Notes: This course is strongly recommended for any students majoring in Theatre.

SEM Section: 01    MR 2:35 pm - 3:50 pm    James L. Pethica

THEA 230  Performance Practices of India (DPE)

This course explores ancient and contemporary performance practices in India. Our objects of study will include the text and performance of Sanskrit plays, contemporary and experimental theater productions, as well as forms of dance and ritual. We will discuss dramaturgical structure, staging, acting conventions, gender representation, performer training, the experience and role of the audience, as well as mythological and political themes. Thinking historically and ethnographically, we will seek to understand the aesthetics and social purposes of these practices, in addition to the relationship that performance has with everyday life, contested concepts of the nation, and caste. Throughout the semester we will interrogate the ways in which Western categories such as "classical," "folk," "religious," "traditional," and even the distinction between "dance/theater/music/visual arts" are not indigenous or accurate concepts for organizing thinking about performance in this part of the world.

Requirements/Evaluation: Evaluation will be based on participation in discussion, reading responses, an oral presentation, and one 10-page paper.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: preference for seniors and juniors

Expected Class Size: 12

Grading: 

Distributions:  (D1)  (DPE)

Difference, Power, and Equity Notes: We will examine British colonial edicts that prohibited performance practices as a form of social control as well as in the name of Christian morality. From here we will explore how upper-caste Independence era artists and leaders sought to reinvent the arts as vessels of "Indian" identity, at the cost of further marginalizing hereditary performance communities. We will also interrogate how the Indian state has promoted narrow visions of "femininity" and how artists contest religious nationalism

Attributes: GBST South + Southeast Asia Studies

Not offered current academic year

THEA 231  (F) Race and Performance (DPE)

How does race function in performance, and, dare we say, "live and in living color"? How does one deconstruct discrimination at its roots? From a perspective of global solidarity, we will read plays every week and examine how race functions in theater and performance. This class offers students a discussion that does not center whiteness, but takes power, history, culture, philosophy, and hierarchy as core points of debate. In the first three weeks, we will establish the common terms of the discussion about stereotypes, representation, and historical claims, but then we will quickly move toward an advanced conversation about effective discourse and activism through art, performance, and cultural production. In this class, we assume that colonialism, slavery, white supremacy, and oppressive contemporary state apparatuses are real, undeniable, and manifest. Since our starting point is clear, our central question is not about recognizing or delineating the issues, but rather, it is a debate about how to identify the target of our criticism in order to counter oppression effectively and dismantle long-standing structures. Not all BIPOC communities are represented in this course, as claiming comprehensive inclusion in a single semester would be tokenistic and disingenuous. Instead, we will aspire to understand and negotiate some of the complexities related to race in several communities locally in the U.S. and beyond.

Requirements/Evaluation: Requirement/Evaluation: Participation; performance review; in-class presentation; and final paper.

Prerequisites: None.

Enrollment Limit: 14

Enrollment Preferences: Declared or prospective Theatre majors; students who have taken Theatre 101.

Expected Class Size: 14

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)  (DPE)
Difference, Power, and Equity Notes: Entire focus of the course is on how representations of race in cultural production affect ideas surrounding oppression, discriminatory social structures, etc.

Fall 2024

SEM Section: 01   TR 11:20 am - 12:35 pm

THEA 238  (F)  Musical Theatre

Students in this course will investigate the history and practice of one of the few truly American art forms: the musical theatre. From its beginnings, influenced by operetta, minstrelsy, and popular music to the current Broadway landscape which grapples with post-Pandemic performance, the American musical has provided fascinating insights into the values, ideas, and mores of the society which created it. Special attention will be paid to the Black creators, women writers, and artists of color whose work has shaped the genre but who have remained under-acknowledged by past generations of both academic and popular historians. Students will encounter well-loved Broadway smash hits as well as forgotten off-Broadway gems while being encouraged to develop a deeper, more nuanced love for the genre.

Requirements/Evaluation: Journal entries, 10 minute research presentation, 10 page final paper
Prerequisites: none
Enrollment Limit: 18
Enrollment Preferences: Theatre majors; Music majors
Expected Class Size: 18
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)

THEA 239  (F)  Introduction to Dramaturgy: The Art & Practice of Storytelling  (WS)

The dramaturg is a storyteller and major collaborator in theatre. Working as part of an artistic ensemble, the dramaturg helps to tell a story, shape a theatrical production, and facilitate the rewarding process of creating a world on stage. This seminar/studio course will introduce students to the fundamentals of dramaturgy, including: new play development, production research, literary management, educational outreach, criticism/journalism, community engagement, and translation/adaptation. Assignments over the term will be hands-on, practical, creative, and project-based and include independent writing, research, and oral presentation. We will write, and we will revise. We will also read plays and discuss urgent topics in the theatre industry. During some terms, students may be invited to participate as dramaturgs on Theatre Department productions. As a culminating project, students will complete a creative written adaptation and accompanying dramaturgical casebook for a source of their choosing. Students may be asked to attend live performances and exhibitions when relevant.

Class Format: This is a studio course with a strong emphasis on writing and research, both critical and creative.
Requirements/Evaluation: Assignments will be project-based and will range from making image galleries to writing program notes and an educational study guide. In-class writing and participation in class discussion is required. A major project over the term will include the formation and assembly of a dramaturgy casebook, including: research and historical summary; timeline; artist's bio; educational guide; image gallery; program note; community outreach strategy; lobby design; critical/theoretical perspective; and creative adaptation.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: if overenrolled, preference will be given to declared Theatre majors followed by prospective Theatre majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1)  (WS)

Writing Skills Notes: This course fulfills the Writing Intensive distribution by requiring students to write for both public audiences and more internal-facing communities. Students will write several short critical pieces intended for lobby displays, programs, educational settings, and more journalistic venues. In addition, they will write and develop a short creative adaptation. All writing will receive feedback from both the instructor and class peers prior to its required revision.
THEA 250  (F) Feminist Theatres: A Global Perspective  (DPE) (WS)

Cross-listings: COMP 247 / WGSS 250 / ENGL 253

Primary Cross-listing

What makes a work of theatre "feminist"? How do plays and performances across global networks engage with different models of feminism: liberal, radical, materialist, and intersectional? Why has feminism mattered to theatre-makers of the past? Should it still matter now? If so, what forms might future feminist theatres take? In this tutorial course, students will work in pairs to examine the social and political relation of feminism to the art and practice of theatre. Taking a global and comparative perspective on the subject, we will focus on the intersectionalities of gender, race, class, ethnicity, nationality, and sexual identity in the production of feminist-driven theatrical practices. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherrie Moraga, Lisa Kron, Arethusa Speaks, Maya Krishna Rao, Tracie Chima Utom-Ezeajugh, Alexis Scheer, Tori Sampson, Clare Barron, and others. Close analysis of source material will be informed by critical and autobiographical writings by: Audre Lorde, Judith Butler, bell hooks, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students taking turns presenting or responding to their peer every other week; for their presentations, students will write a 5-page paper or, in up to two cases if they choose, offer their argumentation through more performance-driven methods (such as an oral argument, spoken-word monologue, or activist prompt).

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; every other week they will be responsible for sharing either a 5-page paper or, if they choose, in up to two cases, a more performance-driven presentation, such as: an oral argument, spoken-word monologue, or activist prompt (five presentations/papers in all). They will comment on / respond to their partner's papers/presentations in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and written and oral communication.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: THEA majors; WGSS majors; ENGL majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 250(D1) COMP 247(D1) WGSS 250(D2) ENGL 253(D1)

Writing Skills Notes: This course fulfills the writing skills requirement by engaging students in the active and creative process of critical writing, based on the notion that "writing is thinking, not thinking written down." Emphasis will be given to crafting and developing an argument, clarifying prose, selecting evidence, gaining authority, and incorporating theoretical ideas into an essay. We will also focus on the performance and presentation of written arguments.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, nationality, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

Not offered current academic year

THEA 252  (S) Stop Making Sense: Absurd(ist) Theatre in Historical Context  (WS)

Cross-listings: COMP 256 / ENGL 256

Primary Cross-listing

We want to make sense of things. In nearly all of our academic pursuits, the point of analysis is to find meaning, to explain intricate or confusing phenomena, to provide clarity from complexity. What happens when we can't do this, indeed, when the objects of our analytical attention seem willfully designed to thwart the attempt? Such is the challenge of "understanding" the traditions of the absurd. In this tutorial course, we will engage this challenge within the realm of Western theatre and performance from 1900 to the present. Beginning with selected readings from writers who have engaged the absurd in theoretical fashion (Albert Camus, Soren Kierkegaard, Jean-Paul Sartre, Martin Esslin), the course will move swiftly to original
artworks for contemplation and analysis. Some questions we will grapple with include: How do we, can we, should we respond to art that specifically defies meaning? Can art that seems pointless have a point? Playwrights will range from canonical (Samuel Beckett, Eugene Ionesco) to more obscure but equally engaging (as well as baffling) artists (Peter Handke, Slavomir Mrocek). We will follow standard practice in tutorial pairs, as each week one student will prepare original analysis of the assigned reading, and the other will craft a response to prompt an hour-long discussion. Whether we "make sense," or perhaps discover different ways of appreciating the varied works of art, will depend on the nature of those weekly attempts.

Requirements/Evaluation: Evaluation will be based on weekly tutorial papers/response papers, and active participation in weekly tutorial sessions.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Theatre, English, and Comparative Literature majors.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 256(D1) THEA 252(D1) ENGL 256(D1)

Writing Skills Notes: Weekly tutorial papers and response papers, plus regular feedback on writing/argumentation skills. The course will provide consistent and ongoing feedback on students' writing, and will require multiple assignments, each prompting comments which address writing problems and strategies, as appropriate.

Not offered current academic year

THEA 254 (S) PHYSICAL VOICE & ACTING

This course is an advanced acting class where students explore the integration of performance and vocal expression. Through the process of integrating voice work and physical acting methods, students develop the breath to support their play, availability, intention, and objectives. The goal is to inspire students to listen and respond with the whole body, to allow action to have voice at any moment, and for the voice to be fully supported by the body. It is an embodied practical class where we will explore the power of voice and its range: the quiet intimate voice, the sung and deep voice, and the dance of articulation via heightened contemporary texts. Overall the goal is to integrate intention and action via breath and voice. Time outside of class to develop a practice is required. Physical engagement, reading, writing, and spoken reflection are core components of the class. Students will also be lead in the process of examining and developing a decolonizing practice to do with our relationship to time and product.

Class Format: On Fridays students will work independently in small groups.

Requirements/Evaluation: Weekly one-page reflection papers, bi-weekly readings, in-class presentations of one short physical theatre solo, one monologue, and one scene. Evaluation will be based on attendance, level of engagement in all studio exercises, participation in class discussion about artistic process, and demonstration of growing vocal and physical articulation.

Prerequisites: No prerequisites.

Enrollment Limit: 14

Enrollment Preferences: Enrollment preferences will be theatre majors and prospective theatre majors.

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Spring 2025

STU Section: 01 W 7:00 pm - 9:40 pm Omar A. Sangare

THEA 266 (F) Introduction to Playwriting (WS)

Are you tired of the classics? Were you frustrated by casting choices in the past? Have you struggled to find a play to direct? Sometimes, you must step away from the canon and create your own work. Do you have something to say about race, gender, ethnicity, nationalism, yourself, and the Other? Do you have a story to tell? Did you ever want to write your own play but didn't know how to start? This is your chance. In this course, you will participate in a series of workshops that will lead to the writing of your first play. You will be guided through the principles of playwriting, beginning with understanding the basics: plot, character, dialog, setting, and theatricality. The mechanics of playwriting will be enhanced by a theoretical
understanding of the concepts of genre, style, and aesthetics. Every week, your homework will be to write new dialogs, leading to the first draft of your first play. In class, students are expected to read each other's work aloud and, on occasion, to stage it. By the end of the semester, having brought at least one play into the world, you will not become an experienced playwright, but you will be well on your way to understanding the foundations of the craft. This course culminates with a festival of public staged readings of original student work.

Requirements/Evaluation: Participation; in-class workshops; and students are expected to write several graded drafts of two ten-minute plays and a single one-act play.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: In instance of over-enrollment, preference will be given to Seniors, Juniors, & Sophomores in the Theatre Major.

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Course is based on original composition and supervised revision of multiple texts.

Fall 2024

STU Section: 01  R 1:10 pm - 3:50 pm

THEA 270 Stop Making Sense: Absurd(ist) Theatre in Historical Context (WS)

In most academic work the point of analysis is to make sense, to find meaning, to explain intricate or confusing phenomena, to provide clarity from complexity. What happens when we can't do this, indeed, when the objects of our analytical attention seem willfully designed to thwart the attempt? Such is the challenge of "understanding" the traditions of the absurd. In this tutorial course, we will engage this challenge within the realm of Western theatre and performance from 1900 to the present. Beginning with selected readings from writers who have engaged the absurd in theoretical fashion (Albert Camus, Soren Kierkegaard, Jean-Paul Sartre, Martin Esslin), the course will move swiftly to original artworks for contemplation and analysis. Some questions we will grapple with include: How do we, can we, should we respond to art that specifically defies meaning? Can art that seems pointless have a point? How and when have strategies of nonsense, circular reasoning, linguistic obfuscation, and intentional theatrical absence been employed to disguise, or deflect attention from, specific didactic (even political) agendas? What role specifically does theatre, theatricality, or performativity play in the presentation of art that refuses understanding? Playwrights will range from canonical (Samuel Beckett, Eugene Ionesco) to more obscure but equally engaging (as well as baffling) artists (Peter Handke, Slavomir Mrocek, Richard Foreman). We will follow standard practice in tutorial pairs, as each week one student will prepare original analysis of the assigned reading, and the other will craft a response to prompt an hour-long discussion. Whether we "make sense," or perhaps discover different ways of appreciating the varied works of art, will depend on the nature of those weekly attempts.

Requirements/Evaluation: Standard tutorial requirements; weekly paper or response paper from each member of the tutorial pair. Evaluation based on improvement in written expression and engaged contribution to weekly discussions.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Theatre, English, and Comparative Literature majors and prospective majors.

Expected Class Size: 10

Grading:

Distributions: (D1) (WS)

Writing Skills Notes: This tutorial will demand writing from each student each week (either a primary paper or a shorter response paper), and each student will receive regular, extensive feedback including a focus on strategies for successful persuasive argumentation.

THEA 271 Acting Out: Performativity, Production, and Politics in East Asian Theatres (DPE)

Cross-listings: CHIN 275 / COMP 271 / ASIA 275 / AAS 275

Secondary Cross-listing

"Asian Theaters," for those in the West, can conjure up a variety of exotic impressions: spectacle and cacophony, mysterious masks and acrobatic
bodies, exquisite styles and strangely confusing conventions. Although Asian theaters have been studied systematically in the West for at least a century, the West has never truly left its "othering" look at them. Yet, what is "different" for the West is bedrock for Asian cultures. Theatre, one of the most important and dynamic forms of cultural production and communication, has actively involved all strata of Asian societies for a millennium. How to explain theatre's continued presence and relevance for Asian nations? What do the traditions of Kun, Kabuki, and P'ansori reveal about the cultures and communities in which they were created? This course seeks to understand from the Asian perspective, rather than "exoticize" and "other," musical and dance theatres from China, Japan, and Korea. Examining the evolving presentations of signature dramas dating from the sixteenth to the eighteenth centuries, we will act out Asian theatres in the following ways: (1) by reading the original plays in translation in tandem with their contemporary and intercultural reproductions, we will explore how Asian theatres fare in the era of globalization within and beyond national borders; (2) by revealing the "technologies" of writing, reading, acting, and staging these plays in different cultural milieus, we will consider what kinds of language and rhetoric, forms of music and movement, as well as visual components are deployed to convey evolving messages; (3) by considering key performances held outside of the proscenium stage, we will gain exposure to alternative theatrical spaces in Asian and diasporic communities that reform performing conventions, reconfigure staging environments, and renegotiate cultural values. In this manner, we will together gain an appreciation for the aesthetic devices, thematic concerns, and production politics of East Asian theatres and their global reproductions. Class materials include drama, production videos, and invited zoom sessions with Asian theatre practitioners and directors who live in the U.S. and other diasporic communities. All materials are in English. No language prerequisite. Funded by the Global Initiatives Venture Fund, this course includes an all-expense-paid travel component, a cultural and academic exchange project titled "Redefining Amateurism: Experiential Learning with Student Theatre in Contemporary China," which will bring up to eight Williams students to Nanjing, China during the Spring Break (3/23-4/3/2025). Students will participate in workshops with playwrights and theater-makers in contemporary China and engage in black-box theater productions with students from Nanjing University and Shanghai Theatre Academy. This travel component is OPTIONAL for students taking this course. However, students enrolled in this class will receive priority consideration to be included in the free travel project. Selection criteria include active participation, excellent performance in the course, etc.

**Class Format:** Funded by the Global Initiatives Venture Fund, this course includes an all-expense-paid travel component, which will bring up to eight Williams students to Nanjing, China during the Spring Break (3/23-4/3/2025). This travel component is OPTIONAL for students taking this course. However, students enrolled in this class will receive priority consideration to be included in the free travel project. Selection criteria include active participation, excellent performance in the course, etc.

**Requirements/Evaluation:** Evaluation will be based on 1) ACTIVE in-class discussion; 2) three small projects (papers and audio/video essays); 3) a take-home midterm; and 4) Poster presentation based on students' final projects.

**Prerequisites:** None; open to all. No knowledge of Asian languages required, though students with advanced Asian language proficiency are encouraged to work with primary sources if they wish.

**Enrollment Limit:** 20

**Enrollment Preferences:** Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; Theatre majors; Comp Lit majors; Concentrators in Asian Studies or Asian American Studies.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

CHIN 275(D1) THEA 271(D1) COMP 271(D1) ASIA 275(D1) AAS 275(D2)

**Difference, Power, and Equity Notes:** This course examines the power dynamics of spectacle and cacophony and how theatre provided a cultural space that engaged all strata of East Asian societies, thereby masking class and ethnic divisions within these nation-states, while also presenting a distinct image of "China," "Japan," and "Korea" to be consumed in the West. Students will learn ways in which "traditional" theatre productions affirm or subvert Western biases against Asians.

**Attributes:** AAS Non-Core Electives GBST East Asian Studies

Spring 2025

**THEA 274 Performing Utopia**

How is performance utopian by design? How do we perform utopias in our daily lives? This course examines the performative dimensions of utopia and the utopian aspirations of performance. According to Jill Dolan, performance can be a utopian prompt, a space and time to imagine new forms of
sociality and ways of being in the world. Using a case-study model, we will consider how different modes of performance--theatre, dance, film, art, and, more recently, social media--have helped produce and sustain utopian socialities in and across shifting temporalities in the U.S. imaginary, including: the Shakers, Harmony, Oneida, Drop City, Soul City, The Farm, as well as recent "intentional communities" that envision "opting out" as a new way of inhabiting earth in the Anthropocene. Alongside such real-world examples, we will consider how performance itself has been theorized as a productively utopian (and also dystopian) realm by critics like Jill Dolan, Miranda Joseph, and Jose E. Muñoz, and artists and companies like Bread and Puppet, The Living Theatre, Rachel Rosenthal, Miguel Gutierrez, Guillermo Gómez-Peña, Faye Driscoll, Theaster Gates, Nick Cave, and Taylor Mac. As a way of gaining knowledge through embodied practice, students will work collaboratively each week to envision, create, and perform everyday "mini-utopias" that rise and fall ephemerally. Students will be required to attend a weekend field trip to The Shaker Museum in Hancock, MA, and may as well, when relevant, be asked to attend various live performances or exhibitions at local arts institutions throughout the term.

Class Format: This course will contain a studio component

Requirements/Evaluation: In-class writing and participation; collaborative, weekly creations of "mini-utopias"; a 6-8 page midterm paper based on independent, archival research; leading of a 10-minute in-class discussion; and a final, 15-minute collaborative performance, or other creative presentation, developed from case-study research and inclusive of an invited audience.

THEA 283 (F) The Actor-Creator: Introduction to Physical Theatre Tools

Cross-listings: ARTS 383

Primary Cross-listing

This course is an introductory course to the Jacques Lecoq Pedagogy which was born in France and uses observation as a first creative tool. The body is at the heart of this pedagogy and we will have rigorous physical training in order to become more expressive, more precise, and more creative. Improvisation will be the key tool to learn and discover how to write theater on our feet. In the course, we will first observe life: spaces and people. What are the specifics of the different spaces that exist around us and how do they change the body that is in them? Then, we will look at the actor's body. How do you enhance its presence? What brings life to this body? How can we allow ourselves to start using the body as a creative tool that will be able to transform and write? We will next observe the body within the elements. What kind of character will come out of fire? Or of air? What happens when air meets fire? By letting the elements transform us we will find specificity in the character's physicality and relationships. Then we will look at painting, poetry, and music; How can we translate a poem on stage? How do words move? And colors? Is yellow's rhythm the same as brown? We will end the course by working with full masks created by the students/artists and also brought by the teacher. Mask work is an incredible tool to help actors articulate their thoughts, and feelings, and craft their acting. What stories will come out of that? Who's destiny will we learn about? This will be an occasion to bring forth stories you are interested in, that touch you and move you. This course is open to anyone who is interested in creating live performances. Whether you are a writer, a painter, a director, a musician, or an actor you are welcome to bring your fierce and curious artist spirit to create theater that will be telling the stories that matter to you today.

Requirements/Evaluation: Attendance and active participation in each class session. Assigned project and scene work (solo and in small groups). Creation of physical performance objects (masks, etc.) Solo and group presentation of assigned work in class.

Prerequisites: None

Enrollment Limit: 16

Enrollment Preferences: Theatre majors

Expected Class Size: 12

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTS 383(D1) THEA 283(D1)

THEA 287 Design for Film & Television

The production designer is responsible for creating, controlling, and managing 'the look' of films and narrative television from page to screen. This hands-on course explores the processes of production design, art direction, and lighting direction processes as related to design for film and television. From initial Production Design sketches and 'Feel-Boards' to accommodating desired cinematographic angles when designing a studio set, design for film requires a designer to shape an entire visual world while keeping in mind the story as a whole. The goal of this course is to provide an initial understanding of the Production Design process in practice through studio work and instruction.

Class Format: This class will be a combination of instruction and in class studio work.

Requirements/Evaluation: committed participation in class discussion and feedback; and the thoughtful, timely completion and presentation of multiple design projects of varying scales, focusing on scenic and lighting design, considered both individually and when working in tandem

Prerequisites: THEA 201, THEA 285, ARTS 100, or permission from instructor with equivalent experience

Enrollment Limit: 12

Enrollment Preferences: In instance of over-enrollment, preference will be given to Seniors, Juniors, & Sophomores in the Theatre Majors & Art Majors

Expected Class Size: 8

Grading:

Materials/Lab Fee: up to $125 for materials and copying charged to term bill

Distributions: (D1)

Not offered current academic year

THEA 288 (F) Storyboarding: Building Visual Narratives

In this class, we will explore the process of sequencing images to create meaning over time. We will examine and research visual texts with episodic and sequential structures (such as picture books, comics, albums, film/animation, theatre, and opera) and interpret them into storyboards of various 2D and/or 3D visual media. We will focus on developing and communicating complete dramaturgically-based visual ideas with an eye towards conceptual artistic propositions. This class is geared towards all students interested in directing/writing/designing/creating for time-based visual mediums such as film and theatre. No previous artistic expertise is required, but the majority of the work here will be hands-on art projects, presentations, discussions and group critiques in a studio art class format.

Requirements/Evaluation: Coursework is comprised of text comprehension, group discussion/critique, and biweekly studio-style art projects.

Prerequisites: THEA 101 or permission of instructor

Enrollment Limit: 12

Enrollment Preferences: theatre majors, art majors

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: materials and copying up to $125 to be added to the students' term bill

Distributions: (D1)

Not offered current academic year

THEA 301 (S) Embodied Archives: Global Theatre Histories, From Antiquity to 1900 (DPE)

A survey of global theatre and performance, spanning from antiquity to 1900. Students will engage with the archives and repertoires of the theatrical past, approaching subjects both critically and creatively. Topics to be considered may include: Indian Sanskrit drama; ancient Greco/Roman theatre; pre-Columbian Mesoamerican dance/drama; Japanese Noh and Kabuki performance; Medieval and Renaissance English theatre; West African masquerade; French Neoclassicism; Spanish "golden age" theatre; and American melodrama. In addition, we will consider receptions of such traditions in the present, examining how contemporary theatre makers have engaged with (adapted, appropriated, recycled, or re-appropriated) historical sources. As a major project in the class, students will develop and share their own artistic approaches to selected archival works. While attending to theatre's formal aspects, we will at the same time focus on the relationship of performance to politics and society, as well as to the enduring legacies of empire, state power, colonialism, and private capital in which theatre is historically embedded. If and when possible, we will encounter archival sources housed in College Archives and WCMA. This course is required for Theatre majors and is a prerequisite for THEA 401.
Requirements/Evaluation: active participation in class discussion; a 5-7 page midterm paper; an oral presentation on a selected historical resource; a final creative adaptation/script, or live performance

Prerequisites: Theatre majors must have already taken THEA 101 by the time they enroll in this course

Enrollment Limit: 14

Enrollment Preferences: Theatre majors; Comparative Literature majors

Expected Class Size: 8

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course works to dismantle the ongoing bias in theatre studies that positions textual and literary forms of theatre in the globalized north as the primary sites of knowledge transfer, status, and value in the field. Instead, theatre and performance are approached as global and diverse forms of repertoire and embodied knowledge that must be analyzed in relation to the structures of social inequity and power in which they historically arise.

Not offered current academic year

THEA 304 (F) The Gay Menagerie: Gay Male Subcultures (DPE)

Cross-listings: ANTH 305 / AMST 305 / WGSS 305

Secondary Cross-listing

Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PPE, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

Class Format: There will be some minor performance elements such as workshops during class.

Requirements/Evaluation: Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

Prerequisites: None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

Enrollment Limit: 12

Enrollment Preferences: WGSS majors; in the event of over-enrollment there statements of interest will be solicited

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 305(D2) AMST 305(D2) WGSS 305(D2) THEA 304(D1)

Difference, Power, and Equity Notes: This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

Attributes: WGSS Racial Sexual + Cultural Diversity Courses

Not offered current academic year

THEA 305 (F) Designing Character: Introduction to Costume Design for Performance

Cross-listings: ARTS 200

Primary Cross-listing

This course introduces students to the processes and techniques of costume design for performance. With a focus on building character through
research and design, students will practice developing costume design concepts and using them to illuminate a script, tell a story, and explore characters. Coursework is project-based and will include reading plays, researching period, rendering characters in costumes, expressing design ideas, and sharing and receiving feedback. Class projects will include *The Bald Soprano* by Eugene Ionesco and *Intimate Apparel* by Lynn Nottage. Drawing experience not required, but you must be brave enough to try.

**Requirements/Evaluation:** Project-based costume design work includes period research, drawing, painting, short writing assignments, and presentation. Class participation includes sharing work in process, receiving feedback, and offering generous feedback to classmates.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Theatre and Art Studio majors

**Expected Class Size:** 10

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** does not satisfy any requirements for the Art major

**Materials/Lab Fee:** $100 lab fee charged to term bill

**Distributions:** (D1)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ARTS 200(D1) THEA 305(D1)

---

**THEA 312 (S) Dressed for Diplomacy: Global Fashion in Early Modern Europe**

In this course we will examine the context and cultural messaging contained in portraits of people from around the globe visiting (or brought without consent to) western Europe in the sixteenth, seventeenth, and eighteenth centuries, including visitors from the Arctic, North and South America, Asia, Africa, and Oceania. Though these images are often read as "authentic" depictions of regional dress, the clothes worn by the people in these images represent a complex spectrum of hybridities of foreign and European garments as recorded by European hands. In what ways are the people in these images performing diplomacy? Who decided what the people wore in these pictures and how does it reflect the goals of the portrait? Is it possible to "read" the clothing in these portraits as "speaking" for the person pictured? For the painter? For a political objective? What kinds of agency and self-representation were the portrait subjects able to express through the medium of dress? What role do clothes play in diplomacy and how were the global visitors expressing their diplomatic intentions through dress? What did it mean for a foreign visitor to wear their home clothing while abroad or to take on the dress of their host country? How are international and inter-personal relations expressed and effected by clothing, gesture, comportment, and self-fashioning? Coursework will include participation class discussions, investigations of visual primary sources, one presentation on readings, and a final 8 page research paper on the subject.

**Requirements/Evaluation:** Participation class discussions, investigations of visual primary sources, one presentation on readings, and a final 8 page research paper on the subject.

**Prerequisites:** No prerequisites.

**Enrollment Limit:** 12

**Enrollment Preferences:** Theatre majors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1)

---

**THEA 315 (F) Inhabited Theatrical Environments: Scenic Design for Performance**

**Cross-listings:** ARTS 313

**Primary Cross-listing**
How do you develop a point of view and translate it to the stage? What is an effectively inhabited space for performance? We will explore the different ways a scenic environment provides the visual foundation for live theatrical events in theaters as well as site-specific shows. In addition to working intuitively, this course combines critical readings of texts to contextualize works for the current moment. Research will be at the center of our work -- deepening skills to source, curate, and present personal points of view as designers and creators. This work will serve to expand our imaginations to the aesthetic possibilities of performance. Students will also develop a basic knowledge of model building and drafting. Class time is a combination of discussions of theatrical texts, student project presentations, and studio work.

Requirements/Evaluation: Creative projects preparation and presentation. Active participation in class and critique sessions. Occasional writing assignments to accompany design work.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Theatre majors

Expected Class Size: 8

Grading: no pass/fail option, yes fifth course option

Materials/Lab Fee: Up to $125 in studio costs.

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 313(D1) THEA 315(D1)

Not offered current academic year

THEA 316 (F) Scenic Design for the Stage

Students in this course will explore the tools and techniques required to create physical environments for live performance. An exploration of how text and research effects visual ideas and the development of a strong visual world that supports the text of the piece. Students will explore and develop the use of sketching, drafting, photoshop, and physical model making in this course.

Requirements/Evaluation: Students will be graded on participation, critical analysis of text and research, development of strong visual ideas and execution of these ideas in the class projects.

Prerequisites: Theatre 201, or permission of instructor. (Comparable Studio Art course may be substituted for Theatre 201, please contact Department Chair for guidance.)

Enrollment Limit: 10

Enrollment Preferences: Current or prospective Theatre majors.

Expected Class Size: 8

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

THEA 317 (F) Black Migrations: African American Performance at Home and Abroad

Cross-listings: DANC 317 / AFR 317 / AMST 317 / COMP 319 / ENGL 317

Secondary Cross-listing

In this course, students will investigate, critique and define the concepts migration and diaspora with primary attention to the experiences of African Americans in the United States and Europe. Drawing on a broad definition of performance, students will explore everything from writing and painting to sports and dance to inquire how performance reflects, critiques and negotiates migratory experiences in the African diaspora. For example, how did musician Sidney Bechet's migration from New Orleans to Chicago to London influence the early jazz era? How did Katherine Dunham's dance performances in Germany help her shape a new black dance aesthetic? Why did writer James Baldwin go all the way to Switzerland to write his first novel on black, religious culture in Harlem? What drew actor/singer Paul Robeson to Russia, and why did the U.S. revoke his passport in response to his speeches abroad? These questions will lead students to investigate multiple migrations in the African diasporic experience and aid our exploration
of the reasons for migration throughout history and geography. In addition to critical discussions and written analysis, students will explore these topics through their own individual and group performances in class. No prior performance experience is necessary.

Class Format: discussion

Requirements/Evaluation: class participation, in-class student performances, several 2-page performance response papers, one 10- to 12-page research paper, a final performance with a 3-page report

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: Africana Studies majors and concentrators; Dance and Theatre majors; American Studies, Comparative Literature, and English majors

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1)

Not offered current academic year

THEA 321 (S) Arts Organizing in Africa and the Diaspora (DPE)

Cross-listings: DANC 323 / MUS 323

Secondary Cross-listing

At the heart of this class is the question, how do artists and organizations use the performing arts to effect social change in their communities? Drawing from a number of case studies from throughout Africa and the African Diaspora, we will first endeavor to understand and contextualize issues related to education, social uplift, the environment, and the economy as they relate to specific communities. We will then examine how a series of organizations (from grassroots campaigns to multinational initiatives) utilize the performing arts in response to those issues. Among the issues we will discuss at length are: -How do performers and organizations navigate the interplay between showcasing the performance talents of individuals and groups and foregrounding an issue or cause? More broadly, what dilemmas emerge as social and aesthetic imperatives intermingle? -What are the dynamics between people acting on a local level within their communities and their various international partnerships and audiences? -How can government or NGO sponsorship help and/or hinder systemic change? By the end of the semester, students will be equipped with conceptual frameworks and critical vocabularies that can help them ascertain the functions of performance within larger organizations and in service to complex societal issues. Throughout the course, we will watch and listen to a variety of performances from traditional genres to hip-hop, however this class is less about learning to perform or analyze any particular genre than it is about thinking through how performance is used as a vehicle for social change. Case studies will include youth outreach and uplift in Tanzania through the United African Alliance, campaigns to promote girls' education in Benin and Zimbabwe, community-wide decolonizing initiatives through the Yole!Africa Center in the Democratic Republic of Congo, and the cultural reclamation of a mining town in Suriname through the arts organization, Stichting Kibii.

Requirements/Evaluation: Four case study profiles, midterm essay (5-7 pages), and a final project. Regular participation in class discussion.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: If the course exceeds the maximum enrollment, selection will be made based on students explanations for why they want to take the class.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 323(D1) THEA 321(D1) MUS 323(D1)

Difference, Power, and Equity Notes: This course interrogates on a fundamental level issues of power and equity. Using the performing arts as a critical lens, we discuss a series of social and environmental challenges that communities of African descent face. These are in direct dialogue with
global systems of power and economic factors. Issues include: environment, education, local communities' interactions with multinational corporations, and representational politics in performance.

Attributes: MUS World Music/Ethnomusicology

Not offered current academic year

THEA 333  (S)  Living Things: Bodies and Objects in Sculpture and Performance

Cross-listings: ARTS 332

Primary Cross-listing

This studio course seeks to promote art making that transgresses the boundaries between the visual and performing arts to see a life that animates both bodies and objects. Cultivating various approaches to the experience of embodiment and kinesthetic responses to objects, props, and clothing, students will perform sculptures and sculpt performances indoors and outdoors. Exploring relationships between time and space will support creating works that suggest and invite movement, encourage interaction, and investigate the physical potency inherent in objects, people, and performance. Emphasis will be made on collaborative process and developing dialogue between actors, dancers, and visual artists.

Requirements/Evaluation: Evaluation will be based on participation in studio exercises, bi-weekly collaborative group projects, a final solo work to be performed at the end of the semester, and five 2-page reflection essays.

Prerequisites: Students must have completed at least one course either in Theatre or in Studio Art.

Enrollment Limit: 12

Enrollment Preferences: Preference will be given to Theatre and Studio Art majors.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $200-$350 for supplies such as fabrics, papers, paints, markers, props, etc. as needed.

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

THEA 336  (F)  Boucicault to McDonagh: Irish Theatre, 1870 to the present  (DPE)

Cross-listings: COMP 360 / ENGL 364

Primary Cross-listing

During the Irish Literary Revival of c.1885-1920, Irish writers sought to assert "Irishness" as culturally distinctive, and resisted the marginalizing impacts of British colonial rule. The achievement of Independence in 1923 brought years of insularity and censorship, but over the past three decades Ireland's embrace of globalization and the hybridizing impacts of postmodernism has led to a remarkable flowering of creative vitality. This course will trace the evolution of Irish theatre over the past century-and-a-half. We will read plays by Dion Boucicault, Oscar Wilde, W.B.Yeats, J.M.Synge, Augusta Gregory, George Bernard Shaw, Douglas Hyde, Sean O'Casey, Samuel Beckett, Brendan Behan, Brian Friel, Marina Carr, Frank McGuinness, Christina Reid, Conor McPherson, and Martin McDonagh, and also chart the course of the founding and history of the Abbey Theatre, one of first National Theatres in Europe.

Requirements/Evaluation: Two essays of 6+ pages; regular Glow posts; class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Theatre majors, English and Comparative Literature majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 360(D1) ENGL 364(D1) THEA 336(D1)

Difference, Power, and Equity Notes: This course is centrally concerned with identity politics within a colonial context. Irish writers prior to
independence from Britain sought to assert “Irishness” as culturally distinctive. After 1923, they continued to wrestle with the legacies of colonial subjection and the inferiorizing identifications that had been ingrained during colonial rule. The texts we will read centre on questions of cultural self-definition and explore (and resist) the process of othering.

Attributes: ENGL Literary Histories B  ENGL Literary Histories C

Not offered current academic year

THEA 340  (F) Shakespeare on Page, Stage and Screen: Text to Performance  (WS)

Cross-listings: ENGL 345 / COMP 343

Primary Cross-listing

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era’s concerns—with matters of gender, sexuality, race, class, or materiality, for instance—against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the texts in dramatic performance, such challenges—and opportunities—multiply further. Critical fidelity to Shakespeare’s times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the other extreme, staging the plays with the primary aim of making them “speak to our times” risks revisionary absorption in our own interests. We will read six plays, of different genres and written at different periods of Shakespeare’s career. These will likely be Romeo and Juliet, Henry V, Twelfth Night, Hamlet, The Tempest, and A Midsummer Night’s Dream. Close reading of the texts will be the priority, but we will also attend to the demands and opportunities of performance, and assess a range of recent film and stage productions.

Requirements/Evaluation: Three papers ranging from 4 to 7 pages; regular Glow posts; class participation.

Prerequisites: A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

Enrollment Limit: 18

Enrollment Preferences: Theatre and English majors or prospective majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 345(D1) THEA 340(D1) COMP 343(D1)

Writing Skills Notes: Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive substantive feedback on their writing, and there will be opportunities for revision.

THEA 341  (F) Performing Masculinity in Global Popular Culture  (DPE)

Cross-listings: AMST 358 / WGSS 347 / SOC 340 / LATS 341

Secondary Cross-listing

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia, hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

Requirements/Evaluation: masculinity reflections, mid-term essay exam (or quizzes), visual rhetorical analyses of pop culture images

Prerequisites: none; WGSS 202 would be helpful
Enrollment Limit: 15

Enrollment Preferences: a short statement of interest will be solicited; a subsection of applicants may be interviewed

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 358(D2) WGSS 347(D2) THEA 341(D1) SOC 340(D2) LATS 341(D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

THEA 345  (S) Contemporary American Theatre: Poetry, Politics, Place

Cross-listings: ENGL 349

Primary Cross-listing

As Gertrude Stein once remarked, “The hardest thing is to know one’s present moment.” What is going on in U.S. theatre today? Who are the dramatists and theatre makers of the present moment? This survey course will introduce students to twenty-first century American drama and performance, focusing on the poetic, political, and environmental aspects of the art form. Topics to be considered may include: theatre as social practice, the rise of artivism, participatory, site-specific, and immersive theatre, social justice theatre, supernaturalism, changing labor practices in the industry, and the turn to digital performance. Artists and companies to be considered may include: Suzan Lori-Parks, Branden Jacobs-Jenkins, Quiara Alegría Hudes, Anne Washburn, Taylor Mac, Hansol Jung, Clare Barron, Jeremy O. Harris, Lucas Hnath, Lauren Yee, Larissa FastHorse, Jihae Park, The Civilians, Elevator Repair Service, Jackie Sibbiles Drury, Eboni Booth, Sanaz Toossi, Alexis Scheer, and Jacklyn Backhaus. Assignments will include both critical and creative responses to the material addressed in the class. Whenever possible, we will attend live performances on campus and in the regional community.

Requirements/Evaluation: written and dramaturgical-based assignments; a 10-minute oral presentation in pairs on a selected artist or group; a 5-7 page mid-term critical paper, and a final 7-9 page paper, 20-page theatrical script, or 5-10 minute live performance

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: Theatre majors, or students interested in the arts

Expected Class Size: 16

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

THEA 390  (F) Feminist and Queer Horror Films  (DPE)

Cross-listings: WGSS 398 / ENGL 333 / COMP 390 / AMST 390

Secondary Cross-listing

This course focuses on pairing theoretical readings with a variety of horror films with feminist or queer themes. Many tropes are associated with this genre - “the final girl” in slasher movies, “the transvestite murderer,” femme lesbian vampires, supernatural BDSM figures, vampires as allegories for HIV/AIDS, werewolves as metaphors for FTM gender transitions or puberty, lonely mothers in creaky houses as unreliable narrators, Satanic spawn, and creepy long-haired girls. Some films reinforce gender stereotypes while others snap on more explicitly feminist and queer lenses. This course functions as a survey of many different genres, introducing students to classic 1970s films and working up to the present day and we will learn how these tropes developed and then were subverted by more modern day films such as those by A24 Studies and the new renaissance of Black horror, etc. Most films will focus on the US, with some notable exceptions in Japan, Spain, and elsewhere globally. There will be graphic content. You must be
18 or over to take this class.

**Requirements/Evaluation:** Class participation, short reflection papers, 2-3 extemporaneous oral class responses, several creative assignments.

**Prerequisites:** None. Prior WGSS courses will be helpful.

**Enrollment Limit:** 15

**Enrollment Preferences:** Stage 1 is a statement of interest form; Stage 2 will be a very brief interview. There is NO preference by major or class year.

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** Some of the creative assignments will have an "artsy-craftsy" component, but should not cost more than 25 dollars total per student per semester, though amounts will vary depending on how the student chooses to execute the assignment.

**Distributions:** (D1) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 398(D2) THEA 390(D1) ENGL 333(D1) COMP 390(D1) AMST 390(D2)

**Difference, Power, and Equity Notes:** This course necessarily examines power when it comes to gender and sexuality - who has it? what do they do with it? how does this power turn deadly? how can agency be regained? Horror is almost never about equitable situations but rather the imbalance that comes from difference (along whatever axis) causing a lack of equity.

**THEA 401 (S) Senior Seminar: Practicing Theory**

This class constitutes a culminating course of study for the Theater major. It aims to delve deep into consideration of the relationship between theory and practice, between text and performance, between performer and audience, and between aesthetics and politics. We will explore a selection of influential ideas and methodologies that have shaped both making theater and thinking about theater in various historical periods and cultural contexts. Seminar members will read and consider both theoretical and artistic texts. Through discussion and experimentation, we will endeavor to understand how theater engages with cultural, social, and philosophical issues that link the stage with the realities and fantasies of everyday life. Throughout the semester, focus will be maintained on the contributions of the members themselves, in both scholarly contributions to seminar sessions, and in artistic contributions through the presentation of assigned creative projects.
THEA 455  (F)(S)  Advanced Practicum
This independently designed practicum offers an opportunity for students to gain practical, hands-on experience in theatre at an advanced level by receiving course credit for serving as an assistant to a faculty member on a Theatre Department production. Students interested in assisting a faculty member or guest artist on a production in any non-acting capacity—directing, design (costume, lighting, multimedia, scenic, sound), dramaturgy, or technical management—may enroll in the Advanced Practicum, pending the approval of a designated faculty advisor as well as the Department Chair. Working closely with the faculty advisor, the student will both serve as an assistant on the production and design a curriculum of readings and assignments intended to complement the experience of the assistantship. If funding allows, practitioners in the professional theatre will be invited as guest evaluators. Though the nature of each assistantship will vary according to the demands of each production, the experience of the assistantship will ideally simulate that which a student might undertake within the professional theatre.

Requirements/Evaluation: research, attendance at rehearsals, studio work, & final portfolio; research, attending weekly production meetings, rehearsals, studio work, and final portfolio, as well as other tasks determined by the faculty advisor

Prerequisites: THEA 101 and THEA 201

Winter Study

THEA 14  (W)  Intro to Storytelling

Ever been transfixed by a compelling story told by a skillful speaker, and wondered - wow, just how do they do it?! Ever wanted to get better at telling stories, whether in personal or professional contexts, but don't quite know how to get started? Storytelling is perhaps the most ancient of human arts, with a rich tapestry of traditions and techniques that can overwhelm you with where to begin. So... begin here! In this Winter Study class, join storytelling coach Hari Stephen Kumar for a warm and guided introduction to the 5 most important principles of storytelling in a fun, friendly, and supportive environment. Through play, curiosity, joy, and a step-by-step approach, you will learn practical techniques and concepts that you can apply right away in your academic, work, and personal lives. Reading: While there is no required textbook for the course, participants will be given a list of recommended books and resources for your own further exploration. Work: In-class instruction will include a mix of lecture and guided practical exercises. You will be expected to work on your stories both in class and between sessions. We will be telling stories in every class session, as well as practicing the art of storylistening as an active audience, so you will be expected to listen to and engage with each other's stories. Student performance: The class will culminate in a student showcase performance, to which members of the public are welcome!

Requirements/Evaluation: Presentation(s); Performance(s); Creative project(s)

Prerequisites: None.

Enrollment Limit: 12

Enrollment Preferences: If course is overenrolled students will be selected on a first-come basis.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Hari Stephen Kumar is a storytelling coach with 25+ years of experience ranging from being a performance studies scholar and instructor in the humanities to engineering and sales in the high-tech industry. For more, see www.storycoach.io/about

THEA 21  Present Without Apology at Williams: A Gaudino Retreat

"One must be alert, tiringly so. One must live in the present without apology." So wrote former faculty member Robert L. Gaudino, an innovative teacher and leading proponent of experiential education at Williams. But what did he mean by this? Being fully alert and present at Williams is hard, especially in an era of non-stop, 24/7 activity. Many students report feeling stressed, overwhelmed, and burnt out, beholden to the demands of an impossible schedule. Rarely do we have the time to stop, slow down, take a break, and ask ourselves: "Why am I at Williams? What is my education for? How do my intellectual interests and pursuits here relate to my lived experience in the world?" Led by the current Gaudino Scholar--alongside invited faculty, staff, alums, and skilled facilitators--this campus retreat invites students to use Winter Study as a moment to pause and reflect broadly on their Williams education and its meaning in their lives, as well as to consider what questions, issues, and ideas are particularly salient for them at this time. Through shared dialogue, readings (by thinkers like Paulo Freire, Yongey Mingyur Rinpoche, Mary Oliver, and bell hooks), writing exercises, journaling, meditation, as well as other embodied practices, students will gain a deeper understanding of what their Williams education means to them and how it aligns with their passions. As an additional means of facilitating self-reflection, students will encounter art and performance presented at The Clark, WCMA, Mass MoCA, and other local institutions. We will also spend a day at The Kripalu Center in Lenox, learning ways to engage in forms of mindfulness and relaxation. Evaluation will be based on participation in the activities of the retreat, which will involve two, 3-hour-long sessions per week of collective meetings as well as an additional ten hours per week (or 2 hours/day) of purposeful activity conducted at one's discretion and on one's own time. The goal is, ultimately, to learn how to embrace being "present without apology" during one's remaining time at Williams.
Class Format: This Gaudino Fund sponsored retreat will involve participation and engagement from students but also try to move at a human-centered pace. We will conduct trips to local art institutions as well as wellness centers in the county. Students should be ready to commit to putting their digital devices aside for some periods of time during each day.

Requirements/Evaluation: Evaluation will be based on participation in all group and individual activities of the retreat. Students are required to attend in-person meetings for 6 hours per week and also commit to spending roughly 10 hours of activity per week engaged in purposeful activity conducted on their own outside of class time. Students must also be prepared to spend one fuller day away from campus at Kripalu. As a culminating project, students will create and share with the group a "roadmap" of their Williams education, using writing, collage, image, text, sound, dance, performance, music, or other forms of creative expression.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: If overenrolled, preference will be given to seniors and juniors.

Expected Class Size: 10

Grading: Materials/Lab Fee: $200, for travel, tickets, and day trip to Kripalu

THEA 22  (W)  A Filmmaker’s Workshop

his 4 week filmmaking workshop will culminate in screening of 6-8 short films which are written, acted, directed and edited by students. The class is taught by actress Jessica Hecht and her husband director/writer Adam Bernstein. The project was offered in 2019, 2022, 2023 and accommodated 30 WS students. We would love to offer it once again with a slightly deeper focus on writing and direction. The key to this project is collaboration in the creative process. Each week there will be approx 8 hours of in class time and 10-12 hours of practical work outside of class. The week we shoot (week 3) will be the most demanding. Supplemental reading and film viewing is recommended. We will offer a set of resource materials. The weekly structure is as follows: WEEK ONE: Fundamentals of filmmaking - The Writer's Approach Our first week allows students to look at several examples of shorts films and experiment with writing prompts and improv exercises to build familiarity with how to structure a story. The week culminates in the formation of groups (4-5 students each) whose interest in a specific area of production has been noted. Scripts will be generated from these groups. All students participate as needed but will have more responsibility in one self chosen area. WEEK TWO: Fundamentals of TV and Film Direction The skills of screen acting vs acting on stage As scripts are being refined, participants will be schooled in basic shots, the director’s role and the actor’s preparation. Scripts are due by mid week, casting is completed by Friday WEEK THREE: Shooting a Film Groups are schooled in the organization of a shoot and the essential jobs of the crew. Films are shot over three days - a Final Pro vs AVID editing workshop completes the week. WEEK FOUR: Completing the Filmmaking Process. Films are edited and music added for the first 3 days of week. A public screening is organized to complete the workshop. Film discussion to follow.

Requirements/Evaluation: Creative project(s)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Preference will be given to students who have taken class in the Theatre and or Fine Arts Department or who have worked in film or theatre as an extra curricular activity

Expected Class Size: NA

THEA 24    Fashioning Film

A survey of twentieth century films in which clothing took a starring role. The course will investigate how and why certain garments and costumes sparked a trend, created an icon, and incited controversy. At each class a film will be screened and then followed by student-led discussions. Popcorn will be served. Co-teachers Anne Kennedy and Terese Wadden are Costume Designers working in opera and theater.
THEA 27  Performance with Purpose: Introduction to Applied Theatre

Unlike product-driven commercial theatre forms, Applied Theatre is invested more in process and exploring the Who/What/Where/When/Why/How the ensemble crafts a performance together. Community is absolutely essential to this work and the boundaries between artist and audience can be fluid. In this course, students will collaboratively devise an original piece of theatre to be shared with the Williams community that amplifies the students’ own voices and experiences. Applied Theatre can often be therapeutic in nature, so this class will feature guest lecturers with a background in Drama Therapy and Social Work to discuss real-world applications, activist self-care, and navigating potentially activating subject matter that may arise. In this course, the students will collectively author a Group Agreement to guide their creative explorations and integrate Consent-Forward rehearsal practices. This class will strive to find a balance between playfulness and rigor, introspection and collaboration, and aesthetics and impact. The class will culminate with performances on and off-campus to showcase the students’ work and share their message with the community.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s)
Prerequisites: No prerequisites, but an interest in the arts and social justice work is encouraged.
Enrollment Limit: 12
Enrollment Preferences: Preference will be granted to students with demonstrated interest in the arts and social justice work.
Expected Class Size: NA
Grading:

Unit Notes: Sarah Keyes is an actor, producer, and arts educator with 25 years of professional theatre experience. In addition to working for Williams, she is a frequent collaborator with Barrington Stage Company and volunteers for Girls Inc. of the Berkshires.

Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration
Not offered current academic year

THEA 32  (W) Senior Honors Thesis: Theatre
THEA 99 (W) Independent Study: Theatre

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
TUTORIAL PROGRAM

The Tutorial Program offers students a distinctive opportunity to take a heightened form of responsibility for their own intellectual development. No student is required to take a tutorial course, but any student with the appropriate qualifications and interests is invited to do so.

Tutorials place much greater weight than regular courses—or even small seminars—on student participation. They aim to teach students how to develop and present arguments; listen carefully, and then refine their positions in the context of a challenging discussion; and respond quickly and cogently to critiques of their work. Tutorials place particular emphasis on developing analytical skills, writing abilities, and the talents of engaging in rigorous conversation and oral debate.

Since the program’s inception in 1988, students have ranked tutorials among the most demanding—and rewarding—courses they have taken at Williams. While not designed to be more difficult than other courses, tutorials are nonetheless challenging, with frequent writing assignments and the expectation that students will be well prepared to participate actively and effectively in weekly discussions. At the same time, students have consistently placed tutorials among the most enriching and consequential courses they have taken. They have appreciated the close attention to their writing and argumentation skills; the opportunity to be held accountable, in a detailed way, for the extended implications of their ideas; the chance to develop their oral abilities as they engage in debate; and the close intellectual bonds tutorials build between teachers and students, and students with each other. Many students have formed important advising and mentoring relationships with their tutorial teachers.

The ways in which particular tutorials are conducted vary across the disciplines, but here is a description of how most tutorials at Williams are organized:

Tutorials are usually limited to 10 students. At the start of term, the instructor divides the students into pairs. Each pair meets weekly with the instructor for roughly one hour. Many tutorial courses begin and end the term with a group seminar, and in a few departments, instructors hold weekly group meetings of all tutorial members to provide background information designed to facilitate the students’ independent work. But at the heart of every tutorial is the weekly meeting between the instructor and two students. At these weekly meetings, one student delivers a prepared essay or presentation (e.g., an analysis of a text or work of art, a discussion of a problem set, a report on laboratory exercises, etc.) pertaining to the assignment for that week, while the other student—and then the instructor—offer a critique. In the following week, students switch roles. Typically, students write five or six essays (usually in the range of 4-7 pages) during the term, and offer five or six critiques of their partners’ work.

Registration

Students pre-register for tutorials as they would any other course. Because of limited enrollments and the special logistical arrangements involved in organizing tutorials, students may not drop a tutorial after 4:00 pm on the day before the first scheduled organizational meeting of the semester. It is important that students determine, before the start of the term, their interest in and commitment to the course, and consult with the instructor if necessary.

Tutorials may not be taken on a pass/fail basis.

AAS 351  (F)  Racism in Public Health  (DPE)

Cross-listings: PHLH 351

Secondary Cross-listing

Across the nation, states, counties and communities have declared racism a public health crisis. This push to identify systemic racism as a high priority in public health action and policy is an important symbolic and political move. It names the faults of histories, systems and institutions but also brings to the spotlight the individual and community responsibility to dismantle racism in the US. In this tutorial, we will examine racism in public health policy, practice and research through an investigation of several mediums of evidence and information, ranging from peer reviewed literature to news editorials, podcasts and documentaries. We will explore explicit pathways by which legacies of colonialism and racism function in various public health disciplines such as epidemiology, social & behavioral sciences, health policy and environmental health while also examining the dynamics of power and history in research and community practice. We will take deep dives into issues on how health can be impacted by redlining, racist medical algorithms, racial trauma and stress and police violence, to name a few. Students will also have two opportunities to select their own case studies, as a way for you to research and learn about particular racial health issues that are of personal interest. This course is also about self-reflection and exploration of the ways in which our identities and lived experiences impact our understanding and perspective. We will gain skills in speaking across differences and articulation of how our own perceptions and lived experiences of race and racism impact our study of public health. This tutorial requires an openness to self-reflection and the practice of listening and articulation.
Requirements/Evaluation: bi-weekly tutorial papers, weekly journaling, oral commentaries and tutorial discussion

Prerequisites: PHLH 201 or instructor approval.

Enrollment Limit: 10

Enrollment Preferences: 1-Public Health concentrators. 2- Asian American Studies concentrators.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AAS 351(D2) PHLH 351(D2)

Difference, Power, and Equity Notes: In this course students will examine and critically examine the inequities and race based social and health injustices, and the ways racism infiltrates public health action and policy, both historically and currently. They will also refine their self reflection skills in understanding how their own positions of privilege and power, or lack thereof, inform their understanding of public health.

AFR 128 (S) James Baldwin's Song

Cross-listings: MUS 179 / COMP 129

Primary Cross-listing

"It is only in his music [. . .] that the Negro in America has been able to tell his story. It is a story which otherwise has yet to be told and which no American is prepared to hear," wrote James Baldwin in Notes of a Native Son in 1955. In this course, we strive to listen more closely to racialized experience through James Baldwin's musical literature. Through analysis and creation of music, we hope to better understand cultural difference and collective humanity. In this course, we closely analyze James Baldwin's use of song names, creation of musician characters, and replication of musical elements in his writing. Baldwin's musical word play cross historical and genre boundaries. So we will explore texts from his early to late career, such as the gospel music of his youth in the semi-autobiographical novel Go Tell It on the Mountain, the metaphor of the blues in the play written during the civil-rights movement Blues for Mr. Charlie, the jazz musician protagonist in "Sonny's Blues" written after World War II in Paris, and his only musical recording in A Lover's Question set down near the end of his life. In addition to closely analyzing James Baldwin's attention to music throughout his literature, students will learn basic music writing and production skills. The tutorial will draw on a range of musical resources, including playlists, music workshops, guest lectures and performances. All of these resources will guide students to a more attuned hearing not only of music but also of the African American experience it reflects. By the end of the course, students will have written several short 1-2 page close analysis essays and song lyrics. For their final project, students will produce an original song based on key insights from the course. No musical experience is required, though an openness to learn and practice songwriting is expected.

Requirements/Evaluation: Several short 1-2 page close analysis essays of Baldwin's work, oral peer feedback presentations, song lyrics, and an original song composition for the final project

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: This course is specifically for first-year students and they will receive preference in this class; a statement of interest will be solicited from pre-registrants.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

Spring 2025
**AFR 159 (F) Crossing the Color Line: A History of Passing**  
(DPE) (WS)

**Cross-listings:** HIST 159

**Secondary Cross-listing**

In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal's racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

**Requirements/Evaluation:** Weekly formal response papers and written critiques.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 159(D2) AFR 159(D2)

**Writing Skills Notes:** Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

**Difference, Power, and Equity Notes:** Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of ideont intelligibility.

---

**AFR 202 (S) Narrating Color: Black Women Sing and Write About Complexion**

**Cross-listings:** WGSS 206 / COMP 236

**Primary Cross-listing**

Colorism, skin color discrimination where light skin is privileged over dark skin, is not a new phenomenon, but globally entrenched in our society and one of the many vestiges of white supremacy. For Black Americans of all backgrounds, colorism is a familiar and a living legacy concretized by the institution of slavery in the Americas. Although some believe that we are "post-color," similarly to those that naively believe we are "post-race," one can look to the recent example of misogynoir (misogyny directed at Black women) and skin color politics that Meghan Markle, the Duchess of Sussex, has faced at the hands of the British Monarchy, that her light-skinned color, biraciality, and class privileges couldn't protect her from. Alternatively, we can look at the numerous examples of colorism and anti-Black racism that tennis icon Serena Williams is subjected to because of her dark-brown skin complexion and body shape. One cannot fully understand the issue of colorism without understanding that it is an outgrowth or an extension of
anti-Black racism firmly rooted in white supremacy, and so insidious that it impacts all aspects of Black life. Examining colorism through literary texts and music, provides a depth of understanding that both compliments and expands these empirical studies. Literature and music provide the narratives and rhythm that paint a vivid picture of the many ways that colorism impacts the lives of Black people. Through the methods of literary and rhetorical criticism we will examine the works of five Black women authors and music artists that take up issues around colorism and passing. We will explore, Toni Morrison’s, The Origins of Others (2017), Brit Bennett’s, The Vanishing Half (2020), Tressie McMillian Cottom’s, Thick (2019), Marita Golden’s, Don’t Play in the Sun (2004), Yaba Blay’s, One Drop: Shifting the Lens on Race (2021), Nina Simone’s, “Four Women” (1966) and “Young, Gifted and Black” (1958), Sara Martin’s, “Mean Tight Mama” (1927), India.Arie’s, “Brown Skin” (2001), Azealia Banks “Liquorice” (2012), and Beyoncé’s “Creole” (2012), “Formation” (2016) and “Brown Skin Girl” (2020). By examining colorism in both literature and music, it will give first year students a foundational and nuanced understanding of skin tone bias and equip them with the tools to critically engage literary and music texts.

**Requirements/Evaluation:** Three, short papers (4-5 pages) discussing aspects of the readings and songs; three response papers to tutorial partner's papers (2 pages long); two, video essays; two, Twitter threads explaining aspects of one of the books and one of the songs; and a curated playlist of songs that would serve as accompaniment to one of the texts from the class.

**Prerequisites:** N/A

**Enrollment Limit:** 10

**Enrollment Preferences:** This class is specifically designed for first year students. Sophomores can register only with advanced permission.

**Expected Class Size:** 8-10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

**Attributes:** AFR Core Electives AFR Culture, Performance, and Popular Technologies

---

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans' relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans' understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

**Class Format:** Students will meet with the professor either in assigned pairs or “trios” at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

**Requirements/Evaluation:** This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and students with course work related to the topic.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 216 (F) Cities and Urbanism of the Ancient World (WS)

Cross-listings: GBST 216

Primary Cross-listing

This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Angkor, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots at the beginning of the first civilizations in Eurasia and the Americas. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanites had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities?

Requirements/Evaluation: 5-page papers every other week, oral responses on alternate weeks; tutorial attendance is required.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first years, sophomores, or majors in Anthropology or Sociology

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 216(D2) ANDH 216(D2)

Writing Skills Notes: Throughout the semester, writing skills (developing an argument, construction of paragraphs, use of case studies) will be emphasized. An opportunity to rewrite at least one tutorial paper will allow students to actively apply what they are learning.

Attributes: GBST Urbanizing World

ANTH 243 (S) Reimagining Rivers (DPE) (WS)

Cross-listings: ENVI 243

Secondary Cross-listing

In the era of climate change and widening inequality, how we live with rivers will help define who we are. Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including increased flooding, drought, pollution, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more
justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Requirements/Evaluation: Each week, each student will either write a 5-page essay on assigned readings or write a 2-page critique of a partner's paper.
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Environmental Studies majors and concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 243(D2) ANTH 243(D2)

Writing Skills Notes: Students take turns writing 5-page essays and 2-page responses to those essays, with each writing 6 in total. For each five-page paper, I meet with the student to discuss technical aspects of the paper and specific ways in which it could be improved. At the end of the semester, students have the option of handing in one revised paper as part of a portfolio of papers from throughout the semester. This enables me to have an ongoing, in-depth discussion with each student about their writing skills.

Difference, Power, and Equity Notes: This course focuses on the role of rivers in struggles over cultural difference, social power, and environmental equity. Throughout the course, the students read and write extensively about environmental justice, and they engage with diverse theoretical approaches to studying the intersection of water, power, and social identity. Our focus from beginning to end is on the profound impact of river management on the lives of marginalized indigenous, agrarian, and urban communities.

ARTH 218  (F) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe  (WS)
Cross-listings: WGSS 284 / REL 284

Primary Cross-listing
This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: First years and sophomores, but open to all.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 284(D2) REL 284(D2) ARTH 218(D1)

Writing Skills Notes: In this tutorial, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 5-7-page papers they will submit, with suggestions for improvement.

ARTS 204 (F) Introduction to Performance Art: Bodies, Borders and Resistance
In this introductory tutorial class, we will explore time, space and politics through the presence of the artist's body as well as the relation between the artist and the audience. We will study the history of Performance Art, beginning with its origins in the early 20th century and leading us to contemporary Performance Art work presented in art contexts and in everyday life. We will read and discuss texts, watch films and videos, attend live events and analyze the role of photography as documentary witness, all via themes of liveness and ephemerality. Using this information as inspiration, we will create our own performances, which will include designing, writing and performing, as well as watching and documenting the performances through photography and video, accumulating in intimate conversations, feedback and critique. Specifically, we will think about and create Performance Art through our own body's lived experiences--exploring the borders of the body through race, gender and ability as well as relationships to place and land--to create, rebel and resist.
Requirements/Evaluation: We will discuss weekly readings and create live performances which will be evaluated throughout the semester. You will be required to create a unique performance art piece for your midterm and final that will also be documented photographically and via video/sound.
Prerequisites: One studio art class or permission of the instructor
Enrollment Limit: 12
Enrollment Preferences: Art Majors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Materials/Lab Fee: $100-$300 lab fee charged to term bill. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.
Distributions: (D1)

ARTS 254 (S) Architecture as Politics: Space, Design, Technology (DPE)
Cross-listings: ENVI 264
Primary Cross-listing
This course delves into the intersection of architecture as a form of political expression, technology, and their collective impact on societal change. Emphasizing architecture as a discipline deeply intertwined with politics and shaped by technological advancement, this course will examine how a spectrum of art tools--from traditional to digital and computational--helps shape buildings and public spaces, shifts power structures, and hinders or promotes social justice. The curriculum blends theoretical exploration with practical application. Students will engage in critical analysis, technology-driven design workshops, and peer evaluations, culminating in a final project that melds techno-political theory with cutting-edge architectural practices. This course is ideal for students keen on leveraging technological architectural techniques to craft spaces with profound
political and social impact.

Requirements/Evaluation: This is an intensive studio tutorial requiring working outside of scheduled class hours. In this course, students can work with the following media assuming that they can master them for a 200-level course: architecture models (physical and digital), photo reportages, 2D collages (e.g., Photoshop), digital humanities (cartographies, counter mapping, oral histories, digital archives), and curatorial platforms. Students will participate in tutorials plus a final project of significant scope. Evaluation will be based primarily on the quality of the final project but also on participation.

Prerequisites: Drawing I or permission of instructor.

Enrollment Limit: 10

Enrollment Preferences: Studio Art majors, Art History and Studio Art majors, ENVI majors and concentrators.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $350-$450 lab fee charged to term bill. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ARTS 254(D1) ENVI 264(D1)

Difference, Power, and Equity Notes: This tutorial will employ theories and approaches from design activism and critical environmental studies to analyze the relationship between space and difference, including, but not limited to, race, class, ethnicity, gender, sexuality, religion, and species. Students will apply these theories and approaches to creating place-based projects.

Spring 2025

TUT Section: T1 TR 11:20 am - 12:35 pm Giuseppina Forte

ARTS 322 (S) The Empowered Object

The development of "found object" in the language of art has played a significant role in constructing meaning in the consciousness of the twenty-first century. This tutorial will have students explore that tradition further through their own creative endeavors. They will be asked to add to the lineage of art that uses "found objects" in a creative and meaningful way. They will have the freedom to choose which medium will convey their ideas most effectively. They include, but are not limited to: sculpture, painting, drawing, photography, printmaking and video. For example, within the investigation of the "found object", projects might focus on: still life painting or incorporating real objects via collage, assemblage, etc. The "found object" in art will be examined through: art practice, readings and presentations. As a tutorial, the course is designed to meet individual needs and to stress student participation and responsibility for learning. Students will meet weekly with a peer and the professor to review work.

Requirements/Evaluation: Evaluation is based on the conceptual and technical quality of the work, as well as the level of participation in the tutorial meetings.

Prerequisites: Any 200-level art course in the area that you are planning to work that is housed in the studio wing of the art department.

Enrollment Limit: 10

Enrollment Preferences: Art majors have priority.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: 300-500 lab fee charged to term bill

Distributions: (D1)

Spring 2025

TUT Section: T1 R 1:10 pm - 3:50 pm Amy D. Podmore

ARTS 328 (F) The Art of Almost Nothing

In this studio tutorial class, students will create studio art projects by using materials that are mainly not bought but found, repurposed, and/or overlooked and ubiquitous. In this time of extreme material production and consumption, with a great deal being thrown out and unrecoverable, how
can we make intentional, creative meaning from what is around us? This class is concerned with impacts on the environment but also with how consumer culture has wielded profound influence in the current production of studio art. How can we engage with our major concerns--aesthetic, topical, critical--and use what is around us mindfully and creatively with desired impact? Some of the artists we will look at: William Pope L., Ana Mendieta, David Hammons, Tania Bruguera, and the Yes Men. This class is a hands-on studio class with weekly assignments.

**Class Format:** studio class, 3 hours per week

**Requirements/Evaluation:** projects, assignments, class participation, attendance

**Prerequisites:** Three studio art classes of any kind at Williams or previous studio experience with permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Any student who has taken at least three or more previous studio art classes at Williams

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** Under $100. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

Distributions: (D1)

**Cross-listings:** THEA 109

**Secondary Cross-listing**

This course offers an immersive, interdisciplinary approach to hatha yoga, the branch of yoga that emphasizes bodily techniques for channeling energy, and achieving balance and quietude. It has been practiced and theorized variously in South Asia since ancient times. More recently, beginning in the late 19th century, it has been popularized throughout the globe, and has served as a source of inspiration for artists in various disciplines, including the theatre. Our work will follow four interrelated paths that will provide a broad context for our own experience and offer us tools for developing creativity: 1) We will dedicate ourselves to the careful study of the physical practice of yoga asanas, giving emphasis to biomechanical principles of alignment. Our study will include some basics of yoga anatomy; 2) We will study some allied philosophical principles, as they emerge from the Sanskrit text, Patanjali's *Yoga Sutras*, and some current commentaries on that text, by means of expanding the significance of our practice to all areas of our lives; 3) We will attend to the cultural politics of yoga by discussing new scholarship on its ancient origins as well as critical inquiry about how issues of appropriation, Orientalism, and racism shape its current manifestations; 4) We will examine how artists have incorporated elements of yoga into their practice. To explore how yoga might support our own artistic and innovative thinking, we will pair our practice with creative exercises. In this way, the course aims to explore the relationship of theory and practice. It will be of interest to students in the arts and anyone interested in fostering artistry and the imagination. Students must be prepared to engage in a physical practice of asana, as well as commit to reading, writing, and discussion. No previous experience with yoga is required.

**Requirements/Evaluation:** Students will write 3-page weekly papers, either in response to readings or embodied exercises, or the tutorial partner's essay. Written feedback will be given by instructor. Students will be expected to demonstrate that they are regularly practicing outside of class both by the quality of questions they bring to our sessions together, as well as their continuous refinement of the poses. Students will not be evaluated in relation to a standard, but according to their own dedicated and steady progress with respect to the experience of yoga practice. The evaluation process includes attendance.

**Prerequisites:** Prospective students will be asked to submit an online form with questions about their interest in the class.

**Enrollment Limit:** 10

**Enrollment Preferences:** Preference will be given to first-year students.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** $50 for yoga mat, belt, and balls.

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 109(D1) ASIA 109(D1)

**Difference, Power, and Equity Notes:** Throughout the course we will reflect on the ways in which the knowledge created through yogic practice and philosophy disrupts and provincializes European epistemological systems. Moreover, we will engage in critical inquiry into the ways in which the global popularity of yoga is shaped by colonial legacies of Orientalist representation, as well as contemporary modes of cultural appropriation and consumerism.

TUT Section: T1 TBA Shanti Pillai

**ASIA 111 (S) The Asia-Pacific War (WS)**

**Cross-listings:** HIST 112

**Secondary Cross-listing**

The “Asia-Pacific War,” as it is known in Japan, raged from the full-scale Japanese invasion of China in 1937 until Japan's total defeat in 1945. This war, though certainly tied to the Allied war against Germany and Italy, was viewed by many participants at the time as truly a war apart due to the immense distances involved, the gleeful, racism-fueled brutality on both sides of the conflict, and the resultant abuses of POWs, use of atomic weapons, and other atrocities. Students will explore the intersection of colonialism, racism and opportunism that fed the conflagration, and the remarkable rapprochement between American and Japanese former enemies immediately after the war. It will examine in depth the roles of China and the USSR in this conflict, which are often mentioned but functionally ignored in the West. It will cover the various warzones and home fronts, focusing as much as possible on conveying the experiences of participants through primary sources. It will likewise seek to bridge the analysis of the military and socio-political sides of this conflict, which are often treated as distinct, by drawing on key academic works in the field.

**Requirements/Evaluation:** Weekly meetings with professor and one peer partner; 5-page papers (6 total); 2-page critiques of partner’s papers (6 total)

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and Asian Studies concentration students, then everyone else.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 112(D2) ASIA 111(D2)

**Writing Skills Notes:** Students will alternate weekly between writing 5-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners.

TUT Section: T1 Cancelled

**ASIA 351 (S) Disinterest in the Bhagavad Gita**

**Cross-listings:** ENGL 353 / COMP 313 / REL 353

**Secondary Cross-listing**

In this course, students will read the *Bhagavad Gita* alongside selected responses to it. These responses range from philosophical and theological commentaries written in Sanskrit by Shankaracharya, Abhinavagupta, and Ramanuja, to later “Bhakti” poetic responses in other Indian languages, to 18th and 19th century European aesthetic and political commentary (Herder, Schlegel, Hegel), to the work of 20th century commentators like M.K. Gandhi, B.G. Tilak, B.R. Ambedkar and D.D. Kosambi. We will examine the Gita's theory of action and the place of disinterest in this theory. We will inquire into the social, metaphysical, and political conditions of possibility of such disinterestedness, and think about disinterestedness itself as a condition for political action and aesthetic experience. Finally, we will reflect on how such a comparative history of interpretation might help us model a
dialectical history of thought.

Requirements/Evaluation: Weekly meetings, weekly reading; weekly essay or response. Attendance in 2-3 lectures over the semester.

Prerequisites: No prerequisites

Enrollment Limit: 10

Enrollment Preferences: Majors in English and Comparative Literature; Religion, Classics, or Philosophy majors; Sophomores looking to major in any of these.

Expected Class Size: 8-10

Grading: no pass/fail option, no fifth course option

Distributions: (D1)

ASIA 481 (F) History of Taiwan (WS)

Cross-listings: HIST 481

Secondary Cross-listing

Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation, or an "inalienable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C.. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. We will also examine contemporary arguments for Taiwan as part of China. The goal of the course is neither to debate nor resolve the "Taiwan question", but to explore the history and historical arguments that inform it.

Requirements/Evaluation: weekly papers and critiques

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: History and Asian Studies majors/concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 481(D2) ASIA 481(D2)

Writing Skills Notes: In this tutorial course, students will write bi-weekly 5- to 7-page papers with feedback from both the instructor and tutorial partner. Students will revise one of their tutorial papers as a final assignment. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

ASTR 402 (S) Between the Stars: The Interstellar Medium (QFR)

The matter between the stars--the interstellar medium--tells the story of the evolution of galaxies and the stars within them. Stars are accompanied by diffuse matter all through their lifetimes, from their birthplaces in dense molecular clouds, to the stellar winds they eject as they evolve, and to their
final fates as they shed their outer layers, whether as planetary nebulae or dazzling supernovae. As these processes go on, they enrich the interstellar medium with the products of the stars' nuclear fusion. Interpreting the emission from this interstellar gas is one of astronomers' most powerful tools to measure the physical conditions, motions, and composition of our own galaxy and others. In this course we will study the interstellar medium in its various forms, from cold, dense, star-forming molecular clouds to X-ray-emitting bubbles formed by supernovae. We will learn about the physical mechanisms that produce the radiation we observe, including radiative ionization and recombination, collisional excitation of "forbidden" lines, collisional ionization, and synchrotron radiation. Applying our understanding of these processes, we will analyze the physical conditions and chemical compositions of a variety of nebulae. Finally, we will discuss the evolution of interstellar material in galaxies across cosmic time. This course is observing-intensive. Throughout the semester, students will work in small groups to design, carry out, analyze, and critique their own observations of the interstellar medium taken using the rooftop telescope.

**Class Format:** Tutorial meetings will be scheduled with the professor. Students will also complete observing projects using the rooftop telescope.

**Requirements/Evaluation:**
- weekly problem sets, 10-page final paper, and observing projects

**Prerequisites:** ASTR 111 and PHYS 201 or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** juniors and seniors

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (QFR)

**Quantitative/Formal Reasoning Notes:** In this course, students will derive quantitative physical formulas, use these equations to calculate and compare physical properties, and generate and analyze graphical representations of data. They will also make and analyze measurements of astronomical data through observing projects.

---

**BIO 109 (F) Animal Communication** (WS)

**Cross-listings:** NSCI 209

**Primary Cross-listing**

Animal communication systems come in as many varieties as the species that use them. What they have in common are a sender that encodes information into a physical signal and a receiver that senses the signal, extracts the information, and adjusts its subsequent behavior accordingly. This tutorial will consider all aspects of communication, using different animal systems to explore different aspects of the biology of signaling. Topics will include the use of syntax to carry meaning in chickadee calls, synchronous signaling by fireflies, gestural communication by primates, long-distance chemical attractants that allow male moths to find the object of their desire, and cultural evolution within learned signaling systems.

**Requirements/Evaluation:** evaluation will be based on five 5-page papers, five short response papers, and the student's effectiveness in tutorial discussions.

**Prerequisites:** BIOL 101 and 102; open to sophomores, juniors, and seniors

**Enrollment Limit:** 10

**Enrollment Preferences:** Biology majors and Neuroscience concentrators who need a Biology elective to complete the concentration; then sophomores.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

NSCI 209(D3) BIOL 209(D3)

**Writing Skills Notes:** This course is a tutorial, and each student will write five position papers and five response papers. Extensive feedback will be provided; students will be required to rewrite one position paper, and may rewrite any of them.

**Attributes:** COGS Related Courses NSCI Group A Electives
BIOL 440 (S) Cell Signaling and Tissue Engineering: A Potential Fountain of Youth? (WS)

It is a long quest of mankind to have a healthy and long life but it is inevitable that our bodies lose function due to injury, disease or as we grow old. At the heart of tissue engineering is the idea that we can restore tissue function by replacing with or rebuild the right structure. To artificially generate tissues, organs or even organisms, one fundamental question must be addressed: How do our different organs, composed of cells with the identical genetic information, develop into such functionally different organs? Through the lens of tissue engineering, we will explore the mechanism by which cells sense the surrounding physical and chemical cues, and respond by changing their gene expression and consequent behaviors. We will devote most of our discussion to the scientific rationale and challenges of tissue engineering. Topics to be covered include 3D organoids in regenerative medicine, disease modeling, biobanking and drug discovery, computational modeling of stem cell dynamics, tissue growth and pattern formation, mechanotransduction, biomaterial fabrication, immunomodulation and cultured meat. Bioengineering of bone and cartilage, cardiovascular and nervous systems, etc. will be presented as case studies to illustrate details of certain aspects of tissue engineering in the broader context of the overall strategic approach used to solve a clinical problem. We will also consider the role of social factors like legislative regulation, health care philosophy, ethics and economics in the process of moving concept into the clinic and market.

Requirements/Evaluation: six 4-5 page papers; six 1-2 page response papers; tutorial presentations; contribution to the intellectual enterprise

Prerequisites: BIOL202 or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Junior and seniors, with preference to senior Biology majors who have not had a 400-level course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

Writing Skills Notes: Each student will write six 4-5 page papers that address questions given by the professor and six 1-2 page critiques of their tutorial partner's papers, either adding to or refuting the main points made. Both papers and critiques will receive feedback from professor regarding structure, style and argument. As a final assignment, each student will write a paper that requires synthesizing/revising their ideas from the previous five papers and also a peer review of their partner's final paper.

COMP 129 (S) James Baldwin's Song

Cross-listings: MUS 179 / AFR 128

Secondary Cross-listing

"It is only in his music [. . .] that the Negro in America has been able to tell his story. It is a story which otherwise has yet to be told and which no American is prepared to hear," wrote James Baldwin in Notes of a Native Son in 1955. In this course, we strive to listen more closely to racialized experience through James Baldwin's musical literature. Through analysis and creation of music, we hope to better understand cultural difference and collective humanity. In this course, we closely analyze James Baldwin's use of song names, creation of musician characters, and replication of musical elements in his writing. Baldwin's musical word play crosses historical and genre boundaries. So we will explore texts from his early to late career, such as the gospel music of his youth in the semi-autobiographical novel Go Tell It on the Mountain, the metaphor of the blues in the play written during the civil-rights movement Blues for Mr. Charlie, the jazz musician protagonist in "Sonny's Blues" written after World War II in Paris, and his only musical recording in A Lover's Question set down near the end of his life. In addition to closely analyzing James Baldwin's attention to music throughout his literature, students will learn basic music writing and production skills. The tutorial will draw on a range of musical resources, including playlists, music workshops, guest lectures and performances. All of these resources will guide students to a more attuned hearing not only of music but also of the African American experience it reflects. By the end of the course, students will have written several short 1-2 page close analysis essays and song lyrics. For their final project, students will produce an original song based on key insights from the course. No musical experience is required, though an openness to learn and practice songwriting is expected.

Requirements/Evaluation: Several short 1-2 page close analysis essays of Baldwin's work, oral peer feedback presentations, song lyrics, and an
original song composition for the final project

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** This course is specifically for first-year students and they will receive preference in this class; a statement of interest will be solicited from pre-registrants.

Spring 2025

TUT Section: T1 TBA Rashida K. Braggs

**COMP 227 (F) Outdoor Pools: Where Eros Meets Thanatos (WS)**

In an outdoor swimming pool is where Eros meets Thanatos: in both F. Scott Fitzgerald's novel *The Great Gatsby* (1925) and Billy Wilder's movie *Sunset Boulevard* (U.S.A., 1950), the protagonists are shot dead in their pool, and in his adaptation of *Romeo and Juliet* (U.S.A., 1996) Baz Luhrmann transposes the balcony scene to an outdoor pool where romance unfolds. What is it about outdoor swimming pools that they irremediably capture our imagination? This interdisciplinary tutorial explores the function and significance of outdoor swimming pools in French, German, and U.S. culture through literature, painting, photography, and film. Whether we regard them as a symbol of status and wealth, the remnants of Hollywood's Golden Age era, the embodiment of order and discipline, or a major environmental impact factor, they nevertheless fascinate us. Because outdoor swimming pools, whether private or public, are a microcosm of society and a metaphor for human civilization, they have also been at the center of discussions about racial segregation and religious discrimination in Europe as well as in the U.S.A.. Although pools are mostly governed by tacit rules, such as respect for personal space and the desexualization of encounters, visitors have often disregarded and broken these regulations. That explains why outdoor swimming pools have often served as the perfect backdrop for literature and cinema's steamiest and most violent scenes. We will start the course with a brief social history of pools and read a few sociological studies of swimming pools by experts (Jeff Wiltse, Kate Moles, Susie Scott) to lay the theoretical ground for our analysis. In the course of the tutorial, we will explore through novels, photographs, paintings, and films the various functions assigned to outdoor swimming pools depending on the time period. We will also delve into the genre of summer pool side literature (the satirical *Summer House with Swimming Pool* (2011) by Hermann Koch, the thriller *The Swimming Pool* (2018) by Clare Mackintosh, and Julie Otsuka’s latest novel, *The Swimmers* (2022)) and try to explain its great popularity. While the outdoor pool functions as a mirror of excess and decadence in the 1920's as evidenced by the lavish pool parties thrown by *The Great Gatsby* by F. Scott Fitzgerald (1925), it becomes the epitome of white middleclass suburban life in the 60's as John Cheever's short story *The Swimmer* narrates. During the 1970's, the pool advances as a symbol of sexual liberation as the erotic thriller *The Swimming Pool* (France, 1969) by Jacques Deray, the sexually charged pool paintings *Peter Getting Out of Nick's Pool* (1966) or *Portrait of an Artist (Pool with Two Figures)* (1972) by David Hockney, or the male nudes by Tom Bianchi in his *Fire Island Pines: Polaroids 1975-1983* attest. In the 1980's the outdoor pool becomes once more the mirror of opulence and eroticism, which Helmut Newton's photographs of Hollywood celebrities (Liz Taylor swimming in her jewels) and for Playboy magazine capture as well as Paul Thomas Anderson's film *Boogie Nights* (U.S.A.,1997) about the booming porn industry during the Reagan-era. Starting in the late 90's, the outdoor swimming pool takes on greater political significance, largely due to the emergence and increasing visibility of female and gay filmmakers. In François Ozon's thriller *Swimming Pool* (France, 1996), the pool is the setting of female solidarity and feminist revenge. In her character study movie *Everyone else* (Germany, 2009), Maren Ade carefully examines how gender roles and stereotypes play out and get reinforced during a pool party. At last, in her recent comedy *Freibad,* (Germany, 2022) Doris Dorrie chooses a women-only public outdoor pool as the backdrop to raise questions of racial segregation and religious discrimination

**Requirements/Evaluation:** six 5- to 7-page argumentative papers; six 2- to 3-page response papers; final paper optional

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Freshmen, sophomores, and juniors

**Expected Class Size:** 8

**Grading:** no pass/fail option, no fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Each student will write five 5- to 7-page papers on which they will receive written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partners' papers. As the final assignment, each student will revise one of their five papers.

Fall 2024
TUT Section: T1 TBA Christophe A. Koné

COMP 231 (F) Postmodernism (WS)
Cross-listings: ENGL 266

Primary Cross-listing
In one definition, postmodernism in art and literature is what you get when you combine modernism's radical experimentation with pop culture's easy appeal. This term has been used to describe works from Andy Warhol's paintings of Campbell's soup cans and Jean Baudrillard's critical essays on Disneyland to Murakami Haruki's euphoric conspiracy novels. Theorists of the postmodern have argued that it represents not only a radical change in aesthetic sensibilities, but a fundamentally new relationship between art, language, and society. In this tutorial, we will read some of the most important theoretical essays defining the postmodern (essays which themselves often embrace this playful and sometimes ironic style), and we will pair them with artistic texts that are said to illustrate the features of postmodernism. The latter will be mainly novels and short stories from around the world, but one feature of this theory is a flattening of the distinction between high and low culture as well as between the written and the visual, so we will also examine examples from architecture, visual art, and/or broader pop culture. Texts will include essays by critics like Jean Baudrillard, Fredric Jameson, Jean-François Lyotard, and Azuma Hiroki; novels and short stories by writers like Don DeLillo, Italo Calvino, and Murakami Haruki; painting and sculpture associated with Pop Art and Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

Class Format: After an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week.

Requirements/Evaluation: participation plus 4 papers (4-5 pages), 2 short papers (1-2 pages), and 4 peer critiques (1 page)

Prerequisites: a previous literature or critical theory course at Williams plus sophomore standing or higher, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Comparative Literature majors, students with a demonstrated interest

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 266(D1) COMP 231(D1)

Writing Skills Notes: Students will write several regularly spaced papers that build on one another by revisiting, extending, and/or rewriting earlier material. Students will receive detailed written feedback from the instructor on each paper, addressing argument, organization, and style, as well as written peer feedback on the longer papers. (See requirements for details about the number and type of assignments.)

TUT Section: T1 TBA Christopher A. Bolton

COMP 236 (S) Narrating Color: Black Women Sing and Write About Complexion
Cross-listings: WGSS 206 / AFR 202

Secondary Cross-listing
Colorism, skin color discrimination where light skin is privileged over dark skin, is not a new phenomenon, but globally entrenched in our society and one of the many vestiges of white supremacy. For Black Americans of all backgrounds, colorism is a familiar and a living legacy concretized by the institution of slavery in the Americas. Although some believe that we are "post-color," similarly to those that naively believe we are "post-race," one can
look to the recent example of misogynoir (misogyny directed at Black women) and skin color politics that Meghan Markle, the Duchess of Sussex, has faced at the hands of the British Monarchy, that her light-skinned color, biraciality, and class privileges couldn't protect her from. Alternatively, we can look at the numerous examples of colorism and anti-Black racism that tennis icon Serena Williams is subjected to because of her dark-brown skin complexion and body shape. One cannot fully understand the issue of colorism without understanding that it is an outgrowth or an extension of anti-Black racism firmly rooted in white supremacy, and so insidious that it impacts all aspects of Black life. Examining colorism through literary texts and music, provides a depth of understanding that both compliments and expands these empirical studies. Literature and music provide the narratives and rhythm that paint a vivid picture of the many ways that colorism impacts the lives of Black people. Through the methods of literary and rhetorical criticism we will examine the works of five Black women authors and music artists that take up issues around colorism and passing. We will explore, Toni Morrison's, *The Origins of Others* (2017), Brit Bennett's, *The Vanishing Half* (2020), Tressie McMillian Cottom's, *Thick* (2019), Marita Golden's, *Don't Play in the Sun* (2004), Yaba Blay's, *One Drop: Shifting the Lens on Race* (2021), Nina Simone's, "Four Women" (1966) and "Young, Gifted and Black" (1958), Sara Martin's, "Mean Tight Mama" (1927), India.Arie's, "Brown Skin" (2001), Azelia Banks "Liquorice" (2012), and Beyoncé's "Creole" (2012), "Formation" (2016) and "Brown Skin Girl" (2020). By examining colorism in both literature and music, it will give first year students a foundational and nuanced understanding of skin tone bias and equip them with the tools to critically engage literary and music texts.

**Requirements/Evaluation:** Three, short papers (4-5 pages) discussing aspects of the readings and songs; three response papers to tutorial partner's papers (2 pages long); two, video essays; two, Twitter threads explaining aspects of one of the books and one of the songs; and a curated playlist of songs that would serve as accompaniment to one of the texts from the class.

**Prerequisites:** N/A

**Enrollment Limit:** 10

**Enrollment Preferences:** This class is specifically designed for first year students. Sophomores can register only with advanced permission.

**COMP 268 (S) The Contemporary African American and Latin American Novella**  (WS)

**Cross-listings:** ENGL 243

**Secondary Cross-listing**

This tutorial examines how the novella has been deployed in the African American and Latin American contexts in our present century. Throughout the term, we will grow a vocabulary to understand how, from the perspective of craft, an elongated brevity can often lend itself, perhaps counterintuitively, to such an immersive reading experience. We will also contemplate why so many of the texts appear focused on countering established historical narratives. What unique possibilities does the form of the novella offer in this regard? In these explorations, we will encounter novellas from, among others, César Aira, Yuri Herrera, Jocelyn Nicole Johnson, Gayl Jones, John Keene, Bruna Dantas Lobato, Toni Morrison, and Alejandro Zambra. These readings will be paired with brief critical texts that will frame the essays to be written each week.

**Requirements/Evaluation:** five tutorial essays (4-5 pages); five responses to partners tutorial essays; thoughtful participation in tutorial meetings

**Prerequisites:** A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

**Enrollment Limit:** 10

**Enrollment Preferences:** Sophomores, but juniors and seniors are also welcome.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1)  (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
**Writing Skills Notes:** Beyond the quantity of assigned writing, significant class time will be spent covering strategies for effective and persuasive academic writing. **DANC 210  (F) LET'S MAKE A DANCE: Dance Making and Re-Making**

This tutorial is designed for both first-time dance makers as well as more experienced dance students who seek the opportunity to practice dance making in a structured, intimate setting. Any genre or style of dance may be explored. Projects are designed primarily to empower the creator to clarify the intent and vision for their work. Central to this is the practice of giving and receiving feedback, using Liz Lerman’s Critical Response Process (CRP). Tutorial partners will be active artistic advisors for each others’ projects. Projects may include solo and group work, site-specific dance making, and creating in collaboration. Students are expected to rigorously build upon and revise their work(s) in three possible roles: artist, responder, and facilitator. Studying the work and philosophies of dance makers in a variety of genres, such as Akram Khan, Pina Bausch, Camille A. Brown, and William Forsythe will give further context to our work. Weekly presentation of assignments, active participation in CRP sessions, reading assignments, identifying to the group one's intended goal(s) for the week, written reflection on sessions, and final showing will be required. The full class will meet periodically for group feedback.

**Class Format:** plus one periodic full class meeting

**Requirements/Evaluation:** weekly presentation of assignments, participation in CRP sessions, identifying to the group one's intended goal, written reflection on sessions, and final showing
How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this tutorial, we will explore different modes of writing about performance such as ethnography, non-fiction, and performative writing. While there will be skill-based goals and a set outline for the tutorial, core texts that will anchor the conversations and paired writing assignments will be selected according to the interests of enrolled students. Texts will be complemented with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

**Class Format:** enrollment in the course will require each student to have in-person or zoom meeting with the instructor before the first class meeting, and attendance in the first organizational meeting or class session.

**Requirements/Evaluation:**

- This tutorial is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

**Prerequisites:** none

---

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 335(D1) DANC 302(D1)

**Writing Skills Notes:** Each student will write three 5- to 6-page papers on which the professor and peers will provide critical feedback on content, style, and form. After each cycle of feedback, students will have the option to submit a revision, and discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

**Difference, Power, and Equity Notes:** The monographs that will anchor the tutorial engage with politics of identity as it manifests in both staged and in everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So our inquiry throughout the semester will necessarily include how bodies "make meaning" in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.
ECON 219 (S) Global Economic History (WS)

What generated the rise of agricultural civilizations and early empires in the ancient world? Why did Western Europe—and not China, India, or the Middle East—first experience the Industrial Revolution? Why did Latin America stagnate over the 20th century, while Japan and eventually China and India boomed? What explains the historical success of the US economy? Why did the Soviet Union rise and fall? And why was African economic growth slow for so long before taking off in recent decades? These and other questions will guide our exploration of global economic development over the past several millennia. Our focus will be broadly comparative across space and time, with an emphasis on how institutions, resource endowments, culture, technology, and market forces help explain economic differences and change around the world. Throughout the course, we will draw on micro and macroeconomic concepts and simple empirical tools to understand and interpret the historical roots of the modern global economy.

Class Format: tutorial; weekly one hour meetings in groups of two

Requirements/Evaluation: evaluation will be based on five 5- to 6-page papers, critiques of fellow students’ papers, a longer revision of a paper, and engagement in discussion

Prerequisites: ECON 110 and ECON 120 or equivalent courses subject to instructor approval

Enrollment Limit: 10

Enrollment Preferences: first-year students and sophomores intending to major in Economics and/or History

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: This tutorial course requires students to write five 5-7-page papers, to write 1-2 page responses to their tutorial partner's papers, and to revise and extend one of their papers into a larger final paper of approximately 10-12 pages. Along the way, I offer detailed comments on all of their writing, with an eye towards producing a very polished final paper.

ECON 375 (S) Inclusive Growth and Crisis Response: The Role of Social Protection Systems

Cross-listings:

Secondary Cross-listing

Over the past three decades, developing countries have increasingly expanded social protection systems to tackle poverty and vulnerability while promoting inclusive social development and equitable economic growth. These systems provide pro-poor policy instruments that can balance trade and labor market reforms, fiscal adjustments (such as reduced general subsidies) and other economic policies aimed at enabling better market performance. In addition, social protection systems help vulnerable people to cope with shocks to their livelihoods, promoting resilience, human capital development and sometimes high-return risk-taking. In times of crisis, these systems are more important than ever. From March to June 2020, the World Bank identified 195 countries that have adapted and expanded their social protection systems to respond to the COVID-19 pandemic. This tutorial offers the opportunity to explore how shock-responsive social protection systems can better enable developing countries to respond to global and local shocks in a manner that minimizes the medium- to long-term costs of the resulting crises. The tutorial examines how developing countries build social protection systems to tackle poverty, vulnerability and social exclusion that result from global and local shocks. Topics include how the design and implementation of effective interventions both respond to crises and strengthen long-term developmental outcomes. The tutorial focuses on country responses to the COVID-19 pandemic as both a relevant case study and an example of the kinds of global crises to which national social protection systems must be able to respond in the future.

Requirements/Evaluation: Students will write five papers during the term, and will prepare and deliver formal comments on five papers written by other students

Prerequisites: ECON 251 or ECON 252

Enrollment Limit: 10

Enrollment Preferences: CDE Fellows; Junior and senior Economics majors at instructor's discretion.

Expected Class Size: 10
This course examines how the novella has been deployed in the African American and Latin American contexts in our present century. Throughout the term, we will grow a vocabulary to understand how, from the perspective of craft, an elongated brevity can often lend itself, perhaps counterintuitively, to such an immersive reading experience. We will also contemplate why so many of the texts appear focused on countering established historical narratives. What unique possibilities does the form of the novella offer in this regard? In these explorations, we will encounter novellas from, among others, César Aira, Yuri Herrera, Jocelyn Nicole Johnson, Gayl Jones, John Keene, Bruna Dantas Lobato, Toni Morrison, and Alejandro Zambra. These readings will be paired with brief critical texts that will frame the essays to be written each week.

Requirements/Evaluation: five tutorial essays (4-5 pages); five responses to partners tutorial essays; thoughtful participation in tutorial meetings

Prerequisites: A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 10

Enrollment Preferences: Sophomores, but juniors and seniors are also welcome.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 268 ENGL 243

Writing Skills Notes: Beyond the quantity of assigned writing, significant class time will be spent covering strategies for effective and persuasive academic writing. Throughout the semester, students will receive written feedback from the instructor with specific suggestions for revision and improvement.

Attributes: AMST Arts in Context Electives ENGL Criticism Courses ENGL Literary Histories C
Jameson, Jean-François Lyotard, and Azuma Hiroki; novels and short stories by writers like Don DeLillo, Italo Calvino, and Murakami Haruki; painting and sculpture associated with Pop Art and Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

**Class Format:** After an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week.

**Requirements/Evaluation:** participation plus 4 papers (4-5 pages), 2 short papers (1-2 pages), and 4 peer critiques (1 page)

**Prerequisites:** a previous literature or critical theory course at Williams plus sophomore standing or higher, or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Comparative Literature majors, students with a demonstrated interest

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

ENGL 353 (S) Disinterest in the Bhagavad Gita
Cross-listings: COMP 313 / REL 353 / ASIA 351

Primary Cross-listing
In this course, students will read the Bhagavad Gita alongside selected responses to it. These responses range from philosophical and theological commentaries written in Sanskrit by Shankaracharya, Abhinavagupta, and Ramanuja, to later “Bhakti” poetic responses in other Indian languages, to 18th and 19th century European aesthetic and political commentary (Herder, Schlegel, Hegel), to the work of 20th century commentators like M.K. Gandhi, B.G. Tilak, B.R. Ambedkar and D.D. Kosambi. We will examine the Gita’s theory of action and the place of disinterest in this theory. We will inquire into the social, metaphysical, and political conditions of possibility of such disinterestedness, and think about disinterestedness itself as a condition for political action and aesthetic experience. Finally, we will reflect on how such a comparative history of interpretation might help us model a dialectical history of thought.

Requirements/Evaluation: Weekly meetings, weekly reading; weekly essay or response. Attendance in 2-3 lectures over the semester.
Prerequisites: No prerequisites
Enrollment Limit: 10
Enrollment Preferences: Majors in English and Comparative Literature; Religion, Classics, or Philosophy majors; Sophomores looking to major in any of these.
Expected Class Size: 8-10
Grading: no pass/fail option, no fifth course option

ENVI 243 (S) Reimagining Rivers (DPE) (WS)
Cross-listings: ANTH 243

Primary Cross-listing
In the era of climate change and widening inequality, how we live with rivers will help define who we are. Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including increased flooding, drought, pollution, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and
humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Requirements/Evaluation: Each week, each student will either write a 5-page essay on assigned readings or write a 2-page critique of a partner's paper.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 243(D2) ANTH 243(D2)

Writing Skills Notes: Students take turns writing 5-page essays and 2-page responses to those essays, with each writing 6 in total. For each five-page paper, I meet with the student to discuss technical aspects of the paper and specific ways in which it could be improved. At the end of the semester, students have the option of handing in one revised paper as part of a portfolio of papers from throughout the semester. This enables me to have an ongoing, in-depth discussion with each student about their writing skills.

Difference, Power, and Equity Notes: This course focuses on the role of rivers in struggles over cultural difference, social power, and environmental equity. Throughout the course, students read and write extensively about environmental justice, and they engage with diverse theoretical approaches to studying the intersection of water, power, and social identity. Our focus from beginning to end is on the profound impact of river management on the lives of marginalized indigenous, agrarian, and urban communities.

ENVI 244 (S) Environmental Ethics (WS)

Cross-listings: PHIL 244

Primary Cross-listing

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature, among others. Most sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

Requirements/Evaluation: five essays (5-7 pages each) and five prepared oral responses to partners’ essays; evaluation will be based on essays, oral responses, and quality of discussion

Prerequisites: ENVI 101 or one course in PHIL

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: meets Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 244(D2) PHIL 244(D2)

Writing Skills Notes: Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support
of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

ENVI 264 (S) Architecture as Politics: Space, Design, Technology (DPE)
Cross-listings: ARTS 254

Secondary Cross-listing
This course delves into the intersection of architecture as a form of political expression, technology, and their collective impact on societal change. Emphasizing architecture as a discipline deeply intertwined with politics and shaped by technological advancement, this course will examine how a spectrum of art tools--from traditional to digital and computational--helps shape buildings and public spaces, shifts power structures, and hinders or promotes social justice. The curriculum blends theoretical exploration with practical application. Students will engage in critical analysis, technology-driven design workshops, and peer evaluations, culminating in a final project that melds techno-political theory with cutting-edge architectural practices. This course is ideal for students keen on leveraging technological architectural techniques to craft spaces with profound political and social impact.

Requirements/Evaluation: This is an intensive studio tutorial requiring working outside of scheduled class hours. In this course, students can work with the following media assuming that they can master them for a 200-level course: architecture models (physical and digital), photo reportages, 2D collages (e.g., Photoshop), digital humanities (cartographies, counter mapping, oral histories, digital archives), and curatorial platforms. Students will participate in tutorials plus a final project of significant scope. Evaluation will be based primarily on the quality of the final project but also on participation.

Prerequisites: Drawing I or permission of instructor.

Enrollment Limit: 10

Enrollment Preferences: Studio Art majors, Art History and Studio Art majors, ENVI majors and concentrators.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $350-$450 lab fee charged to term bill. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

Distributions: (D1)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTS 254(D1) ENVI 264(D1)

Difference, Power, and Equity Notes: This tutorial will employ theories and approaches from design activism and critical environmental studies to analyze the relationship between space and difference, including, but not limited to, race, class, ethnicity, gender, sexuality, religion, and species. Students will apply these theories and approaches to creating place-based projects.

Spring 2025

ENVI 291 (F) Religion and Ecology in America (WS)

Cross-listings: REL 291 / SOC 291

Primary Cross-listing
This course examines the relationship between religious and environmental thought in American cultural history. Exploring a broad range of practices, stories, and beliefs, we will examine the spiritual roots and branches of modern environmentalism. Rather than survey the formal teachings of organized religious groups, we will explore the creation and contestation of environmental meaning in the public sphere through literature, art, philosophy, and popular culture. How have religious writers, thinkers, and artists shaped the way we think about nature? How have they shaped the way we think about politics, science, and social justice? In pursuit of these questions, we will consider a diverse array of topics and cases, including
struggles to protect Native American sacred places, the role of Black churches in fighting environmental racism, Protestant outdoorsmanship, Catholic climate activism, Jewish eco-mysticism, atheist biological theory, Buddhist eco-spirituality, and more.

**Requirements/Evaluation:** Each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner’s paper.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**Writing Skills Notes:** Each student will write five five-page papers and five two-page papers in this class. They will be given extensive weekly feedback on their writing in the form of one-on-one meetings and written comments, and they will be given multiple opportunities for revision. Emphasis will be placed on the mechanics of argumentation, logic and rhetoric, and the development of a distinctive voice.

**Attributes:** ENVI Humanities, Arts + Social Science Electives

**ENVI 491 (S) The Suburbs (WS)**

**Cross-listings:** AMST 490 / HIST 491

**Secondary Cross-listing**

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans' relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans' understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

**Class Format:** Students will meet with the professor either in assigned pairs or "trios" at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

**Requirements/Evaluation:** This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History majors and students with course work related to the topic.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

ENVI 491(D2) AMST 490(D2) HIST 491(D2)

**Writing Skills Notes:** Students will reflect on what their writing goals are for the semester, and they will receive feedback on their writing from the
professor and from their tutorial partner. The final writing assignment will afford students the chance also to reflect back on their previous papers and the semester's course content.

GBST 216  (F)  Cities and Urbanism of the Ancient World  (WS)

Secondary Cross-listing
This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Angkor, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots at the beginning of the first civilizations in Euroasia and the Americas. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanites had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities?

Requirements/Evaluation: 5-page papers every other week, oral responses on alternate weeks; tutorial attendance is required.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first years, sophomores, or majors in Anthropology or Sociology
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

GBST 348  (F)  Altering States: Post-Soviet Paradoxes of Identity and Difference  (DPE)  (WS)

Secondary Cross-listing
Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their post-socialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as Russia’s invasion of Ukraine, or the lingering tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Ukraine and Russia, but will also read comparative studies, as well as works on East Germany and Georgia. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the post-socialist condition.
Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Anthropology, Sociology, and Russian majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

GEOS 211 (F) Rates and Dates: Calibrating the Rock Record (WS)
Late in the eighteenth century, the Scottish naturalist, James Hutton, argued that Earth had "no vestige of a beginning, no prospect of an end" challenging the widely held biblical view that Earth was a mere 6,000 years old. Yet it was not until the discovery of radioactive decay that geologists were able to accurately date rocks and assign absolute ages to the geologic time scale, which had been developed using fossils and relative dating of rocks. Before radiometric dating, there were numerous attempts to estimate the age of Earth using the rates of natural phenomena, but these early approaches were plagued by faulty assumptions about geologic processes. We still endeavor to estimate the rate of a wide variety of geologic processes, and many are critical to society, such as climate change, sea-level rise, plate motions, and mass extinctions. In this tutorial, we explore the methods of radiometric dating that allow us to determine the age of igneous rocks that cooled from a magma, estimate when deeply buried metamorphic rocks cooled below certain temperatures, and determine the age of organic materials from their radiocarbon signatures. We then examine methods used to estimate the rates of geologic processes with particular emphasis on diffusion -- the movement of matter or energy in response to a gradient in concentration, temperature, or potential energy -- and the explicit and implicit assumptions that are critical to rate calculations. Topics include the basic isotope systematics of geochronology (U-Pb, K-Ar, and 14C ages) and thermochronology (U-Th/He or 40Ar/39Ar), as well as the rates of processes such as plate motion, sea-level rise or fall, glacial advance or retreat, magma storage and ascent, and/or mineral growth rates. There will be weekly tutorial meetings with pairs of students, and students will alternate writing papers on assigned topics. This course is in the Solid Earth group for the Geosciences major.

Requirements/Evaluation: Four 5-page papers and four oral critiques of partner's papers, plus 2 problem sets
Prerequisites: Any 100-level Geosciences course
Enrollment Limit: 10
Enrollment Preferences: Geosciences majors or students with a strong interest in Geosciences.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

Writing Skills Notes: Students will write four 5-page papers and will receive peer and instructor feedback on how to improve their writing skills and formulate sound arguments. In addition, there will be two quantitative problem sets.

HIST 112  (S)  The Asia-Pacific War  (WS)

Cross-listings:  ASIA 111

Primary Cross-listing

The “Asia-Pacific War,” as it is known in Japan, raged from the full-scale Japanese invasion of China in 1937 until Japan's total defeat in 1945. This war, though certainly tied to the Allied war against Germany and Italy, was viewed by many participants at the time as truly a war apart due to the immense distances involved, the gleeful, racism-fueled brutality on both sides of the conflict, and the resultant abuses of POWs, use of atomic weapons, and other atrocities. Students will explore the intersection of colonialism, racism and opportunism that fed the conflagration, and the remarkable rapprochement between American and Japanese former enemies immediately after the war. It will examine in depth the roles of China and the USSR in this conflict, which are often mentioned but functionally ignored in the West. It will cover the various warzones and home fronts, focusing as much as possible on conveying the experiences of participants through primary sources. It will likewise seek to bridge the analysis of the military and socio-political sides of this conflict, which are often treated as distinct, by drawing on key academic works in the field.

Requirements/Evaluation:  Weekly meetings with professor and one peer partner; 5-page papers (6 total); 2-page critiques of partner’s papers (6 total)

Prerequisites:  None

Enrollment Limit:  10

Enrollment Preferences:  History majors and Asian Studies concentration students, then everyone else.

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 112(D2)  ASIA 111(D2)

Writing Skills Notes: Students will alternate weekly between writing 5-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners.

HIST 134  (F)  The Great War  (WS)

In November 2018, world leaders gathered in France to commemorate the centennial of the end of the First World War. Yet the armistice that brought hostilities on the Western front to a close on the eleventh hour of the eleventh day of the eleventh month of 1918, did not have the same significance for Eastern Europe and the Middle East, where revolutions and civil wars continued to be fought well into 1923. Ultimately, the Great War toppled four empires (German, Habsburg, Russian, and Ottoman) and forcibly displaced and killed millions of civilians (including Armenians and Jews), creating new countries and colonies throughout Europe, the Middle East, and Africa. This tutorial will explore the global history of the First World War, a history that is indispensable for understanding the world of today. We will consider a broad range of topics and sources in our examination of the political, social, cultural, economic, and military histories of the Great War and its aftermath. For three-quarters of the semester, the tutorial follows a traditional format in which weekly tutorial meetings center on the writing of a paper and the partner’s critique. The last segment of the course is structured around a research paper assignment, introducing students to archival research and longer-format writing.

Requirements/Evaluation:  bi-weekly 5- to 7-page papers; bi-weekly written critiques; one revised paper; final 8- to 10-page research paper.

Prerequisites:  permission of instructor

Enrollment Limit:  10

Enrollment Preferences:  first- and second-year students

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (WS)
Throughout the 20th century, parents, students, teachers, and policymakers have fought bitterly about the purpose of and practices in public schools. Public schools have been the site of a series of intense conflicts over the meanings of democracy and equality; the relationship between the individual, the family, and the state; and about completing claims to recognize the rights of teachers, children, and parents. Organized both chronologically and thematically, this course examines a series of "school wars" in the 20th century, focusing especially on battles over religion, race, and sex. Topics will include evolution/creationism, segregation and desegregation, bilingual education, sex education, free speech, and school prayer. This course asks how, why, and with what consequences schools have been an arena of cultural conflict in the United States? How do these debates help us understand the contested relationship between the rights of children and students, the rights of parents and families, the rights of communities and states, and the obligations of the federal government? How can historical analysis shed light on our present-day "school wars"? Many of these conflicts wind up in court, and we will be looking at some key Supreme Court decisions, but we will also draw upon memoirs, social histories, oral histories, popular culture, and other archival and documentary sources that focus on the experience of teachers and students. Tutorials meet in pairs. Every week, each student will either write an essay (1000-1250 words) that responds to and analyzes the readings OR a short essay (no more than 500 words) that responds to their partner's paper and raises further questions for discussion.

Requirements/Evaluation: four to five tutorial papers (approximately 5 pages) and four to five short response papers (approximately 2 pages)

Prerequisites: first-years or sophomores

Enrollment Limit: 10

Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write bi-weekly 5-page papers about the readings, and bi-weekly 2-page responses to their tutorial partner's paper. For the final paper, each student will revise and expand one of the papers they wrote in the semester. Students will receive regular written and oral feedback on their work from the professor and their tutorial partner. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Attributes: HIST Group F Electives - U.S. + Canada TEAC Teaching Sequence Courses

In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal's racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical
We will also screen several films that engage the theme of passing.

**Requirements/Evaluation:** Weekly formal response papers and written critiques.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 159(D2) AFR 159(D2)

**Writing Skills Notes:** Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

**Difference, Power, and Equity Notes:** Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of ideant intelligibility.

**HIST 481  (F)  History of Taiwan  (WS)**

**Cross-listings:** ASIA 481

**Primary Cross-listing**

Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation, or an "inalienable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C.. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. We will also examine contemporary arguments for Taiwan as part of China. The goal of the course is neither to debate nor resolve the "Taiwan question", but to explore the history and historical arguments that inform it.

**Requirements/Evaluation:** weekly papers and critiques

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** History and Asian Studies majors/concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Writing Skills Notes:** In this tutorial course, students will write bi-weekly 5- to 7-page papers with feedback from both the instructor and tutorial partner. Students will revise one of their tutorial papers as a final assignment. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Attributes:** HIST Group B Electives - Asia
HIST 486 (S) Race and A Global War: Africa During World War II (DPE) (WS)

This course highlights African experiences of World War II. Although most histories have excluded Africa’s role in the war, the continent and its people were at the center of major developments during in this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war’s impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

Requirements/Evaluation: Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers’ writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners. The final writing assignment will afford students the chance to reflect on their previous papers and the semester’s course content.

Difference, Power, and Equity Notes: This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions spite of various and complex inequities.

HIST 488  (F)  Sites of Memory and American Wars  (WS)

This tutorial will examine the ways that U.S. military ventures have been memorialized through a variety of physical sites, including landscapes, monuments and statues, museums, and other depictions. Given the enormous national conversation and reconsideration of many of these sites over the last decade, we will ask such questions as: How and why has the memorialization of U.S. wars changed since the country's founding? Who determines what is preserved and what stories are told? What is the relationship between individual experiences, collective memories, and national narratives? What do "sites of memory" tell us about society's views of wars and soldiers and about the United States? Throughout, we will pay attention to how these sites reflect historical understandings of the time and have also served as focal points of social and political protests.

Class Format: Students will meet with the professor either in assigned pairs or "trios" at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation: This course follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History majors and students with course work related to the topic.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: At the start of the semester, students will outline what their writing goals are for the semester, and they will receive feedback on their writing from the professor and from their tutorial partner. The final writing assignment will afford students the chance to reflect on their previous papers and the semester's course content.

HIST 491  (S)  The Suburbs  (WS)

Cross-listings: ENVI 491 / AMST 490
The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America’s conservative political turn, leading to the election of Ronald Reagan?

Class Format: Students will meet with the professor either in assigned pairs or “trios” at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation:  This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. HIST 495  (F)  The Medieval World System: Globalization before 1500  (WS)

In recent years, scholars have turned increasing attention to global history in the pre-modern period. This tutorial takes as its focus the global Middle Ages: roughly speaking, the period between 500 and 1500 CE. This was a period that saw mass-produced consumer goods cross from China to India, East Africa, and the Middle East, inspiring admiration and imitation in multiple different markets. It saw games, music, and forms of literature become popular across continents, and saw religious communities forge networks spanning thousands of kilometers. To study the global Middle Ages is to place exchange and networks, both commercial and cultural, at the heart of our analysis. We will read and analyze many accounts by medieval travelers, merchants, and pilgrims who crossed Afro-Eurasia, alongside works by modern historians and archaeologists who have pieced together the patterns of movement and exchange that tied together the diverse societies of pre-modern Afro-Eurasia.

Requirements/Evaluation:  Students will meet in pairs with the instructor once a week. Every other week each student will present a paper of approximately 5-7 pages on a topic determined by the instructor, due by 5pm the day before the tutorial meeting. The student not writing the paper will critique the paper written by their tutorial partner. Each student will write six papers and serve as a critic on the six papers of their tutorial partner.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Junior and Senior History majors

JLST 272 (S) Free Will and Responsibility (WS)

Cross-listings: PHIL 272

Secondary Cross-listing
Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? We're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The key question, then, is whether, and how, agency is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Requirements/Evaluation: Six tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)
Prerequisites: one PHIL course (or permission of instructor; please email with any questions)

LEAD 290 (F) How Change Happens in American Politics (WS)

Cross-listings: PSCI 290

Secondary Cross-listing
An unprecedented assault on the U.S. Capitol, the rise of white nationalism, a pandemic, economic volatility, racial reckoning, the overturning of Roe v. Wade, and rapidly evolving environmental crises -- American politics in the last four years has been tumultuous. What might we expect to come next? From the Founding to the present, the American political order has undergone cataclysmic and thoroughgoing transformations, yet it has also proven to be remarkably stable and enduring. How can this be? Where do we find continuities and where upheavals? Who or what has been responsible for the continuities, and who or what for the changes? What sorts of transformations have been possible, and why -- what marriage of individual action and contextual factors have created political change in the past and in the present? Finally, what are the costs of change (and of continuity) -- and who pays them? In this tutorial, we assess American political change, or lack of, to gain a sense of the role that political leaders have played in driving change. We examine when and how individuals and leadership have mattered vis-à-vis broader historical and contextual factors, including war, economic developments, demographic change, and constitutional and institutional practices. We consider general models of change, as well as specific case studies, including civil rights and social justice for racial and ethnic groups, gender equality and family relations, and reactionary...
or traditionalist politics. Finally, we will look at arguments that America has been "exceptional" -- or, unlike other countries -- as well as critiques of these arguments to help us gain an understanding of future prospects for political transformation.

Requirements/Evaluation: participation in weekly meetings as well as 4 lead essays (5-6 pages) and 4 critiques (2 pages)

Prerequisites: one prior course in political science

Enrollment Limit: 10

Enrollment Preferences: Declared and prospective Political Science majors and Leadership Studies concentrators

MATH 382 (S) Fourier Analysis (QFR)

Fourier analysis is the study of waves and frequencies. More precisely, the goal of Fourier analysis is to decompose a complicated function into a simple combination of pure waves, thereby gleaning insight into the behavior of the function itself. It's difficult to overstate the impact of this branch of mathematics; it is foundational throughout theoretical mathematics (e.g., to study the distribution of prime numbers), applied mathematics (e.g., to solve differential equations), physics (e.g., to study properties of light and sound), computer science (e.g., to compute with large integers and matrices), audio engineering (e.g., to pitch-correcting algorithms), medical science (e.g., throughout radiology), etc. The goal of this course is to cover the basic theory (fourier series, the fourier transform, the fast fourier transform) and explore a number of applications, including Dirichlet's theorem on primes in arithmetic progressions, the isoperimetric inequality, the heat equation, and Heisenberg's uncertainty principle.

Class Format: Every week, each student will either give a lecture (based on provided readings) or explain solutions to selected problems.

Requirements/Evaluation: Evaluation will be based on lectures and presentation of problem solutions.

Prerequisites: MATH 350 or MATH 351 or permission of instructor.

Enrollment Limit: 10
Enrollment Preferences: By lottery.
Expected Class Size: 10

MUS 179 (S) James Baldwin's Song
Cross-listings: AFR 128 / COMP 129
Secondary Cross-listing

"It is only in his music [. . .] that the Negro in America has been able to tell his story. It is a story which otherwise has yet to be told and which no American is prepared to hear," wrote James Baldwin in Notes of a Native Son in 1955. In this course, we strive to listen more closely to racialized experience through James Baldwin's musical literature. Through analysis and creation of music, we hope to better understand cultural difference and collective humanity. In this course, we closely analyze James Baldwin's use of song names, creation of musician characters, and replication of musical elements in his writing. Baldwin's musical word play crosses historical and genre boundaries. So we will explore texts from his early to late career, such as the gospel music of his youth in the semi-autobiographical novel Go Tell It on the Mountain, the metaphor of the blues in the play written during the civil-rights movement Blues for Mr. Charlie, the jazz musician protagonist in "Sonny's Blues" written after World War II in Paris, and his only musical recording in A Lover's Question set down near the end of his life. In addition to closely analyzing James Baldwin's attention to music throughout his literature, students will learn basic music writing and production skills. The tutorial will draw on a range of musical resources, including playlists, music workshops, guest lectures and performances. All of these resources will guide students to a more attuned hearing not only of music but also of the African American experience it reflects. By the end of the course, students will have written several short 1-2 page close analysis essays and song lyrics. For their final project, students will produce an original song based on key insights from the course. No musical experience is required, though an openness to learn and practice songwriting is expected.

Requirements/Evaluation: Several short 1-2 page close analysis essays of Baldwin's work, oral peer feedback presentations, song lyrics, and an original song composition for the final project
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: This course is specifically for first-year students and they will receive preference in this class; a statement of interest will be solicited from pre-registrants.

Secondary Cross-listing

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmacology" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

Requirements/Evaluation: six 5-page position papers and five 2-page response papers as well as participation in discussions

Prerequisites: PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Psychology majors and Neuroscience concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSYC 319(D3) STS 319(D2) NSCI 319(D3)

Writing Skills Notes: In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

PHIL 127 (F)(S) Meaning and Value (WS)

What gives an individual life meaning? Pleasure? Success in fulfilling desires? Flourishing in ways distinctive to a rational agent or a human being (including, for example, developing rational capacities and self-mastery, succeeding in worthwhile projects, cultivating relationships, living morally, developing spiritually)? Can we be mistaken about how well our lives are going, or about what has value? What are the main sources of uncertainty here? Does the fact that our lives will end threaten their meaning? How can science contribute to our understanding of these issues? We'll examine these and related questions through historical and contemporary readings. This course aims to teach skills required for good philosophical thinking, including those involved in reading texts closely, reconstructing and evaluating arguments, articulating ideas clearly in discussion, and crafting well-structured and carefully-reasoned papers.

Class Format: Students will meet in trios for this tutorial. We will meet on a fixed weekly schedule agreed to by the instructor and participants.

Requirements/Evaluation: Four lead tutorial papers (5-6 pages in length), seven critiques (2 pages in length), and one rewrite.

Prerequisites: First-years and sophomores only.

Enrollment Limit: 12

Enrollment Preferences: First-years and sophomores, and students who need to fulfill their 100-level requirement for the philosophy major. This tutorial is an appropriate first course in PHIL.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: This tutorial meets the 100-level PHIL major requirement.

Distributions: (D2) (WS)

Writing Skills Notes: Each student will write a lead tutorial paper (5-6 pages in length) or a peer critique (2 pages) in alternating weeks. The instructor will provide timely comments on writing skills, with suggestions for improvement.

Spring 2025
TUT Section: T1  TBA  Melissa J. Barry

PHIL 213 (S) Biomedical Ethics (WS)

Much like the construction of medical knowledge itself, it is from specific cases that general principles of biomedical ethics arise and are systematized into a theoretical framework, and it is to cases they must return, if they are to be both useful and comprehensible to those making decisions within the biomedical context. In this tutorial we will exploit this characteristic of biomedical ethics by using a case-based approach to examining core concepts of the field. The first portion of the course will be devoted to developing and understanding four moral principles which have come to be accepted as canonical: respect for autonomy, beneficence, nonmaleficence, and justice. The remainder of the course will consider key concepts at the core of medical ethics and central issues for the field, such as privacy and confidentiality, the distinction between killing and "letting die," and therapy vs. research. To this end, each week we will (1) read philosophical material focused on one principle or concept, and (2) consider in detail one bioethics case in which the principle or concept has special application or relevance. In some weeks, students will be asked to choose from a small set which case they would like to address; in others the case will be assigned.

Requirements/Evaluation: bi-weekly papers, oral commentaries, and tutorial discussions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: PHIL majors, PHLH concentrators, those who have a curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and resubmit. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical
positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

**PHIL 224 (S) Nietzsche, Marx and Freud (WS)**

Nietzsche, Marx and Freud have had a profound influence on literature, philosophy, and critical theories of the 20th and 21st centuries. In this tutorial we will treat them as diagnosticians of modernity who engaged in unveiling illusions and opening up possible alternative human futures. Each questioned the emancipatory effects of dominant understandings of reason and freedom as well as idealist and humanist accounts of moral progress in history; each aimed to liberate human beings from unnecessary suffering. We will focus on questions concerning their distinctive diagnostic and critical methods, the problems they identified, and their respective understandings of religion and and modern science.

**Class Format:** We may also meet in a seminar format once or twice during the semester.

**Requirements/Evaluation:** Bi-weekly papers, 2-3 page commentaries, and tutorial discussions.

**Prerequisites:** One of the following: 100-level Philosophy course or permission of instructor. Exposure to history of modern European philosophy and/or intellectual history will be very helpful.

**Enrollment Limit:** 10

**Enrollment Preferences:** Philosophy majors or prospective majors and students with background and interest in modern philosophy and critical theories more generally.

**Expected Class Size:** 10

**Grading:** no pass/fail option,  no fifth course option

**Distributions:** (D2)  (WS)

**Writing Skills Notes:** Students write five or six 5-6 page tutorial papers. Each will receive regular feedback to improve their ability to present clear, well-supported and engaging written arguments and interpretations.

**Attributes:** PHIL History Courses

---

**Spring 2025**

**TUT Section:** T1  TBA  Jana Sawicki

**PHIL 243 (S) The Philosophy of Higher Education: College Controversies (WS)**

What are the purposes of higher education? What are the purposes of liberal arts colleges in America? What should be the goals of Williams College? We will begin examining these questions by studying the history of some controversies in American higher education, and then turn to contemporary controversies such as campus free speech, cancel culture, divestment, decolonization, and admissions criteria.

**Class Format:** This course is a tutorial. Students will meet in pairs with the instructor one hour per week.

**Requirements/Evaluation:** A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners' papers in alternate weeks

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** I will be seeking a balance of interests and backgrounds; preference given to students who have taken at least one philosophy course

**Expected Class Size:** 10

**Grading:** no pass/fail option,  no fifth course option

**Distributions:** (D2)  (WS)

**Writing Skills Notes:** A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners' papers in alternate weeks, and will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
PHIL 244 (S) Environmental Ethics (WS)

**Cross-listings:** ENVI 244

**Secondary Cross-listing**

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature, among others. Most sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

**Requirements/Evaluation:** five essays (5-7 pages each) and five prepared oral responses to partners’ essays; evaluation will be based on essays, oral responses, and quality of discussion

**Prerequisites:** ENVI 101 or one course in PHIL

**Enrollment Limit:** 10

**Enrollment Preferences:** declared and prospective Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** meets Value Theory requirement only if registration is under PHIL

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 244(D2) PHIL 244(D2)

**Writing Skills Notes:** Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

**Attributes:** ENVI Humanities, Arts + Social Science Electives EVST Culture/Humanities PHIL Contemporary Value Theory Courses

PHIL 272 (S) Free Will and Responsibility (WS)

**Cross-listings:** JLST 272

**Primary Cross-listing**

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? We’re all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The key question, then, is whether, and how, agency is possible amidst all of these influences. We’ll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

**Requirements/Evaluation:** Six tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)

**Prerequisites:** one PHIL course (or permission of instructor; please email with any questions)

**Enrollment Limit:** 10

**Enrollment Preferences:** current and prospective Philosophy majors

**Attributes:** PHIL Contemporary Value Theory Courses TEAC Teaching Sequence Courses
**Expected Class Size:** 10  
**Grading:** no pass/fail option, no fifth course option  
**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:  
PHIL 272(D2) JLST 272(D2)

**Writing Skills Notes:** Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. Spring 2025

TUT Section: T1 TBA Melissa J. Barry

**PHIL 274 (F) Messing with People: The Ethics of Human Experimentation** (WS)

The Tuskegee Syphilis Study and Stanley Milgram’s Obedience experiments are infamous. Yet, other lesser known experiments are equally important landmarks in research ethics that continue to shape the design, conduct, and regulation of research involving human participants. In this tutorial we’ll closely examine a series of contemporary and historical cases of human experimentation (roughly, one case per week) with an eye toward elucidating the moral norms that ought to govern such research. A number of conceptual themes will emerge throughout the course of the term, including notions of exploitation and coercion, privacy and confidentiality, and the balance between public interests and individual rights. The cases will be drawn from different domains of research, including clinical medicine, public health, social and behavioral sciences, and education. Specific issues are likely to include the ethics of placebo research; deception in research; studies of illicit/illegal behavior; genetic research; research involving social media; experimentation with children, pregnant people and fetuses; research involving persons with mental illness, justice and research with marginalized populations, among other topics.

**Requirements/Evaluation:** evaluations will be based on written work, on biweekly papers, oral commentaries, and tutorial discussions

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** Philosophy majors (declared and prospective); Public Health concentrators (declared and prospective)

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**Writing Skills Notes:** Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and resubmit. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Fall 2024

TUT Section: T1 TBA Julie A. Pedroni

**PHIL 320 (F) Topics in Critical Theory: What is Critique? What Can It Do?** (DPE) (WS)

In this course, we focus on the aims of critique and on how we might use critical theory to further our social and political agendas today. You will become familiar with immanent critique, ideology critique, genealogical critique, and negative critique. Key questions include: What are the foundations and aims of critique? Does critique require postulating alternatives? How is power exercised? Should we abandon the idea of moral progress in history? Readings may include texts by Adorno, Horkheimer, Foucault, Deleuze, Judith Butler, Amy Allen, Raymond Geuss, Wendy Brown and Nancy Fraser.

**Class Format:** We may schedule at least one seminar meeting during the semester.

**Requirements/Evaluation:** Evaluation is based on written work (six 5-6 page papers, and six 2-3 page commentaries on a partner’s papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.
Prerequisites: Demonstrated background in the history of modern philosophy (PHIL 202), modern political theory, or critical and social theories.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to philosophy majors and prospective majors and students with background in critical or social theories.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will write six 5-6 page papers, and six 2-3 page commentaries on their partner's papers in alternative weeks. Papers and commentaries will receive significant oral feedback in our weekly 75 minute tutorial sessions.

Difference, Power, and Equity Notes: In this course, we raise questions at the center of debates in critical theory, a form of theory oriented toward emancipation or, at the very least, toward resisting unnecessary constraints on freedom that result in intolerable conditions and suffering.

TUT Section: T1 TBA Jana Sawicki

PHLH 351 (F) Racism in Public Health (DPE)

Cross-listings: AAS 351

Primary Cross-listing

Across the nation, states, counties and communities have declared racism a public health crisis. This push to identify systemic racism as a high priority in public health action and policy is an important symbolic and political move. It names the faults of histories, systems and institutions but also brings to the spotlight the individual and community responsibility to dismantle racism in the US. In this tutorial, we will examine racism in public health policy, practice and research through an investigation of several mediums of evidence and information, ranging from peer reviewed literature to news editorials, podcasts and documentaries. We will explore specific pathways by which legacies of colonialism and racism function in various public health disciplines such as epidemiology, social & behavioral sciences, health policy and environmental health while also examining the dynamics of power and history in research and community practice. We will take deep dives into issues on how health can be impacted by redlining, racist medical algorithms, racial trauma and stress and police violence, to name a few. Students will also have two opportunities to select their own case studies, as a way for you to research and learn about particular racial health issues that are of personal interest. This course is also about self-reflection and exploration of the ways in which our identities and lived experiences impact our understanding and perspective. We will gain skills in speaking across differences and articulation of how our own perceptions and lived experiences of race and racism impact our study of public health. This tutorial requires an openness to self-reflection and the practice of listening and articulation.

Requirements/Evaluation: bi-weekly tutorial papers, weekly journaling, oral commentaries and tutorial discussion

Prerequisites: PHLH 201 or instructor approval.

Enrollment Limit: 10

Enrollment Preferences: 1-Public Health concentrators. 2- Asian American Studies concentrators.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AAS 351(D2) PHLH 351(D2)

Difference, Power, and Equity Notes: In this course students will examine and critically examine the inequities and race based social and health injustices, and the ways racism infiltrates public health action and policy, both historically and currently. They will also refine their self reflection skills in understanding how their own positions of privilege and power, or lack thereof, inform their understanding of public health.

PHYS 402 (S) Applications of Quantum Mechanics (QFR)

This course will explore a number of important topics in the application of quantum mechanics to physical systems, including perturbation theory, the variational principle and the semiclassical interaction of atoms and radiation. The course will finish up with three weeks on quantum optics including an experimental project on non-classical interference phenomena. Applications and examples will be taken mostly from atomic physics with some discussion of solid state systems.

Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 301

Enrollment Limit: 10 per sec

Enrollment Preferences: Physics and Astrophysics Majors

Expected Class Size: 16

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: This course has weekly problem sets, all of which have a substantial quantitative component.

Spring 2025

TUT Section: T1 F 1:10 pm - 2:25 pm Betül Pamuk

PHYS 411 (F) Classical Mechanics (QFR)

This course will explore advanced topics in classical mechanics. Central ideas include the calculus of variations, the Lagrangian and Hamiltonian formulations of mechanics, phase space, central-force motion, non-inertial reference frames (including implications for physics on a rotating Earth), rigid-body rotations, and non-linear dynamics & chaos, with additional topics from continuum and fluid mechanics as time permits. Numerical and perturbative techniques will be developed and used extensively. We will also examine the ways in which classical mechanics informs other fields of physics. In addition to weekly tutorial meetings the class will meet weekly as a whole to introduce and discuss new material.

Requirements/Evaluation: weekly problem sets, tutorial participation, presentations, a final project, and a final exam, all of which have a substantial quantitative component

Prerequisites: PHYS 202 and PHYS/MATH 210 or MATH 309

Enrollment Limit: 30

Enrollment Preferences: majors

Expected Class Size: 24

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (QFR)

Quantitative/Formal Reasoning Notes: weekly problem sets requiring substantial quantitative reasoning using analytical and numerical methods.

Fall 2024

TUT Section: T1 F 1:10 pm - 2:25 pm Katharine E. Jensen, Frederick W. Strauch

PSCI 160 (F) Refugees in International Politics (DPE) (WS)

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be--how a crisis can be chronic, and for whom this chronic crisis is a solution. We investigate who refugees are, in international law and popular understanding; read refugee stories; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations’ roles in managing population displacement; look at the way that images convey stereotypes and direct a type of aid; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

Requirements/Evaluation: Ten essays: five lead, five response. The first two weeks’ essay grades will be unrecorded.
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: first-year students, to be selected randomly from list of those enrolled.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

Writing Skills Notes: In addition to writing every week, students will have a chance work on specific skills cumulatively.

Difference, Power, and Equity Notes: This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we worry about some of these categories of oppression more than others.

PSCI 259 (S) George Orwell: Capitalism, Socialism and Totalitarianism
It is hard to overstate the enduring influence of George Orwell on political discourse in the 20th century and beyond. Before his death in 1950 at the young age of forty six, Orwell produced a stunningly large and diverse body of work in the fields of journalism, literature, and political commentary. Much of this work was inspired by his own experiences as a police officer in Burma, several years working and traveling with destitute workers in England and France, as well as his experiences fighting against fascism during the Spanish Civil War in the late 1930s. While a fairly obscure and struggling author for much of his life, Orwell achieved worldwide fame after the Second World War with the publication of Animal Farm (1945) and 1984 (1949). This tutorial has two main objectives. First, it will introduce students to Orwell's most important books and essays in the context of a turbulent political era marked by the Great Depression, the rise of totalitarianism, world war, and the emerging Cold War. Second, the tutorial will examine the past and ongoing uses and abuses of Orwell's legacy by scholars and analysts on both the political left and the right. As Louis Menand argues, "almost everything in the popular understanding of Orwell is a distortion of what he really thought and the kind of writer he was." The course will conclude by examining what Orwell's thought contributes to a consideration of current issues ranging from the emergence of cancel culture to the possibilities of democratic socialism in the 21st century.

Requirements/Evaluation: 4 lead essays of 5-6 pages and 4 response essays of 2 pages.
Prerequisites: At least one introductory political science course.
Enrollment Limit: 10
Enrollment Preferences: Declared and prospective political science majors.
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Unit Notes: This course could also be listed in other subfields.

TUT Section: T 1  TR 8:30 am - 9:45 am  James McAllister

PSCI 290 (F) How Change Happens in American Politics (WS)
Cross-listings: LEAD 290
Primary Cross-listing
An unprecedented assault on the U.S. Capitol, the rise of white nationalism, a pandemic, economic volatility, racial reckoning, the overturning of Roe v. Wade, and rapidly evolving environmental crises -- American politics in the last four years has been tumultuous. What might we expect to come next? From the Founding to the present, the American political order has undergone cataclysmic and thoroughgoing transformations, yet it has also proven to be remarkably stable and enduring. How can this be? Where do we find continuities and where upheavals? Who or what has been
responsible for the continuities, and who or what for the changes? What sorts of transformations have been possible, and why -- what marriage of individual action and contextual factors have created political change in the past and in the present? Finally, what are the costs of change (and of continuity) -- and who pays them? In this tutorial, we assess American political change, or lack of, to gain a sense of the role that political leaders have played in driving change. We examine when and how individuals and leadership have mattered vis-à-vis broader historical and contextual factors, including war, economic developments, demographic change, and constitutional and institutional practices. We consider general models of change, as well as specific case studies, including civil rights and social justice for racial and ethnic groups, gender equality and family relations, and reactionary or traditionalist politics. Finally, we will look at arguments that America has been "exceptional" -- or, unlike other countries -- as well as critiques of these arguments to help us gain an understanding of future prospects for political transformation.

Requirements/Evaluation: participation in weekly meetings as well as 4 lead essays (5-6 pages) and 4 critiques (2 pages)
Prerequisites: one prior course in political science
Enrollment Limit: 10
Enrollment Preferences: Declared and prospective Political Science majors and Leadership Studies concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 326 (S) The Cyber Revolution (WS)
This is a course about how the advent of digital technologies, and especially those related to cybersecurity, have reshaped international politics, as well as how they might affect the world order in the future. At its most basic level, it addresses a question that is of fundamental importance to both scholars and policymakers alike: Have cyberweapons and digital technologies revolutionized the way that international politics works, in a manner similar to the impact that nuclear weapons have had on the international system since 1945? Specifically, the course will focus on what is known as the "theory of the cyber revolution": threats to critical infrastructure; the most significant cyberattacks that have occurred to date, namely, the US-Israeli Stuxnet attack on Iran's nuclear facilities in 2006-2010 and Russia's NotPetya attack on Ukraine in 2017; zero-day markets; information warfare and its effects on, respectively, authoritarian and democratic political systems; and the role that critical information technologies--such as advanced semiconductors, quantum computing, and artificial intelligence systems--might play in the evolution of international security competition in future decades.

Requirements/Evaluation: Biweekly analytical essays, biweekly critiques, final paper, class participation
Prerequisites: PSCI 120
Enrollment Limit: 10
Enrollment Preferences: Preference given to PSCI majors, especially those concentrating in the international relations subfield
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

Writing Skills Notes: Students will be writing biweekly analytical essays, biweekly critiques of their partner's work, and a final paper. Moreover, they will be providing peer review of one another's work throughout the semester.

Attributes: PSCI International Relations Courses

Spring 2025
PSYC 319 (S) Neuroethics (WS)
Cross-listings: STS 319 / NSCI 319

Primary Cross-listing

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of “abnormal” personality; the use of “cosmetic pharmacology” to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

Requirements/Evaluation: six 5-page position papers and five 2-page response papers as well as participation in discussions
Prerequisites: PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Psychology majors and Neuroscience concentrators

Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSYC 319(D3) STS 319(D2) NSCI 319(D3)

Writing Skills Notes: In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

REL 281 (F) Religion and Science
Cross-listings: STS 281

Primary Cross-listing

In the last few years the deniers of religion such as Dennett and Dawkins have forcefully argued that recent scientific developments show the degree to which religion is irrelevant to a modern understanding of what it means to be human. Atran and Boyer have made a similar case, arguing that recent progresses in our understanding of human cognition demonstrate that religion is a purely natural phenomenon that has little if any value for human development. Theologians such as Haught and Polkinghorne have rejected these views, arguing that a proper understanding of scientific developments such as evolution and quantum mechanics suggests religiously relevant views of the universe and our place therein. This course considers these competing perspectives while offering critical reflections on the views and categories involved in these controversies. We also examine the works of reflective naturalists such as Bellah and Herrstein, who argue that far from showing the irrelevance of religious ideas and practices, the new mind and life sciences suggest a much more nuanced view according to which religion is both grounded in the natural world and central to the development of human culture. Hence, it cannot be easily discounted as irrelevant to a scientifically informed understanding of what it means to be human.

Requirements/Evaluation: tutorial format. one paper every two weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: preference for religion majors or future religion majors
Expected Class Size: 10
**REL 284 (F) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe** (WS)

**Cross-listings:** WGSS 284 / ARTH 218

**Secondary Cross-listing**

This course provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

**Requirements/Evaluation:** Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** First years and sophomores, but open to all.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**REL 291 (F) Religion and Ecology in America** (WS)

**Cross-listings:** ENVI 291 / SOC 291

**Secondary Cross-listing**
This course examines the relationship between religious and environmental thought in American cultural history. Exploring a broad range of practices, stories, and beliefs, we will examine the spiritual roots and branches of modern environmentalism. Rather than survey the formal teachings of organized religious groups, we will explore the creation and contestation of environmental meaning in the public sphere through literature, art, philosophy, and popular culture. How have religious writers, thinkers, and artists shaped the way we think about nature? How have they shaped the way we think about politics, science, and social justice? In pursuit of these questions, we will consider a diverse array of topics and cases, including struggles to protect Native American sacred places, the role of Black churches in fighting environmental racism, Protestant outdoorsmanship, Catholic climate activism, Jewish eco-mysticism, atheist biological theory, Buddhist eco-spirituality, and more.

**Requirements/Evaluation:** Each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner's paper.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Environmental Studies majors and concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENVI 291(D2) REL 291(D2) SOC 291(D2)

**Writing Skills Notes:** Each student will write five five-page papers and five two-page papers in this class. They will be given extensive weekly feedback on their writing in the form of one-on-one meetings and written comments, and they will be given multiple opportunities for revision. Emphasis will be placed on the mechanics of argumentation, logic and rhetoric, and the development of a distinctive voice.

**REL 353 (S) Disinterest in the Bhagavad Gita**

**Cross-listings:** ENGL 353 / COMP 313 / ASIA 351

**Secondary Cross-listing**

In this course, students will read the *Bhagavad Gita* alongside selected responses to it. These responses range from philosophical and theological commentaries written in Sanskrit by Shankaracharya, Abhinavagupta, and Ramanuja, to later "Bhakti" poetic responses in other Indian languages, to 18th and 19th century European aesthetic and political commentary (Herder, Schlegel, Hegel), to the work of 20th century commentators like M.K. Gandhi, B.G. Tilak, B.R. Ambedkar and D.D. Kosambi. We will examine the Gita's theory of action and the place of disinterest in this theory. We will inquire into the social, metaphysical, and political conditions of possibility of such disinterestedness, and think about disinterestedness itself as a condition for political action and aesthetic experience. Finally, we will reflect on how such a comparative history of interpretation might help us model a dialectical history of thought.

**Requirements/Evaluation:** Weekly meetings, weekly reading; weekly essay or response. Attendance in 2-3 lectures over the semester.

**Prerequisites:** No prerequisites

**Enrollment Limit:** 10

**Enrollment Preferences:** Majors in English and Comparative Literature; Religion, Classics, or Philosophy majors; Sophomores looking to major in any of these.

**Expected Class Size:** 8-10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

RLFR 330 (S) Unveiling Herstory: Heroines of the Francophone Enlightenment  (DPE)

On May 10, 2022, Paris unveiled the first statue of a black woman, Solitude, an emblematic figure of courage and resilience in the eighteenth-century fight against slavery in Guadeloupe. Against the backdrop of the contemporary French movement wherein statues of Enlightenment thinkers like Diderot, Rousseau, and Voltaire have been vandalized and sparked intense debates on memory and politics, Solitude’s recognition adds a profound dimension. Once revered as iconoclastic and progressive these male figures have in recent years been scrutinized for perpetuating ideals associated with white male hegemony, challenging conventional notions of freedom and equality. This tutorial invites students to reevaluate the Enlightenment movement, navigating beyond traditional narratives centered around male figures like Voltaire and Rousseau. It explores the transformative era post-French Revolution, shining a spotlight on the exceptional contributions made by women who defied societal norms within the eighteenth-century francophone world. Adopting a global perspective, the course not only examines events in France but also delves into its former colonies, particularly Haiti and Guadeloupe. By scrutinizing literary and ethnographic texts, as well as visual imagery, the course unravels the stories of remarkable women like Charlotte Corday, a key influencer during the Reign of Terror, and Sanité Belair, an active participant in the Haitian Revolution. The overarching goal is to underscore the significant roles and contributions of these women, often marginalized in historical narratives. Moreover, the course addresses the impact of archival gaps, shedding light on how the destruction of judicial archives by the French in their former colonies has shaped the remembrance of figures like Solitude and Belair.

Prerequisites: Any RLFR 200-level course or above, or by permission of instructor.

Enrollment Limit: 10

Enrollment Preferences: All are welcome. If overenrolled, preference will be given to French majors and certificate students; and those with compelling justification for admission

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE)

Difference, Power, and Equity Notes: This course examines the history of slavery and French colonialism. It also explores issues of female empowerment, racism, social justice and equity.
Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 348(D2) RUSS 348(D1) SOC 348(D2)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

SOC 348 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: GBST 348 / RUSS 348

Primary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very
reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their post-socialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as Russia’s invasion of Ukraine, or the lingering tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Ukraine and Russia, but will also read comparative studies, as well as works on East Germany and Georgia. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the post-socialist condition.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner’s paper in alternate weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Anthropology, Sociology, and Russian majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option

STS 281 (F) Religion and Science
Cross-listings: REL 281
Secondary Cross-listing

In the last few years the deniers of religion such as Dennett and Dawkins have forcefully argued that recent scientific developments show the degree to which religion is irrelevant to a modern understanding of what it means to be human. Atran and Boyer have made a similar case, arguing that recent progresses in our understanding of human cognition demonstrate that religion is a purely natural phenomenon that has little if any value for human development. Theologians such as Haught and Polkinghorne have rejected these views, arguing that a proper understanding of scientific developments such as evolution and quantum mechanics suggests religiously relevant views of the universe and our place therein. This course considers these competing perspectives while offering critical reflections on the views and categories involved in these controversies. We also examine the works of reflective naturalists such as Bellah and Herrstein, who argue that far from showing the irrelevance of religious ideas and practices, the new mind and life sciences suggest a much more nuanced view according to which religion is both grounded in the natural world and central to the development of human culture. Hence, it cannot be easily discounted as irrelevant to a scientifically informed understanding of what it means to be human.

Requirements/Evaluation: tutorial format. one paper every two weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: preference for religion majors or future religion majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2)
STS 319 (S) Neuroethics (WS)

Cross-listings: PSYC 319 / NSCI 319

Secondary Cross-listing

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmacology" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

Requirements/Evaluation: six 5-page position papers and five 2-page response papers as well as participation in discussions

Prerequisites: PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Psychology majors and Neuroscience concentrators

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 319(D3) STS 319(D2) NSCI 319(D3)

Writing Skills Notes: In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

THEA 109 (S) The Art of Yoga: Practice, Philosophy, Politics, Possibilities (DPE)

Cross-listings: ASIA 109

Primary Cross-listing

This course offers an immersive, interdisciplinary approach to hatha yoga, the branch of yoga that emphasizes bodily techniques for channeling energy, and achieving balance and quietude. It has been practiced and theorized variously in South Asia since ancient times. More recently, beginning in the late 19th century, it has been popularized throughout the globe, and has served as a source of inspiration for artists in various disciplines, including the theatre. Our work will follow four interrelated paths that will provide a broad context for our own experience and offer us tools for developing creativity: 1) We will dedicate ourselves to the careful study of the physical practice of yoga asanas, giving emphasis to biomechanical principles of alignment. Our study will include some basics of yoga anatomy; 2) We will study some allied philosophical principles, as they emerge from the Sanskrit text, Patanjali's Yoga Sutras, and some current commentaries on that text, by means of expanding the significance of our practice to all areas of our lives; 3) We will attend to the cultural politics of yoga by discussing new scholarship on its ancient origins as well as critical inquiry about how issues of appropriation, Orientalism, and racism shape its current manifestations; 4) We will examine how artists have incorporated elements of yoga into their practice. To explore how yoga might support our own artistic and innovative thinking, we will pair our practice with creative exercises. In this way, the course aims to explore the relationship of theory and practice. It will be of interest to students in the arts and anyone
interested in fostering artistry and the imagination. Students must be prepared to engage in a physical practice of asana, as well as commit to reading, writing, and discussion. No previous experience with yoga is required.

Requirements/Evaluation: Students will write 3-page weekly papers, either in response to readings or embodied exercises, or the tutorial partner's essay. Written feedback will be given by instructor. Students will be expected to demonstrate that they are regularly practicing outside of class both by the quality of questions they bring to our sessions together, as well as their continuous refinement of the poses. Students will not be evaluated in relation to a standard, but according to their own dedicated and steady progress with respect to the experience of yoga practice. The evaluation process includes attendance.

Prerequisites: Prospective students will be asked to submit an online form with questions about their interest in the class.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to first-year students.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $50 for yoga mat, belt, and balls.

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 109(D1) ASIA 109(D1)

Difference, Power, and Equity Notes: Throughout the course we will reflect on the ways in which the knowledge created through yogic practice and philosophy disrupts and provincializes European epistemological systems. Moreover, we will engage in critical inquiry into the ways in which the global popularity of yoga is shaped by colonial legacies of Orientalist representation, as well as contemporary modes of cultural appropriation and consumerism.

TUT Section: T1 TBA Shanti Pillai

WGSS 206 (S) Narrating Color: Black Women Sing and Write About Complexion

Cross-listings: AFR 202 / COMP 236

Secondary Cross-listing

Colorism, skin color discrimination where light skin is privileged over dark skin, is not a new phenomenon, but globally entrenched in our society and one of the many vestiges of white supremacy. For Black Americans of all backgrounds, colorism is a familiar and a living legacy concretized by the institution of slavery in the Americas. Although some believe that we are "post-color," similarly to those that naively believe we are "post-race," one can look to the recent example of misogynoir (misogyny directed at Black women) and skin color politics that Meghan Markle, the Duchess of Sussex, has faced at the hands of the British Monarchy, that her light-skinned color, biraciality, and class privileges couldn't protect her from. Alternatively, we can look at the numerous examples of colorism and anti-Black racism that tennis icon Serena Williams is subjected to because of her dark-brown skin complexion and body shape. One cannot fully understand the issue of colorism without understanding that it is an outgrowth or an extension of anti-Black racism firmly rooted in white supremacy, and so insidious that it impacts all aspects of Black life. Examining colorism through literary texts and music, provides a depth of understanding that both compliments and expands these empirical studies. Literature and music provide the narratives and rhythm that paint a vivid picture of the many ways that colorism impacts the lives of Black people. Through the methods of literary and rhetorical criticism we will examine the works of five Black women authors and music artists that take up issues around colorism and passing. We will explore, Toni Morrison's, The Origins of Others (2017), Brit Bennett's, The Vanishing Half (2020), Tressie McMillan Cottom's, Thick (2019), Marita Golden's, Don't Play in the Sun (2004), Yaba Blay's, One Drop: Shifting the Lens on Race (2021), Nina Simone's, "Four Women" (1966) and "Young, Gifted and Black" (1958), Sara Martin's, "Mean Tight Mama" (1927), India.Arie's, "Brown Skin" (2001), Azealia Banks' "Liquorice" (2012), and Beyoncé's "Creole" (2012), "Formation" (2016) and "Brown Skin Girl" (2020). By examining colorism in both literature and music, it will give first year students a foundational and nuanced understanding of skin tone bias and equip them with the tools to critically engage literary and music texts.

Requirements/Evaluation: Three, short papers (4-5 pages) discussing aspects of the readings and songs; three response papers to tutorial partner's papers (2 pages long); two, video essays; two, Twitter threads explaining aspects of one of the books and one of the songs; and a curated playlist of songs that would serve as accompaniment to one of the texts from the class.

Prerequisites: N/A

Enrollment Limit: 10
Enrollment Preferences: This class is specifically designed for first year students. Sophomores can register only with advanced permission.

THE PROGRAMME

Williams College offers a year-long program of studies at Oxford University in cooperation with Exeter College (founded in 1314), one of the constituent colleges of the University. Williams students will be enrolled as Visiting Students at Exeter and as such will be undergraduate members of the University, eligible for access to virtually all of its facilities, libraries, and resources. As Visiting Students in Oxford, students admitted to the Programme will be fully integrated into the intellectual and social life of one of the world’s great universities.

Although students on the Programme will be members of Exeter College, entitled to make full use of Exeter facilities (including the College Library), dine regularly in Hall, and join all College clubs and organizations on the same terms as other undergraduates at Exeter, students will reside in Ephraim Williams House, a compound of four buildings owned by Williams College, roughly 1.4 miles north of the city center. Up to five students from Exeter College will normally reside in Ephraim Williams House each year, responsible for helping to integrate Williams students into the life of the College and the University. A resident director (and member of the Williams faculty) administers Ephraim Williams House, oversees the academic program, and serves as both the primary academic and personal advisor to Williams students in Oxford.

Students enroll for the full academic year, which consists of three eight-week terms of instruction: Michaelmas Term, Hilary Term, and Trinity Term. Students are expected to be in residence to write their first tutorial papers in the week before the eight weeks of instruction begin (0th Week) and to remain in residence during the week after the term ends (9th Week) in order to sit final examinations. Between the three terms there are two intervening five week vacations, during which students may be expected to continue reading as preparation for their upcoming tutorials. Students are required to arrive in Oxford for Programme orientation.

Students on the Williams-Exeter Programme are required to be in residence in Oxford for three full terms. (They may be away during the vacation breaks between the terms.) Any student who departs early from Oxford without Faculty Director’s written permission (given only in truly exceptional, unpredictable situations), will not receive term credit, even if the student submits all required work prior to departure.

For more general information on the Williams-Exeter Programme, go to exeter.williams.edu.

THE TUTORIAL SYSTEM

Undergraduate instruction at Oxford University is largely carried out through individual or small-group tutorials, in which a student meets weekly with their tutor to present and discuss an essay they have written, based on an extensive amount of reading undertaken from an assigned reading list received at the beginning of each term. In addition to the weekly tutorial, students are strongly encouraged to attend a course of lectures offered by the University that corresponds to the material being addressed in the tutorial. The lectures, however, may be offered in a term different from the one in which the student is taking the tutorial. For that reason, students are encouraged to obtain early in their first term, from the relevant faculty (department), the complete list of lectures planned for the academic year.

Each student will plan a course of study for the three terms of the academic year in consultation with the director of the Programme. In their capacity as the Tutor for Visiting Students at Exeter College, the director, working closely with Exeter’s subject tutors, will arrange the teaching for the students, monitor student progress, be in regular contact with the student’s tutors, supervise the examinations that students sit at the end of each academic term, and report on each student’s academic progress to the Senior Tutor at Exeter College.

There are no “add/drop” periods at Oxford; once a student has made a commitment to a particular tutorial course, and the director has then secured a tutor to teach that course, students cannot back out or change the terms of the tutorial. All tutorials at Oxford are graded.

Students are required to enroll in two tutorial courses during Michaelmas term and two tutorials during Hilary Term (each consisting of eight individual tutorial meetings and generally requiring the preparation of eight essays). During Trinity term, students may choose to enroll in either one or two tutorial courses. Although some students take the minimum of five tutorial courses, most have enrolled in two tutorials per term for a total of six tutorials over their time at Oxford.

GRADES AND CREDIT

Grades for each tutorial course reflect the work done in all eight tutorial sessions, including their related essays, considered together, as well as the grade for the final examination. Tutorial essays and discussions are typically not assigned a specific grade. Final examinations last three hours and are always sat in the ninth week of term, following the eight weeks of instruction. For some tutorial courses, tutors may elect to offer the student the option of a final paper or project in lieu of an examination or may decide that the final project or examination is not necessary. This decision is made by each tutor, and is not a subject of negotiation.
Upon satisfactory completion of the requirements for the Williams-Exeter Programme at Oxford University, students receive academic credit for a regular Williams academic year, with each eight-session tutorial (plus final examination, if required) counting as the equivalent of 1.6 regular semester courses taken at Williams. Grades eventually become a part of their Williams transcript and will be included in the computation of Grade Point Average. There is no Pass/Fail option for Oxford tutorials.

Tutorial courses in Oxford may be used toward fulfilling the divisional distribution requirement; a student may earn a maximum of three distribution requirements, with no more than one from each division, for the year. All tutorial courses at Oxford meet the Williams College “Writing Intensive” designation, except for those in the studio arts, mathematics, and the natural sciences.

Tutorial courses in Oxford may also be used to meet major requirements. Students are encouraged to check with their department chair(s) to confirm official department policy.

THE COURSE OF STUDY

In addition to the opportunity to pursue British and Commonwealth Studies, Williams students in Oxford will be able to pursue tutorials in fields in which Oxford is particularly noted (Economics, English Literature, Mathematics, Modern History, Philosophy, Politics, Classics, Theology, the Natural Sciences, etc.). Exeter College also has fellows that are committed to teaching Williams students in three fields: English Language and Literature (with a focus on English literature, 1550-1830 and interests in the rise of the novel and women’s writing); History (with interests spanning the areas of Atlantic World, Global, Imperial, early American, Latin American and Caribbean History); and Medical Law and Ethics (with interests in ethics and regulation of emerging technologies such as gene drive and use of artificial intelligence in medical care).

Tutorial courses are not offered every term, and are often accompanied by lectures scheduled in a different term. It is therefore imperative that students consult the relevant Faculty (departmental) webpages to make sure when the lectures and/or tutorials they wish to take are actually offered. Sometimes, where appropriate, prerequisites are also listed.

It must be noted that study in the sciences is not normally accompanied by laboratory work; science majors seeking major credit for tutorials in the sciences should discuss this situation with their major advisors. Students interested in learning more about the possible courses of study available at Oxford should contact the Director of International Education and Study Away.

A full summary of the list of courses offered by subject can be found at: ox.ac.uk/admissions/undergraduate/courses/course-listing. Detailed descriptions of all the courses listed can be found on the websites of respective departments or faculties the links of which can be found at: ox.ac.uk/about/departments-a_z.

NON-CREDIT FOREIGN LANGUAGE STUDY

In addition to their regular tutorial courses, students may begin or continue the study of a wide range of foreign languages on a non-credit basis through a variety of arrangements available through the University as well as a number of other educational and cultural institutions in the city of Oxford. Students may put funds from their Programme Cultural Subsidy towards such study.

APPLICATION

Admission to the Programme is competitive. Students must apply to the The Office of Global Education and Study Away by the prescribed deadline (January 15th) and, prior to applying, should consult with the department or program chair of their intended major(s). Any questions students might have about curricular offerings at Oxford can also be raised with the director of the Programme in Oxford.

In addition to completing the formal application form, students can expect to be interviewed at Williams and will subsequently need to complete an application for Visiting Student status at Oxford University. All admissions to the Programme are subject to approval by Exeter College. Students can expect to be notified of acceptance before Spring Break. It is normally expected that they will have completed the College’s distribution requirement by the end of their sophomore year. In making its decisions, the Admissions Committee of the Williams-Exeter Programme at Oxford University takes student GPA into account, with a general expectation of a minimum GPA of 3.5. More importantly, we expect all applicants to have demonstrated capacity for rigorous independent work and extensive essay writing, and look favorably on those students whose intellectual maturity, curiosity and enthusiasm would best prepare them for a demanding course of study in Oxford. All applicants must identify two Williams faculty members who are willing to provide references. Because of the emphasis at Oxford on weekly written work for each tutorial course, at least one of those faculty members should be able to offer an assessment of the applicant’s writing ability.
WILLIAMS-MYSTIC: The Coastal and Ocean Studies Program of Williams College and Mystic Seaport Museum  
Executive Director: Thomas Van Winkle

- Lloyd B. Anderson, Assistant Professor at Williams-Mystic
- Catherine Robinson Hall, Associate Professor at Williams-Mystic; affiliated with: Williams-Mystic Program, Maritime Studies
- Tim J. Pusack, Associate Professor at Williams-Mystic
- Ned G. Schaumberg, Assistant Professor at Williams-Mystic
- Sofia E. Zepeda, Assistant Professor at Williams-Mystic; affiliated with: Williams-Mystic Program, History

Williams-Mystic: The Coastal and Ocean Studies Program invites students to experience a life-changing semester- not only on land and sea, but wherever their curiosity takes them. Whether it’s studying biodiversity off the coast of California, the impacts of climate disaster, or the depths of our humanity in ocean literature. Biology students bond with filmmakers, mathematicians with anthropologists, English majors with chemists. We take to the open sea for a week, hit the road on the Pacific and Gulf Coasts, and explore the wonders of Mystic Seaport Museum and coastal New England.

Each semester, 20 college students travel to Mystic, CT, for a one-semester interdisciplinary investigation of our coasts and oceans. They live and study on the grounds of the Mystic Seaport, the world’s largest maritime museum while conducting original, hands-on research and traveling across the country to examine life in coastal communities. Students build strong relationships with each other and the places they inhabit, both in Mystic and throughout our field seminars. In addition to four academic courses, students take a maritime skills course- such as blacksmithing, woodcarving, or sailing and navigation- taught by the museum's expert craftspeople. Students live on the museum grounds, co-op style, in one of five historic homes equipped with modern amenities. There they live, cook and create lifelong memories together.

Williams-Mystic's curriculum contributes to an educational experience that is both interdisciplinary and immersive. Each semester, the faculty collaborate so that all coursework becomes part of the big picture, showing the ways our coasts and oceans are connected across multiple disciplines. Students attend regular weekly classes, panels featuring scholars and industry professionals, and hands-on day trips to locations around New England. Students produce independent research in all four courses, which provides the opportunity to draw on interests or discover new passions that might turn into a career. We dig into the archives for history, delve into tidepools for science, and speak with leaders and stakeholders for policy class. In addition to their time in Mystic, students travel to different coasts across America, spending three to four weeks taking their studies off the page and meeting with community leaders.

Open to sophomores, juniors, and seniors, a semester at Williams-Mystic includes credit for one semester plus one winter study requirement, writing skills course credit, DPE requirement, and physical education credit. Four Williams courses are offered: Americans and the Maritime Environment, Ocean Literature, Marine Policy, and either Marine Ecology or Oceanographic Processes. Williams-Mystic seeks candidates who are willing to try new things and work in a compelling academic environment. No sailing experience necessary. Participation in Williams-Mystic can also be used in partial fulfillment of the Coastal and Ocean Studies Concentration at Williams. Admission is competitive, and interested students should email wmadmissions@williams.edu, call 860-572-5359, or visit the Williams-Mystic site.

BIOL 231  (F)(S)  Marine Ecology

Cross-listings: CAOS 311

Secondary Cross-listing

We have explored only a fraction of the ocean, with about 10% of marine species classified and 20% of the ocean mapped. Many discoveries remain to be made, and marine ecology is one technique to uncover new insights. The field of marine ecology, rooted in the theory of evolution, describes the mechanisms and processes that drive the diversity, abundance, and distribution of marine organisms. The goal is to document natural patterns and make predictions about how species will respond to environmental changes by investigating the relationship between the abiotic environment and biotic interactions. This course will take a deep dive into the unique challenges to life in the ocean. You will compare and contrast different marine ecosystems, such as coral reefs, kelp forests, and the deep sea. You will also practice a marine ecologist's skillset as you design, carry out, and analyze your own research project, which will improve your scientific writing, data analysis, and communication skills. Importantly, you will connect your research and course topics to larger marine conservation issues and broader societal impacts.

Class Format: including coastal and near-shore field trips, 10 days offshore, and a laboratory or field research project
CAOS 210  (F)(S)  Oceanographic Processes

Cross-listings:  GEOS 210

Primary Cross-listing

Part of the Williams-Mystic Coastal and Ocean Studies Program, this course provides an introduction to physical, geological, chemical, and biological oceanography. Using local field sites as well as places visited on field seminars, we will investigate why the Earth has oceans, why they are salty, how they move and flow, reasons for sea level change on both long and short timescales, and how our oceans interact with the atmosphere to control global climate. We will emphasise societal interactions with the ocean, and will consider coastal processes including land loss. We will apply an environmental justice and anti-racist lens to our discussions. Field work will take place on shores in southern New England, as well as during field seminars on the Atlantic ocean, the West Coast and the Mississippi River Delta. This course is in the Oceans and Climate group for the Geosciences major.

Class Format: Flipped classroom will focus on active learning using data-based exercises. Mini-symposia will involve student research and discussion.

Requirements/Evaluation: graded lab exercises, mini-symposium participation, and a research project

Prerequisites: none

Enrollment Limit: 24

Enrollment Preferences: none

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: This course is taught at our Mystic Seaport campus. Students must be enrolled in the Williams-Mystic Coastal and Ocean Studies Program.

Distributions: (D3)

This course is cross-listed and the prefixes carry the following divisional credit:

Fall 2024
CAOS 231 (F)(S) Literature of the Sea (DPE)

Cross-listings: ENGL 231

Primary Cross-listing

The ocean, and human relationships with it, have been central features of literatures and cultures around the world for more than a thousand years. But since literary study is typically based around authors' homelands, careful examination of the oceanic experience is often pushed to the periphery—an "empty space" to be crossed between nations, a "vast darkness" antithetical to human life, or a mirror for land-borne concerns. Increasingly, however, scholars and readers are centering the sea and stories about it as a means stepping outside human frameworks of space and time, situating the complex emotions and narratives inspired by the ocean into a complex network of geologic history and teeming other-than-human life. This course examines a wide range of texts and perspectives on the ocean and human relationships with it. Doing so will help us consider how literature both plays into and subverts dominant viewpoints of the ocean. Through texts that consider 19th-century whaling, the Middle Passage, the postcolonial Caribbean, and islands throughout the Pacific Ocean, we will explore a range of questions, including: What can we learn from examining efforts to write about the ocean? How do ocean stories help individuals understand themselves, their communities, and their place in global environments? What can the range of cultural and literary perspectives on our "single, global ocean" reveal about the ways different people are both connected with and profoundly distant from each other? Most importantly, we will practice, as a classroom community, different strategies for carefully reading texts while connecting them to cultural traditions, surrounding environments, and personal experiences.

Class Format: weekly roundtable discussions, including coastal and near-shore field trips and multiple field seminars.

Requirements/Evaluation: regular papers, class participation, journal-writing, and a final assignment

Prerequisites: N/A

Enrollment Limit: 25

Enrollment Preferences: Williams-Mystic Students only

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Unit Notes: offered only at Mystic Seaport

Distributions: (D1) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
CAOS 231(D1) ENGL 231(D1)

Difference, Power, and Equity Notes: This course focuses on the range of cultural perspectives about the sea, as well as the ways those perspectives can unsettle and challenge dominant narratives about the sea and its role in colonial expansion. Furthermore, this course centers voices that are typically overlooked in the genre of "Sea Literature," paying particular attention to Indigenous and African-American narratives about the ocean.

CAOS 351 (F)(S) Marine Policy (DPE) (WS)

Cross-listings: PSCI 319 / ENVI 351

Primary Cross-listing

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

Prerequisites: none

Enrollment Limit: 23

Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut
**Expected Class Size:** 22  
**Grading:** no pass/fail option, no fifth course option  
**Unit Notes:** must be enrolled at Williams-Mystic in Mystic, Connecticut  
**Distributions:** (D2) (DPE) (WS)  

This course is cross-listed and the prefixes carry the following divisional credit:  
PSCI 319(D2) ENVI 351(D2) CAOS 351(D2)  

**Writing Skills Notes:** Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.  

**Difference, Power, and Equity Notes:** Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

**CAOS 352 (F)(S) American Maritime History (DPE) (WS)**  
**Cross-listings:** HIST 352  
**Primary Cross-listing**  
This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.  

**Class Format:** Seminars, discussions, and field seminars  
**Requirements/Evaluation:** Participation in class discussions, activities, and presentations, regular papers, and a final independent research project  
**Prerequisites:** None  
**Enrollment Limit:** 27  
**Enrollment Preferences:** If course over-enrolls, preference will be given to sophomores and juniors  
**Expected Class Size:** 22  
**Grading:** no pass/fail option, no fifth course option  
**Unit Notes:** Offered only at Mystic Seaport  
**Distributions:** (D2) (DPE) (WS)  

This course is cross-listed and the prefixes carry the following divisional credit:  
HIST 352(D2) CAOS 352(D2)  

**Writing Skills Notes:** Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.  

**Difference, Power, and Equity Notes:** Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

The Program in Teaching offers a coordinated cluster of courses, advising and field work that give students the opportunity to study the ideas, questions, and practices involved in good teaching at all levels. The Program seeks to promote and facilitate an exchange of ideas about teachers, learners, and schools, within and beyond the Williams campus. The Program offers a range of opportunities including courses on education, intensive supervised student teaching, workshops, advising, lecture series, and ongoing peer groups for those who teach.

Students may participate in a variety of ways, ranging from taking one course to a sustained in-depth study of teaching and learning geared to those who want to become teachers or educational psychologists. We seek to connect students with one another, to bring in expert teachers to provide mentoring, and to create links across the curriculum so that students can see the vital connections between what they study (French, Algebra or Biology, for example) and the process of teaching those topics to elementary and high school students. The Program is open to any student interested in education and offers opportunities for all levels of interest, including those who want to find out about certification and graduate study.

No specific major is required to participate—although some lend themselves easily to certification, such as Mathematics, English, Biology, American History, or French, almost all of our majors can provide the basis of teacher certification. Alternately, students can major in Psychology, take a concentration of courses in a different field, and then pursue that content area more intensively in graduate work. More information can be found at program-in-teaching.williams.edu.
CCE 58  Careers & Impact in Healthcare: Voices from Beyond the Purple Valley

Healthcare accounts for nearly 20% of the US GDP and it's nearly impossible to overstate the impact the industry has on our lives today and will have on our society in the future. Clearly, careers in healthcare can involve the practice of clinical medicine and the conduct of medical research. However, careers in healthcare can also intersect with numerous areas in the private sector, including: finance, investing, consulting, marketing, biotechnology/pharmaceuticals, medical devices, technology, law, start-ups and more. If you have an interest in healthcare, this course is your chance to discover the breadth of career paths available to you. The cornerstone of the course will involve guest speakers working in various areas of healthcare, with a focus on the practice of medicine and a range of roles in the private sector. Guest speakers will share their firsthand experience with you, including: what they do; how they got there; what they love about their job; what challenges they face; and how they view their long term impact in healthcare. Students in this course will also have opportunities for self-reflection around career path and will gain hands-on exposure to the day-to-day activities in different healthcare roles. Insights on how to obtain a job in various healthcare sectors will flow naturally from the course discussions. However, the focus of this course is less on the brass tacks of how to get there (resumés, qualifications, networking, and interviewing). Instead, it is your chance to dream a little, by exploring careers you may not have fully considered (or even heard of!) and to create a vision for how you can contribute to the healthcare industry after graduation. Guest speaker visits will take place during class hours; active listening and engaged participation during these visits is the main expectation of students. Other assignments may include readings, individual and group exercises, and short written reflections.

Requirements/Evaluation: Other: Participation in class lectures and discussions will be paramount; short written reflection pieces and exercises will also be evaluated.

Prerequisites: The only prerequisite is enthusiasm for the subject matter. Open to all years and all majors. No prior experience in healthcare is required.

Enrollment Limit: 30

Expected Class Size: NA

Grading:

Unit Notes: Sarah is an investor in biotechnology at StemPoint Capital. Previously, she worked in biotech equity research, marketing consulting, and clinical research. Sarah received her BA from Williams and her MBA in Healthcare Management from Wharton.

Winter Study --------------------------------------------------

CCE 11 (W)  Investing in a Real Fund

We will use financial fraud as an entryway into the world of investing. Through the lens of how bad actors have tricked markets, we will learn how to analyze firms and stocks with a bit of a cautious eye. The focus of the course is to learn how to analyze and value a company. Along the way, we'll touch on a host of topics: basic financial accounting, investment instruments, corporate capital structure, equity and fixed income markets, derivatives, market efficiency, behavioral finance, and non-financial drivers (ESG, etc.) to arrive at a sound base of securities analysis. We'll conclude with student pitches for stocks we will buy (or not) in the fund we manage. And while we will employ a classic textbook, we'll also read about true financial frauds that are just jaw-dropping. (Students will read a couple chapters of the textbook and one ~250 page easily-read fraud each week. This course is designed for students with anywhere from no experience in investing to a moderate amount.) Interested students should submit a resume and brief paragraph about their interest in this course through Handshake by October 17, 2025, https://app.joinhandshake.com/edu/jobs/8319121

Requirements/Evaluation: Presentation(s); Other: The final presentations are team-based exercises, but I expect students to come to class prepared and to talk and think and debate. One of the things we're teaching here is the ability to engage in discussion in a civil, genteel manner.

Prerequisites: None

Enrollment Limit: 20
Enrollment Preferences: Preference given to First Years and Sophomores. Students are asked to submit a short answer (50-100 words) to a question: Why do you want to take this course and what do you hope to get out of it?

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: David '90 P'20, a Founding Partner of Triangle Peak Partners, a venture capital firm, graduated from Williams with Honors in Mathematics. He worked for Bain & Co., MAC Group, and Fayez Sarofim & Co. He also holds an MBA from Stanford University.

Materials/Lab Fee: $180

CCE 13 (W) INFLUENCE®, Venture Capital and Entrepreneurship: An Intensive Ventureship

INFLUENCE® as an investment method for start-ups: a hybrid course melding principles in economics, sociology, and psychology, this intense program examines core venture capital structures, brand development, and social priming through social media influencers and applies them to create a new company where INFLUENCE drives growth and value. Students will act like venture capitalist and founders. Over the past three winter studies we created three companies, reviewed investment term sheets and evaluated the nature of venture funding. The London Fund's proprietary Lal Toofan methodology and investment approach help students develop a start-up, its business plan, and a venture capital presentation. Celebrity influencers, investors and seasoned entrepreneurs will contribute to the class lectures. Out-of-class work includes competitive research on investments, financial modeling, and social network browsing.

Requirements/Evaluation: Presentation(s)

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: Prior work experience, and preference for psychology, sociology, economics, computer science, studio art and political economy majors. The class should have a 50/50 balance of creative and quantitative-focused individuals.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Founder, The London Fund. Serial entrepreneur. Managed two $1B+ VC and PE funds. Four IPOs by 27. $2B in exits. Seven patents. Presidential Task Force while at the CIA. Held every CxO title (except COO). BA, Williams College

CCE 19 (W) Healthcare Shadowing

Experience in a healthcare environment is essential to exploring the health professions. Through this experiential course, students have an opportunity to clarify their understanding of the rewards and challenges of the practice of allopathic and osteopathic medicine, veterinary medicine, dentistry, allied health professions, or public health. Students will participate in an intensive shadowing internship through a self-identified placement in a geographic location of their choosing. Generally, a shadowing experience focuses on provider-patient interactions within out-patient and in-patient settings. These experiences provide students with the opportunity to observe clinical interactions and to learn about the systems within which healthcare is delivered. Students will be introduced to fundamental concepts related to patient interviewing, diagnosis, and medical decision making. This course will encourage participants to reflect on their healthcare experiences with a dual focus: from the perspective of the individual provider-patient relationship and within a systems-level context. Weekly panels will expose students to broader perspectives in healthcare, preparation for health professions programs, and more. By the end of the course, students will demonstrate a greater understanding of the fundamentals of patient-provider interactions, clinical diagnosis, patient interviewing, and/or factors affecting the health of individuals and communities. They will write a final reflective paper on their experiences. Students are welcome to participate in self-sourced shadowing or volunteering internships in a geographic area where they have housing and transportation or will have the opportunity to be placed in the Williamstown area. Students can express interest in this course by filling out a brief application (To be provided later.)

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Other: In place of a paper, students may have the option to participate in a panel presentation/conversation. TBD

Prerequisites: Open to all students interested in exploring a career in medicine, dentistry, veterinary, nursing, PA, or other healthcare professions.

Enrollment Limit: 35
Enrollment Preferences: Application is required. Priority will be given to students who have not previously had an opportunity to shadow or have had limited exposure to working in healthcare.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: As Director of Health Professions Advising at the '68 Center, Sharon guides students pursuing careers in the healthcare professions.

Materials/Lab Fee: $350

CCE 21 (W) Career Exploration: Winter Study Internships!

Internships amplify academic learning, empower professional development, and increase students’ career options. This course offers students the opportunity to learn beyond the classroom by providing substantive applied learning experiences focusing on issues such as racial justice/social justice, non-profit/community service, government/policy/law, environment, education & more! Students have the option of applying to the designated WS internships posted on Handshake, or submitting self-sourced WS internships. Each student will intern for 5 days per week working on project(s) for 3 1/2-4 weeks. Williams College Alumni/Parents and other employers will be recruited as Winter Study (WS) Internship Employers and create meaningful projects/experiences during the month of January. It is expected that our WS Employers will mentor the Williams intern(s) during the course, meet with intern(s) on a regular basis to discuss projects/goals/challenges for the week, and support students' success. In January, students will reflect upon their experiences: Impressions about the organization and its workplace culture. Insights about the structure of their role, the organization and the industry. Professionally-What they have learned about themselves within a professional environment; may solidify an interest in a particular industry and build upon this experience when pursuing future opportunities or support the decision to change direction and explore a new industry. Academically-Future course selection, selection of major, and enhanced, grounded, contributions to class discussions. If you are an F1 Student, CPT is required for this course. Please submit your internship offer and information to the International Student Portal https://internationalportal.williams.edu/ Each student will intern for 5 days per week working on project(s) for 3 1/2-4 weeks. If you are an F1 Student, CPT is required for this course. Please submit your internship offer and information to the International Student Portal https://internationalportal.williams.edu/ In January, students will reflect upon their experiences: impressions about the organization and its workplace culture; insights about the structure of their role, the organization and the industry; and what they have learned about themselves within a professional environment. More information can be found here: https://careers.williams.edu/winter-study-internships/#spec-21-requirements

Requirements/Evaluation: Other: Students must write a short paper that will become a public record and used as a resource by future students or create a 3-5 minute video, and responding to three questions (one per week) posted to the SPEC 21 Winter Study Internship Discussion Group.

Prerequisites: Interested students must attend an information meeting in late September or early October and follow up with Dawn Dellea if they have questions about specific WS internships listed in the SPEC 21 syllabus or self-sourced WS internships.

Enrollment Limit: 250

Enrollment Preferences: 1st priority- Designated SPEC 21 internships posted on Handshake-WS Internship Employers select students based on their applications/possible interviews. 2nd priority-Separate application/evaluation process for students with self-sourced WS internships.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Since August 1996, I've worked at the '68 Center for Career Exploration in various roles. Currently I manager our Signature Internship Programs the Alumni Sponsored Internship Program (ASIP) and SPEC 21 Career Exploration: Winter Study Internships!

CCE 22 (W) Exploring Careers

Join '68 Center staff for an immersive career exploration course. The course will meet as a large group, and will have sessions each week in small sections for Creative Careers (Arts, Entertainment, Media, Communications), Business, Social Impact (Law Government, Environment Sustainability, Nonprofit Human Services, Education), and STEM/Tech/Healthcare, facilitated by peer advisors and career advisors. This intensive course is the perfect fit for students (especially first years and sophomores) who are just beginning to explore career options and want to commit the time and effort to develop career exploration skills that they’ll use throughout their lives. Students will begin by identifying and reflecting on their skills, interests, values, and motivations and applying this self-knowledge to their career exploration. Then, they’ll delve into to identifying and building their network of mentors, uncovering the hidden internship and job market. Assignments will include crafting compelling stories in resumes, cover letters and
interviews, and more. Highlights include How I Got My Internship panels, alumni panels on various aspects of their industries, practice interviews with alums, and a session on DEIA in the workplace. Students will travel together to New York City (for 3 days and 2 nights) to meet with alumni and employers. Last year's visits included: Google, the New York Times, the Met, Sotheby's NASDAQ, Philanthropy of NY, Green Project Technologies, Pfizer, WNYC, and Pryor Cashman LLP. The course will conclude with a celebratory reflective session back on campus at Williams. For this immersive course, the group will meet for 12-15 hours/week and will have some preparation to do between sessions. If the course fee is a concern, please talk to our office about ways we can accommodate you. If we you want to participate, we don't want to present financial barriers.

Requirements/Evaluation:  Other: Participation and a career-related document portfolio.

Prerequisites:  None.

Enrollment Limit:  40

Enrollment Preferences:  Students will complete a brief application process to articulate their interest in the course during the fall semester to aid in selection. Preference will be given to first years and sophomores who are eager to explore broadly.

Expected Class Size:  NA

Grading:  pass/fail only

Unit Notes:  Janine Oliver, Director of Career Education, is a high energy idealist. Her background as a special education teacher, mental health counselor, experiential/outdoor educator, and confused college student informs her work as a career educator.

Materials/Lab Fee:  $350

CCE 57  Approaching Ethical Dilemmas in Healthcare

Are you considering a career in healthcare or in bioethics? Are you curious about the ethical dilemmas that healthcare professionals encounter? This course will provide an introduction to core bioethics topics such as informed consent, surrogate decision-making, advance care planning, and controversial interventions at the end of life. Students also will learn a framework for thinking through ethical dilemmas in healthcare, and will apply it to practice cases. Each class will start with a lecture about a core topic. Students then will break into small groups to work through practice cases, or to discuss multiple perspectives on controversial topics. Classes will end with students reconvening in the big group to share their insights. Outside of class, students will learn about core topics from published articles, legal cases, podcasts, and other online materials. Some cases will require additional research done outside of class. Students will complete a final project of their choosing which could include a presentation on a bioethics topic not discussed in class, a case analysis, a presentation or review of a book with ethical overtones, or a presentation or review of a film with ethics themes. Please note that this class will focus predominantly on cases involving adult patients, not adolescent or pediatric patients.

Requirements/Evaluation:  Paper(s) or report(s); Presentation(s)

Prerequisites:  None

Enrollment Limit:  20

Enrollment Preferences:  Preference will be given to students considering a career in healthcare or bioethics. Seniors and juniors will be given preference over sophomores and freshmen.

Expected Class Size:  NA

Grading:

Unit Notes:  Lisa Vig is a Williams grad who has done ethics consults and run her hospital's Ethics Consult Service for >10 years. She is a practicing physician specialized in palliative care and geriatric medicine, and a faculty member at U. of Washington.

Community Learning in Action

CLIA, short for Community Learning in Action, are courses involving some form of community-engaged learning.

CLIA 24 (W) Class of 1959 TeachNYC Urban Education Program
The Williams Class of 1959 Teach New York Program is a fantastic Winter Study Course which gives students an opportunity to teach in challenging K-12 urban school settings. Each year between up to eight sophomores, juniors and seniors participate in this intense experience that takes them worlds away from the traditional college classroom setting. Students use the program as an opportunity to explore their interest in different areas education-teaching, policy, pedagogy, reform- while also having a three week adventure in one of the greatest cities in the world. In the end, students return from this experience with a greater appreciation for the complex world of urban education as well as the daily challenges that teachers and under-resourced students face on a daily basis. Students are matched with an elementary, middle or high school classroom and subject area of their interest. They spend weekdays working closely with a mentor teacher. Depending on their interest level, they will tutor individual students and groups, create lesson plans, lead discussions and even teach a subject if they desire. While in New York, the group convenes for weekly dinner meetings where they process their experience with teachers, principals and experts in urban education. These events are hosted by Program Director Tracy Finnegan.

Requirements/Evaluation: Paper(s) or report(s); Creative project(s)
Prerequisites: Students should show a genuine interest in education, whether it be policy, teaching, or reform. This is an intense winter study course. Students should be ready to show up at their respective schools M-F, on time & ready to work hard and have fun!
Enrollment Limit: 8
Enrollment Preferences: Interview and seniority
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Tracy directs the Class of 1959 TeachNYC Winter Study Program, developing New York City public school teaching & policy placement opportunities. Tracy mentors & guides the students during their school NYC internship.
Materials/Lab Fee: $500

Winter Study ---------------------------------------------------------------

CLIA 11 (W) Teaching 3rd Grade about Zebrafish - BioEYES
BioEYES brings tropical fish to 3rd-grade classrooms in Williamstown and Lanesborough Elementary schools, in a science teaching workshop. Elementary school students will breed fish at the school, then study their development and pigmentation for one week. Williams students will adapt BioEYES lesson plans to the science curriculum for the schools we visit, work with classroom teachers to introduce concepts in genetics and development, help the 3rd-grade students in the classroom, and assess elementary student learning. No zebrafish experience or science expertise is necessary. All training is provided. During the first week, Williams students will learn to set up fish matings and review BioEYES lesson plans on embryonic development and the genetics of fish pigmentation. In small groups, students will practice teach hands-on experiments using living animals. In the subsequent three weeks, students will present lessons at the schools and review assessment data. Time commitment: Week 1 - approx. 6 hours total for program training and lesson preparation with additional outside-of-class time needed to create teaching posters, dates, and times TBD Weeks 2 & 3 - approx. 3 hours per day, times TBD, dependent on elementary school schedules during the regular school day between 8:30 am and 3:00 pm. Week 4 - TBD: 3 hours per day if running a school program; minimal hours if not running an elementary school program

Requirements/Evaluation: Presentation(s)
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Preference to first years
Not offered current academic year

**CLIA 12 (W) "Be"ing Whole; integrating mindfulness through movement, art, nature, and creativity**

Want to focus this winter study on being more present and on your sense of well-being? In this year's "rendition" of the class on "Be"ing and learning how to maintain/reach homeostasis in the autonomic nervous system (balancing "fight or flight" and the "rest and digest" parts of our nervous system) we will explore the neuroscience behind why mindfulness practices can help restore the homeostasis of a stressed nervous system while practicing different types of mindful movement (yoga, hiking, walking, etc.), creative art and grounding mindfulness activities (making lavender pillows, slime, stress balls, "yoga" prose, and engaging in games, etc.), and meditative exercises (body scans, loving-kindness, etc.) Each class will start with an invigorating/challenging yoga flow (modifications are always welcome, taught, and encouraged) and will then continue to highlight a specific activity followed by a 5-10 minute journal prompt. The final project will be for students to take what they've learned about mindfulness exercises and practices as well as their own physical and psychological reactions to these practices and to customize a toolkit that includes soothing reminders, activities, prompts, and supplies. What to Expect: - Playful yoga practices; we will explore having fun with movement and breath while challenging ourselves with possible arm balances and even playing around with some inversions! - Calming meditative practices - loving-kindness, gratitude, body scans, visualization exercises - Creative mindfulness through art (observing art, creating mandalas, other tactile or sensory activities) - Mindful outdoor/nature exploration (adapted based on the weather - mud or snow - hopefully it's snow! - Creating a customized kit for self-soothing during - At least one visit (possibly more depending on class size) into local elementary schools to teach yoga and mindfulness; we will "practice" kids yoga games to fully embrace our inner childhood!

**Requirements/Evaluation:** Creative project(s)

**Prerequisites:** None

**Enrollment Limit:** 30

**Enrollment Preferences:** If overenrolled, preference will be given to first-year students or athletes/Junior Advisors who must be on campus during winter study. Students may be asked to write a brief paragraph on what they hope to get from being in the class.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Amy Sosne, class of '05, works at the CLiA as the North Adams Program Coordinator. She has an MD and M.Ed, multiple yoga certifications, and experience in working in wellness with individuals of all ages and from a variety of different backgrounds.

**Materials/Lab Fee:** $55

**Attributes:** EXPE Experiential Education Courses  WELL Winter Study Wellness

**Not offered current academic year**

**CLIA 13  Depictions and Portrayals of Minoritized Identities in Picture Books**

In this course, students will examine and reexamine everything they thought they knew about picture books. Often thought of as books for children, what can these seemingly simple books teach us about ourselves and our world? During the class, we will look at three sets of minoritized identities: racially minoritized identities, body diversity and disability, gender identities and sexual orientation, and the intersections of all of the above, as depicted in cutting-edge picture books of today. Books include: Big by Vashti Harrison Papá's Magical Water Jug Clock by Jesús Trejo and Eliza Kinkz Watercress by Andrea Wang The Artivist by Nicholas Smith Homeland by Hannah Moushabeck We are Water Protectors by Carole Lindstrom and more! Beyond simply reading these books, students will explore how to use picture books to open and guide difficult conversations with children, mitigate the harm caused by books presented without understanding and context, and learn how to create and monitor a diverse, rich picture book library. Students will have the opportunity to visit a local children's bookstore, tour the picture book collections of local libraries, and participate in a panel discussion with picture book authors, picture book Instagrammers, and illustrators. By the end of the course, students will have a foundational understanding of the modern picture book landscape. They will be able to find, evaluate, and select books for a diverse picture book library and monitor that library for any gaps in representation they might need to fill. This class would be perfect for aspiring teachers, librarians, or anyone with a love of and interest in books. Students will leave this class with the start of a picture book library!

**Requirements/Evaluation:** Presentation(s); Creative project(s)
**Prerequisites:** None

**Enrollment Limit:** 30

**Enrollment Preferences:** If over-enrolled, preference will be given to students hoping to enter the education or library science fields after graduation. Students may be asked to write a brief paragraph on what they hope to get from the class.

**Expected Class Size:** NA

**Grading:**

**Unit Notes:** Ash Bell works at CLiA as the Assistant Director for Community Inclusion. They also are the founder and director of The Rainbow Toolbox, an educational consulting company that supports implementing inclusive practices in education.

**Materials/Lab Fee:** $230

**Attributes:** EXPE Experiential Education Courses  STUX Winter Study Student Exploration

---

**CLIA 14  (W)  Food Justice and the Righteous Entrepreneur**

DC Central Kitchen, an iconic, food-based social enterprise that was founded in 1989 to turn the notion of charity on its head, has been at the forefront of food access, food justice, economic opportunity and racial equity for over three decades. The Kitchen's CEO, Mike Curtin ’86, will lead the class on an exploration of these issues through the lens of DC Central Kitchen's growth and evolution. The class also work through the Kitchen's experiences during the pandemic and the simultaneous racial reckoning that highlighted the fragility of our food system, the thin line between food security and insecurity for so many, and the structural and systemic inequalities that create these realities. In addition to using as text Food Fighters, A History of DC Central Kitchen, by Alex Moore, the Kitchen's Chief Development Officer, the class will explore DC Central Kitchen's Eight Rules for Righteous Entrepreneurs, principles that have defined the organization’s impact. The class will also discuss the basics of nonprofit management and the roles that social enterprise and innovation can have in disrupting a more traditional nonprofit structure. Guest speakers who are also engaged in the fight against hunger and for systemic changes to our food system and access to economic opportunity and liberation will join the class to share their work and challenge students to look at food justice from environmental, legal, political, racial and economic perspectives. Past guests have included chef and humanitarian, Jose Andres; Pulitzer Prize winning author, Marcia Chatalain; former US Deputy Secretary of Agriculture, Kathleen Merrigan ’80; Congressman Jim McGovern; food and fracial justice activist, Chris Bradshaw; Chef activists including Tom Colicchio, Michel Nishan and Andrew Zimmerman, and several DC Central Kitchen alumni and staff.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s); Other: Class participation

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** If the course is over enrolled, preference will be given to students closest to graduation.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Mike has led DC Central Kitchen through the Great Recession, the COVID-19 pandemic, and significant periods of organizational growth and expansion. In 2023, the Kitchen opened the country’s most innovative and ambitious urban food hub.

**Materials/Lab Fee:** $35

**Attributes:** STUX Winter Study Student Exploration

---

**CLIA 21  (W)  INTRODUCTION TO ENGAGED SCHOLARSHIP**

This course enables students to learn the theory and practice of community-engaged scholarship while engaging in a small partnership project with a community organization or initiative. Engaged scholarship is understood as mutually beneficial learning partnerships between higher education institutions and community entities addressing pressing social and civic issues. Through brief readings, class discussions, and meetings with community partners, students will learn the history and context of engaged scholarship, explore the ethical, political, and cultural issues associated with this work, and improve their understanding of the Berkshires and town/gown relations. Through their project work supported by the Center for Learning in Action, students will learn how to navigate the simultaneous challenges of engaging as learners, collaborators, knowledge co-creators, and social change agents.

**Requirements/Evaluation:** Creative project(s)

**Prerequisites:** None
Enrollment Limit: 8

Enrollment Preferences: Students will be invited to submit a statement of interest

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Paula Consolini serves as the Adam Falk Director of the Center for Learning in Action, where she leads a team supporting community-engaged work. She earned her doctorate in Political Science from the University of California, Berkeley.

Attributes: EXPE Experiential Education Courses STUX Winter Study Student Exploration WELL Winter Study Wellness

WINTER STUDY

Winter Study, which began in January of 1968, is intended to provide students and faculty with a dramatically different educational experience. The differences are in the nature of the courses, the nature of the learning experience, and the change of educational pace and format from fall and spring semesters. These differences apply to the faculty and students in several ways: faculty can try out courses with new subjects and techniques that might, if successful, be used later in the regular terms; they can explore subjects not amenable to inclusion in regular courses; and they can investigate fields outside their usual areas of expertise. In their academic work (which is graded Pass, Perfunctory Pass, or Fail) students can explore new fields at low risk, concentrate on one subject that requires a great deal of time, develop individual research projects, or work in a different milieu (as interns, for example, or on trips outside Williamstown). In addition, Winter Study offers students an opportunity for more independence and initiative in a less formal setting, more opportunity to participate in cultural events, and an occasion to get to know one another better. More information can be found on the Winter Study website.

Registration

All students who will be on campus during the academic year must register for a Winter Study course. Registration will take place in early November. If you are registered for a senior thesis in the fall which must be continued through Winter Study by departmental rules, you will be registered for your WSP automatically. In every other case, you must complete registration. First-year students are required to participate in a WSP that will take place on campus; they are not allowed to do 99's.

If you think your time may be restricted in any way (ski meets, interviews, etc.), clear these restrictions with the instructor before signing up for their project. Remember, for cross-listed projects, you should sign up for the subject you want to appear on your record. For many beginning language courses, you are required to take the Winter Study Sustaining Program in addition to your regular course. You will be automatically enrolled in this Sustaining Program once the Winter Study registration process is complete. Winter Study courses are graded Pass/Perfunctory Pass/Fail. A grade of pass means the student has performed satisfactorily. A grade of perfunctory pass signifies that a student's work has been significantly lacking but is just adequate to deserve a pass. Students who fail their Winter Study Projects or receive a second Perfunctory Pass will be placed on academic probation by the Committee on Academic Standing and will be required to make up the deficiency. Students who fail through gross neglect of work will normally be required to resign.

99s

Sophomores, juniors, and seniors are eligible to propose “99s,” independent projects arranged with faculty sponsors, conducted in lieu of regular Winter Study courses. Perhaps you have encountered an interesting idea in one of your courses which you would like to study in more depth, or you may have an interest not covered in the regular curriculum. In recent years students have undertaken in-depth studies of particular literary works, interned in government offices, assisted in international and domestic medical clinics, conducted field work in economics in developing countries, and given performances illustrating the history of American dance. Although some 99's involve travel away from campus, there are many opportunities to pursue intellectual or artistic goals here in Williamstown.

WSP

WSP courses cover topics that are outside the academic department areas of study OR are being sponsored by the Winter Study Committee.

ENGL 102 (W) Representing US Childhoods

Childhood as it is understood today in the US is a relatively recent invention. In this course we will read works of literature, history, and cultural studies, as well as consider such mediums as art, films, podcasts and music, and analyze material culture (objects such as toys and clothing) associated with childhood and children in the U.S. Along the way, we will consider questions such as how childhood has emerged as a distinct stage of life; how definitions of childhood vary (or not) across differences such as race, gender, class; what places and spaces define childhood; how writers and artists contribute to constructing particular visions of childhood and what the resonances of these representations are; and what it means to “grow up.” An emphasis will be placed on learning to analyze closely a variety of texts and objects.

Requirements/Evaluation: There will be at least three short (2-5 page) writing assignments; a revision of at least one of those papers; and a short final reflection essay. As an intensive winter study, this class will require approximately 12-15 hours of in-person class time a week, as well as time outside out of class on reading and writing assignments.

Prerequisites: permission of a dean

Enrollment Limit: 19

Enrollment Preferences: students who need to make up a deficiency

Expected Class Size: 19
ENVI 18 (W) Environmental Advocacy Skills in a Climate Changed World: A Berkshires Wind Project Case Study

In this course, students will experience what it is like to advocate for or against a proposed clean energy project—a wind project—in the Berkshires and confront the range of critical trade-offs involved in addressing climate change. After being provided with some basics of wind power technology and impacts, through a combination of research and advocacy exercises students will alternate between advocating for the project and against it, thereby gaining insights into competing sides of controversy while also learning a range of environmental policy and legal issues as they proceed. Students will draft and orally present to their classmates a newspaper-style op-ed; will interview (using Zoom) someone working in the field of clean energy and then present to the class a summary of what was learned; will conduct in class a short examination of a witness on scenic or wildlife impact issues; and in the last class, present a closing argument that can use any combination of video, posters, slides, or other media. To gain insight into competing perspectives, each student alternates representing one side or the other exercise-by-exercise. Readings and videos will be from live links in the course syllabus, and some handouts provided by the Instructor by email or in-person. The readings will provide a concise overview of wind power technology and impacts; the legal process for review and either approval or denial of a wind project; and advocacy strategies for both written and oral efforts. There may be a field trip to a nearby (25 miles away) operating windfarm, weather and owner permitting.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s)

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Preference to Environmental Studies majors and concentrators; after that, by lottery

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Jeff Thaler, a nationally recognized clean energy and environmental lawyer, also teaches at the undergraduate, graduate and law school levels. He has handled a wide range of clean energy projects, including on-and-offshore wind power.

ENVI 24 (W) Farming New England: A Deep Dive Into the Regional Food System

Farmers feed us all. In this intensive experiential course, students will learn how. New England produces about 10 percent of its own food: 90 percent of the food is imported from outside the region. Farming in the region has been in decline for decades and farms face a range of challenges, from climate change induced flood & drought, to financial woes and debt, social isolation, and physical maladies. With more support, regenerative farming techniques and a new generation of trained farmers, New England's farms can succeed and continue to contribute to the regional food system. This can only happen with supportive policies that promote family farms and local agriculture, and of course, a new generation of farmers. This class examines the complexities of the regional food system from multiple perspectives: farmers, farming, agronomy, climate change, food insecurity, food systems planning, agricultural policy, agricultural economics and markets, culture, race and class, and land use planning. Five overarching questions shape the class: What are the challenges and opportunities to farming in New England? How can New England's agriculture succeed and expand? How is regenerative farming part of the solution? What will it take for the region to produce more of its own food and address regional food insecurity? How can farming be more socially just and racially equitable? Students will learn through immersion in the agricultural world for the month. Class meets three days a week: two days a week of farmwork on a variety of farms (livestock farms, dairy farms (cow and goat), cheesemaking operations, diversified farms, vegetable & greenhouse, and the Food Bank), and one day a week meeting with experts: agronomists, ag extension workers, farmland planners, and agricultural/food system policymakers. Students will learn through hands-on work (yes, you will get dirty!), conversation with farmers and others in the agricultural field, class reading, group discussion, reflection, and writing. The class will spend a Saturday at the NOFA Conference (Northeast Organic Farmers Association), Students are encouraged to reflect on their daily class experiences and will keep a journal after each class meeting. The class will include two overnight trips (1 and 2 nights) in the New England region.
Class Format: Experiential, primarily field-based class.

Requirements/Evaluation: Class participation: farmwork, class discussion, conversations with farmers and others involved in the class; journal.

Prerequisites: None

Enrollment Limit: 6

Enrollment Preferences: Environmental Studies majors and concentrators; students with a demonstrated interest in agriculture and/or outdoor work & experience.

Expected Class Size: 6

GBST 10 (W) Soccer and Revolution

Soccer is a serious game! It can trigger revolutionary dynamics and support struggles for emancipation. Take for example soccer in Brazil where legends, such as Socrates and Walter Casagrande became the symbol of Brazilian resistance to the dictatorship. Another striking example is the Argentino Juniors team that was formed by young Italian immigrants from a working-class background, imbued with socialist and anarchist ideas. Soccer can express class conflict too. On the other side of the Atlantic, Manchester United, which has the most successful record in English soccer, was created by a railway company union. The recent Netflix series "The English Game," which puts under scrutiny the soccer's class dynamics in the late 19th century, is another example. Soccer may look different today, but class conflict remains a key players, not only in England. Likewise, soccer can express gender or religious affiliation. Drawing upon these aspects of soccer, this course aims to examine how this popular game is a soundboard for many different social, political, cultural, racial or gender identities throughout the world. Some questions that we will address include: why soccer stadiums are the primary place where Moroccans protest the country's social, economic and political situation? Why when the Raja Casablanca (Morocco's largest city) plays, the Moroccan anthem is frequently drowned out by the crowd singing the Raja's anthem with the chorus: "Fi blady dhalmouni" -- "In my country, they have oppressed me"? What can we learn from the case of Ahmed Ben Bella, a former player of Olympique de Marseille who became the first president of Algeria after playing a major role in a fierce and bloody decolonial war against France? To this end, we will read a selection of theoretical and critical texts and watch soccer games, documentaries, and read sport reports and interviews with players and coaches to gain a deeper understanding of the historical paths of some soccer icons who proved to be Rebels and are largely regarded as such: Lucarelli (Italy), Navazo (Spain), Drogba (Ivory Coast), Caszely (Chili), Mekhloufi (Algeria), Pasic (Bosnia and Herzegovina), Socrates (Brazil), Claudio (Argentina), Thaljieh (Palestine), etc.
Requirements/Evaluation: active participation, in-class presentations, creating or updating wikipedia pages about soccer players (a tutorial about wikipedia will be arranged in collaboration with the library).

GBST 44 (W) Global Challenges, Global Research

As part of the Global Scholars Program, this travel course is only to those students admitted to the Global Scholars Program. Each January, students who successfully completed GBST 151 in the Fall will travel with their instructor(s) to a major city around the world. After a short introduction to some of relevant international and political institutions, students will explore specific global questions working with local researchers and centers, based on their academic interests and goals. They will engage with this research to think new concepts and generate innovative questions as they enter and examine the complexities of the always evolving and interconnected world. They will be encouraged to tackle urgent issues and rethink conventional paradigms and thus develop multi-faceted awareness through the task of analyzing and appreciating diverse perspectives and experiences.

Class Format: Travel Course. Open only to Global Scholars Fellows.

Requirements/Evaluation: A weekly journal and a final 10 page report.

Prerequisites: Admittance to Global Scholars Program and completion of GBST 151.

Enrollment Limit: 12

Enrollment Preferences: Global Scholars Fellows

Expected Class Size: 12

GEOS 14 (W) Drawing Science Studio Lab

Drawing Science Studio Lab explores the expansive intersection of art and science. Students will learn how to draw from direct observation of fossils, bones, plants, and taxidermy. This course is flexibly designed for every experience level. At least 75% of our class time is spent observing and drawing. Sketchbooks act as research sites. Graphite, colored pencils, and watercolors are our primary mediums. Most drawing will be done in-class with some additional at-home drawing assignments. The remaining class time is spent on research-driven field trips to WCMA, The Clark, and investigative walking assignments. We will have one visiting guest artist to add in our understanding of observation and depiction of the natural world. This course will explore: - how can observation, drawing, and related art games make us better visual thinkers and learners? - how do we see our environments? - how to color and pattern shape our perspectives (and then how do we draw that)? - how and where do scientific processes overlap with creative processes? - how does observation assist in field and lab work? - where does data-driven research benefit from play and imagination?

Requirements/Evaluation: Performance(s); Creative project(s); Other: Willingness to fail, willingness to take risks, dedication to sketchbooks
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Preference will be given to students who are curious about STEAM related fields and research and/or students of any level who wish to develop their drawing habits.
Expected Class Size: NA
Grading: pass/fail only

GEOS 15 (W) Exercises in Nature Writing

Nature writing as a genre has a pedigree tracing back to the Greek philosopher Aristotle (384 -322 BCE). Based on direct observations of lagoon life on Lesbos, he described squid behavior as "using ink for the purpose of concealment." Nature writing is vital to our survival as a species. Eight billion humans crowd Planet Earth, some 75% dwelling in cities with limited exposure to nature. Our social media (Face Book, Twitter, Instagram) isolates us further from nature as we obsess about inter-personal relationships. Using examples drawn from the literature, this course covers a range in styles from the diary format following nature in one place through a calendar year (Gilbert White, The Natural History of Selborne, 1789) to descriptions of a single ecosystem (Joseph Wood Krutch, The Voice of the Desert, 1954) to the longitudinal treatment of multiple environments like the eastern seaboard of the United States (Rachel Carson, The Edge of the Sea, 1955). Yet more expanded in scale are explorations in space and geologic time (Loren Eiseley, The Immense Journey, 1957) and over-arching themes such as extinction (David Quammen, The Song of the Dodo, 1996). Most urgent of all are considerations of global warming (Elizabeth Kolbert, Under a White Sky: The Nature of the Future, 2021). Selected passages from these and other authors will be read aloud and discussed in class. Students may propose readings from their favorite author(s) and will choose a particular style to express their own writing at the close of the course.

Requirements/Evaluation: Presentation(s); Creative project(s)
Prerequisites: None

GERM 12 (W) Writing the Dreamwork
What kinds of knowledge, if any, can we find in our dreams? In The Interpretation of Dreams (Die Traumdeutung), Freud writes that "there lies in dreams a marvelous poetry." In fact, one of the primary forms of the dreamwork, condensation Verdichtung, is related to the German word for poetry,
"Dichtung." For Freud, the work of the mind is akin to the work of poetry and, thus, the work of psychoanalysis is akin to the practice of reading. But when Freud writes his dreams down, in order to transmit a theory of dreams to his readers, he admits to concealing various points of knowledge: "when I interpret my dreams for readers I am obliged to adopt [similar] distortions." The act of translating and transforming our dreams into writing is not always so clear cut. How do poets and creative writers navigate this predicament? In this course, we will examine the relationship between "dreamwork" and the act of writing. This course will also survey theories of dreams, including Aristotle, Descartes, Freud, Lacan, Fanon, Sacks and others. We will also read selections from The Odyssey, A Midsummer Night's Dream, Alice's Adventures in Wonderland, The Passion According to G.H., and Robot Dreams." Finally, we will carefully record our own dreams each night and closely read writers' dream journals in class, for example by Kafka, Tawada, Nabokov, Woolf, Plath, Sontag, Bellow, Wilde, and others. Class meetings will consist of free writing, discussions, and student presentations. We will also have a visit from a practicing psychoanalyst (TBD). Outside of the classroom, students will create their own dream journals, read the assigned readings found in the course book, write two short reflections and one longer essay, and study the dream journal of a writer of their choice. In this way students will deepen their understanding of the philosophy and psychoanalysis of dreams, while improving their interpretive abilities and sharpening their creative and analytical writing.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Creative project(s)

**HIST 14 (W) Game of Thrones ca. 850 BCE: Empire, Religion, and Palace Intrigue in the Neo-Assyrian Reliefs at WC**

A pair of stone reliefs, now housed at WCMA, once decorated the most imposing palace in the ancient world- Ashurnasirpal II's palace at ancient Kalhu (modern Nimrud, Iraq) the heart of the world's first empire. One modern scholar remarked on Ashurnasirpal's "calculated frightfulness," yet religion, scholarship, fashion, epic poetry, love, and court intrigue also surrounded the reliefs in their original setting. This multidisciplinary course explores the reliefs, their iconography, and the so-called "Standard Inscription" that accompanies them, in their ancient, 19th-century, and modern contexts. From WCMA's collection we examine inscribed bricks from Ashurnasirpal's son Shalmaneser III, economic texts from the 3rd millennium BCE, and clay "cones" from Gudea of Lagash-the first king to claim expertise as an architect! We explore the era of the reliefs' (re)discovery amidst competing drives to collect, discard, or destroy them: Williams alum D. W. Marsh (class of 1842), who donated the reliefs; Marsh's life on campus, including the Williams missionary movement; Marsh's years in Mosul, and friendship with the British archaeologist A.H. Layard, who excavated the palace. The course emphasizes first-hand experience: dramatic readings of the Epic of Gilgamesh (for literary and cultural clues); Ashurnasirpal's "Banquet Stele" (for a description of the ancient world's most lavish party); learning to write cuneiform; a Mesopotamian feast. The course closes with an overnight field trip for a private tour of Yale's Babylonian Collection, the Yale University Art Gallery-and New Haven pizza. An optional, 3-part "Flash Akkadian" course, open to the community, teaches students to decipher, render into Akkadian, and translate a Shalmaneser III brick at WCMA. Meets afternoons 2x/week

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s); Students may write a 10-page paper or its equivalent at the end of the course AND/OR produce creative or intellectual work during the course that counts toward the final project. Possibilities include completion of "Flash Akkadian," presentations on assigned articles, or a journal chronicling the class experience and the questions it raises. Past projects have included embroidery, drawings, board games, and musical compositions.

**Prerequisites:** Curiosity.

**Enrollment Limit:** 12

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Alison Acker Gruseke is a Williams graduate (1982), former book editor, and now holds a PhD from Yale's department of Religious Studies. She specializes in the study of the Hebrew Bible (Old Testament), including its ancient religious, political, literary, cultural, historical, and geographical contexts. She has taught and lectured in both undergraduate and graduate settings, including at Williams.

Winter 2024
HIST 16 (W) Medieval Paleography: Learning to Read Medieval Manuscripts

Paleography is the art and science of reading ancient handwriting. For centuries, the transmission of texts in Europe and elsewhere depended, in large part, on the careful work of scribes, copyists, and commentators, working on papyrus, parchment, and paper, and writing out texts by hand. In this class, we will examine the related sciences of paleography and codicology over the period from Antiquity to c. 1500 CE. Students will have the chance to closely examine the manuscripts and other hand-written documents preserved in Williams' Special Collections, and can take a stab at reproducing the calligraphy they find there.

Class Format: Class will include a visit to Special Collections.

Requirements/Evaluation: A short paper, OR a creative calligraphy project

Prerequisites: Prior experience with Latin, Greek, or another foreign language helpful but not required.

Enrollment Limit: 15

Enrollment Preferences: Priority will be given to history majors.

Expected Class Size: 10

Grading: pass/fail only

Winter 2024

HIST 17 (W) Printed Texts and Images in the Early Modern Period

Imagine yourself back in a time without the computer technology that enables you to create, print out or distribute instantaneously innumerable illustrated texts with the click of a few buttons. In this multifaceted course, we will explore the world of printed books and images in the early modern period. Your eyes will be trained to recognize and appreciate the primary techniques in which printed images were made at this time. While becoming acquainted with the ways in which texts were printed by hand, you will learn how to examine rare books and evaluate how they were put together. Finally, you will be taught to think like a savvy publisher, endeavoring to earn a living by profiting from the rapidly expanding, international market for a diverse range of illustrated texts. In order to achieve these goals and fully appreciate what entrepreneurial artists, printers, and publishers accomplished centuries ago, lectures and assigned readings will be complemented by visits to local print collections and the regular, hands-on consultation of illustrated rare books in the Chapin Library. Given the underlying premise that one learns by doing, we will usually meet four times a week, primarily in the Chapin library. For your final project, you will be expected to select an illustrated book from the Chapin collection and prepare a presentation on it for the class in which you highlight the topics addressed during the lectures. Evaluation will be based upon this presentation, in addition to class participation. I look forward to delving into the fascinating world of hand-crafted books and prints with you.

Requirements/Evaluation: Presentation(s)

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Randomly

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Karen Bowen is an art historian, specialized in the study of prints, printmaking, and book illustration in the early modern period. She is currently preparing a book on the European print trade in the 16th and 17th centuries.

HIST 23 (W) Maps: Past, Present & Future

This course will examine how antique maps provide a frame for understanding history, art and science, as well as lessons for modern-day
map-making. We will start by studying antique maps and mapmakers from various cultures over the past five hundred years. Students will learn about the multitude of online resources available for studying maps, and, in their first project, will select and evaluate an antique map, focusing on its cartographic, historic, artistic and design-related aspects. We will then explore modern-day map-making, including the tools, companies and people currently making them. The class will have several guest speakers about both historic and modern-day maps. In the second project, students will select and evaluate a modern-day map about a topic of their choosing, such as politics (e.g. gerrymandering, racial covenants, redlining), climate change, site selection, sports or recreation.

Requirements/Evaluation: Other: Discussion and two projects
Prerequisites: None
Enrollment Limit: 25
Enrollment Preferences: Mix of students with an interest in history, art and science.
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Tom Paper is a Williams grad (1984), Stanford MBA, Managing Partner of Webster Pacific, a strategic analytics consultancy; he is also VP of the California Map Society and Founder of Pixeum, a website of beautiful and intricate images, including maps.

HIST 30 (W) Workshop in Independent Research
This course is designed for junior majors and sophomores who are considering pursuing a senior thesis in History. It can either provide students greater experience in independent research or allow for an in-depth exploration of a specific topic under consideration for the thesis. The course will focus on key methods of historical research, such as defining a topic, familiarizing oneself with historiography, and finding and using primary sources. Students may pursue any topic, and assignments may be modified to fit students' particular needs and interests. The majority of class time will consist of individual meetings with the professor as well as consultations with librarians and other experts in your field. Students are expected to devote considerable time outside of class to independent research. The final assignment will be a 10-page paper, which can either be a detailed prospectus for a senior thesis or a research paper.

Class Format: Independent research.
Requirements/Evaluation: 10-page paper; weekly short assignments.
Prerequisites: None.
Enrollment Limit: 10
Enrollment Preferences: Instructor will send students questions over email about their research plans; students with evidence of more formulated plans will receive preference.
Expected Class Size: 5
Grading: pass/fail only
Not offered current academic year
IND Section: 01    TBA     Alexander  Bevilacqua

HIST 31 (W) Senior Thesis: History
To be taken by all senior honors students who are registered for HIST 493 (Fall) and HIST 494 (Spring), HIST 31 allows thesis writers to complete their research and prepare a draft chapter, due at the end of Winter Study.

Class Format: thesis
Requirements/Evaluation: thesis chapter
Prerequisites: HIST 493
Enrollment Limit: 20
Enrollment Preferences: only students writing a thesis in History can enroll for this course
Grading: pass/fail only
HIST 40 (W) The Fourteenth Amendment and the Meanings of Equality

For more than 150 years, the 14th Amendment of the U.S. Constitution has served as the principal touchstone for legal debates over the meaning of equality and freedom in the United States. This course explores the origins of the 14th Amendment in the years immediately following the Civil War, and examines the evolution of that amendment's meaning in the century that followed. Central themes in this course include the contested interpretations of "birthright citizenship," "due process," "privileges and immunities," "equal protection," and "life, liberty or property"; the rise, fall, and rebirth of substantive due process; battles over incorporating the Bill of Rights into the 14th Amendment; and the changing promise and experience of citizenship. We will pay particular attention to how arguments about the 14th Amendment have shaped and been shaped by the changing meanings of racial and gender equality.

Requirements/Evaluation: There will be three short (4-5 page) research-based writing assignments; a revision of one of those papers; and a short final reflection essay. As an intensive winter study, this class will require approximately 12-15 hours of in-person class time a week, as well as time outside out of class on reading and writing assignments.

Prerequisites: no prerequisites

Enrollment Limit: 19

Enrollment Preferences: This course is for students who have incurred deficiencies in a previous semester

Expected Class Size: 15-19

Grading: pass/fail only

Unit Notes: This course is designed to count for both full semester and Winter Study credit. Once a dean approves enrollment, the Registrar's Office will register students in HIST 100 and HIST 40.

**JLST 10 (W) Policing the Police**

Recent high-profile killings of civilians by the police, including George Floyd, Breonna Taylor, and Tyree Nichols, have led to increased public scrutiny of law enforcement. Police departments are also facing unprecedented challenges in hiring and keeping officers. In this course, we will analyze current doctrines addressing police misconduct and potential avenues for future reform by using films, articles, podcasts, and case law. We will examine customary responses to police misconduct, including internal affairs investigations and criminal prosecution of individual officers, as well as present appeals for structural reform. Topics will include bias in policing and the intersection of law enforcement and mental health. Class will meet twice per
Requirements/Evaluation: Paper(s) or report(s)

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Preference to students concentrating in Justice and Law Studies

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Samantha Soto is a civil rights and employment attorney whose practice includes advising police departments on officer discipline and conducting investigations into discrimination claims. She is a graduate of Williams College and Columbia Law School.

LATS 27 (W) Special Projects in Latina/o/x/e Studies

This course will introduce some key readings of the field of Latinx Studies, with a focus on interdisciplinary perspectives and various methodological approaches. The class will be situated in 1960s and 1970s social movement organizing. Students will reflect on critical dialogues and debates through in-class discussions of selected readings. Students should expect to bring or develop a project in Latinx Studies. This can look like an annotated
bibliography, a thesis proposal, a video, a poem with reflection, a thesis chapter draft, etc., or a 10-page final paper or other equivalent product. There will be two rounds of sharing. Students will present their final project idea during the first half of the course. Students will also present their works in progress of their project in Latinx Studies near the end of the course.

Class Format: We will meet twice a week for three hours each.

Requirements/Evaluation: Students will come to class prepared to engage in discussion. Students will be evaluated through their participation, weekly activities, two presentations, and a final product of 10 pages or equivalent.

Prerequisites: One class in Latina/o Studies or a related class. Please email the instructor if you have any questions.

Enrollment Limit: 20

Enrollment Preferences: LATS concentrators or those intending to become concentrators.

Expected Class Size: 12

Grading: pass/fail only

Attributes: LATS Core Electives

LEAD 12 (W) Principles and Practice of Effective Leadership

This course will examine issues related to effective leadership in a variety of contexts, primarily through the experience of guest lecturers. We will begin by identifying key principles of leadership with reference to several great leaders in history, moving on to consider contemporary topics such as personal responsibility, self-awareness development and service orientation. We will investigate the essential role that good communications skills play in exercising leadership. The majority of class sessions will feature distinguished guest speakers, several of whom are Williams alumni, who have held leadership roles in government, business, non-profit organizations, and healthcare. Probing our guests' approaches to organizational leadership is the primary goal of this Winter Study. After each lecture, we will spend time in the next class sharing impressions, surprises and lessons learned. At the end of the course students will be required to present for 10-15 minutes. They will be expected to integrate lessons learned from others into their own nascent story of leadership in their own lives. In that sense this course will operate on three levels -- the intellectual, the personal and the practical. Fundamental to this exploration will be a simple, action-oriented question: now that you know more, how can you do more?

Requirements/Evaluation: Presentation(s)
LEAD 13 (W) American Tunes: Songwriting in the 1970s
This course surveys American popular songwriting in the years 1971-1980. In addition to the songs themselves, we will examine their musical/lyrical reference points, the social and cultural contexts within which they were written and performed, and their reception and subsequent histories. Artists of primary interest include Bob Dylan, Joni Mitchell, and Stevie Wonder, but we will also make forays into genres such as funk, soul, R-and-B, singer-songwriter, country, punk, new wave, post-punk, disco, and various subgenres of pop and rock. This course assumes basic knowledge of music theory and a somewhat more detailed knowledge of the history of American music in the 20th century.

Requirements/Evaluation: Regular reading and listening; 10-minute in-class presentation each class meeting; one 3,000-word essay written in the style of liner notes for an album re-release

LEAD 15 (W) Leadership and The Good Life: Your First Decade After Williams
There is nothing quite like life in the Purple Valley, but many adventures await after Williams. Pondering what The Good Life might look like for you after graduation? Intrigued by exploring different paths and leadership styles across law, nonprofit, government, and business? Interested in developing and honing leadership, collaboration, prioritization, and strategic decision making skills that can benefit both your personal and professional life? Wondering how themes like curiosity, happiness, and creativity connect to designing a life as well as to leadership? We will have engaging conversations addressing these topics and many more. We will also be joined by guest speakers who have led interesting lives and become leaders in their fields since graduating from college. You will write five one-page papers over the course of winter study exploring ideas and topics discussed in class and in our readings. You will also write a short final paper. Outside of class, we will read a range of articles and insightful pieces as well as watch film clips and listen to podcasts that will inform our class discussions and help build valuable leadership skills for navigating life after Williams.

Requirements/Evaluation: Paper(s) or report(s)

Unit Notes: Lauren Anstey graduated cum laude from Williams College and Harvard Law School. She is the Vice President of Public Service Leadership at the Partnership for Public Service. She was previously a VP at Goldman Sachs and an attorney at Skadden Arps
LEAD 16 (W) Effective Oral Persuasion

Clear and persuasive public speaking, whether before a small group or a much larger audience, is essential to implement effective leadership and career development. This course is designed to enhance a student's ability to develop a position on an issue and to advance and defend that position orally. During each class, students will make presentations ranging from 2-15 minutes and receive immediate feedback from the Instructors as well as class members. The class uses various exercises such as Tell us Something, Teach us Something, Sell us Something, or Convince us of Something to learn and practice making oral presentations. The Course includes a segment of resume review and practice interviews for professional programs, internships, or full-time jobs. Outside professionals will be invited to conduct some of the practice interviews. The capstone event has each student select an issue of their choice and to advance and defend that position orally. Students are required to provide resource materials that they used to formulate their position prior to their final presentation. The course will normally meet for three sessions per week (M, T and Th) from 1:00 until 3:45 pm. Instructors: David Olson '71 and Stephen Brown '71 are experienced trial lawyers handling many types of civil cases in state and federal courts before judges and juries. Robert Schwed '71 is a corporate lawyer who specialized in private equity placements, venture capital transactions, and business between investor groups drawn from domestic and international clients. The Instructors have offered this Course jointly for 3 consecutive years. While no paper is required, Students will prepare and make one or more oral presentations during each session of the course ranging from 2-15 minutes each. The students will also listen to and critique each other's presentations throughout the course. Frequent and thoughtful class participation is expected from each student.

Requirements/Evaluation: Presentation(s); Other: students are expected to speak every class anywhere from 2-15 minutes depending on the exercise

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: All welcomed but if over subscribed preference for Seniors

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: David Olson, ’71 is an experienced Trial Attorney who practiced in Cincinnati for 40+ years in state and federal courts and before administrative agencies. He has co-taught Winter Study courses since 2010.

LEAD 17 (W) Mindful Leadership: what do we need now?

Do you have what should be a fulfilling life and yet you're not satisfied? If so, this is an opportunity to ask: "why do I do what I do," "what do I really want," and "what must I believe to live and lead differently?" This is the course that I wish I had taken while I was at Williams. In it, you will be invited to deepen into a more embodied way of knowing yourself, leading teams, and working in the professional world. You will harness your breath to further cultivate a grounded, impactful presence. You will transmute challenging emotions and stories into skillful communication and boundaries. You will practice integrity. You will give and receive compassion. You will become more aware of individual and team flow triggers. You will venture off-campus to explore the Clark and MASS MoCA-noticing how your intuition merges with others to guide collective movement and inquiry. Together, we will co-create a powerful, safe container in which to surrender, play, and create. You will develop deep, trust-based relationships. You will tune your nervous system. You will also be challenged-so as to become more skillful in navigating intensity. You will facilitate an experience for the class, then for a group or team. Then, you will co-lead a session for the Williams community. We will continue to ask: "what does our group need now" and adapt accordingly. If you're into expanding your capacity to show up for life-and leading others-this is an opportunity to practice.

Requirements/Evaluation: Other: Regular engagement and reflection in class and with pod group; co-facilitate 30-min experience (aligned with the themes of this course) for the class, facilitate 10-min offering for a team/group; contribute to the design and facilitation of a mindful leadership event for the Williams community.

Prerequisites: None

Enrollment Limit: 18
LEAD 18 (W) Wilderness Emergency Care

This Winter Study course is for students who would like to participate in a 9 day, 72 hour comprehensive hands on in-depth look at the standards and skills of dealing with wilderness based medical emergencies. Topics that will be covered include, Response and Assessment, Musculoskeletal Injuries, Soft Tissue Injuries, Environmental Injuries, and Survival Skills. Additional topics, such as CPR, are also included. Students will be required to successfully complete the written and practical exams, and not miss any of the 9 classes to receive credit and WFR/CPR certification. The course runs 9 consecutive days straight from 9AM--5PM. The instructor will be provided by SOLO (Stonehearth Open Learning Opportunities).

Requirements/Evaluation: written and practical exam

Prerequisites: none

Enrollment Limit: 22

LEAD 22 (W) Ski Patrol - Outdoor Emergency Response

The course will teach and develop the technical proficiency and leadership skills required to effectively and efficiently administer emergency medical care in outdoor environments. Successful completion of written and practical exams, along with demonstrating ski/snowboard proficiency, can lead to certification as a member of the National Ski Patrol. The course is based upon implementing National Ski Patrol's Outdoor Emergency Care and Outdoor Emergency Transport curricula in a hands-on, "on-hill" environment. Students will spend approximately 12 hours per week learning and practicing Ski Patrol medical care and rescue techniques. Specifically, students will develop skills to recognize and provide emergency care for situations they learned about in prior first responder training (Outdoor Emergency Care, Wilderness First Responder, or Emergency Medical Technician): - Wounds and Burns - Environmental Emergencies (e.g., frostbite, hypothermia, heat exhaustion) - Musculoskeletal Trauma (e.g., breaks, strains, sprains, etc.) - Shock, Respiratory Emergencies, Poisoning, Substance abuse emergencies - Medical emergencies (e.g., heart attack, stroke, seizures, insulin shock, etc.) In the outdoor environment, students will practice the use of various types of splints, spinal motion restriction, bandaging, rescue/transport equipment, methods of extrication, use of oxygen, organization/prioritization of rescue tasks, and how to deal with unusual emergencies such as mass casualty incidents. Emphasis will be placed on the Leadership Skills required to handle complex and stressful emergency situations. Class meetings: ~8 hours/week at Jiminy Peak and ~4 hours/week on campus. Exact timing (morning vs. afternoon; 4 vs. 6 hours per meeting; etc.) will be determined based on student and instructor availability. Class attendance is mandatory. ~8 hours/week for homework/practice outside of class will be required. The course includes certification in CPR.

Requirements/Evaluation: Other: written and practical exams; on-hill skill proficiency & active participation

Prerequisites: Outdoor Emergency Care OR current certification as Wilderness First Responder or Emergency Medical Technician is REQUIRED. No exceptions.

Enrollment Limit: 16

Enrollment Preferences: Students will be chosen on the basis of having strong ski/snowboard ability and having the required medical training (OEC,
WFR, EMT). Preference given to students who completed the Outdoor Emergency Care PE class in the preceding fall term.

**Expected Class Size:** NA  
**Grading:** pass/fail only  
**Unit Notes:** Tom Feist '85 started ski patrolling at Williams in 1981. He is a National Ski Patrol Instructor in Outdoor Emergency Care and Outdoor Emergency Transport. He instructed Chemistry at Williams and has taught the ski patrol class for 6 years.

**MATH 10 (W) Creative Dynamics**

A dynamical system is an object whose future state can be calculated from its current state. Examples include ordinary and partial differential equations, discrete dynamics, cellular automata, billiards, spatial games, coupled/synchronized systems, agent models, evolutionary/selective dynamics, graph dynamics, Markov chains, and many more. The instructor will give a survey of such systems, and students will be free to imagine, create, and compute their own systems with an emphasis on creativity and graphical presentation of results.

**Class Format:** mornings

**Requirements/Evaluation:** Grading will be based on class participation, presentation of results, and a final project.

**Prerequisites:** Solid computer programming skills in some language with good support for graphics is necessary for this course.
Enrollment Limit: 15

Enrollment Preferences: Computational skills, math background, and enthusiasm; students will be asked to submit a brief description of their qualifications

Expected Class Size: NA

Grading: pass/fail only

MATH 12  (W) The Mathematics of LEGO and Outreach Activities

This course is a modification of nine previous winter studies I have done on the Mathematics of LEGO bricks and outreach activities. Similar to those, we will use LEGO bricks as a motivator to talk about some good mathematics (combinatorics, algorithms, efficiency). We will partner with local elementary schools to engage students and teachers in mathematics, as well as possibly prepare articles for journals. Possible activities include submitting a Lego Ideas Challenge, to try and create a set that Lego will then market and sell, or do a speed build challenge (college teams vs elementary school teams perhaps).

Requirements/Evaluation: short paper and final project or presentation

MATH 26  (W) A Taste of Austria 2024

Planned Travel Date: 11 Days of travel during January 3th - January 26  Flight to Vienna. Explore two cities Vienna and Graz with an "Intermission in the Countryside" staying at the Rogner Therme, designed by Austrian artist Hundertwasser, immersing ourselves with the Austrian world of wellness & focus on health and wellbeing at the thermal baths (access to pools optional), Yoga and reading literature by Austrian authors (Stefan Zweig, and TBA). Visit the Zotter Chocolate manufactory with sampling the varieties of chocolates! Vienna: Hotel Regina. Visit Museums: Albertina (TBA), Belvedere (Gustav Klimt "The Kiss"), Kunsthistorisches Museum, Jewish Museum, Sammlung Leopold (Gustav Klimt "Life and Death") visit the Sigmund Freud Museum, Haus der Musik, Narrenturm (TBA). Planned Activities in Vienna: enjoy a historic Coffee House with it's Coffee House Culture: visit one of the following coffee houses: Aida, Central Demel, Diglas, Hawelka to name a few. Graz: Boutique Hotel Dom Tour the city of Graz, hike up the Schlossberg visit the Opera House, and enjoy a piano concert at the University of Music and Performing Arts. Guided tour of the Zeughaus with the worlds largest collection of armour from the 15th to the 18th century. How GREEN is Austria? Learning about sustainable energy in Austria. Visit a sustainable power plant in Fernitz, 30 min bus ride from Graz. You will experience the "Gemuetlichkeit" and how to dance the Polka & Viennese Waltz. Daily meeting before excursions: Instructions to learn the German Language. Plan to carve out some time to start online German lessons before the trip, for example on Duolingo! Attendance will be expected for all activities (except optional thermal baths). Students will present a presentation on their favorite Austrian Topic (Mozart, Schubert, History of Austria, Cooking and Culture in Austria,... and write an assignment (2-4 pages) on the Chess Story, reflection on the trip (2-10 pages) and will create a trip diary.

Requirements/Evaluation: A 10-page paper.; Short paper and final project or presentation; Attendance and overall participation, presentation 20min & assignments reading & writing.

Prerequisites: No prerequisites, except being a motivated and reliable culture loving student.

Enrollment Limit: 12

Enrollment Preferences: Students will be randomly chosen in case of over-enrollment. Every student will write a motivational statement for taking this trip. Highly motivated and reliable students welcome.
Expected Class Size: 12
Grading: pass/fail only

Unit Notes: Vienna Medical University graduate, worked in the Opera in Graz, got inspired by Emeritus Williams College Professor Kurt Tauber to teach a culture class, because she enjoys sharing her love of art, culture languages and wellness.

MUS 11 (W) I/O Festival of New Music
I/O Fest 2025 is a month-long immersion in adventurous music making. Centered around the Williams College Department of Music's annual festival of contemporary music, the course is an opportunity for musicians to learn and perform new music and to explore new performance practices. Open to instrumentalists, singers, conductors, composers, and sound artists, the first stage of the course involves daily rehearsal leading to four days of concerts at the '62 Center, the Clark, and WCMA. The post-festival phase of the course is focused on group creative projects, discussions, and hands-on workshops related to the social, musical, and cultural ideas explored during the festival. Throughout, there will be opportunities to create, compose, experiment, engage with the community through participatory musical programs, and collaborate with visiting guest composers and performers.
Class Format: The first two weeks of the class primarily involves daily rehearsal and performance. The second stage is focused on group creative projects and discussion.
**MUS 15 (W) The Contemporary Singer/Songwriter**

This course will focus on learning how to write and perform songs in classical contemporary style. Song styles that will be addressed include pop, rock, blues, country, folk and jazz. Topics addressed will include the evolution of song structure, how to create a lyric that communicates, vocal and instrument presentation, recording and performing techniques, publicity for events, and today's music industry. This class will culminate in a public performance of material written during the course. To successfully pass this course, students are required to create, edit, perform and possibly record two original songs in one of the above-mentioned genres. These songs must be conceived during the course period (previously written material is not usable.) Students will be guided to create both music and lyrics. They may also be required to participate in a co-write session. One of these songs will be presented during the final performance, preferably by the student. Attendance at classes, feedback sessions, recording studio sessions, and final presentation is mandatory. Please note: this class meets more than six hours weekly. A short writing assignment will be passed in on the last day of class.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s)

**Prerequisites:** No prerequisites.

**Enrollment Limit:** 10

**Enrollment Preferences:** Students are encouraged to write to the professor about their musical background.

**Expected Class Size:** N/A

**MUS 18 (W) Introduction to Argentine Tango**

This course is split evenly among dance practice, critical engagement with Argentine tango music and films, and discussion of the genre's contexts and applications from the early 20th century to the present day. Our discussions will touch on key issues including: nationalism, tourism, gendered performance codes and their various interpretations and interventions, and the roles of race and class in tango's development and representation. By its conclusion, students will have enough rudimentary tango skills that they can take part in an all-levels practica (a tango practice). All participants will learn leading and following roles. No prior musical or dance experience necessary.

**Class Format:** Classes are a mixture of studio practice and seminar/discussion. Preparation of assigned material and participation in discussion is an essential component of the course.
**Requirements/Evaluation:** Participation/attendance, practice journal (1 entry per class), a 5-7 minute independent project, included in our showcase during the last week of class.

**Prerequisites:** None

**Enrollment Limit:** 26

**Enrollment Preferences:** Students hoping to be prioritized in this class should send Prof. Campbell an email of no more than 5 sentences about why they want to take this course.

**Expected Class Size:** 26

**Grading:** pass/fail only

**Winter 2024**

STU Section: 01    TR 1:00 pm - 4:00 pm    Corinna S. Campbell

**MUS 19 (W) Williams Opera Workshop**

The Williams Opera Workshop winter study course will prepare and present two fully staged performances of an Opera (to be decided based on the gifts of the particular singers auditioning each year) with reduced orchestra. The goal of the course is to simulate the workings of an opera house at all levels, from artistic to administrative, and to provide students with the full experience of what goes into putting a show up in a professional environment. Admission to the course will be open to students interested in performance (singers, dancers, and instrumentalists), rehearsal accompanying, conducting, choreography, stage management, set construction/scenic art, costume design, dramaturgy, stage crew, and lighting design. No previous experience necessary for registration, though acceptance into the course and designated responsibilities will be assigned based on the needs of the production and the skills of the individual. Roles will be cast prior to January 2025 by audition (date and time tba) and orchestra will be selected and contacted separately at the discretion of the conductor. An informal interview will also be scheduled for those interested in the production side to determine areas of interest and experience. Enrollment in the course is not required for participation in the production, though if your role in the project is substantial we recommend enrollment to make the best use of your time. Evaluation for the course will be determined based upon regular attendance, effort, timely preparation of each student's assigned responsibilities throughout the term, and will culminate in the final performances in which each student involved will be expected to attend.

**Requirements/Evaluation:** Performance(s)

**Prerequisites:** None

**MUS 27 (W) Introduction to Middle Eastern Hand Drumming**

Since ancient times, percussion instruments have been at the heart of Middle Eastern musical and ritual life, providing intricate rhythmic patterns as foundation. Today, many of these drums accompany musical traditions across a wide Mediterranean region, from the Arab world to Greece, Turkey, Armenia, and beyond. This class offers students the opportunity to engage, in a hands-on ways, with the vibrant tradition of Middle Eastern drumming and its heritage of cross-cultural flows. In this course, we will study the fundamentals of Middle Eastern drumming on traditional percussion instruments. We will focus on exploring the doumbek (i.e. Arab tabla), riqq, and frame drum. Students who have drums are welcome to bring their own, but the instructor will provide a variety of instruments for students to use in class and at home. Each class session will highlight technique, rhythm theory, and accompaniment. We will also dedicate time to learning a composition for this drum section. Some short readings and audio and video samples will supplement our in-class drumming. Evaluation will be based on a self-recorded demonstration of core rhythmic patterns as well as a final performance.
**Requirements/Evaluation:** Performance(s)  
**Prerequisites:** None

**MUS 50 (W) Musicianship and Wellness**

Physical and mental health are both equally important to success in music performance and other rigorous disciplines such as athletics and dance. In this course, we will examine strategies to promote general wellness, maintaining both physical and mental wellbeing, while studying and performing in the field of music at all levels. In terms of the physical challenges of musical performance, we will look at ways of coping with the stress of repetitive movements and, more importantly, we will encounter important resources such as physical therapy, deep tissue massage, yoga, and conventional medicine. In considering elements of mental health in musical practice, we will consider topics related to performance anxiety, perfectionism, and the impact of social media, both positive and negative. The course will also bring in guest speakers that have experienced performance injuries, such as tendinitis or focal dystonia, as well as toxic work cultures and other problematic work and study spaces that contribute to poor mental health. The goal of this course is to help students achieve a more centered approach to music physically, mentally, and emotionally. The class will meet twice a week for three hours. Students will be required to complete a daily journal, a music performance review, and a creative project designing a wellness program either for themselves or for a potential student.

**Requirements/Evaluation:** Creative project(s); Other: Journal of goals and self evaluations done daily and a performance review.  
**Prerequisites:** No prerequisites are required.  
**Enrollment Limit:** 20  
**Enrollment Preferences:** Students who are interested in studying and/or teaching music, as well as those involved with the department of music will be given preference. Please email me to share your interest in the course and how it connects to your current/future goals.

**Expected Class Size:** NA  
**Grading:** pass/fail only

**Unit Notes:** Dorian Jackman has performed as a double bassist with the Indianapolis, Charlotte, and Charleston Symphonies and also The Who, Weird Al, and Andrew bird. He holds a Doctor of Music from the Jacobs School of Music at Indiana University.

**MUS 99 (W) Independent Study: Music**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
NSCI 10 (W) Neuroscience of Learning

Course Description: An interactive and collaborative exploration of what neuroscience research reveals about how the brain learns and what factors can be influenced to facilitate successful learning. Topics include the neuroscience of attention, emotion, understanding, memory, and executive functions. Emphasis will be on the neuroscience applications to strategies correlated to the research. There will be opportunities for students to gain insight into their own learning processes. Background will be provided by interactive lecture. Students will participate in small group and full class discussions based on their reading of assigned articles. They will engage in guided research projects in areas of their own interest and share their insights in presentations. In these, they will demonstrate their understanding of the medical model to evaluate primary neuroscience research studies for validity, value, and expand this understanding into implications and strategy applications to facilitate more successful and meaningful learning for themselves and to teach others.

Requirements/Evaluation: Presentation(s)

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Priority for 3rd and 4th year.

PHIL 14 (W) Thomas Aquinas and the Summa Theologiae
Would you ever study the thought of somebody who was nicknamed the "Dumb Ox"? And what if this same Dumb Ox, getting close to the end of his life, had confessed to one of his closest friends, "everything I have written seems to me like straw"? Despite what these anecdotes may seem to suggest, the thinker in question is the towering philosopher and theologian Thomas Aquinas (1225-1274), arguably one of the greatest philosophers and theologians of the West. The aim of the class is to introduce students to the main aspects of his philosophical thought, with particular reference to metaphysical and anthropological themes. The course also introduces students to the Medieval method of the "quaestio" as it is practiced by Friar Thomas.

Requirements/Evaluation: Creative project(s); Other: The student will be evaluated through an oral exam at the end of the course. The student will write a short Medieval "quaestio" and defend it during the oral exam. The oral exam will include additional questions on the class material related to the problems discussed in the "quaestio."

Prerequisites: none
Enrollment Limit: 30
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Marco Stango is an Assistant Professor of Philosophy at St. Bernard's School of Theology and Ministry. He is interested in classic metaphysics and the history of ideas.

PHIL 27  (W)  Heidegger's Being and Time

Martin Heidegger's Being and Time is among the most significant texts in 20th Century European Philosophy. Heidegger takes up the question: What does it mean "to be"? In so doing, he considers the more specific question of what it means for us to be the kind of beings we are. Heidegger suggests, first, that we are the beings who ask the question of the meaning of being, second, that we are being-in-the-world, third, that our being is with-others, fourth, that we feel anxiety and care, fifth, that our being is toward-death, sixth, that we are authentic or inauthentic, and finally, that our being is temporal. Our Winter Study will involve a close reading of Heidegger's Being and Time and discussion of these philosophical themes. Students will be required to keep a journal for reflecting on our readings and discussions.

Requirements/Evaluation: Students are required to keep a journal for reflecting on the readings and class discussion.
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: Preference to students with a previous class in Philosophy.
Expected Class Size: 10
Grading: pass/fail only

PHLH 13 (W) Concluding your Experiential Component: Public Health Reflections
Because many public health challenges cannot be fully appreciated until one has hands-on experience working on public health issues with populations or communities, each Public Health concentrator must have at least one relevant field-based educational experience. This requirement is known as the Experiential Component (EC). This winter study course is only meant for PH concentrators and will serve as the final step in completing the EC requirement. Through in-person meetings and online discussion, students will be asked to critically reflect on their EC experience, write about their intellectual and emotional journey during their EC and discuss with classmates how this EC experience ties into previous Public Health courses and potential career and graduate educational goals. Students will meet in-person during the first and last week of Winter Study. For the weeks in between these two dates, students will engage in weekly online asynchronous discussions with their classmates.

Requirements/Evaluation: Students will be evaluated on class discussions and reflection papers.
Prerequisites: PHLH 201 and completion of their Experiential Component internship/work experience.
Enrollment Limit: 25
Enrollment Preferences: Public Health concentrators who are Seniors will be given preference.
Expected Class Size: 25
Grading: pass/fail only

PHLH 16 (W) Addiction Studies & Diagnostics
On a December night in 1987, I went to my first AA meeting and it has stuck within and beside me for 36 years. I have (literally) traveled around the world due to abstinence and friendships in recovery communities. The goal of this class is for students to develop a personal understanding of the basics of addiction and treatment of this brain disease. This class is designed for experiential learning. You will learn and apply the 11 diagnostic criteria of addictions to real people in recovery. I will bring in speakers that are in recovery from addiction. Students will be required to make full and complete diagnoses based on the stories told and follow up questions. Students will be required to attend on-line or in-person meetings to get familiar with the cultures and communities. In our final class, students will present group research into areas of addiction that they have found interesting and present annotated bibliographies to exhibit the research behind their work. Individually, students can present papers to me if they wish to start or extend research outside of this Winter Study class. The long-term goal of this class is to raise awareness of what addiction is and is not. At the end of the month, students can decide to enable or help a person who is impacted by addiction. They will know, first hand, that there is both help and treatment. It will allow them to be a better family member, neighbor, co-worker, or/and friend.

PHYS 12 (W) Drawing as a Learnable Skill

Representational drawing is not merely a gift of birth, but a learnable skill. If you wanted to draw, but have never had the time to learn; or you enjoy drawing and wish to deepen your understanding and abilities, then this course is for you. This intensive course utilizes traditional drawing exercises to teach representational drawing. By using simple techniques and extensive exercises you will develop your ability to accurately see and realistically represent the physical world. You will learn to draw a convincing portrait, interior, and still life. This course is designed to develop your powers of observation and teach creative problem solving abilities. Students need no previous artistic experience, just the willingness and desire to learn. Students will be expected to attend and participate in all sessions. They will also be required to keep a sketchbook recording their progress and complete a final project. Evaluations will be based on participation, effort, and development.

Requirements/Evaluation: Other: Evaluations will be based on class attendance, participation, effort, and development.

Prerequisites: No prerequisites.

Enrollment Limit: 18

Enrollment Preferences: If overenrolled, selection will be based on seniority.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Stella Ehrich is a professional painter whose work includes portraits, landscapes and still life subjects. She studied for seven years at Studio Simi in Florence, she holds an MFA from Bennington College and a BFA from the Memphis Academy of Art.

PHYS 16 (W) The Way Things Work

How does a motor run? What do chocolate and steel have in common? How does Williams heat and power the campus? Can paper be washed? What's inside everyday appliances? How do you build a speaker? From simple machines to complex processes, in this course we'll explore the way things work! Class will meet four afternoons a week for a mixture of lecture, discussion, build time, local field trips, and lots of hands-on exploration. Homework will primarily consist of readings and exercises relevant to the current class topics and extra tinker-time. Early in the course we'll team-engineer and build a large project as a class. In the last part of the course, students will have a chance to explore the functioning of some process, object, or technology of their choice. These will culminate in either building a final project with a short writeup or writing a 6-page paper, and a
PHYS 18 (W)  Wood and Woodturning

Woodturning—the use of a lathe to sculpt cylindrically symmetric objects from wood—dates to antiquity, with turned objects appearing in furniture, architecture, and art through the ages. This course will introduce the basic concepts of woodturning, including lathe and tool safety, tool selection, and techniques for shaping both side grain and end grain. We will use gouges, chisels, and scrapers to turn a variety of projects like finger tops, carving mallets, bowls, pens, etc. from several different species of wood. Along the way we will also discuss topics related to woodworking such as forestry, invasive species, & the environment, metallurgy, sharpness and sharpening, and moisture and wood movement. We will meet for approximately 12 hours weekly for demonstrations and individual work on projects, with some additional reading required outside of class time. No previous experience is required; however, students with patience, good motor skills, and some imagination will find the course most rewarding. This course is open to both artistically and scientifically minded students.

Requirements/Evaluation: Students will be evaluated based on mandatory daily attendance, thoughtful completion of in-class projects, and preparation and commitment to reading and other homework assignments.

PSCI 14 (W) JA SelCom: A Case Study in Selection Processes
As a member of SelCom (SElection COMmittee), you will become a cohort with current members of JAAB (the Junior Advisor Advisory Board) to select the next class of JAs. You will participate in every step of the JA application evaluation process -- reading written applications, conducting interviews, discussing applicants with SelCom, and deciding on the final makeup of next year's JA class. Every SelCom member will complete anti-bias training at the beginning of Winter Study; working through biases to make thoughtful evaluations is crucial to this process. This is a fantastic opportunity for students who want to take on a leadership role that requires critical thinking and collaboration. Your input will help to shape the entry system, the JA role, and the very essence of the Williams community in the coming school year. The SelCom schedule is roughly as follows (subject to change). SelCom will likely meet 4-5 days per week. Week 1: SelCom members will undergo anti-bias training and then spend the first week conducting interviews with applicants and cleaning transcripts to ensure readability. Week 2-3: The committee will discuss applications with identifying information blinded to help mitigate bias in the selection process. Week 3-4: SelCom will revisit applications with consideration given to the personal identity of each applicant. The committee will then extend offers to a select number of candidates. Members may reconvene at some point in the spring semester (after the initial round of JA offers have been accepted or rejected) to determine which applicants on the waitlist should receive offers. If you are interested in serving on SelCom during winter study, you must fill out this application form by October 29 at 11:59pm:
https://docs.google.com/forms/d/e/1FAIpQLSeffDaCz1P2OhKnKbqIArAv8GPxDXEQ_QiWAWAmjgAyF95prQ/viewform. JAAB will decide which applicants on the waitlist should receive offers. SelCom applicants who are not selected to serve on SelCom will have until November 12 (winter study registration deadline) to enroll in another winter study course.

Requirements/Evaluation: Attendance and active participation

Prerequisites: Anyone wanting to register for the SelCom Winter Study class needs to fill out the application form.

Enrollment Limit: 25

Enrollment Preferences: Open to students who are in the classes of 2025, 2024.5, 2024, 2023.5, and 2023 AND who are not applying for the JA role for the 2023-2024 academic year.

LEC Section: 01  M-F 10:00 am - 3:50 pm  Christina F. Walsh

PSCI 15 (W) Climate Art & Activism
"Most of us are terrified by climate change and frozen by the confusion of what we should do to address this issue. Artists transform that energy into a determined roar, urging us all to play our part in stopping climate change with what we have, no matter where we are. Ultimately, we need hope and encouragement to make change happen, and art is a beacon of light." - Dekila Chungyalpa. In recent decades we have seen an exciting number of works by contemporary artists that illuminate the climate crisis. Presented by cultural institutions around the world and published in multiple forums, these works highlight a new canon of climate change themed art that engages and inspires the public to affect change. In this Winter Study course students will be exposed to projects that examine environmental themes: indigenous history, fossil fuel destruction, environmental injustice, climate migration and more. Maya Lin's Ghost Forest, Olafur Eliasson's Ice Watch, Theo Cuthand's Extractions, LaToya Ruby Frazier's The Notion of Family, Zhao Liang's Behemoth, Chantal Bilodeau's Sila, are just a few examples of works by visual artists, filmmakers, and playwrights we will examine for their different aesthetic portrayals of climate change. We will take field trips to MASS MOCA, Williams College Museum of Art, and The Clark Institute's library to look at works up close. We will also explore the local environmental history of toxic pollution in the Hoosic River. Students will be asked to read essays, view films and work on their projects outside of class. For a final project students will write a short personal essay on their own climate story (i.e.: when they first became aware of climate change, how climate change is impacting where they are from) and translate this essay into a proposal for a future creative work. Students will also propose strategies for how their creative projects can engage the public in activism. Students from all departments are welcome.

Requirements/Evaluation:  Paper(s) or report(s); Presentation(s)

Prerequisites:  No prerequisites.

Enrollment Limit:  12

Enrollment Preferences:  I will give priority to students in these departments: political science, environmental science, art history, art.

PSCI 17  (W)  Martial Arts in Movies & Real Life

Short Version: 2 hours of martial arts training each morning, 2 martial arts movies each week, and a 10-page paper or project in which student teams write, choreograph, perform, shoot, edit, insert sound effects, and share their own fight scene. Longer Version: Movies that feature martial arts action rarely win Oscars or get much critical attention. Nevertheless, the best of these films can inspire extraordinary devotion amongst fans and are often the reason new students arrive at the door of a martial arts school and begin a journey which changes their lives forever. They are also a lot more fun to watch when you know something about martial arts - and the only legitimate way to know something about martial arts is to experience them first hand, rather than only on screen. The Martial Arts training (10am-Noon each weekday morning in Currier Ballroom) will be in Aikido, a synthesis of the Samurai arts of Kenjutsu (swordsmanship) and Jujutsu (body techniques). Training will improve each student's strength, balance, posture, and flexibility while also integrating mindfulness, centering, breathing, and relaxation exercises. Everyone will also learn how to throw their friends across the room. 25% of training time will be devoted to sword, staff, and dagger techniques. The provisional list of films we will be screening includes masterpieces of Japanese, Chinese, American, and French cinema: Seven Samurai, Last Samurai, Uzumasa Limelight, Enter the Dragon, Crouching Tiger Hidden Dragon, Brotherhood of the Wolf, Kill Bill (volume 1). Students will be evaluated on the quality of their participation during training and on a 10-page paper or team fight scene project. Students are encouraged to correspond with the instructor (rkent-at-aikiextensions.org) before registration begins if they have questions.

Requirements/Evaluation:  Paper(s) or report(s); Performance(s); Creative project(s); Other: Students will be evaluated on the quality of their participation during training and on a 10-page paper or team fight scene project.

Prerequisites:  same physician's approval on file as the school requires to participate on sports teams.

Enrollment Limit:  20

Enrollment Preferences:  If overenrolled, selection will be based on a questionnaire.

Expected Class Size:  NA

**PSCI 21 (W) Fieldwork in Public Affairs and Private Non-Profits**

This course is a participant-observation experience in which students work full-time for a governmental or nongovernmental (including voluntary, activist, and grassroots) organization or for a political campaign. Examples include: town government offices; state or federal administrative offices (e.g., environmental agencies, housing authorities); interest groups that lobby government (e.g., ACLU, NRA); nonprofit organizations such as service providers or think tanks (e.g., Habitat for Humanity, Cato Institute); and grassroots, activist or community development organizations (e.g., Greenpeace or neighborhood associations). The instructors and members of the Political Science Department are available to help students find placements. Students can also email clia@williams.edu for the most up-to-date information. Students should then make their own contracts with the institution or agency. The student's fieldwork mentor should send a confirmation letter to the instructor verifying the placement and describing the nature of the work to be performed. Interested students should reach out to Paula Consolini at pconsolini@williams.edu by October 30th. A group meeting of all students will occur before winter study to prepare and after to discuss the experience. During winter study, students are responsible for keeping a journal of their experiences and observations. Additionally, students will write final papers summarizing and reflecting upon the experience in light of assigned readings. Every year, course instructors arrange for some distinct sections of this course to provide specialized fieldwork opportunities in the area for small groups of students.

**Requirements/Evaluation:** A 10-page paper or comparable creative work such as a program or project design, video, webpage, or set of infographics.

**Prerequisites:** Interested students must complete the course interest form located at https://forms.gle/iXyDxFtTdZ9FkMA or email CLIA Director Paula Consolini at clia@williams.edu before the Winter Study Course registration deadline.

**Enrollment Limit:** 25

**Enrollment Preferences:** Political science majors

**PSCI 22 (W) LIFT: Learning Intervention for Teens**

This mentorship-based course pairs Williams students with teenagers involved in the Berkshire County juvenile justice system, usually due to truancy. LIFT is an official Commonwealth of Massachusetts probation diversion program. Sponsored by Pittsfield Chief of Police Mike Wynn ’93 and Professor Cheryl Shanks, the course is entirely run by Williams students who have previously served as mentors. Williams students provide positive mentorship, helping the teens envision, construct, and present an independent, educational project of the teen’s choosing. Past projects have ranged from 3D printing Mike Tyson’s glove to how to cook the perfect steak to utilizing the music recording studio to assessing the performance of NBA players before and after injury. The project and other course activities aim to cultivate initiative, creativity, focus, and skills in goal-setting, research, and communication, to show teens that school can empower them and not just be another form of incarceration. The course culminates with a project presentation in which each mentor/mentee pair formally presents their work to an audience that includes professionals in the juvenile court system, state elected officials, police chiefs, district attorneys, the teens' peers and families, faculty, and community members. Williams students are expected to attend training, meet with their teens three times a week, and co-facilitate a final presentation. Because LIFT is an after-school program, this course meets Tuesday through Thursday from 3:30-5:30 pm. Williams students will additionally meet on Mondays from 4:00 to 5:00 pm in a “mentors-only” meeting to report their progress and share their experiences. Absences cannot be accommodated; the teens cannot be let down. Williams students will undergo training as well as a criminal background check. To apply, please fill out the linked Google Form and register on PeopleSoft. The student leaders, Kiara Muñoz Díaz and Sophia Nogueira, will select the applicants, with some advice from the deans’ office and course sponsors. (All must be Covid-vaccinated and agree to a background check to participate. These are mandated by the state and require Social Security Numbers -- lack of a
Class Format: The group meets as a whole; additionally, pairs meet separately. At times this is in a classroom, at other times, the library or makerspace or studio.

Requirements/Evaluation: Successful mentorship throughout the term, contribution to the mentors' log, and final joint presentation.

PSCI 28 (W) Shakespeare and the Law in the Movies

This course will begin with an analysis of the social, political and, most importantly, religious framework of the Elizabethan world into which Shakespeare was born in 1564. We will examine the development of the English common law from its earliest origins in medieval times through Shakespeare's day and then analyze the relationship of a number of his early history plays to the Elizabethan concept of law and social order. We will consider several additional plays, including but not limited to, *The Merchant of Venice, A Midsummer Night's Dream, The Winter's Tale, Julius Caesar, Hamlet, and Measure for Measure*, to learn how Shakespeare used the law and legal principles in those works. Among the questions to be examined are how faithful was he to the law as he understood it? What dramatic licenses did he take? What did his use of the law tell us about Shakespeare the playwright and the dramatist? Film clips from Royal Shakespeare Company productions of the trial scenes in several of the plays listed above will be utilized to demonstrate the legal principles under discussion. In addition, we will take up the infamous "Authorship Question" much beloved by under-employed PhD. candidates. Was William Shakespeare of Stratford-upon-Avon the Author of the Plays, a man all but unknown outside of Oxfordshire, obscure, almost an historical nonperson, who could not even spell his own name the same way on any page of his last will and testament? Or was the true Author one of several much more prominent Elizabethans, who by birth, education and experience far outshone the Stratfordian and who had every compelling reason to keep his (or her...!) Authorship a secret? We will examine carefully all the evidence to reach a fair and just conclusion, and in the last class I will reveal for the first time in history to a mathematical certainty who was the real Author of the Plays. We will also meet with Allyn Burrows, artistic director of Shakespeare and Co, Lennox, MA

Requirements/Evaluation: Presentation(s); Performance(s)

Prerequisites: None except a willingness to read carefully the trial scene portions of the plays assigned and then participate enthusiastically in the ensuing class discussion about Shakespeare's use of the law as constrained by the requirements of the stage.

Enrollment Limit: 10

Enrollment Preferences: Seniors before juniors before sophomores before first years

Expected Class Size: NA

Grading: pass/fail only

**PSCI 99 (W) Independent Study: Political Science**
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study
**Grading:** pass/fail only
**Not offered current academic year**

**IND Section:** 01  TBA  Nicole E. Mellow

**PSYC 10 (W) Yoga, Creativity & Mindfulness**
Winter Study is an ideal time to set new intentions, and to focus on physical and mental well-being. This course offers a retreat in which students can de-stress, refresh, and tap into their creative strength. Primarily a yoga class, we will meet 4-6 hours each week to deep dive into the mindful practice of yoga. We'll also explore accessible ways to cultivate mindfulness, weather it's through journaling, mindful walking or eating, or guided meditation. The course is specifically designed so that students will have plenty of unstructured time each week. Early in the month, our group will go on a 2 day retreat at the renowned Kripalu Center for Yoga & Health in Stockbridge, Massachusetts. Located in a beautiful natural setting with breathtaking views, Kripalu offers a variety of daily yoga and mindfulness classes as well as delicious organic and vegan food. This will be a nourishing time for students to spend some healthy quiet time and to get to know each other better. Back on campus, we will continue to practice yoga together three times a week, and will also visit the Clark Art Museum, WCMA or MassMoca, where we'll enjoy guided tours exploring the intersection of art + mindfulness, and will even do yoga in the galleries themselves. Throughout the month, students will explore their own creativity, whether it's creative writing/journaling, or
working with paper and colored pencils in a mandala making workshop. There will be a reading list and a final creative project. We'll share our projects in the last week of the class, and examples might be leading a guided meditation, sharing a drawing, painting or poem, or designing a yoga or mindfulness self-practice.

**Requirements/Evaluation:** Presentation(s); Creative project(s)

**Prerequisites:** No experience in yoga is required, but it is recommended.

**Enrollment Limit:** 21

**Enrollment Preferences:** Preference will be given to sophomores and juniors as well as a balance of personal pronouns. Students are encouraged to email in advance to express why they are interested in the course.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Mary Edgerton has taught yoga at Williams for many years, working with students, athletes, faculty and staff. She also offers multiple classes to other members of the community.

**Materials/Lab Fee:** $300

**PSYC 11 (W) Local Education Policy and Practice**

This course allows students to gain fieldwork experience at local public, public charter, and independent educational institutions (elementary, middle, or high school) as they consider possible careers in teaching, education policy, and administration. Students are expected to commit 20-35 hours a week to their field placement and complete a relate project under the guidance of their internship mentor as well as the instructor. Along with weekly class discussion, reflection, and reading, students will be afforded the opportunity to better understand a school, its students, and how policy and curriculum shape experiences of local elementary, middle, or high schoolers. We will consider questions of interest and importance to course participants regarding the field of education, such as: How has our own educational background influence our assumptions about what education should look like? What are some pressing issues facing the field of education today? How do different students experience the education system? How is curriculum created and delivered? What are some differences between public, public charter, and independent schools? What are ways in which the intersections of education, health policy, and the economy affect student learning? How can student learning be monitored and assessed?

The instructor can help students arrange internship placements, which must be finalized prior to the end of the fall semester. Internship proposals must outline a proposed schedule, goals, final project ideas, and a letter of confirmation from the field placement supervising mentor. We will have a group meeting before winter study to prepare for our field placements, and will gather weekly during Winter Study to debrief and discuss what you are learning and observing. Final evaluation will be based on students' contribution to discussion, reflections on readings, and a submission of the student's choosing such as a curricular module, policy analysis, or 10-page.

**Requirements/Evaluation:** Paper(s) or report(s)

**Prerequisites:** Demonstrated interest in working or interning in elementary, middle, and secondary school environments.

**Enrollment Limit:** 10

**Enrollment Preferences:** Students who have completed courses in the Williams College Program in Teaching. Students interested in education as a career. Students with prior experience working or interning in elementary, middle, and secondary school environments.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Geraldine Shen '01 is an Elementary School Coordinator at CLIA. She is a former management consultant, fundraising professional, curriculum coordinator, admissions officer, and nonprofit Executive Director with a MA Ed in Int'l Comparative Ed. Sarah Brill is the CLIA Williams Elementary School Science Coordinator with extensive K-12 teaching experience in science and art. Sarah has also worked as an art director, graphic designer, and illustrator for Storey Publishing.

PSYC 21 (W) Psychology Internships
Would you like to explore applications of psychology in the "real world?" This course gives students an opportunity to work full-time during Winter Study in a mental health, business, education, law, or another setting in which psychological theories and methods are applied to solve problems. Students are responsible for locating their own potential internships whether in the local area, their hometowns, or elsewhere, and are welcome to contact the course instructor for suggestions on how to do this. In any case, all students considering this course must consult with the instructor about the suitability of the internship being considered before the Winter Study registration period. Please prepare a brief description of the proposed placement, noting its relevance to psychology, and the name and contact information of the agency supervisor. Before Thanksgiving break, the student will provide a letter from the agency supervisor which describes the agency, and the student's role and responsibilities during Winter Study. Enrolled students will meet the instructor before Winter Study to discuss matters relating to ethics and their goals for the course, and after Winter Study to discuss their experiences and reflections.

Requirements/Evaluation: evaluation will be based on a 10-page minimum final paper summarizing the student's experiences and reflections, a journal kept throughout the experience, and the supervisor's evaluation

Prerequisites: approval by Kris Kirby is required

Enrollment Limit: 20

Enrollment Preferences: Students who have taken a PSYC course

Expected Class Size: NA

Grading: pass/fail only

Attributes: STUX Winter Study Student Exploration

Not offered current academic year

INT Section: 01 TBA Jeremy D. Cone

PSYC 22 (W) Introduction to Research in Psychology
This course provides a research opportunity for students who want to understand how psychologists ask compelling questions and find answers about behavior. Several faculty members, whose subfields include behavioral neuroscience, cognitive psychology, social psychology, clinical psychology, developmental psychology, and the psychology of education, will have student projects available. Since projects involve faculty research, interested students must consult with members of the Psychology Department before electing this course. In addition, students should discuss with faculty what the weekly time requirements will be. Enrollment will be limited by available space in faculty research labs

Requirements/Evaluation: evaluation will be based on the quality of research participation, student's lab journal, and either an oral presentation or a written 10-page report of the research project

Prerequisites: Students who have taken a PSYC course.

Enrollment Limit: 12

Enrollment Preferences: selection will be based on evaluation of departmental application and number of faculty available as mentors

Expected Class Size: NA

Grading: pass/fail only

Attributes: STUX Winter Study Student Exploration

**RLFR 13 (W) Creative Portraiture in the Darkroom**

In this course, we will revisit the boundaries between self-portraiture and portraiture. Working in pairs, students will both practice being a model and a photographer: they will pose as a model for their classmates and assist a classmate in creating a self-portrait. In addition, using as a point of departure Hippolyte Bayard's photograph Self-Portrait as a Drowned Man, one of the first self-portraits in the history of photography, students will learn how to use the view camera (the large format camera used during the invention of photography in 1839 and still in use today). We will also study the characteristics of film photography, specifically, light, chemicals, sensitive media, and negative, and use them as tools to make creative portraits in the darkroom. By the end of the course, students will have learned to shoot with a 4 x 5 view camera and have practiced with manipulations in the darkroom in order to create unique portraits. Each student will exhibit their work as a triptych in an exhibition. This class requires an average of 10 weekly lab or studio hours outside of regular classes.

**Requirements/Evaluation:** Paper(s) or report(s); Creative project(s)

**Prerequisites:** Knowledge of black and white analog photography is preferred but not required.

**Enrollment Limit:** 10

**Enrollment Preferences:** Art majors, then random

**Expected Class Size:** NA

**Grading:** pass/fail only

RLSP 26 (W) Sustainability Studies in Uruguay
As Nick Gallagher recently reported in the New York Times (“What Does Sustainable Living Look Like? Maybe Like Uruguay,” October 5, 2022), the Oriental Republic of Uruguay is at the forefront in terms of forging sustainable futures for its citizens. This travel course offers an in-depth look and hands-on experience with cultural, economic and ecological sustainability in three regions of the South American nation: the coast, the capital, and the interior. We will engage with practitioners of sustainable artisan fishing, get our hands dirty at an experimental farm, and dialogue with artists, activists and eccritics in the capital city of Montevideo. Students will do a lot of reading, particularly reading Uruguayan literature in the forms of essays, novels, and poetry that engage with Latin America’s history of colonial and neocolonial extractivism and propose more ecological ways of relating to the planet and its many species. We will deeply consider the writings of Eduardo Gudynas, once of Uruguay’s most prominent contemporary intellectuals and a leading voice in the struggle between extractivism and sustainable self-determination. We will also watch a number of documentary films.

Requirements/Evaluation: Short paper and final project or presentation.
Prerequisites: 1-2 courses in Environmental Studies and evidence of competence in Spanish, especially RLSP 209 or 103-104 and above.
Enrollment Limit: 8
Enrollment Preferences: If the course is overenrolled I will prioritize students majoring in Spanish and/or Environmental Studies. Students will be asked to describe their interests in the course in writing and have an interview with me in Spanish.
Expected Class Size: 8
Grading: pass/fail only
Materials/Lab Fee: $3,310

RUSS 25 (W) Williams in Georgia

Williams has a unique program in the Republic of Georgia, which offers students the opportunity to engage in three-week internships in a wide variety of fields. Our students have helped in humanitarian relief organizations like Save the Children, interned in journalism at The Georgian Times, taught unemployed women computer skills at The Rustavi Project, documented wildlife, studied with a Georgian photographer, done rounds at the Institute of Cardiology, and learned about transitional economies at the Georgian National Bank. In addition to working in their chosen fields, students experience Georgian culture through museum visits, theater performances, lectures, and excursions. We will visit the sacred eleventh-century Cathedral of Svetitskhoveli and the twentieth-century Stalin Museum, see the birthplace of the wine grape in Kakheti, and explore the region where Jason sought the Golden Fleece. Participants are housed in pairs with English-speaking families in Tbilisi, Georgia's capital city. Students will submit weekly reports on their work while in the country (6 pages in total or the equivalent in another medium), as well as an overall reflection (4 pages or the equivalent in another medium) upon their return from Georgia.

Requirements/Evaluation: weekly reports on their work while in Georgia (6 pages in total or equivalent in another medium); overall reflection (4 pages or equivalent in another medium) upon return

Prerequisites: none; knowledge of Georgian or Russian is not required

Enrollment Limit: 8

Enrollment Preferences: interested students must attend an informational meeting and submit a short essay about their interest in the course

Expected Class Size: 8

Grading: pass/fail only

Unit Notes: Darra Goldstein is an author, food scholar, and emeritus faculty member at Williams. She has written an award-winning cookbook on Georgian cuisine and served on a culinary diplomacy program as a cultural envoy to Georgia in 2013.

SPEC 10 (W) Relating Your Research: Making STEM Work Meaningful to Multiple Audiences
Interested in continuing in academia, working in a research lab, or operating within a highly technical field after Williams? Such roles require people to make their work meaningful to a multitude of audiences: from non-profit and government organizations, to the public, to wealthy individuals looking to change the world. This course focuses on how the field of rhetoric conceives of those audiences and how you can approach them. Through this course, students will identify a topic of interest, investigate potential audiences to appeal to, and develop proposals tailored to those audiences. We will meet for six hours each week, during which we will discuss theoretical approaches to audiences alongside real-world examples within STEM, develop practices for investigating audiences of your work, and workshop different ways of approaching audiences. Work outside of class will involve reading journal articles and book chapters for class discussion, three short writing assignments identifying the topic and analyzing the audiences of your project, and a culminating statement of purpose or project proposal that targets those audiences.

Requirements/Evaluation: Paper(s) or report(s)
Prerequisites: Successful completion of one Division III course.
Enrollment Limit: 15
Enrollment Preferences: If oversubscribed, preference will be given to second and third year students with majors in Division III.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Nick Hanford is the Director of Quantitative Skills Programs at Williams College. He has spent almost ten years in student success and learning support and holds a doctorate in communication and rhetoric from Rensselaer Polytechnic Institute.
Attributes: EXPE Experiential Education Courses STUX Winter Study Student Exploration

SPEC 11 (W) Investing in a Real Fund
We will use financial fraud as an entryway into the world of investing. Through the lens of how bad actors have tricked markets, we will learn how to analyze firms and stocks with a bit of a cautious eye. The focus of the course is to learn how to analyze and value a company. Along the way, we'll touch on a host of topics: basic financial accounting, investment instruments, corporate capital structure, equity and fixed income markets, derivatives,
market efficiency, behavioral finance, and non-financial drivers (ESG, etc.) to arrive at a sound base of securities analysis. We'll conclude with student pitches for stocks we will buy (or not) in the fund we manage. And while we will employ a classic textbook, we'll also read about true financial frauds that are just jaw-dropping. (This course is designed for students with anywhere from no experience in investing to a moderate amount.) Interested students should submit a resume and brief paragraph about their interest in this course through Handshake by October 17, 2023, https://app.joinhandshake.com/edu/jobs/8319121

Requirements/Evaluation: Performance(s); Other: The final presentations are team-based exercises, but I expect students to come to class prepared and to talk and think and debate. One of the things we're teaching here is the ability to engage in discussion in a civil, genteel manner.

Prerequisites: None.

Enrollment Limit: 20

Enrollment Preferences: Preference given to First Years and Sophomores. Students are asked to submit a short answer (50-100 words) to a question: Why do you want to take this course and what do you hope to get out of it?

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: David '90 P'20, a Founding Partner of Triangle Peak Partners, a venture capital firm, graduated from Williams with Honors in Mathematics. He worked for Bain & Co., MAC Group, and Fayez Sarofim & Co. He also holds an MBA from Stanford University.

Winter 2024

LEC Section: 01 TRF 10:00 am - 12:00 pm David Pesikoff

SPEC 12 (W) Yoga for Athletes

Designed for any and all athletes - both those who are currently on a team or those who are simply into being active - this course will help you enhance your performance by improving your flexibility, increasing your range of motion, and promoting mindfulness. Students will learn the core asanas (yoga poses) along with variations that work best for them. We'll explore hip, hamstring and shoulder openers and we will move through a variety of yoga flow sequences. We'll examine which kinds of stretches and poses benefit which sports, and we will promote a greater balance between the left and right sides of the body, which often become dissimilar through repeated movements on one side only. Yoga for Athletes is not "Athletic Yoga," but a mindful way to bring more stretching and awareness into your daily activities so as to avoid injuries and promote overall health and well-being. There will be a course packet with required reading and students will be expected to keep a journal. At the end of the month, students will design a 30 minute yoga practice that is tailored to your particular sport and/or needs.

Requirements/Evaluation: Presentation(s); Creative project(s)

Prerequisites: No prior yoga experience is required to take this course. If you currently have an injury and are unable to bear weight on your hands or on your feet, this probably isn't the right time for you to enroll in this course.

Enrollment Limit: 20

Enrollment Preferences: Please send me a brief email telling me why you would like to take this course, how you think it would benefit you, if you have had any previous experience with yoga, and if you have had any injuries.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Mary Edgerton is a certified yoga teacher who has taught yoga at Williams College and elsewhere in Berkshire County for more than ten years. She has done specialized teaching at Kripalu in Yoga for Athletes.

SPEC 13 (W) INFLUENCE®, Venture Capital and Marketing

INFLUENCE® as an investment method for start-ups: hybrid course melding principles in economics, sociology, and psychology, The intense program
examines core venture capital structures, brand development, and social priming through social media influencers and applies them to create a new company where INFLUENCE drives growth and value. The London Fund's proprietary Lal Toofan methodology and investment approach help students develop a start-up, its business plan, and a venture capital presentation. The class will meet 4 days a week for 3 hours a day. Celebrity influencers and seasoned entrepreneurs will contribute to the class lectures. Out-of-class work includes competitive research on investments, financial modeling, and social network browsing.

Requirements/Evaluation: Presentation(s)

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: Prior work experience, and preference for psychology, sociology, economics, and political economy majors. The class should have a 50/50 balance of creative and quantitative-focused individuals.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Founder, The London Fund, serial entrepreneur; managed of two $1B+ VC and PE funds; four IPOs by 27, $2B in exits; seven patents; Presidential Task Force while at the CIA; held every CxO title (except COO); BA Williams College

SPEC 17 (W) Asking Questions through Wonder and Play

Wonder and Play utilizes mindfulness and creativity to improve our problem-solving abilities. We will play with words, randomness, found objects, and more, to learn new ways of engaging with the world around us. We will also practice strategies for interrupting assumptions, asking what could happen if things were different. Assessment: This course includes individual, pair, and group work. Students will be expected to complete assigned reading, participate in class activities and discussion, perform independent research, and individually document their experiences outside of class. Students will be expected to commit to a 5-minutes /day mindfulness practice. Learning objectives: increased understandings of knowledge creation, problem solving, and intentionality.

Requirements/Evaluation: Creative project(s)

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Pre-enrollment survey

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Landon A. Marchant (‘20) lives in the intersection of innovation, activism, and art. Before attending Williams they studied at Northern Virginia Community College, worked as a plumber/welder apprentice, and served in the United States Air Force.

SPEC 19 (W) Exploring Healthcare

Experience in a healthcare environment is essential to exploring the health professions. Through this experiential course, students have an opportunity to clarify their understanding of the rewards and challenges of the practice of allopathic and osteopathic medicine, veterinary medicine, dentistry, allied health professions, or public health. Students will participate in an intensive shadowing internship through a self-identified placement in a geographic location of their choosing. Generally, a shadowing experience focuses on provider-patient interactions within out-patient and in-patient settings. These experiences provide students with the opportunity to observe clinical interactions and to learn about the systems within which healthcare is delivered. Students will be introduced to fundamental concepts related to patient interviewing, diagnosis, and medical decision making. This course will
encourage participants to reflect on their healthcare experiences with a dual focus: from the perspective of the individual provider-patient relationship and within a systems-level context. Weekly didactic sessions will expose students to broader perspectives in healthcare. By the end of the course, students will demonstrate greater understanding of the fundamentals of patient-provider interactions, clinical diagnosis, patient interviewing, and/or factors affecting the health of individuals and communities. They will write a final reflective paper on their experiences. Students are welcome to participate in self-sourced shadowing or volunteering internships in a geographic area where they have housing and transportation, or will have the opportunity to be placed in the Williamstown area. Students can express interest in this course by filling out this google form by October 15: https://airtable.com/app9x9EE4VJdUmTlf/shrC7EQQ2pEOK6CuFm

Requirements/Evaluation: Paper(s) or report(s)
Prerequisites: Open to current sophomores, juniors, and seniors.
Enrollment Limit: 30
Enrollment Preferences: Brief application required. Priority will also be given to juniors and seniors who have not previously taken the course.

SPEC 21 (W) Career Exploration: Winter Study Internships!
Internships amplify academic learning, empower professional development, and increase students’ career options. SPEC 21 offers students the opportunity to learn beyond the classroom by providing substantive applied learning experiences focusing on issues such as racial justice/social justice, non-profit/community service, government/policy/law, environment, education & many more! Students have the option of applying to the designated SPEC 21 WS internships posted on Handshake, or to submit self-sourced WS internships. The application deadline for all SPEC 21 applications via Handshake and Airtable is October 15th by 11:59 p.m. Each student will intern for 5 days per week working on project(s) for 3 1/2-4 weeks. If you are an F1 Student, CPT is required for this course. Please submit your internship offer and information to the International Student Portal https://internationalportal.williams.edu/ In January, students will reflect upon their experiences: impressions about the organization and its workplace culture; insights about the structure of their role, the organization and the industry; and what they have learned about themselves within a professional environment. More information can be found here: https://careers.williams.edu/winter-study-internships/#spec-21-requirements

Requirements/Evaluation: Students must write a short paper that will become a public record and used as a resource by future students or create a 3-5 minute video; weekly assignments will include completing a Career Action Plan (5-6 Steps) and responding to three questions (one per month) posted to the Winter Study Internship Discussion Group.
Prerequisites: Interested students must attend an information meeting in late September or early October and follow up with Dawn Dellea if they have questions about specific WS internships listed in the SPEC 21 syllabus or self-sourced WS internships.
Enrollment Limit: 150
Enrollment Preferences: 1st priority- Designated SPEC 21 internships posted on Handshake-WS Internship Sponsors select students based on their applications/possible interviews. 2nd priority-Separate application/evaluation process for students with self-sourced WS internships.
Expected Class Size: NA
Grading: pass/fail only

SPEC 28 (W) Prosecutorial Discretion: Exploring Racism and Bias in the Justice System
Prosecutors hold enormous power in our justice system, with very little oversight. The decision to initiate a criminal investigation, the manner and
conduct of the investigation, and the ultimate decision to charge a crime, rests solely with prosecutors. Unlike any other governmental entity, prosecutors have very few external guidelines informing their decisions. Does this unfettered discretion cause racially disproportionate results in charging decisions; bail recommendations/pretrial detention; plea negotiations; convictions, and sentencing? This question is not easily answered, indeed, cause and effect are not always evident despite what we have witnessed during the era of mass incarceration. In this course, we will examine the role of the prosecutor during all stages of a criminal case; consider the danger of unchecked power; and discuss possible safeguards against injustices, both perceived and real.

Requirements/Evaluation: Paper(s) or report(s); Other: Class discussions
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: Enrollment preference is given to students planning to pursue further studies or careers in law, criminal justice or closely related fields.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Andrew McKenna is a former federal prosecutor and Special Assistant United States Attorney in Washington, DC. Research interests include prison reform; civil rights and liberties; universal access to mental health and addiction treatment.

SPEC 31 (W) Leadership + Communication = Leadership Communications
Hello: Anyone out there? Who am I? Is this thing on? It seems like just about everyone has a favorite example of a leader who flubbed their communications, often leading to personal ridicule, collective outrage and reputational harm for them and their organization. The world expects great communication from its leaders. It's hard to even envision a model of effective modern leadership that doesn't depend on successful communications.
In this course, one leader and one communicator, who have found strength and joy in their working partnership, will introduce you to ideas and skills that can aid your own future success. Through selected readings, discussions, interesting guest speakers, real-life case studies and creative assignments we'll help you understand the relationship between strong communications and sound leadership. In the process you'll learn about voice and style, personality and institutional brand, the importance of empathy for one's audience and communications in times of crisis, among other topics. Whether you want to be an entrepreneur or an economist, a corporate CEO or a symphony conductor... or maybe even a college president?... this class will give you early experience with skills you'll need to succeed. The workload will be manageable but real, and the expectations high: come prepared to learn and we'll have fun in the process!

Requirements/Evaluation: Students will be asked to complete assignments both in and outside of class. The final project will be a collaborative project that will include an in-class presentation and a written submission.

Prerequisites: None
Enrollment Limit: 25

SPEC 39 (W) "Be"ing Whole; exploring mindfulness-based movement and meditation to maintain balance

Want to focus this winter study on being in the moment; explore mindfulness-based movement practices such as yoga, and practices in nature? In this years' rendition of the class on "be"ing and learning how to maintain or achieve homeostasis in the autonomic nervous system (balancing "fight or flight" and the "rest and digest" parts of our nervous system) we will explore the neuroscience behind why mindfulness practices can be helpful in restoring the homeostasis of a stressed nervous system while practicing different types of mindful movement (yoga, hiking/snowshoeing, walking, etc.), mindfulness activities (mandala making, tactile and sensory activities, games, etc.), and meditative exercises (body scans, gratitude, loving kindness, etc.) Each class will start with an invigorating yoga flow (modifications are always welcome) and will then continue to highlight a specific activity followed by a 5-10 minute journal prompt. The final project will be for students to take what they've learned about mindfulness exercises and practices as well as their own physical and psychological reactions to these practices and to customize a toolkit that includes soothing reminders, activities, prompts, and supplies. What to Expect: - Playful yoga practices! - Calming/soothing meditative practices - loving-kindness, gratitude, body scans, visualization exercises - Creative mindfulness through art (observing art, creating mandalas, other tactile or sensory activities) - Mindful outdoor exploration that we will adapt to based on the weather (be prepared to wear rainboots and coats if we have to - within reason, of course) - hopefully this will be snowshoeing and sledding! - Learning about yourself through reflection and mindfulness practices and creating a customized kit for self-soothing during overwhelming moments/periods in life to maintain balance. The course will include weekly visits to a local elementary school(s) to teach and integrate well-being practices into elementary education. This will be an opportunity that students can choose to participate in at least once during winter study. We will be "testing" our inner childhood "skills" throughout the course by exploring children's yoga techniques, games, and activities and getting to practice them, of course, as well!

Requirements/Evaluation: Final project or presentation.
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: If overenrolled, preference will be given to first year students or athletes/Junior Advisors who must be on campus during winter study.
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Amy, class of '05, works at the CLiA as the North Adams Program Coordinator. She has an MD and M.Ed, multiple yoga certifications, and experience in working in wellness with individuals of all ages and from a variety of different backgrounds.

SPEC 40 (W) Exploring Careers in STEM
Join '68 Center staff for an immersive career exploration course, focused on STEM Professions. This field is quickly growing and changing. It includes opportunities for emerging technologists, aspiring researchers, academics, and more. These professions provide a unique opportunity to influence the common good through rewarding, challenging, and impactful work. This course is broken into three stages: During the first stage, students will identify and reflect on their skills, interests, values, and motivations and apply this self-knowledge to their career exploration. Students will practice lifelong career development skills, from identifying and building their network of mentors, to uncovering the hidden job market, to crafting compelling stories in resumes, cover letters and interviews, and more. During the second stage, students will break into small groups specifically focused on strengthening networks and learning from alumni and other industry experts. This course will also feature panels on behavioral and technical interviewing; graduate programs in STEM; and diversity, equity, inclusion, and access in the workplace. During the third stage, the students will travel together to New York City (for three days and two nights) to meet with alumni and employers at organizations related to scientific research, entertainment, big tech, fintech, scientific entrepreneurship, and more. The course will conclude with a reflective session back on campus at Williams. For this immersive course, the group will meet for two hour sessions 5 days/week and will have some preparation to do between sessions. Interested students will complete the following application to articulate their interest in the course by 11:59 pm on November 20:
https://airtable.com/appLN37taapdMaZ7V/shrZs46Fnm9NH98Ch Preference will be given to first years and sophomores who are eager to explore.

Requirements/Evaluation: Participation and a career-related document portfolio
Prerequisites: Interested students will complete a brief application process to articulate their interest in the course by 11:59 pm on November 20

Enrollment Limit: 10
Enrollment Preferences: Preference will be given to first years and sophomores who are eager to explore.

Expected Class Size: NA
Grading: pass/fail only
Unit Notes: As Assistant Director of STEM and Health Careers, Dale's goal is to help students translate their passions, academic successes, and professional goals into meaningful and rewarding careers. Janine Oliver, Director of Career Education, is a high energy idealist. SPEC 46 (W) Feast, Fasts, & Holy Pasts: Religion & Food
In this course students will investigate the intersections of religion, history, and food around the world and in their own lives. Through readings, films, exploratory mapping, site visits, and interviews we will explore: how does food nourish and/or harm physically, socially, psychically, and spiritually? [This is a project-based course]: each week students will engage in larger class-wide collaborative discovery projects and work on individual recipe notes. We will reflect on scarred histories of foods from feasts and famine, peel and slice onions slowly and thoughtfully, consider the metaphysical lessons of an orange, create a class food ritual, and spend a lot of time with one recipe from a friend or family member reflecting on its history, cultural significance, means of transmission, dependence on ingredients and technology, and learning from "performing" the recipe instructions yourself.
Requirements/Evaluation: Paper(s) or report(s); Other: Participation in collaborative discovery projects
Prerequisites: none
Enrollment Limit: 30
Enrollment Preferences: Preference to first and second years.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Jon Kara Shields is a scholar of ethics, religion, and gender. She holds a PhD from the University of Notre Dame, an MDiv from Yale, and an MA (cantab) from Cambridge University. She previously taught at Simpson College.

SPEC 48 (W) Braided Rug Workshop: Resistance to Throw-away Culture

Braided textiles with the use of fabric scraps can be traced to the indigenous tribes in North America, who made saddles and blankets. Colonial settlers were quick to adopt their weaving techniques to make rugs for their homes. In this studio course, suitable for anyone with hand dexterity, students will be introduced to the history of rug making in North America and its evolution over time. Homework will include short readings each week that explore the rich and varied methods of rug making, as well as an exploration of the art as an act of resistance to throw-away culture and overproduction in the textile industry. The reuse of textiles, the manipulation with one's own hands provides a powerful tactile experience and brings awareness to what is required to produce these goods that we utilize every day and their varied use, from functional interior accessory to intricate pieces of art. As part of this exploration, we will adventure to one or two nearby textile recuperation mills. Coursework will culminate with an artistic and/or functional final rug of the student's choosing.

Requirements/Evaluation:  
Presentation(s); Creative project(s)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Open to all.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Nadia Lucchin is an artist living in North Bennington, VT. Nadia's love of nature has driven her to center her work around sustainability, consciously refusing the purchase of materials to create new works and instead using what is readily available.

SPEC 49 (W) Hard Hats, Gloves, and Flashlights: Explore Campus Sustainability and Develop Practical Solutions

This hands-on course offers students the opportunity to take a deep dive-physically and conceptually-into Williams' campus sustainability efforts.
Applying a weekly theme, such as Energy Systems, Food and Waste, and Landscaping, overlaid with an environmental justice perspective, instructors will take students on tours of our physical plant, climb into the bowels of our steam tunnels, peek into the machine and electrical rooms of a geothermally-powered building, look behind the serving stations at the dining halls, and more to see and discuss with experts the efforts implemented and under way to make Williams a more sustainable campus. In addition, students-in small groups-will develop concrete sustainability proposals for college sustainability funding, thereby giving them the opportunity to shape campus sustainability themselves and develop skills in project proposals.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s); Other: course participation in discussions and solutioneering

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** First years have preference, then first come, first serve

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Tanja is the director of the Zilkha Center and has worked extensively on sustainability and climate strategy and operations in academia and other settings. She holds a PhD in environmental statistics and policy from the Yale Environment School.

**SPEC 50 (W) Musicianship and wellness**

Physical and mental health are both equally important to success in music performance and other rigorous disciplines such as athletics and dance. In this course, we will examine strategies to promote general wellness, maintaining both physical and mental wellbeing, while studying and performing in the field of music at all levels. In terms of the physical challenges of musical performance, we will look at ways of coping with the stress of repetitive movements and, more importantly, we will encounter important resources such as physical therapy, Rolfing, yoga, and conventional medicine. In considering elements of mental health in musical practice, we will consider topics related to performance anxiety, perfectionism, and the impact of social media, both positive and negative. The course will also bring in guest speakers that have experienced performance injuries, such as tendonitis or focal dystonia, as well as toxic work cultures and other problematic work and study spaces that contribute to poor mental health. The goal of this course is to help students achieve a more centered approach to music physically, mentally, and emotionally. The class will meet twice a week for three hours. Students will be required to complete a daily journal activity, two music reviews, and a creative project designing a wellness program either for themselves or for a potential student.

**Requirements/Evaluation:** Creative project(s); Other: Journal of goals and daily self evaluations and two performance reviews.

**Prerequisites:** none

**Enrollment Limit:** 20

**Enrollment Preferences:** Students who are interested in studying and/or teaching music, as well as those involved with the department of music will be given preference. Please email me to share your interest in the course and how it connects to your current/future goals.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Dorian Jackman has performed as a double bassist with the Indianapolis, Charlotte, and Charleston Symphonies and also The Who, Weird Al, and Andrew bird. He holds a Doctor of Music from the Jacobs School of Music at Indiana University.

**Attributes:** SLFX Winter Study Self-Expression

LEC Section: 01 TR 10:00 am - 1:00 pm Dorian Dean Jackman

**SPEC 51 (W) The Arts in Pre-war Paris**

In the years just before World War I, Paris attracted creative talents from across Europe. This explosively fertile cultural moment witnessed an extraordinary collection of artists collaborating on projects, exchanging ideas, and exploring new ways of perceiving the world. This course will immerse you in vibrant Belle Époque Paris, through works of music, visual art, dance, theater, and literature. We will spend the most time on the work
of two especially prolific artists who were friends and collaborators: Pablo Picasso and Igor Stravinsky. Other artists examined will include Claude Debussy, Guillaume Apollinaire, Gertrude Stein, Erik Satie, Natalia Goncharova, Piet Mondrian, and others. Students will examine artworks from the WCMA collection and Williams Libraries Special Collections, and watch orchestral and ballet performances online or at the library. This course will meet 6 hours a week for lecture and discussion of artworks viewed. For most class days, students will complete brief reflection assignments on what they heard, read, and watched.

Requirements/Evaluation: Presentation(s); Other: Class participation/discussion

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: Students with background or interest in music, visual art, dance, or literature

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Nathan Cornelius pursues a multifaceted career in music composition, guitar performance, and teaching. He has a DMA in guitar and MM in music theory pedagogy from Peabody Conservatory and an MM in guitar and composition from University of Denver.

LEC Section: 01    TR 10:00 am - 1:00 pm     Nathan Cornelius

SPEC 52  (W) Visible Mending as a Political Act

In this course students will explore a variety of hand mending techniques including patching, sashiko, darning, applique and embellished mending. We will approach this activity as both a sustainable practice and a relaxing skill-building experience. Learning about the waste produced by the textile industry will provide us with the impetus to resist our culture of fast fashion. Mending clothes is a political act that gives us a way out of the fast fashion loop and is a step towards divesting from the billionaires who own clothing chains. Visible mending can be a fashion statement that shows others that we have taken the time and care to extend the lives of our clothes. Students will be encouraged to bring in their own clothing with holes, stains, tears, and worn spots to strategize and create fun and fashionable mends of different types. Demonstrations and hands-on work will be supplemented with readings from "Mend! A Refashioning Manual and Manifesto" by Kate Sekules. All skill levels are welcome. Some hand sewing experience is good for this course but not entirely necessary. Anyone can learn to mend!

Requirements/Evaluation: Creative project(s)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Instructor permission

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Megan Piontkowski is an artist and illustrator living and working in Brooklyn, NY. In her spare time she gardens, knits, mends, and bakes.

SPEC 95  (W) Gaudino Fellowship: Immersive Engagement and Reflection

The Gaudino Fund is offering Gaudino Fellowships for a group of 2 to 4 students during Winter Study, based upon a proposed domestic or foreign collaborative project. Student teams should organize their proposed projects around two main components: direct encounter with otherness and self-reflection. Projects will be evaluated on whether they subject the students to "uncomfortable learning", i.e. having an experience that challenges and perhaps alters one's view of what it is to live a good life and the group's commitment to incorporate separate home stays for each fellow as part of their project, either joint or separate work/engagement internships, and a structure to facilitate collaborative action and learning. The team selected will
be guided and overseen by the Gaudino Scholar who will conduct appropriate preparatory discussions and follow-up sessions to optimize and help students articulate lessons learned from the overall experience. The intent of the program is to open the student to an understanding (of both the familiar and unfamiliar), and to a development of empathy, that could not be achieved without the fellowship experience. N.B. Each prospective team needs to meet with the Gaudino Scholar as early as possible, but no later than September, and submit their group application by September 30. Application guidelines can be found at winterstudy.williams.edu. Each student is expected to write a short (3-4 page) self-reflection before leaving for WSP, keep a journal of their experience, as well as write a 8-10 page paper by the end of the Winter Study period reflecting on their experiences and what has changed in the student's perceptions and beliefs from the opening essay. They will also meet the other members of the team on a weekly basis during Winter Study and regularly update the Gaudino Scholar by email and/or Skype calls. The team that receives the Gaudino Fellowship will give a brief presentation to the Board about their experience at the Board's spring meeting in April. The team whose project is approved will receive the Gaudino Fellow designation. In addition, students on Financial Aid will receive Gaudino funding from a minimum of 50% to a maximum of 90% of the budget for the project up to $2,500, as determined by the Financial Aid office. No additional funding for students' projects will be provided by the College.

Requirements/Evaluation: 10-page paper  
Prerequisites: none  
Enrollment Limit: 10  
Enrollment Preferences: selection is made on basis of proposal  
Expected Class Size: NA  
Grading: pass/fail only

STAT 11 (W) Introduction to Statistical Analysis of Network Data

Networks are everywhere in our connected world, from social networks like facebook and twitter, to information networks like citation and coauthors, from biological network like neural and ecological networks, to technological networks like internet connections or power grids. In recent years, there has been an explosion of network data. How do we learn and represent information from these data? In this course, you will see examples from different types of networks. We will learn how to organize, visualize and describe network data using proper tools in R. Additionally since things are connected in networks, we will explore statistical methods to overcome this challenge with dependent data. Tentatively coursework includes 2-3 class meetings per week for lectures and hands-on computer labs. Students will finish a final project analyzing a network dataset of their interest and share their findings in written or oral form.

Requirements/Evaluation: class participation, lab assignment, final project (short paper or oral presentation)  
Prerequisites: one introductory statistic course (STAT 201 or STAT 202) with R experience before, or permission of the instructor  
Enrollment Limit: 10  
Enrollment Preferences: Students with a statistics background and prior experience working with R
STAT 12 (W) Data for the Public Good: Uses and Abuses of Data in Society

This class, accessible to statisticians and non-statisticians alike, will explore some of the many uses (and abuses) of data, statistics, and algorithms in society. We will discuss topics such as how our view of the world both informs and is formed by the data we collect and present; how to understand data in context; how algorithms intended to reduce bias have in several situations—criminal justice, credit and insurance, employment, and more—had the opposite effect of perpetuating human biases; and ways in which we might work with data more ethically and responsibly. We will meet three times a week for two-hour sessions as a group. Students will be asked to complete readings in advance and write short reflections before each class. The class will also involve a final project in which students investigate the use of data or statistics in an area of their choice and present their findings to their classmates (orally, through a short paper, or through designing a website).

Requirements/Evaluation: readings and written reflections; class participation; final project resulting in a presentation, short paper, or student-designed website

Prerequisites: an introductory statistics course (Stat 101/161/201/202) or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: short application form/statement of interest, with priority given to having a group of students with diverse (prospective) majors and levels of experience in statistics

THEA 11 (W) Chekhov Unhinged: Parodies, Comic Oddities, and Fairy Musicals

As the great writer Leonid Andreev once wrote of the work of Russian dramatist Anton Chekhov: "On the stage, Chekhov must be performed not only by human beings, but by drinking glasses and chairs and crickets and military overcoats and engagement rings." While most people know Chekhov for his realist dramas, he also wrote more bizarre, satirical, and humorous content, including a "joke in one act," a "scenelet from an unproduced vaudeville," parodies, sketches, "comic oddities," and even an excerpt from a "fairy musical." In this Winter Study course, we will read, discuss, play with, and perform selections from Chekhov's early sketch comedies, monologues, and lesser known works as a way to appreciate the richness of his artistic sensibility and depth of his humor. What happens when we consider Chekhov as unhinged from reality? What can we discover about his writing, style, theatricality, or politics when we liberate his voice from the stifling confines of the cluttered drawing room? Working as actors, or, if they choose, as writers, students will select material from Chekhov's more radical canon to enact, or adapt, as a way to engage with this material on our feet. Additionally, focus will be given to the ways Chekhov's art prompts us to understand ourselves and our own contemporary world in deeper and more complex ways.

Class Format: This is a studio class and will involve us collaborating together as actors, makers, and creative practitioners, but students from all levels of experience are welcome! Our goal will be to create, develop, and design a short showcase of work from the "Unhinged Chekhov" to share with an invited audience in the form of a final performance presentation.
Requirements/Evaluation: active participation in class; weekly short writing and journaling exercises; performances of short scenes; collaboration in the development, design, and performance of a final group presentation
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: If overenrolled, preference will go to Theatre majors
Expected Class Size: 10
Grading: pass/fail only

THEA 14 (W) Intro to Storytelling

Ever been transfixed by a compelling story told by a skillful speaker, and wondered - wow, just how do they do it?! Ever wanted to get better at telling stories, whether in personal or professional contexts, but don't quite know how to get started? Storytelling is perhaps the most ancient of human arts, with a rich tapestry of traditions and techniques that can overwhelm you with where to begin. So... begin here! In this Winter Study class, join storytelling coach Hari Stephen Kumar for a warm and guided introduction to the 5 most important principles of storytelling in a fun, friendly, and supportive environment. Through play, curiosity, joy, and a step-by-step approach, you will learn practical techniques and concepts that you can apply right away in your academic, work, and personal lives. Reading: While there is no required textbook for the course, participants will be given a list of recommended books and resources for your own further exploration. Work: In-class instruction will include a mix of lecture and guided practical exercises. You will be expected to work on your stories both in class and between sessions. We will be telling stories in every class session, as well as practicing the art of storylistening as an active audience, so you will be expected to listen to and engage with each other's stories. Student performance: The class will culminate in a student showcase performance, to which members of the public are welcome!
THEA 16 (W) Puppet: Extending the Corporeal Form

This course will provide a hands-on and historical overview of puppetry and kinetic sculpture as a performance method spanning its ancient origins throughout the world, to contemporary artists pushing the boundaries of those traditions with new technologies. Weekly viewings and experiments with materials will allow students to develop original, fabricated designs, and will culminate in short puppet compositions to be presented at the end of the term.

Requirements/Evaluation: Completion of creative projects as assigned throughout Winter Study.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Theatre majors

Grading: pass/fail only

Winter 2024

STU Section: 01 MW 1:00 pm - 4:00 pm Sean Devare

THEA 22 (W) A Filmmaker's Workshop

This 4 week filmmaking workshop will culminate in screening of 6-8 short films which are written, acted, directed and edited by students. The class is taught by actress Jessica Hecht and her husband director/writer Adam Bernstein. The project was offered in 2019, 2022, 2023 and accommodated 30 WS students. We would love to offer it once again with a slightly deeper focus on writing and direction. The key to this project is collaboration in the creative process. Each week there will be approx 8 hours of in class time and 10-12 hours of practical work outside of class. The week we shoot (week 3) will be the most demanding. Supplemental reading and film viewing is recommended. We will offer a set of resource materials. The weekly structure is as follows: WEEK ONE: Fundamentals of filmmaking - The Writer's Approach Our first week allows students to look at several examples of shorts films and experiment with writing prompts and improv exercises to build familiarity with how to structure a story. The week culminates in the formation of groups (4-5 students each) whose interest in a specific area of production has been noted. Scripts will be generated from these groups. All students participate as needed but will have more responsibility in one self chosen area. WEEK TWO: Fundamentals of TV and Film Direction The skills of screen acting vs acting on stage As scripts are being refined, participants will be schooled in basic shots, the director's role and the actor's preparation. Scripts are due by mid week, casting is completed by Friday WEEK THREE: Shooting a Film Groups are schooled in the organization of a shoot and the essential jobs of the crew. Films are shot over three days - a Final Pro vs AVID editing workshop completes the week. WEEK FOUR: Completing the Filmmaking Process. Films are edited and music added for the first 3 days of week. A public screening is organized to complete the workshop. Film discussion to follow.

Requirements/Evaluation: Creative project(s)

Prerequisites: none

Enrollment Limit: 30

Enrollment Preferences: Preference will be given to students who have taken class in the Theatre and or Fine Arts Department or who have worked in film or theatre as an extra curricular activity

THEA 23 (W) Business of the Arts
The practical and administrative aspects of a profession and life in the Arts (performing, visual and other) are examined in this seminar. Topics include: speaking articulately about your work, budgeting basics, marketing your work, building a sustainable fundraising program that fits your artistic practice, cultivating relationships with key industry professionals, pitching your artistry, among other topics. Guest Artists and Arts Administrators from New England will join us with informative presentations that shed light on the practicalities and realities of being a professional artist. Over the course of Winter Study, students will design a hands-on plan and accompanying budget focused on developing and pursuing a life in the arts post-graduation. This course is about preparing artists on the practicalities of building an artistic life after college. By the end of the course, participants will be better prepared to perform the business tasks expected of arts professionals aimed at promoting your work, funding it and growing artistically within the larger arts landscape. Please note: This class is applicable to those students interested in pursuing a career in the Arts full-time, however, if you're considering a "day job" in a separate field, but also want to pursue your artistry part-time, then this class is also for you.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Creative project(s)
Prerequisites: Students need to have completed at least one course in Dance, Theatre, Studio Art or Art History.
Enrollment Limit: 20
Enrollment Preferences: Dance, Theatre, Studio Art and Art History Majors should be prioritized.

WGSS 17 (W) When Drag Kings Sang the Blues: The Surprisingly Queer History of America's First Pop Stars

Some of the most famous American musical artists of the early twentieth century were not only "in the life" - meaning gay, bisexual, or transgender - but they sang about this life too. The most courageous of these artists? Women - queer white women and queer women of color who flouted sexual and gender norms, some to the point that we might now call them trans or non-binary. This course introduces students to a little-known yet revolutionary moment in music history when pioneering musical stars sang boldly about sexual and gender fluidity, and when women's voices literally took center stage. Each week our sessions will be anchored with a particular artist whose life and music will lead us thematically to so much more. We'll start in vaudeville with the male impersonators (America's first drag kings), move on to the early blues and come home with the Jazz Age. Class materials will include videos, sheet music, drag memorabilia, recordings, memoirs and more. We'll listen to music from various genres, explore the power of lyrics and language, learn the unsung history of modern-day drag, dive into the stories behind the songs, and discover how queer performers were pivotal to the launching of the modern music industry. Students will be encouraged to explore the gifts and powers of their own voices too. Throughout we'll uncover what queer music history - and queer female artists - have to tell us about masculinity, femininity, gender fluidity, cross-dressing, homosexuality, love, race, religion and... fun. Students will be expected to keep a journal of ideas and reflection and do outside reading. For a final project students will write a 10-page paper, give a 10-minute in-class presentation, or complete a comparable creative project inspired by the music/artists learned.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s)

WGSS 28 (W) What Kind of Man Reads Playboy?: Constructions of 20th Century American Masculinity
Masculinity and consumerist expressions of American "male-ness" will be explored in the class through the medium of magazine culture, specifically through *Playboy* magazine, one of the most popular men's magazines in American history. The American (male) magazine during the postwar period straddles a dual existence of advertisement and product, simultaneously pushing advertisements for male consumerism of goods, services, and the feminine body alongside its own existence as a product of fiction, journalism, and photography. Throughout the course, we will explore this form of communication through different themes, ranging from war to social and socioeconomic class to women and gender to the self and culture. By looking at these themes, students will become acquainted with ideals of masculinity in addition to exploring how these ideals are built, who controls and submits to them, and why. We seek to understand and contextualize the answer to the question "what kind of man reads *Playboy*?" In this course, we will use a variety of primary and secondary resources which showcase the magazine culture of the time, while also understanding their lasting effect on the national canon. Due to the focus on primary sources, most of our sessions will take place in Special Collections. While in Special Collections, students will be asked to ground their observations of *Playboy*-manufactured masculinity in examples with College Archives and the Chapin Library.

Weekly readings will be assigned and will mostly be interviews, articles, "letters to the editor" featured in *Playboy* magazine, as well as other supplementary materials from comparable sources and academic journals.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s)

**Prerequisites:** Students must have previously taken at least one course in English, History, or WGSS.

**Enrollment Limit:** 15

**Enrollment Preferences:** Preference for students in their junior or senior year. If the course is overenrolled, students will be asked to write a paragraph describing their interest in the course.

**Expected Class Size:** NA

**WSP 12 (W) Yoga for Athletes**

Designed for any and all athletes - both those who are currently on a team or those who are simply into being active - this course will help you enhance your performance by improving your flexibility, increasing your range of motion, and promoting mindfulness. Students will learn the core
asanas (yoga poses) along with variations that work best for them. We'll explore hip, hamstring and shoulder openers and we will move through a variety of yoga flow sequences. We'll examine which kinds of stretches and poses benefit which sports, and we will promote a greater balance between the left and right sides of the body, which often become dissimilar through repeated movements on one side only. Yoga for Athletes is not "Athletic Yoga," but a mindful way to bring more stretching and awareness into your daily activities so as to avoid injuries and promote overall health and well-being.

Requirements/Evaluation: Presentation(s)
Prerequisites: No prior yoga experience is required to take this course. If you currently have an injury and are unable to bear weight on your hands or on your feet, this probably isn't the right time for you to enroll.
Enrollment Limit: 21
Enrollment Preferences: Please send me a brief email telling me why you would like to take this course, how you think it would benefit you, if you have had any previous experience with yoga, and if you have had any injuries.
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Mary Edgerton is a certified yoga teacher who has taught yoga at Williams College and elsewhere in Berkshire County for more than ten years. She has done specialized training at Kripalu in Yoga for Athletes.
Materials/Lab Fee: $75

WSP 30  (W)  EMT Training
This course will prepare students for the National Registry of Emergency Medical Technicians (NREMT) certification, a first step toward applying for state licensure. Upon successful completion of this course and the Commonwealth of Massachusetts Psychomotor (Practical) Examination, students are eligible to sit for the National Registry of Emergency Medical Technicians (NREMT) computer-based cognitive exam. Please note that this course requires an intensive time commitment both in the classroom and for self-study. SPEC 30 is a full-time commitment. Classes will be held Tuesdays and Thursdays from 9 a.m. to 3 p.m. and there will be a significant amount of required work to be completed outside of class. If you're interested in registering for SPEC 30 please fill out an Application Form: (To be shared at a later date.) The deadline to apply is October 28th, 2022. There is a $1,400 cost associated with this course, if this is a barrier to entry for you we will work with financial aid to find a way for you to participate. Those who have a strong interest in healthcare and would actively utilize this training are encouraged to apply.

Requirements/Evaluation: Other: comprehensive quizzes, classroom practical, active participation, final exam
Prerequisites: Open to all class years. All participants must be 18 years of age or older.
Enrollment Limit: 25
Enrollment Preferences: Those who have a strong interest in healthcare and would actively utilize this training are encouraged to apply.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Sharon Gonzales if the Director of Health Professions Advising at Williams College.
Materials/Lab Fee: $1400
Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration

WSP 31  (W)  Current Issues in Higher Education Leadership
The work of a college president has gone from obscurity to headline news in a few short years. Why do people seem to suddenly care so much? Why is our country so torn about what college is... and should be? Through readings and multimedia, discussions and small group exercises, writing assignments and conversations with special guests, we'll look at the ups and downs of educational leadership, both nationally and at Williams. The class will encourage deeper understanding of both public opinion and the view from the helm; offer insight into the workings of Williams and colleges more generally; and develop ideas that can be applied in leadership roles of all kinds.

Class Format: The course will include Zoom discussions with one or more special guests.
Requirements/Evaluation: Most sessions will include light reading assignments made up of academic and non-academic articles, videos and other
multimedia materials. Students will be asked to complete several individual and group writing assignments during the term, both in and out of class. The final project will be a collaborative assignment comprising an in-class presentation and written submission.

**Prerequisites:** None

**Enrollment Limit:** 14

**Enrollment Preferences:** Given that the course will likely be offered again, enrollment preference will be given to seniors and juniors.

**Expected Class Size:** 10

**Grading:** pass/fail only

Not offered current academic year

**WSP 43 (W) Knitting for Mindfulness (Advanced)**

For students who already know basic knitting techniques but want to take this skill to the next level. This course is designed for experienced knitters looking to learn how to do more advanced skills such as stranded colorwork and sweater making while building community with fellow knitters. In addition to hands-on practice, students will deepen their understanding of knitting theory and design principles. They will learn how to read and interpret complex knitting patterns, adapt designs to suit their preferences, and troubleshoot common challenges that arise in advanced projects. Students will complete an adult sweater by the end of the course, in addition to visiting local yarn stores, yarn dyers, and yarn spinners to understand the local landscape of fiber arts in Berkshire County.

**Requirements/Evaluation:** Creative project(s)

**Prerequisites:** Basic knitting techniques - cast on, knit, purl, cast off

**Enrollment Limit:** 10

**Enrollment Preferences:** Demonstrated knitting techniques by submitting samples of their previous knit projects

**Expected Class Size:** NA

**Grading:** pass/fail only

Unit Notes: Ashley Weeks Cart '05 is a Berkshire-based artist/photographer and an obsessive knitter. Ashley holds a BA in Art and WGSS from Williams College and a MA in Curatorial Practices and the Public Sphere from the University of Southern California.

**WSP 47 (W) Practical Applications of Sports Performance**

Effective training programs involve the coordination of many variables in a systematic fashion that enables the body to adapt and performance level to improve. Students will be exposed to a complete system of sports performance training and methodologies. The course includes theoretical classroom, and practical hands-on portions. Participants will learn strategies for maximizing performance levels and mitigating injury. Training program variables include test selection and administration, warm up and flexibility training, speed and agility training, core training, energy system development, exercise techniques, recovery and regeneration. Throughout the course, students will complete content (article) briefs as well as design and present, in small groups, components of strength and conditioning programs.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s)

**Prerequisites:** No previous experience with health and physical fitness is required but recommended.

**Enrollment Limit:** 30

**Enrollment Preferences:** none

**Expected Class Size:** NA

**Grading:** pass/fail only

Unit Notes: Coach Brown brings a 20+ year career as a strength and conditioning coach and athletic trainer launching and optimizing sport performance programs and applied sports science initiatives at the professional, collegiate and HS level.

WSP 48 (W) Braided Rug Workshop: Resistance to Throw-Away Culture

Braided textiles with the use of fabric scaps can be traced to the indigenous tribes in North America, who made saddles and blankets. Colonial settlers were quick to adopt their weaving techniques to make rugs for their homes. Around the 1930s the practice of connecting braids by "lacing" them together was started. This is the method generally used today. In this studio course, suitable for anyone with hand dexterity, students will be introduced to the history of rug making in North America and its evolution over time. Homework will include short readings each week that explore the rich and varied methods of rug making, as well as an exploration of the art as an act of resistance to the disposable culture and overproduction we see in the textile industry today. The reuse of textiles and the manipulation of these items with one's own hands provides a powerful tactile experience and brings awareness to what is required to produce these everyday goods and their varied functionality, from interior accessories to intricate works of art.

As part of this exploration, we will adventure to one or two nearby textile recuperation mills. Coursework will culminate with an artistic and/or functional final rug of the student's choosing.

Requirements/Evaluation: Creative project(s)

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: I'd be open to teaching a second section of this course if overenrolled by double. Otherwise, students who need the course in order to graduate on time would be given preference.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Nadia Lucchin is a garden and textile artist based in North Bennington, VT. Nadia's love of nature has her consciously refusing the purchase of new materials and instead using what is readily available and has the least negative environmental impact.

WSP 51 (W) The Arts in Prewar Paris

In the years around World War I, Paris attracted creative talents from across Europe. This fertile cultural moment witnessed an extraordinary collection of artists collaborating on projects, exchanging ideas, and exploring new ways of perceiving the world. This course will immerse you in vibrant Belle Époque Paris, through works of music, visual art, dance, theater, and literature. We will spend the most time on the work of two especially prolific artists who were friends and collaborators: Pablo Picasso and Igor Stravinsky. Other artists examined will include Claude Debussy, Guillaume Apollinaire, Gertrude Stein, Henri Matisse, and Natalia Goncharova. Students will examine artworks from the WCMA collection and the Clark Institute and watch orchestral and ballet performances online or at the library. This course will meet 6 hours a week for discussion, field trips, and lectures. Students will complete brief reflection assignments on what they heard, read, and watched.

Requirements/Evaluation: Presentation(s); Other: Class participation/discussion

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: Students with background or interest in music, visual art, dance, or literature

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Nathan Cornelius pursues a multifaceted career in music composition, guitar performance, and teaching. He has a DMA in guitar and MM in music theory pedagogy from Peabody Conservatory and an MM in guitar and composition from University of Denver.

WSP 95 (W) Gaudino Fellowship: Immersive Engagement and Reflection

The Gaudino Fund is offering Gaudino Fellowships for a group of 2 to 4 students during Winter Study, based upon a proposed domestic or foreign collaborative project. Student teams should organize their proposed projects around two main components: direct encounter with otherness and self-reflection. Projects will be evaluated on whether they subject the students to "uncomfortable learning", i.e. having an experience that challenges
and perhaps alters one's view of what it is to live a good life and the group's commitment to incorporate separate home stays for each fellow as part of their project, either joint or separate work/engagement internships, and a structure to facilitate collaborative action and learning. The team selected will be guided and overseen by the Gaudino Scholar who will conduct appropriate preparatory discussions and follow-up sessions to optimize and help students articulate lessons learned from the overall experience. The intent of the program is to open the student to an understanding (of both the familiar and unfamiliar), and to a development of empathy, that could not be achieved without the fellowship experience. N.B. Each prospective team needs to meet with the Gaudino Scholar as early as possible, but no later than September, and submit their group application by September 30. Application guidelines can be found at winterstudy.williams.edu. Each student is expected to write a short (3-4 page) self-reflection before leaving for WSP, keep a journal of their experience, as well as write a 8-10 page paper by the end of the Winter Study period reflecting on their experiences and what has changed in the student's perceptions and beliefs from the opening essay. They will also meet the other members of the team on a weekly basis during Winter Study and regularly update the Gaudino Scholar by email and/or Skype calls. The team that receives the Gaudino Fellowship will give a brief presentation to the Board about their experience at the Board's spring meeting in April. The team whose project is approved will receive the Gaudino Fellow designation. In addition, students on Financial Aid will receive Gaudino funding from a minimum of 50% to a maximum of 90% of the budget for the project up to $2,500, as determined by the Financial Aid office. No additional funding for students' projects will be provided by the College.

**Requirements/Evaluation:** 10-page paper

**Prerequisites:** none

**Enrollment Limit:** 10

AMST 17 (W) Social Justice Advocacy/Just Futures in New York City

Winter Study Travel Course Proposal (January 2024) Social Justice in New York City SPEC 27 (updated course last offered in Jan 2019) Instructor: Joy James, Ebenezer Fitch Professor of Humanities Instructor Email: jjames@williams.edu Department: American Studies/Humanities Course Title: Social Justice Advocacy/Just Futures: Student Experiential Learning with NYC Nonprofits: IFCO, BKLYN Combine; Ms. Stephanie Science Club/PS; JMAC for Families. This winter study course revises the 2019 course to include two additional nonprofits: BKLYN Combine and JMac for Families (Harlem). I. Ms. Stephanie Science Club Williams College students will shadow Stephanie E. Farmer, founder & Executive Director of Triple F Empowerment, Inc, a small Harlem-based nonprofit/grassroots organization engaged in STEAM education in public, under-resourced elementary and middle schools. Interns will have the opportunity to work with elementary students in Harlem through hands-on STEAM educational activities, facilitate science workshops conducted at a New York City public school during the week and volunteer on Saturdays at Ms. Steph's Science Club. As educational interns, students will have a weekly Q&A (debrief) session with Ms. Steph about education and STEAM. II. The BKLYN Combine Public Debate Program (BCPD) co-founded by Dr. Keith White, Esq. focuses on debate and critical analyses support youths to "interrogate information" so that "their relationship to that information becomes intimate and granular." The BCPD works to offer opportunities for critical analyses and learning legal rights for youths who also are introduced to debate. III. JMac for Families is based in Harlem, NY and works on behalf of working-class families who face unwarranted removal of their children through foster care. https://jmacforfamilies.org/ IV. IFCO is a nonprofit based in Harlem that provides medical care packages and advocacy for under-resourced communities and nations.

Requirements/Evaluation: A 10-page paper; Two five page papers; participations in seminar discussions, participation in nonprofit organizations engagement, journal.

Prerequisites: Interests in social justice and commitment to engage with nonprofits and to do prep readings on politics, human rights and civil rights advocacy relevant to NYC and specified nonprofits.

Enrollment Limit: 8

Enrollment Preferences: Preference is for students who are comfortable in an urban environment and who have interest in social justice, diverse communities, political analyses and civic engagement.

Expected Class Size: 8

Grading: pass/fail only

AMST 18 (W) The Toxic Legacy of Local History: Industrialization, Deindustrialization, and Environmental Justice

The history of industrialization in the northern Berkshires provides a remarkable illustration of the forces of that have shaped American society over the last two centuries. In this course, we will examine a number of local case studies that illustrate these forces and their outcomes, with particular attention to the history of North Adams. We will investigate and discuss, - How the needs of industry determined the location and the subsequent economic development of North Adams; - The transition from nineteenth to twentieth century industrial production, with particular attention to the dramatic increase in sophistication of products and the toxicity of the waste stream; - The connection between immigration, labor, and unionization, exemplified by the recruitment of Chinese immigrants to North Adams to break a strike; - The rise of environmental regulation and the rapid exportation of hazardous industries to developing nations, leaving industrial cities like North Adams with almost no economic basis; - The toxic legacy of our industrial past: A housing stock heavily contaminated by lead paint; a neighborhood razed because of contaminated groundwater, and a river so polluted that fish caught in it can't be eaten. The course will highlight the local and global environmental justice and public health consequences of the different phases of industrialization, and will consider approaches to mitigating some of these impacts.

ANSO 17 (W) Journalism Today
Even as the field is constantly changing and reshaping itself, at the heart of journalism is the desire to thoughtfully report and write stories about the world around us. This course is a bottom-up examination of what that means, from the practical skills of how to hone a story idea and conduct an interview, to the process of crafting a finished work. Throughout the class, we'll do a series of small exercises to work on specific skills, building up to a feature-length work about a subject that matters to you by the end of the month. We'll read classic work from the past, as well as some exemplary pieces from today, and question and consider the ethical, legal, and professional questions that are inherent to nonfiction work. We'll also discuss the real-world applications of these ideas with a busy schedule of guest speakers (in-person and virtual), who will talk about their work and careers in the news business. Past guests, many of them Williams alumni, have included journalists from the New York Times, the Wall Street Journal, the Washington Post, NPR, ABC News, Politico, Bloomberg, and ProPublica. This course would be quite useful for students with experience in journalism and are considering it as a career, but also for anyone who wants to understand more about how the media works, or would simply like to experiment with and try out new ways of telling stories that make a difference.
Requirements/Evaluation: Paper(s) or report(s); Presentation(s)
Prerequisites: n/a
Enrollment Limit: 15
Enrollment Preferences: If overenrolled, a statement of interest in journalism would be appreciated.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: I am an independent journalist who was a reporter and editor at the Berkshire Eagle, and earlier had covered national energy policy in Washington, wrote about sports in Moscow, and worked on the international desk at Newsweek in New York.

ANSO 20 (W) The Ayn Rand Cult and the Libertarian Mind

The broad, "underground" influence of publicist-novelist Ayn Rand stands as one of the more curious sociocultural phenomena to have emerged out of post-War America. Examples: A youthful Alan Greenspan was a dedicated disciple of Rand's in the 1940s and 50s: Michael Milken was reported to have kept twenty-six copies of Atlas Shrugged in his jail cell while serving time for securities fraud; former Congressman Paul Ryan and Exxon CEO (and then- Secretary of State) Rex Tillerson both are avowed fans of Ayn Rand; each year to this day, Rand's books sell hundreds of thousands of copies; and, in a crowning instance of "canonization," the U.S. Postal Service issued a commemorative stamp in Rand's honor (as part of its "Great American Authors" series) in April 1999. This course will examine the nature and origins of the Rand phenomenon through reading of relevant works of journalism, fiction, and philosophy. Titles to be studied: Jeffrey Walker, The Ayn Rand Cult; Mary Gaitskill, Two Girls: Fat and Thin; Gene H. Bell-Villada, The Pianist Who Liked Ayn Rand (selections) and On Nabokov, Ayn Rand and the Libertarian Mind; and John Locke, Second Treatise of Government. We will also view two films: the movie version of The Fountainhead (1949) and the 1996 documentary Ayn Rand: A Sense of Life. Note: No books by Rand will be read in this class! It is a course not "about" Rand but rather about the cultural sociology and anthropology of Randism.

Requirements/Evaluation: class attendance and participation, readings, short weekly journal entries, and a final 10-page paper

Prerequisites: some previous acquaintance with Rand's work

Enrollment Limit: 30

Enrollment Preferences: by seniority (i.e. first seniors, then juniors, then sophomores, etc.)

Expected Class Size: NA

Grading: pass/fail only

Attributes: STUX Winter Study Student Exploration

ANTH 15 (W) Photography and Personal Vision

When you look at a photograph, what is it really saying? How can you make a photograph that says what you mean? This course will delve into the concepts of photographic seeing and visual literacy, while also exploring practical ways to apply these concepts to your own photography. In class we will review photobooks and discuss how a well-sequenced body of work can be greater than the sum of its parts. We will learn how to use professional image editing software like Adobe Lightroom during the course. Students will learn to defend their work during in-class critiques, and at the end of the course the class will produce an exhibition of their photography. The class will meet in Hopkins Hall 105 two times per week - Tuesdays from 10am-12pm and Thursdays from 1pm-5pm. Generally, we'll be talking about reading pictures on Tuesdays, and we'll be talking about making pictures on Thursdays. Outside of class, students will be expected to photograph in the local area. Students must either own or borrow a digital SLR. Williams Equipment Loan has plenty of suitable cameras available for your use, and Adobe Lightroom is available on Williams computers. We will not spend a lot of time building technical proficiency in this class but I will give you suggestions on how to improve your images, regardless of your equipment or level of training. If you are having an issue with your camera or digital workflow, don't hesitate to reach out for technical assistance during the course - I will be available for one-on-one Zoom meetings throughout the winter study.

Requirements/Evaluation: final project or presentation

Prerequisites: No experience or personally-owned camera equipment is required, but students are welcome to use their own cameras if they have them. Williams Equipment Loan has an excellent selection of cameras to borrow.

Enrollment Limit: 10

Enrollment Preferences: If overenrolled, prospective students can email me

ARAB 13  (W) Introduction to Middle Eastern Hand Drumming
Since ancient times, percussion instruments have been at the heart of Middle Eastern musical and ritual life, providing intricate rhythmic patterns as foundation. Today, many of these drums accompany musical traditions across a wide Mediterranean region, from the Arab world to Greece, Turkey, Armenia, and beyond. This class offers students the opportunity to engage, in a hands-on ways, with the vibrant tradition of Middle Eastern drumming and its heritage of cross-cultural flows. In this course, we will study the fundamentals of Middle Eastern drumming on traditional percussion instruments. We will focus on exploring the doumbek (i.e. Arab tabla), riqq, and frame drum. Students who have drums are welcome to bring their own, but the instructor will provide a variety of instruments for students to use in class and at home. Each class session will highlight technique, rhythm theory, and accompaniment. We will also dedicate time to learning a composition for this drum section. Some short readings and audio and video samples will supplement our in-class drumming, and there will also be optional evening practices. Evaluation will be based on a self-recorded demonstration of core rhythmic patterns as well as a final performance.

Requirements/Evaluation: Presentation(s); Performance(s)

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: Graduating students, Middle Eastern Music Ensemble members, and related Majors will be given priority in the event of overenrollment

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Rami El-Aasser is co-director of the Middle Eastern Music Ensemble at Williams. He plays traditional percussion (darbuka, riq, deff) and sings worldwide with groups including Alsarah & the Nubatones, and Zikrayat.

ARTH 13 (W) Stradivari
Antonio Stradivari is the most famous violin maker of all time. He made over 1,000 violins, violas and cellos which, for centuries, have been coveted by soloists for their inimitable tone, power and beauty. Stradivari violins weigh less than a loaf of bread, spend several hours a day under a chin, are occasionally forgotten in taxis and yet they have become multimillion-dollar proxies for culture, class and wealth. In this course we will learn how violins are made, how they work and what makes a Stradivari so special. We will study the evolution of this 17th century craft into an elevated art-form and examine why the name Stradivari attracts so much mystery, romance and myth-making. We will examine (and hear!) Stradivari instruments in person and we will blind-test old instruments against new. We will explore issues of connoisseurship, art business and performance psychology. We will visit a modern violin making workshop and a conservation lab and we will see how new technologies are revolutionizing the restoration of 400 year old instruments. Evaluation will be based on a final project, performance or paper.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Performance(s)
Prerequisites: A curiosity about music history, music performance or art business.
Enrollment Limit: 20
Enrollment Preferences: If over-enrolled, preference will be given to musical and art history minded applicants.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Jason Price '00 is an expert on old Italian violins and is the Founder and Director of Tarisio which holds the record for the highest price ever paid for a Stradivari violin at auction.

ARHT 14 (W) The Digital Humanities Toolkit

This course will provide students an introduction to digital humanities methods and hands-on experience with a variety of essential tools. Students will curate a digital exhibition in Omeka using the Visual Resources Center’s historic photograph collection. In the process, students will learn about digital imaging, metadata, mapping, timelines, virtual reality, and data analytics and visualization. Discussion and lab time in the Visual Resources Center will be paired with cross-campus visits, where guest speakers will share their expertise and engage students in topics such as 3D modeling and printing, and artificial intelligence. Short readings and videos will be assigned to supplement materials presented in class. Students will present their final exhibition projects at the end of the course. While the course will often approach digital humanities through the image-intensive lens of Art History, students pursuing a variety of disciplines are welcome. Students will complete the course having been introduced to a broad range of ways to incorporate digital technologies into their humanities research.

Requirements/Evaluation: Other: Final project and presentation
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Preference will be given to students who have completed one or more Art History courses.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Amy McKenna, Director of Visual Resources, develops digital humanities teaching projects with Art faculty and curates digital and historic teaching collections.

ARHT 32 (W) Curation and Context: From Museums to Marketing

Nothing is truly "presented without context." The circumstances and framing of an image or information matter as much as the object, artwork, or datapoint itself. This course will examine how curation is always at play, complex layers of context exist, and a specific perspective is always being presented--whether we're in a museum, looking at a website, or anything else humans make. You've heard of the Museum of Modern Art in New York and the British Museum in London, but what about the Wine Cultures and Civilisations Museum in Bordeaux or the Sex Machines Museum in Prague? Or perhaps you've scrolled through insta photos taken at the Museum of Ice Cream or the Color Factory? Speaking of social media, perhaps you've already begun to build your brand online? While we may be introduced to some concept of a critical eye towards curation & the information we're being presented during our classes and research at Williams, it only becomes more important as we encounter art, advertisements, stories, products, and propaganda in the real world. In this course, we will explore how different museums, exhibits, and experiences curate and contextualize art & other
assets for visitors—and we will apply that same analytical approach to brands, business, and individuals in the digital and online space. We will practice asking ourselves - What am I looking at? What am I being told about it? Who is showing this to me, and why? Where does this fit into larger narratives of culture and history? And with all that in mind—what do I think about it? Evaluation will be based on class participation (2 hours x 3 days / week), two short (2-3 page) papers, and a final project presentation. Outside of class, you will have reading assignments as well as researching & developing your final project. We will take advantage of the local museums available by taking class field trips to WCMA, The Clark Art Institute, and Mass MoCA.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s)
Prerequisites: Preferred experience with any Art History course

Enrollment Limit: 18
Enrollment Preferences: Prefer juniors and seniors; can send short 1-2 paragraphs about why they are interested in this course.

Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
ARTS 11 (W) FROM THE PAGE TO THE SCREEN
The course will explore the process by which the visual language of a film or television show is realized. How production and costume designers, hair and make-up artists, cinematographers, and other members of the creative team arrive at a unified vision which defines the look of any production. The course will be both analytical - dissecting the visual choices made by each member of the creative team on an array of films or television shows - and practical - each group of students being assigned an unproduced screenplay or television script for which they will first have to define the visual language. And then create a document to illustrate that vision. Where is the story set? Where do the characters live? What do their houses or apartments look like? How do they dress, wear their hair? What is the overall color palette? How is the show lit? How is it shot? The techniques the students choose to create that document is up to them. It can be references from other films or television shows, images gleaned from other media, original drawings, or computer-generated images, either still or moving. A combination of some or all. Whatever they feel best conveys their vision of how to bring what's "on the page" to the screen.

Requirements/Evaluation:  Presentation(s); Creative project(s)
Prerequisites:  None.
Enrollment Limit:  12
Enrollment Preferences:  If overenrolled, will ask for a statement of interest.
Expected Class Size:  NA
Grading:  pass/fail only
Unit Notes:  Frank Doelger, Class of 1975, is a multiple Emmy Award-winning television producer, whose credits include HBO's Game of Thrones, Rome, and John Adams, among many other successful productions.

ARTS 14 (W) Welding in the Third Dimension
In this class, students will be introduced to the welding process and will explore steel as a material for drawing three dimensionally in space. Steel, an industrial material, is amazing at defying gravity, and welding is a direct and quick way to fuse steel together. Through processes such as bending, cutting, and welding we will explore steel as an art material.

Requirements/Evaluation:  Performance(s); Creative project(s)
Prerequisites:  None
Enrollment Limit:  9
Enrollment Preferences:  None
Expected Class Size:  NA
Grading:  pass/fail only
Unit Notes:  Samantha Pasapane is a sculptor who uses foundry methods, metal fabrication, concrete and mold making in her work. She is also obsessed with nail polish. She was born and raised in Morristown, NJ. She received her BFA from the Maryland Institute Coll
Materials/Lab Fee:  $500. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

ARTS 15 (W) Architecture: Reimagining the Sugar House

This course will provide an opportunity to explore architectural design through reimagining New England’s beloved ‘sugar house’. By investigating the quintessential New England process of producing maple syrup, students will create their own interpretation while focusing on the architectural implications and exploring design possibilities. Maple Syrup production has a deep-rooted history throughout New England which can be experienced in the surrounding landscape and observed locally in Hopkins Forest. The built structures of this process are a direct result of the specific sugaring systems and provide an example of vernacular design as pure product of function. Additionally, as maple syrup production requires an in-depth understanding of nature and natural processes, it demonstrates an inherently active relationship between architecture and the natural environment. Consisting of a local site visit, site analysis, and conceptual design, this course plans for students to reimagine and explore these relationships through the development of architectural interventions. Throughout this course, students will gain understanding and experience in the architectural design process and are expected to present their final design project. Various mediums for the visual representation of final projects will be accepted.

Requirements/Evaluation: Presentation(s); Creative project(s); Other: Evaluation will be based on the completion of a final project, presentation of the final project, and attendance throughout the course.

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Preference given to Seniors, Juniors, and Art Majors.

Expected Class Size: NA

Grading: pass/fail only

ARTS 17 (W) Visible Mending as a Political Act

In this course students will explore a variety of hand mending techniques including patching, sashiko, darning, applique and embellished mending. We will approach this activity as both a sustainable practice and a relaxing skill-building experience. Learning about the waste produced by the textile industry will provide us with the impetus to resist our culture of fast fashion. Mending clothes is a political act that gives us a way out of the fast fashion loop and is a step towards divesting from the billionaires who own clothing chains. Visible mending can be a fashion statement that shows others that we have taken the time and care to extend the lives of our clothes. Students will be encouraged to bring in their own clothing with holes, stains, tears, and worn spots to strategize and create fun and fashionable mends of different types. Demonstrations and hands-on work will be supplemented with readings from "Mend! A Refashioning Manual and Manifesto" by Kate Sekules. All skill levels are welcome. Some hand sewing experience is good for this course but not entirely necessary. Anyone can learn to mend!

Requirements/Evaluation: Presentation(s); Creative project(s)

Prerequisites: Basic hand sewing skills are helpful but not required.

Enrollment Limit: 12

Enrollment Preferences: Priority given to students who express an interest in learning mending.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Megan Piontkowski is an artist and illustrator living and working in Brooklyn, NY. Her first visible mend was a "pocket patch" on the knee of a pair of leggings when she was about 10 years old.

Materials/Lab Fee: $100

Attributes: EXPE Experiential Education Courses  SLFX Winter Study Self-Expression

Not offered current academic year
ARTS 20 (W) Interpreting the Figure
This studio class investigates the human figure through observational drawing methods that include dry media, watercolor and experimental approaches. Students will work from the nude or draped model, sculptural forms, and reference images, as well as posing for each other (clothed). To contextualize the studio work, students will examine diverse ways the figure has been represented across time from several cultures and continents. Outside of class hours, students will be expected to keep a drawing and watercolor sketchbook of assigned prompts, drawing and written 'reflections', engaging with it a minimum of 10 hours per week. Additionally, the class will make site visits to WCMA and The Clark Art Institute. Required readings and film screenings will be assigned. Students will present and exhibit their final projects at the completion of WSP. Time commitment will be 2-3 hour classes per week plus a Friday field trip: attendance required.

Requirements/Evaluation: Presentation(s); Creative project(s)
Prerequisites: Basic Drawing experience is helpful but not required.
Enrollment Limit: 14
Enrollment Preferences: Seniority
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Julia Morgan is a practicing visual artist and art educator. She holds an MFA from Vermont College.

ARTS 23 (W) Clothes that Hang on Art: Survey of Artists Who Use Clothes to Make Art and Related Workshops
This course will look at a group of artists who use clothing as their medium for creating works of art whether it be as raw material, subject, or object. We will consider works from WCMA's collection including Judith Shea's "Panties", Yinka Shonibare's "Dreamscape", Papo Colo's "Working-Class America", and Fabricce Monteiro's "The Prophecy, Untitled #1". Students will also be introduced to artworks not in the collection, featuring artists such as Louise Bourgeois, David Hammons, Steven Frost and Shinique Smith. We will discuss themes, techniques, processes, origin stories and the presence or absence of the body. Related workshops will give students the opportunity to explore making art with found garments. Prompts will be given to encourage the mining of personal stories to foster self-expression and discovery. Playfulness, experimentation, collaboration and introspection will be the core values of the class.

Requirements/Evaluation: Presentation(s); Creative project(s)
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: Preference given to students who do not have a background in art and art making.
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Anne Kennedy is the Event and Program Coordinator at the Williams College Museum of Art. Terese Wadden is a New York based artist and costume designer, who has designed the costumes for the Tony Award Winning production of Oklahoma! on Broadway.

Materials/Lab Fee: $200. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

ARTS 24 (W) Drawing as Meditation
Drawing as Meditation is a course focused on drawing as a cross-disciplinary practice that activates our mind-body relationships. Going beyond the technical, we will center drawing as practice in mindfulness, where one's "mind" is understood as a fully embodied, inter/subjective experience. Diverse drawing experiments will bring awareness to our body sensations, emotions, thought patterns, and expectations we may have for our
drawings. Using both traditional and nontraditional drawing tools, we will explore a series of activities that draw on Psychology, Art Education, Performance Studies, and Liberatory practices. We will explore what it means to have a creative practice and how to incorporate forms of play into our learning and growth. Class time (two 3-hour sessions per week) will be split between short drawing activities and discussion. Enrolled students will be expected to complete daily drawing journals, as well as short readings and writings, not exceeding 10 hours per week. No prior drawing experience required, only a willing desire to put pencil to paper, to experiment, and to be open to what unfolds.

Requirements/Evaluation: Attendance, completion of daily drawing journals, weekly readings, and short writing reflections, and participation in class activities

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Students who have otherwise struggled to enroll in arts classes. Preference for Juniors and Seniors

Expected Class Size: 15

Grading: pass/fail only

Materials/Lab Fee: $150. Lab and materials fees for all studio art classes are covered by the Book Grant for all Williams financial aid recipients.

ARTS 30  (W) Portrait Painting: Fayum mummies, the Obamas, and now.

This course will be a hybrid studio practice and visual survey of the painted portrait. We will trace various approaches to portraiture and mark-making, from the Fayum mummies, to the portraits of Barack and Michelle Obama, until the present, in order to inform how we will paint portraits (of oneself or another) throughout the course. Portraiture and figuration have experienced an explosive resurgence over the past decade, bolstered especially by artists from historically marginalized communities. This course will consider the historic underpinnings of the impulse to render a person's likeness, its function, and its role in wider culture. The course will culminate in a final exhibition of each participant's work, which students will work on in- and outside of class for the duration of the course. We will begin by looking at a range of approaches to portraiture, along with various drawing and painting exercises. We will then spend the bulk of winter term working towards a single, polished painting, in oil-on-canvas. In order to inform our own works, throughout the class we will consider many of the touchstone examples of portraiture over the centuries, as well as contemporary works, to survey a range of styles and how their respective techniques and painted marks have reflected the zeitgeist or collective psychology of a time and place. The course will meet three times per week to engage in dedicated studio work, and group analysis of historic examples of painted portraits. Outside of class, students will be expected to continue their studio work, as well as additional drawing or painting exercises, readings, and possible film screening(s) and visits to nearby exhibitions. The final project, a single portrait painting, will be displayed in a group exhibition in Spencer Art Building at the culmination of the Winter Study period, at which time each artist will present their finished work.

Requirements/Evaluation: Presentation(s); Creative project(s); Final group critique with brief presentations by each artist, followed by an exhibition and reception.

Prerequisites: No experience necessary, but some background in painting and drawing is a plus.

Enrollment Limit: 15

Enrollment Preferences: Preference will be given to studio and art history students, and will be given to Seniors thereafter. Students who have taken ARTS 100 or ARTS241 will certainly hit the ground running a bit better but not essential.

Expected Class Size: NA

Grading: pass/fail only

Not offered current academic year

IND Section: 01  TBA  Frank Jackson

ARTS 32  (W)  Knitting for Mindfulness: Relieving Anxiety and Stress

"In knitting, when you create the first stitch of a new project, you cast on. When an item is finished, you bind it off. Both of these actions, I've found are incredibly satisfying - the bookends of something manageable and finite. They give me a sense of completion in a world that will always and forever feel chaotic and incomplete." - Former First Lady Michelle Obama, The Light We Carry In this studio course, intended for both beginners and more advanced knitters, students will be introduced to the calming, joyful and meditative practice of knitting as both a creative outlet and a means of reducing anxiety and stress. Throughout the course, students will improve their knitting techniques while exploring the many physical and mental health benefits associated with this practice. Through hands-on instruction, students will improve their foundational skills of knitting as well as learning the history, art and technique of stranded colorwork. They will also learn how to read a knitting pattern and how to select appropriate yarn and needles for knitting projects through in-person field trips to two local yarn studios. By the end of the course, students will write and produce their own stranded colorwork pattern and project. Throughout the course, students will explore how knitting can serve as a meditative practice, helping to calm the mind and reduce stress. In addition to developing technical skills, students will explore the cultural, social, and political dimensions of knitting. This includes examining the gendered history of knitting, and the ways in which knitting has been reclaimed by modern-day makers and activists. By the end of the course, students will have developed a foundational knowledge of knitting and mindfulness techniques as well as skills and techniques to explore their own creative designs through the production of a personal knitting pattern.

Requirements/Evaluation:  Presentation(s); Creative project(s)

Prerequisites:  Knitting basics preferred. Students should know how to cast on, knit, purl and cast off a knitting project.

Enrollment Limit:  15

Enrollment Preferences:  Students will submit samples of their previous knitting projects to demonstrate basic understanding of the craft.

Expected Class Size:  NA

Grading:  pass/fail only

ARTS 33  (W)  Flat Space: Gouache!

Gouache acts like opaque watercolor; it is excellent for painting small, flat areas of brilliant color on paper. In this course, we will make small but mighty gouache paintings on paper from observation and invention, focusing on depictions of space (inside, outside, real, imagined...). Instead of shading a space according to a light source and linear perspective, we will activate pattern and color-experimenting with shifts in scale, chroma, value, and temperature-to create space through flatness. We will look at rich painting traditions that arm flatness in this way, including Indo-Persian miniature paintings and ancient Egyptian paintings and drawings. We will also discuss global modern and contemporary painters who take up flatness, from Gustav Klimt to Chris Ofili. Class time will consist of painting exercises, discussions, group critiques, and independent work time towards the week's given painting assignment with 1:1 feedback. Homework will include a short reading each week. Coursework will culminate with an ambitious final painting of the student's choosing. This course is open to all levels of painting experience and beginning students will be encouraged! An interest in color, willingness to play, and follow-through are the only requirements.

Requirements/Evaluation:  Other: In-class engagement, completion of assignments and final project
**Prerequisites:** None

**Enrollment Limit:** 15

**Enrollment Preferences:** Priority given to students who have yet to take a painting class, starting with art majors.

**Expected Class Size:** NA

**Grading:** pass/fail only

**ARTS 34 (W) Camera Performances**

Taking inspiration from female and non-binary Latin American artists from the 1970s and the publication Radical Women: Latin American Art, 1960-1985 by Andrea Giunta and Cecilia Fajardo-Hill, students will receive a series of prompts for performances to be documented with video and photography. Each prompt will address a different photographic or video technique and touch on topics related to intimacy, care, domestic space, gender, and identity. This class meets twice weekly and is composed of image analysis exercises and practical assignments. Outside of class, students will be expected to create, perform, and document the performances individually and in groups. Students can use any type of digital cameras and can access Williams Equipment Loan and the Adobe Suite available on Williams computers. Students will also practice giving each other feedback and reflecting on their creative process for creating images.

**Requirements/Evaluation:** Paper(s) or report(s); Creative project(s)

**Prerequisites:** Students should have basic knowledge of editing software for photography (Lightroom or Photoshop) or for video (Premiere).

**Enrollment Limit:** 10

**Enrollment Preferences:** Preference will be given to students interested in Latino/a Studies or Gender Studies. Students should contact instructor.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Luiza Folegatti is a Brazilian multidisciplinary artist and visual anthropologist. Her practice combines research on gender, migration, photography, and Latin American studies with social advocacy for immigrant rights.

ASTR 16 (W) An infinity of worlds: planets and the search for life in the universe

Less than a generation ago, we wondered, as we had for millions of years before, whether there were any other planets at all. Now, we are privileged to be in the first generation of humans to know that many of the points of light dusting our night sky are host to orbiting worlds, some of which may be like our Earth. In this course, we will explore the techniques that are being used to discover these new worlds. We will make our own contributions to this great age of discovery, by using NASA spacecraft data to search for new planets. This course, aimed at non-majors, will deal with the science of planet hunting, the astounding diversity of planets known to exist, the emerging science of astrobiology, and the enduring question of "are we alone?" through works of science fiction and cutting-edge research. Coursework will consist of readings from popular science books aimed at a general audience, science-fiction short stories, and excerpts from science-fiction novels, in addition to 1-2 relevant feature films. The primary mode of instruction will be 6 hours per week of in-person class meetings including lectures, small-group activities, and optional evening observing sessions at the rooftop telescope (weather permitting). Evaluation will be based on a final 10-page paper, the topic and format of which is extremely broad.

Requirements/Evaluation: Paper(s) or report(s)

Prerequisites: None

Enrollment Limit: 24

Enrollment Preferences: If overenrolled, preference will be given to first years and sophomores. I am willing to open a second section if enrolment numbers permit.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Rob Wittenmyer ’98 is Professor of astrophysics at the University of Southern Queensland in Australia. He is a veteran planet hunter with more than 100 published planet discoveries.

**Not offered current academic year**

RSC Section: 01   TBA   Robert M. Savage

**BIOL 23 (W) Tropical Ecology: From the Andes to the Amazon basin**

One of the most striking patterns in biogeography is the increasing level of species richness as one moves from the poles to the equator. As the name implies, Ecuador straddles the equator, but perhaps less well known is that Ecuador includes an altitudinal gradient that ranges from the high Andes (over 20,000 feet) to the Amazon basin. This combination of equatorial proximity and vertical relief has generated one of the most bio-diverse regions in the world - Ecuador is home to over 23 thousand species and makes up about 6% of the world's diversity in an area approximately the size of Colorado. This course will include a 10-day trip to Ecuador where we will visit three distinct habitats - the páramo and Polylepis "forests" of the high Andes, mid-elevation tropical cloud forest, and lowland tropical rain forest. Through a combination of lectures, field trips, guest seminars, and independent exploration, this course will introduce students to the natural history and ongoing research taking place in these ecosystems. A typical day during our trip to Ecuador will involve a morning natural history hike, with opportunity for independent exploration in the afternoon. Evenings will involve either night hikes, or seminar presentations by resident researchers. During our trip, students will collect data for an independent project on self-selected topics that could include, for example, altitudinal gradients in hummingbird diversity, the pros and cons of ecotourism in Ecuador, or analysis of camera-trap data in the Amazon basin. Upon return to campus, students will complete their independent project analysis which they will use as the basis for a short report and final poster presentation.

**Requirements/Evaluation:** Short paper and final project or presentation.

**Prerequisites:** None

**Enrollment Limit:** 6

**Enrollment Preferences:** By interview with preference given to students that have taken BIOL 203

CCE 11 (W) Investing in a Real Fund
We will use financial fraud as an entryway into the world of investing. Through the lens of how bad actors have tricked markets, we will learn how to analyze firms and stocks with a bit of a cautious eye. The focus of the course is to learn how to analyze and value a company. Along the way, we'll touch on a host of topics: basic financial accounting, investment instruments, corporate capital structure, equity and fixed income markets, derivatives, market efficiency, behavioral finance, and non-financial drivers (ESG, etc.) to arrive at a sound base of securities analysis. We'll conclude with student pitches for stocks we will buy (or not) in the fund we manage. And while we will employ a classic textbook, we'll also read about true financial frauds that are just jaw-dropping. (Students will read a couple chapters of the textbook and one ~250 page easily-read fraud each week. This course is designed for students with anywhere from no experience in investing to a moderate amount.) Interested students should submit a resume and brief paragraph about their interest in this course through Handshake by October 17, 2025, https://app.joinhandshake.com/edu/jobs/8319121

Requirements/Evaluation: Presentation(s); Other: The final presentations are team-based exercises, but I expect students to come to class prepared and to talk and think and debate. One of the things we're teaching here is the ability to engage in discussion in a civil, genteel manner.
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: Preference given to First Years and Sophomores. Students are asked to submit a short answer (50-100 words) to a question: Why do you want to take this course and what do you hope to get out of it?
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: David '90 P'20, a Founding Partner of Triangle Peak Partners, a venture capital firm, graduated from Williams with Honors in Mathematics. He worked for Bain & Co., MAC Group, and Fayez Sarofim & Co. He also holds an MBA from Stanford University.
Materials/Lab Fee: $180
Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration
INFLUENCE®, Venture Capital and Entrepreneurship: An Intensive Ventureship

INFLUENCE® as an investment method for start-ups: a hybrid course melding principles in economics, sociology, and psychology, this intense program examines core venture capital structures, brand development, and social priming through social media influencers and applies them to create a new company where INFLUENCE drives growth and value. Students will act like venture capitalist and founders. Over the past three winter studies we created three companies, reviewed investment term sheets and evaluated the nature of venture funding. The London Fund's proprietary Lal Toofan methodology and investment approach help students develop a start-up, its business plan, and a venture capital presentation. Celebrity influencers, investors and seasoned entrepreneurs will contribute to the class lectures. Out-of-class work includes competitive research on investments, financial modeling, and social network browsing.

**Requirements/Evaluation:** Presentation(s)

**Prerequisites:** None

**Enrollment Limit:** 20

**Enrollment Preferences:** Prior work experience, and preference for psychology, sociology, economics, computer science, studio art and political economy majors. The class should have a 50/50 balance of creative and quantitative-focused individuals.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Founder, The London Fund. Serial entrepreneur. Managed two $1B+ VC and PE funds. Four IPOs by 27. $2B in exits. Seven patents. Presidential Task Force while at the CIA. Held every CxO title (except COO). BA, Williams College

**Attributes:** EXPE Experiential Education Courses STUX Winter Study Student Exploration

Healthcare Shadowing

Experience in a healthcare environment is essential to exploring the health professions. Through this experiential course, students have an opportunity to clarify their understanding of the rewards and challenges of the practice of allopathic and osteopathic medicine, veterinary medicine, dentistry, allied health professions, or public health. Students will participate in an intensive shadowing internship through a self-identified placement in a geographic location of their choosing. Generally, a shadowing experience focuses on provider-patient interactions within out-patient and in-patient settings. These experiences provide students with the opportunity to observe clinical interactions and to learn about the systems within which healthcare is delivered. Students will be introduced to fundamental concepts related to patient interviewing, diagnosis, and medical decision making. This course will encourage participants to reflect on their healthcare experiences with a dual focus: from the perspective of the individual provider-patient relationship and within a systems-level context. Weekly panels will expose students to broader perspectives in healthcare, preparation for health professions programs, and more. By the end of the course, students will demonstrate a greater understanding of the fundamentals of patient-provider interactions, clinical diagnosis, patient interviewing, and/or factors affecting the health of individuals and communities. They will write a final reflective paper on their experiences. Students are welcome to participate in self-sourced shadowing or volunteering internships in a geographic area where they have housing and transportation or will have the opportunity to be placed in the Williamstown area. Students can express interest in this course by filling out a brief application (To be provided later.)

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s); Other: In place of a paper, students may have the option to participate in a panel presentation/conversation. TBD

**Prerequisites:** Open to all students interested in exploring a career in medicine, dentistry, veterinary, nursing, PA, or other healthcare professions.

**Enrollment Limit:** 35

**Enrollment Preferences:** Application is required. Priority will be given to students who have not previously had an opportunity to shadow or have had limited exposure to working in healthcare.

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** As Director of Health Professions Advising at the '68 Center, Sharon guides students pursuing careers in the healthcare professions.

**Materials/Lab Fee:** $350

**Attributes:** EXPE Experiential Education Courses STUX Winter Study Student Exploration
CCE 21  (W)  Career Exploration:  Winter Study Internships!

Internships amplify academic learning, empower professional development, and increase students' career options. This course offers students the opportunity to learn beyond the classroom by providing substantive applied learning experiences focusing on issues such as racial justice/social justice, non-profit/community service, government/policy/law, environment, education & more! Students have the option of applying to the designated WS internships posted on Handshake, or submitting self-sourced WS internships. Each student will intern for 5 days per week working on project(s) for 3 1/2-4 weeks. Williams College Alumni/Parents and other employers will be recruited as Winter Study (WS) Internship Employers and create meaningful projects/experiences during the month of January. It is expected that our WS Employers will mentor the Williams intern(s) during the course, meet with intern(s) on a regular basis to discuss projects/goals/challenges for the week, and support students' success. In January, students will reflect upon their experiences: Impressions about the organization and its workplace culture. Insights about the structure of their role, the organization and the industry. Professionally-What they have learned about themselves within a professional environment; may solidify an interest in a particular industry and build upon this experience when pursuing future opportunities or support the decision to change direction and explore a new industry. Academically-Future course selection, selection of major, and enhanced, grounded, contributions to class discussions. If you are an F1 Student, CPT is required for this course. Please submit your internship offer and information to the International Student Portal https://internationalportal.williams.edu/ In January, students will reflect upon their experiences: impressions about the organization and its workplace culture; insights about the structure of their role, the organization and the industry; and what they have learned about themselves within a professional environment. More information can be found here: https://careers.williams.edu/winter-study-internships/#spec-21-requirements

Requirements/Evaluation:  Other: Students must write a short paper that will become a public record and used as a resource by future students or create a 3-5 minute video, and responding to three questions (one per week) posted to the SPEC 21 Winter Study Internship Discussion Group.

Prerequisites:  Interested students must attend an information meeting in late September or early October and follow up with Dawn Dellaia if they have questions about specific WS internships listed in the SPEC 21 syllabus or self-sourced WS internships.

Enrollment Limit:  250

Enrollment Preferences:  1st priority- Designated SPEC 21 internships posted on Handshake-WS Internship Employers select students based on their applications/possible interviews. 2nd priority-Separate application/evaluation process for students with self-sourced WS internships.

Expected Class Size:  NA

Grading:  pass/fail only

Unit Notes:  Since August 1996, I've worked at the '68 Center for Career Exploration in various roles. Currently I manage our Signature Internship Programs the Alumni Sponsored Internship Program (ASIP) and SPEC 21 Career Exploration:  Winter Study Internships!

CCE 42  (W)  Exploring Careers

Join '68 Center staff for an immersive career exploration course. The course will meet as a large group, and will have sessions each week in small sections for Creative Careers (Arts, Entertainment, Media, Communications), Business, Social Impact (Law Government, Environment Sustainability, Nonprofit Human Services, Education), and STEM/Tech/Healthcare, facilitated by peer advisors and career advisors. This intensive course is the perfect fit for students (especially first years and sophomores) who are just beginning to explore career options and want to commit the time and effort to develop career exploration skills that they’ll use throughout their lives. Students will begin by identifying and reflecting on their skills, interests, values, and motivations and applying this self-knowledge to their career exploration. Then, they'll delve into identifying and building their network of mentors, uncovering the hidden internship and job market. Assignments will include crafting compelling stories in resumes, cover letters and interviews, and more. Highlights include How I Got My Internship panels, alumni panels on various aspects of their industries, practice interviews with alumni, and a session on DEIA in the workplace. Students will travel together to New York City (for 3 days and 2 nights) to meet with alumni and employers. Last year's visits included: Google, the New York Times, the Met, Sotheby's NASDAQ, Philanthropy of NY, Green Project Technologies, Pfizer, WNYC, and Pryor Cashman LLP. The course will conclude with a celebratory reflective session back on campus at Williams. For this immersive course, the group will meet for 12-15 hours/week and will have some preparation to do between sessions. If the course fee is a concern, please talk to our office about ways we can accommodate you. If we you want to participate, we don't want to present financial barriers.

Requirements/Evaluation:  Other: Participation and a career-related document portfolio.
Prerequisites:  None.
Enrollment Limit:  40

Enrollment Preferences:  Students will complete a brief application process to articulate their interest in the course during the fall semester to aid in selection. Preference will be given to first years and sophomores who are eager to explore broadly.

Expected Class Size:  NA
Grading:  pass/fail only

Unit Notes:  Janine Oliver, Director of Career Education, is a high energy idealist. Her background as a special education teacher, mental health counselor, experiential/outdoor educator, and confused college student informs her work as a career educator.

CHEM 12 (W) The Practice and Processes of Making Pottery

This course will introduce students to creative methods of working with clay and glazes to create functional pottery, and to the materials and processes of ceramics. Classes will take place in a working Williamstown pottery studio with potter's wheels and space for hand-building and discussions. Studio lessons are designed to stimulate creativity and discovery. Instruction and projects will be tailored to each student's interests, experiences, and abilities. Students will be encouraged to consider how value and beauty can be found in that which is incomplete, impermanent, and/or imperfect.

Genuineness and authenticity will be encouraged and valued. We will learn about the origins and properties of clay and glaze materials and about how combinations of materials and the high temperature processes result in mature clay bodies and glazes. We will study the major components of glazes and how the manipulation of these materials changes how glazes appear and function. Evaluation for this course will include a final project, and the critical review of the same. Assessment will take place during individual discussion with the instructor during the construction and finishing processes and in a structured, group critique where finished work will be evaluated by all members of the class through a group discussion led by the instructor.

No previous experience is necessary. The only prerequisite for this course is an honest interest in learning about the making and chemistry of pottery. Studio time will likely be afternoons and early evenings, with an optional weekend session to accommodate schedules. Class time is about 12 hours weekly, and may include some outside of class reading and other assignments.

Requirements/Evaluation:  Creative project(s)
Prerequisites:  None; no pottery making experience or science background are necessary; students are encouraged to submit a brief description of their interest in participating
Enrollment Limit:  10

Enrollment Preferences:  Level of enthusiasm for learning the craft, materials, and processes of pottery
Expected Class Size:  10
Grading:  pass/fail only

Unit Notes:  Tim Duncan has been making pottery for over 30 years. He teaches in a home studio that accommodates up to 10 students, and focuses on creating lessons that stimulate creativity and discovery.

LEC Section:  01  TBA  Timothy Duncan

CHEM 16 (W) Glass and Glassblowing

This course provides an introduction to both a theoretical consideration of the glassy state of matter and the practical manipulation of glass. We do flameworking with hand torches for at least 12 hours per week. While no previous experience is required, students with patience, good hand-eye coordination, and creative imagination will find the course most rewarding. The class is open to both artistically and scientifically oriented students.

Note: if you are required to participate in a sustaining language program during Winter Study, this course meets at the same time. The first and last classes are required, so make your travel plans accordingly.

Requirements/Evaluation:  class participation, exhibition of glass projects, a 10-page paper, and a presentation to the class
Prerequisites:  none
Enrollment Limit: 10
Enrollment Preferences: preference is given to juniors, sophomores, and those who express the most and earliest interest and enthusiasm by email to Professor Thoman
Expected Class Size: 10
Grading: pass/fail only
Unit Notes: Jay Thoman is the J. Hodge Markgraf Professor of Chemistry, Emeritus. He has taught this course many times.
Materials/Lab Fee: $135
Attributes: EXPE Experiential Education Courses  SLFX Winter Study Self-Expression  STUX Winter Study Student Exploration  WELL Winter Study Wellness

CHEM 18  (W) Introduction to Research in Biochemistry
An independent experimental project in biochemistry is carried out in collaboration with a member of the Department with expertise in biochemistry. Biochemistry is a branch of chemistry that deals with the molecular details of living systems including the interaction of biologically important molecules. In the Chemistry Department, studies are underway to investigate the structure/function relationship of proteins, the interaction between proteins and RNA and DNA, the molecular basis of bacterial gene regulation, the lipid composition of model membranes, and the molecular underpinnings of viral infection.
Requirements/Evaluation: a 10 page paper or equivalent assignment
Prerequisites: Completion of a Chemistry introductory level course and permission of the instructor and department; interested students must consult with the faculty instructor.
Enrollment Limit: 4
Enrollment Preferences: expression of student interest
Expected Class Size: NA
Grading: pass/fail only
Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration
Not offered current academic year
RSC Section: 01  Cancelled

CHEM 20  (W) Introduction to Research in Inorganic Chemistry
Students in this course will carry out an independent research project in collaboration with a member of the Department with expertise in inorganic chemistry. Representative projects include the synthesis and study of polymers to encapsulate heavy metals with an eye to environmental remediation and the synthesis of coordination complexes as models of enzymes and as catalysts for the oxidation of organic compounds. The interdisciplinary nature of the project will expose students to a range of inorganic and organic synthetic protocols and analytical and spectroscopic techniques for the characterization of new materials and the monitoring of catalysis. In addition to lab work, participants will engage in an exploration of careers in chemistry and a discussion of topics of interest to chemists, such as ethics and creating a diverse workforce.
Requirements/Evaluation: a 10-page paper
Prerequisites: Completion of a Chemistry introductory level course and permission of the instructor and department; interested students must consult with the faculty instructor.
Enrollment Limit: 8
Enrollment Preferences: expression of student interest
Expected Class Size: NA
Grading: pass/fail only
Not offered current academic year
RSC Section: 01  Cancelled
CHEM 23 (W) Introduction to Research in Organic Chemistry

An independent experimental project in polymer organic chemistry is carried out in collaboration with a member of the Department. Representative projects focus on controlled synthesis of block copolymers as self-assembled nanocarriers. Students involved in this work will learn techniques involved in organic synthesis, including analysis by NMR, IR, and SEC.

Requirements/Evaluation: 10-page paper

Prerequisites: Completion of a Chemistry introductory level course and permission of the instructor and department; interested students must consult with the faculty instructor.

Enrollment Limit: 4/lab

Enrollment Preferences: expression of student interest

Expected Class Size: NA

Grading: pass/fail only

Not offered current academic year

RSC Section: 01  M-F 10:00 am - 3:00 pm  Sarah L. Goh

CHEM 24 (W) Introduction to Research in Physical Chemistry

An independent experimental or theoretical project in physical chemistry is carried out in collaboration with a member of the Department with expertise in physical chemistry. Current research projects in the Department include computer modeling of non-linear, chaotic chemical and biochemical systems, atmospheric chemical dynamics, molecular modeling of water clusters, molecular dynamics simulations, and laser spectroscopy of chlorofluorocarbon substitutes.

Requirements/Evaluation: 10-page paper

Prerequisites: Completion of a Chemistry introductory level course and permission of the instructor and department; interested students must consult with the faculty instructor.

Enrollment Limit: 6

Enrollment Preferences: expression of student interest

Expected Class Size: NA

Grading: pass/fail only

Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration

Not offered current academic year

RSC Section: 01  MWF  Enrique  Peacock-López

CHEM 26 (W) Consumer Textiles

In the last 20 years global fiber production nearly doubled, reaching an all time high of 113 million tons in 2021. Textiles matter and play an important role in our everyday lives from the absorbent jerseys worn by newborn babies to wicking performance wear worn by athletes. This course will study the interrelationship of fibers, yarns, fabric structures, and finishes for consumer based textiles. Product suitability for end use, quality in relation to serviceability, and use and care problems are determined from fiber/fabric information. Additionally, students will engage in labs and hear from industry experts currently driving new technologies in textiles.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Other: Labs will play a big role in this course.

Prerequisites: NA

Enrollment Limit: 12

Enrollment Preferences: Because this is a lab based course, 20 is an ideal number but I can take more if it's in demand.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Nicola MacEwen is a fashion retailing educator and consultant. She currently works as a lecturer at Framingham State University and is sustainability consultant for UNTUCKit.

Materials/Lab Fee: $105

CHIN 25 (W) Taiwan Study Tour
Interested in learning first-hand about Taiwanese culture and becoming acquainted with what has been called the "Taiwan (economic and political) miracle"? Want to improve your knowledge of Mandarin, the language with the largest number of native speakers in the world? Then join us on this 24-day study tour to Taiwan. We'll spend the first two and one-half weeks in Taipei, the capital city, where 3 hours of Mandarin language classes at levels from beginning to advanced will be scheduled each morning at the Language Center of National Chengchi University. After class we'll meet as a group for lunch and discussion. Visits to cultural, economic, and political/diplomatic sites of interest and activities with students from several Taiwanese universities will be scheduled for some afternoons and Saturdays, with other afternoons as well as evenings and Sundays free for self-study and individual exploration. During the last week, we'll travel to central and southern Taiwan, staying at small hotels and youth hostels. Two orientation sessions will be conducted on campus in the fall to help participants prepare for their experience. Requirements include background readings in English on Taiwanese history, culture, and society; satisfactory preparation for and performance in the language classes; active participation in all scheduled activities; and the writing of a 10-page paper on a topic related to Taiwan that also incorporates your experiences and reflections. Scheduled activities will come to about 30 hours per week, with 15 hours per week spent in the classroom during the first 2 weeks. There will be 3-4 mandatory field trips each week to sites of interest.

Requirements/Evaluation: A 10-page paper; Satisfactory completion of the language course and active participation in all scheduled activities
Prerequisites: none
Enrollment Limit: 15
Enrollment Preferences: Open to all with first preference to CHIN and EALC majors and second preference to those with language proficiency at level of first-year Chinese or higher
Expected Class Size: 15
Grading: pass/fail only

Unit Notes: Jerling Kubler has served as Visiting Instructor and Visiting Lecturer in the College's Chinese language program and, as adjunct instructor, has taught several iterations of the WSP course Theory and Practice of Chinese Cooking.

**CHIN 88 (W) Chinese Sustaining Program**

Students registered for CHIN 101-102 are required to attend and pass the Chinese Sustaining Program. However, students are also required to register for a regular Winter Study course. Once the regular Winter Study registration process is complete, the Registrar's Office will automatically enroll you in the Sustaining Program; check your class schedule to confirm enrollment.

**Requirements/Evaluation:** regular attendance and active participation

**Prerequisites:** Chinese 101

**Grading:** pass/fail option only

**Materials/Lab Fee:** one Xerox packet

Not offered current academic year

LAB Section: 01    M-F 9:00 am - 9:50 am     Jiayuan Li, Ai-Chen Wang

**CHIN 99 (W) Independent Study: Chinese**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

Not offered current academic year

IND Section: 01    TBA     Li Yu

**CLAS 11 (W) Fundamentals of Baking**

Baking is at once both precise and intuitive. This course will empower novice bakers with the knowledge and confidence to make baking their own. We will focus on the "how" and "why" of baking to understand what's occurring as each ingredient goes into the mix. Students will bake alongside the instructor as well as on their own, tweaking, troubleshooting, and customizing recipes. Over three weeks, students will experiment with cookies, quick breads, and cakes, and the final week will be dedicated to a project of their own choosing. Readings will supplement this hands-on course.

**Requirements/Evaluation:** Presentation(s)

**Prerequisites:** None.

**Enrollment Limit:** 12

**Enrollment Preferences:** Students with little to no baking experience will receive priority. If the course is overenrolled, students will be asked to submit a short application.

**Expected Class Size:** NA

**Grading:** pass/fail only
CLAS 13  (W)  Advanced Techniques in Baking
This course will build upon students' basic baking skills to increase confidence and understanding of more technically challenging topics. Students will expand their repertoire, refine techniques with tips and advice, and have fun baking in a community atmosphere. Over three weeks, students will experiment with bread, laminated pastry, and pies and tarts, and the final week will be dedicated to a project of their own choosing. Readings will supplement this hands-on course.

Requirements/Evaluation:  Presentation(s)
Prerequisites:  Students should be comfortable with basic baking techniques.

CLAS 15  (W)  Writing Together
Do you have a piece of writing you have been longing to create, but have trouble making the time and maintaining focus? The purpose of this Winter Study is to give ourselves a dedicated time to write while fostering our human connection, by writing together in the same time and space and by listening to each other's work, giving special attention to its strengths. Most of each class meeting will be devoted to the action of generating new work, with some time reserved for sharing and/or discussion of the writing process. So - if you have a novel, memoir, collection of songs or poems, or any other kind of writing that is calling out to be nurtured and grown - come write with us this winter.

Class Format: In addition to writing together in our designated classroom space, we will experiment with writing in different locations on and around campus, including in cafes, libraries, and museums.

Requirements/Evaluation:  class participation, reading aloud and workshopping of written work, production of a substantial manuscript
Prerequisites:  none

CLAS 31  (W)  Senior Thesis: Classics
May be taken by students registered for Classics 493-494.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
HON Section: 01 TBA Amanda R. Wilcox

CLAS 99 (W) Independent Study: Classics
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

CLGR 99 (W) Independent Study: Greek
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Not offered current academic year
IND Section: 01 TBA Amanda R. Wilcox

CLIA 10 (W) Garden Mindset: Native Plants & Humans’ Landscapes
Why have we humans planted what we have planted where we have planted things? Do these historical choices still make sense, in an era of rapid climate change? These questions will guide “Garden Mindsets: native plants, pollinators and human-planted landscapes.” Plants - with their seemingly magical ability to transform sunlight into sugars - are the basis of every ecosystem and food web on earth. Beautiful plants please human aesthetic senses, and, even more importantly, they tranform sunlight into food, homes and shelter for all other living creatures on earth. At the same time, plants can only make seeds, to reproduce themselves, when they are pollinated, often via specialized relationships with specific insects. Pollinators everywhere are in rapid decline, and, humans can better support plant-pollinator relationships, and thus food webs, via our landscaping choices and practices. As Doug Tallamy, one of the most well-known leaders of the movement to use native plants more widely has stated: Every square inch of planet earth has ecological significance, even where we live, work and play. If we landscape these areas with plant function as well as aesthetics in mind, we can create viable habitat where humans are, not just where humans are not. Conservation is not just something "out there", it can take place in our own backyards and town environs. This course will provide hands-on opportunities to grow native plants, and to learn how to use them in our human-designed landscapes in ways that benefit pollinators. We will learn how to use ecologically sound methods to convert small areas of lawn into pollinator habitat, and, students will learn simple garden design techniques. We will read books, watch videos, and interview experts, introducing participants to ecological gardening and the movement to create beautiful, ecologically "useful" garden habitats, in an era of rapidly changing climate.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s); Other: Students may choose to design a planting, or, write a paper about their experiences, or, compile annotated resource bibliography for community use. Skits or plays could also be developed!

Prerequisites: None save for a willingness to read and learn about native plants, via talk and video, books and field trips.

Enrollment Limit: 20

Enrollment Preferences: Students who truly want to use this knowledge to inform summer gardening and landscape practices. Experience in gardens not necessary, more, a willingness to learn and think about human-plant-planted landscape relationships. Selection via short essay

Expected Class Size: NA

Grading: pass/fail only
Laura Bentz, M.Ed., has created native plant-based gardens for thirty years, frequently using plants grown from native seed. Her local portfolio includes gardens for pollinators at The Spruces & Caretaker Farm, as well as private homes.

CL 11 (W) Teaching 3rd Grade about Zebrafish - BioEYES
BioEYES brings tropical fish to 3rd-grade classrooms in Williamstown and Lanesborough Elementary schools, in a science teaching workshop. Elementary school students will breed fish at the school, then study their development and pigmentation for one week. Williams students will adapt BioEYES lesson plans to the science curriculum for the schools we visit, work with classroom teachers to introduce concepts in genetics and development, help the 3rd-grade students in the classroom, and assess elementary student learning. No zebrafish experience or science expertise is necessary. All training is provided. During the first week, Williams students will learn to set up fish matings and review BioEYES lesson plans on embryonic development and the genetics of fish pigmentation. In small groups, students will practice teach hands-on experiments using living animals. In the subsequent three weeks, students will present lessons at the schools and review assessment data. Time commitment: Week 1 - approx. 6 hours total for program training and lesson preparation with additional outside-of-class time needed to create teaching posters, dates, and times TBD Weeks 2 & 3 - approx. 3 hours per day, times TBD, dependent on elementary school schedules during the regular school day between 8:30 am and 3:00 pm. Week 4 - TBD: 3 hours per day if running a school program; minimal hours if not running an elementary school program.

Requirements/Evaluation: Presentation(s)
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Preference to first years
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Renee Schiek currently serves as the liaison between Lanesborough Elementary School and the Williams Elementary Outreach, where Williams students work directly with students and teachers. She has a BS in Mechanical Engineering.

Attributes: EXPE Experiential Education Courses
Not offered current academic year

CL 12 (W) “Be”ing Whole; integrating mindfulness through movement, art, nature, and creativity
Want to focus this winter study on being more present and on your sense of well-being? In this year’s “rendition” of the class on “Be”ing and learning how to maintain/reach homeostasis in the autonomic nervous system (balancing “fight or flight” and the “rest and digest” parts of our nervous system) we will explore the neuroscience behind why mindfulness practices can help restore the homeostasis of a stressed nervous system while practicing different types of mindful movement (yoga, hiking, walking, etc.), creative art and grounding mindfulness activities (making lavender pillows, slime, stress balls, “yoga” prose, and engaging in games, etc.), and meditative exercises (body scans, loving-kindness, etc.) Each class will start with an invigorating/challenging yoga flow (modifications are always welcome, taught, and encouraged) and will then continue to highlight a specific activity followed by a 5-10 minute journal prompt. The final project will be for students to take what they’ve learned about mindfulness exercises and practices as well as their own physical and psychological reactions to these practices and to customize a toolkit that includes soothing reminders, activities, prompts, and supplies. What to Expect: - Playful yoga practices; we will explore having fun with movement and breath while challenging ourselves with possible arm balances and even playing around with some inversions! - Calming meditative practices - loving-kindness, gratitude, body scans, visualization exercises - Creative mindfulness through art (observing art, creating mandalas, other tactile or sensory activities) - Mindful outdoor/nature exploration (adapted based on the weather - mud or snow - hopefully it's snow! - Creating a customized kit for self-soothing during - At least one visit (possibly more depending on class size) into local elementary schools to teach yoga and mindfulness; we will “practice” kids yoga games to fully embrace our inner childhood!

Requirements/Evaluation: Creative project(s)
Prerequisites: None

Enrollment Limit: 30

Enrollment Preferences: If overenrolled, preference will be given to first-year students or athletes/Junior Advisors who must be on campus during winter study. Students may be asked to write a brief paragraph on what they hope to get from being in the class.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Amy Sosne, class of '05, works at the CLiA as the North Adams Program Coordinator. She has an MD and M.Ed, multiple yoga certifications, and experience in working in wellness with individuals of all ages and from a variety of different backgrounds.

Materials/Lab Fee: $55

CLIA 14  (W)  Food Justice and the Righteous Entrepreneur

DC Central Kitchen, an iconic, food-based social enterprise that was founded in 1989 to turn the notion of charity on its head, has been at the forefront of food access, food justice, economic opportunity and racial equity for over three decades. The Kitchen’s CEO, Mike Curtin ’86, will lead the class on an exploration of these issue through the lens of DC Central Kitchen’s growth and evolution. The class also work through the Kitchen's experiences during the pandemic and the simultaneous racial reckoning that highlighted the fragility of our food system, the thin line between food security and insecurity for so many, and the structural and systemic inequalities that create these realities. In addition to using as text Food Fighters, A History of DC Central Kitchen, by Alex Moore, the Kitchen’s Chief Development Officer, the class will explore DC Central Kitchen’s Eight Rules for Righteous Entrepreneurs, principles that have defined the organization’s impact. The class will also discuss the basics of nonprofit management and the roles that social enterprise and innovation can have in disrupting a more traditional nonprofit structure. Guest speakers who are also engaged in the fight against hunger and for systemic changes to our food system and access to economic opportunity and liberation will join the class to share their work and challenge students to look at food justice from environmental, legal, political, racial and economic perspectives. Past guests have included chef and humanitarian, Jose Andres; Pulitzer Prize winning author, Marcia Chatalain; former US Deputy Secretary of Agriculture, Kathleen Merrigan ’80; Congressman Jim McGovern; food and racial justice activist, Chris Bradshaw; Chef activists including Tom Colicchio, Michel Nishan and Andrew Zimmerman, and several DC Central Kitchen alumni and staff.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Other: Class participation

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: If the course is over enrolled, preference will be given to students closest to graduation.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Mike has led DC Central Kitchen through the Great Recession, the COVID-19 pandemic, and significant periods of organizational growth and expansion. In 2023, the Kitchen opened the country’s most innovative and ambitious urban food hub.

CLIA 21  (W)  INTRODUCTION TO ENGAGED SCHOLARSHIP

This course enables students to learn the theory and practice of community-engaged scholarship while engaging in a small partnership project with a community organization or initiative. Engaged scholarship is understood as mutually beneficial learning partnerships between higher education institutions and community entities addressing pressing social and civic issues. Through brief readings, class discussions, and meetings with community partners, students will learn the history and context of engaged scholarship, explore the ethical, political, and cultural issues associated with this work, and improve their understanding of the Berkshires and town/gown relations. Through their project work supported by the Center for Learning in Action, students will learn how to navigate the simultaneous challenges of engaging as learners, collaborators, knowledge co-creators, and social change agents.

Requirements/Evaluation: Creative project(s)
Prerequisites: None

Enrollment Limit: 8

Enrollment Preferences: Students will be invited to submit a statement of interest

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Paula Consolini serves as the Adam Falk Director of the Center for Learning in Action, where she leads a team supporting community-engaged work. She earned her doctorate in Political Science from the University of California, Berkeley.

CLIA 24 (W) Class of 1959 TeachNYC Urban Education Program

The Williams Class of 1959 Teach New York Program is a fantastic Winter Study Course which gives students an opportunity to teach in challenging K-12 urban school settings. Each year between up to eight sophomores, juniors and seniors participate in this intense experience that takes them worlds away from the traditional college classroom setting. Students use the program as an opportunity to explore their interest in different areas education-teaching, policy, pedagogy, reform- while also having a three week adventure in one of the greatest cities in the world. In the end, students return from this experience with a greater appreciation for the complex world of urban education as well as the daily challenges that teachers and under-resourced students face on a daily basis. Students are matched with an elementary, middle or high school classroom and subject area of their interest. They spend weekdays working closely with a mentor teacher. Depending on their interest level, they will tutor individual students and groups, create lesson plans, lead discussions and even teach a subject if they desire. While in New York, the group convenes for weekly dinner meetings where they process their experience with teachers, principals and experts in urban education. These events are hosted by Program Director Tracy Finnegan.

Requirements/Evaluation: Paper(s) or report(s); Creative project(s)

Prerequisites: Students should show a genuine interest in education, whether it be policy, teaching, or reform. This is an intense winter study course. Students should be ready to show up at their respective schools M-F, on time & ready to work hard and have fun!

Enrollment Limit: 8

Enrollment Preferences: Interview and seniority

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Tracy directs the Class of 1959 TeachNYC Winter Study Program, developing New York City public school teaching & policy placement opportunities. Tracy mentors & guides the students during their school NYC internship.

COMP 12 (W) Transforming Landscape Photography
This course will explore how contemporary photographers and students themselves can challenge, expand, and reinvent traditional photographic genres, with a particular focus on landscape. The instructor, visual artist Elena Dorfman, will guide students as they experiment with landscape photography both in the field and in the classroom, exploring the landscape in relation to photography, and photography in relation to mixed media art practices. Over the course of the term, students will work on their own photography-based projects that employ these techniques, and present them to one another in the final week. The class will start by examining the invention of photography and the flâneur tradition by reading about the work of artists such as Henri Cartier-Bresson, Helen Levitt, Robert Frank, and Garry Winogrand. Working in groups or individually, students will then create landscape photography projects centered on campus or adjacent communities. The instructor will provide practical hands-on instruction in photography as well as various art practices for “altering” the photographs in creative ways: digital collaging, crumpling, painting, gilding, and other mixed media techniques. An optional overnight field trip near the middle of the course will give students the chance to feed their own creative process by viewing photographs in New York City museums and galleries. Students will work primarily with their own phone cameras (though those who have previous experience may choose to use DSLR cameras or other equipment). Images can be shot “straight,” but we’ll also explore more unconventional ways of using the camera, including prisms, gels, and cracked filters. The focus of the class will be to expand each student’s own visual language with hands-on experimentation, as we learn to shoot and re-make landscapes in new and surprising ways.
Requirements/Evaluation: Creative project(s); Other: Weekly instructor critiques of student work
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: Students majoring in Comparative Literature
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: A teacher, visual artist, and finalist for the BMW Prize, Paris Photo, Elena Dorfman has exhibited her photographs and video installations worldwide. Her work is the subject of three monographs, most recently "Empire Falling" (2013).

CSCI 10 (W) Unix and Software Tools
This course serves as a guided introduction to the Unix operating system and a variety of software tools. Students in this course will work on Unix workstations, available in the Department's laboratory. By the end of the course, students will be familiar with Unix and will be able to use Git as a collaborative tool. As a final project, students will work together in teams to explore an API of their choice. The exact topics to be covered may vary depending upon the needs and desires of the students. The course is designed for individuals who understand basic program development techniques as discussed in an introductory programming course (Computer Science 134 or equivalent), but who wish to become familiar with a broader variety of computer systems and programming languages. This course is not intended for students who have completed a course at the 200 level or above.
Requirements/Evaluation: Presentation(s); Creative project(s)
Prerequisites: CSCI 134 or equivalent programming experience
Enrollment Limit: 10
Enrollment Preferences: Preference will be given to students who have not yet completed a CSCI course at the 200 level or above.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Lida graduated from Williams in 2002 as a double major in CS and Psych. She returned in 2014 and spent 4 years working in Alumni Relations before joining the staff of the CS Dept in 2019 where she provides instruction support for the intro classes.
CSCI 13 (W) User Experience Design: Designing for People

Many innovative products and entrepreneurial endeavors fail because they are not sensitive to the attitudes and behaviors of the people who interact with them. The fields of User Experience (UX) Design and Design Thinking combine aspects of psychology with software development, behavioral economics, architecture, and other fields, to create products and processes that provide an easy, enjoyable, efficient, and safe user experience. The course will provide students with a theoretical framework for analyzing usability, as well as practical experience with iterative design techniques, prototyping, and user testing and feedback. Students will demonstrate their understanding of UX theory through short presentations and participation in class discussions. Students will work in small groups to identify a usability problem and design a solution which they will evaluate by heuristic analysis and usability testing with human test subjects.

Requirements/Evaluation: Presentation(s); Creative project(s)

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: The instructor seeks a diverse group of students with interests in psychology, design, human-computer interaction, entrepreneurship, and other fields

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Rich Cohen ’82 has designed communications, social networking, and education applications used by over 100 million people and has conducted usability research on five continents.

CSCI 23 (W) Research and Development in Computing

An independent project is completed in collaboration with a member of the Computer Science Department. The projects undertaken will either involve the exploration of a research topic related to the faculty member’s work or the implementation of a software system that will extend the students design and implementation skills. It is expected that the student will spend 20 hours per week working on the project. At the completion of the project, each student will submit a 10-page written report or the software developed together with appropriate documentation of its behavior and design. In addition, students will be expected to give a short presentation or demonstration of their work. Prior to the beginning of the Winter Study registration period, any student interested in enrolling must have arranged with a faculty member in the department to serve as their supervisor for the course.

Requirements/Evaluation: short paper and final project or presentation

Prerequisites: project must be pre-approved by the faculty supervisor

Enrollment Limit: 30

Enrollment Preferences: preference given to sophomores and juniors

Expected Class Size: NA

Grading: pass/fail only

Attributes: EXPE Experiential Education Courses  STUX Winter Study Student Exploration

CSCI 31 (W) Senior Thesis: Computer Science

To be taken by students registered for Computer Science 493-494.

Class Format: independent study

Requirements/Evaluation: Determined by faculty advisors
CSCI 33 (W) Tournament Magic: The Gathering

Magic: the Gathering is a collectible card game that has been in continuous development since 1993 and has featured high-level professional events since Pro Tour New York in 1996. In these competitive events, players construct their own sixty-card decks that must conform to the deckbuilding restrictions established by the agreed upon tournament format. Premodern is a tournament format that celebrates what many believe is the "golden era" of competitive Magic by restricting decks to contain only cards from sets released between 1995 and 2003. Despite its fixed card pool, the format's metagame is varied and complex, featuring classic competitive strategies from across Magic's 30-year history. In this class, we'll study, prepare, and play in as many Premodern Magic: The Gathering tournaments as possible, both in-person and online. We will couple this competitive play with analysis, reading, and writing; we will learn from others and also critically evaluate our own strategic choices--deck construction, gameplay, and sideboarding. Written reflections following tournament play is an essential part of competitive Magic. We will treat the "game" as an intense intellectual and academic activity. Tournament time (including days, nights, and weekends) will average about 12 hours per week, other class time about 6 hours per week. Students will author detailed tournament reports, as is common practice among the game's top players.

Class Format: In addition to regular on-campus meetings, we will travel to regional tournaments, and participate in online competitive events.

Requirements/Evaluation: participation in competition and write-ups (totaling more than 10 pages)
Prerequisites: knowing how to play Magic: The Gathering

CSCI 99 (W) Independent Study: Computer Science

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

Class Format: independent study
Grading: pass/fail only
Distributions: (D3)

DANC 12 (W) Queer Performance and Rituals

This is your chance to help create and perform a new show at the '62 Center in February. Join us for a studio/lecture course that aims to create a collaborative space of study and practice that starts with an overview of queer performance studies, its histories, and contemporary trends that leads to developing, creating, and executing a queer-embodied performance. The performance is a comedic solo and features 25 backup student and
community performers. This evening-length work invites the audience to a rollicking confessional narrative voice of self-doubt, through a ride of radical queer adherence, posing the question; “What does it mean to do the thing you need to do, even when it feels like nobody else needs you to do it?” We will engage in a rigorous, collective, and emergent process to devise and perform an ensemble piece that is rooted in the language of contemporary dance and utilizes elements of theater, storytelling, and design. This class is open to all students regardless of their movement experience, personal identity, or ability. Beyond dancers, we are looking to engage with musicians, filmmakers, visual artists, actors, circus artists, drag artists, etc.

Rehearsals will be January 3-24, Mondays and Wednesdays, 4-7 PM. The product of the course will be two public performances (https://bit.ly/46TCsDe), Friday and Saturday, February 9th and 10th, at the '62 Center. Students agree to be available for refresher rehearsals and two public performances. Email Randy Fippinger (rfippinger@williams.edu) for more information.

Requirements/Evaluation: Presentation(s); Performance(s)

Prerequisites: None

Enrollment Limit: 30

Enrollment Preferences: Over-enrollment will be given first to students who can participate in the performance.

ECON 12  (W)  Sports Economics

This course explores topics in sports economics, a field that covers both how economics can help explain puzzling aspects of sports and how sports can inform our understanding of economics. In small groups, students will identify an empirical question, review the existing literature, gather appropriate data, and use econometric tools to answer the question of interest. I am flexible on the topic and encourage you to pursue an idea that you are interested in! Students need to have taken Econometrics (Econ 255 or a suitable replacement) and the statistical software package STATA will be used for the analysis. The resulting research project, including both a paper and a class presentation, is due at the end of Winter Study.

Requirements/Evaluation: A 10-page paper; Short paper and final project or presentation; Final project or presentation

Prerequisites: Econ 255

Enrollment Limit: 12

Enrollment Preferences: Those that have taken Econ 255

Expected Class Size: NA

ECON 13 (W) Impact Investing 101: An Introduction and Overview

The concept and practice of investing to create positive social or environmental impact has existed for over 3,000 years. Most of the early participants in the field were faith based investors, looking to align their investing with their religious values. Over time the concept has broadened its focus to include societal and environmental change. The investors have also changed with the addition of for-profit companies, large institutions, money managers, financial advisors, and wealthy individuals. The field has seen exceptional growth not just in terms of participants, but also capital with over $22 trillion invested. The growth has meant an increased opportunity to have a meaningful impact on the world's most pressing problems. Over the course students will gain an understanding of the impact investing sectors, concepts, strategies and techniques. The class will be broken up into the four sections and will include reading materials, case studies and weekly industry expert speakers. The class will conclude with a group project.

Requirements/Evaluation:  Presentation(s)
Prerequisites:  None
Enrollment Limit:  30
Enrollment Preferences:  Seniority

ECON 14 (W) Business of Sports Team & Data Analytics

Students will learn about the ownership and operation of a sports team and, most importantly, the complex decisions that a sports franchise faces and the use of data analytics to assess and improve performance. Specifically, this course will explore the following areas: 1. The fundamentals of the business of a minor league sports team; 2. The application of data analytics and business intelligence tools to assess and improve performance; 3. The exploration of the customer (the fan); 4. The social and economic impact of a minor league sports franchise. The course will encompass elements of economics, math, data analytics, marketing, and communications. It also is likely to address leadership, organizational design, ethics, strategic planning, diversity and culture. With regard to the pedagogical approach, the course will involve (i) a sports management/sports data analytics textbook, and case studies, (ii) reading sports business journal articles, and listening to relevant podcasts, (iii) engaging with guest speakers, (iv) participating in class discussions and debate with the instructor regarding his own real-world experience as a minor league sports team owner, (v) some engagement of the Socratic method as case studies are discussed and debated, and (vi) writing of a short paper and the presentation of a "real world" project.

Requirements/Evaluation:  Paper(s) or report(s); Presentation(s)
Prerequisites:  None
Enrollment Limit:  24
Enrollment Preferences:  Desire a mix of women and men, students and student-athletes, graduating classes, and a preference for those that specifically reached out to express genuine interest.
Expected Class Size:  NA
Grading:  pass/fail only

Unit Notes:  Todd W. Halloran (P'21 & '24) has a career investing (private equity) in growth companies, and now also owns and oversees a minor league hockey team and has minority stakes in a AA baseball team and a Premiere League Football team (European soccer).

ECON 15  (W)  Introduction to Management Consulting
Introduction to Management Consulting provides a broad overview of the management consulting industry from the perspective of an experienced practitioner. The objectives of the class are to provide a real world view as to what consultants do and to help prepare students who are considering joining a management consulting firm post-Williams. The class will begin with a broad discussion of the differences in the types of business consulting and how management consulting firms are utilized by corporations and private equity firms. The next section will introduce the complexities in developing successful business strategies and review common frameworks for structuring strategic analysis. Students will then be provided instruction on (and practice with) the tools utilized by strategy consultants to analyze markets, evaluate competitive environments, synthesize customer information, and perform financial analysis in order to develop growth strategies. Additionally, one class session will be devoted to tips for getting a job in management consulting including how to ace case interviews. The final small group project will entail the development and delivery of a consulting presentation for a business with a strategic need.

Requirements/Evaluation:  Presentation(s); Other: Homework and class participation
Prerequisites:  None
Enrollment Limit:  25
Enrollment Preferences:  If the course is over enrolled, students will be asked to address a few short questions germane to their interest in the course, and I will make the final selection.
Expected Class Size:  NA
Grading:  pass/fail only
Unit Notes:  Peter McKelvey '86 is the former President of the Americas Region of L.E.K. Consulting, a global management consulting firm. He was with L.E.K. for 29 years and has extensive experience in corporate strategy development and mergers & acquisitions.
Materials/Lab Fee:  $36

SEM Section: 01    TR 10:00 am - 1:00 pm     Kenneth N. Kuttner

ECON 19  (W)  From Rockefeller to Renewables: 125 Years of US Energy Disruption
In just the last two decades, the United States has gone from being the world's largest energy importer to being a net energy exporter. What accounts for this remarkable and globally disruptive transformation, and what are its long-term implications? To be sure, oil shale production technology, aka "fracking," has been a critical driver. However, renewable energy (wind, solar) and conservation have also played important parts. This course starts with a historical perspective, examining the roots of the modern energy industry via John D Rockefeller's autobiography. We then study the evolution of global supply and demand for oil, natural gas, and renewables, including the important role of market price signals and volatility. Which
technologies, including fracking and renewables in the 2000s, have been most important? And why do fossil fuels remain at more than 80% of the energy consumed both in the US and globally despite huge efforts to reduce them? Course includes: 1) team debate where students pair-up, select a topic from current energy issues, and then be randomly assigned to defend one side of the issue; 2) 3-5 page energy stock pitch paper.

Requirements/Evaluation:  Paper(s) or report(s); Presentation(s)
Prerequisites:  None
Enrollment Limit:  12
Enrollment Preferences:  Econ majors; Environmental Studies majors; Upperclassmen
Expected Class Size:  NA
Grading:  pass/fail only

ECON 20 (W) Financial Accounting: Concepts, Methods, and Uses
This course will provide an introduction to the concepts, principles and practices used in preparing financial statements for businesses--the balance sheet, income statement, statement of cash flows, and statement of owners’ equity. Building on this foundation, the course will move on to how these financial statements are used by managers to make decisions about capital expenditures and other key aspects of running a business. Additionally, the course will examine how analysts evaluate financial statements to assess the health of a firm, and to decide on whether to invest in a company or divest existing holdings. Emphasis will be on the practical skills needed to understand the relationship among accounting, finance, and economics. Spreadsheets will be used to perform "what-if" and other analysis based on the underlying financial statements listed above. This course also will link the theories of the firm presented in economics courses, with the real-world aspects of managing a business as an insider; as well as evaluating a business from the outside as an analyst. There will be a textbook, as well as case studies, and current events related to accounting as presented in periodicals such as the Wall Street Journal and information sources like CNBC. Given the nature and depth of the material, you should plan on committing about 20-24 hours per week to the course, including 8 hours a week of classroom time--likely two hours mid-morning, Monday through Thursday. Evaluation will be based on: Accounting Problems from the textbook and using spreadsheets Case Studies (2 or 3) Final Exam to unify the concepts

Requirements/Evaluation:  Problems, Case Studies, and a Final Exam
Prerequisites:  Econ 110
Enrollment Limit:  30
Enrollment Preferences:  If the course is over-enrolled, preference will be based on time at Williams with preference for those with more advanced standing
Expected Class Size:  30
Grading:  pass/fail only

ECON 22 (W) Volunteer Income Tax Assistant
This experiential course provides students with the opportunity to explore public policy through training and work as volunteer income tax preparers for low-income working people in North Adams, Massachusetts. By the end of the term, students will be IRS-certified volunteer income tax preparers. Students will progress through the IRS "Link and Learn" online tax preparer training program that leads to certification, both in class and on their own
time. Class sessions will also include several lectures/discussions that offer a brief overview of the U.S. income tax and its history, as well as its relationship to U.S. social policy (especially policy towards lower-income households). This year's course is co-taught by a behavioral economist, and thus some class time will be devoted to discussing the psychological aspects of filing taxes, both when filing for yourself and when serving as a volunteer assistant for low-income clients. At the end of the term, students have the option of writing a 10-page analytic essay or serving as volunteer tax preparers for local clients of the Berkshire Community Action Council. Note: This course satisfies the Political Economy Major Experiential Learning requirement.

**Requirements/Evaluation:** 10-page paper, or serving as volunteer tax preparers for local clients of the Berkshire Community Action Council

**Prerequisites:** none

**Enrollment Limit:** 18

**Enrollment Preferences:** statement of interest

**Expected Class Size:** NA

**Grading:** pass/fail only

**Attributes:** EXPE Experiential Education Courses

**Not offered current academic year**

LEC Section: 01 M-F 10:00 am - 1:00 pm William M. Gentry

**ECON 23 (W) Investing With Purpose: The planning and practice of endowment investing**

Are you eager to learn about investing? Or perhaps you are interested in non-profits and want to understand how endowments support their mission? Maybe you've thought about a potential career in finance, but want to know the difference between asset management and investment banking? ECON 23 is open to students of all majors and backgrounds; students with no prior experience are welcome and encouraged to apply. ECON 23 is designed to introduce students to investing and equip students with key industry knowledge and skills. The course is taught by members of the Williams College Investment Office, which oversees the college's $3.5 billion endowment. We'll start with an introduction to the role that the endowment plays in supporting the college's mission. Next, the course will cover different investment assets including equity, hedge funds, venture capital, private equity, fixed income, and impact investing. Students will receive a brief overview of accounting and will have the opportunity to learn about different career paths in finance. Through discussions, readings, and a group case study, students will apply skills learned. Students will learn from practicing investment professionals through guest speakers and will gain practical skills in Microsoft Excel through training and project work. The course will conclude with a required trip to Boston, where the class will spend the day with the Investment Office team and network with Williams alumni working in endowment management, private equity, consulting, and more. The course is open to first-years, sophomores, and juniors. To apply, please email investmentoffice@investments.williams.edu by 11:59 PM ET on Sunday, October 20, 2024 your resume and a brief personal statement discussing how your background and curiosity inform your interest in this course and what you hope to gain from it. For students without a resume prepared, ensure your personal statement contains relevant information you wish to convey

**Requirements/Evaluation:** Other: Other: Evaluation is based on class attendance, participation, and completion of assignments, which include required readings, weekly journal reflections, Excel assignments, a financial statements analysis, and a group case study. Additionally, students are required to attend a day-long trip to Boston to meet with the Investment Office team and guest speakers.

**Prerequisites:** None

**Enrollment Limit:** 18

**Enrollment Preferences:** First-years, sophomores, and juniors

**Expected Class Size:** NA

**Grading:** pass/fail only

**Unit Notes:** Morgan Kochard is an Associate Director at the Williams College Investment Office, focusing on global long equity, venture capital, buyouts and real estate. Previously, she held investing roles at the UCSF investment office and Cambridge Associates.

**Attributes:** STUX Winter Study Student Exploration

**Not offered current academic year**

**ECON 24 (W) The Economics, Geography and Appreciation of Wine**

This course provides an introduction to the economics, geography and appreciation of wine. We will be studying the economics and geography of wine production, and will also learn to identify, understand and appreciate the major wine types of the world. The course will involve lectures, outside
readings, discussions, and in-class wine tastings. We will focus primarily on the Old World wine styles and regions of France, Italy, Germany, Austria, Spain and Portugal, but will also cover some New World wine regions including California, Oregon, Chile, Argentina, South Africa, New Zealand and Australia among others.

**Requirements/Evaluation:** final project or presentation and a blind tasting exam

**Prerequisites:** none, but students must be 21 years old on or before the first day of class

**Enrollment Limit:** 10

**Enrollment Preferences:** Mix of academic record and diversity of backgrounds and interests. Students are invited to email the instructor with a brief description of background and interests, but are not required to do so.

**Expected Class Size:** 10

**Grading:** pass/fail only

**Materials/Lab Fee:** $300

**ECON 26 (W) Micro-Simulation Modeling for Ex Ante Policy Analysis**

**Cross-listings:**

**Secondary Cross-listing**

Micro-simulation modeling provides one of the most powerful tools for ex ante evidence-based analysis of economic and social policy interventions. Rooted in representative household surveys of a country's population, the models provide a picture of poverty, employment, consumption and income levels throughout the country. A micro-simulation model enables researchers to investigate the impact of existing economic and social policy interventions (such as tax and public benefit interventions) on income levels, poverty, inequality and other outcomes. In addition, researchers are able to simulate the impact and estimate the cost of new policy interventions. During this course, students will learn to apply these methods to analyze public policies and interpret the findings. The course examines measurement issues, analytical tools and their application to household survey data for a range of developing countries. The course also links the outcomes of the analysis with the challenges of policy implementation, exploring how the political environment and/or institutional setting may result in the implementation of second-best options. This is a hands-on modeling course, and students will build a micro-simulation model for a country of their choice and use this model in completing the course requirements. The course will employ Excel, Stata and advanced micro-simulation packages. The final requirement for the course is a policy paper that provides students with an opportunity to write accessible prose that communicates the methodology adopted and the key lessons of the analysis

**Requirements/Evaluation:** two 10-page papers and final project and presentation

**Prerequisites:** Fall semester CDE courses for CDE fellows

**Enrollment Limit:** 10

**Enrollment Preferences:** CDE Fellows; undergraduate enrollment at the discretion of the instructor.

**Expected Class Size:** NA

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

Not offered current academic year

LEC Section: 01    M-F 10:00 am - 12:30 pm     Michael Samson

**ECON 28 (W) Product Management and Solution Design**

In this course, students will work in small teams to design a software product that solves a problem of their choosing. To support this endeavor, we will examine, critique, and apply methodologies intended to solve these problems, including those developed by Marty Cagan, Steve Blank, Don Norman, Steve Krug, and Eric Ries. Students will learn to act as effective product managers, achieving alignment between business, technology, and UI/UX design. Such alignment is crucial given that technology projects often fail not because of the quality of technical engineering but due to misalignment in
these three areas. Google Glass failed to account for its price tag, fashion, and the privacy panic. The initial Obamacare website failed to address management issues and predict the volume of website visitors. Flexcube failed to update and incorporate users into the design of their product, resulting in a $500 M UX mistake for Citi bank. These organizations did not identify the right problem, or did not build the right solution. The underlying conflict is IT teams like to be told what to build, but users often do not know what they want or how to express it. We will learn how product managers and their interdisciplinary teams can bridge that gap.

Requirements/Evaluation: Presentation(s); Creative project(s)
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: Preference for upper classmen (seniors, juniors)
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Allan Wellenstein is a SVP at DataArt, where he heads the DataArt Solution Advisors consulting group as well as their product management competency. Though technically headquartered in NYC, he lives with his wife and three children in Pittsfield.

ECON 29 (W) Infrastructure Policy in Developing Countries
Cross-listings:
Secondary Cross-listing
This is a CDE winter term course, open to undergraduates. Students will be introduced to policy-making challenges of infrastructure, with a focus on developing countries. Students will read and discuss case studies on how different countries have sought to address infrastructure challenges through policy interventions. Through these, students are expected to develop an appreciation for different elements of infrastructure policy, and how countries have succeeded - or not - in using policies to meet their development objectives. The course will touch on evolving energy technologies, different transportation sectors, public-private partnerships, infrastructure financing and the impacts of climate change. The course approach is applied political economy as opposed to theory, and there are no prerequisites. Case examples will be drawn from a range of developing countries, covering Latin America, Africa, the Middle East and Asia. Students are expected to participate actively in class discussions, and will write a paper and deliver a team presentation on ways in which infrastructure challenges can be approached in a country of their choosing.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Other: Class participation
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Interest in the topic.
Expected Class Size: NA
Grading: no pass/fail option, no fifth course option
Unit Notes: The instructor is the former Global Director of Infrastructure at the World Bank Group's International Financial Corporation. He has over three decades of experience in economic development, and teaches, consults, and writes about infrastructure.
Distributions: (D2)

ECON 30 (W) Honors Project: Economics
The "Specialization Route" to the degree with Honors in Economics requires that each candidate take an Honors Winter Study Project in January of
their senior year. Students who wish to begin their honors work in January should submit a detailed proposal. Decisions on admission to the Honors WSP will be made in the fall. Information on the procedures will be mailed to senior majors in economics early in the fall semester. Seniors who wish to apply for admission to the Honors WSP and thereby to the Honors Program should register for this WSP as their first choice. Some seniors will have begun honors work in the fall and wish to complete it in the WSP. They will be admitted to the WSP if they have made satisfactory progress. They should register for this WSP as their first choice.

**Class Format:** honors project  
**Grading:** pass/fail only  
Not offered current academic year  
HON Section: 01 TBA Steven E. Nafziger

**ECON 31 (W) Honors Thesis: Economics**  
To be taken by students participating in year-long thesis research Economics 493-494.

**Class Format:** thesis  
**Grading:** pass/fail only  
Not offered current academic year  
HON Section: 01 TBA Steven E. Nafziger

**ECON 32 (W) The Fun of Fundraising**  
According to the National Center for Charitable Statistics, there are 1.5 million non-profit organizations registered in the U.S., and each of those organizations needs to actively fundraise in order to sustain their operations. Each year, hundreds of billions of dollars are contributed to charities from donors across the U.S. What is it that makes people want to give? What do donors consider when choosing what organizations to support? What type of an impact do individuals want to make through their philanthropy? This class will examine these questions and more through case studies, conversations with non-profit leaders and board members, and philanthropists. Students will gain a basic understanding of a non-profit financial model and how non-profits can demonstrate impact to existing and potential donors, as well as the different ways in which fundraising can actually be fun and can inform a potential career in the non-profit sector. Much of the course reading will involve actual fundraising materials and collateral, including appeals, brochures, grant applications, and stewardship reports. Final projects will give students the opportunity to try their own hand at creation of stewardship or solicitation pieces, potentially in partnership with/or the benefit of a local non-profit. In addition to regular course meetings, occasional meetings with non-profit leaders or donors may be required; whenever possible (based on the schedule of the guest speaker), these will be scheduled during the day, and any evening events would be optional.

**Requirements/Evaluation:** Paper(s) or report(s); Presentation(s)  
**Prerequisites:** None  
**Enrollment Limit:** 20  
**Enrollment Preferences:** Seniors receive priority; then by personal statement of interest  
**Expected Class Size:** NA  
**Grading:** pass/fail only  
**Unit Notes:** Ryan Ford '09 has fifteen years experience in higher education supporting alumni engagement and philanthropy. He is currently Director of Milestone Reunion Programs at Williams after previously working at Dartmouth, Harvard, and non-profit setting.

**ECON 33 (W) Climate and Energy Finance**  
How do we finance the energy transition? How do we use money to mitigate the worst effects of global warming? How can a career in finance fight climate change? This course introduces students to key topics, market players, and tools in climate and energy finance and surveys how to mobilize capital to finance clean energy (largely in a U.S. energy market context) and other climate-forward outcomes. Students will learn fundamental financial and investment concepts, including basic capital structures, three-statement models, and project finance. Students will explore sectors for decarbonization beyond energy, including food systems, buildings, and transportation. All modules will emphasize equity and social justice challenges
and successes. Some modules may even be fun. Throughout, students will learn about market participants in each area and hear from guest speakers so that they may complete the course with a better understanding of careers at the intersection of climate change and finance.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s)
Prerequisites: N/A
Enrollment Limit: 20
Enrollment Preferences: Preference will be given to students interested in exploring careers in energy, finance, and/or climate justice, based on a paragraph expressing their interest. All levels of experience are welcome, especially beginners.
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Kaitlin Butler '11 works on the Investment and Portfolio Management team at NY Green Bank, the largest green bank in the U.S., where she supports the origination of clean energy investments across New York. She earned an MBA from Columbia University.

ECON 34 (W) Data for Development
Cross-listings:
Secondary Cross-listing
Recently we have experienced an explosion in publicly available data sources that can be helpful to inform development research. This course is designed to provide hands-on experience using microeconomic data to assess trends in key indicators used to measure progress towards the sustainable development goals. The course will build students' skills in finding, accessing and using various data sources. It will also expose students to the range of new types of data for development. Students will build skills in data cleaning, data manipulation and data visualization techniques. The course will use Stata, and most of the course will involve hands-on in-class data workshops, interspersed with some lectures and readings. Each student will focus on a low- or middle-income country of their choice and produce a policy report using the data skills acquired during the course.
Requirements/Evaluation: Short paper and final project or presentation
Prerequisites: CDE students need to have completed their fall semester core classes. Undergrad students need to have taken STAT 161 or equivalent.
Enrollment Limit: 15
Enrollment Preferences: CDE preference. Undergrad students can enroll at the discretion of the instructor.
Expected Class Size: NA
Grading: no pass/fail option, no fifth course option
Distributions: (D2)

ECON 52  (W)  Micro-Simulation Modeling for Ex Ante Policy Analysis

Cross-listings:

Primary Cross-listing

Micro-simulation modeling provides one of the most powerful tools for ex ante evidence-based analysis of economic and social policy interventions. Rooted in representative household surveys of a country's population, the models provide a picture of poverty, employment, consumption and income levels throughout the country. A micro-simulation model enables researchers to investigate the impact of existing economic and social policy interventions (such as tax and public benefit interventions) on income levels, poverty, inequality and other outcomes. In addition, researchers are able to simulate the impact and estimate the cost of new policy interventions. During this course, students will learn to apply these methods to analyze public policies and interpret the findings. The course examines measurement issues, analytical tools and their application to household survey data for a range of developing countries. The course also links the outcomes of the analysis with the challenges of policy implementation, exploring how the political environment and/or institutional setting may result in the implementation of second-best options. This is a hands-on modeling course, and students will build a micro-simulation model for a country of their choice and use this model in completing the course requirements. The course will employ Excel, Stata and advanced micro-simulation packages. The final requirement for the course is a policy paper that provides students with an opportunity to write accessible prose that communicates the methodology adopted and the key lessons of the analysis

ECON 54 (W) Macroeconomic Policy Analysis: A Practitioner’s Perspective

This is an introduction to the analysis of macroeconomic policy issues, especially monetary, fiscal and exchange rate policy. We will focus on the data, metrics and techniques that financial markets analysts/economists use in assessing the macro conditions of countries. The goals are threefold: (1) to become familiar with some of the analytical tools used in macroeconomics, (2) to be able to understand and critique empirical macro research, and (3) to practice the writing and presentation skills used in policy analysis. The emphasis will be on practical issues, such as working with macro data, rather than on formal econometric methods.

Requirements/Evaluation: Several short policy analysis briefs

Prerequisites: N/A

Enrollment Limit: 10

Enrollment Preferences: Enrollment is restricted to the CDE students

Expected Class Size: N/A

ECON 56 (W) Macroeconomics: A Look at the Data

This winter study course provides CDE fellows with practical experience in using macroeconomic data to assess the state of the economy. The course focuses on the real sector, the government sector, and the monetary sector, with an emphasis on computing output gaps, analyzing contributions to growth and inflation, and assessing the stance of monetary policy. Hands-on workshops, interspersed with some lectures and readings, will be the main format of the course. The course will also emphasize the importance of effectively communicating findings and recommendations to senior policymakers who rely on their advice, with a focus on structuring papers or memos, editing, revising, and efficiently conveying quantitative information through tables and graphs.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s)
Prerequisites: Fall semester CDE courses
Enrollment Limit: 10
Enrollment Preferences: CDE Fellows

ECON 99  (W) Independent Study: Economics
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period. Winter Study 99 projects sponsored by the economics department must adhere to a specific set of rules outlined on the economics department website at (https://econ.williams.edu/major/economics-winter-study-99-guidelines/). Please review these rules well in advance of the deadline.
Class Format: independent study
Requirements/Evaluation: 5 page paper on the economics literature relevant to the project is due at the beginning of the Winter Study period. For an internship, a final 10 page paper summarizing the findings of the internship and relating them explicitly to the issues discussed in the proposal is required at the end of the Winter Study period. Proposals for 99s other than internships must set out a clear schedule of work and means of evaluation. Unless compelling considerations argue otherwise, you should expect to include a paper as part of your work.
Prerequisites: ECON 110 or ECON 120, plus one economics course relevant to the project.
Enrollment Limit: NA
Enrollment Preferences: NA
Grading: pass/fail only
IND Section: 01  TBA  Jon M. Bakija

ENGL 15  (W) From Poe's "The Raven" to Peele's "Get Out": Race, Gender, and Sexuality in U.S. Horror
This Winter Study course explores frameworks of race, gender, sexuality, and other intersecting categories of representation in U.S. horror, specifically as they have developed from the 19th through the 21st centuries. We examine short stories, novels, and films, applying theoretical frameworks and methodologies to analyze a genre often dismissed as "entertainment," but which scholars have long identified as reflecting, and often challenging, the cultural constructs and anxieties of the time.
Requirements/Evaluation: Paper(s) or report(s); Presentation(s)
Prerequisites: None
Enrollment Limit: 20
Enrollment Preferences: Expression of interest.
Expected Class Size: NA
Grading: pass/fail only
Unit Notes: Dr. Garcia holds a Ph.D. and master's in English from Ohio State University, and an Ed.M. from Harvard. She was a tenured professor of English at Kenyon College and The College of Wooster, and is a published scholar on the U.S. Gothic.
ENGL 17 (W) Writing Art
This course is conceived as an experiential adventure in creative forms of art writing. We'll read and discuss several recent examples of such work to get a sense of the range of approaches alive today, from the ekphrastic poem to the lyric essay to the novel; and we will spend considerable time in local museums, engaging intimately with works of art through various writing prompts, as you create your own creative responses to visual art.

Class Format: This will be a hybrid course. We will divide our time between seminar meetings, where we will discuss published texts; museum visits, where you'll engage directly with visual art; and tutorial-style workshops, where you'll get feedback on your evolving work.

Requirements/Evaluation: engaged participation; successful completion of assignments; demonstrated commitment and quality of the work, as evidenced by a final portfolio of revised writing.

Prerequisites: None, though an interest in visual art and a love of writing will be very helpful!

Enrollment Limit: 10

Enrollment Preferences: Majors in English or Art. If overenrolled, admission will be determined through an instructor interview and writing sample.

Expected Class Size: 10

Grading: pass/fail only

Winter 2024
LEC Section: 01 TR 1:00 pm - 4:00 pm Ivonne M. García

ENGL 19 (W) The Personal is Political: A Narrative Nonfiction Writing Workshop
Since St. Augustine's Confessions, great political thinkers have crafted personal stories as evidence of and witness to their own political times. Frederick Douglass and Harriet Jacobs told their stories to further the abolitionist movement. W.E.B. DuBois, James Baldwin, and Simone de Beauvoir ushered us through the turbulent 20th century showing how the personal is political, and the political, personal. Today, Ta-Nehisi Coates, Suki Kim, Maggie Nelson, Kiese Laymon, and Claudia Rankine, among others, show us how well-crafted personal stories can bring important political ideas to the forefront of our collective imagination. Anticipating criticism of the form, Beauvoir wrote in the preface to her 1961 autobiography that "if any individual... reveals himself honestly, everyone, more or less, becomes involved. It is impossible for him to shed light on his own life without at some point illuminating the lives of others." In this workshop, you will do just that, crafting a personal nonfiction story in essay form. We'll meet for six hours each week, splitting our time between discussions of the published work we're reading and a workshop-setting discussion of the work you're producing. Your engagement with this class will occupy time outside of the classroom as well, during which you'll be engaged in the writing process and reading for class.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s)

Prerequisites: the spark of an idea about which you'd like to write an essay

Enrollment Limit: 12

Enrollment Preferences: by seniority, (starting with seniors, who won't have another chance to take it) because I've found older and more experienced students get more out of the class than first-years.

Expected Class Size: NA

Grading: pass/fail only

Winter 2024

ENGL 24 (W) The Craft of Fiction: A Short

In Bird by Bird, Anne Lamott advises aspiring authors to approach writing in gradual steps (or, in her words, "bird by bird," rather than being "immobilized by the hugeness of the task ahead.") In this course, we too will move "bird by bird," through writing exercises that tackle the essentials of fiction. We will read the likes of Chimamanda Ngozi Adichie, Octavia Butler, Anton Chekhov, Stuart Dybek, Adam Johnson, Denis Johnson, Herman Melville, Lorrie Moore, Tim O'Brien, and Zadie Smith to parse and then practice the techniques these authors employ to create plot, structure conflict, establish characters, and make them talk. By studying an array of voices, students will find which cadences best fit their own work. We'll visit Arrowhead, Melville's Pittsfield house, to see where he wrote Moby Dick, as well as spend time in local museums, engaging closely with works of art there to further inspire and deepen our fiction. Beginning in Week Two, students will present their own works-in-progress, which we will discuss in a supportive workshop environment. At course's end, students will have polished a piece of short fiction, explored the beginnings of several new projects, and learned numerous techniques to keep them writing in the future. Evaluation will be based on workshop participation and classroom discussion, brief writing exercises, and a ten-page short story. Students are expected to spend an hour daily on their own fiction writing, in addition to the time required to complete each meeting's reading and writing exercises. We will typically meet twice a week for three hours, though occasionally the class may extend slightly beyond this timeframe given travel to and from field trip destinations.

Requirements/Evaluation: Creative project(s)

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Students must submit a letter explaining why they would like to take the class and detailing any past fiction-writing experience. Please also include a brief writing sample (ideally fiction, but could also be creative non-fiction) of 500-1,000 words.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Sara Houghteling is the author of the novel Pictures at an Exhibition. A former lecturer in English at Stanford, she currently works in the Research and Academic Program at the Clark Art Institute.

ENGL 29 (W) The Observer, The Subject, and The Audience

In his book The Peregrine, British naturalist J.A. Baker suggests that obsession and loss of self is required for anyone looking to capture truth: "the hunter must become the thing he hunts." This class will explore the practice of observation, with a focus on documentary film and nonfiction literature. What are the methods and strategies? What are the ethics and the cultural implications? Through film viewings and readings, students will gain an understanding of narrative styles, while discussing how ethical, practical, and aesthetic choices influence the relationship with both the subject and the intended audience. Work will include six to eight hours of weekly viewing, and a similar amount of reading.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Creative project(s)

Prerequisites: None.

Enrollment Limit: 16

Enrollment Preferences: English majors. Seniority.

Expected Class Size: NA

Grading: pass/fail only

Unit Notes: Phil Wall '07 is an award-winning filmmaker known for "The Standard" (2020) and "The Book Keepers" (2022). He lives in Brooklyn, NY, where he works on independent and commercial narrative content.

ENGL 33 (W) "The World Keeps Ending": Poetry of Apocalypse

The Encarta Webster's Dictionary defines *apocalypse* as both "the destruction or devastation of something" and "a revelation made concerning the future." Increasingly, as humanity sinks deeper into crises of climate disaster, war, scarcity, inequality, and violence, poets are using themes of apocalypse and dystopia to make sense of our world -- and to imagine the possibilities beyond our world's end. In this workshop, we will explore what apocalypse means both personally and collectively, asking such questions as: What is worth saving? What is worth letting go? In what ways and for whom has the apocalypse already happened? How do we imagine the last day of the world -- and the day after that? As Franny Choi tells us, "The World Keeps Ending, and the World Goes On." We will take guidance from poets like Choi, sam sax, Saeed Jones, Joy Harjo, and others, crafting poems inspired by readings and prompts. As a group, we will define craft elements and potential workshop models, using both to inform our discussions of student work led by the writer. Weekly writing assignments will culminate in a final portfolio of poems. This is an anti-racist workshop which seeks to expand the literary canon, and in which we will collaborate to create a healthy and creative space for all voices. Above all, the goal will be to grow in confidence as a creative writer, pursuing your own definition of your best work.

Requirements/Evaluation: Creative project(s)
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Statement of interest
Expected Class Size: NA
Grading: pass/fail only

ENGL 41 (W) Representing US Childhoods
Childhood as it is understood today in the US is a relatively recent invention. In this course we will read works of literature, history, and cultural studies, as well as consider such mediums as art, films, podcasts and music, and analyze material culture (objects such as toys and clothing) associated with childhood and children in the U.S. Along the way, we will consider questions such as how childhood has emerged as a distinct stage of life; how definitions of childhood vary (or not) across differences such as race, gender, class; what places and spaces define childhood; how writers and artists contribute to constructing particular visions of childhood and what the resonances of these representations are; and what it means to "grow up." An emphasis will be placed on learning to analyze closely a variety of texts and objects.

Requirements/Evaluation: There will be at least three short (2-5 page) writing assignments; a revision of at least one of those papers; and a short
final reflection essay. As an intensive winter study, this class will require approximately 12-15 hours of in-person class time a week, as well as time outside of class on reading and writing assignments.

**Prerequisites:** permission of a dean

**Enrollment Limit:** 19

**Enrollment Preferences:** students who need to make up a deficiency

**Expected Class Size:** 19

**Grading:** pass/fail only

**Unit Notes:** This course is designed to count for both full semester and Winter Study credit. Once a dean approves enrollment, the Registrar’s Office will register students in both ENGL 102 and ENGL 41.

Winter 2024

**SEM Section:** 01 M-F 10:00 am - 4:00 pm  Kathryn R. Kent

**ENGL 99 (W) Independent Study: English**

Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.

**Class Format:** independent study

**Grading:** pass/fail only

*Not offered current academic year*

**IND Section:** 01 TBA  Gage C. McWeeny
WOMEN’S, GENDER AND SEXUALITY STUDIES (Div II)
Chair: Associate Professor Gregory Mitchell

Women’s, Gender and Sexuality Studies can be defined as the study of how gender is constructed, how it is inflected by differences of race, ethnicity, sexuality, class, and so on, how gender affects the experiences and situations of men and women, and how assumptions about gender influence the construction of knowledge and experience. Scholarship in Women’s, Gender and Sexuality Studies has brought neglected material into established fields and raised important methodological questions that cross disciplinary boundaries and challenge established intellectual frameworks. The program in Women’s, Gender and Sexuality Studies thus includes courses from a wide variety of disciplines that focus in a coherent way on gender issues and/or sexuality issues, as well as core courses that acquaint students with the interdisciplinarity of the field.

THE MAJOR

The Women’s, Gender and Sexuality Studies major encourages students’ exposure to the interdisciplinary character of feminist and sexuality-focused scholarship. In addition, majors are required to gain some knowledge of methods within a field or discipline (3 courses in one of the categories listed below), to appreciate the importance of diversity (racial, sexual, class, ethnic, national, etc.) in scholarship on gender and sexuality, to gain exposure to feminist and/or queer theory, and to pursue work at an advanced level (3 courses at the 300-level).

In order to ensure that students reflect about the paths that they choose through the major, each major will be assigned to an advisor in the spring of the sophomore year. With the advisor, the student will establish a revisable course of study for the following two years. Students interested in declaring a major should contact the Chair of the Program.

Required Courses

The major consists of at least 9 courses. The following are required:

- WGSS 101 Introduction to Women’s, Gender and Sexuality Studies
- WGSS 202 Foundations in Sexuality Studies
- WGSS 400-level Junior/Senior Seminar in Women’s, Gender and Sexuality Studies. The seminar explores topics in Women’s, Gender and Sexuality Studies, and varies from year to year. Majors may take more than one seminar, space permitting.

In addition to these three required courses, students are required to take six electives. In consultation with their major advisor and with approval from the chair, these six elective courses should include:

- Courses from at least 3 different disciplinary traditions.
- At least 3 courses at the 300-level.
- At least 1 course that emphasizes feminist/queer theories and/or methodologies.
- At least 1 course that emphasizes a diversity of racial, sexual, religious, and/or cultural identities and practices.

In the final semester of their senior year, all majors will be required to write a reflective intellectual autobiography of their WGSS major, in which they explain how their courses meet the goals of the major, and analyze the relationship among the courses they have taken, the papers they have written, and the research projects undertaken.

THE DEGREE WITH HONORS

Honors in Women’s, Gender and Sexuality Studies may be granted to majors after an approved candidate completes an honors project, delivers a public presentation of the work, and is awarded honors by the Women’s, Gender and Sexuality Studies Committee. The honors project may be fall semester (plus winter study) or a year-long project. It may consist of a conventional research thesis of 40-70 pages or of other modes of presentation (e.g., art, music, poetry, theater, fiction). Proposals for non-thesis projects should include evidence of experience and competence in the chosen mode.

A student may become a candidate for honors in Women’s, Gender and Sexuality Studies after the following criteria are met:

In April of the junior year, submission and Women’s, Gender and Sexuality Studies Committee approval of a 4- to 6-page project proposal, in which the ideas, aim, general methodology, and preliminary bibliography for the project are outlined and a faculty advisor is named; prior to submission of this proposal, students must consult with a reference librarian.

At the end of the junior year, cumulative grade point average of 3.5 from courses taken in the major;

In the first week of classes of the senior year, submission and approval by the faculty advisor and second reader of a 5- to 10-page “Plan of Action” (an overview of what has already been completed and a schedule of what needs to be accomplished to finish the project). Where appropriate,
students pursuing honors will continue to consult with the second reader over the course of the semester(s).

All honors work, including the public presentation, will be evaluated by the Women's, Gender and Sexuality Studies Committee. It will decide on the awarding of honors; the advisor will award the grade(s).

STUDY ABROAD

The Williams College Women's, Gender and Sexuality Studies Program encourages potential majors to study abroad in order to enhance their education and gain international perspectives on gender and women's issues and feminism. There are many excellent study abroad opportunities offering students a variety of possible experiences: among them cultural immersion, field work, intensive language learning, independent study, participation in another educational system. There are several semester-long programs with a specific focus on women and/or gender administered by other U.S. Colleges that would especially enrich the educational experience of our majors:

- Antioch College: Comparative Women's Studies in Europe fall semester
- Augsburg College, Center for Global Education: Crossing Borders: Gender and Social Change in Mesoamerica fall semester; and Social and Environmental Justice in Latin America spring semester
- School for International Training: The Balkans: Women and Democratization, fall or spring semester
- Jamaica: Gender and Development, fall or spring semester
- Mali: Gender and Development, fall or spring semester
- The Netherlands: Identity, Gender and Sexuality, fall or spring semester

FAQ

Students MUST contact departments/programs BEFORE assuming study away credit will be granted toward the major or concentration.

Can your department or program typically pre-approve courses for major/concentration credit?

Yes, in some cases, if appropriate course information is available in advance (e.g. syllabi and/or course descriptions), though students should be sure to contact the department.

What criteria will typically be used/required to determine whether a student may receive major/concentration credit for a course taken while on study away?

Course title and description, complete syllabus, including readings/assignments, and exams or other written work. Depends on the level for which the student is seeking major credit (200- vs 300-).

Does your department/program place restrictions on the number of major/concentration credits that a student might earn through study away?

No.

Does your department/program place restrictions on the types of courses that can be awarded credit towards your major?

No.

Are there specific major requirements that cannot be fulfilled while on study away?

Yes. 101 and 402 cannot be fulfilled abroad.

Are there specific major requirements in your department/program that students should be particularly aware of when weighing study away options? (Some examples might include a required course that is always taught in one semester, laboratory requirements.)

No.

Give examples in which students thought or assumed that courses taken away would count toward the major or concentration and then learned they wouldn’t:

None to date.

WGSS 101 (F)(S) Introduction to Women's, Gender & Sexuality Studies (DPE) (WS)

This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across
the globe. We will survey a wide variety of writers and issues—historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

**Class Format:** Mix of lectures and seminars

**Requirements/Evaluation:** Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** WGSS majors and potential WGSS majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** required course for the Women's, Gender and Sexuality Studies major

**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.

**Difference, Power, and Equity Notes:** This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies’ history, activism, and theory.

**WGSS 105 (F) American Girlhoods** (DPE) (WS)

**Cross-listings:** ENGL 105

**Secondary Cross-listing**

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of “manners and morals” does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

**Requirements/Evaluation:** at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 105(D2) ENGL 105(D1)

Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

Fall 2024

WGSS 111 (F) Television, Social Media, and Black Women 'Unscripted'

Cross-listings: AFR 110

Secondary Cross-listing

Nene Leaks, Issa Rae, Zendaya, Oprah Winfrey, Lavern Cox and Joy Reid have become common household names. Whether from the television shows they star in, the TV shows they have created, or the social media presence they have developed--these women continue to influence and shape popular culture. In this course we will situate Black women as creators and contributors to popular culture as a whole, but specifically through television (scripted and "unscripted") and social media. We will begin by covering the history of Black women in television. This historical approach will then lead us to examine selected TV episodes, and investigate social media pages of Black actresses, television producers, and the fans of these shows. The aim of this course is to analyze the ways in which Black women continually shift the popular culture paradigm and how they serve as key players determining what is indeed popular.

Requirements/Evaluation: class participation, podcast, vlogs, 10-page paper, and a formal class presentation

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: First year Students

Expected Class Size: 13

Grading: no pass/fail option, no fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Not offered current academic year

WGSS 112 (F) Sex, Gender, Religion

Cross-listings: REL 112

Secondary Cross-listing

The relationship between sex, gender, and religion is one that is hotly debated in our current political context. Many contemporary issues such as abortion, sexual identity, transgender rights are all informed by religious traditions. While religion is most often critiqued for its misogyny and homophobia, it also opens up unexpected possibilities for gender and sexual diversity. This course will consider both these paradoxes and contradictions in religious traditions and their engagement with gender and sexuality. The course will consider how religious traditions have shaped our current discourses on sexual and gender diversity, how religious tradition understand and interact with modern constructions of sexual and gender identity, and how religious queer communities imagine queer possibilities in conversation with their religious traditions. In exploring these topics, the course will cover global religious traditions both historically and in the contemporary.

Requirements/Evaluation: weekly responses, midterm essay, final project.

Prerequisites: none
WGSS 112 (D2) WGSS 113 (F) The Feminist Poetry Movement (DPE) (WS)

Cross-listings: AMST 113 / ENGL 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: two-three short analysis papers, creative (1-2 pages), curated final project (archival exhibit and digital project), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 113(D2) ENGL 113(D1) WGSS 113(D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: two to three four-to-five-page graded papers, one creative assignment, and a final digital research project (8-10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women’s Liberation Movement.

Fall 2024

SEM Section: 01 TF 2:35 pm - 3:50 pm Bethany Hicok
Self-proclaimed feminist activists, who hail from a variety of ethnic Latina/o/x/e (Latine) backgrounds, have often appealed to "ancestral" and "spiritual traditions" as integral to their activism and commitments. Some Latine feminists turned to "spiritual" traditions including brujería/witchcraft; curanderismo and Indigenous healing traditions; Santería/Lukumí and other AfroDiasporic traditions; astrology; home altars; various "mystical" traditions such as Kabbalah and Sufism, as well as Christian mystics like Teresa of Avila or Sor Juana Inés de la Cruz. Others have turned to the appropriation of "Eastern" traditions such as yoga, Tibetan Buddhism, and Zen Buddhism. This course engages students in an intensive introduction to some of the varieties of Latine feminist thought and contexts, including how activists, writers, and artists think about women, gender, sexuality, race, class, colonialism, the earth, healing, and a better world. How do these feminists of different Latine backgrounds and contexts imagine a better world? How and why do they appeal to spiritual traditions as a source of wisdom, healing, and lived practice for a better world? In this course, we seek to understand both particular Latine feminist spiritual practices on their own terms, as well as why such writers and activists appeal to "the spiritual" in Latine contexts. We will also consider how they frame notions of "the spiritual" in relationship to notions of "the religious" and "the secular."

**Requirements/Evaluation:** Grading is based on 5-6 page papers written on alternating weeks and brief 1-2 page response papers shared on alternating weeks as well as participation and two paper revisions.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** Latina/o Studies concentrators, religion majors, first-year students interested in Latina/o Studies and/or religion

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
WGSS 115(D2) LATS 115(D2) REL 115(D2)

**Writing Skills Notes:** Grading is based on alternating weeks writing a lead paper and other weeks writing a brief response paper. This course will require students to write regularly and revise two of their lead papers for grades.

**Difference, Power, and Equity Notes:** This course examines how Latine feminists have responded to a variety of differential power inequities, especially in terms of gender, sexuality, race, ethnicity, language, and class. It also considers the ways they have imagined better and more equitable worlds, and with what consequences they have done so.

---

**WGSS 127 (F) Spring Grass: A Peek into Inequality in China (DPE) (WS)**

**Cross-listings:** CHIN 427 / ASIA 127

**Secondary Cross-listing**

*Spring Grass (Chuncao)* is a Chinese novel written by award-winning author Qiu Shanshan (1958-). Using the literary techniques of social realism, the novel chronicles the life of a young rural woman from 1961 to 2001. Spring Grass, the protagonist of the novel, was born in a rural village to a mother who preferred sons over daughters. At a young age, Spring Grass was deprived of the opportunity to attend school. Against all odds, she managed to marry for love, venture into the city, and become an enterprising migrant worker. This novel not only reflects the struggles of women in contemporary China but also captures the economic transformation of modern China since 1978 when the Reform and Open-Door Policy (gaige kaifang) was initiated. The novel was adapted into a television drama series and became an instant hit in 2008. This course takes an interdisciplinary, cultural studies and humanistic approach to studying a literary text, using literature as a means to help students better understand social and cultural issues. Through close readings of the novel, the eponymous TV drama series, documentaries, and films depicting rural life and women's roles in China, as well as in-depth discussions of both primary and secondary sources that deal with the cultural, historical, and socioeconomic background of the unfolding story of Spring Grass, this course aims to provide a window for students to examine the issues of inequality in the Chinese village and society at large. Why would mothers be harsh to their own daughters and bar girls' right to education? Why would young people leave their village and migrate to the city? Why would migrant workers leave their children behind in the village? Why would economic developments in China exacerbate the problem of gender inequality in society? Why would the ideology and cultural logic behind Mao Zedong's proclamation "women can hold up half of the..."
sky” add more burden to women rather than truly liberate them? Why would city people discriminate against country folks? After taking this course, students will gain a deeper understanding of the issues related to gender inequality (nannü bu pingdeng) and the urban/rural-gap (chengxiang chabie) in China. Throughout the course, they are also encouraged to critically think about how to achieve equity in different societies. This tutorial is conducted in either Chinese or English. Students wishing to take the course in English should register under ASST or WGSS and language learners wishing to take the course in Chinese should register under CHIN.

Requirements/Evaluation: For all students, active participation in tutorial meetings and an online writing portfolio as the final project. For CHIN students, four 4- or 5-page tutorial papers and revisions in Chinese, four 2-page critiques. For ASIA/WGSS students, five 5-page tutorial papers in English, five 2-page critiques, one revised paper.

Prerequisites: For students registering under CHIN, the prerequisite is CHIN 402 or a language proficiency interview conducted by the instructor. For students registering under ASST or WGSS, there is no prerequisite.

Enrollment Limit: 10

Enrollment Preferences: Enrollment priorities will be given to Chinese language learners who register under CHIN, and to freshmen and sophomores who register under ASST or WGSS.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 127(D2) CHIN 427(D1) ASIA 127(D1)

Writing Skills Notes: Writing is taught using the writing-as-process pedagogical approach. The writing process consists of invention, composition, and revision. Detailed writing prompts will be provided to students to generate and organize ideas for each essay. The instructor gives detailed feedback to students’ drafts and students are required to turn in revisions. At the end of the semester, students will compile an online writing portfolio to showcase their best works.

Difference, Power, and Equity Notes: The issue of “inequality,” including both gender inequality and regional inequality is the driving force behind the readings and discussions of this tutorial. Students are guided to develop an empathetic way of interpreting a literary work that features a rural woman/migrant worker. They will critically analyze the sources of inequality in the Chinese cultural context and explore ways to address such inequality.

Not offered current academic year

WGSS 150  (F) Data for Justice  (DPE) (QFR)

Cross-listings: STS 150 / AMST 150 / SOC 150 / INTR 150

Secondary Cross-listing

This course is a unique and inclusive introduction to data science where quantitative thinking, programming, and social justice intertwine. We will build our data science skills using R, a popular open-source data science tool. We will focus on essential stages of data analysis, including data acquisition, cleaning, wrangling, visualization, and exploration. But rather than divorcing these techniques from the social issues they can help illuminate, we ground them in a social justice context. Overall, we will apply data science skills to topics drawn from criminal justice, environmental justice, diversity and inclusion in arts and media, education equity, and much more, with the goal of growing our collective capacity to use data science as a tool for social good. During a time when humans are increasingly subjugated to data-driven algorithmic decisions, when there are social media accounts dedicated to highlighting misuses of data, and when artificial intelligence makes faking data a nearly trivial task, using data to ethically and carefully promote justice is more important than ever.

Class Format: This course is taught in a highly interactive format and will frequently use a flipped-classroom approach. Students should expect substantial time devoted to in-class collaboration.

Requirements/Evaluation: Students will complete regularly assigned activities, problem sets, and other assessments. To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor adopts a mastery-based approach.

Prerequisites: None. This course assumes no prior knowledge of data science or R programming. An interest in social justice and a willingness to engage intensively with data and computing are essential.

Enrollment Limit: 18

Enrollment Preferences: Students without prior college-level courses in statistics and programming.

Expected Class Size: 18
Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:
STS 150(D2) AMST 150(D2) SOC 150(D2) WGSS 150(D2) INTR 150(D2)

Difference, Power, and Equity Notes: This course uses data science as a lens for injustice in spheres such as criminal justice, environmental justice, diversity and inclusion in arts and media, education equity. We will consider race, gender, LGTBQ+, disability, and other axes of identity. Additionally, we will adopt a data-critical perspective, thinking about how social forces shape data and our understanding of it.

Quantitative/Formal Reasoning Notes: This course teaches quantitative tools in R, a widely-adopted data science platform. We will focus on essential stages of data analysis, including data acquisition, cleaning, wrangling, visualization, and exploration.

WGSS 152 (F)(S) The Fourteenth Amendment and the Meanings of Equality (DPE) (WS)

Cross-listings: HIST 152

Secondary Cross-listing
For more than 150 years, the 14th Amendment of the U.S. Constitution has served as the principal touchstone for legal debates over the meaning of equality and freedom in the United States. This course explores the origins of the 14th Amendment in the years immediately following the Civil War, and examines the evolution of that amendment's meaning in the century that followed. Central themes in this course include the contested interpretations of "birthright citizenship," "due process," "privileges and immunities," "equal protection," and "life, liberty or property"; the rise, fall, and rebirth of substantive due process; battles over incorporating the Bill of Rights into the 14th Amendment; and the changing promise and experience of citizenship. We will pay particular attention to how arguments about the 14th Amendment have shaped and been shaped by the changing meanings of racial and gender equality.

Requirements/Evaluation: a series of short (3-page) response papers; and a final 10-12 page research paper

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 19

Enrollment Preferences: given first to sophomores who have been dropped from this class previously, then to first-years, then to sophomores who have not been dropped previously

Expected Class Size: 15-19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 152(D2) HIST 152(D2)

Writing Skills Notes: Students will write three short (3-page) response papers to the readings in the first part of the semester, and will also write a substantial (10- to 12-page) research paper. In preparation for the research paper, students will write proposals, develop bibliographies, write outlines and drafts, and do peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it examines the legal, social, and political constructions and theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.

WGSS 177  (S)  Gender and Sexuality in Music  (DPE)

Cross-listings: MUS 177

Secondary Cross-listing

This course explores key themes in the expression of gender and sexuality through music. It draws from primarily 21st century examples, across cultures and genres, ranging from pop boy bands to Indian bhangra dance to the musical avant-garde. Themes will include: communicating gendered ideals, dance and embodiment, transgressive performances, biography and subjectivity, intersectionality, music and sexual violence, and marketing. We will explore the ways that ideas and identities related to sex and gender are formulated and mobilized in music's performance and consumption. Inevitably, issues of sound and stagecraft intersect with factors such as race, age, and class, further informing these experiences. Students will consider their own processes of identifying and interpreting expressions of gender and sexuality in sound and movement, and contemplate the role of culture and society in informing those interpretations.

Requirements/Evaluation: attendance/participation, intermittent GLOW posts and short assignments (2 pgs or less), midterm project, and either a 12-page final paper or a project with supplementary paper (length to be determined in consultation with the instructor).

Prerequisites: open to all students; familiarity with musical terminology is helpful but not required

Enrollment Limit: 20

Enrollment Preferences: WGSS and MUSC majors/prospective majors

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
MUS 177(D1) WGSS 177(D2)

Difference, Power, and Equity Notes: This course critically examines the ways in which music constructs and reflects gendered and sexual identities in intersectional space. We discuss how normative viewpoints come to be accepted and interpreted as 'natural,' and how musicians and audiences have maneuvered within and against those socio-political expectations. Music and readings span a wide range of sources--elite, popular, counter-cultural; from Euro-American sources to genres hailing from Brazil, Korea, and India.

Attributes: MUS World Music/Ethnomusicology

Not offered current academic year

WGSS 202  (F)(S)  Foundations in Sexuality Studies  (DPE)

This course will offer an introduction to the burgeoning interdisciplinary field of sexuality studies in part through examining historical, legal, literary, filmic, cultural studies, sociological, and popular texts, as well as work done under the umbrella of queer theory. It explores the role of race, class, religion, science, region, and nation in the construction of modern gender and sexual identities and in the lived experiences of dissident genders and sexualities. We will examine a range of issues, including histories and strategies of resistance; transgender and intersex theory and activism; critiques of the white racial hegemony of lesbian and gay studies; the consequences of gay marriage; the politics of AIDS and its theoretical implications; globalization and sexuality; the rise of queer visibility and its relation to commodity culture; and recent conceptualizations of homonormativity. The goal of the course is not to achieve any kind of political or intellectual consensus, but to have rigorous debate over some of the key issues in queer studies.

Class Format: discussion

Requirements/Evaluation: Class participation, Marco Polo Discussion posts (short, app 3 min), short quizzes, reflection paper(s)

Prerequisites: None. WGSS 101 may be helpful as background knowledge, but is not required.

Enrollment Limit: 19

Enrollment Preferences: Women's Gender & Sexuality Studies majors, short statement of interest in case of over-enrollment

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)  (DPE)

Difference, Power, and Equity Notes: This course examines sexual diversity in various forms and asks students to interrogate questions of privilege and positionality, including the intersectional contemplation of sexuality's relationship to race, ethnicity, ability, class, religion, and other axes of identity. It investigates not only sexual difference, but the history of sexual identity and progressive narratives of "gay rights" that have developed over
Colorism, skin color discrimination where light skin is privileged over dark skin, is not a new phenomenon, but globally entrenched in our society and one of the many vestiges of white supremacy. For Black Americans of all backgrounds, colorism is a familiar and a living legacy concretized by the institution of slavery in the Americas. Although some believe that we are "post-color," similarly to those that naively believe we are "post-race," one can look to the recent example of misogynoir (misogyny directed at Black women) and skin color politics that Meghan Markle, the Duchess of Sussex, has faced at the hands of the British Monarchy, that her light-skinned color, biraciality, and class privileges couldn’t protect her from. Alternatively, we can look at the numerous examples of colorism and anti-Black racism that tennis icon Serena Williams is subjected to because of her dark-brown skin complexion and body shape. One cannot fully understand the issue of colorism without understanding that it is an outgrowth or an extension of anti-Black racism firmly rooted in white supremacy, and so insidious that it impacts all aspects of Black life. Examining colorism through literary texts and music, provides a depth of understanding that both compliments and expands these empirical studies. Literature and music provide the narratives and rhythm that paint a vivid picture of the many ways that colorism impacts the lives of Black people. Through the methods of literary and rhetorical criticism we will examine the works of five Black women authors and music artists that take up issues around colorism and passing. We will explore, Toni Morrison’s, *The Origins of Others* (2017), Brit Bennett’s, *The Vanishing Half* (2020), Tressie McMillian Cottom’s, *Thick* (2019), Marita Golden’s, *Don't Play in the Sun* (2004), Yaba Blay’s, *One Drop: Shifting the Lens on Race* (2021), Nina Simone’s, "Four Women" (1966) and "Young, Gifted and Black" (1958), Sara Martin’s, "Mean Tight Mama" (1927), India.Arie’s, "Brown Skin" (2001), Azealia Banks’ "Liquorice" (2012), and Beyoncé’s "Creole" (2012), "Formation" (2016) and "Brown Skin Girl" (2020). By examining colorism in both literature and music, it will give first year students a foundational and nuanced understanding of skin tone bias and equip them with the tools to critically engage literary and music texts.

**Requirements/Evaluation:** Three, short papers (4-5 pages) discussing aspects of the readings and songs; three response papers to tutorial partner's papers (2 pages long); two, video essays; two, Twitter threads explaining aspects of one of the books and one of the songs; and a curated playlist of songs that would serve as accompaniment to one of the texts from the class.

**Prerequisites:** N/A

**Enrollment Limit:** 10

**Enrollment Preferences:** This class is specifically designed for first year students. Sophomores can register only with advanced permission.

**Expected Class Size:** 8-10

**Grading:** no pass/fail option, no fifth course option

**Attributes:** AFR Core Electives AFR Culture, Performance, and Popular Technologies
the Black American context is part of the colonial legacy of institutionalized slavery where the vestiges of white supremacy have created color castes among Blacks that still, to this day, have serious consequences for those on the darkest end of the color spectrum. The impact of this practice is far-reaching, influencing everything from romantic partnering, economic and educational attainment, and perceptions of beauty, attractiveness, and criminality. Although the vast majority of colorism scholarship is empirically based, there is much that we can glean from a literary investigation of this practice by analyzing the works of renowned writer, theorist, and folklorist Toni Morrison. Her work is particularly useful in examining issues of skin color, as this topic has been persistent yet underexplored in Morrison's writings. Employing the methods of literary and rhetorical criticism, this tutorial will investigate five Morrison novels, *The Bluest Eye* (1970), *Sula* (1973), *Song of Solomon* (1977), *Love* (2003) and *God Help the Child* (2015), and some of her non-fiction writings. In our discussions of each text, we will examine the problem of the "color complex" at the intersections of race, gender, sexuality, class and sexual violence, and how the characters manage these overlapping issues. We will bring the novels into conversation with social science articles on the practices of colorism in daily life. Because the tutorial blends different kinds of investigations into colorism, it will equip first year students with tools to critically engage and interrogate fictional literature; help them identify the real and nuanced ways that color discrimination affects Black communities; and consider how Morrison, one of our foremost writers, bridges literary creativity with ethnographic observation.

**Requirements/Evaluation:** six 2-page papers, two 5- to 7-page papers, 10 minute vlog, annotated bibliography

**WGSS 208 (S) Designer Genes (DPE)**

**Cross-listings:** ENGL 208 / STS 208 / AMST 206

**Secondary Cross-listing**

In this course, we explore cultural texts that attempt to come to terms with--or exploit--the revolution in contemporary genetics with a particular focus on gender, race, class, and sexuality. The mapping of the human genome in 2001 opened incredible opportunities for medicine, law, and society, but it also, as Alice Wexler has written, "opened a vast arena for contests of power over what it means to be human, who has the power to define what is normal, [and] who has access to what resources and when." Wexler was writing before the final sequencing of the human genome. Now we have CRISPR technology, ushering in a new, more pressing set of ethical concerns. We are currently in the midst of a "global race to genetically modify humans," as the anthropologist Eben Kirksey has documented in his new book *The Mutant Project*. How will we come to define the human? Who gets to decide? Our writers and filmmakers make clear that genetic medicine cannot be thought apart from a profit-driven American health care system or family and gender dynamics. Joanna Rudnick's documentary *In the Family*, for instance, explores the personal and political issues associated with hereditary breast cancer and the patenting of genes. Octavia Butler's Afro-futurist novel *Dawn* explores black female sexuality, reproduction, and the survival of the species in her character's encounter with a genetically enhanced alien species. The film *Gattaca* shows us a fully realized dystopian society where genetically modified humans are the norm--a society that now "has discrimination down to a science." The transgender artist Tamara Pertamina, on the other hand, "hopes to decolonize the science of genetic engineering," as Kirksey has written, with her performance artist projects. Our texts come from a number of different genres, including the memoir, science fiction, film, documentary, art, and non-fiction writing at the intersections of science, medicine, philosophy, anthropology, and law.

**Requirements/Evaluation:** Personal essay, short analysis papers, final research group project

**Prerequisites:** none

**Enrollment Limit:** 25

**Enrollment Preferences:** None; if class is overenrolled, professor will ask for statements of interest.

**Expected Class Size:** 25

WGSS 211 (F) Gender in the Global Economy (DPE)

Cross-listings: ECON 105

Primary Cross-listing

This course will present a feminist economic analysis of the global economy, and some of the urgent issues facing women in the Global South. The course will start by developing theoretical resources: these will include feminist critiques of economic theory, work on care labor and the shifting boundaries between markets, governments, households and the environment, and discussions of intersectionality and difference. Then we will discuss a series of interlinked issues which may include the contradictory effects of structural adjustment and its successors; the informal sector and global value chains; the economics of sex work and global sex trafficking; climate change; and migration. We will finish by looking at community-based activism, non-governmental organizations, and the possibilities for North/South alliances.

Class Format: lecture/discussion

Requirements/Evaluation: reaction papers, research paper; participation in class discussion will count for part of the grade

Prerequisites: none
Enrollment Limit: 20
Enrollment Preferences: Women's, Gender and Sexuality Studies majors
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option
Unit Notes: This course cannot count toward the ECON major.
Distributions: (D2) (DPE)
This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 212  (F)  Ethics and Reproductive Technologies  (WS)
Cross-listings: PHIL 212 / STS 212
Secondary Cross-listing
In her groundbreaking book, The Tentative Pregnancy, Barbara Katz Rothman writes that "[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace--or to let us think we can replace--chance with choice." Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as "motherhood" and "parenthood," family and genetic relatedness, exploitation and commodification, and reproductive rights and society's interests in reproductive activities. Topics will range from consideration of "mundane" technologies such as contraception, abortion, in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, uterine transplants, and "artificial wombs." Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.
Class Format: discussion
Requirements/Evaluation: active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)
Prerequisites: none, but introductory-level course in PHIL and/or WGSS recommended
Enrollment Limit: 19
Enrollment Preferences: WGSS and PHIL majors (declared or prospective), PHLH and STS concentrators (declared or prospective)
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 212(D2) PHIL 212(D2) STS 212(D2)
Writing Skills Notes: Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

Fall 2024
LEC Section: 01  TF 2:35 pm - 3:50 pm  Julie A. Pedroni
Female deviance often implies resisting a dominant and oppressive patriarchal status quo embedded within cultural and historical backgrounds. This course explores female characters in early modern French literature who refuse to conform to established gender roles. Defying social constructs of femininity, through either judicious negotiations or more aggressive and violent behavior, is an important trope in the writings of both male and female authors of the seventeenth and eighteenth centuries. What constitutes deviant behavior, however, depends on social definitions of gender roles, which evolve over time. In this course, we will first examine women's place within the historical and socio-cultural context of the Ancien Régime, which will lead to an examination of female behavior censured during the seventeenth and eighteenth centuries. We will then reflect on how we, as modern readers, perceive such deviancy at it relates to the past. Finally, we will discuss the relevance of studying deviant women in light of current events, such as the #MeToo movement, which has led to a new level of consciousness and empathy for the plight of marginalized groups. Potential readings to include Corneille's Médée, Madame de la Fayette's Princesse de Clèves, Laclos's Liaisons dangereuses, and Isabelle de Charrière's Lettre à Mistriss Henley.

Requirements/Evaluation: active class participation, one presentation (8-10 minutes), three to four papers (3-5 pages), and a longer final paper
Prerequisites: strong performance in RLFR 105; successful performance in RLFR 106; or by French placement exam; or by permission of instructor
Enrollment Limit: 20
Enrollment Preferences: French majors and certificate students; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission
Expected Class Size: 15
Grading: yes pass/fail option, no fifth course option

This course is cross-listed and the prefixes carry the following divisional credit:

Difference, Power, and Equity Notes: This course focuses on a critical examination of difference, power, and equity in early modern France. Through the study of deviant women, the course thus challenges students to examine the effects of class, race, ethnicity, gender, and sexuality in narratives on women, misogyny, and criminality.

WGSS 225  (F)  Buddhism, Social Change, & Reproductive Justice in the Anthropocene  (DPE) (WS)

Cross-listings:  REL 258 / ANTH 258 / ASIA 258

Secondary Cross-listing

This course considers how three women profoundly shaped the Buddha's life and legacy in terms of social change & reproductive justice. Our central characters are Maya--the Buddha's mother, who died shortly after delivering him; Pajapati--the Buddha's stepmother & aunt who raised him; and Yasodhara--his wife, whom he abandoned when he left home to seek enlightenment. We explore the classical Buddhist discourses and modern biographies to explore how these three women impacted what the Buddha taught and practiced in terms of social and gender justice. These women helped shape the Buddha's radical decision to found the first renunciate order for women in Asian history and helped shape Buddhist attitudes towards female empowerment, bodily autonomy, and reproductive justice for that past 2500 years. Our historical genealogy will explore how Buddhism continues to disrupt modern hierarchies of sex, gender, caste, & class while claiming reproductive and social justice. Along the way we consider: How did these three women reject existing social hierarchies in the Buddha's day and with what impacts for modern Buddhist practices and institutions? How do the social transformations of the Buddha's day still impact modern struggles for gender justice & reproductive justice in the Anthropocene?

Requirements/Evaluation:  Attendance, writing weekly essays or written feedback. There are no grades first half of the semester but weekly feedback on writing.

Prerequisites:  none, but a course in ANTH or REL is preferred

Enrollment Limit:  10

Enrollment Preferences:  ANTH, REL, WGSS majors and ASIA concentrators

Expected Class Size:  10

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 258(D2) ANTH 258(D2) WGSS 225(D2) ASIA 258(D2)

Writing Skills Notes:  We write every week--either 1500 word lead essays, or written feedback (and oral responses) to the lead essay and weekly text. We have a mid semester 'writing chat' with the instructor where we discuss strengths and weakness of individual student writing.

Difference, Power, and Equity Notes:  We explore the three women who left a lasting legacy on the Buddha's teachings and practices in terms of gender egalitarianism, social justice, and reproductive justice. Our historical genealogy explores how Buddhism continues to disrupt modern hierarchies of sex, gender, caste, & class while claiming reproductive and social justice.

Not offered current academic year

WGSS 226  (S)  Gender and the Dancing Body  (DPE)

Cross-listings:  DANC 226 / AMST 226 / THEA 226

Secondary Cross-listing

This course posits that the dancing body is a particularly rich site for examining the history of gender in America and beyond. The aim of the course is to explore ideas related to gender as prescribed by dominant cultural, social, and religious institutions, and how dance has been used to challenge those normative ideologies. We will examine a wide range of dance genres, from stage performances to popular forms to dance on television, with particular attention to the intersections of race and class with gender. This is primarily a discussion-based seminar course and may also include film screenings, movement workshops, discussions with guest artists and scholars. No previous dance experience required.

Requirements/Evaluation:  participation in discussions and presentations, reading responses, in-class writing assignments, two 5-6 page essays, and a final cumulative essay.

Prerequisites:  none

Enrollment Limit:  15

Enrollment Preferences:  first years and sophomores
Expected Class Size: 10-15
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
DANC 226(D1) AMST 226(D2) WGSS 226(D2) THEA 226(D1)

Difference, Power, and Equity Notes: In the course, students will explore the concept of gender as a social construction and how the body's historical associations to markers of gender and sexuality lead to differences in socio-political power. The assigned texts and viewings provide examples of how bodies and their movements make meaning in a network of power relationships, and how artists use dance to address social inequalities such as sexism, racism, and transmisogyny, to imagine a more just world.

Spring 2025
SEM Section: 01    WF 11:00 am - 12:15 pm     Munjulika R. Tarah

WGSS 227 (S) Boys Love (DPE)
Cross-listings: COMP 228

Secondary Cross-listing

Originating in Japanese manga of the 1970s, the genre of yaoi, boy love, or BL has expanded into other media and around the globe during the last half century. Created mostly by women for women, BL transposes classic tropes of popular romance into a male homosocial environment, depicting the inevitable love of young, attractive, and typically androgynous men. The growing popularity of BL begs several questions: Why do women create and consume romances that tend to exclude female characters? Why do they enjoy a fictional universe that deliberately downplays homophobia yet ostensibly preserves heteronormativity by showing powerful, protective tops who repeatedly fall for vulnerable, passive bottoms? And how has BL changed global perceptions of and expectations for masculinity? This course explores these and other questions by examining key examples of BL from Japanese manga to Thai television, as well as shipping culture, BL's robust fandom, and adjacent genres such as slash fiction and girl love.

Requirements/Evaluation: completing all assignments, active participation in class discussions, two short papers, creating your own BL, and a final project
Prerequisites: none
Enrollment Limit: 40
Enrollment Preferences: COMP and WGSS majors
Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 227(D2) COMP 228(D1)

Difference, Power, and Equity Notes: This class examines difference, power, and equity by examining representations of gender and sexuality, as well as their global flow over the past fifty years. Works of yaoi, boys love, or BL represent a significant genre of popular culture, as well as soft power, that originated in East Asia yet has spread around the globe. The course will address the gendered aspects of BL production, consumption, and fandom, as well the genre's mobilization of homosociality and homosexuality.

Spring 2025
SEM Section: 01    TF 2:35 pm - 3:50 pm     Julie A. Cassiday

WGSS 228 (F) Feminist Bioethics (WS)
Cross-listings: PHIL 228 / STS 228

Secondary Cross-listing

In this course we will explore the ways in which feminist approaches to moral thinking have influenced both the methodology and the content of contemporary bioethics. The first portion of the course will address the emergence of the "Ethics of Care," critically assessing its origins in feminist theory, its development within the context of the caring professions, and its potential as a general approach to bioethical reasoning. The second
portion of the course will use feminist philosophy to inform our understanding of the ways in which gender structures interactions with and within the health care system. To do this we will explore topics that might traditionally be considered “women’s issues” in healthcare, such as medicine and body image (e.g., cosmetic surgery, eating disorders), reproductive and genetic technologies, and research on women and their health care needs. In addition we’ll also look at feminist analyses of topics that traditionally have not been regarded as “gendered,” such as resource allocation and end of life issues.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions; periodic short papers (2-3 pages); midterm and final paper (5-7 and 7-10 pages, respectively); and one oral presentation

Prerequisites: none, although previous coursework in WGSS is desirable

Enrollment Limit: 19

Enrollment Preferences: prospective and declared majors or concentrators in PHIL, WGSS, STS, and PHLH, especially those who need the course to satisfy major or concentration requirements

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 228(D2) PHIL 228(D2) STS 228(D2)

Writing Skills Notes: Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

WGSS 236 (S) Feminist Legal Theory (DPE)

Cross-listings: PSCI 236

Secondary Cross-listing

What can a critical analysis of gender and sexuality bring to the study of law, constitutions, legal interpretation, and the task of judging? Well-known contributions by feminist theorists include the conceptualization and critique of anti-discrimination frameworks, the legal analysis of intersecting systems of social subordination (particularly gender, race, class, sexuality, disability), and the theorization of “new” categories of rights (e.g. sexuate rights). Accompanying these interventions in the legal field is a deep and sustained inquiry into the subject of law: Who can appear before the law as the proper bearer of civil and human rights? What kinds of violations and deprivations can be recognized as harms in need of redress? Who gets to make these judgments, and according to what rules? While our examples will be drawn mainly from family law, the regulation of sex/reproduction, and workplace discrimination, the main task of this course will be to deepen our understanding of how the subject of law is constituted. Illustrative cases to aid our inquiry will be drawn primarily from the USA and Canada, with additional examples from India, South Africa, and possibly European law. Theorists we read will represent many kinds of feminist work that intersect with the legal field, including academic studies in political theory, philosophy, and cultural theory, along with contributions from community organizers engaged in anti-violence work and social justice advocacy.

Requirements/Evaluation: One oral presentation; three 6-8 page papers; regular class participation.

Prerequisites: None.

Enrollment Limit: 25

Enrollment Preferences: Preference will be given to PSCI and WGSS majors and JLST concentrators.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
**WGSS 236(D2) PSCI 236(D2)**

**Difference, Power, and Equity Notes:** The course analyzes the relationship between the legal system and social distributions of power, focusing on the way that inequalities based on gender, race, class and other forms of social stratification either enhance or limit individuals’ access to legal protection and legal remedies.

**WGSS 239 (F) History of Sexuality**

**Cross-listings:** GBST 241 / HIST 292 / REL 241

**Secondary Cross-listing**

Is sexuality an immutable aspect of who we are or is it socially constructed? How have people understood sex and sexuality throughout history? Why does religion have any say in the sexual lives of individuals and society? What are sexual transgressions and why are they punished? Is sex a commodity that can be exchanged for money? Is sex political? This course will explore these questions through a historical approach, focusing in particular on the shifting understanding of sex and sexuality across historical time and different geographical regions. In investigating the category of sexuality, this course will push us to consider three key questions: 1) Is sexuality a useful category for historical analysis, 2) how have our assumptions regarding sexuality and sexual ethics taken shape and changed over time and 3) how do social, cultural, political, and economic conditions affect changing meanings of sexuality. Historical studies will be read in conjunction with different theoretical frameworks about sexuality. Reading historical accounts of sexuality alongside theoretical pieces will allow us to consider how historians construct an argument and the influence of theoretical frameworks in shaping scholarship. Some of the theorists we will read in the course include: Michel Foucault, David Halperin, Afsaneh Najmabadi, Valerie Traub, and Carla Freccero.

**Requirements/Evaluation:** reading responses, two essays, and final research paper

**Prerequisites:** none

**Enrollment Limit:** 15

**Enrollment Preferences:** Religion, History, and Women's, Gender and Sexuality Studies majors

**Expected Class Size:** 15

**Grading:** no pass/fail option, yes fifth course option

**WGSS 241 (S) Sex and Gender in Ancient Greece and Rome**

**Cross-listings:** COMP 241 / CLAS 241

**Secondary Cross-listing**

From the household to the marketplace, from sacred spaces to the political arena, sexuality and gender shaped a broad range of attitudes and actions in the ancient Mediterranean world. This course investigates a variety of discourses and practices around sexuality and gender in ancient Greece and Rome with the aim of promoting students’ capacity to evaluate claims and dismantle false assumptions about the continuity of the “classical” past with contemporary norms and values. We will carefully analyze, contextualize, and compare a variety of texts, including selections from tragic and comic drama, epic and lyric poetry, handbooks, epitaphs, novels and biography in order to better understand how gender and sexuality were expressed, experienced, and regulated in Greece and Rome. Our emphasis will be on ancient texts, but selections from contemporary criticism and theory will enrich the methodological frameworks through which we approach the primary sources.

**Requirements/Evaluation:** five to six weekly tutorial papers, five to six responses, a midterm self-evaluation and conference with instructor, a mid-length final paper (approximately eight pages) consisting of a revision and expansion of a previously written paper

**Prerequisites:** none

**Enrollment Limit:** 10

**Enrollment Preferences:** majors or intended majors in Classics, WGSS, and Comparative Literature
WGSS 242 (S) Women, Gender, and Sexuality in Islam (DPE)

Cross-listings: REL 242 / ARAB 242

Secondary Cross-listing
The figure of the Muslim woman is an object of intense scrutiny in Western society. Claims that Muslim women are oppressed and the incompatibility of Islam and feminism abound. This course will consider women and gender roles in the Islamic tradition and how Muslim women have interpreted and negotiated these discourses. We will explore questions of masculinity, femininity, and sexuality across various historical periods as well as through contemporary Muslim feminist scholarship and literature (including film and novels). We will begin with insights into the politics of representing Muslim women, exploring how Muslim women are depicted in popular culture and media and ask the crucial question: do Muslim women need saving? We will then explore: how Muslim women have claimed religious authority through scriptural interpretation; how they have negotiated their position in Islamic law both historically and in contemporary Muslim societies; and the lives of pious women in Sufism--the mystical tradition of Islam. We will conclude with Muslim feminist scholarship and recent works on Islamic masculinities. Throughout the course, emphasis will be placed on the diversity of interpretations in Islam around women, gender, and sexuality and on Muslim women's own articulations about their religious identity and experiences.

Requirements/Evaluation: weekly discussion post, midterm essay, and final paper (6-8 pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Religion, Women's, Gender and Sexuality Studies and Arabic majors

Expected Class Size: 14

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
REL 242(D2) WGSS 242(D2) ARAB 242(D2)

Difference, Power, and Equity Notes: This course explores the relationship between gender, authority, and civilizational discourse. To that end, the course will explore: 1) how assumptions about gender shaped the legal and Quranic exegetical tradition and Muslim feminist critiques. 2) The construction of the oppressed Muslim woman in justifying military invasion and nationalistic rhetoric. This course will introduce students to critical tools in decolonial feminism and the relationship between gender and power.

Not offered current academic year

WGSS 243 (F) Islamic Law: Past and Present

Cross-listings: HIST 302 / ARAB 243 / ASIA 243 / REL 243

Secondary Cross-listing
From fear of the Shari'a to its implementation in so called "Islamic countries," Islamic law is perhaps best associated with draconian punishments and the oppression of women. Islamic law is ever present in our public discourse today and yet little is known about it. This course is designed to give students a foundation in the substantive teachings of Islamic law. Islamic law stretches back over 1400 years and is grounded in the Quran, the life example of the Prophet Muhammad, and juridical discourse. Teetering between legal and ethical discourse, the Shari'a moves between what we normally consider law as well as ethics and etiquette. The course will explore four key aspects of the law: its historical development, its ethical and legal content, the law in practice, and the transformation of Islamic law through colonialism and into the contemporary. Specific areas we will cover include: ritual piety, family and personal status law, criminal law, and dietary rules.

Requirements/Evaluation: weekly responses, midterm essay, final essay

Prerequisites: none
WGSS 244 (F) Actually Existing Alternative Economies (DPE)

Capitalism has a way of constricting our imaginations so that we come to believe the only possible form of economic institution is one based on profit seeking, competition and individualism. However movements in countries including Brazil, France, Canada and Spain—and now parts of the U.S.—are demonstrating otherwise. Theorists, practitioners and social activists are adopting labels including 'Solidarity Economy' and 'New Economy' to group together economic activities based on ideals of human provisioning, social justice and environmental sustainability. They point out that many of these activities are already taking place and are often crucial to our lives, but are rendered invisible by economic theory. In the words of Brazilian popular educator and economist Marcos Arruda, 'a solidarity economy does not arise from thinkers or ideas; it is the outcome of the concrete historical struggle of the human being to live and to develop him/herself as an individual and a collective.' Feminist geographers Julie Graham and Katherine Gibson developed practices of 'mapping' local economies with communities in Australia and Western Massachusetts in ways that bring to light the invisible resources and practices of provisioning and solidarity, and challenge what they describe, drawing on the work of feminist theorist Sharon Marcus, as a 'script' of local helplessness to resist the 'rape' of their economies by the forces of global capitalism. Do these proposed discursive practices actually present realistic possibilities for producing sustained economic change? In this tutorial we will learn and debate about some of the activities being named and built under the label of solidarity economy, such as the networks of worker-owned cooperatives in Mondragon, Spain, the growth of local currencies and time exchanges, fair trade organizations and different ways of organizing care work. We will look at some of the history and debates around worker-owned cooperatives, ranging from Victorian England through African-American experiences throughout the 20th century and examples in post-Independence Africa, to the recent establishment of Cooperation Jackson in Jackson, Mississippi. The ILO has argued that co-ops are a particularly appropriate form to African development. Is this plausible, and what role might they play in AIDS-affected communities? Why has the recent U.S. growth of the solidarity economy been so concentrated in communities of color, and how is it gendered? We will visit some examples in New York or Boston.

Requirements/Evaluation: six papers of 5-7 pages, six written responses to partner's papers, participation in tutorial discussion

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: open to sophomores and above

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: The course fulfills the DPE requirement because of its central focus on the diversity of economic institutions within and across countries and the power imbalances that call them into being and challenge some of their survival. The course considers ways the hegemonic discourse of economics tends to render that diversity invisible, and tools, both analytical and activist, for bringing it out into view. It teaches tools to evaluate economic institutions in terms of equity and solidarity.

Not offered current academic year

WGSS 250 (F) Feminist Theatres: A Global Perspective (DPE) (WS)

Cross-listings: THEA 250 / COMP 247 / ENGL 253
What makes a work of theatre "feminist"? How do plays and performances across global networks engage with different models of feminism: liberal, radical, materialist, and intersectional? Why has feminism mattered to theatre-makers of the past? Should it still matter now? If so, what forms might future feminist theatres take? In this tutorial course, students will work in pairs to examine the social and political relation of feminism to the art and practice of theatre. Taking a global and comparative perspective on the subject, we will focus on the intersectionalities of gender, race, class, ethnicity, nationality, and sexual identity in the production of feminist-driven theatrical practices. Artists, companies, and movements to be considered may include: Spiderwoman Theatre, Adrienne Kennedy, Caryl Churchill, Sphinx Theatre Company, Ntozake Shange, Griselda Gambaro, Manjula Padmanabhan, Cherríe Moraga, Lisa Kron, Arethusa Speaks, Maya Krishna Rao, Tracie Chima Ut Oh-Ezeajugh, Alexis Scheer, Tori Sampson, Clare Barron, and others. Close analysis of source material will be informed by critical and autobiographical writings by: Audre Lorde, Judith Butler, bell hooks, Kimberlé Crenshaw, Eve K. Sedgwick, Gayatri Spivak, Jill Dolan, José E. Muñoz, and Donna Haraway. This course will follow a standard tutorial format, with students taking turns presenting or responding to their peer every other week; for their presentations, students will write a 5-page paper or, in up to two cases if they choose, offer their argumentation through more performance-driven methods (such as an oral argument, spoken-word monologue, or activist prompt).

Requirements/Evaluation: students will meet with instructor in pairs for an hour each week; every other week they will be responsible for sharing either a 5-page paper or, if they choose, in up to two cases, a more performance-driven presentation, such as: an oral argument, spoken-word monologue, or activist prompt (five presentations/papers in all). They will comment on / respond to their partner's papers/presentations in alternate weeks; emphasis will be placed on developing skills in reading, interpretation, critical argumentation, and written and oral communication.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: THEA majors; WGSS majors; ENGL majors; COMP majors. Students from all majors are welcome and invited to contact Prof. Holzapfel about their interest in the class: ash2@williams.edu

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
THEA 250(D1) COMP 247(D1) WGSS 250(D2) ENGL 253(D1)

Writing Skills Notes: This course fulfills the writing skills requirement by engaging students in the active and creative process of critical writing, based on the notion that "writing is thinking, not thinking written down." Emphasis will be given to crafting and developing an argument, clarifying prose, selecting evidence, gaining authority, and incorporating theoretical ideas into an essay. We will also focus on the performance and presentation of written arguments.

Difference, Power, and Equity Notes: This tutorial examines intersections between gender, race, sexuality, class, nationality, and ethnicity in relation to theatre's ongoing engagement with feminism. We will consider how articulations of difference, power, and equity arise and are, in fact, prioritized in quite different ways within the politics of feminism itself, leading to their variable expressions through art.

Not offered current academic year

WGSS 283 (F) Black Queer Looks: Race, Gender and Sexuality in Contemporary African-American Film

Cross-listings: AFR 283 / AMST 283 / ENGL 286

Primary Cross-listing

In this course we will foreground questions around visibility and memory. We will explore representations of Black queer bodies in experimental, documentary and narrative film. This course will engage foundational texts from Black Queer Studies. We will pair texts with film in order to examine the various relationships between art and scholarship. You will also be asked to think about yourself as a filmmaker. We will screen films such as Looking for Langston (Isaac Julien, 1989), The Watermelon Woman (Cheryl Dunye, 1996), U People (Olive Demetrius and Hanifah Walidah, 2009), Tongues Untied (Marlon Riggs, 1989) and Litany for Survival (Ada Gay Griffin and Michelle Parkerson, 1995). Throughout the course we will evaluate the different ways filmmakers represent Black queerness on screen. The goal is to think about the possibilities and limitations of representation and visibility. Each of you will be asked to facilitate a class discussion. You also will be required to do weekly critical response papers. In lieu of a final paper you will create a detailed proposal for a short film that "represents" some segment of Black queer living.

Requirements/Evaluation: facilitate class discussion; weekly critical response papers; in lieu of a final paper you will create a detailed proposal for a short film

Prerequisites: none
Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 284(D2) REL 284(D2) ARTH 218(D1)

Attributes: ARTH pre-1800
Cross-listings: ANTH 301 / AMST 334

Primary Cross-listing

This course examines various forms of sexual labor around the world in order to better understand how gendered and sexual performances are used in a variety of cultures and contexts for material benefit. Our topics include "traditional" forms of sex work such as street prostitution, pornography, and escorting as well as other forms of sexualized performances for benefit such as stripping or camming. We also discuss current issues and debates about discourses of "sex trafficking." Course readings come from a range of fields, but focus most heavily on anthropology, sociology, American studies, and gender studies. The readings for this class will frequently foreground the lived experiences of sex workers from a variety of nations, races, classes, religions, and backgrounds in order to explore the broader social implications of our subject matter. The format is largely discussion-based, with short lectures supplementing the reading with summaries of current scholarly and activist debates. We have a variety of guest speakers to share their diverse lived experiences related to this topic.

Requirements/Evaluation: short-quizzes, reflection papers, participation, short Marco Polo video posts (app 3 min each)

Prerequisites: none, though WGSS 101 and/or 202 may be helpful, but not required

Enrollment Limit: 15

Enrollment Preferences: based on statement of interest, brief interviews if necessary

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 301(D2) AMST 334(D2) WGSS 301(D2)

Difference, Power, and Equity Notes: We pay particular attention to the intersecting questions of race, sexuality, gender, and class as we explore the political economy of commercial sex. The course teaches students to examine the underlying political and economic structures that create systems of privilege and power, thereby complicating questions and assumptions about sexual consent, coercion, agency, and empowerment with particular attention to race and gender in comparative transnational contexts.

WGSS 302 (S) Social Construction (DPE)

Cross-listings: COMP 315 / STS 301 / SOC 301 / REL 301

Secondary Cross-listing

"Social construction" can often seem like the great collegial insight. By now, you've all heard that categories such as race, gender, and sexuality are in some sense not part of nature, but instead are created and maintained socially or culturally. The idea of social construction has been vital to critical race theory and queer theory, and, in this course, we will push ourselves into philosophy of science to see whether or not these same insights apply to everything. If we know that "Whiteness," "heterosexuality," and "masculinity," for instance, are all socially constructed, we will ask if the same is true of "electrons," "money," "the solar system," and "climate change." Can it be that all of our reality is socially constructed? Or does social construction have limits? If so, what are they? We will also ask more fundamental questions, such as: What does it mean to say something is socially constructed? How does social construction relate to claims that an aspect of the world is "real" or "not real?" Is social construction a theory about language, power, culture, societies, human perceptions, or the limits of science? What kind of political, ethical, ontological, or epistemological work do theories of social construction do? We will begin with different accounts of the social construction of race, gender, and sexuality. In the second part of the course, we will dig deeper into philosophical debates about social construction as such. Then we will explore constructionism about natural science. In the last part of the course, we will change gears and explore look at cutting-edge work in the theory of social science aimed at explaining the construction and ontology of social worlds. The class will culminate in a project in which students will put their social construction theories into practice.

Requirements/Evaluation: regular attendance and participation, short weekly reflection papers, a 8-10 page research paper, and final project

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: Preference will be given to majors and concentrators from STS, ANSO, COMP, REL, PHIL, WGSS, AAS, LATS, JWST, and AFR. If the class is overenrolled students will be asked to submit an email about themselves and why they want to take the course.
**Expected Class Size:** 15  
**Grading:** no pass/fail option, yes fifth course option  
**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 315(D1) WS 302(D2) STS 301(D2) SOC 301(D2) REL 301(D2)

**Difference, Power, and Equity Notes:** Central to REL 301 will be an analysis of the social construction of race, gender, and sexuality. It will show how power and difference are tied up in their construction and maintenance of these categories. Students will be taught how to critically analyze race, gender, and sexuality as well as social construction as such. Students will also learn sophisticated tools for studying systems of social power and difference.

**WGSS 305 (F) The Gay Menagerie: Gay Male Subcultures** (DPE)  
**Cross-listings:** ANTH 305 / AMST 305 / THEA 304

**Primary Cross-listing**  
Bears. Cubs. Otters. Pups. Twinks. Radical Fairies. Leathermen. Mollies. Drag queens. Dandies. Sisters of Perpetual Indulgence. Gay men, including gay trans men, have organized themselves into various subcultures within their community for centuries. This seminar is devoted to exploring these subcultures in (a mostly US-context) in greater detail using ethnographic texts, anthropological studies, historical accounts (including oral histories), and media. Topics include cruising and flagging, the anthropological significance of gay bars, histories of bath house culture, rural vs urban queer experiences, the ball scene, drag, diva worship, the reclamation of "fabulousness and faggotry," the leadership roles of trans women and effeminate gay men in activist movements, gay gentrification, the growth of gay consumerism/ gay tourism/homonationalism, hierarchies of masculinity in the gay community (i.e., masc for masc culture), HIV/AIDS and the politics of PrEP, chemsex, the role of racialized dating "preferences," genealogies of BDSM and leather culture, sexual health and discourses of "risk," the politics of barebacking and other sexual practices, queering consent, and the effects of hookup apps on gay culture. In addition to lectures, and discussions, there will also be some low-key performance-studies based exercises in queer praxis (e.g., drag workshops, mock debates, animal improvisation, role playing, etc.)

**Class Format:** There will be some minor performance elements such as workshops during class.

**Requirements/Evaluation:** Quizzes, journaling assignment, short diva report, 10 page research paper on a gay subcultural group

**Prerequisites:** None; WGSS 202 (Foundations in Sexuality Studies) will be helpful but is not required

**Enrollment Limit:** 12

**Enrollment Preferences:** WGSS majors; in the event of over-enrollment there statements of interest will be solicited

**Expected Class Size:** 12  
**Grading:** yes pass/fail option, yes fifth course option  
**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 305(D2) AMST 305(D2) WGSS 305(D2) THEA 304(D1)

**Difference, Power, and Equity Notes:** This course examines the how marginalized communities respond to their oppression through creative forms. It takes as central to its curriculum the role of sexual diversity and the relationship of the gay community to power through the central idiom of "difference."

**Attributes:** WGSS Racial Sexual + Cultural Diversity Courses

---

**WGSS 306 (F) Queer in Asian America** (DPE) (WS)

**Cross-listings:** AAS 304 / AMST 304

**Secondary Cross-listing**
Asian America has always been queer. This is both to say that, since the first waves of Asian immigrants to the Americas, there have always been queer individuals counted among them, and that the Asian American subject has historically figured as “queer” and “different” within the Western cultural, social, and economic landscape. How does queerness resonate, redound, or otherwise modulate the idea and experience of AsianAmericanness? What are the textures and contours of this queerness? Does it have an aesthetic and literary dimension? This course surveys a range of scholarship and literature by queer and feminist Asian Americans that explore the interpenetrations of race, gender, and sexuality in the construction of Asian America and Asian American identity. Particular focus is paid to how Asian American artists and writers actualize queer subjectivity, relation, and intimacy across experiments in narrative, form, and media. The class will move between foundational scholarship at the intersections of Asian American studies, queer studies, and gender and sexuality studies alongside key works of art and literature. Potential artists and writers include Ocean Vuong, Justin Chin, Larissa Lai, Monique Truong, Akok Vaid-Menon, TT Takemoto, Jes Fan, and Leonard Suryajaya. Students will also have the opportunity to contribute their own selection of art and literature to the class conversation.

Requirements/Evaluation: In-class participation, two critical response papers, discussion posts, creative or scholarly written final assignment

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: AMST and WGSS majors, AAS concentrators, or students interested in majoring/concentrating in these areas.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AAS 304(D2) WGSS 306(D2) AMST 304(D2)

Writing Skills Notes: Students will write two, 3-4 page critical response papers: one will focus on analyzing, critiquing, and synthesizing scholarly texts to advance an original argument on course topics and another will focus on analyzing a literary or artistic work of the student's choosing. The final consists of a longer paper of scholarly or creative writing that engages course topics. Assignments will emphasize close reading skills and will be receive written feedback from the instructor.

Difference, Power, and Equity Notes: This course examines gender and sexuality in Asian American racial formation and identity through the work of queer Asian American art, scholarship, and literature. Students will thus focus on how queerness/queer identity is constructed, embodied, and differently experienced in Asian America in dialogue with histories of immigration, Orientalism, assimilation, and exclusion.

Fall 2024

SEM Section: 01 TR 8:30 am - 9:45 am Ethan Fukuto

WGSS 307 (F) Feminist Approaches to Religion (WS)

Cross-listings: REL 306

Secondary Cross-listing

What does feminist theory have to offer the study and practice of religion? How have participants in various religious traditions helped to produce and enact different kinds of feminist approaches to critique and transform religions? Feminisms and religions have a long though often troubled history of interconnection. In this course, we shall explore a range of feminist analyses that have either emerged out of particular religious contexts or have been applied to the study of religious traditions and practices. The course prioritizes attention to the intersections and interactions of gender, race, ethnicity, sexuality, and nationality (among other factors) with religion.

Requirements/Evaluation: weekly GLOW posts before class, one "position paper" for class discussion (3 pages), a research question with rationale for interest and potential action plan (1 page), exploratory research statement (2 pages), essay on interpretive approach to research project (3 pages), participation in writing workshop on 7-page early drafts of final papers, one 15-page final paper.

Prerequisites: none; open to all

Enrollment Limit: 15

Enrollment Preferences: Religion and Women's, Gender and Sexuality Studies majors have priority, and then students who have taken either REL 200 or WGSS 101.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 307(D2) REL 306(D2)

Writing Skills Notes: This course features a series of scaffolded writings assignments that will culminate in a final research project.

WGSS 308 (S) Parenting for a Feminist-Queer-Trans World (DPE)
Perhaps you want to understand your own experience being parented; perhaps you are a parent, or hope to become one, and you want to reflect on your intentions; perhaps you want to understand what various scholars, activists, and activist-scholars have said about how parenting matters. This class will provide you with the time, information, and other resources necessary to explore the following question: what difference does it make when we put "feminist," "queer" and/or "trans" in front of parenting? More specifically, how do these modifiers change the forms and practice of parenting, ideally and in fact? What are the associated philosophies and structures that justify and enable these forms and practices? In this course, we will conceptualize parenting in a capacious way, as a kind of ongoing relationship that can obtain not only between an adult and a child they are "raising," but also between adults who are not conventionally considered "related." The purpose of this class is threefold: 1) to enable you to develop your own parenting philosophy, 2) to use "parenting" as a window to explore differences in feminist, queer, and trans thought, and 3) to use "parenting" as a springboard for imagining better institutional arrangements and articulating societal ideals. To realize these goals, we will mine our experiences, talk to lots of parents, and engage both scholarly and popular resources on parenting.

Requirements/Evaluation: One 6 page book review; Three contributions to resource compendium; One episode for the group podcast; One 10 page final essay

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: WGSS majors

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: We will be looking at the difference that understanding parenting differently, and/or practicing it with feminist, trans, and queer goals in mind does/might make in relation to the ends of equity and inclusion. We will also be attentive, however, to differences in ideas about what feminist, trans and queer parenting entails -- and how relations of power internal to groups make certain ideas about what feminist, queer, and/or trans parenting entails more accessible than others.

WGSS 311 (F) Trans Film and Media (DPE)

Cross-listings: AMST 364

Primary Cross-listing
This course provides an introduction to contemporary trans culture and politics via the lens of film and other (mostly visual) media. We'll focus mainly on media production in the U.S. since the early 1990s, as this moment is usually understood as inaugurating contemporary "transgender" politics; additionally, the 90s saw a profusion of diversity in popular representation generally. This class has two main priorities: first, to use visual media as a lens for surveying major developments in trans studies, politics, and representation over the last few decades; second, to develop a critical repertoire for thinking about our current conjuncture of "trans visibility" in particular. By tracking a longer history of both popular and alternative trans media production, this course will question the vanguardism and celebratory progress narratives associated with "trans tipping point" visibility conditions. Drawing from perspectives in WGSS, American studies, and ethnic studies, we will especially situate trans representation in relation to the institutionalization of minority difference under neoliberal capitalism. In line with scholarship, we'll approach trans representation as interlocking with structures like race, heteropatriarchy, dis/ability, immigration, and nationality and empire.
Class Format: There will also be some lecturing.

Requirements/Evaluation: Students will have ongoing short discussion post assignments, one midterm essay of 5-6 pages, and a final group media-making project with min. 6 pages of analytic writing to accompany their creative work.

Prerequisites: WGSS 101 or 202 would be helpful but are not required. Other background in WGSS or the humanities is also helpful.

Enrollment Limit: 20

Enrollment Preferences: Enrollment preference can go to WGSS majors and 3rd & 4th years. Statements of interest are welcome.

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Materials/Lab Fee: For some proprietary media content, students will need subscriptions to popular streaming services (eg Netflix, Amazon, HBO Max). See WGSS chair about financial aid waivers and alternatives if this feels cost prohibitive.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 311(D2) AMST 364(D2)

Difference, Power, and Equity Notes: This course provides a survey of issues facing marginalized trans communities via the lens of visual media, with an emphasis on how structures of power shaping trans experience intersect with the politics of race, capital, disability, migration, and other axes of social difference.

WGSS 312 (S) An American Family and "Reality" Television (WS)

Cross-listings: ARTH 310

Secondary Cross-listing

An American Family was a popular documentary series that featured the Loud family from Santa Barbara, California, whose everyday lives were broadcast on national television. The series generated an enormous amount of media attention, commentary, and controversy when it premiered on PBS in 1973. Today, it is regarded as the origin of so-called "Reality TV." In addition to challenging standard rules for television programming, the show challenged social conventions and asked viewers to think seriously about family relations, sexuality, domesticity, and the "American dream." Documenting the family's life over the course of eight months, the series chronicled the dissolution of the Louts' marriage and broadcast the "coming out" of eldest son Lance Loud, the first star of reality television. In this class, we will view the An American Family series in its entirety, research the program's historical reception, and analyze its influence on broadcast and film media, particularly on "reality" television. A final 14- to 18-page research paper will be prepared in stages, including a 6- to 8-page midterm essay that will be revised and expanded over the course of the semester.

Requirements/Evaluation: class presentations, research assignments and annotated bibliographies, and final 14- to 18-page research paper.

Prerequisites: none

Enrollment Limit: 14

Enrollment Preferences: junior Art majors, followed by senior majors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 310(D1) WGSS 312(D2)

Writing Skills Notes: There will be considerable focus on writing and peer-editing as a means of shaping critical thinking. We will treat writing as a process; revision is built into the syllabus. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

WGSS 313 (F) Gender, Race, and the Power of Personal Aesthetics
Cross-listings: AFR 326 / LATS 313 / AMST 313 / AAS 313

Secondary Cross-listing
This media/cultural studies course focuses on the politics of personal style amongst women of color in the US and around the globe in the digital era. We undertake a comparative, transnational exploration of the ways in which categories of difference such as gender, disability, sexuality, class, and ethno-racial identity inform normative beauty standards and ideas about the body. The class pays particular attention to the ways in which neoliberal capitalism shapes contemporary understandings of gendered bodies and the self. We examine an array of materials from across the disciplines including commercial websites, music videos, photography, histories, film, television, personal narratives, ethnographies, and sociological case studies. Departing from the assumption that personal aesthetics are intimately tied to issues of power and privilege, we engage the following questions, among others: What are some of the everyday functions of personal style among women of color in the US and globally? How do Latina/x, Black, Arab American, and Asian American personal aesthetics reflect the specific circumstances of their creation, and the unique histories of these racialized communities? What role do transnational media and popular culture play in the development and circulation of gendered, raced, and sexualized aesthetic forms? How might the belief in personal style as an activist strategy complicate traditional understandings of feminist political activity? And what do the combined insights of ethnic studies, feminist studies, cultural studies, media studies, queer studies and disability studies contribute to our comprehension of gendered Asian American, Arab American, Black, and Latina/x bodies?

Requirements/Evaluation: participation, one student-led discussion period, two written essays of 5-6 pages, final written reflection.
Prerequisites: LATS 105, AMST 201, AFR 200, WGSS 101 or permission of instructor; first year students are not permitted to take this course.
Enrollment Limit: 12
Enrollment Preferences: Latina/o Studies concentrators, American Studies majors, Africana Studies majors, and Women's, Gender and Sexuality Studies majors by seniority. If the class is overenrolled students may be asked to submit a brief writing sample.
Expected Class Size: 12
Grading: no pass/fail option, yes fifth course option

WGSS 315 (F) Paris on Fire: Incendiary Voices from the City of Light (DPE)
Cross-listings: RLFR 316 / COMP 314

Secondary Cross-listing
During the 1830s, Honoré de Balzac described Paris as a "surprising assemblage of movements, machines, and ideas, a city of one hundred thousand novels, the head of the world," but also characterized the French capital as a "land of contrasts," a "monstrous wonder," a "moral sewer." Similarly, writers from Victor Hugo to Émile Zola have simultaneously celebrated Parisian elegance and condemned the appalling misery of Paris's urban poor. Since 1889, Paris has been feted as the "City of Light" for its Enlightenment legacy, Eiffel Tower modernity, and luminous energy, captured in countless paintings, photographs, and film. However, Paris is also the site of revolution, resistance, and riots. From revolutionary revolt (1830, 1848, 1871), to wartime resistance (1870, 1914-18, 1940-44), to reformist and race riots (1968 and 2005), Paris has repeatedly sparked with incendiary passion and political protest. As fires raged during the 2005 riots, many heard the echo of Hitler's 1944 question, "Is Paris burning?" and asked: why was Paris burning again at the dawn of the twenty-first century? Following the 2015 terrorist attacks, many wondered yet again what the future would hold for the City of Light. To answer these questions, we will examine the social, political, and literary landscape of Paris during the nineteenth, twentieth, and twenty-first centuries, from urbanization and modernization, to occupation and liberation, to immigration and globalization. Readings to include poetry, short stories, and novels by Hugo, Balzac, Baudelaire, Maupassant, Verne, Zola, Apollinaire, Colette, Duras, Perek, Rochefort, and Charef. Films to include works by Clair, Truffaut, Godard, Minnelli, Clément, Lelouch, Luhrmann, Kassovitz, Besson, and Jeunet. Conducted in French.

Requirements/Evaluation: Active class participation, midterm exam, and two papers.
**Prerequisites:** Strong performance in RLFR 106, or another RLFR 200-level or 300-level course, or permission of the instructor.

**Enrollment Limit:** 16

**Enrollment Preferences:** French Majors and French Certificate students, Comparative Literature Majors.

**Expected Class Size:** 16

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

RLFR 316(D1) WGSS 315(D2) COMP 314(D1)

**Difference, Power, and Equity Notes:** This course examines the operations of difference, power, and equity in French film and fiction, history and politics, art and culture, from 1830 to 2025. In readings, lectures, and discussions, we will look at how class, ethnicity, gender, and sexuality structure the lives and struggles of the working class and urban poor, women and men, migrants and immigrants. Students will learn critical tools to better understand and interrogate social inequity and injustice.

**Attributes:** GBST Urbanizing World

**WGSS 319 (F) Gender and the Family in Chinese History (DPE)**

**Cross-listings:** HIST 319 / ASIA 319

**Secondary Cross-listing**

Although sometimes claimed as part of a set of immutable "Asian values," the Chinese family has not remained fixed or stable over time. In this course, we will use the framework of "family" to gain insight into gender, generation, and sexuality in different historical periods. Beginning in the late imperial period (16th-18th Centuries), we will examine the religious, marital, sexual, and child-rearing practices associated with traditional ideals of family. We will also examine the wide variety of "heterodox" practices that existed alongside these ideals, debates over and critiques of gender, family, and sexuality in the twentieth century and in China today.

**Requirements/Evaluation:** active participation in discussions and group work, short skills-based writing assignments (2-4 pgs) and short essays (5-7 pgs) leading toward a final paper (10-15 pages).

**Prerequisites:** none; open to first year-students with instructors permission

**Enrollment Limit:** 25

**Enrollment Preferences:** History and WGSS majors; Asian Studies concentrators.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

**WGSS 320 (S) Dangerous Bodies: Black Womanhood, Sexuality & Popular Culture**

**Cross-listings:** AFR 320 / AMST 320

**Secondary Cross-listing**

Whether presented as maternal saints, divas, video vixens, or bitches, black female celebrities navigate a tumultuous terrain in popular culture. This course considers the ways that black female celebrities such as Oprah, Rihanna, Nicki Minaj, Beyoncé, Janet Jackson, and Michelle Obama negotiate
womanhood and sexuality, and the popular landscapes through which we witness that negotiation. It also engages contemporary black feminist scholarship, which most frequently presents the presentation of black female bodies in popular media forms as exploitive. We will review historical stereotypes of black women in popular media forms, discuss the history of the "politics of respectability" within black culture, engage black feminist responses to these types, and examine theoretical approaches to assess social constructions of womanhood and sexuality. We will also consider provocative questions relevant to discussions of contemporary black sexual politics: Should we view these women as feminists? Are they merely representatives of cultural commodification and control of black women's bodies? Do these women best exemplify the reiteration of problematic characterizations? Are they positive models for demonstrating female empowerment, agency, or "fierceness?" This course explores the histories of representation of black female figures in popular culture, and in so doing, troubles contemporary considerations of black womanhood and sexuality.

Requirements/Evaluation: evaluation will be based on attendance/participation, short response papers, and a midterm and final portfolio

Prerequisites: none
Enrollment Limit: 19

Enrollment Preferences: Women's Gender & Sexuality Studies majors and Africana Studies concentrators

WGSS 321 (S) Contemporary Immigration Landscapes

Cross-listings: AMST 312 / LATS 335

Secondary Cross-listing
What is the relationship between racial formations, transnational migrations, and power in the United States? How do geometries of power shape our relationship to place? How do people navigate and resist the exercise of unequal power relations? This course examines geographies of transnational migration, bringing together insights from critical race theory, queer theory, and postcolonial theories to enrich our understanding of human geography. Theories on belonging, identity, and power will serve as a bridge between the state's role in structuring the lives of transnational migrants and the politics of conceiving futures as alternatives to current political geographic imaginations in the U.S. immigration landscape. Through an interdisciplinary exploration of 'migration,' we will examine the depth and range of migrants' experiences (such as through Javier Zamora's Solito: A Memoir) and how these communities' lives are structured through various axes of difference, such as race, gender, sexuality, class, and documentation status. We will give attention to the variegated landscape of immigration enforcement and its relationship to issues of labor, political economy, and incarceration, among others. Through materials that embrace both social science and humanities approaches, this course will help students develop a critical understanding of how space matters when considering transnational processes of migration as well as migrant communities' political practices throughout the US. This course asks students to compare and contrast the intellectual genealogies covered and apply these theories of identity and power to case studies that focus on political interventions for social justice (such as UndocuQueers in the immigrant justice movement).

Requirements/Evaluation: Your learning is evaluated through class participation (discussion, responses, & in-class worksheets), three assignments, and a final project.

WGSS 322  (S)  Introduction to Critical Theory: The Enlightenment and Its Critics  (DPE) (WS)

Cross-listings: PHIL 321

Secondary Cross-listing

We often associate modern faith in the prospects of universal human dignity, rational autonomy, the rights of man, individual liberty, democracy, open scientific inquiry and social and political progress with the Enlightenment. How can we reconcile this faith with the persistence of domination today? Critical theory aims not merely to understand the “struggles and wishes of the age” as Marx one described it, but with emancipation from domination. Understood in this way, critical theory is identified closely with the intellectual tradition of the Frankfurt School. In this tutorial, we will read works in critical theory from the 18th century to the present, some from the Frankfurt tradition, and some not. We will focus on particular topics, examples of which are the following: normative critique, capitalism, authoritarianism, mass culture, enlightenment and reason, progress, violence, the domination of nature, white supremacy, patriarchy and colonialism.

Class Format: students will work in pairs and meet for 75 minutes each week with the professor

Requirements/Evaluation: Each student will write and present a 5 or 6-page paper every other week and a commentary on their partner’s essay on alternate weeks; evaluations are based on written work as well as level of preparation and the quality of intellectual engagement in tutorial meetings

Prerequisites: PHIL 202, Kant course, modern political theory, or permission of instructor

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors and students with background in modern political theory, or other relevant demonstrated background.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PHIL 321(D2) WGSS 322(D2)

Writing Skills Notes: The tutorial format requires significant writing (six 2500-3000 word papers, and six 1000-1250 word commentaries), weekly commentary on writing, and instructor comments on papers.

Difference, Power, and Equity Notes: In this course power, difference, domination and the prospects of and obstacles to liberatory political struggle are central topics.

Attributes: PHIL History Courses  WGSS Theory Courses

Not offered current academic year

WGSS 328  (S)  Austen and Eliot

Cross-listings:

Secondary Cross-listing

Austen and Eliot profoundly influenced the course of the novel by making internal consciousness crucial to narrative form. In this course we will explore Austen's innovative aesthetic strategies and the ways in which Eliot assimilated and transformed them. By placing each writer’s work in its political and philosophical context—Austen's case, reactions to the aftermath of the French Revolution, in Eliot's, to the failed mid-century European revolutions and the pressures of British imperialism—we will consider how each writer conceives social and historical exigencies to shape comedies and dramas of consciousness. Readings will include Austen's Pride and Prejudice, Emma, Mansfield Park, and Persuasion; Eliot's The Mill on the Floss, The Lifted Veil; and Daniel Deronda; selected letters and prose; and critical essays.

Class Format: discussion

Requirements/Evaluation: two papers of approximately 8-10 pages

Prerequisites: a Gateway course or permission of the instructor

Enrollment Limit: 25

Enrollment Preferences: junior and senior English majors

Expected Class Size: 18
WGSS 329 (F) Writing Gender in Sci-Fi and Speculative Fictions (DPE)

Cross-listings: ENGL 329 / STS 323

Secondary Cross-listing

This creative writing course will pair selected readings in feminist STS and queer theory with science fiction, speculative fiction, and horror stories that together put questions to gender. How and when is sci-fi a home for radical re-imaginings of gender? When and why does "genre fiction" house (and facilitate) radical gender politics—or their opposite? Readings may include works by Octavia Butler, Ursula Le Guin, Brian Evanson, and Samuel Delany. Students will both analyze these fictions and take them as inspirations for their own stories and worlds.

Class Format: This course balance seminar-style discussion with workshops examining students' creative writing.

Requirements/Evaluation: Students will be evaluated on three substantial pieces of writing, in multiple drafts. Students will be able to choose their balance of creative and analytical (expository) prose (2-1 or 1-2). Attendance, along with seminar and workshop discussion, will count toward the final grade. There will be no exam.

Prerequisites: none

Enrollment Limit: 25

Enrollment Preferences: STS concentrators; WGSS majors; students who have not taken other creative writing courses at Williams.

Expected Class Size: 25

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 329(D2) ENGL 329(D1) STS 323(D2)

Difference, Power, and Equity Notes: In this course students will confront and reflect on the operations of difference, power, and equity through readings, class discussions, and assignments. Readings include scholarship on the construction of gender and sexuality, as well as works of fiction that denaturalize the categories of sex and gender. Course assignments will include expository and creative writing, and students will work in both modes to imagine how this world could be otherwise and how other worlds could be.

Fall 2024

SEM Section: 01 W 1:10 pm - 3:50 pm Ezra D. Feldman

WGSS 330 (S) "A language to hear myself": Advanced Studies in Feminist Poetry and Poetics (DPE)

Cross-listings: ENGL 302 / AMST 310

Secondary Cross-listing

The title of this course comes from Adrienne Rich's 1969 poem "Tear Gas," grounding our study in 1960s, 70s, and 80s feminist activist poetry but also in our current moment to answer a fundamental question: what can poetry do for us? In this period, feminist activist poets were at the center of a revolutionary social justice movement that changed the world. Feminist presses published much of the new poetry. This course focuses on the theory and practice of feminist poetry and print culture during this period, and how feminist experiments in language changed how we understand American poetry. We focus on the theoretical writings and poetry chapbooks of a diverse group of poets who powered the movement, including Audre Lorde, Mitsuye Yamada, Nelly Wong, Robin Morgan, June Jordan, Joy Harjo, Gloria Anzaldúa, Sonia Sanchez, Adrienne Rich, Judy Grahn, and Pat Parker. We also read the work of some later feminist theorists, such as Sara Ahmed. We spend time in the archives, analyzing documents from the period, including feminist magazines and original publications of poetry chapbooks often published by the period's many feminist presses and consider how such attention allows us to construct alternative narratives for feminism and American poetry. Writing at the intersections of race, class, gender, and sexuality, and of multiple social justice movements (Civil Rights, anti-Vietnam War, LGBTQ activism, and Black Power), these poets gave us a new
language to "hear," not only ourselves, but the experience and pain of others, and, in so doing, they moved personal experience into public discourse around issues of inequality and human flourishing in a democratic society.

Requirements/Evaluation: short analysis papers (4-5 pages), creative (1-2 pages), Perusall annotations, longer final researched paper (10-12 pages) or alternative digital project, curated exhibition of archival materials in Special Collections

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of instructor

Enrollment Limit: 25

Enrollment Preferences: English, Women's, Gender, and Sexuality Studies, American Studies majors

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 330(D2) ENGL 302(D1) AMST 310(D2)

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the feminist movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the period.

WGSS 332 (S) Gender, Sexuality & Disability (DPE)

Cross-listings: AMST 369

Primary Cross-listing

From classical mythology to reality TV, bodies and minds that depart from the ordinary have long been sources of popular fascination. In recent history, people marked as "disabled" have been subject to medical scrutiny, labeled deficient or defective, and often barred from full participation in society. And yet, what counts as "disability"--and who counts as disabled--varies greatly depending on cultural and historical context. Arguably, disability has more to do with social conditions than with any innate characteristics of disabled people themselves. This class introduces disability studies, situating disability within its historical, political, and cultural contexts. As a GWSS course, we'll center queer and feminist perspectives; this class also emphasizes recent work. Echoing arguments in gender and sexuality studies, scholars have insisted that disability is not a natural or biological fact, but a socially constructed category. As such, scholars and activists have challenged medical models that conceptualize disability as an individual defect in need of elimination. They have also questioned the idea that disability is simply a minority identity -- to the contrary, disability is a condition that most humans will experience at some point in our lives. This class frames "disability" broadly--encompassing not just conditions of physical impairment, but a wide range of bodily, sensory, cognitive, emotional, and behavioral differences and capacities. This class also centers how disability is produced intersectionally through regimes like race, capitalism, and empire. Topics include: theories of embodiment, eugenics, institutionalization and incarceration, neurodivergence, mad studies, the politics of health, storytelling and narrative, disability justice activism, neoliberalism, biopolitics, and crip theory. Along with scholarly writings, we'll consider activist texts, popular press, fiction, memoir, and a variety of other media.

Requirements/Evaluation: Students will submit ongoing brief/informal forum posts, midterm essay, and a longer final research project (10-12 pgs); students will also work in small groups to facilitate a section of class twice per term.

Prerequisites: WGSS 101-level familiarity would be helpful, but is not required.

Enrollment Limit: 20

Enrollment Preferences: Preference to majors, 3rd and 4th year students.

**Cross-listings**: REL 332 / ARAB 332

**Secondary Cross-listing**

This course examines the relationship between feminism and Islam, exploring Islamic feminism, decolonial feminism, and the critiques of imperialist feminism, homonationalism, and femonationalism. The first part of the course will begin with a critical examination of orientalist and colonial representations of Muslim women as oppressed and in need of liberation. We will then explore Muslim responses to such critiques that were entwined with nationalist and independence movements. This historical backdrop is critical to understanding why the question of women and their rights and roles become crucial to Muslim self-understanding and Islamic reform. The second part of the course will explore the breadth of Islamic feminist literature, covering: 1) feminist readings of scripture; 2) feminist critiques of Islamic law; and 3) feminist theology. The final part of the course will focus on Muslim feminist and decolonial feminist critiques of feminism and its link to imperialism and the weaponization of gender and sexuality in global discourse.

**Requirements/Evaluation**: weekly responses, midterm essay, final research paper

**Prerequisites**: none

**Enrollment Limit**: 15

**Enrollment Preferences**: Religion, Arabic Studies, Women's, Gender and Sexuality Studies

**WGSS 336 (S) Foucault Now**

**Cross-listings**: PHIL 326

**Secondary Cross-listing**

If we think of Michel Foucault as engaged in writing histories, or genealogies, of his own present designed to undercut the sense of the obviousness of certain practices and ways of thinking, categorizing, and knowing, we can easily imagine that he might now be questioning different aspects of our contemporary "present" than the ones standardly associated with his name, namely, panopticons and surveillance, discipline, criminalization, the biopolitics of health, the normal and the abnormal, etc. In this course we address the question: How is the present we find ourselves living today different from the one that the author Foucault wrote about in the 1960s, 70s and early 80s before his untimely death in 1984? What differentiates today from yesterday? And what present practices and ways of thinking and knowing might be questioned using Foucault's tools, genealogy in particular, for resisting unnecessary constraints on freedom and the perpetuation of unnecessary suffering? What is his legacy today? In this tutorial you will read from a selection of Foucault's texts (books, lectures, interviews) in order to acquire a firm grasp of his method of "critique" and his way of looking at the interconnections between forms of power and the knowledge associated with particular disciplines. We will also read more recent work by Foucault inspired scholars on topics such as the biopolitics of gender, the genealogy of terrorism, the informational person (how we become our data), and neoliberal subjects.

**Class Format**: I may use a seminar format at least twice during the semester.
**Requirements/Evaluation:** evaluation will be based on written work (six 5- to 6-page papers, and six 2-3 page commentaries on their partner’s papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

**Prerequisites:** Relevant background in critical theory, social theory, political theory or philosophy.

**Enrollment Limit:** 10

**Enrollment Preferences:** I will give preference to philosophy majors and to upper class students with a demonstrated background in critical theories. Some sophomores may be eligible.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 336(D2) PHIL 326(D2)

**Writing Skills Notes:** This is a tutorial. Students will write five or six 5-6-page papers during the course of the semester and receive significant feedback on each paper. At the end of each tutorial meeting the student is asked to reflect on how they would approach the paper differently if they were to rewrite it.

**Difference, Power, and Equity Notes:** In this course we address power and domination, reflect on the difference between them, and treat power relations as not only an inevitable feature of any society, but as both enabling and constraining. Moreover, we will read material that uses Foucauldian tools to address contemporary issues involving sexism and racism, digital surveillance, and the abolition of prisons.

**Attributes:** PHIL History Courses

---

**WGSS 339 (F) The Social Psychology of Prejudice**

**Cross-listings:** PSYC 341

**Secondary Cross-listing**

This course will examine social psychological theories and research that are relevant to the understanding of stereotypes, prejudice, and discrimination. We will take a variety of social psychological perspectives, emphasizing sociocultural, cognitive, personality, or motivational explanations. We will examine the impact that stereotypes and prejudice have on people’s perceptions of and behaviors toward particular groups or group members and will explore a variety of factors that tend to exacerbate or weaken this impact. We also will consider sources of prejudice and processes through which it is maintained, strengthened, or revised. In addition, we will examine some of the effects that stereotypes, prejudice, and discrimination can have on members of stereotyped groups, as well as some implications of the social psychological research findings for issues such as education, sports, and business and government policies. A major component of this course will be the examination of classic and ongoing empirical research.

**Class Format:** empirical lab course

**Requirements/Evaluation:** weekly brief papers, oral reports, two longer papers

**Prerequisites:** PSYC 201 and 242

**Enrollment Limit:** 16

**Enrollment Preferences:** senior, then junior Psychology majors

**Expected Class Size:** 16

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)

Fall 2024

SEM Section: 01 Cancelled
WGSS 342 (S) Sexuality in US Modernisms (DPE)

Cross-listings: ENGL 341

Secondary Cross-listing

This course investigates how sexual identities, desires, and acts are represented and reproduced in U.S. literary and popular culture. Focusing on 1880-1940 (when, in the U.S. the terms "homosexual" and "heterosexual" came to connote discrete sexual identities), we will explore what it means to read and theorize "queerly." Among the questions we will ask are: What counts as "sex" or "sexual identity" in a text? Are there definably queer and/or transgender writing styles or cultural practices? What does sexuality have to do with gender? How are sexual subjectivities intertwined with race, ethnicity, class, and other identities and identifications? Why has "queerness" proven to be such a powerful and sometimes powerfully contested concept? We will also explore what impact particular literary developments—the move from realism to modernism—and historical events such as the rise of sexology, first-wave feminism and the Harlem Renaissance—have had on queer cultural production. The class will also introduce students to some of the most influential examples of queer literary and cultural theory. Readings may include works by authors such as James, Cather, Far, Hughes, Nugent, Stein, Fitzgerald, and Larsen, as well as queer literary theory and critique by scholars such as Butler, Coviello, Ferguson, Foucault, Freeman, Freud, Hartman, Lorde, Love, Muñoz, Rich, Rodriguez, Ross, and Sedgwick.

Class Format: discussion/seminar

Requirements/Evaluation: active class participation, several short writing assignments, two 5-page papers, and one 7-9-page paper

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 25

Enrollment Preferences: English majors and/or students interested in WGSS

Expected Class Size: 25

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 342(D2) ENGL 341(D1)

Difference, Power, and Equity Notes: This course considers the history and literature of sexuality in the US alongside questions of race, gender, class, region and more. It examines how literary form theorizes sexuality, and how sexuality affects literary form, in ways that consider (in)equity and power in a variety of contexts.

Not offered current academic year

WGSS 343 (S) Representations of Racial-Sexual Violence from Enslavement to Emancipation

Cross-listings: AMST 343 / INTR 343 / AFR 343

Secondary Cross-listing

This tutorial examines representations of and resistance to racial-sexual violence in American society, from colonial America to contemporary US culture. Interdisciplinary texts cover history, politics, literature, film, feminist studies, American studies, LGBTQ and ethnic/black studies. Books include Southern Horrors; Intimate Matters; Scenes of Subjection; Trauma and Recovery; The Delectable Negro; At the Dark End of the Street; films include Birth of a Nation; Bush Mama; To Kill a Mockingbird. The primary focus is on racial and sexual vulnerability to violence and mobilization for freedom from the 18th-21st centuries.

Class Format: students provide primary and response papers and discuss their analyses and theories of social and interpersonal violence

Requirements/Evaluation: weekly primary and response papers

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: preference given to juniors and seniors

Expected Class Size: 8

Grading: no pass/fail option, no fifth course option
WGSS 345 (F) The Pedagogy of Liberation  (DPE)

Education is inherently political, and politics necessarily involves pedagogy. Who should teach, what is taught, how it is taught, and why it is taught are questions hotly debated at all levels and in all sites of education because the answers have implications for societal reproduction or transformation. Politicians, activists, even family members at the dinner table all seek to educate in ways that incline us toward particular political positions. At the heart of this class stands the question: if different pedagogies point us in different political directions, then what kind of pedagogy or pedagogies serve the end of liberation from oppression and why? Are there certain pedagogical "goods" that reliably serve the goal of liberation across sites? Or do different sites require different approaches? To begin to answer these questions, we will engage a variety of thinker-teachers and groups known for their commitment to a "pedagogy of liberation." While feminist thinkers will be foregrounded, we may also look to thinker-teachers who and groups that do not claim this label. In addition to engaging texts which reflect on different aspects of radical pedagogy (content, form, method, etc.) and radical pedagogy in different settings (the college classroom, the social movement headquarters, the home), we will witness radical pedagogy in practice. Moreover, we will enact various radical pedagogical strategies in our own classroom and beyond.

Requirements/Evaluation: Perusall, aspirational learning statement, syllabus co-construction and reflection, class facilitation, interview project and reflection, one-on-one discussions

Prerequisites: None

Enrollment Limit: 20

Enrollment Preferences: Preference will be given to WGSS majors.

Expected Class Size: 20

Grading: no pass/fail option, no fifth course option

Distributions: (D2)  (DPE)

Difference, Power, and Equity Notes: This class is concerned with the relationship between pedagogy and equity - how can pedagogy be leveraged to combat oppression and encourage equity? In it, students will gain not just insight on, but practice in enacting radical democratic pedagogies that flatten power differentials and encourage effective engagement across difference.

WGSS 347 (F) Performing Masculinity in Global Popular Culture  (DPE)

Cross-listings: AMST 358 / THEA 341 / SOC 340 / LATS 341

Primary Cross-listing

This course examines popular cultural contexts, asking what it means to be a man in contemporary societies. We focus on the manufacture and marketing of masculinity in advertising, fashion, TV/film, theater, popular music, and the shifting contours of masculinity in everyday life, asking: how does political economy change the ideal shape, appearance, and performance of men? How have products - ranging from beer to deodorant to cigarettes -- had their use value articulated in gendered ways? Why must masculinity be the purview of "males" at all; how can we change discourses to better include performances of female masculinities, butch-identified women, and trans men? We will pay particular attention to racialized, queer, and subaltern masculinities. Some of our case studies include: the short half-life of the boy band in the US and in Asia, hip hop masculinities, and the curious blend of chastity and homoeroticism that constitutes masculinity in the contemporary vampire genre. Through these and other examples, we learn to recognize masculinity as a performance shaped by the political economy of a given culture.

Requirements/Evaluation: masculinity reflections, mid-term essay exam (or quizzes), visual rhetorical analyses of pop culture images

Prerequisites: none; WGSS 202 would be helpful

Enrollment Limit: 15
Enrollment Preferences: a short statement of interest will be solicited; a subsection of applicants may be interviewed

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 358(D2) WGSS 347(D2) THEA 341(D1) SOC 340(D2) LATS 341(D2)

Difference, Power, and Equity Notes: This course examines the construction of masculinity as it relates to intersecting identities such as race, sexuality, class, and global political economic considerations. Key to understanding masculinity are questions about the diversity of experiences of masculinity, cultural variations of gender norms, privilege, agency, patriarchy, heteronormativity, and interlocking systems of oppression.

Not offered current academic year

WGSS 349 Race, Gender, and Labor (DPE)

This course draws on approaches from sociology, labor studies, and Black studies to examine the historical and contemporary intersections of race, gender, and labor. In particular, we will explore the racial, classed, and gendered dimensions of the labor movement, historic economic shifts that impacted and reorganized U.S. labor regimes, Black labor in slavery’s afterlife as it relates to prisons, and global analyses of racialized gendered labor regimes for migrant and immigrant labor within the Global South and the U.S. We will begin the course by grounding ourselves in the Black feminist framework of intersectionality, which will guide our analyses of the intersections of race, class, and gender in labor formations. We will then focus on the monumental shift in labor relations that enslaved Black people’s toppling of the plantation system in the US South brought forth, as well as the technologies of re-enslavement instituted as a reaction to Black people’s emancipation. After that, we will move through different themes and time periods, considering how race, gender, and class intersect in regimes of labor exploitation and the successes and setbacks of labor movements.

Requirements/Evaluation: Major course requirements include engagement in course discussions, reading reflections, a midterm paper, group presentations, and final research paper.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Anthropology and Sociology, Women, Gender, and Sexuality Studies (WGSS) and/or Africana Studies majors

Expected Class Size: 15

Grading:

Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This course foregrounds intersectional subjectivities and perspectives. It provides interdisciplinary toolkits to strengthen students’ ability to identify and address how unequal power dynamics sustain difference and inequity—e.g., in racial and gender pay gaps and inequalities in the globalized care economy—and to practice collective strategies for transformative social change, engaging with critical epistemologies developed by workers fighting for racial, gender, and economic justice.

Not offered current academic year

WGSS 351 (F) Trans/national Femininities (DPE)

This course studies femininity in a trans/national context. Here, trans suggests that we will not be looking at femininity as necessarily or inherently attached to the biological category “female.” Instead, we will think about femininity as a gender performed by and written on many kinds of bodies, with specific attention to trans feminine experiences. The term “transnational” suggests that we will attempt to talk about femininity not only in the context of the US and the “western” world but across different nations and within a broader socio-cultural framework. We will consider a broad range of disciplinary accounts of femininity in the US and beyond. We will discuss how class, bodily comportment, ability, and other facets affect feminine performance and feminine/feminist/queer politics. Our course materials include scholarship, film, art, and literature. Finally, this course centers the voices of trans and cis women, femmes, and queer BIPOC (black, indigenous, and/or people of color).

Requirements/Evaluation: short informal writing assignments, discussion facilitation, in class activities and discussion, student presentations, substantive student-led final project.

Prerequisites: none

Enrollment Limit: 19
Difference, Power, and Equity Notes: This course examines how femininity is constructed on multiple kinds of bodies and across multiple national contexts. It employs a wide range of theoretical approaches for thinking about femininity and the diversity of feminine experiences. We examine femininity as a social location which intersects with embodiment, ability, class, and nation in order to consider structures of power that both effect and are affected by our understandings of femininity.

WGSS 359  (S) Queer of Color Critique and Literatures  (DPE)

Queer of color critique (QoCC) takes an intersectional approach to the study of sexuality and is particularly interested in how sexuality is constituted with and through other social formations like race, class, ability, gender, and nation. It draws on many different theoretical frameworks (women of color feminisms, materialist and post structuralist critiques, and queer critiques) and draws from many different disciplines (sociology, literary studies, psychology, etc). In this course we will study the key histories, terms, and debates in QoCC. Rather than imagine QoCC as a response to queer critique alone, we will study it as a co-occurring field with a long history. Reflecting QoCC’s interest in national and diasporic formations, we will situate our exploration of queerness in a transnational and global perspective. Our course materials include scholarly works as well as arts and literatures which develop and employ QoCC. QoCC is not only a theoretical framework, or a way of interpreting the world. Through our discussions and assignments, we will use QoCC to imagine new worlds.

Requirements/Evaluation: short informal writing assignments, 2 formal essays, discussion facilitation, in class activities, substantive student-led final project.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: WGSS majors

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

SEM Section: 01  W 1:10 pm - 3:50 pm  Mejdulene B. Shomali

WGSS 361  (S) Marking Presence: Reading (Dis)ability in/to Latinx Media  (DPE)

Cross-listings: LATS 344 / AMST 361

Secondary Cross-listing

This course explores the intersection of (dis)ability and Latinx identity in the contemporary US context. Employing Angharad Valdivia's (2020) notion of "marking presence" to describe the intentional ways in which Latinx subjects gain and hold on to mainstream media space, the class places the fields of Disability Studies, Latinx Studies, Gender Studies and Media Studies into conversation. We address the following questions and others: What does media reveal to us about the place of (dis)ability and Latinidad in contemporary US life, particularly as these categories intersect with questions of gender, sexuality, national identity and citizenship? How might we read Latinidad and (dis)ability into media texts in which they are not otherwise
centered? What are the advantages of deploying mainstream media presence as a claim to power for disabled Latinx individuals, particularly those who are multiply marginalized? What are the limitations of such an approach? We will focus on these questions, as well as deploy various media examples (podcasts, social media, film, television and music) alongside scholarly texts to explore topics impacting the Latinx communities such as the relationship between the relationship between immigration and (dis)ability, intergenerational trauma and migration, the gendered archetype of the Latina "Loca," (dis)ability in academia, the politics of self-care amongst Latinxs in the neoliberal context, and the very legal, cultural, and social category of "(dis)abled" itself within dominant society as well as in Latinx communities.

**Requirements/Evaluation:** Two short (5-6 page) essays; One media analysis exercise; One online group project; One final reflection letter.

**Prerequisites:** None.

**Enrollment Limit:** 12

**Enrollment Preferences:** Preference given to LATS concentrators, AMST majors and WGSS majors by seniority.

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 361(D2) LATS 344(D2) AMST 361(D2)

**Difference, Power, and Equity Notes:** At its core, this course is about understanding difference and relationships of power through an intersectional lens and via the prism of everyday media. In each class we will be discussing issues directly revolving around questions of race, ethnicity, (dis)ability, gender, sexuality, and nation. Students will be expected to incorporate an analysis of these issues in their written and oral work for the course.

**Attributes:** LATS Core Electives

**WGSS 362 (S) "Rebel Ecologies": Black and Indigenous Struggles for Land and Life**

**Cross-listings:** AFR 300 / ENVI 300 / AMST 362

**Secondary Cross-listing**

This course will ask, what other socioecological models exist? We will weave together a study of differing, yet often converging or synergistic traditions of Black/Womanist eco-feminism that often confronts the social constructions of race, gender, class and sexuality, dominant religion as a means of social control, imperialism, capitalism, and colonialism; Ecosocialism which often frames ecology in terms of a mode of production beyond or outside of capitalism; and Indigenous perspectives on resistance to capitalist extraction, imperialism, and colonialism. Given ongoing struggles against the extraction of land and labor, the urgent calls raised in the present-day "climate strike," the COVID-19 Pandemic, Black-led pandemic rebellions, along with long(er) histories of land-based peoples around the planet opposing racial capitalism, settler colonialism, and imperialism, this class will explore not only what those in opposition to both extractivism and expropriation resist, but also what we want. We will critique binaries, settler notions of time and explore theories of change. Additionally, this class will look to an array of literature, film, sound, and other forms of cultural production in order to not just "locate," but describe and reveal rebel ecological visions emerging "from below." Ultimately this class will consider how the above ecological praxis can work simultaneously and within a sense of plurality, examining what we can learn from the work of activists, intellectuals, and defenders on the frontline. This course is an extension of Dr. Guess' concept of a "rebel ecology."

**Requirements/Evaluation:** The following requirements serve as the basis for course evaluation: Attendance and Participation 30%; Serve as Discussion Leader at least twice 20%; Weekly 500-word Literature Review 20%; One Final Project, which can take any number of forms, including the conventional research paper (8-12 double-spaced pages plus bibliography). More projects might include, an annotated bibliography of 7 texts, film analysis, syllabus, book review, a written play, an op-ed, etc. We will discuss further possibilities in class.

**Prerequisites:** None

**Enrollment Limit:** 10

**Enrollment Preferences:** If the course is overenrolled, preference will be given to Africana studies concentrators.

**Expected Class Size:** 7

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)

**This course is cross-listed and the prefixes carry the following divisional credit:**

Cross-listings: STS 363 / INTR 350 / AMST 363

Secondary Cross-listing

Civil rights activist, educator, and investigative journalist Ida B. Wells said that "the way to right wrongs is to shine the light of truth upon them." In this inclusive, collaborative, research-based course, students will bring statistical, computational, and/or mathematical approaches to bear on issues of social justice. Guided closely by the instructor, students will work in groups to carry out original research in an area such as criminal justice, education equity, environmental justice, health care equity, economic justice, or inclusion in arts/media. Prior research experience is not required; one goal of this course is to build skills for advanced research.

Class Format: This course is an intensive research practicum. Formation of research groups and selection of research topics will be facilitated by the instructor. The primary modality of work is peer collaboration.

Requirements/Evaluation: To move towards a non-hierarchical, transparent, and egalitarian grading system, the instructor adopts a mastery-based, ungraded assessment framework.

Prerequisites: INTR 150 (Data for Justice), or prior equivalent exposure to computing, statistics, and social justice topics as approved by the instructor.

Enrollment Limit: 10

Enrollment Preferences: Students who have a declared major in Division I or II, who meet the prerequisites of the course, and who fill out the instructor's preregistration survey (contact the instructor for link).

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (QFR)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 363(D2) STS 363(D2) INTR 350(D2) AMST 363(D2)

Difference, Power, and Equity Notes: Students will research issues of social justice in areas such as criminal justice, arts/media, environmental justice, education, and health care, and along identity axes such as gender, race/ethnicity, disability status, and sexual orientation.

Quantitative/Formal Reasoning Notes: Students will use multiple mathematical, statistical, and computational frameworks to acquire, model, and analyze real-world data.

WGSS 371 (S) Campus and Community Health in Disruptive Times (DPE) (WS)

Cross-listings: ANTH 371 / STS 370

Secondary Cross-listing

We study and seek “campuses where students feel enabled to develop their life projects, building a sense of self-efficacy and respecting others, in community spaces that work to diminish rather than augment power asymmetries.” --Sexual Citizens (Hirsch and Khan, 2020). Students will design and pursue innovative ethnographic projects that explore campus or community health. We will learn ethnographic techniques such as observant participation, interviewing, focus groups, qualitative surveys, as well as design thinking and data visualization skills. We use and critique the methods of medical anthropology and medical sociology in order to hone our skills in participatory research. Every week, we collaborate with and share our research with our participants and peers both inside and outside class through a variety of innovative exercises. We attend to the parallel roles of narrative and listening in both medicine and ethnography, as we contrast the discourse of providers & patients along with researchers & participants. We aim to understand the strengths and limits of ethnographic inquiry while privileging marginalized voices and attending to power and identity within our participatory research framework. We recognize that our campus health projects are always already shaped by power and privilege, as we examine the ways that daily life, individual practices, and collective institutions shape health on and off campus. Our ethnographic case studies explore how systemic inequalities of wealth, race, gender, sex, ethnicity, and citizenship shape landscapes of pediatric care, mental health, maternity care, and campus sexual assault in the US and elsewhere. We consider how lived practices shape health access & outcomes as well as well-being in
our communities and on our campus.

Requirements/Evaluation: Weekly attendance, 3 written fieldnotes (3000 words), weekly writing & fieldwork exercises in class and out of class, a final presentation that includes data visualizations and analysis of research findings.

Prerequisites: A course in Anthropology, Sociology, STS or in DIV II is strongly recommended

Enrollment Limit: 19

Enrollment Preferences: Majors in Anthropology, Sociology, WGSS; Concentrators in PH, STS, ASIA, ENVI

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ANTH 371(D2) WGSS 371(D2) STS 370(D2)

Writing Skills Notes: This class assignments includes over 9,000 words of essay assignments, and will help students develop critical writing skills, including use of rhetoric, evidence, argument, synthesizing data, logic, and anticipating counter-arguments.

Difference, Power, and Equity Notes: This class uses experiential learning to examine the intersectionality of race, class, gender, & sexuality in impacting healthcare and health outcomes. It explores the ways that intersectionality and implicit bias shapes health and well-being in patient/provider encounters as well as ethnographic research. It engages with and critiques efforts to 'improve' community and individual health outcomes in the US and elsewhere across the globe.

WGSS 375 (S) Asian American Sexualities (DPE)

Cross-listings: AMST 375 / AAS 375

Secondary Cross-listing

Perceived as objects of sexual use and perversity, how might Asian/Asian American subjects contend with these projections and enact their own genders and sexualities? Anchored in this question, this theory-intensive seminar will provide a study of seminal and recent scholarship at the intersections of Asian American Studies, feminist criticism, and queer theory that focus on or are read in tandem with a collection of cultural expressions, including film, sculpture, poetry, drag performance, music, manifestos, and visual and performance art. To first root us, the seminar will introduce key uses and theorizations of sex/gender, sexuality, and queerness. Then, across the semester, we will focus on deployments of them through a range of topics, including sexual subjugation and activism of "comfort women," orientalism/ornamentalism, the queering of Sikh, South Asian, and Muslim Americans post-9/11, western demands to "come out," representations in pornography, lesbian invisibility, devaluation of trans* lives, etc., exploring questions of racialized, gendered, and sexual subordination alongside power, pleasure, play, and critique. To this end, we will approach gender and sexuality not as identity categories that one is or has but socially and biologically construed categories, loci for intervention and play, anti-normative positions, lived experiences, and ever-evolving processes of doing, becoming, and unbecoming.

Requirements/Evaluation: in-class discussion, weekly posts, short presentation, one paper, and one longer paper or creative assignment that will be peer reviewed and revised

Prerequisites: AMST 125 or WGSS 101/202

Enrollment Limit: 15

Enrollment Preferences: AMST/WGSS majors and AAS concentrators will be given priority; prospective AA concentrators

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 375(D2) WGSS 375(D2) AAS 375(D2)

Difference, Power, and Equity Notes: This course examines the terms Asian American, gender, sexuality, and ability as categories of social difference and oppression. Throughout the course, students will unpack how these categories have been made, unmade, and remade in relationship to ongoing issues of sexual violence, colonialism, racial capitalism, and empire.
WGSS 376  (F)  Sex, Gender, and the Law in U.S. History  (DPE)

Cross-listings:  HIST 376

Secondary Cross-listing

This course explores that ways in which the law has defined and regulated gender and sexuality in the United States, and the ways that individuals have experienced and responded to those definitions and regulations. We will evaluate how the law has dictated different roles for men and women, how sexual acts have been designated as legal or illegal, and the ways that race, class, and nationality have complicated the definition and regulation of gender and sexuality. This course examines how assumptions about gender and sexuality have informed the creation and development of American law and the changing meanings of citizenship; considers how laws regulating sex and gender have yielded varied effects for men and women across race and class divides, challenging some differences while naturalizing others; and assesses the power and shortcomings of appeals to formal legal equality waged by diverse groups and individuals. Throughout the course, we will consider the various methodologies and approaches of the interdisciplinary field of legal history. Topics to be covered will include the Constitution, slavery, marriage, divorce, custody, inheritance, immigration, sexual violence, reproduction, abortion, privacy, suffrage, jury duty, work, and military service.

Requirements/Evaluation:  four papers, including three short (3-5-pages) papers, and one final paper of 8-10 pages

Prerequisites:  none

Enrollment Limit:  25

Enrollment Preferences:  History majors, Women's, Gender and Sexuality Studies majors

Expected Class Size:  20

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 376(D2) HIST 376(D2)

Difference, Power, and Equity Notes:  This course fulfills the DPE requirement because it examines the legal, social, and political constructions and theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.

"Let us record the atoms as they fall upon the mind in the order in which they fall, let us trace the pattern, however disconnected and incoherent in appearance, which each sight or incident scores upon the consciousness. Let us not take it for granted that life exists more fully in what is commonly thought big than in what is commonly thought small" ("Modern Fiction"). Virginia Woolf's fiction represents a self-conscious and highly experimental challenge to the conventions of Victorian and Edwardian fiction, in an effort to re-center the novel on lived experience. This course will explore the evolution of the innovative fictional forms by which she tried to bridge the gap between the experience of consciousness and its representation in language. We will also consider the links between Woolf's concern with in the fluidity of consciousness and her interest in gender fluidity and androgyny. We will read most of the major novels, probably including The Voyage Out, Jacob's Room, Mrs. Dalloway, To the Lighthouse, Orlando, The Waves, and Between the Acts, together with selected short fiction and critical essays.

Requirements/Evaluation:  discussion, weekly journal, three 4- to 6-page essays
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: none

Enrollment Preferences: English majors, WGSS majors, seniors

Expected Class Size: 25

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2)

This course is cross-listed and the prefixes carry the following divisional credit:

Attributes: ENGL Literary Histories C

Not offered current academic year

WGSS 391 (F) Contemporary North American Queer Literatures and Theories  (DPE)

Cross-listings: ENGL 391

Secondary Cross-listing

Moving through the mid-twentieth century and into the twenty-first, this course will consider how North American writers have represented queer life in all its complexities. From the problem of the happy ending to the intersectional politics of representation, the narrative complexities of coming out to the rejection of identity, the course will consider the relationship between literary form and queer content. In so doing, it will also touch upon some of the key debates in queer literary theory and consider the impact of events such as civil rights movements, gay and lesbian and trans uprisings, the AIDS crisis, debates over respectability politics, and current efforts to police what students read in schools on literary and cultural production. Readings may include work by such authors as Baldwin, Highsmith, Rich, Lorde, Delany, Kushner, Feinberg, Bechdel, Thom, and Machado and theorists such as Ferguson, Sedgwick, Fawaz, Love, Butler, and Hartman.

Requirements/Evaluation: active class participation, several short writing assignments, two 5-page papers, and one longer research paper.

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor;

Enrollment Limit: 25

Enrollment Preferences: English majors; WGSS majors

Fall 2024

SEM Section: 01    TF 1:10 pm - 2:25 pm    Kathryn R. Kent

WGSS 398 (F) Feminist and Queer Horror Films  (DPE)

Cross-listings: THEA 390 / ENGL 333 / COMP 390 / AMST 390

Primary Cross-listing

This course focuses on pairing theoretical readings with a variety of horror films with feminist or queer themes. Many tropes are associated with this genre - "the final girl" in slasher movies, "the transvestite murderer," femme lesbian vampires, supernatural BDSM figures, vampires as allegories for HIV/AIDS, werewolves as metaphors for FTM gender transitions or puberty, lonely mothers in creaky houses as unreliable narrators, Satanic spawn, and creepy long-haired girls. Some films reinforce gender stereotypes while others snap on more explicitly feminist and queer lenses. This course
functions as a survey of many different genres, introducing students to classic 1970s films and working up to the present day and we will learn how these tropes developed and then were subverted by more modern day films such as those by A24 Studies and the new renaissance of Black horror, etc. Most films will focus on the US, with some notable exceptions in Japan, Spain, and elsewhere globally. There will be graphic content. You must be 18 or over to take this class.

Requirements/Evaluation: Class participation, short reflection papers, 2-3 extemporaneous oral class responses, several creative assignments.

Prerequisites: None. Prior WGSS courses will be helpful.

Enrollment Limit: 15

Enrollment Preferences: Stage 1 is a statement of interest form; Stage 2 will be a very brief interview. There is NO preference by major or class year.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: Some of the creative assignments will have an "artsy-craftsy" component, but should not cost more than 25 dollars total per student per semester, though amounts will vary depending on how the student chooses to execute the assignment.

Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 398(D2) THEA 390(D1) ENGL 333(D1) COMP 390(D1) AMST 390(D2)

Difference, Power, and Equity Notes: This course necessarily examines power when it comes to gender and sexuality - who has it? what do they do with it? how does this power turn deadly? how can agency be regained? Horror is almost never about equitable situations but rather the imbalance that comes from difference (along whatever axis) causing a lack of equity.

WGSS 402 (F) Marxist Feminisms: Race, Performance, Labor (DPE) (WS)

Cross-listings: AAS 402 / AMST 402

Secondary Cross-listing

This seminar provides an overview of queer, black and women of color feminist, decolonial, and critical ethnic studies critiques of orthodox Marxism. Beginning with core texts from the tradition, including Capital Volume I, we will examine a range of social positions and modes of extraction that complicate Marx's emphasis on the white male industrial factory worker. Every week, we will focus on texts that foreground conditions of reproduction, racial slavery, care and domestic work, indentured servitude, immigrant labor, land expropriation, and sex work among others. Throughout the seminar and specifically at the close of it, we will turn to critical perspectives and aesthetic practices that not only respond to these conditions but also incite new social relations and ways of being in the world. As such, this seminar will equip students with critical understandings of how racial capitalism has fundamentally relied on the mass elimination, capture, recruitment, and displacement of different racialized, gendered, and abled bodies in and beyond the U.S. as well as how the capitalist system of value and life under these conditions can and must be undone and reimagined.

Requirements/Evaluation: in-class participation, presentation, weekly posts, paper, and final project (paper, community resource distribution proposal, and creative project options)

Prerequisites: AMST 101, AMST/AAS 125, or similar courses

Enrollment Limit: 12

Enrollment Preferences: AMST and WGSS juniors and seniors, AAS concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 402(D2) WGSS 402(D2) AMST 402(D2)

Writing Skills Notes: In addition to weekly posts, students will engage a longer process of writing and sharing a presentation paper with the class,
give/receive feedback, and submit a revised paper.

**Difference, Power, and Equity Notes:** This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor are valued/devalued over others.

WGSS 408 (S)  Senior Seminar: Nineteenth-Century French Novel: Desperate Housewives and Extreme Makeovers  (DPE)

**Cross-listings:** RLFR 412 / COMP 412

**Secondary Cross-listing**

In 1834, Honoré de Balzac wrote that "Paris is a veritable ocean. Sound it: you will never know its depth." The same can be said of the French nineteenth-century novel and its boundless ability to echo the past and illuminate the present. From the Romanticism of Stendhal and Hugo, and the Realism of Balzac and Flaubert, to the Naturalism of Zola and Maupassant, the novel became a forum for examining illicit sexuality, institutional misogyny, social injustice, criminal passions, revolutionary struggles, and Parisian pleasures in nineteenth-century France. Characters such as the miserable housewife Emma Bovary, the reluctant revolutionary Jean Valjean, the social climber Julien Sorel, the ambitious undergraduate Eugène de Rastignac, and the domestically abused Gervaise Macquart became synonymous with France's turbulent social and political landscape from the 1830s to the 1880s. As recent film adaptations make clear, these desperate housewives and extreme makeovers continue to haunt our twenty-first century present. Reinterpreted by such actors as Gérard Depardieu, Isabelle Huppert, Uma Thurman, Claire Danes, and Jennifer Aniston, the nineteenth-century novel continues to sound out the scandalous and sensational depths of our own century. Readings to include novels by Balzac, Stendhal, Hugo, Flaubert, Maupassant, Zola. Films to include adaptations by Clément, Berri, August, Artea, Lelouch, Chabrol. Conducted in French.

**Requirements/Evaluation:** Active class participation, midterm exam, and two papers.

**Prerequisites:** A 200-level or 300-level RLFR course at Williams, or Advanced coursework during Study Abroad in France or the Francophone World, or permission of the instructor.

**Enrollment Limit:** 16

**Enrollment Preferences:** French Majors and French Certificate students, Comparative Literature Majors, Women's, Gender, & Sexuality Studies Majors.

**Expected Class Size:** 16

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 408(D2) RLFR 412(D1) COMP 412(D1)

**Difference, Power, and Equity Notes:** This course analyzes difference, power, and equity through its examination of gender diversity, institutional misogyny, urban criminality, human sexuality, social injustice, and revolutionary struggle in nineteenth-century France. In class discussions and critical essays on 1830s-1880s France, students will examine and articulate the inequities and injustices between women and men, the privileged and oppressed, the wealthy and working class, and both the rural and urban poor.

SEM Section: 01    TR 11:20 am - 12:35 pm    Brian Martin

WGSS 411 (S)  Psychoanalysis and Its Discontents: The Psyche and the Social  (DPE)

For many decades, psychoanalysis has been profoundly influential to radical thinkers seeking to overthrow regimes of racism, colonialism, heteropatriarchy, capitalism, and ableism. At the same time, psychoanalysis has also been crucial to enforcing those very regimes. Whether mobilized towards liberatory or oppressive ends, it is difficult to overstate psychoanalysis's influence on intellecction, politics, and everyday social existence over the last century—even though we don't always realize it's there. If you bristle at the mention of Freud but think microaggressions are real, content warnings are a good idea, or that sharing about your feelings supports your wellbeing and relationships, your beliefs and values are probably indebted
to psychoanalysis. This class surveys psychoanalytic perspectives on "the social," that is, race, gender, sexuality, capitalism, dis/ability, imperialism, and so on. It also provides an introduction to basic foundations of psychoanalytic thought—especially Freud, object relations theory, and a bit of Lacan—with an emphasis on how the psychoanalytic canon underpins contemporary queer, feminist, and postcolonial theory; ethnic studies; disability studies; and religious studies. Building from foundations, we'll also examine radical psychoanalysis alongside radical critiques of psychoanalysis. Additional topics and bodies of thought include trauma, Afropessimism, sexual difference feminism, antipsychiatry, and schizoanalysis. This class satisfies the WGSS Junior/Senior Seminar major requirement.

Requirements/Evaluation: weekly discussion questions, oral presentations, participation, dream journal, final research project
Prerequisites: Students will benefit from coursework backgrounds in WGSS, AMST, ethnic studies, and/or the humanities broadly.
Enrollment Limit: 19
Enrollment Preferences: WGSS majors, juniors/seniors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Unit Notes: senior seminar
Distributions: (D2) (DPE)

Difference, Power, and Equity Notes: This class examines psychoanalysis's role in shaping difference, power, and equity.

Spring 2025
SEM Section: 01 M 7:00 pm - 9:40 pm Abram J. Lewis

WGSS 413 (F) Feminist Technoscience (DPE)

Cross-listings: STS 413
Secondary Cross-listing

Are Feminism and Science compatible commitments? What do these nouns mean when paired with one another, when capitalized (or not), when pluralized (or not), and when deployed by a range of authors in different disciplines? Scholars of feminist science and technology studies (FSTS) have addressed these questions in their studies of scientific objectivity, technological vulnerability, environmentalism, and the makings (or doings) of race as well as gender. We will explore these questions and topics with a view to identifying the range of ethical, political, and epistemological practices within feminist and critical technoscience. We will read theoretical texts in FSTS, such as Donna Haraway's "Situated Knowledges" and Safiya Umoja Noble's "A future for intersectional black feminist technology studies." We will also read case studies, such as Pat Treusch's "The Art of Failure in Robotics" and Emily Martin's "The Egg and the Sperm: How Science Has Constructed a Romance Based on Stereotypical Male-Female Roles." While our preliminary readings will be set in advance, students will help shape the syllabus as we advance toward a better understanding of feminist technoscience's potentials and limitations at a time when technical change often outpaces careful consideration of its consequences.

Requirements/Evaluation: discussion participation; five response papers (~2 pages); mid-semester essay (8 pages); annotated bibliography; final research project (12-15 page essay + in-class presentation)
Prerequisites: none
Enrollment Limit: 12
Enrollment Preferences: Science and Technology Studies concentrators
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 413(D2) WGSS 413(D2)

Difference, Power, and Equity Notes: Central to "Feminist Technoscience" is a recognition of and engagement with the historical under-privileging of women, women's work, and women's bodies in capital-S "Science" and in a wide range of other technoscientific practices. We will examine and elucidate several branches of feminist theory. We will also examine feminist accounts of contemporary technoscientific work as well as critical STS with a focus on race.

Attributes: STS Senior Seminars

Not offered current academic year
WGSS 414  (S)  Race and Performance  (DPE)  (WS)

Cross-listings:  AAS 414 / AMST 414

Secondary Cross-listing

How does one "do" race? This seminar offers a survey of foundational and emergent scholarship at the nexus of performance studies, critical ethnic studies, and gender and sexuality studies alongside contemporary visual and performance art works. It will explore how the framework of performance destabilizes notions of race, gender, and sexuality as identities that are inherent to us and approaches them as ones we enact, do, and undo. We will begin the course by tracing key concepts in performance studies (i.e., performance, performative, performativity) before examining a range of performances that respond to and negotiate life under the ongoing conditions of racial capitalism, empire, anti-blackness, and settler colonialism. To this end, we will focus on how qualities attributed to racialized and gendered bodies, such as silence, diseased, patience, depression, passivity, and aloofness, are retooled as feminist and queer of color actions or positions.

Requirements/Evaluation:  in-class discussion, weekly posts, class presentation, short written assignments, and final project (with creative option)

Prerequisites:  AMST 101 or WGSS 101/202 and upper level courses in AMST, WGSS, or related fields

Enrollment Limit:  12

Enrollment Preferences:  AMST seniors and juniors; WGSS seniors and juniors; AAS concentrators

Expected Class Size:  12

Grading:  yes pass/fail option,  no fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 414(D2)  AAS 414(D2)  AMST 414(D2)

Writing Skills Notes:  Weekly discussion posts, short writing assignments that will lead to the final assignment, and a self-assessment reflection. Additionally, students will draft and present an object-based analysis paper (incorporating primary and secondary materials), give and receive peer feedback, and submit a final, edited version.

Difference, Power, and Equity Notes:  This course centrally examines the nexus of race, gender, sexuality, class, and ability and explores a bevy of strategies deployed to respond to overlapping structures of power, including racial capitalism, settler colonialism, anti-blackness, and empire.

Attributes:  AAS Capstone  AMST 400-level Senior Seminars  WGSS Theory Courses

Not offered current academic year

WGSS 415  (S)  Breaking the Silence: Women Voices, Empowerment and Equality in the Francophone World  (DPE)

Cross-listings:  COMP 415 / RLFR 415

Secondary Cross-listing

How have Francophone women challenged the historical and current effects of colonialism and gendered racism in France and the Francophone world? How have Francophone women writers challenged the status quo of patriarchy and advocated for change? Beginning with political activist Olympe de Gouges, who published Le droit de la femme et de la citoyenne (1791) challenging gender inequality in France, we will then examine Claire de Duras' portrayal of the intersection between race and gender, Simone de Beauvoir's challenge to traditional femininity and gender roles, and Ananda Devi's intimate portrayal of violence against women in post-colonial societies. Throughout the course, we will use a feminist and intersectional lens to analyze how Francophone women writers have broken the silence then and now.

Requirements/Evaluation:  Three 3-4-page response papers, a final 10-page research paper, presentation and active participation.

Prerequisites:  Any 200-level RLFR course, or by permission of instructor

Enrollment Limit:  18

Enrollment Preferences:  Senior French majors and students completing the certificate in French, but open to advanced students of French; Comparative Literature majors; Women's, Gender and Sexuality Studies majors; and those with compelling justification for admission.

Expected Class Size:  15

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D2)  (DPE)

This course is cross-listed and the prefixes carry the following divisional credit:
Difference, Power, and Equity Notes: In its focus on Race, Gender, and Political Power, this course centers on a critical examination of difference, power, and equity. This course uses a feminist and intersectional lens to analyze how French and Francophone women writers have challenged the historical and current effects of colonialism and gendered racism.

Not offered current academic year

WGSS 418 (S) Racial Melancholia, Queer Melancholia (DPE) (WS)

Cross-listings: AMST 415 / AAS 415

Secondary Cross-listing

The psychoanalytic theory of melancholia--the ways in which one refuses to fully let go of that which one has lost--is a foundational concept to the fields of ethnic studies, queer theory, and cultural studies. In the wake of losses due variously to histories of forced migration and slavery, the AIDS epidemic, war, and social exclusion, various scholars and critics have posited melancholia as a structuring condition of contemporary life as subjects differently navigate loss, displacement, and exclusion. Theories of racial and queer melancholia have emerged as supple frameworks through which to consider how queer and racialized subjects hold onto non-normative ways of being, relation, and sociality against the normalizing tides of erasure. We will chart out a connection between how we relate to and apprehend the past as it then pertains to how we relate to and apprehend others. Beginning with a dive into Freudian psychoanalysis, this seminar will explore concepts of loss and melancholia and their uptake into critical theory, critical race theory, and queer theory/queer of color critique. Alongside our scholarly inquiries, we will engage with a range of art, literature, performance, and film that explore topics of memory, trauma, migration, the queer past and the queer future, subjectivity, relationality, and gender and sexuality.

Requirements/Evaluation: In-class participation, discussion posts, short analysis papers, and a final paper that engages original research and/or creative work.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: AMST, WGSS majors, AAS concentrators or students interested in majoring/concentrating in these areas.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 418(D2) AMST 415(D2) AAS 415(D2)

Writing Skills Notes: Students will produce a number of written assignments that assess their analysis, critique, and interpretation of critical texts and artistic works. This includes regular discussion posts, paper presentations, and a final essay that will receive peer and instructor feedback.

Difference, Power, and Equity Notes: This course engages with a major topic of concern--the theory of melancholia--across a number of fields including ethnic studies, women's, gender, and sexuality studies, and critical theory. In particular, attention is paid to the function of loss, dispossession, and displacement as it affects individuals and communities who are differently marginalized by colonialism, racial capitalism, and heteronormativity.

Attributes: AMST Critical and Cultural Theory Electives

Spring 2025

SEM Section: 01  MR 2:35 pm - 3:50 pm  Ethan Fukuto

WGSS 428 (S) Relationality and Its Antagonisms (DPE) (WS)

Cross-listings: AFR 396 / AMST 428

Secondary Cross-listing

Relationality has been the defining approach, feature, and framework of ethnic studies since its inception in the late 1960s. Since then, notable scholars have applied multiple keywords, including difference, comparison, entanglements, cacophonies, and intimacies, to emphasize how processes of racialization and racial formation are not isolated and separate but inextricably linked and shaped by one another. Only from these distinct, uneven, yet shared positions of oppression, as scholars argue, solidarity across race, gender, class, sexuality, and location may emerge. At its crux, this seminar will underscore major tensions and antagonisms against frameworks of relationality. Tracing primary sources, cultural expressions, and
literature within the traditions of ethnic studies and transnational/women of color feminisms, it will trace the shifts in approaches to relationality, especially as it relates to practices of reciprocity and community-building across difference. At the same time, it will turn to works that name relationality as what Frank B. Wilderson calls a "ruse," or trick, that subsumes the specific, exceptional position of blackness. Our units will include discussions of Afro-Pessimism, indigeneity, racialized settler colonialism as well as queer theory debates on queer presentism (i.e., a queer "no future") versus queer futurity. Studying the tensions that emerge from multiple, distinct, and contradictory planes of power, oppression, and temporalities, how do we assess, work through, and reconcile, if at all, relations deemed as "irreconcilable" across vectors of difference?

**Requirements/Evaluation:** in-class participation, paper presentation, peer feedback, writing webs (short series of writing exercises), and final project developed from original research and/or creative work

**Prerequisites:** AMST 101 or WGSS 101

**Enrollment Limit:** 12

**Enrollment Preferences:** AMST and WGSS seniors and juniors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 396(D2) AMST 428(D2) WGSS 428(D2)

**Writing Skills Notes:** Students will regularly engage in a series of writing exercises and submit a longer paper presentation that will be peer reviewed and revised.

**Difference, Power, and Equity Notes:** The main objective of the course is to study and assess ethnic studies' approaches to questions of difference, particularly as it relates to theories of racialization and relationality across multiple nodes of power and oppression.

WGSS 470  (S)  Latinx Migrations: Stories and Histories  (WS)

**Cross-listings:** LATS 470 / HIST 470

**Secondary Cross-listing**

Latinx migration histories are often told with sweeping data and within broad historical contexts. While these are important, the voices of the people leaving their home countries and coming to the United States can be lost or buried. During the 1970s, the emerging subfield of social history asserted the need to craft histories that took into consideration the everyday lives of everyday people. Oral history emerged a key tool in capturing the personal stories too often missed in historical archives. At the same time, Puerto Rican Studies, Chicano Studies, and later, Latinx Studies emerged to tell the histories of groups too often omitted from or misrepresented in the scholarship. These fields relied on traditions of testimonios or storytelling. This course focuses on Latinx oral histories, autobiographies, memoirs, testimonios, and other first-person narratives to explore how people are impacted by and experience those broad historical contexts, as well as how the decisions they make and the actions they take shape those broad historical contexts. As Latinx Studies is a field that has been at the forefront of exploring intersectionality, we also analyze how attention to first person narratives and lived experiences reveal the complexities of race, ethnicity, gender, sexuality, and class, as well as other visible and invisible markers of difference. Examining first person narratives in the context of specific Latinx groups in particular historical, geographical, and social contexts, we interrogate the methodological and interpretive challenges of working with oral histories and other first-person primary sources. Course topics include the gendered dimensions of migration, geopolitics and stories of exile, and the connections between lived experiences and political activism, particularly the feminist activism of the late 1960s and 1970s-- all while students develop and share their own research topics.

**Requirements/Evaluation:** class participation and presentations, short writing assignments, proposals, annotated bibliography, drafts of research paper, final presentation, and final paper of 15 to 20 pages

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** History majors, WGSS majors, and Latina/o Studies concentrators, seniors

**Expected Class Size:** 15
WGSS 475  (S) Dreaming Latina/x Feminist Disability Studies  (DPE) (WS)

Cross-listings:  LATS 475 / AMST 413

Secondary Cross-listing

In this course we will defy the traditional notion that disabled and queer people of color have no right to future dreams, as we collectively imagine how the emergent field of Latina/x feminist disability studies might take shape. What are the sites of focus, methods, and political commitments of Latina/x feminist disability studies? Where is the power in meaningfully uniting an analysis of disability to one of sexuality and gendered Latinidad? How does a Latina/x-centric approach productively inform our understanding of disability? What is the political potential of Latina/x feminist disability studies -- not exclusively as a set of theories, but also as a mindset and everyday call to action? If we were to collectively compose a manifesto for Latina/x feminist disability studies, what might it contain? How might we actively cultivate a community of care in the classroom as well as other spaces at Williams? Just what might Latina/x feminist disability justice dreams look like? How might Latina/x feminist disability justice dreams feel? Feminist, queer, and disabled crip-of-color scholars have recently called for a more meaningful engagement with race in feminist disability studies.

Simultaneously, we have also witnessed a small but steady growth in the amount of Latinx studies scholarship that thoughtfully integrates questions of disability. This interdisciplinary course responds to these important shifts in its focus on a series of topics bridging Latinx studies, gender studies, queer studies, crip studies, and critical disability studies. These include but are not limited to the body, the environment, temporality, labor, citizenship, dependency, and visibility/invisibility. Through these topics, we will explore the ways in which the different approaches to these specific issues across Latinx, critical disability, crip, queer and gender studies are in fruitful conversation with one another -- and sometimes at odds -- as we actively interrogate the intersections of gender, race, ethnicity, sexuality, and disability within the everyday.

Requirements/Evaluation:  Major assignments for this course include a semester-long independent research paper (15-20 pages) broken up into steps, participation in crafting the class manifesto, a semester-long collaborative artistic exercise, and a final reflection document (3-4 pages).

Prerequisites:  None.

Enrollment Limit:  12

Enrollment Preferences:  Priority given to LATS concentrators by seniority, followed by WGSS and AMST majors by seniority.

Expected Class Size:  12

Grading:  no pass/fail option,  no fifth course option

Materials/Lab Fee:  Lab fee: $200 for art supplies per student

Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 475(D2) LATS 475(D2) AMST 413(D2)

Writing Skills Notes:  We focus on building writing and interdisciplinary research skills, with a particular emphasis on the processes of research, revision, and collaborative writing. The primary research paper (an independent project of 15-20 pages) is divided into stages, and students are required to revise and resubmit their work at various junctures in the research process. The written class manifesto requires students to compose a document together, revising their work as a group over the course of the semester.

Difference, Power, and Equity Notes:  This course privileges an intersectional analysis regarding questions of race, ethnicity, gender, sexuality, and disability. It obligates students to consider how these categories of different actively work in tandem with one another in everyday US Latina/x and transnational (US-Latin America and the Caribbean) contexts. This seminar also underscores how these categories of difference are actually products of a given historical and political moment.

WGSS 11  Becoming an Informed Peer: Taking action on peer prevention, education, and facilitation to build a

In this course, students will gain knowledge on how to support classmates and friends in order to build a stronger community. Students will learn how
to talk with each other about difficult topics, and learn how to educate and work with peers within systemic limitations. Topics we will cover include:
Bystander Intervention, Alcohol and Consent, Active listening, Gatekeeper training for Suicide Prevention, characteristics of Healthy and Unhealthy
relationships, Title IX and the PEACe, Queer relationships, Sex, Sexuality and Contraception, STDs/STIs, Boundaries, making referrals, and Self
Care, Facilitation skills and Event planning.
Requirements/Evaluation:  Presentation(s)
Prerequisites:  None
Enrollment Limit: 30
Enrollment Preferences: Students already in leadership positions or part of public health organizations will be given priority.

Expected Class Size: NA
Grading:

Unit Notes: Laini is the Assistant Director for Health Educator at Williams College, focusing on substance use education and counseling, mental health awareness, sexuality education, and sleep. She has been at the college since 1997.

WGSS 13 Women, Sex, and Gender at Work
The average college-educated woman starts out earning close to what her male peers do, but over a lifetime, the pay gap widens. At the CEO level, women have only recently started to outnumber men named John. Whether it's overt discrimination or more subtle forms of bias, sex and gender continue to play a large role in the workplace. In this course, we will examine concepts like pay inequality, sexual harassment, transgender and gender stereotype discrimination, and the intersection of family and career. Case studies will include the U.S. Women's Soccer team pay disparity case and Harvey Weinstein's sexual misconduct in the film industry. We will also discuss practical career advice, such as finding a profession that's a good fit for you, advocating for yourself at work, and navigating a male-dominated industry. The class will engage with a variety of sources, including films, podcasts, and case law, and students will analyze an issue of their choosing for their final research paper.

Requirements/Evaluation: Paper(s) or report(s)
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: If overenrolled, preference will be given to Juniors and Seniors.

Expected Class Size: NA
Grading:

Unit Notes: Samantha W. Soto is a civil rights and employment attorney whose practice includes conducting workplace investigations into discrimination and harassment claims. She graduated from Williams and Columbia Law School, and was an attorney for the EEOC.

WGSS 17 (W) When Drag Kings Sang the Blues: The Surprisingly Queer History of America's First Pop Stars
Some of the most famous American musical artists of the early twentieth century were not only "in the life" - meaning gay, bisexual, or transgender - but they sang about this life too. The most courageous of these artists? Women - queer white women and queer women of color who flouted sexual and gender norms, some to the point that we might now call them trans or non-binary. This course introduces students to a little-known yet revolutionary moment in music history when pioneering musical stars sang boldly about sexual and gender fluidity, and when women's voices literally took center stage. Each week our sessions will be anchored with a particular artist whose life and music will lead us thematically to so much more. We'll start in vaudeville with the male impersonators (America's first drag kings), move on to the early blues and come home with the Jazz Age. Class materials will include videos, sheet music, drag memorabilia, recordings, memoirs and more. We'll listen to music from various genres, explore the power of lyrics and language, learn the unsung history of modern-day drag, dive into the stories behind the songs, and discover how queer performers were pivotal to the launching of the modern music industry. Students will be encouraged to explore the gifts and powers of their own voices too. Throughout we'll uncover what queer music history - and queer female artists - have to tell us about masculinity, femininity, gender fluidity, cross-dressing, homosexuality, love, race, religion and... fun. Students will be expected to keep a journal of ideas and reflection and do outside reading. For a final project students will write a 10-page paper, give a 10-minute in-class presentation, or complete a comparable creative project inspired by the music/artists learned.

Requirements/Evaluation: Paper(s) or report(s); Presentation(s); Performance(s); Creative project(s)
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Statement of interest
Expected Class Size: NA
Grading: pass/fail only

Unit Notes: Sarah S. Kilborne is an award-winning author, performance artist and LGBTQ+ activist. Her one-woman show "The Lavender Blues: A Showcase of Queer Music Before World War II" is being developed into both a book and a musical.

Not offered current academic year

WGSS 99 (W) Independent Study: Women's and Gender Studies
Open to upperclass students. Students interested in doing an independent project (99) during Winter Study must make prior arrangements with a faculty sponsor. The student and professor then complete the independent study proposal form available online. The deadline is typically in late September. Proposals are reviewed by the pertinent department and the Winter Study Committee. Students will be notified if their proposal is approved prior to the Winter Study registration period.
Class Format: independent study
Grading: pass/fail only

Not offered current academic year
**WRITING SKILLS (WS)**

The Writing Skills (WS) requirement is to improve student writing proficiency across disciplines. Students in these courses will receive guidance on structure, style, argumentation, and other significant aspects of writing throughout the semester. This may be achieved through brief assignments spaced over the semester, sequenced assignments leading to a longer final paper, etc. WS courses may also include multiple drafts, peer review, conferences or class discussions designed to improve writing skills. (A course with a single long paper due at the end of the semester, but with no required or structured means of addressing writing issues, would not be considered a writing skills course.)

The primary function of the WS designation is to indicate that the course will provide consistent and ongoing feedback on students’ writing. Thus, the amount of writing should be substantial and well spaced, followed by timely evaluation and suggestions for improvement. Specifically, a WS course should require multiple assignments, each returned with comments which address writing problems and strategies, as appropriate. Because WS course instructors must pay attention to students’ writing skills as well as to their mastery of the content of the course, WS courses have a maximum enrollment of 19.

All students are required to take TWO WS courses: one by the end of sophomore year and one by the end of junior year. Students will benefit most from WS courses by taking them early in their college careers and are strongly encouraged to complete the requirement by the end of sophomore year.

**AAS 252 (F) Im/mobilities** (DPE) (WS)

**Cross-listings:** AMST 252 / SOC 252

**Secondary Cross-listing**

We think of the freedom to move as a mark of privilege. In the United States, passing a driving test, owning a car, and getting a passport are milestones that signal modernity and freedom. Likewise, we think of restrictions on movement as the domain of the underprivileged, such as the current and formerly incarcerated. But as the Covid-19 pandemic revealed, there have always been two sides to immobility: privileged as well as involuntary immobility. There are correspondingly two sides to mobility: those who move because they want to and others because they have no choice. In this class, students will explore conceptions of mobility as adventurous, free, and modern (as with jet-setting international elites). They will compare and contrast when mobility can be threatening, exclusionary, and limited (as recognized by the Black Lives Matter movement). This class invites students to interpret their environment through the lens of mobility and inequality. Drawing on sociology, anthropology, cultural studies, geography, and migration studies, this interdisciplinary course offers a beginning conversation on the causes and consequences of the freedom to move—or to stay still.

**Requirements/Evaluation:** Thoughtful and consistent class participation, several short reflection papers, two drafts of an opinion essay, class presentation

**Prerequisites:** None

**Enrollment Limit:** 15

**Enrollment Preferences:** Given to first-year students and sophomores, particularly those who have demonstrated an interest in AAS/SOC. If the course overenrolls, the instructor will send out a Google Form to make enrollment decisions.

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 252(D2) AAS 252(D2) SOC 252(D2)

**Writing Skills Notes:** Emphasis on the processes of writing and revising, several short papers on which students will receive close feedback, and drafts of a final written assessment

**Difference, Power, and Equity Notes:** This course explores a politics of im/mobilities: how we move through space through different bodies at the intersection of race, class, gender, ability, and citizenship. Students will use their own bodies as research sites for deepening their understanding of how we navigate the freedom to move or stay still.

Fall 2024

SEM Section: 01    MR 2:35 pm - 3:50 pm    Phi H. Su
AAS 304 (F) Queer in Asian America (DPE) (WS)

Cross-listings: WGSS 306 / AMST 304

Secondary Cross-listing

Asian America has always been queer. This is both to say that, since the first waves of Asian immigrants to the Americas, there have always been queer individuals counted among them, and that the Asian American subject has historically figured as "queer" and "different" within the Western cultural, social, and economic landscape. How does queerness resonate, redound, or otherwise modulate the idea and experience of Asian Americanness? What are the textures and contours of this queerness? Does it have an aesthetic and literary dimension? This course surveys a range of scholarship and literature by queer and feminist Asian Americans that explore the interpenetrations of race, gender, and sexuality in the construction of Asian America and Asian American identity. Particular focus is paid to how Asian American artists and writers actualize queer subjectivity, relation, and intimacy across experiments in narrative, form, and media. The class will move between foundational scholarship at the intersections of Asian American studies, queer studies, and gender and sexuality studies alongside key works of art and literature. Potential artists and writers include Ocean Vuong, Justin Chin, Larissa Lai, Monique Truong, Alok Vaid-Menon, TT Takemoto, Jes Fan, and Leonard Suryajaya. Students will also have the opportunity to contribute their own selection of art and literature to the class conversation.

Requirements/Evaluation: In-class participation, two critical response papers, discussion posts, creative or scholarly written final assignment

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: AMST and WGSS majors, AAS concentrators, or students interested in majoring/concentrating in these areas.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AAS 304(D2) WGSS 306(D2) AMST 304(D2)

Writing Skills Notes: Students will write two, 3-4 page critical response papers: one will focus on analyzing, critiquing, and synthesizing scholarly texts to advance an original argument on course topics and another will focus on analyzing a literary or artistic work of the student's choosing. The final consists of a longer paper of scholarly or creative writing that engages course topics. Assignments will emphasize close reading skills and will be receive written feedback from the instructor.

Difference, Power, and Equity Notes: This course examines gender and sexuality in Asian American racial formation and identity through the work of queer Asian American art, scholarship, and literature. Students will thus focus on how queerness/queer identity is constructed, embodied, and differently experienced in Asian America in dialogue with histories of immigration, Orientalism, assimilation, and exclusion.

AAS 402 (F) Marxist Feminisms: Race, Performance, Labor (DPE) (WS)

Cross-listings: WGSS 402 / AMST 402

Secondary Cross-listing

This seminar provides an overview of queer, black and women of color feminist, decolonial, and critical ethnic studies critiques of orthodox Marxism. Beginning with core texts from the tradition, including Capital Volume I, we will examine a range of social positions and modes of extraction that complicate Marx's emphasis on the white male industrial factory worker. Every week, we will focus on texts that foreground conditions of reproduction, racial slavery, care and domestic work, indentured servitude, immigrant labor, land expropriation, and sex work among others. Throughout the seminar and specifically at the close of it, we will turn to critical perspectives and aesthetic practices that not only respond to these conditions but also incite new social relations and ways of being in the world. As such, this seminar will equip students with critical understandings of how racial capitalism has fundamentally relied on the mass elimination, capture, recruitment, and displacement of different racialized, gendered, and abled bodies in and beyond the U.S. as well as how the capitalist system of value and life under these conditions can and must be undone and reimagined.

Requirements/Evaluation: in-class participation, presentation, weekly posts, paper, and final project (paper, community resource distribution proposal, and creative project options)
Prerequisites: AMST 101, AMST/AAS 125, or similar courses

Enrollment Limit: 12

Enrollment Preferences: AMST and WGSS juniors and seniors, AAS concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 402(D2) WGSS 402(D2) AMST 402(D2)

Writing Skills Notes: In addition to weekly posts, students will engage in a longer process of writing and sharing a presentation paper with the class, give/receive feedback, and submit a revised paper.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor are valued/devalued over others.

AAS 415 (S) Racial Melancholia, Queer Melancholia (DPE) (WS)

Cross-listings: WGSS 418 / AMST 415

Secondary Cross-listing

The psychoanalytic theory of melancholia—the ways in which one refuses to fully let go of that which one has lost—is a foundational concept to the fields of ethnic studies, queer theory, and cultural studies. In the wake of losses due to forced migration and slavery, the AIDS epidemic, war, and social exclusion, various scholars and critics have posited melancholia as a structuring condition of contemporary life as subjects differently navigate loss, displacement, and exclusion. Theories of racial and queer melancholia have emerged as supple frameworks through which to consider how queer and racialized subjects hold onto non-normative ways of being, relation, and sociality against the normalizing tides of erasure. We will chart out a connection between how we relate to and apprehend the past as it then pertains to how we relate to and apprehend others. Beginning with a dive into Freudian psychoanalysis, this seminar will explore concepts of loss and melancholia and their uptake into critical theory, critical race theory, and queer theory/queer of color critique. Alongside our scholarly inquiries, we will engage with a range of art, literature, performance, and film that explore topics of memory, trauma, migration, the queer past and the queer future, subjectivity, relationality, and gender and sexuality.

Requirements/Evaluation: In-class participation, discussion posts, short analysis papers, and a final paper that engages original research and/or creative work.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: AMST, WGSS majors, AAS concentrators or students interested in majoring/concentrating in these areas.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 418(D2) AMST 415(D2) AAS 415(D2)

Writing Skills Notes: Students will produce a number of written assignments that assess their analysis, critique, and interpretation of critical texts and artistic works. This includes regular discussion posts, paper presentations, and a final essay that will receive peer and instructor feedback.

Difference, Power, and Equity Notes: This course engages with a major topic of concern—the theory of melancholia—across a number of fields including ethnic studies, women's, gender, and sexuality studies, and critical theory. In particular, attention is paid to the function of loss, dispossession, and displacement as it affects individuals and communities who are differently marginalized by colonialism, racial capitalism, and heteronormativity.
In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal's racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

**Requirements/Evaluation:** Weekly formal response papers and written critiques.

**Prerequisites:** None.

**Enrollment Limit:** 10

**Enrollment Preferences:** First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 159(D2) AFR 159(D2)

**Writing Skills Notes:** Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

**Difference, Power, and Equity Notes:** Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

**Attributes:** HIST Group F Electives - U.S. + Canada
media archaeological approach to examine the precise material conditions that first gave rise to graffiti art, deejaying, rapping, and breakdancing, and to analyze hip hop songs, videos, and films. Media archaeology is a critical and artistic practice that seeks to interpret the layers of significance embedded in cultural artifacts. How does hip hop archaeology remix the past, the present, and the future? How do the historical, political, and cultural coding of hip hop artifacts change as they increasingly become part of institutional collections, from newly established hip hop archives at Cornell and Harvard to the Smithsonian National Museum of African American History and Culture?

Requirements/Evaluation: Four papers, project with presentation, and a final exam.
Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: AMST majors or prospective majors

AFR 260 (F) 1930s Black Literature (WS)

Cross-listings: ENGL 238

Secondary Cross-listing
This course explores Black literary output of the 1930s in all its forms with the belief that this often under-appreciated decade contains many of the impulses that would come to structure the literary landscape in the decades that follow. These include an unflinching embrace of humor and satire, engagements with social realism, and a keen attention to notions of the radical in the international context. Special attention will be paid to how the writing pushes away from the development of what we have come to understand as the Harlem Renaissance of the 1920s. Work to be considered throughout the term comes from, among others, Marita Bonner, Arna Bontemps, Sterling Brown, Langston Hughes, Zora Neal Hurston, George Schuyler, Dorothy West, Richard Wright, and Octavia Wynbush.

Requirements/Evaluation: weekly reading responses, active class participation, two close readings (500 words each), annotated bibliography, class presentation, final paper (8-10 pages)
Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam
Enrollment Limit: 19

AFR 328  (F) Poetry of Indignation: Poetics and Transnational Liberation  (DPE) (WS)

Cross-listings: COMP 335 / ARAB 320

Secondary Cross-listing

Poetry is usually associated with beautiful, metered, and charged language. However, beyond its poeticity, poetry has also functioned as a tool of liberation and transnational construction of identities and solidarities. States have national poets, and, in many countries, national anthems were written by famous poets. From Abu al-Qasim al-Shabbi and Claude McKay to Pablo Neruda, poetry has acted as a space for life, rebellion, resistance, revolution, and the defense of a common humanity that transcends the barriers of language and national aesthetics. This course draws on a variety of materials from the Caribbean to Africa and from the Middle East to India to conceptualize a "poetics of indignation" against slavery, social injustice, colonization, authoritarianism, capitalism, and globalization. The students in this course will read poets, such as Okot p'Bitek, Derek Walcott, Tsitsi Jaji, Mahmoud Darwish, and Pablo Neruda, among many other poets, to examine how poetics changed and shifted across times and geographic boundaries while retaining a commitment to indignation, rebellion, and anger at almost the same recurring oppressive forces.

Requirements/Evaluation: Two 5pp. midterm papers; a 1000-word reflection statement; weekly GLOW posts; one 10-minute presentation; active participation in the discussions in class.

Prerequisites: None

Enrollment Limit: 14

Enrollment Preferences: If the class is overenrolled, the students will submit a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.

Expected Class Size: 14

Grading: no pass/fail option,  no fifth course option

Distributions: (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 328(D2)  COMP 335(D1)  ARAB 320(D1)

Writing Skills Notes: The students in this course will receive intensive feedback on their writing. This includes writing two 5pp. papers as well as a 10pp. final paper. The students will submit weekly GLOW posts and a final reflection statement.

Difference, Power, and Equity Notes: The students will understand that poetry is a field in which power dynamics and imbalances of access to resources are reflected. They will also pay attention to who writes what and who publishes where in order to understand the imbrication of inequality within the institutions that produce, disseminate, and reward poets.

AFR 367  (S) Black History is Labor History  (DPE) (WS)

Cross-listings: HIST 367

Secondary Cross-listing

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antunionism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery
and capitalism, among other themes.

Requirements/Evaluation: Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

Prerequisites: Recommended for students with sophomore standing or above and first-year students who both have taken a 200-level history course and have received instructor permission to enroll into the course.

Enrollment Limit: 25

Enrollment Preferences: HIST and AFR majors followed by students with sophomore, junior, or senior standing. If the course is overenrolled, students will be given a questionnaire and only first-year students who have completed a 200-level history course will be enrolled.

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 367(D2) AFR 367(D2)

Writing Skills Notes: Students will be required to write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages). Throughout the semester, these writing assignments will total roughly 22-30 pages. Students can expect to have line-edited feedback on their papers with substantial and timely, writing-related suggestions for improvement.

Difference, Power, and Equity Notes: This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

AFR 374 (S) Technologies of Race (DPE) (WS)

Cross-listings: AMST 372 / STS 373

Secondary Cross-listing

This course is an introduction to theories, methods, sources, and approaches for interdisciplinary research and creativity in and through the interdisciplinary field of American Studies. We will focus on the intersection of race, gender, sexuality, and disability with modern media technologies, from early photography in the mid-19th century to contemporary trends in machine learning and artificial intelligence. Through a process of shared inquiry, course participants will investigate the ways that historical legacies of oppression and futuristic speculation combine to shape human lives in the present under racial capitalism. Whether analyses of the automation of militarized border control in Texas, or of the ways that obsolete, racist concepts are embedded in machine vision and surveillance systems, the readings in the course will chart out the key moments in the co-evolution of race and technology in the Americas. Students will gain a working competence in all four tracks of the American Studies major (Space and Place; Comparative Studies in Race, Ethnicity, and Diaspora; Arts in Context; and Critical and Cultural Theory). Finally, we will also explore alternative paths toward a future where technology might help to effect the abolition of oppressive structures and systems, rather than continue to perpetuate them.

Requirements/Evaluation: Four papers, in-class writing/reflective work, and a final exam.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: AMST majors or prospective majors.

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

**AFR 396 (S) Relationality and Its Antagonisms (DPE) (WS)**

**Cross-listings:** AMST 428 / WGSS 428

**Secondary Cross-listing**

Relationality has been the defining approach, feature, and framework of ethnic studies since its inception in the late 1960s. Since then, notable scholars have applied multiple keywords, including difference, comparison, entanglements, cacophonies, and intimacies, to emphasize how processes of racialization and racial formation are not isolated and separate but inextricably linked and shaped by one another. Only from these distinct, uneven, yet shared positions of oppression, as scholars argue, solidarity across race, gender, class, sexuality, and location may emerge. At its crux, this seminar will underscore major tensions and antagonisms against frameworks of relationality. Tracing primary sources, cultural expressions, and literature within the traditions of ethnic studies and transnational/women of color feminisms, it will trace the shifts in approaches to relationality, especially as it relates to practices of reciprocity and community-building across difference. At the same time, it will turn to works that name relationality as what Frank B. Wilderson calls a “ruse,” or trick, that subsumes the specific, exceptional position of blackness. Our units will include discussions of Afro-Pessimism, indigeneity, racialized settler colonialism as well as queer theory debates on queer presentism (i.e., a queer “no future”) versus queer futurity. Studying the tensions that emerge from multiple, distinct, and contradictory planes of power, oppression, and temporalities, how do we assess, work through, and reconcile, if at all, relations deemed as “irreconcilable” across vectors of difference?

**Requirements/Evaluation:** in-class participation, paper presentation, peer feedback, writing webs (short series of writing exercises), and final project developed from original research and/or creative work

**Prerequisites:** AMST 101 or WGSS 101

**Enrollment Limit:** 12

**Enrollment Preferences:** AMST and WGSS seniors and juniors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
AFR 396(D2) AMST 428(D2) WGSS 428(D2)

**Writing Skills Notes:** Students will regularly engage in a series of writing exercises and submit a longer paper presentation that will be peer reviewed and revised.

**Difference, Power, and Equity Notes:** The main objective of the course is to study and assess ethnic studies' approaches to questions of difference, particularly as it relates to theories of racialization and relationality across multiple nodes of power and oppression.

AMST 101  (F)(S)  America: The Nation and Its Discontents  (DPE) (WS)

This course introduces students to the capacious and extraordinarily varied interdisciplinary field of American Studies. First institutionalized in the mid-twentieth century, American Studies once bridged literature and history in an attempt to discover a singular American identity. Over 80 years later, many American Studies scholars reject this exceptionalizing rhetoric, working instead to understand how genocide, enslavement, colonization, and militarism/war are foundational to the formation of the U.S. nation-state, and how marginalized and minoritized peoples have survived through, rebelled against, and created new visions for collectivity, relationality, and community. In this course, students will be introduced to the dynamic ways American Studies work links to ethnic studies; women, gender, and sexuality studies; literary studies, political science; critical geography; critical media studies; disability studies; history; anthropology; sociology; art; and more. We will anchor this array of approaches by examining beliefs, practices, places, and migrations that have shaped and been shaped by the U.S., and we will pay particular attention to the people who labor for, have been racialized by, and who think critically about "America." Through close reading; discussions; and analyses of music, art, and film, we will collectively reckon with the questions of who and what makes "America" -- hemispherically, transnationally, globally. In the process, students will be encouraged to co-create a learning experience rooted in praxis, political consciousness, intersectionality, and mutual support.

Requirements/Evaluation: Four 4-5 page papers (with attention to revision process), one project with oral presentation, and a longer, final essay.

Prerequisites: none

Enrollment Limit: 20

Enrollment Preferences: first- and second-year students

Expected Class Size: 20

Grading: no pass/fail option, yes fifth course option

Unit Notes: Core Course

Distributions: (D2)  (DPE) (WS)

Writing Skills Notes: This Writing Skills course will include multiple papers, with attention to revision, as well as an oral presentation, and a longer, final essay. Attention will be paid to the process of composing a persuasive, interpretive essay based in close analysis of texts.

Difference, Power, and Equity Notes: This course requires students to think critically about the meanings of "America" and about the consequences and costs of racialization and other processes for making social differences. Students learn to discern the ways in which historical legacies of oppression continue in the present, and consider the mutual interrelation of local, national, and global contexts and events.

AMST 113  (F)  The Feminist Poetry Movement  (DPE) (WS)

Cross-listings: ENGL 113 / WGSS 113

Secondary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.

Class Format: discussion, some lecture, project work in archives and art gallery

Requirements/Evaluation: two-three short analysis papers, creative (1-2 pages), curated final project (archival exhibit and digital project),
presentations

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first years

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 113(D2) ENGL 113(D1) WGSS 113(D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: two to three four-to-five-page graded papers, one creative assignment, and a final digital research project (8-10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

**AMST 164 (F) Communications in Early America** (DPE) (WS)

**Cross-listings:** HIST 163

**Secondary Cross-listing**

How did the multiplicity of people who shaped "early" North America communicate with each other, across profound linguistic, cultural, social, political, and spiritual differences? What strategies did they use to forge meaning and connections in times of tremendous transformation, while maintaining vital continuities with what came before? This course examines histories of communication in North America and the technologies that communities have developed to record, remember, advocate, persuade, resist, and express expectations for the future. Using a continental and transoceanic lens of "Vast Early America," we will take up Indigenous oral traditions, Traditional Ecological Knowledge, wampum belts, and winter counts as expressions of ethics, identity, relationality, and diplomacy among sovereign Native/Indigenous nations. We will reflect on artistic and natural science paintings, engravings, and visual culture that circulated widely; and diaries and journals as forms of personal as well as collective memory. We will work with political orations, newspapers, pamphlets, and other forms of print culture that galvanized public opinion in the Age of Atlantic Revolutions; memorials and monuments that communities have created to honor ancestors and significant events; material culture such as baskets and weavings that signified through their imagery and physical forms; and social critique and visions of justice in the verse and prose of Phillis Wheatley Peters and William Apess. These materials take us into the complexities of individuals' and communities' interactions and relations of power. They also illuminate spaces of potential or realized solidarity, alliance, and co-building of new worlds. Throughout we will work together to understand different methodologies, theories, practices, and ethics involved in approaching the past. We will at every turn be attuned to the ongoing significances of these experiences among communities in the twenty-first century.

**Requirements/Evaluation:** active participation in class discussions, several short essays based on readings and discussion topics, museum/archives exercise, final essay/project

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** limited to first- and second-year students who have not yet taken a 100-level course in History or American Studies; juniors and seniors only with the permission of the instructor

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 164(D2) HIST 163(D2)

Writing Skills Notes: Short essays (3-5 pages) spaced throughout the semester with instructor feedback on writing skills as well as historical content; written reflection and analysis related to museum/archives visit with original materials; final essay (8-10 pages) due at end of semester that synthesizes findings from across the whole semester and allows students to closely examine primary/secondary sources; regular opportunities to conference with instructor about writing ideas and drafts.

Difference, Power, and Equity Notes: This course centers experiences of diverse people in early America including substantial focus on Native American/Indigenous and African American communities. It introduces foundational methods for historical and interdisciplinary study, including decolonizing methodologies from Native American and Indigenous Studies (NAIS) and African American histories; critical vantages on Euro-American settler colonialism; and scholarship on complex entanglements in multiracial and multiethnic communities

AMST 218  (S) Black and Brown Jacobins  (DPE) (WS)

What does it take to be free in the free world? In this class we explore the dark side of democracy. The title is inspired by C.L.R. James' famous book, Black Jacobins, about the Haitian Revolution (1791-1804). This revolution was the most successful revolt of the enslaved in recorded history. But the irony is that their oppressors were the leaders of the French Revolution across the Atlantic. Those who proclaimed "liberty, equality, fraternity" for themselves violently denied them to others. There is a similar dismal irony to the American Revolution, as captured by the title of Frederick Douglass' famous 1852 speech, "What to the Slave Is the Fourth of July?" Not even the Civil War could resolve this issue, as demonstrated by the failure of Reconstruction and the rise of Jim Crow. To revisit this history, we will read W.E.B. Du Bois' great book, Black Reconstruction in America. Alongside a selection of readings by canonical postcolonial writers and current political theorists, James and Du Bois provoke us to ask what it would take for the democratic world to be truly free.

Requirements/Evaluation: Mandatory in-class free writing, three five-page position papers, and three mandatory in-class debates

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: AMST majors or prospective majors, then sophomores

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: "Black and Brown Jacobins" is a writing-intensive course focused on persuasive argumentation. Each day in class will begin with 5-10 minutes of free writing in response to a prompt. At the end of each unit, students must complete a position paper (three in total). These papers will be accompanied by in-class debates in which students will be asked to argue both sides of the prompt they have been given.

Difference, Power, and Equity Notes: "Black and Brown Jacobins" calls into question the success of modern democracy from the perspective of minoritized groups, in particular Black Americans and Afro-Caribbeans. Students will grapple with the legacy of enslavement in the Americas, the Haitian Revolution (1791-1804), the American Civil War and Reconstruction (1861-1877), Jim Crow, and our current era of mass incarceration. The question driving this course is, what does it take to be free in the free world?

AMST 222  (S) Hip Hop Culture  (DPE) (WS)

Cross-listings: ENGL 221 / AFR 222 / MUS 217
The course examines how young people of color created hip hop culture in the postindustrial ruins of New York City, a movement that would eventually grow into a global cultural industry. Hip hop music producers have long practiced "diggin' in the crates"—a phrase that denotes searching through record collections to find material to sample. In this course, we will examine the material and technological history of hip hop culture, with particular attention to hip hop's tendency to sample, remix, mash-up, and repurpose existing media artifacts to create new works or art. We will use a media archaeological approach to examine the precise material conditions that first gave rise to graffiti art, deejaying, rapping, and breakdancing, and to analyze hip hop songs, videos, and films. Media archaeology is a critical and artistic practice that seeks to interpret the layers of significance embedded in cultural artifacts. How does hip hop archaeology remix the past, the present, and the future? How do the historical, political, and cultural coding of hip hop artifacts change as they increasingly become part of institutional collections, from newly established hip hop archives at Cornell and Harvard to the Smithsonian National Museum of African American History and Culture?

Requirements/Evaluation: Four papers, project with presentation, and a final exam.
Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: AMST majors or prospective majors
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 222(D2) ENGL 221(D1) AFR 222(D2) MUS 217(D1)

Writing Skills Notes: Students in this course develop a capacity to write generative arguments in an interdisciplinary scholarly context. Students will receive feedback not only on structure, substance, and style, but also on how to best build a line of inquiry, how to gather high-quality evidence, and how to make one's thinking productively intersect with more than one scholarly or creative field.

Difference, Power, and Equity Notes: This course requires students to use an effective descriptive and critical vocabulary to discuss and analyze artifacts of hip hop culture, with attention to race, gender, class, sexuality, and other categories of social difference. They must understand the material, technological, historical, and cultural contexts that gave rise to hip hop culture, and proficiently synthesize scholarly perspectives related to the formation and transformations of hip hop from the early 70s to the early 21st cent.

AMST 252 (F) Im/mobilities (DPE) (WS)

Cross-listings: AAS 252 / SOC 252

Secondary Cross-listing

We think of the freedom to move as a mark of privilege. In the United States, passing a driving test, owning a car, and getting a passport are milestones that signal modernity and freedom. Likewise, we think of restrictions on movement as the domain of the underprivileged, such as the current and formerly incarcerated. But as the Covid-19 pandemic revealed, there have always been two sides to immobility: privileged as well as involuntary immobility. There are correspondingly two sides to mobility: those who move because they want to and others because they have no choice. In this class, students will explore conceptions of mobility as adventurous, free, and modern (as with jet-setting international elites). They will compare and contrast when mobility can be threatening, exclusionary, and limited (as recognized by the Black Lives Matter movement). This class invites students to interpret their environment through the lens of mobility and inequality. Drawing on sociology, anthropology, cultural studies, geography, and migration studies, this interdisciplinary course offers a beginning conversation on the causes and consequences of the freedom to move--or to stay still.

Requirements/Evaluation: Thoughtful and consistent class participation, several short reflection papers, two drafts of an opinion essay, class presentation
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: Given to first-year students and sophomores, particularly those who have demonstrated an interest in AAS/SOC. If the course overenrolls, the instructor will send out a Google Form to make enrollment decisions.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 252(D2) AAS 252(D2) SOC 252(D2)

Writing Skills Notes: Emphasis on the processes of writing and revising, several short papers on which students will receive close feedback, and drafts of a final written assessment

Difference, Power, and Equity Notes: This course explores a politics of im/mobilities: how we move through space through different bodies at the intersection of race, class, gender, ability, and citizenship. Students will use their own bodies as research sites for deepening their understanding of how we navigate the freedom to move or stay still.

Fall 2024
SEM Section: 01 MR 2:35 pm - 3:50 pm Phi H. Su

AMST 258 (F) Transatlantic Political Theory (DPE) (WS)
Political theory tends to look towards Europe for inspiration. This course suggests an alternative. It traces how theory crisscrosses the Atlantic Ocean to and from Europe, Africa, and the Americas. We will begin with Alexis de Tocqueville's 1840 classic, Democracy in America, which is a snapshot of antebellum America from the perspective of a French aristocrat. Then we will flip things around and view Europe from America. During the Cold War, American political theorists, including European émigrés, were preoccupied by the threat of totalitarianism. We will read the definitive text on this subject, Hannah Arendt's The Origins of Totalitarianism, paying special attention to the link she makes between totalitarianism and imperialism. In the final section of this course, we will read Richard Wright's reports on Europe and Africa during the decolonization era, and conclude with a reading of Cedric Robinson's classic, Black Marxism. Together, these texts emphasize the importance of an African perspective on modern politics. Assignments in this reading- and writing-intensive course consist of reading quizzes, term papers, and in-class debates.

Requirements/Evaluation: Students should expect to read 50-60 pages per class on average. Graded assignments will include daily reading quizzes, three five-page term papers, three in-class debates, and one three-page book report.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Enrollment preference will go first to AMST majors, then sophomores.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Assignments include daily writing activities (short-answer reading quizzes), a 2-3-page book report, and three term papers. In preparation for writing each term paper, students will participate in an in-class debate about the prompt. These debates are an opportunity for students to test and refine their arguments before writing their papers.

Difference, Power, and Equity Notes: This class interrogates the implicit Eurocentrism of political theory by (1) arguing that the development of modern Europe cannot be understood without considering the role of imperialism and (2) showing that modern political and social theory needs to be informed by an African perspective as well.

Attributes: AMST Critical and Cultural Theory Electives

Fall 2024
SEM Section: 01 MWF 11:00 am - 12:15 pm William Samuel Stahl

AMST 261 (S) America Inside Out (DPE) (WS)
Why does the land of the free put so many people in prison? The United States of America has more prisoners than any other country in the world and one of the highest rates of incarceration. During the Cold War, prison writings such as Aleksandr Solzhenitsyn's The Gulag Archipelago were held up
as the truest literature to escape the USSR. But could the same be true of the USA? Martin Luther King, Jr. is remembered as a prophet and peacemaker who spoke to America's soul. But in his own lifetime, he was famous for being a political prisoner locked in a Birmingham jail. What does it say about America when advocates of freedom and democracy end up behind bars? To be sure, there are people in prison who have committed crimes we would all consider heinous. But the plurality are non-violent offenders serving time on drug-related charges. This crackdown has continued regardless of rates of drug use and disproportionately targets poor people of color. In this class, we will explore the origins of the carceral state, starting with Discipline and Punish by Michel Foucault. From there, we will read the writings of US prisoners, such as Angela Davis and George Jackson, in comparison with literature from that other vast prison empire, the USSR. We will conclude by confronting the War on Drugs with Michelle Alexander's The New Jim Crow.

Requirements/Evaluation: Assignments include a daily free writing activity (graded on participation), two curated media "playlists," one 2-3-page book report, and three five-page term papers.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Enrollment preference goes to AMST majors, then sophomores

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Class assignments include a daily free writing activity, a 2-3-page book report, three term papers, and two curated and annotated media "playlists." Students will be encouraged to develop an ongoing, reflective writing practice in response to the readings.

Difference, Power, and Equity Notes: This class is focused on the US prison system, which disproportionately incarcerates poor people of color. We will trace the roots of this policy outcome from the failure of Reconstruction and the rise of Jim Crow to the War on Drugs and the current regime of mass incarceration.

SEM Section: 01 TR 8:30 am - 9:45 am William Samuel Stahl

AMST 304 (F) Queer in Asian America (DPE) (WS)

Cross-listings: AAS 304 / WGSS 306

Primary Cross-listing

Asian America has always been queer. This is both to say that, since the first waves of Asian immigrants to the Americas, there have always been queer individuals counted among them, and that the Asian American subject has historically figured as "queer" and "different" within the Western cultural, social, and economic landscape. How does queerness resonate, rebound, or otherwise modulate the idea and experience of Asian Americanness? What are the textures and contours of this queerness? Does it have an aesthetic and literary dimension? This course surveys a range of scholarship and literature by queer and feminist Asian Americans that explore the interpenetrations of race, gender, and sexuality in the construction of Asian America and Asian American identity. Particular focus is paid to how Asian American artists and writers actualize queer subjectivity, relation, and intimacy across experiments in narrative, form, and media. The class will move between foundational scholarship at the intersections of Asian American studies, queer studies, and gender and sexuality studies alongside key works of art and literature. Potential artists and writers include Ocean Vuong, Justin Chin, Larissa Lai, Monique Truong, Alok Vaid-Menon, TT Takemoto, Jes Fan, and Leonard Suryajaya. Students will also have the opportunity to contribute their own selection of art and literature to the class conversation.

Requirements/Evaluation: In-class participation, two critical response papers, discussion posts, creative or scholarly written final assignment

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: AMST and WGSS majors, AAS concentrators, or students interested in majoring/concentrating in these areas.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: Students will write two, 3-4 page critical response papers: one will focus on analyzing, critiquing, and synthesizing scholarly texts to advance an original argument on course topics and another will focus on analyzing a literary or artistic work of the student's choosing. The final consists of a longer paper of scholarly or creative writing that engages course topics. Assignments will emphasize close reading skills and will be receive written feedback from the instructor.

Difference, Power, and Equity Notes: This course examines gender and sexuality in Asian American racial formation and identity through the work of queer Asian American art, scholarship, and literature. Students will thus focus on how queerness/queer identity is constructed, embodied, and differently experienced in Asian America in dialogue with histories of immigration, Orientalism, assimilation, and exclusion.

AMST 326  (F) Unfinishing America  (DPE) (WS)

Cross-listings: ENGL 316

Primary Cross-listing

The Great American Novel is a moribund cliché. Few would argue that any one work of fiction could capture the essence of American life. In this class, we will flip the Great American Novel on its head by reading Ralph Ellison's unfinished second novel. After publishing the acclaimed Invisible Man in 1952, Ellison seemed poised to deliver the next Great American Novel. But he never did. When he died in 1994, 42 years later, he left behind thousands of pages of material, but no finished second novel. Why wasn't he able to finish it? Some of it was bad luck. Some of it was a struggle with genre and form. However, perhaps the real reason Ellison's novel proved impossible is what it was trying to say. This is a book about the historical trauma of racism. Therefore, the thesis of this class is that the Great American Novel cannot be written as long as American history remains whitewashed. Ellison's manuscript shows this in surprising ways, from its depiction of racial passing and the taboo of interracial sex to its extended exploration of Black and Indigenous cultures in the former Oklahoma Territory. In addition to Ellison, we will read the work of the Chicano author Tomás Rivera, whose fragmentary fictions provoke similar questions. This class culminates in a final project that asks students to "unfinish" an American cultural object.

Requirements/Evaluation: Assignments include a daily free-writing exercise, graded note-taking, three 1-2-page reflective essays, two brief creative writing assignments, and a final creative project.

Prerequisites: None

Enrollment Limit:  15

Enrollment Preferences: AMST majors, then juniors and sophomores

Expected Class Size:  15

Grading:  no pass/fail option,     yes fifth course option

Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 316(D1) AMST 326(D2)

Writing Skills Notes: Each student will be responsible for producing a reader's guide to Ellison's unfinished second novel. Students will write, rewrite, and revise their reader's guide throughout the semester. Three drafts will be due throughout the semester. A quality reader's guide will highlight the book's main themes, profile the main characters, and retrace the book's development. Students will also complete one draft of a guide to Rivera's novella, due at the end of the semester.

Difference, Power, and Equity Notes: "Unfinishing America" satisfies the Difference, Power and Equity requirement because it calls into question mainstream American culture from Black, Chicano, and Indigenous perspectives. It interrogates the relations of power that have driven American history, from the Civil War and Westward expansion in the 19th century to the struggle for Civil Rights against Jim Crow in the 20th. Finally, it asks what it would mean to have true equity amidst great diversity in American culture.

AMST 372 (S) Technologies of Race (DPE) (WS)

Cross-listings: STS 373 / AFR 374

Primary Cross-listing

This course is an introduction to theories, methods, sources, and approaches for interdisciplinary research and creativity in and through the interdisciplinary field of American Studies. We will focus on the intersection of race, gender, sexuality, and disability with modern media technologies, from early photography in the mid-19th century to contemporary trends in machine learning and artificial intelligence. Through a process of shared inquiry, course participants will investigate the ways that historical legacies of oppression and futuristic speculation combine to shape human lives in the present under racial capitalism. Whether analyses of the automation of militarized border control in Texas, or of the ways that obsolete, racist concepts are embedded in machine vision and surveillance systems, the readings in the course will chart out the key moments in the co-evolution of race and technology in the Americas. Students will gain a working competence in all four tracks of the American Studies major (Space and Place; Comparative Studies in Race, Ethnicity, and Diaspora; Arts in Context; and Critical and Cultural Theory). Finally, we will also explore alternative paths toward a future where technology might help to effect the abolition of oppressive structures and systems, rather than continue to perpetuate them.

Requirements/Evaluation: Four papers, in-class writing/reflective work, and a final exam.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: AMST majors or prospective majors.

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 372(D2) STS 373(D2) AFR 374(D2)

Writing Skills Notes: Students in this course develop a capacity to write generative arguments in an interdisciplinary scholarly context. Students will receive feedback not only on structure, substance, and style, but also on how to best build a line of inquiry, how to gather high-quality evidence, and how to make one's thinking productively intersect with more than one scholarly or creative field.

Difference, Power, and Equity Notes: This course requires students to contextualize technologies historically and in relation to one another, with attention to their entanglements with racial discourses and racism. Students gain critical skills that equip them to imagine possible futures where technologies serve increasingly as abolitionist tools.

AMST 402 (F) Marxist Feminisms: Race, Performance, Labor (DPE) (WS)

Cross-listings: AAS 402 / WGSS 402

Primary Cross-listing

This seminar provides an overview of queer, black and women of color feminist, decolonial, and critical ethnic studies critiques of orthodox Marxism. Beginning with core texts from the tradition, including Capital Volume I, we will examine a range of social positions and modes of extraction that complicate Marx's emphasis on the white male industrial factory worker. Every week, we will focus on texts that foreground conditions of reproduction, racial slavery, care and domestic work, indentured servitude, immigrant labor, land expropriation, and sex work among others. Throughout the seminar and specifically at the close of it, we will turn to critical perspectives and aesthetic practices that not only respond to these conditions but also incite new social relations and ways of being in the world. As such, this seminar will equip students with critical understandings of how racial capitalism has fundamentally relied on the mass elimination, capture, recruitment, and displacement of different racialized, gendered, and abled bodies in and beyond the U.S. as well as how the capitalist system of value and life under these conditions can and must be undone and reimagined.

Requirements/Evaluation: in-class participation, presentation, weekly posts, paper, and final project (paper, community resource distribution proposal, and creative project options)
Prerequisites: AMST 101, AMST/AAS 125, or similar courses

Enrollment Limit: 12

Enrollment Preferences: AMST and WGSS juniors and seniors, AAS concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 402(D2) WGSS 402(D2) AMST 402(D2)

Writing Skills Notes: In addition to weekly posts, students will engage a longer process of writing and sharing a presentation paper with the class, give/receive feedback, and submit a revised paper.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor are valued/devalued over others.

AMST 407 (F) Colonialism and Critical Theory (DPE) (WS)

French philosopher Michel Foucault argued that "racism first develops with colonization, or in other words, with colonizing genocide." Many prominent philosophers have developed intellectual tools that can help us better understand the ongoing colonialisms that impact our world. At the same time, many of these same theorists--Foucault included--are criticized for failing to pay adequate attention to the colonialism that shaped their historical moments. Taking this paradox as our jumping-off point, this course will examine prominent philosophical and theoretical texts and assess their utility for understanding processes of colonialism, imperialism, and militarism. We will also explore how the interventions of Postcolonial Theory and Critical Indigenous Theory highlight gaps in prominent theories of political-economy, ideology, biopower, race, gender, sexuality, and more. How do ideas like orientalism, settler-colonialism, sovereignty, or decolonization challenge the traditional "canon" of critical theory? How do intellectual ideas evolve over time, and how can we use these tools to make sense of a complex world too-often organized around fundamental inequalities? In our class meetings students will develop the reading and discussion practices necessary to parse dense theoretical texts, and practice deploying theoretical concepts to better understand complex philosophical, ethical, and political questions. Since this course counts as a Senior Seminar (core course), writing will be organized around a longer, more intense research project that follows from a student's particular interests.

Requirements/Evaluation: Assignments will include participatory discussion, weekly responses to assigned readings, a midterm essay exam, and a final paper.

Prerequisites: Introductory course in American Studies, History, Native and Indigenous Studies, English, or Philosophy; or some prior coursework on colonialism, postcolonial theory, or critical theory

Enrollment Limit: 15

Enrollment Preferences: AMST senior major, but anyone with upper-level humanities training welcome

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Writing Skills Notes: This course will develop student writing skills through short reading-response papers and smaller "low stakes" writing assignments, combined with a semester-long project that will break the research and writing process into manageable components, including revision and peer review.

Difference, Power, and Equity Notes: This course explores the intersections of race, gender, sexuality, class, and other social structures often organized around inequality. Students will develop tools to analyze how power shapes the differences produced by colonialism and similar historical processes.

Attributes: AMST Critical and Cultural Theory Electives AMST 400-level Senior Seminars
In this course we will defy the traditional notion that disabled and queer people of color have no right to future dreams, as we collectively imagine how the emergent field of Latina/x feminist disability studies might take shape. What are the sites of focus, methods, and political commitments of Latina/x feminist disability studies? Where is the power in meaningfully uniting an analysis of disability to one of sexuality and gendered Latinidad? How does a Latina/x-centric approach productively inform our understanding of disability? What is the political potential of Latina/x feminist disability studies -- not exclusively as a set of theories, but also as a mindset and an everyday call to action? If we were to collectively compose a manifesto for Latina/x feminist disability studies, what might it contain? How might we actively cultivate a community of care in the classroom as well as other spaces at Williams? Just what might Latina/x feminist disability justice dreams look like? How might Latina/x feminist disability justice dreams feel? Feminist, queer, and disabled crip-of-color scholars have recently called for a more meaningful engagement with race in feminist disability studies. Simultaneously, we have also witnessed a small but steady growth in the amount of Latinx studies scholarship that thoughtfully integrates questions of disability. This interdisciplinary course responds to these important shifts in its focus on a series of topics bridging Latinx studies, gender studies, queer studies, crip studies, and critical disability studies. These include but are not limited to the body, the environment, temporality, labor, citizenship, dependency, and visibility/invisibility. Through these topics, we will explore the ways in which the different approaches to these specific issues across Latinx, critical disability, crip, queer and gender studies are in fruitful conversation with one another -- and sometimes even at odds -- as we actively interrogate the intersections of gender, race, ethnicity, sexuality, and disability within the everyday.

Requirements/Evaluation: Major assignments for this course include a semester-long independent research paper (15-20 pages) broken up into steps, participation in crafting the class manifesto, a semester-long collaborative artistic exercise, and a final reflection document (3-4 pages).

Prerequisites: None.

Enrollment Limit: 12

Enrollment Preferences: Priority given to LATS concentrators by seniority, followed by WGSS and AMST majors by seniority.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: Lab fee: $200 for art supplies per student

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 475(D2) LATS 475(D2) AMST 413(D2)

Writing Skills Notes: We focus on building writing and interdisciplinary research skills, with a particular emphasis on the processes of research, revision, and collaborative writing. The primary research paper (an independent project of 15-20 pages) is divided into stages, and students are required to revise and resubmit their work at various junctures in the research process. The written class manifesto requires students to compose a document together, revising their work as a group over the course of the semester.

Difference, Power, and Equity Notes: This course privileges an intersectional analysis regarding questions of race, ethnicity, gender, sexuality, and disability. It obligates students to consider how these categories of different actively work in tandem with one another in everyday US Latina/x and transnational (US-Latin America and the Caribbean) contexts. This seminar also underscores how these categories of difference are actually products of a given historical and political moment.

Attributes: LATS 400-level Seminars
The psychoanalytic theory of melancholia—the ways in which one refuses to fully let go of that which one has lost—is a foundational concept to the fields of ethnic studies, queer theory, and cultural studies. In the wake of losses due variously to histories of forced migration and slavery, the AIDS epidemic, war, and social exclusion, various scholars and critics have posited melancholia as a structuring condition of contemporary life as subjects differently navigate loss, displacement, and exclusion. Theories of racial and queer melancholia have emerged as supple frameworks through which to consider how queer and racialized subjects hold onto non-normative ways of being, relation, and sociality against the normalizing tides of erasure. We will chart out a connection between how we relate to and apprehend the past as it then pertains to how we relate to and apprehend others. Beginning with a dive into Freudian psychoanalysis, this seminar will explore concepts of loss and melancholia and their uptake into critical theory, critical race theory, and queer theory/queer of color critique. Alongside our scholarly inquiries, we will engage with a range of art, literature, performance, and film that explore topics of memory, trauma, migration, the queer past and the queer future, subjectivity, relationality, and gender and sexuality.

**Requirements/Evaluation:** In-class participation, discussion posts, short analysis papers, and a final paper that engages original research and/or creative work.

**Prerequisites:** None

**Enrollment Limit:** 15

**Enrollment Preferences:** AMST, WGSS majors, AAS concentrators or students interested in majoring/concentrating in these areas.

**Expected Class Size:** 15

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 418(D2) AMST 415(D2) AAS 415(D2)

**Writing Skills Notes:** Students will produce a number of written assignments that assess their analysis, critique, and interpretation of critical texts and artistic works. This includes regular discussion posts, paper presentations, and a final essay that will receive peer and instructor feedback.

**Difference, Power, and Equity Notes:** This course engages with a major topic of concern—the theory of melancholia—across a number of fields including ethnic studies, women's, gender, and sexuality studies, and critical theory. In particular, attention is paid to the function of loss, dispossession, and displacement as it affects individuals and communities who are differently marginalized by colonialism, racial capitalism, and heteronormativity.

Spring 2025

SEM Section: 01  MR 2:35 pm - 3:50 pm  Ethan Fukuto

**AMST 428 (S) Relationality and Its Antagonisms**  (DPE) (WS)

**Cross-listings:** AFR 396 / WGSS 428

**Primary Cross-listing**

Relationality has been the defining approach, feature, and framework of ethnic studies since its inception in the late 1960s. Since then, notable scholars have applied multiple keywords, including difference, comparison, entanglements, cacophonies, and intimacies, to emphasize how processes of racialization and racial formation are not isolated and separate but inextricably linked and shaped by one another. Only from these distinct, uneven, yet shared positions of oppression, as scholars argue, solidarity across race, gender, class, sexuality, and location may emerge. At its crux, this seminar will underscore major tensions and antagonisms against frameworks of relationality. Tracing primary sources, cultural expressions, and literature within the traditions of ethnic studies and transnational/women of color feminisms, it will trace the shifts in approaches to relationality, especially as it relates to practices of reciprocity and community-building across difference. At the same time, it will turn to works that name relationality as what Frank B. Wilderson calls a “ruse,” or trick, that subsumes the specific, exceptional position of blackness. Our units will include discussions of Afro-Pessimism, indigeneity, racialized settler colonialism as well as queer theory debates on queer presentism (i.e., a queer “no future”) versus queer futurity. Studying the tensions that emerge from multiple, distinct, and contradictory planes of power, oppression, and temporalities, how do we assess, work through, and reconcile, if at all, relations deemed as “irreconcilable” across vectors of difference?

**Requirements/Evaluation:** in-class participation, paper presentation, peer feedback, writing webs (short series of writing exercises), and final project developed from original research and/or creative work

**Prerequisites:** AMST 101 or WGSS 101

**Enrollment Limit:** 12
Enrollment Preferences: AMST and WGSS seniors and juniors

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AFR 396(D2) AMST 428(D2) WGSS 428(D2)

Writing Skills Notes: Students will regularly engage in a series of writing exercises and submit a longer paper presentation that will be peer reviewed and revised.

Difference, Power, and Equity Notes: The main objective of the course is to study and assess ethnic studies' approaches to questions of difference, particularly as it relates to theories of racialization and relationality across multiple nodes of power and oppression.

AMST 490 (S) The Suburbs (WS)

Cross-listings: ENVI 491 / HIST 491

Secondary Cross-listing

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans' relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans' understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

Class Format: Students will meet with the professor either in assigned pairs or "trios" at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation: This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: History majors and students with course work related to the topic.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 491(D2) AMST 490(D2) HIST 491(D2)

Writing Skills Notes: Students will reflect on what their writing goals are for the semester, and they will receive feedback on their writing from the professor and from their tutorial partner. The final writing assignment will afford students the chance also to reflect back on their previous papers and the semester's course content.

Attributes: AMST Space and Place Electives ENVI Humanities, Arts + Social Science Electives HIST Group F Electives - U.S. + Canada
ANTH 216 (F) Cities and Urbanism of the Ancient World (WS)

Cross-listings: GBST 216

Primary Cross-listing

This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Angkor, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots at the beginning of the first civilizations in Euroasia and the Americas. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanites had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities?

Requirements/Evaluation: 5-page papers every other week, oral responses on alternate weeks; tutorial attendance is required.

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: first years, sophomores, or majors in Anthropology or Sociology

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

GBST 216(D2) ANTH 216(D2)

Writing Skills Notes: Throughout the semester, writing skills (developing an argument, construction of paragraphs, use of case studies) will be emphasized. An opportunity to rewrite at least one tutorial paper will allow students to actively apply what they are learning.

Attributes: GBST Urbanizing World

ANTH 217 (S) Indigeneity Today: Comparative Indigenous Identities in the US and Russia (DPE) (WS)

Cross-listings: RUSS 217

Primary Cross-listing

Indigenous movements for land, rights, and cultural preservation have spread to and originated in all corners of the world. However, the global nature of these movements at times obscures ways of being Indigenous in differing contexts. This course analyzes Indigeneity in both the United States and Russia today. Through reading and analyzing ethnography, theory, and literature, it focuses on Indigenous peoples in a comparative context. Rather than prioritizing concern with Indigenous peoples emerging from the US, it attempts to demonstrate what Indigeneity has been in both the United States and Russia and what it is and means today. It asks the following questions: what is Indigeneity and who is Indigenous; how is Indigenous identity constructed and by whom; and what convergences and divergences exist in Indigeneity between the US and Russia or for that matter in other contexts? To help answer these questions, in this course we will grapple with Indigeneity as a social category and other social formations, especially ethnicity, nationality, and race. Topics include: Indigeneity and the State, Revitalization and Resurgence, Indigenous People and Nature Protection, and Hemispheric and Global Indigeneities.

Requirements/Evaluation: 10 posts to the course Glow discussion page, 3 times leading class discussion on the assigned readings, 1 short presentation, 1 extended portfolio project with regular shorter and longer writing submissions, and 1 final paper and final presentation (as the final part of the portfolio).

Prerequisites: None
Enrollment Limit: 16

Enrollment Preferences: Majors and certificate-seekers in Russian, then majors in Anthropology and Sociology, and then Global Studies concentrators

Expected Class Size: 12-15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
RUSS 217(D1) ANTH 217(D2)

Writing Skills Notes: This course has the following assignments: Weekly post to the Glow discussion page, 1 extended project with regular writing submissions, 1 final paper and final presentation. For the extended project, we will have instructor feedback for all project assignments. In instructor feedback, comprehension of the material and the content of the writing, improvement in writing style and clarity, and development of voice will be discussed. There will also be peer feedback/review.

Difference, Power, and Equity Notes: In the course, students will learn about Indigeneity as a context-specific social formation. It understands Indigeneity as a category of difference with past and present importance. We will read about, discuss, and write about Indigeneity as a social category, along with other social categories it arose alongside (such as race, ethnicity, and nationality), and how it has been mobilized by both those who identify as Indigenous and by those who designate others as Indigenous.

Spring 2025

SEM Section: 01    TF 2:35 pm - 3:50 pm     Kamal A. Kariem

ANTH 243  (S)  Reimagining Rivers  (DPE) (WS)

Cross-listings: ENVI 243

Secondary Cross-listing

In the era of climate change and widening inequality, how we live with rivers will help define who we are. Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including increased flooding, drought, pollution, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Requirements/Evaluation: Each week, each student will either write a 5-page essay on assigned readings or write a 2-page critique of a partner's paper.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 243(D2) ANTH 243(D2)

Writing Skills Notes: Students take turns writing 5-page essays and 2-page responses to those essays, with each writing 6 in total. For each five-page paper, I meet with the student to discuss technical aspects of the paper and specific ways in which it could be improved. At the end of the semester, students have the option of handing in one revised paper as part of a portfolio of papers from throughout the semester. This enables me to have an ongoing, in-depth discussion with each student about their writing skills.

Difference, Power, and Equity Notes: This course focuses on the role of rivers in struggles over cultural difference, social power, and environmental equity. Throughout the course, students read and write extensively about environmental justice, and they engage with diverse theoretical approaches
to studying the intersection of water, power, and social identity. Our focus from beginning to end is on the profound impact of river management on the lives of marginalized indigenous, agrarian, and urban communities.

Spring 2025

TUT Section: T1    TBA    Nicolas C. Howe

**ARAB 201  (F)  Intermediate Arabic I  (DPE) (WS)**

This course will build on the students' acquisitions in Arabic 102 to consolidate their learning of the Modern Standard Arabic and one variety of spoken Arabic. In addition to expanding students' vocabulary and enhancing their communication skills, the course will deepen their knowledge and use of grammar in both speaking and writing. Upon successful completion of this course, students will be able to hold conversations in Arabic with some fluency on a variety of topics while developing cultural appreciation of Arabic-speaking countries.

**Requirements/Evaluation:** quizzes, tests, homework, and active class participation

**Prerequisites:** ARAB 102 or placement test

**Enrollment Limit:** 18

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** This course involves a great deal of writing, ranging from vocabulary and grammar-focused exercises to written assignments about a variety of topics. Students will receive extensive and timely feedback on this written work.

**Difference, Power, and Equity Notes:** Any language is the locus of issues of difference, power, and equity. Students will learn about gender and pronouns. They will wonder why Arabic does not have a gender neutral pronoun. Students will understand how Arabic acts as a dominant language in places minority languages in the Middle East and North Africa. Students will emerge from the course with a critical understanding of Arabic language's politics.

Fall 2024

SEM Section: 01    TR 9:55 am - 11:10 am    Brahim El Guabli

**ARAB 209  (S)  Saharan Imaginations  (DPE) (WS)**

**Cross-listings:** COMP 234 / ENVI 208

**Primary Cross-listing**

Deconstructing reductive Saharanism, which the course conceptualizes as a universalizing discourse about deserts, this course seeks to critically examine the myriad assumptions that are projected upon deserts across times and cultures. In addition to their depiction as dead and empty, deserts have become a canvas for the demonstration of religiosity, resilience, heroism and athleticism. Cultural production, particularly literature and film, do, however, furnish a critical space in which important questions can be raised about deserts' fundamental importance to different cultures and societies. Drawing on novels, films, and secondary scholarship, the course will help students understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the desert sub-genre of African, Euro-American, and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to interrogate the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature.

**Requirements/Evaluation:** active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper

**Prerequisites:** none

**Enrollment Limit:** 14

**Enrollment Preferences:** If the course is over-enrolled, students will required to provide a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.

**Expected Class Size:** 14
Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209(D1) COMP 234(D1) ENVI 208(D1)

Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.

Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

Attributes: ENVI Humanities, Arts + Social Science Electives

Spring 2025

SEM Section: 01 MR 2:35 pm - 3:50 pm Brahim El Guabli

ARAB 301  (F)  Advanced Arabic 1  (WS)
A continuation of Intermediate Arabic, ARAB 301 aims to expand students' listening, reading, writing, and speaking skills in Arabic. The course will also stimulate students' intellectual curiosity about the Arabic-speaking regions and enhance their intercultural competence. Using Al-Kitaab as well as a variety of authentic written and audiovisual materials, the course will advance their proficiency in Modern Standard Arabic. The course will also encourage enrolled students to engage critically with a wide variety of topics in Arabic language as they enrich their knowledge of the different aspects of Arabic language and culture. Students at this stage will also be assisted to generate more complex written and oral assignments.

Requirements/Evaluation: active class participation, daily assignments, presentations, quizzes, midterm exam, final exam

Prerequisites: ARAB 202 or equivalent

Enrollment Limit: 8

Enrollment Preferences: Arabic majors and anyone who has a level-appropriate knowledge of Arabic language.

Expected Class Size: 2

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will be writing multiple drafts in Arabic; the weekly written work expected from students is 800 words in Arabic language, students will also be doing translations from Arabic into English or vice-versa; and all written work from students will evaluated, and students will receive feedback to rework it. Students will receive detailed and consistent feedback about their writing in Arabic language.

Fall 2024

SEM Section: 01 MWF 11:00 am - 12:15 pm Nicholas R Mangialardi

ARAB 302  (S)  Advanced Arabic 2  (DPE) (WS)
A continuation of Advanced Arabic 1, ARAB 302 aims to reinforce students' listening, reading, writing, and speaking skills in Arabic through a deeper engagement with authentic materials. Built around a plethora of texts and audiovisual materials, the course seeks to assist students to develop their language and critical thinking skills in Arabic. Situated at the intersection of language learning and content teaching, this course will prepare students for more scholarly engagement with Arabic in the fourth year. Like ARAB 301, the course will be conducted entirely in Arabic.

Requirements/Evaluation: Reflections, discussions, essays, reading and writing project, quizzes, exams, and presentations.

Prerequisites: ARAB 301 or equivalent

Enrollment Limit: 18

Enrollment Preferences: Arabic Studies, or students who completed ARAB 301

Expected Class Size: 7

Grading: yes pass/fail option, no fifth course option
**Distributions:** (D1) (DPE) (WS)

**Writing Skills Notes:** Students will engage in daily writing and reflections involving prose responses (blogs, commentaries, etc.) to discussion prompts, movies, YouTube videos, comic analysis and articles. The students will also work on a portfolio with entries that will involve a careful process of revisions as well as rigorous research in Arabic recourses, summaries and essays. The instructor will give daily feedback on students' writing as well as training in writing skills to advance their writing abilities.

**Difference, Power, and Equity Notes:** The students will engage in an exploration of social, political, and economic realities in Arab societies across state and community boundaries. They will examine similarities and differences across a variety of contexts involving differential power dynamics, biases, and gender roles. The selected texts will also expose students to issues of power and inequality based on internal and external factors in Arab societies as well as the social struggles of immigrants and refugees.

**Spring 2025**

**SEM Section:** 01    MWF 10:00 am - 10:50 am     Nicholas R Mangialardi

**ARAB 320 (F) Poetry of Indignation: Poetics and Transnational Liberation** (DPE) (WS)

**Cross-listings:** AFR 328 / COMP 335

**Primary Cross-listing**

Poetry is usually associated with beautiful, metered, and charged language. However, beyond its poeticity, poetry has also functioned as a tool of liberation and transnational construction of identities and solidarities. States have national poets, and, in many countries, national anthems were written by famous poets. From Abu al-Qasim al-Shabbi and Claude McKay to Pablo Neruda, poetry has acted as a space for life, rebellion, resistance, revolution, and the defense of a common humanity that transcends the barriers of language and national aesthetics. This course draws on a variety of materials from the Caribbean to Africa and from the Middle East to India to conceptualize a "poetics of indignation" against slavery, social injustice, colonization, authoritarianism, capitalism, and globalization. The students in this course will read poets, such as Okot p'Bitek, Derek Walcott, Tsitsi Jaji, Mahmoud Darwish, and Pablo Neruda, among many other poets, to examine how poetics changed and shifted across times and geographic boundaries while retaining a commitment to indignation, rebellion, and anger at almost the same recurring oppressive forces.

**Requirements/Evaluation:** Two 5pp. midterm papers; a 1000-word reflection statement; weekly GLOW posts; one 10-minute presentation; active participation in the discussions in class.

**Prerequisites:** None

**Enrollment Limit:** 14

**Enrollment Preferences:** If the class is overenrolled, the students will submit a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 328(D2) COMP 335(D1) ARAB 320(D1)

**Writing Skills Notes:** The students in this course will receive intensive feedback on their writing. This includes writing two 5pp. papers as well as a 10pp. final paper. The students will submit weekly GLOW posts and a final reflection statement.

**Difference, Power, and Equity Notes:** The students will understand that poetry is a field in which power dynamics and imbalances of access to resources are reflected. They will also pay attention to who writes what and who publishes where in order to understand the imbrication of inequality within the institutions that produce, disseminate, and reward poets.

**Fall 2024**

**SEM Section:** 01    MR 2:35 pm - 3:50 pm     Brahim El Guabli

**ARAB 335 (F) Rhymes, Romance, and Revolution: Arabic Poetry in Translation** (WS)

Since pre-Islamic times, poetry has been "the record of Arab history," as an old adage holds. From ancient tribal odes and medieval mystical verse to modern love lyrics, Arabic poetry speaks to how people of the region have lived and interacted. Yet, beyond just recording, poetry has also played a
central role in shaping society, culture, and politics in the Arab world. This course introduces students to the poetic tradition(s) of the region, traversing a broad chronology (early Islamic, medieval, modern) to explore such questions as: what are the themes and structures of Arabic poetry? Which elements have changed or persisted over time? And how is it that even classical Arabic poems continue to resonate with younger generations today? We will consider such questions as we read Arabic poems in translation, analyzing how these texts were composed, recited, set to music, and, sometimes, censored or banned by authorities. Students will become familiar with Arabic poetic genres--Classical, Sufi/religious, Diaspora, Free Verse--as well as major poets in the literary tradition. Readings and discussion will be in English. No knowledge of Arabic or poetry required.

Requirements/Evaluation: Daily attendance and participation in class discussion; short essays (1 page) every two weeks, final presentation, and final paper (10-12 pages).

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: Arabic majors; Comparative Literature majors

Expected Class Size: 10

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will develop their writing skills by submitting one-page unit responses every two weeks and a final paper of 10-12 pages on a topic of their choice. Students will receive feedback on each writing assignment and have opportunities for multiple drafts and peer review throughout the semester with instructor and course Writing TA.

Fall 2024

SEM Section: 01 MR 2:35 pm - 3:50 pm Nicholas R Mangialardi

ARAB 340 (S) Arab Women Memoirs: Writing Feminist History (DPE) (WS)

In this seminar we review selected autobiographical writings by Arab women writers from the wave of independence in the 20th century to the contemporary Arab uprisings, passing through all the transformations that globalization and the technosphere have instigated. We will examine the role that first-voice narrative plays in shaping literature, history and thought, while providing a space to reclaim cultural, social and political agency. Focusing on the different articulations of self-representation, our discussion will address how these women reflect on the shifting discourses of identities, gender, nationalism, religion, feminism, sexuality, politics, borders and their histories. Questions we will address include: How did these memoirs contribute to the development of Arab feminist consciousness? How did these women writers carve a literary space for feminist memory in modern Arabic literature? In addition to the memoirs, we will look at women's blogs and watch films that focus on first-person narrative to discuss related topics, such as, visual testimonies, virtual political participation and feminist resistance in the technosphere.

Requirements/Evaluation: Students will write the following: three response papers (2-3 pages), at least 6 journals entries (300 words per entry) and a final analytical research essay (7-10 pages). They will have a final performance project.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Arabic Studies majors

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: In addition to writing several short papers, a final research paper, a reflection on their final performance project, students will write six journals. The combination of research writing, personal reflection echoes the creative non-fiction genre of the course. It also provides students with the opportunity to reflect on forms of history/memory writing.

Difference, Power, and Equity Notes: Gender inequality, sexism, and the intersection of colonialism, nationalism and capitalism are the heart of this course. The memoirs of Arab women writers from the late 19th century to the present continue depict the history of women's movement and the struggle for women's rights in the Arab-speaking world while addressing the different hierarchies of power and domination that regulate them to second class citizens. Students will learn DPE vocabulary and critical terminology.

Attributes: WGSS Racial Sexual + Cultural Diversity Courses

Spring 2025
ARAB 369  (F) Indigenous Narratives: From the Fourth World to the Global South  (DPE) (WS)

Cross-listings:  COMP 369 / HIST 306 / GBST 369

Secondary Cross-listing

In the late 20th century, world literature has witnessed a “boom” in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this “indigenous boom” by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Amazigh poetics in the Maghreb, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? What is the connection between the recent “boom” of English translations of Indigenous texts and neoliberalism, multiculturalism and neo-colonialism? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Requirements/Evaluation:  active class participation, several short response assignments (3-4 pages), two film reviews ( 1 page ), a performance project, and a final paper (7- to 10-pages)

Prerequisites:  none

Enrollment Limit: 19

Enrollment Preferences:  Comparative Literature majors

Expected Class Size:  15

Grading:  no pass/fail option,  no fifth course option

Distributions:  (D1)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 369(D1)  HIST 306(D2)  ARAB 369(D1)  GBST 369(D2)

Writing Skills Notes:  This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes:  At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

ARAB 403  (S) Beyond the Letter: Visual Culture in the Arabic-Speaking World  (DPE) (WS)

Whereas poetry has been historically celebrated as the defining form of an “authentic” Arab culture from the pre-Islamic world to the present, visual culture, such as paintings, sculptures, installations, videocart, and photography, among others, has been relegated to the contemporary, the modern, the Westernized, and thereof, a representation of a less “authentic” Arab culture. In this course, we will challenge this false dichotomy by examining a variety visual culture artifacts from the Arabic-speaking world. Although the scope of our discussion will be limited to works from the 19th century to the present, our questions will investigate the deep roots of visual art in the Arabic-speaking world. We will also examine the work of poets-painters, such as Jabra Ibrahim Jabra and Etel Adnan that expanded from Palestine, Lebanon and Iraq to the United States, the manifestos of the Arab Surrealist...
Movement in Cairo in the 1930s, the Baghdad Modern Art Group in the 1950s and more recent works by individual artists navigating post-modern aesthetics, and dystopian futures, including Radia Bent Lhoucine, Amina Zoubair, Sophia Al-Maria and Juamana Manna, among others. In discussing these works, we will reflect on political and social events that shaped the production of visual culture in the Arabic-speaking world from the Gulf to the Maghreb. In addition to reading artists statements, exhibition reviews, art magazines and museum brochures that speak to the alphabet of visual culture, we will listen to interviews and watch short clips. In the process, we will active advanced grammar and vocabulary skills and employ paralinguistic analysis. The course is taught in Arabic.

Requirements/Evaluation: Active in-class participation; active participation in discussion forums on GLOW; weekly writing assignments of 2-3 pages; two in-class presentations; a final 10-pages essay.

Prerequisites: ARAB 302
Enrollment Limit: 10
Enrollment Preferences: ARBIC
Expected Class Size: 7
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

Writing Skills Notes: Students will write 2-3 pages weekly and will produce a 10-pages essay at the end of the course. They will also provide written feedback to in-class presentations and online discussions. The writing assignments will involve working with several drafts, revisions, and regular annotations of artwork.

Difference, Power, and Equity Notes: This course is motivated by addressing the power dynamics between art forms in the Arabic-speaking world (poetry versus visual culture). It also explores the intersection of gender, ethnicity, and access to different expressions and venues of art and art production.

Spring 2025
SEM Section: 01 MW 11:00 am - 12:15 pm Amal Eqeiq

ARAB 414 (F) Displacement: Global Histories of Refugees and Forced Migration (DPE) (WS)
Cross-listings: GBST 414 / HIST 402

Secondary Cross-listing

The Middle Eastern refugee has become a central figure in debates on migration, asylum, and the right to belong in Europe, Asia, and North America. Often stereotyped as threatening, alien, and rootless, these migrants are generally depicted as lacking histories and by extension not worthy of consideration or empathy. This course invites students to understand some of the most tragic humanitarian crises of our time and the massive involuntary displacements provoked by war, violence, and/or climate change. Taking a global perspective, this seminar examines the history of displacement, refugees, migration, diaspora in a focusing on the nineteenth century through the present. With special attention to the historical experience of various peoples of the Middle East, the course will start with theoretical approaches to the study of migration and then delve into case studies. A range of different moments of displacement will be analyzed such as the experiences of Armenians, Jews, Palestinians, Syrian, Iraqis, and Kurds. By examining the human geography and politics of forced displacement and migration, this course will address a number of important academic and political questions: what makes a history written by, about, and for displaced people powerful? How can writing from the perspectives of refugees challenge core debates about identity, the nation and borders? How does the focus on displacement help in understanding the nature of war and conflict?

Requirements/Evaluation: Final 25 page research paper, several drafts of paper, class presentations and in class writing exercises.

Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: History and Arabic Studies majors and Global Studies concentrators.
Expected Class Size: 15
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 414(D2) GBST 414(D2) HIST 402(D2)
Writing Skills Notes: This research seminar will involve the writing of a final 25 page paper. Prior to that stage, each process of writing will involve moments of feedback and sharing. Students will submit a proposal early on in the semester and then write an outline. These will receive peer and instructor feedback. They will then submit a five page draft in October, a 10 page draft in November, before the final submission in December. In this way, they will have opportunities to rework and improve their writing.

Difference, Power, and Equity Notes: This course takes a comparative approach by exploring the predicament of some of the most vulnerable people in the world, i.e, displaced peoples and refugees. The course will consider their legal status and their experience of leaving their homes due to wars or natural disaster. The area of study is the Middle East and we will examine the historical experience of a number of different people in the region including Kurds, Palestinians, Sephardi Jews, and Syrians.

ARTH 215  (F)  Envisioning the Sacred: Representation and Religion in Christian and Muslim Cultures  (WS)

Cross-listings: ASIA 212 / REL 211

Primary Cross-listing

How did medieval Christians and pre-modern Muslims imagine the sacred and how did they give what they imagined pictorial form? How were these pictures used, both in public and in private life, and why? How did the art of these unique religious traditions forge connections between the visible and invisible worlds? Paying particular attention to the function and experience of works of art within Christian and Islamic cultures, this seminar examines the evolution of devotional visual expression, while also exploring the problems sacred images generated in these distinct yet often overlapping traditions. Through readings and class discussion, the course will investigate, among other topics: the varied attitudes toward the representability of God in Judaism, Islam, and Christianity; the impact of earlier image traditions on the religious art of medieval Christians and pre-modern Muslims; the cult of the devotional image, concerns over idolatry, and the destruction of images; ideas about spiritual versus physical vision and their influence on the making and viewing of pictures; the relationship of sacred images to relics and to various aspects of organized ritual; and the possible roles played by pictures of the sacred in silencing or giving voice to dissent.

Requirements/Evaluation: Participation in class discussion; oral presentation; five 3-4-page papers, and a final 6-page paper

Prerequisites: None

Enrollment Limit: 12

Enrollment Preferences: Sophomores then juniors, but open to all

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Unit Notes: This seminar will be team taught, by Murad Mumtaz and Peter Low

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ASIA 212(D1) ARTH 215(D1) REL 211(D2)

Writing Skills Notes: In this 200-level seminar, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 3-4-page papers they will submit, with suggestions for improvement.

ARTH 218  (F)  From the Battlefield to the Hermit’s Cell: Art and Experience in Norman Europe  (WS)

Cross-listings: WGSS 284 / REL 284

Primary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages:
the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

TUT Section: T1 TBA Peter D. Low

ARTH 301 (S) Methods of Art History (WS)

This course on the methods and historiography of art history offers art-history majors an overview of the discipline. The course surveys influential definitions of the discipline, the evolving tasks it has set itself, and the methods it has developed for implementing and executing them. Works of art will inevitably enter into our discussions, but the main objects of study will be texts about art as well as texts about methods for an historical study of art. The course is designed to offer a pluralistic perspective on key theoretical and methodological approaches to art history. Readings will regularly compare the Western discipline with frameworks from other parallel cultures. Topics include: style and periodization; iconography, narratology, and phenomenology; the social functions of images and the social history of art; the materiality of art; race, gender, and sexuality; the global scope of art and art history.

Requirements/Evaluation: six 1,000-word analytical essays plus one 2,000-word writing project. Participation in class discussion. Attendance.

Prerequisites: any prior ARTH course (one or more 100-level ARTH course[s] recommended). In the absence of prior coursework in art history, permission of instructor is necessary for admission.

Enrollment Limit: 19

Enrollment Preferences: The course is limited to art-history and (with permission) art history/studio majors. If the course is over-enrolled, preference will be given to senior AH majors, then juniors. Second-year students intending to major in art may enroll with permission.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option
Unit Notes: Satisfies the ARTH 301 requirement for the art-history major. Will satisfy the methods/junior seminar requirement for the history/studio major, but students wishing to do so must have permission of instructor to enroll.

Distributions: (D1) (WS)

Writing Skills Notes: Students submit one 1,000-word essay every other week, for a total of six short essays. In addition, they submit a 2,000 writing project at the end of term. The purpose of the essays is to analyze the arguments and rhetoric of influential art-historical scholarship and criticism. The subject of the course, then, is how to write as an art historian. We discuss not only the content of the essays we read and write but also the form, both in class and in office hours.

Spring 2025
SEM Section: 01    MR 2:35 pm - 3:50 pm    Murad K. Mumtaz

ARTh 302  (F) Methodologies of Art History  (WS)
The purpose of this course is to trace the origin and development of key ideas that define the discipline of art history. They include the idea that art has a history, that style is unique to individuals but also definitive of entire periods or cultures, that interpretation should be contextual, that representation is fundamentally subjective, that art can be an instrument of power, that reception is as much a part of the history of art as production, among many others. This course begins with a series of texts from around 1900, which drew upon nineteenth-century fields such as cultural history, psychology of perception, and psychology of empathy, to articulate the first methodologies of art history. The course then considers the critiques of those methods that emerged in the middle twentieth century from the fields of iconology, marxism, feminism, structuralism, and ethnic studies, among others. The course concludes with a consideration of the current interest in a global history of art from perspectives such as anthropology, curation, phenomenology, aesthetics, new materialism, and "Bildwissenschaft." In this way, it becomes possible to see that the history of art is not merely the sum total of information available throughout the world about art objects, but also a coherent tradition of methodological debate about what are the most effective and responsible ways of writing the history of art.

Requirements/Evaluation: Six 1,000-word analytical essays. Six short responses to the papers of other students. Participation in class discussion. Attendance.

Prerequisites: Two prior ARTH courses (100-level ARTH courses are ideal). In the absence of prior coursework in art history, permission of instructor is necessary for admission.

Enrollment Limit: 19

Enrollment Preferences: Art-history majors (seniors, then juniors). Then history and studio majors who need to complete the methods requirement. Then second-years intending to major in art history, but only by permission.

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Unit Notes: Satisfies the requirement for methods of art history for the art-history major (i.e., it is the equivalent of ARTH 301). It will also satisfy the methods requirement for the history and studio major.

Distributions: (D1) (WS)

Writing Skills Notes: Students submit one 1,000-word essay every other week, for a total of six short essays. The purpose of the essays is to analyze the arguments and rhetoric of influential art-historical scholarship and criticism. The subject of the course, then, is how to write as an art historian. We discuss not only the content of the essays we read and write but also the form, both in class and in office hours.

ARTh 322  (S) Cold War Aesthetics in Latin America  (DPE) (WS)
The Cold War was far more complex than a military conflict, with battles waged more in the symbolic than in the physical realm. The Cold War was therefore "everywhere and nowhere," as new superpowers maneuvered to maintain geopolitical balance. Through a transnational lens this course considers the Cold War in Latin America as an aesthetic phenomenon with many facets, to recover how artistic practices unfolded myriad--and often conflicting--ideas regarding power, cultural influence, modernization, and revolution.

Requirements/Evaluation: Active participation, leading discussion, and five four-page writing assignments.

Prerequisites: One ARTH course.
Enrollment Limit: 12
Enrollment Preferences: If overenrolled, preference will be given to Art History majors.

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

Writing Skills Notes: This course foregrounds writing and peer reviews to develop critical thinking. We will have five four-page writing assignments, spaced throughout the semester, which will incorporate our class discussions and research. Students will receive critical feedback on both form and content from their professor and from their peers.

Difference, Power, and Equity Notes: This course fulfills DPE requirements through historical and visual analyses that examine the contestations of power that defined the Cold War era and their ramifications in the shaping of notions such as modernism, modernization, progress, citizenship, and resistance. The course takes a transnational perspective to analyze diverse artistic practices in relation to race, gender, and class dynamics, and to issues of cultural imperialism, nationalism, revolutionary politics, and globalization.

ARTH 325 (S) The Arts of the Book in Asia (WS)

Cross-listings: ASIA 325

Primary Cross-listing

From palm leaf manuscripts to scrolls to Islamic codices, books have long served as vehicles of religious, cultural and artistic exchange in Asia. Owing both to their portability and status as finely crafted art objects, books have transmitted ideas across the continent, spreading courtly styles of painting from China to India, esoteric Buddhist teachings from Kashmir to Tibet and Mongolia, as well as the Quranic arts of calligraphy and illumination from Islamic South Asia to Southeast Asia. This co-taught seminar will highlight the interwoven history of book arts as it developed and disseminated across different regions of Asia. The course will also introduce students to the major art forms of the book, such as painting, calligraphy and illumination. The aim of the seminar is to understand the book as object while also investigating its content and its larger cultural significance. A number of class meetings will take place in the Chapin Library, where students will have the opportunity to study original manuscripts from the Special Collections. The course will culminate in an exhibition at Chapin Library which the students will curate using the Special Collections holdings.

Requirements/Evaluation: 3 essays, a final project/paper based on museum objects, wall label

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: preference will be given to Art and Asian Studies Majors, and then to students of any major interested in the art and culture of Asia

Expected Class Size: 12

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 325(D1) ASIA 325(D1)

Writing Skills Notes: Over the course of the semester students will write three papers at five pages each, culminating in a well-developed, focused final project. Students will be given extensive feedback on each assignment regarding grammar, style, and argument. The final paper will be part of a larger project in which students will work together to curate a small exhibition using the Chapin Library’s Asian holdings. Each student will be asked to write a wall label for their selected object.

SEM Section: 01    MW 11:00 am - 12:15 pm     Murad K. Mumtaz

ARTH 409 (F) Homer, Eakins, Sargent: American Painters in a Changing World (WS)
What is the function of art in a rapidly changing world? Should it celebrate beauty, reveal truth, or describe the nature of modern life? America's finest painters of the nineteenth century -- Winslow Homer, Thomas Eakins, and John Singer Sargent -- did all those things, but in distinctly different ways. Homer transformed himself from a lively sketch artist for Harper's Weekly to a painter of scenes of sublime nature and heroic individualism. Eakins practiced a determined scientific realism and taught it to his students at the Pennsylvania Academy of the Fine Arts, until scandal led to his dismissal. And Sargent managed to produce the most exquisite fashionplate portraits of the era even as he imaginatively drew on the most progressive currents of contemporary art. This seminar looks at the work of these artists, their engagement with post-Civil War society, and how each of them dealt with profound mid-career crises. Topics to be explored will include different models of artistic education, the role of European travel and training, the art market, changes in public taste, and the rise and fall of critical reputations. There will be a major research paper, several small assignments, and a field trip.

Class Format: There will be a field trip to either New York or Philadelphia, as schedules permit.

Requirements/Evaluation: There will be a research paper of 20 - 25 pages. There will also be several smaller assignments, including a 5-minute oral presentation on a painting.

Prerequisites: ARTH 264 or consent of the instructor.

Enrollment Limit: 19

Enrollment Preferences: Preference given to senior majors and graduate students.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will prepare a research paper of 20 to 25 pages in three stages: an annotated bibliography, a first draft (which I will return with comments and line-edits), and a revised final draft.

Fall 2024

SEM Section: 01 W 1:10 pm - 3:50 pm Michael J. Lewis

ASIA 111 (S) The Asia-Pacific War (WS)

Cross-listings: HIS 112

Secondary Cross-listing

The “Asia-Pacific War,” as it is known in Japan, raged from the full-scale Japanese invasion of China in 1937 until Japan's total defeat in 1945. This war, though certainly tied to the Allied war against Germany and Italy, was viewed by many participants at the time as truly a war apart due to the immense distances involved, the gleeeful, racism-fueled brutality on both sides of the conflict, and the resultant abuses of POWs, use of atomic weapons, and other atrocities. Students will explore the intersection of colonialism, racism and opportunism that fed the conflagration, and the remarkable rapprochement between American and Japanese former enemies immediately after the war. It will examine in depth the roles of China and the USSR in this conflict, which are often mentioned but functionally ignored in the West. It will cover the various warzones and home fronts, focusing as much as possible on conveying the experiences of participants through primary sources. It will likewise seek to bridge the analysis of the military and socio-political sides of this conflict, which are often treated as distinct, by drawing on key academic works in the field.

Requirements/Evaluation: Weekly meetings with professor and one peer partner; 5-page papers (6 total); 2-page critiques of partner's papers (6 total)

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History majors and Asian Studies concentration students, then everyone else.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 112(D2) ASIA 111(D2)

Writing Skills Notes: Students will alternate weekly between writing 5-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as
well as oral critiques from the professor and tutorial partners.

ASIA 209  (S) The Literature of Early China  (WS)

Cross-listings:  CHIN 217 / COMP 211

Secondary Cross-listing
From poems on forbidden trysts and tales of bloody battles to aphorisms about filial piety and essays on moral governance, the literature of early
China spans a wide range of topics and genres. In this course we will read, discuss, and write about literary works from the period stretching from
approximately 600 BCE to the end of the Han empire in the third century CE, including poems, narratives, and philosophical works. All readings will be
in English.

Requirements/Evaluation:  Evaluation is based on writing assignments (1 paragraph, 3-4 pages, 5-6 pages, and 8-10 pages) and participation in
class discussions.

Prerequisites:  None

Enrollment Limit:  19

Enrollment Preferences:  Current or prospective majors in the Department of Asian Languages, Literatures, and Cultures; current or prospective
majors in Comparative Literature; and current or prospective concentrators in Asian Studies.

Expected Class Size:  15

Grading:  yes pass/fail option,  yes fifth course option

Unit Notes:  Counts as a core elective for majors in Asian Languages, Literatures, and Cultures.

Distributions:  (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
CHIN 217(D1) ASIA 209(D1) COMP 211(D1)

Writing Skills Notes:  Students will write a series of progressively longer papers, each involving drafting, commenting, and revising.

Spring 2025
SEM Section: 01    MWF 11:00 am - 11:50 am     Christopher M. B. Nugent

ASIA 212  (F) Envisioning the Sacred: Representation and Religion in Christian and Muslim Cultures  (WS)

Cross-listings:  ARTH 215 / REL 211

Secondary Cross-listing
How did medieval Christians and pre-modern Muslims imagine the sacred and how did they give what they imagined pictorial form? How were these
pictures used, both in public and in private life, and why? How did the art of these unique religious traditions forge connections between the visible and
invisible worlds? Paying particular attention to the function and experience of works of art within Christian and Islamic cultures, this seminar examines
the evolution of devotional visual expression, while also exploring the problems sacred images generated in these distinct yet often overlapping
traditions. Through readings and class discussion, the course will investigate, among other topics: the varied attitudes toward the representability of
God in Judaism, Islam, and Christianity; the impact of earlier image traditions on the religious art of medieval Christians and pre-modern Muslims; the
cult of the devotional image, concerns over idolatry, and the destruction of images; ideas about spiritual versus physical vision and their influence on
the making and viewing of pictures; the relationship of sacred images to relics and to various aspects of organized ritual; and the possible roles played
by pictures of the sacred in silencing or giving voice to dissent.

Requirements/Evaluation:  Participation in class discussion; oral presentation; five 3-4-page papers, and a final 6-page paper

Prerequisites:  None

Enrollment Limit:  12

Enrollment Preferences:  Sophomores then juniors, but open to all
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option
Unit Notes: This seminar will be team taught, by Murad Mumtaz and Peter Low
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ASH 212(D1) ARTH 215(D1) REL 211(D2)

Writing Skills Notes: In this 200-level seminar, students will develop skills of critical reading and focus on how to craft clear and persuasive arguments of their own. To help them achieve these goals, they will receive timely comments on their written work, especially the five 3-4-page papers they will submit, with suggestions for improvement.

Attributes: ARTH pre-1800

Fall 2024

ASIA 325 (S) The Arts of the Book in Asia (WS)
Cross-listings: ARTH 325
Secondary Cross-listing
From palm leaf manuscripts to scrolls to Islamic codices, books have long served as vehicles of religious, cultural and artistic exchange in Asia. Owing both to their portability and status as finely crafted art objects, books have transmitted ideas across the continent, spreading courtly styles of painting from China to India, esoteric Buddhist teachings from Kashmir to Tibet and Mongolia, as well as the Quranic arts of calligraphy and illumination from Islamic South Asia to Southeast Asia. This co-taught seminar will highlight the interwoven history of book arts as it developed and disseminated across different regions of Asia. The course will also introduce students to the major art forms of the book, such as painting, calligraphy and illumination. The aim of the seminar is to understand the book as object while also investigating its content and its larger cultural significance. A number of class meetings will take place in the Chapin Library, where students will have the opportunity to study original manuscripts from the Special Collections. The course will culminate in an exhibition at Chapin Library which the students will curate using the Special Collections holdings.
Requirements/Evaluation: 3 essays, a final project/paper based on museum objects, wall label
Prerequisites: none
Enrollment Limit: 16
Enrollment Preferences: preference will be given to Art and Asian Studies Majors, and then to students of any major interested in the art and culture of Asia
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARTH 325(D1) ASIA 325(D1)

Writing Skills Notes: Over the course of the semester students will write three papers at five pages each, culminating in a well-developed, focused final project. Students will be given extensive feedback on each assignment regarding grammar, style, and argument. The final paper will be part of a larger project in which students will work together to curate a small exhibition using the Chapin Library's Asian holdings. Each student will be asked to write a wall label for their selected object.

Spring 2025
SEM Section: 01 MW 11:00 am - 12:15 pm Murad K. Mumtaz

ASIA 481 (F) History of Taiwan (WS)
Cross-listings: HIST 481
Secondary Cross-listing
Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation, or an "inalienable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C.. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. We will also examine contemporary arguments for Taiwan as part of China. The goal of the course is neither to debate nor resolve the "Taiwan question", but to explore the history and historical arguments that inform it.

Requirements/Evaluation: weekly papers and critiques
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: History and Asian Studies majors/concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
HIST 481(D2) ASIA 481(D2)

Writing Skills Notes: In this tutorial course, students will write bi-weekly 5- to 7-page papers with feedback from both the instructor and tutorial partner. Students will revise one of their tutorial papers as a final assignment. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

BIMO 401 (S) Topics in Biochemistry and Molecular Biology (WS)
This seminar course involves critical reading, analysis, and discussion of papers from the current biochemistry and molecular biology literature. Specific topics vary from year to year but are chosen to illustrate the importance of a wide range of both biological and chemical approaches to addressing important questions in the biochemical and molecular biological fields. To facilitate discussion, students will prepare written critiques analyzing the data and conclusions of the chosen literature.
Class Format: three hours per week
Requirements/Evaluation: class presentations and discussion, frequent short papers, and a final paper
Prerequisites: BIOL 202 and BIMO 321
Enrollment Limit: 12
Enrollment Preferences: those completing the BIMO concentration; open to others with permission of instructor
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)
Writing Skills Notes: The critical analysis of published papers in the biochem literature, as expressed in clear and succinct writing, is a key learning goal for the course. The students write seven literature critiques (typically 5-6 pages long) throughout the semester. While the specific topic each week differs, the parameters of the assignment are the same each time, allowing students to progressively improve their writing. I provide extensive written feedback on each critique, returned before the next due date
Attributes: BIMO Required Courses

Spring 2025
SEM Section: 01 W 1:10 pm - 3:50 pm Katie M. Hart
Animal communication systems come in as many varieties as the species that use them. What they have in common are a sender that encodes information into a physical signal and a receiver that senses the signal, extracts the information, and adjusts its subsequent behavior accordingly. This tutorial will consider all aspects of communication, using different animal systems to explore different aspects of the biology of signaling. Topics will include the use of syntax to carry meaning in chickadee calls, synchronous signaling by fireflies, gestural communication by primates, long-distance chemical attractants that allow male moths to find the object of their desire, and cultural evolution within learned signaling systems.

**Requirements/Evaluation:** evaluation will be based on five 5-page papers, five short response papers, and the student's effectiveness in tutorial discussions.

**Prerequisites:** BIOL 101 and 102; open to sophomores, juniors, and seniors

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

**Writing Skills Notes:** This course is a tutorial, and each student will write five position papers and five response papers. Extensive feedback will be provided; students will be required to rewrite one position paper, and may rewrite any of them.

**Attributes:** COGS Related Courses, NSCI Group A Electives
Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

Prerequisites: none

Enrollment Limit: 23

Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 319(D2) ENVI 351(D2) CAOS 351(D2)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

Attributes: ENVI Environmental Policy EXPE Experiential Education Courses POEC Depth
Primary Cross-listing

This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.

Class Format: Seminars, discussions, and field seminars

Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project

Prerequisites: None

Enrollment Limit: 27

Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors

Expected Class Size: 22

Grading: no pass/fail option, no fifth course option

Unit Notes: Offered only at Mystic Seaport

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 352(D2) CAOS 352(D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

COMP 106  (F)  Temptation  (WS)
Cross-listings: ENGL 107

Secondary Cross-listing
We want most those things we can't--or shouldn't--have. Or, to put it another way, it is when limitations are placed on our actions by law, religion, or the facts of our own biology that we experience desire most acutely. In this course, we will examine fictional narratives, lyric poems, and philosophical meditations in which people are tempted to act against their better judgement. Free will, ambition, temperance, suspense, despair, and repression will be our conceptual preoccupations. We will get to know such writers and artists as Homer, Euripides, Ovid, Augustine, Shakespeare, Donne, Milton, Laclos, Mozart, Freud, Frost, and Scorsese.

Requirements/Evaluation: Four five-page papers, in-class presentation, thoughtful participation in discussions
Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: First-year students who have not taken or placed out of a 100-level ENGL course
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 107(D1) COMP 106(D1)

Writing Skills Notes: Students will write four five-page papers, each of which will receive timely and extensive written feedback from the instructor. Students will be invited to discuss their papers with the instructor at the draft stage.

COMP 111  (F)(S)  The Nature of Narrative  (WS)
Cross-listings: ENGL 120

Primary Cross-listing
Narrative--storytelling--is a fundamental human activity. Narratives provide us with maps of how the world does or should or might work, and we make sense of our own experiences through the narratives we construct ourselves. This course examines the nature and functions of narrative using texts from a wide range of literary traditions, media, and genres. Readings may span classics (e.g. Homeric epic, The Tale of Genji, and/or the Popol Vuh), fiction ranging from nineteenth-century realism to postmodern experimentation (possibly including Kafka, Tolstoy, Toni Morrison, and/or Emile Habibi), and visual literature from film and drama to graphic memoir (possibly including Mizoguchi Kenji, Art Spiegelman, Alison Bechdel, and/or Joe Sacco). We may also read some short works of literary theory from around the world to help us broaden our idea of what literature can be and do. All readings in English.

Class Format: The second half of the course may incorporate a modified tutorial format, where small groups meet with the instructor once a week, with students' papers and responses forming the basis of the discussion.
**Requirements/Evaluation:** Regular attendance and participation in class; short and mid-length writing assignments spaced throughout the semester; revision of selected assignments after receiving instructor feedback.

**Prerequisites:** none

**Enrollment Limit:** 18

**Enrollment Preferences:** Comparative Literature majors, students considering a major in Comparative Literature, first-years, sophomores.

**Expected Class Size:** 18

**Grading:** yes pass/fail option, no fifth course option

**COMP 117 (F) Introduction to Cultural Theory** (WS)

**Cross-listings:** ENGL 117

**Secondary Cross-listing**

This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study "culture," what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word "culture" means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Laura Mulvey, but we will also, in order to put our new ideas to the test, watch several films (mostly of the class's choosing) and listen to a lot of rock and roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.

**Class Format:** discussion

**Requirements/Evaluation:** four formal writing assignments totaling 20 pages (three full essays + one lead-in assignment), informal writing twice weekly, class attendance and participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**This course is cross-listed and the prefixes carry the following divisional credit:**

COMP 117(D1) ENGL 117(D1)

**Writing Skills Notes:** Students will write three five- to seven-page papers, on which I will provide extensive feedback. Before writing their first papers, students will submit theses and introductions, which I will help them refine. We will hold three extra writing sessions, to discuss how best to organize arguments. Students will write informally before every class.

**Attributes:** AMST Critical and Cultural Theory Electives
COMP 161  (F)  Metafiction  (WS)

Cross-listings: ENGL 161

Secondary Cross-listing
This course will examine ways in which literary works reflect on their status as written texts. We'll look at the formal pleasures and puzzles generated by techniques including frame narratives, recursion, and self-reference, in novels, films, and stories by Vladimir Nabokov, Jorge Luis Borges, Kelly Link, Paul Park, and others. Ultimately, we will use our study of metafiction to focus inquiry into the socializing force of self-consciousness in human development. Note that students will be required to use, as well as interpret, metafictional techniques in their assigned writing, and will write one or two essays in collaboration with a Chat AI.

Requirements/Evaluation:  Several short exercises; four or five papers of increasingly complexity, totaling 22 pages; consistent attendance and participation; a love of reading, and a willingness to reread.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course; sophomores

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1)  (WS)

COMP 216  (S) Folk and Fairy Tales in Literature and Beyond (WS)
From cannibalistic crones in sugary cottages to frogs who can be transformed with a kiss, the English term "folktale" covers a broad range of stories that been beloved and belittled, transmitted and transformed for hundreds of years. This course will look broadly at folktales from different traditions, ranging from medieval China to early modern Europe and contemporary America. We will approach the folktale from a number of perspectives, including typologies; moral lessons embedded in tales; nationalism and the origins of folktale studies; modern transformations of old tales in new media such as film; and the often porous borders between the natural and the supernatural, the animal and the human, and the living and the dead. We will explore the way normative gender and ethnic roles are portrayed and sometimes undermined. We will also consider the complex literary histories of folktales, looking at sources, the interplay of oral and written traditions, folktales as alternative histories, notions of authorship, and the ways stories transform over time.

Requirements/Evaluation: Regular attendance and participation in class; multiple written assignments of varying lengths building towards a final paper of 10-12 pages.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will complete multiple writing assignments over the course of the semester that prepare them to produce a polished paper (10-12 pages) by the end of the semester. The final paper will be drafted in stages, and students will receive substantial feedback on these drafts as well as on other written assignments.

Spring 2025
SEM Section: 01    TR 11:20 am - 12:35 pm     Sarah M. Allen

COMP 227  (F) Outdoor Pools: Where Eros Meets Thanatos (WS)
In an outdoor swimming pool is where Eros meets Thanatos: in both F. Scott Fitzgerald's novel The Great Gatsby (1925) and Billy Wilder's movie Sunset Boulevard (U.S.A., 1950), the protagonists are shot dead in their pool, and in his adaptation of Romeo and Juliet (U.S.A., 1996) Baz Luhrmann transposes the balcony scene to an outdoor pool where romance unfolds. What is it about outdoor swimming pools that they irremediably capture our imagination? This interdisciplinary tutorial explores the function and significance of outdoor swimming pools in French, German, and U.S. culture through literature, painting, photography, and film. Whether we regard them as a symbol of status and wealth, the remnants of Hollywood's Golden Age era, the embodiment of order and discipline, or a major environmental impact factor, they nevertheless fascinate us. Because outdoor swimming pools, whether private or public, are a microcosm of society and a metaphor for human civilization, they have also been at the center of discussions about racial segregation and religious discrimination in Europe as well as in the U.S.A.. Although pools are mostly governed by tacit rules, such as respect for personal space and the desexualization of encounters, visitors have often disregarded and broken these regulations. That explains why outdoor swimming pools have often served as the perfect backdrop for literature and cinema's steamiest and most violent scenes. We will start the course with a brief social history of pools and read a few sociological studies of swimming pools by experts (Jeff Wiltse, Kate Moles, Susie Scott) to lay the theoretical ground for our analysis. In the course of the tutorial, we will explore through novels, photographs, paintings, and films the various functions assigned to outdoor swimming pools depending on the time period. We will also delve into the genre of summer pool side literature (the satirical Summer House with Swimming Pool (2011) by Hermann Koch, the thriller The Swimming Pool (2018) by Clare Mackintosh, and Julie Otsuka's latest novel, The Swimmers (2022)) and try to explain its great popularity. While the outdoor pool functions as a mirror of excess and decadence in the 1920's as evidenced by the lavish pool parties thrown by The Great Gatsby by F. Scott Fitzgerald (1925), it becomes the epitome of white middleclass suburban life in the 60's as John Cheever's short story The Swimmer narrates. During the 70's, the pool advances as a symbol of sexual liberation as the erotic thriller The Swimming Pool (France, 1969) by Jacques Deray, the sexually charged pool paintings Peter Getting Out of Nick's Pool (1966)
or Portrait of an Artist (Pool with Two Figures) (1972) by David Hockney, or the male nudes by Tom Bianchi in his Fire Island Pines: Polaroids 1975-1983 attest. In the 1980's the outdoor pool becomes once more the mirror of opulence and eroticism, which Helmut Newton's photographs of Hollywood celebrities (Liz Taylor swimming in her jewels) and for Playboy magazine capture as well as Paul Thomas Anderson's film Boogie Nights (U.S.A.,1997) about the booming porn industry during the Reagan-era. Starting in the late 90's, the outdoor swimming pool takes on greater political significance, largely due to the emergence and increasing visibility of female and gay filmmakers. In François Ozon's thriller Swimming Pool (France, 1996), the pool is the setting of female solidarity and feminist revenge. In her character study movie Everyone else (Germany, 2009), Maren Ade carefully examines how gender roles and stereotypes play out and get reinforced during a pool party. At last, in her recent comedy Freibad, (Germany, 2022) Doris Dorrie chooses a women-only public outdoor pool as the backdrop to raise questions of racial segregation and religious discrimination.

Requirements/Evaluation: six 5- to 7-page argumentative papers; six 2- to 3-page response papers; final paper optional

Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Freshmen, sophomores, and juniors
Expected Class Size: 8
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Each student will write five 5- to 7-page papers on which they will receive written feedback regarding grammar, style, and argument. Each student will write five 3-page critiques of their partners’ papers. As the final assignment, each student will revise one of their five papers.

Cross-listings: ENGL 228

Secondary Cross-listing

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

Requirements/Evaluation: Five four-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

Enrollment Limit: 19
Enrollment Preferences: First- and second-year students, and English majors who have yet to take a Gateway course
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 230(D1) ENGL 228(D1)

Writing Skills Notes: The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for
improvement.

**Difference, Power, and Equity Notes:** This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

**COMP 231 (F) Postmodernism (WS)**

**Cross-listings:** ENGL 266

**Primary Cross-listing**

In one definition, postmodernism in art and literature is what you get when you combine modernism’s radical experimentation with pop culture’s easy appeal. This term has been used to describe works from Andy Warhol’s paintings of Campbell’s soup cans and Jean Baudrillard’s critical essays on Disneyland to Murakami Haruki’s euphoric conspiracy novels. Theorists of the postmodern have argued that it represents not only a radical change in aesthetic sensibilities, but a fundamentally new relationship between art, language, and society. In this tutorial, we will read some of the most important theoretical essays defining the postmodern (essays which themselves often embrace this playful and sometimes ironic style), and we will pair them with artistic texts that are said to illustrate the features of postmodernism. The latter will be mainly novels and short stories from around the world, but one feature of this theory is a flattening of the distinction between high and low culture as well as between the written and the visual, so we will also examine examples from architecture, visual art, and/or broader pop culture. Texts will include essays by critics like Jean Baudrillard, Fredric Jameson, Jean-François Lyotard, and Azuma Hiroki; novels and short stories by writers like Don DeLillo, Italo Calvino, and Murakami Haruki; painting and sculpture associated with Pop Art and Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

**Class Format:** After an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week.

**Requirements/Evaluation:** participation plus 4 papers (4-5 pages), 2 short papers (1-2 pages), and 4 peer critiques (1 page)

**Prerequisites:** a previous literature or critical theory course at Williams plus sophomore standing or higher, or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Comparative Literature majors, students with a demonstrated interest

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 266(D1) COMP 231(D1)

**Writing Skills Notes:** Students will write several regularly spaced papers that build on one another by revisiting, extending, and/or rewriting earlier material. Students will receive detailed written feedback from the instructor on each paper, addressing argument, organization, and style, as well as written peer feedback on the longer papers. (See requirements for details about the number and type of assignments.)

**COMP 234 (S) Saharan Imaginations (DPE) (WS)**

**Cross-listings:** ARAB 209 / ENVI 208

**Secondary Cross-listing**

Deconstructing reductive Saharanism, which the course conceptualizes as a universalizing discourse about deserts, this course seeks to critically
examine the myriad assumptions that are projected upon deserts across times and cultures. In addition to their depiction as dead and empty, deserts have become a canvas for the demonstration of religiosity, resilience, heroism and athleticism. Cultural production, particularly literature and film, do, however, furnish a critical space in which important questions can be raised about deserts' fundamental importance to different cultures and societies. Drawing on novels, films, and secondary scholarship, the course will help students understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the desert sub-genre of African, Euro-American, and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to interrogate the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature.

Requirements/Evaluation: active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper
Prerequisites: none
Enrollment Limit: 14
Enrollment Preferences: If the course is over-enrolled, students will required to provide a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.
Expected Class Size: 14
Grading: no pass/fail option, no fifth course option
Distributions: (D1)  (DPE)  (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209(D1) COMP 234(D1) ENVI 208(D1)
Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.
Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

COMP 237 (F) Medieval Worlds  (WS)
While the word "medieval" was first used to designate the period in European history between the fall of Rome and the Renaissance, historians and literary scholars frequently use the term to label periods in other regions and cultures that not only overlap chronologically with the European Middle Ages, but also appear to share similarities in terms of technology, social structures, and religious orientation. In this course we will focus on how medieval literary works from multiple traditions represented past events both public and personal, from conflicts that impacted huge swathes of society to the minutiae of an individual's daily life. Readings will range from European verse epics such as the Anglo-Saxon poem Beowulf and a Chinese civil servant's poem on the destruction wrought by war to the memoirs of a Japanese court lady and a set of narratives about influential women of the past by the first professional female writer in Europe. We will explore the stories these works tell about historical (or purportedly historical) events and their claims to historicity or truthfulness, asking questions such as: In an age where information traveled very differently from how it does today, how did people form an understanding of recent and historical events? How did people create, experience, and transmit literary texts in different medieval cultures? What roles did religion play in texts that are not explicitly religious? What does it mean to think of the medieval as a category across different cultures?
Requirements/Evaluation: Requirements/Evaluation: Regular attendance and participation in class; multiple written assignments of varying lengths building towards a final paper of 10-12 pages.
Prerequisites: none
Enrollment Limit: 18
Enrollment Preferences: Comparative Literature majors
Expected Class Size: 10
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Writing skills justification: Multiple writing assignments over the course of the semester that prepare students to produce a polished essay of 10-12 pages by the end of the semester. The final paper will be drafted in stages, and students will receive substantial feedback on these drafts as well as on other written assignments.

COMP 265 (S)  Theories of Language and Literature  (WS)
Cross-listings: ENGL 209
Secondary Cross-listing
This course is made up of questions: What is literature and why would anyone want to study it? What can you figure out by examining language that you can't figure out by studying history or psychology? Do students of literature have distinctive ways of asking questions about the world? Why do we call some language literary? Can any language be literary if it appears in the right kind of book? Is there a difference between verbal forms of art and visual or auditory ones? Can novels do things that plays and poetry cannot? Why does anyone read poetry anyway?

Requirements/Evaluation: informal writing every week; three 6-page papers; class attendance and participation
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

COMP 268 (S)  The Contemporary African American and Latin American Novella  (WS)
Cross-listings: ENGL 243
Secondary Cross-listing
This tutorial examines how the novella has been deployed in the African American and Latin American contexts in our present century. Throughout the term, we will grow a vocabulary to understand how, from the perspective of craft, an elongated brevity can often lend itself, perhaps counterintuitively, to such an immersive reading experience. We will also contemplate why so many of the texts appear focused on countering established historical narratives. What unique possibilities does the form of the novella offer in this regard? In these explorations, we will encounter novellas from, among others, César Aira, Yuri Herrera, Jocelyn Nicole Johnson, Gayl Jones, John Keene, Bruna Dantas Lobato, Toni Morrison, and Alejandro Zambra. These readings will be paired with brief critical texts that will frame the essays to be written each week.

Requirements/Evaluation: five tutorial essays (4-5 pages); five responses to partners tutorial essays; thoughtful participation in tutorial meetings
Prerequisites: A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.
Enrollment Limit: 10
Enrollment Preferences: Sophomores, but juniors and seniors are also welcome.
Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 268(D1) ENGL 243(D1)

Writing Skills Notes: Beyond the quantity of assigned writing, significant class time will be spent covering strategies for effective and persuasive academic writing. Throughout the semester, students will receive written feedback from the instructor with specific suggestions for revision and improvement.

COMP 299 (F)(S) On Occupations: Work, Colonization and Contemporary Life (DPE) (WS)

Cross-listings: ENGL 294

Secondary Cross-listing

Reading political essays, critical theory, historiography, and literary works, in this course we will ask what thinking through the different senses of "occupation" can teach us about contemporary life. The course wagers that there is a connection between why some nations are or were "under" occupation and why, as individuals, all of us must "have" occupations. On the one hand, we will think about work: What does it mean to have an occupation today? There was a time when most people could distinguish between the time of work and that of leisure. But we live under a different regime. What now is the difference between work and leisure for those working "gigs"? In the case of "creatives," Bifo Berardi says, it is the soul itself that has been put to work. And then there are those who are unemployed, i.e., those occupied by the most widespread form of work there is--looking for work. On the other hand, we will ask questions about colonialism: Did not Europe's occupation of the globe birth this world in which the only way to live is to be occupied in a narrow sense, i.e., to always be working or looking for work? And isn't one economic function of the occupation of peoples in our own times to create a cheap workforce? Finally, we will ask what art and political organizing can teach us about a "de-occupied" life--a life after work, a life without colonization. Writers will include Marx, Jyotiba Phule, Du Bois, Raymond Williams, Premchand, M. E. O'Brien and Eman Abdelhadi, Bifo Berardi, David Graeber, Mahatma Gandhi, Rabindra Nath Tagore, Mahasweta Devi, Edward Said etc.

Requirements/Evaluation: Students will read 100-120 pages each week. Each student will do one classroom presentation about the week's readings. Other assignments include weekly journals, an annotated bibliography, a proposal, and a final paper.

Prerequisites: 100-level English course or a 5 on the AP literature exam, or permission of the instructor.

Enrollment Limit: 19

Enrollment Preferences: first-years and sophomores considering majoring in English or Comparative Literature, and English majors who have not yet taken a gateway course.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

Spring 2025

SEM Section: 01 W 1:10 pm - 3:50 pm Paresh Chandra
Poetry is usually associated with beautiful, metered, and charged language. However, beyond its poeticity, poetry has also functioned as a tool of liberation and transnational construction of identities and solidarities. States have national poets, and, in many countries, national anthems were written by famous poets. From Abu al-Qasim al-Shabbi and Claude McKay to Pablo Neruda, poetry has acted as a space for life, rebellion, resistance, revolution, and the defense of a common humanity that transcends the barriers of language and national aesthetics. This course draws on a variety of materials from the Caribbean to Africa and from the Middle East to India to conceptualize a “poetics of indignation” against slavery, social injustice, colonization, authoritarianism, capitalism, and globalization. The students in this course will read poets, such as Okot p'Bitek, Derek Walcott, Tsitsi Jaji, Mahmoud Darwish, and Pablo Neruda, among many other poets, to examine how poetics changed and shifted across times and geographic boundaries while retaining a commitment to indignation, rebellion, and anger at almost the same recurring oppressive forces.

Requirements/Evaluation: Two 5pp. midterm papers; a 1000-word reflection statement; weekly GLOW posts; one 10-minute presentation; active participation in the discussions in class.

Prerequisites: None

Enrollment Limit: 14

Enrollment Preferences: If the class is overenrolled, the students will submit a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 328(D2) COMP 335(D1) ARAB 320(D1)

Writing Skills Notes: The students in this course will receive intensive feedback on their writing. This includes writing two 5pp. papers as well as a 10pp. final paper. The students will submit weekly GLOW posts and a final reflection statement.

Difference, Power, and Equity Notes: The students will understand that poetry is a field in which power dynamics and imbalances of access to resources are reflected. They will also pay attention to who writes what and who publishes where in order to understand the imbrication of inequality within the institutions that produce, disseminate, and reward poets.
Enrollment Preferences: Theatre and English majors or prospective majors

Expected Class Size: 18

Grading: no pass/fail option, no fifth course option

COMP 369 (F) Indigenous Narratives: From the Fourth World to the Global South (DPE) (WS)

Cross-listings: HIST 306 / ARAB 369 / GBST 369

Primary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Amazigh poetics in the Maghreb, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? What is the connection between the recent "boom" of English translations of Indigenous texts and neoliberalism, multiculturalism and neo-colonialism? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10-pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 369(D1) HIST 306(D2) ARAB 369(D1) GBST 369(D2)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Attributes: GBST Borders, Exiles + Diaspora Studies
DANC 302  (S) Moving Words, Wording Dance  (DPE) (WS)

Cross-listings: ENGL 335

Primary Cross-listing

How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this tutorial, we will explore different modes of writing about performance such as ethnography, non-/fiction, and performative writing. While there will be skill-based goals and a set outline for the tutorial, core texts that will anchor the conversations and paired writing assignments will be selected according to the interests of enrolled students. Texts will be complemented with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

Class Format: enrollment in the course will require each student to have in-person or zoom meeting with the instructor before the first class meeting, and attendance in the first organizational meeting or class session.

Requirements/Evaluation: This tutorial is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

Prerequisites: none

Enrollment Limit: 8

Enrollment Preferences: Juniors and seniors, and those with specific interest in performance, creative, and analytical writing. Prior dance or performance experience not required.

Expected Class Size: 6

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 335(D1) DANC 302(D1)

Writing Skills Notes: Each student will write three 5- to 6- page papers on which the professor and peers will provide critical feedback on content, style, and form. After each cycle of feedback, students will have the option to submit a revision, and discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

Difference, Power, and Equity Notes: The monographs that will anchor the tutorial engage with politics of identity as it manifests in both staged and in everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So our inquiry throughout the semester will necessarily include how bodies “make meaning” in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.
draw on micro and macroeconomic concepts and simple empirical tools to understand and interpret the historical roots of the modern global economy.

**Class Format:** tutorial; weekly one hour meetings in groups of two

**Requirements/Evaluation:** evaluation will be based on five 5- to 6-page papers, critiques of fellow students’ papers, a longer revision of a paper, and engagement in discussion

**Prerequisites:** ECON 110 and ECON 120 or equivalent courses subject to instructor approval

**Enrollment Limit:** 10

**Enrollment Preferences:** first-year students and sophomores intending to major in Economics and/or History

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**Writing Skills Notes:** This tutorial course requires students to write five 5-7-page papers, to write 1-2 page responses to their tutorial partner’s papers, and to revise and extend one of their papers into a larger final paper of approximately 10-12 pages. Along the way, I offer detailed comments on all of their writing, with an eye towards producing a very polished final paper.

**Attributes:** GBST Economic Development Studies

---

**ECON 230 (S) The Economics of Health and Health Care** (WS)

What is health? How do we improve it? Health is an essential component of individual well-being and a fundamental input to a productive economy, making its production a societal priority, as well as an individual one. This course examines the economics of the supply and demand for health through applied microeconomic analysis. The course focuses on three broad areas: the inputs to health and the demand for health care; the structure and functioning of health care markets and the roles of key institutions; and the role of public policy in furthering individual and population health. Special attention will be devoted to topics of current policy interest, including health disparities, problems of health care costs and cost containment, health insurance reform and the Affordable Care Act, the role of public health interventions, and drug development and regulation.

**Class Format:** The class is a mixture of lecture and discussion.

**Requirements/Evaluation:** Several short papers, participation in class discussion, and a final research project and presentation.

**Prerequisites:** ECON 110 and a class in statistics

**Enrollment Limit:** 30

**Enrollment Preferences:** Economics majors who need a 200-level elective, Political Economy majors, and Public Health concentrators

**Expected Class Size:** 30

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (WS)

**Writing Skills Notes:** Students will write 3 policy memos over the course of the semester. Synthesis of peer-reviewed literature, use of citation management systems, and clarity in technical writing will be emphasized. Students will receive timely, substantial, individualized feedback to develop their technical writing ability over the course of the semester. Opportunities to meet with professor outside of class at any stage of writing.

**Attributes:** PHLH Decision-Making by Institutions + Individuals POEC Depth POEC Skills

**ECON 367 (S) The Political Economy of Social Insurance** (WS) (QFR)

The Great Society policies of the 1960s dramatically changed the ways people living in poverty interacted with the federal government, but the benefits associated with these policies seem to have stagnated. Since 1965, the annual poverty rate in the United States has hovered between 10% and 15%, though far more than 15% of Americans experience poverty at some point in their lives. In this course, we will study public policies that, explicitly or
implicitly, have as a goal improving the well-being of the poor in the United States. These policies include social insurance programs such as Unemployment Insurance; safety net programs such as Temporary Assistance to Needy Families, Supplemental Nutrition Assistance Program, Medicaid, and housing assistance; education programs such as Head Start and public education; and parts of the tax code, including the Earned Income Tax Credit and Child Tax Credit. We will explore the design and function of these programs, with a particular focus on the context in which they were developed. What political incentives and constraints have strung up our social safety net? How do these factors affect the goals of policy, the trade-offs inherent to the policy's design, and why poverty has not sustained a downward trend in the United States? Through careful consideration, students will learn how to communicate a path forward for public policy which accounts for theoretical economic expectations and the reality of political constraints in policy design.

**Class Format:** Lecture with substantial class discussion.

**Requirements/Evaluation:** Several short policy memos, participation in class discussion, and a final analytical essay.

**Prerequisites:** ECON 253 or 255

**Enrollment Limit:** 25

**Enrollment Preferences:** Students majoring in economics or political economy.

**Expected Class Size:** 25

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D2) (WS) (QFR)

**Writing Skills Notes:** Students will write 4 policy memos over the course of the semester followed by a longer, final analytical essay. Synthesis of peer-reviewed literature, use of citation management systems, and clarity in technical writing will be emphasized. Students will receive timely, substantial, individualized feedback to develop their technical writing ability over the course of the semester. Opportunities to meet with professor outside of class at any stage of writing.

**Quantitative/Formal Reasoning Notes:** This course will use quantitative tools of economics. Focus on building data visualization & science communication skills after ECON 255.

**ENGL 105 (F) American Girlhoods (DPE) (WS)**

**Cross-listings:** WGSS 105

**Primary Cross-listing**

The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

**Requirements/Evaluation:** at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 105(D2) ENGL 105(D1)

**Writing Skills Notes:** Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course considers the construction of girlhood in the United States along the axes of race, gender,
sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equality and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

Fall 2024
SEM Section: 01  TF 2:35 pm - 3:50 pm  Kathryn R. Kent

ENGL 107 (F) Temptation (WS)

Cross-listings: COMP 106

Primary Cross-listing

We want most those things we can’t–or shouldn’t–have. Or, to put it another way, it is when limitations are placed on our actions by law, religion, or the facts of our own biology that we experience desire most acutely. In this course, we will examine fictional narratives, lyric poems, and philosophical meditations in which people are tempted to act against their better judgement. Free will, ambition, temperance, suspense, despair, and repression will be our conceptual preoccupations. We will get to know such writers and artists as Homer, Euripides, Ovid, Augustine, Shakespeare, Donne, Milton, Laclos, Mozart, Freud, Frost, and Scorsese.

Requirements/Evaluation: Four five-page papers, in-class presentation, thoughtful participation in discussions

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: First-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 107(D1) COMP 106(D1)

Writing Skills Notes: Students will write four five-page papers, each of which will receive timely and extensive written feedback from the instructor. Students will be invited to discuss their papers with the instructor at the draft stage.

ENGL 108 (F)(S) Idleness & Insubordination: Literatures Against Work (WS)

Under the regime of idleness, to kill the time, which kills us second by second, there will be shows and theatrical performances always and always. --Paul Lafargue, "The Right to Be Lazy" What right do we have to stay in bed? To laze about in the heat of the day? What is the relationship between loafing and literary production? Departing from the ancient paradigm of otium (idleness, leisure, retirement) and negotium (work, service, activity), this course tracks the diversions and detours by which artists and writers have insisted on not keeping busy. We’ll consider the possibilities and limits of idleness in the space of the household and on Wall Street; we’ll read about people who literally wander and those who stay in place and say, “I prefer not to.” Encountering Virgil’s world-weary shepherd-songs, Shakespeare’s colonial imaginary, and contemporary meditations on pastoral retreat, we’ll ask after the difference between idleness as rest and idleness as protest. What poetic, narrative, and visual forms constitute an “idle aesthetic”? Alongside literature and a few films, we’ll dip into a selection of theoretical essays that think about how repeated refusals to work can cultivate new subjectivities under capitalism. What forms of creativity and community are developed when we withhold our labors? How do such forms resist and remake the world? Our inquiry will likely include works by Nanni Balestrini, Zora Neale Hurston, June Jordan, Clarice Lispector, Herman Melville, Andrew Marvell, Arthur Rimbaud, Ed Roberson, Ousmane Sembène, Agnès Varda, among others.

Requirements/Evaluation: 4-5 papers, with revisions; a creative assignment. Regular discussion posts, self-reflections, and annotation/journal-entries. Two conferences with instructor.

Prerequisites: None

Enrollment Limit: 19
Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Students will produce at least 20 pages of polished writing across the semester. We’ll devote class time regularly to discussing successful writing and revisions skills. Students will receive timely feedback on their assignments. As regular writing is part of an engaged reading practice, students will also be asked to do frequent short informal exercises (in class and out).

ENGL 112  (F)  Introduction to Literary Criticism  (WS)

What determines meaning? How we interpret is inevitably inflected by our own priorities and preoccupations, by the contexts in which we read, by literary and other conventions, and by the historical and personal circumstances of a work’s composition, as well as deriving from the particular words of a text and from the mutable life of language itself. So how to go about the task of reading literature well? This course will focus on key introductory methods and critical approaches, and is intended to develop your skills in reading, writing about, discussing and interpreting literary texts. Our initial readings--mainly short fiction and poetry, along with selected introductory work in critical theory--will invite increased self-consciousness about literary form, the functions of criticism, and the process of reading and interpretation. In the last weeks of the course, we will address longer texts, including at least one play, one novel and one film.

Requirements/Evaluation: Four papers rising from 3-6 pages, regular Glow posts, and contribution to class discussions.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: First-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Four papers, rising from 3 pages for the first, to 6 pages for the last. Regular postings on Glow. Extensive written feedback on longer papers, plus the option of revision.

SEM Section: 01    MR 1:10 pm - 2:25 pm    James L. Pethica

ENGL 113  (F)  The Feminist Poetry Movement  (DPE) (WS)

Cross-listings: AMST 113 / WGSS 113

Primary Cross-listing

Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating
necessary imaginative space in the world for expression, critique, and change.

**Class Format:** discussion, some lecture, project work in archives and art gallery

**Requirements/Evaluation:** two-three short analysis papers, creative (1-2 pages), curated final project (archival exhibit and digital project), presentations

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first years

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 113(D2) ENGL 113(D1) WGSS 113(D2)

**Writing Skills Notes:** Writing skills taught through a series of assignments evenly spaced throughout the semester: two to three four-to-five-page graded papers, one creative assignment, and a final digital research project (8-10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

**Difference, Power, and Equity Notes:** The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

---

**ENGL 117 (F) Introduction to Cultural Theory** (WS)

**Cross-listings:** COMP 117

**Primary Cross-listing**

This course has a clear purpose. If you had signed up for a course in biology, you would know that you were about to embark on the systematic study of living organisms. If you were registered for a course on the American Civil War, you would know that there had been an armed conflict between the northern and southern states in the 1860s. But if you decide you want to study "culture," what exactly is it that you are studying? The aim of this course is not to come up with handy and reassuring definitions for this word, but to show you why it is so hard to come up with such definitions. People fight about what the word "culture" means, and our main business will be to get an overview of that conceptual brawl. We will pay special attention to the conflict between those thinkers who see culture as a realm of freedom or equality or independence or critical thought and those thinkers who see culture as a special form of bondage, a prison without walls. The course will be organized around short theoretical readings by authors ranging from Matthew Arnold to Laura Mulvey, but we will also, in order to put our new ideas to the test, watch several films (mostly of the class's choosing) and listen to a lot of rock and roll. Why do you think culture matters? Once you stop to pose that question, there's no turning back.

**Class Format:** discussion

**Requirements/Evaluation:** four formal writing assignments totaling 20 pages (three full essays + one lead-in assignment), informal writing twice weekly, class attendance and participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

COMP 117(D1) ENGL 117(D1)

**Writing Skills Notes:** Students will write three five- to seven-page papers, on which I will provide extensive feedback. Before writing their first papers, students will submit theses and introductions, which I will help them refine. We will hold three extra writing sessions, to discuss how best to organize arguments. Students will write informally before every class.

ENGL 120  (F)(S)  The Nature of Narrative  (WS)

**Cross-listings:** COMP 111

**Secondary Cross-listing**

Narrative--storytelling--is a fundamental human activity. Narratives provide us with maps of how the world does or should or might work, and we make sense of our own experiences through the narratives we construct ourselves. This course examines the nature and functions of narrative using texts from a wide range of literary traditions, media, and genres. Readings may span classics (e.g. Homeric epic, *The Tale of Genji*, and/or the *Popol Vuh*), fiction ranging from nineteenth-century realism to postmodern experimentation (possibly including Kafka, Tolstoy, Toni Morrison, and/or Emile Habibi), and visual literature from film and drama to graphic memoir (possibly including Mizoguchi Kenji, Art Spiegelman, Alison Bechdel, and/or Joe Sacco). We may also read some short works of literary theory from around the world to help us broaden our idea of what literature can be and do. All readings in English.

**Class Format:** The second half of the course may incorporate a modified tutorial format, where small groups meet with the instructor once a week, with students' papers and responses forming the basis of the discussion.

**Requirements/Evaluation:** Regular attendance and participation in class; short and mid-length writing assignments spaced throughout the semester; revision of selected assignments after receiving instructor feedback.

**Prerequisites:** none

**Enrollment Limit:** 18

**Enrollment Preferences:** Comparative Literature majors, students considering a major in Comparative Literature, first-years, sophomores.

**Expected Class Size:** 18

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 111(D1) ENGL 120(D1)

**Writing Skills Notes:** Multiple writing assignments that build upon each other, including drafts and revisions, with substantial individualized feedback on writing from the instructor.

SEM Section: 01  TR 8:30 am - 9:45 am  Sarah M. Allen

ENGL 123  (S)  The Short Story  (WS)

The reading for this course will consist entirely of short stories by such writers as Poe, Hawthorne, James, Doyle, Hemingway, Faulkner, Gilman, Chopin, Cather, Toomer, McCullers, O'Connor, Borges, Nabokov, Kincaid, Saunders, Diaz, and Shepard. We will read one or two per class meeting; at the end of the course, we’ll be reading one collection, by Raymond Carver. Reading short stories will allow us to pay close attention to the form of
our texts, and to paragraphs, sentences, and words. The premise of the essays you will write is that short stories and short essays are both arts based on controlling the release of information and meaning, and that studying the two genres together will have reciprocal benefits for reading and writing.

Class Format: class meetings will be devoted almost entirely to discussion

Requirements/Evaluation: grades will be based on the five formal writing assignments, with rewards for improvement, plus class participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who have not taken a 100-level English course; then sophomores who have not taken a 100-level English course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: There will be five formal writing assignments, totaling about twenty pages. My response to each paper will include extensive marginal comments on technical issues, and a typed page of comments on the ideas and structure of the paper as a whole. Final grades will be determined by both the student's intellectual engagement and his or her increasing mastery of the art of writing essays.

Attributes: ENGL Creative Writing Courses

ENGL 138 (S) What is a Self? Investigations in Literature, Philosophy, and Psychology (WS)

The experience of having a self (or a subjective point of view) informs and colors literally everything we think, see, and feel. And yet what is a self? Is it the unchanging essence of who we are as individuals? Or is it the historically contingent product of ever-changing cultural and political forces (like the media, gender norms, and ideologies about race, to name just a few)? Or, perhaps, is the belief that we have a self just one big illusion, as the Buddha suggested millennia ago and as modern philosophers and scientists have argued in their own different ways more recently? In this class, we'll explore the deep mystery of human existence that we call "the self" or "subjectivity," looking at various attempts to capture, represent, and explain it (even escape it!). Our investigations will be wide-ranging, looking at examples from literature, philosophy, religion, and psychology. Works we'll study include: Tim O'Brien's *The Things They Carried*, Toni Morrison's *Beloved*, and theoretical writings on the self by Plato, Thoreau, and Jean-Paul Sartre among others. We'll even try our hand at meditation, while learning about the Buddhist idea of "no self." Students who genuinely find the experience of the self puzzling and fascinating will get the most out of this class. Bring an open mind about what it is to have a mind in the first place.

Requirements/Evaluation: four essays totaling 18-20 pages; active class participation; participation in other short informal writing assignments.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-year students who have not taken or placed out of a 100-level ENGL course

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Four essays (ranging in length from 4-6 pages long) in multiple drafts, adding up to 18-20 pages total. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2025
SEM Section: 01 MR 1:10 pm - 2:25 pm Bernard J. Rhie

ENGL 150 (F)(S) Expository Writing (WS)

Writing clearly is the most important skill you can learn in college. Do you suffer from writer's block? Do you receive consistent criticism of your writing without also learning strategies for how to improve? This course is for students who want to learn how to write a well-argued, intelligible essay that offers a complex interpretive argument based on close, critical analysis of texts. We will derive our method for mastering the complex art of writing from Atul Gawande's bestselling book, *The Checklist Manifesto*. In addition to sharpening your skills in reading, note-taking and literary analysis, this
class will give you tools for generating drafts, peer editing, revising, and polishing your writing. The readings for this course will be literary works, scholarly essays and nonfiction -- mostly contemporary, and mostly American.

Requirements/Evaluation: Requirements include active class participation (including peer-editing), drafts and revisions of four to five papers totaling at least 20 pages. Overall evaluation will include improvement and effort.

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: first-year students, especially students with demonstrated need for help with analytical writing

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: This course is devoted to the study of writing, focusing especially on expository essays. Four to five papers are assigned, totaling at least 20 pages. Special attention will be paid to drafts, revision and building peer editing skills. Regular, one-on-one meetings with professor will be encouraged.

SEM Section: 01 TF 2:35 pm - 3:50 pm Cassandra J. Cleghorn

ENGL 153 (S) Androids, Cyborgs, Selves (WS)

Cross-listings: STS 153

Primary Cross-listing

In this expository writing course, we will analyze and argue about how humanoid and partly human bodies appear in legend, fiction, and film. When are these bodies inviting? When are they threatening? How are they gendered, how are they raced, and why? Which technologies fit easily into human forms, and which are resistant? What do the persons who inhabit these near-human bodies desire? Students in this course will develop arguments in reply to these and related questions, developing 3 or 4 essays through multiple stages of planning, drafting, and revising. Because this is an expository writing seminar, we will spend half or more of our class time discussing and practicing writing skills.

Requirements/Evaluation: several response papers (500 words); three or four essays (1200-1500 words, in multiple drafts); class participation

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: See details for ENGL 100-level courses on English Department Website.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 153(D2) ENGL 153(D1)

Writing Skills Notes: This expository writing course is dedicated to facilitating real improvement in students' written argumentative work. Students will write and revise response papers and 5-page essays (in multiple drafts) over the course of the semester, receiving substantial instructor feedback. Students will practice: drafting, revising, and responding to critique; writing appropriately for given occasions and audiences; grounding their writing in close, analytical reading; and acknowledging sources.

Spring 2025

SEM Section: 01 TR 8:30 am - 9:45 am Ezra D. Feldman

ENGL 156 (F) New American Fiction (WS)

The goal of this course is to teach you how to write a clear, well-argued, and interesting analytical paper. We will spend most of our class time actively
engaged in a variety of techniques to improve your critical reasoning and analytical skills, both written and oral. Though the skills you learn will be applicable to other disciplines, and a central purpose of the course is to improve all aspects of your writing, this is a literature class, designed partly to prepare you for upper level courses in the English Department, so we will, therefore, spend equal time on the interpretation of literature, in this case, contemporary American fiction, examining the very, very recent (last thirty years) developments in American fiction. We will read short stories and novels by writers such as Danielle Evans, George Saunders, Kali Fajardo-Anstine, Mary Robison, Karen Russell, ZZ Packer, Ocean Vuong, Yiyun Li, among others.

**Requirements/Evaluation:** Active participation, written and verbal comments on published and peer work, five essays (2-7 pages each, most in multiple drafts, including a final radical revision of an essay of the student's choice).

**Prerequisites:** None

**Enrollment Limit:** 12

**Enrollment Preferences:** First-Year students

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Five essays ranging from 2-7 pages each, most in multiple drafts. Students will receive extensive written comments on their writing skills, with suggestions for improvement, and may choose to meet with the professor individually outside of class as often as they'd like. Students will also comment (verbal and written) on published work and their peers’ drafts, operating under the assumption that becoming a better writer involves becoming a better reader.

Fall 2024

SEM Section: 01  MR 1:10 pm - 2:25 pm  Karen L. Shepard

**ENGL 161 (F) Metafiction (WS)**

**Cross-listings:** COMP 161

**Primary Cross-listing**

This course will examine ways in which literary works reflect on their status as written texts. We'll look at the formal pleasures and puzzles generated by techniques including frame narratives, recursion, and self-reference, in novels, films, and stories by Vladimir Nabokov, Jorge Luis Borges, Kelly Link, Paul Park, and others. Ultimately, we will use our study of metafiction to focus inquiry into the socializing force of self-consciousness in human development. Note that students will be required to use, as well as interpret, metafictional techniques in their assigned writing, and will write one or two essays in collaboration with a Chat AI.

**Requirements/Evaluation:** Several short exercises; four or five papers of increasingly complexity, totaling 22 pages; consistent attendance and participation; a love of reading, and a willingness to reread.

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** first-year students who have not taken or placed out of a 100-level ENGL course; sophomores

**Expected Class Size:** 19

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

COMP 161(D1) ENGL 161(D1)

**Writing Skills Notes:** Students write five essays with considerable feedback from the instructor.

Fall 2024

SEM Section: 01  TF 1:10 pm - 2:25 pm  Shawn J. Rosenheim

**ENGL 209 (S) Theories of Language and Literature (WS)**
Cross-listings: COMP 265

Primary Cross-listing

This course is made up of questions: What is literature and why would anyone want to study it? What can you figure out by examining language that you can't figure out by studying history or psychology? Do students of literature have distinctive ways of asking questions about the world? Why do we call some language literary? Can any language be literary if it appears in the right kind of book? Is there a difference between verbal forms of art and visual or auditory ones? Can novels do things that plays and poetry cannot? Why does anyone read poetry anyway?

Requirements/Evaluation: informal writing every week; three 6-page papers; class attendance and participation

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 265(D1) ENGL 209(D1)

Writing Skills Notes: Informal writing before every class (about 500 words); three 6-page essays, plus a lead-in assignment on which the professor comments; two special writing sessions; fifteen pages of writing advice. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

ENGL 221 (S) Hip Hop Culture (DPE) (WS)

Cross-listings: AMST 222 / AFR 222 / MUS 217

Secondary Cross-listing

The course examines how young people of color created hip hop culture in the postindustrial ruins of New York City, a movement that would eventually grow into a global cultural industry. Hip hop music producers have long practiced "diggin' in the crates"--a phrase that denotes searching through record collections to find material to sample. In this course, we will examine the material and technological history of hip hop culture, with particular attention to hip hop's tendency to sample, remix, mash-up, and repurpose existing media artifacts to create new works or art. We will use a media archaeological approach to examine the precise material conditions that first gave rise to graffiti art, deejaying, rapping, and breakdancing, and to analyze hip hop songs, videos, and films. Media archaeology is a critical and artistic practice that seeks to interpret the layers of significance embedded in cultural artifacts. How does hip hop archaeology remix the past, the present, and the future? How do the historical, political, and cultural coding of hip hop artifacts change as they increasingly become part of institutional collections, from newly established hip hop archives at Cornell and Harvard to the Smithsonian National Museum of African American History and Culture?

Requirements/Evaluation: Four papers, project with presentation, and a final exam.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: AMST majors or prospective majors

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 222(D2) ENGL 221(D1) AFR 222(D2) MUS 217(D1)

Writing Skills Notes: Students in this course develop a capacity to write generative arguments in an interdisciplinary scholarly context. Students will receive feedback not only on structure, substance, and style, but also on how to best build a line of inquiry, how to gather high-quality evidence, and how to make one's thinking productively intersect with more than one scholarly or creative field.
**Difference, Power, and Equity Notes:** This course requires students to use an effective descriptive and critical vocabulary to discuss and analyze artifacts of hip hop culture, with attention to race, gender, class, sexuality, and other categories of social difference. They must understand the material, technological, historical, and cultural contexts that gave rise to hip hop culture, and proficiently synthesize scholarly perspectives related to the formation and transformations of hip hop from the early 70s to the early 21st cent.

**ENGL 228** (S) **The Renaissance in England and the European Continent: Self and World** (DPE) (WS)

**Cross-listings:** COMP 230

**Primary Cross-listing**

At the same time as the individual human being in possession of a distinctive personality was taking on enormous importance in politics, philosophy, literature, and the visual arts, early modern Europeans were encountering unprecedented levels of cultural diversity. In this interdisciplinary course, we will consider these two developments both separately and together. As Renaissance humanists were acquiring a sophisticated understanding of the distance between the present and various European pasts (the recent medieval past and the remote history of antiquity), they were also coming into contact with non-European cultures in Africa, the Americas, and Asia via trade and economic development, imperial expansion, and religious conversion. Always at stake in these encounters was the question of who counted as an individual; the self was not considered to be intrinsic to human nature but rather the product of historical and cultural developments. Themes will include religious pluralism, the sacred and the secular, vernacularity, exploration and empire, the relationship between mind and body, slavery, trade, wealth, gender, self-fashioning, and style. We will consider such English writers as the Pearl poet, More, Marlowe, Spenser, Shakespeare, Browne, and Milton; such continental intellectuals as Descartes, Erasmus, Las Casas, and Castiglione; and such continental artists as Michelangelo, Velázquez, Bruegel, and Rembrandt.

**Requirements/Evaluation:** Five four-page papers, in-class presentation, thoughtful participation in discussions

**Prerequisites:** A 100-level ENGL course, a score of 5 on the AP English Literature exam, a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** First- and second-year students, and English majors who have yet to take a Gateway course

**Expected Class Size:** 19

**Grading:** no pass/fail option, yes fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

COMP 230(D1) ENGL 228(D1)

**Writing Skills Notes:** The course asks students to write five four-page papers and offers exposure to a range of humanistic modes, from close reading to visual analysis to the exposition of philosophical claims. One paper will involve independent research. The instructor will provide frequent and extensive written feedback on student work. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

**Difference, Power, and Equity Notes:** This course examines the role of historical and cultural difference within and beyond Europe at the very beginning of globalization. Students will become acquainted with the origins of colonialism and the global traffic in slaves, as well as with the complex role of writers and intellectuals in questioning, defending, and imagining these practices. We will consider the epistemological challenges of accessing the testimony of subordinated persons.

**ENGL 238** (F) **1930s Black Literature** (WS)
Cross-listings: AFR 260

Primary Cross-listing

This course explores Black literary output of the 1930s in all its forms with the belief that this often under-appreciated decade contains many of the impulses that would come to structure the literary landscape in the decades that follow. These include an unflinching embrace of humor and satire, engagements with social realism, and a keen attention to notions of the radical in the international context. Special attention will be paid to how the writing pushes away from the development of what we have come to understand as the Harlem Renaissance of the 1920s. Work to be considered throughout the term comes from, among others, Marita Bonner, Arna Bontemps, Sterling Brown, Langston Hughes, Zora Neal Hurston, George Schuyler, Dorothy West, Richard Wright, and Octavia Wynbush.

Requirements/Evaluation: weekly reading responses, active class participation, two close readings (500 words each), annotated bibliography, class presentation, final paper (8-10 pages)

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 260(D2) ENGL 238(D1)

Writing Skills Notes: Beyond the quantity of assigned writing, significant class time will be spent covering strategies for effective and persuasive academic writing. Throughout the semester, students will receive written feedback from the instructor with specific suggestions for revision and improvement.

ENGL 240 (F) What is a Novel? (WS)

What is a novel? Where did novels come from? Why would anyone invent such a thing in the first place? This course is an introduction to the ways literary critics have attempted to give a genre as hard-to-pin down as the novel a theoretical framework. For a long time, nobody thought the novel even needed a theory--too popular, too loose and baggy to be thought of as any one thing. Today, novel theory is legion. To name a few, one can find theories of the novel that identify themselves as formalist, psychoanalytic, post-structuralist, Marxist, historical, and post-colonial, as well as accounts that emphasize sexuality and gender, for example, or the novel's trans-national development. We will move back and forth from the theory of the novel to its practice in order to see how the novel and its understanding have changed over the past 200 or so years. We'll center our studies in the Age of the Novel in Britain, the 19th century (Jane Austen, Charles Dickens), and extend our investigations to one of its contemporary heirs (Sally Rooney). Theorists will include Bakhtin, Benjamin, Marx, Lukacs, Barthes, Ian Watt, Jameson, Sedgwick, Said, Bersani, Moretti.

Requirements/Evaluation: 4 papers; weekly posts to glow; regular, substantial, and intensive participation in class discussion.

Prerequisites: a 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam

Enrollment Limit: 19

Enrollment Preferences: first- and second-year students, and English majors who have yet to take a Gateway course

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: You will write 4 papers, totaling around 20-25 pages, with opportunities for revision following feedback.

Fall 2024
ENGL 243  (S)  The Contemporary African American and Latin American Novella  (WS)

Cross-listings: COMP 268

Primary Cross-listing

This tutorial examines how the novella has been deployed in the African American and Latin American contexts in our present century. Throughout the term, we will grow a vocabulary to understand how, from the perspective of craft, an elongated brevity can often lend itself, perhaps counterintuitively, to such an immersive reading experience. We will also contemplate why so many of the texts appear focused on countering established historical narratives. What unique possibilities does the form of the novella offer in this regard? In these explorations, we will encounter novellas from, among others, César Aira, Yuri Herrera, Jocelyn Nicole Johnson, Gayl Jones, John Keene, Bruna Dantas Lobato, Toni Morrison, and Alejandro Zambra. These readings will be paired with brief critical texts that will frame the essays to be written each week.

Requirements/Evaluation: five tutorial essays (4-5 pages); five responses to partners tutorial essays; thoughtful participation in tutorial meetings

Prerequisites: A 100-level ENGL course, or a score of 5 on the AP English Literature exam, or a score of 6 or 7 on the Higher Level IB English exam, or permission of the instructor.

Enrollment Limit: 10

Enrollment Preferences: Sophomores, but juniors and seniors are also welcome.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 266  (F)  Postmodernism  (WS)

Cross-listings: COMP 231

Secondary Cross-listing

In one definition, postmodernism in art and literature is what you get when you combine modernism's radical experimentation with pop culture's easy appeal. This term has been used to describe works from Andy Warhol's paintings of Campbell's soup cans and Jean Baudrillard's critical essays on Disneyland to Murakami Haruki’s euphoric conspiracy novels. Theorists of the postmodern have argued that it represents not only a radical change in aesthetic sensibilities, but a fundamentally new relationship between art, language, and society. In this tutorial, we will read some of the most important theoretical essays defining the postmodern (essays which themselves often embrace this playful and sometimes ironic style), and we will pair them with artistic texts that are said to illustrate the features of postmodernism. The latter will be mainly novels and short stories from around the world, but one feature of this theory is a flattening of the distinction between high and low culture as well as between the written and the visual, so we will also examine examples from architecture, visual art, and/or broader pop culture. Texts will include essays by critics like Jean Baudrillard, Fredric Jameson, Jean-François Lyotard, and Azuma Hiroki; novels and short stories by writers like Don DeLillo, Italo Calvino, and Murakami Haruki; painting and sculpture associated with Pop Art and Superflat; the architecture of Williamstown-area museums; etc. Writing assignments will focus on reading the theoretical texts closely and applying their ideas to the artistic texts in creative and interesting ways. Open to sophomores as well as advanced students.

Class Format: After an introductory lecture meeting, students will meet with the instructor in pairs for approximately an hour each week.

Requirements/Evaluation: participation plus 4 papers (4-5 pages), 2 short papers (1-2 pages), and 4 peer critiques (1 page)

Prerequisites: a previous literature or critical theory course at Williams plus sophomore standing or higher, or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Comparative Literature majors, students with a demonstrated interest
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENGL 266(D1) COMP 231(D1)

Writing Skills Notes: Students will write several regularly spaced papers that build on one another by revisiting, extending, and/or rewriting earlier material. Students will receive detailed written feedback from the instructor on each paper, addressing argument, organization, and style, as well as written peer feedback on the longer papers. (See requirements for details about the number and type of assignments.)

Fall 2024
TUT Section: T1 TBA Christopher A. Bolton

ENGL 293 (S) "Make it New": The Modernist Experiment (WS)
In her essay "Mr. Bennett and Mrs. Brown" (1924), Virginia Woolf proposed that around 1910 "human character" itself had suddenly changed, rendering existing conventions "in religion, conduct, politics, and literature" no longer adequate to express the new age. "And so the smashing and the crashing began. Thus it is that we hear all around us, in poems and novels . . . the sound of breaking and falling, crashing and destruction." This course will explore the effort of artists in the decade or so before and after World War I to "make it new." We will read work by Conrad, Yeats, Frost, Pound, Joyce, T.S.Eliot, Mansfield, Woolf, Faulkner, Wallace Stevens, William Carlos Williams and others, and chart the range of innovative narrative and formal strategies Modernist writers adopted in their efforts to represent consciousness, experience, memory and the objective world more fully and accurately in an era of massive social, political and technological change. We will also consider some non-print media, including developments in the visual arts from the post-impressionists through to the surrealists, the work of the Bahaus, and early experiments in film.
Requirements/Evaluation: Active class participation; three papers rising from 3-7 pages; regular short reading responses
Prerequisites: none

ENGL 294 (F)(S) On Occupations: Work, Colonization and Contemporary Life (DPE) (WS)
Cross-listings: COMP 299
Primary Cross-listing
Reading political essays, critical theory, historiography, and literary works, in this course we will ask what thinking through the different senses of "occupation" can teach us about contemporary life. The course wagers that there is a connection between why some nations are or were "under" occupation and why, as individuals, all of us must "have" occupations. On the one hand, we will think about work: What does it mean to have an occupation today? There was a time when most people could distinguish between the time of work and that of leisure. But we live under a different regime. What now is the difference between work and leisure for those working "gigs"? In the case of "creatives," Bifo Berardi says, it is the soul itself
that has been put to work. And then there are those who are unemployed, i.e., those occupied by the most widespread form of work there is--looking for work. On the other hand, we will ask questions about colonialism: Did not Europe's occupation of the globe birth this world in which the only way to live is to be occupied in a narrow sense, i.e., to always be working or looking for work? And isn't one economic function of the occupation of peoples in our own times to create a cheap workforce? Finally, we will ask what art and political organizing can teach us about a "de-occupied" life--a life after work, a life without colonization. Writers will include Marx, Jyotiba Phule, Du Bois, Raymond Williams, Premchand, M. E. O'Brien and Eman Abdelhadi, Bifo Berardi, David Graeber, Mahatma Gandhi, Rabindra Nath Tagore, Mahasweta Devi, Edward Said etc.

Requirements/Evaluation: Students will read 100-120 pages each week. Each student will do one classroom presentation about the week's readings. Other assignments include weekly journals, an annotated bibliography, a proposal, and a final paper.

Prerequisites: 100-level English course or a 5 on the AP literature exam, or permission of the instructor.

Enrollment Limit: 19

Enrollment Preferences: first-years and sophomores considering majoring in English or Comparative Literature, and English majors who have not yet taken a gateway course.

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 294(D1) COMP 299(D1)

Writing Skills Notes: Students will write over 20 pages in the semester and they will receive extensive feedback.

Difference, Power, and Equity Notes: Students will read and discuss texts about the organization of power in contemporary society. They will reflect upon the economic structures that underpin a range of oppressive social forms.

ENGL 316 (F) Unfinishing America (DPE) (WS)

Cross-listings: AMST 326

Secondary Cross-listing

The Great American Novel is a moribund cliché. Few would argue that any one work of fiction could capture the essence of American life. In this class, we will flip the Great American Novel on its head by reading Ralph Ellison's unfinished second novel. After publishing the acclaimed Invisible Man in 1952, Ellison seemed poised to deliver the next Great American Novel. But he never did. When he died in 1994, 42 years later, he left behind thousands of pages of material, but no finished second novel. Why wasn't he able to finish it? Some of it was bad luck. Some of it was a struggle with genre and form. However, perhaps the real reason Ellison's novel proved impossible is what it was trying to say. This is a book about the historical trauma of racism. Therefore, the thesis of this class is that the Great American Novel cannot be written as long as American history remains whitewashed. Ellison's manuscript shows this in surprising ways, from its depiction of racial passing and the taboo of interracial sex to its extended exploration of Black and Indigenous cultures in the former Oklahoma Territory. In addition to Ellison, we will read the work of the Chicano author Tomás Rivera, whose fragmentary fictions provoke similar questions. This class culminates in a final project that asks students to "unfinish" an American cultural object.

Requirements/Evaluation: Assignments include a daily free-writing exercise, graded note-taking, three 1-2-page reflective essays, two brief creative writing assignments, and a final creative project.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: AMST majors, then juniors and sophomores

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option
This course is cross-listed and the prefixes carry the following divisional credit:

**ENGL 316(D1)** **AMST 326(D2)**

**Writing Skills Notes:** Each student will be responsible for producing a reader's guide to Ellison's unfinished second novel. Students will write, rewrite, and revise their reader's guide throughout the semester. Three drafts will be due throughout the semester. A quality reader's guide will highlight the book's main themes, profile the main characters, and retrace the book's development. Students will also complete one draft of a guide to Rivera's novella, due at the end of the semester.

**Difference, Power, and Equity Notes:** "Unfinishing America" satisfies the Difference, Power and Equity requirement because it calls into question mainstream American culture from Black, Chicano, and Indigenous perspectives. It interrogates the relations of power that have driven American history, from the Civil War and Westward expansion in the 19th century to the struggle for Civil Rights against Jim Crow in the 20th. Finally, it asks what it would mean to have true equity amidst great diversity in American culture.

**Attributes:** AMST Arts in Context Electives **AMST Comp Studies in Race, Ethnicity, Diaspora**

---

**ENGL 335 (S) Moving Words, Wording Dance (DPE) (WS)**

**Cross-listings:** DANC 302

**Secondary Cross-listing**

How can we capture the "liveness" of dance and performance through writing? How can the spoken and written word promote a deeper understanding of felt emotions expressed through embodied practice? In this tutorial, we will explore different modes of writing about performance such as ethnography, non-/fiction, and performative writing. While there will be skill-based goals and a set outline for the tutorial, core texts that will anchor the conversations and paired writing assignments will be selected according to the interests of enrolled students. Texts will be complemented with visual materials and/or virtual conversation with artist-scholars to encourage a multilayered experience with writing about performance. The course is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

**Class Format:** enrollment in the course will require each student to have in-person or zoom meeting with the instructor before the first class meeting, and attendance in the first organizational meeting or class session.

**Requirements/Evaluation:** This tutorial is reading and writing intensive, and oriented towards juniors, seniors, and those with deep interest in analytical and creative writing. Students will (i) read several monographs during the semester, (ii) produce creative and critical writing (at least 5-6 pages every two weeks and a longer final essay) (iii) be committed to the peer review and revision process of their own work and that of their writing partners, and (iv) participate in discussions about course materials and reflections about their writing process.

**Prerequisites:** none

**Enrollment Limit:** 8

**Enrollment Preferences:** Juniors and seniors, and those with specific interest in performance, creative, and analytical writing. Prior dance or performance experience not required.

**Expected Class Size:** 6

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

**ENGL 335(D1) DANC 302(D1)**

**Writing Skills Notes:** Each student will write three 5- to 6-page papers on which the professor and peers will provide critical feedback on content, style, and form. After each cycle of feedback, students will have the option to submit a revision, and discuss the revision process and the revised paper. As the final assignment, students will select one of the three papers to develop into a longer essay, which will be 10-15 pages.

**Difference, Power, and Equity Notes:** The monographs that will anchor the tutorial engage with politics of identity as it manifests in both staged and in everyday performances. The introductory points of exploration and the objects of analysis in the course are bodies in motion. So our inquiry
throughout the semester will necessarily include how bodies "make meaning" in a network of power relationships within the context of historical associations to markers of race, class, gender, sexuality, and socially constructed differences.

Spring 2025
TUT Section: T1  TBA  Munjulika R. Tarah

**ENGL 345 (F) Shakespeare on Page, Stage and Screen: Text to Performance (WS)**

**Cross-listings:** THEA 340 / COMP 343

**Secondary Cross-listing**

Four centuries on, Shakespeare still challenges us. How should we weigh the respective claims of our own era's concerns--with matters of gender, sexuality, race, class, or materiality, for instance--against historicist attention to the cultural, political and theatrical circumstances in which his plays were actually written? And when it comes to realizing the texts in dramatic performance, such challenges--and opportunities--multiply further. Critical fidelity to Shakespeare's times, language and theatrical milieu prioritizes a historical authenticity that can be constraining or even sterilizing. At the other extreme, staging the plays with the primary aim of making them "speak to our times" risks revisionary absorption in our own interests. We will read six plays, of different genres and written at different periods of Shakespeare's career. These will likely be *Romeo and Juliet*, *Henry V*, *Twelfth Night*, *Hamlet*, *The Tempest*, and *A Midsummer Night's Dream*. Close reading of the texts will be the priority, but we will also attend to the demands and opportunities of performance, and assess a range of recent film and stage productions.

**Requirements/Evaluation:** Three papers ranging from 4 to 7 pages; regular Glow posts; class participation.

**Prerequisites:** A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

**Enrollment Limit:** 18

**Enrollment Preferences:** Theatre and English majors or prospective majors

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ENGL 345(D1) THEA 340(D1) COMP 343(D1)

**Writing Skills Notes:** Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive substantive feedback on their writing, and there will be opportunities for revision.

ENGL 493 (F) Honors Colloquium: English (WS)
A colloquium for students pursuing critical theses and critical specializations. Students will present and critique their work in progress, and discuss issues particular to researching and structuring a long analytical thesis. We will also discuss the work of a variety of recent critics representing a range of methods of literary study. Satisfactory completion of the course will be required for students to continue on in the honors program. The course will meet sometimes as a full seminar and other times in tutorial-style small groups.

Requirements/Evaluation: participation and individual progress on the thesis project, which will be determined in consultation with each student's honors advisor
Prerequisites: admission to the department Honors program
Enrollment Limit: none
Enrollment Preferences: none
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (WS)

Writing Skills Notes: Students will write a 20-page thesis chapter in stages and over multiple drafts. Students will receive from the instructor timely comments on their writing, with suggestions for improvement.

Fall 2024
HON Section: 01 W 1:10 pm - 3:50 pm Ricardo A Wilson

ENVI 208 (S) Saharan Imaginations (DPE) (WS)
Cross-listings: ARAB 209 / COMP 234
Secondary Cross-listing
Deconstructing reductive Saharanism, which the course conceptualizes as a universalizing discourse about deserts, this course seeks to critically examine the myriad assumptions that are projected upon deserts across times and cultures. In addition to their depiction as dead and empty, deserts have become a canvas for the demonstration of religiosity, resilience, heroism, and athleticism. Cultural production, particularly literature and film, do, however, furnish a critical space in which important questions can be raised about deserts' fundamental importance to different cultures and societies. Drawing on novels, films, and secondary scholarship, the course will help students understand how myth, memory, history, coloniality/postcoloniality, and a strong sense of ethics are deeply intertwined in the desert sub-genre of African, Euro-American, and Middle Eastern literatures. Whether grappling with transcontinental issues of climate change, cannibalization of biodiversity or overexploitation of natural resources, desert-focused cultural production invites us to interrogate the politics of space and place as well as mobility and spatial control as they relate to this supposedly dead nature.

Requirements/Evaluation: active participation, short presentation, short weekly responses on GLOW, midterm exam, and final paper
Prerequisites: none
Enrollment Limit: 14

Enrollment Preferences: If the course is over-enrolled, students will be required to provide a 200-word paragraph in which they explain how the course fits within their plan of study at Williams.

Expected Class Size: 14

Grading: no pass/fail option, no fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ARAB 209(D1) COMP 234(D1) ENVI 208(D1)

Writing Skills Notes: Students will receive constant and extensive feedback on their written work. Students will write regular weekly responses on Glow, a reflection statement, two 5pp. papers for midterms, and one 10pp. final paper.

Difference, Power, and Equity Notes: Students will gain critical awareness of the imbrication of power, hegemony, economic injustice, and colonial policies in the disruption of indigenous conceptions of the Saharan space. Students will also be able to question representations of the Sahara as a dead or empty space by engaging with locally produced alternative conceptualizations of place. Finally, students will produce written assignments that address issues of power and environmental discrimination.

ENVI 243 (S) Reimagining Rivers (DPE) (WS)

Cross-listings: ANTH 243

Primary Cross-listing

In the era of climate change and widening inequality, how we live with rivers will help define who we are. Rivers are the circulatory systems of civilization, yet for much of modern history they have been treated as little more than sewers, roads, and sources of power. Today they are in crisis. Rivers and the people who rely on them face a multitude of problems, including increased flooding, drought, pollution, and ill-conceived dams. These problems will threaten human rights, public health, political stability, and ecological resilience far into the future unless we learn to manage rivers more justly and sustainably. Can we reimagine rivers before it is too late? This course will pursue this question by examining the social, cultural, and political dimensions of conflict over rivers in the twentieth and twenty-first centuries. Drawing on scholarship from a wide range of social science and humanities disciplines and focusing on case studies in Asia, Africa, Europe, and the Americas, it will explore a diverse array of sources: film, fiction, ethnography, history, journalism, and more.

Requirements/Evaluation: Each week, each student will either write a 5-page essay on assigned readings or write a 2-page critique of a partner's paper.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 243(D2) ANTH 243(D2)

Writing Skills Notes: Students take turns writing 5-page essays and 2-page responses to those essays, with each writing 6 in total. For each five-page paper, I meet with the student to discuss technical aspects of the paper and specific ways in which it could be improved. At the end of the semester, students have the option of handing in one revised paper as part of a portfolio of papers from throughout the semester. This enables me to have an ongoing, in-depth discussion with each student about their writing skills.

Difference, Power, and Equity Notes: This course focuses on the role of rivers in struggles over cultural difference, social power, and environmental equity. Throughout the course, students read and write extensively about environmental justice, and they engage with diverse theoretical approaches to studying the intersection of water, power, and social identity. Our focus from beginning to end is on the profound impact of river management on the
lives of marginalized indigenous, agrarian, and urban communities.

ENVI 244 (S) Environmental Ethics (WS)
Cross-listings: PHIL 244

Primary Cross-listing

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature, among others. Most sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

Requirements/Evaluation: five essays (5-7 pages each) and five prepared oral responses to partners' essays; evaluation will be based on essays, oral responses, and quality of discussion

Prerequisites: ENVI 101 or one course in PHIL

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option,    no fifth course option

Unit Notes: meets Value Theory requirement only if registration is under PHIL

Distributions: (D2)    (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 244(D2) PHIL 244(D2)

Writing Skills Notes: Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

ENVI 291 (F) Religion and Ecology in America (WS)
Cross-listings: REL 291 / SOC 291

Primary Cross-listing

This course examines the relationship between religious and environmental thought in American cultural history. Exploring a broad range of practices, stories, and beliefs, we will examine the spiritual roots and branches of modern environmentalism. Rather than survey the formal teachings of organized religious groups, we will explore the creation and contestation of environmental meaning in the public sphere through literature, art, philosophy, and popular culture. How have religious writers, thinkers, and artists shaped the way we think about nature? How have they shaped the way we think about politics, science, and social justice? In pursuit of these questions, we will consider a diverse array of topics and cases, including struggles to protect Native American sacred places, the role of Black churches in fighting environmental racism, Protestant outdoorshanship, Catholic climate activism, Jewish eco-mysticism, atheist biological theory, Buddhist eco-spirituality, and more.

Requirements/Evaluation: Each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their partner's paper.
Prerequisites: None
Enrollment Limit: 10
Enrollment Preferences: Environmental Studies majors and concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 291(D2) REL 291(D2) SOC 291(D2)

Writing Skills Notes: Each student will write five five-page papers and five two-page papers in this class. They will be given extensive weekly feedback on their writing in the form of one-on-one meetings and written comments, and they will be given multiple opportunities for revision. Emphasis will be placed on the mechanics of argumentation, logic and rhetoric, and the development of a distinctive voice.

ENVI 351 (F) (S) Marine Policy (DPE) (WS)
Cross-listings: PSCI 319 / CAOS 351

Secondary Cross-listing
Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available

Prerequisites: none
Enrollment Limit: 23
Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut
Expected Class Size: 22
Grading: no pass/fail option, no fifth course option

Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSCI 319(D2) ENVI 351(D2) CAOS 351(D2)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.
ENVI 450 (F) Senior Seminar: Environmental Ethnography (WS)

A key question orients this course: What can the embodied, place-based, and detailed approach of ethnographic study bring to our understandings of the environment? This upper-level seminar will explore this question through classroom discussions and a semester-length research project. Students will engage different styles of environmental ethnography while undertaking their own ethnographic projects involving the Williams College community and surrounding areas. Students will learn to work across different kinds of evidence as they draft fieldnotes, code fieldwork data, extrapolate key ideas from their fieldwork materials, and discover new ways of building environmental knowledge. Students will use these materials to collectively assemble an edited volume of ethnographic snapshots to be presented to the wider Environmental Studies community at Williams.

Requirements/Evaluation: Participation in seminar discussions; Weekly fieldnotes (2-3 pages per week); Mid-term coded fieldwork notes and summary statements (9-20 pages); Final ethnographic paper (10-12 pages) and short film

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Environmental Studies majors and concentrators; Juniors and Seniors

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: This is a writing intensive capstone seminar. Students will produce and receive peer and professor feedback on weekly written assignments. The course includes a 9-20 page midterm and a 10-12 page final ethnographic paper.

Attributes: ENVI Environmental Policy EVST Senior Seminar

ENVI 491 (S) The Suburbs (WS)

Cross-listings: AMST 490 / HIST 491

Secondary Cross-listing

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans’ relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans’ understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America’s conservative political turn, leading to the election of Ronald Reagan?

Class Format: Students will meet with the professor either in assigned pairs or “trios” at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation: This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.
Prerequisites: none
Enrollment Limit: 10

Enrollment Preferences: History majors and students with course work related to the topic.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 491(D2) AMST 490(D2) HIST 491(D2)

Writing Skills Notes: Students will reflect on what their writing goals are for the semester, and they will receive feedback on their writing from the professor and from their tutorial partner. The final writing assignment will afford students the chance also to reflect back on their previous papers and the semester’s course content.

GBST 216 (F) Cities and Urbanism of the Ancient World (WS)

Cross-listings: ANTH 216

Secondary Cross-listing

This is a course on cities in the ancient world, which will examine four major ancient urban centers (Nineveh and Nimrud, Iraq; Teotihuacan, Mexico; and Angkor, Cambodia) and end with a sustained, in-depth exploration of urbanism in prehispanic Maya civilization. As more and more people move into cities across the world, human societies are becoming forever transformed. This transformation into an urban globalized world has ancient roots at the beginning of the first civilizations in Euroasia and the Americas. We will delve into the nature of the urban transformation by first exploring sociological and anthropological definitions of urbanism, and recent studies of modern urbanism. We will look at Nineveh, Nimrud, Teotihuacan, and Angkor to consider how ancient urbanism was distinct from modern cities, while at the same time, ancient urbanites had to deal with similar issues as residents of modern cities. We will then examine in more depth the cities of prehispanic Maya civilization, answering such questions as: how different were Maya cities from other premodern ones? Is there one type of Maya city or many? How different was life in Maya cities from life in Maya villages? What were the power structures of Maya cities? How common were immigrants and slaves in these ancient cities?

Requirements/Evaluation: 5-page papers every other week, oral responses on alternate weeks; tutorial attendance is required.

Prerequisites: none
Enrollment Limit: 10

Enrollment Preferences: first years, sophomores, or majors in Anthropology or Sociology

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 216(D2) ANTH 216(D2)

Writing Skills Notes: Throughout the semester, writing skills (developing an argument, construction of paragraphs, use of case studies) will be emphasized. An opportunity to rewrite at least one tutorial paper will allow students to actively apply what they are learning.

GBST 294 (S) Victimhood Nationalism in Global History & Memory (DPE) (WS)

Cross-listings: HIST 395
Primary Cross-listing

As globalism of the 21st century has shifted its focus from imagination to memory, the global memory culture focusing on victims has dawned on us as an undeniable reality with the entangled memories of: Apartheid, American slavery, and white settler genocides of the indigenous peoples; German empire's colonial genocide of the Nama and Herero in Namibia and the Nazi Holocaust; the Armenian genocide and the Holocaust; Vietnam War and Algerian war; Rwandan genocide and ethnic cleansing in the Balkans; Japanese military "comfort women" and gendered violence during the Yugoslav Wars; forced sexual labor in the Nazi concentration camps and sexual slavery of the Islamic State; political genocide of Stalinism and the Latin American military dictatorships; civilian massacres of developmental dictatorships in the global Cold War era. Global memory formation intensified the victimhood competition among national memories. Victimhood nationalism epitomizes nationalism's metamorphosis under the globalization of memory in the 21st century. This course will trace the mnemo-history of victimhood nationalism, focusing on the entangled memories of Poland, Germany, Israel, Japan, and Korea in the global memory formation. Other case studies, including former Yugoslavia, post-9/11 America, will also be discussed.

Requirements/Evaluation: Class participation, pop quizzes and a final research paper (approximately 5000 words)

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: GBST concentrators and History majors

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 395(D2) GBST 294(D2)

Writing Skills Notes: This seminar includes a final research paper on victimhood nationalism. Prior to submission, the paper will go through several drafts and edits.

Difference, Power, and Equity Notes: A comparative, global approach to the study of memory and nationalism exploring the particular role of victimhood and genocide. How is violence remembered? How has past violence been justified? Who is remembered as a victim and who is not?

GBST 348 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: RUSS 348 / SOC 348

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their post-socialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as Russia's invasion of Ukraine, or the lingering tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Ukraine and Russia, but will also read comparative studies, as well as works on East Germany and Georgia. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the post-socialist condition.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner's paper in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: Anthropology, Sociology, and Russian majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
GBST 348(D2) RUSS 348(D1) SOC 348(D2)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

GBST 369 (F) Indigenous Narratives: From the Fourth World to the Global South (DPE) (WS)

Cross-listing: COMP 369 / HIST 306 / ARAB 369

Secondary Cross-listing

In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Amazigh poetics in the Maghreb, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? What is the connection between the recent "boom" of English translations of Indigenous texts and neoliberalism, multiculturalism and neo-colonialism? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Requirements/Evaluation: active class participation, several short response assignments (3-4 pages), two film reviews (1 page), a performance project, and a final paper (7- to 10-pages)

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: Comparative Literature majors

Expected Class Size: 15

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 369(D1) HIST 306(D2) ARAB 369(D1) GBST 369(D2)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

Attributes: GBST Borders, Exiles + Diaspora Studies
GBST 414  (F)  Displacement: Global Histories of Refugees and Forced Migration  (DPE) (WS)

Cross-listings: ARAB 414 / HIST 402

Secondary Cross-listing

The Middle Eastern refugee has become a central figure in debates on migration, asylum, and the right to belong in Europe, Asia, and North America. Often stereotyped as threatening, alien, and rootless, these migrants are generally depicted as lacking histories and by extension not worthy of consideration or empathy. This course invites students to understand some of the most tragic humanitarian crises of our time and the massive involuntary displacements provoked by war, violence, and/or climate change. Taking a global perspective, this seminar examines the history of displacement, refugees, migration, diaspora in a focusing on the nineteenth century through the present. With special attention to the historical experience of various peoples of the Middle East, the course will start with theoretical approaches to the study of migration and then delve into case studies. A range of different moments of displacement will be analyzed such as the experiences of Armenians, Jews, Palestinians, Syrian, Iraqis, and Kurds. By examining the human geography and politics of forced displacement and migration, this course will address a number of important academic and political questions: what makes a history written by, about, and for displaced people powerful? How can writing from the perspectives of refugees challenge core debates about identity, the nation and borders? How does the focus on displacement help in understanding the nature of war and conflict?

Requirements/Evaluation:  Final 25 page research paper, several drafts of paper, class presentations and in class writing exercises.

Prerequisites:  None

Enrollment Limit:  15

Enrollment Preferences:  History and Arabic Studies majors and Global Studies concentrators.

Expected Class Size:  15

Grading:  no pass/fail option, yes fifth course option

Distributions:  (D2)  (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

ARAB 414(D2)  GBST 414(D2)  HIST 402(D2)

Writing Skills Notes:  This research seminar will involve the writing of a final 25 page paper. Prior to that stage, each process of writing will involve moments of feedback and sharing. Students will submit a proposal early on in the semester and then write an outline. These will receive peer and instructor feedback. They will then submit a five page draft in October, a 10 page draft in November, before the final submission in December. In this way, they will have opportunities to rework and improve their writing.

Difference, Power, and Equity Notes:  This course takes a comparative approach by exploring the predicament of some of the most vulnerable people in the world, i.e., displaced peoples and refugees. The course will consider their legal status and their experience of leaving their homes due to wars or natural disaster. The area of study is the Middle East and we will examine the historical experience of a number of different people in the region including Kurds, Palestinians, Sephardi Jews, and Syrians.

GEOS 201  (F)  Field Methods and Structural Geology  (WS)

Geologic history is preserved in rocks and it can be deciphered using fundamental principles such as superposition and cross-cutting relationships. Field observations are essential to understanding the rock record, and data and interpretations are encoded in geologic maps. This course introduces students to topographic and geologic maps, best practices for geologic field work, the field identification of common minerals and rocks, geologic contacts, and structures such as folds, and faults. Students will develop skills for presenting field data in papers, figures, and oral presentations. This course is in the Solid Earth group for the Geosciences major.

Class Format:  lecture and discussion, three hours per week and laboratory, three hours per week

Requirements/Evaluation:  short weekly writing assignments will form the basis for two 10-page papers based on field trips and a final independent project
Prerequisites: Any 100 level geosciences course or permission of instructor.

Enrollment Limit: 16

Enrollment Preferences: Geosciences majors or students with a strong interest in geosciences

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: $15 for field supplies

Distributions: (D3) (WS)

Writing Skills Notes: There will be two 10-page papers, each based on four field trips. Students will submit short field descriptions and figures with captions after each field trip. The shorter assignments will be incorporated in two papers. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

GEOS 211 (F) Rates and Dates: Calibrating the Rock Record (WS)

Late in the eighteenth century, the Scottish naturalist, James Hutton, argued that Earth had "no vestige of a beginning, no prospect of an end" challenging the widely held biblical view that Earth was a mere 6,000 years old. Yet it was not until the discovery of radioactive decay that geologists were able to accurately date rocks and assign absolute ages to the geologic time scale, which had been developed using fossils and relative dating of rocks. Before radiometric dating, there were numerous attempts to estimate the age of Earth using the rates of natural phenomena, but these early approaches were plagued by faulty assumptions about geologic processes. We still endeavor to estimate the rate of a wide variety of geologic processes, and many are critical to society, such as climate change, sea-level rise, plate motions, and mass extinctions. In this tutorial, we explore the methods of radiometric dating that allow us to determine the age of igneous rocks that cooled from a magma, estimate when deeply buried metamorphic rocks cooled below certain temperatures, and determine the age of organic materials from their radiocarbon signatures. We then examine methods used to estimate the rates of geologic processes with particular emphasis on diffusion -- the movement of matter or energy in response to a gradient in concentration, temperature, or potential energy -- and the explicit and implicit assumptions that are critical to rate calculations. Topics include the basic isotope systematics of geochronology (U-Pb, K-Ar, and 14C ages) and thermochronology (U-Th/He or 40Ar/39Ar), as well as the rates of processes such as plate motion, sea-level rise or fall, glacial advance or retreat, magma storage and ascent, and/or mineral growth rates. There will be weekly tutorial meetings with pairs of students, and students will alternate writing papers on assigned topics. This course is in the Solid Earth group for the Geosciences major.

Requirements/Evaluation: Four 5-page papers and four oral critiques of partner's papers, plus 2 problem sets

Prerequisites: Any 100-level Geosciences course

Enrollment Limit: 10

Enrollment Preferences: Geosciences majors or students with a strong interest in Geosciences.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D3) (WS)

Writing Skills Notes: Students will write four 5-page papers and will receive peer and instructor feedback on how to improve their writing skills and formulate sound arguments. In addition, there will be two quantitative problem sets.

GERM 366 (S) Reason and "Unreason" in the German Tradition (WS)

"I am proud of my heart alone, it is the sole source of everything, all our strength, happiness and misery. All the knowledge I possess everyone else
can acquire, but my heart is all my own." So spoke Johann Wolfgang Goethe's young Werther in his groundbreaking novel from 1774, *The Sorrows of Young Werther*, which exposed the fault lines of the Enlightenment, with its emphasis on rationality, on universal human values, and on optimism about the future. Throughout the nineteenth and twentieth centuries in Germany and Austria, challenges arose to what was touted as the triumph of objective, scientific thought, often leading to alienation and despair for the writers and thinkers who explored the deepest recesses of the mind. These challenges led to some of the most creative cultural production in Western history, but the concatenation of reason and "unreason" also contributed to one of its biggest catastrophes. This course will explore and complicate the relationship between reason and those forces that throw it into question. Specifically, we will focus first on the moments around 1800 and 1900 when the tectonic plates of reason and supposed unreason converge and collide most forcefully, reading authors like Kant, Goethe, Novalis, Kleist, Büchner, Hoffmann, and Freud, then turn to the mid-twentieth century, when both forces combine to create the disaster of the "Third Reich" and the difficulties of its aftermath (Hitler, Harlan, Bachmann, Haneke). Finally, we will look at the complex ways in which rationality triumphs and is challenged in our current time by engaging with the debates around science that roil German and Austrian society. Readings and discussion in German (with some theoretical readings in English).

**Requirements/Evaluation:** Active participation, several short papers and reading responses, longer final project. All writing will include rewrites with corrected grammar and the final paper will be written in stages, including a draft that is workshopped in tutorial format.

**Prerequisites:** GERM 200-level course or permission of instructor

**Enrollment Limit:** 19

**Expected Class Size:** 8

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D1) (WS)

**Writing Skills Notes:** Students will write and rewrite several short papers in German. A longer final paper will be written in stages that will include a draft that is workshopped in tutorial format.

---

**HIST 112 (S) The Asia-Pacific War (WS)**

**Cross-listings:** ASIA 111

**Primary Cross-listing**

The "Asia-Pacific War," as it is known in Japan, raged from the full-scale Japanese invasion of China in 1937 until Japan's total defeat in 1945. This war, though certainly tied to the Allied war against Germany and Italy, was viewed by many participants at the time as truly a war apart due to the immense distances involved, the gleeful, racism-fueled brutality on both sides of the conflict, and the resultant abuses of POWs, use of atomic weapons, and other atrocities. Students will explore the intersection of colonialism, racism and opportunism that fed the conflagration, and the remarkable rapprochement between American and Japanese former enemies immediately after the war. It will examine in depth the roles of China and the USSR in this conflict, which are often mentioned but functionally ignored in the West. It will cover the various warzones and home fronts, focusing as much as possible on conveying the experiences of participants through primary sources. It will likewise seek to bridge the analysis of the military and socio-political sides of this conflict, which are often treated as distinct, by drawing on key academic works in the field.

**Requirements/Evaluation:** Weekly meetings with professor and one peer partner; 5-page papers (6 total); 2-page critiques of partner's papers (6 total)

**Prerequisites:** None

**Enrollment Limit:** 10

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

HIST 112(D2) ASIA 111(D2)

**Writing Skills Notes:** Students will alternate weekly between writing 5-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive regular written feedback on their writing from the professor, as
In November 2018, world leaders gathered in France to commemorate the centennial of the end of the First World War. Yet the armistice that brought hostilities on the Western front to a close on the eleventh hour of the eleventh day of the eleventh month of 1918, did not have the same significance for Eastern Europe and the Middle East, where revolutions and civil wars continued to be fought well into 1923. Ultimately, the Great War toppled four empires (German, Habsburg, Russian, and Ottoman) and forcibly displaced and killed millions of civilians (including Armenians and Jews), creating new countries and colonies throughout Europe, the Middle East, and Africa. This tutorial will explore the global history of the First World War, a history that is indispensable for understanding the world of today. We will consider a broad range of topics and sources in our examination of the political, social, cultural, economic, and military histories of the Great War and its aftermath. For three-quarters of the semester, the tutorial follows a traditional format in which weekly tutorial meetings center on the writing of a paper and the partner's critique. The last segment of the course is structured around a research paper assignment, introducing students to archival research and longer-format writing.

Requirements/Evaluation: bi-weekly 5- to 7-page papers; bi-weekly written critiques; one revised paper; final 8- to 10-page research paper.

Prerequisites: permission of instructor

Enrollment Limit: 10

Enrollment Preferences: first- and second-year students

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Bi-weekly 5-7 page papers; one formal paper revision; 8-10 page research paper. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
and are expected to use the opportunity to hone their craft.

**HIST 144 (S) Brazil's Myth of Racial Democracy** (DPE) (WS)

The notion that race worked differently in Brazil took root in the early twentieth century and grew into a myth that the country was home to a unique "racial democracy." This course will examine the creation and surprisingly long life of this idea among not only Brazilians but also observers and visitors from the U.S., Europe, and Africa. We will look at how "racial democracy" became central to constructions of Brazilian national identity, how the country's governments tried to coopt Black cultural forms like samba and Carnaval into official culture, and how thinkers around the world used Brazil to define their understanding of race making in their own regions. The special focus, though, will be on how Afro Brazilians challenged the myth politically, intellectually, and artistically from the 1920s to the 1990s. Our texts will include the fiction, memoirs, manifestos, and scholarship of individuals like Abdias do Nascimento, Carolina Maria de Jesús, and Sueli Carneiro, as well as the activism of Black and feminist groups.

**Requirements/Evaluation:** Class participation, three 3-page papers, written responses, and a 10-12 page research paper.

**Prerequisites:** None

**Enrollment Limit:** 19

**Enrollment Preferences:** Preference to first- and second-year students

**Expected Class Size:** 15

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2)  (DPE)  (WS)

**Writing Skills Notes:** Students will write three 3-papers on set topics and a 10-12 page research paper. Revision of the first short paper, in response to instructor's comments is mandatory. Students will receive timely feedback on all pieces of writing and will participate in in-class workshops on identifying sources, formulating an argument, and presenting a compelling case.

**Difference, Power, and Equity Notes:** This course will examine how Brazilians created, lived, and contested categories of racial difference over the twentieth century. We will look at the intersections of gender, sexuality, regional, and national identities with race in Brazil and will make comparisons between processes of race-making in Brazil and around the Atlantic.

**HIST 152 (F)(S) The Fourteenth Amendment and the Meanings of Equality** (DPE) (WS)

**Cross-listings:** WGSS 152

**Primary Cross-listing**

For more than 150 years, the 14th Amendment of the U.S. Constitution has served as the principal touchstone for legal debates over the meaning of equality and freedom in the United States. This course explores the origins of the 14th Amendment in the years immediately following the Civil War, and examines the evolution of that amendment's meaning in the century that followed. Central themes in this course include the contested interpretations of "birthright citizenship," "due process," "privileges and immunities," "equal protection," and "life, liberty or property"; the rise, fall, and rebirth of substantive due process; battles over incorporating the Bill of Rights into the 14th Amendment; and the changing promise and experience of citizenship. We will pay particular attention to how arguments about the 14th Amendment have shaped and been shaped by the changing meanings of racial and gender equality.

**Requirements/Evaluation:** a series of short (3-page) response papers; and a final 10-12 page research paper

**Prerequisites:** first-year or sophomore standing; juniors or seniors with permission of instructor

**Enrollment Limit:** 19

**Enrollment Preferences:** given first to sophomores who have been dropped from this class previously, then to first-years, then to sophomores who have not been dropped previously
Expected Class Size: 15-19
Grading: no pass/fail option, yes fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 152(D2) HIST 152(D2)

Writing Skills Notes: Students will write three short (3-page) response papers to the readings in the first part of the semester, and will also write a substantial (10- to 12-page) research paper. In preparation for the research paper, students will write proposals, develop bibliographies, write outlines and drafts, and do peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it examines the legal, social, and political constructions and theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.

HIST 155 (S) School Wars (WS)
Throughout the 20th century, parents, students, teachers, and policymakers have fought bitterly about the purpose of and practices in public schools. Public schools have been the site of a series of intense conflicts over the meanings of democracy and equality; the relationship between the individual, the family, and the state; and about completing claims to recognize the rights of teachers, children, and parents. Organized both chronologically and thematically, this course examines a series of “school wars” in the 20th century, focusing especially on battles over religion, race, and sex. Topics will include evolution/creationism, segregation and desegregation, bilingual education, sex education, free speech, and school prayer. This course asks how, why, and with what consequences schools have been an arena of cultural conflict in the United States? How do these debates help us understand the contested relationship between the rights of children and students, the rights of parents and families, the rights of communities and states, and the obligations of the federal government? How can historical analysis shed light on our present-day "school wars"? Many of these conflicts wind up in court, and we will be looking at some key Supreme Court decisions, but we will also draw upon memoirs, social histories, oral histories, popular culture, and other archival and documentary sources that focus on the experience of teachers and students. Tutorials meet in pairs.
Every week, each student will either write an essay (1000-1250 words) that responds to and analyzes the readings OR a short essay (no more than 500 words) that responds to their partner's paper and raises further questions for discussion.
Requirements/Evaluation: four to five tutorial papers (approximately 5 pages) and four to five short response papers (approximately 2 pages)
Prerequisites: first-years or sophomores
Enrollment Limit: 10
Enrollment Preferences: first-year students, and then sophomores who have not previously taken a 100-level seminar
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
Writing Skills Notes: Students will write bi-weekly 5-page papers about the readings, and bi-weekly 2-page responses to their tutorial partner's paper. For the final paper, each student will revise and expand one of the papers they wrote in the semester. Students will receive regular written and oral feedback on their work from the professor and their tutorial partner. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2025
TUT Section: T1 Cancelled
In June 2015, Rachel Dolezal emerged as a media spectacle and the subject of national scrutiny after her white parents stated publicly that Dolezal is a white woman passing as black. Their insistence that Dolezal is white came in the wake of her reports to local news media and police that she had been the victim of several hate crimes. To critics, Dolezal is a fraud who has committed cultural appropriation. Yet, for her supporters, Dolezal’s racial identification as a black woman is authentic and indisputable, since race is not based on biology but rather is a social construction. For both groups as well as impartial observers, many wondered curiously why a white woman had chosen to pass as black, especially given that historically it has been African Americans who opted to become white. Inspired by the controversy surrounding Dolezal, this tutorial will explore the history of passing in the United States. Whereas our attention will primarily be focused on black-to-white passing, we will expand our understandings of passing by emphasizing the variety of ways that identities have been shaped through the crossing of boundaries—class, ethnic, gender, intellectual, political, religious, and sexual. To accomplish our goals, we will read and cross-examine fictional and nonfictional as well as primary and secondary historical accounts of boundary-crossers. We will also screen several films that engage the theme of passing.

Requirements/Evaluation: Weekly formal response papers and written critiques.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: First and second-year students will be prioritized, followed by history majors. Should the course be overenrolled, students will be asked to complete an enrollment questionnaire.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

HIST 159(D2) AFR 159(D2)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2 pages) of their peers’ work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

Difference, Power, and Equity Notes: Narratives of racial passing provocatively raise questions about the construction, logics, reinforcement, and subversion of racial categories and identities. Tutorial students will have the opportunity to deconstruct the meanings of race and identity in addition to thinking culturally, historically, and ontologically about the implications and value of these constructs. In essence, we will theorize racial identity, reconsidering, if not challenging, its stable notions of identic intelligibility.

HIST 161 (F) W.E.B. Du Bois: A Century of Study and Struggle (WS)

This course will apply a historical lens to the life and thought of historian, activist, social theorist, and writer W.E.B. Du Bois. We will engage with Du Bois’ historical, sociological, and political writing, trace his intellectual transformation throughout the course of his nearly century-long life of study and struggle, and highlight his ongoing pertinence. Engaging with classic as well as lesser-known works by Du Bois, his contemporaries, and other scholars, a core aim of the course will be to comprehend the development of Du Bois’s ideas, placing them in historical context. In examining his work and its lasting influence we will touch on a range of topics including, the Civil War, Reconstruction, and the afterlife of slavery; race, the color line, and American citizenship; civil rights, Black advancement, and political leadership; Black urban life; war, colonialism, and global capitalism, among other topics.

Requirements/Evaluation: Assessment will be based on class participation and weekly written responses to readings (2 pages), 2-3 short papers (4-5 pages), leading to a final paper (10-12 pages). All writing assignments are structured to build up the final paper.

Prerequisites: None

Enrollment Limit: 19

Enrollment Preferences: Preference to first- and second-year students
HIST 163  (F)  Communications in Early America  (DPE)  (WS)
Cross-listings:  AMST 164

Primary Cross-listing

How did the multiplicity of people who shaped "early" North America communicate with each other, across profound linguistic, cultural, social, political, and spiritual differences? What strategies did they use to forge meaning and connections in times of tremendous transformation, while maintaining vital continuities with what came before? This course examines histories of communication in North America and the technologies that communities have developed to record, remember, advocate, persuade, resist, and express expectations for the future. Using a continental and transoceanic lens of "Vast Early America," we will take up Indigenous oral traditions, Traditional Ecological Knowledge, wampum belts, and winter counts as expressions of ethics, identity, relationality, and diplomacy among sovereign Native/Indigenous nations. We will reflect on artistic and natural science paintings, engravings, and visual culture that circulated widely; and diaries and journals as forms of personal as well as collective memory. We will work with political orations, newspapers, pamphlets, and other forms of print culture that galvanized public opinion in the Age of Atlantic Revolutions; memorials and monuments that communities have created to honor ancestors and significant events; material culture such as baskets and weavings that signified through their imagery and physical forms; and social critique and visions of justice in the verse and prose of Phillis Wheatley Peters and William Apess. These materials take us into the complexities of individuals' and communities' interactions and relations of power. They also illuminate spaces of potential or realized solidarity, alliance, and co-building of new worlds. Throughout we will work together to understand different methodologies, theories, practices, and ethics involved in approaching the past. We will at every turn be attuned to the ongoing significances of these experiences among communities in the twenty-first century.

Requirements/Evaluation:  active participation in class discussions, several short essays based on readings and discussion topics, museum/archives exercise, final essay/project
Prerequisites: none
Enrollment Limit:  19
Enrollment Preferences: limited to first- and second-year students who have not yet taken a 100-level course in History or American Studies; juniors and seniors only with the permission of the instructor
Expected Class Size:  19
Grading:  no pass/fail option,  yes fifth course option
Distributions:  (D2)  (DPE)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 164(D2)  HIST 163(D2)

Writing Skills Notes: Short essays (3-5 pages) spaced throughout the semester with instructor feedback on writing skills as well as historical content; written reflection and analysis related to museum/archives visit with original materials; final essay (8-10 pages) due at end of semester that synthesizes findings from across the whole semester and allows students to closely examine primary/secondary sources; regular opportunities to conference with instructor about writing ideas and drafts.

Difference, Power, and Equity Notes: This course centers experiences of diverse people in early America including substantial focus on Native American/Indigenous and African American communities. It introduces foundational methods for historical and interdisciplinary study, including decolonizing methodologies from Native American and Indigenous Studies (NAIS) and African American histories; critical vantages on Euro-American settler colonialism; and scholarship on complex entanglements in multiracial and multiethnic communities

HIST 168  (S)  Black Film History  (WS)
This course will examine the history of African American cinematic production since the silent era. By examining the work of Black filmmakers and cinematic representations of African Americans more broadly, we will explore a variety of key questions throughout the course of the semester, including: How did Black filmmakers address social and political questions in their work? How did filmmakers engage with and refute dominant cultural and Hollywood images of African Americans? What role did movie theaters play in the social lives of Black communities? How did film critics shape understandings of Black cinematic expression? What transformations occurred in the images of African Americans in film across the twentieth century? What role did filmmaking play in the Black Freedom Struggle? In addition to viewing a sampling of films, we will engage with a variety of scholarly and popular writing on the history of African American filmmaking, filmgoing, film criticism, and filmic performance.

Requirements/Evaluation:  Active participation in class discussion, weekly 500-word discussion posts, two 4-5 page essays, and a final 10-12 page research paper

Prerequisites:  None

Enrollment Limit:  19

Enrollment Preferences:  Preference to first- and second-year students

Expected Class Size:  12-19

Grading:  yes pass/fail option, yes fifth course option

Distributions:  (D2)  (WS)

Writing Skills Notes:  Students will write two short (4-5 page) papers leading to a longer (10-12 page) research paper. Students will receive timely feedback on written work from peers and the instructor and will be required to submit revised drafts in response to feedback. Students will develop their final research paper in several stages, submitting a topic proposal, research question, outline, and annotated bibliography, with the instructor commenting on each step.

HIST 306  (F)  Indigenous Narratives: From the Fourth World to the Global South  (DPE)  (WS)

Cross-listings:  COMP 369 / ARAB 369 / GBST 369

Secondary Cross-listing
In the late 20th century, world literature has witnessed a "boom" in indigenous literature. Many critics and historians describe this global re-emergence of the subaltern and the indigenous in terms of literary justice fostered by post-colonial studies and the adoption of the Declaration of the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, by the UN General Assembly on December 18, 1992. In this course, we will investigate this "indigenous boom" by reading novels and short stories from the Americas, the Middle East and North Africa from the 1970s to the present. Through these trans-regional and trans-historical peregrinations, our principal goal will be to examine and compare narratives about conquest, settler colonialism, colonial nationalism, indigeneity, sovereignty, indigenous epistemology and philosophy. At the same time, we will consider the following questions: How did pioneering indigenous women writers, such as the Laguna Pueblo Leslie Marmon Silko in the US and the Mayan playwrights of La Fomma in Chiapas, Mexico lead the feminist front of the indigenous literary renaissance? How did Palestinian folktales, Amazigh poetics in the Maghreb, and Mayan dream narratives in Mexico and Guatemala produce narratives of decolonial history? What does the aesthetics of magical realism in Arabic, Quechua and Spanish, respectively, as evident in the works of the Kurdish writer Salim Barakat (Syria) and the mestizo writer José María Arguedas (Peru) tell us about the intersection of race, ethnicity, and indigenous epistemology? What is the connection between the recent "boom" of English translations of Indigenous texts and neoliberalism, multiculturalism and neo-colonialism? Ultimately, our goal is to trace how these texts contributed to global indigenous literature and the trans-historical and trans-geographical connections between them.

Requirements/Evaluation:  active class participation, several short response assignments (3-4 pages), two film reviews ( 1 page ), a performance project, and a final paper (7- to 10-pages)

Prerequisites:  none

Enrollment Limit:  19

Enrollment Preferences:  Comparative Literature majors
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
COMP 369(D1) HIST 306(D2) ARAB 369(D1) GBST 369(D2)

Writing Skills Notes: This course will enable students to write weekly while engaging with various forms of writing skills: articulating arguments in short response papers (3-4 pages each), developing visual criticism through writing two film reviews, (1 page each), journaling through writing a personal reflections on a performance project, and honing research language in producing a final paper of 7-10 pages. Instructor's feedback and peer review sessions will include review of drafts and argumentative structures.

Difference, Power, and Equity Notes: At the heart of this course is the history of global Indigenous struggle for liberation and decolonization. The various novels, short stories, poems, films and other texts that students will engage with narrate histories of colonial dispossession, racial oppression, economic subjugation and dehumanization of minoritized Indigenous communities in the Americas, North Africa and the Middle East.

HIST 352 (F)(S) American Maritime History (DPE) (WS)
Cross-listings: CAOS 352
Secondary Cross-listing
This course explores themes in American maritime history from the colonial era to the 21st century. We will consider the dynamic relationship between the sea and American life, and the broad influence that each has had on the other. This relationship led to interactions with the water as a highway for the transportation of not just people and goods, but powerful new forces and ideas. The water creates a unique space for the formation of new communities and identities, while also acting as an important, and often exploited, resource. We will sample from different fields of inquiry including labor, environmental, cultural, and political history to gain a deeper understanding of diverse people's complex interactions with the oceans and seas.

Class Format: Seminars, discussions, and field seminars
Requirements/Evaluation: Participation in class discussions, activities, and presentations, regular papers, and a final independent research project
Prerequisites: None
Enrollment Limit: 27
Enrollment Preferences: If course over-enrolls, preference will be given to sophomores and juniors
Expected Class Size: 22
Grading: no pass/fail option, no fifth course option
Unit Notes: Offered only at Mystic Seaport
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
HIST 352(D2) CAOS 352(D2)

Writing Skills Notes: Students must complete regular writing assignments including a final 10- to 15-page paper. Additionally, students will participate in several in-class writing workshops and peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Difference, Power, and Equity Notes: Maritime activity has long provided opportunities for some while creating tremendous hardships for others. From the slave trade and the encounters between native and European mariners to the power wielded by multi-national shipping conglomerates, this course investigates contests over power, empire, and capitalism as they played out on the maritime stage.

Fall 2024
**HIST 367 (S) Black History is Labor History (DPE) (WS)**

**Cross-listings:** AFR 367

**Primary Cross-listing**

This seminar explores labor history in relation to black people, spanning the colonial period to the early twenty-first century. It racializes the history of work by tracing the long story of black labor in the U.S. from the plantation to the plant. Whereas the bulk of the course will analyze black labor and labor movements in the twentieth century, specifically focusing on the push for economic inclusion and mobility amid employment, societal and union-related racial discrimination, we will examine what involuntary black labor meant in the context of slavery and the construction of a capitalist economy. Likewise, we will devote attention to black workers with regard to such topics as antiunionism, deindustrialization, economic inequality, Fordism, informal economies, Jim and Jane Crow, labor radicalism and violence, New Deal and welfare, the rise of civil rights unionism, and slavery and capitalism, among other themes.

**Requirements/Evaluation:** Students are expected to participate actively and will write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages) in consultation with the instructor and will be required to submit a topic proposal and outline, an annotated bibliography, and a peer-reviewed draft of the final paper.

**Prerequisites:** Recommended for students with sophomore standing or above and first-year students who both have taken a 200-level history course and have received instructor permission to enroll into the course.

**Enrollment Limit:** 25

**Enrollment Preferences:** HIST and AFR majors followed by students with sophomore, junior, or senior standing. If the course is overenrolled, students will be given a questionnaire and only first-year students who have completed a 200-level history course will be enrolled.

**Expected Class Size:** 15

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

HIST 367(D2) AFR 367(D2)

**Writing Skills Notes:** Students will be required to write two comparative essays (5-7 and 6-8 pages) and two primary source analyses (1-2 pages), all of which will be letter-graded and returned with comments. In addition, students will write a final research paper (10-12 pages). Throughout the semester, these writing assignments will total roughly 22-30 pages. Students can expect to have line-edited feedback on their papers with substantial and timely, writing-related suggestions for improvement.

**Difference, Power, and Equity Notes:** This course racializes the study of labor history, focusing on black people and their experiences in the United States from the plantation to the plant. It challenges students to confront and to redefine what it means to labor, grasping how slavery, segregation, and systemic inequalities amid black people's pursuit of citizenship, equality, and freedom have shaped their economic, political, and social conditions and identities.

**Attributes:** HIST Group F Electives - U.S. + Canada

---

**HIST 395 (S) Victimhood Nationalism in Global History & Memory (DPE) (WS)**

**Cross-listings:** GBST 294

**Secondary Cross-listing**

As globalism of the 21st century has shifted its focus from imagination to memory, the global memory culture focusing on victims has dawned on us as an undeniable reality with the entangled memories of: Apartheid, American slavery, and white settler genocides of the indigenous peoples; German empire's colonial genocide of the Nama and Herero in Namibia and the Nazi Holocaust; the Armenian genocide and the Holocaust; Vietnam War and...
Algerian war; Rwandan genocide and ethnic cleansing in the Balkans; Japanese military "comfort women" and gendered violence during the Yugoslav Wars; forced sexual labor in the Nazi concentration camps and sexual slavery of the Islamic State; political genocide of Stalinism and the Latin American military dictatorships; civilian massacres of developmental dictatorships in the global Cold War era. Global memory formation intensified the victimhood competition among national memories. Victimhood nationalism epitomizes nationalism's metamorphosis under the globalization of memory in the 21st century. This course will trace the mnemonic-history of victimhood nationalism, focusing on the entangled memories of Poland, Germany, Israel, Japan, and Korea in the global memory formation. Other case studies, including former Yugoslavia, post-9/11 America, will also be discussed.

Requirements/Evaluation: Class participation, pop quizzes and a final research paper (approximately 5000 words)

HIST 402 (F) Displacement: Global Histories of Refugees and Forced Migration (DPE) (WS)

Cross-listings: ARAB 414 / GBST 414

Primary Cross-listing

The Middle Eastern refugee has become a central figure in debates on migration, asylum, and the right to belong in Europe, Asia, and North America. Often stereotyped as threatening, alien, and rootless, these migrants are generally depicted as lacking histories and by extension not worthy of consideration or empathy. This course invites students to understand some of the most tragic humanitarian crises of our time and the massive involuntary displacements provoked by war, violence, and/or climate change. Taking a global perspective, this seminar examines the history of displacement, refugees, migration, diaspora in a focusing on the nineteenth century through the present. With special attention to the historical experience of various peoples of the Middle East, the course will start with theoretical approaches to the study of migration and then delve into case studies, A range of different moments of displacement will be analyzed such as the experiences of Armenians, Jews, Palestinians, Syrian, Iraqis, and Kurds. By examining the human geography and politics of forced displacement and migration, this course will address a number of important academic and political questions: what makes a history written by, about, and for displaced people powerful? How can writing from the perspectives of refugees challenge core debates about identity, the nation and borders? How does the focus on displacement help in understanding the nature of war and conflict?

Requirements/Evaluation: Final 25 page research paper, several drafts of paper, class presentations and in class writing exercises.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: History and Arabic Studies majors and Global Studies concentrators.

Expected Class Size: 15

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
Writing Skills Notes: This research seminar will involve the writing of a final 25 page paper. Prior to that stage, each process of writing will involve moments of feedback and sharing. Students will submit a proposal early on in the semester and then write an outline. These will receive peer and instructor feedback. They will then submit a five page draft in October, a 10 page draft in November, before the final submission in December. In this way, they will have opportunities to rework and improve their writing.

Difference, Power, and Equity Notes: This course takes a comparative approach by exploring the predicament of some of the most vulnerable people in the world, i.e., displaced peoples and refugees. The course will consider their legal status and their experience of leaving their homes due to wars or natural disaster. The area of study is the Middle East and we will examine the historical experience of a number of different people in the region including Kurds, Palestinians, Sephardi Jews, and Syrians.

HIST 434 (S) Humanitarianism and Jewish History (WS)
Cross-listings: JWST 434 / REL 335

Primary Cross-listing

In the twentieth century, Jewish history and humanitarian history became deeply intertwined. As the victims of persecution and expulsion, mass violence and genocide, Jews repeatedly figured as the recipients of aid and humanitarian intervention. At the same time, Jewish political figures, legal thinkers, intellectuals and scholars, social activists, and aid workers played central roles in the establishment of humanitarian organizations and in debates about the moral, political, and legal frameworks that have shaped approaches to humanitarianism across the decades since World War I. This research seminar is designed to open up big questions about the history of humanitarianism and to carve out space for students to conduct research on a particular place, time, and aspect of that larger history in conversation with other students working on related topics. In the first half of the semester, in discussions of common readings, we will examine various works of scholarship that connect to the history of humanitarianism from the nineteenth century to the present. Beginning in the first half of the semester and with greater intensity in the second half of the semester, you will conduct independent archival research on some aspect of the history of humanitarianism using the digitized archives of the American Jewish Joint Distribution Committee, culminating in a twenty-plus-page paper. In the final weeks of the semester, the seminar will continue to meet weekly as a research colloquium, to provide a forum for you to present your research and drafts in progress and to give feedback on fellow students' work. In this seminar, we are not merely studying history; you are actually doing history. Over the semester, you will learn how to pose historical questions; to engage critically with readings beyond summarizing them; to synthesize an enormous amount of source material; and to learn how to write more clearly. The goal is for each student to produce a polished research paper based on engagement with archival sources and relevant secondary literature that will serve as a capstone to your coursework at Williams or as a potential jumping-off point for future research projects, including a senior thesis in History or Jewish Studies.

Requirements/Evaluation: class participation, several short papers, oral presentations, and a 20-page research paper

HIST 481  (F)  History of Taiwan  (WS)
Cross-listings: ASIA 481
Primary Cross-listing

Almost all discussions of contemporary Taiwan reference the fierce debate over its sovereignty and international status: is the island of Taiwan an independent nation, or an "inalienable part" of the much larger and more powerful People's Republic of China? Part of the argument for Taiwan's separate nationhood derives from its claim to a unique history different from that of the P.R.C.. In this tutorial course, we will look closely at the distinctive aspects of Taiwan's history that underlie this claim, including its aboriginal populations, maritime history, experience of Japanese colonialism, settlement by mainland Chinese after World War II, role in the Cold War, and the development of a Taiwanese ethnic and political identity in the postwar period. We will also examine contemporary arguments for Taiwan as part of China. The goal of the course is neither to debate nor resolve the "Taiwan question", but to explore the history and historical arguments that inform it.

Requirements/Evaluation:  weekly papers and critiques
Prerequisites:  none
Enrollment Limit:  10
Enrollment Preferences:  History and Asian Studies majors/concentrators
Expected Class Size:  10

HIST 486  (S)  Race and A Global War: Africa During World War II  (DPE)  (WS)

This course highlights African experiences of World War II. Although most histories have excluded Africa's role in the war, the continent and its people were at the center of major developments during this global conflict. In fact, many Africans remember the Italian invasion of Ethiopia in 1935 as the start of the war. African servicemen fought alongside the Allied and Axis forces on major warfronts in Europe, Africa and Asia. African communities and individuals also established war charity campaigns to collect funds, which they sent to war ravaged societies in Europe. Indeed, African economies, despite their colonial statuses, kept European imperial nations afloat in their most hour of need. At the same time, African colonial subjects faced severe food shortages, the loss of working-age men to labor and military recruiters, and dramatically increased taxes. We will examine the impact of these and other wartime pressures on different African communities. How did African societies meet such challenges and how did they view the war? In this course we will examine the roles that women played during the war, and the various other ways that African communities met wartime demands. Other topics we will explore include the role of African women; colonial propaganda; political protest against the war; race and racial thought in the wartime era; war crimes; African American support for the liberation of Ethiopia; and the war's impact on decolonization across the continent. We will further study how Africans and outsiders have differently conceptualized the continent's role in the war by analyzing a variety of sources, including scholarly writings, archival materials, films, former soldiers' biographies, and propaganda posters.

Requirements/Evaluation:  Students will be evaluated based on a series of 5-7-page tutorial response papers and 2-page critiques, as well as preparedness for and performance in weekly tutorial discussions.
Prerequisites:  None
Enrollment Limit:  10
Enrollment Preferences:  Preference will be given to history majors and students with prior experience with African history. If the course is over-enrolled, students may be asked to complete a questionnaire to determine enrollment
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

Writing Skills Notes: Students will alternate weekly between writing 5-7-page tutorial papers and 2-page critiques of their peers' writing. Formal writing assignments throughout the semester will total at least 40 pages. Students will receive written feedback on their writing from the professor, as well as oral critiques from the professor and tutorial partners. The final writing assignment will afford students the chance to reflect on their previous papers and the semester's course content.

Difference, Power, and Equity Notes: This course explores the colonial relationship during a major global crisis. Students will examine existing narratives of African contributions to the war and to come up with their own interpretations, and will be called to critically engage the question of why and how colonies made significant contributions to the Allied cause by producing needed materials and resources or by joining the fight. Africans made these contributions despite various and complex inequities.

HIST 487 (S) FIRE! A SOCIAL HISTORY (WS)
This tutorial offers a social history of fire in a national, international, and transnational framework. The aim of this course isn't to historicize fire, itself. Rather, "fire" is treated as a subtext to other historical developments and events in the twentieth and twenty-first centuries that have been factually and figuratively shaped by it. In this regard, we will grasp fire not only as combustion or conflagration but also through its nuanced meanings and their implications for how we think historically about issues related to capitalism, class, climate and environment, labor, gender, immigration, internationalism, policing, politics, race, radicalism, and sex. In essence, bodies might be on fire, burning with sexual desire; buildings might be on fire, engulfed in an intense conflagration; cities might be on fire, ignited by gunfire and urban unrests; workers might be fired or even fired up in a working-class movement, the latter incited by the push for labor democracy; or there might be fire weather, sparked by drier conditions and sweltering temperatures reflecting climate change. Thus, we will examine "fire" in a variety of historical contexts, from actual accounts of disastrous fire incidents due to environmental or industrial mishaps to stories of passion or protest inflaming individuals and groups to studies of rebellions and riots that produce fiery conditions. Lastly, we will analyze society's historical fascination with "fire" events, both real and imagined, and the way they have prompted efforts to rebuild, reform, and reimagine. To accomplish our goals, we will engage primary and secondary sources in addition to screening films that focus on histories directly or indirectly related to fire.

Requirements/Evaluation: Weekly formal papers and written critiques. 10-12 page research paper.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: Open to sophomores, juniors, and seniors. History majors will be prioritized. Should the course become overenrolled, I will have non-history majors complete a questionnaire.

Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

Writing Skills Notes: Students will be required to complete formal writing assignments each week, alternating between response papers (4 pages) and written critiques (2-pages) of their peers' work. Students will receive substantial feedback on their writing skills, with verbal and written suggestions for improvement. Students also will receive feedback from their tutorial partners.

Attributes: HIST Group F Electives - U.S. + Canada

Spring 2025

HIST 488 (F) Sites of Memory and American Wars (WS)
This tutorial will examine the ways that U.S. military ventures have been memorialized through a variety of physical sites, including landscapes, monuments and statues, museums, and other depictions. Given the enormous national conversation and reconsideration of many of these sites over
the last decade, we will ask such questions as: How and why has the memorialization of U.S. wars changed since the country's founding? Who determines what is preserved and what stories are told? What is the relationship between individual experiences, collective memories, and national narratives? What do "sites of memory" tell us about society's views of wars and soldiers and about the United States? Throughout, we will pay attention to how these sites reflect historical understandings of the time and have also served as focal points of social and political protests.

Class Format: Students will meet with the professor either in assigned pairs or "trios" at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation: This course follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. During two of the weeks of the semester (around the middle of the semester and at the end), all students will write papers that explore a common question or theme.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: History majors and students with course work related to the topic.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: At the start of the semester, students will outline what their writing goals are for the semester, and they will receive feedback on their writing from the professor and from their tutorial partner. The final writing assignment will afford students the chance to reflect on their previous papers and the semester's course content.

HIST 491 (S) The Suburbs (WS)

Cross-listings: ENVI 491 / AMST 490

Primary Cross-listing

The suburbs transformed the United States. At the broadest level, they profoundly altered spatial residential geography (especially in terms of race), consumer expectations and behavior, governmental policies, cultural norms and assumptions, societal connections, and Americans' relationship to nature. More specifically, the different waves of post-World War II suburban development have both reflected large-scale shifts in how power and money have operated in the American political economy; and set in motion deep-seated changes in electoral politics, in Americans' understandings of how their income should be used, and in how the built landscape should be re-imagined. This tutorial will explore the rich historical literature that has emerged over the last twenty years to provide students with a history of the suburbs, to see the suburbs as more than simply collections of houses that drew individual homeowners who wanted to leave urban areas. We will focus most of our attention on the period from 1945 through the 1980s. Some of the questions we will consider will include: how did the first wave of suburban development bring together postwar racial and Cold War ideologies? Is it possible, as one historian has argued, that suburbs actually created the environmental movement of the 1960s? And how have historians understood the role that suburbs played in America's conservative political turn, leading to the election of Ronald Reagan?

Class Format: Students will meet with the professor either in assigned pairs or "trios" at a regularly scheduled time each week. Students in pairs will meet for one hour; students in trios will meet for 75 minutes.

Requirements/Evaluation: This class follows a typical tutorial format; every other week, students will write and present orally a 5- to 7-page essay on the assigned readings; on alternate weeks, students will write a 2-page critique. HIST 495  (F)  The Medieval World System: Globalization before 1500  (WS)

In recent years, scholars have turned increasing attention to global history in the pre-modern period. This tutorial takes as its focus the global Middle Ages: roughly speaking, the period between 500 and 1500 CE. This was a period that saw mass-produced consumer goods cross from China to India, East Africa, and the Middle East, inspiring admiration and imitation in multiple different markets. It saw games, music, and forms of literature become popular across continents, and saw religious communities forge networks spanning thousands of kilometers. To study the global Middle Ages is to place exchange and networks, both commercial and cultural, at the heart of our analysis. We will read and analyze many accounts by medieval travelers, merchants, and pilgrims who crossed Afro-Eurasia, alongside works by modern historians and archaeologists who have pieced together the patterns of movement and exchange that tied together the diverse societies of pre-modern Afro-Eurasia.

Requirements/Evaluation: Students will meet in pairs with the instructor once a week. Every other week each student will present a paper of approximately 5-7 pages on a topic determined by the instructor, due by 5pm the day before the tutorial meeting. The student not writing the paper will critique the paper written by their tutorial partner. Each student will write six papers and serve as a critic on the six papers of their tutorial partner.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Junior and Senior History majors

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

JLST 272  (S)  Free Will and Responsibility  (WS)

Cross-listings: PHIL 272

Secondary Cross-listing

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? We're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The key question, then, is whether, and how, agency is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Requirements/Evaluation: Six tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)

Prerequisites: one PHIL course (or permission of instructor; please email with any questions)

Enrollment Limit: 10

Enrollment Preferences: current and prospective Philosophy majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

JWST 434 (S) Humanitarianism and Jewish History (WS)
Cross-listings: REL 335 / HIST 434

Secondary Cross-listing

In the twentieth century, Jewish history and humanitarian history became deeply intertwined. As the victims of persecution and expulsion, mass violence and genocide, Jews repeatedly figured as the recipients of aid and humanitarian intervention. At the same time, Jewish political figures, legal thinkers, intellectuals and scholars, social activists, and aid workers played central roles in the establishment of humanitarian organizations and in debates about the moral, political, and legal frameworks that have shaped approaches to humanitarianism across the decades since World War I. This research seminar is designed to open up big questions about the history of humanitarianism and to carve out space for students to conduct research on a particular place, time, and aspect of that larger history in conversation with other students working on related topics. In the first half of the semester, in discussions of common readings, we will examine various works of scholarship that connect to the history of humanitarianism from the nineteenth century to the present. Beginning in the first half of the semester and with greater intensity in the second half of the semester, you will conduct independent archival research on some aspect of the history of humanitarianism using the digitized archives of the American Jewish Joint Distribution Committee, culminating in a twenty-plus-page paper. In the final weeks of the semester, the seminar will continue to meet weekly as a research colloquium, to provide a forum for you to present your research and drafts in progress and to give feedback on fellow students' work. In this seminar, we are not merely studying history; you are actually doing history. Over the semester, you will learn how to pose historical questions; to engage critically with readings beyond summarizing them; to synthesize an enormous amount of source material; and to learn how to write more clearly. The goal is for each student to produce a polished research paper based on engagement with archival sources and relevant secondary literature that will serve as a capstone to your coursework at Williams or as a potential jumping-off point for future research projects, including a senior thesis in History or Jewish Studies.

Requirements/Evaluation: class participation, several short papers, oral presentations, and a 20-page research paper
Prerequisites: none

LATS 322 (S) Fiction Writing Workshop (DPE) (WS)

Cross-listings: ENGL 388

Primary Cross-listing

This workshop is focused on the art and practice of writing fiction and geared toward students interested in working on creative honors theses. Readings include published fiction by primarily Latine and other writers who center Global South experiences, with attention paid to how each author employs narrative elements--characterization, plotting, structure, dialogue mechanics, setting, tone, theme--as well as the values and visions expressed. Students will present short fiction or novel excerpts for peer critique and the editorial advice of the instructor. Regular in-class exercises and take-home assignments will help students expand their narrative skills.

Requirements/Evaluation: Attendance and class participation, regular writing exercises, 4- to 5-page midterm paper (close-reading a text), 10- to 15-page final creative paper (close-reading a text and creative-writing response)

Prerequisites: LATS 222: Ficciones

Enrollment Limit: 15

Enrollment Preferences: LATS concentrators, honors theses

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

LATS 421 (F) Latinx Geographies (WS)

This research seminar examines the history, framework, and scholarship of the growing field of Latinx Geographies within the context of interdisciplinary Latine Studies. This course explores the perspectives, experiences, spatial politics, and place-making practices of Latines to consider their relationship to the built environment. We will examine recent theories regarding space, place, and race; explore them through various Latinx positionalities, such as gender, sexuality, class, and citizenship status; and apply them to literary and media representations of Latine spaces and places, such as the US-Mexico borderlands, barrios, and rural fields. We will consider how undocumented queer and trans migrants have become prominent political actors in social movements, how migration, race, and the environment interact in pollution and activism, how undocumented women negotiate motherhood, how non-profit organizations market Latinidad for infrastructural development, and more. In this interdisciplinary and comparative course, students will be exposed to the genealogy of Latinx Geography, which finds its genesis embedded in Black Geography, Queer (Women) of Color Critique, Latinx Studies, and Ethnic Studies. Students will learn a geographical vernacular to think and articulate spatially in the social sciences and humanities, as they develop their own research projects. Collectively, we will interrogate case studies of Latines in the built environment to make visible how race and space are fundamental tenets of a Latinx geographical analysis. Students will select a research topic and develop their own research project independently and through coursework. Evaluation will be based on class participation, leading discussion, presentations, research proposal, annotated bibliography, short writing assignments, writing workshop participation, and a final 20-page research paper.

Requirements/Evaluation: Class participation, leading class discussion, proposal, annotated bibliography, short writing assignments, writing workshop participation, presentation, drafts of final paper, and final 15-20 page research paper.

Prerequisites: N/A

Enrollment Limit: 19

Enrollment Preferences: LATS concentrators; seniors

Expected Class Size: 15
Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: This research seminar supports students as they define an appropriate topic, identify and use primary and secondary sources, and complete a 15-20 page final research paper. Several short writing assignments focus on interpretations of primary sources and on key arguments in secondary sources. The final paper is written in stages, including a proposal, an annotated bibliography, a draft for workshop with other students and faculty feedback, and a final presentation along with a revised draft.

LATS 475 (S) Dreaming Latina/x Feminist Disability Studies (DPE) (WS)

Cross-listings: WGSS 475 / AMST 413

Primary Cross-listing

In this course we will defy the traditional notion that disabled and queer people of color have no right to future dreams, as we collectively imagine how the emergent field of Latina/x feminist disability studies might take shape. What are the sites of focus, methods, and political commitments of Latina/x feminist disability studies? Where is the power in meaningfully uniting an analysis of disability to one of sexuality and gendered Latinidad? How does a Latina/x-centric approach productively inform our understanding of disability? What is the political potential of Latina/x feminist disability studies -- not exclusively as a set of theories, but also as a mindset and an everyday call to action? If we were to collectively compose a manifesto for Latina/x feminist disability studies, what might it contain? How might we actively cultivate a community of care in the classroom as well as other spaces at Williams? Just what might Latina/x feminist disability justice dreams look like? How might Latina/x feminist disability justice dreams feel? Feminist, queer, and disabled crip-of-color scholars have recently called for a more meaningful engagement with race in feminist disability studies.

Simultaneously, we have also witnessed a small but steady growth in the amount of Latina/x studies scholarship that thoughtfully integrates questions of disability. This interdisciplinary course responds to these important shifts in its focus on a series of topics bridging Latina/x studies, gender studies, queer studies, crip studies, and critical disability studies. These include but are not limited to the body, the environment, temporality, labor, citizenship, dependency, and visibility/invisibility. Through these topics, we will explore the ways in which the different approaches to these specific issues across Latina/x, critical disability, crip, queer and gender studies are in fruitful conversation with one another -- and sometimes even at odds -- as we actively interrogate the intersections of gender, race, ethnicity, sexuality, and disability within the everyday.

Requirements/Evaluation: Major assignments for this course include a semester-long independent research paper (15-20 pages) broken up into steps, participation in crafting the class manifesto, a semester-long collaborative artistic exercise, and a final reflection document (3-4 pages).

Prerequisites: None.

Enrollment Limit: 12

Enrollment Preferences: Priority given to LATS concentrators by seniority, followed by WGSS and AMST majors by seniority.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Materials/Lab Fee: Lab fee: $200 for art supplies per student

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 475(D2) LATS 475(D2) AMST 413(D2)

Writing Skills Notes: We focus on building writing and interdisciplinary research skills, with a particular emphasis on the processes of research, revision, and collaborative writing. The primary research paper (an independent project of 15-20 pages) is divided into stages, and students are required to revise and resubmit their work at various junctures in the research process. The written class manifesto requires students to compose a document together, revising their work as a group over the course of the semester.

Difference, Power, and Equity Notes: This course privileges an intersectional analysis regarding questions of race, ethnicity, gender, sexuality, and disability. It obligates students to consider how these categories of different actively work in tandem with one another in everyday US Latina/x and transnational (US-Latin America and the Caribbean) contexts. This seminar also underscores how these categories of difference are actually products of a given historical and political moment.

Attributes: LATS 400-level Seminars
LEAD 290 (F) How Change Happens in American Politics (WS)

Cross-listings: PSCI 290

Secondary Cross-listing

An unprecedented assault on the U.S. Capitol, the rise of white nationalism, a pandemic, economic volatility, racial reckoning, the overturning of Roe v. Wade, and rapidly evolving environmental crises -- American politics in the last four years has been tumultuous. What might we expect to come next? From the Founding to the present, the American political order has undergone cataclysmic and thoroughgoing transformations, yet it has also proven to be remarkably stable and enduring. How can this be? Where do we find continuities and where upheavals? Who or what has been responsible for the continuities, and who or what for the changes? What sorts of transformations have been possible, and why -- what marriage of individual action and contextual factors have created political change in the past and in the present? Finally, what are the costs of change (and of continuity) -- and who pays them? In this tutorial, we assess American political change, or lack of, to gain a sense of the role that political leaders have played in driving change. We examine when and how individuals and leadership have mattered vis-à-vis broader historical and contextual factors, including war, economic developments, demographic change, and constitutional and institutional practices. We consider general models of change, as well as specific case studies, including civil rights and social justice for racial and ethnic groups, gender equality and family relations, and reactionary or traditionalist politics. Finally, we will look at arguments that America has been "exceptional" -- or, unlike other countries -- as well as critiques of these arguments to help us gain an understanding of future prospects for political transformation.

Requirements/Evaluation: participation in weekly meetings as well as 4 lead essays (5-6 pages) and 4 critiques (2 pages)

Prerequisites: one prior course in political science

Enrollment Limit: 10

Enrollment Preferences: Declared and prospective Political Science majors and Leadership Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

LEAD 320 (F) Heroes and Villains: Iconic Leadership and the Politics of Memory (WS)

Cross-listings: PSCI 320

Primary Cross-listing

Americans have been arguing intensely in recent years about how we should remember the leaders from our nation's past. Does Thomas Jefferson's statue belong on a university campus? Should college dorms be named for John C. Calhoun and Woodrow Wilson? Should Harriet Tubman's portrait replace Andrew Jackson's on the $20 bill? In this course we will look at how people in the United States and elsewhere have used their leaders' images to hash out larger political issues of national identity, purpose, and membership. Why has historical commemoration gotten so contentious--or has it always been contentious? What's really at stake when we depict our leaders? How (if at all) should we reconcile contemporary morality with historical context in assessing the leaders from our past? To address these questions, we will study portrayals of some of the most famous leaders in American history--including Alexander Hamilton, Abraham Lincoln, and Martin Luther King, Jr. Our sources will include political speeches, literature, film, and journalism as well as monuments and museum exhibits; though our examples will be drawn mostly from the United States, our conceptual framework will be transnational. As a final assignment, students will write an 18-20 page research paper on a topic of their choice related to the core themes of the course.
**Requirements/Evaluation:** Seminar participation, research proposal, peer workshop, research paper, in-class research presentation

**Prerequisites:** previous course in Leadership Studies, or Political Science, or permission of instructor

**LEAD 425  (S) Senior Seminar: Leadership and the Anxieties of Democracy  (WS)**

**Cross-listings:** PSCI 357

**Primary Cross-listing**

This course, the senior capstone for Leadership Studies, examines the challenges and opportunities facing political leaders in contemporary liberal democracies. We will begin by seeking to place our current moment in the longer arc of history, examining the distinctive institutional and structural constraints facing contemporary political leaders and examining in detail previous eras in which the American political system has come under great pressure. Then, we will look at some important factors that shape how followers approach would-be leaders: inequality and economic precarity; identity and group consciousness; notions of membership, community, and hierarchy; and fraying institutions. While the course will focus primarily on the United States, our conceptual framework will be global. Our primary questions will be these: Why does transformative leadership seem so difficult today? How does political leadership in the 21st century differ from leadership in earlier eras? What conditions are necessary to sustain effective leadership in the contemporary world? As a final assignment, students will craft an 18-20-page research paper on a topic of their choice related to the themes of the course.

**Requirements/Evaluation:** Seminar participation, research proposal, peer workshop, research paper, in-class research presentation

**Prerequisites:** LEAD 155 or permission of the instructor

**Enrollment Limit:** 14

**Enrollment Preferences:** Open to Leadership Studies concentrators or with the permission of the instructor; preference given to Political Science majors

**Expected Class Size:** 14

**Grading:** no pass/fail option, no fifth course option

MATH 313 (S) Introduction to Number Theory (WS) (QFR)
The study of numbers dates back thousands of years, and is fundamental in mathematics. In this course, we will investigate both classical and modern questions about numbers. In particular, we will explore the integers, and examine issues involving primes, divisibility, and congruences. We will also look at the ideas of number and prime in more general settings, and consider fascinating questions that are simple to understand, but can be quite difficult to answer. This course will include a significant focus on mathematical proof writing and problem solving skills. This includes writing clear and rigorous mathematical proofs, clearly explaining mathematical ideas verbally and in writing, determining how to approach certain types of problems, looking for patterns and making conjectures, and asking good questions about the implications of certain ideas and theorems.

Requirements/Evaluation: Problem sets, project, and exams
Prerequisites: MATH 250 or permission of instructor
Enrollment Limit: 19
Enrollment Preferences: If course is over-enrolled, enrollment preference will be based on answers to a questionnaire. Some preference will be given to students who have not yet had Math 355.

Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D3) (WS) (QFR)

Writing Skills Notes: Students will complete weekly problem sets, with a strong emphasis on proof writing, as well as 2 5-10 page papers/projects. There will be feedback given on mathematical writing as well as accuracy, and discussion time during class on writing in math.

Quantitative/Formal Reasoning Notes: This course requires working with various number systems, performing explicit computations, and proving mathematical results using logical reasoning practices.

Spring 2025
LEC Section: 01 TR 9:55 am - 11:10 am Allison Pacelli

MATH 389 (S) Advanced Analysis (WS) (QFR)
This course further develops and explores topics and concepts from real analysis, with special emphasis on introducing students to subject matter and techniques that are useful for graduate study in mathematics or an allied field. Material will be drawn, based on student interest, from many areas, including analytic number theory, Fourier series and harmonic analysis, generating functions, differential equations and special functions, integral operators, equidistribution theory and probability, random matrix theory and probabilistic methods. This will be an intense, fast paced class which will give a flavor for graduate school. In addition to standard homework problems, students will also write reviews for MathSciNet, referee papers for journals, write programs in SAGE or Mathematica to investigate and conjecture, and read classic and current research papers.

Class Format: lecture
Requirements/Evaluation: evaluation will be based primarily on homework, classwork, and exams
Prerequisites: MATH 350 or 351 and one additional 300-level MATH course, or permission of instructor
Enrollment Limit: 30
Enrollment Preferences: students interested in graduate school in mathematics or an allied discipline

Expected Class Size: 15
Grading: yes pass/fail option, yes fifth course option
Unit Notes: http://web.williams.edu/Mathematics/sjmiller/public_html/389/
Distributions: (D3) (WS) (QFR)

Writing Skills Notes: Students will improve and expand their writing skills by taking course material as a starting point and writing chapters for a book under contract with the American Mathematical Society. This will involve numerous iterations of the content, with feedback both from the professor and from an editor.

Quantitative/Formal Reasoning Notes: This is a post-core 300 level math class.

Spring 2025
MATH 408 (F) L-Functions and Sphere Packing (WS) (QFR)

Optimal packing problems arise in many important problems, and have been a source of excellent mathematics for centuries. The Kepler Problem (what is the most efficient way to pack balls in three-space) is a good example. The original formulation has been used in such diverse areas as stacking cannonballs on battleships to grocers preparing fruit displays, and its generalizations allow the creation of powerful error detection and correction codes. While the solution of the Kepler Problem is now known, the higher dimensional version is very much open. There has been remarkable progress in the last few years, with number theory playing a key role in these results. We will develop sufficient background material to understand many of these problems and the current state of the field. Pre-requisites are real analysis.

Requirements/Evaluation: Class participation, homework, exams and participation in writing a textbook on the material. Each student will be responsible for working on a chapter of a book based on this material. In addition to obtaining critical writing feedback from myself and my co-author (who is a world expert in the subject), depending on timing we will also be able to share comments from an editor of a major publishing house or a referee. Chapters can range from short snapshots of a subject, on the order of 5 pages, to longer technical derivations of perhaps 10-30 pages.

Prerequisites: Math 350 or 351

Enrollment Limit: 40

Enrollment Preferences: Senior math majors, students planning on graduate study in a STEM field

Expected Class Size: 20

Grading: yes pass/fail option, yes fifth course option

Distributions: (D3) (WS) (QFR)

Writing Skills Notes: Students will improve and expand their writing skills by taking course material as a starting point and writing chapters for a book under contract with the American Mathematical Society. This will involve numerous iterations of the content, with feedback both from the professor and from an editor.

Quantitative/Formal Reasoning Notes: This is a 400 level math class

Fall 2024

LEC Section: 01 MWF 11:00 am - 11:50 am Steven J. Miller

MUS 173 (S) Music, Medicine, and Madness (WS)

This class will explore intersections between medicine and music in Europe and the United States between 1750 and 1900, with particular attention to constructions of “madness” as a condition that could be triggered, treated, or expressed by music. Through focused readings, analysis of musical examples, and discussion, we will examine historical discourses concerning music’s ability to influence the mind and body—and through this examination gain perspective on current discussions of both mental and physical health. Topics will include the “mad scene” trope in 19th-century opera, the idea of the suffering genius composer, the history of music as medical treatment, and how factors like race, gender, and ability shaped understandings of musical achievement and medical diagnosis.

Class Format: lecture/discussion

Requirements/Evaluation: class participation, one-time discussion leading, musical analysis essay, article analysis essay, final research project proposal and presentation

Prerequisites: ability to read music helpful but not necessary

Enrollment Limit: 15

Enrollment Preferences: Music majors, those planning to major, or those with strong interest in music, medicine and its history, disability studies, or gender studies. If overenrolled, the instructor may ask students to answer a questionnaire to determine enrollment.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Three papers and engaged class participation. Outlines and drafts of two of the papers will be required. Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments.
MUS 217  (S) Hip Hop Culture  (DPE) (WS)
Cross-listings: AMST 222 / ENGL 221 / AFR 222
Secondary Cross-listing

The course examines how young people of color created hip hop culture in the postindustrial ruins of New York City, a movement that would eventually grow into a global cultural industry. Hip hop music producers have long practiced "diggin' in the crates"--a phrase that denotes searching through record collections to find material to sample. In this course, we will examine the material and technological history of hip hop culture, with particular attention to hip hop's tendency to sample, remix, mash-up, and repurpose existing media artifacts to create new works or art. We will use a media archaeological approach to examine the precise material conditions that first gave rise to graffiti art, deejaying, rapping, and breakdancing, and to analyze hip hop songs, videos, and films. Media archaeology is a critical and artistic practice that seeks to interpret the layers of significance embedded in cultural artifacts. How does hip hop archaeology remix the past, the present, and the future? How do the historical, political, and cultural coding of hip hop artifacts change as they increasingly become part of institutional collections, from newly established hip hop archives at Cornell and Harvard to the Smithsonian National Museum of African American History and Culture?

Requirements/Evaluation: Four papers, project with presentation, and a final exam.
Prerequisites: None
Enrollment Limit: 19
Enrollment Preferences: AMST majors or prospective majors
Expected Class Size: 19
Grading: no pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 222(D2) ENGL 221(D1) AFR 222(D2) MUS 217(D1)

Writing Skills Notes: Students in this course develop a capacity to write generative arguments in an interdisciplinary scholarly context. Students will receive feedback not only on structure, substance, and style, but also on how to best build a line of inquiry, how to gather high-quality evidence, and how to make one's thinking productively intersect with more than one scholarly or creative field.

Difference, Power, and Equity Notes: This course requires students to use an effective descriptive and critical vocabulary to discuss and analyze artifacts of hip hop culture, with attention to race, gender, class, sexuality, and other categories of social difference. They must understand the material, technological, historical, and cultural contexts that gave rise to hip hop culture, and proficiently synthesize scholarly perspectives related to the formation and transformations of hip hop from the early 70s to the early 21st cent.

MUS 238  (S) Music in Modernism  (WS)

The synthesis of the arts was a primary pursuit of modernist composers, artists, choreographers, and writers. Seeking either to realize Wagner's "total work of art" in the theater, or to uncover the more general correspondences celebrated by Baudelaire, modernists consistently looked beyond their own media. Collaborations on works of "total theater" were common: Salie, Cocteau, Massine, Picasso; Brecht, Hindemith, Weill; Stravinsky, Nijinsky, Bakst; Claudel, Honegger, Rubinstein. Modernists explored new connections between music and color (Scriabin, Kandinsky), music and literature (Joyce, Mann), and music and dance (Duncan, Graham). Occasionally, modernists attempted to unite the arts on their own: Schoenberg painted, Pound composed, and Kokoschka wrote. Our focus will be on those works of music, art, dance, and literature that explored new relationships between the arts. One goal will be to investigate whether specific equivalents exist between techniques of modernist painting, poetics, choreography, and composition. Aware of the risks and rewards of interdisciplinary study, we will attempt our own theories of artistic synthesis. This course is designed to bring multiple perspectives to the study of music in modernism.

Class Format: discussion
Requirements/Evaluation: Three papers (6, 8, and 12 pages in length) and engaged class participation. Outlines and drafts of two of the papers will be required. Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: If overenrolled, preference will be given to sophomores and juniors.

Expected Class Size: 15

Grading: yes pass/fail option, yes fifth course option

Distributions: (D1) (WS)

Writing Skills Notes: Three papers (6, 8, and 12 pages in length) and engaged class participation. Outlines and drafts of two of the papers will be required. Students will receive detailed comments on each paper, allowing them to build upon those comments in subsequent writing assignments.

Spring 2025

LEC Section: 01   TR 9:55 am - 11:10 am  W. Anthony Sheppard

MUS 476 (S) Orality and Literacy in Historical Musical Practice (WS)

Music is an inherently oral/aural, ephemeral art form. Music history is reliant upon, and tends to privilege, its symbolic rendering in fixed notation. Yet, notated music—described by musicologist Nino Pirrotta as "the visible tip of an iceberg... seven-eighths of which remain submerged"—tells only a fraction of the story we seek to understand when studying musics of the past. In this seminar, we will address the unique challenges of studying the relationship between orality and literacy in historical musical practice. We will begin by considering the creative role of memory and embodied ritual in oral musical performance and transmission, as well as the ways in which various cultures have attempted to preserve such practices and the inherently transformative process they undergo when fixed in notation. We will then explore the range of theories and methodologies that scholars and performers have taken in approaching oral musical practices of the past in relation to varying levels of textual and musical literacy. Topics may include studies of epic poetry, jazz improvisation, medieval plainchant, troubadour song, improvised counterpoint, son mexicano, Neapolitan lyric song and dance, Ethiopian Christian chant, medieval and early modern instrumental music practices, Arab-Andalusian music, music in the commedia dell’arte, and various examples of contrafacture. Over the course of the semester, students will develop and present their own independent research aimed at producing a collaborative mock conference/performance as a final project for the class.

Requirements/Evaluation: evaluation will be based on three 5-6 page papers, three presentations, a final collaborative conference/performance, and class participation

Prerequisites: ability to read music

Enrollment Limit: 8

Enrollment Preferences: junior and senior music majors, and any student with a demonstrated interest in music

Expected Class Size: 8

Grading: no pass/fail option, yes fifth course option

Unit Notes: satisfies the 400-level course requirement for the music major

Distributions: (D1) (WS)

Writing Skills Notes: Students will write three 5-6 page papers and will receive detailed feedback on their writing.

Spring 2025

SEM Section: 01   W 1:10 pm - 3:50 pm  Elizabeth G. Elmi

NSCI 209 (F) Animal Communication (WS)

Cross-listings: BIOL 209

Secondary Cross-listing

Animal communication systems come in as many varieties as the species that use them. What they have in common are a sender that encodes information into a physical signal and a receiver that senses the signal, extracts the information, and adjusts its subsequent behavior accordingly. This tutorial will consider all aspects of communication, using different animal systems to explore different aspects of the biology of signaling. Topics will
include the use of syntax to carry meaning in chickadee calls, synchronous signaling by fireflies, gestural communication by primates, long-distance chemical attractants that allow male moths to find the object of their desire, and cultural evolution within learned signaling systems.

**Requirements/Evaluation:** evaluation will be based on five 5-page papers, five short response papers, and the student's effectiveness in tutorial discussions.

**Prerequisites:** BIOL 101 and 102; open to sophomores, juniors, and seniors

**Enrollment Limit:** 10

**Enrollment Preferences:** Biology majors and Neuroscience concentrators who need a Biology elective to complete the concentration; then sophomores.

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

NSCI 209(D3) BIOL 209(D3)

**Writing Skills Notes:** This course is a tutorial, and each student will write five position papers and five response papers. Extensive feedback will be provided; students will be required to rewrite one position paper, and may rewrite any of them.

**Attributes:** COGS Related Courses NSCI Group A Electives

**NSCI 319 (S) Neuroethics (WS)**

**Cross-listings:** PSYC 319 / STS 319

**Secondary Cross-listing**

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmacology" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

**Requirements/Evaluation:** six 5-page position papers and five 2-page response papers as well as participation in discussions

**Prerequisites:** PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Psychology majors and Neuroscience concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 319(D3) STS 319(D2) NSCI 319(D3)

**Writing Skills Notes:** In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

PHIL 110 (F) History of Modern Moral and Political Philosophy (WS)

This course is a survey of 17th-, 18th-, and 19-century moral and political philosophy. We will consider what, if anything, justifies the rules of morality and law, and we will consider the nature, value, and limits of freedom. We will ask whether our individual actions and our social and political structures are based in our self-interested desires, our natural instincts, or our rationality. Authors will include: Hobbes, Locke, Rousseau, Hume, Kant, Smith, Marx, and Mill.

Requirements/Evaluation: Students will write a number of short essays.

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first-years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write a series of short essays, developing key skills of philosophical writing, including, most prominently, formulating a thesis and developing an argument. Students will receive feedback on drafts, and be required to substantially revise their papers prior to submission.

Fall 2024

SEM Section: 01    TR 8:30 am - 9:45 am     Justin B. Shaddock

PHIL 115 (S) Personal Identity (WS)

Through lectures, discussions, close readings and assigned writings, we will consider a variety of philosophical questions about the nature of persons, and personal identity through time. Persons are subjects of experiences, have thoughts and feelings, motivation and agency; a person is thought of as continuous over time, and as related to, recognized and respected by other persons. Thus, the concept of person plays a significant role in most branches of philosophy, e.g. metaphysics, epistemology, moral and political philosophy, philosophy of mind. Conceptions of person are equally important in science (especially in psychology), law, and the arts. Questions about persons are of central importance for a myriad of our theories and practices, and for the ways in which we live our lives. The aim of this course is to explore and evaluate a number of rival conceptions of persons and personal identity over time. Some of the questions which we will discuss are: What is a person? How do I know that I am one? What constitutes my knowledge of myself as a person, and does that knowledge differ in any significant respect from my knowledge of physical objects and of other people? Our starting and central question will be: What makes me the particular person that I am, and how is my identity as this individual person preserved over time? The course will place special emphasis on developing students' intellectual skills in close, analytical reading; reconstructing and evaluating claims and reasons that support them; producing original ideas and arguments, orally and in writing; responding to the claims and arguments presented in texts and in class; and writing clear, polished, well-argued papers.

Requirements/Evaluation: Class attendance, preparedness and participation; additional small group weekly meetings, and reports from these meetings (group members rotate in writing the report); 12 short writing assignments. No final paper and no exam.

Prerequisites: none; open to first year students

Enrollment Limit: 19

Enrollment Preferences: freshmen, sophomores, and philosophy majors who need a 100 level course to satisfy requirement for the major

Expected Class Size: 19

Grading: no pass/fail option, yes fifth course option

Unit Notes: meets 100-level PHIL major requirement

Distributions: (D2) (WS)

Writing Skills Notes: Students will write weekly short assignments (at most 1000 words long), six of which will be letter-graded (but only five best assignments will count for the final grade). All assignments will receive detailed comments on substance as well as on writing skills and strategies.

Spring 2025

SEM Section: 01    MW 7:00 pm - 8:15 pm     Bojana Mladenovic
PHIL 116  (S)  Mind, Knowledge, and Reality  (WS)

This course is an introduction to philosophy through three major themes: The nature of the universe, the existence of gods, and the mind/body problem. Throughout, we will appeal to reason and evidence in forming our best beliefs. Our discussions will range over historical and contemporary works in the Western tradition.

Requirements/Evaluation: active participation; four (5-6 page) essays
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Strong preference given to first-years and sophomores; do not contact the instructor to plead for special enrollment consideration.
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Unit Notes: meets 100-level PHIL major requirement
Distributions: (D2)  (WS)

Writing Skills Notes: Students will craft 4 six page essays, and each will receive extensive comments on structure and composition with an eye toward developing skills in philosophical writing.

Spring 2025
SEM Section: 01    MW 7:00 pm - 8:15 pm     Joseph L. Cruz

PHIL 119  (F)(S)  Why Obey the Law?  (WS)

What social and political arrangements are most conducive to fostering human well-being and the common good? What makes governmental authority legitimate? A foundation in reason and morality? Popular sovereignty? Does might make right? We turn first to two of Plato’s most famous dialogues, The Apology and The Republic in which we encounter Socrates’ trial for impiety and corrupting the youth, and, Socrates effort to defeat an argument that might makes right, that only the weak agree to obey the law, by envisioning an ideal (non-democratic) city-state ruled by benevolent philosopher-kings. The rest of the course is devoted to figures in the history of modern political philosophy, both defenders and critics of democratic liberalism (e.g.s., Hobbes, Locke, Rousseau, Marx, J.S. Mill, Nietzsche, W.E.B Dubois, etc.). We conclude with contemporary reflections on the fate of democracy today.

Class Format: Class participation will involve individual and group activities meant to give you practice in thinking quickly, working with others, and building arguments.

Requirements/Evaluation: Six pass/fail short response essays of approximately 500 words each in which students write about a particular part of the assigned text (such as explaining what a passage means, drawing connections between different parts of the text, identifying an argument, responding to an argument, etc); two 5-page papers based on prompts; participation.
Prerequisites: None. Open to any student interested in the sources of our current understandings of government, the basis of its authority, and strengths and weaknesses of democracy.

Enrollment Limit: 19
Enrollment Preferences: Majors, first years, and sophomores will normally receive preference if the course over enrolls.
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Unit Notes: meets 100-level Phil major requirement
Distributions: (D2)  (WS)

Writing Skills Notes: The professor and the teaching assistant will provide detailed comments on short and longer essays and provide occasional peer review opportunities, handouts and discussions of frequent types of errors, different approaches to writing and drafting, and the importance of editing and seeking the help of writing tutors. I encourage, but do not require, that students make appointments to discuss ideas and drafts with the TA or me.

Attributes: JLST Interdepartmental Electives  LEAD Ethical Issues of Leadership
PHIL 126  (S)  Paradoxes  (WS)
There are three grains of sand on my desk. This is unfortunate, but at least there isn't a heap of sand on my desk. That would be really worrisome. On the other hand, there is a heap of sand in my backyard. I don't know how exactly how many grains of sand are in this heap, but let's say 100,000. My daughter removes one grain of sand. I don't know why, she just does. It seems like there is still a heap of sand in my backyard. In fact, it seems like you can't change a heap of sand into something that isn't a heap of sand by removing one grain of sand. Right? But now we have a problem. By repeated application of the same reasoning, it seems that even after she removes 99,997 grains of sand—I don't know what she wants with all this sand, but I'm starting to worry about that girl—there is still a heap of sand in my backyard. But three grains isn't enough for a heap. So there is not a heap in my backyard. Now I'm confused. Where did my reasoning go wrong? What we have here is an example of the sorites paradox. It is a paradox, because I started with seemingly true statements and used valid reasoning to arrive at contradictory conclusions. We can learn a lot about logic, language, epistemology and metaphysics by thinking through and attempting to resolve paradoxes. In this class, we'll work together to think through some ancient and contemporary paradoxes. We'll also work on writing lucid prose that displays precisely the logical structure of arguments, engages in focused critique of these arguments, and forcefully presents arguments of our own. Other topics could include: Zeno's paradoxes of motion and plurality, the liar's paradox, the surprise-exam paradox, paradoxes of material constitution, Newcomb's Problem, and the Prisoner's Dilemma.

Requirements/Evaluation:  (i) short response papers; (ii) midterm paper (~5-6 pages) (iii) Final term-paper (~10 pages) in multiple drafts; (iv) Active and informed participation in class discussions.

Prerequisites:  none
Enrollment Limit:  19
Enrollment Preferences:  First and second year students. Prospective philosophy majors.
Expected Class Size:  15-19
Grading:  no pass/fail option,  yes fifth course option
Unit Notes:  Meets 100-level PHIL major requirement
Distributions:  (D2)  (WS)
Writing Skills Notes:  Students will write a number of short papers. Both the content and the writing will be evaluated. These papers will focus on clear and precise presentation and evaluation of arguments. There will be a midterm paper revising an earlier short paper. There will be a final term-paper written in multiple drafts.

Spring 2025
SEM Section: 01    TF 2:35 pm - 3:50 pm     Keith E. McPartland

PHIL 127  (F)(S)  Meaning and Value  (WS)
What gives an individual life meaning? Pleasure? Success in fulfilling desires? Flourishing in ways distinctive to a rational agent or a human being (including, for example, developing rational capacities and self-mastery, succeeding in worthwhile projects, cultivating relationships, living morally, developing spiritually)? Can we be mistaken about how well our lives are going, or about what has value? What are the main sources of uncertainty here? Does the fact that our lives will end threaten their meaning? How can science contribute to our understanding of these issues? We'll examine these and related questions through historical and contemporary readings. This course aims to teach skills required for good philosophical thinking, including those involved in reading texts closely, reconstructing and evaluating arguments, articulating ideas clearly in discussion, and crafting well-structured and carefully-reasoned papers.

Class Format:  Students will meet in trios for this tutorial. We will meet on a fixed weekly schedule agreed to by the instructor and participants.
Requirements/Evaluation:  Four lead tutorial papers (5-6 pages in length), seven critiques (2 pages in length), and one rewrite.
Prerequisites:  First-years and sophomores only.
Enrollment Limit:  12
Enrollment Preferences:  First-years and sophomores, and students who need to fulfill their 100-level requirement for the philosophy major. This tutorial is an appropriate first course in PHIL.
**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Unit Notes:** This tutorial meets the 100-level PHIL major requirement.

**Distributions:** (D2) (WS)

**Writing Skills Notes:** Each student will write a lead tutorial paper (5-6 pages in length) or a peer critique (2 pages) in alternating weeks. The instructor will provide timely comments on writing skills, with suggestions for improvement.

**PHIL 212 (F) Ethics and Reproductive Technologies (WS)**

**Cross-listings:** WGSS 212 / STS 212

**Primary Cross-listing**

In her groundbreaking book, The Tentative Pregnancy, Barbara Katz Rothman writes that “[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace—or to let us think we can replace—chance with choice.” Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as “motherhood” and “parenthood,” family and genetic relatedness, exploitation and commodification, and reproductive rights and society’s interests in reproductive activities. Topics will range from consideration of “mundane” technologies such as contraception, abortion, in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, uterine transplants, and “artificial wombs.” Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.

**Class Format:** discussion

**Requirements/Evaluation:** active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)

**Prerequisites:** none, but introductory-level course in PHIL and/or WGSS recommended

**Enrollment Limit:** 19

**Enrollment Preferences:** WGSS and PHIL majors (declared or prospective), PHLH and STS concentrators (declared or prospective)

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** meets Contemporary Value Theory requirement only if registration is under PHIL

**Distributions:** (D2) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**

WGSS 212(D2) PHIL 212(D2) STS 212(D2)

**Writing Skills Notes:** Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

LEC Section: 01 TF 2:35 pm - 3:50 pm Julie A. Pedroni

---

**PHIL 213 (S) Biomedical Ethics (WS)**

Much like the construction of medical knowledge itself, it is from specific cases that general principles of biomedical ethics arise and are systematized
into a theoretical framework, and it is to cases they must return, if they are to be both useful and comprehensible to those making decisions within the biomedical context. In this tutorial we will exploit this characteristic of biomedical ethics by using a case-based approach to examining core concepts of the field. The first portion of the course will be devoted to developing and understanding four moral principles which have come to be accepted as canonical: respect for autonomy, beneficence, nonmaleficence, and justice. The remainder of the course will consider key concepts at the core of medical ethics and central issues for the field, such as privacy and confidentiality, the distinction between killing and “letting die,” and therapy vs. research. To this end, each week we will (1) read philosophical material focused on one principle or concept, and (2) consider in detail one bioethics case in which the principle or concept has special application or relevance. In some weeks, students will be asked to choose from a small set which case they would like to address; in others the case will be assigned.

Requirements/Evaluation: bi-weekly papers, oral commentaries, and tutorial discussions

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: PHIL majors, PHLH concentrators, those who have a curricular need for the course, those who have been dropped from the course in previous semesters due to over enrollment

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and resubmit. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

PHIL 224 (S) Nietzsche, Marx and Freud (WS)

Nietzsche, Marx and Freud have had a profound influence on literature, philosophy, and critical theories of the 20th and 21st centuries. In this tutorial we will treat them as diagnosticians of modernity who engaged in unveiling illusions and opening up possible alternative human futures. Each questioned the emancipatory effects of dominant understandings of reason and freedom as well as idealist and humanist accounts of moral progress in history; each aimed to liberate human beings from unnecessary suffering. We will focus on questions concerning their distinctive diagnostic and critical methods, the problems they identified, and their respective understandings of religion and and modern science.

Class Format: We may also meet in a seminar format once or twice during the semester.

Requirements/Evaluation: Bi-weekly papers, 2-3 page commentaries, and tutorial discussions.

Prerequisites: One of the following: 100-level Philosophy course or permission of instructor. Exposure to history of modern European philosophy and/or intellectual history will be very helpful.

Enrollment Limit: 10

Enrollment Preferences: Philosophy majors or prospective majors and students with background and interest in modern philosophy and critical theories more generally.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: Students write five or six 5-6 page tutorial papers. Each will receive regular feedback to improve their ability to present clear, well-supported and engaging written arguments and interpretations.

Attributes: PHIL History Courses

Spring 2025
TUT Section: T1 TBA Jana Sawicki
PHIL 243 (S) The Philosophy of Higher Education: College Controversies  (WS)

What are the purposes of higher education? What are the purposes of liberal arts colleges in America? What should be the goals of Williams College?
We will begin examining these questions by studying the history of some controversies in American higher education, and then turn to contemporary controversies such as campus free speech, cancel culture, divestment, decolonization, and admissions criteria.

Class Format: This course is a tutorial. Students will meet in pairs with the instructor one hour per week.

Requirements/Evaluation: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks

Prerequisites: none

Enrollment Limit: 10

Enrollment Preferences: I will be seeking a balance of interests and backgrounds; preference given to students who have taken at least one philosophy course

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

Writing Skills Notes: A 5- to 7-page paper every other week (6 in all), prepare and present a written critique of their partners’ papers in alternate weeks, and will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

PHIL 244 (S) Environmental Ethics  (WS)

Cross-listings: ENVI 244

Secondary Cross-listing

What ethical standards should guide our individual and societal choices when those choices affect current and future environmental conditions? This course will introduce students to fundamental concepts, methods, and issues in environmental ethics. Initial tutorial meetings will focus on theoretical materials that will background later discussions and will include classic readings from the environmental ethics literature, among others. Most sessions will pair readings about key concepts with specific cases that raise complex ethical issues, including the concept of moral standing and, e.g., people who do not yet exist, non-human individuals, species, and complex living systems; the concept of moral responsibility and complicity in environmentally damaging practices; the legitimacy of cost-benefit analysis as an environmental policy tool; and the valuation of human lives.

Requirements/Evaluation: five essays (5-7 pages each) and five prepared oral responses to partners' essays; evaluation will be based on essays, oral responses, and quality of discussion

Prerequisites: ENVI 101 or one course in PHIL

Enrollment Limit: 10

Enrollment Preferences: declared and prospective Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Unit Notes: meets Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 244(D2) PHIL 244(D2)

Writing Skills Notes: Students will write five tutorial papers of 5-7 pages in length, one of which they will revise and submit at the end of the term. In each of the tutorial papers students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.
PHIL 272 (S) Free Will and Responsibility  (WS)

Cross-listings:  JLST 272

Primary Cross-listing

Our practice of holding people responsible seems justified as long as their choices are free. But when does a choice qualify as free? We're all deeply influenced by factors ranging from the general laws of nature to specific features of our genetic endowment and social environment (including religion, political ideology, and advertising). These affect not only our particular choices but also, more fundamentally, who we are and what we value. The key question, then, is whether, and how, agency is possible amidst all of these influences. We'll attempt to answer this question by examining recent philosophical work on the nature of free will and responsibility.

Requirements/Evaluation:  Six tutorial papers (5-6 pages in length) and five critiques (2-3 pages in length)
Prerequisites:  one PHIL course (or permission of instructor; please email with any questions)
Enrollment Limit:  10
Enrollment Preferences:  current and prospective Philosophy majors
Expected Class Size:  10
Grading:  no pass/fail option, no fifth course option
Distributions:  (D2)  (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PHIL 272(D2)  JLST 272(D2)

Writing Skills Notes:  Students will write a tutorial paper (5-6 pages in length) every other week, and a peer critique (2-3 pages in length) in alternating weeks, evenly spaced throughout the semester. The instructor will provide timely comments on writing skills, with suggestions for improvement.

PHIL 274 (F) Messing with People: The Ethics of Human Experimentation  (WS)

The Tuskegee Syphilis Study and Stanley Milgram's Obedience experiments are infamous. Yet, other lesser known experiments are equally important landmarks in research ethics that continue to shape the design, conduct, and regulation of research involving human participants. In this tutorial we'll closely examine a series of contemporary and historical cases of human experimentation (roughly, one case per week) with an eye toward elucidating the moral norms that ought to govern such research. A number of conceptual themes will emerge throughout the course of the term, including notions of exploitation and coercion, privacy and confidentiality, and the balance between public interests and individual rights. The cases will be drawn from different domains of research, including clinical medicine, public health, social and behavioral sciences, and education. Specific issues are likely to include the ethics of placebo research; deception in research; studies of illicit/illegal behavior; genetic research; research involving social media; experimentation with children, pregnant people and fetuses; research involving persons with mental illness, justice and research with marginalized populations, among other topics.

Requirements/Evaluation:  evaluations will be based on written work, on biweekly papers, oral commentaries, and tutorial discussions
Prerequisites:  none
Enrollment Limit:  10
Enrollment Preferences:  Philosophy majors (declared and prospective); Public Health concentrators (declared and prospective)
Expected Class Size:  10
Grading:  no pass/fail option, no fifth course option
Distributions:  (D2)  (WS)
Writing Skills Notes: Students will write six tutorial papers of 5-7 pages in length, one of which they will revise and resubmit. In each of the tutorial papers, students will describe and evaluate arguments that appear in the assigned readings, and will develop arguments in support of their own ethical positions. Students will receive written and oral feedback, concentrated particularly in the first half of the semester, to improve their ability to present clear and effective written arguments.

Fall 2024
TUT Section: T1    TBA     Julie A. Pedroni

PHIL 320 (F) Topics in Critical Theory: What is Critique? What Can It Do? (DPE) (WS)
In this course, we focus on the aims of critique and on how we might use critical theory to further our social and political agendas today. You will become familiar with immanent critique, ideology critique, genealogical critique, and negative critique. Key questions include: What are the foundations and aims of critique? Does critique require postulating alternatives? How is power exercised? Should we abandon the idea of moral progress in history? Readings may include texts by Adorno, Horkheimer, Foucault, Deleuze, Judith Butler, Amy Allen, Raymond Geuss, Wendy Brown and Nancy Fraser.

Class Format: We may schedule at least one seminar meeting during the semester.

Requirements/Evaluation: Evaluation is based on written work (six 5-6 page papers, and six 2-3 page commentaries on a partner's papers) as well as the quality and level of preparation and intellectual engagement in our weekly meetings.

Prerequisites: Demonstrated background in the history of modern philosophy (PHIL 202), modern political theory, or critical and social theories.

Enrollment Limit: 10

Enrollment Preferences: Preference will be given to philosophy majors and prospective majors and students with background in critical or social theories.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

Difference, Power, and Equity Notes: In this course, we raise questions at the center of debates in critical theory, a form of theory oriented toward emancipation or, at the very least, toward resisting unnecessary constraints on freedom that result in intolerable conditions and suffering.

Attributes: PHIL Contemporary Value Theory Courses

Fall 2024
TUT Section: T1    TBA     Jana Sawicki

POEC 253 (F) Empirical Methods in Political Economy (WS) (QFR)
This course introduces students to common empirical tools used in policy analysis and implementation. Students will develop skills in statistical literacy to become critical consumers of public policy-relevant research. The emphasis in the course is split between an intuitive understanding of statistical foundations, and applications in data visualization and science communication. Through hands-on work with data and critical assessment of existing empirical social scientific research, students will develop the ability to choose and employ the appropriate tool for a particular research problem, and to understand the limitations of the techniques. Topics to be covered include basic principles of probability; effective data visualization; statistical inference and hypothesis testing; and multiple regression analysis. A particular focus will be placed on understanding causality, the challenges of estimating causal relationships, and the design of evidence-based policy. Throughout the course, the focus will be on public policy applications relevant to the fields of political science, sociology, and public health, as well as to economics.

Requirements/Evaluation: Problem sets, group project, midterm exam, final exam

Prerequisites: MATH 130 or its equivalent; one course in ECON; not open to students who have taken ECON 255

Enrollment Limit: 20

Enrollment Preferences: Political Economy majors, Environmental Policy majors and sophomores
Expected Class Size:  15
Grading:     yes pass/fail option,     yes fifth course option

Unit Notes: does not satisfy the econometrics requirement for the Economics major; POEC 253 cannot be substituted for ECON 255, or count as an elective towards the Economics major

Distributions:   (D2)  (WS) (QFR)

Writing Skills Notes: Students will write 3 coding-intensive data briefs over the course of the semester. Creation of original exhibits from publicly accessible data, use of citation management systems, and clarity in technical writing will be emphasized.

Quantitative/Formal Reasoning Notes: The course teaches econometrics, i.e. statistics as economists use it, with applications in economics, political science, and other fields.

PSCI 160  (F)  Refugees in International Politics  (DPE) (WS)

Globally, refugees seem to create, and be caught up in, chronic crisis. This course evaluates how this can be--how a crisis can be chronic, and for whom this chronic crisis is a solution. We investigate who refugees are, in international law and popular understanding; read refugee stories; examine international and national laws distinguishing refugees from other categories of migrants; evaluate international organizations' roles in managing population displacement; look at the way that images convey stereotypes and direct a type of aid; consider refugee camps in theory and example; and reflect on what exclusion, integration, and assimilation mean to newcomers and host populations. In whose interest is the prevailing system? Who might change it, and how?

Requirements/Evaluation:  Ten essays: five lead, five response. The first two weeks’ essay grades will be unrecorded.

Prerequisites:  none

Enrollment Limit:  10

Enrollment Preferences:  first-year students, to be selected randomly from list of those enrolled.

Expected Class Size:  10

Grading:     no pass/fail option,     no fifth course option

Distributions:   (D2)  (DPE) (WS)

Writing Skills Notes: In addition to writing every week, students will have a chance work on specific skills cumulatively.

Difference, Power, and Equity Notes: This course examines the way in which home states categorize people and oppress some, producing refugees; the way that host states categorize people and oppress some, using immigration to shore up the prevailing ethnic hierarchy; and why we worry about some of these categories of oppression more than others.

PSCI 208  (F)  Wealth in America  (WS)

The pursuit of wealth is an important feature of American political identity, captured by the ideas of the American dream and the Protestant work ethic. The accumulation of wealth has been lauded as both a worthy individual activity and a vital component of the nation's public interest. Yet inequality in wealth may conflict with the political equality necessary for democratic governance and public trust, leading to concerns that we are sacrificing community, fairness, and opportunity for the benefit of a small portion of the population. This course focuses on questions about the public value of wealth and its accumulation, which have become more pressing now that the richest one percent of Americans own about 40 percent of privately held wealth. Some readings will be historical, particularly those focusing on American political thought and the politics of the Gilded Age. Most readings will focus on contemporary political debates about the accumulation, concentration, and redistribution of wealth.

Requirements/Evaluation:  four 5-page papers and a final 10-page paper that is a revision and extension of a short paper

Prerequisites:  none; not suitable for first-year students
Enrollment Limit: 19

Enrollment Preferences: Political Science majors with concentration in American politics and Political Economy majors

Expected Class Size: 19

Grading: no pass/fail option, no fifth course option

Unit Notes: American concentration

Distributions: (D2) (WS)

Writing Skills Notes: Four 5-page papers, peer review, and a revision of extension of one of these papers into a 10-page paper at the end of the semester. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

PSCI 290 (F) How Change Happens in American Politics (WS)

Cross-listings: LEAD 290

Primary Cross-listing

An unprecedented assault on the U.S. Capitol, the rise of white nationalism, a pandemic, economic volatility, racial reckoning, the overturning of Roe v. Wade, and rapidly evolving environmental crises -- American politics in the last four years has been tumultuous. What might we expect to come next? From the Founding to the present, the American political order has undergone cataclysmic and thoroughgoing transformations, yet it has also proven to be remarkably stable and enduring. How can this be? Where do we find continuities and where upheavals? Who or what has been responsible for the continuities, and who or what for the changes? What sorts of transformations have been possible, and why -- what marriage of individual action and contextual factors have created political change in the past and in the present? Finally, what are the costs of change (and of continuity) -- and who pays them? In this tutorial, we assess American political change, or lack of, to gain a sense of the role that political leaders have played in driving change. We examine when and how individuals and leadership have mattered vis-à-vis broader historical and contextual factors, including war, economic developments, demographic change, and constitutional and institutional practices. We consider general models of change, as well as specific case studies, including civil rights and social justice for racial and ethnic groups, gender equality and family relations, and reactionary or traditionalist politics. Finally, we will look at arguments that America has been "exceptional" -- or, unlike other countries -- as well as critiques of these arguments to help us gain an understanding of future prospects for political transformation.

Requirements/Evaluation: participation in weekly meetings as well as 4 lead essays (5-6 pages) and 4 critiques (2 pages)

Prerequisites: one prior course in political science

Enrollment Limit: 10

Enrollment Preferences: Declared and prospective Political Science majors and Leadership Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 305 (F) Environmental Political Thought (WS)
In the face of planetary crisis, it is as difficult as it is crucial to find the time and calm "to think what we are doing" (Hannah Arendt's famous line). This course aims to hold space for that thinking; to collaboratively find the presence of mind to take the measure of the doings that caused, and that may redress, the awful reality of earth's degradation. To do so, we will read, discuss, and write about some of the most significant book-length works of environmental political thought published in the last five years. These books conceptualize and intervene into the politics of phenomena such as climate change, species depletion, toxic pollution and (a special interest of the instructor) waste by applying--and sometimes reinventing--approaches from political theory, political economy, science & technology studies, philosophy, and critical theory. They consider the enmeshment of environmental problems with racism, colonialism, economic inequality, and speciesism, among other modalities of power, and weigh the promise of political action and organization to reconstitute relationships among earth's human and more-than-human elements. By interpreting, evaluating, applying and extending the arguments of these books in discussion and writing, students will be challenged to scrutinize their preconceptions and develop, support and articulate original arguments about politics and the environment.

Requirements/Evaluation: Four mini-essays of 2-3 pages each; one final paper of 7-10 pages that incorporates substantially revised material from at least one mini-essay; class participation

Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: Political theory concentrators, Political Science majors
Expected Class Size: 19
Grading: yes pass/fail option, yes fifth course option
Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSCI 305(D2) STS 305(D2)

Writing Skills Notes: Students will discuss and fine-tune their writing processes in class and office hours. Students will be given written feedback on mini-essays, with particular attention to developing a sense of voice and purpose in written argumentation. This feedback will support their revision of at least one mini-essay as part of writing the final paper.

PSCI 319 (F)(S) Marine Policy (DPE) (WS)
Cross-listings: ENVI 351 / CAOS 351

Coastal communities are home to nearly 40% of the U.S. population, but occupy only a small percentage of our country's total land area. Intense population density, critical transportation infrastructure, significant economic productivity, and rich cultural and historic value mark our coastal regions as nationally significant. But, coastal and ocean-based climate-induced impacts such as sea level rise, ocean warming and acidification pose extraordinary challenges to our coastal communities, and are not borne equally by all communities. This seminar considers our relationship with our ocean and coastal environments and the foundational role our oceans and coasts play in our Nation's environmental and economic sustainability as well as ocean and coastal climate resiliency. Through the lens of coastal and ocean governance and policy-making, we critically examine conflict of use issues relative to climate change, climate justice, coastal zone management, fisheries, ocean and coastal pollution and marine biodiversity.

Class Format: This class is taught only at Williams-Mystic in Mystic, Connecticut and includes coastal and near-shore interdisciplinary field seminars, and 10 days offshore.

Requirements/Evaluation: Weekly Readings; Class Participation; Small and large group strategy exercises (written and oral); Written Research Project: issues paper and draft research paper; Final Research Project: multiple formats available
Prerequisites: none
Enrollment Limit: 23
Enrollment Preferences: must be enrolled at Williams-Mystic in Mystic, Connecticut
Expected Class Size: 22
Grading: no pass/fail option, no fifth course option
Unit Notes: must be enrolled at Williams-Mystic in Mystic, Connecticut
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 319(D2) ENVI 351(D2) CAOS 351(D2)

Writing Skills Notes: Each student will write one 3-5 page research issues paper and one 8-10 page draft research paper as well as a final project with written components equaling 5-8 pages. Each submission receives written feedback from the professor, including research guidance, input on grammar, structure, language, analysis. Students also receive verbal feedback in individual conferences to discuss research paper organization, analysis, structure and grammar as well as final project input.

Difference, Power, and Equity Notes: Coastal and ocean policy issues relating to climate change, coastal zone management, fisheries, ocean pollution and marine biodiversity impact environmental and climate justice. Students examine coastal governance while considering the disproportionate burdens on underrepresented populations in U.S. coastal communities caused by climate change and coastal policies. Students analyze multi-disciplinary evidence and work to strengthen their integrative, analytical, writing, and advocacy skills.

PSCI 320  (F)  Heroes and Villains: Iconic Leadership and the Politics of Memory (WS)

Cross-listings: LEAD 320

Secondary Cross-listing
Americans have been arguing intensely in recent years about how we should remember the leaders from our nation's past. Does Thomas Jefferson's statue belong on a university campus? Should college dorms be named for John C. Calhoun and Woodrow Wilson? Should Harriet Tubman's portrait replace Andrew Jackson's on the $20 bill? In this course we will look at how people in the United States and elsewhere have used their leaders' images to hash out larger political issues of national identity, purpose, and membership. Why has historical commemoration gotten so contentious—or has it always been contentious? What's really at stake when we depict our leaders? How (if at all) should we reconcile contemporary morality with historical context in assessing the leaders from our past? To address these questions, we will study portrayals of some of the most famous leaders in American history—including Alexander Hamilton, Abraham Lincoln, and Martin Luther King, Jr. Our sources will include political speeches, literature, film, and journalism as well as monuments and museum exhibits; though our examples will be drawn mostly from the United States, our conceptual framework will be transnational. As a final assignment, students will write an 18-20 page research paper on a topic of their choice related to the core themes of the course.

Requirements/Evaluation: Seminar participation, research proposal, peer workshop, research paper, in-class research presentation

Prerequisites: previous course in Leadership Studies, or Political Science, or permission of instructor

Enrollment Limit: 14

Enrollment Preferences: Leadership Studies concentrators, Political Science majors

PSCI 326 (S) The Cyber Revolution (WS)
This is a course about how the advent of digital technologies, and especially those related to cybersecurity, have reshaped international politics, as well as how they might affect the world order in the future. At its most basic level, it addresses a question that is of fundamental importance to both scholars and policymakers alike: Have cyberweapons and digital technologies revolutionized the way that international politics works, in a manner similar to the impact that nuclear weapons have had on the international system since 1945? Specifically, the course will focus on what is known as the "theory of the cyber revolution"; threats to critical infrastructure; the most significant cyberattacks that have occurred to date, namely, the US-Israeli Stuxnet attack on Iran's nuclear facilities in 2006-2010 and Russia's NotPetya attack on Ukraine in 2017; zero-day markets; information warfare and its effects on, respectively, authoritarian and democratic political systems; and the role that critical information technologies--such as advanced semiconductors, quantum computing, and artificial intelligence systems--might play in the evolution of international security competition in future decades.

Requirements/Evaluation: Biweekly analytical essays, biweekly critiques, final paper, class participation
Prerequisites: PSCI 120
Enrollment Limit: 10
Enrollment Preferences: Preference given to PSCI majors, especially those concentrating in the international relations subfield
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)

Writing Skills Notes: Students will be writing biweekly analytical essays, biweekly critiques of their partner's work, and a final paper. Moreover, they will be providing peer review of one another's work throughout the semester.

PSCI 357 (S) Senior Seminar: Leadership and the Anxieties of Democracy (WS)
Cross-listings: LEAD 425
Secondary Cross-listing
This course, the senior capstone for Leadership Studies, examines the challenges and opportunities facing political leaders in contemporary liberal democracies. We will begin by seeking to place our current moment in the longer arc of history, examining the distinctive institutional and structural constraints facing contemporary political leaders and examining in detail previous eras in which the American political system has come under great pressure. Then, we will look at some important factors that shape how followers approach would-be leaders: inequality and economic precarity; identity and group consciousness; notions of membership, community, and hierarchy; and fraying institutions. While the course will focus primarily on the United States, our conceptual framework will be global. Our primary questions will be these: Why does transformative leadership seem so difficult today? How does political leadership in the 21st century differ from leadership in earlier eras? What conditions are necessary to sustain effective leadership in the contemporary world? As a final assignment, students will craft an 18-20-page research paper on a topic of their choice related to the themes of the course.

Requirements/Evaluation: Seminar participation, research proposal, peer workshop, research paper, in-class research presentation
Prerequisites: LEAD 155 or permission of the instructor
Enrollment Limit: 14
Enrollment Preferences: Open to Leadership Studies concentrators or with the permission of the instructor; preference given to Political Science majors
Expected Class Size: 14
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 426 (F)  The Arab-Israeli Conflict (WS)

The Arab-Israeli dispute receives more attention than arguably any other ongoing conflict in international politics, and for very good reason. The fact that it has lasted as long as it has--well over a century--been characterized by a remarkable (and depressing) degree of intensity; involved competing nationalisms, as well as different religions, cultures, and ethnicities; centered on territorial claims over land that is of special significance; and been connected to a number of important geopolitical questions, including ones involving great power competition, has made it a major focus of scholars of the Middle East, international relations analysts, and, of course, the general public. The issue is also of special interest, for a variety of reasons, in American political discourse. This seminar will examine the conflict in depth, beginning with its origins in the late nineteenth century, and ending with how it might run its course in the future. Specifically, the course will begin with an overview of the dispute's history and most salient aspects. Thereafter, it will cover Zionism and the Palestinian nationalist cause; the creation of the state of Israel and the 1948-1949 Arab-Israeli war; the June 1967 war; the debate, and controversy, over the "Israel lobby" in the United States; the October 1973 war and its aftermath; the road to the 1979 Egyptian-Israeli peace treaty; the arguably underappreciated role that nuclear weapons have played in the conflict; the rise and collapse of the Oslo peace process in the 1990s, as well as the outbreak of the Second Intifada in 2000; and the future of the dispute.

Requirements/Evaluation:  class participation, three critical analytical essays, peer critiques/exchanges, final paper

Prerequisites:  PSCI 120 and at least one other PSCI course from the international relations subfield

Enrollment Limit:  19

Enrollment Preferences:  Political science majors, especially seniors, will be given priority for enrollment.

Expected Class Size:  19

Grading:  no pass/fail option,  yes fifth course option

Distributions:  (D2) (WS)

Writing Skills Notes: Students will need to do a large amount of analytical writing in this course, as well as critique and edit one another's papers. There will also be a component of the class that involves doing writing workshops.

PSYC 319 (S)  Neuroethics (WS)

Cross-listings:  STS 319 / NSCI 319

Primary Cross-listing

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmaceuticals" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

Requirements/Evaluation:  six 5-page position papers and five 2-page response papers as well as participation in discussions
Prerequisites: PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor
Enrollment Limit: 10
Enrollment Preferences: Psychology majors and Neuroscience concentrators
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D3) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
PSYC 319(D3) STS 319(D2) NSCI 319(D3)

Writing Skills Notes: In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

REL 211 (F) Envisioning the Sacred: Representation and Religion in Christian and Muslim Cultures (WS)

Cross-listings: ASIA 212 / ARTH 215

Secondary Cross-listing

How did medieval Christians and pre-modern Muslims imagine the sacred and how did they give what they imagined pictorial form? How were these pictures used, both in public and in private life, and why? How did the art of these unique religious traditions forge connections between the visible and invisible worlds? Paying particular attention to the function and experience of works of art within Christian and Islamic cultures, this seminar examines the evolution of devotional visual expression, while also exploring the problems sacred images generated in these distinct yet often overlapping traditions. Through readings and class discussion, the course will investigate, among other topics: the varied attitudes toward the representability of God in Judaism, Islam, and Christianity; the impact of earlier image traditions on the religious art of medieval Christians and pre-modern Muslims; the cult of the devotional image, concerns over idolatry, and the destruction of images; ideas about spiritual versus physical vision and their influence on the making and viewing of pictures; the relationship of sacred images to relics and to various aspects of organized ritual; and the possible roles played by pictures of the sacred in silencing or giving voice to dissent.

Requirements/Evaluation: Participation in class discussion; oral presentation; five 3-4-page papers, and a final 6-page paper
Prerequisites: None
Enrollment Limit: 12
Enrollment Preferences: Sophomores then juniors, but open to all
Expected Class Size: 12
Grading: no pass/fail option, no fifth course option

Unit Notes: This seminar will be team taught, by Murad Mumtaz and Peter Low
Distributions: (D2) (WS)

REL 284 (F) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe (WS)

Cross-listings: WGSS 284 / ARTH 218

Secondary Cross-listing

This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages: the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale, dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more, these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: First years and sophomores, but open to all.

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

REL 291 (F) Religion and Ecology in America (WS)

Cross-listings: ENVI 291 / SOC 291

Secondary Cross-listing

This course examines the relationship between religious and environmental thought in American cultural history. Exploring a broad range of practices, stories, and beliefs, we will examine the spiritual roots and branches of modern environmentalism. Rather than survey the formal teachings of organized religious groups, we will explore the creation and contestation of environmental meaning in the public sphere through literature, art, philosophy, and popular culture. How have religious writers, thinkers, and artists shaped the way we think about nature? How have they shaped the way we think about politics, science, and social justice? In pursuit of these questions, we will consider a diverse array of topics and cases, including struggles to protect Native American sacred places, the role of Black churches in fighting environmental racism, Protestant outdoorsmanship, Catholic climate activism, Jewish eco-mysticism, atheist biological theory, Buddhist eco-spirituality, and more.

Requirements/Evaluation: Each week each student will either write a 5- to 7-page essay on assigned readings or offer a 2-page critique of their
partner’s paper.

Prerequisites: None

Enrollment Limit: 10

Enrollment Preferences: Environmental Studies majors and concentrators

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
ENVI 291(D2) REL 291(D2) SOC 291(D2)

Writing Skills Notes: Each student will write five five-page papers and five two-page papers in this class. They will be given extensive weekly feedback on their writing in the form of one-on-one meetings and written comments, and they will be given multiple opportunities for revision. Emphasis will be placed on the mechanics of argumentation, logic and rhetoric, and the development of a distinctive voice.

REL 335 (S) Humanitarianism and Jewish History (WS)

Cross-listings: JWST 434 / HIST 434

Secondary Cross-listing

In the twentieth century, Jewish history and humanitarian history became deeply intertwined. As the victims of persecution and expulsion, mass violence and genocide, Jews repeatedly figured as the recipients of aid and humanitarian intervention. At the same time, Jewish political figures, legal thinkers, intellectuals and scholars, social activists, and aid workers played central roles in the establishment of humanitarian organizations and in debates about the moral, political, and legal frameworks that have shaped approaches to humanitarianism across the decades since World War I. This research seminar is designed to open up big questions about the history of humanitarianism and to carve out space for students to conduct research on a particular place, time, and aspect of that larger history in conversation with other students working on related topics. In the first half of the semester, in discussions of common readings, we will examine various works of scholarship that connect to the history of humanitarianism from the nineteenth century to the present. Beginning in the first half of the semester and with greater intensity in the second half of the semester, you will conduct independent archival research on some aspect of the history of humanitarianism using the digitized archives of the American Jewish Joint Distribution Committee, culminating in a twenty-plus-page paper. In the final weeks of the semester, the seminar will continue to meet weekly as a research colloquium, to provide a forum for you to present your research and drafts in progress and to give feedback on fellow students’ work. In this seminar, we are not merely studying history; you are actually doing history. Over the semester, you will learn how to pose historical questions; to engage critically with readings beyond summarizing them; to synthesize an enormous amount of source material; and to learn how to write more clearly. The goal is for each student to produce a polished research paper based on engagement with archival sources and relevant secondary literature that will serve as a capstone to your coursework at Williams or as a potential jumping-off point for future research projects, including a senior thesis in History or Jewish Studies.

Requirements/Evaluation: class participation, several short papers, oral presentations, and a 20-page research paper

Prerequisites: none

Enrollment Limit: 15

Enrollment Preferences: History majors and Jewish Studies concentrators

Expected Class Size: 10

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
JWST 434(D2) REL 335(D2) HIST 434(D2)

Writing Skills Notes: Students will write two drafts of their research paper before submitting the final paper for a grade. They will receive timely comments on drafts from professor and peers, to be incorporated into their final paper.
RLFR 105 (F) Advanced French: Advanced Studies in French Language and Francophone Culture (DPE) (WS)
In this French course, we will read and examine literary texts from the twelfth to the 19th centuries, and films from the twentieth and twenty-first centuries. In order to analyze them, we will briefly situate them in their social and historical contexts. These works will help us better understand contemporary France and explore France's colonial past. We will also learn how to write two short research paper in French in the form of an explication de texte. While the themes, authors, time periods will vary, our approach will remain the same. Three themes, love, fear, and France's colonial past, will serve as the course's organizing principles. A small section of the course will be devoted to grammar revisions in order to continue to improve our reading and language skills. Throughout the semester we will develop our writing skills in French. Conducted in French

Requirements/Evaluation: class participation, online grammar exercises, 2 four-page papers, 1 class introduction, 2 low-stakes one-page response papers
Prerequisites: RLFR 104, placement exam, or by permission of instructor
Enrollment Limit: 15
Enrollment Preferences: All are welcome, but if overenrolled, preference will be given to first- and second-year students and French major and certificate students. If necessary, a statement of interest will be solicited.
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (DPE) (WS)
Writing Skills Notes: In this course students will practice writing two short structured papers in French where there will present their interpretation of literary or visual text. Students will write two response papers.
Difference, Power, and Equity Notes: In this course student will examine visual and literary texts that reframe difference, power and equity in relation to race, class, gender, ethnicity, sexuality, and religion.

RLSP 106 (S) Advanced Grammar and Composition through Literature (WS)
This course is designed for advanced students who wish to further polish and refine their grammatical, lexical, and writing skills in Spanish. The course may be taken immediately after 104, by placement exam results, or even after students have begun to sample the Department's literature and culture offerings at the 200- and 300-level. Classic works of short fiction by celebrated Latin American authors such as Gabriel García Márquez and Julio Cortázar will be discussed; selected Latin American films will be viewed as well. For written and oral assignments: weekly essays, in-class presentations, and language-laboratory activities. Conducted in Spanish.

Requirements/Evaluation: A weekly essay based on the stories read in class. Written lab exercises. Participation in the grammatical and literary discussions. Oral presentations, quizzes, a mid-term exam, and a final exam
Prerequisites: RLSP 104, any course 201+, placement exam or permission of instructor
Enrollment Limit: 12
Enrollment Preferences: In the event of over-enrollment, preference will be given to sophomores.
Expected Class Size: 12
Grading: yes pass/fail option, yes fifth course option
Distributions: (D1) (WS)
Writing Skills Notes: Weekly essays, corrected for both language and content. Constant feedback from instructor. Students will be required to revise and rewrite their graded essays.
Spring 2025

RLSP 202  (S)  Introduction to the Analysis of Literature in Spanish  (WS)
This course is intended for students who are considering a major in Spanish, including those who have recently completed RLSP 105, 107, 200, 201 or 209. Using a textbook, Aproximaciones al estudio de la literatura hispánica, we will study the fundamentals of genre analysis while reading selected works of prose, poetry, and drama from Latin America and Spain. In addition to studying the principles and techniques of literary analysis, this course will continue to develop your speaking, writing, and reading comprehension skills with a particular emphasis on composition. Conducted in Spanish.

Class Format: Students are expected to be active participants at all scheduled class meetings, which will be used for discussion and collaborative analysis of literary texts as well as workshopping student writing.

Requirements/Evaluation: Graded assignments will include three essays of five pages each as well as consistent preparation and class participation.

Prerequisites: RLSP 105, 107, 200, 209, or placement exam results indicating readiness for a 200-level course

Enrollment Limit: 20

Enrollment Preferences: first- and second-year students who are considering the major in Spanish

Expected Class Size: 20

Grading: no pass/fail option,  no fifth course option

Distributions: (D1)  (WS)

Writing Skills Notes: Each student will write and revise three essays of roughly five pages each. Feedback will be provided regarding grammar, style, and argument. On Fridays we will workshop student papers.

Spring 2025

RLSP 405  (S)  Alternative American Literatures: From the Indigenous Chronicle to the Latin American & Chic. Novel  (DPE)  (WS)
Do the Americas have a common literature? If so, is it possible to trace their roots and continuity from the colonial era to the present? Literary critic Martin Lienhard suggests that it is indeed possible to trace the origin of a literature common to Latin America from the colonial era and into present by focusing on what he calls "alternative literatures"—literatures that relativize the importance of Europeanized and Creole literatures and valorize the richness of oral traditions in the Americas. Such literatures, he asserts, are closely tied to marginalized sectors of society. In this course, we will take Lienhard's concept of "alternative literatures" as a point of departure to pursue our own examinations of how these "alternative literatures" are constituted. While the primary aim of this course is to focus on the writings of Latin American authors, we will end by exploring the relationship between "alternative" Latin American literatures and Chicana/o/x literatures. Readings will include narrative texts such as Cartas de relación, Chronicles of conquest, religious texts, indigenous annals, poetry, and drama, as well as contemporary Latin American and Chicana/o/x novels.

Requirements/Evaluation: Four essays, class presentations, active participation, and regular attendance required

Prerequisites: any 300-level RLSP course or permission of instructor

Enrollment Limit: 15

Enrollment Preferences: Senior Spanish Majors.

Expected Class Size: 15

Grading: yes pass/fail option,  no fifth course option

Distributions: (D1)  (DPE)  (WS)

Writing Skills Notes: Each student will write four 4-6 page papers on which I will provide written feedback regarding grammar, style, and argument. Each student will also provide three 2-page critiques of their partner's papers as a form of feedback. After receiving my feedback and the feedback of their peers, each student will revise each of the papers and submit a final version.

Difference, Power, and Equity Notes: This course will highlight intellectual production of indigenous peoples of the Americas under Spanish colonial
rule as well as the writings of more contemporary minority authors of Latin America. It will explore the new identities and textualities that emerge as a result of the encounter and subsequent conquest of the Americas. As such, students will gain critical skills to analyze a diversity of Spanish-American colonial texts from the 16th century as well as more contemporary narrative texts.

Spring 2025

SEM Section: 01    TF 1:10 pm - 2:25 pm    Carlos Macías Prieto

RUSS 217 (S) Indigeneity Today: Comparative Indigenous Identities in the US and Russia (DPE) (WS)

Cross-listings: ANTH 217

Secondary Cross-listing

Indigenous movements for land, rights, and cultural preservation have spread to and originated in all corners of the world. However, the global nature of these movements at times obscures ways of being Indigenous in differing contexts. This course analyzes Indigeneity in both the United States and Russia today. Through reading and analyzing ethnography, theory, and literature, it focuses on Indigenous peoples in a comparative context. Rather than prioritizing concern with Indigenous peoples emerging from the US, it attempts to demonstrate what Indigeneity has been in both the United States and Russia and what it is and means today. It asks the following questions: what is Indigeneity and who is Indigenous; how is Indigenous identity constructed and by whom; and what convergences and divergences exist in Indigeneity between the US and Russia or for that matter in other contexts? To help answer these questions, in this course we will grapple with Indigeneity as a social category and other social formations, especially ethnicity, nationality, and race. Topics include: Indigeneity and the State, Revitalization and Resurgence, Indigenous People and Nature Protection, and Hemispheric and Global Indigeneities.

Requirements/Evaluation: 10 posts to the course Glow discussion page, 3 times leading class discussion on the assigned readings, 1 short presentation, 1 extended portfolio project with regular shorter and longer writing submissions, and 1 final paper and final presentation (as the final part of the portfolio).

Prerequisites: None

Enrollment Limit: 16

Enrollment Preferences: Majors and certificate-seekers in Russian, then majors in Anthropology and Sociology, and then Global Studies concentrators

Expected Class Size: 12-15

Grading: no pass/fail option, yes fifth course option

Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

RUSS 217(D1) ANTH 217(D2)

Writing Skills Notes: This course has the following assignments: Weekly post to the Glow discussion page, 1 extended project with regular writing submissions, 1 final paper and final presentation. For the extended project, we will have instructor feedback for all project assignments. In instructor feedback, comprehension of the material and the content of the writing, improvement in writing style and clarity, and development of voice will be discussed. There will also be peer feedback/review.

Difference, Power, and Equity Notes: In the course, students will learn about Indigeneity as a context-specific social formation. It understands Indigeneity as a category of difference with past and present importance. We will read about, discuss, and write about Indigeneity as a social category, along with other social categories it arose alongside (such as race, ethnicity, and nationality), and how it has been mobilized by both those who identify as Indigenous and by those who designate others as Indigenous.

RUSS 348 (F) Altering States: Post-Soviet Paradoxes of Identity and Difference (DPE) (WS)

Cross-listings: GBST 348 / SOC 348

Secondary Cross-listing

Critics and apologists of Soviet-style socialism alike agree that the Soviet ideology was deeply egalitarian. Putting aside for a moment the very
reasonable doubts about how justified this perception actually was, it is still worth asking, how did people who lived in the world in which differences in rank, class, gender or ethnicity were not supposed to matter, make sense of their post-socialist condition, one in which new forms of difference emerged, and old ones assumed greater prominence? And how do these encounters with difference impact current events, such as Russia’s invasion of Ukraine, or the lingering tensions between East and West Germans? This tutorial will examine new dilemmas through ethnographic studies and documentary films that aim to capture in real time the process of articulating and grappling with newly discovered divides. We will focus especially closely on Ukraine and Russia, but will also read comparative studies, as well as works on East Germany and Georgia. This course fulfills the DPE requirement by exploring comparatively the ways in which people in different countries made sense of the social, cultural and political heterogeneity of the post-socialist condition.

Requirements/Evaluation: 5-page paper every other week, written comments on the partner’s paper in alternate weeks
Prerequisites: none
Enrollment Limit: 10
Enrollment Preferences: Anthropology, Sociology, and Russian majors
Expected Class Size: 10
Grading: no pass/fail option, no fifth course option
Distributions: (D1) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
GBST 348(D2) RUSS 348(D1) SOC 348(D2)

Writing Skills Notes: This is a tutorial course, with plenty of opportunities to work on writing and argumentation. Tutorial papers receive written feedback from both the instructor and the tutorial partner, and are workshopped during the tutorial meetings.

Difference, Power, and Equity Notes: Students will learn to identify and interrogate processes of social differentiation and exclusion as they take place across Russia and Eastern Europe. We will also train ourselves to identify parallels, as well as differences, between responses to the social and economic uncertainty ushered by the fall of socialism, and the discontents triggered by similar conditions closer to home.

SOC 252 (F) Im/mobilities (DPE) (WS)
Cross-listings: AMST 252 / AAS 252

Primary Cross-listing
We think of the freedom to move as a mark of privilege. In the United States, passing a driving test, owning a car, and getting a passport are milestones that signal modernity and freedom. Likewise, we think of restrictions on movement as the domain of the underprivileged, such as the current and formerly incarcerated. But as the Covid-19 pandemic revealed, there have always been two sides to immobility: privileged as well as involuntary immobility. There are correspondingly two sides to mobility: those who move because they want to and others because they have no choice. In this class, students will explore conceptions of mobility as adventurous, free, and modern (as with jet-setting international elites). They will compare and contrast when mobility can be threatening, exclusionary, and limited (as recognized by the Black Lives Matter movement). This class invites students to interpret their environment through the lens of mobility and inequality. Drawing on sociology, anthropology, cultural studies, geography, and migration studies, this interdisciplinary course offers a beginning conversation on the causes and consequences of the freedom to move—or to stay still.

Requirements/Evaluation: Thoughtful and consistent class participation, several short reflection papers, two drafts of an opinion essay, class presentation
Prerequisites: None
Enrollment Limit: 15
Enrollment Preferences: Given to first-year students and sophomores, particularly those who have demonstrated an interest in AAS/SOC. If the course overenrolls, the instructor will send out a Google Form to make enrollment decisions.
Expected Class Size: 15
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 252(D2) AAS 252(D2) SOC 252(D2)

Writing Skills Notes: Emphasis on the processes of writing and revising, several short papers on which students will receive close feedback, and drafts of a final written assessment

Difference, Power, and Equity Notes: This course explores a politics of im/mobilities: how we move through space through different bodies at the intersection of race, class, gender, ability, and citizenship. Students will use their own bodies as research sites for deepening their understanding of how we navigate the freedom to move or stay still.

STS 153 (S) Androids, Cyborgs, Selves (WS)

Cross-listings: ENGL 153

Secondary Cross-listing

In this expository writing course, we will analyze and argue about how humanoid and partly human bodies appear in legend, fiction, and film. When are these bodies inviting? When are they threatening? How are they gendered, how are they raced, and why? Which technologies fit easily into human forms, and which are resistant? What do the persons who inhabit these near-human bodies desire? Students in this course will develop arguments in reply to these and related questions, developing 3 or 4 essays through multiple stages of planning, drafting, and revising. Because this is an expository writing seminar, we will spend half or more of our class time discussing and practicing writing skills.

Requirements/Evaluation: several response papers (500 words); three or four essays (1200-1500 words, in multiple drafts); class participation

Prerequisites: none

Enrollment Limit: 12

Enrollment Preferences: See details for ENGL 100-level courses on English Department Website.

Expected Class Size: 12

Grading: no pass/fail option, no fifth course option

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

STS 153(D2) ENGL 153(D1)

Writing Skills Notes: This expository writing course is dedicated to facilitating real improvement in students' written argumentative work. Students will write and revise response papers and 5-page essays (in multiple drafts) over the course of the semester, receiving substantial instructor feedback. Students will practice: drafting, revising, and responding to critique; writing appropriately for given occasions and audiences; grounding their writing in close, analytical reading; and acknowledging sources.
STS 212 (F) Ethics and Reproductive Technologies (WS)

Cross-listings: WGSS 212 / PHIL 212

Secondary Cross-listing

In her groundbreaking book, The Tentative Pregnancy, Barbara Katz Rothman writes that "[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace--or to let us think we can replace--chance with choice." Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as "motherhood" and "parenthood," family and genetic relatedness, exploitation and commodification, and reproductive rights and society's interests in reproductive activities. Topics will range from consideration of "mundane" technologies such as contraception, abortion, in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, uterine transplants, and "artificial wombs." Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)

Prerequisites: none, but introductory-level course in PHIL and/or WGSS recommended

Enrollment Limit: 19

Enrollment Preferences: WGSS and PHIL majors (declared or prospective), PHLH and STS concentrators (declared or prospective)

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Unit Notes: meets Contemporary Value Theory requirement only if registration is under PHIL

Distributions: (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 212(D2) PHIL 212(D2) STS 212(D2)

Writing Skills Notes: Students will write periodic short papers (2-3 pages each), a midterm paper (5-7 pages) and a final paper (7-10 pages). Short papers focus on concepts, arguments, and writing skills needed in the midterm and final papers, in which students are expected to describe and evaluate arguments from assigned readings, and to present clear and effective arguments in support of their own ethical positions. Students receive feedback on all papers and have the opportunity to revise midterm and final papers.

STS 305 (F) Environmental Political Thought (WS)

Cross-listings: PSCI 305

Secondary Cross-listing

In the face of planetary crisis, it is as difficult as it is crucial to find the time and calm "to think what we are doing" (Hannah Arendt's famous line). This course aims to hold space for that thinking; to collaboratively find the presence of mind to take the measure of the doings that caused, and that may redress, the awful reality of earth's degradation. To do so, we will read, discuss, and write about some of the most significant book-length works of environmental political thought published in the last five years. These books conceptualize and intervene into the politics of phenomena such as climate change, species depletion, toxic pollution and (a special interest of the instructor) waste by applying--and sometimes reinventing--approaches from political theory, political economy, science & technology studies, philosophy, and critical theory. They consider the enmeshment of environmental problems with racism, colonialism, economic inequality, and speciesism, among other modalities of power, and weigh the promise of political action and organization to reconstitute relationships among earth's human and more-than-human elements. By interpreting, evaluating, applying and extending the arguments of these books in discussion and writing, students will be challenged to scrutinize their preconceptions and develop, support
and articulate original arguments about politics and the environment.

**Requirements/Evaluation:** Four mini-essays of 2-3 pages each; one final paper of 7-10 pages that incorporates substantially revised material from at least one mini-essay; class participation

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** Political theory concentrators, Political Science majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSCI 305(D2) STS 305(D2)

**Writing Skills Notes:** Students will discuss and fine-tune their writing processes in class and office hours. Students will be given written feedback on mini-essays, with particular attention to developing a sense of voice and purpose in written argumentation. This feedback will support their revision of at least one mini-essay as part of writing the final paper.

**Attributes:** PSCI Political Theory Courses

---

**STS 319 (S) Neuroethics (WS)**

**Cross-listings:** PSYC 319 / NSCI 319

**Secondary Cross-listing**

Neuroscience studies the brain and mind, and thereby some of the most profound aspects of human existence. In the last decade, advances in our understanding of brain function and in our ability to manipulate brain function have raised significant ethical challenges. This tutorial will explore a variety of important neuroethical questions. Potential topics will include pharmacological manipulation of "abnormal" personality; the use of "cosmetic pharmacology" to enhance cognition; the use of brain imaging to detect deception or to understand the ability, personality or vulnerability of an individual; the relationship between brain activity and consciousness; manipulation of memories; the neuroscience of morality and decision making. In addition to exploring these and other ethical issues, we will explore the basic science underlying them.

**Requirements/Evaluation:** six 5-page position papers and five 2-page response papers as well as participation in discussions

**Prerequisites:** PSYC 212 (same as BIOL 212 or NSCI 201); or permission of instructor

**Enrollment Limit:** 10

**Enrollment Preferences:** Psychology majors and Neuroscience concentrators

**Expected Class Size:** 10

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D2) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

PSYC 319(D3) STS 319(D2) NSCI 319(D3)

**Writing Skills Notes:** In alternating weeks, each student in a tutorial pair will write a 5-page essay based on the assigned readings. Essays will be discussed during tutorial meetings and written feedback from the professor will be provided for each essay. At the end of the semester, students will choose one of their prior essays to revise as their final submission. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.

Spring 2025

TUT Section: T1 TBA Noah J. Sandstrom
STS 373 (S) Technologies of Race (DPE) (WS)

Cross-listings: AMST 372 / AFR 374

Secondary Cross-listing

This course is an introduction to theories, methods, sources, and approaches for interdisciplinary research and creativity in and through the interdisciplinary field of American Studies. We will focus on the intersection of race, gender, sexuality, and disability with modern media technologies, from early photography in the mid-19th century to contemporary trends in machine learning and artificial intelligence. Through a process of shared inquiry, course participants will investigate the ways that historical legacies of oppression and futuristic speculation combine to shape human lives in the present under racial capitalism. Whether analyses of the automation of militarized border control in Texas, or of the ways that obsolete, racist concepts are embedded in machine vision and surveillance systems, the readings in the course will chart out the key moments in the co-evolution of race and technology in the Americas. Students will gain a working competence in all four tracks of the American Studies major (Space and Place; Comparative Studies in Race, Ethnicity, and Diaspora; Arts in Context; and Critical and Cultural Theory). Finally, we will also explore alternative paths toward a future where technology might help to effect the abolition of oppressive structures and systems, rather than continue to perpetuate them.

Requirements/Evaluation: Four papers, in-class writing/reflective work, and a final exam.

Prerequisites: none

Enrollment Limit: 16

Enrollment Preferences: AMST majors or prospective majors.

Expected Class Size: 16

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AMST 372(D2) STS 373(D2) AFR 374(D2)

Writing Skills Notes: Students in this course develop a capacity to write generative arguments in an interdisciplinary scholarly context. Students will receive feedback not only on structure, substance, and style, but also on how to best build a line of inquiry, how to gather high-quality evidence, and how to make one's thinking productively intersect with more than one scholarly or creative field.

Difference, Power, and Equity Notes: This course requires students to contextualize technologies historically and in relation to one another, with attention to their entanglements with racial discourses and racism. Students gain critical skills that equip them to imagine possible futures where technologies serve increasingly as abolitionist tools.

THEA 239 (F) Introduction to Dramaturgy: The Art & Practice of Storytelling (WS)

The dramaturg is a storyteller and major collaborator in theatre. Working as part of an artistic ensemble, the dramaturg helps to tell a story, shape a theatrical production, and facilitate the rewarding process of creating a world on stage. This seminar/studio course will introduce students to the fundamentals of dramaturgy, including: new play development, production research, literary management, educational outreach, criticism/journalism, community engagement, and translation/adaptation. Assignments over the term will be hands-on, practical, creative, and project-based and include independent writing, research, and oral presentation. We will write, and we will revise. We will also read plays and discuss urgent topics in the theatre industry. During some terms, students may be invited to participate as dramaturgs on Theatre Department productions. As a culminating project, students will complete a creative written adaptation and accompanying dramaturgical casebook for a source of their choosing. Students may be asked to attend live performances and exhibitions when relevant.

Class Format: This is a studio course with a strong emphasis on writing and research, both critical and creative.

Requirements/Evaluation: Assignments will be project-based and will range from making image galleries to writing program notes and an educational study guide. In-class writing and participation in class discussion is required. A major project over the term will include the formation and assembly of a dramaturgy casebook, including: research and historical summary; timeline; artist's bio; educational guide; image gallery; program note; community outreach strategy; lobby design; critical/theoretical perspective; and creative adaptation.

Prerequisites: none
THEA 266  (F)  Introduction to Playwriting  (WS)

Are you tired of the classics? Were you frustrated by casting choices in the past? Have you struggled to find a play to direct? Sometimes, you must step away from the canon and create your own work. Do you have something to say about race, gender, ethnicity, nationalism, yourself, and the Other? Do you have a story to tell? Did you ever want to write your own play but didn't know how to start? This is your chance. In this course, you will participate in a series of workshops that will lead to the writing of your first play. You will be guided through the principles of playwriting, beginning with understanding the basics: plot, character, dialog, setting, and theatricality. The mechanics of playwriting will be enhanced by a theoretical understanding of the concepts of genre, style, and aesthetics. Every week, your homework will be to write new dialogs, leading to the first draft of your first play. In class, students are expected to read each other's work aloud and, on occasion, to stage it. By the end of the semester, having brought at least one play into the world, you will not become an experienced playwright, but you will be well on your way to understanding the foundations of the craft. This course culminates with a festival of public staged readings of original student work.

Requirements/Evaluation: Participation; in-class workshops; and students are expected to write several graded drafts of two ten-minute plays and a single one-act play.

Prerequisites: None.

Enrollment Limit: 10

Enrollment Preferences: If overenrolled, preference will be given to declared Theatre majors followed by prospective Theatre majors.

Expected Class Size: 10

Grading:  yes pass/fail option,  yes fifth course option

Distributions:  (D1)  (WS)

Writing Skills Notes: This course fulfills the Writing Intensive distribution by requiring students to write for both public audiences and more internal-facing communities. Students will write several short critical pieces intended for lobby displays, programs, educational settings, and more journalistic venues. In addition, they will write and develop a short creative adaptation. All writing will receive feedback from both the instructor and class peers prior to its required revision.
**Requirements/Evaluation:** Three papers ranging from 4 to 7 pages; regular Glow posts; class participation.

**Prerequisites:** A THEA course; a 100-level ENGL course; a score of 5 on the AP Literature exam or a 6 or 7 on the IB exam; or permission of instructor.

**Enrollment Limit:** 18

**Enrollment Preferences:** Theatre and English majors or prospective majors

**Expected Class Size:** 18

**Grading:** no pass/fail option, no fifth course option

**Distributions:** (D1) (WS)

**This course is cross-listed and the prefixes carry the following divisional credit:**
ENGL 345(D1) THEA 340(D1) COMP 343(D1)

**Writing Skills Notes:** Three papers rising from 4 to 6+ pages; regular discussion board postings and several short response papers. Students will receive substantive feedback on their writing, and there will be opportunities for revision.

**Attributes:** ENGL Literary Histories A

---

**WGSS 101** *(F)(S)* **Introduction to Women's, Gender & Sexuality Studies** *(DPE) (WS)*

This course is designed to initiate you into the pleasures, pains and perplexities of critical thinking about gender and the situations of women across the globe. We will survey a wide variety of writers and issues—historical and contemporary, theoretical and practical. Above all, the course is intended as an exploration of the tremendous diversity of thought contained under the general rubrics of feminist and gender studies and a vehicle for developing skills in writing and research as well as analytical tools for further work in the field. The goal is not to bring about a specific point of view, but rather to learn to analyze issues critically using the methods and frameworks that feminist theory and queer theory have developed as academic disciplines.

**Class Format:** Mix of lectures and seminars

**Requirements/Evaluation:** Participation during class and in online forums, weekly reading responses, two short essays with revisions, and a final research paper

**Prerequisites:** none

**Enrollment Limit:** 19

**Enrollment Preferences:** WGSS majors and potential WGSS majors

**Expected Class Size:** 19

**Grading:** yes pass/fail option, yes fifth course option

**Unit Notes:** required course for the Women's, Gender and Sexuality Studies major

**Distributions:** (D2) (DPE) (WS)

**Writing Skills Notes:** This course requires significant attention to the craft of writing. Essential to this craft is the process of editing and rewriting materials with feedback from peers and professors. Students are expected to focus on improving analytical skills, critical thinking, and argumentation through attention to the writing process. They are also expected to give meaningful critical feedback on the writing of their peers.

**Difference, Power, and Equity Notes:** This course meets the DPE requirement because it asks students to reflect critically on issues of gender and sexuality around the world in a comparative contextual framework. Students will be asked in seminar space to discuss the operation of difference and power within as well as across different gender, class, racial, and sexual identities while learning in lecture meetings about feminist and queer studies' history, activism, and theory.

WGSS 105  (F)  American Girlhoods  (DPE) (WS)
Cross-listings:  ENGL 105
Secondary Cross-listing
The image of the girl has captivated North American writers, commentators, artists, and creators of popular culture for at least the last two centuries. What metaphors, styles of writing, ideas of "manners and morals" does literature about girls explore? What larger cultural and aesthetic concerns are girls made to represent? And how is girlhood articulated alongside and/or intertwined with other identities and identifications, such as race, ethnicity, class, and sexuality? These are some of the issues we will explore in this course.

Requirements/Evaluation: at least 20 pages of writing; short, more informal writing assignments; GLOW posts; class participation
Prerequisites: none
Enrollment Limit: 19
Enrollment Preferences: first-year students who do not have a 5 on the AP and/or have not previously taken a 100-level English class
Expected Class Size: 19
Grading: no pass/fail option, no fifth course option
Distributions: (D2) (DPE) (WS)
This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 105(D2)  ENGL 105(D1)
Writing Skills Notes: Students do at least 20 pages of writing (4-5 papers) and are required to revise several papers. We also devote significant class time to talking about successful academic writing. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
Difference, Power, and Equity Notes: This course considers the construction of girlhood in the United States along the axes of race, gender, sexuality, class and more, and the literary history of who, in various moments in America, has even been allowed to claim the privileges of and/or be burdened with the idea of being a girl. It examines how girlhood is represented in relation to (in)equity and power and what kinds of literary and cultural forms writers utilize to illuminate these differences.

Fall 2024
SEM Section: 01  TF 2:35 pm - 3:50 pm  Kathryn R. Kent

WGSS 113  (F)  The Feminist Poetry Movement  (DPE) (WS)
Cross-listings:  AMST 113 / ENGL 113
Secondary Cross-listing
Feminist poetry and feminist politics were so integrated in the 1960s and 1970s in America that critical essays on poets, such as Adrienne Rich and Audre Lorde, appeared in the same handbook that listed such resources for women as rape crisis centers and health clinics. This course will map the crucial alliance between feminist politics (and its major cultural and political gains) and the feminist poetry movement that became a major "tool" for building, organizing, and theorizing second-wave feminism. In order to track this political and poetic revolution, we will take an interdisciplinary approach that brings together historical, critical, and literary documents (including archival ones) and visual products (through the Object Lab of the Williams College Art Museum) that recreate the rich context of the period and help us consider the important social nature of aesthetic production. At the center of the course will be writings of major poets of the period, as well as anthologies and feminist periodicals that published their work and created a significant forum and shared space for women to articulate the politics and poetics of change. These periodicals and anthologies will also help us track the diversity of the feminist poetry movement and its intersection with issues of race, class, ethnicity, and sexuality. Ultimately, we will want to consider how poetry serves as an important tool for thinking through questions of power and injustice and what role it plays in creating necessary imaginative space in the world for expression, critique, and change.
Class Format: discussion, some lecture, project work in archives and art gallery
Requirements/Evaluation: two-three short analysis papers, creative (1-2 pages), curated final project (archival exhibit and digital project), presentations

Prerequisites: none

Enrollment Limit: 19

Enrollment Preferences: first years

Expected Class Size: 19

Grading: yes pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AMST 113(D2) ENGL 113(D1) WGSS 113(D2)

Writing Skills Notes: Writing skills taught through a series of assignments evenly spaced throughout the semester: two to three four-to-five-page graded papers, one creative assignment, and a final digital research project (8-10-page equivalent; peer reviewed). Students receive critical feedback on written assignments a week prior to due date through conferences and Google Docs and on final graded assignments within one week with sufficient time between assignments to improve the next assignment.

Difference, Power, and Equity Notes: The course examines the effects of class, race, ethnicity, gender, and sexuality on both poetry and the movement and how women negotiated their differences within the movement, as well as in response to the dominant patriarchal culture. This course employs critical tools (feminist theory, archival research, poetics, close reading, comparative approaches) to help students question and articulate the social injustices that led to the poetry and poetics of the Women's Liberation Movement.

WGSS 152 (F)(S) The Fourteenth Amendment and the Meanings of Equality (DPE) (WS)

Cross-listing: HIST 152

Secondary Cross-listing

For more than 150 years, the 14th Amendment of the U.S. Constitution has served as the principal touchstone for legal debates over the meaning of equality and freedom in the United States. This course explores the origins of the 14th Amendment in the years immediately following the Civil War, and examines the evolution of that amendment's meaning in the century that followed. Central themes in this course include the contested interpretations of "birthright citizenship," "due process," "privileges and immunities," "equal protection," and "life, liberty or property"; the rise, fall, and rebirth of substantive due process; battles over incorporating the Bill of Rights into the 14th Amendment; and the changing promise and experience of citizenship. We will pay particular attention to how arguments about the 14th Amendment have shaped and been shaped by the changing meanings of racial and gender equality.

Requirements/Evaluation: a series of short (3-page) response papers; and a final 10-12 page research paper

Prerequisites: first-year or sophomore standing; juniors or seniors with permission of instructor

Enrollment Limit: 19

Enrollment Preferences: given first to sophomores who have been dropped from this class previously, then to first-years, then to sophomores who have not been dropped previously

Expected Class Size: 15-19

Grading: no pass/fail option, yes fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
WGSS 152(D2) HIST 152(D2)

Writing Skills Notes: Students will write three short (3-page) response papers to the readings in the first part of the semester, and will also write a substantial (10- to 12-page) research paper. In preparation for the research paper, students will write proposals, develop bibliographies, write outlines and drafts, and do peer critiques. Students will receive from the instructor timely comments on their writing skills, with suggestions for improvement.
Difference, Power, and Equity Notes: This course satisfies the DPE requirement because it examines the legal, social, and political constructions and theorizations of difference, power, and equity. It examines the ways that individuals and groups have organized across various axes of difference to fight for legal equality, and explores how those individuals and groups have experienced legal equality and legal inequality in varied ways.

WGSS 212 (F) Ethics and Reproductive Technologies (WS)

Cross-listings: PHIL 212 / STS 212

Secondary Cross-listing
In her groundbreaking book, The Tentative Pregnancy, Barbara Katz Rothman writes that "[t]he technological revolution in reproduction is forcing us to confront the very meaning of motherhood, to examine the nature and origins of the mother-child bond, and to replace--or to let us think we can replace--chance with choice." Taking this as our starting point, in this course we will examine a number of conceptual and ethical issues in the use and development of technologies related to human reproduction, drawing out their implications for such core concepts as "motherhood" and "parenthood," family and genetic relatedness, exploitation and commodification, and reproductive rights and society's interests in reproductive activities. Topics will range from consideration of "mundane" technologies such as contraception, abortion, in vitro fertilization (IVF), prenatal genetic screening and testing, and surrogacy, to the more extraordinary, possibly including pre-implantation genetic diagnosis (PGD), post-menopausal reproduction, uterine transplants, and "artificial wombs." Background readings include sources rooted in traditional modes of bioethical analysis as well as those incorporating feminist approaches.

Class Format: discussion

Requirements/Evaluation: active participation in class discussions, three or four short reflection papers, and two longer papers (5-7 and 7-10 pages)

Prerequisites: none, but introductory-level course in PHIL and/or WGSS recommended

Enrollment Limit: 19

Enrollment Preferences: WGSS and PHIL majors (declared or prospective), PHLH and STS concentrators (declared or prospective)

WGSS 284 (F) From the Battlefield to the Hermit's Cell: Art and Experience in Norman Europe (WS)

Cross-listings: REL 284 / ARTH 218

Secondary Cross-listing
This tutorial provides students with the chance to investigate in-depth three of the most astonishing works of art created during the entire Middle Ages:
the Bayeux Tapestry (c.1077-1082), the Cappella Palatina (c.1130s-1166), and the Psalter of Christina of Markyate (1120s-1160s). Created within a
hundred years of each other all within territories controlled by the Normans—a warrior dynasty that settled in northern France in the 10th century and
then expanded north into England and south into Italy in the 11th and 12th centuries—each of these works is unprecedentedly ambitious in scale,
dazzling in its material properties, and survives in its original wholeness, a rarity in the medieval world. Despite these similarities, however, each work
is very different from the other two and so sheds light on very different aspects of Norman experience, across Europe. The Bayeux Tapestry, likely
made by female embroiderers for a baronial hall, is a giant textile (over 70 meters long) that in gruesome and fascinating detail tells the story of the
Norman invasion of England by William the Conqueror in 1066. The Cappella Palatina in Palermo, in turn, commissioned by King Roger II, is a royal
chapel covered in sumptuous mosaics that reveals through its decoration and ritual the dynamic interaction of Islamic, Byzantine, and Latin Christian
traditions in the multicultural Norman kingdom of Sicily in the 12th century. And the Psalter of Christina of Markyate, a large prayerbook made for the
use of a female recluse in southern England, contains 40 full-page paintings and 215 decorated initials, a vast and inventive program of imagery that
through its creative profundity helped reshape private devotional art and culture for centuries to come. Through their variety, then, these three
objects—an embroidery, a building, and a book—give students insight into the rich array of concerns and aspirations, from the political to the spiritual
and from the public to the private, that gave substance and meaning to 11th- and 12th-century European life, for women as well as men. What is more,
these three remarkable works of art have been the focus of much interesting scholarship in recent years, so an exploration of some of that literature
provides a compelling introduction to the discipline of art history itself, past and present.

Requirements/Evaluation: Participation in discussion; five 4-5-page tutorial papers; five 1-2-page response papers.

Prerequisites: None

Enrollment Limit: 10

Expected Class Size: 10

Grading: no pass/fail option, no fifth course option

TUT Section: T1 TBA Peter D. Low

WGSS 306 (F) Queer in Asian America (DPE) (WS)

Cross-listings: AAS 304 / AMST 304

Secondary Cross-listing

Asian America has always been queer. This is both to say that, since the first waves of Asian immigrants to the Americas, there have always been
queer individuals counted among them, and that the Asian American subject has historically figured as "queer" and "different" within the Western
cultural, social, and economic landscape. How does queerness resonate, redound, or otherwise modulate the idea and experience of Asian
Americanness? What are the textures and contours of this queerness? Does it have an aesthetic and literary dimension? This course surveys a range
of scholarship and literature by queer and feminist Asian Americans that explore the interpenetrations of race, gender, and sexuality in the construction
of Asian America and Asian American identity. Particular focus is paid to how Asian American artists and writers actualize queer subjectivity, relation,
and intimacy across experiments in narrative, form, and media. The class will move between foundational scholarship at the intersections of Asian
American studies, queer studies, and gender and sexuality studies alongside key works of art and literature. Potential artists and writers include Ocean
Vuong, Justin Chin, Larissa Lai, Monique Truong, Alok Vaid-Menon, TT Takemoto, Jes Fan, and Leonard Suryajaya. Students will also have the
opportunity to contribute their own selection of art and literature to the class conversation.

Requirements/Evaluation: In-class participation, two critical response papers, discussion posts, creative or scholarly written final assignment

Prerequisites: None

Enrollment Limit: 19
Enrollment Preferences: AMST and WGSS majors, AAS concentrators, or students interested in majoring/concentrating in these areas.

Expected Class Size: 19

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 304(D2) WGSS 306(D2) AMST 304(D2)

Writing Skills Notes: Students will write two, 3-4 page critical response papers: one will focus on analyzing, critiquing, and synthesizing scholarly texts to advance an original argument on course topics and another will focus on analyzing a literary or artistic work of the student's choosing. The final consists of a longer paper of scholarly or creative writing that engages course topics. Assignments will emphasize close reading skills and will be receive written feedback from the instructor.

Difference, Power, and Equity Notes: This course examines gender and sexuality in Asian American racial formation and identity through the work of queer Asian American art, scholarship, and literature. Students will thus focus on how queerness/queer identity is constructed, embodied, and differently experienced in Asian America in dialogue with histories of immigration, Orientalism, assimilation, and exclusion.

WGSS 402 (F) Marxist Feminisms: Race, Performance, Labor (DPE) (WS)

Cross-listings: AAS 402 / AMST 402

Secondary Cross-listing

This seminar provides an overview of queer, black and women of color feminist, decolonial, and critical ethnic studies critiques of orthodox Marxism. Beginning with core texts from the tradition, including Capital Volume I, we will examine a range of social positions and modes of extraction that complicate Marx's emphasis on the white male industrial factory worker. Every week, we will focus on texts that foreground conditions of reproduction, racial slavery, care and domestic work, indentured servitude, immigrant labor, land expropriation, and sex work among others. Throughout the seminar and specifically at the close of it, we will turn to critical perspectives and aesthetic practices that not only respond to these conditions but also incite new social relations and ways of being in the world. As such, this seminar will equip students with critical understandings of how racial capitalism has fundamentally relied on the mass elimination, capture, recruitment, and displacement of different racialized, gendered, and abled bodies in and beyond the U.S. as well as how the capitalist system of value and life under these conditions can and must be undone and reimagined.

Requirements/Evaluation: in-class participation, presentation, weekly posts, paper, and final project (paper, community resource distribution proposal, and creative project options)

Prerequisites: AMST 101, AMST/AAS 125, or similar courses

Enrollment Limit: 12

Enrollment Preferences: AMST and WGSS juniors and seniors, AAS concentrators

Expected Class Size: 12

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:
AAS 402(D2) WGSS 402(D2) AMST 402(D2)

Writing Skills Notes: In addition to weekly posts, students will engage a longer process of writing and sharing a presentation paper with the class, give/receive feedback, and submit a revised paper.

Difference, Power, and Equity Notes: This course satisfies the DPE requirement as it explores difference, power, and equity by asking how racial, gendered, sexual, and class differences are produced, whose voices are centered and whose are excluded, and what forms of labor are valued/devalued over others.

Attributes: AAS Capstone AMST Comp Studies in Race, Ethnicity, Diaspora AMST Critical and Cultural Theory Electives AMST 400-level Senior Seminars WGSS Theory Courses
WGSS 418 (S) Racial Melancholia, Queer Melancholia (DPE) (WS)

Cross-listings: AMST 415 / AAS 415

Secondary Cross-listing

The psychoanalytic theory of melancholia—the ways in which one refuses to fully let go of that which one has lost—is a foundational concept to the fields of ethnic studies, queer theory, and cultural studies. In the wake of losses due variously to histories of forced migration and slavery, the AIDS epidemic, war, and social exclusion, various scholars and critics have posited melancholia as a structuring condition of contemporary life as subjects differently navigate loss, displacement, and exclusion. Theories of racial and queer melancholia have emerged as supple frameworks through which to consider how queer and racialized subjects hold onto non-normative ways of being, relation, and sociality against the normalizing tides of erasure. We will chart out a connection between how we relate to and apprehend the past as it then pertains to how we relate to and apprehend others. Beginning with a dive into Freudian psychoanalysis, this seminar will explore concepts of loss and melancholia and their uptake into critical theory, critical race theory, and queer theory/queer of color critique. Alongside our scholarly inquiries, we will engage with a range of art, literature, performance, and film that explore topics of memory, trauma, migration, the queer past and the queer future, subjectivity, relationality, and gender and sexuality.

Requirements/Evaluation: In-class participation, discussion posts, short analysis papers, and a final paper that engages original research and/or creative work.

Prerequisites: None

Enrollment Limit: 15

Enrollment Preferences: AMST, WGSS majors, AAS concentrators or students interested in majoring/concentrating in these areas.

Expected Class Size: 15

Grading: yes pass/fail option, no fifth course option

Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 418(D2) AMST 415(D2) AAS 415(D2)

Writing Skills Notes: Students will produce a number of written assignments that assess their analysis, critique, and interpretation of critical texts and artistic works. This includes regular discussion posts, paper presentations, and a final essay that will receive peer and instructor feedback.

Difference, Power, and Equity Notes: This course engages with a major topic of concern—the theory of melancholia—across a number of fields including ethnic studies, women's, gender, and sexuality studies, and critical theory. In particular, attention is paid to the function of loss, dispossession, and displacement as it affects individuals and communities who are differently marginalized by colonialism, racial capitalism, and heteronormativity.

WGSS 428 (S) Relationality and Its Antagonisms (DPE) (WS)

Cross-listings: AFR 396 / AMST 428

Secondary Cross-listing

Relationality has been the defining approach, feature, and framework of ethnic studies since its inception in the late 1960s. Since then, notable scholars have applied multiple keywords, including difference, comparison, entanglements, cacophonies, and intimacies, to emphasize how processes of racialization and racial formation are not isolated and separate but inextricably linked and shaped by one another. Only from these distinct, uneven, yet shared positions of oppression, as scholars argue, solidarity across race, gender, class, sexuality, and location may emerge. At its crux, this seminar will underscore major tensions and antagonisms against frameworks of relationality. Tracing primary sources, cultural expressions, and literature within the traditions of ethnic studies and transnational/women of color feminisms, it will trace the shifts in approaches to relationality, especially as it relates to practices of reciprocity and community-building across difference. At the same time, it will turn to works that name relationality as what Frank B. Wilderson calls a "ruse," or trick, that subsumes the specific, exceptional position of blackness. Our units will include discussions of Afro-Pessimism, indigeneity, racialized settler colonialism as well as queer theory debates on queer presentism (i.e., a queer "no
future”) versus queer futurity. Studying the tensions that emerge from multiple, distinct, and contradictory planes of power, oppression, and
temporalities, how do we assess, work through, and reconcile, if at all, relations deemed as “irreconcilable” across vectors of difference?

**Requirements/Evaluation:** in-class participation, paper presentation, peer feedback, writing webs (short series of writing exercises), and final project
developed from original research and/or creative work

**Prerequisites:** AMST 101 or WGSS 101

**Enrollment Limit:** 12

**Enrollment Preferences:** AMST and WGSS seniors and juniors

**Expected Class Size:** 12

**Grading:** yes pass/fail option, no fifth course option

**Distributions:** (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

AFR 396(D2) AMST 428(D2) WGSS 428(D2)

**Writing Skills Notes:** Students will regularly engage in a series of writing exercises and submit a longer paper presentation that will be peer reviewed
and revised.

**Difference, Power, and Equity Notes:** The main objective of the course is to study and assess ethnic studies' approaches to questions of difference, particularly as it relates to theories of racialization and relationality across multiple nodes of power and oppression.

**WGSS 475 (S) Dreaming Latina/x Feminist Disability Studies** (DPE) (WS)

**Cross-listings:** LATS 475 / AMST 413

**Secondary Cross-listing**

In this course we will defy the traditional notion that disabled and queer people of color have no right to future dreams, as we collectively imagine how
the emergent field of Latina/x feminist disability studies might take shape. What are the sites of focus, methods, and political commitments of Latina/x
feminist disability studies? Where is the power in meaningfully uniting an analysis of disability to one of sexuality and gendered Latinidad? How does a
Latina/x-centric approach productively inform our understanding of disability? What is the political potential of Latina/x feminist disability studies -- not
exclusively as a set of theories, but also as a mindset and an everyday call to action? If we were to collectively compose a manifesto for Latina/x
feminist disability studies, what might it contain? How might we actively cultivate a community of care in the classroom as well as other spaces at
Williams? Just what might Latina/x feminist disability justice dreams look like? How might Latina/x feminist disability justice dreams feel? Feminist,
queer, and disabled crip-of-color scholars have recently called for a more meaningful engagement with race in feminist disability studies.

Simultaneously, we have also witnessed a small but steady growth in the amount of Latinx studies scholarship that thoughtfully integrates questions of
disability. This interdisciplinary course responds to these important shifts in its focus on a series of topics bridging Latinx studies, gender studies,
queer studies, crip studies, and critical disability studies. These include but are not limited to the body, the environment, temporality, labor, citizenship,
dependency, and visibility/invisibility. Through these topics, we will explore the ways in which the different approaches to these specific issues across
Latinx, critical disability, crip, queer and gender studies are in fruitful conversation with one another -- and sometimes even at odds -- as we actively
interrogate the intersections of gender, race, ethnicity, sexuality, and disability within the everyday.

**Requirements/Evaluation:** Major assignments for this course include a semester-long independent research paper (15-20 pages) broken up into
steps, participation in crafting the class manifesto, a semester-long collaborative artistic exercise, and a final reflection document (3-4 pages).

**Prerequisites:** None.

**Enrollment Limit:** 12

**Enrollment Preferences:** Priority given to LATS concentrators by seniority, followed by WGSS and AMST majors by seniority.

**Expected Class Size:** 12

**Grading:** no pass/fail option, no fifth course option

**Materials/Lab Fee:** Lab fee: $200 for art supplies per student
Distributions: (D2) (DPE) (WS)

This course is cross-listed and the prefixes carry the following divisional credit:

WGSS 475(D2) LATS 475(D2) AMST 413(D2)

Writing Skills Notes: We focus on building writing and interdisciplinary research skills, with a particular emphasis on the processes of research, revision, and collaborative writing. The primary research paper (an independent project of 15-20 pages) is divided into stages, and students are required to revise and resubmit their work at various junctures in the research process. The written class manifesto requires students to compose a document together, revising their work as a group over the course of the semester.

Difference, Power, and Equity Notes: This course privileges an intersectional analysis regarding questions of race, ethnicity, gender, sexuality, and disability. It obligates students to consider how these categories of difference actively work in tandem with one another in everyday US Latina/x and transnational (US-Latin America and the Caribbean) contexts. This seminar also underscores how these categories of difference are actually products of a given historical and political moment.
